# BRITISH HOUSE OF COMMONS PASSES HUGE WAR CREDITS

IN APRIL THE WAR WILL BE COSTING ENGLAND \$10,000,000 DAILY—NO TIME TO TALK PEACE, SAYS PREMIER ASQUITH.

London, March 1—If the combined fleets of Great Britain and France can prevent it, no commodities of any kind except those now on the seas shall henceforth until the conclusion of the war, reach or leave the shores of Germany.

This is England's answer to Germany's submarine blockade, and it is to be effective forthwith.

Premier Asquith, reading from a prepared statement, made this announcement in the House of Commons this afternoon at a session which will be historic. Studiously avoiding the term "blockade" and "contraband"—for these words occur nowhere in the prepared statement—the Premier explained that after this day the Allies considered themselves justified in attempting, and would attempt, "to detain and take into port ships carrying goods of presumed enemy destination, ownership or origin."

The Premier emphasized, however, that vessels and cargoes so seized were not necessarily liable to confiscation, and begged the patience of neutral countries in the face of a step through which they were likely to suffer. He added that in making such a step the Allies had done so in self defence.

### Have Been Moderate.

"We are quite prepared," he went on, "to submit, to the arbitration of neutral opinion, and still more to the verdict of Imperial history, that in the circumstances in which we have been placed we have been moderate; we have been restrained; we have abstained from things that we were provoked and tempted to do, and we have adopted a policy which commends itself to reason, to common sense and justice."

Every member of the House not at the front in khaki, or unavoidably detained, was in his seat to hear the Prime Minister's speech, and there was frequent cheering. The galleries were packed. When the Premier concluded his set statement, and, turning to the Speaker, said: "That, sir, is our reply," there was a tremendous outburst.

### Under Consideration.

Curiously, the German reply to the American note seeking to solve the situation growing out of Germany's declaration of a naval war zone, was handed to Ambassador Gerard at Berlin today, and Premier Asquith, in his speech, said, that Great Britain and her Allies were still carefully considering the American note to them on the same subject. That the British government had rejected the proposal, he declared, was "quite untrue."

The tremendous cost of modern warfare, which the Premier estimated now at \$7,500,000 daily to the Allies alone, and likely to grow to \$8,500,000 or more daily, by April, was the theme of that part of the Premier's address not dealing with the blockade. He gave these figures in asking for a supplementary vote of credit, making a total of £362,000,000 (\$1,810,000,000), to prosecute the war to March 31st, 1915, which the House unanimously granted.

### Comparison is Lost.

The entire struggle with Napoleon cost England only £1,831,000,000 and the South African struggle only £211,000,000. These were Mr. Asquith's figures.

Before the Premier had finished, the newspapers were on the streets proclaiming: "Our answer to Germany," in big letters, and it was apparent everywhere that the entire nation had been chafing for reprisals against the sinking of merchant craft by submarines.

Walter Hines Page, the American Ambassador, called on Sir Edward Grey, the British Foreign Secretary, this afternoon. The Italian and Russian Ambassadors and the Swedish and Danish Ministers also made calls. It is presumed that they went to the

(Continued on Page Two.)

## ASQUITH PRAISES PRINCESS PATS

ALL VOLUNTEERS FROM BRITISH DEPENDENCIES WILL SOON BE IN ACTION.

London, March 1—In the House of Commons today, Premier Asquith said in the course of his memorable speech:

"Our own dominions and own great dependency of India have sent us a splendid contribution of men, a large number of whom are already at the front, and very soon the whole of them will be in the fighting line in one of the actual theatres of war. We hear today that the Princess Patricia's regiment have been doing during the last few days most gallant and efficient work. (Cheers). The territorial divisions are now fully trained and capable of confronting any troops in the world, and the new army which lately has been under the critical scrutiny of skilled observers are fast realizing all our most sanguine hopes. (Loud cheers).

### FRANK PROTESTS

HIS INNOCENCE.

Atlanta, Ga., March 1—Leo M. Frank, thrice sentenced to be hanged for the murder of a little factory girl, Mary Phagan, and now awaiting the result of a final appeal to the Supreme Court of the United States, contended at the time of his trial in 1913, and contends with still more force now, that he was innocent, and that the real murderer was Jim Conley, the negro roustabout who was the chief witness against him.

His attorneys and friends insisted then, and still insist, that his trial was unfair in itself, and that he was doomed in advance because of bitter public feeling which was aroused against him by false reports published or spread by word of mouth soon after his arrest.

### AND WELL HE MAY!

## Retaliatory Measures Must Be Undertaken Against Lawless And Barbarous Foe—Bad Weather Halts Operations Of Allied Fleet In The Dardanelles—Germany Concedes That Russians Have Retaken Przasnysz—Little Of Importance Occurs In The West

London, March 1—England and her allies have made answer to Germany's declaration of the waters around the British Isles and the coast of France as a war zone by retaliatory measures, which will be undertaken immediately, and which have as their object the prevention of commodities of any kind from reaching or leaving Germany. These measures will be enforced by the British and French governments, as the text of the British note puts it "without risk to neutral ships or to neutral or non-combatant life and in strict observance of the dictation of humanity."

The announcement of these measures was made by Premier Asquith in the British Parliament today, and so far as can be observed the action of the government is a matter of supreme satisfaction to the British public and press.

The operations of the allies fleet in the Dardanelles, as perhaps presaging quick developments in the Balkan situation, dominate the military situation on sea and land. The more optimistic minds expect Constantinople to fall, but there is a noticeable disposition to realize that the ships face no easy task, notwithstanding the twenty mile range of the super-Dreadnought Queen Elizabeth.

Whether any progress has been made since the outer forts were demolished has not been made known officially, a statement issued tonight saying that a gale from the north-east is sweeping rain and mist before it, hindering the operations and militating against long range firing and making it extremely hazardous, if not impossible, for aeroplanes to take wing from the ships for observations which are so necessary to direct the fire. The interest which the British people are taking in these operations is evidenced by the frequent official statements regarding them.

Little of importance occurred in the western theatre of the war, and of the operations in the east the Russians are claiming much and the Germans are saying little.

There are signs that the Russian armies are again feeling their way, preparatory to a vigorous offensive. Germany has conceded that the Russians have retaken Przasnysz, north of Warsaw, and the Russians are still elaborating on its strategic importance.

## 2ND BATTALION ON FIRING LINE

### THREE OF COLONEL WATSON'S MEN ARE SLIGHTLY WOUNDED—NONE FROM QUEBEC.

Ottawa, March 1—The following casualties among members of the Canadian Expeditionary Force were announced by the Militia Department tonight:

#### First Battalion.

Killed in Action:—Feb. 20, Bugler Edward Callan. Next of kin, Fred Callan, (brother), Preston, Ont.  
Severely Wounded:—Private W. J. Broumpton, wounded in scalp. Next of kin, Mrs. Elinor Broumpton (relationship not known), Catwick, England.

#### Second Battalion.

Slightly Wounded:—Lance-Corporal J. H. Hannaford, in thigh. Next of kin, P. M. Hannaford, (father), Westmount, Que.  
Sergeant Henry Hamilton, in leg. Next of kin, H. C. Hamilton, (father), Sault Ste. Marie, Ont.  
Private John Davis, in foot. Next of kin, Mrs. J. Davis, (relationship not known), Kenfrew, Ont.

#### Third Battalion.

Severely Wounded:—Sergt. Victor Holland, in shoulder. Next of kin, Mrs. G. Holland, (relationship not known), 73 Gravelly Hill, North Birmingham, England.  
Slightly Wounded:—Bugler William Henry Sanders. Next of kin, Rita Martha Sanders, (relationship not known), 141 Manning Avenue, Toronto.

#### Seventh Battalion.

Killed in Action:—Feb. 26, Lieut. Herbert Beaumont Boggs. Next of kin, Beaumont Boggs, (father), 620 Fort Street, Victoria, B.C.

News Agency, a new association called the Union des Villes, the object of which is the rebuilding of Belgian towns. It is headed by prominent Belgians. The German Government has promised the association full facilities for the carrying out of its work.

## OFFICIAL

### FRENCH STATEMENT.

Paris, Mar. 1.—via London, Mar. 2.—12:05 a.m.—The following official communication was issued by the French War Office tonight:

"Rain and snow storms have hindered operations at many points on the front. In Champagne we repulsed, to the north of Mesnil, strong counter-attacks and maintained all of our gains of yesterday, inflicting heavy losses on the enemy.

"In the same region we have made fresh progress. Near Pont-a-Mousson in the forest of Le Pretre, we carried a blockhouse.

"At Sultzezen (Sulzern) north-west of Munster (Alsace), we repulsed an attack of considerable strength on Sunday night. In both affairs we captured prisoners.

"In Hartmanns Woerlkopf we have kept the ground gained by us in spite of German counter-attacks."

### RUSSIAN STATEMENT.

Petrograd, Mar. 1.—10:24 p. m.—via London, Mar. 2.—12:52 a.m.—The official communication issued tonight by the War Office regarding the progress of the campaign follows:

"We concluded the operations around Przasnysz where we defeated and have thrown back to the frontier, not less than two army corps.

"The Germans, having compelled the retreat of our tenth army, set themselves the further task of joining battles with our troops operating successfully in the Mlawa region. Their plan was first to drive back, by a demonstration in force, our left wing in this region, and then apparently by a headlong dash against our right wing in the Khorzole (Chorzellen), to overthrow our troops in the direction of the Vistula.

"On the 16th the enemy took the offensive in the Lipno-Sierpecz district, bringing five divisions into the operations. About the middle of February the enemy had reached the Plonsk-Racionz front, but as a result of desperate battles on the sixteenth and eighteenth we stopped his further progress in this section.

"About this date the Germans concentrated very great forces between Mlawa and Villenberge (Willenberg) and took the offensive. On the 18th we discovered great activity on the part of the German advance guards in the Khorzole district, and on the 20th great enemy forces began an impetuous advance.

"Passing Przasnysz on the east they reached the village of Czuka. Przasnysz formed the extreme point of support of our right wing in this region. Here our infantry brigade was operating and, after meeting the enemy's attack with a defence characterized by vigor and initiative, it threw part of its strength into Przasnysz."

Petrograd, Mar. 1.—9:37 p. m.—via London, 11:40 p. m.—The following official statement regarding the operations of the Russian forces in Asiatic Turkey was issued this evening:

"Our troops operating in the coast region yesterday occupied the port of Khopa (on the Black Sea, 18 miles south-west of Batum). The port was of great military importance to the Turks. "There is no change in the other parts of the war zone."

## WAR SUMMARY

The plan of Great Britain and her allies, whereby they will attempt to cut off supplies from Germany and at the same time prevent commodities from leaving German ports, has been announced, and communicated to the United States. This action is in retaliation for the declaration of Germany of a war zone, and while details have not been made public, it is noted that no mention is made in the official statement of a blockade or contraband.

It is considered almost certain in official quarters at Washington that a protest will be made against the action of the allied nations, which is regarded as an unprecedented and novel step, and one likely to work injury to commerce between the United States and the countries with which she is at peace.

The British parliament has voted the total sum of \$1,810,000,000, asked for by Premier Asquith for the prosecution of the war, covering the expenditure of the current year up to the end of the present month, and, in his speech in the House of Commons, the British Prime Minister, after discussing the proposed reprisals of the Allies against Germany, made reference to "whispers of peace," saying that it was not time to talk of peace—that this time would arrive only when the great purposes of the Allies were in sight of accomplishment.

The operations of the Anglo-French fleet in the Dardanelles have been interrupted again by unfavorable weather, but considerable progress is indicated by an Athens despatch which reports that Fort Dardanus, 12 miles up the Straits on the Asiatic side, has been silenced.

