CALLS FOR A DEFINITE REPLY FROM DEVALERA Many Members Of The Meighen Cabinet Resign Office

NOTE IS CONSIDERED AS DEMAND FOR DEFINITE REPLY FROM DE VALERA AND PLAIN STATEMENT THAT WRITING OF NOTES CANNOT BE CONTINUED

Sinn Fein Ireland Is Called Upon to State Immediately Whether Its Demands Upon the British Government Contemplate Separation from Great Britain—Opinion Is Generally Expressed in England that the British Government Has Gone as Far as Possible—There Was Considerable Speculation as to the Nature of De Valera's Reply to British Note.

(Associated Press Despatch)
LONDON, September 9.—Sinn Fein Ireland is called upon to state whether its demands upon the British Government contemplate separation from Great Britain, according to the view of newspapers here.

The text of the reply of the British Cabinet to Eamonn De Valera's latest note, made public last night, was considered as a demand for a definite reply from the Irish Republican leader, and a plain declaration that the writing of notes between Dublin and London cannot be continued.

It was believed that Premier Lloyd George had smoothed the way for an acceptance by Mr. De Valera and his colleagues of the invitation to confer with members of the British Government at Inverness, on September 20th.

The text of the Cabinet's reply to Mr. De Valera was prominently displayed in the papers here today, and the opinion was generally expressed that the Government had gone as far as possible. There was considerable speculation as to the nature of Mr. De Valera's reply to the note.

"It is impossible to say," said the Daily News, "that the present note asks anything whatever of Ireland that is not freely conceded by Australia, Canada and the ruling majority of South Africa. This may not be the basis for an agreement, but it appears monstrous to say it is not the basis for a discussion."

The Daily Chronicle says that in the answer they send to London, Mr. De Valera and his friends must decide "whether they are for or against a settlement."

"They will do well," the newspaper continued, "to clear their minds of any idea that because the Government has preferred the soft answer that turns away wrath, it will yield in any degree on the fundamental issue of unity within the Empire."

DE VALERA DOES NOT DESIRE TO ATTEND THE CONFERENCE

(Associated Press Despatch)
DUBLIN, September 9.—A rumor was current in Sinn Fein circles here today that if plenipotentiaries are appointed to proceed to Inverness to confer with the committee of the British Cabinet, named to deal with the Irish question, Eamonn De Valera, the Republican leader, does not desire to be one of them, being willing to leave the conduct of negotiations with Arthur Griffith, the Sinn Fein foreign minister.

In any case, Mr. Griffith will be the chief figure in the negotiations, once actual business is approached.

Mr. De Valera did not appear at the Mansion House this morning, and was not expected until the afternoon, but Mr. Griffith and Charles Burgess, Sinn Fein Minister of Defence, were early on the scene. It was stated that no special meeting of the Sinn Fein leaders had been summoned to consider Premier Lloyd George's reply, but as these men see each other daily, no particular significance is seen in this.

Desmond Fitzgerald, Sinn Fein Minister of Propaganda, said today he expected no unnecessary delay in the reply to Mr. Lloyd George, and that Robert C. Barton, the Sinn Fein courier, was in readiness to return to Inverness at any moment.

IRISH NEWSPAPERS RECEIVED LATEST NOTE FROM PREMIER LLOYD GEORGE TO DE VALERA FAVORABLY

(Associated Press Despatch)
DUBLIN, Sept. 9.—Irish newspapers received the latest note from Premier Lloyd George to Eamonn De Valera favorably.

The Freeman's Journal said today the note opened the door wider than before, and that the "form of the invitation gets rid of embarrassing conditions and limitations which would have fettered discussion."

The Irish Independent remarked that the original six conditions imposed by Mr. Lloyd George had been either waved or left open for discussion and voluntary arrangements, and it expressed hope that the Inverness conference will be held.

The Irish Times declared: "We assume and hope that the Government's six reservations have been abandoned, but the reply shows they may be discussed."

Roger Sweetman, formerly Sinn Fein member of the British Parliament for Wicklow, who resigned his seat as a protest against physical force being brought against Ireland, writes to the Irish Independent, declaring the Government's offer cannot be finally refused and war renewed without a conference."

HOPE COMPLETE SUCCESS WILL CROWN NEGOTIATIONS

(Associated Press Despatch)
LONDON, Sept. 9.—The World's Conference of Methodists at the outset of this morning's session adopted a resolution declaring the conference hoped that complete success would crown the negotiations between the British Government and the Irish Republicans for a solution of the Irish question.

The resolution said: "This conference, representing almost forty million adherents, is watching with prayerful and deeply solicitous interest the present attempt at a satisfactory and permanent adjustment of Irish affairs, and fervently hope that complete success may crown the negotiations."

The delegates unanimously order

UNEMPLOYED CAUSE MORE DAMAGE.

(Associated Press Despatch)
DUNDEE, Scotland, Sept. 9.—For the third successive night a mob of unemployed engaged in window smashing and a body of special constables had difficulty in dispersing the mob, but small parties continued the campaign of destruction. Scarcely a shop window in some districts was left untouched. The damage amounts to many thousand pounds. Numerous arrests were made.

RECORD CROWD WAS PRESENT AT BROME FAIR

One of the Best Fairs in the History of the Society—Exhibits of a High Class.

