STAGE IS SET FOR INQUIRY

Court Will Convene To-Morrow To Inquire Into Loss of Empress of Ireland

LORD MERSEY, CHIEF OF THE BOARD, TO ARRIVE IN QUEBEC THIS AFTERNOON FROM MONTREAL.

Quebec, June 15. — (Special) — The stage is all set for the beginning of the inquiry into the loss of the C.P.R. vessel Empress of Ireland.

Lord Mersey, chief of the Board, will arrive here this afternoon with part of the court.

Capt. C. A. Demers, Dominion Wreck Commissioner, arrived this morning. He is one of the assessors in the case.

The officers of the collier Storstad are here too, and a large legal contingent which will look after the interests of all parties involved.

Around the Chateau it is said the Court will require at least a month to hear all who are to be heard. It is expected, too, the Court will sit until six o'clock every day. It will be held in the Court House, where all the telegraph companies have installed special wires to carry the story to the world.

At ten o'clock to-morrow the court will convene with Lord Mersey acting as chairman.

S.S. NEW YORK ARRIVES IN PORT

Had About Twenty Feet of Port Side Damaged by S. S. Pretoria

SHIPS MET IN FOG AND WAS STRIKINGLY SIMILAR TO EMPRESS OF IRELAND STORSTAD DISASTER.

New York, June 15.—The American liner New York, with twenty feet of steel plating on the port side, just aft of her prow, peeled off as the result of a crash at sea with the Pretoria, of the Hamburg-American line, came into port yesterday afternoon. She brought over 650 passengers, all thought at having escaped a disaster similar to that which sent the Empress of Ireland to the bottom.

Captain W. J. Roberts, of the New York, said that when the German vessel struck his in the fog that the American liner was at a dead standstill and was signalling the approaching steamer to do the same.

Passengers, with few exceptions, on the New York, were loud in their praises of the seamanship displayed by Captain Roberts. A testimonial, signed by all but three or four passengers, was given to Captain Roberts today.

SIMILAR TO EMPRESS OF IRELAND DISASTER

Strikingly similar in all but disastrous results were the Pretoria-New York and Empress of Ireland-Storstad collisions. Both accidents happened in fog; both came along the captains of the ships involved.

Strikers Set Fire to Cathedral.

Bologna, Italy, June 15.—(Special)—Rioters to-day set fire to the Cathedral, the Church of Peace and the Church of the Holy Cross in Senigallia on the Adriatic after they had sprinkled the doors with petroleum stolen from a store.

Cavalry arrived in time to prevent the destruction of the Cathedral, but the interiors of the other churches were devastated and only the walls remain standing of the Church of the Holy Cross.

MILITIA CORPS OFF TO PETEWAHA

TWO SHERBROOKE UNITS LEFT SHERBROOKE BY SPECIAL TRAINS.

The officers, non-coms, and men of the No. 6 Co. Army Service Corps and No. VI Cavalry Field Ambulance left by special train yesterday afternoon over the C.P.R. for Petewawa for their annual twelve days training in camp.

Each corps comprised fifty men with their full complement of horses. Major Williams commands the Ambulance unit and Major J. B. Keating is in charge of the Army Service Corps.

EXCITING CHASE AFTER THIEF

Safe of Sherbrooke Hotel Proprietor Robbed in Broad Day-Light on Saturday

ALL ATTEMPTS AT CAPTURE HAVE PROVED FUTILE—RACE BETWEEN TRAIN AND AUTO.

Mr. H. J. Weyland, the proprietor of the Montreal House, was robbed of a sum of money amounting to about \$45 by a mysterious stranger on Saturday afternoon. The thief has so far eluded all attempts at capture.

The facts of the case as related by Mr. Weyland to a representative of the "Record" this morning are as follows:

An unknown man went into the bar on Saturday afternoon shortly before five o'clock and ordered a glass of beer. He afterwards was seen going through the hotel office and a few moments later Mr. Weyland discovered him in his private office behind the general office. He was standing in front of the open safe and on being asked for an explanation of his presence said: "I am looking for some papers."

The telephone bell in the next room rang and Mr. Weyland thinking his visitor could not get away went to answer it. As he took up the receiver the man, evidently thinking the police were being communicated with, rushed past him with a bundle of bills in his hand and dashed over to the Union Station where the 5 o'clock B. & M. train was just pulling out. Mr. Weyland followed in quick pursuit, but the individual boarded the train from the off side, while the victim was left behind.

At this juncture, Dr. Williams passed in his auto and seeing Mr. Weyland was in an agitated condition inquired the cause. On being informed he invited him into his car, saying, "We will beat him at Lennoxville." The auto went at full speed towards the neighboring town and reached Lennoxville two or three minutes ahead of the train. When she pulled in Mr. Weyland entered the cars but failed to find his quarry. Enquiries from a brakeman elicited the information that a man had left the train on the offside and was running in the direction of Capleton. Dr. Williams and Mr. Weyland jumped in their car and went as far as Comstock bridge but were unsuccessful.

The news had quickly spread through the district and on returning to Lennoxville they visited Constable Dandin. While there a telephone message came saying the man had been caught at Colby's barn but on arriving there the man was nowhere in sight.

Subsequent inquiries have proved that the thief did visit Colby's barn, evidently to hide, and that he left it soon after entering and sprinted down the C.P.R. track. It is supposed he saw Mr. Weyland in the car, and while the latter was searching the B. & M. line he made good his escape down the other rails.

Up to the time of going to press the thief had not been located.

OUTRAGE IN FAMOUS CHURCH

Militants Held Responsible For Bomb Explosion St. George's Church, London

DESECRATION OF THIS EDIFICE HAS INCREASED ALARM AS TO HOW FAR MILITANTS WILL GO.

London, June 15.—A bomb was exploded in St. George's Church, Hanover Square, last night. There is evidence to show that the explosion was the work of suffragettes, and, coming so close upon the bomb outrage in Westminster Abbey, the desecration of this famous edifice has increased alarm as to how far the militant women intend to go.

The caretaker of St. George's had locked the church after a careful inspection on the conclusion of the evening service. A few minutes after ten o'clock a passer-by heard an explosion and summoned the fire brigade. The firemen forcing the doors found the church filled with a dense white smoke. Three pews in the north aisle and three stained glass windows were damaged by the explosion, while a pew in front of the lectern was blown down.

Fortunately, the famous painting of "The Last Supper," by Sir James Thornhill, which hangs over the altar, was not damaged, although the window above it was splintered.

TRIBESMEN ATTACK FRENCH COLUMN

Oujda, Morocco, June 15.—(Special)—General Baumgarten, with a column of French troops, while marching to join General Gouraud, was attacked from the rear yesterday by a large force of tribesmen concealed in ravines. After a desperate hand to hand battle the tribesmen were repulsed with severe losses. The French force lost five men killed and several wounded.

