

FIRE, FAMINE, FLOOD AND ANARCHY AFFLICT ADRIANOPLE

Fugitives who have Escaped from that City tell of Awful Privations of Besieged Turkish Garrison. Many Buildings Near Mosque are Reported to be on Fire. Civilian Population is Said to be Short of Food. Turkey Grows Bolder Her Military Authorities. Say she can Prolong war for Another Year.

Mustapha Pass, Turkey, Nov. 27.—(Special)—Fire, famine, flood and anarchy afflict the besieged Turkish fortress of Adrianople, according to reports brought here by fugitives from that city. Those refugees who have managed to escape through the lines of investment, which are being drawn closer every day around the Turkish stronghold, declare that many buildings in the vicinity of the Selim Mosque are on fire.

Other districts of the city are deeply inundated with the waters of the Rivers Maritza, Tunga and Arda, which have overflowed their banks. The civilian population is declared to be short of food, and among some classes a state approaching anarchy exists.

BREAKDOWN OF NEGOTIATIONS.

London, Nov. 27.—The latest news received here last night foreshadows the breakdown of the armistice negotiations, probably over the demand of the Bulgarians for the evacuation of Adrianople, to which Turkey will not listen.

The Turkish view is that while the Allies have no more reserves which they can draw upon, Turkey is drawing a plentiful supply of fresh troops from Asia and is able to continue the war for another year. The Turkish military authorities assert that Adrianople can hold out for another month and that the Tchernia lines are impregnable. Hence Turkey's position is not desperate enough to warrant her accepting humiliating terms.

TRIBUTE TO TURKS.

London, Nov. 27.—In a despatch from Mustapha Pasha the correspondent, Bennett Burleigh, pays a high tribute of admiration to the ability and hardihood of the Turks defending Adrianople and the courage and devotion of the Bulgarians besiegers. He speaks particularly of the ingenuity and completeness of all the Bulgarian operations and of the constructive skill and industry of the Bulgars.

He visited dozens of their camps and found everywhere absolute cleanliness and order, plentiful supplies and wholesome food of considerable variety.

TURKEY'S ATTITUDE.

London, Nov. 27.—The Constantinople correspondent of the Daily Telegraph sends the following despatch: "Turkey is rapidly drifting towards the Triple Alliance. A rupture of the armistice negotiations is regarded as imminent and certain."

"Both Government organs, Ikdam and Sabah, employ unusual frankness in discussing the situation. They assert that while the Triple Entente, (Great Britain, France and Russia) is urging the Porte to concede peace,

the Triple Alliance (Austria, Germany and Italy) advises resistance, and, foreseeing a general war, both papers argue that Turkey should profit thereby to secure that best position when the settlement comes to be discussed by the European conference. This, they declare, can best be attained by throwing the Turkish military strength on the side of the Triple Alliance."

ADRIANOPLE AFLAME.

London, Nov. 27.—A Sofia despatch to the Daily Mail gives a report from Adrianople that part of the town near the Mosque of Sultan Selim has been burned. It was set afire by Bulgarian shells.

The Daily Mail says: "We learn that Austria has called 18,000 reservists to the colors and that the military districts of Vienna and Graz are being placed on an enhanced peace footing, which includes all the reservist officers."

The Times' correspondent at Constantinople learns from a well-informed source that no time limit to the negotiations has been fixed and that formal discussion of the terms of the armistice will begin to-day, when the Porte's legal advisers join the delegates.

PEACE NEGOTIATIONS.

London, Nov. 27.—It is rumored that Greece is negotiating direct with Turkey for peace on the basis that Greece shall take Saloniki and the country from Saloniki to the Greek frontier, says the Daily News correspondent at Constantinople. "This," continues the correspondent, "would indicate that the agreement for mutual defence no longer is operative among the members of the Balkan alliance. In this connection it is recalled that negotiations for considerable concessions to Greece immediately preceded the war."

"The above statement is made on good authority, but confirmation of it is not obtainable."

The Daily Chronicle prints a Constantinople despatch to the effect that the correspondent has heard that Greece has concluded peace with Turkey on the basis of Greece retaining Saloniki.

TURKISH MASSACRES.

London, Nov. 27.—Telegraphing from Odessa the correspondent of the Morning Post says reports received here from Kara, Russian Trans-Caucasia, allege that Turkish massacres of Armenian villagers have taken place in the districts of Bitlis, Van and Mush, Asiatic Turkey.

It is stated, the correspondent adds, that Russia is holding a strong Caucasian force on the frontier ready to enter Armenia should the massacres continue.

SCUTARI ON SHORT RATIENS.

London, Nov. 27.—The Daily Telegraph's correspondent at Scutari, writing under date of November 18, says the Governor of Scutari, has issued a proclamation requisitioning all supplies of provisions. He says the proclamation has caused a painful impression, as it is feared the town will be placed on short rations.

bill. Therefore, until a more ideal condition of things was reached, as regards better paid school teachers, and until the province had reached the point of supplying free schools and free books, Quebec would not be ready for compulsory education at the public schools.

SHEFFORD MEMBER OPPOSES.

Three reasons were given by Mr. Bullock, of Shefford, in opposition to the bill. In the first place, Mr. Bullock said the people had given no mandate for compulsory education; secondly, at the present moment it would be beginning at the wrong end to adopt the bill; and thirdly, to compel one section of the province to obey the law would be to create dissension among the children and divide them into separate religious camps. The member for Shefford addressed the House for the first time. He argued that the time was not ripe for such legislation, no matter what had been done by other countries. There was undoubtedly a lack in education in Quebec; but, on the whole, he felt obliged to vote against the bill. And the reasons were that the Liberal party had received no mandate from the electors to adopt such legislation. In the last election what was most spoken about was better schools and better roads. But the people had not been consulted on compulsory education.

SOLDIERS CANNOT GET DRUNK AFTER 8 P.M.

