BECKER WILL DIE STILL PROTESTING HIS INNOCENCE

PRISONER GIVES OUT LETTER TO WHITMAN IN WHICH HE REITERATES HIS COMPLETE INNOCENCE IN MURDER OF HERMAN ROSENTHAL.

Ossining, N.Y., July 29.—The last hope of Charles Becker died when he was told early in the evening that his wife had failed to move Governor Whitman to grant him a reprieve. This, Mrs. Becker asked the Governor at a conference she had with him at Poughkeepsie. Failing in her mission, she motored here to break the news to her husband, but it had already reached him before she arrived. Almost at the moment the news was received the prisoner gave out a letter he had written to Governor Whitman, in which he attacked the executive for having, as he indicated, given to the newspapers statements which cast a "foul aspersion on my character" and for which he demanded a retraction. In this letter the former police lieutenant again reiterated his innocence of the crime for which he has been twice convicted.

"To these charges and to all others, I answer," the letter read, "by repeating solemnly, on the brink of the world to which you are sending me before my time, what was my constant answer while in the world: I am innocent as you, of having murdered Herman Rosenthal, or having counselled, procured or aided his murder, or having any knowledge of that dreadful crime."

The alleged statements which Becker referred to as having been credited to the Governor, were that he had offered to plead guilty of murder in the second degree; that, quoting from Becker's letter, he "had offered to give testimony against several persons (whose names are undisclosed) of having shared with me in collecting money from the law breakers," that he had sent counsel to two men arrested for complicity in the Rosenthal murder, and that "with a cruelty almost inconceivable it is stated that my first wife died under circumstances warranting suspicion that I had caused her death."

Becker explained the death of his first wife by declaring that she had died of "hasty consumption" and that no breath of suspicion had ever been raised against him in that connection. "Mark well, sir, these words of mine," the letter concluded, "when your power passes, then the truth of Rosenthal's murder will become known. But not while your nominees remain District-Attorney and can hold the club over these persons. With the aid of judges who were misled into misconceiving the testimony offered in my trial and into misstriving it both to the jury and on appeal you have proved yourself able to destroy my life. But, believe me, I will surrender it without rancor. Not all the judges in this State, nor in this country, nor the Governor of this State, nor the District-Attorney, nor all of them combined, can destroy permanently the character of an innocent man."

The letter was mailed to Governor Whitman tonight. The statements which it elicited appeared in the morning papers which were sent to his cell shortly after he arose at 6 a.m. to spend what were to be the last 24 hours of his life. He had, the night before, received the news that his application for a new trial had been denied by Justice Ford in New York, but had slept well nevertheless. He ate his usual morning meal. Then he was taken to the prison barber for the usual hair-clipping which is given to prisoners who are to go to the

FOREST FIRES AT CHICOUTIMI

DAMAGE CAUSED TO LIMITS NEAR THE ANSE ST. JEAN.

News reaches here from Chicoutimi that devastating forest fires have swept through the limits of the St. Simeon Lumber Company, where lumbering operations have been going on actively since the month of April. Some 200 men were employed with 60 odd horses. The men and horses were saved with difficulty while the camps and provisions were destroyed. The fire also communicated with the limits of Price Bros. Ltd., causing a great deal of damage.

electric chair. After a bath, his clothes were changed for the "death suit" of black, and he was taken back to his cell. He found that all his personal belongings had been removed. Becker, however, obtained paper and began the preparation of his statement, finishing the first draft about noon. Meantime at the suggestion of Rev. Father William E. Cashin, the prison chaplain, his attorneys, Bourke Cochran and Martin T. Mantou, were summoned from New York. They went to the cell and read the statement. Neither would discuss its contents when they came out.

"All I can say is that the statement is not legal matter," said Mr. Cochran. Rev. Father James Curry, of New York, who has been Becker's spiritual adviser, ever since his first conviction, was one of the doomed man's visitors during the day. He left him a prayer book and testament, marked with consoling passages which the prisoner promised to read.

Late in the afternoon his two brothers, Jackson and John Becker, and his widowed sister, Mrs. Katherine Geugh, visited him and remained with him in his cell long after his evening meal, which, though light, Becker ate with apparently his normal appetite. Tonight Becker seemed coldly resigned to his fate. The prison officials reported that while he awaited the arrival of his wife somewhat impatiently, his composure was remarkable.

Becker was to be followed in the death chair by Samuel Haynes, a negro murderer, who killed a woman in Petterson, Putnam County, N.Y. Father Curry was to hear Becker's spiritual confession at 4 a.m. and gave him the Catholic Communion. At 5.40 he was to be taken to the execution chamber.

As the night wore on Mrs. Becker had not arrived and no word had been received at the prison as to her whereabouts. Becker meantime was growing nervous in his cell.

"I wonder what's keeping my wife," he repeated, according to information that came from the death house.

THE EVACUATION OF WARSAW AND WHOLE OF POLISH SALIENT IS INDICATED BY DESPATCHES

This Decision, However, Would Come As A Surprise After The Splendid Resistance Which The Russians Have Been Offering Of Late—"Strategic Retreat" Seems To Be The Order Of The Day—Politics Versus Strategy—Emperor William Plans State Entry Into This City

London, July 29.—The probable evacuation of Warsaw and the whole Polish salient by the Russians is indicated in despatches received from Petrograd today. This decision would come as a surprise to all outside the inner councils of the Russian General Staff, as the splendid resistance which the Russians have been offering, apparently with considerable success, to the German efforts to encircle the city were believed to be evidence of Grand Duke Nicholas' intention to fight it out with Germany.

It is pointed out, however, by the Russian military critics, after conversations with "competent military authorities" that until the army is properly equipped to oppose the perfect Austro-German machine the sensible thing to do would be to avoid battle and withdraw until the armies are equipped and in a condition to take an aggressive offensive and drive the enemy from Russian soil.

Politics, rather than strategy, decided the Russians to advance into East Prussia and Galicia, it is explained by the critics, and while in doing so they rendered great service to the western allies and inflicted terrible losses on both Austrians and Germans they may now give up all and more than they gained.

It is anticipated by the Petrograd papers that the whole country evacuated will be denuded of resources which might prove valuable to the Germans, as has been done in most of the territory heretofore given up.

The capture of Warsaw naturally would be made the occasion for great celebrations in Germany, and it is reported that Emperor William has arranged to make a state entry into the city, accompanied by the Empress. The Empress has been on a visit to Field Marshal Von Hindenburg's headquarters at Allenstein, East Prussia, and left there yesterday with the Crown Princess Cecile for Neidenburg, which is across the Polish border.

In the meantime fighting of the greatest intensity continues around the Polish triangle, and as Berlin claims no important success, except the repulse of Russian attacks, it is presumed that the Russians are holding off the Austro-Germans.

In the west there has been little happening beyond the usual bombardments and sapping, mining and bombing operations.

