POSITIVE THEY HEARD HUM
OF MOTOR EARLY SUNDAY

(Associated Press Despatch)
ST. JOHN'S, Nfld., Dec. 28.—Following reports last night that the sound of an aeroplane motor, believed to be that of the missing plane, Dawn, had been heard in the vicinity of Heart's Content and Carbonear, at 8:30 Saturday night, it was stated today that several persons at Pouch Cove, west of Heart's Content and Carbonear and north of St. John's were positive that they had heard an aeroplane at 9:20 Sunday morning. It appeared to be travelling in an easterly direction, but thick fog prevented a sight of the plane. Rev. E. M. Bishop said he distinctly heard a plane passing over Pouch Cove.

24,000 SQUARE MILES OF
OCEAN SCANNED BY SHIPS

(Associated Press Despatch)
LAKEHURST, N. J., Dec. 28.—The navy dirigible Los Angeles returned to its hangar today after a thirty-one hour cruise during which 24,000 square miles of ocean was scanned in a vain search for the missing amphibian plane Dawn.

"The Los Angeles covered 1,245 nautical miles on her flight," he said, "and we could see at all times 20 miles on either side of the ship, making 24,000 square miles we could see during daylight, during the entire trip."

"The visibility was very good and if any fares or rockets had been set off in that area they would have been seen."

Commander Rosendahl said many ships were sighted in the area covered including the two navy destroyers also engaged in a hunt for the Dawn. The commander expressed the opinion that if the Dawn had struck the water at night it was wrecked and sunk.

The 39 men had been called from Christmas leave to form an emergency crew for the flight, were given liberty until Thursday. Two of the volunteers were Commander M. R. Pierce, considered one of the navy's most expert aerial navigators who acted as navigator in place of Commander A. V. Wiley, and Lieutenant Commander Lewis E. Miller of the Navy Medical Corps, who offered his services in case

CLAIMS THAT INDIA HAS
NOT HAD A FAIR DEAL

Attitude of Liberals to British Statutory Commission Voiced by Sir Ted Bahadur Sapru.

BOMBAY, India, Dec. 28.—(Cable & Reuters).—The attitude of the Liberals to the British Statutory Commission was voiced by Sir Ted Bahadur Sapru, president of the Indian Liberal Federation, presiding over the National Liberal Congress here yesterday. He declared that India had not had a fair deal and urged all parties to join him in drawing up a scheme of self-government for presentation to parliament.

His ideal for the future of India was a country of federated states in direct and well defined relationship, and with these Indian states under the aegis of the British crown as an equal member of the British commonwealth of nations.

Unprecedented Cold And
Snow In England Caused
General Traffic Tie-Up

High Winds Which Have Been Prevailing Subside Somewhat Today and English Channel Was Calmer, Enabling Resumption of Some Cross-Channel Service and Releasing Shipping that Had Been Held Up in Harbors All Along English Coast—Air Service Suspended.

(Associated Press Despatch)
LONDON, Dec. 28.—All England went shivering back to work today after a week of unprecedented cold and snow.

Thousands of people in the country districts, blockaded by a succession of snowfalls unusual at this time of the year, had dug themselves out pretty well by today.

A sharp cold snap had succeeded the storm period and coated the streets in the London area with a glaze of ice which made the going dangerous, while the roads in many rural sections were still difficult for travel and the slowing down of traffic continued general.

Those conditions promised to continue for some days, hampering efforts of the railroads to restore the blocked lines and to resume normal service, many sections being still operated on a skeleton basis.

The high winds which have been prevailing subsided somewhat today and the English Channel was calmer, enabling the resumption of some cross-channel service and releasing shipping which has been held up in the harbors all along the English coast.

There were still great snow drifts around the Croydon aerodrome making it impossible for planes either to land or take off and it was announced that there would be no air service today.

HICKMAN SAYS
HE INTENDS TO
PLEAD GUILTY

Belief Expressed by One Doctor that Victim Died of Fright and Exhaustion.

LOS ANGELES, Calif., Dec. 28.—William Edward Hickman, confessed kidnapper and slayer of Marian Parker, Los Angeles school girl, wants speedy justice.

"But not too speedy," the youth hastened to add to his statement made to newspaper reporters in his cell in the county jail. He explained that he had thought he was to be rushed right through a trial yesterday when he arrived at the county jail here.

Hickman declared he had no intention of pleading not guilty to the charges of murder and kidnapping on which he has been indicted. "I plead guilty and stand by my confession regardless of what this Kansas City attorney, engaged by my mother, advises me to do," he said.

Soon after his arrival at the jail, Hickman was taken into court for arraignment on the murder and kidnapping charges. On motion of District Attorney Asa Keyes, who told the court he had been advised that an attorney retained by Hickman's mother in Kansas City to defend him was enroute here, the arraignment was postponed until Thursday.

Despite Hickman's denial, members of the district attorney's office declared they would not be surprised if the accused slayer of the girl pleaded not guilty.

Although Hickman's confession, made to Los Angeles officials returning him to Los Angeles from Pendleton, Oregon, where he had been captured, said he killed the girl by strangulation, county autopsy surgeon A. P. Wagner declared that his examination of the body indicated that the death of the child was not due primarily to this cause. The belief was expressed by Dr. Wagner, a next door neighbor to the Parker girl's family, that she died of fright and exhaustion. He said that his examination of the body and that the body indicated that she had not eaten since the time of her kidnapping and probably had not slept.

"When her captor applied the towel about her neck, she realized what was about to happen and her heart stopped as the result of fright and exhaustion," the autopsy surgeon said he believed. He said there were no marks of contusion or constriction about the neck of the girl's body and the lungs were not congested.

WANTS SON "PUNISHED ACCORDING TO HIS CRIME"
EL PASO, Texas, Dec. 28.—Thomas Hickman, father of William E. Hickman, confessed slayer of Marian Parker, yesterday said he wanted to see his son "punished according to his crime."

"Since he has confessed to this awful crime," Mr. Hickman said, "I disown him as a son and am content to let the law have him."

Mr. Hickman, who has been pardoned from his family for several years, is employed here as a crane operator by the Southern Pacific Railroad.

Ancient Capital Scene Of Greatest Fete
Witnessed In Canada Since Pre-War Days

Special Trains Carried Guests from All Parts of Canada to Attend State Ball—Ghosts of Vanished Days Walked Hilly Streets.

QUEBEC, Dec. 28.—Old Quebec, aged considerably last night. The Ancient Capital took on the aspect of hundreds of years ago, and through its winding hilly streets, walked the ghosts of the Sixteenth, Seventeenth and Eighteenth centuries.

It was the greatest fete seen in the Dominion of Canada since the good days before the war. Parliament House was one mass of lights. A thousand or more guests of the Lieutenant-Governor of the province, His Honor, Narcisse Proulx, had flocked from all parts to be present at the coming-out of charming Yvette McKenna at the state ball given in her honor.