That an agreement which will give Russia free passage of the Dardanelles has been reached between Great Britain, France and Russia is the assertion made by a Paris newspaper.

There are also reports of rioting and panics in Constantinople and unsuccessful attempts to assassinate the Turkish Minister of War and the Interior.

Details of the recent fighting in the eastern war zone are lacking, but the Russians claim to be preparing new offensive operations to follow up their success in checking the German advance in northern Poland. The Russian army of the Caucasus has occupied the port of Khopa, on the Black Sea, which has been considered of great military importance to the Turks.

In France and Belgium storms have hindered the operations, and there is little to report.

A statement issued by the French government denying the Germans have fewer men in the western war theatre now than in January gives figures which indicate that there are 1,880,000 Germans on the western front and 2,080,000 Germans and Austrians on the eastern front.

The American ambassador at Berlin has received Germany's reply to the American note concerning the naval war zone. It is "an acceptance with a few modifications," of the American proposals.

### BRITISH HOUSE OF COMMONS PASSES HUGE WAR CREDITS

(Continued from Page One.)

Foreign Office to discuss Great Britain's policy of reprisals, designed to cut off commerce to and from Germany.

London, Mar. 1.—(Through Reuters' Ottawa Agency)—In the House of Commons this afternoon Right Hon. Henry Herbert Asquith, the Prime Minister, in moving a supplementary credit of £37,000,000 and a fresh credit of £250,000,000, pointed out that the total of the credits for the financial year 1914-'15 was £362,000,000. That represented, broadly speaking the difference between expenditure on a peace footing and expenditure on a war footing.

It was not desirable, he said, to give precise details of the expenditure; but the army and navy took out of that total £275,000,000; that was in addition to the sums voted for these services on a peace footing. Thirty-eight million pounds represented advances for war expenditure to the Dominions and Crown Colonies. There had been an advance to Belgium of £10,000,000 and of £800,000 to Serbia and further advances to these allies were contemplated. The actual cost of the war at the close of the financial year, when the war would have lasted 230 days, would be £1,200,000 daily. This credit of £250,000,000 was the largest single vote ever put before the House. It would cover the period to the second week of July. The War Office estimated that from April the daily expenditure would be £1,500,000, and the navy estimated an expenditure of £400,000. This would aggregate roughly £2,000,000 daily.

#### Britain Determined.

The government, he added, was making a larger pecuniary remand on the House than ever before; but they made it in full conviction that after seven months and the country and the Empire were every bit as determined as ever to bring a righteous cause to a triumphant issue. (cheers).

#### Much to Encourage.

"There is much to encourage and stimulate us in what I see in the heroism of Belgium and Serbia, in the undaunted tenacity with which our allies hold their far-flung lines until the moment comes for an irresistible and decisive advance," declared the Prime Minister amidst renewed cheers.

"We have no reason to be otherwise than satisfied with the progress of recruiting, and I can assure the House that with all the knowledge and experience gained by the government we never were more confident than today of the power and the will of the allies to achieve ultimate victory" (cheers).

#### Dardanelles Operations.

Referring to the operations in the Dardanelles, Mr. Asquith said that there had been no denudation or impairment of the forces working in France and Flanders. We should continue, he said, to give the fullest and most effective support there; nor for the purposes of the Dardanelles operations had there been any weakening of the Grand Fleet. The enterprise of the Dardanelles was carefully conceived with distinct political, strategical and economic objects. The operations once more illustrated the close co-operation of the allies in this new theatre of the war.

#### Praises French Navy

Mr. Asquith referred to the splendid contingent from the French navy which shared the glory and the hazard of the Dardanelles enterprise. The operations also showed, he said, the copiousness and variety of our own naval resources. The Queen Elizabeth was there, the newest super-dreadnought with a range unknown before; and side by side with her was the Agamemnon, the predecessor of the dreadnought class. Congratulations, he said, were due to the Admiralty for the success of these operations.

#### The German Blockade.

Mr. Asquith then passed on to the subject of the German so-called blockade. He said: "I will have to use some very plain language. It did not come as a surprise. The war had been carried on by Germany with a systematic violation of all the conventions and regulations whereby international agreement thought to mitigate warfare. She has now taken a further step by organizing an under-sea campaign of piracy and pillage.

Can we—here I address myself to the neutral—sit quiet as though we were still under the protection of the rules of civilized warfare? I think we cannot." (cheers).

#### Ridiculous "Blockade."

Mr. Asquith ridiculed the theory of a German blockade. He asked where were the German fleet. It had only been seen twice on the sea since the war began. The plain truth was that the German fleet was not blockading, could not blockade, and never would blockade the English shore. (Cheers).

There was no form of economic pressure, he added, to which the allies did not consider themselves entitled to resort; and if neutrals suffered inconvenience the allies regretted it; but neutrals should remember that this phase of the war was not initiated by us. We had not proposed to assassinate their seamen or to destroy their ships. The British and French governments would hold themselves free to detain and take into port ships carrying goods of presumed enemy destination or origin; but it is not intended to confiscate such vessels or their cargoes unless they for other reasons be liable for confiscation.

#### No Time for Peace.

The Premier, continuing, said that there were whispers of peace. But it was not the time to talk of peace. (Loud Cheers). And those who did so, however excellent their intentions, were victims of grievous self-delusion.

It would be time to talk peace when the great purpose of the allies were in sight of accomplishment (cheers). What he said upon that subject in November last, at the Guild Hall, he now repeated in March. (renewed cheers).

Mr. Asquith here read a statement regarding German submarine piracy. He said that he laws and customs of nations regarding attacks on commerce always presumed that the first duty of the captor of a merchantman is to bring it before the prize courts where it may be tried, where irregularities of capture may be challenged and where neutrals may recover their cargoes. "The sinking of prizes," he said, "is in itself a questionable act, to be made for the safety of all crews and passengers."

#### Duty Toward Neutrals.

"The responsibility of discriminating between neutral and enemy vessels and between neutral and enemy cargoes obviously rests with the attacking ship whose duty it is to verify the status of the vessel and cargo and preserve all papers before sinking or capturing the ship. So also is the humane duty to provide for the safety of the crews of merchantmen, whether neutral or enemy, an obligation on every V-lager. It is upon this basis that all previous discussions of the law regulating warfare have proceeded."

"The German submarine fulfills none of these obligations. Her methods of warfare are entirely outside the scope of any international instruments regulations operating against commerce in war time. The German declaration, substitutes indiscriminate instruction for regulated captures. (cheers). Germany adopted this method against peaceful traders and non-combatant crews with the avowed object of preventing commodities of all kinds, including food for the civilian population, from reaching or leaving the British Isles or Northern France. Her opponents, therefore, are driven to frame retaliatory measures in order to prevent commodities of any kind from reaching or leaving Germany (renewed cheers). These measures, however, will be enforced by the British and French Governments without risk to neutral ships or to neutral or non-combatants lives and in strict observance of the dictates of humanity. (cheers) The British and French governments will therefore hold themselves free to detain and take into port ships carrying goods of presumed enemy destination, ownership or origin. It is not intended to confiscate such vessels or cargoes unless they would be otherwise liable to confiscation. Vessels with cargoes which have sailed before this date will not be affected. That is our reply. (loud cheers)

"I may say," continued Mr. Asquith, "that the suggestion which we see put forward from German quarters that we rejected certain proposals or suggestions made to Britain and Germany by the United States is untrue. All we have stated to the United States so far is that we have taken them into careful consideration in consultation with our allies."

#### A Spiritual Appeal.

"We shall not relax our efforts," said the Prime Minister in conclusion, "until we have achieved all our aims. To achieve them we must draw on our resources, both material and spiritual. The appeal on the material side is before the House. The appeal on the spiritual side is to the ancient and inbred qualities of our race which have never failed us in times of stress, namely, self-mastery, self-sacrifice, patience, tenacity, willingness to bear one another's burdens, the unity which springs from a dominating sense of a common duty, never-failing faith and an inflexible resolve."

Prolonged cheers greeted Mr. Asquith's closing words and both votes of credit were unanimously adopted by the House.

Laurier is Against Camp at Valcartier

Leader of Opposition, as usual, objects to any money being spent in Quebec—Col. Hughes replies.

(Special to The Chronicle.)

Ottawa, Mar. 1.—There was an interesting debate in which Sir Wilfrid Laurier and Hon. Sam Hughes were the only participants on a motion by Sir Wilfrid for particulars in regard to lands taken possession of by the government in connection with the creation of a camp at Valcartier.

Attacks Col. McBain. The Opposition Leader in quoting a letter sent by Col. McBain telling certain property owners that if they did not accept the price fixed for their land it would be expropriated expressed some curiosity as to who Col. McBain was.

He did not think the change was in the best interests of the public. As for the farmers an extra effort should have been made to give them satisfaction.

Minister Replies

The Minister of Militia in reply said that in view of the statements of the leader of the opposition he would not deal at present with the criticism of the Valcartier camp more than to say that it stands unique in the history of the world as having produced the best shooting regiments which ever wore uniforms.

So far as we knew he had given his services to the country without pay. Sir William Price, he said, had never had anything to do with the selection of Valcartier site. The site had been chosen, the Minister said, by Col. McBain and a committee of the militia council with his (The Minister's) approval.

U.S. Flag Hauled Down from Dacia

Crew of steamer is sent back to New York by U.S. Consul.

New York, March 1.—The American flag which flew over the steamship Dacia, captured last week by a French cruiser, and taken into Brest, has been hauled down and the United States consul at Brest is sending the Dacia's crew back to New York city, according to cablegrams received here today by Edward N. Breitung, the vessel's owner, from Captain McDonald.

Captain McDonald was instructed to remain and to insist also upon the crew remaining at Brest. To the American consul at Brest, Mr. Breitung addressed a message inquiring why the Dacia was detained and why her flag was hauled down and requesting the consul to look after his interests.

without the necessity of instituting expropriation proceedings.

Horses at Valcartier

During question hour today the Minister of Militia answered a question as to what was done with horses which died at Valcartier. Mr. M. S. Delisle was the questioner and suggested that a number had been drowned because they were found entirely unsuitable for services. The Minister denied this but said that from twelve to fifteen had died in camp "Some," added the Minister, "were sent to the glue factory, others were buried."

Mr. J. B. Bourassa wanted to know if any errors had been discovered in the plans of the Champlain Market railway station at Quebec and why it was necessary to pull down some of the basement work of the station. The Minister of Railways answered that no errors had been discovered and that no part of the basement work had been pulled down.

Mr. Gustave Boyer learned from the Minister of Militia that the government had no information as to the shareholders of the new shell manufacturing establishment at Levis.

The Minister of Finance informed Hon. Charles Murphy that the government had not instructed an officer to investigate the affairs of the Dominion Trust Company. The ministers stated that the company was being investigated by the courts.

Hon. Frank Cochrane told Mr. Lachance that the government had purchased a railway from the Canadian Northern Railway for the use of the national transcontinental in the St. Charles River Valley, Quebec, on June the 5th, 1915, for \$175,000. The railway was five and a half miles in length and connected only at the east end with the National Transcontinental near Cap Rouge. In order to facilitate operations an additional "Y" was being constructed at the Cap Rouge end, 2,481 feet in length. At the western end a connection had been constructed to connect with the Leonard shops. The eastern end of the connection was in Cap Rouge parish and the western end in St. Malo parish.

The company had not reserved any rights on the railway. The grade was 0.5 per cent and the curves four degrees and less.

A Blot on Quebec

Commenting editorially on the fact that the Gouin Government's brute majority in the Legislature voted down the attempt to re-open the Mousseau inquiry the Montreal Mail suggests that the Lieutenant-Governor has a duty to perform now that Sir Lomer has proved derelict in the performance of his obligations to the public.