London, July 30.—3:07 a.m.—The correspondent of the Times at Warsaw, telegraphing under date of last Sunday night, says:

"It is not believed that there will be any fighting in the vicinity of Warsaw, and probably only a rearguard action between here and the new line."

"The post office moved today."

London, July 30.—3:03 a.m.—A Warsaw despatch to the Times dated Sunday, says:

"The general news today is unsatisfactory. It is reported that the Germans have crossed the Narew and dug themselves in. The enemy were at no great distance to the south last night."

"The sky is alight with the reflection from burning villages, and today even the most optimistic are of the opinion that it is a question of days only before Warsaw is evacuated by the entire army."

"The loss of Warsaw will undoubtedly be an important blow morally, and it would be stupid to minimize its encouraging effect upon the enemy, but it would be equally unwise to exaggerate its effect on the cause of the Allies as a whole."

"The fundamental question now is the preservation of the Russian army intact and undemoralized as a fighting unit. It has become approximately impossible for Russia to remain strong and well supplied on all fronts from the Baltic to Bukovina."

"The Austrians, though lacking virility, are still sufficiently strong at all points to prevent Russia from shifting troops to the points attacked. The Germans therefore are able to concentrate an attack against any selected point with overwhelming superiority in ammunition and troops."

"After nearly three months of continuous resistance the Russian line now takes great risk in offering an opportunity to the Germans to break it and endanger the army. The best opinion here is that the evacuation of Warsaw is infinitely better than risking disaster by holding the city."

TURKS WERE DRIVEN BACK TWENTY-FIVE MILES

GENERAL SIR JOHN NIXON'S FORCES IN ASIATIC TURKEY WIN A NOTABLE SUCCESS CAPTURING MANY MEN AND MUCH AMMUNITION.

London, July 29.—An official communication made public here this evening, says:

"General Sir John Nixon reports as a result of an action the 24th of July, near Nasiriyeh (Asiatic Turkey), the disorganized Turkish forces retreated northward more than 25 miles."

"The enemy's casualties in killed, wounded or prisoners amounted approximately 2,500 men, the prisoners including 441 officers and 600 men, of whom some 200 were wounded. Our captures of arms and material included one 40-pounder gun, 12 field and 2

mountain guns, several machine guns, 1,000 rounds of artillery and 300,000 rounds of small arm ammunition and explosives and bombs and other miscellaneous ordnance stores.

"Our casualties numbered 364 men, as follows: British officers, killed, 5; and wounded, 20; other ranks, killed, 447; wounded, 143 and missing 30; Indian officers, killed, 4; wounded, 7; other ranks, killed, 45; wounded, 257, and six missing."

"The evacuation of the sick and wounded from Nasiriyeh has commenced."

LIST OF ARRESTS MADE ON CHARGES OF ESPIONAGE

BRITISH OFFICIAL STATEMENT GIVES SOME DETAILS OF SPYING.

London, July 29.—A British official statement dealing with the question of espionage, was issued tonight, reading as follows:—

"In addition to the five persons whose conviction for espionage has already been announced, the authorities have arrested at various times recently the following alleged German agents:

"(A).—A Dutch subject.

"(B).—A Dutch subject. Recently tried by court martial for attempting to communicate information regarding the fleet; findings and sentence not yet promulgated.

"(C).—A German with a forged American passport.

"(D).—A woman of German origin, married to a naturalized British subject of Prussian birth, from whom she is separated.

"(E).—A Brazilian of German origin.

"(F).—A native of Uruguay, of German origin.

"(G).—A Peruvian of suspected German origin.

"(H).—A Swede.

"(I).—A German; claims to be a naturalized American.

"(J).—A British subject.

"Of the above, A, C, H, and I, since their arrest, have made a full confession of their mission. They will all be charged with attempting to collect and communicate to the enemy information regarding the fleet and military forces with the intention of assisting the enemy or committing an act preparatory thereto.

"The trials will be in camera. It is not desirable in the public interest to give further details, but it may be stated that as far as is known none of these persons has been in this country longer than three weeks at the time of arrest. Owing to certain measures adopted by the authorities their activities were cut short in their early stages."

AMERICANS LOSING PATIENCE

The American people, the genuine Americans, are losing patience with the insolent pro-German propaganda in the United States which is being carried to the point of downright sedition.

CHEERFUL TOMMY.

With the significant lack of news as to the movements of British troops there is a similar feeling of uncertainty as to what turn events are likely to take on the western front in the next month or two.

It is refreshing to hear, therefore, from the lips of men who have actually come out of the thick of the fight that there is a prospect of the British advance being considerably accelerated in the near future.

For some reason, not quite clear, the coming of spring brought with it the expectation of a great forward move—drive was the word used by the war writers—but apparently these speculations were a trifle premature, and the French generalissimo has been steadily continuing his tactics of inducing the Germans to attack various points so that they might be made to suffer heavy loss, which in turn, of course, means a further drain on their resources of men.

But the latest correspondence from the Old Country speaks of interviews with veterans who are highly confident and expectant of something big before the autumn leaves begin to fall, and a quotation from the men themselves may prove reassuring at this time:

"A sergeant of the Royal Garrison Artillery who has been through the whole campaign, being wounded at Le Cateau during the retreat from Mons and again during the late fighting, said that although the British advance is slow, it is none the less sure, and will shortly be accelerated. 'We've got 'em,' he said. 'Take it from me, things look very different now, and we'll have 'em on the run again before long.'"

A BIG CHANGE.

The time was, some years ago, when the farmers were regarded as an especially easy mark for the confidence men and the sharpers who go about seeking whomsoever they can cheat and defraud. They sold them all manner of things, their wares by no means being confined to lightning rods, though the gentry of that class did clean up handsome sums in the aggregate for valueless service.

As an introduction to his article in The Metropolitan Magazine, pointing the necessity of national preparation for self-defence, Mr. Theodore Roosevelt uses the following:

In the thirty-third chapter of the great prophet Ezekiel, the first six verses run as follows: 1. Again the word of the Lord came unto me saying: 2. Son of man, speak to the children of thy people, and say unto them, When I bring the sword upon a land, if the people of the land take a man of their coasts, and set him for the watchman: 3. If when he seeth the sword come upon the land, he blow the trumpet and warn the people: 4. Then whosoever heareth the sound of the trumpet and taketh not warning, if the sword come and take him away, his blood shall be upon his own head: 5. He heard the sound of the trumpet, and took not warning; his blood shall be upon him. But he that taketh warning shall deliver his soul. 6. But if the watchman see the sword come, and blow not the trumpet and the people be not warned; if the sword come and take any person from among them, he is taken away in his iniquity; but his blood will I require at the watchman's hand.—Exchange.

his neighbors often at long distance easily and as frequently as he likes and over the improved roads can go quickly from one place to another. In this way the farmer is almost as well informed and enabled to be just as alert as his acquaintances in town. Knowing all about the schemes the crooks are working he is on his guard and prevents their being worked on him. Also going away and seldom seen these days is the joke which seeks to poke fun at those who live in the country. There is very little said about "hayseed" in the hair, "whiskers," etc., because the farmers are as up-to-date as anybody and they afford little field for the caustic jokesmiths. This is because they are brought by modern conveniences to the opportunity of having just as much information and having it as quickly as any other class in the community.

