Fresh Vegetables To Arrive This Afternoon

Boston Lettuce, Hot House Tomatoes, Radishes, Cauliflowers, Celery.
 Recipe No. 3 and 4:
SPONGE CAKE. Recipe No. 5

Separate 4 eggs, beat yolks of eggs thick. Add 1 cup sugar and continue beating; beat whites stiff and beat into first mixture. Add 1 teaspoonful baking powder to ½ cup Health Brand Potato Flour and sift into first mixture. Bake in a moderate oven about 10 minutes.

SWEDISH SPONGE CAKE.
 Beat separately the whites and yolks of 4 eggs. Beat 1 cup sugar into the yolks; then add ¼ cupful Health Brand Potato Flour, sifted with ¼ a level teaspoonful of cream of tartar and ¼ teaspoonful of salt. Add lastly, 2 teaspoonfuls of lemon extract and the whites of the eggs. Bake in moderate oven over 40 minutes.

CHOCOLATE SPONGE CAKE.
 Add 2 squares of melted chocolate to the above mixture just before putting into the pan.

Consomme Riche aux Pois (Rich Broth with Peas).....18c per tin
 An excellent broth may be obtained by pouring the contents of a tin in a saucepan and by adding twice or thrice the quantity of water and by boiling during 10 minutes. Enough for 6 to 8 persons.

CORONATION OF KING GEORGE V.

Tentative Arrangements Have Been Completed—Festivities to Last Eleven Days.

London, Jan. 12.—The executive committee having in charge the plans in connection with the coronation of King George, met to-day and completed tentative arrangements, which will, if anything, be on a more extensive scale than at the time of King Edward's coronation. The route of the procession to Westminster Abbey on June 22 will be the same as on the last occasion, and the royal progress through the capital after the ceremony, which was prevented in Edward's time owing to the King's delicate health, will occur on June 23. Still another royal procession to the Guild Hall for the coronation entertainment has been arranged for a subsequent day.

The coronation festivities will extend from June 19 to June 30 and will include a naval review at Spithead, at which the King will be present, probably a military review and a royal reception in honor of the colonial and foreign envoys.

THREE CHILDREN BURNED TO DEATH

The Old Story: "Left Alone in the House"—Cause of Fire Unknown.

Winnipeg, Man., Jan. 12.—Three children were burned to death in a fire which destroyed the residence of a Galician named Hutsoluk in the Elmwood division this afternoon. The couple had been married five years and had three children, aged four and two years and one month, the two youngest being girls. The mother had left the house shortly after 1 o'clock to go to the store, leaving the two youngest children asleep in their cot. When she returned she found the house in flames and made frenzied efforts to gain access to the children, but the fierceness of the flames beat her away. The fire brigade shortly after arrived on the scene and soon had the fire under control, but on entering the ruins the badly charred bodies of the children were found. It is not known how the fire started, but as there were two stoves in the building and a fire in each, it is supposed that a spark was the cause of igniting some nearby inflammable material. Another theory is that the boy unconsciously started the fatal blaze. The mother is prostrated and is being cared for by friends. The father has been in this country eight years and speaks English very fluently.

BISHOP OF MARYLAND DYING.

Baltimore, Md., Jan. 12.—From the bedside of the Right Rev. Wm. Pare, Protestant Episcopal bishop of Maryland, came, to-night, discouraging reports relative to his condition. His advanced age makes the progress of the disease from which he is suffering, pneumonia, something greatly to be feared, and it may be said that announcement of his death at any moment would not be a matter of surprise to those cognizant of his condition.

FRAUDS ON THE U. S. CUSTOMS.

Washington, Jan. 12.—It was learned to-day that Secretary MacVeagh has before him offers of compromise aggregating fully \$1,000,000 from New York importers of woolsens, laces, millinery, silks, etc., who have been suspected of undervaluation frauds on the customs. One of the offers alone is said to carry a compromise of more than \$500,000. Since a thorough and systematic investigation of the frauds began several weeks ago, the offers have been coming in steadily.

CRUSADE AGAINST LING.

Brockville, Ont., Jan. 12.—Inspector H. P. Phillips is engaged in a crusade against ling in the Rideau lakes and another big haul of this pest has just been made. Hundreds of them were secured in the net that has just been laid just below the ferry bridge and many of them measured fully three feet in length. The ling taken in this way are given to the farmers, who feed them to their poultry and it is claimed they are perfect food.

GAMBLING IN MONTREAL.

Montreal, Jan. 12.—The hearing of the case against Edward Sullivan and Marty Finn, charged with running a gambling house, in the Police Court to-day, became an attempt on the part of N. K. Laflamme, counsel for the defence, to establish that the police were aware that gambling was going on in the pool room in question for a long time previous to the raid. Witnesses testified that the place was run "wide open" and that any one who desired could have entered the room, which was located on St. John street, in the heart of the business section, without the slightest difficulty, there being no gauze on the door. The hearing was adjourned.

PASSENGERS AND TWO TRAINS

Stalled in the Snow—Anxiety for Their Safety—Terrible Storm Raging.

Spokane, Wash., Jan. 12.—Alarm is felt by railroad officials for the safety of the passengers and crew of Great Northern passenger train No. 3, "The Oregonian," and the crew of Fast Mail No. 2, stalled in the snow near Fielding, Mont. It is estimated that more than fifty persons are on the two trains. There is no diner on either train. The trains have been stalled since Monday, and the last communication was a message sent by telegraph early Monday morning. A blinding snow was raged for four days. Superintendent Smith, of the Havre division, is at Essex, Mont., with a crew ready to attack the drifts, but cannot make any headway until the storm ceases. He declares the trains have enough supplies to keep the passengers from starving for several days and coal enough to keep them warm.

YOUNG "GENTLEMEN" VERY PROPERLY PUNISHED.

London, Ont., Jan. 12.—Two lads, members of respectable east end families and both workers in an east end Sunday school, appeared in the Police Court to-day charged with using profane language on Dundas street. Both pleaded guilty to the charge. "There is too much of this going on altogether," said Magistrate Beattie, "and I intend to make an example of you. I have often heard swearing on the street and thought that the police were not strict enough in enforcing the law. It is not a nice thing to have women forced to hear such language. Young men of your age ought to know better than set such an example to smaller lads. I fine you each \$5 or fifteen days in jail."

THE SHEARER CHARGES CONCERNING WINNIPEG.

Winnipeg, Jan. 12.—There appears to be a nigger in the wood-pile somewhere in regard to Judge Robson's report on the investigation he had into the now famous Shearer charges. This report is in the hands of the Government and this morning Hon. Robt. Rogers, acting Premier, was uncertain as to when it would be published. "My own idea is that we should ask the court to review Judge Robson's finding," he said darkly. "Anyway it is to come officially before a Cabinet meeting to-morrow afternoon and then, perhaps, the public may get a chance at this portentous document which rumor has it has already been sent back twice to Judge Robson for revision to be returned the second time as being positively his minimum statement of the case. Some people affect to believe that the report constitutes a serious knock for the city."

ILLITERATE IMMIGRANTS.

New York, Jan. 12.—"An educational test to restrict immigration is both misdirected and untimely," according to Dr. Chas. W. Eliot, president emeritus of Harvard University. The expression of this opinion is contained in a letter from Dr. Eliot which was read here to-day at a meeting of the National Liberal Immigration League. "Ability to read is no proof of either health or character," wrote Dr. Eliot. "Many entirely illiterate persons are vigorous, honest and of sound judgment in affairs and in the conduct of life. It is untimely because the right moment to apply an educational test is on admission to the suffrage."

DENIES PERSIAN APPEAL.

Washington, Jan. 12.—Mirza Ali Kuli Khan, Charge d'Affaires of the Persian Legation here, to-day issued an official denial of a story widely circulated yesterday, to the effect that an appeal from the Persian Government to the American people had reached New York and had been given out by H. H. Topokyan, the Persian Consul-General there. Mr. Topokyan was summoned from New York, and joined in the denial of the story. He attributed its circulation to a volunteer legal advisor of the Persian consulate in New York.

MINERS MAY STRIKE.

Columbus, O., Jan. 12.—Several thousand mine workers in the Weyanoke Coal Company's plants will be ordered on strike if the recommendation made at to-day's meeting of the Ohio United Mine Workers, District No. 6, organization to the international board, is granted. The company has mines in eastern Ohio, Pennsylvania, Kentucky and Illinois. The claim is made that the check weights at the Glenn Coal Company's work, in eastern Ohio, are being intimidated.

Fancy China, 20 % Off

Men's Underwear 49c a Garment
 Men's Extra Heavy Fleece-Lined Underwear, pepper and salt, not all sizes, rare value at 65c a garment, Sale Price, per garment 49c

RECIPROCITY IS NOT WANTED

By the Berlin Board of Trade. British Preference Is Endorsed.

Berlin, Ont., Jan. 12.—Berlin Board of Trade at the annual meeting to-night by a standing and unanimous vote of over 100 members present expressed strong disapproval of any reciprocity agreement with the United States, but endorsed the principle of Imperial preferences. The resolution moved by J. L. Breithaupt, ex-M.P.P., a manufacturer, and seconded by R. F. Gofton, vice president of the Trades and Labor Council, was as follows: "In view of the agitation now being carried on in the United States in favor of a reciprocal trade agreement with Canada, obviously for the purpose of enlarging the market for the manufacturers of the United States at the expense of Canadian industries and of Canadian workmen; and in view of the present agitation in the prairie provinces for a reduction in the Canadian tariff; be it, and it is hereby

Resolved, That the members of the Berlin Board of Trade are strongly opposed to any reciprocal tariff arrangement between Canada and the United States which means the lowering of the present Canadian customs tariff, as they are convinced that any such reduction would be injurious to Canadian interests. This board is of the opinion that the Canadian tariff must be so framed and maintained as to continue to encourage investment of capital in Canadian enterprises and to transfer to the workshops of the Dominion the manufacturers of many goods which are now imported from other countries and notably from the United States. This board is further of the opinion that while our tariff should primarily be framed for the protection of Canadian interests and manufacturers it should nevertheless continue to give a preference to the mother country and to any other part of the British Empire with which reciprocal preferential tariffs can be arranged, recognizing always that under any conditions the preference must provide for adequate tariff protection for all Canadian interests."

The board also passed a resolution urging the Railway Commission to create regulations requiring all railways to operate from union stations where possible.

STEAMER MARIA RUNS ASHORE

Twelve of Her Crew Drowned. Schooner Failed in Attempt to Aid.

Bremerhaven, Jan. 12.—The German steamer Maria Russ, from Hamburg for Nantes, went aground near Nordey Lightship last night. Twelve of the crew were drowned. A schooner went to the rescue, but was unable to put out her boat, owing to the high seas. Three of the men on the Maria Russ attempted to launch a boat, but a huge sea washed it overboard. These three men were also swept into the water, but were rescued.

FORTIFICATION OF PANAMA CANAL.

London, Jan. 12.—The Daily Graphic in an editorial, assuming with regard to the fortification of the Panama canal that President Taft "proposes to ignore other nations' treaty rights," indignantly asks whether Sir Edward Grey, the British Foreign Secretary, has been dumb in the face of "this scandalous proposal to trample on solemn treaties."

STILL WRESTLING WITH RECIPROCITY NEGOTIATIONS.

Washington, Jan. 12.—The Commissioners of the United States and Canada to-day continued their wrestle with the problem of negotiating a reciprocal trade arrangement between this country and its northern neighbor. Although all concerned in the conference maintained their customary reticence in the matter, it is gathered that fair progress is being made toward a solution.

TROOPS FIRE ON A MOB IN BOMBAY

Killing Eleven and Wounding Fourteen Persons—Police Were Powerless.

Bombay, Jan. 12.—Troops called out to-day to quell a riot fired several volleys into the crowds, killing eleven and wounding fourteen persons. Each year riots mark the celebration of the Muharram, the first month of the Mohammedan year, when trouble is bound to arise between the Sunnites, or Orthodox section, and the Shiaks, the second great division of Mohammedans. A great procession was arranged for to-day to mark the close of the Muharram festival, but this was prohibited by the police. Rioting began and mobs gathered in large force. The police were stoned and found themselves unable to stop the fighting. Then troops were rushed to the scene of the fiercest rioting, and orders were given to fire on the mobs. It is probable that many received minor wounds, in addition to the fourteen accounted for. The bodies of the killed lay in the streets for a considerable time after the rioters were dispersed.

SUSPENSION OF ADVANCE OF FREIGHT RATES.

Washington, Jan. 12.—Official announcement was made by Judge Clements, acting chairman of the Interstate Commerce Commission, at the conclusion of the arguments on the Eastern rate case late to-day of the further suspension of the proposed advances of rates in official classification territory from Feb. 1 until March 15. The likelihood is that there will be a similar suspension of the advances in rates proposed by the carriers in the Western trunk line territory. Judge Clements said that it was manifestly impossible for the commission to fully consider and finally to determine the questions presented in the two cases prior to Feb. 1, and that, on suggestion of the commission, the carriers had consented to suspend the proposed rates. Final statements by counsel for the carriers, largely in response to arguments presented by the attorneys for the shipping interests, were submitted to-day to the commission. The burden of the statements was that the carriers had shown, through an increase of operating expenses, the necessity for increased income, which, in the circumstances, could be obtained only through an advance in freight rates.

