

KNOWLTON HOME IN RUINS AS RESULT OF EARLY MORNING FIRE

Fire Started in Furnace Room and Spread With Great Rapidity. Firemen Were Handicapped Through Fact That One of the Hydrants Was Frozen. Only Frame of Main Building Stands. Only Eight Children in Home, Large Band Expected This Week Not Having Yet Sailed. Partially Covered by Insurance. Exact Loss is Not Yet Determined.

Knowlton, Feb. 17.—(Special)—One of the most serious fires that has been experienced here broke out this morning in the Home for Boys and Girls. The result was that the building is now in ruins.

It was about 9 o'clock this morning when the fire was first observed, issuing from around the furnace room. The flames then had secured a good hold on the interior of the building. The firemen responded quickly, but when they arrived and attempted to turn the water on at one of the two hydrants in the vicinity it was found to be frozen.

FLAMES SPREAD RAPIDLY.

Realizing this serious handicap the firemen and others exerted themselves in an effort to get the flames under subjection, but without avail. Before the hydrant could be thawed so that a supply of water could be secured it was apparent that nothing could be done to save the building. The fire practically burned itself out in the main part of the building and only the framework stands.

At 11:30, when this despatch was filed, the fire was still burning in the wings, but it is believed to be under control there.

CONTENTS DESTROYED.

An effort was made to save the furniture and other valuables, but the most of it was burned or ruined by smoke and water. Nearly all the trunks were saved, and the members of the staff saved what money they

had in their rooms.

FEW CHILDREN IN HOME.

There were only eight children in the home this morning and they were got out without any trouble. A large band of children was expected the end of this week, but, fortunately, word was received that they had not yet sailed for Canada.

PARTIALLY INSURED.

The home building is believed to be only partially covered by insurance, although to what amount could not be definitely ascertained this forenoon.

THREE TIMES ATTACKED.

This is the third time that the home has been attacked by fire, the last time being last summer, but the loss this time is by far the greater.

MUCH DAMAGE BY WATER.

The fire was got under control about noon, but a detachment of the brigade has been left in case it should break out again. The furniture is completely ruined as well as a large quantity of clothing.

NOTES.

It is not known just what steps will be taken towards the rebuilding of the home.

The firemen christened their new uniforms at the fire. It is believed that if one of the hydrants had not been frozen the fire could not have secured such headway.

THREE LOST LIVES AT ELK LAKE FIRE

In Addition Three Others Were Very Seriously Injured

FIRE STARTED IN KITCHEN OF HOTEL AND FIREMEN HAD TO WORK IN A BLIZZARD.

Elk Lake, Ont., Feb. 17.—Another has been added to the lives lost in Saturday morning's fire at Elk Lake, when the Matanick Hotel and several other buildings were destroyed. The complete list of dead is: William Wilkinson, caretaker, Robert Stovey, Ed. Edofee, prospector, J. Ecker.

The injured are: Jos. Fletcher, Gowanda, burned on head and feet; Edward McClellan, Elk Lake, burned, feet frozen, condition critical; Jack Fraser, Elk Lake, hip fractured.

The fire started about 3 o'clock Saturday morning in the kitchen of the Matanick Hotel and spread over a considerable distance before it was discovered. A blizzard was in progress and the wind fanned the flames until the hotel was completely destroyed, and the Hudson Bay Company's store, J. R. Booth's office, the fire hall, the Gowanda Trading Company's store, Land & Jordan's, Wilson's barber shop and three other small stores are burned. The loss is \$100,000.

Owing to the high rates there was but \$40,000 insurance on all of the buildings destroyed and \$10,000 of this was on the hotel. The fire was more severe by the blizzard and bitter cold, which those escaping from the hotel in their nightclothes were forced to endure.

ANXIOUS ABOUT THEIR RELATIVES

Sherbrooke Residents Have Relatives in Mexico

TELEGRAM ANNOUNCED THAT MRS. T. BURNS AND MISS JOHNSTON ARE SAFE.

Much anxiety has been felt by the relatives in Sherbrooke (mother and sisters) of Miss Gertrude Johnston and Mrs. T. Burns, who are living at present in Mexico, but their fears were somewhat relieved Saturday by the receipt of a telegram from Mr. Burns, saying that he, his wife and child, who are at Orizaba, 100 miles from the capital, are safe, the disturbance not being in their vicinity. Miss Gertrude Johnston, however, who is superintendent of the Mexican Hospital in Mexico City, must have been in great danger during the shelling of the place, but happily escaped. The hospital is doing Red Cross work in caring for the wounded. It is hoped now that hostilities will cease.

Mrs. Jack Morkill endeavored to send a reply to the message, asking to be kept advised of the state of affairs, but was told that no telegrams could be got through either by the G. N. W. or C. P. R. lines.

LORD METHUEN IS MENTIONED

Spoken of as the Next Governor-General of Canada

DUKE OF CONNAUGHT MAY RESIGN OWING TO ILLNESS OF DUCHESS.

London, Feb. 17.—Lord Methuen is now mentioned as the next Governor-General of Canada in succession to the Duke of Connaught, who may be compelled to resign owing to the poor health of the Duchess of Connaught. His Royal Highness has been granted leave of absence to come home with Her Royal Highness, whose health it is hoped will be restored, but if she does not recover sufficiently His Royal Highness, it is believed, will not return to Canada. As a soldier and administrator, Lord Methuen is known as one of the most varied as well as one of the most distinguished to be found in the Army List, and it is strange to note that while he has served a great part of his life abroad he has seen no Indian service.