be regarded as almost final authority, the opinions range so widely as to find direct opposites among them. The majority look for an increase in European manufacturing costs throughout most industries, requiring sound bodies, strength and skill." On the other hand, not a few of the authorities consulted are apprehensive of a flood of European goods at low prices, and a general disorganization of markets everywhere. But the prevailing view is that Europe cannot possibly manufacture as cheaply as heretofore. Another point raised in this article is the possible further development of the "system that has been used so successfully by Germany in the past—that of discriminating between the domestic and the foreign markets to establish foreign balance of production between different industries and to reduce all industrial costs to the minimum." One of the results of the war has been to direct attention to the character of German trade competition. It has really been conducted under government control, and all the resources and public services of the state have been employed to assist the German manufacturer to force his way into foreign markets. Here, as in the methods of war, Germany has depended mainly on organization and coordination of industries. If necessary, goods will be sold below cost, special transportation rates are given, or the manufacturers may be allowed to increase domestic prices. Already the demand has been made that these unfair methods of competition must be provided against when peace returns.—Toronto world.

La Baie de Chaleur, that beautiful arm of the Gulf of St. Lawrence, famed as a scenic summer playground and for its immense forest and fishery wealth is vividly portrayed in the panoramic topographical painting now on exhibition at the Government Railway ticket office, Du Fort street. From the source of the Matapeia to the mouth of the Miramichi, the Gaspe Prince Edward Island, this realistic conception conveys a most comprehensive impression of an immense territory. The route of the Intercolonial along the North Shore, the Quebec Oriental and Atlantic Quebec and Western Railways by the Gaspe shores, with the principal stations, are indicated. Insets of Campbellton, Dalhousie, Meeting of the Waters, Surf bathing, the Miramichi, Perce Rock and the Monarch of the Forest are so artistically arranged as not to detract from its value as a map, and yet accentuate a few of the manifold attractions of this glorious stretch of country.

The painting is to be sent to the trated and descriptive folder containing a faithful reproduction of the painting is to be freely distributed wherever displayed. These folders will also be distributed through the various agencies of the Government Railways.

A witness, appearing before the British Parliamentary Committee of Investigation into German atrocities in Belgium, testified as follows: "On August 23rd I went with two friends (names given) to see what we could see. About three hours out of Malines we were taken prisoners by a German patrol—an officer and six men—and marched off into a little wood of saplings, where there was a house. "The officer spoke Flemish. He knocked at the door; the peasant did not come. The officer ordered the soldiers to break down the door, which two of them did. The peasant came and asked what they were doing. The officer said he did not come quickly enough and that they had 'trained up' plenty of others. "The peasant's hands were tied behind his back, and he was shot at once, without a moment's delay. "The wife came out with a little suckling child. She put the child down and sprang at the Germans like a lioness. She clawed their faces. One of the Germans took a rifle and struck her a tremendous blow with the butt on the head. "Another took his bayonet and fixed it and thrust it through the child. He then put his rifle on his shoulder with the child upon it; its little arms stretched out once or twice. "The officer ordered the house to be set on fire and straw was obtained and it was done. The man and his wife and the child were thrown on top of the straw. There were about forty other peasant prisoners there also, and the officer said: "I am doing this as a lesson and example to you. When a German tells you to do something next time you must move more quickly." "The regiment of Germans was a regiment of Hussars, with crossbones and a death's head on the cap." Can any one think that such acts as these, committed by women in the circumstances created by the invasion of Belgium, were deserving of this extreme form of vengeance? Yet the fate of Belgium would be the fate of England and of Canada in case of an invasion by the German horde. That fact should never be lost sight of.

"Talk about a London fog," said a Yankee just returning from England. "Why, I found that they even had fog-horns in the elevators at my hotel!"

A Beggar's Pride. A wretched beggar, whose "I am blind" sign was a lie, was arrested with several companions who made a specialty of preying on church-goers. He explained that he only practiced fraud on week days and begged honestly on the Sabbath.

A great deal of moralizing and of cynicism might be expended on this old man's singular ethics. Yet each person has his standard of conduct, and includes in its reservations no less inconsistent than the beggar's delicate attitude toward Sunday. We are prone to be proud of things we do not do, rather than of our positive goodness. Not stopping at that, we judge those whose code permits them wider latitude than that we enjoy.

The faking beggar clings to a negative virtue, finds his sole claim to a self-respect on that. Many another, dwelling on planes far above the beggar, yields to the same native tendency.

CITIZENS OF QUEBEC ARE RESPONDING NOBLY

Yesterday was a banner day for the machine gun fund. When the subscription lists closed on the previous night the total was \$3,632.83. When they were closed last night it had jumped to more than \$12,000. That is to say, no less than \$8,468.00 was subscribed yesterday alone.

This means that the cash equivalent of twelve machine guns has already been raised.

During the afternoon the committee which will have charge of the fund was duly organized. One of its first acts was to cable Lieut.-Col. Watson advising him that funds sufficient for the purchase of ten machine guns had been collected in the first two days of the campaign. It is assumed, therefore, that the commander of the Second Battalion will at once begin to train additional gun crews.

The Committee as now organized is as follows:—
Officers—J. M. McCarthy, President; P. J. Egan, Treasurer; W. P. Osborne, Secretary.

Members—John T. Ross, Arthur Price, G. F. Gibsons, D. O. L'Esperance, M.P., W. Power, M.P., N. Lavoie, J. K. Boswell, J. Burstall, J. Hamilton.

Now that the funds are assured for a certain number of guns the main object of the committee is to ensure the delivery of the best gun in the shortest possible time and every nerve is being strained to achieve this. A strong effort has been made to enlist the sympathies of the Hon. T. Chase Casgrain and there is no doubt but that the popular Postmaster-General will exert his influence to see that Quebec shows up well in this matter and gets its guns off as soon as any town.

Already sufficient has been raised to equip the Second Battalion with the guns which have been asked for by Col. Watson, but it is generally felt that his estimate was modest and that the Battalion can easily find work for twenty or more guns. Several more have been promised and the intention is to get the money for as many as possible during the next few days.

In this connection an excellent suggestion has been made by a correspondent of The Chronicle, who writes as follows:—

WANTED—MACHINE GUNS!

To the Editor of the Chronicle:

Dear Sir,—May I suggest that next Thursday, August 5th, being the anniversary of the present great struggle for our national existence, be set aside as a Special "Tag-Day" in this most urgent need of machine guns from QUEBEC? And that the experienced staff of ladies who made such a huge success recently for the Red Cross Society Fund, upon special request, would probably meet with even greater response on this occasion.

Why not each street car carry a box for this purpose on the day, so that many who otherwise would miss this opportunity could participate.

Perhaps our picture houses could also make a similar effort in collecting, if approached.

