CANADIAN SENATE FINDS PROPER SPHERE AT LAST

IT IS NOW SITTING IN ROOM PREVIOUSLY OCCUPIED BY INVERTEBRATE FOSSILS—HOUSE EULOGIZES LATE SIR CHARLES TUPPER.

(Special to The Chronicle) Ottawa, Feb. 7.—Parliament Met today in transformed quarters and after some preliminary admiration of the work which the Public Works Department has done in making the Victoria Museum suitable for legislative occupation got down to business. A resolution introduced by Hon. Rodolphe Lemieux calling for the establishment of a national labor bureau was amended by Hon. Robt. Rogers to the effect that the House carefully consider their establishment and was passed in this form.

Labor is Opposed. Hon. T. W. Crothers, Minister of Labor, argued that no case had yet been made out for a national labor bureau system and that it was properly a provincial matter. He was supported in his opposition to the proposal by Mr. Alphonse Verville, Labor Member for Maisonneuve, who stated that organized labor did not favor the establishment of labor bureaux and even asked for the abolition of private ones. The debate covered a wide range of subjects. Hon. William Pugsley expressed himself during the discussion as adverse to the giving of free homesteads and advocated instead that Crown Lands should be sold on exceptionally easy terms and those who settled thereon should be encouraged in every way, among others by the establishment of a system of rural credits.

JOHNIE WALKER KILMARNOCK SCOTCH WHISKY. Image of a man in a top hat and coat, holding a cane.

NO AEROPLANES NEAR MONTREAL. After the local military authorities had made inquiries, Brigadier-General E. W. Wilson, the officer in command of this district, stated that the story of two aeroplanes having been seen near the city early Saturday morning was absurd. He said experts had stated that aviators could not fly in such cold weather, as they would freeze to death. The nearest known aeroplane station, according to the military authorities, is Long Island, about 300 miles away.

GERMAN INDUSTRIES Chancellor is Asked to Create an Economic General Staff.

Berlin, via London, Feb. 7.—The Hansabund, an organization of big German industrialists, after a two days session which was attended by representatives from all parts of Germany, has decided to ask the Imperial Chancellor to draw up and present to the Bundesrat a measure creating an "economic general staff," to handle and control the multifarious business problems now, and especially exports and imports after the war, and to have charge of the transfer of German business and industry from a war to a peace basis when the time comes.

Individual members of the Hansabund argued the urgent need of some such body immediately to handle the badly tangled real estate situation, the labor market problem, the supplying to industry of raw material, finances and kindred matters. It is the aim of the Hansabund to have some central body control exclusively all importations after the war, to prevent depreciation of the currency. The importance of creating an economic general staff now, rather than at the advent of peace, was urged by all present.

Coincidentally, the Prussian Chamber of Commerce met at Berlin and unanimously agreed to urge the creation of an organization to take over absolute control of all Prussian army contracts and have charge of the distribution of work, even to the smallest items done by women in their homes. It was agreed that the little states which furnish troops to the Prussian army should share in the distribution of contracts.

A commission was appointed to draft a law creating the proposed body. House of Commons avails itself of this opportunity to record its tribute of respect to the memory of one of its most distinguished members. Tribute was also paid by Mr. E. M. Macdonald of Pictou, and Mr. J. H. Sinclair of Guysboro to the memory of the late Bowman B. Law, member for Yarmouth, who perished in the fire which destroyed the Parliament Building last Thursday. Quarters Improved. The Chamber in which the House meets has been much improved in comfort and appearance. Leather-cushioned chairs have been substituted for hardwood ones; the room has been carpeted in green according to traditional usage, members of the Press Gallery have been accommodated with two rows of desks on the raised platform behind the Speaker, which is decorated with flags. The magnificent distances of the two lower floors of the Museum Building have been limited by fibre-board partitions erected by an energetic army of public works employees for the purpose of providing offices for the members and sessional employees. The Senate has been placed in the large room previously occupied by invertebrate fossils. A dais is being erected and the chamber is being tinted in red.

WASHINGTON IS CONGRATULATING ITSELF ON THE PROBABILITY IT WILL NOT HAVE TO FIGHT

United States Is Ready To Smoothe Difficulty Over French Gunners Again Prove Their Efficiency—German Artillery Shells British Lines—Authorities At Kiel Fear Aerial Raid By Allies—Earl Kitchener May Leave War Office—Kaiser's Son Is Wounded

Optimism prevails in Washington that the situation between the United States and Germany which arose over the sinking of the steamship Lusitania by a German submarine will be settled amicably. In official circles it has been stated that the use of the words "illegal" or "disavowal" will not be insisted upon by the United States and that no choice of words used by Germany in meeting the American government's contentions in the premises will be permitted to block the success of the negotiations.

While Secretary of State Lansing, who is to have a final conference with President Wilson on the matter, stated that he considered the situation unchanged, Chairman Stone of the Senate Foreign Relations Committee said his impression was that the case was "practically settled."

Except on the front in France and Belgium little fighting has been reported. Paris tells of the bombardment of German positions near Het Sas and Steenstraete in Belgium, the destruction of a German blockhouse between the Oise and the Aisne and of effective work by French batteries in the Artois and Champagne regions. French shells on the former sector caused powerful explosions north-east of Arras and a great fire in the Champagne near Challevange.

The Germans have been busy with their artillery against the British around Loos, while the British in return have bombarded German trenches near the Ypres-Roulers railway.

The Vienna War Office reports the situation unchanged on all the fronts where the Austro-Hungarian troops are fighting.

Nothing new has come through concerning the reported concentration of troops of the Teutonic allies in the region of the Greek border.

A Copenhagen despatch indicates that the authorities at Kiel are fearful of an Allied air raid there. The populace has been notified that a steam siren will give the people advance notice of an air raid, and that in case the raiders come the people should not unduly expose themselves.

The semi-official Overseas News Agency of Berlin says there are now 1,428,171 prisoners of war in Germany. This number, it is declared, does not include the prisoners the Germans left in Austria-Hungary.

A London newspaper is authority for the statement that Earl Kitchener, the British Secretary of War, probably will leave the War Office to undertake work of a more important character elsewhere. If Earl Kitchener should leave, the newspaper adds, Sir William Robertson, chief of staff, will actively direct the war and a civilian will become Secretary for War.

For the second time during the war, Prince Oscar of Prussia, fifth son of Emperor William, has been wounded.

RECEIVED BY KING.

London, Feb. 7.—Brigadier-General Watson, of Quebec, was received by the King at Buckingham Palace today.

Amsterdam, via London, Feb. 7.—Prince Oscar of Prussia, fifth son of Emperor William, has been slightly wounded in the head and on the upper part of the thigh by shell splinters during the fighting in the eastern war theatre, according to a Berlin official report received here.

Prince Oscar was wounded at Virton, Belgium, in September, 1914. He was ill for a long time and was declared to be suffering also from an affection of the heart. He returned to duty in the field in November, 1914, and narrowly escaped capture the following month during the fighting in Poland.

CONFERENCE WITH KING.

London, Feb. 7.—A court circular announces that the King today received in audience Premier Asquith, Sir Henry Jackson and Major-General Charles Edward Callwell.

Mr. Asquith is president of the Imperial Defense Committee; Sir Henry Jackson is First Sea Lord; General Callwell is director of military intelligence.

Special significance is believed to attach to the conference of the King with three such important chiefs of the war operations. It is also noted that Earl Kitchener, Secretary of War, had a long audience with the King a few days ago.

Rome, Feb. 7, via Paris.—There have been published in Italy letters exchanged between Cardinal Mercier, Primate of Belgium, who is now in Rome, and German authorities accompanied by hitherto unpublished documents which charge the killing of a larger number of priests in Belgium than was specified when allegations of this nature were made previously. Sacrilege and the violation of nuns also are charged.

NOT COMPROMISE BUT DEFEAT.

London, Feb. 8.—The morning newspapers discuss the Lusitania controversy at great length, but the discussion is largely speculative owing to the fragmentary nature of the despatches received up to press time regarding the German proposals for a settlement of the case.

The hope is generally expressed that President Wilson will stand by his demands and insist upon a real disavowal of the act by Germany. The Times says:

"It cannot be supposed that President Wilson is ready to renounce the chief principles for which he contended with moral earnestness and reasoning power, which excited admiration and respect on both sides of the Atlantic. Germany is reported as yielding to all of his demands save one, but this one is the vital point on which America has taken her stand from the first. To abandon the claim for a disavowal would be not a compromise, but a defeat."

The Post says: "President Wilson set forth his demands in plain language. We are not surprised at Germany endeavoring to confuse the issue and set up specious pleas. But unless President Wilson traverses his written word no compromise is possible. The United States is champion of virtue and humanity; the United States either acquiesces in the legalization of murder, or it does not. President Wilson has already made his choice in plain terms. Much, both for the present and future, depends on his next action."

Missed By Censor

Good Morning! You will now be able to give your skills an airing.

Mr. Lucien Cannon has a bill to admit ladies to the bar—the Legal Bar, of course.

No more bomb slingers in the galleries of the local Legislature. Orders have been given to refuse them admission.

The reception of "La Presse" bill in the Legislative Assembly last night looks very ominous.

There is a public bill at the Legislature for the protection of thoroughbred animals. Wonder if "White Horse" is included?

Wonders of the world—Our enemy aliens.

GAS PIPE LEAK

CAUSE OF FIRE. Highgate, Ont., Feb. 7.—A leak in a gas pipe in George Oake's barber shop at 2:00 o'clock this afternoon, caused the destruction of the building by fire and severe burns and cuts to Oake's, Cornelius Degraw, John Lawrence, Henry Hall and William Wise. The explosion caused the walls to collapse and the roof fell in. The five men were caught in the fire and debris. All will recover.

The Weather

Toronto, Feb. 7.—The disturbance which was over the Great Lakes last night has developed into a storm, which is now centered in New Brunswick. Gales have prevailed in Ontario and Quebec, with a change to colder weather, while in the Maritime Provinces it has been mild and rainy. The temperature continues low in British Columbia and the western Provinces.

Table with columns: Location, Min., Max. Dawson 26 30, Victoria 32 32, Vancouver 30 34, Calgary 6 6, Edmonton 20 4, Moose Jaw 30 1, Battleford 20 10, Regina 31 5, Winnipeg 24 10, Port Arthur 16 2, Parry Sound 12 16, Toronto 15 19, Kingston 14 24, Ottawa 8 26, Montreal 13 28, Quebec 18 30, St. John 30 38, Halifax 32 42.

Forecasts.

Lower Lakes and Georgian Bay: Moderate to fresh west and south winds; fair and cold. Upper St. Lawrence and Ottawa Valley: Fresh westerly winds, fine and cold. Lower St. Lawrence, the Gulf and North Shore: Strong winds and gales from westward, much colder; snow flurries. Maritime Provinces: Strong winds and gales from the westward; fair becoming much colder. Lake Superior District: South and south-east winds, fair and cold, followed by a snowfall. Western Provinces: Continued low temperature, light local snowfalls.

The Treatment of Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for influenza or La Grippe. In an article in the "Lancet-Clinic," Dr. James Bell, of New York City, says he is convinced that too much medication is both unnecessary and injurious. When called to a case of influenza, the patient is usually seen when the fever is present, as the chill which occasionally ushers in the disease, has practically passed away. Dr. Bell then orders that the bowels be opened freely with saline, "Aristol" or citrate of magnesia. For the high fever, severe headache, pain and general soreness, one anti-saline tablet every three hours is quickly followed by complete relief. Ask for A-K Tablets. They are also excellent for headache, neuralgia, and all pains.

YOUNGEST MEMBER SHOWS CHIVALRY

MR. LUCIEN CANNON WANTS LADIES ADMITTED TO THE BAR.

Chivalry is not yet extinct in the Quebec Legislature and its most enthusiastic exponent is the youngest member in the Legislative Assembly, Mr. Lucien Cannon, member for Dorchester County.

Being a member of the Bar of the Province of Quebec himself, Mr. Cannon feels that all the privileges of that association should be extended to the fair sex providing they make the proper studies and pass the same examinations that are required of the male students.

Heretofore article 452 of the Revised Statutes which concerns admission to the Bar of the Province of Quebec makes no mention of the ladies, and Mr. Cannon is gallantly promoting a bill to amend the article in question so that in future ladies who are properly qualified will be admitted to the practise of law in the Province of Quebec.

The bill is inscribed on the order paper of the Legislative Assembly, but has not yet been introduced.

ACTION TO ANNUL CIVIC BY-LAW.

An action to annul a by-law has just been inscribed at the Court House by the legal firm of Pentland, Stuart, Gravel & Thomson on behalf of the Quebec Railway Light & Power Co. against the City of Quebec, and the Quebec & Lake St. John Ry., Co. mis en cause.

The by-law objected to is No. 405-A passed on Nov. 12th., 1915 dealing with the closing up of certain streets in Limoilou particularly a portion of 3rd., Street, extending from the Q. & L. St. J. to the Q. R. L. & P. tracks. The plaintiffs contend that the City in drawing up such a by-law is exceeding its legal jurisdiction.

FUNERAL OF OTTAWA FIRE VICTIM TODAY

HON. MR. CASGRAIN WILL REPRESENT THE DOMINION GOVERNMENT.

The funerals of Mesdames Bray and Morin the unfortunate victims of the House of Commons fire will be held this morning, the 8th, in this City and the latter at Beauceville.

It is safe to predict that both obsequies will be most imposing and the universal sympathy which is felt for the bereaved families of the deceased will be testified in a signal manner by the large and distinguished corteges which will attend the respective funerals.

Hon. T. Chase Casgrain, Postmaster-General, will represent the Dominion Government at the funeral of Madame Bray, while Hon. Mr. Piquenotte, Minister of Inland Revenue, will represent Sir Robert Borden at the funeral of Madame Morin.

Hon. Mr. A. Sevigny, Speaker of the House of Commons, and Mr. J. Sirois, M.P., will also go to Beauce to be present at the obsequies.

POLICE COURT DOINGS.

A man named Victor Laprise, accused of having assaulted motorman Cote, and stealing a cap and badge belonging to conductor Cloutier on a street car in this city on Feb 1st., appeared before the Court of Sessions yesterday afternoon and pleaded not guilty. He gave bail and will appear later for trial.

Cathedine Tremblay, a servant, accused of stealing a watch and gold ring from her mistress, was sent to the house of correction for three years.

RESULT OF RECITAL.

The result of the Recital given by Mr. Frank H. Rowe, for the Prisoners of War Fund, was most gratifying. The amount realized was \$160.00 which Miss Muriel Joseph has forwarded direct to Lady Drummond, London, Eng.

## \$100,000 HEIRESS WILL ASK A MAN TO MARRY HER

### MISS BERGSON OF COLORADO, WILL EXERCISE LEAP YEAR PRIVILEGE.

Boulder, Col., February 5—Before long Miss Fredonia Bergson of Altona who is to inherit her father's \$100,000 ranch and other property, will have exercised her Leap Year privilege and chosen her husband. She made known her intention at a party which she gave at her father's home. Miss Bergson assured her guests that she intends to enter upon her search for a husband with the utmost sincerity. Hitherto she has respected the wishes of her father, Peter Bergson, that she form no sentimental attachment until she had completed her eighteenth year, and though she has had many suitors, Miss Bergson has spurned none of them special favor.

#### Has Attained Legal Age.

She became eighteen years of age recently, and her announcement, her friends say, is quite in keeping with her determination of character.

"The Leap Year privilege is usually regarded as a jest," Miss Bergson said. "I intend to make it a fact. There is no reason why a young woman should not propose when she sees a man whom she believes would make her happy."

"There will be nothing sly about my method, none of those tricks that are supposed to be so dear to the feminine heart."