(Special to The Record.)
BROME, Que., Sept. 9.—The second day of Brome County Annual Exhibition of 1921 will go down in the history of the association as a banner one. Never has there been such a large crowd assembled on the Fair grounds since organization. The weather was perfect and brought out thousands, who came from far and near. The special trains were crowded, while teams and automobiles could be seen wending their way to the Fair grounds until quite late in the afternoon.

Nearly every available foot of space for parking cars was made use of. Gate receipts were several hundred dollars ahead of the corresponding day last year. As already stated, the exhibits in nearly all classes were exceptionally good, while the attractions were numerous.

High Constable Boisvert and Carl Griggs, collector of Provincial Revenue, were on the grounds and reported everything so far as seen to be conducted according to law. Perhaps an earlier and closer investigation, if reports are to be believed might have revealed a few games that were more than those of mere chance. There was but little drinking noticed, and the police officers were most active to prevent disorder of any kind and W. T. Wilkinson, Inspector C. S. P. C. A., of Montreal was present and watched the usual crowd of "jockeys." One, Alfred Racicot, of Dunham, owner of a poor specimen of horse flesh, went home minus his animal, for out of mercy Mr. Wilkinson destroyed this beast and put an end to its suffering. George Wright Fulford, arrested for being drunk, driving recklessly and abusing horses. Before two local Justice's of the Peace, Messrs Hall and Caldwell, he pleaded guilty and was fined twenty-five dollars and costs, a total of forty-one dollars.

Judging was completed in many departments yesterday morning.

Mr. Ness, Judge on cattle expressed himself as much pleased with the fine lot of animals brought into the ring.

Mr. W. S. Armitage, of Sherbrooke who judged the horses, reports some fine types of both light and heavy horses, and found competition keen in nearly all classes.

The races from day to day are interesting and lovers of this sport, who are many, are getting full value for their time and money. Two events were pulled off yesterday as follows:

350 CLASS.
Silver Queen 1 1 1
Teddy Whitefoot 4 2 2
The Reaper 2 4 4
Lottie C 3 3 3
Best time 2:20 1/4.

218 CLASS.
Baby C 1 1 1
Ruth Law 2 2 2
Mary Pickford 4 3 3
Grace E 3 4 4

OTTAWA, Sept. 9.—Cabinet resignations are proceeding apace but so far Premier Meighen has not announced his reorganized Ministry. A definite announcement is expected within a week or so. Meanwhile it is said that Hon. C. C. Ballantyne has definitely decided to resign.

Hon. C. C. Ballantyne, Minister of Marine and Fisheries, does not deny that his resignation has been offered and accepted.

There will be no official announcement of cabinet changes for a week at least. It is no small task to retire two-thirds of a government and find satisfactory successors. GRAND TRUNK STOCKHOLDERS IN ENGLAND AWAIT A FULL TEXT OF DECISION BEFORE MAKING MOVE

"It Is Inconceivable that Stocks Valued at Thirty-seven Million Pounds Will Be Swept Away and the Holders Receive Nothing. That Would Be Rank Confiscation," States Yorkshire Post in Commenting on Decision of Grand Trunk Arbitration Board.

(Associated Press Despatch.)

LONDON, Sept. 9.—Although press cables from Canada assert that an appeal to the Privy Council will be taken against the judgement of the Grand Trunk Board of Arbitration declaring the common and preference stocks valueless, there is reason to believe that the stockholder here will hesitate about making such an appeal, owing to the expense involved.

It is not known here what authority is behind that statement from Canada that such an appeal will be taken. The stockholders here are doing nothing in the matter until a full text of the decision is received by mail.

Many of the holders of the stocks here are already weary of the judicial proceedings and may balk at the suggestion of further assessment for expense, which would result from an appeal to the Privy Council. Much of the recent speculative buying of the "Trunks" came from Lancashire and Yorkshire.

The Manchester Guardian, in mentioning this, suggests making a reasonable arrangement, if possible, out of court, and hopes that the Canadian Government will see some way to meet the undoubted moral claims of the stockholders in a generous spirit. Otherwise, in the opinion of the Guardian, there is no option but to prosecute an appeal, especially in view of the dissenting judgement of so distinguished a lawyer as expert Taft.

The Yorkshire Post says that what will strike the people as most extraordinary is the wide differences of opinion between Cassels and White, the two Canadians on the one side, and Taft, the most independent member on the other.

"It is inconceivable," says the Post, "that stocks valued at \$37,000,000, will be swept away and the holders receive nothing. That would be rank confiscation."

The stock exchange quotations on Grand Trunk stocks today are purely nominal as yesterday.

EXPECTED SUCH A DECISION.

(Associated Press Despatch.)
WINNIPEG, Sept. 9.—"The award of the Grand Trunk Arbitration Board was just what I expected, in view of the obligations of the Grand Trunk to the Government and its guarantee respecting the Grand Trunk Pacific," was the statement made last night by Senator F. L. Heigue, vice-president of the Banque du Hochelaga, Montreal, who is touring Canada with President Beatty, of the Canadian Pacific Railway.

"I don't think that any other award could be expected by anyone," he continued. "Of course it will be a disappointment to shareholders in England, but I would hope that the Government make an offer of the road to the shareholders if they chose to keep it."

CONSECRATED BISHOP OF SPRINGFIELD

SPRINGFIELD, Mass., Sept. 9.—Right Rev. Thomas M. O'Leary was yesterday consecrated Bishop of Springfield, in succession to the late Bishop Thomas D. Beaver, whose death occurred last October.

