THE POPE'S CHANCES ARE NOT AS GOOD AS THEY WERE THE DAY BEFORE YESTERDAY

There is Still Possibility, However, That He May Survive His Present Illness—He Was Able to Leave His Bed This Morning—It is Reported That He Had a Fainting Spell.

(See Also Page 6 and 12.)

Rome, July 8.—The physicians in attendance upon Pope Leo, at a quarter to ten o'clock this morning, posted the following bulletin:

"The night passed tranquilly enough, although the Pontiff had no restorative sleep. The pulse was frequent but regular. Breathing was not as free as last night. The condition of the Pope does not permit of a long examination, but it seems that the pneumonia tends to solve itself, and the pleuric liquid is not regathering. However, the general condition of the patient is not tranquillizing, because of the state of depression which at intervals increases.

(Signed), "LAPPONI, "MAZZONI."

GENERAL CONDITION IS NOT SO FAVOURABLE.

As can be seen by the bulletin, the Pope's condition to-day is not so favourable as it was last night, due to the fact that the improvement after the operation of yesterday has not assumed the proportions the doctors wished. While the inflammation of the lungs is decreasing, the patient's general condition does not improve and there is a tendency towards a radical change for the worse. The Pontiff is extremely weak, and even chloral seems to have lost its power to give the sufferer the relief of tranquil rest. Besides, what depresses the Pope is the difficulty he is experiencing in breathing. At times he appears to be upon the point of strangulation, and then his breathing gradually becomes weaker, until his heart apparently stops.

Another great preoccupation of the doctors is the derangement of the patient's kidneys, as a result of which blood poisoning is feared.

HOPES OF RECOVERY ARE VERY SLIGHT.

The outlook now is that the Pope's life may perhaps be prolonged more than could have been expected thirty-six hours ago, but the hopes of his recovery are still very small. If on Monday night the probabilities in his favour were ten against ninety, the proportion has now become twelve to eighty-eight. Extraordinary optimism prevailed for a certain time during the night at the Vatican. It was caused by the commander of the Noble Guard having, shortly before midnight, ordered a picket stationed before the Papal ante-chamber to return to its quarters. According to the traditional etiquette of the Vatican, when a Pope is seriously ill this picket is not withdrawn unless the doctors declare the patient to be out of danger. It developed, however, that the commander took upon himself to send the men to their quarters because they had been so many hours without rest.

HIS HOLINESS HAS NOT UNDERGONE SENILE BREAK-UP.

While Not Hopeful Dr. Mazzoni Thinks it Possible the Pope May Recover.

(Special by Cable from a Montreal Star Correspondent.)

Rome, July 8.—"Leo might recover without the phenomenon partaking of the nature of a miracle," said Dr. Mazzoni this morning, to one of his professional intimates. "I do not mean to hold out the hope that recovery is possible, for the acute disease from which His Holiness is suffering is too deep seated to warrant anything but the gloomiest prognosis." He continued: "I do mean to say, however, that the patient has not undergone senile breakup and that if he could be relieved from the definite malady that threatens to extinguish his life he might reasonably hope to attain his cherished wish to live to the age of one hundred.

"It is doubtful if the annals of medical experience bear record of another constitution exhibiting altogether the tenacity of the Pope's. His life is a wonderful testimony to the hygienic value of correct habits. His only sin against his strength has been that of excessive mental strain together with a frugality of diet somewhat below the sternest necessity of his physical organism."

All Rome is subdued by the situation in the Vatican. The shadow of the Pope's affliction tinges every mind and tends to arrest the normal activities of the community. The fact that the aged sufferer has been compelled to submit to the surgeon's knife elicits universal pity.

Speaking to Mgr. Angeli yesterday Pope Leo said: "I am sorry I can not be with you this year during the nine days' preparation for the feast of Our Lady of Mount Carmel."

Then His Holiness added, "Because tomorrow I die." Angeli repeated this today. Two groups of Cardinals are rapidly defining themselves in connection with the papal succession.

One favours Cardinal Gotti, the other Cardinal Vannutelli. The Gottists are waging an energetic and somewhat acrimonious campaign aginst Vannutelli. They allege that if he should be elected he would immediately appoint his brother, Vincenzo, Cardinal Secretary of State, and that his other numerous relatives, all Romans, would obtain the best Vatican positions and thus reduce the papacy to a family affair.

Smarting under these imputations the Vannutellians' reply that Gotte is a friar and consequently imperious and despotic. They also sneer at the fact that his father was a dock labourer at Genoa.

AN IDEAL CANDIDATE.

It is quite possible that the clash between two groups will lead to the triumph of the third, which favours Cardinal Capecelatro, Archbishop of Capua, whom impartial critics regard as an ideal candidate. He is eighty years of age, strong, learned, conciliatory, open minded and zealous. His advanced age would promise that brief pontificate which all the Cardinals steadily favour. Speaking to a Star correspondent to-day, a Cardinal said: "The fact that opinion is being actively forced on the subject of a successor to the stricken Pope does not imply want of respect for Leo. The entire body of Cardinals is weighed down with grief over his condition and is praying God that the threatened calamty may yet be averted. At the same time the extremity of the pontiff's condition cannot be exaggerated. A solemn duty devolves on us to prepare the way for the necessary impending changes."

RAMPOLLA'S CLAIMS WARMLY SUPPORTED.

(By Special Cable from a Montreal Star Correspondent.)

Vienna, July 8.—Cardinal Rampolla's opponents at Rome are vigourously supported in influential quarters in this city. Prof. Ludwig Wahrmund said to a Star correspondent to-day: "Rampolla is a German and an enemy of the Triple Alliance. His election as Pope would be a misfortune for Germany and Austria. The Teutonic Catholics want a liberal-minded Pontiff. Their ideal would be Cardinal Vannutelli or Cardinal Agliardi.

It is felt by Austrian politicians that the mournful event that overshadows Europe contains the possibility of a new and ambiguous force in continental politics. It is feared that Leo's splendid balance and great wisdom may not reappear in his successor. An uncertain hand at the papal helm might steer Catholic influence in a direction prejudicial to international serenity. It is pointed out that the papacy has assumed far-reaching temporal importance of late years, and that a forceful, reckless chief in the Vatican could seriously disturb the calculations of official Europe.

ALARMING REPORTS RECEIVED IN MANY EUROPEAN CAPITALS.

London, July 8. — A special despatch from Rome, filed at 2.20 p.m. says the Pope had another fainting fit to-day, that the action of his heart is very feeble and that his condition has again become very critical.

Paris, July 8.—A despatch from Rome says: "The condition of the Pope has become worse since morning, his weakness is increasing hour by hour, he is only intermittently conscious and a catastrophe is imminent.

Berlin, July 8.—A despatch to the Lokal Anzeiger from Rome says the condition of the Pope has suddenly become worse and that Cardinal Serafino Vannutelli, (the Grand Penitentiary) has been called in to administer absolution in articulo mortis. The end, it is added, is immediately impending.

EARLY DIAGNOSIS WAS NOT CORRECT.

Special to the Montreal Star.

New York, July 8.—A special cable from Rome received here says: "The Pope has had a turn for the worse this morning. Blood poisoning has set in and it depends entirely on the progress of these dread symptoms whether he will last for days or merely hours. His Holiness' physicians gave no hope, as notwithstanding amelioration in some symptoms they consider it impossible for the Pontiff to have energy enough to elimate the toxin of infection. Some newspapers here attack the Pope's doctors, declaring that they blundered in their early diagnosis that the patient had pheumonia in one lung. Mgr. Chrriera, the Papal Assistant Secretary Sella Chriera, the Papal Assistant Secretary of State admitted to-day that the report that the doctors were mistaken was correct."

NONCONFORMIST'S FUNNY STATEMENT

Says Anglican Clergymen Are Behind Mr. Chamberlain's Plan.

DENIAL BY BISHOP INGRAM

Both Sides are Making Elaborate Plans for the Autumn Campaign.

(Special by Cable from the Special Correspondent of the Montreal Star in London.)

London, July 8. — The funniest outcome of the Imperial Reciprocity discussion is the solemn assertion of a non-conformist divine that priests are behind Mr. Chamberlain because if wheat rose above five shillings the tithes would advance.

The Bishop of London, with equal solemnity, declares that neither the Bishops nor the clergy are in any way responsible for Mr. Chamberlain's policy.

Mr. Chamberlain has definitely fixed October 15 for the opening of the big fight. About the same time Chamberlainite manufacturers start their respective campaigns, taking Mr. Chamberlain's speeches as a cue. Mr. Chamberlain's party has no lack of funds, having the warm support of the leading manufacturers, who are now suffering from American and German bounty-fed competition. The Chamberlainites have opened communication with manufacturers in all parts of the country in order to collect a body of facts to place before the electors. On the other hand, the Cobden campaign fund has reached $60,000. The co-operative union has placed its organization at the services of the Cobden Club.

Nationalists cynically declare themselves on the fence and will support whichever side offers the best Irish terms.

WINDERMERE.

SCOTCHMEN ROUSED IN DEFENCE OF THE KILT.

Canadian Government's Attitude Comes in for Castigation.

(Special by Cable from the Special Correspondent of the Montreal Star in London.)

London, July 8. — Scots here take a lively interest in the reported official prohibition of the kilt in the Canadian militia. They scornfully reject the plea upon which the Dominion Government is reported to have refused the formation of a kilted corps of militiamen in Hamilton, namely, that kilted regiments were show regiments. "The Canadian militia must be soldierly," Scottish journals say, and easily prove that the finest and best troops in British warfare have been kilted Highland regiments. "Moreover, the old Greeks and Romans, not to speak of the Egyptians, wore the kilt. Were they not soldierly? It is certain that the abolition of the kilt in the British army would blunt the fighting qualities of some of the finest regiments."

WINDERMERE.

Edmonton's Future.

With the newspapers of the whole continent devoting space to the wonderful progress and possibilities of Edmonton it would be well to warn those who are looking for a safe investment that will bring enormous returns in a few months, that now is the time to buy Real Estate in Edmonton. It is small wonder that this town is attracting the eyes of the continent, when the coal deposits alone discovered there are amongst the most valuable in the world. One seam in the coal reef along the river shows forty feet above the water, how far it goes below it is not known. With the immense iron deposits in the Rocky Mountains, two hundred miles west, it will easily be seen what a great manufacturing centre Edmonton will become in the near future, especially as it will be connected from Ocean to Ocean by three Trunk lines. These coal deposits also solve another problem, that is the problem of fuel, as coal can be quarried from the seams on to the acows and can be produced cheaper than any other place in the world, having water communication with Winnipeg and soon to have splendid rail communication east and west, covering fourteen hundred miles, all of which district it will supply with fuel, it will soon be the great coal depot of Canada. As thousands of emigrants are yearly pouring into the great west, east of Edmonton, in a few years this country will have millions of a population depending on Edmonton for a coal supply, and a fleet of boats on the Saskatchewan will be required to keep up with the demand of this district. This will give some general idea of the prospects of the town when its coal deposits alone will bring a revenue of millions of dollars yearly.

NEW BRUNSWICK STORM.

Considerable Damage Done in Moncton District Last Night.

Special to The Montreal Star.

Moncton, N. B., July 8.— The worst hail storm ever known in this part of the country prevailed last evening at Lower Coverdale, Albert County, about eight miles down the river from Moncton. The storm covered an area three miles along the river and a mile deep, killing almost every green thing and destroying many fruit trees. Many of the hail stones were as large as hens' eggs, some even larger, and these piled six inches deep in places. This morning stones were gathered from the fields, and some brought to town measured an inch in diameter of solid ice after exposure to the weather for twelve hours, horses in the fields were pelted so badly that lumps were raised on their backs, and blood was brought from the cattle. In Mr. J. Nelson Smith's house sixty panes of glass were broken. Twenty panes were broken in a church near by Smith's house. James Duncan had all the glass broken out of his house.

IMPORTS OF CHAMPAGNE INTO THE UNITED STATES

Men's Underwear Away Underprice.
Not a "stupendous, incomprehensible, sold far below cost of making" sale. No, it's just a manufacturer's clean up of several lines. We happened to get them—didn't expect to ask regular prices for them, because some sizes are missing in each line. If you're a big man or a slim man, you'll find your size in everything. If you're medium sized, come early—not many 38 shirts and 34 drawers in the collection. Plain brown balbriggan; solid colour lisle; fancy lisle in modest stripes. Not a garment worth less than a dollar—some are $1.25 kinds. Come and see if you like any well enough to pay 65 cents a Garment. $1.25 a Suit.
The Hannan Store, 213-215 St. James st.

AUSTRALIA'S GRANT TO IMPERIAL NAVY.

Premier Barton's Policy Appreciated in Britain.

(Special by Cable from the Special Correspondent of the Montreal Star in London.)

London, July 8.—Australia clearly means to support the British Ministers in Imperial defence policy. Premier Barton made a strong speech yesterday when moving the ratification of Australia's contribution to the Imperial navy of $1,000,000 annually for 10 years. He said that it was a mistake to argue that if Australia refused to perform the duty of providing her proportion of the cost of the defence of the Empire, Great Britain would nevertheless defend Australia. He deprecated niggardly consideration of the subject and said that the scheme provided for the employment of 1,600 Australians on the squadron paid at special rates in accordance with Australian standards.

The cordial reception accorded the speech indicates that ratification is certain.

Mr. Chamberlain unquestionably feels his hands would be greatly strengthened with the British electorate, if Canada approached the Empire problem in a similar by co-operative spirit.

WINDERMERE.

JUSTICE ARMOUR AND MR. JAMES WHITE.

Former Grows Weaker, the Latter Improves.

(By Special Cable from the Special Correspondent of the Montreal Star in London.)

London, July 8. — Judge Armour is slightly weaker to-day, but as far as can be ascertained in no immediate danger.

Mr. James White continues to improve.

WINDERMERE.

CANADIAN MOTORIST KILLS LONDON LADY ON BRIXTON ROAD.

(Special by Cable from the Special Correspondent of the Montreal Star in London.)

London, July 8.—William Watson, a Canadian, while motoring on Brixton road, London, accidentally knocked down an elderly lady, who is alleged to have been too shortsighted and deaf. She died in a few hours from her injuries. Mr. Watson did everything possible for the victim, at once offering to defray all expenses. An inquest will be held to-morrow.

Watson, who is of course liable to be charged with manslaughter at to-morrow's inquest is a son of Walter Watson, long manager of the Bank of Montreal in New York. The son is a New York stock broker now travelling here with his wife.

WINDERMERE.

Known in Montreal.

Mr. Walter Watson is well known in Montreal. He has a large circle of friends which he made here during several visits to his aunt, Mrs. F. Wolferstan Thomas. His friends here thought that he was in Switzerland, and they are profound in their sorrow at the misfortune with which he has met in the British capital.

Queen's Bill Withdrawn.

Special to the Montreal Star.

Ottawa, July 8.—The Committee on Miscellaneous private bills this morning amended the bill for the relief of George M. Depew, a patent renewal, and reported the bill to incorporate the Missionary Society of the Church of England in Canada, and the Grey divorce bill. The Queen's College, Kingston, bill was withdrawn.

Death of Ship Captain.

Special to the Montreal Star.

St. John, N.B., July 8.—A cable from Antwerp to-day to Wm. Thomson & Co., announces the death from internal trouble of Capt. A. Norman Smith, of the Battle Line Steamship, Nemea. Capt. Smith was one of the best known commanders of the line. He was a native of Wood's Harbour, Nfld. He leaves a wife and family at Yarmouth, N. S.

EDUCATIONAL UNITY WITHIN THE EMPIRE.

Principal Peterson Will Second Proposal at Educational Conference.

(Special by Cable from the Special Correspondent of the Montreal Star in London.)

London, July 8 — Sir Gilbert Parker entertained at luncheon in the House of Commons to-day the Canadian and other university representatives.

The conference opens to-morrow at Burlington House, when Principal Peterson will formally second the proposal made by the Vice-Chancellor of Cambridge that the principal courses at the universities of the Empire be co-ordinated in order to make them accessible, especially for post-graduate study and research to students from all parts of the King's dominions.

Lord Strathcona entertains the conference at dinner on Thursday. The garden party, which the Earl and Countess of Aberdeen had arranged to give on Saturday, will be given by Lady O'Hagan at Romford, Essex.

WINDERMERE.

PRIVY COUNCIL RESERVES DECISION.

(By Special Cable from the Special Correspondent of the Montreal Star in London.)

London, July 8.—The Judicial Committee to-day reserved judgment in the case of the Henry Graves Company versus Gorrie, which is an appeal against a decision of the Ontario court on April 12, 1902.

WINDERMERE.

Small Fire at Toronto.

Toronto, Ont., July 8.—Fire in the factory of the Elliott Paper Box Company, at the corner of Nelson and John streets early this morning, gutted the third flat of the four story building. The loss is about $5,000, fully covered by insurance.

MR. GAMEY CONFIDENT OF ONTARIO'S VERDICT.

Has Nothing to Take Back of His Statements in Court.

Special to the Montreal Star.

Toronto, July 8.—Mr. R. R. Gamey, M. P. P., the "hero" of the hour in Provincial politics in Ontario returned to Toronto to-day, after a visit to his constituency in Manitoulin. In speaking to a Star correspondent Mr. Gamey said: "I was warmly received by my people who are united and confident that my action in the Stratton affair will be warmly endorsed by the constituency, and by the people of the Province when the opportunity comes. They are unanimous in their opinions that I should not resign my seat. Had the matter been dealt with by a committee of the House, and a finding of that kind been brought in, I would have been satisfied to resign. To-day, if one of the Cabinet ministers were to resign and oppose me in my riding, I would be delighted to embrace the opportunity to test public opinion.

"Then you still believe in the truth of charges," asked the reporter.

"Most certainly. I am an honest man, I never took a cent from anyone, and had nothing to gain by the course I have taken. On the other hand, if I had been anxious to make money, I had ample opportunity. The course I have taken all along was simply with the view of purifying politics in this Province, and protecting myself from a deliberate attempt to force me to resign or face the expenditure of an election protest, which was quite unwarranted."

"Mr. Gamey, were you positive in all the assertions you made before the commission?"

"I have not one word to take back," said the member for Manitoulin.

Advance in Coal Prices.

Wilkesbarre, Pa., July 8.—An advance of 45 cents a ton has been made on all coal supplied in this vicinity to the employes of the Delaware, Lackawanna and Western Coal Company. This will make the price of coal $2.25 delivered, the former price being $1.80 a ton.

Special Notice.
We Have Too Many Fancy Half Hose. How About You?
Want a few pairs to finish out the summer? We're going to put a table alongside the furnishings counter. We're going to put on that table every pair of fancy half hose now marked 50 cents. Come in to-morrow and pick out 5 pairs for a $1.00.
The Hannan Store, 213-215 St. James st.

No house should be without a bottle of Coverston's Blackberry Carminative for Summer Complaint. Price 25 cts. For sale by all Druggists.

British Iron Master's Reasons for Supporting Chamberlain's Plan

Well-Known Manufacturer Who Foresees Home Market Swamped With Foreign Goods Unless Some Measures Are Taken at Once.

(Special Correspondence of the Montreal Star.)

London, June 26.—The announcement of the Hon. Joseph Chamberlain in favour of a complete revision of the existing British fiscal system, with a view to protecting the industrial life of this country from the inroads of foreign competition, and to laying a basis for an Imperial community of interests calculated to consolidate and bring closer together the outlying parts of the Great British Empire, has earned for the Colonial Secretary, during the past few months, a virulent abuse from his political enemies as well as former political friends and colleagues that is reminiscent of the stormiest days of the great Pitt.

There can be no doubt that this last move of Mr. Chamberlain is a daring one. The extent of its daring can only be estimated when one realizes how deeply wedded the British consuming public is to the fiscal policy of free trade and an open market to the world. More than that it is a move that stamps Mr. Chamberlain as either a foolish and impracticable dreamer, or, like his great predecessor Pitt, one of the ablest and most farseeing statesmen of a century.

If Mr. Chamberlain is the demagogue and opportunist politician he has been characterized by so many of his enemies, he is certainly playing the game very badly. The opponents of the present Conservative Government, when the announcement was made, were certainly in a very bad way. They had no generally acknowledged leader in Parliament, and the party lacked cohesion and strength in the country. The budget of the Chancellor of the Exchequer, removing the corn duties imposed last year and reducing the income tax, while by no means remarkable for its strength, left the Opposition little to object to. True there were some disaffections in the ranks of the Government party in Parliament over the removal of the corn duties, but there were not considerable enough to in any way imperil the life of the Government or materially injure its chances at the next general elections. If Mr. Chamberlain had been an opportunist politician only, the weakness of the political opponents of the Government, and the opportunist budget of Mr. Ritchie, would have afforded him ample opportunity to have sought a popular verdict on the ever popular slogan of reduction of taxation.

It is consequently hard for the unprejudiced observer herein to see upon what ground the Colonial Secretary can fairly be charged with being either a demagogue or an opportunist.

NOT WIDELY UNDERSTOOD.

The charge that Mr. Chamberlain is an impracticable dreamer is, after all, a very natural charge coming from his political opponents and those of his colleagues who are wedded to the fiscal policy of free trade. The fact is that a majority of even the most astute business men in this country do not understand Mr. Chamberlain's proposal. It is to them in a vague way a revolutionary innovation calculated to disturb every existing condition.

With that conversation peculiar to their class they say they would much rather suffer from the ills they know of than rush into changes which may involve greater ills that they do not know of. It is this very natural prejudice against radical changes, and a general want of knowledge as to the effect such radical changes as those proposed by the Colonial Secretary would have upon the business of the country, which is going to give Mr. Chamberlain the most trouble in his Imperial propaganda. Nor have his political enemies been at all slow to take advantage of this condition of the public mind on the subject of the proposed changes.

Under the caption "The Dream of Josephus," an able writer in the Morning Leader" treats Mr. Chamberlain's scheme as merely a step towards the realization of a beautiful but impracticable dream. "Mr. Chamberlain's reputation," says this writer, "is founded upon the general belief in him as a common sense politician. Follow him along the level and low-lying stages of his career and you will find that that is what he really is. Mark the occasions when he seeks to rise higher and you will see that his common sense mind can be filled to overflowing with phantasies which he soberly believes can be turned into solid facts.

"The ehree-acres-and-cow dream was one of these. Charming in idea, it had no more body to it than a whiff of opium; but he argued for it long enough to prove that his common sense faculties could be bent to the service of a most incompetent imagination. Incompetent and untrustworthy it has shown itself again and again—yet it is allowed to lead him once more, and this pother is the consequence. If every interest in the country — trading, manufacturing, agricultural, industrial, financial— is thrown into confusion and uncertainty, it is to prepare for the propaganda of the dream. Whatever risk there may be in the tariff wars about to begin will be undertaken for the dream; and inasmuch as these wars turn out badly, it will be for the dream's sake and the glory of the iron will of the dreamer."

Doubtless, Mr. Chamberlain is the best judge of the proper time to begin the elucidation of his scheme, as he is the one man who has had the brains to conceive it and the daring to propose it, at imminent risk to the life of the Government of which he is a memeber, and at considerable danger to his own reputation as a statesman. Nevertheless, his enemies are sparing no effort to make his task a most difficult one, and they are working along the line of popular prejudice in favour of the existing system, the reluctance of even the business public to favour radical changes in business conditions, and a very great general ignorance of the effect those changes are likely to have, if adopted.

ATTITUDE OF BUSINESS MEN.

Since coming to London a couple of months ago, I have had the privilege of meeting a large number of prominent business men from both the metropolis and the provinces. Naturally Mr. Chamberlain's announcement was the popular theme of conversation. Much to my amazement I found that, while in almost every instance it was promptly admitted that both German and United States competition was making serious inroads upon British trade at home and abroad, very few of those I talked to had any concrete conception of how Mr. Chamberlain was going to be able to remedy the evil.

An exception to this class was a member of one of the largest iron and steel firms in the north of England. He had evidently given the question serious thought, and was able to put forth his views in a very trenchant manner. "I think Chamberlain is right," he said, "and I think he is right in this case when so many others of our public men are wrong, because he has had a practical knowledge of what he is talking about. In dealing with matters affecting trade, his earlier business training enables him to correctly estimate the advantages and disadvantages of existing conditions. He is not like many of his colleagues in Parliament wedded to theories which may have been right half a century ago, when trade conditions the world over were different from what they are now, but which the practical man knows are as wrong now as they may have been right then.

"For instance, when Cobden and Bright preached free trade and open ports, this country had practically no competitor in the world's markets as a manufacturing and industrial nation. More than that, we had just finished opening up enormously rich markets, which the daring and enterprise of a previous generation of gallant sea rovers had acquired for our sole exploitation.

"But conditions have greatly changed and highly protected United States manufacturers have become formidable competitors during the last quarter of a century. The free trader may argue until he is short of breath that the seal conditions in both these countries cannot possibly continue to exist for any length of time. He may demonstrate that a country which taxes the home consuming market in order to extend its foreign trade, is working on a fiscal system which has in itself the seeds of its own certain destruction. The fact remains that the enormous inroads Germany and the United States have been able to inflict upon British trade both at home and abroad, makes it the part of wisdom for us to lose no time in protecting ourselves against these unfair and unnatural conditions.

GERMAN IRON AND STEEL.

"For instance in my own business the trade returns will show you that something over half a million tons of manufactured iron and steel came into this country last year from Germany. The bulk of this large importation was structural and constructional iron and steel and it was sold at prices against which the English iron masters could not for a moment compete. I tell you, and every other ironmaster will tell you the same thing, that the most serious thing I have to contend against here in England to-day is figuring upon contracts for manufactured iron and steel, where it is not expressly stipulated that the material to be used must be of British manufacture, is the agent for Germany firms who sells on a small commission at prices which simply defy British competition. And it is not the cheaper German labour which makes this difference in price. It is the fact that the German government pays a bounty to the manufacturer of iron and steel in that country.

"And you have not far to go to find plenty of examples of the effect of this competition. Right here in London and all over England as well cases are occurring every month where contracts for constructional iron let by private and public companies are being taken from under the very noses of the British ironmasters. Quite recently there was the case of the constructional iron for the new power station of one of our public railways in London, where there was lively competition, but a German firm got the contract at figures which British firms could not touch. Another case was the iron for the Siemans' Electrical works at Stafford, where German prices were away below those of British tenderers. These are two instances, but I could quote you dozens more where German bounty paid iron and steel has replaced British made material all over the United Kingdom.

SAME IN FOREIGN MARKETS.

"This same sort of thing is going on in our foreign markets. More and more German and Belgian iron and steel is being used every year where formerly British material alone was used. The fact of the matter is that the foreign material can be purchased cheaper than similar material can be turned out in England.

"The result is that British firms tendering for large foreign contracts are compelled to figure upon using cheaper material. For instance a short time ago the government of New South Wales asked for tenders for a large bridge over the Piement river in that country. British firms tendered for the work, but it was taken by a German firm at much lower prices than any offered by ours, although only a short time before a similar bridge in the same country was made by one of our leading British firms. Only the other day a friend of mine in the business was speaking to me about the shipping of rolled material to India. His firm is one of the largest in that particular line of the business. He told me that in almost every case of shipments to India, unless English material was specially specified, the orders go to German and Belgian firms at prices which English dealers could not touch.

"Just think of the number of iron firms in this country who have been compelled to close down on account of this competition and imagine if you can what the result is bound to be if this sort of thing is allowed to go on. There are a good many of our large iron firms to-day who are carrying on business at a loss, simply because of this competition. Thousands of ironworkers during the past dozens years have been compelled to emigrate to America, because the works in which they were formerly employed were compelled to close down. Thousands more will be compelled to go to the same place in a few years, unless our Government takes some steps to prevent the industry from being ruined by a competition which feeds upon a home market protected to such an extent that it is inaccessable to us, or upon a government bounty which is virtually a premium upon the manufacture of iron and steel.

"When you realize that the iron and steel industry of Great Britain is the largest in our country and employs directly and indirectly more workmen than any other national industry, it is easy to realize what the inevitable result must be. What will become of the large army of workmen now engaged in his important industry throughout the country.

U. S. STEEL TRUST.

"Every one interested in the iron trade will remember that before the recent boom in the United States, iron firms in that country were selling manufactured material in England at prices below what any British firm could quote. Since that time the Upted States Steel Trust has been formed. Up to the present we have not felt the effect of the formation of this enormous trust, as the home market has been absorbing the entire production of the country. But, in my opinion, the moment this demand eases off in the United States, we in England will be in a very much worse position than ever before, owing to the tremendous concentration consequent upon the formation of this trust, which is sure to quote lower prices than before and make England the dumping ground for its surplus production. If the Americans are able to flood our home market with cheaper material than we can produce, and they have in the past shown their ability to do so,what is there to prevent them invading our foreign markets in the same way as the German manufacturers are now doing? In my opinion it is only a question of time until the British ironmasters will find the business which they have controlled for centuries, passing from them unless something is done to prevent the premium paid material of foreign countries from entering into unfair and unequal competition with material made in England for both the home and the foreign markets.

"These are a few of the reasons why, as a British ironmaster, I am convinced that Chamberlain is right, and although I am not competent to speak about other lines of business, my opinion is that you will find that the present position of the ironmasters of England is not any worse than the position of other manufacturers, so far as this competition of Germany and the United States is concerned.

W. RICHMOND SMITH.

PRESIDENT LOUBET CAPTURES LONDON

Cordiality of His Reception Increases Every Hour.

AT WINDSOR CASTLE TO-DAY

Visited the Mausoleum at Frogmore Placing Wreath on Victoria's Tomb.

Special to The Montreal Star.

London, July 8. — "Loubet has captured London," said an Englishman yesterday afternoon, and indeed the welcome which the President of the French Republic is receiving appears to be increasing in warmth and cordiality with every hour of his visit. In yesterday's programme the most interesting event in many respects was the gala performance at the opera. Covent Garden auditorium presented a brilliant spectacle when the President, accompanied by the King and Queen and the Prince and Princess of Wales and a score of other members of the Royal family and highest officials of the court, entered the royal box. On their appearance the orchestra played the "Marseillaise" and then "God Save the King." the whole audience standing meanwhile. The auditorium had been admirably decorated. The royal arms and tricolour of France had been worked in floral escutcheons in front of the royal box, and roses in tens of thousands had been used to frame completely the boxes.

Beginning with the Queen, who wore pale blue with a magnificent array of diamonds in her coronet and stomacher, all the women had donned their best frocks and handsomest jewels, and this added to the fact that a great majority of the men were either in brilliant uniforms or in court costume, resulted in a feast of colour for the eye.

The Duchess of Marlborough was in a big omnibus box on the left of the House, wearing ropes of pearls and a collar of diamonds.

Mrs. Joseph Chamberlain sat beside her husband in a box to the left of the royalties, where most of the Cabinet Ministers were to be seen. Mrs. Chamberlain was in white with a huge white aigrette in her hair. An ornament that attracted much attention was a coronet worn by Lady Londonderry. It was quite eight inches high and was the tallest in the house. Mrs. Avery, who has been described as "La plus belle femme de Londres," also wore a conspicuous coronet, with its tips set with big pearls.

The performance consisted of selections from "Rigolette," "Carmen," and "Romeo and Juliet," and was conducted by Neil Forsyth, who was afterwards decorated by President Loubet with the Legion of Honour.

KING DINED WITH LOUBET.

King Edward drove to the French Embassy at 7.30 p.m. to dine with President Loubet. A great crowd of people outside gave His Majesty an ovation. The King was met at the door of the Embassy by M. Loubet, Ambassador Cambon, and the staff of the French Embassy. The guests included Premier Balfour, Colonial Secretary Chamberlain, Foreign Minister Lansdowne, Mr. Choate, United States Ambassador; Lord Rosebery and the Duke of Devonshire.

President Loubet has bestowed the decoration of Grand Officer of the Legion of Honour upon the Lord Mayor of London, Sir Marcus Samuel; Admiral Sir Lewis Beaumont, known in America as the former commander of the British Pacific squadron, and Lord Avebury (formerly Sir John Lubbeck).

VISIT TO WINDSOR CASTLE.

President Loubet rose at 6.30 a.m. and started another day's functions at nine o'clock, when, accompanied by Foreign Minister Delcasse, Ambassador Cambon and his suite, the President proceeded to visit Windsor Castle. He travelled in the King's train and was met at the railway station by the Mayor and Corporation of Windsor, who welcomed him to the royal borough. The President drove to the castle, escorted by Horse Guards, and inspected both the State and private apartments, and visited the mausoleum at Frogmore, where M. Loubet deposited a wreath on Queen Victoria's tomb. The Presidential party subsequently returned to London.

THE GERMAN ATTITUDE.

Berlin, July 7.—The German attitude towards President Loubet's visit to King Edward and the Anglo-French entente cordiale, is outwardly one of more or less impartial observation, coupled with attempts to minimize the facts of the situation. Referring to the National Zeitung's assertion that Germany can afford to welcome an Anglo-French understanding as she welcomed the Franco-Italian rapprochement. The Times correspondent says that those who have had the opportunity of looking behind the scenes of European diplomacy during the past 10 or 12 years, know that the friendship now uniting England, France and Italy, has considerably deeper significance than German critics publicly profess to attach to it. The aspect of Europe at the present moment would have been very different, had certain projects of German diplomacy succeeded. The sequel will doubtless show that the German comments of to-day by no means exhaust the significance of the situation, even from a German standpoint.

PARISIANS ARE PLEASED.

Special to The Montreal Star.

Paris, July 7.—The British welcome to M. Loubet has made a manifestly favourable impression among the French. There is unmistakably a convinced tone of satisfaction in France at the recovery of the old friendship. M. Delcasse, who accompanies President Loubet, has the distinction of having a longer uninterrupted term of office as foreign minister than any French statesman since Decazes. M. Delcasse is a hard worker and according to the legend current in official circles, devotes eighteen hours out of 24 to his important duties. This does not prevent him from having his regular morning ride in the Bois.

MYSTIC SHRINERS MEET.

Imperial Council in Session at Saratoga.

Saratoga, N.Y., July 8.—The Imperial Council of the Ancient Order of Nobles of the Mystic Shrine of North America, began its 29th annual session here to-day. The council was escorted from the hotel to the Broadway Theatre, the place of meeting, by the uniformed Arab patrols and bands of music. Thousands of Shriners are in attendance.

Insurance Men Meet.

Alexandria Bay, N. Y., July 8.—The annual meeting of the International Association of Accident Insurance underwriters opened here yesterday, with an attendance of 125 delegates.

