BETTER THAN MEDICINE!
Sharp, bracing, healthy weather! Just the weather for a glorious spin in the country in the morning, if you have the courage, in the evening, if you have the disposition. Freshens you up wonderfully; gives tone to the system; and is worth about ten hogsheads of medicine.

MAKES THE HANDS RED!
What a glow it puts into the cheeks! Makes the hands red, though, and thick, and puts a million little stinging needles into them. For the weather is sharp and cold. Every gentleman feels it a real comfort to have his hands comfortably encased in gloves.

We try to keep every department up to the highest standard of excellence. Upon the glove department we have bestowed the greatest care. In this line an inferior grade of goods would simply be fatal. Gentlemen have come to this department for years with the greatest confidence. We know their tastes, and cater for them. They get the size they want. The color they want. The close fit that encases the hand with firmness. No trouble. Such variety that there can't be trouble. No time lost in searching for what you want. The goods are just before you, in the sizes and shades and makes that suit you, because the glove business is our trade.

Ask to see our 85 cent glove. R. J. Tooke, 177 St. James street.

AN ENTHUSIASTIC CROWD.
There was a large crowd outside the hall and the greatest enthusiasm was displayed. The trial at Tipperary having been adjourned until Friday, Messrs. Dillon, O'Brien, Sheehy, Harrison and Condon returned to Dublin last night. They were met at the station by a great crowd and escorted to Mr. Dillon's residence. In response to repeated demands Mr. Dillon made a brief address. He said he and his associates would be no party to parading the Irish people before the world as a nation of beggars. The people ought not to be driven to beg when there was food enough in the country. Mr. O'Brien praised the generosity of the Irish-Americans and spoke of the importance of yesterday's conference as a parliament of the whole Irish race.

SPAIN AND THE MCKINLEY TARIFF.
LONDON, October 7.—The Standard's Madrid correspondent says:—The Spanish Minister at Washington has been instructed to sound the American Government in regard to a reciprocity treaty to improve relations between America and the Spanish West Indies in 1892. The Minister is also instructed to protest against the effects of the McKinley bill on the trade of the Indies. Public opinion in Spain favors reciprocity.

MAJOR'S INVECTIVE.
Mr. O'Connor inveighed against the "Unionist syndicate" working against the Penson and other tenants as a conspiracy extending from the first Lord of the Treasury to the miserable loafer who does the actual work. The Nationalists, he said, appealed to Irishmen throughout the world by generous assistance to betray and defeat the hopes of the enemies of Ireland and to show that if the purpose of the Exchequer is broad and deep it is not so broad and deep as the purses of the friends of Ireland.

THE MONTAGNY MURDERER.
The case of Morin, the condemned Montagny murderer, came before the Court of Appeals here to-day on the writ of error. The Hon. F. Langlois (in the absence of Mr. F. X. Lemieux) and Mr. Choquette, M.P., appearing for the prisoner, and Mr. Chas. Fitzpatrick, who acted as Crown prosecutor when Morin was first tried, representing the Crown. After argument, the Court rejected the writ point by point, and the prisoner was remanded to the prison. On the second and principal point, namely, that the Crown had improperly used its right of prerogative challenge, that a juror had been ordered to stand aside a second time without cause, and that the defence was not allowed to explain to the jury the difference between murder and manslaughter, the counsel on both sides were heard at much length, the Court finally taking the matter *en deliberé* and the Chief Justice promising to render judgment on Wednesday morning. Should the decision be against the prisoner, he will be taken back to Montagny to be hanged on a day to be fixed by the Court. On the other hand, should it be in his favor, a new trial will be ordered.

SHORT ON SEAL SKINS.
VICTORIA, B.C., Oct. 5.—All but three of the sealing fleet have returned to port and their winter quarters. The others are expected soon. All the schooners report unusually rough and boisterous weather in Behring Sea. For fourteen days they were unable to lower their boats for the purpose of hunting seals. In consequence of this unusually rough weather only half a catch has been made, and prices for seal skins have advanced accordingly. As soon as the catch is definitely reported a further heavy advance in the price of seal skins is authoritatively predicted.

WEATHER REPORT.
METEOROLOGICAL OFFICE, TORONTO, Oct. 6, 12.15 p.m.
A depression from the south-west is passing over the Lake districts and has caused a general rainfall over the greater portion of Ontario. Showers have also fallen in Nova Scotia and light sleet in the Gulf. It is fair and cool in the North-West. Minimum and maximum temperatures:—Edmonton, 35-41; Q.A.P., 34-41; Winnipeg, 35-41; Port Arthur, 44-50; Toronto, 51-55; Kingston, 40-52; Montreal, 55-64; Quebec, 55-64; Lakes, 45-54. Probabilities for the next 24 hours:—Lakes, north to north-west, wind, followed by clearing, not much change in temperature. Upper St. Lawrence, north-east to north winds, partly cloudy, not much change in temperature. Lower St. Lawrence and Gulf, north-east to north winds, fair, stationary or a little lower temperature. Maritime, winds from east to north, fair, followed by rain, mostly in southern portion.

PARNELL'S DILEMMA.
LONDON, Oct. 7.—The Chronicle asserts that the absence of Mr. Parnell from the conference at Dublin indicates not only a disagreement with his colleagues on the plan of campaign, but, what is far more important, his inability to propound any tangible scheme for the permanent relief of the congested districts of Ireland.

IMPERIAL PARLIAMENT.
LONDON, October 7.—Parliament will re-assemble on November 25th.

THE NATIONALIST CONVENTION.
MR. MCCARTHY'S SPEECH.
DUBLIN, Oct. 7.—Sixty-four members attended the National Convention yesterday in the Mansion House. A crowd watched the arrivals, cheering all the prominent Nationalists. The convention sat in private for an hour and a half and adjourned to the city hall. The latter was so cramped that several members of Parliament were obliged to stand. Mr. McCarthy, in a speech, referred to the trial in Tipperary as a grotesque. Mr. Parnell, he said, although absent, was in active co-operation with what they did. He studied and sanctioned all the resolutions. Mr. Sexton had come to Ireland to attend the convention, but the death of his mother had compelled him to be absent. In spite of these absences the party were full of confidence which would not give comfort to some of their opponents (cheers). There was no difference of opinion among them from the oldest to the youngest; and if they met under the pressure of difficulties they met also under conditions entitled to give them confidence and inspiration. They had faith in the unconquerable Irish people, whom ages of despotic power had not subdued, and they were not likely to be greatly intimidated by the sham Cromwellism of the present day. They had faith in Irishmen abroad and in the great liberal democracy of England. They had faith in their great leaders, Parnell, Gladstone and Morley, and the prospect ahead was full of growing light (loud cheers).

YATES' GOSSIP BY CABLE.
THE QUEEN.
NEW YORK, Oct. 7.—Mr. Yates cables to the Tribune from London as follows: The date of the Queen's departure from Balmoral will depend entirely upon the arrangements for the meeting of Parliament, which will be shortly held. The Queen will arrive at Windsor three or four days before the opening of the session in order to have an opportunity of conferring with Lord Salisbury and also for the purpose of holding council for the Speech. The Queen will stay at Windsor as usual, until within a week of Christmas and the Court is then to move to Osborne until the middle of February.

THE PRINCE OF WALES.
The Prince of Wales only remained in London for about four and twenty hours on his way from Scotland to Austria, but he contrived to pay a visit to the Lyceum Theatre on Friday evening to witness "Ravenswood." The Prince of Wales will not remain abroad more than three weeks and his only engagements are visits to Count Festetics at Keszthely, Hungary, and to Baron Hirsch, at St. Joann, Moravia, where the Duc de Chartres arrived on Friday.

AT VICHY.
Even the omniscient Figaro did not disclose the presence of the Princess Maude of Wales at the baths of Vichy, although she has been staying there several weeks, so efficiently was her incognito maintained. The Princess, who is much better for her course of Vichy waters, will proceed this week to Scotland.

NEWMAN'S MEMOIRS.
Toward the end of this month Longman's will publish, in two octavo volumes, Cardinal Newman's letters and correspondence during his life in the English Church. The papers were given by him some time ago to Miss Ann Morley to be selected and arranged for publication. Cardinal Newman had unbought confidence in Miss Morley, not merely owing to their family friendship, but also on account of the admirable manner in which she edited the very interesting letters of her famous brother, Canon J. B. Morley. The first volume of this book will contain a brief autobiographical memoir which Cardinal Newman gave Miss Morley with the letters.

POLICEMEN KILLED.
ST. LOUIS, Mo., Oct. 7.—A row occurred last night in a negro dive near Eleventh street and Lucas avenue. The place was full of negroes and they were quarrelling among themselves. Officers undertook to restore peace by arresting some of the noisy ones, when immediately the quarrel assumed the proportions of a riot. A platoon of police put in an appearance and cleared the streets, but not before officer Brady lay dead from a pistol shot and officer Gaffney was bleeding in the gutter from several knife wounds which will prove fatal. One negro shot and cut both officers, but in the confusion he escaped positive identification. Twelve negroes are now behind the bars and one of them is certainly the murderer.

PART THIRD.—THE REDEMPTION.

CHAPTER XLVIII.—(Continued.)

"Oh, it is intolerable! I was resolved to take for coldness on their part is, I am sure, anxiety for you. Come general, you are not just. You complain, because they love you too much."

"I complain, because I suffer," said the marshal, in an agony of excitement. "I alone know my sufferings."

They must indeed be grievous, general," said Dagobert, carried further than he would otherwise have gone by his attachment for the orphans, "since those who love you feel them so cruelly."

"What, sir! more reproaches?"

"Yes, general, reproaches," cried Dagobert. "Your children have the right to complain of you, since you accuse them so unjustly."

"Sir," said the marshal, scarcely able to contain himself, "this is enough—this is too much!"

"Oh yes! it is enough," replied Dagobert with rising emotion. "Why defend unfortunate children, who can only love and submit? Why defend them against your unhappy blindness?"

The marshal started with anger and impatience, but then replied with a forced calmness: "I need not remember all that I owe you—and I will not forget it, say what you will."

"But general," cried Dagobert, "why will you not let me fetch your children?"

"Do you not see, that this scene is killing me?" cried the exasperated marshal. "Do you not understand, that I will not have my children witness what I suffer? A father's grief has its dignity, sir; and you ought to feel for and respect it."

"Respect it? no—not when it is founded on injustice!"

"Enough, sir—enough!"

"And not content with tormenting yourself," cried Dagobert, unable any longer to control his feelings, "do you know what you will do? You will make your children die of sorrow. Was it for this, that I brought them to you from the depths of Siberia?"

"More reproaches!"

"Yes; for the worst ingratitude towards me, is to make your children unhappy."

"Leave the room sir!" cried the marshal, quite beside himself, and so terrible with rage and grief, that Dagobert, regretting that he had gone so far, resumed: "I was wrong, general. I have perhaps been wanting in respect to you—forgive me—but—"

"I forgive you—only leave me!" said the marshal, hardly restraining himself.

"One word, general—"

"I entreat you to leave me—I ask it as a service—is that enough?" said the marshal, with renewed efforts to control the violence of his emotions.

A deadly paleness succeeded to the high color, which during this painful scene had inflamed the cheeks of the marshal. Alarmed at this system, Dagobert redoubled his entreaties. "I implore you, general," said he in an agitated voice, "to permit me for one moment—"

"Since you will have it so, sir, I must be the one to leave," said the marshal, making a step towards the door.

