

THE REQUEST MADE BY PRESIDENT WILSON IS TURNED DOWN BY THE FOREIGN RELATIONS COMMITTEE

Told that No Power Exists to Appoint a Representative on International Reparations Commission Until the Peace Treaty Is Approved.—Fear Expressed that Reparations Commission Might Effect Acts of War Against Germany.

WASHINGTON, July 23.—An emphatic negative was returned by the Senate Foreign Relations Committee yesterday to President Wilson's request that it approve provisional appointment of an American representative on the international reparations commission without awaiting ratification of the peace treaty.

While the President was renewing his talks with Republican Senators at the White House and the Senate was beginning another day of speech-making on the treaty, the committee adopted a resolution declaring that "no power exists" to execute provisions of the treaty in advance of its ratification. This was interpreted as not only refusing assent to the appointment, but as declaring that the President would exceed his authority should he act independently.

What the President might do in view of the committee's action had not been revealed last night, but most of his advisers predicted that there would be no appointment for the present. In making his request, the President had declared it essential to American business interests that the nation be represented on the commission, which will have charge of the entire reparation programme to be demanded of Germany.

The resolution was presented by Senator Knox, Republican, Pennsylvania, and was substituted by an eight to seven vote for another expressing no opinion as to the President's power to act.

STUDY OF TREATY WILL REFUTE THE LEAGUE

Later, in the Senate, Senator Moses of New Hampshire, a Republican member of the committee, pointed out during an address opposing the treaty that the reparations commission would continue until 1921 and would exercise drastic powers. In that connection, Chairman Lodge, suggested that its powers might extend to effecting acts of war against Germany, but which Germany agreed beforehand should not be so considered.

Senator Moses declared a study of the treaty would entirely refute the claim that the League of Nations is indispensable to carry out the pacification of Europe, most of the responsibility having been lodged rather in the Big Four Powers.

In a speech supporting the League, Senator McNary, Republican, Oregon, said he would oppose amendments which would send the covenant back for renegotiation, though he could see no objection to explanatory reservations designed to clarify its provisions. He suggested that Article 10 must be retained as "the pillar of the League."

RAIN CAUSES HEAVY LOSSES TO WHEAT CROP

Loss in Maryland is Estimated at Over Half a Million Dollars.

BALTIMORE Md., July 23.—Near by two weeks of heavy rains all over Maryland have caused enormous losses to wheat, vegetables and fruits. In the tomato growing counties, the losses to the packers and growers will amount to over half a million dollars. The tobacco growers in the southern counties have also lost heavily. In the peach belts on the eastern shore of the Chesapeake Bay, and in the orchards in the western section, the fruit is rotting. In some of the lowlands the potatoes and other garden truck have been washed out of the ground.

WAS JUSTIFIED IN ACTION COLLINGWOOD, Ont., July 23.—That Amos Sherrick, the farmer who shot and killed John Mooney in a pig sty on the Sherrick farm early last Wednesday morning, and died a few hours afterward from shock, was justified in his action was the decision of a coroners jury here last night.

THE SOCIALISTS' MEETINGS ENDED IN DISORDERS

Ten Were Shot When Communists and Spartacists Broke Up Majority Socialist Meeting.

(Associated Press Despatch) BERLIN, July 23.—Ten persons were shot during disorders which attended the breaking up of a Majority Socialist meeting by Communists and Spartacists here yesterday. Those attending the meeting, which was held in the Trades Union Building, attempted to lynch the man who fired the shot, but he was saved by hospital helpers who were in the building.

Several Majority Socialist meetings held late yesterday did not develop as smoothly and quietly as they began. Communists and Spartacists by a pre-arrangement plan managed to smuggle fellow Radicals into the halls, where the Majority Socialists were congregated and there broke up the meetings by cat calls and other noises, and even by violence. At countless meetings the Majority Socialist speakers gave up attempting to speak after half an hour of shouting, and in the Trades Union Building, where the biggest meeting was held, chairs, beer bottles, glasses and even tables were flung about in an unsuccessful attempt to break up the gathering.

Government troops had to quell noisy riots in other halls. The Berlin Press is indignant at the uproar.

CLEMENCEAU IS GIVEN A VOTE OF CONFIDENCE

Premier Emerged from the Conflicts Stronger than the Test Vote Showed.

(Associated Press Despatch) PARIS, July 23.—(Havas).—Premier Clemenceau, who won for his cabinet a vote of confidence late yesterday in the Chamber of Deputies, emerged from the conflicts stronger than the test vote showed.

The final vote of confidence on a resolution by Deputy Surcouf, approving the Government's declaration of policy, showed confidence in the Government by 289 to 176, a majority of 113. The first vote, which was on a demand for priority for the resolution of Deputy Chaumet, gave the Premier a majority of 91, the resolution being defeated 272 to 181. M. Chaumet's resolution, for which priority was asked, was on the issue of living. Priority for it was sought over a resolution of Deputy Augagneur, which was adopted last Friday by a majority of 14, the Government being in the minority.

It was the Augagneur resolution that resulted in the resignation of M. Boret, the former food minister, now replaced by Joseph J. B. E. Noulens.

ELECTION EXPECTED SHORTLY The renewal of the Clemenceau Government lease of life by the vote of confidence in the Chamber of Deputies yesterday has been followed quickly by tangible evidence of the Government's intention to arrange for the holding of elections as early as possible.

This evidence comes in the form of a bill introduced in the Chamber reducing the number of parliamentary districts in the department of the Seine, palpably in anticipation of parliamentary elections. Some of the Radical leaders, including former Premier Combes, are starting a movement to re-establish for the elections a coalition of the left and extreme left, comprising the radicals, the radical socialists and the socialists.

OFFER OF PEACE TO RUMANIANS BY BOLSHEVISTS

Nikolai Lenine Trying to Stave Off Attacks by Admiral Kolchak's Troops.

(Canadian Press Despatch) LONDON, July 23.—A Bolshevik delegation has arrived at Kishineff, with an offer of peace to the commander of the Rumanian frontier troops on behalf of Nikolai Lenine, the Bolshevik Premier, according to a Berlin Government wireless despatch.

Lenine offers to cede Bessarabia to Rumania on condition that Rumania shall prohibit Ukrainian citizens and bands of Admiral Kolchak, head of the all-Russian Government at Omsk, from crossing the Rumanian frontier.

An armistice to last eight days has been concluded on the Bessarabian front, and the delegation has gone to Rumanian headquarters. EX-EMPEROR HAS RECOVERED (Associated Press Despatch) AMERONGEN, July 23.—The former German Emperor has entirely recovered from his recent indisposition and has begun to resume his ordinary monotonous daily occupations. The former German Emperor is also well.

GERMAN PRISONERS IN CANADA BEING SENT BACK HOME

(Associated Press Despatch)

AMHERST, N.S., July 23. Upwards of five hundred German Prisoners left the internment camp here yesterday under guard for Quebec, where they will board a transport for Germany. The Germans were brought to Amherst in 1915, and composed for the most part the crews of the Kaiser Wilhelm der Grosse and other German ships. Between three and four hundred prisoners remain in the internment camp, including the Austrian, Turk and Bulgarian captives.

RESIDENCE WAS ROBBED WHILE OCCUPANTS OUT

House of Mr. Norrey Bishop on Mount Pleasant Street Entered by Burglars.

That there are still house-breakers at work in Sherbrooke was evidenced by the robbery of the residence of Mr. Norrey Bishop, 10 Mount Pleasant Street, on which the police are now working.

The house was entered while the family were out, the cellar window having been found broken, and it is presumed that the thieves entered that way.

Not touching a quantity of silver, the robbers evidently went after money and jewelry. The gold rings and a watch chain, as well as a small quantity of cash, were missed.

The theft was reported to Lieut. Smith, of No. 3 station, and the local department is working on the case.

PROPOSAL FOR SOLDIERS' MEMORIAL IN SHERBROOKE

Sherbrooke Patriotic Association Submits Plan for Consideration and Discussion.—Worthington Property Available.—Memorial Hall and Soldiers' Club Suggested.