Quebec, Nov. 27.—Three bills were killed at a meeting of the Legislature Committee, which was presided over by Sir Lomer Gouin, yesterday. Two of these bills were presented by Mr. Lavergne. One of them was to allow saloonkeepers to sell intoxicating

SENATOR POPE SECONDS THE ADDRESS

Farmers Are Not Getting Consideration From Banks, He Says

TIME WAS BANK WAS REGARDED AS A FRIEND, BUT NOT THE CASE NOW.

Ottawa, Nov. 27.—The debate on the address was commenced in the Senate yesterday, and three strong speeches were made. The first, by Senator Daniel, of St. John, who moved the address, the second by Senator Rufus Pope, of Quebec, who seconded it, and the third by Sir George Ross, the new leader of the Opposition in the Upper Chamber, who foreshadowed the line he would take when the naval proposals of the Government came before the Senate.

Senator Pope, in seconding the address, said that he had been in the West only last summer and could testify to the warmth of the welcome afforded the Duke and Duchess of Connaught there. Canada's commerce was never before so great and her revenues were never before so abundant. When nations were arming and competing in the race for power, when the Dominion was about to share in the defence of the British Empire, it was gratifying to know that we had the means which would enable us honorably to do our duty.

BRITISH IMMIGRANTS WELCOME.

The flow of immigration was welcome. Those who came from Britain were, perhaps, most welcome, as they came with knowledge and respect of the institutions they found here, for they were the same British institutions they knew at home. Those from the United States were also welcome, but they and strangers from other lands should understand that they were coming to a British country and should make up their minds to respect and support British institutions.

Senator Pope predicted success for the Hudson Bay Railroad, and commended the proposal to aid in the development of railway highways, which were as important to the country as were railways. More agricultural education was needed in Canada. Ontario had set an example which other provinces would do well to follow.

The speech further referred to the Banking Act. Experience had shown that the Canadian banks tided the country over periods of stress better than had the system in the United States. However, he sometimes doubted if in average times the Canadian banking system was giving the country the best advantage. For four months in the year credit was curtailed to enable crops to be moved. This indicated that the banks of Canada did not have money enough. The farmer of the West, with 20,000 bushels of good wheat threshed and ready for market, could not borrow a dollar on it to pay his help or for other purposes. It did not seem right that such a man should be a pauper before the banks. There was remedy. Other countries had successfully established mortgage banks and co-operative securities companies which enabled farmers to obtain money at from 3 1/2 to 5 per cent. The farmers of Canada had to pay from 5 to 10 per cent. He did not blame the banks for getting all they could for their shareholders. While he was not unfriendly to the banks, he could say they were growing unpopular. There was a time when the citizen of Canada regarded the banker as his friend. It was not so to-day.

Owing to amalgamations, shifting of managers and the multiplication of red tape the banks had drawn away from the people, who now look on the banks with a good deal of unfriendliness and distrust. The Banking Act was to be changed this year. In changing it provision should be made for co-operative banking, which had succeeded so well elsewhere and had done so without injuring the established banks.

AMENDMENTS TO HOME RULE BILL.

Three Were Voted Down In British House of Commons.

WERE DEFEATED BY LARGE MAJORITIES AND OTHERS GUILLOTINED.

London, November 27.—Three Opposition amendments to clause 15 of the Home Rule Bill were rejected in the House of Commons last night. The first, in the name of Hewins, proposed that the Irish Parliament should not be empowered to discriminate in levying taxes in order to provide bounties on the production or export of native goods. It was defeated by 111. The second, moved by Amery, sought to reserve all power over Irish customs excise to the Imperial Parliament. This was rejected by 136. The third, proposed by Cassel, provided that the Irish Parliament should impose no taxes that were not identical in character with imperial taxes. It was defeated by 130. Several other amendments were guillotined.

liquors to soldiers after 8 p.m., and the other was to do away with the deposit which plaintiffs residing outside of the province must make when suing under the law relating to labor accidents.

THE CIVIC ELECTIONS

Tenders Received for City's Bonds Considered by Finance Committee Yesterday Afternoon.

POSSIBILITY THAT COUNCIL WILL TAKE STEPS TO BOULEVARD QUEEN STREET.

The City Hall was the scene of considerable activity yesterday afternoon, when the Finance Committee and other members of the Council met at an informal session. Being informal, the citizens have no way of finding out just what was done. The tenders received for the purchase of the city's bonds were discussed. Although a number of them were received the Council did not accept any.

It is also understood that the readjustment of the finances of the Electric Department was considered at some length, and steps will be taken to pay back to the sinking fund the moneys taken therefrom for special purposes.

IMPROVEMENTS TO STREETS.

On Monday evening, at the next meeting of the Council, it is expected that a number of important questions will be brought up for discussion. In all probability the sidewalk-by-law will be introduced, enabling the Council to proceed with the fixing up of Montreal street, along the lines suggested by Ald. Ewing. There is also a possibility that Queen street will be boulevardized in the same way. No better street could be selected as an experiment for this new system than Queen. It is exceptionally wide, and the residences are all attractive. If the roadway on this street were reduced to thirty-six feet, and concrete walks built, Queen street would be a credit to the city.

PREPARING FOR PEACE ANNIVERSARY

Suggestion That Work Be Stopped For Five Minutes Adopted.

Candidates for the new Council are being considered. Citizens should be careful. Progressive citizens should endorse only progressive candidates, men pledged to reform in civic administration.

If public opinion will assert itself in this matter every Ward in the city will send to the Council only men who can be depended upon to join in a re-organization of affairs at the City Hall. The present Ward Aldermen who do not measure up to this requirement should be dropped. If they insist upon seeking re-election they should be opposed. The ballot box after all is the place to decide important public issues.

The present Council is about to lay down the mantle of responsibility. For a brief time it will rest upon the shoulders of the citizens. The power of electing good men, progressive men with modern ideas, belongs to the people.

If they do not exercise it the fault will be theirs and for the consequences they will have only themselves to blame.

POSSIBILITY OF GREAT WAR ABSORBS OPINION IN BRITAIN

Steps Towards Mobilization Which Austria and Russia Are Making Have Made Possible Vision Of Vast Consequences Which Are Considered Appalling. British Liberal Organs Urge Government To Preserve Neutrality, As Also Does Conservative Papers.

