"Our troops have advanced 2,000 to 3,000 yards at various places and the attack is progressing satisfactorily."

"A large number of prisoners have been taken. "In this attack we employed for the first time a new type of heavy armored car, which proved to be of considerable utility. "Much aerial fighting has taken place. Four hostile machines were brought down in flames, and at least four others were driven down damaged. One hostile kite balloon was brought down last night."

DEMAND AID OF KAISER

Bulgaria and Turkey Put Matter up to Supreme War Lord.

SEE DEFEAT UNLESS BIG FORCES BE SENT TO BALKANS.

(Special, Canadian Associated Press) New York, Sept. 15.—A London News Agency despatch to the New York Sun says: "Bulgaria and Turkey are badly in need of help from Germany and Austria because of the entry of Roumania into the war. That is why Enver Pasha, the Turkish Minister of War, and King Ferdinand of Bulgaria are conferring with the Kaiser and Von Hindenburg at headquarters on the eastern front, according to a despatch from the correspondent of the Daily Express at Geneva, who bases his message upon Budapest despatches. "These despatches say that Enver and King Ferdinand pointed out to the German and Austrian leaders that if Bulgaria were attacked on the north by a large Russo-Roumanian army, she would be forced to evacuate Greek Macedonia and the whole Salonika front before Gen. Sarraill's Allied army. Enver suggested to the Kaiser that the Turkish forces sent recently to the Russian front should return to aid the Bulgarians, for if the Bulgarians were defeated Turkey would be isolated and surrounded. "This correspondent says Austria has promised guns but no men to aid her southern allies, but the answer of Germany is unknown."

TELLS OF AIR RAIDS ON LONDON

Miss Maud Allen, Noted Dancer, Now in N. Y. Had Narrow Escape. (Special, Canadian Associated Press) New York, Sept. 15.—Miss Maud Allen, classic dancer who will soon tour the United States and Canada, and who arrived yesterday on the Lapland, told of a narrow escape she had in the last Zeppelin raid on London, September 3, when thirteen Zeppelins bombarded the east coast of England, and three succeeded in dropping bombs on London itself. Miss Allen said she was awakened at 2.30 in the morning by the heavy firing of the anti-aircraft artillery in a nearby arsenal. "Shrapnel began falling all around and Londoners had a taste of real warfare," she said. "We watched the tiny cigar-shaped object, which was occasionally illuminated by one of the high-power searchlights. Suddenly a spark glowed at one end of the airship and soon little tongues of flame could be seen spurting from various parts of the envelope. Two explosions followed and the Zeppelin burst into a mass of flames. "It remained stationary a moment, then swayed and dropped with amazing rapidity. The following morning I found many pieces of shrapnel and burst shells in my garden, which showed what a narrow escape we all had."

REFUGEES REACH ATHENS FROM KAVALA

(Special, Canadian Associated Press) Athens, Sept. 13 via London, Sept. 15.—The Margarete, the boat in which Baron von Schenk, head of the German propaganda in Greece, was sent to Kavala to be turned over to the Bulgarians, arrived this afternoon with 1,000 refugees who were in the most pitiable condition. They had been without food since Sunday and were packed in the ship like sardines. The refugees said that a German aeroplane had dropped three bombs as the boat was leaving Kavala which came within inches of striking the ship. An eye-witness who described the entry of the Bulgarians into Kavala on Monday said that three Greek regiments which had remained in the town were given until ten o'clock Tuesday morning to surrender as prisoners of war. At the expiration of this ultimatum they gave up their arms after a slight resistance and were taken up country.

LIBERALS WIN B. C. ELECTIONS

37 Liberals and 10 Conservatives Elected According to Latest Reports.

RESULT A SURPRISE—RETURNS NOT YET COMPLETE—A REMARKABLE TURN OVER. (Special, Canadian Associated Press) Vancouver, Sept. 15.—The provincial elections which took place in this province yesterday resulted in a decided victory for the Liberals. The result came as a distinct surprise to Conservatives. The Liberals accept it as a natural conclusion to conditions in the province and the revolt against a long-continued rule of party. Although the returns received up to an early hour this morning were far from complete, there is no doubt but that first indications will be sustained—37 Liberals, 10 Conservatives—perhaps emphasized by the balance of the polls. The prohibition returns received up to an early hour this morning were still far from complete. Though the general impression among leaders of both the prohibition and liquor interests expected that the vote in the country would be favorable to the "dry," there was a good deal of uncertainty regarding the probable decision of Vancouver.

