## A VERY FAIR BREEZE FOR THE FINAL CUP RACE

### Two Quite Serious Auto Accidents Over The Week-End

#### Resolute Is The Favorite In Final Race--A Brisk Breeze Is Anticipated

Although the Wind Had Dropped Somewhat Toward Noon, the Weathr Experts Looked for a Fairly Good Wind for What will Likely Prove to be the Deciding Race of the Series for the Historic America's Cup--The Cup Defender is a Three to one Favorite Over the Shamrock in the Betting Today--There is a Possibility That the Shamrock and Resolute May Meet in Another Series of Races.

**S**ANDY HOOK, N. J., July 26.—A brisk "jacky order" breeze, something about twelve knots, came out of the northwest early today, ironed out the surface of the sea tumbled up by Saturday's storm, and provided fine wind conditions for the final contest between the Shamrock and the American defender Resolute for the America's Cup. With the wind holding from the northwest, a run of 15 miles seaward and a thrash to windward home was indicated.

As the morning wore on, the wind began to haul into the east, and the Shamrock, after rounding the Sandy Hook Spit, took her tow and headed for Coney Island. Jersey weather sharps figured that the wind might get into the southward by noon, the time set for the start, which would give the yachts a beat to windward.

After testing the wind off Sandy Hook Point in order to determine what topsail to carry, Captain Burton signalled for a tow again. The wind was probably not more than seven or eight knots in strength from the east by this time, and prospects for a fast race were not so bright. Resolute dropped her moorings at 10.15 and sailed away toward the Point. A tugboat steamed along, awaiting a call for a tow. The Resolute took a tow, and both yachts sent aloft big club topsails as they moved out toward the starting line.

#### RESOLUTE IS FAVORITE IN THE BETTING

**NEW YORK**, July 26.—Betting this morning on the final race for the America's Cup is 3 to 1 on Resolute, with few takers. Even money is offered that the defender will finish first, regardless of her time allowance.

#### CLAIMS THAT CUP RACES HAVE BEEN LITTLE MORE THAN TRIAL RACES FOR SIR THOMAS LIPTON'S YACHT

**SANDY HOOK**, N. J., July 26.—Charles E. Nicholson, designer of the Shamrock, still insists that the present series have been little more than trial races for the Shamrock. He thinks that in all future America's Cup races, the contenders should be manned entirely by a crew from the public they represent. The Resolute's crew is said to be made up largely of Scandinavian sailors. Should Sir Thomas fail today to win the race, and lose the cup, he suggests that the Irish baronet enter the challenger in a series of races, with the Resolute and Vanitie alone, for cups offered by local yacht clubs. It has also been suggested that all three yachts be sailed by professional skippers. Sir Thomas is said to have spent approximately \$1,000,000 in his latest attempt to lift the cup and yachting experts assert the Shamrock IV, in the interest of the yacht designing, should have further tests of competition with the Resolute and other sloops of United States design. As a member of the New York Yacht Club, Sir Thomas can enter the Shamrock in the club's races.

#### THE SHAMROCK WAS FIRST ACROSS THE LINE TODAY

**SANDY HOOK**, N. J., July 26.—Shamrock IV, the big green sloop, with which Sir Thomas Lipton hopes today to lift the America's Cup, sped first across the line today at the start of the fifth International Yacht race, which will decide the 1920 series.

#### IS ACQUITTED ON A CHARGE OF MURDER

**Case of Lieut. Semmens, of Vancouver, Is Completed.**

**LONDON**, July 26.—Edwin Charles Semmens, formerly a lieutenant in the Canadian Engineers and belonging to Vancouver, B.C., has been acquitted of the murder of his wife, whom he shot in a Paddington Hotel, seemingly through jealousy. Medical evidence indicated that the prisoner was on the border of momentary instability.

#### LIQUOR CARRIED OFF BY CROWD AT WINDSOR

**Freight Car Supposed to Contain Shingles Really Held Liquor.**

**WINDSOR, ONT.**, July 26.—As a result of the discovery by an employee of the East Terminal Railway—a line which provides inter-switching facilities to the trunk lines operating into Windsor, that a freight car standing on a siding, supposed to contain shingles, really held liquor, a raid was made on the car on Saturday by a large crowd, which came to the scene in automobiles, rigs and on foot and carried off four hundred of the five hundred and forty-five cases in the car before the police arrived. Another car similarly marked is now under police guard while efforts are being directed to finding the consignee.