If the honor of the Legislature and of the Province as a whole does not find a champion in the Premier who, as Attorney-General of Quebec, is responsible for the administration of justice within the border of the Province, with whom will it be safe? Quis custodiet ipsos custodes? Who will be the guardian of its guardians?

Suppose that a detective in the Attorney-General's department withheld or suppressed information which, it might be reasonable to suppose, would lead to the conviction of persons involved in a case of murder or robbery, surely the Attorney-General or his deputy, if they became aware of the facts, would at once dismiss that detective from the service and see that he was summarily punished. But what about their own case? Is it not an equally reprehensible matter to stifle the public demand that full light should be shed on the Mousseau case and that the malefactors should be punished—two things which the Premier himself promised last year, two things which were prevented by the mysterious illness of Mr. Mousseau.

Last year, when it was seemingly evident that Mr. Mousseau could not appear to testify whether or not he had given others money which the committee of inquiry found him guilty of receiving and which the detectives swore he had obtained for the purpose of bribing other members of the Legislature—members whose names he is said to have mentioned—the chairman and others on that committee expressed their regret that they could not have heard the evidence of Mr. Mousseau.

We can now form no other conclusion than that the Gouin Government never desired to hear that evidence. We believe that the Ministerialists in the Assembly were afraid to have it heard. They did not know how far the investigation might go, how many might be involved in it. Had not even the Premier's own partner prostituted his political mandate for a paltry sum, while the evidence tended to confirm the suspicion that trafficking in votes on the Government side of the House was almost the rule rather than the exception; that many an itching palm had been greased in order to make smoother the way for the passage of legislation that has been framed in the interest of individuals rather than of the general public.

From the very moment that the charges were first brought by the Mail there were many signs which were construed by the public as indications that it was the set purpose of the Ministerialists to restrict the scope of the inquiry as much as possible. In any event the net result of the whole proceedings was that the investigation ended in a cul de sac. Mousseau alone held the key to the situation. He alone could have told whether he had corrupted others or not. What happened? Mousseau makes a heavy tragedy exit from the Assembly and when the time comes for him to open his mouth and give his testimony, in what condition was he? He was, so the doctors told us, speechless and paralyzed. He could not be brought before the committee to give his evidence and he could not have given it if he had been brought before it. According to the doctors, who did not even tell us what was the nature of his mysterious malady, he was in a state "between unconsciousness and coma." When asked how long this illness was likely to last, the doctors said that it might be for months and it might for ever.

Science and therapeutics have achieved much but we doubt if there was ever a more miraculous recovery recorded in Aesculapian annals than that of the member for Soulanges. After being invested with a kind of deathbed halo, Mr. Mousseau, soon after the inquiry has run its course and the Legislature has been prorogued, returns to life and health from the valley of the shadow. Joseph Octave, like Richard, is himself again. We find that, like Jairus' daughter, he has been "not dead but sleeping." He has not even condescended to stay at the plough as he had threatened to do in his valedictory message to his peers on the government benches. As a matter of fact we do not think that he even put his hand to the plough.

The next thing we hear is that Mr. Mousseau is practising his profession. A little more time elapses and his name comes before the public again. This time we hear that he intends to run for Parliament again. Nay, even more, we hear that he is assured of the Gouin Government's support. And the Government does not attempt to deny it. Has Mr. Mousseau a hold over them? Is he in possession of embarrassing secrets which they would not care to have published? The recent vote in the Legislature would seem to lend color to the theory that he could "make it hot" for the Government if he so wished.

There are some men on the Government benches who, we have reason to believe, are not actuated solely by political expediency, who are looked upon as good, honest and conscientious citizens. If they were sitting tomorrow on the case of a woman who had stolen some clothing for her fatherless children or of a man who had purloined a few pieces of scrap iron that he might sell it to buy some food for his starving family, what would they do. Probably their conscience would not be satisfied unless the delinquents were severely punished. Some, no doubt, would feel a kind of righteous joy in giving the offenders the full penalty of the law.

But when the offence is one that is punishable with fourteen years imprisonment, when it is charged that there are men among them who have betrayed the trust of their electors, men who are suspected of bribery and corruption, men who have prostituted their mandate, when it is a question of purifying the Legislature, of defending the honor of the Province, what do they do.

What do they do? They prefer that the Legislature should stink in the nostrils of the public; they prefer that the cloud of suspicion should hang over them as well as over their fellows. They make themselves accessories after the fact by their conniving and their shielding of the grafters.

Ottawa Discusses Our Food Supply

Proposal for Government Control of Foodstuffs Meets but Little Support.

(Special to The Chronicle.)

Ottawa, March 1.—Parliament spent the whole day discussing the question of our food supply. It was brought up by Mr. W. F. Cockshutt, member for Brantford, who moved a resolution proposing that the Government should control the destiny of all foodstuffs in Canada, thus controlling the domestic price and directing food supplies to the Motherland and her Allies.

Mr. Cockshutt's idea did not meet with favor. He found only three supporters, all Liberal Nova Scotia members from the industrial Sydney centre.

Western members, particularly objected to the proposal, as they felt it was largely directed toward the control of the price of flour and wheat. After several years of low prices, they thought that the farmers should not be robbed of profitable prices. Equally strong objection was made by Ontario members representing agricultural constituencies.

The debate which lasted until late in the evening was marked by thoughtful speeches by members who are seldom heard from. Mr. J. J. Merner, of South Huron, discussed the question of the high cost of living and quoted figures to show that with a few exceptions the cost of living was higher thirty years ago than it is today. He himself, thirty years ago, sold tea at 75c per pound, and the same tea today was only 40c a pound. Sugar was only half the price. He quoted the price of many other commodities to prove the correctness of his contention. If people were willing today to use and wear what they were willing to use and wear thirty years ago they could live cheaper now than then.

Another member who seldom makes a speech, but who is listened to with respect when he does, is Mr. W. H. Sharpe, of Lisgar. An old-time farmer in Manitoba, and an extensive farmer, Mr. Sharpe spoke with authority on the question of the price of wheat. He blamed the middleman, grain dealer and miller for taking more than a fair share of the profits of wheat growing. He was opposed to controlling the price of wheat but thought that the Government should control speculation. He made the suggestion that the Bank Act be amended so as to allow the banks to loan money on seed grain, in order to help finance this coming year's crop. It is a suggestion which, it is believed, the Government will act upon. Legislation dealing with the suggestion may be looked for later in the session.

Premier Against It

Sir Robert Borden did not favor the proposal of Mr. Cockshutt. He doubted the desirability of government interference with the business of the country unless it were absolutely necessary. The less interference the better. As for the suggestion that the export of wheat should be regulated the Premier said that the situation was not such as would warrant interference.

He thought that it would not be desirable to fix the price of wheat for the farmers. He promised that if it could be established without raising the price of goods to the consumer the Government would take action.

Great Britain and the Dominion, he concluded, had from the first acted in perfect accord in the matter of the control of exports to the enemy, and he had reason to believe that the co-operation had been most effective. They had every reason to believe that the United Kingdom was well supplied with food.

GRAMPIAN MAKES A FAST VOYAGE

Passengers Say She Was Chased by a Submarine.

Halifax, N.S., March 1.—Fast time was made on the voyage from Halifax to Liverpool by the steamer Grampian, which arrived here today. The Grampian had fine weather and only a little fog. Her officers say that the voyage was without incident, while some of the passengers averred that when coming through the Irish channel she was chased by a German submarine. They say that she maintained a zig-zag course at the time, and that naval signals had been received from the shore giving warning that a German submarine was in the vicinity.

FINED FOR BRINGING ALIENS TO CANADA.

Toronto, March 1.—Prosecuted by Inspector Reynolds, of the Immigration Department, for a breach of the act, R. G. Long and B. S. Sutherland, of G. R. Long & Company, were today fined \$50 and costs for bringing three alien glove cutters into Canada. The men were turned back at Sarnia, but were later supplied with \$50 each, taken to Detroit and managed to pass the immigration officials. A letter from one of the men found on another man who was detained at the border gave a clue which resulted in the prosecution.

States Will Probably Enter Strong Protest

Action of Allies is regarded as novel and unprecedented step—measures are considered as probably temporary.

Washington, March 1.—All commercial intercourse by sea between Germany and the outside world was today declared prohibited by Great Britain and France. Identical notes presented by the French and British Ambassadors here informed the United States government of this drastic step by the Allies in reply to Germany's war zone proclamation.

If this policy is enforced it will no longer be possible to ship cotton, manufactured articles and commodities hitherto of a non-contraband character from the United States to Germany, directly or indirectly, and from the latter country the supply of dyestuffs, and other merchandise, for consumption in this country will be cut off.

The impression was general in official quarters tonight that a strong protest would be made against the action of the Allies, which was regarded as an unprecedented and novel step. Officials pointed out that in the reprisals which the belligerents were making toward each other there was a singular forgetfulness of the fact that whatever might be the violations of international custom as between those countries at war, this could not affect the status of international relations between the United States and the countries with which she was at peace.

Note Is Not Reply

Assurances given by Great Britain that today's note was not a reply to the recent proposals of the United States for an adjustment of the entire situation which led to the retaliatory measures, gave ground for some hopes that the measures taken might be only of a temporary character. In this connection, the State Department issued the following statement:

"The British Ambassador has presented the following instructions from his government:

"When presenting joint Anglo-French communication you should inform United States government that communication received from them through the United States Ambassador in London respecting a possible limitation of use of submarines and mines and an arrangement for supplying food for Germany is being taken into careful consideration by His Majesty's government in consultation with their Allies."

The text of the British note is identical with the statement in the House of Commons today by Premier Asquith.

A Complex Problem

Copies of the notes were immediately sent by Secretary Bryan to President Wilson. State Department officials admitted that one of the most complex problems of the war had arisen. Officials were unanimous in their opinion that the notification could not be called a "blockade," although it had virtually the effect of the same. It was noted generally that the communication did not use the word blockade, and at the French and British Embassies here there was an avoidance of the same word. The notes leave much, therefore, to be explained.

It was regarded as practically certain that the United States would reply promptly with an inquiry as to how the step was to be carried into practice, together with a protest against the announcement that commerce between Germany and neutral countries hereafter would be interrupted by the Allies.

Just when the United States government will act on the latest note is dependent to some extent on when the replies are received from the Allies and Germany to the informal communication looking to an abolition of submarine warfare on merchant ships and the shipment of foodstuffs to the civilized population of belligerents.

Catarrh Never Stops in Same Place Reaches the Lungs—Developes Consumption

To Stop A Cold Quickly And Prevent Catarrh, Use "Catarrhzone"

Nothing more serious than the common cold. If it gains headway you can't stop it from running into Catarrh, deafness, or serious throat troubles. Catarrh spreads very fast. From nose to throat it goes in a day. Soon the Bronchial tubes are affected—and before you know it, unless very healthy the lungs are hit, and it's too late. While you have the chance, drive colds and Catarrh right out of the system. You can quickly do so by inhaling the rich piney vapor of Catarrhzone.

Senate to Debate Ontario Schools

Senator David's Resolution is Withdrawn and Replaced by Another.

Ottawa, March 1.—Discussion by the Senate of the Ontario school question has been deferred for a week but will take place within a short time. The Senate resumed sittings today.

Senator Beique said that at the request of Senator David he desired to withdraw that gentleman's resolution in regard to the school question and substitute for it another more in accordance with the rules of the Senate. The resolution which he desired to substitute was:—"This House without derogating from the principle of provincial autonomy deems it proper and within the limits of its powers and jurisdiction and in pursuance of the object for which it was established to regret the divisions which seem to exist among the people of the Province of Ontario in connection with the bi-lingual school question and believes that it is in the interest of the Dominion at large that all such questions should be considered on fair and patriotic lines and settled in such a way as to preserve peace and harmony between the different national and religious sections of this country in accordance with the views of the Fathers of Confederation and with the spirit of our constitution."

