

## ALLIED TROOPS MAKE ADVANCE ON GALLIPOLI PENINSULA

### Von 500 Yards of Ground, Including a Turkish Trench. Australians Repulsed Determined Attack on Their Position. Ultimate Surrender of Fortress of Kovno is Expected Soon. Situation is Most Critical. Italians Advance Through Passes of Alps and Capture Long Line of Austrian Entrenchments in Tolmino Region.

London, August 18.—(Special)—The fall of the Russian forts on the southwest side of Kovno makes the situation of that fortress most critical, and its ultimate surrender is expected here soon.

The Russian armies apparently have not been able to reorganize sufficiently to check the Austro-German advance, which is being pushed steadily against the ring of strong fortresses which form the outer defence to the Petrograd provinces.

The armies of the central powers show no disposition to relax pressure on the eastern front, nor are they likely to do so until they have tried once more to separate the Russian northern and southern armies and capture Brest-Litovsk.

### SUCCESS AT DARDANELLES.

News from Turkish sources that the new landing party on the Gallipoli Peninsula near Suvla Bay has been engaged heavily, is confirmed in an official report to-day from General Sir Ian Hamilton, the British commander-in-chief at the Dardanelles front, stating that the British left had won 500 yards of ground, including a Turkish trench.

Sir Ian also reported the repulse of determined Turkish attacks against the Australian position.

### LITTLE CHANGE IN NEAR EAST.

Little change is reported in the diplomatic situation in the Near East. Former Premier Venizelos, of Greece, who asked for four days in which to study conditions before deciding whether to form a new cabinet, is believed to have arrived at an understanding with King Constantine, but it is not considered probable that the result will be the early entry of Greece into the war on the side of the Entente Allies.

### FURTHER ADVANCE ON GALLIPOLI PENINSULA.

London, August 18, 11.35 a.m.—(Special)—A further advance of 500 yards by the Allied troops on Gallipoli Peninsula is announced in a report from General Sir Ian Hamilton, the British expeditionary commander-in-chief, given out here to-day. The statement follows:

"Sir Ian Hamilton reports that in the southern zone the situation was unchanged during the 14th and 15th. The Turks kept up the usual artillery fire, without much effect.

"In the northern zone the right flank of the Australian and New Zealand army corps' position was heavily attacked during the night of the 14th-15th, but all attacks were repulsed. At Luvla the troops on the left flank made a short advance on the afternoon of the 15th, with a view to straightening out the line. They moved forward under considerable gun and rifle fire, and gained about 500 yards, capturing a Turkish trench and taking two officers and twenty other prisoners."

### FURTHER ITALIAN ADVANCES THROUGH PASSES OF THE ALPS.

Rome, August 18.—(Special)—Further Italian advances through the passes of the Alps, and a brilliant bayonet charge which captured a strong line of Austrian entrenchments in the Tolmino region, are described in the official report issued to-day at Army headquarters. The statement says:

"In the rugged Orlier ranges between the upper valleys of the Adda and the Adige, one of our detachments set out during the night of August 16, from Capanna, Milano, and divided into squads joined by ropes, crossed the Camosci Pass (9,500 feet high) and the Vendretta di Dampo, climbed the snow-capped summit of Turckett Spits (10,500 feet), and surprised groups of the enemy. It then proceeded to Hinter Madatasch Spits (10,400 feet high) occupied by a detachment of the enemy, which it attacked and dispersed and solidly occupied the summit.

"In Upper Rienz further progress by our infantry is reported. We occupied Sattlerberg west of Lanze Alpe.

"In the Monte Nero section we captured several of the enemy's trenches in the neighborhood of the Visio Peak. Later a counter-attack by the enemy on our Visio positions was vigorously repulsed.

"In the Tolmino zone our brilliant offensive developed against the hills of Santa Maria and Santa Lucia, commanding positions situated to the right of the Isonzo. After the customary preparatory shelling by artillery, our infantry dashed forward with the bayonet and stormed a line of strong entrenchments extending along the western slopes of these heights.

"The enemy suffered very heavy losses. We captured seven officers and 547 men, four machine guns, and a great quantity of ammunition."

## TEUTONIC ADVANCE ON PETROGRAD

### Military Observers Question If Grand Duke Can Hold Armies Intact

London, August 18.—(Special)—Military observers are questioning if the Russians, with Kovno in German hands, will be able to hold the Brest-Litovsk line of defence, in the general direction of which the Grand Duke Nicholas' armies have been falling back since Warsaw was taken.

A Teutonic advance on Petrograd, also, is being discussed in Russia and England as a possibility.

### GERMANS CLAIM KOVNO HAS FALLEN.

Berlin, Aug. 18, by wireless to Sayville.—(Special)—The following announcement was made here officially to-day:

"The fortress of Kovno, together with all the forts and an amount of war material, which has not been determined, has been in German hands since last night.

"More than 400 cannons were taken. The fortress was captured by storm in spite of the most tenacious resistance of the Russians."

## SWISS TO SIDE WITH GERMANY

### U. S. Minister at Berne Advises Washington on This Point

Washington, Aug. 18.—In a report sent by mail to the State Department, Pleasant A. Stovall, the American minister at Berne, Switzerland, indicates that he has been given a very strong intimation from official sources that the Swiss Government is preparing to take sides in the European war with the German allies on account of resentment over alleged interference with Swiss trade by the Governments of the Quadruple Alliance.

Minister Stovall's report deals with conditions in Switzerland, with particular reference to the effect of the war on trade and commerce. He says that on account of the blockade instituted by Great Britain and her Allies, Swiss trade has been very largely cut off, and there has been a shortage of food, with consequent suffering.

## ZEPPELINS MAKE RAID ON LONDON

### Several Persons Were Killed But Damage to Property was Slight

London, August 18.—(Special)—The outskirts of London were raided last night by Zeppelins. Several persons were killed. The damage to property was not important.

London has been visited previously by German dirigibles during the war. On the night of May 31st, Zeppelins made an attack on a district described in the official communication merely as the Metropolitan. On that occasion ninety bombs were dropped. Four persons were killed and a few others injured.

The latest raid is the third of several attacks, which after a lapse of several weeks, began on Monday of last week. On the two previous occasions twenty persons were killed and 37 injured.

### FOUR ZEPPELINS IN THE RAID.

London, August 18.—(Special)—A Central News despatch from Amsterdam says four Zeppelins were sighted passing over the islands of Flieland and Wieringer off the Netherlands coast. The dirigibles were sailing from the east in the direction of the English coast. The hour of their appearance is not stated.

## GERMAN LOSSES ARE 3,500,000

### Kaiser's Staff Stunned by Figures Were Forced to Change Tactics

### HAD TO WITHDRAW TROOPS TO ASSIST AUSTRIA AGAINST ITALY.

Petrograd, August 18.—A Russian expert points out that the German lists of losses showing 1,616,761 casualties do not include 26 Bavarian, 174 Saxon and 228 Wurtemberg lists nor forty lists of losses of the German fleet. These make a total of 3,500,000 to which now must be added 120,000 suffered by the Prussians during the last battles.

These figures, the expert states, so stunned the German Staff that, beside recognizing the prostration of its plan of envelopment of the Russian army, it was compelled to withdraw six corps from the fighting line. These were then used to form new reserves of about two corps, amounting in strength to only two regiments, which had been sent against Serbia or to assist Austria against Italy.

It is considered here that absence of fights along the left bank of the Bug is due to the Russian army having successfully established connection with the garrison at Brest-Litovsk.

## TWO NORWEGIAN STEAMERS SUNK

London, August 18.—(Special)—The Norwegian steamers Romulus and Mineral have been sunk. The crews were saved.

The Mineral was a vessel of 649 tons gross, was built in 1890, and was owned in Narvik.

The Romulus, of 629 tons gross, was built in 1893 and hailed from Kragero.

## EMPEROR JOSEPH'S BIRTHDAY TODAY

### PASSING OF 85TH MILESTONE OF AUSTRIAN MONARCH TO BE CELEBRATED IN BERLIN

Berlin, Aug. 18, via London, August 18.—Austrians living in this city will celebrate today the eighty-fifth birthday of Emperor Franz Josef, and the Germans will honor the ruler of their ally by a display of flags. The ceremonies will begin with a solemn service at Saint Hedwig's Church, followed by a reception of the Austro-Hungarian Embassy. A huge demonstration has been arranged for the evening by the combined Austro-German organizations of the city.

Every Austrian soldier in the field will be reminded of the Emperor's birthday by receiving an individual gift.

## THE WEATHER

Moderate to fresh winds, mostly northerly winds, fine and cool.