Yours truly,

PRO PATRIA.

In spite of the generous response accorded to this movement, there are thousands who have not contributed as yet and there is no doubt but that a "Tag-Day" would give many of them the best of opportunities to show their patriotism in the most effective way possible.

ORANGEMEN COULD NOT BE MADE PART OF PARTY MACHINE

Grand Master of Orange Lodge of Winnipeg Speaks on Bi-Lingualism.

BI-LINGUALISM MENACE.

In Prairie Provinces it is a Detriment to Future Development of Institutions.

Winnipeg, July 29.—At a great meeting of Orangemen today in Scott Memorial Hall the Grand Master, Dr. D. D. Ellis, dealt with the Manitoba school question and bi-lingualism. The consensus of legal opinion, he said, showed that the effect of the Caldwell amendments, if put in operation by the legislature, would be the establishment of clerically controlled schools in the province. So on instructions from the Grand Lodge he had urged on the government their repeal.

This was refused, and thereupon an appeal was made to Orangemen to vote against the government. The result of that appeal would be ever remembered as a triumph for the principles of the Order. The Orange Association had demonstrated it could not be made a part of any party machine.

In dealing with bi-lingualism Dr. Ellis said:

"During the past year those who claim that by right the French language should be placed on an equality with English in all parts of the Dominion have been particularly active. So far has this claim been insisted upon that the legislature of the province of Quebec presumed to dictate to the government of Ontario what the school policy of that province should be. And one day the Senate of Canada awoke to find some of its members advocating the claims of French schools in Ontario. The movement to force the English language out of schools in French districts in Ontario has been checked by the ac-

REASON ADVANCED FOR SUPPLEMENTARY NOTE FROM BRITAIN

EFFORTS TO SECURE RELEASE OF VAST AMOUNT OF GOODS THE CAUSE.

Washington, July 29.—Unofficial but vigorous efforts by the State Department to secure for American importers the release of vast consignments of German, Austrian and other goods held up in neutral European ports by the British Order-In-Council are believed by officials here to have influenced Great Britain to formulate the supplemental note expected next week. The communication is expected to present an answer to the official representations made just after the original British note was framed.

The pressure of American demands for detained shipments has been great. While the State Department has officially declined to recognize the right of Great Britain to interfere in any way with American trade with neutral ports, unofficially negotiations have been made seeking to exempt at least a part of these consignments from the operation of the Order-In-Council.

The delay of goods valued at \$167,000,000 now held in Rotterdam, Holland, has been the principal case discussed. These shipments include German and Belgian products. Efforts to release some of them on the ground that they were contracted for prior to the issuance of the British Order-In-Council, and others on the ground that they were bona fide neutral shipments of Belgian origin have so far been unsuccessful.

The marriage of Miss Winifred Power, youngest daughter of Mr. Wm. Power, M.P., to Captain F. Moseley, son of Mrs. F. Moseley, of Montreal, and at present with the 7th Artillery Brigade at Valcartier Camp, was quietly solemnized yesterday morning at Tramore Lodge, St. Pamel, the summer home of Mr. Power. The bride, who was given away by her father, was handsomely gowned in white charmeuse satin, the groom was attended by Major Peacock of Montreal. Only the immediate relatives of the contracting parties were present, including Mrs. Douglas Watson, sister of the groom, and Mr. and Mrs. D. W. Ogilvie, of Montreal. After the ceremony the happy couple couple left for a two day's honeymoon at Chaudiere Lakes, following which Capt. Moseley will return to Valcartier to rejoin his regiment.

TEN YEARS FOR RAOUL SIROIS

PERPETRATOR OF RECENT ROBBERIES WAS SENTENCED YESTERDAY.

Raoul Sirois, alias Chenard, the ticket-leave man from St. Vincent de Paul Penitentiary, who was arrested while attempting to make away with the cash register at the Eldorado Hotel, and subsequently identified by Detective Tom Walsh as a thief with a bad record, was sentenced yesterday to ten years in Penitentiary by Mr. Justice Langelier. Sirois pleaded guilty to being the perpetrator of the numerous thefts which have been committed within the last few days in the city, at the Island of Orleans and at Mountmorncy Falls.

"You are a professional thief, Sirois," declared Judge Langelier to the prisoner after the latter had pleaded guilty. "You have been up here some three or four times already, you have served five years in jail and are out at present on ticket-of-leave. Instead of bettering your ways, you continue as a thief, and it now becomes my duty to send you down to jail until such time as you will have reflected upon your past career of crime and come out aged and penitent. I condemn you to serve the next ten years in the Penitentiary at St. Vincent de Paul."

BIG PHOTOPLAYS AT THE GRANDE ALLEE GARDENS.

Friday and Saturday's big Program. Other big Shows all Next Week.

Friday and Saturday the Gardens present Robert Warwick in a five reel photoplay entitled "The Man of the Hour", one of William A. Brady's great stage successes. This play had a steady run for two years in the Savoy Theatre, New York, and the picture is equally as good as the play. The story concerns a young man of the fashionable world whose self-gotten wealth makes him feel no necessity for money making. He is in love with the daughter of a heavy magnate. The daughter refuses to consider his attention until he abandons his life of leisure. This is a compelling love story of novel character, which furnishes a gripping command of the attention of the audience.

Something new is offered in the way of a comedy, which is five hundred feet of comedy and five hundred feet of cartoons ridiculing the Kaiser. A good weekly also will be shown. Don't miss these next week. Marie Doro in the "Morals of Marcus" Wednesday and Thursday Robert Warwick in "Alias Jimmy Valentine". Friday and Saturday Robert Edeson in "Where the Trail Divides", five parts, 250 scenes. These four great plays are well worth the price of admission, and no doubt will draw crowded houses.

CHEAP TRIP TO RIVIERE-DU-LOUP.

A grand excursion has been organized for Riviere-du-Loup Sunday, August 1st. As can be seen by posters displayed in the different stores and public places, as well as on the street cars, it is evident that it will be very popular. The fare is very low and the time limit of the tickets is of long duration. A special train will leave Levis after the arrival of the 7.30 a.m. ferry from Quebec, and will stop at all the principal stations "en route", arriving Riviere-du-Loup at 11.30 a.m. The fare will be \$2.25 adult and \$1.10 child. Tickets will be good returning by all regular trains up to and including Tuesday August 3rd. This special train will be up to the usual high standard of efficiency of Canadian Government Railways first class trains, and the comfort of the passengers will be looked after by Quebec's popular City Passenger Agent, Mr. S. J. Nestor. Riviere-du-Loup has been preparing, for some time past, for the grandest celebration on that day that has ever taken place in that part of the Province, that is the unveiling of the magnificent Sacred Heart Monument by His Eminence Cardinal Begin of Quebec, and also the institution, by His Eminence, of a new Guard for that Parish. There will be invited guests from all Parishes as far east as the Gaspé Coast and also as far west as Quebec. All the different Guards of this City will take part. July 30 x2.