TRACK RECORD AT RICHMOND WAS BROKEN

Record crowd in Attendance on Final Day of the Annual Fair at Richmond.

(Special to The Record.)

RICHMOND, Que., Sept. 9.—The attendance at the second day of the Richmond Fair broke all previous records. The day was all that could be desired. From an early hour in the morning cars and teams kept pouring into the town, and by five o'clock the grounds were packed with people. It is estimated that over four thousand were in attendance. Judging of drivers and cattle continued in the morning. Crowds of people passed through the main building all day. At two o'clock the races were called. The result of the three-minute class, purse of \$250, was as follows:

The Great Miss Guy, S. H. Barrie	1 1 1
Membrino Peter, Mrs. C. E. Birs	4 2 2
Micknell	2 3 4
Billiken Brino, A. W. McCabe	3 4 3
Grey Dort Boy, G. Brochu	5 5 5
Time of heats, 2:21 1/4, 2:23, 2:20.	

The Great Miss Guy ran a good race and was a popular win. The grand stand cheered as the winner passed under the wire in the lead in each heat by inches. Syd Barrie, who drove his own horse, received the congratulations of his many friends for the clean and good race he put up. The crowd was proud of the local horse.

The free-for-all, purse \$250, was the centre of interest, this being the first appearance of Mr. J. H. Lane's famous horse Darvester. There was no doubt as to the result, yet all eyes were fixed on the beauty of the track. Darvester won in three heats in an easy manner, breaking the track record in the second heat. Mr. Lane is to be congratulated on being the possessor of such a fine race horse. The result:

Darvester, J. H. Lane	1 1 1
Babe, P. Martin	2 2 2
Midget, E. Martin	3 4 3
Frankie B., J. Pope	4 3 4
Time of heats 2:15 1/4, 2:10 1/4, 2:14 1/4.	

A Serious Accident.
A most unfortunate and regrettable accident took place just before the first race in the three-minute class was started. The lady drivers paraded on the track before the judges, after which the judges of the race track rang the bell for the horses to be in readiness. Lou Morgan, owned by H. R. Cleveland, was on the track, warming up, and collided with one of the lady drivers, who had not left the track. Lou Morgan was thrown and run through with a shaft; receiving such injuries that resulted in his death later in the evening. Lou Morgan was a fine animal, and the owner valued him at a thousand dollars.

In the first heat of the free-for-all the driver of Darvester claimed that a cow was on the track and that he ran into it. Many just and well-founded protests came from the grand stand on account of the poor way in which the seating of the crowd was attended to. There were no ushers and no one apparently in any command. An officer at the entrance sold tickets to all that came until the stand was packed to its utmost capacity. It is nothing short of a miracle that the old stand did not collapse under the weight. The gate man assured those who were so crowded that there would be a new stand next year. People stood in the aisle, obstructing the view, and when asked to move on, politely refused.

There may be two others of the present cabinet remain, but it is doubtful.

LET NO CORN SPOIL AN HOUR

Any Corn Can Be Stopped Now, Any Moment, by a Touch

Science has solved the corn problem. One can now stop a corn ache instantly, and shortly remove the whole corn.

The method is gentle, scientific, sure. A famous chemist invented it. A surgical dressing house of world-wide fame produces it.

It is Blue-jay—the liquid or the plaster. A touch applies it. The pain stops at once. Soon the whole corn, however ancient, loosens and comes out.

It makes harsh treatments unnecessary. It makes painful ridiculous. It makes every corn ache a folly. Your druggist has Blue-jay. Let it end your corn—tonight.

What is a Guarantee--

It is difficult sometimes to convince the buying public that a so called guarantee is not worth the paper it is written on, except it has the backing of a reliable company.

The satisfaction of a customer is the best guarantee any company can give with its goods. The house of H. C. Wilson & Sons, Limited, established 1863, nearly 60 years ago has been devoted entirely to the sales of Pianos, Organs and other Musical Instruments. The increasing business of this old and well known Company is the best guarantee of satisfaction any buyer can wish for, as only Pianos of quality are sold by the Firm. Buy your Piano or Gram-o-phone from us and add another name to our list of satisfied customers.

Cheapness Doesn't Pay

Take your Electrical Wiring and Repairs, for instance. You can get the work done cheaply—too cheaply to make it possible to be satisfactory; or you can get a first-class job at a reasonable price. Patronizing a dependable contractor is the cheapest in the end. There is no "shoddy" in the work, to begin with, and the dependable contractor is here and ready to make good after others have gone. Have the name WIGGETT put on to your Electrical Work, and then know that—not necessarily paying more—the mark of quality and soundness is in the job, with service and dependability following, as the day follows the night.

SAVING YOU MONEY ON A NEW WATCH

AN unreliable watch wastes your time and money. It is a mistake to try to get along with it.

Yet the undependable watch you have is worth something. How much we can't tell until we examine it, but whatever it is worth, we will allow the full amount in exchange for a new one.

This allowance, with the reductions that have been made in prices of Waltham and other watches, make it good judgment to buy a new watch now.

The September meeting of the Orford Women's Institute was held Wednesday at the home of Mrs. Arthur Arbury, eighth range, Orford. The attendance was excellent, one visitor and one new member being present and receiving a cordial welcome.

