GOLD MEDAL PIANOS.—At the great exhibitions medals are generally awarded to all exhibitors alike. But it is in the judges' reports the difference and preferences are noted. This is where the Williams Pianos have scored ahead of competitors. The reports show the Williams to have the best general selection, and the awards are given for all styles alike. The Williams Piano beats them all on medals at exhibitions. Willis & Co., Sole Agents.

NEVER SMILED AGAIN! STARTLING!

"Treat that man is nothing who has not a conscience in everything."

A correspondent wants to know if we can make a Lady's Sacque or Gentleman's Coat if the customer merely sends the measurement by mail. Our answer is—Why, certainly. We've made scores of them for people we've never seen, and probably will never see. Before everything else we're PRACTICAL FURRIERS. That's the secret of our orders. When one lady is satisfied she tells another, and thus this outside trade grows.

It's hard to kill high prices. They've all the strength of possession and custom, and at last the public accept them as a necessity. They're nothing of the kind, and, as far as furs are concerned, we're going to hammer away at them until the public reach this conviction—that the Fur can be bought in Montreal at reasonable rates.

This is rather startling. It's especially startling to those who have resigned themselves to the high prices, feeling that it was useless to fight against them. They've heard that the furs are very difficult to get. That they're very difficult to dye. That they're got amid terrible scenes of cold and loneliness and peril. They know nothing about it. Perhaps they've a latent feeling that they're paying too much for the goods. But they don't complain.

Marcou & Co. don't want a monopoly of the fur trade. Dear bless you, no! If ladies and gentlemen insist, notwithstanding plain guarantees as to moderate rates, upon paying high prices, that is entirely their own affair.

But Marcou & Co. confidently expect that not a few of those who have been under the slavery of the high prices, will be detached from their allegiance.

Marcou & Co. want to make customers of them. Once their eyes are opened they will not willingly close them again.

Fine furs for ladies and gentlemen at MODERATE RATES. Just try what can be saved in any one article at Marcou & Co's. See what you can save in

Muffs, Bows, Capes, Gloves, Gauntlets, Caps, Collars and Cuffs, Seal, Persian Lamb and Coon Coats.

ADVERTISEMENTS. R. J. TOOKE, Importer of Gentlemen's High Class Furnishings, 177 St. James street.

SPECIAL NOTICES. It is NOT SO MUCH what we make as what you save that tells. Of what avail is that a man saves \$5,000 a year if he spends \$5,000? George the Third used to spend £10,000 a year upon coats alone. Beau Brummell had a suit for every day in the year. It is not desired to imitate such extravagance. The Baths do not claim that their \$4 Trousers is as fine as anything turned out by Poole for the Prince of Wales. But business men of ample means have found it good enough for the mart and the street. Young gentlemen whose taste is not to be doubted have given repeat orders in scores of instances. Numbers who cannot well afford to pay \$8 and \$10 every now and then for trousers, and who yet desire to present a neat and decent appearance, have found Seath's \$4 trouser to at once suit their taste and their pocket. Made to order from a large range of cloths specially imported, and fitted as carefully as the most expensive goods, Seath's \$4 trouser marks a revolution in the tailoring business of Montreal. Nearly half a century in business, 1817 Notre Dame street.

"Treat that man is nothing who has not a conscience in everything."

The verandah is cold and desolate now. Not long ago it was heavenly to sit there (with Somebody, ahem!) and count the stars. That's over. You take no stock in stars now. Stars are out of fashion. The snow is here and the piano lamp is on the boom. Social life descends the stoop and invades the parlor. Do you play? No! Of course, it's a pleasure to turn over Miss Ethel's music. When Miss Ethel, with a languishing look at you out of her left eye, sings, "But I dreamt that you loved me which pleased me most"—that's a terrible experience. Not a few who have passed through it have been known never to smile again!

The consciousness of being in harmony with refined surroundings is a great satisfaction. The miserable feeling that his tie was shabby has at once arrested the wit of the brightest ornament of the social party. The sense of being well dressed at once gives ease and steadiness, stimulates the fancy and stamps success upon every effort to please or win. It may be taken as the correct philosophy of the matter, for example, that no man ever made successful love with the wretched conviction that his cuffs were shabby or his finger nails dirty.

Gentlemen require quite a lot of things for the indoor life of the winter, which is just at hand. Tooke caters for this demand as carefully and successfully as he has ever done.

Quite a mistake to think that it doesn't matter where you get your CUFFS and COLLARS. Matters a great deal. More character in cuffs and collars than is generally supposed. If you want the pure Irish linen cuffs and collars (bleached under the soft blue skies and upon the tender green meadows of the Emerald Isle), made in the most fashionable styles, there is only one place where you can get them with infallible certainty—Tooke's.