Dr. R. C. Nash is Dead.

Little Rock, Ark., July 8.—Dr. R. C. Nash, one of the oldest and most prominent physicians in the south, is dead, aged 79. He was a prominent writer on civil war subjects.

CAUCUS CAUSED DISAPPOINTMENT

Liberals Expected More Definite Announcement as to Railway Policy.

IT IS PROMISED FOR TO-DAY

Opposition to the Proposal as Outlined Continues to Be Strong.

Special to The Montreal Star.

Toronto, July 8.—An Ottawa despatch to the Globe, referring to yesterday's Liberal caucus, says that there was some disappointment over the fact that the railway policy was not made known, but there is reason to believe that it will be announced in its entirety to-morrow. The despatch continues: "To all appearances the Government and the Grand Trunk have reached an understanding on all points. This is confirmed by the fact that Mr. C. M. Hays, who spent Monday night and Tuesday morning in the city, left for home in the afternoon. A quiet, but persistent lobby is being instituted among the Government's followers to have the project laid over until the next session, or at least that part providing for the construction of a line from Winnipeg to Moncton, on the ground that the information concerning the country to be traversed is vague and indefinite. This agitation can be traced to a railway antagonistic to the Grand Trunk Company, and if the idea were to be allowed to prevail the effect might be to kill the entire scheme."

LIBERALS DO NOT AGREE.

Toronto, July 8.—A Mail and Empire Ottawa special says that the Liberal members and the Liberal Ministers are hopelessly demoralized on the question of the Government's railway policy. The cause of the trouble, the despatch continues, lies in the Government's proposal to build a line from Quebec to Moncton, which many members regard as no more necessary than the fifth wheel to a coach. They say it will simply render useless the Intercolonial Railway, and thus destroy a valuable property. Another strong wing of the party is equally pronounced against the proposition that the Government, after building the line from Quebec to Winnipeg, shall lease it to the Grand Trunk Pacific. These maintain that if the Intercolonial is extended to Winnipeg, it should be operated by the Government.

SCHMIDT FOUND GUILTY.

German Bankrupt Sentenced to 32 Months Penal Servitude.

Cassel, Prussia, July 8.—Adolf Schmidt, president of the bankrupt Treber Trocknung (Grain Drying) Company, whose trial began June 22, was found guilty of fraudulent bankruptcy and was sentenced to thirty-two months' penal servitude, and to pay a fine of $750.

American Cricketers Won.

Manchester, England, July 8.—The Philadelphia cricketers beat the Lancashire eleven to-day by nine wickets. The score was 143 runs for one wicket down, in the visitors' second innings. N. Z. Graves was not out for 103 runs.

The feature of the match was the brilliant bowling of J. B. King, who took nine wickets for 49 runs, clean bowled eight men, and three times took two wickets with consecutive balls.

CANADIAN GIANT ASTONISHES GOTHAM.

Edward Beaupre Finds John L. Sullivan's Bed Too Short.

New York, July 8.—Edward Beaupre, 22 years old, who is 8 feet. 3½ inches high, and weighs 367 pounds, is a patron of an uptown hotel, and at present occupies a room on the second floor, which for years has been reserved for John L. Sullivan. Sullivan's bed is a large one but when Mr. Beaupre attempted to cuddle in it on Tuesday night his toes stuck out of the window.

The bed was moved out, and the long young man was forced to sleep crosswise on the floor. His presence serves to attract a crowd whenever he appears in the hall ways or dining room.

Beaupre is a French-Canadian, and was born on a ranch in the Northwest Territories, 55 miles west of Winnipeg. His father and mother he says are of ordinary stature, and he declares that he weighed only nine pounds when he was born.

At the age of 3 he began to grow, and when 10 years of age, measured 6 feet, 4 inches. He attended school in a little settlement near his home until he was 13 years old. He has a brother at home, 9 years, who is a little more than 7 feet tall.

Beaupre says he would like to get a job with some show in order to raise money enough to go to Europe, and have an operation performed on his right cheekbone, which has been broken. Other than this he is a good looking boy.

AQUATICS

JUVENAL DEFEATED IN DIAMOND SCULLS.

The Attendance at Henley Not as Large as Usual.

Henley, Eng., July 8. — The attendance at the opening of the annual regatta here yesterday was markedly smaller than usual and there were fewer house-boats present. The weather was threatening, and a strong wind was blowing. The only race of special interest to America was the heat for the diamond sculls between James B. Juvenal, of the Vesper Boat Club, of Philadelphia, Pa., and J. Beresford, of the Kensington Rowing Club. The Englishman won by a length and three-quarters. Time, 9 minutes and 29 seconds.

Shamrock a Wonder.

New York, July 8. — A Sandy Hook calm, familiar to cup racers, prevented more than a brief trial of the two Shamrocks yesterday, but an hour's windward work in a very light wind afforded the new cup hunter an opportunity to demonstrate again her wonderful drifting qualities.

Pointing higher and footing faster, the new boat worked out to windward of the old one, and 45 minutes after the start, was an eighth of a mile to windward of her. Then the wind died away and the trial was abandoned.

Shamock III. Time.

New York, July 8.—A slight mistake was made in giving the times in the Monday race of the two Shamrocks. The starting time for the Shamrock III. should have been 12, 15, 13, instead of 12, 25, 13. The final result given was correct.

BASEBALL.

DESPONDENT BALL PLAYER MAY BE DEAD

Everything Points to the Drowning of Ed. Delehanty.

TOOK OUT ACCIDENT POLICY

Hoped That Train Would Run Off Track or That Something Would Happen to Him.

Washington, July 8.—Word received in Washington leaves little doubt that Ed. Delehanty, the famous baseball player, committed suicide, or was accidentally drowned at Fort Erie, Ont., on the night of July 2. He left Detroit that day in a very despondent frame of mind, after several days of dissipation. A letter received by Mrs. Delehanty says that an unknown man on the night in question had a difficulty with a bridge tender at Fort Erie, and a moment later fell or jumped into the river. A dress suit case was recovered and in this was found baseball ticket No. 26, issued by the Washington Club to Delehanty.

The day he left Detroit he had taken out an accident policy payable to his little daughter, and he wrote a letter in which he expressed the hope that the train he was taking would run off the track or that something would happen to him.

GOOD RACES AT DELORIMIER PARK

A Large Number of Entries Showed Up--The Judges Were Alert.

AFRICANDER WON AGAIN

Created a Sensation at Sheepshead Bay During the Races Held There Yesterday.

The races at Delorimier Park yesterday were much better than usual, and there was a large number of entries, with some close finishes. The judges were very alert and changed J. P. L.'s driver.

Little Billy smashed a sulky, and Edith J. fell.

The officials were: Starter, Mr. H. Lafleur; judges, Mr. Walter Malone, Malone, N. Y.; Mr. W. T. Gilks, Alliston, Ont.

The summary:

2.35 class, trot and pace, purse, $300—

J. P. L., Jos. Papillon, Contrecoeur	2 2 1 1 1
Antidee, C. Robillard, Montreal	4 1 2 6 5
Winnie J., Newport Stock, Farm	9 3 3 3 3
Billy M., E. P. Branglan, Kingston	10 7 4 3 3
Nellie Carver, A. Runions, Kingston	8 4 5 5 4
Little Nell, Wall and O'Neil, Ottawa	5 5 6 4 7
Leda Wilkes, A. St. Amour, Ottawa	7 8 8 8 6
Lizzie McCord, C. Laurin, Montreal	6 6 7 7 ds
Lewis Wiggle, A. Ritchie, Montreal	3 ds
Edith J., G. E. Whitney, Lebanon, N. H.	1 ds
Committee Boy, S. Desautels Montreal	11 ds
Little Billy, M. Belanger, Ottawa	ds
Little Pete, J. S. Gingras, Farnham	ds

Times—2.21½, 2.25¼, 2.23½, 2.24, 2.26.

2.20 class, trot and pace, purse $300—

Valencin Boy, G. Gagnon, Montreal	2 1 1 1
Nellie S., At Stock, Lynn	1 3 3 2
James S., G. E. Whitney, Lebanon	3 3 2 3
Spunk, J. Girard, Montreal	7 4 5 4

Kentucky Frank, W. M. Hodgson, St. Catharines	6 5 7
May Day, T. Brisson, Montreal	5 8 ds
Sir Knight, W. J. Lyons, Harrowsmith	4 7 ds

Times—2.20¾, 2.20¼, 2.20¾, 2.20½.

AFRICANDER WON AGAIN YESTERDAY.

Defeated Savable, Whorler and Other Well Known Swift Horses.

New York, July 8.—Capping a climax of victories unprecedented in the history of the American turf, Africander proved himself yesterday the greatest three-year-old thoroughbred of his generation. He has surprised the triumphs of Hanover and Hermis, beaten the best handicappers, and stamped his superiority among his contemporaries in decisive style. He won the Lawrence Realization stakes at 1 and ⅝ miles, at Sheepshead Bay, after a battle with probably the best collection of three-year-olds that ever struggled for that classic prize. He overcame speed, courage, and endurance in his adversaries, and in spite of misfortune after misfortune in his own battle for the front, sprang to the lead in the very last strides, after racing at a speed that broke two records before the winning post was reached, and set a new mark for future Realization winners.

Africander won by a head from Golden Maxim, who was two lengths in front of Savable. Whorler followed, four lengths back; Shorthose was fifth, a length and a half away, and twelve lengths in front of Black Hussar. Cardinal Wolseley was a sixteenth of a mile behind the winner. The time was 2.45 1-5, faster by 2 2-5 seconds than the record made by Major Daingerfield last year. Africander was second choice at 3 to 1 in the betting. Shorthose, backed from 4 to 1 to 5 to 2, was a favourite. Charles Dwyer and Simeon Deimel, racing as the Hampton stable, own Africander, whose victories in the Belmont stakes and the Suburban have made his turf history well known. Their share of the stakes was $18,435. R. Miller, trainer of Africander, got $500.

The fractional time of the race was: Quarter, 24 seconds; half, .47 3-8; three-quarters, 1.13; seven-eighths, 1.27 1-5; mile, 1.39; mile and one-eighth, 1.51 3-5 (a record); mile and a quarter, 2.05; mile and a half, 2.31 1-5 (a record); and the mile and five-eighths, 2.46 1-5.

Thirty thousand persons saw the race, among them John A. Drake, owner of the Futurity winner Savable, which he brought from Chicago especially for the Realization. Mr. Drake did not back his entry, which was at 4 to 1 throughout the betting. Summary:

First race, last 5½ furlongs of Futurity course—Bathbeach, 112, Odom, 6 to 1 and 5 to 2, won; Wotan, 107, Haack, 8 to 1 and 3 to 1, second; Walterin, 98, W. Fisher, 7 to 2 and 7 to 5, third. Time, 1.06. Thistle Heather, Sandhurst, Sir Walt, Ancestor, Cap and Gown, Extra Law, Tithonic, Royalton, Eleata, Lorillard and Berosa also ran.

Second race, handicap, 6 furlongs on main track—Lux Casta, 120, Odom, 16 to 5 and 6 to 5, won; Rigodon, 116, Gannon, 2 to 1 and 4 to 5, second; Illyria, 90, Creamer, 15 to 1 and 6 to 1, third. Time, 1.13 1-5. Ingold, St. Raniel, Dekaber, John A. Scott, Lady Uncas and Turnpike also ran.

Third race, double event, last six furlongs of Futurity course—Conjuror, 114, Odom, 9 to 5 and 3 to 5, won; Gallant, 122, Bullman, 11 to 5 and 7 to 10, second; Pulsus, 129, O'Neil, 11 to 5 and 7 to 10, third. Time, 1.11. Box Wood and Yellowhammer also ran.

Fourth race, the Lawrence Realization, 1⅝ miles—Africander, 126, Bullman, 3 to 1 and even, won; Golden Maxim, 126, Cochran, 5 to 1 and 9 to 5, second; Savable, 126, O'Neil, 4 to 1 and 8 to 5, third. Time, 2.45 1-5. Whorler, Shorthose, Black Hussar and Cardinal Wolseley also ran.

Fifth race, mile, selling—Ascension, 101, Smithson, 20 to 1 and 8 to 1, won; Bellario, 106, Michaels, 4 to 1 and 8 to 5, second; Akela, 102, O'Neil, 8 to 1 and 3 to 1, third. Time, 1.40. Sambo, King Raine, Nevermore, Corus Cate, Flara, Duelist, Paul Clifford, Cottage Maid, and Prince of Endurance also ran.

Sixth race, mile and a sixteenth, on turf—Articulate, 122, Larson, 4 to 1 and 8 to 5, won; Mackey Dwyer, 110, Burns, 16 to 5 and 7 to 5, second; Dr. Saylor, 110, O'Neil, 7 to 1 and 5 to 2, third. Time, 1.47. Operator, Satire, Lord Badge, Daly, Lanceman and Leader also ran.

The story of the race is told as follows:

Twelve thousand persons held their sides and roared with laughter during the running of the Stirrup Cup Steeplechase at Sheepshead Bay. It was baout the funniest thing of its kind ever set before a metropolitan crowd. Gentlemen riders, exclusively, had the mounts. Mr. Louis Batjer, to begin with, was thirty pounds overweight, which made Meadow Lark carry 175 pounds in such a lumbering manner that the gelding was reeling after a half mile had been covered. Not long after that Mr. Batjer pulled up and quit. Then Mr. Wilmerding was fourteen pounds overweight on Perion and after a laughable stern chase he apparently allowed his mount to bolt. Hark Forward, who was a well-backed second choice, took a tumble at the second obstacle and Mr. Harris wrenched his arm.

These mishaps left four in the race. Tankard, owned by T. Hitchcock, jr., and ridden by Sidney Holloway was the favourite at 5 to 2 with 4 to 1 each against Higbie, Mr. Kelly up, and Adjidaumo, ridden by Mr. H. S. Page. Higbie made most of the running for a mile and a half, when, as he approached the jump opposite the paddock for the second time he fell, Mr. Kelly landed on his ear, but he quickly remounted and set sail after the others. Tankard held Adjidaumo safe all the way up the back stretch for the last time. At the last jump Tankard drew away under Mr. Holloway's clever riding, winning by five lengths in 5.22, with Adjidaumo second. Just as Howard Gratz took the last obstacle he stumbled and fell. Mr. Evans was hurled on his face, but he clung to the bridle.

Mr. Kelly, who was an eighth of a mile back, saw the accident and began to ride for third money. Mr. Evans ran along beside Howard Gratz, vainly endeavouring to get into the saddle. A bystander finally helped him up just as Higbie passed him, Mr. Kelly laying on the whip. The crowd was in an uproar. Mr. Evans with no cap and with one foot out of the stirrup, went after Higbie. It was nip and tuck between them until Howard Gratz finally pushed his head in front a few yards from the wire and got their place.

CANADIANS LOST MONEY.

New York, July 8.—Canadian wealth to the amount of $25,000 was left in losings at Sheepshead Monday after the cup steeplechase race. Had Higbie won the Canadians would have taken more than $100,000 in winnings. It was the first time this season the Canadian contingent set sail for a cup, and after the race many of them expressed the opinion that but for the fact of the breaking of one of the timbers beyond the jump Higbie would have been first home. Will G. Kelly rode Higbie, who is owned by Carruthers and Phelan.

Among the Canadians who backed Higbie are: James Clark, Charles Rodgers, R. J. Laughlin, and Joseph E. Seagram.

ODDS AND ENDS.

Play was continued yesterday in the special lawn tennis tournament on the courts of the Country Club of Westchester. The smashing of Waidner and the cross drives of Collins were really the features of the day. Ward and Ware, the new Harvard combination, succeeded in beating Larned and Whitman in straight sets. Summary:

Men's invitation doubles; second round:

Kreigh Collins and Louis H. Waidner, Kenwood Country Club, Chicago, defeated Stephen C. Millet and Joseph L. Forbes, Orange T. C. and Country Club, of Westchester, 6—1, 6—2, 6—2.

Holcombe Ward and Leonard E. Ware, Harvard University, defeated Wm. A. Larned and Malcolm D. Whitman, Orange T. C. and Crescent A. C., 7—5, 8—6, 6—2.

CRICKET

Philadelphia-Lancashire.

Manchester, Eng., July 8.—The Philadelphia cricketers, in their match with a Lancashire eleven, begun here Monday, were all out in their first innings yesterday for 187 runs.

The home players, Monday, made 158 runs in their first innings.

At the close of play the Philadelphians in their second innings had scored 73 runs for no wickets down.

Chrysalic Clothes.

FROM Chrysalis to Butterfly is a short stage and a speedy one.

Semi-ready awaits you at the chrysalic stage—"ready-to-try-on" and it can be finished "to order,"—according to your own individuality, in about two hours.

This chrysalic nature of Semi-ready is your insurance against ill-fitting clothes, of unsuitable expression.

You can judge in advance how the shape, pattern, and color effect, of a Semi-ready garment suits your personality before you buy it.

You are also privileged to change your mind about it, and to exchange, or return the suit, even after you have paid for it.

Semi-ready Tailoring

MONTREAL 231 ST. JAMES STREET 1551 ST. CATHERINE STREET

I Cure Weak Men and You Pay Only When Cured.

CURE GUARANTEED.—I will send you a legal guarantee to cure or refund money. I have cured 10,000 cases of rheumatism, varicocele, lumbago, nervousness, indigestion, weak back, kidneys and troubles caused by abuse and excess.

NO CURE NO PAY

I will send you free of charge my latest improved, full power, No. 8 Belt, and you can wear it and if you are cured pay me half price on same, and if not cured return the Belt to me and it won't cost you anything. You can try it free of charge for three months. You to be the judge of cure. This is the most generous offer yet made. Send in your name to-day and receive this splendid new Belt free.

FREE TO ALL

Drop me a postal. I will send you free my beautiful illustrated Medical book. It describes all Belts and men's and women's diseases. It is a valuable book of many points, and you should read it. I will send it free, sealed in plain cover, charges prepaid, to any person writing me.

THE BEST BELT (New non-Vinegar Belt)

All who have used another Belt will realize the great advantages of having a powerful up-to-date improved Belt that don't need soaking in vinegar each time before using. All other Belts sold in Canada use vinegar to produce a current. My improved Belt does away with this trouble; is guaranteed for three years, and never burns; is the strongest belt made, lasts longer, easier to apply, is cleaner and stronger than any other so-called electric belt sold in Canada to-day. I take old-style vinegar belts in exchange. If you are not the man you ought to be write to-day for my Free Book and one of my splendid powerful Belts. It will cure you. It is free. Write to-day. A postal will do.

DR. J. M. MACDONALD ELECTRIC CO., McKINNON BUILDING, TORONTO, ONT. 151 2 2aw

BLOOD POISON A SPECIALTY

New secret remedy absolutely unknown to the profession. Permanent cures in 15 to 35 days. We refund money if we do not cure. You can be treated at home for the same price and the same guarantee; with those who prefer to come here we will contract to cure them or pay expense of coming, railroad and hotel bills, and make no charge, if we fail to cure. If you have taken mercury, iodide potash and still have aches and pains, mucous patches in mouth, sore throat, pimples, copper-colored spots, ulcers on any part of the body, hair or eyebrows falling out, it is this Secondary Blood Poison that we guarantee to cure. We solicit the most obstinate cases and challenge the world for a case we cannot cure. This disease has always baffled the skill of the most eminent physicians. For many years we have made a specialty of treating this disease with our magic remedy and we have $500,000 behind our unconditional guarantee. Write us for 100-page book and absolute proofs. Address: COOK REMEDY COMPANY, 1007 Masonic Temple, Chicago, Illinois.

LACROSSE

OXFORD-CAMBRIDGE AT GRAVENHURST.

But the Home Team Was Too Much for Them This Time.

Gravenhurst, Ont., July 8.— A large crowd gathered at the town park yesterday afternoon to witness the game between the Oxford-Cambridge Lacrosse team and the local team. The game from start to finish was clean and free from any element of roughness, though the visitors were much stronger and heavier than the home team, who exhibited great speed. The teams lined up at 4.25 p. m., and the game started, the ball being at once played on the visitors' goal, and first goal being scored by Gravenhurst in four minutes after the cross-off. The visitors still continued to play on the defensive when quarter time was called.

At the beginning of the second quarter in the first minute the ball was thrown on Oxford-Cambridge goal, and Gravenhurst again scored. After cross-off the Englishmen still continued on the defensive and the home team scored again. The visitors at the latter part of the first half played a stronger game, and the ball was played from either goal, when just before time was called Gravenhurst again scored, and at half time the game stood 4 to 0 in favour of the home team. In the second half, one minute after start, the Gravenhursts again scored, and five minutes later added another goal. Just before three-quarter time Oxford-Cambridge scored their first one and only goal. The last quarter the visitors seemed to brace up and play a little stronger, yet the home team still continued to score, adding three more, and when time was called the game stood 9 to 1 in favour of the home team.

Trustees and Minto Cup.

Ottawa, July 8. — Another series of matches for the Minto Cup during the present year is a possibility. The Brantfords have signified their intention of again challenging should they land the Canadian Lacrosse Association championship, and if they do so the trustees will accept it. In fact, the trustees would welcome a challenge from the Westerners this season, as if there is to be another contest it would do away with the necessity of disturbing the regular schedules of the leagues next summer. It is undoubtedly a hardship to have the routine of the big associations disturbed by the cup matches.

The clubs would welcome the postponement of the games until the league seasons were over.

If any club other than the Brantfords win out in the C. L. A., it would be entitled to challenge according to the trustees' ruling.

The matches played last week were a result of the challenge sent in 1902.

Toronto.—J. Elbridge Underwood, aged 75, is dead.

LOCAL AUTONOMY FOR THE RUSSIANS

Movement to Carry Out the Policy of Decentralization.

CHANGES IN LEGISLATION

A Great Many are Required Before Much Can Be Accomplished.

Special to the Montreal Star.

London, July 8.—The Times publishes from Russian correspondents under the heading, "Sequel to Czar's Recent Manifesto," an account of the conference held at the Czar's Koeselo, the Czar presiding, to discuss the best means of carrying out the policy of decentralization announced in his manifesto. The result hardly upholds the sanguine hopes of a large extension of local autonomy cherished by many Russian Liberals, but rather shows any change to be in the direction of strengthening the autocratic bureaucracy. The conference was attended by the Ministers of the Interior, Finance, Agriculture, Justice, and State Councillor Platonoff. All declared the Ministers have to deal with many questions not really imperial, but which local authority are unable to deal with, since the latter are only empowered to handle a few unimportant questions, but it would be otherwise were radical reform in provincial district administration made as announced in the manifesto by raising provincial governors to be real representatives of the sovereign power. The Minister of Agriculture explained that this would require many legislative changes in administration, and the Minister of the Interior said he had already drawn up a scheme for concentrating the control of all local administrative institutions of each province in a council presided over by a Governor. The Czar approved of this, and ordered lists of the matters transferable from central to local authorities prepared by the various Ministers by August 14.

TROOPS WITH GATLING KEEP PEACE IN EVANSVILLE

Nine are Now Dead and a Score Seriously Injured From Race Riots.

Evansville, Ind., July 8.—The city of Evansville is now under the control of Brig.-General W. J. McKee and Mayor Chas. G. Covert, assisted by a committee of public safety. The step was taken after a conference last night.

The regular police force will be tripled, and will be assisted by the several companies of militia now on guard. All persons found on the streets who cannot furnish a satisfactory explanation of their business will be sent to their homes under guard.

The police are armed with shotguns and revolvers, and their instructions are to force the people to respect their authority.

Mayor Covert last night made a statement, saying he anticipated no further trouble.

Frank Lamble, the eighth victim of the battle in front of the gaol, died last night. Fred. Kappler, the seventh victim, died yesterday afternoon. No further outbreaks occurred.

Charles Taylor, the ninth victim of last night's outbreak, died last night. He was an onlooker. Three persons are dying as a result of the outbreak on Monday night, and 21 others are more or less seriously injured.

Eight companies of militia, and one battery are here. At every corner policemen stand armed with rifles and revolvers, but not a negro is in sight. As the troops marched through the streets with their gatling gun a by-stander shouted: "There won't be anything done until you fellows leave, but watch out then."

Gen. McKee said he could pour 3,000 soldiers into the city before daylight if necessary.

All the saloons are closed. The Governor, in addition to the troops already here, has thirty companies of infantry and two more batteries or artillery ready to come here in case of further trouble.

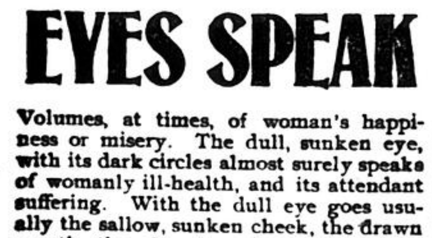
The Central Labour Union joined with the Mayor this afternoon in a proclamation urging all citizens to remain in their homes at night, and to maintain order. The Mayor issued a proclamation to-day asking all citizens to remain at home when not engaged in business.

Lee Brown, the negro who killed Policeman Massey, and precipitated the race riots, was taken from Vincennes to the State prison at Jeffersonville yesterday. The negro was barely alive.

The grand jury returned twenty indictments against rioters in Monday night's trouble.

Mrs. Jas. G. Blaine Ill.

Augusta, Me., July 8. — Mrs Blaine, widow of the late James G. Blaine, is reported to be seriously ill at her home in this city, due to a general breaking down of the system.



EYES SPEAK

Volumes, at times, of woman's happiness or misery. The dull, sunken eye, with its dark circles almost surely speaks of womanly ill-health, and its attendant suffering. With the dull eye goes usually the sallow, sunken cheek, the drawn mouth, the shrunken form—the whole glory of woman's beauty marred by the effects of disease.

Dr. Pierce's Favorite Prescription cures the diseases which undermine the health and mar the beauty of women. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter *free*, and so obtain the advice of a specialist upon their disease. All correspondence is strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"With pleasure I send a few lines to let you know that I feel much better than for eight years before taking your medicine," writes Mrs. Pierce Geise, of 822 West Phila. Street, York, Pa. "Will recommend Dr. Pierce's medicine to every person who may inquire as to what it has done for me. I was troubled with female weakness, and began to think I would never be well. If I had continued the treatment prescribed by my doctor I don't know what would have become of me. When your treatment was commenced my weight was 108 pounds, at present it is 130. Have healthy color and my friends say I look well. My best thanks to you and my best wishes, too, for what you have done for me."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets cleanse the clogged system from accumulated impurities.

BUDWEISER

To guard against imitation the word *Budweiser* is branded on the corks of all bottles of original Budweiser.

Accept no imitations of the *"King of Bottled Beers."*

Anheuser-Busch Brewing Ass'n

St. Louis, U. S. A.

Orders promptly filled by

FRASER, VIGER & CO., Wholesale Dealers, Montreal, Canada.

The Mothers were responsible.

Physicians say that hundreds of people have had their constitutions permanently injured in childhood by having food forced upon them which was repugnant to their taste. Where is the mother nowadays who would urge her child to eat Oat, Barley or Corn meal for its breakfast.

'Malta-Vita'

has been hailed with delight by the children of Canada. They like it because it tastes so good—it is so thoroughly cooked and so easy to digest that the little people thrive and grow fat upon it.

Makes little folks grow. Makes big folks go.

SCHOOL OF MUSKETRY OPENS AT ROCKLIFFE.

Ottawa, July 8.—The Canadian School of Musketry opened yesterday at Rockliffe Range under most auspicious weather conditions. With an exception or two those who will take the course have reported to the commandant, Lieut.-Col. Cartwright, and active work will be begun at once. The attendance is the largest yet, and equipped as it is with a thoroughly competent staff of officers, with power to grant infantry certificates, the course will doubtless be one of the most successful held in Canada. Two of the buildings at Rockliffe will be used for officers' and lecture rooms, and the members of the school will live under canvas in a comfortable camp at the west of the ranges. The staff consists of: Commandant, Lieut.-Col. Cartwright; adjutant, Lieut. H. Kemmis-Betty; quartermaster, Q.M.S. Instructor Legge; instructors, Sergeant Instructors Butcher, Young, Blake-Foster, Goode and Lavoie. Two buglers and fifteen men of the permanent forces are attached for duty. Fifty-four officers and thirty-four non-commissioned officers from different parts of the Dominion are enrolled for the course.

TO VISIT NEWPORT.

Lady Minto and Lady Eileen Elliott Will Go on Friday.

Ottawa, July 8.—The report from Newport that their Excellencies will arrive there on Friday, it was learned is incorrect. His Excellency has no intention of going to Newport or beyond the confines of Canada at present. Her Excellency, however, accompanied by Lady Eileen Elliott and Capt. Bell, are now on Long Island, the guests of Mr. and Mrs. Guinness, who spent a few days at Government House at the opening of Parliament on March last. After spending two or three days there they will go to Newport, probably on Friday, and will be the guest of former Senator Wolcott. Their stay at that resort is not expected to exceed a week.

CHINESE INDEMNITY.

Third Instalment Paid at Shanghai —Accepted Under Reserve.

Washington, July 8.—The United States State Department has been notified that the Chinese Government has paid the third instalment on account of the Boxer indemnity. The money was placed in the hands of the United States fiscal agents at Shanghai Saturday. The settlement was made on the basis of the rate of exchange at the time the Pekin treaty was signed, the United States reserving all rights to further compensation if it shall appear that the indemnity payments are to be made on the basis of a present rate of exchange, which is much higher.

F. W. BAILLIE RESIGNS.

W. D. Ross Becomes Manager of Metropolitan Bank.

Toronto, July 8.—F. W. Baillie has resigned the general managership of the Metropolitan Bank, and Mr. W. D. Ross, assistant general manager, and formerly of the Finance Department, Ottawa, has been appointed in his place. D. E. Thomson, K.C., has been elected a director to the vacancy caused by the resignation of Mr. A. E. Ames.

INTERIM TREASURER.

Premier Parent to Act Till Mr. Duffy's Successor is Chosen.

Quebec, July 8.—At a meeting held yesterday by the Provincial Government-in-Council, Hon. Mr. Parent was named treasurer of the province ad interim, and was afterwards sworn in by His Honour the Lieutenant-Governor. Premier Parent will perform this additional function until a successor to the late Hon. H. T. Duffy is named.

Mr. R. R. Gamey's Plans.

Toronto, July 8.—Mr. Gamey, the member for Manitoulin, who is in the city for a day or two, states that since the House prorogued he has spent his time in Gore Bay, and has met with a friendly reception. He shortly intends to tour all parts of the island and will try to meet all his constituents. A big reunion will be held some time later.

Death of Arthur Perkins.

Ottawa, July 8.—Arthur Perkins, insurance agent and mica inspector, died suddenly at his lodgings, 65 Metcalfe street, yesterday afternoon. He expired half an hour after being taken ill. Deceased was about 50 years of age and came originally from Perkins' Mills. He had been twice married. A sister arrived last evening from Montreal to take charge of the remains.

ROOSEVELT AND HAY DISCUSS DIPLOMACY.

Oyster Bay, July 8.—United States Secretary of State Hay was the guest of President Roosevelt last night at Sagamore Hill. Matters of great importance in the country's international relations were considered.

The conclusions reached at the conference are not disclosed, but it is known that the Russian situation, particularly with respect to the Jewish petition, and the Alaskan boundary question was discussed.

After luncheon President Roosevelt discussed with Secretary Hay and Senators Fairbanks, Hanna and Kearns, the Alaskan boundary matter. Senator Fairbanks was a member of the Joint High Commission which had that question under consideration several years ago.

At the conclusion of the discussion Senators Fairbanks and Kearns left for New York.

Soon afterward Senator Hanna and his party boarded their yacht, and sailed for Newport. When the other visitors were gone the President and Secretary Hay continued their conference until far into the night. It was noted as a bit significant that they should begin their conference on the very day the Russian Ambassador, Count Cassini, sailed for home. It is regarded as likely that some developments in the Russian situation may be expected in a few days.

RHODES SCHOLARSHIPS.

Notice of Examinations Issued in United States.

New York, July 8. — The trustees of the will of Cecil Rhodes have prepared a memorandum for the information of college authorities and intending candidates for Rhodes scholarships in the United States. The first election of scholars in the United States under the bequest will be held between February and May 1904, and the elected scholars will commence residence in October.

A qualifying examination will be held in each state and territory, or at centres which can be easily reached. The requirements are the same as in Canada.

Lady Foresters in Session.

Quebec, July 8.—The third session of the Ladies' Companion High Court of the Independent Order of Foresters for the Province of Quebec, was opened yesterday in the rooms of the Knights of Columbus and the Montreal delegates arrived by boat yesterday. The Companion High Court, which was instituted in Montreal in June, 1899, now comprises fourteen subordinate courts, representing some 500 members, and the reports of the High Court show that good progress has been made since the last biennial session in September, 1901, and the finances are in a flourishing condition. Recently contributions were given for the relief of the victims by the fires at St. Hyacinthe, Hull and other places. Dr. Oronhyatekha, of Toronto, Supreme Chief of the Order, will be here to-day with some of his supreme officers to assist in the settlement of some of the more important matters to come before the convention.

Seized American Vessel.

Special to the Montreal Star.

Ottawa, July 8.—Commander Spain, of the Fishery protection fleet, has left for Port Maitland to take observations to determine the exact position of the United States fishing schooner Kittie D., when she was seized for trespassing in Canadian waters. The captain of the ship maintains that he was not in Canadian waters, but was a good two miles south of the Canadian line.

PILES FOR YEARS CURED IN A WEEK.

Now Appreciates the Superiority of Dr. Chase's Ointment as An Absolute Cure for Itching Piles.

Mr. Edmond Teter, Ste. Rose du Degele, Temiscouata county, Quebec, states: "I consider it a duty both in the interest of Dr. Chase's Ointment and for the good of suffering men and women to say that last year I procured a box of Dr. Chase's Ointment for external, itching piles, from which I had suffered for a number of years and that it cured me completely in a week's time at a cost of sixty cents.

"After having spent much money for other medicines, and not having been cured, I fully appreciate the excellence of Dr. Chase's's Ointment, and have recommended it to several persons, who have proved it equally successful. If Dr. Chase's other remedies are as good as his Ointment, they are well worth using, and you are at liberty to publish my recommendation for the benefit of others."

Dr. Chase's Ointment is the only absolute and guaranteed cure for every form of piles. It has a record of cures unparalleled in the history of medicine. Sixty cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box. 160 1

Laboratory, 33 south Frederick St. Dublin, Ireland. 142 2awtf

LABOUR FEDERATION.