These words were said in such a manner, that Dagobert could no longer resist. He hung his head in despair, looked for a moment in silent supplication at the marshal, and then, as the latter seemed yielding to a new movement of rage, the soldier slowly quitted the room.

A few minutes had scarcely elapsed since the departure of Dagobert, when the marshal who, after a long and gloomy silence, had repeatedly drawn near to his daughters' apartment with a mixture of hesitation and anguish suddenly made a violent effort, wiped the cold sweat from his brow, and entered the chamber in which Rose and Blanche had taken refuge.

CHILDREN'S CORNER.

MOTHER'S RULES.

Hang your hat on the staple,
Was dear mother's rule,
And then 'twill be handy
When going to school.

A place for each thing,
And each thing in its place:
You can go in the dark
And each article trace.

Whatever is worth doing
Is worth doing well;
Take time for your sewing,
Your work will excel.

Be quiet and steady,
Haste only makes waste;
Steps hurriedly taken
Must needs be retraced.

A bad habit cured
Is a good one begun;
The beginning make right,
And your work is half done.

What you should do to-day
You must never postpone;
Delay steals your moments,
And makes you a drone.

Never say, "I cannot,"
But "I'll try, try again";
Let this be at all times
Your cheerful refrain.

Be content with your lot;
Be bright as the sun;
Be kind and be true,
All wickedness shun.

Love God and your neighbor,
The Golden Rule keep;
Walk daily with Jesus,
And in His love sleep.

THE "I WILLS" OF SCRIPTURE.

COMPILED BY MRS. E. H. RICHES.

Tuesday, October 7.

ALL THINGS POSSIBLE TO GOD.

I will make the wilderness a pool of water, and the dry land springs of water.—Isaiah xlii. 18.

He turneth the wilderness into a standing water, and dry ground into water springs.—Psalms civ. 35.

You CAN TELL NOTHING about the good you are doing. You cannot estimate results. An old preacher held a meeting for four weeks, and only one tow-headed boy was converted. The meeting was thought to be a failure. But that boy became one of the great men of the church.—Bishop Matthew Simpson.

MONTREAL JUNCTION.

Building Lots for Sale.

The sales of Lots in this rising suburb have been so rapid as to surpass the expectations of all, and all are unanimous in saying that as a residential suburb Montreal Junction stands pre-eminent.

A considerable number of new contracts have been given for residences to be erected before winter.

Parties who have not yet seen the Junction should call on us at once. One of us will accompany them to the ground at any time.

One only requires to see it to be convinced of its superiority in every respect.

Fare by the month is less than 3 cents a trip, and 2 cents a trip by the year.

All prices will be advanced at the end of this week.

Call on us for particulars.

CONSERVATIVE INCONSISTENCY.

According to the Government Insurance returns over two millions and three quarters were collected last year for life insurance premiums by American companies in Canada. What does this show? That Canadians, a very large number of Conservatives included, are purchasing life insurance from a foreign country, thus causing the exchange to run continuously against this country to that enormous extent. Why should this be, when first class home institutions like

THE CONFEDERATION LIFE ASSOCIATION,

can furnish quite as good an average for ten to fifteen percent less money? And why perpetrate such an enormous inconsistency as to advocate the production of all classes of home industries and get patronage a foreign country, even against self-interest, for an ungrudging commodity of such vital importance to the welfare of the country. The McKinley Bill might teach Canadians a lesson on this point!

Full particulars of the various terms of Insurance of THE CONFEDERATION LIFE ASSOCIATION may be had at the office, 300 DUNDAS STREET, E. WALKER, City Agents.

THE HEEL-TAP.

Did you ever see a good old-fashioned nigger-dance, as it is or used to be performed on the Southern plantations? If not, you have missed a thrill of enjoyment such as Tullochgorum itself cannot impart.

Perhaps we are too sedate nowadays. It is not altogether our fault. Our conventional garb is partly to blame. Think of darning to jump—in a silk hat! And imagine the possibility of toe-and-heel-tapping with your feet in the murder-and-mutilation machines worn by most Chinawomen and many Canadians!

Why, there are things sold for shoes that you could hardly do the goose-step in, and would fall to pieces with an explosion if you had the audacity to "turn around" with the activity of an unimpeded dorkie.

People don't always remember this fact; it is not necessary to buy shoddy when you want cheap shoes. At A. M. Featherston's the excellent lasting quality of the cheap shoes astonishes those who have been constantly disappointed elsewhere, and who have almost given up the hope of finding good shoes at low prices.

THE REPLY REPLIED TO.

Referring to the plea filed by the city to the petition of Mr. Lepine alleging that the water tax was not due, in which plea the City Attorney states that the demand of payment for the 19th of September is a mere formality, Mr. Bellbrunner writes to *Le Monde*, saying: "It is shameful for an administration to use its power to frighten and threaten the weak and the poor; it is cruel to refuse to hear their complaints for four years, and it is cynical to answer when they demand justice—you are right and what we have done was only a joke, simply a useless formality."

THE WOOD IS UNDERNEATH.

Mr. St. George, when asked why the new wooden pavement on St. Catherine street is so muddy, replied that it is owing to the dirty streets leading into that thoroughfare, as well as to the coating of gravel which has to be placed over a wooden roadway when it is laid. The gravel obtainable in the vicinity is not, he says, what it should be, powdering up into mud too readily. He has ordered the road to be cleaned.

The Daily Witness.

TUESDAY, OCTOBER 7, 1890.

IT IS STATED by the New York papers that the Louisiana lottery people talk of attempting to evade the provisions of the new lottery law by publishing a paper for advertising purposes in Canada. The originators of the idea appear to be in blisful ignorance of the fact that such a paper would be as illegal in Canada as in the United States and that the postal authorities of the latter would still have full power to prohibit its being carried through the mails.

TEN THOUSAND DOLLARS is too large a bonus to give to an exhibition company without a proviso that the city shall have some control of the exhibition next year. Alderman Rainville's motion to this end was timely. Montreal's exhibition to be useful must be elevating in the proper sense of that word. It will not prove elevating in this sense to the grounds furnished with liquor booths; nor is it anything but degrading to compel people to pass through a colony of wheels of fortune and other gambling places in reaching the exhibition. Care must be taken to keep the exhibition morally, as well as industrially, as far as possible above the level of those that have been held here hitherto. Montreal must not advance a cent to anything with debasing tendencies.

THE NEW YORK "WORLD" is publishing the opinions of various prominent persons regarding the effect of the McKinley Tariff on the people most affected by it. Among these opinions few are more to the point than that of the millionaire Jay Gould. He said: "I can't see that the new tariff of itself will be a disadvantage to the country. If it increases the cost of some articles, people will simply use less of them. If the tariff on wool makes clothing cost more a person will get along with one suit where he would otherwise have two." A great many American farmers have for some time past found it difficult to get even one good suit, and Mr. Gould does not say how these are to get along when clothing becomes dearer. Evidently a good many American citizens will, in future, be in a worse position to resist the effects of winter's cold or a visitation of lagrippe should it make another tour of the country. A millionaire can get along comfortably with ninety-nine suits instead of a hundred, but a farmer finds it less easy to go without his only suit. It is all very well for millionaires to be philosophical when being stripped of a suit of clothes, but the poor man, who is in danger of going bare, would freeze if he sat down to philosophy.

THE WHEEL GOES SLOWLY.

Business has not been good in Canada this year, as everyone knows, and the record of the failures for the nine months, which has just been published by Messrs. Dun, Wiman & Co., and which shows a large increase over those of the corresponding periods of last year and the preceding one, will surprise no one. The following table gives the figures for each province:

	1888.	1889.	1890.
Ontario	716	680	704
Quebec	329	434	448
New Brunswick	82	45	63
Nova Scotia	21	7	8
Prince Edward Island	5	6	7
British Columbia	13	25	59
Manitoba	43	13	40

The increase in the number of the failures was not, however, as great as the increase in the aggregate of the liabilities, as will be seen from the following table:

	1888.	1889.	1890.
Ontario	\$5,619,118	\$4,459,757	\$4,622,319
Quebec	\$3,660,474	\$3,916,981	\$7,235,284
New Brunswick	638,491	258,508	912,481
Nova Scotia	999,208	388,638	417,274
P.E. Island	114,278	43,129	49,693
British Columbia	57,649	141,609	137,323
Manitoba	439,855	223,612	371,432

The average liabilities this year so far amounted to ten thousand dollars against nine thousand in 1888 and seven thousand seven hundred in 1889. It is quite true, as declared by the Government organs, that the increase in the number of business failures and in the losses are the results of a succession of bad harvests. The prosperity of this country is absolutely dependent upon the products of agriculture and of the forest. But this should be remembered in good times as well as in evil times. When prosperity returns it must not be ascribed, as it has been in the past, to protection. The Government and its policy are mere flies on the wheel; if the wheel turned by our farmers and laborers goes slow they go slow; if the wheel turns fast they turn fast. The trouble is that when the wheel moves lazily the government say that those who turn it—the farmers and laborers—are not turning it fast; but when it turns rapidly they say "Just look how we and our policy are making this wheel spin." When it goes fast they become dizzy and lose their heads, we suppose.

THE MANUFACTURER'S IDEA.

The idea of the duty of the Canadian Government in view of the McKinley Tariff Act, entertained by the Scale Manufacturing Company, whose letter in another column is suggestive reading, is that presumably of all manufacturers, though probably few would think it polite to be as frank as that company. Manufacturers as a class are not by nature more selfish or more greedy than other people, but in political discussion and legislation in America, their interests have been treated so much as the chief if not the only national concern that they may be pardoned if it has become a second nature to them to seek the prosperity of the country altogether through their own. This company is indignant at the United States for depriving Canadian farmers from sending barley, peas, and other products to the United States, and recommends our Government to serve up the United States gander with the same sauce as that with which their Government served up the Canadian goose. Both Canadian and American protectionists declare their abhorrence of retaliation, but each side accuses the other of it, and each recommends the policy when it is angry, or is very desirous of more protection. Both American and Canadian protectionists, who are manufacturers, benefit by the jaw of retaliation which they set the Governments to wage, and the farmers of both countries are the great sufferers, for they are squeezed by every act of retaliation for the benefit of the manufacturers. The Canadian farmers have been injured by the United States Government at the demand of the protectionists. What is the remedy proposed by the Canadian manufacturers who are protectionists? Why, that Canadian manufacturers be protected by higher duties on American manufactures. As Canadian farmers are prevented by a high American protective tariff from selling their products profitably in the United States, the Canadian Government should, protectionists tell us, secure the prosperity of this country by increasing the Canadian tariff upon foreign manufactures entering Canada, and thus compel the Canadian farmer to pay higher prices for what he buys! The Canadian farmer is not allowed to sell his barley profitably by the American Government, and it is proposed that as an act of retaliation he shall be compelled to pay higher prices for his scales! Such a policy is fun for the manufacturers of both the United States and Canada, but it is death to the farmers of both countries. Under the Canadian protective tariff the farmer is compelled to pay about five dollars for scales which under a free trade policy he would obtain for three, or ten dollars for scales which should only cost seven, or one hundred dollars for scales which should only cost sixty-five dollars, and yet the manufacturer of scales declares that the Government "does not protect him" or does so with "a small tariff." Protective tariffs begin at ten or fifteen percent, for the purpose of fostering infant industries; they grow to thirty-five and fifty percent, to support sturdy paupers, and they develop into one hundred and two hundred percent in order to swell the pockets of grinding monopolists. Upon whom does the prosperity of the country—manufacturers as well as other classes—really depend? Let the *Gazette*, the organ of the protectionists, tell us in an unguarded moment when it is merely setting forth the truth, not arguing for its masters. To-day it says:—

The fair harvest that Canada, as a whole, reaped in 1890, and the fair prices which are being received for it, did not come any too soon. The effects of two bad crop years, one succeeding the other, are markedly visible in the report of failures for the nine months of the current year prepared by Dun, Wiman & Co. This shows an increase over the figures of the two preceding years, both in number and liabilities, and brings the latter slightly in excess of the record of 1887, when the total liabilities reached \$13,658,364 as compared with \$13,726,486 in 1890.