TWO SPECIALITIES—Tooke manufactures himself the CELEBRATED ONE DOLLAR WHITE SHIRT, so universally in favor with the gentlemen in Montreal, and DRESS SHIRTS which are without equal, for cut or beauty of finish. A great many have taken that One Dollar Shirt for a Dress Shirt. It isn't that, but it's as good as a good many that pass by that name.

As for NECKWEAR—See our vast window examples. That's all they are. The largest and most artistic selection in Canada is on the shelves, tables and counters.

WARM UNDERWEAR and SOCKS are reasonable. So are Gloves. The GENUINE REINDEER GLOVES not only stand all sorts of weather without injury, but are thoroughly warm as well. Adapted for all purposes—walking, driving, riding. Always well stocked—Umbrellas, Mackintoshes, Walking Sticks, Perfumes, Handkerchiefs—Silk, Cambric and Linen (pure Irish)—Dressing Jackets, Dressing Gowns, Gaiters, etc.—the whole round of Gentlemen's Furnishings in strictly first-class qualities.

FRISCILLING. The Rev. Mr. Carson's utterances at Kingston on Romanism continue to be the subject of letters to the newspapers.

Mr. Justice Burbridge left to-day for Halifax to hold Exchequer Court.

In the Supreme Court to-day argument was heard in Venner vs. the Sun Life Co. Messrs. Amyot, Q.C., and Geoffroy, Q.C., for appellants; F. Langelier, Q.C., for respondents. Judgment reserved. Jones vs. Fisher, the eleventh Quebec case, has been withdrawn.

The Roman Catholic Bishop of Antigonish, N.S., was here to-day on his return from Baltimore, and was shown attention by Sir John Thompson and others.

WEATHER REPORT. METEOROLOGICAL OFFICE, Toronto, Nov. 14, 11 p.m.—The disturbance to-night covers the Maritime Provinces and the pressure is high throughout the western and north-western portion of the continent. A gale has prevailed in Eastern Canada, attended by heavy rain and snow showers have occurred generally. Minimum temperatures—Calgary, 6; Prince Albert, 3 below zero; Winnipeg, zero; Toronto, Montreal, and Quebec, 33; Halifax, 4. Probabilities for the next twenty-four hours—Lake, and Upper St. Lawrence, fresh to strong west to north winds, cloudy to partly cloudy, colder, with snow flurries. St. Lawrence, Lower, and Gulf, strong winds and gales from the west and north-west, generally cloudy, colder, with light snow falls. Maritime, strong winds or moderate gales from west and north-west partly cloudy to cloudy; colder with local showers, or in some localities snow flurries.

THE INDIANS GOING IN FOR NOTHING. It was reported some little time ago that there was a movement among the Indians at Caughnawaga to get rid of the constable (appointed by the Dominion Government) who has for a number of years kept order on the reserve.

"What is the matter?" asked a Witness reporter on meeting a leading tribesman.

"Our new Council want to save the Indian reservation money," answered the Iroquois, "I don't know what tribe he belongs to; and he gets \$400 a year. There's just as good a man, an Indian, who will do the work for \$165. The council ask the Government to make the change. The Government say, 'We think you've no right to make the change, but if we have no right to make that change how do we have right to make other change?'"

"What other change have you made?" "There was a man played the organ in the church, and he got paid \$500 a year. Council say, 'You going get nothing. Now go play organ but get no pay. What's the difference?'"

Last Edition TELEGRAPHIC NEWS.

AMERICAN. A SAD DEATH. MINNEAPOLIS, Minn., Nov. 15.—Mr. Wm. Millman, commercial editor of the Tribune, upon going home to lunch yesterday, found his wife dead in a chair. A gas pipe had been left unoccupied by workmen and Mrs. Millman had been asphyxiated. Mr. Millman is nearly distracted with grief.

VANDALS AT WORK. WASHINGTON, Nov. 15.—A letter from Caracas states that on Oct. 26 the statues of Guzman Blanco in that and other cities were pulled down and dragged to pieces.

THE PACIFIC RAILWAYS. CHICAGO, Nov. 15.—Senator W. P. Frye, chairman of the Pacific Railway Investigation Committee, which has just completed an examination of nearly 10,000 miles of Pacific roads, says the Committee is now convinced that the roads can eventually pay their debts to the Government in full. That the management of the road does not contemplate a surrender of the roads is shown by the fact that expensive improvements are going on everywhere. The senator says the Central Pacific is not profitable because it has to pay a very high price for coal. The road nowhere touches a coal-field. It cannot get a bushel of coal that does not come from the East, and much of it is from Australia and New Zealand. On an average it costs the road between 57 and \$3 a ton, and last year 900,000 tons were used. Eastern roads pay about \$3.

