MONTREAL, THURSDAY, APRIL 30, 1931.

PRICE TWO CENTS

MRS. R. N. KYLE IS ENTERTAINED BY MANY FRIENDS

Member of St. Giles for 35 Years, Leaves for Portland, Maine

On Thursday afternoon, April 23rd, a very enjoyable affair took place when Mrs. J. R. Dobson of Nelson Ave., Outremont, entertained at her home in honor of Mrs. R. N. Kyle, who is leaving for Portland, Maine, where she will take up residence. Mrs. Kyle has for thirty-five years been a member of the St. Giles (now Fairmount-St. Giles) Ladies' Aid Society, and a number of her old friends and associates were present to wish her success and happiness in her new surroundings. During the afternoon, Mrs. Dobson made a presentation to Mrs. Kyle on behalf of those present and, in a few well-chosen words, expressed their appreciation of Mrs. Kyle's long and faithful service as a member and former President of the Society.

A reading was given by Mrs. F. Janney, and the guests also enjoyed a vocal solo rendered by Mrs. B. S. Ward.

Assisting Mrs. Dobson as hostess were her daughters, Mrs. C. H. MacNider and Miss Frances Dobson. Mrs. A. B. Hollis and Mrs. M. Winrow poured tea.

The guests included: Mrs. H. Allman, Mrs. W. R. Blackmore, Mrs. Wm. Barr, Mrs. G. Donald, Mrs. A. English, Mrs. A. Henderson, Mrs. H. S. MacKay, Mrs. S. Lindsay, Mrs. F. Muir, Mrs. M. Pauley, Mrs. W. T. Patton, Mrs. J. E. Scott, Mrs. C. Tyler, Mrs. H. Varley.

SPECIAL CHILDREN PERFORMANCE AT THE OUTREMONT

Charley Chappell and the Famous Northeastern Troubadours to Play

Arrangements have been completed for a special children's programme, which will be held at the Outremont Theatre next Saturday morning, under the sponsorship of Manager Eugene Maynard.

A special stage bill featuring some ten big acts will be presented, and these will include a well diversified variety of enjoyable singing and dancing by well-known stage favorites. In conjunction with this will be the personal appearance of "Charlie" Chappell and his famous Northeastern Troubadours. This additional feature will be a great treat to the kiddies, especially among those who remember this artist of radio fame.

A full orchestra will be in attendance and will furnish the entire musical requirements of this programme.

No amateurs, is the word of this special programme for the children, so that all that is possible to thoroughly entertain the youngsters can be shown in this way, and should certainly fill a long felt desire for theatrical entertainment of this sort.

While the programme has been especially arranged for the entertainment of the children, there is no need to say that grown-ups too will be equally interested for the time, and whether accompanying the young ones or not, they are invited. Never since the ban on our many youngsters against their attending this and many other theatres, will they be afforded such a splendid opportunity for such entertainment. A general admission price will prevail.

Anglican Young People To Hold Tea Dance

The Anglican Young People's Association of the Church of the Ascension will hold a Tea Dance in the Church Hall, Park avenue, next Wednesday evening.

An eight-piece orchestra will be in attendance, and a most enjoyable evening is anticipated.

Women's Club Entertained Old Folks

Under the auspices of the Outremont and North End Women's Club, an enjoyable concert was given last week at the Old Folks Home at Longue Pointe. The programme included: piano solos by H. Larock; piano and violin duet by H. and C. Larock; recitations by Miss Ruth Davis; an accordion duet by Colin Williamson and Mr. Lorenzetti, and comic songs by F. H. Herink. George Elsey had charge of the programme, and entertained the audience during the intermission.

Mrs. George Elsey was convener of the committee, composed of Mrs. G. L. Larock, Mrs. F. Milner, Mrs. A. Burns, Mrs. W. S. Smith, Mrs. A. Lyle, and Mrs. E. H. Conklin. Tobacco and pipes were presented to the old men, and boxes of candy to the old ladies in the home.

MOTHER AND GIRL TO MEET AT Y.W.H.A.

The Young Women's Hebrew Association will hold a Mother and Daughter Banquet on May 10th, Mother's Day, and the "Y" girls are preparing an entertaining program in accordance with the various activities in which they have taken part throughout the year. This is being done with "malice aforethought" in order to stimulate keener interest and co-operation on the part of the mothers in their daughters' activities.

Guest speaker for the evening will be Mrs. Joseph Kruger, president of the Council of Jewish Women of Montreal, who is a woman well-known for her charming personality. A well-balanced and unusual program will be given including a sketch, "Attitudes," depicting music, costumes and manners of three generations; folk songs by Miss D. Levine; dance numbers by Miss Becky Cohen and Miss Kay Bosnack; toasts and recitations will be given by Anne Gordon, Mindel Bronfman and Raymie Scopp. Miss Yetta Manis, honorary vice-president of the Senior Inter-Club Council, will act as chairman.

MACVICARY P.S. COURTS NOW READY FOR PLAY

The Willowdale Tennis Courts on Willowdale avenue near Bellingham avenue, Outremont which are operated by the MacVicar Memorial Young People's Society of Christian Endeavor are now being prepared for the summer activities.

Recently extensive improvements were made of which the most outstanding is the re-surfacing. The courts are equipped with lights, and running water which is also a new feature.

The committee in charge are now completing their plans for the season's activities, and have promised to have all in readiness for May 9.

PREMIER BAXTER MAY GO TO THE BENCH

Reports from the Maritimes state that Hon. John B. M. Baxter, Premier of New Brunswick (left), is due to be elevated to the Bench as a Judge of the Appellate Division of the Supreme Court of Canada, on May 18. Hon. Charles D. Richards (right), Minister of Lands and Mines in the New Brunswick Cabinet, is slated to become Premier.

Making himself at home in Canada

Lord Duncannon, son of His Excellency the Governor-General, Lord Bessborough, was among the early summer guests at the Seignior Club, Lucerne-in-Quebec. Left to right: Miss Diana Kingsmill, daughter of Admiral Sir Charles Kingsmill, Christian Gross, Esq., second secretary of the United States Legation, Ottawa, Lord Duncannon and John Dewar, Esq., Ottawa.

"Learn-to-Swim" Campaign Starts at North Y.M.C.A.

There are campaigns and campaigns but one campaign that never fails to arouse enthusiasm among the youth of our community is the annual free learn-to-swim campaign of the North Branch Y.M.C.A. This year the pool will be available twice a week, on Tuesdays and Fridays from 4 o'clock till 5 o'clock for this purpose. The classes will be ten in number, the first on Tuesday, May 5th and the last on Friday, June 5th.

George Porteous, Boys' Work Secretary of the local "Y" and Henry C. Brennan, Physical Director of the Outremont Schools, are in charge of the classes. This will be Mr. Porteous' fourth annual event of this type. The total registration for the past three campaigns totalled over 750 boys, of whom close to half this number have been taught to swim at least the width of the pool. It is expected that this year's registration will be over two hundred.