The most direct injury of bad harvests falls, of course, upon the farmer, and the reflection only upon trade and commerce and manufacturing, which in this country are dependent upon agriculture. Yet the injury has been so great as to menace the trade of the Dominion. A good crop has just come in time, according to our protectionist contemporary.

When the indirect injury to trade has been so large how great must have been the direct injury to the farmers. Yet the Government is asked to tax the farmers more heavily than ever in support of the manufacturers, and that because the farmers have been suddenly deprived of a profitable market for their produce. The manufacturers think it is impossible to exterminate the farmers who support them, to kill the goose that lays the golden eggs, and perhaps it is. But it is very possible, indeed, that the impoverished farmer may get heartily sick of being plucked at every opportunity. Such letters as that of the Scale Manufacturing Company are calculated to open his eyes to the form the pity of the manufacturer takes for his misfortunes.

ATTACKING A SYNAGOGUE.

While services were being held in the Jewish synagogue on McGill College avenue, last night, some evil-disposed person threw a round piece of lead through one of the windows. The noise of the breaking glass caused much commotion. This is the second time such an outrage has been committed on this synagogue within the past few weeks.

THE CITY BAND.

Mr. Lavigne has brought his band into the Queen's Hall, and last evening gave an excellent instrumental concert. In addition to the soloists from Mr. Lavigne's orchestra, of whom Mr. Louis Amato created a *furor* with his famous violin solo, "Fantasia on Martha,"—there was a performance of marionettes, which was much appreciated.

CONTRACTS.

THE OLD FIGHT FOR DAY'S WORK IN THE CITY COUNCIL.

Mayor Grenier presided at yesterday's special meeting of Council, and there was a good attendance of aldermen. Nothing of unusual interest came up. A petition of the residents of Duane "lane" to have the name changed to Duane "street" went to the Road Committee.

In the discussion over the request of the Chamber of Commerce, asking a reduction of the butchers' license fee, the Mayor remarked that he was prepared to recommend a reduction, provided the butchers paid all their arrears. He believed the butchers would find this the best policy, because before an appeal to the Privy Council they would have to deposit \$5,000.

The report "that the Mayor be authorized to sign the contract for a rock asphalt sidewalk on the west side of St. Lawrence street" was objected to by Ald. Stephens, who said that unless more expedition were used than in the case of Dorchester street the work would not be through this year. "I will insist that it be done at once," said the Mayor.

A contract with Mr. Forsyth for the addition to the sidewalk on the east side of the street was also brought forward for the Mayor's signature. Ald. Stephens again objected, which he declared was unfit. He also objected to a clause which stated that the repairs did not include

ORDINARY WEAR AND TEAR.

No contractor would put a cent into repairs with a clause like that in his favor. The Mayor said he would not sign the contract unless Mr. Forsyth took the objectionable words out. So it carried.

Ald. Hamelin's request that the Board of Health have power to remit water rates was referred to the Finance Committee.

Messrs. Bastien & Valiquette wrote offering to pave St. Vincent street with wood at the same price as Craig street. Ald. Prefontaine supported this. Ald. Stephens said that the best piece of wood paving ever laid in this city had been put down by the City Surveyor on St. Catherine street. He wished to show the difference between day's work and contract work, and would accordingly move in amendment that the work be done by the city under the supervision of Mr. St. George.

"The City Surveyor," said Ald. J. B. Dufresne, "has more work now than he can do this year."

"I know," replied Ald. Stephens, "that the City Surveyor can do the work, and better than Bastien & Valiquette. I watched him on St. Catherine street and the work has been well done. I believe in the future that

ALL OUR WOOD PAYMENT

should be laid under his direction by day's work."

Ald. McBride seconded Ald. Stephens' amendment.

Ald. Tansey asked if it could be done this year.

Ald. McBride.—Yes. I say this because I'm not working in the interest of contractors. Mr. St. George has pushed St. Catherine street. The Mayor—This question seems the same as that of the sewers. Members say we can't do them by day's work.—Mr. St. George says we can.

Ald. Wilson.—He has said that he has his hands full and had rather not do this work. The amendment in favor of doing the paving by day's work was lost on the following division: Nays—Ald. Gauthier, Lamarche, J. M. Dufresne, Tansey, Grenier, Cunningham, Gorman, P. Dubuc, Savignac, P. Kennedy, Brunet, W. Kennedy, Wilson, J. B. Dufresne, Hurteau, A. Dubuc, Malone, Connelley and Prefontaine.—10.

Yeas—Ald. Shorey, McBride, Farrell, Griffin, Villeneuve, Stephens, Hamelin, Thompson, Stevenson and Rolland.—10.

The contract was awarded on the same division.

Several reports for patches of patent concrete sidewalk were objected to by Ald. Stephens, who said that the City Surveyor could lay the same thing for \$2.00 instead of our paying \$3.00 and \$3.50.

Ald. Rolland also said he believed that these pavements could be laid cheaper by the Road Department. The reports carried, as did also a motion by Ald. Stephens.

NOT TO ALLOW PATCHES

of these sidewalks in future, but only when they are recommended for a whole block.

Ald. Rainville wanted the minutes of Council to be printed, but was overruled on the ground of unnecessary expense.

The special report for widening and opening streets was sent back to the Finance Committee with instructions to have the cost in each case inserted in the report.

The proposed amendments to the charter were referred to the City Attorney.

Ald. P. Kennedy drew the Council's attention to the alleged danger to life and property from possible explosion of the ammonia used in artificial freezing establishments. Something of this kind had occurred in the Old Country. Ald. Stephens assured the Council that there was not the slightest danger. The question was referred to the Fire Committee for investigation.

Ald. Villeneuve objected to the Chief and Sub-Chief of the fire brigade being provided with "horses, buggies and orderlies."

Ald. Stevenson replied that all was above board. The Council had itself sanctioned the thing. A man was needed to take care of a horse.

Ald. Stephens suggested that the Council supply all its employees in future with gold watches. (Laughter.)

Ald. Stevenson said that the men who looked after the horses helped at fires. "They hold the horses at the same time," remarked Ald. Stephens.

A special committee to consider St. Cuneo's request for annexation was appointed, composed of Aldermen Rolland, Wilson, Jeannotte, Thompson, P. Kennedy, Rainville and Villeneuve.

The proposal to vote \$10,000 towards an exhibition was discussed. It was decided not to vote the money unless the Council is given a share in the control of the exhibition.

THE SAMUEL MONUMENT.

The officers of the Victoria Rifles met last evening and made arrangements to take part in the ceremony connected with the unveiling of a monument to the late Private J. H. Samuel, a member of the regiment who was accidentally shot whilst on duty during the small-pox epidemic in October 1885. Saturday next, at 2.45 p.m., is the time fixed for the ceremony, and the commanding officers of the different city regiments are invited to attend.

The monument is a broken pillar made of Massachusetts grey granite, and bears the following inscription:—

In memory of John H. Samuel, a member of the Victoria Rifles of Canada, who was accidentally shot whilst on duty with his regiment at the Mount Royal Hospital grounds, on the 23rd of October, 1885. Erected by the City of Montreal, the Victoria Rifles and the Dental Association of the Province of Quebec, as a tribute of respect and regret for the loss of a young life of much promise. Born 21st October, 1859; died 23rd October, 1885.

"RETALIATE!"

(To the Editor of the Witness.)

SIR,—We have heard much, pro and con about the McKinley bill and the Dominion of Canada. We don't understand why our own Government here does not protect us. Take, for instance, the scale factories throughout the Dominion, with heavy capital invested and a staff of 150 percent. Fairbanks, Howe, Buffalo, Jones, New York and Chicago scale factories are inundating the country with cheap American scales. Yet the United States dollar as from sending barley, peas and other products. We think what is sauce for the goose is sauce for the gander, and the duty of all duties for the protection of our manufacturers will be raised immediately on the same basis as our neighbors across the line. It seems that at present the Canadian Government is weighed in the balance and found wanting. THE WARREN SCALE CO.

Montreal, Oct. 7, 1890.

DECLINED THE INVITATION

TO DISCUSS ANNEXATION WITH AN ANTI-ANNEXATION COUNCIL AT STE. CUNEO.

The agitation in Ste. Cuneo over the annexation scheme is rising instead of subsiding. Last night two meetings were held, one by the municipal council and the anti-annexationists in the Town Hall and the other by the friends of annexation in a private hall on St. James street. The latter meeting was largely attended, and the speakers present being Messrs. F. J. Basset, Wm. Rutherford, U. Denis, J. H. Reifern, Paré, Lymburner, Theoret, Scott, Roy and Bernard. The Hon. J. K. Ward sent his regrets at being unable to be present. The first business taken up was the consideration of the letter addressed by the secretary of the Corporation inviting the annexation committee to attend the meeting in town hall for the purpose of discussing the question. After a very short discussion the following resolution was unanimously adopted in

BARGAINING AT THE CITY HALL.

WHAT THE PROTESTANT SCHOOL COMMISSIONERS WILL SAY THEIR LOGAN'S FARM LAND FOR.

A special committee, composed of Aldermen Martineau, Wilson and Hurlbut, met a delegation from the Board of Protestant School Commissioners this morning, consisting of the Ven. Archbishop, Rev. Mr. McBratney and ex-Ald. Holland. The subject under discussion was the proposed extension of the Logan's Park limits by the city purchasing from the commissioners a block of land containing about ten acres, with frontages on Sherbrooke, Panet, Plessis and Malouin streets.

Ald. Martineau, as chairman, said he understood that the Commissioners were prepared to sell. What figure was asked?

Ald. Wilson said the Protestant Board had paid \$18,000 to the Government for the land a good many years ago. It had increased very much in value since, and had been laid out in building lots, two acres being retained as a school site.

Ex-Ald. Holland announced that the Commissioners expected \$100,000 for the ten acres. Ald. Wilson explained that the ground was worth ten cents a foot, but as it was proposed to sell it to the city for a public park the Commissioners would accept 25 cents. That would be equal to \$250,000 for the whole 100,000 feet.

Ex-Ald. Holland said that was not much for St. James' Ward. St. Antoine Ward had paid \$18,000 to the Government for the same land. Ald. Hurlbut considered the case different. Logan's Park was not like Dominion square. It was not in the centre of the city.

Ald. Wilson—The Board is not prepared to sell it to a private individual at this figure. Ex-Ald. Holland—If the city is not pretty quick we shall put the property up to auction in building lots. And it would be picked up at once.

