## RECEPTION TO OUR NAVAL VISITORS

### Meeting of Citizens' Executive Committee

### PUBLIC SUBSCRIPTION BALL

### Decided Upon Last Evening—Other Pro- positions Held in Abeyance Until Sub- scription Committee Reports.

A meeting of the executive committee in connection with the reception of the French, British and German fleets by the citizens of Quebec, was held at the City Hall last night, presided over by Colonel J. F. Turnbull, President. Among those present were His Worship the Mayor J. G. Garneau, Mr. Neuville Belleau, Treasurer, Ald. Lemay and Mr. W. H. Wiggs, Joint Secretaries, Ald. Foley and A. Messervey, Lt.-Col. W. J. Ray, Major Laliberte, Dr. J. C. Howe, Messrs. J. Hone, Jr., G. W. Parent, Eug. Chini, L. A. Cannon, Dr. Morin, Alderman Galipeault, and John J. O'Flaherty. Mr. Johnston, representing the Quebec & Lake St. John Ry., and Lieut. James Kuhring, A.M.C., and Q.M.-Sergt. Jacques, 8th R.R., representing the military sporting committee.

After the minutes of the previous meeting were read and adopted, the Secretary, Mr. Wiggs, said the names of J. A. Charlebois, N.P., Ald. Picard, ex-Ald. Donohue, W. H. Brown, Major LeVasseur and Koumihac were suggested as additional members of the executive committee, which were unanimously accepted. The Secretary also informed the meeting that His Excellency the Governor-General would be in Quebec during the stay of the warships. He also announced that he had received a communication from the Secretary of the Sailors' Institute to the effect that the institute was arranging a concert at the Auditorium to which His Excellency the Governor-General had signified his intention of being present. The entertainment would consist of singing, band drills, etc., and would take place on the 22nd instant and requested that the event be mentioned on the official programme.—Carried.

A communication was read from Mr. Alex. Hardy, General Passenger and Traffic Manager of the Quebec & Lake St. John Railway, who was unable to be present, suggesting that the committee place the sum of \$200 at the disposal of the Lake St. Joseph Aquatic Club for a day's sport to be held in honor of the fleet, and also proposed that a dinner be held the same evening at the Lake St. Joseph Hotel, to which about twenty of the officers of the various ships be invited as guests, and a limited number of citizens form part of the dinner party to act as hosts, and pay their share towards the banquet. The Railway Company to carry all the boats' crews, from the fleet with their boats to the Lake and return free, and the rest of the sailors at half rate. It was also mentioned that the Admiral and officers of the French warships had been furnished with annual passes by the railway. Lt.-Col. Ray supported Mr. Hardy's proposition and said the last regatta given at Lake St. Joseph in honor of the British cruiser squadron was a splendid success and appreciated by the men, pressmen and citizens who were present, and he was in favor of granting the Lake St. Joseph Aquatic Club the sum asked for a similar regatta. Mr. N. Belleau said that Lake St. Joseph was outside the city limits and only a portion of the citizens were able to go there. The reception should be held where all the citizens of Quebec could enjoy the different events, and if aquatic sports would form part of the programme they held them where the great majority of people could witness the same without having to bear the expense of proceeding to Lake St. Joseph, which they could not afford. Dr. Howe suggested that the committee should await until they had a bank account before donating sums of money to the various events that would call for assistance.

Dr. Morin spoke in favor of a popular reception in the City Hall, streets illuminated, etc., and moved, seconded by Major Laliberte, that a ball be given in honor of the fleet. Lt.-Col. Ray was in accord with the proposition and suggested instead of invitations the ball be open to all citizens.

Dr. Howe suggested that the committee should obtain a copy of the programme that marked the last similar reception held and proceed to work on the same lines. The principal thing, however, for the committee to work on would be to solicit subscriptions and after the committee had finished their canvass of citizens for this purpose, it would be in a better position to decide upon what they could do to float a programme.

Subt. Jacques, 8th R.R., speaking of the militia wished to do something to help the victims, pointed out the programme of sports carried out in the past, and said the militia were prepared to have a day's sport on the same lines if the committee would assist. He said he had already conversed with several warrant officers of the French cruisers, who said they could furnish events now before witnessed here. Last year the committee placed \$200 at the disposal of the military sports and he requested the same amount this year.

In answer to Ald. Messervey, Sergt. Jacques said that the prizes given were mostly money, which the sailors preferred, and 90 per cent went to the navy, and only 10 per cent to the militia competing.

Lt.-Col. Ray approved of the militia sports suggested by the previous speaker.

Mr. G. W. Parent suggested that the committee apply to the Provincial Government for a subscription of \$1,000 to help them out with their programme.

Mayor Garneau said he was informed during the day that the Lieutenant-Governor in all probability would hold a reception and give a dinner party to the fleet at Spencer Wood. Consequently the committee should learn the dates of these events, and add same on official citizens' programme, so as not to conflict. Another official reception by the Citizens' Committee would not therefore be necessary, but the committee could arrange for a ball, and if they should decide upon such, they do not doubt receive the support of the Provincial Government, who no doubt would place the Parliament House chambers at their disposal, which were in reality the only rooms adapted for such a social event.

Dr. Morin spoke strongly in favor of a ball, but desired it would be free and a popular one.

## NEW ZEALAND WANTS CANADIAN MOOSE

### Secretary of State Asked to Supply Twenty

### OTTAWA'S NEW THEATRE

### Will Seat Two Thousand and Play High- Class Vaudeville—Italy Asks for Tinnet Butter—New Brunswick's Crops.

Ottawa, Aug. 14.—The by-law passed in the municipality of Masson, Que., on July 17th, granting a bonus of \$10,000 to Mr. L. J. B. Senez, who is erecting a large boot and shoe factory in the village, has been approved by the ratepayers and has also been ratified by the Lieut.-Governor. Masson will soon be able to boast of having one of the largest manufacturing concerns in the district.

The Government of New Zealand has evidently decided to enhance its zoological resources by the incorporation of moose from Canada if it can be done. Hon. R. W. Scott, who gets many a unique and unexpected communication from far away States, has just received from the Premier of New Zealand a request for twenty young moose. Premier Ward did not specify the purpose for which these monarchs of the Canadian forest are required, but it is evident that the intention is to introduce them into the zoological parks of the colony, possibly with a view to their propagation eventually as a game beast. In all probability they would thrive well enough in the mountainous districts of New Zealand. The Secretary of State, while realizing that the order is a pretty large one, has lost no time in placing himself in communication with the proper provincial authorities as well as with those who are most likely to assist in carrying out so unusual a commission. Premier Ward will therefore get his moose, if they are to be had in the Dominion.

The contract has been signed for the erection of the new vaudeville theatre in this city, the job being awarded in bulk to E. C. Horn, of New York. The building is to be handed over by the first of December and will be ready for opening by the middle of that month. The booking is now being arranged for and the fact that the E. F. Keith syndicate is doing it is a guarantee that nothing but top liners in vaudeville will be engaged. There will be afternoon and evening performances daily. The amount of Mr. Horn's contract is \$70,000, and the seating capacity of the new house will be about two thousand.

Mr. F. B. Carvell, M. P. for Carleton, N.B., is in the city on a departmental business. Mr. Carvell says that the crop outlook in New Brunswick is exceptionally good and that indeed throughout the Maritime Provinces, the country was never in a better condition. Carleton County is the great potato raising district of New Brunswick. It ships yearly to Toronto about 258,000 barrels of potatoes of the finest quality.

The Dairy Commissioner of the Department of Agriculture, Mr. J. A. Ruddle, has received several inquiries from Italian dealers as to the possibility of Canadian makers shipping tinned butter to that country. These inquiries have been forwarded as a result of the Canadian exhibit of tinned butter at the Milan exhibition. Copies of the communication have been sent to manufacturers who might be induced to make a trial of this trade. Expert dairymen, who are well acquainted with the market, do not see any likelihood of such trade being large, but there is a possibility of something being done in this direction.

Arrangements are being made for a series of dairy meetings in Nipissing, district of Ontario. These are designed chiefly for the benefit of the French-Canadians of that part of the province, and will include lectures and demonstrations by experts and instructors familiar with the French language.

### DON'T ADVERTISE FALSELY.

London, Aug. 14.—The Board of Trade had another case in the London police court for the enforcement of the merchandise marks act. These prosecutions generally arise out of false description of articles of diet.

In the present case, however, the misrepresentation made concerned the true nature of cloth. An east and tail or advertised to supply Harris tweed suits at 32 1/2 shillings, giving customers "an opportunity to be on an equal footing with a well dressed aristocrat." It is well known that Harris tweed is made by crofters at Harris and other out-lying islands of Scotland on hand looms. A natural dye is used. The price of tweed is high and there is difficulty in supplying the demand. A customer having purchased and paid for a Harris tweed suit at the above mentioned advertisers, found that the goods were not as represented.

The case was brought before a magistrate, who concluded that a deliberate fraud had been practiced, quoting a statement in the advertisement that "arrangements have been made with highland crofters." He sentenced the tailor to two months imprisonment without the option of a fine.

### NEARLY A HUNDRED MISSING.

Syran, Russia, Aug. 14.—Since the fire which destroyed the greater part of this city on July 19th, 98 persons have been missing and it is thought that their bodies were consumed. According to official figures seven persons suspected of incendiarism were killed during the progress of the fire.

## PAPAL ENCYCLICAL

### His Holiness' Instructions to the Bishops of France.

### SIR WILFRID LAURIER HAD TO SURRENDER

### Hon. Lomer Gouin Forces Him to Meet THE PROVINCIAL PREMIERS

Paris, Aug. 14.—The Pope's encyclical to the Archbishops and Bishops of France, prescribing their attitude with regard to the church and state separation law, attracts widespread attention here and its probable effects are the subject of animated discussion by the press and public and particularly by the clerical and official classes responsible for the execution of the law. A pontifical messenger arrived here this morning bearing the document to Archbishop Richard, who soon afterwards gave out the document for publication. The entourage of the Archbishop summarized their views in the following words:—"The Pope has spoken and we bow with submission and joy to his instructions." While this reflects the general attitude of the hierarchy, yet a considerable element among the clergy receives the decision of the Pontiff with disappointment and regret as being likely to inaugurate an era of religious strife. The decision causes serious confusion with regard to the practical carrying on of churches. It is understood that the encyclical was accompanied by instructions concerning the means the hierarchy should adopt. The view generally prevails that the Vatican seeks to create a situation compelling the government to enter into negotiations for some form of church organization that will be acceptable to both to the church and to the state. However, there is no indication of the government's willingness to move in that direction. The government journals strongly disapprove of the encyclical. The Temps says:—"The resolution to afflict all friends of religious peace is very apparent. Uncompromisingness dominates pontifical circles. An immense majority of reasonable French Catholics desired the benefit of the liberal provisions of the separation law. It goes without saying that the pontifical decision will not change the sentiment of liberal minded Frenchmen, who above all, wish for religious peace. The separation law contains broad and tolerant dispositions and is accepted as such by unprejudiced men. The anti-clericals even raised objections to the liberality of the law. One wonders to what hopes or chimera the Pope is now clinging. Has the lesson of the inventories taught Rome nothing. The only outcome of pontifical resistance is that the church herself deprives her devotees of the worship to which they are attached by old customs. The strange paradox occurs that the religious authorities refuse the churches the powers offered them by the law. This sensible and clear minded nation desirous of peace before everything, never will admit the decision to be the fruit of truly Christian or logical and sensible inspiration." La Croix, representing the clericals, says:—"The Pope's wish will be realized. Catholics are about to unite in obedience under the direction of bishops. Despite the possible trials, the church will emerge finally victorious."