The only obligation on the part of the boys is that they attend regularly and bring with them a towel on which their name is plainly marked. The only obligation on the part of the parents of these boys is to take an interest in their sons' achievements and encourage them to attend regularly. Any boy can be taught to swim if he will attend the classes faithfully and give the instructors whole-hearted co-operation.

This year each boy who learns to swim in the appointed time will be given a handsome certificate where-by he might in later years remember his achievement in graduating from the "sinker" to the "swimmer" grade. A "sinker" is one who cannot negotiate the width of the pool, on crossing he gains the title of "float-

er" and on negotiating the length he is recognized as a "swimmer."

Any working boys who cannot swim and would like to learn are asked to apply at the Y.M.C.A. If a sufficient number are interested, a special class for them will be formed at convenient times.

LOCAL SCHOOL BOYS ARE CONGRATULATED BY REV. J. C. LACASSE

Praised English and French Students of Lajoie School

A note of congratulation and appreciation was extended to the French and English-speaking boys of Lajoie School, upon the recent success of their concert last week, by Rev. J. C. Lacasse, V.F.

Brilliant costumes that blended in harmony with different stage presentations formed an enjoyable part of the programme.

The entertainment was well divided, offering first a clever sketch in dialogue of Tarcisus. Delivered in highly dramatic tones, and with a faint lustre of Roman color, its popularity was well sounded throughout by the audience.

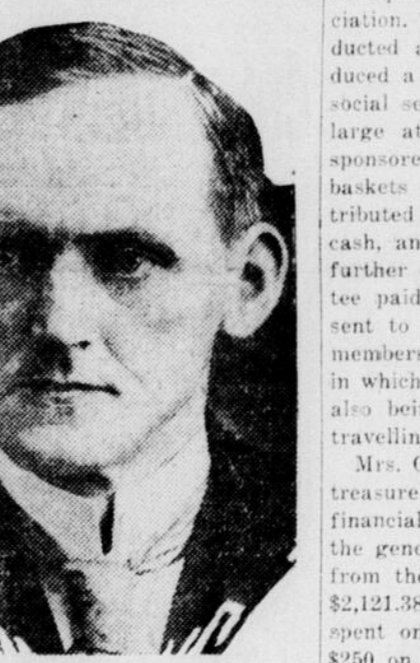

Following this came the "Dream-Maker", a sparkling little act, featuring songs, dances, ballets, pyramids, etc.

Mr. Stevens, the Dream-Maker was the big hit of the show. His magical wand and spirited songs that invited the fulfilment of many dreams for his adherents, became a lively source of great amusement and entertainment to the audience. The costumes in this act especially were very attractive. Indians, Chinese, Dutch boys, Flowers Brownies, Irish boys, and others were all represented in this colorful array. The Little Gardener of the King, as translated, added another humorous and interesting sketch taken in the Royal Gardens. This was smartly done, and gayly applauded by the audience at intervals.

Last on the evening's bill was a characteristic two-act comedy, spiced into many mirth-provoking parts. L. Granton, C. Morancy, J. Bailey and K. Casey were in the leading roles, and performed their parts persistently well.

Without mention too, was a short stage version of the Death of Minnehaha; Hiawatha's Departure. It was well portrayed and the poetic lines clearly delivered.

RETURNS TO COMMONS

Philip Snowden, British Chancellor of the Exchequer, made his first appearance in the House of Commons on April 27th following his serious illness, when he made his Budget Speech. Two doctors were in attendance in case of emergency.

FAIRMOUNT-ST. GILES Y.P.S. TO PRESENT PLAY

The Fairmount-St. Giles Y.P.S. has been active during the year, and on each Monday evening carries on a regular meeting, at which many special addresses have been given by notable speakers during the winter months. It also is aiming to develop its members along regular Christian Endeavor lines, and in Christian Social Service, it has had besides a program of debates and lectures, which were most successful.

On Thursday and Friday evenings of next week, May 7th and 8th in the assembly hall of the church, under the direction of Mr. James Chesney, they are giving a dramatic entertainment entitled "The Patsy" a comedy in three parts, which is bubbling over with fun and ludicrous situations. The doors will be open at 8 o'clock. The proceeds obtained will be donated to the building fund of the new church.

MACVICAR MEMORIAL LADIES' AID SOCIETY

The Juvenile Players under the direction of W. A. Tremayne, will present "Old Sinbad" and other plays, on Saturday afternoon, May 9, at 3 o'clock.

The man who tries to dodge his obligations usually finds the detour much rougher than the road.

In Manitoba a baby boy was born in an aeroplane 4,000 feet above the earth. Will his birthplace be given as heaven?

MRS. A. C. TOWNE RE-ELECTED PRESIDENT OF OUTREMONT NORTH END WOMENS CLUB

Mrs. E. T. Sampson and Mrs. A. N. Butler Elected Vice-Presidents—Club Donated \$700 to Charity During Past Year—Local Organization is Third Largest in City—Sixty-Six New Members.

In carrying out its literary and social programme for the season, the Outremont and North End Women's Club had contributed also in a very useful way to many charitable affairs by donations exceeding \$700, as reported at the ninth annual meeting held Friday afternoon, in MacVicar Memorial Church Hall. Mrs. A. C. Towne presided. At the beginning of the session it was decided to apply for a provincial charter for the club.

The recording secretary, Mrs. J. I. Hodgson, reviewed the program since last October, and mentioned outstanding activities under the several committees. The welfare committee collected 367 jars of jam and jellies for the Ste. Anne's Hospital and the Old Folks Home, and also gave an entertainment at the latter institution. Members had charge of a tea at the headquarters of the Big Sisters' Association. The education committee conducted a dramatic class, which produced a play on two occasions. The social service committee reported a large attendance at the baby clinic sponsored by the club. Fifty-eight baskets containing dinners were distributed at Christmas, also \$30.00 in cash, and five families in need were further assisted. The flower committee paid 35 visits, and flowers were sent to sick members. Ninety-three members made use of the club library, in which there are 250 volumes, books also being obtained from the McGill travelling library.

Mrs. G. S. Burden presented the treasurer's statement showing a good financial standing. Total receipts in the general fund, including balance from the previous year, amounted to \$2,121.38. The sum of \$409.06 was spent on Christmas cheer and relief; \$250 on other charities and \$67.40 on the baby clinic. The balance in the general fund is \$393.71; in the Violet Day and clinic reserve, \$77; educational fund, \$100; and club reserve account, \$393.42, a total balance of \$964.13 to the club's credit.

New Members
 Mrs. G. T. Ogilvie, membership secretary, reported that 66 new members had joined the club, which has its full quota of 500, with three out-of-town members and one honorary member; there is a small waiting list.

The corresponding secretary's report was given by Mrs. H. N. McCallum; that of the press convener by Mrs. E. Eddison; the delegate to the Big Sisters Association by Mrs. G. Elsey, and for the League for Women's Rights by Mrs. J. I. Hodgson.