This resolution is set down for debate on Tuesday, March 9.

In moving the second reading of his bill respecting the pollution of navigable waters, Senator Belcourt said that he thought that it hardly needed discussion as already the proposal had been considered and unannouncedly passed by the Senate. Subsequent to its introduction events showed how important the legislation was and never was it more important or more opportune than today.

The bill was read a second time and referred to the committee on health.

Ship to England via Gibraltar

Von Reventlow Makes Suggestion for U.S. Merchant Ships.

London, Mar. 1.—11.35 p.m.—"Count Ernest Von Reventlow, the naval expert of the Deutsches Tages Zeitung," says the Exchange Telegraph Company's Copenhagen correspondent, "proposes that the United States should send their merchant ships to Gibraltar, instead of to England, and thus escape Germany's submarine danger. Goods for England might then be sent by rail to a French harbor to the Atlantic or the English channel and thence forwarded to their destination by British or French steamers. Great Britain, Count Von Reventlow says, would surely not mind paying the extra cost."

The Joy of Good Health Is Now Experienced

Nervousness, Dizzy Spells and Sleeplessness Are Now a Thing of the Past.

This is a cheerful letter from Mrs. Peacock, and it should bring joy to the heart of many a reader of this paper. Dizzy spells and sleeplessness are symptoms of exhausted nerves, and are the bug-bear of many women, who do not know just what treatment to use. You can read Mrs. Peacock's letter and take courage, for she has proven that Dr. Chase's Nerve Food is a complete cure for these troubles. So pleased was she with the results obtained that she wants other women to know about this food cure. Mrs. Thomas Peacock, 23 Hlawatha street, St. Thomas, Ont., and whose

husband is conductor on the Wabash Railway, states:—"I was quite run down in health, was very nervous, did not sleep well, and had frequent dizzy spells. Believing this to be the result of an exhausted nervous system I began using Dr. Chase's Nerve Food, and can say that this medicine did me a world of good. It entirely freed me of the symptoms stated above, built up my health generally, so that 40-day I feel that I am quite well again." In a more recent letter Mrs. Peacock writes:—"Dr. Chase's Nerve Food has done me a world of good, and I would be pleased to tell everybody so." In nearly every issue of this paper you will find letters about Dr. Chase's medicine. If this one does not describe your case watch for others or write to us. Dr. Chase's Nerve Food, 50c a box, 6 for \$2.50, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

The Quebec Chronicle

Printed and published by The Chronicle Printing Company, D. Watson, General Manager, at the building of the Company, 9 Beaudry Street, Quebec.

QUEBEC, MARCH 2, 1915.

LEADING THEIR LEADER.

Mr. Maclean's radical speech on the budget, like Mr. Pugsley's violent oration on submarines the other day, is evidence that the truculent element in the Opposition have broken away from Sir Wilfrid Laurier and the more moderate Liberals.

HOW GERMANY FEELS.

The Petit Parisien prints a long communication from a leading Dutch merchant, A. de Smit, describing a recent business trip of twenty-five days through Germany.

Prussia alone retains confidence, he says. The people expect to beat the Russians in February and the French before Easter and that England will sign peace in July as a German colony.

Baden is much less confident. The people remarked:

"If Hindenburg does not beat the Russians before the end of March and if Calais is not taken by Easter, we can make our wills."

Saxony and Wurtemberg are dubious, and Bavaria is quite despondent, Munich being plunged in gloom. The people there complained that the Bavarians had been sacrificed everywhere, while the Prussians had frequently been kept on fortress duty.

WHAT DO THE LIBERALS REALLY WANT?

In the House of Commons on Thursday some of Sir Wilfrid Laurier's supporters, including Mr. Pugsley of sawdust wharf fame, demanded that the Government at once cut down public expenditures by half, utterly regardless of the fact that the consequences would be that a very large number of men would be thrown out of employment and their families reduced to starvation.

Everybody rejoices that the effects of the war have been but slightly felt, comparatively, in this country, and this happy condition of affairs results from the prompt and prudent measures that the Government has taken to meet the situation, which so suddenly confronted Canada.

Now come Mr. Pugsley and some of his friends, and demand that the Government button up its pocket and let the working men go hang. It is hard to believe that a man of Mr. Pugsley's knowledge and experience can seriously suppose that such a policy as he advocates can possibly commend itself to the country.

In adversely criticising expenditures which have been made necessary

by the war, these party politicians are doing their best to bring Canada into disrepute in the eyes of the rest of the world by casting doubts on the enterprise, loyalty and patriotism of her people. This, however, has been the policy of the Liberal party for years, even since proposals for Canada's participation in Imperial defence have been under consideration.

PRESS COMMENT.

Every province of the Dominion is getting along admirably without a legislative council, excepting Quebec and Nova Scotia.

Every province of the Dominion is getting along admirably without a legislative council, excepting Quebec and Nova Scotia. In Quebec it continues to exist from mere force of inertia. Everyone, except its present or prospective members, is opposed to it, but no one is sufficiently interested in the matter to advocate its removal.

Throughout the broad lands of Canada comes the cry for help—the call from the wilds is attracting every person of a conserving turn of mind—our wild life is in danger. The game birds—the songsters and migrating species as well as the mammals. The best and the most of the game protective laws now in force in Canada were brought into existence through the initiative and efforts of the real sportsmen of the country.

ture an urgent appeal for assistance in the preservation of game, asking, among other things, the prohibition of the sale of wild ducks.—London Free Press.

The refusal of Sir Lomer Gouin's Government to re-open the Mousseau case should not be allowed to stand as the Legislature's majority will ed it by vote. We do not believe that that vote has the approval of the majority of the people of this Province. Not one adequate reason was advanced by the speakers on the Government side why the matter should rest as it is—why the Daily Mail's charges should not have the fresh light shed upon them involved in an examination of Mr. Mousseau.

Vaccination against typhoid fever is as efficacious as vaccination against smallpox. This is the verdict of medical men. Why is it then that while typhoid is so much more common than smallpox in this country vaccination against the fever is so rare? It is true that sanitation is helping reduce the risk of typhoid, but even today it is probably causing more deaths every year in Canada than smallpox.

Mrs. Elgin Cossett, Joggin Bridge, N.S., says: "When my little daughter was five months old a rash broke out on her face and body. I called in a doctor, who stated that it was eczema, and treated her for it. His treatment, however, did not bring any relief, and the child got worse. I then tried a great many salves and so-called eczema cures, but nothing proved of any benefit. The sores continued to spread, and became one large mass. One day a friend advised me to try Zam-Buk. "At that time the disease had defied all remedies for over a year. By the time I had used one box of Zam-Buk there was a marked improvement. I continued the Zam-Buk treatment and day by day the sores showed signs of improvement. Finally Zam-Buk banished every trace of the disease."

The Best Remedy For All Ages

and proven so by thousands upon thousands of tests the whole world over, is the famous family medicine,—Beecham's Pills. The ailments of the digestive organs to which all are subject,—from which come so many serious sicknesses, are corrected or prevented by

Friends and acquaintances are respectfully invited to assist without further notice.

NOTICE

NOTICE is hereby given that on the 6th day of April next (1915), at ten o'clock in the forenoon, a petition will be presented to one of the Honorable Judges of the Superior Court, sitting in and for the District of Quebec, at the Court House, in the City of Quebec, for Letters of Verification by the heirs of the late Johnston Jeremiah Dunlop, who departed this life at the City of Quebec ab intestate.

Quebec, March 1st, 1915. ARCHIBALD LAURIE, Atty. for Petitioners. Mc.2xlaw.tux4

A CORRECTION

BRADBURY, AGNEW & CO. Ltd. The publishers of the Stock Exchange Year Book desire to say that the statement contained in the 1915 Edition of the Year Book, that the firm of Bradbury, Agnew & Co., Limited, has been dissolved, is incorrect. Bradbury, Agnew & Co., Limited, are the proprietors of "Punch," and there is no foundation whatever for the statement referred to.

London, Eng., January, 1915.

Belvedere Market

The residents of Montcalmville and the surroundings, will no doubt be gratified to learn that a first-class huckster establishment has been established in the ward.

This new market was opened yesterday morning at the former stand of Mr. Edmond Cote, No. 5 St. Foye Road, by Mr. Zepherin Gingras, for many years one of the most popular butchers of Berthelot Market, favorably known for his experience in the meat and pork business.

Beef, lamb, veal, pork and all that this business includes will receive a special attention and everything will be of premier choice. Mr. Gingras will also make a specialty of canned goods, vegetables and fruits, of which there will always be a large assortment received fresh every day.

What will particularly identify this new stand in Belvedere Ward and make it popular, is the fact that it will be kept absolutely clean and there will be strict observation of all laws of hygiene as should be in such an establishment. There will, moreover, be a courteous staff to meet the public and in consideration of all these facts this new store should be widely encouraged by the housekeepers of Montcalmville.

A visit is cordially solicited. Telephone 5257. Mc.2x3

CALL FOR TENDERS

New Tenders for the construction of Waterworks in the Municipality of the Village of Ste. Jeanne de Neuville (Pont Rouge), will be received by the undersigned until 7 o'clock on the evening of the 8th of March. The Council does not bind itself to accept either the lowest or any of the tenders.

ED. HAMEL, Secretary-Treasurer. Mc.2x3

Quebec Curling Club

Medal Shot Competition for Sherbrooke Carnival Cup will be played on TUESDAY, 2nd March, in squads, at 2.15, 4.15 and 8.00 P.M.

S. J. GROGAN, Hon. Secy. Mc.1.2

Victoria Curling Club

MEDAL SHOTS, Club Gold Medal, two rounds only, Tuesday, 2nd March, and Friday, 5th March.

GEO. VANFELSON, Hon. Secretary. Mc.1.2

Y. W. C. A.

The Annual Meeting of the active members will be held in the Association Building, TUESDAY, MARCH 2nd, at 3.30 P.M.

for report of the year's work, and election of Board of Management.

A child with two heads grows up and gets into a museum. A child with one head grows up and gets into Congress. Funny old world, isn't it?—Buffalo Evening News.

AUSTRIAN STATEMENT.

Vienna, via London, Mar. 1.—The following official communication was issued today: "Successful battles have been fought in the western sector of the Carpathian front. Several Russian positions were captured and 19 officers, two thousand men and much war material also were taken.

"In the region south of the Dniester the Russians have been reinforced and stubborn battles are proceeding. All attacks on our positions have been repelled with heavy losses to the enemy.

"In Poland and West Galicia only artillery engagements have occurred."

IN AND ABOUT TOWN

DIED ON THE FIELD OF HONOR

PRIVATE R. T. CARDEW, OF FIRST CONTINGENT, ACCIDENTLY KILLED IN FRANCE

A cablegram received here yesterday, announces the accidental death in France of Richard Thomas Cardew, a member of the Second Battalion of the First Canadian Contingent. Na particulars of the accident were given.

Private Cardew, who was orderly to Lieut.-Colonel Watson, had been in the employ of The Chronicle office where he won the respect and esteem of all connected with the establishment for his cheerful and obliging disposition. Being most attentive to his duties, he was exceedingly well thought of by Colonel Watson, who always found him a most faithful and capable servant.