THERE has already been considerable discussion in Sherbrooke with regard to a permanent memorial to the men who have fallen in battle. The feeling seems to be that this should take some form that would serve a useful purpose for the men who have returned.

The Sherbrooke Patriotic Association, which has been responsible for the Khaki Club undertaking, is asking public consideration of a plan for developing in this connection a permanent memorial.

A SHERBROOKE MEMORIAL. At a meeting of the Association a few days ago, Mrs. Bowen, the president, submitted the following statement:

"It is a cause for satisfaction, that, through the assistance furnished by the public, the Sherbrooke Patriotic Association has been able to deal adequately with the problem of meeting, welcoming and entertaining the returning soldiers, by means of the Khaki Club.

"It has discharged this duty not only to the Eastern Townships men, but to all soldiers, sailors and aviators passing through the city to the West and to the United States. It was felt that it was a privilege to serve the men whose whole-hearted devotion had saved humanity.

"The time is approaching when practically all of the Canadian Expeditionary Force will have reached home once more—the end of August should see this accomplished. Now that this phase of the work has been met—the welcoming of the returning men—a changed condition confronts us to which attention is called in a report from the House Committee of the Khaki Club which is appended:

"The debt of gratitude we owe to our soldiers is heavy upon the hearts of those who realize in any measure what these lads have undergone. Many will never be the same again. All will feel throughout their future life the strain of these awful years. Sherbrooke will desire, in common with all Canada, to establish a Memorial that will not only commemorate the gallant dead but also assist and comfort the men still living. Now is the time when such a Memorial could be most fittingly established—while the men who fought are still alive to receive its benefits and those who watched with breathless dread and hope from day to day that changing fight in Europe, on the result of which everything depended, are here to see the work inaugurated and the debt of honor in a measure discharged.

"It is thought desirable that this matter should be placed before the public, as the Sherbrooke Patriotic Association does not feel that it is in a position to keep the Khaki Club open as a Home for returned men, or that it would be advisable under present conditions to lease the Worthington property for the winter months for this purpose as funds are not available.

The Sherbrooke Patriotic Association has acted as the agent of the public in the Khaki work, has accepted the responsibility willingly, discharged it to the best of its ability, but, it has come to the parting of the ways and the changed conditions have now to be laid before the public, as, if this work is to continue, it must be completely reorganized with a larger scope and with a permanent foundation and be in the hands of a strong and representative committee.

If the public desires that a Memorial should take this form it is a matter for the consideration of the men of the community and it is for them to act.

WOMEN'S BILL GIVEN SECOND READING

LONDON, July 23.—The House of Lords yesterday passed the second reading of a bill introduced by the Lord Chancellor endorsing women to hold public offices and exercise public functions.

Copy of Letter Received From Mrs. H. A. Fraser, Convenor House Committee of the Khaki Club to the President and Directors of the Sherbrooke Patriotic Association, Dated July 16th, 1919.

"At a meeting of the House Committee of the Khaki Club held on the 14th July, it was unanimously decided that the work for which this Committee had been formed was very nearly completed, and in view of the fact that our lease of 66 Dufferin Avenue, for six months will soon expire, and as notice will have to be given to our land-lady at least a month prior to our vacating the property, it was thought best to bring the matter to the attention of the Directors of the S. P. A. and advise them that if any action is to be taken in regard to an extended lease, or the property being bought for a Soldiers' Home or Memorial Hall, the question should immediately be brought to the notice of the public through the press, and if thought advisable a circular letter sent to the Sherbrooke Board of Trade, the Finance Committee of the Canadian Patriotic Fund, or any other patriotic organizations or individuals that may be suggested, stating that we are about to cancel our lease unless some action is taken whereby Sherbrooke and the Townships wish to perpetuate the Khaki Club as a Soldiers' Memorial in Sherbrooke, or, in the event of the Sherbrooke Patriotic Association deciding to continue its good work in managing the said 'Home' or 'Hostel,' the work would have to be reorganized, as of course the new undertaking would necessarily require management on entirely different lines.

"I might mention in closing that there is money enough to the credit of the Khaki Club to continue the work as heretofore until the expiry of our six months' lease.

"We would ask for a definite answer not later than August 1st next as to whether we are to renew the lease for another six months, or give notice of our intention to leave."

Mrs. Allen, acting secretary, in forwarding the above to the Record, adds: "Although the Canadian Expeditionary Force will have returned to Canada by the end of August, yet our duty to the soldiers and the necessity for assisting them, will not end with that date.

"The time is opportune for considering the form that a Sherbrooke Memorial of the Great War would take. If a plan which would materially aid the returned men could be combined with a Memorial, such as a Soldiers' Home, it would appear advisable."

The Record will be glad to open its columns for a discussion of the question of Soldiers' Memorial in Sherbrooke and in other centres of the Eastern Townships.

DOCKERS' STRIKE AT LIVERPOOL FORCES STEAMERS TO CANCEL OR TO POSTPONE THEIR SAILINGS

Steamer Scotian, Which Should Have Left for Montreal Yesterday, Was Unable to Leave Port.—Adriatic and Orduna Likely To Be Held Up.—No Apparent Prospects Today of Any Speedy Settlement of the Difficulty.

(Associated Press Despatch) LIVERPOOL, July 23.—The strike among the dockers, which broke out here early this week, has resulted in bringing about chaos in the arrangements for handling more than two hundred ships at this port, their sailings being cancelled or indefinitely postponed. The steamer Scotian with two thousand passengers, was ready to sail for Montreal yesterday, but was unable to leave. The Adriatic, due to leave on Thursday for New York and the Orduna, scheduled to sail for New York on Saturday, have their sailings indefinitely postponed. It seems unlikely that these two liners will be able to leave on time, and perhaps not until the strike is settled.

There were no apparent prospects today of any speedy settlement of the difficulty.

CLAIM ATTEMPT BEING MADE BY EMPLOYERS AND WINNIPEG CITY TO STAMP OUT TRADE UNIONISM

(Associated Press Despatch) WINNIPEG, July 23.—That by means of the alleged discrimination which is being shown in the reinstatement of the men who have been on strike, a serious blow is being struck at trades unionism, was the principal feature of the evidence given at both morning and afternoon sessions of the Robson Commission of inquiry into the causes and effects of the Winnipeg strike in the Legislative Chamber today.

The evidence took the form of statements, in the main, although considerable cross-examination was made by C. P. Wilson, K.C., acting under instructions from the Attorney General of Manitoba to assist in drawing out the facts for the Robson probe.

Ernest Robinson, Secretary of the Winnipeg Trades and Labor Council, offered to produce a list of names of individuals who had been strikers and who had been discriminated against. He claimed that an attempt was being made by employers, and the city of Winnipeg, to stamp out trades unionism.

A. F. Landry, of Ottawa, organizer for the Canadian Brotherhood of Railway employees, made a statement in which he set forth the reasons for the strike. He said that the working class could not get sufficient wages for the necessities of life; the Government refused to take action; the employers refused to allow the employees to bargain with them collectively, and that in consequence a general strike was the only alternative left.

A ballot form, such as was used in taking the strike vote was produced and was shown by Mr. Wilson to contain a notice entirely at variance with the constitution of the Winnipeg Trades and Labor Council. This was a notice stating that the votes of all the unions would be pooled and the total majority for and against the declaring of a strike would be the authority for the Council. If the vote was in favor of a strike, it followed that they would pull all the unions out, irrespective of whether a particular union had voted against the strike or not. The constitution of the Council stated that in the matter of declaring a strike each individual union had to decide the question for itself.

The Trades and Labor Council, according to the evidence of Ernest Robinson, could only act in an advisory capacity and not in a mandatory way.

GENERAL STRIKE IN PARIS DOOMED TO FAILURE.

