

LOVELL'S GAZETTEER

OF

BRITISH NORTH AMERICA,

TO CONTAIN DESCRIPTIONS OF EVERY

CITY, TOWN, VILLAGE, &c.

IN THE

Dominion of Canada, Newfoundland and Prince Edward Island.

LOVELL'S DIRECTORIES:

A SERIES OF

PROVINCIAL, COUNTY, TOWN,

AND

CITY DIRECTORIES

TO BE PUBLISHED THROUGHOUT THE

Dominion of Canada, Newfoundland and Prince Edward Island.

THE PUBLISHER OF THE DOMINION DIRECTORY avails himself of this opportunity to announce that he has in preparation A GAZETTEER OF THE ST. LAWRENCE AND ATLANTIC PROVINCES OF BRITISH NORTH AMERICA. This important work is intended to supply the ampest information respecting the Cities, Towns and Villages therein. It will be to the people of Canada, Newfoundland and Prince Edward Island, a Manual replete with accurate information touching the great country in which they live, and to the people of other lands it will expose the advantages, commercial, manufacturing and agricultural, and the undeveloped wealth of this portion of the Empire.

The GAZETTEER will be carefully compiled, and the most accurate and authentic information inserted.

Special prominence will be given to the Cities, Towns, and places of historical interest and commercial importance, while villages and hamlets will be briefly and lucidly described.

The Lakes, Rivers, Bays, Capes, Inlets, &c., will receive as full and accurate descriptions as can possibly be obtained.

The Provinces will be inserted as follows: Ontario, Quebec, Nova Scotia, New Brunswick, Newfoundland and Prince Edward Island. The Provinces of British Columbia and Manitoba will also receive due attention.

The Publisher feels confident that this GAZETTEER will be found worthy of an intelligent and liberal patronage, because it will be indispensable to Public, Professional and Business men, and instrumental in inducing a large migration to these shores.

The Work will contain an Appendix giving the Immigrant useful information respecting the Country, the Districts where he may settle, &c.

The GAZETTEER will be printed on fine paper, small 8vo. size, in double columns with fine type, and bound in cloth. It will be kept within the smallest compass consistent with its object, which is to supply all the information necessary, at a price placing it within the reach of every one.

Information suitable for the pages of the above work will be thankfully acknowledged.

JOHN LOVELL.

DOMINION DIRECTORY OFFICE,
Montreal, January, 1871.

THE WANT OF ACCURATE, USEFUL AND INTELLIGIBLE LOCAL DIRECTORIES has been commonly felt in Canada, and only in a less degree by the inhabitants of the neighboring Provinces. Indeed the complaint has become so common, that the Publisher of the DOMINION DIRECTORY has determined to make the experiment, and discover for himself what encouragement may be expected for such books as the commercial public have very generally concurred in asking for. Should the experiment turn out satisfactorily, it is the Publisher's intention to follow it systematically, and periodically, with new and enlarged editions of the same works. He begs further to say that whether such Directories be General in their character, like the Dominion Directory; or Local, like the Provincial Directories; or Municipal, like the County, City or Town Directories, they will in either and in all cases be prepared with the greatest care, constructed on the simplest plan, printed and bound according to a uniform pattern. Moreover, they will be issued at a price that will place them within the convenient reach of every person who has occasion to avail himself of such information as a Directory is intended to supply.

As the Publisher of the DOMINION DIRECTORY is thoroughly acquainted with the modes in which information for such uses should be obtained, and as he has accumulated an immense stock of the requisite materials, and gathered about him a reliable body of men, who by constant employment as agents or artisans, have made themselves practically acquainted with every branch of this department of industry, he is able to offer guarantees of his ability to satisfy a commonly expressed want by printing and publishing accurate, useful and intelligible Directories.

The Publisher has no hesitation in guaranteeing as thorough correctness as it is possible to attain, and respectfully points to the accompanying Directory as an example of the style of workmanship he will study to maintain in the projected series.

Intimation from merchants and gentlemen in localities where the want of a Directory is recognised, would be accepted as a special favor, and acted upon wherever sufficient encouragement is guaranteed to justify the experiment.

JOHN LOVELL.

SCRIBNER'S

PATENT QUALIFYING TUBES,

FOR

Reed Instruments of all kinds,

CAN BE APPLIED TO ANY

CABINET ORGAN OR MELODEON

Now in use, at a moderate cost, rendering the tone more flute-like, and increasing the volume of sound nearly 100 per cent., making the instrument resemble a small-sized pipe organ in quality and power. For further particulars, apply to

PORTABLE SAW MILLS,

That can be taken up and loaded in eight hours, moved any distance, and put in operation again in from one to two days. Practical capacity from six to ten thousand feet per day.

The above Mill is similar to that exhibited by us at the last Provincial Exhibition, in London, Ontario, (see cut on next page,) where it was awarded first prize and diploma. We would also refer to the following parties, who are running the same kind of mill:

S. MANHARD & Co., Brockville; WILLIAM WAY, Wilfred, Ont.; A. FOSTER, JR., Smith's Falls; JOHN WALSH, Port Daniel, Que.; GEO. NASH, Farmersville, Ont.; CHASE & GRIGGS, Sutton Flatts, Que.; CANFIELD & MURRAY, Kingsville, Ont.; THOS. MOWBRAY, Utterson, Muskoka, Ont.; C. E. PETTES, West Brome, P.Q.; R. & C. E. CURRIE, Richmond, Carleton, Co., N.B.

