HISSED DR. CRIPPEN AND MISS LENEVE

Immense Crowd Witnessed Prisoners Debar from Train in London.

Liverpool, August 27.—Dr. Crippen and Miss Le Neve, in the custody of Inspector Dew, Sergeant Mitchell and the wardresses who went from England to take charge of Miss Le Neve, disembarked at 2.15 p.m., at the regular landing stage. Officers of the local police were on hand to assist the Scotland Yard officials.

After all the passengers and the Queen's Own Rifles of Toronto and baggage had been landed from the steamer the gang-planks were removed but were hurriedly replaced. A door opened and Inspector Dew, followed by Dr. Crippen, and Sergeant Mitchell, Miss Le Neve and the wardresses, came down the gangway and crossed into the Customs shed, before the spectators had time to realize what had happened.

After a few minutes, they crossed the street and entered a saloon car on the waiting train. The blinds were at once pulled down, and the crowd had little chance of seeing the prisoners.

Crippen wore a long grey overcoat, the collar of which was turned up about his ears, and a soft hat which he had pulled down in an effort to conceal his face. He also wore a black muffler. He was handcuffed. On the way to the train he walked firmly between several Scotland Yard men.

Miss Le Neve wore a long blue coat which completely enveloped her. She also wore a thick veil. Threats of violence had been made against Crippen. The doctor seemed indifferent to demonstration, but Miss Le Neve was greatly agitated. The attention of most of the crowd was distracted from the aft gang-way and was concentrated on the big gang-way forward, where the band of the Toronto regiment was playing the "Maple Leaf." The train started for London at 2.30 p.m.

It is said that Dr. Crippen proved to be an excellent sailor and was not affected by the trip. Inspector Dew and Sergeant Mitchell were on the verge of sea-sickness, and the wardresses accompanying Miss Le Neve were ill throughout the voyage.

Miss Le Neve, who remained in her berth during the greater part of the voyage, exhibited a really cheerful demeanor and chatted with the wardresses on duty in her stateroom for hour after hour during the trip. Dr. Crippen, on the contrary, was very taciturn, and scarcely spoke except for an occasional word to Pursor Pomeroy during the officer's daily official visits to his cabin.

London, Aug. 27.—Chief Inspector Dew and Sergeant Mitchell, of Scotland Yard, and two wardresses, with Dr. Crippen and Miss Le Neve, arrived at Euston Station at 7 o'clock this evening from Liverpool. Three taxicabs were waiting at the station and the party immediately was driven to the Bow street police station court, where the accused man and woman were formally charged with the crime and then placed in cells. An immense crowd at Euston hissed and booed the pair when they emerged from the station, but the police prevented further hostile demonstration.

London, Aug. 28.—The vicinity of the Bow street prison, where Dr. Hawley H. Crippen and Ethel Clara Le Neve are awaiting arraignment tomorrow, was visited by crowds throughout the day, but no glimpse of the prisoners was obtained.

Dr. Crippen spent the day in preparing his defense and Miss Le Neve received a brief visit from her sister. To-morrow's proceedings will be purely formal. After the evidence of the arrest of their couple has been recorded a request that they be remanded for a week will be made.

It is understood that Dr. Crippen will be charged with murdering his wife and Miss Le Neve with being an accessory after the fact.

QUEEN'S OWN HAD A GREAT RECEPTION.

London, Aug. 27.—The men of the Queen's Own Rifles stepped off the Megantic at Liverpool this afternoon and marched through the streets of the city to the accompaniment of tremendous cheering. The regiment was met by the Deputy Lord Mayor and various military officials, and officially welcomed.

On their passage through the streets the troops created a good impression. The Irish Rifles formed a guard of honor.

SUCCESSFUL TENDERER.

The contract for the plumbing, heating and ventilating of the new Technical School in St. Roch's, has been awarded to Mr. Jos. Ballantyne, of Montreal, at the figures of \$53,000.

FIRE AT LEVIS MADE QUITE A BLAZE.

A fire at Levis early yesterday morning made a blaze that could be seen on the Quebec side. The fire destroyed a structure and looked for a time as if it might prove to be really serious, but was finally confined and prevented from spreading.

BISHOP FARRAR PREACHED AT ANGLICAN CATHEDRAL.

The Right Rev. Dr. Farrar, Bishop of Antigua, who comes to Quebec to act as assistant to Right Rev. Dr. Dunn for a year, preached for the first time in this city yesterday morning, when he delivered a very impressive sermon at the English Cathedral. In the evening, when Ven. Archdeacon Madden preached, His Lordship read one of the lessons.

PRESENTATION MADE TO RETIRING EMPLOYEE.

Capt. A. Evanturel, who for the past twelve years, has been manager of the heating department in the Mechanics' Supply Company, has severed his connection with that firm to go into business on his own account, and on Saturday was presented with a handsome travelling bag and address by his former fellow-employees. The presentation was made by Mr. Walter Wilkinson, on behalf of the employees, and the address referred to the many happy years which the recipient had spent with the company and wished him every success in his new field. Mr. Evanturel made an appropriate acknowledgment and reply.

GERMAN AVIATOR FELL TO INSTANT DEATH.

Arnhem, Netherlands, Aug. 27.—While the Dutch aviator Van Maasdyke was attempting a cross-country flight near this city to-day the motor of his aeroplane suddenly stopped and the machine plunged to the ground. The aviator was instantly killed.

Hanover, Prussia, Aug. 27.—Aviator Schnieter had a narrow escape from death to-day while making a flight with a Voisin machine at Celle, 23 miles north-east of this city. The wires of the steering gear became entangled and, seeing that he was in imminent danger, Schnieter jumped to the earth, about 30 feet below. He escaped with a broken leg. The machine was demolished.

DECISION RAISED STORM OF PROTEST

Justice Goff Rules That a Strike to Enforce Closed Shop is Conspiracy.

New York, Aug. 27.—Parades of protest broke out all over the east side this afternoon on receipt of the news that Justice Goff had ruled in the State Supreme Court that a strike to enforce the closed shop involves a conspiracy in restraint of trade. Bands of the 60,000 clockmakers now on strike marched through the streets, carrying banners and American flags and shouting "Closed shops!" at every stop. There was no violence, but unrest and anger were everywhere visible among the strikers.

Justice Goff's decision granted an injunction to a member of the Manufacturers' Protective Association in restraint of acts of violence, threats, picketing and patrolling by strikers. "The primary purpose of this strike," reads his finding, "is not to better the condition of the workman, but it is to deprive other men of the opportunity of their right to work."

He supports his ruling with a recent decision of the Court of Appeals against a large building corporation which he cites.

Washington, Aug. 27.—Samuel Gompers, president of the American Federation of Labor, was greatly stirred by the decision of Justice Goff, which in effect declared that efforts to enforce the closed shop were in violation of law in the restraint of trade. Mr. Gompers said:—"Justice Goff quotes an unjust decision in support of his own, and that is supposed to be good law. The unions of labor will live despite injunctions and decisions which invade constitutionally guaranteed rights and human liberty. Without the unions there is no possibility for protection to the workers against the tyranny of the absolute, autocratic ways of concentrated capital and greed."

DEATH OF WELL-KNOWN LOWER TOWN MERCHANT.

The death took place last evening of Mr. J. B. Bedard, of the firm of J. B. Bedard & Freres, St. Peter street. The deceased was 70 years of age and was a well-known merchant of St. Peter street.

ALLEGED BRITISH SPIES NOW HELD IN GERMANY.

Emden, Aug. 27.—The police to-day discovered letters in the possession of Brandon and Trench, the alleged British spies who were arrested at Borkum August 22 and 23, showing that they had planned to photograph all the fortifications on the north coast. It was also learned that the two men had accomplices, and the police are now searching for them.

TWO MORE FATAL AUTOMOBILE ACCIDENTS.