(Associated Press Despatch) PARIS, July 23.—The meeting of the National Committee of the Federation of Labor, which ended late last night, brought out statements strike which had been proposed for July 21, but which was called off before that date, was abandoned because it was doomed in advance to failure.

The Trades and Labor Council, according to the evidence of Ernest Robinson, could only act in an advisory capacity and not in a mandatory way.

WELSH MINERS NOT TO JOIN THE STRIKERS.

LONDON, July 23.—The most hopeful feature of the coal strike situation today was the decision of the Welsh Miners at a conference at Cardiff, not to join the Yorkshire movement. There was no great accession of strength to the strike movement today. The men on strike total about 275,000 Yorkshire, Derbyshire, Nottingham and Montmouth being the counties mainly affected.

RAILWAYMEN OUT ON STRIKE IN JAMAICA.

(Associated Press Despatch) KINGSTON, J.A., July 23.—The entire locomotive staff of the Jamaica Government Railway numbering five hundred, went on strike today. The men are demanding an increase of thirty-three and a third per cent. in wages and other concessions. A conference between the leaders of the men and the director of the railway will be held tomorrow in an endeavor to settle the controversy.

COOKSHIRE

CHATAUQUA PROVED MOST SUCCESSFUL

The Community Chataqua, which took place in Cookshire during the past week, was a great success. Ideal weather during the five days brought the townfolk out in large numbers in addition to all the surrounding towns and villages, which were exceedingly well represented. All the concerts and lectures took place in a Big Brown Tent erected on the County Grounds, where there was an ice-cream booth and a good business was done in this line during the week.

The Chataqua opened on Monday evening with a fancy dress parade of the Junior Chataqua, in which all the children of the town participated. Four season tickets for the juniors were hidden on the county grounds and the three lucky winners were all young girls; Misses Dorothy Maskell, Cora Laing and Winnifred Drennon. The fourth ticket was not found.

Friday was really children's day, consequently the subjects and performances were suitably chosen. In the afternoon and evening, Carolyn Reed and the Juvenile Four, viz: the famous Swenson twins, Ruby and Ruth, Fern Upton, soprano and Kobi the youthful violinist, gave musical features and child dances in costume and these numbers were greatly appreciated and applauded. During the afternoon, congressman Louis W. Fairchild, addressed the assembly on "Our Heritage, How to Preserve it."

The afternoon's programme on Peace Day was fittingly ushered in by a Victory Parade by the members of the Junior Chataqua, for which the children had been rehearsing the entire week.

The members of the committee are so pleased with the attendance and popularity of these concerts and lectures that they are now endeavouring to secure sufficient signatures for the guarantee contract for the 1920 season of the Community Chataqua for Cookshire.

LAWN PARTY HELD

The lawn party held at Lakeview Farm, the residence of Mr. and Mrs. A. P. Hillhouse, on Saturday night, last, was one of the most successful in the history of the parish. The beautiful grounds overlooking Bond Lake, were tastefully decorated by the young ladies with flags, Chinese lanterns and evergreens.

At about seven o'clock a heavy downpour of rain started, which partly discouraged those responsible for the success of the occasion. The rain, however, lasted only an hour, after which clouds began to arrive from far and near, and to do justice to the delicious home-made ice-cream, cake and coffee served by those in charge and to listen to a delightful program.

The different items were so well rendered that it was hard to determine which was worthy of most praise. Among those from a distance taking part in the entertainment were Mr. Gerald Cummings of Montreal, Mrs. Hibbard of Brome, Miss Pena and friend of Montreal, Miss Wilson of Knowlton, Mr. and Mrs. Higgins of Montreal.

Mr. Lorne Gordon, son of Mr. and Mrs. E. C. Gordon, who recently returned from overseas, arrived in Calgary, Alta., on June 20th. He got his discharge that day and spent it with his sisters, who were in the city, leaving then to go to his home in Blackie, Alta., where he has a ranch. His father and mother, have resided on the ranch since his absence.

GRANBY

Peace Day was observed in a quiet way in this city. Flags were flying everywhere, and all the factories were closed, it was a general holiday.

At the Golf Club House, the scene was a gay and merry one, as a large contingent of the Waterloo Tennis Club with their friends paid the Granby Club a visit and a friendly game was played between the two clubs. A baseball game at the Hippodrome drew a large crowd, and there were many visitors from far and near in town that day.

Mrs. F. Pollock was "At Home" to the ladies of the Congregational Church on Friday afternoon last at the parsonage in honor of her cousin, Miss Gertrude Harvey, of Coburg, Ont., and Miss Gertrude Harvey, of Coburg, Ont., and Miss Eva Wallace, who has lately returned from France where she has been doing splendid work nursing the "Germans" of the American Army in their hospitals.

Mrs. Pollock received in the drawing room, where the decorations were lark spurs and ferns, wearing a handsome gown of black beaded silk voile, and Miss Harvey wore a cream charmeuse and headed georgette gown and Miss Wallace pink and white silk voile, trimmed with lace. Delicious refreshments were served in the dining room, where the table looked very attractive with its centre of bright nasturtiums and asparagus ferns. Mrs. A. H. Oliver and Mrs. Ellis Horner assisted the Misses Francis and Elizabeth Pollock in serving the guests, number being sixty and seventy, all of whom thoroughly enjoyed the gracious hospitality of the hostess.

The Women's Missionary Society meeting, which was held at the home of Mrs. A. E. Solomon on Friday last, was of special interest as Mrs. J. Marshall, of Abbotsford District Organizer for this section was present and gave a splendid report of the Board Meeting, which was held in Cornwall, Ont., last June. There was a good attendance and much interest was shown in the work of this great organization, which is world wide.

A reading by Mrs. Solomon and a solo by Miss Mabel Bradford were both much enjoyed.

The fortnightly golf tea was an unusually interesting event last Saturday as there were so many of the Waterloo friends present and over two hundred persons were served on the wide verandah by the hostesses for that day, who were Mrs. W. Giddings, Mrs. H. Giddings, Mrs. (Dr.) O'Brien, Mrs. E. E. Glen, Mrs. C. W. Mitchell, Mrs. W. P. Hibbard and the Misses Wadleigh and Gleason. Overhead Charges and Pulleys

To reduce overhead expenses without impairing efficiency is the eternal problem of all employers and factory men.

Yet in many factories a most obvious waste of power is being ignored.

We refer to places where metal pulleys should be replaced by Dodge Wood-Split Pulleys. The money value of the power wasted

by the excessive weight friction and belt slip of the metal pulley is calculated at an annual average of \$8.00 for each pulley.

Dodge Wood-Split Pulleys prevent this waste of power.

This is a bold assertion, but we do not make it lightly.

Call up our stocker and ask him to demonstrate our pulleys to you.

STRIKE LEADERS WILL NOW FACE OTHER CHARGES

Eight of Winnipeg Leaders Appeared Before Court Yesterday on Charges of Seditious Conspiracy.

WINNIPEG, July 23.—R. B. Russell, William Ivens, W. A. Pritchard, R. J. Johns, Alderman John Queen, Alderman A. A. Heaps, George Armstrong and R. E. Bray appeared before Magistrate R. M. Noble at the law courts yesterday afternoon facing charges of seditious conspiracy. Other informations have been laid, it was announced, against the other strike leaders who did not appear on this charge.

The amended information is now a charge of seditious conspiracy, where before it was seditious activity. Further, according to a statement made by Crown Counsel Andrews in addressing the court, as far as these proceedings are concerned, the amendment practically amounts to a withdrawal against the other men previously mentioned, but in all probability there will be other information laid.

F. J. Dixon, M.L.A., Chartoff, Almazoff, Blumenberg and Schoppel are the ones affected by the withdrawal of the charges.

Sergeant Major Langdale, of the intelligence department, the next witness for the prosecution said he had attended the meeting at the Walker Theatre in December last. He produced a document which he said was a copy of the report he had made, which was transcribed from shorthand notes. The whole meeting was described by Sergeant Major Langdale as "very radical and revolutionary in its tone."