Foremost among those present were Her Excellencies, the Governor-General and Viscountess Willingdon with their suite, Lord Willingdon received the guests, beside the host, Hon. Mr. Ferndes and Mrs. McKenna, his daughter. The ball opened with the delightful old-fashioned music of days gone by, and the dancers, a select group, went through the intricate and delicate steps of a minuet and a quadrille in a frame that could not be equalled on this continent.

Lindbergh Hopped Off On
His Good Will Flight To
Central America Today

Left Mexico Early This Morning Bound for Guatemala City—Mother Saw Son Take Off and Later Herself Left in Plane for Her Home in Detroit.

VAL Buena Flying Field, Mexico City, Dec. 28.—Just as dawn lighted the flying field Colonel Charles A. Lindbergh hopped off at 6:35 a.m. today for Guatemala City, the first stop of his Central American good will flight.

The take-off was made in almost perfect weather conditions. There was no wind and the slight veil of mist near the ground was not enough to interfere with visibility. The flier's mother, who had not seen her son take off on his New York to Paris or Washington to Mexico City flights, was at the field to bid him good-bye on this latest venture.

"Adios, Hermanito," (good-bye little brother) was the shout that ascended from some in the crowd as the Spirit of St. Louis started. About one thousand persons watched Lindbergh's departure.

Twenty minutes later his mother took flight for her home in Detroit.

PASSED OVER EL PASO
(Associated Press Despatch)
MEXICO CITY, Dec. 28.—The presidential telegraph office received a message at 8:50 a.m. that a plane, apparently that of Col. Charles A. Lindbergh for the first lap of his three thousand mile goodwill flight through Central America.

Over the high plateau land of the State of Puebla the path of the Spirit of St. Louis extended into the mountainous region with virgin forests, some perhaps never penetrated by man, today lay before Col. Charles A. Lindbergh for the first lap of his three thousand mile goodwill flight through Central America.

To the west of the Lone Eagle's trail towers the majestic Tacana volcano, over which passes the dividing line between Guatemala and Mexico. Once that line is crossed, scarcely more than one hundred miles separates the flier from his goal, Guatemala City.

A two-day stop is planned for Guatemala, then Lindbergh will again take to the air for Belize, British Honduras, 250 miles away.

TWO SCANDALS AWAKEN
TURKISH PARLIAMENT;
ACTION TO BE TAKEN

ANGORA, TURKEY, Dec. 28.—The Turkish parliament, which lapsed into somnolence after Mustafa Kemal Pasha's historic marathon of eight days, found itself reawakened today by two scandals. In addition to the exposure of alleged mis-handling of the contract for the reconditioning of the former German ship Goeben, now the Yavuz Sultan Selim, by the former minister of marines, it was announced that 100,000 liras were missing from the funds of parliament. The bursar and many deputies are implicated.

Kemal has announced that he will handle it sternly, in an effort to end corruption.

RUSSIANS RESPONSIBLE
FOR RECENT OUTBREAK

(Associated Press Despatch)
CANTON, Dec. 28.—A note stating that the Russians were responsible for the recent Communist outbreak here and the burning of the city was handed out by the Chinese authorities now in control of foreign consulates yesterday. Arms, flags and marked military maps passed beyond a doubt that the Soviet consulate was the headquarters of the Communists, the note said. It was stated that the Russian consul general, instead of being released today, as planned, would be held until the incriminating documents were translated.

Workman Foiled Bank Robbery By Slugging
Bandit Who Was Carrying Loot--Unexpected
Development Threw Party Into A Panic

Money Was Retrieved—Police Chased Remainder of Gang But They Managed to Make Their Escape.

(Canadian Press Despatch)
AMILTON, ONT., December 28.—Four armed men made a desperate attempt to rob the Sanford avenue branch of the Bank of Commerce yesterday afternoon, but were foiled by the bravery of a workman.

The bandits entered the bank and lined up the staff at the points of their revolvers. One of their number gathered up all the money in sight and the four filed out of the bank to where a big grey sedan was waiting for them.

The last man was carrying the money in his arms. As he stepped out of the door, a workman who was employed on the building next door slugged him over the head with a crowbar and felled him. The money scattered over the pavement in every direction.

This sudden development threw the rest of the party into a panic. They entered the car, but by this time the police had received the alarm and were speeding toward the scene. The officers caught sight of the sedan as it sped eastward and boulevard, it was sighted by an officer on Cannon street. He called to the driver to stop and then drew his revolver and opened fire. The car did not stop and it is not known if any of the men were wounded.

The bandit who was knocked unconscious was immediately pounced upon by the police and when the money was gathered up it totaled \$3,100. The gunman was rushed to the city hospital.

Five minutes after the bandit car escaped the police posse at Proctor followed it to Proctor boulevard. There it wheeled around and traveled westward at high speed.

RANKING OF WOMEN TENNIS STARS BY BRITISH CRITICS SURPRISES AMERICANS

(By NEA Service)

NEW YORK, Dec. 18.—Ranking of Senorita Alvarez, Spanish star, above Miss Elizabeth Ryan and Mrs. Molla Mallory, the American veterans, on the international list by British critics caused some surprise in official tennis circles here.

The charming Spanish girl is admitted to be a great player by those Americans who have seen her on European courts, but it was thought

that she hadn't competed enough in big tournaments this year to be ranked second to Miss Wills.

Mrs. Kathleen McKane Godfree and Miss Betty Nuthall, the British stars in fifth and sixth places, were not disputed, but it was thought that Miss Bouman, the Dutch champion, deserved a higher place than ninth.

There was also a disposition to question the tenth position of Mrs.

Charlotte Hosmer Chapin, one of the coming American players, as she is considered to be better than Miss Heine, South African, and Joan Fry, England, who were given seventh and eighth places.

Miss Helen Wills, of course, earned clear title to first place, and the critics have all pointed out that she is in a class by herself and that all of the lower ranking players constitute a second class.

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it is all for quick results.

Thousands of housewives have found how to save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for results. It gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any druggist, pour it into a 16-oz. bottle, and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified honey, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract and palatable guaraccol, known the world over for its healing effect on membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions. Guaranteed to give absolute satisfaction or money promptly refunded. The

'ANCIENT' FIND AT GLOZEL IS ADJUDGED FAKE

International Commission of Anthropologists Gives Decision—Some Are Genuine.

PARIS, Dec. 28.—In scientific, judicial language the International Commission of Anthropologists, charged in the autumn with the task of deciding whether or not the discoveries of prehistoric remains at Glozel, in the centre of France, were genuine, issued its report, which in substance declares that the whole Glozel find was a fake, that the majority of the bones, stones and other objects found there, are not ancient, and that some of those which it considers ancient were probably "salted" into the ground.

