TOGO'S FLAGSHIP ON FIRE AND SUNK.

Japanese Lose Famous Battleship Which Figured in Battle of Sea of Japan---Protests Against Peace Terms---Situation at the Front.

THE MIKASA CAUGHT FIRE AND SANK YESTERDAY.

Tokio, Japan, Sept. 12.—(Special.)—Japanese battleship Mikasa, flagship of Admiral Togo during the battle of the Sea of Japan, caught fire yesterday and sank.

599 OFFICERS AND MEN LOST THEIR LIVES.

Tokio, Sept. 12.—(Special) —The loss of life by the sinking of the battleship Mikosa totals 599 officers and men, including detachments from other warships, which went to the rescue of the vessel.

JAPANESE STILL PROTEST.

Tokio, September 12.—A largely attended mass meeting was held at Osaka yesterday by those opposing the peace conditions. The authorities made no attempt to interfere with the assemblage. Resolutions were adopted condemning the Government for agreeing to the peace terms and demanding the abrogation of what was described as a humiliating treaty. Owing to the proclamation of martial law and the riots that have disturbed the capital, the members of the cabinet approached the throne, relative to resigning office. The Emperor, through Prince Awakura, commanded them in equivocal terms, to remain at their posts, and also encouraged them in their policy. A stronger policy will now be adopted in connection with the coming conference of governors and chief procurators. The better classes here now express much regret for the disturbances, especially for the damage done to Christian churches.

The Nichi Nichi Shimbun says it learns that the withdrawal of the troops from Manchuria will not be effected this year. The expense of bringing the troops home will amount to over 200,000,000 yen.

SICK AND WOUNDED, 20,560.

St. Petersburg, September 12.—A despatch from Godzyadani of September 8, only a small portion of which was allowed to pass the St. Petersburg censor, says that on August 14 there were 20,560 sick and wounded officers and men in the military hospitals.

AT THE FRONT.

Godzyadani, Manchuria, September 12.—The peace terms became known here Saturday. The majority consider them inoffensive to Russian honor and dignity. It is not clear at what station the railroad is to be turned over to the Japanese at Kwang Chen Tse or Chantufu. This question is important. If the turn-over occurs at Kwang Cheng Tse then Russia cedes to Japan 100 miles of yet unoccupied line and otherwise the only coal mines south of Harbin. From Chantufu start all the trade routes to the very rich Kirin province, and should the road become the property of the Japanese to Kwang Cheng Tse, the complete possession of Chantufu would place Kirin province entirely under Japanese influence. This would be very undesirable for Russia. Should the transfer occur at Chantufu or further south, Kirin province, which has supported the Russian army for six months, would remain Russian, which would be particularly advantageous because the southern portion of the railroad has no natural outlet.

This and many other questions, such as the Russians' right to maintain consular officials and commercial agents at Liao Yang, Mukden, Port Arthur and Port Dalny, should, it is claimed here, be settled before the armies withdraw their strategic positions. A high officer declared last week that it would be impolitic to permit the Japanese to settle in Kwank Cheng Tse for in case of another war they could reach Harbin in 50 hours, occupy Kirin and cut Russia off from the Amur regions.

OXFORD CITY OF COLLEGES.

Interesting Letter From Rev. F. J. Day.

HAS BEEN ATTENDING SUMMER EXTENSION TERM — IMPRESSIONS OF OXFORD.

To the Editor of the Record:

My Dear Sir,—To adequately describe Oxford and its life is an impossible task. There is a charm about this City of Colleges and an inspiration in its whole environment which must be felt to be understood. Words will not describe either. Pen pictures will never fully depict its beauties and its delights. But to the one who has the privilege of wandering among its colleges, of strolling on its beautiful streets and by its picturesque streams, of listening to its cultured and learned professors, and with some degree of earnestness reading and studying in its midst,—there remains an abiding inspiration which reveals in the intellectual and spiritual spheres of life glimpses of new truths and more perfect beauties.

Situated at the confluence of the Cherwell and the Thames, and surrounded by an amphitheatre of gentle hills, Oxford is unrivalled in its location. All around are drives and walks of beauty and interest, from the more elevated of which the view of the city itself, with its majestic college buildings, its stately towers, and its tapering spires, is never to be forgotten. It was Nathaneal Hawthorne who said, "The world, surely, has not another place like Oxford; it is a despair to see such a place and ever leave it, for it would take a lifetime and more than one, to comprehend and enjoy it satisfactorily."

The city, itself, with a population of about 50,000, is the county town of Oxfordshire, and an episcopal see. But its claim to unique distinction lies in its being the home of one of the two great universities of Great Britain, which "connects itself by a thousand links with the intellectual and moral development of England,"—and we may add of the world.

In the University there 21 colleges and one hall, with about 50 professors, 30 lecturers, 300 fellows, besides numerous tutors, and 3,000 students. Many of the colleges have been richly endowed in the course of time, by both kings and private individuals, and have homes the majority of which are hoary with age, and all of striking beauty and great historic interest. To wander at will, as one may do, among stately buildings, through cloistered quadrangles, beautiful chapels, and rich libraries, cannot but leave the impression that in Oxford there is an atmosphere which cannot be found in the more modern seats of learning, and which in itself must make largely for culture and general development.

