A CARD FROM
The American Watch Company
—OF—
WALTHAM, MASS.

THIS COMPANY beg leave to inform the citizens of the new Dominion of Canada that they have made arrangements to introduce their celebrated Watches to their notice. They are prepared to prove that their watches are made upon a better system than others in the world.

They commenced operations in 1850, and their factory now covers four acres of ground and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one half of all the watches sold in the United States. Up to the present time it has been impossible for them to do more than supply the constantly increasing home demand; but recent additions to their works have enabled them to turn their attention to other makets.

The difference between their manufacture and the European, is briefly this: European watches are made almost entirely *by hand*. In them, all these mysterious infinitesimal organs which when put together create the watch, are the result of slow and toilsome *manual* processes, and the result is of necessity a lack of uniformity, which is indispensible to correct time-keeping. Both the eye and the hand of the most skilful operative must vary. But it is a fact that, except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthless Ancres, Lepins, and so-called Patent Levers—which soon cost more in attempted repairs than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant. He stamps and engraves them with any name or brand that may be ordered—whether London, Paris, Geneva, or what not; and many a man who thinks he has a genuine "M. I. Tobias, of Liverpool," (whose only fault is, that he can never regulate it to keep very good time), is really carrying a cheap and poor Swiss imitation.

How American Watches are Made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All their operations, from the reception of the raw materials—the brass, the steel, the silver, the gold and the precious stones, to the completion of the Watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their Watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style, and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it. If any part of any American Waltham Watch should be lost or injured, the owner has only to address the Company, stating the number of his watch and the part wanted, whether it be spring, pinion, jewel, or what not, and by return mail he would receive the desired article which any watchmaker would adjust to its position.

The Company respectfully submit their watches *on their merits* only. They have fully succeeded in overcoming popular prejudice in the States in favor of European watches, and solicit a thorough examination and fair trial for their manufactures elsewhere. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old-fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, especially adapted to the wants of the farmer and lumberman, to the finest chronometer for the navigator; and also, ladies' watches in plain gold or the finest enameled and jeweled cases; but the indespensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them

ARE FULLY WARRANTED

by a special certificate given to the purchaser of every watch by the seller, and this warrantee is good at all times against the Company or its agents.

THIS EVENING'S DESPATCHES.

SIX O'CLOCK.

Very Latest by the Cable.

LONDON, Aug. 17.

The rain still continues throughout the country, and it is thought crops suffered extensively in some districts.

BERLIN, Aug. 17.

The general elections for members of the new parliament of North Germany takes place on Saturday, August 31st.

ST. PETERSBURG, Aug. 17.

The U. S. ship of war Franklin, Ticonderago and Frolic, forming the European squadron under the command of Admiral Farragut, arrived at Cronstadt from Stettin last evening. The usual salutes were fired from the fortifications in the harbor and answered by the American vessels.

LONDON, Aug. 17, 2 P.M.

The English Parliament will be prorogued on Wednesday, the 21st.

PORTSMOUTH, Aug. 17, 2 P.M.

The British ship of war Seraphis left this port yesterday for Ireland, whence she will take a regiment to Quebec, Canada.

AMERICAN NEWS.

NEW YORK, Aug. 17.

Stocks steady.
Gold 40⅞.

LORD MONCK.

Lord Monck, family and suite, will leave in the Provincial steamer *Napoleon III*, on Monday for the Saguenay. While there His Excellency and suite will, it is expected, devote some time to fishing and hunting by the tributaries of that river.

NEW KNIGHTS AND BARONETS.

The Queen has conferred the honor of knighthood on William Mitchell, Esq., proprietor of the Liverpool *Shipping Gazette*, for the services he has rendered for many years to the mercantile marine.

For the exertions they put forth to accord to the Sultan of Turkey and Viceroy of Egypt a fitting reception, the Queen has conferred a baronetcy on the Lord Mayor of London and raised both of the Sheriffs who were associated with the chief magistrate, to the order of knighthood.

The honor of knighthood is also to be conferred on Mr. Watkin, M.P., President of the Grand Trunk Railway.

MONTREAL ELECTION.

The nomination day for the three constituencies comprising the city of Montreal will probably be Tuesday, the 27th instant.

MR. McGEE.

The Montreal *Gazette* of yesterday says: "We hope to be able to publish to-morrow morning, the first part of Mr. McGee's account of attempts to establish Fenianism in Montreal."

CITY COUNCIL.

A meeting of this body took place yesterday evening, His Worship, Mayor Cauchon, presiding.

A report of the Auditors, was read, certifying to the correctness of the Corporation and Water Works accounts for year ending 31st May last. The correctness of the accounts for the three months ending July last was similarly testified to.

Alderman Hearn complained that a list of outstanding accounts was not furnished, rendering it impossible to tell what was the amount collected. He knew of persons who had paid their assessments being summoned to the Recorder's Court to pay again. This was a specimen of the existing irregularities in the system, which was so bad as to weaken public confidence in the capacity and character of the City Council.

The subject was then dropped.

A report signed by Messrs. Chas. Baillarge, John M. Kenny and P. Brunel, the former the Superintendent of Works, and telegraph operators, was read stating that they had carefully examined and tested the Fire Alarm Telegraph, and had found the work completed according to contract, and every way efficient.

Letters from Messrs. Badger and Gauthier, Superintendent of the Fire Alarm Telegraph of Montreal, and the Fire Inspector of that city, testified to the substantial character of the work, and its superiority to the Montreal apparatus in several respects.

The report of Messrs. Baillargé, Kenny and Brunel, recommended the City Council's acceptance of the telegraph this evening, in order to the city being placed in immediate possession of its advantages through its going into operation at noon to-morrow, (Saturday.)

On motion of Alderman Renaud, seconded by Alderman Hall, the Fire Alarm Telegraph was accepted by the Council.

Councillor Langlois called attention to the continued erection of wooden houses in St. John's Suburb, notwithstanding that judgment had been given against a number completed some time ago. Why were the judgments not executed?

The Mayor promised to see the law executed.

Alderman Hearn moved, seconded by Alderman Hall, to request the Superintendent of Works to report, at next meeting, why the contract for the supply of fuel to the Corporation had not been given to the party to whom the Council awarded it.—Carried.

The Council then adjourned for a fortnight.

CUSTOM HOUSE RECEIPTS.

The amount collected at the Custom House to-day was $180.31.

BISHOP LANGEVIN'S VISIT TO THE INDIANS.—The first visit of Mgr. Langevin to the Indians at Betsiamits, took place on Thursday last. The *Advance* left here on Tuesday full of passengers, and made a pleasant trip. On the arrival of the Bishop, there were over 700 Indians waiting to receive him. A procession was formed and marched to the church, accompanied by the Bishop and about twenty-five priests. On arriving at the church, which did not hold one-third the vast assemblage, a solemn high mass was sung by the Bishop and a short discourse pronounced. After mass the procession re-formed and proceeded in boats to the steamer, and when the vessel moved from her anchorage the blessing was given by his lordship. The Indians and settlers with their families, numbering not less than 1000 persons, loudly cheered as the steamer proceeded on her way home.