Mackenzie King in the western provinces have not been arranged, it is said that the tour of the opposition leader will occupy fully two months time of his departure from Ottawa until his return to the capital. If the present preliminary plans are adhered to, Mr. King will go through to the coast with but little delay and do most of his speech making on the return trip. Practically all the larger cities and towns will be covered before the tour terminates, about the middle of November. Subsequently Mr. King expects to do some speaking in the Eastern Provinces.

#### Exasperated At The Outrages, Soldiers And Policemen Turned Out And Burned Houses Of The Leading Sinn Feiners

**Two Officers Were Killed in One of the Raids at Newport, Tipperary, on Saturday Night—Sinn Fein Leader Describes Reports Regarding Settlement With Sinn Feiners an Invention—Death List at Belfast Now Totals Seventeen.**

**DUBLIN**, July 26.—At Newport, Tipperary, on Saturday night, a gang of men sheared the hair from a girl because she was keeping company with a policeman. Exasperated at the outrage, soldiers and police turned out and burned the houses of all the principal Sinn Feiners, causing them to fly for their lives. Two coastguard stations in the Bear Haven district were raided yesterday. In one of the raids, at Ballygarvene, Chief Officer Shewin and petty officer Brown were killed. Arthur Griffith, the Sinn Fein leader, describes as an invention reports that authoritative attempts have been made to negotiate with Sinn Feiners for a settlement.

#### BOLD RAIDS ARE MADE TO GET LIQUOR

**Farmers Are Held Up by Bandits and Their Cellars Ransacked.**

**WINDSOR, ONT.**, July 26.—Despite all efforts made to check rum-running and uphold the law prevailing on the border, a startling series of violence has developed and for a second time in twenty-four hours armed bands made a raid early Saturday morning on the home of a Sandwich Township farmer and carried away liquor after threatening death to any one who interfered. The first attack was made at dawn on Friday morning, when five bandits in a powerful automobile attacked the home of Albert Milochie, but after an exchange of shots with Milochie and his son were driven off before the Provincial police, who had been sent for, arrived.

On the second occasion an attack was made by seven bandits who drove up to the home of Eli Gerard, in a high-powered car just as he and his two hired men were getting ready to go to market, and held them up at the point of revolvers, while they ransacked Gerard's cellar and carried away a barrel of whiskey and a case of gin. In spite of the guns Gerard attempted to defend his liquor and was badly beaten by the thugs. Later with his head swathed in bandages, Gerard came into Windsor and reported the outrage to the police.

#### TWO MEN BADLY INJURED AND OTHER OCCUPANTS OF CAR HURT IN ACCIDENT

**Car Turned Turtle While Five Men Were Driving on Government Road Saturday Noon—Mr. Murphy Was Victim of Second Accident—One Man Was Thrown Clear of Car.**

**UTO** accidents are becoming almost every-day affairs, but each one has its peculiar tragedy, while the damage to bodies and cars is often a serious matter. Saturday, which by the way seems a popular day for accidents of many kinds, was an unlucky one for a party of five men, who went out for a spin about noon, on the government road. The occupants of the car were Mr. Normand, of Alexander street, driver, Messrs. E. Hazleton, R. A. Peterson, A. Aldeback and T. Murphy, all employees of the Fairbanks Company.

Mr. Murphy, who had met with an accident a few weeks ago, and had just come out of the hospital, was being given an outing by Mr. Normand, three other friends joining them. While on the government road, a little beyond Lennoxville, something went wrong with the gears and the driver bent over to look for the trouble. The wheel turned suddenly, and in a flash the car had turned turtle into the ditch, Mr. Normand receiving a fractured rib, Mr. Murphy a broken arm, Messrs. Aldeback and Peterson a bad shaking up, while Mr. Hazleton was thrown clear of the car, which was badly damaged.

Help was soon procured and the injured men were taken to the home of Mr. E. A. Cote nearby, where every kindness was extended to them. Lord's motor ambulance removed the two badly injured men to the Sherbrooke Hospital, and Dr. George Hume conveyed the other three in his car, Mr. Murphy remaining at the hospital which he had so recently left, and Mr. Normand being removed to his home after receiving medical attendance.