During the past month it has been my pleasure to attend what is known as the Summer Extension Term. This is of a more popular character than the ordinary sessions, and is really a part of the general plan of Extension work which is carried on so vigorously and successfully during the entire year, and which has resulted in a marked widening of the sphere of influence of the University. About 1,000 students were in attendance of which 256 came from abroad. Nearly every country in Europe was represented and there was also a large contingent from the United States. There was one other Canadian present, besides myself, a Baptist minister, from Chatham, Ont.

My special work was done in the courses provided in Theology, History and Literature, and Social Economics. In the first I attended classes at Mansfield (Congregational) College, and Manchester College, the courses embracing Old and New Testament studies. In the History and Literature section it was my privilege to be present at some of the most inspiring and suggestive lectures I have ever listened to. The whole work was confined to the period of the 16th century, that of the Renaissance and Reformation. All the subjects were dealt with by masters in their own special departments, and in the majority of cases the lectures embodied what was original research work specially undertaken for this summer term. Under their illuminative and highly instructive methods the place and work of the great Reformers and scholars of this period, such as Luther, Calvin, Knox, Sir Thomas More, Erasmus and many others appeared to me in a new setting, and with striking suggestions for present day problems.

Perhaps the most practical of all was the course on Social Economics, when such subjects as: The Unemployed, Charity and Poor Laws, Labor Colonies and relief work, The Wages System, and the Public House Trust were discussed in lectures and conferences. The last mentioned subject was in charge of the Earl of Lytton, who is chairman of the Public Home Trust, and who since the departure of Earl Grey for Canada has more than ever come into prominence with this interesting movement. Though not by any means a final solution of the great temperance problem, and though still in its experimental stages, this honest effort to cope with the giant evil of intemperance is worthy of most careful study on the part of those who have the subject deeply at heart. It was clearly pointed out that one of the greatest difficulties in the temperance movement at the present time is the lack of unity among its followers, owing largely to the extreme and rigid views held by the section who will take nothing short of absolute prohibition, and refuse to consider any measures which do not possess this as their constitutive element.

Thus, has the past month been filled with much of interest and profit, some features of which I have touched upon in this letter, and others of which I have had to pass over. Not a little contribution to my pleasure has been made by the father and mother and other members of the family of Mr. of Sherbrooke, in A. E. Raworth, whose home I have been most kindly and hospitably welcomed on several occasions.

Two letters in the Canadian Congregationalist, will speak of my special relationships to Congregational organizations and churches. Suffice it to say here, that I am preaching every Sunday, chiefly in London, and in this and other ways am gaining an impression of the great strength and earnestness of our churches on this side of the Atlantic.

May I convey again through this letter my warmest regards to all my friends in Sherbrooke.

Very sincerely yours,

FRANK J. DAY.

WITNESSED WEST BROME COLLISION.

Men In Field Saw Engines Come Together.

THE TRAINMEN HAD SCARCELY A MOMENT'S WARNING.

West Brome, Sept. 12.—(Special.)—Mr. Charles Pettes and Mr. Mandigo each saw the two engines come together Saturday, and the spectacular sight was, also, viewed by two of Mr. J. C. Pettes' men up on his farm.

They state that the sound of the collision was terrific, being partly from the crash and partly from the bursting of the engine boilers.

The scene was one which they will never forget. The Brome Lake special was coming along at a high rate of speed, when suddenly the light engine rounded the curve. There was scarcely a moment's warning. One cannot see forty feet ahead in making that curve.

Engineer Lee Robinson, who was the most seriously injured, made his escape through the cab window, there not being time to get out in the usual way.

If the light engine had had a load of of freight behind it, the passenger cars would have been demolished with great loss of life, but the two engines about balanced each other and saved the train.

Many minor injuries are now reported from the smash-up, and when the clouds roll away a reasonable amount of litigation may be looked for.

The explanation of the wreck is clear and Engineer Watts acknowledges that the blame is his alone. His orders provided for stop at West Brome to meet the Saturday Brome Lake train. He forgot the train and passed West Brome station.

Word received from Montreal, last evening, indicates that Engineer Lee Robinson, has an excellent chance of recovery.

If inflammation does not set in his physicians believe that he will pull through.

THE SOULANGES CANAL BLOCKED.

Barge Carries C. A. R. Bridge Into Water.

GRAIN TRANSPORTATION IS SERIOUSLY INTERFERED WITH.

Montreal, Sept. 12.—(Special) —Early this morning the steam barge, Nicaragua, carried away the bridge of the Canada Atlantic Railway, which crosses the entrance of the Soulanges Canal at Coteau, thus blocking heavy traffic on this waterway.

The accident is serious to the port of Montreal, as there is a large amount of grain above the canal which will have to wait until the canal is cleared or transhipped in smaller vessels and pass down the old Beauharnois Canal which only allows a draught of nine feet.

PREMIER TURNS THE FIRST SOD.

Interesting Ceremony at Fort William Yesterday.

PREDICTS THAT ANOTHER TRANSCONTINENTAL ROAD WILL SOON BE NECESSARY.

