THE CUBAN INSURRECTION.

Cienfugos is in a State of Siege.

THREE THOUSAND REBELS INTEND TO FIGHT THEIR WAY INTO HAVANA IF RESISTED.

Havana, September 18.—The only results thus far of President Palma's order for the suspension of hostilities have been that Liberal leaders, who hitherto have had every reason for anticipating arrest, are circulating openly in Havana again and even conferring with members of the Government with regard to peace, and that such insurgents in the field as have been consulted, while they express themselves as agreeable to settling matters amicably, at the same time assume an independent attitude which cannot be said to bode particularly well for a prompt settlement of existing difficulties.

In the meantime Cienfuegos is in a state of siege, communication by telegraph being severed not only in the direction of Havana, but to Santiago as well. It is known that Cienfuegos has not been attacked up to midnight Sunday, but what has transpired since that time is not known here.

All accounts agree that there are easily 3,000 insurgents a few miles southeast of Havana, and rumors are in circulation that they will enter the city peaceably if they are not molested, but that they will fight if they meet with resistance.

All visitors to insurgent camps in Havana province return with this impression, but it is believed no attempt will be made against Havana until the arrival of Pino Guerra's force, which now is variously reported to be from 20 to 40 miles distant. The general impression is that the presence in Havana harbor of the American cruiser Denver will not act as a deterrent to such a movement, the auxiliary cruiser Dixie having gone to Cienfuegos and the cruiser Des Moines having gone presumably to bring to Cuba Secretary of War Taft and Assistant Secretary of State Bacon.

The announcement from Washington that American vessels of war will protect British as well as American interests is taken as applying especially to Cienfuegos, where the English-owned Cuban Central Railroad has been obliged to suspend operations, and has suffered considerable damage to its property. The Western Railway, also a British enterprise, is now suffering especial damage, except in the vicinity of Havana, and it is expected the latter line will be completely reopened today.

Havana, September 18.—At a meeting of rebel leaders held in the town hall of Bejucal yesterday it was decided, after a number of violent speeches had been delivered, not to accept the peace propositions of the Government.

FORCES TO MARCH TOWARDS HAVANA.

Matanzos, Sept. 18.—(Special)—The Government forces, 2,000 strong, under the command of General Belancourt, are concentrating here, and it is reported that they expect orders to march towards Havana.

ROBBER AT GENEVA SCENTED BY BLOODHOUND.

POLICE FAILED TO TRACE THE THEFT AND THE CANINE WAS TRIED.

Geneva, Sept. 18.—Some days ago the offices of Sandmeier Rohler & Co., of Seengen, in the canton of Argovie, were broken into, and some share scrip and a sum of $100 were taken.

The only clew to the thief was a handkerchief, which he had dropped on the office floor. As the police failed to make an arrest, Herr Rohler, who keeps bloodhounds, set one of the dogs on the trail. In spite of the fact that the scent was two days old, the dog, after smelling the handkerchief, set off at full speed, dashed through the open door of a house nearby, and when Herr Rohler arrived the dog was fighting in the cellar over a boot which contained the money and the shares.

A former clerk named Koch, aged 22 years, who owned the boot, was arrested and confessed to the robbery.

DISASTER TO FISHERMEN.

SEVEN ADDITIONAL SCHOONERS DRIVEN ASHORE ON COAST OF LABRADOR.

St. Johns, Nfld., September 18.—Besides 11 schooners wrecked at Belle Isle recently by storms, seven others, with over 100 souls on board, were driven ashore on the Labrador Coast. Four fatalities are reported so far. Over 250 castaways are now awaiting the arrival of a Government steamer to convey them home. This is the worst disaster since 1886, when 868 fisher folk were made destitute by one storm, and it required a steamer to return them home.

ANNUAL MEETING OF G. T. P. POSTPONED.

WILL TAKE PLACE ABOUT THE MIDDLE OF OCTOBER.

Montreal, Sept. 18.—(Special.)—The annual meeting of the Grand Trunk Pacific, which was to have taken place to-day, has been postponed until the middle of October, as the reports have not yet been completed.

ACTIONS IN SUPERIOR COURT.

Heavy Damages Asked Against C. P. R.

LATE PROPRIETORS OF CHATEAU FRONTENAC SUED BY MR. JONCAS.

Two actions for damages arising out of the accident to a C.P.R. emigrant train near Megantic some months ago, have been entered in the Superior Court. It will be remembered that two of the injured men were taken to Sherbrooke Protestant Hospital, and after their discharge they have resided here. Herbert Hughes sues for $15,000 and George French for $15,167.

Mr. A. Joncas has also entered an action for $2000 against Harvey, late proprietor of the Chateau Frontenac, for rent.

BIG STRIKE IN WINNIPEG.

FIVE THOUSAND SKILLED MECHANICS GO OUT—SERIOUS BLOW TO BUILDING TRADE.

Winnipeg, Sept. 18.—Five thousand skilled mechanics are on strike in Winnipeg. At noon a mass meeting was held in Trades' Hall to strengthen the hands of the strike committee, and the feeling was unanimous in favor of a continuance of the strike, with, of course, the rider that the men are open to arbitration. The strike is a sympathetic one, arising out of a long-protracted dispute between the journeymen and master plumbers. The journeymen walked out and the masters refused to arbitrate. In this the bosses were endorsed by the Master Builders' Exchange, whereupon the journeymen plumbers yesterday morning were endorsed by all journeymen of other trades in the building line. The two most important unions were the last to decide, bricklayers and masons, but late last night they decided to support the other trades, and a strike is the result. So far everything is orderly, but the damage to Winnipeg will be incalculable, as never before has she had so many large public buildings, banks and business blocks in course of erection. The post office, grand opera house of Walker's Bread Basket Circuit, Broadway Methodist Tabernacle, Grain Exchange, Bank of Toronto, hospital, and most of the contracts call for completion thereof in October, before the snow flies. The strike will be a protracted one, and it is going to be a test between unionism and capital. Even should the strike be settled shortly, which is not anticipated, it will throw all building back over the winter, as fine weather operations are not expected to last more than a few weeks now. The employers refuse to arbitrate.