TANLAC IS WONDERFUL SAYS QUEBEC WOMAN

Three Years of Indigestion and Other Troubles Overcome and She Feels Fresh as a Daisy Now, Declares Mrs. Paradis.

"I can't begin to express my gratitude for all the good Tanlac has done me, and I just feel that I ought to tell my experience with the medicine for the benefit of others," said Mrs. Maria Paradis, of Limolion, Quebec, recently.

"For three years I suffered terribly from indigestion and got into a very weak and run-down condition. I had no desire for food and even the smell of cooking would nauseate me. I couldn't eat a thing without suffering severe pains in the pit of my stomach and my liver also was badly out of order. I generally woke up in the mornings with a fearful headache and had such spells of dizziness that I had to hold on to the

furniture to save myself from falling. I just felt so tired out and weary all the time that I could not do the housework and at times had such a sinking sensation that I thought my hour had come.

"But the way Tanlac overcame my troubles and built me up was wonderful. I now have a splendid appetite and can eat a hearty meal without being troubled with pains in the stomach or gas. All signs of dizziness have disappeared and I sleep so soundly at night that I get up in the mornings feeling as fresh as a daisy. I am so much stronger that I can get through my housework without any trouble and can honestly say that I never felt better in my life. I have recommended Tanlac to many of my personal friends and am glad of this opportunity of telling everybody what a splendid medicine it is."

The Tanlac is sold in Sherbrooke by Griffiths' Drug Store and A. E. Dufferin under the personal direction of a special Tanlac representative. (Adv.)

now-a-days of many berry-picking parties. The raspberry season is heralded with joy by the youngsters, who take advantage of it to earn pocket money, while to older and more practical ones it means a lucrative two weeks. In spite of Saturday's rain, yesterday found hundreds of berry-pickers in the fields, one of the popular local places being the Hale property on the north side of the city, with the hill-sides of East Sherbrooke a close second. Men, women and children were to be seen in the early morning hours, wending their way to the berry fields, which presented a busy scene during the day. Several have remarked that the presence of little children in the big fields and woody sections appears more or less dangerous, but an accident is seldom reported. "Getting turned round" is a common occurrence, but eventually the lost one regain their geographical bearings and the twilight finds everyone back in town while the residents have many opportunities to buy the luscious fruit.

#### TODAY IS THE FESTIVAL OF STE. ANNE.

Today, July 26th, is the Festival of Ste. Anne, who, according to tradition, was the mother of the Blessed Virgin Mary. She was the wife of St. Joachim, and does not appear to have been mentioned until the fourth century, while she was not invoked till the seventh century. Legend says that her body was brought from Palestine to Constantinople in the year 710, but many churches claim her relics, and in the Catholic Church is regarded with great honor. Many shrines have been erected in her name, that at Ste. Anne de Beaurue near Quebec, in Canada, perhaps being one of the best known, and most remarkable. During half the year pilgrims proceed to Ste. Anne where there is a great church, and a shrine, a stairway with steps to be ascended on their knees by the faithful, and relics of the saint, which are exposed, while many wonderful miracles and marvellous cures have been recorded. The observance of the day this year is more than usually important and marked by elaborate ceremonies which began yesterday. Today, solemn Pontifical Mass was celebrated this morning. His Eminence Cardinal Bezin being present with many other distinguished prelates. There was a picturesque procession, a special blessing of the sick and afflicted, and Benediction of the Blessed Sacrament.

The little town is crowded with pilgrims from all over Canada and every part of the United States, among them being hundreds of invalids hoping for relief from their bodily ills.

#### MR. HERALY PASSES AWAY.

The death occurred at his home on Berri street, Montreal, last week of Mr. J. Francois Heraly, at one time a resident of Sherbrooke, at the age of sixty-four years. Mr. Heraly was born in Namur, Belgium and was a musician by nature and training. He was thoroughly familiar with almost every known instrument, but he was an especially fine performer upon the clarinet and the saxophone. He was the founder and director of the St. Joseph Harmony, at Ste. Valerie, France, and before coming to Canada, where he lived twenty years, was in Algeria, where his artistic tastes found scope. As director of the Harmony band in Sherbrooke, Professor Heraly was successful in bringing that musical organization to a high state of perfection. He married Miss Marie Ida Campbell, sister of Mr. F. Campbell, of this city, and later removed to Montreal, where he continued his musical career. Professor Heraly's recitals in conjunction with his wife, who was also a talented musician, were well known. The funeral of Professor Heraly, whose death is much regretted, took place at the parish church of St. Louis de France, and the interment was at Cote des Neiges' cemetery.