The Emerson's Patent Inserted Tooth Saw!

is fast superseding the old style of solid saw, and the testimony of all who use them is, that they would not return to solid saws again, even if one was presented to them. We have sold fifty to sixty of the American Saw Company's INSERTED TOOTH SAWS! and they have in every instance given perfect satisfaction.

SAW MILLS,

Steel Gates, Soho Friction Set Works for Circular Saw Mills, &c.,

(PATENTED MAY 17, 1870.)

This is an invention intended to so move the Log towards the Saw as to secure a uniform thickness of Lumber, and this it does with greater accuracy than any other known arrangement.

It is very simple, and so constructed that it cannot wear nor break, and is the only perfect Set Motion ever invented.

Canting Machines, Double Edgers, Butting Saws, Swing Saws, Stave Cutters, Gumming Machines, and every kind of Saw Mill Supplies.

SWARTWOUT'S OSCILLATING GANG.

We would respectfully call the attention of all engaged in the manufacture of Lumber to this valuable improvement in Vertical Saw Hangings. By its peculiar construction the Saw, on its downward motion, strikes at the bottom of the log first and continues an even pressing cut until the pitman reaches the forward centre, when the lower end recedes and the top is carried forward by inclined Slides, thus producing an even Rotary Cut. This Gang will carry a heavier feed with less power than any Mill working upon straight lines, and will increase the capacity at least 25 per cent.

SOLE MANUFACTURERS OF A. D. COLE'S SAMSON TURBINE WATER WHEEL

(PATENTED JULY 12, 1870.)

The Best Wheel manufactured on the Continent; will do more work, give more power and better satisfaction, with less water and expense, than any other Wheel, having beaten the Leffel Turbine 35 per cent. on the premises of Tuttle, Date & Rodden, St. Catharines, Sept. 1, 1870, in a side by side trial, using only 550 inches of water while the Leffel used 743 inches. In consequence the Leffel wheel was ordered out and one of our Samson Turbines substituted.

The "Canada" Brick Machine.

Patented 1868.

Special Prize and Silver Medal at Quebec Provincial Exhibition,
HELD AT MONTREAL, P. Q., SEPTEMBER, 1868.

Special Prize and Diploma at Ontario Provincial Exhibition,
HELD AT TORONTO, ONT., OCTOBER, 1870.

The great practical experience of the Manufacturers of the "Canada" Brick Machine justifies them in asserting that it is the most perfect and suitable machine yet introduced into use.

This machine will mould **15,000** bricks per day, with the attendance of one man to put in the clay, one man or smart boy to attend to the moulds, three strong boys to wheel off the bricks and hack them up, and a small boy to sand the pallets.

To make **SLOP BRICKS**, less attendance than the above will be required.

By an alteration in the relative speed of the pinions and crown wheel, it will mould **30,000 BRICKS PER DAY**.

The bricks can be moulded stiff enough to hack up four rows high the same day.

This machine is inexpensive and simple, and is adapted for either steam or horse-power.

If a stone or other obstruction prevents the moulds from moving forward, the machine will not get out of order, but regulates itself.

Provision is made for giving the pressure required for soft or for stiff clay.

The corners are always well filled, and the bricks turned out will all be fit for front work.

NINE of these Machines worked by steam, and **TWO** by horse-power, can be seen in actual operation at the Steam Brick and Drain Tile Manufacturing Establishment of the undersigned, head of Fullum Street, Montreal.

The **CANADA** AUTOMATIC BRICK-MAKING MACHINE is manufactured and for sale by the Patentees.

The Patent Right for Towns, Counties, or Districts, will be sold on application to

INVESTED FUNDS,

UPWARDS OF ONE MILLION TWO HUNDRED THOUSAND POUNDS, STERLING.

Assurers have the choice of two separate Classes of Assurance.

IN CLASS A. THE BONUSES are paid in Money to the Policy-holder himself, commencing AT AN EARLY STAGE OF THE POLICY.

An allocation of Profit in Cash is made *every year* in this class to all Policies of not less than five years' standing at the preceding Annual Balance, and each Policy-holder's share is applied in payment of his next Annual Premium. The Outlay required for the Policies has thus, for many years, been only from 62½ cts. to 75 cts. per \$1 of the Premiums according to standing, and commencing with those due at the end of the sixth year.

CASH PROFITS of more than £375,000 sterling have been distributed in this manner to the Policy-holders during their own lives.

Valuable Provision for his own after life-time by a Cash Payment or Annuity.

For Example, a Policy-holder for £1000, at the age of 25, on his attaining the average period of persons of that age, will, at the rate of Bonus, have had an addition to his Assurance of £1,500, making the Sum Assured £2,500 instead of £1,000.

Or he may then exchange this large Bonus Addition for ONE CASH PAYMENT of about £1,000 to himself.