RAILWAY WORK IN THIS PROVINCE

Transcontinental Will Be Completed Through Quebec by Dominion Day, 1912.

Montreal, Jan. 12.—Mr. M. P. Davis, who was in this city yesterday, and who, in conjunction with his brother, Mr. J. T. Davis, is building a large section of the Transcontinental Railway east of Point Levis, states that the railway through the Province of Quebec will be completed by Dominion Day, 1912. He is also of the opinion that the remainder of the New Brunswick section will be finished by the early summer of next year, and that consequently trains will be running over a completed railway from Moncton to Levis during the latter part of the summer of 1912. It is understood that the road will be completed from Moncton to a place called McGibbons, a distance of 160 miles, by next spring, and that Hon. Dr. Pugsley's prediction will be fulfilled as far as that section of New Brunswick is concerned. Mr. M. P. Davis also stated when questioned as to the probable programme of the Quebec Bridge, of which he has the sub-structure to build, that the piers would not doubt be ready a good while before the first work on the steel superstructure is ready.

QUEBEC, JANUARY 13, 1911.

TAXATION.

It is patent that the vexatious question of taxation is receiving no lack of attention from Mayor Drouin, who is apparently resolved to study the question in all its phases. Acting on his instructions, the city assessors are at the present moment making a comparative assessment of five houses in each of the city wards. Of these five houses we believe that two are occupied by the landlords themselves, one by a tenant and the others are shops and factories.

This assessment is being made with the view of comparing the Montreal system of taxing on actual values with the system of assessment on rental values which is in vogue here.

When the investigation of the city assessors is complete it will be the object of the Mayor to make a thorough study of the question with the Finance Committee.

From what we can gather it appears that every encouragement will be given to improvements, which are now discouraged under the system which has prevailed so long.

Again, in all likelihood no private house valued at more than \$50,000 will be taxed at more than that figure. There will be a fixed limit, and this will encourage the proprietors to improve their properties to their hearts' content.

On the other hand, it is probable that all houses occupied by the landlords themselves may pay a heavier tax than those that are rented to tenants.

A feature of the programme is that vacant lots may be taxed in the future at their actual value. Last year the city taxed some at 5 per cent of this value, and, as a number of protests have been lodged, there will soon be a test case which will decide how far the city may go in this respect.

Another feature is that such religious institutions as are being administered for profit in unequal competition with local industries will also be called upon to contribute to the city's revenue.

It may take time to produce a satisfactory system of taxation, but all indications point to a more general realization of the most practical projects on the part of those in authority.

THE PRINTING BUREAU.

The report of the Hon. Charles Murphy on conditions in the Printing Bureau throws interesting and occasionally humorous sideights into the methods of doing business in that department.

Mr. H. O. Wilson, the stationery agent of the C.P.R., who inspected the stationery department at the request of the Secretary of State, reported that he found a condition of affairs that was simply appalling, whilst there was palpable evidence on every side of gross mismanagement in the method of purchasing supplies. Much of the stock was in a chaotic condition, and no one seemed to know anything about it. Another factor which made for waste was the sending in of requisitions at any and all times, a system of ordering once a month would have better results.

The accountant who examined the accounts of the New York firms from which the late Superintendent had made purchases reported that they revealed both overcharging and over-purchasing.

A stationer who was engaged to examine the stock shows that in addition to other losses, or purchases of useless things, something like 36,000 typewriter ribbons, valued at \$29,000, were, or would become, useless, owing to the introduction of new makes of machines.

Albert Harwood, who was time-keeper and at the same time attended to the purchase of supplies, admitted that he had filled in extra quantities on orders previously intialled by the Minister. A barrel of flour had appeared several times on these orders.

Another man was down on the records as having been absent to attend 61 funerals during 12 months and having received permission to do so on each occasion. They were not really funerals of the usual leave-of-absence type, but were anniversary services where the employee was paid for singing.

John Gooden, storekeeper in the long room at the Bureau, said that orders were sometimes sent in by various departments, and he and his associates were forced to buy certain articles. On one occasion he was asked if he had a certain brand of carbon paper and informed Gouldthrite that he had abundance of it. But, he said, messengers came down with requisitions and letters from the Ministers. Mr. Gouldthrite said, "I am taken by the throat and I will have to put in this carbon paper." The Ministers who were most active in compelling them to buy things they did not need were our old friends, the Ministers of Militia and Marine.

Buying through middlemen instead of directly, continual drunkenness in

La Grippe and Colds

You cannot conceive a more direct and convincing statement than this of Mr. Surles as to the wonderful curative powers of Duffy's Pure Malt Whiskey, the world's greatest medicine.

"To my friends all over Texas and people everywhere: "It gives me much pleasure to recommend Duffy's Pure Malt Whiskey for la grippe and all colds, as I have tried it and know it will do the work." J. H. Surles, Putnam, Texas.

Duffy's Pure Malt Whiskey

is a wonderful remedy in the prevention and cure of all diseases of the lungs, throat and stomach and for all weakening and wasting conditions. It is an absolutely pure, gentle and invigorating stimulant and tonic. When taken at meal time it stimulates the mucous surfaces and little glands of the stomach to a healthy action, thereby improving the digestion and assimilation of the food and giving to the system its full proportion of nourishment. Prescribed by doctors and recognized as a family medicine everywhere.

All grocers and liquor dealers, or direct \$1.25 a large bottle. Refuse substitutes and imitations; they are impure and dangerous. Send for medical booklet and doctor's advice, both sent free.

The Duffy Malt Whiskey Co., Rochester, N. Y.

the department and falsification of contract are other little features brought out in the investigation.

And all this, says Mr. Murphy, is the fault of the wicked Tory influence which it has taken the usually astute Liberals fourteen years to discover.

THE RESTRICTION

OF FIREARMS.

Possibly, as a result of the recent assault on Mayor Gaynor, an Assemblyman of New York will present a bill at the coming session of the State Legislature in Albany. The new measure forbids the sale of firearms except to persons having written permission from the proper authorities to carry them, and requires that the buyer identify himself as the person named in the license. The seller is required to report all sales to the proper authorities. The bill makes failure to comply with its provisions a misdemeanor punishable by not less than a \$25 or more than a \$100 fine, or imprisonment for not less than thirty days or more than one hundred days, or both.

It cannot be denied that some such regulation should be considered in this province also in the near future. With the tremendous influx of immigrants now pouring into the country and the large amount of railway construction that is going on, we are getting in no small number of foreign workmen whose respect for life is somewhat less than that generally entertained by Canadians. Statistics show that the number of shooting cases have largely increased during recent years. This growing menace will best be met by a restriction of sale and a stricter supervision of possession, such as is provided for by the proposed New York measure.

THE BANQUET SPEECH.

The agitation against the sentiments which were expressed by Commander Sims at the banquet tended to the American Navy at the Guildhall are a lesson that after-dinner speeches are always treacherous. At the same time their very effervescence should preclude the possibility of attaching any serious weight to them. On the other hand, it is interesting to note that many of the very papers which are the most outspoken in their denunciation of the Commander and his hasty words are indulging in the most "gush" about the brotherly love to be manifested between the two nations at the forthcoming celebration of the Centenary of Peace.

During 1909 no less than thirty-four vessels were lost on the Great Lakes of Canada, with thirteen lives.

Senator Cummins admits that he favors reciprocity for the reason that he would rather see Canada's forests denuded than those of the United States.

The Jewish population of the world is now estimated at 11,500,000, of which 40,000 are now in Canada. Their numbers in the Dominion are increasing rapidly.

Apparently the latest scheme of the Laurier Government for the reform of the Senate is to increase the membership of that body. This is in line with other reforms from the same source.

The Governor-elect of Oklahoma is said to be as opposed to silk hats as he is to dress suits. Washington is reported to be awaiting his verdict as to clean shirts with the utmost trepidation.

Reciprocity with Canada, says the St. Louis Globe-Democrat, will be a question tested during the present session of Congress, and one of the main points to be settled is how far Canada will agree to it in an equitable and practical form.

Mr. R. L. Borden said in a recent interview:—"How can democratic institutions be permanent if the foundations are unstable, and how can the foundations be stable if the people, and especially the children, are not instructed in the duties of citizenship?" Here never was a time when the true education of the young was more essential than it is at present.

"The missions to Washington have come to an end. Not again will we go there seeking reciprocity." These were Sir Wilfrid's words of a few months ago, yet to-day Messrs. Fielding & Paterson are in Washington trying to push a reciprocity treaty through, and when the Premier is reminded of his former words his only excuse is that they were asked so nicely that they could not refuse the invitation.

Canada's new navy is already in request, with all its ships, officers and men, and also Lord High Admiral Abraham Brodeur, and, we suppose, the little Isaac whom he sacrificed. It is hardly necessary to say that fighting will not be the order of the day. And, as Commander Roper, like Commander Sims, is evidently somewhat indiscreet of speech on these so-called occasions, we presume that the Minister of Marine, etc., are going along as the banqueting squad, past experience having convinced us that this is more their forte.

The clerk of the Montreal Court during the trial of Mrs. Knowlton, who assaulted a constable and a carter in the recent case of cruelty to animals reported in that city, complains that the newspapers had no right to comment on events which had still to come before the court. If the newspapers cannot report facts as they are, then a great measure of their usefulness to the public will be lost.

GRIP AND PNEUMONIA ON THE INCREASE

The Increase in the Deaths Resultant from Grip and Pneumonia is Most Alarming, and Physicians Everywhere are Recommending Duffy's Pure Malt Whiskey as a Reliable Cure and Sure Preventive.

Scientists and physicians have been appalled at the rapid increase in the death rate from acute respiratory diseases, especially in the large cities.

Statistics from cities, large and small, showing a steady yearling increase in the prevalence and fatality of grip and pneumonia, have forced these diseases to the front as demanding an immediate and sure preventive. Grip and pneumonia attack the system quickly and relentlessly. They are especially dangerous at this season of the year, when exposure to sudden and severe changes of weather and atmospheric conditions is frequent. They are sure to attack the system run down from worry, over-work or exposure.

For more than fifty years Duffy's Pure Malt Whiskey has been recognized as a wonderful remedy in the prevention of coughs, colds, grip, pneumonia, and all diseases of the respiratory organs. Physicians who stolidly conform to the ethics of the profession publicly recommend it and are prescribing it for their patients. It is in use in leading hospitals throughout the country.

The secret of the marvellous success of Duffy's Pure Malt Whiskey in curing and preventing throat and lung troubles lies in the fact that it is the greatest strengthener and health builder known to medicine. It not only checks the ravages of the disease itself, but replaces the weakened, destroyed tissues, helps the stomach to more perfectly digest and assimilate food in order that more, richer and purer blood may come from it, and regulates and governs the heart's action, so that circulation will be strong and powerful, carrying health and vigor to every organ and part of the human body.

CURE SICK HEADACHE

ACHE

Is the name of so many lives that here in where we make our great boast. Our pills cure it while others fail.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not grip or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.
Small Pill, Small Dose, Small Price.

DISFIGURED FOR LIFE!

Mothers Should Realize What Neglect of Skin-Troubles May Mean to Children.

A lifetime of disfigurement and suffering often results from the neglect, in infancy or childhood, of minor affections of the skin and scalp. A mother overlooks a little rash or a few eruptions, and in a few days, perhaps, the little one is covered with severe eczema or a similar distressing eruption. Then the struggle for a cure begins.

A multitude of remedies are tried, doctor after doctor consulted and hospitals visited, but too often the suffering extends, without substantial relief, from days to weeks, weeks to months and months to years. Added to this is the ever-present fear that the itching, burning and disfigurement will become chronic, mar the future welfare and making life miserable. In the prevention of the simple skin troubles from which all this suffering so often arises and in establishing a condition of skin health that makes eruptions impossible, mothers are assured that nothing is purer, sweeter or more effective than Cuticura Soap and Cuticura Ointment. And greater still, if possible, is the success of these simple household remedies in the treatment of the severest skin affections themselves. With the first warm bath with Cuticura Soap and gentle application of Cuticura Ointment, the itching and burning of severe cases, the child falls into a refreshing sleep, the mother rests and for the first time, possibly, in many weeks peace falls on a distracted household. Frequently a single case of Cuticura Soap and Ointment is sufficient.

