FORTY LIVES LOST IN THE AVALANCHE

Which Swept Two Passenger Trains Down the Gorge at Wellington.

Everett, Wash., March 2.—The dead in the Wellington avalanche, based on a list of dead and missing given out to-night by officers of the Great Northern Railroad, may reach a total of 84 before the rescuers reach the bottom of the mass of snow and wreckage that crushed two trains into a gulch. While only eight passengers and nine railroad employes are known to be dead, 38 passengers and 29 employes of the road are missing. Railroad men think few of the missing will be recovered alive if they are buried under the snow. Although 48 hours have passed since the snowslide, no detailed account has been received of what happened. The only stories of the disaster have come from those who crawled over the mountain trails. Several men on arriving at Scenic, the nearest railroad station, were unable to describe what they had seen. The perils of their descent of the mountain had made them hysterical. To add to the difficulties, the only telegraph wires into Scenic failed to-night. Rescue parties are working desperately to recover the passengers from the buried coaches. The day coach and smoking car have not yet been found. They were smashed flat, it is said. One woman was rescued from a Pullman after twelve hours' imprisonment under the snow. Brakeman Duncan and Conductors Purcell and Clary, who were in one of the cars that was smashed to splinters, escaped with slight bruises. In bare feet they worked for hours helping the injured and saving those caught under the wreckage. Mrs. Starrett, of Chemainus, B.C., and one child were saved, but two of her children were killed. All the injured are being cared for at Wellington and Scenic. It is thought all will recover.

It is now said that the reason the train was not kept in the tunnel where it would have escaped the slide was that passengers feared they would be blocked in and suffocated there.

Seattle, Wn., March 2.—The passengers known to be dead include Frances Starrett and Lillian Starrett, children of Chemainus, B.C. Among the passengers missing are R. H. Belbert, a civil engineer, of Seattle, N.Y., and Cuba A. Dejes, Hoberly, Ont.; H. D. Chantrel, Vancouver, B.C.; Bert Matthews, Cincinnati, O.; R. G. Thompson, Vancouver, B.C.; and E. W. Tappin, Ashland, O. In all 28 railroad employes are missing.

Everett, Wn., March 2.—Latest estimates to-night place at 40 the number of persons killed by the avalanche that crushed two Great Northern passenger trains at Wellington. While only 23 persons are known to be dead, nearly a score are thought to be buried in the wreckage. Communication with Wellington is maintained only by men on snow shoes. Twelve bodies had been removed to-night from the 150-foot gorge into which the snowslide swept the train. The railroad bunk house at Wellington, has been transferred into a hospital and the injured are being cared for there. Superintendent O'Neill, of the Great Northern, made his way to the wreck late today at the head of a party of doctors and nurses. The treacherous trip down the precipice was made on snow shoes. The nearest telegraph station, Scenic, Hot Springs, is three miles below Wellington, down a precipitous grade that is covered with a deep blanket of snow that may slide down the mountain at any moment.

The Wellington telegraph operator arrived at Scenic, Hot Springs, today almost insane from the scenes he had witnessed. No information as to the exact number of the dead could be obtained from him. The railroad company is making strenuous efforts to reach Wellington from both sides of the mountain range. Relief trains have been despatched from Everett with supplies and a wrecking crew. The road is blocked in several places by smaller slides and the high temperature leads to the fear that more may occur to prevent the relief force.

THE CAR STRIKE IN PHILADELPHIA

Arbitration Urged by Business Men's Association—Sympathetic Strike to Take Place Friday Night.

Philadelphia, March 2.—Resolutions strongly urging arbitration were adopted to-day by the United Business-Men's Association and sent to Mayor Reyburn, and the other representatives of the city on the Transit Company's Board of Directors. They will also be presented to the City Council to-morrow.

Union stage hands employed in the theatres and other amusement places to-day notified their employers that if the Transit Company and its employes have not reached an agreement before Saturday the stage hands would quit work as an expression of sympathy with the car men. This week's shows will all be gotten away properly, but the Union will not report for work on Monday.

Delegates to the Central Labor Union and representatives of other organized trades at their meeting to-night decided to call a sympathetic strike at midnight Friday night.

A universal strike of union workers and their sympathizers to begin at midnight Friday, was proclaimed by the Central Labor Union of Philadelphia and vicinity, at a meeting to-night. The strike leaders declare that 100,000 men will stop work at that hour if the Rapid Transit Company shall not in the meantime have consented to arbitrate its differences with the striking car men. Assurances have been received, they say, from hundreds of unorganized wage-earners that they will join the movement. The meeting at which the strike order was promulgated was large and sentiment was apparently unanimous in favor of the general strike. Speeches by Jno. J. Murphy, President of the Central Labor Union; Clarence O. Pratt, leader of the striking carmen, and William Mahon, President of the International Carmen's Association, stirred the delegates to a high pitch of enthusiasm. Telegrams were read from the Chicago and San Francisco Federation of Labor, with 250,000 and 175,000 members respectively, pledging their moral and financial support to the cause of the men. Resolutions were adopted condemning the attitude of the Traction Company, by which, it was stated, business had been affected to such an extent that thousands of persons not directly interested in the strike had been thrown out of employment. Councils were called upon to insist that Mayor Reyburn use his prerogative as chief executive of the city and immediately serve notice on the Philadelphia Rapid Transit Company that it must submit to arbitration, as the public, which he represents, demands, and that he return the police to their regular posts and cease using them to man the trolley cars.

In a proclamation addressed to the trades unions of Philadelphia and their sympathizers, the grievances of the carmen against the corporation is recited in detail. "In the ranks of organized labor," the document reads, "an injury to one is the concern of all, and therefore all union labor is directly affected by the attitude of the Philadelphia Rapid Transit Co. towards its union employes. The capitalists and politicians are part of the said company are part of a larger group of capitalists and trust owners who hope to crush all organized labor by attacking and defeating it, one group at a time. Therefore, it is hereby claimed that the time for action has arrived. All union workers and their sympathizers, for the assistance of the union street car employes and for the ultimate protection of all union employes and the working class, will cease work on Friday, March 4th, 1910, at 12 o'clock midnight, whether or not that is their regular stopping time, and remain on strike until further notice from their duly accredited representatives."

A committee of one member each from the printing, metal, building, Textile, and transportation trades was appointed to wait upon the select and common councils to-morrow and present copies of the resolutions and proclamation.

THE FLOODS IN NEW ENGLAND

Rivers Rising in Massachusetts—Vermont and New Hampshire are Also Suffering

Boston, March 2.—Four days of heavy rains and continued mild weather have created flood conditions in many of the rivers in New England. No great damage has been reported, but much inconvenience has been caused. Throughout Massachusetts the rivers are rising steadily. The Housatonic River has overflowed its banks from Haverfield to Great Barrington for ten miles or more, and for miles highways are under water. The Connecticut was about thirteen feet above the low water mark at Springfield to-night and had not yet reached the danger point. Freshet conditions are reported at many places in New Hampshire. At Sharon, Vt., farm houses have been marooned by water backing up after ice jams in the White River. Several families have been rescued through second story windows. At Burlington, the Winooski River is very high. A foot of water on the ice has forced the suspension of ice harvesting on Lake Champlain.

Utica, N.Y., March 2.—The gangs of powder men who have been endeavoring to break the ice jam at Herkimer have begun to bring forth encouraging results and while the congestion has not been completely broken a narrow channel has been forced through which the long-checked water are now flowing. More than five tons of dynamite were exploded at the mouth of West Canada Creek to-day. It was estimated at 9 o'clock to-night that the water in the village streets had receded fully two feet since noon. It is now believed that the flood has spent its force and further extensive damage was quite improbable.

Prompt relief steps have been taken in Herkimer and other places in the vicinity. A subscription list was started in the village to-day and several hundred dollars were subscribed for the flood victims. The Utica Chamber of Commerce took up the matter actively to-day and a substantial sum has been subscribed in this city.

The State Armory at Utica and the Utica Young Men's Christian Association building have been offered to as many Herkimer families as the buildings will accommodate. Superintendent of Public Works Stutzner, of Herkimer, succeeded in re-establishing the municipal water supply system to-night and announced that there was little danger of the service again being interrupted. The village is now fully protected from fire breakout in any part of the town. The gas plant is again in operation and the village is not entirely without light to-night. The Utica Gas and Electric Company who furnishes some electric power in the village, advised Mayor Grogan to-night that the company was ready to furnish free power to re-establish the municipal lighting system of the village until such time as the municipal plant can again be operated.

Fort Plain, N.Y., March 2.—After 24 hours of disease the New York Central tracks here are again open though the service is spasmodic. The water receded during the day and was still sinking to-night. The streets are now peaceful pools, instead of running torrents. About Johnsville the suffering and loss are heavier than here. The railway station and the plants of the Clark Machine Co., and the Englehardt Piano Action Co. are flooded and have shut down. Furnace fires in all hotels and private houses are out. The Bailey Knitting Mill, employing 500 hands, is closed.

Wilkesbarre, Pa., March 2.—The Susquehanna River shows no signs of receding. The official measurement at nine o'clock to-night shows 25 3/10 feet above low water, with the water rising about an inch an hour. Nearly 1200 families along the lowlands have been driven from their homes and others are ready to leave on the shortest notice. Many of the residents at Westmoor, a half mile from here, have over two feet of water in their homes.

Cleveland, O., March 2.—At least 4,000 people are now homeless in Ohio as a result of the flood which continues to devastate the state. Numerous plants have been forced to close down and hundreds of men and women are out of work. The material damage is estimated at over \$1,000,000, although it will be some time before any definite information can be obtained on this point. The Licking and Muskingum Rivers have passed their record of 1891 at Zanesville and are still rising. If there is no abatement of the waters before morning it is stated that the water works power plant will be forced to close and this will mean the shutting down of all the large commercial plants in that town. Over 900 people are now being fed by the city authorities. Only a few of the big steel works at Youngstown, are still running and these are expected to suspend to-morrow. The tracks of the Pennsylvania Railroad are several feet under water and have been abandoned. At Maumee a torrent has swept over the cemetery and it is practically certain that when the waters subside, many corpses will have been uncovered.

Deposit Account
Deposit your weekly allowance for Household Expenses and have all your Groceries charged. You may telephone your orders if you wish. You will be surprised to find how profitable this plan really is. Your idle money, which is now in your purse, will earn FIVE PER CENT interest.

THE PAQUET COMPANY LIMITED
Retail Division, 157-173 St. Joseph Street

At the PAQUETORIUM
Thursday is always Children's Day at the PAQUETORIUM. There will be a complete change of programme for Thursday. Send the little ones, or bring them yourself. You'll enjoy it as much as they will. General Admission 5c. FREE TICKETS ACCEPTED. 9.30 to 11.30 a.m. and 2.30 to 5.30 p.m.

OUR DIAMOND JUBILEE YEAR

\$14.50

Rare Value in Ordered Tailoring Just to Start the Ball a-Rolling

Our expert cutter will make a handsome Spring Overcoat to your individual measure, exactly like the illustration for the very Special price of \$14.50. This is New York's very newest model, and is known as the "1910 Top Coat" style. The materials you may choose from are in the new and fashionable "mid-grey," which is a beautiful shade of grey, specially suitable for an overcoat of this description. The trimmings will be first class and the fit absolutely perfect, or you do not pay one cent. EXTRA SPECIAL.....\$14.50

Newest Arrivals in Spring Overcoatings

All the new Spring overcoatings are in now—you should really have a look at them. Never before have we shown such a large and varied assortment of dressy and fashionable materials for men's wear. Some of these are now on display in one of the windows, and are attracting much attention. Inside, on shelves and counters is a marvellous display of these goods in all the wanted designs and colorings for the coming season.