The Question Discussed at a Meeting at Sydney.

Special to The Montreal Star.

Sydney, N. S., July 8.—At a meeting of the Provincial Workingmen's Association, held here yesterday, the matter of federating all the labour organizations in Canada was discussed. The scheme is now well rooted in the association, so that the forthcoming annual meeting a few months hence, the whole question will be formally considered and some action taken. The meeting deprecated very much the fact that Canadian labour, outside of this organization alone, is subjected to the dictation of agitators and officials from the United States who understand neither the people nor the conditions under which they work. The plan by which the proposed scheme of federation is to be carried out will lie in the presentation to all labour unions in Canada of certain proposals involving the adoption of those principles which the Provincial Workingmen's Association follow in their dealings with wage and labour disputes. The Provincial Workingmen's Association is a provincial institution and has an enrollment of seven thousand members. It has never had a strike of any consequence whatever.

CANADIAN TEACHERS.

Organize Association at American Convention.

Boston, July 8. — The Canadian teachers, who are here for the convention, organized yesterday at their headquarters. About eighty attended the meeting and elected the following officers: Dr. McCay, Halifax, director; Mr. Tweedie, New Brunswick, assistant director, and Miss Bessie M. Scott, Ottawa, secretary.

Hitherto, the Canadian delegation has been debarred from receiving the tickets which are given out for distribution to the directors of the various organizations, but with an organization, they stand on the same footing as the other members of the association.

Ranching in Alberta.

Toronto, Ont., July 8.—Mr. J. Cowdry, a leading banker of Fort MacLeod, Alt., in an interview here to-day said that ranching was improving very materially in southern Alberta. Cattle ranching was now much more important than horse ranching in view of the fact that the horses had fetched such a high price during the South African war, and the great majority of those on sale had been purchased. Mexican cattle were being brought into the country in thousands and would play an important part in future breeding in the Alberta ranges. They were of the highest class and made splendid beef.

"Old Probs" Must Move.

Special to The Montreal Star.

Ottawa, July 8.—Mayor Urquhart, of Toronto, had an interview with Hon. Raymond Prefontaine last night in regard to the removal of the observatory staff from Toronto to Ottawa. The Minister of Marine stated that his mind was made up, and that it would be better for the headquarters to come to Ottawa. The observatory at Toronto would be maintained, however, and it would continue to issue reports.

Canada's Foreign Trade.

Ottawa, July 8.—When the trade figures for the fiscal year ending June 30 are finally made up, it will probably be found that the aggregate foreign trade of Canada on the basis of imports for consumption and exports have reached a total of over $450,000,000. This would be more than $35,000,000 in excess of the aggregate foreign trade in the preceding year.

THREE CENTS ON THE DOLLAR.

What the Creditors of the Anderson Bank Will Get.

Oakville, Ont., July 8.—The Anderson Bank failure matter was closed before County Judge Gorham as arbitrator, yesterday afternoon when the fixing of the remuneration of Assignee Clarkson and that of the inspectors was made. The amount to be paid Mr. Clarkson was placed at $600 by the judge, the remuneration of the three inspectors, Messrs. Geo. Andrews, John Macdonald and D. O. Cameron, for fifty days work, together with expenses incurred, $133.14 was fixed at $733.14. The Hon. S. H. Blake's bill amounted to $700, and thus the total cost of closing out the affair is $2,033.14. The total assets realizable by the depositors was $8,500, together with certain property near Toronto, on which they expect to obtain $2,500 in the future. The creditors were owed $150,000. The depositors will thus get three cents on the dollar.

BULGARIA AND TURKEY.

Tension is Attracting Attention — Turks Anxious for War.

Special to The Montreal Star.

Vienna, July 8.—The tension between Sofia and Constantinople is attracting an anxious attention here. The Austro-Hungarian Government has once more urged Bulgaria to refrain from warlike enterprise. Russia, it is understood, is about to address another earnest warning to the Bulgarian Cabinet.

Constantinople, July 8.—In striking contrast to the Bulgarian excitement is the calm attitude of Turkey, which, while strongly opposed to war, is prepared for all eventualities, and will fight, if forced though conscious it cannot profit by it. The army officers are very eager.

To Develop Chicken Trade.

Special to The Montreal Star.

Ottawa, July 8. — Mr. F. H. Beszant, manager for Charles Petrie, Esq., of Liverpool and London, England, was in Ottawa yesterday interviewing Mr. F. C. Hare, chief of the poultry division, Department of Agriculture, re Canadian poultry firms. Mr. Beszant's firm wishes to develop a poultry trade with Canada. In the event of Mr. Chamberlain's trade policy becoming operative, Mr. Beszant stated that chickens from the United States would have to pay duty on entering Great Britain, while Canadian chickens would be admitted free. This would tend to diminish the United States trade and build-up the chicken trade with Canada.

Ontario Medical Council.

Toronto, Ont., July 7.—The medical council of Ontario met yesterday and elected Dr. J. A. Robertson, Stratford, president, and Dr. Sullivan, Kingston, vice-president. The council will continue in session all week taking up changes in matriculation and medical curriculum.

A New Departmental Block.

Special to the Montreal Star.

Ottawa, July 8.—It is stated on pretty good authority that the supplementary estimates will contain an appropriation to enable the Government to acquire land to commence preliminary work upon a new departmental block in Ottawa.

2000 Men Out in Vermont.

Barre, Vt., July 8.—As a result of a strike of 25 granite workers employed by two small firms in this city, 2,000 cutters in this city and Montpelier, were locked out of the sheds and quarries yesterday. The trouble arose over the sub-letting of contracts.

Russian Ambassador Sails.

New York, July 8.—Count Cassini, the Russian Ambassadar to the United States, and the Countess Cassini, his niece, sailed for Europe yesterday on the steamship Kron Prinz Wilhelm, for Bremen, Plymouth, and Cherbourg.

THE NEW FRENCH REMEDY

TRADE THERAPION MARK

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind and surpasses everything hitherto employed.

THERAPION No. 1 in a remarkably short time, often a few days only removes all discharges from the urinary organs, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2 for impurity of the blood scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION No. 3 for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION is sold by all the principal Chemists and Merchants throughout the World. Price in England 2/9 & 4/6. In ordering, state which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word "THERAPION" as it appears on the Government Stamp (in white letters on a red ground) affixed to every package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery.

Sold by Lyman Bros. and Co., Ltd., Toronto. Price $1.00. Postage 4 cents. 154 law

WILL PARKS BLOCK IT?

New York Arbitration Scheme Accepted by Many Unions.

New York, July 8, — Otto M. Eidlitz, chairman of the Board of Governors of the Building Trades' Employers' Association, said last night: "Every union which accepts the plan of arbitration proposed by the employers will go to work on Thursday."

The sentiment among the unions is that most of them will accept the employers' plan outside of the unskilled labourers. The big fight will come on the acceptance of the plan by the Housesmiths and Bridgemen's Union, which is supposed to be controlled by Samuel Parks. Secret meetings of the union were held last night to consider the plan.

Lynchers Hold Up Train.

Vicksburg, Miss., July 8.—Cate Garrett, the negro who stabbed Harry Stout to death Saturday morning, was hanged by a mob near the scene of his crime yesterday. Garrett was taken to Natchez Saturday, Sheriff Brennan fearing an assault on the gaol here. Yesterday a special grand jury found a true bill against Garrett, and Sheriff Brennan notified the County Sheriff to bring the negro to this city. Deputy Sheriff Paul, with the negro, took passage on a train.

At Stouts crossing, a flag station, six miles south, the train was held up by 50 masked men, who were heavily armed, who took the negro and hanged him.

Ex-Premier Out of Politics.

Victoria, B. C., July 8. — Ex-Premier Prior, has announced that he does not intend to be a candidate at the approaching provincial elections, and will not take any part in the campaign.

Harlan W. Brush, of New York, has been appointed United States Consul at Milan, Italy, exchanging places with William Jarvis, of New Hampshire, at present Consul at Milan, who has been appointed consul at Niagara Falls, Ont.

BUILD UP CANADA.

TO THE GOVERNMENT OF CANADA.

Give the manufacturers, workingmen, and farmers of Canada the same kind of tariff as that which has made the United States the home of the most prosperous manufacturers, workingmen and farmers in the world.

TO THE MANUFACTURERS OF CANADA.

Force the Government to give you as good a tariff as that which has made the American manufacturers rich. When you get this tariff, pay your Canadian workmen American wages.

TO THE WORKINGMEN OF CANADA.

Take a leaf out of the book of the American workingman. Help your employers to obtain for themselves and for you a Canada-for-Canadians tariff.

TO THE FARMERS OF CANADA.

Profit by the experience of the American farmers, the wealthiest farmers in the world, who support a high tariff and prosper under it and because of it.

To the GOVERNMENT, MANUFACTURERS, WORKINGMEN, and FARMERS of Canada.

An active campaign has been commenced in England in favour of Preferential Trade within the Empire. It is to the interest of Canada to trade on liberal terms with countries that will trade on liberal terms with her. If the Dominion is to be in a position to grant substantial preferences to the United Kingdom and the sister colonies, her tariff against the rest of the world must be materially increased. The present time affords the opportunity of a nation's lifetime.

The Star at Summer Resorts.

The Star is mailed to any address in Canada or the United States direct from the office of publication for any period desired at city rates.

Orders for the Star by the week, fortnight, month or year may be left at either the head office, St. James street, or at the branch office, corner Peel and St. Catherine.

Cash must accompany all mail orders. No extra charge for postage.

CANADA FOR THE CANADIANS.

The New York World, after quoting the figures of trade between Canada and the United States, cited in the Star of yesterday, says:

"Representative Bede, of Duluth, told the other day why Minnesota favours reciprocity with Canada. He declared that in twenty-five years from now Minnesota will not produce a bushel of wheat for export, because other crops are more profitable, and in half that time the great exporting flour mills of Minneapolis and Duluth will shut down unless they can grind the Canadian crop of wheat. That crop can be diverted over the border only through open doors.

"Meanwhile there is being urged on in Canada a movement in which 'Canada for the Canadians' is the rallying cry. The Montreal Star carries daily on its editorial page a plea for 'the same kind of tariff as that which made the United States the home of the most prosperous manufacturers, workingmen and farmers in the world.' The success of this movement will mean a pause in the trade expansion indicated by the export figures just quoted. Those figures proclaim eloquently that the present restraint of trade is unnatural. The argument of Minnesota for a commercial 'getting together' with Canada is but one part of an argument which is national."

The utterances of the press all over the United States indicate that there is very general alarm at the prospect of the success of a "Canada for the Canadians" movement preventing a continuance of the system which is enriching American manufacturers, workmen and farmers at the expense of their Canadian competitors. The people of Canada have always been willing to trade with their neighbours on anything like fair terms. There was a time when some Canadians were a little too anxious on the subject; so anxious that they were prepared to sacrifice their commercial independence and to jeopardize their political future for the sake of the trade of the continent to which we belong. That time is past. Our neighbours cannot complain of any unnatural restraints of trade between Canada and the United States, because the biggest obstacles are of their own making. If the millers of Minneapolis and Duluth have to shut down their big mills within twelve or thirteen years for want of wheat, we can grind in Canada and we can grow in Canada by that time all the wheat that is wanted for export from this continent.

THE EFFECTS OF IMPERIAL PREFERENTIAL TRADE IN AMERICA.

The United States papers have shown a pathetic amount of solicitude lest Great Britain should ruin herself by a departure from the free trade principles which all good Americans admire so much when applied to England. Now, however, there is a marked feeling in the United States that the abandonment of free trade by England might really be a matter of some importance to the United States. The New York Press says "Since the United States discriminates in favour of Cuba, which buys nothing from us as compared with our northern neighbours, and against Canada, which takes very nearly a hundred millions more of our goods a year than Cuba, the British North Americans are demanding, and sooner or later will get, preferential arrangements with Great Britain, our largest foreign market, when we shall have two of our best customers, now taking more than half our total exports, discriminating against us, while we try to catch a few Cuban pennies in our reciprocity hat.

This seems to size up the situation admirably.

A PROBLEM OF TO-DAY.

The talented lady who writes "The Cause of Women" for the New York Sunday Sun makes some strong remarks about American children. The starting point of her remarks is the fact that, when the Williams and Walker troupe of negro performers recently gave an entertainment at a children's party at Buckingham Palace, what chiefly impressed the managers of the show was "the refined and courteous behaviour of the children, not only towards their elders, but towards each other." This, says the lady in question, Mrs. Ira Husted Harper, is entirely in line with what has been reported by others who have had an opportunity to observe the children of the nobility and cultured classes in England. The London papers, she adds, complain of the bad manners which have been brought to Great Britain by American men and women, but "they will not realize what a calamity of this sort really is until the manner of American children have been imported and gained a foothold." Then she lets herself out on the subject as follows:

"There is nothing like them even among the children of Central Africa and the Fiji Islands. The offspring of those savage races may be little demons, who would not hesitate to kill and eat each other, but they could never approach the refinements of barbarism practised by their prototypes in the United States. Here all are born free and equal, which means that the children are equal to their parents and free to do whatever they please. One constantly marvels at the ingenuity with which they conjure up disagreeable performances."

"It would not do," she finally observes, "to covet the houses or lands, the husbands or wives, of our English cousins; but we may be pardoned if we do entertain a slight feeling of envy when we think of their well-behaved children."

Now, we have not quoted these remarks of Mrs. Harper's for the mere purpose of showing the children of our neighbours in an unfavourable light. We are quite prepared, indeed, to say that, in our opinion, that lady overdraws the picture; but, assuming that her general complaint of the bad manners and ugly disposition of American (i.e., United States) children is well founded, we should like to ask Mrs. Harper whether she does not consider the phenomenon, from one point of view at least, a most extraordinary one.

The United States is the country where, of all countries in the world, woman exercises a supreme influence in the household and in society. Her energies have been emancipated for all kinds of purposes. She goes everywhere, sees everything, reads everything, says everything, does everything. "No," Mrs. Harper may reply, "she does not vote, except here and there." Well, let us note that fact; but neither did her mother nor her grandmother vote, neither does the Englishwoman vote, so that cannot be the reason why the American child of to-day behaves so detestably. The fact challenging attention is the sharp coincidence in time and place between the vastly enlarged influence of women and the abnormally bad behaviour of children. Mrs. Harper is championing "the cause of women" most valiantly, not to say aggressively, week by week; will she now tell us pointedly how it is that the woman of the present day, in her highly enlightened country, have not brought their greatly enlarged influence and power to bear on the moral education of the young. How is it—this is the question—that the children of to-day, brought up in houses presided over most imperially by ladies strenuous enough for President Roosevelt and cultured enough for the President of Harvard—children taught also in schools where man, poor thing! is all but obsolete, and certainly innocuous in his desuetude—are not something just short of little angels, instead of being the ill-conditioned imps she describes?

It is a poor business to envy other people their well-behaved children instead of setting to work to make our own children well-behaved. Taking the American women at Mrs. Harper's high valuation, no one should have as well behaved children as she, for there is not her equal in the world. It cannot be said that her husband thwarts her beneficent designs, for while she has found her place, well to the front, he has found his, well to the rear. No, she has things in her own hands, as no woman ever had before. So, once more, let us know what use she is making of her sphere of household education of her vastly enlarged powers and opportunities.

CANADA VS. CALIFORNIA.

The statement made by Mr. Charles F. Ferguson, a Los Angelos fruit grower, that Californian fruit is being crowded out of the British market by the Canadian product, is very encouraging; but the most significant thing he said was one of the reasons for this that he gave. "English buyers," he said, "will patronize a Canadian firm in preference to an American firm every time, and therein is our principal difficulty."

"Grown in Canada" is a sign of commendation with John Bull. He wants to patronize his "boy's" fr it farm and market garden and wheat field and dairy, if he possibly can. The American sellers themselves being the witnesses, the British buyer gives the preference to his own colonists every time.

It is this feeling towards us that constitutes the strongest force pushing the Chamberlain policy through. We have won the heart of the bluff old man, and he wants to see us prosper. Those who doubted the wisdom of the money invested in the South African contingents can now see what a folly it is to never look beyond one's nose.

But John Bull is also a business man, and a passionate friend of honesty and honour. He will not like to be cheated—even by one of his own colonists. Once he is bitten, indeed, by a Canadian merchant, it will take a great deal of persuasion to induce him to try again. As for his paternal pride in us, he is apt to deny any paternity in regard to a community of swindlers. The meaning of this is that we must be very careful to send John honestly packed fruit. The small apples at the bottom and the big ones at the top will kill our hold on the British market about as speedily as anything we can do.

Nor will John Bull buy bad goods from us. He wants the best, and is willing to pay for it. If he can buy it from us, he will be mightily well pleased; but he will not take an inferior article for long just because it is marked "Canadian." When Californian fruit is better than our output, it will eventually command the market. John will be a little ashamed to see the name of one of his colonies on second class goods, but he will not eat them for all that.

Still, we should certainly beat California in the British market for any fruit we can raise. We are much nearer to our customers, and our fruits should not suffer so much from shipment. If the handicap of a transcontinental trip does not put the California shipper out of the running with us, we may well be ashamed of our work.

We should make it a business to sell John Bull at least as good fruit as he can buy anywhere on earth, to pack it for him with scrupulous honesty and the way he likes it, to ship it promptly and with care, and to sell it at a competing rate. This is the way to keep the hold we have won on his esteem.

Five Chances in One Hundred.

Special to The Montreal Star.

New York, July 8. — A New York World despatch from Rome says Prof. Baccelli, the renowned specialist in lung diseases, surmises that Dr. Lapponi's first diagnosis of the Pope's case must have been erroneous, for he thinks if it had been correct, the Pope would be dead now. As matters stand, he believes the Pope has five chances in a hundred.

THIS DATE 30 YEARS AGO.

(From the Star fyle of July, 1873.)

The tenth annual report of the Commerce of Montreal and statements relative to the home and foreign trade of the Dominion, by Mr. W. J. Patterson, secretary of the Board of Trade and Corn Exchange Association, has just been published. The volume contains a vast amount of interesting and useful matter, statistics, etc., and seems to have been very carefully prepared.

AS far back as 1870, the late Mr. W. J. Patterson was the well-known secretary of the Corn Exchange Association, the president being the late Mr. M. P. Ryan, afterwards collector of customs. The president of the Board of Trade that year was the late Hon. John Young. Mr. Patterson was an efficient official, ever on the alert to further the interest of the trade and commerce of the port and the Dominion. His annual reports were always full and accurate concerning the business transacted by both the trade corporations, and were valuable works of reference to the commercial community. He passed away on June 12th, 1886.

It is now proposed to erect an opera house at a cost of $300,000 on the site of the burned St. Patrick's Hall, and a number of gentlemen with ample means have associated themselves together with this view. One of the number is stated to have proposed that the building when completed should be rented at the rate of $30,000 per annum. The plans are being prepared, and the first floors will probably be devoted to shops.

THE high-priced opera house did not materialize. Efforts were made to form a joint stock company to erect such a building, but the moneyed men of those days were not theatrically inclined, and as a result the scheme resulted in failure. The property—almost valuable one to-day, facing on Victoria square—was subsequently sold, much to the sorrow of many warm-hearted sons of the Emerald Isle.

Mr. Andrew Robertson has been elected treasurer to the Montreal General Hospital in the place of Mr. George Moffatt, who, in consequence of absence from the city for some time, has been unable to fill the duties and has therefore resigned.

THE late Mr. Andrew Robertson was a leading dry goods merchant of the city, and senior partner in the firm of Robertson, Linton & Co. He retired from business in 1885. He was president of the Dominion Board of Trade in 1876, and the Montreal Board of Trade, 1876-77. In 1879 he became chairman of the Harbour Commissioners, which he held until his death, about the year 1890.

The quarterly meeting of the Caledonian Society is called by the secretary, Mr. F. J. Logie, for Thursday evening next, at the St. Andrew's Home, Dorchester street, on July 19, at 8 o'clock. A full attendance of members is requested.

THE late Mr. Logie was an old and tried official in the Montreal Post Office. He was ever diligent and courteous to the public, and made a most efficient secretary for the Caledonian Society for many years. He passed away many years ago.

The man Chateauneuf, from Ottawa, arrested some time since for swindling a habitant, then stopping at Rasco's Hotel, pleaded guilty to the charge before Judge Coursol this morning, and was remanded to prison till Thursday, when he will be sentenced.

RASCO'S HOTEL, or all that remains of it, was situated on St. Paul street, opposite the Bonsecours market, and in the days of the rebellion of 1837-38 was the most fashionable hotel of the city. Some of the gilt lettering is still to be seen on the front of the old building, in which were held in the old days many great balls and banquets.

PROMINENT CANADIANS WHO HAVE PASSED AWAY.

Rev. J. L. Mongeau, parish priest of St. Remi, died on July 8th, 1[illegible] at the Hospital of the Grey Nuns, Varennes, at the age of 54.

TO-NIGHT'S APPOINTMENTS.

Theatre Francais—"The Land of the Living."

Sohmer Park—Vaudeville and Lavigne's Band.

THE BOOT AND SHOE MERCHANTS.—At last night's meeting of the Boot and Shoe Merchants' Association it was reported that the early closing rule is being well observed. The following new members were initiated: A. Olivier, Thos. Hickey and M. Mendelsohn. It was decided to hold the annual picnic at Carillon. The following committee was appointed to arrange the details: Messrs. Gravel, L. A. Fortin, O. P. Demontigny, E. P. Ronayne, Ed. Wayland, A. Adelstin, F. Leroux, J. Cholnard, A. Lanthier, L. Julien, A. Brunet, A. S. Lavalle and C. R. LaSalle.

GOWN OF EMBROIDERED CHEVIOT WITH LACE

Embroidered cheviot elaborately trimmed with cream Mexican lace. The popular bolero and skirt yoke are simulated by this lace, and large fancy buttons decorate the front of the blouse. The hat is of white embroidery with an edge of pale blue straw. Taffeta ribbon and an ostrich feather are the trimmings.

THE PASSING HOUR.

And now Mr. Parent is to handle the cash. Well! Well!

"What heading shall I put on this prize fight story?" enquired the reporter.

"Oh, run it under 'Striking Events'," replied the city editor.

Then there was a rough house.

Never having been able to get the Americans to show their Alaskan boundary case before, the Canadians are going to photograph it now that it is to be seen.

The parliamentary committee on electoral corruption was about the last committee to get to work.

A license having been thrust upon Westmount, the town now wants a commission to prove that its water is not fit to drink.

It has been discovered that Munns' unfermented wines are not intoxicating. Neither was Mr. Munns' success when running in North York.

Another American preacher predicts the annexation of Canada. Some of these ministers think of marriage fees in connection with everything.

SYMPATHETIC.

Toast-master (to chairman of public dinner).—"Would you like to propose your toast now, or should we let 'em enjoy themselves a bit longer?" —Punch.

Down in Venezuela the Government occasionally commandeers a railway. Here a railway commandeers the Government.

The Moorish rebels kept a London Times correspondent three weeks and then let him go. If he had been our Dr. Parkin, Times correspondent, etc., they could not have stood it that long.

Any fool who stops the Street Railway from running its "observation cars" would probably have been delighted to see Morgan brick up his store. What cares he what the tourists think of Montreal?

Bar examinations are being held in Quebec—also in most others places except Westmount.

That scrap over religion in Kingston penitentiary shows that there are still some men who would rather fight about religion than practise it.

There is to be a double amount of caw-cussing before the Liberal party will swallow that Moncton-to-Winnipeg scheme.

Wouldn't it do to start the trunk line at Levis? That would take in the Quebec bridge.

King Peter is not above making a joke at his own expense. At a dinner in Belgrade His Majesty expressed his satisfaction that "Servia to-day stood high in the esteem and respect of Europe." The general opinion in Europe is that the new Servian Government is just about good enough for a country that will put up with such a Government. Whether the new Government kills the new King, or the new King kills the new Government, the verdict of Europe will be "Serv-i-a right."

FLY SEASON IS HERE.

If a man will sit down and pretend to be posing for a time-exposure photograph, the fly will come out in the open to be murdered, for it hasn't enough patience and strength of purpose to lie low the same as a man. It's in the nature of the beast to buzz around. This is where the fly resembles some people we all know.

Even the teetotaller who has a wife is bound to sup-porter.

(The art of domestic science is rapidly becoming a thing of the past.—Daily Paper.)

She can talk in Hindustani
Can our clever sister Annie,
And at repartee she's very sharp and curt,
She's grand at mathematics,
Theorems and quadratics.
But she cannot sew a button on a shirt.

She is great on French and Spanish,
Her ways are very mannish,
And to teach her brother Latin oft she tries,
She reads her Ovid, Plato,
But it's very sad to state, oh!
That she ain't a bit of good at making pies.

So our clever sister Annie,
With her Greek and Hindustani,
Just manages the cares of life to shirk,
And she sits down with her Ruskin
While Dad is busy huskin',
And mother's in the kitchen hard at work.

FOUND HIS FATHER AFTER EIGHT YEARS

Gatineau Point Boy, Stolen by Gipsies, Was Taken to Michigan.

LIVED WITH A RELATIVE

Who Never Suspected the Boy's Identity Till Friend From East Recognized Him.

Special to The Montreal Star.

Ottawa, July 8.—Eight years ago the family of Xavier Moreau, a farmer of Gatineau Point, was plunged into deep sorrow by the disappearance of their little son, then six years old. The lad had gone away from the house to play, and, not returning within reasonable time, a search was made, and near the river bank were found his hat and mitts. The discovery led to the natural conclusion that the boy had been drowned, and efforts to recover the body being fruitless, further search was dropped.

Lately, however, a sequel to the story began. A man, a friend of the Moreau family, went to Illinois to visit a cousin of the father of the missing lad. Living with him was a boy about fourteen years of age and the visitor remarked his strong resemblance to Xavier Moreau. Upon hearing the name the boy said, "Yes, that's my name." Thereupon the cousin with whom the boy had lived told that some peddlers had passed through the locality several years previously and had left the boy, whom he had adopted and cared for.

Mr. Moreau, at Gatineau Point, has been communicated with, and has sent an account of certain marks by means of which his son may be identified. It is surmised that the boy was stolen by the peddlers, who left his hat and mitts by the river bank purposely to prevent a wide search being made. They then journeyed to Illinois and by a curious coincidence the boy was adopted by a relative of his father living many hundreds of miles away.

When the lad was lost, 8 years ago, his mother was so much grieved that her mind was affected. In time, however, she recovered her normal condition. Last week, however, the news of the possible discovery of her son arrived, and her mind, being weakened by previous sorrow, the emotion proved too much and she has suffered a relapse. News is shortly expected of the identification of the child.

St. John Labourers Strike.

Special to the Montreal Star.

St. John, July 7.—The strike among the city labourers is without change. Director Cushing refuses to consider the men's request for an advance. The secretary of the union says there is an offer from an outside contractor for 100 men at $1.50 and $1.75 per day. They will not consider the offer until after a mass meeting to be held on Thursday evening. The Teamsters Union at a meeting on Tuesday evening passed a resolution holding the aldermen responsible for Director Cushing's action in trying to prevent a settlement. They pledged themselves to vote against the aldermen at the next civic elections.

Smallpox Prevails.

Special to the Montreal Star.

Moncton, N. B., July 8.—The Moncton Board of Health has closed several roads in the borders of Kent County owing to the prevalence of smallpox.

A toddy made with Sir John Power & Son's famous "Three Swallows" Irish Whiskey is simply incomparable. In great favor in London Clubs.

MEETINGS AND AMUSEMENTS.

LOYAL ORANGE ASSOCIATION, MONTREAL,

Will celebrate the 12th July by an excursion to Huntingdon, Que., on Saturday morning, July 11th. Train leaves Windsor station at 8 a.m. Tickets can be procured from the committee or on the train. Adults $1.00. Children under 12 years 50c. Under 5 years free.

The Annual Church Parade

Will be held at St. Martin's Church, St. Urbain St., on Sunday afternoon, July 12th. Brethren will leave the Hall, 2204 St. Catherine st., at 3.30 sharp. Regalia. S. GODBEE,
County Secretary.

MEETINGS AND AMUSEMENTS.

FRANCAIS Mats. Wednesday, Thursday, Saturday
THIS WEEK
The Aubrey Stock Co. presenting
"THE LAND OF THE LIVING"
Scenes are of England and South Africa.

FRESH AIR FUND

The River Bank Home.

The Home on the Richelieu River, at Chambly, is now open. Applications for admission may be made to the Committee, at the Star Office, 165 St. James street, on the afternoons of Monday, Tuesday and Wednesday of each week during the season, between the hours of two and four o'clock. Every application must be accompanied with a certificate from the clergyman to whose church the applicant belongs. Blank certificate forms may be obtained from the secretary, at the Star Office, St. James street.

The Fresh Air Fund is administered by a volunteer committee of men and women, including the city missionaries, interested in the welfare and suffering of children. It is established to take away from the city for a longer or shorter period, children and mothers whom the visiting doctor advises to send. It is:

1st—For the sick children of the poor.

2nd—For tired working mothers with children.

3rd—For children threatened with sickness and whose parents have not the means to enable them to leave the city.

Five dollars will send a mother and sick child to the country for a fortnight, and larger amounts will do proportionate good. Contributians may be sent to the Star Office, 165 St. James street; Star Branch Office, corner of Peel and St. Catherine streets, or to Charles Alexander, Esq., honorary treasurer, 219 St. James street.
154 29

EDUCATIONAL.

ST. MARGARET'S COLLEGE TORONTO.

A high class Residential and Day School for Girls; thoroughly equipped in every department.

The class rooms built especially for the work; large grounds for recreation and games; only teachers of the highest Academic and Professional standing employed, and their names and qualifications are given in the Prospectus; the musical course is the same as that prescribed for the musical examinations of the University of Toronto; there is a large Music Hall and eighteen soundproof piano practice rooms.

The following courses are taught: Academic, Music (Vocal and Instrumental), Art, Physical Culture, Elocution and Domestic Science.

GEORGE DICKSON, M.A., Director

Sample (sufficient for eight meals) free.

LEEMING, MILES & CO., MONTREAL.

AMERICAN OFFICERS TO ATTEND STATE BALL.

Portsmouth Banquets Junior Officers and Men—Mayor Praises Roosevelt.

London, July 8.—Rear Admiral Cotton, Captain Hemphill, of the United States flagship Kearsarge, and the other American officers who are to attend to-night's State ball at Buckingham Palace, arrived in London this afternoon accompanied by Rear-Admiral Milne, the representative of King Edward, and took up quarters at various hotels, as guests of the King. Subsequently, in full uniform, they paid a round of official visits.

The 1500 American officers and men remaining at Portsmouth are being entertained in various ways, including a luncheon at the Volunteer Rifle Hall, at which the Mayor presided. In toasting King Edward, the Mayor said he believed His Majesty's efforts to promote friendship and good will between Great Britain and other countries were fully appreciated by the United States.

Toasting President Roosevelt, the Mayor said:

"We on this side of the Atlantic, sharing with you, representatives of the great nation across the sea, a common heritage and speaking the same language, honour your president for the grand work in which he is engaged, and which, we are persuaded, is not only conducive to the best interests of the United States and Great Britain, but must advance the cause of civilization, freedom and justice the world over."

The final toast was to the United States Navy, in which the Mayor cordially welcomed the visit of the United States European squadron to Portsmouth as being further proof of the friendly feeling of President Roosevelt.

Banquets and Toasts.

The American squadron's first day in British water ended as brilliantly as it began. While Admiral Hotham entertained Admiral Cotton, and the American captains at dinner, the junior officers of the United States vessels were dining on board the British gunnery ship Excellent. The English and American ships were illuminated last evening.

The dinner given by Admiral Hotham was characterized by considerable warmth of feeling. There were no formal toasts except those to King Edward and the President of the United States, and no set speeches. Admiral Cotton yesterday received a despatch from King Edward welcoming him to England.

Catholic Sailors' Concert.

The weekly concert of the Catholic Sailors' Club this evening will, as usual, be very entertaining, as some of the leading talent of the city have volunteered their services. Among them will be Miss Delahaunty, Miss Dineen, Miss Gertie O'Brien and Miss McNally.

The sailors from the ships in port will render their songs and choruses, also clog and Irish jig dancing. Ex-Ald. Chas. F. Smith will occupy the chair.

Special Notice.

Regina Music Boxes at New York Prices.

We are sole agents for the above famous Music Boxes, and we sell them at New York net cash prices.

You can have a Regina Box, with 12 tune sheets included, as low as $20, and payable only $5 cash and $2 monthly. Larger sizes in proportion. Pratte, Nordheimer & Glendon, 2461 St. Catherine street.

MONTREAL WATER WORKS

TENDERS FOR SUPPLIES FOR 1903.

SEALED TENDERS addressed to the City Clerk and deposited in the office of the said City Clerk, City Hall, endorsed with the name of one of the articles mentioned hereafter, as the case may be, will be received until 12 o'clock noon on TUESDAY, the 21st JULY inst., for the supply and delivery of the following articles:

Cast Iron Pipes.
Special Castings.
Lead Pipe. Pig Lead and Tin.
Brass Castings.
General Stores.
Lumber. Also for the purchase of Iron and Lead Scrap.

The whole in accordance with specifications to be seen and obtained, as well as forms of tender, at the office of the Superintendent, M. W. W., City Hall, and any tender not made on the official form, or not in conformity with the terms of the specification will not be considered. Said tenders will be opened by the City Clerk, in the presence of the interested parties, at the first meeting of the Water Committee to be held after the reception of the said tenders.

The Water Committee do not bind themselves to accept the lowest or any of the tenders.

By order,

L. O. DAVID,
City Clerk.

City Clerk's Office,
City Hall,
Montreal, July 7th, 1903. 160 2

MR. ANDREW FREDERICK GAULT HAS PASSED AWAY AT GEORGEVILLE, QUE

Mr. Andrew F. Gault, for years one of the best known figures in the industrial life of Canada, passed away at his handsome summer home at Georgeville, Que., at half past ten o'clock last evening.

Mr. Gault, who has been ill for some months, and who has been in a serious condition for the past few weeks, took a sudden turn for the worse on Sunday, at which time Mr. Hamilton Gault, the son, was called to his father's bedside. The immediate cause of Mr. Gault's death was Bright's disease.

HAD A NOTABLE CAREER.

Mr. Andrew Frederick Gault, manufacturer and merchant, was for many years one of the most prominent business men and foremost citizens of the Dominion.

