HOLOCAUST IN WELSH COLLIERY

180 Miners Entombed and Believed to Have Been Killed

EXPLOSION WAS AT NOON

Manager Heroically Descended to Reconnoitre the Scene of Destruction, But Has Not Yet Reappeared.

Cardiff, Wales, July 11.—An explosion occurred to-day at the Watertown Colliery, Rhondda Hill, while 180 men were in the pit. Communication with them is cut off.

A loud explosion was heard at noon followed by the belching of clouds of smoke and dust from the colliery. The manager descended but has not yet returned. It is feared that the 180 men entombed were killed.

TWO YOUNG LADS OFF TO THE PEN

Both Guilty of Theft and Were Sent Down for Three Years

Two unpromising youths were sent down from the courts this morning for a three years' term in the reformatory.

George Berrigan, 15, was arrested for having in company with a younger boy broken into a Notre Dame street store and stolen seven revolvers. Both pleaded not guilty, but the court allowed the younger lad to go on suspended sentence, he having evidently been led into the trouble by his companion.

Louis Hill, was the second for penitentiary honors, his crime being theft of $7 worth of car tickets, in addition to which his mother appeared and told Judge Choquet that her boy was getting out of hand.

FAMOUS WOMAN SPY DEAD.

Santa Cruz, Cal., July 11.—Pauline Cushman, famous as a Union spy during the civil war, was drowned here yesterday. She was the daughter of a Spanish refugee, who lived in New Orleans and afterwards in Grand Rapids. She became a variety actress and was celebrated for her beauty. Attaching herself to the Union cause as a spy, she performed much dangerous and valuable service in Tennessee, Georgia, Alabama and Mississippi, and was once captured and sentenced to be hanged.

PREFECT SHOT DEAD IN MOSCOW

Count Shuvaloff, Head of the Police, Killed by Terrorist.

TIFLIS UNDER MARTIAL LAW

The Mutinous Crew of the Kniaz Potemkin Will Probably Have to Go Back to Russia After All.

St. Petersburg, July 11.—Martial law has been proclaimed in the town and district of Tiflis, Caucasia.

General Shuvaloff Shot.

Moscow, July 11.—Major-General Count Shuvaloff, prefect of police here and formerly attached to the Ministry of the Interior, was assassinated this morning while receiving petitions. One of the petitioners drew a revolver and fired three times at the prefect, who fell dead. The assassin was arrested.

The assassin, who was dressed as a peasant, has not been identified. He was recently arrested as a political suspect, but escaped from the police station before his examination.

The assassin waited in the anteroom of the prefecture till the other petitioners had been received, and then, entering the audience room, he advanced towards Count Shuvaloff, firing five shots at close range. The bullets passed through the body of the prefect.

Tiflis Is Quieter.

Tiflis, Caucasia, July 11.—The streets and squares are occupied by troops, but the city has been quiet since the proclamation of martial law.

The Official Gazette has resumed publication.

Batoum Closed Up.

Batoum, Caucasia, July 11.—Business here is at a standstill. The shops and banks with the exception of the Imperial Bank are closed.

Avellan's Successor Appointed.

London, July 11.—A despatch to the News Agency from St. Petersburg today announced that Vice-Admiral Birileff has been appointed head of the Russian Admiralty in succession to Admiral Avellan who resigned June 15.

Mutineers May Have Hard Finish.

St. Petersburg, July 11.—Russia has demanded that the mutinous crews of the Kniaz Potemkin be surrendered, not as mutineerss, but as common law offenders, under the extradition treaty with Roumania. It is believed that Roumania must comply with the demand.

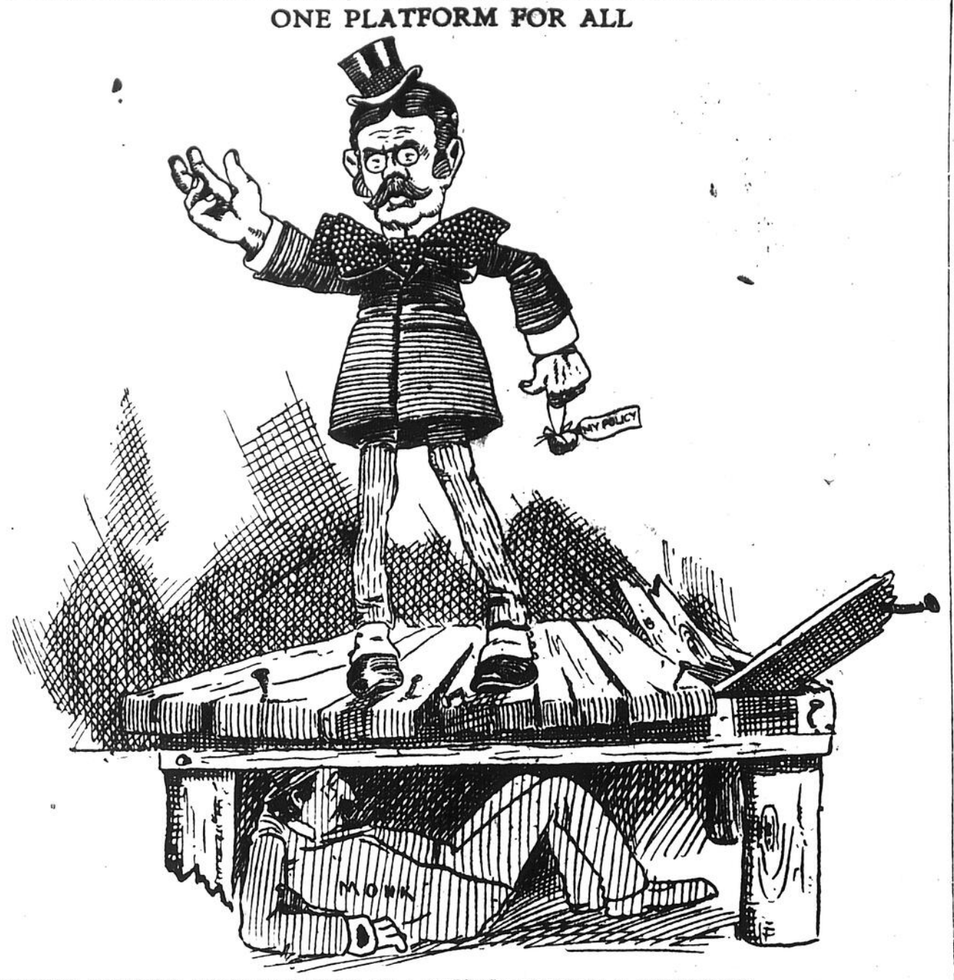
ONE PLATFORM FOR ALL



SUGGESTION FOR THE ACCOMMODATION OF A CERTAIN POLITICAL DIFFICULTY.

GERMANY PLANS TO MENACE GIBRALTAR

Secret Agreement With the Sultan Gives Kaiser Two Mediterranean Ports.

New York, July 11.—A Paris despatch to the Times says:—According to M. Jean Hess, the well known traveller and author of an important work on Morocco, who is credited with great persoanl influence over the Sultan, Germany has passed a secret agreement with the Sultan for the construction of two ports on the Mediterranean coast which will directly menace Gibraltar.

The international conference, Hess says, will by arrangement between the Sultan and Germany, be very brief and amount to nothing more than a confirmation of the Sultan's political and commercial independence and the integrity of his Empire.

As soon as this result is achieved the Sultan, in the exercise of his independence, will grant to a German company subsidized by the German state, a concession for the construction of the two ports in question, and the powers will then be unable to offer any opposition being bound by acquiescence in the decisions of the conference. Hess thinks, however, that the fear of provoking a European war which inevitably would result in the conquest and partition of his own empire, may in the end prevent the Sultan from striking this dangerous bargain with Germany.

TWO MORE BODIES ARE YET UNIDENTIFIED

Coroner McMahon has two bodies at the morgue awaiting identification. One is that of the man supposed to be Joseph Lawlor, who was killed by a live wire at Lachine on Saturday morning. The other body was found in the canal at Black's Bridge yesterday. There are no external marks of violence on it but an autopsy will be made this afternoon.

In the Practice Court this morning the case of the Compagnie des Prets et d'Epargne de Montreal now in liquidation on demand of Jeremie Charland was heard. Messrs. Kent and Turcotte were appointed provisional liquidators.

WANTS $5,000 FROM ST. HENRI

Action of Suburban City, it is Claimed, Depreciated Property.

Action has been entered by E. Hurtubise against the city of St. Henri, the plaintiff claiming damages to the extent of $5,000 for depreciation of his property owing to certain street improvements carried out by the city. Some time ago, the city of St. Henri raised the level of Notre Dame Street at the bridge over the line of the Grand Trunk Railway. Plaintiff claims that he has three properties at that point, and that the raising of the street level has obliged him to partly reconstruct his buildings, and in other ways incur damages which he estimates at $5,000.

SOLDIER FOOLS RAILWAY MEN

Was Looking for One Valise and Found a Whole Lot.

NO ONE SUSPECTED HIM

But He Lived Well and Spent His Time Looking for War Medals That He Claimed to Have Lost.

Next time an old soldier sets out to seek sympathy he had better keep away from Windsor station. The men there have had their trust played with and broken, and are not taking any more tales.

When William Hawk, claiming to have been a member of Britain's rank and file, first made his appearance among the men of the rail, it was with a sorrowful story of the loss of a valise containing amongst other things his collection of medals won on many hard fought fields of blood. Nothing could soften the loss, but the recovery of the treasures, and the warm-hearted station workers did not object to the old man hovering round day after day. He was all the time hopeful of yet spotting his grip in the hands of some traveller.

And all the time other valises kept going out of sight at a persistently annoying rate, and the claims department were kept busy paying out on the lost property of their passengers.

But no one seems to have suspected the hardy old man of war, who wailed for his missing treasures, until the other day a porter made mention of an occasion when he had observed Hawk marching off the premises with a valise, which was certainly not that containing his ribbons and medals. This seemed to suggest a clue, and in the course of the inquiries which followed, it leaked out that the old one had for quite a time been paying for his board by the proceeds of the sale of many valises and their contents.

Meanwhile Hawk had disappeared, but to-day he was unearthed from jail, where he is doing a month for drunkenness, and on being brought before Judge Choquet pleaded guilty to a charge of theft and was awarded another month.

The railway are now "off" old soldier yarns.

BOTH SIDES FOR MORE INDEMNITY

Living in Ottawa Six Months is Worth $2,500 They Say

BUT CABINET IS YET SILENT

And No Resolution is Likely to Go Through Present Session—Opposition Say it Prorogues Next Tuesday.

Ottawa, July 11—(Special)—The members and Senators of both parties held caucuses this morning and at both of them the question of a sessional indemnity increase was discussed. The members of the two parties expressed themselves in favor of the increase on the ground that sessions will hereafter be not shorter than six months, in spite of the Government intimation to the contrary, and that a half year at Ottawa was worth $2,500. The members of the government, present at the Liberal caucus, gave no intimation that there would be anything done to meet the request. There is a general feeling that no action will be taken this session at least. In the Conservative caucus it was stated the session would end a week from to-day.

BORODINO SANK WITH GUNS FIRING

Were Still Worked When Her List Made the Shot Useless.

San Francisco, July 11.—Dr. M. Paris, who was surgeon of the mission hospital ship Orel, attached to the fleet under command of Admiral Rojestvensky, during the naval battle of the Sea of Japan, has arrived here on his way to France. He is a Frenchman, and with many other surgeons of that nationality, joined the O[illegible] at Toulon as a delegate from the French Red Cross Society.

As an eye-witness of the battle Dr. Paris saw the battleship Borodino and many others of the Russian fleet sink. He was within a mile of the Borodino when she began to careen and fall. "At this time," he says in the course of an interview, "her guns were firing and I could see that many shells she fired were going skyward or into the sea beside her. But every Japanese shell, it seemed, went straight into the vitals of the Borodino. Then came a heavy listing of the big battleship and then the tremendous plunge as she went down by the head, with hundreds of men aboard her."

Dr. Paris says that Admiral Rojestvensky and his officer never seemed to fear defeat at the hands of the Japanese, although the ships were very foul after the long cruise in tropical waters.

FELL SOBBING ON BREAST OF ERRING HUSBAND

In the Sessions Court to-day, Judge Desnoyers presiding, Isaac Bermont, was sentenced to three months imprisonment, with $25 fine or other three months, on a charge of picking the pocket of a lady on Jacques Cartier Square. The wife of accused was in the hall adjoining the court, and there was a most pathetic scene as the husband was led out for removal to jail. Sobbing wildly the woman held on firmly to her erring husband, her kisses only ending when she was gently but firmly hauled away from the cab, at present doing duty in place of the prison van.

Alfred R. Serres, thirty-five, was remanded by Judge Choquet on a charge of having committed an aggravated assault on Marie E. Blonch in her home at 1822 St. Catherine Street.

JOE MUISSE'S BODY FOUND.

St. John, N.B., July 11.—(Special.)—This morning the body of Joe Muisse, a missing Indian guide, was found floating in the harbor. He disappeared in May and as he had considerable money, was believed to have been murdered. The money was found on his person and it is believed that he wandered over the wharf while intoxicated.

NO LOAN FOR ST. JOHN, N.B.

St. John, N.B., July 11.—(Special.)—The City of St. John has arranged with the Bank of New Brunswick for a temporary loan of half a million and will not make a second issue until next year. The money is for water improvements.

FINE, SHOWERS TO-MORROW.

To-day: Light winds and fine. Wednesday, showers.

The weather continues fine with fairly higher temperature in Manitoba and the territories. Showers occurred yesterday over a small section of Ontario, while over the greater portion of both Ontario and Quebec the weather was fair and moderately warm.

The local temperature varied from 58 to 82 to-day, 5 degrees above yesterday's maximum.

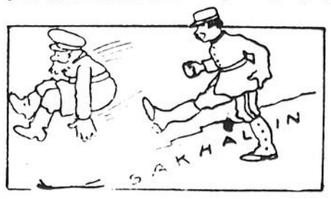
THEY CLAIM that with a motor cycle a gallon of gasoline will carry you seventy-five miles. Looks reasonable enough, when you consider that less gasoline than that has carried many a good cook to—well, let us say to the intermediate state.

KING EDWARD is too much of a gentleman to wipe his feet on the Persian carpet the Shah has just sent him.

PERHAPS our old friend "Boba" has a feeling that he will not be on hand next time Great Britain gets into a mix-up, and is not so sure they can "muddle through" without him. These old chaps get to feeling that way about it.

M.P.'S THINK they would like $2,500, but would split the difference and take $2,000. That seems fair.

GENTLEMAN who sat down in front of a New York Central train was probably trying



to get an idea of Russia's feelings on leaving Sakhalin.

A RESIDENT of Three Rivers died recently at the age of 101 years. He was a life-long smoker. Still that is no argument for tobacco. If he had left the weed alone, he might have lived to be 150.

WESTMOUNT'S chastened ideals were well exemplified on Saturday, when several hundred persons waxed highly enthusiastic over a cricket game.

EARL GREY has been studying farming a la habitant. The Earl may not always please all the papers at once, but he is making himself pretty popular in all parts of Canada, thank you.

GAZOOTS management of the G.T.P. is distinguished by a rush of democracy to the head.

IT COMES to us with a 1,000 volt shock that this new pay-as-you-enter car, which gets 10 per cent. more fares than the others, has been running on the Westmount line since the very beginning of the experiment. Fie for Westmount.

IN COMMAND

S. Teddy Lyre Took Charge of the Kniaz Potemkine

His Truthful Account of the Mutiny and the Retreat of Kruger on Sebastopol.

(By C. Hoarful Lyre.)

"I happened to be in Odessa the day the gay old Russian who was running the Pumpkin (yes, it's Russian for that) fell into the soup, so I naturally went aboard to see what was doing. There was a good deal of animated conversation, but my experience at the Westmount Council and the Harbor Board meetings made it easy for me.

"After I got the lay of the land, I decided it would never do for those fellows to go ashore, as my friend the Czar had trouble enough on his hands, so I mildly suggested that if they cared to run over to Roumania I thought I could give an account of the business that would help them out. They left it to me, and I went into the directors' cabin to get a shave. Here, to my amazement, I found that the barber was from St. Hyacinthe, so I promptly made him head of the culinary department, and the pea soup he served up made a hit with the boys. It did, honest.

"Next day the rest of the fleet came up, and the admiral, a son of my old friend, Paul Kruger, asked us to surrender. This put me in mind of Sam Hughes, so I decided to avenge Sam's honor. I said we'd surrender, but with full determination to change my mind, which I did. Also I gave Kruger a truthful account of the numbers of mutineers in his own ships, who were ready to follow his Japanese cabin boy, which sent him off to Sebastapol for a fresh supply of cheese and crackers. Then ——"

(To be Continued.)

JAPANESE are showing their usual foxiness in borrowing lots of money when people think they don't really need it.

JAPS are asking for more money, secured on the tobacco monopoly. This sheds a new light on the situation, for if Japan ever gets hard up it might borrow on the gas monopoly, the electricity monopoly, and the street car monopoly. Poor Russia.

A HUNDRED GALLONS a day per head is a pretty liberal allowance, considering that old Jupiter Pluvius has been watering all the lawns so far.

NEXT TIME Cap. Simmons decides that he needs to bump the Bump he will not select the Fourth of July to do it.

WELL the Potemkine probably needed a good bath.

SAILORS on the Kniaz Canada, having been taught that their presence is neither necessary nor desired, the union will not allow any more mutinies without an order from the International grand secretary.

When Woman Fibs.

Women are more truthful than men, but occasionally you meet a woman who says she doesn't want to get married.

IT WOULD BE a lot easier to give Mr. McDougall the sum he asks than to check those calculations he makes in his last love letter to the Governor-General-in-Council.

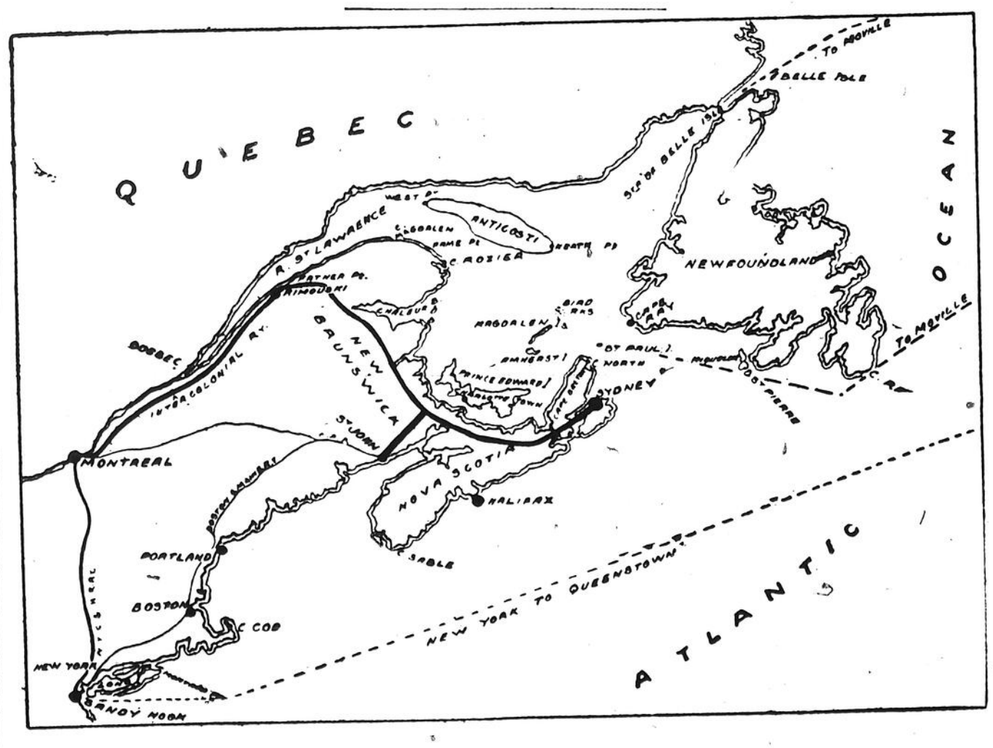
Papa's Vacation.

Now wife and daughters take their ease
Where blows the bracing ocean breeze.
And pop sits nights
With sundry wights
And draws to pairs in hopes for threes.
—Fort Worth Record.

FACT THAT the charwomen of the Senate pick up the evidence in divorce proceedings helps explain why those jobs are so much in demand.

Is Shortest Atlantic Mail Route by Way of Sydney and the Intercolonial?



This week's experiment of bringing the European mails to Sydney and then up to Montreal by special I.C.R. train will go a long way towards settling the shortest mail route from Liverpool to Canada and the United States during the summer months. The above chart shows the Gulf of St. Lawrence and the two passages to Montreal that of Belle Isle, the shortest and the one in use at this season, also the one via Cape Race which is being used this trip to give a chance to drop the mails at Sydney, C.B.

The chart also shows the relative positions of Portland, Boston and New York as compared with the Canadian ports, which are much closed to Liverpool.

The Allan triple screw turbined engined steamship Virginian, left Moville at 2 p.m. last Friday, or about 10 a.m. Sydney time. Upon her last two voyages she averaged nearly 400 knots per day so that, assuming she meets equally good weather and suffers no detention from fog, we may expect to hear of her being signalled by wireless telegraphy to Cape Race any time after ten p.m. to-night, as the approximate distance covered between Moville and Cape Race is a little under 1,800 knots.

The distance from Cape Race to Sydney Harbor as worked out upon a true course is 306.4 knots. It is hoped that the Government cruiser Canada, which is fitted with the Marconi apparatus will get into communication with the Virginian soon after she has left Cape Race and that the sea will be smooth enough to enable the mails to be transferred from the big liner to the swift little cruiser some distance outside Sydney Harbor so that the Virginian may not have to deviate from her direct course to the St. Lawrence to go into the shelter of the harbor. The weather is likely to be the prime factor in the success of this plan.

The following table of nautical distances, based upon an average of voyages actually made by the various routes, if taken in conjunction with the chart published in this issue will assist those interested in the experiment being made to ascertain the possible or probable saving in landing the mails at Sydney at those times of the year when the long sea route via Cape Race has to be taken instead of the short sea route via the Straits of Belle Isle, which is clearly the most direct route to the St. Lawrence and which is always open from July to the close of navigation.

MEN WALKED OUT WHEN FELLOWS WERE DROPPED

Peculiar Incident When the Railroad's Retrenchment Policy Went Into Effect at Niagara Falls.

Niagara Falls, Ont., July 11.—(Special.)—The Grand Trunk's new retrenchment policy was put in force here yesterday and trouble resulted right away. About ten men in the engine shops were laid off, and immediately fifteen others dropped their tools and asked for the wages due them. It was not a strike, but the men simply declined to work for the Grand Trunk any longer. If the staffs in other departments are cut down further trouble is very likely to follow. The locomotive department is practically tied up, there being no men to clean and care for the engines. It is said men will be brought from other places where staffs are being reduced to take the places of those who quit.

MILITIA DEPT. HAD THE SIGN REMOVED

Quebec Much Agitated Over the General Montgomery Memorial.

Quebec, Que., July 11.—(Special)—Considerable excitement was manifested by the residents of Champlain street yesterday when they observed three men climb up the Citadel Cliff and start to remove the signboard that has been there for the past seventy years to mark the spot where General Montgomery fell leading his American troops in 1775 to effect a junction with General Arnold in their attempt to capture Quebec. This sign board has been one of the attractions for tourists visiting Quebec, and the Champlain street people were under the impression that its removal was an act of vandalism.

The Chief of Police was notified by telephone and so was the Federal member for Quebec West, Mr. Wm. Power, who telegraphed the news to Ottawa and asked if the sign was being removed by order of the Militia Department. In the meantime the Chief of Police started an investigation and when the men descended from the cliff with the sign board, they were asked for an explanation. One of the parties said the men were carrying out the orders of a contractor who agreed to pay them $4 for the work. The sign was taken from them and placed in No. 6 Police Station, Champlain street, for safe keeping until an investigation could be made. This morning however, it was learned that the sign was being removed by orden of the Militia Department at Ottawa, but no cause was given.

CAPE WINE MEN LOOK FOR OPENINGS.

Ottawa, July 11.—(Special.)—Canada's agent at Cape Town, Charles M. Kittson, reports from South Africa that co-operative farming is being largely gone in for, particularly in dairying. He intimates that Canada may find another competitor in the markets of the world. He reports the Cape wine makers to be anxiously looking for openings. In view of this, it is anticipated that Canada's action in giving these wines better tariff treatment will be appreciated.

QUEBEC-SAGUENAY ORGANIZES.

Quebec, July 11.—(Special.)—At a meeting of the shareholders of the Quebec and Saguenay Electric Railway the following have been elected directors for the ensuing year: Mr. R. Forget, Hon. D. A. Choquette, Hon. F. B. Garneau, Wm. Price, McLea Walbank, N. Rioux. At a subsequent meeting of the directors, Messrs. R. Forget and Senator Choquette were elected respectively president and vice-president. It was also decided to proceed with the surveying and locating the road without delay.

Malta-Vita

"The Perfect Food"

Same Big Package
Same High Quality

Now 10 cts.

Malta-Vita "The Perfect Food," malt life, as its name implies, stands for that intense vitality that results from the daily use of a food skilfully prepared from the whole of the wheat, of which, after being cooked, each kernel has been subjected to the searching digestive action of the diastase and other enzymes of barley malt. This makes it a ***"predigested"*** food of highest nourishment value, which explains the remarkable results obtained in cases of nervous debility, deranged stomachs and constipation. Besides, it is the best food to eat.