Mrs. Towne, in her presidential report remarked that the Outremont and North End Women's Club is the third largest in the city, and stressed the responsibilities devolving on the organization. Mrs. W. Evans moved a vote of thanks for their services to the retiring officers: Mrs. G. S. Burden, Mrs. W. S. Holland, Mrs. J. C. Warren, Mrs. J. D. MacVicar and Mrs. James Mock.

A bronze jardiniere with pot of pink hydrangeas was presented to Mrs. Towne from the executive.

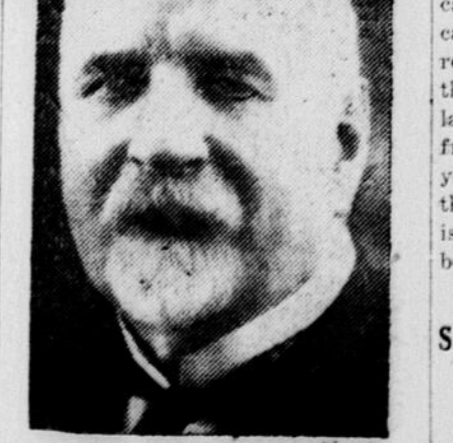

Officers for the coming year were elected as follows:—President, Mrs. A. C. Towne; first vice-president, Mrs. E. T. Sampson; second vice-president, Mrs. A. Netlam Beer; recording secretary, Mrs. J. I. Hodgson; corresponding secretary, Mrs. H. N. McCallum; assistant corresponding secretary, Mrs. E. J. Weir; membership secretary, Mrs. P. Jordan; treasurer, Mrs. H. K. Gibson; press representative, Mrs. E. Eddison. Convener are:—Door and house, Mrs. W. A. Thompson; social, Mrs. G. T. Ogilvie; music, Mrs. John M. Dever; welfare, Mrs. George Elsey; educational, Mrs. R. W. Mann; social service and emergency, Mrs. J. H. Norris; civics and philanthropies, Mrs. J. H. Pallen; flower and visiting, Mrs. S. W. Angell.

COMMUNITY CLUB TO "AT HOME" ON SAT.

The Cote des Neiges Community Club will hold its fourth special "At Home" in their club hall tomorrow evening at 8.15 o'clock, under the chairmanship of Thomas Barnes.

Members and friends are especially invited to attend this gathering, which is expected to be as successful as previous socials of its kind sponsored by this club. An orchestra of high talent will be in attendance.

TO ACCOMPANY ROYALTY

When the official banquet is given in honor of His Imperial Highness Prince Takamatsu of Japan, and his Princess in Montreal next week, Hon. C. H. Cahan, Secretary of State, will preside. Mr. Cahan may accompany Prince Takamatsu during part of His Highness' stay in Canada.

MOVING DAY WILL BE CELEBRATED

The "Black and White Review" will be brought to a close to-morrow. It is hard to say as to how successful this year's event was, but judging from the rapid disappearance of the black and white sign boards that displayed house, flat or store to let, the landlords in the North End will again enjoy their daily bread.

In the month of February, Park avenue and many other streets were ablaze with the black and white sign boards. Many houses, flats, apartments and stores were leased in the early days of February, but there were many house hunters who held out until the very last, with the hope of a drop in rents. These people in most cases were awarded in most of the cases were awarded with startling results because owing to depression that has effected the whole world at large, landlords were forced to cut from ten to twenty dollars of the last year's rental fee. In spite of everything the "Black and White Review" is over and lets are now few and far between—in the North End at least.

S. B. Temple Again Call For Local Gas Victim

While cleaning her home at 4902 St. Dominique street last Tuesday morning, Cecile Roy, 34, a new tenant in the house was overcome by gas. The former tenant of the house had failed to shut off the gas flow completely of which the woman was unaware. The victim was revived by L. B. Temple of the Montreal Light, Heat and Power emergency squad.

Social & Personal

The marriage of Florence Marjorie (Dolly) youngest daughter of the late William H. Ferguson and Mrs. Ferguson, to Mr. Harold Everett Yale, eldest son of Mr. and Mrs. Milton M. Yale of Outremont, took place Saturday afternoon at St. Luke's United church at four o'clock, the Rev. R. DeWitt Scott officiating. Spring flowers and ferns were used as decorations in the church.

The bride, who was given in marriage by her brother, Mr. William L. Ferguson, of Peterboro, Ont. wore a Patou model of rose blush satin, made on long simple lines with long tight sleeves. Her lace veil fell from a cap effect which was caught with orange blossoms. She carried a shower bouquet of orphelia roses and lilies of the valley. Her only attendant, her sister, Miss Jean Ferguson, wore a gown of pistachio green made on long simple lines. She wore a hat and her shoes were to match, and she carried a bouquet of Columbia roses. Mr. Lorne M. Coddington acted as groomsmen, and the gentlemen ushers were, Mr. Ernest M. Yale, brother of the groom, and Mr. Norman St. C. Tilley. The wedding music was rendered by Mr. D. A. Hinchecliffe.

Mrs. Ferguson, mother of the bride wore a black georgette crepe dress with insets of black lace, a black lace hat, and carried premier roses. Mrs. Yale, mother of the groom, wore a black lace dress, black moirai hat, and a corsage of pink and mauve sweet peas. During the signing of the register, Mr. H. W. Flower rendered "When Song is Sweet."

Mr. and Mrs. Yale left later for a motor trip to New York and Atlantic City, the bride travelling in a larkspur blue printed dress, a cloth coat of the same shade, with hat, shoes and bag to match. On their return they will reside on Terrebonne ave.

The marriage took place last Wednesday morning, April 22nd at eleven

o'clock at the rectory of St. Raphael the Archangel church, of Hazel Veronica, younger daughter of Mr. and Mrs. Frank Dwane, to Mr. Herbert Leslie Nixon elder son of Mr. and Mrs. H. T. Nixon. The ceremony was performed by the Rev. Father J. O'Rourke.

The bride, who was given in marriage by her father, wore a Vionet model of Queen Mary blue chiffon with a cap of pale pink lace, and crepe de chine slippers to match. She carried a Colonial bouquet of pink roses and sweet peas. Mr. Thomas Dobson acted as best man for the bridegroom.

The wedding reception was held after the ceremony at the residence of the bride's parents, 688 Outremont avenue, where the decorations were composed of spring flowers. Later Mr. and Mrs. Nixon left on a motor trip, the bride travelling in an ensemble of brown and maize tweed, with a brown baku hat, shoes and bag of brown leather. On their return they will reside on Maisonneuve avenue.

The marriage took place quietly last Saturday morning at nine o'clock, at St. Michael's church, of Miss Dorothy Reynolds, eldest daughter of Mr. and Mrs. R. E. Reynolds, to Mr. Frederick E. St. Pierre, son of Mr. and Mrs. Stephen St. Pierre. The ceremony was performed by Rev. Father A. E. Armstrong, of Ottawa. Miss Stella Dinelle, formerly of Ottawa, was the bride's only attendant, and Mr. Emery St. Pierre acted as best man for his brother.

