ADVERTISEMENTS.

TO-MORROW!

POINTER—By making a new toilet on Sunday, we not only respect the day of rest, but ourselves.

The merchant, as well as the humble laborer, regards the Sunday rest with grateful feelings. If the laborer have hardness, the merchant has his cares, both fret and exhaust. To thousands Sunday wouldn't be Sunday without an entire change of apparel; and it is for this reason that Tooke makes an unusually attractive display

ON SATURDAY.

There is a larger disposition to buy on Saturday than upon any other day in the week, for the reason principally that gentlemen engaged in business have more leisure to attend to their personal wants.

At Tooke's, through constant augmentations, the variety in each of the special lines in Gentlemen's Furnishings is always kept at normal mark. The normal mark means such a completeness and abundance, as no other house on this continent can show. This is not swagger. It is a bare statement of fact, susceptible of instant verification. When you go to buy anything, choice affords you an instant feeling of comfort. When two or three examples are shown you feel "kinder" and more at ease. A sense of bereavement steals over you. The world feels cold and naked. Your spirits sink, and even when the street car stops for you at the crossing, that rare generosity fails to restore your faith in human nature.

At Tooke's there is

AMPLE CHOICE,
A. I. QUALITY,
LOW PRICES.

TRANSATLANTIC.

THE COLLIERY DISASTER.

PARIS, July 4.—The coal pit at St. Etienne, in which the explosion of fire damp occurred yesterday, is still on fire. Many more bodies have been recovered, but the work is attended with great difficulty and danger.

STILL WINNING.

LONDON, July 4.—The Massachusetts rifle team shot against the Sussex team at Brighton, today. The light was clear, but a strong wind was blowing. The Americans won by 935 points against 910.

THE AMERICAN CRICKETERS.

DELBIN, July 4.—The game between the Amateur Cricket Club of Philadelphia and the Dublin Cricket Club was concluded yesterday. When the game was called yesterday the Americans had made 43 runs and five wickets. Today the visitors were in better form, and battled with much greater confidence.

PERILOUS EXPERIMENTS.

LONDON, July 4.—While making experiments with ether in the laboratory of Dr. König in Munster, Westphalia, today, two of the doctor's assistants, Drs. Fricke and Boserhausen, were fatally injured by the burning of ether.

AMERICAN.

A MILLION DOLLAR FIRE.

MILWAUKEE, July 4.—The big brewery of Milk, Jung & Borchert, Wauwatosa, just beyond the city limits, was burned to-day. Loss, \$1,000,000; insurance, \$350,000. Nearly 50,000 barrels of beer were destroyed.

A CRAZY WOMAN'S DEED.

NEW YORK, July 4.—It was discovered yesterday by accident that Miss Leonie Stevenson, aged 30, of Bayonne, Hudson County, N.J., attempted suicide in a peculiar manner on June 29, while insane. Her reason became deranged by religious studies, and for fear that she would do violence to herself a professional nurse was procured by her relatives.

THE FRENCH-CANADIAN CONVENTION.

NEW YORK, July 4.—The French Canadians having finished their convention, enjoyed themselves at a picnic yesterday at Salonga's Harlem River park. There were many at the park during the day, and the games for the children that were to have come off in the afternoon had to be indefinitely postponed on account of the rainy weather.

A DISASTROUS STORM.

CACON, GREAT DESTRUCTION IN PENNSYLVANIA. PHILADELPHIA, Pa., July 4.—A dispatch from Titusville, Pa., says: A terrific thunder storm passed over this city last night. It was followed by two cloud bursts that caused a serious overflow of Church Run creek, which traverses the city through the park.

THREE MILES OF STREETS WERE FLOODED.

and over two feet of water covered the sidewalks. Families along the line of the flood became frantic, and a number of rats were killed, on which women and children were taken to places of safety. The damage to residents in the city is estimated at \$15,000.

THE CLOUD BURST

occurred in a perfect avalanche, sweeping all before it. What was fertile gardens, are now stony wastes, and a number of valuable farms are ruined. Officer Michael Moran, a great personal peril, saved the lives of a man and wife who were being washed into the run clinging to planks.

DRIVEN FROM THEIR HOMES.

The stores, iron mills and houses on the river bank were all flooded, and the truck gardens and farms in the surrounding country badly damaged. Several new country bridges and much fencing were carried away.