"We have used several boxes of Malta-Vita and think it the finest food we have tried yet. Having used different kinds, we find Malta-Vita has a flavor which excels all others. We had almost despaired to find something our baby could eat without being distressed. He had, since birth, been a constant sufferer from constipation and a general derangement of the stomach and bowels. Since we began feeding him Malta-Vita he has improved wonderfully in health and is entirely cured of constipation. In fact, myself and husband realize a great benefit since using the food, as we have suffered from general debility. We find it gives life and tone to the entire system." Name given on request by Malta-Vita Pure Food Co.,

MALTA-VITA is a food with a "taste." It does not belong to the tasteless variety of "flaked foods" and too great credit cannot be claimed for Malta-Vita on account of the fact that it contains its own sweetening agent—maltose always being present in a proportion exceeding eight per cent and sometimes ten per cent. This is a healthy, digestible sugar, formed by the action of the malt diastase upon starch and it causes the stomach no inconvenience. This is not the case with flaked foods that are sweetened by cane sugar, beet sugar, maple sugar, boiled cider, glucose or grape sugar, as all these cause acidity in the stomach and are seriously injurious.

ALL GOVERNMENT BUSINESS IS IN

Except Certain Undescribed Resolutions Mentioned by Premier.

WILL CHANGE FISCAL YEAR

And Commence Future Sessions of the House in November in Order to Avoid Summer Sittings—Mr. Foster on Supplementaries.

(Special Staff Correspondent.)

Ottawa, July 11.—The House transacted a large amount of business yesterday. It discussed a familiar project of shortening the session from six to four months in future though there is little real hope that such a project will be realized. It learned about the new militia plans and completed the militia and marine votes.

When the house had been sitting a few minutes Mr. Hance J. Logan, of Cumberland entered. The House applauded him as he took the seat from which he has been kept for months by serious illness.

On motion of the Prime Minister it was resolved to begin morning sittings on Wednesday and to sit on Saturday. It had been hinted that prorogation might take place on that day. Hon. Mr. Foster evidently did not share the view that the end of law making is so near, for he suggested that on Monday next the House go through the list of notices of motion and clean off all which are not approved by the Government. Sir Wilfrid Laurier suggested the House might do that now as this was Monday and the work therefore in order. Mr. Foster replied that by next Monday there would be a few more and it would be well to deal with them all together.

The leader of the Opposition asked when railway subsidies might be expected and the Prime Minister replied, "There will be no railway subsidies this session." "Then," said Mr. Borden, "we have practically all the Government business before us." Sir Wilfrid replied, "We have all Government matters before the House with the exception of certain resolutions of which I am not prepared to speak at the present moment."

Mr. R. L. Borden introduced a bill to amend the House of Commons Act. It provides that the Speaker shall issue his writ for an election within the period of three months after a seat becomes vacant.

TRADING STAMP BILL INTRODUCED.

The Minister of Justice introduced an amendment to the criminal code. He stated it was to do away as far as possible with the mischief in connection with the trading stamp business. It had been introduced at the request of the Merchants' Trading Association and others. The bill provided a penalty for the trading stamp companies, the merchants who distribute them and the customers who receive them.

Hon. Frank Oliver introduced a bill respecting roads and road allowances for Saskatchewan and Alberta. He stated it was to transfer to the Provinces the powers now exercised by the territorial authorities.

The Speaker announced the petition against the member for Nicolet had been dismissed and Hon. Mr. Lemieux confirmed in the possession of his seat.

Hon. Mr. Emmerson's bill to amend the Railroad Act of 1903 was dropped. The same treatment was given the Minister of Justice's Act to amend the Canada Evidence Act of 1903.

The bill respecting the Canadian Agency introduced by Mr. Bickerdike, was referred back to the Banking and Commerce Committee on motion of Hon. Mr. Brodeur.

Senate amendments, to the bill to incorporate the Edmonton Boom Company and respecting the Canadian Northern Railway Co. were concurred in.

Mr. R. L. Borden declared that there should be something effective done to compel the attendance of members. There were men who were absent ten and fifteen days at a stretch. If the rules of the House required a full attendance there would be a material shortening of the sessions. Late in the autumn and early in the spring were periods of comparative leisure in Canada. An effort should be made to have Parliament sit then. He understood that the reason for having Parliament called in January or February was that the reports of the departments were not made up until then. He asked if there was any reason why the time for the closing of the fiscal year should not be changed to say the thirty-first of March, as was the case in England.

Hon. Mr. Fielding—Nothing to be said against it, and a great deal in favor of it.

WANTS WINTER SITTINGS.

Mr. Borden—Then the reports would be ready to be presented to Parliament if it should be called for November or December. One of the effects of having winter sittings would be that representative men would feel able to have themselves elected and give their time and talents to the work of Parliament. It was getting to be unbearable that members should be compelled to remain in Ottawa every summer attending to public business which could as well have been done in the winter time.

Sir Wilfrid Laurier informed Mr. Foster there were good reasons for the late bringing down of the supplementaries this year. He would defend doing so on merit and not take shelter behind Mr. Foster's practice when he had the bringing down of estimates. The chief complaint had been on the items for public works and for defence. The militia estimates could have been brought down earlier but the Government was waiting for a reply from the Imperial authorities concerning Halifax and Esquimault, and had decided to delay until that reply was given. It had not been received yet, but the Government had concluded that it must now go ahead and vote the money for those defences as though it had been given. There was some reason for the delay in the public works items, because the Minister had to go before his constituents in the middle of the session. Sir Wilfrid agreed that it would be well to expedite the business of the session and was glad to find the Opposition in its present frame of mind. Personally he favored an early start and a short session. He endorsed the proposition for meeting in November. That might not be possible this year, as there would not be time for the changing of the fiscal year and there was the important tariff commission, which was to sit during the summer, and which it would be desirable should prepare its report for the next session. Therefore he proposed that the next session should begin early in January and the next as well as all following should start in November or December. Another proposal for the shortening of the session was the revising of the rules of the House, which had not been touched since 1878. These things would and could be done to curtail the session. One was to meet in November, another to revise the rules of the House, and the third to have all business ready for consideration at the opening of each session.

Mr. Foster then stated his object had been accomplished in having this matter discussed and he withdrew his amendment.

MR. FOSTER OBJECTS TO SUPPLEMENTARIES.

On going into supply Hon. Mr. Foster seized the occasion to make a criticism in lump of the supplementary estimates and concluded by offering a want of confidence amendment. Mr. Foster said that it seemed a little unreasonable that at the end of the sixth month of the session supplementary estimates amounting to almost fourteen million dollars and constituting one-sixth of the total large amount of estimates for the session should be brought down. These were the dying days of Parliament. It was impossible that there could be any fair and reasonable consideration and discussion of the items in the supplementary list. Many of the items were large and not a few of them involved spending on a new principle and opened avenues for larger expenditure in the future. There was every reason why there should be time for full and fair discussion. There was a new principle involved in the militia supplementaries, and the same could be said of the agricultural vote. The total of the supplementaries was unreasonably large there was a suprising long list of harbors and rivers, which had been flowing placidly to the sea for centuries, which had been discovered to be possessed of commercial possibilities which required that money should be sent on them. In no place had discovery shown itself more agile than in the province of Nova Scotia. Mr. Foster said every one knew that it was necessary that a certain number of items should be brought down at the end of each session in the form of supplementaries. No man would be so unreasonable as to say that there should be none. But no man could say it was reasonable that a budget the size of this year's supplementaries should be brought down. Bringing them down at this stage was unfair to the Opposition. If it insisted on discussing them it would be charged with unduly prolonging the session and it would get no one to listen to its criticism. After the House had been in session for six months both the members and the country were mentally weary and not in a condition to appreciate criticism. What, asked Mr. Foster, is the use of criticising if you cannot get the attention of the country to what you are saying? At the present time no attention is paid to what is done at Ottawa unless it is of an unusually sensational nature. The Opposition are compelled to become partners with the Government in passing the supplementary estimates whether they approve of them or not. When the Opposition went before the people it could not criticse them for it could not answer the demand—why did you not oppose them when they were brought down in Parliament.

Mr. Foster moved that the House desires to enter its earnest protest against the action of the Government in keeping back until the closing hours of the session, supplementaries amounting to nearly $14,000,000, one-sixth of the total appropriation and thus precluding any effectual criticism of expenditure, and continuing a practice highly prejudicial to public interest.

The Finance Minister said he took no exception to the view that the estimates should come down early, and be disposed of as soon as possible. But this session the House had been engaged for several months on the Autonomy Bills which the Government side of the House regarded as an important matter and which gentlemen opposite seemed to have the same opinion of for during the debate it was several times declared that the matter was the most important that had ever come before Parliament.

Mr. Borden—Why were not the supplementaries brought down while that debate was going on.

NO NEW PRINCIPLES INVOLVED.

Mr. Fielding replied that the Leader of the Opposition had no experience in the preparation of estimates but the ex-Finance Minister had and he would hold Mr. Foster responsible for the practice of the past rather than for his precepts of the present. He did not agree that there were numerous new principles involved in the supplementary list. One of the largest items was for the National Transcontinental. Would any one say that it would be necessary to discuss its principle before voting the money for the work. As to the public works list, though it was long the items were small and the total not considerable. A small expenditure in a little place might be as useful and as much appreciated as a very large expenditure in a considerable place. There was a ttime when Mr. Foster was not so ignorant of the places in the Maritime Provinces and not so contemptuous of them. Another large vote in the supplementaries was the militia vote but he understood the debate on this had been delayed by agreement. As the main estimates had been prepared in November and December and laid before the House in January it was not surprising that by June and July proposals for public works should present themselves to the Government and be favorably considered. As the House had been fully employed every day he did not think that there were good grounds for Mr. Foster's complaint. As to the charge that the Liberals when in Opposition had criticised the Conservatives for doing what they were now doing Mr. Fielding said it was one of the privileges of an Opposition to say some foolish things, a privilege which the present Opposition was indulging itself in to the fullest extent.

MILITIA SUFFICIENT FOR CANADA'S DEFENCE.

Sir Frederick Borden proceeded to show the growing interest that was now taken in Canada in military matters. He said that the duty of the militia was to aid the civil power in the maintenance of order and to defend the country against an invasion from without. Canada, he was glad to say, was in a position to do both through its militia system. The Swiss militia army was sufficient for its needs and in a like way the Canadian militia would be sufficient for the protection of Canada. The Minister showed that in 1885 the militia under the sole control of the Dominion Government, put down the Northwest rebellion. The Fenian invasion was repelled by the militia. What he asked, was necessary to make the militia efficient? He answered that by saying that the first requisite was sound administration and the next sufficient money to permit that being carried out. The Peace establishment should, contain all the elements necessary to make an effective force in the time of war.

Sir Frederick proceeded to show that Canada had now taken the last step for the assumption of the responsibility of everything for the defence of the country by taking over Halifax and Esquimalt garrisons from the Imperial authorities. He then went into the correspondence which, took place between the Dominion and the Imperial Governments in regard to the matter. Sir Frederick held that Canada ought not to consent to any arrangements with Britain that would lessen the control of the Dominion over its militia force or make any payments over which Parliament would not have control. Mr. Foster did not see that the Minister should have objected to the suggestion from Mr. Brodrick to establish a military force raised in Canada liable to be sent abroad since the Dominion would have the necessary control. Sir Frederick said that neither then or now was there any power under law to send any part of the militia for service abroad. That had to be done voluntarily. For his own part he thought it was undesirable to have any special corps ear-marked as ex-Premier Barton, of Australia, would have said, for service abroad.

CENTRAL CAMP SELECTED SHORTLY.

In respect to the central camp Gen. Lake would decide in a few days as to its location. It lay between Kazabazua up the Gatineau or Petewawa. The force would require to be between 50,000 and 60,000 so as to expand it into a force of 100,000. He enumerated some of the changes that had taken place during the past year. It was intended to give $4,000 for target practice for universities. This was done in response to a delegation from McGill University. He said that the expenditure on the militia was running up considerably. It was the intention to confer with the different provinces with a view of finding out what could be done in the way of utilizing the young element in the country for education and training in the schools. He also intended making the suggestion that the young men of Canada under 21 years of age should give three days annual training or an equivalent. Something could be done in this way at a small cost to the country. The department has ordered several big guns, some 18 1-2 pounders were being delivered. There were also ordered 4.7 and 6 inch guns. 1,000 rifles were being delivered monthly and this would be continued until 100,000 had been received in all. The rifles were being made in Canada, and it was intended to establish factories in Canada for big guns and explosives. The idea was to have the militia self contained.

To Mr. Crockett, Sir Frederick said that infantry would remain at Fredericton until cavalry was sent.

All the militia estimates were passed and the Marine supplementary votes were put through before adjournment.

WHITEHEAD—At Halifax, July 6, Marion Elizabeth, daughter of Wm. and Margaret Whitehead, aged 10 months.

WANTED—A RED COW

some lady charlotte gelatine and a grand piano.

SENATE HAS A TURN AT "PASSION AND PREJUDICE"

Discussion on Delay of Autonomy Bills, in Which Sir Mackenzie Bowell Turns Up Sleeves.

Ottawa, July 11.—(Special.)—In the Senate there was a complaint that papers asked for had not been brought down.

Sir Mackenzie Bowell hoped Mr. Scott would consider the complaint. It had become of late a habit of certain departments to pay no attention to the demands of the Senate. To-day the Senate had a number of the most important bills that could be considered. They had taken the other House five months, yet the Senate was told prorogation was to take place in a few days. It was impossible for anyone to grasp these bills, and it was not proper to ask them to swallow them holus bolus.

Hon. Mr. Scott said the promptness with which Government measures were laid before the Senate compared most favorably with the procedure in former years. He had seen basketsful of bills come down within twenty-four hours of prorogation. He had refused to allow a bill to go through brought down after the guns had fired. As to the Autonomy bills they were delayed by friends of Sir Mackenzie Bowell. The Toronto influence had delayed the bill day after day, indecent illustrations had been published, appealing to passion and prejudice.

Hon. Mr. Lougheed thought that Mr. Scott's reference to the passion and prejudice of Toronto representation would set a pace that would not tend to expedite the passage of the bills. Such a tone would certainly be reciprocated by those opposed to the bills.

Hon. Mr. Ferguson said Mr. Scott was quite wrong as to the reasons of the delay. The Government did quite as much talking as the Opposition. The delay was caused by dissensions in the Cabinet. One member resigned and another was on the point of resigning. The Prime Minister brought down his bill without the knowledge or consent of his colleagues.

Sir Mackenzie Bowell hoped the bills would be approached calmly. He did not see why, because he differed from the Government, he should be accused of bigotry. The chief opponents of the bills in Toronto were the Liberals and the Globe. There were very few Conservatives in the Massey Hall meeting. In any remarks he might make according to whatever conscientious convictions he had, those who knew his former course knew that he could not be accused of bigotry. If it were to be a fight he was willing to take his share of a row.

GOOD REASON FOR ITS SUCCESS.

Without doubt the largest selling catarrh medicine in America is Catarrhozone. Not advertising but honest merit has made catarrhozone famous. Guaranted to cure catarrh in any part of the system: try it yourself.

MR. J. W. WATERHOUSE RETURNS

Among the passengers who arrived on the S.S. Bavarian the other day was Mr. J. W. Waterhouse, hight foreman with the Pillow and Hersey Manufacturing Co, who had spent an eight weeks' weeks vacation in England and visited several of the principal towns in the north including Liverpool, New Brighton, Bradford, Blackpool and Leeds. He was much impressed with the methods employed in the Leeds Rolling Mills where things seemed to him to be done with more ease than on this side.

Mr. Waterhouse pointed out that in the twelve years interval since he was last in England things had altered very much and the places he had been most used to them seemed entirely new to him.

The trip across the ocean both ways was very enjoyable although going to England the weather was pretty cold and coming back again was inclined to be stormy.

On the way back to Canada Mr. Waterhouse spent an hour or two at Londonderry, Ireland, and altogether expressed himself as having had a most agreeable time.

THE LINDSAY STORES.

At the store of C. W. Lindsay, (Montreal, Ottawa and Quebec), piano buying is reduced to a simple proposition, whether you want to pay $200 or $1,000, you get the best value at every price. C. W. Lindsay Limited, 2566 St. Catherine Street.—Adv.

OUR BARGAIN COLUMN

Merchants who have something to say to collectors of Green Cash Receipts should use the Bargain Column. On the other hand, collectors will find in it a solution to their many shopping problems—where the greatest number of Green Cash Receipts may be obtained with each purchase, and where merchandise is cheapest and most attractive.

It has a strong claim for the attention of all.

THE TRADERS ADVERTISING CO.

259 NOTRE DAME STREET WEST.

The International Waterways Commission Met This Morning

Montreal City, Merchants and Shipping Men Laid Their Views Be ore It—Col. Ernst Expressed Oyinion to Benefit Upper Lakes at Expense of St. Lawrence Would be a Crime—Mr. James Mabee Thinks Canadian Interests Safe.

"It is with much surprise and some chagrin that after the speeches made this morning I find the idea afloat that any works are in progress or are contemplated by this commission upon Lake Erie or the upper waters which would in any way injure the river St. Lawrence, its inlets from above and its outlets to the sea." In these words Colonel Ernst, the president of the United States section of the International Waterways Commission endeavored to reassure the various representatives of the interests of Montreal and the St. Lawrence who presented their views before the commissioners at a meeting held in the Council Chamber of the Board of Trade immediately after their arrival from Quebec in the Frontenac at 11 a.m.,

THE INTERNATIONAL WATERWAYS COMMISSION—Mr. Jas. P. Mabee, K.C., Toronto, Chairman of Canadian Section.

after inspecting every dredge and station where work is going on under the guidance of Mr. F. W. Cowie, the engineer in charge.

Colonel Ernst went on to say: "We have no plan in view and only an idea that something can be done which may be to the benefit of both nations. The river St. Lawrence belongs to us as well as to you, indeed it belongs to the world and to mankind, and I should feel myself a party to a crime if I acquiesced in any report or decision which benefited the upper lakes at the expense of the lower."

The following were present, all the members of the commission as follows: James P. Mabee, K.C., or Toronto, who acted as chairman; Col. O. H. Ernst, of Washington; George Clinton, of Buffalo, Prof. George Y. Wisner, of Detroit; W. F. King; Louis Coste, C.E.; Thoams Cote, secretary Canadian section

Representing the city—His Worship the Mayor.

Representing the Board of Trade — Wm. I. Gear, president; F. H. Mathewson, first vice-president, R. M. Ballantyne, second vice-president; James Thom, treasurer; Geo. Hadrill, secretary.

Representing the Harbor Commissioners—R. Bickerdike, M.P., acting chairman; Jas. Crathern, L. E. Geoffrion, Alex. McFee, W. E. Doran, John Kennedy, chief engineer, David Seath, secretary.

Representing La Chambre de Commerce.—H. A. A. Brault, president.

Representing the Shipping Federation —Hugh A. Allan, president; J. R. Binning, R. W. Reford, Thos. Robb, manager.

Representing the Dominion Marine Association—Jas. Cuttle, president; Chas. J. Smith.

The following officers of the Dominion Government were also present: Col. Anderson, chief engineer Marine Department; F. W. Cowie, superintending engineer of the ship canal; Arthur St. Laurent, of the public works department.

In the course of his replies Mr. Wisner stated that the highwater level of Lake Erie was 574 5-10ths above tide water, and that the works suggested in 1899 might have the effect of holding up the water at low level by three feet. It was, however, a plan which had never been worked out to a definite conclusion, and Mr. Gear pointed out that thirty per cent. of the total trade of the Dominion passed through Montreal, and as instancing the interest that the United States had in the St. Lawrence waterways said that nearly half came from districts in that country as far south as Louisville.

He concluded by expressing an emphatic protest against the commissioners sanctioning any work which following the lines of the Wisner report of 1899, would reduce the level of the St. Lawrence by over one inch. "When you interfere with nature somebody always has to suffer quoted Mr. Gear in an appeal that such sufferers should not be in the interests of Montreal.

Mr. Kennedy, C.E., addressing the Commissioners on behalf of the Harbor Board said that as he understood it there was no scheme before them and consequently he would content himself with endorsing the protest of Mr. Gear against any recommendations which would lower the levels of the St. Lawrence waterways.

Mr. Brault read a protest from the Chamber of Commerce upon the same lines as Mr. Gear's speech and was followed by Mr. Hugh A. Allan, as representing the Shipping Federation, who pointed out the enormous expense at which the Dominion Government had made it possible for steamships of 10,000 to 12,000 tons to come up the St. Lawrence while New York had the Baltic of 24,000 ton, the Cedric of 21,000 and the Caroma of over 20,000, and would soon have still larger. The Shipping Federation believed the future of Canada was bound up in making the St. Lawrence channel so deep and wide that a large steamship could come here, consequently they urgently protested against any tampering with the sources of the water supply. Twenty-eight feet was the highest depth of water available this year and already his line were consulting their captains as to the difficulties of loading here later on in the season. Mr. Allan also pointed out the advantage in distance which many American shippers gained by sending goods via the St. Lawrence instead of via New York. They could not afford to give up an inch of their present water supply lest they should lose an ell.

Col. Anderson, chief engineer of the Department of Marine, pointed out the enormous sums Canada had spent upon improvements to the St. Lawrence, and in the construction of canals. As regards the fears expressed by Mr. Gear and others, he said no engineer would express an opinion until he had a proposition before him in a concrete form which was not as yet the case, while the plan of Mr. Wisner in regard to Lake Erie would not necessarily have involved any alteration in the fall of water.

Mr. J. A. Cuttle spoke as president of the Dominion Marine Association, which was particularly interested in inland shipping. He said that latterly many Canadian grain carriers had been built which were too large to come through the canals and did a good business on the lakes and reminded Mr. Gear that if engineering science could improve the water facilities above without injuring these below it would not be United States harbors and shipping which alone would benefit.

A delegation from the various power companies in and around Niagara Falls was also present including Mr. Munro Grier of the Canadian company, who in eloquent terms spoke of the vital interest which such new industries had in the work of the Commissioners. His request that a special meeting be held on the spot was supported by Messrs. James Wilson, Machray and Payne, and was acceded to by the Commissioners. Mr. Smith spoke briefly for the R. and O. Company and Mr. St. Laurent for the department of Public Works when Col. Ernst was introduced and uttered the remarks previously quoted.

Mr. Mabee in closing the Montreal session thanked all the various representatives who had put forward their views. Like Col. Ernst he had been surprised at the prevalence of the idea that the scheme of Mr. Wisner was before the Commissioners, he was glad it had been discussed so freely as it would clear the ground. Speaking of the Canadian commissioners he said they were fully alive to the vast interests committed to their care, affecting the lower St. Lawrence; no works could be undertaken which were not the result of the mutual consent of the two peoples embodied in a treaty and he would feel happy if any such works were found advisable and feasible which would benefit both the upper and lower waterways in which both great peoples were so intimately interested.

Until to-morrow the Windsor Hotel will be the headquarters of the commissioners who will start for Lake Ontario via the canals in the Dominion steamer Frontenac early in the morning.

THE INTERNATIONAL WATERWAYS COMMISSION—Col. O. H. Ernst, Washington, Chairman of American Section.

GRUESOME FIND IN A BARLEY CAR

The employes of the Canada Malting Co. made a gruesome find while unloading a car of barley at the malthouse this morning. Near the bottom of the car they came upon the body of a young man which had probably lain there for a week or ten days.

The body was transferred to the morgue, where an examination of the pockets showed a couple of postcards addressed to Thomas Keene, Norton Mills, Vt. The body is that of a man five feet, six inches in neight, and weighing about 130 pounds. He wore a blue-black coat, striped woollen pants and a thick woollen shirt checked black and white.

The supposition is that the man was one of the loiterers about the wharfs who crept into the car to sleep, and, being unnoticed by the elevator employes, was smothered by the grain. The car was filled at the harbor elevator a little over a week ago.

ARANMORE IN NO DANGER.

Quebec, July 11.—(Special.)—The wrecking steamer Lord Strathcona left last night for Sheldrake, North Shore, to assist the steamer Aranmore, owned by Messrs. Holliday Brothers reported ashore at that point. The condition of the vessel is not definitely known, but a despatch from the scene late last night reports her in no great danger and that the master, Captain Pickett, hopes to float her at high tide this morning.

TO VISIT DAIRY.

The Civic Health Committee and members of the medical department, will journey to John Duncan's city milk depot and laboratory to-morrow afternoon on a tour of inspection. Carriages will leave the City Hall at two o'clock sharp.

DEPEW'S DEALINGS WITH EQUITABLE

New York, July 11.—The World says this morning: "Revelations far more startling than those in the report of Superintendent Hendricks are contained in the testimony taken in the state insurance department's investigation of the Equitable Life Assurance Society.

"Senator Chauncey M. Depew testified that the Depew Improvement Company in which he was interested, obtained a loan from the Equitable of $250,000 on property, which the state insurance department valued at only $150,000. He admitted that neither principal nor interest had been paid and that the Equitable had been forced to foreclose.

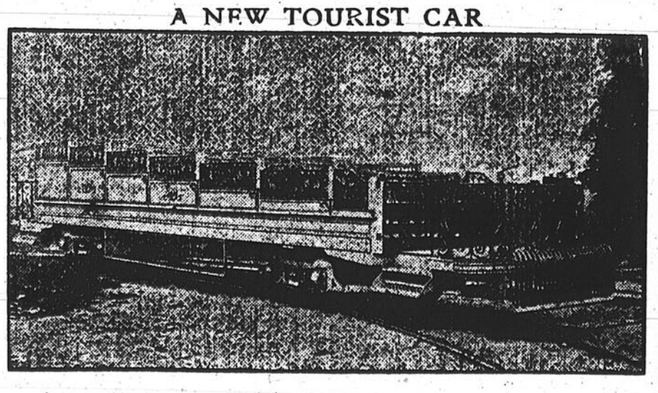
"He admitted that, as a member of the executive committee of the Equitable he had not advised this loan, but had voted for it.

"Jacob B. Schiff, confronted with records of the Equitable that Kuhn, Loeb & Co. had sold a large amount of Union Pacific preferred stock to the society, swore that these records were false. In various sales of bonds to the Equitable by his firm he admitted that a large loss was shown.

