MONTREAL JEWS AGAINST RITUAL MURDER THEORY

ORGAN OF CANADIAN JEWS CONDEMN BARBARITIES.

Montreal, October 16.—Indignation has been aroused in local Jewish circles against the newspaper reports of the alleged Kieff "ritual murder," for which a Jew is now being tried. It is pointed out by some of the principal Jewish citizens of this city that there have been 123 of these accusations made in Europe at various times, and that not once has there been a conviction.

MEETING OF PROTEST.

The first case on record is that of a boy named William, of Norwich, Eng., who has since been canonized as a saint. This case occurred in 1144 at a time when the Jewish race was suffering severe persecution. In protest against the accusation of ritual murder, and disregarding the criminal merits of the Kieff case, the Jewish community has decided to hold a meeting of protest on this Sunday.

HEBREW PAPER SPEAKS.

Would Hear Voice of Dominion Condemn Russian Bureaucracy.

The Canadian Jewish Times, published in Montreal, discussing the Beiliss case, says in part: "The outrageous Beiliss case, which began in the city of Kieff, on Wednesday, October 8th, and which was planned by the Russian Government as a condemnation against the entire Jewish population of Russia, has been denounced by scientists, statesmen and authors of note in England, France and Germany, as well as by representatives of the progressive elements within the Russian Empire."

"At the joint meeting of the sections on forensic medicine and psychiatry, at the Medical Congress recently held in London, a remarkable pronouncement was made regarding the Kieff blood libel. The general accusation of 'ritual murder' was repudiated by famous medical authorities. "Official Russia, which in recent years found itself condemned by the while civilized world for its wholesale murders of innocent men, women and children of the Jewish race, is trying to justify its deeds by proving to the world that Jews are practising 'ritual murders.'"

"This latest action, however, is being condemned by the greatest living clerical and theological authorities. These learned men absolutely denounce the action of the Russian Church (which works hand in hand with the government), in instituting this malicious charge against the six millions of Russia's Jewish subjects. "We appeal in the name of the Jewish citizens of this free Dominion of Canada, to the general press of this country, to lodge a mighty protest on behalf of a defenceless people, whose misfortune it is to have been born in so barbarous a country."

"Let the voice of the free Dominion which is shielded by the Union Jack, a glorious emblem of freedom and justice, be heard in loud cry against this action of the Russian bureaucracy. "Such action by the Canadian press at this juncture, will be deeply appreciated by Jews in this free and happy country of Canada."

The Jewish Times proceeds to give a history of the case, quotes eminent authorities against the "ritual murder" theory, and sets forth protests made against the action of the Russian government in various countries of the world.

Deputy Warden O'Leary was also accused of sneering at the witness and using disrespectful language toward him in the presence of the convicts. His attitude towards witness was such that his influence over the convicts would be weakened. Just before the Dominion elections the deputy warden spoke to the witness about the candidature of Dr. Edwards.

"I don't think the people display much sense in bringing him out; I have no use for him," was the deputy's comment. In another case, when he was late in winding the electric clock because he had helped to clean up a sick convict who had vomited all over himself in his cell, he was censured by the deputy and told to mind his own business and wind his clocks. "If the convicts died you are not responsible."

He claimed that the spy system was frequently resorted to by O'Leary, and he cited cases. He was needlessly ordered to stand out in the rain just at O'Leary's whim. Witness was in the shelter provided for just such weather. The spying apparently consisted in O'Leary's peering around doors, trying to catch guards lapsing in their duty.

STRIKING COAL MINERS ARRESTED FOR PICKETING.

Trinidad, Colo., Oct. 16.—Forty-nine striking coal miners charged with picketing were arrested at the McLoughlin mine of the Santa Fe Coal Company today and marched three miles to the county jail at Trinidad. Fifteen deputies, armed with rifles, flanked the prisoners on either side, and a machine gun, mounted on an automobile, brought up in the rear, but in spite of this several of the 300 strikers who followed attempted to break through the lines and liberate the prisoners. Some seventy-five strikers gathered at the McLoughlin mine when they learned that 20 miners, whom they prevented from entering the mine yesterday had returned to work.

RAILWAYS CANCEL CARTAGE CONTRACTS

WILL HANDLE NO MORE FREIGHT AFTER FIRST OF THE YEAR.

Montreal, Oct. 16.—Following a meeting of a committee of the Montreal Board of Trade and representatives of the railways entering Montreal, it was announced that after December 31 all agreements between the railways and cartage companies for the handling of freight will be cancelled. Under no circumstances, the railways declare, will the agreement be continued after the first of the year. "There was nothing we could do," stated one of the Board of Trade men after the meeting. "The railways have everything in their own hands. This agreement was made by them in the first place, and can be cancelled by them at any time they please. They are under no obligations to act in the capacity of cartage companies if they do not so desire."

General opinion is to the effect that the railways have taken the step partly because handling the delivery of shipments has greatly complicated their business in the places where it has been adopted, while cities in which the system has not been introduced have been asking for it. They could not consistently be denied while Montreal, Toronto and Hamilton and others benefited by it, and as it could hardly be given to all, the railways decided to cease operations in this direction entirely.

The railway representatives at the meeting were: For the C. P. R., Freight Traffic Manager W. R. MacInnes and Assistant Traffic Manager William Kirkpatrick; for the Grand Trunk, Freight Traffic Manager C. E. Dowey; for the Canadian Northern, General Traffic Manager G. H. Shaw. Messrs. James Davidson, George B. Fraser, T. H. Wardleworth, Jas. Gardner, Joseph Quintal and W. S. Tilston represented the Board of Trade.

NOT RESPONSIBLE IF CONVICTS DIED

MORE EVIDENCE IN KINGSTON PENITENTIARY INVESTIGATION.

Kingston, Oct. 16.—Complaints against Dr. Phelan, the penitentiary surgeon, were made by Guard George Aikens at the afternoon session of the commission investigating the management of the Rockwood penitentiary.

He told of extremely gross and abusive language used towards him in October last year. The doctor described him as a crank, disturber and other vulgar and profane things. The guard overheard part of the remarks.

Deputy Warden O'Leary was also accused of sneering at the witness and using disrespectful language toward him in the presence of the convicts. His attitude towards witness was such that his influence over the convicts would be weakened. Just before the Dominion elections the deputy warden spoke to the witness about the candidature of Dr. Edwards.

"I don't think the people display much sense in bringing him out; I have no use for him," was the deputy's comment. In another case, when he was late in winding the electric clock because he had helped to clean up a sick convict who had vomited all over himself in his cell, he was censured by the deputy and told to mind his own business and wind his clocks. "If the convicts died you are not responsible."

He claimed that the spy system was frequently resorted to by O'Leary, and he cited cases. He was needlessly ordered to stand out in the rain just at O'Leary's whim. Witness was in the shelter provided for just such weather. The spying apparently consisted in O'Leary's peering around doors, trying to catch guards lapsing in their duty.

FRENCH MORE CAREFUL ABOUT THEIR POLICE

THEY THINK AMERICANS GIVE TOO LITTLE ATTENTION TO CHARACTERS OF RECRUITS.

Paris, Oct. 16.—Every summer brings to Paris, among the hordes of American visitors, a number of men vitally interested in the administration of the police departments of various American cities. They come to investigate how "these things are done in Europe," with the view to improving their own departments at home.

They are welcome visitors at the Paris Prefecture of Police, and in the person of Emile Laurent, general secretary of the Paris Prefecture, they have found a courteous host, but at the same time an official who has asked almost as many questions as he answered. Mr. Laurent's curiosity as to police conditions in America has given him a rather definite opinion as to what may be the matter with the American system. This is what he has to say on the subject: "It is not my business to criticise the American police, but I venture to express my personal opinion that a fundamental error in the American system is that insufficient attention is given by the administration of police in American cities to the characters of the recruits. Our system in France is to make a minute examination into the record of the applicant for admission to the force. We assume that a man who has at any time been guilty of the least dishonesty has a flaw in his character which will affect his conduct when he is exposed to the temptations of a policeman."

"The prefectures of police assume that if a man has reached the age of 24 without a blemish on his character, he will remain honest for the rest of his life. Candidates must have their written records of conduct while in the schools and in the army. Even a single bad mark often disqualifies. I do not consider the French system infallible, of course, but the rarity of scandals indicates that it is a good one."

"The prefectures of police assume that if a man has reached the age of 24 without a blemish on his character, he will remain honest for the rest of his life. Candidates must have their written records of conduct while in the schools and in the army. Even a single bad mark often disqualifies. I do not consider the French system infallible, of course, but the rarity of scandals indicates that it is a good one."

The Weather

Toronto, Oct. 16.—The Atlantic disturbance has remained almost stationary to the southward of Nova Scotia, but with diminishing intensity. It has caused strong winds and showery weather in the Gulf and Maritime provinces. Fair weather has prevailed in Ontario, but some light rain and snow have fallen in Manitoba and Saskatchewan.

Minimum and maximum temperatures: Victoria, 38, 52; Kamloops, 32, 50; Calgary, 28, 48; Edmonton, 26, 46; Battleford, 28, 44; Prince Albert, 20, 38; Moose Jaw, 27, 44; Regina, 27, 43; Winnipeg, 24, 52; Port Arthur, 28, 48; Parry Sound, 48, 60; London, 46, 64; Toronto, 43, 62; Kingston, 48, 64; Ottawa, 48, 62; Montreal, 50, 56; Quebec, 46, 52; St. John, 54, 58; Halifax, 55, 60.

Forecasts. Lower Lakes and Georgian Bay: Moderate to fresh east and northeast winds, mostly cloudy with showers in some localities.

Ottawa Valley and Upper Lawrence: Northeasterly winds, mostly cloudy with showers in some localities toward night.

Lower Lawrence: Northeasterly winds, mostly fair and cool.

Gulf: Fresh easterly winds, a few local showers, but mostly fair and cool.

Maritime: Fresh easterly and northeasterly winds, local showers but partly fair.

Superior: Moderate easterly winds, fair and cool.

Manitoba and Saskatchewan: Mostly fair, not much change in temperature.

Alberta: Fair, not much change in temperature.

GOVERNOR SULZER WILL BE REMOVED FROM OFFICE TODAY

High Court of Impeachment Finds Him Guilty on Three Articles—Lt. Governor Glynn Becomes Chief Executive

Albany, N. Y., Oct. 16.—Governor William Sulzer was today found guilty by the High Court of Impeachment on three of the articles preferred against him. They were 1, 2 and 4. He was declared innocent on the charges contained in article 3. Tomorrow he will be removed from office but not disqualified from holding office in this state in the future unless there is a substantial change in the informal vote reported to have been taken by the court on these questions in secret session today. For the same reason it is expected that he will be found not guilty on the other four articles still remaining to be voted upon when the court adjourned tonight.

DETAILS OF COUNT. Lieutenant-Governor Martin H. Glynn, who has been acting Governor since the impeachment of Sulzer, will become chief executive of the state. He is an Albany newspaper owner. Robert F. Wagner, a New York attorney, will become Lieutenant-Governor. He is the majority leader in the Senate.

The vote on article 1 and 2 was 39 to 18, a bare two-thirds majority. The former article charges that the Governor falsified his statement of campaign contributions, the latter that he committed perjury in so doing. The vote on article 3, which charges that the Governor bribed witnesses to withhold testimony, from the Frawley investigating committee, was unanimous in favor of the Governor.

The vote on article 4 was 43 to 14, six members changing their votes on articles 1 and 2 from "not guilty" to "guilty" and two from "guilty" to "not guilty." This article charges that the Governor suppressed evidence by means of threats to keep witnesses from testifying before the Frawley committee. Among these was Duncan W. Peck, State Superintendent of (Continued on Page Seven)

CORPORATION OF QUEBEC PILOTS

IS LIKELY TO BE ABOLISHED—NEW UNIFORM SYSTEM UNDER DEPARTMENT.

Ottawa, Oct. 16.—The Canada Shipping Act is to be consolidated, revised and amended at the next session of Parliament. The revision is now being looked after by Mr. W. A. Henry, of Halifax.

It is the desire of Hon. J. D. Hazen to put the enactment in better shape than it is now, and to make such amendments as, in the light of the experience of the department, seem to be called for.

One of the most important changes will consist in carrying out the recommendations of the Pilotage Commission designed to improve conditions on the St. Lawrence. With that end in view, the Quebec Pilots Corporation is to be abolished. Heretofore it has been an independent corporation exercising wide powers of its own, and under the departmental authority in a nominal sense only.

It is proposed now to have in all parts of the country a uniform system governing pilots and the conditions under which they operate, and this will be directly under the department's administration and supervision. With newer and stricter regulations it is believed the number of accidents will be materially lessened.

The Fisheries Act likewise is to be revised and amended on certain lines suggested by advisory committees formed this year, and representing all branches of the industry.