Positive as is this statement, it is justified by more than thirty years of pronounced success. To quote but a single instance, Robert Mann, of Proctor, Minnesota, says:

"Our boy was born in Toronto on Oct. 13, 1904, and when three months old a slight rash appeared on his cheeks. What appeared to be a water blister would form. When it broke, matter would run out, starting new blisters until his entire face, head and shoulders were a mass of scabs and you could not see a particle of clear skin. We tried about every advertised remedy without avail, indeed some of them only added to his suffering and one in particular, the 'Remedy' almost put the infant into convulsions. The family doctor prescribed for him and advised to bathe the baby in buttermilk. This did not do any good, so we took him to a hospital. He was treated as an out-patient twice a week and he got worse, if anything. We decided that it could not be cured and must run its course and so we just kept his arms bandaged to his side to prevent his tearing his flesh. We left Toronto and shortly after our arrival in Duluth, the Cuticura Remedies were recommended. We started using them in May, 1909, and soon the cure was complete. You would not think he was the same child for Cuticura made his skin perfectly clear and he is entirely free from the skin disease. There has been no return. We still use only Cuticura Soap for baby's bath."

Cuticura Soap, Cuticura Ointment, Cuticura Resolvent and Cuticura Pills are sold by druggists everywhere. Send to Foster Bros & Chem. Corp., Boston, Mass., for a free copy of their latest 32-page Cuticura Book on treatment of skin diseases.

NOTICE

Notice is hereby given that an application will be made to the Legislature of the Province of Quebec, at its next session, on behalf of the Corporation of the County of Kamouraska, to change the Chief place and the Registry Office of the said County and to fix them at St. Paschal.

1911 Preparing for Work

Owing to the great increase in our business in general and in our repair department in particular, we found it necessary to engage another first class German watch-maker and a first class English clock repairer, this addition to our staff of mechanics placing us in a position, that for competency and ability is second to none.

When enlarging our Show Rooms for the display of merchandise we also added another workshop thus doubling our facilities for handling all kinds of fine repairs.

We make a specialty of repairing complicated watch movements, chronographs, repeaters and timing watches.

Clocks, musical boxes, symphonions, cameras, binoculars, etc., we have repaired in our workshops by expert work-men.

Jewelry repairs we will as formerly continue to turn out in a high class way, gilding, renovating and remodeling, making old jewelry look almost as good as new.

As this is our first advertisement in the New Year we avail ourselves of the opportunity to thank our customers for their generous and loyal support and to assure them that we will do our utmost to maintain the reputation of "Seiferts" for quality and value.

SHIPPING NEWS

DOMINION LINE.
Steamer Englishman sailed from Avonmouth at 6 p.m. on the 11th instant for Portland.

QUEBEC STEAMSHIP COMPANY.
Steamer Guiana sailed from New York for the West Indies at 2 p.m. last Tuesday.

Steamer Korona arrived at New York from the West Indies at 9 a.m. yesterday.

DISASTERS.
London, Jan. 12.—Steamer Othello, from Pensacola and Norfolk for Hamburg, before reported aground off Brunshausen, has been floated and proceeded.

Steamer Russia, from New York for Libau, which went on the rocks outside of Libau Sunday, remained fast to-day, with bad holes in her bottom. A part of the crew have been landed.

St. John, N. B., Jan. 12.—Schooner Fannie and Fay, from Grandstone Island for New York, with lumber, put in here today and reports lost anchor and chain at Grandstone Island Friday last.

Sandy Hook, Jan. 12.—Barnegat Life-Saving Station reports schooner Harold B. Consens, Williams, from St. John, N. B., for Washington, D. C., with laths, stranded at 10.30 p.m., 9th, on a shoal off Barnegat. She is apparently in good condition.

FREIGHTS AND CHARTERS.
New York, Jan. 12.—Steamer chartering was fairly active and a good general demand prevailed for additional tonnage. Rates were firm and unchartered boats scarce. Sail chartering was again light and the market unchanged in all respects. Quotations to Liverpool, 2d; London, 1 1/4d; Glasgow, 2 1/4d; Rotterdam, 5 1/2d; Hamburg, 4 1/2 pennings; Bremen, 3 1/2 pennings; Hull and Bristol, 2 1/4d; Antwerp, 1 1/4d; Cork for orders, 2s 4 1/2d; picked ports, large tonnage, 2s 3d; cotton to Liverpool, per 100 lbs., 16c.

Charters—British steamer, 2,297 tons, agricultural implements, Baltimore to Black Sea, private terms, February; British steamer, 2,578 tons, same; German steamer, 2,489 tons, cotton, etc., Savannah, etc., to the United Kingdom or Continent, private terms, prompt; British steamer, 2,581 tons, same, January-February; German steamer, 1,082 tons, same; British steamer, 1,790 tons, transatlantic trade, one trip on time charter, 4s 9d, delivery Gulf, January; British steamer, 2,334 tons, general cargo, Gulf to the United Kingdom or Continent, 10s 9d, January; British steamer, 1,804 tons, same, private terms, February; British steamer, 2,546 tons, general cargo, Gulf to the Mediterranean, private terms, January; British steamer, 1,804 tons, coal, Baltimore to Mexico, private terms, prompt.

STEAMER ARRIVALS.
SS Lusitania, at New York from Liverpool.
SS Adriatic, at New York from Southampton.
SS Kron Prinz Wilhelm, at New York from Bremen.
SS Sant Anna, at New York from Marseilles.
SS Uranium, at New York from Rotterdam.
SS Ivernia, at Boston from Liverpool.
SS George Washington, at Bremen from New York.
SS La Lorraine, at Havre from New York.
SS America, at Naples from New York.

BUBONIC PLAGUE SPREADING.
Peking, Jan. 12.—Bubonic plague in Manchuria is spreading rapidly. Reports received here state that hundreds of persons are dying every day and that the number of fatalities is increasing. A French plague expert has succumbed to the disease. The Chinese Government has appealed to the foreign community for assistance in combating the epidemic, and four missionary doctors, one an American and the others British, have volunteered their services. It is planned to quarantine the railways and the great Wall in the hope of arresting the southward spread of the scourge.

COTTON MILLS MAY SHUT DOWN.
Fall River, Mass., Jan. 11.—A proposition to shut down the cotton mills of Fall River four weeks, between Jan. 15 and Sept. 1, will be laid before the Manufacturers' Association at a special meeting next Friday. The plan, as drawn up by the promoters, provides for a running schedule of four days a week until the curtailment period has been completed.

Y.M.C.A. BUILDINGS FOR CHINA AND JAPAN.
New York, Jan. 11.—John Wannamaker has just promised to erect his sixth Y.M.C.A. building in the Far East. It was announced to-day at the International Headquarters here that he had pledged \$50,000 to provide a Y.M.C.A. building for Peking, China. It was also announced that of the \$2,000,000 fund recently started to erect fifty or sixty association buildings in strategic centres in foreign lands, \$1,800,000 had been pledged and an American architect is just sailing to the east to make a study of conditions preparatory to the erection of the buildings. The International Committee of the Association closed its fiscal year to-day with every obligation paid upon a budget of \$562,6656 for its work on all continents.

London, Ont., Jan. 12.—When crossing the icy street at the corner of Talbot and Dundas streets to-day, Mrs. John Westman, of Dundas street East, fell, striking her head on the ground. The comb in her hair penetrated the scalp and caused a serious wound and her right hand was severely bruised. The physician in charge says that it will be some time before Mrs. Westman will be around again.

PERSONAL.
A FRENCH GENTLEMAN wants to become acquainted with an English young lady to learn English conversation. Address J. M., care of Chronicle office.

MONTREAL CLOSING LETTER.
By private wire to McDougall & Cowans, 81 St. Peter street:
Montreal, Jan. 12.—Local market was somewhat firmer to-day, but most of the dealings originated on the floor. Quebec Railway was a point higher owing, no doubt, to the report of the calling of shares for the first time on the Brussels market. Iron and Detroit rallied from yesterday's low level. Money continues tight with the prevailing rate at 5 1/2 per cent.

OILS, ETC.

119-123 BRIDGE STREET, QUEBEC.

MINOR NOTES

OF THE DOMINION.
Ottawa, Jan. 12.—Mr. Michael Sullivan, of Kingston, the well-known contractor, has been awarded the contract to build the Armoury at St. John, N. B. It is estimated the building when completed will cost about \$250,000. Mr. Sullivan built the mint in this city and several armories in this province.

Ottawa, Jan. 12.—Mr. Chin Wah Nok, of Canton, China, has been appointed English secretary of the Chinese Consul General for Canada, Mr. Wang, by the Imperial Chinese Government. The new secretary arrived in the capital at noon to-day and was received by a large delegation of local Chinamen. Mr. Hum Quom, the local member of the Chinese Parliament, who has been acting English Secretary to the Consulate, received the new appointed official, and turned over his office to him. Mr. Hum Quom said it was more than likely he would attend the next session of Parliament in China, to which he was elected.

Ottawa, Jan. 12.—Two very interesting reports on portions of the Northwest Territories southwest of Hudson's Bay have just been issued by the Geological Survey. They are of especial value to Ontario on account of the fact that the region concerning which they give information is that part of the unorganized Northwest Territories formerly part of the District of Keewatin, which Ontario is so strenuously endeavoring to have added to its area. Judging from both reports, there seems to be little prospect that the Province will gain a region in which may be found any valuable economic minerals in paying quantities. Even if the difficulties of transportation are overcome, it is very doubtful whether the mineral found would repay working.

Ottawa, Jan. 12.—Rev. Mgr. Gauthier, the newly appointed Archbishop of the Catholic diocese of Ottawa, has made the various appointments in connection with the offices in the diocese and at the Cathedral. The Archbishop is retaining intact all the officials who acted under the late Archbishop Duhamel, including Rev. Mgr. J. O. Routheur as vicar-general.

Ottawa, Jan. 12.—At the meeting of the Turnpike Roads and Toll Bridges Commission, it was decided to submit a proposal to the Provincial Government along the lines of a suggestion made by Mr. F. A. LaBelle, that the toll gate on the Chelsea and Aylmer roads be removed to the city limits. The government will also be petitioned to set aside a certain sum of money to constitute a fund, by which the city could purchase the two roads if it so desired.

Smith's Falls, Ont., Jan. 12.—The police are sending out a description of Mick Shockf, a Polak, who claims to live in Toronto. They have a charge against him of stealing \$134 from Michael Boiczuk, with whom he boarded here.

Arnprior, Ont., Jan. 12.—Mr. and Mrs. Daniel Watt of McNab Township, were driving into Arnprior this morning when they were struck by a west-bound Grand Trunk freight train at Daniel street crossing. Mr. Watt was instantly killed and Mrs. Watt was seriously hurt. The team escaped unhurt.

Stratford, Ont., Jan. 12.—Norman McMillan, the 7-year-old son of J. W. McMillan, of Railway avenue, was struck and instantly killed by the Grand Trunk Express this afternoon. The lad was returning from school with some playmates and was crossing the tracks at Wild's oval yard when the accident happened.

Toronto, Jan. 12.—Separate rooms with unlocked doors for well-behaved prisoners is the innovation which will be made at the Ontario Government's new Central Prison Farm at Crediton. Fifteen per cent of the accommodation will be in cells for refractory or untrustworthy prisoners. Sixty-five per cent will be in dormitories each containing fourteen beds, with unguarded doors and windows. The remaining 20 per cent of the accommodation will consist of small neat rooms, with pictures and reading matter, and will be allotted to the best prisoners. This will be the first time such a system has been tried in any prison.

The case against the Toronto Railway, charged with maintaining a common nuisance, was called before Justice Riddell to-day. Wallace Nesbitt, K.C., for the company, moved to quash the indictment without pleading, but was overruled by the judge, who also decided that the law courts, and not the Ontario Railway Board, was the competent tribunal to try the case. The indictment was altered by striking out the charge of running too few cars and impeding traffic. The main fight will be upon the accusation that the company endangers the health of its passengers, all reference to inflicting discomfort being dropped, as this is not an indictable offense. The company pleaded not guilty, and the hearing will open before a jury next Monday. Mr. Nesbitt took occasion to remark that a jury which did not act upon the evidence was a barbaric relic, and that when swayed by outside influences, such as the evening papers, a jury was a curse instead of a blessing.

LORD'S DAY ALLIANCE

TRIENNIAL MEETING.
Toronto, Ont., Jan. 12.—The third triennial meeting of the Lord's Day Alliance opened to-day, the morning session being a business one. Mr. Archie McGowan, of Montreal, lamented the freedom allowed in that city on Sunday, many businesses being openly carried on, the magistrates being guided by local by-laws instead of by Federal and Provincial legislation. Rev. T. Albert Moore, the retiring General Secretary, in his report claimed that the Alliance did not seek to deprive any citizen of his personal liberty. The best way of Canadianizing foreigners was to make them keep the Sabbath. The Alliance was paying special attention to the closing of Western post offices on Sunday. At the afternoon session, Rev. Dr. Kilpatrick said the policy of the Alliance was defensive, not compulsive, and the public were now realizing that the Alliance was working for and not against them. Rev. Dr. Rochester spoke of the difficulty in enforcing the Sabbath laws in Manitoba, where the Toronto decision that ice-cream was a food was used to justify laxity on the part of the hotels and restaurants. The following officers were elected:—President, Rev. T. Albert Moore; Vice-Presidents, Rev. Dr. Kilpatrick, Sir Jas. Whitney, Sir Geo. Ross, C. D. Massey, R. Smith, M.P., J. B. Mitchell, Rev. Dr. Shearer, Leo Davidson; General Secretary, Rev. Wm. Rochester; Treasurer, G. Y. Conn.