#### DELIVERED HIS FAREWELL SERMON.

Yesterday, St. James' Day, Holy Communion was celebrated at St. Peter's church at 8 o'clock. Rev. E. C. Russell officiated at both services, assisted in the evening by Rev. O. Glyn Lloyd, a good congregation being present. Rev. Mr. Russell, who is leaving Sherbrooke for another charge, delivered his farewell sermon, in part as follows, taking for his text, "For as many as are led by the spirit of God, they are the sons of God." Rom. 8-14. "God's hand is the leading power in every life. When we follow His lead all goes well but when we like restless children that we are, lose our hold upon God, we stray from the path and are very soon lost in the great maze of life. "Every good thought comes from God, woe to us if we stifle them, blessed are we if we follow them. Our minds are like gardens designed for beautiful flowers but which through carelessness may be overrun with weeds. "Every good impulse comes from God. Like the sun radiating sunshine so God is forever radiating all that is kind and sweet and good. "The desire to make others happy. The desire to serve rather than be served. The desire to forgive and be forgiven. The desire to root out hate and let love be the motive power in our life. "The realization that God as a Father is leading us ought to certainly be more comforting and strengthening. It dispels loneliness. It makes us feel our independence on a higher, stronger, nobler power than ourselves. It gives us the confidence that at the end of the trail a Father not a Judge waits for us who understands all about us and will deal with us in love and justice. "And so tonight after a pleasant association of three years in which I have received every consideration from you good people and from my friend and loved companion the rector, the Rev. Mr. Bigg, our ways part. God has a good programme for you. God has a programme for me. God has a programme for this parish. "In the end of the day when our part in the programme of life is finished, we are all going to meet again. We will be able to sit down by the side of the gurgling brooks of life and review the way that we have come and rejoice that through all the ups and downs of the way the

### 'BEST' WON GOLF MATCH BY A FAIR MARGIN

#### Defeated the "Doctors and Bankers" Over Local Course in Contest on Saturday.

Notwithstanding the fact that they "put one over" on their opponents by signing up two of the leading lady golfers to lineup with them, the "Bankers and Doctors" went down to defeat before the "Best" in the annual club friendly match staged on the course of the St. Francis Golf Club on Saturday afternoon, the final reading of the score-board being twenty-five points to sixteen. Although the weather was rather favorable for golf early in the afternoon, a heavy downpour of rain caught the players during the course of the battle, and made good golf rather difficult. The details of the match counting the "three-point" system, one point for the first nine holes, one point for the second nine holes and a point for the match, are as follows:

Jim McCrea won the spoon at the local gun club shoot on Saturday afternoon, his score of twenty-four giving him high gun and the silverware.

Bill Southwood came back in the Trophy event and showed that he was there, his twenty-three winning this event handsly.

Bob Newton and Jim McCrea were tied for first place in the third event, a fifteen bird sweepstake, with fifteen apiece. At this stage of the game Jim was going very strong, Bob and Steve Newton divided the money in even number four with fifteen apiece.

After Bob Newton got going he only lost one bird out of forty-five shot at. The scores were:

INDIANS HAVE SMALL MARGIN ON YANKEES

Cleveland Won the Final Game of the Series Against New York.

NEW YORK, July 26.—Brooklyn continues to lead the race in the National League despite a little slump last week. The Robins lead, however, was not cut down to any extent because Cincinnati, the runner-up team, lost three games during the week.

The New York Giants had a successful week in the West, and for a day occupied fourth place. The Giants with Chicago and St. Louis are having a nip and tuck race for the honor of bringing up the rear of the first session, although being within striking distance of Pittsburgh, which occupies third place.

The close race in the National League may be noted from the fact that only about a hundred points separate the first six clubs.

New York and Cleveland are furnishing plenty of excitement in their battle for the leadership of the American League. The Indians took the lead early in May and were displaced for a day by the Yankees the week of July 4, and again for a similar period last week.

They regained first place by defeating Huggins' men Saturday. Both teams won their games yesterday.

Speaker's team is still in bad shape for lack of good pitching, while New York is winning games consistently by heavy batting. Chicago maintains its place behind the leaders. A similar situation to that in the National League exists with three clubs—Washington, St. Louis, and Boston—fighting for fourth place.