Following the ceremony an informal reception was held at the home of the bride's parents for only the immediate relatives, Rev. Father A. E. Armstrong and Rev. Father Phil Harris, of Ottawa, being present. Later Mr. and Mrs. St. Pierre left on a motor trip to New York, Baltimore and Atlantic City. On their return they will reside in Montreal.

dots on the surface of the paper to be "read."

The rapidity, according to Mr. Heggie, at which the young child learns this system is amazing. Three months, in the majority of cases is the normal time required for the average child to master this system. Elderly persons find greater difficulty in learning the Braille system than do children, he commented.

Following the preliminary period of the Braille training the child is advanced year by year through the various classes of the school curriculum. This curriculum corresponds very closely to the one offered throughout the city in the regular schools, he said.

Specialised training along various lines is also made part of the school training. Music lessons are given to each pupil and in the case where unusual aptitude is shown by the pupil provision is made for allowing the student to specialize in the music division.

If ignorance is bliss, it is sometimes wise to be foolish.

NOTICE is hereby given that Calvary Baptist Church of Outremont will petition the Lieutenant Governor in Council of the Province of Quebec for incorporation under the Church Incorporation Act, Chapter 201 of the Revised Statutes of the Province of Quebec, 1925 and Amendments.

TWO METHODS OF SIGNALLING USED IN ARMY

Officer Commanding Signal Section of R. M. R. Gives Description

ESTABLISH CONTACT

Visual Method Has Many Distinct Advantages Over Line Telegraph System

In pointing out the merits of the signalling units of an army during war time, L. Baxter, officer commanding the signalling unit of the Royal Regiment stated that this section was carried by every infantry regiment and that it was responsible for communication both between and within the regiments.

To establish this communication, he explained, two systems were employed. The first system was described as visual while the second was line telegraphy.

No connection was necessary between the transmitting and receiving in the visual method which in the opinion of Mr. Baxter was a distinct advantage over the other method in so far as no direct interference could be set up by the enemy forces.

The flag, the daylight lamp and the heliograph are the three systems in visual signalling in the army, he stated. Continuing to explain the methods employed he stated that by means of long and short dashes interrupted by waves of the flag messages could be sent which could be interpreted at a distance of three miles by the naked eye and at a distance of 7 miles by means of a telescope.

With the daylight lamp, which he said, was really an overgrown flashlight messages could be sent, again using short and long flashes of light. These signals could be seen by the naked eye six miles distant and up to 12 miles distant by a telescope.

The heliograph, which is the third method of visual signalling was capable of transmitting messages which

The Advantages Montreal Offers

By ERNEST PITT

With the opening of navigation there will be many visitors and delegations coming to the Province of Quebec within the next few months. This week saw several important visitors in the persons of Sir Arthur Duckham, C.B.E., K.C.B., M.I.C.E., Sir James Lithgow, Bart., M.C., T.D., M.I.N.A. and Major MacKenzie, of the Federation of British Industries, one of the most important commercial bodies in England.

Like the visitors to Canada of old, these gentlemen come to spy out the land, and we of Montreal hope fervently that they, like the others, will carry back reports of a land flowing with milk and honey.

One salient point that will be offered to them is a minimum estimate of 13,000,000 H.P. of hydro-electric power which can be developed in this Province, which means practically inexhaustible power available at low rates, is the report of Mr. Ernest Pitt in his weekly review.

It is our business in this province to do our best to locate more in-

could be deciphered at a distance of 40 to 50 miles in this country and up to a distance of 80 miles in India where the air is lighter and not as dense as in Canada.

Continuing to point out the advantages of visual signalling he stated that owing to the fact that no connection was necessary between stations that communication could be established more quickly by this method than would be possible if line telegraphy or telephony was used.

Moving stations could also be kept in touch with one another by means of visual signalling and this was an important feature during warfare, he concluded.

industries here. There are less than 8,000 in Quebec Province. Birmingham, England, alone with a lower population than Montreal, has nearly 5,000 manufacturing businesses.

In addition to our abundance of cheap power, we have cheap land and the best labor in the world. In the past 35 years we have had no strikes of any importance. We have excellent transportation facilities. Factories can be built quite near the harbor, so as to receive raw material coming from any part of the world, direct from ship to plant, and we can export all over the world with equal facility. This, in itself, should be a powerful factor in meeting world competition.

Properties with rail and water connections can at present be secured at quite low figures, and with the tremendous growth ahead of Montreal, such properties should increase in value at least ten per cent per annum.

In addition to developing their business and increasing their output, manufacturers who locate here have the further satisfaction of seeing their properties increase steadily in value.

Mr. Pitt points out that Mr. J. P. Baillargeon's Industrial Commission seems to be getting steam up for a big effort in the direction. The appointment of this industrial commission was undoubtedly an excellent idea, and suggests that every man and woman in Montreal constitute himself an industrial commissioner to boost Montreal in the eyes of the outside world. The real estate men, on the whole, are doing their share in this direction, but too much cannot be done. Montreal has too long been inclined to hide her light under a bushel, but a city set on a hill has no right to be hidden.

Public Service

At no time has the question as to what the State requires of its citizens been so alive as it is at present. The individual realizes more than ever before, that he cannot plow a lonely furrow as a citizen, and do a complete duty to the community in which he lives. In older civilizations than ours, public service was regarded almost in the light of a vocation, and the finest minds in the country had no higher ambition than to do their part in the shaping and carrying out of policies calculated to benefit their fellowmen. In Britain this was particularly so, and we see the spectacle of an ex-Prime Minister seeking election as a councillor in London. In fact from father to son, the history of the great families of Britain was the history of the nation. In our own country of Canada the individualistic idea was born of necessity, where every man was a pioneer. But with the advance of population and the establishment of separate communities, the necessity for united effort made itself apparent. The result of this has been the establishment of community organizations of various kinds, and a keener interest evidenced in national, provincial and civic affairs. In this respect the future is full of promise. To quote Dickens: "It is impossible to say how far the influence of a duty-doing man flies out into the world," and it is a truism, that the highest form of duty-doing, after the calls of the home itself are satisfied, is that of public service.

NEW DRESSES FOR THE OLD HOME

Budding trees in the spring time put on a new shade of green — the flowers come forth in varied tones of color. Everywhere in nature preparation is made for the warmer, happier months. We believe that the family, to be content, should profit by their examples and give the dwelling a coat of paint.

The rays of the sun are destructive to the life of the lumber in the home. They dry up the wood and leave it in a porous condition that absorbs moisture. This causes the timber to rot, sag, warp and split, as well as to become loosened from the nails, and the building ere long is an eyesore to the whole neighborhood. The only solution to the problem is Paint. So much does paint save a building that there is an old saying "Paint doesn't cost anything—there's a bonus for using it."

Paint is an easy word to say, but to select a paint suitable for your lumber at an economical price is by no means an easy job. To apply it so as to make the job serviceable and have an appearance in keeping with the rest of your dwelling is work for an expert. Let us recommend Curwood and Company, Limited, professional painters and decorators. Not only

does this firm know the right paint for your house or roof to save you money, but they are experts in applying it as well. Much money and time has been saved the home owner by employing this firm. A special feature is their manner of decorating the interior to match with the walls and furniture. This works in well with their paper-hanging end of the business. In fact a job of paper-hanging and interior painting should never be let to separate concerns when there are such experts on wallpapering to be found among painting firms. Harmony in colors and designs is their ART.