## Enthusiastic Rally at Lennoxville. Machine Gun Campaign Launched.

Following the delivery of several stirring speeches at a large and enthusiastic meeting held in the Town Hall, Lennoxville, last night, under the auspices of the Lennoxville Board of Trade to discuss the question of raising funds for a machine gun, it was unanimously resolved to follow the example of several other places in the Townships and organize a campaign for the purpose. The resolution was moved by Captain S. E. Francis and seconded by Mr. Arthur Ward. If arrangements can be made with the Government the gun will go to increase the equipment of the 5th Canadian Mounted Rifles, otherwise, it will be given at the discretion of the Government to any other regiment in need of one.

On the motion of Mr. Hugh McFadden, seconded by Mr. L. G. T. Lynch, an executive committee was appointed composed of Messrs. C. S. White, C. F. Wiggitt, A. T. Speid and R. McMurray with power to add to their number. These gentlemen have arranged to conduct a whirlwind campaign in Lennoxville to-morrow (Thursday). The village will be divided into four sections and a house-to-house canvass will take place. Each member of the executive committee will take charge of a district and will choose a team mate to accompany him.

At the close of last night's meeting the subscription list was opened and a very encouraging start was made. The reading of a letter from Mr. J. A. McClary heartily approving of the scheme and intimating that the Experimental Farm would contribute \$200 was loudly cheered.

### TELEGRAM FROM MILITIA DEPARTMENT.

The chairman read a telegram from Senator Lougheed, the acting Minister of Militia, as follows: "Government will gratefully accept gift of machine gun, Lewis gun, costing \$1,000, only one obtainable. Purchase can be arranged through this department. Many thanks for your endeavor in this direction."

### CANADA'S DUTY PLAIN

Mr. T. J. Parkes in a vigorous speech outlined the 40 years' preparation for the war on Germany's part and described her plans for the conquest of Europe. He showed how false had been the prophecy that India would revolt and declared that one of Germany's ultimate objects was the possession of Canada, "the brightest jewel in the British crown."

### TEN GUNS FROM TOWNSHIPS

He called upon Mr. V. E. Morrill, of Sherbrooke, to speak first, and who reviewed what had already been done in the Townships in the way of providing machine guns. The Lennoxville gun would make the tenth already subscribed or promised from the Eastern Townships as follows: Subscribed through Sherbrooke Record: A. O. Norton, Coaticook 1; H. A. Norton, Ayer's Cliff 1; East Angus 1; Richmond, Melbourne, Cleveland 1; I. O. D. E., Cowansville (being collected) 1; Megantic County 2; Knowlton (being collected) 1; Lennoxville 1.

Total from E. T. 10  
In conclusion he said: "The end of

this war will come and it will bring with it, we all confidently believe, the triumph of the Allies' cause, the downfall of militarism and the establishment of a permanent peace. When that happy day arrives and the people of this community and of other communities gather to welcome home the war scarred heroes who have fought their battles it will be a matter of very great satisfaction to all those who, though remaining at home, have made some real sacrifice for the cause, to feel that they have earned a share in the final triumph. According to the measure of our patriotism will we give and according to the measure of our sacrifice will we share in the ultimate victory."

### CANADA'S DUTY PLAIN

Mr. T. J. Parkes in a vigorous speech outlined the 40 years' preparation for the war on Germany's part and described her plans for the conquest of Europe. He showed how false had been the prophecy that India would revolt and declared that one of Germany's ultimate objects was the possession of Canada, "the brightest jewel in the British crown."

### CANADA'S DUTY PLAIN

Rev. R. W. E. Wright thanked the Sherbrooke speakers for their eloquent addresses and heartily supported the project. As a lusty child of the mother country which was now able to take care of itself, he felt it was the duty of Canada to help Great Britain in her time of need. The oppression and crime which had deluged Europe in bloodshed during the past year was a repetition of Prussia's fiendish outbursts on former occasions, only this time the outburst was unparalleled in the history of nations and could only be stamped out by the utter extermination of Prussian militarism. That could certainly be brought about if every son and daughter of the Empire did their part. Possibly the majority of Canadians did not realize the terrible nature of the war, and believed it could not easily affect Canada. But the same things which happened in Belgium and Northern France would happen here if the allies were beaten and Canada held back.

Mr. Wright referred to the generosity of Canadian citizens as a record to be proud of and especially praised the ladies for their splendid sacrifice and effective work in connection with the Red Cross, Belgian relief

## GERMAN MENACE IN UNITED STATES

### George Gordon Moore, Detroit Capitalist, Sounds a Note of Warning

STATED THAT THERE ARE 500,000 RESERVISTS SWORN TO LOYALTY TO KAISER.

Detroit, Mich., Aug. 18.—(Special)—George Gordon Moore, Detroit capitalist, international figure in the European war through his friendship for Sir John French, and the only American who has been a favored guest "somewhere in France," sounded a remarkable note of warning last night against what he called "The German menace," in an address before the Annual Convention of the Veterans of Foreign Wars. His address, which was punctuated by hitherto unpublished charges regarding German American activities in the United States, was received with vociferous applause in the Hotel Statler banquet hall.

An invisible army of German reservists, 500,000 strong, sworn to loyalty to Kaiser Wilhelm, was conjured up by Mr. Moore as the prime factor in his self-styled menace.

## MORE THAN 60 LIVES LOST

### Damage Estimated at Millions of Dollars By Storm on Gulf Coast of Texas

Dallas, Texas, Aug. 18.—(Special)—More than three score lives were lost and property damage estimated at millions of dollars was caused by the great tropical storm which swept the Gulf Coast of Texas yesterday and the day before, according to information that today trickled through the veil that has surrounded the stricken district because of broken wire communication.

Houston, Galveston, and Beaumont remained practically cut off from the outside world, but wire companies expect to be able to communicate with all three places before night. Although rain is still falling in some districts the wind had lessened in velocity.

### HIGH WINDS ARE SUBSIDING, BUT VERY HEAVY RAINS STILL FALLING.

Dallas, Texas, August 18.—(Special)—Definite news from Galveston, Houston and Beaumont, three isolated South Texas cities, still was lacking early to-day, but the high winds which have been blowing over that part of Texas between the Gulf and Dallas, and which have probably caused thousands of dollars damage to cotton and corn crops and to small buildings, apparently were dying down.

Heavy rains still were falling, but in the vicinity of Waco and Dallas the wind subsided to a breeze.

It is generally believed all danger now has passed. The work of rehabilitation will begin immediately.

## ASSISTANT P. M. GENERAL TAKES HIS LIFE

Ottawa, Aug. 18.—(Special)—Alfred Fiset, acting postmaster-general shot and killed himself with a rifle in his home here last night.

Fiset, who was in his 58th year, was brought here from Quebec city a few years ago by Hon. L. P. Pelletier and appointed law clerk of the Post Office Department.

### GERMANY TAKES OVER OAT CROP OF 1915.

Amsterdam, Aug. 18.—The German military authorities have commandeered the 1915 oat crop of Germany.

## VENIZELOS TO FORM CABINET

### Notified King Constantine of Greece That he Will Set About Task

ROME REPORTS THAT ROUMANIA, BULGARIA AND GREECE ARE PREPARING FOR WAR.

London, August 18.—(Special)—Ex-Premier Venizelos to-day notified King Constantine of his readiness to form a new Grecian Cabinet in succession to the Gounaris Ministry, which resigned at the opening of the Grecian Parliament yesterday, according to a despatch to the Central News Agency from Athens.

ROMAN PRESS ELATED. Rome, August 18, via Paris.—The press of Rome is a unit in welcoming the victory of former Prime Minister Venizelos in the Greek Parliament, which is interpreted by the newspapers as definitely committing Greece to the cause of the Entente Allies.

SAW GREEK MINISTER. Geneva, August 18, via Paris.—The Tribune prints the following under a Bucharest, Roumania, date line: "King Ferdinand yesterday gave a long private audience to the Greek Minister, who is a member of the party headed by E. Venizelos."

PREPARING FOR WAR. Rome, via Paris, August 18.—Reports received by the Italian Government from Roumania, Bulgaria and Greece show that military preparations in those countries are being carried on with intense activity. In some quarters here this is taken as an indication that these states are nearing a decision as to their policy in the war.

## INVESTIGATE FRANK LYNCHING

### Governor of Atlanta Takes Steps to Find Out Parties Guilty

Atlanta, Ga., August 18.—(Special)—With the arrival to-day of Governor Barry from Fitzgerald, Ga., where he delivered an address yesterday, it was expected definite steps would be taken for the investigation of the lynching of Leo M. Frank. The statement made by R. E. Davidson, chairman of the State Prison Committee, last night, that he did not believe any one could be blamed for conditions which made it comparatively easy for the mob to take Frank from the prison, seemed to indicate that the prison feature might not be investigated immediately. The commission has absolute authority in such matters.