Frankfort-on-the-Main, Germany, Nov. 27.—(Special)—Austro-Hungary subjects residing here who belong to the army reserve have all received orders to report to their regiments. Money has been sent to them to pay their railroad fares as far as the frontier.

Austrians and Hungarians employed in German mining districts have received similar orders.

London, Nov. 27.—The possibility and danger of a greater war than that between the Balkan states and Turkey absorbs public interest far more than the first bout of diplomacy between the belligerents outside of Constantinople.

The steps towards mobilization which Austria and Russia are taking, although but preliminary precautions, have made possible a vision of the vast consequences which, as far as Great Britain is concerned, are considered nothing less than appalling.

The British public apparently has no desire to sacrifice lives and money, paralyze commerce and risk the navy over the settlement of the status of the Balkan peninsula. Yet it is uneasy, because ignorant of how far Great Britain's diplomatic engagements with France and Russia extend in the direction of an alliance, and of how much likelihood there is that the Government will draw into a conflict in which one or both of its partners in the entente may be engaged.

The Liberal press is unanimous in urging Great Britain to preserve neutrality. The majority of the Conservative press demand the same policy. The Times, declaring that none of the European people want war, says:

"Yet that is whither the nations are blindly drifting."

It asks: "Who, then, makes war?" and replies: "The answer is to be found in the chancelleries of Europe among the men who too long have played with human lives as pawns in a game of chess, and who have become so enmeshed in formulas and the jargon of diplomacy that they have ceased to be conscious of the poignant realities with which they trifle."

The Pall Mall Gazette almost alone speaks in a warlike voice. It declares:

"England ought to act firmly with France and Russia in refusing simply to be swept aside. If the conference desired by the British Government is refused, we ought to face the alternative and stand by our friends."

The mobilization of the Austrian and Russian armies requires weeks for what Germany and France can accomplish in days. In Russia's case this is an account of the great distances the troops must travel; in Austria's because the units of the army are on a peace footing, which is only one-third of their war strength. Therefore, considerations of safety compel them to begin when the danger signals are remote.

England, France and Germany are playing a peace-making role. Their efforts are directed apparently towards keeping the powers together in a compact to refrain from taking up needless quarrels which the war raises, and defer their considerations until the general conference. The withdrawal of the Austrian warship at Constantinople to sea for sea is taken as an unfavorable sign of the imminent serious completion of Demaree, on the Adriatic sea, tends further to bring Austria and Germany toward the breaking point.

FINANCE MINISTER REPLIES TO CRITICISM

Was Necessary That Cement Duties Be Lowered, he Said

DENIED THAT THIS WAS DONE IN VIEW OF APPROACHING ELECTION IN SASKATCHEWAN.

Ottawa, Nov. 27.—Hon. W. T. White, minister of finance, replied to the criticisms for reducing the cement duty last summer and to allegations that this was done for political expediency in view of the approaching Saskatchewan elections. He presented an array of documents to show that there was a serious shortage of cement in the West, and read a list of telegrams and letters from Boards of Trade and other business organizations from every important centre in the West urging that the duty be lowered.

The Finance Minister indignantly repudiated the insinuations that he had been moved in his action by the fact that an election was approaching in Saskatchewan.

Mr. White, turning to reciprocity, challenged members of the Opposition to state where they stood on the policy which had wrecked their party. Hon. Frank Oliver was the only Opposition member who was prepared to admit that he was still a believer in reciprocity. A Liberal caucus on reciprocity at the present time would be a sort of political feast of Pentecost, where all would speak in different tongues. He asked Sir Wilfrid Laurier if he still stood by his former

Ottawa, Nov. 27.—There are rumors that an agitation will be started to have the seasonal indemnity raised from \$2,500 to \$3,000.

NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapiesin" makes your stomach feel fine in 5 minutes
Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and eructate undigested food; breath foul, tongue coated—just take a little Diapiesin and in five minutes you truly will wonder what became of the indigestion and distress.
Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.
If your stomach doesn't take care of your liberal diet without rebellion; if your food is a damage instead of a help, remember the quickest, surest and most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

DON'T PULL OUT THE GRAY HAIRS

Simple remedy applied a few times restores natural color.

GET A 50 CENT BOTTLE OF WYETH'S SAGE AND SULPHUR AND TRY IT.
"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age; for there are thousands of elderly people with perfect heads of hair without a single streak of gray.
When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair-restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandmothers used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.
Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.
Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair. This preparation is offered to the public at fifty cents a bottle and is recommended and sold by all druggists. Agent, W. H. Griffith.

McMANIGAL STILL ON THE GRILL

Cross-Examination In Defence At Dynamite Trial Continues

SO FAR STORY OF CHIEF PROSECUTION WITNESS HAS NOT BEEN CHANGED.

Indianapolis, Ind., Nov. 27.—Adhering to its argument that the dynamiters who already have confessed alone were responsible for explosions, the defence at the "dynamite conspiracy" trial yesterday continued its cross-examination of Ortie E. McManigal, Senator John W. Kern, chief counsel for the forty-five defendants, pled McManigal with questions intended to show that the dynamite kept as secluded as possible while on his trips of destruction.

"When I went to Boston to see Michael J. Young, the iron workers' business agent, about blowing up the tower in the municipal building in Springfield, Mass., in April, 1911, I was called me down," said McManigal. "He said he had told J. J. McNamara I was not to stop at Boston; that Young didn't want to be seen with me."

"Didn't McNamara tell you to see as few people as possible, and didn't you receive your instructions from McNamara alone?" asked Senator Kern.

"From McNamara and Herbert S. Hockin, once when Hockin instructed me I told him if I was caught we all would be caught."

"But you never got any instructions about jobs to be blown up from anyone except McNamara?"

"I said McNamara and Hockin. Young in Boston talked to me about doing work for the local union, but I told him I worked only for the International."