PRESENTATION OF ADDRESSES, ETC., WILL TAKE PLACE ON THE PARADE GROUNDS. TO VISIT HOSPITALS.

A meeting of the Reception Committee in connection with the visit of the Duke and Duchess of Connaught was held in the Council Chambers at noon on Saturday under the presidency of the Mayor.

Messrs. F. N. McCrea, M.P., and C. E. Therrien, M.L.A., were added to the Committee, and Col. R. J. Spearing was appointed to replace Col. Penhale, who is at Petewawa, on the Decoration Committee.

THE PROGRAMME. According to present arrangements, the Royal party will be met at the C.P.R. station at 10.30 a.m. on Thursday by the Mayor, Aldermen, other members of the Reception Committee. The Mayor and another lady will also take part in the reception at the station.

On arrival at the Parade Ground, a royal salute will be given, and six bars of the National Anthem will be played. The Duke will then inspect the guards, veterans, cadets and boy scouts, after which will take place the presentation to Their Royal Highnesses of the civic address. At the conclusion of the Duke's reply a reception will be held in the following order: (1) Members of Reception Committee and Ladies; (2) His Lordship the Bishop of Sherbrooke, Mgr. LaRocque; (3) Their Lordships the Judges of Superior Court and Councils; (4) The Clergy, of which the Right Rev. Vicar-General takes precedence, then in order of seniority in functions: Superiors and Directors of Schools, Catholic; (5) Principals of other Schools; (6) Board of Trade; (7) General, ladies and gentlemen.

The proceedings on the Parade Ground will take place on a specially constructed platform, 32 x 48, from which will fly the Royal Standard. Patriotic choruses, including the Governor-General's favorite, "O Canada," will be sung by the school children, and bouquets will be presented by two girls and a member of the Imperial Order of the Daughters of the Empire to the Duchess and Princess Patricia.

The marshalling of the children on the Parade Ground will be under the direction of Lieut.-Cols. Spearing, Rioux and Bowen.

The Royal party will afterwards visit the Convent Mont Notre Dame and the two hospitals. At each of these institutions receptions lasting fifteen minutes will be held. The distinguished visitors will leave for Lennoxville at 12.30.

LAST MINUTE TELEGRAPH DISPATCHES

CONTESTANTS IN ATLANTIC FLIGHT.

London, June 15.—(Special)—The second contestant in the first transatlantic flight is now in the field. Harris Singer, a member of the American sewing machine family, whose name is almost literally a household word, has notified the Royal Aero Club that the French airman, Auguste Maison, is a competitor for the London Daily Mail prize of \$50,000.

ILLNESS Baffles Physicians.

Philadelphia, Pa., June 15.—(Special)—Henry Lomis, 13 years old, is a patient at the University Hospital suffering from an ailment that baffles the physicians. The boy has been gaining steadily in weight and now weighs 198 pounds. The boy's weight was normal until recently, when he began to take on flesh at such a rate that his parents became alarmed.

He does not appear to suffer much inconvenience, and the only treatment at this time consists of strict dieting.

RUSSIAN ROYAL FAMILY IN ROMANIA.

Kustendje, Roumania, June 15.—(Special)—The Emperor and Empress of Russia and Crown Prince Alexis, attended by a numerous suite, arrived here yesterday aboard the Imperial yacht Standa on a visit to King Charles.

EX-VICE-PRESIDENT OF U. S. DEAD.

Chicago, Ill., June 15.—(Special)—Adelard Stevenson, Vice-President of the United States during Grover Cleveland's second term as President, died in a hospital in this city early Sunday morning. He was 78 years of age and had been ill a long time, death being expected for several days. His three children were with him at the end.

FREIGHT WRECK NEAR BROMPTON

Engine and Eight Cars Were Piled up Alongside the Railway Track

CONDUCTOR AND TWO BRAKEMEN WERE INJURED—ENGINEER AND FIREMAN ESCAPED.

Bromptonville, June 15.—(Special)—The engine of a freight train going towards Montreal jumped the track early yesterday afternoon at the east end of the yard here. The engine and tender ploughed their way through the gravel clear off the track when they stopped, and they were both sunk in the sand up to the axles. Eight cars also went off the rail and were badly piled up.

The engineer and fireman both jumped clear of the engine and escaped without injury, but the three brakemen were more or less injured. Brakeman Archibald, the front end brakeman, who was riding in the engine, had his ankle sprained. Conductor Boucher, who was in the van, at the time, was thrown down and had his arm injured and nose badly bruised. The rear end brakeman, named Gendreau, escaped with a sprained wrist.

The wrecking train was called out from Richmond and Island Pond, but it was not until nearly midnight that through traffic could be resumed. The derailed engine is one of the largest owned by the G.T.R. It was still alongside the track this morning and it will be quite a task to get it back on the track again.

PASSENGERS TRANSFERRED.

The afternoon train from Portland to Montreal came up as far as the wreck, and the passengers were transferred to a special that had been sent from Richmond.

The midnight train from Montreal was delayed about half an hour.

WAR BETWEEN GREECE-TURKEY

Cruiser Built For the Chinese Government Taken Over by the Greeks

SUBLIME PORTE HAS NOT YET SENT REPLY TO NOTE TO STOP PERSECUTION OF GREEKS

Washington, June 15.—The cruiser Fei Hung built by the New York Shipbuilding Company, for the Government of China, but later sold to Greece, will depart from New York this week under rush orders received from Athens for the near East, there possibly to take part in the impending conflict between Greece and Turkey, a warning of which was clearly given by the Greek Premier on Friday before the Greek Parliament. The vessel, a 2,600 ton cruiser, was to have undergone speed trials last Friday, but Greece suddenly waived the trials, paid for the ship and ordered immediate delivery. It was as first planned that the Fei Hung, a name which will shortly be changed, should sail on Tuesday of this week, but this has been found impossible. She will be taken to Greece by a merchant crew.

LOOK FOR WAR

Athens, June 15.—Was between Greece and Turkey is inevitable, according to the newspaper Hestia, which is considered as voicing the majority of Greek public opinion. The Government has not as yet received any intimation of the nature of the Sublime Porte's reply to the Greek note, demanding that Turkey cease its persecution of the Greeks in Turkey and make reparation to them for the losses incurred.

KING GEORGE TO VISIT DOMINIONS

HIS MAJESTY PLANS TRIP TO CANADA, AUSTRALIA AND SOUTH AFRICA.

London, June 15.—Ever since the King's accession it has been generally understood at Court that the King and Queen would, at the earliest opportunity, make a tour of the overseas dominions.

His Majesty has, indeed, promised both the Australian and South African governments that he would do this, and now the visit is expected to take place in the autumn or early winter of next year, the route being out by the Cape and home through Canada. The Colonial Office and the Government of the Dominions have already discussed the details.

King George particularly desires to attend the official founding of the new Australian Federal capital of Canberra.

THE WEATHER

Moderate winds; local showers, but mostly fair and cool.