Mrs. Arthur Mills, the president, was in the chair, and opened the meeting, the usual business routine following. The proceedings of the convention held at the Sherbrooke exhibition was one of the chief topics of conversation, all the members expressing the opinion that the work of the institutes had been furthered by the convention, their importance pointed out fully realized. An excellent paper was read by Mrs. W. J. Armstrong on "Improving the Institutes." Amongst others, the suggestions were made that at the close of the meetings a verse of the hymn, "God Be With You Till We Meet Again," that the meeting open and close promptly, and that some definite work be taken up, possibly along a social service line, all of which met with the approval of the members. It was decided that the Institute send two quartets of milk daily at least until Christmas to the Central School in the city, which is practically a distributing milk station.

Very acceptable refreshments were served by the hostess, who was assisted by her daughter, Mrs. Billings; Mrs. Dean and Miss Alma Dean, of Sherbrooke.

Routine business, including payment of bills, necessary repairs, etc., were disposed of, after which it was decided to arrange for the laying of a cement walk from the Hall to Main Street. A committee was appointed to arrange details, work to begin at once. The annual Harvest Home, always a feature in church life in the autumn, was fully discussed, and plans were made to ensure its success. This has been faithfully done and has added greatly to the attractiveness of the services.

A story has it that coffee was first found in Arabia by Hadji Omar, 650 years ago. Banished and starving, Omar found the berries sustaining and delicious, and hastened back to Mecca to enlighten the world. He was paraded and proclaimed a saint.

THIS story is discounted by cautious historians, but because it may contain some truth, let us offer thanks to Hadji Omar. We certainly owe a debt of gratitude somewhere for the discovery of coffee.

MARRIAGES

NORTON—PACE

Miss Katharyn Norton, of Beebe, was united in marriage on Thursday evening, September 1st, to Dr. Joseph D. Pace, of the General Hospital, Montreal. The bride was gowned in a dress of white satin with pearl trimming, made en train. Her veil was of tulle, cap effect, and caught with sweetheart rosebuds; she carried a shower bouquet of white roses. The ceremony was solemnized in the drawing-room, the single ring service being used. To the strains of Mendelssohn's wedding march, rendered by Miss Edith Tilton, of Waltham, Mass., niece of the bride, Miss Norton entered the room leaning on the arm of her father, where she was met by the groom under an arch of evergreen and goldenrod. Little Margaret Dixon, dressed in pale yellow and bearing the ring on a long stemmed rose, was followed up the aisle by Josephine Wells, in rose pink, and Alice Hazelton, in azure blue, acting as flower girls. The bride was attended by Miss Helen Hazelton in a most attractive gown of pink satin and georgette crepe, and carrying a bouquet of pink roses. Dr. George Little acted as best man. Rev. Fred Matthews, pastor of the Beebe Methodist Church, officiated.

After a brief reception, the wedding party and guests retired to the dining-room, where a buffet luncheon was served. Mrs. Magoon, of Newport, catered, assisted by Misses Margaret and Jessie Candlish, Mae Dance, Mae Squires and Isabel Bullis. The ushers were Misses Maud Akin, Grace Dustin and Blanche Tyler.

The bride's present to the bridesmaid was a string of pearl beads; to the pianist and ushers, pearl pins; flower girls and ring bearer, gold pieces. The groom's present to the best man was a pair of gold cuff links. Many beautiful and useful presents were received by the happy couple.

Amidst showers of rice, they left on their honeymoon, and at its conclusion will be at home in Parsons, Kansas, to their many friends after November 1st.

Mr. and Mrs. C. Patton and Miss F. Rice, of Boston, motored here, and were the guests of Mr. and Mrs.

THE THREE PIECE FROCK

It looks quite like a redingote frock, but in reality it is a combination of trotteur and dinner gown. To the left is a view of it for street wear and on the right, parted from the coat-like top garment, it has become a dinner gown

of unusual charm. Black duvetyn de lain is the material of redingote and lower skirt. Heavy gray crepe mefeor makes the sleeveless bodice. Trimming is of metal beading, gold and green.

NURSERY CLOTHES

For play the young person at the left prefers blue chambray, all rimmed about with scalloped and dotted red and white braid. To the right is an apron of unbleached

muslin artistically worked upon with shirring and a pocket made of a red flower stitched and stemmed with green worsted. The buttons are painted wood.

TO WHAT EXTENT HAS COST OF LIVING DECLINED?

Over in New England the Federal Reserve Agent discovers that the cost of living has declined twenty per cent. He finds that while retail prices have lagged behind wholesale in their downward course, living costs are slightly more than twenty per cent. less than they were a year ago. Most of the reduction has been caused by lower prices for food and clothing, it is stated, the cost of shelter and fuel, lighting and sundries remaining at approximately the highest amount ever reached.

One of the New England papers commenting upon this remark:

"That is a statement of the case which gives hope for further reductions in the cost of living, even if the prices of food and clothing are now to be regarded as stabilized, or perhaps as liable to yield to tendencies to temporary advances. Food and clothing are heavily weighted elements in the cost of living indices, but there are many other factors to be considered. The cost of shelter and fuel bulks large in the household budget. Should they decline in price in proportion to the fall in the price of clothing and foodstuffs there would be a marked diminution of the cost of living taken as a whole. That there will be such declines may be safely assumed but unfortunately they are likely to be long deferred because of the housing situation in the one case and the prevailing conditions in the coal trade in the other. It will require general resumption of building at a reduced level of costs to bring down in substantial measure the cost of shelter. To make possible lowered fuel costs there must be readjustment in the coal business, and that is prevented at this time by wage agreements which will have many months to run.