Scotch Tweeds
New Scotch Tweed Overcoatings, pure wool, in greys and olives, correct Spring weight, suitable for the new 2 or 3 button Oversack with patch pockets. \$14

Dormeuil Fabrics
Pure wool diagonal Overcoatings, the famous Dormeuil Fabrics, dark grey, very latest weave for Spring, extremely fashionable for the 3-button Oversack style. \$16

Saxony Cloths
A very handsome showing of spring novelties in Suitings and Overcoatings, Saxony finish in checks and stripes, your choice of greys, drabs, olives and browns. \$21

Ladies' New Spring Costumes Arriving

Already, many of the New Spring Costumes are here. Easter is only a few weeks away, and those who choose now will consider themselves fortunate when the great Easter Rush has set in. We mention but a few items here—many others will be found on display in the Mantle Department.

LADIES' SUITS in fine black Vienna, all sizes from 34 to 42, semi-fitting 2-length coat, collar and cuffs trimmed with satin and deainty buttons, skirt cut in eleven gores, and trimmed with bands of satin. SPECIAL.....\$14

The newest thing for spring is the lace Coat Collar. We are showing this in white and ivory Guipure at from 50c. to.....\$5

New Gloves
Ladies' Gloves, sizes 6 1/2 to 7 1/2, all the latest shades and novelty colors for Spring 1910, real kid, 2-domes at \$1 to.....\$1.50

ENTITLED TO MINIMUM TARIFF
Washington, March 2.—President Taft to-day signed proclamations declaring that the countries and colonies named therein, to the number of thirty-six, were found upon examination of their tariffs, to be entitled to the minimum rates provided in the new Payne-Aldrich Tariff Act. The list comprises the Isle of Man, Channel Island, Gibraltar, Sokotra, Seychelles Islands, St. Helena, Ascension Island, Falkland Islands, British New Guinea, British North Borneo, British Colonies. Also Ceylon, Korea, British Honduras, Kango, Santo Domingo, Mauritius, British East Africa, Zanzibar and Pemba, Costa Rica, Honduras, Cyprus, Tripoli, Dutch East Indies, British Somaliland and the following named German colonies: Togoland, Kamerun, German South West Africa, German East Africa, Kiauchou, Kaiser Wilhelmland, Samoa Islands, also the Bismarck Archipelago, Solomon Islands, Caroline Islands, Marianne, and Ladrones (with the exception of Guam) and the Marshall Islands.

MAY SOLVE A MURDER MYSTERY
New York, March 2.—An arrest that may lead to the clearing up of the Gootman murder mystery was made by the Yonkers police to-day. Moses Gootman, a wealthy manufacturer, was shot and killed during a burglarious raid on his apartments here on January 30th and his son, Isaac, was also shot and seriously wounded. The identity of the criminals has remained a mystery. To-day the local police received word from Yonkers that George Schwartz, with a string of aliases, had been arrested there and, according to the Yonkers police, had confessed that he committed the Gootman murder. On the strength of the Yonkers communication local detectives arrested and held as an accomplice in the crime, Jas. Rosenwald, alias "Jimmie the Crab."

NELSON TO FIGHT AGAIN
Chicago, March 2.—Battling Nelson announced to-day that he and Johnny Thompson probably will be matched for a 45-round fight at San Francisco about May 1st. According to Nelson, a guarantee of \$7,500 has been offered him, with a provision that the fight take place this month. Nelson declined the offer on the ground that he could not get into condition before May. He, however, believes that Griffin will agree to the latter date.

Are Your Children Properly Fed?

LET us talk about the right feeding of children. You want your children of course, to grow up strong and healthy; you want to equip them for the battle of life with rugged constitutions and good red blood. Now, the first step is to see that they are properly fed. And these words "properly fed" mean much in the diet of youngsters. For it isn't quantity that counts, but quality. Overfeeding is just as bad as underfeeding. And wrong feeding is worse. Persistent feeding of wrong food results in gases and acids, stomach troubles, impoverished blood. There is no better food under Heaven for growing children than plenty of first class bread and butter. They thrive on it, grow strong and fat and rugged. Their systems crave it because it is a complete, well-balanced food. But the bread must be good—the very best, and the best is made from

"ROYAL HOUSEHOLD"

flour which contains the full nutriment of Manitoba Red Fife wheat—for only wheat of this character contains enough of the right quality gluten to balance the starch. Gluten makes bone and muscle, starch makes fat. It takes the right combination of both to make properly balanced bread. Bread made from OGLIVIE'S ROYAL HOUSEHOLD FLOUR is richest in blood building, muscle building, health building gluten. Children like it better and thrive better on it. With "Royal Household" you best never have anything but the very best results for it is always the same, absolutely uniform, year in and year out and is just as good for pastry as it is for bread. If parents knew this important difference between ROYAL HOUSEHOLD FLOUR and other flours they would never use any but "ROYAL HOUSEHOLD".

Send in your name and address to The Ogilvie Flour Mills Co. Limited, Montreal, and get that splendid book of tried Recipes called "Ogilvie's Book for a Cook".

Clearance Sale Of Office Clocks, Kitchen Clocks, Marble Clocks, Pictures, etc.

As already announced we are making preparations to extend and improve our Show Rooms. In order to do so, it is necessary to dispose of a number of Clocks, Pictures and other cumbersome articles that would be difficult to find place for during the alterations.

If you require an office clock we will supply a first class one for \$5.00.

A good kitchen clock for \$3.00.

A sitting room clock that strikes hours and half hours on a gong \$5.00.

Dining room and drawing room clocks, fine French movements in marble cases \$15.00.

Antique hall clock \$50.

For decorative purposes we have a fine selection of process paintings, copies of famous pictures in the National Art Gallery in Berlin.

These pictures have been reduced to prices ranging from \$5 to \$25, and cannot fail to interest anyone who is interested in home decoration.

There are also a few choice oil paintings from \$10 to \$200 each.

A pair of large bronze busts, originally \$50, will be sold for \$20 a pair.

QUEBEC, MARCH 3, 1910.

THE GEORGIAN BAY CANAL.

Now that Sir Robert Perks has put aside numerous other occupations, and is on his way hither, the Georgian Bay Canal begins to clothe itself on with reality. On the assumption that the St. Lawrence is not navigable for its entire length, the scheme for this All-Canadian Waterway—which will require, perhaps, \$150,000,000, was first promulgated some thirty years ago by Mr. Meleod Stuart, of Toronto. It is contended that such a canal will revolutionize the immense grain traffic of the west. The canal, about 440 miles in length, will be in all likelihood, twenty-two feet deep, and will contain thirty-three locks. It is estimated that the works of construction will require five years. Sir Robert will assume the constructive supervision and his experience ranges from the celebrated Manchester Canal, to the Rio Janeiro quays and the construction of the Argentine and Quito Transandine Railway.

According to the New York Herald the most interesting object attained, as far as regards America, will be the strategic advantage provided by this waterway for the Empire. There is no doubt, it says, that deep down in the minds of the patriotic projectors of the undertaking the importance of this feature is not under-estimated. The question of imperial defence, in fact, co-ordinates with that of commercial advantage. A glance at the Canadian map makes this assertion self-evident. For, surveying the map from the imperial standpoint, it is contended by Englishmen that the 3,200 miles of frontier dividing Canada from the United States is from a military standpoint a big item in the list of future contingencies.

A waterway which will enable the ships of the royal navy to draw up to the wharves of the upper lake ports as they now draw up to the wharves of Montreal and Quebec, it is contended, will mean that the eastern portion of the Dominion's boundary will depend for its defence on naval, instead of military, power. Also, from a political point of view, the Georgian Bay Canal promises to place a trump card in the hands of a fully developed Canada.

As to the commercial possibilities of the undertaking, a London newspaper said:—

"These are infinite. Duluth, Chicago, and Port Arthur are the grain centres of half the area of North America, Manitoba and the Northwest in Canada, and, in the Republic, the States of Dakota, Minnesota, Missouri, Michigan, Illinois, Indiana, Colorado, Kansas and Nebraska. The trade in wheat, agricultural products generally and raw materials is enormous, for it must be remembered that the region is nearly as large as Europe. Some idea as to its magnitude may be gained from the fact that the freight received and shipped from Buffalo, the eastern terminus of deep water navigation, exceeds 70,000,000 tons. On the upper lakes the aggregate tonnage is at least half as much. Marie in a season of 236 days being about twice the traffic of the Suez Canal in one year, while the traffic which passes up and down the Detroit River is said to exceed the foreign and coastwise traffic of London and Liverpool combined."

Boats bringing grain from the interior that at present pass eastward through Lake Superior or Lake Michigan and turn southward through Lake Huron, proceeding round the southern boundary of the Province of Ontario by the canal route, would continue eastward across Lake Huron into Georgian Bay, whence they enter the French River, and, continuing eastward, pass upward through Lake Nipissing to the highest point in the route, after which they descend the Ottawa River to Montreal.

It is proposed to construct the canal on the "dam and lock system," with slack water reaches between the structures. The locks along the route will be constructed of concrete and will have a length of 650 feet, a width of 65 feet, and a depth of 22 feet. It will permit the passage of ships of six hundred feet in length, sixty feet in beam and with a twenty foot draught. Of the 440 miles distance between Montreal and French River Village, on Georgian Bay, all save some twenty or thirty miles follow the course of some river or lake. Consequently the actual canal cutting that will be necessary to complete the undertaking will vary from twenty-eight to thirty-four miles. In addition about sixty miles of submerged channels will have to be removed at shoals, sharp bends and at other difficult points in order to form wider channels. This would leave about 332 miles of natural waterway that would not require any improvement save the raising of the water surface.

ACTIVITY LEADING TO SUCCESS.

The inauguration of Mayor Drouin is an event of no little importance to Quebec, especially in the light of the assurance given by the new incumbent of the highest office Quebec has to bestow upon any of her citizens, that he, with the co-operation of the members of the Council, proposes to take up the programme of progress and work it out to an issue of success. From what the new Mayor has said in his inaugural remarks, suggestions from the outside will be treated with due deliberation. The city does not belong to the Mayor nor to the City Council. It belongs to the citizens. Its affairs ought to be managed with no eye to the personal aggrandizement of any individual, be he Mayor or Alderman; and when suggestions are made, through the press or from the platform, for the good of the city at large, or for the information of the public, they ought not to be treated with affected disdain, as if non-interference were a badge of civic ascendency. In his inaugural address Mr. Drouin struck a note of expectancy which all Quebec desires to have realized in the near future; and, when he besought Council and citizens to unite with him in maturing for Quebec an honest, enlightened and progressive administration, he has asked for no more than he has a right to ask for, namely, the co-operation on the part of all and a communal entente cordiale. "Civic activity leading to success" is now the watchword of Mayor Drouin's regime, and we trust that the watchword will be taken up by other minor corporate bodies which have the commercial advancement of the town in hand.

QUEBEC AND THE WHITE PLAGUE.