The free thinking and socialist journals declare that France already has expressed her opinion in the recent elections and that the government, though embarrassed, must not give way and thus leave the anti-clericals in an awkward position. The Echo de Paris considers a religious war to be inevitable unless the government compromise before December 11th, after which date, according to the law, any exercise of religion, unless under the auspices of the associations, will incur risks of fines or imprisonment, being considered clandestine.

PERSIAN PROGRESSIVES' PLANS.  
St. Petersburg, Aug. 14.—According to private advices received here today from Teheran, the complete demands of the progressives far surpass the scope of the reforms proposed by the Government. These demands involve the practical abolition of all the real power of the Shah, leaving him only a figure head, and even propose the abrogation of the so-called "divine law" on which his authority is based, and provide that the national assembly shall have complete control in all questions of state and that the ministers shall be bound to put its decisions into immediate effect and that the ministers and officials shall be responsible to the assembly which can demand their dismissal. The conditions also include complete amnesty; freedom of the press "in the name of a new code and the right of order that the Shah may learn nothing but the truth," and the enactment of a new constitution. The sweeping nature of the demands which according to the advices received here the Shah has promised to grant, adds to the scepticism with regard to the permanence of the reforms.

A NATURAL QUESTION.  
The wife of a Gordon Highlander received an invitation to visit him at the barracks in Scotland and took with her their six-year-old daughter. When they arrived the husband was on sentry duty, so could not be approached. The child eyed her daddy with a rather sorrowful, but amazed expression, as he paced up and down the square, shouldering his rifle, and wearing a kilt. She had never before seen him thus arrayed. Presently, with a solemn look on her face, the child loudly exclaimed:—"Mummy, when daddy finds the man who stole his breeks will he give me that little frock?"

The Round Trip from Quebec to Roberval and Chicoutimi, by rail through the lovely lake and mountain scenery of the Canadian Adirondacks down the Saguenay River and back to Quebec by steamer is one of the most varied and delightful tours on this continent. Mountain air and salt sea breezes. A daylight trip both ways. No tourist traps. A natural dye is used. The price of tweed is high and there is difficulty in supplying the demand. A customer having purchased and paid for a Harris tweed suit at the above mentioned advertisers, found that the goods were not as represented.

THE LATE MRS. CRAIGIE.  
London, Aug. 14.—The body of Mrs. Craigie (John Oliver Hobbes), who died here yesterday, was removed from her residence to-day to Paddington mortuary, for a post mortem examination under the coroner's supervision. The funeral services will occur at the Jesuit Church, Farm street, August 17th. John Morgan Richards, the father of Mrs. Craigie, in an interview to-day, said:—"I have no reason to suppose that my daughter's death was other than natural. She did not take drugs." At the time of her death Mrs. Craigie was engaged in adapting her play, "A Time for Love" for publication in the form of a novel.

### FRIGATES.

Steamer "Pilot" will run from Chouinard's Pontoon, Thursday and Sunday, from 1 to 6 p.m. Fare 25 cents round trip. t.f.

## SIR WILFRID LAURIER HAD TO SURRENDER

### Hon. Lomer Gouin Forces Him to Meet THE PROVINCIAL PREMIERS

### To Discuss the Question of Subsidies to the Provinces—The Conference Scheduled for Next Month.

It is unofficially announced in Liberal political circles, that Hon. Lomer Gouin, Premier of the Province of Quebec, has forced Sir Wilfrid Laurier to meet all the Provincial Premiers with the object of arriving at some understanding in regard to the increase of Provincial subsidies from the Federal Government, and the meeting is scheduled to take place at Ottawa at the end of September. This decision is the result of a hard struggle waged by Premier Gouin against Sir Wilfrid Laurier, ever since the former succeeded to the local premiership. He made the settlement by the Federal Government of the subsidy question in favor of the Provinces the chief plank of his programme, and in his determination was supported by most of all the Liberals of the Province of Quebec, as well as the great bulk of the militant Conservatives who have on past occasions expressed their approval of such a movement.

Sir Wilfrid Laurier, however, proved obdurate. Even on the occasion of the complimentary banquet tendered to Hon. Lomer Gouin by the Liberal Clubs at the Windsor Hotel last year Sir Wilfrid showed himself opposed to an increase of Federal subsidies.

This attitude of the Premier of Canada naturally roused the antagonism of the Quebec Premier, and he determined the more strongly to win his point. Backed up by his friends in this Province, he got into communication with the leaders of both parties in the other Provinces, and in pursuance of his campaign visited Manitoba, Ontario and the Maritime Provinces. The pressure of all the Provinces, however, did not seem to have the desired effect on the leader of the Ottawa Government.

A coolness arose, in consequence, between the young Quebec Premier and his chief at Ottawa. The Quebec mar determined that if he could not obtain what he considered justice from the great leader of his party he was not bound to keep the party interests in the Federal field so prominent as he had done up to that time.

Certain difficulties had arisen in the Liberal party in Montreal. The death of Mr. Prefontaine had placed in charge of affairs an element which does not seem to have the ear of the popular mass. Mr. Camille Piche, M.P. for St. Mary's Division, of Montreal, was desirous of retiring from that position, as his experience with the Sunday Observance Bill, especially his tiff with Mr. Bourassa, had demonstrated that things were not so safe in Montreal for the party as they were formerly believed to have been for years back.

When Judge Desnoyers expressed a desire for a rest, Hon. Lomer Gouin saw his chance to bring Sir Wilfrid Laurier to time by throwing open a Montreal division. After the disastrous experience of the new party managers in Maitonneuve in the Verille-Grothe election, Sir Wilfrid had no desire to see another Montreal constituency opened. Hon. Lomer Gouin did just as he thought best, however, and appointed Mr. Piche to the Bench.

When this appointment was made, it was given out to be only a temporary arrangement, and Mr. Piche would resume his seat in the House by the time Judge Desnoyers recovered his health and returned to Montreal.

This announcement was met, however, by the statement that Mr. Piche had sent in his resignation the day prior to being sworn in as Judge. Then came the negotiations, and Sir Wilfrid Laurier instead of taking a congenial down the St. Lawrence, came to Quebec, when a long interview took place between him and Hon. Mr. Gouin, and it is said a treaty of peace was agreed upon, with the understanding that the Dominion Premier would hold a conference with the Provincial Premiers to discuss and devise means of granting the request for increased Provincial subsidies.

GREKS AND BULGARIANS.  
Sofia, Aug. 14.—According to official reports, the fighting between Greeks and Bulgarians at Ahiohi on August 12th, lasted from dawn until 8 p.m. in the course of which seven were killed, the number of wounded not being ascertained. The fire is now under control. More than half the town, including all the public buildings, with their archives and the Bulgarian and Greek schools and mosque was destroyed.

## The Quebec Chronicle

QUEBEC, AUGUST 15, 1906.

### THE VISITING WARSHIPS.

Our readers will have seen from the report published in the Chronicle of the public meeting on Monday, that a committee of gentlemen has been appointed to wait on the citizens and to solicit their contributions towards a fund for providing a fitting and hospitable reception to the officers and the crews of the warships which will visit Quebec this year. We have no doubt that the appeal will meet with a hearty response, and that citizens will feel that the well known reputation of this city is in their hands, and should be well maintained by them.

### THE POLICING OF THE DOCKS.

Another body was discovered in the Louise Basin on Sunday morning, that of a stranger, and apparently an immigrant. There were no traces of violence on him, and a small sum of money was found in his pockets, a few cents only, but sufficient to remove all suspicions of foul play for the purpose of robbery. The death was in all probability an accidental one, due to the victim's ignorance of the locality, and more than probably to his too intimate acquaintance with whiskey. It is the second body that has been fished out of the Louise Basin within the short period of about a fortnight, and the locality needs little more experiences of this sort to acquire a very unsavory reputation.

The two cases we have referred to have occurred since the two deaths by drowning at the cross-wall in consequence of a drunken riot startled the public, and gave rise to a general demand that the city should take immediate measures for the better protection of life and property in the dock area. What has been done to meet that demand? Nothing that we can learn until last week, when at a meeting of the City Council that body took the extraordinarily energetic and strenuous step of sending a letter to the Harbor Commissioners to enquire what they would do towards the establishment of a police station at the docks? Then it adjourned till the end of this month. This was on Friday evening last; the commentary appeared on Sunday morning.

This year there has been an extraordinary number of immigrants arriving at this port, and there are more yet to come. Unless they are immediately entrained and despatched West, they will naturally wander about the city seeing the sights, and equally naturally many of them will seek to make up for a partial or total abstention during the voyage by sampling the vintage of the new Promised Land. In either case, or in both combined, the vicinity of the docks, especially at night, is an unsafe one for them, and it ought to be made as safe as possible. As the matter now stands, nothing is contemplated to be done until the reply of the Harbor Commissioners is received, that is to say until the end of August, and it would be something astonishing if that reply does not lead to further negotiations and procrastinations. It is tolerably certain that a police station will be finally established at the docks, because, Harbor Commissioners or no Harbor Commissioners, the thing has to be done, but this will not be brought about till nearly the close of the immigrant season, even if it is done then.

We do not say that the Harbor Commission has not a duty to perform in connection with the security of life and property of the area under its immediate control, but that duty is distinct from and independent of that of the city. It is for the Harbor Commission to see that the docks and quays are well lighted, that a proper system of guard-posts and chains should be established, that life-saving apparatus, buoys, and ropes should be provided, and that efficient watchmen should be furnished, but it is for the city to provide police supervision and control. The Harbor Commissioners have but a limited fund, after all, at their disposal, and it is a sufficient drain on their resources to do the things we have mentioned efficiently and well; which, we fear, can scarcely be said of them at the present; but the policing is a thing which concerns the city alone, and though under other circumstances, the Council might be held excused for seeking to minimize the cost as much as possible, consistently with efficiency, yet we cannot say as much now in view of the extreme exigency of the case.

### THE VOICES BY THE SEA.

The New Glasgow, N.S., Eastern Chronicle wants the Maritime Provinces to cut themselves adrift from the Dominion and form a federation of their own with the addition of Newfoundland. It does not appear to be ascertained whether Newfoundland would, or would not be willing to enter into such a confederation; she has always hitherto shown herself decidedly opposed to throwing in her lot with the Dominion, of which the Maritime Provinces now form a part, but whether the same objections would exist to a union with those

provinces alone is more than doubtful, as there can be no question that their interests would be almost identical with those of the Island Colony. There would be nothing in the way except the fierce independence of the Islanders, and their strong attachment to the British connection which has been considerably augmented since the amicable understanding between England and France has removed all causes of friction about the north shore.

The Eastern Chronicle says: "In our humble opinion, if we are to remain British colonies, the proper thing to do is to join New Brunswick, Nova Scotia, Newfoundland, and Prince Edward Island in one federation. Then they could make laws to suit themselves as a maritime people. The western provinces are pastoral and industrial; let them make laws to suit themselves. If we are to be Britishers in any event, what sense is there in tagging the fishing provinces on to the pastoral provinces of the West? It is sport and profit for the latter; stagnation and vexation for the former."