ANOTHER GULF PORTS STEAMSHIP DISASTER!—A telegram from Dalhousie yesterday, brings information that the steamship Emma, now called the Gaspé, while on her upward trip from Pictou, ran ashore on Platon Island, off Point St. Pierre, on Wednesday. Both boats are therefore now disabled, and the Company's business going to the dogs!

TROOPS COMING TO CANADA.—The cable news of Saturday last is confirmed by this evening's English telegram to the *Mercury*, which says a war vessel is already *en route* to Quebec from Ireland with troops.

VISIT OF MONTREAL VOLUNTEERS.—Three companies of the Prince of Wales Regiment of Montreal Rifles and accompanied by Captain Robertson, arrived down about half past five this morning in the steamer *Columbia*. They got in three hours earlier than yesterday's boat, and landed and marched up to the Drill Shed, Grande Allée, before the 9th Battalion Band and guard of honor could muster to receive them. The regiment was not by any means in full strength, but the companies present looked soldier-like and marched well. They were preceded by a well-trained drum and fife corps, and on reaching the residence of the Lieutenant Governor saluted His Excellency, the band playing Rule Britannia. On arriving at the Armory, the men piled arms, and, leaving a guard in charge, the remainder proceeded to stroll at their will through the city and vicinity. Some went to the Camp at Levis, others to the Falls of Montmorency and Falls of Lorette, and meeting old friends or making new ones, passed the time agreeably. The officers were, we are told, entertained at lunch at the Club by some hospitable Quebec gentlemen. Col. Bowen and several officers of the Quebec Artillery Battalion acted as cicerones to their Montreal brethren throughout the day, and escorted them to the steamer on their departure. The Prince of Wales Regiment passed the *Mercury* office, accompanied by many citizens, at half-past four o'clock, the band playing "Paddle your own canoe,"—in capital style. We trust the Montrealers will give their friends a good report of their treatment in old Scadacona, and when leisure offers, not tarry to renew their visit and bring more gallant fellows with them.

DISCIPLINE OF THE CITY POLICE.—There are some few members among the City Police force who understand their position and present an appearance of discipline. The majority, however, are a set of rude, useless fellows whose greatest achievements is the occasional capture of a little urchin for sliding on the sidewalks in winter, and this they dare not effect if there be more than one indulging in the pastime. There is a laxity of discipline about the City Police which it is time the Police Board had put an end to. We have seen sub-constables and even constables who ought to know better, addressing Judges and other officials about the Court-house, as if they were carters on the market place. Most of them when on patrol walk about at a snail's pace, shutting their eyes at the misdeeds of criminals, and only to day our attention was directed to several of them smoking when on duty. Surely such conduct does not reflect much credit upon those who have the control of the body, and there are none who will be more pleased to see a reform made than the few efficient policemen we have, who openly say they are ashamed to belong to such an unmanly and lubberly crew.

THE FERRY.—Though nearly five years have elapsed since the reform of the Levis Ferry was undertaken, the public are yet obliged to sit on the dirty slip when waiting for a boat. A seat at the end of the pontoon would meet the demand and not cost over six shillings; but there is no Road Surveyor to look after anything out of doors. At Levis the Ferry Company actually put three stout benches on their wharf for the use of ladies and others under shelter, but the police or some other assinine officials remonstrated against it, and they stand in the shed unseen and unused. Corporation folly is alike everywhere!

SIDE-WALKS.—Yesterday's Montreal *Witness* says "The many broken or unsound side-walks are now being reported by the police; these officers may soon require a separate sheet for the register." With the great extent of stone paving in Montreal, the grievance never attains the same importance that it does with us. The parapets of many streets here have, however, been fearfully neglected for the last three or four years, and need instant renewal.

The cool weather is bringing back excursionists and sea-bathers. The returning boats are crowded with passengers.

CHURCH OF ENGLAND SYNOD AT KINGSTON.

PROCESSION TO THE CATHEDRAL—OPENING OF SYNOD—DECLARATION OF THE BISHOP OF ONTARIO AGAINST RITUALISTIC TENDENCIES.

KINGSTON, Aug. 15.

On Wednesday, the Church of England Synod of Ontario met in St. George's Hall, and marched into the Cathedral in their habits, singing a Professional hymn.

On coming to the Cathedral, the clergy and delegates opened out, and the Bishop and his chaplains preceded by the mace, and followed by the Dean, clergy and lay delegates, entered the Cathedral.

When service commenced, which was choral throughout, the Communion was administered by the Bishop, Dean and other clergymen, to the large number of the clergy and laity assembled.

The Synod adjourned till two o'clock, when it was opened with the usual formalities.

The Synod had three sittings to-day.

There was a resolution by Mr. H. S. McDonald that he would introduce a canon relating to the vestments of ministers, furniture of churches, &c.

The Bishop of Ontario said:—"I take "the opportunity of saying that though I "rule the cahon out of order, yet that I "have no sympathy whatever with those "who desire the revival of those vestments. "I have over and over again publicly stated "this, but I have often been wilfully and "persistently vilified on this and other "subjects by parties and the press in "Kingston."

The Morning Star says the military training of the Metropolitan police is to be extended to battalion drill.

A private communication from Aden, dated the 10th July, states that on the 8th Colonel Merewether had started for Massowah to inquire about the Abyssinian captives.

The Liverpool *Albion* states that a servant girl residing in a family near that town has unexpectedly come into a fortune of $1,000,000 by the death of a relative in a British colony.

AMERICAN NEWS.

BUFFALO, Aug. 16.

Honest Allen and mate won the race to-day; time 2:28½; 2:23; and 2:27½. Ethan Allen was distanced in the second heat. The next trot was for four year old, under harness, and won by Mollie Gold dust in three straight heats; time 2:49½; 2:47¾; and 2:47½.

SANDUSKY, Aug. 16.

The steam tug Dispatch, of Detroit, was burned to the water's edge this morning, at the dock in this city. Loss $16,000, insurance $12,000.

NEW YORK, Aug. 16.

President Roberts calls the annual congress of Fenians at Cleveland on September 2nd.

CINCINNATI, Aug. 16.

A despatch to the Commercial, from Galveston, Texas, reports yellow fever raging terribly in that place. 20 deaths occurred on the 13th, and 29 on the 14th inst. There were over a thousand cases of fever in the city on the 15th. The hospitals were filled to overflowing with patients, and the managers were calling for extra help to nurse the sick. The Internal Revenue office had been closed, all the employees being down with the fever.

RICHMOND, Va., Aug. 16.