BOY DROWNED IN THE INNER BASIN

YOUNG BOUDREAU FELL FROM RIOUX WHARF SHORTLY AFTER 1 O'CLOCK YESTERDAY.

Joseph, the twelve year old son of Mr. Ernest Boudreau, carter of Soule-Cap street, lost his life by drowning in the Inner Basin, shortly after 1 o'clock yesterday afternoon.

The boy was playing on the Rioux Wharf, which at present is being repaired. He went to the edge and fell over into the water. The body was recovered a short while after, but too late to save the little fellow's life, although a few physicians and others worked over the lifeless form for an hour or more, endeavoring by artificial respiration to revive him. It is said that the boy the day previous was caught by his father out in a boat and was punished and warned by the parent not to play about the waterfront.

EIGHTH EPISODE OF THE EXPLOITS OF ELAINE.

And the Olympia Presents With It Today and Tomorrow a Good Feature and a Comedy.

The eighth episode of "The Exploits of Elaine", to be presented today and tomorrow at the Olympia is entitled "The Hidden Voice" It shows how by a new mechanical instrument, an improvement on the dictagraph, Kennedy discovered in time the life of Elaine which has again been threatened by the "Clutching Hand" and hurried to her rescue. This invention is called the Vocophone and every sound ejaculated in the rooms of Elaine repeated in Kennedy's apartment through that mechanism. As "The Clutching Hand" and her accomplices are trying to overpower Elaine in her room to get hold of some papers she has hidden, the heroine lets out one appeal that the Vocophone registers immediately. Kennedy hears the vibrant voice of Elaine and hurries to her rescue in time to save her from the attempts of the bandits. A good feature and a comedy is also presented with "The Exploits of Elaine" every Friday and Saturday at the Olympia.

GLOBE-TROTTER ARRIVES IN QUEBEC

FORMER QUEBECER HAS COVERED OVER 18,000 MILES ON FOOT.

Arthur Thibadeau, a globe trotter and his wife arrived in town last night and paid a visit to The Chronicle.

Mr. Thibadeau's personal appearance is odd, to say the least. He has his hair curled after the fashion of a twelve-year-old girl and has developed a slight limp. His wife who is but 21 years of age, but looks younger, seems to enjoy the walking and wears no head gear.

The young man, who was born in St. Oliver street, this city, twenty-four years ago, started his world-trip from Vancouver, B.C., May 1st, 1913, and his ambition is to cover every country in the world by May 1st, 1921. He started out with a friend, but the latter was shot and the journey was undertaken alone.

He has already covered Canada, Alaska, and 25 States of the Union. He will journey from Quebec all the way to South America, which country he will also completely traverse. To date, 18,432 miles have been covered on foot by this pedestrian.

Mr. Thibadeau must also collect the signatures of 200,000 citizens and 50,000 officials. Up to May 1st, 1913, 37,000 citizen's signatures had been secured, and 3,155 officials, one of which is President Wilson, president of the United States.

He sells photographs of himself to help pay his expenses as well as those of his wife and little dog, while the particulars of his intentions are printed on the reverse side of the card. His appearance in the streets caused any amount of curiosity and quite a throng gathered outside the Chronicle door during the time he was inside. He will likely remain in Quebec during the rest of the week and probably longer.

LOST FOUR FINGERS OF RIGHT HAND

YOUNG PATRICK FULLER MEETS WITH SAD ACCIDENT AT ROSS RIFLE CO.

A bad accident occurred at the Ross Rifle factory, yesterday at about 1.30, by which young Patrick Fuller, seventeen years of age, lost four fingers of his right hand in a punch machine in the building.

It appears that Fuller, who is one of the inspectors of a certain section, went to one of the machines while its operator was absent and, in some manner, he probably treaded the press board, the punch instantly cutting off his fingers. He was taken to the Jeffery Hale's hospital where his injuries will be attended to.

The accident will be a serious impediment to the youth, who was taking a course in mechanical drawing at the Technical School where he finished last season's term with distinction. "Chic" Fuller as he is familiarly known, was the goalkeeper of the Sons of Ireland hockey team, Junior City Champions, and the news of his misfortune has caused deep gloom amongst his many friends, who sincerely sympathize with him.

FLY CATCHERS THAT CATCH FLIES.

Aeraxon Fly Catchers at T. H. O'Neills Never Fail.

Everyone knows the danger of disease spreading through the house flies if they are allowed to enjoy a minutes' life. Many sorts of fly-catchers and death-dealing devices have been put on the market in an effort to minimize the danger from these insects but some have proved unsatisfactory. Mr. T. H. O'Neill of 248 St. John street has a Fly catcher which never fails. The Aeraxon, the honey fly catcher will do great work, the price is two for five cents. In these days of aeroplaning and aviation, Toy balloons are much in demand by the youngsters. Look over the assortment at O'Neill's and there will be no need to look any farther. See advt.

NAVAL FOOTBALLERS SLIPPERY TRACK DEFEAT CHATEAU ON GRAND CIRCUIT

LOCAL PLAYERS MADE GREAT FIGHT BUT LOST OUT BY 3 TO 2.

The kick-off at 3.30 started a fast game, Hart winning the toss kicked with the wind in the Chateau Favours. The Sailors played clean and finished football and combined in splendid form although never playing together before, and after 20 minutes play, from a well placed corner kick scored their first goal. Clayton kicking towards goal and the ball going through off one of the home players. The Chateau played strongly but failed to equalize before half time. The second half opened with the Sailor Boys playing their long passing game, came very near scoring, Williams and Bridge's clearing in sound and determined fashion.

Play ruled fairly even for a time until from a scrimmage in front of goal. Clayton again scored for the sailors; the Chateau played up in good style after this reverse and from a combined movement of the forwards mainly led by Smith who put in a beautiful shot which the goalkeeper failed to clear strongly. McLean lying well up dashed in and scored a nice goal giving no chance to save. The home team encouraged by this success and again met with like success, McLean drawing the defence in good style and passing to Smith who scored a good goal. Play became fast and exciting and the Sailors looked all over scorers when offside spoiled their movements. The home team then got going again and MacKintosh came near scoring the goalkeeper saving in good style, but the sailors' undaunted came again and from another scrimmage caused through some misunderstanding between the home defence scored their third and winning goal, Keough-Fisher. The Chateau tried hard to equalize, but could not and close on time the center half of the sailors put in a splendid shot which Hart, who was playing a fine game saved at the expense of a corner. Thus the game came to a finish with the Sailors winners after a hard fought and delightful game by 3 goals to 2.

A return match will be played on the Exhibition Ground today, Friday, 30th, kick-off at 3 o'clock, and another keen and exciting struggle is expected. The chateau team lined up as follows: Goal, Hart; Back, Jones, Williams; Halves, Lane Corlisse, Bridges; Forwards, Smith, MacKintosh, Horlock, McLean, Zeller. Mr. J. Cowie refereed the game in masterful style, none of the players ever disputing a decision.