Detroit and Philadelphia have little chance to improve their positions, although the Mackmen last week won a majority of their games for the second time this season.

Chicago bunched hits yesterday and won from Philadelphia in the final game of the series.

The Giants won the odd game of the five game series from the Reds yesterday by hitting safely. The veteran left hander Sallee was knocked out of the box in the sixth inning.

Powell's single to centre in the ninth inning, with the bases full and two out, gave Boston two runs and a victory over St. Louis here yesterday in the deciding game of a series of five.

SHAMROCK GOT AWAY TO GOOD START TODAY

Passed Over the Starting Line Almost a Minute Ahead of the Resolute.

(Associated Press Despatch)

SANDY HOOK, N. J., July 26.—Starting on the first fifteen mile leg of her thirty mile course, a run south by west half west out to sea, Shamrock passed over the starting line at the Ambrose Channel Lightship at 12:30:29, official time, and her rival followed at 12:31:25, after the starting signal had been sounded at 12:30.

Shortly after noon the regatta committee signalled the following course: A fifteen mile run from the Ambrose Channel Lightship south by west half west, with a fifteen mile beat back to the lightship.

At 12:15 the preparatory whistle was blown for a start at 12:30. The breeze freshened a bit as the time for the start approached. The Shamrock took in her baby jib top-sail and both sloops sent up big jibs in steps and then worked in and about the lightship waiting for the starting whistle.

The yachts reached westward along the line, with the Resolute to windward. Then they stood back off the lightship. Captain Burton held his ship along the course evidently trying to work in behind the Resolute, but skipper Adams skipped by the challenger.

The warning whistle was blown at 12:25. Crossing the starting line about a minute ahead of the Resolute, the Shamrock broke out her big reaching jibs and the Resolute followed suit. Both yachts set spinnaker booms to starboard.

The Shamrock hauled on her wind and headed to the westward in an effort to get by the Resolute, which was to weather and killing the challenger's wind. Once clear Captain Burton evidently planned to wear ships and lay his course for the mark. The Resolute, however, clung close to the Shamrock, which lost ground by the manoeuvre.

At 12:37 the two skippers were still fighting their light line battle off the course. Finally the challenger headed away slowly for the mark, then hauled her wind again and stood inshore.

At noon there was a four knot breeze at the lightship from the east northeast, making it difficult to lay a course in either direction without placing the luring buoys to near the Jersey or Long Island shores.

While waiting for the start, Shamrock sailed within fifty yards of the steam yacht Victoria, whose port rail was lined with guests of Sir Thomas Lipton. Led by the Irish baronet, all joined in the three cheers for the green boat.

The match still continued and the skippers got far off their course each fighting to gain the advantage of position in the run down before the wind. They seemed to maintain about an even sailing speed.

At 12:45 the sloops were moving very slowly, with the Shamrock still out ahead. She had failed, however, to gain since the start. The yachts were nearly two miles to the westward of the course.

Neither skipper cared to give way and held on their course inshore. After the sloops had clung together as if locked, the challenger at 12:52 began to swing on her course, with the defender still to weather, preparing to kill his wind once he got on his true course for the mark boat. Apparently Captain Burton could not get clear with the Shamrock and he resumed the luffing match in a fight for the wind.

Shamrock Tried to Get Clear. The yachts held their course inshore, Shamrock trying to get clear and Resolute doggedly tried to hold her advantage. The big canvasses flapped at times in the puffy breeze and until the wind strengthened they had to see how the racers could finish within the six hour time limit, especially as the long luffing match inshore left them virtually as far from the outer mark as when they crossed the line.

The two skippers were still fighting it out at 1:10, when they were within five miles of the Highlands. They could continue inshore about three miles before striking shoal water.

At 1:15 when the yachts had passed the Scotland Lightship, the dark outline of a new wind could be seen to the southwest, far down the Jersey coast. Shamrock had increased her lead slightly, but both yachts were moving very slowly. In order to gain every slight advantage, Shamrock's crew sat along the lee rail with their legs hanging overboard in order that the big racer might get closer to her best sailing line.