The world has a good heart, notwithstanding all that may be said about its many vagaries and false standards. The descriptions given by Emile Zola of the poverty and disease to be met with in the slums of Paris give one an idea that one-half of the world does not know how the other half lives. And, when we read the tale of woe Quebec had to tell of the condition of the poor and helpless during the cholera visitations of 1832 and 1834, we have nothing but a feeling of gratitude towards those who advocated to the point of securing an improved system of sanitation and hospital ameliorations. The City of Quebec has a history, in the matter of providing for the afflicted, of which she need not be ashamed. There are no slums in Quebec where poverty and disease are allowed to run rampant. Its institutions or retreats for the poor and afflicted stand as a memorial of its charitableness; and now that a plague more persistent than cholera or typhus, namely, tuberculosis, has been brought to its attention as a disease to be overcome and prevented, the establishment of the retreat for consumptives at Lake Edward is but the inauguration in our city of a movement to wrestle with the causes of the disease such as defective sanitation, personal neglect of the laws of health, and deficiency or unappropriateness of food and clothing, and thus provide against its inroads as the most persistent of all plagues. Full descriptions have been given by the Chronicle of the exhibition now opened in the rooms of the Laval University this week; and there is no doubt that the good heart in our little civic world of Quebec, will suggest the means to be adopted to join in the campaign against this same "white plague."

THE TURNPIKE COMMISSION.

During its last session the Provincial Government appointed a Turnpike Roads' Commission to ascertain the present standing of all toll roads and bridges in the Province. The object is, if possible, to abolish these relics of a feudal age, which should never be countenanced in a young Dominion, such as Canada. There is no doubt that the proposed abolition meets with universal approval, such a hold-up being a standing grievance in many localities. Some of these "places of toll," such as the Viau Bridge, date from the time of William the Fourth. A number of sittings have already been held by the Commission, who, it appears, have instituted inquiries in no half-hearted way as to the cost of the maintenance of the roads, the capital investment therein, the amount collected in tolls, salaries paid and other kindred items. In all probability a most complete report will be given to the Provincial Government during next session. As Mr. Wilson, the member for Laval, said recently:—It is strange that in 1842 when the Act of Union was passed, people wanted the institution of toll-gates and toll-bridges for progress and improvement; seventy years later they want the abolition of that same institution for the same reason—progress and improvement. There are two main items in the government programme, regarding the turnpike roads. One relates to the purchase of charters, the other to the maintenance of the roads after their being taken over by the government. In all probability there will be further information to hand during the next few days.

One would have thought that the indemnity provided for the meeting of the expenses of our members of Parliament while in session, at Ottawa, would have had the effect of keeping out of sight for a long time to come any cry for "More!" a la Oliver Twist, with his soup-bowl in hand. But several of the Liberal members have lately been circulating a "round robin" with the intent of having the session shortened, since it would be impolitic to ask for a further increase of indemnity. And because the leader in the movement, Mr. W. M. Martin, has not been able to impress either Sir Wilfrid Laurier or Mr. R. L. Borden with the prayer of his petition, he has taken umbrage at the way the Toronto World has spoken of the movement. Are the people wrong in thinking that Parliament was made for the people and not for the benefit of the members?

Mr. E. B. Devlin is Federal member for Wright, and it is a pity that in his speech on the Navy Bill he has laid himself open as being wrong. He tried to bring the name of His Excellency, the Governor-General into the debate, and was told by the Speaker, in the most amiable way, that he ought not to do so. And, before he was done, he thought to mix up provincial issues with Federal issues, in order to get at some "wicked Conservative" who had been away back in 1895, purchasing prize-books, appropriate or inappropriate, for distribution among the rural schools of the province. Mr. Devlin has, perhaps, no notion as to what provincial autonomy really means.

The first British aeroplane price list has just been issued by the firm of Humber, Limited, and London has not quite made up its mind how to regard it. The prices range from \$450 for a monoplane with a three-cylinder engine of thirty horse power to \$775 for a four-cylinder fifty horse power machine of similar type, the biplane with the same motor being listed at \$1,100. The surface of the planes of the latter machine total 482 square feet. Spare parts for various aerial craft also are listed, and a mail order department in this line has been established for the convenience of customers. Every effort is being made to promote an extensive exhibition of models at the aviation show which will be held in Olympia next month.

BIG SILVER CUP

Dewar Trophy Awarded the Silent Knight Motor for Most Meritorious Performance.

Much attention has been attracted at the Toronto Automobile Show by a photograph shown at the Russell exhibit of the famous Dewar Nonstop Challenge Cup, recently awarded the Silent Knight Motor by the Royal Automobile Club of Great Britain and Ireland. This is due both to the trophy's beauty and to its significance from a practical standpoint.

The cup is a magnificent affair of solid silver, richly and elaborately engraved, and bearing this inscription: "The Dewar Nonstop Challenge Cup." Mounted on a suitable base of ebony it presents one of the choicest examples of the modern silversmith's art. Silver shields on the sides of the base give details regarding the circumstances surrounding the awarding of the cup.

The Royal Automobile Club presented this cup to the Daimler Company in recognition of the performance of the two Silent Knight engines which they submitted to public test. The trophy was awarded for the most notable performance of an automobile engine during the past year. These engines, it will be recalled by many, went through what is recognized as the hardest tests on record. The performance of the 38 h.p. motor was equivalent to a drive of not less than 8,250 miles at an average speed of 434 miles per hour. The trophy was given as recognition of the engine's efficiency from the standpoint of power, silence, durability and economy of operation. The engines are the same as those appearing in this country in the highest grade Russell models.

THE BALLOON TRIP

Little Rock, Ark., March 1.—The balloon New York, aboard which Clifford B. Harmon and his aide, George B. Harrison, set out from San Antonio last night in an attempt to better the long distance balloon flight recorded, landed near Valonia, Ark., late today. The flight was stopped by impending winter storms. The landing was effected without injury to balloon or aviators. The balloon will be shipped to San Antonio to await favorable weather for another flight.

Latest Sporting News

LAVAL WON FROM ST. GEORGE

Thereby Clinching its Hold Upon the Chronicle Cup for the City League Championship.

By a score of three goals to one the Laval hockey team defeated St. George in the City League fixture at the Quebec Skating Rink last evening. There was a great crowd in attendance, and there was more excitement than has been witnessed in many a senior game in the Ancient Capital for many a year past. As a matter of fact the games which have been put up by the teams in the City League during the present winter have provided a series of contests which have excited just as much interest as ever the senior teams have done. The Laval team, with only one defeat registered against it, seems to have complete line upon the Chronicle Cup for the present season, and but one more game keeps them from undisputed possession of the trophy for the first time. This game will be played on Saturday evening next, when St. Patrick's will be the contenders.

Last night's game was played upon slow ice, the thaw having made much somewhat of the glacial surface at the Quebec Rink. Both teams were at full strength, and the struggle was an exciting one throughout.

St. George lost last night through the same defects which has followed it all through the present season. One of these was lack of concerted action—or team play—and the other the inability of the forward line to shoot. While both teams were handicapped by the heavy ice, the Laval made the best of the situation, and they had most of the play in the first half, scoring two goals, while St. George failed to make the best use of several opportunities afforded. In the second half, St. George forced the play and for a large portion of the time had the rubber hovering around the Laval goals, but though there were repeated attacks on the "students' goals," it seems to have been poor and trudging had little difficulty in defending his goals. Finally Anvers, who is the best shot on the St. George line, found an opening. Laval, however, soon scored another, and put out of question all chances of their opponents defeating them.

From this on the two teams battled on the slushy ice without any damage being done to either side. Laval certainly deserved the victory on the night's play, for they used more judgment and played more together than St. George. Both teams have players who will be heard of in the near future, and the match was an interesting one throughout.

The officials kept the players well in hand, there being few penalties, these being only for minor offences. Mr. Jimmie Gillespie was referee and Mr. Leclerc judge of play, the teams lining up as follows:—

Laval.	Goal.	St. George.
Trudel.	Point.	Holloway.
Labrecque.	Cover-Point.	Porteous.
Delery.	Centre.	F. Power.
Jincherian.	Right Wing.	Anger.
Hamel.	Left Wing.	Ross.
Pouliot.	Goalie.	Derouin.
Labrecque.	Goalie.	Ramsay.

GOOD SHOOTING OF HIGH SCHOOL

Excellent Score Made in the Quebec City Rifle Association Series for Boys.

One of the five matches for the Boy's Competition, at the Quebec City Rifle Association, was fired yesterday afternoon, when the High School boys took a percentage of 64 per cent.

Y.M.C.A. BASKET BALL LEAGUE

Meeting Held Last Evening to Reorganize was Most Successful One.

A meeting to organize a Basketball League was held last evening in the Y.M.C.A. By the attendance, the League will undoubtedly be a grand success. The following officers were elected:—

President—A. Kennedy.
 Vice-President—R. Somerville.
 Sec.-Treas.—J. Applin.
 Committee—J. Hill, J. Whales, W. Dall, T. Houghton.

There will be another meeting Friday night at 7.30. All those interested are cordially invited to attend.

NATIONAL GOLF DATES.

Dates for the national golf championship for 1910, fixed at a meeting of the executive committee of the United Golf Association, have been given out.

The open tournament will be at the Philadelphia Cricket Club on June 17th and 18th; the amateur tournament at the Brookline, Mass. Country Club, Sept. 12th to 17th; and the women's title will be played at the Homewood Country Club, near Chicago, Oct. 10th to 15th.

NO ICE FOR MATCH.

Ottawa, March 2.—Owing to absence of ice the match between "amateurs" and "Renfrew" did not take place here this evening.

WANDERERS DEFEATED COBALT.

Montreal, March 2.—Wanderers defeated Cobalt to-night in the regular series by a score of 7 to 3. The Wanderers had the better of the playing throughout, the score at half time being 3 to 1 in their favor.

MELDRUM TEAM WINNERS.

A team composed of members of the Meldrum family, not all brothers but relatives, defeated a team representing Henry Morgan & Company, at the Victoria Rink in Montreal on Tuesday night by a score of 18 to 2. Bob Meldrum, known wherever hockey is played in Canada, did not play, but two of his brothers, George and Marty, of the Stirlings, were on the line-up. Walter and Alex. Meldrum, of the M.A.A.A. squad, were on the team and Billy, who used to play for M.A.A.A. seniors. At half time the Meldrums led 6 to 1, and in the second half scored 12 to the other team's 1.

THE FAMOUS SALVIDERE.

Lexington, Ky., March 2.—Salvidere, who broke down so badly while being schooled for steeplechasing that Thomas R. Hitchcock, Jr., his owner, ordered him shot, was the largest American turf money winner, representing the famous Magnolia family, established over three-quarters of a century ago by the famous steeplechaser, Henry Clay. The American-bred English Derby and St. Leger winner, Iroquois, leads this list with \$103,613 to his credit, and all this money was won on foreign race courses. Salvidere, during his race career, won \$95,298; the next largest winner of this family in America is Blue Girl, with \$71,850 to her credit, and her full brother, Blues, is close up to her as a money winner, with \$64,954 won. Magnolia is Salvidere's great grand dam, and the stud-books show no mare more prolific as a stud matron. She threw, all told, thirteen winners and her son Kentucky was the first horse ever sold in America for as much as \$10,000.

WHY CURLING BANKS HIGH.