FIRE.

ELITE, Ont., July 4.—This morning about half-past four o'clock the sawmill owned by Isaac Rogerson, was completely consumed by fire. Loss between four and five thousand dollars. Insurance, \$2,000.

A CENTRAL AMERICAN WAR

COSTA RICA AND NICARAGUA GETTING READY FOR WAR.

NEW YORK, July 4.—A special from Panama says—Costa Rican troops are marching rapidly upon Nicaragua and a war in which all the Central American republics may become embroiled is expected to break out at any moment.

THE TROUBLE

arises out of the old boundary dispute between Costa Rica and Nicaragua, which it was supposed had been settled by the decision of ex-President Cleveland last spring. As will be remembered, the judgment was in favor of Costa Rica. Nicaragua ostensibly acquiesced in the verdict, and the occasion was celebrated throughout Central America as the happy dawn of an era of peace.

MILITARY AMBITION.

and since his accession to the presidency of Costa Rica, five years ago, has been extremely jealous of the preponderating influence in Central American councils exercised by Guatemala and Nicaragua. Those in his confidence say that the ambition of his life is to unite the five Central American republics under his leadership, and to establish himself in a commanding position in a new capital city on Lake Nicaragua, which would become the Constantinople of America.

WAR IS INEVITABLE

if an attempt is made to cut the canal through any part of that country. General Guardia, a well known warrior, says that the Government is taking active measures for defence, so as to be prepared for a possible surprise. All strategic points have been inspected with a view to massing men should occasion arise.

THE CITY WATER FRONT

has become a deeply interesting one for the citizens. So long as Toronto was at the mercy of the Grand Trunk Railway the city was willing to make great sacrifices in order to secure proper accommodation for the Canadian Pacific.

THE PRAIRIE PROVINCE.

A PRO-JESUIT MEETING BROKEN UP. WINNIPEG, July 4.—A lecture on the Jesuits was to have been delivered last night at Plum Creek by the Rev. Father Drummond. A good sized audience had congregated, but just as the lecturer was about to begin his address a large number of persons broke into the room and interrupted him.

NOTES.

The American residents' Fourth of July excursion came to a sudden end by the steamer running on a rock about six miles up the river. The excursionists had to send to town for vehicles to bring them home.

A Winnipeg alderman distinguished himself yesterday by attacking a brother alderman, a city official and a reporter, but did no one any harm. The official threatens to report him to the Council.

The Liberals held a convention at Crystal City yesterday and passed resolutions endorsing the Greenway Government.

A demented youth has been discovered near Lac la Pêche making his way to Hudson's Bay. He said he was from New York State.

An Indian charged with attempted rape on a white girl, has been sentenced to three months' imprisonment and twelve lashes at Regina.

One Clegg, recently arrived from Blyth, Ont., was dragged to death by a horse yesterday at Calgary.

CAMPBELLFORD, Ont., July 4.—This afternoon while bathing, a lad named Samuel Stevenson, aged 14 years, was drowned. With two or three others he attempted to swim out to a boom, but he failed to reach it and the other boys could render no assistance.

The Commons Colonization Committee is taking evidence which will likely lead to important results. Mr. McNell, the Imperial Crofter Emigration Commissioner, declared that hundreds of families in Lewis, Harris, Uist, Benbecula, Barra and Skye are anxious to emigrate to the North West on terms similar to those granted to the recent party.

THE WEEK IN ONTARIO.

(Special Correspondence of the Witness.)

TORONTO, June 28.

THE ANTI-JESUIT CRUSADE still occupies a large share of public attention throughout Ontario. Those who expected it to die out after the first spasmodic effort now readily admit that they misjudged the situation.

It has passed several critical stages, and there is to all appearance less risk of failure now than there was a month ago. By failure here is not meant want of success in securing the disallowance of the Jesuits' Estates Act; for, curious to say, few seem to expect that it will be either disallowed or declared unconstitutional.

Numerous signed petitions will be sent in to the Governor-General-in-Council, just as if the promoters of the petitions believed in their efficacy. But after the 8th of August an aspect of the agitation which has been heretofore kept a good deal in the background, will come more to the front.

This is the electoral aspect of it. From the 8th of August till the general elections for the House of Commons takes place, the discussion of this question will be incessant, and it will be carried with a special purpose to influence the complexion of the next Parliament.