It is feared by the authorities that the laborers kept from work by the strike will, in a short time, make a disturbance, as they are mostly Galicians and live in the north end, the scene of several fierce frays during the Street Car strike. The laborers far out-number the mechanics on strike.

CRANBERRY GROWERS PROTEST.

CLAIM THAT SHIPMENT OF GREEN BERRIES HAS AFFECTED THE MARKET.

Wareham, Sept. 18—Cranberry growers are protesting against the methods of cranberry buyers this season. The cause of complaint lies in the purchase and shipment of green berries, the growers believing that the market has been much damaged by such action. Fruit has been slow in coloring this year, and berries picked previous to Labor Day were all of the "early lemon" variety, with very little color showing. In spite of this twp cars were shipped as early as Aug. 22. One was loaded at Falmouth and the other at Sandwich. Since that time there have been continual shipments of green berries.

Over 120 cars of berries have gone off of the Cape this season, and it is said that nearly half has been green fruit. Growers who have sold defend their action by saying that the price was tempting and that it costs less to pack green fruit, as they do not have much rot to contend with.

At present the market is greatly demoralized, and nobody appears particularly anxious to buy at any price. Five dollars per barrel is the highest quotation which any of the buyers will make. Growers are greatly discouraged at the aspect of affairs, and are already talking of measures to prevent the recurrence of such a thing another year.

QUEBEC SOUTHERN AND SOUTH SHORE COMPANIES.

SALE OF ROADS DECLARED TO BE ILLEGAL AND ULTRA VIRES.

Montreal, Sept. 18.—Action has been instituted in the Superior Court by Hiram A. Hodge, President of the Quebec Southern and South Shore Railway Companies, to set aside the sale of these railways made in November last to Senator Beique, of Montreal, for the sum of $1,051,000, Senator Beique making the purchase for the Delaware and Hudson. The plaintiff declares that the sale was irregular and ultra vires and that Senator Beique was not a competent bidder by reason of his position as an advocate and as counsel to the receiver of the Quebec Southern. A notarial protest has been served on the registrar enjoining him from executing any deed to Senator Beique or his nominee, the Delaware and Hudson Railway.

METHODIST GENERAL CONFERENCE.

Theatres, Cards and Dancing Discussed.

LIKELY TO BE REFERRED TO COMMITTEE TO REPORT IN FOUR YEARS.

Montreal, Sept. 18.—(Special.)—The question of theatres, cards and dancing was discussed by the Methodist General Conference. It is this year likely to be referred to a special commission with instruction to report at next General Conference four years hence. Thus it is hoped by the committee in charge of the issue to obviate general discussion of vexed question at the present session, but this rests ultimately with Conference. At all events there is little likelihood of church rules on subject being amended at present.

KING'S PHYSICIAN'S VIEW OF MARIENBED.

DINNER PARTIES AND PLAYING BRIDGE AT LATE HOURS CONDEMNED.

Marienbad, Sept. 18.—The growing popularity of Marienbad has been a theme of recent congratulation, especially on account of the visits of the King of England, but Dr. Ott, the most distinguished physician there, who is advising King Edward, has uttered a warning note in quite a different key. Dr. Ott is greatly distressed at the altered state of affairs in Marienbad, and he has been complaining bitterly that the visitors to the spa, who ostensibly go there for the benefit of their health indulge much too freely in dinner parties, bridge-playing and late hours.

Dr. Ott is urging a return to the simple life. His orders are: Rise early; dejeuner at 1 p.m.; a good walk in the afternoon, or a little golf, a drive, or motor ride, supper at 7 p.m., bed at ten.

NEW PORT FOR MEXICO.

NAUTLA, MIDWAY BETWEEN VERA CRUZ AND TUXPAM, TO BE DEVELOPED.

Mexico City, Mex., Sept. 18—The Teziutlan branch of the Interoceanic Railroad is to be extended from the town of Teziutlan to the port of Nautla, the concession having been granted by the Federal Government. The project is of much importance, as it will mean the development of a new port on the Gulf of Mexico. Although the general public, even in Mexico, has heard very little of Nautla, it is said to be one of the best natural ports in Mexico. Its harbor has unsurpassed features of security and location. The town of Nautla is situated on the bay of that name. The bay is landlocked by a number of islands. It is stated that comparatively little dredging and other improvement work will be necessary to make the new harbor the equal of any in Mexico. It is situated about midway between Vera Cruz and Tuxpam.

TWO OUTLAWS ARRESTED AND SHOT.

EXECUTED AT THE SCENE OF THEIR LAST MURDER.

St. Petersburg, Sept. 18.—(Special.)—Lyndberg and Kent, two most prominent revolutionary outlaws, have been arrested, tried by drumhead court-martial and executed by shooting at scene of their last murder. In a previous attempt to capture these two men they killed several policemen, who were pursuing them.