The Central Danville and Fredericksburg Railroad have all sustained damage by the recent freshet. The washing away of a portion of the Danville road caused a freight train to break through, killing the fireman.

BALTIMORE, Aug. 16.

The severest rain storm experienced in this vicinity for years set in on Wednesday morning and continued without intermission until this morning. The lower portion of the city is flooded, and the only means of transit is by small boats. Much damage was done in adjacent towns. Travel on all the railroads is interrupted. The loss in the surrounding country is immense.

A Catholic priest, the Rev. Mr. Marco, LaCrosse, Wis., recently paid a visit to the Paris Exposition. During the period of his stay the Empress of the French presented the rev. gentleman with a solid gold chalice, 21 inches high, and bearing the most curious and elaborate ornamentations.

NEW MAIL CONTRACT TO AMERICA.—The Daily News city article says that the Postmaster General has given notice that on the 1st of October next he will be ready to receive tenders for the contract for the conveyance of her Majesty's mails from some port in the United Kingdom to New York.

THE FENIAN MOVEMENT.—Mr. Justice Keogh, when addressing the grand jury at the Kerry assizes, pointedly referred to a speech of the Solicitor General at the special commission for Limerick, in which Mr. Warren had said that the number of Fenian informers was "too large for him to mention." The very persons who were most violent in denouncing informers, to conceal their own complicity, were the very next moment giving information against their accomplices.

ABOUT DOGS.—*The Different Varieties.*—Few persons are aware of the value and variety of dogs, varying as they do in weight from one hundred and eighty pounds to less than one pound, and in value to about five hundred dollars to less than nothing. A description of the different varieties may not be uninteresting:—

The Siberian bloodhound weighs about 160 pounds, and measures 40 inches in girth, and is worth nearly $500.

The St. Bernard dog, which is of a buff or light lead color, is very large and valuable.

The Newfoundland dog, when pure, is entirely black, and its pups are worth from $10 to $20.

The Sheppard dog, or Scotch coily, is wonderful for its patience, fidelity and bravery. It is worth from $50 to $100.

The English mastiff, a good watch-dog, is worth from $15 to $25.

Of terriers, the black and tan is most admired. It varies in weight from 1 to 25 pounds, and increases in value as it decreases in weight. A member of the bar has one which weighs less than a pound and is the smallest we have ever seen. It could not be bought for $150. Terriers are often crossed with the Italian greyhound, producing a very delicate but extremely useless dog. The Scotch terrier is the hardiest of dogs, is very courageous, and is worth from $10 to $30.

The Scotch deerhound is the rearest and most valuable of hunting dogs. They are very rare, and are owned principally by the nobility of England. They are worth $100 each.

The beagle is the smallest of the hound kind, of superior scent and endurance, and is the best sort of a rabbit hunter.

English greyhounds, the fleetest of dogs, are worth from $25 to $100 each. The Italian is merely a parlor dog. The pure breed is rare and valuable, a fine one being worth $150.

There is a great variety of pointers, setters and spaniels. The Prince Charles variety is the most valuable of spaniels. He is supposed to have originated in Japan, where a similar breed exists. He has a round head, short nose, long, curly ears, large, full eyes, black and tan color, and never weighs over ten pounds. They have been sold at auction in England at $2,000 each.

The coach dog is from Denmark, and is not of much value.

By Telegraph This Day

Reported for the Daily Mercury.

AFTERNOON DESPATCHES.

AMERICAN NEWS.

WASHINGTON, Aug. 16.

The storm which has just visited this city has not had its equal in violence for six or seven years. From Wednesday evening until this morning rain fell incessantly, and at times with serious power. New buildings, new streets, railway tracks, bridges, sewers, &c., have suffered incalculable damage. A large number of persons have been rescued from buildings that were partially submerged.

Accounts from the surrounding country in regard to the damage done to the peach crop and the laying down of corn fields, are numerous, while fences, trees, and in some cases houses, are reported seriously damaged.

The storm was terrible along the railroad from Richmond to Acquia Creek. The track from Fredericksburg to the Creek was completely submerged.

PHILADELPHIA, Aug. 16.

The damage done here by the rainstorm of the last seventy hours will not be less than $100,000.

GALVESTON, Aug. 16.

Yellow fever in this city continues to increase. Twenty-one burials yesterday.

NEW YORK, Aug. 17.

The recent rain storm did no damage in this city beyond that occasioned by the flooding of several basements in the lower part of the city and Harlem. At Hoboken and Jersey City the damage was considerable. The Washington and Baltimore railroad tracks were submerged, and trains were delayed.

NEW YORK, Aug. 17.

The Herald says: Jeff Davis recently said that the Tennessee election will probably inaugurate a war of races, and he believed there was no other course open for the whites in that State, than to discharge the Radical blacks from their employment. As to the proposition that it would be well to put a few negroes into office, for the purpose of creating a reaction of feeling against them, he said it might do as a matter of spite, but it would be a bad precedent.

Beauregard and Magruder, the ex-Rebel Generals, visited the Stock Exchange yesterday, but left after a very short visit, as their reception was very cool. Their departure was accompanied by a few hisses.

The steamer Palinus has arrived.

One case of cholera was reported yesterday.

EFFECT OF RAIN ON HEALTH.

Cold, wet summers have always been accompanied by low death rates. The following figures will be interesting in support of these facts:—

	Rainfall of each year in inches at Greenwich Observatory.	Annual rate of mortality in England and Wales, to 1,000 persons living.
1854	18.7	23.5
1855	21.1	22.6
1856	22.2	20.5
1857	21.4	21.8
1858	17.8	23.1
1859	25.9	22.4
1860	32.0	21.2
1861	20.8	21.6
1862	20.2	21.5
1863	20.0	23.1
1864	16.7	23.9
1865	29.0	23.4

Thus, the highest death rate of the twelve years, 23.9, occurred with the smallest rainfall, of 16.7 in., in 1864, and the lowest rate 21.2, in 1860, with the heaviest rainfall, of 32 in., in 1860. This may doubtless be accounted for in many ways, and principally by the cleansing influence of the rain during the Summer upon the impurities of towns, which, in dry weather, prove so noxious in crowded populations; but it is also very possible that the greater humidity of the air induced by the rain may be useful to all persons suffering from affections of the lungs.—*London Builder.*

AN AMERICAN BUILT IRONCLAD AT SEA.