Between now and that time will, in all probability, take place a general election for Quebec and one for Ontario. At each of these the issue in one form or other will be raised. This will help to keep the matter alive, and to deepen the new line of cleavage at the next Dominion election.

A great impetus in this direction has been given by THE ST. JEAN BAPTISTE CELEBRATION at Quebec, and especially by the speeches delivered on that occasion and the contents of the political papers upon the whole episode.

Under other circumstances the people of Ontario might have become quite enthusiastic over Jacques Caetier and even have expressed some admiration for Father Brebon. They are not likely to be either enthusiastic or appreciative in the face of taunts, defiance, and contempt. Had Mr. Mercier's object been to give an impulse to the anti-Jesuit movement he could not have adopted a tone or delivered a speech more likely to produce that effect.

There are thousands of people who are not fairly open to the charge of fanaticism who will bitterly resent that speech and bear it long in remembrance. They allege that when they complain of the introduction of the Pope as a power in a Canadian law-making it is no fair reply to point to the presence in numbers and political power made by the Jesuits race; and when they ask that English be the language of instruction in the public schools of this Province they decline to take the permission given by the French majority in Quebec to the French Protestants to teach what they please in their schools as a sufficient reason for allowing the French people of Ontario to teach what they please in the public schools of this Province.

They allege that Mr. Mercier has ignored the fact that Quebec is not a French but a British province, and they describe his language on this point as grossly insulting, coming from one of the conquered race to the politically dominant one. Where is all this going to end? It is now in the last degree unlikely that the two races will ever again be even as tolerant of each other as they have been. It is far more likely that the present style of warfare will be kept up on both sides, and that the tendency will be towards discussion rather than towards solidarity.

This is not the place to enter into any discussion of the merits of either side's attitude or utterances. It is not necessary to do more than to record the important fact that the St. Jean Baptiste celebration has perceptibly widened the breach between French and English over the Dominion, and postponed, if not precluded a *mokus stantia*. The struggle for

view after his recent visit to the North-West. Sir Robert Herbert, the permanent secretary of the Colonial office, while realizing the success of the crofters in the North West, urged Newfoundland as a desirable field for crofter emigration. The committee will report shortly, though it is hardly possible that the Government will propose a further colonization scheme till next session.

CROFTER COLONIZATION. The Commons Colonization Committee is taking evidence which will likely lead to important results. Mr. McNell, the Imperial Crofter Emigration Commissioner, declared that hundreds of families in Lewis, Harris, Uist, Benbecula, Barra and Skye are anxious to emigrate to the North West on terms similar to those granted to the recent party. A terrible state of misery is prevailing in many crofter districts. Mr. Colmer, secretary of the Colonization Board, strongly urged that £120 is inadequate to settle a family. FRIDAY, JULY 5, 1889.

ANOTHER LITTLE WAR has begun between the Central American republics of Costa Rica and Nicaragua, which may involve Guatemala before the end is reached.

AMERICAN RIFLEMEN from both the United States and Canada have been so far very successful in winning matches against local teams in Great Britain. It is not wonderful that national teams, chosen from among nations of shooters, should be able to vanquish English club and county teams made up of volunteers.

THE SILENCE of the "GAZETTE" in regard to the plain question of the Witnes asking whether it was authorized to state as it did that the Government had determined to submit the Jesuits' Estates Act to the Supreme Court, or whether that was one of the false statements made when a "political exposure" demanded, is perhaps natural.

LONDON'S ICE WELLS.

WHERE ENGLAND GETS HER SUPPLY AND HOW SHE KEEPS IT—THE USE OF ICE CONSTANTLY INCREASING.

The streets of London do not yet resound with the rattle-thud rattle thud, so familiar to Montrealers as the ice cart delivers its daily block on the sidewalk.

Armed with a letter to Mr. Earle, away went the newspaper man along the Katild highway to the Glamis road entrance to the London docks.

All the ice imported into England, said he, "comes from Norway. It is cut from the lakes along the coast, stored in huge ice houses to the extent of as much as 200,000 tons annually, and put from them into our ships.

The sawdust used to stick to the ice, and got frozen to the blocks, so that frequently a shaving an inch thick would have to be taken off, which you can understand would be a considerable loss.

GREAT DEAL OF WASTE AND LOSS.

TO EJECT THE INFANTS.

(To the Editor of the Witness.)