Resolute In The Lead. At 1:35 the yachts were nearly five miles off their course and within three miles of the beach. At 1:41 the sloops finally gybed over and stood along a southerly course. Shamrock was clear of any wind interference by Resolute. When the cup contenders finally gybed, shore observers estimated that the green sloop was leading the defender by not more than 200 yards, although observers on the official press boat had the sloops 450 yards apart. It seemed as if Captain Burton had carried his boat too far inshore and that Resolute had cut Shamrock's original lead in half. Indeed to shore observers it seemed doubtful if Shamrock was on more than even terms with the defender. At 1:50 Resolute passed Shamrock on the way to the outer mark and was holding a better breeze. At 1:55 with the sloops reaching down the Jersey shore, Resolute was about 60 yards ahead and a hundred yards to windward.

THE INDUSTRIAL SHARES RALLIED ON WALL STREET

(Associated Press Despatch) NEW YORK, July 26 (Wall Street Noon).—Industrial shares rallied from their early setback, especially steel and equipment but any advantage in that quarter was forfeited when the shorts uncovered fresh elements of weakness. The recent selling of the cheaper motors and oils made further progress.

United States Steel was comparatively firm, probably in expectation of a favorable quarterly statement to be issued after the close of tomorrow's session.

Exchange in London was barely steady, but call money opened at eight per cent, compared with last week's final quotations of nine per cent.

A SOFTER TREND ON THE MONTREAL EXCHANGE

(Associated Press Despatch) MONTREAL, July 26.—The local stock exchange opened the week's trading this morning with a somewhat softer trend. Atlantic Sugar which has held the public's attention for the past ten days or so, was the leader, while Spanish Preferred ran a close second. Sugar, both common and preferred, weakened slightly during the first half hour. The Spanish issues were about steady. Brompton softened over the week end. Laurentide and Abitibi were fractionally changed only. Other issues were quiet.

SHARP SETBACKS IN WHEAT PRICES RECORDED

(Associated Press Despatch) CHICAGO, July 26.—Sharp setbacks in the value of wheat took place today, largely as result of Federal reserve advice indicating that black rust would not cause any large impairment of yield in the spring crop. Opening prices, which ranged from three cents to four cents lower, with December \$2.51 to \$2.52, and March \$2.50 to \$2.50, were followed by material further breaks.

Excellent weather conditions and liberal receipts had a bearish effect on corn. After opening one to two and a quarter cents lower, including September at \$1.49 1/2 to \$1.50 1/2, and December \$1.34 1/2 to \$1.35, the market continued to weaken.

Ons sympathized with the weakness of corn. Initial quotations were 1-3 cents to 3-4 cents down, and a decided further sag followed. Lower prices on hogs and grain brought about a general decline in provisions.

STERLING EXCHANGE STEADY NEW YORK, July 26.—Sterling exchange steady. Demand 3.78 3/4; cables \$3.79 1/4. Canadian dollars 88.

Police at Chicago Make Arrest in Connection with Murder Case.

(Associated Press Despatch) CHICAGO, July 26.—Roy Millan, twenty-nine years old, said by the police to answer the description of Eugene Leroy, wanted by the Detroit police as the alleged slayer of the woman whose mutilated body was found in a trunk shipped from there to New York, was arrested last night in a local hotel.

FEARS ATTEMPT ON HIS LIFE.

(Associated Press Despatch) BIRMINGHAM, ALA., July 26.—Expressing fear that E. Leroy, whom he named in his statement to the police here in connection with the investigation of the Detroit-New York trunk murder mystery, might take vengeance on him, A. A. Tatum, a linotype operator of Birmingham, continued to remain at police headquarters here last night. No charge has been placed against Tatum, and although he has been at liberty to leave the headquarters, he has remained there since relating his story Saturday afternoon.

FEARS BODY MAY BE THAT OF HER DAUGHTER.

MOUTRIE, GA., July 26.—Mrs. J. C. Butler, of Sale City, near here, yesterday telegraphed New York police for a description of the body of the young woman found there in a trunk shipped from Detroit. Mrs. Butler said here telegram was actuated by a belief that the woman may have been her daughter. The description of the dead woman as contained in press despatches, Mrs. Butler said, corresponds closely to that of her daughter, who she asserted, left Valdosta early in June, and has not been heard from since.

(Associated Press Despatch) WASHINGTON, July 26.—At a reception given last night by Eamonn De Valera in honor of Archbishop Mannix, of Melbourne, Australia, the Irish "president" said he believed the Irish would be willing to make peace with Great Britain on certain terms. The despatch adds that representatives of the repatriation committee are searching Germany for books stolen from Louvain during the war.

