A BIG STRIKE OF TEAMSTERS TAKES OUT ALL THE MEN OF THE DOMINION TRANSPORT COMPANY

The teamsters employed by the Dominion Transport Company are out on strike.

One hundred and fifty men went out the first thing this morning, and at noon the remainder, making three hundred and twenty-five in all, declared that they would no longer work for the present pay.

The trouble which has been brewing for some time among the team drivers of the city culminated last night in a strike being declared.

A meeting of all the team drivers employed by the company was held in their headquarters, 260 Richmond street, last evening. All their grievances were thoroughly thrashed out, and it was unanimously decided to call the 150 men employed at the Ann street stables of the company out at the commencement of the day unless the company agreed to their demands of $1.75 a day, instead of $1.60, the rate paid during the last year. It was resolved that in the event of the company refusing to grant the request, the 175 men employed in the Notre Dame street stables would quit work at noon.

The resolutions were put into operation at 6 a.m. to-day, when the demands of the men were refused by the officials of the company. The word was soon passed around that no advance would be made in their wages and no teams were taken out.

A special strike committee was then appointed and Nault's Hall, at the corner of Guy and Notre Dame streets was secured. A meeting of the strikers will be held there at 2.30 p.m. to-day, when plans will be made for conducting the strike until an amicable settlement has been reached.

The strike leaders, when interviewed by a representative of the Star to-day, made the following statement:

"The conditions were so unjust that we were compelled to strike in order that our grievances might be brought before the public. We could get no satisfaction from the officials of the company, so we had to adopt the last resort—a strike.

"We were being paid at the rate of $1.60 for 11 1-2 hours' work—that is we commenced at 6 a.m. and our day was finished at 6.25 p.m. After that we were supposed to be paid overtime. The company has a perfect system of taking on and letting out team drivers. For the first three months men work for $1.50 a day, and if they make good they will be given $1.60. They seldom make good. After the last strike, about a year ago, a good many of the men were forced to sign contracts with the company, but these men have all been discharged and engaged over again half a dozen of times since. Only eight or ten of the men have been constantly employed by the company. According to legal advice the contracts were not worth the paper they were written on, as the officials of the company were the first to violate them by discharging team drivers on some pretext of their having damaged goods, or some other trumped up reason.

"In this connection," continued the speaker, "our men were subjected to the fining and sweating system to an alarming extent. For instance, if a box of cheese were to accidentally fall off a waggon, the customer would serve the company with a blank form stating that the goods had been received in bad order. The claims agent of the company would fix the damage and the amount would be deducted from the wages of the team driver. This system was exasperating and was the cause of constant friction. We intend to fight the matter now to the bitter end. There will be no back down and all we want is $1.75 a day, the rate which is being paid by the Shedden Company since their strike, and by all the cartage companies of the city. The rates of living have advanced, and as a result of the fining system our wages are not even $1.60 a day, and the beginners do not get $1.50. Overtures have been made but our decision to stand pat will be carried out. We have been promised financial assistance. Besides, it would be unfair to the Shedden and other cartage companies if we allowed our men to work for the Dominion Transport Company for less wages than others pay.

THE ALLEGED SLAYERS OF WARNER IN CONNECTION WITH BUCKINGHAM RIOTS MUST STAND THEIR TRIAL

In the Court of Appeals to-day, Mr. Justice Trenholme delivered the decision of the court in the matter of the six Buckingham strikers who are charged with manslaughter.

The decision of the court is that they must stand their trial on the charge of having killed Detective Warner.

The judge was decidedly pronounced in his decision. The indictment was quashed by the district magistrate at Hull on the ground that the regular ten-cent. law stamp was not affixed.

"It would be a nice thing," said His Lordship, "if a man accused of taking the life of another were allowed to go free because some one forgot to put a ten-cent law stamp upon the warrant calling for his arrest. There is no rigid rule for the affixing of the stamp, and the court is of the opinion that there is really no necessity for such stamp being affixed."

Mr. Justice Trenholme, in closing his decision, said: "It is impossible to justify the action of the district magistrate in quashing the indictment, and we therefore direct that the indictment be restored to the condition it was in when the decision of the magistrate was given. The court orders that the trial proceed in due course of law, and we have nothing to say about the costs."

PINCHED PANAMAS IN NIGHT RAID

Burglars Showed Nobby Tastes and Took Only Expensive Straws From Main Street Shop.

Nobby burglars are the busy boys in Montreal just now. Not the ordinary burglar, who lifts the family plate

LOOTING A HAT STORE.—The artist's impression of the busy burglar who raided a Main street shop this morning and carried off 150 Panama hats.

from the pantry or the chest, nor even the brazen fellow who uses a drill and a small parcel of nitro-glycerine. These chaps are the workingmen of the profession, but the lads who are now looting the city's shops are the elite of the calling. They possess some poetic instinct and seek things that rise above the ordinary man, and woman, too.

Michel Drouin is witness to the fact that the present generation of buglars do things in a modern way. Michel is prejudiced, but, even allowing for that, his testimony is valuable, so, too, are the hats Michel lost. Burglars entered Michel's place some time during the night, and the absence of 150 Panama hats testifies to the discrimination of the early birdies.

Mr. Drouin is the proprietor of a busy hive of industry situated at 232 St. Lawrence Boulevard. He does a brisk business in hats, and a big feature of it consists in blocking shapes sent to him from wholesale houses as well as re-blocking hats sent to him by individuals. Yesterday was a busy day in the Drouin shop and when the day's work had ended there were 225 Panamas in the shop to be blocked and reblocked. Pretty good business, mused the proprietor, as he carefully locked the front door and hiked for home. Then, in course of time, he followed nature's hint and retired to bed to sleep the slumber of the just man. So far so good. The chimes had just checked off half an hour after three this morning when the 'phone in Mr. Drouin's house began a merry tintabulation. It took some time to arouse the worthy man of the house, but he finally landed on the tap and tripped to the box on the wall.

"Yes, yes, that's me," testily responded Mr. D.

"Oh, it's Hogan, is it?"

"Yes, yes, the deuce, you say."

"What, the door's open? All right, I'll get down."

The key to this one-sided dialogue is that Patrolman Hogan who had marched down St. Lawrence Boulevard and was marching up again, had tried all the doors on his line. When he came to 232 he tried the door there and found it wanting, in other words, it was open. Then there was a hasty call for Mr. Drouin, and he arrived post haste.

A quick search of the place showed that of the 225 Panama straws that had been in the store at closing time, 150 had been taken. The burglar, or burglars, had used a key and opened the front door. In his haste to leave he left the key in the door and that is the solitary souvenir Mr. Drouin has. The hats taken range in value from $8 each, running as high as $150. Inside of the sweat band of each is a little rubber tag so that persons who are offered bargains in Panamas should examine the band and see that there is no indication of their having been stolen.

MR. AYLESWORTH ON THE FOWLER CHARGES

Minister Declares "Women, Wine and Graft" Sins Apply to Conservative Members.

St. Thomas, Ont., June 20.—Speaking at Hensall Honorable A. B. Aylesworth took up the charges made in the House of Commons that the Liberals allowed people to "graft" in North West lands and then made a significant reference to the "Women, wine and graft" incident.

On the latter subject he said: "I speak plainly when I say that if you get together anywhere in this country or any other country, a body of 214 men, I do not suppose it will be possible to secure a body some of whom are not total abstainers—some of whom are not men who drink, perhaps drink more than is good for them.

"But that is a matter between each member and his constituents. The public men of this country who are sent by different constituencies to Parliament to make their laws are deemed fit as a whole by the people of Canada.

"Under the circumstances I am not here apologizing. I say I know of my own knowledge many men in the House of Commons who take more liquor than is good for them. I believe the same could be said of any 214 men you picked up in Canada.

"But is this any new thing? Is this something that is only remarkable of the present Parliament?

"Of the dead say nothing but good." Mr. Aylesworth quoted, "but it is possible for us to forget that this country has had a prime minister of whom worse than this could be said?

"As to the charge of women, I can point to more than one Conservative constituency in Ontario which in the past has been represented by a member who was living openly with a woman who was not his wife. I speak truthfully. Names could be given—names associated with the history of the legislation of this country.

"But again I say, are these the matters the people of Canada want investigated in the Parliament of Canada? Art not these matters for the people of Canada, of the different constituencies, to decide? I fully agree that no public man should come before the people of any constituency if he is not a man of character, if he is not a man of fair reputation, a man who conducts his own private business fairly and decently. But nevertheless it seems to be a degradation of the high character of Parliament, and a descent to the depths of political infamy to seek evidence or to manufacture evidence of a character such as the charges I have referred to."

RIOTING IN WINE DISTRICTS SPREADS

Barricades Erected in Streets, and Troops Have to Quell Disorders.

Paris, June 20.—Late last night Premier Clemenceau received grave news from Midi, the district of the discontented wine growers, where the exasperation of the people is increasing. Messages to the Premier came indirectly by way of Lyons, indicating that the wires had been cut.

The Argelliers Committee has been reconstituted, a third committee being named in case the members of the second committee also were arrested. It is now certain that Marcelin Albert has not been arrested, and it is admitted that the police have no idea of his whereabouts.

Narbonne, June 20.—A violent mob from the outlying villages gathered last night. They poured petroleum over the door of the sub-prefecture which they set on fire, but were driven off after repeated charges by the troops. In the course of the fighting the manifestants fired revolvers, but no one was hurt.

The disorder was augmented by the absence of lights, the mob having cut the electric cables. In other parts of the town barricades were erected. These were stormed by the troops and torn down only to be set up again by the rioters.

Montpelier, June 20.—Serious rioting broke out here last night, lasting all evening. The mob attempted to burn down the door of the prison and rescue the prisoners. The troops were turned out, but were received with volleys of stones and bottles. Troopers were pulled off their horses and clubbed.

MR. E. B. OSLER WAS UNANIMOUS CHOICE

Present Member Will Again Be the Standard-Bearer in West Toronto.

Special to The Montreal Star.

Toronto, Ont., June 20.—The delegates to the Conservative convention for West Toronto, held last night, selected Mr. E. B. Osler, M.P., their present representative, as their candidate at the next Federal election. Mr. Osler's was the only name presented. The nomination proceedings over, the first speaker called on was Dr. John Reid, Grenville, who, after stating that the Toronto members were playing an important part in the House of Commons, in exposing the maladministration of the Liberal Government said he could not believe that the people much longer would tolerate the present administration.

Mr. Edmund Bristol, M.P. for Centre Toronto, followed: "No man can fail to be convinced that the Government is absolutely rotten, and the sooner it is turned out the better for the people," he declared.

Mr. H. S. Clement, M.P. for West Kent, mentioning that he had just returned from British Columbia, said that after observing the situation in the Dominion, he was able to say: "If the Conservative party does its duty or one half its duty, its representatives will be returned to office at the next election."

Mr. A. Claude Macdonell, M.P., for South Toronto, denied that the Conservatives were carrying on a "scandal campaign" saying that as a matter of fact, the scandals were being revealed by the courts of the land. He characterized, "the condition of the civil service as a scandal to any white nation" and said the want of system and the absolute rottenness which prevailed required investigation by a royal commission.

After a few words from Hon. Thomas Crawford, the Speaker of the Legislature, Mr. Osler spoke, being greeted with an ovation. Mr. Osler declared the present government at Ottawa had made a dead set against the city, but he had no doubt that the five Conservative candidates would be returned to the House of Commons.

He spoke of the Government's extravagance, but said its corrupt acts had done more harm than its extravagance. "They have lowered the standard of political morality in this country," declared Mr. Osler, who felt that a feeling of disapproval was spreading over the country. "Minister after Minister has gone down, and gone down in a manner by no means creditable to the Minister or to the Government."

Before the meeting closed, speeches were heard from Hon. Dr. Pyne, the Minister of Education and several other gentlemen.

Sudden death of Isaii Rivet.

Isaii Rivet, 55 years of age, dropped dead at his home, 164 St. Charles street, yesterday. The deceased was not feeling very well and he threw himself down on a sofa to have a rest. When some of his relatives entered the room they were shocked to find him dead Heart failure was the cause of death, and the case was disposed of by the Coroner without a jury.

MR. J. J. HILL'S YACHT IS NOW IN THE HARBOR

Mr. James J. Hill, the well known railway magnate, was expected here this morning from the west to leave, in company of a party of friends for

Mr. James J. Hill.

an extended fishing trip to the lower river and gulf on his private steam yacht the Wacouta, which is now docked just below the Victoria pier.

However, Mr. Hill's captain received a telegram this morning saying that he had decided not to come until the conditions for fishing were more favorable, and telling him to wait for further orders.

The Wacouta is no stranger to Montreal. She carries a crew of twenty-five men, and is one of the most commodious and luxurious private yachts in commission.

Mr. Hill is taking his annual trip to the fishing grounds of the Lower St. Lawrence, and will return via New York.

Sir Wilfrid and Lady Laurier have decided to sail by the Empress of Britain, which leaves Liverpool on the 12th of next month.

Invitations have been issued for the marriage of Miss Rachel Gwyn, daughter of Lt.-Col. and Mrs. Gwyn, of Dundas, to Rev. Canon Abbott, rector of Christ Church Cathedral, Hamilton. The ceremony will take place at half-past four Thursday afternoon, July 11th, at St. James Church, Dundas, and will be followed by a reception at "Staplehurst," the residence of the bride's parents.

Mr. Hormisdas Laporte, ex-Mayor of Montreal, who has just ended a three months' tour through Europe, sailed on June 15th on the SS. La Savoie for Canada, and is expected to arrive in Montreal about the 24th.

BUILDING WRECKING PROFITABLE LABOR

It Is Estimated Contractor Will Have Profit of $20,000 Out of the Temple Building.

That wrecking buildings is a profitable investment is a fact demonstrated by the demolition of the Temple in St. James street. Expert calculators who stand along the opposite curb and figure at lightning speed assert that C. A. Major will have made a profit of $20,000 when the task is eventually completed, which is rather a nice turnover for work which occupied a month and a fortnight.

The contractor paid $3,500 for the privilege of tearing down the building and removing the material. He used an average of one hundred laborers each day, and to carry off the fruits of their work forty double teams were needed each day. The wages account would total $11,000, making the total cost of the work $14,500; it was probably higher because there would be additional expenses for timekeepers, taxes to the city and insurance. Than there was also rental of five yards to store material in to be added, so that it seems reasonable to believe that the final cost was somewhere between 18,000 and $20,000.

The first sale made by Mr. Major was of plumbing material, and that brought $5,000, at once, realizing more than the amount paid for the complete wreckage. The partitions and interior woodwork forms one big item, and another is that of 150 steel beams and columns, for which the contractor can secure a nice price. In good bricks the wreckage reached a total of 2,250,000, and for that there will be a tidy return. The sandstone front will be useful, and that, too, has been sold.

The actual contract of Mr. Major was to raze the structure to the level of St. James street, and this work was completed last night. This is followed by a supplementary contract by which Mr. Major has ten days to remove the foundations to a depth of twenty feet below the street level on the south side of the lot. The original work was begun on May 9. Five days later there was an accident, that led to the death of a workingman who had been engaged in helping to remove an elevator weight. The insurance company which carried the risks on the men employed in the work and the public, insisted that no more night work should proceed, and owing to this cause, operations ceased at 7 o'clock every night. This delayed the completion of the original contract for ten days beyond the date set.

The contractor is confident that he will clear out the foundations in ten days, and it is probably that by the first of next month men will be at work on the foundations of the new building for the Canadian Bank of Commerce.

BOOT AND SHOE CONVENTION PROBABLY BE AT TORONTO

At to-day's session of the Executive Council of the Boot and Shoe Workers' International Union, it was stated that the vote of the local unions in connection with the special convention will not be closed until the 24th inst., but up to date it is estimated that there is a large majority in favor of the convention being held in Toronto on August 12.

No action was taken by the board with reference to the recent Supreme Court decision. This was because of the fact, as stated at the meeting, that the decision was so sweeping in denying the petition of Hickey, of Brockton, and Murray, of Lynn, Mass., for a writ of mandamus in consequence of their failure to avail themselves of the laws provided by their own organization. It is held that they should have appealed to a convention and not to the courts.

The work of the executive is now at an end and the delegates will spend the remainder of the week sight-seeing. This afternoon they will be taken around the city in a tally-ho and will be entertained in the evening. The Toronto convention will be of interest to organized labor in the United States and Canada in general.

"YOUNG CANADIANS" ON THE VANCOUVER

Dominion Liner Brought Over No Less Than Two Hundred Youngsters.

"Young Canada" received a large increase to its numbers on the arrival of the steamer Vancouver from Liverpool yesterday. Among the eight hundred and fifty passengers, all Salvation Armyists, there were no less than two hundred children of tender age, twelve and under. The number was increased by two on the voyage, one among the steerage and one in second cabin, but the passengers did not seem to think it so wonderful an event, as they were so thick already.

There was therefore little demonstration. One prospective citizen of Canada had no less than nine young hopefuls as his contribution to the population.

One life was also lost during the voyage. A sailor, John Pallis, while hauling at a rope, lost his balance and fell off the rail, on which he was standing at the time. The Vancouver cruised about for more than two hours but the sea was choppy, and he did not rise again.

This is the last trip of this season to Montreal for the Vancouver. She had been kept on for the Salvation Army service, and as their parties will come now in smaller numbers, she will be put on another route.

The officers of the ship thing very highly of the immigrants brought by the Salvation Army. They give less trouble they say, than any other class, are orderly, and are well looked after by those in charge. More than two-thirds of them come from London, where wonderful work is being done among the "great unemployed."

"DRY" BOUNDRY ALTERED.

Change in Liquor Regulation is Resented in Manitoba.

Special to The Montreal Star.

Winnipeg, Man., June 20.—A bitter feeling has been aroused with reference to the prohibition of the sale of liquors in the neighborhood of the Government section of the Grand Trunk Pacific in Manitoba. Under the law governing the construction of public works the Dominion Government is authorized to prohibit the sale of liquors for twenty miles on each side of a line of railway which it may be building.

When the matter was looked into it was found that the carrying of the law into effect would close saloons in several villages. At once a protest was issued and the result was an offer by Mr Aylesworth to reduce the area within which liquors cannot be sold to five miles on each side of the line, so as to keep the bar rooms going. The altering of the law has created much indignation.

THE OWNERS WERE HELD RESPONSIBLE

Wreck Commissioners Give Judgment Regarding Steamer Marie Which Sank at Tarte Pier.

Judgment was rendered this morning in the case of the sinking of the steamer Marie at the Tarte Pier, on March 29th last. The Wreck Commissioners Court found that Messrs. Revillon, the owners, had not taken a proper interest in the care of the vessel, that they committed her to the charge of a person, who in the opinion of the court was not competent for the charge, and that therefore Messrs. Revillon are responsible for the damage to the steamer.

The case as outlined by the judgment is one of the strangest that ever occurred in Montreal. The Marie at the end of last season was committed to the care of her former master, Mr. Fournier. He, on the advice of a Mr. Rochon, and without asking the opinion of the harbor officials, had laid her up on the north side of the Tarte Pier for the winter. When the water began to rise in the early spring, proper precautions were not taken and the rising water filled the Marie, which held down by the ice, and unable to rise with the water, sank at her moorings.

At the court, Commander Spain presided, and was assisted by Captain Riley. Mr. Peers Davidson was present representing the underwriters of the Marie; Mr. Tansey, for Revillon Bros., and F. E. Meredith, K.C., on behalf of the Shipping Federation.

Edmund Kean, the celebrated tragedian, was the son of a stage-carpenter.

TROUBLE IN OTTAWA.

Ottawa, June 20.—Local cricketers' anger somewhat increased over the action of the Canadian Cricket Association at Tuesday's meeting in Toronto, in turning down the proposal of W. C. Baber, of Montreal, to have the international match played in Ottawa this year, in connection with the cricket tournament of the summer carnival. A member of the Ottawa Club last night said: "The C. C. A.'s action is no more than what was looked for here, and is a clear indication that the feeling which existed when we withdrew a few years ago is still harbored towards the east by the association. The latest action, of course, means that neither we nor the Montreal clubs will accept the invitation to rejoin the C. C. A."

The playing of the international in the West will not interfere with the plan to bring Philadelphia to Ottawa. The visitors will be opposed by Montreal and Ottawa cricketers, and the match labelled international.

The famous Valleyfield nine last year's champions of the Eastern Canadian League will make their first appearance in Montreal this season, on Sunday afternoon, when they meet the Stars on the latter's grounds, Corner Boulevard and St. Urbain streets, at 3 p.m. At 1.30 the Star Reserves will play the Mile End.

A MONTREAL MAGISTRATE
TESTIFIES TO ZAM-BUK
Mr. F. Rasmussen, Justice of the Peace, of 211 Marquette street, Montreal, writes:
Gentlemen,—
I take genuine pleasure in informing you of the great good I have derived from the use of Zam-Buk. For many years I was troubled with a serious eruption of the skin. This was not only unsightly, but it was at times very painful. I first tried various household remedies, but all these proved altogether useless. I then took medical advice. Not one, but several doctors in turn were consulted, but I was unable to get any permanent relief. Some time back I noticed a report from a Justice of the Peace who had been cured of a chronic skin disease by Zam-Buk, and I determined to give this balm a trial. After a thoroughly fair test, I can say I am delighted with it. I have the best of reasons for this conclusion; because while everything else I tried—salves, embrocations, washes, soaps and doctors' preparations failed absolutely to relieve my pain and rid me of my trouble, three boxes of Zam-Buk have worked a complete cure.
In my opinion this balm should be even more widely known than it is, and in the hope that my experience will lead other sufferers who are in despair to try this herbal healer, I have no objection to you publishing this letter.
Yours truly,
(Signed) F. RASMUSSEN.
Justice of the Peace.
For sores due to blood-poison, ulcers, rashes, skin eruptions, eczema, ringworm, heat sores, sunburn, cuts, bruises, scalds, sore feet, etc. Zam-Buk is unequalled. It is also a cure for itching, bleeding or protruding piles. All druggists and stores sell at 50c. a box or Zam-Buk Co., Toronto, for price, 3 boxes for $1.25. Send 1c stamp for dainty sample box.

A Word From President Powers.

Under the date of June 15, President Powers has issued a circular to Eastern League presidents and managers, which, in part, is as follows:

At the time of presenting my 1907 schedule at the League meeting last March, I predicted that an unusually close race would result if the schedule was accepted and carried out as outlined. That my prediction was verified to the letter, is evidenced by the unprecedented closeness of the present struggle. Never before in the history of organized baseball has such a race been known.

It is anybody's race and a fortnight's play could reverse the relative positions of the entire eight clubs.

By the retirement of Umpire Rorty and Hoffner, I was enabled to enroll the name of Mr. McCarthy on my staff. This was advisable because of his longer experience and national reputation. Positions were awaiting Messrs. Rorty and Hoffner, the former in Connecticut and the latter in the Virginia League, where they are respectively officiating at present.

I have explicitly instructed my umpires to put down all rowdyism and senseless kicking at all costs; even to resort to the expedient of forfeiting games when, in their judgment, such a move becomes necessary to maintain decorum and gentlemanly conduct on the ball-field. I recognize the fact that the baseball public wants to see clean, snappy ball and does not care for the petty, personal banterings between the opposing players, or the needless and irritating exhibitions of bad temper that so often crop out.

The following players have thus far been penalized for infractions of the rules, by fines or suspension:

Burchell, O'Hara and Ahearn of Baltimore; Bean, Pfanmiller and Merritt of Jersey City; Peterson of Providence; Hill of Montreal; Flood and Connora of Toronto, and McConnell of Buffalo.

Besides the above, several players have been put out of games by the umpires for disputing decisions.

In the near future, it is my intention to call a meeting of the League, at which time I will recommend that action be taken to the end that any Club, paying a fine imposed by an umpire on a player and not deducting it from said player's salary shall be fined $200.

In conclusion, I wish to state that I am thoroughly satisfied with the work of my umpires, Messrs. Conway, Owens, Cusack, Kelly and McCarthy, and that, barring any unforeseen incident, such as illness, accident or failure to fulfill asignments, I do not expect to make any change in the staff during the remainder of the season.

JOHNNY POWERS OUT WITH CAPS AGAIN

Special to the Montreal Star.

Ottawa, June 20.—Johnny Powers, the famous inside home player, known as one of the fastest and trickiest men in the Canadian National game will don a Capital uniform for the first time this season at to-night's practice. This announcement was made by Secretary Foran to friends at the Oval last night. The news will be received by local enthusiasts with the greatest glee as followers of the champions have felt all along that the twelve was not complete without the little fellow. While Powers has not handled a stick this year he is in the best of shape, as he has been paddling ever since the weather permitted indulgence in this sport, and he is always taking exercise of one kind or another. He will be in the line up against Nationals Saturday, and his presence will do much to give confidence to the balance of the team.

"Bobbie" Pringle, too, has decided to remain in the city until after the National game, and with him in line again with Powers on the home, the Senators will present the strongest front they have shown this season.

The final practice before meeting the Frenchmen will be held to-night. The line up will probably be:—Hutton, goal; Fagan, point; Ralph, cover; Shea, Pringle, Ashfield, defence field; Starrs, centre; Butterworth, Eastwood, Murphy, home field; Gaul, outside home, Powers, inside home.

President Emmanuel Tasse, of the Capitals, will to-night relinquish the reins of office, although he will still remain on the executive. The news became public yesterday, although he was reserving the announcement until to-night, when the players who took part in the English tour will be presented with signet rings by Mr. Tasse, as souvenirs of the trip. Mr. Tasse has long contemplated this action, but after the Cornwall game he reconsidered the question for a time, not wishing to desert the club when in adversity, but as he has soon to make a trip to the far West, he thought best, that a man on the spot should hold the office, hence his decision. Mr. Tasse as president has shown himself a good sportsman, and he has made friends wherever the Capitals have played. His ambition in athletics was achieved last year, when the Senators won the world's championship.

KEENE STILL WINNING.

Earnings of Stable So Far This Year $136,041.

New York, June 20. — These are joyous and profitable days for James R. Keene. Each afternoon his thoroughbreds increase his store of wealth by winning races. Zambesi yesterday added to the stable earnings by placing to his owner's credit the Brookdale Handicap, the feature of the programme at the Gravesend track. The race was worth $4,135.

When Zambesi outran his field and won by two lengths the earnings of the stable this year reached $136,041. This sum is largely in excess of the amount won by any other stable and is within $14,000 of the total earnings of the Keene stable last year.