Cross-examined as to the effect that speeches of this nature would have on the minds of those present, Langdale said they would inculcate revolutionary ideas in the minds of those present.

Hohenzollerns Allowed Almost Perfect Liberty By German Government

VERY significant feature of the European situation is the extraordinary treatment which the members of the Hohenzollern dynasty have received at the hands of the present Berlin Government. Whereas Saxony, Bavaria and several other of the non-Prussian states of the German empire have driven their former rulers and the actions of their family from the country into foreign exile, the Hohenzollerns have all, with the exception of the Kaiser himself, and of the Crown Prince—who voluntarily expropriated themselves—been permitted to remain in Prussia, where they are treated with both respect and with distinction. Thus, the Crown Princess remains with her four boys and her little girl, at the so-called Marble Palace at Potsdam, where she is visited almost every week by President Ebert, for the purpose, it is said, of discussing questions relating to the management and administration of the vast private estates and huge fortune of the dynasty, which have remained undisturbed and immune from confiscation. It is generally understood that any monarchical restoration in Prussia, and for the matter of that, in all Germany, would be in favor of her eldest son, Prince William, who will soon celebrate his thirtieth birthday. Her proceedings for divorce against her husband, announced by her mother, the Grand Duchess Anastasia of Russia, widow of

PRINCE ALBRECHT.

the Sovereign Grand Duke of Mecklenburg-Schwerin, have been abandoned, as any rate for the present, in deference to dynastic considerations.

The ex-Kaiser's second son, Prince Eitel Fritz, is living with his gentleman-in-waiting, at his former home, the villa Ingenheid, at Potsdam, and has been, much to the astonishment of many who are aware of his shortcomings, rejected by his wife, who, for the same reasons which have influenced her sister-in-law, the Crown Princess, has abandoned her divorce proceedings against him. Prince Adalbert, the sailor son of the Kaiser, has resigned from the navy, but continues to occupy the villa Seeblick at Kiel with his wife, Princess Adelaide, of Saxe-Meiningen. Prince August William, with his wife, a niece of the ex-empress, and his children, is enjoying the hospitality of a very wealthy merchant with whom he has long been on terms of intimate friendship, and who has placed his entire mansion on the Thiergarten, at Berlin, with all his servants, at his disposal. Prince Oscar is living with his morganatic wife, Countess Ruppin, as the guests of her parents, the Count and Countess Basewitz, at their beautiful country seat of Bristow, in Mecklenburg-Schwerin. The Kaiser's youngest son, married to a princess of Anhalt, occupies a private house at Potsdam, while the Kaiser's only brother, with his wife and sons, remain at their country seat on the Baltic shore, about 15 miles out from Kiel, the only time when he was ever troubled having been when on the denunciation of a renegade servant whom he had dismissed, his chateau was subjected to a purely formal search for concealed arms.

Account must be taken of the significant circumstance that the official description of Germany, retained by the present Berlin Government, is that of "the German empire." Its chief executive, the ex-saddler Ebert, the friend, frequent guest, and "Home Socialist" of William II, is the president of the German empire. The ambassadors and ministers in foreign capitals are still the envoys of the German empire, and it is the German empire, and not the Republic of Germany, that is represented by Count Brockdorff-Rantzau and his fellow peace delegates at Versailles. Finally, it has not escaped the attention of the Germans, that although President Wilson joined the Entente in the great war with the avowed purpose of "crushing Hohenzollernism," regardless of their "rights of self-determination," there is not a single word in the conditions of peace imposed upon Germany to prevent her from restoring the Hohenzollern dynasty to the throne at Berlin, in the person of young Prince William.

"Yah! General Shermans was right!"

War's Changes In Canada.

Canada opened the year with problems confronting her, perhaps the most serious in her history. During the war she has accomplished wonders, and still greater wonders will probably have to be accomplished by her. The population of Canada total about eight million, and she enlisted for active service roundly 400,000, or one in every twenty. Of these 55,000 have died and probably 45,000 more have been so physically impaired as to be comparatively useless for practical industrial endeavor.

Canada has thus to face a net loss, on one side, of 100,000 able-bodied effectives, besides paying a heavy burden on their account, either as pensions to themselves if alive, or to the dependents they leave if dead. On the other side is the fact that Canada, during the war, has been transformed from an agricultural to a manufacturing country. Vast industries have been called into being, such as those for making munitions, and now these must be resolved back into agencies of peaceful industrial production.

In the manufacture of munitions were employed some 250,000 workers, with probably 75,000 more engaged in the output of other war materials. The shutting down of these factories will mean the throwing out of employment of a total working army to be brought home for demobilization. Even if these factories be kept going, the continuance will solve only one aspect of the industrial problem, namely, the keeping employed of those who have entered these works since the war began, leaving the returning soldiers to be provided for. But obviously these soldiers are, above all others, the ones most entitled to first consideration.

In Canada, counting the dependents of both soldiers and "war-workers," it is safe to say that some two million people, or about one-fourth of the entire population, will be affected by the new conditions now arising.—American Review of Reviews.

Canada's Standing In Stock.

In Holland, before the war, there were, on the average, twenty-nine acres of all kinds to each hundred acres of land in farms, in Denmark 25, in Germany 15, in France 12, in Italy 10, in Australia 8, in the United States the same, and in Canada only six.

Canada makes an equally poor showing in dairy cattle, Holland having 16 to each hundred acres in farms, Denmark 14, Germany 8, Great Britain, Italy and France 5 each, United States 3 and Canada 2. Australia and Argentina are lower still in this scale, the former having one cow per 169 acres in farms, and the latter one to 200 acres.

In hogs Denmark, before the war, had 22 per 100 acres, Holland 19, Germany 14, United States 8, Ireland 7, France 6, Great Britain 5, Italy 4 and Canada 3.

Fertility From Rain and Snow.

Rain and snowfall do more than provide the necessary moisture for crop growth. They add to the fertility in the soil as well. Mr. Frank T. Shutt, Dominion Chemist, has been carrying on an investigation for years at the Central Experimental Farm, Ottawa, for the purpose of learning how much fertility is provided in this way. Taking the average of ten years, he says that over 6½ pounds of nitrogen per acre was supplied at the Ottawa farm in this way—a little less than 5½ pounds by rainfall and over one pound per acre by snow.

Forests of the Caucasus.

The forests of the Caucasus in Russia are estimated at 12,000,000 acres, chiefly in the Black Sea territory, which is at the rate of nearly 20 acres to each inhabitant. The forests of western Siberia have been scarcely explored, but they are stated to be 200,000,000 acres in extent, more than half being in an absolute state of nature.

Canadian Faces and Anzac Faces.

Some who watched Saturday's march of the overseas troops fancied they detected the emergence of national types. Seeing large bodies of men from Australia, Canada, and New Zealand in the mass is a different thing from coming on equal numbers scattered in various places. It was the long succession of faces which seemed to imprint on the observers' brain a recognizable composite photograph, as it were, of the Australian, Canadian, and New Zealander respectively.

Comparing impressions after the march, two men who cherished this fancy agreed on the Australian and Canadian types. The Australian, they told each other, was a fine fellow physically, and had a countenance which would look well on an old Roman coin; there being about him a suggestion of beaked nose and ancient imperialism. The Canadian, on the other hand, was more English in his traits, and but for a certain breadth of feature might make an excellent Cockney. As for the New Zealander, one of the two observers had carried away an impression of slighter and more agile make, with a richer coloring, both in face and eyes, than either the Australian or the Canadian. The second man denied that New Zealand had evolved a type; but, as he happened to be a New Zealander himself, it might be argued that his perception was obscured by familiarity.

Prof. Keith, the eminent anthropologist, who has recently been giving us such interesting lessons from the human skull, was asked whether this empirical theory of types was soundly based. Though sympathetic, he was not reassuring, being inclined to think that if Englishmen and their overseas brethren were mingled in equal proportions it would be difficult, if not impossible, to distinguish between them. Climatic conditions produced superficial differences. The New Zealander's color, for example, might be ascribed to the atmospheric surroundings of his life at home; the same causes, indeed, which impart the tinge to the Englishman's cheek, and to which the English girl owes her complexion.