## LAKE MEGANTIC NOTES OF NEWS

### RECENT STORM DID CONSIDERABLE DAMAGE TO THE STANDING GRAIN.

Lake Megantic, Aug. 18.—(Special)—There was a very heavy thunderstorm here on Monday afternoon and a great quantity of rain fell. Grain of all sorts which is of luxuriant growth is badly lodged, and much of it will not be able to rise again. The thunder was very heavy and the lightning very vivid.

So much rain with warm, muggy weather is falling hard on the farmers who have not finished haying and much hay is lying out spoiling.

### RUST ON POTATOES.

The rust is also striking deep into the potatoes and the prospects for the crop are looking dubious and it is feared there will be lots of rot in it.

### WATER HIGH IN LAKE.

The water in Lake Megantic is almost up to high water mark, the gauge showing the water awash at 7 feet above low water, on Saturday.

### NOTES.

Mr. George McLeod, of Echo Vale, and Mr. and Mrs. Jos. Hird, of Boston, Mass., who are here on a visit to Mrs. Hird's mother, Mrs. J. B. McDonald, went up to Skinner, Me., on Monday where they are guests of Mr. and Mrs. Colin McLeod.

## Would not be Without Zutoo Tablets At Any Cost

Such is the statement of Mr. A. O. Norton, of Boston, the largest Jack Manufacturer in the world. His voluntary testimonial regarding ZUTOO follows:

286 Congress St., Boston, Mass.

"I have been a sufferer from Headache since childhood and have used all, or nearly all, the so-called cures on the market. Some months since my attention was called to Zutoo Tablets and I have been using them ever since with the most gratifying results. I find they cure a 'sick' or 'nervous' headache in a few minutes and leave no bad effects. My family use them whenever needed with equally good results. I have frequently given them to friends who were suffering from Headache and they never failed to give quick relief. I always carry Zutoo Tablets in my grip on the road and WOULD NOT BE WITHOUT THEM AT ANY COST."

## A Remedy For All Pain

"The efficiency of any drug" says Dr. C. P. Robbins, "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to us for, i.e. something to relieve his pain. If we can arrest this promptly, we have taken the most valuable step in us for the other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is A-K Tablets. Many and varied are the ailments which I have cured with them. I have put them to the test on many occasions, and have never been disappointed. The bad after-effects of the quinine and kamnia Tablets are also excellent for the headache from improper digestion; also for headaches of a neuritic origin, and especially for women subject to pains certain times. Two A-K Tablets give prompt relief, and in a short time the patient is free to go about as usual." These tablets may be obtained at all druggists. Ask for A-K Tablets. They are not to be confused with headache, neuralgia and all pains.

Old Resident Tells Interesting Anecdotes of the Old Times in Village

EIGHTY YEARS AGO THERE WERE ONLY ABOUT EIGHT BUILDINGS WHERE VILLAGE NOW STANDS.

Sutton, August 18.—(Special)—Mrs. William Wilkinson passed her 80th birthday at her home here on Monday, August 16th, in sight of the home where she was born 80 years before, which still stands and is now occupied by the family of Mr. L. E. Clark on Main street. Mrs. Wilkinson's maiden name was Emily Squires, was a daughter of the late Mr. and Mrs. Lewis Squires and she is the only surviving one of the family of eleven children. Her husband died six years ago this September. Mrs. Wilkinson is as clear and bright in her mind as one of the younger generation, while she can relate many historic incidents of bygone days in Sutton. One incident she relates to the effect that her parents who owned nearly all the land in that part of the village from the railway up to the Catholic Church, lived in a 20 x 20 log house not far from what is now the north end of Western Ave., and her parents needing more room for their family were to move into the house where she was born. Mr. Squires made a bee to move the frame house near to his log cabin, and many men and ox teams gathered to move the building. However, the new quarters then building for old Dr. Cutter who at that time lived in the frame house, were not ready, and so the old doctor could not move and that he was of no avail. The house then building for the doctor was later to be turned into a hotel which stood near the site of Robinson's Mountain View House and was burned in the great Sutton fire. Later on, Mrs. Squires getting tired of waiting for the house to be moved, decided to take her little family and move into the frame house. This was after Dr. Cutter had moved out and Mr. Squires was absent from home and on his return he found his family had moved down to the house, so it was never moved up the hill. Both Mr. and Mrs. Squires died in this house and several of their children were born there, including Mrs. Wilkinson. Thus, the house must be nearly 100 years old. At that time there were but eight houses in what now stands the Catholic Church, clear down to Moffatt's Corner, which is one mile from this village on the road towards Abercorn, and two, if not three, more log houses. At this period between 85 and 100 years ago the eight houses were owned, as Mrs. Wilkinson states, by Lewis Squires, Sewell Scofield, Dr. Fred Cutter, Sr., and Mr. Squires, Lucius Billings on the site.

Many changes have come over Sutton since those early days and Mrs. Wilkinson has seen many of them in the passing. She always lived here except for three years in Potton, one year in Lyndonville, Vt., with a son, and ten months at North Troy, Vt., with her daughter, Edith (Mrs. Alton Place).

Mrs. Wilkinson was the mother of six children only four of which survive. Those living are John, of New York; Annie, who lives with his mother; Annie (Mrs. Richard Wood), of Iraburg, Vt., and Edith (Mrs. Alton Place) of North Troy, Vt.

It is the wish of very many friends that the kind old lady may pass many more milestones ere she lays down life's burdens.

DEATH OF MRS. JOHN NEWTON, SUTTON.

Mrs. John Newton passed away on Monday morning after a brief illness aged around 80 years. Her husband died here several years ago. Mrs. H. Mills was called to care for her during her last illness. Both the late Mr. and Mrs. Newton were born in Australia but came to Canada around forty years ago and purchased the Mike Fay farm. Both have now gone to a well earned rest. Funeral takes place today (Wednesday).

PICNIC AT BROME LAKE. In spite of the threatening weather on Friday, Aug. 13th, several families connected with the Advent Church drove to Foster Park and held a picnic in the interest of Mr. and Mrs. Norman Brock, who intend leaving Sutton about Aug. 21st to make their home at Belvidere, Vt. Mr. and Mrs. Brock have been very active workers in the Advent Church and are leaving a great many friends here who wish them success in their new home and work. Mr. Brock was licensed by the Advent Conference last June and is taking up church work with the Belvidere Church. It is pleasing to see the young men interested in Gospel work and it is believed Mr. Brock will do well in the new field.

Mr. Brock is a son of the late John Brock of Glen Sutton, and he recently sold out his farm to Mr. Fleury for \$4,000 to take up ministerial work.

THE CAMPAIGN IN BROME COUNTY

TEMPERANCE MEETINGS AT SUTTON WELL ATTENDED AND MUCH INTEREST WAS MANIFESTED

Sutton, August 18.—(Special)—The launching of the prohibition campaign in this village on Sunday had many hopeful indications that augured well for the success of the cause. In the morning the Rev. Mr. Hinton of Cowansville gave a masterly and inspiring address on the no-license issue, in the Advent Church to a large audience, which furnished his hearers much food for reflection and which received much commendation from his audience.

Ex-Alderman Carter, President of the Quebec Branch of the Dominion Alliance, took charge of the services in the Methodist Church in the absence of the Pastor, the Rev. F. J. Hayden, who was filling the pulpit of another minister in the county, who was exchanging pulpits on the occasion. Mr. Carter gave an address which coming from a once Sutton boy, who attended the High School here in the old days when it was held in the upper rooms of the old Town Hall, had a most decided home flavor.

He selected for his discourse the first three verses of the 13th Chapter of Numbers and the remaining from the 17th to the close of the Chap. He had his audience well in hand and did not fail to impress upon his hearers the moral of the Chapter just read, that as God was their leader they must not hesitate to tackle the hydra-headed foe known as the licensed liquor traffic which as he was addressing them as professed members of the Church of Christ he could not see how they could hesitate to give their vote against it on the 16th of September and for God and Home and Native Land.

The evening meeting held in the Methodist Church, was a union meeting of the Protestant churches in this place and was addressed by the Rev. Mr. Hinton and Ex-Ald. Carter, the Rev. A. Wallace acting as chairman.

U. S. WARSHIPS NEAR CARRANZA

HE IS EXPECTED TO REJECT THE PAN-AMERICAN APPEAL.

Washington, Aug. 18.—Responses to the Pan-American appeal calling upon the Mexican factional leaders to end their civil strife were being awaited by Administration officials to-day, although both Generals Carranza and Villa have received the communication.

That Carranza will make an unfavorable response to the appeal on the ground that foreign intervention would be unwelcome to the Mexican people, is the belief of his representatives here. His friends claim he will say that he already has brought peace in a large part of Mexico; that he is in full control of that territory; that he is restoring order, and that after removal of the capital from Vera Cruz to Mexico City he will consent to confer with the revolting factions. In other quarters, however, it was said that he might agree on a conference based on proportional representation.