It was through his energy and clear-sighted business instinct that many of the great manufacturing plants of this country were inaugurated, so in after years develop and give employment to thousands upon thousands of hands, thus proving, if proof was needed, that it was not necessary for Canadians to go abroad for their cottons, their woollens and other manufactured articles.

As a foremost citizen, Mr. Gault stood in the front rank, though of political honours he would have none for himself. Three times he was offered a Senatorship, and three times he declined it.

The citizens of Montreal wished him to become Mayor of the city, and he was tendered the office. The choice was a unanimous one, but Mr. Gault thanked the committee which waited upon him and declined the honour.

Time and again Mr. Gault's fellow citizens wished him to represent them in the Ottawa House, but his invariable answer was that he had not the time to be politician and business man both.

What time Mr. Gault took away from his vast business affairs was devoted to travel, to the affairs of the many charitable organizations with which he was connected, and to the Church of England. It was through his benficence that the Montreal Diocesan Theological College owes its existence, for he erected the structure at a cost of $150,000, and when it was completed in the autumn of 1896 he handed over the deeds and other papers to the Lord Bishop of Montreal, and it was then that Bishop Bond said:

"Friend of the church, friend of humanity, we are deeply grateful to you."

BORN IN IRELAND.

Mr. A. F. Gault was born at Strabane, Ireland, in 1833, has father being the late Mr. Leslie Gault, merchant and shipowner, of that place. Together with his parents the subject of the sketch came to this country when young Gault was but a child. He received his education at the old High School in this city, and then spent some little time on his father's farm, which was located at the back end of the island.

It was always said that Leslie Gault meant his son to be a farmer, but the youth gazed at the crops and found that he could not see them grow, and then concluded that farming was too slow a business — he wished something which grew while he looked on.

Young Gault, then a sturdy youth, entered the dry goods firm, of which the late Mr. Walter McFarlane was the head. He remained there gathering the rudiments of the trade until 1853, when he resolved to branch out for himself, and in that year he established the wholesale dry goods house of Gault, Stevenson and Company, his partner being the late Mr. J. B. Stevenson, brother of Col. A. A. Stevenson. In 1857 this partnership was dissolved, Mr. Stevenson retiring. The late Mr. Robert L. Gault, brother of the deceased, who passed away some few years ago, then entered the business, and the firm was Gault Brothers and Company, which name it retained up to within a comparatively short time, when it became the Gault Brothers Company, Ltd.

BECAME INTERESTED IN COTTONS.

Early in his business career Mr. A. F. Gault became interested in the manufacture of cotton and woollen goods. He was practically one of the founders of the Montreal Cotton Company, for up to the time he assumed the management it had had a checkered career, and its financial difficulties were only tided over when Mr. Gault and his friends assumed the liabilities, which amounted to a good many thousands of dollars. In those times he became president of the Montreal Cotton Company, and through the bright days and the dark remained the chief executive up to the time of his death.

Mr. Gault was also president of the Hochelaga Cotton Mills Company, now the Dominion Cotton Mills Company; president of the Campbellford Woollen Mills Company; had served as president of the Canadian Coloured Cotton Mills Company, and at the time of his death was president of the Excelsior Woollen Mills Company, and of the Crescent Manufacturing Company.

At different periods in his career Mr. Gault served on the directorate of many of the prominent Canadian banks. He was at one period a director of Molsons Bank and of the City and District Savings Bank, while he was one of the Board of Directors of the Bank of Montreal up to the time he passed away. His advice on all topics touching Canadian industrial life was always looked upon as particularly valuable.

The deceased was the local chairman of the London and Liverpool and Globe Insurance Company. He was a director of the Royal Victoria Life Assurance Company, and was formerly vice-president of the Manufacturers' Life Insurance Company.

DEEP INTEREST IN THE CHURCH.

In matters pertaining to the Church of England, Mr. Gault always took a prominent place. He had served as treasurer of the Synod and also as a delegate to the General Synod of the Church of England. He was treasurer of the Robert Jones Convalescent Home, a member of the Board of Outdoor Relief, vice-president of Andrews Home, vice-president of the House of Industry and Refuge, and he was at one time on the committee of management of the Mackay Institute.

The deceased was for many years a prominent member of the Montreal Board of Trade, serving on the Council of that body, and also on the Board of Arbitration. He, however, would never accept the presidency though it had been tendered to him repeatedly. In the earlier days he took great interest in the affairs of the Board, and was, with Lord Strathcona, then Sir Donald Smith, one of the trustees for the first mortgage bonds on the old building, which was burned upward of two years ago.

Mr. Gault was always a strenuous man of affairs. He disliked above all things to be blocked in a project. He was as good a fighter as he was a friend and obstacles cast in his way made him drive all the harder towards the goal he had in view.

MILLIONAIRE TWICE OVER.

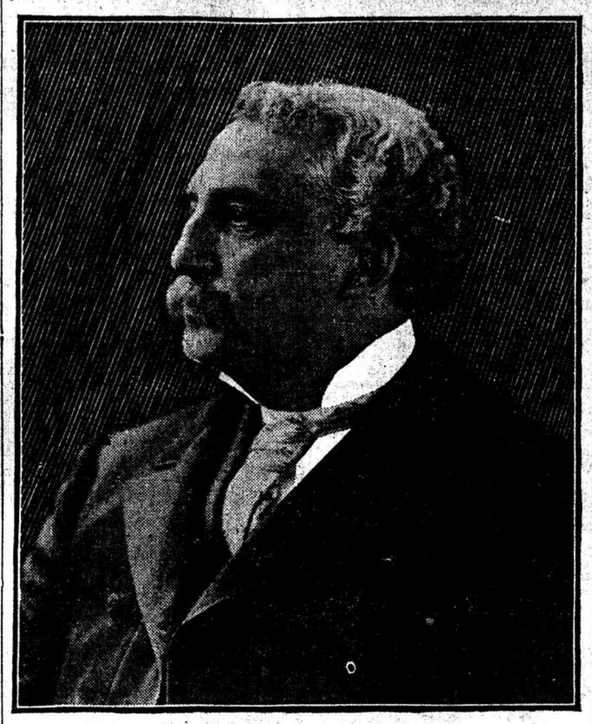
As money runs in Canada Mr. Gault was a very wealthy man, his fortune, according to his own figures given a personal friend some months ago, placing it at two million dollars. These funds are for the most part invested in the various manufacturing enterprises which have already been mentioned.

He was one of the largest, though not the largest shareholder in the Dominion Cotton Company. He was also a very large holder of Montreal Cotton shares, and in fact was well represented on the stock books of all the concerns in which he was interested in any manner whatever.

Mr. Gault was the last surviving member of the older generation, his two brothers, Mathew, the eldest and Robert, the youngest, having passed away before him.

His immediate family consists of a son and a daughter. The son, Mr. Hamilton Gault, is now interested in Mr. Gault's enterprises and will probably follow along in his father's business career. The daughter is Mrs. Percy Benson, who resides in England, and who is now in this country, having passed the summer at her father's country home.

A man of handsome features and distinguished bearing, Mr. Gault was a familiar figure upon the business thoroughfares of Montreal. He bore his seventy years remarkably well, for though his hair



THE LATE MR. ANDREW FREDERICK GAULT.

was grey and flowing, his step, up to his last illness, was elastic, his mind keen and his eye bright.

AN INTERESTING APPRECIATION.

Mr. A. R. Carman, in an interesting appreciation of Mr. Gault's life and character, contributed to the July number of the Canadian Magazine, has the following to say of the Canadian capitalist:

It would be difficult to say whether Mr. Andrew Frederick Gault is known better in the city of Montreal as a "Captain of Industry" or as a fairy godfather to the Church of England. Something would depend upon the point of view of the Montrealer whose opinion was asked. But he could hardly escape, in any case, the knowledge that Mr. Gault was at the head of a great wholesale establishment, that he had under his control mills that are sprinkled with almost prodigal profusion across the country, from Brantford, in mid-Ontario, to Halifax, down by the sea; that he is, in fact, a remarkable industrial exotic—a Cotton King in Canada; while, on the other hand, if our Montrealer will sit in Dominion Square of a summer evening he will hear the Gault chimes played at St. George's and if he will then walk up toward McGill, and turn mountainward on the east side, he will pass the tasty and attractive buildings of the Montreal Diocesan College, which Mr. Gault erected and endowed. And even then our Montrealer will have only begun to reckon up the items which are to finally decide him as to the way in which he is to ticket Mr. Gault in his memory.

Mr. Gault is an Irishman. He was born at Strabane, Ireland, in 1833, and came to this country when a boy. Since then the record of his achievements is, perhaps, an indication of the battles he has fought with the world; but they have not been able to paralyze that impulsive generosity, that friendliness of manner, that innate inclination to "love the brotherhood," which is one of the few gifts with which the Green Isle can still enrich her sons. Happily for the lad, he came thus early to a country where all paths are open to ability and where opportunity beckons from every hilltop; and when still but little more than a boy young Andrew went into a wholesale dry goods house to learn the business.

STARTED FOR HIMSELF.

In Canada promotion does not wait on the almanac—especially when the candidate has the pluck to promote himself. So in 1853, when but twenty years of age, we find the young merchant setting up for himself in a small store on St. Paul street, in partnership with Mr. J. B. Stevenson, under the name of Gault, Stevenson & Co. This arrangement lasted, however, only four years; and in 1857 Mr. A. F. Gault joined with Mr. R. L. Gault, his brother, under the firm name of Gault Bros. & Co. This was the title under which the hard fighting has been done, and many victories won. Mr. Samuel Finley, a brother-in-law of Mr. Gault, was a member of this firm for a time, but finally it was all thrown into the form of a joint-stock company when Mr. Finley retired, and Mr. Leslie Gault, Mr. R. W. McDougall and Mr. James Rodgers were admitted to active membership. The new company is known as the Gault Bros. Company, Limited; and it has established branch warehouses at Winnipeg and Vancouver. This indicates that there has been no slackening in the initiative of the Gault leadership, when Canada was practically bounded on the west by Lake Superior, a wholesale house in Montreal commanded the field; but to-day the new Canada of the West can only be satisfactorily fed from its two commercial capitals.

THE MANUFACTURE OF COTTON.

But "Gault Bros." is only one part—and by no means the best known part—of Mr. Gault's commercial command. Something like thirty years ago, he decided to go into the manufacture of cotton in this country, purchasing a small mill at Hastings, Ont., which he afterwards removed to Cornwall, where it formed a part of the Stormont Manufacturing Co. This had then the appearance of a "side line" to his successful dry goods establishment; but it has extended and absorbed until now it is one of the most widely ramified and best organized industries in the Dominion. An important step taken by Mr. Gault in 1875 was his entrance upon the directorate of the Hudon Cotton Co., which afterwards became merged in the great Dominion Cotton Co., of which Mr. Gault is now President. This corporation manages mills in Brantford and Kingston, Ont.; in the Eastern Townships, in Montreal and Lochelaga, and in Halifax, Moncton and Windsor, in the Maritime Provinces.

A GREAT ORGANIZER.

But a list of the cotton and woollen mills with which Mr. Gault is connected through his various companies would read like a page out of the industrial section of the census. He is a great organizer of this branch of Canadian industry; and when the cotton section of the Manufacturers' Association was formed the other day he was elected President as a matter of course. He is especially proud, however, of the Montreal Cotton Company mill—one of the finest mills for the manufacture of cotton in the world. The quality of work done here will challenge comparison with anything of the kind produced elsewhere, and is the sort of industrial output for which Canada should strive. It is not enough for us to simply produce goods which "will do;" we have now reached a stage in our development when our manufacturers must aim to produce an article which will suit the Canadian taste, at all events, better than anything offered in the open market of the world. This mill employs about 3,500 hands and has magnificent modern equipment.

FOUNDED A COLLEGE.

The Montreal Diocesan Theological College has been his child from the first. He presented its first building to the Bishop some time ago, and then when these quarters became unsuitable, he built the institution its commodious and strikingly beautiful new home just east of the McGill grounds. Nor was he content to stop here, for he handsomely endowed the college for its work. Indeed, all along, as we said to commence with, Mr. Gault has been the fairy godfather of the Church of England in this diocese. St. George's owes its music to him, and many a church scheme owes him its existence.

So long ago as 1894, a fine testimonial was presented to him by the Lord Bishop of Montreal, and many of the clergy and laymen of the city and district, in recognition of his widespread generosity to the church in this diocese. So unusual an honour marks more clearly than a recital of large benefactions, the extent to which he has assisted the church of his choice in ways that never get into the papers—but do get into the hearts of a hard-worked clergy and suffering people.

OTHER LINES OF PHILANTHROPY.

Mr. Gault has, of course, interested himself in other lines of both business and philanthropy. We have spoken incidentally of his woollen mills, and his connection with this branch of industry may be better appreciated if we add that he is president of two distinct woollen manufacturing companies—the Trent Valley and the Excelsior. Then he is a director of the Bank of Montreal and the chairman of the Liverpool, London and Globe Insurance Company. Coming to the more philanthropic side of his work, we find him acting as president of the Protestan. House of Industry and Refuge in Montreal, vice-principal of the Montreal Diocesan Theological College, and a governor of 'Old McGill." Torontonians may remember that he was a member at one time of the "Empire" Company, but this is as close as he ever got to active political life. He married in 1864 Louise Sarah, daughter of Henry B. Harman, of Surrey, England.

HIS BEAUTIFUL RESIDENCE.

Every visitor to Montreal knows Mr. Gault's attractive home on Sherbrooke street. The typical architecture of the city is heavy and gray—and nothing could be finer, especially when sifted over with a powdering of snow marking its roughness. But Mr. Gault has brightened up the gray stone with a light effect, and the tourist driving up Sherbrooke street between the palaces of the millionaires is sure to exclaim at "Rokeby" when it falls upon his eye. There is a geniality—almost a vivacity—about it, and a frank challenge to the taste and admiration of the passer-by. One feels instinctively that a companionable man dwells within, and warms toward him. It is not often that the architects will let a man so write his character on the exterior of his home, but in this case it has been done, and the passing tourist who sees nothing of Mr. Gault but "Rokeby," and hears only the chimes of St. George's, goes away with no very inadequate notion of the man whose name has been mentioned by the "cabby" in connection with both.

CANADA SHOULD FOSTER WEST INDIAN TRADE.

Mr. E. A. H. Haggart, general agent of the Elder, Dempster Co., at Kingston, Jamaica, is in Montreal. Speaking of the opportunities of development of trade between Canada and the West Indies, he said that Canadians business men were not as alive as they should be to the importance of the West Indies, and that in reality the people there would rather interchange their trade with Canada than with the United States.

Regarding the steamship service between Canada and Jamaica, Mr. Haggart said that more subsidy was needed, and something towards that end would be considered in the near future. Three steamers a week plied between New York and Jamaica, and Mr. Haggart is of the opinion that Canada could have some of that trade if she would only get after it.

ORANGEMEN WILL PARADE FOR OUTING.

The Orangemen of Montreal will on Saturday run a special train to Huntingdon, the occasion being the annual excursion of the city lodges. A fine programme of games, with valuable prizes, has been arranged. The Sunday parade the next day will be to St. Martin's Church, when Rev. G. Osborne Troop will preach an appropriate sermon.

BadCoughs Neglected colds always lead to something serious. They run into chronic bronchitis, pneumonia, asthma, or consumption. Don't wait. Take Ayer's Cherry Pectoral and stop your cough. J. C. Ayer Co., Lowell, Mass.

DRAFT AGREEMENT WAS DISCUSSED

Harbour Board and City Confer Over Commissioners Street.

CLAUSES ARE ACCEPTED

Right of Board to Grant Track Privileges on the Street Objected to by City.

The conference between the members of the Harbour Board and the committee of aldermen appointed by the Counvil, relative to the turning over of Commissioners street to the city was held yesterday afternoon at the Harbour Commissioners' office. The draft agreement submitted some time ago by the Commissioners to the city, and to which the latter agreed as a whole, was read and discussed clause by clause. Certain paragraphs were adopted as they stood, others were amended, one was let stand for the present and another will be taken up at a later date. The clauses agreed upon were as follows:

"That the property so conveyed shall always be used as a street, and shall not be used for any other purpose, nor alienated, nor disposed of by the city in any way whatsoever.

"That the openings in the flood protection wall as they now exist shall always be maintained by the city, as openings for the purpose of giving access to the wharves.

"That the city shall always allow the railway tracks which are on its property, and which connect with the harbour tracks to exist as at present.

"That the property so conveyed shall always be maintained by the city as city property."

Clause 5 of the original draft was left in abeyance until the City Surveyor and Chief Harbour Engineer have drawn up a plan showing how the ramps will affect the street. It reads as follows:

"That, should it be found necessary by the Commissioners to place ramps upon the widened portion of the street to connect with the upper stories of sheds to be erected upon the wharves, the city shall grant the necessary permission to place such ramps."

OBJECT TO CLAUSE.

The city objected to clause 7, maintaining that it was unnecessary, and it will be discussed later on. It reads as follows:

"That the Commissioners shall have, from the time of the signing of this agreement, the right of servitude on the said property so conveyed, for the purpose of establishing thereon harbour tracks, and that none but such tracks shall be laid on the said property, unless it is with the consent of the Commissioners."

Should the deputation from the City Hall and the Commissioners finally agree upon terms for the ceding of the widened portions of the streets, such terms will have to be submitted to the City Council for ratification.

Those present at the interview were: Hon. Robert Mackay, Mayor Cochrane, Messrs. Hodgson, Torrance, Geoffrion, Racine, Doran, Lemay, Bickerdike, Chief Engineer Kennedy and Mr. Cusson, of Messrs. Geoffrion, Geoffrion & Cusson, advocates, representing the Harbour Commissioners, and Ald. Laporte, L. A. Lapointe, Carter, Nelson, Vallieres, Walsh, Levy, and City Surveyor Barlow, representing the city.

NEW SOCIETY FOR PROTECTION OF WOMEN AND CHILDREN.

There is now a French-Canadian Society for the Protection of Women and Children, the officers of which, elected last night, are:

President, Telesphore Beaupre.
Vice-president, N. Houle.
Secretary, M. Rivet.
Councillors, F. Picard, L. Lavalliere, M. Gareau, and N. Beauchemin.

The meeting for organization was held at Federation Hall, St. Catherine street. The chairman, Ald. Ricard, spoke of what had been done at a meeting which had taken place recently, and then went on to say that it was certain the society would receive the support of the public, as already more than 1,500 persons, including prominent citizens, were prepared to encourage such an organization. It was felt that so far from interfering with the work of the Society for the Protection of Women and Children, already in existence, the new society would be of assistance to the latter.

Application for incorporation will be made at the next session of the Legislature.

ST. LOUIS COUNCIL DISCUSSED AGREEMENT OF IMPORTANCE.

Almost the whole of last night's sitting of the Council of St. Louis was taken up with a discussion on the bakers' by-law, against which there are many complaints. The discussion ended in a notice of motion to amend the by-law, given by Councillor Daze.

The draft of a new arrangement with the Montreal Water & Power Company was submitted. The new arrangement provides that debentures shall be issued to meet the contemplated increase in the expenditure this year under the proposed additional $35,000 contract.

The agreement was adopted unanimously, and it was decided that the work should be commenced immediately.

The company agrees that the town shall lay certain pipes north of the Canadian Pacific Railway tracks, the total costs not to exceed $35,000 additional, making with the $50,000 already consented to by the company, a total of $85,000. The company undertakes to lay all the service pipes from the mains to houses along the line of the extension. All work done by the town will remain the property of the town until paid for by the company.

The secretary, Mr. Vincent, was instructed to discontinue keeping open the office on the nights of Monday, Wednesday and Friday in each week during July and August.

SURE NOW

The Truth About Coffee.

It must be regarded as a convincing test when a family of seven has used Postum for five years, regaining health and keeping healthy and strong on this food drink.

This family lives in Millville, Mass., and the lady of the household says: "For eight years my stomach troubled me all the time. I was very nervous and irritable, and no medicine helped me.

"I had about given up hope until five years ago next month I read an article about Postum Cereal Coffee that convinced me that coffee was the cause of all my troubles. I made the Postum carefully and liked it so much I drank it in preference to coffee, but without much faith that it would help me.

"At the end of a month, however, I was surprised to find such a change in my condition. I was stronger in every way, less nervous and at the end of six months I had recovered my strength so completely that I was able to do all of my own housework. Because of the good Postum did us I knew that what you claimed for Grape-Nuts must be true, and we have all used that delicious food ever since it first appeared on the market.

"We have seven in our family, and I do the work for them all and I am sure that I owe my strength and health to the steady use of your fine cereal food and Postum (in place of coffee). I have such great faith in Postum that I have sent it to my relatives and I never lose a chance to speak well of it." Name furnished by Postum Co., Battle Creek, Mich.

Ice cold Postum with a dash of lemon is a delightful "cooler" for warm days.

Send for particulars by mail of extension of time on the $7,500.00 cooks contest for 735 money prizes. 160 1

MISS JENNIE T. ROSS WON THE GOLD MEDAL AT MUSICAL EXAMS.

Result of the Examinations in the Montreal Conservatory of Music Announced To-day.

The results of the examinations at the Montreal Conservatory of Music have just been made known.

The awards are as follows:

The C. E. Seifert gold medal for perseverance, enthusiasm, regular attendance, punctuality—Miss Jeanne T. Ross, daughter of Dr. G. T. Ross, of Montreal.

The Jonathan Brown silver medal for the best elementary piano pupil—Miss Annie Rogers, of Ottawa, Ont.

The Mrs. D. E. Bowie silver medal, for the best elementary violin pupil—Miss Joy Higgs, of Lacolle, Que.

The Mrs. C. W. Rand silver medal, for the best elementary violincello pupil—Master Chester Myers, of Montreal.

The Joseph Myers silver medal, for rapid and satisfactory progress on the violincello—Miss Agnes Quain, of Montreal.

The Mrs. Alexander Murray silver medal, for the best pupil in theory of music—Miss Jean Kinloch, of Mount Royal Vale.

The first prize for the best piano solo playing—Miss Belle Bryson, of Montreal.

The first prize for best violin solo playing—Miss Dolly Lucas, of Mount Royal Vale.

The first prize for excellent and conscientious teaching of the first three elementary piano grades — Mr. O. A. Kirchels, of Marine, Ill., U. S. A.

Prizes were also awarded to the Misses M. E. McLaren, of Smith's Falls, Ont.; Verena Mudge, Lyndia Conway, Laura Riendeau, Ethel Jamieson, Master Barry Myers, of Montreal; Ruth and Minnie Martin, of Outremont; Ada Rogers, of Ottawa, Ont.; Agnes Robertson, of Chateauguay, Canada; and Rosalie Hill, of Dover, N. J., U.S.A.

The other results are:

The teacher's certificate for the first four grades in piano playing were granted to Miss M. E. McLaren and Mr. O. A. Kirchels.

The teacher's certificate for the first three elementary piano grades in piano playing was granted to Miss Lyndia Conway.

The teacher's certificate for the first three elementary grades in violin playing was granted to Mr. O. A. Kirchels.

The following pupils passed the first grade in piano playing: The Misses Edith Jamieson, Florence Myers, Lena Hersey, Lena Fogarty, Ami Fogarty, Muanita Dobbs, Gertrude Pratt, Jeanne Inglis, Maud Sonne, Estelle McKenna, Mrs. M. McFarlane, Ida Phelan, Albina Conroy, Master Joseph Myers, all of Montreal; Misses Patience Scott, Ruth Robertson, of Chateauguay, Canada.

Second grade in piano playing—Misses Alice Wills, Lauretta McGrail, Annie Montgomery, all of Montreal; Dolly Lucas of Mount Royal Vale; Lillian Cross, of Montreal West; Annie Hodgson, of Hudson Heights, Que.; Luella White, of St. Johns, Que.; Marion Waugh, of Westmount; Blanche Wilson, Muriza Papin, Mrs. E. Boylan, of Montreal.

Third grade in piano playing—Misses Annie and Ada Rogers, Rosalie Hill, Jean Kinloch, Agnes Quain, Ruby and Minnie Martin, Verena and Iris Mudge, Belle Bryson, Laura Riendeau, of Montreal; Agnes Robertson, Nanon Thouret, of Montreal West.

Fourth grade in piano playing — Miss Lyndia Conway.

First grade in violin playing—Misses Louise Robinson, Maud Howard, Ethel Jamieson, Annie Montgomery, Jeanne Ross, Mabel Phelan, Dora Schafheitlin, Isobel Dowling, Florida Riendeau, all of Montreal; Jane McGinnis, of Huntingdon, P. Q.; Masters Barry Myers, Joseph Myers, Willie Kinnen, Harold Moore, Adolphus Klein, Otto Schafheitlin, Harold Everett, Mr. A. W. Murray, all of Montreal.

Second grade in violin playing—Misses Lyndia Snowdon, of Mount Royal Vale; Eleanor Robertson, Master Willie Scott, of Chateauguay, P. Q., Canada; Douglas Bowie, Montreal.

Third grade in violin playing—Miss Joy Higgs.

Fourth grade in violin playing—Miss Dolly Lucas.

First grade in vocal department—Mrs. M. McFarlane and Miss Lillian Cross.

First grade in violincello playing—Master Charles Conroy, of Montreal.

Second grade in violincello playing—Miss Agnes Quain. Master Chester Myers, Mr. J. G. Lee, Montreal.

Theory of music, grade I.—Misses Edith and Ethel Jamieson, Maud Howard, Florence Myers, Jeanne Ross, Lena and Ami Fogarty, Gertrude Pratte, Jeanne Inglis, Estelle McKenna, Ida Phelan, Albina Conroy, Mrs. M. McFarlane, Masters Barry Myers, Joseph Myers, Chester Myers, Adolphus Klein.

Theory of music, Grade II.—Misses Alice Wills, Annie Hodgson, Lena Hersey, Dolly Lucas, Annie Montgomery, Dora Schafheitlin, Jane McGinnis, Masters Harold Everett, Otto Schafheitlin.

Theory of Music, Grade III.—Misses Luella White, Blanche Wilson, Agnes Robertson, Jean Kinloch, Ada and Annie Rogers, Lauretta McGrail.

Harmony of Music. Grade I.—Misses Belle Bryson, Marion Waugh, Rosalie Hill, Ruby and Minnie Martin, Agnes Quain, Lyndia Conway, Laura Riendeau.

Harmony of Music, Grade II.—Misses M. E. McLaren, Nanon Thouret, Mr. O. A. Kirchels.

IN AND AROUND THE CITY.

WILL SERVE TWO YEARS. — Baptiste Bergeron, who was found guilty of stealing $40 from Joseph Vachon, was sentenced yesterday afternoon, by Judge Desnoyers, to two years in the penitentiary.

EXCUSABLE HOMICIDE.—The verdict of the Coroner's jury at the inquest at Rigaud yesterday into the cause of the death of Clara Bertrand, 23 months old, who was killed on Monday by a Canadian Pacific train, was "excusable homicide." The evidence showed that the child had wandered on the track.

HONOURED THEIR DIRECTOR. — Last evening the members of St. Patrick's Total Abstinence and Benefit Society assembled in St. Patrick's Hall, St. Alexander street, to say good-by to Rev. M. J. McKenna, their director. An address to the Rev. Father was read by the President and a gold-headed cane, and a large gold medal of the Society, was presented to him. Father McKenna made a suitable reply, thanking those present for their valuable presents, and wishing continued success to the temperance society. A pleasant time was afterwards spent, an enjoyable smoker being the event.

PRESENTATION OF PRIZES.—Yesterday afternoon the distribution of prizes to the pupils of the Catholic Reformatory took place. The pupils presented a play "Tete Folie," the different characters of which were ably sustained. Among those present were Rev. Canon Savaria, cure of Lachine; Rev. Mgr. Charlier, cure of St. Jacques; Rev. Father Charlier, Honnier de l'Institut; Rev. Father Garveau, superintendent of the Dominicans at Notre Dame de Grace; Rev. Father P. Bonne; Rev. Brother Husmarus, Rev. Brother Casnic, of the house at Benoit, and the Rev. Brother Provincial, of the Brothers of Charity.

WISH TO INCREASE TOWN'S REVENUE

Westmount Council Will Levy Wholesale Business Taxes.

DRAFT MEASURE SUBMITTED

Most of the Proposed New Taxes are on a Sliding Scale, But Some are Fixed.

In an effort to increase the town's revenue the Council of Westmount proposes to tax almost everything in sight, from the manufacturer and storekeeper to the professional man.

At an adjourned meeting of the Council held last evening the town solicitors submitted a draft measure, which received its first reading.

Most of the taxes are on a sliding scale, but in some instances the minimum tax is fixed at a practically prohibitory figure. These are in the cases of industries, such as slaughter-houses, glue factories and tanneries, which are not desired in a residential suburb.

The by-law calls for the imposition of annual taxes or licenses:

On every club, not less than $30, but equal to 10 per cent. of the annual value of the premises wherever that value shall exceed $300.

On every public place of amusement kept open for profit, not less than $30, but equal to 10 per cent. of the annual value of the premises whenever that value shall exceed $300.

On every proprietor and keeper of a slaughter-house, curing house, rendering house, glue factory, cannery or tannery, not less than $500.

On every livery stable keeper, not less than $20, but equal to — per cent. of the annual value of the premises whenever that value shall exceed —.

On every grocery, not less than $10, but equal to 6 per cent. of the annual value of the premises whenever that value shall exceed $167.

On every butcher, not less than $10, but equal to 7½ per cent. whenever that value shall exceed $133.

On every laundry, not less than $10, but equal to 8 per cent. of the annual value of the premises whenever that value shall exceed $300.

On every proprietor or keeper of a wood yard or coal yard, or wood and coal yard, not less than $10, but equal to 12 per cent. of the annual value of the premises, whenever that value shall exceed $84.

On every bill distributor, $5.

On every kind of commerce, manufacture, art, trade or profession other than those on which taxes or license charges are specially imposed, $10.

On proprietors of horses $3 for each animal, with the exception of proprietors of cab horses, for which a cab license is paid.

MEETINGS AND SOCIETIES.

THE STRIKE IS ENDED.—The cloakmakers' strike has petered out. Mr. Waldman, of the firm of Waldman & Sommer, states that they have now all the men required, and that so far as they are concerned the strike is over.

THE HACKMEN.—The regular monthly meeting of the Montreal Hackmen's Union will be held to-night in the Monument National. The right of the Montreal Street Railway to run observation cars will be discussed. The question of holding a picnic and horse races will also be considered.

THE IRON MOULDERS.—The officials of the Iron Moulders' Union state that the strike in the Rheaume foundry at Mile End is still on, and that little prospect of an early settlement exists. The officers of the union are making elaborate preparations for their annual excursion.

THE BUILDING TRADES.—According to the officials of the Building Trades' Council, all branches of the building trades are now busy. Machinists and engineers report work only fairly good. There is no demand for electrical workers. Blacksmiths report work normal. Boilermakers are well employed. Horseshoers say work is about as usual.

THE ODDFELLOWS.—Extensive arrangements are being made for the annual gathering of the Independent Order of Oddfellows, M.U. The delegation from Acadia will arrive from Halifax on Thursday evening, and those from the Massachusetts districts are expected Friday morning. The entertainment committee have made these arrangements: Friday, July 10—District reception and dance in Stanley Hall. Sunday, July 12—District church parade to Church of St. James the Apostle, at 3 p.m.; sermon by Rev. Bro. R. Newton. Monday, July 13—Monnilan at excursion by Star of the West and Star of the East lodges. Tuesday, July 14—Discussion by A. M. C. at Loyal Star of the West meeting. Wednesday, July 15—Trolley drive by Harmony and Victoria Lodges. Thursday, July 16—Montreal Lodge progressive euchre and conversazione in Conservatory Hall. Friday, July 17—Excelsior Lodge class initiation. Initiatory team from Massachusetts district will be present. Saturday, July 18—Montreal District annual meeting and supper at Lachine.

COUGHED FOR YEARS.

"For four years I had a severe cough. I was so weak and exhausted from coughing that I was unable to attend to my business. Two bottles of Angier's Petroleum Emulsion cured my cough and benefitted me in every way."—A. Milligan, Toronto, Canada.

VACATION NEEDS.

July is the greatest outing month of the year. Trains and steamboats are usually packed and everybody who can possibly afford it manages to get away. We have anticipated all this with a surprising stock of stylish suits, skirts and dresses, practically ready to put right on. Necessary alterations are made quickly here. All our garments are finished up to where a dressmaker gives the last fitting.

Summer dresses are a revelation here. Never before such elegance and excellence at popular prices. You are welcome to see if only to see. Never any trouble for us to show goods.

CASTORIA

for Infants and Children.

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles and cures Constipation. It regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought

Bears the Signature of

Chas. H. Fletcher

CATHOLIC SCHOOL COMMISSIONERS ELECT OFFICERS.

The regular meeting of the Roman Catholic School Commissioners took place last evening at the Commercial Academy, Mgr. Racicot presiding.

Ald. Laporte, who was lately appointed by the Council to replace Hon. Raymond Prefontaine, who term of office had expired, took his seat for the first time, and received the congratulations of the other commissioners.

The division of the three committees for 1903-1904 resulted as follows:

Schools Committee—Mgr. Z. Racicot, chairman; Mr. L. P. Demers, M.P., and Mr. J. H. Semple.

Finance Committee—Mr. J. R. Savignac, chairman; Rev. Martin Callaghan, P.P., St. Patrick's, and Ald Laporte.

Works Committee — Ald. Martineau, chairman; Rev. Charles Larocque, and Ald. D. Gallery, M.P.

Mgr. Racicot was re-elected chairman of the board for 1903-4.

Rev. J. E. Donnelly, P.P., wanted the Commissioners to lend a helping hand towards the erection of a school for the girls of his parish. Messrs. J. H. Semple and Ald. Gallery were in favour of having a certain sum contributed by the board for the building of a school, but Ald. Martineau and Mr. L. P. Demers opposed the granting of any money for such purposes. After considerable discussion it was resolved to deal with the question at the next meeting.

The caretakers of the Edward Murphy and St. Joseph's Schools were given an increase of $50.

The report of Ald. Martineau, J. R. Savignac and J. H. Semple on their recent visit to the schools of New York, Philadelphia and Boston was considered too lengthy to be dealt with, and the secretary was instructed to prepare typewritten copies and send them to the commissioners.

Messrs. Lacroix, Turgeon and Piche were appointed valuators of the commissioners' property.