"When I find the man I want I shall propose to him unhesitatingly and I shall not weep if he does not care to accept my heart. He will have the same privilege to reject that I have to ask."

Miss Bergson says she does not care what the color of her husband's eyes may be, but that he will have to measure up to other standards.

"First of all, he will have to be a real man," she asserted. "I don't care whether he is highly educated or not. Even though he has a college education, I shall not discard him for that if he fulfils my ideal in other ways. He must be big and masterful—no little, insignificant specimen for me."

#### Must Be Able to Fight.

"He must be big enough to crush me if he wanted to, but too gentle of heart to want to. He must like to live in the open. He must be able to manage a ranch. You know I'll own a large one some day. He must be able to prove to me that he has had at least one real fight with a man as big as himself. But I don't want a bruiser, for I have two dear little dogs and he must be willing to be kind and loving towards them, if he wants to have me ask him to become my husband."

#### To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

#### PATRIOTIC FUND.

Brantford, Ont., Feb. 7.—A rousing mass meeting in the Opera House tonight marked the inauguration of a three day campaign for \$100,000 for the Canadian Patriotic Fund. Hon. T. W. McGarry, Provincial Treasurer, was the principal speaker.

## Coughs Are Dangerous

Use Tar and Sugar to Get Quick Relief.

Coughs and colds are dangerous because, if neglected, they so frequently lead to more serious complaints. Pneumonia, bronchitis and lung trouble would be almost unknown if coughs and colds were taken in hand in time. To be sure of getting instant relief and to prevent danger of your cough becoming deep seated you should always keep on hand a supply of bitrate of tar cough syrup which can easily be made at home for a few cents by dissolving half a pound of sugar in half a pint of hot water and then adding 2 ounces of bitrate of tar. Stir thoroughly, pour into a pint bottle and when cool it is ready for use. One or two tablespoonfuls of this simple inexpensive home made cough syrup taken every hour or two will quickly relieve the severest cough or cold, loosen up the phlegm and clear out the head in a most astonishing manner. Tickling throat coughs may be stopped by slowly dissolving in the mouth a lump of sugar on which you have first put 15 or 20 drops of bitrate of tar. Be sure to ask your druggist for the bitrate of tar as this is the only form containing the valuable remedial agents found in pine, wild cherry and guaiacol, and is also very pleasant to the taste.

## WHAT MONTREAL CITIZENS ASK

### LARGE DELEGATION ARRIVES HERE TO MAKE VARIOUS RECOMMENDATIONS.

The members of the Composite Committee of Montreal Public Bodies will be represented at the Private Bills Committee this morning to support the bill for the reduction of the number of aldermen in the Montreal City Council.

The recommendations of the Composite Committee are as follows:—

#### Recommendations.

1.—The City shall be governed by a Mayor, four Commissioners and fifteen Aldermen.

2.—The Mayor and the Commissioners shall be elected by the people at large, but the Aldermen shall be elected three from each of five large electoral divisions or districts.

3.—At all elections for Commissioners and Aldermen, each elector shall vote for neither more nor less candidates, than the number called for by the vacancies to be filled at such elections.

4.—The Mayor shall preside over the Council; he shall also be Ex. Officio Chairman of the Board of Commissioners, who in his absence shall elect a Chairman from amongst themselves. The Mayor shall have no vote except in the case of a tie, when he shall have the casting vote.

5.—The functions of the Aldermanic Board shall be as heretofore. Legislative; the functions of the Board of Commissioners shall be Executive, as provided for in the present Charter.

6.—The Mayor and the Aldermen shall be elected to office for a period of Two years. The Commissioners shall be elected for a period of Four years in such a way that half of their number shall retire every second year.

7.—The Annual salary of the Mayor shall be \$10,000, that of each of the Commissioners shall be \$7,500, that of each of the Aldermen \$1,500, provided that the number of aldermen be fifteen.

#### Bodies Represented.

The public bodies represented by the Composite Committee are: The City Improvement League, The Board of Trade, The Trades and Labor Council; The Canadian Manufacturers Association; The Montreal Citizens Association; The Builders Exchange; The Montreal Local Council of Women; The Montreal Publicity Association; The Montreal Women's Club; The Franchise League; The Montreal Suffrage Association; The Notre Dame de Grace Civic Improvement League; Laurier Ward Voters League and others.

The above bodies with individual citizens will present a delegation at the provincial Legislature at Quebec on Tuesday morning February 8.

The Committee promotes the division of the City of Montreal into Five Districts with three Aldermen for each District, the Controllers to be elected at Large as hitherto.

Those present to promote the bill of the Composite Committee are: Hon. J. L. Guerin, Ex-Mayor, Montreal; Sir William Peterson, President McGill University; Rt. Rev. Monsignor Dauth, Laval University; F. L. Wanklyn, Ex-Controller; E. P. Lachapelle, Ex-Controller; Gustave France, J. Foster; A. H. Dandurand, Dr. W. H. Atherton, G. F. Benson, Zepherin Hebert, Huntly R. Drummond, G. A. Slater, Donald H. McMaster, Roy Campbell, Mandoza Langlois, J. C. Bourque, A. C. Bruneau, E. O. Montit, J. Gagnier, A. Gariepy, John Quinlan, D. W. Trotter, C. H. Gould, R. J. Dale, Francis McLennan, K.C., C. E. Gravel, H. Putnam, T. J. Wall, E. Belanger, Fred. Abraham, A. R. Doble, J. N. Emard, K.C., Louis Boyer, K.C.

The delegation will also present a great number of important signatures from each of the resident, business, labour and partially labour districts of Montreal favoring the bill of the Composite Committee.

## CARSON ORDERED TO TAKE A REST

### HIS ACTIVITIES OF PAST FOUR YEARS HAVE EXHAUSTED HIM.

London, Feb. 8.—1.45 a.m.—Sir Edward Carson, former Attorney-General, has been ordered by his physician to take a five weeks rest. He is suffering from exhaustion due to his activities of the past four years.

Prior to the outbreak of the war Sir Edward Carson was the leader of the Irish Unionist party, and took part in the campaign in Ulster against Home Rule for Ireland. He was active in forming the Ulster volunteers to resist the putting of Home Rule into force. In May, 1915, when the coalition Cabinet was formed Sir Edward assumed the portfolio of Attorney-General. He resigned the following October because of dissatisfaction with the conduct of the war.

#### ANOTHER RUSSIAN CABINET CHANGES.

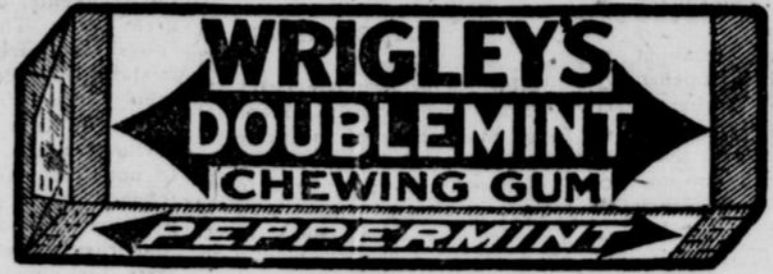

Petrograd, Feb. 7, via London, Feb. 8.—1.35 a.m.—Another important cabinet change was announced today, Pierre A. Kharitonoff, Controller General, retires for reasons of health. He is succeeded by M. Pokrovsky, a member of the Council of the Empire.

LEGISLATURE OF QUEBEC IS TAKING PRECAUTIONS

EXPERIENCE OF OTTAWA HAS LED TO THIS STEP - CITY HALL INCREASES GUARD AND WANTS ONE ON WATERWORKS.

Measures of precaution to prevent indiscriminate admission to the public galleries in the Quebec Legislative Assembly were begun last night when the House resumed sitting.

The usual crowd was present about the entrances when the sitting opened but stony officials in uniform barred the way and those who up to now had walked in and occupied seats were informed that they could no longer enjoy that privilege unless they presented a card signed by a member of the House.

Orders have been issued by Speaker Delage that in future, only those who secure cards from the members of the House will enjoy the privilege of admission to the galleries.

It is understood that the recent fire in the Ottawa Commons has prompted the Speaker to take this precautionary measure.

Montreal on Alert. Montreal, Feb. 7.—Special precautions to guard the City Hall and Court House, as well as other public buildings in Montreal from possible destruction by Hun sympathizers are being taken by the authorities, and wherever armed guards have been employed since the beginning of the war, there has been a tightening up in their methods to prevent unpleasant surprises from alien enemies.

Quebec City Realizes. That the Quebec City Council is fully alive to the grave situation which is now facing the people of the Dominion is manifested by its application to the Militia Department to have the special military guard resume duty on the important points of the city's waterworks.

Arrangements have already been made to have the Municipal Police on duty throughout the City Hall, both day and night.

Mayor Drouin's prompt attention to the dangers which, through the war, may forcibly be brought home to the citizens at any time, will certainly tend to relieve any fears that may be entertained through the events of the past few days. His foresight in adopting these precautionary measures is very much to be commended.

Hun Agent Guarded. Wingham, Ont., Feb. 7.—Adolphe Schatte, the German-born leader of the Wingham town band, who was arrested last night at the instigation of the Dominion Police on suspicion of being a German agent, remains under an armed military guard at the Wingham armories pending examination by the Ottawa authorities of sketches, drawings, books and papers found in the prisoner's possession. Schatte admits that he was a former soldier in the German army and it is claimed that he had been in Germany since the war broke out.

There are no new developments in connection with the finding of a box of cordite in a car of goods at the local Grand Trunk Station Saturday morning. A fuse was attached to the box of explosive when discovered. The cordite was found in a car of furniture which was shipped here from Regina.

Schatte has been in town a year and a half and has been employed in a furniture factory. He has made frequent trips out of town since his arrival here.

Fire at Toronto. Toronto, Feb. 7.—The three-story building at 19-23 Richmond street west, owned by the Imperial Trust Company and occupied by Tennant &

LIEUTENANT BERG IS IDENTIFIED.

Berlin, via London, February 8.—12.33 a.m. — Lieut. Hans Berg, commander of the prize crew which recently took the British steamer Appam into the Hampton Roads, has been identified as Hans Berg, of Apenrade, a naval reservist and master in peace time of the tramp steamer Gamma, belonging to the Ahrenkiel and Clausen Line.

Berg served as a one year volunteer in the navy and was called to the colors at the outbreak of the war and promoted to be a lieutenant six months ago.

While on furlough last year Berg told his wife in Apenrade not to be disturbed if she heard nothing about him for a long time. As a matter of fact his wife has had no letter from him, and has been unable to write him for many months as his address was unknown.

The German steamer Gamma is a vessel of 2,234 tons. She was last reported in port at Rotterdam.

CANADA TO HAVE JEW DAY SOON.

Toronto, Feb. 7.—At a conference of the Canadian Jewish Alliance, which concluded today at the Prince George Hotel, and was attended by delegates from Montreal, Toronto, Winnipeg, Hamilton, Fort William, London, Berlin, Chatham and North Bay, a resolution was adopted to memorialize the Dominion government calling upon them to proclaim in the Dominion of Canada a "Jew Day" to be utilized throughout the Dominion for the collection of funds for the war-afflicted Jews of Russia. The government will be asked to use its good offices in order that the disabilities to which the Jewish people are subjected in certain countries shall be removed.

The officers elected to serve till the next conference are as follows: Rueben Brainin, president, Montreal; Hugo Kaufman, secretary, Montreal; L. Zucker, first vice-president, Montreal; M. Goldstick, second vice-president, Montreal.

Purvis, real estate agents, Weiss and Behler, electrical fixtures, and T. White & Sons, manufacturing jewelers, was partly burned tonight. It is estimated that the loss will total \$10,000. It is reported that men were seen running from the lane in the rear of the building just before the fire broke out.

Ottawa Inquiry. Ottawa, Feb. 7.—The Commission consisting of Mr. R. A. Pringle, K.C. and Judge McTavish of Ottawa, appointed to investigate the destruction of the House of Commons, will begin the investigation immediately. Expert assistance will be obtained when necessary and the inquiry will be carried on as expeditiously as possible.

THE "CHRONICLE" TOBACCO FUND

QUEBEC BOYS SHOW THEIR APPRECIATION OF OUR READERS GENEROSITY.

The subscribers to The Chronicle Tobacco Fund will, no doubt, be very pleased to learn that the last consignments of "smokes" reached the Quebec Boys quite safely.

The Chronicle is in receipt of many acknowledgements from the front of the receipt of the smoking material, which, judging from the remarks of the recipients, undoubtedly proved a great boon. The gratefulness of the "boys" is clearly expressive and unmistakably endorsed the action of their Quebec friends in providing them with gifts of this nature.

Our readers will also be pleased to note that the receipt of Canadian tobacco affords great pleasure to Quebecers at the front, as it would appear that they have not yet acquired a taste for pipe tobacco of European manufacture, and from this it would seem that the "Made in Canada" slogan, is as much in evidence in the firing line as it is in the Dominion. We have received acknowledgements from the following:

Lieut.-Col. Albert E. Swift, O. C. the Second Battalion; Lieut.-Col. W. Gibson, Lieut. Fletcher, Lieut.-Col. G. Bowen, Sergt. E. T. Vyse, Lieut. A. J. R. Paradi, Sapper J. P. Marsh, Sgt. R. W. Birdseye (on behalf of a half-dozen Quebec boys); Sergt. L. Castera, Comp. S. M. Wilden Creighton, J. Gaulin, Lieut. J. H. Atkinson, Arm. Sergt. E. Payne, Corp. Jack Conway, J. Morgan, W. A. Watters, Sergt. H. C. Stuart, E. Vachon, E. Blackman, H. C. Chateauvert, Sergt. W. P. Terry P. D. Woods.

Below we publish a few letters of appreciation:

Francé, Jan. 19th, 1916 To Quebec Chronicle. Please accept thanks for the Tobacco and Cigarettes forwarded from the Chronicle and its readers. I have distributed same to the members of the Second Battalion. With many thanks, believe me, Yours very truly, A. E. SWIFT, O. C. 2nd Batt.

France, Jan. 19, 1916, To Editor of Quebec Chronicle, Quebec, Can. Dear Sir,—Thanks for 24 packages of Old Chum tobacco received today. You are very good to remember the Quebec boys at the front, and your kindness and that of the Quebec public is very much appreciated by us.

The public spirit manifested by The Chronicle in getting up a fund to purchase comforts for Quebec soldiers at the front is appreciated by me, and I wish to congratulate you on it, and to wish you continued prosperity during 1916.

I am, yours truly, P. D. WOODS, 62935, 1st C.F.A., 1st Can. Div., B. E. F. To Editor of Quebec Chronicle, Pte. E. Martel, No. 23171, 11 Platoon, 4th Batt., 1st Brigade C. O. E. F. January 20, 1916.

To Editor of The Chronicle, and its Readers. Many hearty thanks for all your kind good wishes for the New Year. My surprise and delight at the receipt of two parcels containing cigarettes and tobacco and greetings from my old paper, can hardly be imagined, and on behalf of my comrades and myself, I wish you would permit me to express my appreciation to the readers of the Quebec Chronicle.

I believe there are only two lads from the 8th Royal Rifles in this battalion, and I am the only one in "C" company. No doubt you already know that I was in the 12th Battalion at Valenciennes and when that battalion was broken up in England to provide drafts to reinforce the firing line, the draft I was in left Shorncliffe in May, 1915, to reinforce the 4th Battalion.

Since arriving at the front, I have been with the battalion in the trenches and have been fortunate in having never been hit yet neither have I been once on the sick list. I have seen many different parts of the line. At Festubert we were under heavy shell fire for eleven days, and suffered many casualties. I was also at Givenchy.