Keene headed the list of winning owners last year. So far his horses have won nearly all of the rich prizes of the season. They have established a record in the number of races won and the amount earned for a similar period of time. As many of the most valuable stakes are yet undecided, turfmen believe that the Wall Street magnate will collect from the various racing associations $225,000 as his share of the season's prizes.

After the Umpire.

Worcester, Mass., June 20. — In the game between Worcester and Lawrence, in the New England League yesterday, Manager Rolley, of Lawrence, refused to leave the field when ordered off by Umpire James. The police, with some difficulty, removed Rolley. The Lawrence players then gathered around the umpire, and two of them assaulted him. Pitcher Lee and Right Fielder Courtney, of the visitors, were put out of the game as an outcome of the clash. Worcester won the game, 8 to 6.

WORLD'S BOWLING CHAMPIONSHIP

Four champion five-men teams that won in the sectional American and Canadian or International tournaments this season will be brought together at the annual tournament of the American Bowling Congress at Cincinnati next February, and for the first time in the history of this popular winter sport, the world's championship will be decided. For this great contest Garry Herrmann, president of the A. B. C., has authorized the offer of a purse of $1,000, which is also the largest sum ever given for a bowling contest of this nature.

In this contest the teams represented will be made up from the best games in the United States. The teams and the scores they made in three games in the sectional tournaments are as follows:—Furniture City team of Grand Rapids, winner in the American Bowling Congress tournament, 2,775 pins; Corinthian of New York, winner in tournament of the National Bowling Association at Atlantic City, 2,814 pins; Thompson's Colts of Chicago, winner in the international tournament at Toronto, 2,853 pins (world's record); and the Paulson team, of Denver, winner in the Western Bowling Congress tournament in that city, 2,797 pins.

To W. V. Thompson, of Chicago, is due the credit for arranging this contest. Mr. Thompson, who is in New York to see the members of the Corinthian team, has been in correspondence and personal conference with leading bowlers and alley owners in several cities relative to the matter of finding a place where the winning teams could meet. Several made offers of a purse for the proposed contest, Cleveland, Detroit, Chicago, and New York being the principal bidders. President Garry Hermann, of the A. B. C., and also of the National Baseball Commission, finally landed the prize with an offer of $1,000. Besides this prize, there will probably be a side bet, as the Paulsons and Thompson's Colts, of which W. V. Thompson is the manager, wish to add $100 to $250 for each team, the losers probably receiving expenses.

Just at what time in the tournament the match will be rolled has not been decided, President Hermann favoring the opening night. There will be twenty alleys laid down for the Cincinati tournament (the largest number ever used in a national event), and four of them will be especially reserved for match contests.

CHALLENGERS TRIED.

Trial Races for Challenge for Kaiser's Cup.

Marblehead, Mass., June 20. — The latest Sonder class creations came nearer expectations yesterday in the second series of the trials for the selection of three American challengers for the German Emperor's cup. Still, the racing conditions at least in one of the three events were scarcely satisfactory, owing to the light and fickle winds. The committee, therefore, will have another series of races to-morrow for some of the boats to obtain further data.

The victors in the three races to-day were the Marble Head, owned by W. H. Joyce and S. H. Proctor, and sailed by the latter, and the Cheewink VIII., owned and sailed by F. C. Macomber, jr.

GERMAN YACHT RACES.

Kiel, Germany, June 20.—The regatta of the Imperial Yacht Club began here yesterday with stormy weather. Two unimportant events for small raters were the first events on the programme. Emperor William, on board the Imperial Yacht Hohenzollern, steamed up Keil Bay, saluted by nearly the whole of the German navy. The Argentine schoolship Presidente Sarmiento, in the upper harbor, joined in the welcome to His Majesty. The Emperor bowed and held his hand to his cap until he had passed the schoolship.

In all there were eight sailing yachts at anchor in front of the Imperial Yacht Club.

Player Recovered.

Cincinnati, June 20.—Roger T. Bresnahan, catcher of the New York National League Baseball Club, who was hit by a pitched ball in Tuesday's game with Cincinnati, was to-day reported in a favorable condition. It had been feared that a blood clot might form, but this danger seemed to have passed to-day, and his early return to the game was regarded as assured.

It was stated at the Seton Hospital in the afternoon that Bresnahan continues to improve.

They Hit Spot.
The Seat of Women's Troubles.
When you get all run-down, feel tired and out of sorts, it is pretty hard to tell just what part of your peculiar organism is going wrong, isn't it? That is why you can take so much medicine and still have it do you so little good.
It doesn't hit the right spot, that is, it doesn't reach the organ or organs that are going wrong.
But supposing you could get a remedy that contains ingredients for every organ of your system, and especially those peculiar to your sex, you wouldn't need, then, to know just what is the matter with you, or just what organ is causing the trouble, would you?
Certainly not, because no matter which organ or organs it might be, they would be reached by some one of the many ingredients of the medicine, and would be restored to a normal condition. And then you would be well again.
And do you know there IS one just such remedy? It is
Dr. Hugo's Health Tablets for Women.
Dr. Hugo's remedy contains something for every organ of the female system; something for the stomach to help indigestion—for the bowels to cure constipation—for the nervous system to tone up the nerves—for the liver and kidneys to make them active in carrying off impurities—something for the uterine system to stop all drains, allay inflammation and make women regular.
If there is anything wrong with you—if you don't feel as well as you used to—these tablets will give you the old time life and vigor.
Don't wait till something serious develops. Take them now.

A PLEASING BREAK IN THAT LOSING STREAK

Baltimore Trimmed Three to Nothing on a Few Hits at the Right Time and Mr. Stanley's Extra Fine Heaving.

In the presence of a vast throng, composed of 475 human beings 3 peanut boys and Orby, Mr. Richard Croker's Derby winner who consumed grass in right field, Mr. Kittredge exploded a victory yesterday that created a decided sensation in sporting circles.

In addition to shutting the visitors out in artistic style, Mr. Kittredge personally acted in a manner satisfactory to all concerned.

The popular head of the local strategy board peeled off two singles and a double of large and noisy proportions.

After the two base event Mr. Kittredge was overwhelmed by applause, and blushing deeply, doffed his cap three times to the maddened multitude.

Other swatters worthy of mention for honors were Messrs. Madigan and Morgan, while Mr. Phelan's work in the sacrifice department was all that could be desired by the most exacting critic.

Mr. Stanley figured extensively in the public eye, and pitched the best game he has put up on the local grounds.

He was touched for four hits, and two of these would assay as scratch efforts.

Only once did Mr. J. Dunn's experts hover anywhere near the home plate, and that was in the seventh, when Mr. Demmitt uncorked a three base hit and tried to stretch it into a home run.

The ball was hit between Phelan and Joyce. The latter chased it, heaved to Hill who turned and passed the ball on Kit just as Mr. Demmitt was speeding towards the pan.

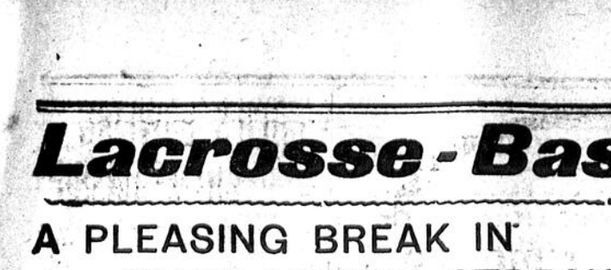
Taking a wild despairing leap in the air the athletic Mr. Demmitt shot for the plate but before landing was tagged on the shoulder blade by our enterprising backstop and general manager.

All round applause for the four actors in the drama, but as Mr. Demmitt was seperating the dust from his well fitting garments, Mr. Dunn, who had been viewing the proceedings with disaproval walked over and called Mr. Demmitt a rice banana.

Which goes to show that no matter how hard an athlete tries to win fame his efforts are scorned by the capitalists who pay his salary.

OFFICIAL NOTICE FROM MR. POWERS.

During a temporary lull in the entertainment the high priced literary lights who operate in the press box heard a commanding knock on the door and in came Mr. F. Archer, who is Secretary Treasurer of the local aggre-



Wash day in the Club House.

gation.

Mr. Archer solemnly handed three typewritten sheets to each newspaper representative and sat down to consume a cigar while the literary experts absorbed the contents of something that proved to be a remarkable document.

It was an official utterance from Mr. P. Powers, president of the Eastern League and was addressed to the managers of Eastern League Clubs.

It was a long essay in prose signed by P. Powers telling the world at large that Mr. P. Powers was one of the foremost thinkers of the age.

Mr. P. Powers said that Mr. P. Powers' exclusive prediction that the race would be close had been verified and intimated that as a prophet Mr. P. Powers had professional mind readers and star gazers skinned a mile by the clock.

Mr. P. Powers said that Mr. P. Powers' efforts to get a good umpiring staff reflected a great deal of credit upon that modest and unassuming president of the League, Mr. P. Powers.

In short Mr. P. Powers gave it out officially that in the unanimous opinion of Mr. P. Powers about the hardest thinker and all round hot potato at the head of any known League was Mr. P. Powers.

Why will the Post Office apartment bar the Police Gazette from the barber shops and yet allow Mr. P. Powers' Personal Admiration Society to circulate its literary matter through the mails?

MR. HEARNE A BASE RUNNER.

An alarming incident in the early part of the game worthy of special mention was Mr. Hearne's herculean effort to steal a base.

Mr. Hearne is not exactly erected on the athletic style of architecture, being built more thus anything on the ground floor plan of a gas stove or a grand piano.

Weighed down by the shin pads and a pair of No. 19 boots, Mr. Hearne's natural speed is somewhat dulled. But in spite of all the handicaps mentioned, Mr. Hearne tried to steal a base.

It was in the second and Mr. Hearne scratched a single.

On the third ball pitched to Mr. Hunter, Mr. Hearne got his 310 pounds in motion and galloped down to second.

The earth shook and the grand stand trembled each time Mr. Hearne's

The Club washing was hanging out on the line yesterday.

feet hit the pathway, while the multitude was amazed at the daring effort and Mr. Hearne's surpassing, not to say magnificent nerve.

Recovering from the shock Mr. Kittredge threw the ball to Mr. Hill, who sat on the bag and awaited Mr. Hearne's arrival.

The train was late getting in, so in order to kill time, Mr. Hill counted his money in order to pass the time away.

Looking along the path he saw Mr. Hearne's speeding form on the horizon and after another painful delay Mr. Hearne arrived at his destination.

At this juncture, gentle reader, there was a surprising disturbance.

Mr. Hearne made the announcement to the Ump, in a loud voice, that he was safe. Nobody knows on what grounds Mr. Hearne made his hurried calculation, but anyway Mr. Hearne said he was safe.

The Ump strongly advised Mr. Hearne to see a doctor and get something for it.

It was wash day over at the club house, and the line groaned under the heavy weight of undershirts and ——— as they flapped in the breeze.

Doc Newton's outfit was strung up to get a sun bath and the Doc, during the drying process, walked around the club house enclosure in a barrel.

Who owns the race horse that has been in right field for the past few days eating the hay crop? He looks like a 4.000 to 1 shot.

NOTES OF THE GAME

Rapp is a fast man, but he is afflicted with a chronic case of sore feet.

Stanley excelled himself and pitched fine ball.

Phelan's strong point is his sacrifice hitting. When called upon to bunt he can always make good.

The Star's $5 for the first home run is still in the bank drawing 3 per cent. interest.

Burrell, the Baltimore third baseman, played great ball this series.

This is an open day. To-morrow, Mr. J. Bean, of Jersey City, open a series.

Dunn failed to make a hit in the three games. Yesterday he struck out once and then popped up easy flies.

Demmitt and Hearne both made good running catches.

Kit not only made three hits, but he raked the ball hard.

With none out and a man on second it's poor work to sacrifice. Let the batter pretend he is going to sacrifice, draw the infield in and then hit the ball to soak. Idea submitted for consideration.

With Byers, Hearne and Robinson, Baltimore seems to have a fondness for heavy weight catchers. The three of them would tip the scales at nearly 700 pounds.

Thoney, of Toronto, is still out of the game.

The following players have thus far been penalized for infractions of the rules, by fines or suspensions:

Burchell, O'Hara and Hearne, of Baltimore; Bean, Pfanmiller, and Merritt, of Jersey City; Peterson, of Providence; Hill, of Montreal; Flood and Connors, of Toronto, and McConnell, of Buffalo.

Kittredge still has a lame side and he had Herbst run for him.

One needed rule in baseball is to stop coachers calling the batter "old boy." Its a chestnut with gray whiskers. Why not try something original?

Morgan hit the ball a hard crack that bounded over O'Hara's head to the fence.

Montreal is Hardy's hoodoo. The last time he pitched here he was knocked out of the box.

No one could wish for a nicer bunch of infielders than Morgan, Hill, Needham, Shean and Brown.

Rapp has been hitting poorly this year, but he found the ball all right this trip.

The Baltimore players claim that Toronto will not finish better than third.

How the Runs Were Made.

Montreal scored two in the seventh, a single by Madigan and a double by Morgan doing the work. Hill, the first man up, grounded to Burrell, and went out. While Madigan got a single on second. Morgan smashed out a two-bagger, that bounded when it reached O'Hara, and went over his head to the fence, allowing Madigan to score and Morgan to reach third, and he scored the second on Phelan's fly to centre. Rapp's throw to the plate being very weak. Brown ended the inning by sending up a high foul, which Hearne captured.

In the eighth the third was added, Kittredge started it off with a two-bagger his third hit of the day. Stanley grounded to Dunn, who fumbled, and Kit reached third, and Stanley was also safe. Joyce sent a little one to Hardy, who fumbled, and Kittridge scored. Phelan sacrificed, and Hill was passed, filling the bases, and then Madigan filed to Hall and Morgan to O'Hara.

Fourteen Innings.

Buffalo, N. Y., June 20.—There was a great battle yesterday between Newark and Buffalo, and the end was not reached until the fourteenth inning, when the champions pulled ahead with two runs and with but two men retired. Pardee went the entire route for the sailors, whereas Buffalo had Kissinger and Vowinkle to fight their battle. Jones, Mahling and Nattress made some great plays. Score:

GOLF CHAMPIONSHIPS.

New York Player Beaten at Hoylake.

Hoylake, England, June 20.—"Jack" Hutchison, of New York, was one of the many who broke down at the long third hole in the second qualifying competition for the British open golf championship yesterday. He played fine golf in the strong wind in the morning round, but was unfortunate in not doing better than 83. He had no luck on the greens, and took 29 for the last five holes. In the afternoon round, the third hole, which had to be played in the teeth of the wind, cost him ten strokes, and a little later he decided to retire from the contest. As a result of the day's play, 33 men with a score of 170 or under qualified.

Hutchison retired in the second round after taking ten to make the third hole.

SUBURBAN AT SHEEPSHEAD TO-DAY

New York, June 20.—At least seventeen horses, admittedly the best in training, will face the starter at Sheepshead Bay to-day to try for that rich classic of the American turf, The Suburban. With the close of the day the beautiful race course had received its last touch in preparation for the event, which will doubtless draw more than twenty thousand spectators, leaving the track very fast and the spacious lawn and the flower beds at their best. The only thing that threatens to mar the day is the weather bureau's prediction that thunderstorms will occur to-night, and all lovers of the horses are hoping that if rain comes, it will be less than sufficient to lay the dust on the track. The Suburban is a handicap for three-year-olds and upwards, at a mile and a quarter. The guaranteed purse is $20,000.

Racing experts are divided in their opinions as to which horse should be made the favorite—whether it should be one of the three-year-olds or from the older divisions. It is most likely, however, that one of the younger lot, Electioneer or Superman, both of which have been tried and found wanting neither in speed nor stamina, will have the honor. Montgomery, the southern horse, and Dandelion, Flip Flap, Beacon Light, Cotton-Town, Running Water and the light-weighted Veil, which will run, coupled in the betting with Superman, will have many supporters. In fact, it may be said that not a horse will go to the post without substantial backing.

The following are the entries with their weights and probable jockeys:—

Horse	Jockey.	Weight.
Dandelion (Radtke)		117
Cottonwood (L. Williams)		117
Running Water (Miller)		116

OUTREMONT FOR OTTAWA.

Special to The Montreal Star.

Ottawa, June 20.—The Outremont Golf Club will play on the links of the Ottawa Golf Club Saturday next, and a good contest is expected. Outremont has a number of exceptionally strong players, and are among the best exponents of the game in Canada. The locals have been performing well, and expect to be in the running to the finish. The Ottawas have not yet selected their representatives. The links at the present time are at their best, and the members are justly proud of them. Many improvements have been made since last year, and they rank among the finest in Canada. The interest of the members is centred at the present time in the mixed foursomes which have been in progress for some time.

The first round is scheduled to finish this evening, and the second must be completed Monday. Further arrangements will then be made for further play to conduct the contest to the final stage.

Vics Spoon Competition.

ASCOT DERBY WAS WON BY ALL BLACK

Ascot, Eng., June 20.—King Edward and Queen Alexandra again attended the race meeting here yesterday, riding to the course from Windsor in a motor car, instead of in state procession, as on Tuesday. The weather was clear. In the race for the Visitors Handicap, of 300 sovereigns, for three-year-olds and upwards, a mile and a half, Banana was first, Marlow second, and Beckhampton's Pride third. Ten horses started.

The Royal Hunt Cup, a piece of plate, valued at 300 sovereigns, with 1,500 sovereigns in specie added to a sweepstake of 20 sovereigns, each for three-year-olds and upwards, seven furlongs and 166 yards, was won by Lally. Andover was second, and Malua was third. Twenty-four horses ran. The result was a surprise. The Duke of Devonshire's Hill Sprite was expected to win. Lally, owned by M. B. Purefoy, and ridden by Hewitt, the Australian jockey, won by half a length. Three lengths separated second and third horses. The betting was 100 to 6 against. Lally, 6 to 1 against Andover, and 20 to 1 against Malua.

No trace has been found of the gold cup stolen yesterday while on exhibition here. A lady who was present remembers seeing a man with a long overcoat hovering near the place where the prizes were displayed. She says he suddenly dashed out of the back of the grand stand, jumped into a motor car and drove rapidly away.

The Ascot Derby Stakes of 50 sovereigns each, with 500 sovereigns added, for three-year-olds, one mile and a half, was won by All Black. O'Cullen was second and Prince of Orange was third.

The forty-ninth Ascot biennial stakes of 10 sovereigns each, with 500 sovereigns added, for three-year-olds, one mile, was won by Hymemus. Appony was second, and Pripsay was third.

The Coronation Stakes, of 100 sovereigns each, with 300 sovereigns added, for three-year-old fillies, one mile, was won by Frugality. Lacomedia was second, and Glass Doll was third.

The Fernhill Stakes, 20 sovereigns each, with 300 sovereigns added, for two-year-olds, five furlongs, was won by Freeborn. Saxham was second, and Little Goose was third.

The fifty-fifth triennial stakes, of 10 sovereigns each, with 400 sovereigns added, for two-year-olds, five furlongs and 144 yards, was won by Dibs. Indian Runner was second, and Alistair was third.

SCHAFLY WILL JOIN.

New Toronto Man Will Be in Game on Friday—Washington Wants Grimshaw.

Special to the Montreal Star.

Toronto, Ont., June 20. — President McCaffery has received word that Schafly will be here in time for Friday's game against Baltimore, but the arrival of Grimshaw, his other recent acquisition, will be rather behind scheduled time. Washington is after Grimshaw and has refused to waive claim on his services. However, the deal with Boston will go through, for the ex-Bison star. President John I. Taylor, of the Boston Club, having made a special trip to Washington to fix things up for the Toronto Club, and the chances are that Grimshaw will be a member of the Toronto Club before the week is out.

GAMES NOT TRANSFERRED.

Special to the Montreal Star.

Toronto, Ont., June 20.—The report that several games scheduled for Toronto have been transferred to certain Ontario towns is without foundation. The game with Buffalo for August 7, which has been transferred to Galt, is not a home game. The Leafs are scheduled to play in Buffalo on that date, and it is Buffalo, and not the Toronto management, that has consented to the change. As for the Providence game in August, which it was reported had been transferred to Ottawa, nothing has been done officially in the matter. It would cost too much to take the team to the Capital for one game, and as to transferring the whole series, such a thing is out of the question.

WILL BE CHANGES IN LINE-UP SATURDAY

It is reported that the Capitals are working overtime in order to wipe out their defeat by Cornwall by downing the Nationals. Butterworth, Eddie Murphy and "Bones" Allan are all back in line, and although the veterans may not be as speedy as they were, the brains are still there, and if the Senators are beaten here it will be because the Nationals are a better team. The Nationals have suggested Dr. Irvine and Dr. Cameron for officials. Decarie, who is not yet strong enough to play, will be replaced by Sauve. Laviolette will again play home, but Dulude will replace Pitre.

The likely line-up of the Capitals will be: Hutton, Fagan, Ralph, Shea, Ashfield, Starrs, Butterworth, Eastwood, Allan, Murphy, Timmins and Gaul. This will be the first appearance of the champions here this season.

The Shamrocks have suggested Joe Lally, of Cornwall, and Joe Mercier, of National, as officials for their match with Toronto Saturday. It is doubtful whether the latter can act, as he left for Boston last night, and may not be back in time. It is reported that the Green Clay team is working hard as they are very anxious to take a fall out of the Irishmen. Jimmy Murphy has a fast field in Lambe, Taylor and McKenzie, but if the Irishmen's defence play the game they did last Saturday, it will take more than a fast field to win.

The intermediate lacrosse season will be opened Saturday, when the Nationals, of Ottawa, play the intermediate Shamrocks, on the latter team's grounds. The Shamrocks are pretty strong, three of their men now playing regularly with the senior team. The Shamrocks will play the return match with the Nationals in Ottawa on August 10. It is likely that the invitations, which have been received to play at Three Rivers, Quebec and one or two other points, will be accepted by the Shamrocks. Dessie Brown has been agreed upon as referee for the contest on Saturday, and arrangements have been made to bulletin the result of the Shamrock-Toronto game in the Queen City.

TOM SHIPMAN SAVED FRIEND.

But Was Unable to Run Through Gallant Action.

Much dissatisfaction was expressed last Saturday at the non-appearance of Tom Shipman in the three mile race at the annual track meet of the Montreal and District Harrier League. Some ascribed his non-appearance to fear after his defeat by an unknown in Toronto, but it now transpires that owing to the effects of acetylene gas, which he had inhaled, the runner became so ill that he felt it due to the Gordons not to represent them in the meet.

While at work in the C. P. R. shops on Saturday morning Tom Shipman found that one of his mates was missing, and after a long and vigorous search he found him overcome by the fumes of some acetylene gas that had been escaping from a leak in the big tank of gas on the premises. He saved his friend, but was himself overcome by the noxious fumes and was too ill to run in the afternoon. He recovered fully by Monday and was able to go to work as usual.

Shipman will not run at the M.A.A.A. spring handicaps on Saturday, as these handicaps are under the rules of the Amateur Athletic Federation. This will be the first time that the Gordons have not been represented in the long distance events of these handicaps.

Judgment Reserved re Buckingham.

But Nicol, the rider, was not punished for the foul which resulted in the disqualification. Just as the field pounded the turn into the home stretch, Dog Rose, which was going easily, bolted across the track, cutting off Cave Adsum. Technically, Dog Rose committed a foul, but just why Nicol allowed his mount to run out cannot be figured by the public. A heavy play on Dog Rose did not send his price down as is usually the case. Instead he went from 9 to 5 to 11 to 5, and even better in some of the books.

The Schreiber string continued to take the youngster purses, Tom Shaw running away with the opening event.

The second race went to Alencon, Gildersleeve's chestnut gelding. Slickaway got the money of the talent, but the weight anchored him. Prinky, Homer Selby's sprinter, showed an improvement, but could not get up to Trouveur or Alencon. The steeplechase went to Dawson, with only three horses facing the barrier and Bonfire declining the issue, Dawson fought it out with Rockstorm a fine jumper, winning by two lengths.

In the fourth, Fred's Missouri Lad, with a good ride from Nicol, got the money. Welbourne went to the front and stayed there to the stretch, when both Missouri Lad and Polly Prim Passed him.

The fifth race furnished the chief discussion of the race goers. Dog Rose won easily, but Nicol permitted his mount to look to the outside coming into the stretch. The race was given to C ve Adsum. The crowd made some objection to setting Dog Rose back.

Charley Thompson, neglected in the betting, won the last race in a hard drive from Azora. Dolinda was made the favorite and showed a fair evidence of speed, but never got within striking distance of the winner. Nellie Burn, back at the start, was closing fast at the end. Dave Nicol, the jockey, left Buffalo last night for New York, where he will ride Superman in the Suburban Handicap Thursday.

The summary:

First race, 4 furlongs—Tom Shaw, 6 to 1, won; Gun Cotton, 4 to 1, 2; Lexington Lady, 8 to 1, 3. Time, 49 4-5.

Second race, 5 1-2 furlongs—Alencon, 13 to 5, won; Trouveur, 10 to 1, 2; Punky, 6 to 1, 3. Time, 1.09 3-5.

Third race, steeplechase, 2 miles — Dawson, 11 to 5, won; Rock Storm, 7 to 5, 2; Bonfire, 2 to 1, 3. Time, 4.14 1-5.

Fourth race, 1 mile and 70 yards — Missouri Lad, 13 to 5, won; Polly Prim, 7 to 1, 2; Welbourne, 4 to 5, 3. Time, 1.49 1-5.

Fifth race, 1 mile—Cave Adsum, 2 to 1, won; Sam Bernard, 2 to 1, 2; Lyndhurst, 10 to 1, 3. Time, 1.48.

Sixth race, 1 mile and 40 yards — Charlie Thompson, 10 to 1, won; Azora, 12 to 1, 2; Nellie Burn, 8 to 1, 3. Time, 1.43.

THE RESULTS AT WINDSOR.

Windsor, Ont., June 20.—The big thing on yesterday's card at Windsor was the Royal Oak Farm stake for two-year-olds, at 4 1-2 furlongs. This was the $1,500 event, of which $1,200 went to the winner, $200 to second and $100 to third. There were eight entries for the stake, some of them being Dew of Dawn, a winner yesterday; Lady Baldur, Wasti, Aquiline and Anoura, the last being coupled in the betting. The Pasadena stable entry in Aquiline set a hot pace at the start, but Lady Baldur, a 5 to 1 shot, D. Boland up, had a lot of speed in reserve and at the stretch overtook and passed the favorite, winning handily. It was expected that Mr. Hendrie's Grand Dame would start in this event, but Trainer Walters thought it best to give her a good rest after her work at Latonia.

