SHERBROOKE, QUE., TUESDAY, OCTOBER 19, 1897.

PRICE-ONE CENT

WAITE PLEADS GUILTY.

He Also Told Where the Stolen Goods Were Hidden.

Fred Waite was arraigned before District Magistrate Mulvena yesterday afternoon, for breaking into and robbing J. L. Vineberg & Co's store on Wednesday night last. Waite pleaded guilty to the charge and asked that sentence be pronounced upon him. The Judge will pronounce sentence tomorrow.

On Saturday afternoon, High Constable Moe saw Waite in the jail and he confessed to the robbery and gave directions for the recovery of the goods. He said the jewelry was hidden in a tomato can under the fence in the rear of J. F. Morkill's house, on Commercial street, and that the clothes were under a summer house in the rear of Geo. Brooks' residence, on Brompton road. The high constable at once proceeded to these places. He was unable to find the jewelry, but under the summer house he got two overcoats and three suits. In the evening he, with Chief Davidson, made further search and found a few handkerchiefs and gloves, but did not get the jewelry. Mr. Vineberg continued the search Sunday, but was unsuccessful. Yesterday afternoon, at the conclusion of the proceedings before the district magistrate, Waite consented to accompany the high constable to the places where he said the goods and jewelry were secreted. As a result of this last visit, Mr. Vineberg had restored to his store, 20 rings, 18 charms, 3 chains, 1 watch, 3 suits, 2 overcoats, besides a number of handkerchiefs and gloves. The coin case as well as a quantity of jewelry and clothing has not yet been recovered.

PROPOSED NEW ENGLISH CHURCH.

It will be Erected by the Year 1900, and will Cost \$30,000.

On the occasion of the recent visit of Bishop Dunn to this city, the building committee of St. Peter's church, and others interested in the matter, met His Lordship and Rev. Dr. Dumbell, rector of the parish, to discuss the question of the proposed new English church in Sherbrooke. The Bishop of Quebec announced that during his recent visit to England the Society for the Propagation of the Gospel had voted the sum of \$5,000 towards the new edifice, subject to the condition that the church be completed by January 1900. The new church is to cost \$30,000, and with the \$5,000 voted by the S.P.G., more than half this amount has already been subscribed. Those who have the matter in hand feel confident that the balance of the funds will be supplied and the Church erected by the birth of the new century, and the new edifice will doubtless be worthy of the important position which this parish holds in the diocese of Quebec.

ART NOTES.

Mr. Geo. Chavignaud held a little exhibition of his paintings at the Art Hall, in this city, on Saturday, Oct. 16th. Two of his paintings were selected and purchased, to be placed in the Art Hall, among the paintings already there from the brush of Canadian and foreign artists.

During conversation with Mr. Chavignaud we found him entirely interested in his art, trying his utmost to improve it by constant study from life and nature. Painting as it appears to his artistic temperament is not merely a means of decorating the residences of his patrons, but is one of the ways of bringing before them the true beauty of life and nature, in an artistic manner.

The praiseworthy efforts of Mr. Morey and the Library and Art Union in placing before the public good paintings for inspection in the Art Hall, as well as free access to view them, will in time educate the masses and teach them to distinguish true art, in sunshine as well as in homely life. It is beyond question that the number who hold art in high esteem is comparatively small, but with time, it will become a necessity to any refined home.

Mr. Chavignaud is very appreciative of the kindness of his patrons in this city, and expressed the hope that the paintings from his brush, now in the homes of some of the residents of Sherbrooke, would prove a source of pleasure to them, and that they would find them deserving of the name of art works.

DEANERY OF ST. FRANCIS.

A meeting of the executive committee of the Deanery of St. Francis is being held this afternoon to arrange for the usual annual meeting in December.

E. T. PRESS ASSOCIATION.

Annual Meeting and Election of Officers.

The Eastern Townships Press Association held its annual meeting last evening, in the office of the *Examiner*. Mr. A. L. Lance, of the *Richmond Times*, president of the Association, occupied the chair. There was an unusually large attendance of members.

The election of officers resulted as follows:—

E. R. Smith, *St. Johns News*, president; A. L. Lance, *Richmond Times*, first vice-president; L. S. Channell, *Sherbrooke Record*, second vice-president; L. E. Charbonnel, *Cookshire Chronicle*, third vice-president. Executive: Col. W. A. Morehouse, L. A. Belanger, and E. J. Bedard, *Richmond News*. E. S. Stevens, *Sherbrooke Examiner*, was re-elected secretary-treasurer.