Secretary Daniels has ordered the battleships Louisiana and New Hampshire, en route to Southern waters, to proceed immediately to Vera Cruz, where they are due to arrive Wednesday, to replace the gunboats Marietta and the Sacramento. The Marietta has been ordered to proceed because of difficulty in getting American ships supplies out of that port. Secretary Daniels explained that no further alarming reports had come from Vera Cruz and no trouble was looked for.

RARE WAR STAMPS. The first set of postage stamps issued by any of the European countries, containing war scenes, has just arrived in this country. They have been issued by Austria. While available for postage, they are really charity stamps, as they are sold at a price slightly higher than the prevailing postal rate.

There are five stamps in the set, their respective values being three, five, ten, twenty and thirty-five heller, the heller of Austria being equal to the German pfennig, about one-quarter of a cent. The stamps are oblong in shape, very neatly engraved, with the war scene in an oval surrounded by the words "Kaiserliche-Konigliche Osterreichische Post."—The Imperial and Royal Austrian Post.

The three-heller stamp is purplish in color, with a view showing fighting in the trenches. The five-heller stamp is green with a cavalry scene. The ten-heller stamp is red, showing one of the big howitzer guns being prepared for firing. The twenty-heller stamp is ultramarine in color with a beautifully engraved view of an aeroplane in flight.

The values are in figures in the corners at the bottoms of these stamps, with the additional charity tax value in the centre. The three-heller stamp represents an additional value of one heller, the five and ten heller stamps have an extra value of two hellers, and the two highest values have an additional value of three hellers over the regular postal rate.—New York Times.

Mr. Scott was of a quiet and retiring nature and leaves a wide circle of friends to mourn his loss.

"THE GODDESS" HUGE SUCCESS. Perhaps one of the most sensational steps in the motion picture art was brought forward when "The Goddess" was conceived and released by the Vitagraph Company, as this marks the era of the continued photoplay in chapters. It is known and conceded that serials have been on the wane, particularly the blood and thunder type which lack the necessary heart interest and continuity, and are nothing but a series of thrills loosely joined together. Gouverneur Morris, the author of the story, wrote "The Goddess" in its entirety, and Charles W. God-

cliation by the Special Committee which was organized to make arrangements for the Patriotic Mass Meeting held at Little Lake on August 8th.

"In accordance with the wishes of this Association expressed at a former meeting, a Patriotic Mass Meeting was organized and held at Little Lake Park on the afternoon of Sunday August 8th. The meeting was a most enthusiastic one, over 1000 people being present, and good results are looked for—particularly in any forthcoming recruiting campaign in this district. The speakers for the occasion were Hon. P. E. Blondin, Minister of Inland Revenue, and M. W. White, K. C. of Montreal and Lieut. Owen of the 73rd Highlanders, Montreal. The thanks of the Committee are due to these gentlemen, also the Harmony Band for their services generously given on this occasion, also to the Record for their kindness and courtesy in regards to advertising, also to Mr. G. L. DeLottinville and Mr. E. C. Fraser for their untiring efforts to bring this meeting to a successful conclusion. The expenses in connection with this will be in the neighborhood of \$30.00. All details not having been received as yet, (Signed) Helen B. Fry Secretary, Special Committee.

LATE MRS. NORBERT BOURQUE. The funeral took place yesterday morning at the Church of St. Jean Baptiste, East Sherbrooke, of the late Mrs. Norbert Bourque, mother of Mrs. C. E. Therrien, whose death occurred on Sunday at the age of 87 years. The attendance was large and representative, both French and English citizens being present at the obsequies and following in the long cortege. The requiem mass was chanted by the Rev. J. A. Laporte, assisted by the Rev. Abbe Vincent Samuel and Eugene Bourque, of this city. Alphonse Bourque, of Nicaragua, Central America, and two daughters, Mrs. C. E. Therrien and Mrs. Arthur Dupuis, together with a large number of grandchildren and great-grandchildren.

The late Mrs. Bourque was a woman of most estimable character, whose long life had been well spent in a manner befitting her earnest Christian principles and devotion. She was highly esteemed by a large circle of friends and beloved by her family, who will miss her kindly presence. Mrs. Bourque had been in failing health for some time, but had been tenderly cared for by her children. Many tokens of respect and regret in the form of floral offerings and masses were received by the family in

# Canada's Great Eastern Exhibition

## Sherbrooke, Que.

# SEPTEMBER 4th to 11th.

### Grand Stand Attractions

Never in the history of the FAIR has such care been exercised in securing attractions that will please. The outdoor stage was searched from coast to coast for talent, and those who follow this line of business state that without exception a wonderful programme has been arranged for.

The love of trained animals is found in every normal being, and realizing this the directors have secured the best trained animal show on the stage. You will enjoy this feature.

Then you no doubt have read about Cabarets. They surely are wonderful. To save you from going to New York to see a Cabaret that is a Cabaret, the Entertainment Committee has arranged to bring one to Sherbrooke. Imagine yourself sitting at a table placed amid waving pines, beautiful colored lights, delicious things to eat, and as you sit there enjoying yourself the best Cabaret performers and dancers in the land will entertain you.

The grand stand has been brightened up, and on a hot day will be cool as can be.

### The Horse Races

The horse races this year will be the talk of horsemen for months after the final result is announced. There must be close finishes, because the horses entered in every class are top-notchers.

The track is being worked into the pink of condition, and if the track record made by Jennie W in 1908 is not broken, the writer won't write another advertisement for the Exhibition until next year.

A starter with an international reputation has been secured, and the public will be relieved of all tedious waits. Experts tell us that it is worth the price of admission to see starter King handle the drivers. You won't have to ask who is boss when you see him work.

Write for the official programme which will tell you all about the races. Select the races you want to see—then come to Sherbrooke even if you have to walk.

If you own a race horse you will be interested in knowing that the accommodation for horses is better than ever.

### The Prize List

The fundamental object of any Exhibition that merits public support is the desire to improve those who spend their money to visit it. To stimulate healthy competition a suitable prize list must be provided, and this is just what the Directors of Canada's Great Eastern Exhibition have done. Think of it—an increase in the prize list over any previous year of \$3,000. This means \$3,000 more for the farmers and women of the Eastern Townships if they take full advantage of their opportunities. Begin to-day. Groom your stock. Arrange your vegetables. Get busy.

Every class is well provided with prize money, and you will find a class for everything you have to exhibit.

Ladies are particularly asked to look over the prizes offered in the departments of particular interest to them. You can knit—crochet—cook and do a thousand and one other things as well as your neighbor can. This being the case, then send in your entries.

Send for a copy of the prize list. It will tell you everything.

### U.S. CANNOT STOP GERMAN ACTIVITY

COULD MOVE IF AN ATTEMPT WAS MADE TO INTERFERE WITH A GOVERNMENT PLANT.

Washington, August 17.—The Department of Justice knows of no way to interfere with German activities in this country of fomenting strikes in munition plants and causing other labor disturbances, even if it is proved that German agents and money are engaged in this work. A responsible official pointed this out in discussing the so-called exposures of German activities being made in the New York World and certain other newspapers. If there was a conspiracy to interfere with the operation of a government plant it would be different, but as long as their efforts are directed at private factories the government can do nothing about it.

Agents of the department have been at work for a long time investigating these German activities in a general way, and while a good deal of information has been secured there have been no definite results. The department has not been acquainted with any effort to subsidize the American press, and there is some question as to whether this activity, if proved, would be basis for legal action by the United States. Action might be brought if a conspiracy to incite opposition to the government's foreign policy were shown. The department's agents are seeking all the information they can get and if they are convinced that anybody is violating the law they will proceed on their own initiative and not wait for somebody to file a formal complaint.

### GASOLINE "JAG" BRINGS DELIRIUM

Washington—Secretary Daniels is worried. There has been discovered a new kind of "jag" in the navy, and it is unlikely just now that it will be done away with immediately. And furthermore it is free. The "jag" comes from gasoline, and until some other kind of fluid is found for use, particularly in submarines, "prohibition" is unlikely. The sensations of a gasoline jag are described as follows:

Persons working in close proximity to a leak are conscious at first of a slight and not unpleasant odor of gasoline. Presently a feeling of lightness is noticeable and a dull heaviness on the head. Next to him an old fellow with wizened bare legs and feet, old yellow rags on his grizzled head, a raged black cask over his grey under-clothes.

There is such a big demand for bread for hungry French captives in Germany that many Paris shops now make a side line of special bread for prisoners, which is packed in waxed paper and keeps fresh for weeks.

### THE MONKS AND THE WAR

STEPHEN GRAHAM WRITES TO LONDON TIMES FROM DESERT OF NITRIA.