"But there has already been substantial decline in the cost of living, and it is evident that more may be expected as the months pass. In the meantime, New England industry is picking up. Mr. Curtis puts the case conservatively when he says that 'taken all in all New England has cause to be somewhat optimistic over prospects for fall.' Briefly, it might be said that business is picking up and the cost of living is still going down, although in neither case is there in the process that speed we should all like to observe."

Probably individual readers can figure out whether the New England figures could be applied to the counties north of the border.

AN AMERICAN VIEW OF THE ANGLO-JAPANESE AL- LIANCE.

It has become quite apparent that the Anglo-Japanese alliance is very distasteful to the United States. Commercial rivalry between the Republic and Japan in the Pacific has become very keen. Americans view with alarm Japanese penetration in China and Siberia. Consequently, they disapprove an alliance which has the effect of strengthening Japan.

The Boston Transcript, a serious and conservative journal, discusses the matter at some length and probably fairly well expresses the present American opinion. This paper says:

"The London Times says concerning the role of the British Government at the Washington Conference:

"As an ally of Japan and a close friend of the United States, Great Britain is in a particularly favorable position to express a view that may serve as a wise and fruitful compromise."

"Our esteemed contemporary is in error. As long as Great Britain remains an ally of Japan the United States cannot recognize Great Britain as 'a close friend.' That alliance is disagreeable to the Government and the people of the United States and it is the part of friendship at this moment to make that fact as plain as possible to the Government and people of the British Empire. Unless and until that alliance is dissolved the American people cannot accept as genuine the assurances of friendship that are coming from Britishers of high and low degree today. The sincerity of such assurances is belied by the survival of the Anglo-Japanese alliance.

"Moreover, the Times is also uninformed concerning American public opinion if it assumes that the American people have so soon forgotten the lesson of Versailles. At the Versailles conference, Mr. Lloyd George essayed the role of arbiter between Mr. Wilson and Mr. Clemenceau and the United States and France paid the price. Mr. Lloyd

George essayed the role of arbiter with such advantage to his client—the British Empire—that more than 800,000 square miles of territory were added outright to that empire, and in the newly created supergovernment set up at Geneva six seats were assigned in the assembly to the British Empire—six times as many as any other nation received—and a Britisher was installed for life or good behavior as the executive head of the League. These were only a few of the fruits of Mr. Lloyd George's victory. But from the standpoint of the British Empire they are ample to warrant the assumption by the Times that in the role of arbiter between America and Japan Great Britain would be in a position to influence 'a wise and fruitful compromise.' Wise for the Anglo-Japanese alliance and fruitful to each of its two partners.

"Unlike Japan, America seeks no special position in 'the Far East,' champions no special interests in China, wants no special alliances within or without the Anglo-Japanese alliance. The United States long ago enunciated and England and Japan, among other Powers, adhered to the policy of 'the open door' in China. In company with China, France and Italy, today the United States is asking two members of the Anglo-Japanese alliance to live up to their solemn commitment. This they have not been doing in recent years. For all of the aggrandizing demands upon China which Japan has made, since the Anglo-Japanese alliance was negotiated, have been made with the tacit if not the formal consent of her ally, Great Britain.

"Had the British Government been successful in its effort to bring about a preliminary conference between America, Japan and Great Britain, doubtless the role of arbiter would then and there have been the goal of the British delegation. But the prompt refusal of Secretary Hughes to be drawn into such a parley was in itself a hint that the United States was not courting any special arrangement with Great Britain and Japan in regard to pending Far Eastern and Pacific questions. Doubtless, Mr. Hughes is well aware the Senate of the United States would not ratify any treaty, the American people would not sanction any protocol dealing with the peace of the Pacific which was in effect a special alliance. 'The Open Door' means the open door for France and Italy as well as for Japan, Great Britain and America. And 'the administrative entity and territorial integrity' of China must be as scrupulously respected by Great Britain and Japan as it is by the United States, France and Italy, if the Washington conference is to get far enough even to consider the limitation of armaments.

"To date not even the London Times, friendly as is its attitude toward the United States, appears to understand why the Washington Conference was called or what its true goal is to be. For in the light of an accurate understanding of the why and the wherefore of that Conference our esteemed contemporary would not be advocating the role of arbiter for Great Britain. The United States seeks and will accept no arbiter in the matters to be discussed at the Washington Conference. For that is to be a conference of equals. The sooner this fact is faced upon the other side of the Atlantic the better it will be for all concerned."

DIFFERENCES IN VARIOUS KINDS OF MUSHROOMS

Several Specimens Are Extremely
Deadly—Very Seldom Found
in Dry Weather.

There is a widespread lack of knowledge among the general public concerning the edibility of so many of the common mushrooms growing, except in the very dry weather, in the fields, woods, or in our gardens and lawns.