"It appeared from the testimony of Mr. Hyde and others that the Equitable had taken $2,000,000 worth of Union Pacific preferred, apparently at the suggestion of E. H. Harriman. It appeared that this stock was taken under a syndicate agreement that it should be sold, making the deal a speculative one."

Coroner McMahon conducted an inquest Saturday morning on the remains of Robert Keyes and on two unidentified bodies found in the river last week. In all cases the verdict returned was one of accidental drowning.

A NEW TOURIST CAR



A new departure has been made by the Montreal Street Railway in introducing a car specially designed for giving tourists and visitors an opportunity of seeing the city. The new car which has already made several appearances in the streets of the city, has everywhere attracted attention, from its novel features. As the cut shows it is entirely open, and the seats are arranged one above the other as in the pit of a theatre, so that no too enthusiastic sightseer may block the vision of his fellows. The ladies' hat evil is thus checkmated also. The new observation car is beautifully finished and has a lighting arrangement that will enable it to find favor in the eyes of those who would see Montreal's beauties by night.

THOUSAND-MILE RACE TO TEST RELIABILITY

New York, July 11.—Thirty-three touring cars bearing more than a hundred automobile enthusiasts, started from this city to-day to compete in a one thousand mile reliability tour for a trophy offered by Charles J. Glidden. The start was made from the automobile club of America in Fifth Avenue. It is expected that four days will be required for the run, which will end in the White Mountains.

Mr. G. R. Smith, M.P.P., of Thetford, Que. registered at the Place Viger this morning.

CANADIANS WON PRIZES AT BISLEY

In the Sweepstakes—Pte. C. L. Morrice, Montreal, Made 34 in Gregory

(Canadian Associated Press Cable.)

Bisley Camp, July 11.—In the Gregory match, seven shots at 200 yards, Sergt. Kelly, 10th Royal Grenadiers, of Toronto, put on the best possible score, 35 and in the extra shots made two bulls eyes and an inner.

In the same match Staff-Sergt. Kerr, 48th Highlanders, Toronto, made a possible 35 and followed with twelve bulls for his extra shots.

Pte. C. L. Morrice, of the P.W.F., Montreal, made 34.

In the Association Cup match, open till the 21st, seven shots at 200 and 600 yards, Canadian scores were:

200 yards, Sergt. Kelly, Toronto, 33; Capt. Forrest, Victoria, 32.

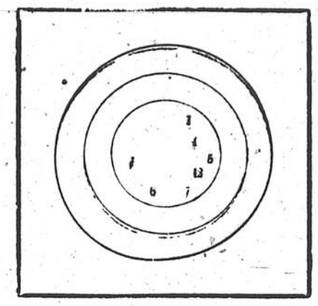
600 Yards—Kelly, 32; Forrest, 33.

In the Kynoch match ten shots at 1,000 yards, Sergt. Russell, of Ottawa, put on 40 out of a possible 50.

In the Alexander Martin match ten shots at 800 yards, open till July 17, Pte. A. Wilson, 43rd Regiment, Ottawa, made 48 out of a possible 50.

In a sweepstake match at 200 yards, seven shots, Capt. Crowe, of Guelph, was second, winning 22 shillings, Capt. J. Duff Stewart, Vancouver, was eighth, 22 shillings.

In a 600 yard sweepstake, Sgt. Russell, 43rd Regiment, Ottawa, was first, winning 28 shillings.



Staff Sergt. Kerr's target in the Gregory match—5, 5, 5, 5, 5, 5, 5—35. Extra shots were 12 bull's eyes.

MR. J. E. WILDER TALKS ON TRADING STAMP LAW

Referring to the Government's action in connection with trading stamps, Mr. J. E. Wilder, of the Traders Advertising Agency, said to The Herald to-day that the Government's apparent haste in legislating against trading stamps was incomprehensible in view of Sir Alexander Lacoste's judgment in the Court of Appeal in April last, in which he describes the business of the Traders' Advertising Company, as follows:

"A person or a company, which is generally designated under the name of Advertiser, gives stamps to certain traders of his selection which these latter give to customers who buy for cash.

"Each buyer, therefore, receives an amount in stamps equivalent to the amount of his purchase. The trader pays to the Advertiser 5 per cent. of the amount of stamps which he has given to his customers, in return for which the advertiser advertises the trader's store, and redeems the stamps, stating at the same time that stamps are given at that store. The cash buyer, as soon as he has $100 worth of stamps, calls upon the advertiser who gives him an article worth from $4.00 to $5.00. Every one evidently is satisfied with the transaction. It is true that the trader pays 5 per cent. of his cash sales to the Advertiser, but in return he reaps the benefit of the advertising and the redemption of the stamps.

"The buyer, over and above what he pays for, receives stamps with which he may procure an article worth from 4 to 5 per cent. The proprietor of the stamps thus disposes of his goods and also benefits of a number of stamps which are not redeemed.

"This system is in vogue in the United States and in our province it has reached considerable proportions. The trade of those who give stamps has increased, whereas that of those who do not do so, has diminished.

"A number of people see in this system a disorganization of business. This is why a certain number of traders have addressed themselves to the Legislature to obtain a law prohibiting it.

"There is nothing in this kind of commerce which is, in itself, immoral or against public order. It is a means of advertising where, as I have said, every one finds benefit."

Mr. Wilder instanced scores of merchants who had been enriched by using trading stamps, and were anxious to continue their use, their business in many cases, increasing more than a hundred per cent. He believed the Government would work serious injury to the trade of a vast number of merchants if such drastic and hasty action as was proposed was taken this session and before both sides of the question could be intelligently heard by the Government.

MANY NEGLECTFUL HUSBANDS.

There has recently been an alarming increase in the number of charges brought for husbands neglecting to provide for their families, a somewhat remarkable fact when regard is had to the state of trade in the city and neighborhood. The present week seems likely to set up something in the way of a record in this department, for already a score of complaints have been laid and warrants or summonses granted.

SIR W. VAN HORNE IN NEW YORK.

New York, July 11.—Sir Wm. Van Horne, chairman of the board of directors of the Canadian Pacific Railroad, arrived here from Havana to-day on the steamer Mexico.

Personal Mention

Messrs. Geo. Wright and J. G. Carroll, of Winnipeg, were introduced on 'Change and at the Board of Trade yesterday by Mr. Colin Campbell.

Mr. C. R. Cooper, general manager of the New York Dispatch Refrigerator Line, was on a visit to the city yesterday, and called on several of the Grand Trunk officials.

Ald. Dan. Gallery, M.P., has been granted two months' leave of absence from his duties at the City Council and will sail Friday morning for Ireland, on the Steamer Bavarian. Ald. Gallery will be accompanied by Mrs. Gallery and Mr. J. H. Dillon.

Mr. Edward J. Burns, who was formerly connected with the Bramhall, Dean Company, of New York, the largest dealers of hotel equipment in the United States, has returned to Montreal to join the business of Messrs. John Burns & Co., owned by his father. While in New York Mr. Burns was closely connected with the fitting up of some of the newest hotels and the valuable experience which he gathered there will be applied to the Montreal business.

MORE BOMBARDING ROUND SAKHALIN

Japanese Seize Cape Notoro, Nearest Point to Their Own Soil.

Tokio, July 11.—1 p.m.—The Navy Department has received the following report from Admiral Katka:

"Two cruisers and four torpedo-boats left Karsakovsk on July 10 with soldiers on board for the purpose of landing and occupying Cape Notoro.

"After some bombardment the place was taken. The lighthouse and buildings were left undestroyed.

"Four prisoners were taken."

Cape Notoro is the southern extremity of Sakhalin Island.

Telling the Russian Army.

Sipinghai, Manchuria, July 11.—The news of the mutiny in the Black Sea reached the Russian army through the Japanese, who fired night shells charged with proclamations conveying the information into the Russian advanced posts, scattering the proclamations broadcast.

Rain is falling in torrents and all activity at the front has ceased.

STOPPED FREE FIGHT ON SANGUINET STREET

Detective Viens Arrived in Time to End Fistic Encounter.

There was another fight in which Italians figured yesterday evening with Sanguinet street as the scene, but on this occasion there was no spilling of blood.

When City Detective Viens got on the scene there was a tangle of about a couple of hundred people wrestling and pushing round a little scrapping match that was going on in the centre. Viens struggled into the throng and eventually made peace, but at the close Mrs. Carmelle Vinsella, of 131 Sanguinet proceeded to police headquarters and swore out a warrant against two brothers, Tomarelli for knocking her down and kicking her while she tried to rescue her husband.

Accused pleaded not guilty when brought before Judge Choquet to-day and were remanded for enquete, bail being allowed.

BISHOP DECELLES LAID TO REST.

St. Hyacinthe, July 11.—(Special.)—The attendance this morning at the funeral service of the late Bishop Decelles was the largest and most representative ever witnessed at St. Hyacinthe. Admittance to the specious cathedral had to be denied to hundreds for want of accommodation. His Grace Archbishop Bruchesi, of Montreal, officiated, assisted by deacons and subdeacons. Bishop Bruneau, of Nicolet, preached the sermon, in which he paid an eloquent tribute to the many virtues of the deceased bishop. Among the distinguished prelates present were Archbishop Bruchesi, of Montreal, Bishop Duhamel, of Ottawa, Bishop Emard, of Valleyfield, Bishop Cloutier, of Three Rivers, Bishop Begin, of Quebec, Bishop Archambault, of Joliette, Bishop Racicot, of Montreal and about 400 clergymen.

Hon. Mr. Brodeur, Minister of Inland Revenue, Hon. Mr. Prevost, Minister of Mines, and several federal and local members were also present.

The musical portion of the service was admirably rendered by a choir of over 100 persons.

TIME SAVED
AND
Success Guaranteed
WHEN WOMEN USE
DIAMOND DYES

Each year thousands of letters come in from all parts of this vast Dominion telling of victories and successes with Diamond Dyes in the home.

The marvellous and immense sales of Diamond Dyes in Canada have induced adventurers and speculators (who know nothing about the chemistry of colors) to go into the putting up of Package dyes: Such dyes are adulterated and crude; the colors are muddy and blotchy, bringing ruin to the materials you try to dye.

DIAMOND DYES, the choice of wise women, are the kind used when bright, full, fast and brilliant colors are wanted. No disappointments possible when you use Diamond Dyes.

DIAMOND DYES are sold by all leading druggists and dealers. Refuse to accept substitutes when you ask for Diamond Dyes.

VISITORS TO THE CITY

Are invited to include our store as a "Place of Interest."

Our goods are displayed in a manner that easily wins interest.

Among our several exclusive lines of European importations we mention to-day our Fine Parisian Necklets with Pendants, in Transparent Enamel, wrought in the most beautiful colors and effects, from $5.00 upwards.

DEFIES LIBEL SUIT FOR COTTON EXPOSE

Secretary Wilson Will be Glad if Theodore Price Takes Action.

Washington, July 10.—That Secretary Wilson intends to take no step backward in his report on the cotton leak investigation was evidenced to-day by his statement that he was not afraid of any libel suit which might be filed against him by Mr. Price or others mentioned in the report. In fact, he said he would welcome such action because it might be the means of developing some facts not already uncovered and which it was desirable to know.

"This is a quarrel among gamblers," he said, "brought about by the dissatisfaction of some of them in not getting what they thought was their due. I have nothing to take back. As the head of an executive department of the government, it was my duty and my right to give to the public the result of the investigation by the secret service agents into the charges which had been filed leading up to the dismissal of Mr. Holmes."

By-Secretary Wilson's report, Associate Statistician Edwin S. Holmes, jr., is declared to have furnished advance information during a long period of time, to the great profit of himself and of interested brokers in Wall Street. The names of the go-between, Mr. Haas; of a broker, L. C. Van Riper; of another broker, Theodore H. Price, and of F. A. Peckham stand out conspicuously in the correspondence made public.

There was a mysterious method of correspondence, calculated to throw outsiders off the scent. But letters, intended to be destroyed, fell into the hands of the Secret Service men, and furnished the clews for detecting the offenders.

Holmes is the only man found guilty. The Secretary, took steps to have him indicted. "I was going to withhold any of the evidence from the public that might have helped to bring about his conviction in the courts," said Secretary Wilson. "Mr. Bea'h, the District Attorney told me there were no statutes to hold a man under such circumstances. Then I decided to give the whole story to the world."

ARTHABASKA FORGERY CASE HAS MUCH EVIDENCE

Assizes Still Proceeding—Interesting Point of Law Involved in Dismissal of Wintle Charges.

Arthabaska, July 1.—(Special.)— The trial of Arthur Filteau, accused of forgery, occupied the time of the assizes the whole of Thursday, Friday and Saturday. Several witnesses were heard, of whom the principal are Norbert Plante, Nabella Plante, Joseph Bemrose, expert in handwriting; L. J. H. Larue, assistant inspector of postal affairs for Quebec; John Ramesay, for the Crown; the accused himself; Mrs. Lumina Fortier, wife of the accused; Eugene Godin, Esq., advocate, of Montreal, expert in handwriting, for the defence.

The pleas started Saturday afternoon. Mr. A. D. Mailhiot spoke first in French, in favor of the accused, and after a very eloquent plea by him, Mr. L. P. Crepeau addressed the jury in English. Mr. J. E. Perrault addressed the pury both in French and English for the Crown, and then the judge made his charge.

A FINE POINT OF LAW.

Arthabaska, July 11.—A very interesting point was adjudicated by Judge Malouin in the case of the Crown vs. Wintle. The charge was false pretences. Five witnesses swore that the accused got the machine from the prosecutor by giving a note supposedly indorsed by his brother, which, when the note came due, some months later, was found to have been signed by his minor son. The witnesses admitted that the machine was delivered to the defendant on the date the accused signed the note and that on that day the accused took the note home with him together with the machine, promising to get his brother to indorse it. A few days later he returned the note with a signature which the prosecutor thought was the brother's, but which turned out to be that of a minor son.

Mr. Mackenzie, K.C., for the defence, claimed the Crown had not proved a false pretence under the statute sufficient to allow the case to go to the jury. He quoted Art. 358 of the Criminal Code, which, in defining the crime false pretences, requires that the false pretence must relate to a matter of fact either present or past, that is to say some existing or bygone fact. It was evident that the goods were delivered to the defendant on the promise that he would send a note back indorsed by his brother, which was a future promise not an existing or bygone fact, as required by the statute. The breach of a future promise, as in this case, was not a criminal offence, any more than would be the failure of a borrower to pay a sum of money on the day he promised it.

Judge Malouin said that on reading the evidence and consulting the authorities submitted by the defence there was no room for doubt that the evidence did not disclose a false pretence within the meaning of the statute and it would be futile to proceed further. He accordingly addressed the jury instructing them to render a verdict of not guilty.

GLENGARRY PRESBYTERY.

Alexandria, Ont., July 11.—(Special)—The regular meeting of the Glengarry Presbytery was held in Maclaren Hall, Alexandria, on Wednesday. Rev. Kenneth McDonald of Williamstown was elected moderator. The presbytery will meet again on the 18th at Maxville to take action upon a call from Glencove, London Presbytery, in favor of Rev. George Weir. Rev. Mr. Shearer addressed the court regarding the new Point aux Trembles schools and giving dates of his visits to the different churches on behalf of their schools.

The next regular quarterly meeting of this Presbytery will be held at Finch in Stormont Co. on Monday, Sept. 4.

ARTHABASKA WOMAN KILLED.

Arthabaska, July 11.—(Special)—Salomee Provencher, widow of late Telesphores Genest, was instantly killed, Saturday morning, at about half a mile from Arthabaska station, by the express train going from Richmond to Quebec. Coroner Rouleau held an inquest and a verdict of accidental death was rendered.

ST. ANN'S PILGRIMAGE.

The 25th annual pilgrimage of St. Ann's Parish took place on Saturday to Ste. Anne de Beaupre and returned early yesterday. Over 400 participated in the different religious exercises which were conducted by Rev. Father Flyn, C.S.S.R., assisted by Rev. Fathers Fortier, C.S.S.R., and Strubbe, C.S.S.R.

A NEW PURVEYOR.

At the next meeting of the Fire Committee a new purveyor may be appointed. It is understood that Secretary Fred D. Armour, for years the efficient clerk of the department is the gentleman most favored by the aldermen.

TWO HOLD-UPS BY HIGHWAYMEN

Police Patrol Gathers in Two Batches on Above Charge.

There were two daring hold-ups in the city yesterday in broad daylight and fortunately the footpads are now in the hands of the police, with prospect of a long term of imprisonment in front of them.

While Louis Larochelle, of 1414 St. Catherine Street, was passing along Craig Street, at the corner of Montclam, shortly before five o'clock, he was pounced upon by two men, who took forcible possessio of an overcoat which was carried over his arm. Constable Peltier was able to arrest the men, and on being conveyed to the police station, they gave their names as George Donaldson and Jean B. Prevost.

On arrival on the scene of Officers Collins, Dunphy and Gorman, with the patrol waggon, they were informed by a civilian that a man was being robbed in Beaudry Street tunnel. The horses were headed for that place and the patrolmen were in time to take three men in the act of going through the pockets of a drunk. These, were also carted into the Central Police Station, where they registered as Louis McComber, Edmond Bouchard and Jos. Lavole. On appearing in court this forenoon the five accused were remanded for enquete.

EMO FOR SALE TO HIGHEST BIDDER.

Winnipeg, Man., July 11.—(Special.)—There is a movement at Emo town and other places in New Ontario to ask Ottawa to annex the Emo district to Manitoba. The Emo Journal says the Ontario Government should be asked to refund some twenty-five million dollars, the amount collected from timber sales in New Ontario. Disgust at paltry sums which have been voted for road work is the principal cause of the annexation movement.

The Emo newspaper continues: "While many do not relish the idea of separating from Ontario if it can possibly be helped, they realize that a strongly signed petition would enable the agitators to make Toronto sit up."

Premier Roblin spoken to regarding the reported feeling in the Emo district stated that it was a question on which he could not freely express an opinion. It was a matter for the Ontarions themselves. The people would certainly be well treated if ever their lot was thrown in with Manitoba and the advantages of close connection with Manitoba were, of course, very apparent.

NEW PATENTS ISSUED.

Messrs. Fetherstonhaugh & Co., patent attorneys, Canada Life Building, report the following Canadian patents granted last week:

L. M. Jones and A. Johnston, Toronto, cultivators and seeders; R. N. Grundy, Guelph, Ont., cooking stoves, J. F. Ross, Toronto, cans; J. E. W. Currier, Ottawa, knives; J. Ward, Montreal, display envelopes; J. Ward, Montreal, sample envelopes; W. Hunter, Kincardine, Ont. metallic piling; C. A. Sahlstrom, Ottawa, electrical ozonizers; L. M. Jones, C. McLeod, Toronto, double disk drills; R. N. Grimly, Guelph, Ont., cooking stoves and ranges.

THE CIRCUS NURSERY.

Tiger Triplets and Baby Elephant That Smokes Cigarettes.

A bunch of new babies is due here next Friday. These babies are not to be put in any foundling home, because each one is accompanied by its mamma, who would make things exceedingly interesting for anybody who approached her darling child.

These are sweet and good babies. They do not cry at night, and they do not eat the paint off their dolls. One reason for this most exemplary conduct is that they have no dolls, and instead of crying at night they howl, or shriek, or trumpet, as the case may be, and the flat dweller who resided in the same building with them would rather have a whole orphan asylum turned loose under his window than a single one of these infants. These babies are junior members of Ringling Brothers' circus. The list of babies includes an elephant, several lion cubs, tiger triplets, a quaintly hopping kangaroo, tight-eyed black panthers and a weak-kneed hump camel.

The baby elephant was born in Baraboo, Wis., and has been petted and catered to until it is as vain as a popular young actor. Last week she was caught smoking a cigarette by her mother, Alice, a prim dame, almost tall enough to shut out the sun, and with age wrinkles of half a century. An elephant named Fanchon, a frisky young thing, with thin legs and lamp black eyes, got baby Boo into the cigarette trouble. Fanchon spent a winter in Paris, on her way to America, and it was there she acquired the cigarette habit of bohemian life.

The baby came looks like a lamb of the same kind the famous Mary used to own. It is a double-hump camel, but being young and tender, it couldn't be expected to hump itself much yet.

The two groups of little lions have had a better fate than befell some of their kind born in Ringling Brothers' winter quarters a year ago. It is the custom not to feed the cat animals any meat on Sunday. The first Sunday after the other little lions were born no meat was given their mother, and the next day the caretaker found that the mother had killed and commenced to eat her little ones. Since this experience the new mother lion is given as much meat as she wants every day in the week and two helpings on Sunday. The mamma kangaroo is having a lot of trouble teaching her babies to do the kangaroo walk in the proper manner. The baby is anxious to learn, however, and waddles in as close imitation of her fashionable mamma as her young legs will let her.

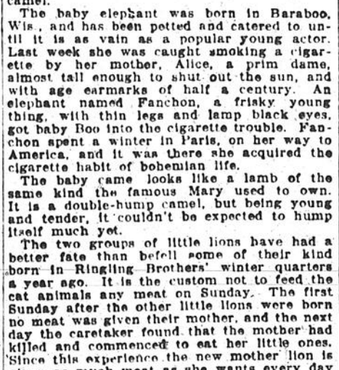
The tigers were born two weeks ago, and are blind and helpless yet. One of the hyenas was taken from its mother after she had bitten it, and is now thriving on milk fed to it from a bottle.

NEW OFFICERS FOR BAKERS.

Local 55 of the Bakers' Union at its last meeting elected the following officers: President, Louis Charbonneau; vice-president, Hercule Picard; treasurer, Elphege Baril; financial secretary, Ovila Trudel; recording secretary, Nap. Desjardins, Gaspard Couillard and Ovila Trudel; sergeant-at-arms, Oscar Lamarre. At the same meeting several new members were admitted.

HOLY CROSS RETREAT.

The annual retreat of the Holy Cross Brothers of the different houses of the order throughout the Province opened Sunday at St. Laurent College, there being over one hundred members in attendance. The exercises will close next Sunday.



How Red Rose Tea is Grown

TEA is a native plant of Northern India. Transplanted to Ceylon it lost much of its strength and richness, but gained in fragrance and delicacy. That is why Ceylon tea is not a strong tea.

That is why I blend Indian and Ceylon teas together—that is how the strength and richness, fragrance and delicacy of Red Rose Tea are secured—that is why Red Rose Tea has that "rich fruity flavor."

Red Rose Tea is good Tea

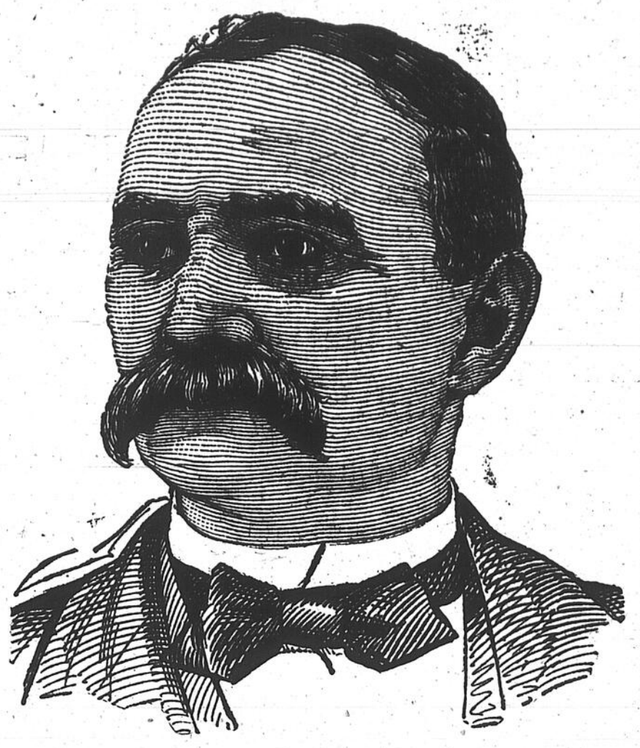
"MY HEALTH IS ENTIRELY RESTORED."

(WRITES MR. SILVANUS WRAY.)

Prominent Canadians Endorse Pe-ru-na.



MR. SILVANUS WRAY.

MR. SILVANUS WRAY, No. 874 Dundas St., London, Ont., is Warden of Chosen Friend Lodge. He writes:

"When I first began to take Peruna this winter I was so weak and sick I had little hope of help. I had been troubled with catarrh of the stomach and gone without food so long that my strength was spent, and I was unable to do my work. I bless the day I first took Peruna, for from the very first dose I began to feel better. The second week I could eat a fairly good meal, and my health rapidly improved, and within a month my health was entirely restored.

"Peruna is well worth all the good things its friends say of it."—Silvanus Wray.

THE CATARRH OF SUMMER.

A Letter From a Thankful Woman Who Was Cured of Catarrh of the Stomach by Pe-ru-na.

Miss Emily Lyon, 218 Richmond St., London, Ont., writes:

"I am pleased to inform you that I am entirely cured of catarrh of the stomach by the persistent use of Peruna. I suffered everything and took everything, both from physicians and proprietary medicines, but got no relief until I tried Peruna, and it will always be with the loudest praise that I recommend this wonderful remedy Peruna."—Miss Emily Lyon.

Catarrh of the stomach is usually called dyspepsia. Catarrhal dyspepsia cannot be cured by pepsin powders or any other temporary relief. The only cure for real dyspepsia is a removal of the catarrh from the mucous membrane of the stomach. This Peruna will do. This Peruna has done thousands and thousands of times. Congressman Botkin, of Kansas, was cured of catarrh of the stomach of many years' standing. Hundreds of other cases have been reported to us through unsolicited testimonials. Peruna is the only internal systemic remedy for catarrh yet devised. Every one afflicted with catarrh in the slightest degree ought to take a course of Peruna.

Peruna is for sale at all first-class drug stores at $1 per bottle.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

MUSIC AND THE DRAMA

Very auspicious was the opening of the preliminary season at the Academy of Music last night. Auspicious in all directions; for the audience was large, exceptionally so for a Monday night, and awake and responsive to every point even of the delicate dialogue of a Pinero drama, and the performance was one of very considerable artistic merits. Curtain calls were numerous, and the very gratifying reception given to this extremely "strong" sample of the modern British drama gives reason to hope that "Iris," and "The Fires of St. John" may meet with as comprehending a sympathy.