But science is so far from being dogmatic on the question that it regrets the opportunity afforded by the massed presence of so many members of the British family in England has been lost owing to the immediate necessities of war. Instructive data might have been gained if authority had not been compelled to fix its attention on more urgent matters. Even now there remains a chance of securing details of the kind to which science can pay attention before the great battalions are broken up for ever.—London Times.

Timber In Burma.

Burma grows over a hundred varieties of every sort of timber. Yet up to last year she exported her rubber in packing cases made of wood imported from Japan. It has now been found that they can be made locally at about half the cost.

The Indian Callender.

Among the Indians time is calculated by moons instead of months. January is called "the hard moon"; February, "the raccoon moon"; March, "the sore eye moon"; April, "the moon in which green lay eggs"; May, "the planting moon"; June, "the moon when strawberries are red"; July, "the moon when choke berries are ripe"; August, "the harvest moon"; September, "the moon when rice is laid up to dry"; October, "the rice-drying moon"; November, "the deer-killing moon"; and December, "the moon when the deer are fat."

MAKES PLAYS FROM BOOKS.

Edward E. Rose Another Successful Canadian.

The production of "Cappy Ricks" in New York recently added one more to the long list of novels, stories or groups of stories which have been dramatized by Edward E. Rose, Rose, although he has written also an untold number of original plays, mostly of a minor nature, is probably the readiest and most prolific dramatizer (if the word may be coined among contemporaneous playwrights). For years he was officially attached to Charles Frohman's staff in this capacity, and after a quiescent period of several seasons he is now again coming to the front in his old specialty. "Penrod," made from Booth Tarkington's stories was his; there is "Cappy Ricks," based upon Peter B. Kyne's stories; "Fish," built around Mary Roberts Rinehart's Letitia Carberry stories, has been written by Rose and May Robson, and his dramatization of Mrs. Rinehart's "The Amazing Adventure" may yet see the footlights, despite the fact that it is a war play. As for the total number of his dramatic writings, it is literally beyond computation.

It is not generally known that Edward E. Rose is a Canadian by birth, although he has become a naturalized American citizen. He was born in Starnstead, Quebec, and spent his youth in that town and upon the farms of our most primitive province. Then when he took it into his head that he would like to become connected with the theatre, he went to the United States and arrived in Boston in the early eighties, fresh from a Canadian farm. For four years he acted for a few dollars a week (never more than twelve) in the Boston Museum Stock Company. Here he wrote a pair of plays which found production in traveling repertory companies, and also had the honor of supporting Richard Mansfield in the early eighties, fresh from a Canadian farm. But Landru had some mysterious power over women. He is a middle-aged man, with a grown family. He has a record as a swindler. He is bald, heavily bearded and even repulsive in appearance. Yet Don Juan did not exert a greater fascination over the other sex. Some of his victims were young. One is spoken of as fascinating. He had no difficulty, apparently, in persuading no fewer than ten in the course of three years or so to leave Paris with him and enter the villa on the rim of the forest, either for a week-end carouse, or under the impression that they were about to be married. It was known that he left Paris. He and different women were seen entering his mysterious house. He returned alone. Nobody ever saw one of the women afterwards. The neighbors were curious, naturally, but perhaps not so prying as they might have been had they not been engrossed in the great war drama. They noted thick clouds of smoke coming from Landru's chimney in summer time and wondered what was burning.

When Landru was arrested he was living with his latest conquest, Jeanne Seft, who might well have been his next victim had the police not intervened. He showed not the slightest uneasiness, and left with the officers, humming the line from "Manon," "Adieu, my Little Table." He has puzzled his jailers by sleeping like a child at night and showing not the slightest fear or even interest as the detectives have proceeded to weave the net of guilt around him. He admits knowing all the women whom he is suspected of having murdered, but flatly denies his guilt, and does not trouble to suggest what may have become of them. The police have dug up fragments of bones, identified as human, many teeth, bloodstained pieces of clothing, women's hair, steel from combs, in fact, hundreds of incriminating bits of evidence, but Landru showed only polite surprise. Even when a mob threatened to take him from the police and lynch him, he retained his composure.

Here is the list of his supposed victims: August, 1915—J. and A. C. otherwise, Mme. Chuchet, a good-looking widow who, with her son Andre, went to Bluebeard's house, taking her savings of over \$4,000. October, 1915—Mme. Berthe Anna Heon, an elderly widow, who disappeared just about the time that her marriage to Landru was announced. December, 1915, to March, 1916—"Mogador," a fascinating young clerk in a Government office, who lived at Cligny with Landru, when the latter was known as Fremiet. December 25, 1916—A woman named Colombo, a bank clerk, who on this date went to Gambais with over \$300 in her possession. March, 1917—Mlle. Andre Barbeley, 22, fortune teller's assistant, who lived at Cligny with Landru, as his "niece." September, 1917—Mme. Buisson, who went to Gambais, with \$500. January, 1918—Mme. Jaume, aged 42, who wrote that the Gambais villa "was a melancholy place, and that her fiancé was a maniac, who made her gather leaves for what she knew not."

Modern Bluebeard Must Explain Disappearance Of His Eleven Lost Wives

BELIEVING that a good shudder is something of a relief in this hot weather, we purpose giving some facts concerning the crimes, or supposed crimes, for which Charles Landru is about to be tried in Paris. He is suspected of eleven murders, all his victims but one being women, and on this account and because he wears a thick beard he has been called Bluebeard. For some months past Paris had no doubt that Landru was a murderer of the deepest dye, but of late the rumor has been circulated that he is the centre of an elaborate farce, invented by the Government for the purpose of distracting the attention of the nation from its losses and the circumbulations of the Peace Conference. This suggestion has not had the effect of lessening interest, and the attention of the French people has been aroused as it was over the Humbert swindle and the murder of M. Calmette by Mme. Calliaux. It differs from these crimes in that there is no political tinge to it, which is somewhat rare for a crime of the first magnitude in Paris. The theory of the police is that Landru induced his victims to accompany him to a villa on the edge of Rambouillet forest and there murdered them, afterwards cremating their bodies in a portable crucible capable of producing a tremendous heat. What remained of their effects after the fire had done its work was buried in his garden. The object in all cases was robbery. The victims were more or less comfortably off, according to French standards; and are

supposed to have taken their money with them when they entered the mysterious villa on the edge of the forest and disappeared for ever. It is supposed that Landru promised marriage to these women. One of them wrote from the house that it was a melancholy place and that her fiancé was a maniac, who made her gather leaves for what she knew not."

April, 1918—Mme. Pascal, who went to Gambais with her son. April, 1918—Mme. Benoit, divorced wife of a printer, who used to patronize concerts with prisoner. A body found in a canal is supposed to be that of Mme. Benoit. January, 1918—Mlle. Marchadier, who had \$200, took three dogs to Gambais, whose bodies have been found.

HOW EARS WORK.

Theory Propounded by a British Scientist.

A new and interesting theory as to the origin of hearing has been propounded by Prof. A. Keith at the Royal Institute, London. This theory, says a writer in the English Mechanic and Electrical Engineer, is of origin and investigations made by Sir Thomas Wrighton over forty years ago—and further pursued by him when, after a long political career, he returned to his early pre-occupation. Sir Thomas, who was not satisfied with the theory of Helmholtz as to the incidence of sound waves and the mechanism for conveying them to the brain, showed that instead of one signal for each wave there must be four. In 1904 Sir Thomas had asked the lecturer certain abstruse questions about the internal structure of the ear, and in order to answer them Prof. Keith undertook an investigation in which he had to deal with most delicate membranes measuring from one-thirtieth of an inch to one-thousandth of an inch, and forming parts of an intricate system.