There does not appear to be any particular reason for this outbreak, which seems rather to be a survival of the objections which the Maritime Provinces made to the confederation with Upper and Lower Canada when it was first proposed than to be grounded on any specific cases of unjust treatment since it was carried into effect. Certainly if the legislation of the past decade has been injurious to the interests of the Maritime Provinces or has subordinated them to those of the western ones, they have mainly themselves to thank for it, since on every opportunity they have sustained in power the Government which was responsible for such legislation; and even went so far as to reject the leader of the Opposition and force him to seek a seat in the more appreciative West. We think, however, that each party when in power has endeavored to treat the Maritime Provinces fairly and justly, and has listened to the views of their representatives wherever their interests solely were concerned.

It is true that the interests of the maritime and fishing provinces differ materially from those of the agricultural and industrial ones, but that is no reason why they should be held to be altogether irreconcilable. The distinction is not more marked in the Dominion of Canada than it is in the United States, in France, in Great Britain itself. The more numerous and diverse the interests in a State, the greater and more prosperous it is likely to be, and the nation with but one interest, be it maritime, agricultural, or industrial, if such a nation can be found, is in a very hopeless way indeed. Diversity of interests is rather a plea for the pooling of them, than for the holding of them distinct, if just consideration, and a spirit of mutual concession can be secured.

Nevertheless, there is no doubt that the Eastern Chronicle voices the sentiments of a considerable portion of the maritime population which lie underneath the general loyalty to the Dominion; and the explanation given by the Ottawa Journal appears to be the true one. Our confreres say:

"The feeling is easy to understand. The Maritime Provinces by failure to increase their population are decreasing the strength of their representation in the Dominion Parliament. Unable to influence the decision of Parliament to any material extent, they seem to have determined to gain their end by yielding a practically blind allegiance to whatever party happens to be in power. Prince Edward Island has made a show of independence, but one of its representatives in the Commons points out mournfully, the time is coming when under the present plan of distribution of seats, Prince Edward Island will have no right to representation in the Commons at all.

We don't believe that if the secession question were put to the people of the Maritime Provinces to-morrow they would approve the proposition, but it is quite natural that an element of the Maritime population should look with favor upon a proposition to establish a Maritime Confederacy under the British Crown.

### LA LIBRE PAROLE.

Some time ago we made some comments on the conduct of La Libre Parole and its relations with its employees and with the Typographical Union, based on information we had received and which we had reason to believe came from well informed sources. Our remarks were made in good faith, but we have since ascertained that they had no foundation in fact, and that the information on which they were made was erroneous and misleading, and therefore we take this opportunity of retracting them and apologizing to La Libre Parole for our involuntary misrepresentation of it. Our representation as to the ability of La Libre Parole for executing its contract with the Corporation, and the assertion that such contract or parts of it were being executed in Montreal was equally without any foundation.

### PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. Sold at all dealers or EDWARDS, BATES & CO., Toronto.

### DR. CHASE'S OINTMENT.

### Nervous?

There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after.

We have no secret! We publish it. G. C. Ayer & Co., Lowell, Mass.

### BRITISH INSURANCE REPORT.

The select committee of the House of Lords which was appointed to inquire into and report on what steps should be taken by the deposit of funds or otherwise to provide adequate security for British policy-holders in foreign life insurance companies has taken a reasonable view of the situation. The appointment of this committee was a direct result of the revelations which were made before the Armstrong Committee last winter. The British investigators heard much testimony by life insurance managers and experts and by prominent men in all walks of life, so its conclusions cannot be said to have been induced by bias in any particular.

The committee finds that it would be unwise to make special arrangements for protecting British policy-holders by requiring what would amount to the establishment of a separate company by each American company which does business in England. It recommends, however, that foreign companies be brought so far as is practicable within the British insurance companies' act of 1872, and it advises certain changes which would apply to British companies as well as to foreign concerns. One of these is the requirement of publicity of accounts, with regular reports to the Board of Trade. Another requires British representation among the trustees of life companies.

It would be difficult to raise any reasonable objection to either of these requirements. The law enacted by the last Legislature call for more publicity than has ever before been demanded, yet for no more than is necessary for the strict supervision of the companies. The publicity which is recommended by the committee of the House of Lords probably would be more exacting as to details. Foreign representation in life insurance companies which do business in foreign countries is a sane proposition and would work out well, not only for the policy-holders, but for the companies themselves. It would tend to increase foreign confidence in the concerns and it would help the managers to understand the foreign attitude, both official and private, towards administration plans.

It was a noteworthy fact that many of the speakers before the Lords' committee expressed the belief that the American companies would soon recover from the blow they had received and that the management of them would henceforth be sound. That is the view taken by all thoughtful Americans. The elections for trustees which are to be held next fall will put the companies in the hands of men in whom the people have the utmost confidence. That will mark a turning point in the history of American life insurance companies.—Buffalo Express.

THE GREAT DEPARTMENTAL STORES  
157-173 ST. JOSEPH ST. QUEBEC.

## Whole-Hearted Enthusiasm!

COULD anyone wish for stronger proof of the claims we have made, and are making every day, than this list of reasons for shopping at this store? These are reasons given by customers of long standing, whose experience has taught them a lesson which they cannot forget. The writers of these and of the numerous other essays we have received have been more than generous in their expressions of appreciation. We wish to thank you heartily for the enthusiastic reception accorded the Prize Essay Competition, and to say that this store will ever strive to live up to the high opinions you have expressed, by sparing no effort to increase your security and convenience in "Shopping at Paquet's." The Prize-Winning Essay will be selected from amongst all those which have been published, and will be reprinted in our advertisements with the reasons for its selection. Watch for it!

The store is now replete with Midsummer Sale Bargains—every department is putting forth a tremendous list of inducements of which we have space to mention only a few. Come and see if we cannot appreciate generosity!

**AN ATTY SUIT TO ORDER**  
\$16.50 VALUE FOR \$13.63.

WHEN we say "\$16.50 value", we mean that our regular value is \$16.50. This will give you a fair idea of the genuineness of this opportunity, and when we say that the reduced price represents the lowest figure we could possibly make for such high quality, you will not need a second invitation. The materials are the very newest and you may have your choice of a single or double breasted sacque suit. Midsummer Sale Price for Wednesday, Thursday, Friday and Saturday only.....**\$13.63**

**MEN'S CLOTH CAPS.**

25 dozen, Men's Golf and Yachting Caps, tweed, assorted shades, regular prices 30c. to 75c. each. Special price to clear, each.....**21c**

**MEN'S SUMMER HATS.**

9 dozen only, Men's and Boys' white, ecru and brown Canvas Hats with fancy ribbon bands, regular prices 75c. and 90c. each. Clearing at, only.....**49c**

**WHY I SHOP AT PAQUET'S.**

You ask why I shop at Paquet's? absurd! Just look at their show windows; is there a finer display in the city? Pass on Desfossez street, see the rush of goods coming and going all day long; could you fail to get the latest, the richest and the most beautiful, the market affords when importations from every country are pouring in the year around. Then within the store, the service is perfect, every clerk thoroughly knows his stock and obligingly shows you a variety of the article you desire. From one department to another you can dress everybody from Grandpa to baby, and furnish your home from kitchen to parlor at Paquet's.

**WHY I SHOP AT PAQUET'S.**

Because each article is thoroughly reliable, up-to-date and invariably as represented. All novelties foreign or domestic are found there, as soon as on the market. I always find at Paquet's, in each department, at sensationally low prices impossible to duplicate elsewhere. An attractively displayed stock in a well ventilated and finely lighted building, with courteous and efficient clerks in attendance make Paquet's a veritable paradise for discriminating shoppers. Finally neat packages promptly delivered. To sum up, Paquet's is essentially the store of the greatest values at the smallest prices. That's why I always shop at Paquet's.

**WHY I SHOP AT PAQUET'S.**

A multitude of reasons that prompt economical shoppers of refined tastes and a small bank account to go where they can get quality at prices that prevail in other establishments for inferior grade goods. To recapitulate Why I Shop at Paquet's. 1st.—Because expert buyers are scouring the marts of Europe for high grade goods. 2nd.—They buy in immense quantities, so we can have a selection to choose from. 3rd.—High grade goods for the price of inferior goods. 4th.—Higher grade goods than elsewhere. Lower prices than elsewhere; More prompt attention than elsewhere; Are the principal reasons why I shop at Paquet's.

**WHY I SHOP AT PAQUET'S.**

My reasons for shopping at Paquet's Big Stores are many. 1st.—Paquet's is the largest and best equipped establishment in the City of Quebec. In it one finds almost everything one requires. 2nd.—Goods are cheaper and better in this store than in any other of the city. 3rd.—The brilliancy, airiness and general accommodation makes shopping a pleasure. 4th.—The clerks are most obliging, courteous and painstaking. 5th.—Goods are promptly delivered. 6th.—Because being departmental, we know just where to find what we want. "Last, but not least," Paquet is the "store" of the city.

**WHY I SHOP AT PAQUET'S.**

Because I save so much time and worry—no rushing from store to store, weary and not, vainly endeavoring to find the article I exactly want, for in the well equipped establishment of Paquet you will find among the large and beautiful assortment of everything for the home and personal adornment, the very thing you need. You can rely on courteous treatment, good advice, and you can examine goods without being pressed to buy (as is not the case at other establishments). To the busy woman a day's shopping at Paquet's will be found one of the greatest pleasures in Quebec.

**WHY I SHOP AT PAQUET'S.**

Though the city of Quebec has not yet arrived at the standard in regard to population of leading cities, yet in many respects it is considered quite as interesting. The business manufacture of Z. Paquet's stands prominent among the buildings it contains. There it is affording satisfaction on all sides, alike to customers and strangers. There crowds of people throng to purchase objects which never fail to create satisfaction morning, noon and night. The employees are very busy attending to the vast number of human beings who assemble there anxious to secure the first prize. "Z. Paquet" rings triumphantly throughout Quebec.

**WHY I SHOP AT PAQUET'S.**

1st.—Because I am always promptly and politely served. 2nd.—Because they have a choice of goods to suit every one. 3rd.—We are as well served if we buy for five cents as if we bought for the value of five dollars. 4th.—Because the clerks are always ready and willing to display the goods whether we buy or not. 5th.—We get all we require at Paquet's without having to go to any other shop. 6th.—Because they have goods to suit the poor people as well as the rich.

**WHY I SHOP AT PAQUET'S.**

When first I came to Quebec, I had much difficulty in finding a store where one could buy good quality material at a very reasonable price, but a few visits to Paquet's Departmental Store soon solved the problem. If you have never been, why do so at once and see what bargains you are missing. In every department you will see bargains, in fact, goods are just given at half price. Another reason why I shop at Paquet's is because the clerks take so much interest in serving you and doing their utmost to give you perfect satisfaction.

**WHY I SHOP AT PAQUET'S.**

The reason I shop at Paquet's is that it is the most convenient place in Quebec and the largest and best department store in our city and the employees are so very obliging and nice you lose no time in being served as they attend your wants and fill your orders right away, and their goods are so very excellent and cost far less than other stores for the very best quality as you would get it in other stores for twice the price you pay at Paquet's, and when they promise you to send your purchases they do so immediately.