(Associated Press Despatch) OTTAWA, July 26.—Official advice received at Ottawa indicate that the wheat requirements of France this autumn will approximate at least thirty-six million bushels. The demand in other countries, apart from Great Britain, will also be considerable and prices are expected to reach a higher level than last year, when the chief purchasers abroad were the Allied Governments. There will be considerable purchasing by overseas Governments this year, but they will not co-operate to the same extent in buying.

NEGROES GIVE JACK JOHNSON WELCOME HOME

Two Thousand Negroes at Depot to Greet the Ex-Heavyweight Champion.

(Associated Press Despatch) CHICAGO, July 26.—Two thousand negroes were at the depot yesterday to welcome Jack Johnson back to Chicago after a voluntary exile of eight years, a fugitive from justice in foreign lands, but "L'il Arthur," idol of the South Side, failed to appear. Federal officers removed Johnson from the train at Joliet and hurried him to the jail there when they learned the size of the welcoming throng. When the train reached Chicago, police reserves were forced to beat the crowd back with clubs to clear a passage for Lucille Cameron Johnson, wife of the former pugilist, who appeared, wearing a bright red hat, a blue serge suit, and clasping a Mexican hairless dog to her bosom. Policemen led Mrs. Johnson and her eight suitcases into a brace of taxicabs and assisted her out of the crowd.

FIRE CHIEFS HAVE ARGUMENT OF THEIR OWN

Chief Russell and Chief Kenlon, of New York, Fail to Agree.

(Associated Press Despatch) TORONTO, July 26.—A rift in the lute has occurred between Fire Chief Kenlon, of New York City, and Fire Chief Russell, of Toronto, on the eve of the forty-eighth international convention of the International Association of Fire Chiefs in this city, and late last night Chief Kenlon, who is president of the Association, announced his intention to return to New York today. The trouble is due to a difference of opinion between the two chiefs as to whether Archbishop McNeil, of the Roman Catholic Diocese of Toronto, or Rev. Canon H. J. Jay, of the Anglican Church here, should open the annual service for deceased members of the Association.

EARLY SETTLEMENT AT EAST BROUGHTON RECALLED

The march of time has completely changed the population of East Broughton, Beauce County. This was one of the earliest settled townships of the counties south of the St. Lawrence, and was peopled with immigrants from the north of Ireland, from England and one family from Scotland.

The Watsons and Halls came from England and the Rhinehards, hoppers, Gillanders, Raycrofts, Leisters, Warks, Johnsons, Stewarts, McKees, from the north of Ireland, and Murdoch Cameron from Scotland. The people came from the Old Country between 1820 and 1830, landing at Quebec and travelling to the government built road, one family following another family of their acquaintance as is the way in all migrations.

William Hall was probably one of the very earliest settlers and was a Grand Seigneur owning large tracts of land which he rented on the Seigneur plan.

This community at one time had seventy families and had two churches, a Presbyterian and an Episcopal, and one school which, during the winter time, had as many as seventy scholars.

The lone Scotchman, Murdoch Cameron, made his "bros" in the heel of his shoe when on a day's trip to the grist mill to have his grain ground, or a three days' trip to the city of Quebec to sell his produce, and gratefully returned thanks that he had the material to make "bros" and the shoe in which to make it.

"Bonhomme" Rhinehardt, when he had his crop planted in the spring, walked the fifty miles to Quebec to work in the shipyards until haying time, and when Saturday night came and he received his pay, he would shoulder a canteen of flour (112 pounds) and walk the fifty miles home, arriving some time Sunday morning, and after sleeping a while would walk back again and be on hand for his work on Monday morning.

"Bonhomme" John Gillanders had the nearly all the public offices, being at different times, Mayor, Captain of Militia, school teacher, Sunday School teacher, and elder in the church, and a very public spirited man. An incident is told of his encounter with a "ghost" in the burying ground. Reliable witnesses had seen a white, shadowy form moving in the cemetery on moonlight nights, and sure enough, when John Gillanders was passing there on a moonlight night riding on his old white mare, "Nellie," the "ghost" was plainly visible. Tying his old nag to a tree, he first devoutly knelt and commended himself to the duty and entered the graveyard, and the "ghost" proved to be a mass of golden rod swaying in the breeze and reflecting the moonlight in a rather startling way.