"Why does curling hold so high a place in the opinion of the very best men in this country?" said Dr. C. W. Gordon (Ralph Connor), speaking in scathing arraignment of commercialism in sport.

"It ranks highest among sports for many reasons, but chiefly for this—that it remains among the few sports and games in our country absolutely unspoiled by the taint of professionalism."

Dr. Gordon made general reference to all forms of gambling as connected with sports, but spoke chiefly on race track gambling. He referred to horse racing as one of the noblest forms of sport, marred by the practice of book-making.

MINTO CUP'S PRESIDENT.

Dr. J. L. Chabot, President of the Capitals, has received a letter from Mr. Ed. St. Perre, President of the National Lacrosse Union, formally accepting, on behalf of the league, the new trophy, donated to the N. L. U. by Mr. Sam Bilsky, the well-known local jeweller. Mr. St. Perre expresses to Mr. Bilsky the thanks of the clubs comprising the big lacrosse union, adding that the trophy will come as a fitting successor in the Minto Cup, which is now held by the New Westminister team.

The Bilsky Trophy will be presented to the N. L. U. at its annual meeting in April. It is now complete and will prove one of the finest silver trophies in existence.

The executive of the Caps has promised to settle with the players for last season this week.

OUR DRESS GOODS.

It is useless to tell you that as in the past, we have the most stylish novelties in the market.

FAGUY, LEPINAY & FRERE.

CORNWALL CLUB TO MAKE MANY CHANGES

Factory Town Club Has Much Good Material to Choose From.

Already the spring winds waft about the Factory Town a whisper or two of lacrosse, the game that has made Cornwall more famous than her big brick cotton mills.

Sweeping changes in the line-up of the Cornwall team are hinted at, and surely they are needed. Only once last season did the local team play with their proverbial dash and vigor, and that was on the day that they defeated the Montreals in Cornwall. Several of the old standbys of the Cornwalls announced last fall that their sticks were hung up for good, but it is pretty certain that Donald Cameron will be persuaded to hold his old place on the defence. He will probably have with him "Fid" and Francis Cummins, besides Hank Smith, the goalkeeper, and there is a chance that John White will also be available if wanted. There will probably be a few others of the old team scattered down the line, but if rumor can be believed, fully half a dozen recruits will be seen wearing the blue and grey. These recruits will come from the five teams in the Interprovincial Intermediate League last season, which at times provided lacrosse of a brand superior to the N. L. U. article. Most of them were on the Rover team which proved the sensation of the season of 1909. Their home was perfect, and as a rule scored ten games or more on their opponents. At least three of their home are almost certain to be tried on the Cornwall senior team—Nicholson, Hessel and Guy Smith. These, with Phalen, should be a very dangerous quartette. The St. Andrew's team, who "sawed off" for the Interprovincial championship with the Rovers, have several good men, notably Denis Wheeler, a centre, and McGillivray, a defence man. On the whole Cornwall has a better class of recruits and more numerous than in a dozen years. There is no question but that quite a few of the veterans, who have talked of retirement, are still good men, but their style of play is not the style of the coming men from the Intermediate League. If the latter make as good as their form of last season would indicate, Cornwall will have a sensation or two to hand to the lacrosse-loving public next summer.

CUSTOM HOUSE MEN BETTER SWIMMERS.

There was an exciting bathing competition at the Quebec Rink last evening, when the Custom House team defeated the Lumbermen's team by a score of two points to one. It had been advertised as a hockey game, but the moisture was so moist that those who took part thought that the summer had really and truly come again and that they were once more taking a bath. Some of them took more than one bath, and the neat and natty uniforms in which they first made their appearance present an aspect at the close not exactly like Venus arising from the sea. But the game was a great one. The Lumbermen chopped so hard that it taxed the strength of the Custom House men to pass them, and members of both sides were seemingly only too ready to give exhibitions of the pleasures of life on the ocean wave by taking long toboggan slides through the aesthetical waters. The victory of the Custom House men was due in no small degree to the "remarkable" work of Joe Shanahan in goal. He looked the exact counterpart of Riley Hern, and he pulled off some stunts that the Wanderer goalkeeper never dreamed of in his palmiest days. He allowed only one shot to pass him, but this was entirely due to accident, a bright pair of female eyes in one of the galleries having claimed his attention for the moment. At the conclusion of the game he was borne in triumph around the rink, and narrowly escaped being dumped in a pool of water by his enthusiastic admirers. He had a competitor of no mean ability at the other end of the rink, Jim Smith stopping several hot shots with an energy that made the sparks fly. There was another bright particular star on the lumbermen's team in the person of "Lar" Egan, who with every desire to make his name shine among the ladies of St. Sauveur, did all that was possible to avert defeat. One could go on to enumerate the splendid high diving done by other members of the respective teams, but space forbids, but any name can be chosen from the following and accorded all the honors that can be awarded. The teams were currently reported to be as follows, the positions being unimportant as each man played any position which seemed best to him:—

Custom House—Shanahan, Julien, Aird, Marchant, M. Hanrahan, Derouin, Rooney.

Lumbermen—J. Smith, Dooley, Conway, Mulrooney, Henchey, Egan, Dall.

The referee was Mr. E. Leonard, and his accessory to the crime was Mr. M. Phillips.

A RECEIVER APPOINTED.

York, Pa., March 2.—The Yorkhaven Water and Power Company, a \$3,000,000 corporation has gone into receivership, Edwin F. Baker, Secretary and Manager of the Company, being appointed receiver. The Company's plant is on the Susquehanna river and supplies current for commercial purposes to York, Harrisburg and Steelton. The appointment of a receiver is attributed to the drought of last summer and of the suit of the Yorkhaven Paper Co. for prior water rights and damages.

FIRST MEETING NEW COUNCIL

Will Take Place at the City Hall Tomorrow Evening.

The first meeting of the newly-installed City Council will take place tomorrow evening, when Mayor Drouin and the new Aldermen will enter upon their two years' direction of the destinies of the city. The new Council will present quite a change in faces from that which constituted the membership of the last one. In addition to the new ward of Limoilou, which presents three new members, there is quite a change in the Council which has sat for the past two years. The old members returned to the Council were Ald. P. Campbell, W. J. Mulrony, L. A. Cannon, M. Madden, J. A. Collier, H. E. Lavigne, F. O. Pothier, M. Fiset, A. Cummings, A. A. Lantier, P. Dinan, D. Matte, C. J. Lookwell, Dr. A. Jobin, T. Verret, A. Gauthier, N. Barbeau, A. Paquet. Among the new-comers to the Council are Ald. O. Morin, R. R. Bergevin, J. Cote, M. Monaghan, E. A. Delisle, W. J. Guillet, Dr. Gosselin, L. Emond, J. Plamondon, Eug. Lamontagne, O. Goulet, C. Levallee, J. N. Beaumont, L. T. Trudel, O. N. Shink.

PUBLIC UTILITIES COMMISSION

Reported to Have Been Appointed at a Meeting of Provincial Cabinet Held Yesterday.

An important meeting of the Provincial Cabinet was held at the Parliament Buildings yesterday, when, it is reported, the members of the Public Utilities Commission were named. The names of the Commission were, however, not divulged, and it is stated that they will not be given out before Friday. The act concerning the Public Utilities Commission came into effect on Tuesday by proclamation of the Lieutenant-Governor-in-Council and the constitution of the Commission is being awaited with interest. The new commission, which will be a most important one, will consist of three members with a secretary. A considerable amount of business in connection with the preparations for the opening of the Provincial session on the 15th instant was also disposed of. Those present at the meeting were Sir Lomer Gouin, presiding, Hon. Messrs. L. A. Taschereau, J. E. Caron and J. C. Kaine.

DAY BY DAY

The anti-tuberculosis league is consuming much newspaper space these days. Nice spring weather we are having if we don't fall into the lap of winter again. With the streets full of water citizens have a naval question right at their own doors. The "silver hunters" put Cobalt stock down another peg in Montreal last night. The City Hockey League has evidently got the city on side, judging by the crowd in attendance at the rink last night. Those Bermuda trips look specially fine under the influence of our balmy Scotch skies. 'Tis not every doctor who is willing to give advice for the simple reward of an oyster biscuit, says the Champlain street philosopher. The mare she run all day. She fairly burns up the road. Before the stakes are yet in sight. Teach the young idea how to shoot! Well, what do you think about the Quebec High School marksmen? CONTINUATION OF GREAT SALE. Messrs. Simons & Mingay will continue their great sale until they receive a good part of the new importations. Everything is still reduced. See their new advertisement for silk, etc. QUEBEC FIRE ASSURANCE CO. The annual meeting of the Quebec Fire Assurance Co. was held yesterday at the Company's offices, 81 St. Peter street, at which a statement of the past year's operations was submitted. At a subsequent meeting of the directors, the following officers were elected:— President—Sir C. A. P. Pelletier, K.C.M.G. Vice-President—Thos. H. Norris. Treasurer—Colin E. Sword. ST. PATRICK'S DAY. Mr. T. H. O'Neill, 248 St. John street, is now offering the largest selection of St. Patrick's Day cards ever shown in this city. He has a variety of booklets, or greeting cards, with appropriate designs and verses, which are somewhat of a novelty in the way of a St. Patrick's Day card. He also has an immense stock of choice post cards, all the latest and best designs, including among others exquisite embossed silk post cards, as well as cards which contain a small packet of genuine Irish shamrock seeds. Early purchasers have the best choice. See advt.

DIED
LE BROCK.—On the 1st instant, at the Hotel Dieu, Levis, the beloved wife of J. W. Le Brock, daughter of Detective L. N. J. Patry, aged 19 years and 8 months. The funeral will take place on Friday morning, the remains leaving the late residence of deceased, 155 St. Oliver street, for St. Roch's Church, and thence to St. Charles Cemetery. Friends and acquaintances are respectfully invited to attend without further notice.
MASSEY.—James Redvers, on the 26th February, at Jeffery Hale's Hospital, the beloved son of Sgt. A. J. S. Massey, Royal Canadian Regt., and Rosa Massey. Thanks to kind friends who forwarded their sympathy.
WOODS.—Suddenly Tuesday evening, 1st March, 1910, James Woods, secretary-treasurer of the Quebec Harbor Commission, aged 67 years. Notice of interment later. Funeral from his late residence, No. 58 Maple Avenue, on Friday, at 2:30 p.m., the 4th instant, to the Methodist Church, thence to Mount Hermon Cemetery. Friends and acquaintances are invited to attend.

APPOINTMENT.
Mr. W. V. Taylor, C.E., of Montreal, has been appointed to the staff of the Harbor Commissioners.

Champlain Smoking and Chewing Tobacco

IN JAIL.
—On the first instant, there were fifty-nine prisoners in the Quebec Jail, including two from other jails and three females.

RECORDER'S COURT.
Seven prisoners, charged with drunkenness, appeared before the Recorder yesterday. One, who added bad language to his little drunk, was fined \$15 and costs or one month's jail; three were fined \$2 and costs or eight days each; one \$1 and costs or two days; one was allowed out on suspended sentence, and one was discharged.