An executive meeting will be held in Sherbrooke, in the E. T. Immigration Office, Odell block, at 8 o'clock to-morrow evening.

There will be morning and afternoon sessions at Hatley, though the principal session will take place in the afternoon.

It is expected that a good many of the delegates will go to Hatley by auto, a very delightful run over excellent roads.

Delegates travelling by train will drive over from Ayer's Cliff or Massawippi stations on the B. & M.R., a distance of three or four miles. The president, Mr. Wilkins, has an interesting programme of business to submit.

The first quarterly meeting of the Immigration Society will also be held, and reports of work up to the present submitted.

MUSLIMAN INSURGENTS WERE DEFEATED AFTER SECURING AN ADVANTAGEOUS POSITION.

Durazzo, June 15.—(Special)—Albanian government troops under the personal leadership of Prince William, to-day repulsed a strong attack on the Albanian capital, by Musliman insurgents.

At the outset of the fighting the insurgents gained an advantageous position, but after Col. Thomson, the Commander, had been killed, Prince William placed himself at the head of the defenders, who succeeded in silencing the rifle and artillery fire of the attacking force after three hours' fighting.

If Mrs. Brown Stayed Home

BEFORE you leave for your summer vacation, you order your favorite daily newspaper sent on to your vacation address.

And having had it sent on, do you not watch for its daily arrival almost as eagerly as for your personal mail?

But do you read the advertisements in it as carefully at such a time as you do when you're at home?

Of course you do! There is much in them to interest, advise and help.

The shrewd manufacturer, nowadays, realizes that it is wise to continue advertising his wares all the year round. He advertises all through the summer—partly to keep his goods before the numerous people who take no vacation and are thus possible customers every day throughout the year; partly to reach those who are away at summer resorts, but who will be home again in a few weeks

ready and eager to buy his goods. In his advertisements there is for Mrs. Brown, at the summer resort, just as interesting news of merchandise as for Mrs. Jones, who stayed at home.

When Mrs. Brown comes home she will find a lot of new things needed for her home and her family. And she should have her mind already made up as to the kind of things she will select.

Your daily paper, read on the porch of a summer cottage, will aid you in this—through its vitally interesting advertising columns—just as much as if you had stayed home and were reading it there.

So read the ads, Mrs. Brown—even if you are away.

You can obtain helpful advice on advertising free of and without obligation by consulting the Business Department of The Record.

SOCIALISM VS. CHRISTIANITY

Mr David Goldstein Dealt With Subject Before Knights of Columbus

SPEAKER CONTENTED THAT UNDER SOCIALISM THE HOME AND CHRISTIAN LIFE WOULD BE DESTROYED.

The hall of the Knights of Columbus was filled last night with an attentive audience who heard Mr. David Goldstein lecture on Socialism vs. Christianity.

Ex-Mayor Hebert occupied the chair and introduced the lecturer.

Mr. Goldstein spoke for over two hours in a convincing and eloquent manner. He said the Knights of Columbus did not exist for political purposes—that was prohibited. Within their ranks were Republicans, Progressives, Democrats, Conservatives and Liberals and men who practically belonged to no party.

The Knights of Columbus encouraged the application of Christian truths and were endeavoring to create a wholesome public sentiment truly Christian in spirit.

Socialism was the most vital assault upon Christian faith, it was atheism in its modern garb. One of its main purposes was the destruction of Christianity, and in proof of this statement the lecturer quoted numerous passages from the standard literature of the party. Some misguided Christians might call themselves Socialists, but a Catholic Socialist was an utter impossibility. Popes Pius IX. and Leo XIII. and all the cardinals and priests of the Church had declared against it.

Socialism sought to bring about a revolution in almost every department of human activity, therefore, it was not a political organization in its ordinary sense, because a genuine political party aimed to get control of the power of the state to carry out a policy in accordance with the lawful constitution of the state, but Socialism sought to control the power of the state in order to make the state die out. Ninety-five per cent. of its adherents learned its principles after joining the movement.

The whole theory of Socialism rested upon a materialistic conception of history, which denied the existence of an Eternal and intelligent God, the existence of eternal truths, and meant setting at naught the Ten Commandments. The underlying principle of the Socialist movement rejected in itself any belief in religion.

Under Socialism the marriage sanctity would be destroyed, the home would become a social industry, society would have to take care of and educate the children; ownership of property would be common which history had proved caused greater disharmony than private ownership; and Christian family life would be destroyed.

Catholics knew what to expect if Socialists ever got the upper hand. They had not forgotten the French Revolution, the Commune of '71, nor the recent history of Barcelona. "Who ever mistakes Christ for a Socialist, is certainly a dangerous muddlehead," said Mr. Goldstein in his concluding remarks. "The religion of Christianity is built upon free will and responsibility to God, and when the Socialist flag has been trampled down the Cross of Christ will be glittering in the heavens."

AFTER TWENTY ONE YEARS

Release of a Sane Man From a Russian Lunatic Asylum

To avenge his sister's honor, a Russian named Adrianoff killed the Mayor of Moscow twenty-one years ago. Despite evidence to the contrary, the court pronounced him insane, and ordered him to be confined in a lunatic asylum.

Adrianoff was examined several times by doctors, and declared to be compos mentis, but this did not influence the court's judgment, and he has been interned in the St. Petersburg asylum of St. Nicholas, the Miracle Worker, for over a score of years.

Now at length he has been released, after a searching examination by mental specialists, who found him perfectly normal. He replied quite rationally to all the questions put to him, these relating, inter alia, to the motive of the crime and the literature he had read during his long confinement.

The accused became particularly interested in occult subjects, and spent much of his time in the asylum in acting as letter writer and legal adviser for some of his fellow-inmates.

Povey dropped a third strike on Darby and the runner was safe on first. Bartlett, Kenison and Paquette followed with hits and eight runs resulted.

The locals scored their two runs in the fifth and sixth innings.

Croft Scored the Only Goal of
Game With a Shot From

Y.M. FORWARD LINE WAS WEAK
—AUELING, IN GOAL, SAVED
MANY TIMES

One of the largest crowds that has ever witnessed a game in Sherbrooke, saw Royal Athletic win from Y.M.C.A., on Saturday afternoon, by a score of 1-0.

Y.M.C.A. won the toss and started with the wind and sun in their favor.

Stevens set the ball rolling and Royal Athletic immediately attacked the Y. M. goal, and Aveling saved a shot from Croft which resulted in a corner kick.

Royal Athletic had the best of play all through the first half, the Y.M. defence having their hands full with the speedy Royal forwards. The first half ended with neither side being able to score. Aveling, in goal, played a great game, saving shot after shot.

In the second half Aston kicked off. Athletics with their usual dash secured through Tomlin, who passed to Jude. The latter centered to Stevens, who passed in great style to Croft. Croft found the net with a shot that gave the goaler no chance.