**WHY I SHOP AT PAQUET'S.**

Because it is the most up-to-date departmental store in the City of Quebec. Because their assortments, in all qualities, shades and makes, are the most complete of any store in the city. Because they buy direct from the producers, thus saving for customers, the profits of the wholesalers. Because their prices are honest, their bargains real bargains. Because all that they claim in their advertisements is carried to the letter. Because their clerks are polite, obliging, and always glad to accommodate the purchasers. Because it is the best store in the city.

**WHY I SHOP AT PAQUET'S.**

The Departmental Store is a modern institution. As the great city attracts the enterprising inhabitants of smaller towns, so does the Great Departmental Store attract the keen purchasing instinct of the community. Leaving general principles aside, I will particularize, I purchase at Paquet's because its whole interior equipment is "a thing of beauty and a joy for ever." The attentive service of its courteous staff satisfies the most fastidious. I have never been dissatisfied with the intrinsic value of my purchases, they being the best and cheapest my money could buy.

**WHY I SHOP AT PAQUET'S.**

Quebec, this fair and ancient city, is entering upon an era of greatness and prosperity, and we must all endeavor to do our duty. How? (By encouraging enterprise; and what firm can compare with Z. Paquet in this respect? Take the cars to Montmorency Falls with the tourist, or to Ste. Anne de Beaupre with a pilgrimage. At intervals attractive advertisements of Z. Paquet's wares are placed in picturesque positions. Glance at the papers, and do you not see Paquet in the most prominent place? It is known to every observant person, that only firms under good management, selling reliable goods, with special facilities for purchasing and disposing of enormous quantities, that advertise so extensively. Is it necessary to state any additional reasons why I shop at Paquet's? A word to the wise is sufficient.

**HOUSEHOLD NEEDS.**

A SICK HORSE.  
A horse took ill on St. John street and fell at the corner of St. Stanislas street, last night, where it attracted a great amount of attention. It recovered in about an hour, however, and proceeded.

FRIGATES.  
Steamer "Pilot" will run from Chouinard's Pontoon, Thursday and Sunday, from 1 to 6 p.m. Fare 25 cents round trip. t.f.

# IN AND ABOUT TOWN

## FIRE COMMITTEE

### Appointment of a Captain and Fireman.

A meeting of the civic Fire Committee was held last night, Aldermen Foley in the chair. Those present were: Mayor Garneau, and Aldermen Tanguay, Lemay, Mathieu, Brunet, Picard, St. Pierre, C. E. Taschereau, and Barbeau, members of the Committee, and Aldermen Madden, Fiset, Messervey, Shink and Galipeault.

An application was received from Jacques Savard, applying for a position as chimney sweep.

A letter was received from Deputy Chief Fitzback, applying for the position of Chief when said position will be vacant.

Applications for positions as firemen were received from J. B. Demierre, Clovis Pare, Albert Duval, Jos. Labarre, Amable Charland, and Joseph Simard.

Fireman Oscar Nadeau made application for the position of turnkey in No. 4 station.

Applications were received from Elzeur Guay, Victor Letarte, and O. Girard, for the position of Captain of No. 4 station left vacant by the death of Capt. Lemay.

Ald. Brunet proposed that Elzeur Guay be appointed Captain of No. 4 station.

In amendment Ald. St. Pierre proposed Victor Letarte.

In reply to the chairman, Chief Dorsal said that Guay entered the brigade in 1895. Out of the three applicants he considered that Girard was the best man. He had a clean record since his entry in the brigade in 1888. Guay was a good man in the brigade, but he did not consider he would be a competent Captain. As for Letarte, he had twenty-three years service, but several complaints had been made against him during that period, but since the last two years he had given satisfaction.

Ald. Brunet withdrew Guay's name as a candidate as he had only eleven years service.

Ald. St. Pierre remarked that if Letarte had had faults, he had reformed, and, as the Chief said, he had given entire satisfaction during the last two years.

Ald. Picard proposed as Captain, Turnkey Girard.

Mayor Garneau remarked that they had to look to the interests of the citizens and also to the interests of the brigade. Of the two men one had a clean record and during the eighteen years he was in the brigade, there was never a complaint made against him. On the other hand Letarte had been dismissed on one occasion, and he did not think that his record could compare with Girard's, who had only five years less service than Letarte.

Ald. St. Pierre was of opinion that Letarte deserved more credit than Girard as during the last two years he had reformed and had not drunk while Girard never had a taste for liquor.

The vote being taken the amendment was lost on the following vote: For—Aldermen Picard, Brunet, Lemay, Against—Aldermen Tanguay, C. E. Taschereau, St. Pierre, Mathieu, Barbeau.

Ald. St. Pierre's motion for the nomination of Letarte was carried on the same division reversed.

For the position of fireman to replace Letarte, Ald. Lemay proposed Amable Charland, and in amendment Ald. St. Pierre moved that the position be given to Jos. Simard.

Ald. St. Pierre voted alone for his amendment and the main motion was carried and Charland got the position.

Ald. Shink had made a complaint against a member of the brigade at the last meeting but as he refused to put his complaint in writing, it was not taken into consideration.

### GOOD NEWS.

Call and see the magnificent assortment of pianos offered at great reduction by the Lindsay establishment, Quebec. It is really marvellous. See the advertisement in another column of this issue and choose your piano.

C. W. LINDSAY, LIMITED.

### THE FRENCH CRUISERS.

It is almost exactly a year since the British cruiser squadron, in command of Prince Henry of Battenberg, anchored before Quebec. On Friday two fine cruisers of the French navy—the flagship Desaix and the Gravier—arrived at that port. They had previously called at Halifax and at Charlottetown. These splendid specimens of the warships of France are very welcome visitors. Their officers and men will be used as well as Canadians know how to use guests of honor. In no part of the Empire is the epiteote cordiale more warmly supported than it is in Canada.—Toronto Mail and Empire.

### MANY FINE ATTRACTIONS.

There is no lack of attractions at Kete House Grounds. The pleasant walks, the shady nooks, the picturesque natural beauties, the thundering falls, the splendid collection of Canadian animals, the Rustic Theatre—in fact too numerous to mention are the many features. An ideal spot to spend a couple of hours day or night. Easily reached and frequent trains. No tourist should miss it.

### AN ENGLISH ANGLER.

Mr. Stuart, of London, England, who was at the Chateau Frontenas yesterday, and has been on a tour of the world, is quite enthusiastic over his recent sport at Lake St. John. He declares that he never before enjoyed himself so much upon a fishing excursion as he recently has amongst the ouaniche. He expresses his intention of returning here next season for more of the same kind of sport. Mr. Stuart found that some of the ouaniche were epicures, having quite a distinct choice in the matter of flies. While they often rejected the Jock Scott and other equally good flies, they rose freely to the Black Doctor.

## AT THE AUDITORIUM

The return of that gifted and popular Canadian actress, Miss Roselle Knott, was greeted at the Auditorium last evening by a large and well-pleased audience, which seemed to be unanimous in declaring that "Cousin Kate" was a charming vehicle for the display of Miss Knott's versatile talents. Those who saw Miss Knott in the role of "Mary Tudor" were highly pleased last evening to find her equally as fascinating in that of "Cousin Kate," a portrayal of character far removed from the one in which she had made her previous appearance. The comedy, which is a clever and amusing one, furnishes a very enjoyable evening's entertainment. Miss Knott, in the central figure, delighted her audience with a verily spirited rendition of a role which makes a considerable demand upon the artistic discrimination of the performer. Her transitions from gay to grave, from light to more serious moods, were naturally effected, and her work throughout was of that finished nature that could be confidently expected from such a clever artist. While Miss Knott, of course, dominated the piece, she received splendid support from Mr. Ernest Hastings, who in the role of Heath Desmond, was most satisfactory and pleasing throughout. His Irish brogue was delicious, while his scenes with Miss Knott, in the second act more especially, were splendid. Miss Viola Knight was good as Amy Spencer, and the same remark applies to Miss Codrington as Mrs. Spencer and Mr. Alexander as Rev. Mr. Bartlett. Master Joseph Wilks, as the precocious Bobby Spencer, also contributed his share to the success of the performance and merits special mention for his efforts. Applause was frequent and hearty and curtain calls numerous during the evening, and Miss Knott appears to have established herself as a popular favorite with the theatre-goers of Quebec. "Cousin Kate" will be repeated this afternoon and evening, when there undoubtedly will again be large audiences.

### A NEW PLAY TO BE COPYRIGHTED.

The first performance of "The Wearing of the Green," an Irish play by O. V. Allsbach, was given yesterday afternoon at the Auditorium by Roselle Knott and her company. While the audience was small, it was a much interested one, and the play should prove popular. This play is not to be a vehicle for Miss Knott, who will give "The Duchess of Devonshire" as her next season's offering, but she consented to a performance by her company to secure the rights of the piece for her managers, Messrs. Sweeney, Shipman & Company.

A unique feature of "The Wearing of the Green" is that the hero is the great Irish loyalist, Charles Stuart Parnell. Messrs. Sweeney Shipman & Co. have in view a noted Irish singer and actress who will tour the States and Canada in the play.

The cast, as played by the Roselle Knott Company, was: Charles Stuart Parnell, the liberator of Ireland, Ernest Hastings; Duke of Ormonde, John Alexander; Lieut. MacNamara, Egbert Durand; Miss Kitty O'Connor, Viola Knight; Maude Sterling, Margaret Hastings; Timothy McGart, E. J. Sanford; William, Jos. Wilks; Ira Bodley, Huntly Gordon; Mollie Rutler, Duchess of Ormonde, Roselle Knott.

### STR. ALEXANDRIA QUEBEC TO BUFFALO.

Are you going to take that trip on the Alexandria? She sails from Quebec every Wednesday at 5.30 p.m. \$26.00 to Buffalo and return, meals and berth included. Eight days sail, only two hours drive on trolley cars, from Buffalo to Niagara Falls. The Mathie-Ellis Co., Ltd., St. Paul St. Phone 369.

Questions & answers.

### SURVEYING PARTY LEFT.

Mr. Hy. O'Sullivan, D.L.S., and his son, Mr. P. O'Sullivan, left yesterday for the Lake Abitibi district on a Government surveying expedition. They brought with them a party of six Indian guides. This district is the one in which valuable mineral discoveries were made some time ago, and the land is being taken up rapidly. It is back of Ottawa and the boundary line between Quebec and Ontario is to be looked into.

### WELL KNOWN OFFICER DEAD.

A cablegram was received in Sherbrooke on Monday announcing the death of Major C. E. Farwell, R.E., son of Wm. Farwell, president of the Eastern Townships Bank. Major Farwell has been stationed in India for a number of years, and returned to Scotland some weeks ago on sick leave and instead of coming to Canada, his parents, Mr. and Mrs. Wm. Farwell, went over to meet him. Major Farwell had been married but a very short time. No particulars are to hand as to the cause of his death.

### BODY IDENTIFIED.

The body of the man found in the St. Charles River, near the Louise Basin, on Sunday morning, has been identified as that of James Friesche, of Liverpool, England. Deceased, who was an immigrant, arrived out on the C.P.R. line steamer Lake Erie on Saturday last. Coroner Jolicoeur held an inquest upon the remains yesterday morning and a verdict of "found drowned" was returned.

## FATAL ACCIDENT.

News of a fatal accident comes from Roberval, where Evariste Michaud, while repairing his house, fell from the roof, breaking his spinal column.

## A RUNAWAY HORSE.

A butcher's horse ran away in John street yesterday, and turning into St. Angele street, collided with a house and smashed a window.