Next to the Royal Oak Farm stakes, the best race on yesterday's card was the third, a seven furlong event for three-year-olds and up, in which the good horse Peter Stirling made his first appearance at Windsor since New Orleans. Peter Stirling was an even money favorite in this race, and galloped home an easy winner, winning handily from Jacomo, winner of the frontier stake. Ballot Box and Avaunteer in 1.27 2-5. He thus qualified for the $10,000 Queen City handicap to be run on Saturday at Latonia, and he was shipped to that place.

The Valley Farm stables, filly Ayrwater, won the fifth race all the way. She was entered to be sold for $400, and was bid up by Frank Risk, owner of Bourbon News and other horses. She was retained at $750.

Jockey Boland rode three winners, Alta McDonald, entered in the sixth race was scratched by order of the judges. It was learned that R. L. Rogers, who was ruled off last year at New York for "doping" Garnish, is interested in the ownership of the horse,

CAPS WORKING HARD.

Will Be in Great Form for Saturday's Game.

Ottawa, Ont., June 19.—The Caps had their best practice of the season last night and on the form displayed they should score a victory on Saturday over the Nationals. For the first time this season the home showed how it could work and goals came with frequency until the men tired with their persistent endeavor. Bobby Pringle played his usual dashing game. There are more players available now than at any time this season and when the club will be strong in every department and in spare men.

M.A.A.A. Weekly Handicaps.

The second of the weekly M.A.A.A. handicaps will be held on the association grounds this evening at 6.30 p.m. sharp, when the following programme of four events will be run off: 220 yards, 1 mile, 120 hurdles, and throwing 56lb. weight. Preceding the annual spring handicaps of the M.A.A.A. by two days, this evening's races should prove a good practice for the M.A.A.A. athletes to tune up in preparation for the big meet.

JOCKEY HAD A NARROW ESCAPE

New York, June 20.—Jockey Koerner had a narrow escape from being killed in the last race at Gravesend yesterday. His mount, Incachee, was in second place near the finish, when Park Row, a 60 to 1 shot, in an endeavor to crowd through ran into him, causing him to fall. Koerner was thrown right into the path of the thirteen on-coming horses, and it seemed to the horrified spectators that he must be trampled upon. When picked up the boy was unconscious and bleeding from a badly lacerated scalp. But at the emergency hospital the doctos pronounced his injuries not serious. Park Row won by a nose from Wardine, Coat of Arms was placed second, and Remiss, the favorite, third.

Grapple equalled the track record for one mile and seventy yards when he won the Myrtle Stakes in 1.44. Summaries:

First race, selling, 5 1-2 furlongs — Hal, 12 to 1, won; Herbie, 20 to 1, second; Helen B., 8 to 1, third. Time, 1.07 3-5.

Second race, the Kensington steeplechase, about two miles—Delcanta, 8 to 1, won; Sheriff Williams, 8 to 1, second; Dick Shaw, 16 to 5, third. Time, 2.59.

Third race, about six furlongs—J. C. Core, 12 to 5 won; Jacobite, even, second; Voorhees, 7 to 2, third. Time, 1.09 3-5.

Fourth race, Myrtle Stakes, selling, mile and 70 yards—Grapple, 13 to 5, won; Hyperion II., 10 to 1, second; Rye, 9 to 5, third. Time, 1.44.

Fifth race, selling, mile and a sixteenth—Saylor, 3 to 1, won; Orphan Lad, 8 to 1, second; Ed. Ball, 7 to 2, third. Time, 1.47 3-5.

Sixth race, mile and a sixteenth — Wardine, 7 to 2, won; Coat of Arms, 15 to 1, second; Remiss, 7 to 2, third. Time, 1.49 3-5.

AT THE HAGUE.

The real work done at such a gathering as the Peace Conference is not such as gets immediately into the papers. The representatives of the powers do not enter loosely upon a general debate of the propositions laid before them, seeking like Parliamentarians to convince "the country" that they are right, and their opponents wrong; but they get into private touch with each other, and find out where their friends stand with a view to making the best possible appearance later, when the final decisions are reached in open Conference. It is safe to say that more is going on now in the quarters of the various legations at the Hague than in the Hall of the Knights.

Over this Peace Conference must always brood the Spirit of War. The powers will manoeuvre at it, precisely as they would at any other international congress called for the settlement of any great world question. We shall by no means always get the real opinion of a Government on the points at issue; for we will frequently be put off with what that Government thinks it expedient for it to say in view of its international friendships and suspicions. That is, allied powers will work together, even if they are not agreed on every detail; for they will realize that it is of more importance to maintain their harmonious union than to advocate, or even carry, any of the minor contentions up for discussion. There will always be the feeling that, even at a Peace Conference, they are taking their places for War.

At this stage in the world's development, Peace Conferences might well confine their attention to mitigating the horrors of the inevitable, and not waste their opportunities by beating with futile hands upon granite. For instance, the Russo-Japanese war and its aftermath showed that something ought to be done about the use of marine mines for port protection. They constitute a perfectly legitimate means of rendering the approach of war vessels to a hostile shore dangerous to the vessel. For this purpose, they may be anchored in the harbour mouth or at a fair distance from shore in the grounds over which the attacking battleships are likely to steam. But when they are let loose to float out to sea, they become a terrible menace to merchant ships of all flags and remain so for months and years after the close of the war. Vessels are being wrecked yet in Japanese waters by mines which were used for the defence of Port Arthur. The Conference might reasonably agree upon some regulation of the use of this arm of warfare. They might decide, for example, that mines must always be anchored and never set adrift, and that they must not be anchored farther than a certain fixed distance from shore.

Then there is the Drago doctrine. The debtor nations do not want the war machinery of the creditor nations employed to collect private debts. This is a matter to be discussed fully and every phase of its possible effects considered. It would certainly be convenient for the moment to the debtor nations; but would it not in the end make it harder for them to get needed capital, and would it not raise very considerably the price of the capital they did get? The creditor nations can only use their military and naval strength to collect debts—that is, they cannot create claims in that way. The money must be really owed before any action can be taken. And it is usually a last resort in the way of collection. So that in reality no great injustice is done. Yet there is much natural resentment at having what is practically an act of war committed against a weak nation simply because some of her citizens owe the citizens of another nation a little money. Obviously it is a matter for discussion, and one with which such a Conference as the present might deal.

The Conference should not chase rainbows but consider questions which lie within its power.

WAR VESSELS ON THE LAKES.

A practical peace measure is the petition of the Toronto Methodist Conference to the British Government

A BLOOD AND KIDNEY TONIC.

Make your own Blood Purifying Medicine by mixing one ounce each of Extract Dandelion, one ounce Compound Salatone, four ounces Compound Syrup Sarsaparilla. Shake well in a bottle. Many bottling firms charge one teaspoonful after each fat Government stamp at bedtime. Any building such druggist can supply the important ingredients.

This is said to be an excellent Blood Tonic and Liver Invigorator because of the fact that between two in restoring which are certain mal activity, two sides of the filter from the boundary. To-day matter is comparatively easy to keep the ill-healthy us. But there is coming Ever now when the millions to thing the boundary will constitute ginger quite as important as his is to the south; and then the of is to the south; and then the rantee of perpetual peace be- is will be an unfortified boun- d lakes without an armed cruis- n Duluth to Kingston.

possible for us on this Continent naugurate a new system of peace ntenance between nations. In the World, the system of an armed ce grew naturally out of a state of onstant war, and they have found it impossible to escape from its obligations. But here we may evolve from a state of perpetual and settled peace which will make it as natural for us to continue the conditions of peace as it has been for Europeans to continue the conditions of war. In Europe, it is felt that if one of the great powers were to reduce its defensive force, that act would constitute a practical invitation to its neighbors to encroach upon its rights and territories. That is, it would be a marked change in existing conditions; and, as existing conditions are the basis of peace, the change might precipitate war. Here existing conditions are an unfortified border and unprotected waters; and a marked and significant change would be made if we were to prepare for war by either building forts or launching war vessels.

So long as we have neither forts nor cruisers between us, each people will feel that war must be a great experiment. We will have nothing by which to measure its possible results. There will be no basis upon which we can calculate our probable success or failure. We will have to start from the ground to prepare ourselves for the combat, and we cannot tell, until the material is all ready, how we are going to stand in the "line up." Europe can predict with some precision how a war is likely to go barring the accidents of battle. We would be like two men fighting a duel with swords who had never taken fencing lessons. This very uncertainty would make for peace; for the interests at stake in such a war would be enormous. It is to be hoped that the greed of the ship-builders and the eagerness of the parish politicians for local votes, will not be permitted to wipe out this written safe-guard for the peace of the Continent.

IN PROTECTION OF THE LANDSCAPE.

The British House of Commons has struck out a new line in legislation by passing an act to prohibit the defacing of the natural beauties of the United Kingdom by glaring advertisements. The measure, which was passed almost unanimously, was described by one of its advocates as being intended "for the suppression of ugliness." It gives to all municipal councils the right to control poster display and all forms of outdoor advertising; and any advertising display may be prohibited if it "affects injuriously the amenities of a public park or public promenade, or disfigures the natural beauty of the landscape."

Canadian lovers of scenic beauty and grandeur, in which the Dominion is not less richly dowered than are the older countries with their historic associations and domesticated landscape, have long wished for some such machinery to prevent the disfigurement of river and mountain and wooded valley by hideous signboards. Utilitarianism seems to have run mad in outdoor advertising. Not the shore of the St. Lawrence, nor the banks of the Niagara gorge, nor the secluded wilds of Muskoka have escaped these staring boards. Should the British law-makers have discovered a protection against this vandalism, which is as regardless of all beauty as were the Goths and Huns, they will have conferred an enduring favor on all landscape-lovers and all who take pride in the natural beauties of their native lands.

The Ottawa Citizen says: "The Montreal authorities have decided not to prosecute the persons who shipped fifty thousand cans of rotten salmon to that city to be sold at auction. The reason given is that the shipment was not made in bad faith. That the faith was good seems to override the fact that the salmon was bad." The truth is that no one knows whether the shipment was made in good faith or not. We only know the names of the auctioneers who tried to sell the salmon, and the name of the Toronto shipper; but we do not know who canned—or re-canned—the fish, nor does anyone feel certain who it was that finally bore the loss when it was seized by the Health authorities, or who really paid for its destruction at the incinerator. All is clothed in mystery. The city attorneys will not advise the prosecution of the men within their reach; and so we have no means of applying pressure to these gentlemen and thus compelling them tell us who is behind them. It will be a standing disgrace to the city if it be finally decided that 50,000 cans of poisonous salmon can be shipped here to be auctioned off in a hurry, and that the condition of the fish be discovered and the auction stopped just in time; and yet that absolutely no action be taken against anybody. But we are terrors on small dealers. We haul a couple of local shop-keepers, found selling bad butter, up before the Police Court, fine them and soak them with heavy costs.

The Passing Hour

The crops are now working overtime to catch up.

An Indian scalps his enemy; a white man skins his friend.

Let it rain! What's the difference? In our excitement about wheat, corn and other trivialities, let us not forget that it takes a whole lot of irrigation for the watermelon crop.

You may eat much cloves or swallow sweet perfumes if you will.
But the scent of young spring onions will cling around you still.

Recent rains are making lots of lovely grass for the boys to keep off of.

Was He Glad To Go?

The Laramie (Wyo.) Boomerang says "a man who had lived in Cheyenne all his life died with a smile on his face."

"Now, Johnny," said the Sunday-School teacher, "can you tell me what happened to the giant, Goliath?"
"Yes, ma'am," answered Johnny. "David rocked him to sleep."

Chapter II.

Sunday School Teacher — "Augustus, what does it signify when they say a man is above reproach?"
Augustus—"It signifies he's dead."

HOW IT HAPPENED.

My Uncle Jim, he made a speech,
'Twas full of thoughts sublime,
Its mighty echoes ought to reach
The corridors of time,
And shake their vast foundations sure
With its reverberant notes,
And incidentally secure
My Uncle Jim some votes.

But when we stanch, determined men
Heard what he had to teach,
We found out also that the pen
Is mightier than the speech.
For, while we gazed with trusting pride
And craned our loyal necks,
The rated foeman, just outside,
Was busy writing checks.

Slot Machine Telephones.

To the Editor of the Montreal Star.

Sir,—Now, as the investigation of the Bell Telephone Company is in progress, it might not be out of place to mention my experience. I had occasion to call up a merchant and wanted to speak to him personally. The best I could get was his telephone number. I called for him on three different occasions within one hour without catching him in. The result was that it cost me fifteen cents for nothing.

I was in Pembroke about two weeks ago, and had occasion to telephone to Eganville. I asked to be connected with a merchant of that town personally. He was not at home. Therefore there was no charge.

Is There a Rebate?

To the Editor of the Montreal Star:

Sir,—Will the chairman of our Finance Committee, who takes such an interest in the welfare of the residents of the city, regarding cheap lighting, kindly let a resident of Colonial avenue know why the electric light on Colonial avenue, within one hundred feet of said chairman's residence, has not been lit for two weeks, and why the same light has not been lit regularly since it was installed two years since? This light has not been lit over eighty per cent. of the time. Will someone competent and who ought to know let the inquirer know how much of a rebate the city gets out of a light that is not in good lighting order?

LENEX.

Do We Know Our Flag?

To the Editor of the Montreal Star:

Sir,—We hear so much about the improper use of the flag these days that it seems to me there is something wrong somewhere and we do not need to look far for the trouble. Our public speakers keep telling us continually to teach the newcomers to honor the Union Jack and to let them know that it is our flag. How can the people of Canada be expected to teach what many of them do not know themselves? In the pictorial sheet of an illustrated Canadian paper last week was shown a group of a girls' organization, having in the background a large Union Jack, with the wrong end at the pole—actually upside down. Are the school children not taught how to use the flag? Again, let me say that I recently entered a popular stationery store on St. Catherine street and upon picking up a little souvenir called The Union Jack, was surprised to find it decidedly incorrect. What a laughing-stock we must be to tourists, and especially to Americans, to have such incorrect rubbish in our stores and to so disgracefully abuse our flag!

THIS DATE THIRTY YEARS AGO.

The late R. J. Reekie.

June 20th, 1877. Messrs. R. J. Reekie and Jas. Court are the visiting governors to the Protestant House of Industry and Refuge for the ensuing week.

BOTH the governors mentioned have long since departed from this sphere. They were prominent in business circles, the former in the construction of railways and other transport facilities, while the latter was an accountant and auditor of the finest attainments. The misery and sufferings of the poor never appealed to either in vain.

Rev. Dean Grassett, of Toronto, is, according to the last accounts, fast recovering from his recent illness, and is expected to resume his parochial duties at an early day.

THE late Dr. Grassett was for a long period the esteemed rector of the Anglican Cathedral, Toronto. He was an excellent preacher, and broad in his religious views. The parish over which he exercised so much goodly influence is the wealthiest in Ontario.

A London special despatch to the Star to-day states that the great event of the sporting week at Ascott has been the large meeting of the Four-in-hand Club at Hyde Park, under the leadership of the Duke of Beaufort. Twenty-one drags paraded, and over thirty thousand people witnessed the spectacle, which was really imposing. The beauty of the ladies on the drags brought forth complimentary comment from the well-dressed throng.

THE late Duke of Beaufort, Marquis and Earl of Worcester, was Master of the Horse under the Earl of Derby's second administration, 1858-9, and was re-appointed to same office in the third government of Earl Derby. He was a strong supporter of the turf, with a large stable of the finest animals in the kingdom. He was also devoted to salmon fishing, and made many visits to Montreal, and thence to St. Anne-des-Monts, where the late Mr. Henry Hogan tendered to him the privileges of his leased salmon rivers in that district.

One of our readers in commenting upon the correspondence in our columns anent the increasing number of bachelors in the Dominion, informs the powers that be that "the Romans were so anxious to encourage early marriage that they passed laws which punished unmarried persons by rendering them incapable of receiving any legacy or inheritance by will except from near relatives."

THE phenomenal wisdom and learning of the Roman Senators would appear to have burned into the brains of the statesmen of Bavaria, and a couple of other small German states, as the cables informed us a few months ago the intention was to pass rigid laws, with heavy penalties on all unmarried persons past 30 to 35 years. The British are slow to contract early marriage, but our French-Canadian fellow-citizens are the reverse, and hence their rapid increase in population in the Province of Quebec.

Twenty Years for Miller.

Port Arthur, Ont., June 20.—Judge Affglin sentenced Viate, the Finlander, who struck his namesake on the head with a club, inflicting injuries from which the man died, to two years in the Central Prison.

For shooting James Holmes, at Whitefish, with intent to kill, Miller was sentenced to twenty years in the Kingston Penitentiary.

ELECTIONEER IS SLIGHT FAVORITE

New York, June 20.—The horses entered for the Suburban Handicap to-day, with their weights and jockeys, were as follows: Electioneer, 104 (Mountain); Beacon Light, 100 (Garner); Montgomery, 104 (Sandy); Superman, 108 (Nicol); Cacingorm, 111 (Horner); Dandelion, 117 (Radtke); Cottontown, 117 (Williams); Running Water, 116 (Miller); Tokalon, 116 (Booker); Blandy, 114 (Preston); Nealon, 113 (W. Dugan); Faust, 90 (E. Dugan); Bedouin, 110 (Brussell); Veil, 94; Wexford, 106 (Shilling); Frank Gill, 104 (Notter); Flip Flap, 120 (J. Martin). Early books in the ring to-day made Electioneer a slight favorite in the betting over James R. Keene's entry, Superman, and Veil. Superman won the Brooklyn Handicap, and many horsemen to day looked for Superman to duplicate the performance of Kinley Mack in winning both Brooklyn and Suburban Handicaps in 1900. The race, however, according to the modern opinions expressed today, was expected to be an open contest.

Anniversary of St. John Fire.

Special to The Montreal Star.

St. John, N.B., June 20.—To-day is the thirtieth anniversary of the great St. John fire, which practically wiped out the business section of the city. The fire started at 3 in the afternoon at York Point slip, swept down to the water's edge and then spread throughout the city. Poor people who suffered during the fire are still given relief from the fund collected for the purpose.

Patients' Entertainment.

The patients and employes of Verdun Hospital last evening listened to an evening of songs, recitations and instrumental selections. Among those so furnishing the evening's entertainment were Dr. A. Frank Ibbotson, Messrs. Sykes and Colquhoun. The singing of Miss Audrey Bennett was the feature of the evening; the violin playing of Miss Joy Higgs and Mr. McLaughlin's recitations received encores.

A BLOOD AND KIDNEY TONIC.

Make your own Blood Medicine by mixing one ounce Fluid Extract Dandelion, one ounce Compound Salatone, four ounces Compound Syrup Sarsaparilla. Shake well in a bottle, and take one teaspoonful after meals and again at bedtime. Any good druggist can supply these ingredients.

This is said to be a splendid Blood Tonic and system renovator because of its gentle action in restoring the Kidneys to normal activity, forcing them to filter from the blood all impure matter and acids, restroying micro-organisms which produce ill-health and sour blood.

Everyone should take something to cleanse the blood from time to time, and the above simple prescription is the most highly endorsed of the hundreds of home remedies generally used. Mix this yourself, then you will know what you are taking. Advt.

GODDARD BOMB WAS PRODUCED IN COURT

Dramatic Scene During Examination of the Judge.

MINERS' MAGAZINE ARTICLES

Will Be Admitted as Evidence—Orchard's Story Confirmed In Several Important Details.

Special to the Montreall Star.

Boise, Idaho, June 20.—Further corroboration of the story of Harry Orchard was made yesterday at the trial of Wm. D. Haywood, and the case of the prosecution was clinched nearer home. In addition to the testimony of living witnesses, introduced by the State, Senator Borah sought to introduce a number of articles from the Miners' Magazine, the offical publication of the Western Federation, which, he argued, showed the hatred of that organization for the men Orchard testified had been murdered at the behest of the inner circle, or against whom attempts had been made.

There was lively argument over this offer, at the close of which the matter was taken under advisement by the court until the afternoon session, when it was announced that some articles would be admitted, others would be rejected.

The witnesses who gave testimony yesterday included Justice Luther M. Goddard, of the Supreme Court of Colorado, who in the carefully exact phraseology of a lawyer and jurist, told a dramatic story of finding the bomb which Orchard had buried at his gate.

John Sterns, the Denver agent of the Mutual Life Insurance Company, from whom Orchard obtained a contract to act as agent for that company, told how he came to make that contract with the murder machine, and submitted letters of recommendation, which had been written to him in Orchard's behalf by men whose names Orchard had given him for reference. These included Horace N. Hawkins, a law partner of E. O. F. Richardson, senior counsel for Moyer, Haywood and Pettibone in the present and pending trials, and Pettibone himself, as well as J. C. Sullivan, who was then president of the State Federation of Labor of Colorado. They were a strong bunch of recommendations and one hearing them could understand how Sterns would say, as Orchard said he did, that they could not have been better.

HAWKINS' MASTERLY EFFORT.

The reading of Hawkins' letter afforded a great deal of amusement to the audience, and especially to the lawyers, some of Richardson's colleagues in this case apparently having difficulty to restrain their laughter. Orchard had testified that he had only a slight acquaintance under the name of Orchard with Hawkins when he went to the lawyer and asked him for recommendation as Thomas Hogan.

The letter Hawkins wrote in response to an enquiry of Sterns was an excellent specmen of a general recommendation. It assured the life insurance agent that he had known Hogan for a considerable period of time, and added, "I esteem him in every way as a man of integrity. His habits are of the best," continued Hawkins enthusiastically. But a little caution, perhaps legal, introduced itself at that point, and he inserted "so fas as I have had oppotunity to observe them."

However, Hawkins, made up for that slight tempering of his indorsement by the generous addition: "In general, I know nothing whatever detrimental to his character."

Even Haywood smiled when the letter was read. Richardson glanced around at the newspaper men with a sickly grin on his face and Nugent and Darrow had trouble trying to hide their amusement. Ostensibly the dealer in general novelties was in a jocular mind when he wrote his recommendation. He affected to be greatly disturbed by the danger of losing one of his valuable and trusted agents and to believe that the desertion of him for the life insurance business on the part of Hogan was due to inducements offered by Sterns. Pettibone protested against having him thus lured away.

PETTIBONE'S LETTER.

"Yes, I know Hogan," wrote Pettibone, "and I am beginning to become acquainted with you." That was a drive at Sterns for getting others of Pettibone's agents to abandon general novelties and go into life insurance. Pettibone's letter throughout was one naturally giving Sterns the impression that Pettibone was really sory to lose Hogan's services. This letter probably explains the character of some of the questions Richardson asked Orchard on his cross-examination, when he wanted to know if Sterns had not been anxious to get him to go into the life insurance business.

ORCHARD'S LANDLADY CALLED

Before Judge Goddard was called to the stand, another San Francisco witness gave testimony, corroborating the story Orchard has told of his movements there while attempting to kill Frederick Bradley. This was Mrs. Howard, the woman in whose house Orchard roomed several weeks while waiting to poison or dynamite Bradley. She told of finding some lead and wood shavings on the floor about the centre of the room one day and of finding other wood shavings wraped up in a newspaper in a closet. These were shavings which Orchard had said he made while fixing up the bomb for Bradley. Mrs. Howard said she found them just before Orchard left her house, which was on the morning of explosion. She was sure, although she gave the date as November 17, and the explosion, as a matter of fact, ocurred the next day. She also told of finding a steel hook or screw eye fastened in the door of the closet, with a piece of fish line attached to it, and a cork at the other end of the line. She had occasion to lift Orchard's suit case, and it was very heavy. Orchard had said he had a bomb in it.

On cross-examination, Mrs. Howard told Richardson that she had come here to testify because she was urged to do so, and that she had had fifteen or sixteen calls from Pinkerton men on the subject. She had received thirty dollars for expenses and railway tickets with Pullman accommodation. Such things always seem particularly heinous to defense for some reason not yet explained.

Richardson also asked a few questions about the affidavit Mrs. Howard gave some time ago in San Francisco, when the Gas Company, which was sued by the owner of the Bradley residence, was undertaking to get a new trial on the strength of Orchard's confession. It is understood that she said she could not identify Barry, the man who roomed in the house, from the photograph of Orchard which was shown to her. She testified, yesterday, however, that she had seen Orchard in court, and that he was the same man who was in her house under the name of Barry.

Riley Harris, timer, of Greeley, Colorado, put another link in the chain regarding the bomb that was made for Governor Peabody. He was working for Roach, a plumber, in Denver, on the day Orchard ordered a lead case, and it was he who delivered it to Orchard that afternoon and collected $1.50 for it. He remembered the event particularly, because the curious thing stood in the shop several hours that day and everybody who came in asked about it.

JUDGE GODDARD'S STORY.

Then came one of the most dramatic recitals which has been given in the court room. It was the story told by Judge Goddard of finding the bomb. Judge Goddard described the digging up of the bomb by Bulkely Wills in his presence and taking it to the office of the Pinkerton agency in Denver, where different parts were placed in sealed envelopes and the names of the witness indorsed thereon.

Senator Borah, who was conducting the examination of Goddard, handled the witness one of the sealed envelopes. It contained a dozen giant caps and witness was asked to break the seal and identify contents. As the jurist opened the package, which originally was intended to destroy his life, his hand shook so violently that one of the caps fell on the floor. He jumped from the witness chair and nervously looked around on the floor for the missing cap. It was picked up by a court reporter under whose desk it had rolled and handed to the jurist.

Senator Borah then handed to the witness a package containing three sticks of dynamite taken from the wooden box planted at his gate. The unwinding of the paper, wrapped in which the dynamite was encased, was a job the jurist did not like. He was ready to identify the package without unwrapping it, but he unrolled it gently until one end was exposed, and hastily handed it back to Senator Borah with the remark that it was the same package he saw in Denver.

The next state exhibit which the witness was asked to identify was a small phial which contained sulphuric acid described by Orchard. He knew the phial was empty, so he broke the seal readily. In the same manner he examined the screw eye which was fastened to the bottom of the gate leading to his residence. Witness described minutely the manner in which the bomb was placed. It contained forty sticks of dynamite, the ends of three sticks being broken off to form a receptacle in which to hold giant caps. Then the phial of sulphuric acid was fastened to the side of the box in a slanting position, with the rubber cork directly over the giant caps. There was contrivance to pull out the cork and spill the sulphuric acid into the giant caps thus setting off the bomb.