Eight scientists chosen by the International Institute of Anthropology to make the investigation refrain from making any accusations against anyone having planted the wonderful collection of "prehistoric" remains. They exonerate the discoverers of the remains, who were deceived by the mixing of the genuine with the false into believing that Glozel was the greatest discovery of prehistoric remains ever made in France. But their conclusion is definite "that the ground in which the objects were found," and the objects themselves, do not justify a belief in their genuineness. Glozel is neither palaeolithic, mesolithic nor neolithic.

It is simply the modern invention of someone who had wit enough to place some genuine old axe heads and other fragments with others of bone and pottery, which he had carefully and patiently fashioned himself.

PLAN LARGEST BUSINESS BUILDING IN WORLD

Boston Structure to Occupy 130,000 Square Feet of Land and to Cost \$21,000,000.

(Associated Press Despatch)

BOSTON, Mass., Dec. 28.—William J. McDonald, Boston real estate promoter, announced Monday that ground would be broken next month for the largest office and business building in the world, to be erected within a year in the Park Square district.

He said that the proposed structure would occupy 130,000 square feet of land and that its cost was estimated at \$21,000,000. The promoter said that the building would be twenty-five stories in height and would have more than 20,000 tenants and employees when fully occupied.

The new building, McDonald said, would be almost twice as large as the Woolworth building in New York, although less than half as high.

GRANBY SCHOOL HELD CLOSING; OTHER TOPICS

Excellent Programme Put On by Pupils for Xmas—Personals and Happenings of Interest to Residents of Granby.

GRANBY, Dec. 20.—A most successful Christmas entertainment was given by the pupils of the Granby High School on Thursday evening, December 22.

The pupils of the school have always given entertainments of exceptional merit, but this last fairly eclipsed all former ones by the excellent quality and rendering of all the items on the programme. The characters were all particularly well chosen and all did their parts exceptionally well.

The cantata entitled "First Aid to Santa Claus," put on by the senior pupils in the High School grades in the final part of the programme, deserves special mention. The solo and chorus work was enhanced by the splendid acting and the pretty costumes left nothing to be desired to make this item on the programme complete.

The assembly hall was filled to its utmost, many standing, even the stairs being filled with interested spectators.

Principal Adams acted as chairman and the following programme was given:

RAILWAYS AND UNPROFITABLE BRANCH LINES.

Transportation conditions have been changing rapidly in recent years. The automobile has become the direct competitor of the passenger train and the motor truck conveys the products of industry that formerly were transported by railway.

As a result, railway companies, with an eye to financial returns, are seeking to reduce costs, eliminate waste, and passenger train schedules suffer accordingly.

The Eastern Townships has had several examples of this. The discontinuance of service on the Hereford Railway was the first. This has now been partially restored. Recently attention was directed to the Stanstead case, where the operating railway company has cut off a service, which the previous lessee agreed to operate in perpetuity.

Inconvenience and delay for those who still patronize railways is the result.

This situation is not local. It is, indeed, more acute south of the line, where the motor season is longer.

According to the Worcester Telegram the New Hampshire Chamber of Commerce, for instance, has asked local chambers throughout the State to appoint representatives on a committee which will investigate New Hampshire railway conditions. The reason for this action, it is said, is based on reports of possibilities of railway consolidations and that various branch lines of the Boston and Maine be discontinued.

In an address in Boston last October, President Hanauer, of the Boston and Maine, declared that New England's railroads were under obligations to aid New England industries, but that New England industries were, also, under obligations to support New England's railroads. But what should be done when communities want railroads to continue service which, because of the small patronage, means loss to the railroads? That is a question which is still to be thrashed out.

The public, no doubt, have some reason to demand that a railway's earnings shall be regarded as a whole and that unpaying branches shall not be lopped off simply because they are not profit showing. The problem is undoubtedly a serious one, a question with two sides and the people are quite justified in protecting in every possible way their interests.

JOHN T. REID.

Sherbrooke has lost a good citizen in the passing of John T. Reid. Of Scotch descent and of sturdy Eastern Townships pioneer stock of Megantic County, Mr. Reid possessed all those qualities which make for good citizens. Many years associated with the Quebec Central Railway, he had served for a considerable period as its superintendent. Apart from this he had varied interests in the community and was always ready to do his part. In church matters and as a member of the Board of School Commissioners he was particularly active.

General regret will be felt at the loss, at a comparatively early age, of so excellent a man and who enjoyed the esteem of all who knew him.

ANOTHER TRAGEDY OF THE AIR

The apparent loss of the "Dawn" with Mrs. Grayson and her crew adds another to the formidable list of tragedies that have attended trans-Atlantic flying.

Mrs. Grayson showed pluck. She had tried and failed before. She knew the hazards of the undertaking. And yet she went forth, even against the advice of weather bureau and friends.

Whether science is advanced by these undertakings is questionable. Fame and fortune attend success and with such reward, many are prompted to take the risk.

It is inevitable that the development of air navigation should exact a heavy toll of lives. Unless some new scientific test is being made, however, long distance attempts, with odds so heavily against success, hardly seem to be justified.

ROMANCE

(By Dr. Frank Crane)

Romance feeds upon what you do not know. Its preferred aliment is mystery. There is always great danger in meeting one about whom you have woven romantic fancies or whom you have never seen. It is said that Maude Adams rarely allowed herself to be interviewed off the stage. She wished to preserve her personality wrapped in her stage settings. A minister who is a hero in the pulpit frequently loses his pedestal of worship when we meet him personally.

Most celebrities would do better to avoid meeting the public and spend their off hours in retirement polishing up their halos.

The microbe of romance is a sly little insect. He knows the value of aloofness.

Hence he buzzes most busily around those who only at intervals come down from their mountain to be seen.

In former times, sighing maidens draped themselves over the gallery rails to gaze at that most romantic of all objects, the Matinee idol.

He appeared with all the electricity of his fascinating personality turned on and disappeared with the falling of the curtain. That he remained in some sort of cold storage, the same noble-hearted hero off stage, was never doubted.

Now the Matinee idol is gone, but the Radio Man has come.

The land is full, according to a publicity man whose word I would not think of doubting, of palpitating feminine breasts each time the popular radio announcer warbles a golden "Good Evening."

Romance has attached itself to the voice of

the radio man, and it looks like a lasting attachment. For even less is seen and heard of him than was the case of the actor of old. There is more food for dreams and less disillusioning reality; more aloofness and less contact than before. The Announcer is merely a voice, the actor was a voice and a body, too.

Out of the voice you can make a body and a character to fit. A story I once heard of a construction engineer in China held within it wisdom of the way romance functions.

Each evening in his camp in the wilds he would play a battered phonograph. One rich, golden contralto voice was his favorite and he made a picture in his mind of the beautiful woman who had it.

Month after month he played it each evening and the voice became idealized into his woman. On a trip to a port city he saw she was scheduled to sing that evening on a trip around the world. He heard her and saw she was fat, coarse-featured, half-intoxicated. Back at camp one evening he started to throw away the record, but didn't and one evening he got it out again and as the soft rose-petal notes thrilled through the darkness the illusion of romance returned and reality was forgotten. Lives would be pretty bare without illusions.—Cpt. 1927.