A sum of money left the commissioners by the late Peter Murphy, to be used for prizes, and which had not been drawn upon for some time, caused considerable discussion, but it was finally handed over to the Finance Committee.

Mr. Thomas Brennan, who has lately passed his examination with honours, was appointed to the Edward Murphy School, to replace Mr. Thomas F. Cuddihy, transferred to the Olier School.

Rev. Father Larocque, P.P., St. Louis de France, was re-appointed a commissioner for three years.

ANNUAL ENTERTAINMENT. — The Brotherhood of Painters and Decorators held an enthusiastic meeting last night in the Empire Hall, when arrangements were made for their annual entertainment, which is to be held in the Delville Theatre on Friday evening.

For that tired feeling try "O'Keefe's" Liquid Extract of Malt. As a nutrient tonic it is unsurpassed.

THE CONTINUED WEAKNESS OF THE POPE CAUSES HIS PHYSICIANS UNEASINESS

Latest Bulletin Issued Describes the Pontiff's Condition as Being Very Grave—He Is Restless and Frequently Falls Asleep.

(*Continued From Page 1.*)

Rome, July 8.—6.50 p.m.—The Pope's condition is very grave.

His doctors are alarmed at the continued weakness which is complicated by certain functional disorders.

His Holiness is restless and drowsy, frequently falling asleep.

Baltimore, Md., July 8.—Cardinal Gibbons left for New York to-day on his way to Rome.

MESSAGE RECEIVED AT OTTAWA.

Ottawa, Ont., July 8. — This morning Mgr. Sbarretti, Apostolic Delegate, received the following cable from Cardinal Rampolla

"The Holy Father's condition today continues to be serious.
(Signed)
"SIGNOR RAMPOLLA."

France and the Pope.

Paris, July 8.—It has been stated here in despatches from Rome that Cardinal Mathieu (the former Archbishop of Toulouse) would, in the event of the death of the Pope, claim for France the ancient right to exercise "high patronage" (the right to control) at the conclave. A correspondent made an enquiry on the subject at the Foreign Office here and learned that the report was untrue. No such instructions have been sent to Cardinal Mathieu, or any other cardinal. The presence of Cardinal Mathieu at the Vatican is due to the fact that he is a member of the Curia Romana (Papal Government), which necessitates his attendance under the circumstances. His action is quite independent of the French Government, which has not contemplated the exercise of any influence over the conclave. Many people continue to call at the Nunciature here and prayers for the Pope are offered up hourly in the chapel.

Madame Loubet again called to-day at the Nunciature.

COUNCIL WILL VIGOUROUSLY FIGHT HON. MR. BLAIR'S RAILWAY BILL

Mr. Ethier, City Attorney, at noon to-day, was instructed to proceed immediately to Ottawa and fight Mr. Blair's Railway bill, which proposes to take away from Montreal the right to refuse a railway company the right to enter its precincts.

At Ottawa Hon. Mr. Blair made the statement, before the House of Commons in committee, that the measure was meant to safeguard the interests of certain companies that had acquired rights. He mentioned among these the Terminal Company, of Montreal. He said that this company had applied, from time to time, to the Railway Committee of the Privy Council to make extensions to its charter so that it might use certain streets in Montreal.

Mr. Blair also made the assertion that the City Council had not the power to exclude corporations from their streets, except subject to the approval of the Railway Committee.

In Montreal, however, the Street Railway Company was opposed to the Terminal Company, and if it had not been for interference by the Railway Committee the Terminal Company would have been discriminated against.

There was a warm discussion in the Mayor's office at the City Hall to-day in regard to Mr. Blair's measure.

RESULT OF THE CONFERENCE.

The result of the conference was that the City Attorney was sent for and told that he must proceed at once to Ottawa and protest against the passing of the enactment.

Those present declared that the measure was an outrageous one; it simply meant that the City Council, in the future, would not have a single word to say as to whether or not a railway company should have power to enter the city, run cars, build stations, etc.

It was also pointed out that when such a measure became law the city could not compel any new company entering Montreal to elevate its tracks as the C.P.R. had done.

The Mayor—"It looks as though some of the Ministers at Ottawa have very tender spots in their hearts for the Terminal Company, and are determined it shall run its cars in Montreal without permission from Council."

There was a feeling that before Mr. Blair had brought up such sweeping measure he might have apprised the corporation of Montreal about the matter.

GOD-DAUGHTER OF CHAS. LAMB DIES IN THIS CITY.

The death is announced, in Montreal, of Beatrice I Meyer, wife of Mr. Albert W. Graham, of this city.

The death of this lady, who was born in London 86 years ago, took place at her son's residence, Mr. G. C. Graham, No. 4134 Dorchester street, Westmount, yesterday afternoon.

The deceased first saw the light of day in Red Lion Square, London, being the third daughter of Henry Meyer, one of the well known artists of the early portion of the last century. She was also a grand niece of John Hoppner, R. A., portrait painter to George the Third, and a god-daughter of Charles Lamb, the poet and author.

She leaves a husband and one son, Mr. G. C. Graham.

KOLUTOO AND VAMPIRE ARE NOW IN THE WATER.

They Were Taken From the Railway This Afternoon.

The two boats from the Manchester Yacht Club were put into the water to-day as well as the steam launch.

They were hauled to the Dominion Bridge Works, and under advice from Mr. Fred. Shearwood, were lowered by the crane from the works, the operation being superintended by the rigger from the challenging club. The work of rigging the boats will commence to-morrow.

Ex-Ald. Fairbairn Dead.

Ex-Alderman John Fairbairn died this morning at his residence. He was a member of the City Council in 1879, and took a very active part in the deliberations of the Health Committee and Financial Committees.

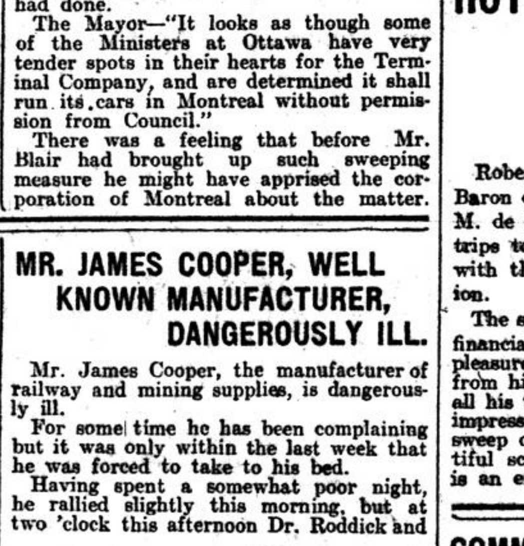
BRIDGE TOOK FIRE.—The Government bridge on Mill street, which is undergoing repairs, took fire this morning. The blaze was promptly extinguished by the fire brigade of the Ogilvie Flour Mills Company before the city brigade arrived.

MR. JAMES COOPER, WELL KNOWN MANUFACTURER, DANGEROUSLY ILL.

Mr. James Cooper, the manufacturer of railway and mining supplies, is dangerously ill.

For some time he has been complaining but it was only within the last week that he was forced to take to his bed.

Having spent a somewhat poor night, he rallied slightly this morning, but at two 'clock this afternoon Dr. Roddick and



MR. JAMES COOPER.

Dr. Martin, both of whom were in consultation, gave it as their opinion that the patient would not survive the afternoon.

Mr. Cooper is well known in business circles in Montreal. He was for years the senior traveller for Frotheringham & Workman, and some years ago started out in business on his own account. At first Mr. Cooper handled heavy hardware, but later went into mining and railway supplies, and has built up a lucrative business.

DOCK LABOURERS INJURED IN FIERCE STREET FIGHT

As the result of a fierce fight which took place shortly after 11 o'clock last night, on St. Paul street, near Jacques Cartier Square, between a number of English dock labourers, who have their headquarters on Gray Nun street, Patrick Moore, about 40 years of age, and whose home is in Liverpool, Eng., lies in the Notre Dame Hospital in a bruised and battered condition.

The fight lasted for some time and bludgeons of every description were used in the row.

Moore sustained a serious gash in the neck, apparently from a sharp instrument of some kind. One of his eyes is completely closed, but the physicians state that the sight has not been destroyed.

His face was battered almost into pulp and his body is black and blue from the kicks received. It is not thought, however that he has been internally injured.

Moore's companion was taken to the hospital, but after medical treatment, he was able to be taken to the barracks on Grey Nun street. Moore was unconscious when taken to the hospital.

A Toronto Strike Settled.

Toronto, Ont., July 8.—The marble workers after being out since June 12, have settled their trouble by getting an increase in the three branches of the trade, polishers, cutters and setters, but not what they asked.

BOOT AND SHOE STRIKERS ARE CONTINUING STRUGGLE

The strike in the J. & T. Bell boot and shoe factory is still in full swing, and, according to the strikers, there is little prospect of an immediate settlement unless the firm agrees to all the demands made by the union.

The men say they are determined to hold out, and will not return to work unless full satisfaction is given.

Mr. T. Beaupre, the president of the union, was not at the headquarters of the strikers to-day when the representative of the Star called, but the men talked freely about the situation.

One of the strikers said: "We would not have gone on strike if our grievances had been attended to and our advances met in a proper spirit. We had many other grievances besides those which form the ostensible basis of the strike. Let it be at once understood by the public, as well as by all parties concerned, that there will be no back-down and no surrender in this strike."

Another striker said: "We deny that our grievances were trivial. All our complaints were ignored by the management. When our officers failed to make a settlement of the difficulties we were forced to adopt the last resort. The contest is on and our men are determined to win."

Mr. John T. Hagar, of the firm of J. & T. Bell, appeared to be in a happy frame of mind when a Star reporter called on him to-day. He said that there was absolutely no change in the strike situation to-day. Mr. Hagar said: "To-morrow I intend to issue a statement to the public giving our side of the case as fully as possible. We have always treated our employes with every consideration and we have always been willing to meet our men in a friendly spirit."

There was a meeting of a number of manufacturers this afternoon and the whole strike situation was thoroughly discussed. Mr. Hagar made a statement of the difficulty which resulted in a strike being declared against his factory.

At the time of going to press no decision had been reached, but it was stated on the street by one of the smaller manufacturers that the hands in several of the boot and shoe factories might be locked out to-morrow.

An official of the International Brotherhood of Boot and Shoe Workers' Union, when seen regarding the strike, said the strikers belonged to an independent union, and that they were in no way connected with the Brotherhood.

"Our organization," he said, "is committed to the principle of arbitration, and such a thing as a strike we never have, and, furthermore, we never want any. There will certainly be no trouble in any of the factories that are employing our members." He knew nothing, whatever, about the trouble in the J. & T. Bell factory.

STEEL DIRECTORS TAKE UP $1,500,000 OF BONDS AT PAR.

Some time ago the directors of the Dominion Iron and Steel Company arranged among themselves to take up $1,500,000 of second mortgage bonds at par, the funds to be used in developing the plant at Sydney.

The directors have now taken up these bonds in various sums according to their private means, and they will receive on the same six per cent. interest. The bonds are to run ten years, ten per cent. being placed by, each year, for their redemption at the end of that period.

It was found necessary for the directors to go down into their pockets if the funds for the completion of the plant were to be forthcoming. An additional common stock issue could not well be made with the security selling around twenty. For the same reason an additonal bond issue could not be authorized.

It is stated that Senator Cox led off the subscription list by taking $200,000 worth of bonds, that Mr. James Ross, Sir William Van Horne, Senator Forget, Senator Mackay, R. B. Angus, and J. A. Plummer followed, with $100,000 each and that the other directors, with one or two exceptions took smaller amounts.

MR. MATTHEW NEILSEN IS RESIDENT MANAGER MEXICAN POWER CO.

Matthew Neilsen, for about eight years manager of the St. John, N. B. Railway Co., has accepted the resident managership of the Mexican Light, Heat and Power Company, of the City of Mexico, and vicinity.

This company is capitalized at ten millions. Sir William Van Horne and James Ross are the heaviest stock holders.

Mr. Neilsen is a member of the Engineering Council of the C. P. R.

W. G. Earle, C. E. head of the Clergue interests in Algoma, succeeds Mr. Neilsen at St. John.

MOUNTAIN CLIMBERS START FOR THE WEST.

Two celebrated mountain climbers started on trips to British Columbia this morning. Mr. Edward Whymper left on the regular trans-Continental at 10.40, while Prof. Charles E. Fry, the president of the Apalacian Club, took the Imperial Limited at 11.40. Both will look over the ground of some of their earlier exploits.

ROTHSCHILD MUCH IMPRESSED WITH ST. LAWRENCE SCENERY

Robert de Rothschild, of Paris, son of Baron de Rothschild, was in town to-day. M. de Rothschild, who has made several trips to Canada, is very much impressed with the natural beauties of the Dominion.

The son of the great head of the leading financial house in the world is here on a pleasure visit and business is far removed from his thoughts. He said to-day that in all his travels he had never been so much impressed as when he viewed the majestic sweep of the St. Lawrence and the beautiful scenery of the lower provinces. He is an enthusiastic sportsman and is looking forward to some good sport in the Canadian streams.

In regard to the visit of President Loubet to England, M. de Rothschild said that it would undoubtedly go a long way toward bringing to life a better feeling between the two great countries which was so much desired in order to maintain the peace of the world. The recent visit of King Edward to Paris had been the occasion of a popular outburst of enthusiasm and there was quite a renewal of friendly feeling between the two countries.

M. de Rothschild is accompanied by M. Jean Siegler and M. Conrad Schlumberger and expects to remain in Canada for some weeks.

COMMITTED FOR THEFT AND FORGERY.

Michael R. Donnelly was to-day committed by Judge Choquet to stand his trial on charges of theft and forgery. He was employed by the York County Loan and Savings Company, and it is alleged that he stole $200 from them by collecting the money from depositors and not accounting for it.

Appointment of Montreal.

Special to the Montreal Star.

Toronto, July 8.—Henry Holgate, of Montreal has been appointed by the county judge as engineer to construct the Glen Road bridge. This is a $20,000 structure crossing the Rosedale ravine, which was ordered to be put up by the Legislature last session. The present bridge is no longer safe.

CITY'S ASPHALT PLANT IS READY FOR WORK.

Chairman Vallieries, of the Road Committee, said to-day that the city's asphalt plant, which was ordered some time ago, had arrived in the city and would be put to work at once.

The plant has a capacity of laying two thousand yards of asphalt a day. At the present time the corporation has taken over a number of streets, that formerly were under the control of contractors, and the possession of the plant will mean that the streets will be kept in better repair in the future.

This morning a deputation of merchants waited upon the city surveyor and protested against the way certain contractors were delaying the repairs on St. Paul street. The street, they said, was dug up weeks ago by contractors, but the asphalt was not being put down. It was decided to have the matter enquired into.

MONTREAL MAY YET HAVE BASEBALL THIS YEAR

Again it is stated that before the season is over Montreal may have baseball.

The local gentlemen interested in the game, have, it appears, another proposition before them.

It is one which once more points to Montreal becoming a member of the New York State League.

As matters look now, it is pretty certain that Montreal will have baseball next season, and the question just at present is, would it pay Montreal, to go into the game for the remainder of the present season, if good terms are offered, and thereby permanently secure a place for the coming season, or would it be better to wait and take chances next year.

There is an opportunity apparently at present through the fact that the Johnstown-Gloversville franchise is to be disposed of.

Although the local people do not care to commit themselves, it is pretty well understood that negotiations between them and President Farrell, of the New York State League, who resides at Auburn, are under way.

THE THERMOMETER AT 81 MARK TO-DAY.

If it were not said on good authority that "they are dangerous guides, the feelings," the average Montrealer to-day would be tempted to venture the assertion that the thermometer was soaring up to the 99 mark.

As a matter of fact, the calm and dispassionate statement of the City Hall is that the highest temperature to-day was 81 degrees. The oppressiveness of the heat was due to the large amount of humidity in the air, the number of degrees registered at McGill Observatory being 67.

This is, however, the hottest day in July so far, and even the breeze which is blowing does not seem to make matters much better.

According to the City Hall, the temperature to-day was as follows

At 3 a.m. .... 69 degrees.
At 7 a.m. .... 68 degrees.
At 11 a.m. .... 79 degrees.
At 3 p.m. .... 81 degrees.

Heat Kills New Yorkers.

New York, July 8. — Two deaths and several prostrations from the heat were reported in the city to-day.

BADLY HURT BY FALL.—As the result of falling from a window of the second story of the female gaol a young woman, twenty years of age, was brought to the Notre Dame Hospital yesterday afternoon suffering from a fractured arm and internal injuries.

Capiased.

Mr. J. M. Chuna, who has been canvassing the city it appears for subscriptions for what he called "The Newspaper Artists' Exhibition," was yesterday arrested on a capias for debt. The methods Mr. Chuna has employed to secure support are open to very serious objection, inasmuch as he represented to prospective subscribers that the newspaper artists were entitled to sympathy, from the fact that they were underpaid; a very gratuitous reflection upon them and their employers.

The newspaper artists are paid regularly and well paid by the newspaper proprietors, but when it came to Mr. Chuna's turn to be paymaster he would not pay at all. It appears that where one argument would not work he was prolific in the use of others. Amongst the representations made, he stated to some that their subscriptions would be used to initiate a press club. The newspaper artists express great surprise that a man so eloquent and so plausible could fail to live up to his promises. The newspaper artists are innocent if not cute.

Mr. Edward Guilbault Ill.

Mr. Edward Guilbault, a well known citizen of Montreal is lying very seriously ill at his residence, 358 St. Denis street. Mr. Guilbault is 69 years of age. He has already received the last sacrament at the hands of Abbe Coste, of St. James Cathedral.

Mr. Guilbault represented Joliette in the Dominion House in 1882, but resigned soon after his election. The people of the constituency however re-elected him in December of the same year, and at the general elections in 1887 he was re-elected by a large majority.

MEMBERS OF HOUSE WERE CRITICIZED

Their Names Were Included in an Application for Incorporation.

CANADIAN TELEPHONE BILL

Mr. McCreary, One of the Members, Explains His Position to Committee.

Special to The Montreal Star.

Ottawa, July 8.—The House of Commons Railway Committee this morning passed the bill to incorporate the St. Chrysostome Railway Company for a road to connect the parish of St. Chrysostome with the Montreal and Champlain Junction Railway, the Grand Trunk Railway and the township of Hinchinbrook, in the district of Beauharnois, 25 miles.

The Toronto, Hamilton & Buffalo Railway bill asked for power to issue debenture stock to the extent of a million dollars in excess of its limit originally fixed.

Nichol Kingsmill, K. C., Toronto, explained that the bill was for the refunding of floating debt, including $325,000 incurred by the construction company. It had the approval of the shareholders and bondholders. The bill passed with verbal amendments.

THE TELEPHONE BILL.

The Canadian Telephone and Telegraph Co. bill was taken up. The municipalities' interests were watched by Mayor Urquhart and Corporation Counsel Fullerton, of Toronto, and W. D. Lighthall, secretary of the Union of Municipalities.

Mr. Lighthall told the committee that the Union had a series of amendments to propose. The right of municipalities to the control of the streets was asked.

A. W. Fraser, representing Solomon Persse, a Pennsylvania financial agent, asked that the bill be postponed for a week, as his client wished to appear personally to oppose it. The committee declined.

Mr. Blair noticed a growing tendency to the inclusion of names of members of Parliament in applications for incorporations. Formerly this had been rare; now it has reached a point where some one should call attention to it and suggest that the members absolutely decline to be associated with such ventures.

The members whose names appear as incorporators in the present case are Messrs. McCormick, Culvert, Pope, McCreary and Fowler.

MR. McCREARY EXPLAINS.

Mr. Clarke said the committee should pass a bill as a measure of competition with the Bell Company. Mr. McCreary, answering Mr. Blair, defended his connection with the enterprise. He did so to get telephone competition in Manitoba and he believed that a member would do better to place his name frankly in the bill than to be interested in the charter and keep his connection dark.

Mr. Maclean supported the bill. The company, he said, was ready to incorporate all the clauses sought for the protection of municipal rights. He believed that it was coming here to do business.

Mr. Davis spoke at length against the bill, holding that the status of the American promoters was not revealed and that their determination to do business was not favoured. The point as to the participation of members of Parliament in the promotion was passed by Mr. Galliher and others, but Mr. Birkett said that if those members were to be debarred from voting on the bill members interested in the Bell system should also be debarred. The clause providing the powers of the company was under discussion when the committee rose.

FREDERICTON SYNOD IS NOW IN SESSION

Special to The Montreal Star.

Woodstock, N. B., July 8.—The Anglican Synod of the Diocese of Fredericton met in session here yesterday, and is now in full working order, His Lordship Bishop Kingdon presiding. There are about sixty clergy in attendance, and forty laity.

Considerable discussion has arisen over the disposal of the Madras school fund, which has by liquidation been transferred to the Synod. At present a church school is conducted at Fredericton, under the supervision as far as the general studies go of the Provincial Board of education. The report on behalf of this school shows that there were some thirty scholars in attendance. It is claimed that the expense of the school for the results obtained is somewhat high. It was charged against the committee for this fund that they had no definite policy with respect to its administration. The report was adopted.

An active debate is likely to occur with regard to the action of the Synod towards King's College, Windsor, and Rev. Weston Jones, rector of Windsor, is here to further the interest of the college.

A DIVINITY CHAIR.

There is a notice of motion to appoint a committee to consider the question of establishing a chair of Divinity at Fredericton.

This morning Rev. L. N. Tucker, General Secretary of the Church of England Missionary Society addressed the Synod, setting forth the more practical and formal work of the Society and its organization in all its ramifications through the dioceses and parishes of the Dominion.

The report of the committee on statistics and state of the Church showed an increase of 789 communicants, a decrease of 126 in the number confirmed, a slight increase in baptisms and an increase of $3,495.68 in financial returns.

PRICES MOSTLY FIRM IN WALL STREET.

(From the Special Correspondent of the Montreal Star in Wall Street.)

New York, July 8—There were no traces left, when the stock market opened this morning of the unsettlement which marked yesterday's final dealings. United States Steel common which had shown particularly severe pressure in the last hour of business, opened at an advance of 3-4 and maintained the recovery well in the subsequent dealings. The quarterly and semi-annual statement of the United States Steel Company was generally favourably received, particularly the evidences of improving business in reports for the later months. Elsewhere in the industrial and miscellaneous stocks there was a firm tone prevailing, particularly in copper and sugar. There was a further sharp decline, however, in Standard Rope and Twine issues, but the movement there had no effect upon the remainder of the market.

In the railway list the strongest issues were Atchison, Missouri, Pacific and St. Paul. Weather advices from the grain belt continued highly satisfactory, but there was some disappointment over the decline in cotton, which has apparently been checked for the time being. Americans were strong in London, but dealings here for foreign account were conducted upon both side of the market and little was done on balance. The announcement was made of the engagement of $1,500,000 gold for export to-morrow, but this intelligence carried little effect in speculation. Money conditions were easy. More than ordinary interest is manifested in the Government crop report which comes out Friday. It is believed it will show an average yield, and many predict will be very good. Canadian Pacific was up 3-4, but continued dull; sales to one o'clock, 1,000.

MR. GAULT WILL BE BURIED FRIDAY

His Funeral Will Take Place at St. George's Church.

WILL BE GREATLY MISSED

Many Expressions of Regret at His Decease—Eulogiums Pronounced on His Life's Work.

(See also page five.)

The funeral of the late Mr. A. F. Gault will take place on Friday afternoon, at half past two o'clock from "Rokeby," Sherbrooke street, the family residence, to St. George's Church. It is the special wish of Mrs. Gault that flowers should be omitted.

The remains of the deceased were removed at half-past seven this morning from his country residence "Glenbrook," Georgeville, Que., to the private yacht "Actea," which then left for Magog, en route to Montreal. On board were Mrs. A. F. Gault, Mr. Hamilton Gault, the only son of the deceased; Mr. P. G. R. Benson, of England, son-in-law; and Mrs. Benson, formerly Miss Lilian Gault, the only daughter. Upon arrival at Magog the special train was taken for Montreal leaving Magog at half past nine, and reaching Montreal about two hours and a half later.

Deep and sincere regret is expressed on all sides for the removal of a man so identified with the religious and philanthropic life of the city. His devotion to his family and his interest in the affairs of the church, of which he was a loyal son, were two of his strongest characteristics. Many institutions will miss his encouragement and practical assistance. With St. George's Church he had been connected for many years, and to the church he made many valuable gifts. Speaking of him to-day, the Rev. Dyson Hague said, "He will be a great loss to the Church. He was a deeply religious man and a true Christian."

In the Andrews Home the late Mr. Gault took a deep interest. The Home was incorporated on the 12th of January, 1895, and the charter members of the Act of Incorporation were His Grace the Archbishop, then Bishop Bond; the late Mr. F. Wolferstan Thomas, and Mr. A. F. Gault. He was the chairman and an active member of the house committee, up to the time of his death.

A GREAT CHURCH WORKER.

The Rev. Canon Renaud, a warm personal friend of the deceased, paid a high tribute to-day to his life and work. "He will be a great loss to the city, not only to a few persons or a few charities, or to the work of the Church of England, but in educational and other matters. In church work, down to the very smallest mission, to the furthest extent of the diocese, each and all appreciated his thought of and care for the struggling missions. Many poor missionaries and their families spent a bright and happy Christmas tide through Mr. Gault's unforgetfulness of their needs.

"He had an interest in the care for the poor of St. Thomas' parish and did much for them. Every Easter for the last twelve years Mr. Gault donated Bibles to the members of the confirmation class. Every Christmas he gave a special donation to the rector for the poor, and the work done could not have been accomplished except through his generosity."

The deceased was also a vice-president of the Mackay Institute for the Deaf and Dumb. Owing to the school being closed for the summer, and the committee being more or less scattered it is not likely that for the present any official expressions of regret will be passed.

The deceased was one of the governors of McGill University, and wil be much missed by that body. No meeting of the Governors will be held for some time, but when the meetings are resumed resolutions of deep regret will be passed. The Montreal Diocesan Theological College also mourns the removal of one so warmly interested in and so closely identified with the working of that useful body.

At ten o'clock to-morrow morning the Dominion Cotton Mills Co. and the Montreal Cotton Company will hold a joint meeting for the purpose of passing resolutions of regret at the death of the late Mr. Gault, and of sympathy with the bereaved family.

To-day over St. George's Church and a number of large business houses the flag floats at half-mast out of respect for the memory of the deceased.

C. M. B. A. HEADQUARTERS.

Kingston is Selected and a Kingstonian Named as Secretary.

Kingston, Ont., July 8. — Ald. J. J. Behan, of Kingston, has been chosen grand secretary, and Kingston made the headquarters of the C. M. B. A. of

GRAND SCERETARY BEHAN, of the C. M. B. A. of Canada.

Canada, which has 18,000 members. Ald. Behan, who is Weight and Measure Inspector, will resign his Government berth. The secretaryship is worth $1,500 per year and travelling expenses.

MR. A. B. ATWATER TO BE HEAD OFFICIAL OF SHORT LINE.

The Grand Trunk Railway and the Toledo, St. Louis and Western Railway, which will jointly operate the Shore Line, between Detroit and Toledo, recently acquired, have decided upon Mr. A. B. Atwater as the chief operating official.

Mr. Atwater, who was formerly the superintendent of the Western division of the Grand Trunk Railway, will make his headquarters in Detroit.

At first it is the intention of the two trunk lines merely to operate freight trains, leaving the passenger traffic to be developed later on.

The Grand Trunk Railway will then be able to take its passengers as far as Toledo, at that point handing those bound for St. Louis over to the Toledo, St. Louis and Western.

The chief concern of the Grand Trunk Railway just at present is to be able to procure its coal supply from Toledo without interference, and that it will be able to do after the lapse of a couple of weeks.

COLONIAL HOUSE, Phillips Square

This store will be closed on Saturdays at 1 p.m. during the months of July and August.

Vudor Verandah Shades.

To be had in different colors. Gives a much better protection from the sun than bamboo; fixtures of the best, pulleys of iron, and cord that stands the weather (does not kink up like the cheap, rough, native fibre cord used in bamboo screens). Made of the best Linden wood, carefully tested and assorted, finished with best linseed oil, enabling them to stand all sorts of weather.

Sizes.	Prices.
4 feet x 8 feet	$2.50
6 feet x 8 feet	$3.25
8 feet x 8 feet	$4.00

Awnings! Awnings! Awnings!

Orders filled at short notice. Estimates furnished when desired.

AFTERNOON STOCK MARKET.

Prices continued strong in the afternoon dealings in the stock market, Montreal Street Railway being a feature with a rise of two points, from 245 to 247. The highest since the stock touched bottom at 218 was 246 1-4 earlier in the week. Dominion Coal was strong at 106 to 106 5-8, and Twin City at 99 1-2 to 100. Trading in Montreal Power was unchanged at 83 1-2. There were a few transactions in Dominion Iron pfd. at 58 1-2 to 58. Richelieu went higher at 94 3-8 to 3-4, and Detroit United went off a small fraction to 74 3-8 to 1-4.

Afternoon Sales.

Twin City—50 at 99½, 25, 5, 100 at 99½, 100 at 99½, 100 at 99⅝, 75 at 99¾, 5 at 100, 150 at 99⅞, 275 at 100, 125 at 100.

Montreal Street—100 at 245, 50, 50 at 247, 5 at 245½.

Montreal Power—75 at 83½, 125 at 83¼.

Dominion Iron pfd.—25 at 58½, 25 at 58¼, 25 at 58, 25 at 58¼.

Dominion Iron bonds—$1,000 at 75 3-8.

Dominion Coal—75 at 106, 10 at 106, 25, 25 at 105¾, 25 at 105⅞, 100 at 106, 50 at 106¼, 25 at 106⅜, 150 at 106½.

Toronto Railway—75 at 103½.

Detroit Railway—25 at 74⅜, 25 at 74¼, 25 at 74⅜.

Street Gossip and Stock Exchange Echoes.

Star Office, Wednesday, July 8.

Brokers and traders in the "Street" express great satisfaction with the progress the market has made from the lowel level of a month or so ago. Traders have taken advantage of the strngth at various stages of the rise to gather in some profits, but apart from slight temporary reactions the market has done splendidly. A comparison of the highest of the year, the lowel level and the extent of the recovery, as demonstrated by yesterday's high level, is interesting at the present stage of the upward movement.

	High.	Low.	Present.
Canadian Pacific Railway	138⅝	117½	124⅞
Montreal Street Railway	282	218	244¾
Twin City	122¼	89	98⅞

Dominion Iron preferred	96¾	36½	58
Nova Scotia Steel	113½	74	98½
Dominion Coal	132	73¼	107

STOCK GOES DOWN.—International Mercantile Marine common stock declined on the Wall street curb yesterday to 4¾, making a new low record. The previous bottom price was 5. Sales of about 1,000 shares carried the price down from 5¾, Monday's closing price, to 4¾, without any intermediate recovery. Then the price rallied a little, and the quotation for some time was 4¾ bid and 5¼ asked. A thousand shares more were offered at 5 without further transactions up to the early afternoon. Meanwhile, the preferred was offered down a point from Monday's closing figure to 23½, while the best bid was 19, compared with 23, the bid price at the close Monday. No sales were reported during most of the day.

Wall Street was much perplexed to explain this weakness, as there was no unfavourable development in the company's affairs. The most plausible explanation was that foreign holders, who received a large amount of these stocks at part payment for their steamships, were offerings stock. Certain arbitrage firms admitted that they have had numerous selling orders on their books for some time. Shortly after the organization of the Shipping Trust, the preferred stock sold at 50, and the common at 20.

UNITED STATES STEEL.—The directors of the United States Steel Corporation met yesterday and declared the regular quarterly dividends of 1 per cent. on common stock and 1¾ per cent on preferred stock. They also issue a statement showing the net earnings for the quarter ending June 30 to be $35,499,528, as compared with $37,662,058 for the same period last year, a decrease of $1,162,530.

RAILWAY DEAL.—The deal between the San Pedro Company and Oregon Short Line Company was closed yesterday by the former paying the latter between ten and eleven million dollars in cash, and taking conveyances for all its lines south of Salt Lake City, and the equipment for operating the lines. The purchasing road is controlled by Senator Clark.

LONDON MARKET. — The release of dividends increased the supplies of money in the London market yesterday. Discounts were steadier on the weakness of foreign exchanges and a better supply of bills.

Operators on the Stock Exchange were idle but prices were steady. Consols were quietly supported and closed higher. Home rails were fairly cheerful on the strength of investment buying. Americans opened irregular, with little doing, hardened late in the afternoon and closed firm. Dealers in Kaffirs were occupied with the carry-over.

A BROKER'S ADVICE.—"This Hocking Valley matter," said a Wall Street broker, "causes me to observe that the place to find your money is where you lost it. I have a client who went long of Hocking Valley at about the top, or above 95, and sold it at a big loss along with the rest of the minority. Now I'm trying to persuade him to go long of it again around 80, but he won't hear of it. He'd rather tackle some other stock that he doesn't know anything about. After a man has been wrong on a stock he knows more about it than he did before, but, instead of taking advantage of his costly experience and sticking to that stock, the average trader insists upon getting into something new. This client of mine who bought Hocking Valley above 95 only a few weeks ago won't touch it at 80, although it is 15 points cheaper, and he knows more about it than he ever knew before. When you lose money in 'Paul' don't go to Atchison to get it back. Stick to 'Paul.'"

GOLD OUTPUT.—The Rand gold output in June is estimated in London at 245,000 oz., an increase of 10,875 oz. over May. This is again the largest monthly output of the Rand since September, 1899, just before the Boer War was declared. That month's output was 411,762 ounces. The above estimate would be valued approximately at $4,900,000, against $4,682,500 in May, $4,557,420 in April, $4,349,300 in March, $2,855,600 in June, 1902, and $9,190,000 in August, 1899, the maximum in the Rand's history. Comparison with previous months and years is as follows:

	Ounces.		Ounces.
June, 1903	245,000	June, 1902	142,780
May, 1903	234,125	June, 1901	19,779
April, 1903	227,871	June, 1900	None.
March, 1903	217,465	June, 1899	445,763
Feb., 1903	196,513	June, 1898	344,670
Jan., 1903	199,279	June, 1897	251,529
Dec., 1902	196,023	June, 1896	193,640

WORLD'S GOLD.—A somewhat general impression that the gold supply of the world's great markets has been reduced since the shut-down of the Transvaal mines in October, 1899, will be corrected by the following table. It shows, in American values, the holdings of the great institutions at the outbreak of the Boer War, and at the latest date. The U. S. Treasury holdings comprise only gold owned by the Government, and not covered by outstanding certificates of deposits:

	To-day.	1899.
B. of England	$183,500,000	$163,400,000
B. of France	502,600,000	382,900,000
B. of Russia	375,000,000	440,000,000
B. of Germany	130,300,000	123,000,000
B. of Spain	72,500,000	67,000,000
B. of Austria	228,700,000	153,000,000
B. of Holland	19,700,000	13,700,000
Bank of Italy	73,400,000	59,000,000
B. of Belgium	23,500,000	21,800,000
U. S. Treasury	256,200,000	221,200,000
U. S. N. Banks	314,600,000	291,400,000
Total	$2,180,000,000	$1,936,400,000

It will be observed that France, the United States, and Austria, have been the conspicuous gainers, and that Russia has been the conspicuous loser. Nevertheless it is noteworthy tht Russia is the only actual loser, and that the total holdings have increased $243,000,000, or more than 12 per cent.