Before their execution Lyndberg and Kent boasted of many murders they took part in with other revolutionists from the Baltic provinces, in Sveaborg mutiny. They were in receipt of weekly salaries from terrorist organizations paid from proceeds of bank and train robberies.

ST. JOHNS-IBERVILLE VACANCY.

St. Johns, Que., Sept. 18. — At the meeting in the Town Hall last evening 17 delegates were named to meet in convention to-day to choose a candidate for the seat made vacant in the House of Commons by the elevation of Mr. Demers to the Bench. There still appears to be three aspirants, and matters are very much mixed, the Demers element being on the ascendant. There seemed to be an opinion that the election would not take place for some time.

HEBREW TOWN BURNED AND MANY LIVES LOST.

PROCLAMATION URGING EXTERMINATION OF RACE IN RUSSIA CAUSES GREAT ALARM.

Odessa, Sept. 18.—Anti-Hebrew agitation is rife. Wall spaces, the sides of houses and telegraph poles throughout this city have been plastered with a proclamation issued by the "Union of Russian People," urging patriots to combine to exterminate the Hebrews. This action has aroused grave apprehension.

It is reported here that the Hebrew town of Koopin in the district of Kamenetz, has been burned by peasants from the surrounding country. Some of the inhabitants are said to have been killed in flight, while many perished in the flames.

All the nine members of the local Labor Council have been arrested and will be court martialed for revolutionary activity and the collection of funds wherewith to arm the workmen.

MRS. YERKES MOTOR CAR CAUSES MAN'S DEATH.

WIDOW OF WEALTHY TRACTION MAGNATE REFUSES TO RECOGNIZE VERDICT.

Berlin, Sept. 18.—Mrs. Mary Adelaide Yerkes, widow of the London "Tube" railway magnate, is being publicly criticized for her refusal to recognize the verdict of a German court awarding $4,000 damages to the widow of a man named Lessel, who received fatal injuries by being run over by her motor car at Rintheim, in September, 1904.

After the accident, when the man's injuries were thought to be slight, Mrs. Yerkes offered $75 as compensation. He died a week later, and the widow, on behalf of herself and her two young children, made a series of unsuccessful appeals to Mrs. Yerkes' generosity.

The case was taken to court in February last, but Mrs. Yerkes refuses to recognize the verdict because it is not enforceable in the United States.

The Ottawa expert, Mr. Frank T. Shutt, of the Experimental Farm staff, in the following words: "My opinion is that both these waters are pure and wholesome, the data giving strong evidence of the absence of pollution. The differences between these waters are small and I think it need only be noted that No. 2, the mountain spring water, is the harder, as indicated by the larger proportion of solids."

The strong evidence of the above, coupled with the freedom of our village from typhoid fever, etc., should still the carping remarks from some of our neighboring villages regarding the qualities of the water supplied by the Sutton water system, which is taken at a good elevation on the mountain, and is no doubt one of the purest water supplies furnished to any village in the Eastern Townships.

ELLIOTT — GILBERT.

Bishop's Crossing, Sept. 18.—(Special)—A pretty wedding was solemnized in the Methodist Church in this place on Wednesday evening, Sept. 12, when Miss Martha, daughter of Mr. and Mrs. L. D. Gilbert, was united to Arthur J. Elliott, of Clifton, in the bonds of wedlock, by Rev. George McIntosh.

The Church was filled with interested guests, the invited ones occupying the body pews which were marked by bouquets of autumn leaves. The church was handsomely decorated and at exactly 7.30 p.m., the music of Lohegrin wedding song, played by Mrs. T. Eph. Evans, the doors being closed by the ushers, they quietly passed up the aisles on either side of the Church and took their places beside the altar, then the groom, supported by his brother, Mr. Robert Elliott, came in from the right of the Church, taking their places at the altar, and the maid of honor, Miss Lulu Gilbert, followed by the bridesmaids, Misses Lizzie Elliott and Nellie Bishop, passed up the aisle and to the music of Wagner's "Here comes the bride." The bride, on her father's arm, passed slowly to her place to be given away by her father. The beautiful ring service was used and as the ceremony closed to the music of Mendelssohn's Wedding March, superbly played, the bridal party went to the register to complete the service while the pretty ushers, Misses Stella Mayhew, Hilda Learned, Mabel Ord and Winnifred Bishop pealed out the chimes of the sweet new bell recently placed in the tower.

The many guests went to the bride's home to offer best of wishes, and a very nice lunch was served and many beautiful presents were offered with kindest of good will.

The bride was very lovely and winsome in white crepe-de-chine and taffeta and orange blossoms and veil.

We hope a happy life for the young couple who will be "at home" in East Clifton after Sept. 18th.

CHANGE IN SPELLING CONDEMNED.

LANGUAGE NOT PROPERTY OF AMERICA AND PRESENT MOVEMENT IS DERISIVE, HE STATES.

Stanford University, Cal., September 18 — Commencement exercises of Leland-Stanford Junior University were held Saturday. The commencement address was delivered by Benj. Wheeler, president of the University of California, which was on philology. He said: "The establishment for the United States of a standard of written English different from that recognized elsewhere in the English-speaking territory, is an isolating and derisive movement, promising loss and waste to intercourse and culture, introducing consciousness of contrarity where the opposite is desired.

"The English language is not the property of people of United States, still less of its Government; it is a precious possession of the English-speaking world, and the moral authority to interfere in its regulation must arise out of the entire body and not from a segment thereof.

"Any radical change such as, for instance, would be involved in phonetic writing would have the effect of cutting us from the language of Shakespeare, and the English Bible, making this a semi-foreign idiom to be acquired by special study.