INFAMOUS WHITECAPS. GALESHBURG, Ill., Nov. 15.—Intense excitement was caused here yesterday by a bold attempt to burn the residence of Attorney G. A. Lawrence, one of the finest in the city, by members of the band of desperadoes whose "white cap" letters have terrorized citizens here. The fire was discovered in time to prevent serious results.

WINDOW GLASS. FINLAY, Ohio, Nov. 15.—The window glass manufacturers of the natural gas belt of Ohio and Indiana yesterday formed an organization for the purpose of maintaining prices and keeping up their standing as an important factor in the window glass trade of the United States.

CANADIAN. NOTES FROM THE CAPITAL. (From Our Own Correspondent.) OTTAWA, Nov. 14.

MR. COLBY AGAIN. The statement that Mr. Colby is to enter the Cabinet as president of the Council is again heard, this time with a definiteness hitherto lacking. It is the more readily believed by those who remember that the strongest speech and the most valuable support for the Government in the House on the Jesuit question, came from the member for Stanstead. Sir John Macdonald, president of the Council, may take the portfolio of railways to tide over the session, perhaps over the general elections.

THE FOOTBALL CHAMPIONSHIP. The Rugby Union have decided that the Toronto Ottawa College football match for the championship of Ontario must be played at Kingston, the College team this morning decided to resign the championship rather than go to the Limestone City. The College champions are ready to meet the Montrealers here on Saturday for the championship of the Dominion.

A NEW INSECT PEST has made its appearance in Massachusetts that promises to be a worse affliction than the Colorado beetle and almost as bad as the seven year locust. Some years ago a Frenchman, then living in the town of Medford, in that state, was engaged in experimenting with silkworms, his aim being the production of an easily unwound cocoon.

Considerable excitement was created this afternoon by the news which reached the city to the effect that a desperate attempt was made last evening in the vicinity of the Chaboussay road, to outrage a 14-year-old girl, the daughter of a respectable farmer named Brown, while on her way home from school.

ST. ANDREW'S DAY. At a largely attended meeting of Scotchmen, held at the Windsor Hotel last evening, Mr. John Cassils in the chair, the following gentlemen were appointed to carry out the arrangements for the St. Andrew's festival on the 2nd December.

THE ANCIENT CAPITAL. (From Our Special Correspondent.) QUEBEC, Nov. 13. THE MAYOR CASE. L'Electeur to-day states in unmistakable language the nature of the objections of its countrymen here to the Federal Government's appointment of Miss Maybee, an Ontario lady, to a position in the Quebec Post-Office.

With a view of closing up the Marine Hospital here the Federal Government is making approaches to the authorities of Jeffrey Hale Hospital to take charge of sick and disabled seamen at this port, and during 30 days for their care, but the Jeffrey Hale people want \$1 a day.

A CROSS EXAGGERATION. City Treasurer Lafrance has a report ready for submission to the City Council to-night, showing that the statement recently made to that body to the effect that there are upwards of \$250,000 of uncollected arrears of taxes in the Corporation books, is a gross exaggeration and that in reality there is little more than \$39,000.

A STAUNCH TEMPERANCE MAN PUT IN THE FIELD BY BROME CONSERVATIVES - THE PROHIBITION DELEGATES ENDORSE HIM. The seventy-two delegates appointed by the Conservative electors of the polling sub-division of Brome to select a candidate for the Provincial Legislature met yesterday at Knowlton, in the large hall of the Lake View House.

WAS NOT SATISFACTORY to the friends of prohibition and could not be supported by them, and unless the Conservatives gave them a consistent and sound temperance man they would find it necessary to get a third candidate. After remarks by other members of the temperance delegation, the convention adjourned for an hour.

STRONG FEELING OF THE AUDIENCE in the matter. The tone of Mr. England's speech was strong evidence of his earnestness in the cause of temperance. Short addresses were also made by Messrs. R. S. White, M.P., Geo. G. Foster and A. Mosher.

THE WEATHER. There was heavy frost here last night and the roads are as hard as iron to-day, but the weather is bright and fine.

A CHALLENGE. L'Electeur states that the Gazette will dare to squarely deny that Mr. Chaplain did not offer to secretly settle the Jesuit question with Rome it is prepared to produce documentary proof of the fact for the edification of Brome electors.