Mr. Darrow's cross-examination of Judge Goddard was confined almost entirely to a discussion of political conditions in Colorado.

James Watt, inventor of the condensing steam-engine, was the son of a small merchant who failed in business.

BUSH FIRES RAGE IN NEW ONTARIO

Great Damage Done to Stores and Construction Work on Railway Imperilled.

Winnipeg, Man., June 20. — Reports from the district between Kenora and Fort William indicate that bush fires are still raging with unimpaired vigor and great damage has been done.

A contractor for building one section of the National Transcontinental from Winnipeg to Superior Junction, received word that a storehouse north of Vermillion has been destroyed, entailing a loss of $30,000 in supplies and equipment. This is only one of several similar storehouses damaged, and a number of others are in danger. The wind has held for several days in one direction, and fire has made rapid progress.

Mr. J. D. McArthur, of Winnipeg, states that during the past winter he hauled over $1,000,000 worth of supplies to storehouses now in danger. This included $400,000 worth of dynamite, the largest order ever placed by one contractor. Should the fire get to these stores, the result will be disastrous, as there are no summer trails through a large part of the country by which they could be replaced.

TWO FAMILIES BURNED OUT.

Fort William, Ont., June 20.—Forest fires continue to do immense damage in every part of the district, and the rain of yesterday had no effect. Two families were burned out in the Slate River Valley ten miles west of here. The Relief Society of the city is working hard to replace the losses.

Claims Damages Against Railways.

Ottawa, June 20.—A writ for $5,000 damages has been issued against the Canadian Pacific Railway by Mrs. Trehab, who, while walking across a bridge over the Rideau River, received some injuries by being run down by a train.

Wherever applied, its healing and nourishment is instantly absorbed by the pores. It strengthens and builds up the tissues underlying the skin and Firm, Healthy Flesh is the result.
DR. CHARLES FLESH FOOD is no new experiment. It has been in use for more than fifty years and during that time thousands of women and men have used it with entire satisfaction.
That it is not to be classed with "Cold Creams" and other things of like superficial potency is proved by the fact that it is prescribed by leading physicians and used in hospitals for the nutrition of invalids whose stomachs are too weak to digest food.
DR. CHARLES FLESH FOOD should be used by every woman who has the least desire to be attractive. It is the only preparation that will round out hollowed, thin cheeks or scrawny neck with Firm, Healthy Flesh and Remove Wrinkles from the face and hands, no matter how deep the furrow.
FOR DEVELOPING THE IMMATURE BUST or to make the breast firm, large and beautiful nothing can equal it. To prevent the breasts from shrinking, after weaning baby, mothers should always use DR. CHARLES FLESH FOOD. It will also restore a bosom to its natural contour and beauty lost through nursing and sickness.
SPECIAL OFFER. The regular price of DR. CHARLES FLESH FOOD is $1.00 a box, but to introduce it into thousands of new homes we have decided to sell it through W. H. Scroggie's, Montreal, for 45 cents a box. Mail orders are also filled at this price.
FREE A Sample Box—just enough to convince you of the great merit of DR. CHARLES FLESH FOOD—will be sent free for 10 cents, which pays for cost of mailing. With this sample we will also send you our illustrated Book, "Art of Massage," which contains all the proper movements for Massaging the face, neck and arms and full directions for developing the bust. SCHOOL SPORTS AT BROCKVILLE

Special to the Montreal Star.

Brockville, Ont., June 20. — Under perfect weather conditions the annual field sports of St. Alban's School were held on the lacrosse grounds with a large crowd present, including Mr. Holt, of Montreal and Mrs. Morphy, of Lachine. The officers of the day were: President, Rev. F. G. Orchard; judges, R. W. Travers, and L. O. Ogilvie; starter, Mr. Stephens.

The sports started at 2.30 and continued till five o'clock when they assumed a more social nature, refreshments being served by Mrs. Orchard and a staff of able assistants.

After the sports the prizes were presented by Mrs. H. S. Holt, of Montreal. The championship cup donated by Dr. Bowie went to C. Davidson, the cup for the junior championship, donated by Mrs. Ross was won by Morphy, while Mrs. Holt's cup for the senior hurdle race was captured by Anderson.

In a few words addressed to the visitors, parents of whom there were a good number present and students, Mr. Orchard expressed himself satisfied with the work done during the year and stated that he felt the day had been a suitable wind up to a good year's work.

Quebec Newspapers Fined.

Special to the Montreall Star.

Quebec, June 20.—Lar. Barthe, who published a small paper during the last municipal elections, called La Bataille, which was printed at the Chronicle office, was yesterday condemned in the Superior Court to pay a fine of $20 for failure to register the name of the paper, and also to pay a fine of $80, because the name of the publisher was not printed on the paper as required by law. The Chronicle which printed the paper for the proprietor was condemned to the same fines, because of the publisher's failure to comply with the law.

ARE HAVING GOOD TIME.

Little Hard Work Done at Locomotive Engineers' Convention.

Special to the Montreall Star.

Quebec, June 20.—The summer outing of the Brotherhood of Locomotive Engineers will close here this evening. There has not been much business transacted, the gathering being more particularly one of a social character, though there were a couple of short secret sittings on Tuesday. Yesterday was spent at Lake St. Joseph, where a most enjoyable day's sport was had, with a good programme of races, etc. Last night there was a grand illumination of Dufferin Terrace in their honor, and after the military performance in the Auditorium, the cruisers in the river were also illuminated and threw their searchlights over the scene. Today is being taken up with an excursion by rail to Ste. Anne de Beaupre and Montmorency in the morning and with a steamer trip up the river to the site of the bridge at Cap Rouge in the afternoon.

NEWFOUNDLAND FISHERIES.

Premier Bond Discusses Renewal of Modus Vivendi.

London, June 20.—Premier Bond, of Newfoundland, was interviewed yesterday with reference to the proposal made by the Foreign Secretary Sir Edward Grey, to United States Secretary of State Root for a settlement of the Newfoundland fisheries dispute. The Premier said that he must assume that such proposal had not formally been submitted to the Washington Government while negotiations still were being carried on with him. He declined to say whether similar proposals had been submitted to him, but declared that such proposal could only receive a positive and emphatic refusal from his Government.

"If the modus vivendi of 1906 was so objectionable that the Newfoundland Government declined to be a party to it, and refused to inforce it," he said, "how could I, on behalf of this Government, consent to its renewal, with an additional clause setting aside the International law by preventing the service of a process on board American vessels."

PLAYS NOT TRADE ARTICLES.

Theatrical Trust Indictments Against Klaw and Erlanger Dismissed.

New York, June 20.—The indictments found against Marc Klaw and Abraham E. Erlanger, charging them with endeavoring to maintain a monopoly so as to exclude Lee Shubert and David Belasco from booking plays in certain theatres, were dismissed by Judge Rosalsky yesterday.

The court found that plays are not articles of trade in common use, and that Klaw and Erlanger therefore did not restrain trade, as was alleged. The court also declared that Belasco and Shubert had not been prevented from carrying on their business.

AUSTRIAN NATIONAL PEACE.

Francis Joseph Desires the Great Language Question Settled.

Vienna, June 20. — Emperor Francis Joseph, at the opening of the new Reichrath, yesterday, urged a settlement of the language question. He said: "It is my earnest desire to give one day to my people, as a precious legacy, their national assets completely assured, and thus to guarantee national peace to all of them."

His Majesty said he favored encouraging the export trade of Austria by subsidies.

Succession Duties of Long Estate.

Toronto, Ont., June 20.—The executors of the J. J. Long estate have settled with the succession duties department in full for $21,000. The estate was a most complicated one, consisting largely of securities listed and unlisted, and real estate in Collingwood and Toronto. The estate was approved at $457,000, but a number of charitable bequests had to be deducted, and this left $402,000 available for succession duties.

Conference Was Triple Success.

Canadian Associated Press.

London, June 20.—Speaking at Perth, West Australia, Premier Deakin surveyed the Imperial Conference, and said it was a triple success in the work accomplished, but, greatest of all, when the members spoke straight to the people of the Mother Country, apart from and above all local politics, as citizens of the Empire

Sand Point Wreck Investigation.

Ottawa, June 20.—Investigation was opened to-day by Mr. Lalonde, inspector of accidents for the Board of Railway Commissioners, into the Canadian Pacific Railway wreck which occurred at Sand Point. All the train hands and the section crew at work when the derailment occurred have been summoned to give testimony.

PROSPECTS BRIGHT FOR BUMPER CROP

Sir Thomas Shaughnessy Takes Optimistic View of Situation in West.

Winnipeg, June 20. — Sir Thomas Shaughnessy was here for a few days conferring with Mr. William Whyte on the reduction of grades, the securing of more locomotives and rolling stock, and other matters in connection with the Canadian Pacific. He left yesterday afternoon for Minneapolis where he will meet the directors of the Soo line. He expects to be back in Montreal by Sunday.

In the course of an interview Sir Thomas said the present quietness in Winnipeg was only natural. It was just what occurred at times in all lines of commercial enterprise, and was not serious.

"Do you expect that your new Soo-Spokane line will take much of the traffic of the States to the Coast away from the other roads across the line?" he was asked.

He replied: "We expect that it will be a factor in transportation, but there will be so much traffic through the Western States that the other roads will hardly notice what we take."

"What will be the effect on the Canadian Pacific in the West, from the entrance of the Hill lines and the completion of the Grand Trunk Pacific?"

"We are still going to remain in business, and will endeavor to get some of the traffic. We're not going to give up."

The crop situation, Sir Thomas said, he had looked into quite carefully with Mr. Whyte, since he had been in Winnipeg. The prospect for the season he considered to be rosy. He was also satisfied there would be no great farm labor scarcity this year.

Speaking of the comparative cost of electricity and steam as motive power on the railways, Sir Thomas discussed at length the technical points which would be encountered in the change. "With the present volume of business," he said, "I think the cost of electricity on the mountain grades at present would be somewhat greater than steam. The condition, however, would be reversed with the great increase in traffic which will come. The generation of electric power by water will not be a very big item, and I think we will have plenty of water power where we will require it. The introduction of electrical power will not do away with the necessity of tunnelling in some of the grades in the mountains. We have already let contracts for some of the work. Of course, many of the grades will also be cut down each year."

100 Drowned In Lithos Inundation.

Yesterday afternoon, at the MacVicar Memorial Church, Montreal Annex, the marriage was solemnized of Miss Ada J. Graham, daughter of Rev. D. J. Graham, to Mr. John Perry, of Montreal. Mr. Graham gave his daughter away, and also conducted the service, assisted by Rev. John Mackay. The bride wore a gown of ivory colienne silk and lace, and wore the gift of the bridegroom, a pearl and sapphire brooch pendant and chain. Her tulle veil was arranged over a wreath of orange blossoms, and she carried bridal roses and lilies of the valley. Miss L. D. Stewart, B.A., of Waba, Ont., who was bridesmaid, wore flowered silk mull over taffeta, with a pale blue satin straw hat trimmed with white lilac, and carried pink carnations. The bride's sister, Miss Ruth Graham, who was the little flower girl, was in pale pink silk and point d'esprit, and carried sweet peas. The bridegroom's gift to the bridesmaid was a pearl brooch, to the flower girl a bracelet, and to Mrs. W. J. Gunn, of Lancaster, Ont., who played the wedding marches, a peal brooch. To Mr. George A. Robinson, the groomsman, and Messrs. A. Russell Graham and Hugh H. Scott, the ushers, the groom gave pearl pins. The church was decorated with white lilac, honeysuckle and palms, and the residence of the Rev. Mr. and Mrs. Graham, 10 St. Viateur street, where a reception was held after the ceremony, was adorned with white lilac and smilax. Among the many handsome presents received was a case of silver and cutlery from the officers of the MacVicar Memorial Church. Mr. and Mrs. Perry will spend their honeymoon in Toronto and other western points. The bride travelled in a navy blue Panama suit and biscuit-colored chip hat, trimmed with Wedgewood blue wings and scarf. The out-of town guests included Miss H. Kenney, Hemmingford; Miss Board, Brockville; Miss Macdonald, Williamstown; Dr. W. J. and Mrs. Gunn, Lancaster; Miss L. D. Stewart, B.A., Baba, Ont.

The marriage took place this morning in the Chapel of the Sacred Heart of the Notre Dame Church, of Miss Minette Leclaire, daughter of Mr. Alphonse Leclaire, University street, to Mr. Philippe A. A fashionable wedding took place last Saturday afternoon, at the residence of Mr. and Mrs. Horace B. Chamberlain, Buffalo, N.Y., when their youngest daughter, Miss Ruth Chamberlain, was married to Mr. Basil Major, of New York, formerly of Montreal. The rooms throughout the house were decorated with a profusion of cut flowers. In the drawing room, where the ceremony was peformed, white roses and smilax were effectively used in the decorations. Rev. Mr. Hurlburt officiated. The bride, who was given away by her father, wore a beautiful white Marquise lace robe with an empire back and falling over a drop skirt of white satin; her veil was caught with lilies of the valley, and she carried a shower bouquet of white orchids and lilies of the valley. Miss Helen Chamberlain, who was her sister's only attendant, wore a gown of white crepe de chine embroidered in white and gold; a picture hat with white plumes, and carried yellow roses. Mrs. Chamberlain, mother of the bride, was gowned in white chiffon cloth. Mrs. John Major, mother of the bridegroom, wore a black silk and lace gown. Mr. Robert Major, of Montreal, brother of the bridegroom, was best man. The presents, which were numerous and handsome, included a beautiful likeness of the Princess of Roumania, presented by Her Highness to the bride, also a miniature of the Queen of Roumania. Among the out-of-town guests were Dr. and Mrs. Morphy, of Lachine; Mr. and Mrs. Cogeshall, of Long Island, N.Y.; Miss Major, Mr. Robert Major and Mrs. John Major, of Montreal. Mr. and Mrs. Major have left on an extended honeymoon trip, and will not take up their residence in New York until the fall.

The marriage took place quietly yesterday morning, in the Chapel of St. James the Apostle Church, Rev. Canon Ellegood officiating, of Miss Clara Louise Chadwick, daughter of Mr. and Mrs. S. Chadwick, St. Mark street, to Mr. Charles Oliver Smith, of London, Ont. The bride wore a cream Panama cloth costume, cream hat trimmed with plumes and tulle, and carried white roses. Her only attendant was her sister, Miss Florence Chadwick, who wore a white silk gown with white hat and carried pink roses. Mr. Chadwick gave his daughter away, and Mr. J. Bernie Smith, brother of the bridegroom, acted as best man. Mr. and Mrs. J. H. Smith, father and mother of the bridegroom, and Miss Freda Smith, were also present. Mr. and Mrs. Smith left at noon for the Maritime Provinces, after which they will reside in Toronto.

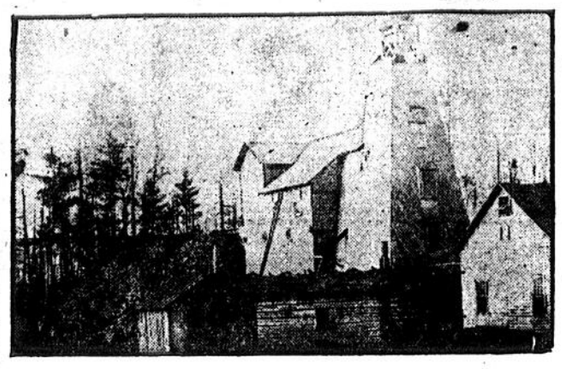
FOSTER DIRECTORS WARN PUBLIC, GOOD STRIKE ON O'BRIEN MINE



ON THE O'BRIEN MINE.

A special from Cobalt says: "The O'Brien Mine made two good strikes on the surface yesterday. One was three inches and very rich. The other vein was two to three feet wide. Both assayed a thousand ounces or better. The men returning from Temigami report that the forest fires have been fierce, but there has been no loss of life. Many camps and supplies and canoes were burned. Prospectors are rushing back with outfits."

The directors of the Foster-Cobalt Mining Company, Limited, have issued a warning to the public against highly colored reports regarding the condition of the Foster Mine whether such reports are favorable or the reverse. The Foster mine is doing good work they say along the lines adopted by the present board, namely, progressive and conservative, and the shareholders may rely upon being advised of the condition of the mine from time to time together with all information regarding the financial condition of the company.

Cobalt, Ont., June 20 (Special).—The Nova Scotia Management has cut a vein eighty feet south of shaft. The vein is six feet wide, made up of brecciated rock with calcite filling in the whole width, assaying two hundred ounces silver.

Mr. A. W. Campbell, Ontario Deputy Minister of Public Works, has returned from Larder Lake, and announces that the construction of a waggon road from Boston Station to Larder, a distance of twenty miles, will be undertaken next week. Mr. Campbell believes that nearly 4,000 people are in the district. Many of the mines have machinery installed and are doing development work, with apparently good results. The present method of packing in supplies by trail or canoe costs $100 per ton. The weather in the Larder Lake district is warm. The vegetation is as far advanced almost as that in Old Ontario.

Mr. W. A. Hunter, of J. H. Jewell & Co., Toronto, who returned from Cobalt yesterday, reports the discovery of a third vein of calcite on the Erie-Cobalt Mine in the cross-cut from the 100-foot level. The vein is six inches wide and carries good silver values. The buildings on the Erie are now second to none in the camp, and the company is erecting a large house for the men. On No. 1 property 30 hands are employed, and on No. 2 property 18 men are working. According to Mr. Hunter all the mines at Cobalt appear to be excellent.

Reports from the Cobalt Lake property say that No. 4 shaft is now down 74 feet, that is, 65 feet below the level of the lake, and is being sunk at the rate of about one foot a day. No water of any account is filtering through its walls from the lake. No. 5 shaft has reached the 70 foot level, and the vein is still holding its width, with the silver evenly disseminated through the ore instead of appearing in bunches. A stout collar with a rick filling has been placed on No. 6 shaft. The compressor is being placed in position, and the main air line laid two-thirds of the way down the shaft. The power plant is now being worked to its full limit. When the compressor is ready, eight machines will be put at work in addition to the two drills now in operation. The compressor has a capacity of 15 machine drills. A 7x12 hoist will be put in No. 4 shaft.

Mr. Edwin E. Virgo, of Parry Sound, is in Toronto with some samples of mineralized ore from his properties near Parry Sound, where he owns about 1,000 acres of nickel, copper and iron-bearing lands. Mr. Virgo has secured 200 acres near the McGowan property. He is endeavoring to secure some financiers to co-operate with him in developing his possessions.

It is reported from Cobalt that arrangements have been made whereby the American Smelting & Refining Company will buy the La Rose ore. It is said 10,000 tons of La Rose ore have been so contracted to be supplied to the smelter as soon as possible.

The Conlagas mine has declared the regular dividend of 2 per cent., payable July 1 to holders of record June 25. Books close June 25 to July 1. The Conlagas paid 2 per cent. on May 1, a bonus of 1 per cent. on June 1, and now declares 2 per cent. payable July 1. These rates and bonuses if maintained will make 18 per cent. a year. Conlagas is still the leader of the shipping mines. Last week five cars of No. 1 ore were shipped from the property, and from the record so far this month it is almost a certainty that the end of June will see this mine a long way in the lead. When the Concentrator is completed it is expected that her shipments will be increased by fifty per cent.

Through a fire which broke out in the woods, the camp of the Green-Meehan mine narrowly escaped being burned on Monday. The flames came within a few yards of the office, and, as a quantity of powder was in storage, for a time it looked as if all the buildings would go up in flames. With the assistance of the men from the Red Rock and Cobalt Contact mines, however, the blaze was got under control. The supplies and powder were subsequently removed to a safe distance.

A Cobalt special reports a rich discovery on the new vein of the Cochrane Cobalt Co. This vein was located last fall and had a surface width of five inches, apparently of barren calcite. A couple of shots were put in the day before yesterday, and as a result the vein proved to be rich in native silver. This silver is shot through the calcite and through the adjacent wall rock. The Cochrane lot adjoins the Temiskaming. The new buildings at the Calverley-Wettlaufer have been completed, and a shaft is being sunk on one of the main veins. The owners, principally Buffalo and Toronto men, have refused two offers this summer for the property.

Catholic Sailors' Club.

The concert last evening at the Catholic Sailors' Club was very successful, being under the direction of Mrs. D. Boud. The hall was well filled with sailors and citizens. Mr. Robert Bickerdike, M.P., occupied the chair. The following took part in the programme: The Misses Pearl Riley, Bella Rowan, Flossie Lynch, Cecelia Halligan, Hazel Coleman, Laura McCaffery, Edith Masters, Mary Durkin, Alice Wilkinson, Messrs. M. Hodgson, Tom Ireland, W. Costigan, P. Granville, J. Ouellette, Charles Mallon, Dan Powell, steamship Lake Manitoba; W. Wood, steamship Cassandra. Miss Agnes Lynch acted as accompanist. Next week's concert will be under the auspices of Dominion Council, No. 645, Knights of Columbus.

A Long Trip.

Detroit, Mich., June 29.—The medium-sized wooden steamer Tecumseh, which passed Detroit yesterday, is perhaps on the longest trip ever undertaken by a lake freighter. She left Cleveland towing the barge Rhodes. They will discharge their coal cargo at Owen Sound. The Tecumseh will then go to Fort William for part of her cargo of timber, from there to West Superior, then to Manitowac and Bay City, thence to a Georgian Bay port to finish her cargo. From thence she will sail to Montreal, where her cargo of quartered timber will be discharged for shipment abroad. The timber is of a special grade, and only a small quantity can be obtained at each port. Her trip covers 3182 miles.

Seized by Customs Officials.

Sydney, N. S., June 20.—The steamer Ran, which arrived here in ballast from Montreal on Tuesday, has been seized by customs officials and released on bail of $400. The Ran, it is said, was carrying goods not listed on her entrance papers.

The Victorian Goes To-morrow.

The turbine steamer Victorian sails for Liverpool at 9 o'clock to-morrow morning with every saloon berth and a large number in second class filled. She will call at North Sydney for the mails.

The Deutschland Off Sable Island.

Halifax, N.S., June 20.—At 2.30 p.m. yesterday the Deutschland signalled by special Marconigram to the Montreal Star 230 miles south-east of Sable Island, bound for New York.

Wants Standing Militia of 200,000.

Niagara-on-the-Lake, Ont., June 29.—Sir Frederick Borden, Minister of Militia, and Major-General Lake were the guests of honor at the dinner given by the officers in camp last night. The Minister derived satisfaction from the fact that the expenses of the headquarters staff had increased only from $40,000 to $100,000 per annum, while the cost of the militia in general had increased in eleven years from $1,500,000 to $6,000,000 per annum. Sir Frederick desired that the standing militia might be increased from the present strength of 40,000 to 200,000.

Intelligence Office With No License.

Toronto, June 20.—At the Police Court Edmund Campbell was charged with keeping an intelligence office without a license. The defendant represented the British Colonial Employers' Association, and opened an office in Toronto. It was his intention to bring domestics from England, and he charged $2 for each one he supplied. Chief Inspector Archibald discovered that the man had no license, so brought him up in the Police Court. Col. Denison gave a remand and told the defendant to take out a license.

Surer and Better than Cobalt Mining Stock.

4,200 ACRES (only 60 miles from the City of Winnipeg), to be sold en bloc, at the ridiculously low price of ($6.00) SIX DOLLARS PER ACRE. The C.N.Ry. Co. are at present building a line which will bring this land to within from one to six miles of the railway. The value can be doubled by selling it to settlers in farm lots, hence, realized at once, and the money doubled within one year. The land is about two-thirds open prairie, the balance consisting of oak and poplar bluffs. The soil is of an excellent nature, well adapted for mixed farming. There is no better investment anywhere. Terms half cash, balance at 6 per cent. Easy Terms.

We have also a block of farming land of 32,000 acres, to be sold en bloc or sections.

THE TRUTH ABOUT MINING.

Do you invest in mining? Have you ever invested in mining? Do you ever expect to invest in mining?

Did you ever make money from speculating? Would you like to make money from investing?

Have you money deposited in a bank drawing but three or four per cent. interest? Have you funds invested in mortgages or real estate that are not earning a large rate of interest?

These questions all bear upon your present and future welfare, and your name should be upon the mailing list of "Spear's Mine Development." This paper tells the truth about legitimate mining, and instructs you how mining should be conducted. It will tell you all about the great mining interests in Northern Ontario. It will keep you posted upon the Larder Lake District, where rich gold discoveries are being made.

It will cost you nothing to receive "Spear's Mine Development," except the cost of a postage stamp or postal card in writing us to let us know that you want "Spear's Mine Development."

"Spear's Mine Development" will be sent to you absolutely free of cost. It is the only mining paper of its kind published in Canada. There has never been one published in Canada like it.

It is a real newspaper, up-to-date, truthful and instruuctive.

It contains information about the Larder Lake, Montreal River, Round Lake, Lake Abitibi, Cobalt and all Northern Ontario mining districts.

"Spear's Mine Development" describes and illustrates legitimate, profitable investments in mining. Every person interested in mining, or who would like to know about mining, should have this paper.

"Spear's Mine Development" will make millions of dollars for investors, through safe and profitable investments in mining.

This is why it is read by thousands of people all over the country—because investors desire to know about legitimate mining propositions.

If you are at all interested in mining, or if you would like to know anything about mining, and the development of mining properties, you cannot well afford to be without "Spear's Mine Development." It will be sent free, postpaid, to all who write for it. Just ask for "Spear's Mine Development" by dropping a postal card or a letter to P. V. FRASER & COMPANY, Financial Agents, 23 Toronto Street, Toronto, Ontario. 145 2

Shot Bridesmaid by Accident.

The Dungiven (County Derry) Magistrates recently refused information in a charge against a young man named McCloskey, of shooting at and wounding a girl named Gilderson on the occasion of a local wedding, holding that the affair was accidental. According to the custom of the district, McCloskey fired a gun as a friendly salute, while the wedding party was driving past his house, and some of the shot struck a young woman, who was a bridesmaid.

BANK PUT PERIOD IN WRONG PLACE.

The Court of Appeal yesterday reversed the judgment given in the case of Nadeau vs. the Bank of Toronto. Suit was entered for $247.50 claimed by the plaintiff because the bank made a mistake in cashing a cheque for $250 by giving the plaintiff credit for only $2.50. The drawer of the cheque failed before the bank gave plaintiff notice of the mistake and the plaintiff was, therefore, unable to collect the difference. Judgment was originally given in favor of the plaintiff, but the Court of Appeal yesterday unanimously reversed the decision.