Miss Eugenie Blair presents a Paula which, while diametrically opposed to Mrs. Patrick Campbell's in almost every particular, is nevertheless a thing of great power and effectiveness. It has the curious result, however, of absolutely altering the current of sympathy in the spectator. It is almost impossible to sympathize with Miss Blair's ex-demi-mondaine. The reason may be partly physical; certain types of women are notoriously unable to evoke masculine sympathy because they do not look as though they needed it. In Mrs. Campbell's performance the tragedy of the piece is the tragedy of the woman; in Miss Blair's, without the woman's past ever ceasing to be immensely the strongest and most interesting, the centre of tragedy is shifted to the man. It is Tanqueray, at the moment when his wife's happiness and his daughter's happiness come together in irretrievable collision, who stands out as the supreme victim of the fell grasp of circumstance. Paula, meanwhile, appears simply as an intensely interesting example of the inalienable consequences of social exile; one admires the animal vigor, the panther-like viciousness, and the fleeting phases of mistaken impulse to goodness; one feels the suffering of the woman, but its cause is too much her own arrogant nature and too little the terrible difficulty of her position. And one does not believe in her suicide; improbability of type again, perhaps; for whether statistics say so or not, stage tradition assigns suicide only to a certain physique.

Miss Blair is at her best in exact proportion as Paula is at her worst. There is one exception, the kiss scene between Paula and Ellean, which quite beguiled a part of the audience into thinking a happy ending was in sight. She is supported by a very capable Tanqueray in Mr. Edmond Elton, and an Ellean by Miss Edna Brothers in which either a natural tendency or a very brilliant piece of acting contrives to suggest the first Mrs. Tanqueray's peculiarities with great success. The rest of the company is not obtrusively defective, except in the case of Mr. George Heath, who should remember that the "schoolboy" whom Captain Heath is said to resemble is an English public school boy and not the product of a Boston business college.

• • •

AT THE ROYAL.

In "Ranch 10" the management promised Royal patrons an exciting and enjoyable entertainment, and has not gone back on its word. Better money has been paid out on hundreds of occasions for a much poorer fare.

The chief entanglement results from a combination of twin brothers McClelland, who cannot be distinguished apart, and a bad Portugee with several aliases and some patent poisonous bullets.

Francis Morey made a really good appearance in the dual part of the brothers, and deserved all the applause that came to him yesterday, while Miss Clayton, who is cast for the Massachusetts Rose, added further laurels. Miss Mary Condon has little tot do this week, but yesterday showed the versatility of her stage qualifications in the character of Neely Barrett with plenty of Irish daring and much of the brogue of the ould counthry. Miss Wells, too, is seen to advantage.

• • •

SOHMER PARK.

At Sohmer Park, while the show is extremely good in spots, it does not class up with those of two or three weeks ago. The feature, a turn that would be hard to beat anywhere, is the work of the two Kinsners, in a thrilling balancing performance. Anything that can be lifted shoulder high—cart wheels, tables, chairs, any old thing—is balanced on the point of the chin, while the equilibrist rolls about on the floor and crawls through hoops in amazing fashion. Chunda-Hula, the wizard from the East, received a flattering acknowledgment for his skill.

Mamie Remington and her four very clever tumbling and dancing pickaninies struck a popular chord, as did the two handsome Valmore sisters.

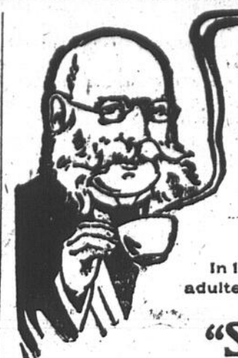
At the close was presented an ambitious rendering of the fourth act of Faust, by Mme. Caparelli, and Messrs. Gauthier and Victor Occilier.

CHARLOTTETOWN GETS A LIGHTING OFFER.

Charlottetown, P.E.I., July 11.—(Special)—At the City Council meeting last night the Charlottetown Light and Power Company made the following offer to the city. At the expiration of the present contract, to sell real estate and plant for eighty thousand dollars or if the city renew the present contract to furnish new street lamps at $75 per annum; to reduce cost of commercial lighting to 12c and guarantee not to raise this rate; to do away with the minimum rate, to reduce the price of gas for heating and power to $1.50 per thousand and make a reduction of 20 per cent. in the rate of illuminating gas as soon as current consumption increased one half.

PECULIAR ACTS OF SCOTTISH IMMIGRANT.

Winnipeg, Man., July 11.—(Special.)—A Scottish immigrant named Alex. Sanderson cut his throat on the C.P.R. Limited, near Dexter, and is now in Winnipeg hospital. He said he threw a pocketbook containing a draft for $500 out of the car window, but the section men were unable to find it.



"Seal Brand" stands for all that is best in coffee. It is a guarantee of purity, full weight, extra strength and delightful flavor.

VACATION CLOTHES!

TO THE POINT.

To make a clearing in Our Enormous Stock of Light Clothing we have prepared A GREAT SALE for this our busiest week. Besides these, and some other lines that are undoubtedly in the same class, we quote the following Special Prices—To-morrow and Thursday:—

Catchy Lawn Suits

At Catchy Prices.

The larger the stock, the greater the buyer's chances of satisfaction. From an immense variety of Summer Costumes we have picked upon one that we consider very suitable for this month. This one is of very good quality White Lawn, with beautiful full skirt and surplice waist. The cut is one of the season's most favored. Skirt pleated and waist trimmed with fine embroidery.

$3.75 for $1.95

$5.00 Men's Tweed Suits

To be Sacrificed.

The holiday weeks bring to mind thoughts of last year's outeing suits. These recollections will be pleasant according to the degree of comfort afforded. To thoroughly enjoy yourself get one of our Summer Suits. Nothing could be more comfortable, nobby or durable. A special line of 50 Suits, made of All-wool light gray Tweeds, will be sold out to-morrow. These Suits are all single breasted and of many patterns. The sizes are complete, but there are only two or three to each pattern. All are made with latest pockets, shoulders, collars, etc., and extra well trimmed.

$10, and $12 for $5.00

JAPANESE SILK WAISTS—Enormous Values.

If you had the combined stores of Montreal to choose from, and the benefit of all reduced rates, you could not purchase anything that would give you better satisfaction. Made of Japanese Silks—not make-believe silks, but the best ever manufactured, with no other material interwoven. Just out-and-out genuine Silks—the kind that looks the part.

25 Dozen Silk Waists $2.50

REDUCED.

Absolute perfection is hard to obtain, and you'll never get nearer to it than in these Waists. The beautiful shimmering material has been used to its very best advantage. Trimmed with fine lace insertion, feather stitching and tucks, it is a delight to the eye and a comfort for the wearer.

$4.00 For $2.50

10 Dozen Silk Waists $1.50

REDUCED.

Here is another Waist. Although not quite so good as the first mentioned, we can confidenetly defy competition. The price has been reduced one half, and the entire lot will be at your disposal. Not one to be reserved. This Waist is embellished with several well placed rows of tucks, lace insertion, and hem and feather stitching.

$3.00 For $1.50

Outing Hats, $1.95

REDUCED.

In the race for "my lady's" attention, our Millinery Section is always in the van with a host of new ideas. Here you will find the Outing Hat raised above the commonplace. Of our latest we have only a limited stock. 10 dozen of best Silks, Wool and Mercerized Cloth. The feature of these Hats is the crown, which is calculated to suit almost any person. The brim is wide and rolling, tailor stitched and faced with Japanese Silk.

$2.50 Outing Hats for $1.95

Artificial Flowers

GREATLY REDUCED.

Here is another item from our Millinery Section, containing a world of inspiration for those who have old straw shapes that may be re-trimmed. This is, of course, but one of the multitude of uses to which they can be put. A new lot of magnificent Flowers, including the latest novelties and colorings. Poppies, pansies, roses, etc., so naturally blended and moulded as to almost completely deceive the eye. A fine assortment of black roses for those in mourning. Just a few of each separate line.

75c, $1.00 and $1.25 for 15c

$1.25 Tremendous Sale of Men's Trousers, $1.25

All the praise we could possibly bestow upon these Trousers would not add one iota to their value. We know there is not another Trouser offered for this price with more than half its worth. These Trousers, which are regular $2.50 stock, came to us as the surplus production of our pant makers. We have 150 pairs, made of fine Tweeds. The effects are modest yet striking, and combine both light and dark materials. The whole is very well finished and will stand the most critical examination. The manufacturer himself could not sell them at our prices and make a profit.

$2.50 For $1.25

THE HERALD

MONTREAL, TUESDAY, JULY 11.

A SERIOUS DIFFICULTY.

Any plan looking to the creation of a Greater Montreal should take into account the serious nature of the difficulty presented by the existence of a separate, privately owned, water company, which serves all the adjacent municipalities, and which has contracts with most of them for long periods of years.

We have this company to deal with already in the case of St. Denis ward, and see what a complication it makes. All over the rest of the city we levy a water tax, approximately based on the total cost of the service, but actually turning in to the common treasury, over and above the cost of upkeep, a substantial sum, which is spent for the general advantage. St. Denis ward is excluded altogether from the operation of this tax, what its people pay for water going to the private company. It will be the same with St. Henri, St. Cunegonde, Westmount, Mile End, Maisonneuve, and all the rest of them. All the people of these places, once they come in, will be as much outside the scope of the general scheme of civic finances as they are now.

Moreover, there will be inequality as between citizens, for the private company have been shrewd enough, as a means to securing the franchises they wanted, to undercut the Montreal charges. It was stupid of these municipalities to bargain with a private company for a taxation schedule instead of a service schedule, but the mischief has been done. Finally, as recent experience has demonstrated, and as long and costly experience has demonstrated before in the old world cities, it is almost impossible to exact radical reforms from a private water company.

At the very earliest opportunity that water system should be acquired for the public of Greater Montreal, and it would be almost worth while to delay all annexations until a reasonable price could be agreed upon for its acquisition.

DEPORTING SILVER.

We may be sure that quite a number of persons willing to make an honest penny will ask themselves very seriously whether there is, for them, anything in the Government's proposal to pay three-eighths of one per cent, for the exportation of American silver coins. It looks, however, as though the officials of the Finance Department had foreseen the probable interest of such persons, and had put the commission down so low as to make the speculation unremunerative. A thousand dollars, worth of the stuff handled by the bank would bring in $3.75. A man who imported a thousand dollars' worth a day and promptly deposited it, could, if the banker would allow him two-thirds of the commission paid by the Government, make $2.50 a day as long as the scheme was allowed to work, but out of that he would have to pay somebody to get the coin for him at the American end, the express charges, and a little for insurance. There would not be much left to repay his daily investment of a thousand dollars. Making a business of collecting the money here is a still more unlikely expedient, but one to which, if it were adopted, there could be no proper objection.

The rate has been fixed at what looks like a fair remuneration to the chartered banks for their trouble in handling the silver and disposing of it across the line. About the only contrary effect one would look to find in operation is the removal of whatever check upon the circulation of American silver has heretofore been imposed by the unwillingness of tradespeople, street car companies and others to handle it. Such widespread refusal must have had an effect. Now that everybody knows the banks are glad to take it, everybody will take it, and there may just possibly be more of it in circulation than ever.

SAGHALIEN.

The island of Saghalien contains 29,376 square miles, being rather larger than the province of New Brunswick. Its capture is noticeable inasmuch as it is the first actual Russian territory which Japan has been able to occupy. Hitherto, Russian soil has been inviolate. The blow to the national pride is therefore severe, and probably for the first time a large section of the Russian governing class realize just what it means to possess an impotent naval force.

Because the immense island has hitherto been mainly used as a convict settlement, it by no means follows that it is a barren, useless region. Indeed, apart from the 6,700 convicts and the 8,500 released convicts which were included in the last official returns of its population, there were nearly 3,000 free settlers and some 6,000 persons of indigenous tribes, while over 19,000 acres were under cultivation.

Tasmania, now one of the most prosperous of the Australian colonies, was in 1804 chosen as the first British general settlement because it was considered at the ends of the earth and without thought of its possibilities. It is an island nearly as large as Saghalien, and now does an export trade of over $16,000,000 a year.

There is no reason why Saghalien should not add greatly to the strength of the Japanese Empire, becoming a fertile field for the settlement of surplus millions.

REDISTRIBUTION.

Mr. Balfour's Redistribution Bill, so long threatened, is to be introduced today, it appears. In the long run its effect will be to reduce the Irish representation at Westminster by twenty odd, and to increase that of England and Scotland by about the same number. Its more immediate effect, however, will be, as the Conservative strategists expect, to give the Unionists in England a chance to agree in fighting the Irish, where hitherto they have been fighting each other. Mr. Balfour knows, from long experience, that when there is a first class fight going on with one-half of the fighting being done by the Irish members, the spectacle always fixes the attention of the country, to the complete exclusion of all else, fiscal controversies, educational controversies, army scandals, and the rest. "Ireland never blows over," as Mr. Morley says, and so expert a hand as Mr. Balfour knows how to raise a storm from that quarter when he needs one.

No doubt the Irish members will gratify him. Not that they will object to the reduction in membership. That in itself will only mitigate the demands upon a treasury always badly filled and which it takes a prodigious amount of hard work to keep filled. Mr. Redmond will undoubtedly argue that he would be a great deal better pleased if the delegation were abolished altogether. But he and all his followers will make the most of the opportunity to prove that an integral part of the bargain made at the Union is being violated, and will leave unproduced no proof that the depopulation of Ireland which affords the reason for the proposed decrease in representation has been directly due to British misrule. In the flame thus fanned Mr. Balfour undoubtedly hopes the severed sections of the Unionist party may be fused into one again before an election comes.

THE SOLID GROUND.

One could wish that after the visit they have made to the manufacturing districts of Great Britain our Canadian manufacturers would have their minds open to what are the two cardinal facts of the situation, first that the utmost liberty to purchase as cheaply as possible is the only hope for so dense a population living upon a land whose capacity is wholly unequal to the demands for sustenance such a community would make upon it; and, second, that a free and open British market is worth more to Canada, as Mr. Fisher so well said, than any artificial preference a British Government might attempt to give our produce. The whole case is there, and no amount of flag waving, no number of resolutions saying one thing and meaning another can change the essence of it.

"Kip," by Kipling.

(Youth's Companion.)

Librarians have odd experiences in dealing with people who think they know more than they do. At one library recently a very self-satisfied woman swept up to the desk and said she wanted "Kip."

The attendant looked bewildered.

"'Kip,' she repeated, "'Kip,' 'Kip.' Well, I should think you'd at least have heard of one of the leading novels of the year."

"Oh!" said the librarian, suddenly enlightened. "Perhaps you mean 'Kim,' by Rudyard Kipling?"

"I mean 'Kip,' by the author of 'The Three Musketeers,'" said the woman, firmly.

"Kipling didn't write 'The Three Musketeers,'" explained the official, patiently, "but he wrote 'Soldiers Three,' and"

"I guess that's near enough," she interrupted. "And 'Kip,' by Kipling sounds likely. I suppose it's autobiographic, and he took half his own name as a kind of hint to the reader. Give me 'Kip.'"

The attendant believed that "Kim" was "near enough," and gave it to her without further discussion. When she returned it a week later she asserted that she had liked "the part about himself" best, and that the book was rather tiresome, and she thought it a pity to mix an autobiography and a story, anyway.

It was not at this library, but at another, that the same author's volume of poems, "The Seven Seas," was enquired for by the title of "The Seven Caesars." When the book was offered to the applicant he refused it in disgust, asserting that all poetry was stuff, and he thought of course that it was an historical novel, like "Ben-Hur" or "Quo Vadis."

Tobacco and Health.

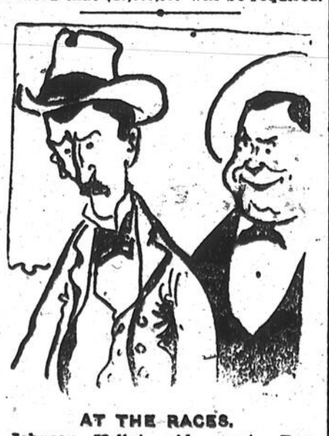
Several eminent medical authorities—Sir Lauder Brunton among them—contribute opinions in the current number of the Practitioner on the effect of tobacco in health and disease, and, speaking generally, the same tone pervades the whole series—viz., that tobacco possesses no particularly harmful qualities when used in reasonable quantities by ordinary individuals.' One writer says that smoking does not appear to be injurious to grown-up people, but it is distinctly harmful to growing lads. In adults smoking has a double action: it stimulates the brain to increased activity, and it exerts a soothing effect in conditions of excitement. Doctors clearly differ on smoking as on other subjects.

The writers in the Practitioner appear to be agreed that the cigarette is the most harmful form of smoking, because it is the most convenient; it is so easy to light a cigarette, and there are so many opportunities for over-indulgence. Of cigarettes, Egyptians are considered the worst. Some kinds of Turkish cigarettes are nearly as bad, while Russian and American are less harmful. Cigars are the least pernicious forms of smoking, so far as the throat is concerned. Smoking in a closed room is more harmful than in the open air, and breathing a smoke-laden atmosphere is almost as bad as actually smoking.

A Female Rhodes Scheme.

A movement to found scholarships for American women in the British universities is projected by the Society of American Women in London. The plan is for a two years' post-graduate course. It was intended to confine it to Bedford College, but it has been decided to combine all the universities of Ford and Cambridge, including Girton and Newnham Colleges of London.

The scheme will be formally presented at the biennial meeting of the General Federation of Women's Club at Boston when an effort will be made to obtain the funds for the founding of ninety-six perpetual scholarships, divided into two for each State. It is estimated that $10,000,000 will be required.



AT THE RACES.

Johnson—Hello! old sport. Been picking the winners?

Tomson—No. I've been picking the losers.

Pop—Bobby, if I were to give you a dog and someone else gave you a cat, what would you have?

Bobby—Trouble.

Where be the Hay Hats?

Some time ago a story went the rounds, to the effect that Montreal's firefighters were to be equipped during the hot season with hay hats of an approved fashion. This was gay news for the ladder and hose men, and not a few of the younger and sparkier amongst them are said to have promptly started out for quotations for photographs in bulk, with the object of providing all the fair sex on their visiting lists with specimens of the up-to-date fireman as he is and ought to be.

Everything in the garden was about to become lovely. There were even desires on the part of some of those who sport their hair in short curls, that the color of the chairs at the station doors be improved upon, and made of a more aesthetic glitter by the artistic introduction of gold leaf at those points where they project into the landscape.

"Gay young dogs are we" was to be the favorite motto, and between blazes the men were to look the part.

But those head pieces of straw are taking quite a time to materialise, and the thermometer of Hope is likely to bump its bottom right out one of these days. It may, of course, not yet have got home to the aldermen who run things in connection with the water squirting department, that the summer is right here, the season when amen and things have a leaning towards the gladsome. Hope deferred maketh the heart sick, we are assured on good authority, and, as men with any description of sickness about their composition are not calculated to be first class handlers of "the devouring element," it is up to the City Hall to come to attention—and the hay hats.

But apart from all other considerations, it is to be noted that the boys of this city are not being treated as they have a right to expect and demand in connection with this matter. Their faith in the promises of their elders is being pushed dangerously near to the cracking point. And once shake the youngsters' belief in the word of the fathers and the big brothers, and the entire fabric gets a nasty jar!

Those little boys were led to expect firemen, real firemen, wearing straw hats as part of the school vacation enjoyment. Many whose parents could not afford to take them to the far away seashore, on the sands of which many curious sections of entertainment are served, had their juvenile minds made up to a home treat, and to a giddy old time chasing runaway hats what time the brigade careered along town on Twentieth Century Limited rate.

Is all this to go by the board?

Aldermen of Montreal! Those boys of to-day are the voters of a coming to-morrow, and with this wrong rankling in their evergreen memories, they may some day arise in their wrath, and cast you—and your grey hairs—into the darkness of an ordinary common or garden citizenship!

If such prospects bring not along the hats right now, then surely may the whole thing be writ down a bluff.

—ROXBURGH.

No Way to the White House.

(Philadelphia Public Ledger.)

Mr Root's return to the cabinet has suggested the remark that his appointment to the office of Secretary of State brings him forward as a presidential candidate. History does not encourage this idea. The tradition that the Secretary of State was in the line of direct succession was destroyed very early in the last century, and since then the office has been rather the graveyard of presidential aspirations. Always it was recognized as the place next in importance to the presidency, and therefore to be filled by the man of highest distinction who was not out of accord with the President himself. Washington, indeed, did not require even this condition. Jefferson was the best-qualified man, and his appointment as Secretary of State was inevitable. The same conditions never could be precisely repeated.

It will be noticed the later tendency has been to specialize the Department of State as a distinct "Foreign Office," devoted to diplomatic affairs, rather than as the main channel of Executive action. The Secretary is still the titular head of the Cabinet, but he is not expected to hold the dominating influence in general policy that earlier belonged to the office. Such influence is likely to be personal rather than official, but there have been very few men whose personal force has been sufficient to carry them out of this office into the only one that is higher. It has been the rule in all recent history that a candidate for the Presidency abandons hope when he enters here.

A Thread 1,000 Miles Long.

(Philadelphia Bulletin).

"Sea Island cotton is the best kind, said a Southerner. "It is finer and silkier than any other cotton in the world. A pound of it can be spun into 4,779 miles of thread.

"For an experiment once in the English town of Manchester a skilled spinner spun a pound of Sea Island cotton into a single thread 1,000 miles long. Then for another experiment he took another pound of cotton and spun into as many hanks as he could get. He got 10,000 hanks in all, and the yarn in each of them measured 840 yards. Thus out of a pound of cotton 4,779 miles of yarn were produced. This yarn, though, was too fine to be of any practical utility.

"Those two experiments made a superb advertisement for the cotton of the South."

City Vs. Country Eyes.

(London Outlook).

In one of his delightful books Dr. Jessopp remarks that whereas country people look up, Londoners look down. It is largely this habit that has limited their observing powers; but London has itself to blame. I take it that one can observe well only by the power of taking large views, and in London this is impossible, even if one would, partly from the circumscribing effect of bricks and mortar, partly from the dim light of a London distance, and partly from the need of avoiding collisions. One's eyes unconsciously acquire a habit of restricted vision; our observation specializes, like that of the little girl in Mrs. Meynell's book who beguiled the tedium of her walks by collecting shopkeepers named Jones. Perhaps that is the kind of observation for which we in London are best suited.

Classical Quotations in the Commons.

(Westminster Gazette).

The complaint of Mr. Crooks on Tuesday, to which reference has been made, of Mr. Balfour's use of Latin terms which he could not translate, recalls (writes a correspondent) the following story: Sir Stafford Northcote records that he paid Lord Beaconsfield a visit in 1880, and that the conversation turned on classical quotations in the House of Commons. Lord Beaconsfield said that he was fond of quotations from the classics in his speeches, but that Mr. Speaker Denison discouraged him. "If you," he said, "make a classical quotation, Lord John Russell will be sure to work up another not to be excelled by you. He has already begun this practice. He quoted a dozen lines from Virgil the other night, and if this goes on I do not know how the business of the House can be transacted with expedition."

Notice to Fools.

THE Federal official on Lake Ontario who refused clearance papers to a Canadian captain until the latter hauled down the British flag he was flying on the Fourth of July, should be publicly reprimanded. Foreign ships are foreign property, and their right to fly their own flags while in an American port is, or should be, at all time unchallenged and unchallengeable. If it be argued that the appearance of the British commercial ensign in American waters on Independence Day is an insult to national sentiment, what shall be said of the American ships which float the Stars and Stripes on that anniversary in British ports? It is high time that some people stopped making fools of themselves.—Brooklyn Eagle.

"Words, Words, Words."

Mr. C. S. Walker, in some notes on the growth of the English language in the July Macmillan, mentions that the new Oxford Dictionary, when completed, will contain a quarter of a million words. No one Englishman, we are told knows a quarter of a million words, unless it be the compiler himself; we can get on very well with a fraction of them. Indeed, we are assured that there are laborers in some country parishes whose supply is limited to 300 or 400. This does not mean that they would not understand more than that number; for the Bible, which they hear in church, contains over 6,000, and they know their meaning more or less, though they would never think of using them.

Ordinary well-educated people use from 3,000 to 4,000 words in conversation. Accurate thinkers and reasoners, who avoid vague and general expressions and wait till they find a word that exactly hits their meaning, employ, of course, a larger stock; eloquent speakers may even rise to a command of 10,000. Shakespeare, who had a greater wealth of expression than any other writer, produced all his plays with about 15,000 words; Milton's works are built up with 8,000; and the Old Testament contains 5,642.

OBITUARY

Brantford, Ont.—D. L. Philip, M.D., one of Brantford's best known physicians, passed away yesterday morning. Deceased had been ill for some time from the effects of a paralytic stroke.

Windsor, Ont.—Andrew Anderson, retired manufacturer and capitalist, died yesterday after an operation performed for abscess. He was born in Copenhagen, Denmark, but lived in Detroit and Windsor for the past thirty-five years.

St. Thomas—Archibald Brown, died yesterday afternoon, after seven months illness. Deceased was born in Southwold, and was one of Elgin's largest cattle dealers up to the time of his taking ill, exporting largely to Liverpool and Glasgow cattle markets.

St. John—James H. Jones, a well-known citizen of St. John, died last week at his home in the 75th year of his age. In his early days he carried on a baking business in St. John but of late years, has lived a retired life.

Ottawa—Word has been received here of the death in St. Peter's Convalescent Home, Dorking, Surrey, Eng., of Rev. Sister Lilian, of the community of St. Michael and All Angels, Rivers Court and Hammersmith. The deceased spent a period of about three years in her work in this city, during which she greatly endeared herself to the Anglican community of the Capital.