METHODISTS TO INCORPORATE

STRUCK BY TRAIN ON THE C.P.R. TRACK

Man Named Desruisseau Had a Close Call When He Left the Main Road

ESCAPED WITH BAD GASH ON FACE BUT IS ABLE TO LEAVE HOSPITAL.

A man named Desruisseau was driving along the Lennoxville Road on Saturday and instead of keeping to the road took a turn to the right and went on the C.P.R. track. He was struck by a passing train and received a bad gash in the face.

He was put on to the train and brought to Sherbrooke, Dr. Ethier was called to attend him and he had him removed to the St. Vincent de Paul Hospital.

The man's horse was subsequently found and brought to No. 3 Police Station at 8 p.m., later on being taken to the Queen's Hotel stables. The man has so far recovered as to be able to leave the hospital.

GREEK FLAG NOW FLIES OVER CRETE

Powers Evacuate the Island Amid Great Demonstrations

LAST VESTAGE OF TURKISH SOVEREIGNTY HAS BEEN DESTROYED AS A RESULT.

London, Feb. 17.—The Island of Crete was finally evacuated by the protecting powers — Great Britain, Russia, France and Italy — Saturday, and the Greek flag was hoisted amid enthusiastic demonstrations by the Cretans. The British cruiser Yarmouth yesterday morning landed a detachment of bluejackets and marines in Suda Bay, and these men hauled down the flags of the powers which have flown since 1898, as well as that of Turkey, with full military honors. The flags were handed over to the consuls of the respective countries, that of Turkey being placed in charge of the German consulate.

HAD TO DRAW ICE ON WHEELS.

FAREWELL PARTY.

Abercorn, Feb. 17.—(Special)—A party of 30 gentlemen met at Mr. A. Jones, Abercorn House, on Tuesday evening to give Mr. A. G. Corliss, of Richmond, a farewell reception prior to his leaving for Detroit, Mich., to reside. Mr. Corliss has been for several years proprietor of the news stand in Richmond, which he has recently disposed of to E. J. Kendall, of that village. Refreshments were served by Mr. Jones and a very pleasant evening was passed by all present.

OLD COLOR SARGEANT DEAD.

Richford, Vt., Feb. 17.—(Special)—William Hagen, who died at his home in St. Armand, Que., Jan. 14, was born in 1812 and enlisted at St. Albans in 1861 in the 5th Vermont as a Corporal. He was in the color guard and was later promoted to color sergeant. He married in 1868 Miss Emily A. Rogers of Stanbridge, Que., with one daughter survives him. Since 1870 he had lived in the farm in St. Armand East. He was at his death and had been for several years, commander of March Post, G.A.R., Franklin, Vt. His death is mourned by a host of friends, neighbors and comrades, but his life and personality will be kept in honorable and loving memory.

As to comrade Hagen's military service, a silent but more eloquent testimonial than words of tongue or pen stands in the State House at Montpelier, the old battle flag of the 5th, "riddled by bullets and torn by shell." Let us remember the brave and faithful soldier and good man whose hands held the staff 50 years ago.

FUNERAL IRA L. COURSER.

NORTH TROY.

North Troy, Vt., Feb. 17.—(Special)—Funeral services for Ira L. Coursier, whose death occurred last Thursday, were held at his late home Saturday afternoon at one o'clock, Rev. Joseph C. Harrison officiating. The bearers were E. L. Powers, Pearl Powers, W. S. DuBois and Dr. A. W. DuBois. Interment was made in the North Troy cemetery. The deceased was 31 years of age and was a son of the late Levi M. Coursier. He is survived by his wife and three daughters and two sons; also his mother, Mrs. L. M. Coursier; two sisters, Mrs. Quincy Willey and Mrs. Jesse Honsinger, and two brothers, John and Clark Coursier. Mr. Coursier was a sober, industrious, honest young man. Much sympathy is expressed for the family in their bereavement. The late Mr. Coursier leaves many relatives and friends in Franklin Co. as well as in Sutton and Potton, Que.

VALENTINE SOCIAL AT SUTTON.

Sutton, Feb. 17.—(Special)—The Valentine social at the Methodist Church here Friday evening was a very successful affair. The lecture room of the church was tastefully decorated with red trimmings and the reception committee pinned a red heart on each person as they entered the room. About a dozen visitors from Cowansville were present and the principal item on the programme was a debate on the question: "Resolved that woman suffrage is desirable." The affirmative side was taken by the Rev. Mr. Brundage, Mr. Judson and Mr. McLean, of Cowansville, while the negative side was upheld by the Rev. Mr. Hayden, Mr. Frank Jenne and Mr. J. H. Smith. The whole question was well covered by the debaters in both a serious and a comic way, the decision being awarded to the visitors. It is to be hoped that more visits of this kind may be arranged between the two villages.

GOOD PRICES FOR MILK.

Freelighsburg, Feb. 17.—(Special)—The Freelighsburg Creamery paid \$1.58 per hundred lbs. milk last sale, which surpasses the neighboring creamery. In fact, they have paid a high price all winter. Mr. F. A. Ayer was appointed salesman for the coming year.

TICKET OFFICE BROKEN INTO.

Farnham, Feb. 17.—(Special)—The ticket office of the C.P.R. was broken into and \$45 stolen out of the cash drawer. The High Constable, Joseph Boisvert, expects to very soon have the guilty parties in Col. Hall's cold storage institute at Sweetsburg.

BOY BREAKS ARM.

Sutton, Feb. 17.—(Special)—Master Freddie Olmstead, son of Mr. F. A. Olmstead, broke both bones of his left arm near the wrist on Saturday about noon, while coasting down a hill on a "scooter." By some mischance the boy came in collision with a box. The two attending physicians had to put the boy under a strong opiate while attending the fracture.

BRIDGE RAISED AT RICEBURG.