"Had the queerest dream last night," said the Oracle. "Thought I was sitting in front of the grate in my room, when all of a sudden some one started speaking to me. 'Well, I hope you'll be able to think up a decent interview for tomorrow,' he said. 'You've been handing out some pretty raw stuff lately.' 'I guess I have,' I agreed, politely. 'Might I ask your name?' 'Pessimist,' came back the answer. 'I guess you're pretty well played out, aren't you?' 'O, he'll improve, called someone else. 'Hello!' I said, 'who are you?' 'O, you can call me Optimist,' my defender answered. 'But don't mind what this fellow says. He's a first cousin to Knocker, so discouragement sort of runs in his blood. I just wanted to tell you that.' A great pounding at the door interrupted and I heard my landlady's voice as I came to, saying, 'I'll bet he's skipped out without paying his board.' That explained Pessimist, alright—but who the deuce was Optimist? Rain today." We'll play the optimist to any pessimist you can furnish in our line. Optimism is merely faith, and we have faith in abundance in our own goods. This holds for our INGERSOLL WATCHES and we guarantee every one of them. Get one at JOHN E. WALSH'S Reg'd., 11 St. John Street.

MOUNT TEMPLE PILOT CENSURED

COURT OF WRECK COMMISSION FINDS HIM TO BLAME FOR STRANDING.

Montreal, Oct. 16.—The stranding of the C. P. R. Liner Mount Temple in the St. Lawrence River shortly after leaving her wharf a few weeks ago was entirely due to an error of judgment on the part of Pilot Louis Z. Bouillie, according to a decision handed down by the Court of Wreck Commission today. No blame is attached to the master or officers of the vessel. In the concluding words of the court's decision a severe censure is given the pilot.

GRADUATED FROM LAVAL UNIVERSITY

DR. ARCHAMBAULT, WELL KNOWN PHYSICIAN OF N. Y. STATE, IS DEAD.

Montreal, Oct. 16.—Dr. J. L. Archambault, one of the best known physicians and surgeons of New York state, died here today at the home of his son-in-law, J. L. Dansereau. Dr. Archambault was in his sixty-sixth year and for forty years was in active practice at Cohoes, N. Y., where he was dean of the Cohoes Hospital. He was a member of the faculty of the Albany Medical College and an expert of the New York State Medical Society. Dr. Archambault was born at St. Antoine De Richelieu, Que., and was a graduate of Laval University, Quebec.

MAN WHO HANDED SULLIVAN DEED

Baltimore, Md., Oct. 16.—Jacob E. Munzinger, widely known in sporting circles, dropped dead in a hotel here late last night. His home was at Freeport, Long Island. Mr. Munzinger was financial manager for John L. Sullivan when he was champion heavyweight pugilist.

JUDGES WANT INCREASE.

Winnipeg, Oct. 16.—"It is impossible to treat the judges of one province differently from those of another," said Hon. C. J. Doherty, Minister of Justice, tonight, in reference to a delegation of county court judges of Manitoba, who are asking larger remuneration for their services on the ground that the cost of living has gone up. The Minister promises to consider the request.

COLLECTION SEASON GOOD IN WEST

Saskatoon (Sask.), Oct. 16.—Interviews with leading wholesalers here indicate that the collection season has opened auspiciously and that the policy of the banks in curtailing credit during the year is beginning to be justified. Implement firms in particular state that they expect to make a clean-up in past-due accounts, and that the farmer is in better shape to meet his liabilities than for some years past.

LA BANQUE NATIONALE.

An item recently appeared in certain Montreal papers to the effect that Badel Freres & Co., bankers and brokers, of Paris, had taken suit for \$245,000 against La Banque Nationale. This bank requests us to say that there is no truth whatever in the statement and that it must be La Banque Internationale.

QUEBEC, FRIDAY, OCTOBER 17, 1913.

A CONTRAST.

Premier Borden's cablegram to Premier Cook of Australia breathes the true feeling and represents the true aspirations of the people of Canada. "Be assured," he says, "that Canada stands shoulder to shoulder with Australia and the other overseas Dominions in the firm resolve to safeguard our common heritage."

There is not a Canadian worthy of the name who does not re-echo these sentiments from his heart. But when we imagine a message couched in such language coming from Sir Wilfrid Laurier. He does not wish Canada to stand shoulder to shoulder with Britain or Australia or any other overseas Dominion, but in a position of carping isolation, measuring her own safety against the possible dismemberment of the Empire and sponging on the Mother Country so long as it suits his book. Borden rings true, Laurier false.

But, if that is true of the original cablegram, with what sort of feelings would Laurier, as Premier of Canada, have received the following reply: "We are celebrating today the completion of an Australian unit of the Empire's peace-compelling navy, gladly sharing the obligations for the defence of the whole of the King's Dominions."

Australia is doing her part. We want to do ours, but Laurier blocks the way for the time being and has deliberately by word and deed given encouragement to the enemies and ill-wishers of the Empire.

STREET CAR VENTILATION.

We are heartily in accord with the letter which appeared in our issue of yesterday and which drew attention to the need of having the best of ventilation in our street cars. At this period when the winter is so close at hand it is very necessary to emphasize the facts that foul air is a great danger to the health of the community and that ventilation is demanded by every principle of hygiene. Of course, there is no need to go to extremes and it should be easy enough for the conductors to determine how much ventilation is required to keep the car fresh and healthy instead of allowing it to become a stuffy and stifling abomination.

The same thing applies and with even more force to the cars on our railways. On entering some of these after the weather gets colder one has almost to push his way sometimes through an atmosphere of malodorous smells massed together. One does not need to be a medical man to realize how unhealthy such conditions must be.

THE ADMIRALTY ANSWER.

Sir Wilfrid's statement that there is no emergency because the British navy, which was collected in home waters, is now "scattered to the ends of the earth" was not long unchallenged. The Admiralty has promptly answered a query in the following terms—

"Sir Wilfrid is hopelessly wrong in his facts. The whole of the battle equipment of the Empire remains in the North Sea. On November 1, Sir Stanley Colville takes with him, in order to carry out joint manoeuvres in the Mediterranean, a squadron consisting of three battle-cruisers and some small cruisers. On December 22 all these ships return to home waters. They can be spared for a short period only, because from October 1 till Christmas, the German navy is at its lowest strength. From Christmas onwards they remain in home waters, to ensure the complete defense of the Empire at central points from any possible attack."

Sir Wilfrid apparently knows as much about the plans of the Admiralty as he does of the ability of Canada to build a Dreadnought.

A CHANGE OF HEART.

A great change seems to have come over the moral and mental outlook of Le Soleil since it and its friends have been condemned to the cold shades of opposition by the voice of the Canadian electorate. Nowhere is this change more noticeable than in its frantic efforts to work up alleged scandals out of various transactions connected with the public works being carried on in this neighborhood by the government. Take for instance its attack on those connected with the purchase of some property in Levis which was afterwards sold to the Harbor Commission.

If there is anything wrong connected with this transaction, we shall be the first to ask for an investigation, but we are confident that the accusations are inspired far more by political malice than by any other motive, and that those who are attacked will be well able to defend themselves. If Le Soleil is going to attempt the role of a purifier of public morals—save the mark—it is surely rather late in the day to set about it, as it had no lack of opportunity to do so during the regime of the Liberal party. There was scandal after scandal which should have been exposed but Le Soleil never opened its mouth but in the effort to explain them away, never moved its hand but to administer a thick coat of whitewash.

Perhaps Le Soleil remembers an occasion when Senator Choquette bought the Joseph property and sold it to the government at a handsome profit. Did it find fault with that transaction? Far from it. When the person involved is one of its political friends, then everything is legitimate and above-board. But when any of its political opponents sell anything to the government, then it must proclaim on the house tops that there has been some crying scandal, etc., etc. Les temps sont changes, cher Abner!

BYE-ELECTION MORALITY.

The Liberal party, thrown into a state of consternation over the result of Chateauguay, has decided, it is said, to protest the election.

Some explanation of the stunning blow administered to that party in the crushing defeat of ex-minister Fisher in a former Liberal hive, must be forthcoming and that right quickly. Hence, as usual in such cases, every species of corruption known to the ingenuity of man is forthwith ascribed to their successful opponents.

This post election whining is poor business at best. It is, however, ludicrous in the extreme when it proceeds from the columns of papers that condoned the

Liberal electorate rascalities of Brockville and West Huron, the exploits of Cap. Sullivan, and of "Hug the Machine" Preston, the cruises of the notorious "Minnie M." and the doings of Leach who disfranchised hundreds of Conservatives in Manitoba by the employment of his infamous thin-red-line methods.

Neither party has a monopoly of political purity. Neither enjoys one exclusive copyright of electoral wrongdoing. And no amount of "copy" manufactured by the Grit bureau at Montreal or Ottawa will convince the public that the Tories were corruptionists and the Grits purists in the conduct of the fight in Chateauguay. It was undoubtedly a keen contest. Fisher is a wealthy and an ambitious man. He spent money like water in the Liberal publicity campaign last winter. He made a stupendous effort to get back into parliament via Chateauguay last week. The expense of his campaign was enormous. Practically every prominent Liberal member of parliament from Quebec and Ontario, including Laurier, Graham, Lemieux, Marcell, MacKenzie-King, together with a score of lesser lights, stumped the county with him. Public pageants with Sir Wilfrid as the central feature were staged. An elaborate and expensive organization was maintained. Canvassers, heelers, pamphleteers and other nondescript election agents overran the constituency.

The Conservative campaign, if not so elaborately staged, was aggressively pushed, and the Conservatives won out. It is quite certain that a large amount of money was spent on both sides, and unless the contest differed from all others ever held under similar conditions, some of it was probably spent corruptly.

Under such circumstances, for the beaten party to publish broadcast its complaints of the conduct of the other side is the customary thing, but it is not sportsmanlike. It is, however, useless to reason with a party which is experiencing such a sickening sensation as is the experience of our Liberal friends at the present time.

Comment of The Press

Referring the other day to feeling nervous when making public speeches, Sir Thomas Dewar told a story of a man who was suddenly called on to make a speech. He was very nervous and self-conscious, but he began: "Ladies and gentlemen, Shakespeare is dead." Here he paused a second to think, and then went on: "Milton has passed away." Again he stuck and tried again: "Tennyson is no more." For the third time he came to a dead stop, and, at last, miserably confused, he blurted out: "And I'm not feeling very well myself!" Then he sat down.—Pearson's Weekly.

A glance at the front page of the papers for the past fortnight or so shows one thing very prominently: murderous attacks on women by a type of human wild beast representing the survival in man of the instincts of the tiger and the ape are startlingly common and must be sternly reckoned with. Schmidt, Spencer, Spurgeon, the as yet undetected ruffian who butchered that former Milwaukee school teacher, and others whose names escape one at the moment. What a list in this Christian era that plumes itself on the work of "social uplift!" Capital punishment may not be the ideal deterrent. But the fact remains that in England (where the swift and sure sequel of murder is the gallows) the crime of murder is so rare as to startle the public when it occurs; whereas with us (with shame and sorrow be it said) it is a commonplace of the daily paper. With such brutes abroad, women must be circumspect and the authorities diligent; and it is high time to try a little English expedition and directness in the courts—it is better than the American recourse, lynching.—Milwaukee Sentinel

The death of Dr. Charles L. Leonard from a disease due to his work with the X-Ray machine, has added another name to the long list of heroes of the laboratory. Dr. Leonard suffered for nine years before he passed away. The habit of carping at the medical profession is not uncommon. Yet there incidents now and then which show the ideals of the profession to be very high. Since Professor Rontgen announced the discovery of X-Rays in 1896, several medical men have fallen victims in the attempt to gain for humanity benefit from the use of the discovery in medical and surgical work. Dr. Leonard himself stuck to his task after his hand had been amputated. If any serious proportion of the public were to lose faith in the medical profession great would be the opportunity for quacks and frauds to victimize the people—something which is too rife now. Railing against the doctors, because some doctors have been foolish or wicked, is silly and harmful, just as sensible as railing against religion or the church because some clergymen have not been faithful to their trust. The self-sacrifice of a Dr. Leonard now and then illustrates that the standards of the medical profession have not deteriorated.—Ottawa Journal.

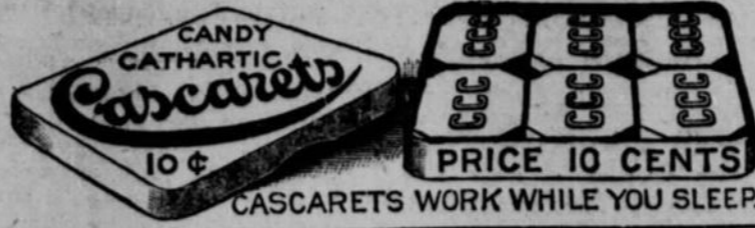

In spite of his crimes and pretensions, General Huerta never was accepted in Mexico as the lawful President. His dispersal of Congress and imprisonment of more than one hundred members are proofs that he has never been recognized by his own people even as dictator. Porfirio Diaz was President-Dictator far more than a quarter of a century. There were some executions and a few mysterious disappearances during his term, but when he lost control of Congress he did not drag it. He fled the country. Huerta, a weaker man, a creature of assassination, with more than half the so-called republic in revolt against him and with no title whatever to office save that given by the grudging toleration of Congress, reveals himself at home and abroad as a common tyrant by destroying the last vestige of constitutional government. This is the desperado who is now notified from Washington that he will be held responsible for the lives of the legislators whom he has imprisoned. It is to be feared that threats and entreaties in his case are equally vain. The same facility in falsehood that cheeked out the murder of Madero, that flaunted the lie in the face of John Lind that peace had been restored, and that has since given the world polite assurances that a free and fair election would soon be held, will not fail Huerta if he shall conclude to subject his prisoners to the fusillade. With such evidences of desperation on the part of the usurper, the Constitutional forces ought not to be long in reaching the capital. They are the true liberators of Congress and they ought to be the sole avengers of the crimes that have disgraced the age.—New York World.