Toronto.—Mr. Wm. A. Orr, one of the early pioneers of York county and Toronto, died at the family residence, Beaconsfield Avenue. The deceased, who had reached the ripe old age of eighty-five years, was born at Tadakiel, county Tyrone, Ireland, in 1820. In the spring of 1821 his parents came to Canada. His elder brother, Dr. J. O. Orr, settled in Toronto, and followed the medical profession for several years. Mr. Orr and the rest of the family settled in Vaughan and took up land there, and there the deceased resided until he retired from farming and came to live in Toronto. Mr. Orr was a member of the Church of England, and for sixty-five years he was connected with the Orange order. He was also a member of the York Pioneers and a Justice of the Peace for the counties of York and Peel.

Regina—Engineer Lang, of Saskatoon and Fireman W. Parrott, the men injured in the accident to the freight train at Pilot Butte, died at the Victoria Hospital yesterday. Lang died from the effects of an internal injury and Parrott could not survive the shock of the amputation a little below the thigh.

TEA, FLAVOR, STRENGTH, and FRESH, PURE FRAGRANCE, all for 40c and 50c a pound. Put up in half pound LEAD PACKETS too.

FRESH FROM THE PLANTATIONS.

ENGLISH ROYAL VETO A THING OF THE PAST

The earliest mention of the exercise of the royal veto was when King Henry V., shortly after the victory of Agincourt, said "Le roy s'aviser a" (the king will consider it) to a petition of Parliament against the transferring of suits at common law into chancery.

Many instances are mentioned during succeeding reigns until that of Queen Anne, who is responsible for the latest exercise of this very interesting power in refusing the sovereign's assent to the bill for settling the militia of Scotland, passed by the Lords and the Commons on March 17, 1708. This is recorded in the journals of the House of Lords.

Since 1708 the veto has never been used, though there was a threatened exercise of royal power of rejection toward the close of the reign of George III. and also by Queen Victoria in 1858. Mr. Bagehot considered that this power is extinct and added that "Queen Victoria must sign her own death warrant if both houses present it for her signature."—London Standard.

Mr. Geo. E. Drummond and Mr. J. E. Hardman, left for the Temiskaming district last night. They will spend several days looking over the nickel and coal properties there.

Always Eat the Best—JAMES STRACHAN, Bakers to Royalty.

PRESENTATION ADDRESSES HANDSOMELY ILLUMINATED EDWIN COX & CO. 116 ST. FRANCOIS XAVIER ST.

Marriage Licenses

ISSUED BY

JOHN M. M. DUFF, 107 St. James Street and 49 Crescent Street.

RUMBLING BOWELS

One of the very first lessons that ought to be taught every child, is that the bowels must move regularly and freely every day. The effete matter that should pass out of the body remains in the bowels, contrary to every law of nature. In fact, nature cannot endure it. If it dose not pass away by the natural channels, then the other way of escape is through the pores of the skin. That is why people look so sallow and unhealthy. This causes pimples, blackheads and blotches. For immediate relief, take two or three Hutch before you go to bed. The whole digestive canal responds to the healing effect of this tablet. Rumbling bowels recover quickly under this treatment. It neutralizes the foul gases. It sweetens the stomach. It gives a good appetite. It's a doctor for ten cents. A big bottle with 200 for $1.00.

NOTICE

Application has been made to the Corporation of the City of Montreal for leave to erect a stable in rear of 875 Dorchester st. Henry Gatehouse.

PANAMAS AND STRAW HATS OF ALL kinds renovated, cleaned and blocked. M. R. DesGeorge &

The John Murphy Company Limited

TUESDAY, JULY 11, 1905.

Distinctive!

This store is in a distinct class by itself, and keeping stocks constantly fresh is one of its first principles.

Whatever you buy here, from Irish Laces to Elegant Costumes, must be the best and latest of its kind. We hate trash, and will not tolerate it. This advertising tells of goods that need no fiction to enhance their value.

The prices are lowered to sell them at a season of the year when nobody is supposed to want much; and to get them out of the way of the coming season's new goods.

Little girls may be nicely and economically dressed on our third floor—especially with those Duck and Pique Dresses we've advertised for Wednesday at $1.00.

SILK AND SATIN RIBBONS — Regular 10c to 25c. — 5c

Liberty Satin Ribbons, Satin Ribbons, Silk Fancy Ribbons, Silk Belting Ribbons—all colors in the assortment. Regular prices, 10c to 25c yard. Wednesday, per yard..... 5c

CORDED AND FANCY PIQUES — Regular 30c to 50c. — 19c

In white, navy and light blue. Makes a nice Shirt Waist Suit, Child's Dress, Boys' Sailor Suit, or Man's Vest. Wears and washes well. Regular prices, 30c to 50c yard. Wednesday, per yard 19c

DRESS GOODS — Values about 40c — 19c

"A piece or two only in some lines of Dress Goods." When the assortment gets down as low as that it's time to put the price low enough to wipe it out altogether.

WOOL CHALLIES, white and black spot, white and blue spot.

ALL WOOL VOILE DE PARIS, 41 inches wide, champagne, fawn, and brown.

PLAIDS, 44 inches wide, white and black, blue and green, blue and red.

GRANITE, in black only.

ALBATROSS, in two shades of brown only.

Regular values run about 40c yard—certainly not lower.

Wednesday, per yard 19c

CHILDREN'S HEADWEAR — Regular 35c, 45c, 50c, 75c, $1.00. — 25c

We would like a Children's Day this week in our Millinery Department. We've such a nice assortment of Summer Headwear, to fit little heads, and priced so as to please mothers. Tams, in Serge, leather, duck and pique; Baby Bonnets and Caps, in muslin, in lace, in embroidery. Regular prices, 35c, 45c, 50c, 75c, $1.00 each. Wednesday, each 25c

GIRLS' WHITE PIQUE AND DUCK DRESSES — $1.00

Regular $2.25 value.

A nice little lot cleared from a manufacturer at considerable advantage. Sailor waist style, skirt with body attached, nicely trimmed with white braid, neatly made and cool looking. Regular $2.25 value. Wednesday $1.00

A LAWN SHIRT-WAIST — Distinctly dressy — $1.25

Of fine quality English Lawn. Tucked fancy hem down front, and four 1 inch hemstitched tucks each side, two 1 inch hemstitched tucks down back, new sleeves, soft tucked cuffs, low collar. Sizes 32 to 42. The value's exceptional. Wednesday $1.25

SUMMER HOSE — Regular 20c. — 10c

400 pairs Ladies' and Children's Cotton Hose, in black and tan, seamless feet, double heels and toes. Very elastic at top and ankles. Regular 20c value. Wednesday, per pair 10c

EMBROIDERED BELTS — Regular 35c and 40c. — 25c

White Duck Belts, in a large range of styles and colorings, including the new eyelet effect, embroidered in all the newest colorings. Regular 35c and 40c values. Wednesday, each 25c

DAMASK H. S. TABLECLOTHS — Regular $1.50 to $20.00. — Half Price

The sizes are good—from 63 x 63 to 90 x 124. The reduction is made because they have been in stock too long before the new management took hold—we want things new. Regular prices from $1.50 to $20.00 Wednesday ..... HALF PRICE

JAPANESE CHINA BOWLS — Good 20c to 30c values. — 15c

For salads, fruit, nuts, etc. Light green decoration, with dark blue circles and figures. Sizes 7, 8, 9 inches. Good 20c to 30c values. Wednesday, each 15c

HEMSTITCHED HANDKERCHIEFS — Pure Irish Linen. — 5c

¼ inch hem, nicely finished. Surprising value. Wednesday 5c

THIS STORE CLOSES DAILY AT 5.30 P.M., EXCEPT SATURDAY, DURING JULY AND AUGUST, WHEN IT CLOSES AT 1 O'CLOCK.

WOMAN AND HER INTERESTS

Spend as much time as you can with the trees and birds and flowers.

Pot Pourri

SCARFS FOR COOL NIGHTS.

PHYSICIANS at summer resorts unite in asserting that indiscretions in dress are responsible for more cases of illness than any other two causes combined. The summer girl takes every imaginable chance for the sake of being airly gowned. Particularly true is this in the evening when she goes to a dance or out on the lake, exposing her throat and chest to the damp night air.

Yet this year there is no excuse for not providing some dainty covering for the low cut gown, or a fleecy yet protecting wrap for the delicate throat. In the trousseau of a June bride, a favored acquaintance was shown a lace shawl to match each of the filmy evening frocks—the exquisite lacy shawls such as Southern grandames wore. So the girl who is fortunate enough to possess one of these lengths of old lace will do well to bring it into use for protection against cool, damp air, after the sun has made his goodnight bow.

There is a great revival of Spanish lace shawls, and scarfs of all shapes are being worn either in black or cream color, and many of them are dyed in a soft pastel shade. Another fetching lace shawl is of coffee-colored silk cluny, shaped like a fichu with long, tapering ends. Cream-colored net is also outlined in fichu shape with heavy Arabian lace.

The fad of fashionable women with a comfortable allowance for dress accessories is an Assyrian shawl. This is a long scarf of black or white coarse net in geometrical mesh and is thickly spangled with gold or silver tinsel. These can readily be made from a length of spangled net such as was used during the winter in glistening evening frocks.

Lighter even than these sparkling gauze shawls, the filmy liberty scarf has lost none of its popularity. The newest of these show stripes and bars of silk crepe in the same or contrasting pastel shades, and borders of gloriously colored Persian designs. One specially fascinating scarf has a crepey scarlet polka dot on a white silk ground, and is finisned with a deep Persian border in which scarlet is the predominating color. Scarfs of silk mousseline with scalloped and embroidered edges and embroidered floral patterns on the end, are charmingly picturesque with summer evening frocks. Another simple but effective scarf is made from the sheerest French mull or batiste, and is hemstitched at the ends or scalloped and buttonholed all the way round.

One of the loveliest novelties in shawls is a delicately tinted cashmere. A length of three yards is edged with a twelve-inch silk fringe and at either end, extending well up into the body of the shawl are woven huge full-blown roses, and a shawl of lavendar resolves itself into a border of baby-blue blossoms.

But it is the feather boa to which, after all, a woman clings as a most becoming protection for her throat and shoulders. Dainty little neck pieces like the flat fur tippets worn during the winter, are made of maribout in white or pastel blues or pinks, while fastened in among the downy feathers are tiny curls of ostrich tips in black lavender or some contrasting color. Flowers such as primroses or one large American beauty rose are also nestled in the maribout at the side of the throat.

For the Cook

POTATO POINTERS.

QUICK POTATOES.

SLICE raw potatoes thin and ... ten minutes or so in salted water. Drain, sprinkle with a dash of pepper add small bits of butter and pour over the whole about half a cupful of hot cream. Serve at once in a heated dish.

CRISP BAKED POTATOES.

Peel and quarter the potatoes, place on pie-tins and sprinkle with salt. Bake in a very hot oven, and after arranging in a hot dish for the table, pour over them a little melted butter.

POTATO PUFF.

Beat until creamy two cupfuls mashed potato, a little salt, and two tablespoonfuls melted butted. Stir into this two eggs well beaten, and six tablespoonfuls cream. Pile lightly on a plate that will bear the heat of the oven and bake till light brown in color.

Personal and Society Notes

Mrs. I. H. Elliott has left for Prouts Neck.

Mr. T. Kirk is spending a few weeks at Sweetsburg.

Mrs. A. J. Vinberg has left for Chateauguay, N. Y.

Mrs. J. Keith Reid is among the Montrealers at Glenmer.

Mr. W. E. Paton, of Sherbrooke, is registered at the Windsor.

Mr. and Mrs. D. D. O'Meara have arrived in town from Quebec.

Dr. C. R. Rawson, of Montreal, is at the St. Louis Hotel, Quebec.

Miss Ethel M. Fisher has left town form Kennebunk Beach, Me.

Mr. and Mrs. Westlake, of Montreal, are guests of Mr. C. A. Stone at Knowlton.

Miss Ettie Kaine, Montreal, is in Quebec on a visit to her aunt, Mrs. J. C. Kaine.

Mr. Alan McGee who spent a few days in Ottawa lately has returned to Montreal.

Miss Jessie Watters of Ottawa is in Montreal the guest of the Misses Whitelaw.

Mrs. Robin Adair and family, Lorne avenue, are spending the summer at Val Morin.

Miss Rita Roach, Montreal, is in Quebec, the guest of Lieut.-Col. and Mrs. Laurin.

Miss Ruth Chambers, who has been spending a few days at Knowlton, has returned to Lachine.

Mrs. M. J. Morris and Miss Kathleen Morris, Lorne Avenue, have left to visit relatives at Arnprior.

Mrs. Godard of Montreal leaves for Ottawa shortly when she will be the guest of Miss Reiffenstein.

Miss Etta Rubidge has returned home after several weeks' visit with Mrs. T. D. Bell of this city.

Captain and Mrs. E. A. Panet who since their arrival from India have been the guests of Sir Elzear and Lady Taschereau at Ottawa, leave this week for Murray Bay.

The marriage of Miss Julie Langelier, daughter of Mr. J. C. Langelier, of Quebec, to Mr. Don J. Perry, son of the late Hon. Judge D. J. Perry, of Seneca, Kansas, was celebrated in the private chapel of the St. John the Baptist Church, Quebec, to-day.

YOUNG—TRENHOLM.

A very pretty wedding took place at the Methodist church, North Wakefield, on Wednesday, July 5th, at 3.30 p.m. Miss Alice M. Young, daughter of Rev. Henry A. Young, was united in marriage with Mr. J. L. Trenholme, of Blue Bonnets, Montreal. A large number of guests were present in the church which was tastefully decorated with flowering plants and ferns. Miss Tina Armatage of Montreal played Mendelssohn's wedding march. The bride was gowned in light grey silk eolienne trimmed with allover lace and applique, and carried a shower bouquet of white roses. The bridesmaids, Miss G. Scott and Miss Annie A. Young, wore Nile green voile dresses and carried bouquets of pink carnations. The groomsman was Mr. Henry P. Young, brother of the bride. Rev. Renry A. Young, performed the ceremony, assisted by Rev. R. Gamble (Presbyterian) of Wakefield, and Rev. J. R. R. Cooper, B.A., B.D. The bride was the recipient of many costly presents. Her travelling dress was brown taffeta silk, with tuscan hat to match.

HERALD DAILY PATTERN

BABY'S DRESS 2254.
One Size.

Baby's gown demands as serious consideration now, though not as elaborate construction, as she must bestow upon it later when she reaches the age of sweet sixteen. At present it is a matter of supreme indifference to her ladyship, and it is the fond mamma who must do the worrying. Our sketch today, however, should lessen this worry a little, for it is as dainty and attractive a frock as the fondest parent could desire. The finest of linen lawn is used in the model, the making is entirely by hand, and the only decoration a bit of real Valenciennes lace at neck and wrists. Many of these little dresses are necessary to keep Baby in the immaculate condition demanded by an adoring family, and this design is a simple and practical way of making some of them. The gown will require 2 yards of material 36 inches wide, with 1¾ yards of lace for edging. The pattern 2254 is cut in one size only.

Name .....

Dr. Chase's Ointment

SMOKE NUISANCE ENDS IN SMOKE

No Official Electrocutions Yesterday—Can Nuisance be Abolished?

The smoke nuisance by-laws, and the enforcement thereof, or the alleged non-enforcement, came up at yesterday's Council meeting, and, while Ald. L. A. Lapointe made a strong protest against what he was pleased to term the poor work, or neglect of work on the part of Building Inspector Chausse and Boiler Inspector Champagne, still no motion for the dismissal of these officials was made.

Mr. K. J. Beardmore, who has been interested in the smoke nuisance to a great extent, and who has been writing letters to many people on the question had written to Council complaining bitterly of the nuisance in the vicinity of Burnett Street. He also had hard raps for both the inspectors.

Ald. Lapointe read the letter through carefully, and stated that things could not go along in this way much longer; the city had by-laws and officials to see that they were enforced, but they were not and the law was ignored in spite of many protests, and it was high time to come to a decision in the matter. He referred to Ald. Robertson's statement that no officials could "take people by the throat," characterizing this remark as an evasion of duty, and wound up with a strong protest against the dilly-dallying of the Recorder's Court in securing convictions, and abating the nuisance.

"You can't believe all you see in newspapers, was Ald. Robertson's defence. "I don't think that you or anybody can stop the smoke nuisance; if you stop the smoke you stop manufacturing. It can't be done." (Hear, hear,—Ald. Ekers.)

"How about the Montreal Street Railway," concluded Ald. Robertson, "and big concerns like this? We can't stop these from making smoke; we will amend the by-law, and after that things should go along more smoothly."

There was no discussion further on the matter, and since no motion was put, all talk was ruled out of order.

VILLERAY WILL JOIN MONTREAL

By-Law Read for First Time at Yesterday's Council Meeting.

The initial step in the formation of the Greater Montreal was taken yesterday in the City Council, when the by-law for the annexation of Villeray was read for the first time. The town will be added to St. Denis Ward, the debt will be added to Montreal's financial sheet, and the territory will form part of Montreal, subject to all her by-laws, etc.

To-day, St. Henry's case will come up for special consideration, and it is more than probable that a few days time will see the long expected annexations completed.

The Villeray by-law says:

"Whereas it is in the interests of the city of Montreal to annex to its territory the municipality of Villeray to form part of St. Denis Ward, and wheras such annexation cannot but be productive of mutual advantages, the council of the said city of Montreal enacts as follows:

"1. The territory now comprising the municipality of Villeray, as hereinafter described, shall form part of the St. Denis Ward of the city of Montrael for all municipal purposes whatever.

"2. The territory of the municipality of the village of Villeray is situated on the northwest limit of St. Denis Ward, in the city of Montreal. It originally formed part of the parish of Sault aux Recollets, and was known as cadastral number 489 of said parish.

"The municipality is bounded as follows: To the southeast by the northwest limit of the city of Montreal; to the northeast by cadastral number 488 of the parish of Sault aux Recollets; to the northwest by the southeast limit of the parish of St. Laurent."

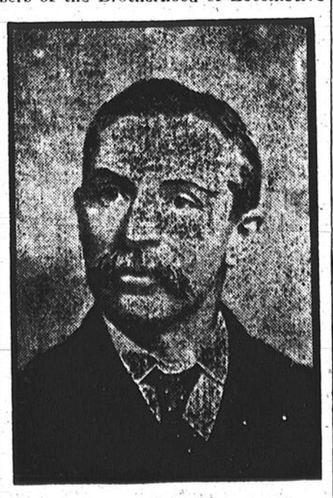
As Villeray is a small suburb, the only change really will be the increase in size of St. Denis Ward, Villeray asking no special terms in exchange for coming into Montreal.

A WORD TO BUYERS.

The buyer of a Heintzman & Co., piano can never have any regrets over his purchase for he will never find a piano of another maker that will compare with it in tone. Sold only by C. W. Lindsay, Limited, 2366 St. Catherine Street—Adv.

ENGINEER SCHOFIELD'S DEATH LOSS TO FRATERNITY

Mr. Isaie Schofield, whose sudden death at Bathurst, N.B., was announced in yesterday's Herald, was one of the most popular engineers in the province and his loss will be felt not only by the members of the fraternity but also by the many people who were personally acquainted with him. He was one of the most prominent members of the Brotherhood of Locomotive



Engineers, and was not only popular with his fellow employes but was well liked by the officials of the company who recognized him as one of the most reliable engineer's in the company's service and placed implicit trust in him. This was evidenced by the fact that for many years he held one of the most important and responsible runs on the Canadian Pacific Railway—that between Montreal and Smith's Falls. The deceased leaves a widow and family. The funeral will take place from his late residence, 8 Tara Hall Avenue.

Hon. Mr. Metcalfe, secretary of the Department of Immigration of the United States, passed through Montreal Saturday, accompanied by his wife, on his way to the Pacific Coast.

THE IONIAN'S PASSENGERS.

The first class passengers on the Allan liner Ionian which arrived from Glasgow yesterday were:

Mrs. Arthur, Miss J. Arthur.
Mr. John Brown, Mrs. Brown.
Miss M. A. Colville.
Mr. Frank Dennison.
Mrs. Edgar, Miss Muriel Edgar.
Rev. Peter Fisher.
Dr. John Hutchison, Mrs. Hutchison.
Mr. John Loudon.
Mrs. Muir, Master Gavin Muir, Miss Martha Muir, Miss M'Ghie, Mr. D. S. McIlroy, Mrs. McIlroy.
Miss May Pirie.
Mr. Hamish G. Russell, Mr. Herbert M. Russell.
Mr. J. M. Smith.
Mr. W. D. Valentine.
Miss Mary S. White.

Dyspepsia of Women

ABSOLUTELY NEEDLESS AGONY

Caused by Uterine Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterine-tonic effects also.

As proof of this theory we call attention to the case of Mrs. Henry Beaubien, 58 Sparks St., Ottawa, Ont., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes:

Dear Mrs. Pinkham:—

"I had been troubled with indigestion and general stomach disorders for nearly a year. I had a soreness in my stomach and was unable to digest my food. I dieted and doctored without success; but Lydia E. Pinkham's Vegetable Compound brought me permanent relief. I used three bottles and it cured me of my stomach trouble and built up my general health. I now enjoy a splendid appetite, can eat all kinds of food, have no trouble with indigestion, and know that I owe it all to Lydia E. Pinkham's Vegetable Compound."

No other medicine in the world has received such widespread and unqualified endorsement, or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

COLONY'S PRIVATE WEALTH.

The private wealth of Australia now amounts to no less than £981,979,000, which gives an average of £249 for each inhabitant, though even this figure is regarded as underestimated.

As regards its distribution:

New South Wales claims	£368,778,000
Victoria	310,074,000
Queensland	113,454,000
South Australia	86,320,000
Western Australia	49,065,000
Tasmania	48,288,000

The number of privately owned estates is estimated at 578,000, the proportion of women property holders being larger than in most countries. The wealth of the United Kingdom in farms, railways, houses, merchandise, and sundries, is over £500 per head of the population.

HE ALSO TOOK THE SHEEP.

It is told of a Derbyshire farmer that, having purchased a small flock of sheep in the Lowlands, drove the flock the whole way from Scotland to his farm in Derbyshire with the aid of a collie dog, which was lent to him by the Scottish farmer. "When you get to your home with the sheep," said the Scotsman "let the dog fill his belly; then tell him to go home." The Derbyshire man, however, was so pleased with the collie dog and its performance that he decided to keep it a few days. One day he was away from home during the whole of the day and on returning in the evening he found that the collie was missing, and also the flock of sheep. In a few days tidings came that the dog had arrived at his Scottish home and had brought the sheep back with him.

DON'T USE POOR OIL

For use on sewing machines, bicycles and all purposes requiring a fine lubricant; the best is cheapest in the end. Genuine Singer oil can only be obtained at Singer stores. Look for the red S. 1427 St. Catherine Street, 2327 Notre Dame Street, 1903 Notre Dame Street, 166 St. Lawrence Street, 2437 St. Catherine Street, 1862 St. Lawrence Street, Montreal, Canada.—Adv.

EFFECTS OF BOOK READING.

Books are the depository of everything that is most honorable to man. Literature, taken in all its bearings, forms the grand line of demarcation between the human and the animal kingdoms. He that revels in a well-chosen library has innumerable dishes, and all of admirable flavor. His taste is rendered so acute, as easily to distinguish the nicest shades of difference. His mind becomes ductile, susceptible to every impression, and gaining new refinement from them all.—Godwin.

NOT ONLY DIAMONDS

Selling Diamonds is of course the most important part of our business; yet scarcely second to our stock of Diamonds comes our collection of other Gems, both precious and semi-precious.

The name "Birks" associated with any gem, adds a sense of security, worthy of consideration.

LESS 20 PER CENT. DISCOUNT.

5 dozen only, of BOYS' WEB BELTS, made with silver-plated fastener. Former price, 35c. Special, 10 cents.

HENRY MORGAN & CO. - - Montreal.

MILITIA PROJECTS ARE OUTLINED BY MINISTER

Details of the Scheme for Making the Permanent Force at Once a Defence and a Line of Militia Training-Schools.

(Special Staff Correspondence).

Ottawa, July 11.—General Lake for the military members of the Militia Council in a memorandum has stated the "general policy of the Military Council with regard to the development of the militia." The permanent force is 1995 and the militia about 47,000. The addition of 3,500 men in the Northwest is authorized. On the militia must fall the duties of support to the civil power and the defence of the country against foreign aggression. In addition the permanent force has to instruct the active militia. Efficiency and economy can only be realized in a country like Switzerland where in their patriotic spirit the people recognize the first duty of a free man is to take his share in the defence of the country. The council accepts the idea of 100,000 men in the first line of defence with the whole population behind. They think establishment for peace should be 60,000 and have allotted that number of men among the various provisions. The defences of Halifax and Esquimalt would require 2,200 men if carried on the present lines. Quebec needs 400 of Canada's permanent force. Kingston has to be provided for but that can be done by the instructional force. There are two permanent mounted squadrons but a large increase in the mounted branch of the militia has produced the decision to organize an additional squadron and locate it at St. John's Quebec and to eventually replace the infantry at Fredericton with dragoons. Another to be raised in the West will be located in the west. It is proposed to raise five regiments of mounted infantry in the west. It is hinted that the council would be willing to take over the Northwest Mounted Police.

DANGERQUSLY SMALL GUN FORCE.

Present field artillery is described as dangerously small. Eight new militia batteries have been ordered, a certain number of militia batteries have been armed with 4.7 heavy field guns the use of which was dictated by the experience in South Africa. To instruct this artillery an increase is to be made of Artillery from two to three batteries with an additional one company of heavy artillery from existing Garrison Artillery. It is proposed to place two batteries of Horse Artillery at Kingston, half a battery at Winnipeg and a half battery in the province of Alberta wherever Strathcona Horse is located.

The company forming the school of instruction for heavy artillery will be quartered at Quebec, 534 men and half of one company will be required for Esquimalt and a fourth of one company at Quebec. The distribution of artillery has been made with the view of having batteries exercise not only singly but in brigades.