Syracuse, N.Y., Aug. 28.—Mrs. Edgar A. Emens, of this city, wife of Prof. Emens, of Syracuse University, and Miss Martha Emens, of Fayette, a sister of Prof. Emens, were killed at 4.45 o'clock this afternoon at Claywood, 30 miles south of Geneva, when the fast Chicago-New York express on the Lehigh Valley Railroad crashed into the rear of their automobile while they were crossing the tracks. Mrs. Emens' neck was broken and her skull fractured. Miss Emens received a fractured skull and both legs were broken. They died shortly after being placed on a train and while being hurried to a Geneva hospital.

Pittsburg, Pa., Aug. 28.—In an auto which went whizzing off an embankment on the "Third Degree road," five miles south of Soninger, Butler county, into the bed of a small creek 65 feet below, Wm. Dowling, of Pittsburg, was carried to instant death. The only other occupant of the car, Edwin W. Beyer, aged 22, of Buffalo, was severely but not fatally hurt. Dowling was the 26-year-old son of Mr. M. J. Dowling, general manager of the Jones & Laughlin Steel Co. The young man was superintendent of the blast furnaces. Beyer is a clerk at the plant.

MISSING MAN'S BODY DISCOVERED

Found Buried Under the Floor of a Garage With Head Crushed.

Point Marion, Pa., Aug. 27.—The body of Frank Ringle, aged 54 years, who disappeared mysteriously from his home ten days ago, was found buried under the floor of a garage to-day. Ringle was an assistant to L. W. Harvey, manager of the garage. Suspicion that Ringle had met with foul play was entertained yesterday when Mr. Harvey saw blood stains on the garage floor, and to-day, while laying a pipe under the floor the body of Ringle, covered with grass, weeds and loose earth, was found. The head was badly crushed. It is known that Ringle had \$100 in cash on his person about the time of his disappearance, but other than the suggestion of robbery, for he had no money in his pockets when found to-day, there is no motive for the crime.

NOVELTY WON RICH STAKE AT SARATOGA.

Saratoga, Aug. 27.—Novelty, admirably ridden by Shilling and carrying top weight, 135 pounds, won the Rensselaer handicap, worth \$10,000, six furlongs, here to-day, defeating the best youngsters in training. By this victory to-day he is stamped as the champion two-year-old of the year. Novelty was quoted at 4 to 1 in the betting and won by a neck from Naushon, with Textile third. Countless proved a big surprise when he easily defeated Olambala, the 2 to 9 favorite, in the Saratoga Cup.

FRANCE HOLDS AERIAL BANNER

Even Women Have Gone in for Aviation Meets There.

Paris, Aug. 28.—France will certainly be known in history as the pioneer and leader in aviation. Meets, or tournaments, which large prizes are offered for winners of aerial flights, are being held all over the republic. Aerial sport generally has made far greater progress here than elsewhere. Here the public give more time to amusement and less to the constant business grind. In France, also, women have gone in for aviation to a remarkable extent. In this country there are fifty women aviators or "sky-women" if you please, to one in any other country.

As might be expected, several men oppose women taking a prominent part in the art of flying through the air. Henri Rockfort, for instance, one of the leading journalists of France, contemptuously asserts that women's mental make-up and education, not leading them in a direction of knowledge of mechanics, are, therefore, unable to master the mechanism of motors and similar subjects connected with aviation, a thorough knowledge of which is necessary for the science of sky-flying is to be mastered.

An answer to the ability of women to make successful aviators is contained in the recent feat of Mme. Airault, who has just sailed from St. Cloul, a suburb of Paris, directly over the capital in balloon, notwithstanding the fact that for two hours she was lost in a heavy fog, but which did not affect her nerve or self possession. She made a successful descent. The Stella Club, of which she is secretary, and is composed of women, sky-women only, was organized less than one year ago with nineteen members, but now has a membership of 122, while the club has a record of thirty-five balloon ascensions since its organization. Mme. de la Roche, who met with a serious accident during a flight at Rheims a few weeks ago, is a member of the club.

She is gradually recovering, and, with true womanly courage, is already planning daring feats in her Vision airplane. One Paris publication,

CITY OF QUEBEC. CITY HALL, Quebec, August 23rd, 1910. PROCLAMATION. The Arrival of His Eminence Cardinal Vannutelli, Legate of the Holy See. On Thursday, the first of September next, His Eminence Cardinal Vannutelli, Legate of the Holy See, to represent His Holiness Pius the Tenth, at the Ecclesiastic Congress of Montreal, will land at Quebec. On the occasion of the arrival of this high dignitary of the Roman Catholic Church, the religious and civil authorities of the City of Quebec have agreed to tender the Cardinal a reception worthy of his high office and of the important mission upon which he is sent. In order to comply with the desire generally expressed, and in view of maintaining the high reputation of hospitality which our city has conquered abroad by welcoming all eminent personages who land at Quebec, I invite all citizens to help, by all means in their power, to tender a most fitting reception to this distinguished visitor. I therefore respectfully invite all citizens to assemble on Dufferin Terrace, where addresses of welcome will be presented by His Grace the Archbishop of Quebec and the Mayor. I entreat all citizens to decorate their places of business and their residences, especially on the streets chosen for the route of the procession. And in order that all may participate in this demonstration of respect, I invite all citizens to consider and to observe the afternoon of Thursday, the first of September next, as a half holiday devoted to a public celebration and general rejoicing, and I urge all patrons, masters of trade establishments, manufacturers and others, to grant a half holiday to their employees, in order that as many as possible may participate in that demonstration. The Steamer Empress of Ireland, which carries the distinguished traveller, is expected here early in the afternoon of Thursday, the first of September next. By order, H. J. B. CHOUINARD, City Clerk. NAP. DROUIN, Mayor.

AVERAGED 62 1/2 MILES AN HOUR.

Elgin, Ills., Aug. 27.—Samuel P. Mulford, driving a Losier "50" at the average rate of 62 1/2 miles an hour for 305 miles, won the Elgin national road race to-day over such pilots as Robertson, Grant, Oldfield, Livingston and Harroun. His only stop was for gasoline. Robertson's defeat was partly caused by tire troubles. He made seventeen changes. Mulford's time was 4.52, 29.84. Livingstone was second and Greener third.

The Quebec Chronicle

QUEBEC, AUGUST 29, 1910.

"THE PLAY'S THE THING."

It should not be forgotten that this is the opening night of the National Theatre, which is the new name of the old Jacques Cartier Hall. For some time past several prominent men of Quebec have studied the best ways and means to satisfy that craving for the aesthetic and intellectual drama, which is innate in so many of our citizens. The result has been the formation of a joint stock company controlling the National Theatre, and presided over by Mr. J. M. Bourque as managing director, Senator P. A. Choquette as President, and Mr. J. A. Gauvin as Secretary. These gentlemen have been extremely active and have spared no pains to secure the best French dramatic talent for the entertainment of Quebecers during the coming season. Mr. Bourque in particular has put in much hard work, having been over to Paris and induced several stars, who are well-known in the theatrical world, to make a visit to the Ancient Capital. Among these are Madame Ducange, who will interpret the role of Josephine, in "More Than a Queen," the famous Napoleonic play, which will be staged this evening, and also Paul Marcel, who will play the part of the great Emperor. There are very few subjects, which afford more variety of scope for really good acting than the association of the little Corsican with the ill-fated Josephine, and the management is much to be commended on its initiative and choice of plays and players. It is more than likely that it will win the approval of the play-going public as it fully deserves to do.

THE SCHOOL QUESTION

Whilst in Manitoba Sir Wilfrid discussed the school question with his compatriots. The Government organ at Winnipeg says of this conference:—"The meeting was in secret, and no full report of the proceedings has been published. But the Free Press is informed that Sir Wilfrid referred the delegation pointedly to the Roblin Government, informed them that the Manitoba Legislature had ample powers to meet their wishes if so desired, and assured them that no act within the competency of the Legislature would be interfered with at Ottawa."