"CASCARETS" IF CONSTIPATED, SICK, HEADACHY, BILIOUS--DIME A BOX

Turn the rascals out—the headache, biliousness, constipation, the sick, sour stomach and foul gases—turn them out tonight with Cascarets.

Don't put in another day of distress. Let Cascarets sweeten and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry off the decomposed waste matter and constipation poison from the bowels. Then you feel great.

A Cascaret tonight will straighten you out by morning—a 10 cent box from any drug store will keep your head clear, stomach sweet, liver and bowels regular and make you feel bully and cheerful for months. Don't forget the children.

"QUEBEC EYE, EAR & THROAT HOSPITAL," INCORPORATED.
 56 D'ARTIGNY STREET.
 Founded and under the direction of Dr. Coote, professor of eye and ear diseases at Laval University. Specially organized for the treatment of eye, ear, nose and throat diseases.

Lipton's Tea

Nothing is more pleasing than a good cup of tea. Lipton's Afternoon Tea is refreshing and will suit the most particular epicure. We have a fresh stock done up in pound and half-pound tins, and prices range from 40c to 70c a pound.

IF YOUR SHIRT IS LAUNDERED
 by our new "pressing system" it has the same attractive appearance that it had when new. Our process gives the shirt the proper stiffness without that harsh, board-like effect. And, owing to the fact that there is no friction used to iron your garments, by this method, there is positively no opportunity for unnecessary wear. Our "press ironers" make your linens fit and look better—and wear longer. Try our work. **THE IMPERIAL LAUNDRY, Phone 95.**

Half Hose

Men's black Cashmere half hose, "Satisfaction" Brand. Sizes 9 1-2 to 11 1-2. You can buy these socks with the assurance that they will give good wear. Per pair 25c

GLIMPSSES OF OLD QUEBEC

From the Files of the CHRONICLE, October, 1813 and 1913.

THIRTY YEARS AGO TODAY

The Electric Light.

At this time, 30 years ago, the electricity was something of a rarity in Quebec. In these columns particular notice was given thus: A magnificent illumination was given, caused upon St. John street last night by an electric lamp placed at the gate, worked by the Thomson-Houston principle, and by the generator of the Quebec and Levis Electric Light Co. This light is remarkably steady and of very great brilliancy. Several of our leading business men are to install this new illuminant next month.

Financial Troubles.

Thirty years ago at this time Montreal was passing through something very like a panic. There have been several failures reported, one, at least, running into the millions, to say nothing of defalcations and other swindling operations. Besides these financial troubles, we hear of stock speculations which have not turned out well, merchants over-stocking with goods of all sorts, which have only brought trouble on the rash importers.

Quebec Solvent.

Although our Sister City, the "mercantile metropolis," is having her troubles, principally brought on themselves by over-ambition, we are happy to say that in the Ancient Capital, where we may go a little slower than in Montreal, our business men just know where they are and measure their cloth accordingly.

A HUNDRED YEARS AGO TODAY

General Proctor's Retreat.

We do not know upon what authority it is asserted that Genl. Proctor has commenced his retreat from the Michigan territory and the western district of Upper Canada. We understand that the army was short of provisions before the late action on Lake Erie, and that the hope of supplies was founded on our fleet being able to open communication by that Lake. That hope having vanished by the loss of our fleet, want of provisions may probably have induced that distinguished officer to retire from a country, the occupation of which was of so much importance, and in which, with the assistance of the Indians inhabiting the country south of the Great Lakes, a few hundred British troops have furnished occupation to from 5,000 to 10,000 of the enemy, and captured more than four times their own number. If it be true as is stated that a thousand of these Indian warriors have followed General Proctor. It is an example of fidelity, under the most trying circumstances, of which those who dominate themselves civilized, have rarely been found capable. Yet these are the people whom some persons would have us believe that England is about to abandon. We venture to assert that not one inch of territory belonging to Great Britain or of her allies in this war will ever be abandoned to the United States.

FEAR FOR DIAZ.

He May be Assassinated on Arrival at Havana.

Havana, October 15—General Felix Diaz, who is now on his way from Europe to Mexico, is believed to be in danger of assassination on his arrival at Havana. The Cuban government has received information that a band of Mexican conspirators are planning to kill General Diaz, who will reach here on Friday evening or Saturday morning, on the steamer Corcovado. The Secret Police express hope of arresting the conspirators, and the government has issued orders that the utmost precaution be taken on insure the safety of General Diaz.

HAS THE LARGEST INDIVIDUAL CROP

MR. NOBLE, OF LETHBRIDGE CLAIMS THIS DISTINCTION—MIGRATION OF AMERICANS.

Lethbridge, Alta., October 15—C. S. Noble, a farmer who lives eighteen miles north of Lethbridge, on the Lethbridge-Calgary line of the Canadian Pacific Railway, claims to have the largest individual crop this year in the whole Dominion of Canada. His record is as follows:

	Acres.	Bushels.	per acre.
Oats	2,800	359,000	90
Wheat	306	10,720	35
Barley	462	24,462	51
Flax	203	3,654	18
Seed Plots.	18	720	

Money Coming In. According to reports received by the Canadian Pacific, the migration of Americans to Western Canada continue in large volumes. For instance, during the week ending October 7th, there entered Western Canada by various ports from the United States, 1,187 persons with \$287,044 cash and effects valued at \$103,458. Of these 444 were farmers, 101 laborers, 280 women and children, 177 mechanics, and 56 clerical workers, 893 were Americans and 38 Canadians returning. During the same week, Western Canada lost only 116 persons of various nationalities who left to reside in the United States, of whom 22 were farmers. During the same week 462 homesteads were entered upon in Western Canada, of which 139 were taken up by Americans.

According to an article in the Financial Post, the number of homesteads taken up in Western Canada by Americans during the last three years is 31,957, the new settlers having come in the following numbers from the following States:

North Dakota	11,428
Minnesota	5,417
South Dakota	2,287
Wisconsin	1,674
Michigan	1,490
Iowa	1,435
Washington	1,412
Illinois	892
Indiana	609
Montana	602
Nebraska	591
New York	538
Kansas	489
Idaho	440
Missouri	399

Canadians who have returned from the U. S. A. during the same period

to take up Canadian homesteads, number 1,134.

Interesting Meeting.

An interesting meeting took place at the C. P. E. hotel at Vancouver on Saturday between T. Richardson, M.P., for the British constituency of Whitehaven, Cumberland, and Ralph Smith, ex-M.P. for Nanaimo, B.C. Both are now prominent politicians, but originally worked side by side in the same colliery in Northumberland. Mr. Richardson is making an extensive tour through Canada in the interests of a number of labor newspapers, so that he can give first hand information on emigration and the opportunities for Old Country working men in Canada.

Terminal Improvements.

Rapid progress is being made on the C. P. R. terminal improvements at Vancouver, which are on such a scale as to make that port one of the greatest railway centres on the Pacific Coast. Over two thousand tons of steel have been received for the new station, and fifty per cent. of the girders have been erected. The concrete pillars are almost completed, and considerable work has been done on the windows and arches. Work was commenced on October tenth, on raising the tracks five feet above the present level. One track will be raised at a time, so that by the time the station is completed, passenger trains will be run on the one entirely new level.

MADAM NAZIMOVA

A great deal of interest is being evinced in the coming engagement of Madame Nazimova, the distinguished Russian actress, because of the widely read novel her play has been dramatized from, as well as from the fact that she is undoubtedly the greatest emotional actress on the English speaking stage. Her play this season is "Bella Donna," adapted from the popular novel of the same name by Robert Hichens. James Bernard Fagan made the adaptation. It is generally conceded that the title role in "Bella Donna" affords Nazimova far greater scope than any role she has played since she has been before the English speaking public. Charles Frohman is said to have made a particularly beautiful production for "Bella Donna," and Nazimova is supported by her identical New York company. "Bella Donna" was one of the sensations of the past season when it was produced at the Empire theatre, New York City. Charles Frohman will present Nazimova at the Auditorium Monday night.

ITALIAN CAMPAIGN IS WAXING WARMER

GOVERNMENT ISSUES ORDERS TO REPRESS ALL DISTURBANCES.

Rome, October 16—The campaign in the general elections which will be held October 26th, is waxing warmer, and in some cases political activity has taken the form of violence. The government, however, has issued orders for the prompt repression of all disturbances.

A meeting of Garibaldians was held today to register a protest against Ricciotti Garibaldi, the only surviving son of the patriot, because he has given his support to the candidacy of Marquis Di Medici, a nephew of one of the Garibaldian generals, who is also supported by the Clericals. Ricciotti Garibaldi crippled by old wounds, arrived here today and drove through a hostile gathering and was attacked by the demonstrators, one of whom struck him with a stick.

GOT A BAD SPRAIN

ZAM-BUK CURED.

Don't limp about in pain when you slip on the sidewalk and get a sprain, or get a bad twist at your recreation. Rub in Zam-Buk. It eases pain.

Mr. Clarence D. Black, Legal Department, Transcontinental Railway, Ottawa, writes: "I have used Zam-Buk, with very satisfactory results, but I did not know its full value until just recently, when I fell from a street car and badly sprained my ankle. I immediately applied Zam-Buk, and am pleased to say that it has proved invaluable to me. The sprain was soon cured."

Bear in mind that Zam-Buk is used by all the famous football teams, all the best trainers, and all the leading athletes. Men who are at sport all the time—whose living depends upon their keeping "fit," find Zam-Buk the surest way to fitness. They are the best judges. Mothers! Use it when the children get hurt!

In addition to its use for sprains, stiffness, rheumatism and sciatica, Zam-Buk is eminently useful for skin injuries and diseases. Blood-poison, festering sores, and ulcers, etc., it quickly cures. Also cures cuts, burns, scalds, chapped hands, cold sores, varicose veins, bad leg, eczema, ringworm, etc. All druggists and stores sell at 50c box or post free for price from Zam-Buk Co., Toronto. Refuse harmful substitutes. Have you tried Zam-Buk Soap? 25c tablet.

ABATTOIR INDUSTRY IN THIS DISTRICT

This Modern Business to be Started Here Shortly, Opinion of Hon. Mr. Roberge.

DETAILS DESCRIBED.

Quebec to Have Slaughter House Trade Like Chicago, Toronto and Montreal.

We publish today the very interesting interview given by the Hon. Mr. Roberge, M. C. L., President of the Quebec Abattoir Company, to the city reporters of our newspapers a few days ago.

In this interview Mr. Roberge said: The Raising of Cattle and Dairy Trade.

"It is shown by the official statistics that during the past six or seven years the number of horned cattle has greatly decreased in the Province of Quebec, and the quantity of milk brought to the dairies of this Province has decreased in the same proportion.

"This illogical state of affairs has been very detrimental to the welfare of our farming community. The wonderfully prosperous condition of our dairy industry today is the result of energetic and unheard of endeavors; but, as to reap the fruit of all the work that has been already accomplished, we must by all means persevere in the same endeavors.

"The up to date methods adopted in the tilling of the soil; the improvement of our country roads, so energetically inaugurated by the Quebec Local Government, and endorsed by the good will of our farming community, greatly facilitate the raising of a large stock of cattle. Unfortunately, the District of Quebec has felt the need of a favorable local market.

"Every week two or three hundred head of cattle remain unsold on the cattle market of Quebec, because there is not sufficient competition among the buyers. After waiting all day long, the farmer is compelled to give up his stock to the highest bidder, who are generally representatives of some large Company from Montreal or Toronto. These gentlemen, knowing the condition of the market, bid only at the last moment, and the farmer rather than take his cattle home, has to accept the prices offered. Such are the reasons given us by a great number of farmers for not raising more cattle.

"We have taken information on the subject, and the cattle dealers in Quebec have owned up that such a state of things does really exist.

"On the other hand, if we had abattoirs here, these abattoirs would own considerable yards for live stock, and if our farmers, when market day was over, had not received satisfactory prices for their cattle, they would still be independent of those outside agents; they could put their cattle in these cattle yards, or could have them killed and kept in refrigerators for a month or more at a very small cost.

"The number of hogs raised in this Province is certainly very much below what should be expected from such an extensive rural community and its actual development; but the farmer has no opportunity to sell all his stock.

"In order to help our farming community, and to encourage them to raise cattle in our province, it is therefore important that we should have within the limits of our City, these immense abattoirs that have been such a great factor in the development and prosperity of the agricultural classes in the State of Illinois, as well as in the suburbs of Winnipeg, Toronto and Montreal.

"Such was the first object aimed at by the Quebec Abattoir Company when it was organized and more particularly the aim of its President, who represents in the Legislative Council one of the rural divisions of this Province.

The Commercial Industry Viewpoint.

"The introduction of this great industry would tend to greatly increase the population of our City. It would become an important market as well as a centre of distribution. At the present time Quebec is nothing more than a market of local consumption.

"The development of this important branch of its commerce would contribute to our prosperity.

"From an industrial point of view Quebec could then boast of an establishment that would give employment to three or four hundred men in the very near future. Surely this consideration cannot be overlooked nor should it be neglected. Let us proceed by way of comparison.

"The Great Northern Shops give employment to two hundred and fifty men approximately and it is acknowledged that they are a precious factor in the industrial world of Quebec. How many factories in Quebec employ three hundred men? Can they not be easily counted on the five fingers of one hand?