In wall papers they have hundreds of patterns from which to choose from the very cheapest—not sacrificing quality—right up to the most expensive of imported varieties. Their advice in regards to artistic harmony is valuable and yet no charge is made for this service. Give them a call at 389 Concord Street, or phone Marquette 9471 and tell the Curwood and Company, Limited, painting and decorating firm that you want them to figure on your job. This program will add value to your home and beauty to our whole neighborhood. —Advt.

CONTINUE WORK FOR WELFARE OF CITY SIGHTLESS

After Existence of Nearly 25 Years Society Still Maintains School for Blind

OPERATES SCHOOL

Twenty-Five Children Registered for Tuition in District School at Last Fall Term

After an existence of nearly a quarter of a century the Montreal Association for the Blind still carries on its work for the welfare of Montreal's sightless in an unpretentious yet dignified appearing building opposite Loyola College on Sherbrooke street west.

Here blind children of all ages are cared for and educated to become useful members of society. Training, which will fit them to fill many walks of life, is given under expert instructors who are specially trained and qualified for their work.

Many of the children, totally blind, walk about the building and fields adjacent with head erect and confident stride. Their training has enabled them to walk with confidence because obstacles in the building or playground have been mapped out in their minds through association and education.

Large Registration
 Last fall according to J. T. Heggie, M.A., school principal, a total of 25 children were admitted to the institution. Of this total the largest number of the children were between the ages of 13 and 15 years. But there are still many children at the school who are even much younger than any member of this division.

Children, stated Mr. Heggie, are admitted to the school at the age of three years and are given a kindergarten education. During this period, which normally lasts three years much stress is laid on manual training and physical culture.

"This is necessary," explained Mr. Heggie, "because the child at this age must realize the importance of being able to use his hands for many purposes."

Taught Braille System
 After completing the kindergarten course the young child begins to learn the use of the Braille system of reading by means of a series of raised

OUTREMONT LACROSSE TEAM GOOD

Played Exhibition Game With Catholic High School

One of the best displays of lacrosse here is expected next Sunday afternoon at the North Avenue grounds, when the Outremont and Catholic High School teams meet.

The school team which consists of many players whose names in sporting circles have been mentioned in numerous inter-scholastic championship events, are slated for a fine showing. Several of their group are at the school, and for this reason will present affiliated with teams outside no doubt show increased resourcefulness against the Outremonters.

The local boys have shown good form as evidenced in past games, and a great deal of the battle for supremacy will be gamely manifested by them. Their optimism that has always been noted in whatever sport they have figured will flourish on a grand scale, if this game is anything like previous clashes with other teams this season.

Only one change in the line-up of the city team is noted, and a worthy aspirant for the place will be seen in Webster's place. The latter player was injured in the last game between the Westmount Wanderers, and his injured arm will keep him away for some time yet. Angus of Indian parentage will be the newcomer to add further distinction to a heavily built and prodigious forward.

Line-ups:

C. H. S.	Outremont
Coucheletta	McCartan
Taughner	Defence
Flannagan	Defence
Fitzgerald	Forward
Murphy	Forward
Cooney	Centre
McNamara	Inside
McCauley	Outside
C. H. S. subs—	Rubado, Beauvais, Neville S., Neville N.
Outremont subs—	Mulcair J., McCartan F., Lasnier, Angus.

PARKSIDE TAILORS OCCUPY NEW HOME

The Parkside Tailors which is owned and controlled by Mr. Jack Salzman is moving this week to new premises on Laurier Avenue. Parkside Tailors are moving only two doors east of present location, and the new premises will be much larger and Mr. Salzman will be better equipped to handle his ever-growing clientele.

With the new improved clothes presser and cleaner, suits and overcoats will be renovated like new, and the Parkside Tailors with their speedy delivery will ensure articles being delivered on time.

ULLEY ELECTED TO HANDLE TITLE BASKETBALL GAMES

Veteran North Branch Star Paid Signal Honor

Frank Ulley, one of the leading local basketball referees and a charter member of the Province of Quebec Board of Basketball Officials was appointed to handle the two-game series in the Dominion juvenile playdowns between Windsor Arrows and Y.M.H.A. last evening on the Y.M.H.A. floor, Mount Royal avenue. The appointment was left in the hands of Joe Hornstein, local Canadian Amateur Basketball Association representative, and he announced that the Montreal arbiter would handle both games.

Arrangements were completed by the Y.M.H.A. basketball executive for the preliminary game tonight and the "Y" senior All-star team was selected to oppose Beavers. The All-stars team is as follows: Norm Schlegler, Joe Hornstein, Irving Ruvinovs forwards; Irving Bennett, centre; Bill Smolkin, Ben Silverman and Ben Spiegelman guards. No preliminary game was played last night.

Eddie Hart, A. S. Seaman and Col. H. Harrison, have been appointed to handle the scoring and timing work during both games.

Locals Powerful

The Y.M.H.A. five looms up as one of the greatest juvenile machines ever to represent Montreal since Beavers captured the Canadian title five years ago. In some quarters the Northend youngsters are looked on as superior to the gallant crew that is today a senior league entry.

The blue shirted kids from the Northend association have a sterling record behind them and although they have been kept idle for over two weeks following the Ottawa series they are counted on to emerge victors over Ontario's best. The opposition which they face this week will be the stiffest the Itel-Spiegleman combination has met this season.

Playing in the Montreal Basketball League juvenile loop the Mount Royal avenue kids swept through to an easy title, winning eight straight games, and some by overwhelming scores.

Won Junior Honors

Not content with a city championship, the Itel coached players entered the spring cage tourney that was held by Y.M.H.A. and put their names in the junior series. Defeating strong teams, they won their way to the finals where they opposed their brother-members, who represent the Y.M.H.A. junior team, and in one of the best games of the tourney came through with a 5-point victory.

An effort is to be made to rescind the anti-evolution law in Tennessee, but we doubt if the legislature will allow any one to monkey with it.

I have seen more children killed by cod liver oil than I have seen cured by it.

Busy preparing Stadium for opening game.

NORTH END SOFT BALL LOOP STARTS

The new Montreal Suburban Softball League was formally organized last Monday evening, April 27, when a meeting was held of the various clubs interested. Leo M. Ness, the organizer, was in the chair.

Representatives were present of the following clubs: Outremont Racketeers, Outremont Rangers, Model City Sheiks, Krochler Mfg. Co. of Cote des Neiges, Park Extension A.A., Northern Electric Co., North Branch, Royal Athletic Club.

It was decided that these teams, together with one other to be selected from the applications on hand, would form the proposed eight team circuit.

Games will be played on the Rockland Avenue grounds, the Model City diamond and the playing field at Cote des Neiges. All games will be twilight affairs and will be played on week days.