Mr. Stephen Graham writes to The London Times from the Desert of Nitria, as follows: I have come on horseback over reed-covered swamps and burning desert to an enigmatical-looking building which has the shapelessness and silence of a ruin. The cream-colored walls are lined, patched, broken, gigantic. It is a rectangular, and that is a small one and heavily barred. A bell-rope hangs down the wall by the door. Jingle-jangle! I ring the bell. There is a long silence and I ring again. Then a dishevelled, bare-footed monk laboriously undoes the little door in the wall. I present the letter which I bear from the Patriarch, and I am admitted.

The monks are pleased; all shake hands. I sit on a divan and five of them on another. A novice washes my hands, another brings me a glass of brown liquid—water full of medlar fibre in suspension. When I finish this he brings a glass of pink sugar water, then coffee all round—thimbleful of sweet coffee. The abbot, a fine-looking fellow with regular features, broad face, black moustache and beard, and with an open space showing the freshness of the lower lip is talkative. He has a towel wrapped round his brows for turban, and fingers black beads as he talks. Next to him is a comfortable-looking monk in a blue smock and a white knitted skull-cap on his head. Next to him an old fellow with wizened bare legs and feet, old yellow rags on his grizzled head, a raged black cask over his grey under-clothes.

"What do you do all day?" I asked. "Pray, read, sing," they answered. "What do you think of the war?" "The war does not touch us. If they come and kill us we do not mind, but we pray each day that God will bring it soon to a close." "If the Arabs come, what will you do?" "If they shoot at us we will throw bread to them; that will be our reply." "Do you have many visitors?" "Not many." "Do the Russian pilgrims come here to pray?" "Yes, some." "Are you content to live out here in the Sahara while all sorts of great events are happening in the world, and content to have no news and never mix with the people of the city? In England we are too busy, one could not escape to a place like this even if one wanted to."

The abbot gave me a remarkable reply: "I think there is room for everybody—some sees money, that is his way; another does his duty and ploughs, that is his way. There are many ways. You know of Martha and Mary. Martha was right, but

### MR. J. P. MORGAN ON DECK AGAIN

FINANCIER AT HIS OFFICE FOR THE FIRST TIME SINCE HE WAS SHOT.

New York, Aug. 17.—J. P. Morgan appeared at the office of J. P. Morgan & Co. in Wall street yesterday for the first time since he was shot at his summer home in Glen Cove, L.I., on July 3 by Ernest Muentzer, alias Frank Holt. Mr. Morgan was not accompanied by detectives or guards during his trip from Glen Cove yesterday, but a number of private detectives have been stationed about the building occupied by the Morgan firm, since the day Mr. Morgan was shot, and these detectives were still on duty when Mr. Morgan arrived.

Mr. Morgan appeared to have entirely recovered from the bullet wound. His face was bronzed and he walked with a rapid and firm step.

### WHAT LYDDITE IS.

The most famous modern high explosive and one of the most powerful is lyddite, which is very similar to the French melinite and the Japanese shimose. Lyddite is simply picric acid melted with a little vaseline. Picric acid is a yellow, crystalline substance largely used as a yellow dye and also very serviceable in medicine for the treatment of burns. It is intensely poisonous and a powerful explosive.

Attention to its value as an explosive was first drawn in England by the destruction of a Lancashire factory where it was being manufactured. About the same date it was independently studied in France, and early in the nineties of last century it was adopted there for use in shells.

Picric acid is prepared from coal tar—the refuse of gas manufacture. When the heavy oil of coal tar is boiled and treated, phenol, or carbolic acid, separates from it. The carbolic acid is taken, boiled in strong sulphuric acid, and into the evil-smelling liquid nitric acid is carefully poured. The resultant is picric acid.

It has great virtues as an explosive, but also some vices. Its virtue is that it is not easily exploded when pure and dry, that it can be dropped or even thrown about, and that it does not act violently when lighted. To make it explode it needs a powerful detonator, which usually contains fulminate of mercury and tetryl.

### GERMAN SPIES TRAINED AT BADEN

German College in Which a Course of Severe Study is Undergone

"Spies are a domestic product in Germany," writes a contributor to the Figaro, "and the government assists in developing the innate properties of the seed in order to bring out a satisfactory crop. It raises its spy embryos in hothouses until they attain such perfection as we have seen demonstrated on so many recent occasions. There are in Germany special colleges for training spies, according to the Warsaw Gazette, which has published some very interesting details on the subject.

FOREMOST AT BADEN. "Foremost of these colleges is the one in Loerach, Baden, where the corps of teachers consists exclusively of former general staff officers. The course of instruction comprises an intimate study of the armies and military resources in general of foreign countries on which Germany may have some designs. Scholars are procured through advertisements. One such appeared some time ago in a Berlin newspaper and read as follows: "Several vacancies open for intelligent and absolutely reliable persons. Indispensable to be of German birth and have knowledge of the French, Russian and English languages."

BIG PROPORTION OF WOMEN. "Loerach is a co-educational institution, and it is deserving of notice that its female scholars are more often than not in the majority. Before being admitted to the college, the applicants are put through a very minute examination. The principal himself conducts this for the purpose of convincing himself of the unquestionable loyalty of the prospective spies.

"Once accepted, the scholars receive both theoretical and practical instruction. Maps and diagrams are used to show the composition of the various European armies and the exact size of the different branches of the service—infantry, cavalry, artillery, engineer troops, aviation corps, etc. Photographic reproductions give enlightening details about rifles, cartridges, cannon shells and the like.

"Particular stress is laid on the study of French military matters, which the students are required to know almost as thoroughly as their own country's army organization. "During the second year of the course the scholars of the spy college spend all their energies on getting familiar with the defensive and mobilization systems of the European powers.

### CANADA TO LOOK AFTER WOUNDED

INCAPACITATED SOLDIERS WILL NOT BE LEFT A BURDEN ON THEIR FRIENDS.

Ottawa, August 17.—In reply to certain complaints about the adequacy of pensions for soldiers who are incapacitated, militia officials point out that the pension does not represent all that the government will do for these men.

The pension is merely a minimum allowance that will keep a man from starving. The government, however, provides convalescent homes, or if the soldier goes to his own home, it provides an attendant to wheel him about or take care of him.

Then, after the war, it is expected that in various ways assistance will be given to incapacitated men according to their need, over and above the pension.

### SMOKELESS SMOKES.

Mr. McKenna has touched feelingly on "the value of the unsmoked cigarette." Is this a hint at "colf" smoking? The practice has already considerable vogue. The habitual smoker cannot get along without the feel of something in his mouth, and, when economy is necessary, sucks an unlit pipe or nibbles a cold cigar. The surprising thing is how far the illusion goes to fill the want. I have travelled across the Atlantic with an American, sworn by his doctor to give over smoking. Except at meals and probably in sleep—he always had the cold cigar between his teeth. —London Chronicle.

with the disposition of the troops in garrisons and forts, the means of transportation by land, river and sea, the location of bridges and a great many odds and ends of strategic importance. For several months all these particulars are gone over and over again, until the students know exactly how and where this or that power is going to assemble the units of its military forces in the event of a mobilization.

CIPHER CODE LEARNED LAST. "At the end of the course the scholars are taught an elaborate cipher code in which to communicate and report their observations. This code is composed so ingeniously that there is little possibility of detection, hardly even of suspicion, by any outsider. After graduation the spies are first assigned to some small neutral countries for "practice," and when they have proved their adeptness they are finally commissioned in the regular government service and stationed at such places where their services will be of actual value and immediate use.

### EMPEROR JOSEPH WANTS EARLY PEACE

HAS WRITTEN POPE BENEDICT APPLAUDING VATICAN'S EFFORTS IN THIS DIRECTION.

Rome, Aug. 17.—Emperor Franz Josef has written Pope Benedict, applauding the Vatican's efforts for peace, and adding: "I also pray God that we may have an early peace." His Holiness has summoned Cardinal Gasparri, the Papal Secretary of State, from Monte Catini, where the latter is spending a vacation. It is reported to-day Cardinal Gasparri's return is hastened by the Pontiff's new moves for peace.

ASIATIC CHOLERA IN GERMANY. Geneva, August 12 (via Paris, August 17, delayed in transmission).—Asiatic cholera has appeared at Cannstatt, Wurttemberg. An official notice says that only one case has developed, that of a German soldier on leave who contracted the disease in Galicia, and that every precaution is being taken to prevent spreading of the contagion.

### GETS COVETED MEDAL.

Montreal, August 17.—Another member of the 1st Regiment Grenadier Guards has been decorated with the Distinguished Conduct Medal, the second since the outbreak of the war. News has just been received here that Corp. Stephen G. Hobday has been honored with this coveted medal for gallantry in action.

### SEVEN BRITISH JOKES.

London, August 17.—Seven German steamers which have been taken over by the British Admiralty are listed in Lloyds' registry under British names, which all begin with Hun. Thus the Latentfels is now the Hungerford and the Arnfried the Hunsdon.