From the face off Aveling was called upon to save a shot from Stevens. The Athletic forwards played good combination, their passing being accurate and each man shooting and taking no chances. Their defence was also very strong, Henderson having little to do in goal.

For Y.M.C.A., Aveling, in goal and Myers on the forward line were the most noticeable.

Saturday's win places Royals on equal footing with Y.M.C.A., while Beebe took the lead in the standing.

The teams lined up as follows:

Athletic	Goal	Y.M.C.A.
Henderson	back	Aveling
Banks	back	Wootton
Tomlinson	back	Preece
Copeland	half	Brown
Tomlin	half	Engelke
Hornett	half	Duguid

BARACAS LOST
AT EAST ANGUS

Home Team Won Out by Four Goals
to One Before Large
Attendance

PREECE, IN GOAL, PLAYED A
STRONG GAME—LARGE TURN-
OUT OF SPECTATORS

Baracas travelled to Angus on Saturday and met Angus in a league game, but were defeated by four goals to one. The score by no means indicates the run of play as Baracas had as much of the game as Angus. Some 300 spectators were on hand when Referee Plummer started the game. Neither team was at full strength, injuries and other causes keeping such as Muir brothers out of Angus team and Burrows out of Baracas lot. The teams lined up as follows:

Baracas: Goal, Harper; backs, Bennett, Standeven; half backs, Smith, Thomson, Pratt; forwards, Miller, Mitchell, Aston, Petts, Way.

Angus: Goal, Preece; backs, Munday, Riddock; half backs, R. Richardson, Crump, Murray; forwards, Cosgrove, Roland, Arnott, Rowley, Irwin.

In the first half Angus had most of the play but Baracas were the most dangerous around the goal but could not beat Preece, last year's custodian, who played his first game of the season and a strong one. Play went to the Baraca end and Irwin shot over the bar and Crump shortly after put past. Angus, as usual were weak in front of goal, all their good mid-field play resulting in no advantage. About fifteen minutes from half time Roland went through and scored first goal of game. Petts was the Baracas best forward, having some good efforts. The first half ended with the score one to nothing in favor of Angus.

The second half was very exciting. Miller went through and opened the score, giving Preece no chance to save. Baracas attacked Angus goal and Murray, in attempting to clear handled the ball and a penalty was granted. Bennett took the kick but

Preece saved. Angus now had most of the play and from a well placed corner by Irwin Rowley scored number two. From the kick-off Capt. Crump passed to Murray and that player scored a nice goal. Baracas were weakening and Arnott placed to Roland who scored the last goal of the match. Baracas pressed hard towards the close and gave Preece plenty of trouble. Preece in goal played a remarkable game his clearing being faultless.

CREMATION NO NEW THING IN SCOTLAND.

Evidently the Picts and Scots of our ancient histories were far more advanced in civilization than the old Roman writers stated.

At least they had got beyond direct earth to earth burial, and had developed a nice taste in urns wherein to deposit the incinerated remains of their friends. There has just been found on a farm at Louchar Brae, Skene, a fine specimen of these urns.

It was discovered in a low, gravelly mound, part of which had been removed in the formation of a road. The interment consisted of an urn over a heap of small pieces of bone which had been burned. Examination of those fragments has shown that they are remains of the body of a human adult, but that it is impossible to form any opinion as to their sex or race. With the bones, and in the immediately surrounding ground, were scattered tiny portions of charcoal, probably remnants of the funeral pyre.

The urn is eighteen inches in height, has a diameter of fourteen inches at its mouth, and is a typical example of the cinerary form of urn.

The body of the urn is made of coarse gritty clay, covered by a coating of finer clay, applied to the vessel after the body had been finished, and heated up in order to show the design of decoration in relief. This takes the form of a "wavy" band projecting from the urn about a quarter of an inch, and encircling its neck. In addition, eight bosses, about half an inch high and about equidistant from each other, rise from the belly of the urn as it joins the neck.

In addition, the outer surface of the neck, including the decorations in relief, shows short incisions, arranged so as to form a chevron pattern, and its inner surface is dotted by numerous circular depressions about a quarter of an inch in depth.

According to the Hon. John Abercromby's chronology of bronze age pottery of Great Britain and Ireland this type of urn dates back to a period extending from 650 to 400 B.C., or even later.

GOOD FISHING AT TAMPICO

The harbor of Tampico, Mex., is one of the greatest game fishing spots in the world. During the fishing season, which runs from Nov. 1 to May 1, the yard of the Hotel Hidalgo is usually crowded in the early mornings with fishermen, gathered from every continent to fish for tarpon in the Panuco River. With them are numbers of Mexican boatmen who for \$2.50 a day, gold, will supply boats, bait and safe conduct to the best tarpon waters.

Between Tampico and the Gulf of Mexico there lies about five miles of the Panuco River, which is at once a wonderful harbor and a fisherman's playground. It is about 1500 feet wide, ranging to a sixty-foot depth, and there is not an insect on the surface. Its waters contain, besides tarpon, jackfish, jewfish, turtle, shark porpoise and devil-fish, the last sometimes weighing a ton. Mullet, cigar-shaped fish from six to nine inches long, are used for bait and 27 ply line, with a lancewood rod, is used by the knowing fishers.