M. T. Stevenson, Esq., M. P., who has taken great interest in the association, and who was present at last evening's meeting, was made an honorary life member of the association.

A vote of thanks was tendered Mr. Lance, the retiring president, for his untiring efforts to further the interests of the association during his term of office.

The meeting adjourned to next assemble at the call of the new president in St. Johns.

Book Clubs Organized.

The winter book clubs are now being organized at the public library and Miss Wilson, the librarian will receive applications for membership. There are two fiction clubs, of which one is complete, and the other only partly filled. The literature club is also nearly complete.

There are twenty four members in each of the clubs and it is arranged that the books shall be exchanged every fortnight at the library. After these books are read by each member of the club, which could be in the course of the year, they are passed in to the public library in return for the convenience afforded to the book clubs.

PONY RAN AWAY.

The little daughter of Mr. J. S. Mitchell narrowly escaped a serious accident yesterday afternoon. She was driving down commercial street in her little pony cart when the body of the vehicle became detached from the axle. This frightened the pony and it ran down the street, coming in contact with a telephone pole. Leaving the wheels and axle behind, the pony, with the remaining part of the cart, was stopped in front of the post office. The little driver received no injuries, though somewhat shaken up.

E. L. OF C. E.

On Sunday evening the E. L. of C. E. of the Methodist church held a very interesting meeting, there being about one hundred present. Mr. Jos. Bowers presided. The principal feature of the meeting was the reading of a report of the C. E. Convention at Oatcook by Miss M. Cross, the society's delegate. This report gave a very full account of the proceedings of the convention and was exceedingly well presented, receiving the close attention of all present. A vote of thanks was tendered Miss Cross for her full and interesting report.

MAGISTRATE'S COURT.

John Edgecombe, of Waterville, was fined \$5 and costs, or thirty days in goal for assaulting A. McGovern, of Waterville, on Saturday last.

Yesterday afternoon in the above court, Alexandre Valliere, one of the Vallieres, who was found not guilty of a charge of conspiracy to defraud at the beginning of the present term of Queen's Bench, was charged with assaulting one James Mallory, on Saturday afternoon last. He was sent to jail for two months with hard labor.

Miss Pinkerly—Are you interested in charity, Mr. Tutter?

Tutter (who knows that she is and suspects a possible donation)—Well, Miss Clara, that depends. Some forms of charity are excellent. Others are misdirected.

Miss Pinkerly—Yes, I suppose that's so. You know we are going to give a little entertainment at the church.

Tutter—Oh, yes. Something for the heathen, I suppose. Do you know, Miss Clara, I haven't much faith in that sort of thing. Now, if it were nearer home.

Miss Pinkerly—But it is nearer home. It's just for the poor children of the neighborhood.

Tutter (seeing no escape)—Well, that's better. I approve of that. Of course I'll take a ticket. Afully glad.

Miss Pinkerly—Oh, that is so kind of you.

Tutter—Not at all. Tell me, what sort of an entertainment is it going to be?

Miss Pinkerly—Oh, just a simple little affair. We thought it best, you know, to have everything as simple as possible. There will be refreshments, of course, but they will all be donated, and then we propose to have some sort of amateur play—possibly a charade.

Tutter—Oh, I see. Well, it's a worthy object. I believe in that sort of thing. Have you sold many tickets?

Miss Pinkerly—Not so many as I hoped to. Still there is some time yet.

Tutter—Put me down for two tickets.

Miss Pinkerly—Now, Mr. Tutter, you are really too generous. You must consider your own pocketbook a little.

Tutter—Don't say a word. A simple, inexpensive little entertainment like this, with such a worthy object in view, ought to be encouraged. By Jove, the more I think of it the better I like the idea. Charity begins at home. It's a good thing, Miss Clara. I'm not satisfied. Let me have four tickets. No, make it a half dozen.

Miss Pinkerly—Now, Mr. Tupper, really—

Tutter—Don't say another word. I insist upon it. Where are the tickets? Have you got them here? I'll take them at once.

Miss Pinkerly—Oh, yes! Here they are.

Tutter—Good! Now, how much did you say they were apiece?

Miss Pinkerly—Only \$5, Mr. Tutter!—Harper's Bazar.