If the great enthusiasm manifested at this meeting means anything, this new league is in for a banner season.

The opening games will be played Monday, May 18th.

LADIES AND GIRLS PRIVILEGES AT NORTH BRANCH Y.M.C.A.

Following the custom of previous years the North Branch Y.M.C.A. will again extend the privileges of their swimming pool to the ladies and girls of Outremont and the North End. There are special periods for each of three groups on Mondays and Thursdays. These classes will be supervised by Mrs. S. Holtz and Mrs. Rubens. They will coach advanced swimmers and give instruction to beginners.

The first period on these days will be reserved for school teachers and other ladies who find this time most convenient. This period begins at four o'clock. The second period at four forty-five is for school girls ten to sixteen years of age. The third period at seven-thirty is for young ladies over sixteen years of age.

Membership tickets at moderate rates may be secured good until October 1st. Registrations are now being accepted and the classes are commencing this week.

HARRIERS TURN OUT FOR EARLY MEET

Under the leadership of Mervyn Gale as Coach-Manager and Tom Trotter as his assistant, the runners of North Branch Y.M.C.A. are again preparing for a busy season of chasing each other to the finishing line.

The local "Y" has brought credit to this community in the past in the Boston Marathon, the Dunlop Road Race, the Star Trophy Race and many others. The Junior Harriers have also brought their share of glory, particularly in keeping the Rutherford Cup, the trophy for the team mile at the Caledonia Games, in their case for the past three years.

Several of last year's stars are still eligible for competition in Junior races and are already out training for this and other events. Among the "veterans" have been seen Rudolph Lambo, last year's champion, Harry Smith, Leslie Mason and Archie Little. Several new runners have also started to train and from among their numbers good material should be developed for defending the laurels of North Branch.

EVERY MEMBER A SWIMMER IS Y.M.H.A. MOTTO

"Every 'Y' member a swimmer" will be the slogan during the months of May, June and July. The annual spring movement towards the natatorium always finds many members willing but for some unknown reason not getting the swing of the art of swimming. In most cases these so-called backward pupils usually appear for the first two lessons and for the last one and forget all about the intervening work. Under the direction and supervision of Coach Bruker, Swimming Supervisor Alexander N. Silver and Swimming President Dr. Joseph Fineberg are sponsoring the second annual "Learn-to-Swim" campaign. The campaign will consist of nine lessons every three weeks. In this way it is hoped that wayward and so-called backward pupils will if they do not get the results of the first course, join the second group and so on. This program is not intended to be a hit-and-admission affair. Each lesson will be divided so that class instruction will be given during the first half of the session and individual attention given those who do not pick up the movements satisfactorily. Members are asked to discuss their aquatic troubles with Coach Bruker.

The junior and juvenile membership will receive if they pass the beginners' test, the Y.M.H.A. Proficiency Button.

During May 11 to May 22, swimming instruction will be given to all school boys who although not members desire to participate in the program. This free swimming program will be explained in the next issue of "The Examiner".

With the aid of St. George, Stanley Baldwin appears to have tamed the Beaverbrook dragon.

Now that municipal tennis courts will be brought two weeks closer to their opening date by tomorrow, and that tickets for membership will be ready for local enthusiasts, there is a dark cloud in the sky, which seeks to overshadow last year's winners in the championships. Jim Bulger, who was successful in capturing the Examiner Trophy has not been heard from for some time now, but, it is hoped he will find equal diversion in

Local Sporting Briefs

A very keenly contested lacrosse game this week-end, will be the C.H.S. and Outremont one at the North Avenue grounds. The Outremont team were scheduled for a return game last Sunday afternoon, with Shamrocks, with whom they tied four all two weeks ago, but no proof is needed, as to just why this game never went off. The weather speaks for itself. Now, if we had enough rain for this week, and we still hope so, Sunday's game ought to be a big attraction, especially if the weather is fine.

Charbonneau, the energetic young captain of his team, is just why it is so successful, and if "Bonneau" does not weaken, goodness knows what increased results for the better will be seen in the near future. The lefty captain boasts of his new find in Angus, and feels confident that this new forward will share in the drive for supremacy this season. The Outremont team have been asked to join in a league, which would of course be somewhat easier for them in procuring games for their first time out this season. But, frankly speaking Charbonneau does not seem very eager to do this yet. There is some possibility that if not this season, next year will probably see the formation of a lacrosse league here, and joining an inter-city circuit would not conflict favorably with future plans. This decision, however, is not expected to come to a head just yet, so the captain states.

According to a report of the City Engineer, C. E. Lacroix, tickets will be ready for Outremont Municipal tennis courts by tomorrow. It was further announced that applicants for these passes will require a photograph of themselves, same to be attached to the card at the City Hall. In this way, it was pointed out, the picture and signature of the holder as verified by the city clerk at the time of purchasing same, would provide a useful means of identification of the card's owner. Prices for this season will be the same as last, two prices prevailing, one for the lighted and unlighted courts. It was understood that for the former courts, the price would be slightly higher. No persons other than proprietors or

a good game of tennis as he did last season. Annette Kahn and Jean Tritt, also title holders of the Outremont courts are expected to retain their distinction here again this year if opposed for their titles. Irvin Poyaner, the smart singles winner of both Querbes and Bellingham Courts, is holder of two cups, the City's and the Alfred Joyce one. But apart from what has been said, many are those who await the pleasure of seeing old "Pop" again at Bellingham Courts. You know who I mean without mentioning his name. For, so as he is called he is, and there is no embarrassment in a name like that either. "Pop" is known to practically every municipal tennis player in the past two seasons, and few could realize such an active, and still energetic fellow like him, in his near eightieth year.

Why not reduce present time payments if too large?

residents of Outremont will be permitted to use a Municipal tennis ticket.

Y.M.H.A. Choir to Give Concert on Monday

The Y.M.H.A. Choir under the personal direction of George Vanderpoll, will give its last concert of this season on Monday evening next.

The program will be varied and will include as guest artists Miss Ethel Woolner, soprano, and Mr. Harold Morris, pianist. Mr. Wm. Rubman, well-known baritone of the Y.M.H.A. Choir will also give several solo selections.

The selections have been specially chosen for the verile voices of the singers, whose fine work in the past has been causing favorable comment in musical circles.

Here's How! The Tale of an Ale

Through Forty Layers of Sterilized Cotton Fibre

When Dow "Old Stock" Ale is fully matured, after several months in the Ageing Room of the Dow Brewery, it undergoes an important process of filtration before it is finally bottled.

It passes twice through a filter, and is forced each time, under heavy pressure, through 20 layers of sterilized cotton fibre. Each of these layers consists of solidly packed fibres and has been reduced from 18 inches to 2 inches in thickness by hydraulic pressure. Then, clear and sparkling, a perfect beverage, it passes on to the bottling.

Dow Old Stock Ale

No. 12 of a Series

Maple Syrup a Sweetener Widely Useful in the Home

Maple syrup is recognized as being the most highly prized of all table syrups. Pancakes with maple syrup, Johnny cake with maple syrup, hot biscuits or muffins with maple syrup are all popular dishes. Few home cooks have learned to appreciate the possibilities of maple syrup as sweetening fruit, in milk and other simple desserts, in cakes, cookies and quick breads, in inexpensive desserts.