### THE POT AND THE KETTLE.

"How ignorant that woman is," said Mrs. Gausalp to her caller. "She and I went to the Zoo the other day and I thought I would laugh outright when she called the giraffe a 'carafe.' The joke of it was, the animal wasn't a giraffe at all; it was a camomile."

### CLOSE QUARTERS.

"Atkins," said the sergeant angrily, "why haven't you shaved this morning?" "Ain't I shaved?" asked Atkins, in apparent surprise. "No, you're not!" insisted the sergeant. "And I want to know why?" "Well, you see, sergeant," replied the soldier, "there was a dozen of us using the same mirror, and I must have shaved some other man." —Saturday Journal.

### MISSIONARIES ARE IN WANT

FIFTEEN MEMBERS OF AMERICAN MISSION AT VAN ARRIVE AT TIFLIS.

Washington, August 17.—Fifteen members of the American Mission in Van, Turkish Armenia who were present during the recent fighting in that vicinity, have arrived in Tiflis broken down with work and hardship, one of their number having died before they left. Consul Smith at Tiflis to-day notified the State Department that Mrs. Usher had died in Van and that her husband was now dangerously ill in Tiflis. The despatch said that while the other members of the little band of Americans are convalescent, they are without money or proper clothing.

### KRUPPS EMPLOY 5000 WOMEN.

Geneva, Switzerland, August 17.—Official figures show that on June 1 about 5,000 young women were employed at the Krupp works at Essen as compared with 1,329 on January 1. The whole number of employees on June 1 is not given. On January 1 the total was 46,925, exclusive of the employees in the associated industries, mining and shipbuilding, and in the ammunition works in other parts of Germany owned by the Krupps.

### 800 MECHANICS TO GO OVER SEAS.

Ottawa, Aug. 17.—Messrs. W. Wyndham, of the British Board of Trade, and George Barnes, M.P., who have been travelling to the various industrial centres of Canada to secure skilled mechanics for the manufacture of shells in the Old Country, are returning from the West. They have secured and sent to England nearly 1,800 men, including machinists, moulders, etc. Transportation was provided for the men.

### COL. WATSON RECOMMENDED FOR HIGHER RANK.

Folkestone, Aug. 17.—Lieut.-Col. Landry, of the 5th Brigade, has at his own request been transferred to assist Major-Gen. Steele at the training depot. His health of late has been good enough to enable Lieut.-Col. David Watson, of Quebec, in command of the 2nd Battalion, to be recommended for the command of the 5th Brigade.

### NEWSPAPER MEN IN KHAKI

Ottawa, August 17.—The Ottawa Free Press yesterday lost both its city and telegraph editors, both having responded to their country's call. Mr. Frank Phillips, city editor, formerly of Montreal, has been appointed Lieutenant in the 77th, while Mr. Gilbert Gates, telegraph editor, fills a similar rank in the 59th. Both have been attached for duty to their respective units.

**CHILD RUN OVER BY BICYCLE.**  
Knowlton, August 18.—(Special)—The six-year-old child of Mr. Louis Lefebvre was quite badly injured on Monday evening. She was run over by a bicycle and her face was badly cut. Mr. Ernest Brousseau, who was riding the wheel, was thrown and also received injuries to his face.

**THE LATE REV. A. E. GIROUX.**  
FORMERLY OF FARNHAM.  
Farnham, August 18.—(Special)—It is announced from Montreal that the Rev. Alphonse Giroux, priest of St. Sulpice, died at the Hotel Dieu there Monday morning and his funeral will take place to-morrow (Thursday) at Notre Dame Church.  
The late priest was born at Farnham about forty years ago and was educated there and at the Montreal Seminary. Having joined the Sulpician Order, he was sent to Paris, where he was ordained as a priest. He made several trips to Europe for special study and historical research. Since a few years he had held the appointment of teacher of history at Montreal College, and although of delicate health, his demise after a short illness was quite unexpected.

**GARDEN THIEVES AT WINDSOR MILLS.**  
Windsor Mills, August 18.—(Special)—During Saturday and Sunday nights quite a number of gardens were robbed in Convent, Paquet and Mill and Main streets. The thief or thieves, not content with stealing the fruit from the apple, plum and cherry trees, broke down the top branches in every case to reach the fruit, and in some cases the whole of the crop of cucumbers and tomatoes. Householders will have to look that their hen houses are secure for several have been visited and chickens taken. Surely something can be done to catch the thieves in the act. They visited the garden of Town Council's Secretary and Treasurer and took all his tomatoes.

**TURKS FORCED U.S. GUNBOAT TO MOOR.**  
AUTHORITIES INSISTED THAT THE SCORPION MOVE TO THE INNER PART OF GOLDEN HORN.  
London, Aug. 18.—A despatch from Sofia to Reuter's Telegram Company says the Turkish authorities at Constantinople have ordered the American gunboat Scorpion, which has been in those waters for some time, to take up her moorings in the inner part of the Golden Horn. Ambassador Morgenthau's protests were unavailing, the despatch says, but he was able to realize the occasion to settle some minor questions which have been pending. The shortage of coal in Constantinople is expected to result in a few days in discontinuance of the electric lighting and street-car service.  
SAVE MONEY NOW.  
(From Collier's).  
There are two good reasons why everybody should exert himself to save a little more money now than commonly. A purely selfish reason is that saving now counts more than saving during ordinary times. A dollar saved now will yield larger returns than a dollar saved two or three years ago, and more probably than a dollar saved two or three years in the future. Money saved now can be invested with as much safety as is humanly achievable so as to bring in 5 per cent or more. A few years ago savings invested in securities of similar strength would yield only 3 per cent. When this war is over the world is going to be very poor. Persons who have any money at all are going to be relatively rich. Those who save now will possess the world later on. Another reason for saving now is that it is the best thing a non-combatant can do to help the world from the fate that is being brought upon it by the war. Accumulated savings are the basis of civilization. Out of accumulated savings hospitals are founded, railroads are built, and new discoveries in science are made possible. The accumulated savings of the world, in so far as they exist in Europe, are being destroyed as fast as possible. By this destruction the world will be set back inevitably. Any American living outside the zone of general destruction who saves money now will help by so much to counteract this setback to civilization.

**CEMINERO AND CARE COMMITTED**

**Will Stand Trial on Charge of Murder Before Court of King's Bench**

**CASE AGAINST METZ ADJOURNED UNTIL SATURDAY FOR RETURN OF HIS ATTORNEY.**  
Ceminero, Care and Metz, accused in the Capelton murder case were again brought up before Judge Mulvena this morning.  
Mr. Nicol, on behalf of the prosecution stated that Metz's attorney, Mr. Rioux, had not returned from his vacation and that the accused still persisted in his refusal to waive the re-reading of the evidence. He asked that Ceminero and Care be committed for trial at the next term of the Court of King's Bench.  
After some discussion the Court adjourned the hearing in the Metz case till Saturday, the 21st instant, and committed the defendants Tommaso Ceminero and Giuseppe Care to take their trial at the next term of the Court of King's Bench on the charge of murder.  
In committing the two accused the Court remarked that although the evidence except whatever value might be placed upon Care's second statement was purely circumstantial, still it was shown that a brutal murder had been committed in a much frequented thoroughfare between the upper and lower villages of Capelton and that the evidence although very lengthy and a great deal of it irrelevant showed conclusively that the three men arrested in connection with the crime were the last seen with Calero alive within a very few minutes of the time that he was murdered, and had not given a satisfactory account of their whereabouts.  
The Court felt it was a matter for the jury to decide.

**Deaths Reported**

**MRS. HENRY NUTBROWN, LEMESURIER.**  
Lemesurier, Aug. 18.—(Special)—Mrs. Henry Nutbrown, nee Bertha M. Wilkin, died at her home on August 13th in the 32nd year of her age after a lingering illness borne with Christian fortitude and cheerfulness. She was much beloved and respected by all, and leaves a sorrowing husband and two children, a mother and three sisters to mourn her loss. The funeral, which was largely attended, was held in St. James Episcopal Church, Mr. Armsby officiating. The casket was covered with wreaths and cut flowers. The pall-bearers were: Messrs. Robert Nutbrown, Raymond Beattie, Willie Cruickshank and David Wilkin. The remains were interred in the Leeds Cemetery.