"To show how nature had proceeded to the perfecting of the instrument he illustrated as its foundation the balancing arrangement by which fish get their ideas of orientation and keep in equilibrium. This was elaborated in the ear so that waves of sound could set up signals by pressure and tension on the cells just as the movements of the balance did in the fish. Nature introduced an extension of the original system and added the lever and the drum, the effect of which was to magnify sound and make hearing more sensitive. But even without the drum hearing was still possible to a mediated extent.

"The most wonderful innovation was the basilar membrane with a shelf for a most delicate machine that recorded sound waves, and by means of a piston, conveyed their vibrations to the primitive cavity, the fluid in it being thereby displaced. This was the essential mechanism of the organ of hearing, and by its operation any energy in the cell was carried through the nerves to the brain. The discoveries of Englishmen, said the lecturer, were generally overlooked while they were living, but Sir Thomas Wrighton's theory of sound transmission was of such importance as to deserve recognition. The sounds were sorted out by a series of resonances, and the theory of hearing was thus brought into line with that of sight and other sensations."

CANADA NOW HAS SEVEN SHIPS IN COMMISSION

To Decide Naval Policy at the Next Regular Session of Parliament.

OTTAWA, July 23.—Of Canada's Government-owned merchant marine, seven ships are now in commission and thirteen more will be ready for ocean trade this year. The twenty ships expected to be completed this year will have a capacity of more than 100,000 tons. The ships in commission are engaged in the North Atlantic and West India trade. Recently the first ship built for the Government on the Pacific coast left for England via the Panama Canal, with a cargo of timber. Another built at Port Arthur is on its way to Montreal with coal from Lake Erie ports. So far the Government ships have had remunerative cargoes, and for a considerable time at least all the ships which can be placed in commission can find a place in the North and South Atlantic trade with profit to the Government and benefit to the Canadian producer and exporter.

Most of the ships under contract are from one to three months late in delivery, due to continued labor troubles in the various shipyards. Strikes in the shipyards have caused a great monetary loss not only to artisans in these yards but to those in industries supplying shipbuilding material. Canada's trade has also been handicapped from the same cause. Shipping is the key to trade, and strikes have deprived Canadian trade of thousands of tons of shipping more essential to our prosperity now than at any other period. The same labor trouble has also deprived the Canadian merchant marine of full participation in the rich profits now being reaped from the high ocean rates. These profits would materially reduce the capital expenditure and make successful competition possible when shipping becomes more plentiful and rates lower. Labor unrest in the Canadian shipyards has been disastrous to labor, Canadian trade and the Canadian merchant marine.

LONG ROLL OF CASES HEARD IN SWEETSBURG

Libel Case Adjourned for Transcription of Evidence.—Many Other Charges.

The busiest day that the Sweetburg Magistrate's Court has seen in some time was experienced there yesterday, when Judge Mulvena handled a large number of cases of various types. The case of criminal libel against A. Morrisette, of Cowansville, in which T. D. Bouchard, lately defeated candidate for M.L.A., is the complainant, again was heard, Ernest Fontaine, K.C., appearing for the prosecution and F. X. Giroux for the defence. Witnesses for the prosecution were heard, the charge alleging libel in connection with statements made in a letter by the defendant during the recent election. The evidence was lengthy and filled with objections, but was finally completed, and the case was adjourned to allow for the transcription of the testimony, and the statement of the accused, until Tuesday, July 29.

A charge laid by J. B. Lachapelle, of Waterloo, against his wife, Almon Denis, furnished considerable interest, the accusation being illicit cohabitation, the complainant alleging that his wife had run away with another man. After hearing the evidence the Court dismissed the charge, holding that the essential elements of the case were not proven. Another charge was taken out against her for stealing the property of her husband, under Article 351 of the Criminal Code, and was adjourned until July 29 for the transcription of evidence. In both cases Arthur Giroux appeared for the complainant and A. E. Leonard for the defence.

LIQUOR CASES HEARD.
Several liquor cases were also to be found on the list, Marc Lecours, of Milton, being accused of selling liquor without a license, and fined \$100 and costs or three months on a pending guilty. Arthur Geanson, hotelkeeper, was discharged after part of the evidence had been heard, the Court holding that the grounds were insufficient.

Joseph H. Bisette, of Granby, pleaded guilty to conducting a pool room without a license, and was fined \$75 and costs or three months. The usual roll of military service cases were laid by G. W. Parks, federal police inspector, Leon L'Herminier, Donat Robert and Rene L'izotte each being fined \$250 and costs or three months, and each choosing to be sent to jail. Alfred Bedard pleaded not guilty and his trial was fixed for next Tuesday. Josephat Goupal and Joseph Authier, of Stanbridge, had left the province, and proceedings were dropped against them.

Robert Correy, charged with damage to property as tenant, on an accusation laid by O. M. Hull, of Cowansville, pleaded not guilty, and the evidence for the prosecution was heard, the case being adjourned until Tuesday next.

Found guilty of stealing a woollen sweater from P. O. Regan, P. Goyette, 14 years old, was allowed out on suspended sentence when his father furnished a bond of \$200 for his good behavior, it being his first offence.

Charged with driving an automobile with only one license number, E. Lockwood pleaded not guilty, and the case was fixed for the 29th.

'DON'T GO SO FAST' CRY OF BELANGER GIRL

Bertha Belanger, in Delirium, Lives Again Her Terrible Experience.—Feared She is Permanently Insane.

That Bertha Belanger, injured in the auto accident on the Government Road, on June 24th, in which her sister was killed, will be permanently insane, is feared by the authorities at the St. Vincent de Paul hospital, and although it is now expected that she will live, little hope is being held out that she will ever regain her reason. Sometimes quiet, and seemingly only weak, Miss Belanger sits in her room, rocking in a chair. At others, however, it has been necessary to strap her to the bed, as she tries to throw herself out, while from her delirious cries the doctors and nurses have gathered that she is again living through the night of the accident.

"Don't go so fast!" is an often-repeated cry, which may be heard ringing through the little room, while heart-rending screams follow, when in her delirium, she again imagines that she is in the fatal car at the time of the accident.

Although her condition may improve with time, it is hardly hoped that she will ever be entirely mentally proficient again.

SUBMIT PLAN OF OPERATION OF RAILROADS

Conference in Favor of Private Ownership of the Railroads in United States.

(Associated Press Despatch)
WASHINGTON, July 23.—Private ownership and operation of railroads, merged into twenty or thirty great competing systems under the supervision of a Federal Transportation Board, with a statutory rule of rate-making assuring to the roads a net return of six per cent, was offered to the House Committee as the plan of the National Transportation Conference today.

Harry A. Wheeler, of Chicago, former President of the Chamber of Commerce of the United States, which assembled the conference, explained that hearing had been held for six months, at which shippers, railroad men, labor union officials and bankers had been heard. The plan evolved was said to be a combination of the best features of plans already put forward, with some new elements assembled into what the conference regarded as a harmonious whole.

Continued Government operation until remedial legislation is enacted was urged by the conference, with the limitation that such legislation should be enacted this year.