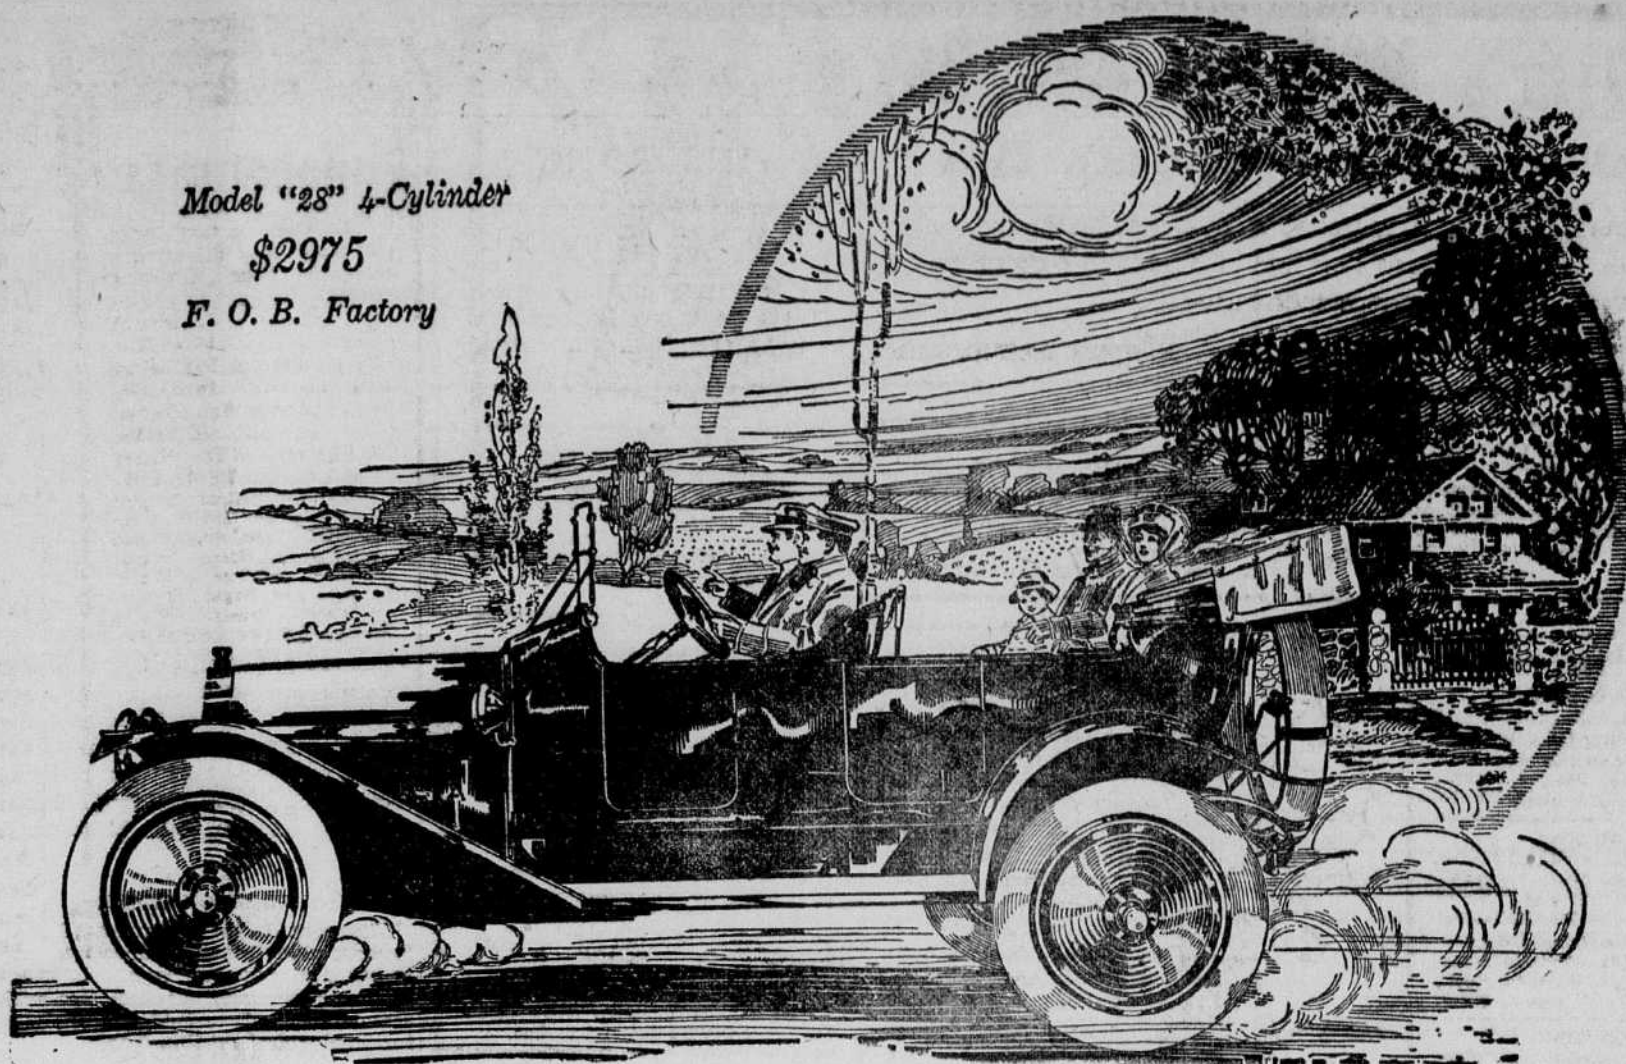

Fishers who are compelled to land their catches at lonely spots on the banks of the Panuco employ this formula for weighing them in the temporary absence of scales: Square the girth in inches; multiply by the length in inches; divide by 800 and the result will be the weight in lbs. Tampico tarpon not infrequently exceed 200 pounds and require two hours of hard fighting to land.

Late in the afternoon during the fishing season the Panuco is liable to be ruffled badly by northerly winds, and is often of such severity as to interfere with shipping. Although Tampico at its last census in 1906 contained only 17,569 persons, \$40,000,000 worth of silver bullion goes out of its harbor annually.—New York Sun.

ENCOURAGE CLEAN COUNTRY SPORT

In these days when we hear so much regarding ways and means of keeping boys and girls in the country, it seems almost platitudinous to advance any ideas on the subject. However, there is one factor which, whether or not it is a determining factor, no doubt has some influence, especially on sport-lovers, as most people are in their younger days. The sporting columns of our daily papers are read not only in the city but in the country with increasing interest year by year, and many are the boys in the country districts who have never seen a professional baseball game who can name the star pitchers of big leagues teams, and in a good many cases give the batting averages of the best batsmen in the game.

What is true of baseball is true of other sports, soccer football, lacrosse and other games are watched with keen interest by the young and older people in the country who are lovers of clean healthful sport. Time was, and not so very long ago, when each

KNIGHT

In every requisite of a perfect car
the RUSSELL-KNIGHT ranks first.

Appearance

It is a car of surpassing beauty. Of individuality and charm.

Note the exquisite lines. The straight, flush sides; unmarred by locks or catches. The graceful sweeping fenders of most approved type.

See how the clear-vision wind-shield is built into the deep arched cowl. How the pantosote top and slip-cover blend with long, low body-lines.

Mark the tire-holder, removed from side to rear. Permits wider doors—easier entrance—clean running-boards.

Examine the expensive hand-hammered aluminum body. No other material takes—and holds—such lustrous finish. On no other surface are paints and enamels at their best.

Those big, handsome lamps were designed for the RUSSELL-KNIGHT. A single one costs as much as all five on many other cars.

The superb upholstery—the rich appointments—the many advanced features of equipment emphasize the distinguished appearance of the RUSSELL-KNIGHT.

Durability

The RUSSELL-KNIGHT improves with use.

The materials are the finest that money can buy. Steels, vastly tougher, stronger and more lasting than used in any other industry, are found in the RUSSELL-KNIGHT.

The best-paid Canadian workmen are in the RUSSELL shops. Skill and experience are supplemented by most modern machinery. Every operation is checked and proved by frequent, searching inspections. Each car is given exhaustive tests over every kind of road.

The motor grows smoother and quieter with every mile. It actually gains power with use. It has no springs—no cams—no tappets—no valves. In fact, one-third less parts than other motors. It is never out of adjustment.

The three-speed transmission retains its silence. The full-floating rear axle remains quiet. Every part continues in perfect harmony with every other part.

RUSSELL Factory Branches, with completely equipped Service Stations in every important Canadian city and town, insure swifter, more efficient and more satisfactory Service than YOU get with any other car.