We are now having a long rest and getting limbered up by a course of "physical jerks" and other training. Lieut.-Col. Watson, who is so intimately associated with The Chronicle, is now Brigadier in the Second Division, I believe. I have often seen him in the trenches with his men. Next week I am expecting to go on pass for seven days to London. It is the first pass in nine months, so it can be imagined I welcome it all the more for being so long in coming.

Before closing may I wish my old home paper and all its readers a Happy and Prosperous New Year, and that the near future may see the folks at home and their dear one's in the trenches united in happy home life again.

Yours very sincerely, R. A. Per pro. Ernest Martel.

CATHOLIC SCHOOL COMMISSION SITS

LOWEST TENDERS HAVE BEEN ACCEPTED FOR SCHOOL AT STADACONA.

The Roman Catholic School Commission met last evening at the City Hall for the transaction of the regular business of the Commission with Mr. J. B. Morrissett, President, in the chair. The other Commissioners present were the following: Rev. Jas. Woods, His Honor Mayor Drouin, J. H. Chapleau and Jas. A. McManamy. The minutes of the previous meeting were read and adopted.

The President then reported that in accord with the authorization given by the Commission at its last meeting he had rented the building situated at the south-east corner of St. Flavien and Couillard St. for the purpose of opening a primary school room. This was decided upon in response to representations of a delegation of the ratepayers of the locality who appeared before the last meeting of the Commission and made plain the record of such a school. The rental will cost the Commission \$20 per month net. The school will be in charge of a lady teacher.

A letter was read from Mr. F. J. Buckley asking the Commission to accept the vacuum cleaning plant installed at St. Sauveur School. Messrs. Chapleau and McManamy were appointed to inspect the plant and report on its efficiency.

The Commission then proceeded to open the tenders called for for the revised plans of the new Stadacona School.

The following tenders were received: List of prices: Carpentry and Joining. Jinchereau & Lamonde... \$19,433.00 \*Emile Morrissette... 15,900.00 J. A. Gignac & Co... 21,798.14 Teles. Lelievre... 18,746.00 Jas. Gosselin... 19,000.00 Maj. Cauchon... 17,097.00

Painting and Glazing. Gauthier & Frere... 2,389.00 A. S. Bedard... 3,000.00 Simard & Frere... 2,787.00 J. M. Tardivel... 2,967.43 \*Marier & Tremblay... 7,995.82

Heating, Plumbing and Electric Lighting. P. P. Giguere Co.: Heating... \$4,748.31 Electric Lighting... 834.50 Plumbing... 7,109.70

Vandry & Matte... \$12,476.00 Goulet & Belanger: Electric Light... 996.45 Brousseau & Frere... \$12,500.00 Fort. Gingras: Plumbing... \$7,598.00 Electric... 1,086.00 Heating... 4,860.00

\*Jobin & Paquette: Plumbing and Heating \$11,300.00 Electric Light... 860.00 \$12,160.00

Roofing: Brousseau & Frere... \$3,100.00 Nap. Barbeau & Co... 3,499.00 Nap. Durana... 3,146.00 \*Eugene Falardeau... 2,675.00 \*Indicates successful tenderers. It was decided to accept the lowest tenders in each particular class. The contracts were accordingly awarded to the successful bidders.

The President then issued an invitation to the press to visit the newly completed schools under control of the Commission with a view to familiarizing the public with the work of the Commission. The meeting then adjourned.

London, Feb. 8.—2:05 a.m.—Archibald Fitzroy George Hay, twelfth Earl of Kinnoull, died yesterday at Hove. He was born in 1855, and served with the staff of Baker in Egypt.

Not a Symptom Left Anywhere DODD'S KIDNEY PILLS CLEAR-ED UP D. R. McLEOD'S KIDNEY DISEASE.

Nova Scotia Man Tells How and Why He is Enjoying All His Old-time Health and Vigor. West Tarbot, Victoria County, N.S. February 7.—(Special)—"Yes, I feel healthy, and full of old-time vigor." This was the answer of Dan McLeod, a prominent resident of this place, to a question regarding his present health. Everybody here knows that last winter Mr. McLeod was a severe sufferer from kidney disease. And he is most emphatic as to the cause of his cure.

"I used seven boxes of Dodd's Kidney Pills," he says, "and not only have I been greatly benefited by their use, but I am entirely cured of every symptom of kidney disease." The reason people talk so enthusiastically about Dodd's Kidney Pills is that they make them well all over. Acting on the kidneys they put those organs in condition to strain all the impurities out of the blood. That means pure blood carried to all parts of the body. And people who are healthy all over are always cheerful and enthusiastic.

AS WE GROW OLDER

our minds are quite as active as in former years but our strength does not respond when we need it most; perhaps the kidneys are weak, the liver torpid, rheumatic pains or stiffened joints beset us, and we cannot easily throw off the colds that winter brings.

What we need is the rich cod liver oil in Scott's Emulsion to revery the blood and carry strength to every organ of the body, while its glycerine soothes the respiratory tract, and its hypophosphites strengthen the excitable nerves.

Scott's Emulsion is a scientific oil-food, of unusual benefit to those past fifty years—particularly during the colder seasons, it imparts warmth and creates strength. One bottle will prove its worth. No harmful drugs. Scott & Bowne, Toronto, Ont. 15-36

LA PRESSE BILL READ 2ND TIME

PROMOTER OF THE MEASURE IS NOT INCLINED TO EXPLAIN IT.

A rather unusual scene occurred in the Quebec Legislative Assembly last night when the private bill to change the trustees of a portion of the capital stock of La Presse Publishing Company, Limited, came up for a second reading.

When the bill was called Mr. P. Cousineau, Leader of the Opposition, asked for explanations, and Mr. W. Levesque, of Laval, who is the promoter of the measure, said that the bill was printed and spoke for itself. It would be sent to the Private Bills Committee where the interested parties might be heard.

Mr. Cousineau insisted on knowing the meaning of the bill and as Mr. Levesque was not inclined to explain it, the Leader of the Opposition moved a six months' hoist.

Sir Lomer Gouin remarked that it was unusual to vote on a private bill in second reading before it was studied in committee.

Mr. Cousineau argued that the promoter refused to explain the bill, which might contain something contrary to public morals. If it were so the bill should not be sent to the Committee for study. At all events the promoter was evidently ashamed of the bill.

At the suggestion of Sir Lomer Gouin the bill was read by Mr. Levesque, and at its conclusion Mr. Cousineau said that as he understood the measure, it was to break a contract, and he could not refuse the promoters the opportunity of telling the extraordinary reasons which they must have for applying to the Legislature. He, therefore, withdrew his motion and the bill was referred to the Committee.

The Three Rivers bill was studied in Committee of the House and after the license clauses had been struck what was left of the measure was given third reading.

At the request of Mr. Trahan, promoter of the bill, the clauses to indemnify the hotel keepers who lost their licenses when prohibition was voted and providing for the municipalization of the sale of intoxicating liquors were struck out.

Hon. Mr. Taschereau's bill to increase the sum allotted for the protection of municipalities against fire, from \$10,000 to \$25,000, was given its final reading.

The following bills were read a third time: To amend the charter of the Town of Beauséjour.—Mr. Perron. Respecting the Protestant Board of School Commissioners of the City of Montreal.—Mr. Finnie. To incorporate the Civic Investment and Industrial Company.—Mr. Therrien. Respecting the building of the Basement of a Church, a Sacristy, and a Presbytery of the Parish of St. Jean Baptiste de la Salle.—Mr. Levesque.

INTERESTING LECTURE AT KIRK HALL. Before a fairly large audience last night an interesting lecture on Serbia was delivered in the Kirk Hall by Mr. Thomson. The Rev. Dr. Löve of St. Andrew's Church presided, and, in a brief speech, introduced the lecturer. Mr. Thomson, during the course of his lecture, spoke on the manners and customs of the people of Serbia, Montenegro and Turkey. His remarks with regard to the courage of the Serbians and Montenegrins were heartily applauded. His intimate knowledge of these countries of the Eastern theatre of the war enabled him to retain the attention of his audience until the end of the lecture.

The lecture was illustrated by colored lantern slides depicting almost every phase of life in the Balkans. At its conclusion a vote of thanks was proposed by Dr. J. M. Harper, seconded by Mr. J. G. Scott. A collection was taken up for the purpose of purchasing extra comforts for soldiers in the Military Hospital and a nice amount was realized.

MONEY FROM VON PAPAN TO SOMEONE IN OTTAWA

TWO CHEQUES WERE MARKED TO NAME "CASERTA" — INTERESTING REVELATIONS MADE IN PARLIAMENTARY PAPER ISSUED YESTERDAY.

London, Feb. 7.—Interesting additions to the Von Papan correspondence are contained in a parliamentary paper issued tonight. The paper gives the translations of all the documents taken from Captain Franz von Papan, the former German military attaché at Washington, and the full entries of his bank accounts, with fac-similes of checks and stubs.

The only revelation historically important is that Admiral von Hintze, who was German Minister to Mexico, in the spring of 1914 favored international intervention.

Capt. Karl Boy-Ed, the former German naval attaché at Washington, wrote to Capt. von Papan, opposing Admiral von Hintze's view and strongly defending President Huerta.

Col. Herwarth, of the German staff, wrote that the American military attaché at Berlin, Major Langhorne, who left Germany early in 1915, was the bearer of letters to German officials in America.

A letter from Edward Lyell Fox, an American correspondent in Berlin, contained an unfavorable opinion of the American Ambassador, James W. Gerard.

Prince Hatzfeld and Rhrd Seidenburg, of New York, wrote concerning the "stupidity and idiocy of Americans," whom the latter termed "Yankees."

George Sylvester Viereck, editor of Fatherland, went on record "as thoroughly ashamed" of his country.

George von Slak, former commissioner of accounts of New York City and a newspaper correspondent, who was on Captain von Papan's salary list, wrote to Maximilian Harden, the noted German editor, lauding Count von Bernstorff, the German Ambassador at Washington, and describing the widow of Count von Sternburg, the former Ambassador at Washington, as a degrading Count von Bernstorff's work, and scathingly denouncing Dr. Dernburg, who at one time was the unofficial representative of Germany in America. Incidentally, he informed Herr Harden how Dr. Dernburg spoke contemptuously of Harden.

The Bank accounts of von Papan show that von Slak and W. von Igel each received a salary of \$238 monthly with certain expenses. Two checks of a total of \$500 are marked for "Caserta, Ottawa." The parliamentary paper contains the comment: "This man repeatedly tried to enter the service of His Majesty's government. He is now interned in England."

FUNERAL AT LEVIS. On Friday, the 4th instant, took place at St. Joseph de Levis, the funeral of Mrs. Mary Preston, dearly and well beloved wife of Mr. Simon Murphy, of Lauzonville, Levis. A long cortege of relatives, friends and acquaintances showed their affection and sympathy by following in a body her remains to their last resting place. Resident of Lauzon for upwards of fifty years, Mrs. Murphy was associated with every good work and was beloved by all, both young and old, for the sterling qualities of heart and mind, and her death, at the ripe old age of 77 years, has cast a gloom over the whole community. In Mrs. Murphy we have lost one of these old-time Christian women; eminent in every respect; an admirable wife, a true and devoted mother; she has left behind her a sacred memory of the many excellent qualities which endeared her to all; her death was but an echo of a long and well accomplished life.

Mrs. Murphy leaves to mourn her loss, her husband, Simon Murphy, of Lauzon; two daughters, Miss Annie Murphy, of Lauzon, and Rev. Sister Mary Vincent of the Franciscan Ladies, actually on a mission at Fory Kent; four sons, Captain J. T. Murphy, of the Quebec Harbor Commission; Ald. P. H. Murphy, of Madden & Son; M. J. Murphy, of the M. P. & J. T. Davis Co., and G. J. Murphy, of the Quebec Harbor Commission.

PERSONAL. Late arrivals at the Chateau:—T. Gauthier, J. P. L. Berube, F. Wall, J. N. Simard, F. C. Laberge and wife, G. B. Mitchell, A. Leduc, A. St. Pierre, L. Beaudry, P. Houle, Nap. Turcotte, E. A. S. Bruneau, J. Gagne, J. E. Bourke, J. E. Marcel, Wilfred Tandy, H. G. Morin, Dr. J. M. Fullmer, G. T. McFadden, C. H. Gould Oscar Sewell V. Dufault, W. H. Winter, A. Fortier, J. O. Levesque, C. E. Gerard, John Quinlan, D. N. Tailon, H. Beaujourn, J. Morin, J. Desjorges, R. Masson, A. S. Pelletier, J. Pringleau, Dr. Guerni, R. Lucas, Dr. Grenier, L. A. Amos, L. Tremblay, L. A. Caron, D. McElroy, B. Hebert, B. Robillard, D. Tansey, F. E. Gilman, E. E. Gault, Mr. and Mrs. J. L. Decarie, Montreal; S. H. Woodward, New York; L. R. Benoit, Toronto; Mr. and Mrs. E. M. Farns, Rochester, N.Y.; Chas. C. Malher, Cambridge, Mass.; Elijah Stellman, Hillesley, Man.; Joba P. Wills, Sherbrooke.

FOR PATRIOTIC FUND. Galt, Ont., Feb. 7.—Fifty thousand dollars, representing the profits on insurance for the year 1915, was donated to the Canadian Patriotic Fund today at the annual meeting of the Gore District Mutual Fire Insurance Company, held at its head office here. The motion was carried unanimously, the meeting rising to its feet and singing:—"God Save the King."

Just One Application and the Hairs Vanish. (Modes of Today.) A harmless, yet very effective, treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hairs, apply paste and after 3 or 5 minutes remove, wash the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results, buy the delatone in an original package.

Baby Afflicted With Eczema Dr. Chase's Ointment Cured

The Family Doctor Tried in Vain to Heal the Sores—Another Tribute to This Great Healing Ointment.

It may be interesting to note that Dr. Chase's Ointment was originally compounded to cure a case of eczema on a child. The disease had spread almost over the entire body and defied all the regular treatment for such troubles. The doctor was perplexed, but finally hit on the formula of Dr. Chase's Ointment, and, as many say, "it worked like a charm," healing up the nasty sores and leaving the skin soft and smooth.

That was a good many years ago, and since then many thousands of cases of eczema, both in children and adults, have been cured, until today Dr. Chase's Ointment is recognized as the standard cure for itching skin diseases.

Mrs. Geo. McNair, River Charles, N.B., writes as follows: "We use Dr. Chase's Ointment in our home, and would not wish for anything better for cuts, burns and bruises. A few years ago a friend of mine, whose

baby was terribly afflicted with eczema, had her child treated by their own family physician, but the little one got no better. They tried several remedies, but they all proved useless in this case. Upon the advice of a neighbor, they got Dr. Chase's Ointment, and before the first box was used the child was completely cured. "I can also recommend Dr. Chase's Nerve Food to suffering friends, who I know will be glad to learn of something to relieve their nervous trouble. You have my permission to use this letter for the benefit of others."

So soothing and healing is Dr. Chase's Ointment that relief from itching and burning comes almost as soon as the ointment is applied. The sores are cleaned by the action of this treatment, and the process of healing is soon begun. By persistent use of the ointment cure is effected, 60 cents a box, all dealers or Edmansons, Bates & Co., Ltd., Toronto.

The Quebec Chronicle

Printed and published by The Chronicle Printing Company, D. Watson, General Manager, at the building of the Company, 9 Buede Street, Quebec.

QUEBEC, FEBRUARY 8, 1916.

A HOUSE OF MOURNING.

All Quebec today will be a House of Mourning when her citizens gather together to pay the last tribute of respect to the late Madame Bray. A week ago she and Madame Morin were among us, full of the joy of life and all unconscious of the sad fate which was to befall them so soon.

Today they are dead, cut off in the prime of life all unexpectedly. What the investigation into the Ottawa fire will disclose, we do not know at the moment of writing but if it be proved that their deaths are due to the work of our enemies, then the people of Quebec will know how to rise to the occasion.