**BARNSTON.**  
The concert in the Town Hall, last Friday evening, was a treat to all present and a good sum was realized for stage scenery. The success of the affair is largely due to the genius and energy of Miss Hazel Converse.  
Miss Alice Crompton of Lowell, Mass., left Barnston last Saturday to spend a couple of weeks in Montreal and Ottawa visiting relatives and friends. After that, she will return to the "The Woodlands," accompanied by her father, and spend another week in Barnston.  
Thursday evening of this week, the Morrison family will give an ice cream social at their home as a benefit for the Patriotic Society. There will be a programme, also games and a pleasant evening is anticipated. Everybody welcome.  
Messrs. J. N. Jenks, G. A. Hadlock and Chas. Thornton attended the Convention at Way's Mills, Saturday, which was convened to make arrangements for supplying food for the townships of Barnston for the third day of Ayer's Cliff Fair. All contributions in the shape of bread, pastry, chickens, beef or pork, eggs or money, may be sent in to any of the above-mentioned ladies, not later than Wednesday noon, September first. The proceeds from these meals go towards purchasing a Stansstead County motor ambulance for the wounded to be sent to the front, and it is hoped that every family in Barnston Township will make some contribution, however small, for this great enterprise.  
Mr. and Mrs. Webb and family of Lachine have arrived at "The Woodlands" for a two weeks' stay.  
Mrs. Robert Cole and Master Gerald of Cookshire, were the guests of Mrs. J. N. Jenks last week.  
The evangelical services held in the Baptist Church last week were of a most interesting and helpful character and were well attended. Mr. Carl Farmer of Massawippi put forth every effort to persuade all toward the better life and the special music furnished on the different occasions was much appreciated and added greatly to the attractiveness of the meetings.  
The Misses Converse are spending a few days at Lake Massawippi as is also their guest, Miss Morse.  
The patriotic society meets Thursday afternoon for work and also to make arrangements for the food for the Ayer's Cliff Fair meals.  
Mr. Dale spent Sunday at Massawippi, taking charge of Mr. Farmer's services.

**DIXVILLE.**  
Messrs. Archie and Warren Damon of Island Pond, Vt., guests of Mr. and Mrs. E. W. Damon, on Saturday; Mr. and Mrs. Arthur J. McCoy, of Coaticook, visiting friends on Sunday; Mrs. R. G. Smith, the past week at Coaticook with her parents, Mr. and Mrs. Sawyer; Miss Florence Lemoine, of Newport, Vt., recent guest of Mrs. T. R. Holmes and family; Mr. and Mrs. E. O. Baldwin and Mr. and Mrs. F. Cleveland, of Coaticook, visiting friends on Sunday.  
Mrs. A. McCoy, who has been ill for some weeks is not improving.

**THE HEAVENLY ARMIES.**  
Following is an extract from a letter received from London, January 16th, 1915:  
"Yesterday I read a wonderful thing told by three different persons, in private letters, not in the papers. Men coming from the front tell wonderful things and letters from men in the midst of the war tell very wonderful things. The first letter says: "At Mons at the beginning of the war when our troops were just almost done for, a young officer leapt into the front line. The others said, 'What is it?' as they saw his face light up. He said 'I am happy I have seen them, the heavenly armies, the Celestial armies.' He died, the fighting stopped. The Germans could fight no more."  
"The next account was in a letter from an officer in the Gordon Highlanders to his wife, who says: "The reinforcements did not come as we expected. We were nearly annihilated, when those of the regiment who were left, saw an army appear between them and the Germans, who stopped fighting."  
"The third account was at the same battle by a German officer to his English wife, who told, not of seeing the Celestial army, but of the sudden stop of the fight, and how the Germans suddenly felt they could fight no longer. They all believe in the truth of what they saw."

**GREAT WAR CARRIED INTO POLAR REGIONS**

**BRITISH CRUISER CAPTURES GERMANS IN CHARGE OF A WIRELESS STATION.**

Paris, Aug. 18.—The present warfare actually has been carried into the polar regions, says an Amsterdam despatch to The France de Demain.

Since 1908, when Count Zeppelin established an airship station at Spitzbergen, the Germans have been exploiting copper deposits on the west shores of Gross Bay, despite the prior British claims, which were supported by the British Government.

The news has just been received that in October, 1914, a British cruiser put into Gross Bay to avoid an autumn tempest. The visitors found there a German wireless station, which, however, had not been able to operate because of the unfavorable weather. The men in charge had not learned of the war, and greeted the cruiser by raising the German flag. Their surprise may be imagined when they were informed that they were prisoners.

**NEARLY 3,000,000 HORSES IN CANADA**

**REPORT OF DEPARTMENT SAYS THIS IS 48,381 MORE THAN LAST YEAR.**

Ottawa, Aug. 18.—There are still nearly 3,000,000 horses in Canada in spite of the large number that have been sold for army purposes. There is an increase of 48,381 over last year, according to a report of the Census and Statistics Branch. This shows the numbers of farm livestock in Canada at June 30, 1915, were as follows: horses, 2,996,099; milch cows, 2,666,346; other cattle, 3,399,155; all cattle, 6,065,501; sheep, 2,038,622; swine, 3,111,900. As compared with 1914, these figures represent increases of 48,381 horses, 35,624 other cattle, and 23,184 all cattle, but decreases of 6,440 milch cows, 19,383 sheep and 322,366 swine.

Notwithstanding the large and sudden exportation of farm animals, the numbers in Canada are being fairly well maintained. The large decrease in the numbers of swine, with a correspondingly large exportation to the United States, applies principally to Alberta, where owing to the increased cost of grain stuffs caused by the war, swine feeding became unprofitable, large numbers of swine being thrown upon the market last fall.

**C. P. R. REDUCED RATES, EXCURSIONS, ETC.**

Harvesters' Excursions August 19 and 26. Rate \$12.00 to Winnipeg, plus one-half (1-2) cent per mile to stations beyond but not west of Edmonton, Calgary or McLeod, with minimum of 9.50. **GERMANY ASKED POINTED QUESTION**

**PRESIDENT WILSON ASKS WHAT PLAN OF WARFARE WILL BE CONTINUED.**

Washington, Aug. 18.—The American reply to Germany's last note on the sinking of the American sailing ship Wm. P. Frye, made public here yesterday by the State Department, accepts the proposal that damages be fixed by a mixed commission and that the disputed treaty provisions be submitted to arbitration at The Hague, but calls on Germany for a statement, meanwhile, as to whether she intends to conduct her future naval operations in accordance with her interpretation of the Prussian-American treaty or those of the United States.

The note is regarded as putting the noted case well on the way to a settlement.

**URGES LOAN IN UNITED STATES**

**SAYS THIS WOULD STRENGTHEN BRITISH CREDIT IN AMERICA.**

London, August 18.—"The simple fact is that if we cannot sell securities to Americans they will not be able to sell their goods to us," says the Times in discussing the problem of American exchange and the proposal to issue a short-term British loan in New York. "We believe," says the Times, "that Americans would prefer to buy a new British Government security rather than that we should go on selling them American securities held over here. Of course we are ready to send gold over whenever it is demanded by our creditors. There need be no difficulty in our forming a gold pool of \$500,000,000, if needed, for sending gold to New York, but it would be an absurd thing to do if other means, equally good, are available."

**RANDBORO**

Mrs. Frank Morrison gave a party on August 12, 1915, in honor of her husband's 21st birthday. About fifty invited guests were present and enjoyed a pleasant evening in games and music. Refreshments were served by the hostess, Mr. E. Middlemiss on behalf of the young people presented Mr. Morrison with a sum of money to which Mr. Morrison made suitable reply.

**THE MAN AND HIS LAND.**

Fertile soils and resourceful, ambitious farmers make the country what it is. If the seed fall upon rock no effort on the part of the sower can cause it to take root and yield abundantly, but where these conditions are favorable, enthusiasm and will power are translated into yields that look good to him whose sympathies go out to "the man with the hoe." Ontario cannot be surpassed as an agricultural country, but with its confines as in all lands, are sections where a farmer's ambitions cannot be transmuted into profitable and satisfactory rewards. If the land appears light and sandy, if the crops appear yellow and show a desire for plant food, if buildings are modest or poorly maintained it should not always be blamed upon the owner. These circumstances can often be overcome, but in many cases it is an up-hill road. Throughout all Canada are circumscribed areas of limited extent that are not favored with the most desirable natural conditions, yet into the homes on these lands are born young men and women, and unto them is handed down the homestead with all its associations, ties and sometimes encumbrances. What is one to do when bequeathed the home, the traditions and the environments of the family? True, many could profit by an absolute change of farm and surroundings, but there is a link which is hard to sever, and that link binds many naturally ambitious and progressive young farmers to the soil of their fathers. Although a roving spirit is not to be cultivated it might sometimes be wise to desert the barren or stubborn fields for greener pastures. Such a move might arouse new aspirations and result in more remunerative labor on a more responsive farm. However, one should first understand his soil and apply the treatment that is liable to produce the desired change, for too many are inclined to blame the land and its surroundings for any unfruitfulness, and exonerate themselves from all responsibilities in such matter.