FINE PROGRAMME AT THE NICKEL.
The Nickel has the reputation of affording the best line of entertainment of any moving picture house in the city, a reputation which has been acquired by providing their patrons with the latest productions of animated photography and illustrated songs, sung by capable vocalists. The reputation is fully maintained in the usual mid-week change of programme which was inaugurated yesterday afternoon, and a series of comedy and dramatic subjects of the greatest interest are being exhibited. In the former regard a picture entitled "Politics," is a continuous series of humorous situations at which one cannot fail to laugh, while the final climax is a sidesplitter. "The Shepherd's Flute" is a pastoral comedy altogether out of the ordinary comedy pictures in that some exceptionally pretty scenery is shown. Not one whit less of a merry maker is "The Entangled Trooper," which is a screaming farce, from beginning to end. In fact all who wish to relieve themselves of the morbid and bluish feeling have more than ample opportunity of doing so in these above mentioned three subjects. Besides these, there is a dramatic picture entitled "Mother of the Condemned Man," which is beautiful in its pathos, and is splendidly acted. Miss Marie Horgan has a change of song and she is singing "To My First Love," her magnificent contralto voice rendering it with fine effect. Messrs. Carroll and Irving also greatly please their hearers with their vocal numbers and altogether the entertainment is an enjoyable one.

BACK TO PENITENTIARY.
Letourneau, the ex-convict, who was recently re-sentenced to St. Vincent de Paul Penitentiary on a charge of robbery, has been taken back to the penitentiary in charge of Constable Hunter, of the Provincial Police.

MEETING OF JOURNALISTS.
A meeting of the Board of Directors of the Quebec Associated Press Association will be held this afternoon at 5 o'clock. The members of the Association and fellow journalists are requested to attend. By order.

BLESSING OF BELL.
On Sunday afternoon, March 6th, at 4 o'clock, the blessing of a new 500 lbs. bell will take place at the Basilica, Quebec. This bell is to be placed in the temporary chapel of St. Catherine's Church, County Portneuf, of which Rev. S. Jolicoeur is parish priest, awaiting the construction of a new and beautiful church. It will be remembered that the parish church at St. Catherine's was totally destroyed by fire little Christmas Day, 6th January. Rev. Mgr. Faguy will officiate. As many as possible of the friends of Rev. Father Jolicoeur and his parishioners are invited to assist at the blessing.

SAD DEATH.
The death is announced from Levis of Madame Willie C. Brock, who succumbed to an attack of typhoid fever after a short illness. The death of Madame Brock is a particularly sad one. She had not yet reached her twentieth year, and had only been married a little over a year ago. She leaves an infant two months old. Madame Brock was a daughter of Sergeant Patry, of the Provincial Police, with whom and the members of the family there will be general sympathy.

EULOGY FOR THE GRAND TRUNK
In the London Times of February 4th, an article appears from one of their travelling correspondents descriptive of a tour through America, in which the following appears:— "By far the finest travelling I have done so far in America was over the Grand Trunk line from Montreal to Toronto. The Grand Trunk have admittedly a perfect roadbed. We ran at about fifty miles per hour on the International Limited, and none of the English railways could beat it for steadiness. This eulogy from one who is a wide-world traveller is very gratifying to Canadian railways."

METHODIST CHURCH LADIES' AID CONCERT.
—On account of the sudden death and in respect to the late Mr. Jas. Woods, a prominent member of the Methodist Church, the concert in Y.M.C.A. will be postponed to March 17.

YOUR ELECTRIC FIXTURES.
Attention is directed to the advertisement of P. P. Giguere & Co., which is appearing in another column. This company makes a specialty in installing electric fixtures according to the rules and regulations of the Canadian Fire Underwriters' Association.

BIG SEAT SALE.
The sale of seats for "The Rajah" was opened to the public yesterday at the Auditorium, with the result that the first night's performance is over half sold out. Evidently much interest is being taken in the efforts of Messrs. Vezeina and Michaud to provide an original opera for local patrons.

THE TAILOR-DRESSED MAN.
The tailor-dressed man stands out from the crowd. That is the man whose tailor puts style and individuality into the clothes that are worn. If you wish to appear at your best in the most fashionable and comfortable of your wardrobe, make your spring suit and overcoat. He has just received from England a very large and handsome assortment of spring goods which it will be a pleasure to show. He has also the very latest styles and his past reputation stands as a guarantee as to your receiving a suit and overcoat perfect in style and finish. At Lee's you are assured the highest value for the lowest possible price. See advt. elsewhere.

RESOLUTION OF CONDOLENCE.
While the meeting of the Board of Directors was in session on Tuesday evening word was received of the sudden death of Mr. James Woods, once the Treasurer of the Association. The following resolution was at once framed and unanimously adopted to be inserted in the minutes of the Board:— Resolved.—That at this monthly meeting of the Board of Directors of the Young Men's Christian Association the startling and painful news of the death of Mr. James Woods having been conveyed to the members while in session. Mr. Woods having been for many years a most active officer and member of the Association, it is with grief they record his removal from among them, and would extend to his sorrowing widow and children their most heartfelt sympathy in this hour of their bereavement, when by the inscrutable wisdom of Providence they are deprived of a loving husband and father.

CHAMBER CONCERT AT Y.M.C.A.
The Ladies' Aid of the Methodist Church propose holding a Chamber Concert in the Y.M.C.A. Hall, Thursday, March 17th, which is promised to be a veritable musical treat, as the organization is in the hands of the leading musicians of our city. There will be an orchestra of eleven performers, and each performer being an artist on his respective instrument. Selections will be given from Beethoven, Gounod, Focquier, etc. The soloists will include Miss Ethel Holtby, Miss A. M. Davies, Mr. S. G. Claxton, etc., and as the price of admission is within the reach of all, lovers of good chamber music should take advantage of this opportunity and reserve the date.—See advt. Feb. 23-mar. 3x2.

At Lee's you are assured the highest value for the lowest possible price. See advt. elsewhere.

RESOLUTION OF CONDOLENCE.
While the meeting of the Board of Directors was in session on Tuesday evening word was received of the sudden death of Mr. James Woods, once the Treasurer of the Association. The following resolution was at once framed and unanimously adopted to be inserted in the minutes of the Board:— Resolved.—That at this monthly meeting of the Board of Directors of the Young Men's Christian Association the startling and painful news of the death of Mr. James Woods having been conveyed to the members while in session. Mr. Woods having been for many years a most active officer and member of the Association, it is with grief they record his removal from among them, and would extend to his sorrowing widow and children their most heartfelt sympathy in this hour of their bereavement, when by the inscrutable wisdom of Providence they are deprived of a loving husband and father.

CHAMBER CONCERT AT Y.M.C.A.
The Ladies' Aid of the Methodist Church propose holding a Chamber Concert in the Y.M.C.A. Hall, Thursday, March 17th, which is promised to be a veritable musical treat, as the organization is in the hands of the leading musicians of our city. There will be an orchestra of eleven performers, and each performer being an artist on his respective instrument. Selections will be given from Beethoven, Gounod, Focquier, etc. The soloists will include Miss Ethel Holtby, Miss A. M. Davies, Mr. S. G. Claxton, etc., and as the price of admission is within the reach of all, lovers of good chamber music should take advantage of this opportunity and reserve the date.—See advt. Feb. 23-mar. 3x2.

CHILDREN

In disorders and diseases of children drugs seldom do good and often do harm.

Scott's Emulsion

is the food-medicine that not only nourishes them most, but also regulates their digestion. It is a wonderful tonic for children of all ages.

Scott & Bowne 128 Wellington St., West, Toronto, Ont.

THIRTY YEARS AGO IN OLD QUEBEC

Extracts from the Chronicle, March 3rd, 1880.—The Silbery Bridge.—We learn that the ice bridge, which has existed for some time past at Silbery, yielded to the influence of the tide and warm weather of Saturday last and broke up.

Personal.—Our esteemed fellow-citizen, Mr. Richard Turner, of the firm of Whitehead & Turner, was a passenger by the steamer, City of Washington, of the Alexandria Line, which left New York on Thursday, the 19th February, and reached Havana on the following Monday, making the trip in three days and 13 hours, being the fastest passage on record.

Dinner at Spencer Wood.—The following were the invitations to dinner at Spencer Wood last evening:—Hon. J. A. Chapleau, Prime Minister of the Province of Quebec; Hon. E. T. Paquet, Provincial Secretary; Mr. J. Forteous, Manager of the Bank of Montreal; Mr. C. F. Smith, Manager of the Bank of British North America; Mr. Jas. Stevenson, cashier of the Quebec Bank; Mr. C. MacEwen, cashier of the National Bank; Mr. H. M. Price, Manager of the Merchants' Bank; Mr. J. M. LeMoine, Revenue Inspector; Mr. J. W. Dunscombe, Collector of H. M. Customs; Captain Hincham, Chief of Police; Hon. Mr. Ruthven, Lt.-Col. Montzambert, "B" Battery, Canadian Artillery; Lt.-Col. Forsyth, Queen's Own Canadian Hussars; Lt.-Col. Albyn, 8th R.R.; Lt.-Col. Vohl, 9th Battalion; Lt.-Col. Baby, Q.F.B.; Lt.-Col. Lamontagne, Brigade Major; Mr. J. J. Foote, Hon. P. Garneau, Mr. Thos. Chapais, Private Secretary; Dr. L. Girard, Dr. H. Miles, Dr. J. A. Sewell, Dr. Lemieux, Hon. J. Thibaut, Mr. W. Sharples, Mr. J. Hamel, Mr. A. Luders Light, Mr. W. Herring, Mr. G. R. Coker, Mr. Naz. Turcotte, Dr. O. Robitaille, Mr. Laurent Tetu, Hon. Mr. Justice Stuart, Hon. John Hearn, M.L.C.; Mr. Simon Peters, Mr. R. H. McGreevy, Mr. Robt. Hamilton, Mr. J. A. Defoy, Assistant Crown Law Officer; Mr. F. Kirouac, Mayor of St. Saviour; Rev. C. Hamilton, Rev. C. W. Rawson, Hon. L. J. C. Fiset, Mr. J. H. Burroughs, Hon. Mr. Justice Maguire, Mr. James Dunbar, O.C., Hon. Chief Justice Sir A. A. Dorion, Hon. Mr. Justice Ramsay, Hon. Mr. Justice Monk, Hon. Mr. Justice Cross, Mr. L. A. Robitaille, Mr. L. J. Riopel.

Audelin Scho', the celebrated Parisian critic, is at war with such familiar stage phrases as "Fly I while there is yet time!" "Speak to me, tell me that it is false, but say that you are innocent!" "Do you not see that I am going mad?" "Fool, do not trifle with a desperate man." "You are silent. Not a word; oh! heaven, then it is true." "Remember, sir, that there are two kinds of honor, one for gentlemen of your class and one for humble working men." "An insurmountable barrier lifts itself between us." "God, of Heaven, I am lost." "Back, villain, or I'll lay you dead at my feet."

"WHY BE SO THIN?"

Thinness is Embarrassing, Unhealthy and Not Natural—Formula Now Used Which Adds From One to Three Pounds a Week.

Every one ought to have some extra flesh on the bone structure of the body, both for the sake of health and self-esteem.

Most thin people are sensitive to the harsh, unfeeling criticisms which are constantly being hurled at them by the more fortunate well-figured persons.

Every one pities a thin, bony horse, but horses don't know it—while thin people are both pitied and ridiculed. It ought not to be so, but it is.

A well rounded figure, be it man or woman, excites admiration; not only for the figure but for the bright eyes, pink cheeks, red lips, and vigorous carriage which accompany a well-nourished body.