The technical nature of coast defence artillery requires special study. Therefore it is proposed to establish a School of Gunnery in connection with the Quebec Artillery School which shall deal with higher instruction of the militia.

FEW CHANGES IN INFANTRY.

For infantry of the permanent corps it is estimated Halifax and Esquimalt will require five strong companies. They will form infantry schools of instruction for the Maritime Provinces and British Columbia. Another company will as now remain at Quebec and instruct there. The St. John's Quebec Company will be moved to Montreal. The London and Toronto companies will remain for Ontario. The tenth company will be quartered at Fort William. The Mounted Rifles at Winnipeg give infantry instruction. It is proposed to impose a similar duty on the Strathcona Horse.

In Engineers there will be a company at Halifax, and one at Esquimalt in connection with the defences, especially for search lights, fortifications and sub-marine mines. The third company will be distributed among various depots for care of buildings, occupied by troops, and to give instruction in engineering and field telegraph duties.

For food, forage, clothing, stores, pay transport and care of sick and wounded it is proposed to organize army service, ordnance store and army medical corps of 150 men each distributed at various stations of the permanent force.

The strength of the pay corps has not been decided but it will be small though carefully trained to form a nucleus for possible expansion.

These are the plans for combining the garrisoning of places necessary to be defended with schools of instruction for the active militia.

TERRIBLE BACK PAINS.

They fairly agonize your life. Something powerful and penetrating is needed. Doctors know of nothing so swift to relieve as Nerviline, a strong, penetrating liniment made to cure just such pains as yours. Nerviline is very concentrated, about four times more powerful than ordinary liniments. In the worst cases Poison's Nerviline is extraordinarily good. All muscular pain flees before it. Nearly fifty years in use—a good recommendation, surely.

DOMINION NEWS TOLD IN A LINE

One Day's Record of the Latest Happenings in Canada.

Toronto.—Fred. Helson was run over by a train near Milton and probably fatally injured.

Strathroy, Ont.—Fred. Brothers, aged ten years, was shot through the head by companions at Strathroy and fatally injured.

London.—Arthur Johnston, a victim of the London street car accident, has developed erysipelas and may not recover.

Hamilton. — Henry Brockbank has died in Hamilton hospital from injuries received in the accident on Fearnside's yacht.

St. Catharines—W. A. E. Moyer and B. W. Dillon have purchased the St. Catharines Journal from E. J. Lovelace.

Toronto.—The City Council has resolved to grant $200,000 towards the new central hospital without attaching any conditions to the grant.

Toronto—Marks Jacob, employed by the Imperial Manufacturing Company, was arrested, charged with malicious injury to the property of the company.

Winnipeg.—The Toronto Construction and Paving Company has secured the contract for the construction of the new reservoir at the waterworks at nearly $70,000.

Port Arthur.—An old gentleman, en route east, was held up in the railway station here during the temporary absence of the agent, and robbed. The thief did not secure his ticket, and he proceeded east

Ottawa.—Fred. Donovan, corner of Ray Street and Gladstone Avenue, who fell between two cars at Coteau and had his leg so badly injured that it had to be amputated, died in Water Street hospital Sunday night.

Toronto—The Ontario Government, in view of former forest fires in Temiskaming district, has decided to sell the timber for one-quarter of a mile on each side of the Northern Ontario railway for a distance of forty miles.

Port Arthur—Two hoboes who worked their way up on the Saronic engaged in a fight on the docks on Saturday, and one was nearly scalped in the affray. His assailant was arrested and sent to jail for eighteen months.

Winnipeg.—John Forbes Maguire was arrested yesterday in Winnipeg, charged with embezzlement from the Birmingham office of the Canada Life Assurance Company. Maguire arrived in Montreal by the Corinthian on June 22, and immediately went west.

Vancouver, B.C.—Little Tommy Harmon fired at a rat which he saw under a warehouse. He missed the rat and the bullet struck a case of dynamite. The warehouse was demolished and all the glass in nearby houses was smashed.

Toronto.—Sitting in a chair with his head hanging backwards, Thomas S. Paton, seventy-five years old, a retired traveller, was found dead in his room at 106 Shuter Street Sunday afternoon. The man had apparently been dead for several days.

Alameda, N.W.T.,—Two young men of this place, H. Brealey and W. Hazzard each aged about seventeen years, were drowned in Moose Creek yesterday afternoon. Hazzard got beyond his depth and Brealey went to his assistance, both being drowned. The bodies have been recovered.

Winnipeg.—Cecil Laurel Henry Branson, alia L. Butt, a former clerk in the Winnipeg branch of the Union Bank, who last October absconded with $5,000 of the bank's funds and who was ultimately traced to Mexico, will be brought back to Winnipeg to stand trial.

Renfrew.—The will of the late Thos. Mackie, ex-M.P. for North Renfrew, has been filed at Renfrew. According to the reports received of the succession duties the estate amounts to $180,000, instead of the extravagant sums at which rumor estimated it. All the property is left to the widow with power of appointment in regard to the children.

Bruce Mines—A B.M. and A. passenger and coal transfer train collided on a curve about half way between Bruce, C.P.R. station and Bruce Mines yesterday, causing the death of Jas. Duncan, engineer on the passenger train. Deceased was formerly of Collingwood and Winnipeg.

Brantford—The Dominion Natural Gas Company, Limited, will supply natural gas to this city within three months for lighting and heating purposes for 45 cents. They are also prepared to make a reduction for power demands. It is proposed to pipe the gas from the rich fields in the vicinity of Dunville, and the contract for piping has already been let.

AVERAGE LOBSTER CROP IN P.E.I.

Charlottetown, P.E.I., July 11.—(Special)—The lobster season closes to-day on Prince Edward Island except along that part of the coast from Tryon to West point. The catch this season will be about an average one. Last year it was above the average. This season owing to bad weather the fishermen were late in starting, which tended to lower the total catch, which tapered off towards the close of the season. The rather unusual fact of lobsters starting to shed their shells this month instead of in June as in previous years operated to the advantage of the fishermen. The price this season is about $1 a case less than in 1904. The total catch is estimated at about 50,000 cases valued at $13. The hatchery has handled a considerable quantity of eggs and this policy of the government, in restocking the waters, is meeting with hearty approval from packers and fishermen.

Mr. James J. Gardner, has got home from a business trip to the Northwest and the Pacific Coast.

The Fate of a Crown

by Schuyler Staunton

A MOST ENGROSSING NOVEL OF LOVE and ADVENTURE

(Copyright 1905, by The Reilly & Britton Co. and McLeod & Allan, and published exclusively in the Province of Quebec by The Herald, by special arrangement with the Canada Newspaper Syndicate.)

(CHAPTER VI.—Continued.

He would dwell with especial pride upon the aristocratic breeding of his ward, which, to do him justice, he valued more for its effect upon other noble families than for any especial advantage it lent to Lesba herself; for while Dom Miguel was thoroughly republican in every sense of the word, he realized the advantages to be gained by interesting the best families of Brazil in the fortunes of his beloved Cause, and one by one he was cleverly succeeding in winning them. My familiarity with the records taught me that the Revolution was being backed by the flower of Brazilian nobility—the most positive assurance in my eyes of the justice and timeliness of the great movement for liberty. The idea that monarchs derive their authority from divine sources—so prevalent amongst the higher classes—had dissolved before the leader's powerful arguments and the object lessons Dom Pedro's corrupt ministry constantly afforded. All thoughtful people had come to a realization that liberty was but a step from darkness into light, a bursting of the shackles that had oppressed them since the day that Portugal had declared the province of Brazil an Empire and set a scion of her royal family to rule its people with autocratic sway.

And Lesba, sprung from the bluest blood in all the land, had great influence in awakening, in those families she visited, an earnest desire for a republic. Her passionate appeals were constantly inspiring her fellows with an enthusiastic devotion to the cause of liberty, and this talent was duly appreciated for the girl's simple but direct methods of making converts was unbounded.

"Lesba is a rebel to her very fingertips," said he, "and her longing to see her country a republic is exceeded by that of no man among us. But we are chary of admitting women to our councils, so my little girl must be content to watch for the great day when the cause of freedom shall prevail."

However, she constantly surprised me by her intimate knowledge of our progress. As we were riding one day she asked:

"Were you not impressed by your visit to the secret vault?"

"The secret vault!" I exclaimed. "Do you know of it?"

"I can explain every inch of its construction," she returned, with a laugh; "everything, indeed, save the secret by means of which one may gain admission. Was it not Francisco's idea? And is it not exceedingly clever?"

"It certainly is," I admitted.

"It was built by foreign workmen, brought to Brazil secretly, and for that very purpose. Afterward the artisans were sent home again; and not one of them, I believe, could find his way to my uncle's house, for every precaution was taken to prevent their discovering its location."

"That was well done," said I.

"All that Francisco undertakes is well done," she answered simply.

This faith in her perplexing brother was so perfect that I never ventured to oppose it. We could not have remained friends had I questioned either his truth or ability.

Madam Izabel I saw but seldom, as she avoided the society of the family and preferred the seclusion of her own apartments. On the rare occasions of our meeting she treated me with frigid courtesy, resenting any attempt upon my part to draw her into conversation.

For a time it grieved me that Dom Miguel's daughter should regard me with so much obvious dislike and suspicion. Her sad story had impressed me greatly, and I could understand how her proud nature had resented the slanders of Francisco Paola, and writhed under them. But one evening an incident occurred that served to content me with Madame Izabel's aversion, and led me to suspect that the Minister of Police had not been so guilty as I had deemed him.

It was late, and Dom Miguel had preceded to me the domed chamber while I carried the records and papers to be deposited within the vault.

After raising the first trap my employer, as usual, extinguished the candle. I heard the customary low, grating noise, but before the shooting of the bolts reached my ears there was a sharp report, followed by a vivid flash, and turning instantly I beheld Madam Izabel standing beside us, holding in her hand a lighted match and peering eagerly at the surface of the trap.

My eyes followed hers, and while Dom Miguel stood as if petrified with amazement I saw the glitter of a gold ring protruding from one of the many curious indentations upon the plate. The next instant the match was dashed from her grasp and she gave a low cry of pain.

"Light the candle!" commanded de Pintra's voice fiercely.

I obeyed. He was holding the woman fast by her wrist. The ring had disappeared, and the mystery of the trap seemed as inscrutable as ever.

Dom Miguel, greatly excited and muttering imprecations all the way, dragged his daughter through the passage and up the stairs. I followed them silently to the chief's study. Then, casting the woman from him, de Pintra confronted her with blazing eyes, and demanded:

"How dare you spy on me?"

Madam Izabel had become cool as her father grew excited. She actually smiled—a hard, bitter smile—as she defiantly looked into his face and answered:

"Spy! You forget, sir, that I am your daughter. I came to your room to seek you. You were not here; but the door to this stairway was displaced, and a cold air came through it. Fearing that some danger menaced you I passed down the stairs until, hearing a noise, I paused to strike a match. You can best explain the contretemps."

Long and silently Dom Miguel gazed upon his daughter. Then he said, abruptly, "Leave the room!"

She bowed coldly, with a mocking expression in her dark eyes, and withdrew.

As she passed me I noted upon her cheeks an unwonted flush that rendered her strikingly beautiful.

Deep in thought de Pintra paced the floor with nervous stride. Finally he turned toward me.

"What did you see?" he asked, sharply.

"A ring," I answered. "It lay upon the trap, and the stone was fitted into one of the numerous indentations."

"He passed his hand over his brow with a gesture of despair.

"Then she saw it also," he murmured, "and my secret is a secret no longer."

I remained silent, looking upon him curiously, but in deep sympathy.

Suddenly he held out his hand. Upon the little finger was an emerald ring, the stone appearing to be of no exceptional value. Indeed, the trinket was calculated to attract so little attention that I had barely noticed it before, although I remembered that my employer always wore it.

"This," said he, abruptly, "is the key to the vault."

I nodded. The truth had flashed upon me the moment Madam Izabel had struck the match. And now, looking at it closely, I saw that the stone was oddly cut, although the fact was not likely to impress one who was ignorant of the purpose for which it was made.

The chief resumed his pacing, but presently paused to say:

"If anything happens to me, my friend, be sure to secure this ring above all else. Get it to Poala, or to Fonseca, or Piexoto as soon as possible—you know where they may be found. Should it fall into the hands of the royalists the result would be fatal."

"But would either of your associates be able to use the ring, even if it passed into their possession?" I asked.

"There are two hundred indentations in the door of the trap," answered de Pintra, "and the stone of the ring is so cut that it fits but one of these. Still, if our friends have time to test each cavity, they are sure to find the right one, and then the stone of my ring acts as a key. My real safety as you will observe, lay in the hope that no one would discover that my ring unlocked the vault. Now that Izabel has learned the truth I must guard the ring as I would my life—more, the lives of all our patriotic band.

"Since you suspect her loyalty, why do you not send your daughter away?" I suggested.

"I prefer to keep her under my own eye. And, strange as her actions of to-night seem, I still hesitate to believe that my own child would conspire to ruin me."

"The secret is not your own, sir," I ventured to say.

"True," he acknowledged, flushing deeply, "the secret is not my own. It belongs to the Cause. And its discovery would jeopardize the revolution itself. For this reason I shall keep Izabel with me, where, admitting she has the inclination to betray us, she will not have the power."

After this night he did not extinguish the light when we entered the vault, evidently having decided to trust me fully; but he took pains that no one could follow us. After watching him apply the key several times I became confident that I could find the right indentation without trouble should the occasion ever arise for me to unlock the vault unaided.

Days passed by, and Madam Izabel remained as quiet and reserved as if she had indeed abandoned any further curiosity concerning the secret vault. As for my fellow-rebel, the Senhorita Lesba, I rode and chatted with her in the firm conviction that here, at least, was one secret connected with the revolution of which she was ignorant.

(To be continued.)

SYMPTOMS OF NERVE DISORDERS

Which Foretell the Approach of Nervous Prostration. Paralysis and Locomotor Ataxia.

Twitching of the nerves and muscles, sensitiveness to light, sound and motion, jerking of the limbs, sleeplessness, headache and indigestion—such are some of the symptoms of exhausted nerves.

Because there is no acute pain people do not always realise the seriousness of nervous diseases. They do not think of the helplessness of body and mind, which is the result of neglecting such ailments.

Because of its extraordinary control over diseases of the nerves Dr. Chase's Nerve Food has come to be considered the one great treatment for disorders of this nature.

Not only does it revitalize the wasted nerve cells, but actually forms firm flesh and tissue, builds up the system and sends new vigor and vitality to every organ of the body.

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

LONG YEARS AGO.

Long years ago the first piano we ever heard was a Heintzman & Co. Our mothers and grandmothers used it and pronounced it the best. To-day our wives, sisters, daughters and sweethearts are doing the same. It is surely the best. Sold only by C. W. Lindsay, Limited, 2366 St. Catherine Street—Adv.

A LUCKY 8-YEAR-OLD

About 6.30 last night Louis Gillinspin, eight years of age, fell from a window in the third storey of his home, 35 Sanguinet Street, to the yard below. The fall was almost forty feet, yet when taken to the General Hospital it was found that the boy had escaped with nothing worse than a fracture of the right arm and a slight scalp wound.

CURIOUS WILL.

Out of a total estate of £29,052, Mr. Antony Canning Swinton, of Araluen, Hindhead, Surrey, left no less than £23,000 for public purposes, his wife receiving £200, a life annuity of £450, and the use of his house rent free.

A portrait of Edward Nichols Dennys, by C. Baxter, is bequeathed to the National Gallery. "If the trustees will hang it in a good light;" but if not, then it goes to the Tate Gallery.

Three thousand pounds is to be expended in founding "an educational union on the spiritual principles of life as shown, for example, in Dennys' 'Alpha.'"

The residue of the estate is to be held in trust for the Land Nationalisation Society, of 432 West Strand, for the furtherance of its work.

ALL HE WAS FIT FOR.

An old man was called into the witness box in an Irish Court some years ago, and, being just a little blind, he went too far, in more than one sense, and, instead of going up the stairs that led to the box, mounted those that led to the bench. Said the judge (good humoredly)—"Is it a judge you want to be, my good man?" "Ah, sure, your Honor," was the reply, "I'm an old man now, and mebbe it's all I'm fit for!"

TOWN OF WESTMOUNT

NOTICE TO RATEPAYERS

PUBLIC NOTICE is hereby given that, at an adjourned session of the Municipal Council of the Town of Westmount, to be held at the Town Hall, 21 Stanton Street, Westmount, on Monday, 17th July, 1905, at 8 o'clock in the evening, a By-law will be submitted to the Council for approval, providing for the laying of concrete sidewalks and stone crossings in certain streets of the Town, as authorized by the provisions of loan By-law No. 149, which was duly ratified by rate-payers on the 13th day of May, 1905, the cost thereof to be assessed on the land valuation of the whole Town, irrespective of the buildings thereon erected.

Given at Westmount, this Fifth day of July, nineteen hundred and five (1905).

WM. MINTO, Secretary-Treasurer.

TENDERS FOR FOOT BRIDGE

The Harbour Commissioners of Montreal invite tenders, addressed to the undersigned, sealed and endorsed "Tender for Bridge," to be received up to noon on Friday, 14th July, 1905, for building a foot bridge on Victoria Pier, from Commissioners St., according to plans and specification which may be seen upon application to Mr. John Kennedy, Chief Engineer.

The lowest or any tender not necessarily accepted.

DAVID SEATH, Secretary.

Montreal, 3rd July, 1905.

Out of the Sun Into the Surf

There's solace for summer's fiercest heat in a cooling dip into the grateful surf—but a handsome BATHING SUIT is an absolute necessity. Our stock of suits for wearing in the water is better than you'll find elsewhere, more variety, more originality of design—nowhere else is price for quality and style so low.

Dade and Finlayson Will Probably Play on Saturday

Mr. Allan Cameron, of the Montreals, returned this morning from Ottawa, where he met the Capital executive with a view to securing their consent to the Montreals playing Dade and Finlayson against the Caps on Saturday.

In conversation with The Herald, Mr. Cameron said that the situation had been discussed very thoroughly last evening and he believed that the Caps would agree to the playing of the two men. A majority of the Caps' executive were in favor of agreeing to this as the only course consistent with their previous attitude.

A meeting of the executive will be held to-night and an answer will be forwarded to the Montreal club to-morrow.

Another official of the Montreals told The Herald to-day that Dade and Finlayson would be in their line-up on Saturday, and said further that neither one was receiving a dollar for their services, either for this game or at any time during the season. He expressed himself confident that the Capital executive would follow a sportsmanlike course in the matter.

OTTAWA PAPERS FAIL TO AGREE

As to Attitude of Capitals Re Finlayson and Dade.

The Ottawa Journal said in yesterday's issue:—

"The Capital lacrosse executive is disgusted with the lack of backbone displayed by the Montreal club in not playing Dade and Finlayson Saturday against Cornwall.

"The Montreal club was anxious to play the men, but were afraid they would have to battle alone, and they sent Mr. Wm. Bramley to Ottawa Friday to sound the Capitals as to the latter's position in the matter.

"The Capitals did not give an immediate answer, but held a meeting Saturday morning to advise the Montreal club to play the men and the Caps would uphold them.

"The Montrealers were notified to that effect, but after all the trouble taken they wilted at the last moment.

"The Capitals cannot understand this change of base as according to Mr. Bramley the Montreal club was extremely anxious to have the men in the line-up.

"It would seem they desire the benefit to their team without any of the risks.

The Capitals, on account of Saturday's action, will not likely allow Dade and Finlayson to play here, although they had previously decided to do so. They had sufficient experience last year in making the plunge and then being left alone to fight the battle."

WILL SUPPORT MONTREALS.

The Free Press says:—"The Capital Lacrosse Club executive will support Montreal in the playing of professionals. This decision was reached last Saturday in the conference of Wm. Bramley, the Montreal representative, and the Capital Lacrosse Club. The local management agreed to allow Dade and Finlayson to line up with the Montreal team next Saturday. It was intended to have the two pros play last Saturday at Montreal against Cornwall, but as all the M.A.A.A. members were not in line the Montreal club thought it better to wait for a week and try the scheme in the Capital-Montreal game.

"Just how the Shamrocks and other clubs of the N.A.L.U. will look upon Dade and Finlayson's appearance in a Montreal uniform, is an unknown quantity. The Montreal club will have the support of the Capitals, so there will be no kick coming from that quarter. But the next meeting of the N.A.L.U. will bring the subject to the fore again and the clubs opposed to the C.A.A.U.'s decision to permit professionals to play with or against amateurs, will no doubt put up a strenuous fight to override the ruling.

"McDonald, who was reported to have left town and retired from the game, will be in his old place in front of the flags next Saturday.

ALMONTE BEAT CARLETON PLACE.

Almonte, Ont., July 11.—(Special.)—The Almonte lacrosse team defeated the Carleton Place team, in the first league match of the season, on Saturday, by the decisive score of 8-2. There was a good attendance and the game, the patches, was ideal lacrosse, but a lengthy delay in the middle, owing to a dispute as to dropping a player or putting on a spare man, when Grant was injured, tended to take considerable interest out of the match. The score about indicates the play. The last quarter was well played, and the lacrosse good, although the home team netted several goals in an easy manner. The defence of the defeated team is good and their field appears superior to Almonte, but their home is not fast enough. Grant, one of their best defence players, was hit by the ball in the second quarter and retired. His absence was felt. The whole Almonte defence, but particularly Grey and Campbell, played a superb article of lacrosse. Mr. W. McKay, of Renfrew, was referee and penalized players right and left. The following were the teams:

Almonte—Greig, Torrence, Malone, Campbell, Scott, Grey, Horton, Kelly, Gullen, McGregor, Campbell and Voice.

Carleton Place—Kenny, De Renzy, Grant (replaced by Wilson), Penny, Penny, Robinson, Lee, Oliver, McLaren, Voice, Douglas and La Rose.

GOOD RACES TO BE HELD AT DELORIMIER PARK

To-day is the closing day for entries to be made for the July meeting of the Gentleman's Driving Club to be held at the Delorimier Park on the 18th, 19th, 20th, 21st and 22nd. All entries or enquiries should be made to Mr. E. P. Stevens, secretary, Delorimier Park, Montreal.

An early closing three-year-old trot for purse, value $300, to be trotted at the September meeting is worth special notice by sportsmen in the district. Entrance fee payable as follows: $5 on July 1st, $5 on August 1st and $5 on September 1st, when colts must be named. Five per cent. additional from winners.

August meeting:—22, 23, 24, 25, 26. Purses, $400 and $500.

September meeting:—26, 27, 28, 29, 30. All purses will be $500, except the free for all, which will be for $800.

The track at Delorimier Park is in rare condition and some fast times are expected to be put up by some of the horses engaged.

Everything is now in readiness for a record crowd, and the programme is as follows:

Tuesday, July 18.

2.17 pace and trot	$440 00
2.27 pace and trot	400 00
Wednesday, July 19.	
2.23 pace and trot	400 00
2.20 pace and trot	400 00
Thursday, July 20.	
2.13 pace and trot	300 00
2.29 pace and trot	300 00
Friday, July 21.	
2.20 pace and trot	300 00
2.25 pace and trot	300 00
Saturday, July 22.	
2.25 pace and trot	300 00
Free for all	400 00

Trotters allowed three seconds.

A bonus of $100 will be paid to the first horse that beats 2.12 in a race on this track.

Entries close July 11th, at 7 p.m.

Conditions—N. T. A. rules to govern. All races open to trotters and pacers, except the 2.24 trot and the 2.22 trot. Winner in each race to be awarded only one premium. Mile heats best three to five to harness. Five to enter four to start. Purses divided as follows: 50, 25, 15 and 10 per cent. Entrance in all classes to be five per cent. of purse, with five per cent. additional from winners. No conditional entry will be accepted.

SMOKE

The highest grade Cigar in Canada, **10c**

HARRIS, HARKNESS AND CO, MAKERS.

OTTAWA REPORTERS GOT A DUCKING SATURDAY

Ottawa, July 10.—(Special.)—The collapse of a platform and the precipitation of no less than thirty people into deep water was the most exciting feature of the northern division regatta of the C.C.A. on Saturday. Fortunately no drowning resulted.

The regatta was held by the Rideau Canoe Club, which recently constructed expensive headquarters on the shore of the canal just north of Lansdowne Park. Throngs of spectators crowded on to a platform at the water's edge, and just as the Britannia and Rideau war canoe crews were finishing a thrilling heat the platform gave way. Judge Boardman, Ald. Rosenthal, paddlers, spectators and newspaper men were floundering in the water in less time than it takes to tell it, and that many would perish seemed certain. Canoeists bravely jumped to the rescue of the imperilled ones, however, and all were pulled ashore in safety. Lady spectators screamed in terror when the mishap occurred and excitement reigned supreme. Despite the unpleasant accident the regatta was very successful.

BOATING CLUB AT VALLEYFIELD.

Valleyfield, Que., July 10.—(Special.)—The Valleyfield Boating Club held its first meeting for the 1905 season last Friday, July 7. The election of officers resulted as follows: Commodore, R. S. Joron, N.P.; vice-commodore, John Lowe, jr.; secretary, J. J. Marchand; treasurer, A. E. Follows; chairman of race committee, E. E. Clark; chairman of reception committee, Dr. Roy; chairman of hop committee, J. A. Chicoyne; chairman of press committee, C. T. Verner.

It was decided to organize the annual regatta for Aug. 12 next. Any yachtsman who desires to obtain supplementary information is hereby invited to correspond with the secretary, J. J. Marchand, Valleyfield.

R. ST. L. YACHT CLUB'S TRIAL RACES.

There will be trial races held to-day. The steamer St. Louis will leave Dorval on the arrival of the 9.30 train from Montreal, proceeding with the yachts in tow for Pointe Claire, off which place races will be held all day.

CARTIERVILLE BOATING CLUB.

