PROVINCE OF LOWER CANADA,
DISTRICT OF MONTREAL.

Be it remembered that on the nineteenth day of October, in the year of our Lord one thousand eight hundred and thirty-nine, JOHN LOVELL, of the City of Montreal, in the District of Montreal, Printer and Publisher, hath deposited in this Office, the title of an Almanack, in the following words:—"The Lower Canada Almanack and Montreal Commercial Directory, for 1840, being Bissextile or Leap Year," the right whereof he claims as proprietor.

Enregistered according to the Act of the Provincial Parliament, by JOHN LOVELL, at the Office of the Prothonotary of the Court of King's Bench for the District of Montreal.

MONK & MORROGH, P. K. B.

PREFACE.

The compiler of this, the first publication of the Lower Canada Almanack, presents it to the public under the assurance that it will furnish a desideratum which had become the more requisite from the rapidly increasing commercial importance of these Provinces, and the late removal of the seat of government, and of most of the public departments, from Quebec to Montreal. Its contents are more ample, and he ventures to hope more useful and accurate than are to be found in any similar work lately published in Lower Canada. He is, however, sensible that notwithstanding the most sedulous care with which the materials for it have been prepared, it is far from being, in every respect, perfect.

The plan of the work is not new; on the contrary, the compiler has availed himself of the mode of arrangement, (as it seemed to him the best that could be devised,) and of much of the information contained in the Montreal Almanack, published a few years back by Messrs. Armour.

The Directory, which is added to the Almanack, although he believes that it contains the names of nearly all the principal merchants, traders, &c., yet is not so complete as the public may require or the compiler himself would wish to make it; but should the present undertaking meet with encouragement commensurate with the labour and expense attending it, hereafter it will be made more worthy of their patronage.

19707 3

As no expense has been spared, and unwearied pains have been bestowed on the work, it is committed to the public with much confidence that it will be received with indulgence and favour.

The compiler cannot conclude without offering his sincere acknowledgments to the numerous public officers, and other gentlemen, who have kindly rendered him assistance.

Montreal, November, 1839.

LIGHT HOUSES.

LIGHT HOUSE ON GREEN ISLAND.

Keeper,—Robert N. Lindsay.

The Lantern of the Light-house on Green Island, in the River St. Lawrence, shows a light every evening, from sun-set to sun-rise the next morning, from the 15th April to the 10th December, inclusive, and the following are the bearings of it, by compass, from the respective places hereunder mentioned, viz.:—

Red Island - - - -	E. S. E. $\frac{1}{2}$ S.
White Island - - -	E. N. E. $\frac{1}{4}$ E.
Brandy Pots - - -	N. E. by E. $\frac{3}{4}$ E.
Apple Island - - -	W. S. W.
Basque Island - - -	W. S. W. $\frac{1}{4}$ S.

The Shoal at the N. E. end of Green Island, S. W. $\frac{1}{2}$ S.
The Shoal at the W. end of Green Island, N. E. $\frac{3}{4}$ E.

LIGHT HOUSE AT POINTE DES MONTS.

Keeper,—James Wallace.

The Lantern of the Light-house on Pointe des Monts (or Cape Mont Pelé) on the north side of the River St. Lawrence, nearly opposite to Cape Chat, stands one hundred feet above the water.

The Light-house lays with the outermost part of Carribou Point, N. 52° east and S. 52° west, by compass, and can be seen over that point, and to the eastward of it.

Ships approaching the light from the eastward, as they draw towards Carribou Point, must bring it to bear W. by S. they will then be in a good fair way, and if necessary they can near the land by their lead.

After passing Carribou Point, and as they draw towards the Light-house they must come no nearer than twelve fathoms water to avoid two ledges of rocks:—one of which lays E. S. E. from the

Light-house, with only twelve feet water on it; the other lays S. W. from the Light-house, and E. S. E. from the western extremity of Pointe des Monts, with sixteen feet water on it; but these rocks do not lay further from the shore than half a mile at low water.

The Light-house lays with the western extremity of Pointe des Monts, N. 64° east and S. 64° west, and distant about one mile; and when ships are to the westward of the Pointe, the Light-house is in one with the outermost rocks off the Pointe—and in the day time it forms a bold distinct land-mark—and on this line of bearing, ships are in the best possible fair way for the general purposes of navigation, whether bound up or down.