"Harry," the name he was best known by, was born in Dublin, Ireland, but the greater portion of his early years was passed in London, Eng. He served some time in the Royal Artillery, and on leaving which he came to Quebec, intending to enter civil life, but the military spirit was strong in him, and he joined the R. C.G.A. After completing his service in that well-known corps, he was employed, as stated above, in The Chronicle Office. He subsequently entered the 8th Royal Rifles, being attached to the pioneers of that regiment. When war was declared Col. Watson, at Cardew's request had him transferred to the First Contingent for overseas service, being one of the first men to join in this city. He continued with the contingent up to the hour of his sad death. Although that occurred by accident, it was just as much on the field of honor as if he had been stricken down by a German bullet, for he cheerfully offered his services in the defence of his king and country, like a true soldier.

The late Mr. Cardew leaves a widow, but on children, to mourn her loss, to whom deep sympathy, in which The Chronicle respectfully requests to join, will go forth in her sad bereavement.

The following is the official report of the accident: Ottawa, March 1.—It is officially announced that No. 8646, Private Richard Thomas Cardew, 2nd Battalion, Canadian Expeditionary Force, has been accidentally killed. No particulars are given. Next of kin is, Mrs. Amy Cardew, 12 St. Simon street, Quebec City.

COURT OF SESSIONS. The Court room was crowded yesterday when the investigation into a charge made against four men of stealing wire in Victoria Park was opened, and it was almost impossible to maintain silence. The case was taken under advisement after hearing the evidence.

INTERCOLONIAL RAILWAY. Change of Time, Sunday, March 7th. Commencing Sunday, March 7, the Maritime Express for St. John and Halifax will leave Bonaventure Union Depot, Montreal, at 8.15 a.m. daily, instead of 8.45 a.m., the present time of departure. Arriving at Levis at 2.10 p.m.

RECORDER'S COURT. His Honor the Recorder had three prisoners before him yesterday. One for being drunk and fighting was fined \$10 and costs or one month's jail. Two others, for just ordinary everyday drunks, were fined \$5 and costs or fifteen days each. They all took a drive out to the large mansion near Wolfe's monument. Evidence in a charge against a milkman of watering his milk was heard, and the case taken en delibere.

PRaises for NEW LIEUTENANT GOVERNOR. London "Canada" contains the following:—"The Agent-General for Quebec in London, Col. P. Pelletier, himself an ex-Speaker of the Legislative Assembly, speaking to a representative of Canada, regarding the appointment of Mr. Leblanc as Lieut.-Governor, said:—"From many years of personal intercourse, when he and I sat on opposite sides in the Legislative Assembly, I can say that the honour conferred upon my friend is well merited. Both he and Madame Leblanc are delightful personalities; they have a charming family and will, I am sure, lend dignity to the high position they have been called upon to occupy."

INTERESTING CEREMONY. Last evening in Albion Lodge, No. 2, A. F. & A. M., Rt. Wor. Bro. W. G. Fellows was installed District Deputy Grand Master of the District of Quebec and Three Rivers. The ceremony was performed by R. Wor. Bro. E. J. Evans, the retiring D.D.G.M., in a very capable manner.

The newly installed District Deputy Grand Master who is very popular in Masonic circles, has the unique distinction of being Past Master of the two oldest lodges in Canada, Antiquity No. 1, Montreal, and Albion No. 2, Quebec, and will no doubt, fulfill his functions with credit to himself and honour to the order.

FRENCH COMEDY IS INTENSELY AMUSING

"LA PETITE CHOCOLATIERE" KEEPS AUDIENCE IN ROARS OF LAUGHTER.

Without the least seeming difficulty, the French Company playing at the Auditorium turned from patriotic and serious drama and made their debut here in comedy last night when they presented Paul Gavault's "Petite Chocolatiere."

This delightful comedy in four acts is intensely funny from the opening act to the last drop of the curtain. One amusing situation follows another and the audience kept in roars throughout.

The artists whose versatility was well proved last night, are just as capable in comedy as in serious drama, every one of them starring in their respective roles.

In the male parts Messrs. Roman, Duquesne, Darcy and Girardin were inimitable, while the Misses Verneuil and Bussy were the choice in the female parts.

This delightful comedy will be played again this afternoon and evening, as well as Wednesday evening and at a matinee on Thursday afternoon.

FIRE ON OLIVER STREET. Shortly before eleven o'clock last night, the firemen were summoned by telephone for a fire in a shed in the rear of the residence of Mr. Boivin, St. Oliver street. The blaze did considerable damage to the roof and a chest of carpenter's tools valued at \$150 was also destroyed.

CHANCE FOR BOOTS CHEAP. If you want Boots cheap, read the advertisement of Messrs. William Jacques & Sons. This well-known firm is offering Boots and Shoes, in odd sizes, at half price. As the quality of the goods sold in this establishment is well known to all Quebecers, there is sure to be a rush of purchasers at the cut rates.

We will make to order, any style that we are exhibiting, without extra charge, up to and including size 42. Hurry up, ladies, before it is too late. We must liquidate the whole stock complete. Now is your time to profit by this opportunity to make a most excellent suit by our expert tailors, made to order and defying all competition.

Only the BON-TON can offer you such bargains.

LEGAL INTELLIGENCE. Judgments Rendered and Appeal Inscribed.

Judgments by the Prothonotary: Lavalee vs. Lafleur—Judgment against defendant for \$430.19, interest and costs.

P. T. Legare, Ltee. vs. Greenberg and al—Defendants are condemned jointly and severally to pay plaintiff \$109.67, interest and costs.

Gauvin vs. Gregoire—Judgment in plaintiff's favor for \$107.50, interest and costs.

Eug. Julien & Cie. vs. Dionne—Delibere discharged.

Carrier & Cie vs. Nadeau—Judgment against defendant for \$609, interest and costs.

P. P. Martin & Cie, Ltee. vs. M. J. Armary & Co.—Judgment in plaintiff's favor for \$161 interest and costs.

Fortin vs. Dover—Defendant is condemned to pay plaintiff \$1,460, interest and costs.

Appeal Inscribed. In the case of Belanger vs. Bureau, the defendant has inscribed his case before the Court of Review from the judgment rendered against him on the fifteenth day of February last. The necessary deposit has been made by the inscribing party.

AN ERROR CONCERNING THE CLOSING OF THE LINDSAY STORE. In an advertisement which appeared in several papers on Saturday it was stated that our store would remain open every evening until nine o'clock. This is erroneous. Our establishment is closed every evening at seven o'clock, except on Saturdays, when we close at 10 p.m.

C. W. LINDSAY, LTD., Dealer in Pianos, Organs, and Victrola Gramophones. 204 St. John Street, Quebec.

BODIES PICKED UP. Paris, Feb. 28.—4.30 p. m.—A despatch to the Liberte from Morlaix, in the Department of Finisterre, on the English channel says that a ship's boat bearing the name "Liverpool" and containing two dead negro seamen, was picked up today in the Bay of Locquidec, a well-known bathing resort.

From the appearance of the bodies, it is believed the men died from exposure or starvation. The correspondents says it is inferred that the Liverpool either struck a mine or was torpedoed.

Do not suffer another day with PILES. Dr. Chase's Ointment will relieve you at once and as certainly as you can get it. It is sold by all druggists, or sent you on receipt of 50 cents. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

MORE TAXATION BY GOUIN GOVERNMENT

OPPOSITION ROUNDLY DENOUNCES HYPOCRITICAL TACTICS OF THE QUEBEC LIBERALS.

The double-dealing tactics of the Gouin Government who are still blustering on platform and in the press that they do not tax and do not borrow were roundly denounced in the Legislative Assembly yesterday at both afternoon and evening sittings, when Hon. Mr. Mitchell's bill to impose a tax of four dollars a year on automatic slot machines was under discussion.

\$30,000 More Revenue. The Treasurer admitted that the tax would net a revenue of between \$20,000 and \$30,000.

At the evening sitting Mr. P. Cousineau, Leader of the Opposition, proposed a six month's hoist but the Government with characteristic shamelessness invoked the force of their brute majority and railroaded the measure through on a division 33 to 10.

When the resolutions were taken up yesterday afternoon Mr. Cousineau asked the Government if this tax would apply to fare boxes on street cars, as passengers had to place 5 cents in the box to make the cars run.

Gumdrop Taxers. Mr. A. Sauve, Conservative member for Two Mountains, said that although the Government would not admit that they needed more revenue, still they were imposing another tax. He referred to them as "Gumdrop Taxers," and asked if they intended to extend the assessment to alms boxes in churches.

"It would seem," continued Mr. Sauve, "that the Government called this session expressly to impose new taxes and authorize new loans. These same men who in other times denounced the Hon. Taillon are now levying tax upon tax on the people of this province."

Hon. Mr. Mitchell explained that the object of the tax was to control the automatic machines and he incidentally referred to the large expenditures that the Government had made in view of the war.

Mr. Sylvestre—"Have there been any abuses?" Mr. Mitchell—"The Children spend too much money at these machines."

Mr. Sylvestre—"Is it claimed that the object of this tax is to make up for the unprecedented expenditures of the war. The Treasurer told us in his budget speech that there is a surplus this year and that there will be another next year. Why then impose new taxes?"

Mr. Lavergne—"In private houses there are gas meters which operate automatically by the insertion of 25 cents. Are these to be taxed also?"

Mr. Mitchell—"They are not at the disposition of the general public."

Legend of Falsehood. Mr. J. M. Teller, the former Leader of the Opposition, said that it was the same old legend of falsehood which the Liberal party was misleading the public. While they had accumulated tax upon tax, there were still vaunting through the voices of their official organs that they had neither contracted new loans nor created new taxes and that they would not do so.

The time had come, he continued, for the Government to unmask and face the situation honestly. If new resources were required they should admit it frankly and cease misleading public opinion.

Punch Boards. The question of punch boards was brought up by Mr. Cousineau who asked if they were affected by the law.

Mr. Mitchell replied that the law would not affect them as they were purely a gambling device and would in all likelihood be abolished by the Criminal Court. If, however, it were proved that they were not against the Criminal Law they would also be taxed.

Mr. Sauve asked if the Treasurer intended to tax those who chewed gum.

The Assembly adjourned after ten o'clock until 11 o'clock this morning.

Atrocities in Canada. Canadians will be interested in an article in the Cologne Gazette recently from an American correspondent, in which he describes the experience of a German-American writer, who has spent the greater part of his life in the States and is a man of education. In his opinion the position of the German-American in Canada is even worse than in the States. "One is horrified to learn that a Canadian mob has slaughtered Germans on the street for no other reason than that they were Germans. In Toronto the police pay daily domiciliary visits to houses of German-Canadians, and their malls are all opened. German newspapers, especially the New York Staats Zeitung, are prohibited, and any person found with a copy is liable to a penalty of five years' penal servitude. These enormities are not printed in the United States, but the correspondent of the Cologne Gazette knows all about them from other sources."

PEEVISH, CONSTIPATED CHILDREN LOVE "CALIFORNIA SYRUP OF FIGS"

HARMLESS "FRUIT LAXATIVE" CLEANSSES STOMACH, LIVER AND BOWELS

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once. When peevish, cross, listless, pale, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad has stomach ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs" and in just a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels and you have a well, playful child again.

You needn't coax sick children to take this harmless fruit laxative; they love its delicious taste and it always makes them feel splendid. Ask your druggist for a 50 cent bottle of "California Syrup of Figs" which has directions for babies, children of all ages, and for grown-up plainly on each bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

Staton, who underwent an operation in the Jeffery Hale's Hospital, will be glad to learn that he is rapidly improving in health.

Mr. J. M. Teller, former leader of the Opposition in the Quebec Legislature, returned to the city from Joliette yesterday and is a guest at the Chateau.

Mr. Thomas Chapais is leaving shortly for Ottawa where he will spend a few days the guests of the Speaker of the Senate and Mrs. Landry.