Sir,—Without commenting upon the rights of Mr. James O'Brien to eject his son-in-law, Dr. Guerin, which you speak of in your issue of yesterday, permit us, as the representatives of the doctor, to correct an error of fact which no doubt was unintentional.

The facts are simply these: Mr. James O'Brien gave Dr. Guerin a nine year lease of the house referred to; the Dr.'s wife died a year ago; there are seven years of the lease yet to run; the lease is worth \$700 a year; Mr O'Brien will not allow the Doctor to sublet, and consequently after the Doctor moved his children out of the house, it remained vacant with the exception of a few rooms.

PALPABLE NONSENSE.

There is another statement of the Gazette's which must strike the readers of that journal as very peculiar. It says: "The Federal Government cannot now charge its decision not to interfere with Quebec's statutes of 1855. They came before it, were passed upon by the Minister of Justice, and allowed to stand. Parliament, to which the Government is responsible, has approved of this action by a majority that was never equalled in its records.

A FINE LITTLE PLAN.

Said one of the men interested in the movement: "Should Canadian land be secured an effort will be made to colonize with 1,000,000 Irish and Irish-American farmers. This number of Irishmen with the addition of the Irish already in Canada and the assistance of the French-Canadian element would, it is thought, be able to capture the Canadian Government and turn it into a French-Canadian Republic."

TORONTO'S WATER FRONT.

MEETING OF THE BOARD OF TRADE.

TORONTO, July 4.—A general meeting of the Board of Trade was held to-night to receive the report of the delegates appointed to proceed to Ottawa in connection with the delegation from the City Council to discuss the claim of the Canadian Pacific Railway to expropriate that portion of the Bay between Young and Simcoe streets from Esplanade street to the new Windmill line before the Railway Committee of the Privy Council, and for the purpose of fully discussing the whole question of the approach to the water front. It is claimed that if the Canadian Pacific Railway gets possession of the water front it will practically close it to the citizens and that the company desire the land for other than railway purposes.

STRONG SPEECHES WERE MADE.

On behalf of the rights of the citizens, and it was unanimously decided to oppose the expropriation, but that the city was willing to lease certain parts of the land. Several resolutions were passed, and the report of the delegation was adopted. A resolution was moved that, in the opinion of the Board of Trade, no satisfactory reasons could be shown why the Canadian Pacific Railway is entitled, under the Railway Act, to expropriate the land they claimed, and that the city should retain possession of it.

BOARD WOULD FAVOR THE PROPERTY.

Some of Simcoe street being leased to the company under such conditions as will retain proper facilities for our people to reach the water with entire control as well as the fee simple vested in the corporation of Toronto. The last resolution instructed the Esplanade Committee to proceed with the fullest enquiry into the whole question of the approach to the water front, and specially with reference to elevating the railway tracks and providing for an entrance to the city of other railway companies, and, also, to act in connection with the City Council by every legitimate means in defending the obvious and necessary rights of the city. All the resolutions were adopted.

THE MONTREAL CANOE CLUB SERIES. The Montreal Canoe Club has decided that the regatta which make up its series for 1889 are to be: The Lake St. Louis, July 27th; Valois, August 3rd; St. Ann's, August 10th; Pointe Claire, August 17th, and the Grand Trunk Boating Club, August 24th. The prizes offered are for the winners of the greatest number of the following races: Single paddling and tandem paddling, four-oared canoe, and open and coxed sailing races. Points will be given to the winner of each race, and the member of the Club making the greatest number of points in each series will win the prizes. The Pointe Claire district will give a subscription trophy to be called the Pointe Claire cup, as the prize for the decked canoe sailing series.

CHIMES AND CRIMINALS.

CANCELLED HIS LICENSE. N. Rich and J. Quellan were each fined \$20 yesterday for selling liquor without a license. The license of J. Quellan was cancelled for a second offence in Sunday liquor selling and cancelled his license. McMillan has now to answer a charge of Sunday liquor selling. The charge being laid is a third offence.

CHARGED WITH ATTEMPTED MURDER.