A Boon to Stock-raisers

To Know How to Cure Colic, Distemper, Colds, Swellings, Etc., Saves Thousands Each Year.

Of Practical Interest to Horsemen

It is a matter of vital importance to every farmer, horse owner and stock-raiser to know exactly what to do when any of his animals is taken suddenly sick.

The letter of Mr. Frank G. Fullerton, who we print below, gives information of inestimable value, and tells of his experience in curing ailing stock during the past thirty-eight years.

Several years ago when my horse took colic I used to give them Cayenne Pepper in hot milk, but in a few cases only did I help, and because I had no proper means at hand I lost several valuable animals. Some one told me of the success Mr. Wendling, of Brookville, Ont., had in his racing stables with "Nerviline," so I had in a supply. It wasn't very long before Nerviline saved the life of a valuable stallion of mine. This horse was taken with colic and would have died had it not been for Nerviline. I have used Nerviline for reducing swellings, for taking out distemper lumps and easing a bad cough, and always found it worked well. I recommend every man who owns horses or cattle to keep Nerviline on hand.

DISFIGURED WITH ERUPTIONS ON FACE

Body Covered With Running Sores. Could Not Sleep from Itching and Pain. Cross and Fretful. Tried Fifty Remedies Without Result. Cured in Nine Days by Cuticura Soap and Ointment.

30 Champsagne St., Montreal, Quebec.—"I have a five-year-old boy who was suffering from what the doctor said was 'a granule.' His body was all covered with running sores. The trouble started with pimples and opened up into sores. Of course scratching made it worse. The eruptions appeared on his face and disfigured him awfully. The boy could not sleep at night from the itching and pain, and I did not know what to do with him. It made him cross and fretful. If I have tried one, I have tried fifty remedies without result. At last I got samples of Cuticura Soap and Ointment, and after using them two days I noticed a change. I then bought a full-sized cake of Cuticura Soap and a box of Cuticura Ointment and I used to give the boy a hot bath daily using Cuticura Soap freely, and then applied the Cuticura Ointment. He had suffered three months with the horrible disease before I started to use the Cuticura Soap and Ointment, and nine days after the boy was cured and has not been troubled since." (Signed) E. Cloutier, Dec. 12, 1911.

Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. A single set is often sufficient. Liberal sample of each mailed free, with 32-p. Skin Book. Address post card Potter Drug & Chem. Corp., Dept. 40D, Boston, U. S. A.

To-night the silent stars are gleaming down upon a lonely grave. Where thou sleepest, darling Arnold. One we loved but could not save. Years may roll on, but the deep load of sorrow never be lifted by time's healing hand. And we long for the dawn of a brighter tomorrow. To meet him who is gone to a far better land.

LATE MRS. CHARLES VEILLEUX.
One of Sherbrooke's oldest residents has just passed away in the person of Madam Marie Sylvestre, relict of the late Chas. Veilleux, who died on Monday evening at the residence of her son, Mr. Henri Veilleux, at the ripe old age of 88 years. The aged lady was sick for about three weeks, having always enjoyed excellent health. She breathed her last while surrounded by the members of the family, after having received the rites of the Church and conscious to the last moment.
The deceased and her late husband were born in the famous old Parish of Ste. Marie, Beauce, the cradle of so many old families of the French-Canadian race. A few years after their marriage they moved to Burlington, Vt., whence they came to Sherbrooke, where Mr. Veilleux died thirty-seven years ago this fall. Mrs. Veilleux was left with a family of eight children, who all survive her with the exception of one, and all made their way successfully in the battle of life. She had been living here for forty-five years and always received the best of care at the home of her son, with his devoted wife, always made life pleasant and sunny for her. She was of a most agreeable disposition and her company a source of pleasure for all who came into contact with her. She was very entertaining in her conversation and could tell many interesting stories and incidents in connection with old times of fifty and seventy-five years ago.
Mrs. Veilleux was the mother of the following children: Charles, of Ludlow, Vt.; Alfred, Laconia, N.H.; Edmond, New Orleans, Louisiana; Madam Biron, New Bedford, Mass.; Madam Pecteau, Laconia, N.H.;

Ladies of the Methodist Church are advised that boxes for the Deaconess Home and the Orphanage will be packed on December 11th. Two boxes will be packed, one for each institution.
A very enjoyable social was given at the home of Mr. and Mrs. Arthur Price, Bridge Street, Tuesday evening, in aid of the E.S.S.C., about sixty members of the club and their friends being present. Progressive euchre was played at eleven tables, Mrs. Gordon winning 1st ladies prize, Mr. A. Dorman, 1st gent's prize, and Mr. E. J. Mills, consolation. Refreshments were served and the remainder of the evening was spent with music and social intercourse. The hostesses were Mrs. Price, Mrs. Hutchinson and Mrs. A. Bartlett.
At the home of her sister in Brooklyn, New York, the marriage took place on Saturday last of Miss Margaret Louisa Jones, formerly a resident of Sherbrooke, to Mr. Allan L. Watson of New York City. The ceremony was performed by the Baptist Minister, the Rev. C. A. Dole, and the bride was given away by her brother-in-law, Mr. George Cheney. She wore a pretty travelling costume of dark green cloth and white felt hat with white wings, and osprey, and black stole and muff. She was unattended while the groom was supported by his brother, Mr. Joseph Watson. After the ceremony Mrs. Cheney served simple refreshments and the young couple left immediately for New York, where they will make their home in the Bronx. The bride received many acceptable and choice gifts.
H. Price Webber—who don't know him—and his excellent Boston Comedy Company, will be the attraction at His Majesty's Theatre next Tuesday night. It is some time now since this ever-refreshing actor has been in Sherbrooke, and the old-time theatre-goers will recall when Price was an established institution as the years rolled by. Time has been kind to Price Webber and he looks as young (and feels younger) as he did some twenty years ago. We know this to be a fact, for he was in town the other day and called around to see a few of the many friends he still numbers in Sherbrooke. This year his company is bigger and better than ever before—and that is saying a whole lot, for it cannot be recalled when he or his company was a disappointment. The company play for one night only, and the bill will be "The Female Detective."