For any particular purpose of navigation, ships may safely stand to the northward, until the light bears E. by N.; they will then be drawing near the north land; and when it bears E. ½ N. it is time to tack; for when it bears east it will shut in with the high land and cannot be seen to the southward of east, and then they will be only one mile from the land, and if they are off Godbout River, Pointe des Monts will bear from them E. by S. two leagues distant.

When ships are off St. Nicolas harbour, and the light bearing E. by N. they are in a good fair way from the north land. The S. E. spitt of Manicougan great shoal, the ship, and the Light-house, are all in one line of bearing.

LIGHT HOUSE ON S. W. POINT OF ANTICOSTI.

Keeper,—William Hall.

The Lantern of the Light-house on the S. W. Point of Anticosti shows a Revolving Light, on the Argand principle, every evening, from sun-set to sun-rise the next morning, from the 1st April to the 15th December, inclusive.

When ships are to the eastward of the Light-house, they may safely stand towards the Island until it bears N. N. W. by compass —they will then be in a good fair way, and if they wish to make more free with the land, they can do so by their lead. The land trends from the Light-house S. E. by S. or nearly so.

When ships are to the Westward of the Light-house, they may safely stand towards the Island until the Light nears S. S. E. ½ E., they will then be in a good fair way from the land, and as before mentioned, they can make more free by their lead.

Nearly east and west with the Light-house, and about three-fourths of a mile from it, is the outermost part of a Reef of Rocks which joins the S. W. Point. These are dry at low water, and are the only dangers near the Light-house; therefore a berth of a mile from the Point, is a good fair way.

Sixteen leagues to the eastward of the Light-house, at Shallop Creek, and sixteen leagues to the westward of the Light-house, at Grand Bay, and at the Light-house itself, are depôts of provisions for the use of mariners in distress, or other shipwrecked persons.

FLOATING LIGHT IN THE TRAVERSE.

The Lantern of the Light-vessel stationed in the Traverse of the River St. Lawrence, shows a Light every evening, from sun-set to sun-rise the next morning, from the commencement to the close of the navigation.

LIGHT HOUSE ON HEATH POINT.

A Light-house has been built on Heath Point, at the east end of the Island of Anticosti, but has not yet been put in operation for want of sufficient funds vested in the Corporation of the Trinity House.

BUOYS.

A Black Buoy has been laid on the West End of Beaujeu's Bank, in three fathoms at low water, spring tides, with the following marks and bearings, viz.:—M'Pherson's house, N. N. W. ½ W.; Cape St. Ignace S. S. E. ½ E.; Onion Island just open to the Eastward of the high water mark at the N. E. end of Crane Island, and the South point of the Stone Pillar just open to the Southward of Goose Island Reef.

A Black Buoy has also been laid on a shoal called the Channel Patch, in the South Traverse, in three fathoms at low water, spring tides, with the north side of Goose Island Reef and the north side of the Stone Pillar, in one bearing S. W. ½ W., the latter being distant two miles and three quarters to the north side of Goose Island, including the small Islands close off it, and the south side of the Woody Pillar, in one bearing S. W. by W. ½ W. and St. John's Church bearing S. E. ½ S. two miles and three quarters distant.

The Red Buoy in the Traverse has been moved lower down on the S. W. point of the shoal off St. Roch's, in about three fathoms at low water, with St. John's Church bearing S. ½ W., St. Roch's Church bearing E. ½ N. and the high Rock at the S. W. extreme of the Goose Island Reef, open one or two degrees to the northward of the Stone Pillar, and about four miles from the Floating Light, they bearing from each other N. E. ¾ N.

PROVISION POSTS ON ANTICOSTI.

On the outermost extremity of the west end of Anticosti stands a Direction Board. From the board to the house of Gamache, where there is a Depôt of Provisions, at the upper part of Grand Bay, by crossing the isthmus formed by Point Henry, the distance is six miles; but from this board round Point Henry, and up the Bay to the house, it is double the distance.

Six leagues to the eastward of Grand Bay is Duck River, at the mouth of which, on the east side, stands the Direction Board.

Four leagues to the eastward of Duck River is Otter River: close to its entrance stands the Direction Board.