WHISKEY SEIZURE. It is rumored that Customs Officer Wolf, of Montreal, seized this week, in the Lower St. Lawrence, three schooners coming from St. Pierre Miquelon, with 60,000 gallons of contraband whiskey aboard, intended for merchants here and parishes along the St. Lawrence.

HIS RIGHT NAME. Teller, not Letellier, is the name of the radical who attempted to commit an assault on the young girl Brown, who has fully identified him. He belongs to Hedyville village.

NOTES. Le Canadien states that Mr. H. J. B. Chouinard, M.P. for Dorchester, the newly appointed Quebec City clerk, has called a meeting of his creditors to endeavor to arrange a settlement with them.

WOMEN IN INDIA. THE CHURCH OF ENGLAND'S WORK IN REACHING THEM. The Church of England Woman's Auxiliary Missionary Society met in the Synod Hall yesterday, Bishop Bond presiding.

BROME IS AWAKE.

CROWDED EQUAL RIGHTS MEETING IN SUTTON TOWN HALL.

THE MACHINE POLITICIANS BARRED OFF BY OLD LIBERALS AND OLD CONSERVATIVES.

If Mr. Duffy, Mr. Fisher, Mr. Colby, and others who from both sides of politics have scouted the notion that Equal Rights sentiment existed in Brome County, had been in Sutton Town Hall last night, they would have learned from the solid yeomanry of the county and from the merchants and others present the error of their words.

The ladies present were seated on the platform. Many stories reached the ears of the Equal Rights deputation during the day. The dread of offending the Roman Catholics and French of Brome was a constant topic.

It was about 7:40 when the Rev. Mr. Teehon appeared. Mr. S. J. Carter, of Messrs. Ward, Carter & Co., took the chair, with Aid. George Washington Stephens on one side, and Mr. Jas. Harper on the other, and asked Mr. Teehon to open the meeting by prayer, as is the custom of the Equal Rights meetings.

Mr. Teehon gave a beautiful and eloquent address, and then the Rev. Mr. Teehon turned to the Rev. Mr. Stephens, who then spoke in a very interesting manner of the political situation in Brome.

AMONG THE STUDENTS.

UNDERGRADUATES AT CITIZENS' HOUSES—THE GYMNASIUM CLASSES.

The excitement occasioned by football and the annual sports is gradually subsiding, and the students are settling down to hard work.

Although the professors of the University do what they can in the way of entertaining the students, the social side of the student's life is cared for in great part by friends outside the University.

The people of Brampton are enthusiastic over the prospect of a branch of Messrs. E. & O. Gurney's foundry being established in that town.

Mr. Hickson, general manager of the Grand Trunk Railway, in a letter to the secretary of the Board of Trade, points out that the scarcity of lumber cars is chiefly due to the length of time taken up by consignees in unloading at the Toronto yards.

A MEETING of delegates from the young people's associations of Presbyterian churches in the city was held last evening in Knox Church.

At the Baptist Congress yesterday the first topic discussed was Slavery in America. It was fully and ably dealt with from the standpoint of the church, legislation and utilitarianism.

The municipal convention finished its work yesterday and adjourned after appointing a committee to draft a constitution with a view to permanent organization.

THE QUEEN CITY.

(Special to the Witness, Nov. 15.)

The people of Brampton are enthusiastic over the prospect of a branch of Messrs. E. & O. Gurney's foundry being established in that town.

THE PROVINCIAL AUCTION TAX.

With reference to the recent request of the Board of Trade to have Mr. Mercier abolish the tax on auction trade sales, the following legal opinion given by a well known Queen's counsel in October, 1881, will be found interesting.

"I have examined the question of the one per cent auction duty exacted by the Provincial Government, and in answer to your enquiry I would say that I am of opinion that it has no legal right to exact or collect this duty, but that it is an illegal and unauthorized exaction, and that they should refund all sums collected by them since July 1st, 1867, under this head.

The Board of Trade, it appears, will further look into the matter, in the light of this opinion.

COMMERCIAL.

WITNESS OFFICE, Friday, Nov. 15. WHOLESALE PRICES.

The British breadstuffs markets continue steady with a poor demand and moderate offerings for wheat. Berkebie's cable advices are as follows:—Cargoes of coast, wheat and corn, all cargoes on passage and for shipment, wheat firmer, corn, steady.

GRAIN.—Chicago is a quarter stronger this morning, and New York is three-eighths better. This market is quiet. We quote today:—Wheat, No. 1 Hard Manitoba, \$1.00 to \$1.04.