Stanbridge East, Feb. 17.—(Special)—The work of raising the bridge at Riceburg is being completed for the present. Men are filling the approaches with stone, as the bridge is raised three feet higher than it was. In the summer the abutments will be finished with cement, that are raised to support the bridge. This will, no doubt, make the bridge safe from high water.

SAD DEATH OF ARTHUR HORNE.

EAST FARNHAM.

East Farnham, Feb. 17.—(Special)—Arthur Horne, about 14 years of age, and a son of Mr. and Mrs. Horne, died last evening from blood poisoning. He had been ill about three weeks. The funeral will be held to-morrow (Tuesday) at 1 o'clock to the Union Church at East Farnham. What makes the circumstances of his death more sad is that his mother is also seriously ill from blood poisoning and was removed to a Montreal hospital last night.

DISCUSSED SCHOOL CONSOLIDATION.

Granby, Feb. 17.—(Special)—Mr. J. C. Sutherland, inspector general of public schools in the province of Quebec, with the Rev. E. M. Taylor, held a meeting in the Town Hall and discussed the question of consolidating the district schools. At a subsequent meeting of the school commissioners there were present Robert Gerguson, in the chair; Messrs. W. H. Stevenson, J. W. Irwin and A. L. Coburn. No important business was transacted except the passing of a few bills for wood, etc.

TURK EXPEDITION, LED BY ENVER BEY, WAS A COMPLETE FAILURE

Matters With Turks now Going From Bad to Worse. Leader Narrowly Escaped With His Life in an Open Boat. Disheartened Men Are Crowded Wet and Hungry in Open Streets of Gallipoli. Attempt Made to Assassinate Young Turk Leader. Was Stabbed Seriously Several Times.

London, Feb. 17.—(Special)—Turkish soldiers last night attempted to huddle at Gallipoli, where they are unable to secure supplies. The Daily Chronicle correspondent reports the landing of 40,000 Greeks at Besika Bay, on the coast of Asia Minor, near the entrance to the Dardanelles. This report, however, is regarded as doubtful. It is given denial by the officers of the British warship Zealandia, which has just arrived at Constantinople.

The situation between Roumania and Bulgaria again has become serious. The negotiations at Sofia did not result in an agreement being reached on the points at issue.

Hakki Pasha, former grand vizier, has arrived in London. Secrecy is observed as to his mission, but there seems little reason to doubt that Turkey's military position is utterly hopeless and when the expected decisive battle is fought for the possession of Kureghah, in the Bulair district, a fresh attempt will be made to negotiate for peace.

Meanwhile the publication of the reply of the Russian emperor confirming the strained situation between Austria and Russia, together with the impossibility of arranging the differences between Roumania and Bulgaria, causes renewed anxiety in the European capitals.

A despatch to the Daily News from Constantinople declares that the grand vizier takes a despondent view of the situation. According to the correspondent, he is anxious for peace, but the Young Turk leaders are still jingoistic.

TURKEY IS HOPELESS.

London, February 17.—The Ottoman embassy has received official despatches confirming the report that the Montenegrins were routed in an attack February 13 against the Turks on the Heights Tarabosch and Birditza, dominating the fortress of Scutari.

Advices from Gallipoli indicate a general condition of disorganization among the Turkish troops. There is a lack of money and an insufficiency of officers and supplies, while political antagonisms among the officers have practically destroyed discipline. Stories are current of atrocities by both the Turks and Bulgarians in the district around Bulair.

ASSASSIN-TWIFER DESTROYED.

Sofia, February 17.—A Bulgarian battery and mining detachment have completely destroyed the Turkish battleship Assan-Twefik, which ran ashore February 11 at Karaburun, on the Black Sea coast. The Bulgarians have also sunk a Turkish transport with all hands off Chark-eul.

H. the Duke of Connaught, it was learned to-day, intends to sail for England at the end of next month or beginning of April, accompanying the Duchess, who goes there for special treatment. He will return in May. When Her Royal Highness will come back is contingent upon the condition of her health.

The two years of tenure of their Royal Highnesses at Government House expires next October, and it is not yet known or decided as to whether they will stay longer, though hope that they will remain for full term is generally expressed.

UNEASY FEELING GROWING OVER THE SCOTT TRAGEDY

London, Feb. 17.—With the sorrow felt throughout England at the death of Capt. Scott and his companions, there is mingled an uneasy feeling that the tragedy could have been avoided had somebody not blundered. Naturally enough, perhaps, this feeling has thus far found little or no public expression. England was stirred by the news which came at the beginning of the week as by no record of tragic adventure since the Franklin expedition in the middle of the last century. As the Spectator remarks:

"There is a peculiar quality in the experiences of polar discoverers to excite compassion—the fearful loneliness, the helplessness when disaster comes. The death of Scott and his companions brought a shock of personal grief into every home of the United Kingdom. He was the victim of a series of misfortunes which could not possibly have been provided against. Even a pessimist, trying to imagine all the setbacks that might happen, would hardly have convinced himself that ill-luck would really dog the footsteps of the party with such relentlessness."

It is only the reiteration of statements such as that quoted, and the very stress that is laid on the asser-

tion that every possible precaution was taken that one comes to see that at the bottom of it all lurks some fear that this glorious, but tragic, page in the history of British polar explanation might have been made glorious without being tragic. Nobody for a moment doubts the glory of it. Scott, Wilson and Bowers undoubtedly died like heroes, and it is believed they probably could have saved their own lives but for their unwillingness to abandon Petty Officer Evans in the first instance, and later Capt. Oates.

PRAISE ATKINSON.