Maple Uncooked Frosting

One-quarter cup maple syrup, 1 teaspoon butter, confectioners' sugar. Cream the butter, add the syrup to spread. Beat until creamy and spread on cake. Decorate with pecans or walnut meats.

Maple Syrup Cake

One-half cup sugar, 1-3 cup shortening, 3-4 cup pastry cake flour, 3 teaspoons baking powder, 3 egg whites.

Cream the sugar and shortening together. Add the syrup and stir well. Add the milk and flour alternately. Fold in the beaten whites and bake in an oblong pan in a moderate oven—350 to 375 deg. F., for 60 minutes. When the cake is baked and cool, ice with maple frosting. If desired, nuts may be added. The maple-nut cake is nicer the day after it is made than it is when freshly made. It will keep very well.

Maple Chocolate Date Bread

To the preceding recipe, add 1 square melted, unsweetened chocolate and 2 tablespoons boiling water, and if desired, 1 teaspoon cinnamon. Or, add 3 1-3 tablespoonsfuls of cocoa mixed with 2 tablespoons boiling water.

Maple Date and Nut Bread

(A Prize Recipe)

This bread is just as good as can be—and it will remain fresh for a week or longer.

One and one-half cups dates, 1 teaspoon soda, 1 cup boiling water, 1 cup bread flour, sifted before measuring, 1 teaspoon baking powder, 1 cup whole

wheat flour, 1 egg, well beaten, 1-2 cup maple syrup, 1 teaspoon salt, 1 teaspoon vanilla, 1-2 cup chopped pecans or walnut meats, 1 tablespoon melted butter.

Method: Add the soda to the stoned and cut dates; pour over the boiling water and allow mixture to stand until cold. Sift flour, baking powder and salt, then add the whole wheat flour. Mix the well-beaten egg with the maple syrup and vanilla; add the date mixture, then the sifted flour. Mix, but do not beat. Add the nut meats and melted shortening, beat thoroughly but not too long. Pour into a well greased bread pan of medium size and bake for 1 1-4 hours in a moderately slow oven, 325 deg. F. When done, and still hot, brush top very lightly with maple syrup, which will give it an attractive glaze.

Maple Syrup Nut Bread

This is a rich and delicious bread, and a good keeper, 2 cups bread flour, sifted before measuring, 4 level teaspoons baking powder, 1-2 teaspoons salt, 1 egg, well beaten, 1-2 cup maple syrup or honey, 1 cup sweet milk, 1 cup chopped nuts, 1 cup seedless raisins, 1-4 teaspoon soda, dissolved in 1 teaspoon warm water.

Mix maple syrup and milk. Sift flour, baking powder and salt. Beat egg, baking powder, cups 6, the mm egg, add to syrup and milk. Add liquids to dry ingredients, and mix well. Add nuts, raisins—which should be lightly floured—and the soda dissolved in warm water. Beat only to mix thoroughly. Pour into a bread pan of medium size, well greased; allow the mixture to stand in a warm place for 20 minutes, then bake in a moderate oven, 350 deg. F., rising to 375 deg. F. for about one hour.

I have been in twelve or thirteen parliaments, and in half of those the government of the day represented a minority of members and was kept in existence by the support of other parliamentary bodies.

Fur Storage a Problem for Milady

This is the time of year when color begins to show in clothes.

All over Montreal tens of thousands of girls and women are laying aside their fur coats and donning colorful clothes of lighter weight.

And that brings them to the gravest clothing problem of the season. How can their most expensive garments—their furs—be kept safe for them throughout the entire summer and fall? Furs cost more than any other garments. If treated properly they will last for years and can be remodelled and made over time and time again. But if furs are neglected they will spoil quicker than any other kind of clothes.

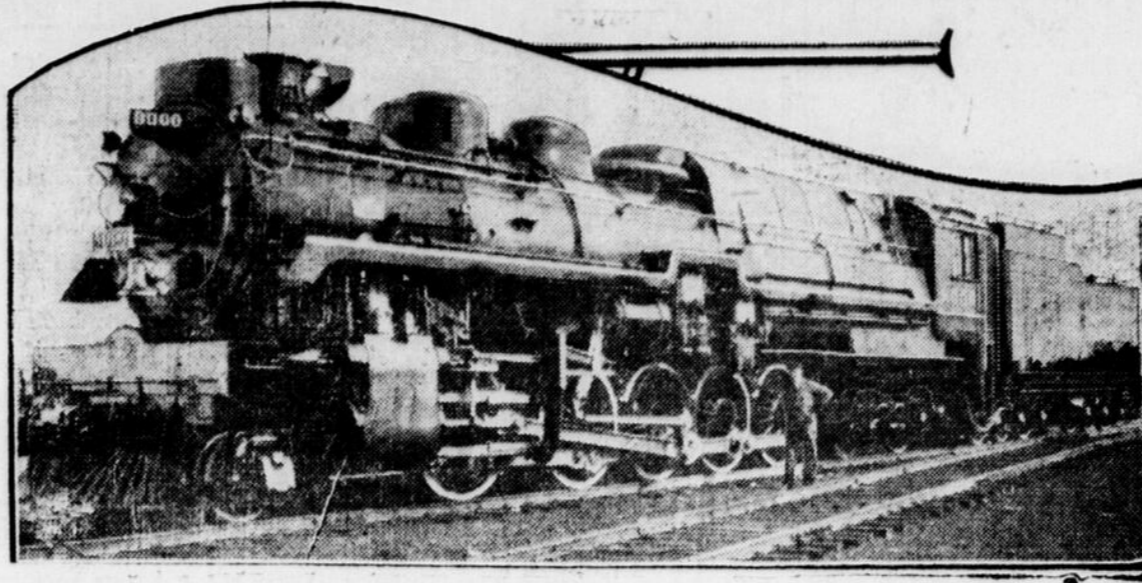

Every woman knows this. That is why, right now, Mrs. and Miss Montreal are anxiously trying to puzzle out what they can do to protect these costly wraps, for the North End, Outremont and Model City have as much money invested in furs as perhaps all the rest of Montreal put to-

gether. This newspaper is glad to tell you what can be done.

Montreal is fortunate in having one of the most modern, up-to-date and best-equipped fur storage plants on the continent. Until your furs are needed again next fall you may store them for 2 per cent of their value. Your own fair estimate is accepted. Not only are your furs guarded. They are actually insured against heat dampness, fire and theft. You absolutely cannot lose.

The well-known firm of H. Baum, operate this most necessary service. Their name will reassure those thousands of North End ladies who are anxious to make sure that their furs are to be left with a responsible company. H. Baum have designed their plant to accommodate many dollars worth of fur coats and miscellaneous furs. Their telephone number is Crescent 1664. A driver will call at your door and relieve you of the fur storage problem. —Adv.