Comfort

COMFORT is the final touch to this perfect car. Your first RUSSELL ride is a revelation of what real car-comfort means. You learn, for the first time, how comfortable a car can be built.

The smooth motor—the quiet axle—the liberal wheel-base—the big wheels—the generous tires—unite to give the RUSSELL a mechanical "balance" that makes it fairly "hug the road."

The 12-inch deep upholstery, over special cushion-springs, strikes a new note in luxurious riding.

The long, broad springs of imported steel insure wave-like ease of motion over roughest roads. Engineers agree that RUSSELL-KNIGHT springs reflect the best spring practice in the world. So soft, so "live," so resilient—they turn country trails into smooth, inviting roads.

In the swift, silent movement of this splendid car—in the depths of its rich upholstery—in the convenience of its Electric Starter and Electric Lights, Engine-driven Tire Pump, and Left Side Drive with Centre Control, you find a new standard of Comfort, achieved in no car save the RUSSELL-KNIGHT.

In the most fashionable assemblage—among the world's most costly cars—you are proud to own or drive a RUSSELL-KNIGHT. The proof is in the car. Ride in a RUSSELL-KNIGHT to-day. Ask any demonstration. Suggest any test. Propose any trial. Talk with Russell owners. Next to the car itself, they are its best advertisement. For each knows by experience the safety and satisfaction of owning the car that's

"Made Up to a Standard—Not Down to a Price"

Write—phone—or call to-day, for a Catalog and any demonstration. A RUSSELL-KNIGHT awaits you here.

village or concession road had its football team, and interest was at fever heat throughout the summer season as games were brought on with the teams from other villages, or other districts.

As is natural some of the boys drifted cityward to engage in their life work, and many have been the good amateur teams which have disbanded on this account. Interest has not waned, but scarcity of labor on the farm has necessitated in some cases a little closer application and longer hours—which have somewhat prevented time for necessity practice.

It seems to us that one of the best means to encourage general interest in the country as a place to live in, is for communities to aid in organizing amateur sport and give the young people a reasonable amount of time in which to make themselves proficient in the particular sport in which they desire to engage.

If the farm work has to be stopped one or two nights a week a half an hour or an hour earlier in order that the chores may be done in time to get to the ball field, it will in the end mean a very small loss; in fact it generally proves a gain, as interested boys are much better workers than those who look upon their daily operations as drudgery with no play thrown in. The old adage, "all work and no play makes Jack a dull boy," will never wear thread-bare. It is just as true today as it ever was, and we believe that parents and the older folks generally should take an interest in the sports of the young people. There is a great means of developing not only good physique, work and thrift, and it is just as es-

ential to promote the right class of recreation. Clean sport furnishes this, and in comparison with cities and towns the country is hopelessly lacking in this latter branch of activities. Now is the time to organize the teams for the summer play, and in place of discouraging the practice and withholding support let the boys, and girls too, take an evening or two each week to forward the movement, and besides this help financially as well as by your presence at a few of the games. It will only take a season or two to demonstrate the value of the practice. Because a boy is a farmer's son or a farmer's helper is no reason why he should be tied down to work without end. A little play will make a better man of him and a better worker too.—Farmer's Advocate.

REPORTS WERE
VERY SATISFACTORY
BAPTISTS OF EASTERN ASSOCIA-
TION HAD VERY SUCCESS-
FUL YEAR—NEXT MEET-
ING IN COATCOOK

Abbott's Corner, June 13.—(Spe-
cial)—The second day of the assem-
bly of delegates and visitors from the
Baptist Churches of the Eastern As-
sociation opened under the most fa-
vorable weather conditions.

The morning song service was con-
ducted by Mr. E. Dale, of Barnston.

An hour was spent in the report of
the Secretary Treasurer, Association-
al secretaries and reports of com-
mittees on business, resolutions,
state of religion, and roll and cre-
dentials. These various reports and
the timely discussion emphasized the
fact already noted in the reading of
the letters, that the Eastern As-
sociation had just passed through one
of the most prosperous years in its
history.

This was especially true in regard
to increase in membership. In con-
nection with resolutions a most heat-
y vote of thanks was extended to
the Abbott's Corner Church, for the

most generous and hearty hospital-
ity.

Mr. D. Bently presented the report
of the Home Mission Board, which
was adopted.

The morning session closed with a
strong address on Western missions
by Rev. C. P. England, Dixville, in
which "Bigness" was the key word.

The afternoon session opened in a
service of song and prayer conducted
by Rev. Jas. Pollock.

The circular letter written by Rev.
W. Wilkes, formerly of Quebec, was
read by Mr. E. Dale, dealing with the
subject, "Why We Are Baptists."

"1 Because we believe in the sov-
ereignty and sufficiency of the Scrip-
tures."

"2 Because we affirm the intellec-
tual independence of the individual."

"3 Because we stand for the per-
sonal purity and priesthood and au-
tonomy of the church and

"4 Because we acknowledge the ab-
solute monarchy of Christ in the
realm of religion."

Rev. M. L. McCutcheon spoke on
the Baptist Church work in the Mari-
time Provinces.

In the closing address of the after-
noon, Home Missions was repre-
sented by Rev. D. W. Terry of Coat-
cook, the clerk of the Association.

The closing session opened in a
bright song service led by Mr. E. P.

A REPUBLIC HAS BEEN PROCLAIMED

Strikers in Italy Pillage Towns and Commit Acts of Murder

GOVERNMENT IS SENDING OUT SOLDIERS THROUGHOUT THE PROVINCE TO COMBAT STRIFE

Rome, June 15.—The threatened railway strike throughout Italy has been abandoned and order is being gradually restored. The most serious situation exists in the province of Ravenna where villages and small towns are being ruled by the local Republican committees which have armed the masses, thus giving the ignorant masses the impression that any kind of violence will be permitted. Churches and clubs have been sacked or burned, but in the case of private residences, the revolutionists have asked the owners for permission to take possession of their belongings. These have been sold for next to nothing, in order to give the poorer people the impression that the Republic will maintain its promise to bring back the Golden Age and end forever the high cost of living. Ten thousand soldiers are gradually being spread throughout the province.

An outstanding feature in the general strike situation yesterday was the news received at the capital of the proclamation of an Italian Republic by the people of several towns bordering on the Adriatic, in north-eastern Italy. In some towns, like Fabriano and Rimini, scenes similar to those of the French revolution were enacted.

SNAKE NEARLY THROWS HORSE Battleboro, Vt., June 15.—An unusual snake story comes from Guilford, where, last week, a black snake over seven feet long, after bringing a workhorse to its knees, turned on the owner of the animal, but was killed with a whip, the commotion causing the horse and its mate to run away and become entangled in a wire fence.

FUNERAL OF LATE COL. MOREHOUSE

Touching Tribute Paid to the Life of Deceased by Former Pastor

LARGE AND REPRESENTATIVE GATHERING FOLLOWED THE REMAINS TO THE ELMWOOD CEMETERY.