London, Feb. 17.—A dispatch to the Daily Mail from Christchurch, N. Z., says:

"All the surviving members of Capt. Scott's expedition bitterly resent the suggestion that the dog driver, Demetri, and Cherry Garrard, who made the first relief journey toward the south, could have done any more than they did to save Scott and his comrades. 'All express the highest admiration for the work of Dr. Atkinson, who knowingly took enormous risks. Commander Evans asserts that absolutely nothing regarding the expedition has been held back.'"

FIERCE FIGHTING FOLLOWS SHORT ARMISTICE IN MEXICO CITY

Washington, Feb. 17.—(Special)—Two private despatches from President Madero to personal friends in Washington, received to-day, simply said he "expected definite results very soon."

Senator Cullom, chairman of the Senate Foreign Relations Committee, after a short talk with President Taft at the White House, declared he was still opposed to intervention and that there was practically no sentiment for it in the Senate.

REBELS CAPTURE TOWN.

Brownsville, Texas, Feb. 17.—(Special)—Without serious resistance, Matamoros, a Mexican town across the Rio Grande from Brownsville, passed into the hands of the rebels at five o'clock this morning. This is the second Texas border town to be occupied by the insurgents since the Diaz revolt, the other being Nuevo Laredo.

MADERO WILL NOT RESIGN.

Mexico City, Feb. 17.—Hostilities were resumed with fierceness in the Mexican capital yesterday, after a

truce which lasted only a few hours.

The armistice, signed at 2 o'clock Sunday morning by the representatives of both sides, agreeing to suspend operations for twenty-four hours, was broken before noon. Soon the sound of heavy cannonading and the whirl of machine guns announced the return of the Federal troops to their positions in front of the arsenal. It appeared as if the words of Madero and Diaz might prove prophetic and that this time the battle would be to a finish.

President Madero yesterday morning reiterated his refusal to comply with the suggestion of the senators that he resign. He declared that he was still able to dominate, and that, given time, he would crush the rebel forces.

General Diaz had not shown himself to be greatly in favor of the armistice, but consented to it out of respect for the efforts of the American ambassador and the ministers of the powers to bring about a cessation of hostilities until the foreigners and other non-combatants, still within the zone of the fighting, could be

ST. FRANCIS DISTRICT LOCAL HAPPENINGS

SAWYERVILLE
Mrs. Fred Brown is in Bury visiting relatives.

Mrs. Chas. Loveland entertained the Guild of St. Matthew's Church very pleasantly at her home in Maple Leaf. There was a good attendance of members as well as a number of visitors. The hostess served a delicious lunch at the close of the afternoon.

Miss L. Worby of Cookshire, guest of Mrs. D. McKee, last week; Miss Marguerite McCrae, from Salem where she spent several weeks.

The lantern lecture on "The Life of Christ" at the Mission Hall, on Thursday evening and at Handboro on Friday evening were both very well attended. The pictures were particularly clear and distinct. This week the subject of the lantern lecture will be "A Tour Through the Holy Land."

The Valentine Social given by the Young People's Circle at the home of Mrs. C. Baker was a splendid success in every way. Much credit is due to Miss C. Percival, Miss Farnsworth and Mrs. Baker for the ingenious programme prepared in strictly valentine fashion. It was entertaining indeed to see ten young men stitching up broken hearts, while the young ladies were looking on and composing comforting rhymes. Rev. D. Nicholson won a prize for the best stitching, while Miss C. Vessot of Stanstead won a prize for the best rhyme.

Much amusement was furnished in trying to solve the hieroglyphics on the wall, all of which were designed from persons in the locality, and in each young man finding the real name of his future wife. The first prize for the hieroglyphics was won by Miss Louisa Farnsworth. Among the variations of the evening was "The Light That Failed." Three hearty cheers were given Mr. and Mrs. Baker for their genial hospitality and to the Committee for their excellent programme. The proceeds, which amounted to \$4.85 will be devoted to Missions.

MARTINVILLE
A most enjoyable time was spent on Thursday evening by the members of Pioneer Council, No. 1 R. T. of T., and their friends, who met at the home of Mr. and Mrs. Duffy for a sugar social. The room was prettily decorated with colored streamers and bells. About 50 members and friends sat down to the tables to enjoy the good things provided, and the ladies on the committee were kept busy supplying hot sugar. Those assisting Mrs. Duffy in serving the sugar and refreshments were: Mesdames Colbie, Mayhew and Goudie, Miss Eve Groom and Miss Vernie Duffy. Tea was served by Mrs. Rollins assisted by Mr. Geo. Groom, Mr. Gavin Goudie attended to the sugar boiling. After supper a very good musical programme was rendered by the following friends: Dust and chorus, Temperance Bells, Mesdames Colbie and Rollins; recitation, Stop the Top, by Mrs. Goudie; action song, Misses Doris Colbie and Pearl Mayhew; solo, Mr. Bert Turner; recitation, Miss Dow; temperance address, Mr. Bert Turner; solo, Miss Carol Cass; reading, Miss Lillian Mayhew; solo, Mr. Bert Turner; recitations (2) Mr. Baltham. COWANSVILLE.

The mammoth boiler which Mr. Vilas is replacing his old one is now in position and the masons are rushing the brick work ahead with all possible haste, it is expected that it will be supplying steam by next week. This boiler was bought from the Jencks Machine Co., of Sherbrooke who have an expert on the ground directing the installation of it. It weighs over six tons and has a capacity of one hundred and fifty horse power. Mr. Vilas found it necessary to make this change as the output of his factory had increased to such an extent that the old boiler was no longer able to supply the power required.