PRESS COMMENT

CANADA'S SANTA CLAUS.

(Peterboro Examiner)

Hon. Mr. Robb, Minister of Finance, is helping to make Canada's year of Diamond Jubilee a noteworthy one in the realm of Federal finance. Mr. Robb may not dress in fur garments, nor travel in a sleigh propelled through the air by reindeer, but he in every other respect bears a remarkable resemblance to Santa Claus inasmuch as he has developed a habit of showering gifts upon the people of Canada. Thus the announcement that, instead of having to make a public issue of securities to take care of the Victory bonds maturing on the first of next month, he has made arrangements to borrow \$45,000,000 from Canadian banks on three-year-notes at 4 per cent. interest, and the balance will be paid out of funds in hand. It is estimated that Mr. Robb's financing during the year will result in the saving of \$3,607,800 annually in interest charges.

THE BAY STATE'S HISTORIC SITES.

(Christian Science Monitor)

Establishment of a board for the purpose of marking, or supervising the marking of, historic sites in Massachusetts is to be proposed in the next Legislature. It may be said that Massachusetts is as full of historic sites as an old-fashioned plum pudding is full of currants. One would have difficulty to proceed very far from any point in any part of the State without shortly encountering "an historic site."

It is evidently the idea of the "originators" of the suitable markers of historic sites in the Commonwealth in any way connected with the important events of its early history. Not only is this a laudable purpose from a standpoint of patriotic impulse, but it also would result in affording tourists from all over the United States a ready means to identify points of unusual interest without too much recourse to printed guides. Under various auspices scores of historic sites have been marked not only in Boston, Plymouth, Salem, Concord and Lexington, but also in many other places throughout the length and breadth of the State. It is understood to be the purpose and desire of the movement to prepare and maintain a complete list of these markings, with such additions as shall be made from time to time, and to place this list in the custody of the State Librarian. As the members of the proposed board, to be composed of state officials, would serve without additional compensation, there would appear to be little or no objection to such a laudable undertaking.

CHILDREN HAD GALA TIME AT ST. PETER'S CHURCH

Annual Christmas Supper and Tree Held Last Evening—Entertainment Was Enjoyed.

Children of St. Peter's Church Sunday School had a delightful time last evening when they held their annual Christmas supper and tree. An entertainment and the arrival of Santa Claus were features of the evening, which was undoubtedly a very enjoyable one for the children, and also for parents and friends who attended.

Mr. Charles Webb, superintendent of the Sunday School, was in charge last evening, while the teachers of the different classes, assisted, St. Paul's Guild gave the supper and the costumes for the entertainment were provided by St. Peter's Guild. Mr. Outhbert Somers accompanied at the piano for the musical numbers on the programme. Bernice Fuller was in charge of the kindergarten and Miss C. Seiveright assisted with the entertainment.

The hall was decorated with Christmas colors and a large Christmas tree with bright streamers and tinsel made the hall very attractive.

The programme consisted of three numbers. The first was a song by the kindergarten class entitled, "Away in a Manger", after which a sacred pageant was given. As the concluding number the C. G. L. T. girls sang their song. They wore C. G. L. T. uniforms and were seated in a circle on the stage, around an artificial camp fire. The songs were nicely sung and the audience enjoyed them.

The feature number was the pageant, which represented the birth of Jesus and the visit of the wise men and shepherds. The audience was taken back to the first Christmas and the story was portrayed in several scenes, between which hymns were beautifully sung from the background by a number of young girls.

The story explaining the scenes was read by Miss C. Seiveright. Opening with the appearance of the angel to Zacharias, it continued with the angel's appearance to Mary, while the final scene told of the birth of Jesus.

This sacred pageant was given a fine interpretation by those taking part, and it was evident that both time and patience had been given to its preparation. The characters were as follows: Zacharias, Rev. W. H. Cheverton; the angels, Dorothy Burton; Joseph, Stanley Loughheed; Mary, Alberta Gough; wise men, Cecil Walker, Percy Watts and Donald Byham; shepherds, Bobby Webb, Basil and Trevor Stevens.

The coming of Santa Claus towards the close of the evening was a momentous event, and the little

SEVERAL SMALL CASES BEFORE JUDGE LEMAY

Two Judgments Rendered in Magistrate's Court This Morning—Three Remaining Cases Were Postponed.

Turner Benoit, of Coaticook, who pleaded guilty to a charge of obtaining the sum of \$45.60 through false pretences on Friday, December 16th, was sentenced to one month in jail from date of imprisonment by Judge J. H. Lemay in the Magistrate's Court this morning.

Judge Lemay, in rendering judgment, remarked that he was judging leniently with the accused owing to the fact that the money had been returned and that it was his first offense.

Benoit had obtained the money by cashing checks to the amount of \$45.60 drawn on the Bank of Commerce, Compton, at the store of Laroche and Sons, Coaticook, without having funds to cover same.

J. A. Vidal, of this city, pleaded guilty to a charge of driving a motor car while under the influence of liquor and was fined \$100 and costs, or in default one month in jail. The license of Vidal was also cancelled for one year.

Antoine Chamberlain, of Magog, who is charged with attempting to steal hies valued at \$50 from a slaughter house in Magog, petitioned for a speedy trial this morning. The case was put on the roll for hearing this afternoon at two o'clock.

The case of Victoria Label vs. Ovide Pannieu, both of Oxford Township, was scheduled for hearing this morning. The case, however, was postponed until Wednesday next. Pannieu is facing a charge of simple assault.

H. Keeler, of Ayer's Cliff, who is facing a charge of killing a dog, valued at \$100, owned by A. Watkinson, of Ayer's Cliff, was ordered to appear in the Magistrate's Court on Friday next for the hearing.

Children greeted him with enthusiastic cheers. He entered by the door and passed through the audience to the stage where he spoke to the children, making amusing remarks and calling some by name, much to their delight. Then Santa distributed presents to the children, the little ones receiving toys. Some of the teachers received gifts and everyone was given a bag of candy and an apple.

Following this, prizes were given out by Mr. Cheverton. These were for the best pupils in the different Sunday School classes, two prizes being given in each class.

More Eggs, Less Feed, Greater Profit

To get the biggest profits you must have maximum production. Feeding hens Ful-O-Pep Egg Mash is the certain method of getting most eggs.

Ful-O-Pep Egg Mash is a scientific balance of many ingredients with an oatmeal base. It provides the right amount of protein and carbohydrates necessary for heavy working hens. Bone meal and calcium carbonate supply the necessary minerals. All elements which the hen reproduces in eggs are fully restored, keeping her fit for heavy production. The Cod Liver Meal in Ful-O-Pep Egg Mash replaces the missing sunlight during shorter days, and its vitamins make other ingredients do better work.

DEATHS REPORTED

MISS ANNIE PERCY, INVERNESS.

