The Corporation professionnelle des techniciens dentaires du Québec hereby gives notice that it has adopted, at a duly held meeting of his Bureau on 14 September 1981 the French and English texts of the following regulation.

Pursuant to section 3 of an Act respecting a judgment rendered in the Supreme Court of Canada on 13 December 1979 on the language of the legislature and the courts in Québec (1979, c. 61), the Regulation replaces the "Règlement concernant les normes d'équivalence pour la délivrance d'un permis", approved by the Government by Order in Council 2917-79 and has effect from 28 November 1979, date on which the Regulation it replaces came into force.

This Regulation reproduces without any amendment the Regulation it replaces.

JOANNE GAUDREAU,
Secretary.

Montréal, 15 September 1981.

Regulation respecting the standards for equivalence for the issuing of a permit

Professional Code
(R.S.Q., c. C-26, s. 94, par. f and g)

An Act respecting a judgment rendered in the Supreme Court of Canada on 13 December 1979 on the language of the legislature and the courts in Québec (1979, c. 61, s. 3)

DIVISION 1 GENERAL PROVISIONS

1.01 In this Regulation, unless the context indicates otherwise, the following words and expressions mean:

(a) "Corporation": the Corporation professionnelle des techniciens dentaires du Québec;

(b) "diploma equivalence": the recognition by the Bureau that a diploma attests the attainment by a candidate of a level of knowledge equivalent to that attained by the holder of a diploma recognized as giving access to the permit;

(c) "training equivalence": the recognition by the Bureau that the training of a candidate indicates that the latter has attained a level of knowledge equivalent to that attained by the holder of a permit;

(d) "credit": the quantitative value allotted to the work load required from a student, one credit corresponding to 45 hours of attendance at a course or of personal work;

(e) "secretary": the secretary of the Corporation.

1.02 The Interpretation Act (R.S.Q., c. I-16) applies to this Regulation.

1.03 The secretary shall forward a copy of this Regulation to the candidate who wishes to have an equivalence recognized.

DIVISION 2 PROCEDURE FOR A RECOGNITION OF AN EQUIVALENCE

2.01 A candidate who wishes to have an equivalence recognized must furnish to the secretary those among the following documents which are necessary to support his application:

(a) his academic record including the description of the courses taken;

(b) proof of the obtainment of his diploma;

(c) an attestation that he participated in a professional training period;

(d) an attestation of his pertinent work experience.

2.02 The secretary shall forward the documents prescribed in section 2.01 to a committee established by the Bureau to study the applications for equivalence and make a suitable recommendation. At the first meeting following receipt of the report of that committee, the Bureau shall decide whether it recognizes the equivalence and inform each candidate in writing of its decisions.

2.03 Within 15 days following its decision not to acknowledge the equivalence, the Bureau must inform each candidate in writing of the curriculum, the training period or examinations whose satisfactory completion, account taken of his present level of knowledge, would allow him to be granted such equivalence.

DIVISION 3

STANDARDS FOR EQUIVALENCE OF A DIPLOMA

3.01 A candidate who holds a diploma issued by an educational establishment situated outside of Québec, shall be granted an equivalence if such diploma was obtained upon completion of collegial studies comprising the equivalent of at least 35 credits distributed as follows:

- (a) 5 credits in ceramics;
- (b) 1 credit in dental materials;
- (c) 13 credits in removable dental prosthesis;
- (d) 10 credits in fixed dental prosthesis;
- (e) 3 credits in cast frameworks for removable dental prosthesis;
- (f) 3 credits in dental anatomy.

3.02 Notwithstanding paragraph *a* of section 3.01, where the diploma that is the object of an application for equivalence was obtained 5 years or more before such application, the equivalence may be refused if the knowledge acquired by the candidate is no longer adapted to the knowledge presently taught, as a result of the evolution of the profession.

However, the equivalence must be recognized if the pertinent work experience of the candidate and the training which he acquired since then enabled him to attain the required level of knowledge.

DIVISION 4

STANDARDS FOR EQUIVALENCE OF TRAINING

4.01 A candidate is granted an equivalence in training if he shows that he has a level of knowledge equivalent to that attained upon completion of collegial studies in dental technology comprising credits defined in section 3.01.

4.02 For the purpose of section 4.01 the Bureau has to take into consideration the following factors:

- (a) the nature and the length of his experience;
- (b) the fact that the candidate holds one or more diplomas issued in Québec or elsewhere;
- (c) the courses taken;
- (d) the participation in a professional training period;
- (e) the total number of years of experience.

In the case where the evaluation made, according to paragraph *a*, does not allow a decision to be taken, the Bureau can require an exam or a training period to finalize the evaluation.

DIVISION 5

FINAL PROVISION

5.01 This Regulation replaces the "Règlement concernant les normes d'équivalence pour la délivrance d'un permis", approved by Order in Council 2917-79 dated 24 October 1979, comes into force on the date of its publication in the *Gazette officielle du Québec* and has effect as of 28 November 1979.