Among the Quebecers who spent the weekend at Montreal hotels were—Mrs. J. F. Lemieux, Mrs. R. S. Smith, Captain Victor Pelletier, A.D.C., Messrs. John Chaffers, G. Ogil

# Frontenac Week

## COMMENCING MONDAY MARCH 1st New Name for FRONTENAC CHRISTMAS BOCK

**The choice has been made.** After weeks of hard work spent in selecting a name that would fit this delightful beer, a name has been chosen for FRONTENAC CHRISTMAS BOCK. This name will be announced during the week commencing March 1st. Immediately following the announcement we will tell you more about the beer itself and also give you the story in detail that led up to the choice of the new name. It is intensely interesting, and will appeal to you as a patriotic Canadian.

The week commencing Monday, March 1st, is FRONTENAC WEEK. The beer under its new name will not be on sale for some days yet. But you can get FRONTENAC CHRISTMAS BOCK—the same beer—at all dealers. Try it—ask your friends to try it. Realize that it is a new Canadian beer different to any that ever was sold in Canada before. It is a strong, dark, clear brown beer of an agreeable, satisfying taste. It has wonderful recuperative properties and is an ideal drink for all kinds of Canadian weather. Make it YOUR drink during FRONTENAC WEEK.

**FRONTENAC BREWERIES LIMITED, MONTREAL**

#### QUEBEC WILL TRY TO OUST OTTAWA FROM N.H.A. RACE

IF QUEBEC BEATS OTTAWA THE WANDERERS WILL BE CHAMPIONS.

Quebec winds up its season in Ottawa tomorrow night, when the Bulldogs will make a desperate effort to take one game, at least, from Ottawa before the season closes.

The victory does not mean much to the locals, but to Ottawa a chance for the championship of the N.H.A. is the reward for winning, and there that Ottawa and Wanderers will both Senators will make a tremendous effort to down Quebec.

Quebec has been playing brilliant hockey of late and but for their unfortunate defeat by Shamrocks, might have had a chance to figure in the running.

Should Quebec win and Wanderers down the Toronto in Montreal, the Red Bands will be hailed as champions. Should Ottawa win and the Wanderers lose, the Senators will have the title. Both home teams are favorites nevertheless, and it is likely that Ottawa and Wanderers will both win and fight it out for the Stanley and O'Brien Cups.

Quebec will play the game of their lives to win out, not only because they wish to return the favor Wanderers conferred on them a few years ago by beating Ottawa, but because the players realize that the Ottawa Press has been unjust to them and all are anxious to show the Ottawa public that they can play hockey.

That Ottawa is now a leader in the N. H. A. is due to Quebec's three victories over Wanderers, and as the locals are responsible in a great measure for Ottawa's present exalted position, they feel that they also will be responsible for their downfall.

The sympathies of most Quebecers are with Wanderers, who have generally accepted their defeats and passed through many a grueling game in Quebec without carrying home all sorts of misleading stories about the treatment received there, which was always the best to all teams.

Besides the disgrace of four defeats from the Ottawas would be a cruel blow.

Therefore, Quebec must defeat Ottawa tomorrow, because the team must win at least one game from Ottawa before the season ends. Secondly, because a win will give Wanderers the championship, and thirdly, because it will prove to all that though the team finished third it has at present no equal in the N. H. A.

#### Good Word For All

The Archbishop of York, in his early days, did a great deal of work among the uneducated classes, and on one occasion a very illiterate woman was a god-mother to a child at a christening. In the course of the ceremony she was asked, in the usual way, if she renounced the devil and all his works, etc.

"Oh, yes, sir," she replied, briskly, "I recommend them all."

#### Y.M.C.A. PLAY LAURENTIDES AT ARENA TONIGHT

FAST GAME EXPECTED WHICH MAY HAVE BEARING ON CHAMPIONSHIP.

A good sheet of ice is promised for the city league game at the Arena tonight between Laurentides and Y.M.C.A. and one of the fastest games of the season should result.

Y.M.C.A. have shown that they are a factor to be reckoned by defeating the strong Crescent team on the Quebec Rink and playing the same effective game which they put up that night, the Laurentides will have to play at top speed to win out.

Carey is putting up the game of his life this season and those who saw the speedy center man of the Y.M.C.A. play against Crescents could scarcely believe that a man could nurse the puck along the ice with such dexterity as he did.

The Laurentides have not announced their line up but it is probable that the same team which defeated the Emmets will go into action in the first period.

The league leaders are a formidable aggregation and playing their usual combination game they are a hard nut to crack. The game will be refereed by Mr. Chs. McNamara with Dr. Hamel as Judge of play and with two such competent men in charge the spectators can be assured of a well handled game.

#### VICTORIAS ARE O. H. A. CHAMPIONS.

Toronto, March 1.—A tie of 2 to 2, in the final game played tonight between the Victorias and St. Michaels, making the total on the round 4 to 3, gave the former the championship of the O. H. A., and the John Ross Robertson trophy. The Irishmen showed great stamina and put up a great fight from start to finish. The weakness of the team was the absence of a good goal getter. They did some great shooting in the last period, but it was too late. Poor marksmanship spoiled their chances in the first and second periods. The game showed the weakness of both net guardians. In shooting the Victorias again demonstrated their superiority, and it was the great work of their defense and the assistance they were given by the forward line which clinched their victory.

#### RUSSIAN SUCCESS IN THE CAUCASUS

Petrograd, Feb. 28.—Russian successes are reported in an official communication from the General Staff of the army in the Caucasus. The statement says: "On Feb. 26 on a line from Trans-Choruk our troops progressed with success, dislodging the Turkish forces from their positions. "In the passes south of Alachekerte our troops in an engagement seized two Turkish artillery pieces."

### Sporting Notes

Carey, Shink and Ramsay form a good trio of forwards for Y.M.C.A. and Turgeon, Roy and Simard will have to play good hockey to hold them down tonight.

There was no electric light at the Victoria Hotel last night but that did not deter the baseball moguls from holding a meeting to discuss plans for the future.

The league intends to introduce a lot of reforms this summer and they certainly need to as the players or some of them at least reaped harvests while the clubs showed deficits.

Sons of Ireland and St. Lawrence will play off the game which was postponed last Saturday due to lack of light, on Friday night. Much interest has been aroused in this game and a big crowd is sure to be on hand to watch the two champion junior clubs fight it out.

St. Patrick's and Emmets will play at the Arena tomorrow night. St. Patrick's is the only team besides Laurentides to beat Emmets.

Jimmy Van Dolson of the Victorias trusty ball players is trying to figure out how long it will take the snow to remove itself from the baseball diamond. Jimmy is not used to Quebec. Cheer up Van, we have snowstorms in May once in a while.

Prodgers is a lucky player and with him on their line-up it looks as if Wanderers will win the championship. Goldie played with Quebec in 1912 when Quebec landed the championship and when he jumped to the coast the Victorias on which he played also won the championship of the Coast League. Now it looks as if Goldie was to again figure on the line-up of a champion team.

The showing of the Canadiens has been the real feature of the past N. H. A. season. The Frenchmen were picked by all experts as possible champions and their reversal of form was startling. With Vezina, Dubeau, Laviolette, Pitre, Lalonde and Donald Smith the Montreal team certainly looked strong but their stars failed to shine and the Canadiens will have to beat Shamrocks in Toronto to keep out of the cellar.

The race in the local city league has not been decided yet and there may be some upsets before the season closes.

The Montreal Gazette prints the following story from Toronto which shows that Ottawa is a pleasant town to play hockey in.

Toronto, Feb. 28.—The Shamrocks feel as if they were robbed of the game in Ottawa Saturday, and although they are not going to protest, think that their protest would go through if sent in. One of the reasons for dispute is Ottawa's second goal that tied the score. The Shamrocks claim that just as Broadbent shot, a spectator threw a rubber ball at Lesueur, and the goalkeeper, thinking it was the puck, knocked it aside. In the meantime Broadbent's shot had caromed out to Ross, who batted it in before Lesueur was aware that he had been fooled. Judge of Play Butterworth picked up the ball and put it in his pocket, but refused to disallow the goal, although the Shamrocks objected strenuously.

Popular Pastime No. 43.—Refusing treats during lent.

### BASEBALL LEAGUE WAS IN SESSION

PROSPECTS FOR COMING SEASON WERE DISCUSSED BUT NOTHING IMPORTANT DONE.

The local Baseball league met at the Victoria Hotel last night in a candle light session but no business of importance was consummated. The magnates occupied most of the time discussing plans for the future and appointed the secretary Mr. Romeo Lepine to meet the Opposition people in order that some definite proposition might be submitted to the league officials for consideration at the next meeting to be held March 10th.

Mr. John Brunneau, acting President, occupied the chair and the following delegates were present. Mr. T. J. Byrne, St. Patrick's, P. Drouin and L. St. Pierre, Laval, F. V. Giguere, Napoléons, and Mr. Geo. Belanger, Victorias. The C. B's were not represented but it is expected that a club from St. Sauveur will apply for admission in case the Cow-boys withdraw.

The Emmets through their delegates Frank McLaughlin and John Carbray made verbal application for admittance but the League promised to deal with this and other requests for franchises at another meeting.

Much enthusiasm was evidenced by all present and the outlook for the coming season looks very encouraging.

#### Its Drawbacks.

They tell in London of an auctioneer who in addition to a fine personal appearance and splendid elocutionary talents possessed considerable culture and knowledge of human nature.

At a book sale this gentleman would read with exquisite taste passages from the books he was selling, with brief biographies and criticisms of their authors, reciting hexameters from Greek and Roman classics and rendering passages from humorous writers with a tone and air so ludicrous as to set the room in a roar of laughter. Thus he often won higher prices for books than those going at the shops.

An amusing example of his cleverness in extolling an estate is the language with which he once closed a highly-colored description of the property he was selling. For a few moments he paused and then said: "And now, gentlemen, having given a truthful description of this magnificent estate and/or compels me to admit that it has two drawbacks, the litter of these rose leaves and the noise of the nightingales."

The war has been a good thing for the American automobile industry, at any rate. It is reported that more than \$50,000,000 worth of motor vehicles have been shipped to or contracted for by the Allies, all from American producers.

#### THE LIGHTER SIDE.

"Somewhere a voice is calling," sang the pretty girl at the piano. The voice came from the upper floor: "It's time for that young man to be at home."

The moon was full last night. What a horrible example during this penitential season.

"I am twenty-one today," proudly announced the dark-eyed maiden. Ten years hence she will conveniently forget she has a birthday at all.

Fine feathers make fine birds, ordinarily. These nights, however, all plumage looks alike. It only casts a grotesque shadow.

Hon. Mr. Mitchell is taxing automatic machines. This will doubtless include the members of the Legislature who vote automatically when the Premier presses the button.

Tipperary has only about 6,000 population, and good reporter's work ought to identify the girl the song immortalizes among so few.

One gains some idea of the scope of the European war when an army expert refers to what happened last August as "the Belgian incident."

The submarine David is inspiring terror in the Goliaths of the seas.

"Jack" Johnson expects to fight in Havana, which we wish to point out is the place where many of the Big Smokes come from.

By and by, we'll get as accustomed to extra taxes as an eel to being skinned.

Mother: Remember, I've told you, if you do that again I shall whip you, and I always keep my promises.

Little Jack: Huh! I've heard you tell Dad a lot of times that you'd never speak to him again.

When Prohibition sweeps the land Then what will Nature do, To ends that she may yet preserve Her color scheme so true! I wonder what she will devise When "lids" are tightly laced— What substitute for noses red And eke the dark brown taste?

Customer: Are you quite sure these cakes are sanitary?

Bakery Man: We take every precaution, ma'am. We don't even allow the lady fingers to touch 'em.