The return of the monitor Onondago, which was recently sold to the French Government and started on her passage to Europe, has given rise to many rumors about her. The surmise as to the reason of her return is substantially correct; but there were other causes which prevented her from prosecuting her voyage. From enquiries made on board the monitor herself, and information obtained from the French frigate Themis and the Mercedita, which vessels accompanied her, it appears that the Onondaga really started for sea on Wednesday morning, the 31st ultimo. She weighed anchor at seven a.m., and left Sandy Hook in tow of the Mercedita at about eight a.m. The wind was light and the sea calm, but the weather was generally showery and variable. The rate at which the monitor pursued her way was rather slow, as she only made some two and a half miles per hour, the Mercedita being unable to tow her any faster as she was deeply laden with coal; besides the tow-rope, a sixteen inch hawser was, it is said, too weighty for the purpose. Against a head wind and sea the Onondaga would not steer at all. She yawed from side to side repeatedly, and at times would be careening along nearly at right angles to the course of the Mercedita. This caused innumerable fights to form in the hawser and diminished the already slow speed of the vessels. On gaining the open sea the water washed clear over the Onondaga, make a clean breach fore and aft, and poured down into her hold. The pumps which are used to fill the boiler would not work for six hours, and those for clearing the ship not at all. When the Onondaga had got about sixty miles off Fire Island, she made signals of distress to her consort, after proceeding a few miles further the convoy was stopped. The vessels were then some eighty miles from Sandy Hook, and had been about twenty-nine hours at sea. This was at half-past two o'clock on Thursday afternoon. The Onondaga had then two feet of water in her hold, and, the bilge pumps not working, it was held unsafe to proceed any further on the voyage. The captain of the Mercedita received orders to wear ship, which he obeyed; and the fleet then returned to New York harbor, which they reached on Friday afternoon at four o'clock, as has been already detailed. The officers on board the Onondaga do not speak in the best terms of her by any means. They say she is a bad sea boat—in fact, altogether unfit for sea—and that she would be most likely their coffin if they should again attempt to cross the Atlantic in her. She does not in the least obey her helm; her machinery is defective, and her pumps, which were guaranteed to be powerful enough to pump her clear in an hour, if full of water, will not work in the least. Under these circumstances it appears to have been a wise proceeding to bring her back again. The Themis will most likely stop for a few days longer in our waters, until it is determined what is to be done with the Onondaga.

THE BREADALBANE PEERAGE.

THE EARL'S RETURN TO TAYMOUTH CASTLE.

It having become known that the Earl of Breadalbane was to arrive at Taymouth Castle from the south on Thursday evening, the people in Kenmore and neighbourhood agreed to give him a Highland welcome. A large floral arch, surmounted by a crown, was erected at the eastern entrance to the Castle, and the 1st Kenmore Company of Volunteers turned out. The Aberfeldy Volunteers (2nd company) also mustered and waited the arrival of his lordship at the railway station. At 7 p.m. the train arrived, and the noble earl, on receiving a salute from the Volunteers, stopped his carriage, and in a short address thanked them for the welcome they had given him. At the east gate leading to Taymouth Castle there was a large gathering of people besides the Volunteers; and on the arrival of the earl, at about half-past seven o'clock a loud cheer was raised, which his lordship acknowledged. The Volunteers unyoked the carriage horses, and drew the earl, amid loud and continued cheering to the principal entrance to the castle. The earl, immediately after alighting, addressing the Volunteers in a few graceful and complimentary sentences, and invited the company to partake of refreshments in the castle. The Volunteers were thereupon served with an elegant luncheon, and afterwards mustered on the lawn in front of the castle. Here they were supplied liberally with liquor, and several toasts were proposed. Dancing was afterwards engaged in.

A SINGULAR REFORMATORY VILLAGE.—Some British officers in India have successfully tried a novel expedient for making the idle and vicious in districts under their control become honest and industrious members of the community. The experiment was begun in 1860 in the Punjab. Through the instrumentality of the police those persons in the various villages who have rendered themselves obnoxious by thieving or begging were placed in a village by themselves, where land was given them, wells were sunk and they were furnished with agricultural implements. They were then informed that they must henceforth depend on their own exertions; and that, whether living comfortably by their own industry or dying with hunger from their idleness, they would not be allowed to quit the spot where they had been placed. At first as may be imagined, there was great grumbling, much turbulence, and many threats; but when the men found that these were all in vain, and that the Government intended what it had ordered, they gradually took to their work, and after a time settled down into a peaceful and industrious little community. They have acquired a pride in their cottages and allotments, are better clad, more cleanly in their habits, and in every respect much altered for the better. Indeed they have become so reconciled to the change in their mode of life that they one and all declare that they have no wish to return to their former career. In another case a predatory tribe were compelled to settle and cultivate under penalty of the lash, and at the end of two years the officers were invited by their reclaimed thieves, burglars and fortune-tellers to a feast on the produce of their farms. The Sandwich Island Government has adopted the same system in regard to the lepers on those Islands, who have been colonized by themselves, and are obliged to cultivate the ground for a subsistence.

SINGULAR SUNDAY OCCUPATION.—A writer on the subject of "Benevolent Blunders," in *Good Words*, gives the following account of some obstacles in the way of a religious life which will strike most readers as novel:—A lady had gone to visit a young couple of the better class of the poor. They had as yet no children, and the husband being a stoker on a railway, they were above the reach of want. Under these circumstances it seemed to the visitor that they might have attended to their religious duties at least to the extent of going to church on Sundays, and she ventured to intimate as much to the young woman who was standing rather idly at her door. "Will you please walk in till I show you something?" was the woman's answer; and she conducted her visitor into the little kitchen where her husband sat by the fire. He had just come home for half an hour to have his tea, and was watching the kettle with the most absorbing interest. He was of course in his working clothes, and his face and hands were of a deep oily black, after the manner of stokers. "Now, ma'am," said the woman, pointing to him, "you see that there man; that's my husband, and I am bound to do a part by him, ain't I?" "Surely," said the blunderer, anxious to uphold the duties of matrimony. "Very well then; would you like to know how I pass my Sundays? A washing of he! Never a blessed moment has he to wash himself through the week, out early and late, and half the night too, and blacker nor any crow all the while. Well, on Sundays it is fitting and proper he should try to look like a Christian if he can, so he sets me to it after we has our breakfast, with a bucketfull of soapsuds and a scrubbing brush, and I rubs at him off and on all day, till my arms ache, and he aint much better than he wor; and then after we has our tea, he says to me, 'Come, Sally, have another try, there is a brave wench,' and I goes at him again, and sluices him down till you'd think a born nigger ud come out white; and if you believe me, ma'am, when I polishes him off with a dry towel afore we go to bed, he's only a light brown after all!" What was to be said to such stubborn facts; especially when the good woman finished with the unanswerable argument, "So you see ma'am them as wants to live religious, had best not marry a stoker."