BISHOP'S COLLEGE SCHOOL TERM ENDS

Prizes Were Distributed by the Mayor of Sherbrooke.

SATISFACTORY REPORTS READ

Principal Gibbins, of Bishop's University, Resigns—Berthier Grammar School Closes.

Lennoxville, June 20.—The three days' ceremonies in connection with the closing exercises of Bishop's College School, Lennoxville, were concluded yesterday afternoon with the annual distribution of prizes in the Bishop Williams Hall. Preceding the distribution of prizes a special service was held in the chapel, when the Right Rev. the Coadjutor Bishop of New Hampshire, Dr. Parker, preached the annual sermon.

The ceremonies opened on Monday with afternoon and evening performances, in the open air, of Shakespeare's "Midsummer Night's Dream." On Tues-

Rev. Dr. Gibbins, who has resigned the principalship of Bishop's University.

day the annual athletic sports took place before a large gathering. In the evening the school entertained their friends at a ball. Among those present at the various festivities were, from Montreal Lady Allan, Mrs. Alex. Paterson, Mrs. Whitehead and Dr. H. B. Yates; from Quebec: Mrs. W. Price, Mrs. Smith, Mrs. Powell, Mr. and Mrs. Rhodes, Mr. Harcourt Smith; from Sherbrooke Mrs. Worthington, Mrs. Irwin.

The headmaster, Rev. E. J. Bidwell, in his report, said that during the year upwards of 140 boys had passed through the school. As far as he could discover, this was the highest number there had been for many years, and there seemed to be no reason why they should stop there. The only cause that he could see was likely to bar further increase was lack of accommodation. The standard in work was steadily rising, and all their candidates for the universities passed in successfully last year.

Gratifying reports as to the progress, and welfare of the school were read from the examiners, Prof. Russell E. MacNaghten, M.A., assistant professor in classics at McGill University, and Dr. C. E. Fryer, at the same university.

PRIZES DISTRIBUTED.

The Mayor of Sherbrooke Mr. W. Farwell, briefly addressed the boys. He congratulated them on their achievements, and spoke of the great service the institution was doing for Canada. He then distributed the prizes as follows:

Governor-General's medal, A. Evans; Lieutenant-Governor's medal, A. Evans; the Pattee Shield, A. Evans; the G. R. White prize, D. S. Fisher; Old Boys' prize, A. Evans; the Irving prize, G. W. Norkill, the Chancellor's prizes for classics II., A. Evans and C. P. Gwyn, equal; classics III., K. Stuart; classics III., C. Black; the Principal's prize for Divinity, D. S. Fisher; special prize for Greek; J. R. C. Murray.

The Headmaster's prize, H. Boswell, D. Green and F. E. Morkill, equal; prize for greatest service in the school, H. B. Boswell; Mrs. Ready's prize for elocution, R. F. Black, J. A. Ready; prize for reading, J. L. McLennan; the Chairman's prize, F. E. Morkill, C. C. Kay; prize for drawing, G. Savage; Divinity prizes (1), K. Stuart; (2), M. P. Fisher; (3), E. G. Greenwood; French prizes, Department of Education prize, A. Evans; form VI. (2nd prize), A. de Boutillier; form V., J. R. C. Murray; form IV., C. C. Phillips; form III., H. E. Honey.

PRINCIPAL GIBBINS RESIGNS.

Sherbrooke, Que., June 20.—At a meeting of the Corporation of Bishop's University yesterday afternoon, Principal H. De B. Gibbins tendered his resignation on the ground of ill-health. The resignation was accepted.

The question of a successor was then discussed, and it was agreed that the position be given to a Canadian. The names of Dr. Parrock, of the university, and the Rev. G. A. Smith, are prominently mentioned.

BERTHIER GRAMMAR SCHOOL.

Berthier-en-Haut, Que., June 20.—The closing exercises of the grammar school were held in the school gymnasium. The headmaster, Rev. W. R. Hibbard, in presenting the annual report of the school, remarked on the excellent standard of work that had been maintained throughout the year.

The prize list is as follows:—General proficiency, upper school, Orkin; general proficiency, lower school, Gow; Latin, Orkin; French, Walker; mathematics, Orkin; Scripture, Youngbleet; industry and courtesy, Mooney.

The Caledonia is Open.

The Caledonia, the C. P. R. hotel at Caledonia Springs has opened for the season, and from the present outlook will do a larger business than ever. Fifty-two guests registered at the hotel on the opening day, the largest number of any year since the hotel was opened.

Mr. Hayter Reed, superintendent of hotels for the C. P. R. went to Quebec yesterday to take temporary charge of the Chateau Frontenac, in place of the manager, Mr. J. A. Phillips, who is seriously ill.

The Merchants' Bank of Canada

The forty-third annual meeting of the Shareholders of the Merchants' Bank of Canada was held in the Board Room of that institution yesterday, at noon, when there were present:—Sir H. Montagu Allan, Messrs. Jonathan Hodgson, Thomas Long, C. R. Hosmer, C. F. Smith, Hugh A. Allan, Alex. Barnet (Renfrew), John Patterson, Michael Burke, George Hague, E. F. Hebden, M. S. Foley, C. R. Black, John Beattie, George Smith, and M. T. Burke.

The proceedings were opened by Sir H. Montagu Allan, president, taking the chair, and requesting Mr. C. N. Read, secretary of the Bank, to act as secretary of the meeting.

THE ANNUAL REPORT.

The President then submitted the following report of the Directors:—

The Directors beg to present to the Shareholders the annual statement of the affairs of the Bank as at 31st May last.

The net profits are larger than last year, due to favorable trade conditions continuing to prevail, which have had a tendency to further stimulate business activity, bringing about more or less money pressure, with the usual corollary—somewhat higher money rates. Your Directors have this year been enabled to bring the Reserve Fund of the Bank up to the round sum of $4,000,000, in addition to writing $100,000 off Bank Premises Account, as well as contributing $22,000 to the Officers' Pension Fund.

It will be noted that the Paid up Capital and Reserve Fund of the Bank have now reached the important figure of $10,000,000.

The various branches of the Bank have been duly inspected during the past twelve months.

It is with sincere regret that we have to record the death a few days since of our esteemed colleague, Mr. James P. Dawes, whose counsels and advice at the Board were, during the lengthy period of twenty-one years, as highly valued as he himself was personally esteemed by his co-directors. Mr. Dawes has been associated with the Board of the Merchants' Bank of Canada ever since June, 1886, and in his death we lose a valued adviser and friend.

All of which is respectfully submitted.

H. MONTAGU ALLAN,
President.

The statement of the result of the business of the Bank for the year shows:

E. F. HEBDEN,
General Manager.

THE DISCUSSION.

The President congratulated the Shareholders and Management of the Bank on the very satisfactory showing made during the year. "I think," said he, "it is the best statement the Bank has ever shown." He then moved, seconded by Mr. Jonathan Hodgson:—

"That the report of the Directors as submitted be, and the same is, hereby adopted and ordered to be printed for distribution among the Shareholders."

He intimated that, before putting the motion, he would be pleased to answer any questions that any of those present might desire to ask.

Mr. C. R. Black enquired respecting bank premises and furniture, and the President suitably replied.

The motion for the adoption of the report was then carried unanimously.

The General Manager, Mr. E. F. Hebden, said he was very glad that so satisfactory a report could be presented, and went on to remark that conditions had been unusual during the past year, favoring average higher rates, not only in Canada, but in the country to the south. These might not prevail another year, and he asked the Shareholders not necessarily to expect a repetition of the present, but to be prepared, if necessary, to accept something a little less favorable.

The President.—There is a resolution to come before the meeting, asking the Shareholders to agree to changing the date of the annual meeting from June to December. Nearly all the banks nowadays are ending the year on 30th November, or 31st December, and are holding their meetings in December, or January, which is a good deal more convenient, because many people want to get out of town in June, and particularly so if they are going across the Atlantic, as this month is the best time. If the proposed change in the by-law is approved, the directors elected at this meeting will only hold office until the annual general meeting in December next, and after that the annual meetings will be held on the third Wednesday in December, instead of the third Wednesday in June, as at present.

It was then moved by Mr. C. R. Hosmer, seconded by Mr. Hugh A. Allan:—

"That it be resolved that By-law No. 1 be, and the same is, hereby amended by striking out the word 'June' in said by-law and substituting therefor the word 'December.'"

The resolution was unanimously concurred in.

Messrs. C. R. Black and John Patterson having been appointed scrutineers a ballot was taken.

Mr. Thomas Long spoke of the pleasure they all felt at seeing their esteemed friend, Mr. George Hague, the late general manager of the Bank, present at the meeting, and seeing him hale and hearty.

Mr. Hague expressed his thanks, and complimented the directors and management on the excellent standing attained by the Bank.

The President remarked that much of the success of a bank was due to its officers, the men who had the executive part of the work in hand. The Directors might advise them, but they had to carry out the work.

A vote of thanks was tendered the President for his conduct of the business of the meeting.

The scrutineers then reported that the following gentlemen had been elected as directors:

Sir H. Montagu Allan.
Mr. Jonathan Hodgson.
Mr. Thomas Long.
Mr. C. R. Hosmer.
Mr. C. F. Smith.
Mr. Hugh A. Allan.
Mr. C. M. Hays.
Mr. Alex. Barnet.
Mr. Bryce J. Allan.

The new Board of Directors met immediately afterwards, and Sir H. Montagu Allan was re-elected president, and Mr. Jonathan Hodgson, vice-president.

Accused of Stealing Brass.

A. Patrie and H. Lapierre, employes of the Canadian Bronze Company, Delorimier avenue, appeared before Judge Piche this morning and pleaded guilty to the theft of a large quantity of brass, which was sold to junk dealers Taipes and Feigil, who were arrested for receiving stolen property, and who have elected to be tried by jury. The Thiel Detective Service Company had one of their operatives in the employ of the Canadian Bronze Company for some time as a laborer, and he appeared as a witness against the thieves and junk dealers.

"THE WOMAN'S CORNER"

WOMEN THE WORLD OVER

In Memory of George Eliot.

In memory of George Eliot there has been erected at South Farm, Arbury, near Nuneaton, her birthplace, a simple monument in the form of a pillar about nine feet in height. The front bears the words: "George Eliot, 1819-1880," and on the reverse side is the quotation, "Lest we forget." The other sides bear the inscriptions: (1) "Mary Ann Evans, born South Farm, Arbury, 22nd November 1819," and (2) "Died, the wife of John Walter Cross, at 4, Cheyne-walk, Chelsea 22nd December, 1880." When she was six months old, "George Eliot" was taken by her parents to a picturesque homestead at Griff, on the main Coventry-Nuneaton turnpike. Here, during her holidays from school, she was the constant companion of her brother, Isaac the "Tom Tulliver" of "The Mill on the Floss." She played and fished with him for as a child she had all the tastes of a boy. In her poem, "Brother and Sister," she speaks of these happy times.

Lace Sale in London.

One of the most interesting features of the past week or so has been the sale of Buckinghamshire lace at Surrey House, Marble Arch, which was opened by Her Royal Highness Princess Louise, Duchess of Argyll. Such shows are excellent for working up interest in those home industries which might otherwise decline, and at Surrey House were to be seen some of the finest specimens of valuable lace from private collections. The Princess of Wales and the Duchess of Connaught lent beautiful examples, and so did Lady Mary Trefusis, Mrs. Leopold Rothschild and many others. There was a portion of the late Duchess of Teck's wedding dress; two flounces which belonged to Queen Adelaide; an Empire gown ordered by Napoleon for the Empress Marie Louise, and another for the Empress Josephine.

Lady Ruby Elliot.

Lady Ruby Elliot, the lovely young second daughter of the Earl and Countess of Minto, who has come with her mother from India for part, at least, of the season, is making the most of her time just now. She is greatly admired in social circles, not alone for her beauty, but for her charming manner. Her gay little laugh is the prettiest thing imaginable. Girls so seldom laugh unaffectedly nowadays.

The Domestic Service Problem in England.

The servant-girl question has reached a very remarkable stage in England, where things pertaining to the "classes" are supposed to be much more settled than here. The present trouble in England appears to be that even in that country of a supposedly cast-iron system the principles of democracy are creeping in and the servants are restive under the name and relationships of servants. The working classes are willing to work, they say, but they do not wish to be considered servants. It is the social status of both mistress and maid as regards one another that is being upset. In "The Woman at Home," Miss Fanny Goldsmith argues that it is an economic blunder to allow the women workers in homes to go so largely without technical training. "If service is ever," she says, "to be in practice what it already is in its possibilities and requirements — a skilled occupation for working women of a good class — the training for its duties must become an organized branch of education concurrent for some years with life in service and subject to a measure of expert supervision and control."

Sargent Portraits in London.

Everyone is talking of the Sargent masterpiece at the Academy, and crowds stand daily before his marvellous portrait of Lady Sassoon. This is essentially a restful scheme of coloring, with the cool blacks of the elaborate cloak and black hat with its sweeping sable plume posed against the warm black of the background. Out of this mass of black appears the face, relieved only by a strip of pink which lines the cloak. Painted with the artist's consummate skill, the face seems alive and the eyes almost speak.

Another beautiful Sargent portrait is the Countess of Essex, formerly Miss Adele Grant, of New York. It is painted in the style of the French portrait painters of the early eighteenth century, and is a masterful piece of work.

The Versatile May Irwin.

May Irwin surprised her host of admirers by marrying her manager, Kurt Eisfelt, who is about thirty years old. The wedding took place at Miss Irwin's St. Lawrence River Island home. In private life the popular comedienne was the widow of Frederick W. Keller and she is the mother of two grown sons. In 1870, at Whitby, Ontario, Miss Irwin being then about eight years old, made her first public appearance in the village choir. She has been under the management of Mr. Eisfelt for about two years.

Design by May Manton.

5669 Girl's Jumper Dress With Guimpe.

FRENCH LINEN WITH EMBROIDERY.

There are a great many varieties of linen shown this season, each of which serves some purpose admirably well, but the French linen is especially soft in finish, and makes such little frocks as this one with exceptional success. In this instance the color is pale blue, while the embroidery is executed in white, and the dress is worn over a guimpe of white lawn. Rose colored and dull green linens are, however, equally in vogue, and there are also a great many other washable fabrics suited to such a design as this one, while it will be found most satisfactory for cashmere, veiling, challis and the simple silks that are worn by young girls. These are not over heavy for many summer days, and are always found serviceable and of value, while the fact that the dress is worn over a white guimpe means that it is always dainty and fresh in effect. The little waist is tucked at the shoulders and gathered at the waist line, while it includes prettily shaped short sleeves, and the skirt is laid in double-box plaits. The guimpe is the simple plain one with a yoke of tucking. It can be made with elbow or long sleeves, and with yoke of any material that may be liked faced on to it. The tiny child shows the same design treated after a simpler fashion, the material being dotted challis edged with a pretty banding. For a girl of ten years of age will be required 5 yards of material 27, 4½ yards 32 or 3¾ yards 44 inches wide; for the guimpe 1⅝ yards 36 with ½ yard 18 inches wide for the yoke.

A May Manton pattern, No. 5669, sizes 6 to 12 years, will be mailed to any address by the Fashion Department of this paper on receipt of ten cents. (If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.)

WILL DECIDE BEFORE HOLIDAYS

City Council Declines to Give Southern Counties Line Admission Six Months' Hoist.

The application of the Southern Counties Railway Company to enter the city in order to bring passengers into Montreal from the south shore of the river, was discussed at the meeting of the City Council yesterday afternoon.

An effort to give the subject the six months' hoist failed to carry. Council finally decided to consider the application, and pass judgment upon it, before the holidays.

A report was read from the city attorney, stating that the Street Railway Company had no good grounds for the contention that the city had no legal right to allow the Southern Counties Railway, to come into Montreal. The opinion states that the streets on which the new line is to run its cars in accordance with a by-law are not preferential streets; that the said company has the right to cross Victoria Bridge, and also the right to lay its tracks on Riverside and Mill streets, as well as the right to cross Black's Bridge to Common street. The opinion goes on to state that the company may establish and operate a street railway line within the limits of the city, on private property, as far as Common street, without being held to obtain previously the consent of the council.

OPPOSING PETITIONS.

A report was read from a special civic committee favoring the application of the company to be given a terminal point in Montreal. This point is situated in Grey Nun street. The report goes into the details of the petitions against a new line, and the counter petition, by which it appears that twenty-seven tenants and proprietors in St Ann's Ward signed against the project. But seven of them had since withdrawn and signed another petition in favor of the line. This left twenty opposed, but nineteen of them were not directly affected by the establishment of the proposed street line of cars, by the fact that their properties are not adjoining the proposed route. Only one signature was directly affected in Grey Nun street. On the other hand, the petition in favor of the line of cars is signed by twenty-two names, two of which have their establishments on Mill street, and nineteen are not directly affected. This left one having a place of business on Grey Nun street, which company owns about one-third of the property on the said street where the company desires to lay its tracks.

When the reading of the above report had been completed, Ald. J. B. A. Martin moved that council allow the matter to remain over till the next special meeting.

MOVED HOIST.

An amendment was made by Ald. Duquette to the effect that as the holidays were close at hand, and as many alder men would be absent from the city, no action be taken on the application till the autumn.

A vote of 22 to 5 was cast against the amendment; while the main motion was carried on the same division reversed. This means that the application of the company, to enter the city, will likely be granted by council, and this before the civic holidays are taken.

There was considerable discussion over the question as to whether or not the police should be paid every week or once every two weeks. It was finally decided to allow the subject to remain over for the present.

SHIPPERS POSTPONE ACTION FOR WEEK.

There was no formal discussion of the report of the Conciliation Board at the meeting of the Shipping Federation yesterday afternoon. Representatives from the other companies interested, who were not in the Federation, had been asked to be present, but as there was not a full attendance, the matter was left over to a special meeting to be called early next week.

City Sued for $10,000.

Thomas Donovan, a laborer, is suing the city for $10,000, which he claims as damages for having been thrown from his cart on St. Urbain street. Both his legs were broken and he claims that the city is at faut for not seeing that the roadway was in good repair. He says that he will no longer be able to earn his living.

To Keep the Skin in Health

Avoid Pore-clogging Powders, and Cure All Skin Irritations and Eruptions With Dr. Chase's Ointment.

It is quite possible that, while you know of Dr. Chase's Ointment as a cure for eczema, psoriasis and the most severe forms of itching skin disease, you may have overlooked its value as a beautifier of the skin.

There are minor forms of skin trouble, such as rough, red skin, chafing, chapping, pimples, blackheads, blotches, irritation, or poisoning from the clothing, etc., which disfigure and form a starting point for serious trouble.

A few applications of Dr. Chase's Ointment at such times not only remove these blemishes, but also restore the health and beauty of the skin, and positively prevent further development.

Dr. Chase's Ointment is delightfully pure and creamy, is pleasant to use, and is rapidly absorbed. It acts as a food for the skin, making it soft, smooth and velvety. By its soothing, antiseptic and healing properties it allays inflammation, relieves itching, and heals sores, wounds and ulcers; 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

ABOUT TOWN

Are Women Dishonest?

The story is told of an eccentric old millionaire who spent his life looking for an honest man,—or woman. Unlike Diogenes, he did not take a lantern, but patronized the ubiquitous 'bus instead. When the change was being passed up to a passenger who was paying his fare he slipped in an extra shilling. Each time the person counted the change and hastily put it all in purse or pocket. There was no thought for the poor conductor who was losing a shilling. Never once did the extra shilling return to its owner, or supposed owner. At last one day a young shop-girl when she looked at her change saw she had a shilling too much and sent it back to the conductor. The old man was delighted to have found at last one honest person. He followed her home, got her name and address, and when he died left her the bulk of his fortune. There's a pretty tale for you! And an encourager of honesty!

How many women are perfectly honest? Take street car fares for instance; does one woman in a hundred feel it necessary to pay her fare if she is overlooked? A woman who would be insulted if you told her she was capable of going to the money-box of the Street Railway and abducting five cents thinks nothing of not paying her fare. And yet it is the same thing.

A case came under my notice the other day. A woman was buying some collars for her little boy. She took a dozen, but when they came home and she began to mark them to her surprise she found there were thirteen. "How careless of them!" she thought, and felt rather pleased. But second thought was best, and the extra collar was returned. It is these little private things that the world knows nothing of that determine whether the woman is the right sort or not.

Heliopsis Pitcheriana.

This is a new semi-double form of the well-known hardy perennial of this name, the objection to which was that its thin, single-rayed flowers were not very attractive, but this one has none of the defects of the earlier one. It grows from two to three feet high, according to the culture given it, and is covered the whole season through with golden yellow flowers, two inches in diameter. It should be grown from seed planted where it is to bloom in the hardy border, and will stand partial shade. It is a gross feeder, and must have a rich warm soil and plenty of moisture. When the plants are four inches high, thin out to two feet apart.

Hardy Garden Plants.

The Moonpenny Daisies.

These are the greatest advances ever made in this class of chrysanthemums, the flowers being of immense size, and rivalling the Japanese chrysanthemums of the regular class in their brilliant beauty. They are of purest white color, and of perfect form, and exceedingly free flowering, being one of the best summer cut flowers. Like all of their class they are gross feeders, and should have the very richest soil, to which should be added a good percentage of well-rotted horse manure, and a sprinkling of bone-meal, and be well worked all the season. They are hardy perennials, and should be started in pots and set out in the hardy border with plenty of room to spread. Give plenty of water.

Pretty Indoor Frocks.

Color is everything once more. Hats are again brilliant in their effect by reason of the color contrast of the flowers or plumes used to trim them. The same rule is observed on dressy indoor gowns. As an example is a gown of Chinese pink in Marquisette, the skirt falling over a thin liberty satin to match. From the knee upwards this sheer silk is plisse, while upon the bottom, just long enough to lie with ease upon the ground, is a double line trimming, in a half-inch piping of crab-blue satin of that pale exquisite tone, which so happily blends with the Oriental pink. The same satin is used for bias bretelles and for a bias belt drapery. The lace of the bodice and sleeves is dyed to match the pink of skirt, the bodice lining being of the Marquisette, while chiffon of the same shade plisse, softly fills up the V's front and back and shows also in an inner sleeve, close-fitting. Real lace armlets for these sleeves and a real lace neck-band in cream white adds to the becomingness.

: The Difference : In Refrigerators.

In some refrigerators the ice melts quickly and the interior is always damp and wet.

This is because there is no air circulating through them.

In our refrigerators there's a current of air constantly passing through the interior.

This keeps the food pure and fresh, and prevents ice from melting.

There are refrigerators here lined with galvanized iron, white enamel and porcelain.

On one of our refrigerators we make a special price of $7.75.

Then there are others from that up to $24.50 less 10 per cent.

IN LABOR CIRCLES.

The regular fortnightly meeting of the Trades and Labor Council will be held this evening.

All arrangements have been made for the picnic of the plumbers and steamfitters, which is to be held at Otterburn Park on Saturday, August 3rd.

Miss May Sullivan, the official stenographer of the Boot and Shoe Workers' International Union, says the Canadians are far more hospitable than her brothers and sisters on the other side of the line.

The Executive Council of the Boot and Shoe Workers' International Union were driven around the city in a tally-ho this afternoon. Most of the delegates will leave for their homes on Friday.

At last night's meeting of the District Council of the Carpenters and Joiners it was stated that building operations were very active in the district of Montreal. All the unions in the building trades were reported as being in a flourishing condition.

According to Miss Mary Anderson, of Chicago, who is here attending the sessions of the Board of Management of the Boot and Shoe Workers' International Union, the school teachers of Chicago practically control the Chicago Federation of Labor. The Teachers' Federation sends twenty-three delegates to the meetings of the council. They are leaders in the debates, and take an interest in all questions affecting the welfare of the youth of the Windy City. The school teachers also have much influence in forcing the large corporations and trusts to live up to their agreements with the City Council. There are fifty lady delegates representing organized labor in the federation, and several newspaper men. About 350 delegates attend the meetings of the federation, which are held on the first and third Sunday afternoons of each month. The meetings are open to the public and the press, and are usually very largely attended. The business is conducted according to parliamentary rules. Miss Anderson thinks that the Chicago Federation of Labor is one of the most important labor organizations in the world.

It is estimated that 10,000 pigeons live inside of the downtown loop district of Chicago.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney and Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney and Co. Testimonials free. Sold by Druggists. Price 75c per bottle. POLICE EXPLAIN THE BEACH BLUNDER

Constable Brossard Tells Why Stranger's Name Was Not Taken

'TWAS TRAGEDY OF ERRORS

Chief Campeau States That Police Thought Man Was Merely Drunk.

"I honestly thought the man was drunk, and never for a moment imagined that he was seriously injured."

This statement was made to a Star representative to-day by Constable Brossard, in reference to his arrest of George Beach, the victim of the murderous assault early on Tuesday morning at the corner of Bonsecours and St. Louis. Beach was identified at the morgue last night by his two brothers, his full name being Roland Beach. He was thirty-seven years of age, occasionally worked as a 'longshoreman, and lived with his mother at 22 Des Rivieres street.

As published in the Star yesterday Beach was assaulted by two men and then taken to the Central Police Station and imprisoned for drunkenness. He was discovered dead in his cell at five o'clock in the morning. This tragic incident has created a great deal of indignation amongst the citizens of Montreal, many expressing the opinion that the police have been guilty of gross carelessness in connection with the case.

THE CONSTABLE'S STORY.

Constable Brossard seems to feel very deeply concerning the matter, and regrets that he failed to grasp the situation. In explaining the affair he said: "About half past twelve on Tuesday morning I heard cries proceeding from the corner of Bonsecours and St. Louis. I immediately ran towards the place and as I did so two men left another man lying on the middle of the street and started to run away at full speed. I shouted to them to stop but they paid no head and then I cried out, 'If you don't stop I'll fire at you.' This threat had no effect and as I was not really aware of what had happened I did not carry it into execution. I passed the man lying on the ground and I continued the chase for about fifty yards. The men in front had got a good start, however, and I decided to cease pursuing them and my reason for doing so was that I did not want to leave the man lying unprotected on the street, because anything might have happened to him. He might have been run over. As I was returning I met a man dressed in a gray suit and I asked him to help me. He remarked that he did not like to be mixed up in this sort of affair, but came along all the same. The man was conscious when we picked him up and the first thing I said to him was 'Who hit you.' He replied, 'Never mind that. I've been drinking with them all night. I'll fix them all right yet.' I thought the man was drunk and accompanied by the man in the gray suit conducted him to the police station.