IN CLASS B. THE BONUSES are unusually LARGE ADDITIONS TO THE SUM ASSURED, and may be exchanged for a MOST IMPORTANT PROVISION IN OLD AGE TO THE Policy-holder himself.

AT THE DIVISION FOR 5th December, 1865, the LARGE BONUS ADDITION of £4 per cent, on the sum Assured, was declared for every premium paid on each participating policy, and payable along with the Sum Assured, provided the Life attain the average expectation of persons at his age of entry. It is evident that at this rate of Bonus the SUM ASSURED will be more than DOUBLED in a comparatively short period.

But the Policy-holder has the option of exchanging these large Bonus Additions, when he reaches an average period of life, for an equivalent in a

Or he may exchange the Bonus Addition for an ANNUITY of about £102 payable during his life.

Such exchange will in no respect affect the Sum assured, which, as well as the right to future Bonuses, will remain intact for the Heirs or other purposes of the Policy-holder.

Under no other system can anything like the same amount of benefits be obtained, whether as regards increase of Sum Assured, or an equivalent in Cash Payment, or Life Annuity.

An ASSURER during the current year in Class B. will receive, at next division, ONE-FIFTH MORE BONUS than later Entrants—The difference being—probably so much as £40 on a £1,000 Policy.

LOVELL'S SERIES OF DIRECTORIES.

Dominion, Provincial, County, City, and Town Directories.

THE want of accurate, reliable and intelligible Local Directories has been commonly felt and generally expressed by all classes in Canada, and only in a less degree by the inhabitants of the neighboring Provinces. Indeed the complaint has become so common, and the requests to remove it so urgent, that the Publisher of the DOMINION DIRECTORY has determined to make the experiment, and discover for himself what encouragement may be expected for such books as the commercial public have very generally concurred in asking for. Should the first experiment turn out satisfactorily, it is the Publisher's intention to follow it systematically, and at stated periods, with new and enlarged editions of the same works. He begs further to say that whether such Directories be general in their character, like the Dominion Directory; or local, like the Provincial Directories; or Municipal, like the County, City or Town Directories, they will in either and all cases be prepared with the greatest care, constructed on the simplest plan, printed in a uniform manner and bound according to a uniform pattern.

As the Publisher of the DOMINION DIRECTORY is thoroughly acquainted with the modes in which information for such uses should be obtained, and as he has accumulated an immense stock of the requisite materials, and gathered about him a reliable body of men, who by constant employment as agents or artisans, have made themselves practically acquainted with every branch of this department of industry, he is able to offer guarantees of his ability to satisfy the commonly expressed want by printing and publishing accurate, reliable and intelligible Directories.

The Publisher has no hesitation in guaranteeing as thorough correctness as it is possible to attain, and respectfully points to the accompanying Directory as an example of the character of the work and of the workmanship he will study to maintain in the projected series. Intimation from merchants and gentlemen in localities where the want of a Directory is recognized, would be accepted as a special favor, and acted upon wherever practicable.

THE FOLLOWING OPINIONS OF THE PRESS

Are a sample of the remarks with which our exchanges from one end of the Dominion to the other greet our weekly issues.

Its artistic excellence places it alongside of the standard illustrated weeklies of the world.—*Montreal Daily Witness*.

An excellent family paper, free from all objectionable matter.—*True Witness*, Montreal.

We have great pleasure in calling attention to the great improvement in the illustrations of the *Canadian Illustrated News*. Mr. Desbarats deserves to be assisted by the Canadian public in his costly enterprise.—*The Globe*, Toronto.

Such a publication should receive the hearty support of every true Canadian.—*Evening Herald and Prototype*, London, Ont.

No Canadian gentleman's library will be complete without this valuable paper.—*Hamilton Evening Times*.

The paper is so well got up that it should be supported and be in every Canadian house.—*Hamilton Evening Journal*.

Its engravings are very fine and its literary department complete.—*Cayuga Sentinel*.

It should command the support of all Canadians.—*The Paris Transcript*.

An illustrated paper fully equal to those of London, Paris, Berlin, or New York.—*The News*, St. John's and Nelsonville.

No Canadian family should be without it.—*Stanstead Journal*.

One of the most beautiful illustrated papers on this Continent.—*Halifax Citizen*.

Compares favourably both in literary and artistic excellence with any of the leading illustrated periodicals of the day.—*Globe*, St. John, N. B.

The merits of this admirable publication ought to, and doubtless will, ere long, secure for it a place in every family of intelligence throughout the Dominion.—*Yarmouth Tribune*.

Considerable ability is displayed both in the literary and artistic portions of the paper.—*The Court Journal*, London, Eng.

The *Canadian Illustrated News* is undoubtedly one of the best artistical papers published in the Colonies which we have received up to this date, and the *tout ensemble* does great credit both to editor and artist, on whom the task of success of so attractive a weekly depends.—*European Mail*, London, Eng.

This excellent weekly periodical now comes to us greatly improved in its style of illustrations. The credit of establishing a weekly newspaper, profusely and regularly illustrated by photographic plates, belongs to Canada. There is no other paper like it in the world that we know of.—*Scientific American*, New York.