A FRENCH NOTION.—An English paper says:—A truly "brilliant" idea has been started by a French chemist, in the *Gazette Medicale de Lyons*. His theory is that all dead bodies of human beings are at present wasted, when they might as well be utilized for illuminating purposes. He remarks:—"Coal is being exhausted and since the human carcass is capable of supplying a gas of good illuminating power, why should it not be employed to this end? By a process of combustion in retorts a corpse of common dimensions may be made to yield twenty-five cubic metres of illuminating gas which, at a cost of twenty-five centimes per cubic metre, would give a value of about eight francs for a body of ordinary size." We have never despaired of obtaining a perpetual supply of fuel, but we must confess that we had looked to a different source for the street lamps of the future. However, it is "an idea like another," and not so new after all; since in Bombay a proposal was seriously made some time ago that the bodies of the dead Hindoos should each day be cast into a properly constructed furnace, and that the city be lighted with the gaseous result. The device would be profitable, simple and salubrious; and although the conception of sending one's rich uncle, say to the gas works, just as the Sunday "joint and potatoes" are now sent to the baker's oven, is somewhat *bizarre*, there would be a charm, nevertheless for well-disposed people in the prospect of being useful after their dissolution. Even the dull might take great comfort in the certainty that their gas, at least, would be as brilliant as the wittiest. Moore would have discerned a highly poetical fancy in the plan of lighting up a ball-room with the body which had first danced there "all alive"

in our being "turned on" when death turned us off. Had the bard but survived to read the *Gazette Medicale*, without doubt he would have written: "When in death I shall calm recline, O take my corpse to the gas-works, dear!"

MR. McGEE AGAIN MOBBED.—We regret to have to state that Mr. McGee and his friends were last night subject to a repetition, on a smaller scale, of the hootings, opprobrious language, and stone-and-mud throwing of a former evening. They were visiting, as usual, their respective Ward Committee rooms, and on reaching that of the St. Ann's Ward, on the corner of Ottawa and Duke streets, they found a rather numerous gathering at the adjoining corners. On leaving the room in about an hour afterwards, they were received with yells and cries, and missiles, and cheers for Mr. Devlin, which continued as they proceeded to another Committee-room, in Commissioner street, followed a part of the way by the crowd.

This is certainly most disgraceful, and does not augur well for fair dealing in regard to hearing both candidates on the day of nomination. We cannot but believe that by far the greater number of those who acted thus last night were thoughtless youths, and not men, who, having votes, could therewith fight Mr. McGee much more effectually than with mere empty noise, or even stones. For every stone thrown, it may be depended upon a vote is lost; and this outrageous show of partisanship will cause scores of votes to be cast for Mr. McGee by voters who otherwise would have continued to stand neutral.

THE SULTAN'S LIBERALITY.—That the Sultan has not been niggardly during his stay in the metropolis is shown by the fact that, the day previous to his departure from Buckingham Palace, Messrs. Emanuel, of Burlington-gardens, waited on him by his command, and his Majesty selected from their stock, for presents, a magnificent pearl necklace with a brilliant snap. He also made choice of a large diamond bracelet, composed in the centre of five very large diamonds, and two pair of drop shape diamond earrings, with various smaller ornaments, the whole amounting to £20,000. By the liberality of the Sultan a sum of 33,000f. was placed at the disposal of the Archbishop of Paris, for the relief of the poor of the capital. The decision has now been come to that the best way of distributing the money would be through the parochial clergy, and for that purpose each of the 66 curés of Paris has received 500f.

Thirty Years' Experience of an old Nurse.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best Female Physicians and Nurses in the United States, and has been used for thirty years with never-failing safety and success by millions of mothers and children, from the feeble infant of one week old to the adult. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health, and comfort to mother and child. We believe it the best and surest remedy in the World, in all cases of DYSENTERY and DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS is on the outside wrapper. Sold by all Medicine Dealers. 25 cents a bottle. Office, 215 Fulton Street, New York; and 205 High Holborn, London.

Be sure and ask for

Mrs. WINSLOW'S SOOTHING SYRUP.

All others are base and *dangerous* imitations.

Sore Throat, Cough, Cold, and similar troubles, if suffered to progress result in serious Pulmonary, Bronchial and Asthmatic affections oftentimes incurable.

Brown's Bronchial Troches are compounded so as to reach directly the seat of the disease and give almost instant relief.

The Troches are offered with the fullest confidence in their efficacy; they have been thoroughly tested, and maintain the good reputation they have justly acquired. For Public Speakers, Singers, Military Officers and those who over-tax the voice, they are useful in relieving an Irritated Throat, and will render articulation easy. To the soldier exposed to sudden changes in the weather they will give prompt relief in Coughs and Colds, and carried in the pocket as occasion requires. Sold at 25 cents a box.

CANADA.

N. F. BELLEAU.

[L. S.]

PROVINCE OF QUEBEC.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c. &c.

To all to whom these presents shall come—

Greeting:

Whereas We are desirous and resolved, as soon as may be, to meet Our People of Our Province of Quebec, and to have their advice in Parliament; We do make Known Our Royal Will and Pleasure to call a Legislature or Parliament, and do further declare that by the advice of Our Executive Council of Quebec, We have this day, given Orders for issuing Our Writs in due form, for calling a Legislature or Parliament in Our said Province which Writs are to bear date on the EIGHTH day of AUGUST instant, and to be returnable on the TWENTY-FOURTH day of SEPTEMBER next, except however the Writs for the Electoral Divison of Gaspé and for the Electoral Division of Chicoutimi and Saguenay, which Writs will be returnable on the TWENTY-FOURTH day of OCTOBER next.

In Testimony Whereof, We have caused these Our Letters to be made Patent, and the Great Seal of Quebec, to be hereunto affixed: Witness, Our Trusty and Well-Beloved Narcisse Fortunat Belleau, Knight, Lieutenant Governor of Our Province of Quebec. At Our Government House, in Our CITY of QUEBEC, in Our said Province, this EIGHTH day of AUGUST, in the year of Our Lord, one thousand eight hundred and sixty-seven, and in the thirty-first year of Our Reign.

By Command,
L. H. HUOT,
Clerk of the Crown in Chancery, Quebec.

N. F. BELLEAU.

PUBLIC BENEFACTRESS.
MRS. S. A. ALLEN,
A LADY OF WORLD-WIDE REPUTATION.

MRS. S. A. ALLEN'S
WORLD'S HAIR RESTORER

Is suited to both young and old. It strengthens the Hair, prevents its falling or turning grey, and imparts to it a beautiful glossy appearance. It never fails to restore grey hair

TO ITS ORIGINAL YOUTHFUL COLOR.

It is Not a Dye, but acts directly upon the roots of the Hair, giving them the natural nourishment required. It will restore it on bald places, requires no previous preparation of the hair, and is easily applied by one's self. After the hair is once restored, occasional applications once in three months will insure against grey hairs to the most advanced age.

MRS. S. A. ALLEN'S
WORLD'S HAIR DRESSING,

Or, ZYLOBALSAMUM, alone often restores, and never fails to invigorate, beautify, and freshen the Hair, rendering it soft, silky and glossy, and disposing it to remain in any desired position.