We were under the impression that Sir Wilfrid and Mr. Sifton had settled the school question in that province some years ago and had made an arrangement satisfactory to the Vatican, and that Mr. Sifton had been instrumental in preventing a settlement by the Manitoba Government. Now the Premier would make an issue of it once more, to set one part of the province against the other. Perhaps his aim in suggesting that it be introduced in provincial politics is inspired by a desire to work the downfall of the Roblin Government.

THE PRESIDENTIAL NOMINATION.

The problem that awaits the Republican party at the next Presidential nomination will not prove easy of solution. The chief interest centres in the President and ex-President, and in the coolness, which they appear to entertain to each other since the return of the latter. Friends of Taft consider that he should have a second term whatever his merits or demerits have been. Friends of Roosevelt who are wont to look on Taft as no more than a protege of the ex-President, consider that he is more or less of a failure in that he has not followed along the aggressive lines indicated by his predecessor. Mr. Taft who in the ordinary course of events perhaps feels that he has a right to return to office, possibly feels aggrieved that his political sponsor of the past will probably be his rival in the near future. On the other hand the latter may entertain the idea that the party will suffer if Taft continues at its head.

Another thing that has not helped to smoothe the situation is the setback, which Roosevelt experienced at the hands of the New York political leaders when they threw him over for a nominee of Taft. Roosevelt is not the kind of man to accept a blow without endeavoring to exchange a quid pro quo, and this reverse will possibly dismiss any reluctance that might have restrained him from entering the lists.

Indeed a New York paper gives out that he will now fight to the end and says that "if the ticket nominated at the convention, the temporary chairmanship of which he was refused, is such as Mr. Roosevelt could not recommend to the delegates or afterward endorse to the voters of his party, it will not be worth while to print the names of the candidates upon the ballot."

It does not require an unusually vivid imagination to construe these words into a Rooseveltian challenge.

THE CAMPBELLTON FIRE.

Referring to the Campbellton Fire the Ottawa Journal says:—

"Why the world should be overflowing with generosity at one time while indifferent at another, is a thing hard to explain.

For instance, when Ottawa burned, the world far and near, showered its thousands and its tens of thousands upon this city.

And yet Campbellton, N.B., a smaller, more helpless, less wealthy town, burns and only six houses are left, its state being far more desperate than ever was Ottawa's, and the world is quite indifferent to its appeals for help."

This condemnation is far too sweeping to be true especially in the case of Quebec, which cannot be accused of indifference in this respect. When we consider the aid given to the distressed town by our City fathers, the generous way in which the citizens have subscribed to the "Chronicle's Relief Fund," and the numerous gifts which have been forwarded to Campbellton, by business houses and private citizens of their own initiative, we have no reason to feel that Quebec can be accused of utter indifference to the needs of their fellow-Canadians in trouble.

The thing that really is hard to explain is the inaction and parsimony of the Dominion Government in this respect. It has been liberal enough both in deed as in name on other occasions, when the misery was farther from home. When San Francisco was laid low by earthquake and fire it showed not the slightest hesitation in granting aid to the relief Committee. There was a like activity when there appeared a danger of famine in Japan, when Southern Italy was afflicted with a catastrophe and when Paris was in misery owing to the floods.

On all these occasions Canadian money was forthcoming for relief, and the Government did only what was right and proper in sending it. But this is only an additional reason why it should come to the assistance of a Canadian town, which has been completely blotted out by the sudden fire, which left its population without homes, almost without clothes, without bedding, and with scant opportunity to earn a new living. It is one of the worst "sins of omission" of which the present administration has been guilty.

The report that the old Rideau Hall is to be replaced by a new residence of the same name on another site seems to point to a realization of the fact that the home of the Governor-General has practically reached the limit of its usefulness. The present Hall, which was formerly the home of the Hon. Thomas Mackay, has long proved an expensive item to the country, nearly a million dollars having been spent on it in repairs and improvements, while the end is not yet. These repairs have furnished matter for comment within the House, and it will probably be more economical in the long run to get rid of it altogether and to erect a modern and more suitable residence. The change may possibly be occasioned by the coming of the Duke of Connaught.

At the methodist Conference held in British Columbia exception was taken to a clause in the discipline, which states that a probationer should take no steps about marriage without first consulting the brethren. One of the ministers gave it as his opinion that anyone, who did not know enough to choose a wife, would have a sorry outlook, and he did not think that the matter was one in which a man would display good sense by consulting his brethren. This remark occasioned both laughter and indignation, the chairman remarking that the Conference was engaged in discussing principles of the Church and that these should not be treated lightly.

Doubtless there are cases when the probationer might well consult his superior on such a question, but that he should be under obligation to do so would seem to be carrying things to extremes. The "saving sense of humor" is the most reliable asset in defining the border line between the sublime and the ridiculous.

It is satisfactory to hear that the investigation into the circumstances connected with the escape of Moir from Hamilton Asylum is progressing. At present the information is being gathered by officials of the departments of the Provincial Secretary and the Attorney-General, and the case must be discussed by the Cabinet before it can be definitely decided what form the final investigation will take. Moir's letter to a London friend asking for a present for an asylum attendant and also for several files is said to have reached the authorities only a few weeks ago, but this seems incredible. It appears to have been sent in February, was seized by the London police and sent to Dr. English of the Hamilton Asy-

The authorities say that every precaution was taken to prevent Moir's escape after the discovery, but that "it was found impossible to guard against treachery in the institution itself." This seems a queer assertion on the face of it.

On top of tales of a poor wheat yield in the southern part of the western provinces comes the discouraging statement of a prominent apple shipper in Nova Scotia that the apple crop this year will be one of the poorest on record. Roughly speaking he estimated that it would only amount to a quarter of a million barrels as compared with three quarters of a million for last season. The theory that the shortage is due to the late frosts seems to be offset by the good showing of the peach and plum crops, which do not appear to have been affected to any extent. If this estimate be true, it will be a blow to Nova Scotia, but it seems too pessimistic.

There is a rumor that the Montreal Board of Control is investigating the circumstances connected with a municipal scandal, which will probably be published in detail during the next few days. According to information received Nolan Street, which is in the neighborhood of the Angus shops and belongs to the C.P.R. has been macadamized at the expense of the city, the aldermen having evidently been under the impression that the street was the property of the city. The discovery was only made when the work was almost finished. The main thing now is to fix the responsibility for the error, and this should not be difficult.

NOT ENOUGH RUSSELL-KNIGHT CARS TO SATISFY THE DEMAND.

More people wished to purchase Russell-Knight cars in 1910, and were unable to get them, than there were actual purchasers. This despite the fact that we increased our output 75 per cent in twelve months.

What more striking proof of the merit of a car and of the recognition of that merit by the motoring public!

For 1911 we will make many more cars, but we cannot hope to fill the demand for the Russell-Knight cars.

We are adding \$100,000 of new plant to our facilities. Think of it—\$100,000 of beautifully lighted fireproof buildings, and new special machinery for accurate and rapid work.

This addition is a large factory itself, but added to our present large plant, it gives us an equipment not approached by anyone in Canada.

This means—

(1) Still better Russell cars, because the equipment will aid us in further refinements.

(2) More Russell cars to cope with the demand.

Do not wait, however, till the Russell output is sold and have to be satisfied with an inferior car.

Call and let us explain the features of Russell cars fully.

Send us your name to receive handsome 1911 catalogue, to be issued shortly. Prices of new models on application.

DEPORTED PEOPLE CAUSE TROUBLE

In the Immigration Buildings—Men and Women Acted Like Maniacs Before Leaving.

There was a wild scene and one that greatly disturbed the usually orderly precincts of the Immigration Buildings at this port, on Saturday evening. The trouble was caused by some recently arrived immigrants, forty in number, who were brought down to the Immigration Buildings to be deported on the steamer Cairnora. These people, thirty of whom came here intending to go to the United States and ten to remain in Canada, were found to be suffering from trachoma and other diseases, which rendered them undesirable citizens for either country, and they were therefore rejected by the medical inspectors and ordered to be deported. When the party reached the Immigration Buildings from the Detention Hospital on Saturday evening, and found out that they would have to return to their respective countries, they acted like maniacs. The men shouted, swore and tore their hair with rage, while some of the women wept and became hysterical. One of the spectators stated that the scene appeared to him a veritable inferno. The officials of the department had the greatest difficulty to keep the infuriated people under control, and it was with no little trouble that they were finally taken on board the Cairnora, which left immediately on her voyage to London.