Ex-Holland—The lots on Sherbrooke street would sell for fifty cents. The Commissioners are prepared to accept payment in four percent city bonds.

The Committee appeared to think that 25 cents a foot was too high, and suggested 20 cents, but the Commissioners stated that they had not authority to accept any less, and the Committee promised to report the offer.

THE SILVER LINING.

If there is a happy individual in this city to-day it is Mrs. Heffernan, the old market woman in Mountain street market. Last night's Witness exclusively contained the story of how she was heartily robbed and left destitute for the coming winter. This morning her load of rare was lifted off. When seen by a Witness man to-day she told the following touching story. She went down to her stall as usual this morning. Barely had she got her wares exposed for sale when a lady drove up to her stall and asked her if she was Mrs. Heffernan, to which she replied in the affirmative. The unknown lady then handed her an envelope, told her the contents were for herself, and then drove off. Mrs. Heffernan, on breaking open the envelope, found it contained the clipping from last night's Witness, which told of her loss, and wrapped up in the clipping was a \$10 bill, the sum she had been robbed of. Here the old lady broke down and sobbed. "It is a miracle to do that. I am sure I never thought anyone would ever think of the matter. It shows how kind-hearted some people are. Then it was so good of you to put it in the Witness, though when you were asking me about it I did not know who you were. Now I want to give you just a little present for your goodness."

Here the poor old lady produced a dozen fine St. Lawrence apples, and an equal number of fine tomatoes. "These are not very valuable, I know," she said, extending them to the surprised reporter. "But I know you will take them, won't you?" And the reporter had not the heart to say no.

THREE CHILDREN DESERTED.

THE HEARTLESS PARENTS REPORTED TO HAVE CHANGED THE LOCK.

A most heartless case of desertion has just been made known to the police. Sergeant Choquette was notified last night that a man and a woman named Magne, living at 217 Dufferin street, had gone off that morning to the States, leaving three little children behind them. The sergeant at once went to the number given, and there found the house empty, but he was told by the neighbors that the story was true and that they had changed the lock on the door. The sergeant then went to the little ones to their grandfather's, on Rivard street, and that the old man was entirely destitute. Mr. Choquette succeeded in locating the old man in a terribly tumble-down old house on Rivard street. With him were the three little children. The eldest is four and the youngest one year old. The two elder are boys. The old man said he did not know anything of the matter, all he knew was that the children had been brought to him in the morning and he had been told that their parents had left them and gone to the States. He could not take care even of himself, and some place had better be found for the little waifs. Mr. Choquette, on seeing how the children were, took them with him and left them for the night with a citizen living at 50 Rivard street. He then set to work to try and get some trace of the heartless parents, but was unsuccessful. Such was the neighbor's story. It is understood that the children are to be placed in some charitable institution.

TWO FIREMEN INJURED.

Two of our city firemen were seriously hurt last evening. A few minutes before seven an alarm was sounded for a fire in a carriage factory on Dufferin street. While driving to the fire the fire engine of No. 13 station fell from the road and the wheels passed over its body. He was picked up and placed in a carriage and was sent to his home. There he was attended by Dr. Barrie.

Strange to say, a building on the opposite side of the street burst into flames almost at the same time as the carriage factory, although there was no heat from the factory. While fireman Rock from No. 11 station was ascending one of the Skinner ladders he missed his footing and fell heavily to the sidewalk. He was severely injured and he too had to be removed by carriage to his home. The fire was extinguished before much damage had been done.

VERDUN'S NEW SCHOOL.

The Protestant majority in Verdun has now a very fine new school house on Wellington street, with a dwelling for the caretaker and rooms for the teacher, erected at a cost of about \$5,000. It accommodates between 50 and 70 scholars and the premises have been so laid out that they can be readily enlarged to double their present capacity. The rooms have been fitted up with modern furniture, the latest school maps, pictures, etc., and the school was opened a few days ago with 32 scholars in attendance. Miss Thompson is teacher.

EGGS FOR ENGLAND.

STEAMSHIP MEN ENTERING HEARTILY INTO THE NEW EXPORT TRADE

FORCED INTO EXISTENCE BY THE MCKINLEY TARIFF BILL.

"We must find a market for our eggs, somewhere," said a member of a large produce firm which does a considerable export trade, to a Witness man to-day.

The McKinley bill, by levying a duty of five cents a dozen on eggs sent from Canada into the States, practically prohibits the exportation, and the exporters are now turning their thoughts toward an English market.

The trade threatened with extinction has grown considerably of late years, and now amounts to over two million dollars per annum—quite an item for our farmers and merchants.

One effect of the duty on eggs will be a very tangible increase in the exportations from the port of Montreal, and already the shipping agents are corresponding with Ottawa agents the conveyance of these delicate articles of food to the other side of the sea. The Hon. G. E. Foster, Minister of Finance, has written each of the steamship companies represented in Montreal asking for all information concerning the facilities on board the steamers for the safe carrying of the eggs.

Mr. James Thom, freight manager of the Beaver Line, notified the Minister that so far as that line was concerned the facilities were excellent. Each steamer is fitted up with three of Blackman's patent power ventilator wheels or fans, each of which supplies 30,000 cubic feet of fresh air per minute. Last year an exporter shipped 1,000 dozens of eggs to the English market as an experiment. A person who saw the eggs taken out on the other side of the Atlantic said that in three cases there were only six eggs broken. They were taken to the London, Liverpool, Manchester and Scotch markets, and were all sold at a profit. They were fresh and in good condition and enquiries for further lots were made.

Mr. Scanlan, of the Dominion Line, kindly explained the facilities of the Dominion boats for this traffic. They are admirable, and any shipments so far taken over by the line have always been landed fresh and in good order. All the companies, including the Allan and Bedford, are kindly disposed towards the new trade, and promise to meet the demands of the exporters in every way possible to ensure the fresh keeping of the eggs. The opening of navigation next year promises to see a new era in the British export trade of Canada.

Another produce merchant interviewed regarding the egg trade said—"Most decidedly well ship all we can get to England. No very few will be sent to the United States. He did not see anything to hinder the safe transit of the eggs, and thought the recent controversy in Western papers on the subject by some persons who thought it would not pay, was gotten up for political purposes. The British markets were at present supplied with eggs from France and Belgium, and the merchant thought that our eggs would be preferred. Ireland in former days supplied the bulk of the eggs, but now the trade was not fostered to any extent in the Emerald Isle.

Messrs. George Watt & Co. are to-day shipping several cases of eggs to England as an experiment. The result is hopefully looked forward to.

The freight on eggs to Liverpool will be about fifteen shillings per ton.

FORTY-FOUR YEARS SERVICE.

The many friends of Mr. Patrick Meagher, gardener and florist, of 60 St. Matthew street, were painfully shocked on learning of his very unexpected death, which occurred yesterday afternoon. For some months he has been suffering severe pain at the heart. Yesterday morning he was about his work as usual, at the residence of Mrs. Charles Phillips, Bellevue Hall, Dorchester street west, without complaining, and left at noon for his dinner; but as he was entering the door of his house he was seized with a lightning stroke and died almost immediately, surrounded by his sorrowing wife and daughters.

Mr. Meagher entered the employ of Mrs. Phillips on the 18th September, 1846, and was therefore over 44 years with her. During all that time he was always found faithful and industrious, and was most highly respected by his employer. He is described as a kind-hearted and affectionate husband and father, and was greatly esteemed by all who knew him. He was a member of St. Patrick's Church. The funeral takes place to-morrow morning.

SECLUSION AND INJANITY.

"The building appropriated for the gentlemen boarders at Longue Pointe asylum," a correspondent writes, "is isolated, and the patients have moved into it. It is very doubtful, however, whether it is desirable in all cases that a boarder, however highly intelligent, should have a separate room. He is far more likely to move and be dependent than when forced into the society of others. And even at night the presence of companions often prevents his talking to himself on the subject of his monomania. If he has one, and has other good effects. At Longue Pointe itself, several cases have been known of men who had private rooms for months and showed no sign of improvement, but who were cured in a very short time after being moved, for different reasons, into the far less comfortable Government wards."

A NEW EAST RAMP.

A civic sub-committee was recently appointed to discuss with the Harbor Commissioners the desirability of a new ramp at Denoville avenue, near the Street Railway station and Canadian Pacific bridge. Hochelaga. This improvement, which has been in abeyance since 1883, is likely to be carried out, as the sub-committee has met and is likely to recommend that the land, having a frontage of 650 along the river, be acquired from the owners and handed over to the Commissioners. The latter, it is understood, are ready to construct the ramp, put in crib work, make a road and maintain the same in perpetuity. The improvement would cost the Harbor Board about \$34,000. It has not yet been stated what the proprietors ask for the land.

CAN'T SPEAK ENGLISH.

At a meeting of the newly-appointed Night School Committee a speech was made by Mr. Temple, who "superintended" things under the provisional arrangement of last season, and who has now been made the Inspector of the Night Schools by Mr. Mercier. When he had done speaking in French one of the committee men wanted to hear him in English, but Mr. Temple could not speak in that language. Dr. MacVicar remarked that it was not common sense to have English schools inspected by a man who did not know English, and Father Sentance agreed with him. There is likely to be more discussion about this.

The hearing of evidence on the petition to quash the capias in the case of Mr. Allan J. Lawson was commenced before Judge Delorme this morning.

NO SUICIDE ABOUT IT.

THE DISH-MAKERS' FOREMAN RETURNS TO CITY AND BUSINESS.

Mr. H. T. Richter, foreman in Messrs. Tess & Co.'s factory on Dowd street, who disappeared so mysteriously with his twelve-year-old son last Friday, has returned to the city. It was stated at the time by the detectives that the wife feared her husband had committed some rash deed. Mr. Richter was seen by a Witness reporter at work to-day, and he certainly did not look like a dead man; in fact he is that sort of man whom no one would ever think of connecting with an idea of self-destruction. On being asked the reason of his mysterious absence he replied that it had been purely on account of a family trouble. "I was surprised," he said, "to see how my name got in some of the papers, and how they thought I had taken my son and committed suicide. Indeed, I love my boy far too well to do such a terrible thing as that. The truth is, in a rash moment I decided to leave my home. I took my eldest boy with me, and left the remaining child with my wife."

"But where did you go to?" "Oh, well," laughed Mr. Richter, "I have been ever since in Toronto. I was staying with some friends there. My little boy got homesick, so I decided I had better bring him home again. Of course it was not right for me to leave without telling anyone, but I never for one instant thought that it would cause the commotion it did."

THE FIGHT OVER BLACHE LANE.

The Blache lane case again occupied the Practice Court for a considerable time to-day. The proceedings had been fixed peremptorily for this morning, but on Mr. Barnard expressing his desire to go on with that part which constitutes the intervention of the city, Mr. Meredith objected on behalf of the Canadian Pacific Railway Company, holding that it was absurd to make them go over the same ground. The court in the second to the effect that all the issues in the case should be proceeded with at the same time, he did not recognize any right on the part of Mr. Barnard to proceed first on such of the issues as he chose, and he must insist that the whole matter be taken up at the same time. This was finally agreed upon, and Mr. Barnard began his argument.