Fort William, Ont., Sept. 12. —Sir Wilfrid Laurier and Dr. Smellie, M. L. A., Conservative, were the principal speakers yesterday afternoon at the ceremonies of the turning of the first sod of the Lake Superior branch of G.T. P., an event that marks the beginning of the third great connecting link between the granary of the British Empire and the head of Canadian lake navigation, and one that has been looked forward to by Fort William for two years. The Premier told of the advantages to be derived from another transcontinental road. He dwelt upon the trade being made by the country north of the international boundary and west of the Great Lakes. In his opinion scarcely the last spike will be driven in the G.T.P. R.R. before it will be found necessary to begin the construction of another ocean to ocean line. He attributed the affluence enjoyed by the West largely to immigrants and particularly among settlers. He hoped to live to see Fort William and her neighbor one large city and one of the principal commercial and manufacturing centres of the continent. The Premier's speech consumed thirty-five minutes. Sir Wilfrid left for the east last night.

OVER 1500 LIVES WERE LOST.

As Result of Earthquake in Italy.

SLIGHT SHOCKS CONTINUE COMPLETING DESTRUCTION OF VILLAGES.

Rome, September 12.—The results of the earthquake in Calabria have been fully ascertained. Over 1,500 persons were killed. The burials are feverishly hurried, for slight shocks continue, completing the destruction of the crumbling villages. Ten villages were totally destroyed. Military bakeries are distributing bread to the population, who are panic-stricken and famished. King Victor Emmanuel has forwarded to Calabria orders suspending taxation in the suffering districts. He is supervising the relief operations personally. Ample funds have been collected throughout Italy, and have been promptly forwarded.

Alfam, the celebrated director of the Observatory, who predicted the earthquakes in Northern Italy, last April, announced a probable recurrence of the earthquakes in Calabria.

A MASSAWIPPI ELOPEMENT.

MAN OF THIRTY-SIX RUNS AWAY WITH GIRL OF SEVENTEEN.

An elopement occurred from Massawippi last Friday, when Leon Stebbins, thirty-six years of age, who had been working on a farm there, ran away with a young girl, 17 years of age.

He took a team belonging to his employer and drove to Sherbrooke, going to the City Hotel, where the rig was left.

He directed that the owner be notified.

The couple left for parts unknown.

KILLED IN A TRAIN WRECK.

THREE LIVES LOST IN COLLISION AT TABOR JUNCTION, PA.

Philadelphia, September 12.— Three trainmen were killed and two others were injured Saturday in a collision at Tabor Junction, Pa., near here, between freight trains of the Philadelphia & Reading Railway and the Central Railroad of New Jersey.

WEATHER PROBABILITIES.

THE BROME COUNTY FAIR.

Annual Exhibition Opened At Brome Corner To-Day—Good Display Of Exhibits---Society Purchases Land For Extension Of Grounds---Prize List For Farms And Crops.

Brome Corner, Sept. 12.—(Special.)—The annual fair of Brome County opened on the fair grounds here to-day.

Yesterday was devoted chiefly to the exhibitors getting their exhibits to the ground, and they were favored with beautiful weather, the heat being that almost of a July day.

The weather to-day is, unfortunately less favorable.

There is a record exhibit of cattle and horses, while in the sheep and swine sections, the entries are perhaps not quite up to the figures of last year, although a number of entries were received this morning, which when totalled up will bring the average to compare favorably with last year.

The directors since last year have expended quite a sum of money towards improving the buildings, so

MR. C. J. BENHAM, President of Brome County Agricultural Society.

that they now compare favorably with large fairs. It was the intention to enlarge the grounds, and some six acres of land adjoining the present site was purchased, but the deal having only been consumated a few days ago, time would not permit of the directors carrying out this programme of extension. Before next year, however, considerable improvement may be looked for in the way of extensions to the cattle and horse departments.

In speaking of the proposed improvements and extensions, Mr. Geo. F. Hall stated to the Record this morning that the society was entering upon the year free of all debt, and the society was starting out with a clean sheet.

The grounds are in first-class condition, and the race track is in first-class shape. There are three races on the programme, and several local horses are entered, so that there will be considerable excitement in this direction.

The attractions this year in front of the grand stand will be better than in any previous year, as the directors have engaged artists through a New York bureau.

There is a large list of special prizes offered by the leading men of the county.

The plots of the different grains grown under Government direction are attracting much attention as showing the difference in that under the old method of allowing the grain to practically take care of itself.

The Main Building is well filled with exhibits, including H. C. Wilson & Son and W. B. LeBaron, of Sherbrooke.

The judges who will place the awards in the agricultural department are: Horses, Dr. Reid, Georgetown, Ont.; cattle, Mr. D. Drummond, Ottawa; swine, D. Anderson, Ottawa; poultry, T. C. McGinnis, Iberville, Que.; fancy work, Mrs. Temple, Mrs. F. Williams, Mrs. England, Knowlton.

DAILY NEWS SPECIALS FROM ALL PARTS OF THE EASTERN TOWNSHIPS.

A BROKEN LEG.