ALEXANDER BECK UNDER ARREST CHARGED WITH ATTEMPTED MURDER. Detective Caspau, accompanied by Sergeants Prunk and Lafontaine, arrested him on University street last night. According to Horace Shaegren, the complainant, the accused made her acquaintance in the winter of each year, where she was in service. He pretended to be single and under the promise of marriage induced her to follow him to Montreal. He got work at a watch case factory, but was too irregular to keep it. The young woman determined to get a place. Yesterday morning a lady on University street told her to call in the evening. Beck raged at the girl for deserting to get away from him. They had been living together at a restaurant. She discovered that he was a married man. He made her return to University street, and said "we will end our days together." Closing the door, she says, he seized her by the neck and tried to throw her through a window. Her screams brought a neighbor to the scene, who saw Beck put down the razor. Beck made off. The police were summoned and suggested that the complainant should go to University street and they would follow. Beck was on the lookout for her, and was promptly placed in custody. He will be tried on Monday.

THE NITRATE KING

MAKING A TOUR THROUGH CANADA.

ENGLAND'S GREAT BENEFIT BRINGS HIS MONEY BAGS A TRAVELLING.

The famous Col. North, who has been dazzling London with his extravagant display of money, and almost succeeded in getting the Prince of Wales to attend one of his entertainments (the gorgeoussness of which has never been approached in the memory of England) left New York yesterday with his party in a special car for Niagara Falls, Toronto, Montreal and Saratoga.

The possessors of more than \$100,000,000 sat about a well-spread mahogany table in the Victoria Hotel yesterday. It was noon, and Col. John Thomas North, London's most famous contemporary financier, was breakfasting with a score of friends and relatives, with some of whom he had made the grand tour of the Pacific coast of South America.

A MECHANICAL ENGINEER in LEEDS about thirty years ago. He is now about forty-eight years of age. As he sits with his son Fred, a bright, earnest, thoughtful-looking young Englishman, on one side of him, and his wife, a charming matron of about forty, on the other, "the marvel of modern financing," as Baron Alfred de Rothschild called him, looks like a hard-working, unassuming Englishman.

building at their home, ten miles out from London, Avery Hill, Kilbarn, Kent, and of the array of workmen who have been at work upon this addition to their already magnificent mansion and upon the grounds, through which a splendid new driveway has recently been cut at an expense of thousands of pounds.

building at their home, ten miles out from London, Avery Hill, Kilbarn, Kent, and of the array of workmen who have been at work upon this addition to their already magnificent mansion and upon the grounds, through which a splendid new driveway has recently been cut at an expense of thousands of pounds.

others of this party who have just arrived to convey him home are, besides Mrs. North, Mr. Taylor, who married Mrs. North's sister and who looks like the pictures of John Bull in his younger days; Mr. Jewell, Col. North's partner in many enterprises, a dark, good-looking, stalwart Englishman of some forty-seven or forty-eight years of age; "Jack" Cardwell, Col. North's sporting friend, a high-colored, sharp-nosed and very clean and pleasant-looking young man—who will "bet you two to one" on almost anything; Mr. McKay, a very shrewd-looking young man, who is a company promoter and who was on the steamer with Mrs. North though not in her party; Mr. Smithers, Col. North's chief broker, a big, tall, very dark Englishman, very dignified in manner, smooth-faced save for bushy black whiskers under his ears and clear-eyed; as a man of such various business affairs ought to be; Mr. Spenser, an able young member of Parliament from West Bromwich, whose blond, fresh face betrays his forty years, and his wife, a handsome, dark woman in a blue check

it was over his cold boiled fowl, ham, caviare, eggs, grapes, plums and peaches, mufins, toast, coffee, tea, beefsteak, potatoes, and over so much else that helped make the dazed table look prettier. They have been lunched down on the South American coast and were not a bit spoiled by it. When the President of Chili received them at Santiago he was naturally surprised that these pink checked girls had been whirled in waggons and on horseback for hundreds of miles over the sandy pampas, a trip in which no civilized woman perhaps had ever preceded them, at the rate of fifty or sixty miles a day. But nitrate is worth that much exertion and more.

What are nitrates? Nothing more than a fertilizer in which nitrate of soda is the chief constituent, and which is found on the mountain plateau of Chili. There at Iquique, a city of 90,000, half way between Callao and Valparaiso, for example, where the Nitrate King employs thousands of workmen, he is indeed a King, with his factories, his water works, his shipping and his railway. He has large interests in Belgium, company after company in London, steamship lines and railways in many places. So rapidly does he develop what comes into his hands Col. North actually forgets what and where some of his properties are. Primitiva-

Tarapaca is the site of one of his great nitrate works. "The railway he has built," said Mr. Melton Prior, of the Illustrated London News, "from Iquique to Pisagua is the most wonderful feat I ever saw. It zig zags up and down the Cordilleras in the solid rock for forty-eight miles. The engines that draw cars on that road are 'double enders,' in reality—exactly alike at both ends, with two smokestacks and only one cab."