The funeral of the late Lt.-Col. W. A. Morehouse, postmaster of Sherbrooke, took place yesterday (Sunday) afternoon from his home in Moore street, to the Methodist Church, the attendance being unusually large and representative.

Prayers were said at the house by the pastor of the church and a quartette from the choir sang the hymn, "Abide With Me," and "The Homeland."

The church and the pew of deceased were draped in sombre black, relieved by a profusion of flowers, and the impressive and simple, but most mournful service, was conducted by the Rev. George A. McIntosh, assisted by Rev. Professor Richardson, of the Wesleyan College, Montreal, a former pastor of the church, who referred in brief, but most sympathetic words, to the life and character of deceased in part as follows:

"He was one of the best known citizens of Sherbrooke, where he had spent the greater part of his life. He was interested in every phase of human affairs, in the welfare of the city and in the welfare of the country, and was connected with and interested in various leading fraternal organizations, of which he was one of the first to recognize the benefit. He was loyal and patriotic to a degree, as evidenced by his rise to honorable distinction in the militia, but he stood forth pre-eminently as a religious man, and could best be described as a Christian gentleman. For half a century he had been a chief officer of the Methodist Church in his native place; for twenty years recording steward, and for more than half that period superintendent of the Sunday School. When, in the course of time he began to feel the increasing burden of years, he was made honorary superintendent, and retained that office till the day of his lamented death."

The speaker went on to refer to the deceased in his personal relations with the ministers of the church. He, himself, and his brother clergy had ever found in him a wise counsellor, a firm friend and a strong supporter. His loss to the church could scarcely be estimated, and his memory will be revered. Many had tried to solve the great problems of death, sin and suffering, but all these were necessary to the development of man. God alone being perfect, was changeless. There would come a time when there would be no more change, no more death, sorrow nor tears, for the former things must pass away.

The choir rendered, softly the hymns "Rock of Ages" and "Lead Kindly Light," and to the deep, slow notes of the organ the casket, with its pall of flowers, was borne from the church to Elmwood Cemetery and there laid reverently away.

The mourners were Mr. W. E. Morehouse, Montreal, son of deceased; Rev. W. H. Stevens, Chesterville, Ont.; Messrs. E. S. Stevens and A. G. Campbell, brothers-in-law; A. T. Porteous, Utica, N.Y.; L. Morehouse, Colin Campbell, Howard Stevens, nephews, and C. B. Howard, nephew by marriage. The pall-bearers were Messrs. F. N. McCrea, M.P., J. S. Mitchell, B. C. Howard, J. C. Waterhouse, Richard Armitage and D. G. Loomis, and the bearers were Messrs. A. A. Norcross, Dr. G. E. Hyndman, Dr. F. H. Bradley, Dr. Allen, Dr. S. J. Bloomfield and Mr. J. A. Tate.

The funeral was conducted by Mr. W. S. Dresser, in the long cortege, the superintendent, male teachers and scholars of the Sunday School of the Methodist Church followed the mourners, together with the officials of the post office, Mr. L. J. Gaboury, chief inspector, Montreal; Mr. L. E. Dastous, post office inspector, Sherbrooke; the office and staff of the Sherbrooke office, also representatives of the customs department, the inland revenue department, Golden Rule Chapter, R.A.M.; Unity Lodge, I.O.O.F.; Victoria Lodge, A.F. & A.M., and Penian Raid Veterans, no regalia being worn, according to request.

Scores of citizens attended—professional and business men, neighbors and friends, all desirous to do honor to the memory of one so universally respected and esteemed. The magnificent floral tributes, which required a special carriage to convey them to the cemetery, were the following: Triangle, Royal Arch Masons; cross, staff of the Canadian Bank of Commerce, St. Catherine and City Hall Branch, Montreal; cross, Henry W. Rice, Boston; wreaths, H.M.S. customs; Victoria Lodge, A. F. & A. M.; Unity Lodge, I.O.O.F.; Ladies' Hospital Committee, Quarterly Board of the Methodist Church, Sherbrooke Post Office staff, Mr. and Mrs. J. S. FESTIVAL OF CORPUS CHRISTI

Was Celebrated in Sherbrooke Yesterday by a Magnificent Procession

ALL THE RELIGIOUS SOCIETIES AND ORGANIZATIONS IN CONNECTION WITH CHURCH TOOK PART

The festival of Corpus Christi, or the Fete Dieu, one of the most solemn occasions of the Roman Catholic Church, was celebrated, according to custom, yesterday, by a magnificent procession, which excelled in size, and grandeur, those of previous years.

The weather was ideal and the line of march was marked by a perfect, riot of color in the shape of flags, and burning flowers, and mottoes, stretched from side to side of Grove and other Streets, through which the procession passed. Shortly after low mass at nine o'clock, the huge procession got under way in the order as already published.

The cross, and the Holy Sacrament, in golden Ostensorium, borne by Rev. Abbe, H.A. Simard, Rector of the Cathedral, and preceded by acolytes, with censors from which the performed clouds of incense rose with the summer air. The gold-fringed canopy, over the host, was borne by Messrs. M. Laine, E. J. Poutre, Willie Lacroix, Eugene Olivier, E. Bondreau, N.P., Arthur Blouin, G. Began and the Seminary Cadets furnished the guard of honour.

All the Catholic clergy of the city, followed and the leading French citizens, judges, professional men, civil officers, aldermen and a throng of people brought up the rear.

CHARGED WITH THEFT OF \$100

Hired Man Stole Money From Employer's Home at Stanbury

ARRESTED BY HIGH CONSTABLE BOISVERT WHILE ABOUT TO TAKE TRAIN FOR MONTREAL.

Farnham, June 15.—(Special)—High Constable Boisvert arrested Wm. Hewitt at the station here last evening just as he was about to take a train for Montreal. The young man, who is only 18 years of age, was charged with the theft of \$100 belonging to Mrs. Meslam, of Stanbury.

It appears that young Hewitt was employed by Mr. Pendleberry, and Mrs. Meslam, his daughter, from Roxton, was there on a visit. She put the \$100 in a bureau drawer and did not miss the money until yesterday afternoon. She then notified High Constable Boisvert, who arrived shortly afterwards. It was found that young Hewitt had disappeared, and the High Constable followed to Farnham. With the chief of police there a search was made for him, and their efforts were rewarded when they located him at the C.P.R. station. He had a ticket for Montreal on his person. On being searched, \$97 of the stolen money was recovered.

Earlier in the afternoon Hewitt approached Mr. Potvin and tried to hire an automobile, but his request was not granted.

REMAINED FOR TRIAL.

Hewitt appeared before Mr. Fairfield, J.P., this forenoon for preliminary hearing, and was remanded until June 22, when he will appear before Judge Mulvena.

Hewitt says he belongs to Preston, Ont.