ALLAN LINE.

Steamer Lake Erie, Captain Carey, arrived from Montreal at 3.45 p.m. on Saturday, mooring at the company's wharf. She left for Havre and London at 10.35 p.m. same day after embarking Quebec passengers and cargo. Among her cabin passengers are Mr. F. Dazin, of Quebec, and Rev. Brother Stanislas Dangel, of the Franciscan Order, who was expelled from France some years ago. He is on his way to the Holy Land.

Steamer Grampian, Captain Johnston, from Glasgow, arrived in port at 10.45 p.m. on Saturday, mooring at the Breakwater. She left for Montreal at 11 a.m. yesterday, after landing passengers and Quebec cargo. She brought 160 cabin, 224 second and 302 third class passengers.

Steamer Pomeranian, Captain Henry, from London and Havre, with passengers and general cargo, arrived in port last night, mooring at the Breakwater. She will land her passengers this morning.

Steamer Tunisian, Captain Fairfull, which left Liverpool on Thursday for Quebec, has over 1,100 passengers and a general cargo.

Steamer Ionian, Captain Eastaway, arrived from Montreal at 3 p.m. on Saturday and proceeded for Glasgow.

C.P.R. LINE.

Steamer Lake Champlain, Lieut. Webster, R.N.R., from Liverpool, with passengers and general cargo, arrived in port at 11 a.m. yesterday, mooring at the Breakwater. Having landed her passengers, she left for Montreal at 1 p.m. She brought out 143 cabin and 450 stowage passengers.

R.M.S. Empress of Ireland, Lieut. Forster, R.N.R., which left Liverpool last Friday for Quebec, has 1,600 passengers on board, besides the mails and a general cargo.

Steamer Montcalm, Captain Hodder, arrived from Montreal at 4 p.m. on Saturday and proceeded for Bristol.

Steamer Mount Temple, Captain Moore, from London and Antwerp, with passengers and general cargo, arrived in port this morning, mooring at the Breakwater. She brought up the body of the late Mr. Henri De Haan, construction engineer of the Marine Department, who died some days ago at Belle Isle of heart failure. Mrs. De Haan accompanied the remains up to Quebec.

Steamer Montezuma, Captain Gillies, arrived from Montreal yesterday afternoon and proceeded for London.

CANADA LINE.

Steamer Prinz Oskar, Captain Bramber, from Quebec, arrived at Hamburg on Saturday.

Steamer Willehad, Captain Von Senden, having landed passengers and Quebec cargo, left for Montreal on Saturday morning.

DOMINION LINE.

Steamer Cornishman, Captain Maddox, from Bristol, with a general cargo, arrived in port at 8 p.m. on Saturday and moored at the Pointe-a-Carey wharf.

DONALDSON LINE.

Steamer Saturnia, Captain Fraser, from Glasgow, arrived in port at noon yesterday, mooring at the Breakwater. She left for Montreal at 1.30 p.m. after landing passengers. She brought out 232 second and 178 third class passengers.

MANCHESTER LINE.

Steamer Manchester Importer, Captain Haworth, arrived from Montreal at 9.30 p.m. on Saturday and proceeded for Manchester.

Steamer Manchester Engineer, Captain Beggs, deal laden, passed Martin River at 7.30 p.m. yesterday, inward bound. This vessel took on a cargo of deals at Campbellton, N. B., for Manchester, and was reported outward at Belle Isle some days ago. It is evident that she has met with some mishap or she would not be coming up to this port. She lost two blades of her propeller by collision with a tug at Campbellton, but these were replaced and she proceeded to sea.

QUEBEC STEAMSHIP CO.

Steamer Trinidad sailed from New York for Quebec via Halifax and the Saguenay River at 10 a.m. last Saturday.

Steamer Bermudian sailed from New York for Bermuda at 10 a.m. last Saturday.

THOMSON LINE.

Steamer Cairnora, Captain Stooke, arrived from Montreal on Saturday evening and after taking on board some 40 deported immigrants left for London.

Steamer Cairtorr, Captain Bond, arrived from Montreal yesterday afternoon and went into the Louise Basin to load for Newcastle.

WHITE STAR-DOMINION LINE.

R.M.S. Laurentic, Commander Hayes, R.D., R.N.R., from Liverpool, arrived in port at 10.30 a.m. Saturday, mooring at the Breakwater. The Laurentic experienced moderate weather on the Atlantic, but had head winds with rain and fog in the gulf and river, which caused a detention of many hours. Otherwise she would have reached here at an early hour Saturday morning. She brought out 356 first, 258 second and 790 steerage passengers. Among her saloon passengers were Right Rev. Bishop Farrar, D.D., and family; Right Rev. J. W. Hamilton, Bishop Methodist Episcopal Church, Boston; Sir Arthur and Lady Hazlerigg; Right Rev. Dr. Halsey, R. C., Bishop of Birmingham, England; Sir Henry Leonard, Bart.; Sir William Priestley, M.P., and Lady Priestley; Most Rev. John Tohill, Lord Bishop of Down and Connor, Ireland. After landing passengers the Mergantic left for Montreal at 1 p.m.

R.M.S. Dominion, Captain Mendus, arrived from Montreal at 4 p.m. Saturday, mooring at the Breakwater. After embarking Quebec passengers and the mails she left for Liverpool at 7 p.m.

R.M.S. Laurentic, Lieut. Smith, R.N.R., from Quebec, arrived at Liverpool at 3 p.m. Saturday. This is the steamer that took over the Q.O.R. of Toronto, Dr. Crippen and Miss Le Nere and escort.

SS. CRAIGENDORAN IN PORT.

The damaged steamer Craigendoran arrived in port on Saturday morning and was placed in the Louise Basin at noon. Messrs. E. C. Fry, Lloyd's agent, and Jos. Samson, Lloyd's surveyor, held preliminary surveys on her Saturday and yesterday afternoons, but as the diver, M. Begin, had not completed his examination of the ship's bottom, no decision was arrived at with regard to her.

NEW STEAMSHIP LINE.

Christina, Aug. 27.—The Norwegian American Steamship Line was accomplished here this evening with a capital of \$2,800,000. The directors of the new line were authorized to purchase the steamer Kaiser Friederich of Hamburg, which will be renamed the Leif Erikson. The proposed line will make possible travel between New York and Norway in less than nine days, instead of eleven as at present.

ASHORE AND FLOATED.

Father Point, Que., Aug. 27.—The schooner Voltiger, Captain Wm. Tremblay, of Port Neuf, Que., loaded with snowwood, struck on a reef on the north shore yesterday. In the wreck the captain suffered a broken arm and three broken ribs and abandoned the vessel with his sailors, landing at Mille Vaches. He instructed a man named Bangleais to endeavor to save his vessel. Bangleais hoisted her and got her off the reef,

TWO MEN HURT ONE FATALLY WAS IN G. T. R. WRECK AT DURAND

Struck by Wire Cable and Skull Fractured—Crushed by Cars.

Chicago Physician Who Tended the Injured After the Crash in Town.

Two serious accidents happened on Saturday evening, one of which resulted fatally and the other may also have a fatal termination. While working on a barge in the Louise Basin a man named David Hanson was struck by a wire cable and a piece of a bolt which had snapped. The unfortunate man was struck on the head and chest, and was conveyed immediately to hospital in the ambulance in an unconscious condition. He died a couple of hours later from a fractured skull. Coroner Jolicoeur will hold an inquest this morning. The work for the day had just about ended when the fatal occurrence took place.