**ENTHUSIASTIC RALLY AT LENNOXHILLE**

(Continued from page 1.)

funds and other patriotic societies. It was not possible for all to go to the front line, so many heroic Sherbrooke and Lennoxville boys had gone, but all could do something. Lennoxville had done well so far but could do better. Let everyone subscribe, however small the amount, and perhaps more than one gun could be given.

Mr. Hugh McFadden expressed himself in sympathy with the movement. He believed it would be successful and that all would strongly support it according to their means.  
**DR. PARROCK SPEAKS OF THE CALL TO CANADA.**  
Dr. Parrock followed and was pleased to know the movement had the prospect of success. A ten days' campaign in Quebec had just closed near the \$27,000 mark; that was a splendid record and the speaker thought that kind of thing should be carried on in proportion throughout the Dominion. It must be remembered that the Allies were fighting the most wonderfully organized enemy the world had ever known. The women of the British Empire had exhibited a tremendous amount of self-sacrifice but according to neutral writers their work was nothing like that of the German women for what they considered their patriotic causes. Only by standing shoulder to shoulder and each doing his own part could victory be expected. Germany had been preparing for many years and the British Empire was comparatively unprepared, consequently blunders were inevitable and no doubt many mistakes had been made. But having been assured by experts that machine guns were the great things necessary in the equipment of modern warfare for victory today, Dr. Parrock said it was the country's bounden duty to go as far as possible in supplying that need, and he was sure the personal interest all present had in the matter would insure the provision of one gun if not more from the community.

Dr. Parrock reminded the audience that the Canadian losses had brought the war home to them much more than before and made them feel how much more it concerned them. If the enemy were knocking at the gates of Quebec, or marching through the Eastern Townships, every man and woman would consider it necessary to sacrifice everything in order to prevent a recurrence of what took place in Belgium, and it must be remembered that in assisting the troops in the practical manner suggested the enemy was being kept away. If they valued their citizenship in the Empire and the security of the British flag and would rally to the Empire in the hour of need to help in the struggle for freedom, righteousness and justice, upon which alone permanent peace could be established.

**A CONVERT TO CONSCRIPTION**

Rev. J. B. Hicks in promising his fullest support to the scheme said he had never worn the British uniform but had never cared very much for tin and parade soldiers. His idea had always been that a soldier should be ready at a moment's notice to go to the front. He had nothing but supreme contempt for the men who wore the uniform in peace and would not do it in war.

In the course of a patriotic speech in which he paid a tribute to the British navy and the brave Canadian boys, Mr. Hicks declared he was a recent convert to conscription and asked "why should your boy or my boy be at the front tonight while other boys are walking the streets with no weight upon their conscience as to what their duty is?" If he had ten boys instead of two he would believe in conscription. England was the only European nation which did not believe in conscription and she was suffering for it—"England who has always moved slowly."  
Mr. Hicks termed this a war of ideals and said what was called German militarism originated in the German universities and had been taught there for three decades. The autocracy had taken it up and embodied it in their ideals of State. He stated the outcome of the war would be the granting of liberty to the down-trodden German people, when they would realize they were men and not machines.

Captain Francis took exception to the remarks about tin soldiers. He had been for nearly 20 years in the army, and was in the Boer war, but no conditions prevented him from going to the front. Many who wore the uniform at the present time were similarly situated.

BELGIANS SWEEP Foe's Ranks

Furnes, Belgium, Aug. 18, via Paris -The famous bridgehead at Dixmude thrice lost and thrice retaken by the Belgians, remained in their hands yesterday after a desperate assault by the Germans had been repulsed. The bridgehead is a fragment of the right bank of the Yser beyond the Dixmude bridge.

COMPULSORY SERVICE ONLY SOLUTION

London, Aug. 18.-Col. Arthur Lee member of Parliament for the Farnham division of Hants, who is home on a short leave, told his constituents at a meeting last evening that nothing less than compulsory service would solve the difficulties which Great Britain is facing. This conviction, he said, had been burned in by his experiences at the front, and was shared by nearly all who had been in contact with the realities of war.

NEARLY A YEAR TO MAKE BIG GUN.

Says Mr. Archibald Hurd, the well-known writer on naval subjects: "It takes a long time to make a big naval gun-the best part of a year at the quickest-and it takes even longer to make the mountings and all the machinery for firing the gun, which descends into the very bowels of the ships. Everything suggests that it is far easier to talk airily of a project of re-arming a ship with heavier guns than to carry out the task. The suggestion that the Germans are utilising the passing months in order to place in their pre-dreadnought battleships-which at present carry only four 9.2 inch guns-weapons of even as great a power as those in the latest British ships, in volving far guns alone-an increase of weight of 300 per cent in the case of each vessel, may be dismissed as a German fairy tale, invented in the hope of frightening credulous British people.

SOLD LIQUOR WITHOUT LICENSE

Fines of \$50 and Costs Imposed in Danville and Lime Ridge Cases

CHARGE OF THEFT AGAINST WIFE WAS WITHDRAWN BY HUSBAND

Dr. Darche of Danville was fined \$50 and costs by Judge Melvina on a charge laid by Morkill and Biesonnet, collectors of provincial revenue, for selling liquor without a license. Adelaide Lapointe of Lime Ridge was fined \$50 and costs for three months in jail for selling liquor without a license at Lime Ridge.

CHARGE OF THEFT WITHDRAWN. Napoleon Chabot vs. Valerie de la Durantaye. This was a case in which complainant had his wife arrested for stealing certain clothing and other articles of household property.

After hearing the evidence of the complainant, the Court suggested that the fact proven were not sufficiently governed by the law of theft between husband and wife, and the complainant thereupon withdrew the charge and accused was discharged.

STANBRIDGE EAST The Sunday School picnic held at Meig's Corner was largely attended by members and friends of the Sunday Schools from Freilighsburg, Stanbury and Stanbridge East. There were several hay rack loads of young people and children, others coming in automobiles and single teams. Dinner was served at the edge of the grove and about 200 sat down at one long table. A ball game was played between Freilighsburg and Stanbridge East and was won by the former team. Sports including running, egg and spoon running and tug-of-war were thoroughly enjoyed.

During a particularly nasty dust storm at one of the camps a recruit ventured to seek shelter in the sacred precincts of the cook's domain. After a time he broke an awkward silence by saying to the cook: "If you put the lid on that camp kettle you would not get so much of the dust in your soup."

The irate cook glared at the intruder and then broke out: "See here, me lad, your business is to serve your country."

"Yes," interrupted the recruit, "but not to eat it."

LAST, BUT FIRST.

Sir Thomas Lipton, whose good work for stricken Serbia is still bringing him unstinted praise from all quarters, is, in spite of his great wealth, a man of very simple tastes. Especially simple is he in the matter of dress, a fact which was once responsible for a very amusing incident.

Some years ago he advertised for a number of new assistants for his business, and he decided to interview them all himself. On a certain morning, therefore, he arrived early at his office to find a long queue of applicants waiting outside.

"He, ha!" I chuckled," says Sir Thomas when he tells the story, "as I pushed my way to the door. "Good, good, men all of them! Just the fellows for me!"

"Bash! I was hurried across the pavement, hit a lamp-post, and found myself in the gutter, and then a deep voice said: " "What's your little game, eh? You just line up behind and take your turn with the rest of us!" -Pearsons.

A very old Irishman one day astonished a friend by announcing that he was about to get married. "Married!" exclaimed his friend. "An old man like you? The old man explained, "It's just because I'm gettin' an odd boy now. "Tis a fine thing, Pat, to have a wife near ye to close the eyes of ye when ye come to the end." "Arrah, now, ye would hile!" exclaimed Pat. "Don't be so foolish. What do you know about it? Close yer eyes, indeed! I've had a couple of them, and faith, they both of them opened mine!"

RUN AWAY! NOT HE!

"During a recent raid the following incident occurred in London, Eng.: "A certain workshop was so badly shaken by a bomb close by that all the dust accumulated on rafters, travelling cranes, etc., began to fall. "A cry of 'Gas!' was raised and a stampede began. But an old Irishman cried: 'I'd rather be poisoned than run away from them fellows!' He wrapped his coat round his head and lay down where he was. When the scare was over and the men returned they found him still there, fast asleep."

A WITTY BELGIAN

When the Germans finally entered Belgium a native of Liege made himself obnoxious to one troop by his constant loud talk about the brave defence. Finally the commander summoned him.

"Now, you've boasted about enough," he said. "I can't listen to you any longer. I'm going to give you your choice: you will be shot or you will swear allegiance to the German Emperor."

Considerably subdued, the offender wondered. "Well," he decided, "I don't want to die, so I guess I'll swear allegiance."

"All right," said the commander, "now you are one of us. You can come and go as you like."

The man walked toward the door and was passing out when suddenly he turned. "Say," he exclaimed, "didn't those Belgians give us a decent fight!"