## FATAL ACCIDENT.

A young man named Alpheus Chretien, 19 years of age, while working in a saw mill at Cap Chatte, was struck by a piece of flying wood from a circular saw, and died a few hours later. A verdict of accidental death was rendered by the coroner's jury.

## SPANISH COURT SINGERS.

Brenato and Diaz, singers to the Royal Court of Spain, are big features of the vaudeville bill at the charming Rustic Theatre at Kent House Grounds this week. Their exquisitely rendered songs and duets in Spanish, French and English are a source of great delight and pleasure.

## SUDDEN DEATH OF A CURE.

The Rev. M. Cleophas Demers, cure of Summerworth, N.H., died suddenly last Sunday night. The Rev. Mr. Demers was a brother-in-law of Mde. E. Demers, of Chabot street, Levis, whose son also was vicar of the same parish.

## BOY RUN OVER.

A boy named James Bowen was run over by a passing wagon in St. John street about 10.30 o'clock last evening, and badly shaken up. He was picked up by Mr. Harry Willis and carried into the office of Dr. Guimont, where he was attended to.

## REGATTA AT LAKE ST. JOSEPH.

Saturday, August 18th, 1906.

On this occasion trains will run as follows:—Leave Quebec at 8.45, 10 a.m., 1.00 (Special), 1.45, 5.20 and 12.00 p.m. Returning will leave Lake St. Joseph for Quebec at 12.05, 3.25, 6.26 and 11.25 p.m.

## TO BECOME A NUN.

Mile. Laura Kirouac, daughter of Mr. Cyr. Kirouac, wholesale merchant, has entered the Jesus-Marie Convent at Sillery. This is the third daughter of Mr. Kirouac who has left the world to become a nun, while his only son is a member of the Christian Brothers community at Longueuil.

## SUPPLIES FOR EXCURSIONS.

The headquarters for all supplies needed by hunters, fishermen and other parties will be found at the store of A. Grenier, St. John street. For many years this house has acted as purveyors to most of the sporting clubs, and the reputation which it has built up has been well-earned, for its patrons have found its prices right its goods the best, and the care with which they are packed can only come from long experience in the business.

## VACANT SEATS.

There are at present four vacant seats in the Quebec Legislature—Berwick, through the nomination of Mr. Gosselin to the Legislative Council; Magdalen Islands by the death of Mr. Lelie, St. Antoine, Montreal, by the death of Mr. Carter, and L'Assomption, through the appointment of Dr. Duhamel to be inspector of registration officers. It is also announced that Mr. Cherrier, member for L'Assomption, is to be appointed inspector of prisons and asylums, and Mr. Cardin registrar of Richelieu county. If Mr. McCorkill is named judge, the number of vacancies will reach seven.

## OUR EFFORTS HAVE BEEN CROWNED.

FAGUY, LEPNAY & FRERE.

## RECEIVED SAD NEWS.

General Henry, United States Consul, in this city, yesterday received a telegram from Danville, Ill., requesting him to find two young ladies named Fenton, as their father had died since they had left for Quebec. After a diligent search the General succeeded in locating them at the rooms of the Women's Christian Association, where he communicated the sad news to them. The Misses Fenton left for home in Danville last evening by the Grand Trunk Railway.

## Drink Beauport Lager; it is the best.

RODOLPHE PLAMONDON.

The Canadian tenor, Rodolphe Plamondon, who has been absent from Canada for nearly seven years, has returned home for a well deserved holiday which he is presently enjoying in his family. During his stay in Europe, Mr. Plamondon, thanks to marvellous natural dispositions and persevering and energetic study, has become one of the leading artists of London and Paris, and, since two years, he is called by the aristocratic society of both cities the "classic" tenor par excellence. He is going back to Europe after the holiday season to fulfill numerous engagements in London and Paris. Before his departure, his numerous acquaintances and admirers in Montreal urge him to give an artistic performance which would then take place early in October, pretending that there will be as much eagerness from the society people to hear him as there has been shown when Albani returned to this country for the first time after her great successes in Europe. From information received from good authority, there is no question but that Mr. Plamondon has become a delightful and a great artist.

## POLICE CASES.

In the Police Court yesterday, a grocer who sold liquor to a minor was fined \$30 and costs. A constable from Ste. Anne de Beaupre, charged with assault, gave bail to appear to-day for trial. A case of assault between three guests and the proprietor of a city hotel was heard with closed doors. After the evidence was heard Magistrate Angers took the matter on deliberation.

Four men, charged with being drunk, appeared before the Recorder yesterday. One was discharged, one was fined \$6 and costs, and two \$5 and costs each. A woman arrested for loitering was sent to jail for four months.

## GOVERNOR GENERAL

### And Party Visited Seven Islands and Received a Loyal Reception.

Seven Islands and Clark City were en fête on Tuesday, last week, when His Excellency the Governor-General, Countess Grey and party paid a visit to this very interesting section of the Lower St. Lawrence on their way up the river from their trip to Newfoundland.

The gubernatorial party reached Seven Islands on the steamer Lord Minto early in the day, when the Honorable Chief Justice Chas. Fitzpatrick, of the Supreme Court of Canada, who happened to be on the island with his family, and son-in-law, L. A. Cannon, advocate, and Rev. Mr. Walter Cannon, went out in a gasoline launch to the Minto, and brought His Excellency and Lady Sybil Grey ashore.

On landing he was presented with an address of welcome by the Mayor of Seven Islands, Mr. Yrreault, in the presence of a large congregation of the island population. His Excellency responded in a very happy and pleasing speech in the French language, which was most heartily appreciated by all present.

A reception followed at the residence of Dr. Ross, agent of the Hotel St. John Bay Co., and afterwards His Excellency, Lady Grey, Chief Justice Fitzpatrick and family, Mr. L. A. Cannon and Rev. W. Cannon, went on board the Minto and sailed to Clark City, where the Minto moored to the central wharf, and His Excellency the Governor-General, the Countess of Grey, Lady Sybil Grey, Lord Howick, Lady Howick, Capt. Trotter, A.D.C., Chief Justice Fitzpatrick and party went ashore, and embarked on a special train in waiting and were conveyed over seven miles of railway to the North Shore Power & Railway Co.'s works, in course of erection on the St. Margaret River. The Vice-Royal party, accompanied by Mr. James Clark, visited the company's works that have already cost \$2,000,000, and are expected to be completed and operated as pulp mills next summer. Afterwards the distinguished visitors proceeded to the residence of Mr. and Mrs. Wm. Clark, where luncheon was served, and later the company's saw mill and other works in the vicinity were inspected, and returning by rail to Clark City, took their departure up the river for the Saguenay. On reaching Murray Bay, the Vice-Royal party were tendered a reception at Manoir Richelieu by Chief Justice and Madame Fitzpatrick, Mr.

## THINK OF IT!

This Pretty Matron Had Headache and Backache—Her Condition Was Serious.

### RELIEF IN PE-RU-NA.

MRS. M. BRICKNER.

99 Eleventh street, Milwaukee, Wis.

Dear Sirs—A short time ago I found my condition very serious. I had headache, pains in the back, and frequent dizzy spells which grew worse every month. I tried two remedies before Peru, and was discouraged when I took the first dose, but my courage soon returned. In less than two months my health was restored.

The reason for so many failures to cure cases similar to the above is the fact that diseased pelvic organs are not commonly recognized as being caused by catarrh. Catarrh of one organ is exactly the same as catarrh of any other organ. What will relieve catarrh of the head will also relieve catarrh of the pelvic organs. Peru relieves these cases simply because it relieves catarrh.

Gormully, K.C., and Mrs. Gormully, of Ottawa, which was attended by over 200 ladies and gentlemen, Canadian and American families summering at Murray Bay.

mean sound teeth, fit for their work, the condition they are kept in by the use of CALVERT'S Carbolic Tooth Powder.

(At all drugists, 15, 30, & 45 cents.) It is made for cleaning the Teeth, and does it, too, thoroughly and pleasantly. That is why it has such a large sale in England. Our booklet tells more and is free for the asking. F. C. CALVERT & Co., 807, Dorchester Street, MONTREAL.

C.A.A.U. MEET DATE

Athletic Championships in Montreal on September 22nd Next.

Montreal, Aug. 14.—

What will probably be the largest meeting held in the country will be the championship gathering of the Canadian Amateur Athletic Association, the date of which was last night set for September 22, and the place the M.A.A.A. field, Messrs. Gorman and C.C. Holland represented the C.A.A.U., and Messrs. Leslie Boyd, E. H. Brown and Gomer, representing the M.A.A.A. held a conference last night in the M.A.A.A. club house and it was eventually decided to hold a joint athletic meet on the date mentioned in the foregoing. Some time ago there had been talk of arranging for a meet in Toronto, but things do not favor such an arrangement. When a move was made to again hold the championships in Montreal it was found that available dates on the Westmount oval were in great demand. However, as the Autumn Handicap games of the M.A.A.A. had been set for a September date, an effort was made to arrange for a joint meet, and this was brought to a definite understanding.

The M.A.A.A. will send a big field, probably eight entries, to the championship meet of the A.A.U. and in return there will surely be a large list of visitors from over the line, the N. Y.A.C. and the G.N.Y.L.A.C. will send large representations. As this will include a host of Olympic winners the mere sight of these men meeting should be interesting. But it looks as if there would be plenty of good Canadian competition for the Americans on this occasion. The Y.M.C.A. has been doing good work in developing athletic competition in the Dominion in a worthy manner, while the performance of local men has been the most encouraging for years.

Another feature may be provided in the way of a Marathon race. This has been broached, but nothing definite has been decided upon. There are plenty of distance runners in the country, Montreal being the home of some of them, and with the prospect of a good race, there should be an influx of distance men from across the border. With a big programme in view and plenty of world famous athletes coming, this championship meet should be of more than ordinary interest.

POLE-CAREW RETIRED.

London, Aug. 14.—Major-General Sir Reginald Pole-Crew, since 1903, commander of the Eighth Division of the Third Army Corps, and who distinguished himself in East Indian and African campaigns, has been retired with the honorary rank of lieutenant general. General Pole-Crew is 58 years old.

A FINE BILL.

Visitors to Kent House Grounds should not fail to take in the Rustic Theatre, where a splendid vaudeville bill is being offered to the patrons of this popular resort this week. High class singing, clever dancing and astonishing acrobatic feats from leading theatres across the border are on the programme, and the handsome summer theatre should be well patronized. All the attractions are free to passengers by the railway.

A BREAK FOR LIBERTY.

New York, Aug. 14.—An eighteen year old Italian girl, who has made desperate efforts to evade the execution of a sentence of deportation imposed by the Ellis Island immigration officers, gave her custodians the slip to-day. She is Grazia Ferrenti, a Neapolitan, whom the immigration officers excluded because she was regarded as likely to become a public charge. With her in her break for real liberty went a compatriot named Salvatore Laporte. The escape was cleverly planned. Sixteen immigrants, upon whom the sentence of deportation had been passed, and who had been under treatment in a hospital in Manhattan, were being taken in an ambulance to Ellis Island. At the Battery landing six Italians pried the rear door of the ambulance open and Miss Ferrenti and Laporte jumped out and disappeared before the driver knew what was transpiring. He, however, managed to capture one of the party who aided in the delivery. Miss Ferrenti, escaped from the hospital several days ago, but was recaptured.

FOLLOW THE CROWDS.