Waterloo, Sept. 12.—(Special.)—Mr. Henry Boisvert, night watchman for the Waterloo Wood Manufacturing Co., while gathering butter nuts this morning on Jamieson's farm on south side of Waterloo Lake, fell from a tree a distance of about 20 feet, on a pile of rocks, and broke his leg about six inches above the knee. He was alone at the time, and Mr. Archie Martin, who was at work on his launch about a half mile away, heard some one screaming for help, and he started out with his boat and brought him across the lake and home, when Dr. Valaincourt was called and set the fractured limb.

GRANBY FAIR THIS WEEK.

Granby, Sept. 12.—(Special.)— A letter received on Saturday from the Central Vermont railway by Mr. John Irvine, President of the Granby Fruit Growers' Association, informs him that special trains will be run on the C.V.R. on the 14th and 15th, for the accommodation of those who attend the fair. The prospects now are that if the weather be fine, it will be the best fair ever held by the Association.

GAME WARDEN APPOINTED FOR BROME COUNTY.

Sutton, Sept. 12. — (Special) — Mr. Jas. Stowell received official notification on Monday from Quebec, that he was appointed Game Warden for the County of Brome.

A game warden is badly needed in every County, and it is thought the appointment of Mr. Stowell is a good one.

THE IRON HILL CREAMERY.

Cowansville, Sept. 12.—(Special.)—Provincial Revenue Collector McCrum takes pardonable pride in the fact that his Iron Hill creamery dispensed the high price of 91 39-100c. per cwt. among his patrons during the month of August for the milk from their dairies. This same creamery attained to the highest price on the Exchange last Saturday getting 1-8c. more than any other creamery out of the 26 on the Board that day.

SHURTLEFF—DAWSON.

Coaticook, Sept. 12.—(Special) — The merry peal of the Methodist Church bell, which rang out on the quiet air at noon to-day, announced the marriage of Mr. Harry O. Shurtleff, younger son of Mr. Otis Shurtleff, Registrar, to Miss Iola V. Dawson, only daughter of Mr. Samuel Dawson.

The house and church were beautifully decorated for the occasion, and everyone was on the "qui vive" to see the handsome young couple, who, at the appointed time took their places at the altar. The Rev. C. S. Deeprose officiated, while the bride was given away by her father. Mr. Stewart Smith acted as best man, while Miss Alice Webster attended the bride. The Bridal March was played by Miss Winnie Nunns.

After the ceremony the company repaired to the home of the bride's father, where the wedding feast was spread.

There was a handsome and costly display of presents, including bank checks and gold pieces. The groom's gift to the bride was a pearl pendant, and to the bridesmaid a pearl pin.

The invitations were confined to the uncles and aunts on both sides and a few intimate friends. The bride's uncle and aunt, Major and Mrs. C. H. Ingalls, of Boston; and the groom's uncle and aunt, Mr. and Mrs. G. H. Armitage, of Sherbrooke, were present.

The bride looked charming in her dress of silk deehygne over white taffeta, and carried a bouquet of roses. Her travelling costume was of navy blue silk with hat to match. The bridesmaid wore pineapple muslin over blue taffeta, and also carried a bouquet of roses.

The happy couple left on the afternoon train for Montreal, amidst showers of rice and a babel of voices wishing them bon voyage, and a long and happy life. They will spend their honeymoon visiting Albany, N.Y., New

Cookery—Mrs. George Boright, Cowansville and Mrs. Eldridge, Brome.

H. C. WILSON & SONS.

This well known Eastern Townships firm is again to the fore at Brome Fair with a fine exhibit of pianos and organs. The instruments include Heintzman & Co., Mason & Risch, and Wilson pianos. A new style Wilson, 6 octave organ is, also, shown. The instruments shown are duplicates of those exhibited at the Sherbrooke Fair. Mr. W. H. Wilson, who is in charge, reports several sales. This firm has already placed hundreds of fine musical instruments in the homes of Brome County, and their business here is steadily increasing.

MAGNET CREAM SEPARATOR.

The Magnet, the only Canadian Cream Separator manufactured in Canada, is being exhibited in the Main Building and is attracting much attention. It possesses many features of superior merit, among them the following: Its construction is simple, its strength and durability is unsurpassed, it is easy to turn, it skims close and produces thick cream, it is mechanically perfect, being a spur gear machine, its bowl and skimmer are very easily cleaned, no dirt can get in as pails are covered, it requires less oil than other machines, and its bearers are frictionless. It is sold under a guarantee bond for two years. Mr. James Gilchrist, general agent, from Hamilton, is in charge.

U. S. CREAM SEPARATOR.

The famous United States Cream Separator is being exhibited by Mr. T. A. Vaughan, agent, of East Bolton. A great many of these Separators are in use in Brome County, and many new ones have been placed this season. Farmers recognize that for clean skimming and durability the U. S. is unsurpassed. Its many points of merit are now well established.

W. B. LEBARON'S EXHIBIT.

Mr. LeBaron's Piano and Organ exhibit is again one of the special features at this year's Fair, and is in charge of Messrs. Barrie Bros. These gentlemen are sparing no time or pains to make the exhibit interesting and attractive in every way possible. The instruments shown in the Main Building are the products of Canada's foremost piano and organ builders, namely, Gerhard Heintzman and LeBaron Pianos and Thomas Organs. This opportunity is given to visitors and intending purchasers, but once a year, and in no way should be overlooked. Nothing too highly appreciative can be said of any particular instrument in this exhibit, as they are all leaders and never fail to satisfy the shrewdest purchaser. The music furnished by Messrs. Barrie Bros., is of a high order, and most pleasing to all visitors at the Fair.