RECOGNITION OF PEARY'S CLAIM.
Washington, D.C., Jan. 12.—Capt. Robt. E. Peary, the Arctic explorer, was to-day formally approved in his claim for Congressional recognition. Messrs. Roberts and Macon, Peary's opponents, were absent when a subcommittee adopted a favorable report to the full Committee on Naval Affairs on the Bates bill which extends the thanks of Congress to Peary and retires him with the rank of Rear Admiral in the engineer corps of the navy. Captain Peary now is 53 years old and the action, if approved by the House full committee and agreed to by the Senate, will place him immediately on the retired list with about the same pay—\$5,000—as he is receiving as a captain on the active list. The report probably will arouse a lively discussion in the House.

TO INVESTIGATE

INFANTILE PARALYSIS.
Albany, N. Y., Jan. 12.—The State Health Department has secured the cooperation of the Federal Government in its investigation into the causes and the prevention of infantile paralysis. Past Assistant Surgeon W. H. Frost, of Washington, has been detailed to investigate the material gathered by the State Department and has begun his work. He recently conducted the investigation of this disease for the Federal authorities in Iowa. The State Health Department announced to-night that the disease appeared the past year in practically every county in the state, resulting in fifty deaths.

Minneapolis, Minn., Jan. 11.—Dan Patch, 1.55, did not lower any world's track records in 1910, but he did nevertheless win a world's record that is even more highly considered by the expert horsemen and breeders of the country.

Through the performances of his colts Dan Patch became the world's champion sire of extreme speed for his age, and he won this honor in spite of the fact that up to the present time he has been trained and campaigned without cessation, and has never had the chance that a large number of the world's great sires have had in the colt producing line.

Some years ago M. W. Savage made the prediction that Dan Patch would some day rank with the world's greatest speed getters. A large proportion of the breeders refused to take this prediction seriously, notwithstanding the fact that they admitted Dan to be in a class by himself as a performer. To-day, however, the opinion of the experts has been changed, and now they are wondering just how much further Dan will go.

Up to date Dan Patch has thirty-nine colts that have qualified and have been registered. Out of this number nine have been marked in 2:10 or better, and there are at least five or six more on the international Farm that would have been added to the list had not weather conditions made impossible a proposed meeting at the farm last fall.

The horse that, for his age, comes closest to Dan's record as a producer of extreme speed is Bingen, who has the same number of colts in the 2:10 list as Dan, but is three years his senior. From recent prospects it seems almost certain that Dan Patch at the same age will surpass all of the great sires, even McKinney, who at present heads the list with the phenomenal number of twenty-three colts in the 2:10 list to his credit.

Following is a list of the world's greatest sires, their ages, and the number of their colts that have paced or trotted in 2:10 or better:

Sire	Age	Number of colts in 2:10 list
Dan Patch	14	9
Bingen	17	9
Zombro	18	11
Sidney Dillon	18	9
McKinney	23	23
Grattan	23	11
Direct	25	15
Gambetta Wilkes	29	18
Baron Wilkes	29	18
Wilton	30	9
Brown Hal	31	12
Onward	35	11
Mambrino King	38	9

COL. DUCHESNAY LAID AT REST

Imposing Military Funeral Yesterday at the Basilica—Interment at Belmont.

Lieut. Col. T. J. Duchesnay, late D.O.C. of this district, was buried yesterday morning with full military honors from his late residence, "The Cape," to the Basilica, the funeral cortege including most of the officers of the local corps, besides an exceptionally large number of most prominent citizens. The cortege was preceded by the R.C.A. Band and a large firing party from the R.C.R. and R.C.A. in command of Lt.-Col. English, R.C.A. The pall bearers were: Lt.-Col. G. T. A. Evanturel, Col. J. L. H. Neilson, Col. Oscar Pelletier, Lt.-Col. C. W. Lindsay, Lt.-Col. G. E. A. Jones and Lt.-Col. B. A. Scott. The principal mourners were: Mr. James Mitchell, of Montreal, son-in-law; Mr. George Cuvillier, of Montreal, nephew; Judge Tessier, Senator Tessier, Messrs. Utric Tessier, Geo. V. Tessier, Judge Chauveau and Dr. C. Verge, brothers-in-law; Lt.-Col. Chauveau; Major Alex. Chauveau, nephews; Ed. Duchesnay, Lt.-Cols. Denis Hudson, L. E. Hudson and Donald Morison, cousins.

On arrival at the church the body was received by Rev. Mr. Lindsay, while Mr. Mathieu, C.M.G., officiated at the requiem mass, assisted by Rev. Messrs. Lafamme and Lemay, as deacon and sub-deacon. Mr. Faguy officiated at the Libera. At the elevation "Miseremini Mei" was beautifully rendered by Mr. Eugene Hamel, of Ottawa, and at the conclusion of the service in the church the remains were interred in Belmont Cemetery, being followed to their last resting place by a very large number of mourners.

QUEBEC SNOW-SHOE CLUB

Had a Very Enjoyable Entertainment and Tramp Last Night.

Led by its popular President, Mr. W. J. Lynch, the members of the Quebec Snowshoe Club had a most enjoyable outing last evening. Some fifty strong members of the old "Black and Red" took train to Montmorency Falls, from which point they proceeded on shoes to the charming and snugly fitted up camp of Mr. Lynch. The tramp was a delightful one. The weather was just to the point and the clear moonlight added to the pleasure. At the camp a real good time was spent, all present seeming to endeavor to make the event a memorable one. Of course, Mr. Lynch was "bounced," the members in this emphatic manner demonstrating their opinion that he was a "jolly good fellow." The party returned to town shortly after midnight, all thoroughly delighted with the trip.

Preparations for the trip to Sherbrooke are going on apace, and it has been decided that the members will travel to the capital of the Eastern Townships by special train over the Quebec Central, leaving here on the 27th and returning on the 29th. Those who have not yet registered their names with the Secretary as intending to participate in the trip should do so at once, as it promises to be a most enjoyable one. The club is making great preparations for the ladies' tramp, which takes place on Saturday next. The tramps will leave the St. Louis toll-gate at 8 p.m. Charboneau's orchestra will provide the music at the club house.

P.Q.R.A. ANNUAL REPORT. The Province of Quebec Rifle Association have just issued their annual report for the past year's work. The report is most satisfactory in every respect and reflects great credit on Mr. J. B. Johnson, the energetic secretary. The report contains an engraving of the 8th R.R. team that won the Houghton Challenge Cup.

OUR CARPET DEPARTMENT. If you require for next spring carpets, oilcloths, curtains or brocatelles take advantage of our great sale from the 7th to the 14th instant. We will keep them for you until the spring if so desired and this offer also includes rugs.

FAGUY, LEPINAY & FRERE...

IN AND ABOUT TOWN

WALKED INTO DETECTIVES' ARMS

An Old Penitentiary Bird Who Was Securing Money Under False Pretenses.

Charged with obtaining money under false pretenses, a man named Nadeau was taken into custody yesterday afternoon by Detectives Walsh and Defoy. It appears that the man had been collecting money with a paper purporting to be signed by a priest asking for help to educate him for the priesthood. The man has already served two terms in the penitentiary. When the detectives heard of his exploits they at once set out on his trail, and yesterday afternoon he walked into the arms of the two detectives at the Theatre Nationale, Jacques Cartier Hall, where he had been attending a performance.

RECORDER'S COURT.

The only prisoner before the Recorder yesterday was a man in ill-health and without a home. He was sent to jail for two months.

GARRISON DANCE POSTPONED

Owing to the recent death of Sgt.-Major Curston, of the R.C.G.A., the garrison dance, which was to have taken place to-night, will be postponed until Friday, the 20th.

COURT OF SESSIONS.

Two young men convicted of stealing a sleigh valued at \$8 and selling it for \$1.50 were sentenced to three months' imprisonment in the Court of Sessions yesterday. R. Crawford, convicted of threatening P. Wright, road inspector at Stoneham, was fined \$5 and costs and bound over to keep the peace for a year.

DEATH OF A RAILWAY MAN.

Mr. H. D. Annable, export and import freight agent of the Canadian Pacific Railway at New York, died there on Wednesday, Mr. Annable had a long and highly creditable career in the C.P.R. freight department. He was an energetic and capable official, and brother to Mr. W. G. Annable, general passenger agent of the company's Atlantic steamships in Montreal.

SALE OF REAL ESTATE.

Mr. Joseph Gale has purchased the property belonging to the estate of the late Dr. Colin Sewell, situated on St. Louis street. The price paid was \$18,000. The three properties belonging to the estate of the late Colonel Frost Wood Gray, 9 1/2, 10 1/2 and 11 Hebert street, were purchased at auction by Mrs. Thomas Lemieux. The prices paid were \$6,000, \$4,500 and \$1,200 respectively.

PLEASANT EVENT AT KENT HOUSE.

Mrs. Neuville Belleau was the hostess at a dejeuner given yesterday in the "Sun Parlor" of Kent House in honor of Mrs. H. B. Rainville, of Montreal. Covers were laid for twenty-two guests, the tables being handsomely decorated with red roses and smilax, great taste having been displayed by Mrs. W. Allerton in the arrangements. The preparations for the event reflected the greatest credit upon the excellent manner in which the hostess of the Kent House provides just that nice finish to the events which take place in that popular hostelry.

The guests on this occasion were: Mrs. Joseph Sheehy, Mrs. H. G. Carroll, Mrs. J. Decarie, Mrs. A. Turgeon, Mrs. P. A. Choquette, Mrs. C. E. Dubord, Mrs. L. A. Cannon, Mrs. A. Lantier, Mrs. M. P. Davis, Mrs. A. de L. Panet, Mrs. J. D. Brousseau, Mrs. C. Langelier, Mrs. Perodeau, Mrs. Elz. Baillargeon, Mrs. B. A. Scott, Mrs. A.H. Turco, Mrs. George Villeneuve, Mrs. Edmond Taschereau, Mrs. D. Mitchell.

IMPORTANT LEGAL POINT DECIDED.

Washington, D. C., Jan. 12—Eggs are eggs. Also a hen is not a bird. So says the United States Court of Customs Appeals, in a decision which seems to settle a question which has puzzled the customs, perplexed the experts and finally called in the zoologists. Eggs coming from China are usually broken out of the shells, packed in tin cans and frozen. Custom officials contended they entered this country in competition with home laid eggs, and assessed a duty of five cents a dozen. The importer objected, claiming they should be free of duty under that section of the tariff which puts the eggs of birds on the free list, and contended that at most they were only albumen and dutiable as such.

The full bench of five justices agreed that the importer's points that a hen is a bird lacked merit, and that an egg is an egg, in the shell or out of it. Recently the court held that a yam was not a sweet potato. A customs agent also recently prepared a twenty-three page report on the undervaluation of turnips.

YOUNG CLERICAL KILLED BY C.P.R. TRAIN.

Montreal, Jan. 12—While walking on the Canadian Pacific Railway track near Lachine this morning, Zepherin Barrette, a young candidate for the priesthood at the novitiate of the Fathers of the Congregation, was struck by the Halifax Express running into Montreal. He was brought to the Royal Victoria Hospital, where he died without having regained consciousness.

TENDERS FOR NEW BRIDGE

Were Opened by the Road Committee Last Evening.

The chief business which came before the Road Committee at its meeting last evening was the consideration of tenders for a new bridge across the St. Charles River in rear of the Marine Hospital. There was a full meeting of the Committee, Ald. Pouliot presiding, and a number of routine matters were disposed of.

Tenders for the new bridge were received from the following firms: Eastern Steel & Iron Works, J. H. Gignac, Phoenix Bridge Co., McGuegan Construction Works (Montreal), J. Lemoine & Fils, and Jos. Gosselin. Upon motion all the tenders were referred to Mr. L. A. Vallee for a report upon the most advantageous of the offers, as several of the tenders included figures for a swing bridge as well as a draw bridge.

EVENING OF SACRED MUSIC

Beautiful Rendition of "Message of the Angels" at the Methodist Church.

"The Message of the Angels," a sacred cantata, composed by Mr. William Reed, and taken from the "Key of Life," by Rev. Fred. G. Scott, Rector of St. Matthew's Church, was rendered in the Methodist Church last evening by a large and well-balanced choir, under the direction of Mr. Chs. E. Thorn, Mr. R. Burston presiding at the organ.

The event was somewhat of a unique one, the composer of the music and the author of the words both being well-known and highly esteemed residents of Quebec. The beautiful words of Canon Scott have been no less beautifully set to music by Mr. Reed, and the rendition of the cantata last evening was given in a manner that set forth the musical genius and poetic inspiration of composer and author.