Much interest is being shown in the horse races which are taking place on the ice track, on the river between the two bridges, and there is never any lack of enthusiastic spectators. A few of the prominent citizens who have been indulging in "The sport of Kings," are Messrs. T. R. Pickel, John Gibson, Louis Parsons, A. E. Ross, P. E. Haver, Jos. Bonnette and many others. A very enjoyable gathering of young people was held at the home of Mrs. Welch, St. Joseph street, on Friday evening, when about twenty-five young people met to bid farewell to two of their friends, Misses Beryl and Sarah Truax. Sincere regret is felt by all their friends that these two popular young ladies are leaving Farnham for a home in Montreal, but they carry with them the sincerest wishes for their future happiness in their new surroundings. Cards and music formed the leading amusements of the evening, with recitations from the Misses Truax. Dainty refreshments were served. Besides running an extra gang of men at night this spring, as this celebrated marble becomes known the Company are flooded with orders which keep the Superintendent, Mr. Henry Brown, busy devising ways and means to handle the business. He is equal to his task as he has had many years of experience in the marble business and is always improving the working of the quarry by some labor saving device. On his advice a side track was built from the C. P. R. to the quarry, new boilers were installed, a quarry No. 2 was bought with additional land and many other improvements to the plant that places it on a footing with plants of many years its senior. Mr. Brown discovered this quarry and from the time he took the first test core out he was confident of its value which goes to show that he is an expert on marble, and the company are fortunate in having a man of such knowledge where large capital is invested.

It is surprising to see the large blocks of marble weighing several tons coming out of the quarry at a depth of fifty-five feet. The marble is sound and the deeper down the better. The quarry has been in operation all winter and everything works like clockwork.

SIR JOHN SHERBROOKE CHAPTER.

The annual meeting of the Sir John Sherbrooke Chapter of the Imperial League of the Daughters of the Empire was held Saturday afternoon in the Y. W. C. A. reading room, under the presidency of the Regent, Mrs. H. A. Odell.

A letter to the Regent from the Honorary Secretary of the National Chapter urged the attendance at the Annual Meeting of the Order, which will be held in Winnipeg in May, of delegates from one, or all of the Sherbrooke Chapters. The subject of "National Health" is to be taken up at that meeting, as that is also the subject of the convention called by the Victoria League in London, in 1914, and promises to be very interesting.

A letter was also read from the Secretary of the National Chapter, regarding the establishment of Hostels throughout Canada for women coming from the motherland to make their homes in this country. The Regent was asked to place the matter before her Chapter, also to request the Secretary to forward a list of the names of the members, and account of the work that had been undertaken, and carried out, functions held, etc., in short anything and everything relating to the Chapter since its foundation, with photographs of the officers to be inserted in a special number of "Echoes," the organ of the D. O. E. called "Looking Backward."

The Regent spoke briefly, referring to the letters of the work done by the Sherbrooke Chapters, there was every reason to be proud, in procuring a nurse of the Victorian Order for the city, and providing for her salary and maintenance for two years, the community had been benefited greatly. New arrangements were about to be made, though the three Chapters had pledged themselves to continue the payment of quite a large sum to the fund. Other work along patriotic, and national lines might now be taken up, and a part of each meeting might be devoted to the study of current events in our own Country.

It might also be possible to have occasionally, addresses from men specially qualified to speak on subjects of interest to the women of Canada. A special celebration of "Patriotic

5 Years' Rheumatism
Really Cured

Your Case Isn't Likely to be Worse,
and Can Be Cured Quickly
by Nerviline.

Here Is The Proof

"After being an enthusiastic user of Nerviline for years, I feel it my duty to tell you personally what your wonderful preparation has done for me. I suffered torture from rheumatism and heart trouble, tried scores of so-called remedies, consulted for weeks and months with Toronto's most eminent physicians, but derived only slight benefit. A friend insisted on my using Nerviline, and to my surprise a vigorous rubbing of this powerful liniment eased the pains and reduced the stiffness in my joints. I continued to use Nerviline and was permanently cured. I am now perfectly well, and for three years have had no rheumatism at all. I know many families where no other medicine but Nerviline is kept—it is so useful in minor ailments like earache, toothache, neuralgia, coughs, colds, lumbago and sciatica. I call Nerviline my 'Life Guard', and urge all to try its merit." Dec. 17th, 118 Palmerston Avenue, Toronto.

The morning news was generally of an unfavorable nature and inclined continuation of fighting in Mexico City, the increased chances of a Firemen's strike, and renewed fears abroad regarding the difficulty between Austria and Russia, and the rumor that Mr. Morgan was seriously ill, under these influences the market started out well below Saturday's closing. The serious illness of Mr. Morgan was quickly contradicted and news in regard to the likelihood of a strike by the Firemen and Engineers seemed to take a rather more optimistic view of the outcome.

THE BALKAN WAR SONGS

Bulgaria and Serbia Particularly Have
Inspiring National Hymns

Like other patriotic hosts told of in story, Bulgarian soldiers march into battle to the tune and tramp of a national hymn which has the power of stirring up a tremendous enthusiasm among them. It is a simple tune, but one of the sort which has helped to make a great deal of history since the world began. Students of folk-song know little about Bulgarian music; the people in general know nothing. It is not long ago that a Prussian official charged with the duty of keeping all kinds of national music on tap for state functions in Berlin found himself at a loss for the national hymn of Bulgaria and some of its native music with which to show the customary courtesy to King (then Prince) Ferdinand. And when he succeeded in extricating himself from the dilemma at the eleventh hour he made the discovery that the royal representative of the Bulgars was but little interested in the songs and tunes of his "patented children." Bulgaria's national hymn was first sung in the Russian army in the war with Turkey. It was the tune to which the Shipka Pass was stemmed. It also has the kind of sentiment which fits it for the bayonet charges of which it is said to have been the inspiration, but save that it came into use in the Russo-Turkish War we know nothing of its origin. It may have been created by a popular poet and musician; but it rings as if it had simply grown—like the best of folk-songs.