The following is a list of candidates whose election is assured: Cassidy Independent 2066; White Independent 1230; Harrington Socialist 841; Fawcett Independent 473; Appleby Independent 419. Final count on prohibition in Vancouver was for 8894, against 5397. Majority for prohibition 3498.

CHILDREN DYING IN BELGIUM NOW.

An official report received from Belgium tells of terrible suffering that is now being endured by the increasing number of children dying for lack of food. Most of them are young orphans. Their fathers are dead, killed on the battlefield, their mothers weakened by distress and privation, are unable to feed them and have been compelled to give them up, with the sole hope of saving their lives. An appeal to the mothers and children of the Eastern Townships to give your mite. No matter how small it will help to keep hunger and sickness from these little children the future hope of our ally, Belgium.

TELEPHONE SIDE OF THE CASE

Expert Brought From Chicago Aids E. T. Co. at Inquiry.

WOULD HAVE THE COMPANY BOOST ITS RATES STILL MORE—MR. KELSEY ALL DAY WITNESS. The examination of Mr. James C. Kelsey, telephone expert, was continued yesterday afternoon before the Quebec Utilities Commission at the Sherbrooke Court House in the resumed inquiry into the increased rates instituted by the Eastern Townships Telephone Co. at Richmond and Coaticook. Mr. Kelsey was called to Sherbrooke at the instance of the E. T. Telephone Company.

Mr. Kelsey came to Sherbrooke some time ago to refer a dispute between the local security holders and the management. He made a report which was laid before the bondholders on September 5. The committee appointed to have an expert investigation made in the interest of the bondholders submitted a plan at this meeting which was accepted by all present and the bondholders who were absent are being communicated with by the committee for the purpose of getting their consent to its adoption.

WILL CALL WITNESS FROM ANOTHER COMPANY

As on the previous occasion a month ago when the enquiry opened several representatives of the Richmond and Coaticook Boards of Trade, who are supporting the complaint lodged re the increased rates were present yesterday. An evident desire of all parties to deal fairly by one another was noticeable throughout the proceedings. Mr. Oughtred, of Marleton, manager of the Canadian Telephone Co., is being called as a witness today, and Mr. Harding, the Secretary of the Eastern Townships Telephone Co., who was examined yesterday in reference to management, operating, and clerical expenses, was requested by the chairman, Col. Hibbard, to be prepared today to go into the analysis between revenue and expenditure for the year ending December 31st, 1915.

MR. KELSEY SAYS EXPENSES ARE NORMAL

Continuing his evidence yesterday, Mr. Kelsey said that at first sight he thought the company's expenses were high, but after careful investigation and going over the property he could find nothing abnormal in the expense items. He found the service was good, and that the company was doing all in its power to give efficient service as economically as possible under all the circumstances.

COMPANY STRUGGLING TO MEET OBLIGATIONS.

He found the company was rather typical, that it was a normal company and had the same difficulties as others had in struggling to meet its obligations and give satisfaction among its various security holders; the stoppage of bond interest struck him as being a kind of typical case experienced almost everywhere these days with the increasing expense.

RURAL LINES A DIFFICULT PROBLEM

He attached special difficulty to a company operating rural lines, everywhere the rural portion was found to be losing money. The Manitoba Government had publicly admitted it could not make money on farm telephones at \$25 per year, and was advocating some direct or indirect process of taxing farm property to make up the deficit instead of throwing the burden on the Winnipeg subscribers.

The E. T. company had very properly seen fit to abandon its own lines and take on the long distance lines. That gave this community unusually good local and long distance service. It practically earned the same per long distance station as the Bell Co. of Canada.