To the bereaved husband, to the sorrowing mother and other relatives The Chronicle extends its most heartfelt sympathy in their unlooked-for affliction.

AMONG THE PROPHETS!

What kind of a man is this Mr. Carvell, M.P., the gentleman who is continually putting party before patriotism and who essays to set himself up as a judge and critic of the Minister of Militia?

This is the kind of man that Mr. Carvell is. Before the war he ridiculed every attempt of the Minister to improve the Militia or provide for its training and accommodation. In June 1914, only two months before this terrible war broke out, Mr. Carvell delivered himself of the following speech in Parliament:

"The principal cause of the trouble with the Minister and his top-heavy militia is the report of a General by the name of French, who came to this country some years ago, and in my judgment his visit was one of the greatest misfortunes that has befallen Canada. General French may be all right from the English standpoint. He is a General of distinction, but he is a man who has been educated along entirely different lines from those which the conditions in Canada present."

"His life has been spent soldiering, he is a born soldier; he does not believe a man has any business working on a farm, in a factory or anywhere else, except a few who should work in order to make money to keep the soldiers. If you had half the people in the Empire in the army you would not have enough to satisfy General French."

"I told the late Minister of Militia publicly and privately that in adopting the ridiculous and unreasonable report made by this gentleman, he had committed a great mistake. It might be all right if General French was reporting on the conditions in Bulgaria, or Russia, or Germany, or even Italy, but when it comes to a country like Canada, where there is not a possibility of trouble, his ideas are ridiculous. There is no more possibility of a war breaking out between Canada and any other country in the world than there is of the Minister of Militia or myself committing suicide between now and tomorrow morning. All you get in the Militia in Canada is that you teach about 25 per cent. of the men how to get drunk. That is the size of it."—Hansard, Vol. V, 1914, Pgs. 4620, 4621, 4622, June 1st, 1914.

As a prophet Mr. Carvell has gone astray like a fox in the desert. As a patriot he is not much better.

WAR AND THE U. S.

In a message to the people of the United States, delivered through the medium of a public meeting in Cleveland, President Wilson made the solemn statement that the time may come when he can no longer keep his

nation out of the world war. He said: "America is not afraid of anybody. I know I reflect your feeling and the feeling of all our citizens when I say that the only thing I am afraid of is not being ready to perform my duty. I am afraid of the danger of shame. I am afraid of the danger of inadequacy; I am afraid of not being able to express the correct character of this country with tremendous might and effectiveness whenever we are called upon to act in the field of the world's affairs."

These sentiments must be applauded by all who call themselves citizens of the United States, but they will undoubtedly result in many caustic comments from those newspapers which have been advocating the same thing for more than a year. President Wilson has not gained a great reputation by his "notes" and speeches since the beginning of the war. He has been assailed bitterly on the grounds that he has not done the very things he now says he aims to accomplish and his "too proud to fight" speech has been thrown in his face on many occasions. The sinking of the Lusitania turned the tide against Germany among the Anglo-Saxons in the United States. All thought of bitterness resulting from past differences with Great Britain was buried forever when many hundreds of innocent non-combatants were brutally sent to the bottom.

The President of the United States has had many opportunities to declare himself since that time. As in Mexico, when he waited for a comparatively trivial incident, he has seemed to be drifting along until public opinion forces him to a step to which he, personally, is opposed. As matters stand today, the majority of Americans are heart and soul in sympathy with the Allies and are not only ready but eager to inform Germany of their attitude. President Wilson is wavering on the brink of a definite declaration of his principles, but it may be too late. Recently the Boston Transcript, in a semi-humorous forecast, stated that some day President Wilson would startle the nation by giving an order to "Unchain the Pomeranians of war." That seems to be the attitude of a great many of the newspapers in the Eastern States.

PRESS COMMENT.

The people of Canada are to be no more terrorized by the Huns into abandoning the Mother Country and the Empire's cause because through an act of guerrilla warfare inspired by German officials in the United States the parliament buildings of Canada have been destroyed and several innocent lives sacrificed. Both Sir Wilfrid Laurier as leader of the Opposition and Sir Robert Borden, as Premier are in unison in the determination to proceed with the business of the country at once. The main business of Canada doubly resolved today is to enter into the assistance to the mother country with redoubled vigor. We now have our own direct wrongs to avenge as well as those of Great Britain and France. Instead of sending one man let us send two. Instead of giving one dollar let us give two. Let us show the German cowards that the spirit of Canadians, whether of British or French origin, is the same spirit as that which dominates the mother countries; the determination to make no peace until the enemy is absolutely crushed beneath foot and the liberties of the nations assured so that we can return to pursuits of civilization and progress under the banner of democratic government and freedom.—Moncton Transcript.

It is related that Henry Heine, the few, one of the most sparkling talkers of Europe, sat silent at a banquet until his Christian hostess asked, with some anxiety, "Why are you so dumb?" He answered, "I am studying a problem which I cannot solve. I have been looking at these gold dishes, this fine linen, these splendid waiters, your great diamonds, and wondering what you Christians are going to do with the camel question." Most of us, were the truth told, are doing nothing with it. If, as the Master taught, it is easier for a camel to pass through the eye of a needle than for a rich man to enter into the kingdom of heaven, the peril, at least, has not deterred most men from trying for richer. When it comes to facing the dangers that money brings, the majority of us are as brave as lions. We are willing to take a chance. Yet the camel question cannot be dodged. It is a mistake to put it up to the millionaire crew alone. As a class they cannot be regarded as lovers of money more than the rest of us. Avarice is as frequently in low places as in high. The mere quantity of pelf has little to do with one's personal attitude toward

it. One can be as devoted to ten dollars as to ten million. Some of the most sordid lovers of money we ever encountered have been workers for a small wage. Wealth, on the other hand, is accompanied not seldom with a generous indifference to dollars. It is cowardly for your moralist to shy all his brickbats at the Morgans and the Carnegies. You yourself, Reginald of the small salary, must solve the camel question no less than must Rockefeller. What is your personal attitude toward money? Are dollars the end of all your thought and effort, the supreme goal of all your striving, or merely a necessary means to right living? Are you a gold worshipper, willing to sell your soul for yellow dust, or do you keep money in its proper place as a good servant, although a bad master? It is so hard as to be practically impossible for one who trusts in riches to enter the kingdom of heaven. Note well the form of the proposition. It is true because the kingdom consists in other and more important values than things. We talk about the almighty dollar, but the term is a misnomer. The dollar is not almighty. Many of the goods we all crave money cannot buy. Money cannot buy mental capacity, nor honor, nor appreciation of the beautiful, nor happiness. Happiness depends on what we are, not on what we have. Solomon found it out centuries ago. Moderns discover the same fact. Wrote David Levinski, millionaire coal maker of New York, in McClure's magazine: "I live in a high-class private hotel, where I occupy a luxurious suite of rooms. I own automobiles and keep a chauffeur and valet. I give myself every comfort money can buy. But there is one thing which I crave and which money cannot buy—happiness. What gospel does our age need more than this: 'Man's life consisteth not in the abundance of the things that he possesseth.' What better prayer for any of us than that of Augur: 'Give me neither poverty nor riches; feed me with food convenient for me.'—Exchange.

THANKS CANADIAN EXPRESS COMPANY.

A letter has been received today at the headquarters of the Canadian Express Company through the European Traffic Department, London, England, from Lieut.-Col. D. W. B. Spry, A.A. & Q.M.G., Canadian Training Division, dated Shorncliffe, Jan. 9th, 1916, which reads as follows:

"I have pleasure in complimenting all concerned at the very satisfactory manner in which Canadian Express parcels for Canadian Troops at this station have been handled. It may be stated that at 10 a.m., on Christmas Day every parcel received up to that time had been delivered to the Unit to which addresses belonged. I take this opportunity of complimenting your representatives at Folkestone for the very courteous way in which they met the suggestion made by the Canadian Military authorities and for the splendid co-operation which they gave to our plans."

THE SLINGSBY CASE.

London, Feb. 7.—The hearing of arguments in the Slingsby legitimacy suit was concluded in the Court of Appeals today. Judgment was reserved. The argument had been in progress since January 17th.

The case involves the question whether an infant born in San Francisco and declared to be the lawful son of Charles R. Slingsby and his wife, Dorothy, is the rightful successor to the Slingsby estates in England. The California court held that the child was the legitimate heir, and the case heard was on an appeal from this decision.

NO STOMACH PAIN, GAS, INDIGESTION IN FIVE MINUTES

"PAPE'S DIAPEPSIN" IS THE ONLY REAL STOMACH REGULATOR KNOWN.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides fill with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach regulator in the world.

Take Iron, Says Doctor, if You Want Plenty of "Stay There" Strength Like an Athlete!

Ordinary Nuxated Iron Will Make Delicate, Nervous, Run-down People 800 p.c. Stronger in Two Week's Time, in Many Cases.

New York, N. Y.—Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. Sauer, a specialist of this city, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other ailment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while, double and even triple their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten

to fourteen days' time simply by taking iron in the proper form, and this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone down to inglorious defeat simply for the lack of iron.

Note—Nuxated Iron recommended above by Dr. Sauer, is one of the newer organic iron compounds. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, run-down conditions. The Manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent or over in four weeks time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by L. E. Martel, and Dr. Ed. Morin & Co., and all other druggists.

TICKETS \$1.00 - \$1.00 - 80c. On sale at Lavigneur and Hutchison's Music Store, St. John street.

IN AND ABOUT TOWN

RAZOR SLIPPED; BARBER IS SUED

CUSTOMER OF L. P. ROBITAILLE CLAIMS TO HAVE SUFFERED FROM CUT.

To be faced with an action for \$200.00 damages because one of his customers is alleged to have been slightly cut while he was being shaved is the predicament that L. P. Robitaille, a St. John street barber, finds himself in.

According to details given in the case which was opened before Mr. Justice Belleau, in the Superior Court yesterday afternoon, John Makkenge, the plaintiff claims that following a cut received while being shaved at the defendant's establishment, blood-poisoning set in and he had to submit to an operation in the Hotel Dieu Hospital, Levis, where he was a patient for two months. During that time he was forced to miss a voyage to the West Indies which would have meant \$75 per month to him in the capacity of second officer aboard the vessel.

The legal firm of Bernier, Bernier and de Billy is acting for the plaintiff, and Moraud and Savard for the defendant.

The case is continued.

INJURED BY A RUNAWAY HORSE.

William Miller, an ice man of Linoilou, was struck by a runaway horse yesterday and suffered injuries which necessitated his removal to the Hotel Dieu Hospital in the ambulance.

MUCH TRAVELED, YET LIKED QUEBEC.

A much travelled Quebecer is proud to say that he enjoys the Quebec Ale. Boswell's—he claims he never tasted better anywhere—And he is not the only connoisseur to think it. It is worth your while to see that you really get Boswell's.

THE DANGERS OF NEGLECT.

Among the many readers of this newspaper there are undoubtedly quite a large number of those who are afflicted with some form of foot trouble and who, through some reason or other, thoughtlessness perhaps, but mainly carelessness, are carrying out their daily duties paying but little heed to the danger signal which is hourly surrounding them to seek the relief so badly needed.

Many and varied are the conditions which the foot (one of the most important part of the human anatomy) is subject to corns, callusities, and bunions, painful though they be are but trifling ailments compared to those of ingrown nails, verruca, fallen arches, metatarsalgia, and Morton's neuralgia, either one of the latter if neglected is prone to place the sufferer permanently hors-de-combat.

A painful condition which at first might appear to be the inexperienced to be but a simple case of corns may upon examination prove to be a condition known as papilloma which if neglected or improperly treated would lead to serious complications, many a man and woman whose feet are hopelessly crippled would today be the embodiment of perfect health had they but had the proper treatment at the beginning.

I am sounding this note of warning in the hopes that those who are so troubled will realize the dangers of neglect, and being thus warned will immediately take the necessary steps to avoid being permanently crippled.

DR. WM. CLARKE, 47 Claire Fontaine.

HAY FOR SALE

In one lot, approximately 700 tons double compressed hay now in Harbour Commissioners' Shed 27.

Apply to OSCAR MORIN, Advocate, Phone 2301. feb.7x3.

WASTE PAPER WANTED.

Daughters of Empire Need it for Patriotic Purposes.

The General Turner Chapter of the Daughters of the Empire which has been doing good work since the war started is making an appeal for waste paper, a car load of which has already been sent away through its activities.

All those who have any paper are requested to telephone to 385 or 4924 in order that it may be collected.

They can also send it direct to Whitehead and Turner's St. Paul Street.

HAIR COMING OUT?

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderrine at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.

A CONCERT FOR BELGIAN RELIEF

TALENTED ARTISTS WILL PERFORM IN COLUMBUS HALL NEXT WEEK.

Talented Belgian artists from the Royal Conservatories of Brussels and Antwerp will give a concert here in the Columbus Hall, Wednesday, February 16th.

The proceeds of the concert will be devoted to relief work in Belgium.

The artists include Melle. Octavia Belloy, soprano, Antwerp Opera House and concerts Kursaal, Ostend; Melle Marguerite Jean, 'cellist, Royal Conservatory, Brussels; Melle. Gabrielle Radoux, pianist professor, Royal Conservatory, Antwerp; Mr. Jan Collignon, first baritone-bass, Royal Opera House, Brussels and Antwerp; Mr. Willis Flanagan, tenor, Italian Opera House, Rome.

Were it not for the patriotic mission on which these artists are touring this continent Quebec citizens would have no opportunity of hearing them at popular prices.

The concert will be held under the distinguished patronage of His Honor the Lieutenant-Governor and Madame Leblanc and also of Sir Lomer and Lady Gouin. It is being organized by Mr. Dudley Gilmour and practically the whole of the proceeds will be devoted to Belgian relief work, a pleasing contrast to some previous entertainments here where nearly all the proceeds were swallowed up by expenses.

Tickets and plan of seats will be available today at Lavigneur and Hutchinson's.

FANCY DRESS CARNIVAL TONIGHT.

One of those pleasing fancy dress carnivals is on the cards for the Grande Allee Rink this evening.

The ice is in great condition and as there are six valuable prizes offered for the best or most original costumes, the varieties of attires and disguises should be many.

Spectators and dancers alike always find any amount of pleasure in these events.

INFANTRY SCHOOLS OF INSTRUCTION.

The following memorandum, which has been received from Militia Headquarters, Ottawa, Ont., explains a system for all, either soldiers of the Canadian Expeditionary Force, or civilians, who are desirous of qualifying as officers or non-commissioned officers, with a view to proceeding overseas with the Canadian Expeditionary Force. These classes of instruction will be conducted at all time in this division, from now on, until further orders.

Applications should be forwarded to the General Staff Officer, 5th Division, 17 St. Louis street, Quebec, Que., and instructions awaited regarding date of commencement of course of training and the issue of transport for that purpose. Applications should specify present rank, if any, name in full, full postal address, nature of course, required, and previous military service, if any. Applications for those desirous of undergoing the first class of instruction, as above should be submitted forthwith.

Memorandum.

Infantry Schools of Instruction for members of Canadian Overseas Expeditionary Force.

1. With a view to providing qualified officers and non-commissioned officers for the Canadian Overseas Expeditionary Force, an Infantry School of Instruction will be established in each military district, either at Headquarters or at some other suitable point.

2. Members of the Canadian Overseas Expeditionary Force, of whatever rank or service, will be permitted to attend; provided they are recommended by their commanding officer, or other proper persons, and that there is room for them.

3. The staff of each school will consist of a commandant, and as many instructors (officers and non-commissioned officers) as circumstances justify.

4. Candidates (hereinafter described as probationers), will join weekly, and will undergo a progressive course of instruction.