"What do you make of the fact that the autopsy showed there was no trace of alcohol in Beach's stomach?" asked the reporter.

"Well. That is a mystery I cannot understand," replied Constable Brossard.

"What made you think he was drunk? Did you smell liquor about him?"

"No. I did not smell liquor about him, but he told me several times during the walk to the police station that he had been drinking. He said, 'Excuse me. I have been drinking tonight.' I believed that he was speaking the truth and what was why I arrested him."

"On arriving at the station why did you not ascertain the name and address of the man in the gray suit?"

"We imagined that he had nothing whatever to do with the case, and therefore did not think it necessary. Moreover, we assumed that Beach was merely drunk and had simply quarrelled with some of his drinking pals. There was only a slight mark on the left side of Beach's head, and we did not think that he was severely hurt. The turnkey looked into his cell at 2.30 a.m. and he appeared to be all right at that time."

CHIEF CAMPEAU TALKS.

Chief Constable Campeau admitted that the officers in charge had believed the man to be drunk. Questioned as to what medical attention prisoners received the Chief replied that if there was any suspicion of a prisoner being seriously injured a doctor was immediately summoned from the nearest hospital. They never had any trouble in getting a doctor.

One of the most remarkable features of the whole case is that Chief Detective Carpenter was not officially informed of the murder till this morning. The man died at 5 o'clock Tuesday morning, the cause of death was known little more than an hour afterwards, and yet Chief Carpenter was in complete ignorance of the whole matter yesterday afternoon. He read about it in the newspapers.

A Star reporter interviewed a prominent citizen on this aspect of the business, and was told that it clearly demonstrated there was something very wrong about the police administration of Montreal. "It is disgraceful," said this gentleman, "that a man should be murdered on the streets of a civilized city, and no effort made to track his assailants till a couple of days later. Far better administration than that is required if we are to enjoy even comparative safety while walking the streets."

Detectives Charpentier, Leger and Gorman have been sent on the job. It is unfortunate, however, that Constable Brossard is not prepared to identify with absolute certainty the mysterious man in the gray suit, who has been accused by an eye-witness of having been implicated in the murder of Beach.

CROWN FILES LENGTHY DEMURRER IN REPLY TO THE DEFENDANT'S PLEA IN EMMERSON-CROCKET CASE

Crown Counsel Claim That Defence Must Show Article Published Was in the Public Interest Before Showing it is True—Rumors of Compromise Persist.

By a Staff Correspondent.

Fredericton, N. B., June 20.—Argument on the demurrer produced by the Crown took up the greater part of the forenoon, in the Emmerson-Crocket libel case.

At the opening of the court, there was a big crowd in the court room,

Mr. H. F. McLeod, Mayor of Fredericton, one of the defence counsel.

including members of the panel from whom the jurors who are to try this case will be chosen. There were a couple of ladies present, but they were concerned in the civil suit, which was begun yesterday.

There was, however, a new face in the crowd. There arrived at the Barker House, another witness for the defence, in the person of Mr. H. O. Stovel, a commercial traveller, who, on the night of June 10, occupied room No. 142, at the St. Lawrence Hall, and who mentioned to John Lloyd that there was considerable noise in room No. 137. He came into court to-day in company with John Lloyd, having reached here from Sydney.

On the counsel table before the bench were piled up dozens of law books which were later brought into use by counsel in support of their arguments.

Hon. H. R. Emmerson and Mr. James H. Crocket sat at either side of the counsel table, back near the rail dividing the public from the enclosure reserved for counsel.

Mr. A. B. Copp, M.L.A., the Liberal organizer for New Brunswick, who, at the preliminary hearing, appeared among the counsel for Hon. H. R. Emmerson, occupied a seat next to that gentleman. He was not robed, however, and appeared as a spectator. Alphonse T. Leblanc, travelling passenger agent of the Intercolonial, is another gentleman whose presence in Fredericton at this juncture, is causing some speculation.

Hon. Dr. Pugsley presented the demurrer which the Crown opposes to the plea of the defence. This gave rise to a passage-at-arms between counsel, and Hon. A. S. White took up a long and rather tedious argument, the trend of which was that though the matters alleged might be true, the defendant was not justified in publishing. They could not be said to have been published in the public interest. Mr. White quoted many authorities in support of his various contentions. He discovered early in the argument, however, that the messengers had been mistaken in their choice of legal lore, and a couple of criers were despatched to the library whence they returned with many and various tomes containing the law and jurisprudence of all countries where the libel law exists.

THE DEMURRER FILED.

The demurrer and memorandum of argument filed by the Crown in the matter was as follows:

"The King vs. James H. Crocket, and the Attorney-General of New Brunswick, who prosecuted for our Lord, the King.

"In his behalf also the second plea of the said Jas. H. Crocket, by him above pleaded, saith that the same and the matters therein contained, pleaded and set forth are not sufficient to bar or preclude said Lord the King from prosecuting the said Indictment against him, the said James H. Crocket, and that our said Lord the King is not bound by the law of the land to alter the same and this he, the said Attorney-General who prosecutes the aforesaid, is ready to verify.

"Wherefore, for want of a sufficient plea in this behalf he, the said, the Attorney-General, prays judgment and that the said James H. Crocket may be convicted of the premises in the said indictment specified."

WM. PUGSLEY,

Counsel with His Majesty the King.

Matters of law intended to be argued in support of the demurrer:

ARGUMENTS IN DEMURRER.

(1) "The article complained of and set forth in the indictment states that the said H. R. Emmerson had been ejected from more than one hotel, while the plea refers only to one occasion at the St. Lawrence Hall.

(2) "The plea does not show with sufficient certainty the matters intended to be set forth as a defence in that:

(a) "It does not sufficiently specify the date or circumstances of the alleged ejecting of the said H. R. Emmerson from said hotel, nor by whom, or for what reason the alleged ejecting took place.

(b) "It does not set forth or show in what respect the two women mentioned in the said plea were of ill-repute.

(c) "It does not set forth or show when, where, or under what circumstances the said H. R. Emmerson had been keeping company with two women of ill repute.

(3) "While the indictment charges that the article complained of was written in the sense of imputing that the said H. R. Emmerson was improperly associating with women of ill repute, the plea contained no allegation to that effect nor does it allege any improper relations between the said H. R. Emmerson and the said two women nei-

their does it deny the innuendo nor confess an attempt to justify it.

QUESTION OF PUBLIC INTEREST.

(4) "That the plea does not set forth or show any sufficient fact or facts by reason of which it was for the public good that the article complained of in said indictment should be published in said Daily Gleaner, newspaper, as charged in the indictment or at such publication, was for the public good within the meaning of the statute allowing a defendant to plead the truth of a libel as a jutification in certain cases.

(b) "Upon the facts set forth in said plea the court should hold as a matter of law that it was not for the public benefit that the defendant published said defamatory matter at the time and in the manner in which it was so published.

(c) "Even if it were true that the personal morals and conduct of members of the Government of Canada, as well as those of private members of Parliament, were and are matters of public interest, Parliament is the proper place in which to make and to investigate charges against its members in respect to their private conduct, if such charges are deemed of sufficient gravity to affect the public usefulness of members so charged.

"So far from its being for public good it is likely to result in public injury and impair the usefulness of Parliament to have the private life and conduct of members of the Government and other members of Parliament and which are not in any way connected with the discharge of their public duties, discussed and debated in the public press.

(d) "The said plea does not allege that the allegations of improper conduct were made against said H.R. Emmerson in Parliament, nor does it allege that any imputations were made in Parliament against the personal morals and conduct of any member of Government. The mere fact that there was some discussion in Parliament and in the press, which so far as appears by the plea might be by one member and by one newspaper would not make what would otherwise be a defamatory libel any less so, and would afford no justification for its publication in the Daily Gleaner. A newspaper may properly comment on facts stated in Parliament. The mere circumstance of a discussion taking place in Parliament upon a particular subject would not justify the newspaper in making allegations of facts of a defamatory nature not stated in such discussion.

(e) "The said plea in giving as a reason for publishing words complained of that said H. R. Emmerson was a member of Government of Canada and one of the advisors of the Governor-General shows defendant to be guilty of seditious libel under section 132 of the criminal code, and it is not and cannot be for the public benefit to publish a seditious libel. To such a libel the allegations in the plea afford no justification or defence.

SAYS PARLIAMENT IS JUDGE.

(5) "That even if it be submitted to be advisable and proper in the public interest and for the public benefit that the facts of a disgraceful and degrading character in the lives of Ministers of the Crown should be made known and published so that the Government of Canada might be purged of men whose personal character renders them undesirable and unfit Ministers of the Crown, as alleged in the said plea, it was not and is not for the public benefit that a defamatory matter of the nature charged in the indictment should be published in a nowspaper which for personal or malicious motives might see fit to publish the same. Such publication can be justified only if made to the Governor-General or Parliament, with whom rests the authority to continue the Minister as an advisor or representative of the Sovercign, or to dispense with his services.

(6). "The said plea is bad:

(a) In not setting forth any facts sufficient in law to justify the publication of the libel complained of.

(b) In not alleging that it was for the public good that the defamatory matter charged in the indictment should be published as alleged in the indictment." Dated June 20, A. D., 1907. William Pugsley of counsel with His Majesty.

MR. HAZEN'S COMPLAINT.

Mr. J. Douglas Hazen, K. C., leading counsel for the accused remarked when Dr. Pugsley had finished that he had just seen the demurrer for the first time that morning. "It seems to me," he declared, "that the two eminent ex-attorney generals and three eminent King's counsels should have been able to draw up a demurrer in time to let me have a copy last night. I would be justified in asking for a day."

He would not do so however, but stood ready to proceed at once with argument on the demurrer."

Hon. Mr. Pugsley, leader on the Crown side declared it seemed a great pity that counsel of the other side should make remarks of such a personal nature. He had not commented the first day when counsel for the defendant did not proceed, though it was early in the day.

Mr. Hazen.—"It was 4 o'clock."

Mr. Pugsley—"Well, there was considerable time."

"However that is not the point. What I urge is that reputable counsel should be credited with fair intention of not delaying this case any more than necessary. We have done nothing to delay it any more than was reasonable, and neither have our learned friends on the other side."

MR. WHITE'S ARGUMENT.

Hon. A. S. White, K. C., a former attorney general, then opened his argument for the exclusion of the plea entered by the defence. In even tones, he went over the arguments set forth in the memorandum. The plea referred to only one hotel, while the article by innuendo suggested that Mr. Emmerson had been expelled from other places.

The defence should be bound down not to attempt proof of more cases than they set forth. The expression "women of ill-repute," was one which Mr. White criticized. It might mean almost anything. It might mean an inmate of a disorderly house. It might relate to a woman whose conduct in other respects caused comment though she might be blameless.

Mr. Pugsley.—"If she plays bridge."

Mr. Barry.—"Yes, if she plays bridge she may be of ill-repute as a gambler or she may flirt too often with the men and yet never do anything really wrong. The defence should set forth in detail in what manner these women were of ill-repute."

Mr. White, in the course of his argument, claimed that justification was not available under the circumstances. "Mr. Emmerson from a high and, I venture to say, too sensitive a feeling of honor determined to resign and prosecute the author of these charges. If similar charges were made against all Ministers of the Crown and they all resigned, how would the Government of this country be carried on?"

MR. BARRY DEFINES ATTITUDE.

Mr. J. H. Barry, K.C., carried on the argument. "Defamatory libel, he said, was a special matter which seldom comes before these courts. The situation was that Mr. Crocket must show that the article published was in the public interest before he is allowed to show whether it is true. It would pass over the statement about "women of ill repute" without stating whether they were unchaste, gamblers, drunkards or what manner of ill-repute had attached to their names. The Crown was entitled to specific facts on these questions. The defence must show that they are in a legal position to demonstrate the truth of what they published.

Mr. O. S. Crocket.—"You are seeking to prevent us from proving the truth of the charges then?"

Mr. Barry.—"If the demurrer is maintained it precludes all evidence as to the truth of the charges. If my learned friends have put themselves into a position to be debarred from proving their case or facts which they have published, they must accept responsibility. The gentlemen associated with me have considered our course and we have determined that this is the proper manner for us to act under the circumstances."

REPLY OF THE DEFENCE.

Mr. J. Douglas Hazen declared that as he had read the demurrer for the first time he must ask the indulgence of the court if his argument was rather disconnected. His client, however, was very anxious to proceed at once.

"He has many witnesses here and stands ready to prove the truth of the matters related in the article complained of. Under the ordinary plea of not guilty, the defendant would be precluded from showing that the article was true, for everything else may be proved but the truth of the article complained of. This would preclude Mr. Crocket from showing to the court, the jury and whole country, which was waiting with interest, that the statement he published was true and in the public interest. It would also deprive Mr. Emmerson, the complainant, of the opportunity which his political organs and which he himself in the House had declared he would take to vindicate himself by proving that the allegations in the Gleaner were false. This was a somewhat strange position for the learned gentlemen on the other side to take after their repeated declarations that they were anxious to come before the courts to vindicate the honor of the ex-Minister."

Taking up Tremar's comments on the criminal code, Mr. Hazen went on to argue and compare the plea filed in this case with the form set forth in that work and declared they were along exactly the same lines and that the plea was legal in form and fact.

The only libel complained of the indictment was one sentence of five lines and the indictment, as explained in the innuendo by the attorneys for Mr. Emmerson, limited the proof to the occasion when Mr. Emmerson was alleged to have been expelled with two women of ill-repute from the St. Lawrence Hall, in Montreal.

A TILT BETWEEN COUNSEL.

Mr. Hazen wanted to read from the context of the article to show the spirit of the article, but there was a lively argument with Mr. Pugsley and finally he desisted. If the court should come to the conclusion, however, that there was something lacking in the allegation of the plea setting up public interest, Mr. Hazen suggested an amendment which he might move.

This led to another passage at arms in which Messrs. Pugsley and Hazen crossed swords and the leader for the Crown was assisted by Mr. White and Mr. Barry at times, while Messrs. McLeod and Mr. Crocket lay back and smiled as the counsel for the Crown became more and more heated.

The conduct of the ministers had been the subject of discussion in the House of Commons and such discussions must have been in the public interest, declared Mr. Hazen. The matter was also discussed in the press of the whole country. It was therefore a well-known topic of public interest. This was exactly what the plea alleged. Mr. Bourassa had brought the question up. Sir Wilfrid himself had spoken on the matter. To-day the Crown argues virtually that the courts have nothing to do with this matter, that Parliament is the guardian of its own honor. Sir Wilfrid took distinctly opposite ground in that debate on the Bourassa motion when he declared that Parliament should not be made a police court to investigate charges of private misdeeds. So long as these matters were discussed as a matter of public interest and in a proper spirit they were entirely for the public good.

"You have not shown that they were," interjected Mr. Pugsley.

"I have just given some good reasons," retorted Mr. Hazen. "If the honorable gentleman did not understand them his Honor did I am sure."

The defence did not claim that the press had a right because Mr. Emmerson was a Minister to go into all his private acts.

They had, however, a right to go into such actions as would influence his usefulness to the country and the defence claimed that Mr. Emmerson had no greater claim to privileges than any other citizen. As to the allegation that the plea did not specify in what regard the women were of ill repute, Mr. Hazen declared his learned friends seemed to be fishing for some reasons to make objections. Everybody knew what was meant by such a statement.

If the demurrer were upheld Mr. Hazen argued it would be equivalent to setting up a censorship such as that existing in Russia on the press of this country. After arguing that even if the court came to the conclusion that the plea was not altogether sufficient the defence had a right to amend it. Mr. Hazen closed his argument with the declaration that in this case it was of the utmost interest to the public at large that either Mr. Crocket should prove the truth of the matters contained in the article published by him or that Mr. Emmerson should prove that these statements were false.

At 3.40 p.m., Judge Landry dismissed the demurrer. The case must go on at once.

COMPROMISE RUMOR PERSISTS.

All sorts of rumors were afloat yesterday during the day and especially in the evening with regard to possible adjournment and even the dropping of the Emmerson-Crocket case. It is an open secret that Sir Wilfrid Laurier has been keeping the cables hot with instructions that the case must not be allowed to go on if it can possibly be stopped. Mr. Justice Landry, is to be reckoned with, however, and he is not liable to allow the matter to be dragged along, and the prosecution will either have to go ahead or enter a nolle prosequi.

It is generally understood now that Hon. H. R. Emmerson will not go on the stand in the direct case for the Crown, but will be reserved for the rebuttal. This will give him the advantage of knowing exactly how much the defence can prove.

S. W. EWING ELECTED AS LOCAL CHAIRMAN

Nominations for Canadian Manufacturers' Association Closed To-day and Will Require Election.

Mr. S. W. Ewing, of S. H. Ewing & Sons, was to-day unanimously elected to the position of chairman of the Montreal branch of the Canadian Manufacturers' Association. At the same time Mr. S. S. Boxer, of the Watson Fester Company, was chosen as vice chairman.

Nominations for these positions, as well as for twenty members to form the local executive committee, closed at noon at the office of the association in the Board of Trade building. Of the twenty members of the executive, eighteen are elected in Montreal, and two from the towns in the district. For the city, twenty-four names were posted, while for the outside two names, the number required, only were sent in. Ballot papers will be sent out immediately for the election in Montreal and these will be received and counted at the annual meeting, which will be held on Thursday of next week.

The names of those placed in nomination to-day follow: C. P. Bingham, Fred. Birks, C. W. Bowman, A. H. Brittain, Wm. Cauldwell, C. W. Davis, Joseph Fortier, Clarence F. Smith, J. H. Sherrard, George W. Sadler, Frank Pauze, L. H. Packard, W. T. Miller, J. H. Kinghorn, S. D. Joubert, Robert Gardner, J. H. Gallagher, George Esplin, W. T. Whitehead, H. K. S. Hemming, A. P. Gordon, R. J. Younge, J. H. Birks, T. H. Wardleworth.

Those nominated and declared elected from the outside district are: Louis Simpson, Valleyfield; S. T. Duclos, St. Hyacinthe.

EMPLOYERS WILL INVOKE MASTER AND SERVANT LAW.

(See Also Page 1).

Colonel Starke, the general manager of the Dominion Transport Company made a statement this afternoon, in reference to the teamsters' strike.

"The men have gone out contrary to an agreement which they made with us in 1906, and which was to last two years," he declared.

"I am told that at a meeting they had last night, it was decided to strike for higher wages. A contract is a contract and we would not have felt ourselves at liberty to have broken that which was made in 1906. There is, therefore, really no issue between us, because it is clearly a case of the men breaking a contract.

"Action is being taken, to-day, by which a number of the men will have to answer before the courts to a criminal charge brought under the statute providing for agreements between master and servant."

Miss Doutre, of Ottawa, is spending a few days in town the guest of Mrs. Lindsay McIntyre, Drummond street.

ATTORNEYS REPORT ON GAS QUESTION

City Cannot Interfere to Protect Citizens Against Agreements as to Meter Contracts.

The City Attorneys completed two reports to-day which are of interest to consumers of gas. The reports are founded on questions that were put, at the last meeting of the City Council by Ald. Gadbois.

The questions were as follows:

1.—"Has the Gas Company any legal right to charge consumers for meters when it is thought that gas pipes leak?

2.—"Has the company in question legal right to charge the sum of one dollar a year, rental for meters, to consumers who do not burn over $12 a year worth of gas?"

In reply to the first question the City Attorneys reply that the company is supposed to keep to any agreement it makes with consumers as to gas to be supplied for a certain sum.

CITY CANNOT INTERFERE.

Answering question 2, the Attorneys say that if consumers agree to pay the company $1 a year rental for meters that do not burn over $12 a year worth of gas, such agreement must be respected; and that, finally, the city cannot interfere with any agreement that private citizens may make with the company in cases such as these.

It appears that a number of citizens have sent complaints to aldermen that they are compelled to pay meter rentals even during the summer months when the meters are idle. The complainants desire that the city shall interfere and alter agreements they have made to pay for meters.

THE SLIDING SCALE.

In regard to the gas question, and the prices charged for gas, the whole subject of what citizens may pay in the future will be discussed at the meeting of the Fire Committee this afternoon when the reply of the Light, Heat & Power Company will be read. This reply explains to the committee what the London sliding scale is. The company has already notified the City Council that it is willing to sell gas on this principle.

Many aldermen are strongly opposed to the plan. It was explained that the company is in no wise making a new offer; over a year ago it announced that it was willing to adopt the sliding scale plan. At the time it was not approved of. The plan is that, after the company has paid a certain percentage to stockholders, all surplus profits shall be devoted to the further lowering of the price of gas. Its opponents claim that the company would do all it could to avoid further reductions in the price of gas and electricity, and that all additional profits, over a given amount would likely find another outlet than pockets of the consumers.

NO BAIL WILL BE ALLOWED THE CONVICTED MURDERER OF PERCY HOWARD SCLATER AT GRAND ANSE

Court of King's Bench in Appeal Refuses the Writ of Habeas Corpus Applied for on Behalf of Wallace McCraw—He Now Goes Back to Jail to Await Next March Term of King's Bench.

WALLACE McCRAW, as he appeared in the Court of King's Bench to-day.

Wallace McCraw must go back to the jail at Three Rivers, and there remain until March of next year, when he will again be tried for the murder of Percy Sclater, at Grand Anse, Que.

This decision was given to-day in the Court of King's Bench, the Chief Justice, Hon. Mr. Taschereau, presiding. There were with him on the bench, Justices Blanchet, Trenholme, Lavergne and Cross. The decision was read by the Chief Justice.

The case has been one of peculiar interest. McCraw was arrested on a charge of murder, tried, convicted and sentenced to be hanged. His alleged accomplice, the wife of the murdered man, was acquitted, and this was followed by an appeal from the verdict of guilty against McCraw. The appeal was upheld, and a new trial ordered. Messrs. R. A. E. Greenshields and N. K. Laflamme, who defended the accused, finally took out a writ of habeas corpus asking that he should be brought before the Court of Kings Bench in Appeal, in order that an argument in favor of granting bail should be heard. It was upon this writ that the bench gave its decision to-day.

The argument was a long one. It was opened by Mr. Charles A. Wilson, K. C., for the Crown, who objected to the issue of the writ on the ground that the Court of Kings Bench sitting in Montreal had no jurisdiction, seeing that the matter had already been under the jurisdiction of a Kings Bench, Appeal side sitting in the city of Quebec. Mr. Desy, of Three Rivers, for the prisoner, argued that as the Crown had not been ready to go on with the case and had not given any sworn testimony they were unable to proceed. It was natural to presume therefore that the case was a weak one. The accused, he pointed out, had been in jail for more than two years, and it was against the liberty of the subject that he should be further confined for another year before being tried.

Mr. Greenshields followed. After reviewing the case he said:

"Bail is more often granted when there has been a new trial ordered by the Court of Appeal than when a true bill has been found by the grand jury. The reason is obvious—the evidence given before the grand jury is confidential and the deliberations of the grand jury are in secret. Referring to the evidence in the present case, with one possible exception—namely, the statement of the witness, Dr. Lambert, that the prisoner had stated to him that when the truth was known he (the prisoner) would be found to be the guilty party, and with the judgment of this court in Quebec allowing the appeal of December last and ordering a new trial—there was nothing in the record but circumstantial and flimsy evidence to connect the prisoner with the murder of Percy Howard Sclater. In fact it was the prisoner himself who found the body and who gave the alarm that Sclater had been found murdered. The Crown had absolutely had for no given reason, refused to proceed with the trial and has failed to show reason why it does not give the prisoner a trial. (Counsel here cites and reads from 31 Chas. II. chap. 2, sec 7). At the March term in the court in Three Rivers, the reason the Crown gave for not having the witnesses was that there was too much water. On the 3rd June, on the opening of the special term there was no water, but again there were no witnesses. On motion made to the court on that day to admit the prisoner to bail, the judgment of the Bench was: take nothing by the motion. If this Court is of the opinion to grant bail, under the circumstances, it is to be remembered that the bail should be a reasonable bail."

Mr. Wilson replied for the crown, and argued that under all circumstances no bail should be allowed.

The Chief Justice, in giving his decision, said:

"The accused committed a crime that renders him liable to the death penalty. A trial was held, a verdict was rendered and a judge sentenced him to death. The Court of Appeals reversed the verdict, the reasons for such decision being: 1. Substitution of a juror; 2, omission of important evidence.

"The tribunal was composed of four regular members of the Bench, and a fifth, called in to take the place of one who was confined home through illness. This fifth judge counted in the majority voting in favor of the reversal. It can be said, then, that the regular tribunal stood two against two.

"The accused was convicted and sentenced by a judge, which is a very important point in this particular case. A single technicality is responsible for the reversal of the judgment."

"The facts that are to be taken into consideration are these:

"The gravity of the charge.

"Danger of escape of the prisoner and forfeiture of the bond.

"Admission to bail could be granted when it is proven that the Crown committed criminal negligence or when the jury is divided."

After reciting many authorities, the judge concluded:

"It is stated that the accused is innocent inasmuch as he has not been found guilty. The first trial having been annulled, he stands as innocent. This is a mistake. The presumption that he is innocent is of value only for the ends of the trial, but not for the granting of bail.

"The Crown has not committed negligence.

"The Sclater woman stood her trial. She was liberated. McCraw also had his trial and was convicted. He cannot be granted bail."

The judge therefore quashed the application for a writ of habeas corpus.

STORY OF THE SCLATER MURDER IN MARCH, 1905

Percy Howard Sclater was murdered between six and seven o'clock in the afternoon of Sunday the 5th of March, 1905. McCraw was arrested on the 8th of March, 1905. He was brought down to Grande Piles and taken to Lingres Hotel. Mrs. Sclater had been at Three Rivers attending the funeral of her husband, and was turning to Grande Anse.

Beaulieu, who had arrested McCraw, was instructed by Chief McCaskill, who had arrived at Grande Piles, to follow Mrs. Sclater and Mrs. George Skeen up the St. Maurice River. He overtook them and brought Mrs. Sclater down to Grande Piles, where she remained two or three days. Subsequently McCraw and Mrs. Sclater were both taken to Three Rivers. McCraw was committed to jail, and Mrs. Sclater was detained in the private house of the jailer only as a witness. The preliminary investigation in the case of McCraw proceeded shortly after.

During the progress of the preliminary investigation in the McCraw case, Mrs. Sclater was called as a witness, but refused to testify, and a warrant issued for contempt of Court and she was transferred from the jailer's private house to the jail.