ABOUT THE RATES

The factor of extensive long distance made the E. T. operating rather high. The average rental rates of about \$18 was too low. The long distance was rather a double edged sword, causing the company to maintain extra officers and operators. The public was exceedingly well served in the Eastern Townships district. The local plants he visited at Rock Island, Coaticook and Richmond, were well kept and loyally staffed. The service rendered to the public, (local and outside) was as good as the average of other companies of equal size. The plant was properly maintained. (Continued on page 7.)

serving of great praise. Perfect weather prevailed during the three days.

CROOKS

Some "crooks" were found working the gambling game, but provincial detectives Arthur and Charron, of Montreal, were present and sent twenty-one "gambling" devices from the grounds Wednesday.

NOTES

In all departments of livestock the Judges were loud in praise regarding quality and quantity brought in to show ring. Dr. Reed handed out awards to horse owners and found his work well cut out for him. He acted in same capacity about ten years ago and said he found a vast improvement since that date. Mr. C.N. Lyster, Kirkdale, who is well known as a stock judge said that never before had such a fine showing of bacon hogs been shown in the Eastern Townships to his knowledge. At one o'clock, Thursday the grand stock parade around the race track, was held, headed by the Marshall, Mr. Wallace, and three ladies riding ponies, followed by double drivers, single carriage teams of which there were nearly twenty turnouts. Next in order came pairs of draft horses hitched to wagons; draft animals of different ages, showing some very fine types. Three pairs of Steers hitched to carts owned by F. Cousins, Knowlton, each pair driven by a boy, brought forth many comments. Of dairy breed the Ayrshire were shown in far greater numbers. H.S. Hastings, Hawley Bros., Chamberlain Bros., McLay Bros., F. Lefebvre, J. Dunlany and A. Crittendon each had some very nice stock in the ring. The leading exhibitors of Jersey cattle were G.H. Ingalls, W.J. Gardner, N. P. Emerson, J.M.L. McFarlane, and W. Scully. Holsteins were owned by J. and C. Hastings, F.E. Taylor & Son, A.C. St. Martin and M. Miller. The latter had a splendid pair of twin heifer calves recently purchased from a stock breeder in New Brunswick.

Mr. Geo. O. Foster, K.O., was present on the grounds Wednesday, and made even a more generous offer to the farmers of Brome County for the following year than that of last year. The particulars of Mr. Foster's offer will appear later in the columns of the Record, when details have been worked out.

Mr. J.H. Roberts entered a complaint yesterday afternoon (Thursday) against Sam Bennett and C. Neiberg, from the U.S. for operating a gambling game of the wheel of fortune device on the fair grounds. The accused were arrested by Detectives Akin and Charron, Montreal, and brought before Justices of the Peace Miller and Benham by High Constable Boisvert. Each were fined \$20.00 and costs or two months in jail, and warned to not operate again in this country. The wheels were also confiscated and will be sold or destroyed according to law. The law breakers surely were dealt with severely at Brome fair this year and should take a lesson from their experience. Fines were paid.

Total gate receipts for 1916 during the three days fair were \$252.60 in excess of last year.

The Heintzman & Co. Piano

The great reputation made by the Heintzman & Co. piano is due above all else to its remarkable individuality of tone. What it can accomplish is all and everything that is embraced within the piano repertory, from both the points of view of interpretation and technical execution.

Heintzman & Co. Pianos can be had in various styles, including Art Pianos in special cases; Empire, Louis XV., Colonial, Chippendale, and Sheraton styles.

The Heintzman & Co. Player-Piano

The Heintzman & Co. Player-Piano is made up to a standard, not down to a price. When the firm turned its activities to the Player-Piano field, it had to bring forth an instrument which would tower above other Player-Pianos as did the Heintzman & Co. Piano above other pianos.

The aluminum player-action is but one of the characteristic features of the Heintzman & Co. Player-Pianos. Come in and let us show you these and many others.

Illustrated catalogue on request.

We allow fair value for other pianos or organs in exchange, and you will find our terms of payment very reasonable.

Write for full particulars if you cannot call. No trouble to answer all letters of inquiry.

ANIMALS AT LARGE.