The church was filled to its utmost capacity, and all present were much impressed with the rare musical treat which was afforded them. The soloists were Miss Daphne Gibson and Arthur Carpenter, and they added much to the music by their rendition of their parts. Especially pleasing was the male chorus, but all the chorus selections were so well given that it would be invidious to particularize.

The cantata was preceded by a short programme, which included an organ solo by Mr. Burston (Cantelene by Wm. Reed), a quartette ("The Day is Past and Over," by Wm. Reed), sung exquisitely by Mrs. F. J. Poulin, Miss M. E. Shaw, Mr. C. H. Thorn and Mr. H. C. Thorn, a solo (Hosanna) by Mr. P. T. Thomas, and two organ solos by Mr. Wm. Reed.

The whole programme reflected the greatest credit upon the choir of the Methodist Church and those who assisted, and the musical treat afforded will linger long in the memories of all who had the good fortune to be present.

PILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of Itching, Blnhd, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

SIX MEN KILLED BY AN EXPLOSION.

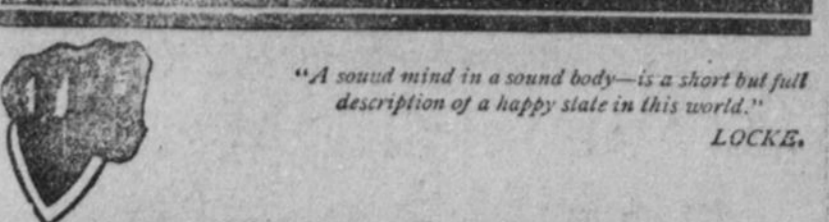

Prince Rupert, B. C., Jan. 12—Particulars as to the premature explosion on the Grand Trunk Pacific right-of-way, which resulted in the deaths of six men here yesterday, are yet lacking. Six of the gang were killed outright and the seventh is in the hospital with a fractured skull, and is unable to give any statement. The bodies of the dead were blown fifty feet into the water of the harbor and have not yet been recovered.

THE CHARGES AGAINST W. R. TRAVERS.

Toronto, Jan. 12—Crown Attorney J. Seymour Corley states that the Crown will be ready to proceed tomorrow in the hearing of the charges against W. R. Travers, former general manager of the Farmers' Bank, charged with making false returns to the Government, and with theft of \$40,000 from the bank. On the former charge Travers has pleaded not guilty and elected trial by jury; in the latter he has neither elected nor pleaded.

The Easy Road To Wellville Grape-Nuts

Contains the Food Strength of Wheat and Barley in Easily Digestible Form. "There's a Reason"

WILSON'S INVALIDS PORT

(A la Quina du Perou) will positively cure every case of STOMACH TROUBLES no matter how severe or how long standing. EXTREME NERVOUSNESS prevents nervous prostration and quickly gives FRESH STRENGTH AND VITALITY.

Wilson's Invalids' Port is not a mere stimulant but a purely medicinal formula which acts quicker and more directly on the nervous system than any other preparation known to the medical science. It quickly gives the system the necessary strength to do its work.

Dr. G. H. MANCHESTER 101 Union Ave., Montreal, says: "I must say I find 'Wilson's Invalids' Port' more than palatable and think that it is an excellent tonic along the lines you offer it—that is, where any temporary debility exists in the digestive organs, such as in convalescence, and vivid nervous troubles. I have no hesitation in prescribing it in suitable cases."

"Sunkists" are California's Choicest Oranges

On the breakfast table—in the sick room—for making salads, puddings and other desserts—for a bite between meals, in the lunch box, there is no fruit equal to the famous California "Sunkist" Orange.

Sunkist Oranges are thin-skinned—fiberless—seedless. They fairly melt in the mouth. There is so little waste in serving and eating them that they are truly the cheapest orange you can buy.

FREE Rogers Orange Spoon Save 12 Sunkist Orange Wrappers and send them to us with 12c to pay charges, packing, etc.

OPENING GAME JUNIOR LEAGUE

St. George Defeated St. Patrick's in a Closely Contested Struggle.

The opening game of the Junior Hockey League provided lots of excitement at the Quebec Ring last evening.

The first half ended three to one in favor of St. Patrick's, and when the second half opened they added another tally.

It was then decided to play five minutes each way. St. George scored the first and St. Patrick's evened up shortly afterward.

The game was an exciting one, and while the hockey was possibly not of the most scientific character, it was close enough to keep the followers of the two teams on edge.

Messrs. Mallen and Outman, of the Senior Quebec team, were the officials.

The line-up was as follows:

- St. George. Goal. St. Patrick. Flynn. Kelly. Gibault. Walker. Wilson. Cover-Point. Aird. Rover. Walsh. Centre. Laroche. Louis. Right Wing. Derouin. Hamel. Left Wing. Boisjoli. Vallee.

OTTAWA TEAM TO MEET QUEBEC

Will Likely Be Same as Defeated Renfrew—Hall with Quebec.

Ottawa, Jan. 12.—It is likely that the Ottawa Hockey Club will report Goal-keeper Bert Lindsay, of the Renfrew team, to the National Hockey Association.

The Ottawas will use the same team for the Quebec match Saturday as that which defeated Renfrew.

The Quebec team for Ottawa will be strengthened by the presence of Joe Hall, who will make his first appearance on the Quebec team.

After the great game which the Quebec team put up against Wanderers, the followers of the local team are of the opinion that Ottawa will have a desperate time to add another win to their present undefeated record.

RACING IN FLORIDA

Jacksonville, Fla., Jan. 12.—Leamence won the fourth race at Moncrief today, the nearest approach to a feature, in a drive by a head from Nich Stoner, who got the place from Billy Vandever by a length.

BASEBALL RECORD FOR YEAR 1911

Spalding's Official Baseball Record for 1911 has just been published. This annual baseball book is growing more and more in favor each year, containing as it does a record of thousands of incidents which occurred during the year of interest to its readers.

OTTAWA, JAN. 12.—The coming Dominion Forestry Convention at Quebec, January 18-20, will be a record one.

More than 300 leading citizens from every part of Canada have notified the secretary that they will be present. The programme, now about complete, shows that the burning questions of the day will be discussed by leaders in forestry not only in Canada, but also in the United States.

CHANGES IN BASEBALL RULES

Do Not Appear to Be for the Good of American Game.

In the winter season the baseball writer can scarcely restrain from shooting the present rules full of holes and advancing reforms that seek to better the game.

There is an effort just now to make some amazing changes in the rules on the ground that "batting is too light."

1. Instead of calling the first two foul strikes, call but one a strike and permit the batter to foul the ball as often as he pleases after the first strike.

2. Limit the number of called balls to three.

3. Increase the number of strikes to four, but retain the present rule which provides that the first two fouls shall be called strikes.

Unquestionably the adoption of any one of the above rules would greatly increase the batting in the major circuits. They would make .300 per cent batsmen out of .260 hitters, and send many pitchers back to the minors.

It is a matter of doubt whether the fan prefers a hurly-burly 15-to-11 contest to a smartly played 2-to-1 game.

These are the kind of games that set the fans buzzing. The game is played over again at night and the performance of the pitcher in fanning the third man with the bases full or the feat of a batsman who decided the game with a timely hit is told again and again.

But the 15-to-11 contest caused no such comment. It is generally dismissed with a scant "It was awful" or "They both played like a lot of dubs."

To introduce legislation that would strengthen the attack out of all proportion to the defense would give us 15-to-11 baseball almost every day.

But is there a lack of hitting? doesn't every team in the two leagues have one or more players who can step to the plate and not shake and tremble at the pitcher before him.

Is batting a lost art when baseball has such formidable hitters as Magee, Paskert, Collins, Baker, Murphy, Aldring, Cobb, Crawford, Speaker, Stahl Lord, Milan, Chase, Knight, Lajoie, Wagner, Bresnahan, Snodgrass, Hofman, Doyle, Konetchy, Schulte, Kling, Daubert, Wheat, Beck and others?

The rule-makers should go very slow about tearing down the brisk, smart game of baseball that we have at the present time and substituting for it the whims of faddists.

LABOR BUREAUS

Montreal Gazette: The Government of the Province promises to open labor bureaus at an early date. Labor bureaus opened in England have not been the success that was expected.

TUPPER'S SUGGESTION

Ottawa Citizen: There is a good deal in the suggestion of the veteran statesman, Sir Charles Tupper, that it would pay Canada better to subsidize a line of first-class steamships to run between Canada and Great Britain.

SHOWS ITS PARENTAGE

Montreal Gazette: The estimates laid before the Legislature of Alberta provide for an expenditure next year of \$5,925,000. The revenue is expected to be \$3,078,000.

WORKINGMEN AND TARIFF

Toronto News: A big American sole leather company has just closed seventeen factories, throwing a number of men out of employment. Thousands of United States steel workers are walking the streets.

CONCEALING WRONGDOING

Winnipeg Telegram: The Secretary of State is still at work of "investigating" the Printing Bureau. The Public Accounts Committee is doing what it can to get at certain facts with reference to the expenditure of public moneys in other departments at Ottawa.

SEASIDE HOUSE

DIRECTLY ON THE OCEAN FRONT. Sea Water Baths. Open all the year. F. P. COOK'S SONS. jan13x26

Press Opinions

DID HE FORGET?

Toronto News: In his message to Congress, Mr. Taft talks of peace, but does not contribute towards that end by accepting the proposal that the terminable Rush-Bagot convention prohibiting armed vessels on the Great Lakes should be converted into a permanent treaty.

A WILD SUGGESTION THIS.

Winnipeg Free Press (Lib.): The first of a series of articles in the Philadelphia North American on reciprocity between the United States and Canada closes: with this suggestion:

"A solution might best come on the lines of commercial union, based on free trade as between the two countries and a common protective tariff against other nations, with the resultant revenue divided between the United States and Canada on a basis of population."

LABOR BUREAUS

Montreal Gazette: The Government of the Province promises to open labor bureaus at an early date. Labor bureaus opened in England have not been the success that was expected.

ONTARIO CUTS THE MOST LUMBER

But Quebec Is Well Ahead in Spruce—No Figures for Pulp.

Ottawa, Jan. 13.—In a report on the forest products of Canada for 1909, issued for the Forestry Branch of the Department of the Interior, compiled from statistics supplied by operating sawmills, trade papers, prominent lumbermen, provincial, county and township officials. Ontario leads all the provinces in the value of lumber cut with the magnificent total of \$30,050,344.

LARGE INCREASE OVER 1908.

The number of mills operating in Canada, with the exception of a few small plants in Quebec, is 2,085; the quantity of timber cut, 3,814,942,000 feet board measure, and the total value \$62,819,477.

ONTARIO LEADS.

In respect of Ontario the report says: "It holds this position (top) by virtue of its great annual cut of white pine, and by reason of its diversified forests, which give it a small annual cut of almost every wood produced in Canada."

COMPARED WITH UNITED STATES.

Continuing the report says: "The only wood of which Canada cut a larger amount in 1909 than the United States did in 1908 is balsam. The cut of balsam in Canada in 1909 was 91,005,000 feet; the cut in the United States in 1908 was 69,956,000 feet.

CHAO.

The village dogs are howling. The cocks no longer crow. The hens have ceased from laying. And our gentle horse won't go.

LITERARY NOTES

A Wealth of Canadian Song. Under the above caption Mrs. C. M. Whyte-Edgar has collected a well-chosen anthology of Canadian verse which is not only representative of the best verse of comparatively recent times (only the work of dead writers being quoted), but also gives a prominent place to some of the earlier verse produced in this country which, as Mrs. Edgar says, has been allowed to fall into oblivion.

TO BAR TRUST SHIPS.

Washington, Jan. 12.—Representative Humphreys' bill to shut out of American ports all steamships that belong to foreign shipping trusts or combinations, received the favorable consideration today of the House Committee on Merchant Marine. It will not be recommended for passage, however, until the opinion of officers of the Department of Justice has been secured as to the character of legislation that is needed. The Humphrey bill would shut out all foreign ships belonging to shipping combinations under penalty of \$200 for each passenger landed and forfeiture of all goods brought in. It would also cancel the mail subsidy contracts of this government with American ships that belong to such trusts.

THE BONUS SYSTEM CONDEMNED

Does Not Increase Efficiency, Say Prominent Labor Leaders.

New York, Jan. 12.—Unqualified disapproval of the bonus system seeking increased individual efficiency among employees was expressed to-day by labor leaders before the National Civic Federation, gathered in its eleventh annual convention.

"It is simply the same old task-driving system under a new name," declared Jno. Mitchell, former president of the United Mine Workers of America. Warren S. Stone, grand chief of the International Brotherhood of Locomotive Engineers, said that the railroad had tried the system; found it a failure, and promptly abandoned it. The bonus project was brought up for discussion in the address of H. L. Gant, an industrial expert. Mr. Stone, who followed, promptly attacked the theory, relating instances in his own experience as a locomotive engineer, to show that poor work, not good, was the result of the system. "The Brotherhood of Locomotive Engineers stands for efficiency, but not for the bonus system," he said. "It has been tried and failed."