Tragedy and pathos come to light in the case of the venerable, white bearded John Hopper, when his two growing sons were suddenly stricken with some unknown contagious disease and died together. Their bodies were placed in the sheep house and alone he kept his nightly vigil over them and mourned as did David for his lost Absalom, and unassisted, he placed the two bodies in their coffins and, with an ox as the means of transportation started for Quebec to commit to Mother earth the remains of what he had thought to be the prop of his declining days.

Of this once flourishing community, only one English speaking family, James Fraser, remains. The places once occupied by school and churches are now plowed fields. Only the grave-yard bears a mute witness of the passing of the English speaking people. This has been neglected and growing up to brush for many years, until, through the activity of Thomas Hopper and Edward Gillanders, grandsons of the original settlers, a fund has been collected from the scattered families and the old burying ground on the hill has been cleaned, a wire fence with an iron gate, has been put around the lot. The location stands on the top of a hill with three roads leading away from it, and is a place of much natural beauty.

Standing in this old cemetery one can look down on the smoke stacks, at a distance, of five asbestos mines in operation, but not one of these old settlers or their descendants realized anything from the wealth of asbestos which was beneath their feet. The same may be said of the vast amount of lumber which they burnt in clearing their farms, which, if they owned today, would make them wealthy.

The following have contributed to the cemetery fund in memory of their forefathers and the place of their birth: John Fraser, Leeds; Thomas Hopper, Leeds; Edward Gillanders,

FRUIT CROPS SUFFER FROM SEVERE STORM

Two Men Met Death During Storm at St. Catharines, Ont.

(Associated Press Despatch) ST. CATHARINES, Ont., July 26.—The electric storm of Friday evening was the severest that has visited St. Catharines ever since the tornado of 1902, and caused the death of two men, Edward Canavan, aged thirty-one and Edward Wilkerson, a lock tender on the Welland Canal. Canavan was warning passers-by not to touch a dangling live electric wire when he accidentally touched it himself and was electrocuted. Wilkerson was on his way for a pail of water and was blown into the Welland Canal and drowned. The body was recovered. It is believed that many thousands of dollars worth of damage has been done to grain, fruit and vegetable crops in the Niagara district.

IRISH LABOR CONFERENCE IS DISCUSSED

Sir Horace Plunkett Gives His View of the Situation.

(Associated Press Despatch) LONDON, July 26.—Sir Horace Plunkett, writing to the Times, on the subject of labor's Irish conference with Premier Lloyd George, says that the British people must be reminded of two reasons why the Sinn Fein peace maker, asked for by the Premier, is "not on the Bridge between two extremes." The first reason, says the writer, is, that until recently anyone putting himself in the position of peace-maker between the government and the Sinn Fein would have been summarily jailed without charge or trial and secondly, because the Irish people have lost all faith in the promises of the British Government. Sir Horace Plunkett said before the "Irish tragedy is wantonly deepened by the rejection of the minister's offer," it would be well if the British people ponder these two things carefully. Referring to the labor leader, J. S. Thomas, Sir Horace points out that, speaking for the British people, Mr. Thomas would at least be heard with respect.

GERMAN GUNS ARE GIVEN FOR WAR TROPHIES

Sherbrooke and Lennoxville Have Received Guns, and Other Trophies Are Expected.

Towns and villages which have made applications for German guns are now receiving their consignments. The conditions, which the Department of Militia laid upon this donation, and which was to be repaid to, was that the application for these must be made by the Municipal Councils, accompanied by the assurance that the trophies would be cared for.

It is presumed that all towns and villages have complied with these conditions, and have received or will receive trophies of the war. Lennoxville has received a big gun, which is to be seen on the Town Hall grounds, where it awaits the erection of the memorial monument in the square. A gun for Sherbrooke has been unloaded, and is now in charge of the Parks Committee, who will attend to its erection in Strathcona Square.

No doubt the Department of Militia will send further donations of trophies as the size of the municipality would naturally demand a good consignment.

UNDERNEATH the coat of dust that covers your car, hides a radiant brilliance, that a cleaning and a polishing with O-Cedar will restore to its glistening newness.

Remember how proud you were of your car's appearance the day you bought it. You will be equally proud of it after a little rub with O-Cedar Polish, and delighted to notice that the hard, dry brilliancy does not collect dust easily.