A number of animals allowed to stray in the city streets, especially at night time, is increasing rapidly, showing considerable carelessness on the part of their owners. Two horses and a pony were taken possession of by the police on Wednesday and Thursday. The chief is now charging pound-keeping fees and cost of keep in addition to the damage done to gardens, etc., for which the owners of the animals have to pay.

ST. PETER'S GUILD.

The weekly teas of St. Peter's Guild were resumed Wednesday after the summer vacation, in the Church Hall, with an encouraging attendance. The hostesses were Mrs. Moore, Mrs. Carroll Ives and Mrs. A. R. B. Lockhart, and Mrs. Goff presided at the tea table, which was arranged with sweet peas. Plans were made for the usual work of the season, and an hour was pleasantly spent "over the teacups."

AUTO HEADLIGHT GLARE CAUSE OF ACCIDENTS.

A number of the serious auto accidents which have occurred lately have been assigned to the fact that motorists carrying powerful head lights do not dim these on meeting cars.

An auto was sent into the ditch beyond Lennoxville Wednesday night owing to the blinding glare from the lights of the approaching car.

The head on collision near Massawippi some days ago is said to have been due largely to the same cause.

In some of the provinces and in the states the auto regulations require "dimmers" on the strong headlights.

In the interests of safety it would appear that something of the kind is required here.

SCOTSTOWN LIQUOR CASE.

The whole of the afternoon was taken up in the hearing of the evidence in the case of the Collectors of Revenue vs. Medore Godin, of Scottstown, for selling liquor to different parties at the Scottstown Fair.

The defence was that defendant had procured this liquor for friends from a party whom he did not know, but whom he thought lived at Lambton and was attending the Fair. He claimed that he derived no profit or commission from the sale, merely paying over the money received to the stranger to procure liquor for his friends. The case was taken on deliberation by the Court until Tuesday to enable the defence to produce some decisions claimed to give a right to the defendant to do this.

THREE CONVICTIONS FOR SELLING LIQUOR WITHOUT LICENSE.—OTHER CASES.

The preliminary hearing took place yesterday before Judge Mulvena in the case of Mrs. George Ladouceur, of North Hatley, vs. Hattie Melges. Defendant was charged with stealing a wallet, said to contain \$33, which was hidden under complainant's bed. A large number of witnesses were heard for the prosecution, and the Court finally dismissed the charge, holding that the evidence was vague and inconclusive and did not make out a sufficient presumption of guilt to justify the Court in putting the accused upon her trial.

CHAMPIONSHIP PROSPECTS DISCUSSED.—CHICAGO'S GAIN IN AMERICAN LEAGUE.

(Special, Canadian Associated Press)
Chicago, Sept. 15.—Chicago's White Sox were in the lists to-day as real contenders for the American League pennant, with Brooklyn in the National League up against only fair contenders for the flag, in that race.

The Chicago Americans moved up to within a half game behind Boston and Detroit the leaders, with Washington, near the tail end of the percentage column, as their opponents to-day. Boston on the percentage leads the league, but it has won two less games than has Detroit, and one less than the Sox. It has, however, lost two games less than either, and this makes the percentage column read: Boston 57½, Detroit, 57½, and Chicago 56½.

In the National League flag race the four clubs which Brooklyn found itself up against at the beginning of to-day's game with Pittsburgh were Philadelphia, Boston, New York, and Pittsburgh.

Brooklyn was one and one half games ahead of the Phillies, and Boston two and one half games behind, while the Giants just managed to keep up the pace of the Dodgers.

A table showing all the games yet to be played by the three leading teams in the American League gave the following: Boston 18, Detroit 14, Chicago 13.

In the National League, Brooklyn had 21 games, Philadelphia 21, and Boston 22.

BASEBALL MEN RALLY TO CINCINNATI MEETING.

(Special, Canadian Associated Press)
Cincinnati, Ohio, Sept. 15.—Baseball men from all parts of the country were present when the meeting of the National Baseball Commission held for the purpose of opening the Major League drafts here to-day.

The old drafting system of openly picking the names of clubs and players from a hat was again resorted to. Owing to the war with the Federal League, this system has been discarded during the last two years, and the drafting had been made secretly. It was expected that the National Commission also would discuss informally plans for the world's series.