The declaration of Louis D. Brandeis, counsel for the New England shippers, before the Interstate Commerce Commission, that millions could be saved to the railroad by proper management, also came in for an attack by Mr. Stone. "I differ with Mr. Brandeis," he said. "Has he ever directed a railway? Yet Mr. Brandeis, who has not practical experience of this subject, says the railroad might save half of the waste." Mr. Stone asserted that the whole country was interested in what the Interstate Commerce Commission would do about freight rates. "The roads need money for development and improvements," he said, "and to meet modern requirements exclusive of the raise in wages. Some of the best managed roads will be seriously affected unless they are given relief."

John Mitchell reverted to the bonus system. "This theory of efficiency they offer in their interest," he said, "the workmen do not want without further investigation. If it is to go on, have it in the name of the manufacturer, not of the wage-earner. We repudiate it."

BELIEVES MURDERED
 BOY IS HIS SON.
 Albany, N. Y., Jan. 12.—Word was received here late to-night saying that Alexander Karbowski, of Scranton, Pa., believed the body of the boy found murdered on the outskirts of Albany last Tuesday is that of his son, who, with his mother, disappeared from home last Friday morning. The despatch says that the description of the body tallies exactly with that of the missing boy. Karbowski was at work and did not learn of his wife's disappearance until late Friday evening. He traced her to the Lackawanna station, where she took a train for New York, and there he lost the trail, according to the despatch. The Karbowski boy was born Dec. 9, 1906, and when he disappeared wore a white Fauntleroy suit and a long blue tie, the same as that worn by the murdered boy.

MARRIAGE OF THE EARL OF CADOGAN.
 London, Jan. 12.—Surprise has been caused in London by the marriage of the Earl of Cadogan to his cousin, the Countess Palagi, at Florence. The Earl of Cadogan is one of the wealthiest of London ground landlords and a great entertainer of royalty. Three heirs to the title have died during his lifetime.

VICTIMS OF THE FARMERS' BANK
 Fingal, Ont., Jan. 12.—Depositors and stockholders of the Farmers' Bank, in Fingal and neighborhood, to-night took action to influence the Government to make a thorough investigation into the affairs of the bank and appealed to the Attorney-General of the Province to proceed against any officer or person directly or indirectly responsible for its failure. The Municipal Hall was crowded by men and women, some of them impoverished by the bank's insolvency and all demanding that the Government protect whatever interests remain. About \$50,000 is involved. The meeting appointed Rev. George Gilmore, pastor of Knox Church, to represent it at the general meeting of the creditors in Toronto next week.

DISTINGUISHED PARTY FOR CANADA.
 New York, Jan. 12.—The Marquis and Marchioness of Salisbury, their son, Viscount Courborne, their two daughters, the Ladies Mary and Beatrice Cecil, the Dowager Countess of Arran and Lady Winifred Gore all arrived here to-day by the steamship Adriatic, on their way to Ottawa, where they will be the guests of Earl Grey, the Governor-General of Canada. None of the party has ever been on this side before. The Marquis, who is a son of the late Prime Minister, Lord Salisbury, was reticent about politics. "It is too early yet to tell what will be done with the House of Lords," he said. "However, the fact that the balance of power was practically unchanged by the recent elections would seem to indicate that the people are satisfied with the attitude and programme of the government."

NEWFOUNDLAND AND FISHERIES RULES
 Settlement of the Question Favorably Received on Island.

St. John's, Nfld., Jan. 12.—Members of the Newfoundland Government here, received to-night, the first news of the agreement of the Canadian and Newfoundland Commissioners to change the existing fisheries regulations in accordance with the objections of the United States. The members of the Colonial Cabinet expressed great satisfaction at this speedy and favorable adjustment, and at the spirit of confidence shown by the United States in trusting to Canada and Newfoundland to arrange the matter. While the settlement appears to be in the nature of a concession by Newfoundland, the cabinet and members of the Colonial Government to-night expressed every confidence that Premier Morris has amply safeguarded the colony's interests. Attorney General Morrison, who was to have been the British member of the board of experts appointed under the terms of the The Hague award, said to-night that he regards the decision as another evidence of the cordial and statesmanlike manner in which both nations approached the situation. Colonial Secretary Watson said he regarded the settlement as a triumph scarcely inferior to The Hague award.

Attorney General Morrison received a message from Premier Morris late to-night, saying: "Leaving to-night for home; bringing satisfactory arrangements for approval of Government." The conferences have been going on since Monday morning and followed similar conference by the State Department of this Government with representatives of the Gloucester fishing interests. The formal statement of the outcome, issued at the State Department to-night, is as follows:—
 "As a result of these conferences, an understanding was reached that instead of calling upon the commission of experts appointed under the award to determine the reasonableness of certain existing fisheries regulations to which the United States had objected, the Canadian and Newfoundland Governments will proceed voluntarily to make such changes in the existing regulations as are necessary to remove the objections of the United States.

"The effect of this arrangement is to make it unnecessary to reassemble The Hague Tribunal to act upon the report of the experts, and eliminates any further proceedings at The Hague. All differences which may arise in the future as to these or any future regulations which cannot be disposed of by diplomatic negotiations will be referred to the permanent mixed fisheries commission to be established in accordance with the recommendations of the award."

The regulations thus to be modified are understood to refer to the use of purse seines. Sunday fishing, right of search and like subjects.
 The United States was represented in the conference by Secretary Knox, Counsellor Chandler P. Anderson, Robert Lansing, one of the counsel for the United States to The Hague arbitration, and Mr. Hugh M. Smith, acting Commissioner of Fisheries. The British were represented by Ambassador Bryce, Prime Minister of New Foundland Sir Edward Morris, Sir Alan Aylesworth, Minister of Justice of Canada (the agent of Great Britain in The Hague arbitration); Hon. L. P. Brodeur, Minister of Marine and Fisheries of Canada; Mr. George Young, secretary of the British Embassy; Dr. Wakeham, of the Canadian Fisheries Department, and Captain O'Reilly, of the New Foundland Fisheries Department.

MANUFACTURERS WANT PROTECTION
 And Are Opposed to Reciprocity—Delegation Meets Premier This Morning.

Ottawa, Jan. 12.—Manufacturers from all parts of Canada arrived in the city to-day and the Board of Trade rooms to-night presented an enlivened spectacle. The delegation, which has come to make its representations on the tariff, is not a large one. There are about sixty in all, but it is a very representative body. The big steel and coal interests are represented by President Plummer and General Manager Butler. Montreal sent up a carload of delegates and the Toronto contingent another.

At last night's meeting final arrangements were made for presenting the case. Differing from the farmers, the manufacturers do not propose to take up four hours in presenting a long line of memorials. There will rather be but one, it is said. It will take about half an hour to read and will be presented by Mr. T. A. Russell. Then Sir Wilfrid Laurier will reply. While the memorial is not given out, it is known to be a strong argument in favor of a protective tariff, and incidentally against reciprocity. While anything which the Prime Minister has to say on the question will be of interest, he is not in the habit of making promises to delegations beyond the customary one that what they have said will be taken into serious consideration. The delegation will be received at 11 o'clock to-morrow morning in the railway committee room, and most of the members and Senators will attend.

The Weather

Toronto, Jan. 12.—The weather has been mostly fine to-day throughout the Dominion, except in British Columbia, where light snow falls have occurred. The extreme cold continues in the Western Provinces and a change to colder has taken place from the Ottawa Valley to the Maritime Provinces. Temperature:
 Stations. Min. Max.
 Dawson x52 x38
 Victoria 20 22
 Vancouver 8 16
 Calgary x42 x32
 Edmonton x42 x34
 Moose Jaw x39 x29
 Winnipeg x24 x18
 Port Arthur x14 x12
 Parry Sound x 2 20
 London x26 34
 Ottawa x 2 8
 Montreal x 2 4
 Quebec 2 10
 St. John 20 26
 Halifax 24 40
 x Below zero.
 Lower Lakes and Georgian Bay—Light falls of snow or rain to-day, turning colder by night.
 Ottawa Valley and Upper Lawrence—Fair at first, with rising temperature, followed by light snow falls, turning colder again by Saturday.
 Lower Lawrence—Fine and cold to-day, light snow falls at night or on Saturday.
 Gulf and Maritime Provinces—Fresh winds, fine and cold.

TO FLY OVER THE ISTHMUS OF PANAMA.

New York, Jan. 12.—Clifford B. Harmon, the millionaire aviator, returned to America to-night from Europe, full of determination to fly across the Isthmus of Panama in his bi-plane. While in France he bought a new machine with a 70 horse-power revolving engine. The flight will be made from the deck of a steamship and is scheduled to take place in March. An engineer who recently inspected the route reported that it was full of unusual difficulties. "Once started, I don't care where I land," retorted Harmon to-night. "I'm going across the Isthmus."

PROPOSED TARIFF COMMISSION
 Significant Progress Made in the Movement—President Taft's Endorsement.

Washington, Jan. 12.—Significant progress was made to-day in the movement for the creation of a permanent tariff commission. Not only did President Taft, in an address at the banquet of the National Tariff Commission Association, openly endorse the Longworth bill characterizing it as "a conciliatory measure embodying all the important features that are necessary to make the commission effective," but early to-day he summoned the Republican members of the Ways and Means Committee to the White House and urged them to harmonize their differences. The President renewed his plea for harmony in his speech to-night, declaring that what he was most anxious to avoid was the failure of tariff commission legislation at the present session because of any differences as to details. He declared that he would not mention "the bill that bears the name of the Ohio Congressman," except that it seemed to him "to constitute a very well-drawn compromise upon all the differences of detail that have existed between the supporters of various measures."

The Longworth bill referred to by the President, according to the admission of its author, is an incorporation of salient features in the Lenroot and Goode bills of the House and the LaFollette and the Beveridge bills of the Senate, and provides for inquisitorial powers for the tariff commission, as well as the safeguarding of information obtained.
 The National Tariff Commission Association early to-day had practically endorsed the Longworth bill in a resolution sent to Congress demanding immediate tariff commission legislation, and it was in amplification largely of the resolution of the association that President Taft spoke to-night. The association had declared for a tariff commission whose powers and functions should be analogous to the Interstate Commerce Commission. Many members of the Senate and House were present at the banquet and among the speakers were Senators Lodge, of Massachusetts, and Cummings, of Iowa, and Representative Longworth, of Ohio.
 "You do not desire," said President Taft, "if I understand your present resolutions, that these men should fix tariff rates or recommend rates to be fixed. You desire only that they should furnish the correct information upon which the body constitutionally charged with fixing tariff rates may properly act, so that the public may have the truth from the Tariff Commission, and then advise itself how Congress shall have acted with respect to that truthful presentation of premises for action."

PERSONAL

Mr. Robert Hoe, of New York, is in town.
 The following Canadians have registered at La Banque Nationale, Paris, France: Mgr. Tetu, Quebec; Dr. J. E. Panneton, Mr. J. E. Forget and Mr. E. LaRocque, Montreal.
 The friends of Constable John Power, of the Provincial Police, who has been seriously ill, will be glad to hear that he is now out of danger and rapidly recovering his former good health.
 His Excellency Governor Quimby, of New Hampshire, is in town, accompanied by his A.D.C., Colonel Brown, and both occupied seats on the floor of the Legislative Assembly last evening.
 Rev. R. E. Welch, professor of Apologetics and Church History in the Presbyterian College, Montreal, will occupy the pulpit of Chalmers Church at both services next Sabbath. Prof. Welch is one of the ablest preachers in Eastern Canada.
 Arrivals at St. Louis Hotel—Louis Baez, Jules Roselle, Wm. F. Grose, R. W. Barclay, Louis J. Papineau, C. D. Fainer, Montreal; Fred Bailey, Berlin, N. H.; Chas. Adam and wife, London, Eng.; Mr. and Mrs. A. C. Miquelon, Danville, Que.
 The many pressing demands for the services of the famous specialist, Dr. Claygong, which have been received from outside points, will necessitate his absence from Quebec for a couple of weeks. Dr. Claygong will leave for Montreal Saturday night.
 Arrivals at the Clarendon—A. E. Goyesse, Grand Mere; Mr. and Mrs. H. Rouleau, Chicoutimi; J. R. Dinis, B. J. Rayner, Alberton, P.E.I.; F. X. Gauthier, Three Rivers; P. A. Lari-viere, Joliette; Miss R. Savage, Montreal; W. L. Sylvester and wife, Van Kleek Hill, Ont.; J. E. Lague, Montreal; J. D. Leclair, Ste. Therese; A. Denis, St. Norbert; Jos. Lapointe, Simon Lapointe, Chicoutimi.

DEATH RECORD.