EDUCATION IN RURAL SCHOOLS

Aim of Quebec Government is to Improve Conditions, Says Mr. MacKenzie

CONSOLIDATION OF SCHOOLS WILL GO LONG WAY TO BRING ABOUT BETTER RESULTS IN THE COUNTRY.

At the closing exercises of the graduates of Macdonald College School for Teachers, Hon. P. S. G. MacKenzie, provincial treasurer, in the course of an address, dwelt at some length on rural education in the Province of Quebec. He said: "A great change has taken place in the last half century, both in Canada and the United States, in the relative proportion of rural population to that of cities and towns. Now, slightly more than half the population of the United States and slightly less than half the population of Canada live in the cities and towns. Forty years ago three-fourths of the people lived in the country. The causes which have led to this change are mostly economic, among which we may note that of labor-saving machinery for the farms. But it is a disproportion which should not be continued. It is one that should be corrected, if possible, by all wise and legitimate means."

"Whether as cause or consequence—most probably both—we may note in the last fifty years that education has made far greater progress, everywhere on this continent, in towns and cities, than it has in the country. As a result we see the great opportunities in life which are afforded to the youth who has had the advantage of that thorough and scientific training which the great educational institutions of the larger centres afford."

"The time has come, however, to give to the youths of the country—the boys and girls of the farm—an equal opportunity by placing at their command the kind of schools which will afford them as sound, as scientific and as thorough an education for the work of modern farming, as is given to the engineer, the physician and the chemist."

KEEPING TO FOREFRONT. "It is this great problem which the Government of the province has been keeping to the forefront for some years—to make the rural schools really effective in reaching the true ends for which they exist."

"And it is manifest that these efforts are now beginning to bear the expected fruit. The first duty of all was to see to it that better salaries were paid to the teachers—salaries which would both attract and hold the competent teachers. The large grants paid to the rural school boards in recent years are now showing good results. The salaries in general may not yet have reached what we hope they will reach, but in hundreds of municipalities they are now nearly double what they were five or six years ago. This is particularly true of the Eastern Townships, and hand in hand with this increase there has been a greatly increased percentage of qualified teachers employed. The Government felt from the outset that no permanent improvement in the quality of the rural schools could be hoped for until living salaries were paid to the teachers, and we now seem to be in a fair way of realizing this fundamental principle. Some further effort, it is true, is needed upon the part of the school boards. The salary increases should be somewhat more than the increase in the Government grants. The taxpayer still has his duty to perform in this matter, in many municipalities."

SCHOOL CONSOLIDATION. "Then the Government has also decided to aid the consolidation of the Protestant rural schools. It is our schools—many of them with but a handful of pupils—which most need the application of this modern principle. It is encouraging to observe, also, that consolidation is now meeting with a great deal of favor in a number of municipalities. It is recognized as the one means of providing just that kind of education—that modern, scientific education—which is needed in the rural schools, and which Macdonald College is doing so much to promote."

"It is upon the spread, the diffusion, of sound knowledge that the economic development of our Province must depend. We have vast resources, and if we will truly develop and truly conserve them, for these two terms are really the same—we shall do all that is in our power to make our schools, large and small, truly great and effective for the ends that they should serve."

BRITISH TEAM WON POLO GAME

Outplayed the Americans in the Opening Match For the International Trophy

WAS A TRIUMPH OF MAGNIFICENT TEAM WORK AND INDIVIDUALLY BRILLIANT PLAY.

New York, June 13.—The history of sport is filled with surprises. Yet it is doubtful if the records contain any such surprise as the reversal of form shown by the American polo team in their first game in which it met the challengers from Great Britain at the grounds of the Meadow Brook Club Saturday afternoon. Coming here as a much-heralded "forlorn hope," the British team defeated the Americans in a game in which the invaders made ten goals to four for the defenders, safeties and penalties making the final score 34 to 3 in favor of the visitors.

It was a triumph of magnificent team-work and individually brilliant play. The American team was outplayed at every point of the game. Both offensively and defensively the British players showed superiority from the opening to the close, and there were but flickerings of the aggressively brilliant work that three-quarters of the same team showed in both the 1911 and 1913 contests.

The Americans were as a team without a leader; like a disorganized quartet. The body was there, but the brains seemed missing. No one of the players had the quality of leadership, and what had been a perfect machine in years past seemed at times only fit for the junk heap, so erratic and disconnected was its movement.

MISS ELIZABETH MEIKLEJOHN, FORMERLY OF KNOWLTON.

Knowlton, June 15.—(Special)—This notice of the death of the late Miss Meiklejohn will be of interest to her many friends and to the young English boys and girls, to whose interests she gave twenty-six years of her life as Resident Superintendent of the Knowlton Distributing Home. She met with a painful accident at Toronto, where she died a week after of heart failure, April 21, 1914. The interment took place in the family lot at the Mt. Hermon Cemetery, Quebec City. The following resolution, passed by the W.C.T.U., will find an echo in many hearts, who knew her sterling worth:

"Resolved, that we, the president and members of the W.C.T.U., having learned with profound sorrow of the death of Miss Elizabeth Meiklejohn, who died from heart failure after a severe accident, on the 21st of April at Toronto, Ont.

"Miss Meiklejohn came as a voluntary worker, many years ago, from her home in Quebec City to the Knowlton Distributing Home, where for twenty-six years she gave her services gratuitously, to care for the little emigrant children, and the general supervision of the work connected therewith.

"For thirty-one years, ever since the formation of the provincial and local W.C.T.U., Miss Meiklejohn has been connected with this union, most of the time as an officer, always ready for service, and performing the

QUEEN MARY MAY LEAVE LONDON

DECIDES ON THIS STEP SHOULD MILITANTS MAKE DEMONSTRATION IN VICINITY OF ROYALTY

London, June 15.—Queen Mary has decided, in case of further suffragette demonstrations, in the vicinity of Royalty, to quit London abruptly and leave King George to finish the season alone, according to a source in close touch with the court and the Government. The Queen is represented as being in a state of nervous tension as to where the next suffragette will appear. She, it is said, has no intention of allowing her existence to be made unhappy by those she habitually calls the "furies."

Should the Queen be forced to carry her threat into execution the step will create an unparalleled social sensation.

duties that devolved upon her, with inspiring zeal and wisdom.

"Even after her removal to Toronto keeping up her interest, paying her fees and contributing freely to the various departments of our work."

"An earnest Christian, a faithful friend, a beloved and honored citizen, Miss Meiklejohn leaves behind her a record of life that is to all of us an incentive to the better performance of duty, and her example will live in our memory for all that is true and best."

"To the bereaved brothers and sister and the adopted daughter we tender our heartfelt and deepest sympathy, and pray that God may comfort and sustain them."

"Resolved, that a copy of this resolution be entered in our minutes and be sent to her family friends, also to the Sherbrooke Record, that it may reach her many friends in the Province."