It was announced, however, that no definite plans can be arranged for the series at this time because of the close races in the National and American Leagues.

August Herrmann, Chairman of the body, said, however, that he expected to see the first game of the world's series played not later than Saturday, October 7th.

scribers' list more than the revenue because there was a temptation on the part of the existing subscribers, to reach the new ones and consequently the number of calls increased more pro rata. The new rates would not offset the condition yet witness would advise the company to increase its subscription list. It was the duty of companies to increase their possibilities and this acted like the advertising end of a newspaper, but the rates would have to be increased. The public wanted a distance service and although it did not pay even in the United States the companies never had nerve to charge enough.

NIGHT SERVICE AT ROCK IS-LAND

In order to get a profitable operation at the old rates at Rock Island, witness said the night service and other features would have to be eliminated. One girl could handle 100 subscribers at a profit, but over that number there was a corresponding loss, as an extra girl would be necessary, also a lineman, and the total extra expense, including depreciation charges would exceed the extra revenue.

TEN CENT TOLL RATES TOO LOW

With regard to the toll rates, Mr. Kelsey insisted that the ten cent rate should be increased to fifteen cents. The originating and terminating office each absorbed five cents and the remuneration of the long distance portion was lost. So many companies lacked the courage to take the case in hand. The maximum calls one operator could handle would be 750 local and 75 long distance per day.

BASED ON PHYSICAL VALUES.

At another stage of the enquiry, Sir Geo. Garneau, alluding to the company's accounts asked how if its losses had been diminishing in steady proportion for five years, he accounted for doing losing business on the old rates. Was the increased rate justified?

Witness replied "From the actual existence of the figures." He had stuck absolutely to physical values. There was an end to human activity. Mr. Neilson had given his time without charge and drastic reductions had been made until they had come to the hilt. The company had got

(Special, Canadian Associated Press) London, Sept. 15.—The British in their offensive along the Somme have broken the German third line of defense and have taken the village of Fleers, two miles north of Ginchy, according to reports received by Reuters' Telegram Company today.

British forces are also reported to have gained the outskirts of Martinpuich, a mile and a half east of Pozieres, the report adds.

(Special, Canadian Associated Press) Petrograd, via London, Sept. 15.—Unchanged conditions along the front in Russia and Galicia are reported in today's war office statement.

Cold weather is setting in in parts of Turkish Armenia, where isolated engagements with Turkish forces, have occurred, says the statement.

AEROPLANES HELP IN ATTACK

(Special, Canadian Associated Press) London, Sept. 15.—(Official)—“Our aeroplanes co-operated with the advance of our infantry in the Somme, last night, from a low altitude, firing on the enemy on the ground.”

“Bombs were successfully dropped on three headquarters of the enemy. The railway station at Bapaume was also successfully bombed, much railway stock being damaged and one train destroyed.”

SERBIAN VICTORY GROWS IN IMPORTANCE

(Special, Canadian Associated Press) London, Sept. 15.—An exchange telegraph dispatch from Saloniki says the victory won by the Serbians has compelled the Bulgarians to retreat. The Serbians are reported to have captured more than twenty field guns. They took the Bulgarian positions at Malkanidze northeast of Lake Ostrovo, the dispatch says, where-upon the Bulgarians retired in the direction of Florina. The Bulgarians are also said to be retreating from positions further south.

PROHIBITION AND SUFFRAGE SOON

Sweeping Results of Election in British Columbia.

LIBERALS WILL HOLD 40 SEATS OUT OF 47—THE SOLDIER'S VOTE

(Special, Canadian Associated Press) Montreal, Sept. 15.—A Vancouver despatch to the "Star," this afternoon, says:

Winning from 40 to 42 seats out of a total of 47 in the legislature, Liberals of B.C. yesterday succeeded in "Smashing the machine," as their party slogan sang it during the recent campaign. On yesterday's vote Premier Bowser and his entire cabinet were apparently defeated. Though results in several close constituencies are still in doubt.

Prohibition has been carried by 6,000 or 7,000 majority and Woman's Suffrage by more than that.