Dr. Thos. J. O'Malley, a well-known physician of Chicago, is at present a guest at the Chateau Frontenac. It was Dr. O'Malley who rendered such valuable services to the injured in the Grand Trunk Railway collision at Durand, Mich., despite the fact of his having sustained severe injuries himself. So much was his services appreciated that the passengers on the ill-fated train presented him with a unanimous vote of thanks for his valuable aid upon that occasion. Mrs. O'Malley accompanies the doctor on his trip.

George Dumas was terribly crushed between two cars at St. Malo about 6.30 p.m. He was coupling cars at the oil tanks when, in some manner, he became caught between them and his body was fearfully mangled. He was taken to the Hotel Dieu in the ambulance, where all that was possible was done for him. His condition is very grave.

FIREMEN HAD A COUPLE OF ALARMS.

The firemen had a couple of alarms since Saturday, among the boxes being 55 yesterday morning, a little blaze in Gignac's factory being speedily extinguished by means of Sabcoks. Last night a phone message brought some men from the Central to the Fashion Craft store in St. John street, where the awning had caught fire. Several feet of it was destroyed.

SENSATIONAL RUMOR WAS WITHOUT FOUNDATION.

A rumor was current in Levis on Saturday to the effect that the body of a young girl had been found on the beach at Bienville. The rumor further stated that the body showed signs of violence, having a leg broken and eye destroyed, and had been removed to the morgue of Mr. C. Moisan. Mr. Moisan, however, denied all knowledge of any such body and investigation proved that the whole story was without foundation.

RULER OF NEW YORK'S CHINATOWN DEAD.

New York, Aug. 28.—Capt. Michael J. Galvin, of the New York police force, long an efficient ruler of Chinatown, died of Bright's disease and nervous collapse to-night. He broke down from overwork, some weeks ago not long after his transfer from Chinatown to Coney Island. Capt. Galvin was 42 years old and one of the youngest of the precinct commanders. For distinguished bravery he won three department medals during his career, and at the time of his death he was the only honor man among the captains.

KORA IS NOW PART OF JAPAN

Official Proclamation of the Annexation Was Made Yesterday Morning.

Tokio, Aug. 28.—The official promulgation of the treaty of annexation of Korea by Japan under the name Cho Sen was made at 9 o'clock this morning. There is not the slightest evidence here of jubilation over the annexation. Reports from Seoul say the people there accepted the announcement quietly. The most important paper accompanying the treaty orders the existing Korean export and import customs to remain in force for ten years, and foreign vessels are permitted to enter the coast trade for the same period. The foreign office has issued a statement outlining the negotiations for annexation. The newspapers are issuing extra editions giving full accounts of the ceding of Korea to Japan. A rescript by the Japanese Emperor says that in 1905 Korea was placed under the protectorate of Japan, but that notwithstanding the partial success of the existing government, Korea was unable to preserve order. Suspicion and misgiving permeated the peninsula and therefore, in concert with the Emperor of Korea, he arrived at a plan for the permanent annexation of Korea. The Emperor expresses the belief that Koreans in future will enjoy prosperity and that the new status will serve as a fresh guarantee for the enduring peace of the Orient.

WIRELESS MESSAGE SENT FROM AVIATOR IN FLIGHT.

New York, Aug. 27.—"Buzz, buzz, buzz," spoke the small voice of the coherer into the ear of the wireless operator stationed this afternoon on the roof of the grand stand at Sheepshead Bay race track. A mile away and 500 feet up, aviator McCurdy was a speck against the sky. The aviator began to pierce into the sputtering of the wireless. This is what he read: "Horton: Another chapter in aerial achievement is recorded in the sending of a wireless message from an aeroplane. McCurdy." Thus became a reality this afternoon the first wireless message sent from an aviator in flight to a receiving station.

LADIES, IF YOU SEEK BEAUTY.

Beauty is not to be found in lotions nor paints. These simply irritate and injure the skin. The way to acquire a rosy complexion and velvety skin together with brightness of eye and elasticity of step is to take every morning a glass of delicious and sparkling Abenakis Water. Bottled at the Springs and aerated, it is a most delicious drink, as well as the greatest of health givers. If your dealer cannot supply you, address the Abenakis Mineral Springs Co., Ltd., Abenakis Springs, P.Q., or Telephone Main 7673, Montreal.

RECEPTION TO THE PAPAL LEGATE AT QUEBEC.

An imposing reception is to be tendered at Quebec to His Eminence Cardinal Vanutelli, the Papal Legate, who will represent His Holiness at the coming Eucharistic Congress in Montreal. The King's wharf, the Archbishop's Palace, the City Hall and the Terrace and the streets through which the Cardinal will pass are to be brilliantly decorated. His Eminence will be met at Father Point by the Government steamer Lady Grey, upon which he will come up to Quebec, landing on the King's wharf. It is proposed to drive the Cardinal from the landing stage to the Archbishop's Palace in the carriage of the late Cardinal Taschereau, the first and only Cardinal of Canada.

THIS WEEK AT THE THEATRE NATIONAL.

Quebec's new permanent French Theatre, the Theatre National, opens the season to-night with "More Than Queen" holding the boards. The former Jacques Cartier Hall has been so extensively repaired and embellished that it has been transformed into a really fine theatre. Optimists are invited to see for themselves. The lower floor is divided into centre boxes, at 75c per seat, and side boxes at 60c; orchestra seats at 50c and parquet at 35c. The side galleries have been transformed into balcony stalls, containing six seats each, but any number of seats may be bought at 25c. The back gallery has been advanced over the orchestra seats, and a family circle installed there, the price of seats being 25c. The admission gallery is at the extreme back of the hall, and therefore no one need fear to be disturbed by the people in the gods. A complete staff of employes, all dressed in a special theatre uniform, will be at the disposal of patrons. A first-class orchestra, under the direction of M. Victor Rolland, of Montreal, will give interesting programmes during the entr'actes. A crowded house is expected to-night and all the week. To reserve seats phone 375.

DON'T FORGET.

That the Canadian Pacific Railway will sell tickets to Montreal and return at the remarkably low rate of \$3.35, good going by regular trains at 1.30 p.m. and 11.30 p.m., or by special trains leaving Quebec at 2.00 p.m. and 6.30 p.m., Saturday, September 10th. Also by special train at 6.10 a.m., Sunday, September 11th, arriving Montreal about 11.50, in time for the mass which will be celebrated at 12.00 in all the principal churches, also for the solemn procession.

Magnificent opportunity to visit Montreal during the Eucharistic Congress.

Secure your parlor and sleeping car reservations early. For full particulars, tickets, please apply to 30 St. John street, corner of Palais Hill, Chateau Frontenac or at Station Ticket Office. aug29x3.

SUGGESTED REFORMS FOR OXFORD UNIVERSITY.

Oxford, England, August 29.—The council of Oxford University, which has been considering certain reforms suggested by Lord Curzon of Kedleston, Chance llor of the University, has issued a voluminous report in which it recommends that Greek cease to be a compulsory study. Proposals also are put forward for the reconstruction of the council of the congregation for the convocation of faculties, for the appointment of a finance board, for the best steps to facilitate the admission of more poor students, and for the establishment of a business curriculum.

MORE RECORDS FALL BEFORE THE ATHLETES.
Chicago, Aug. 28.—Two world's records were broken here to-day at the track and field meet of the Chicago Irish-American A. C., in which the Chicago Athletic Association won the silver trophy for first place with 41 points. Matt McGrath, of the N. Y. A. C. set a new mark of 16 feet 6 1/2 inches for the 56-pound weight throw for height, beating the old record of 16 feet 1-8 inch. The throw was an exhibition, however, and does not constitute a record.
In the 56-pound weight throwing in a 7-foot circle, a special card for Martin Sheridan, Jno. Flanagan and Mat. McGrath, Flanagan made 39 feet 7 inches, beating his own record of 36 feet.

NATIONALS WON ONE-SIDED GAME

Shamrocks Were Not In It With the Locals on Saturday.