Strength, health, beauty and sound flesh abound, if the blood and nerves get enough nourishment out of the food eaten.

This prescription aids nature; helps absorption, digestion and assimilation; helps distribute the blood and nerve elements which make sound flesh. Get the ingredients and make it at home, and see how very fast you gain in weight.

In a half pint bottle, obtain three ounces of essence of papain, three ounces syrup of rhubarb. Then add one ounce compound essence cardiol, shake and let stand two hours; then add one ounce tincture cadomene compound, (not cardamom). Shake well and take a teaspoonful before meals and after meals. Also drink plenty of water between meals and when retiring. Weigh yourself before beginning.

HOGS STILL ON THE RISE

Cleveland, O., March 2.—The highest price ever recorded for hogs in the local market was reached to-day when they were quoted at \$10.10. The civil war record was \$10.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied, 50c. at all Dealers or Retailers, BATES & CO., Toronto.

NOTES FROM THE CAPITAL

Georgian Bay Canal—Dominion Rifle Association—Land Surveyors Elect Officers.

Ottawa, March 2.—During January 2,698 homesteads were entered in the Canadian West. Last year the same month totalled 1,808. Canadian entries were 661, Canadians from the United States 45, Americans 985, English 331, Scotch 97, Irish 29, and 413 from all other countries. In the Supreme Court judgment was reserved in the case of the Michigan Central Railway vs. O'Brien. The action was against the award of \$1,500 damages awarded an employee who was hit by a piece of coal while at work on the railway. Argument will continue to-morrow of Clarkson vs. Crawford and Clarkson vs. Berier. The action arises out of an oil well of the Sovereign Oil Co., now the Dominion Oil Co., and the claim of paid up stock on the part of Clarkson. The annual meeting of the Association of Dominion Land Surveyors is in progress at the Carnegie Library. The officers elected for the coming year are:—Hon. President, Dr. W. F. King, Ottawa; President, Mr. Thos. Dawcet, Niagara Falls; Vice-President, Mr. P. R. A. Belanger, Ottawa; Secretary-Treasurer, Mr. A. W. Ashton, Ottawa; Executive: Messrs. J. D. Craig, Ottawa; C. F. Aylesworth, Madoc, Ont.; F. T. Nash, Ottawa.

A leading member of the Dominion Rifle Association stated that it will be practically certain that figure targets would be used this year in one or more of the matches that count in the grand aggregate. This will be one of the most important moves by the Association for many years. While there are a few matches in which figure targets are used already, it has been a principle consistently adhered to that only bullseye targets be used in matches which count in the grand aggregate and in the Bisley aggregate. The figure targets will be used even, it is stated, in the big match of them all, the Governor-General's, at some range. This decision has been more or less forced by the action of the National Rifle Association at Bisley which has decided for figure targets at 500 yards in the King's match.

Sheriff Wright, of Hull, has returned from Blind River and Sudbury, with a prisoner in the person of O. Lepine, who is alleged to have stabbed a mail clerk on the Gatineau train in 1906. The Sheriff received information that Lepine, who had been out on bail for the past four years, intended to leave the country and a bench warrant was secured and the accused was arrested at Blind River. He will come up for trial at the Criminal Assizes in Hull on the 8th inst.

Yesterday afternoon a servant girl, whose name the police have, took a trunk to the Salvation Army rescue home on Daly Avenue and asked for admittance. She appeared to be in great trouble. Later the trunk was examined and found to contain the dead body of a new-born baby. The child was well developed and had only been dead a short time. How its death occurred is not known at present, but an inquest is being held. Replying to the deputation of the Federated Boards of Trade who urged the commencement of the Georgian Bay Canal, Sir Wilfrid Laurier said he regretted that the work could not be commenced immediately. He added that he would be a happy man, if during his regime as Premier of Canada, the work could be undertaken. "If the resources of the country keep on increasing, as they have since the recent financial crisis, I see no reason why we cannot start soon."

FATAL RAILWAY SMASH

Spokane, Wn., March 2.—Advices from Milan, where the eastbound Oriental Limited, the fastest train on the Great Northern Railroad, was wrecked to-day, say that Fireman Miller and a tramp were killed, and three passengers were injured. Four baggage and mail cars were destroyed by fire. All the mail was destroyed, except two registered pouches.

BUILDING OPERATIONS IN TORONTO

Toronto, March 2.—From January 1st to February 28th the city architect has issued 355 permits for buildings to cost approximately \$1,542,528 as compared with 329 permits for the same period last year at an approximate cost of \$1,233,000. During February the cost of buildings for which permits were issued amounted to \$860,440 or an increase of \$7,405 over the same month last year.

A CLUE TO A MURDER

Parry Sound, March 2.—An important clue as to the motive for the murder of Michael J. Davis, has been found on an examination of the clothing of the murdered man. Davis was fully dressed when killed, and blood has been found on the lower edge of his vest and in his trouser pockets, showing that after killing Davis the murderer put his bloody hands into the murdered man's pockets. This gives color to the theory that Davis had been talking too freely of a loan on his farm and that robbery was the motive.

PRESSMEN ELECT OFFICERS

Cincinnati, Mar. 2.—The biennial vote of the International Pressmen and Assistants Union "for their National Executive Council, was announced to-day, showing a 65 per cent. vote out of a membership of 22,000. Geo. L. Barry, of San Francisco, was re-elected President, his fourth consecutive election by unanimous vote. The others elected are:—Peter J. Dobbs, New York, First Vice-President; Michael H. Flannery, Chicago, and Albert B. Kreidler, New York, Vice-Presidents, Chas. B. Crowley, Holyoke, Mass., Secretary-Treasurer. The keenest fight was between Patrick J. McMullen, Cincinnati, the Secretary-Treasurer, and Crowley, the latter winning by a majority of 900.

St. John, N.B., March 2.—The C.P.R. station agent at Woodstock was fined fifty dollars for having liquor in a freight shed in a Scott Act county. Two barrels marked groceries were found to contain liquor shipped from St. John. They were seized and a prosecution followed. Under the law the railway agent is liable.

SUN LIFE ASSURANCE COMPANY of Canada. A Great Year

The Splendid record of the Sun Life of Canada is typical of the advancement of Canada and its institutions.

For the first time a Canadian Company has secured more than Twenty Millions of Paid-for business in one year.

\$648,000 Annuity premiums received last year—the strongest evidence of public favor.

The increases made by the Company each year are greater than the total figures of some excellent companies.

The exceedingly remunerative character of the Company's investments assures a continuance of a high basis of profits to policyholders.

Table with 2 columns: Description and Amount. Rows include Assurances issued in 1909 and paid for in Cash, Cash Income from all sources, Assets as at 31st December, 1909, Profits earned in 1909, Profits paid policyholders entitled to participate in 1909, Added to Surplus for future profits and further protection of policyholders, Surplus, Company's valuation Standard, Surplus, Government Standard, Payments to policyholders and beneficiaries in 1909, Total payments to policyholders since organization, Total Life assurances in force December 31st, 1909.

The Above Splendid Results Were Obtained with a Reduction in the Ratio of Expense. THE COMPANY'S GROWTH.

Table with 4 columns: Year, Income, Assets Exclusive of Uncalled Capital, Life Assurance in Force. Rows for years 1872, 1879, 1889, 1899, 1909.

DISASTROUS FLOODS

Boise, Idaho, March 2.—The valleys of Idaho from the headwaters of the Snake River to the Oregon line, and from the Owyhee to the stricken Couer D'Alene district are being swept by the most disastrous floods in the history of the State. Several irrigation dams are imperilled.

SHIPPING NEWS

QUEBEC STEAMSHIP CO. Steamer Bermudian sailed from New York for Bermuda at 10 a.m. yesterday.

WHITE STAR LINE.

Steamer Laurentic, sailing from New York for Liverpool on the 5th of March, will leave from pier No. 60 at the foot of West 30th Street, instead of pier No. 61 at the foot of West 21st Street.

HAD HEAVY WEATHER.

New York, March 2.—The Kaiser Wilhelm Der Grosse, which arrived to-night from Bremen, reported a passage so rough that she was obliged to trail bags of oil to keep down the sea. For three days she steamed at reduced speed, and on one day made less than half her normal distance.

IN COLLISION.

New York, March 2.—Steamer Tagus and schooner Republic were in collision off the coast to-day. The schooner was badly damaged. The Tagus stood by the Republic until to-night, when she left her at anchor in apparently no danger. Mr. S. S. Bogart, vice-president of the United Wireless Co., said to-night that there had been serious difficulty in getting the Tagus, owing to the persistent interference of some operator who kept sending out a steady stream of meaningless cackles. Because of this interference the Tagus might have been sinking with all on board and nobody within wireless hearing, afloat or ashore, the wiser. Mr. Bogart said the Secretary of the United Wireless Co. would go to Washington to urge legislation safeguarding established companies in their business against needless interference.

TORONTO MAN WON

Saskatoon, Sask., March 2.—Frank Carroll, of Toronto, won in a fifteen round bout with Young Maxwell, of Moosejaw, here last night. The 11th round had just begun, and Maxwell had come up after a clinch at the ropes, when Carroll suddenly rushed in and got home a clean straight hook with his left on Maxwell's jaw. When time was called Maxwell failed to rise, and Carroll was adjudged the winner.

TO POSTPONE EXPOSITION

Berlin, March 2.—The German directors of the American Exposition to-day decided to accept the suggestion presented by the commissioners that the date of the exposition be postponed from the coming summer to the summer of 1911 and that the character of the enterprise be changed from a strictly American show to an American-German joint affair.

MEETING OF THE CITY COUNCIL

Friday, February 25th, 1916.

Present:--His Worship the Mayor, Aldermen Barbeau, Campbell, Cannon, Collier, Cummings, Dinan, Gauvreau, Fiset, Hogan, Huard, Jobin, Lantier, Lavigne, Lemay, Lockwell, Madden, Matte, Messervy, Mulrony, Paquet, Picard, Plamondon, Pouliot, Samson, St. Pierre, Verret--(26).
The minutes of the last meeting are read and confirmed.

Read a letter from the Quebec Board of Trade, enquiring whether the City Council made any progress in the negotiations with the directors of the Canadian Northern Railway Co. on the subject of the fulfilment of the obligations of the Great Northern, viz: the building of workshops within the limits of the city. Referred to the Finance Committee.

Read another letter from the Quebec Board of Trade requesting the Council to adjourn to the new Council for consideration the fifth clause of the draft of amendments to the city charter of Quebec, in order to allow the taxpayers to take fuller knowledge of the consequences which might result through its adoption. Referred to the Finance Committee.

Read a letter from the Canadian Federation of Boards of Trade and Municipalities requesting the Council to give its approval and support to the resolution and of the steps taken by them urging the Canadian Government to press the commencement of the work of the Georgian Bay canal. Referred to the Finance Committee.

Read a letter from Mr. Walter Ray, renewing his request to the Council to obtain the privilege, for the space of twenty-five years, of a limitation of taxation on residential buildings which he intends to have erected on Grande Allee. Referred to the Finance Committee.

Presented a notarial protest from Mrs. Alphonse Jobin, protesting the city for any damages resulting to her of the refusal by the city authorities to sign in her favor a deed of lease, which has been granted to her by a resolution of the Market Committee. Referred to the legal advisers of the city.