STOCKS KEEP UP THEIR STRENGTH

Another Demonstration in the Market of the Strong Undertone.

TORONTO RAILS A FEATURE

On Very Small Dealings the Price Advanced Three Points in the Forenoon Trading.

FORENOON MARKETS.

For Afternoon Trading See Page 6.

The correspondents of the Montreal Star in Wall Street and on the Chicago Board of Trade report that stocks were strong, while wheat was strong. In the local market stocks were buoyant. Sales on the New York Stock Exchange yesterday were 241,110 shares.

The tone of the stock market continued exceptionally strong to-day, and although the dealings were in moderate volume some good advances were scored on very little buying. Toronto Rails proved to be the most striking case in point, opening at 102, compared with 100⅝ yesterday, and later rising to 103¾. In some cases slight advances were lost, but in other instances the highest prices were the closing ones at noon.

Dominion Coal continued to be a prominent feature, selling from 105¾ to 106½, but later receding to the opening figures. The gossip which attends the present activity relates to the future relations of the company with the lessee company, the Dominion Iron and Steel Company. The story is repeated that the present lease will be broken, and that Coal will move up to 120 when disassociated.

Dominion Iron common rose from 21 to 21¾, but in the later dealings the price reacted to 20¾, equal to yesterday's closing figures. There were only a few scattered sales of the preferred in broken lots, and the bonds did not figure at all so far as transactions are concerned. Nova Scotia Steel was likewise neglected.

Another feature was the strength in Canadian Pacific and the traction issues, the former selling at 124⅞ to 125. Apart from Toronto Rails already mentioned a strong spot was Twin City, which continued its recovery and sold at 99 to 99½, compared with 98⅞ at the close yesterday. Toledo sold at 27, and Detroit United was up a large fraction to 74⅞. Richelieu was strong at 93½, compared with 92 at the close yesterday.

The only exception worth mentioning to the general trend of the market was Montreal Power, which, after selling at 84, went off a fraction to 83½. The dealings in that issue were small, and there was no significance to the change.

Light buying orders in Wall Street carried prices upwards, but the gains did not exceed ½, except in the case of United States Steel. That stock rose ¾ on the purchase of 1,200 shares, and then fell back a fraction on succeeding offerings of thousand share blocks.

Montreal Street Railway earnings last week, with changes, were:

Sunday	$8,057.75	Inc.	$1,084.25
Monday	7,028.24	Dec.	1,058.12
Tuesday	6,631.79	Dec.	1,761.08
Wednesday	7,958.12	Inc.	1,758.50
Thursday	6,853.09	Inc.	1,179.84
Friday	6,745.82	Inc.	665.03
Saturday	7,869.84	Inc.	1,213.21
Sunday	6,902.21	Dec.	41.09

In connection with the aid given the British Columbia lead industry by the Government, the following London cablegram in the New York Herald will be of interest: "The attention of speculators is being turned toward lead by certain financial newspapers. There is not the least doubt that this country is on the verge of a lead famine. Speaking roughly, the annual consumption of lead in Great Britain is 270,000 tons, of which only 25,000 tons is produced from British mines, the balance being imported chiefly from Australia and in a smaller degree from Spain. Now the Australian mines have had to be shut down, there is the prospect of a shortage of about 100,000 tons for the year. The public, being rather off gold, silver and the copper mining proposition at the moment, may take more kindly to lead, but where is the lead to come from?"

Messrs. L. J. Forget and Co.'s London cable to-day quoted: Grand Trunk first, 112½; second, 98¾; third, 50⅝; Canadian Pacific, 127⅞; Hudson Bay, 40¼.

Pursuant to the resolution of the shareholders of the Bank of Hamilton, passed in June, 1901, authorizing the issue of $500,000 new stock, the directors of the bank have decided to issue half of it, or $250,000, to shareholders of record Saturday, July 25, in proportion of one share to every eight then held. The new stock will be alloted at 185.

Laidlaw & Co., New York, send Mr. Louis S. Coldwell, local manager, the following Wall street advices:

The publication of the Steel statement, which made a much better showing than yesterday's pessimistic forecasts, was the principal influence this morning both at London and in the local market. The engagement of $1,500,000 gold for export and the likelihood of a continuance of outward flow of the metal had very little effect, as it was believed that receipts of new gold from the Klondike would soon offset these losses. Reports of continued fine weather in the crop regions and the remarkably large current railway earnings were the chief sustaining influence.

National Trust Co.
LIMITED.
CAPITAL, Paid Up - $1,000,000
RESERVE - - - 300,000
Acts as
Executor, Administrator and Trustee, Liquidator and Assignee for the benefit of Creditors, Trustee for Bond Issues of Corporations and Companies.

184eodtf

The trading, however, has been narrow and professional, with the larger operators disinclined to make ventures in a market where the purchase of 1,000 shares is likely to advance the price ½ per cent. Gains of 1 per cent., however, were scored in Atchison, B. and O., C.P.R., while Missouri Pacific, North-West, and Pere Marquette were also strong on the early trading. Eries were also strong, but receded later on the understanding that the dividend meeting is not to take place to-day.

Charles Head and Co. received the following advices over their special wire:

The New York market this morning opened at general advances, but the dealings lacked animation. The greatest activity was in U. S. Steel shares, in which the common gained ⅜ and the preferred ½. Other firm features were Erie first pref., Reading, Canadian Pacific, Missouri Pacific, Atchison, Twin City, Southern Pacific, St. Paul, B. and O., and U.P. Very little attention was paid to the engagement of $1,500,000 additional gold for export to-morrow. The continued favourable weather at the west and the improving crop outlook were considered of much importance. Trading entirely professional. Money 3 per cent. In Boston the Dominion stocks were strong and weak to-day. Coal opened at 105 and advanced to 107; later it was quoted at 105 to 105½, with no sale below 107. Dominion Iron sold at 20¼, 21 and 20¼.

Burnett & Co., stock brokers, received the following advices by their private New York wire:

The sub-treasury statement shows the banks lost since Friday $2,521,000. There seems to be some expectation that Erie directors will act on first preferred dividend to-day. This seems to be based on the fact that six months' ago action was taken on the matter on the second Wednesday in January. Time set for forthcoming meeting is, however, the third Tuesday in the present month; this makes the date July 21. The story in Boston is that the Dominion Iron and Dominion Coal will be divorced, and that Dominion Coal will sell at 120 shortly. The export of $4,250,000 gold has so far failed to advance sterling at Paris or to ease the market here. The inference is therefore that the gold movement is not yet ended.

George C. Ryan and Co., received the following from McIntyre and Marshall, New York, over their private wire:

The stock market is the dullest for many months. The total sales to noon were but 122,000 of which 80 per cent. was by professional traders. There has been a small covering of shorts. There has been very little new business coming in from commission houses and there is not enough room trading worthy of notice. There has been renewed liquidation in United States Steel. Sub-treasury statement shows banks lost $2,521,000 since Friday. Lazard Freres will ship $1,000,000 gold to-morrow and Baring, Magoun and Co. will ship $500,000. Another firm is expected to ship $500,000.

F. J. Penfold & Co. received the following over their private wire from New York:

London houses sold only about 7,000 in all at the opening advance. They had considerable U. S. Steel and Erie to sell. Dealings here have been small. The traders have been attempting to bid up prices because there was a little increase in commission house business, but in the last half hour prices have weakened on unimportnt offerings. There is a good deal of steel common for sale there seems to be some repurchasing of Copper by the leading interests. There is still an entire lack of demand for the Standard Rope and Twine securities. Sales to noon 122,000.

Messrs. J. S. Bache & Co., New York, send the following advices to their Montreal manager, Mr. C. D. Monk:

Americans in London generally higher, Atchison the feature. Steels influenced by the statements and is practically unchanged. Standard Copper quoted at open market under 14c first time since January. Pere Marquette declared regular semi-dividend 2 per cent. on pfd., and an initial dividend on of 1 per cent. on common. Regular steel dividends. Earnings for June quarter show increases of $10,265,416, over previous quarter. Surplus for first half of year, after charges and dividends, $17,037,047, decrease $3,426,576 from last year. Arrivals of gold from Klondike so far $1,318,000. Erie and Western June gross increase $92,123, and from January 1st, increase, $281,973. Rock Island earned 7.3 per cent on common last year. Seventy-three roads for May average net increase 18.14.

In New York at noon money on call firm at 2¾ to 3. Prime mercantile paper 5 to 5½.

In Wall Street around noon prices sagged off after buying orders had been executed. U. S. Steel stocks lost their rise. There were gains of 1⅜ in Lackawanna and a point in Cleveland, C. C. and St. Louis, Minneapolis, St. Paul and S. S. Marie and Cast Iron Pipe. Standard Rope and Twine issues were further pressed for sale, the 6's dropping 5 with a rally of 2¾ and the incomes losing 2. Bonds were irregular.

Among the forenoon sales in Toronto were: C.P.R., 742 at 124¼ to 125; Can. Gen., 260 at 161 7-8 to 162; Toronto Railway, 285 at 102 to 103⅝; Twin City, 108 at 98½ to 99½; Dom. Steel, 375 at 20½ to 21; $6000 bonds at 76; Dom. Coal, 1040 at 105¼ to 106¾; N. S. Steel, 95 at 98½.

Montreal Exchange quotations: New York funds, 1-32 to 1-64 dis. between banks, ¼ prem. counter; Sterling, 60 days, 9 3-32 dis. to 9 5-32 dis. between banks; Sterling, demand, 9 19-32 dis. to 9 21-32 dis., between banks; Sterling, Cables, 9 23-32 dis. between banks; Paris, Francs Long, 5.18⅛ dis. between banks; Paris, Francs Short, 5.15⅝ dis. between banks.

J. B. Picken and Co., stock and exchange brokers, received the following New York stock market advices over their private wire.

The figures of the steel trust earnings for the quarter ending June 30, are better than expected. The decline since last year's corresponding quarter is less than $1,200,000, which compares favourably if we take into consideration the contraction of business brought about through strikes throughout this country in many of the trades, which were consumers of the products of the U. S. C. Corporation. This week's Government crop report shows more favourable than unfavourable in figures and the monthly report of the Government, which will be issued on the 10th instant, is awaited with great interest. The litigation against the U. S. Cast Iron Pipe Co. caused a break of about 6 points in its common stock yesterday. This stock has not been actively traded in for some time past. The Tenn. Coal strike is apparently nearing a settlement.

London close: Consols for money, 92⅝; do for account, 92⅞; Anaconda, 4 3-8; Atchison, 70⅝; do. pref., 95¼; B. and O., 88¼; Canadian Pacific, 128; Chesapeake and Ohio, 97⅛; Chicago Great Western, 19¾; Chicago, Milwaukee and St. Paul, 155⅝; De Beers, 2[illegible]; Denver and Rio Grande, 29⅞; do. pref., 85¼; Erie, 34⅝; do. first pref., 70½; do second pref., 58¾; Illinois Central, 138; Louisville and Nashville, 114¼; Missouri, Kansas and Texas, 22⅜; New York Central, 130½; Norfolk and Western, 68 3-8; do. pref., 92; Ontario and Western, 26½; Pennsylvania, 64⅝; Rand Mines, 10¼; Reading, 26⅞; do. first pref., 42; do. second pref., 35⅝; Southern Railway, 25; do. pref., 91; Southern Pacific, 51 3-8; Union Pacific, 84½; do. pref., 90½; U. S. Steel, 30⅞; do. pref., 83½; Wabash, 25; do. pref., 45¼. Bar silver steady at 24 3-8d per ounce. Money, 1½ to 2½ per cent. Discount rate in the open market for short bills, 2 3-16 to 2¼ per cent.; do. for three months, 2¼ to 2 5-16 per cent.

Daily Commercial Markets and Quotations.

STRONG WHEAT MARKET AT CHICAGO TO-DAY.

Buyers and Sellers Apart on Manitoba Wheat—Result of June Inspection.

During the month of June there were inspected at Winnipeg:

Wheat—1 hard, 1,650 cars; 1 northern, 1,068; 2 northern, 582; 3 northern, 777; No. 4, 106; feed, 9; rejected 1, 27; rejected 2, 27; no grade, 5; rejected, 8. 4,257 cars.

Oats—1 white, 132 cars; 2 white, 148; 3 white, 10; rejected, 5. 295 cars.

Barley—No. 2, 1; No. 3 extra, 1; No. 3, 30; No. 4, 27; rejected, 2. 25 cars.

Flax—No. 1, 129 cars; No. 2, 6; rejected, 2. 37 cars.

Speltz—1 car.

Total, all grains, 4,651 cars.

Weather in England was fine—forecast warm.

Liverpool closing was unchanged on July wheat, at 6s 6¼d; Sept. closing ½d up, at 6s 3⅜d. Spot wheat closed at 6s 6½d to 6s 7d for No. 1 stand. Cala.; 6s 4d to 6s 4½d for Walla Walla; 6s 6½d to 6s 3½d for No. 2 red winter, and 6s 5½d to 6s 6d for No. 1 nor. spring. Antwerp was steady at 16⅛ for No. 2 red winter. Paris was steady at 25.20 for July and 22.80 for Nov. and Feb. London closed at 31s 10½d for No. 1 nor. Man., psge., and 31s to 31s 1½d for July No. 1 hard, and 31s 1½d for July.

The Chicago market quoted Sept. options at noon as follows: Wheat, ⅛c up, at 77⅜c; corn, ⅛c down, at 51⅞c; oats, ⅛c down, at 35c.

By private wire to George C. Ryan and Co., from McIntyre and Marshall:

Chicago—Cash business here yesterday was 90,000 No. 1 northern wheat and 100,000 bus. oats. At the seaboard exporters bought 24,000 bus. wheat, 64,000 corn, and 50,000 bus. oats.

Chicago had its first car of new wheat yesterday. It came from Central Illinois, graded No. 3 red, and sold at 78c. First car last year came on June 2nd from Texas, graded No. 2 red.

Weather map says: There continues clear and hot weather throughout the west and south-west. There are showers in Manitoba and a few traces of rain in Dakotas and Minnesota. The west and south-west have good harvest conditions. It is cooler in the north-west. The map is a favourable one.

Cables are higher for both wheat and corn.

Advices from 80 different travelling men out through Illinois and Iowa past few days indicate that the yield of oats will not be over three-quarters of a crop, and corn about 1,750,000,000 bushels total crop.

North-West receipts: Minneapolis, today, 111 cars, 131 last week, 174 last year. Duluth, to-day, 24, last week 42, last year 64.

Chicago receipts: Wheat, 16 cars; corn, 216; oats, 94. Hogs, 28,000. Market steady.

W. L. Greene, manager of the Burlington Elevator, wires: Threshing returns make yield of red winter wheat even less than was anticipated by those who have made a careful investigation of the situation. Legitimately red wheat this year for milling purposes will sell in the South-West at handsome premium.

Snow's crop report for July: Returns are all in and make very low averages for all the surplus corn states. Nebraska at 82 is the only one going above 80. His state averages are from county reports mailed July 1st. Ohio 77, Indiana 80, Illinois 76, Iowa 74, Missouri 75, Kansas 77, Nebraska 82. Acreage returns indicate at least 3,000,000 acres less than last year.

LOCAL MARKET.—The market was steady to-day and trade was dull. Buyers and sellers are about 1½c apart on Manitoba wheat, and very little trade is being reported.

No. 2 oats, afloat, 37c; No. 2 oats, in store, 39c for local trade; No. 2 peas, 63c high and 73c afloat; buckwheat, 48½c afloat; No. 2 rye, 52c east, and 58½c afloat; No. 3 extra barley, 46c middle and 53 to 53½c afloat. Manitoba wheat, bid 88c for No. 1 hard, 87c for No. 1 northern, 84c for No. 2, 80c for No. 3, afloat, Montreal. Sellers asking 1½c more.

Special to The Montreal Star.

Toronto, July 8.—Wheat—Firmer, with demand rather slow. No. 2 Ontario, red and white, quoted at 75 to 75½c, middle freights; No. 2 spring is quoted at 71c, middle freights; No. 2 goose at 66c, on Midland. Manitoba wheat higher; No. 1 hard quoted at 87c at Goderich, and No. 1 northern 86c at Goderich. No. 1 hard, 93c, grinding in transit, lake and rail, and No. 1 northern, 92c.

Oats—Steady, with sales of No. 2 white at 32½c, middle freights, and No. 1 white at 34c east.

Barley—Quiet, with no business reported. No. 3 extra quoted at 44c, middle freights, and No. 3 at 42½ to 43c.

Rye—Steady at 52c, middle freights, for No. 2.

Peas—Dull, with No. 2 white quoted at 62c high freight, and at 64c east.

Buckwheat—Nothing doing, with prices nominal at 40 to 41c outside.

Corn—Steady. No. 3 American yellow quoted at 59c on track at Toronto, and No. 3 mixed at 58½c at Toronto. Canadian feed corn, 49c west, and 54c at Toronto.

Flour—Ninety per cent. patents sold at $2.80, middle freights, in buyers' sacks, for export. Straight rollers of special brands for domestic trade quoted at $3.25 to $3.40 in barrels. Manitoba flour steady; No. 1 patents, $4.20 to $4.30, and strong bakers, $3.90 to $4, in bags, at Toronto.

Millfeed—Bran steady at $17, and shorts at $19 here. At outside points, bran is quoted at $15.50 and shorts at $17. Manitoba bran in sacks, $19, and shorts at $22 here.

STEADY PRICES ON LIVE STOCK MARKET.

Trade at the Eastern Abattoir Cattle Market was fair to-day and prices were about the same.

CATTLE.—Receipts amounted to 400 head most of which were of good quality. The demand for them was fair, and at noon 100 remained unsold. Prices ranged as follows: Choice butchers', 4½c to 5c; good, 4c to 4½c; medium, 3⅜c to 4c; common, 2½c to 3½c.

CALVES. — Receipts amounted to 500 head, the quality being mostly common. The demand was good and at noon none remained unsold. Poor stock sold at $2 to $3, and good at $3 to $8 each. Good demand for good calves.

SHEEP AND LAMBS. — Receipts of sheep amounted to 350 head, those of lambs amounting to 200 head. The sheep brought from 3c to 3¾c, lambs selling at $2.50 to $4 each. Good demand for lambs.

HOGS.—Receipts of hogs amounted to 400 head. The demand was slow and prices ranged from 5c to 5¼c. Not much demand for hogs.

Cotton Market Still Excited.

New York, July 8.—Speculation was active again this morning, and the cotton market showed great excitement. The opening was firm, with first prices at a gain of 7 to 18 points, August opening at 11.25, sold at 11.49; September opening at 10.55, reached 10.59, while October and December showed gains of 9 to 10 points over yesterday's close. After the first few minutes selling orders came pouring in, and quotations were forced slowly downwards, August losing 8 points, September 14, and October and December about 8 points from the highest prices reached just after the call.

THE CHEESE MARKET WAS VERY UNCERTAIN.

Some Think Bottom is Reached, Others Look for Further Declines.

CHEESE.—It was estimated this morning that the stock of cheese in Montreal just now would amount to about 60,000 or 75,000 boxes, a small quantity, everything considered.

The demand at the decline was fair, and some thought they could see some indications of a revival in the interest to-day. Country boards appear to be approaching the bottom for the time being, and this of itself is an indication that prices here and in England are coming into line again. It is claimed by some that this market still has a distance to go, and that 9c will be high in another week. It is said that good Quebec makes were offering here to-day at 9c, and that it would be rather difficult to sell much at 9¼c, the latter being, however, the general idea of its worth. Townships were quoted at 9 3-8c to 9½c, and Ontarios at 9⅝ to 9¾c.

The market is still uncertain.

Receipts reported on the Board of Trade this morning amounted to 20,989.

BUTTER.—A leading merchant estimated that there were not more than 60,000 packages of butter in store in Montreal this morning, 10,000 of which were dairies.

A few merchants are looking for further declines, but the majority appear to think that the market is about low enough. However this may be, there is no very great amount of buying going on. The local trade shows no hesitation in buying freely to fill wants at 18½c. One exporter claimed to have bought finest at 18¼c, but 18½c was the general view. Another dealer said he would buy no more over 18c.

Receipts reported on the Board of Trade this morning amounted to 2,560 packages.

EGGS.—Owing to the hot weather the stock is beginning to show considerable loss through bad stock, and as a result merchants generally prefer to buy candled to straight gathered stock. The straight gathered stock costs all the way from 13 to 14c f.o.b. country points, and the candled sells at from 15 to 15½c in lots. Sales of lots of a few cases at a time were being made at 16c this morning.

Receipts continue very light, those reported on the Board of Trade this morning amounting to only 565 cases.

POTATOES.—New stock was reported to have been sold here at $2.75 a barrel, this being a decline of 25c from yesterday.

It is said that a few carloads of old stock were offered on track here lately. However, it was very difficult to dispose of them. One large firm, which have a small stock on hand, are devoting all their time to getting rid of them, and they say they would not take any more old goods at any price. They are asking $1.30 a bag for the choicest stock down to 75c for poor stock. They are slowly getting rid of their holdings. In a very few days now, especially as the weather is hot and dry, there will be nothing but new stock offering on this market.

BEANS.—The market continues steady, at about $1.70 per bushel for primes, on track, and $1.75 to $1.80 for small lots.

MAPLE PRODUCTS. — Jobbers report that they are willing to pay 70c an imperial gallon of 13 lbs. for choice fresh maple syrup and 8c a lb. for new maple sugar.

HOW CHEESE SOLD ON COUNTRY BOARDS.

Campbellford, Ont., July 8.—Eighteen hundred and seventy-five white cheese were offered. Sales: Magrath, 450 at 9 3-8c; Hodgson, 400 at 9 3-8c; Brenton, 200 at 9 3-8c; Cook, 200 at 9 3-8c. Balance refused at 9 3-8c.

Ingersoll, Ont., July 8.—Offerings yesterday were 538 boxes of July make. No sales. 9¼c and 9½c bid. June cheese all sold, and salesmen not inclined to accept the reduced prices for July's. Splendid pasturage in this district.

Export Butter and Cheese Market.

Hodgson Bros., of Liverpool, write as follows, under date of June 26:

There has been a fair consumptive demand for cheese, but arrivals have been more liberal, and there is some accumulation. A good proportion of the arrivals having been coming forward somewhat green and young, and the value of such is quite 1s to 1s 6d under top quotations. Full creams again lower in character are wanted, and sell as landed, but there is still no enquiry for low grades of skim cheese. We quote to-day: Finest new cheese, States and Canadians, white, 52s to 53s; coloured, 54s to 55s; lower grades, full creams, 46s to 48s; skims and half meats, according to quality, nominally 22s to 34s.

There has been a quiet market for butter. The recent improvement in values has scarcely been maintained, and there is some reaction. This applies to both Danish and Irish. In Canadian, there is no improvement in the demand. Medium grades of butter are not plentiful, but trading is slow. Copenhagen quotation is "Unchanged" for next week. We quote to-day: Choicest Canadian fresh-made creamery, in 56 lb. boxes, 88s to 94s; dairy, in tubs and boxes, none here; States ladies and imitation creamery, none here; choicest Danish in Kiel casks, 102s to 106s; choicest Russian in Kiel casks, 86s to 90s; fine Russian in Kiel casks, 80s to 85s; choicest Irish creamery, 92s to 97s.

Wheat is Higher.

(From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.)

Chicago, July 8. — Wheat higher, old July selling at 79 to 79 1-2, and new September at 76 7-8 to 78 1-8. Best prices were not sustained, however. The closings yesterday were 79 old July and 77 3-8 new September. Armour led the selling. Threshing returns from the southwest were on the main unsatisfactory, and as they were accompanied with buying orders the early dip was soon regained. The North-West was also a buyer of wheat in the way of covering short contracts. A despatch from Winnipeg to the Star correspondent says that the wheat acreage for Canadian West is 3,123,683. Thomson, Son and Company, the best authority, say: "Present prospects are 70 million bushels." Daily Trade Bulletin in a special article this afternoon will make the decrease in the word's breadstuffs during June of 18,842,000 bushels, compared with decrease of 27,346,000 bushels during June last year.

FRUIT WILL BE SCARCE IN UNITED KINGDOM—CHANCE FOR CANADIANS

Frost Almost Ruined Berry and Other Crops—Great Scarcity of Apples in Europe Also.

Special to the Montreal Star.

Glasgow, July 8.—The British Isles were lately visited by a very sharp and sudden attack of frost. It came like a thunderclap on the heels of weeks of scorching heat. During the fine weather the country was looking its very best, and fruit was getting into tip-top shape for the market. But two nights of frost destroyed millions of dollars' worth of fruit.

In the strawberry districts the loss was not so great as was at one time expected, but appearances indicate that the berry will be dear this season.

Gooseberries will be about three-quarters of a crop, and they are selling dearer than for many years.

Apples and pears are to be scarce, and this should prove of interest to the Canadian exporter. The destruction here has been very serious, and the crop on an average will only be half as good as usual. The crop is a very irregular one. In some districts in England there will be a good return, and in others hardly any return.

Pears will only yield about a third of a crop.

Cherries will also be scarce.

Plums and currants give a poor prospect.

Toronto, Ont., July 8.—The Ontario Department of Agriculture has received word from Europe that the apple crop is likely to be very poor there this season. In this connection a letter was received today from a large French cider manufacturing firm, asking if it would be possible to secure from Ontario a large quantity of apples at reasonable prices. If so, they could use six to eight thousand tons.

REMARKABLE PLAN TO KEEP PRICES OF DRIED CURRANTS UP.

Discussing the situation in dried currants the Hills Bros. Company, of New York, state: "The Greek market is very firm at about full parity of the spot basis. The position continues to improve with all consuming countries, and France in particular, being buyers. Further reports are heard as to the prevalence of peronosperos, but only thus far of small extent. It is probable that the disease will be fully controlled by a free application of sulphate of copper, and otherwise the coming crop is progressing satisfactorily. On spot, a fair jobbing business is doing at full prices. Supplies are very moderate, and nothing further is expected until the arrival of the Alberta, about the 15th inst.

"The full particulars of the bill recently passed by the Greek Chamber of Deputies are just to hand. In general it provides that at a fixed price the Currant Bank must buy whatever fruit is offered, and sufficient funds for this purpose are guaranteed by the Government. In view of the bank being always prepared to take any quantity at a fixed limit, it is hardly probable that the bank will get any large quantity, though they will stand prepared to take all that is offered. Should, however, the bank purchase some 15,000 to 20,000 tons, the market would be so far cleared that it is very probable that good prices would be realized for the balance of the crop. Meantime the bank has already made arrangements for the disposition of whatever fruit may come under its control, either through retention or by purchase, by contracting with the principal wine and spirit makers in Greece to take any quantity up to 60,000 tons. Lower prices than those ruling at present, therefore, are quite impossible, and with the tendency all in favour of better values."

New Crop Molasses Here.

The first cargo of new crop Barbadoes molasses for the season of 1903 has arrived here, consigned to the Boston Molasses Company, who are represented here by Messrs. Rose & Laflamme.

Special Notice.

TO BONDHOLDERS OF
THE SAO PAULO TRAMWAY, LIGHT AND POWER CO., Ltd.
The Board of Directors of the above company will shortly take steps to bring about the listing of its First Mortgage 5 per cent. Gold Bonds on the Stock Exchanges in Canada and in London, England. This will be done without expense to the holders of the bonds, but their co-operation is desired.
Full information in the matter can be obtained from the undersigned, to whom all holders are requested to communicate, before the 25th July, the numbers and amount of the bonds held by them.
J. M. SMITH,
Secretary.
Toronto Railway Chambers.
Toronto, July 2nd, 1903. 160 6 2aw

TENDERS
will be received by the Andover and Perth Electric Light Commissioners at the office of the undersigned at Andover, New Brunswick, until noon of the 25th day of July next, for the installation of an electric light plant for the villages of Andover and Perth, according to the plans and specifications, which may be seen at the office of the undersigned.
Tenders will be received either for the whole work or as follows:
1. For the development of the water power and building and completing the power house and supplying and setting the wheel.
2nd. For supplying and setting the poles with cross-arms.
3rd. For supplying and installing the electrical plant.
Each tender must be accompanied by a certified cheque for five per cent. of the amount of the tender, which cheque will be returned should the tender not be accepted.
Andover, N.B., June 30th, 1903.
C. H. ELLIOTT,
Secretary to Andover and Perth Electric Light Commissioners. 156 6

The Vital Reason Why

SHREDDED WHOLE WHEAT BISCUIT

surpasses all other foods.

Shredded Whole Wheat Biscuit is made in the most complete, scientific and hygienic food laboratory in the world.

This laboratory is flooded with sunlight through 30,000 panes of glass and finished in white enamel, marble and mosaic—*the veritable home of purity*—a place where contamination is impossible.

The wheat is first thoroughly cleansed and all light kernels removed, then thoroughly cooked and spun into thousands of little shreds; each shred containing thousands of little pores; which gives the greatest surface for the absorption of the digestive fluids of any known food.

This insures perfect digestion and immediate relief from constipation.

Order today.

Send for "The Vital Question" (*Free*).

BOY STOLE BICYCLES IN FOUR CITIES.

Chicago, July 8.—By the confession of Robert Olin, 19 years old, who has been arrested, the police believe, that several hundred bicycles stolen in the last year will be recovered.

According to the police the boy has admitted that he stole bicycles in New York, St. Louis, Buffalo and St. Joseph, Mich., and that an accomplice disposed of nearly all of the wheels.

The prisoner's parents are said to be wealthy Chicago people, who have disinherited him. Young Olin, the police say, also goes by the name of Frank Gonalow.

THEIR HEADQUARTERS.

GRAND LODGE MASONS AT THE KING EDWARD HOTEL, TORONTO.

Rooms Reserved for Them During the Convention Next Week—American Tourists Arriving at the Hotel.

The Grand Lodge Ancient, Free and Accepted Masons of Canada, in the Province of Ontario, is holding its forty-eighth annual communication in Toronto during the week of July 13, and will bring to that city the prominent members of the Masonic body in the Province. The King Edward Hotel has been made the headquarters for the grand officers while in Toronto, and a large number of reservations have also been made for delegates. Among those for whom rooms have already been reserved are Grand Master J. E. Harding, of Lindsay, Grand Treasurer Hugh Murray, of Hamilton, Grand Senior Warden S. Buchanan, of Windsor; W. J. Drope, District Deputy Grand Master for Niagara; John Wilson, D.P.G.M., Ottawa; W. H. McFadden, Brampton; R. Hillier, Leamington; R. E. Wood, Peterboro'; A. J. Whitley, Sundridge; G. S. May, Ottawa; T. C. MacNabb, Chatham; H. M. DeWitt, Kincardine; and R. L. Gunn, Hamilton.

Arrivals of tourists at the King Edward are increasingly large. One party of seven, who came over from Buffalo, consisted of N. S. Goldsmith, Rochester; Miss Clarke, Philadelphia; Miss Armsden, Boston; Miss Howard, Baltimore; Miss Smith, New York; Miss Epson, Jameston; Miss Angevine, Atlantic City; C. S. Strong, Geneva, N. Y.; and George B. Hoyt, Rochester.

RUSSIAN OFFICIALS CONFER IN MANCHURIA.

Sessions are Secret, But Preparations for War Believed to Be Subject.

Kin Chau, opposite New Chwang, Manchuria, July 8.—All the prominent Russian officials in China, Manchuria and Korea are attending the conference at Port Arthur. Among them are Minister of War Kuropatkin, Admiral Alexieff, the Russian Ministers at Seoul, the political agents in China and Korea, including M. Pokotiloff, recently Russian financial representative at Pekin, General Dessino, the military agent in China, the civil and military officers at Mukden, Harbin and Kirin, and the Administrator of New Chwang. The proceedings at the conference are enveloped in profound secrecy. It is popularly supposed that the Russian officials are considering war questions. The foreign commercial officials at New Chwang and Port Arthur believe that the possibility of war is increasing steadily. The Russian policy is believed to be to hold the present positions in Manchuria, including New Chwang and to take no steps to avert hostility with Japan, if it is assured that Japan will fight unaided. The war feeling among the Japanese in North China is intensifying.

The Russian civil administrator, with the Governor-General of New Chwang, has commenced the erection of a Government building designed to hold all Russian offices, including the telegraph and telephone departments, in the centre of the foreign settlement, partly on land ceded by the Chinese, according to the Russian explanation and partly on the public square, about which the Foreign consulates are congregated. The residents of other nationalities are preparing to protest against this encroachment on the public square.

A Russian company yesterday completed the purchase of the river steam tug business hertofore controlled by a British company. This is regarded as an important step towards Russian control of the harbour, as the new company is apparently acting in behalf of the Russian Government, Russia having but small commercial interests here. The British company had four boats and the Russians have imported two more. All six vessels are armed and commanded by Russian officers. The crews are composed of soldiers..

RATES ON LUMBER.

Lumber Carriers' Association Discusses Increase in Rebates.

Detroit, Mich., July 8.—At a meeting of the Lumber Carriers' Association held here yesterday the Great Lakes Towing Company submitted a proposition that will, if carried into effect, place lumber tonnage on a more equitable footing than has heretofore existed. Instead of 20 per cent. discount from tariff rates at the end of the season allowed to other tonnage the lumber carriers under the new arrangement will get 30 per cent. except at the ports of Chicago and Tonawanda, where a 35 per cent. discount from the tariff rates will be granted to members of the association. The cash discount will be 40 per cent. instead of five per cent., as given other tonnage.