Hygiene and Public Health.

"From a sanitary and hygienic viewpoint the urgent need of slaughter houses in Quebec is still more deeply felt.

"Since we have organized the Quebec Abattoir Company we have visited the large establishments of the same kind of which Montreal and Toronto are so proud. In these immense refrigerators, meat is kept for three weeks or one month, before it is offered for sale. We have seen these quarters of beef, lovely to look at, that had been condemned and put aside. We were told when we ex-

CANADA'S RAILROAD BUILDING RECORD

Year's Work on Transcontinental Lines—Most Activity West of Lakes.

MUCH GRADING DONE.

Double-tracking and Terminal Work — Much Equipment Ordered.

Montreal Oct. 15.—The railway construction season all over Canada, which is now coming to an end, has been exceptionally favorable. Labor has not been so scarce as in some recent years; nor have the three great railway companies—the Canadian Pacific, the Grand Trunk and Grand Trunk Pacific, and the Canadian Northern—been handicapped in their construction work by inability to secure delivery of rails quite to the same extent as they were in 1912.

The new transcontinental lines which the Grand Trunk Pacific and the Canadian Northern have been building since 1906, stretch from the Atlantic to the Pacific. Every province in the Dominion, with the exception of Prince Edward Island, is intersected by these new lines—certainly by the line of the Grand Trunk Pacific, which by the way of Moncton, N.B., connects Halifax and St. John with Prince Rupert, the new ocean port of British Columbia. Most of the activity in railway building at present is in the country west of the Great Lakes. The Grand Trunk Pacific, and the Canadian Northern are busy in that territory with their main lines—especially in British Columbia—and also with the construction of branch lines in Alberta and Saskatchewan; while the Canadian Pacific has been doing much double tracking and building many branch lines in British Columbia and in the grain growing provinces. One branch line in Ontario—Glen Bay to Agincourt—and twelve branches in the western provinces have been building this year for the Canadian Pacific. Up to the first of September, grading had been done on these lines to an aggregate length of 1,087 miles, and 545 miles had been laid with rails. Some of the double tracking on the Canadian Pacific is in the country east of Lake Superior. Forty-two miles is in Quebec and in the older part of Ontario—from St. Johns to Farnham on the Farnham subdivision; and from Islington Junction to Guelph Junction on the London subdivision. But most of it is in the divisions between North Bay and Port Arthur, and between Brandon, Manitoba and Vancouver. In these two stretches of country since work has been begun this season a little over 400 miles of line have been graded for double track, of which 230 miles have been laid with rails. During the present season considerable progress has been made with the new terminal at Vancouver, and with the great freight yards at Transcona, just east of Winnipeg, where are 113 miles of track, and at Coquitlam, B.C., where are some 35 miles of track. The workshops at Ogden, near Calgary—the largest Canadian Pacific plant west of Winnipeg—also have been completed; and so has the famous high-level bridge over the Saskatchewan River that now carries the line from Strathcona into Edmonton, Alta. Before the hard winter weather puts an end to construction work in these parts of the Dominion, the total trackage of the Canadian Pacific will have been brought up to about 13,400 miles, and when all the equipment under order has been delivered it will have 2,225 locomotives and some 90,000 cars.

"Let the citizens consult their doctor on this matter, especially the members of the anti-tuberculosis society, or of the public health council. If some butchers are very scrupulous and very clean, others are criminally negligent and unclean. Indifferent to the health of their unfortunate customers, they sometimes offer for sale in their filthy establishments, meat that is tainted with microbes. Other butchers, even less scrupulous, buy the meat of sick cattle, and sell it at reduced prices to their poorer customers who pay too much even for what they get.

"Do you wish to have an idea of what is done? Visit some of the establishments in our suburbs and in our industrial wards.

"We therefore believe that the building of a slaughter house in Quebec would interest our population with the exception of a few butchers who are a discredit to their trade. Happily they are not in the majority, but they are always unfortunately too numerous.

"From a commercial viewpoint Quebec loses its best customers owing to its lack of slaughter houses and large refrigerators. I allude to the Transatlantic Companies and large hotels that buy on the Toronto and Montreal markets. A great number of English families also go elsewhere to buy their meat and require that the meat sold to them carries a certificate of inspection such as is given by the Abattoir Company.

A Serious Company.

"The Quebec Abattoir Company is one of the most serious that has been formed here. Its members are taken from the best known financiers and manufacturers of Montreal, Quebec and the Eastern Townships. This Company has on hand all the capital required and some of its directors have a wide experience in the cattle trade, as they have followed it up for a large number of years.

"They have retained the services of quite a number of experts in this industry. These men will preside over the different departments. The establishment will be run on the most up-to-date principles.

"With this object in view, instructions have been given to the Company's architect to go to Toronto and Chicago and there to study the large establishments of this kind so flourishing in these cities. Work will be started this fall, if the City of Quebec will grant the Company the rights and privileges that it has asked for.

"It is easily understood that the population of Quebec is far from being as large as the population of Montreal, Toronto, Winnipeg or Chicago; it would take three or four hundred thousand dollars to build a slaughter house in Quebec. It will be easily understood that an industry of this kind needs help to succeed.

"So far all the Companies that have been formed have asked outside of the privilege of exclusiveness, to be exempted from taxation as well as a subsidy in money. The Quebec Abattoir Company ask only for the exclusive privilege and for exemption from taxation.

"It would seem that these demands are quite reasonable, and that, owing to the great advantages that such a Company would procure to Quebec, there should not be a moment's hesitation in granting them. Naturally, there will be a few people whose little business will be interfered with, but they are carrying it on today against the public interest and to the detriment of public health.

"Our Company will also have to face the competition of some other Company organized to fight against it. It is hard to admit, but it is characteristic of our race to be jealous of the success attained by others. We have been talking of abattoirs in Quebec for the last thirty years, and still no serious Company has ever come before the City with such formal guarantees of success. We will not be at all surprised if the organization of our Company should inspire others with the idea of organizing, with the sole object of keeping us from success.

"The great objection we meet in the public against the granting by the City of the exclusive right asked for by our Company, is that we try to establish in this City a trust or monopoly. This is not at all the fact.

"No serious company will come and spend in our City four or five hundred thousand dollars without being protected against the millionaire companies which are now in operation in Montreal and Toronto and which control their establishments there.

"As long as no abattoir is started in Quebec, they need not come, because they reap all the advantages of our market without coming, but as soon as an abattoir is established here, they will surely come and establish a plant in opposition to our own and then when we will be out of business, they will retain the control of our market.

"We are ready to submit the grant

CANADA'S RAILROAD BUILDING RECORD

Year's Work on Transcontinental Lines—Most Activity West of Lakes.

MUCH GRADING DONE.

Double-tracking and Terminal Work — Much Equipment Ordered.

Montreal Oct. 15.—The railway construction season all over Canada, which is now coming to an end, has been exceptionally favorable. Labor has not been so scarce as in some recent years; nor have the three great railway companies—the Canadian Pacific, the Grand Trunk and Grand Trunk Pacific, and the Canadian Northern—been handicapped in their construction work by inability to secure delivery of rails quite to the same extent as they were in 1912.

The new transcontinental lines which the Grand Trunk Pacific and the Canadian Northern have been building since 1906, stretch from the Atlantic to the Pacific. Every province in the Dominion, with the exception of Prince Edward Island, is intersected by these new lines—certainly by the line of the Grand Trunk Pacific, which by the way of Moncton, N.B., connects Halifax and St. John with Prince Rupert, the new ocean port of British Columbia. Most of the activity in railway building at present is in the country west of the Great Lakes. The Grand Trunk Pacific, and the Canadian Northern are busy in that territory with their main lines—especially in British Columbia—and also with the construction of branch lines in Alberta and Saskatchewan; while the Canadian Pacific has been doing much double tracking and building many branch lines in British Columbia and in the grain growing provinces. One branch line in Ontario—Glen Bay to Agincourt—and twelve branches in the western provinces have been building this year for the Canadian Pacific. Up to the first of September, grading had been done on these lines to an aggregate length of 1,087 miles, and 545 miles had been laid with rails. Some of the double tracking on the Canadian Pacific is in the country east of Lake Superior. Forty-two miles is in Quebec and in the older part of Ontario—from St. Johns to Farnham on the Farnham subdivision; and from Islington Junction to Guelph Junction on the London subdivision. But most of it is in the divisions between North Bay and Port Arthur, and between Brandon, Manitoba and Vancouver. In these two stretches of country since work has been begun this season a little over 400 miles of line have been graded for double track, of which 230 miles have been laid with rails. During the present season considerable progress has been made with the new terminal at Vancouver, and with the great freight yards at Transcona, just east of Winnipeg, where are 113 miles of track, and at Coquitlam, B.C., where are some 35 miles of track. The workshops at Ogden, near Calgary—the largest Canadian Pacific plant west of Winnipeg—also have been completed; and so has the famous high-level bridge over the Saskatchewan River that now carries the line from Strathcona into Edmonton, Alta. Before the hard winter weather puts an end to construction work in these parts of the Dominion, the total trackage of the Canadian Pacific will have been brought up to about 13,400 miles, and when all the equipment under order has been delivered it will have 2,225 locomotives and some 90,000 cars.

"Let the citizens consult their doctor on this matter, especially the members of the anti-tuberculosis society, or of the public health council. If some butchers are very scrupulous and very clean, others are criminally negligent and unclean. Indifferent to the health of their unfortunate customers, they sometimes offer for sale in their filthy establishments, meat that is tainted with microbes. Other butchers, even less scrupulous, buy the meat of sick cattle, and sell it at reduced prices to their poorer customers who pay too much even for what they get.

"Do you wish to have an idea of what is done? Visit some of the establishments in our suburbs and in our industrial wards.

PRINCE GEORGE—BRITISH COLUMBIA

The entire Indian village on the site of Prince George, the new Grand Trunk Pacific town, will be burned down within a few days to make way for the new town. The torch will be applied ruthlessly and the ancestral homes of the tribe will be swept away to the last building. Even the churches of the natives will not be spared. The Indians are moving their property to two new villages built for them on the reserve in the Goose country, 15 miles up the Fraser, and on Duck Lake, 12 miles up the Nechaco river. When the railway company purchased the Indian reserve which is the site of Prince George, it was agreed through the Dominion Government that new villages should be built for the tribe. These new Indian towns are now being completed and they have been inspected by representatives of the Dominion authorities. They are said to be a credit to the Indian Departments, as well as to the contractors and are probably the most remarkable Indian villages ever built in respect to being essentially modern. The town to be burned down is one of the oldest Indian settlements known in British Columbia. It has been an Indian village from time immemorial. The tribe is known as the Carrier from the fact that early discoverers found they carried charred bones of their ancestors constantly with them. They are also known as the 11th Dynasty Danes.

F. SIMARD & CIE

142 St. Joseph Street, Quebec. Telephone 2632

tween the eastern and western ends of the main line. Trains will be running westward as far as Fort George before the end of the present year, and on the eastern division—Winnipeg to Moncton—the division which is being built by the Dominion Government for lease to the Grand Trunk Pacific, only one gap remains for track laying. This extends from mile 340 west of the city of Quebec to mile 379.

However, considerable work is still to be done on the length between Cochrane and Lake Superior Junction, Ont., where the Grand Trunk Pacific branch line debouches to Fort William, before through trains can be run from Winnipeg to Montreal and Quebec. Nevertheless, it is the expectation that this winter, grain will be carried from Winnipeg to Montreal over the Grand Trunk Pacific. In Montreal the Grand Trunk Pacific will have the use of the passenger and freight terminals of the Grand Trunk Company.

The entire eastern division—Winnipeg to Moncton—from the fact that it is being built for the Dominion Government is generally known as the National Transcontinental Railway. It has cost the government up to the end of 1912, \$127,219,000, and at least \$35,000,000 more will have to be spent upon it before it is complete and ready for the running of through passenger trains from Moncton to Prince Rupert. This new terminal and ocean port in British Columbia is 530 miles north of Vancouver, where the Canadian Pacific has its

IN AND ABOUT TOWN

SUCTION DREDGE WELL EQUIPPED

IS CAPABLE OF REMOVING A THOUSAND TONS IN SPACE OF AN HOUR.

The Fruhling suction dredge purchased in Germany for the Quebec Harbor Commission still remains at anchor in the river St. Lawrence, opposite Princess wharf. It was the intention of the captain in charge of the Louise basin yesterday afternoon and got it ready to hand over to the purchasers, but owing to the high easterly wind that prevailed, it was judged best to wait until today.

The new dredge is one of the most modern built and a valuable part of the plant the Quebec Harbor Commission intends acquiring. It is 185 feet in length and 36 feet beam, and fitted up with the latest machinery, and has a draught of 13 feet.

The dredge is fitted with two large centrifugal dredge pumps of which the material is sucked up and loaded into the hoppers with one thousand tons of river bottom in the space of one hour's time. The dredge works fully without moorings, dredging behind a powerful Fruhling suction head in the shape of a broad inverted bucket, made of the best steel and attached to the hull of a massive girder dredge arm, which lies in a central well cast into the stern.

This head planes or scrapes off material which is conveyed to the hopper by the double suction pipes, carried in the girder dredge arm. Means are provided for the dumping of the material in the dredge hopper, through hinge bottom doors, handled by hydraulic means, and alternately the hopper material can be pumped ashore for reclamation work.