Mr. Barnard insisted, and after consulting with his colleagues, Judge Mathieu decided that he would proceed with the intervention of the city, and that the parties from proceeding if they chose so to do. Mr. Geoffrion, who appeared on behalf of the Attorney-General, then took a hint in the game, and said that having been served with three subpoenas, one on the mandamus, one on renewal of the proceedings by the new Attorney-General, and a third one on the city's intervention, and as there was a constant in the second to the effect that all the issues in the case should be proceeded with at the same time, he did not recognize any right on the part of Mr. Barnard to proceed first on such of the issues as he chose, and he must insist that the whole matter be taken up at the same time. This was finally agreed upon, and Mr. Barnard began his argument.

NEARLY FINISHED.

The intercepting sewer will not be entirely finished this year according to Mr. Brittain, but very little will be left to complete in 1891. The machine has left St. Catherine street for good, is now on University, and will reach St. Monique on Dorchester before it stops this fall. The other machine will begin at St. Monique at once and work westward to Peel street, but is not likely to finish up this year. These when completed will run from Cote St. Antoine to Delorimier avenue, receiving the drainage of the whole of the city above Dorchester street west and St. Catherine street east.

THE LAGGARD AND HIS DRAIN.

A proprietor on St. Catherine street between St. Louis and Dorchester, who has been the City Surveyor this morning for a permit to open the street in order to put in a drain connection. "This is really too bad," said Mr. St. George. "You were notified weeks ago to do this; you knew well enough that you wanted this drain. We had the drain open ourselves and you might then have done it. But no, you must wait until we are ready to lay our concrete for the permanent pavement before you apply." "This is a case," said Mr. St. George, turning to a Witness reporter who was present, "where the whole community has to suffer because of one man's neglect." The man, however, had to get the permit, as it was considered better not to open the street later on.

NO DANGER WHATEVER.

The Atlatior Company has a similar freezing apparatus that objected to by Ald. P. Kennedy. A director, when asked by a Witness reporter this morning if there was any danger, replied, "No danger whatever." In New York, Chicago and other cities freezing machines of this kind are in use in the basements of large hotels, and have been pronounced entirely harmless.

CITY ITEMS.

The Street Inspector calls the attention of the public to the fact that wooden awnings are contrary to law.

The Kenney in the Dominion Rink was formally opened last evening. The management is in the hands of Messrs. H. Mercier and A. Lacoste. Judge Lorange opened the proceedings with a brief speech, followed by Mr. L. O. David.

"There's a suggestion for you," said a citizen to-day, "as a temperance landlord concluded the remark that in all his leases he placed a proviso that the tenant pledged himself to sign no request for a license to sell liquor in the district."

A sub-committee to discuss the St. Catherine street sewer question will meet to-morrow. Ald. Martineau has objected to the proprietors on side streets being taxed with the cost of enlarged sewers, which are now needed in order to complete the sewerage system in the East End.

The Hon. Mr. Tallon has filed a "declinatory exception" to the action taken by Father Paradis against Mr. Israel Tarte. The exception is based principally upon the ground that all the causes of action did not arise in this district, and that the writ was not properly served.

Judge Delorme this morning granted a petition asking that Wilfrid Courtin, who was sentenced to gaol on a charge of vagrancy, be brought before the Court on a writ of habeas corpus to test whether the mere fact of having no occupation constituted an offence against the law.

THE QUEBEC SCANDAL.

QUEBEC, Oct. 7.—Messrs. O. E. Murphy and R. H. McGreevy were arrested this morning at the instance of Mr. Connolly for alleged conspiracy in the \$100,000 promissory note affair. They were held at two o'clock this afternoon. Messrs. James Paul and Wm. Foran gave bail to the amount of \$100 each for Mr. R. H. McGreevy, and Messrs. Day and Leblond, of the firm of Beaudet, Leblond & Gagnon, the same amount in favor of Mr. O. E. Murphy.

GROW YOUR OWN GRAPES.

(To the Editor of the Witness.)

SIR,—One thing is plain from the recent exhibition of our Montreal Horticultural Association. It is that in this favored land every man, not too stupid to try, should sit under the shade of his own vine and grow his own grapes. More than a hundred kinds, it seems, can be grown with winter protection; but there are two kinds, the Isabella and the Concord, which need not be covered, and one or both which should cover every cottage in the land. It would cost less than a dollar to plant them. This done (1) their permanent stems should run up the roof two feet six apart; (2) all buds, but one to each joint, should be rubbed off in earliest spring; (3) one bunch alone should be allowed to grow on each resulting shoot, and the vine should be pinched off one inch beyond the second joint from this bunch; (4) every alternate shoot should be pruned down in fall to one joint, to burgeon into one fruit-bearing upright shoot the following year.

The golden rule for vine culture is simply this:—The best bunch comes on an upright shoot of this year's growth, which started from wood ripened the fall before.

A CHURCH RE-OPENED.

The Methodist Church at Lacolle was reopened for Divine worship on Wednesday October 1st. The Rev. Dr. Dewar, editor of the Christian Guardian, and a former pastor, preached in the forenoon with great acceptance. The weather and roads were all that could be desired. The ladies provided a most bountiful dinner, as also tea in the evening. In the afternoon there were games, races and sports generally. Addresses were given in the evening by the Rev. Dr. Dewar, Rev. Wm. Scott, of Ottawa, Rev. John Armstrong, Rev. John Davies, Rev. J. W. Clapham and Rev. C. A. Bradford. The choir and the St. Johns brass band supplied excellent music. The church is practically a new one, having new pews, altar, windows of stained glass, metal roof, with school-room and vestry added, all surmounted by a very superior bell from Menely & Co., of West Troy. The auditorium is brilliantly lighted with Frink's reflector, of New York. The ladies cushioned all the pews and covered the floor with Tuscan matting. They also bought the reflector. The young people of the congregation purchased the bell. In every respect the re-opening was a great success.

THE COAL CARTS ON THE HILLS.

The cold weather of yesterday caused quite a demand for coal. Henry street and Mountain street were particularly frequented by coal carts. The manner in which unfortunate horses are forced up these steep hills is heartless looking. The suggestion that an extra horse or two be placed at these points during seasons of excessive traffic is never carried out by the coal dealers. It would be a blessing to the animals if it were, and the Inspector for the Society says would not necessitate a great outlay. There is more coal carried up the steep hills named than any others in the city. It appears that when some dealers have more coal carrying than their regular horses can manage, they hire horses and carts, and these animals—all unaccustomed and up as they are to do so much work as the regular carriers. "This," said Inspector Galey, "is a great cruelty to the horses and wears them out very quickly."

A COMET.

LICK OBSERVATORY, Cal., Oct. 7.—A faint comet was discovered by Prof. E. B. Barnard, at the Lick Observatory, at 8 o'clock to minutes last evening. Its position was R. A. 10 hours 12 minutes 20 degrees south, motion easterly.

THE CRIMINAL COURTS.

STRANGE INCIDENT ON A TRAIN. Archibald Smith and H. Keeley were arrested at twelve o'clock last night by Constable John Taylor, at Bonaventure station, and were charged this morning in the Police Court with attempting to rob Mr. J. Sutter, a passenger on the midnight Western express. They both pleaded not guilty and were remanded. The charges against them is a serious one. Mr. W. W. Proud, night agent at Bonaventure, told the Witness reporter this morning of the strange incident that Mr. Sutter had received. Two men—alleged to be the accused—asked Mr. Sutter, who was in the train at the time, to play cards. Mr. Sutter refused, and as it was not time for the train to leave, rather than quarrel with the men he left the car and went on the platform. He followed them, but they did not then set upon him. When Mr. Proud heard the news he ran up to where the fight was going on. Mr. Sutter told him that the two men were trying to rob him. Mr. Sutter was bleeding from a big cut in the forehead, which, he stated, had been caused by one of the prisoners striking him with a silver stick. He would not be decided whether he could stay over till to-day, and so, after getting his head bound up, he continued his journey to Cornwall. It is expected, however, that he will return in a day or two, when a charge of highway robbery will be preferred against the accused.

CHARGE OF STABBING A CHILD.

A little deformed child, living at 525 St. Lawrence street, brought a serious charge against a man named P. Lavett in the Police Court this morning. The little fellow said that he was stabbed near his own door when the accused walked up to him and stabbed him on the back of the head with a small knife. The wound was not deep. The accused said he was drunk at the time and knew nothing about the matter. He was remanded.

COURT OF SPECIAL SESSIONS.

In the Court of Special Sessions this morning, before Judge Dugas, Pierre Lamontagne, for theft of a watch, was sent to gaol for one month. Ford and Graham, on being arraigned, asked His Honor to fix bail for them at the sum of \$600—no more. At their own request they were remanded till Thursday, when they will decide whether they will stand their trial at the Court of Queen's Bench before the Judge of Sessions. The question of bail will also be decided on Thursday.

The case against Pierre Donale, the man accused of attempted outrage, was dropped for lack of evidence.

Judge Cross this morning dismissed an appeal from a judgment of two magistrates at St. Laurent, who sentenced one Ludger Dutilleul for an indecent assault upon a young girl.

In the Police Court this morning, Napoleon Sylvestre charged with borrowing a horse from a butcher named Charles Blanchard and afterwards selling it to a Mr. Dugas, pleaded guilty. The magistrates gave him a month's imprisonment.

A young woman named Minnie Harman was charged this morning with stealing a horse and buggy yesterday afternoon. The sig belonged to a Mr. Muir, and was stolen near the Cottage Restaurant. The accused, who was under the influence of liquor, got into the waiting chariot and drove slowly up to Phillips square, where she was arrested. The case was not pressed, and she was released.

Alfred Dubois, a man of no occupation, was sent to gaol for six months this morning for stealing a number of articles from the wharf yesterday. This lover of Payette's only came out of gaol yesterday morning; he has been rustling there for a month for a similar offence.

Police Officer Mr. J. A. Watkins, of Montreal, after several days hard work, has succeeded in arresting two men named David Dugas and George McGee, who were operating an illicit still in the vicinity of the Hyacinthe. The still had a capacity of two gallons a day. The arrests were made on Monday last. The accused will be tried to-morrow.

The dispute in the Roberts-McBride shooting case was continued this afternoon. McBride is slowly recovering from the bullet wound. Roberts has retained Mr. Poirier to conduct his defence.

LAST WORDS BY WIRE.

CHOLERA IN FRANCE.

PARIS, Oct. 7.—Two persons at Lunel, Department of Hérault, who recently arrived at that place from Spain, are suffering from cholera. The patients have been isolated and other measures adopted to prevent the spread of the disease.

MUST PAY UP.

LISBON, Oct. 7.—England has demanded of the Portuguese Government an immediate settlement of its claim for indemnity for the seizure of the British American Lake Company's steamer "James Stevenson," which was illegally captured by Lieut. Azered Contin-helm some months ago.

AGAIN AT WAR.

CITY OF GUATEMALA, Oct. 7.—Adverses received here say the Guatemalans and Salvadorians are fighting again on the frontier.

PARDON FOR DYNAMITERS.

NEW YORK, Oct. 7.—The San's London correspondent says he has good reason to believe the Government has decided, under certain conditions, to liberate a number of the unfortunate men now serving life sentence in British prisons for complicity in the earlier dynamite outrages or attempted outrages. Recent investigations have proved beyond doubt that many of these men, probably the majority, were the victims of agents provocateurs. This discovery, coupled with the fact that no blood was shed by the prisoners, and that they have already undergone heavy punishment in convict prisons, has induced the Government to recommend to the Crown to give merciful reconsideration to their cases.