FOR LADIES AND CHILDREN,

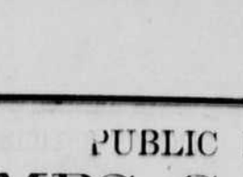

whose Hair requires frequent dressing, it has no equal. No ladies's toilet is complete without it. It cleanses the Hair, removes all dandruff, and imparts to it a most delightful fragrance. It will prevent the Hair from falling out, and is the most economical Hair Dressing known.

THE RESTORER REPRODUCES AND THE HAIR DRESSING CULTIVATES AND BEAUTIFIES.

Sold by all Druggists throughout the World. Principal Sales Office, 198 Greenwich Street, New York City.

Greatest Discovery of the 19th Century!
PAIN RELIEVED WITHOUT TAKING MEDICINE.
Egyptian Oil

RELIEVES PAIN OF EVERY KIND INSTANTLY.

Never since the Science of Medicine firs dawned upon the world has any preparation been introduced that will alleviate the aches and pains that flesh is heir to, so speedily at the EGYPTIAN OIL.

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions to those who are suffering.

Pain, no matter how excruciating; disappears under its influence, as if by magic.

It is the most wonderful remedy and the most prompt in its action, ever known to the world. No one will do without it who has used it once—in fact, wherever the Egyptian Oil has been introduced it has entirely superseded all other pain-relieving preparations. It has been the means of restoring hundreds to health, who after trying everything, and everybody, had given up hoping ever to be well again. What may seem almost incredible about this Oil is, that complaints heretotore considered by Eminent Physicians incurable are frequently cured by a few bottles.

No case of Rheumatism or Neuralgia, however desperate or hopeless, but may be benefitted by the application of it.

For Diptheria and Sore Throat, Egyptian Oil is the only really reliable remedy in existence.

It will relieve the worst cases of Headache immediately

For Toothache and Earache it is an instant cure.

Sprains are sometimes very obstinate and enlargement of the joints is likely to occur if neglected. The most severe cases, however may be conquered by this Oil in a few days.

Bruises, Cuts, Wounds, Burns and Scalds yield readily to the remarkable soothing and healing properties of the Egyptian Oil. Also, Chilblains, Frosted Feet Bites and Stings o Insects.

EGYPTIAN OIL res Rheumatism Neuralgia, Goat, Diptheria, Sore Throat, Cholera Headache, Faceache, Sideache, Backache Toothache, Earache, Stomachache, Stiff Neck Stiff Joints, Sprains, Bruises, Wounds Cuts Burns, Mosquito Bites, &c

Every person should procure a bottle of the Egyptian Oil, so as to have it at hand for its timely use may prevent much suffering, and even be the means of saving life, for instances have frequently occurred where persons attacked in the night have died while waiting for their Physician.

The EGYPTIAN OIL is used exernually in nearly all cases, and is very easily applied, as it requires no continued rubbing in like other remedies

It may be taken internally with the greatest safety, as it is warranted to contain no injurious ingrediments, and is a purely vegetable extract. Egyptian Oil is the most economical remedy in use, as such a very small quantity is required to produce the desired effect. An eminent Druggist trully remarks that he has found there is more virtue in thirty drops of Egyptian Oil, then in thirty bottles of some of the remedies now before the public

Full directions in both languages accompany each bottle.

Price 25 cents and 50 cents per bottle

SPECIAL NOTICES.

CARELESSNESS.

Many persons neglect their horses' health and condition until it is too late, when at a trifling expence and no trouble the horse might have been saved if attended to in time. To all who may have occasion to use an article of the kind we would confidently recommend "Darley's Arabian Heave Remedy and Condition Medicine"; it is without doubt the best preparation in use, as thousands who have used it testify.

Remember the name and see that the name of Hurd & Co., is on each package.

Northrop & Lyman Newcastle, C.W., General Agents for Canada.

Sold in Quebec by Roderick McLeod, John Musson & Co, J. E. Burke, J. S. Bowen, E. Giroux, and all Medicine Dealers.

Quebec, July 29, 1867. 1m-174

Two Questions Easily Answered.—Why should men wear beards? Because they are a great protection to the throat and lungs, and add much to their personal appearance.

Why should we use "Bryan's Pulmonic Wafers"? Because when used for coughs, colds, tickling in the throat, hoarseness, &c., they act like a charm. Ministers and lawyers use them, physicians recommend them, and singers and public speakers say they are the very best medicine in existence for the cure of such complaints. Sold by all medicine dealers at 25 cents per box.

Northrop & Lyman, Newcastle, C.W., General Agent for Canada.

Quebec, Dec. 23, 1865. 296-12m

Cleanse the Blood.

WITH corrupt, or tainted Blood, you are sick all over! It may burst out in Pimples or Sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. Ayer's Sarsaparilla purges out these impurities; it expels disease and restores health and stimulates the organs of health into vigorous action. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose, or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, also Syphilis, or Venereal Diseases, Liver Complaints, and Heart Diseases. Try Ayer's Sarsaparilla, and see for yourself the surprising activity with which it cleanses the blood and cures these disorders.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative ingredient whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound, "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. We think we have ground for beliving it has virtues which are irresistible by the class of diseases it is intended to cure. We can assure the sick that we offer them the best alternative we know how to produce, and we have reason to believe, it is by far the most effectual purifier of the blood yet discovered.

Ayer's Cherry Pectoral is so universally known to surpass every other medicine for the cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is useless here to recount the evidence of its virtues. The world knows them.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere.

CHOLERA.—A certain cure for this disease may be found in the use of Perry Davis' Pain Killer.

SPECIAL NOTICES.

KNOW THY DESTINY.

Madame E. F. Thornton, the great English Astrologist, Clairvoyant and Psychometrician who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a lifelike picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications sacredly confidential. Address in confidence, Madame E. F. Thornton, P. O. Box 223, Hudson, N. Y.

WONDERFUL BUT TRUE.

Madame Remington, the world-renowned Astrologist and Somnambulistic Clairvoyant while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself you will receive the picture by return mail, together with desired information.

☞ Address in confidence, Madame Gertrude Remington, P O. Box 297, West Troy, N. Y. m28-1y-74

☞ A Young Lady returning to her country home, after a sojourn of a few months in the City, was hardly recognised by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon enquiry as to the cause of so great a change, she plainly told them that she used the Circassian Balm, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing, beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, pure and beautiful. Price $1, sent by Mail or Express on receipt of an order, by

A LADIES' PHYSICIAN.

LADIES from all parts of the United States consult Dr. A. M. Mauriceau, Professor of Diseases of Women, whose great and successful remedies, specially adapted for their ailments, are known throughout the country.

His great experience and skill, derived from over twenty years successful practice, devoted exclusively to the Treatment of the Diseases of Women, especially as connected with the married state, has given ladies the utmost confidence to consult him, either by letter or in person, and be assured of prompt relief in all cases.