SINGER SEWING MACHINES.

The Singer Sewing Machine exhibit is attracting much attention. It is in charge of Mr. A. E. Miltimore, of Granby, assisted by Messrs. H. Smith, Knowlton, and F. Powers, local agent. They are offering a prize to every purchaser of a machine on the grounds, and the indications are that the whole exhibit will be sold out.

R. McELROY, KNOWLTON,

is making quite an extensive exhibit. He is showing Moffat Steel Ranges, Togo National Heaters, McClary airtight heater, bathroom fixtures, New Sanitary Washing Machine, Universal Bread Maker, Davis Sewing Machines, etc. He will doubtless make many sales during the Fair.

L. L. McCLARTY,

the well known marble and granite dealer of Sutton, is making an interesting exhibit, in the Main Building, consisting of photographs and sketches of monumental work. These include many handsome designs of Scotch and American as well as of different grades of marble. This exhibit will no doubt result profitably to Mr. McClarty.

The Reason For The Great Variety.

There's a season for every brand of Tobacco—every variety of Cigar—every kind of Cigarette that is to be found in our very comprehensive stocks. That reason—the satisfaction of those who use the weed.

Ours not to reason why,
Ours only to supply

the brand that in the estimation of a smoker is the best. There are no philanthropists in business—we're all in the game to make money to live. More money to be made in anticipating the demand than in forever urging the merit and the acceptance of a substitute.

THE ONLOOKER.

The Margin of Safety.

It is evident that Saturday's rather serious mishap to the Brome Special was due to the fallability of the human element that must enter into railroading. As reported, an engineer was ordered to run a light engine over a certain portion of the line, keeping out of the way of regular trains. Apparently he overlooked the Brome Special, so called, which is a Saturday train only and ran into it head-on. If this explanation of the cause of the accident turns out to be true, the engineer is certainly deserving of very severe censure, but as a part of life on the rail, his oversight was not over surprising. Even where a single moment's forgetfulness is likely to be fraught with fatal consequences, daily familiarity with the imminence of accidents is calculated to breed a natural carelessness. The human mind can be trained but it is not infallible and cannot be made automatic. In proportion as the safety of trains depends on human precision, accidents are bound to occur. A big fortune awaits the genuis who can devise a practical block system to be electrically operated by the trains themselves.

Paris, Sept. 12.—It is understood that the Venezuelan cable situation was informally discussed at the meeting of the council of ministers yesterday but the official note issued after the meeting did not mention the subject and the officials say the Government has not taken action pending the receipts of a report from the French legation at Caracas. The legation has been previously instructed to protest against the closing of the French Cable Company's stations and the expulsion of Manager Brun, but the result of the presentation of these protests has not been reported. The officials here add that immediate action is not likely as the question is sufficiently serious to require mature consideration.

That Causes Itching Scalp, Dandruff and Finally, Falling Hair

The itching scalp, the falling hair and the dandruff that annoys are the work of a parasite hidden in the scalp. That parasite must be killed to cure dandruff; and the only preparation that will do that is Newbro's Herpicide. "Destroy the cause, you remove the effect."

C. H. Reed, of Victor, Idaho, says: "Myself and wife had dandruff and falling hair several years. Two bottles of Newbro's Herpicide completely cured us, after several other preparations had failed to do good." Makes hair grow glossy and soft as silk. Hundreds of other testimonials just as strong.

AERONAUTS LOST AT SEA

TRIED TO CROSS FROM ENGLAND TO DENMARK.

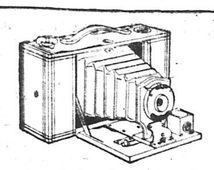

London, Sept. 12.—Jacques Faure, a well known French aeronaut, accompanied by Marquis De Villalonga, started in a balloon from the Crystal Palace, bound for Denmark, on Thursday evening. Nothing has since been heard of them, and the gravest fears are now entertained that the aeronauts have been lost in the North Sea. Some difficulty was experienced in starting the balloon, as apparently it was badly inflated. Torpedoboats were directed to watch the balloon's movements, but the weather was hazy and it was never sighted.

TO STOP CREDIT.

ADVICE TO WESTERN MERCHANTS BY A TRADE JOURNAL.

(Winnipeg Commercial.)

The burden of the recent retail merchants' convention was, without a question, the evils of the credit system. Like every other important subject, it has more sides than one, and it is no doubt difficult to remedy promptly. We would suggest, however, that if this fall's harvest yields the abundance conditions indicate now, the merchants collect their accounts as soon as possible, and give the farmers to understand that it will be necessary for them to keep more funds on hand hereafter between harvest seasons, owing to the decision to put credit under control. When the western farmers receive their returns for the year's crop, the feel speculative, like any others who have good supplies of cash, and if they find the retailer easy, so to speak, they will naturally delay paying their bills, if they see good chances of investing in more lands. It is therefore up to the merchant this fall to get brave, and assert his rights. Let the farmer content himself with his present acreage until he can see his way clear to increase it without working a hardship on his friend, the storekeeper. If all merchants have confidence in each other, and all pull together in the matter, dealing with the credit system will be fairly easy, and his carrying out of the proposed reform will be to the advantage of the farmer, in the end, as well as to the interest of the business man. Let the initiative be taken this year!