They all go to Kent House Grounds which with its many and varied attractions, its natural beauties and historical associations cannot be duplicated elsewhere. The frequent train service makes it very convenient to those of the parish.

AT THE AUDITORIUM.

Wearily Willie Walker, the attraction at the Auditorium on Thursday, Friday and Saturday nights and Saturday matinee, is a sparkling musical farce comedy. If you have been suffering from the blues, if you have been overworked or feel out of sorts, come and see Wearily Willie, he will make you laugh and feel good. In Wearily Willie Walker some of the latest song hits, clever dancing and good specialties will be introduced. Seats are now on sale.

If all the rest of the world seems crooked, it is a sure sign that you need to set yourself straight.

RUSTIC THEATRE

Kent House Grounds.

This Week's Attractions:

- Amy Bernard, Scotch Character Dances. Mlle. Delors, the "Physical Culture Girl." Brenato and Diaz, Singers to Royal Court of Spain. Morton and Ridgway, Comedy Act. Free to Passengers by Railway.

LATEST SPORTING NEWS

AN IMPROVED GAME ARABIAN DOGS NOW

New Football Rules Over the Border Expected to be Beneficial. Coursing Dog of the Desert Introduced into England.

New York, Aug. 14.—The report of the football rules committee, composed of members of the athletic boards of the leading eastern and western colleges, which has just been completed, shows that mass play has been practically eliminated and that the style of playing will be revolutionized. The game this fall will be faster, more scientific and just as interesting. The different coaches have been provided with copies of the rules, and already they are being studied by the players. The aim of the committee has been to do away with dangerous play, and it has ruled so that mass play is a thing of the past. The first and hardest blow dealt to the mass formation was the adoption of the 10-yard rule. As it now stands, the offense will be compelled to gain 10 yards in three downs, or, in other words, will be forced to advance the ball twice as far as formerly in the same number of downs. It readily may be seen that mass play will not do this, at least if the two teams are of anything like equal strength, and, with weight not counting, the only resort is open play, in which science and skill will be a factor. New trick plays will be tried with countless new formations. Even with the 10-yard rule, mass play might be possible were it not for another rule covering the point. The guards and tackles are allowed back of the line to carry the ball or to aid mass play by providing they are 5 yards back of the centre, and at ninety-nine yards and tackles in one hundred are too slow to make up the penalized distance in time to be of use, few teams will rely on their aid. And then again the ends are forced out of mass plays. The new rule regarding the end position requires that they shall be on side, with a strictly bonafide interpretation of the words. Heretofore they might wheel around and assume a position back of the line and right angled to the tackle but now are compelled to play alongside their mates, facing the defense line. The committee did not stop at these three provisions in its work against heavy plunging formations, not considering the restriction of the mass play work to the three backs sufficient for its purpose. In addition, the rule regarding hurdlings was made more binding. No feet-first hurdlings will be allowed, and as few hurdlers can go over the line in any other position without knocking their feet a large number of hurdlings will be eliminated. And then again a new ruling regarding tackling was made. When the runner touches the ground with any portion of his body other than his hands or feet he is down and the ball is out of play. This rule is aimed at dragging and crawling and should eliminate "piling on" tactics. Tackling high is again allowable, and will aid both the runner and the defense men, for the former will not be compelled to guard their legs so closely and may thus reach greater speed while the latter, evading the arm of the runner, are surer of a clear tackle. One rule was adopted affecting the positions of the linemen. Only the centre and the guards may interlock their legs, and by this provision also the committee worked against the mass formation, for the defense is enabled to see more clearly what is taking place behind the offense line.

Even with the 10-yard rule, mass play might be possible were it not for another rule covering the point. The guards and tackles are allowed back of the line to carry the ball or to aid mass play by providing they are 5 yards back of the centre, and at ninety-nine yards and tackles in one hundred are too slow to make up the penalized distance in time to be of use, few teams will rely on their aid. Only the centre and the guards may interlock their legs, and by this provision also the committee worked against the mass formation, for the defense is enabled to see more clearly what is taking place behind the offense line.

THE THIBET SPANIELS. Of the small Asiatic dogs lately introduced into England and being pushed by Mrs. McLaren Morrison, the Thibet spaniels do not seem to be so attractive as the Lassie terriers. They say that there is not sufficient distinction between the Thibet dog and the Pekinese, with the predominance of merit in favor of the Pekinese, but the Lassie dog is well spoken of. This is a long-coated dog, varying in color from black to white and dark self-colored specimen as well as parti-colored. The coat is very profuse, covering the face as in the Skye or Yorkshire terriers. In the photograph of one of the best of her Lassie dogs, which Mrs. Morrison sent me for inspection, the coat is not brushed flat as in the Yorkshire and the legs are not smooth, but the coat is profuse all over the dog, legs and feet, as well as body and head, and looks as if it wanted brushing. It seems unquestioned that the Lassie in size a good deal and in its native country the small ones are highly valued. The remoteness of the country where they come from and the difficulty of getting specimens makes the Lassie and the Thibet dogs the scarest of all the fancy breeds, and so far none are known to be in this country. With \$200 as the current market price of the Pekinese spaniel puppies the first crop of the Lassie terrier will be high-priced rarities indeed.

GIFT OF A BOAT HOUSE. Boston, Aug. 14.—Through the beneficence of George W. Weld, Harvard '60, who died last year, Harvard University is soon to have a new Weld boathouse, which will stand on the Charles River, on the site of the old house, near the Boylston street bridge. Two large balconies on the water side of the house will overlook the river, and give a very extended view in both directions. The new house will be 185 feet long by 75 feet wide and will cost about \$100,000.

THINKS WELL OF HARVARD CREW. Bourne End, Eng., Aug. 14.—The members of the Harvard crew were the guests to-day of Theodore Cook at the Leander Club, where they met many prominent rowing men. Nearly all the men have increased in weight and are in fine condition, but Wray is anxious to get them to Putney. Hint has done so well at Putney that it is doubtful if his seat will be given to Morgan, although doubtless Morgan will be tried when he arrives.

COACH MUTTERBURY. The Cambridge crew, was more impressed than the majority of the spectators by the performance of the Harvard men on Saturday. He expresses the opinion that they are capable of great improvement, but says they require watching.

DANDELION WON AGAIN. Saratoga, Aug. 14.—Dandelion, winner of the Saratoga handicap, added another stake to his list by winning the Delaware handicap here to-day. He was quoted at 4 to 1, and stepped the mile in 1:38 3/4.

AUTOMOBILE DICTIONARY. An automobile dictionary, with the various terms given in three languages, English, French and German, has been issued, beside which the slang dictionary seem feeble. It could well be advocated to English buyers as offering a substitute for profanity, because with the words in the dictionary at his command an automobilist in trouble ought to be able to sufficiently relieve his feelings simply by addressing the refractory part by its German name. For instance, a ballbearing is "voilement a billes" in French and "kugellager" in German. In French a clutch is "come d'embrayage," while in German is it "kuppelungskreis." The best satisfaction for the pious and nonprofane man would probably be in addressing himself in German to a mean-working speed lever. This part is "lever de vitesse" in French, but in German a man would be privileged to call it "geschwindigkeitshahn" and that ought to be enough to relieve him.

P. Q. R. A. MEETING

Green, Tyro and Merchants' Matches were Shot Yesterday.

(Special to the Chronicle.)

Montreal, Que., Aug. 14.—Fine weather and a warm sun attended the opening day of the Province of Quebec Rifle Association and with the exception of a nasty "fish tail" the men had all they could desire, so far as outward conditions were concerned. This wind deceived more than one of the green shots, and was mainly owing to that that the general scoring was so low. The principal events to-day were the green match, the Tyro and the Merchants. The following are the leading scores:— Green match—1, Gunner J. Smith; 2nd C.A., 43; 2, Corp. R. G. Brookhouse, 3rd; 3, G. T. Ross, R.C.G.A.; 41; 4, Sgt. J. Hartick, 5th R.S., 41; 5, Corp. Brown, 8th R.R., 39; 6, Corp. Kanton, 1st P.W.F., 39; 7, Sgt. Foy, 2nd C.A., 38; 8, Sgt. Copland, 5th R.S., 38; 9, Pte. Shelters, 3rd V.R.C., 38; 10, Mr. McGregor, C.M.R., 38; 11, Pte. Goodhue, 53rd; 36; 12th, Private Krinckley, 3rd V.R.C., 36; 13th, Mr. A. R. Allen, A.R.A., 36; 14th, Private Sharpe, 53rd; 35; 15th, Major MacGregor, 6th D.C.R.H., 35; 16th, Sgt. Cole, 1st P.W.F., 35.

Tyro match—1st, Capt. A. J. Seale, 13th Scottish Light Dragoons, 45; 2nd, Color Sgt. J. McAuley, 6th Royal Scots, 44; 3rd, Corporal Whitney, 53rd, 44; 4th, Gunner Smith, 2nd C.A., 43; 5th, Sgt. R. M. Shaw, 13th Scottish Light Dragoons, 43; 6th, Sgt. Montrell, 4th Field Co. C.E., 43; 7th, Corporal Brookhouse, 3rd V.R.C., 42; 8th, Color Sgt. Langlois, 65th C.M.R., 42; 9th, G. D. Peabody, Montreal Rifle Association, 42; 10th, Sgt. F. W. Fry, 2nd C.A., 41; 11th, Gunner Rose, R.C.G.A., 41; 12th, Sgt. Hartick, 5th Royal Scots, 41; 13th, H. S. Peabody, M.R.A., 41; 14th, Bugler Pugh, R.C.G.A., 41; 15th, Private D. McCallum, 1st P.W.F., 41; 16th, Corporal C. Brown, 8th Royal Rifles, Quebec, 39.

SAILING RACE SUNDAY. Fifteen entries have been made for the sail-boat races organized by the Notre-Dame de la Garde Committee for Sunday next, the 19th instant. The course will be the same as on the previous occasion, from Dinning's wharf to the second red buoy on the Beauport shore. Judging from the interest being taken in the last race, the present one will be witnessed by even a larger number of spectators.

TURF CLUB RACES. Preparations for the fall meeting of the Quebec Turf Club are going steadily forward, and the two days' races at the end of the present month promise to be among the most successful ever held by the club. The entry list in the different events gives evidence of being larger than ever, as the horses from outside will be numerous. The King's Plate will again be run for at the Quebec meeting this year, and will as usual add great interest and eclat to the races.

A HOT STRUGGLE. There promises to be a fast game of ball on the Q.A.A. grounds next Sunday afternoon, when the Quebec and Levis teams will play off their postponed game. Levis put it over the locals last Sunday, but the latter do not think the former can repeat the trick and will have a strong team on to endeavor to prove the truth of their assumption.

BASEBALL RESULTS. (Eastern.) At Jersey City:— Buffalo, 11; Jersey City, 3. At Providence:— Providence, 4; Montreal, 0. At Baltimore:— Baltimore, 8; Rochester, 7. At Newark:— Newark, 4; Toronto, 2. (National.) At Pittsburg:— Pittsburg, 4; Boston, 7. (American.) At Cleveland:— Cleveland, 9; Washington, 8.

PROVIDENCE IS WILLING. New York, Aug. 14.—The city of Providence is anxious to take Detroit's place in the American League, should the Detroit Club sell its franchise. It is known that many wealthy men of Providence who are interested in baseball would not hesitate to put up the necessary capital to give their city a first-class ball team. The Boston (American League) management will use its good offices to land the franchise in Providence.