Maud: Haven't you and Jack been engaged long enough to get married?

Maria: Too long. He hasn't got a cent left.

RAISE IN PRICE OF BEER IN AUSTRIA

INCREASE RECEIVED WITH PROTESTS—MUCH SUFFERING IN TRENT.

Venice, March 1.—Via London, March 2.—1.17 a.m.—Beginning today the price of beer throughout Austria was raised two heller (2-5ths of a cent) per glass. The increase, it is reported here, was received everywhere with protests.

Advices received from the province of Trent are to the effect that there is much suffering there owing to a scarcity of food, and that considerable sickness has resulted from the eating of war bread. It was added that the distress of the poor had been greatly aggravated by the terrific snowstorms in the province. The snow in many places is said to be seven feet deep.

sault, Fiset Galibois, Garant, Gauvin, Lavigne, Lockwell, Martin, Paquet, Paquet (St. Sauveur), Plamondon, Roy, Walling (18). 1.—Whoever keeps in the City of Quebec a store of dry goods, or furs, or clothing and clothes or merchant (tailor, or hatter, hosiery or mercery, or house furnishings, or furnishings, and a store wherein are sold pianos, musical instruments and sheet music must close such store at the latest at seven o'clock in the evening and keep it closed until five o'clock in the morning of the following day on each and every day of the week, except on Saturdays, on the eve of religious festivals and from the 15th to the 31st of December inclusively.

URGE STRIKERS TO RETURN TO WORK

STRONG INDICATIONS THAT MEN WILL RETURN TO THEIR POSTS.

London, Mar. 1.—11.10 p.m.—The executive committee of the Amalgamated Society of Engineers, the striking members of which were ordered by the government to return to work today, after a meeting held tonight at Glasgow, issued a statement stating: "Six meetings were held in the affected area today and there are strong indications of an early resumption of work."

The committee urged the men to return to their places of employment but, according to the Central News, the meetings were failures. The Central News says that all meetings broke up after disorderly scenes and the men were left to decide for themselves what their future action shall be.

CUT GERMAN LINE.

London, March 2.—3.59 a.m.—"A Russian cavalry movement succeeded in cutting the German East Prussian army in two last Friday at the village of Krasnosielo," says The Daily News Petrograd correspondent. "The Germans are now divided into two parts, with a considerable gap between them."

WAR OFFICE ACCEPTS TORONTO VARSITY'S OFFER

Toronto, March 1.—The War Office has accepted the offer of the medical faculty of Toronto University to furnish and equip a hospital of 1,040 beds. President Falconer, Dean Clarke, and Lieut.-Cols. J. T. Fotheringham and J. A. Roberts were tonight appointed a committee to complete the plans. Miss Gunn, secretary of the Canadian Association of Trained Nurses, left for Ottawa tonight to make arrangements for the nurses who will accompany the hospital. The hospital will require a staff of four hundred doctors and eighty four nurses.

GERMANS AS STRONG ON ALLIES' FRONT AS IN JANUARY

FRESH TROOPS WERE USED TO REINFORCE VON HINDENBURG'S ARMY IN EAST.

Paris, Mar. 1.—"It is untrue that the Germans have fewer men on the Allies' front now than they had in January," says an official note which was issued today, dealing with the distribution of German forces on the French and Russian fronts. "Only one German army corps was taken from the Allies' front and this was replaced later by other formations. It is true that Field Marshal Von Hindenburg's offensive was carried out with strong reinforcements, but these were made up of new formations and those taken from sections along the eastern front."

"The German army fought the battle of the Mazurian Lakes with reinforcements of six army corps. The total number of German corps on the eastern front is thirty, to which should be added Austrian forces numbering twenty two."

RUSSIAN DETAINED IN TORONTO JAIL.

Toronto, Mar. 1.—A severe censure on Police Court methods and the management of the Toronto jail by the City Council came from Chief Justice Sir Wm. Mulock when reviewing the presentment of the grand jury in the Criminal Assize Court today. His Lordship's remarks on the Police Court were evoked in connection with the charge of treason which was preferred against J. J. Rowens. "A loyal citizen of this country," he said, "a man who was desirous of joining the Russian forces, has been cast into a Canadian jail and kept there for four months because of the mismanagement of the case in a lower court."

FIRE AT COCHRANE.

Cochrane, Ont., Mar. 1.—Fire, supposed to have started from overheated stovepipes, completely destroyed the Royal Hotel, here last night. The loss is estimated at \$10,000 partly covered by insurance. The building which was one of the few to escape destruction in the great fire of July 11, 1911, has been unoccupied for some time.

CASUALTIES IN BRITISH SHIPPING

BOARD OF TRADE REPORTS 33 STEAMERS AND 97 LIVES LOST DURING FEBRUARY.

London, Mar. 1.—10.55 p.m.—The Board of Trade summary of shipping casualties reported during February shows that the ordinary risks of navigation were responsible for a considerably larger number of British ships than were victims of German torpedoes, mines or guns. During the month of February the total number of steamers lost was 33 of an aggregate net tonnage of 34,947, with 97 lives, of which nine steamers, aggregating 12,389 tons were sunk by German submarines, with the loss of six lives, and one of 2,605 tons sunk by a German mine.

TURKS ARREST ITALIAN.

Rome, via London, March 2.—3.13 a.m.—The agent of an Italian maritime company, who disembarked at Jeddah, Arabia, to deliver correspondence to the Italian consul, was arrested by the Turkish authorities who seized the correspondence. The Italian government has sent a demand for satisfaction to Constantinople.

RUSSIANS TO RESUME OFFENSIVE.

London, March 2.—3.17 a.m.—Telegraphing from Bucharest the Daily Mail's correspondent, says: "The Russians are preparing to resume the offensive in the fighting around Czernowitz. They already have forced the Austrians to withdraw from the town. Fresh Russian artillery is arriving at Potosielica, on the extreme northern Rumanian frontier."

MEXICAN GUNBOAT IS BLOWN UP

Washington, Mar. 1.—Private advices received here from headquarters of the Ward Line in New York report the blowing up of the Mexican gunboat Progresso, in Progresso Harbor yesterday, with the loss of ten of her crew. One hundred and twenty seven survivors are being taken from Progresso to Vera Cruz on the Ward Liner Morro Castle.

COTTON PRICES.

Washington, Mar. 1.—Ambassador Gerard, at Berlin notified the Department of Commerce today that cotton prices at Hamburg on Feb. 23 were 17 1/3 cents a pound for good middling. The Bremen weekly average was 17 1/6 cents a pound. "The loss by exchange now amounts to fifteen per cent of this price," the Ambassador added.

It is said that a camera small enough to be swallowed has been invented by a Danish surgeon to photograph the interior of the stomach.

MOON PHASES:

Full Moon, Monday March 1st, at 1:33 p.m. Last Quarter, Monday, March 8th, at 7:28 a.m.

CHARCOAL BURNING.

Wood Now Destroyed Might Be Profitably Converted Into Charcoal.

In land clearing work, use may be made of wood taken there from for the production of charcoal. Canada has a constantly growing market for charcoal, and with good prices for the supply, it is advised to increase the production.

CORPORATION OF QUEBEC.

TENDERS FOR SUPPLIES

CITY HALL Quebec, Feb. 20th 1915.

PUBLIC NOTICE

sealed tenders, endorsed "Tenders for Broken Stone, etc." and addressed to the undersigned, will be received up to Wednesday, the 3rd of March, at 4 p.m., for supplying the materials and doing the following works for the next fiscal year from 1st of May, 1915, to 1st of May, 1916, to wit:

Broken stone, broken stone special, retaining walls, sand deals, nails, etc. Deposit \$100.00 for each tender.

Should this occur, the space should be at once filled in with rough logs and again covered with sod.

The time required for burning varies from seven to nine days, according to weather conditions, dry and mild weather requiring the longer period.

PRESS COMMENT.

On first thought copper might not seem to be such an extremely important item to Germany in carrying on the war. But if the British navy can hold up the copper supply to the enemy it will at least very seriously embarrass the German military machine.

The firing of 1,500 shells into the city of Rheims alone. The steady bombardment, day after day for months at a time, all along the contested battle front, is bound to make a serious drain upon the copper supply of the country.

Castings for guns are made of either steel or bronze, and copper is the chief component part in bronze castings. Even in the engine rooms or elsewhere on a warship hardly any cast iron is used. Valves, ordinarily made of cast iron on the most powerful ocean liners, are invariably cast bronze on a warship.

RESCUED GERMAN

AVIATORS SPEAK.

London, March 1, 3.40 a.m.—The correspondent at Lowestoft, of the Daily Mail sends a statement made by the two German aviators who were found clinging to their machine in the North Sea and brought into Lowestoft Saturday.

VANCOUVER HOCKEY

TEAM WON FINAL.

Vancouver, B.C., Feb. 28.—The Vancouver hockey team, Pacific Coast League champions, playing on home ice won the final game of the P.C.H.A. series.

USE COCOANUT OIL

FOR WASHING HAIR

If you want to keep your hair in good condition, the less soap you use the better. Most soaps and prepared shampoos contain too much alkali.

HERE IS PROOF THAT RESINOL STOPS ITCHING

The best evidence of what the Resinol treatment will do for YOUR tortured skin is what it has done for others. Here is a man whose WHOLE BODY was covered with tormenting eczema.

"My entire body, even my eyelids, was completely covered with blisters. The burning and itching were something terrible, and I COULD NOT SLEEP nor rest. I think I had one of the worst cases of eczema a human being ever had."

Quebec Skating Club

The Rink will be open to subscribers TUESDAY EVENING, DECEMBER 15TH, AT 8.00 O'CLOCK. Tickets can be procured at the Secretary's office, the Rink, commencing Monday, from 4 to 6 o'clock p.m.

**COMMERCIAL NEWS**

**NEW YORK MARKET.**  
(Canadian Press.)  
New York, March 1.—Considerable firmness was shown by today's stock market, despite the injection of new and unfavorable developments here and abroad. Trading lost none of its professional character and prices showed little change until late in the session when the cables told of England's decision to declare an absolute embargo on all shipments to and from Germany. Anticipation of this move was seen in the markets for foreign exchange, all of which were again unsatisfactory, with acute weakness in remittances to Germany, France, Italy and Switzerland. There was also increased selling of American bonds for future delivery, most of which was traceable to German sources. These offerings, however, made no impression on quoted values. The most unfavorable feature so far as domestic conditions were concerned was found in the statement of January earnings submitted by the Pennsylvania railroads. On its lines east of Pittsburgh a net decrease of \$277,000 was shown, while west of Pittsburgh the loss amounted to \$780,000. These figures were accepted as an index of conditions in the steel industry. The Illinois Central road, by pruning its expense account, made a substantial net increase. Industrials were more active than railway shares, and specialties again absorbed a large share of attention, with gains of 1 to 2 points in the speculative issues. Coppers made further favorable response to the recent advance in the metal and reports of large sales. The day's new minimum included Louisville and Nashville, which declined two points to 110, American Locomotive preferred 73 to 78, and American Express 7 to 83. For the first time in several weeks, advices from the middle west indicate a lull in activity, railway tonnage being lighter and movements of general merchandise showing a slight decrease. Money rates in that section as well as locally showed a further tendency to relax. Two small imports of American gold were received from London, the metal having been acquired, according to reports, at the low rates of the past fortnight. Dealings in bonds were on a larger scale, with fair maintenance of the price level. Total sales, par value, were \$2,242,000. United States were unchanged on call.