5. The duration of the probationer's course will depend on the progress he makes, and on the rank for which he seeks to qualify.

6. Boards will assemble for the periodical examination of probationers; and, subject to the exigencies of the service, the president and members will be officers of field rank.

7. A probationer will not be allowed to present himself for examination unless recommended by the Commandant of the School which he attends, but he may request a special examination if for any reason he deems himself overlooked.

8. For cause, a probationer is liable at any time to be removed.

9. Probationers, whatever their rank or service, will draw the pay and allowance of a private soldier in the Canadian Expeditionary Force.

10. They will wear a special uniform which will be furnished to them free of cost.

MR. EDGAR CLEMENT IN JACQUES CARTIER

LARGE NUMBER OF IMPORTANT TAXPAYERS HAVE ENDORSED HIS CANDIDATURE.

Sons of Ireland Beat Emmets

EMMETTS MADE GREAT FIGHT BUT SONS OF IRELAND WON OUT BY ONE GOAL

Score Was 4 to 3 for McDonald's Boys After a Fast, Clean Exhibition—Carey Starred for Winners—Doyle and Fitzgerald Best of Losers—Very Large Crowd Saw Fine Game.

Sons of Ireland won a hard earned victory over the Emmets at the Grande Allee Rink last night by the score of 4-3 after one of the fastest and most exciting exhibitions witnessed in City League Hockey.

The Emmets, though minus the services of Mike Power their regular left winger, showed surprising form and though the Sons of Ireland excelled them in speed the Rebels made up for this by determined and persistent backchecking and were in the game from first to last.

Play was strenuous but clean and there was a complete absence of deliberate foul work and the big crowd which filled the rink went away well-pleased with the game which was refereed by George McCarron and Charlie Nolan in a very strict and impartial manner.

Sons of Ireland did not have Jimmy Loneragan in line but Cliff Malone who has played the last few games on the defence was at point and his performance was a notable one. He is a small man for a defence man but he was absolutely fearless and used his body against the heavy Emmet players even though he often got the worst of it.

The game started on time and the Emmets dug in from the opening whistle. Fuller gave a good display before the nets and turned aside a number of ugly looking shots. Sullivan also was in form and twice he saved from McNaughton and Carey from close in.

After twelve minutes of ding-dong hockey Carey beat out Sullivan with a long shot and the Sons of Ireland supporters shrieked with delight. Play was very even and Fitzgerald almost scored for the Emmets but Fuller saved. George Carey was playing great hockey and after a brilliant run fired a shot from the wing which struck John Doyle's hand and Sullivan not being set for it the disc went into the opposite corner of the net.

Though Emmets were behind in goals they had as much of the play and Fitzgerald eventually found the net for the first goal. Thirty seconds later McMahon, who relieved Dinan, shot an easy one which Fuller stopped but allowed in and the teams were tied. The period ended shortly afterwards with the score 2 all.

Two minutes after the second period started John Doyle broke away and shot from outside defence, putting Emmets ahead. This was the first time this season that the Sons of Ireland were behind in the score in any game. The goal seemed to have been a fluke and the hockey was fast and furious. Sullivan made a brilliant stop off Laroche after the latter had beaten the defence. Carey rushed down but his shot struck the boards behind Sullivan and caromed to the corner. McNaughton was in the flash and flipped the rubber into the net for the tying score with a perfect shot.

Sons of Ireland had the better of the play now and continued to press. Sullivan was doing well in goal and was unlucky to allow Carey's long drive to pass him. The teams crossed over for the final twenty with the score 4-3 in favor of Sons of Ireland and it remained that way until the end despite the attempts of both teams to add to their score.

The Sons of Ireland had slightly the better of the play in the last period but the Emmets were always dangerous though they had fewer shots at Fuller than the Sons at Sullivan. Sullivan was a star in the last twenty and panned both Laroche and McNaughton of what looked like sure goals.

The Emmets deserve congratulations on their showing as they certainly entered the game as rank outsiders and not many were willing to concede that they would give the fast young Irishmen such a good for the honors. They played good hockey, checked close and displayed much unselfishness. They did not show the finish or style of their opponents but their determination and aggressiveness made up for whatever they lacked in speed and class sticking-handling.

George Carey played a beautiful game for the Sons of Ireland and was the best man on the ice. George McNaughton also showed his usual dash and aggressiveness and his backchecking was great. Cliff Malone was next best for the winners and his display of grit and determination is worthy of commendation. Hammy Laroche was good in flashes but his weight told against him in the close checking game. Fuller was good in goal though he allowed a couple of easy ones to get by. Billy McDonald was closely watched and never got going properly. Shink and Tom Delaney who subbed made a good impression. Staton played for a short time.

QUEBEC LOST; POOR GOALKEEPING

ROCHON AND BOVIN COULD NOT REPLACE THE OLD BOY.

Toronto, Feb. 7.—Toronto's won from Quebec 11 to 5 in the N.H.A. fixture at the Arena tonight in a game in which there was very little good hockey. Quebec was badly weakened in goal by the absence of the veteran "Paddy" Moran and it was in goal that the game was won and lost. Rochon worked for half the game, but he did not show much. He was replaced by Boivin, who made his initial appearance in professional company. He showed a willingness and went after shots whether they were on the goal or not.

The teams: Quebec: Goal. Toronto: Rochon. Point. Lesueur. Ritchie. Cover Point. Randall. Mumery. Center. Cameron. Smith. Right Wing. Keats. Malone. Left Wing. C. Denny. Crawford. Officials. Skinner. Referee—C. Smeaton. Judge of play—C. Hoerne. The summary:

Table with 2 columns: Team, Score. Rows include Toronto vs Quebec (11-5), Toronto vs Montreal (10-9), Toronto vs Ottawa (10-9), Toronto vs St. Charles (10-9).

RING GOSSIP.

New York, Feb. 5.—The Willard Moran bout may be staged in an abandoned car barn on March 17. Tex Rickard today reiterated that the price demanded by the Madison Square Garden people for the rental of their arena was too high and that he would put on the bout somewhere else.

"I offered the Garden people \$6,000 for their place," said Rickard. "They refused it. I'm through figuring on holding the battle there. I've got an old car barn in mind and we may stage the fight there."

"From what I can figure out now, we can fix that barn up so that it will seat 20,000 persons," asserted Rickard. "I don't think the cost of transforming the place into the pugilistic battle ground will be more than \$10,000."

The location of the barn is believed to be near the Polo Grounds. St. Paul, Minn., Feb. 5.—Prospects of an Easter Sunday fight between Les Darcy and Mike Gibbons at Sydney, Australia, for the middleweight championship looked bright today.

Gibbons, fresh from his one-round knockout of Young Ahern, is considering an offer of Tom Andrews of Milwaukee for a twenty-round bout with Darcy. Andrews guaranteed the phantom \$10,000.

New York, Feb. 5.—Jimmy Johnston, manager of the Garden A. C., is trying to arrange a match between his English welterweight, Ted Lewis, and Jack Dillon. Lewis is willing to box the Indianapolis Cyclone provided Jack makes 160 pounds at 3 o'clock in the afternoon of the fight. Dillon apparently is unwilling to make so low a weight. The match, if arranged, will be put on in Madison Square Garden February 17.

LATUQUE TEAM WAS DEFEATED

VICTORIAS WITH FORMER GRANDE'MERE STARS, WON BY 3 TO 2.

One of the fastest and most brilliant games of hockey ever played at La Tuque, resulted in a win for Victorias by the score of three goals to two.

Poor refereeing, however, marred the playing and the La Tuque boys had reason to protest over some of the rulings. Good officials must be secured if the game is to flourish.

The Victoria team comprises some of the best amateur players in the country, including Hoffman, McLaughlin of Grande'Mere, Bechard of Shawinigan, Simard of Quebec, and others, and the showing of the La Tuque team was remarkable.

Angers and Roy, both Quebec boys, started for the losers. McLaughlin, Bechard and Hoffman were the pick of the Victorias.

The game was in doubt until the very last minute, and the enthusiasm and excitement amongst the large crowd of spectators was unbounded.

The teams: La Tuque: Goal. Danis. Point. Santerre. Decaire. Cover. Tremblay. Bechard. Center. Gailloux. McLaughlin. Right Wing. J. Roy. Hoffman. Left Wing. H. Gravel. E. Roy. Substitutes. P. Angers. Simard. P. Mongrain. Cote. A. McKibbin. E. Butler. A. Bellefeuille. B. Simard. A. Lachance. P. Rochette. G. Lefrancois. Refere: A. Marchand. Judge of play: H. Fuse. The summary:

STRACHANS HANG ON TO THE CUP

NATIONALS OF MONTREAL FAIL TO LIFT McCALLUM TROPHY.

Montreal, Feb. 6.—For the sixth time this season the Strachan bowlers defended the McCallum trophy successfully when they trimmed the Nationals of Montreal by 90 pins at the Belmore alleys on Saturday evening. The match was a well played one and was fairly close all the way through. While each team got a good match total, no single game record was established.

Desautels, of the Strachans, proved to be the high man of the evening, rolling the total of 613 for his three strings. This included two singles over the 200 mark. The high single of the match went to J. deau, of the Nationals, when in the second game he rolled 224 pins.

Table with 2 columns: National, Score. Rows include Lamoureux (168), Cattarinich (136), Blondeau (203), Bernier (172), Labelle (166).

Table with 2 columns: Strachans, Score. Rows include Bryson (183), Plante (183), Sutherland (158), Turner (191), Desautels (214).

Team average—535.1. Majority for Strachans 90 pins.

BOWLING.

Table with 2 columns: Quebec, Score. Rows include Gagnon (122), H. Ledden (160), Ritchie (183), E. Labrecque (186), H. Grenier (154).

TORONTO HERE ON WEDNESDAY

QUEBEC HOPES TO HAVE PADDY MORAN BACK TO HELP OUT.

N. H. A. STANDING. Team. W. L. D. F. A. Ottawa. 8 5 0 43 33. Quebec. 8 6 1 56 62. Wanderers. 8 7 0 67 64. Canadiens. 6 6 1 49 48. Toronto. 4 10 0 52 63.

The Quebec team plays here Wednesday night with Torontos at the Arena and then no more N.H.A. hockey here until the 23rd when the Canadiens visit Quebec.

The loss of Paddy Moran has been a grievous one. According to reports from Toronto poor goalkeeping lost Quebec the game.

Moran's injury was a pretty bad one and Saturday night he could not put his foot on the ground. However, by Wednesday he may be alright and there is no doubt that he will be welcomed back.

Quebec has still a great chance for the Championship but must beat Toronto here Wednesday. Only bad luck has caused a reverse in Toronto and there is no doubt that the local fans will support them in their efforts to rally again.

His Honor Lt.-Governor LeBlanc and Madame LeBlanc and Lady Gouin and party have been invited to the game and there should be a large crowd present. Tickets are now on sale and as it will be the last game for fifteen days a big sale is expected.

OTTAWA NOW LEAD THE LEAGUE

SENATORS DEFEATED WANDERERS BY 3 TO 1 IN OTTAWA.

Ottawa, Feb. 7.—Ottawa defeated the Wanderers by 3 to 1 in a brilliant game at the local Arena this evening. It was fast from start to finish with hard checking on both sides. Wanderers were again without Sprague Cleghorn, but Ottawa had to play for the greater part of the game minus Art Ross, who was ill, so it was a case of fifty fifty. Neighbor put the Ottawa's ahead after nineteen minutes play in the first period, while in the second Gerard and Merrill scored in turn, Ottawa leading at the finish of the second by 3 to 0. In the third Wanderers freshened up and Bawli tallied their only goal. Lindsay played a great game in the Wanderer nets, otherwise Ottawa would have tumbled their score.

It was with things as peaceful as a balmy June day that McLoughlin and Bundy, the Damon and Pythias of the courts, started a discussion of which the end is not in sight. Their entry into the sporting goods business was timed to make the biggest sensation, although unintentionally on their part.

The executive committee of the national association recently held a meeting in this city at which its programme as to the amateur rule was decided upon. George Adee, upon whom the administration is about to fall, unequivocally stated his position when he sent his historic telegram to the Pacific Coast stating that paragraph 4 of the by-laws, which contains the amateur rule, was quite sufficient for the purpose. He has put himself on record saying:

"Tennis is the cleanest of our sports, and I believe the executive committee should use every effort to stamp out the commercialism that is just beginning to creep in."

Whether or not McLoughlin and Bundy are commercializing may be gathered from a portion of a letter written to them by A. C. Way, President of the Pacific Coast Association. Adee pointed this out:

"It was the consensus of opinion that the opportunity was a splendid one, from the standpoint of each of you, and too good to be cast aside. You have doubtless both realized that those who have not had the opportunity of specialized training and are not blessed with an abundance of money must needs capitalize their personality which, after all, enters largely into the success of any business."

There will be slight changes in the officers to be elected, the chief being the retirement of Robert D. Wrenn. The nominations for office are President, George T. Adee; Vice-President, A. L. Hoskins; Secretary, F. Torrey; Treasurer, Richard Stevens. Executive Committee—Craig Biddle, Clinton L. Childs and Julian S. Myrick. Sectional delegate—Palmer E. Presbrey.

Pittsburg, Pa., Feb. 7.—The report of a committee recommending the amalgamation of the Lake Erie Trotting Circuit and the West Virginia-Pennsylvania Fair and Racing Circuit was adopted at a meeting of the members of the former circuit here today. The name of the Lake Erie Trotting Circuit was retained. The officers will be: President, Harry D. Perkin, Parkersburg, W. Va.; Vice-President, Harry Cochran, Dawson, Pa., and Secretary-Treasurer, John S. Cott, Fairmont, W. Va. All held similar positions with the West Virginia-Pennsylvania Circuit. Bradford and Corey, Pa., withdrew from the organization and Marion, Akron and Youngstown, Ohio, were admitted to membership. Members declared the consolidation of the two circuits would result in the reduction of many items of expense.

HUNS BAN LUXURIES. Berlin, via London, Feb. 7.—The Tagblatt announces that it is informed from a semi-official source that a ban on the importation of articles of luxury of every description is impending.

TO DECIDE STATUS OF TENNIS STARS

AMATEUR RULE AS IT APPLIES TO McLOUGHLIN, BUNDY AND OTHERS WILL BE INTERPRETED THIS WEEK.

(By J. P. Allen) New York, Feb. 7.—Three important measures will occupy the attention of the delegates to the thirty-fifth annual meeting of the United States National Lawn Tennis Association next Friday at the Waldorf-Astoria. Of paramount importance is the discussion which will determine the interpretation of the amateur rule as it may apply to Maurice E. McLoughlin, Thomas C. Bundy, Frederick B. Alexander, Wallace F. Johnson, E. H. Whitney and others connected with the sale of sporting goods.

Next in point of interest is the radical, almost revolutionary change contemplated in the constitution and by-laws which will nationalize the players of the public parks throughout the country. Such men as Robert D. Wrenn, George T. Adee, Julian S. Myrick and Raymond D. Little have characterized this legislation as the broadest and most important that the national association has undertaken in many years.

The recently launched proposition to further regulate the ranking list so as to cause the players to be rated numerically is the third momentous question that will occupy the attention of those who attend the session.

Until within the past few weeks there had not been even a slight ripple of excitement expected at the one great lawn tennis powwow of the year. The West Side Tennis Club had brought about an agreeable verdict that it was best to hold the All-Corners' national championship tournament, with all of its trimmings in the way of doubles and interscholastic matches on the turf at Forest Hills, L. I. The powers of the game were agreed in this respect with the covert understanding that Philadelphia and Boston were later to have their turn.

It was with things as peaceful as a balmy June day that McLoughlin and Bundy, the Damon and Pythias of the courts, started a discussion of which the end is not in sight. Their entry into the sporting goods business was timed to make the biggest sensation, although unintentionally on their part.