"The proposal gradually to introduce, through the co-operation of the volunteers, a certain number of new spellings, and then, when these are well under way, presumably certain others, seems to promise an era of ghastly confusion in printing offices and in private orthography, and heterography, as well as much irritation to readers' eyes and spirits.

"The list of 300 words proposed by the simplified spelling board is also a somewhat haphazard collection, following no very clear principle of selection. One hundred and fifty-seven of them, such as "color," for "colour," are already in their docked form familiar to American usage. There is no excuse, however, for "thru" for "through," from any point of view."

ARRESTED AT NORTH HATLEY.

STOLE BAG OF SILVER FROM B. & M. STATION AGENT.

Mr. Wilfrid Demers was arrested last evening charged with stealing a purse containing a sum of money from the station agent at North Hatley. Mr. Smith, the agent, went out to see that everything was all right before the arrival of the express. Young Demers, who was standing by, saw the safe open and he made a rush and carried away a bag containing about $19 in silver. He was afterwards arrested and he admitted having taken the money. He had spent about three dollars in the stores, and by treating his young friends to quarters. He will come before Judge Mulvena on Thursday.

WRESTLING IN SCOTLAND.

ATHLETIC SPORT ON THE FAMOUS FIELD AT GRASMERE.

(From the London Standard.)

The sports fields at Grasmere lies at the foot of a characteristic ridge of fells, very narrow at the top and as steep nearly as the side of a house. As you sit in the grandstand this ridge rises in front of you.

On the bare precipitous slopes of it the guides' race is run. On the verdant lawn on which the grandstand is placed the wrestling matches are held and those spectators who are not in the stand make a ring around the lawn. There are coaches and carriages, too, all around, on which people sit and watch and have picnic luncheons, and it all looks rather like Lord's cricket ground reduced in size.

In Cumberland wrestling the fall is won directly a man is thrown to the ground. There is no need to pin the shoulders down as in Graeco-Roman wrestling. Here at Grasmere all is ended just when the Graeco-Roman catch-as-catch-canners would be getting to serious work. Were it not so the Grasmere sports would last all the year round. As it was, several matches went on at the same time.

Many of the men had their tights embroidered with wonderful flowers or designs in silk or wool—the work of their women folk, who were now straining to get a glimpse of how the charm worked from the swaying ranks of people around the ground.

Boys wrestled; men with white hair, who had gained in experience what they had lost in elasticity, wrestled. The boys seemed to be young Orlandos temerariously trying a fall with the Charleses of the profession, and who knows that there was not some Rosalind who saw it all dimly from the crowd and was ready to say afterward, "Sir, you have wrestled well and overcome more than your enemies."

ESCAPED FROM VERDUN.

WAS ARRESTED A FEW DAYS AGO FOR STEALING A RIDE ON C.P.R.

A man by the name of Alexander Maclean attempted to commit suicide by cutting his throat in the Sherbrooke jail the other day. When discovered it was found that he had used the edges of a thick piece of glass to make an incision in his throat. The result was that he made two deep gashes, one on either side. When discovered he had lost a great deal of blood, and medical aid was immediately summoned. He informed the doctor that he had once been in an asylum, and on the matter being referred to the authorities at Verdun it was found that he was the same Alexander Maclean that had escaped from that institution some weeks ago. An officer arrived in town on Saturday and conveyed him back to Verdun.

Maclean was sentenced to thirty days in jail for stealing a ride on the C.P.R., and his behaviour in no way gave any indication that he was of unsound mind. He belongs to Almonte, Ont.

Railroading and the Air Brake.

Among the factors contributing to the present perfection and comparative safety of railroad travelling, none has played a more important part than the Westinghouse air brake. Every train, whether freight or passenger, on every railroad of importance in the world, is now equipped with it because it is indispensable. It enables the heaviest trains of the present day to be stopped with infinitely greater ease than a single car can be brought to a standstill by the old-time method of braking by hand. By its use al common source of accidents has been almost eliminated. It is necessary to say "almost," because at very rare intervals the air brake refuses to work. The debt which railroading owes to it is generally made manifest when this occurs. The terrible accident on the Canadian Pacific near Sudbury last week was an example. By some mischance a cock in the air pipe between the first and second cars became turned off and the engineer had no control over the brakes on any of the cars beyond. A terrific head-on collision resulted causing the tragic death of thirteen passengers. Sad as such an accident is, the rarity of its occurrence still testifies to the excellence of a wonderful railway appliance.

Americana.

The conference of Americanists, which met in the Ancient Capital last week, did not receive the public attention to which it was entitled. Though perhaps not of general interest, the study of Americana undoubtedly possesses a peculiar charm and were the notice accorded it, which is deserved, it would quickly become one of the most common of subjects engaging the leisure moments of cultivated minds. We are wont to think of America, North and South, as a new world, inhabited before its discovery by Columbus by the wild aborginal Indians alone, forgetting entirely the advanced types of civilization which were found to exist in Mexico and North America, when the Spanish adventurers, who followed Columbus, penetrated to those regions. Much has been written about these ancient civilizations, of the Aztecs, who were conquered by Cortes, and of the Incas, who were conquered by Pizarro, but at no time has any great amount of public attention been attracted by these writings. The empire of Montezuma, at the time Cortez invaded it in the early years of the sixteenth century, was extensive, containing numerous cities and boasting arts and manufactures equal to what could be found at that time in Europe. The religious systems of the Azetics, however, were barbaric in the extreme, human sacrifices being a feature of many religious festivals. The civilization of the Incas of Peru, though not so advanced as that of the Aztecs, was free from this religious barbarity. They were a prosperous people, living in walled cities and honoring their religious beliefs in the erection of numerous temples, the ruins of which still remain to attest to the architectural knowledge found in this ancient empire. Having only a fleeting connection with the political history of the world at large, these peoples of the older America, are given but slight mention in our histories, children grow up in comparative ignorance that they ever existed, and this lack of knowledge extends in consequence to the majority of grown-up children. By-gone civilizations make an interesting study and the by-gone civilizations of the western world should hold a peculiar interest for all Americans using the term in its broadest sense. To hear Americanist is to take a special interest in the subject and all pertaining to it, and the object of a conference of Americanists is to share, in the customary fashion, all the information which the various members may have gained. It is worth repeating that the discussions of such a conference deserve a wider publicity in order that public interest in so interesting a subject might be stimulated.