**CLOSING MARKET LETTERS.**  
By private wire to Breen & Gourdeau, Stock Brokers, 63 St. Peter Street and 6 Sault-au-Matelo. Phone 185.  
Chicago, March 1 — Wheat showed steady undertone at decline. Commission house and country selling was gradually taken. No definite advices concerning export demand were received, but there were expectations of business at the decline. New crop positions are favorable. There have been beneficial rains and Oklahoma condition has been raised to 84 compared with 96 a year ago. Wheat broke 1 to 2 cents on further liquidation, owing to further disturbing reports regarding an early opening of the Dardanelles; also the embargo on all foodstuffs to Germany. Stop loss orders in wheat were caught in considerable quantity. Export bids are in the market, however, for quite large amounts for continental governments and there are good export bids from English markets.  
Corn was weak with wheat and on Argentine advices. An official Argentine report estimates the crop in that country at 336,000,000 bushels and the exportable surplus at 204,000,000 bushels. Last year's crop record was 324,000,000 bushels.  
Oats were unsettled with other markets.  
Grain quotations today were as follows:  
Wheat: Open. High. Low. Close.  
May... 151 151 146 147 1/2 bid  
July... 122 122 117 118 1/2 asked  
Corn:  
May... 73 1/2 73 1/2 71 1/2 71 1/2  
July... 75 1/2 75 1/2 73 1/2 73 1/2 bid  
Oats:  
May... 56 1/2 56 1/2 54 1/2 54 1/2 bid  
July... 53 1/2 53 1/2 51 1/2 51 1/2

**Winnipeg — Close:** May wheat, 150 1/2; July, 149 1/2; May oats, 64 1/2 bid; July oats, 64 1/2 bid.  
**CLOSING LETTER.**  
By private wire to Bruneau & Dupuis, Stock Brokers, 11-13-15 Sault-au-Matelo Street. Phone 1596. A. A. Gingras, Manager.  
There is little of importance or interest in the market today and the trading has been rather narrow. Nevertheless the tone has been steady which is decidedly satisfactory. As the incident of the day, the announcement of its new policy by the British Government is not particularly reassuring.  
An attempted complete embargo of shipments to and from Germany may raise many difficult international questions and of course our foreign commerce is now of great importance to this country in view of the dullness in domestic trade.  
Everyone feels, however, that such questions are going to be met in a steady manner and in a fair spirit by both this government and the various warring nations of Europe, so that there is no real apprehension on the subject and the market continues its even tenor.  
What everyone is really praying for is convincing signs of a revival in our domestic business and when these begin to show up satisfactorily there will be a real basis for an advance in the market.  
Sales, 157,507; bonds, \$2,226,000.

**COTTON MARKETS.**  
New York, March 1 — Cotton futures closed steady. Closing bids: — May, 8.15; March, 8.38; July, 8.61; Oct., 8.91; Dec., 9.09. Spot closed quiet. Middling uplands, 8.25c. Sales, 300 bales.  
Liverpool — Cotton, spot, moderate demand. Prices steady. American middling, fair, 5.85d; good middling, 5.27d; middling, 4.95d; low middling, 4.56d; good ordinary, 4.25d; ordinary, 3.95d. The sales of the day were 7,000 bales, of which 1,000 were for speculation and export, and included 6-100 American. Receipts were 31,700 bales, including 30,000 American. Futures closed steady.

## QUEBECER MAKES GOOD SUGGESTION

NOW TIME TO CONSIDER THE PLACING OF WIRES UNDERGROUND, HE SAYS.

Quebec, March 1, 1915.

To Editor of The Chronicle.

Dear Sir,—A propos of the recent storm, and the terrible havoc wrought by the verglas upon the telephone, tramways and electric light wires and poles, and the subsequent injury and inconvenience caused to the whole population (to say nothing of the narrow escapes from death), it would seem a favorable time to consider whether some permanent improvement is not possible in the system of placing the telephone and electric light wires.

The rock formation under Quebec, of course, makes "underground wiring" most expensive, but surely a beginning might be made, and as such, I would suggest that the most exposed situations of the city, viz: the whole length of Rampart street, Montmorency Park, Dufferin Terrace and the Glacis, right up to the Citadel might be treated in some such manner; certainly there should be no trouble in arranging with the City for carrying the wires beneath the Terrace from end to end, nor with the Government for the approach from the South end of the Terrace to the Citadel.

Any one who has walked over this ground since the storm knows that the saving in money to the companies, in convenience to their patrons, and in the risk of sudden death or grievous injury to inoffensive men, women and children, would be very real.

Yours, etc.,

SAFETY-FIRST.

HEALTH OFFICE.

The Meeting of Milkmen Postponed Until Tuesday Evening.

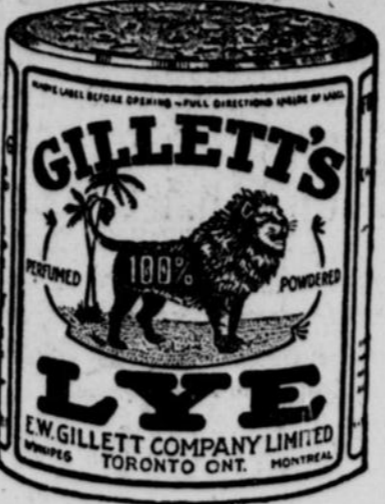

On account of the storm and the absence of light this meeting has been postponed until Tuesday, the 2nd of March, at 8 p.m.

All who are interested in milk business are particularly invited to attend. We trust that all the employees of milkmen will consider it a duty to follow their employers to the City Hall on Tuesday evening.

It must not be forgotten that apart from the illustrations to explain the milk industry there will also be moving pictures for the amusement and entertainment of all who attend.

DR. C. R. PAQUIN, City Physician.

## GILLETT'S LYE EATS DIRT

## BECKER'S COUNSEL GIVES 20 REASONS IN BRIEF OF APPEAL

SAYS STRONGEST MOTIVE EXISTED FOR ROSE TO GET RID OF ROSENTHAL.

New York, March 2.—Twenty reasons are set forth in Charles Becker's appeal to the Court of Appeals from his second conviction on the charge that he procured the murder of Herman Rosenthal.

Twenty Points Raised. The twenty points raised in the brief are as follows:

1. Defendant's guilt was not established beyond a reasonable doubt, but the verdict is against the overwhelming weight of the evidence, and is thus contrary to law.
2. The prosecution having failed to establish defendant's guilt beyond a reasonable doubt, the verdict of guilty, being hopelessly against the weight of the evidence, is contrary to law and cannot stand.
3. The conviction was had upon testimony of accomplices without corroboration by any other evidence tending to connect defendant with the commission of the crime, and is thus contrary to law.
4. The staging of this second trial in an atmosphere designed to be hostile to defendant was highly prejudicial to his rights, deprived him of a fair trial and was a flagrant violation of the directions of this court that defendant should have a scrupulously and impartial trial.
5. The admission of the alleged statement of Dago Frank in the hearing of William Shapiro, just before the murder, in defendant's absence, was highly prejudicial and constitutes reversible error.
6. The admission of the alleged conversations between Rose and Rosenthal, in the absence of defendant, was reversible error.
7. The admission of alleged conversations between Rose and Zelig, in the absence of defendant, was reversible error.
8. The admission of alleged conversations between Rose and the gunmen, in the absence of defendant, was reversible error.

Protest Ruling on Rose Testimony.

9. The ruling of the court on the cross-examination of Rose, in declining to strike out answers not responsive to the questions and in excluding evidence which would establish that Rose changed his testimony on this trial about alleged conversations over the telephone in order to overcome the criticisms of this court on the former appeal were erroneous and highly prejudicial to the defendant.
10. The admission of self-serving declarations of Weber to the District Attorney in defendant's absence and after the murder, was reversible error.
11. The admission of the testimony of Lefty Louie's widow of an alleged conversation which she claims to have overheard between Rose and Lefty Louie, in defendant's absence, was highly prejudicial and constitutes reversible error.
12. The admission of the testimony of Lefty Louie's widow of alleged occurrences in her Seventh Avenue apartment on the evening after the murder, in defendant's absence, respecting a division of money among the gunmen, was highly prejudicial and constitutes reversible error.
13. The admission of anonymous complaints received at Police Headquarters charging defendant with protecting Rosenthal's gambling house, and receiving money for such protection, was highly prejudicial and constitutes reversible error.
14. The admission of conversations between the Police Commissioner and the Captain (Day) of the West Forty-seventh Street Precinct, in defendant's absence, respecting the stationing and continuance of a patrolman in Rosenthal's place after the raid, was reversible error.
15. The exclusion of the dying statement of Dago Frank to Father Cashin, Thomas F. McInerney of his mother and sister, all present with him immediately after his electrocution had nothing to do with the murder, was highly prejudicial and constitutes reversible error.
16. The exclusion of the jury from the court room over defendant's objection during defendant's offer of proof of the Dago Frank confession and its admissibility was reversible error.
17. The exclusion of testimony from the auditor of disbursements of the District Attorney's office which would have established that Moe Cohen, a material witness whom the

## Correspondence

PRaise FOR FOUNTAIN IN PLACE D'ARMES. Quebec, 27th Feb., 1915.

To the Editor of the Chronicle, Quebec.

Dear Sir,—I hear that there is a movement to erect a religious monument in the Place d'Armes or "Ring," in place of the fountain which has been there so long.

I would like to utter a strong protest, not against the erection of the monument—though it is a question whether we have not already too many monuments—but against the proposed location, which would mean the destruction of one of the prettiest and most famous spots in the city. The Ring, as it now is in summer, with the fountain and pool surrounded by trees, forms an ideal beauty spot which has been the admiration of thousands of visitors; in fact, quite recently the Canadian Courier published a photograph of it as being one of the prettiest views amongst Canadian cities.

The erection of a monument in this place would mean a repetition of the Phillips Square scandal in Montreal. There, after a handsome national monument to King Edward had been erected, it was found necessary to cut down the trees as they obscured it from view, and a square of fine trees has now been transformed into an open plot whose ugliness is not even alleviated by the handsome monument in the centre.

Surely there are other and more appropriate sites in town for such a monument—before one of our many churches would be more in keeping with its subject than there, where it would be surrounded by the Laval, Champlain and Wolfe and Montcalm monuments.

I trust that the gentlemen who are organizing the movement, and the City Council to whom they are applying for assistance will see the force of these arguments. I also venture to hope that the general public—who seem to know very little about the matter—will see to it that this, one of Quebec's most charming beauty spots, is not destroyed for the sake of a monument, for which equally good if not better locations could be found elsewhere.

Thanking you, Mr. Editor, for your space, I am,

Yours very truly,  
CIVIC OPINION.

people had failed to call, had been drawing a salary from the District Attorney's office and was under the District Attorney's control, was highly prejudicial to defendant and constituted reversible error. The exclusion of similar testimony respecting Schepps was also erroneous.

Asserts Charge Was Unfair.

18. The court erred in refusing to permit defendant's counsel to frame questions to the people's witness Rose in the identical form which was allowed to the District Attorney in his cross-examination of defendant's witnesses, thus depriving defendant of a scrupulously fair and impartial trial.

19. The flagrant and repeated injection of incompetent, extraneous matters, unsupported by any proof into the case by the District Attorney in his opening and summing up and throughout the course of the trial, were highly prejudicial to defendant and deprived him of a scrupulously fair and impartial trial.

20. The charge was unfair, erroneous and highly prejudicial in many respects.

Conclusion. The judgment of conviction must be reversed, the indictment dismissed and the defendant discharged from custody.

The brief embraces 540 printed pages. Of these 388 are devoted to elaboration of the first point, the burden of which is that there existed "the strongest possible motive for Rose ridding himself of Rosenthal and securing his killing."

## THIS WILL INTEREST STOMACH SUFFERERS

Says Indigestion comes from an excess of hydrochloric acid.

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, water-brash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making acid, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices. Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.