BACHELORS HAD VERY NARROW ESCAPE.
A very interesting debate was held Monday evening in Baptist Church on the subject: "Resolved, that there should be a bachelor tax." Affirmative, A. Dixon and E. Salter; Negative, G. Liddell and F. Rigby. At first it looked as if the poor bachelors would have to pay but the final decision was in their favor.
Ice cream was served at the close of the debate and altogether a very pleasant evening was spent.
These debates will be held by the Baracca Class every two weeks, on Monday at 8 o'clock. The subject for debate on December 9th will be "Resolved, that country life is more conducive to happiness than city life." The leaders will be chosen on Sunday afternoon.

SEARGENT-MAJOR Under General French
VETERAN OF THE BOER WAR WHO LOST HEALTH ON THE VELDT TELLS EXPERIENCE.
Good Advice for All Who Have Indigestion or Stomach Disorders.
In his home at Waldgrove, N.S., no one is better known than Sergt.-Major Cross, late of the 4th Queen's Own Hussars. Speaking of the ill-effects of a campaign upon a man's constitution, the Sergt.-Major writes: "I served under General French during the late Boer war in the capacity of Sergt.-Major. It was perhaps owing to a continued diet of bully beef, hard tack and bad water, but at any rate my stomach entirely gave out. I was in such a state that I could eat nothing without the greatest suffering. The army doctors did not help me much, and since leaving the service I have been very miserable. Some few months ago a friend told me he had been a great sufferer from indigestion until he tried Dr. Hamilton's Pills; they cured him. I confess it was without much faith I bought a box, but the first dose made me feel better than I had been for a long time. Dr. Hamilton's Pills completely cured, and now I can eat everything and anything. I have recommended them to others and in every case the result has been similar to mine."
Quick, sure results attend the use of Dr. Hamilton's Pills. They cure disorders of the stomach, correct indigestion, make you feel uplifted and strengthened. To renew or maintain health, Dr. Hamilton's Pills always prove a good prescription. 25c. per box, five boxes for \$1.00, all dealers or the Catawazoo Co., Buffalo, N.Y., and Kingston, Ont.

ST. PATRICK'S BAZAAR.
A grand bazaar under the auspices of the ladies of St. Patrick's Church opened Monday in the premises recently occupied by Mr. LeBaron, on Wellington Street, and yesterday the hall presented a scene of the greatest gaiety and activity.
The brilliant lights, the bewildering variety of beautiful articles displayed and the novelty of a fancy fair on the busiest street in the city, attracted a crowd, many of whom were purchasers, and from all appearances the function bids fair to be an unprecedented success.
In one large front window the decorations were in pink and green, and on small tables, with bouquets of chrysanthemums, home-made sweets were temptingly arranged in charge of the "Emerald Club." Miss Minnie Mooney, the Secretary, is assisted by Miss Unsworth, Miss Stella Hawkins, Misses Marguerite and Alice Campbell, Miss Saunders, Miss Mulvena, Miss Hawkins.
The other large window is given up to a representation of "Toy Land" and is done in striking crimson and green. Here is a Christmas tree hung with glittering ornaments, and there are dolls, large and small, black and white, baby dolls and lady dolls, to suit every mother's purse and every child's fancy. In addition there are toys, handkerchiefs, and many pretty trifles. Miss McWilliams is the Convener, with Mrs. Richardson, Mrs. Richard, Mrs. Willie McManamy and Mrs. May and Miss Hackett.
The food table, where the delicious cakes, rolls and all sorts of home-made dainties, replenished every day, is presided over by Miss Fannie Mooney, assisted by Mrs. Wm. Murray, Mrs. O'Donnell and Mrs. Branswell. At the household table Mrs. Michael Hawkins, assisted by Mrs. Daigle, Mrs. P. N. Doucet and Miss Lesson, disposed of the thousand and one requirements of the busy housekeeper, the stock being fast depleted, and at the fancy table, gayly adorned in rose and white are embroidered articles, Irish crochet, and dainty Christmas gifts in endless profusion. The joint conveners are Mrs. John Wiggett and Mrs. Fred Griffith, with Miss Griffith, Miss McManamy and Miss Nellie McManamy as assistants.
The Chinese laundry where, for a consideration, various parcels are given out is arranged in true Eastern style, and bins of the Orient, with festoons of bright colors, fans, etc. Mrs. M. Fitzgerald is in charge assisted by Mrs. Workman.
The tombola, with its very handsome prizes, is looked after by Mrs. Louis Belanger, Mrs. Waite and Mrs. L. E. Chamberlain, and the tea room at the rear of the hall, where tea is served every afternoon is also carried on by these ladies assisted by Mrs. J. A. Darche, Miss Rose Griffith, Miss Maguire, Miss McCafferty and others.
Yesterday, in addition to the other visitors, the senior pupils of Mont Notre Dame came in relays with two of the Sisters and greatly enjoyed the little change from sober daily routine of convent life. In the afternoon a bridge party was arranged, five tables being filled. The prizes presented by Mrs. L. A. Belanger were won by Mrs. Eugene Oliver and Miss McManamy of Quebec, tea being served at the close of the game.

SYRUP OF FIGS IS BEST FOR A CHILD

leases Its Little Stomach and Liver, and Makes It Feel Happy Again.

Mother, look at the tongue! See if it is coated. If your child is listless, drooping, isn't sleeping well, is restless, doesn't eat heartily or is cross, irritable, out of sorts with everything, stomach sour, feverish, breath bad; has stomach-ache, diarrhoea, sore throat, or is full of cold, it means the little one's stomach, liver and bowels are filled with poisons and need a gentle, thorough cleansing at once.

Give a teaspoonful of Syrup of Figs, and in a few hours the poisons will gently move on and out of its little bowels without nausea, griping or weakness, and you will surely have a well and smiling child shortly. With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious taste.

Mothers should always keep Syrup of Figs handy. It is the only regulator needed—a little given to-day will save a sick child to-morrow. Full directions for children of all ages and for grown-ups plainly printed on the package. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.