A RAILWAY WRECK.

PENDLETON, Oregon, Oct. 7.—A passenger train was wrecked yesterday near Celilo. Fireman Howard was fatally crushed and several passengers were bruised.

SEALERS' PREPARATIONS.

SAN FRANCISCO, Oct. 7.—A number of Americans at Yokohama and other Japanese ports are fitting out vessels to go seal hunting under the British, German and Japanese flags. Next year the Russian Government proposes to protect the rookeries. Five Russian war vessels are now cruising in Behring Sea with instructions to seize any vessel found sealing within the prescribed shore limit, which is five miles. It is stated vessels which recently started on sealing cruises will not cruise in the Behring Sea proper. They will station themselves at a narrow strait called Unimak, through which seals pass on the way to the rookeries and then slaughter them by wholesale.

THE LAMONTAGNE TRIAL.

THE DEAD MAN'S ANTE-MORTEM STATEMENT.

(Special to the Witness.)

SHERBROOKE, QUE., Oct. 7.—The court resumed its sitting at 10.10 a.m. Dr. Noel being recalled stated that Napoleon Michel told him that Remi Lamontagne had inflicted six wounds on his person and that he had been done in the following manner:—Towards 11 at night his brother-in-law, Remi Lamontagne, came to his house. He was in bed and got up to open the door. Both he and his wife Leda dressed themselves and spoke a few minutes with Remi. They asked him whence he came, where he had left his horse, and to stay all night. Remi answered that he had come from St. Fortunate, had left his horse on the main road; that he had come for only a few minutes; then Remi produced a bottle of whiskey and they drank two or three times; then Remi went out; that he, deceased, heard a noise in the passage and opened the door of the room in which they were sitting. Remi came in again and without a word fired three shots at him, one striking him; that he, deceased, was stunned, but did not fall; seeing Remi wished to kill him he tried to escape, but was seized by the throat and here lost consciousness. When he returned to his senses he heard the steps of a person in the house and a noise as if trunks were being dragged on the floor; that there was something heavy over him, which he recognized as straw ticks, and feeling fire burning over him, regained courage, got up, smashed open a window and escaped from the house, and running to the edge of the woods came to Arcade Bouché's house.

AN ORDURE WITNESS.

Leda Lamontagne has just commenced to testify, other evidence having been completed earlier than was expected. The attorneys, however, find it impossible so far to obtain from her the answers to their questions which will in any way criminate herself. The Court has decided to commit her for contempt and has allowed her until to-morrow morning to obtain a defence for herself on this charge.

KINGSTON DRY DOCK FLOODED.

(Special to the Witness.)

KINGSTON, Ont., Oct. 7.—The dry dock is full of water and much damage has ensued. About fifty feet of the dam keeping Lake Ontario from filling the excavation broke this morning, and in an instant the water cut off of the work. The Connolly brothers are in Quebec, and nothing will be done till their return. A leak was discovered this morning, but the workmen could not stop it in time to prevent the flood.

A C.P.R. COLLISION.

(Press Despatch.)

QUEBEC, Oct. 7.—The C.P.R. train due here early this morning did not arrive till this afternoon. Although the company have tried to keep the matter secret, it leaked out that the train collided with a freight train and was temporarily disabled above Lamorne.

FATAL LANDSLIDE.

QUEBEC, Oct. 7.—A despatch from St. Pierre, River du Sud, says the house, sheds and barns belonging to Mr. Mathias Gagnon, situated a mile east of the Intercolonial station, were overturned in the river at three o'clock this morning by a landslide. A quarter of a mile of land, on which stood the buildings, rolled over into the river, blocking it completely with earth and debris. The family was composed of eleven members. Mrs. Gagnon was killed, and her husband was dangerously injured. The eight children were saved. Some twenty years ago a similar accident occurred in the neighborhood, causing much damage. The ground is said to be very movable.

A WIFE MURDERER'S TRIAL.

WELLAND, Ont., Oct. 7.—The trial of Arthur Hoyt Day, of Rochester, N.Y., for the murder of his wife by pushing her over the Niagara river bank, was begun this morning. His sister, Mrs. Quigley, testified to seeing Day and his wife at the brink of the precipice. She took her eyes off them for a moment and when she looked again Mrs. Day had disappeared and Day was beckoning to her with a black handkerchief. When she reached him she enquired for Mrs. Day and was told by the prisoner that he had pushed her over the precipice and that she never stirred or knew what struck her. Mrs. Quigley was much prostrated during her examination. She will be cross-examined this afternoon.

BIRDS OF A FEATHER.—(S. one, a gambling saloon. A game of cards has just been played. The two players get up, and one of them steps up close to the other).—"Sir," "What do you want?" "I saw you cheat just now."—"Sir," "I am sure of it."—"You want to ruin me."—"Quite the contrary; I wish you to take me into partnership."—Pettit Journal.

THE ART OF FRAMING that was used from the third century has not been lost, but is still carried on. A. Bishop Stewart, 743 Craig street, first door west Victoria square. Mirrors re-silvered; frames re-gilt; wedding presents a specialty.

A SCHOOL GIRL, coming home to report having won two prizes, says the Cincinnati Commercial, remarked that one of them was for having the best memory. Being asked what the other prize was for, she replied: "For the life of me, I can't just now think what that was for."

THE EX-TRAPPIST.

The Russell Hall was crowded to the doors last night to hear "Father Walsh" give an account of his life in the Trappist monastery of Gettysburg. Many had to stand in the passages. The Rev. Mr. Morris, president, and those on the platform were Dr. Smith, of Calvin Presbyterian church, and the Rev. Mr. Lafluer of the French Baptist church. Mr. Walsh in commencing his discourse remarked that he was agreeably surprised at the reception he had got so far in Montreal. The general opinion about Montreal in the States was that the Protestant here would dare to assert his Protestantism. He could tell people when he got back, however, that there were as brave and as stalwart Protestants in Montreal as in the States or anywhere else. He had been afraid his coming to Montreal would cause a disturbance of the peace, and he had no desire to get notoriety in that way.

Then he gave a brief account of the establishment of the Trappist Order of Monks by St. Benedict nearly thirteen hundred years ago. He gave an account of the life of St. Bernard, who was the model that the Trappist monks tried to copy, and who lived on the crumbly he could pick out of the waste barrels, etc. It was a common saying now that the claustrality was next to godliness, but the Trappists made uncleanness next to godliness. They were very rigid. He never saw any immorality while he was there. They lived on one meal a day, consisting of a mixture of potatoes, beans, cabbage, and so forth. All these things were grown on their farm, and he thought twenty-five cents a week would buy all that a monk ate in that monastery. He never heard of salvation by faith till he came out of the Church of Rome. After doing everything that the Roman Catholic religion taught him he could never get any peace till he came straight to the Saviour and accepted the Bible as his rule of faith. It was hard to get out of the monastery or nunnery. He described how he got out at the point of the pistol after he decided to die or be a free man. He had pledged himself to God never to stop his crusade while anyone who wished to get out of these institutions were kept against their will.

WANTS TO EXCLUDE LADIES.

Miss Grace Eaton entered upon her new duties as an official stenographer, yesterday afternoon, taking down evidence for the first time in a case heard in the first division of the Superior Court. The appearance of a lady occupying an official position in Court does not, however, meet with the unanimous approval of the bar, as one learned lawyer, at least, takes exception to the new departure. This gentleman is Mr. J. L. Archambault, Q.C., a member of the Council of the Bar, who has asked for a special meeting to be called to examine the members of the bar as to whether or not they will move that ladies be excluded from the office and asks that a special by-law be passed to that effect. To a witness reporter Mr. Archambault said, this morning that he was against all female doctors, lawyers and officials in public departments generally. However, the general impression among the members of the bar seems to be in favor of admitting the ladies to take down evidence, when they can do it properly.

REDUCING THE STAFF.

The Road Department reduced its staff contingent in both the Eastern and Western sections yesterday. In the Western division, where 110 carters were engaged, there are now only 13; where 111 men were employed, street cleaning, only 45 remain, or a reduction of 67 and of respectively. The staff of nine carpenters has been reduced to six in this division. A similar reduction has taken place in the Eastern section, where there are now 20 carters, 110 men and 6 carpenters—a reduction of 43 carters, 30 men, and 6 carpenters.

THE VAUDREUIL ELECTION.

Some politicians are of opinion that the writs for new election in the County of Vaudreuil, rendered necessary by the resignation of Dr. Lalonde, will be issued at an early date. The name of Mr. Lapointe is again mentioned as the probable Conservative candidate, and Dr. Lalonde's friends say that he will again come forward on the Nationalist side, as they expect, he is not disqualified.

MELVIN SMITH'S AFFAIRS.

In the Practice Court this morning Judge Mathieu granted the petition of Messrs. Green-shields and Davis asking to be discharged from the custody of \$20,000 security deposited in connection with the difficulties between Mr. Melvin Smith and his wife, which have now been amicably settled.

MONTREAL, Oct. 7.

Readings by Hearn & Harrison's Standard Barometer at noon to-day: 29.94; yesterday, 29.94. Temperature to-day: -max. 45; min. 32. Yesterday, max. 53; min. 34.

PERSONAL.

Mr. Ryan, Collector of Customs, is indisposed.

Sir Henry Tyler, President of the Grand Trunk Railway, sailed from New York to day. Sir Henry came over particularly to see the great Sarnia tunnel, but went over the lines very thoroughly, and carries back with him, it is said, excellent impressions as to the future of Canadian roads. Sir Joseph Hickson and Mr. J. J. Lanning accompanied him to New York on Saturday. They are expected back to-morrow.

THE FAMILY PHOTOGRAPH.

A GOOD "TWENTY-FIVE CENTS" WORTH OF ENTERTAINMENT FOR NOTHING.

It would be hard to find the man or woman who doesn't want to look handsome or sweet in a photograph. When the camera comes it is then that, deep down in his heart, he yearns for a picture. There was a scene on Upper St. Lawrence street the other day that was just full of human nature. An honest artisan, together with the members of his family, determined to be introduced to posterity by the medium of a camera and a pale-faced young man in a state of inconceivable melancholy. It was a bright day and the sun shone upon a background of hoops and barrels, a low dingy frame house, and an undersized dog that had retreated into the doorway in terror of the photographic apparatus. There were the artisan, his wife, her married daughter, with two children by her side, and a young girl of about fifteen, with a white apron, her hands on her hips, and a magnificent air of saying, as he stood a little apart from the rest, "Young man, observe and take care that you make posterity observe that I boss this establishment." The wife, who weighed about two hundred pounds, was dressed in a bright red dress and a special apron. The married daughter had a special apron of red and green, the bars about as broad as a plank. The young girl held out her right hand, upon which she had placed a tame pigeon—a faint touch of poetry—which made the young man at the camera smile in a ghastly manner. Talk about patience, about broom, about posing that group would have dethroned the reason of the biggest genius in history. How little the world knows! The young man fixed the old lady for a full face, but the moment he let go her head she smiled a little too broadly, and the young man respectfully, but with an air of sadness that would have drenched the face of the tiny rock with tears, begged her to curtail it. The young girl put her head on one side and looked at the pigeon in a languishing manner. The old man was superb. With his feet firmly planted on his native earth, his chest expanded, and the consciousness of a successful trade in the background, he looked down the muzzle of that camera without winking an eyelash.