INVERNESS, Que., Dec. 28.—

On the morning of December 4th, there passed away a most highly esteemed and respected citizen at Inverness in the person of Miss Annie Percy, only daughter of the late Henry Percy and Mary Hainey.

The deceased was born in Inverness in July 1872. At the age of eighteen she graduated from the

St. Sylvester Convent and taught school for a number of years until the failing health of her parents obliged her to give up her profession to care for them. Of a cheerful disposition, she endeavored herself to friends and neighbors alike, always seeking to do some act of kindness to those in need. A member of the Horticultural Society from its organization, Miss Percy was very much interested in the cultivation of flowers and her garden, even during her failing health of the last summer was the admiration of all who had the privilege to see it. During the late war Miss Percy was most active in her labors for the Red Cross Society.

She leaves to mourn her loss, two brothers, John, with whom she made her home, and Frank, of St.

SEVEN DEAD AT WINNIPEG FROM WOOD ALCOHOL

Police Investigating Possibility that Others May Have Attended "Death Party" or Obtained a Supply of Poisonous Concoction.

(Canadian Press Despatch) — WINNIPEG, MAN., Dec. 28. — Poisonous alcohol took a toll of at least seven lives in Winnipeg during the past sixteen hours, it was disclosed today following an hospital check-up.

Of the seven men reported dead from drinking wood alcohol, canned heat, or other deadly poisons, five succumbed from the effects of "liquor" consumed at a party staged last night in the Coronation Club, located in the Chinese quarter of the city.

The other two victims of bad liquor were found in widely separated downtown residences.

Police today were investigating the possibility that others may have attended the "death party" or obtained a supply of the poisonous concoction.

CURE HABITS BY VOLUNTARY REPETITION

Rejects Generally Accepted "Law of Learning" that Repetition of an Act in Itself Tends to Fix Habit.

(Associated Press Despatch) — MANVILLE, Tenn., Dec. 28. — The cure of stammering and thumb sucking among small children, and possibly other bad habits, through voluntary repetition of the act was suggested to psychologists of the American Association for the Advancement of Science yesterday by Professor Knight Dunlap of Johns Hopkins University.

Rejecting the generally accepted "law of learning," that repetition of an act in itself tends to fix habit, he offered a new theory that habit fixation is due to other factors made operative through repetition.

From this, he deduced that the voluntary repetition of an habitual act may equally well contribute under proper conditions to its abolition.

He told of curing himself of the habit of transposing the letters of the article "the" when using a typewriter by deliberately practising the typing of the word as "the". The plan he said, is to have the patient voluntarily reproduce the objectionable behavior as nearly as possible, under the direction of the psychologist, while distinctly thinking that such voluntary repetition will aid in the abolition of the habit, which he must desire to be rid of.

ANOTHER GIRL REPORTED TO BE KIDNAPPED

Disappearance of Eleven-Year-Old Evelyn Smith, of Oakland, Cal., Has Spurred Police into Activity—Warrant Taken Out Against Robert E. McClelland.

(Associated Press Despatch) — OAKLAND, Calif., Dec. 28. — A new man hunt, with the alleged kidnaper of an eleven year old girl as quarry, spurred police into activity here before the California public had relaxed from the excitement of the kidnapping and murder of twelve year old Marian Parker in Los Angeles.

The missing girl is Evelyn Smith, daughter of Mr. and Mrs. Frank M. Smith, of Oakland. Mrs. Smith yesterday swore out a warrant charging Robert E. McClelland, twenty-seven, a paroled convict with having stolen the girl from her home on the pretense that his mother, described as a wealthy Pasadena woman would adopt her and furnish employment for her father, who has been out of work and ill.

McClelland's mother, the wife of a Pasadena gardener, denied that she is wealthy, and said she knew nothing of her son's plan to take the Smith girl.

DEVELOPMENT IN PROVINCE NEXT SPRING

British Capitalists to Visit Gaspe and Chibougamou—Quebec's Prestige Growing Considerably on Other Side of Atlantic.

QUEBEC, Dec. 28. — A new group of British capitalists will probably visit the Gaspe and Chibougamou districts next spring for the purpose of developing the two districts it was learned from Henri Bray, of this city, upon his return from Great Britain, whether he went in connection with the stock issue for the Quebec-Chibougamou Railway in the Lake St. John district.

Mr. Bray stated that what greatly impressed the British capitalists was the stability of Quebec's farming population and the excellent relations existing between capital and labor, in addition to the great wealth of natural resources available in the province.

Quebec's prestige is growing continually on the other side of the Atlantic, declared Mr. Bray, due to the simultaneous development of agriculture and industry in all parts of this section of Canada.

CATHOLIC WOMEN PROTEST TO PRESIDENT COOLIDGE

Claim Unchristian and Uncivilized Persecution Carried On in Mexico by Calles Government.

WASHINGTON, D. C., Dec. 28. — In a communication to President Coolidge, the National Council of Roman Catholic Women protested yesterday against what was termed the "un-Christian and uncivilized persecution carried on in Mexico by the Calles government."

The communication, signed by the president of the council, Mary G. Hawkins, requested that "our own government take effective steps to show before the world its disapproval of such tyranny."

"The intimate relations established by our ambassador with President Calles and the visit of Colonel Lindbergh," are widely interpreted as indicating that the Calles government seeks to destroy liberty of religion, liberty of the press and liberty of education," according to the letter.

A CHRISTMAS ENTERTAINMENT HELD AT BROME

Excellent Programme Rendered by Children—Personals and Happenings of Interest.

BROME, Que., Dec. 28. — The Xmas tree and entertainment given in the Town Hall on Friday night, was largely attended by old and young and a fine programme of dialogues, recitations and carols, was presented by the children under the direction of their teachers, Mrs. George Sturdevant and Miss Laura Patch, who had given so much time and patience in training the children, who all did their parts so well.

The dialogues, "No Presents", in which the scene opens with two young lads, who have always enjoyed the good things of life, taken by Master Wilson Frizzle and Billy Gedge, and who are giving up their luxuries this Xmas that those unfortunate lads who have never known an Xmas gift might enjoy a happy day, was well rendered, and a noble example presented to all.

The dialogue, "The old woman who lived in her shoe", in which, Miss Norma Owens, took the leading role, Miss Lucille Daniels, as Mother Goose, Miss Inez Vail, "Old Mother Hubbard", and Master Graydon Tibbitts as "Little Boy Blue", was very well presented.

The programme opened with a carol sung by all the children, with Mrs. M. P. Chapman, as pianist; "Hark! The Herald Angels Sing"; recitation (Tiny Lot), Hershell Peters; recitation, "Her first cake", Winnie Palmer; recitation, "No stockings to wear", Norma Owens; recitation, "Christmas Greetings", Roy Hastings; recitation, Master Loran Brislain; dialogue, "No Presents"; recitation, "A crippled boy", Dorothy Vail; recitation, "Setting off to school", Eric Holingsworth; recitation, Gladys Palmer; recitation, "A good boy", Wilson Frizzle; dialogue, "The old woman who lived in her shoe", recitation, "My Dolly", Margaret Sturdevant; recitation, "Santa Claus' Petition", Graydon Tibbitts; recitation, "A voice for Santa Claus", Hilda Moffatt; recitation, "Makus Xmas presents", Lucille Daniels; recitation, "When I was a boy", Ronald Eldridge.