"The Man on the Box" was skillfully handled and beautifully staged by the Nellie Gill Stock Co., and deserved a far better audience. This company is putting on some of the very best metropolitan plays, and in such a manner that entitles them to the support of the public, and it is hoped that crowded houses will be the rule for the balance of the engagement in this city. Miss Gill, who is the possessor of a beautiful voice, sang very acceptably, and will be heard at each performance hereafter. Several specialties will be introduced, and at the close of the play the play for this evening is "May Blossoms."

FINANCIAL AND MARKET NEWS

DAIRY PRODUCE

BUTTER MARKET UNCHANGED.

Montreal, Nov. 27.—There was no actual change in the condition of the butter market, prices being firmly maintained under a good demand and sales of carload lots of finest creamery were made at 30c and fine at 29c. The movement on the whole is fairly large and the general impression is that stocks in store will be reduced, and higher prices are expected later on.

We quote prices as follows: Finest creamery, 30c to 30c; fine creamery, 29c to 30c; seconds, 28c to 29c; dairy butter, 26c to 26c.

CHEESE MARKET STRONGER.

Montreal, Nov. 27.—Receipts of cheese were 2,724 boxes, as against 2,963 for the same date a year ago. The Liverpool public cable was stronger and noted an advance in price of 6d, with finest white quoted at 63c 6d, and colored at 61c 6d. There was an increased demand from English buyers for the tail-end of the season's make. In fact, there were more orders in the market than could be filled, as supplies of such are now somewhat limited. However, as the prices bid were satisfactory to exporters, some sales were made, including one or two lines of September goods at 12c to 13c. As to the stock of cheese now held in Canada, it is estimated at 105,000 to 110,000 boxes in Montreal and 35,000 to 40,000 boxes in the West, making a total of 140,000 to 150,000 boxes, and of the stock in the West not more than 15,000 to 20,000 boxes will go for export account, as the balance will be required for home consumption. The exports for the week show a decrease of 22,974 boxes compared with the previous week, and a decrease of 11,336 with the same week last year. The total exports for the season to date show a decrease of 87,993 boxes as compared with the corresponding period a year ago.

We quote prices for current receipts: Finest western colored, 12c to 12c; finest western white, 12c to 12c; finest Townships, 12c to 12c; finest Quebec, 11c to 12c.

PROVISION MARKET.

DRESSED HOGS STEADY.

Montreal, Nov. 27.—A stronger feeling developed in the market for live hogs and prices advanced 25c per 100 lbs. as compared with the prices paid last week, which was due to the higher prices ruling in the Toronto market at the latter end of last week, and the good demand from packers here for supplies, consequently an active trade was done in selected lots at \$9.00 per 100 lbs. weighed off cars. There was no change in prices for dressed stock, but the undertone to the market was strong with a good demand for small lots, and sales of abattoir fresh-killed were made at \$12.25 to \$12.50 per 100 lbs. The trade in smoked and cured meats was fair, while the demand for lard is increasing and prices generally are unchanged.

COUNTY PRODUCE.

EGG PRICES ARE STEADY.

Montreal, Nov. 27.—Receipts of eggs were 246 cases, as compared with 1,099 for the corresponding date last year. Owing to the continued good demand for local consumption and the number of orders coming in from outside sources for supplies, coupled with the falling off in the receipts, a stronger feeling prevails in the market, but prices as yet show no actual change.

We quote prices as follows: Selected stock in round lots, 30c to 30c; selected stock in single cases, 30c to 31c; No. 1 cold-storage stock in round lots, 27c to 28c; straight receipts in round lots, 27c; straight receipts in single cases, 27c; second grades in round lots, 21c; second grades in single cases, 22c.

POULTRY IN DEMAND.

Montreal, Nov. 27.—There were no new developments in the market for dressed poultry, prices being well maintained under a good demand for most fowls, and now that the weather has turned colder supplies will, no doubt, increase, and a more active trade will be done.

We quote prices in wholesale lots as follows: Turkeys, per lb., 15c to 15c; ducks, per lb., 15c to 15c; chickens, per lb., 14c to 16c; fowls, per lb., 19c to 12c; geese, per lb., 12c to 14c.

HONEY BUSINESS FAIR.

Montreal, Nov. 27.—There was no change in the condition of the market for honey, prices being steady with a moderate amount of business done.

We quote: Clover white honey, 16c

LIQUOR CASES AT THEFTORD MINES

Charge Against Geo. Audet by Corporation was Withdrawn.

MOISE CHOQUET COMMITTED TO STAND TRIAL AT KING'S BENCH FOR PERJURY.

Theftord Mines, Nov. 27.—(Special)—Judge Corrivau of Quebec held a term of the Court here and disposed of several cases. The case of the Corporation of Theftord Mines vs. George Audet on a charge of illicit sale of intoxicating liquors was called. Mr. Sam Deschamps, K.C., attorney for the City of Theftord Mines, withdrew this action, the defendant having been compelled to pay a fine for this offence at Arthabaska in the instance of the Collector of Provincial Revenue for the district of Arthabaska.

Eustache Pare of Theftord Mines pleaded guilty to a charge of illicit sale of liquors at Theftord Mines and was committed to jail for three months in jail. The fine and costs were paid.

PERJURY CHARGE.

The case of Omer Roy vs. Moise Choque on a charge of perjury which had been continued from the last term of the Court was called. The perjury is alleged to have been committed in the case of the Corporation of Theftord Mines vs. Moise Choque for illicit sale of liquors held before Judge Mulvren on the 23rd September, 1912, in which case the defendant was ordered to pay a fine of \$100 and costs or three months in jail for a second offence under the license law. The defendant swore to the effect that he had not sold a drop of liquor to anyone since his last conviction in August, 1912. After hearing the evidence the Court condemned the accused to take his trial at the next term of the Court of King's Bench at Arthabaska on a charge of perjury. He was released on bail, himself in the sum of six hundred dollars, with one surety of the same amount.