ASHTON LIKELY TO PITCH FOR ST. PAT'S

THE IRISHMEN'S NEW TWIRLER WILL BE SENT IN AGAINST C. B.'s.

St. Patrick's had a good workout in preparation for Sunday's game against C. B. Manager Walker has instilled into his players the fact that over-confidence is the greatest danger to be fought and together with this the C.B. "hoodoo." It is likely that Ashton, who pitched such splendid ball against Patricia's will again twirl for the Irishmen.

The first game of the double bill will as already announced be between Emmets and Laval. This game promises to be the most hardfought of the year. Laval have a fighting team and they will make a big bid to down McLaughlin's ambitious crowd.

BENEFIT GAME AT VALCARTIER CAMP

PLAYERS OF QUEBEC LEAGUE WILL MEET THE FAST VALCARTIER LADS.

Arrangements were completed yesterday by the officials of the local football league for the benefit matches, the first of which will take place at Valcartier Camp tomorrow afternoon. The players of the All-Quebec team are requested to meet at the C. N. R. depot, Staturday at 11.45, where Mr. C. M. Pike, Vice-President of the League will attend to their transportation. Football fans who contemplate taking in the game at Valcartier would also do well to confer with Mr. Pike at the depot, when all information necessary will be given.

As already made known through these columns the proceeds of the two benefit games, one to be played later on the Exhibition Grounds, will be used to purchase tobacco, etc., for former members of the local football clubs now with the different regiments at the front. Nearly three quarters of last year's players have gone to answer the call and anyone purchasing a ticket for the games is helping along the good cause.

M. AND M. \$10,000 STAKE AGAIN POSTPONED—GOOD SPORT IN OTHER EVENTS.

Detroit, Mich., July 29.—Because of the slippery condition of the track at the State Fair grounds, the Merchants and Manufacturers \$10,000 stake was again postponed this afternoon. The other races on the Grand Circuit programme were run off, however, and they furnished good sport.

Geers won his first race of the week with Guy Nella in the 2:10 trot. Geers took the lead only in the last hundred yards.

The 2:11 pace went to five heats. Hal Connor, after breaking twice, won the first heat in impressive fashion. Clara Walker finished second in two heats and won the other three.

Tommy Murphy won the unfinished 2:22 pace in straight heats with Jean Driving Peter Farren to a straight heat victory in the 2:15 pace. More favorable weather conditions tonight made it seem probable the Merchants and Manufacturers could be raced tomorrow.

Sporting Notes

The Sailor boys play a great combination game and though the Chateau crowd gave them a hard run, they were unable to put through the winning goal. While the naval team won 3 to 2, the Chateau expects to get their revenge in a return game on the Esplanade.

Those two ball games at the Exhibition Grounds, on Sunday next are going to be some game. Don't try to pick a winner, because it's not a sure thing for any one of the teams. It would not be surprising to see the Laval and C. B. teams out ahead.

George Gordon, the well-known bantamweight, is in town and would like to arrange a match, providing the necessary terms, etc., were satisfactory. Address care General Delivery.

Mr. Harry Slater, secretary of the Quebec Football league, will endeavor to complete arrangements with the Montreal soccer people for a game to take place during Exhibition week. Mr. Slater will leave for Montreal today.

The crippling of young Fuller's right hand in a punch machine at the Ross Rifle factory, will probably end the budding hockey career of what promised to be one of the cleverest goal-tenders in the game. "Chick" Fuller, though only seventeen years of age, played sensational hockey between the poles for the Sons of Ireland last season, and the little fellow was one of the most popular youngsters in the junior ranks. His misfortune will be genuinely regretted by his many friends and by all who watched his heady work in last winter's hockey matches.

Manager Belanger of the Victoria Club, has been besieged with inquiries regarding the boxing exhibitions to be held in August. There is likely to be a big demand for seats. "I will announce the full particulars soon, said George. "There will be no repetition of the Schiff fiasco. Everything will be run off smoothly and the men who will fight are good ones. You know Eggers, Rivet and Lynch have the goods and you may be sure the men I will put up against them will be in the same class. When the contracts are signed and everything bound up tight, I will announce the names and, I'll guarantee that my patrons will not only be pleased, but also surprised."

The Emmets will practice this evening on the Esplanade. Manager McLaughlin is a bit anxious over Sunday's game and every player must be on hand. "We can't afford to lose now," said the Emmet manager last night, "we are right after St. Patrick's and we must pass them sooner or later."

Sylvie Drouin will umpire again on Sunday. We hope that he will not repeat the "three-strikes-you're-out" before-the-batter-gets-to-the-plate" stunt which he pulled off on St. Patrick's last Sunday. Of course, we perfectly agree with him that the games should be speeded up and his efforts in this direction should be encouraged. But there is always a limit. The batter is allowed a minute to get to the plate.

The Quebec Cricket Club will likely arrange a game with the Naval men shortly.

The R.C.E. Cricketers at Fort Martiniere have been longing for a game with the Quebec XI, but so far no match has been played. "Father," asked the youthful seeker after wisdom, "why is it that you always speak of mother as your 'better half'?" "Because, my son," replied the tired business man, "I know perfectly well that I better had"—Richmond Times Dispatch.

TIMBER REGULATIONS. GOVERNING Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, and the North West Territories, the Railway Belt in the Province of British Columbia, and the Three and a Half Million Acres Located by the Government of the Dominion in the Peace River District in British Columbia.

License. A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction. A rental of \$5 per square mile, per annum, is charged on all timber berths excepting those situated west of Yale, in the Province of British Columbia, on which the rental is at the rate of 5 cents per acre.

Timber Permits and Dues. Permits may be gained in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw-mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of 30 cents per thousand feet, B.M., and subject to payment of rental at the rate of \$100 per square mile per annum.

Timber for Homesteaders. Any occupant of a homestead quarter-section having no timber of his own suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in Section 51 of the Regulations.

W. W. CORY, Dept. of the Minister of the Interior, Ottawa, 29th July, 1914. Mc.18x6m. -65137.

Synopsis of Canadian Northwest Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-agency), on certain conditions.

Duties: Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead, on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre. Duties: Six months residence, in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties: Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

THE GLOOMY GUEST. Young Engley married the charming Olive, and after the wedding breakfast he chanced to notice one of the guests, a young man, who appeared to be extremely gloomy and was evidently not having a good time.

He stepped up to the young fellow with the idea of cheering him up. "Er—have you kissed the bride?" he asked.

"Not lately," replied the gloomy one, with a faraway expression.

NOTICE. NOTICE—From 1st Jan., 1915, I won't be responsible for any debt contracted in my name without an order signed by me. Louis Goldberg.

COMMERCIAL NEWS
 NEW YORK MARKET.
 (Canadian Press).
 New York, July 29.—Speculation in
 the war stocks reached a climax today.
 The volume of trading, heavy as it
 had been on the preceding days of the
 week, was still larger today and the
 market was in a state of excitement
 throughout the session. It was the
 biggest day's business of several
 months. Prices of the more unstable
 stocks were rushed up in a violent
 manner to the highest marks on re-
 cord. In the last hour there came a
 sudden reaction, amounting to a col-
 lapse in a few instances. The whole
 market sold off, and although there
 was a partial recovery the close was
 unsettled.