A flat price of $5 is also made for taking lumber tow barges into the locks at Sault Ste. Marie, thus doing away with the necessity of the steamer handling a long tow in the locks.

Gagged Their Guard.

Chicago, July 8.—Overpowering and gagging their guard and forcing him to march ahead of them for a mile from the headquarters at Fort Sheridan, two prisoners, Privates McLean and McPherson, have made their escape from the post. No trace of them has been found.

Redistribution Committee.

Special to The Montreal Star.

Ottawa, July 8.—The Redistribution Committee resumed work last evening, and talked over the various schemes suggested. Nothing definite was done, however, and another meeting will be held to-night.

At a meeting of the Ottawa Presbytery Rev. J. S. Lochead, of North Gower and J. A. Logan, Chelsea, resigned. The former resigns on account of old age. The later assigned no reason.

ALL PATHS SEEM SMOOTH

When You Have Foot Elm in Your Shoes.

It is wonderful how easy walking becomes when you have Foot Elm in your shoes. It relieves all tiredness, soreness and aching of the feet, prevents blistering or chafing, and gives perfect comfort. Price 25 cents a box of 18 powders, at druggists, or by mail, Stott & Jury, Bowmanville, Ont.

MONTREAL TERMINAL RIGHTS GUARDED

Mr. Blair Secures Passage of Amendment to the Railway Act.

TELEPHONES AND RAILWAYS

Minister of Railways Proposes to Authorize Commissioners to Control Their Relations.

Special Staff Correspondence.

Ottawa, July 8.—The rights of municipalities with respect to their streets was the question which livened up what would otherwise have been rather a dull day in the House of Commons. This matter was supposed to be settled last week by an amendment which Mr. Blair inserted in the Railway Bill, preventing the proposed new Board of Railway Commissioners from granting to street railways in cities and towns any powers, without the consent of the municipality. Yesterday he came down with a further amendment, which practically withdrew his former concession. This caused a storm, but from the midst of the talk the fact eventually emerged that what he desired to do was to protect the Montreal Terminal Company in the right which has already been granted it to enter the city of Montreal. A clause was drafted which accomplishes this purpose, and the subject is now in fairly satisfactory shape so far as this Parliament is concerned, but the measure has not yet been passed, and there may be further alterations. Mr. Blair has also given notice of a number of other changes in the bill, among them being one to prevent any railway company from granting a monopoly of its stations to any particular telephone company.

A large part of the afternoon was spent by the House of Commons going through the forms which are required for concurrence in the estimates. It is a process designed to prevent the voting of money in haste or the slipping through of items which have not been considered, and for this purpose it is, doubtless, effective, but it is tedious and uninteresting in the extreme.

The bill for the revision and consolidation of the Railway Act was then taken up, and several amendments were made.

Section 91 was amended so as to provide that the directors of a railway may, with the sanction of the shareholders, declare a dividend, to be paid out of the net profits of the undertaking.

The directors may, before recommending any dividend, set aside out of the profits of the company such sum as they may think proper as a reserve fund to meet contingencies or for equalizing dividends, or for repairing, maintaining, etc., the railway, subject to the approval of the shareholders.

The clauses referring to the forfeiture of stock for non-payment of calls were amended so as to provide that before any forfeited stock can be sold at public auction, the consent of the shareholders must be obtained.

RIGHTS OF MUNICIPALITIES.

To the clause which provides that no railway may go upon the streets of a municipality without the consent of the ratepayers, Mr. Blair proposed to add the words "incorporated after the passing of this act." The effect of this would be that any roads now incorporated might enter upon city streets with the consent of the Board of Commissioners, and without the necessity of obtaining consent from the municipality.

Mr. Blair explained that this change was proposed at the request of certain companies, especially the Montreal Terminal. The Montreal Street Railway was an influential corporation which was very much opposed to the Montreal Terminal, and if the Railway Committee of the Privy Council had not been supreme, the Terminal Company might not have got into the city at all.

Mr. Clarke—"Did not the city council designate the streets upon which the Terminal should run, I take it that at the end of the term the council may renew the contract, or not as they see fit.

Mr. Blair replied that under his proposed amendment the Board of Commissioners would have to be consulted in the matter.

Mr. Clarke said the cities would greatly prefer to manage their own streets, without any board or tramcar company interfering. The cities were constantly being called upon to resist the selfish schemes, and the thing should be put a stop to. The Street Railway franchise in the city of Toronto would be worth $20,000,000 in a few years, if let alone, and to give the commissioners power to let another road into the municipality whether the municipality liked it or not, would destroy the value of the franchise to the city. If the Montreal Terminal Company's position were jeopardized he suggested that special provision be made for it, no municipality desired to take away any rights which had been given to any railway, but he objected to the insidious attempts being made all the time to get greater rights for these railways.

Mr. Lancaster pointed out that electric lines in rural districts were in much the same position as those in the cities. The Hamilton, Grimsby and Beamsville line, for instance, had made bargains with the various municipalities through which it passed, but this amendment would empower the Board to set these bargains aside.

THE MONTREAL TERMINAL.

Mr. Blair replied that it was not contemplated that there should be any interference with the charters granted by municipalities. The charter of the Montreal Terminal gave them the right to use the streets, but not to go upon the streets for the epurpose of laying down tracks until the corporation had decided what streets they should have the power to use, and on what terms. It was only when the city absolutely refused to grant such permission that the Commission could interfere. This was a power which the Railway Committee of the Privy Council had always possessed, and this it was proposed to transfer to the new board. Mr. Blair added sarcastically that he quite understood how everybody should stand in awe when the mighty interests of Toronto were mentioned, but for ordinary cities like Montreal, or Halifax, or St. John, or Hamilton, or Winnipeg, he thought these provisions would work well enough.

Mr. Barker, of Hamilton said that in his opinion this Parliament had no more right to deal with Street Railway systems of cities than the canals in Mars.

Mr. Blair agreed that this was a question to be left to the provincial legislatures, "Our desire," said he, "is to leave the existing companies where we find them."

Mr. Clarke—"We have no objection to that at all."

Mr. Blair, continuing, repeated his declaration that the city could designate the streets, and fix the terms upon which such a road as the Montreal Terminal could enter the city, but it could not be allowed to put itself in the position of absolutely refusing to allow the road to enter the municipality. He was willing to alter the clause so as to suit the views of the committee.

Mr. W. F. Maclean remarked that the country was being dragged in the direction of a legislative union. There had been a persistent raiding of municipal rights by this Parliament, especially the municipal rights of Ontario, civil and religious rights might be attacked next, and presently the whole question of the position of the provinces would have to be fought over again.

PRESENT RIGHTS GUARDED.

Mr. Blair expressed his willingness to strike out the words "incorporated after the passing of this act," and to insert a provision to safeguard the special rights any company may be now enjoying. The clause would then read: "The railway may be carried upon, along or across any existing highway upon leave therefore having been first obtained from the Board, as hereinafter provided. But the Board shall not grant leave to any company to carry any street railway or tramway, or any railway operated or to be operated as a street railway or tramway along any highway which is within the limits of any city or incorporated town until the company shall have first obtained the consent therefore by a by-law of the municipal authority of such city or incorporated town.

"Nothing in this section shall deprive the companies of rights conferred upon them by any special act of the Parliament of Canada heretofore passed."

Dr. Sproule did not like the clause even in this shape. It seemed to put the seal of approval upon powers now held, no matter how obtained. "I have no respect for rights that were improperly got," said he.

Mr. Blair said that for some reason or other companies lately had been coming to the Dominion Parliament for legislation of a kind formerly obtained from the provinces. There was naturally and legitimately a strong feeling against this sort of thing. He was prepared to assist in striking out of such bills the clause declaring the work to be for the general advantage of Canada, unless there were good reasons why it should be so declared.

After further discussion it was agreed that the final sentence of the above section should read: "Nothing in this section shall deprive the companies of rights conferred upon them by any special act of the Parliament of Canada, or amendment thereof passed prior to the present session of Parliament." This is the addition intended to protect the Montreal Terminal Company or any other that may be in a similar position.

FOR VILLAGES AND TOWNSHIPS.

Having got thus far the Minister thought that his troubles were over, so far as this particular section was concerned, but he reckoned without Mr. Henderson, who came forward with an amendment designed to give to townships and incorporated villages the same rights in their streets and highways as is given to cities and towns. To this Mr. Blair declined to agree. He contended that as an electric railway might pass through several rural municipalities, such a clause would give any one of them power to block the enterprise. Such a matter was one properly to be dealt with by the Board. As Mr. Henderson insisted upon a vote being taken, the whole matter was allowed to stand over.

The other amendments which Mr. Blair intends to offer, and of which he has given notice, will also come up at a later date. They are, substantially, as follows:

TELEPHONE POWERS.

"The company may construct and operate telegraphs and telephone lines upon its railways for the purposes of its undertakings; and for the purpose of operating such lines or exchanging and transmitting messages, may enter into contracts with any companies having telegraph or telephone powers, and may connect its own lines with the lines of, or may lease its own lines to any such companies.

"The company may transmit messages for the public and collect rates or charges therefore, but no rates or charges shall be demanded or taken for the transmission of any message, or for leasing or using the telegraphs or telephones of the company, until such rates or charges have been approved of by the board, and such rates and charges shall be subject to revision by the Board.

"The Electric Telegraph Co.'s Act shall apply to the telegraphic business of the company.

"Whenever any municipality or corporation has authority to construct, operate and maintain a telephonic system in any district, and is desirous of obtaining telephonic connection or communication with or within any station or premises of the company in such district, and cannot agree with the company with respect thereto, such municipality or corporation may apply to the board for leave therefor, and the board may order the company to provide for such connection or communication upon such terms as to compensation as the board may deem just and expedient, and the board may order and direct when, how, where, by whom and upon what terms and conditions such telephonic connections or communications shall be constructed, operated and maintained."

DRAINAGE UNDER RAILWAY.

The section 194 respecting drainage is struck out, and the following is substituted therefor: "The company shall, in constructing the railway, make and maintain suitable ditches and drains along each side and across and under the railway, to connect with ditches, drains, drainage works and watercourses upon the lands through which the railway runs, so as to afford sufficient outlet to drain and carry off the water, and so that the then natural, artificial or existing drainage of the said lands shall not be obstructed or impeded by the railway.

"Whenever any lands are injuriously affected by reason of the drainage upon, along, across or under the railway, being insufficient to drain and carry off the water from such lands, or whenever any municipality or landowner desires to obtain the use of drainage or theright to lay water pipes, or other pipes, temporarily or permamently, through, along, upon, across or under the railway or any works or lands of the company, the board may, upon the application or complaint of the municipality or landowner, order the company to construct such drainage or lay such pipes, and may require the applicant to submit to the board a plan and profile of the portion of the railway to be affected, or may direct an inspecting engineer, or such other person as it may deem advisable to appoint, to inspect the locality in question, and if expedient there hold an inquiry as to the necessity or requirements for such drainage or pipes, and to make a full report thereon for the board, the board may upon such report or in its discretion order how, where, when, by whom, and upon what terms and conditions such drainage may be effected, or pipes laid, constructed and maintained, having due regard to all proper interests."

To section 237, which deals with animals at large a subsection is added enabling the owner or cattle killed or injured on a railway to recover the amount of loss or injury against the company in any court of competent jurisdiction if, in the opinion of the judge who tries the action, such cattle got at large without any negligent or wilful act or omission of the owner or his agent, and got upon the railway by reason of fences, gates and cattle guards not being erected or maintained by the company as required by the act.

NO RURAL MAIL SERVICE.

The Post Office estimates were then taken up, the item being $226,000 for salaries and contingencies.

The Postmaster-General announced that he would decline to consider any system of rural mail delivery in Canada. He thought it would be too expensive on account of the great distances. He preferred to wait and see how it would work in the United States. He felt satisfied that the reports being made that it was found profitable in the United States were altogether fallacious.

Mr. Bennett asked the Minister who constituted the Ottawa Supply Company, from which the Postal Department is in the habit of buying large quantities of supplies.

The Minister, strange to say, declared that he knew nothing at all about the company.

Mr. Bennett then offered the information that the company has no office in Ottawa, and exists only in name for the purpose of acting as an intermediary between the Government and certain favoured merchants, and that one member of the organization is Mr. R. Ronan, secretary of the chief whip of the Liberal party.

The item passed and the House adjourned at 2 a. m.

PARLIAMENTARY NOTES.

Mr. Wilson, on Thursday, will make enquiry as to the total Dominion expenditure on immigration up to June 30, 1903.

Hon. Charles Fitzpatrick will introduce a bill to further amend the act respecting public and reformatory prisons.

Hon. Raymond Prefontaine gives notice that he will move, in committee of the whole, "that it is expedient to amend the Steamboat Inspection Act, to make provision for the abrogation of steamboat inspection fees, and dues, and for the better regulation of yachts propelled by gas, fluid naptha, or electric motors."

Mr. Prefontaine, in committee of the whole, will move, "that it is expedient to further amend the act respecting certificates to masters and mates of ships, by making provision for a new certificate called a Home Trade Certificate, and to otherwise amend the said act."

It is stated that yesterday's caucus approved the granting of $15 a ton bonus on lead from lead ore, mined and smelted in Canada. The proposal to grant $15,000 for a Canadian special cable service from Great Britain was also approved.

SOUTH AFRICAN SERVICE.

Details of the Contract Laid on the Table.

Special to The Montreal Star.

Ottawa, July 8. — Sir Richard Cartwright laid on the table a copy of the contract between the Dominion of Canada and the Allan, Elder-Dempster and Furness and Withy Steamship Coompanies, dated 12th August, 1902, for a monthly cargo and mail steamship service from Montreal, calling at Quebec during the St. Lawrence season, and from St. John, calling at Halifax during the remainder of the year, direct to Cape Town and such other South African ports as may be arranged, for five years from 1st October, 1902. The average rates of speed are to be 10 knots, the vessels are to be supplied with cold storage, and the rates are to be fair and reasonable. The date of sailing from Canada is to be in the first week of each month, with a penalty of £50 per day for each day's delay. The subsidy to be paid is £30,000 sterling in quarterly payments. The companies are precluded from making any discrimination or preference, and from accepting any subsidy from any foreign power.

SENATORS AT WORK AGAIN.

Hon. H. J. Cloran Introduced and Several Bills Passed.

Special to The Montreal Star.

Ottawa, July 8.—The Senate resumed their work last evening after a ten days' recess. Hon. H. J. Cloran was introduced and took his seat, and a number of bills from the Commons were advanced a stage.

The following bills from the Commons were read a first time:

Respecting the Kingston and Pembroke Railway.

Respecting the Canada Central Railway.

Respecting the Brandon and South Western Railway.

To incorporate the Marconi Wireless Telegraph Company of Canada, Limited.

To incorporate the Columbia River Improvement Company, Limited.

To incorporate the Montreal Longueuil Bridge Co.

For the relief of the Woolf Valve Gear Company.

To incorporate the Algonquin Lumber and Power Co., Limited.

Respecting the encouragement of the Construction of dry docks.

To amend the Patent Act.

To provide for further advances Harbour Commissioners of Montreal.

Hon. Mr. Fisher's bill to procure pure butter.

For the extension of the Canadian Northern Railway.

DEMANDS OF THE WEST.

British Columbia Ministers on Their Way to Ottawa.

Special to the Montreal Star,

Toronto, July 8. — Hon. Robert F. Green, Minister of Mines, and Provincial Secretary Hon. Charles Wilson, president of the Council in the recently formed Ministry, and Mr. Robt. E. Gosnell, private secretary, are here on their way to Ottawa to protest against the disallowance of the Provincial Immigration Law. This law, they explain, is aimed at the Japanese, as the $500 a head tax on Chinese pretty effectively disposes of the Celestials. The Ministers declare that it is necessary, in the interests of the province, that the Japanese, as well as the Chinese, should be excluded, and the object of their visit is to impress this upon the authorities at Ottawa. Regarding the proposed bounty on lead, the Ministers say that it undoubtedly will stimulate mining, but the effects will be temporary. What the industry required is a protection of 1 1-2 cents per pound, similar to that in force in the United States.

British Columbia, they say, is capable of producing from 50,000 to 60,000 tons per year.

Special Notice.

July Sale's Success.

The July cut price sale continues to attract large audiences of Montreal's public to The S. Carsley Co. Limited. The management enjoy no monopoly of the enthusiasm, for while the bargains are described in glowing terms, if one may judge by the attitude of the public, nothing is overrated. Everything is marked in plain figures; without the assistance of a clerk the public can figure out just what an article is going to cost. It is characteristic of the Company never to keep the public in doubt.

We want your old piano and will allow you a liberal price for it. Telephone, Up 2684, or call on Pratte, Nordheimer & Glendon, 2461 St. Catherine street.

TWENTY-FOUR KILLED IN RAILWAY WRECK

Passenger Train Crashes Into Freight at Rockfish, Virginia.

THIRTEEN WERE INJURED

Most of the Dead Were Austrian Immigrants—One Car Was Telescoped.

Charlottesville, Va., July 8.—The Southern Railway passenger train, No. 35, south bound, ran into an open switch at Rockfish depot, 20 miles south of this city yesterday, smashing into a local freight on a siding. The passenger engine, and express coaches were demolished, and the baggage coach telescoped through the second class passenger in the rear. In the latter was a party of immigrants, all of whom were killed or injured. The dead number 24, and the injured 13. The list of dead includes C. C. Owens, a Philadelphia boiler inspector.

Those not injured immediately began the work of rescue. Trainmen cut through the panels of the baggage car, and express car ,and took out 20 of the dead. Probably a score of injured were removed.

Most of the immigrants were Austrians, and were bound for points as far distant as California.

W. R. Brubeck, of this city, conductor, of the local freight, is reported to have gone insane after the wreck.

TRAINS MET ON SINGLE TRACK.

The freight was in charge of Conductor Brubeck and Engineer Hale, and at the time of the accident was on the return trip from Lynchburg to Charlottesville. Rockfish station is midway between these two points, and the track is a single one. Engineer Hale had orders to get out of the way of the passenger train, but for some reason failed to take a siding. The trains came together with a horrible crash and a fearful scene of panic ensued.

Train No. 35, which ran into the freight, and which left Washington this morning at 11.15, was made up of an express car, a baggage car, two day coaches, and two Pullman cars. The train connected with New York, and eastern trains at Washington.

The engineer of the freight escaped without injury, but the engineer of the express, is among the killed. It is estimated here that there were in all probability 120 persons on the train.

It was first reported that Baggagemaster Payne, of train No. 35, had met his death in the wreck. He was caught under one of the coaches, but rescued and probably will recover.

TO UNIFY NATURALIZATION.

Chamber of Congress Will Discuss An Important Topic.

Special to The Montreal Star.

Toronto, July 8.—Among the resolutions which will engross the attention of the Fifth Congress of the Chambers of Commerce of the Empire, is one from the Toronto Board of Trade dealing with the unification of naturalization. At present foreigners taking out naturalization papers in Canada, Australia, New Zealand and the other colonies have no status outside of these dependencies. For example a citizen of the United States taking out naturalization papers here, is a citizen of no country once he leaves the Dominion. The authors of the resolution in question want regulations drafted which put an end to this state of affairs by unifying naturalization, so as to apply to the whole Empire.

LEGATIONS AT PEKIN.

A Pekin Despatch Says That They are in Danger.

Special to The Montreal Star.

Berlin, July 7.—According to a St. Petersburg telegram to the Cologne Gazette, the Russian Government organ at Blagovest Chensk, published a statement that the Pekin Legations are again making preparations for all possible contingencies. Stores are being accumulated and the legation building almost resembles an armed fort. The Guards are considerably reinforced. The Russian papers say it is credibly informed that the American legation at Pekin applied to Washington for help. Giving most cogent reasons for the application, the temper of the people is again threatening and it is feared that hostile demonstrations may break out at any moment.

TELEGRAPH POLES BURNED.

St. Michael-Seattle Line Interrupted —First Boat at Dawson.

Seattle, Wash., July 8. — A despatch from Dawson says the last link of the United States Government telegraph system connecting St. Michael with Seattle has been connected, but vast forest fires have interrupted communication. Miles of telegraph poles have been burned in the wilderness through which the line runs. The fire region begins about 50 miles south of Fairbanks.

It is also announced that the first through steamer from St. Michael arrived at Dawson yesterday.

The Alaska Congressional Committee is due to-day.

"Commodore" Wright Dead.

Special to The Montreal Star.

St. John, N.B., July 8.—Charles H. Wright, better known as "Commodore," on account of his interest in yachting and other sports, died at the hospital on Tuesday afternoon as a result of injuries received by being thrown from his carriage while driving from Ben Lomond House, some miles from St. John, to Rothesay, on Monday. A wheel of the carriage struck a stone and Mr. Wright was thrown heavily to the ground, landing on his head. He lay for an hour before assistance reached him. Deceased was a son of Hon. Wm. Wright, who was for many years an officer of the New Brunswick Government. He resided in England for years and married there.

The George A. Thorpe Manufacturing Company, of Madoc, Ont., have assigned, with liabilities amounting to about $30,000. Clarkson & Cross, Toronto, are the liquidators.

Two thousand home-seekers from Ontario arrived in Winnipeg on Tuesday.

NEW YORK SUN DISCUSSES CANADA

Says We Have Great Resources and a Splendid Future.

"CANADA FOR CANADIANS."

The Protection Sentiment is the Controlling Force in Affairs To-day.

Special to the Montreal Star.

New York, July 8.—The New York Sun publishes a long editorial on "Canada for the Canadians," in which it quotes the two standing articles of the Montreal Star on the upbuilding of Canada. The article says that the Canadians study American methods and build on American lines. The United States is their object lesson. In American experience, Canadians see a close resemblance to their own conditions. In area and in population, the Canada of to-day is the United States of a hundred years ago. With that any accurate comparison of conditions ceases, although there lies before the Canadians very much of the same general question as that which confronted the Americans of the time of Thomas Jefferson. But the Canadians of to-day have an equipment which was utterly lacking in the case of their American prototypes. They have capital, railway and canal systems, and a long array of precedents and accumulated experience. Other things being equal, Canada should be able to run where the United States was obliged to creep.

The goal toward which all Canadians are looking and striving is the conservation of Canadian interests and the development of Canadian resources, in the interest and for the benefit of Canadians. The sentiment of "Canada for the Canadians" is as amply warranted as our own policy of "America for Americans," and there is no doubt that the sentiment is growing continually stronger.

CANADA'S RESOURCES.

On the subject of Canada's resources, the Sun says:

Canada's natural resources in the department of raw materials for use in manufacturing processes are almost limitless. Her known and now practically available coal areas are estimated at nearly 100,000 square miles. This does not include known areas in the far North, where transportation is not yet possible. Iron ores, some good and some of superior quality, are found from Cape Breton to Vancouver. Copper, lead and nickel, to say nothing of gold and silver, lie under her soil in rich abundance. Add to these her vast forest areas, and agricultural possibilities, which will enable her readily to feed millions of operatives and artisans, and it is plainly to be seen that, given capital and labour and reasonable encouragement by a tariff system, Canada is economically only less independent than the United States. This fact her capitalists have already seen, and it is becoming ever more and more apparent to her people.

CANADA FOR CANADIANS.

An inevitable outcome of this realization is the powerful political influence of specially interested groups, and increasing popular appreciation of the advantages to Canada of a political policy of "Canada for the Canadians."

With this sentiment all nations seeking trade relations with the Dominion will have to reckon. It is manifestly impossible to measure with precise accuracy the force of this protection sentiment, but its existence as a controlling force in Canada's affairs to-day is not open to doubt. It is almost equally certain that the influence will increase rather than diminish.

Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system. 160 1

Foresight and Economy are the elements of intelligent buying. As applied to having your linen laundried by the

TOILET LAUNDRY

they mean one and the same thing. Your wash trouble ends when your work is done here. . .

Fuel economy is an important feature in a range. Almost as important as good cooking facilities. Every housewife wants to do good cooking but she doesn't want it to cost her too much in fuel. The good cooking qualities of the

Imperial Oxford Range

are enhanced by its great fuel economy. The big scuttle of coal of other style ranges is replaced in Imperial Oxford homes by a smaller scuttle less often used.

The fire-box is evenly proportioned to the size of the oven, so there is no more fire needed than the size of range demands —no waste heat. The arrangement of flues and drafts concentrate the heat in the stove — it doesn't lose itself up the chimney.

SHIPS WITH STRANGE CREWS.

Which is the oldest crew that ever sailed? Some seamen would say it must be that ghostly one which has for almost three centuries been trying to navigate the Flying Dutchman round the Cape of Good Hope; but, putting superstition aside, an answer may be found in the ship's company of the William Crow, of Yarmouth, England, lost about three years ago off the coast of Durham. The vessel carried four hands, of whom the youngest was sixty-eight, the next sixty-nine—these two did duty aloft—the captain seventy, and the cabin "boy" had attained to the patriachal age of seventy-two.

This is reminiscent of the crews supplied to the ships of Commodore Anson's squadron when they were fitting out for his famous voyage round the world. For this purpose 500 invalids were ordered to be collected from the out-pensioners of Chelsea, and in answer to Anson's expostulations the Admiralty authorities of the day told him that they "thought them the properest men that could be employed on this occasion." But a great number of the men themselves thought differently, for, although the whole 500 were conveyed to Portsmouth, only 259 joined the squadron, for, as Anson's chronicler puts it, "all those that had limbs and strength deserted, leaving behind only such as were literally invalids, most of them being sixty years of age, and some upwards of seventy."

Either from compulsion or from choice, some of the vessels of Britain's mercantile marine carry crews who, in a different way, are almost as helpless as those supplied to Anson. Thus at an enquiry recently into the loss of a British barque it transpired that the helmsman at the wheel at the time of the wreck was a foreigner, ignorant of the English language, with whom no one on board the ship was capable of communicating in his own tongue, which was Spanish, and the man himself was unable to convey to the court the difference between port and starboard.

But if we are surprised thus to hear of a steersman who was dumb for all practical purposes, what is to be said of a whole crew of blind men? The story—as grisly a one as sea history holds—is told by Buxton, the great anti-slavery agitator, who says that in one instance the crew of a schooner making the Middle Passage all caught ophthalmia from their living freight, and the vessel groped helplessly about the Atlantic until picked up quite by chance.

A more cheerful tale of a curious kind of crew came recently from a German port of Kiel, where a Turkish corvette had been sent in connection with some repairs. The Turks on board, having exhausted both money and credit, and being still without money from their Government, stripped the ship bare of everything pawnable in order to purchase provisions, and, having done so, were actually on the point of starvation in port when diplomatic intervention procured them funds from Constantinople.

It was a crew of Turkish women that worked the 3,000-ton steamer Zora, quite recently, from Alexandretta to Philadelphia, but this is not so wonderful when it is remembered that around the British coasts, not so long ago, crews of women were occasionally seen. There was, for instance, one ancient brig which traded across the Irish Sea up to the time when the earlier Merchant Shipping Acts put an end to her career. The vessel was the sole support of two elderly sisters, who, with other female help, navigated it from port to port, and who are reputed, according to those who have known them, to have had a kitchen garden on the poop and a regular poultry yard under the forecastle.

CARRIER PIGEON FOUND.—On Sunday evening a carrier pigeon fell from exhaustion on St. Denis street, probably caused by the loss of blood from a wound in the head. The bird was observed falling by Miss Forget, 982 St. Denis street, who picked it up and found a band on its leg bearing the inscription 82—M—1903.

MAY YET ACCEPT CARNEGIE'S MONEY

Belief Is Growing That Montreal Will Have a Public Library.

VIGER SQUARE THE SITE

The Whole Matter Will Be Settled Definitely at the Next Meeting of the Council.

There was a short meeting of the civic library committee yesterday afternoon, when it was decided to vote the sum of $500 to establish a civic library in a room in the Monument National. Only a comparatively few books will be purchased at the present time, however, and they will be of a technical nature.

There was some discussion on the Carnegie library affair. It was pointed out that, as the Viger square site might yet be used, there was a possibility of the library yet being built.

Ald. Laporte said it had to be remembered that a majority of Council had decided not to accept Mr. Carnegie's money, and although the vote Council passed on the matter had been declared illegal, it was apparent that the majority was against the offer.

Ald. L. A. Lapointe was of the opinion that when the subject was brought up in Council again it would be found that a majority favoured the acceptance of the money. For his part he could see no reason why Montreal should not accept the offer of Mr. Carnegie. The city certainly needed a public library. He said the Library Committee should go ahead at once and solicit plans for a big library building. It might be well to have a competition, as such would ensure the submission of many plans.

It was the opinion of Ald. Martineau that nothing should be done by the committee with respect to the calling for plans until the City Council had been consulted. Many members of Council had different views from Ald. Lapointe with regard to the acceptance of Mr. Carnegie's money, and this phase of the question ought to be definitely settled before any further steps, such as had been suggested by Ald. Lapointe, were taken.

Other members thought there was no reason for sending word to Mr. Carnegie that his money was not wanted; Montreal had not so many public libraries that it could afford to turn its back on $150,000. It was urged that the money should be accepted, and that the big library should be put up on Viger square.

It was decided to take action on the whole question at the next meeting.

OBJECTION TO LOAN HAS BEEN WITHDRAWN.

A large number of taxpayers of St. Henri assembled yesterday evening, at the Town Hall, to discuss the question of a loan of $240,000, which the Council intends to borrow, to consolidate the debt of the municipality. The chief opposition to the scheme came from the Landed Property Association, which was largely represented at the meeting.

After explanations were given, the association decided to withdraw opposition to the project, provided that five of the members of their executive committee were associated with the Council in negotiating the loan.

The voting will take place to-day and to-morrow.

Kay, Nelson, B.C.; Rev. M. L. Leitch, Toronto; Mr. Eugene Lewis, Mrs. Lewis, Chicago; Mr. Morton Lewis, Chicago; Dr. J. H. Munro, Maxville; Miss Geills McCrae, Guelph; Mr. William Ness, Howick; Mr. George Osborn, Mrs. Osborn, Kingston; Mr. J. F. Scott, Toronto; Mrs. Stewart, St. John, N.B.; Miss Willett, St. John, N.B.

Sailors' Institute Concert.

Miss Hollinshead was greeted with a full house last night at the Sailors' Institute concert. Mr. Barrington Foote, who assisted Miss Hollinshead, was in good voice, and sang "Father O'Flynn." Master Allan Glover, a pupil of Miss Hollinshead, sang "Powder Monkey Jim," and was encored. There was a good list of sailors from the ships in port, the following taking part in the programme: Messrs. Doyle, Smith and Herriot, steamship Manhattan; Mulligan, steamship Larne; Riley, R.M.S. Pretorian; O'Keefe and Donnell, steamship Monterey. Mrs. Foote and Miss Meyers played the accompaniments. Mr. J. Ritchie Bell presided, and also joined Miss Hollinshead in a humourous duet.

NOTES.

The Dominion line steamer Ottoman, Captain Howell, from Bristol, with general cargo, arrived at Montreal yesterday afternoon.

The Canadian Pacific Atlantic line steamer Monterey, Captain R. Williams, from Bristol, arrived in port late last evening.

Bride of a Week Dies.

Special to The Montreal Star.

Brockville, Ont., July 8.—Misses Gertrude and Edith Knowlton, daughters of Mr. F. A. Knowlton, were married on Wednesday last, the former to W. T. Jenks, of Salem, Oregon, and the latter to Dr. W. F. Phillips, of Boston. On Sunday morning Mrs. Jenks was attacked with malignant diphtheria and died forty-eight hours later. She was about 30 years old and very popular.

A Grasping Combine

-ster longs for lady charlotte gelatine.

CORRECTS STATEMENT MADE BY CABMAN.

With regard to the statement of a cabman, made in last night's Star, that the observation cars "Seeing Montreal," promises to show places to the tourists which are not on the car lines, Mr. A. W. Bachelder, the general manager of the National Observation Car, and Coach Co., states that in the folder which the company hands to tourists it is not promised that all points of interest will be actually passed. The list is headed "A few of the points of interest that are seen and talked about on the 'Seeing Montreal' cars. An expert guide gives reliable information about all the places mentioned in the list."

Salvation Army Work.

To organize prison gate work in the Salvation Army in Montreal is the object of the visit of Major Archibald, secretary of the Salvation Army prison gate work in Canada, who last night gave an interesting address on the work in the St. Alexander street barracks. Once the work is organized here a branch of the Free Labour Bureau will be established, and the Army will be represented in the police court and prisons, with a view to helping the prisoners. Major Archibald will spend a few days here, where he is the guest of Staff Captain Creighton at the headquarters of the Army. To-night he speaks at the Point St. Charles barracks.

Charged With Stealing Lead.

Jas. McCaffrey and Albert Olsen, two men well known to the police, were arrested last night on a charge of stealing a large quantity of lead piping from unoccupied houses. It is stated that the men did $800 worth of damage by pulling lead piping and brass fixings from the houses they entered. They pleaded not guilty when brought before Judge Choquet to-day and were remanded for enquete.

Can be attached to any piano. Call and see them. They will be sure to interest you. Willis and Co., Empire Building, 2470 St. Catherine street.

FUNERAL OF EX-JUDGE DOHERTY

It Took Place To-day at St. Patrick's Church.

WAS PRIVATE IN CHARACTER

A Large Number of Persons Were Present, However, at the Service.

The funeral of ex-Judge Marcus Doherty took place this morning, at 9 o'clock, from the family residence, 24 St. Famille street, to St. Patrick's Church, and was of a private character. At the church the levee du corps was performed by Rev. Martin Callaghan, P. P.

The Requiem Mass, which was very impressive, was sung by Rev. Father Doherty, of the United States, a relative of the deceased, assisted by Rev. Dr. Luke Callaghan, as deacon, and Rev. James Killoran, as sub-deacon. Mr. Elliott, Seminarist, acted as Master of Ceremonies.

In the Sanctuary were Mgr. Racicot, of the Archbishop's Palace; Rev. Father Kavanagh, S. J., St. Mary's College; Rev. Father Callaghan.

The church was heavily draped, the pillars, pulpit, altars, the galleries and Sanctuary being hung in black and gold. The Sanctuary was illuminated with electric lights.

The choir of the church rendered Perreault's Harmonized Requiem Mass. At the offertory Mr. Poliquin, of St. James' Church, sang a solo. Prof. Fowler presided at the organ.

At the Libera the priests and sanctuary stood around the bier. Mgr. Racicot pronounced the Absolution.