Four leagues to the eastward of Otter River is Seal River, on the east side of which is a Direction Board, nailed to the house, used only in summer by Gamache's Salmon and Seal Fishers; at this house there are no Provisions.

Two leagues from the River is the S. W. point of the Island—on both the extreme east and west ends of which stands a Direction Board, about one mile from each other, and about one mile from the easternmost, stands another Direction Board, in the Bay, to the eastward of the Point.

Seven leagues to the eastward of the S. W. point is Heath River, on the east side of its entrance stands the Direction Board.

Three leagues to the eastward of Heath River is Pavilion or Flag River, and two miles to the eastward of it stands the Direction Board, on a point on the east side of the Bay.

Six leagues to the eastward of Flag River is Hamell's Post, at Jupiter River, where there is a Depôt of Provisions.

Seven leagues to the eastward of Mr. Hamell, and on the south side of the east end of the Island is a Direction Board, and on the north side of the east end is another Direction Board.

Four leagues from this Board, on the north side of the Island, is the Post of Bell.

It may be remarked that all these Rivers are merely Creeks, there not being water in any of them for a Boat at low water, except Jupiter River, at Hamel's Post.

12th. No Cribs of Timber or Boats, Scows or vessels of any kind shall remain in the Canal, except during the time of loading and unloading, or passing up and down; if detained, however, by unavoidable circumstances, they shall not remain along the wharves without the special permission of the Commissioners or their Superintendant, and they must be placed in conformity to their or his directions.

If taken in tow between Batiscan church and the wharf at Three-Rivers, to pay three-fourths of the full towage. If taken in tow between the wharf at Three-Rivers and Sorel, to pay two-thirds of the full towage. It being understood that when towage is engaged for vessels at Quebec, as they have a preference over others, the full towage to be paid for, whether the whole, or part, or none of the towing is performed,—the deduction made, referring only to vessels for which towage has not been previously engaged at Quebec.

Passengers on board vessels taken in tow, to pay one half the steamboat Steerage rates.

Masters of vessels to furnish tow lines and hawsers.

Not less than nine feet to be charged as draft water.

The greatest draft of water to be taken as measurement.

Should the masters of the boats, from any just reason, deem it necessary to cast off a vessel, no deduction to be made on the towage, provided they are retaken by the first opportunity.

Vessels towed from Montreal, or any place above Sorel, to Three Rivers, to be charged three-fourths of the towage to Quebec, and from Three-Rivers, and above Port-Neuf, to be charged half towage.

All pilotage to be paid by the masters or consignees.

In the event of any vessel grounding, when in tow, in consequence of being too deeply laden, or from the fault of the ship's pilot, the detention to be paid for, also the tariff rate for freight taken out.

The proprietors will not hold themselves liable for any damage that may be done to vessels or their warps, either in taking in tow, towing, or casting them off.

REGULATIONS RESPECTING CARTERS,

FOR THE CITY OF MONTREAL,

As agreed to by the Magistrates, in Quarter Sessions, on the 19th July, 1822, and amended on the 29th October, 1831.

1.—No person whatever shall transport from one part of the town or suburbs to another, for any reward or sum of money, without being duly licenced to that effect, under a penalty of twenty shillings for each offence.

2.—Every person who may wish to be a Carter, shall apply to a Weekly or Special Sessions of the Peace, held in Montreal, and shall produce a written recommendation of his moral and good conduct, as well as his ability to exercise such trade, and the sitting Magistrates, if they deem it proper, shall then grant him a licence to exercise the said trade. This licence to be made out and signed by the Clerk of the Peace, who shall be held, on the delivery of such licence to each Carter, to furnish him with a certified copy of all the regulations in force and regarding Carters, and all such Carters refusing or neglecting to take such copy, shall incur a penalty of twenty shillings. All persons having licences as Carters, or who may obtain them at any further period, shall be held to make their application before the first of May, to a Weekly or Special Court of Session to obtain a renewal of their licence; and then and there an enquiry into their capacity and moral conduct shall be made by the said Court, having power to reject or grant the said application according as it shall think proper. No licence granted prior to the first of May shall have effect after the first day of May following.