Notwithstanding the severity of the
 break the active industrialists for
 the most part showed on the day, and the
 railroads were about on a level with
 yesterday's close. Total sales were
 1,350,000 shares.
 No new element of importance was
 injected into the speculative situation,
 although bullish sentiment towards
 war fed by reports of increasing ac-
 tivity of these concerns and of pending
 orders. The pronounced rise in this
 quarter of the market seemed to have
 attracted a considerable amount of
 public buying, which helped to push
 up quotations still higher. A move-
 ment of such range, based for the most
 part on no precise information of suf-
 ficient import to indicate its perman-
 ence, was of itself enough to point
 to an equally swift reaction. The de-
 cline was said to have been accelera-
 ted by the action of banks in calling
 a halt in accommodation on war in-
 dustrials.
 Bethlehem Steel and Crucible Steel
 figured most prominently in the deal-
 ings. Crucible Steel jumped 1 3/4 to
 83 and then slumped 1 1/2. Bethlehem
 Steel rose 11 points to 275, and in the
 late break fell back 15. Both shares
 established new high records, as did
 Westinghouse Electric at 112 1/2 and
 Allis-Chalmers at 32 5/8. Republic
 Steel was unusually active and trans-
 actions in that and the other steel is-
 sues, together with the railroads,
 equipment shares, made up a large
 part of the days total.
 Railroad stocks were in the back-
 ground. They shared in the early ad-
 vance but subsequently relapsed. St.
 Paul declined 3 points but later recov-
 ered, the action of the directors in re-
 ducing the dividend rate from 5 to 4
 per cent not being announced until
 after the close.
 Bonds were inclined to yield. Total
 sales, par value, \$3,700,000.

or the broad scope to which the en-
 couragement was reflected were it not
 for the steadily increasing optimism
 that is taking place, occasioned by
 the highly favorable returns coming
 to hand daily from the various busi-
 ness concerns. The "war stocks,"
 however, were spectacularly strong
 features in which the different steel
 shares claimed the great attention.
 The railroad shares maintain the ad-
 vance inaugurated in that department
 early in the week, but this was due to
 disappointment felt over the fact that
 the rumor concerning the western
 rate increase failed of confirmation.
 However, the belief that relief will be
 accorded those roads is quite gen-
 eral, and for this reason much of the
 gains recorded were retained, al-
 though the tone to that particular
 division of the list was heavy. With
 money conditions easy and in plenti-
 ful supply, and crop promises of the
 best, the outlook, with the sole ex-
 ception of the danger of complica-
 tions developing in the international
 situation, appears to be decidedly
 bright for an era of great prosperity.

 Chicago, July 29.—Wheat—A more
 hopeful view of the weather outlook
 asserted itself in today's wheat mar-
 ket and general selling resulted in a
 break of 2% to 3% cents. A number
 of private reports claimed damage
 from black-rust in the north-west, but
 the notion of spring wheat markets
 does not confirm the reports.
 Corn—The demand for corn was
 limited until prices were about one
 cent lower than yesterday's close.
 Under present circumstances with
 weather the greatest factor, long dis-
 tance opinions are of little value.
 Oats—Continued unsettled weather
 overnight gave a strong tone to oats
 early, but later, they sympathized
 with other grains and lost half to
 three-quarters cent.

 Stock Brokers, 11, 13 and 15
 Sault-au-Matelot Street, Tel. 1596.
 A. A. GINGRAS, Manager.
 Today has seen the heaviest trading
 yet in the renewal of conditions
 which prevailed in April. In giving
 out transactions of over one million
 shares, it is well to remember that it
 is impossible for the reporters to keep
 up with all transactions and that this
 does not include the odd lots, the trading
 in which has been exceedingly
 heavy. The stimulus to such trading
 remains in the industrial and crucible
 has continued to be the foremost ex-
 ample today. Such wild fluctuations,
 however, as have occurred in this
 stock are very undesirable and may
 soon lead to a sharp discrimination
 against stocks of this kind in bank
 loans.
 There is no news or gossip of im-
 portance in such conditions which rep-
 resent an eager and unreasoning effort
 to secure a participation in the next
 up-going stock, after the extraordi-
 nary profits which have accrued in some
 of the leading beneficiaries of the war

GLIMPSES OF OLD QUEBEC

From the Files of THE CHRONICLE, July, 1885 and 1915.

THIRTY YEARS AGO TODAY

Bathers Beware. Murray Bay, that delightful summer resort on the north shore of the Lower St. Lawrence, 90 miles east of the City of Quebec, where, during the heated season of the year, so many Canadians, aye and Americans too, indulge in quietly keeping cool and perchance playing a little golf. We learn that bathing is not much in vogue on account of the water on the north shore of the river being a little too cool for that pleasurable and healthy pastime; but in every community there are some, the hardy ones, who must have their daily dip despite the coldness of the water. To those hardy ones, of course, the heading of these remarks only apply. The above remarks are just preliminary then to what, we read in these columns, occurred at Murray Bay, 30 years ago: "By special telegram from Murray Bay to The Morning Chronicle," we learn that:

Shark Measuring Eleven Feet. To be correct the monster measured eleven feet seven inches in length, was taken in the fishery of Lt.-Col. Reeve. The thoughts of the hardy bathers on gazing upon this, perhaps, near companion in the water can better be imagined than described. To those who enjoyed their gift or fanned themselves on the hotel verandah, the viewing of this maner was a regular fill up to the other pleasure of the day, and a theme for much conversation during long summer evenings for the rest of the season.

Claiming His Wife. A case was before Judge Chauveau in the Police Court 30 years ago, which had its amusing as well as its pathetic side. A man who had deserted his wife some ten years previously and who took a female companion along with him, suddenly returned to Quebec, bringing with him a couple of children. He found his long deserted wife, who kept a boarding house on St. John street, and supplicated to be taken back to her home

A HUNDRED YEARS AGO TODAY

What Does It Mean? The following is taken from a Buffalo paper: "On Tuesday last the Lady of the Lake, arrived off Fort Niagara, from Sackett's Harbor. Major Brown, who came with her, brought orders to the commanding officer on this station, for the troops which had left, and which were preparing to leave for different destinations, to return and continue here until further orders. In consequence the 10th and 12th regiments which had embarked were again landed. The 5th had proceeded too far to be countermanded. The 4th had sailed for Sackett's Harbor before the orders were received. The 16th has been ordered into Fort Niagara. The cause of this movement is not known and is giving cause for all sort of rumors. It is even said that there is a possibility of further trouble with the British and Canadians again, although this is not generally believed.