Baker, medical officer of the constabulary serving in the province of Cavite, while testifying in a libel suit against a native newspaper, declared that Aguinaldo was in league with the native outlaws. "The people understand," he added, "that Aguinaldo is the director of the outlaw campaign, and supposedly peaceful natives are aiding the movement under the same understanding."

Aguinaldo was challenged to prove otherwise. The testimony has created a sensation.

Mrs. W. S. Armitage has left for Fort Saskatchewan, N.W.T., accompanied by her two sons, Masters Reginald and Wendell Armitage. Mrs. Armitage expects to remain till the last of October, and will return with her daughter, Miss Genevieve Armitage, who has been in the Northwest for the past year.

"Down by the Sea" was the title of the play at Clement Theatre last night. The house was fairly well filled. The play is of the "Shore Acres" class. The company had considerable special scenery and exhibited a fair amount of talent. A member of the company in his localized song created a good deal of amusement.

Mr. Justice Hutchinson visited the High School yesterday, the opening day, and addressed a few pleasant words to the scholars, congratulating them on the fine commodious building so well adapted to its purpose, and impressing upon them the wisdom of making good use of their school days. Judge Hutchinson's example might well be followed by other citizens. It encourages and stimulates the pupils to feel that their elders are interested in their progress.

A special meeting of the Sherbrooke W.C.T.U. was held yesterday afternoon at the residence of Mrs. G. E. Hyndman, with a fair attendance. After the opening exercises the first business brought before the meeting was the election of delegates to the Provincial Convention, which takes place at Richmond on the 26th, and following days. Mrs. S. A. Jones, President of the Union, and Mrs. Skinner were the unanimous choice of the members. Mrs. Skinner spoke of the gift to the Public Library by the Union, the appreciation it had met with, and the good results which had followed. After some discussion in regard to the Library and other topics of interest to the W.C.T.U., the meeting closed with the Doxology.

The funeral of the late Miss Susan Amanda Warren, of Lennoxville, took place on Friday afternoon, from her late residence, a number of old friends of the family being present. A brief service at the house was conducted by Rev. R. W. E. Wright, Rector, who, also, officiated at St. George's Church. The bearers were Messrs. S. McFadden, John Wilson, William Searle and John Bartlett. The mourners were Mr. Elijah Warren, brother of deceased, and Dr. A. N. Worthington, M.P., a distant cousin. At the close of the service, the remains were borne to Malvern cemetery and there laid to rest. Miss Warren was the daughter of the late Elijah Warren, who came to Lennoxville from Hatley early in life, and settled there. Her mother was a half-sister of the Hon. Hollis Smith. Mr. Warren was proprietor of one of the first hotels carried on in the village, on the site where the College House now stands. For some thirty years Miss Warren and her brother lived together in their little cottage, and now one has been taken and the other left. In her youth she was endowed with great personal attractions, and was much admired. She was only confined to bed for some two weeks and passed peacefully away on Wednesday morning. She is survived by her brother, Mr. Elijah Warren, and by her half-sister, Mrs. J. E. Wilson, of Sherbrooke.

WAS DRAMATIC SUICIDE.

HOBOKEN MAN TAKES HIS LIFE IN PRESENCE OF HIS FINANCEE.

New York, September 12.—The Tribune says:—Announcement was made in the local papers Friday of the engagement of Meyer F. Hurwitz and Belle F. Hart, a school teacher, both of Hoboken.

Friday afternoon Hurwitz called on his financee and was sitting on a sofa with her in the parlor when he suddenly produced a vial containing carbolic acid, drank the contents and before Miss Hart could restrain him drew a revolver from his pocket and sent two bullets through his heart. He fell dead on the floor, and Miss Hart fainted, falling on his body.

The cause of the man's act is a mystery. At Miss Hart's house no information was obtainable. Friends of Hurwitz say he was well-to-do, and some who saw and talked with him earlier in the day say he appeared tobe in excellent spirits, and talked about the preparation he was making to provide a home for his promised wife.

Hurwitz owned two dry goods stores in Hoboken, and was looked upon as a successful business man. He was 28 years old, and Miss Hart was 20.

RACE SUICIDE IN PITTSBURG.

DECREASE IN BIRTH RATE ALARMS SMOKY CITY.

Pittsburg, Pa., Sept. 12.—A table of the births and deaths in Pittsburg during the past fourteen years, prepared by city Physician Dr. B. A. Booth, for the bureau of health, shows a startling decrease in the number of births notwithstanding a large increase in population. In 1891 there were 7067 births, the rate per thousand being 08.61. In the same year there were 5832 deaths, the rate per thousand being 23.61. The table is complete to the end of 1904, which shows a decrease in the birth rate of 21.74, more than seven per cent. The death rate is decreased from 23.161 to 19.70 from 1891 to 1904. The figures for the first three months of this year are surprising. In 1891 the excess of births over deaths was 1235. The figures of this year indicate that the excess of births has been wiped out and the conditions are reserved, there being a decrease of twenty-three births over the death rate.