FAMOUS OLD MONTREAL

A writer of the New York Graphic has been "doing" what he calls "famous old Montreal," and he talks about "prosperous people in the queen of Canadian Cities."

But all is not rose-colored in Montreal. It is a divided city, with two distinctly separated people that will not blend.

The writer of the New York Graphic has been "doing" what he calls "famous old Montreal," and he talks about "prosperous people in the queen of Canadian Cities."

There are some reasons for there being so many papers in Montreal, no doubt, that there is a mixed population of French and English speaking citizens.

On the resignation of the late Charles J. Brydges, in 1874, Mr. Hickson was placed in charge of the company's affairs in Canada, and assumed the General Managership, which position he still holds.

Mr. Hickson's management has been highly successful. When he joined the Grand Trunk in 1861 its traffic earnings for the year ending June 30 were \$3,476,773.

The opening of the new Zion Church will take place on Sunday. Prof. Fenwick will preach in the morning, the Rev. E. M. Hill in the afternoon, and Principal Barbour in the evening.

MAPPING THE MAINS.

Mr. McConnell is having all the new mains, hydrants, etc., that have been laid recently, placed on the large maps in the Water Department.

DOMINION SQUARE CONCERT.

To-night, at 8.15, the Victoria Rifles band, under the direction of Mr. Ed. Hardy, will perform the following programme:

- 1. March—American Guard..... Brooks
2. Polka—El Corral..... Corbin
3. Overture—Les Diamants de la Couronne..... Asher
4. Biscotto Solo—La Vierge..... Douard

NO MORE BONUSES.

"Will Mrs. Macdonell get a bonus?" was asked Mayor Grenier this morning.

TRI-COLOR OR JACK?

MR. MERCIER'S CHALLENGE TO BE TAKEN UP AT THE MASS MEETING TO-NIGHT.

INTERVIEW WITH THE RENOWNED DR. CAVEN. The Rev. Principal Caven, president of the Ontario Equal Rights Association, arrived this morning from the West, and was met at the station by Mr. L. H. Davidson, Q.C., and Mr. W. Paul.

"How do the politicians treat your movement?" Oh, the party papers treat us with great respect. They either report us truthfully or say nothing at all about us.

THE MACHINE SYSTEM, and both parties watch it very closely. The Mass supports us. The Globe favors disallowance, but they, perhaps, would like to see us make a mistake.

"Is there as much cohesion as ever in your ranks?" As far as can be seen, there is. There have been a very large number of signatures to the petitions, and now they are organizing for a thorough canvass of the voters.

"What about the other provinces?" There is correspondence going on with a view to the opening of branch organizations in other provinces. I was told in Toronto the other day that

MR. MERCIER'S SPEECH about the tri-color flag would certainly further our objects. It certainly opened the eyes of some people.

Dr. Caven says he has not spoken in Montreal since the last meeting of the Presbyterian General Assembly here. He preached here once last year, but that was the only public speaking done here by him.

Major E. L. Bond telegraphs from the steamer passing Rimouski to-day that he regrets his inability to be present at the meeting, but it has his sympathy.

Dr. Davidson, Q.C., will reply to the question "Tri-color or Union Jack, which?" this evening. The Citizens' Committee met last evening, and after a most enlightening conversation upon ways and means, arranged for committees to look after the public meeting this evening in the new St. James Church hall.

SAVED A FAMILY OF BIRDS.

A man was recently at work plastering up a crack in the outside wall of a house on Drolet street. The lady of the house at the time noticed the "cheep, cheep" of some young sparrows and requested the plasterer to leave room for the old birds to come and go to and from the nestlings.

Talking of bird's nests.—An old soldier who recently visited the government portion of St. Helen's Island says that the most sign of peace he ever saw is there, in the shape of a bird's nest, full of young fledglings, in the mouth of a cannon.

TOO MUCH DUST IN THE COAL.