SOUTH BOLTON.

Sept. 18.—Mr. Houldsworth, of this place, is really showing a very progressive attitude, also, kindly regards towards the people of this town in the rebuilding of the old Wedge Custom saw mill, which was destroyed by fire some two years ago. It is also expected that he has ideas of placing in an attached mill for the grinding of provinder and there is also a story in circulation of his intention of placing in a very fine finishing machine which everyone would appreciate. The construction of this mill, so far promises to be a substantial structure and of modern design. The power will be better than ever and the shipping facilities from this place are now very good over the O. M. Railway, for which we can thank Judge Foster.

The McMannis House still reigns supreme in this town and is having one of its most prosperous seasons yet. Still they linger, come and go, All are enjoying the fine scenery and beautiful surroundings with the overflowing cup of that health renown Sulphur Spring Water.

Being Square With The World

If You Would Give and Get Full Value Here's A Suggestion.

Are you getting full value out of life? And is the world getting full value out of you? In matters of business and in our relations, man to man, we owe it to ourselves and to the world to do our best,—to make ourselves of full value. Do this and, in turn, you will get full value out of life.

You can't do full justice to anything unless you feel right. And you can't feel right unless you live right. Eating right is essential to living right.

Eat the right kind of food and you will not suffer. The right kind of food for you and your family, the weak and the strong, the sick and the well, the grown folks and the little folks, is Malta-Vita, that delicious, crisp, wholewheat food.

A perfect breakfast is impossible without Malta-Vita, and it's just as good three times a day. Being a pure grain product, without any foreign sweetening agent or other adulterative, Malta-Vita is rich in food elements—every nutritious element of the best white wheat and pure barley malt extract—intensely vitalizing.

Try Malta-Vita with cream or fruit. There is no other food "just as good." None that can take its place. And it's always ready to eat. No cooking. No inconvenience. All grocers, now 10 cents.

KNOWLTON.

Sept. 18.—Mr. and Mrs. L. Ladoux attended the funeral of Mrs. Ladoux's mother in Eastman on Thursday.

Judge Lynch, Dr. Harris and Mr. L. G. Green went to Granby in an auto on Friday returning at an early hour, having enjoyed the run very much. Mr. Green had the machine to carry guests to and from the Fair.

The Reading Club, of Knowlton, have secured for to-morrow (Tuesday) evening, Mr. Wentworth, of Boston, reciter and entertainer, to give an entertainment. There will be a few choice selections by other talent, and we expect an especially good evening.

Mr. Noyes will give a phonographic concert for the benefit of the fund he is raising to retint the various rooms of the Academy, on Wednesday evening. Both of these entertainments will be in the Pettes Memorial Hall. A good attendance is desired as the object of each is a worthy one.

Harold Seale, of Montreal, is spending his holidays with his aunt, Mrs. S. J. Carter.

Mr. A. O. Cocran, of Georgie, Vt., called on Mr. England on his way from Granby home on his bicycle.

Mrs. H. N. Curtis has gone to Foster to visit Mrs. J. Martin.

Mr. M. M. Knowlton began on Saturday to sell at cheap sale the remnant of goods damaged by fire two weeks ago.

It is hard to describe the improvement Mr. Gerr and his helpers have made on the grounds of the Historical Building. The driveway from the corner and walks leading to the building from both streets are edged with sod as well as a circular plot directly in front of the building that will be devoted to flowers another summer. The large stretch of ground is smoothed and seeded down and will be a lawn of no mean size by next season. The bowling green now looks an oasis in a brown expanse, but will not be so noticeable when the new grass gets a start. Although quite an expense to the Historical Society the money is well laid out and the grounds will hereafter be a pleasure to all the villagers as well as our summer guests, of whom we have more and more every year.

Mrs. Wm. Gardner and daughter, of Montreal, are boarding at W. P. England's.

Mrs. Fay is entertaining Mrs. Ed. Goff, of New York, and Miss Graham for a couple of weeks.

The Rev. Mr. Norman, B.A., a returned missionary from Japan, will preach the missionary sermons in the Methodist Church on Sunday next, Sept. 23rd, at 10.30 a.m. and 7 p.m.

Mr. Abdallah has moved his goods into the end store where he has a better light for his store.

The willow hedge along the sidewalk on Mr. S. W. Foster's property, has been trimmed much to the advantage of pedestrians.