The chief mourners were: Hon. Justice Doherty and Joseph Doherty, sons; Walter Kavanagh, son-in-law; James O'Halloran, K. C., brother-in-law; Geo. O'Halloran, Deputy Minister of Agriculture; Rev. Father Kavanagh, S.J., Hon. Justice Curran, Hon. Justice Purcell, Hon. Justice Taschereau. Among those present at the church were: Hon. Dr. Guerin, M.L.A., Hon. Justice Loranger, Colonel Preveau, Geo. H. Hill, Michael Guerin, Dr. Devlin, E. H. Copland, L. O'Connor, J. Noonan, jr., M. Meagher, E. Grenier, F. X. Roy, Bernard Tansey, Patrick Reynolds, J. Smith, F. B. McNamee, James Rogers, J. A. Richard, R. A. Campbell, Michael Donovan, M. J. McAndrew, Geo. Clarke, Owen Tansey, J. Hatchet, F. J. Curran, James Noonan, W. Caven, Frank Feron, M. Panneton, Dr. Curran, M. Cross, M. Fallon, and others.

Wallace Watson, Montreal; Mr. W. Brewster Wood, Miss Constance Wood, Philadelphia; Miss Wood, Liverpool, Eng.; Miss E. M. Wood, Liverpool, Eng.; Mr. J. Wildman, Montreal.

The Daily Star.

BUILD UP CANADA.

WHEN will CANADA be a MANUFACTURING COUNTRY for EXPORT?

The United States is to-day the most conspicuous export manufacturing country in the world. Why is this? Because the people and statesmen of the United States realized years ago that a strong Protective Policy would first of all build up home manufactures by securing for Americans the best of the home market, feeling sure all the time that once the manufacturers of the United States grew to the needs of home consumption they would go on building for export trade. And to-day all that was predicted for the manufacturers and workingmen of the United States has come true. Millions upon millions of foreign money and tens of thousands of foreign workmen are pouring into the United States to reap some of the fruits of the great National Protective policy of the American Union. Can Canada repeat this? Look at the Cotton Mills, Tobacco Factories, Rolling Mills, that were built up in Canada under the National Policy, and we can easily picture what would happen if the Government of Canada would give to Canadians a Canada-for-Canadians policy, looking first to the securing for Canadians the Canadian consumption, and then a share of the markets of India, Great Britain, Australia, Japan, Italy, Spain, South Africa, in fact, of the whole world.

THE SECRET "CAUCUS."

A public "caucus" is one of the things for which the non-party man will wait long; but it is as sure to come as any other advance of popular government. At the present time we see whatever real, independent discussion this trunk line project will get from the majority of the people's Parliamentary representatives, proceeding behind the tiled doors of a party "caucus," and under a tacit pledge of secrecy. The public money will there be voted away by the tens of millions; and the public will never know what were the real reasons advanced in favour of this extravagance, and what were the honest protests made against it.

The opening of the "caucus" doors is not a reform that will come from either party. They both find it too convenient. In no better place could the whip of party be swung, and the inevitably blowing off of surplus steam be permitted.

But some day the people themselves will demand that their business shall not be transacted in secret, leaving nothing but a formal "dress debate" for the open House. If a section of their representatives are strangled by order of the party chiefs, they want to know it, and thus be able to distribute rewards and punishments as they see fit. There are diplomatic and international reasons why the Privy Council should be secret; but the tyranny and cowardice of partisans alone close the doors of the caucus.

Probabilities for the next twenty-four hours, specially predicted for the Montreal Star at 11 o'clock to-day: Moderate to fresh south-westerly winds; fine.

Thursday — Moderate south-westerly winds; fair and warm, with scattered thundershowers.

Maximum and minimum temperatures during the last twenty-four hours: Victoria, 58, 50; Kamloops, 74, 52; Barkerville, 64, 38; Calgary, 60, 38; Edmonton, 58, 42; Qu'Appelle, 68, 44; Winnipeg, 92, 56; Port Arthur, 76, 60; Parry Sound, 80, 58; Toronto, 84, 70; Ottawa, 84, 64; Montreal, 82, 66; Quebec, 76, 60; Halifax, 70, 54.

Montreal, July 8.

Readings by the Optical and Engineers' Supply Company's standard barometer at noon yesterday, 30.21; at 8 a.m. to-day, 30.03; at 11 a.m. to-day, 29.98; temperature, to-day, maximum 85, minimum 62; yesterday, maximum 84, minimum 60. Sun rose this morning at 4.43; will set this evening at 8.01 o'clock.

WEATHER AT SUMMER RESORTS.

Cacouna.—Weather, raining. Temperature, 66.

St. Andrews, N.B.—Wind, north-east; fine and clear. Temperature, 65.

Old Orchard, Me.—Weather cloudy; light north winds. Temperature, 68.

Look at Our Prices

And then compare them with others, and you will find that, Quality for Quality, our prices are the lowest.

THE REASONS FOR THIS:

1st—In our factory we make many of the articles which we sell, and by our modern methods of manufacturing we are able to produce the highest quality goods at the lowest possible cost.

2nd—Any article which we cannot make to advantage, we buy direct from the foremost makers, and obtain every advantage in price by means of our large purchasing power.

3rd—In all cases we sell direct, free from jobbers' or middlemen's profits, and guarantee the quality of every article we sell.

Relieved by Operation, His Holiness Passed A Restful Night.

On Waking, However, He Was Restless and Seemed to Feel Weight of the Covering—Dr. Mazzoni Still Had Hopes of Recovery Last Night.

Rome, July 8.—6.55 a. m.—The Pope, on waking, did not speak. He was somewhat irritable and it seemed as though the blankets and other bed clothes were too heavy, so he kicked them off at the imminent risk of taking fresh cold, which would be absolutely fatal.

The doctors consider that altogether His Holiness has had rather a peaceful night.

All is tranquil at the Vatican this morning. The medical bulletin, which will be issued at the usual hour, is awaited with great expectation.

Dr. Lapponi, at 6 o'clock, had gone to sleep.

VATICAN WAS RELIEVED AFTER THE OPERATION.

Rome, July 8.—3.15 a.m.—Pope Leo is now sleeping, but his head lies uneasy on the pillow. The alleviation brought about by yesterday's operation of removing the fluid from his pleura was followed later in the evening by a restless period, and fresh doses of chloral, digitalis and caffeine had to be administered. Under their influence the Pontiff fell into a slumber, which, however, was not very peaceful, on account of the difficulty the patient has in breathing. Seeing Dr. Lapponi always at his bedside, the Pope, just before falling asleep, said kindly to him:

"Now it is your turn to-night. You must sleep."

Throughout the Vatican absolute calm prevailed last night, the excitement of Monday having to a great extent died out with the revival of hope after the announcement that yesterday's operation was attended with success.

HIS HOLINESS TALKS WITH THE DOCTORS.

Rome, July 8.— After half an hour's peaceful and apparently refreshing repose, following the operation of yesterday, the Pope awoke and inquired about the doctors. Hearing they were both in the next room, he said, "I thought they had gone. What do they stay here for? What are they plotting?"

Dr. Lapponi, re-entering the room, said: "We were preparing a bulletin regarding the operation, saying it was successful in all respects."

"Very well," replied His Holiness, "I wish to see myself these bulletins in their exact text."

He then went on speaking about the causes of his illness.

"I would like to know," he said, "from what it comes. I think I have always followed Dr. Lapponi's advice."

"Not always, Your Holiness," replied Dr. Lapponi gently.

"Well," retorted Pope Leo, "you could not expect to remedy my old age."

After a short silence the Pope, turning to Dr. Mazzoni, said: "In the last consistory I appointed as a cardinal a fellow citizen of yours, Cardinal Laliani, who comes from the Marches. Do you know him?"

"Yes, Your Holiness, I know him. I hope that that will not be your last consistory."

"I am afraid so," sighed the Pope, sadly. After which his head fell upon the pillow, as though extremely tired, being again the prey of exhaustion. The happy and cheerful expressions of the Pontiff at the moment when he was in the very shadow of death astonished the doctors. The Pope himself seems to glory in his ability to present a calm and bright demeanour.

DR. MAZZONI WAS HOPEFUL LAST NIGHT.

Dr. Mazzoni afterwards, assisted by Dr. Lapponi's son, who is also a doctor, made an analysis of the liquid extracted from the Pope's pleura. The colour is orange red, and it is prevalently composed of blood with coagulated fibrine without pus. What is feared is a reproduction of serum in the pleura in which case the operation will be repeated in about two days.

Dr. Mazzoni, who was besieged by relatives and friends of the Pope, and by journalists, enquiring as to the result of the operation, and its prognosis of the diseases. To a correspondent last night he said: "When one considers that the Pope should be dead by this time, the unexpected may happen, and there is still hope. His resisting so long, and maintaining perfect lucidity of mind means, notwithstanding the pneumonia, the affection of the kidneys, and the difficulty of breathing, there is no poisoning of the blood. Between being at the point of death and returning to what His Holiness is to-night, there is certainly such a difference as to permit the most optimistic views. To properly understand the change which has taken place it must be considered that yesterday the conviction was so sure that he would die during the night that notwithstanding the contrary opinion of Dr. Lapponi, the Pope's surroundings insisted on having extreme unction administered. The Pope resisted splendidly. Indeed, he seems to have acquired fresh strength. I don't dare to say anything positive. It is very easy to be deceived, especially in the presence of such marvellous resistance. I merely venture the impression that there is a probability that the Pope will die, but I do not believe death will occur yet."

THE POPE'S SOLICITUDE FOR HIS RELATIVES.

Special to The Montreal Star.

New York, July 8.—The correspondent of the New York Tribune in Rome cables: The Pope is showing even more solicitude for his family in what he supposes to be his last moments than he manifested previously. He asks frequently about them, makes dispositions of his personal property in their favour, and shows particular tenderness for Count Camillo Pecci, who may be described as the black sheep of the family, having spent his money and contracted debts which shocked the pious soul of his uncle. The Count once asked the Pontiff for help, hinting that otherwise his wife would have to go on the concert stage.

"What pity I cannot be there to hear her," said Pope Leo, with his fine smile.

It is said the Pope has willed to the Count a large sum of money, while other nephews are to have his precious papers. To one will be entrusted the task of writing the life of the Pope and editing his early letters, of which there are many in existence, showing him in a tender, domestic light.

Noble Guard Recalled.

Rome, July 8. — The Noble Guard, who had been sent as bearers of the red hat to the new cardinals, Katschthaler, Archbishop of Salzburg, Austria, and Taliani, Papal Nuncio at Vienna, have been recalled to Rome because of the illness of the Pope. The Noble Guard sent to Lisbon to present the red hat to Cardinal Ajuti, the Papal Nuncio there, will remain until July 11, when the hat will be conferred upon him if the Pope does not die meanwhile.

CARDINAL GOTTI VISITS THE POPE.

Much significance is attached to an extended visit made by Cardinal Gotti, prefect of the propaganda, to the sick room, from which other members of the Sacred College are excluded by the doctors' orders. Cardinal Gotti's interview lasted twenty minutes, even the doctors and attendants withdrawing.

Just what passed between the Pontiff and Cardinal Gotti only they know, but certainly the circumstances and length of the visit strongly support the view that the Pope was giving his attention to the administration of the affairs of the Church, when he himself has passed away. Various ambassadors and Cardinals called yesterday, but it was remarked that Cardinal Oreglia, the dean of the Sacred College, was not among the callers, although it is expected that he will soon be called upon to perform the most important services of the interregnum. Though not calling personally, Cardinal Oreglia thrice despatched his secretary, Father Santo, to learn the exact condition of the Pontiff. None of the visiting Cardinals except Cardinal Gotti saw the Pope.

DR. MAZZONI TELLS OF THE OPERATION.

Special to The Montreal Star.

New York, July 8. — The New York Herald's Rome correspondent says:

"The vitality of the Pope becomes daily more and more extraordinary. When Dr. Lapponi communicated to him the decision of his medical attendants to operate upon him, Pope Leo, addressing Dr. Mazzoni, said: "But in my weak condition are you not afraid of killing me? Do you really think I could resist operation? I suffer; I suffer much. Carry out the operation as quickly as possible."

But when the moment for the operation upon him arrived he became frightened and reminded Dr. Mazzoni how much he had suffered three years ago after the injection of morphia.

"Should one operate on an old man ninety-four years, who is almost in his death agony?" asked the Pope.

"The doctor then took the Pope in his arms, carried him to bed, and laid him in the position necessary for operation. The Pope smiled at the doctor's action, and said: "I see I am not very heavy."

The operation was over in a quarter of an hour.

"The Pope, who had not felt anything at all," Mazzoni said, "did not think the operation had begun. He was very gay, and joked with me."

BULLETINS ISSUED DURING THE NIGHT.

Rome, July 7.—3.45 p.m.—The following bulletins were issued:

"The test puncture of the pleura has been made, and eight hundred grams of liquid have been taken off. A rapid examination showed that some mucous was rattling in the lung which was originally affected.

"The Pope underwent the operation with courage. His general condition is now better, and he is resting.

"LAPPONI,
"MAZZONI."

Rome, July 7.—A bulletin issued at 8 p.m. says:

"The condition of the Pope, as indicated in the last bulletin, continues sufficiently satisfactory. His circulation and breathing are slow, but they are gradually improving.

"LAPPONI,
"MAZZONI."

Rome, July 8.—1.25 a.m.—It is noted that the Pope's strength will be maintained, as he has taken somewhat more nourishment, seeming to prefer the yolk of an egg with small sips of a stimulant, especially brandy.

Rome, July 8.—3.15 a.m.—Pope Leo is now in a troubled sleep.

The Word in Baltimore.

Baltimore, Md., July 8.—Cardinal Gibbons spent yesterday at his residence, adjoining the cathedral in this city, quietly awaiting news from Rome. He is prepared to leave for Rome at a moment's notice to participate in the conclave to elect a new pontiff.

Cardinal Gibbons sent a cablegram of sympathy to Rome yesterday, and last night the following in response from Cardinal Rampolla, Secretary of State:

Rome, July 7.

James, Cardinal Gibbons, Baltimore, Md.:

The condition of the health of our most Holy Father is certainly serious. However, we may be permitted to hope.

(Signed) M. CARDINAL RAMPOLLA.

Cardinal Oreglia's Order.

Paris, July 8.—According to a despatch from Rome to the Echo de Paris, Cardinal Oreglia has ordered the apartments in the Vatican which are occupied by the Camerlengo, which post he himself holds, during an interregnum, to be prepared. Cardinal Rampolla, on learning of this declared the action not to be decent while the Pope was still living, and ceased his own work. The incident, says the despatch, has caused much comment.

UNITED STATES STEEL CORPORATION MAY ENTER THE CANADIAN TRADE BY BUILDING A PLANT AT PORT COLBORNE

The interesting and vital question of whether the United States Steel Company intends entering the Canadian trade by building a plant at Port Colborne, Ont., is a matter that is agitating the Montreal steel and iron manufacturers just at present.

In some quarters the opinion prevails that the announcement now made by the United States Steel Corporation that land has been secured and a plant will be erected is more or less of a bluff which is put forward to prevent, if possible, the Dominion Government from making any concessions in the way of duties or bounties. At the same time, these pessimists are obliged to acknowledge that the situation at Port Colborne is most admirable, and in every way fitted for such an enterprise.

According to the announcement of the officials of the United States Steel Corporation, concessions from the Dominion Government have been secured for the draining of an immense basin or harbour near Port Colborne, which will be of sufficient size to harbour the vessels of the company. They further state that a large tract of land has been secured at Port Colborne, and that an option has been acquired from one of the Niagara Falls power plants by which 6,000 horse electric power will be delivered to them for the use of the works.

PROJECT A BIG ONE.

The project, according to the announcement, will include the manufacture of all steel products likely to be wanted in the Canadian market. The foreign trade, it is said, will also be partially supplied from this plant.

The intimation that Port Colborne is being improved for the particular uses of the United States Steel Company is hardly within the line of fact, as this was one of the pet projects of the late Minister of Public Works, the Hon. J. I. Tarte. It was through him that these improvements were first set on foot, as he became convinced that the natural advantages of this port upon Lake Erie were not to be passed over lightly, but rather were to be developed for the benefit of the general commerce of the Dominion.

From information obtainable it is gathered that the United States Steel Corporation has had its eye upon the development of Canada's steel and iron trade for months past. Indeed, some time ago the semi-official announcement came from the corporation's officers that there was a probability of establishing plants on this side of the line.

The chief reason for the establishment of a plant in Canada by the Steel Corporation, if such is the real intention, would be the fear of losing the wire rod and barbed wire trade of the Dominion. In the former days of high protection Canada had no less than thirteen factories where wire rods or wire was manufactured. At the present time, outside of one small company, all of these materials coming into the country come from the works of the United States Steel Corporation. In fact, the corporation has practically an absolute monopoly of the trade.

WISH TO SECURE MONOPOLY.

It is the intention of the Dominion Iron and Steel Company to enter this trade, which has for years proved so remunerative to the giant trust across the line, and in some quarters the announcement that the United States Steel Company intended to establish a plant in Canada is looked upon as a species of hold-up to prevent the Dominion Iron and Steel Company from developing this line of business under penalty of having the world's greatest iron and steel trust as a direct competitor.

Again, it is argued by Montreal manufacturers that the proposition is merely made at this period in order to impress, if possible, upon the Government the undesirability of granting either additional duties upon the manufactured articles or additional bounties upon iron and steel. It is pointed out that at the present time there is no duty at all on wire rods and wire. This duty, if granted, as the Dominion Iron and Steel Company desires, will place the United States Steel Corporation at a serious disadvantage as compared with their present position.

The value of wire rods and others of their manufactures brought into Canada during the fiscal year ending June, 1902, was $3,595,000. It was the largest item of imports on the entire list. During the fiscal year just closed the imports increased considerably, and practically every dollar's worth was manufactured and sold by the United States Steel Corporation. There are, therefore, grave reasons why the United States Steel Corporation should think it undesirable for the Dominion Iron and Steel Company to go into this business with a good-sized protective tariff or bounty in their favour.

WANTS TO CRUSH INDUSTRY.

In Ottawa it is stated that the United States Steel Corporation has been able, by various methods, to bring down the values in Dominion Iron and Steel stocks, and that it is its desire to crush the Canadian industry if possible. It is further stated in this quarter that the Government will not entertain any proposals for special concessions at Port Colborne. The Steel Corporation would be welcomed simply as an industry which would bring men, materials, and money into the country.

In New York City there appears to be a general opinion that the enterprise will develop fast in Canada.

One of the most prominent Wall Street operators said to-day: "The move of the Steel Company to establish a plant in Canada is significant in many ways. It means that the United States will lose the world market for manufactured steel, and that Canada will be the great centre of that trade. Pittsburg and Carnegie will be the greatest losers by the operation, although other places will also suffer to some extent. The move will certainly give Canada the upper hand of her sister Colonies in the event of a tariff for protection enacted by the British Parliament, and that fact will make the joining of Canada with this country one point further away. The far reaching results of this move on the part of the billion dollar trust are of vast importance to the commercial world, and other great enterprises that are threatened by tariff legislation in Great Britain, may be expected to follow its lead."

The United States Steel Corporation, which is an amalgamation of practically all the interests in the United States is the most gigantic corporation the world has ever seen. The capital amounts to a round billion dollars. During the year 1902 there was manufactured at the various works of the corporation no less than 8,197,000 tons of rolled and finished products, while the net profits for the last fiscal year amounted to upwards of one hundred million dollars.

Six Months in Gaol.

Laura Cote, found guilty of keeping a disorderly house on Ste. Agathe street, was sent to gaol to-day for six months with a fine of $100 or six months more. Mr. Recorder Weir sent the woman's seven-year-old child to the Industrial School and a fifteen-year-old daughter to the reformatory for four years. There were five girls in the house, and they were fined $15 or two months in gaol.

Election of Pope Leo XIII.

The Star of February 20, 1878, contained the following despatch relative to the election of Leo XIII. as successor to Pius IX., in the chair of St. Peter and the Bishopric of Rome:

"Cardinal Giochino Pecci, Pontifical Camerlingo, has been elected Pope. He takes the name of Leo XIII.

"Cardinal Pecci was born 2nd March, 1810, at Carpineto, near Anagini, of an old Patrician family. He was in favour with Pope Gregory XII., in whose household he was for some time as prelate and private prebendary.

"Cardinal Pecci is tall, possessing a fine head, a sonorous voice, a great dignity, and an austerity of manner in public life. In private life, however, he is unassuming, witty and sociable. As Pontifical Camerlingo, he has been head of that party which, without formally renouncing the rights of the Holy See, acknowledges the wisdom of submitting to the decrees of Providence, accepting that which seems to be irrevocably accomplished facts. The general opinion is that for learning, energy, dignity, amiability, real moral worth and sincere piety the Sacred College could not have chosen a more deserving Pope.

"The elevation of Cardinal Pecci to St. Peters' chair is one of those exceedingly rare instances of a Pontifical Camerlingo, who is looked upon as a Pope-maker, and who exercises the whole authority of Pope during the interegnum between the death of a Pope and the election of his successor, obtaining the majority of the votes of the Sacred College on his own behalf."

"MEDICAL SKILL CANNOT DIMINISH MY NINETY-FOUR YEARS."

An Observation Made by Pope Leo to Dr. Mazzoni When He Awoke This Morning.

Rome, July 8.—8.35 a.m.—The only nourishment Pope Leo now seems to prefer is the yolk of an egg mixed with marsala.

Seeing Dr. Mazzoni shortly after he awoke, the Pontiff said:

"This is the first time since the beginning of my illness that I have had some really peaceful sleep."

Dr. Mazzoni replied:

"It is the effect of the operation."

The Pope then observed:

"There is one thing your skill cannot accomplish—diminish my ninety-four years."

The most important thing now recommended by Dr. Mazzoni is nourishment for the patient, saying:

"Plants need water when dry."

The Pope, on awakening during the early hours of the morning, did not speak. He was somewhat irritable, and it seemed as though the blankets and other bedclothes were too heavy, so he kicked them off, at the imminent risk of taking a fresh cold, which would be absolutely fatal.

9.40 a.m.—As a consequence of the operation performed yesterday the cyanosis of the last finger joints has disappeared, proving that it was caused by vitiated circulation due to pressure of the pleura on the lungs.

The churches this morning were more crowded than is usual with supplicants interceding for the recovery of the Pontiff, repeating the Pro Pontifico Infirmo prayer.

An instance of the strain prevailing owing to the Pope's illness is the case of a Roman who went to the Basilica and shouted: "I am the Pope's nephew. The Pope is dead. We are all lost; we must all die." He tried to throw himself from a considerable height, but was rescued and taken into custody.

The arrival of telegrams from all parts of the world addressed to the Vatican has been so numerous that the Minister of Posts and Telegraphs has been obliged to recall clerks who had gone on their summer vacation, besides establishing a special service in the transmission, delivering and replying to despatches to and from the Vatican.

King Edward, Emperor William, King Leopold, King Alfonso and the Queen Mother, the Prince of Montenegro, Emperor Francis Joseph, the King of Saxony and King Carlos of Portugal made frequent inquiries by telegraph as to the condition of the Pope.

ANXIOUS TO WORK BUT DID NOT HAVE SUFFICIENT STRENGTH

But His Holiness Left His Bed and Walked a Few Steps—Dr. Mazzoni Hopeful.

Rome, July 8.—The following particulars were obtained of the doctor's visit this morning from the Pope:

"How feels His Holiness?" asked Dr. Mazzoni.

"I do not feel as well. I am weaker," replied the Pontiff.

"Perhaps you did not sleep sufficiently?"

"No, no," answered the Pope. "I was better last night. I am sorry, because today should be a day of great work."

"Surely," Dr. Mazzoni replied, "His Holiness does not intend to work?"

"Certainly," answered the Pope. "I have so many things to do. But I am afraid I have not the strength."

Both of the doctors then proceeded to convince the Pontiff of the necessity for rest, urging him not to place obstacles in the way of his recovery.

"I shall do as you wish," said the Pope, in conclusion, with a sigh of resignation.

Afterwards His Holiness expressed a desire to rise, saying he would be more comfortable in his arm-chair.

The Pope's attendant, Pio Cintra, then proceeded to help him to arise, but the Pope refused his assistance, saying he could still move by himself. In fact, without any help, except that afforded by his cane, the Pontiff walked a few steps to his arm-chair, repeating now and then: "I am weaker. I am weaker."

Part of the work referred to by the Pope was to repeat a novena to the Madonna of the Carmelites, whose feast begins to-day. The Pope is a very devout worshipper of this Madonna, always carrying her scapular about his neck.

Dr. Mazzoni speaking about the Pope this afternoon remarked:

"It has always been said that Pope Leo has shown powers of extraordinary resistance to diseases of the constitution, which is true, but, he also, which is little known, enjoys the absolute harmony of all his organs and of his physical, moral and intellectual qualities, which is the real cause of his great resistance to illness. Notwithstanding his advanced age and his present sickness the Pope has a constitution capable of enabling him to recover. The difficulties and delicacy of the moment are created by the personality of the Pope. He is a very sensitive man and a person to whom a simple injection of caffeine causes great suffering for about three hours. Three years ago, when I operated on him for cyst, it was said he did not suffer, but, in reality, he did suffer intensely.

"The liquid taken yesterday from the pleura may gather again and another operation may be necessary. But I hope not. Some of the liquid may remain and often the little which is left is spontaneously absorbed, which may be the case with the Pontiff."

AN ENORMOUS HARVEST IN THE CANADIAN WEST

"The harvest in the Canadian West this year will open the eyes of the world to the tremendous importance of the Canadian North-West," said Mr. Charles C. Hearn, of Hayfield, Manitoba, to the Star to-day.

"Hayfield is situated in the most fertile part of the province about ten miles south of Brandon and Mr. Hearn has been there since the early days when Manitoba first began to loom large in the eyes of the world as the future wheat growing territory of the Empire.

According to Mr. Hearn, the section is one of great fertility and the soil is of a most advantageous character for the growing of wheat. Mr. Hearn has over fifteen hundred acres of wheat under cultivation this year and he confidently expects to get a yield of forty bushels to the acre.

The farmers of Manitoba are so busily engaged in preparing for the harvesting of this year's crop that it is seldom that they get so far east as Montreal at this time of the year. Mr. Hearn's statement, therefore, as to the conditions that exist in Manitoba is of much value.

According to his description of the outlook there is no doubt that the west will produce a crop this year that will tax the railway companies to the limit so far as transportation is concerned.

"What estimate can you give of the probable crop this year?"

"It is hard to say, at the present time," replied Mr. Hearn, "but there is more of the country under cultivation this year and as the conditions are far ahead of those that existed last year, I am of the opinion that the yield this year will be in the neighbourhood of one hundred million bushels. This is a rough estimate of the wheat crop alone. Of course, there will be thousands of bushels of oats and other cereals."

"What about the help problem this year?"

"I don't anticipate that the farmers will have any difficulty in this respect. There is not likely to be any influx of men for the harvesting from Ontario this year, as that province wants all the men she can get for her own needs, and the wages paid in Ontario will be as good as those paid in the West. The Manitoba farmers will have to depend upon the immigrants that have poured into the West and are now waiting in Winnipeg and the other towns for the harvest season to begin. At the present outlook, there will be no scarcity of help. There are hundreds of men looking for work."

"In the event of a bumper crop there is likely to be a lack of transportation facilities?"

"Transportation is the mill stone that is ever around the neck of the Western farmer. He is at the mercy of the railways, and sometimes the situation is intolerable. There is likely to be a big lack of cars this year, and as the crop will be a record one the outlook is not bright in this respect."

"What about the elections in Manitoba?"

"We haven't time to think of politics at the present time. The Roblin Government has done good work in the best interests of the province and everything points to their having another lease of life. There is no interest whatever taken in the campaign and one hears nothing but 'wheat, wheat' in the West."

"So you are perfectly satisfied with the outlook, Mr. Hearn?"

"Perfectly satisfied," was the reply. "We are going to astonish the whole world in that western land, which was thought at one time to be a white elephant on the hands of the Dominion."

Mr. Hearn was at the Windsor Hotel to-day and leaves for the West to-night.

WORK OF SOCIETY.—The report of the secretary of the Charity Organization Society of the work done during the month of June is as follows: There were 99 new cases, comprising 146 adults and 141 children; temporary employment was given 615 times; 26 persons were recommended for permanent position; 369 visits were made by the staff of the office; 6 dependents were placed in permanent homes; 6 beggars were warned and 5 were taken off the streets; 15 paupers were returned to their respective homes, of whom were 7 emigrants, who were returned through the courtesy of the emigration officers of the Government; there were 1,363 people in the office, of whom 282 came to consult the secretary regarding the proper treatment of cases; 31 special reports were sent out.

The Passing of Pius IX.

Pope Pius IX. died on February 7th, 1878, from paralysis of the lungs. He had been ill for several days, but was able to walk around on the day preceding his demise. For some time he had been troubled with a wound in the leg, and the closing of this allowed the humours to mount into the lungs, poisoning the blood. His death is thus described in the Star of Feb. 8, 1878:

"The Pope's legs were so much better yesterday that he was able to walk a few steps. It is believed this exertion was fatal. A change for the worse occurred at 4 o'clock in the morning. The Pope died at 4.57 p. m. Cardinal Panebranco administered the last Sacraments.

"At eight o'lock on Wednesday night (the 6th) the Pope felt a sudden suffocation. He rallied several times but said to his physicians, "Death wins this time.' His last moments were lucid. He said: 'Guard the Church I love so well and sacredly.' The immediate cause of death was the closing of the wound in the leg, which made the humours mount into the lungs and brain. Cardinals Manning and Howard and many others were present at the death. The conclave has commenced."

On the day of his death the Blessed Sacrament was exposed on the High Altar in St. Peter's at Rome. It was covered with a white veil, however, and this was only removed when the College of Cardinals decided to announce the Pontiff's demise to the outside world. The faithful in Rome were informed of his Holiness's death by the removal of this veil.

In the Star of Feb. 9th, 1878, the following despatch from Rome was printed: "The official account of the death of the Pope substantially agrees with the details already sent. It states that the Pope remained calm throughout. At 11 o'clock, when his distressed breathing was painful to witness, he took a crucifix from under his pillow and blessed the bystanders therewith. He afterwards, at the request of Cardinal Bilio, blessed the Sacred College. At 3.40 p. m. the body became livid. The cardinals relieved each other in praying at the bedside. Cardinal Bilio recited the offices for the dying and at the commencement of the fourth office the death rattle ceased.

"The official declaration of the physicians who atended the Pope during his last illness is published. It states that the immediate cause of death was paralysis of the lungs."

Montreal's Requiem For Pius IX.

In the Star of Tuesday, February 12th, 1878, appeared the following account of the requiem service to Pope Pius IX., held in the Roman Catholic pro-Cathedral in this city, on the morning of that day:

"A solemn funeral service was performed this morning, at nine o'clock, in the Bishop's Church, in memory of His Holiness, Pius IX. The sacred edifice was heavily draped in mourning. Among the large number of clergy present, besides Bishops Fabre and Pinsonneault, were Rev. Cure Menard, of St. Jean Baptiste; Rev. Cure Tuillon, Coteau St. Louis; Rev. Cure Marechal, Notre Dame de Grace; Rev. Cure Dugas, Hochelaga; Rev. Father Salmon, St. Gabriel; Rev. Father Tortel, Superior of the Oblats; Rev. Father Bayle, Superior of St. Sulpice; Rev. C. Lenoir, P. S. S.; Rev. Father Singer; Rev. Cure Perreault, St. Genevieve; Rev. Father Bourgeois, Laprairie; Rev. Mr. Primeau, Boucherville; Rev. Father Baudet, St. Laurent; Rev. Mr. Geoffrion, Superior of St. Laurent College; Rev. Cure Roussault, Notre Dame; Rev. Father Toupin, Riviere des Prairies; Rev. Father Leflock, Rev. Father Trudel; Rev. Father Piette; Rev. Father Lauzon; Rev. Father Cardier, St. Vincent de Paul; Rev. M. Racicot, Hochelaga.

"Rev. Father Beauchamp, Notre Dame de Grace, acted as deacon, and Rev. Father Bonin, as sub-deacon.

"The choir was under the able direction of Mr. Sheridan, and the vocal music given was the Requiem and Kyrie by Matholo Asola; Dies Irae, by Alfieri; Sanctus and Offertory, by Cordans.

"Mgr. Fabre preached a short sermon, extolling the virtues of the illustrious deceased, by whose death was presented the spectacle of an immense family—composed of all Catholics—mourning for a departed father. He was their common father, and God had taken him unto Himself. The eloquent speaker alluded to the Syllabus which the Pope had launched to the world, and spoke of the leniency of His Holiness towards those liberal Catholics, who thought to link this world with the next, and towards those who belonged to secret societies. His Lordship closed by saying that the Pope had completely and faithfully fulfilled his mission on earth in spite of the many persecutions arrayed against him."

Lady Conductors at Brantford.

Brantford, Ont., July 8.—Yesterday was hospital day in Brantford. Young ladies, representing the auxiliary to the John H. Stratford Hospital, "manned" the street cars and collected the fares, the proceeds of the day having been donated by the Street Railway officials to the Ladies' Auxiliary. The money will be spent in purchasing a new isolation ambulance for the city, and in providing flowers and delicacies for the sick at the hospital.

The Fresh Air Fund.

Subscribers to the Fund, who forward their contributions to the Star Office, are requested to send, when possible, cheques payable to order. When, however, the money is handed in, a receipt therefor should be obtained. The publishers cannot hold themselves responsible for sums for which a proper receipt has not been issued. Those wishing to subscribe anonymously may as readily obtain such a receipt under whatever fictitious name or initials they may adopt, as where the actual name is given. 118 25eod

For Diarrhoea, Summer Complaint, etc., use Coverston's Blackberry Carminative. For sale by all druggists. Price 25c.

BOLS FINEST OLD LIQUEUR GIN.

HIGHER in price, but cheaper than ordinary Gin, because in a cocktail, or diluted with mineral water LIQUEUR GIN brings about the same effect as THREE TIMES THE QUANTITY of cheap gin.

	Per jug.	Per case of 12 jugs
Bols' "Liqueur" Gin, stone jugs, large	$1.20	$13.25
Bols' "Liqueur" Gin, stone jugs, medium	85	9.50
Bols' "Liqueur" Gin, stone jugs, small	65	14.25
Bols' "Liqueur" Gin, glass jugs	75	

(Cases contain 15 glass jugs, $10 per case.)