Some time, about the middle of June, McCraw was finally committed to stand his trial before the Court of Kings' Bench on the 7th of March, and about the end of June a like commitment was made against Mrs. Sclater.

The next term of the Court of Kings' Bench was on the first of March, 1906. McCraw's case started on the second of March, and was completed and a verdict of guilty rendered on the 17th of March. Mrs. Sclater's trial commenced on the 22nd of March and was completed on the 31st of March, when a verdict of "not guilty" was rendered.

THE VARIOUS DELAYS.

On the first of May following, McCraw's Counsel made an application to the Court of Kings' Bench, sitting in Quebec, for leave to appeal from various judgments rendered by Judge Cannon, the trial judge. During the progress of the trial he refused a reserve case on questions of law. The Court of Kings' Bench allowed the appeal, and the case came on for hearing about the first of November following. The appeal was fully argued at the opening of the court on the first of November, and judgment reserved. On the sixth of December following, judgment was rendered, quashing the verdict, and ordering a new trial.

The next regular term of the Court of King's Bench at Three Rivers was held on the 1st of March following. On that date McCraw's counsel were prepared to proceed with the trial, but the Crown declared that, owing to weather conditions existing in the north, it was impossible to get witnesses. Mr. Justice Cock, the presiding judge, then adjourned the court until the 25th of the same month. On the 25th, McCraw and his counsel again declared their willingness and their anxiety to proceed, but the Crown again declared that it would be impossible to go on, and as a matter of fact no jurors were summoned. Mr. Justice Cook then declared that he would fix a special term of the court for the purpose of giving McCraw a trial, and after discussion with counsel for the Crown and for the defence, the 3rd of June was agreed upon, the counsel for the Crown declaring and promising to go on with the trial on that day. On the 3rd of June, a special panel of jurors having been summoned, counsel for McCraw being in attendance, and the Court having opened, the Crown declared that it was impossible to proceed owing to the absence of witnesses, and the inability of the Crown to obtain their attendance.

THE APPLICATION FOR BAIL.

The defence urged strenuously the hardship McCraw would undergo if further enlargement of the case were permitted, and pointed out that absolutely no diligence had been shown on the part of the Crown, and so far as the defence could see, no effort whatsoever had been made to procure the attendance of the witnesses said to be required. Notwithstanding the resistance of the defence, the presiding judge, Mr. Justice Cannon, who had presided at the first trial of McCraw, decided that the case should stand until the 1st day of March, 1908. Then followed an application for bail, based upon two grounds: First, of the undue and long detention of McCraw without trial; and, secondly, on the ground that under the judgment of the Court of King's Bench quashing the verdict on the admission of illegal evidence, that no evidence of a substantial character could be offered to connect McCraw with the murder of Sclater. After long discussion, the Judge gave the following judgment:

"Take nothing by motion."

Notice was thereupon given to the Crown, in the presence of Mr. Justice Cannon, that a petition for habeas corpus would be presented at the next sitting of the Court of King's Bench, which would take place on the 17th of June, instant. On the 17th, the petition was presented before the full court sitting at Montreal, and a writ was ordered to be issued, returnable on the 19th.

SALES 139,000 SHARES TO 2 P.M.

The Wall street market grew distinctly heavier during the afternoon, but there was no increase in the amount of selling.

Rock Island was conspicuously weak, falling from 21¾ to 20¼; the preferred sold a point below yesterday's closing. North-Western gained one.

Reading sold around par, and the rest of the list was generally sagging.

The sales up to 2 o'clock were only 139,000 shares.

A wire stated that every prominent member of the New York Stock Exchange went over to Sheepshead Bay to see the race for the Suburban Handicap.

INVESTORS ARE BUYING SMALL LOTS LOCALLY

Attracted by Stocks Yielding From 6 to 9 p.c. on the Money.

IT WAS DEADLY DULL IN WALL STREET.

The Sales to Noon in That Market Amounted to Only 88,870 Shares.

The sales to noon in Wall Street were only 88,870 shares, not a tenth of what is done on big days.

In Montreal the list was uninteresting, although there is one feature of importance, and that is the investment buying of small lots.

There were 33 transactions on the exchange this morning, and over 20 sales were of small or odd lots, undoubtedly for investors who have been attracted by the bargains going, and the fact that they can purchase good stocks that will return them anywhere from 6 to 9 per cent. on their money.

Richelieu worked a little easier, and was off to 63½, while Rio, which opened at 44½, moved up to 45. This stock is being taken almost exclusively by people in England.

There were no changes in the rest of the list, and no tendency apparently to recover from the recent low prices.

IN WALL STREET.

The only feature in the market has been the strength and activity of Union Pacific in an otherwise dull and uninteresting market.

The strength in this stock has not caused any buying of importance elsewhere in the list, but the entire market has shown consistent strength throughout and continues to wear a thoroughly soldout appearance.

Much discussion has taken place on the floor of the Exchange over the Reading dividend, the consensus of opinion being that the Morgan faction wants an advance, while the First National Bank party, including Mr. Baer, is averse to any raise at the present time.

Call money has shown a slightly firmer tone, advancing to 3¾ per cent., but this advance had no effect on prices.

HAVING BIG DAYS.

The shekels continue to pour into the treasury of the Toronto Railway. Saturday was a big day, with gross earnings of $12,716, an increase over the corresponding day of last year of $2,041. The Montreal Street Railway beat it the same day, however, with earnings of $13,103, an increase of $2,044. Both roads show steadily increasing gross earnings.

DOMINION COAL.

During the past three or four days a large number of men in the Dominion Coal Company's employ have been engaged in moving the local boring apparatus from Lingan to South Bar, where operations will be begun as soon as possible, in the hope that coal may be located at that point. It has been always thought by mining experts that the Lingan seam ran in undulating waves, going down to great depths and then again rising comparatively near the surface.

The Toledo Railway for the two weeks ending June 14th showed earnings of $59,971.56 against $58,360.26 last year, an increase of $1,611.30, or 2.07 per cent.

MEXICAN POWER.

The statement of earnings of the Mexican Light & Power Company for the month of May shows satisfactory increases in both gross and net over the two preceding months, the increase over April being $18,706.81 in gross, and $18,213.02 in net. Operating expenses were about the same as in April, and the surplus of $86,102,673 equal to about 3.80 per cent. in the $13,585,000 of common stock. Earnings, with comparisons follow in Mexican currency:

May gross	$386,478.95
Operating expenses	150,376.28
Net	236,102.67
Fixed charges	150,000.00
Surplus	86,102.67

By months, for 1907, the figures are:

	Gross.	Net.	Surplus.
Jan.	$397,336.24	$264,239.53	$96,239.53
Feb.	385,916.39	222,146.04	72,146.04

New Wealth We Are Now Getting

In the "Topics of the Street" the other day the Star mentioned the fact that 300,000 immigrants coming into Canada with $100 a piece would give us $20,000,000.

This was a modest guess.

The Canadian Government caused an analysis of last year's American invasion to be made and the result was astonishing.

By counting up the declared value of money and effects carried into Canada by American settlers in 1906 from four States—Michigan, Montana, Illinois and Massachusetts, it was found that the average wealth brought across the border from these states was $809 for each settler.

This average for the four states amounted to a total of $6,376,420.

As the number of Americans who crossed the frontier during the year was 61,282, the whole value of the possessions they brought with them was approximately $49,586,138.

Not only did last year's American settlers in Canada transfer $49,586,138 in money and other movable property into Canadian territory, but, the economic value of an immigrant being not less than a thousand dollars, it is plain to be seen that the United States lost, and Canada gained, at least $100,000,000 in last year's amazing migration.

Standard Bank Had Good Year

The annual meeting of the Standard Bank was held yesterday afternoon. During the year the paid-up capital was increased by $356,000, and is now $1,640,420. The reserve was increased by the same amount, and is now $1,640,420. Deposits during the year grew $1,527,000 to $14,676,000. Loans increased $3,000,000. The total assets are now $20,626,640, as compared with $17,745,110 a year ago. Quick assets total $6,119,000. As before noted, the bank earned 17.82 per cent. on capital for the past fiscal year.

"STREET" TOOK IN $2,169,000 IN EIGHT MONTHS

But Local Trolley Concern is Spending a Lot of Its Earnings.

AND THE SURPLUS IS BARELY GAINING.

Operating Expenses and Fixed Charges Were Much Heavier Than a Year Ago.

In the last eight months, according to the figures issued to-day, the Montreal Street Railway took in $2,169,000, or an increase of 13½ per cent. over the earnings for the same period last year.

But while the road is making a remarkable showing in the way of earnings it is spending a lot of money.

Its operating expenses are 16½ per cent. greater than they were a year ago, while fixed charges are 25 per cent. greater.

Thus the surplus, which amounts to $425,000 for the eight months, is only $382, or .09 per cent. larger than in 1906.

The eight months' statement is as follows:

	1907.	1906.	Inc.
Earnings	$2,130,385	$1,883,012	$247,373
Mis. earn.	39,250	23,177	16,072

Surplus	$425,239	$424,856	382

* Decrease.

For the single month of May the road showed an increase in gross of 12 per cent., and a gain in net of 8⅞ per cent. The surplus increased 11½ per cent.

Cause of Smash In Hill Stocks

Although Mr. James J. Hill is in Montreal to-day, it is not likely that he will tell us the real reason for the enormous decline in his stocks.

But while Mr. Hill is silent on this matter, a man who professes to know says:

"The trouble with the Hill stocks was this: There were, at the time of the big collapse, about 2,800 Great Northern stock-holders and a few more Northern Pacific stock-holders. The names of the stock-holders in these two roads were so nearly identical that the total number of holders in these roads did not exceed 3,100. In other words, 3,100 individuals were assessed more than $150,000,000 in the course of a few weeks. Such an enormous assessment was never known before in history. It meant on an average $50,000 apiece. On the other hand, about fifty of these men owned in the neighborhood of $100,000,000 par value of these securities. They were assessed but $100,000,000. It is $2,000,000 apiece on an average for these fifty men. Some of them got hit to the extent of $10,000,000 or $15,000,000. This is a big blow for merely one issue, and little wonder that the stocks went down."

OPINIONS ON THE MARKET

J. B. Picken: The failure of the Reading directors to declare the regular dividend on the common stock yesterday is variously construed, but disapointment is generally felt.

J. S. Bache: The London market was higher this morning, the Bank of England having strengthened its reserve. The effect was reflected in markets.

Burnett & Co.: The banking interests are inclined to be cautious with respect to money and are indicating to their clients and others that fairly stringent conditions are likely to obtain two or three months hence if not at an earlier date.

A. O. Brown: The attendance on the floor was very light, and probably will be still less later in the day on account of the races this afternoon.

One Of The Principal Handicaps.

TOPICS OF THE STREET

A great many Montrealers who know, or who have had dealings with Theodore H. Price, of New York, are interested in the serious charges being made against him.

He is accused of "fixing" the men who compile the monthly cotton crop report issued by the U.S. Government, not only getting inside information, but actually having the reports doctored to suit himself.

It is hoped that the charges are untrue.

Mr. Price made a name for himself shortly after the failure of Price, McCormick & Co.

When this firm went down, owing $13,000,000 or more, there were many Montreal creditors on the books.

A settlement was made, and the firm received a clearance, but that did not satisfy Mr. Price.

He set to work to amass another fortune and paid all his old creditors 100 cents on the dollar.

A year or so ago the Toronto Railway had caught up to Montreal Street, and was taking in as much money every day as the local road.

This year Montreal Street has forged ahead, and by showing average daily earnings of over $10,000 is making a really remarkable showing.

The increase is simply due to the growth of the city, as the earnings keep big day in and day out.

A friend of Mr. J. H. Plummer's writes from Sydney to say that the president of the Steel Company is in excellent health, and "full of fight."

The Bank of Japan has just declared its regular dividend of 12 per cent.

The 200 per cent. dividend just issued by the Adams Express Co. is pretty nearly the biggest on record.

The Adams Company, which has been in business since 1854, operates on about 50,000 miles of railroad, including the lines of New York, New Haven and Hartford, the Pennsylvania, and the Chicago, Burlington and Quincy.

Senator Forget is a keen fisherman, and his trip to Metapedia, on the Bonaventure river, is an annual affair, usually lasting two weeks or more.

The Insurance Press has issued a report which shows that the life insurance organizations of the United States and Canada distributed in 1906 the sum of $327,676,199, against $307,019,972 in 1905, the increase being 6.5 per cent.

It is reported that European financiers are preparing to provide Russia with $50,000,000. According to report, the United States is to give $12,000,000 of the sum named. The money, it is said, is to be devoted for domestic needs, improving internal affairs and developing the industrial and commercial resources of the country.

TORONTO'S STOCK EXCHANGE.

A. P. Burritt Was Again Elected President of Board.

There are few changes in the list of Toronto Stock Exchange officers as a result of the election this week. The officers elected were: President, A. P. Burritt; vice-president, J. O. Buchanan; secretary, W. H. Brouse; treasurer, F. G. Osler; committee, Murray Alexander, H. O'Hara and Edward Cronin; auditors, J. K. Nivan and Ewart Osborne.

The changes are that Mr. Buchanan replaces Mr. G. Tower Fergusson as vice-president, and Mr. Brouse takes the secretaryship held by Mr. Buchanan, while Mr. Osler replaces Mr. Brouse as treasurer. H. O'Hara is the new member of the executive, and Mr. Osborne replaces Mr. Blackwood as auditor.

CHATS ON CHANGE

"What the people of Montreal want is a Board of Commissioners to manage the affairs of the city," declared a prominent business man on the Board of Trade to-day. "At the present time sufficient money cannot be gotten together to put our city into at least some kind of presentable shape, while as a matter of fact we should be considering the advisability of establishing an elevated railway system; putting all the overhead wires underground, and making Montreal a city worthy of her position as the metropolis of Canada. We are at present a long way behind."

Armstrong wired the Ogilvie Flour Mills Company to-day from Hoisington, Kan.: "Fine, warmer. Came through two of the best winter counties to-day; will not make better than 40 per cent. of a crop. Cannot estimate frost damage; threshing will tell."

Reports from Ontario confirm the further deterioration in the winter wheat crop, which is not expected to make over 45 per cent. of an average. Rody looks only fair. Oats are doing better. The hay crop so far looks very poor, and unless there is more favorable weather within the next few weeks, the crop will be almost a total failure.

Broomhall cabled the Ogilvie Flour Mills Company to-day: "Liverpool firm, is higher on the return of wet weather. United Kingdom—Good demand on La Plata cargoes of wheat for forward delivery."

A prominent commission firm, writing from San Francisco to their Montreal agents, says that the situation in fruits is getting to be really critical. "We have explained to you in our numerous letters fully regarding cherries," they say. "We are now having a rain-storm, which is undoubtedly hurting cherries and ruining what few there are still to pick.

A private advice from Hamburg, Germany, states that the market there will require a considerable quantity of California prunes to make up the deficiency in the coming European crop.

Beerbohm says of the English crop that several of the reports expressed conviction with such conditions as were reported on June 1 the crop cannot equal last year's in yield or quality.

A wire from New York says of the cotton crop: "The outlook for the coming crop is the worst in years. The plant is small, yellow and sickly, with the fields in a grassy condition, owing to scarcity of labor, and a great deal of cotton land has been abandoned. Mississippi will be doing well if 1,000,000 bales (a third of the normal crop) are raised."

A report from Los Angeles says that twenty carloads of cantaloupes are on the way to Eastern markets from Brawley, in the Coachella Valley, breaking all records for earliness, size and quality.

A Seattle report says that the fleet of cod-fishing boats sailing from Puget Sound this year to the Alaskan banks has increased materially. The fleet is larger than ever before.

It is rumored that the Canadian Fire Underwriters' Association is about to take up with the Board of Trade the advisability of entering on a lively campaign for the purpose of getting all the overhead wires in the city put underground, and that within a day or two each member of the Board will be called on to do his little share.

The following gentlemen were introduced on 'Change to-day: Messrs. D. D. E. Cooper, Toronto, by A. F. Read; Capt. McLeod, 88. J. H. Devereaux, by Mr. T. R. McCarthy; G. Meade, Mexico, Consul-General of Mexico.

BANK OF ENGLAND FIGURES.

A Fair Increase in Proportion of Reserve to Liability.

The weekly statement of the Bank of England shows the following changes:

Total reserve, increased	£680,000
Circulation, decreased	16,000
Bullion, increased	684,601
Other securities, increased	409,000
Other deposits, increased	25,000
Public deposits, increased	1,954,000
Notes reserve, increased	575,000

Government securities, unchanged.

Proportion of the bank's reserve to liability this week is 47.30 per cent. as compared with 46.96 per cent. last week.

POTATO AND EGG MARKET.

POTATOES.—The market is easy and prices to-day are: Sound white potatoes, $1.20 to $1.25 in single lots; at car, $1.15 to $1.18; in car lots, $1.10 to $1.15; sound red potatoes, $1.15 to $1.20 in single lots; at car, $1.10 to 01.13, and in car lots, $1.05 to $1.10.

EGGS.—The market remains in a weak condition, and there is very little trading. Prices are unchanged at 17c in wholesale lots to 18c in single lots, with 20c offering for selects.

WHEAT PRICES FELL OFF AT CHICAGO TO-DAY

On Receipt of More Favorable Wheat Growing Weather News.

PROPOSED STRIKE CAUSES ALARM.

Tea Prices are Higher—Butter Easy—Cheese Weak—Provisions Steady—Cattle Slow.

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, June 20.—The grain trade is quite uneasy owing to the prospects of a telegraphers' strike. The unions have voted to go out at any time the head official gives the order, and there is uncertainty as to when it will be issued.

To-day's Quotations.

July sold at between 91¾ and 92¾c, and receded to 91⅞c; September, at 94⅝ to 95⅝c, and down to 94¾c; December, at 95⅝ to 97⅝c, off to 96¾c.

Strike Will Kill Trade.

The possible telegraphers' strike was discussed fully. The grain trade would be paralyzed by the loss of telegraphic communication with the outside world, and the periods when the wires are storm bound will be made to appear as an oasis as compared with a general going out of the operators.

Soil in Good Shape.

"The Minneapolis flour output for the week decreased 16,260 barrels," says the Northwestern Miller. "Summer weather has prevailed during the week, and the soil is in perfect condition. Everything has been very favorable for the growing wheat."

Shorts in Danger.

"The man who puts out a short line of wheat these days needs a guardian, unless he is quick enough and shrewd enough to hand it to his opponents in the pit when a sharp bulge is under way," said Robert Pringle, of Pringle, Fitch & Rankin. "Conditions could hardly be more dangerous to the short seller than they are at the moment, while the man who owns a line of wheat seems to be able to accomplish something in the way of money making. To start at the extreme north, rain is badly needed in western Canada, and unless that country is thoroughly moistened, the crops up there will suffer no little damage.

Plant Backward.

"Coming down from the Canadian west, the great wheat fields of North Dakota are encountered. The plant is backward, and the wire worm is in the young grain, causing losses.

Green Bugs Again.

"Webster, S.D., reports the green bugs as damaging wheat, and both Minnesota and North Dakota are slated for losses from one cause or another. Owing to frost and bug losses, Kansas will not have over 40 per cent. of a crop, it is claimed by some. Oklahoma is short to a lamentable degree, and Texas—well, that's sufficient."

Bears Are Scarce.

Wheat bears are scarce on the Board of Trade. There is no leader in the bear camp now that Joseph F. Jackson is in Ontario looking over the crop situation.

Patten at a Loss.

"Jim" Patten is short a line of wheat, and he has a loss in it. His brother George has gone to Europe. He stopped long enough in Montreal to say that wheat would sell much higher, and he was correct in his ideas.

The German Market.

Berlin cables: "Our market is firmer owing to reduced estimates of the wheat crop from Southern Russia."

Texas millers at the Kansas City grain meeting estimated that Texas and Oklahoma will need to import 30,000,000 to 35,000,000 bushels wheat.

A special from Edmonton says the crop conditions are excellent.

A Winnipeg grain man wires: "Our advices are that the crops are coming along nicely. They are, of course, late, but wheat is making good and satisfactory progress."

Indications Fair.

Winnipeg.—A message to the Star representative says: "Crop conditions are favorable, although two weeks late. Grafton, N.D., acreage 20 per cent. short; two weeks late: indications fair."

Bullish Information.

Neepewa, Man.—Wheat three weeks late; must get favorable forcing weather to mature before frost.

Brandon, Man.—Crop three weeks late; do not expect more than half a crop in this district.

A letter just received from one of the best authorities in Winnipeg states as follows: "The newspapers have been giving glowing accounts of the condition of the Manitoba crop. We have a letter from one of our travelling men, who covers the entire southern district just north of the boundary line, and his report is certainly not encouraging. His is practically the first discouraging information we have had from the country. He claims the moisture is insufficient for the wheat and that the weeds are getting ahead of the grain."

A local grain house has just worked 75,000 bushels No. 2 hard wheat for export via Baltimore and enquiry good for more.

Steady Advance In Tea Prices

Cables report a steady advance for all teas, Ceylons about ½d per pound; Indians, the same.

Young Hysons that could be bought the end of last season for 10c cannot be laid down to-day for less than 13c. This refers to Pinz Suez, also Moyunes.

The total consumption for Indian and Ceylon teas in all countries outside the U.K. show an increase of 32 million pounds over 1905, the actual consumption.

The offerings in public sales in Ceylon in May were 88,000 this year, against 153,000 packages in 1906.

For Indians offerings at public sales in May were 10,000 packages, against 16,500 packages in 1906.

China.—The market has opened in Hankow on an average basis of 10 to 12½ per cent. higher than last year; the quality is reported better.

The Rusian buyers have been buying very freely.

Green teas of all descriptions continue very firm, a large business being done in extra gunpowders and young Hysons.

Prices for Japan are unchanged and firm.

Cattle Prices Weaker To-day

Special to the Montreal Star.

Toronto, Ont., June 20. — The cattle trade is slow and prices weak, 116 loads in to-day, including 1720 cattle, 1455 sheep and lambs, 1400 hogs, and 350 calves. Export cattle, choice, $5.50 to $5.75; medium, $5.25 to $5.50; export bulls, $4.75 to $5.00; light, $4.50 to $4.75; cows $4.25 to $4.50; butchers cattle, choice, $5.25 to $5.50; medium, $4.75 to $5.00; common, $4.00 to $4.50; cows, $4.00 to $4.25; bulls, $3.75 to $4.25; stockers, choice, $4.00 to $4.25; medium, $3.25 to $3.50; common, $2.75 to $3.00; bulls, $2.50 to $3.00; heavy feeders, $4.65 to $4.75; short keeps, $4.75 to $5.00; milch cows, choice, each, $40 to $50; common, each, $25 to $35; springers, each, $25 to $40; export ewes, 5¼c to 5½c per lb., steady; bucks, 3½c to 4¼c per lb., steady; spring lambs, $3.00 to $6.00 each, steady; calves, 3c to 6c per lb.; hogs, selects, $6.90; fats and underweights, $6.65, fed and watered off cars.

HAY AND OATS MARKET.

HAY.—The hay market is firmer today. The quotations are: No. 1, $16 to $16.50; No. 2, $15 to $15.50, and clover mixed, $14 to $14.50.

OATS.—The market is firm with prices about the same. We quote: No. 2 Manitoba, 49 to 48½c; No. 2 Ontario, 49 to 48¼c; No. 3, 47½ to 48c; No. 4, 47c to 46½c.

A NEW BAKERY

MR. M. JASLOW, who has practically been in the bakery business all his life, and is, therefore, a man of the very highest experience, has just opened a new, sanitary, up-to-date bakery at 168 Cadieux Street.

What strikes one first of all on entering the bakery is the spotless cleanliness seen everywhere, and the sweet, wholesome odour of the bread.

Most bakers make their bread in dark underground cellars. Here we have the bread made from the very beginning in bright, airy upper floors, which must in itself make it more wholesome and better for the Montreal public's consumption.

The most up-to-date machinery has been imported from the States, and the large dough-mixer, which is driven by electricity, is worth going far to see.

The large troughs in which the prepared dough is put are made of piano wood, because this is the only wood that defies the dirt, can be very easily cleaned, and throws off no splinters.

In numerous other ways there are reasons why the Montreal public should patronize this new, and perhaps cleanest, bakery in Montreal.

Why not send in an order to-day, just to try us. We're ready to deliver promptly to any part of the city.

BUTTER AND CHEESE MARKET.

BUTTER.—The feeling in the market to-day is slightly easier, and it is difficult to realize the prices made earlier in the week. The market has a downward tendency.

It is the opinion of some in the trade that still lower prices will exist before a higher figure is reached.

Stocks are endeavoring to accumulate a little now that the arrivals are more than the home trade can comfortably take care of. If no trade is done for export at current figures, the chances are the prices will be lower in the immediate future.

The official quotations to-day are: Ontarios, 20c; dairy, 18 to 18½c; Townships, 21c; Quebecs, 20½ to 20¾c. Market easy.

The local receipts to-day were 5,093 packages, as compared with 4,730 for the same day last year.

CHEESE.—There is a fairly active trade passing to-day, but it is at a lower range of prices. Bids are coming from England in response to cable offers, but they show a determination not to pay the full prices asked, and some holders are meeting the counter offers rather than carry the goods forward until next week, as by that time, with the easier feeling throughout the country, prices most likely will be lower. The hot weather this week has affected a large portion of the receipts now coming in, causing them to run very loose and open.

The official quotations to-day are: Ontarios, 11⅞c; Townships, 11⅝ to 11¾c; Quebecs, 11½ to 11⅝c. Market weak.

The local receipts to-day were 25,580 boxes, against 12,315 for the same day last year.

OIL QUOTATIONS.

MONTREAL—VAUDREUIL.

Commencing Sunday, June 23, and each Sunday thereafter, the Grand Trunk Railway system will run a new train, leaving Montreal at 9.10 a.m. for Vaudreuil. Returning, leave Vaudreuil at 11.10 a.m. for Montreal, stopping at intermediate stations in both directions.

7 Per Cent.

In view of the high rates which money is now commanding, every individual with surplus funds can make investments giving high interest returns.

Preference shares of established companies, showing records of earnings much in excess of dividend requirements, with regular dividend payments, over a long term of years, should be attractive to investors.

At the prices now ruling, some Preference shares of the best class yield over 7 per cent., which is a large return for safe investments.

We shall be glad to furnish particulars of a good 7 per cent cumulative Preferred Stock.