In commenting upon the report, Dr. Booth said: "The figures show that race suicide is a fact, and I think more so in Pittsburg than in any of the larger cities of the country. There is also another feature. At the present advanced age the physicians save fifty per cent more babies than they did ten years ago. The advance made in science has reduced the loss of cases to the minimum. Taking this into consideration, together with the increase in population and such a decided decrease in the birth rate, it shows that sometimes is radically wrong. It again proves that President Roosevelt is right in his theories on race suicide."

SUBMARINE SIGNALLING.

BELL VIBRATIONS UNDER WATER HEAD SIX MILES AWAY.

(From the London Mail.)

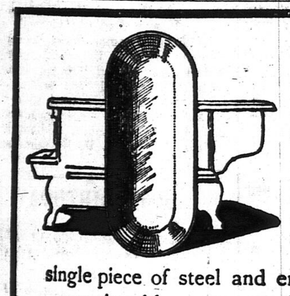

Further experiments in submarine signaling recently took place in the Channel between the Trinity yacht Irene and the North Goodwin Sands lightship.

The experiments were of an interesting character, the signals being heard with greater distinctness than at the previous trial. The receiving instrument was fixed in the navigating room on the Irene, and connected by means of wires with two short pillars or receivers, in the bows of the yacht.

The lightship having been reached, the Irene commenced to steam towards the land, and the demonstrations were at once started. Signals struck on the large bell beneath the lightship were heard with great distinctness on the telephone on the Irene, and continued to be audible until the ships were five or six miles apart. The value of the invention for minimizing fog dangers was clearly demonstrated.

GERMANY AND UNITED STATES.

Berlin, Sept. 12.—The semi-official press argues that there is no occasion for alarm at the determined tone of President Roosevelt's refusal to accept the initial proposals of the German ambassador for a commercial treaty with the United States. The National Zeitung frankly describes the President's answer as quite natural, and says that the process of bargaining will be continued by both sides.

The Pandora Reservoir

The Pandora is the only range with a reservoir stamped in one single piece of steel and enamelled. It is the only reservoir without seams, rivets or places to catch dirt. It has no sharp angles. All angles are made with rounding curves, and the whole reservoir is beautifully enamelled.

McClary's are the only range makers in Canada with a plant for making enamelled steel reservoirs, and that is why the Pandora is the only range that has a one-piece reservoir.

THE SOLDIERS WELCOME PEACE

News of War's End Received At Front.

SOLDIERS ENGAGED IN FEASTING —THOUSANDS DAILY DRINKING TO HEALTH OF ROOSEVELT.

Gunshu Pass, Manchuria, September 12.—Since news was received that the peace negotiations at Portsmouth were approaching a conclusion the correspondent of the Associated Press made a survey of all the Russian positions from Mongolia to headquarters. His object in part was to ascertain the extent to which the efforts making for peace were viewed by the armies. The negotiations received no official recognition in the field prior to their successful conclusion, the army keeping in a state of preparedness for a battle until the receipt by General Linevitch of the telegram from Emperor Nicholas declaring that the treaty had been signed and that His Majesty accepted the conditions reached. The telegram was officially published in the army newspaper on September 6, and the outlines of the peace conditions were printed in the same publication Saturday.

The result of these notifications was to bring to the officers a heavy sense of military decorum, while the soldiers, often with the consent and through the generosity of the officers, engaged in feasting and other forms of celebration. It will be a week more before the entire army is fully informed of the conclusion of peace. To the great majority of the officers and men so far informed the news that the war is at an end is most welcome.

Thousands are daily drinking to the health of President Roosevelt. Everywhere along the railway where newspapers could be obtained the soldiers eagerly scanned the news and then expressed their joy by singing, which they continued late until the night, at intervals cheering for President Roosevelt.

THE ANGLO-JAPANESE TREATY.

MUCH BROADER IN SCOPE THAN THE FORMER ONE.

London, Sept. 12.—The new Anglo-Japanese treaty will be given out this week. While much broader in scope than the agreement of 1902, the new treaty is understood not to be much longer than the old one, and the increase in articles is partly due to the changed conditions in Korea. In the old agreement the provision respecting China and Korea was contained in the first clause, while in the new treaty the undertakings with regard to the two kingdoms occupy separate clauses. This is necessary in order to give Japan a free hand in Korea. The open door here is guaranteed, and the rights of all nations are recognized in much the same way as in the Russo-Japanese peace treaty. Likewise, the open door in China is assured; and while taking every precaution to safeguard the interests of the contracting parties, it is believed the agreement contains nothing which in any way interferes with the existing rights of other powers, but is understood to be framed to prevent attempts looking to the partition of China. Clauses two and three of the old treaty, covering the conditions under which either ally comes to the assistance of the other when attacked by any two powers when the Far Eastern interests of the allies are affected, are understood to be completely changed, so as to bring one ally to the assistance of the other even if attacked by one power. In this respect it is especially interesting to Europe as applicable to all of Asia up to the line crossing north and south through Persia, as indicated by the 51st degree of longitude, which brings India within the scope of this significant extension of the agreement. The clauses of the old treaty providing that neither ally shall enter into an agreement with any other powers without consulting the other, and that whenever their interests are jeopardized the two countries shall consult fully and frankly, will undoubtedly be retained, though they will probably be somewhat broadened.