Saturday night, Cartierville was the scene of a most enjoyable and spectacular event. The boys of the Cartierville Boating Club had fifty boats tastefully illuminated in the parade. Chinese lanterns, colored lights and and fantastic rigs dotted the water in all directions. A large crowd watched the scene from the club house veranda and the shore.

It is the intention of the club to celebrate the anniversary of its foundation by another and much more elaborate illuminated boat parade which will take place Thursday night, July 27. Prizes will be given to the best decorated boats.

SEVEN TO ONE SHOT WON AT BRIGHTON

New York, July 11.—Quorum, a 7 to 1 shot, won the Atlantic selling stakes, the feature of the card at Brighton Beach yesterday, winning in a hard drive by a head. The favorite, Guiding Star, was third. Nostrom was second, and made the pace to the final furlong, where Quorum shot ahead:

The fastest one mile and a furlong of the year was run in the fifth race, when Buttling came in a winner in 1.51 4-5, which is four-fifths of a second slower than the world's record, held by Bonnibert. Yankee Consul, at 1 to 3, was the only winning favorite, the other races going to second and third choices.

First race, selling, 1 1-16 miles—Jetsam, 4 to 1, won; Rubrio, 12 to 1 and 5 to 1, second; Masanillo, 18 to 5, third. Time, 1.47 2-5.

Second race, steeplechase, about 2 miles—Knight of Harlem, 4 to 1 and 6 to 5, won; Judgeful, 100 to 1 and 30 to 1, second; East Kelston, 100 to 1 and 30 to 1, third. Time, 4.31.

Third race, 5½ furlongs—Yankee Consul, 1 to 3 and out, won; Cassino, 12 to 1, second; La Solrier, 18 to 5 and 3 to 5, third. Time, 1.07.

Fourth race, Atlantic stakes, selling, 6 furlongs—Quorum, 7 to 1 and 7 to 5, won; Nostrom, 10 to 1 and 2 to 1, second; Guiding Star, even and 1 to 3, third. Time, 1.14 1-5.

Fifth race, 1¼ miles—Buttling, 113, W. Knapp, 6 to 1 and 2 to 1, won; Tyron, 6 to 1 and 2 to 1, second; Gamara, 6 to 1 and 2 to 1, third. Time, 1.51 4-5.

Sixth race, 6 furlongs—Idle Dream, 3 to 1 and even, won; My Buela, 8 to 1 and 7 to 10, second; Grand Duchess, 7 to 2 and 6 to 5, third. Time, 1.14 2-5.

RESULTS AT BUFFALO.

Buffalo, N.Y., July 11.—Ora Viva, Quisdote, President, Dr. Tulane and Royal Window were the winning favorites at Kenilworth Park yesterday. Follow On, in the steeplechase, easily defeated St. Jolly and Butter Ladle, who were the red hot favorites, and coupled in the betting.

First race, one mile—Ora Viva, 5 to 2, won; Crestfallen, 6 to 1, second; Redlight, 6 to 1, third. Time, 1.40 2-5.

Second race, ⅛ mile—Quixute, 112, 7 to 5, won; Azure, 40 to 1, second; Buckle, 5 to 1, third. Time, 1.02.

Third race, 1 mile and 40 yards—Prince Tulane, 5 to 1, won; Don't Ask Me., 5 to 1, second; Lustig, 3 to 1, third. Time, 1.43 3-5.

Fourth race, 1 mile and 40 yards — Sir Ralph, 13 to 5, won; Bregg, 11 to 5, second; Loretta, 1 to 5, third. Time, 1.43 3-4.

NEW RACE-TRACK OPENED.

Alexandria, Ont., July 11. — (Special.) — About 2,000 people gathered at North Lancaster to take part in the opening of the new race-track at that place. North Lancaster could always boast of a fine crowd for sports, especially when horse-racing was the chief attraction. Perhaps no other part of Glengarry so favors the race-track. The new track is a good one, but perhaps a little too cramped, but this can be improved. Certainly the opening day was a success and reflected much credit upon President A. J. Macdonald and Vice-president St. Denis and the rest of the committee. During the heats a football match was played between North Lancaster and Lancaster Depot, in which the former came out ahead by two goals.

MAUPAS AND SILVA EACH WON A BOUT

Maupas and Silva had a lively wrestling session at Riverside Park last night, and finally broke even. There were two bouts, the first at catch-as-catch-can and the second at Graeco-Roman. Silva won the first on a crotch and scissors hold in 19 minutes 30 seconds; the second went to Maupas on a reversed waist hold, followed by a bar and then a wrist hold in 19 minutes 28 seconds.

This gives Silva a lead of one in the five bouts that have already taken place. Two more remain and they will be decided to-night at Riverside Park.

The park was crowded last night and the two bouts ranked as probably the most exciting wrestling events that have taken place in Montreal. Maupas was inclined to rough it up, although in this respect he received somewhat the worst of it himself, as he came out of the contest with a badly damaged eye. The men worked all the time, with first one and then the other on top and the advantages as evenly distributed as the result would indicate.

FOOTBALL

WALK-OVER FOR C.P.R. TEAM.

The C.P.R. met M.A.A.A. on the National grounds on Saturday in their return game in connection with the District League, M.A.A.A. turning up with only eight men. The men seemed to suffer from the extreme heat and brilliant play was not the order of the day, the C.P.R. gaining an easy victory of 6 goals to 0. Calder, for the M.A.A.A., was in dead earnest once or twice, making a couple of fine runs all by himself, only to come to grief on reaching the C.P.R. defence.

A good game is expected on Saturday next when the C.P.R. meet Outremont on Fletcher's Field at 4 o'clock. This is the return game with Outremont, C.P.R. defeating Outremont—1 to 0—on the Mascotte Park in the early part of the season.

COMMERCIAL BASEBALL LEAGUE.

C.P.R. easily defeated M.L.H. and P. on Saturday by a score of 9 to 16.

Score by innings.

M.L.H. and P.	2	0	1	0	0	0	0	3	6	7	5
C. P. R.	0	3	0	0	4	0	2	0	9	12	1

Batteries—Anctil, Rivest and Goselen, Ouilette and Durocher.

S. Davis and Sons defeated M. L. and M. by a score of 16 to 8 on Saturday. Score by innings.

M. L. and M.	1	1	1	0	0	2	0	0	3		
S. D. and S.	4	0	0	2	5	3	2	2	18		

Games Won Lost

M. L. H. and P.	6	5	1	888
S. D. and S.	6	4	2	666
M. L. and M.	6	2	4	333
C. P. R.	6	1	6	166

C. R. C., Lachine.—Earned runs are scored off the batting only, therefore stolen bases do not enter as factors therein. They are not computed in the official percentages. The earned run was dropped because the magnates thought it was a needless factor in scoring.

At Isle Gros Bois on Saturday a team from the Amherst Park Congregational Church defeated the Amherst Park Anglican football team, after an interesting contest, by a score of 3 to 1, the occasion being the latter's annual picnic.

The ladies of the Valois Boating Club will give a pink dominoe dance at the clubhouse at Lakeside this evening at 8.15 o'clock. Members of sister clubs are cordially invited to attend.

Mr. W. R. MacInnes, freight traffic manager of the C. P. R. returned Saturday from a two month's trip to Europe, where, accompanied by his wife and daughter, he went on business connected with his department. Although spending most of his time in England, Mr. MacInnes also paid visits to different points on the continent and everywhere he found conditions to be very normal.

London, Ont.,—A street car accident which resulted in the death of Fred Calhoun, of this city, occurred at the corner of Stanley Street and Wortley road. The following passengers were also slightly hurt: John Steveley, Mrs. (Dr.) Y. Cowen, Fred C. Robin, Hamilton, H. J. Judd, Jas. Smith, Claude Jarvis, Mr. and Mrs. Sheere.

Dr. Deimel (LINEN-MESH) Underwear

A great many people pay too much attention to their health and too little to their undergarments. Start right here, and your health will look after itself. The foundation of a healthful, comfortable and cleanly body is the Dr. Deimel Underwear. Begin wearing it now.

2202 St. Catherine Street

CATCHER GIBSON SOLD FOR $2,500

Former Montrealer Here Yesterday and Explained the Deal.

Gibson, the Montreal catcher, sold to Pittsburg, stopped off in the city yesterday on his way from Chicago to Brooklyn. He left last night to join the Pirates there. He said Barney Dreyfuss had paid $2,500 for his release. He received none of it himself but his salary was given quite a boost. According to Gibson, it was Bill Clancy who brought the attention of the Pittsburg management to him. President Dreyfuss and Manager Clarke came to Newark to see the Canadian boy play, with the result that negotiations were opened with Mr. Kreitner.

Speaking of Clancy, Gibson says that the big first baseman, although through with Pittsburg, said nothing about coming to Montreal. Pittsburg put Clancy on the market, and Columbus bought his release, but the former Montrealer is stubborn and refused to go. Brooklyn, of the National, and Detroit, of the American, both want him.

TO-DAY'S GAME.

Rain prevented yesterday's game with Providence, and there will be a game to-day, and a double-header to-morrow. To-day is Ladies' Day. Manager Dunn's aggregation of pennant seekers are playing rast ball, and are worth seeing. Dunn, of the cracked voice, and gingery manner is alone worth the price of admission.

RUBE KISSINGER ARRESTED.

In the eighth innings of a game at Rochester recently between Buffalo and Rochester, Rube Kissinger and Jimmy O'Brien were arrested for raising a disturbance in a public place, and taken from the grounds by the police. The players engaged in a fight on the home plate, and it took six policemen to keep them in check. Ten dollars bail was accepted from each at Police Headquarters. On the way to the station Kissinger and O'Brien shook hands in the patrol waggon and called it off.

HANS IS CHIEF SWATTER.

Hans Wagner, the pride of Pittsburg, still retains his grip on first place, the latest figures shewing him leading the National League batsmen with the fine record of .375. Frank Chance, of Chicago, is second, with .364, and Hall, of Brooklyn, is third, with .356. Si Seymour, of Cincinnati, who was second a week ago, has fallen back to fourth place.

In the American League the pitchers still have the upper hand of the batters, only six men being in the .300 class, divided among the clubs as follows: Cleveland, 4; New York, 1, and Chicago, 1. Eddie McFarland maintains his position at the head of the list with a record of .323, Rhoades, of Cleveland, being second, with .318, and Lajoie third, with 3.17. Keeler fell off last week and now is fifth on the list with .303. Joe Yeager is hitting a little better than .200.

This is ladies' day.

A double-header to-morrow.

According to Gibson, Clancy might be induced to play here, but it would require some of Mr. Kreitner's "long green."

Clancy has batted this year at a .344 clip. Last season he ended up considerably over .300.

Providence has signed third baseman Morgan, who was captain of the Georgetown University team. He will replace Poland.

Outfielder Frisbie, once with Worcester in the Eastern League, later with the Bostons and New Yorks, of the National League, and afterward with the Colorado Springs and Des Moines clubs, has been made manager of the Burlington (Ia.) team.

Dutch Hartman is hitting the ball since joining the Birds.

Providence is certainly after that Eastern League pennant. The latest move toward that end is that of securing Pitcher Ambrose Puttman from the New York Americans. Puttman was with Providence last season, and made an enviable record. With this addition Providence has four former major league twirlers on its staff. They are Cronin, Poole, Joslyn and Puttman.

Hickman, who until recently played first base for Detroit, has joined the Washington team. Lachance is wanted to succeed him. Hickman ought to help Washington a whole lot with the stick and win many a game thereby. Washington will be his fourth abode in the American League.

Minneapolis has the lead in the American Association.

Arthur Irwin has purchased Pitcher Skopec from Newark.

George Winter has shot his batting percentage up to .286.

Mr. Kreitner's "I don't know anything about it" sometimes covers a multitude of mental reservations.—Buffalo News.

It is reported that there is serious dissension in the ranks of the New York Nationals, brought about by friction between Christy Mathewson and "Iron Man" McGinnity. Outwardly, at least, it does not interfere with the team's playing.

The report that Clarkson, of Jersey City, was going back to the Highlanders is untrue. Manager Murray, of the "Skeeters," said that Clarkson was the property of the Jersey City Club, and all the Griffins in the American League couldn't take him back.—New York Mail.

Fox, the catcher, who was signed last week, has not yet reported, though he is due to do so any day now.

Kreitner has his nat out for another good catcher, who will strengthen the team.

McCarthy is quite ill and will not be able to go on the slab for a week.

Chicago, July 11.—The fifteenth congress of the American Whist League opened at the Auditorium yesterday with the starting of play for the Brooklyn trophy, the first event. The Brooklyn trophy is for the auxiliary associations of the league, each of which is to be represented by twelve players. Play in the main event, the Hamilton trophy, which carries with it the national team of four championship, will start this afternoon.

A TREMENDOUS LOSS

Not only of time, but comfort, too, if you have a corn. Better try Putnam's Corn Extractor and cure the corn. Painless and sure; acts in twenty-four hours. Use only Putnam's—it's the best.

PROVIDENCE TEAM HARDEST HITTERS

Lead League in Batting and They Are Second in Fielding.

Comparative statistics of the Eastern League clubs show the Newarks to be the best fielding team in the league, while Providence not only far outranks the other clubs in team batting, but also ranks highest in slugging. The Sailors have made the fewest errors of any team, while only four clubs have had more chances. Providence and Rochester rank next in order to Newark in team fielding, Toronto is fourth, Baltimore and Buffalo are tied for fifth honors and Jersey City and Montreal share last place. Jersey City has made the most errors. However, Providence and Toronto have both had many chances in the field than the Skeeters. Toronto has made the most putouts and Newark is credited with the largest number of assists.

In team batting Providence has a clear lead of twenty-seven points over Baltimore, which is second, with Buffalo third. Jersey City has dropped to fifth place, while Rochester has jumped into fourth. Toronto, though ranking fifth in slugging, is but seventh in team batting. Montreal is a lamentably bad last, with an average of only .204, while Providence has the magnificent team average of .287. Providence has made the most runs, seventeen more than Jersey City, which excels Baltimore by a margin of five. Montreal has been at the bat the greatest number of times. Providence has made the most hits, with a grand total of 540, while Baltimore and Jersey City have each made more than 500. Providence has made 122 more safe hits than Montreal.

Toronto excels in sacrifice bunting, with Jersey City second and Newark third. Rochester ranks a very poor last in this department of the game. Jersey City has a clear lead in base-stealing, with Buffalo second by a margin of but two over Newark. The Providence Grays are far and away the best sluggers in the league, with a total base-hitting average of .375. Baltimore is second, and Buffalo and Jersey City, which are tied, and Toronto are closely bunched in that order. Providence has made the most singles and Baltimore is next best. Jersey City batters have the greatest number of two-baggers and home runs. Providence ranks second in the number of triples, and Jersey City likewise to four-sackers. The figures follow:—

TEAM FIELDING.

	G.G.	T.C.	P.C.	A.	E.	Av.
Newark	55	2,464	1,639	801	124	.950

OVERHEAD WIRES ARE DOOMED IF THE NEW BY-LAW IS CARRIED

Council Apparently Determined to Clear the Streets of Wires and Have the Fire Insurance Rates Reduced on That Account.

The City Council yesterday took the initial step toward the ultimate removal of all wires and poles in the city of Montreal—except those of the Montreal Street Railway—when Ald. L. A. Lapointe, chairman of the special committee on conduits moved that the conduit by-law be placed on the order of the day for its second and third reading, which was done. From all appearances the Council is in earnest in the matter, since the overhead wires, in the opinion of the fire underwriters constitute an objection to any lowering of the insurance rates.

This same by-law was before the City Council a year ago, and was then referred to the special committee, which met yesterday and referred the matter to the Council again. One year ago the idea was suggested, and much interest taken in the plan of having one huge civic tube in which all companies could rent space; permission to put down such an affair was not secured, and the plan dropped out of actual consideration.

A legal opinion, signed by the city attorneys, is attached to the by-law, saying that the city has absolute power to compel companies to put down their wires, with the exception of the Montreal Street Railway using the trolley system.

The chief clauses of the by-law are as under:

Sec. 1.—It is forbidden hereafter to place poles and to suspend wires along or across any street, alley and public place in the city of Montreal.

Sec. 2.—All poles already erected and all wires already suspended shall, within a delay of one year, to be computed from the date of the adoption of the present by-law, be removed and the said wires shall be placed in underground conduits.

Sec. 3.—The said underground conduits shall be constructed under the supervision of the City Surveyor, in the manner and in the places to be indicated by him.

Sec. 4.—No person shall open any street, alley and public place or make any excavation for the laying of underground conduits, without first obtaining a permit therefor from the City Surveyor, and every person who shall obtain such permit shall refill such excavation and replace all pavements and roadways of every character, in as good a condition as before the excavation, and keep the same in repair for one year after the same has been replaced or restored, and the time to be consumed in performing such work, together with the length of time that the trench or trenches may be open at any one time, shall also be determined and regulated by the said City Surveyor.

Sec. 5.—Should the city take advantage of such excavation to substitute another kind of pavement in any of the said streets, alleys or public places, in whole or in part, the said city shall recover from the persons making said excavation, an amount equal to the expenditure to which the latter would have been put, if the portion excavated by the said persons had simply been restored to its original condition.

Sec. 6.—The damages caused to person or property by reason of the removal of the poles or electric wires and also by reason of the construction, maintenance, repair or existence of underground conduits, shall be borne and paid by the person owning same.

Sec. 7.—Every person offending against any of the provisions of sections 1, 2, 3 and 4 of this by-law shall be liable to a fine with or without costs and in default of immediate payment of said fine with or without costs as the case may be, to an imprisonment, the amount of said fine and the term of said imprisonment to be fixed by the Recorder's Court, at its discretion, but such fine shall not exceed $40, and the imprisonment shall not be for a longer period than two calendar months, the said imprisonment, however, to cease at any time before the expiration of the term fixed by the said Recorder's Court upon payment of the said fine, or fine or costs, as the case may be, and if the infraction is continued, such continuance shall constitute a day by day a separate offence.

Sec. 8.—The word "person" shall also include any firm, company or corporation.

It will be remembered that the city a year ago asked authority of the Legislature to borrow money for the construction of conduits, which were to be leased to the companies using them. Authority was refused, but by the new by-law the companies are called on to bear the whole expense of the construction and maintenance of conduits.

LORD ROBERTS SAYS ARMY IS HOPELESS

Makes Urgent Appeal to the British Public to Awake to the Situation.

London, July 11.—Field Marshall Lord Roberts created a sensation in the House of Lords when in a lengthy and well considered speech he deliberately expressed his opinion as a practical soldier that the military force of Great Britain was inadequate, imperfectly trained, and totally unfit to uphold Great Britain as a first class power. Lord Roberts did not blame the Government, which he said was actuated by a national feeling, but he scathingly attacked the people of England, who, he said, showed no national feeling towards the military until danger arose. Lord Roberts said the lessons of the South African war had been forgotten and the armed forces of Great Britain were now as unprepared for war as when the South African trouble broke out. He declared emphatically that the choice lay between conscription or some practical system of universal training, and that only by such means would it be possible for Great Britain to possess armed forces organized and trained in the event of war.

The country had to deal with a question of infinitely great importance—the question of the life or death of the Empire—the issue of which depended upon Great Britain being ready to defend her eastern possessions, and at the same time take part in any affair nearer home, either of which necessitated the placing in the field of an army as large and efficient as that of any of the European countries, all of which might be regarded as nations of arms.

Lord Roberts appealed to the country to awake to its danger, and to take hold of the army as a great national issue on which the existence of Great Britain depended.

Waterman's Ideal Fountain Pen.

WHAT RAIN DOES.

It is often overlooked that rain has another very important function besides that of supplying water for the field, the stream, and the reservoir. It is a very powerful purifier of the air, and its cleansing effect is very marked on the atmosphere of cities and towns and manufacturing districts.—Lancet.

Ireland's Fortune in Peat.

Some account is given in the World's Work of the new process which is to be applied to Irish bogs and the immense possibilities which the discovery of a substitute for coal in abundance may have. Experts, we are told, calculate that Irish bogs are capable of turning out 50,000,000 tons of fuel per year for a thousand years, and if this were sold at the moderate figure of 5s a ton it would bring in £12,500,000 a year. When this usum is multiplied by a thousand it will be seen that Ireland is richer in undeveloped resources than is sometimes imagined. It is claimed for the new fuel that it is practically smokeless, that it has no clinker or cinder, deteriorate but little by keeping, does not crumble by handling, and has a high calorific.

As to the extent of the Irish bogs it is pointed out that they are almost as great as those of the whole German Empire, and while the depth of the European bog is from 9ft. to 20ft., Irish bogs are often 40ft. in depth, the average being 25ft. Calculating on the basis that the average depth of the Irish bogs is 15ft., Sir R. H. Sankey has come to the conclusion that each acre contains 18,231 tons of peat-stuff, capable of giving 100,000 horse-power for 1,250 years. The prospect of exhausting Irish bogs is very remote. Indeed, Ireland's outlook is much better than England's, if we have regard to the present output of coal.

A friend tells of a recent visit a Senator made to church with one of his grandchildren. The little fellow tried several times to talk, but was always told he could not talk in church.

"Then, grandpa," he begged, "please take off my shoes and let me move my toes."—Lippincott's Magazine.

Dora Wilson, twenty-six years of age died at the gaol Sunday of meningitis. She had been arrested on Wednesday for vagrancy and was awaiting her trial on the 12th of this month.

STOCKS AND MONEY.

Montreal Street Scores Advance; Detroit and Dom. Iron Weaker

The market developed a decidedly irregular tone to-day. Some of the local stocks were stronger but there was also considerable selling in other stocks that brought about slightly lower prices. Montreal Street had another of its periodical advances and after 400 shares had been traded in at 224, the price advanced to 224 3-4. The last sale was at 224. For some little time past there has been a slight upward movement in the stock about a couple of times a week.

In some quarters it is claimed that the buying is for investment account on the belief that once the present construction work is completed the company's earnings will show big increases. Dominion Coal held its recent advance very well and sold 82, certainly a fairly high price for a non-dividend stock.

Detroit United and Dominion Iron common, the two stocks that have shown the greatest signs of speculation were among the weaker stocks.

Detroit opened at 94 and on sales of close to 1,400 shares declined to 93 1-2. The stock was fairly well taken when offered. There was also a good deal of selling of Dominion Iron common and most of the sales were from 23 1-2 to 23 5-8. How easily the stock sells off when any weakness develops indicates that there has likely been a good deal of manipulation about the recent advance. Dominion Iron preferred was also weaker selling at 70 at the close as compared with 72 yesterday. The directors of the company met at the offices of the National Trust Company to-day and made arrangements for the holding of the annual meeting. While confident very few of the directors are inclined to be optimistic.

Montreal Power sold 91 1-2 to 91 3-4, War Eagle 19 1-2. The Havana stocks were slightly lower, the preferred selling at 65 1-2.

Local Gossip

Sales on curb were 50 Mexican Common at 61 1-2; 10 Sovereign Bank at 131.

CANADIAN GROUP IN WALL STREET.

Sales of Canadian group on Wall Street to noon were:

		High.	Low.

Wall Street Market

Wall Street.—Noon.—There were some scattering gains shown by the opening prices in the stock market, but most of the important stocks were lower. Metropolitan Street Railway fell 7-8 and Union Pacific and United States Steel pfd., 3-4. The dealings were on a moderate scale. Morning prices were:

Amalgamated Copper, 84; Atchison, 85 1-8; B. & O., 113 1-4; Brooklyn Transit, 71; Can. Pac., 152 1-4; Erie, 47; do. first pfd., 82 3-4; Mo. P., 99 1-2; Norfolk & Western, 85; Northern Pacific, 190 1-4; Ont. & Western, 52 1-2; Pennsylvania, 142 1-2; Reading, 106 7-8; R. I., 31 3-4; St. Paul, 179; Southern Railway, 33 5-8; Southern Pacific, 64 3-8; Union Pacific, 129; U. S. Steel, 34 7-8 to 34 5-8; do. pfd., 101 7-8.

WALL STREET GOSSIP.

Northern Securities sold 167 7-8 to 169.

J. S. Bache & Co.—Noon.—Professionals rather bearish as short interest had covered. Morgan following in London is apathetic towards steels. Reading looked like distribution. Prices generally sagged under profit taking and covering of stop orders. Hollister & Gates sold Union Pacific. The reaction looks healthy. It may go further.

E. & C. Randolph.—The Steel stocks, which were so strong yesterday, sold off about as easily as anything else to-day. The market ought to have a rally from this sharp slump, but I believe that the tendency has changed and that the market is now on the down grade. We therefore believe in selling the active stocks on rallies.

"Street" Gossip.

Would Abolish Government Reports

New York, July 11.—(Special.)—Definite action looking to the discontinuance of all crop reports by the Government has been taken in this city by cotton and grain brokers and other business men interested which bids fair soon to spread to all parts of the country. The strongest opponents of the present system are to be found in the ranks of the cotton men, "bulls" and "bears" and spinners' representatives alike expressing the opinion that at best the Government reports are only estimates, and that they are of no real benefit to the farmers of the country. They are of value only to a certain class of speculators, and so many and so great are the temptations thrown about those who are engaged in collecting and preparing the reports that, despite all precautions, it seems impossible to prevent their being "doctored," or at least fairly accurate advance information being handed out to a favored few. This, they say, is especially true of the cotton report.

U.S. View of Mr. Fielding's Action Regarding Silver

Washington, July 11.—Considerable interest has been aroused at the Treasury Department by a despatch received here to the efefct that the statement of the Canadian Minister of Finance, published last week, contained an announcement that an arrangement is to be made with the Canadian banks to deport American silver because United States banks cannot take Canadian silver at par.

Some Treasury officials look at the matter in a serious light. Rumors of concerted action along the line indicated have been received here in the past, and these officials think this is simply one minor feature in the campaign of retaliation which is being planned by Canadians along a number of lines. They do not blame the Canadians at all, for they say that this is merely a copy of our own action toward them. They are inclined to look for large receipts of silver and minor coin issues by this country for redemption at the sub-treasuries. Probably none will come to Washington, they say, but will be taken care of in financial centres under department circular No. 32, Treasurer's office, 63, of the series of 1900.