Montenegro has a really stiff national air, "Onward! Onward!" (Ohamo, ohamo, za oga oha), and Serbia as devoted to its national hymn as the Frenchmen to their "Marseillaise." It is a fine bit of poetry and music, and it words are worth reproducing:

Servia, peaceful land of flow'rs,
Home of vines and leafy bow'rs,
Thou, the Danube's gentle daughter,
Rise, prepare for slaughter!
Foes are near! Will Servia cower?
Rise, and strike for freedom's dower;
Thou' no stately tow'rs have we,
Yet our land is fair and free!
Servians, quit the plough and tether,
One and all we'll fight together!
Foes are near! Will Servia cower?
Rise, and strike for freedom's dower!
Free are Slav and Duna's waves,
Shall then we be Turkish slaves?
Like Stefan, so famed in story,
We will lead to glory!
Foes are near! Will Servia cower?
Rise, and strike for freedom's dower!
Balkan vales, Moravian land,
Free shall be from tyrant's hand!
Servians, quit the plough and tether,
One and all we'll fight together!
Foes are near! Will Servia cower?
Rise, and strike for freedom's dower!

EFFECT OF FEAR

The Response of the Body When an
Emergency Arises

In a paper on the subject of fear and its effect upon the human body, prepared by Dr. G. W. Chle, a London physician, it is explained that under the influence of fear the organs of the body are divided sharply into two classes—those that are stimulated, and those whose work ceases temporarily. Under the first classification come nerve systems, which cause movement, the mechanism for raising the hair, the respiration, the sweat glands and, it is found, the thyroid gland and the adrenal gland.

On the other hand, the entire digestive functions are paralyzed. So far as we know, the organs stimulated increase the efficiency of the animal, either to fight or flight. The increased action of the muscles of the heart increases the efficiency of the circulation; the secretion of the adrenal gland causes a rise in the blood pressure; the increased activity of the thyroid gland causes an increased activity of the tissues, and the production of glycogen is a symptom that the body is preparing fresh supplies of energy, increased respiration is necessary to coordinate the supply of oxygen with this manufacture; even the sweat glands and dilated nostrils are playing their part. The digestive organs cannot help, they can only hinder; so the body does the best it can by shutting off the nervous current to them and saving the vital force which they would consume.

Thus, because fear first rose from injury, its phenomena are due to a stimulation of all the organs that add to efficiency in self-preservation, and a stoppage of those which are non-combatants. Fear takes many forms in civilized society, but nature has only one means of expressing it physically, and that does not alter.

\$25 FOR EVERY BABY
Australians Ridicule Commonwealth
Maternity Allowance

Press and public in Australia make fun of the Commonwealth Maternity Allowance Act, which provides for the payment of \$25 to every woman who gives birth to a child either in Australia or on board a ship proceeding from one port of the Commonwealth to another.

It has been calculated that if the \$25 were claimed for every baby born, for example, in the State of South Australia in a year, it would absorb more than half the State land tax. Fortunately for Australia's financial position there seems to be too much independence among the citizens of the Commonwealth for full advantage to be taken of the Act. Very few applications have been made for the bounty during the short time it has been in force.

LUCK OF THE LOTTERY

Woman Loses Ticket Which Proved
to be Winner—Was Returned

A tale of the lottery, with more than one stroke of luck in it, is reported from Milan. A ticket was bought, lost, found to be the lucky number, and after that restored to its owner. A woman named Gandolfi, living at Piacenza, was the purchaser. On the way home from the lottery office she lost her handbag and the ticket with it. Hurrying back she asked for a duplicate ticket of the same number, to cover her misfortune, and was given one. The draw showed her to have won some thousands of francs.

The strangest part of the story is that the person who found the bag and the first ticket was afraid to present the ticket when it was found to bear the winning number, and sent it back to the lawful owner. The finder, however, kept the bag as a souvenir.

QUEBEC CLUB
ROYALTY ENTERTAINED

Guests of the Sherbrooke
Snowshoe Club

ENJOYED DRIVE SATURDAY AFTERNOON. SUPPER AT
MAGOG HOUSE.

The members of the Quebec Snowshoe Club returned to the Ancient Capital last evening after having been the guests of the Sherbrooke Club for the week-end. During their stay in the city the visiting snowshoers were royally entertained by the Sherbrooke Club, who left nothing undone in their efforts to reciprocate the kind treatment they had themselves received from the visitors on the occasion of their visit to Quebec last year.

A number arrived on the noon train and were met at the station by President W. G. Cross and other members of the local club. After lunch a sleigh drive was enjoyed, the visitors being taken to Lennoxville and all over the city. They were accompanied by a number of the Sherbrooke boys, and all appeared to thoroughly enjoy the outing.

WITNESSED THE HOCKEY MATCH
In the evening the Quebec boys were the guests of the Sherbrooke Club at the stadium, where the St. Patricks of Quebec and Sherbrooke were playing the final game in the Interprovincial League. The visitors alternated with members of the Sherbrooke Club along the left side of the rink, and cheered their team on. When St. Patricks had a lead of three goals and time was almost up, the Quebec boys let loose. When the score changed to seven to six for Sherbrooke the situation changed and the local snowshoers belched forth.

THE BANQUET IN THE EVENING.