A Closing Out Deal in Shirtwaists

8 Designs in High-Grade Shirtwaists of $2.00, $2.50, $3.00 and $3.75 Values. All round at, Friday - - $1.25

One of the biggest shirt waist manufacturers came to us the other day with 8 fine designs in high grade Shirt Waists. He had an odd 4 dozen of one, an odd 8 dozen of another, 6 dozen of this, and so on. Couldn't make more—no more material. No use to him—quantities of each too small. They were all very pretty designs and quite new. They cost $2.00, $2.50, $3.00 and $3.75. We closed them out at one price, and we hand them over to you on Friday for a small percentage more than they cost us.

—All well made, of good quality English Washing Cambric; tucked or trimmed back and front with handsome laces and insertions of Valenciennes or Irish Crochet or Normandy Valenciennes, with beautiful embroideries let in one inch panels or in motifs or insertions; ¾ and long sleeves. Not one pattern but what's attractive and, of course, fashionable. Values $2.00 to $3.75. Friday all at, each $1.25

LITTLE PROFIT IN HOLD-UP GAMES

Two-thirds of Those Engaged in it Die Violent Deaths—Others Die in Poverty.

Special to The Montreal Star.

Jamestown, Va., June 20.—William A. Pinkerton delivered an address on "Train robberies, and hold-up men," at the annual convention of International Association Chiefs of Police, which is in session here. He said in part:

"In the early days on the plains, the cowboys with the criminal inclination, noted for deeds of daring, began his career as a stage and train robber, by cattle rustling and horse stealing. Many train and "hold-up" robbers since 1875 developed this way.

"The 'hold-up' man operated like the footpad of to-day, cautiously waiting for his victim, pouncing upon him in surprise, commanding of him to throw up his hands, 'covering' him by thrusting a revolver in his face, then relieving him of his money and valuables. Usually the 'hold-up' man, to avoid arrest and identification, covered the outlines of his face below the eyes with a triangular cloth or pocket handkerchief, or a part of a drawer leg, tied back of the head, wore a soft hat well down over his eyes, but in many of the great train and bank robberies, shortly after the war, no masks of any kind were worn.

"The average train robbery band consisted of from five to eight men, but in recent years successful robberies were committed by from three to five men and in a few instances by a lone individual.

"Our study of the train robber shows 90 per cent. of the murders committed by these 'hold-up' men, were assassinations, their victims in very many instances were defenceless, or the desperados never gave them a chance, besides outnumbering those who opposed them, pouncing on their victims when least expected.

"There is no crime in America so hazardous as 'hold-up' robbery. Over two-thirds of those who have been engaged in it, have eventually either been killed outright, operating or resisting arrest, lynched by posses, or what is known as 'died with their boots on.' Many were wounded and died from the effects of wounds, while nearly all others were either captured or sentenced to long terms of imprisonment or driven from the United States, becoming exiles in distant foreign climes. Those at large are constantly in fear of arrest, living secluded lives, and risking no chances of discovery by communicating with friends.

"I have maintained that no crime pays, and 95 per cent. of criminals die in debt and frequently in want. When the criminals' time comes for punishment, nearly all leave their families in actual want. I know of few train robbers or 'hold-ups' alive and out of prison to-day who are in comfortable circumstances, unless they have made it by honest means. Many have brought the onus and stain of their crimes to their families and relatives to live down."

SUNSHINE FURNACE

BURNS COAL OR WOOD

The Sunshine is a good, "all round" furnace. Burns, with equal facility, either coal or wood. Coke, too, if you prefer it.

And so perfect is the combustion of the Sunshine that it extracts every unit of heat from the fuel.

What's left in the ash-pan is not worth sifting.

Sunshine consumes less fuel, too. Because its perfect system of dampers prevent the escape of the hot air up the chimney—compels it to come out through the registers.

You pay for heating the inside—not the outside—of your, house when you buy the Sunshine.

If your local dealer does not handle this mo t economical furnace write direct to us for FREE BOOKLET.

A Terse, Truthful List of Great Bargains!

IT'S DIFFERENT NOW.

Time was when shoppers were done up—fagged out, in the hunt for bargains. Had to know, too, what was the real value. We've changed things. We do the hunting! That work no longer bothers shoppers. We empty our bargain game bag every day before them. Spot cash and big buying bring down big game. Our small profit system is what secures such quick distribution to homes.

Here's a Friday bargain list that offers many opportunities.—

Shirtwaist Suits

At Three-Quarters of the Regular Value.

You can form very little idea of what fascinating suits these are without looking them over. We've prepared a most tempting display for Friday at 25 per cent. below regular cost.

Included are New York Jumper Suits in brown, black and blue.

Sailor striped Shirt Waist Suits in all colors.

Linen Eton Suits in blue, white and mixed colors.

Ladies' Cutaway Coats in blue or white linen.

MUSLIN WAISTS 69c

We shall display at the same time a lot of handsome Muslin Waists, our latest lucky purchase. Three different styles, delightfully dainty and absolutely needed during the hot spell; regular value $1.00. Friday 69c

A Convenient Store for Men

It is probably because of our unusually large clientele of men that we provide such broad and comprehensive stocks for them. Certain it is that nowhere else can a man find such a satisfying variety of summer furnishings; no matter what you want it's in our stock.

It's not expensive to dress well if you know where to do your shopping.

Here to-morrow we will have a vast display of high class goods greatly underpriced at the booth opposite main entrance.

BAR ROOMS ON HOLIDAYS.

Resolution Passed Petitioning Closure on Christmas and Good Friday.

Hamilton, June 20.—At the closing sessions of the Niagara Synod yesterday, a resolution was introduced by Joseph Beaumont, recommending that the Legislature be petitioned to pass a law compelling hotelkeepers to close their bar rooms on Christmas Day, Good Friday and other religious holidays.

The resolution was opposed by Ald. Nicholson and other delegates, who did not think that there was a chance of getting the legislation asked for. George Cairns, Beamsvill, thought that there was a possibility of the temperance advocates going too far.

The resolution was amended to cover only Christmas and Good Friday, and was adopted.

BOY ADMITS STARTING FIRES.

Conflagration at Belleville Due to Eleven-Year-Old Lad.

Belleville, Ont., June 20.—Yesterday afternoon fire broke out in No. 1 fire station. Before the fire was noticed it had gained such headway that when the firemen arrived nothing could be saved but the two fire horses. The fire engine, hose cart, about 500 feet of hose and other apparatus were destroyed, and the building was completely gutted. The loss will probably be fully $50,000 or $60,000. The building was insured for $1,000 in the Traders.

There was a $15,000 fire last night in the premises of the Belleville Hardware Co. The fire broke out in the storage department, and before it was extinguished nearly all the manufactured product on hand consisting of locks, keys, had been destroyed. The loss is covered by insurance.

Last night a boy named Dorland Foote, aged 11 years, was taken into custody by the police, and admitted that he set fire to the Queen's Hotel stables, which were destroyed on Saturday afternoon, and also to No. 1 fire station, burned yesterday.

PUBLIC WILL SUFFER IF RATES ARE CUT

At the afternoon session of the Bell Telephone Enquiry yesterday, Mr. Aime Geoffrion, K. C., Counsel for the Bell Telephone before the railway commission, brought to a conclusion his arguments in reply to the contention of Government Counsel. He stated the willingness of the Company to accept the suggestion of Mr. Shepley that the measured service rate be applied to cities possessing more than twenty thousand telephones. However, he asked that the matter be kept "in statu quo" until a fair basis could be arrived at.

Mr. Geoffrion then discussed local rentals, but urged that definite lines had not been set for the company in the suggestions of the Crown counsel. Their present charges had been set by the experience of experts, and he could not seen any special authority in the suggested rates of Mr. Shepley. He proceeded to justify the $5 extra on the "long distance" transmitters, by the fact that the Company's dividend did not nearly come up to the figure considered by American experts to be fair to such Companies in view of all considerations of risk.

"As to the argument," said he, "that the Company is making too much money on the long distance lines, my learned friend is working on a wrong hypothesis. He forgets that the long distance lines render necessary a large plant investment not included in the capital expenditure. The long distance rates give better service at a lower figure than do those of the Nova Scotia, New Brunswick or Prince Edward Island Companies."

COMMITTEES NAMED BY PEACE CONGRESS

Second Session Lasted an Hour and Little Was Done.

THE DISARMAMENT QUESTION

May Be Introduced by United States Delegates—International Prize Court Proposed.

The Hague, June 20.—The surprise of the second session of the Peace conference was the formal reservation by Horace Porter, on behalf of the United States of the right to present the question of limitation of armaments. He also reserved the right to introduce the subject of the collection of contractual debts by force. The reservation was made in accordance with a notice served on Russia during the preliminary negotiations last spring and in order that silence now might not be construed as acquiesence in the restriction of the work of the conference and the limits of the Russian programme.

It can be stated positively that no proposition has been formulated by the American delegates. But this action has renewed the hope that the United States will bring up the question of limitation and has given great satisfaction to the pacificists.

Sir Edward Fry also served notice that Great Britain reserved the right to introduce subjects outside the programme. Another interesting feature of the session was Baron von Bieberstein's notification that Germany intended to offer the proposition of an international prize court, to which appeals could be made time of a maritime war and that decision of which could be final.

The fact that the first definite proposition submitted to the conference should emanate from Germany and receive the prompt and cordial support of Great Britain and the United States created an especially good impression.

Beyond these matters, the session was prefunctory in character. Four committees were created as pre-arranged and the rules formulated, except on permitting countries to vote by proxy, adopted. The United States was honored by two honorary presidencies, and Mexico, Argentine and Brazil each obtained recognition.

Elaborate precautions still are being taken to insure the safety of the delegates from anarchistic attempts, as well as to prevent eavesdropping. Before the meeting yesterday the old castle was thoroughly searched and all the doors leading to the Hall of Knights were sealed. A force of twenty police occupied the cellar underneath ready to respond to an electrical call, placed on President Nelidoff's table.

COMMITTEES NAMED.

The full committee organization was as follows:

First, arbitration — President, M. Bourgeois, France; honorary presidents, Mereh Von Kahos-Mere, Austria; Sir Edward Fry, England; Ruy Barbosa, Brazil; vice-presidents, Dr. Kriege, Germany; Signor Pompili, Italy; Senor Esteva, Mexico.

Second, land war — Presidents, M. Bernaert, Belgium, and Herr Asser, Netherlands; honorary presidents, Baron Marschal von Bieberstein, Germany; General Horace Porter, United States; the Marquis de Soveral, Portugal; vice-presidents, Constaine Bukhn, Denmark; Dr. Beldiman, Roumania; Dr. Carlin, Switzerland.

Third, maritime war — President, Count Tournelli, Italy; honorary presidents, Jos. H. Choate, United States; Tseng Liang, China; Turkhan Bey, Turkey; vice-presidents, Herr Hammarskjold, Sweden; Dr. Drago, Argentina; Baron d'Estournelles de Constant, France.

Fourth, Geneva convention — President, Professor de Martens; honorary presidents, Senor Don de Villa Y Urrutia, Spain; M. Kurnoshi, Japan; vice-presidents, Sir Ernest M. Satow, England; Professor Lammasch, Austria; Dr. Hagerup, Norway.

The delay in getting the conference under way creates the suspicion that the leaders are deliberately delaying the preliminaries in the belief that by giving the great powers more time, now that they unerstand each other, the work will be facilitated later.

The session yesterday lasted only one hour.

The Plateau Commercial Academy.

The closing exercises in connection with the scholastic year at the Plateau Commercial Academy, took place last evening, in the presence of a large number of relatives and friends of the pupils. On the platform with Commissioner Semple, who was in the chair, were Messrs. A. D. Lacroix, director-general of schools; M. P. Perrier, M. W. McGown, inspector; Abbes Bedard and Jodoin, the brothers of l'Ecole St. Pierre; Major Ostell, Messrs. Bernier and Laberge, of Montcalm School; and Prof. Brisebois, of l'Ecole Normale. The prizes, which were numerous, were distributed by Abbe Lecoq, superior of St. Sulpice.

An interesting wedding took place at Cornwall, yesterday, when Miss Grace Elizabeth MacLennan, second daughter of Mr. D. B. MacLennan, K. C., was married to Mr. Charles Geddes Scarth, of Edmonton, Alta. The ceremony was performed by Rev. N. H. MacGillivray. The bride was attended by her sister, Miss Maud MacLennan, and Mr. J. G. Morrison, was best man.

FRIDAY OPPORTUNITIES.

A combination of June clearing sale and Friday opportunities will make tomorrow doubly interesting at the dry goods store of Messrs. Jas. A. Ogilvy & Sons, St. Catherine street west, corner of Mountain street. Their announcement on page 11 of this issue of the Star will assist in selecting your summer outfit.

THE WEATHER

PROBABILITIES FOR THE NEXT 24 HOURS.

Moderate winds, fair. Friday light variable winds, fine and warmer.

What is it going to do to-day? This is a puzzle question. Probs says "fine." Our local wiseacres show a sceptical unbelief in the prophecy, and they support their belief by an ostentatious display of their bumber shoots. Officially one must believe our friend, the weather man. A slight drop in temperature is noted all over, but so slight that, except in New York, and the little towns across the Atlantic, there does not seem to be any occasion for kicking.

Montreal Weather Statistics.

BODY OF FONTAINE WILL BE EXHUMED

Jury Demands That An Autopsy Be Performed and Inquest Was Adjourned.

Special to the Montreal Star.

St. John, N.B., June 20.—In the inquest yesterday afternoon at Dalhousie, into the killing of Peter Fontaine by Constable Seeley, the latter was recalled. He testified that when Gallop and Fontaine were struggling on the stairs, he was standing with his back to the door. He put the handcuffs on Peter Fontaine on the stairs, as he was lying with his feet up the stairs. Fontaine resisted vigorously. At that time he did not know Fontaine was wounded. He fired five shots in all. He knew of Gallop firing three shots. The witness had nothing to do with the firing of the first shot.

Dr. John R. Disbrow swore that there but two wounds in Fontaine's body. In examining the body, he took a piece of absorbent cotton and used it to clean the surface of the wounds, probably a piece of cotton adhered to the skin, and this was thought by one witness to be covering a wound. He did not examine the brain. He could not find the bullets.

Notwithstanding the sworn evidence of the witnesses that there was a third bullet in the body he did not think a further investigation was necessary. A bullet would not make such a wound if the man was crawling on his hands and feet. When he first entered the house, the body was lying on the bed. He did not see any blood on the ground, save a few drops on the stairs and on the upper floor. If the body was exhumed he thought he could find the bullet. He would swear positively that Peter Fontaine had no bullet in the head or brain.

William Gallop was recalled and testified that he handcuffed Peter Fontaine on the stairs. Seeley stood on the floor behind the door. Fontaine resisted strongly. After handcuffing him, he took him down and placed him on a bench. Peter Fontaine was climbing the stairs when he entered. He did not see any blood dripping from him. He grasped him by the collar as he was stooping over to pick up something to attack. Neither he nor Seeley had fired a shot in the house.

This ended the testimony. The coroner, Dr. Ferguson, stated he has been asked by Mr. Lawlor, counsel for the Fontaine family, to have the body exhumed. This matter rests with the jury.

BODY WILL BE EXHUMED.

The jury was then excused to consider this one point. On their return, they presented the following statement: "It is the wish of a majority of the jury, that you summon Dr. Murray, of Campbellton to perform an autopsy on the body of Peter Fontaine, at as early a date as possible, and report to the court and jury on a date named by yourself; because of the interest and excitement over the affair, that spectators be excluded from the autopsy, and that two officers be present to see that order is kept."

The inquest was then adjourned to 10 a.m. on Tuesday, July 1.

HITCH IN GRIMSHAW DEAL.

Toronto, June 20.—Neither Grimshaw nor Schafly have reported yet. There is said to be some difficulty about Grimshaw. One of the American League clubs refuses to waive claim, but President Taylor, of the Boston Club, hopes to overcome the objection of this particular club by to-night. Grimshaw is a valuable player, and Toronto will be lucky to secure his services.

Wreck on the Maine Central.

Special to The Montreal Star.

St. John, N.B., June 20.—The Boston express was nearly an hour and forty five minutes late last night, owing to a wreck on the Maine Central at Waterville. Eleven freight cars were derailed. Walter Jackson, engineer, was badly scalded.

GRAND SAGUENAY EXCURSION

The only excursion to the far-famed Saguenay River this year will be run by the fine steamer Tadousac, leaving Montreal the evening of June 28 and returning the evening of July 1; making the run from Quebec to Montreal by daylight. The reduced fare for this Dominion Day excursion, with meals and berth included, will be $16.25. Only a limited number of tickets will be sold, so there will be no crowding. Any passengers desiring to spend July 1st in Quebec and return to Montreal on regular line Tuesday morning, July 2, may do so with extra cost of dinner and berth. Tickets, staterooms and further particulars at R. & O. Ticket Office, 128 St. James street (opposite Post Office).

VISITS TO ROME FOR POLITICAL EFFECT

Dr. Sproule, M.P., Denounces Pilgrimages of Canadian Politicians

IN VANCOUVER ADDRESS

Thirty-fourth Meeting of the Grand Black Chapter of British America Concluded.

Special to The Montreal Star.

Vancouver, B.C., June 20.—The thirty-fourth convocation of the Grand Black Chapter of British America, Orange Order, concluded with the election of officers and the passing of resolutions.

After the voting the officers elected were installed. Following is the list: Grand Master, J.F. Harper, Hamilton; Deputy Grand Master, Thomas Gilday, Montreal; Associate Deputy Grand Master, J. J. Tulk, Vancouver; Grand Chaplain, Rev. Wm. Walsh, Brampton; Grand Registrar, J. S. Williams, Toronto; Deputy Grand Registrar, J. W. Whiteley, Moose Jaw; Grand Treasurer, W.H. Wilson, Toronto; Deputy Grand Treas., W.G. Taylor, Vancouver; Grand Lecturer, Thomas How, Toronto; Deputy Grand Lecturers, T. F. Butt, Wm. F. Cox, John McMaster, W. J. McCausland, B. J. Hughes, George Ackman, G. H. Humphrey, D. Gibbard, Murdock McLean, John Carmichael, R. N. Snow; Grand Censor, C. D. McLaren; Deputy Grand Censor, A. E. Dunlop, New Westminster; Grand Marshall, E. J. Cudmore, Moose Jaw; Grand Standard Bearers, John Wallace, W. T. Edgecombe,; Grand Pursuivants, Thomas Irvine, W. H. Dunmore.

Mr. Thomas Gilday.

DR. SPROULE'S ADDRESS.

The frequent visits to Rome of Canadian politicians before general elections, were denounced by Dr. Sproule, M.P., Grand Master of the Supreme Orange Lodge, of British America, in his address, yesterday afternoon.

"These constant pilgrimages to Rome before every general election," said he, "and secret conferences with His Holiness, lend credence to the suspicion that a deal is being made each time whereby the interests of the State are being bartered away for the support of the Church in the forthcoming election, and that in due time the debt must be repaid by another encroachment upon the rights of the people.

The necessity of Protestants organizing was emphasized by Dr. Sproule. It was not the policy of Orangemen, nor in accordance with their principles, to display bigotry or attempt to restrain their Roman Catholic fellow-citizens in the exercise of their civil and religious liberties, but the political activity of their religious leaders threatened the integrity of parliaments and governments, and this, the members, as good citizens and Orangemen, were bound to resist.

"The presence of Monsignor Sbaretti, the Papal ablegate, is a constant menace to the Constitution of the country," continued the Grand Master. "It is bad enough in all conscience when Canadian prelates interfere in our political contests, but we resent the interference of one who is an alien and who represents, not the citizenship of Canada, but the policy of the Roman Pontiff."

Dr. Sproule expressed his thanks for the unanimous support given him by the Orangemen of the Western provinces in the fight against the educational clauses of the Autonomy Bill.

Grand Treasurer Parkhill reported the year's receipts as $8,789.93, and the expenditures, $5,602.08.

Death claims paid out of the Orange Mutual Benefit Fund, totalled $47,500. Since the fund was organized in 1897, the death claims paid out total $513,000.

GAYNOR AND GREENE CASE.

Leave to Enter Motion for Re-hearing of Case Granted.

Huntsville, Ala., June 20.—On application for Greene and Gaynor, the Savannah contractors, who are under sentence for defrauding the Government, Judge Selby, of the United States Court of Appeals, has granted them leave to enter a motion for a re-hearing of the case. The Court of Appeals recently affirmed the sentence of the lower court. The application for re-hearing will be formally entered when the Court of Appeals convenes in September.

Dr. Thompson Made Vicar-General.

Special to the Montreal Star.

Glace Bay, N.S., June 20.—Rev. Dr. A. Thompson, P.P. of St. Ann's parish, has received the appointment of Vicar-General for the diocese of Antigonish, and will undertake his new duties in connection with the present incumbent, Dr. A. McDonald.

Dr. Thompson received his early training at St. Francois Xavier College, and pursued his theological and philosophical studies at the Urbain College, Rome. Upon his return from Rome, the Reverend Doctor was placed on the teaching staff of St. Francois Xavier College, and later on held the positions of Vice Rector and Rector, retiring from that position last fall to accept charge of St. Ann's parish.

Lord Elgin Wants Name Retained.

Canadian Associated Press.

London, June 20.—Lord Elgin, addressing the Corona Club, London, deprecated any disposition to change the historic name of Colonies for Dominions. He was also opposed to drawing any strict line of division between self-governing and crown colonies.

AUTOMATIC PIANO-PLAYERS

We have done a very large business in Player-Pianos and Piano-Players made by Hardman, Kurtzman, Sterling and Chase and Baker. One of the best proofs of the satisfaction given by these famous instruments is that none have ever been returned to us for any reason. The only second-hand instruments of this class in our warerooms are those of other makes, which we have taken as part payment on new instruments.

Inspection cordially invited.

NIAGARA HAD CLOUDBURST.

Gorge Route Blocked to Traffic — Terrific Rain in Toronto.

Special to The Montreal Star.

Toronto, Ont., June 20.—A terrific rainstorm passed over Toronto yesterday afternoon which, however, was but the outer edge of a downpour that amounted almost to a cloudburst in the Niagara district. Passengers from Buffalo by the Niagara Gorge route, say the rain was terrific. Water poured in torrents over the precipice on to the tops of the gorge cars. Huge boulders and trees were carried down across the tracks, which were blocked to traffic in many places. No serious losses have as yet been reported.

In Toronto nine-tenths of an inch of rain fell. One result of the storm was an interruption of the electric and power service lasting several hours.

Three Days and a Half Across the Continent.

The new fast service to be inaugurated by the Canadian Pacific Railway, Tuesday, July 2nd, will carry passengers across the continent in three days and a half, the quickest time made by any railway in America. The new trains will consist of two or more sleeping cars and a diner—of latest pattern—with baggage car and will rank amongst the most luxurious in the world. No day coaches will be attached and the trains will be exclusively confined to holders of first-class tickets who desire sleeping car accommodation. These "Trans-Canada Limited" trains will leave Windsor street Station, Montreal, every Tuesday, Thursday and Saturday at 12.30 noon during the months of July and August.

GERHARD HEINTZMAN PIANO

is sold in Montreal and vicinity by J. W. Shaw & Co., who are the sole agents; every piano has the name "Gerhard Heintzman" cast in the plate as well as on the name board over the keys.

Every "Gerhard Heintzman" is made under the personal supervision of the veteran piano maker, Mr. Gerhard Heintzman, who has been before the Canadian public as a maker of fine Art Pianos, for over 30 years. Every "Gerhard Heintzman" piano contains the patent bell metal tone pulsating bridge, one of the latest inventions in piano construction.

Every Gerhard Heintzman piano contains the most improved action yet produced, known as the abstract action which permits of the most perfect regulation. Other makers, on account of cheapness using the old fashioned Dowel Action.

The Gerhard Heintzman factory is one of the most improved and up-to-date piano factories in America and is turning out one piano every working hour, or a total of 50 completed pianos every week.

J. W. Shaw & Co. have now on hand a beautiful stock of these fine Art Pianos, and intending purchasers should not miss a visit to J. W. Shaw & Co.'s warerooms to see and hear the "Gerhard Heintzman" piano and also can be seen the pianos from their own factory, the

Fuse Blew Out on Steep Ascent.

A number of persons received a severe jolt on an Outremont car, last evening, about 8.30 o'clock. No. 896, one of the heavy double cars of the M.S.R., was climbing the hill on Bleury street, just below Sherbrooke, at a rather high rate of speed. Suddenly the fuse blew out, bringing the car to a stop with a sudden jerk which threw the passengers violently from their seats. The only injury was suffered by the motorman, who had his hands and clothes badly scorched in the burning of the motor.

Going to Europe.

Mr. A. F. Revol, Manager of Perrin Freres & Cie., leaves for Europe on SS. Victorian, on June 22nd.

How to Buy a Piano

Hundreds of young ladies are just now graduating from the various convents, colleges and schools. Those who have studied music will now be looking forward to the purchase of a new piano by their parents. And the great question will be "Which piano?" To all concerned we would say that we handle the best pianos in the world. To those who wish an American piano we say unhesitatingly "take a CHICKERING." For purity of tone, delicacy of touch and durability it is unequalled among American pianos.

The Canadian piano which appeals most strongly to all is the

Heintzman & Co. Piano

It has been before the public for 53 years, and it stands for all that is best in artistic piano building. There are no less than 18 Heintzman & Co. pianos in McGill University Conservatorium of Music, 27 in Whitby Ladies' College, and the proportion is very much the same in all the colleges, convents and schools of the Dominion.

We repeat, "Let your choice be a Chickering or a Heintzman & Co."

STILL AFTER PRESIDENT.

Dr. Long is Preparing Another Broadside for Him.

New York, June 20.—Dr. William J. Long, the author of animal stories, who was characterized as a nature fakir by President Roosevelt delivered his lecture on "Animal Life and Death" to several hundred people at Pilgrim Church. Those who came expecting to hear him make some allusion to the recent, wild animal controversy were disappointed.

"Has President Roosevelt answered your demand for a retraction?" Dr. Long was asked at the conclusion of the lecture.

"He has not," said the author, "but I don't intend that he shall get away. I'm preparing another statement which will make it difficult for him to dodge."

"Have you further evidence to support the animal stories disputed by the President?" he was asked.

"I'm collecting it now. If it takes ten years of my life and I am compelled to go as far as Alaska I'll get enough to satisfy even him," answered the doctor with great deliberation.