Fifty thousand votes were cast yesterday and the votes of upwards of 20,000 soldiers are yet to be counted. There is no justification for believing that the general result of the election or of the referendums on prohibition and Woman's Suffrage, will be materially changed when the ballots of the men in khaki are counted. Six Liberals were elected in Vancouver with Premier Bowser 170 votes below the lowest Liberal. It would be surprising if he would overcome this lead by the Military vote.

NARROW ESCAPE AT CROSSING

Auto and Train Separated by
Few Feet on Government
Road.

NEED OF PROTECTION AT DANGEROUS LOCAL CROSSING
AGAIN DEMONSTRATED

Rev. Mr. Bigg, rector of St. Peter's Church, reports a narrow escape at the dangerous local crossing where the G.T.R. crosses the Government highway between Lennoxville and Waterville.

Mr. Bigg was in the car with Mr. Forest Lord and party. They approached the crossing cautiously and noticed no sign of approaching train and heard no whistle. As their car was almost on the track a train dashed by. They stopped the auto in its own length and thus escaped being struck.

This crossing is recognized as a particularly dangerous one. The track just west of the crossing passes through a deep cut and approaching trains are hid from view.

The Eastern Townships Associated Boards made representations to the Railway Commission some time ago relative to this crossing and urged the necessity of electric signals.

Whether or not the commission has ordered this protection is not known. In any event up to the present no protection has been installed.

It generally takes a fatality or two to bring about protection of dangerous level crossings.

The incident yesterday is but one of numerous escapes this summer.

NO COMPROMISE

ENGLISH RAILWAY WORKERS INSIST ON FULL DEMANDS.

London, Sept. 15.—The conference between representatives of the railways and their employees, which has been in session for the past two days in London, broke up today because of the men's refusal to entertain a compromise offer and their insistence upon the ten shillings advance in pay which they had demanded, and which the railway refuses to grant. It is still possible that the conference may be resumed tomorrow.

The compromise which the representatives of the railway trade unions rejected was an offer by the companies of a wage advance of three shillings a week and the reference to arbitration of the question whether more should be given. The companies contended that as a war bonus of five shillings a week was given the men last October, the extra three shillings offered was a fair compromise.

the cost down as far as it could without skinning the public or anybody else.

COMPANY SHOULD PAY "SIX AND SIX"

Proceeding he said the company should have gross earnings sufficient to set aside six per cent. of the physical property value for depreciation and pay six per cent. on actual investment, thereby making the investment so productive to the money market that necessary extensions demanded by the public could be properly and reasonably financed.

COST OF REPRODUCING PLANT.

It would be safe to say that if the company was organized anew, the plant now valued at \$131,765, could not be duplicated for less than \$153,906, taking into account, the cost of financing and securing new subscribers. That represented a capitalization of practically \$100 per station (a typical average value) and was the figure he placed on the property as its reproductive value, but owing to temporary conditions did not think any contractor could reproduce it for the \$153,906. The cost of Bell stations in the United States was \$142.

EVIDENCE ON OTHER SIDE.

Mr. E. Garceau, Immigration Officer, Coaticook, gave evidence this morning. He said he had been a subscriber for twenty years to the old Bell Co., and subsequently of the Eastern Townships company when the amalgamation took place. He discontinued using the service last January because the rates were raised and the service was not as good as usual. He also said he got a better service with the Bell for \$124 than he did for \$20 after the amalgamation.

NEW RATES ONLY PROVIDE 3 PER CENT. PROFIT.

Mr. Kelsey was afterwards examined on the accounts for year ending July 31, which showed the gross earnings as \$41,789.32. The cost of furnishing the service was \$31,132.96, and after writing off depreciation \$6,000, there was only sufficient left to pay 3 per cent. upon the actual physical value of the property in spite of the fact that 50 per cent. of the new rates are in force. The balance of the 6 per cent. could not be paid if the whole of the new rates were included.

SUGGESTIONS FOR CLASSIFIED RATES.

Regarding the classification, witness had never agreed with the Canadian Bell or E. T. companies upon their rate-making theories. The business and residential rates were too close together. These should be as follows:

Business—	
Single line.....	\$ 30
Two party.....	27
Four party.....	24
Residence—	
Single line.....	24
Two party.....	21
Four party.....	18

RICHMOND AND NORTH HATLEY COMPARED.