3.—Every Carter, as soon as he has obtained a licence, shall present it to the Clerks of the Markets, and he shall not exercise his trade and make use of any carriage without having received from them a number for each of his carriages; and until such number shall have been affixed by such Clerks of the Markets upon each carriage, and upon such part of the carriage as they shall deem best and most easily seen, under a penalty of twenty shillings. The Clerks of the Markets shall be held to mention in their return to the Clerk of the Peace in conformity to Article 4, the kind of carriage to which they have affixed each number.

4.—Upon the exhibition of a Carter's licence, the Clerks of the Markets shall insert the Carter's name in a book kept for that purpose, shall give him a number for each of his carriages, and also insert these numbers in the same book, and the kind of carriage on which such number shall have been fixed, and shall transmit a certified copy of every entry therein, to the office of the Clerk of the Peace, within twenty-four hours after it has been made, for the inspection of every individual, access thereto being *gratis*; it shall also be the duty of the Clerk of the Peace to keep a Register containing the names of the licenced Carters, their residence, and the numbers they have obtained for each of their carriages, according to the report from the Clerks of the Markets.

5.—No Carter shall make use of any tumbrel that shall contain

less than two hogsheads; and that shall not have been measured by one of the Clerks of the Markets, and who shall not have obtained a certificate of such measurement, under a penalty of twenty shillings for each offence. The Clerks of the Markets shall be held to furnish such certificate without delay, and shall make an entry thereof in their book.

6.—Any Carter, not then employed, shall be held to accommodate the first person who may offer him employment, under a penalty of twenty shillings; and from the 1st of June until the 1st of December of each year, the Carters shall have their stand on the *Greve*, or in any other place marked out by the Magistrates at a Special Session, under the aforesaid penalty; and if any hired servant incur any of the aforesaid penalties, such penalty shall be paid by the owner of the horse and carriage.

7.—Any load, delivered on St. Paul's Street, shall be delivered, if it is required, in the yard, cellar, or store within the depth of any house situated on the said street, although such yard, cellar, or store may be in any of the streets which run to St. Paul's Street beyond the same, provided that the carriage so loaded can go to such yard, cellar, or shop. The same rate or charge shall be exacted for the carriage of all merchandize or other effects taken from all parts of the city or suburbs and placed at the water's edge. And whereas there have arisen differences concerning the charges to be made for articles of considerable weight, it is ordered that the rate of cartage for such articles that may weigh more than ten hundred weight, and that shall not exceed fifteen hundred weight, shall be charged as two loads; above fifteen hundred weight and not exceeding eighteen, as much as for three loads; above eighteen hundred weight, and not exceeding one ton, as much as for four loads.

POSTSCRIPT.

The following were received too late to be inserted in their proper places.

NEW LIGHTS ON SCATARIE AND ST. PAUL'S ISLANDS,

From late surveys by Capt. Nott, of H. M. Steamer Medea.

The Light House upon Scatarie is placed on the north eastern extreme of the Island, and can be seen from a southward or seaward position, and without interruption from any high land, until the compass bearing becomes to the eastward of N. E. by N. when it will be speedily obscured, and any vessel so placed on that side of the island, is in danger of the rocks of Scatarie, or the southern shores of Cape Breton Island.

From any position to the northward, or in the Gulf of St. Lawrence, the light can be seen while the distance admits, but when it bears to the eastward of S. E. a ship is in danger of the N. E. shores of Cape Breton—therefore, as a present rule, whereby due warning may be obtained, the light house should never be brought to bear to the eastward of N. N. E. or S. E. by S. by compass, nor yet to approach nearer than one and a half to two miles.

There are two light houses on the Island of St. Paul, one on the extreme northern, the other on the extreme southern points of the island, and one of which will be always open until a ship is on the rocks near the centre.

The northern light can be seen to the southward on any bearing, except between N. by E. and E. by N. when it is obscured by the hills to the southward of it.

The southern light can be seen from the northward on any bearing, except between S. S. E. and W. when that is obscured by hills to the northward of it, and, when clear, either light can be seen for six leagues.

The chosen positions of these two light-houses appear to be admirably calculated for the purpose of facilitating the navigation of the St. Lawrence, as one light will be always open, and either can be passed within a mile.

The bearings are only such an approximation as could be obtained without the aid of lights, but they are quite sufficient, if attended to, to guide a ship clear of danger.