Subscriptions for New Jap Loan Open To-Morrow

The Bank of Montreal will receive subscriptions for the new 4½ per cent. Japanese loan. The total amount of this loan, which is the second series, is £30,000,000, of which £10,000,000 has been taken by Kuhn, Loeb & Co., of New York, and is offered in the United States by that banking house, while the Bank of Montreal will look after the issue in Canada. It will be remembered that the last issue of Japanese bonds was very popular in this country, the amount at the disposal of the Bank of Montreal being greatly oversubscribed, and there is every indication that the new issue will be equally popular with the Canadian investing public. The bonds are similar to the previous issue, and are secured both as to principal and interest by a charge upon the annual net revenue of the Japanese Government tobacco monopoly, subject only to the charge in favor of the prior loan of £30,000,000. The estimated revenue of the fiscal year 1905-6 from this source is equal to £3,267,796, which is more than five per cent. upon the two series of bonds. The semi-annual interest upon the bonds is payable Jan. 10 and July 10 of each year in London, New York and Berlin, at the fixed exchange of $4.87 per pound sterling in New York. The offering price is 87½ per cent. and accrued interest. New York Stock Exchange usage, which is the approximate parity of the London issue price.

The subscription list will be opened on Wednesday morning, July 12, and will be closed on or before July 17. Subscriptions should be made on forms obtained from the Bank of Montreal, and must be accompanied by a deposit of $25 for each £100 of bonds subscribed for. A second payment of $25 per £100 will be payable on August 3, under discount at the rate of 3 per cent. per annum.

MARKET REPORTS.

Rain in the West Has Retarded the Crops Somewhat

Messrs. Campbell, McLean & Co., of Winnipeg, in a recent crop report, say:

"Crop conditions are not quite so good as they were two weeks ago in our West. There has been too much rain almost everywhere, and on the lower lands, especially in the Red River Valley, crops have suffered somewhat. In our report two weeks ago we stated that here about 5 per cent. of the wheat crop was lost or killed. We now think it runs 8 per cent. in the Red River Valley, and where the rain has done damage the weeds are bad. Throughout Manitoba and the Territories the crops, on the whole, are fair to good, and in Alberta, especially in the southern part, they promise good to extra good and early. Some wheat will be harvested in Alberta in July and some in Manitoba early in August, but harvesting will not be general in Manitoba until late in August. The wheat on the higher lands everywhere promises good to extra good, but is at present a little late. Nearly all the land in our West is called high land. The cool weather during the last two weeks retarded the growth, but has been beneficial to a certain extent. Sunshine and heat just after excessive rain damage the grain, but when the water is off the ground they are just what the crop requires. Two weeks ago the conditions were about perfection, and the crop promised to be early, but the late cool weather has brought a change. There is more danger of frost damaging the late crop than an early one, and there is less danger of frost in a wet fall than there is a dry one. Even yet, plenty of sunshine and heat would give us a fairly early crop.

Bonsecours Market Prices

A large number of farmers were at the Bonsecours Market this morning with their waggon-loads of supplies. Business in all lines was fairly good and prices held pretty steady. Strawberries are rather scarce now and dealers were asking 11c a box. The demand for poultry was somewhat better than last week. Retail quotations were as follows:

Fruits.—Strawberries, 11c to 12c per box; apples, $3.60 to $7 per bbl.; bananas, $1 to $2.25 per bunch; lemons, $4 to $5 per $2.25 per bunch; lemons, $2.50 to $4.50 per box; California peaches, $1 to $1.25; plums, $1.50 to $2 per crate; Canadian cherries, 75c to $1.25, according to size; watermelons, 30c to 40c each.

Vegetables.—Potatoes, 60c to 75c per bag, new potatoes, 2c per lb.; radishes, 10c to 15c per dozen; spinach, 30c per basket; lettuces, 10c to 25c per dozen; cabbages, Montreal, 25c to 40 per doz.; spring onions, 3 bunches for 25c; onions, 2½c per lb.; turnips, $2 to $2.50 per bag; new carrots, 25c to 40c per doz. bunches; old carrots, 3c lb.; cauliflowers, 75c to $1.50 per doz.; string beans, green, 60c, wax, 60c per bushel; tomatoes, Tennessee, 30c basket; Canadian cucumbers, 25c per doz.; Canadian celery, 25c to 40c per doz.

Meats.—Sirloin roast, 15c to 18c; tenderloin roast, 12½c to 15c; rib roast, 12½c to 15c; corn beef, 12c to 12½c; briaket of corn beef, 8c to 10c; shoulder beef, 7c to 10c; salt tongues, 10c to 12½c; mutton, carcass, 8c to 9c; forequarter, 8c; hindquarter, 10c to 11c; veal, carcass, 8c to 10c; forequarter, 7c to 9c; hindquarter, 10 to 12½c; spring lamb, forequarter, 12½c; hindquarter, 15c to 18c.

Pork.—Roast, 14c; chops, 14c; fresh hams, 13c; salt pork 14c; sausages, 10c to 25c; hams, 16c; bacon, 16c; lard, $2.10 per pail.

Poultry.—Turkeys, 16c to 18c; fowls, 11c to pair; pigeons, 30 per pair; squabs, 40c to 45c per pair; new spring chickens, 60c to 90c.

Cheese, Butter and Eggs

The receipts of cheese this morning were 8,626 boxes. The market continues firm at 9 3-4c to 10c for Ontario and 9⅝c to 9 3-4c for Quebec.

The receipts of butter were 5,146 boxes. The market continues strong and a good demand is reported. Local dealers are quoting choicest creamery at 20½c to 20 3-4c and unsalted a cent higher.

The receipts of eggs were 457 cases. The market is quiet and steady at 15c to 15½c for straight receipts.

Wheat Markets

At the Chicago market this morning July options opened at 90⅛ and later were at 90⅜. September options opened at 87⅜ and later were at 87⅝. December options opened at 87 3-4 and later were at 87⅞.

At the Winnipeg market $1.07 was bid for July options at opening and later $1.07⅜ was bid. At opening 87 was bid for October options and later 87⅛ was bid and 87⅛ asked.

Wheat Inspection

Winnipeg, July 1.—Wheat inspections here to-day were as follows:—No. 1 northern, 12 cars; No. 2 northern, 60 cars; No. 3 northern, 19 cars; other grades, 19 cars; no grade, 1 car; total, 111 cars; same date last year, 187 cars.

To-day's Receipts

Leather, rolls	348	78	...
Rawhides	16	16	...
Tobacco, pkgs.	4	19	...

Country Produce

Beans.—There is no change in the market for beans, buying being to fill actual wants. Choice primes, $1.65 to $1.70 per bushel.

Honey.—Business in honey continues slow and the market is featureless. We quote: Extracted white clover honey, 7c to 7½c per lb. tin, and 6½c to 7c in 60-lb. tins; buckwheat honey, 6c to 6½c; and white clover comb, 13c to 13½c.

Maple Produce.—The demand for maple produce is very light and business is slow. Syrup, in 50-gallon kegs, 5½c to 6¼c per lb.; in tins, 60c to 65c per wine measure, and 30c to 75c per imperial, and Beauce sugar, 7½c to 9c per lb.

Hops.—There is no change in hops, for which the demand is still slow. Choice Canadians, 26c to 27c, and fair to good at 22c to 23c per lb.

Ashes.—The market for potash is quiet and steady. We quote as follows:—First sorts, $5.20 to $5.25; seconds, $4.70 to $4.75; and first pearls, $7.25 to $7.50 per 100 lb.

Grain, Flour, Hay

Grain.—The local grain situation is unchanged, business for export account being dull, as a result of the high prices ruling here. Oats are firm and the local demand is steady. Sales are made in car lots of No. 2 white at 50c, No. 3 white at 49c per bushel, ex store. Barley, 53c for No. 3, and 52c for No. 4 per bushel, ex store.

Flour.—The demand continues fair from local and country buyers and prices rule steady. We quote as follows—Manitoba spring wheat patents, $5.30 to $5.40; strong bakers, $5 to $5.10; winter wheat patents, $5.50; straight rollers, $5 to $5.15, and in bags, $2.45 to $2.50.

Millfeed.—There is a fair demand for shorts, but business in bran is slow. Prices: Manitoba bran, in bags, $16 to $17; shorts, $19 to $21 per ton; Ontario bran, in bulk, $15 to $16; shorts, $19 to $20; mouille, $21 to $24 per ton, as to quality.

Rolled Oats.—Business in rolled oats is quiet, demand being chiefly to fill actual wants, at $2.40 to $2.42½ per bag. Cornmeal is also quiet and steady at $1.35 to $1.45 per bag.

Hay.—The market for baled hay is unchanged, demand continuing fair. No. 1, $9 to $9.25; No. 2, $7.75 to $8.25; clover, mixed, $6.75 to $7.25; and pure clover, $6.50 to $6.75 per ton, in car lots.

Cheese Boards

Lindsay, Ont., July 11.—The Victoria County cheese board met here. 1,780 boxes were boarded, representing 15 factories. Mr. Fitzgerald, of Peterboro, bought five factories at 9 9-16c, and Mr. Flavelle, of Lindsay, ten factories at the same figure. The board adjourned to meet again July 24.

Sherbrooke, Que., July 11.—At the meeting of the butter and cheese board held here, saltless butter sold at 21¼c and 21½c, only seven lots were sold; cheese sold for 9¼c.

MONTREAL ART PRINTERS—HERALD JOB DEPARTMENT

£30,000,000
Imperial Japanese Government 4½% Sterling Loan,

Second Series. ***DUE JULY 10, 1925***

WITH OPTION TO THE IMPERIAL JAPANESE GOVERNMENT TO REDEEM ALL OR ANY PART ON OR AFTER JULY 10, 1910, UPON GIVING SIX MONTHS' NOTICE.

SECURED BY A CHARGE ON THE TOBACCO MONOPOLY REVENUES OF THE EMPIRE, AS STATED BELOW,

CREATED UNDER THE AUTHORITY OF IMPERIAL ORDINANCES NUMBERS 194 AND 195 OF HIS MAJESTY THE EMPEROR, BOTH PROMULGATED, JULY 8, 1905.

Coupon Bearer Bonds in the Denominations of £20, £100 and £200.

SEMI-ANNUAL INTEREST PAYABLE JANUARY 10TH AND JULY 10TH, AT THE OFFICE OF THE YOKOHAMA SPECIE BANK, LTD., IN LONDON, AT ITS AGENCY IN NEW YORK, AND THROUGH THE DEUTSCH-ASIATISCHE BANK, BERLIN.

PRINCIPAL AND INTEREST PAYABLE IN LONDON IN STERLING, IN NEW YORK IN UNITED STATES GOLD DOLLARS AT THE FIXED EXCHANGE OF $4.87 PER POUND STERLING AND IN GERMANY IN REICHSMARKS AT THE FIXED EXCHANGE OF MKS. 20.45 PER POUND STERLING.

Parr's Bank, Ltd., the Hongkong and Shanghai Banking Corporation and the Yokohama Specie Bank, Ltd., are authorized by the Imperial Japanese Government to issue the above £30,000,000 Bonds. Of this amount £10,000,000 is being offered for public subscription in London by the above-mentioned banks.

Under the authority of the Imperial Japanese Government £10,000,000 of this loan have been taken by Messrs. Kuhn, Loeb & Co., and under the same authority £10,000,000 of this loan have been taken and are being issued in Germany by the Bank fur Handel & Industrie, Berlin; Bayrische Hypotheken und Wechselbank, Munich; Messrs. Born & Busse, Messrs. Delbrueck, Leo & Co., Deutsch-Asiatische Bank, Deutsche Bank, Dresdner Bank, National Bank fur Deutschland, Berlin; Norddeutsche Bank in Hamburg; Messrs. Sol. Oppenheim, Jr. & Co., Cologne; A. Schaaffhausenscher Bankverein, Berlin; Mr. Jacob S. H. Stern, Frankfurt o-M, and Messrs. M. M. Warburg & Co., Hamburg. Subscriptions will also be received by appointed agents in Austria-Hungary, Holland, Belgium and Switzerland.

THE LONDON ISSUING BANKS MAKE THE FOLLOWING STATEMENTS IN THEIR PROSPECTUS WHICH HAS BEEN APPROVED BY KOREKIYO TAKAHASHI, ESQ., VICE-GOVERNOR OF THE BANK OF JAPAN, THE DULY AUTHORIZED SPECIAL FINANCIAL COMMISSIONER OF THE IMPERIAL JAPANESE GOVERNMENT:

"This Loan is repayable at par, July 10, 1925, but the Imperial Japanese Government reserves the right to redeem at par all or any of the bonds on or at any time after July 10, 1910, on giving six months' previous notice. Partial redemption to be effected by drawings, in the usual manner, at the office of the Yokohama Specie Bank, Ltd., London, and the New York Agency of the same bank, and in Germany at such agency or agencies as the Yokohama Specie Bank, Limited, shall determine under the instructions of the Imperial Japanese Government. The Loan is secured both as to principal and interest by a charge, limited to £30,000,000 and the interest thereon, upon the annual net revenues of the Imperial Japanese Government Tobacco Monopoly and subject only to the charge in favor of the prior Loan of £30,000,000. The Imperial Japanese Government has the exclusive right to control the cultivation and production of the leaf, and to purchase, import, manufacture and sell tobacco. It thus possesses the entire monopoly of the tobacco trade within the limits of the Japanese Empire. The estimated net revenue for the fiscal year 1905-06 from this source is 32,011,072 Yen, which at the exchange of two shillings and halfpenny per Yen is equal to £3,267,796 18s. 8d. The actual receipts for the first quarter have proved very satisfactory."

REFERRING TO THE ABOVE, THE UNDERSIGNED ARE AUTHORIZED BY THE IMPERIAL JAPANESE GOVERNMENT TO ISSUE THE ABOVE LOAN AND HEREBY OFFER FOR PUBLIC SUBSCRIPTION £10,000,000 OF THE ABOVE BONDS AT THE PRICE OF 87 5-8 PER CENT. AND ACCRUED INTEREST, NEW YORK STOCK EXCHANGE USAGE, WHICH IS THE APPROXIMATE PARITY OF THE LONDON ISSUE PRICE.

The subscription list will be opened at 10 A.M. on July 12, 1905, and will be closed on or before July 17, 1905. The undersigned reserve to themselves the right to close the subscription list at any time without notice and to reject any subscriptions and allot smaller amounts than applied for.

ALL SUBSCRIPTIONS, WHICH SHOULD BE MADE ON THE FORM WHICH CAN BE OBTAINED FROM THE UNDERSIGNED, ARE TO BE ACCOMPANIED BY A DEPOSIT OF $25 IN NEW YORK FUNDS PER £100 BOND.

If no allotment be made, the deposit will be returned in full, and if only a portion of the amount applied for be allotted, the balance of the deposit will be appropriated towards the amount due on August 3, 1905. If any further balance remains, such balance will be returned. Failure to pay any instalments at due dates, will render all previous payments liable to forfeiture.

The rate of exchange fixed by the Imperial Japanese Government at which principal and interest of the bonds are payable in New York is $4.87 per pound sterling, at which rate the New York issue price of 87⅝ per cent. and accrued interest, figuring $5 per pound sterling according to the usage of the New York Stock Exchange, is the approximate equivalent of the London issue price of £90 per cent. Payment for bonds allotted is to be made in New York funds as follows:

On application	$25.00	per £100 bond.
On August 3, 1905	25.00	per £100 bond.
On October 16, 1905	393.97	per £100 bond.
Total	$443.97	per £100 bond.

Temporary certificates to bearer will be delivered by the undersigned in exchange for allotment letters duly endorsed, upon payment of final instalment. A coupon for payment of the semi-annual interest due on January 10, 1906, will be attached to the temporary certificates.

Payment in full may be made on August 3, 1905, under discount at the rate of three per cent. per annum.

The bonds will be delivered by the undersigned in exchange for the temporary certificates as soon as practicable.

Subscriptions will also be received by the Bank of Montreal, Montreal; by the Old Colony Trust Company, Messrs. Kidder, Peabody & Co., and Messrs Lee, Higginson & Co., Boston; by the Fidelity Trust Company, the Girard Trust Company and Messrs. Sailer & Stevenson, Philadelphia; by the Illinois Trust and Savings Bank and the Merchants' Loan & Trust Company, Chicago; by Messrs. Francis Bro. & Co., and Messrs. A. G. Edwards & Sons, St. Louis; and by the Wells Fargo Nevada National Bank of San Francisco and the Anglo-Californian Bank, Ltd., San Francisco.

KUHN, LOEB & CO.,
William and Pine Streets.
NATIONAL CITY BANK,
52 Wall Street.
NATIONAL BANK OF COMMERCE IN N.Y.,
31 Nassau Street.

New York, July 11, 1905.

Referring to the above, the undersigned will receive subscriptions for the above loan.
BANK OF MONTREAL, Montreal.

THE ALTERATION DISCOUNT SALE

CLOSE SATURDAY'S DURING JULY AND AUGUST AT 1 OCLOCK

While it is true that we conduct a clearing sale at this season every year, it is equally true that discounts are rarely as decisive as those chronicled below. The cream of the stocks is practically being crowded out by the builders. Observe how they've encroached upon the quartees of the Dress Goods department. Probably familiar, too, with the frequent changing around in the basement, even though such has been accomplished without inconvenience to you. The store has changed in many ways within the past year or two, but many changes are due ere The Store of Satisfaction controls the entire block, stretching from University to Victoria Streets. Take a peep before you go away, plan a leisurely inspection when you return from the vacation at seashore or countryside. You'll need to plan immediate purchases of any item that interests you in the undernoted lists, though, for bargains, like time, wait for no man—or woman either.

WEATHER:—FAIR AND WARM.

Better Than the Values of the Past: The
Silk Dept's. Present Offerings

Investigate the undernoted available to-morrow:—

10 pieces white corded Wash Silks, with stripes of lace insertion, various choice designs. An ideal hot weather silk for blouses. These Silks have been sold as high as 50c yard. Special price for Wednesday only **31c**

10 pieces white Jap Silk, 27 inches wide, natural finish, all pure Silk—no sizing—fine even thread, heavy make, for summer dresses, waists, etc. Regular price 50c yard. Special price for Wednesday only **39c**

15 pieces Colored Peau de Soie, reversible, satin finish, high-class quality, range of popular shades: sky, turquoise, cardinal, old rose, rose pink, nile, myrtle, gray, fawn, etc. A serviceable Silk for linings, etc. Regular price 50c yard. Special price for Wednesday only **35c**

Dress Goods Dept. Most Affected

By the Building Operations

Dress Goods depend upon parades—display, to sell them. Building operations have sadly curtailed our opportunities in this particular, and maybe you'll have to ask to see many of the lines advertised, though all are here in ample supply. Certain it is that prices wouldn't be subject to such heavy discounts if it was not for the handicaps under which the department is laboring.

All Lines Affected—All Prices Both of Dress Goods and Wash Fabrics Changed

An immense sale starts to-morrow promptly at 8 a.m. Answer the question, whether it is of interest to you, only after reading these items:

54 in. plain Mohair Sicilienne, beautiful lustrous finish, perfect shades of navy, brown, green, black and cream. 59c quality. Wednesday so long as it lasts, per yard, nett **39c**

Balance of our 75c Silk Eolliennes, all nice summer shades, rich quality, very silky finish. Wednesday, per yard **59c**

The balance of those fine Waterproof Cravenette Cloths, made in dark gray, medium gray, olive and drab; good strong quality for ladies' raincoats, full 60 inches wide. On sale Wednesday at, yard, nett **79c**

$1.25 fine colored French Voile at, per yard **75c**

$1.25 fine colored Silk and Wool Crepe de Chine at, per yard **75c**

Seaside Summer Suitings

A lot of nice 54 in. Tweeds, in gray mixture, also broken check effects. On sale at **33 1-3** per cent. discount.

Wash Goods

Other sample lots at **$1.45** and **$1.95**.

Men's Negligee Shirts Most

Comfortable for Summer Wear

Men's Summer Negligee Shirts, detached cuffs, pleated bosoms, neat designs, light or dark colors; sizes 16 and 16 1-2 only. Regular prices 59c and 75c. On sale Wednesday at **33c**

Boys' fancy Negligee Shirts, with laundered cuffs attached, new patterns; sizes 12 to 14. Regular price 50c. To clear Wednesday at **35c**

Boys' black patent leather Belts, new Buster Brown style, nickel buckles. Regular 15c. Wednesday special **11c**

Remnant Sales are Frequent

ANOTHER ONE COMMENCES TO-MORROW.

Ve can't specify actual discounts under the present system of arrangement—specific price groups. If you care to figure them out, though, you'll notice the rate on many pieces as high as 75 per cent. Remnants—short, medium and reasonably long lengths. Usable lengths—shorter the piece the shorter the price.

Lot No. 1—Remnants of Muslins, Prints, Ginghams, Flannelettes, etc., **25c** per length.

Lot No. 2—Remnants of Dress Goods, Wash Fabrics, Flannels, Flannelettes, etc., **50c** per length.

Lot No. 3—Remnants of Lustres, Voiles, Suitings, Fancy Tweeds, Fancy Dress Muslins, Zephyrs, Prints, Ginghams, etc., **75c** pre length.

Lot No. 4—Fancy Dress Fabrics, Flannels, Linens and Wash Fabrics of all sorts at **$1.00** per length.

Lot No. 5—A gathering of all sorts of Dress Materials, Flannels and Flannelettes, Tweed, etc. Good lengths for skirts, children's dresses, etc., at **$1.50** per length.

Lot No. 6 contains all the best and select ends, and of the finest materials, also the largest pieces, from which you can surely select pieces suitable even for complete dresses. The price per length will be **$2.00 each** (worth up to $6.00 each).

50 Wrappers in a Package

Convenient for those who are frequently forwarding books or papers by mail. Sizes of the Wrappers vary—prices, too.

10 x 4 3-4 in., package, for..... **8c**
14 x 6 1-4 in., package, for.... **15c**
17 x 8 in., package, for..... **23c**

Wrappers with well gummed ends, smooth surface paper that the point of the pen will not be forever sticking into.

Above prices less a discount of 10 per cent.

Stamped Linens—Novelties

SPECIALLY PRICED WEDNESDAY.

Stamped White Linen Hats, with buttonhole border, and eyelet designs. Regular 85c, at..... **69c**

Stamped White Linen Lawn Corset Covers, with border all round, conventional or floral design, stamped in one piece. Regular 75c, at **49c**

$1.29 Bed Pillows, 79c

Bed Pillows, covered with heavy ticking, filled with a mixture of down and feathers. Regular price $1.29 pair. On sale Wednesday only **79c**

Flowers for 7c Wednesday

Practically every bunch of Artificial Flowers of this season's importations on sale at this humble figure to-morrow (Wednesday). A varying scale of values, ranging well beyond the dollar mark. So confident are we of an unprecedented response to this announcement that arrangements are perfected for the augmentation of the staff of saleslades.

Flowers of all fashionable descriptions are represented in this sale—all in good condition—all new this season.

Good offers, such as this, well deserve an 8 a.m. visit.

Hurry After These
Underpriced Washable Belts, Ladies

This is an event that will attract large audiences of shoppers—you'll see them coming in in large numbers as early as 8 a.m. That means unless you plan an early purchase, too, you're likely to be disappointed. The Belts are unusual value.

Worth 59c and 69c for 49c

In fact we've had to take similar Belts right out of our regular stock and reduce them to the latter figure or submit to being taunted as a store with two prices. We'd rather sacrifice profit than reputation.

Lateness in delivery caused the firm to whom they were consigned to refuse to accept them, so instead of returning them to the manufacturer, the agent gave them to The Store of Satisfaction's buyer at an undervalue valuation.

The lot consists of shirred Belts with white kid back, and washable Belts in white, pink, pale blue, brown and black. The very latest novelties as worn in New York to-day. Values 59c to 69c. Wednesday's price 43c

"A Suit Like the Last"

A Request Frequently Made to The Men's Clothing Dept. Now

"Why, like the last?" we have asked on numerous occasions. The response has invariably been: "The fit is comfortable, the quality so wearful, and the value excellent—haven't been able to secure this trinity of virtues elsewhere for an equal price." Needless to say we are pleased with the reputation our clothing has achieved, and promptly comply with such requests.

250 Tweed Suits, for men and young men, in six different patterns; heather mixtures, fancy checks, also in stripe fabrics; made in four button sacque style, good farmer satin lining. A1 business Suits. The regular price $8.00. Special, nett. **$5.95**

Hundreds of other Suits, better material—many different qualities of fabrics; finished in the up-to-date sacque style, best trimming throughout. Sizes from 33 to 44 inches chest measure. Prices **$8.50, $13.00, $15.00** to **$25.00**

LESS THE DISCOUNT.

The Advantageous Offers In
Ladies' Shirtwaist Suits Continue

There'll practically be no cessation to this type of values until every one of this season's Shirtwaist Suits have passed into the possession of satisfied patrons.

Silk Shirtwaist Suits, in colors of black, navy, gray and brown; pleated blouse, full pleated skirt. From $15.00 to $20.00 values. Special at **$11.00**

Manufacturers' Sample Umbrellas

Cheaper Than Umbrellas Can Ordinarily be Bought For

Manufacturers' samples are, invariably, perfection personified. If there is any difference between such and those made up for regular stocks, it is that the former are better. No opening left for criticism—no flaw visible for a retailer to seize upon as a reason for withholding orders.

You can see how well these Umbrellas were bought by the low prices at which they are being sold:—

150 only Misses', Ladies' and Gentlemen's Umbrellas. The handles are natural wood, celluloid, German pearl, fancy and plain horn, Congo, oxidized, gun metal and German silver.

Ladies' black Mercerized Serge Umbrellas, worth 59c. Sale price **39c**