Departures—Mr. Walter MacFarlane to Montreal on a business trip; Dr. Symonds and family left Rockwood Cottage for his home in the city; Mr. Jas. McKewan and family, for the city after nearly four months at their pretty cottage facing the lake; Miss Annie Cameron to Manchester on Friday last; Mr. and Mrs. Robert McElroy and Elsie, and Mrs. B. Corey, on Saturday to Bolton Springs, where Mrs. Corey was taken ill; Miss Reid to Montreal on Monday, Mrs. Reid and Miss Nellie to follow her on Wednesday, next; Mr. M. Knowlson to Compton, on business; Mrs. Fay, Mrs. Goff and Miss Graham, who spent Monday at Bolton Springs.

Arrivals—Mrs. Myron Knowlton returned from the Royal Victoria Saturday morning, much improved in health; Mr. and Mrs. Will Ralston, of New Haven, Conn., visiting at her mother's; Mrs. N. K. Chamberlain visiting Mrs. Hall; Mr. and Mrs. Ezra Ball and children, of East Bolton; Mr. Jas. Ball, of Manchester, Mass, at his son's, J. Raymond Ball's; the Hon. S. A. Fisher and his aged father Dr. Fisher, driving on our streets on Monday; Mrs. Sewell Williams, of Middlebury, Mass., at her mother's, Mrs. P. Woods.

On Sunday, the 23rd of September, there will be held at the "Old Stone Church," at Philipsburg, Que., centennial services. This Church was constructed in 1819, and has been in use by the Methodists ever since. The Wesleyan Methodists had an organization and quarterly official board, a record of the work of which dates from St. Armand, Sept., 1806. One of the earliest acts of that quarterly board was the licensing as an exhorter or local preacher of a young man named Micaijah Townsend, known for many years to the now oldest inhabitants, as the efficient and highly respected Canon Townsend, of Clarenceville. At the morning service the sermon will be delivered by Dr. Ryckman, and in the evening there will be a platform meeting in which addresses will be given by Dr. Ryckman, the present pastor; Rev. Wm. Adams, and Rev. E. M. Taylor, Secretary of the Brome County Historical Society, who will give a sketch of Methodism in the Townships, with statistics of several periods.

We are pleased to report Mr. George Mizener is again able to be out after being confined to the house for over two weeks.

AUSTRALIA FAVORS RECIPROCITY TREATY.

CONSIDERATION OF THE SCHEDULE OF DUTIES IS POSTPONED, HOWEVER.

London, Sept. 18—After a two days' discussion the Australian Federal House of Representatives affirmed the principle of a reciprocal treaty with New Zealand. Premier Deakin immediately postponed consideration of the schedule of duties pending the decision of New Zealand. The discussion revealed the marked disloyalty of the protectionists representing the country districts which feared the competition of New Zealand products.

The lecture to be given on Monday evening next at the Monument National by the Rev. Louis Lalonde, S. J., of Montreal, will be an event of more than ordinary importance. Father Lalonde, who is a member of the Jesuit College, Montreal, was for many years professor of literature and belles letters in the institution, and now devotes his remarkable talents to the lecture platform. Father Lalonde is a past master of all the arts of oratory, and his subject, "Qualities and Defects" (of his countrymen) is an interesting one. Like all the members of religious orders in the Roman Catholic Church, he does not profit personally by his work. He has taken the vows of "poverty," and has nothing of his own. By special permission of his Superior, however, Father Lalonde's share of the receipts of his lectures is applied to a fund which he has raised for the education of poor boys and 20 impecunious young men are now being educated by him.

THE AZILDA WRECK ON C. P. R.

SPECIAL TRAIN TO TEST AIR BRAKES — COMPANY SETTLING WITH THE SUFFERERS.

North Bay, Ont., Sept. 18.—The investigation into the cause of the wreck near Azilda, on the C.P.R., is still progressing, and the railway company has arranged for a test of the air brakes at the identical spot where the wreck occurred. A train will be made up of the same number of cars, with an engine of similar type as the one drawing the eastbound train on the fatal morning of Sept. 12th, and the angle cock will be thoroughly tested, open and closed, and with chains detached. An exhaustive test will thus be made and every effort will be made to clear up the mystery attached to the cause of the wreck. A preliminary test was in progress yesterday between Sturgeon Falls and Meadowside with a special train similar to the one in the wreck. The train used for this test was made up of nine colonist cars the sleeping car Truro and one refrigerator car. The local officials on the special included Supt. Nelson, Master Mechanic Fulton, Trainmaster Hughes, Travelling Engineer Turner and two experts from the Westinghouse air brake company. The train consisted of Engineer Drake, Fireman Lett and Conductor Rainville, with brakeman. Engine 1150 was used. The test of Azilda will be made with the same crew which was in the wreck. The company have settled with a number of the sufferers by the accident, but a number refused the amounts offered. One man made a claim for 75c. for a ruined shirt and he was promptly settled with. This was the lowest claim made.

CARTOONS DISPLAYING CRUELTY TO COOLIES.

BEING REPRODUCED IN CHINA AND HAVE THE EFFECT OF INCITING TROUBLE.

Peking, Sept. 18.—Copies of Chinese illustrated newspapers containing cartoons showing coolies on the Rand being subjected to refined forms of torture, are being widely circulated. These cartoons are doing incalculable damage in stirring up enmity against foreigners throughout the Chinese Empire.

They are taken for the most part from the discredited book, "Slave Driving on the Rand," of which the anti-British London newspaper made much capital, and which was afterwards shown to have been illustrated with pictures for which coolies were paid to pose as if they were being beaten by English mine managers.

The cartoons are supplemented by statements taken from London journals giving what purport to be accurate accounts of the torture of Chinamen. In one case these statements are described as being vouched for by "Professor" Clifford (sic.), Chinese editor apparently having a hallucination that is a hall-mark of truth.