The City Engineer was not feeling at all pleased this morning, owing to a little trouble with a coal contractor. It seems that Mr. Pierson found too much dust in his "screened coal," and on visiting the yard to formulate a complaint discovered that the screens had boards at their backs which kept a good deal of the dust where it was originally.

KILLED BY A HORSE'S HOOF. On Sunday evening the seven year old son of Mr. David A. Ward, baker, of Chabany, was bringing home his father's cows along the canal bank, when he passed too close to a horse standing there loose (fancying that it also was his father's animal), and received a terrible kick in the abdomen.

The municipal authorities of Cote St. Paul are getting up a petition signed by the majority of the taxpayers, asking the Lieutenant-Governor to establish a commissioners' court in the municipality.

CITY ITEMS.

The St. Andre street widening, nipped in the bud by a counter-petition, has cost over \$100 in preliminary expenses. Under the present law this loss falls on the city and not on the proprietors interested.

It being claimed that wooden roadways would not stand the climate of Montreal, the Chamber of Commerce has written for information to St. Petersburg, where wooden roadways have been in existence for a considerable time.

BATTLE OF ST. EUSTACHE,

14th Dec., 1837. WRITTEN BY AN EYE-WITNESS.

SIR.—Having read your paper from the first number up to the present time I know it pretty well and that you always try to stick to the truth (so far as you know), but on some occasions you do not know and thus (unintentionally) publish error.

"Under the Greenwood Tree." The writer is apparently a patriotic Canadian (as we all ought to be), but with the best intentions we sometimes make mistakes. As your paper circulates in Europe, United States, &c., no doubt some people will read that item who know little or nothing of the real state of the case.

I would form the opinion that Sir John Colborne was either a knave or a fool, or probably both. Just think of marching 2,000 officers with artillery to attack sixty habitants under Dr. Chenier! "On the 19th plus que ridicule" I don't ask you to trust to me alone.

Dr. Chenier was a very brave man, but he probably suspected something, as he knew we had some red-coats with us and St. Martin, but here we were. We got orders to fix bayonets on our rifles. As a defence against superior numbers, we were ordered to kneel in the snow, resting our muskets on a stone fence about three feet high—expecting the enemy to attack us in front.

HENLEY REGATTA.

LONDON, July 5.—In the third heat of the race for the diamond sculls at Henley to-day, Nickales, the English oarsman, easily defeated Peotta, the American amateur champion.

END OF A "CROOKED LIFE."

KANSAS CITY, July 5.—The dead body of Francis D. Cavanaugh, president of the Kansas City carving works, was found in an alley here yesterday. There was a bullet hole in his right temple and a revolver in his hand.

THE DEADLY "WRECK."

DURHAM, Ia., July 5.—A wreck occurred last night on the Chicago, St. Paul and Kansas City Railway two miles north of this city. One man, a brakeman named Corrigan, was killed and three others were seriously injured.

A HORRIBLE FATE.

OMAHA, Neb., July 5.—Two unknown men were killed and Charles McElroy fatally injured here yesterday by being run over by an engine. The men were intoxicated and were fighting.

land owns the land! Then, after paying his rent, one would naturally hope to be left quiet till next year. Not at all. Before the Reform bill passed you had to maintain your own minister (voluntarily), and then give the tenth of all to the Church of England; not only grain, but sheep and hay. My father had one thousand sheep and every year he had to give the tenth lamb; if not, the tithers arrived with his men and carts and horses and carried them off.

FRUIT.—The receipts of berries this morning were again very large indeed, and they sold freely at 5c to 6c. The trade in berries is enormous at present, and comparatively little is being done in other fruits.

DAIRY PRODUCE. CHEESE.—The market continues to be rather quiet, and it is doubtful whether cheese are worth as much as they were two days ago.

VIGOR COW MARKET.—July 5. There were about 55 milch cows offered on this market to-day, and trade was very dull with low prices prevailing, and not one fourth of the numbers offered were sold at eleven o'clock.

FARMERS' MARKET PRICES.—July 5th. There was a large concourse of sellers and buyers of farm and garden produce at the Bonsecours Market to-day, and as the prices of nearly all kinds of "truck" are very low, while the demand seems very active, a very large trade was done throughout the forenoon.

THE SECRETAN PICTURES. PARIS, July 5.—The sale of the Secretan collection was concluded yesterday. Jacobson, a Copenhagen brewer, bought five pieces of Gobelin's tapestry for 85,000 francs.