The Nationals won a one-sided game with the Montreal Shamrocks on Saturday afternoon on the Q.A.A. grounds, defeating the visitors by a score of 8 goals to 1. The locals scored three goals in each of the first two quarters, split even with one each in the third and got another tally in the fourth.

The Shamrocks being anxious to catch the boat back to Montreal, the quarters were reduced to fifteen minutes each, and the rests were also shortened. Shamrocks never had a chance during the game, which at times became somewhat scrappy. The brand of lacrosse put up was not extremely brilliant, and the Nationals did not have to extend themselves very violently. The locals had one change, Joe Malone replacing Fred Demers. The teams were as follows:

National—Moran, goal; Langlois, point; A. DeBeaumont, coverpoint; E. Alain, J. Belanger, P. Alain, defence field; J. Malone, centre; J. McCormack, J. Malone, Bernard, home field; Finet, outside home; Fortier, inside home. Captain, C. A. Nolan.

Shamrocks—Valliers, goal; Murphy, point; McCarthy, coverpoint; Powers, Allman, Kelly, defence; Quinn, centre; Harold, Cummings, Mulroney, home field; Keegan, outside home; captain, Jas. Miller.

Referee, J. Barry; judge of play, P. DeBeaumont; umpires, Lemieux, F. Hamel; timekeepers, L. A. Lagueux, E. Robitaille.

NATIONALS WON A VERY CLOSE GAME

By Defeating Cornwall They Cinched the Championship of the N. L. U.

Cornwall, Aug. 27—In one of the best matches played here in years Nationals of Montreal cinched the N.L.U. championship by defeating Cornwall by 3 to 1. Nationals played fine lacrosse, their defence was invulnerable while only the ground round work of Cornwall's defence kept the score down. Lalonde and Lamoureux both scored for the visitors in the first quarter while Phelan scored Cornwall's only tally in the second quarter. Cornwall had a little the better of the play in this quarter, but Nationals defence was hard to beat. Lalonde made it 3 to 1 shortly after the beginning of the third quarter. This ended the score, Nationals playing rag all through the final session. About 6,000 people saw the game, the biggest crowd in the history of the game here.

TECUMSEH BEAT MONTREAL

Montreal, Aug. 27—Montreal was put out of the running for the championship this afternoon by Tecumseh of Toronto by a score of 6 to 4, but it took overtime to do it, the full time ending with the score 4 all. There was only a small crowd to see the game. Neither team were exceptionally strong, both being short several of their regular line-up.

TORONTO PLAYED WITH CAPS

Toronto, Aug. 27—Toronto defeated Capitals this afternoon at Scarborough Beach in burlesque of the national game, by 14 to 4. Torontos had the game won five minutes from the face off and Caps never had a look in. At half time Torontos had the score 8 to 1 and at that were playing anything but championship lacrosse. Fitzgerald did most of the scoring for the blue shirts while Jack Shea was the best of the mediocre lot from the capital.

SICK WOMAN HANGED HERSELF ON APPLE TREE.

Wingham, Ont., August 27—Mrs. Sellers, the wife of J. L. Sellers, a prosperous farmer who lives on the third line of Morris, committed suicide this morning by hanging herself on one of the apple trees which surround the house. Mrs. Sellers has been in poor health for some weeks. This morning, it is thought, about 3 o'clock, she got up out of bed and left the house. Her husband, on awakening about 4 o'clock, missed her and instituting a search found her lifeless body hanging from a limb of an apple tree.

TORONTO POLO PLAYERS WON CHALLENGE CUP.

Toronto, Aug. 27—By a score of 14 to 6 Toronto defeated Buffalo for the Averell International Gold Challenge Cup in the last game of the polo tournament at Woodbine Park this afternoon. Toronto never played better, while Buffalo seemed to be slightly off color. The local aggregation played rings around the visitors at some stages of the contest and the final result was never in doubt. Toronto did not lose a game during the tourney and won all by large scores. Capt. Straubenzie was the star of the field.

RESULTS OF LAST DAY AT DELORIMIER.

Montreal, Aug. 27—The closing day of the autumn race meet at Delorimier Park brought out an immense crowd, and the races were all run on a good track under ideal weather conditions. Results:—

1st race—Congo, won; Virginia Maid, 2nd; Sally Savage, 3rd. Time, 1:26 3/4.

2nd race—Grace Kimball won; Rappold, 2nd; Haymarket, 3rd. Time, 1:24.

3rd race—Felix won; Ed Keck, 2nd; Sabo Blend, 3rd. Time, 1:17 3/4.

4th race—John A. Munro won; Pleading, 2nd; Bonnie Bee, 3rd. Time, 1:12 3/4.

5th race—Isabel Casse won; Mary's Aunt, 2nd; Huxtor, 3rd. Time, 1:04 3/4.

BIG SHOW TO-NIGHT AT MONTMORENCY FALLS.

NAPOLEONS WON EXHIBITION.

The Napoleons won an interesting exhibition game from the St. Patrick's ball team in Lewis yesterday, the score being 8 to 1. The game was not so one-sided as the score would indicate, Poliquin pulling himself out of several tight places. Fressell pitched a strong game, striking out nine men. The Saints were unfortunate in losing Walsh in the seventh inning, a foul tip knocking one of his fingers out of business. The fielding on both sides, though erratic at times, the grounds being bad, was also brilliant. Kirkwood's work for the Irishmen figured prominently in this respect. The Napoleons presented the most formidable line-up they have had this season. The score:—

EATON ATHLETIC CLUB HAS HIGH AMBITIONS.

Toronto, Aug. 27—Rumor has it that the T. Eaton Company are endeavoring to purchase the N. L. U. franchise of the Toronto Lacrosse Club. It is said that negotiations have been going on for some time and in the event of a transfer of the N.L.U. privilege, the name of the club would be changed and the games played at the new athletic field of the Eaton A.A.A. in Moore Park. It is the intention of the big store management to run the team on a semi-professional basis, so it is whispered, with a well known coach and manager in charge. The players would get remunerative positions in the establishment, and by playing under the name of the Eaton A.A.A. the many employees of the firm would undoubtedly patronize the games. A gentleman very much interested in Eaton athletics did not deny, when seen to-day that there was something to the rumor. He seemed to prefer to have the announcement come from the other end. The Toronto Lacrosse Club it is said would not be sorry to move from Scarborough Beach, fine though the grounds are and developments may occur which may make the game with the Capitals to-day the last N.L.U. fixture to be played at Scarborough.

CRICKET MATCH.

The call of a time and a failing light made the cricket match between the Q.C.C. and the R.C.G.A. a draw last Saturday, the scores then being: Quebec, 110. Artillery, 60 for 10 wickets. The chief feature of the game was the general excellence of the bowling, Ansell and Gardiner shining particularly in this respect, though Mustard for the home team and Bunyan and Flinter for the soldiers continually sent down balls that beat the batsmen. The Quebec team batted first, both sides playing 12 men, but none of their first nine did much with the bowling except Taylor (16) and Farish (14), most of the wickets being down for the meagre score of 55. However, Ansell went in at this juncture and by careful playing forced the total up to 110, the last partnership of the innings, adding on something like 30 runs. At this point Gibbons, who was batting with him, received a bad knock and was compelled to retire hurt, while Ansell carried out his bat for 39. Runs came painfully slowly almost all through the inning, and it was a welcome relief to see an occasional spell of hitting. The bowling was too good to be trifled with and cautious play was undoubtedly the best policy.

The majority of the R.C.G.A. wickets fell very cheaply before the attack of Ansell and Mustard, and little resistance was made except by Major Poole, Gardiner, Bunyan and Lieut. Acland, who, in spite of fooling his shot several times, made some great drives until he was bunkered at the tenth tee-off. Major Poole was very unlucky to get run out just when he appeared to be comfortably set and likely to make a good score. As the draw ended the odds appeared in favor of the Quebec men, but another match will probably be played to decide, when an earlier hour for drawing stumps should be arranged.