Quida, or Mlle. de la Ramee as she is known to her friends, can boast of larger sales for her novels than any living author, for her work is as popular on the continent as at home. This is probably owing to the fact that she is of half French and half English parentage, and also because the scenes of most of her stories are laid in foreign countries. She was born at Bury St. Edmunds 57 years ago, but though she has written some 85 novels her hand has lost none of its cunning. Quida has for many long years made her home in Italy. Unlike most successful writers, she believes in working under inspiration only. She has no regular hours, and sometimes six months will go by without her taking up pen in her hand. Whenever it is possible, she writes in the open air, and she finds that she works far better in the very early morning than at any other time.—London Standard.

THE LACROSSE CLUB.

They Propose to Purchase Grounds— Will Organize a Hockey Team.

The Sherbrooke Lacrosse Club held an important meeting in the City Hall last night. T. J. McGuire presided. The first matter taken up was the formation of a hockey team in connection with the club. It was felt that in order that the boys might enter the lacrosse field next spring in the winning condition in which they passed off it this fall, it would be necessary that their physical exercise should not be discontinued through the winter. It was therefore decided, while not conflicting with the Metropolitan Hockey Club, that the Lacrosse Club should put on the ice a team to be known as the Sherbrooke Lacrosse Club Hockey Team.

The more important business of the meeting was now taken up. This pertained to the purchase and equipment of suitable and permanent grounds for the Lacrosse Club. It has long been felt that if Sherbrooke is to successfully compete with the other cities of the province in the healthful sports of the field she must have more suitably arranged grounds than she now has. The parade ground in its present state at least, does not meet the requirements of the occasion. At last night's meeting it was unanimously agreed, that, if the necessary funds could be procured, the Lacrosse Club would be taking a most commendable step in purchasing and equipping grounds for themselves. A committee composed of T. J. McGuire, A. T. Winter and F. J. Griffith were appointed to arrange for the purchase of grounds which the club has had in view for some time. To meet the expense of the purchase it was decided to hold a bazaar and tombola, believing that the citizens in general would unite in assisting the laudable enterprise.

For the purpose of making the preliminary arrangements for the bazaar, the following honorary and active committee were named, who are invited to meet in the City Hall tomorrow evening at 8 o'clock:

Hon. W. B. Ives, L. E. Panneton, Mayor Fraser and City Councilors, J. A. Chicoine, Col. Worthington, L. A. Belanger, W. A. Morehouse, L. S. Channell, G. H. Bradford, W. R. Webster, J. A. Wiggett, A. W. Colby, T. J. Tuck, Dr. Dussault, O. Desrosseaux, W. R. Gardner, Clark Gordon, T. W. Fuller, J. E. Woodward, N. N. Walley, J. S. Mitchell, H. H. Ingram, G. H. Rawlins, A. T. Winter, A. Barry, H. Mallett, Dr. Bradley, D. McAllister, J. W. McKee, T. J. McGuire, W. Stewart, W. Ross, A. Witty, A. Baird, E. J. Griffith, T. McDonald, H. Witty, O. McGuire, H. Lewis, A. M. Richer, O. Dupont, J. A. Gauthier, J. H. Bouthillier, Geo. Browning, P. B. Thornton, F. E. Ibbotson, P. Slattery, John Burns, H. McGarvey.

The boys trust that the above mentioned gentlemen, who are not members of club, will again demonstrate their interest, often manifested before, in their welfare by turning out tomorrow evening to assist by their counsel and their influence the carrying forward of the club's new scheme to a successful issue.

REAL ESTATE TRANSFERS.

Yesterday the deeds were passed between Mr. C. H. Nutter, the city and Mr. N. T. Whiting, for the Brooks property on Wellington street. The city has purchased a strip 7 feet wide at south end, tapering to 3 feet in width at north end, for which they paid \$519. Mr. Whiting secured the balance, paying for it \$8,500. Mr. Nutter bought the whole about two months ago from the late E. T. Brooks, for \$8,200, with the intention of erecting an opera house thereon, and afterwards changed his plans.

QUEBEC CENTRAL R. R.

The New Train Service.