Trouble With The Indians. The movement of troops is, however, probably occasioned by the expectations of a war with the Western Indians, who have recently manifested a disposition to renew hostilities. The British, we understand, delay surrendering Mackinaw; and the Indians are collecting a large force in that vicinity, and threaten to take possession of that post as soon as the British leave. We have no official authority for believing this to be the reason of the movement, we are giving it for what it is worth as being our private opinion. But the rumors about there going to be hostility between this country and Great Britain again we think can be dismissed as only rumors with a grain of truth to them.

and affections and resume old time relations. The wife thought the joke too good to work. Mr. man then resorted to violence, with the result of having to appear before the judge, no names given.

CASUAL COMMENT.

TWO PHASES OF THE PEACE PROBLEM.

The outcome of the war that is on lies somewhere between public opinion in Germany and public opinion in the United States of America—that is, the outcome of events that may be hastened before belligerency has exhausted itself on the battlefield. President Wilson has it in his hands at the present moment one of the leading strings that may bring the blood-thirsty Kaiser and his militancy to their senses. And there is a tell-tale evidence around, to the effect that the German Socialists—the wage-earners and their several industrial and ethical environments—are awakening, slowly as it may be, to the fact that they have been fooled by their militant rulers and organizers. And the most recent events tend to show that the people of the United States, for the most part, are becoming more and more convinced that President Wilson is in the way of informing these same cruel-minded deceivers that the sooner they give up their attempts to draw the wool over the eyes of the Americans in their well-tempered negotiations for a modus vivendi the better it will be for both nations and the world at large.

There are many who still refuse to believe that there is an awakening among the Germans towards their reading aright the belligerent recklessness of their militant-mad sovereign. But the awakening is moderately in evidence all the same. The conditions that prevail cannot be hidden away from them, no more than it can be hidden from Germany's open enemies. It is conceded on all sides that Germany has fallen from her high estate among the civilized nations. And no German, however biased he may be, by his national instincts, can be thought to be blind to the historic fact that the Fatherland has been dragged into a belligerency that has stamned its advancing civilization and is continuing to do so to its disgrace. The average German, in the nature of things and in face of the educational advantages that have been his, can hardly be classified as being more of a fool than the average citizen of any of the other nations. He knows what military etiquette on the battlefield is. And he cannot but be aware that the renown of his country has been besmirched by methods of warfare, invented and being persevered in by Emperor William, that are entirely out of line with the justifiable, not to say anything of the causelessness of a strife that is in the way of making a wreck of the German Fatherland's prosperity, if not of the world's. And with Germany's own eyes opening to the folly of the Kaiser's motterable rampage, it is not out of the way to think of the average German intellect coming to read events aright and entering a protest against a war that is making a by-word of his nation and is sure to bring about its downfall in the near future.

On the other hand, the people of the United States are fully awake to what is happening in Europe and on

President Wilson knows that as an ethical force it is likely to be more efficacious and much more civilized for the bringing of peace into its own than a full forty years' preparation for war or thousands of Krupp factories. The Kaiser is not done claiming that his forty years' preparations for war were all made to promote peace in the world, in face of a whole world's derision of his hypocritical plea. And now the statesmanship of President Wilson may surely be given its chance of allying itself with the common-sense of his people, with the prospect of seeing himself, let us hope, for his forbearance and foresight. In fact, when that common-sense gets the better of "the preliminary laugh" it is more than likely that there will be brought about a meeting of the ethical forces of our higher civilization, around or near the White House of Washington or elsewhere, which will eventually issue in a lasting world's peace, in spite of the Hohenzollern dynasty and its methods of running amuck against all morality whenever it takes the notion to do so. The ordinary German in his industrial environment, as has been said, is on the verge of cursing and condemning the Hohenzollern militancy for its interrupting of his personal prosperity and its overshadowing of his prospects of doing even better for himself and family than he has at any time in the century; and there are few citizens of any intelligence who are not looking on at the premeditations of President Wilson and his Cabinet, eagerly on the qui vive to applaud their statesmanship as a factor in the peace-problem of the day, outside of all preparations for war.

Meantime the bandit raids of the Kaiser continue, and meantime the allies of civilization have to abide by the old-time methods of warfare that will put an end to them as best they may, cost what it may to civilization. The heat of the war-drum cannot but continue until Britain and her Allies have swept the Hohenzollern militancy into a corner of civilization's reformatory. The wear-and-tear of war has to continue to the wearing-out point between Germany and the civilized nations that have been forced into the war against her, until peace has been brought into its own again in terms of "the best or the worst that may happen." War has always been; but who is going to say that the peace-problem can be solved in no other way than by this folly of blood-letting on the battlefield? Is the world to be matured into something better than it is only by the force of arms and a maintaining of the Kaiser's paraphernalia for committing murder as a means to an end? If not, how is it going to be kept on its way towards a better? Is the statesmanship of peace and good to be laughed out of court merely because some militant autocracy or other is determined to have a job in spite of all that it involves to a whole nation? Is the foresight of the statesman, who would labor for a lasting peace, to be set aside as a mere theorising or more or less of a "dream"? Is there any harm to come to any one by examining the German mind as it is to be met with among the German wage-earners and there several environments, or by prospecting the possible outcome of the statesmanship of such a ruler as President Wilson? Is the war polemics of the times to be confined by "the preliminary laugh" to the view that we are not killing German soldiers quickly enough? The London Times claims that it is foolish to label a frank examination either as "optimism" or "pessimism" or "hysteria" or any other of the clap-trap catchwords which Lord Milner has been very properly deriding. But what would Lord Milner say of the "dreamers" which certain critics have been unearthing in such words as these: "This is not the time to discuss whether peace will come eventually through the dream of a federation of the world, a Parliament of Man, or through the union of a number of strong nations which have composed all their possible differences, and at last are ready to combine their armed forces into one police corps which shall compel everybody else to keep the peace and submit differences to a central court," as if this is not what has ever to be done when the wear-and-waste of war has reached its limit. Ridiculous as we may the average German, outside of Germany's official militarism, cannot but be in hopes, initiatory as these hopes may as yet be, that a "better" for him is not to be found in any perpetuation of a Hohenzollern militant tyranny. In line with this, President Wilson is at present engaged in "dreaming out his dream," as certain cynics call it, of settling the differences between his government and the German nation, otherwise than by a recourse to a spilling of human blood. The daily reading of the war news brings us momentary relief or distress, but no nearer to a divining as to how long the war is going to last. Therefore, those who would follow such a line of divination, with an exchange of hate for hate perhaps, may surely show less intolerance of a calculating statesmanship that would look a little under the surface of events, in order to trace the probable outcome of the war, even while it is still raging, as something of a continuing peace for posterity.

SIGHT RESTORED.

Cornwall, Ont., July 29—A remarkable case of the restoration of sight is reported here. Three months ago, Alma, the ten-year-old daughter of Mrs. George Hanton, lost her sight. The child was taken to eye specialists in Montreal, but they were unable to do anything for her. A week or so ago the child took measles, and whether or not this had any influence on her is not known, but as the measles began to leave her, her sight returned, and she can see about as well as ever she did.