CHICAGO GRAIN MARKET.
 Chicago, Aug. 27.—Wheat ruled higher from the start and closed 1 to 1 1/2 up. Corn borrowed strength from the wheat pit and finished 1/4 to 1/2 higher, while oats, on a moderate trade, advanced and closed 1/4 to 1/2 up. Provisions showed a strong tone and finished at 2 1/4 to 2 1/2 higher, with pork leading the other products. Reports of export sales from Chicago, although moderate in volume, controlled the wheat pit to-day and were the basis for a bullish feeling throughout the session. At the start prices advanced sharply and on the upturn shorts began buying. Strength in the wheat pit had a salutary effect on corn prices, which advanced to a finish 1/4 to 1/2 higher than yesterday's closing quotations. There was some covering by shorts, who feared a recurrence of frost scares, although the weather throughout the corn belt was all that could be desired by growers. Cash demand was good. Futures closed strong.

LONDON STOCK MARKET.
 London, Aug. 27.—The stock exchange closed the week in a more cheerful mood and hopeful that the conclusion of the settlements Monday will see the return of more normal conditions. Lifelessness was the feature during the week and prices in some departments were marked down, simply through neglect, but the markets generally were fairly steady. Money became scarcer and discounts advanced steadily. It is expected in Lombard street that the bank rate will be raised. Consols and gilt-edged securities ranged steady and foreigners were quiet. De Beers showed strength on better coverings and Kaffirs were irregular. Rubber prices were maintained and this steadied rubber shares. Speculators took very little interest in the American securities market, which closed quiet but steady, with values showing losses of 1/4 to 3/4 points. Atchison, Topoka & Santa Fe common, however, showed an advance of 1/4 point.

HOW TO KEEP CUT FLOWERS
 Choose flowers that are not quite fully out and cut them early in the morning with long stems. Arrange them not too close together in a vase deep enough to immerse two-fifths of the stems. By previously putting some pieces of charcoal in the vase the water can be kept sweet, but in any case it should be changed every five or six hours. Keep the vase always full of water. Keep the flowers in a cool, but not drafty, place. Certain flowers do much better if a small portion of the stem is cut off, especially if they have been carried a long way, and a certain number are better for slicing the stems up, so as to let them absorb the water easily. This is especially so with flowers that are apt to off quickly, like the heliobores.

PEARY'S PROOFS MADE PUBLIC
 Commander Tells of Arrival and Calculations Which Verified it.
 New York, Aug. 28.—Commander Robert E. Peary makes public in "Hampton's Magazine" for August the calculations made by him in reaching the North Pole and which were accepted as proof of his achievement by the National Geographical Society of America. These were the proofs which Peary refused to submit to Congress in March, when that body was considering an official reward for the explorer. A statement sent by Peary at that time to the sub-committee of the House Committee on Naval Affairs ran thus:—
 "Commander Peary and his friends say that contracts signed months ago with his publishers render it impossible to make his records and scientific data public now. It would not only subject Peary to heavy damages—a loss which he cannot meet, having just extricated himself from debt incurred in connection with his various expeditions—but it would be breaking faith with his publishers, which he is unwilling to do under any circumstances."
 These are the records, too, upon the basis of which medals were awarded by the Royal Geographical Society of London, the Imperial German Geographical Society and the Royal Italian Geographical Society.

Series of Forced Marches.
 Peary tells how he started out to cover the last lap of his dash by five forced marches, about 133 nautical miles, as indicated by observations made by Captain Bartlett just before the latter turned back with the last supporting party. A description of the instruments carried to determine the position of the pole, including the artificial horizon and glass roof, as given by Peary, may enlighten those persons who were confused during the controversy last fall by questions of accuracy and value of observations taken at or near the pole.
 Peary repeats only one series of observations made on the last lap of the journey—those taken at 6 o'clock in the morning of April 7 at Camp Morris K. Jesup, indicating the position of the party as being four or five miles from the pole toward Bering Strait. Describing the final achievement, Commander Peary says:
 "About ten o'clock in the forenoon of April 6 I called halt, I had now made my marches, and estimated that we were in the immediate neighborhood of our goal, and at local noon, on the Columbia meridian, I made my first observation at our polar camp, named the Morris K. Jesup Camp, which indicated our position as 89 degrees 57 minutes.

WORKMAN KILLED BY BEE.
 An extraordinary case is reported from Kirdford, Sussex. William M. Rhind, a builder, was stung by a bee when he was at school, and ever afterward he had an intense and quite abnormal dread of the insects. Recently he was gathering mushrooms—he was spending his holidays at Kirdford—and was stung on the forehead by a bee. He was dead in half an hour.
 The physicians declare that death was due to shock. A well-known authority on diseases of the nerves, when seen by a reporter said: "To men and women of a highly sensitive temperament, and with a predisposition to fear certain specific dangers, the effect of shock is often attended by serious and, in some cases, fatal, consequences. Some lose their reason, and I have known women under certain conditions give birth to children who bore on their bodies marks of the very thing that produced the shock."
 "As in the case of the unfortunate man who died from shock caused by the sting of a bee—for which he felt a strong aversion—I know of one of the most distinguished Generals in His Majesty's army—a household word, in fact—who hates cats, and trembles when one springs on his knee. Others cannot endure the sight of blood, and it is an established fact that soldiers have been literally frightened to death by their first vision of the carnage of battle."
 "Then the sting of a bee is peculiarly penetrating and irritating. From slender, horny barbs poison is discharged which is said to be composed of mischievous and pungent salts."
 "The sting itself consists of a sharp-pointed tubular instrument, and I can easily understand that when it suddenly pierced the man's forehead the effect on a weak heart would be collapse."

FLIGHT FROM PARIS TO LONDON IS DIFFICULT.

Kemsing, Eng., August 28.—John B. Moissant, the aviator, started again at 7:55 o'clock this morning to finish out the remaining 27 miles of his flight from Paris to London. Again, however, he was doomed to disappointment, for after having risen to a height of fifty feet in a tricky wind his monoplane swerved downward and struck the earth. The propeller of the machine was smashed and the fore wheels buckled, but neither Moissant nor his mechanic, Alb. Fileux, was injured. A crowd of 500 persons witnessed the attempted flight.

ELOQUENT SERMONS WERE PREACHED

By Ven. Archdeacon Madden and Rev. Geo. Hanson Yesterday.

Saturday morning the executive of the Quebec Evangelical Alliance, representative of the several Evangelical churches of the city, met in the rooms of the Y.M.C.A. to extend Christian greetings and welcome to the Ven. Archdeacon Madden, and the Rev. Geo. Hanson, M.A., D.D., a delegation from the British Evangelical Alliance to Canada, in the interests of unity and Christian co-operation in all lands. There was a good attendance, and in the absence of the President, the Rev. Hugh A. Ellis, the Rev. Wylie C. Clark, B.D., was called upon to preside and to lead in the devotional exercises. He explained the object of the meeting, and called upon the Rev. Dr. Love and the Rev. E. J. Stobo to address words of welcome to the deputation which was done in a very brief and happy manner, and was acknowledged appropriately by the members of the deputation, and a very pleasant and profitable hour was spent in conference and prayer. The Rev. G. H. Cobbleddick, M.A., B.D., closed the proceedings with an appropriate prayer and the benediction.

Yesterday the Ven. Archdeacon Madden preached to large congregations in Trinity Church and in the Cathedral and delivered interesting and inspiring messages to both congregations. The Rev. Geo. Hanson, M.A., B.D., in the morning preached in Chalmers' Church to a Union congregation, the Methodists having consented to merge their service with that of Chalmers' Church. There was a large congregation and a hearty and inspiring service.

