LONDON, Oct. 16, EVE.

The Fenian alarm is spreading. The Government is in receipt of many despatches announcing the possible plans of the brotherhood. Troops and gunboats have been despatched to Ireland, and the entire western coast of that island is guarded with extraordinary vigilance.

The despatches received from Italy this evening are very important.

The entire press of Italy, almost without exception, favor the seizure of Rome by the Government. The strength of the party of action increases hourly. The recent successes have given them new courage. Sharp fights have occurred near Farenosi and Albino, as well as at other points in the Province of Viterbo, in all of which the Government has been successful.

The Pope has called an immediate meeting of cardinals to consider the situation. Councils still declining and closed at 9 3/4.

Coughs and Colds.

Sudden changes of climate are sources of Pulmonary, Bronchial, and Asthmatic Affections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease recourse should be at once had to "Brown's Bronchial Troches," or Lozenges. Few are aware of the importance of checking a cough, or "common cold," in its first stage. That which in the beginning would yield to a mild remedy, if neglected, soon attacks the Lungs "Brown's Bronchial Troches," or Cough Lozenges, allay irritation which induces coughing, having a direct influence on the affected parts. As there are imitations, be sure to obtain the genuine. Sold by all dealers in Medicine, at 25 cents a box.