The cartoons show Chinamen hung by the hands to beams. Others depict them huddled up in corners, and being beaten with the "cat."

In the present inflamed state of feeling in China, when the safety of Europeans and Americans hangs on a very slender thread these pictures are having a dangerous effect on the uneducated readers who see them. These have never had any means of learning the actual conditions under which the coolies work in South Africa.

Pandora Range

SAVES FUEL AND HELPS TO PAY FOR ITSELF.

It is not the price you pay for a range which makes it cheap or expensive, but the fuel it consumes after you get it.

If you buy a range which costs $5 to $7 less than a "Pandora" and it burns a ton, or only half a ton of coal more in a year, what do your gain? Nothing, but you actually lose money, besides putting up with all the inconveniences, troubles and extra work which are a certainty with a poor range.

The "Pandora" is equipped with many fuel-saving features which are not found on any other range. Hot-air flues are constructed so that all the heat from the fire-box travels directly under every pot-hole and around the oven twice—every atom of heat is used, and only the smoke goes up the chimney.

Boils and Pimples

Red Rash, Eczema, in fact any skin disease, disfigures the complexion because the bowels are constipated—or because the kidneys do not rid the system of waste—or because the skin itself is unhealthy.

Ointments, salves and soaps are useless. Because the trouble is with the blood.

Owing to defective action of bowels, kidneys or skin, the blood becomes laden with impurities. It is these impurities — deposited by the blood — that make boils, pimples, and painful, disfiguring skin diseases. It is because the trouble is with the bowels, kidneys or skin, that FRUIT-A-TIVES cure these diseases

Fruit-a-tives OR "FRUIT LIVER TABLETS"

act directly on the eliminating organs—correct their irregularities—strengthen them—and thus clear the skin and make the complexion clear and soft.

If you have any skin trouble—or any fault with constipation, liver trouble, biliousness, headaches, indigestion, rheumatism—cure yourself with Fruit-a-tives. They are made of fruit juices and tonics—and never fail to cure.

RUSSIA SHORT OF MONEY.

ENGLISH CORRESPONDENT SENDS STORY OF CONFUSION AND ALARM.

London, Sept. 18.—The St. Petersburg correspondent of the Telegraph, who is a frequent prophet of evil regarding Russian finances, says that paralyzing despondency prevails in Government circles in consequence of the pressing need of money, without which not an item in Premier Stolypin's political programme can be realized, and the utter helplessness of the Minister of Finance, who is at the end of his resources. Foreign capitalists scout the notion of loans, while the Minister of Finance is unable to come forward with any other expedients. Independent financial circles comment upon the astonishing carelessness of the Finance Ministry in its official calculations, and they are not only drawing unfavorable conclusions, but are discounting them on the exchange. There are good grounds for expressing apprehension that the Stolypin cabinet, which is divided against itself, will finally be broken up by an insolvency that might have been avoided by the appointment of a businesslike financier.

PANIC AT STATUE UNVEILING.

CROWD AT McKINLEY MEMORIAL EXERCISES GETS BEYOND CONTROL.

Columbus, Ohio, Sept. 18. — With panic threatening a crowd of 50,000 persons surging about a stand erected in the Capitol grounds, frantic to secure a glimpse of Mrs. Nicholas Longworth, the President's daughter, the oratorical exercises arranged for the unveiling of a statue of William McKinley Friday afternoon were suddenly postponed until Friday night, after the statue of the martyred President had been hurriedly unveiled by Mrs. Longworth. The crowd was so large and cramped that it got beyond control, and the shrieking of women and children, who were caught in the crowd by the police. Mrs. Eliza Louisa Nahan and a Negress were trampled on and had to be removed in an ambulance. Both will recover.

JAPAN'S RICE CROP LARGE.

ESTIMATED AT OVER 250,000,000 BUSHELS—MUCH ABOVE THE AVERAGE.

Tokio, Sept. 18.—Japan officially estimates the rice crop of this year at 50,390,000 koku. One koku equals five bushels. Rice holds first place among the agricultural products of Japan. This estimate is 12,200,000 koku more than last year's crop and 7,500,000 the average.

MASSACRE AT WARSAW SEPT. 20.

JEWS SAID TO LOOK FOR AN OUTBREAK ON THAT DATE.

London, Sept. 18.—In a despatch from Vienna to the Daily Chronicle it is said that an anti-Jewish outbreak is likely to occur at Warsaw in the next few days. Fugitives, the despatch says, have called on Herr Daszynski, a member of the Austrian Reichsrath, requesting him to inform the European press that a massacre of Jews is preparing for the Jewish New Year, Sept. 20.

SHOOTING WAS IN SELF-DEFENCE.

Reports from Montmagny state that the shooting there last week by Eng. Fournier, aged 60 years, of his son, aged 30, was in self-defence, as the latter threatened his father frequently when under the influence of liquor. The son was shot in the knee. It is also said that the case in the courts will not be proceeded with, as the son admits his error and will not push the complaint.

A Sale of

"HERCA" SILK

This is the Silk of which we sold 192 PIECES IN ONE WEEK when we first introduced it. The original price before we got hold of it was 75c, and the silk was worth it. We brought the price down to 48c, and now, to give every lady in Montreal a chance of securing some, we have just imported another lot containing thousands upon thousands of yards of this wonderful Taffeta Silk, to be sold

on Monday at 37c. a Yard.

You know the silk, how it is untearable, and will not split and wear into holes; and for you to advise your friends and neighbors of this sale is but to do them a good turn. They will thank you for it.