The executive committee of the national association recently held a meeting in this city at which its programme as to the amateur rule was decided upon. George Adee, upon whom the administration is about to fall, unequivocally stated his position when he sent his historic telegram to the Pacific Coast stating that paragraph 4 of the by-laws, which contains the amateur rule, was quite sufficient for the purpose. He has put himself on record saying:

OTTAWA NOW LEAD THE LEAGUE

Another large crowd witnessed a fine city league match. The showing of the Emmets was a big surprise. They showed great staying power and hung to their speedier opponents like leeches.

Quebec will have to get Paddy out again if he has to play on crutches.

There have been a good many who were ready to knock the good old boy because he happened to let a couple of long ones slip in. They never think about the hundreds of close ones which he turns aside. Paddy has been playing hockey a very long time. May be his foot as good as he used to be. But even at his worst he is a good deal better than a good many of them yet. Quebec depends a lot on the old stand by when he is guarding the net and are not afraid to let the opposing forward take a shot at him, they know he'll stop it.

Rochon was a big disappointment to us last Saturday night though we did not altogether express it then. He showed wonderful coolness and self-possession in the city league and when he got out with the Quebec team he lost his nerve. Boivin is willing, as the reports from Toronto state but he will take a little time to develop.

George Carey played a whale of a game against the Emmets last night.

Mark Kenney showed good form for Emmets. In our opinion Kenney should occupy a regular berth on the Rebels.

Chick Fuller and Billy Sullivan both had bad luck in the nets. Fuller allowed an easy one to slip in and also was beaten on a shot which struck Malone on the arm. Sullivan could hardly be blamed when one of Carey's long shots glanced off Doyle's hand and went into the opposite corner of the net.

Paddy Moran may be back for Wednesday's game with Toronto.

Emmet McDonald was a happy man Emmet says he expected a hard game with the Emmets and was not disappointed. "They played great hockey and if they had won we had no kick coming."

Discouraging thought for today: Ottawa is first in the league.

Fancy Dress Carnival at the Quebec rink this evening.

Creasents and St. Patrick's meet Saturday night at the Arena. Cliff Malone has good stuff in him. The little fellow was right there on the defence last night. Sons of Ireland and Montagnais will play for the league leadership at the Arena Monday night. Both teams have won four games and have yet to meet defeat but one will go down Monday. Popular Pastime No. 345.—Trying to think up one of these things while the staff is discussing hockey—or war!

# Try this easy way to clear your skin with Resinol Soap

Bathe your face for several minutes with Resinol Soap and warm water, working the creamy lather into the skin gently with the finger-tips. Then wash off with more Resinol Soap and warm water, finishing with a dash of clear cold water to close the pores. Do this once or twice a day, and you will be astonished how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, lessens the tendency to pimples, and leaves the complexion clear, fresh and velvety.

If the skin is in bad condition through neglect or an unwise use of cosmetics, apply a little Resinol Ointment and let it remain on ten-minutes before the final washing with Resinol Soap.

Resinol Soap is not artificially colored, its rich brown being entirely due to the Resinol balsams it contains. Sold by all druggists and dealers in toilet goods. For free sample cake and trial of Resinol Ointment, write Dept. 25-F, Resinol, Baltimore, Md.

*\*Physicians have prescribed Resinol Ointment for over twenty years in the treatment of skin and scalp affections.*

## SIXTY-NINTH HAS PROMISE OF BEING A CRACK REGIMENT

HARD WORK IN ST. JOHN, IS ALREADY SHOWING GOOD RESULTS.

Recently the Montreal Star published the following despatch from St. John, N.B.:

The 69th Montreal Battalion, which is in winter quarters in St. John, is not wasting its time here. Every day sees the men hard at work gaining the proficiency in drill, in arms, and in manoeuvres and building up the physical strength which will all be needed when they come to the time of test at the front.

Their friends in Montreal would not recognize in the fine, stalwart, smartly moving men some of the lads who came to St. John with the battalion. Steady work in the open air, good food and regular hours are showing their effects on the 69th, which is already showing promise of developing into a crack regiment.

A day's routine, much the same as that of any other day, will give an idea of what the men are doing in their winter quarters.

An early start is made, breakfast is eaten by artificial light and by 7.00 o'clock A and B companies are ready for the road with an all-day route march ahead of them. Clad in heavy marching order, off they swing, through the city streets, heading for the open country.

Led by Lieut.-Col. Dansereau, with Major Halle as second in command, the 435 men who turn out make a brave showing. The column includes the signalling corps and the machine gun section, and is accompanied by the regimental band and also by that important part of the parade, the field kitchen.

A march of seven or eight miles brings the half-battalion to the spot selected for field exercises, and here they divide into opposing forces to put in practice, some of the theory of war operations which they have been learning.

The defending force on this particular day took up their position on a high bluff and faced the attack of the "enemy" in three sections. The day was won by the strategy of the attacking party who, under cover of the frontal advance, made another attack from the rear and routed the defenders.

Field Kitchen Appreciated.

Then it was time for dinner and the vigorous work in the keen winter air had made the men quite ready to enjoy it. Here is where the field kitchen proves its usefulness. It is hard to imagine a time when a hot meal would be more acceptable, and the appetizing dinner with lots of steaming hot coffee was disposed of in a way which left no doubt of the diners' appreciation.

Officers and men had the same fare and seemed to enjoy it with equal zest. It was a new experience to some of the men, and none the less enjoyable for that.

Keeping still is not the soldier's idea of how to enjoy the after-dinner rest, and soon an impromptu snowball fight was in progress. Then the officers became interested and soon the two companies were lined up, and a battle royal followed, in which military tactics were followed and every point was as hard fought as if it were rifle bullets instead of snow balls the men were facing.

Finally an armistice was declared and the men settled down to real work again. It was 6 o'clock when they got back to the armoury and again they were ready for what the cooks had to offer.

While the others were away, C and D companies were as busy around the barracks. Physical drill in the morning and section drill and bayonet exercise in the afternoon, added to guard and fatigue duties, gave them a full day's work.

Supper over, the men were free for recreation and left to their own devices. The main attraction of the evening for many was the big entertainment in the Y. M. C. A. hall in the adjoining exhibition building, where the local branch of the Knights of Columbus had prepared an elaborate program.

Others visited one of the city churches where an informal reception with music, games and refreshments is held weekly. The theatres and the picture houses were the goals of others, while there still were enough left to stroll the streets and give them the appearance of a garrison town which St. John has maintained since the outbreak of the war.

## SHE RECOMMENDS "FRUIT-A-TIVES"

Mrs. Corbett Read the Advertisement and Tried It

Avon, Ont., May 14th, 1914.

"I have used 'Fruit-a-tives' for Indigestion and Constipation with most excellent results, and they continue to be my only medicine. I saw 'Fruit-a-tives' advertised with a letter in which some one recommended them very highly, so I tried them. The results were more than satisfactory, and I have no hesitation in recommending 'Fruit-a-tives'."

ANNIE A. CORBETT.

Time is proving that 'Fruit-a-tives' can always be depended upon to give prompt relief in all cases of Constipation and Stomach Trouble.

50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

## BANDITS RAVAGE RURAL DISTRICTS IN SOUTH MEXICO

ROBBERIES AND MURDERS OF DAILY OCCURRENCE, SOME NEAR VERA CRUZ.

Vera Cruz, Mex., Feb. 17.—It is dangerous for unprotected travellers to venture into the region that lies between Vera Cruz and the City of Mexico. Bandits are in complete possession of the rural districts. Reports of robberies and murders by brigands are received here daily. Some of these crimes are committed almost within the precincts of the city. Railroad travel is so hazardous that few people care to undertake the journey between her and the capital. Almost every passenger train is held up and its passengers robbed. The old time method of freighting by ox-team was recently put into practice on the route between Jalapa and Vera Cruz on account of the uncertainty of transportation on the railroad. All of these freighting wagons are accompanied by guards of soldiers.

Bandits Have Full Sway.

Never, even in the period immediately following Diaz's ascendancy to the Presidency, has there been witnessed such widespread brigandage as is now going on all over Southern Mexico. The bandits are numbered by the thousands. They operate boldly, without any attempt being made to molest them except in the larger towns. The villages and rural communities are at their complete mercy. Very few of the wagon trains that leave Vera Cruz for interior towns arrive with their loads; almost invariably they are held up and looted of the merchandise.

In the mountains around the beautiful City of Jalapa, capital of the State of Vera Cruz, brigandage is so rife that many of the coffee planters and other rural residents have been forced to seek refuge in the town.

Subjects Executed on Spot.

In the State of Oaxaca, where an independent government has been in existence for two years, an effort is being made to put an end to brigandage by executing on the spot all persons who cannot give a good account of themselves. The more remote mining districts of Oaxaca are said to be badly infested. The more thickly settled portions, however, are now almost free from depredations.

Since the American troops evacuated Vera Cruz sanitary and health conditions here have grown gradually worse and they have resulted in much sickness—yellow fever, typhus and smallpox. The American soldiers left Vera Cruz the most sanitary city in Mexico. Some pretense of keeping the city clean is still made, but it is confined to the business districts. The outlying sections, where the poor people live, are neglected, and it is in those places that epidemics have occurred.

### PERSONAL

Dr. Guerin, of Montreal, is a guest at the Chateau.

Mr. F. C. Loberge and wife are staying at the Chateau.

Mrs. J. Storer of Bathurst is a guest of Mrs. Gordon Lee, Lafrance St.

### TIMBER REGULATIONS.

Governing Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, and the North-west Territories, and the Railway Belt in the Province of British Columbia, and the Three and a half Million Acres located by the Government of the Dominion in the Peace River District, in British Columbia.

#### Licenses.

A license to cut timber on a tract not exceeding Twenty-five square miles in extent may be acquired only at public auction. A rental of \$5 per square mile per annum, is charged on all timber berths excepting those situated west of Yale, in the Province of British Columbia, on which the rental is at the rate of 5 cents per acre. In addition to rental, dues are charged on the timber cut at the rates set out in Section 20 of the Regulations.

#### Timber Permits and Dues.

Permits may be gained in the Provinces of Manitoba, Saskatchewan and Alberta, to cut over a definite described tract of land, not exceeding one square mile in extent, on payment of dues at the rate of 30 cents per thousand feet B.M., and subject to payment of rental at the rate of \$100 per square mile per annum.

#### Timber for Homesteaders.

Any occupant of a homestead quarter section, having no timber of his own, suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in Section 51 of the Regulations.

W. W. CORY,  
Dept. of the Minister of the Interior,  
Ottawa, July 29, 1914.  
—65137. Mh.18x6m

### Synopsis of Canadian North-west Land Regulations.

The sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency, for the district. Entry by proxy may be made at any Dominion Land Agency (but not Sub-Agency), on certain conditions.

Duties: Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead, on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In certain districts a homesteader in good standing, may pre-empt a quarter section alongside his homestead. Price, \$3.00 per acre.

Duties: Six months residence in each of three years, cultivate 50 acres and erect a house worth \$300.00.

The area of cultivation is subject to reduction in case of rough, scrubby or stoney land. Live stock may be substituted for cultivation under certain conditions.

### CITY OF QUEBEC

#### CITY HALL.

#### CITY CLERK'S OFFICE.

Quebec, 12th January, 1916.

#### MUNICIPAL ELECTIONS.

#### Municipal Elections for All the Wards of the City of Quebec.

PUBLIC NOTICE is hereby given that the nomination of a candidate or candidates for the office of Mayor and of Aldermen, for each of the Seats Nos. 1 and 2, in each of the wards of this city, for all the wards of the City of Quebec, except St. Malo Ward which is represented by one alderman only number two will take place on MONDAY, THE FOURTEENTH DAY OF FEBRUARY NEXT, 1916, being the second Monday of February, 1916, BETWEEN THE HOURS OF TWELVE OF THE O'CLOCK in the forenoon and FOUR OF THE O'CLOCK in the afternoon, at the office of the City Clerk in the City Hall. All requisitions for candidates must be in writing and signed by six or more electors duly qualified as such; such requisitions shall specify a candidate is a candidate to mayoralty or as alderman and by the number of the seat, from which particular seat the candidate is nominated. Such requisitions shall further contain a written consent to the said nomination, which consent shall be signed by each candidate, or in his absence, by a person who declares that he is thereunto authorized by him. Such requisitions shall also be accompanied by a solemn declaration, made by the candidate or by another person, authorized so to do, attesting that the candidate is the proprietor of the immovable or immovables to be described in the solemn declaration and said immovable or immovables are worth as to the person or persons, and are candidates to the office of Mayor, the sum of at least five thousand dollars, and to those who are candidates to the office of Aldermen, for Seat No. 1, the sum of two thousand dollars, and as to those who are candidates to the office of Aldermen for Seat No. 2, the sum of one thousand dollars, the said sums of five thousand dollars, two thousand dollars and one thousand dollars respectively to be over and above the requisites, hypotheses or charges upon the said immovable or immovables. Such requisitions shall also be accompanied by a certificate from the City Treasurer, establishing that the candidate is not indebted to the said City according to law, for assessments, taxes or any dues whatsoever or for any other reason up to the thirteenth day of April, 1912. And in case there should be more than one candidate for the office of Mayor and Aldermen for each of the Seats Nos. 1 and 2, in each ward, nominated for any of the said wards, the voting shall take place on MONDAY, THE TWENTY-FIRST DAY OF FEBRUARY NEXT, 1916, being the third Monday of the month of February, 1916 BETWEEN NINE O'CLOCK in the morning and FIVE O'CLOCK in the afternoon, in each and every ward, where there shall be more than one candidate for said offices of Mayor and Aldermen for each of the Seats Nos. 1 and 2 in each ward respectively, there shall be a "Pollhouse" for each one hundred and fifty electors having a right to vote for election of Mayor or for the election of Aldermen for Seat No. 1, or Seat No. 2.

H. J. B. CHOUINARD,  
City Clerk.

# PANAMA PLANS BIG CELEBRATION

### EXHIBITION TO COMMEMORATE RATE COMPLETION OF THE CANAL.

Panama, Feb. 7.—The National Exposition of the Republic of Panama will be formally opened in the latter part of February, it is officially announced. It will commemorate the completion of the Interoceanic Canal and achievement of Vasco Nunez de Balboa, who in 1513 discovered the Pacific and took possession of the "Great South Sea" in the name of his sovereign, Ferdinand of Spain, and was rewarded by being appointed Adolantada of the South Sea or Admiral of the Pacific and Governor of Panama and Coiba.

The exhibition buildings have been completed save for some finishing touches on the Horticultural Building. The army transport Logan and other vessels have arrived, bringing the greater and best part of the United States exhibit at the Panama-San Francisco Exposition. William E. Tuttle of New Jersey, President Wilson's personal representative, was here recently, making general arrangements for its display, and it is being installed under the direction of Col. Mahlon R. Margerum, the Assistant United States Commissioner at the exhibition, and Mr. Cross, one of the managing staff at San Francisco. The Panama News Bureau will give anyone in the United States who desires a concession full details of the advantage offered and the requirements demanded.

Spain, Cuba and all the Latin-American countries will have typical exhibits in handsome buildings. The grounds are within sight of the heights from which, it is said, Balboa caught his first glimpse of the Pacific. The Canal, too, can be seen from the grounds.

Following the example of more advanced countries, the Republic of Panama has prepared an exposition to commemorate two events in her history of great significance for humanity—the discovery of the Pacific Ocean and the opening of the Interoceanic Canal. The exposition also proposes to encourage the economical development of the republic, to make known its political importance by her institutions, by her administrative labor and all that may give a clear and favorable idea of the country.