The proximity of the two cities, it is claimed, would naturally create a rivalry that would mean shakels for both clubs. Although the Providence Club of the Eastern League has been playing an inferior article of ball this year, it has received good support in point of patronage, and it is claimed that, with teams like New York, Cleveland and the Athletics for its attractions, Providence, in the American League, would be a great money maker.

MAJOR B. O. BEATEN. Montreal, Aug. 14.—The August trotting meet at Delorimier Park was opened to-day when there was some good trotting. Summary of events:— 240 Pace, Purse \$400—Kingborough, Bk. S. IT'S COMING Scotch (Hard) Anthracite Coal ALL SIZES IN BAGS. Thirty thousand tons received in St. John each year, and is claimed to be superior to all other Anthracite Coal. Here is what the St. John Public Hospital, says about it: St. John N.B., August 7th, 1905. "In accordance with the authority of the Commissioners of this Hospital, I have much pleasure in certifying as follows: The Hospital was heated with Scotch Anthracite Coal for the first time during the winter season of 1904-5, and the result was so very satisfactory that the Commissioners have just recently given it the preference over all other kinds, and contracted for the entire supply required or next winter; viz., 350 tons. "The Scotch Anthracite not only gives out great heat, but it produces very little Ash, and no clinkers, and there is therefore, the least possible labor or trouble connected with burning it. (Signed) L. OLIVE THOMAS, Secretary." Order for this coal is now looked at reasonable price for next summer delivery. A. K. HANSEN & CO. Phone 362. 79 St. Peter St.

**FOUND SENSELESS BY THE ROADSIDE**  
Owen Sound Girl Victim of Brutal Attack  
**STRUCK DOWN NEAR HOME**  
Lay All Night Unconscious--No Clue to Perpetrator of the Deed.

Owen Sound, Aug. 14.—The police are investigating a vicious outrage which was perpetrated upon Miss Louise Jones, the twenty-one-year-old daughter of Mr. A. W. Jones, a market gardener, who resides on the North Gravel Road, on the west hill outskirts of the town. About 8.30 this morning, a gentleman who was driving to town noticed the prostrate form of Miss Jones half way under a wire fence on the west side of Mill Road, which diagonally intersects the thoroughfare on which the young woman resides and only about a hundred yards from her home. Dr. H. G. Murray was called, who ordered her removal in the ambulance to the hospital, and also notified Chief of Police McAuley and County Crown Attorney Armstrong. It was found that the injuries consisted of a mark on the forehead over the eye and on the nose, while there was clearly the evidence of finger marks on her throat, which, with a terribly swollen tongue, indicated that strangulation had been resorted to. From her condition it was evident that the young woman was also suffering from the all night exposure in a chilling temperature as well as from the shock. A parasol and some fruit, picked up on the crossing a short distance away were amongst other indications that a severe struggle had taken place. The gloves worn by Miss Jones were covered with blood. The legal officials at once took up the investigation. It was found that Miss Jones was down town during the evening and a nearby neighbor notified Mr. Jones at once that he had accompanied his daughter out from town about ten o'clock and left her at his gate to go to the short distance home. The intersecting street where the victim was found is scarcely 100 feet away from where the young woman was left. This evening the victim is still in a semi-conscious condition, but is unable to speak a word, though by a nod or shake of the head she is able to give an answer to the affirmative or negative to the questions put to her. The police have not the slightest clue as yet, but hope when the girl regains consciousness to be able to get a description of the perpetrators of the outrage.

**HE RAN AMUCK**  
Man with a Revolver Shoots Several Persons at Coney Island.

New York, Aug. 13.—While Oceanic Walk, in the Bowery, at Coney Island, was still crowded early to-day, an unidentified man pulled a revolver and fired two shots into the back of a waiter at Stauch's restaurant, and then turned the weapon into the crowd and fired four times as quickly as he could pull the trigger. Four persons were writhing in agony on the board walk when the man fled toward the ocean, threatening any person who would pursue him. The injured, three of whom may die, are: Thomas Fitzpatrick, 25 years old of Brooklyn, shot in breast and side, may die.  
Thomas McDonald, 19 years, Newark, N.J., shot in back, may die.  
Annie Smith, 20 years, Williamsburg shot in thigh and leg; serious.  
George White, a waiter, 26 years, of Coney Island, shot in back; may die.  
At the time of the shooting a crowd was pouring from the restaurant. In the throng were many women. At the sound of the shots and the screams of a woman who witnessed the shooting the crowd broke in all directions. As they fled the man deliberately turned the weapon toward them and fired several times. A panic ensued and women were thrown to the walk as the man ran over them in an effort to reach a place of safety. The stranger defied any one to follow him. He had the revolver in his right hand, and shouted:  
"The man who follows me I will kill."  
He jumped over a railing and vanished in the direction of the ocean.  
Fully ten thousand persons stood at the entrance to the Bowery and from them a cry swelled that the murderer must be lynched. They broke down all the police barriers and forced their way to the Bowery, overrunning the physicians whom the police had summoned.  
Then down on the sands in the direction which the assassin took the crowd poured. Captain Harkins, in charge of the Coney Island police station, quickly by stringing out a long line of men along the ocean front. He had the exits guarded as far as Brighton Beach and at every terminal of the island men searched for a man dressed in a dark suit of clothes and wearing a fedora shaped straw hat. He was described as being short and smooth-faced.  
Two big searchlights were playing on the beach until early to-day, to assist the police, and thousands were aiding the authorities in a search for the assassin.

**NOTICE TO RELIGIOUS INSTITUTIONS.**  
Religious and educational institutions, which intend purchasing musical instruments for the opening of their classes should visit the Lindsay establishment and take advantage of the great sale at reduced prices which they have decided to make until 15th August.

**KING POT O'-SOUP**  
General Latrobe Receives Paper Published in Liberia.

Baltimore, Tuesday, August 14.—General Ferdinand C. Latrobe has received the May and June issues of "Liberia and West Africa," which is printed in Monrovia, Liberia, the negro republic in Africa.  
The publications were sent by Dr. Ernest in the African republic, as his father was one of the leaders in the establishment of the colony Monrovia, which is an independent state in Liberia, founded by colonists sent from Maryland.  
Dr. Lyon, who signs himself "E. Lyon," tells of a trip into the interior and a visit he paid Pomporah a native king. He writes of Klay, an interior town, and says:  
"It is built on an eminence several hundred feet above the sea, around the base of which runs a magnificent stream of clear and sweet water. The path leading to it for about a quarter of a mile is wide, planted with various trees on either side to form a grove, which leads at once both charm and beauty to the situation. The population, I should judge is not more than 500. The houses are well built, especially those representing the King's quarters. In a number of instances there was a skillful blending of the civilized and Pagan methods of house building and furnishing. I was delighted to find evidences of sanitary arrangements. The streets were particularly clean, and all refuse and offal substances were by law forbidden to be left in the town, —a site on the outside being reserved for that purpose."  
"Pomporah is the name of the King. It signifies 'a pot of soup,' a title by which he delights to call himself in times of war. It is said that in the thickest of battle he would call out to the enemy: 'I am Pomporah! Come and taste me! I am as hot as pepper!' Here was the scene of the great war between him and Tawah Dahdohah, King of the Gorgeh Golah section, who came down to dispute Pomporah's right of mastery in this section of the country. The struggle which ensued was fierce and deadly. The siege lasted for three days. Tawah and his forces, however, were defeated and driven back, and the towns allied to him as far as the 'Mahay' were burned and the inhabitants captured, or beheaded, or enslaved. Yesterday, upon the King's invitation, I visited the battle field, together with what he facetiously called his boneyard. It reminds one of Golgotha—the place of skulls. I had the skulls, together with the other bones of the body which we gathered, arranged and photographed. The skeletons represented the remains of 45 persons, who were after the battle either beheaded or shot at 'his command."  
"It will be of interest to you to know that Pomporah was brought up by one of the ministers of your denomination. His father, who was at that time a powerful king in this section, brought him when a lad and gave him to the minister, in order that he might train him in the knowledge of books for service among his people. He remained in his new home until he was 20 years of age, going to school long enough to learn the alphabet. This is the extent of his book knowledge which he confesses regretfully. He managed, however, to acquire a knowledge of the English language, which he speaks with astonishment fluency. It was interesting to hear him call the attention of the council, during its progress, to errors in interpreting the testimonies of the Witnesses from the Golah dialect to the English language."

**Do Your Ears Ache?**  
Why not use Polson's Nervine? This trusty liniment cures earache and toothache almost instantly. Results guaranteed, 25c. per bottle everywhere.

**SENATOR DAVID'S VIEWS.**  
Montreal, Aug. 14.—Another illustration in the person of Hon. L. O. David, replies to Goldwin Smith: "I am convinced," the senator says, "that a vote taken it would be found that the French-Canadians of the Province of Quebec would overwhelmingly pronounce themselves in favor of the maintenance of British connection. I do not think they would ever prefer to live under the protectorate of France, their motherland."  
"And I am also convinced that, once the matter was reasonably explained to them, they would not object to the sending of contingents to assist the British troops in Imperial wars."  
"First, and foremost, however, as I said before, my compatriots believe in building up Canada. And in accomplishing this undertaking, they feel that they are doing a truly imperial work."  
"It is absurd to think that the presence of a strong French-Canadian nationality in Canada prevents Canadians from thinking imperially. The French-Canadians are imperialists, in that they form part of an empire in which they evince a pardonable pride. They think imperially, because they prefer to live and prosper under the Union Jack. They do their own part in the task of empire-building in their own way."

**Common With All Women**  
Almost invariably they suffer from constipation and should use Dr. Hamilton's Pills because they cleanse the system, regulate the stomach and bowels and bring health and vigor that's surprising. Try Dr. Hamilton's Pills, price 25c. everywhere.

**ELECTROCUTED IN BATH.**  
Winnipeg, Aug. 14.—Mrs. Welly Blackeole, of Vaughan street, was electrocuted on Saturday, having grasped an electric incandescent lamp while in the bath tub. Mrs. Blackeole was in the act of stepping into the water when she slipped. She grasped the lamp by the socket to save herself from falling and the current killed her instantly.

**Boils and Pimples**  
Red Rash, Eczema, in fact any skin disease, disfigures the complexion because the bowels are constipated—or because the kidneys do not rid the system of waste—or because the skin itself is unhealthy.  
Ointments, salves and soaps are useless. Because the trouble is with the blood.  
Owing to defective action of bowels, kidneys or skin, the blood becomes laden with impurities. It is these impurities—deposited by the blood—that make boils, pimples, and painful, disfiguring skin diseases. It is because the trouble is with the bowels, kidneys or skin, that FRUIT-A-TIVES cure these diseases.  
**Fruit-a-tives**  
OR "FRUIT LIVER TABLETS"  
act directly on the eliminating organs—correct their irregularities—strengthen them—and thus clear the skin and make the complexion clear and soft.  
If you have any skin trouble—or any fault with constipation, liver trouble, biliousness, headaches, indigestion, rheumatism—cure yourself with Fruit-a-tives. They are made of fruit juices and tonics—and never fail to cure. Get a box or 6 boxes for \$2.50. Sent on receipt of price if your druggist does not handle them.  
**FRUIT-A-TIVES LIMITED,**  
OTTAWA.

