THREE RIVERS

Its Exceptional Manufacturing and Industrial Possibilities

THREE RIVERS has always been a privileged commercial post, but to-day it has become a most important distributing point with the brightest future.

THREE RIVERS is the source of supplies of the region and the towns of Grand' Mère and Shawinigan, whose colossal industries develop an enormous traffic. On the other hand, the extensive lumber trade and business of the upper St. Maurice are dependent on Three Rivers for their food and general supplies.

Looked at from the industrial and manufacturing viewpoint, Three Rivers cannot fail to attract the attention of every keen business man. Halfway between Montreal and Quebec, at the mouth of the St. Maurice River, with its magnificent deep water harbor, well-equipped wharves, of easy access to the largest ships, Three Rivers offers exceptional opportunities for the creation of industries and manufactures.

THREE RIVERS is a cheap distributing point either by water or by the following railroads:

Canadian Pacific Railway, Grand Trunk Pacific Ry., Canadian Northern Ry., Grand Trunk Ry., Delaware & Hudson Ry., and Intercolonial Ry.

It has a daily steamboat service with Montreal, Quebec, Bastiscan, Nicolet, Sorel and other points.

THE NATURAL RESOURCES of the district have given birth to an immense trade in lumber which feeds great sawmills.

THREE RIVERS is the pivot of this very extensive industrial movement and distributes the raw material to numerous and diversified industries under exceptionally favorable conditions as to prices and deliveries.

ELECTRIC POWER is more abundant and cheaper here than in any other industrial or manufacturing centre in Canada; the inexhaustible water power of Shawinigan and Grand' Mère being capable of an immense prodigious motive power.

The prosperous and important manufactures and industries in existence show that Three Rivers possesses real advantages for the economical production and distribution of goods. The pulp mills employ 1,000 workmen, the sawmills 800, glove factories 550, cotton mills 1,260, whitewear factories 250, shoe factories 400, casket factories 125, chair factories 50, etc.

Inducements and privileges, such as tax exemption, free ground sites, etc., will be granted by Three Rivers to new enterprises, and are well worth considering, coupled with the other attractions of Three Rivers as a manufacturing, industrial and commercial centre.

From the residential point of view, Three Rivers is picturesque and progressive. Remodeled after the great fire of June, 1908, it has emerged from its ruins as an agreeable, healthy residential town with pretty parks, promenades, boulevards, etc.

THREE RIVERS has a water system with a supply of 4,000,000 gallons per 24 hours of pure, clear, cool and limpid water, naturally sterilized by filtration through a bed of compressed sand 40 feet deep.

The prodigious development of Canada in every direction will undoubtedly make Three Rivers an active import and export shipping point.

Let progressive and aggressive men avail themselves of the numerous opportunities offered through its representatives by