CANADA'S NEW LEVIATHAN OF THE STEEL HIGHWAYS

The largest and most powerful of its kind in the world is the new "8000" type locomotive shown above, built especially for the heavy passenger and freight service of the Rocky Mountain territory by the Canadian Pacific Railway in its Angus shops, Montreal.

Half a Hundred Uses For Salt

Common Salt Useful in Many Little-Known Ways in the Home

Chloride of sodium, or common salt, has served the household so long, so faithfully, and so unostentatiously that few people comprehend, in even an approximate degree, the full measure of its contribution to the welfare and happiness of the world. And yet, who would care to contemplate an earthly existence without it?

What predestinate wisdom of Nature, therefore, is evident in the fact that inexhaustible stores of this indispensable commodity are easy of access to inhabitants of every section of the globe! Salt exists in immense quantities dissolved in sea water, in waters of salt wells, and in solid deposits, sometimes at greater or less depths in almost every geological series.

Rock salt is found in abundance in every country of Europe. The basin of the Indus and other parts of India have extensive salt plains, deep salt wells abound in China, and the Sahara and central and southern Africa afford limitless supplies, to say nothing of the most of the South American republics, the West Indies and the United States.

Of the eternal table trinity of salt, pepper and vinegar, if any household had to dispense with two of the units, one of them wouldn't—or couldn't—be salt. And yet, one wonders how many use it for more than a small percentage of the purposes for which it can be utilized to advantage.

For instance, the experienced housewife, who automatically reaches for the salt-cellar when cooking a meal—does she always think to sprinkle a little on parsley to make it chop easier and finer? Or, if a boiling egg is cracked, does she remember that a pinch of salt quickly added to the water may prevent the egg from boiling out?

Again, is she aware that a little salt, sprinkled in the pan before putting in the fat, will prevent splashing when frying meat? Or that salt in the oven under baking tins will prevent their scorching on the bottom? Or that a pudding will cool more quickly if its container is placed in a dish of cold water to which salt has been added?

Does she know that dishes in which eggs have been served will wash easily if a small quantity of salt is put in them? That salt rubbed on the handles of knives will remove all stains? And that salt in the water will cleanse foul jars and glass bottles?

If she lives in a territory not yet reached by gas or electricity, has she ever tried putting a large pinch of salt into the tank of a coal-oil lamp, to produce a better light? Or, after washing a lamp chimney, polished it with dry salt to prevent its crackling?

Has she ever heard that salt dissolved in ammonia or alcohol will remove grease spots? That, if put on before the ink has dried salt will help in removing an ink spot from a carpet? That salt thrown on soot which has fallen on the carpet will prevent stain? Or that salt is an excellent extinguisher of a chimney fire?

On Scrubbing Brush
Has she used salt on a scrubbing brush to remove grease quickly from a hot stove? Beeswax and salt to rub rusty flatirons? Salt in sweeping carpets, to keep out moths? Salt on the fingers when cleaning fowls, to prevent slipping? Or a little salt in the water when washing colored articles, to prevent the colors running?

If any of the above suggestions are new to her, "she ain't heard nothin' yet"—about salt. Other uses are:

For removal of stains on polished wood caused by hot dishes, a thin paste made of olive oil and salt should be spread over the marked place and left to stand for an hour or more—then rubbed off with a soft cloth. A

tea stain can be removed from china with a moistened cloth and salt. For vegetable stains on white goods, salt should be heaped on the spot, and the article then rubbed hard in hot water to which considerable borax has been added. On a fresh wine stain, heap salt and then wash the usual way. To remove bloodstains, put the article at once to soak in cold, salt water; then wash in warm, soapy water and finish by boiling.

Salt and vinegar combined will restore polish to brass. A like solution is good for cleaning copper. A teaspoonful of salt mixed with vinegar will prove an excellent cleanser for glass vases. A little salt added to the water when washing matting may save its turning yellow. Use salt and water for cleansing willow furniture; scrub well and dry thoroughly. To remove ugly gray marks on the sides of a porcelain bathtub, caused by curdling soap, moisten a piece of flannel with paraffin, dip in rough salt and rub the side.

"Nowadays," says one of the how-to-do-it writers, "economy begins in the home." Yeah, and ends in the garage.

When a man has nothing to do, he always attends to it personally.

Economical Desserts

By BETTY BARCLAY

Dainty, delicious and healthful desserts do not necessarily call for a great expenditure of money. Here are two inexpensive dishes that will please the most fastidious.

Fig and Rice Conde

1/4 cup rice
2 cups milk
1/4 cup sugar
1/4 teaspoon salt
1 egg
4 figs

Cook rice, milk, sugar and salt in double-boiler until rice is tender. Add beaten egg and chopped figs. Remove from fire and flavor. Turn into small molds which have been buttered and dredged in sugar. Set away in warm place until firm. Chill. Unmold when ready to serve, surround with apricot sauce, garnish with whipped cream topped with a fig.

Meringue of Rice

Put a cupful of rice into a pint of boiling water, and when the water has boiled away add a pint of milk, a piece of butter the size of an egg, four eggs and the grated rind of a

lemon. Butter a pudding dish, pour in the mixture and bake until it sets. Beat the whites until dry, add half a cup of sugar and a tablespoon of lemon juice. When pudding is done spread the frosting over it and brown light on top.

TO CLEAN STEELWORK

Polishing steelwork is laborious, but if you get an onion, squeeze the juice into a bottle, add three times the quantity of vinegar, and then, twenty minutes or so before you want to begin on the steelwork, you dab it with the mixture, you will find that your steel will shine like silver.

Novel Tomato Dishes

By BETTY BARCLAY

Those who have a liking for tomatoes will relish the following novel tomato recipes. The touch of sugar in each accentuates the flavor of the tomatoes and adds full value to the dish.

Tomato Jelly

2 tablespoons gelatin
1/2 cup cold water
3 1/2 cups canned tomatoes
1 tablespoon sugar

Celery salt and paprika
Soak gelatin in cold water. Add sugar, celery salt and paprika to tomatoes. Bring to boiling point. Add gelatin. When gelatin is dissolved, strain. Pour into a wet mold and cool in refrigerator. Unmold on lettuce and serve with mayonnaise.

Tomato Savory

Cook two sliced onions with one-half cup diced breakfast bacon until both are well done, but not over brown. Add two cups canned tomatoes, two teaspoons sugar, celery salt and pepper to taste. Cook gently for half an hour. Serve on buttered toast.

Connor thermo electric Washer

The
**Connor
Wringer
Needs No
Adjusting**

A good wringer is indispensable to a perfect washing and the safety wringer on the Connor Thermo is in keeping with this marvelous washer.

Being self-adjusting, its thick cushion rolls automatically wring out the last drop of water from light and heavy articles alike without injury to buttons or fasteners. It reverses, of course, and swings to any desired position. Being on steel ball bearings it runs smoothly and lasts a lifetime. A light touch on the safety release opens the rolls as illustrated.

You cannot afford to buy any electric washer until you have tried this new model. There are many other conveniences and improvements that will please you.