The Q. C. R. Company, by their new timetable which came into effect last week, have very fully met the desires of their patrons on this half of the line. It will be remembered that a few weeks ago a deputation from the Board of Trade waited upon the general manager and requested that, if possible, the Q. C. R. should put on a train arriving in Sherbrooke in the forenoon and returning in the evening, for the accommodation of those on this end of the line, who wish to come into Sherbrooke, which is a natural center of business, to do trading or transact business, returning the same day. The new train, therefore, which starts from Beauce Junction, arrives in Sherbrooke at 9.30 a. m., and leaves on its return at 9 p. m., is a result of the effort on the part of the Company to meet the requirements of its patrons.

DEATH OF MRS. WM. MITCHELL.

Word was received early this morning, of the death at 3 a. m. of Mrs. William Mitchell, near Lennoxville, mother of Mr. J. S. Mitchell, of this city. Mrs. Mitchell, was in her 81st year, and has always enjoyed good health until about a week ago, when she had a severe attack of bronchitis. From this she never fully recovered and the physicians held out no hopes. For two or three days she end has been expected hourly.

Mr. Mitchell died only two years ago, aged 88 years. They both came from Scotland when young, and lived on the same farm from the time they were married. The funeral will take place at 2 p. m., on Thursday, from her late residence to St. George's church, Lennoxville, thence to Malvern cemetery.

COUNCIL MEETING.

An adjourned meeting of the City Council will be held this evening to consider the raising of the valuation of certain land belonging to the B. A. L. Company in the South Ward.

SEIVERIGHT—GRAHAM.

Mr. W. J. G. Seiveright, one of Sherbrooke's young men, was married this morning, at Richmond, to Miss Jennie E. Graham, of South Durham. The ceremony took place at the residence of Mrs. Geo. Wilson, aunt of the bride. Mr. and Mrs. Seiveright left by the afternoon train for a trip to Toronto and other points, after which they will take up their residence in Sherbrooke.

PERSONAL INTELLIGENCE.

District Magistrate Mulvena held Circuit Court in civil matters at Richmond yesterday morning, and is in Sweetsburg today.

Mrs. Geo. Ballentyne left yesterday for Toronto, having been called home by the serious illness of her mother.

Mrs. C. Skinner and Mrs. James Davidson and Mrs. (Dr.) Williams are in Toronto, attending the World's W. C. T. U. convention being held there this week.

PLOUGHING MATCH.

At Cookshire, Oct. 26.

The first annual ploughing match of the Compton County Agricultural Society Ploughing Association will be held on Tuesday, Oct. 26th, on the farm of R. H. Pope, M. P., Cookshire. There will be three matches with cash and special prizes. In the first match any plough may be used (no wheels). The first prize in this match is a cup presented by Col. Taylor, to be won twice before becoming property of the owner, also \$4 cash. Match No. 2 has six prizes and is open to imitation Scotch ploughs.

In the third match there are five prizes and the ploughmen must be boys under 18 years of age. A special prize of \$6 is offered for the competitor having the best team harness, general turnout and handling to be considered. The event promises to be of an interesting nature.

A GENERAL STRIKE.

It Would Bring British Trade to a Stand Still.

London, Oct. 18.—James Keir Hardie, Chairman of the Independent Labor party and editor of the Labor Leader, proposes, with the view to assisting the striking engineers, to pool all the funds of all the trades unions as a fighting fund, and then to proclaim a general strike, thus bringing the trade of the nation to a standstill.

CECIL RHODES' ILLNESS.

Due to an Assault upon Him by Natives.

London, Oct. 18.—The Daily Graphic says it learns from a trustworthy source that the condition of Cecil Rhodes, who was reported a few days ago to be seriously ill at Inyanga, and whose sickness has since been attributed to fever, is really due to injuries received at the hands of hostile natives in the vicinity of Salisbury, Mashonaland. According to the Graphic, Mr. Rhodes, while travelling, lost his path and was seized by unfriendly natives, from whom he narrowly escaped with his life. Beyond this information no details are given.

SEARCH LIGHT FOR BATTLE FIELD.

It Be Will Used In Gathering In the Wounded After Battle.

Paris, Oct. 18.—The garrison of this city is experimenting with an apparatus that is intended to be used in searching for the wounded at night on the battlefield. The apparatus consists of a powerful searchlight that is fed with a volatile liquid. It has a platinum reflector which throws a conical beam of light for nearly 1,000 feet. It can be carried on the back like a knapsack. Thus far the experiments have been completely successful.

THE WONDERS OF A WATCH.

Few Persons Know How Great Its Marvelous Powers Are.