The Fruhling dredge came from a German Baltic port in 20 days under its own steam, and met with mixed weather, five days of which the captain reports, were boisterous. It is expected that she will be got ready for operation, and handed over to the Harbor Commission within the next five days, and then put to work dredging in the St. Charles river.

LORETTVILLE GETS NEW POST OFFICE

HON. L. P. PELLETIER HAS ENDORSED CHEQUE FOR PURCHASE OF LAND NECESSARY

Another example of what the Hon. L. P. Pelletier, Postmaster General, is doing for the City of Quebec and the district in the way of improving the postal service is brought out in the fact that he had endorsed a cheque for the purchasing of land necessary to construct a new post office at Loretteville.

This new post office at Loretteville has been much needed and in the village which is yearly extending and developing very rapidly the increasing mail business has made the natural demand for larger quarters.

The people of Loretteville are delighted with the proposed improvement which will not only be a great boon to them but will also be an embellishment as it will cost in the vicinity of \$10,000.

LEVIS COUNTY RY. ANNUAL MEETING

FINANCIAL STATEMENT IS THE BEST IN HISTORY OF THE COMPANY.

The annual meeting of shareholders of the Levis County Railway was held at Levis on Wednesday last and the financial statement read was most encouraging and the best in the history of the company. The statement showed that the earning powers of the railway had greatly increased during the past year, and besides being able to meet the interest of the bonds, the company had a substantial surplus in assets over expenditures.

It was decided to purchase new passenger cars and extend the railway over the Quebec Improvement Company's property to the Chaudiere Curve, also to repair and renovate the present rolling stock and improve the condition of the company's track property throughout the town of Levis.

The Levis County Railway has had many difficulties to overcome since that its organization, and it would seem that it was entering upon a new era of prosperity. The bonded debt of the entire property is not large, only \$157,000, of which amount the Sun Life Insurance Company are the largest holders, some 60 per cent; the remainder is held by citizens of Quebec and Levis.

The retiring officers and board of directors were unanimously re-elected, and after the passing of a vote of thanks to the manager and his subordinate officials for their efficient management during the past year, the meeting adjourned.

ORGAN RECITAL.
An organ recital will be given by Mr. E. A. Bishop, at the Cathedral of the Holy Trinity, on Tuesday evening next, at 8.30 o'clock.

A FINE TEA.
Lovers of good tea should read the advertisement of Mr. George Patry, and then visit his store and secure a tin of the famous Lipton tea. They will never regret it.

INTERESTING LECTURE.
The pupils of the Girls' High School and Victoria School were addressed at the latter institution yesterday morning by Mrs. Henry Damon, of England, representing the Navy League, and who gave an interesting lecture before the Daughters of the Empire, and the Women's Canadian Club on Tuesday afternoon. Mrs. Damon's address to the scholars yesterday was largely along the lines of her lecture on Tuesday, as she treated of Imperial defence and the German menace.

MRS. JOHN FERGUSON PASSES AWAY
The death occurred this morning at the residence of her son-in-law, Mr. Richard Swindell, of an old and highly respected resident of the Ancient Capital in the person of Mrs. Ferguson, widow of the late Mr. John Ferguson. Deceased, who had reached the patriarchal age of eighty years, was greatly admired and esteemed for her many fine womanly qualities and her true Christian living, and her demise will be deeply regretted by all who had the pleasure of her acquaintance. She is survived by one son and four daughters. The former is Mr. John Ferguson of Port Arthur, Texas, and the latter Mrs. Richard Swindell and Mrs. W. J. Mulrooney of this city, and Mrs. James Murphy and Mrs. P. Harney, now residing in Port Arthur, Texas. They will have the sympathy of many in their bereavement.

MOTOR CAR SMASHED BY ELECTRIC CAR.
A serious collision occurred on Abraham Hill yesterday morning, when an automobile and a street car were badly damaged.

It appears that the automobile, which belongs to Mr. Harry Fontaine, was proceeding down St. Eustache street, as the street car was coming up Abraham Hill, when they came into collision, both being badly damaged, the automobile being nearly cut in two, and the car having to be withdrawn from the road. The chauffeur, who was alone in the automobile, escaped with only a slight injury to one arm.

No one in the street car was hurt.

RICH & ONT. NAVIGATION CO. Thanksgiving Day Excursion.
In connection with the above excursion the Richelieu & Ontario Navigation Company will issue round trip tickets between Quebec and Montreal and intermediate ports, at the rate of fare and one-third. Good going October 17th, 18th, 19th and 20th. Returning up to Wednesday, October 22nd.

Special rates will also be in force on the Saguenay division.

SAD DEATH OF MISS GILPIN.
Universal sympathy will be extended to Mr. John Gilpin of this city in the loss which he has suffered through the death of his daughter, Jessie Elizabeth, who passed away after a lingering illness and much suffering at the Royal Victoria Hospital, Montreal, on Tuesday. The deceased young lady had a legion of friends in this city whom she attracted to her by her many lovable, maidenly qualities. She was employed in the firm of Holt, Renfrew & Co., for a number of years, but took ill about two years ago and since then she had been confined to hospital, having undergone as many as seven operations. Her premature demise is very sad as she was only twenty-four years of age, and her afflicted father and aged grandmother, Mrs. H. Smith, will be consoled with in their loss by a large circle of friends.

Piles Cured in 6 to 14 Days.
Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. First application gives relief. 50c.

RECORDER'S COURT.
The Recorder had seven prisoners charged with drunkenness before him yesterday. One was fined \$5 and costs or eight days' jail; two \$5 and costs or fifteen days each; one \$10 and costs or one month, and three were discharged.

DESERTED HIS POST.
Sofia, Oct. 16.—Col. Peteff, a brigade commander, was sentenced by court martial today to four years' imprisonment for deserting his post in an engagement against the Greeks.

CAR FERRY DUE HERE NEXT JUNE

WILL CARRY A COMPLETE TRAIN OF PASSENGER CARS —DETAILS OF OPERATION.

The car ferry being built in England in connection with the Transcontinental Railway between Quebec and Levis, is expected to be delivered at Quebec in the month of June next. The car ferry in question, which was ordered by Major Leonard, Chairman of the Transcontinental Railway Commission at a cost of 113,000 pounds, is a huge undertaking, as it will be built to carry a complete train of passenger cars from Quebec to Levis, and continue in the service until the Quebec Bridge is completed and ready for traffic operation.

The difficulties in the way of building this car ferry at first seemed insurmountable, as there is a tide of 18 feet, while the floating ice in the river during the winter season had to be considered. The rise and fall of tide had also to be provided for, and the solution of the problem was entrusted to a Canadian engineer, who designed a ferry with a tidal deck, which twenty immense hydraulic jacks can raise or lower at the rate of a foot per minute. This deck can be lowered or raised as the boat is crossing the river. On this deck will run the railway tracks, and to connect these with the pier presented special difficulties which were met by the design of a so-called flexible apron, or gangway.

In case a slight difference of load makes one of the three slightly higher than the other, there is sufficient play in the huge "apron" made up in three separate plate girders on which the rails are laid, to make sure the shoreward end will be perfectly level upon the wharf.

The English contractors had to send to Canada for help in building this apron, as it was entirely new to them.

8TH R.R. MARCHING PRACTISE TONIGHT

REFRESHMENTS WILL BE SERVED AT DRILL HALL ON RETURN FROM TRAMP.

Word was received yesterday from Montreal that the number of men in each unit would be very likely reduced to fifty, this news was received with satisfaction by the officers in charge of the work of training the Eighth R.R. squad.

There are now 71 names enrolled and these, together with their attendance, are as follows:

Present at all three parades: Col. Sgt. Meyers, Sgts. Carswell and Shirley, Sgt. F. Hill, Corps. Langton, Pelletier and Cooper, Privates Cooper, Jordan, Valliere, Aubin, Clint, Lynch, Baillairgie, McGe, Sutherland, Lemelin, Bugler Sewell and Sgt. Maj. Copeman—19.

Present at two parades: Corpl. C. Young, Pioneer Scott, Privates Fritze, Dall, Hagans, Fanning, Bergeron, Plain, Gibout, Copeman, H.: Lemieux, Gerrett, Turgeon, Hamel, Hannon—15.

Present at one parade: Q. M. Sgt. Norton, Sgts. W. Redmond and Henchey, and C. Fletcher and E. Woodley, Corps. J. Hill, S. Marchant, Goodnoh, L. Stevens, E. Wright, Privates Lemoine, Simon, Farrell, Stevens, Douglas, A. Copeman, E. Morton, Kerr, Racine, Turner, Rioux, L. Todd, Bugler McGrath, Wiggs, Lemieux, MacDonald, Drummer Halligan and Signaller Jewell—28.

Enrolled but did not turn up to any parade: Privates Kenney, Power, G. B. Todd, Falkenberg, Blackwood, Stewart, T. Malone, Sullivan, Kane and Sgt. M. Murphy—10.

Now that the requisite number has been reduced to 50, the company organization will be completed and clothing and equipment issued at once and arrangements made to finance the trip.

There will be refreshments served at the Drill Hall tonight, after returning from the march.

Beginning next week marches will be made with uniform and equipment complete, short and frequent marches will be the order for the first week, the pace and distance will be gradually increased as the men become fit.

SICILIAN LAWYER KILLS MERCHANT.
Palermo, Sicily, Oct. 16.—Signor Paternostro, a well known lawyer of Palermo, today shot and killed a rich merchant, Signor Saladino. Paternostro accused the merchant of having stolen documents connected with the candidacy of Nunzio Nasi, the former Minister of Public Instruction, who served a term of imprisonment for embezzlement and who has been elected several times to the Chamber of Deputies, only to have his election annulled.

SLEEP DISTURBING BLADDER WEAKNESS BACKACHE-RHEUMATISM, QUICKLY VANISH

EVEN MOST CHRONIC SUFFERERS FIND RELIEF FROM FEW DOSES OF CROXONE.

Croxone soon relieves such conditions because it reaches the very root of the disease. It soaks right into the stopped up, inactive kidneys, through the walls and linings; cleans out the little filtering cells and glands neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles to scratch and irritate and cause rheumatism; heals the inflamed membranes of the bladder, and cleans out and strengthens the stopped up, lifeless kidneys so they can filter and sift all the poisons from the blood, and drive it out of the system.

So sure, so positive, so quick and lasting, are the results obtained from the use of Croxone, that three doses a day for a few days are often all that is required to end the worst backache, regulate the most annoying bladder disorders, and overcome the numerous other similar conditions.

Croxone is so prepared that it is practically impossible to take it without results.

An original package costs but a trifle, and all druggists are authorized to return the purchase price if Croxone fails to give desired results, regardless of how old you are, how long you have suffered, or what else has failed.

FRENCH DRY CLEANING SAVES CLOTHES AND MONEY.

Few people realize the possibilities of our French Dry Process, both as to work and as a source of economy. We clean anything in ladies' wearing apparel, feathers, plumes, household draperies, etc. This service has a wonderful life restoring effect and makes any article look better and wear longer. We recommend French Dry Cleaning as one of the most effective means of economizing, which is so necessary in this day of "high cost of living," and we recommend our service as the most thorough and satisfactory in the Province.

SYNOPSIS OF REGULATIONS.
GOVERNING Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, the Northwest Territories, the Railway Belt in the Province of British Columbia, and the tract of Three and a Half Million Acres, Located by the Government of the Dominion in the Peace River District in the Province of British Columbia.

LICENSES.
 A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction. A rental of \$5.00 per square mile, per annum, is charged on all timber berths excepting those situated west of Yale in the Province of British Columbia on which the rental is at the rate of \$3.00 per square mile. In addition to rental, dues are charged on the timber cut at the rates set out in section 20 of the regulations.

TIMBER PERMITS AND DUES.
 Permits may be granted in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of 30c. per thousand feet B.M., and of a fee at the rate of \$100.00 per square mile for each permit.

TIMBER FOR HOMESTEADERS.
 An occupant of a homestead quarter-section having no timber of his own suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in Section 50 of the Regulations.

W. W. CORY,
 Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS
 Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district in which the land to be made is to be made, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-empted six months in each of three years from date of homestead entry including the time required to earn homestead patent and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchase homestead in certain districts. Price \$3.00 per acre.

Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. CORY,
 Deputy of the Minister of the Interior.
 N.B.—Unauthorized publication of this advertisement will not be paid for.

EXTENSION OF TIME.
 NOTICE is hereby given that the time for the reception of tenders for Interior Fittings, Post Office, Roberval, P.Q., is extended to Monday, November 3rd, 1913.

By order,
 R. C. DESROCHERS,
 Secretary.
 Dept. of Public Works,
 Ottawa, October 15, 1913.
 Oct.17x2

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Three Rivers, P.Q." will be received at this office until 4.00 p.m., on Wednesday, November 5, 1913, for the construction of the Building mentioned.

Plans, specification, and form of contract can be seen, and forms of tender obtained at the office of Mr. R. L. Deschamps, Central Post Office Building, Montreal, P.Q.; at the Post Office, Three Rivers, P.Q.; and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited of the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted, the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
 R. C. DESROCHERS,
 Secretary.
 Dept. of Public Works,
 Ottawa, October 15, 1913.