The small boy gazed upon the scene in open-mouthed awe. Business in the vicinity was suspended. The crowd grew. The young man had given the last twist to the old lady's head—when, looking behind him, he found the old man had taken to the rear. A look of despair settled upon him, but he went back and gave the head another jerk. Then he returned quickly into the black cloth. It was a solemn moment. If anyone had burst upon their heads that group would not have moved a muscle. The young man reappeared. He leaned heavily against the camera. The scene was over. It was free, but a quarter has often been charged for a worse entertainment.

THE EAST END WILL BOOM.

The Building Inspector says the next building boom is likely to be in the East End. "Heckelings and Malins," he says, "will be covered with buildings during the next few years. Workingmen's houses, they cannot afford high rents and there is now no other place left in the immediate vicinity of the city where land can be got at prices which permit of the erection of fair sized houses costing \$500 to \$1000. A builder cannot afford to put up houses on lots that cost him \$800 or \$1000. It would not return enough in interest. Then, again, the nearer one gets to the wharves the less cartage one has to pay on bricks, lumber, etc. It makes a difference of a hundred per cent cartage at least. Then, again, the building up of the East End will have a tendency to cheapen rents in other parts of the city, for a time at least."

Expanding committees—Rev. Abbe Desjardins, Mr. Giguere, Messrs. L. E. Beauchamp and U. Lafontaine, (Centre), Rev. Abbe Desjardins, Rev. James J. O. David, L. O. David and J. MacVicar, (West End), Rev. Dr. Antille, Rev. Father Giguere, Mr. Dr. P. A. Duffy.
The committee for the night schools are now in session, and will meet again on Wednesday, Oct. 9, at 8 o'clock.

A CONSERVATIVE COMMENT.

Commenting upon the report of the Department of Indian Affairs for 1889, just issued, *La Minerve* says: "The repression of the sale of exchange and the use of spirituous liquors among Indians constitutes an important portion of the duties of an agent for the Indians, but unfortunately the efficient fulfillment of this duty is seriously impeded by the indifference of the magistrates, the police, and other officers of the law in localities where contraventions take place, and also because a number of persons are disposed, often for personal or political reasons, to protect or favor the guilty parties, at the expense of the Indians."

LACHINE'S AGITATION.

The taxpayers of Lachine want the ballot three instead of two representatives in each of the three wards, and the right to fill each individual vacancy at the Board instead of the councilors themselves exercising that power as at present. Meetings have been held in advocacy of these views, and petitions presented to the Council itself. The latter is disposed to concede the ballot and to create a new ward; but this the agitators don't want. The new ward might return two English speaking members.

CITY ITEMS.

The "eccentric" of the engine of the Borel train broke yesterday morning. The Montreal agent states he has received a telegram from the foreman at the shops stating that the engine will be able to proceed to Montreal this evening.
During the recitation of the rosary at the afternoon service in St. James church, last Sunday, the worshippers were startled by the cries of a three or four year old boy who entered the church and began shouting, "Mamma! Mamma!" He was closely followed by a little girl, who in turn exclaimed in pitiful tones, "Papa! Papa!" Papa beat him! A young woman, supposed to be the mother herself, left her pew and went out with the children.

THE CANADIAN CAPITAL.

(Special to the Witness.)

OTTAWA, Oct. 7.

THE DUTY ON LOGS.

Last evening the Cabinet in Council considered the question of the export duty on logs, the abolition of which would enable the Canadian lumbermen to save a dollar per thousand feet on all pine lumber shipped to the United States from to-day. The representations of the lumbermen, strongly in favor of abolishing the duty, which is \$2 per 1,000 feet, were laid before his colleagues by the Premier, and the question was very fully discussed but no decision was reached. The matter was adjourned until the next meeting of Council. Sir John Macdonald is hedging on the question in reply to the request of the lumbermen for urgent action. He told Mr. Booth that he promised to abolish the duty if Congress made the duty on lumber one dollar. But Congress had not reduced the duty on all lumber. It had simply reduced the duty upon pine saw lumber. The rates on spruce, hemlock and other woods are the same as before. That was not a reduction of the duty on lumber generally, and therefore he was under no obligation to abolish the export duty.

A prominent forwarder said to-day that his steamers and barges would have to be laid up, and he might have to discharge nearly forty men. The Canada Atlantic Railway has an immense number of cars loaded with lumber, but not one will go forward until the Government either abolishes the duty or say they won't abolish it. He continued: "My advice from the other side is to ship no pine lumber until the decision of the Government is known." Mr. Powell, dealer in lumber, said that if the Government reached no decision now much lumber would be waiting to be held till spring, on the chance that before then the Government would repeal the duty. "There's no easier way to make a dollar," he added. "I learn that the disposition of the Government is to ignore the McKinley tariff, and they are reluctant to acknowledge the action of Congress as bearing so close upon Canada's policy and Canadian commerce. They are, therefore, while willing to repeal the duty, anxious to find some justification for it aside from the mere provisions of the McKinley tariff. Hence the delay in reaching a decision."

BENDER'S "BIG SCHEME."

Mr. Bender, of Quebec, chief promoter of the big Labrador Railway "scheme," was here last night and left for the north to-day. He states that the denial of any interest in the project by Sir Hector Langevin and Sir Charles Tupper was unfounded for as no one ever pretended they had any interest in it. Of course, Sir Hector's support yet was counted on as he is a Quebec man. The scheme had been taken up in England by emigrant capitalists, and even now Mr. Wm. E. Balch and other English capitalists are in this country solely in the interests of the scheme. They had their own engineers, surveying the route of the railway, and their last report, covering three-quarters of the 350 miles, which is the total length of the road, was very satisfactory. There were absolutely no engineering impediments. Mr. Balch would wait for the return of the engineer towards the end of this month. He was impressed, Mr. Bender states, with the feasibility of establishing an ocean port at St. Charles Bay, in the Straits of Belle Isle, from which fast steamers could make the ocean trip to England in three days and thirteen hours. "It will," said Mr. Bender, "put Toronto within five days of England. Isn't that something? It would also enable England, in case of trouble with the United States, to land troops right in Canada, free from the hazards involved in the use of the Intercolonial. There is open water at the ocean port terminals. St. Charles Bay, so far as Mr. Bender's information goes. This statement was questioned last session by Sir Donald Smith, M.P. The Northern Pacific is anxious to connect with the Labrador Railway to secure a direct and short route to Europe. It would be just the route for perishable articles. The company will later on ask the Dominion Government for the ordinary subsidy. Mr. Bender is sanguine of success. He left to-day for Lake Temiscouage.

Mr. Edward Dowling, of Sydney, New South Wales, arrived in Ottawa to-day from Washington. He comes here as the representative of the Australian Natives' Association on a mission to collect information as to the working of federal and municipal institutions in the United States and Canada. This data is to be used by the Association for submission to the Australian people with a view to inducing them to establish a federation of the British colonies in the southern continent. The tariff question, Mr. Dowling thinks, is the great obstacle to federation.

A CURIOUS WILL.

Application has been made here for the probate of a curious will of the late Mrs. Lily Murray, wife of John David Murray. The estate is valued at \$40,000. To her husband she bequeaths \$100 per annum until he reaches the full age of forty years, the same to be payable in equal quarterly instalments and the first to be paid within the expiration of three months after her death. She also bequeaths him \$4,000, the same not to be paid over to him till he reaches the age of forty years.

A MURDER TRIAL.

The Russell and Prescott Assizes open to-morrow at L'Orignal, Justice Falconbridge presiding. The docket will be a light one, the only case of interest being the trial of L. J. Monrois and Mrs. Monrois for the murder of L. J. Monrois's husband. The prisoners were tried before Mr. Justice Ross last May, and after the evidence for the Crown was all in the Court adjourned for lunch and when Court was reopened an hour afterwards it was found that one of the jurymen was absent and for this reason the trial had to be postponed. Mr. A. Constable, barrister, will conduct the defence, while the prosecution will again be conducted by Mr. Britton, Q.C., of Kingston.

LIREL CASE.

At the Police Court, this morning, Mr. Fred L. Jones, correspondent, appeared in answer to a summons for criminal libel, taken out by the proprietor of the *Calendron* and *Spring* Hotel, also claiming of a statement published stating that the waters upon which the business of the hotel depends were medicated artificially by the proprietor. The statement was made on the authority of Dr. Groves, a local practitioner, and was used by a number of Ottawa and other newspapers, so it will not be hard for Mr. Jones to prove absence of malice. A charge of criminal libel will not hold. The case was adjourned till Saturday.

PERSONAL.

The Hon. C. C. Colby left this morning for Montreal.
Mr. Macintosh, M.P., has returned to the city from Quebec. It is rumored that he was sent there by Sir Hector Langevin to make an effort to get the McGroarty-Tarte libel case dropped.
Dr. McMillan and Mr. John McDougall, of Alexandria, were in the city to-day making arrangements for the reception of the ecclesiastics and other guests to be present at the consecration of Vinar-General McDonnell as bishop of Alexandria.

THE CATHEDRAL CHOIR STALLS.

(To the Editor of the Witness.)

Sir,—Would you allow me a little space in your valuable columns to draw attention to what I and many others consider a great deformity in our English Cathedral. I allude to the very hideous arrangement of jury chair stalls, which have been rigged up in the approach to the chancel. That they are totally unnecessary is plainly seen by the fact of the proper stalls, which are very handsome and properly placed, being empty, but for the occupation by a few ladies, who could easily be accommodated in some other portion of the building, thus allowing the stalls to be used for the purpose for which they were intended, and do away with the miserable scratch arrangement referred to, which blocks up the approach to the altar to such an extent that two persons can hardly walk abreast.

This fall I have only dealt with the question as regards the appearance of the place, but another very vital point to be considered is the proper ordering of the musical portion of the service, and from a long experience with choirs, I am quite prepared to state most emphatically that, in my opinion, with voices arranged as they are in the Cathedral, no organist can ever hope to attain efficiency in the musical rendering of the services. The musical portion of the service is, in nothing, is that more strongly demonstrated than in the proper arrangement and balancing of voices, when executing concerted music. How can a long straggling line of something like forty feet expect to perform in the same way that an equal number of voices compactly placed in close ranks can do. It is a question of sound, and if there were no stalls I might understand a rector and warden objecting to the expense of erecting them, but when very handsome ones do exist, and in the proper places from an acoustic point of view, I certainly do ask, Why spoil the look of the church and the effectiveness of the choir by putting such an eyesore as now exists?

I trust that my few remarks may have the effect of rousing others so that this much-to-be-deplored disfigurement may be removed, and our beautiful Cathedral left in the way its designer intended. A CHURCHMAN.

THE ENGLISH RACE.