YAMAGATA ON PEACE TERMS.

JAPANESE FIELD MARSHAL DEFENDS THE TERMS.

Tokio, Sept. 12.—The Nichi publishes an extended statement by Field Marshal Marquis Yamagata, Chief of the General Staff and one of the Elder Statesmen, reviewing the war. He first discusses the Russian advance in Manchuria and Korea, gives details about the futile negotations between Japan and Russia, and refers to the increase on the Russian naval forces in the Far East and to Japan's resolution to draw the sword for her own protection. Continuing, the Field Marshal says that after the Japanese victory at Mukden the principle of humanity started the cry of peace in Europe and America, and after Japan's victory at the battle of the Sea of Japan, President Roosevelt advised both belligerents to cease their differences of opinion.

Dissensions over the terms of peace, Marshal Yamagata points out, are unavoidable; but the people must remember that Russia's obduracy and desire to continue the war left no hope of obtaining adequate repayment of the cost of the conflict, a continuation of which would have entailed furthur sacrefices and expenditure for Japan. The cessation of hostilities was also advantageous to Japan's national development, while a continuation of the war meant wasting her energies and resources. He concludes with asserting that Japan's military strength is unimpaired and that her armies could have taken Harbin.

The Nichi Nichi declares that the Home Minister and the Chief of the Metropolitan Police were responsible for the recent rioting here and demands their resignations. It asserts that their unwarrantable arrogance in trying to suppress expressions of national sentiment has resulted in great humiliation for Japan.

The Banner of Honor and Victory
AWARDED TO
Diamond Dyes.

By Five Continents and the Isles of the Sea.

Diamond Dyes, the only honest and perfect package dyes now before the women of the world for successful home coloring, have been awarded the banner of honor and victory by five continents and the isles of the sea, for purity, strength, brilliancy, beauty of colors and never-fading qualities.

Diamond Dyes with a record of twenty-five years of marvellous and delightful work in the homes of the world, have been imitated. The result is, that many of our women and girls have frequently been deceived by having worthless package dyes forced on them, which have proved disastrous to good materials and valuable garments.

When buying package dyes the exercise of a little care will save our women much trouble and annoyance. Ask for DIAMOND DYES, and see that the words, "DIAMOND PACKAGE DYES" appear on each envelope you are offered. Send to Wells & Richardson Co., Limited, Montreal, P.Q., for valuable book on home dyeing, and card of 48 dyed cloth samples. Sent free to any address.

Mr. Garvin continued to preach at Sutton and Richford, also, preaching at St. Armand and Dunham, giving each a part of his attention up to February, 1878, when he resigned and went to Fort Worth, Texas, on account of poor health, where he resided till the autumn of 1893, when he again was called to the pastorate of the Advent Church in Sutton, Jan. 1894, where he remained up to March, 1900. On July 26th last he had a slight paralytic shock, from which he rallied, but on August 26th a second attack occurred from which he never rallied, and the good old man passed away on August 29th.

His aged mother, Mrs. Martha Brock, survives him; also, his wife, Kate Brock, and two daughters, Mrs. Alice Willey, of Manchester, N.H., and Mrs. Leda Chaffee, of Troy, who owns and lives on the farm formerly owned by her father.

NARROW ESCAPE AT RAILWAY CROSSING.

Brome Center, Sept. 12.—(Special)—Mr. Earl Mandigo had a narrow escape on Friday last from what might have been a most serious accident.

He was driving a span of horses from Sutton, and when he came to the railway crossing at Sutton Jct., an engine was rapidly approaching. As the horses reached the track they stopped, apparently paralyzed with fright. A little application of the whip persuaded them to leave the track, but they made for the ditch at the side of the road. While trying to get the team on to the road they broke the pole and cleared themselves from the rig, a proceeding which was most fortunate for the driver.

After some trouble the horses were caught, and Earl proceeded on his way homewards, riding one horse and leading the other.

It was only about a year ago that he had an encounter with a ferocious bull while driving. Without doubt, he hopes this is the last.

THE NEW KIND OF A STORE.

New management but not new experience. What we've been doing in Toronto these many years is helping us to decide what is best for Montreal.

Exhibiting a hap-hazard variety of saleable showy things might make money for us, but that is not the immediate object of this business. We intend to show first what we think a store should be, which means change and improvement upstairs and down.

We don't announce to give goods away and we don't try to stir up trade whirlwinds. We have such things as people want and know they want the minute they see them. And we guard against extravagance in any form by keeping prices within reason.

50c Corded Crush Leather Belts for 25c.

This offer is the result of the combined buying power of two big stores—the one in Toronto and the other here. It is being so well able to handle large quantities that brings prices to what they are, that otherwise we could not have. This is an instance:

Ladies' Corded Crush Leather Belts—solid leather and made in a new fall style—3 inches wide, neat harness buckle in front, in all the newest colorings including blue, green, brown, black and white. Regular 50c value. Special **25c.**