Presented the 1945th report of the Finance Committee to grant an indemnity to the City Clerk and to the Assistant City Clerk for extra work in connection with the annexation of Limoilou.

Presented the 1946th report of the same committee, to grant an indemnity to Dr. Paquin for services rendered to the Health Department.

Moved by Ald. Picard, seconded by Ald. Lemay, and resolved: That the said three reports be taken up as the 5th, 6th and 7th orders of the day.

Ald. Picard moves that His Worship the Mayor leave the chair and that his place be taken by Ald. Lemay, Pro-Mayor; and Ald. Lemay, Pro-Mayor, takes the chair.

Ald. Verret, then moves, seconded by Ald. Verret, and it is unanimously resolved: That the following order of the day be entered in the minutes of the Council:--At this, their last meeting, before handing over to their successors the mandate entrusted to them, the members of the Council wish to express to His Worship the Mayor, Sir Georges Garneau, their high appreciation of the eminent services he has rendered to the city during the four years of his brilliant and fruitful administration. They are happy to bear public testimony to the indefatigable zeal, constant activity and unflinching attention with which His Worship has devoted his time and efforts to the city's service. The members of the Council will retain a pleasant recollection of their relations with him, of the dignity and courtesy with which he has presided over their meetings, and the great ability he has displayed in the administration of the civic finances. The many and important questions that have been solved during the past four years and, above all, the prominent part he took in the celebration of the three hundredth anniversary of the foundation of Quebec, during which he did the honor of the city of Champlain with perfect dignity, render him worthy of a high rank amongst the distinguished men who have occupied the chair of Mayor of Quebec. The members of the Council are happy to associate Lady Garneau and their charming family in the wishes they now express for his happiness in the remainder of his career. Your Worship, a pleasant duty now

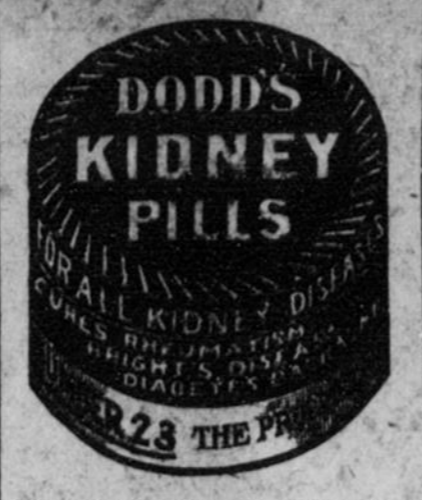

devolves on us. It is to offer you, as a souvenir from the members of this Council, the same chair in which your father sat as Mayor of Quebec. During the long hours of labor you devoted to the city's service, your thoughts must often have reverted, with legitimate pride, to him who, 40 years ago, presided over the deliberations of this Council with the same dignity, ability and devotedness to duty that we have observed in the son. We flatter ourselves with the hope that this article of furniture, humble as it is, will be of value to you, since, from a place of honor in your home, it will tell every one, and particularly your children as an example and, if necessary, an incentive that, in less than half a century, your family has given to its native city, the city of Quebec, its most inferior to their honorable predecessors.

His Worship the Mayor acknowledges, in fitting terms, the resolution and the gift.

ORDERS OF THE DAY.
1st Order of the Day--The Council proceeds to the examination, correction, if necessary, and approval of the extract from the valuation roll containing the list of persons qualified to act as grand and petty jurors for the city of Quebec for the year 1916.
The City Clerk informs the Council that the public notices required by law have been duly published in the official newspapers of the city, that the said lists have been opened to the inspection of the public, as required by law, that no complaint has been filed against the said lists, and that the Council may now proceed to approve them as correct.

It is then resolved: That this Council approves the said extract of the valuation roll, containing the list of grand and petty jurors for the city of Quebec, for the year 1916. His Worship the Mayor then declares the said list approved.

2nd Order of the Day--The Council proceeds to the consideration of the first report of the Special Committee on Amendments to the City Charter and draft of proposed amendments to be asked from the Legislature at its next session.
Clause 1 being read, Alderman Verret moves, seconded by Ald. Mulrony, that the said clause 1st be amended by replacing the word "two," in the second line, by the word "three," figure "two," in the third line, by figure "three," and by adding after the words "of the said street," at the end of the said article "one hundred thousand dollars (\$100,000) to pave in scoriae blocks that portion of St. Andrew street comprised between Prince of Wales street and the western extremity of Parent Square; 2. to complete the paving of Dalhousie street, between Sous-le-Fort street and Champlain street, and also between St. James street and the northern extremity of the Customs' building, known as the Examining Warehouse."

both languages, is adopted, and His Worship the Mayor declares the said by-law read a second time and adopted.
4th Order of the Day--Pursuant to notice, the motion of Ald. Cannon is called and postponed to the next meeting of the Council for consideration.
5th Order of the Day--Read the 1945th report of the Finance Committee, which being put to the vote, is adopted, and it is in consequence resolved: That the Council hereby grants indemnities to the City Clerk and to the Assistant City Clerk for extra work for the preparation and holding of the general municipal elections in 1910, as follows, to wit: To the City Clerk, the sum of \$150 and to the Assistant City Clerk, the sum of \$100, forming the sum of \$250, to be charged to the credits voted for contingents.
6th Order of the Day--Read the 1946th report of the Finance Committee, which being put to the vote, is adopted, and it is in consequence resolved: That the Council hereby grant an indemnity to the City Engineer for extra work in connection with the annexation of Limoilou the sum of \$280, the amount to be charged to the credits voted for contingents.
7th Order of the Day--Read the 1947th report of the Finance Committee, which being put to the vote, is adopted, and it is resolved: That this Council hereby grants an indemnity of \$600 to Dr. Paquin for numerous gratuitous services rendered to the Board of Health, the said amount to be charged to the credits voted for contingents.

NOTICES OF MOTION.
Ald. Lantier gives notice that, at the next meeting of this Council, he will move:--That paragraph 1 of the amendments to the city charter be amended: 1. By replacing the figures two hundred and thirty-five thousand dollars (\$235,000) by the figure two hundred and forty-five thousand dollars (\$245,000), and 2. By adding, at the end of the third paragraph, after the word "street," ten thousand dollars (\$10,000) to pay the cost of widening Palace street, between St. John and Charlevoix street, on the eastern side, in case the said Council should deem it opportune to order the said widening.

Ald. Gauvreau gives notice that, at the next meeting of this Council, he will move the following amendment to the city charter:--With the consent of the majority of the owners of lots on a street, or part of a street in the city, the said owners may make a uniform permanent sidewalk of homogeneous materials in such street, or part of a street. The said sidewalk may be made on both sides of the said street, or on one side only, according to the consent of the majority of the said owners of lots on each side of the street respectively, and as the case may be. Such consent shall be given by a written document, signed by each of the persons constituting the majority of the said owners, and shall be deposited in the office of the City Clerk and be submitted for consideration and approval of the City Council. The said Council shall thereupon, by resolution, determine what materials shall be used in making such sidewalks; and, after the passing of the said resolution, the city shall call for tenders for making such sidewalks in the same manner as tenders are called for paving streets. To pay the cost of such works the city may, from time to time, and as the same may be necessary, issue and sell bonds in the manner set forth for the loan authorized by sections of the present act, the proceeds thereof to be devoted to paying the costs of such works. The owner of a lot in front of which such sidewalk is made, shall pay to the city, on demand, one-half of the cost of such sidewalk, in default whereof the amount so due may be recovered from him by and before the Recorder's Court of the said city, with interest and costs. Such claim shall have the same privilege as municipal assessments and taxes. All amounts repaid to the city by the said owners for their half of the costs of the said sidewalks, shall be placed in the sinking fund established for the payment of the said bonds at maturity.

Moved by Ald. Verret, seconded by Ald. Messervy, and resolved:--That this Council do now adjourn.
Adjourned.

MOTIONS.
Ald. Verret moves, seconded by Ald. Lemay, and it is resolved:--That the City Clerk is hereby requested to write to the Secretary of the Union of Canadian Municipalities that, in the opinion of this Council, it is desirable to give support to the suggestions made to the Federal Government to enact a statute to prohibit the pollution of water courses.
Moved by Ald. Verret, seconded by Ald. Messervy, and resolved:--That this Council do now adjourn.
Adjourned.

NATURE TELLS YOU
As Many a Quebec Reader Knows Too Well.
When the kidneys are sick, Nature tells you all about it. The urine is Nature's calendar. Infrequent or too frequent action; Any urinary trouble tells of kidney ills.
Booth's Kidney Pills cure all kidney ills.
Quebec City people testify to this. Mrs. W. H. Polly, of 360 John St., Quebec, Que., says: "Kidney trouble which had caused Mr. Polly much suffering and annoyance for years was quickly relieved and shortly cured by Booth's Kidney Pills. He had suffered with a very lame back and weakness of the kidneys and the secretions were so frequent that he would be obliged to get up several times through the night. He had also been frequently troubled with headaches and dizziness. On learning of an advertisement, he procured a box at Henry Willis' Pharmacy and I am pleased to say that he found them to be the best remedy he has ever used. The pains in his back have left him and the kidney secretions have become normal. The headaches and dizziness have disappeared and he feels much better generally."
Sold by Dealers. Price 50 cents. The R. T. Booth Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

CAP ROUGE.
Building lots 35 x 115 are now offered to the public at attractive prices and on liberal terms, on the heights at Cap Rouge, overlooking the St. Lawrence, three minutes' walk from nice sandy beach, boating, bathing, etc.; only ten minutes walk from the Canadian Northern Quebec Railway Station.
Good train service.

NOTICE IS HEREBY GIVEN THAT Mr. Andreonique Lafond will apply to the Legislature, at its next session, for an act to antedate his brevet, and permit him to practice medicine, after examination. Morand & Savard, Attorneys for Pettit, Quebec, Jan. 28, 1916.

PRINTING

IF you use Printing in any form and desire to have it put in the most suitable shape, we can serve you.

In Printing, good or bad, the main items of cost are fixed and you pay as much for stock, for composition, and for presswork to one printer as another, provided he is estimating with a true knowledge of his costs and a fair profit. The fact that one piece of work is more attractive than another is caused only by the intelligence with which it is planned and care which the work receives. This planning and careful supervision is not expensive, and the difference in price between good and poor printing is less than you may suppose, while the difference in selling power may be—probably will be—several times greater than any POSSIBLE difference in cost.

We have the knowledge and facilities necessary for producing good Printing and shall be glad to exert them on your orders.

THE WAR AGAINST THE WHITE PLAGUE

Official Opening of the Exposition in Laval University—Large Attendance of Citizens.

The official inauguration of the Anti-Tuberculosis League took place last evening at the Laval University, in the presence of a very large number of citizens, several hundred being unable to enter the hall owing to the large crowd present. The organizers had left nothing undone to make the exhibition a success, and while speeches were delivered in the Convocation Hall, a number of local physicians were in attendance to demonstrate to the public the significance of the various exhibits.

Sir Francois Langelier, President of the Anti-Tuberculosis League, presided, having on his right Mgr. Roy, Mayor Drouin, Drs. Rousseau and Grouin, and on his left, Very Rev. Dean Williams, Dr. Adami, Dr. Simard, and Rev. Mr. Gosselin, Rector of Laval University.