But for us the price would still be 75c. On Monday it will be 37c.

Mexico City, Mex., Sept. 18—H. J. Smith, an American, has been granted a concession by the Mexican Government giving him the exclusive right to use the product of the gum producing plants in the whole state of Sonora. It is stated that there are several million acres of public lands in that State which are covered with the guayule rubber shrub and that it is Mr. Smith's intention to establish a number of large rubber factories in the State in order to utilize the product. There are also extensive tracts of chicle plants.

The following notice has been issued by the New York Forest, Fish and Game Commissioner, J. S. Whipple: "Under section 27 of the Forest, Fish and Game law of the State of New York all persons handling woodcock and grouse taken from without the State will be required to furnish a bond in the sum of $1,000. DUNHAM.

Sept. 18.—Mr. and Mrs. Homer Lee and son, of Hartford, Conn., returned home on Tuesday after spending several weeks here.

A number of people from this village attended the Fair at Brome Corner last week and all agree that there was a fine show throughout.

Mr. and Mrs. Andrew Shearer and family, of Westmount, visited recently at Mr. Jos. Lee's.

Miss Mamie Ker, of Point St. Charles, is spending a few days the guest of Miss Clara Watson.

Mr. George D. Fuller, B.A., of Knowlton, Inspector of the Macdonald School Gardens, was here on Thursday, and, after looking over the gardens for probably the last time this year, stated that he should report well upon it to headquarters and recommend the remittance to the School Board here of the promised $20.00 for maintenance, and to Miss Patch, our teacher, who so efficiently supervised the work, the sum of $30.00 for her personally. All of which is most gratifying to every well-wisher of the school.

There is a movement on foot to have our village school made into a Model School. Miss Patch reports that she has twelve or more scholars who will be prepared next June to take the Government examinations for Model Schools. Mr. Duboyce is in communication with the Department of Public Instruction endeavoring to get our standard raised from an elementary to a model. As an alternative, should this attempt fail, Mr. Lockhart, Principal of Cowansville Academy, was here on Saturday to lay a proposition and suggestion before our teaching staff to the effect that in the event of failure to raise our standard this year, pupils from our school who shall be able to take Grade III., Model exams. next June can be taken over to Cowansville Academy for the first four or five days of the exams. and thus get the benefit of Government standing to help them next year, while Cowansville papers for Grades II. and I., Model, can be divided up and written on partly here and partly in Cowansville, and all corrected by the Cowansville Academy staff. These two grades receive their questions from Quebec city, but the answers are always corrected by the Academy staff. With these two alternatives in view, there is a brighter outlook for our school.

Mr. Stevens Baker, of Cowansville, called upon old friends here on Saturday.

SUTTON.

Sept. 18—Miss Marion Safford left on Tuesday for Dunham Ladies' College where she will attend school.

Mrs. Chas. Metivier has returned from Notre Dame Hospital, Montreal, but her husband fears she will have to again return to the hospital.

Mr. Thomas Wild and wife with their daughter Emily, were in town, on Friday and Saturday leaving for home on Saturday evening. While here they were the guests of Mr. and Mrs. Chas. H. Good and other friends.

Mr. E. C. Curley, of the Sovereign Bank, Montreal, is spending his vacation at his home here.

Mr. and Mrs. David Bickford spent Sunday at North Troy, Vt.

Mr. Frank Boright has returned from a trip through New Brunswick in the interest of the Abercorn Overall Company.

Mr. C. D. Griggs contemplates a trip to California this autumn.

"HECLA" Fused Joints Mean a Clean, Smokeless Home.

A warm air furnace, that will not leak gas or dust, providing an ideal heating system. It combines economy in first cost—and in operation, a plentiful supply of warm air and perfect ventilation. That is why "Hecla" Furnaces are made with FUSED JOINTS.

Where steel and cast-iron come together, the metals are fused or welded, so that they practically become ONE. This fusing (a Clare patented process) makes the "Hecla" absolutely dust, smoke and gas, tight.

There are a dozen and more other special features about the "Hecla" that you will appreciate almost as much as the FUSED JOINTS.

So let me send you the new Hecla catalogue, which gives all the details of construction. If you send me a rough plan of your house, I will tell you just what it will cost to install the "Hecla" Furnace. Write NOW to the "Hecla Furnace Builder" care of

NEWFOUNDLAND GIVES IN?

PURSE SEINES, IT IS SAID, MAY BE USED.

Gloucester, Sept. 18.—The fishing owners were much interested in the report that was circulated Friday afternoon that Newfoundland had receded from its hard and fast position relating to the embargo of purse seines on the treaty coast of Newfoundland. A large fleet of vessels, sixty in number, is now being fitted here to pursue the herring fishery, all being provided with purse seines, with which their crews propose to catch their own fish. It is stated that overtures have been received in Washington, coming from the Newfoundland Government, that the latter will not proclaim the foreign fishing vessels act of 1906, but will allow matters to go on as in previous years, providing the United States vessels will forego the use of the purse seine on the treaty coast.

Benjamin A. Smith, of the firm of D. B. Smith & Co., and Wilford W. Lufkin, private secretary to Congressman Gardner, were hastily summoned to Washington in connection with this matter. Confirmatory advices from Washington on the subject are awaited with much interest. Under the old method of procuring these herring cargoes the native fisherman caught the fish, using their own boats and nets, and sold them to the American fleet at so much per barrel. This has always proved mutually satisfactory, and most of the owners here are perfectly willing to go back to the old order of things.