The common idea of fungi is that the one grown commercially, and which is also found in fields and pastures, is a mushroom, and all others are "toadstools" and, therefore, poisonous. The terms "toadstool" and "mushroom" are synonymous, and mushrooms are classified either as "edible" or as "poisonous." Fortunately, among the hundreds of varieties of mushrooms there are more than four or five poisonous varieties, but as some of the latter resemble somewhat an edible variety, there is danger in mistaking one for the other. All the so-called "tests" whereby one may ascertain whether a mushroom is edible or not, are absolutely worthless, and may be classed as old wives' fables. The only way to know the properties of fungi is by asking someone who is familiar with them, or by studying them one by one as one would take up the study of birds for instance. Unfortunately popular works on fungi are not common, but several reliable works are available to the student who wishes to acquaint himself with the subject, as for instance:

"One Thousand American Fungi," McIlvaine, Bobbs, Merrill Co.; "Mushrooms, Edible and Otherwise," Hard, Ohio Library Co.; "Mushrooms," Atkinson, Henry Holt and Co.; "The Agaricaceae of Michigan," C. H. Kaufmann, Wynkoop, Hallenbeck, Crawford Co.

Practically no mushrooms are to be found during very dry weather, but two of the deadly varieties are likely to be met with after rains—the Fly Agaric and the Death Cup. The first of these is a very conspicuous mushroom, not resembling any other variety in the whole range of mushrooms. The cap is large, from four to six inches, rounded at first, then nearly plane, surface when fresh, slightly viscid. Its color is subject to great variations, ranging from orange-red to yellow or almost white, the yellow color being more common. The margin of cap in mature plants is marked with radiating lines or markings. The surface is covered with thick, angular persistent scales, usually white. These scales are often yellowish and easily removed; flesh white. The gills are free, but reaching the stem. Color white, rarely becoming yellow. Stem four to eight inches long, shining white or pale yellowish, becoming hollow, enlarged at the base into a conspicuous bulb, marked in prominent, concentric, irregular rings. There is a ring or collar on the stem very soft, large, white. The Fly Amanita is easily identified on account of its scaly cap, brilliantly colored; large ring, and bulbous, ringed base. It occurs along roadsides, wood margins and open woods, generally from June till frost.

The other deadly plant, Amanita phalloides or Death Cup, is three-quarter inches broad, commonly

WHAT KINDS OF FOOD TO FEED TO WILD DUCKS

Numerous Kinds of Plants and
Grasses Suitable for This Purpose.

The majority of the plants which are important as sources of food for wild ducks are, as might be expected, those which occur either in water or in marshes. A few plants, however, find a place on the list of which the principal is Barnyard Grass (*Echinochloa crus-galli*). This is an annual species, introduced from Europe, which grows well on waste ground and on the margins of lakes. It is the seed of this plant which is eaten.

Of importance also are the Smartweeds (*Polygonum*) most of which occur on wet soil and have a wide distribution in Canada.

Of the plants which grow typically in marshes, or swamps two produce edible tubers. The Chufa or Nut-grass (*Cyperus esculentus*) extends from New Brunswick to the Great Lakes while the Wapato (*Sagittaria latifolia*) extends across the whole of Canada.

Other important swamp plants are the Bur Reed (*Sparganium eurycarpum*), Bulrush (*Scirpus validus*), Meadow Grass (*Panicum arvense*) and Cord Grass (*Spartina Michauxiana*). The first three occur all over Canada while the last extends from Nova Scotia to Saskatchewan. These and various other species are all important food-plants of wild ducks.

Occupying a foremost place among water plants Wild Rice (*Zizania aquatica*) occurs from New Brunswick to Lake Winnipeg. A full description is given of it in Bulletin 42 Second Series of the Experimental Farms Branch.

Water Celery (*Vallisneria spiralis*) extends from Nova Scotia to the Great Lakes. No less important as Duck foods are the various species of Pondweed (*Potamogeton*) most of which have a wide distribution.

Two species of the Waterlily family, namely, Walter Shield (*Brasenia Schreberi*) which extends from Nova Scotia to Manitoba, and the Yellow Waterlily (*Nuphar advena*) which extends west to the Rocky Mountains are worthy of mention. The seeds only of the second species are of importance.

The Pickerel Weed (*Pontederica cordata*) is native in Eastern Canada only.

Finally, of importance in salt and brackish water are the Tassel-Pondweeds or Widgeon-Grass (*Ruppia*) and Eelgrass (*Zostera marina*) the latter of which occurs on both the Atlantic and Pacific coasts.

The Biological Survey of the United States Department of Agriculture at Washington, D. C., has issued a number of important Bulletins on this subject.

shining white or yellowish, but may be grey or brown, olive or amber. It is viscid when moist, smooth, oval, and finally extended; the margin is even, not marked, flesh white, not objectionable to taste, gills free from the stem, largest at the middle, white. The stem is three-fifth inches long, generally hollow, white. The base of the stem is inserted in a semi-free, white, cup-shaped covering called a volva. It is common occurrence from July to October in woods, groves and along borders of woods. It resembles somewhat the common field mushroom, but a slight examination will disclose in the field mushroom the dark colored gills and the absence of the cup at the base of the stem. A phalloides is the most dangerous of all fungi, and is responsible for most of the deaths resulting from eating mushrooms. Ten to fifteen hours may elapse before symptoms of poisoning may appear. No antidote has been found by which the effect of the poison may be counteracted. A safe rule is to avoid eating all mushrooms having white gills, a ring on the stem and a volva at the base of stem, combined in the same plant.

(Associated Press Despatch.) NEW YORK, Sept. 9.—Three games were won by ninth inning rallies in the Major Leagues yesterday.

The American Philadelphia team defeated the Yankees 6 to 5, by scoring the winning run in the ninth.

The St. Louis Browns sent the winning run across the plate in the ninth against the Chicago Americans.