POTATO MARKET FIRM.

Montreal, Nov. 27.—The tone of the market for potatoes is firm under a continued good demand for choice stock. We quote: Green Mountains, in car lots, at 80c to 85c, and Quebec grades at 70c to 80c per bag, and in a jobbing way Green Mountains are selling at \$1 per bag.

DAILY STOCK LETTER.

The foreign news in the newspapers this morning was much better, but late despatches which War correspondents read on coming down town were again of alarmist kind. The result was negative on our market which opened dull and steady. It sold off a little after the first transactions, but there was no liquidation and prices have held steady at a very near the closing level ever since. Trading remained entirely professional and a few specialists were the only features. United States Rubber was the most active and its strength surpassed that of any other stock. The advance was accompanied by reports of an increase in the dividend during the coming year. Call money remained at 6 per cent, which was considered favorable, as this was 2 p. lower than yesterday's renewals, but this factor was somewhat offset by the announcement of a small gold engagement for Canada. Sales to noon \$9,000,000. Bonds \$670,000. General Electric around the noon hour ran up to 185 with no news accompanying the movement. Can. Pac. was almost entirely neglected after the first few minutes.

ALLEGED THAT DEFENDANT'S EMPLOYEES STARTED FIRE IN TOWNSHIP OF SPAULDING.

Mr. C. D. White, advocate, received word yesterday from St. Joseph, Beauce, to the effect that the action of Pierre Charpentier, of Lake Mégantic, against Mr. T. M. Craig, of this city, had been dismissed with costs. The plaintiff alleged by his action that employees of the defendant had set fire to some "slash" and that the fire had destroyed some 900 cords of pulpwood belonging to the defendant in the Township of Spaulding. The fire was alleged to have taken place in the month of September, 1908, and the action was not brought until November, 1910. The Court held that the right of action was prescribed, and dismissed the case with costs.

**METHODIST CHURCH
AT WATERLOO**

Anniversary Services were well Attended and a Great Success.

REV. W. S. LENNON, GRANBY, WAS THE PREACHER AND ALSO GAVE ADDRESS AT CONCERT.

Waterloo, Nov. 27.—(Special)—The anniversary services of the Methodist Church here were a decided success. On Sunday morning the Rev. W. S. Lennon preached a remarkable sermon on the doctrine of "Perfect Love or Christian Perfection," taking as his text the 8th verse of the 40th Psalm. Introducing his subject by showing how the greatness of some men and some things could only be realized by contrasting them with ordinary men and ordinary things, in this way he showed that David was the towering figure of his day. The reverend gentleman traced the struggle of the soul after purity, showing how these souls struggle. Like the tides upon the sea shore left its marks upon the sands in deposits of sea weeds and sea shells, leaves its mark upon the human life by throwing off evil habits, and how if these struggles are persisted in, purity and truth become habitual and it becomes easier for a man to do right than wrong, this making the high water mark of Christian perfection.

In the evening Mr. Lennon delighted a large congregation with a sermon from Romans I, 15th and 16th verses. The preacher drew a dark picture of the religious, political and social life of the city of Rome, showing that the people were always on the lookout for some new thing, and that at this time the city was exploited by the Greek philosophers for their own gain, and so Paul was ready to take the truths of Christ's gospel and dovetail them with the philosophical beliefs of the people, and showing that the preacher of to-day who did not take the old truths of the gospel and dovetail them into the philosophical beliefs of the twentieth century, was not keeping abreast of the times. The secret of Paul's readiness to preach the gospel in Rome was that it was no human philosophy but a message from God, and the power of God dovetailing that message into the heart of man, a gospel justified by his own experience.

The singing by the choir was exceptionally fine at both services, and the congregation dispersed feeling that a profitable day had been spent.

On Monday evening the annual chicken pie supper was served in the lecture room of the church to a large company. After doing justice to the bountiful supply of good things provided by the ladies, the audience adjourned to the body of the church, where they listened with delight to selections by the choir and addresses by speakers from a distance. Rev. E. W. S. Coates performed the duties of chairman.

The Rev. Martin Gibb, of South Stukely, gave an interesting address in his own inimitable style, bringing down the house by his apt and humorous anecdotes.

The chairman then introduced the speaker of the evening, the Rev. W. S. Lennon, chairman of Waterloo District, who lectured in a very able manner on "The Drawing Church." Among other things he said he wished to make a distinction between a drawing church and a drawing minister. The popular idea of a drawing minister was a man who could draw the crowds to the church and swell the receipts. Many congregations' idea of a drawing minister was, 1st, a good looking man, a man of striking personality; 2nd, a good preacher, one who could charm and sway the congregation by the magic of his tongue; 3rd, a man of good social qualities, a man of broad sympathies, a clever financier, a man who can gather up the broken threads of years of official neglect and carelessness, and by the magic of his wit put the church on a firm financial basis.

This, said the speaker, was what many a church understood by a drawing minister. But, said the speaker, while this was the idea from the view point of the congregation, there was a view point of the minister: 1st, a good looking church, a church architecturally and ornamentally beautiful. He said many a church was allowed to get into such a disreputable condition that it was like a wet blanket thrown over a minister. While a comfortable, beautiful, well appointed church was an inspiration to the preacher. 2nd, the church that pays the largest salary, possibly not the largest, but the largest it can afford. Most ministers would rather go to the church that paid all it could, than the church that paid a larger salary but could afford to pay a good deal more. 3rd, a church that is not afraid to express its appreciation of its minister. Many a minister was discouraged and handicapped and not at his best, for the lack of appreciation; and, finally, a church with a pure church ideal, a church which is looking for a man who will do his God-given work, rather than a social leader.

He said a drawing church does not expect its pastor to be a jack of all trades but an executive officer with his own distinctive work, a co-operative church, each member doing his own work. Now, said the speaker, if the Waterloo church is that kind of a church, when the time comes that you will be looking for another pastor to succeed the present one, you will find half a dozen good men saying "Here am I, send me."