He mentioned that it is the universal practice in America for residents to have the four-party service. He would not discriminate between the rates of Richmond and North Hatley, for although the former had 300 'phones and the latter only 150, the North Hatley man had the same facilities for getting toll line and all services. Again, while it is realized in the States that the companies should charge enough to make the business pay, the poor man should be able to get the service he could afford to pay for. Therefore, if the single line was beyond his means he could take the party line.

As to the discrimination alleged at Richmond and Coaticook a \$25 business single line was absurd. At a later stage witness agreed that North Hatley might be given a \$27 single business line rate on account of the discrepancy in size, but not below that.

ENQUIRY BASED ON VALUE OF PLANT.

Mr. Roy cross-examined Mr. Kelsey with the intention of showing that the company was over-capitalized. The chairman drew his attention to the fact that the enquiry did not cover the stocks or bonds, but the whole argument was based on the value of the plant.

SCATTERED TERRITORY AND PECULIAR CONDITION OF COMPANY.

The operating cost of \$20 per station witness explained by the divided and scattered territory. If the 1,500 subscribers were grouped in one place it would probably be only \$13. He could see no remedy. The abnormal expense he put down to the peculiar condition of the company, which had no line or property in Sherbrooke. The Bell Telephone Co. in the States averaged \$28 cost for operating stations. The Eastern Townships was the highest tolling community he knew of (gross earnings \$18 on rentals and \$9 on tolls per station). The company had provided a high long distance service which consumed more than it realized.

Plan For Sympathetic Walk-out is Advanced.

BROOKLYN CENTRAL UNION ENDORSES PRINCIPLE OF SYMPATHETIC STRIKE.

(Special, Canadian Associated Press)
New York, Sept. 15.—Plans were discussed today by the leaders of the street railway strike for a sympathetic walkout of 60,000 to 80,000 workers here in Trades Allied with the operation of the street car system. James Pholkenken, President State Federation of Labor, has threatened to call out the workers in these trades if the present deadlock is not broken before to-morrow night.

The Central Labor Union of Brooklyn has endorsed the principle of a sympathetic strike. This union controls ninety five local organizations.

ings \$18 on rentals and \$9 on tolls per station). The company had provided a high long distance service which consumed more than it realized.

TO MAKE INVESTIGATION IN SIX DISTRICTS.

In answer to Mr. Roy, witness said that each place did not necessarily take care of itself financially and physically. Some courts had held that a company had a perfect right to operate at one point below cost if it could afford to do so.

He thought money was being lost at places like Ayer's Cliff and Windsor Mills, and he suggested that Mr. Harding divide his territory into six parts for an investigation as to gains and losses. Rock Island, Coaticook and Richmond were the mainstay of the company.

REDUCTION OF BONDS?

In reply to some of Mr. Fraser's questions as to reducing the bonds, witness said it looked bad to have a bond issue above the value of the property.

Replying to Mr. Laberge, he thought the E. T. community would not be satisfied without a night service.

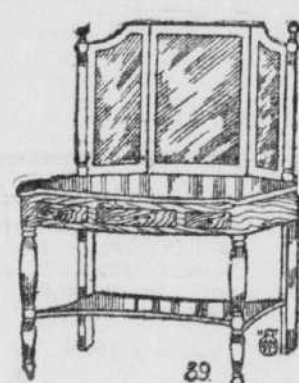

MR. HARDING EXAMINED.

Mr. Harding was examined as to the payments for wages, management, operating, collection, etc., with the idea of ascertaining if any excessive charges existed.

Every furnace demands some attention. But there is no reason why the twice-a-day job should be anything but pleasant. And to save a little time and a little bother every day means a lot in the course of the winter.

The Sunshine is a furnace any one can look after

The door is large enough for the biggest coal shovel. The grates are strong and turn easily. The ash-pan catches all the ashes without the need of shovelling. The water-pan is located so that it can be filled quickly.

Ash-dust cannot escape when the Sunshine