His celebrity is known to over half a million of ladies, as the author of "The Married Woman's Private Medical Companion," designed specially for married ladies, in delicate or precarious health from dangerous confinement, describing symptoms, causes and remedies. (Price $1.)

Special Notice to Married and Single Ladies.—Ladies who suffer from obstructions or irregularities, or are in constant agony for many months, preceding confinement, or have difficult, tedious and dangerous deliveries whose lives are hazardous during such time, will find the

Portuguese Female Monthly Pills

the most wonderful, reliable and certain remedy.

Thousands of Ladies use them with infallible certainty. In all cases of stoppage or irregularity, or suppression of nature from whatever cause, they are certain to succeed, and are, besides, perfectly healthy. They are scientifically prepared of costly and rare extracts.

They cannot fail. In recent cases they succeed in forty-eight hours. Price $3 per box. In obstinate cases, those two degrees stronger should be used. Price, $5. Address,

DR. A. M. MAURICEAU,
Professor of Diseases of Women,
Office, No. 129, Liberty Street,
New York.

Sole Agent and Proprietor for upwards of twenty years. They are sent by mail, in ordinary letter envelopes, free from observation with full instructions and advice.

A circular, describing symptoms, causes, and his special remedies for married ladies, (intended *only* for wives and husbands,) will be sent free by inclosing a postage stamp to above address.

A Lady writes—Dr. A. M. Mauriceau, "Sir: I have tried many things I saw advertised, pills, drops and powders, without benefit. A lady, who had been successfully treated by you, assured me that you would be certain to afford me relief, showed me 'The Married Woman's Private Medical Companion,' in which I found my case exactly described, I immediately sent to you, and received by return mail, "the Portuguese Female Monthly Pills," which acted like magic, relieving me in a few days without the least inconvenience."

Quebec, July 13, 1867. 3m-1aw-161

FREE TO EVERYBODY.

A large 6 pp. Circular, giving information of the greatest importance to the young of both sexes

It teaches how he homely may become beautiful, the despised respected, and the forsaken loved.

No young lady or gentleman should fail to send their address, and receive a copy postpaid, by return mail.

Address P. O. Drawer, 21, Troy, N. Y.

April 23, 1867. 6m-95

To Consumptives.

The advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered for several years with a severe lung affection, and that dread disease consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and all Throat and Lung Affections. The only object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription, free, by return mail, will please address

REV. EDWARD A. WILSON,
Williamsburg, Kings Co., New York.

Quebec, May 8, 1867. 1y-1aw-107

ERRORS OF YOUTH.

A Gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will, for the sake of suffering humanity, send free to all who need it, the recipe and directions for making the very simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing, in perfect confidence,

JOHN B. OGDEN
42, Cedar Street, New York.

Quebec, May 7, 1867. 1y-1aw-107

AGUA DE MAGNOLIA.

A toilet delight. Superior to any Cologne, used to bathe the face and person, to render the skin soft and fresh, to allay inflammation, to perfume clothing, for headache, &c. It is manufactured from the rich Southern Magnolia, and is obtaining a patronage quite unprecedented. It is a favorite with actresses and opera singers. It is sold by all dealers, at $1.00 in large bottles, and by Demas Barnes & Co., New York, Wholesale Agents.

Saratoga Spring Water, sold by all Druggists.

"Jes' so!"—"Exactly!"—Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night, he took Plantation Bitters; if he lacked appetite, was weak, languid or mentally oppressed, he took Plantation Bitters; and they never failed him on his pins square and firm.

Few persons want any better authority; but as some may just read the following:

"* * * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.

REV. W. H WAGONER, Madrid, N. Y."

"* * * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.

REV. C. A. MILLWOOD, New York City.

"* * * * I had lost all appetite—was so weak and enervated I could hardly walk, and had a perfect dread of society. * * * The Plantation Bitters have set me all right.

JAMES HEIMINWAY, St. Louis, Mo."

"* * * * The Plantation Bitters have cured me of a derangement of the Kidneys and Urinary Organs, that distressed me for years. They act like a charm.

C. C. MOORE, 254 Broadway, N. Y."

MRS. O. M. DEVOE, Manager of the Union Home School for Soldiers' Children, says she "has given it to the weak and invalid children under her charge, with the most happy and gratifying results." We have received over a hundred reams of such certificates but no advertisement is so effective as what people themselves say of a good article. Our fortune and our reputation is at stake. The original quality and high character of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell Be on your guard. See our private stamp over the cork.

P. H. DRAKE & CO., New York City.

Saratoga Spring Water, sold by all Druggists.

Over a Million Dollars Saved.

Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon affected a permament cure."

J. L. DOWNING.
Montgomery, Ala., June 17, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT,
Foreman for American Wells, Fargo's and Harden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.

ED. SEELY."
Gloucester, Mass., Aug. 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast than any article ever discovered. Families, livery-men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the *private* U. S. stamp of Demas Barnes & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

Saratoga Spring Water, sold by all Druggists.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray & falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Saratoga Spring Water, sold by all Druggists.

Who would not be beautiful? Who would not add to their beauty? What gives that marble purity and *distingue* appearance we observe upon the stage, and in the city belle? It is no longer a secret. They use Hagan's Magnolia Balm. Its continued use removes tan, freckles, pimples and roughness, from the face and hands, and leaves the complexion smooth, transparent, blooming and ravishing. Unlike many cosmetics, it contains no material injurious to the skin. Any Druggist will order it for you, if not on hand, at 50 cts. per bottle.

W. E. HAGAN, Troy, N.Y., Chemist.

DEMAS BARNES & CO., Wholesale Agents, N.Y.

Saratoga Spring Water, sold by all Druggists

Heimstreet's inimitable Hair Coloring is not a dye. All instantaneous dyes are composed of *lunar caustic*, and more or less destroy the vitality and beauty of the hair. This is the original Hair Coloring, and has been growing over twenty years. It restores gray hair to its original color by gradual absorption, in a most remarkable manner. It is also a beautiful hair dressing. Sold in two sizes—50 cts. and $1—by all dealers.

C. HEIMSTREET, Chemist.

Saratoga Spring Water sold by all Druggists

Lyon's Extract of Pure Jamaica Ginger—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warm stimulant is required. Its careful preparation and entire purity makes it a cheap and reliable article for culinary purposes. Sold everywhere at 50 cts. per bottled Ask for "Lyon's" Pure Extract. Take no other.

CRISPER COMA.

Oh! she was beautiful and fair,
With starry eyes, and radiant hair
Whose curling tendrils soft, entwined,
Enchained the very heart and mind.

CRISPER COMA,

For Curling the Hair of either Sex into Wavy and Glassy Ringlets or Heavy Massive Curls.