The banquet given the Quebec snowshoers in the Magog House on Saturday evening was a most pleasant affair. The Sherbrooke Snowshoe Club were the hosts. Mr. W. G. Cross, President of the local club, was in the chair. After full justice had been done to the good things provided by Miss Host Ingram the programme was proceeded with. The snowshoers are not great believers in after dinner speeches but what they lack here they make up in so far as a musical entertainment is concerned. Both the local club and the visitors helped to entertain the Company, and Mr. H. Pearson, of Montreal, was inimitable in the rendering of the sketches which he gave. He had to respond to many calls, and kindness in this respect was much appreciated as what he gave was worth listening to. The Quebec Club has several talented members and they gave several items that were good. The local members were also good.

Those who took part were as follows: Mr. H. Pearson, Montreal; J. Caselli, J. Mahoney, "Jimmie" Harrower, Jack Cassels and Possier, of Quebec; C. Johnston and A. Genge, Sherbrooke.

The gathering, which was a very enjoyable affair closed with cheers for the different clubs.

ENTERTAINED AT THE CLUB HOUSE.

Yesterday the visitors were entertained at the home of the Sherbrooke Club, where dinner was served. The afternoon was spent together, and about five o'clock the gathering broke up, the members of the Quebec Club returning to their hotel in time to catch the special train for Quebec.

The friendly visits between the Sherbrooke and Quebec Clubs are always looked forward to with a great deal of pleasure by the members of both organizations, and whether at Quebec or Sherbrooke an enjoyable time is always spent.

DINNER AT THE MAGOG HOUSE.

At seven o'clock on the arrival of the special train from Quebec, the curlers were entertained at dinner at the Magog House, where the local curlers, Mr. J. W. McKee, Vice-President of the Club, expressed the pleasure it gave local curlers to have the Quebec rinks in the City for a friendly match, and hoped that the Sherbrooke Club would pay an early visit to the ancient capital and play the Quebec Club.

Three rinks from the Quebec Curling Club accompanied the snowshoers and played friendly matches with the local curlers. In the afternoon a rink from the Sherbrooke Snowshoe Club, skippered by J. P. Watson, Jr., played a Quebec rink skippered by W. Lambton. The Quebec rink won by the comfortable margin of fourteen, the score being twenty to six.

In the evening two Quebec rinks arrived and played local rinks skippered by J. F. Kerr and J. W. McKee. Mr. McKee and Mr. Frank Stocking played a tie game, 12 to 12, but Mr. Kerr went down six against Mr. Grogan.

The rinks were as follows: Quebec C. E. Lillie, A. R. B. Lockhart, A. Veasey, Dr. Bradley, S. J. Grogan, R. H. Fletcher, W. Lambton, J. P. Watson, Skip—20 Skip—6.

EVENING MATCHES.

The rinks playing in the evening were the following: Sherbrooke C. E. Lillie, A. R. B. Lockhart, A. Veasey, Dr. Bradley, S. J. Grogan, R. H. Fletcher, W. Lambton, J. P. Watson, Skip—16 Skip—10.

SPORTING NEWS

SHERBROOKE 7;
ST. PATRICKS 6.

Locals Scored Four Goals
During Final Six
Minutes

ST. PATRICKS WERE LEADING
6 TO 3 SIX MINUTES BEFORE
TIME WAS CALLED.

With the score six to three against them and only six minutes to play, Sherbrooke made a whirlwind finish of Saturday's game and defeated St. Patricks, of Quebec, by a score of 7 to 6. The crowd was disgusted at the work of the team, and with 'the visitors leading by three goals things looked dark. A sudden cheer, however, showed that Baker had scored and the score was 6 to 4. A minute later Baker scored again and the crowd went wild.

The score was now 6 to 5 and the Sherbrooke players made a sweeping rush on the Quebec nets. Atto let loose and completely befuddled the visitors with his stickhandling. Working his way to the nets he slammed one past Deniers, tying the score. With two minutes to play Baker and his braves swooped up again and just before the gong sounded Baker scored the winning goal.

POOR EXHIBITION OF HOCKEY.

The game was ragged throughout. The Sherbrooke forwards started off well, but after fifteen minutes eased up and trusted to Skilton, Wiggett and Arguin to stop the Irishmen. Several times the St. Patricks' players swooped up the ice four abreast, leisurely followed by the Sherbrooke forwards. The failure to check back got on the nerves of the crowd and they yelled themselves hoarse trying to liven up the team. The St. Patricks' team played poor hockey, but one thing they did do was work. Their forwards checked back all the time.

SNOWSHOERS WITNESSED THE GAME.

The presence of a large number of Sherbrooke and Quebec snowshoers added variety to the performance. The Quebec snowshoers were the guests of the Sherbrooke Club at the match, occupying box seats. At half time they climbed over the railing and paraded on the ice, headed by the Union Jack. The band then started up and the spectators were treated to an exhibition of dancing and general rough house.

THE FIRST HALF.

St. Patricks drew first blood, on a fluke shot. The puck struck someone's skate away to the right of the nets, soared in the air and dropped in behind Arguin. Three minutes later Gordon Maguire, who, at this period, was putting up a great game, broke away down the wing and evened the score. A minute later Hudson scored on a long shot after an individual rush. For twelve minutes both teams struggled on until Baker finally tied the score, only to have Rooney place his team in the lead three minutes later.

SECOND HALF.

Forty seconds was all it took Baker to score the first goal of the second half. The hopes of the local team were brightened, only to fall back to zero when St. Patricks scored three in ten minutes. Six minutes left to play and St. Patricks three ahead made matters rather discouraging. The locals dug in, however, and as above stated, won the game by a score of 7 to 6.

MELBOURNE 4, KINGSBURY 0.