Among those occupying prominent seats were Sir C. A. F. Pelletier, Lieutenant-Governor, who was accompanied by Capt. Pelletier, A. D. C., Major Panet, A. D. C., and Mr. Alp. Gouin, Private Secretary, Sir Lomer Gouin, Judge Routhier, Hon. Messrs. De La Bruere, Pelletier, Chapais and Mr. Mathieu.

The chairman introduced the different speakers and referred to the object of the League and the exhibition now being held, which was an honor to the promoters, and those who had aided them so enthusiastically.

Premier Gouin was the next speaker and remarked that he had been often told that politics were the curse of this country, but he was pleased to a certain extent, to learn that tuberculosis was now the curse, but he would, as far as he was concerned, try to do all in his power to support those who had undertaken to combat the disease.

DR. ADAMI'S ADDRESS.

Dr. Adami, on rising, said that the presence of so distinguished and numerous an assembly convinced him that this Anti-Tuberculosis movement, which might be a source of incalculable benefit to the city, was supported by all that was best and most influential in the district.

His audience was probably animated by different motives; some who had studied the subject deeply, others who were inspired rather by philanthropy than by science; others, whose own bitter losses had familiarized them with the power of the disease; and lastly those, who with little interest and less sympathy, had come at the request of their friends, or because of the social nature of the occasion demanded. He could realize the salient criticism of certain of his audience—"O, this man is a crank—this anti-tuberculosis campaign is merely a fashionable craze—it is idiotic to think that a roomful of utterly dry charts of figures and statistics, and of photographs of slums, and mean rooms with a collection of pickled humanity thrown in as a side-show, can cause any but a mild, temporary and somewhat morbid sensation."

Well, he was no crank. They might observe that he was not of the build of martyrs and enthusiasts, but just a mere humdrum, ordinary mortal, who had been brought to take an interest in the subject by the existence of disease in his own family circle, and by the demonstration that it could be successfully fought against, arrested and prevented. This campaign meant not only a fight to extirpate one particular disease; it also implied a wider movement for healthy living and incidentally good citizenship.

The bulk of the articles gathered together in this exhibition had been gathered together for the Montreal Exhibition. As having been chairman of the Exhibition Committee he could speak authoritatively. It had proved that a really good exhibition was dependent upon a host of allied organizations, such as the Victorian Order of Nurses, the Diet Dispensary, the City and Provincial Boards of Health, the Dental Association, etc., etc. The work of gathering statistics was no light undertaking. All classes, creeds and races had attended at Montreal; altogether 25,000 children had been given popular instruction, and they might say that as much as one-seventh of the total population had visited the exhibition. A striking result had been the number of open windows to be seen, whilst a general stimulus had been given to hygienic improvements.

Nor was this all; the close and cordial co-operation of the various charitable and social associations in this matter, while establishing a wider interest in each other's work, led directly to the formation of the City Improvement League, which had proved a factor of great good in altering the conditions of civil life for the better.

However, they must not forget that the main object of the Anti-Tuberculosis League was to combat tuberculosis. A quiet examination of statistics might argue the case hopeless from the outset. His own statistics in Montreal showed that about half the post mortems performed in the Royal Victoria Hospital presented evidences of the disease recognizable by the naked eye—and that in a hospital which did not willingly admit active cases. He did not mean to say that half the cases had died of it; only some 15 out of each 100 showed active traces, but the rest had been attacked at some time. He would cite an illustration given by the Governor-General last year. If two or three times a week some loathly monster prowling through the streets carried off some victim on each appearance, they would not brook such a state of affairs. Yet, for all the invisibility of his attack tuberculosis was such a monster. They must unite to drive him out. The very fact that while 50 per cent—and some said 90—of all who reached adult life, showed evidences of past infection with the disease, only 12 per cent died of it, proved that it was a curable disease.

Broadly speaking therefore, said Dr. Adami, the campaign against tuberculosis resolves itself into three separate movements, namely: (1) prevention, the putting into effect of all means which will hinder the healthy from becoming infected; (2) cure, the proper treatment of those in whom the infection is not so far advanced but that it can be controlled and the individual once more be rendered a useful member of society; and (3) the care of those in whom, alas, the

disease has reached an incurable stage. It is difficult to say which of these is the most important. At first thought one would be inclined to say that the last is the least. Why waste our efforts and our funds over those whose case is hopeless? And yet as Koch pointed out some years ago the main reason why Great Britain has led the world in the reduction of the tuberculosis among her population, why Great Britain showed a steady diminution in the death rate from phthisis even before we knew anything about the tubercle bacillus is just this, that she has for long provided to a greater extent than any other country special hospitals for the care, and for the segregation for the rest of the community of these advanced and hopeless cases. And Dr. News-holme, the head medical officer of the local government board in England, in the most thoughtful address that he delivered before the International Congress at Washington in 1908 proved, I think, conclusively the correctness of Koch's view. But as soon will all know when the Anti-Tuberculosis Campaign first took form in Germany, and in the United States and to some extent here in Canada, the segregation and treatment of curable cases in sanatoria, and later at their homes has been by many regarded as the most urgent and most effective measure, while thirdly, I think that all are convinced of the truth of that homely old adage "prevention is better than cure," are convinced that is that if we can bring up the rising generation to understand how to keep themselves in good bodily health, to live in healthy surroundings, to recognize and carry out the precautions necessary to prevent infection when in the proximity of those suffering from the disease, then we shall surely cut down the tuberculosis death rate.

The truth is that all are important and all react one on the other—so that in any properly conducted campaign all have to be taken up. I would now employ a few minutes—if I have not already exhausted you—by discussing if I may venture to do so the most practical means that you in this city can employ to stamp out the scourge. And I do this, ladies and gentlemen, with the knowledge that the Premier is on the platform—that he fully realizes the responsibility of the Government in regard to this serious social evil, nay more that he has appointed a Royal Commission to study the subject and advise him on the matter, a commission which I have the honor to be a member along with Dr. Ahern, Dr. Simard, Dr. Rousseau and Dr. Paquin.

I know that he realizes the magnitude of the evil, so much so that he is fearful if the Government with its not too abundant funds can cope with it. Nay more, I have a shrewd suspicion that sometimes he lies awake at nights and wonders if a commission composed of eleven doctors to one lawyer can bring in a practical and business-like report.

Continuing, Professor Adami said that the incurable cases must be effectively isolated. As regarded the curable it was estimated that only one in 250 of the general population was actively tuberculous, the other 249 being quite harmless. Only "Open" tuberculosis was dangerous. He quoted a case where a young man, who had suffered from phthisis, who thought himself recovered, opened up a drug store in a new house just built. Within a year, his disease proving fatal, he sold out to another druggist. Within a year the second occupant was struck down with tuberculosis. A third incomer, the picture of health, suffered the same fate. That store was now shunned as a plague-house.

The hospital treatment of such cases, said Dr. Adami, may last for long months and under ordinary conditions, becomes a painfully heavy burden upon the community. You know that the usual cost of patients in the hospitals of this continent is over a dollar—sometimes nearer to two dollars a day. Can the community afford to spend at the rate of \$300 to \$400 a year for each of these patients. What I have been preaching at Hamilton last year at the meeting of the Dominion Association and in Montreal and preaching, I trust, with all the more effect because I am a Protestant, is that this Province is so situated that it can solve this problem and lead the world. We know this from our Montreal experience. With us that noble band of women, the Sisters of Providence are willing to care for just these cases not at \$30 to \$40, but at \$10 a month. Through their devotion and good work they opened a door for us to face and conquer this economic difficulty. And we in Montreal well know how admirably the Sisters care for these poor patients be they Catholic or Protestant. I would ask you, Monseigneur, to help us to place the Province of Quebec in the forefront of the civilized world in this campaign against tuberculosis. Nor am I asking the church to enter upon any new task. In the dark and middle ages another chronic but surely fatal disease, in many respects curiously like tuberculosis, was rife throughout Europe. I mean leprosy. It was the Roman Catholic church that extirpated it. Under its care no less than forty hospitals for the isolation of lepers were established through England, the first at York in the year 936. By the middle of the fourteenth century the disease was non-existent from one end of the country to the other. The same good work was accomplished by the church in France and Italy and all European countries. In these modern days with the diffusion of knowledge, and I may add of wealth and charity it will take no four hundred years to extirpate tuberculosis from Quebec. I would ask you, Monseigneur, to join with the other bishops of this province, to lead us in this beneficent work, to show to the outer world what Catholic Quebec can accomplish. For to repeat it can be accomplished—and more surely than by any other means through the agency of the good and devoted Sisters.

Next as regards the care of curable cases. As I would say that here again we are learning to employ sound and economical methods. We are learning, that is, that the patient can be treated in his own home, and this necessarily at a very much lower cost than is possible in specially built sanatoria. Do not from this think that I advise that sanatoria are useless. Very far from it. For those who want and who can afford to undergo a thorough treatment extending from six to nine months, there is nothing better than the sanatorium treatment, nor do I know of any more admirable sanatorium in

FEW DOSES END KIDNEY TROUBLE

Lame Back, Bladder Misery and other Distress caused by out-of-order Kidneys Vanish.

Usually sufferers from backache, bladder trouble or out-of-order kidneys, feel relieved after several doses of Pape's Diuretic.

Misery in the back, sides or loins, sick headache, inflamed or swollen eyelids, nervousness, rheumatism and darting pains, heart palpitations, dizziness, sleeplessness, listless, worn-out feeling, and other symptoms of inactive, sluggish kidneys simply vanish.

Uncontrollable urination (especially at night) smarting, discolored water and all bladder misery ends.

Feeling miserable and worried is needless because this unusual preparation goes at once to the out-of-order Kidneys and Bladder, distributing its cleansing, healing and vitalizing influence directly upon the organs and glands affected, and completes the cure before you realize it. The moment you suspect any Kidney or Urinary derangement, or feel rheumatic pains, begin taking this less medicine, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Pape's Diuretic, and a few days' treatment will make any one feel fine.

Accept only Pape's Diuretic—fifty-cent treatment—from any drug store—anywhere in the world.

THREE SPECIALS IN THE NEW DRESS GOODS

The fabrics that have received the enthusiastic approval of the leading creators of Fashion in Paris, the real fashions and nothing but the correct weaves and colors.

Diagonal Cheviots, all wool, very wide, 12 newest shades. Special at \$1.50.

Worsted Diagonal Suitings, 46 in. wide, a variety of new colorings, very special at \$1.90.

All Wool Panama Cloth, the most wanted shades, also white and black, 54 in. wide, a real 75c. fabric for 48c. a yd.

Clearance Sale of French Blouses Colored Shantung Silks

Included in this sale is about 75 Waists of Silk, Net, Chiffon and Crepe de Chine. Incomplete assortments, but a variety of colors and styles. Worth from \$5.00 to \$25.00, for \$1.50, \$2.50, \$4.50 and \$6.50.

75c Quality for 49c

Few of the many shades you can select from, Amethyst, Light Navy, Myrtle, Pink, Wine, Alice Blue, etc. All 75c. quality, and every yard new, only 49c. a yd.

White Muslin Embroideries

Will be offered this week, consisting of 44 yards lengths, at 4c, 6c, 8c, and 12c. per yard. Being 33 to 50 p.c. less than regular prices.

Comforters

For three days only, all our stocks of Silk and Saten Comforters, Cotton or Down Filled, offered at a reduction of 25 p.c. They were \$3.50 to \$12.00. For \$2.67 to \$9.00.