London, Jan. 12.—Baron Swaythling, the banker, died here to-day. Montagu Samuel-Montagu, the first Baron Swaythling, was born December 21, 1832, and was the son of the late Louis Samuel, a watchmaker, of Liverpool. For forty or fifty years he conducted business in London and until September, 1909, was head of the banking firm of Samuel Montagu & Co. In 1894 he was granted a royal license to assume the surnames of Samuel-Montagu and created a baronet, and in 1907 he was elevated to the peerage, taking the title of Baron Swaythling, of Swaythling, County Southampton. The Baron took a great interest in advancing Jewish and other institutions and in founding new synagogues.

Topics of the Day

CANADA HAS THE WHIP HAND.
 (Toronto Mail.)
 It is admitted at Washington that in the reciprocity negotiations Canada has the whip hand. Our representatives are in so good a position that they can practically dictate terms. The circumstances under which we have reached this situation are instructive. In the early days of Confederation numerous attempts were made to renew the then but recently abrogated Eigin Treaty of Reciprocity. It was supposed at the time that without reciprocity Canada would come to an end. The rejection of our advances did not, however, produce the results hoped for by some United States politicians. Instead of forcing us to sue for political union they led us into great enterprises of a nation-building character.

The first step we took was the adoption of the National Policy. "If the United States will not have reciprocity in trade we will have reciprocity in tariffs," said Sir John Macdonald, and the idea was carried into execution. We then began to build up industries of our own. The creation of industries was accompanied by the development of the West. Canada felt that she was strong, and as she recognized her own strength she launched out into new enterprises and added to her importance as a division of the British Empire. The failure to secure reciprocity when we sought it was a blessing in disguise. It made us independent and aggressive; it led to the discovery of the real Canada. To-day we are not in need of reciprocity. But our neighbors who drove us so frequently from their doors are looking for a trade arrangement. They want now what they formerly would not have. Their situation is the result of our activity. Looking across their northern border they see a great market for many of the articles they produce. It is their desire to possess this market. And they want to get it, or as much of it as they can acquire, at once for a variety of reasons. In the first place they wish to head off the British preferential policy, which will give Britain a real preference in Canada, and Canada a preference for her food products in Britain. Then, their own natural products need conservation. They therefore hope to take advantage of such of the natural products of raw materials of Canada as can be made available by them. Again, they desire an expanded market for their manufacturers. The industrial conditions are changing and larger markets are needed. Under the National Policy of Canada manufacturers of the United States who desire to operate in the Dominion find it to their advantage to establish factories here. Under reciprocity this state of affairs would come to an end. United with all these influences making for reciprocal trade is the fact that the two parties in the United States are competing with each other on the reciprocity issue. Knowing that reciprocity with Canada is a popular policy, Republicans and Democrats alike profess to favor it, and the Republicans stand to lose if they fail to get it, or if they fail to secure concessions that shall be of value to the interests that are most influential.

The conditions, therefore, are all on Canada's side. We need no reciprocity. On the other hand, our neighbors are for national and for party reasons most anxious to enter into a treaty. This gives the Canadian negotiators an opportunity to drive a bargain that shall be satisfactory to us, or, failing that, to refuse to come to terms. There need be, then, no sacrifice of any Canadian interest. There need be no capitulation upon it ought to be a bargain in virtue of which Canada makes important commercial gains. It ought to be an arrangement by means of which the balance of trade, now so much against us, shall be turned in our favor.

HERE'S AN IDEA FOR THE FURNACE MAN.
 Going home on a street car, the other night, a young married man complained about the difficulty he was having with the furnace. It was a hot-water boiler of established reputation, but was giving little satisfaction. He could get the house hot all right, but the big fire that he found necessary to achieve this end would consume all the coal he could pile on it before morning, and so he would have to light it again. Out of his trouble with the furnace came a suggestion that should prove valuable to the manufacturer. "Why can't they keep a man to drop round to every house where they sell a furnace, and show a fellow how to run it?" he said. "It wouldn't cost them much, and it would be a big advertisement if every man who bought a boiler knew that he would be taught how to regulate the fire under it."

THE GAS RANGE EXPERTS.
 The idea is a good one, and is capable of extension into many branches of manufacture. In New York it has been adopted with great success by the gas company. Eighteen experts are employed to visit homes where the gas is used for cooking purposes, and instruct the young housewife how to get the best results from her range. They are all graduates of a cooking school, and besides being culinary experts are thoroughly versed in the peculiarities of the gas range. Some of them are obliged to speak two or three languages, for New York's polygot population is usually more sorely in need of instruction than the native American stock. Every morning these eighteen demonstrators meet at the gas company's office, and receive their assignments for the day.

18,000 HOME HAPPIER.
 The gas company invites householders to notify it when the range is not giving satisfaction, and there are usually several fresh complaints on file each morning. These are attended to first, and when the demonstrator has looked into the urgent cases, she spends the remainder of her time in dropping in on other consumers of cooking gas, whether they have applied for her services or not. Very frequently she is informed that there is nothing particularly wrong with the range, but that it has never given much satisfaction from the first. An investigation usually shows that the stove has been neglected, and that there are charcoal and soot accumulations of years' growth about the burners. Thereupon the demonstrator takes the range to pieces, and scrubs off the grime. When she gets through she leaves a stove that looks like new, and has given the housewife a good object lesson in the proper care of a range.

From a report of the demonstrators' work in the New York Herald, it seems that even in the simple act of boiling water there is a right way and a wrong way. There is also a safe way and a dangerous way to light the stove. The correct method is to open both doors, and light the pilot, then the back burner, and last the front burner, after which the pilot is turned off. When a match is used to light the oven, the flame sometimes flares out. There is a right rack and a wrong rack on which to bake the biscuits and all sorts of hot breads. The top is right for biscuits, the lower is right for roasts. To print these directions on a card and thus supply them to every owner of a gas range is not nearly so effective as the New York way of sending demonstrators round. It is probable that the additional expense is counterbalanced by the greater use that will be made of the gas range when the cook can obtain more satisfactory results from it. Indeed, it might be found that the eighteen young women are making a handsome profit for the gas company.

Commercial News

NEW YORK STOCK MARKET.

McDonald & Lesparance, stock brokers, private wire to New York and Montreal, Hochelaga Bank Bldg. Telephone, 1227.

New York, Jan. 12.—The stock market was more or less unsettled all day by reason of the heavy selling of Pennsylvania shares, following yesterday's announcement that the directors had proposed to the stockholders an increase of \$100,000,000 in the company's capitalization. The action of the directors was altogether unexpected, and gave rise to fears that similar steps may soon be taken by various other roads, with a resultant congestion of the securities market. Pennsylvania sold down to 125 1/2, a loss of 3 1/2 points from the previous day's high price, on a total of transactions much in excess of any recent day. Long Island, an allied property, declined 1/4 points and pronounced weakness was shown at times by New York Central. The balance of the market was generally firm, with exceptional strength in the coals, Harriman and Hill issues and St. Paul, the latter in spite of a poor statement of earnings for November. Industrial shares were fairly steady under the lead of United States Steel, which was affected favorably by reports that operations are soon to be resumed at one of the corporation's largest plants, as well as the decision of the leading manufacturers to maintain the existing schedule of prices. Other industries whose recent weakness occasioned some criticism showed a better tone to-day. Taking the market as a whole, however, its professional tone was even more pronounced. Trading diminished in the late session, but the market hardened gradually until at the close prices were near the best of the day. Local banks made a further gain of cash from the sub-treasury, and Saturday's bank statement ought to show a piling up of money at this centre. Rates here show greater ease, and Chicago reports an unusual accumulation of funds, with like conditions at other reserve centres. Belief that last week's poor showing of the Bank of England would soon be corrected found verification in to-day's exhibit of that institution, which reported an increase in its proportion of reserves to liabilities of almost 13 per cent. The bank's total reserves increased more than \$7,500,000, with a gain of almost \$5,000,000 in gold holdings. The aggregate of checks cleared through the bank last week was largely in excess of the same week last year, and the generally satisfactory character of the situation in London found its most direct reflection in the better tone for consols. The notable features of the weekly statement of the Bank of France included a decrease of more than \$20,000,000 in loans and discounts, and a gold loss of about \$1,200,000. A further recession in futures on copper was shown in the London market and there were reports of slight price shadings here, but they lacked confirmation in official quarters. It was rumored that large exports of the metal are under negotiation, but the day's developments in the local copper market gave no indication of this. Among the few interesting railway reports of the day was that of

FAGUY, LEPINAY & FRERE.

CLOSING LETTER.

By private wire to Neuville Belleau & Co., 93 St. Peter street.

New York, Jan. 12.—The opening prices followed the lead of London, which came fractionally higher this morning and continued to rise during the following hour until advances of 1 point or more had been scored in many of the active issues. Reading gained 1 1/2, Union Pacific 1 1/2, Steel 1, etc. The stories regarding script dividend on Consolidated Gas were again proved true, although they will ultimately prove true, although not so soon as some may hope. There was good demand for the investment class of stocks, such as American Telephone, Consolidated Gas, Laclede Gas and Brooklyn Rapid Transit. Northern Pacific and Great Northern regained a good portion of their dividends. Several important changes in officers and directors of banks and trust companies gave color to the belief that there had been a general shaking up in the financial concerns in the line of more conservative banking. The postponement of the decision of the Interstate Commerce Commission until March 15 on the rate advance question was not relaxed. It will be practically a year since the advances were asked before the answer will be given. The Pennsylvania Railroad rights sold at 2 to 2 1/2. Mr. Gould, it is said, denies that he will retire from the presidency of the Missouri Pacific, but this has in no way disturbed the belief of those well posted. Copper metal hangs heavy, with sales, 12 1/2 to 12 3/4, the weakness is said to be due to a falling off in domestic consumption. The closing prices were dull and firm, with business for the day light. The market is still professional and narrow, and we would buy only on breaks of the better class of dividend payers for sales on rallies.

NEW YORK CLOSING LETTER.

By private wire to McDougall & Cowans, 81 St. Peter street:

New York, Jan. 12.—The opening was moderately active and firm, and leading stocks showed fractional advances over last night's close. The speculative community seemed to have come to the conclusion that the calamities seemed to have been circulated for the last two or three days were fakes and sentiment seemed more cheerful. Within an hour Reading and Steel had been advanced well over a point from last night's close, and other leading stocks sympathized. Pennsylvania was inclined to be heavy from the start, and in the second hour pressure against this stock carried it down over 2 points from its early high level with corresponding weakness in New York Central. The rest of the list sympathized to a certain extent with this decline, but little pressure developed and before long a harder tone began to show itself. As the day wore on the general list showed a tendency to cut loose from the weakness in Pennsylvania. Late trading developed a good tone so that stocks closed well above last night's finals. Pennsylvania continued heavy all day, and it seemed as if holders were selling now in anticipation of subscribing to the new issue. Call money renewals were made at the rate of 3 per cent and lower rates were recorded in late dealings. The figures of our foreign export trade for December were extremely favorable, showing \$183,000,000, against \$80,000,000, an increase over last year of over 50 per cent. Total sales, 340,000 shares.

List of Municipal Voters Deposited.

CITY CLERK'S OFFICE.
CITY HALL,
Quebec, 21st December, 1910.

PUBLIC NOTICE is hereby given that, pursuant to the provisions of the Act 53 Vict., chap. 68, sec. 31, and its amendments, two alphabetical lists, one of the persons qualified to vote at the municipal elections for the office of Mayor and Aldermen for seat No. one in each ward of the city, and the other for persons qualified to vote at the said elections for the office of Mayor and of Aldermen for seats Nos. two and three in each ward of the city, shall be deposited in the office of the undersigned, on the THIRD DAY OF JANUARY, 1911, and will be communicated to whomsoever shall apply for them, every day, beginning the said third day of January next, 1911, to the TWELFTH DAY OF JANUARY NEXT, 1911, from NINE O'CLOCK IN THE MORNING to FOUR O'CLOCK IN THE AFTERNOON.

The said lists shall, during the said period, be shown to any person making application therefor, and every elector who may wish to apply for the insertion or for the correction of a name in any of the said lists, or for striking a name therefrom, shall do so within the delay fixed by law for so doing.

All claims or demands in relation to any names being added to or corrected or erased from the said lists must be filed in the office of the City Clerk, on or before four of the clock in the afternoon of MONDAY THE SIXTEENTH DAY OF JANUARY NEXT, 1911, being the day appointed by law, as final, and after the said day, no claim or demand will be received by the said City Clerk.

Printed blank forms for complaints may be had by applying at the City Clerk's Office during office hours.

By Order,
H. J. J. B. CHOUINARD,
City Clerk.

DEBATE ON THE ADDRESS STILL ON

Discussion Carried on All Yesterday Afternoon and Evening—To Continue To-day.