After he had held the Philadelphia Nationals runless with only three hits for eight innings, Pitcher Oeschger, of the Boston Braves, weakened in the ninth inning of the first game of a double-header the Phillies, scored eight runs and won the game.

Boston won the second game. First baseman Holke, of Boston, hit a double, a triple and two singles in four times at bat in the latter contest.

JAPAN WOULD BECOME LEADER OF THE NATIONS

Claim Move Would Reduce Britain and America to Extremely Distressing Position.

(Associated Press Despatch.)

TOKIO, Sept. 9.—Japan would become the leading nation in the world, the champion of weaker peoples, while the United States and Great Britain would drop back to secondary positions in the International League, if Tokyo's representatives would enter the forthcoming International Conference at Washington prepared to free Korea and Formosa, withdraw from Manchuria and Siberia, and cease pressure on China, according to the Oriental Economist.

The newspaper laughs at the dismay with which the Government and people of Japan have received Washington's proposals. It declares if Japan is prepared to abandon her imperialism, she may confound her critics and reap lasting prestige.

The paper argues: "Suppose that Japan abandoned Manchuria and Shanghai, discontinued pressure to which China is believed to be subjected at the hands of Japan, and granted freedom to the Koreans and Formosans, then both Britain and America would be reduced to an extremely distressing position."

"With Japan alone acting on so liberal a principle, it would be impossible for them to maintain their moral position in the world. In that case, China and other weak nations would bow to Japan in confidence. India, Persia, Egypt, Haiti and other possessions of Great Britain would rise in a body, demanding freedom for themselves, as Korea and Formosa had gained the same from Japan."

"In this way Japan's position would rise from the lowest to the highest pitch, causing a contrary change to the positions of Britain, America and others. In this way only can Japan be saved."

ANOTHER NEW SEA MONSTER DISCOVERED

Said to Be Fully Twenty Feet in Length and to Weigh Over a Ton.

(Associated Press Despatch.)

BOSTON, Mass., Sept. 9.—Capt. W. T. Holmes, of the steamer Calvin Austin, on arrival here from New York, reports sighting off Scituate, a sea monster of unknown species. His officers and the members of the crew confirm his statement.

Fearing, ridicule, Captain Holmes was reluctant to discuss the matter, but after being urged he stated that he sighted what at first appeared to be a seaplane, lying motionless on the water, about a ship's length ahead. As the steamer approached the object was seen to move and then a ball shaped head shot out of the water and turned in the direction of the on-coming vessel.

Then it was that the Captain and pilot got a full view of the stranger. Its eyes were like large glass balls, while protruding from the neck were two fins, or flappers. The entire body of the huge monster was in view. The Captain said it was fully twenty feet in length and must have weighed a ton.

The pilot and the quarter master, who also saw the monster, described it as even larger than the Captain's estimate.

FAR EASTERN REPUBLIC HAS TAKEN STAND

Will Not Assume Responsibility for Decisions Reached Unless Represented.

(Associated Press Despatch.)

PEKING, Sept. 9.—Citizens of the far eastern republic consider it indispensable that they be given unofficial representation at the conference on limitation of armaments, which will be held in Washington late this autumn.

M. Yourin, foreign minister of the Republic, has sent a note to Washington, declaring that the geographical position of the country entitles it to participation in the conference.

The Chita Government will not assume responsibility for decisions reached at a meeting where it is not represented, and will do everything possible to oppose violation of the rights of the nation, the note asserts.

Solution of questions concerning Siberia is possibly only through participation in the conference by representatives of the Republic, whose voice, M. Yourin declares, must be heard.

CANADA'S NET DEBT DECLINED BY \$12,831,576

The Monthly Statement Shows that the Net Debt of the Dominion Is Now \$2,344,949,085.

OTTAWA, Sept. 9.—Canada's net debt declined by \$12,831,576 in the month of August. The monthly statement of the finance department shows that the net debt of the Dominion now stands at \$2,344,949,085, as compared with \$2,357,880,661 at the end of July. A decline of approximately six million dollars in ordinary expenditure and of two millions in expenditure on capital account as well as increased income tax collections are factors in the decrease in the net debt.

Figures covering the whole period of the fiscal year up to the end of August show, however, that Canada's debt has increased by \$90,465,652 as compared with the previous year.

SERIOUS FIRE BROKE OUT AT QUEEN CITY

Fire Did Damage Estimated at \$75,000—Large Number of Cattle Burned.

(Associated Press Despatch)
TORONTO, Sept. 9.—The Western Cattle Market, a civic institution, seven and one-half acres in extent, was wiped out by fire this morning. The vast network of cattle pens, runways and sheds, and piles of lumber in an adjoining lumber yard, gave the fire plenty of material to feed upon, with the result that it was one of the most spectacular fires Toronto has ever witnessed.

A few hundred hogs, sheep and cattle and several hundred horses were burned before they could be removed to a place of safety, so rapidly did the fire spread.

The Toronto municipal abattoir, adjoining the cattle market, was not damaged by the fire, and the immense works of the Massey-Harris Company likewise escaped any damage, through a change in the wind.

No estimate of the loss is available, but the insurance on the cattle market amounts to some \$75,000.

FAIR WAS VERY SUCCESSFUL AT INVERNESS

Good Exhibits in All Classes—Partial List of Prize Winners.