DAY FOR PACERS AT LEXINGTON

FLOWER DIRECT WINS THE 2:05 AND FRANK BOGASH, JR., THE 2:10.

Lexington, Ky., Oct. 16. — Two stakes were contested for today in the Grand Circuit meeting, the Cumberland, for 2:05 pacers, and the Blue Grass for 2:10 pacers.

Flower Direct won the former after losing the first heat to Walter Cochato. In the third heat Longworth B. broke badly and collided with Walter Cochato. The gelding was distanced but was allowed to start in the next heat because of the accident.

Frank Bogash Jr. won the Blue Grass Stake in straight heats from Del Rey and Herman Wagner, the latter being distanced in the final heat. The 2:15 trot resulted in a straight heat victory for Bright Axworthy, closely pushed by Morine in the first and second heats and by Berka in the third.

The 2:20 trot, also a straight heat race, was won by Jim Todd, Fast Tramp taking second money.

Summary.
 2:15 trot, best 3 in 5; purse \$1,000:
 Bright Axworthy, b. g., by Axworthy, (Edelmeyer) ... 1 1 1
 Morine, b. m., (Cox) ... 2 3 3
 Berka, b. m., (McCarthy) ... 6 9 2
 Grace Sussey, b.m. (Shepard) ... 3 4 7
 Vaster, gr. g., (Spencer) ... 4 3 8
 The Student, b. g., (Ryerson) ... 7 8 4
 Lee Blossom, ch. m., (Clark) ... 8 10 5
 Louise, b. m., (Geers) ... 9 5 6
 Medium Expectation, b. m., (Davis) ... 5 6 10
 Helen Wilstar, b.m., (Jones) ... 12 7 11
 Alfreda Todd, br. m., (Murphy) ... 11 11 9
 Sadie Baron, b. m., (Flick) ... 10 12 12
 Time, 2:09½, 2:10¼, 2:08¾.

The Cumberland Stake for pacers, eligible to the 2:05 class, June 16, 3 in 5; value \$2,000:
 Flower Direct, b. m., by Direct Star, (Whitehead) 2 1 1 1
 Walter Cochato, blk. h., (Legg) ... 1 2 3 2

 Del Rey, h. h., (Cox) ... 2 2 2
 Herman Wenger, b. h., (Valentine) ... 3 3 dis
 Time, 2:09¼, 2:06, 2:04¼.

CAZEAU WINS BOUT IN STRAIGHT FALLS

FIRE-EATING FRENCH WRESTLER DEFEATED ITALIAN SILVA HERE LAST NIGHT.

Admirers of mat artists and the grappling game in this city were numerously represented at the Garde Champlain Hall last evening when the fire-eating Cazooks, known as Sunny Franco, defeated the Italian wrestler, Emile Silva, in two straight falls, the first in 25 minutes and the second in 19 minutes.

The crowd looked on with open-eyed wonder to see the mighty Cazooks with his bristling mustachios his eyes filled with fiery gleam and his gorilla-like arms and hands like hams, grappling with his lighter opponent of whom he was master in strength and weight, though, perhaps, the inferior in skill.

Just a few minutes sparring for a hold in the catch-as-catch-can style and they locked in mighty grasp. Silva was no slouch and he went to his more weighty opponent with a will. He could not toss him about as he wished but he slapped his big face, pulled his mustache, and attempted to pluck the hirsute growth from the shins of the big Frenchman. The sympathy if the crowd went to the lighter man, and Cazooks lost; his temper. He shouted at the Referee, and it was like an earthquake. The hall shook, and the irate Cazooks was aroused. He went after his man then and secured the first fall in twenty-five minutes. The second fall was secured in nineteen minutes, but it seemed all through that the sympathy of the crowd was with Silva. The bout was refereed by Mr. Leon Belanger.

Previous to the big bout a preliminary event was staged in which Arthur Audet, of Quebec, who claims the championship of Canada, at 110 pounds threw Albert Bedard, of Montreal, in 4:05 and 6:50 minutes respectively. Audet will meet Damase Emery, of Montreal, for the championship in Montreal on the 23rd of October.

GOLF MATCH IS NOW AN INTERNATIONAL

SURVIVOR OF DODD-RAVENSCROFT GAME TO PLAY AN AMERICAN.

Wilmington, Del., Oct. 16.—America and England will meet in the final match for the National Women's Golf Championship, to be played on the links of the Wilmington Country Club on Saturday.

In the semi-final matches tomorrow, Miss Muriel Dodd, British and Canadian champion, will play Miss Gladys Ravenscroft, who held the British title last year, while the other survivors of the third round, which was played today, are Miss Marion Hollins, of New York, metropolitan champion, and Miss Harriet Curtis, of Boston, a former national champion.

Miss Dodd defeated Mrs. Clarence H. Vanderback in the third round, 5 up 3 to play, after the Philadelphian had held her own for the first nine holes. Miss Ravenscroft was successful in her match with Miss Fanny C. Osgood, of Boston, 3 up and 2 to play, although the lead changed frequently during the early stages of the match, and both were on equal terms at the 13th hole.

Miss Hollins won from Mrs. E. H. Fittler, of Philadelphia, 2 up, in the most closely contested match of the day. Miss Curtis won the first two holes in her match with the Irish champion, Miss Mabel Harrison, and retained the lead throughout the match, winning 4 up and 3 to play.

IN FAVOR OF WORLD'S SERIES.
 Chicago, October 16.—B. B. Johnson, president of the American League and a member of the National Baseball Commission, favors the retention of the world's series games each fall in their present form.

"While I recognize many of the necessary evils of the world's series, the one big point in its favor is that it arouses tremendous interest in every city and hamlet in the nation," Johnson said. "This interest in baseball, and our efforts should be to strengthen baseball. The interleague series with sixteen clubs competing, would sustain local interest, but they would remove the great financial incentive for teams to win their league pennants."

The commission, President Johnson said, practically has agreed to the insertion in the uniform player's contracts of the major leagues for 1914, of a clause, which will prohibit players from writing for newspapers.

SMITH RETURNS CONTRACT--SIGNED

TOMMY ALWAYS DID LOVE TO FOOL THAT OTTAWA BUNCH.

While considerable noise is being made in Montreal and Ottawa alleging Tommy Smith refuses to sign the Quebec contract to play with the champions against next season, Mr. Mike Quinn, the manager of the Quebec Hockey Club, has Smith's contract filed away snugly with Tommy's signature affixed in bold scrawling characters.

The Solomons of Montreal and Ottawa are just as far away on the Tommy Smith racket as they were last winter on the championship dope. They say that Smith only received \$800 for his services here last winter, and again they are at sea. Smith will be paid what he is worth, and that is something. The Quebec Club management leave the ante-season prophets to extend themselves and all the while they are digging in and saying little. Talk is cheap, but it takes something more to win a championship.

SHOOTING MATCHES.
 Annual Meet of Ordnance Corps Is Held at Levis.

Following are the results of the annual shooting match No. 7 Detachment, C. O. C. R. A., held at Levis:

Information should be sent direct to: HON. MRS. J. E. TURTON, 317 West George St., Chicago, Ill. WHITE HORSE is a limited liability company.

increased 53 per cent from 1909 to 1912, according to statistics supplied today to the Chicago Safety Commission which was organized recently to combat such accidents. In 1907 there were fifteen deaths from motor car accidents; last year there were 92, the increase being the largest in the coun-

GOVERNOR SULZER WILL BE REMOVED FROM OFFICE TODAY

(Continued from Page One)

Public Works, who testified at the trial that the Governor has asked him to commit perjury.

The secret informal vote to remove the governor was said to be 43 to 14, the same as on article 4, and the vote not to disqualify him was said to be unanimous.

Article 6, which charges that the Governor committed larceny in speculating with his campaign contributions was said not to have been sustained in the secret session by a vote of fifty declaring the Governor not guilty, to seven against him.

Article 5, which charges that he prevented a particular witness, Frederick L. Colwell, from attending the sessions of the Frawley committee; article 7, that he threatened to use his office and influence to affect the vote or political action of certain assemblymen, and article 8, that he corruptly used his influence to affect the prices of securities on the Stock Exchange were reported to have been also decided in favor of the Governor in the secret session by a practically unanimous vote.

Judges Divided.

Presiding Judge Edgar M. Cullen, Democrat, who will shortly retire from the bench, voted not guilty on every article and rendered a long opinion in explaining his votes. The other eight judges of the Court of Appeals were divided. On articles 1 and 2 Judges Willard Bartlett, Democrat, and Emory A. Chase and William E. Werner, Republicans, voted for the Governor, and against him voted Judges Frederick Collin, William H. Cuddeback and John W. Hogan, Democrats, and Frank H. Hiscock and Nathan L. Miller, Republicans, making a division among them of five to four against the Governor.

On article four Judges Bartlett, Chase and Werner charged their votes from "not guilty" to "guilty," making against him a division of 6 to 3. On charges 1 and 2, twenty-three Democratic senators and 11 Republicans voted against the Governor, while those voting in favor of the Governor numbered seven Democrats, five Republicans, one Independence League Democrat and one Progressive Republican.

The vote on article 4 was the same except that Judges Bartlett, Chase and Werner and Senators Emerson, Herrick and Palmer changed their votes from not guilty to guilty; and Judges Hiscock and Miller changed from guilty to not guilty. Total: Guilty, 43; not guilty, 14.

Presiding Judge Cullen held that the offences charged in articles 1 and 2 were not impeachable and that the Governor neither falsified his statement under the provisions of the election law or committed "legal perjury."

Practically every member of the court explained his vote when the roll was called on article 1, although those who voted in favor of the Governor did not enter at length into a discussion of the merits of the case or of the matters of law and precedent involved as did the others, including all the judges. The latter filed with the court lengthy opinions in support of their votes.

One of the judges, Nathan L. Miller, who was designated to the Court of Appeals bench by Sulzer, denounced him as "totally unfit for office."

The presiding judge further declared that in signing his campaign statement the Governor could not be considered guilty of legal perjury.

"But I am frank to say," he continued, "if these acts were committed after he had taken office he should be considered morally unfit to hold office."

Judge Cullen held further that if the Article One was sustained it would open the door to convicting a man for offences committed in private life long before his election.

"Men have committed serious crimes," he said, "and subsequently risen to high public office and conducted themselves properly."

Senator Cullen, the senior member in point of years of service in the Senate, voted guilty without comment.

Senator Duhamel, an ardent supporter of the Governor, and Senator Emerson both voted not guilty, without explaining their action. Senator Duhamel, however, filed a written statement of his reasons for holding the Governor innocent.

Senator Foley voted guilty, holding that the offences charged in Article One were impeachable.

Senator Frawley voted guilty. "At not time during this trial," he said, "has any member of this court questioned the proof here submitted. Not being a lawyer I pass no opinion on the rights of this court. I find that the High Court of Appeals itself is divided on the question of law. Therefore, I vote guilty on the facts."

Senator Frank N. Godfrey voted against the Governor without comment.

Senator Griffin, of the Bronx, in voting guilty asserted that in his opinion the Governor's failure to correct his "false, fraudulent and misleading statement filed in the archives of the state" constituted a "crime of moral obliquity which to my mind justifies my vote for his removal."

Senator Heacock voted not guilty without comment.

"William Sulzer has been a public official for a score of years," said Senator Healy in voting guilty. "As such he knew the law, in fact, he helped to create the law to which he has given offence."

Senators Heffernan and Hewitt made no comment in voting guilty.

Senator Herrick voted not guilty. "I believe that the respondent is morally guilty of the offences charg-

ed, but I do not believe that the offences are impeachable," he said.

Judge Hiscock said, "I vote guilty. I cannot believe that the people by electing the respondent to office absolved him from offences he committed in assuming that office."

"I am not deterred by the fear that we are setting a dangerous precedent," he continued. "If the people believe we are so doing, we are on the eye of a constitutional convention and we can write into the constitution a provision that we should not convict a man for offences committed before taking office."

With the recording of Judge Hiscock's vote the tally stood: Guilty, 19; not guilty, 7.

Judge Hogan said that his views on the constitutional questions involved in the impeachment accorded with those of Judge Hiscock.

"I find that the facts alleged in Article One are undisputed," he declared. "Therefore, in accordance with my views concerning the power of this court, I am constrained to find the respondent guilty under Article One."

Senator McClelland held the offences impeachable and voted guilty. Senator McKnight voted not guilty without comment.

Senator Malone voted guilty after a brief explanation.

Judge Miller read a lengthy article before announcing his vote of guilty. He declared, in substance, that the provision in the present constitution providing that a Governor may be removed from office for formal and corrupt conduct in office and for high crimes and misdemeanors, conferred power of impeachment on the Assembly "in general terms without restriction." Therefore he held that the filing of a false statement of campaign receipts and expenditures constituted an impeachable offence.

"If this consciousness of guilt led him to attempt subornation of perjury, there is no telling what other crime it would lead to. I hold the respondent totally unfit to hold office."

Senator Murtaugh voted guilty, his reasons, he said, being contained in the opinions of Judges Hiscock and Miller.

Senator O'Keefe voted not guilty and Senator Ormrod voted guilty without comment.

The "Only Moral Use."

Senator Palmer, a former clergyman, in voting not guilty was the first of those who favored the Governor to explain his vote.

Senator Palmer said that the man who was Governor should be a "gentleman and a good man."