Talk of an exposition was first heard some years ago when it was proposed as a private enterprise, for speculative purposes. Later it was decided that the exposition should have its present character and invitations to participate were sent to the nations directly in connection with the events commemorated. The financial difficulties which Panama is undergoing have done much to delay matters, but we have now arrived at the end, not at all dissatisfied with the result.

Panama will show to visitors the natural resources she has and the marvellous possibilities for investment of foreign capital. The first step is taken and the advantages to be reaped will not be long in coming.

### GERMANS CLAIM MANY PRISONERS.

Berlin, Feb. 7.—Via wireless to Sayville, N.Y.—"A total of 1,429,171 enemy soldiers to date are prisoners of war in Germany," the Overseas News Agency announced today. "This is not inclusive of prisoners made by German troops and left in Austria-Hungary, in order to shorten the transport."

"In addition, 9,700 cannon, 7,700 military carriages and 3,000 machine guns have been conveyed to Germany, not including numerous cannon and machine guns destroyed by the enemy before capture and those used at once by German troops."

"The number of rifles taken which are still fit for use is 1,300,000."

### RECORDER'S COURT.

There was only one case of drunkenness before the Recorder's Court yesterday morning, for which a fine of \$5 and costs was imposed. A woman who had been released from jail on Saturday was before the court again yesterday on a charge of loitering. Being without a home she asked to be sent to jail, and was awarded two months.

### MANUFACTURERS LIFE INSURANCE COMPANY.

An excellent report for the year 1915 is published by the Manufacturers Life Insurance Company. In spite of the year's unfavorable circumstances, the Total Income of the Company has risen to \$4,387,763.76. The amount of money paid or set aside for the policy-holders, is \$3,275,526.83. The Surplus over all its liabilities has reached the sum of \$2,254,635.10. The Assets is \$20,744,678.34 and the amount of insurance in force, is over \$83,746,172.00. The Surplus earned during the year is \$789,102.79, the largest in the history of the Company.

The Manufacturers Life possesses the Assets of over \$21,000,000.00; received in yearly premiums, a sum exceeding Three Millions and a quarter; does an annual new business of over \$12,000,000, and has a Surplus of Assets above the Government requirements, of nearly \$2,600,000. It adds between One Million, Five Hundred Thousand and Two Millions to its Assets every year.

The wonderful tributes which were given to The Manufacturers Life lately, by The Highest Authority in life insurance in Canada, are remarkable. This is the finest official tribute that has been given to any Life Insurance Company yet. Those who know the Superintendent of Insurance, Mr. Finlayson, and who know he never varies in expressing any opinion about the position of any Insurance Company under his charge, gives more value to his report.

The detailed Annual Report will be ready for distribution in a few days, and will be addressed with pleasure to those who will demand it.

The Manufacturers Life Insurance Co., is a well known Company in Quebec. It has been represented for nearly a Quarter of a Century by Mr. J. T. Lachance who is manager for most of the Province of Quebec, who will be pleased to give any information concerning his Company.

# 15 YEARS SUFFERING FROM PILES

Mr. J. McEwen of Dundas, Ont., writes:—"For fifteen years I suffered with Piles and could get no permanent cure until I tried Zam-Buk. Perseverance with this herbal balm resulted in a complete cure, and I have not been troubled with the painful ailment since."

Mr. Henry Fougeré of Proulxmond, N.S., says:—"I suffered terribly with Piles and could find nothing to give me relief until I tried Zam-Buk. This cured me. I consider Zam-Buk the finest ointment on the market."

The above are specimens of the many letters we are constantly receiving from men and women who have ended their suffering by using Zam-Buk. Why not do likewise?

Zam-Buk is best for eczema, blood poisoning, ulcers, sores, cuts, bruises, and all skin injuries and diseases. 50c. box, all druggists and stores, or post free from Zam-Buk Co., Toronto. Send this advertisement with name of paper and one cent stamp for free trial box.

**ZAM-BUK**

## CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

### IF CROSS, FEVERISH, CONSTIPATED, GIVE "CALIFORNIA SYRUP OF FIGS."

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With your children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grownups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

### COURT OF SESSIONS.

At the Court of Sessions yesterday Catherine Tremblay, a young servant girl, was charged with having stolen a gold watch and chain and other articles from her employer.

She was found guilty and sentenced to three years in the Bon Pasteur.

Felix Trudel, on a charge of failing to provide, pleaded not guilty, and was allowed out on bail to appear for hearing later. Arthur Latouche also pleaded not guilty to a charge of damaging property and was allowed out on bail.

Large dining room, parlor, and den, six large bed rooms and bath, Scotch brick, solid stone foundation. House in good condition. Price \$9,000, cash \$3,000, balance arranged. For particulars apply to V. R. Lamontagne, Merger Building, Phone 1600. Feb. 2x1w.

FOR SALE—Property owned by the late Wm. Herring. \$30,000.00 purchase now the Revenswood property consisting of approximately 85 arpents, or 72 acres, including large brick residence and numerous buildings. This property is situated on the North side of the St. Louis Road about five miles from Quebec, and almost immediately opposite the Quebec Bridge, which nears completion this year, and from which the property is distant only ten minutes walk. For residential purposes this property is everything that can be desired, and can also very well become exceedingly valuable for industrial purposes with the opening of the Quebec Bridge. For particulars, apply to Messrs. Meredith & Meredith, 46 Dalhousie street, Quebec. Feb. 12xw.

The following valuable and well-situated properties:—

1st. The three-tenement solid brick building, corner of Bourlameque Avenue and Fraser street, recently built in most substantial manner under careful supervision of the Owner; Now occupied by first-class tenants. Hot water heating, best quality of plumbing. Electric light. No dark or unsanitary rooms. A very desirable and profitable investment.

2nd. Two vacant lots adjoining above building with a frontage of 65 feet in all on Bourlameque Avenue and a depth of 90 feet. (Near vicinity to Battlements Park is an attraction).

3rd. A very desirable self contained residence on Park Avenue, solid brick. Latest style of hot water heating apparatus. Concrete Basement. Exterior and Interior artistically designed. The whole in the very best order. For particulars referring to above, please communicate with 573 St. John street. Jan. 26x1m.

FOR SALE—House and lot at Montmorency Falls, 3 minutes from Falls. Modern brick front house, 9 rooms, hot water heated, hardwood floors, electric lights, telephone, etc. Large lawn with shade trees. **NEW YORK MARKET.**  
(Canadian Press).

New York, Feb. 7.—Prospects of an  
early and final settlement of the vexed  
Lusitania episode and other week-end  
developments of a favorable char-  
acter contributed in no uncertain mea-  
sure to the enhancement of quoted  
values today. Prices opened with  
gains of 1 to 3 points, which were dou-  
bled and even trebled later in some  
of the highly speculative leaders, es-  
pecially Baldwin Locomotive, Petro-  
leums, Motors and Coppers, while  
variously unclassified issues rose more  
unevenly.

The movement in oils was accom-  
panied by authoritative statements of  
a merger or consolidation of the lead-  
ing companies operating in Mexico  
and California. Mexican Petroleum  
made an extreme gain of 5 1/2 at 11 1/2.  
California pfd rose 3/4 to 6 1/2 and  
Associated Oil 3 to 6 1/2.

Baldwin's gain of 6 1/2 to 11 1/2 fol-  
lowed rumors of that company's prob-  
able amalgamation with one or more  
kindred concerns and the strength of  
metals was directly traceable to the  
much higher prices quoted by leading  
producers of copper for deliveries run-  
ning into the middle of the year. Mer-  
cantile Marine pfd. and the 4 1/2 per  
cent. bonds also rose materially on  
publication of an outline of the pro-  
posed reorganization.

United States Steel gave a good ac-  
count of itself, with optimistic fore-  
casts of the unfilled tonnage statement  
for January, which is to issue on  
Thursday. Lackawanna Steel made a  
maximum loss of 5 4-8 to 5 3/4 on  
abandonment of the merger with  
Youngstown and Cambria Steel, and  
Crucible Steel denoted moderate pres-  
sure. Incidentally, Wall Street was  
surprised at midval and acquisition of  
Cambria.

Rails lagged behind in point of ac-  
tivity, but were firm to strong. New  
Haven was assisted to a higher level  
on assurance that it is not intended  
to add to fixed charges by new financ-  
ing and Rock Island reflected further  
accumulation.

Dealings were moderate at all  
times, lapsing into dullness and some  
easing of prices toward the close.  
Total sales amounted to 600,000 shares.

Firmness ruled in the bond market  
with further extensive dealings in  
Anglo-French 5's. Total sales, par  
value, \$3,570,000.

**CLOSING LETTER.**  
By private wire to Bruneau & Dupuis,  
Stock Brokers, 11, 13 and 15  
Sault-au-Matelot Street, Tel. 1596.

New York, Feb. 7.—After a strong  
session the market sold off a little at  
the close. Perhaps for one reason be-  
cause foreigners became active sell-  
ers again.

We sold quite a few stocks for  
Amsterdam this morning and this sell-  
ing coming on a market like the pres-  
ent one naturally has considerable ef-  
fect.

It looks as if the Lusitania incident  
was working out satisfactorily and  
that our President would see that his  
objections are now down to a ques-  
tion of words and the main conten-  
tions are admitted by the German  
government.

Such being the case we cannot be-  
lieve but that the whole matter will  
before long pass into history, and  
after that the great prosperity and  
marvelous earnings which are being  
shown by our industrial corporations  
and railroads will instill more confi-  
dence in the public mind.

Sales, 592,674; bonds, \$3,623,500.

**CLOSING MARKET LETTERS.**  
By private wire to Breen & Gourdeau,  
Stock Brokers, 63 St. Peter  
Street, and 6 Sault-au-Matelot  
Phone 185.

Chicago, Feb. 7.—Wheat—No attention  
was paid to cables or crop news  
in a rush to sell out long wheat. The  
selling finally ran the market into stop  
loss orders and by midday the situa-  
tion became extremely weak. There  
was a fairly good demand for cash  
wheat, premiums for supplies in store  
being about the best on the crop. The  
Michigan crop report was bullish and  
most of the advices from the winter  
wheat belt were pessimistic. There  
is likely to be further liquidation, but

**COTTON MARKETS.**  
New York, Feb. 7.—Cotton futures  
closed steady. Closing bids: March,  
11.84; May, 12.04; July, 12.16; Oc-  
tober, 12.21. Spot closed quiet. Mid-  
dling uplands, 11.95c. Sales, none.

Liverpool — Cotton, spot quiet.  
Prices unchanged. American mid-  
dling, fair, 8.75d; good middling,  
8.25d; middling, 7.92d; low middling,  
7.54d; good ordinary, 7.18d; ordinary,  
6.88d. The sales of the day were 5,000  
bales, of which 1,000 were for specula-  
tion and export, and included 4,000  
American. Receipts were 13,000 bales,  
including 4,000 American. Futures  
closed steady.

**NEW YORK CLOSING LETTER.**  
McDougall & Cowans, Stock Brokers,  
No. 116 Mountain Hill, Quebec,  
Phones 1402-1403.

New York, Feb. 7.—The market  
held strong throughout the greater  
part of the day, most of the activity,  
however, being in the specialties.  
Baldwin Locomotive was one of the  
strongest features and the Petroleum  
issues were affected favorably by the  
announcement of plans for the new  
combination. U. S. Steel and the mar-  
ket generally held up well near the  
high points, even though there was a  
considerable decline in activity in the  
afternoon. Announcement was made  
that the Midvale Steel Co. had pur-  
chased a controlling interest in the  
Cambria Steel Co. at \$81 a share. This  
was probably one of the reasons why  
the steel combination which was to  
include the Youngstown Sheet and  
Tube, Lackawanna Steel and Cam-  
bria, did not go through although the  
reason announced was that interests

the buying side on declines now ap-  
pears justified under prevailing cash  
conditions.

Corn—Receipts were larger than  
expected. The cash market felt the  
effect of this pressure, which, com-  
bined with the decline in wheat  
brought forth forced liquidation and a  
market with little rallying power. The  
visible supply showed a material in-  
crease and the weather favors a fur-  
ther increase in receipts.

Oats followed other grains. The  
decline was not even checked by re-  
ports of considerable export business  
which was reflected by purchases of  
May delivery.

New York, Feb. 7.—The improved  
outlook in the international situation  
which news over the week-end sug-  
gested, although nothing of a definite  
character came to hand, developed a  
more cheerful tone to the stock mar-  
ket today. The better feeling was  
apparent at the opening. Initial prices  
were at a generally higher level and  
under a moderate degree of activity  
values showed further advancement  
by the end of the first hour. There-  
after prices backed and filled within  
a narrow area, but with a satisfactory  
undertone prevailing throughout.

Final transactions were at a level  
generally better than the opening.

Despite the improvement noted in  
today's session, the inclination on the  
part of the public to withhold par-  
ticipation was still clearly manifest.  
We look for price changes to continue  
to offer but narrow trading opportu-  
nities for the present, in which the long  
side on recessions is favored.

Sales: Stocks, 592,674; bonds, \$3,  
623,500.

**CLOSING MARKET LETTERS.**  
By private wire to Breen & Gourdeau,  
Stock Brokers, 63 St. Peter  
Street, and 6 Sault-au-Matelot  
Phone 185.

Chicago, Feb. 7.—Wheat—No attention  
was paid to cables or crop news  
in a rush to sell out long wheat. The  
selling finally ran the market into stop  
loss orders and by midday the situa-  
tion became extremely weak. There  
was a fairly good demand for cash  
wheat, premiums for supplies in store  
being about the best on the crop. The  
Michigan crop report was bullish and  
most of the advices from the winter  
wheat belt were pessimistic. There  
is likely to be further liquidation, but

TENDERS FOR SUMMER CAPS  
FOR FIREMEN.

Quebec, 2nd February, 1916.  
PUBLIC NOTICE is hereby given  
that sealed tenders, endorsed "TEN-  
DERS FOR SUMMER CAPS," and  
addressed to the undersigned, will be  
received from this day till TUES-  
DAY, THE 29th of FEBRUARY, inst  
(1916), at four o'clock P.M., for the  
supply of one hundred and fifty (150)  
Summer Caps, more or less, for the  
firemen.

Samples of said Caps to accompany  
said tenders.

The City does not bind itself to ac-  
cept the lowest or any of the tenders,  
and the contractor shall pay the cost  
of drawing up the contract and notar-  
ial copies for official use.

By order,  
AUG. MALOUIN,  
Secretary Fire Committee.

**CITY OF QUEBEC.**  
City Clerk's Office.

Tenders for Firemen's Summer  
Uniforms.

Quebec, 2nd February, 1916.  
PUBLIC NOTICE is hereby given  
that the undersigned will receive  
sealed tenders until Tuesday the 29th  
day of February instant (1916) at four  
o'clock p.m., for the supply of 150  
Summer Uniforms (more or less) in  
blue indigo serge for firemen.

The tenders shall have all the nec-  
essary information at the office of  
the Chief of the Fire Brigade, at the  
City Hall.

The cloth must weigh 17 ounces to  
the yard. Said uniform shall consist  
of three pieces: Coat, double breasted;  
vest and pants.

The buttons for coats and vests  
shall be supplied to the contractor,  
who shall have them according to  
instructions from the Chief of the  
Fire Brigade.

The Fire Committee does not bind  
itself to accept the lowest or any of  
the tenders.

The Committee reserves the right  
of exacting securities.

The contractor shall pay to the  
notary the cost of drafting a contract  
and shall provide the Fire Committee  
with a copy of the same.

All the uniforms shall have to be  
delivered for the fifteenth day of May  
next (1916), and if the contractor has  
not fulfilled that condition, there  
shall be retained five dollars a day  
of delay after said date until the last  
uniform shall have been delivered.

Tenders are reminded to send  
only one envelope with their tender.