AN AMERICAN GUY'S PRIDE IN IT.
Starting two months ago from a vast continent which the English race have made their own, where the English tongue, English laws, customs and manners reign from sea to sea, in my whole course around the globe I have heard that same tongue, seen the same laws and manners, found the same race. Have had proof of my own eyes of the splendor of their dominion and of the power, their wealth, their armies, their undreamable commerce, their magnificent possessions, their own unrivalled physical beauty and force—and I too am an Anglo-Saxon. In my veins, too, runs that virile tide that pulses through the heart of this lord of the earth—the blood of this clean, fair, noble English race!
It is worth a journey round the world to see "This royal throne of kings, this sceptred isle, This earth of majesty, this seat of Mars, This other Eden, mystic, fount of fire, This happy breed of men, this little world, This blessed plot, this earth, this realm, this England, This nurse, this teeming womb of royal kings, Feared in the providence of their birth, Renowned for their deeds as far from home, For Christian service and true chivalry, This land of such dear souls, this dear, dear land—England, bound in with the triumphant sea—And I understand now the full meaning of this trumpet-cry of love and pride from the greatest of earth's poets—an Englishman—*Miss Bland in the Cornopolian*.

THE QUEEN CITY.

(Special to the Witness.)

NOTES.
TORONTO, Oct. 7.—An agitation has been set on foot to secure the introduction of the Ontario local option liquor law in part of the county of Dufferin, which gave a majority for the Scott Act on the repeal vote a few months ago.

Mr. O. G. Staples will build a \$100,000 hotel at Thousand Island Park, if the trustees will allow wine for guests, and steamboats to beat the wharf on Sunday. The trustees will decline.
The Rev. Dr. McCormack, of Speedside, has accepted a call to Bethel Congregational Church.

PROHIBITIONIST NOMINATIONS

FOR THE HOUSE OF COMMONS.

(Special to the Witness.)
Pictou, N.S., via Stellarton, Oct. 7.—At a convention of the prohibitionists of this county yesterday it was unanimously decided to place two candidates in the field for the Dominion House of Parliament. Messrs. S. Archibald, of West River, and W. D. Taunton, of New Glasgow, editor of the *Vindicator*, were selected as candidates. Steps were taken to raise at once a thousand dollars and a quarter of the amount was at once subscribed. A ratification meeting was held in the evening addressed by the candidates, Mr. J. T. Bulmer, Mr. John A. Nicholls and others. They will make a red hot campaign.

BIRCHALL'S ALLEGED CONFESSION.

(Gazette.)

TORONTO, Oct. 6.—Private despatches of undoubted truth received to-night from Woodstock state that the sensational report of a partial confession by Birchall which appeared to-day in the *Globe*, is untrue. The only fact in it is that Mr. Birchall had an interview with her husband on Saturday morning. During this interview he broke down and cried, but the while protested his innocence to her. Mrs. Birchall and her sister will stay in Woodstock till after the execution.

THIS DRAW TO BE PLAYED OFF.

Mr. McLaughlin, secretary of the Shamrocks, states that the Toronto and Shamrocks will probably play off the draw in Toronto on the 15th. Asked how that could be arranged when the committee on Saturday last decided that the Montreal and Toronto should not play off their draw, Mr. McLaughlin smiled and said, "Well, isn't it a great tangle?"

FOR THE GENERAL HOSPITAL.

The Treasurer of the Montreal General Hospital acknowledges, with thanks, the receipt by the hands of George W. Hamilton, Esq., of the sum of one thousand dollars from G. C. Hamilton, Esq., of Colorado, eldest son of the late Hon. John Hamilton, in his lifetime of the Senate of Canada.

COMMERCIAL.

WITNESS OFFICE, Tuesday, Oct. 7th.

WHOLESALE PRICES.

The British breadstuffs markets show some improvement. Wheat is firmer, and corn is firm. Berseem's cable advice to-day are as follows:—Cargoes of coast, wheat, firmer; corn, firm. Cargoes on passage and for shipment, wheat, firmer; corn, firm. California wheat, promptly to be shipped, 36s 4d; do, nearly due, 36s 9d. French Country markets, steady. Liverpool standard California wheat, 7s 3d to 7s 1d; do, fair average red winter wheat, 7s 1d; do, white Michigan wheat, 7s 1d. Liverpool mixed maize, 4s 1d; Canadian peas, 7s 7d. Weather in England, wet. Minnesota first bakers' flour, 20s. Number of wheat cargoes, waiting, two; sold, two. Arrivals of maize cargoes, one; waiting, one.
The Chicago wheat market opened 1/2 of a cent per bushel higher at \$1.05 1/2 Dec. and \$1.04 1/2 May, and advanced to \$1.04 1/2 December and \$1.03 1/2 May. Receipts, 44,000 bushels, and shipments 19,000 bushels. Corn opened 1/2 of a cent per bushel higher at 51 1/2 and sold up to 52c May. Receipts, 357,000 bushels, and shipments 269,000 bushels.
GRAIN.—The market is firmer in sympathy with foreign markets, but business remains dull.
We quote to-day:—No. 1 hard, Manitoba wheat, nom.; No. 2 do, nom. Oats, 76c to 78c per 60 lbs. in store; 76c to 77c nominal. Quia, Quebec, 45c to 46c; Ontario, 45c to 46c. Corn, 65c, duty paid; 65c in bond. Barley, 60c to 62c for feeding; 65c to 70c for malting. Rye, 65c to 66c.
Flour.—There is no change to report in the market which remains quiet but steady. No sales were reported on "Change." We quote to-day:—Patent Winter... \$5.25 to \$5.60; Patent Spring... 4.00 to 4.30; Straight Roller... 4.00 to 4.30; Extra... 4.00 to 4.30; Superfine... 3.75 to 4.00; Fine... 3.50 to 3.75; City Strong Bakers... 0.00 to 0.00; Strong Bakers... 0.00 to 0.00; Superfine... 1.50 to 1.75; Extra (hops)... 2.20 to 2.25; Superfine (hops)... 1.90 to 2.10; Oatmeal, standard, per bag... 2.25 to 2.35; Oatmeal, granulated... 2.40 to 2.50; Oatmeal, rolled... 2.40 to 2.50.
Eggs.—We quote to-day to 17 1/2 and up to 18c for fine candled.

How Paucers.—We quote as follows: Canada Short, \$17.40 to \$18.00; Western Short, \$17; Clear Hens, \$16.00; City Hens, 12c to 13c; Western Lard, 9c to 9 1/2; Canadian Lard, 9c to 9 1/2; bacon, 10c to 11c.

Fruit.—Basket fruit is going out well at about yesterday's prices; apples are coming in a little more freely and are firm. The following are the quotations:—Apples, \$3.00 to \$3.40; grapes, blue, 25c to 30c; green, 25c to 30c; do, red, 4c; do, yellow, 4c; do, orange, 8c per barrel; pears, 8c to 10c; do, banana, \$1.25 per bunch.

DAIRY PRODUCE.
Cream.—The ruling price at Union was 9c; at Little Falls business was dull. Over 10c has been paid at the Township and at the boats for September, but the local trading between dealers is done at 9c.

Butter.—Lull and quiet. We quote: Choice August Creamery, 19c to 20c; early makes, 17c to 18c; Select Townships, 19c to 20c; Western dairy, 18c to 19c.

Wholesale Groceries Market.
SUGARS are moderately active; a reduction of 1/2 has been made on granulated within a few days. Foreign advice note steadiness in New York and quietness in Great Britain.

Milk.—The advance seems checked. A considerable purchase here on Boston account some weeks since started the market for Barbadoes. There were also, it is reported, large purchases in the Lower Province some quarter. Pure is now here 5 1/2 to 5 3/4 on ordinary trade for cows, Ayres firm.

TEA.—Desirable low grade Japan are higher; the advance from the lowest point is from 3c to 4c. Supplies are moderate, and the quantity at place of growth is not large. Good to choice Japan are steady. China Green Tea are higher for the lower qualities. Young Hyson particularly. The auction sale for Thursday will likely command a good attendance. Black Tea are higher. The tea market may be rated as firm all round.

Coffee is firm at the advance some time since made. Spruces.—A moderately active market can be reported. Nutmegs are quiet firm and as high as ever. Pepper quiet. Cloves and ginger firm.

FRUIT.—Valencia raisins are rated as advanced at present growth. Here the price is 10c to 7c. Currants 6c; this article is firm in Greece. Sultana raisins are higher, and will be close up to 15c on present cost basis. Figs, choice, 15c. Prunes will be very high and very scarce. Canned fruit firm.

Oil.—Steam refined seed, 55c to 57c. Cod oil quiet. Petroleum steady.

SALT, 52c for coarse; 51 1/2 to 51 1/4 for factory.

SAFETY.—Codfish are very scarce at from 30c to 35c. Salmon in line, \$1.35 to \$1.45.

THE CHEESE MARKET.

UNION, N.Y., October 6.—The cheese market to-day was a much better one than that of a week ago. There was more demand and better prices prevailed. The highest prices paid were for September cheese. There is a considerable quantity of August stock still offering, but as a rule it sells from 10c to 15c below September. Transactions: 4 lots, 400 boxes, 85c; 54 lots, 5,497 boxes, at 90c; 36 lots, 2,772 boxes, at 90c; 19 lots, 1,242 boxes, at 90c; 2 lots, 301 boxes, at 90c; 13 lots, 959 boxes, on commission, total, 125 lots, 11,951 boxes; ruling price, 85c. Transactions for the same date last year aggregated 13,653 boxes; ruling price, 90c.

REPAID, N.Y., October 6.—Cheese market quiet; 700 boxes East Out, sold at 95c; Cloverfield offered 1,000 at 95c, but had not sold when board adjourned.

LITTLE FALLS, N.Y., Oct. 6.—There is little improvement in the prices paid for cheese to-day, although the price remains about the same as last week. There is a general feeling that at the prices which now prevail for September is good property to hold. Transactions: One lot at 85c, 1 lot at 85c, 45 lots at 90c, 30 lots at 90c, two lots, at private terms; 12 lots on commission; total, 7,043 boxes. Sales of 85c boxes farm dairy cheese at 85c to 90c, bulk at 90c to 95c. Eighty-seven packages of farm dairy butter sold at 19c to 21c, bulk at 20c, and 16 packages of creamery at 21c.

LIVERPOOL PROVISION MARKET.

CHEESE has been quiet this week, the country demand having been decidedly limited. Holders of choice cod August have been firm, but the sales have only been on a small scale, and all July makes buyers have been met by holders in price. We quote, to-day, finest cod August Canadian, white or colored, 45c, per cent. Finest States or Canadian (July), 45c, per cent. 45c to 46c, per cent. Grades between 45c to 46c have met with a fair enquiry, and Skins in moderate demand at 17s to 24s.

BUTTER with material alteration. Finest packages of creamery are in steady demand at 50c to 55c per cwt. We quote Irish butter—Cork firsts, 85c per cwt.; second, 77c; and thirds, 65c.—Hodgson Brothers' Circular, 27th September, 1890.

TORONTO MARKETS.
TORONTO, Oct. 7.—Spring wheat, No. 2, 90c to 92c; No. 2 red winter, 92c to 94c. Barley, No. 1, 61c to 63c; No. 2, 56c to 57c; No. 3 extra, 53c to 55c. Peas, No. 2, 60c to 61c. Oats, No. 2, 40c to 42c. Flour, extra, \$3.20 to \$4.25; straight roller, \$4.40 to \$4.50. Market quiet. Sales: No. 2 Manitoba hard for delivery this week at \$1.12, and to arrive at \$1.14. Oats, to arrive, at 41c, and on track at 40c to 41c. Peas, outside, at 75c.

SPECIAL NOTICE.