"I do not believe," he said, "that any man should solicit a dollar for his election, but this becomes to my mind a matter of taste rather than morals. To my mind this is the matter of receiving money from friends. In my opinion Governor Sulzer did the one thing with this money that made its use moral—he kept it, he salted it away."

Senator Patton, a layman, in voting guilty, said he would follow the opinion of Judge Miller on the constitutional question, as he said for a layman to attempt to interpret the laws would be "impudent." He held, however, that the undisputed evidence showed that respondent was "morally guilty."

Senator Peckham voted not guilty on the ground that the offences were not impeachable.

Senators Pollock and Ramsperger followed with votes of guilty, making no explanation of their action.

"The Same Old Bill"

Senator Sage voted guilty, claiming that Sulzer was "now enjoying the benefits of his illegal acts committed before he became governor."

"Sulzer," he said, "was useful to Ryan and to the New York Telephone Company when he was in congress. Didn't he mean he would continue to be useful to them when he became Governor? What other construction can be put on his statement to young Ryan: 'Tell your father I'm the same old Bill.'"

Senator Sanner voted guilty and Senator Seeley not guilty, neither explaining their votes.

Senator Simpson argued that the offences were impeachable and voted guilty. The votes of Senator Simpson, Stivers and Sullivan were cast without comment. Senators Simpson and Sullivan voted guilty, while Senator Stivers voted not guilty.

Senator Thomas argued that the offences were not impeachable and voted not guilty.

Senator Thompson expressed opposite views, and voted guilty.

"I hold the facts here being abundantly proved," he said, "I do not believe that Schiff, Morgenthau and Ryan made their contributions for campaign expenses. I do believe that William Sulzer knew the value of certain securities, particularly William Sulzer. He knew the value of William Sulzer's nomination was of more value and he proceeded to trade on the value of William Sulzer's nomination. He found in the Schiff market he was worth \$2,500. But he found another market where he was worth \$7,500, and discovered that he was \$5,000 bid and got the \$10,000."

Senator Torborg voted guilty, declaring "you can no more separate the campaign from the office than you can the sowing the seed in the spring from the harvest in the field."

Convicting Himself.

"Mr. Sulzer has convicted himself," continued Torborg, "by his refusal to take the stand and refute the testimony of Ryan, Peck and Morgenthau. Why did Mr. Sulzer ask for contributions in cash? A recapitulation of the sum furnished by the managers showed Mr. Sulzer collected a fund aggregating \$100,000. How do we know that it didn't reach a quarter of a million dollars?"

Senator Velte said he was in accord with the opinion of Judge Hiscock, and voted guilty.

Democratic Leader Wagner, of the Senate, voted guilty, explaining his action by reading at length from a prepared opinion.

He declared that the history of the various constitutions of the State showed that "the framers intended that impeachment should be not only for mal and corrupt practices in offices but also for corrupt acts anterior to office."

Senator Walters voted guilty and announced that he would file an opinion.

Senator Wende voted not guilty, the fifteenth in favor of the Governor. He said he also would file an opinion.

Judge Werner said that because of the alphabetical position of his name and because nearly all the views had been crystallized, he realized that his vote was of more value than his opinion. However, he gave a rather lengthy explanation of his vote. He voted not guilty.

Senator Wheeler voted not guilty. To Senator White, Democrat, fell the duty of casting the vote of guilty which convicted Governor Sulzer of the first article of impeachment. Neither made any explanation of their votes.

Senator Whitney then voted not guilty.

Result of Vote:

Senator Wilson's vote of guilty, completed the roll call.

Clerk McCabe then announced the result: Guilty, 39; not guilty, 18.

Subsequently there was a discussion as to whether adjournment should be taken until later in the evening or until tomorrow.

During this Senator Carswell reminded Presiding Judge Cullen that he had not announced the formal result of the vote just taken.

"The clerk has announced the result of the vote, and under the constitution, this court has found the respondent guilty, under Article One of the impeachment found against him by the Assembly."

The vote was the same as on Article One.

Clerk McCabe then read Article 3, charging bribery of witnesses, and the roll call was again started.

The vote of Article 3 was rapid. The result showed that the Governor was unanimously declared not guilty of the charges contained therein.

Perjury Charge.

The roll was then called on Article Four.

This was the article which the court held was broad enough to cover the testimony of Duncan W. Peck, that the Governor asked him to perjure himself if called before the Frawley committee.

Judge Bartlett, who on all three other articles had voted not guilty, on this article voted guilty. He did this, he said, because the court held that the Peck testimony could be considered.

Judge Chase who had been recorded in favor of the Governor on all other votes, also voted guilty.

Presiding Judge Cullen's name was called. He cast the first vote of not guilty.

"This article rests on the so-called Peck instance," said Judge Cullen. "It is not charged in the article and I hold that this court has not the power to amend the impeachment article. The name of Peck is not in the article. Suspicion is substituted for proof. A man is being tried for one offence and convicted of another."

Presiding Judge Cullen added, "such procedure tended to make law degenerate into oppression on the one hand and into anarchy on the other."

Senator Duhamel remained loyal to the Governor.

Senator Emerson changed from not guilty to guilty.

Senator Heacock again voted for the Governor, while Senator Herrick voted against the Governor for the first time by casting his vote of guilty.

Senator Velete cast the deciding vote.

Affirmative votes by Judge Werner, Senator White and Senator Wilson and negative votes by Senators Whitney and Wheeler concluded the roll.

Adjournment was then taken until 10.30 o'clock tomorrow morning.

UNION LIFE COMPANY'S YEARLY STATEMENTS.

Toronto, October 16—A yearly statement of the defunct Union Life Company from 1902 to 1912, as corrected by the government experts was produced at this afternoon's investigation of the company's affairs. The series of losses included \$625,474 deficiency in policy holders surplus in 1912 and a total loss of \$962,904 in this fund. The statement for 1912, is as follows:

Premiums earned \$717,773; interest earned \$64,766; payments to policy holders \$146,751; general expenses, \$697,421; increase in reserve \$230,897; loss on last year's business \$292,640; capital received \$1,472; premium on capital, \$3,786; assets, \$669,818; the expenses of the stock sale, \$5,704; the loss of policy holders surplus, \$962,904; policy holders deficiency at end of year \$625,474.

The company received \$100,000 of capital in 1902 and further amounts of \$528,515 in 1910; \$112,717 in 1911, and \$1,471 in 1912.

The payments to policy holders in 1912 amounted to \$146,751.

INCH GIVES LIE TO EXTRAVAGANT STEERAGE YARNS

SENSATIONAL STORIES OF COWARDICE, PANIC, ETC., WERE FABRICATIONS.

New York, Oct. 16—Francis Inch, the boyish looking Briton, who commanded the burned steamer Volturmo came to port today bringing with him 87 survivors, passengers and crew, of his ill-starred vessel. His story of the disaster, in which 136 lives were lost had preceded him by wireless, but in a cabin of the Kroonland, which brought him here, Inch told his tale in simply-phrased and modestly-spoken detail that described more vividly than the wireless could picture the panorama of the Volturmo's loss and the rescue of more than 800 of the passengers she had on board. Cowardice there was none, Inch said. There was no rush of seamen which made it necessary for him to warn them back with his revolver. His only weapon he left in a drawer in his cabin and it burned with the ship. And no one on board drew a revolver. These statements he intends should refute the stories told by steerage passengers who arrived yesterday on the Grosser Kurfurst.

PRaise FOR EVERYONE.

The Volturmo's master besides defending his own masters and men said he had no criticism to make of the tactics of any of the boats that stood by. "The Carmania did its best, the same as the others," he said. "There is none but praise for everyone. I did not expect a boat could live in those seas when the Carmania and the other first few ships came up." The Carmania did drop a boat, Inch declared, but it could not get near, for the Volturmo drifted faster than the crew could row. Later, the Carmania sent six rafts, but they drifted across the Volturmo's bow and disappeared. More than that the Carmania could not do, said Inch.

Crew Were Orderly.

Eighteen cabin and two steerage passengers entered the first lifeboat that ventured to leave the Volturmo. Only enough of the crew stepped into it to man it, said Inch; they did not rush to it and it was not overcrowded. It entangled itself in its after-tackle and capsized. All in it were drowned, swept from sight by the seas, except Chief Officer Miller and a steward, who climbed into it after she had righted, and were rescued.

Into the next boat went thirty passengers and ten sailors. This boat got away all right. The third boat took off forty, ten of them sailors. As she settled into the water ten more jumped aboard from the Volturmo's deck. A wave swept it under the Volturmo's stern. "She just sat on it and crushed it out of sight," said Inch. "The boys dived and was the only one to escape. He was rescued." Inch denied reports of rotten tackle and fire-hose and of unsafe life-boats. The ropes were renewed once a year and those and the boats were in splendid shape before the voyage began and were in good condition he said. He counted only three explosions, the last one wrecking wheel and compass so that a handgear had to be rigged up.

Inch told of the bravery of Fourth Officer Lloyd in venturing out in the Volturmo's last boat with four sailors to show the ten ships that stood by that the seas could be lived upon. "I opposed his suggestion," Inch said. "I told him it was sure death. He would go, however. 'Let me show them,' he said. I let him go. Then the Grosser Kurfurst wireless us that Lloyd and his men had arrived."

Inch denied stories of steerage passengers that women were swept overboard and babies trampled on in a rush to be rescued in the Grosser Kurfurst's first boat that came in response to Lloyd's errand. Officers urged men and women to jump overboard, for the life-boat could not get near enough for them to be lowered into it. None dared to jump. "Show them how to jump," Inch told his crew. Two at a time they leaped over the rail. When passengers saw them reach the life-boat they followed them into the sea. With boathooks and oars some were rescued. Others went to their death. No women were removed in this way.

"Take this down," said Inch to the newspaper men in describing the rescue of Friday morning. "A woman, crying for joy, threw her child toward one of the boats. I fell short and dropped into the water. A sailor of the life-boat dived in after it. He got it. 'Here, take the kid,' he said to a mate in the boat. Then he climbed in. It was all done so quickly that the officer commanding the life-boat knew nothing of it."

Was Last to Leave.

"Before I climbed down I went over the ship to see if anyone remained," Inch said. "The fire had eaten its way beyond amidships under the decks. I found no one alive, though there were bodies in the forecastle, men who had been cut off and burned to death. I went to the rail with my dog, wrapping it in a bag. I leaned over. 'Here,' I said, 'catch my baby.' I dropped the dog into the arms of a Kroonland officer in the life-boat. He opened the blanket tenderly. 'Why it's a dog,' he said. 'I thought it was your kid.'"

VIN ST. MICHEL

Youth is a critical period in the life of the young girl. Careful mothers know by experience the value of a powerful Tonic at that time and prescribe

VIN ST. MICHEL to prevent Anemia, Weakness, blood discoloration and Nervous Exhaustion.

Vin St. Michel should be taken in doses of a wineglassful before meals or whenever the need of a Tonic is felt.

EASTERN DRUG CO., BOSTON, Mass.
Agents for the United States.

Inch's three "kids" and their mother are in London. One of his first acts upon arriving here was to send them a cablegram. Their father went thirty-six hours without eating and drinking, refusing to leave the work of fire fighting or to pause long enough to take food proffered him. "I smoked about all the time, cigars, pipes, cigarettes, anything I could get," Inch said. A blast of heat blinded his eyes with pain and the skin peeled from his face when he received his first medical attendance after being rescued. They had to drop cocaine into his eyes before he could see again.

Among the survivors on the Kroonland were three children, the whereabouts of their parents unknown. Henry Street, a passenger, took the min charge. A collection on board the Kroonland netted \$700 and was divided among the survivors. A flag of the Kroonland was tailored into a suit for one child. Charitable organizations took care of the survivors upon their arrival here.

DEAN TRIED AGAIN.
Vancouver, Oct. 16—Charles Dean was again placed in the dock today at New Westminster assizes on the charge of robbing the Bank of Montreal of \$273,000 in September, 1911. The jury at the previous trial disagreed and a new jury was sworn in this morning.

ANOTHER VICTIM!
Brampton, Ont., Oct. 16—Liberals of the County of Peel met this afternoon and nominated A. H. Milner, reeve of Brampton, as their standard-bearer in the election to be held on Nov. 3 to fill the vacancy caused by the resignation of S. Charters.

CHAUFFEURS HOLD ANNUAL BANQUET

MR. A. ADAMS PRESIDED—VERY PLEASANT AND SUCCESSFUL EVENT—MANY PRESENT.

Honk! honk! Danger! Put on the brakes! The automobile chauffeurs of the City of Quebec, or, to be more precise, about fifty-five of them, held their annual banquet last evening at the Victoria Hotel, which proved to be a very pleasant and very successful function.

The festive event was presided over by Mr. Albert Adams, mechanical superintendent of the Quebec Fire Department, who made an excellent host and fulfilled his duties to the letter. Mr. Harry Fontaine supplied a select and abundant menu, which was washed down with equally excellent beverages and after the last morsel had been disposed of, Mr. Adams proposed the toast, "Our King and Country," which was loyally honored, and responded to by Mr. B. Peters.

"The Chauffeurs" was acknowledged by Mr. R. O'Brien, while Mr. Jack O'Brien did the honors for the toast to "Garage Owners." The health of the rubber goods companies was proposed and Messrs. B. Peters, Gauvin, Geo. Lamothe, J. Hummel and J. Wells responded.