The programme closed with a tableau which was very effective, "Watching for Santa", where two little tots, Master Loran Brislain and little Miss Margaret Sturdevant were seen sitting by the fire place fast asleep with the stockings hanging from the mantle, waiting for the appearance of Santa.

The stage and hall decorations were in charge of Mr. Frank Hinchcliff and were very pretty and effective.

Santa then appeared and distributed the gifts from the well laden tree, each and every child being remembered. Also the teachers, Mrs. Sturdevant, Mrs. M. P. Chapman and Miss Patch were remembered by him with a nice gift.

General Notes.

Mr. Clare Patch met with a painful accident on Saturday afternoon while chopping wood in the woods, when he nearly severed one of his toes from foot with his axe, and on Christmas morning he heavily cut one of his fingers off, when cutting kindling with his knife.

Owing to there being so much sickness in this section, there were not as many family gatherings on Xmas Day as usual. Among those entertaining were Mr. and Mrs. E. S. Chapman, Mr. and Mrs. E. W. Patch, Mr. and Mrs. William Eckowill, Mr. and Mrs. Edwin Wilson, Mr. and Mrs. Walter Patch, Mr. and Mrs. Carmi Libby, Mr. and Mrs. Fred Chapman, Mr. and Mrs. Cedric Patton, Mr. and Mrs. Cleland Soules, Mr. and Mrs. E. W. Ray, Mr. and Mrs. Chas. Richard.

Among the holiday guests in town were noticed Mr. and Mrs. Harvey Miller, of Bloomington, Ill., who are holiday guests of Mr. Miller's parents, Mr. and Mrs. N. W. Miller, Mr. and Mrs. Cortis Moffatt, of Altadena, Cal.; Miss Hilda Mitchell, of Macdonald College; Messrs. Gerald and Lawrence Wright, of Fostoria; Mr. and Mrs. Arthur Royce, of Bolton; Mr. Wm. Cordwin and Mr. H. J. Dennis, of Montreal; Mr. and Mrs. J. Smith, Mr. P. Connors, Mrs. Frances and Mrs. Cohen, and daughter, of Montreal, and Miss Lillian St. Martin, of Richmond, Vt.

Mr. and Mrs. M. P. Chapman, Mr. and Mrs. H. A. Holden and Mr. and Mrs. Harold Vail and family, of Knowlton, were holiday guests at the home of Mr. and Mrs. Edwin Wilson.

Mr. Frank Hinchcliff, who has been attending the Dairy College at St. Hyacinthe, has finished his course and has received his diploma as a butcher-sabon.

Mr. John Sanborn is suffering from pneumonia and is under the care of Dr. Noisoux, of Sutton.

Mr. E. H. Foster, who has been very ill, is now able to sit up, and his little grandson, Master Eric Foster, who has been very ill with pneumonia and pleurisy, suffered a relapse last week. At time of writing he is somewhat better and hopes are entertained for his recovery.

Service in St. John's Church on Sunday next will be at 11 o'clock, a.m., with celebration of Holy Communion.

Mr. and Mrs. Warren Fletcher have moved into Mr. Homer Holden's tenement on Mechanic Ave.

Mr. and Mrs. Boucher entertained on Xmas day a family gathering, also, Mr. and Mrs. H. F. Dennis, and Mr. and Mrs. Adelard Lecroix.

A week during the Christmas holidays with Mrs. Mandgo in Cowansville and Mrs. Ruth in Sweetburg, Mr. and Mrs. D. H. Ingalts were entertained at the Christmas dinner by Mrs. Ada Pettis and Mrs. West in Cowansville.

Country And Dairy Produce Prices

MONTREAL, Dec. 28.—The following were the ruling quotations on the country and produce markets yesterday:

BUTTER.—There was no improvement in the demand for butter yesterday, and the market in consequence was dull and featureless, which to some extent may be attributed to the further recent large arrivals from New Zealand for Canada and the prospects for the future at present are not very encouraging.

CHEESE.—The market continues dull and without any new feature to note, owing to the fact that both English and American buyers show little interest in the trade at present, especially the former, as there has not been any shipment made to the United Kingdom since navigation closed here. Western current receipts of No. 1 white were nominally quoted at 19c to 19 1/4c per lb.

EGGS.—There was no change in the local egg situation yesterday, prices for all grades being steady, but the volume of business was small as is usually the case after the holidays, and the market on the whole was quiet with British Columbia extras selling at 65c to 67, firsts 60c, and pullets extras at 56c to 58c per dozen, while storage extras sold at 46c to 47c; firsts at 42c, and seconds at 35c per dozen.

POULTRY.—One of the features of the dressed poultry trade yesterday was the stronger feeling that developed in the market for chickens and fowl, and prices advanced 2c to 3c per lb., which was attributed to the continued demand for supplies, and all offerings of desirable stock sold readily. Another feature was the easier undertone to the market for undergrade turkeys, and prices for such were reduced 1c per lb. On the whole the market was active, there being a good demand for most lines in spite of the large purchases made last week. Sales of choice turkeys were made at 41c to 43c per lb.; fair to good at 38c to 40c

GENERAL TREND UPWARD TODAY AT MONTREAL

Active Trading Marked Opening of Exchange—Steel Led With Three Point Gain.

(Canadian Press Despatch) — MONTREAL, Dec. 28.—Active trading marked the opening of the Montreal Stock Exchange today, with the general trend pointing upward. Steel led the list with a three-point gain at 188 on a small transaction. Quebec Power, Shawinigan, Massey Harris and Abitibi were the most active issues.

Abitibi opened at 148 for an overnight gain of 1 1/2 points; Massey was up a half at 42, as was Quebec Power at 86 1/2. Shawinigan opened unchanged at 91 1/2, but on later sales went to 92 1/2. The other changes were fractional.

FURTHER IRREGULARITY ON WALL STREET TODAY

(Associated Press Despatch) — NEW YORK, Dec. 28.—Further irregularity developed at the opening of today's stock market, but the main tendency appeared to be upward. Brooklyn Edison opened 3 1/2 points higher at 210 1/2, a new high record, and American Smelting and International Business Machine each opened a point higher, the latter at a new top. Midland Steel Products preferred opened with a block of 900 shares at 300, an overnight gain of 27 1/2 points on top of a 22 1/2 point gain yesterday. Collins and Aikman dropped 2 points.

per.; milk-fed chickens at 33c to 36c per lb.; ordinary chickens weighing 4 to 6 lbs. at 29c to 32c per lb.; medium chickens at 24c to 28c per lb.; heavy fowl at 24c to 26c per lb.; light fowl at 17c to 20c per lb.; ducks at 24c to 26c per lb.; and geese at 25c to 27c per lb.