SCOUTS PASSED THE REQUIRED SWIMMING TEST

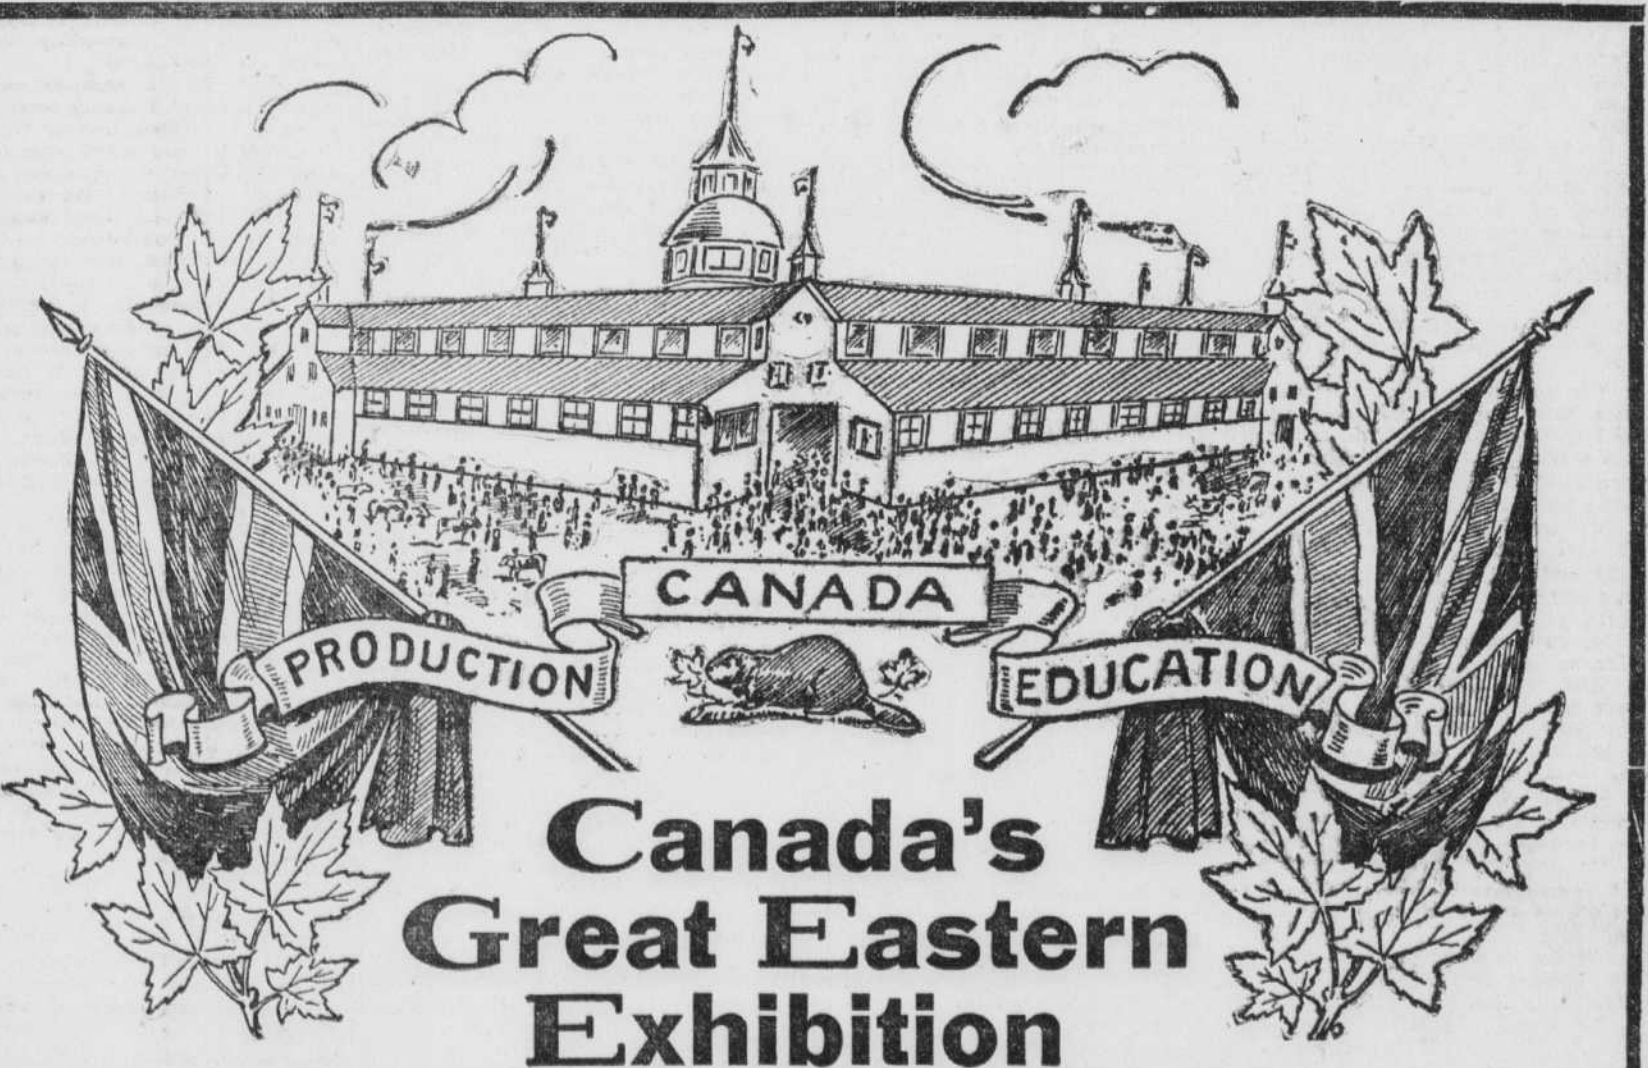

SCOUTS TO BE PRESENTED WITH COLORS BY MAJOR BOWEN NEXT THURSDAY EVENING.

The newly organized Fifth troop of the Sherbrooke Boy Scouts will be presented with colors by Maj. Bowen Thursday evening at Portland Square and an elaborate programme is being prepared for the occasion. In addition to the presentation of the colors to the boys, the troop will hold an ice-cream social and the Scout Band will furnish the chief entertainment. The proceeds of this social, which is worthy of all the patronage possible on the part of the citizens of the Metropolis of the Eastern Townships, will go towards furnishing equipment for the boys.

The Fifth troop is already attracting no little attention and on Monday evening no less than nine of its members successfully passed the necessary swimming tests at the Y.M.C.A. tank. Mr. Heywood acting as judge, and will in the near future be awarded the Scout badge. The successful candidates in swimming tests were—Kenalty, Bennett, Stewart, Fox, Goldman, Beyer, Littner, Strachino, and Strew.

Mr. Merchant, why do you dress your Store Window and try to make an attractive display of your goods?

If any person put this question to you, it is very likely that you would look at him in a pitying way and advise him to go and have his head examined. The SHERBROOKE FAIR is the Store Window of the Eastern Townships, and it is the only way in which the products of this marvelous district can be placed in a collective manner before the people of Canada and the United States of America.

Did you ever make a trip across this Continent? If so, in every Hotel where you registered you naturally wrote the name Sherbrooke as clearly as possible. Some people might ask you "Where is Sherbrooke," but we are willing to bet you a good cigar, made in Sherbrooke, that others said: "Oh, yes, Sherbrooke, that is where they hold the big Fair," and you felt prouder than ever of your home town.

If you go to the Fair, and only the sick people stay away, you are sure to learn something, sure to see something of interest, sure to meet somebody whom you have not seen for some considerable time and whose friendship you value, sure to sweep away some of those cobwebs that are slowly forming round you, and you will go back feeling years younger and saying to yourself: "This world is a pretty good old place."

This year all the old features will be shown, or it will not be a Fair, but the new features will surprise you, the old ones will have taken on a new aspect, and the arrangements for the comfort and amusement of the visitors to Sherbrooke Fair will be better than ever.

We will tell you of some of our special feature attractions in a latter issue. Meanwhile watch this space and do not forget that the dates this year are

TWO TITLES WILL BE AT STAKE IN BOUTS SATURDAY

Dumoulin Has Right to Claim Canadian Heavyweight Title.—Legare and Bain Meet in Semi-Final Contest.

Leonard Dumoulin, the well-known Eastern Townships heavyweight, will tackle one of the hardest punchers and cleverest scrappers he has yet faced in the ring when he opposes Peter Davis of Chicago, in the feature ten round bout of the programme offered by the Sherbrooke Sporting Club at the Stadium on Saturday night.

Davis has a most creditable record, having swapped punches with some of the best boys in the division across the border and comes to Sherbrooke well recommended. He has been out of training since leaving the American navy, but with a view of using Dumoulin as a stepping stone to reach the Canadian heavyweight title, he has set in training in earnest during the past two weeks and promises to be in the "pink" when he steps into the ring on Saturday night.