For further information apply to  
the office of the Chief of the Fire  
Brigade.

(Signed) AUG. MALOUIN,  
Secretary Fire Committee.

**TENDERS REQUIRED.**  
Police and By-Law Committee.  
Quebec, February, 4th., 1916.

Sealed tenders will be received by the undersigned until Tuesday, the 22nd day of February inst, at four o'clock in the afternoon for the supplying of the following articles required for the use of the Quebec Police Force 110 (or more) tunics in blue serge (marine color).  
110 (or more) pairs of pants in blue serge (marine color).  
Parties tendering must send in samples of cloth and lining.  
All the tunics and pants shall be delivered by the first day of June ult. and if the contractor has not fulfilled that condition, there shall be retained five dollars a day for each day's delay after said date, until the last tunic and the last pair of pants shall have been delivered.  
Should additional tunics and pairs of pants be required, the contractor shall be obliged to supply the same at the price and on the conditions required by the contract.  
The contractor before the signing of the contract shall be obliged to furnish to the satisfaction of His Honor the Mayor two good and sufficient sureties.  
The Police Committee does not bind itself to accept the lowest or any of the tenders.  
The contractor shall pay the costs of drawing up the notarial contract and supplying a certified copy thereof to the Police Committee.

**TH. DUBE,**  
Secretary of Police and By-Law Committee.

**At the Theatres**  
WONDERFUL JUGGLING ACT  
AS HEADLINER THIS WEEK  
AT THE AUDITORIUM  
The Sketch and the Musicians Also  
Make a Big Hit With Audiences.

The jugglers featured on the bill at the Auditorium have certainly a novelty act that would suit the best theatres in America. The man accomplishes some feats that have never been seen here and he does it with such ability that every spectator admires his cleverness and at the same time his great strength. The lady is a singer with a very agreeable voice and a beautiful appearance. The setting of the act is attractive and quite in harmony with the numbers presented.

Another act of the programme that made a good hit is Novelty Trio, eccentric musicians who have good numbers a great variety of instruments and what is more the talent necessary to the success of every musician. Their costumes and comedy also helped in making the act a big favorite with the Quebec audiences.

The comedy sketch entitled "Room 23" is one of these playlets which are bound to please owing to the originality of its make and the acting by Westford and Bock is something worth admiring.

As dancers, Connors and Foley have no superiors in their line; as their acting itself is really attractive.

Mitchell and Aldro, the opening act, have great numbers on their revolving ladder.

**FOX HAS BETTER FILM THAN "THE REGENERATION" TO SHOW AT OLYMPIA**

That Feature Will be Presented Thursday, Friday and Saturday.

"The Cub," the World picture in five reels presented at the Olympia for the first three days of the week please the audience at both performances last night and the great majority of the spectators were also delighted with the three other reels of real good films that complete the programme.

The management of the theatre which was so highly praised for having shown such beautiful pictures as "The Regeneration" has another surprise in store for its patrons at the end of this week when it will present a big Fox feature that is considered still a better attraction than "The Regeneration."

**"AN ENEMY TO SOCIETY"**  
A T THE VICTORIA THEATRE  
Hamilton Victoria, the celebrated English actor and Lois Meredith, the dainty prima donna, who is now starring in Metro Pictures, divide the stellar honors in "An Enemy to Society," just produced for the screen from the famous story of the same name by George Bronson Howard.

The story of "An Enemy to Society" deals with a modern Robin Hood who has been brought up to think that right and justice are best served by robbing from the rich to give to the poor. His regeneration and ultimate discovery that he has been made the tool for revenge upon his wealthy father from whom he has been kidnapped as a child, form an absorbing romance brimful of the elements of love, mystery and intrigue. "An Enemy to Society" which is the latest release on the Metro program, will be shown again at the Victoria Theatre today and tomorrow.

**MR. JOHN MURPHY DIES IN NEW ORLEANS.**  
Mr. Moses Murphy, of No. 6 Fire Station, yesterday received news announcing the death of his brother, Mr. John Murphy, in New Orleans. The sad tidings will be received with genuine regret by the many Quebec friends of deceased, who was well and favorably known in this city before his departure for the South. He was a son of the late John Murphy, of this city. The late Mr. Murphy leaves to mourn his loss a wife and one son, besides his brother, Mr. Moses Murphy of this city. The interment took place in New Orleans.

**Acid Stomachs Are Dangerous**

**COMMON SENSE ADVICE BY A DISTINGUISHED SPECIALIST.**  
"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisulphated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acids, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause distress may be eaten with impunity if the meal is followed with a little bisulphated magnesia, which can be obtained from any druggist, and should always be kept handy.

**VARIOUS FORMS OF FIRE DANGER IN AEROPLANES**

FEW OF FATALITIES IN WAR MACHINES ARE CAUSED BY DIRECT HITS.

(By P. G. Grey).  
London, Jan. 7.—The British, French and German official communiques frequently speak of enemy aircraft which have been hit by missiles from the ground or from other aeroplanes as "falling to earth a mass of flames." This fate has overtaken many aviators belonging to the belligerent forces, and a study of the initial causes is of interest because conclusions may be drawn therefrom which may lead to an ultimate elimination of the danger. It must be clearly understood that these fires are not caused through enemy shells bursting in the aeroplane. Probably not more than 1 per cent. of the fatalities to military aviators are due to direct hits by shells. In almost every case the damage is done by rifle bullets or shell splinters hitting vital parts of the machine. The only functions performed by these missiles are those of smashing agents. They may shatter a wing-spar or a wing-stay, and so cause the whole aeroplane to collapse; the engine may be disabled and enforce an involuntary landing on bad ground, with the consequent wrecking of the machine; the pilot may be hit himself; the petrol tanks or pipes may be punctured.

**Most Common Causes.**  
It is the last contingency mentioned which is responsible for the many fires which occur in mid air. As everyone now knows, aeroplanes are driven by internal combustion engines which burn petrol (or gasoline, as it is called in America). A powerful aeroplane uses an enormous amount of this fuel per hour, and many machines are fitted with tanks capable of holding a quarter of a ton or more of it. It so happens that in most aeroplanes in use at the present time it has been found necessary to locate the petrol tanks in close proximity to the engine for reasons which need not be entered into here, and owing to considerations of weight it is practically impossible adequately to armor the machine from attack in every direction. The result is that petrol tanks come in for a great deal of knocking about from projectiles of one kind and another, and of course the larger a tank is the greater is the likelihood of its receiving severe damage, but the most trifling injury may be of serious consequences. In tractor biplanes, which are now so largely used both by the allies and the Germanic powers, the petrol tanks are generally situated in the front of the enclosed body of the machine. A bullet from a machine gun or rifle fired from the ground pierces the bottom of the tank and immediately a thin stream of petrol starts to pour down on the floor.

**Very Volatile.**  
Petrol is extremely volatile and evaporates readily into the air at ordinary temperatures, forming one of the most inflammable and explosive gases known. It is on these properties that the principle of the internal combustion engine depends. As the stream of spirit continues to pour, more and more of it evaporates, and the inflammable gas continues to diffuse until it fills the body of the machine and overflows. Of course most of it is swept away to the rear of the machine by the propeller blast and the passage of the machine through the air, but the curious air eddies which form around the nose of an aeroplane draw it out through cracks and crannies in wisps in all directions, and if any of the vapor comes in contact with a spark or an incandescent surface it will catch fire. So inflammable is the petrol vapor that immediately a flame is produced it will run along back to the source of the leakage like wild-fire and cause a conflagration which cannot be extinguished.

**Flame Can't Jump Back.**  
In the event of a paraffin driven aeroplane smashing on the ground, there is some small risk of any fuel which escapes from the tank catching fire as it falls to the ground, but in this case it will be seen that the first outbreak will only be local. The flames cannot jump back to the tank along a patch of vapor; they must burn so fiercely that the actual heat sets the main supply on fire, and in the meantime the crew have a chance of escaping. The paraffin carburetor has always been looked upon with longing by motor engineers because an engine run on this fuel under efficient conditions can be made to give more power than when run with petrol, owing to the greater calorific energy which paraffin possesses. As has been mentioned before, there have been practical difficulties in the way, but a professor in a British university has just devised a means of getting over the main difficulty and his invention has been running a car engine for some weeks in an astonishing manner. The horse power developed has surpassed the expectations of theorists to an astonishing degree, and it looks very much as if its final adoption on aeroplanes will result in the elimination of one of the greatest dangers the aviator now has to face.

Selected Barley Malt, choice Hops, combined with the celebrated Rock Spring Water—water as clear as crystal—make B. B. Lager the purest and most wholesome beverage that anyone can drink.

tank and caused the petrol to flow down into the body work of the aeroplane. It evaporated as it fell and the vapor was carried back to the engine, where it caught fire and flashed back to the hole in the tank whence the petrol was pouring. The leakage was so rapid that the petrol could not burn as it poured out, and it fell in blazing streams on to the floor of the machine and washed round the feet of the pilot and passenger.

It was impossible to quench the flames, so the pilot stuck the nose of the machine down and made for the ground inside the British lines. This made the situation worse, because the petrol simply poured down the sloping floor and wrapped the crew's feet in a bath of flame. The passenger found some relief by standing up on his seat, but the pilot was forced to remain seated in order to reach the foot-rudder bar. The heat got so intense that the goggles were cracked on the faces of the men and the ammunition for the machine gun caught fire and exploded in all directions. Hardly had the pilot landed when the tail of the machine literally fell to pieces as the result of the fire.

The cause of the escaping petrol igniting in this way is generally sparks in the magneto, flames from the exhaust or incandescent exhaust pipes. Fatal fires have also been the result of a bullet striking the magneto or the timing gear, resulting in the creation of a spark in a cylinder at the wrong moment (i.e. when the inlet valve is open). In these cases a backfire has occurred in the carburetor and the heat of the burning petrol has unsoldered the petrol union which brings the supply from the tank.

Not infrequently aeroplanes burst into flames when they land heavily owing to damage caused by the enemy or by unskillful piloting. Not long ago an inquest was held on the body of a passenger who was fatally burned in an aeroplane smash in England. The pilot had handled the machine clumsily and it fell a short distance, striking the ground with considerable violence. Neither he nor the passenger was seriously injured by the fall, but the shock burst the tank, the petrol poured out and the vapor reached a glowing exhaust pipe, or perhaps a spark, before the magneto had quite ceased to work. At any rate the flame blew back into the machine and before the passenger could be helped out he was so badly burned that he died soon afterward. Fortunately for himself the pilot, who sat farther away from the source of the fire, was rescued little the worse.

**Substitute for Petrol.**  
Much thought has been given to the prevention of these tragedies, but petrol is so volatile that it is impossible to isolate it from contact with the engine. The only cure seems to be to do without petrol.

With this view in mind much money has been spent on inventions to utilize paraffin (or kerosene) in aeroplane motors but although different devices have been brought forward they have generally been too clumsy and inefficient for use on aeroplanes where so much depends on getting out the last ounce of power from the fuel that is carried. Unless paraffin vapor is mixed with exactly the right proportion of air it does not burn completely and the motor is soon choked up with carbon deposit.

**Why Paraffin Is Safer.**  
The safety of paraffin lies in its high flash point. It will not evaporate in inflammable proportions in the ordinary temperature of the air, and it has to be artificially heated in order to turn it into gas. Of course if liquid paraffin comes into contact with flames it will ignite, but the flame will not blow back across the air space and set fire to the main supply.

The fuel tank of an aeroplane is so situated that it is practically impossible for it to catch fire in the first place. It almost invariably happens that the fire originates some distance away in the region of the engine. This being the case, it will be seen that with the use of paraffin the only source of the inflammable vapor is through the carburetor, and this vapor condenses so readily that it liquefies almost as soon as it enters the air, so that the chances of escaping vapor jumping to the magneto or the exhaust pipes are very small indeed.

**Flame Can't Jump Back.**  
In the event of a paraffin driven aeroplane smashing on the ground, there is some small risk of any fuel which escapes from the tank catching fire as it falls to the ground, but in this case it will be seen that the first outbreak will only be local. The flames cannot jump back to the tank along a patch of vapor; they must burn so fiercely that the actual heat sets the main supply on fire, and in the meantime the crew have a chance of escaping.

The paraffin carburetor has always been looked upon with longing by motor engineers because an engine run on this fuel under efficient conditions can be made to give more power than when run with petrol, owing to the greater calorific energy which paraffin possesses. As has been mentioned before, there have been practical difficulties in the way, but a professor in a British university has just devised a means of getting over the main difficulty and his invention has been running a car engine for some weeks in an astonishing manner. The horse power developed has surpassed the expectations of theorists to an astonishing degree, and it looks very much as if its final adoption on aeroplanes will result in the elimination of one of the greatest dangers the aviator now has to face.

Selected Barley Malt, choice Hops, combined with the celebrated Rock Spring Water—water as clear as crystal—make B. B. Lager the purest and most wholesome beverage that anyone can drink.

**Our February Discount Sale**  
is still going on

FOR ONE WEEK MORE.  
There are exceptional opportunities at our big 25 per cent. DISCOUNT SALE for you to supply yourself with highest grade merchandise at a saving of one-fourth on every article.

**A SALE OF BLACK SILKS.**  
10,000 yards Rich Black Silk Fabrics, lowered in price for this Sale. Fast in Black. Beautiful Quality Fabrics.

It is a matter of economy to buy now. Not only for immediate use, but your requirements for many months to come. The values represent 30 to 40 per cent. on prices of a few weeks to come.

<b>BEAUTIFUL JET BLACK PAILLETTE.</b> 36 inches wide; a beautiful Black All-Silk Paillette; regular \$1.25. For this Sale, per yard... 70c	<b>PURE SILK MESSALINE SILKS.</b> 36-inch Jet Black Messaline Silk; good weight, and best \$1.40 value. For this Sale, priced at per yard... 89c 36 inches wide; a Silk of richness, beauty and good weight; value of \$1.60. Specially priced at per yard... \$1.10 <b>BLACK DUCHESS SILK.</b> 36 inches in width; beautiful Black; best finish; regular \$1.50 value. Priced at this Sale at per yard... 98c
<b>JET BLACK CHIFFON TAFFETA.</b> 36 inches in width; a Silk that will meet the most exacting requirements; value \$1.75. Priced for this Sale, per yard... \$1.15	

**F. SIMARD & CIE ENRG.**  
142 St. Joseph Street, St. Roch, Quebec.

Telephones: Office Hours:  
Office, 5865; Residence, 1724. 9 to 12 a.m., 2 to 5 p.m., 7 to 9 p.m.  
**Dr. EUGENE BEAULIEU**  
SURGEON-DENTIST.  
24 ST. JOHN STREET QUEBEC.

**DOMINION COAL COMPANY, LIMITED**  
MINERS AND SHIPPERS OF THE CELEBRATED  
"DOMINION" STEAM and GAS COALS  
Screened, Run-of-Mine and Slack  
For Particulars, apply to  
SALES AGENT, 112 ST. JAMES ST., MONTREAL.

**\$6.00 Values for \$3.95**  
Advance Spring styles in Georgette Crepe Waists. Shades, white, maize, flesh, also white trimmed in flesh, maize, sky and all-white, and "Knox" Crepe de Chine Waists, in white and flesh; sizes up to 44 bust. Above goods must be seen to be appreciated.  
JUST IN THIS WEEK. NO OLD STOCK.  
Our prices are the Best in the City.  
The proof is that we have only three Waists left over from last year.  
**DYNES'**  
49 St. John St. - - Tel. 721

**Rugs AND Carpets**  
**Linoleums and Oilcloths**  
With the enormous stock of the above goods that we have in store, we can fight the new prices for two years more.  
Come and see our stock before buying.  
**P. J. COTE,**  
29 ST. JOHN ST. - OPPOSITE PALACE HILL