EXPRESS RATES IN DOMINION ARE REDUCED

New Schedule, Which Has Been Filed With Railway Board, Takes Effect on January 1.

OTTAWA, Dec. 28.—The reduction in express rates for the movement of parcels up to fifteen pounds in weight is not in the nature of a percentage decrease. It is pointed out here that the decrease, which is petition, covers the smaller pack, designed to meet parcel post companies which might be tempted to use the express for parcels under 15 lbs. For purposes of making the charges the three Maritime Provinces are as a single district and the tolls calculated on this basis. Between the same points in any province, the rates run from thirty to sixty cents according to weight. The new schedule is from a province to the adjoining province the rates run from forty to a maximum of eighty cents. Between points in separate provinces the rate runs from fifty cents to \$1.55.

A comparison of the new rates with the old on merchandise moving from Ottawa shows that the decrease is substantial. At the office of one of the express companies here it was stated this morning that the rate on a package of merchandise weighing five pounds moving from Ottawa to Winnipeg under the new schedule would be forty cents. The old rate was eighty. On a package weighing from eleven to fifteen pounds for the same destination the old rate of \$1.70 would be cut to eighty cents. The new rate on a merchandise weighing five pounds from Ottawa to Toronto would be thirty cents as compared to an old rate of forty-five. There is a reduction of five cents in the rate on merchandise weighing from eleven to fifteen pounds moving between Ottawa and Toronto. The new and old rates for the various districts are available at different shipping points.

There are a number of exceptions covering goods which are not permitted to move under the reduced rates. These comprise articles which because of their perishable nature or the way in which they must be packed or crated are difficult to handle. The reduced charges do not apply to money bonds, bullion, or securities.

Two good fat cows were sold for \$7.50, others realized \$3 to \$4 or a shade better, and cutters mostly \$7.75.

NEW YORK PRESS

MARKET COMMENT

Furnished by McManamy & Walsh.

Wall St. Journal.—Evidently the street was not much impressed with the usual year-end stiffness for money rates, for after some hesitation the market advanced on increasing volume.

Journal of Commerce.—There was a good absorption of high grade securities, which called attention to the fact that there is a large amount of money awaiting reinvestment.

New York World.—Those who are buying many stocks like Steel and General Motors seem to have a vision that stretches beyond the ideas of Jan.

Wall St. Journal will say today: Northern Pacific's year best in decade.

Interboro faces doubtful future. Packard is factor in airplane field. Minnesota shipments of iron ore decreases.

Year's profits larger for British American Tobacco Company. Reports net of \$6,354,000 for 12 months. American and Foreign Power expands rapidly.

U.S. Can-Continental consolidation discussed.

Expect reduced reserve holdings. Collateral loans are up \$83,000,000.

New Haven shows speedy recovery.

CANADIENS AND OTTAWA PLAYED WITHOUT SCORE

Two Teams Staged a Thrilling Battle—Both Goalkeepers in Fine Form.

(Associated Press Despatch)
MONTREAL, Dec. 28.—The results of the National Hockey League games last night did not produce any startling changes in the standings of the Canadian and United States sections. Of the three games played two ended in draws. The results:

Ottawa 0; Canadiens 0.
New York Americans 4; Detroit 4.
New York Rangers 0; Boston 2.

The Ottawa-Canadiens match at the capital was a repetition of the titanic struggles staged by these two teams in the past. Ten thousand fans witnessed the contest, which ran the gamut of hockey thrills. Through the initial period both teams played a close-knit, careful defensive game which flared up into sensationalism in the middle session and through the 3rd period when the torrid pace was maintained. Both teams struggled through the exacting overtime, still pushing home thrust after thrust that was denied

by the exceptional goal-keeping of Cornell and Hamsworth.

Canadiens stormed through Ottawa time after time, and the Senators, led by Nighbor in wonderful fashion, waited for the break that never came. Nighbor rose to greater heights than ever to repel the crimson charge of the Canadiens, and it was his clever defensive work in the last analysis that thwarted the league leaders. Gagne was the most dangerous man on the Canadiens' attack.

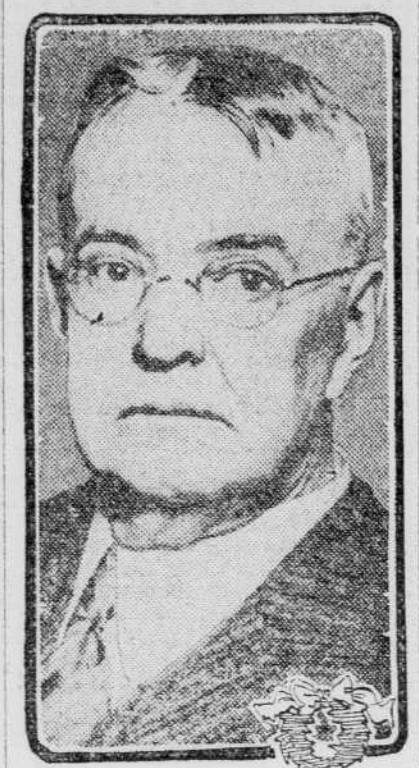

Boston Downed Rangers
Goals by Shore and Connor, in the second and third periods, respectively, gave the Boston Bruins their victory over the New York Rangers, leaders of the United States section of the league. The Bruins are now only one point behind the Rangers and have played one game less.

Detroit Tied With Americans
Detroit's drawn game with the Americans dropped them to third place. Previously they had been tied with Boston for the runner-up position. Scores were: For Detroit, Hay, Shepard twice, Walker; for the Americans, Himes twice, Red Green and Conacher.

When declining health incapacitated Johnson, the American League club owners wanted to pension him, but he refused to accept and stepped out of office.

BOXING

SHARKEY AND HEENEY START ACTIVE TRAINING

(Associated Press Despatch)
NEW YORK, Dec. 28.—Doubts about Jack Sharkey being in condition to go through with his bout against Tom Heenev in Madison Square Garden on January 13th were dispelled today with the reports that both boxers had started active training.

Promoter Rickard received word from Johnny Buckley, Sharkey's manager, that the Boston heavyweight knocked out Rocky Stone twice in a three round workout yesterday at the Hub. Sharkey's injured left hand has apparently mended completely, according to Buckley.

Tommy Loughran, world's light

heavyweight champion, has started training for his title bout against Leo Lonski of Aberdeen, Wash., to take place at the Garden on January 6.

Joe Gluck, Brooklyn junior lightweight was matched today to battle Johnny Far, in Cleveland, in a twelve round bout on January 4th.

The results of the fights last night are:
Indianapolis—Roy Wallace, Indianapolis, won from Joe Packo, Toledo, O., 10 rounds. Billy Radkyn, Cincinnati, won by a technical knockout over Hershe Wilson, Gary, 6 rounds.