**FRUIT-A-TIVES LIMITED,**  
OTTAWA.

**DON'T WANT TO PAY.**  
Rio De Janeiro, Aug. 14.—The subcommittee of the International American Conference on the Drago Doctrine to-day agreed on a resolution even more general than the one on the programme, recommending that each American nation at its discretion request the Hague Tribunal to study the questions of the forcible collection of public debts and pecuniary claims of all nature. The Argentine report alone opposed the resolution which finally was agreed upon and will be signed to-day. The opinion is expressed that the resolution will be accepted unanimously and adopted by the conference. The Pan-American Railway Committee of the conference discussed two projects, one to the effect that the construction of the entire road be turned over to a private company in the United States and the other that each government undertake to construct that portion of the road which is within its own territory.

**FIRE IN ELEVATOR.**  
Montreal, Aug. 14.—A fire took place in the elevator of the Ogilvie Flour Mills Co.'s Glenora mill on the Canal this afternoon, but was quickly put under control. A considerable quantity of wheat in the elevator was damaged by water.

**Sunlight Soap is better than other soaps, but is best when used as the Sunlight way. Buy Sunlight Soap and follow directions.**

**CORPORATION OF QUEBEC**  
CITY ENGINEER'S OFFICE.  
Tenders for Firewood.  
CITY HALL,  
Quebec, August 15th, 1906.

**PUBLIC NOTICE** is hereby given that sealed tenders, endorsed Tender for "firewood," and addressed to the undersigned, will be received up to Wednesday, the 29th instant, at 4 p.m., for the firewood the City may require from the 1st of September, 1906, to the 1st of September, 1907.  
Tenders must be made on the printed blank forms, and endorsed in the printing envelopes, which will be furnished to intending contractors, on application for the same at the City Surveyor's Office, and the Road Committee will not entertain any tender that is not made on the said blank forms and enclosed in the said envelopes.  
Tenders must be endorsed on the outside of the envelopes, with a certificate from the City Treasurer of the necessary deposit as security for the contract.  
Each tender shall be subscribed to by two responsible parties willing to secure the execution of the contract.  
Each tender shall deposit in the hands of the City Treasurer the sum of \$100.00 to be confiscated by any one refusing to sign the contract.  
The Corporation does not bind itself to accept the lowest or even any of the tenders.  
The contractor to pay for drawing up the contract, and supply the City Engineer with a certified copy thereof.  
W. D. BAILLAIRGE,  
City Engineer.

## TRAINING RACE HORSES

Noted London Expert Describes How English Do It—Preparatory Trials and Other Leading Features of Equine Schooling.  
One hears a good deal about the luxurious time enjoyed by race horses in training, and if one believed all that is written and said it would almost seem that these fortunate quadrupeds slept in feather beds, chose their own menu for about half a dozen meals a day and only took exercise when they felt like doing so.  
As a matter of fact, writes "Slogger" Blake, the noted London expert, race horses in training are very strictly looked after and must rigidly adhere to the rules laid down as to their feeding and exercise.  
At the same time it is only natural that they should be well looked after. Their stables are exceedingly clean and comfortable, being light, dry and well aired.  
The animals are protected from colds or any other illness with the greatest care, which is hardly to be wondered at, since, apart from the fact that a cough may ruin a horse's chances of success for a very long period, some animals are worth considerable sums of money.  
The day's proceedings at a training establishment commence as a rule, about 6 a.m., when all the horses, wearing their rugs, as their coverings are called, are marched in a long line, one behind the other, from the stable to their training ground.  
The horses in charge of a trainer are usually referred to as the "string" of that trainer, through their always walking out in this line formation.  
If the training grounds are near the stable some time is usually devoted to walking exercise pure and simple before any cantering is done, but in cases where the training ground is some way off all the walking required is indulged in on the journey there and back, and when once the horses have arrived they are sent, sometimes one behind the other, sometimes in a long line abreast, for a sharp canter of a mile or a mile and a half.  
During their "work" their rugs are never removed—in fact, they invariably wear them except during very occasional "stripped" gallops, or trials, when the trainer is anxious to test their best speed against the watch or in competition with some other animal.  
The morning's work is usually over about 9, by which time the horses are back in their stables and undergo a thorough grooming at the hands of the stableman. When this is over they partake of breakfast, which is strictly limited to a fixed quantity of corn and as much water as a horse can drink at a draught. Whether any further work is done during the day depends partly on what the physique of the various horses requires and upon what events any of them happen to be engaged in in the near future.  
In some cases no more work is done, and the animals remain in their stables and are not disturbed again until supper time, at 6 o'clock, when they get their second and final meal of the day,

after which their "beds" are shaken up and they are left for the night.  
Such horses, however, as require a greater quantity of work to get them fit may be taken out again in the afternoon, and in certain cases there may be trials run during that time of the day.  
The most important trials, the results of which trainers wish to keep as quiet as possible, are generally run very early in the morning, long before the rest of the "string" go out for exercise.  
These trials often prove a trial to the trainers themselves, for it very frequently happens that horses which run exceedingly well on these occasions at home perform very indifferently in public, so that trainers frequently lose a great deal of money by backing animals that have been "tried a certainty," but which fail ignominiously when a question is asked of them upon a race course.  
These trials, too, are often doubly trials to the horses, for when they are held in the afternoon the animals only receive half rations at breakfast!  
Another branch of the training through which race horses are put is with the starting gate. Horses, as a rule, object so strongly to this machine that all trainers have a "gate" on their training grounds, or, in some cases, in a paddock close to the stable, at which the animals in their charge are given frequent practice until they become quite used to the contrivance.  
Some trainers also have a miniature race course on their grounds, with a starting gate at one end and a winning post at the other, so that young horses which have not performed in public may become accustomed to the surroundings of a race course.  
A few trainers still retain a fancy for the "sand bath," which was very popular a few years ago, but which is only met with occasionally now.  
A sand bath is a shallow pit about ten feet or twelve feet square, the bottom of which is thickly covered with sand.  
In this the horses are allowed to roll and kick in just the same way as a human being splashes about in his cold bath of a morning.  
The animals thoroughly enjoy taking a sand bath, and it is sometimes difficult to persuade them to have it.  
Horses vary considerably as to the time it takes them to get fit. In some cases it is possible to tell almost to a day the time when an animal will be at its best.  
In others this is quite impossible, and backward and uncertain horses are the trainer's bugbear.  
Very often it is not till late in the flat racing season that some horses get fit, and Royal Ascot sees the first appearance for the season of many an animal of which just as much care has been taken as others that have won races months before.  
The highest service is that which raises others.  
It takes more than a vindication to restore virtue.

**CAT SUCKLES RAT.**  
Little Toronto Rodent Was Given Her to Eat, But She Adopted and Nourished it Instead.  
When a cat and a rat lie down together, their relative position are ordinarily those of the lion and the lamb—the rat, in other words, is inside the feline. That pre-occupied look of happiness, supplemented by an occasional purr, which is so often observed in the case of somnolently lazy pussies, is often the result, naturalists say, of a juicy rat in kitty's digestive apparatus.  
Most Toronto cats love rats in just that way—for the sake of the loaves and the fishes, as it were. There is one at Michie & Co.'s on King street which enjoys the distinction of being different, says the Toronto Star. It is suckling a young rat, and whether it is raising it for benevolent purposes remains to be seen. Perhaps it is merely an unusually wise cat, and is raising the little rodent simply with an eye to a future repast. This theory must give place, for the present, to some warping of the mother instinct, so strong in all animals, which has included a very lively little rat in the comradeship of five very black and, as yet, helpless kittens.  
When a policeman at the corner of King and Yonge streets handed a young rat to Mr. Joe Wilson, of Michie's, a few days ago, he did not know that he was starting a romance in animal life, which may end in a tragedy soon. Mr. Wilson, mindful of a cat at the store which had become the mother of five kittens, as "black as herself," took the gift in good part. He duly presented the rat to Mrs. Tabby.  
There are no records extant relating to the siege of Paris which give the opinion of the rat-eaters of that period as to the comparative juiciness of young and old rats. It would naturally be thought that a rat so young and tender as the one which Mr. Wilson handed to the cat would be a morsel particularly tempting to anything with an appetite for Mus Decumanus, which is what the scientists say.  
The cat received the rat without the usual licking of lips, in fact it slobbered the youngster over, as if it was its own offspring, which found no trouble in making room for their much smaller comrade. The rat, for its part, not having learned the A. B. C. of life from its people at home, snuggled down comfortably in its new nest, and partook of the same refreshment as was afforded the little black kittens.  
It has been wisely said that parental favoritism is the ruin of many a home. Among animals, though, the mother is often observed to deal most kindly with her weakest offspring, and to take special precautions to guard it from danger. This may explain why the tabby at Michie's apparently regards the rat as the darling of her heart. Cats do not approve of the too frequent visits of blundering humans to their homes, and Mrs. Tabby has shown her disapproval of this by giving her family three times. Her favoritism towards the rat, which she evidently thinks her smallest and weakest charge, was noticed the first time the saved. She was noticed by Mr. Wil-

son running off to the coal bin with the rat in her mouth. "Now," said he, "it's all up with the rat." He was wrong. She was merely moving it before she moved the other occupants of her first home. She followed with them, one by one, and set up housekeeping in the coal bin.  
It must have been a veritable feline San Francisco, and the cat soon moved—this time to a box.  
Men prominent in the study of animal life say that there is no other case on record of the kind. Some of them, in fact, laughed incredulously when the incident was related to them.  
It will be interesting to learn what happens to the little fellow. If it is wise, it will hie away to other haunts as soon as nature will permit. If it elects to remain with its foster family there is likely to be a catastrophe soon. The kittens will be weaned, and it is a good guess that some day they too will assume that look of utter happiness which comes to their kind after a good and juicy meal. When that happens, Mr. Rat will have mysteriously vanished—into thin air, it might be said; but, better, into thin cat.

**A NEW USE FOR BALLOT BOXES.**  
Ballot boxes have had strange things put into them at various times in Canada—good ballots, crooked ballots, blank ballots, and spoiled ballots—but The Wingham Advance tells of a new use to which these cogs in our political machinery can be put. Some 22 years ago an election for the Ontario Legislature was held in that county, when the candidates were Thomas Hays and Thomas Gibson. The returns indicated that Mr. Hays won the election, but before the official count was made two of the ballot boxes, very mysteriously disappeared. Search was made for them, but they could not be found, and possibly their absence finally determined the result of the election. Last spring two men living not far from

a certain village not far from Wingham, were passing a sugar bush owned by one of the officials in the election referred to. Seeing some trees tapped (for it was sugar-making time) they went to have a drink of the first run of sap. To their astonishment they found a ballot box doing duty for a sap bucket. The men aroused their curiosity, and going a little farther they found a second ballot box. As they had nothing to prove that King Edward had gone into the sugar-making business in that township, and was using his ballot boxes for sap buckets, their minds reverted to the loss of two ballot boxes twenty-two years ago, and to them their mysterious disappearance was explained.  
Between some men and sponges the only apparent difference is that sponges will take water.

St. John, 16 Dec., 1905

Messrs. BOIVIN, WILSON & CO.,  
Montreal.

Dear Sirs:  
I did not seem to have a drop of blood in my veins. I could not eat. I had tried many kinds of medicines without result when I took up VIN'ST. MICHEL. After having taken six bottles, I was completely cured, and now I am strong and healthy.

Yours truly,  
Gomme Neg. Forbic