In the Dumoulin-Davis bout the fight fans will actually see a battle for the Canadian heavyweight title. While a very few uphold Arthur Pelky of Toronto, in his claim to the heavyweight title, the great majority of followers of the art of boxing regard the Toronto man as a mere joke. Pelky actually has no claim to the title, for he has never taken on any one of any consequence and has labelled a "dub" scrapper even by the experts of his home town. Dumoulin actually has the prior right to the Canadian heavyweight title, for he has been fighting with regularity and beating all that have been sent against him. Dumoulin to-day is in the best condition he has shown since he made his debut before the public as his clean cut knock-out over Spike Sullivan in his last bout clearly demonstrates.

About which will rival the main contest in point of interest will be the semi-final between Kid Legare and Stanley Bain, for the Eastern Townships lightweight title. Legare, after registering numerous victories laid claim to the title, but since then Bain has been on his track. Failing to secure a match with Legare, Bain took on a couple of boys while in town and in both instances has shown quite clearly that he has a right to have a go for the title. It was only after a great deal of trouble that Manager Bert Doherty finally got the two boys signed up, and a regular battle royal is expected when they start to swap punches.

In addition to the above mentioned bouts, there will also be two other contests which should be quite interesting. The programme offered by the Sherbrooke Sporting Club is attracting no little interest and it is expected that there will be a bumper crowd on hand on Saturday at the Stadium. Invitations have been issued to Major Charles White and the members of the City Council to attend the bouts.

BASEBALL

GROVERTON PLAY HERE SATURDAY

The Sherbrooke ball team will stack up against the strongest aggregation they have been yet called upon to face, when the locals engage in combat with the Groverton N.H., nine at the Exhibition grounds on Saturday afternoon. However, the locals are not at all worried over this fact. In fact, they are quite confident that they will succeed in their efforts to redeem themselves at the expense of the Groverton team. The local players claim they had an off-day last week against the Island Pond combination and are out practicing this week with a determination to boost their averages. The "breaks" of the game against Island Pond were all against the local team and "Doc" Thomas never really settled down to pitch his regular game.

The Groverton team is an independent aggregation with such a creditable record that Island Pond refused to tackle them. "Doc" Thomas will again be on the mound for the Sherbrooke Club, while Steve Newton will perform behind the plate. The officers of the local club have also lined up for two new players who it is expected will strengthen their line up considerably.

AT THE TRAPS

WM. SOUTHWOOD SHOTS A BLUE STREAK

The Gun Club held a very successful shoot last evening, and quite a few of the members were present. Wm. Southwood came back in fine old style, shooting at a fast clip all the way through. In the picture shoot he made fourteen, and a possible in the spoon event, but he had to make fourteen in the shoot-off with Lee Hyndman to win the silverware. Steve Newton won the picture event without a dispute. In the sweepstake, Bob Newton, Charley Thompson, and Jack Sangster were all tied with fifteen each. In the saw-off Jack and Bob still had possibilities, so the money was divided. Charley Thompson was glad to be out of it as he cannot yet understand how this matching game is carried on. This firm is well and favorably known throughout the United States, where they manage and operate over forty companies doing a similar business. The Company is, therefore, assured of efficient management by men who have made a special study of similar organizations. Too much importance cannot be given to this feature of the Company's affairs.

NATURE OF ISSUE

Although comparatively new to this territory, coupon notes represent a form of short term financing in very general use and favor in large financial centres. The public is thereby offered an opportunity to profit by the present high rate for capital, and thus obtain a more favorable interest yield than is usually obtainable on an investment of this high character. On the other hand, the Company can arrange its permanent finances on better terms when normal times return.

AS AN INVESTMENT

In view of the nature and permanency of the Company's business, operating as a Public Utility in a City which is enjoying rapid though conservative growth we consider that these Coupon Gold Notes form a most attractive short term investment.

We make this offering subject in all cases to previous sale and change in price. Orders may be wired at our expense and Coupon Gold Notes or Registered Interim Receipts will be delivered free of charge at any Bank or Trust Company.

The foregoing statements and figures are based upon information obtained from reliable sources, and which, while in no way guaranteed, are correct to the best of our knowledge, and furnish the basis upon which we have purchased the above issue.

MANY AMERICANS KILLED WITHOUT A PROSECUTION

Ambassador Fletcher Says that During Past Three Years Fifty Americans Were Killed in Mexico.

(Associated Press Despatch)
WASHINGTON, July 23.—Henry P. Fletcher, Ambassador to Mexico, told the House Rules Committee yesterday, that since appointment three years ago about fifty Americans had been killed in Mexico, without a single prosecution being made by the Mexican authorities.
Replying to questions by the chairman, Mr. Fletcher said withdrawal of recognition of the Carranza Government by the United States would only increase the turmoil in the Southern Republic. He added that he did not know of any revolutionary leader capable of establishing a permanent Government.

CITY BRIEFLETS

REV. E. RUSSELL SPEAKS ON WAR MEMORIALS

Rev. E. C. Russell, in his sermon of Sunday morning at St. Peter's church spoke of the subject of war memorials in all thoughts, the great Peace celebration of the previous day, July 19th, over the whole British Empire. Sherbrooke, like all other cities, small and large, had taken her part in the rejoicings, for a glorious victory, and the Germans had looked forward with feindish anticipation to the day when many a toast had been drunk to its speedy coming, but by the help of the Almighty, who had given strength and power to his people, Germany had been crushed and defeated and lay at the power of the allies.

On War Memorials to be raised in honor of those who had not counted their lives dear to themselves but had freely given them up for others and deprecating the raising of monuments of stone or marble, however magnificent they might be, in memory of a great sacrifice. He better would it be, and more pleasant to those who now lived in God's presence to help their brethren on earth, in a hundred different ways, by education, building libraries, founding hospitals, homes for the sick and poor, all for the benefit of humanity.
He believed a prospect was on hand to promote scholarship in schools and colleges for soldiers' children, which was heartily to be commended and which would at the same time perpetuate the names and memory of the splendid Canadians, a nobler army of martyrs but make the lives of others happier and more useful.

BETRAYED HIGH COMMAND OF GERMAN ARMY

Organization Formed Among German Officers of Vendetta at Lives of Traitors.

(Associated Press Despatch)
WASHINGTON, July 23.—A story of the betrayal of the German High Command through the efforts of the American Military Secret Service and of the organization among German officers of a vendetta at the lives of the traitors, was brought to light with the arrival at New York of two German prisoners of war assigned to the director of military intelligence, Washington. According to information here the mysterious prisoners who landed from the Agamemnon under guard, formerly were German officers of high rank, occupying positions of great responsibility under Von Hindenburg. Before the inauguration of the American offensive in 1918, operatives of the American Military Intelligence Corps prevailed upon them in documents which have not been divulged, to deliver plans of the German general staff covering the proposed movements on the western front, probable lines of retreat, points at which standard would be made, and other detailed information of inestimable value. The German officers later surrendered themselves to the American forces. Certain that their former associates had been suspicious, however, and are believed to have banded together to meet out stern justice, utmost precautions were taken, even within the Allied lines to protect the informers, but as officials believed that as long as they were kept in France their lives would be in danger, orders were given for their transfer to this country. The prisoners are said to be Alfred Scholz and Alvin Groche.

TREATY BILL PASSED ITS THIRD READING IN HOUSE

(Associated Press Despatch)
LONDON, July 23.—The House of Commons has passed the second and third readings of the peace treaty bill. The treaty bill passed the committee of the whole without amendment. When the third reading was moved, Joseph Devlin, Nationalist, demanded its rejection as a protest against the Premier's attitude toward Ireland.

Mr. Lloyd George replying, ridiculed the suggestion that his attitude toward Ireland had changed. He said he adhered to his position announced in the general election, and was prepared to carry it into effect. The home rulers, he added, could have home rule for themselves if they wished, but they could not force it on Ulster.

The House then rejected Mr. Devlin's motion by a vote of 163 to 4, and the bill passed the third reading.