A Boston jeweler who has a talent for advertising as well as a genius for mechanics has been reminding his patrons lately that a watch is the smallest, most delicate machine that has ever constructed of the same number of parts. About 175 different pieces of material enter into its construction and upward of 2,400 separate operations are comprised in its manufacture.

Some of the facts connected with its performance are simply incredible, when considered in total. A blacksmith strikes several thousand blows on his anvil in a day and is right glad when Sunday comes around, but the roller jewel of a watch makes every day and day after day 432,000 impacts against the fork, or 157,680,000 blows in a year without stop or rest, or 3,153,600,000 in the short space of 20 years.

These figures are beyond the grasp of our feeble intellects, but the marvel does not stop here. It has been estimated that the power that moves the watch is equivalent to only four times the force used in a flea's jump; consequently it might be called a four flea power. One horsepower would suffice to run 270,000,000 watches.

Now the balance wheel of a watch is moved by this four flea power one and forty-three one-hundredths inches with each vibration—8,568 3/4 miles continuously in one year.

If you would preserve the time-keeping qualities of your watch, you should take it to a competent watchmaker once every 18 months.—Youth's Companion.

PROTECT YOUR WINDOWS with Moore's Patent Improved Wrought Steel Storm Window Fastener.

OUTSIDE FASTENER.

With this fastener your windows are adjusted from the outside of building and are to be used on the lower story of wooden buildings, and any windows that are not handy to fasten with the inside fastener, and will be used mostly in small villages and in the country. The accompanying cut shows the method of attaching to the windows, the flat surface being screwed to the edge of storm-sash, and the hook meshing into a screw driven into the casing; the fastener is drawn down with a small hammer, thereby drawing your window as tightly as desired. Costs a mere trifle, lasts a life time. For sale by

WRECKED ON THE LAKES.

The Name of the Vessel Not Yet Learned.

Port Stanley, Ont., Oct. 19.—(Special).—The Dominion cruiser Petrel, Capt. Dunn, reports having passed through a field of hardwood lumber about an hour's run southeast from this port, on Wednesday last.

On the 14th, quantities of lumber came ashore between here and Port Burwell, and a spar with a good sail and rigging attached has been picked up at Port Burwell.

A water barrel has also been picked up at Port Bruce. What appears to have been a marine disaster must have happened off here in the storm of the 15th inst., but up to the present the name of the vessel has not been learned.

AN INDIAN STABBED.

Winnipeg, Oct. 19.—(Special).—An Indian named Thomas Burns, last night, stabbed and, it is feared, mortally wounded another Indian named Williams. Williams, who is a peaceful fellow, was walking down Main street with his squaw when he was accosted by Burns and asked to have a drink. This offer was refused, and a slight discussion ensued, which resulted in Burns drawing a knife and stabbing Williams below the breast bone.

FIRE AT KINGSVILLE.

Kingsville, Oct. 19.—(Special).—At 10.30 last night, the large and beautiful Western block on Main street was totally destroyed by fire. The falling brick walls crushed in the roof of Conklin's machine shop, but firemen saved the building.

Ment Cooked by Cold.

Any one who has ever picked up with a bare hand a piece of intensely cold iron knows that the touch burns almost as badly as if the metal were red-hot. Indeed, the action of great heat and that of extreme cold are so similar that a Hungarian chemist has turned the latter to account to prepare meats for food. He subjects the meat to 60 degrees of frost and jets the seals it up in airtight tin cans. The result is that the meat, which is practically "cooked by cold," will keep any time, and can be eaten with very little further preparation.—London Tit-Bits.

LAPIERRE CASE.

EVIDENCE ALL IN.

L. C. Belanger's Address to the Jury.

The cross examination of Dr. Camirand was first taken up yesterday afternoon in the Lapierre case. He believed the little girl was better able to stand the operation upon her foot on the 6th of May than on the 14th of April. When witness saw Celina on April 14th there was nothing to indicate that her health had been permanently compromised. If the testimony given by the little girl is true her health would have been compromised very probably. In the state the little girl was according to the evidence of the cure, Mrs. Roy, Dr. Thibault and the others he did not think she could have resisted a very long time, but with good food and care and no further exposure to the cold it would have been possible for her to have lived.

The next witness was Dr. J. F. Rioux.