In the evening there was a united service in the Methodist Church, Chalmers', St. Andrew's and the Baptist churches having merged their evening services into that of the Methodist Church. There was a very large congregation. The Rev. Dr. Hanson was again the preacher and delivered to the united congregations a powerful and informing address. The day was an auspicious one to the Evangelicals of the city, and will be long remembered as leaving an influence for good. The deputation will visit over twenty of the principal centres in Canada in the interests of the Alliance before returning to the old land. The Quebec Evangelical Alliance was formed in the year 1873, and has since served a very useful end, during the last 37 years. The deputation will be heartily welcomed back to the old rock city and their voices gladly heard once more.

DEATH OF AGED FRENCH PRIEST IN ONTARIO.

Windsor, Ont., August 28. — Rev. Bartholomew Boubat, 78 years of age, one of the oldest members of the Catholic priesthood in Ontario, is dead at the former home, this city. Father Boubat was born and resided in Clermont France, and came to Canada about the middle of the last century. He was one of a number of young French men who answered a call made by the then Bishop of Toronto at a time when there was a dearth of priests in the Dominion. His first charge was St. Pierre parish, in Raleigh township, near Chatham, and he subsequently occupied 15 different charges throughout Western Ontario.

ARCTIC SHIP ROOSEVELT HAS ANOTHER ESCAPE.

New York, Aug 27.—The Roosevelt, Commander Robert E. Peary's ship of discovery, narrowly escaped serious injury from fire to-day at her berth at Weehawken, N.J. The steamer was moored near the piers of the Union Dry Dock Co., which were swept by flames with a loss of about \$150,000. So quickly did the blaze spread that the fore-castle of the Roosevelt was ablaze before help could be summoned. Tugs finally pulled the burning vessel out of danger and she was saved with slight damage. This is the second time the Roosevelt has been afire during her stay in this port. Several weeks ago a smudge in a pile was found between decks and did slight damage.

ROOSEVELT INDULGES IN SOME COWBOY RIDING.

Cheyenne, Wyo., Aug. 27.—"I'm here to see what you fellows can do on the burriane deck of a broncho," Theodore Roosevelt said to-day as a group of cowboys, the hardest riders in the West, gathered about him, mounted on their horses. He saw all that the Wild West to-day had to show him in the way of deeds of skill and daring and said that the spirit of the West was still alive. As Mr. Roosevelt watched the cowboys at their work, heard the Indians yell and saw the familiar sights of more than 20 years ago, when for a short time he was a plainsman, the spirit of it all came over him again and he climbed down from the flag-bedded reviewing stand and mounted a big white horse. He galloped around the half-mile track at Frontier Park and past the crowded grandstand, while cowboys yelled. Indians gave their war whoop and the rest of the crowd joined in a tremendous shout.

WEALTHY WOMAN AND HER PEARLS

Must Appear and Show That She is Not a Smuggler.

New York, Aug. 28.—According to customs officials, Mrs. I. Reynolds Adriance, of Poughkeepsie, N. Y., socially prominent and wealthy, will be summoned to appear at the customs house tomorrow to show cause why she should not be arrested on a charge of smuggling. Arriving to-day on the White Star liner Baltic, customs inspectors say she failed to mention in her declaration of dutiable goods a \$6,000 pearl necklace, found, after a search of her person, hidden in her hat. According to customs officials Mrs. Adriance mentioned no pearls, although submitting a carefully prepared declaration with unusual attention to details—even the original invoices showing the exact purchase prices. She paid \$180 in duty, but the customs men were not satisfied.

While Mr. Adriance, who had come here from Poughkeepsie to meet her, protested indignantly, Mrs. Adriance and her 18-year-old daughter Helen were taken to their cabin and searched by women inspectors, who found only a gold mesh purse, which Mrs. Adriance insisted she had bought in this country. She adhered to this statement, according to the customs officers, until Miss Helen Adriance exclaimed: "Oh, mother, why don't you tell them we got it in Lucerne. I wanted you to do that at first." The mother then admitted, the officials say, that the purse was purchased in Switzerland. She refused to give it up, but agreed to pay duty.

This ended the ordeal temporarily, but while pacing the pier waiting for the removal of her trunks, the customs officials charge that Mrs. Adriance took a slip of paper from the purse, tore it into tiny bits and threw them away. They were collected by government agents and when patched together gave evidence which the customs men considered enough to warrant another search. Mrs. Adriance then admitted, they say, that she had a pearl necklace.

She returned to the ship and went to her cabin, closely followed by two women inspectors, where, according to the inspectors, she locked the door. When the inspectors finally made entrance they say they found Mrs. Adriance seated on the edge of the bed with her straw hat in her lap. The lining had been ripped out and from beneath the silk came a curved tubing, in which, according to the inspectors, were more than fifty pearls, taken from the necklace. In her excitement, the inspectors say, Mrs. Adriance had spilled many of the jewels on the cabin floor.

It is said the pearls were bought in Italy. Should a case be made against their owner on a charge of smuggling, she is liable to a fine of \$5,000, and to obtain possession of the jewels she must pay a penalty of twice their foreign value—\$6,000—plus a duty of 60 per cent. Private advices to the Treasury Department from representatives in Europe were to the effect that Mrs. Adriance had bought jewelry abroad.

BIG SHOW TO-NIGHT AT MONTMORENCY FALLS.

MAYOR GAYNOR LEAVES HOSPITAL

Bore the Trip Well, Though He is Still in a Weak Condition.

New York, Aug. 28.—Mayor Gaynor was removed from St. Mary's Hospital in Hoboken this morning to his country home at St. James, L. I. He bore the trip well, but his insistent plea to be allowed to walk unaided resulted in three distressing incidents. Once he sank to his knees as he tried to enter an automobile and in ascending the steps of his home he fell on all-fours from over-exertion. Despite his weakness, however, he maintained his cheerful mood and spent the afternoon reclining in a chair on the veranda.

The Mayor left the hospital at 9.30 o'clock this morning. He had been there since August 9, the day on which he was shot. He walked unaided from his room on the fourth floor to the elevator, and from the ground floor to the automobile in which he was driven to a New York police patrol boat, waiting for him at a pier in Hoboken. In entering the auto, however, he overestimated his strength and had difficulty in climbing onto the running board. His step was feeble and his knees bent with every step. With him rode Mrs. Gaynor, his son Rufus, Robert Adamson, his private secretary, his family physician and Luke Clark, a hospital doctor, to whom he had taken an especial liking.

To Long Island City the Mayor rode in the after-cabin, sitting up all the way. Arriving there he walked down the deck and across the gangplank unassisted, but took a firm hold on the rail. There was a wheel chair on the dock to receive him, but he walked to an electric car. Here the Mayor again miscalculated his strength in trying to get into the car and sank to his knees.

Because of the bandages around his neck covering part of his face, few people recognized the Mayor in the Long Island City station. There he was transferred to the private car of President Ralph Peters of the Long Island railroad, and this was attached to a special train. He kept silent throughout the journey to St. James, which was without particular incident.

A crowd of neighbors was on hand to greet the Mayor, but they respected his wish for quiet, and there was no demonstration. But he smiled and greeted those nearest him, then whirled rapidly to his home, arriving shortly after noon.

Notwithstanding his two previous shows of feebleness, the Mayor, in his joy at reaching home, asked to be allowed to go up the steps alone. He got only part way, then fell upon his hands and knees. He was not injured, nor would he admit he had fallen because of lack of strength. He insisted that he was strong. He sat in the open air throughout the afternoon, reading and gazing at the country about.

Only two reporters were permitted to see him. To one of them who commented upon the attempt to assassinate him, Mayor Gaynor said: "I am content. My great hope is that the event will help to make me a better man and more patient and just." The Mayor still manifests a disinclination to discuss the shooting and those words are practically the first statement of his attitude on the matter.

Secretary Adamson said to-night that for the present no operation for the removal of the bullet would be performed. The Mayor is still unable to make himself understood except with great difficulty, and he is still bothered with a cough and has trouble in swallowing. His physicians do not appear alarmed, however, and ascribe his weakness to his enforced confinement in the hospital. It is probable that his projected trip to the Adirondacks will be abandoned.