INVERNESS, Sept. 9.—The Meagantic Agricultural Society, division A, scored a great success at their annual fair on Tuesday, September 6th, at their large exhibition grounds, just outside the town limits. The morning dawned unfavorably and rain continued to fall until nearly noon, so that weather conditions detained a large number from attending this well-established annual event. Nevertheless, crowds thronged to the fair grounds from all parts of the county, as well as a number of visitors from a distance.

The exhibition of horses and cattle was well up to the standard of former years, and won many tributes of praise from the interested spectators. There were more entries for sheep and the exhibits in this class showed a satisfactory improvement over former years. The exhibits in the main building presented a most pleasing and attractive appearance and continued to draw many admirers of the works of art throughout the afternoon. The fancy work was of a superior quality, while the pastry, canning, etc., were excellent.

The midway was active with the various devices, and the more speculative visitors devoted their time to these fascinating attractions.

The various lunch counters and booths were kept busily employed during the day.

The society was fortunate in securing the services of the Plessisville Band, which was most generous in contributing delightful music to their appreciative audience.

McCullough at the noon hour, and after the exhibition helpful and inspiring addresses were made by Mr. Lapierre, M.L.A., Thetford Mines; Mr. L. SECOND DAY OF SCOTSTOWN FAIR GREAT SUCCESS

Largest Attendance on Record and Ideal Weather for Compton County Annual Event.

(Special to The Record.)

SCOTSTOWN, Que., Sept. 9.—The second day of the Scotstown Fair was up to expectations in every way, the weather being a special inducement to many to "go a-fairing," and resulted in the largest attendance ever recorded for the old reliable C. A. S., No. 2.

Visitors from all parts of the county, and from many distant places were on the grounds bright and early, and every one entered heartily into the holiday spirit. The midway was in full swing all day, and though a good deal of money was spent nothing but friendliness was evident, and good order prevailed throughout the two days' event.

The parade of prize winning stock was a feature of yesterday afternoon. The showing of horses and cattle won most favorable comment, the matched pairs of working horses and registered cattle being especially good, while the matched drivers, shown by F. A. Wilder, was one of the finest turnouts on the grounds.

NEW LOCAL BAND

The Scotstown Band, which has been recently organized, furnished music during the two days, and received the attention and commendation it deserved. A unique feature of this new local band, perhaps without precedent in the townships, is the presence of lady members, who have in order to provide their home town with a good band, put their shoulders to the wheel, and taken cornets, clarinet, saxophones, etc., into their hands, and this week proved their efficiency, both in regard to musical ability and endurance. This was the band's first public appearance, and the leader, Mr. J. I. Wyatt, and the members one and all are to be complimented upon their efforts to provide Scotstown with a band of its own.

Mr. A. B. Hunt, of Bury, paid the band a compliment, strengthening his expressions of good will by a donation of \$10 as a souvenir of their debut, and during the day's

COPPER PLANT IS LOCATED AT EASTMAN

Company Purchases Quite a Large Amount of Property—Plans for Future.

EASTMAN, QUE., Sept. 9.—The Canadian-American Copper Refining Company has purchased from R. Rogers his farm consisting of about five hundred acres for \$7,500. The company has men already at work clearing up the mill site. They expect to have their mines, mill and smelter in operation in about two years' time. The company has been prospecting and diamond drilling a number of properties for the last four years and has purchased outright a number of copper properties. The company has a Dominion charter for five million dollars and

programme, several band musicians from outside places visited the "fraternity," and enjoyed the opportunity of helping out in some of the musical numbers. Every one was highly pleased with the music, and the band feel assured of continued support in their new project.

Last evening the social side of the season's event was augmented by a dance being given in the town hall, and another pleasant feature was the happy meeting of many old friends, who took this opportunity to visit the thriving town of Scotstown to renew acquaintances as well as to "take in" the annual fair.

On Wednesday afternoon a baseball match was played by the East Angus and Scotstown teams, in which the former scored a victory of 5 to 9 and on Thursday, Lennoxville and the home team played with the visiting team winning. Score 9 to 10. Both matches were watched by an interesting crowd.

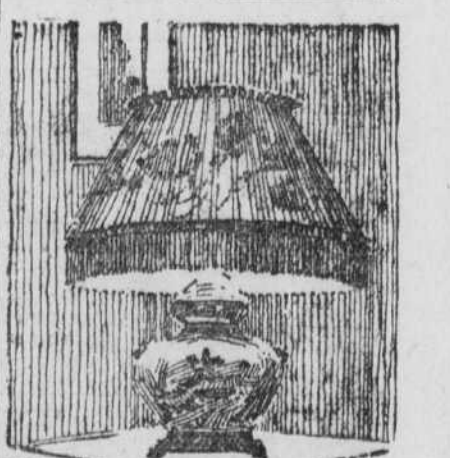

At a director's meeting last evening it was decided that the fast mare, "Gay Patrice" owned by Mr. McCaffery, of Cookshire, which dropped dead in the second heat on Wednesday had won first money, and it was accordingly awarded.

In yesterday's horse race, J. Chateline, came first, Wilson, second, and Labonte, third. All three horses were from East Angus.

is backed up by American capital, and men with experience in copper mining and smelting. The manager of the company, Mr. W. F. Wheeler intends to build the most up-to-date refining and smelting plant in America, and will encourage the development of copper properties in Eastern Canada. The refining and smelting plant will be enlarged as production of copper increases.
