REMOVAL. Respecting to new premises. E. H. PARSONS, Editor.

Wednesday, March 9, 1870. A Spanish Tragedy.

Of the nineteenth century are apt to fancy ourselves far removed, in our civilization and common sense, from the outrages, barbarisms, and cruelties of our ancestors.

When Dr. Colenso cast himself boldly into the troubled sea of polemical discussion, he could scarcely have expected to derive much pecuniary emolument from his combat with the authorities of his Church.

As it is well-known the leadership of the Conservative party in England was offered to the present Lord Derby, and as it is also well-known, he declined the distinction, and allowed it to go begging until the Duke of Richmond took compassion upon the "Country party."

The story of "Ten Thousand a Year" is forcibly recalled by a recent law-suit in England, which bears to it a strong family resemblance.

Several resolutions will move, on Friday, respecting to provide that: 1. Six per cent per annum shall continue to be the legal rate of interest in all cases.