He knew the accused, Thomas Lapierre, since the month of May, and had seen him at the prison, and talked with him. He considers him of little intelligence and of little or no memory. He also agreed with the evidence of Dr. Camirand as to the gangrene.

Dr. J. A. M. Elie, who had been examined as a witness for the Crown, was next called. He believed gangrene could be caused by frost and also by heat. He had also heard the evidence of Dr. Camirand. After having heard the evidence of Dr. Thibault, witness thought if there were no marks on the large toe, as Dr. Thibault stated that there could have been no wound caused by the fall of a stick.

This closed the case for the defence.

Two witnesses were briefly examined by the Crown in rebuttal, which closed the evidence in the case.

L. C. Belanger, Esq., then submitted some authorities to the Court, preparatory to his address to the jury this morning. The learned counsel for the prisoner then argued that he did not consider there was any case to go to the jury, supporting his claim in an able manner.

He was answered by a forceful argument on the part of the Crown by the learned Crown Prosecutor, J. S. Broderick.

The Judge will render his decision today at 10 o'clock, after which, if there be a case, the addresses will take place.

When court opened this morning, the learned Judge presiding, rejected the application made by Mr. L. C. Belanger last night.

L. C. Belanger, Q. C., counsel for the defence, then addressed the Jury on behalf of the prisoners: "May it please the Court, gentlemen of the Jury. Look at the prisoners. Are they guilty or not guilty? In a little while you will be called upon to answer this grave question.

"In, perhaps, a few hours you will, by either one or two words, have decided that question and also where these two unfortunate people will pass their lives.

"Gentlemen, if you say the one word, 'guilty,' you will send these two poor, unfortunate people, a man and his wife, to penitentiary for the remainder of their life. If, on the contrary, you say the two words, 'Not Guilty,' words which to the end of your days, if you say them, you will never regret, these two unfortunate people will leave here free, and will go back to their modest home at St. George de Windsor, and by the grace of God, live happily for all their days."

The learned advocate then referred to the pictures and print in the papers, painting the two prisoners as terrible inhuman creatures, saying that he protested against such things as it was an injustice, as it created an impression unfavorable to the prisoners.

"Gentlemen of the Jury, this case has created much excitement at Windsor, from which place the friendly, so called, neighbors of the poor unfortunate prisoners at the bar, have come here, to render evidence against their pretended friends, and to put the nails in the coffin of the accused, even the priest himself. The unfortunate prisoners are alone, everybody is against them, where, among all their pretended neighbors and friends, where is the good Samaritan, who would come forward and help these poor, unfortunate prisoners? Nobody raises their voice in the favor of this man and his wife, everybody is against them!

"Gentlemen of the jury, if you find these people 'guilty' you will do this,—send these two poor unhappy people to pass the remainder of their days in the cells, enclosed by the four solid stone walls of the penitentiary of Saint Vincent de Paul; you will also punish the poor children of this man and his wife; you will deprive them of a mother's care, especially the dear little one whom the unhappy mother now holds in her arms.

"These neighbors of the accused gather together, and after consultation decide to lay a charge of most inhuman and terrible treatment against the prisoners, which I assert, has not been proven."

The learned counsel then went into the facts and evidence of the case. He claimed that there was

no proof that Celina had frozen her foot, but on the contrary that it had been hurt by a stick. There was no proof of any direct acts of inhumanity done by the accused with the intention to kill the child Celina.

Mr. Belanger reviewed the testimony of the female prisoner, which he stated, had not been contradicted on any point, but rather corroborated on every statement.

"Gentlemen, are you to send these persons to prison for life, on such evidence as has been produced in this case? On the facts as here produced, will you disperse and break up this family, and send these people to die inside the walls of the penitentiary. No, gentlemen, it could be too cruel and in conclusion, ask you to render a verdict, which will leave your conscience clear and ill-treated people, who have already spent six months in prison free to go and begin their life in peace,—a verdict of 'not guilty.'"

The Court then adjourned till 1.30 p. m., when J. E. Genest, Joint Crown Prosecutor, will address the Jury for the Crown.

GOLD FROM SILVER.

What About the Silver Question Then?

Berkley, Cal., Oct. 15.—Edmund O'Neil, associate professor of chemistry at the University of California, in lecturing before the chemists of the University Science Association on "The Transmutation of Metals," has declared the possibility of making gold from silver. He said there was an excellent basis to support the contention for the union of metals and that the ultimate solution of the problem was an achievement that science expected.
