secured a victory for the High School team, by a score of 1 to 0. The first half ended Grammer School, High School 1. Hyman doing needful. In the second half, however, the side succeeded in scoring at both goalkeepers were called upon to stop some hot shots. This is the first time the Grammer School have lost this year. The side received a great deal of satisfaction. The teams lined up as follows:

Grammer School—A. Kerr, goal; Smith, point; D. S. Gough, center; E. L. O. an, A. Kennaert, D. Mowat (captain), Smith, forwards.

High School—J. Hyman, goal; C. MacCall, point; V. Massey, cover; Leland, center; man (captain), T. Pineau, G. MacCall, forwards.

Referee—J. R. Gifford.

THE CHAMPS IN CORNWALL

Cornwall, Feb. 9. (Special).—The

will be continued until finished on the 11th day. Last year only eight players took part, but this year the number has been increased to 12.

The American players will be Billy Shwalter, Barry, Hodges, Baird, Hoy, Babin, and the others. The English team last year, and the all-woman team, Cutcheon of Pittsburgh are new men. Last-named has made a good record in the past games. The English team is composed of J. B. Blair, M. Jackson, C. D. Locock, D. E. M. and H. E. Atkins, who were in last year's team. The English players are H. H. Cole, H. Jacobson, and J. B. Blair.

Quarters for the English players will be provided at the Hotel Cecil, in New York City. The American players will occupy the Hotel Marlborough platform at the Academy of Music, in Brooklyn. The Atlantic cable will connect the two places, and each move will be made as the ten boards are provided for that purpose.

MARKET WAS NOT BRISK.

But Prices Were on the Whole Well Maintained.

What Russell Sage Says—Gossip
From Wall Street—R. R.

The highest level reached by the morning's favorites is shown in the foregoing. On the whole the market was not a very active one, but a greater variety of securities handled than for some time past.

Purchasers, though were limited all round, and the aggregate volume of trading does not amount to much.

The principal features were: Cable, Toronto Ry., Gas, and Street. Values were moderately maintained, and although Gas sold a little lower than it did yesterday morning, Toronto Ry. was pretty firm and sold as high as 71, while 167 was the top for Cable as was the case yesterday.

In the way of bonds the feature was a round sale of Richelieu at 100.

Brokers were rather pleased at the railroad earnings reported from New York this morning. St. Paul it appears is out with the first increase for some time past, while several other roads have shown good gains compared with last year. After the tedious run of decreases, the change is rather refreshing.

Montreal Stock Railway earnings yesterday amounted to \$3,324.02 or an increase over the same day last year of \$220.90. The returns are not final.

In yesterday's sales there was an error, making the sales of Gas 1,000 instead of 500. Money is easy at 4 1/2 per cent for call loans.

THIS IS ENCOURAGING.

The Economist Has an Optimistic Correspondent in New York.

The London Economist (just received here) in its New York letter says of the prospects for a trade revival in the United States:

"Regarding the condition of general business, it is worth noting that never before, perhaps, for ten years, has the situation been so favorable for a general advance in quotations and improvement in demand in almost all lines as at the present time."

"In 1887, the period of the greatest depression after the inflation and crash in 1883-4, credit was greatly restricted, and business was being done on shorter time than for years before. In 1888 the rise began, and in 1889 and the three following years an extraordinarily large volume of business was transacted throughout the country. Credit was naturally extended, trade was inflated, and for reasons which it is not necessary to go into at this time the crash of 1893 made its appearance."

"There is no sign of a return to the conditions of 1893, and the volume of business, closer credits, and a weeding out of all concerns affected by dry rot have marked the course of commerce. After three years, therefore, it is found that merchants are buying on a much smaller scale than for years before, that they are permitting wholesalers, jobbers, and commission merchants, or the manufacturers to carry stocks instead of buying so heavily for future requirements themselves."

MONEY IN NEW YORK.

A Few Scattered Renewals of Loans the Only Feature.

A report of the New York money market says: "There is no sign of life in the money market beyond a certain amount of scattered renewals of loans. Bankers, however, who have talked with merchants, and who are naturally inclined to be buying on a much smaller scale than for years before, that they are permitting wholesalers, jobbers, and commission merchants, or the manufacturers to carry stocks instead of buying so heavily for future requirements themselves."

HERALD Office.

Wednesday, February 10.
 Wheat did not show much promise early this morning, opening 1/2 lower than last night, closing at 76 1/2.

It did not take long to pick up, however, and the bulls were soon greeted with fractional advances to 77 1/2, and then to 77 3/4. Towards noon the stock became just a wee bit easier, but the market did not yield to any great extent and at 12:45, May was steady at 77 1/2.

A Liverpool cable to the Trade Bulletin from the Corn Trade News yesterday read:—"Aggregate supplies wheat afloat and in store on February 1, were equal to 77,500,000 bu., against 79,200,000 bu., on January 1, and 73,800,000 bu., on February 1, 1896. Decrease during January equals 1,700,000 bu. against a decrease of 16,000,000 bu., in January, 1896."

The Buenos Ayres Standard of a recent date says: "The Argentine wheat crop, based on its judgment on the fine outlook in the province of Buenos Ayres."

GRAIN.
 The somewhat firmer tendency to the wheat market the last couple of days has helped the local grain market just a little. Business, however, has not improved to any appreciable extent, and the market can still be called an exceedingly quiet one. Prices remain just about the same.

A little business has recently been done in oats around the basis of 23 1/2, and in the west white oats on the basis of a life freight have been placed on the basis of 4 1/2. Mixed have been held at 18 1/2. Exporters have been doing a little in the west and the purchases mentioned are on their account. Peas are dull and barely steady at 18 1/2. The only recent business in buckwheat was the sale of 10,000 bushels of No. 1, sold at 26 1/2.