After being assured by the pastor that the Waterloo church was just that kind of a church, the congregation was dismissed, with the benediction by Rev. W. S. Lennon.

**CHAT WITH MINISTER
RE. E.T. IMMIGRATION**

Hon. Mr Devlin Expresses Appreciation of E.T. Opportunities.

PLANS FOR WINTER'S CAMPAIGN ALMOST COMPLETED—AGENT-LECTURER APPOINTMENT IMMEDIATELY.

Quebec, Nov. 27.—(Special correspondence)—Although the Eastern Townships have absorbed a certain proportion of the immigrants coming into Canada during the year ending July 30th, 1912, the fact remains that the magnificent tract of country embraced in that title still offers a very extensive field for the settlement of great numbers of those who are now leaving Great Britain in such numbers, owing to the agricultural depression and other causes. And it assuredly will become such when it is more generally known as it presents especial and unequalled attractions for the agricultural class generally, known as tenant farmers. To men of this kind, with families, accustomed to the work on an English farm, the change from the Old Country to the New would be but slight. And the tenant-farmer disposing of his stock in England would probably have cattle enough at his disposal to make a good start with the prospect of paying off the cost of his new farm in a comparatively short time. It is true that the agricultural holdings of the Townships are not generally for sale, yet there is good reason for the efforts now being made to encourage immigration into the famous "Garden of the Province."

HON. MR. DEVLIN INTERESTED.

That the Government is fully alive to the importance of the project and is making every effort to promote its advancement is a fact which will cause general satisfaction. A visit to the Department of Colonization, Mines and Fisheries, and a conversation with the Hon. C. R. Devlin, brought out the fact that he is at present actively engaged in working out the plans for this year's campaign in the Old Country in behalf of Eastern Townships immigration. The Government's pamphlet has already been issued describing the geography and resources of the Townships. Generally, it may be said that the Department is aware that the interests of the railways with the "longest distances" have caused them to promote Western settlement by all the means in their power and to neglect the fertile country which lies at the very gateway of Canada. The "Great West" has been so much exploited that it is a matter of very frequent occurrence for the Department to receive reports of people arriving on the steamers at our great St. Lawrence ports, who had never even heard of "the Townships," and no wonder, for in the past, for some years, the bulk of the Federal Government's advertising, as well as railway, has been concentrated on the West. Now that settlement in the West has been so heavy there must sooner or later come a reaction, and the Provincial Minister is well aware that the Eastern Townships present unequalled opportunities and attractions for British farmers, who may possess enough of money to enable them to avail themselves of what is offered. And this more especially as the fact is shown on the tenant-farmer in the old land that the prospects, under existing conditions, of bettering his condition are becoming less as the years go on.

Now, as the Minister points out, while as a general rule agricultural lands in the Townships are not for sale, agriculture being too profitable an undertaking, still inevitable changes open up many opportunities for newcomers. There are those who have realized a competency; some have no children to take their places; some have children who have chosen to frequently unwisely, some other walk in life; some are of an adventurous spirit and prefer to seek "fresh woods and pastures new." All these represent holders of farms ready to sell. And, as these farms are ready-made, without the necessity of the settler hewing his home out of the forest primeval, with buildings and stock for prices to be agreed on, it is needless to enlarge on the attraction they should offer to the English emigrant. And they can be bought for two or three years' rental as now paid across the sea, and offer the newcomer exactly the same mixed farming the Britishers, north and south, have been accustomed to. The pasturage offered is unequalled, and the establishment of our cheese and butter factories afford a great saving of labor both on farm and dairy and these cannot but prove to be a new and progressive experience to the immigrants. And as this kind of dairying yields constant cash returns, it is hardly necessary to say these offer another encouragement to settlement. Then the educational facilities, religious and secular, are already waiting the newcomers and the isolation, which is so trying to settlers in new territories is wholly absent, and the labor of breaking up new land, as in the West, is not required.

While the Department of Hon. Mr. Devlin is sensible to the opportunities thus presented to farmers for settling it is equally alive to the fact that the Townships afford a field of immigration in many other respects. It is aware that farm labor is very badly needed and is moving actively in the effort to bring it in. Domestic servants are, as is well known, greatly needed by the "busy housewives" of the Province, and heads of households will be glad to learn that special encouragement is to be given by the Department to the immigration of a suitable class of women.

Capital can, with much advantage to the investors, be brought in, as the opportunities for manufacturing, with the aid of the splendid water-powers available, are very extensive. The mineral wealth also calls for development, iron, copper, asbestos,

**FIRE CAUSE OF ALARM
AT LAWRENCEVILLE**

Several Houses in Village in Danger When Barn Was Burned.

HARD WORK OF BUCKET BRIGADE WAS MEANS OF SAVING SERIOUS CONFLAGRATION.

Lawrenceville, Nov. 27.—(Special)—The citizens of this little burg were startled by the cry of fire on Monday evening. The barn belonging to Mr. Louis Gervais situated in the village was found to be on fire, caused by the explosion of a lantern in the stable.

The neighbors turned out immediately and directed their efforts in saving the dwelling house belonging to Mr. Gervais, which stood close by. A bucket brigade was formed and a good supply of water was secured from a nearby well. The barn belonging to a similar way. Fortunately there was little wind and the roofs of the buildings being covered with snow was also a factor in keeping down a disastrous conflagration.

A horse, cow, pig and waggon were saved but the hay and grain was destroyed.

Mr. Gervais seems to be very unfortunate as this is the second time he has been burned out in a few years the former occasion being when fire nearly swept out the village.

Although the roads were very bad a large number of farmers from the surrounding village drove into the village to render assistance.

HEADACHE!**

Yes you can, with a box of ZUTOO Tablets in your pocket or home. Taken when you feel a headache coming on, one little tablet will ward it off—nip it in the bud. Taken later it will cure the headache in twenty minutes.

Why then continue to suffer when a box of ZUTOO will make you headache proof. You would be surprised to know how many people, who never before used a headache remedy, are now using ZUTOO Tablets. Why not you?

Do not put off till Spring what could be done this Fall.