St. Petersburg, Fla.—Battling Finch, Savannah, Ga., and Mickey Fedwora, Canton, O., drew 10 rds.
Tucson, Ariz.—K.O. Brown, Santa Monica, Calif., knocked out Cherokee George Lawson, Omaha, 5 rounds.

STUDENTS HELD A CONFERENCE AT QUEEN CITY

Former Bishop's College Student Stressed Need for More Agencies in Canada for Promotion of Good Will.

(Canadian Press Despatch)

TORONTO, Ont., Dec. 28.—In welcoming the delegates at the opening of the first annual conference of the National Federation of Canadian University Students, at University of Toronto yesterday, L. I. Greene, formerly of Bishop's University, Lennoxville, Que., now of Trinity College, Toronto, president of the Federation, stressed the need for more agencies in Canada for the promotion of good will. He emphasized that phase of the Federation's work which sought to promote better understanding between the French and English speaking races in Ontario and Quebec, and, on the other hand, between eastern and western Canada.

Sir Robert Falconer, president of University of Toronto, in extending an official welcome to the students, expressed his enthusiasm for the work of the National Federation of Canadian University Students as a national organization working in the interests of a bigger and better Canada. He ventured the

opinion that in the universities there might be found that group particularly typical of Canada's national life, and said that any movement within the universities themselves for the promotion of Canada's interests must be necessarily one of far reaching influence.

Percy Davies, secretary, in his report, which was adopted by the Federation, outlined the scheme for the exchange of students between Canadian universities. It states that each university in Canada shall provide for the attendance at its college of a number of students from other universities, free of all tuition fees. The scheme was discussed at several conferences prior to this one and no unfavorable comments were made. To date it has been approved of by the universities of British Columbia, Alberta, Saskatchewan, Ontario Agriculture College and Acadia; the University of Toronto has agreed to it being tried out for at least one year, while the university of Western Ontario has agreed to the exchange in entirety, excepting the faculty of medicine. Queen's University of Kingston has approved of the principle, but suggests the remission only of one-third of the fees. Several other universities have not yet reached a decision in the matter.

Plans were formulated for a debating tour of the Maritime Provinces, presenting a team made up of three representatives of the Maritime universities. This idea was enthusiastically received and extended so that a tour was arranged from Lennoxville, Que., to Victoria, B. C., including four non-university centres.

Debating teams will also travel to the United States as guests of national students' federations of America and to England, through the courtesy of the National Union of Students of England and Wales.

MODEL APARTMENTS FOR PEOPLE WITH SMALL SALARIES ARE OFFERED

Have Electric Lights, Steam Heat, Tiled Bathrooms, Brass Plumbing, Gas Ranges, Ice Boxes and Washtubs.

(Associated Press Despatch)

NEW YORK, Dec. 28.—A group of model tenements, built for persons with weekly salaries of not more than \$25, were opened on the lower east side today, but most of the tenants earn from \$30 to \$50 a week. The barrier was raised because of a lack of applicants earning \$25 a week.

The buildings, housing 115 apartments, were erected by the Fred L. Lavanburg Foundation. The six-store houses have been divided into apartments of three, four and five rooms. They have electric lights, steam heat, tiled bathrooms, brass plumbing, gas ranges, ice boxes and wash tubs.

FIRE CAUSED \$500,000 DAMAGE

(Associated Press Despatch)

WASHINGTON, Dec. 28.—A fire thought by army officials to have started from defective wiring or an overheated hot water heating system did damage estimated at slightly less than half a million dollars yesterday at Bolling Field. The blaze was confined to the air corps and quartermaster's warehouse, where \$5,000,000 worth of service uniforms and aeroplane parts were stored.

SPORT AT \$1,000,000 A LONE THRILL
It Costs, and Costs Plenty, to Operate a Large Stable of Race Horses.

JOSEPH A. WIDENER

By NEA Service.
NEW YORK, Dec. 28.—Sport at \$1,000,000 a thrill is a dizzy price to stick on any man's menu. Yet that little item has been paid off more than once and with a cheerful shrug lighting the aristocratic countenances of not a few of the following: H. P. Whitney, Harry F. Sinclair, Joseph E. Widener, George D. Widener, James Butler, W. R. Cox, William Woodward, Marshall Field, James Cox Brady, John E. Madden, Samuel Riddle, Robert L. Gerry and E. R. Bradley.

Do you get a kick out of a 25-cent handbag? A \$10 tennis racket? A \$25 golf set? Well, consider yourself fortunate. Listen to what Joseph A. Widener, millionaire sportsman and one of the best liked men on the turf, has to say especially pertinent at this time with the southern racing season about to open and the bugler, even as far away as Havana, polishing up his golden horn. For now is when the heavy expense dough begins to flow—and flow.

"Men breed horses and race them chiefly out of pure love for a sport which intrigues their imagination and provides thrills which can be had no other way," says Mr. Widener. "There is a fascination in seeing one's colors in the heat of a spirited conflict that outweighs the cost."

"Then, too, there is that gambler—the striving for something that others have failed to acquire. Each war or woman who enters the list does so with the feeling that the fun can be had at a profit. In many cases their pleasure is their profit. But thoroughbreds are an expensive luxury and the lean years eat up the profits of the fat years."

That, then, is one of the reasons why a racing owner "gets that way". Here are the figures:

Millions are invested yearly in the breeding industry. It costs \$100,000 to get together a modest stable of 12 horses, according to

the conservative Widener estimate. Expenses pile up in the way of housing, feeding, entrance, fees, trainer and jockey fees, shipping equipment and the like.

On the basis of \$7 a day per horse the stable of 12 will cost \$30,000 a year and the fees will add \$20,000, which means the winnings must be at least \$50,000 to count a fair return on the investment.

The initial cost of getting together a stable of 12 horses to stand general campaigning has been estimated as follows:

One stake horse	\$ 25,000
Three handicap horses	35,000
Four selling stallions	16,000
Four two-year-olds	14,000
Assembling	10,000
Total	\$100,000

As the stable grows bigger, maintenance increases. It is safe to estimate the Whitney, Bradley, Sinclair and Widener stables of 35 horses and more spend \$200,000 a year, not considering the cost of breeding farms. It requires four large express cars to move the stables, and think of the jumps—Louisville, Chicago, New Orleans, Havana, Pimlico, Saratoga Springs, Havre de Grace, Belmont, Latonia and St. Louis.

"And usually the big thrill comes but once a season and sometimes not even then," says the smiling Mr. Widener, who knows only too well of the large sums of money annually "burned up" in entries and forfeits.

No wonder an owner must win a Kentucky Derby of \$50,000 to pay the way of such an expensive fancy.

There are only a few exceptions. Samuel Riddle bought a colt that perhaps you have heard of. It cost him \$5000 at a public auction. It later earned \$249,465. The colt's name was Man o' War.