BY USING THIS ARTICLE, LADIES and Gentlemen can beautify themselves a thousand fold. It is the only article in the world that will curl straight hair, and at the same time give it a beautiful glossy appearance. The Crisper Coma not only curls the hair, but invigorates, beautifies, and cleanses it; is highly and delightfully perfumed, and is the most complete article of the kind ever offered to the American public. The Crisper Coma will be sent to any address sealed and postpaid for $1.

Address all orders to W. L. CLARK & CO., Chemists, No. 3, West Fayette Street, Syracuse, N.Y.

Quebec, March 30, 1867. 1y-76

ASTROLOGY.

THE WORLD ASTONISHED

AT THE WONDERFUL REVELATIONS

MADE BY THE GREAT ASTROLOGIST,

MADAME H. A. PERRIGO.

SHE REVEALS SECRETS NO MORTAL ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favourable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed sent by mail on receipt of price above mentioned. The strictest secresy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair

REPARATOR CAPILLI.

Throw away your false frizzes, your switches your wig
Destructive of comfort, and not worth a fig,
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair,

REPARATOR CAPILLI,

FOR RESTORING HAIR UPON BALD heads, (from whatever cause it may have fallen out) and forcing a growth of hair upon the face it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given. LIQUOR CARBONIS DETERGENS

—OR—

CONCENTRATED ALCOHOLIC SOLUTION OF THE CONSTITUENTS OF COAL TAR.

Extract from *Lancet*, December 22, 1866

Liq. Carbonis Detergens.—We are very sceptical of the value of new remedies, and it was in a spirit of scepticism that we tried the liq. carbonis detergens. It is represented to be a concentrated alcoholic solution of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzine, napthaline, and phenic acid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematus class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergens We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial by the profession. In the above classes of disease, and in various others, such as fetid ulcers, &c., the preparation is put into the form of soap.

PURE COAL TAR SOAP.

(REGISTERED AS SAPO CARBONIS DETERGENS.)

This Soap is unrivalled as a SKIN SOAP, as proved by abundant medical testimony. By daily use infectious diseases are prevented, and a clear and healthy appearance imparted to the skin.

Sold in tablets at 6d. and 1s. each, by all Chemists.

The above are manufactured by the Sole Proprietors,

BISHOP'S

GRANULAR

Effervescent Citrate of Magnesia

INTRODUCED AND PREPARED BY

ALFRED BISHOP, Manufacturing Chemist,

17 & 18, Speck's Fields, Mile End New Town,

LONDON.

THIS perfectly white and delicately clean granulated preparation possesses remarkable effervescent qualities, which far surpasses the ordinary Seidlitz Powder in its Cooling, Refreshing, and Mild Aperient properties, as well as in its flavor as a saline draught. It is particularly well adapted for women and young children, on account of its most agreeable flavor and mild effect.

N.B.—The genuine has the name BISHOP upon the Bottle, also the Name and Trade Mark upon the Label, and is sold in convenient sizes, and secured in so perfect a manner that it may be shipped with safet to any part of the world.

Manufacturer also of Granulated and Effervescent Carbonate of Iron, Citrate of Iron, Citrate of Quinine, Citrate of Quinine and Iron, Carbonate of Lithia in Tubes, Cityate of Lithia, Vichy Salt, Seidlitz Mixture, and all other Granulated Preparations.

In Chancery.—Caution.—Bishop's Granular Effervescent Citrate of Magnesia.—Mr. Bishop, having discovered that the Label which he has used for the last five years was being imitated, recently applied to the Court of Chancery for an Injunction to restrain such imitation. The Injunction was immediately granted, and the Defendant was ordered to pay all Mr. Bishop's Costs and destroy the Labels complained of.

Mr. Bishop is determined to stop the imitation of his Label, and will, without notice or delay, take proceedings in Chancery against any person who may copy or colourably imitate the same.

Quebec, Dec. 14, 1866. 12m-288

ROWLANDS' MACASSAR OIL.

THIS ELEGANT AND FRAGRANT OIL is universally in high repute for its unprecedented success in promoting the Growth, Restoring, Improving, and Beautifying the Human Hair. It prevents Hair from falling off or turning grey, strengthens weak hair, cleanses it from Scurf and Dandriff, and makes it beautifully soft, pliable and glossy. For Children it is especially recommended as forming the basis of a beautiful head of hair.

ROWLANDS' KALYDOR,

An Oriental Botanical Preparation for Improving and Beautifying the Complexion and Skin. This royally-patronized and Ladies-esteemed Specific realizes a healthy purity of Complexion, and renders the Skin Soft, Clear and Blooming. It also exerts the most soothing cooling and purifying action on the Skin, and eradicates Freckles, Tan, Pimples, Spots, Discolorations, and other Cutaneous Visitations.

White and Sound Teeth

Are indespensable to PERSONAL ATTRACTION, and to health and longevity by the proper mastication of food.

ROWLANDS' ODONTO,

OR PEARL DENTRIFICE,

Compounded of Oriental Ingredients, is of inestimable value in preserving and beautifying the Teeth, strengthening the gums, and in giving a pleasing fragrance to the breath. It eradicates Tartar from the Teeth, removes spots of incipient decay, and polishes and preserves the enamel, to which it imparts a PEARL-LIKE WHITENNSS.

Sold by all Druggists and Storekeepers.

COUGHS, ASTHMA, AND INCIPIENT CONSUMPTION are effectually cured by *Keating's Cough Lozenges.*

FOR HALF A CENTURY this well known remedy for Pulmonary Disorders has successfully stood the test of public approval, and their usefulness has been extended to every clime and country of the civilized world. They may be found alike on the gold fields of Australia, the back woods of America, in every important place in the East or West Indies, and the Palace of Pekin. During this long period they have withstood the pretentions of numerous inferior rivals, and are now the acknowledged antidote of Coughs, Colds, Asthma, &c.,

Prepared and sold in Boxes and Tins by Thomas Keating, Chemist, &c., 79, St. Paul's Churchyard, London. Retail by all Druggists and Patent Medicine Vendors in the World.

N. B.—To prevent spurious imitations, please to observe that the words "KEATINGS COUGH LOZENGES" are engraved on the Government Stamp of each Box, without which none are genuine.

EXCELSIOR ! EXCELSIOR !!

CHASTELLAR'S

HAIR EXTERMINATOR !

For Removing Superfluous Hair.

TO THE LADIES especially, this invaluable depilatory recommends itself as being an almost indispensable to female beauty, is easily applied, does not burn or injure the skin, but acts directly on the roots. It is warranted to remove superfluous hair from low foreheads, or from any part of the body, completely, totally, and radically extirpating the same, leaving the skin soft, smooth and natural. This is the only article used by the French, and is the only real effectual depilatory in existence. Price 75 cents per package, sent post-paid to any address, on receipt of an order, by

BERGER, SHUTTS & CO., Chemists, 285, River St., Troy, N.Y.