To the health of the "Oragnizers," Messrs. Gauvin and Lamothe replied. Mr. Harry Fontaine was then toasted and he responded in cordial terms.

IS INJURED SLIGHTLY.
Winnipeg, Oct. 16—Miss Harper of Toronto, a passenger on the Canadian Pacific Toronto to Vancouver express, was injured slightly in a derailment which occurred to the train on the Bird's Hill Points, near Winnipeg. She was removed to a hospital, where her injuries are not regarded as serious. The derailed train was delayed only three hours.

Freights and Charters. New York, Oct. 16 - Chartering was light in both the steam and sail tonnage markets, and there were no changes in the general conditions in either case.

SEIZURE OF \$254,400. East Can. Power & Pulp Co.'s Bonds Figure in Case.

Bonds amounting to \$254,400 of the insolvent East Canada Power and Pulp, at present deposited in the vaults of La Banque Nationale, will remain tied up as a result of a seizure taken out yesterday by Messrs. Badel Freres, bankers and brokers, of Paris.

The bonds became the property of certain French investors at the time of the flotation of the company. They subsequently were transferred to Canadian buyers and were transmitted here through the National Bank.

ALLAN LINE CHANGES. In addition to changes already reported as imminent on other routes served by the Allan Line, the steamers Numidian and Parisian, which have been running during the summer between Boston and Glasgow, will be withdrawn at the commencement of the winter season.

CAPT. ROBERTSON'S RECOVERY. Capt. Robertson, commander of the ill-fated steamer Devon, which is now a total wreck off Pencarrow Head, near Wellington, N. Z., has, according to latest advices, recovered from the severe attack of typhoid fever which nearly caused his death.

Florence, Italy, Oct. 16 - Nine valuable dogs belonging to Julian Story have been killed in a mysterious manner by unknown miscreants.

Julian Story's fine dogs are poisoned. Nine Valuable Animals Are Killed by Miscreants at Vallombrosa, Italy, in Mysterious Manner.

EVERY WOMAN. In this advertisement, a woman is described as being in a state of distress and seeking help.

20 CATHOLIC NUNS AMONG REFUGEES

Washington, Oct. 16 - Twenty Catholic nuns, members of the Sisterhood of the Incarnate Word, are among the refugees now en route from Tampico, Mexico, to Galveston, Tex., on the oil tanker Hainault and Wanita.

Consul Hanna, at Monterey, reported to the State Department today that he started a train Monday with 155 Americans bound for Tampico, on their way to the United States.

Travellers arriving in Monterey from Torreon Monday brought word that property there had not been damaged up to Oct. 7, and that Americans generally were well treated, although a loan of 3,000,000 pesos had been demanded of them.

The department was informed today of the closing by Mexican authorities of the bridge connecting Nuevo Laredo, Mex., with Laredo, Tex.

IMPORTANT

Fresh from the press, thousands of copies of "October" Investment offerings are being sent to all points in the Dominion, giving to the investor, large or small, his choice of the most "attractive investments."

It is still within the power of the investor to procure some of the highest class Bonds and Stocks at lowest prices, but evidences of an early return of normal conditions are very marked, which will bring about a change as to the investment return now procurable.

Full particulars, with legal opinion, etc., can be had on application to

C. W. WALCOT, 98 St. Peter Street. Tel. 377. P. O. Box 307.

stocks declined all along the line to new low levels for the movement and this selling pressure was kept up to the close. Nearly all the important issues on the list except Amalgamated reached new low levels and the decline in many instances was heavy. Union was the leader in the weakness, being pressed for sale throughout the whole day. All the other important issues sold lower than at any time since the June decline. Total sales, 385,800.

**MRS. PANKHURST
HAS BITTER FOE**

LONDON LADY SLUM-WORKER
CONDEMNS HER "VICIOUS,
SHAMEFUL PROPAGANDA."

Boston, Oct. 16—The English militant suffragists in general and Mrs. Emmeline Pankhurst in particular were denounced by Mrs. Armistead Ghant, the London slum-worker, upon her arrival from Liverpool today. "Mrs. Pankhurst," she said, "has written a most shameful chapter in the history of women's progress."
Mrs. Ghant, who heads a company of British delegates to the national convention of the Women's Christian Temperance Union at Brookline, Oct. 23, is one of the leaders of the peaceful suffragists of England, who are opposed to Mrs. Pankhurst and her militant organization, and who, according to Mrs. Ghant, are the "only really serious workers for women's equal rights." She expressed regret that Mrs. Pankhurst was to be allowed to "exploit her vicious, shameful propaganda in this country."

**DERELICT TEMPLEMORE
IS STILL BURNING.**

Washington, October 16—The derelict British steamer Templemore, which caught fire off the New England coast about 18 days ago, is still burning, according to a report to the Revenue cutter Service, today. The cutter Androscooggin is towing the derelict at the rate of two knots an hour toward the coast.

CONTINUATION OF BUSINESS

We, the undersigned, beg to notify our friends and the public in general that we have been appointed Agents for the following Insurance Companies, heretofore represented by the late Mr. Frank Holloway:
Messrs. Dale & Co., Limited, Marine & Fire Underwriters.
The Caledonian Insurance Co. of Scotland.
The Employers' Liability Assurance Corporation of England.
The Employers' Liability Assurance Corporation of England (Fire Branch).
The London & Lancashire Life & General Assurance Association of England.
Lloyd's Plate Glass Insurance Co. of New York.
We have been connected with the office of the late Mr. F. Holloway for the past eighteen years and can therefore assure our patrons of the same care and attention which have been given them in the past.

**TECHNICAL SCHOOL
DOING GOOD WORK**

NEARLY THREE HUNDRED AT-
TEND NIGHT CLASSES—DE-
TAILS OF WORK.

The Quebec Technical School, founded by the Provincial Government, and located on Boulevard Langelier, St. Roch's, is unquestionably a credit to the founders, and a great boon to the youth of Quebec desirous of gaining a technical training to qualify them as proficient in the various mechanical branches of trade.
It also affords an excellent opportunity to the tradesmen of Quebec by attending the night classes and technical lectures to aid them in advancing in their respective trades. At present there are 89 students in attendance at the day classes, who work eight hours a day, and out of this number there are only nine English-speaking youths, separated by assignment to the various classes. The night class is attended by some 300 working men and boys desirous of receiving a technical education to improve their condition in life.
A Chronicle representative paid a visit yesterday afternoon to the school, which is a handsome building, situated on the Boulevard Langelier, St. Roch's, a short distance north of St. Valier street.
The building covers an area of about an acre square and is two storeys high. The entrance is very large and imposing and the visitor, as he enters, realizes that he has come into an ordinary school, but an important institution of learning. On the reporter's entering the office and expressing a wish to be shown over the premises, the principal, Mr. A. Verry, courteously complied, and acted as the escort.
After a few moment's conversation with Mr. Verry, the visitor soon saw that the principal was a man of unusual intelligence, who speaks the English language almost as well as he does French.
He explained the rules and regulation of the school and the work of training the boys, and said his only regret was that there were not more English-speaking students in the institution. He also remarked that there was no racial or creed distinction in the Quebec Technical School; it was open to all, providing the applicant for entrance had reached his 14th year, and it was the studied aim of himself and his assistants that the class of boys admitted should be well behaved and free from all prejudice. All the mechanical teachers, some 15 in number, spoke both languages, and if more English students were to come in he would secure English lecturers.
Perfect harmony and good will existed among the students and their teachers, and he was pleased to say that he had a superior lot of boys, who come to learn and not to lose their time. But should a lad sheep come in he would not be allowed to remain long. There was no punishment, if a boy did not conform to the rules and faithfully follow his course he was simply dismissed and that ended the matter.
The carpenter and joiner class was in the meantime entered and here was seen a number of youths, one of them in his second year, and only 18 years of age, had completed the making of an office desk that would do credit to a finished cabinetmaker tradesman.
The pattern makers class was next visited and here boys were busily engaged in making patterns for machinery to be built in the machine shop.
The blacksmith shop was next entered, where several boys were at work. This shop, with its modern equipment, was a revelation to the visitor. The premises were absolutely clean and no sign of smoke to be seen. This was accounted for by the fact that the shop is fitted up with the latest draught fans that are close to the anvil, which draw in the smoke and send it up the chimney.
The machinery shop next visited was another surprise. It is fitted up with every necessary piece of modern machinery, including planes, drills, etc., and the boys, as the visitor entered, were engaged in finishing a large piece of machinery, every part of which had been made by the students.
The foundry and moulding shop is similar to all other departments in thorough up-to-date equipment and the students busy perfecting themselves in that branch of trade.
The drafting class, where specialized pupils were at work, was the next visited, where several boys were at work and their specimens of drafting simply marvellous. The drawing class adjoins this room, where all the students attend at certain hours, and the specimens shown are a credit to the school and its teachers.
The laboratory, electrical class room and chemistry department were visited in turn and found perfect in their equipment. There is also a large lecture room capable of accommodating an audience of some 600 persons, which will be open in the course of a month for working boys and men to hear technical lectures for their improvement.
The visitor was greatly surprised at the respectable class of intelligent boys he saw in every class he passed through of the school, every one of which appeared anxious to learn and were making the most of their time. Several of the English-speaking boys spoken to, the sons of well-known and highly esteemed citizens, and they were glad to be in the school and were learning their chosen trade fast, and at the same time gaining a knowledge of the branches. They spoke highly of the principal, Mr. Verry, and their teachers, as well as their fellow students, and said there was no racial distinction in the school; on the contrary, there was the very best spirit of good-fellowship present.
Object of Day Classes.
These classes prepare for the following professions, namely, modellers,

**CREW MUTINIES
ON MOUNT TEMPLE**

ALLOWED TO GO ON SUSPEND-
ED SENTENCE, SHIP BEING
DECLARED SEAWORTHY.

Montreal, Oct. 16—The mutiny started on board the C. P. R. liner Mount Temple this morning ended before Judge Lanctot in Arraignment Court in the afternoon, when Harry Stooke, Arthur Boldridge and Albert Weatherly, leaders of the mutineers, said they were willing to go back to the vessel and sail on her if His Honor decided she was seaworthy.
Judge Lanctot said he had nothing to do with deciding whether the vessel was seaworthy or not. The only thing for him to decide was whether the three accused were guilty of having refused to obey the lawful commands of the captain of the ship.
When the accused were informed that in case they were found guilty, they would be held responsible for whatever expense was incurred by the delay in the sailing of the Mount Temple, and it would be deducted from their wages, the "mutineers" declared that they had no desire to delay the sailing of the ship, but had simply asked for a bonus because they considered sailing on her was an extra risk.
Captain Moore, of the Mount Temple, stated that his vessel was in perfect condition and had been granted a certificate of seaworthiness. Captain Reid, port warden and Lloyd's surveyor, identified the certificate of seaworthiness he had issued to the vessel.
On the evidence of Captain Moore and Capt. Reid, Judge Lanctot found the accused guilty, but they were allowed to go on suspended sentence, and the Mount Temple cleared for London an hour later.

**GIRLS! CLEAN AND BEAUTIFY HAIR
NO DANDRUFF--25 CENT DANDERINE**

STOP WASHING HAIR! TRY THIS! MAKES IT GLOSSY, SOFT AND ABUNDANT.
Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.
Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.
You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.
Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt, or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

DRY GOODS MERCHANTS & GROCERS
215 ST. JOSEPH STREET & 70 CROWN STREET

Fees and Other Expenses.
The monthly fees are fixed at \$3.00 for the first year, \$4.00 for the second, and \$5.00 for the third. They are payable in advance on the first of each month.
Books, exercise books and necessary drawing materials are at the expense of the students, and furnished by the School. (The books may be either purchased or hired. In the latter case, the charge is \$1.00 per annum.)
The students must make an annual guaranteed deposit of \$1.00 for injured or lost articles. This deposit is repaid after deduction of the sum due by each. The School furnishes free the tools and materials necessary for practical work.
Bursaries or fractions of bursaries may be accorded by the Directors to students passing good examinations, or well recommended under the double consideration of work and conduct, when the situation of the families justify this aid by the management.
Besides the thorough machinist equipment of the school, the building is otherwise properly equipped with a steam and electrical plant, and heated by means of hot water. There is also splendid lavatory accommodations, and also locked cupboards for the boys to store their clothing and effects, etc. There is also a comfortable refectory, and in fact everything is provided to make the school a credit to the Province.
The English speaking youths of Quebec are here afforded an opportunity that they should not neglect, and if their parents were to visit the school and see the advantages it appears they would be sure to appreciate these advantages, and encourage their sons to profit by the golden opportunity.

**JAPAN ANXIOUS ABOUT
NEW TARIFF MEASURE**
Washington, Oct. 16.—Japanese Ambassador Chinda called at the State Department today to inquire what would be the effect upon Japanese shipping of the section of the new tariff law which provides for a differential of five per cent on imports in American ships. Incidentally, the ambassador directed attention to the fact that the treaty of 1911 between America and Japan contained a favored national clause, which in his opinion would warrant the allowance of this differential to Japanese ships.
Acting Secretary Moore said that pending the opinion from the Attorney-General construing the differential provision the State Department was unable to define the application of the law to foreign ships.
President Wilson told callers today that he was awaiting the opinion from the Department of Justice and indicated that he was not considering the proposal to repeal the clause.