The entire discussion in the Legislative Assembly yesterday afternoon and evening was on the Speech from the Throne and the debate on this important document was not concluded when the House adjourned. So far eight Government supporters and six members of the Opposition have spoken on the address and whether it will be disposed of to-day is yet an uncertainty, as there are a number of members on both sides of the House who will probably take part in the discussion. There is an idea existing in the precincts of the Parliament Buildings that the Opposition will keep the ball rolling until Mr. Bourassa takes his seat in the House, and the Nationalist leader may be expected in town on Monday next from his European trip, as he was due to arrive in Montreal last evening. Besides Mr. Bourassa, there are still eight members of the Opposition who have not yet been heard from and they are Hon. Mr. Prevost and Messrs. Galt, Plant, Sauve, Pennington, D'Autueil, Sylvestre and Giard, while on the Government benches there are several members ready to take part in the debate.

After the presentation of a number of petitions in the Legislative Assembly yesterday afternoon, Hon. Mr. Taschereau continued the debate on the Speech from the Throne, and like the preceding speakers began by congratulating Messrs. Galt, Pennington and Hay on their able efforts in proposing and securing the address and also spoke in eulogistic terms of the late Mr. Marchand, while at the same time congratulating Mr. Robert on his election as representative of St. John's. He looked upon the result of that election as a punishment for the Conservatives for having thrown in their lot with the Nationalists.

Referring to his bill regarding accidents to workmen, he remarked that that measure had been studied for two years by a commission and that it was satisfactory to the working classes. The maximum indemnity of \$2,000 had been fixed upon at the suggestion of the commission which studied the question. The maximum indemnity, according to English law, was \$1,400, while in the Eastern and Western Provinces the indemnity was lower than that in this Province. However, after the law had been given a fair trial, the Government would have no objection to amend it if necessary to do so.

He spoke at length on this measure and remarked that at the last session working hours in factories had been reduced to 58 hours a week, and hoped that they would soon be reduced to 55. The Minister of Public Works then referred to the increased subsidies granted by the Government without borrowing money, to the surplus and concluded his remarks by stating that they had given \$100,000 to redeem the debentures on Dorchester bridge, and if the Government remained in power for ten years more iron bridges would be erected wherever deemed necessary.

Mr. Patenaude followed and in reply to the Liberal speakers, remarked if there were certain alliances in the opposition, there were others on the Government side of the House, but with this difference that the latter had an object in view and that was to enjoy the power while those in the opposition were allied together through a community of ideas and principles. Premier Gouin, in his remarks, had spoken in favor of moderation and charity, and had not sooner advocated these principles, than he stated to grossly attack a man who had nothing whatever to do with this debate.

Mr. Tellier, in his speech, had criticized the Government's educational policy, but Premier Gouin had not even attempted to reply to these criticisms, but, instead, was satisfied to state that the leader of the opposition had unfortunately adopted the bad manners of the Nationalists. Moreover, Sir Lomer, in speaking of the High Commercial Schools, had informed the House that the idea had been suggested by the Council of Public Instruction, at a meeting at which Mr. Tellier was present and had voted in support of the proposition. As a matter of fact, remarked Mr. Patenaude, Mr. Tellier was not present at that meeting and the member for Laprairie, amidst the applause of the opposition, read from the official reports the names of those present at that meeting. Moreover, remarked Mr. Patenaude, when, in 1906, the Council of Public Instruction had declared itself in favor of a High Commercial School it also added that it should be affiliated to Laval University. Mr. Patenaude, in conclusion, enquired why the Government did not take necessary means to keep the population in this Province as in certain places a third of the electors have already re-

SUREST KIDNEY MEDICINE KNOWN

A Few Doses Regulate Your Kidneys, Ending Backache, Bladder and Urinary Misery

The blessed relief that follows the use of Pape's Diuretic is a revelation to sufferers from backache or kidney, bladder and urinary disorders.

The time to cure kidney trouble is while it is only trouble—before it settles into Dropsy, Gravel, Diabetes or Bright's Disease.

Pape's Diuretic acts at once upon the kidneys, bladder and urinary system; cleanses, vitalizes and regulates these organs, ducts and glands and completes the cure within a few days. The moment you suspect any kidney or urinary derangement, or feel a constant, dull backache or the urine is thick, cloudy, offensive or full of sediment, irregular passage or attended by a sensation of scalding, you should begin taking Pape's Diuretic as directed, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape, Cincinnati, Ohio, who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

Concord, N. H., Jan. 12.—That the residuary clause of the will of Mrs. Mary Baker G. Eddy, founder of the Christian Science Church, is null and void, is the opinion of former United States Senator Wm. E. Chandler, Hannis Taylor and others. The residuary clause provides for a gift of about \$2,000,000 to the First Church of Christ, Scientist, of Boston, known as the "mother church." A statute of New Hampshire prohibiting a bequest to a church of more than \$5,000 annually is the basis of the opinion which was written by Prof. Taylor. Referring to the residuary clause as "null and void," the opinion says:—

"As to the void gift the testatrix died in the state, and its subjected matter passed on her death to her next of kin, under the New Hampshire statute of distribution." In the closing paragraph the opinion advises the attorneys for the next of kin that such agreements and contracts as they made with the testatrix and her trustees in her lifetime only bind them "to recognize as valid such provisions of her last will as are legally valid."

"To that extent," continues the opinion, "you are bound and are required to join with the executors in requesting the Probate Court of New Hampshire to admit such will to probate in solemn form, in order that all its provisions may prevail so far as they are not forbidden by law. After you have so acted and performed every part of the agreement you have entered into it will remain for the courts of equity, Federal or State, to construe the will in order to determine whether the residuary clause is valid or void."

Late to-day a petition was filed in the Supreme Court here by former Senator Chandler and other attorneys, asking the court for a construction of Mrs. Eddy's will, particularly the clause relating to the residuary estate. The petitioners also pray for an injunction against any disposition being made of the property pending the construction of the residuary clause. It is understood the plan of the attorneys for Geo. W. Glover and Dr. E. J. Foster Eddy, the sons of Mrs. Eddy, to try to have the question regarding the residuary legate transferred from the Superior Court to the Supreme Court for a decision. No contest in the Probate Court is expected.

"THE TIME, THE PLACE AND THE GIRL"

The management of the Auditorium wishes to announce that "The Time, the Place and the Girl" will appear here Friday and Saturday nights, with a matinee Saturday. The show was previously booked for one night only, but Mgr. Aloz has been able to prolong the stay to two days. The sale of seats will open Monday. The Utica (N. Y.) Daily Press has the following to say:—

"The musical comedy, 'The Time, the Place and the Girl' was presented to large audiences on its return to the Majestic Theatre Saturday afternoon and evening under the direction of F. A. Wade, and gave excellent satisfaction. The company is a large one, good as vocalists and better as funmakers. They are a lively bunch of young people in motion all the while, a fact which does not interfere with their singing. Mr. Cameron, as Happy Johnny Hicks, the gambler, was the life of the piece. He handed out a choice line of slang and his comedy was very entertaining. Miss Davis, who took the part of Molly the nurse, was an excellent comedienne. Miss Webster, as the girl, was 'it,' and made quite a hit with her songs. Rose Dori, as the Widow Talcott, was also very good, and Mr. Smith made a funny rube. Mr. Morrison and Mr. Mackenzie, as the Willie boys, were entertaining, and Lee Frost, as Willie Talcott, was certainly a hot one. The Honeymoon chorus runs all through the comedy and the musical numbers were highly appreciated.

FRANCE AND LIBERIA.
 London, Jan. 12.—J. P. Crommelin, Liberian Minister in London and diplomatic agent to France, left to-day for Paris, where he has been authorized to sign the boundary treaty between France and Liberia. This treaty was negotiated in 1907, and its consummation was made recently a condition upon which France would approve the American project for the re-establishment of the finances of Liberia.

JACQUES' Annual Cheap Sale 20% Discount ON ALL BOOTS, SHOES, AND SLIPPERS FOR CASH ONLY
WM. JACQUES & SONS
 Tel. 427. 42 1/2 Fabrique Street.

Mr. Cousineau also asks for an order of the House for all correspondence between the Attorney General and any person regarding the disappearance of the young girl Cecile Michaud, in Montreal, in the fall of 1910.

Mr. Cousineau also wants to know if the Government grants licenses for the storage of dynamite or other explosives, and if railway companies, carrying explosives and mine owners have licenses?

WILL OF THE LATE MRS. MARY EDDY

Residuary Clause Said to Be Null and Void by Prominent Lawyers.

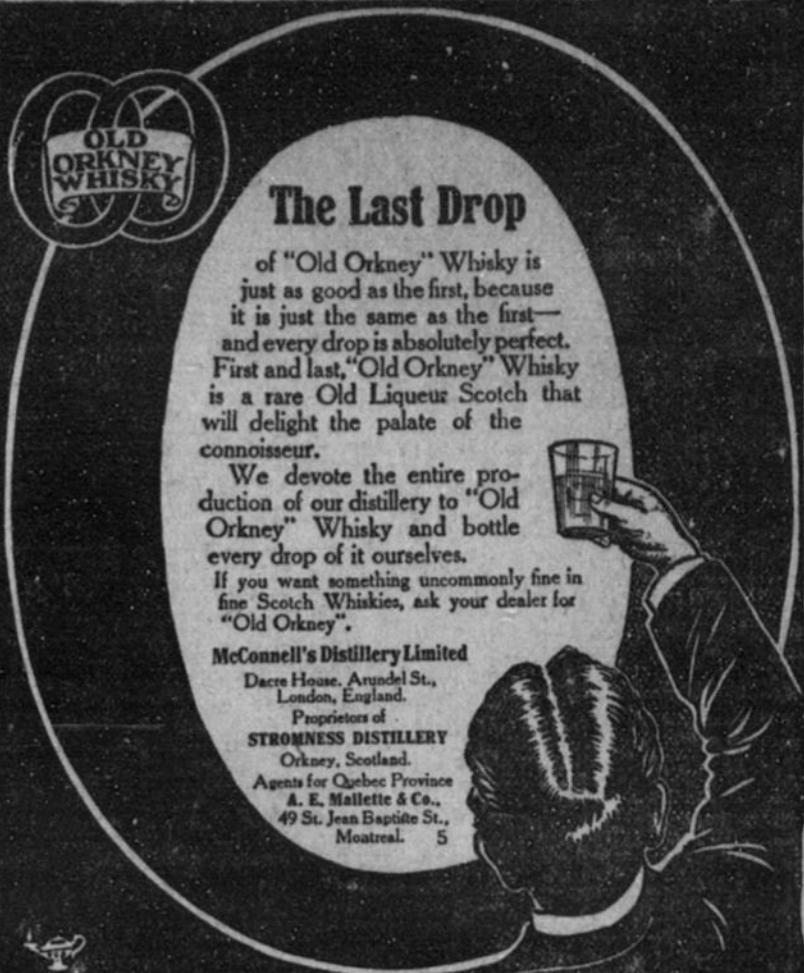

Concord, N. H., Jan. 12.—That the residuary clause of the will of Mrs. Mary Baker G. Eddy, founder of the Christian Science Church, is null and void, is the opinion of former United States Senator Wm. E. Chandler, Hannis Taylor and others. The residuary clause provides for a gift of about \$2,000,000 to the First Church of Christ, Scientist, of Boston, known as the "mother church." A statute of New Hampshire prohibiting a bequest to a church of more than \$5,000 annually is the basis of the opinion which was written by Prof. Taylor. Referring to the residuary clause as "null and void," the opinion says:—

"As to the void gift the testatrix died in the state, and its subjected matter passed on her death to her next of kin, under the New Hampshire statute of distribution." In the closing paragraph the opinion advises the attorneys for the next of kin that such agreements and contracts as they made with the testatrix and her trustees in her lifetime only bind them "to recognize as valid such provisions of her last will as are legally valid."

"To that extent," continues the opinion, "you are bound and are required to join with the executors in requesting the Probate Court of New Hampshire to admit such will to probate in solemn form, in order that all its provisions may prevail so far as they are not forbidden by law. After you have so acted and performed every part of the agreement you have entered into it will remain for the courts of equity, Federal or State, to construe the will in order to determine whether the residuary clause is valid or void."

Late to-day a petition was filed in the Supreme Court here by former Senator Chandler and other attorneys, asking the court for a construction of Mrs. Eddy's will, particularly the clause relating to the residuary estate. The petitioners also pray for an injunction against any disposition being made of the property pending the construction of the residuary clause. It is understood the plan of the attorneys for Geo. W. Glover and Dr. E. J. Foster Eddy, the sons of Mrs. Eddy, to try to have the question regarding the residuary legate transferred from the Superior Court to the Supreme Court for a decision. No contest in the Probate Court is expected.

TAYLOR ELECTED MAYOR OF VANCOUVER.
 Vancouver, B. C., Jan. 12.—Mayor Taylor, proprietor of the World newspaper, was to-day elected by an overwhelming majority to succeed himself as chief magistrate of Vancouver. His opponent was Alex. Morrison, who was defeated by nearly 2,000.

OLD ORKNEY WHISKY
The Last Drop
 of "Old Orkney" Whisky is just as good as the first, because it is just the same as the first—and every drop is absolutely perfect. First and last, "Old Orkney" Whisky is a rare Old Liqueur Scotch that will delight the palate of the connoisseur.