Melbourne, Feb. 17.—(Special)—A very interesting hockey match was played on the Kingsbury rink on Friday evening between the Kingsbury Srs. and the Melbourne boys, which resulted in a score of 4 to 0 in favor of the latter. The game was very fast and interesting, but became somewhat rough in the last period, heavy checking and slashing being much in evidence. W. Whitehouse in goal played a star game, making some remarkably fine stops. G. Ewing and C. Wallace showed up fine, making some fine rushes. The line-up was as follows:

MONTCALM CLUB
WAS ENTERTAINED

Guests of St. Francis
Snowshoe Club For
Week End

RETURNED TO QUEBEC LAST
NIGHT BY SPECIAL TRAIN

A jolly crowd of Quebec snowshoers invaded Sherbrooke, Saturday evening, when the Montcalm Club, of the Ancient Capital, with representatives from the Montargard and the Frontenac S.S. Clubs, of the same city, arrived by special train and were met at the station by their hosts, the St. Francis Club, East Sherbrooke, in full costume.

Amid a flourish of trumpets, the visitors were escorted to the East Sherbrooke House, their headquarters while in the city, where an appetizing supper was served. After supper the two clubs sallied forth on a round of visits to prominent members and officials, including His Hon. the Mayor, a member and patron of the St. Francis Club, Alderman Simonsau, President Biron and others, and were received everywhere with the greatest cordiality.

Sunday morning the two clubs, together with the Dollard Club, which had been specially invited to join them, marched in procession to the Church of St. Jean Baptiste, East Sherbrooke, two hundred strong. Arriving at the handsome church, which was decorated for the occasion, the following were conducted to the seats of honour, Mr. C. E. Therrien, M.P., Mayor Hebert, Mr. J. B. Duford, Hon. President St. Francis Club, Mr. Eugene Galibois, President Montcalm Club, Quebec, Mr. C. O. Biron, N.P., President St. Francis Club, and Mr. J. H. Laforce, President Dollard Club. High Mass was celebrated by the Rev. Alfred Chasse, Vicar of the Parish, and an address of welcome, expressed in the most cordial terms, by the Rev. J. A. Laporte, a special musical mass was rendered, Professor Cartier presiding at the organ, and the beautiful solo, "Panis Angelicus" was sung by Mr. Wilfrid Legare. The other soloists were Messrs. A. Pelletier, Oliver Archambault, Dr. Noel and others. The offertory was taken up by representatives of the three clubs and a special feature of the service was the "Royal Salute" by the combined bugle corps, which was given with fine effect for the first time in Sherbrooke.

At the conclusion of the Divine service the procession was formed and on reaching the City the Dollard Club was escorted home. Snowshoes were then assumed and the visitors and their hosts tramped to the chalet of the St. Francis Club where a magnificent banquet was served to which 135 sat down.

The arrangements were admirable, and the menu perfect, having been prepared by a competent chef, well known for his skill and excellent taste. Mr. C. O. Biron presided with the guests of honor on either hand, and after the viands, which included all the delicacies procurable at this season had been discussed and appreciated, toasts were in order. Many toasts were proposed and responded to with eloquence. Mr. Therrien, M.P., complimented the St. Francis Club on their splendid entertainment, which he said, was equal to any he had ever attended, and addresses were made by the Mayor, President Galibois, who expressed the cordial thanks of the Montcalm Club for the hospitable reception, President Biron, and others.

At five o'clock the visiting Club, with the exception of about fifteen who remained over till Monday morning, was escorted to the station and given a gay send off.

More Soldiers Needed

Major-General Bethune, speaking at the opening of a new riding school at Barbourne, Worcester, said they were told that the home army, as constituted at present, was sufficient to protect Britain from possible raids and the only remaining duty, to his mind, was to try and make the force as efficient as possible, and to keep up the numbers. The trouble was that enough men were not obtained. The Territorial Force was now 60,000 short, and they could not hope to secure the number until there was greater sympathy with the movement in the country. He thought it was a pity that officers, who called themselves "disgusted captains," should write to the newspapers and say that the Territorial Force was a fraud.

Why London Was Chosen

The proposal to hold the Turkish-Balkan peace negotiations in London appears to have emanated from the Porte, which, besides desiring that they should take place on some neutral ground, also wished to enjoy the advantages of Sir Edward Grey's advice.

The British Government agreed to the suggestion, and expressed gratification at the confidence shown by the belligerents. The Bulgarian Premier, M. Guehoff, was especially pleased at the choice of meeting place, and in the course of an interview said: "I spent my youth in England, and learned to love and admire the English people."

CAREFUL DRESSER IS KING GEORGE

But He Has Three Valets to Assist Him—Little Bothered About Visiting Tailor

King George has three valets—a chief and two assistant valets. The chief valet has been with his Majesty for the past twelve years. His duties are to superintend the care of the Royal wardrobes, to attend on the King in the Royal dressing-room and to take all instructions concerning the King's clothes which may be given him either directly by his Majesty or by one of the private secretaries.

His Majesty's clothes are kept in a large room adjoining the dressing-room. The walls of the room are lined with wardrobes which are divided into two sections—one section contains the King's uniforms, and the other his Majesty's ordinary morning, walking and evening suits of clothes.

Overnight, the chief valet is instructed regarding the uniforms, if any, and the suits of clothes which the King will require for wear the following day, and these are placed by the assistant valets in the Royal dressing-room. Before a suit or uniform is sent into the Royal dressing-room it is inspected by the chief valet, to see that it is properly brushed, ironed and ready for wear.

Makes Many Changes
The King, it may be noted, never wears the same suit two days running. As a rule, his Majesty would not wear the same suit oftener than once in the week, and when it had been worn about two dozen times it would be put out of the Royal wardrobes.

King George customarily rises at seven o'clock, when he takes a cup of coffee, which the chief valet brings him directly the King enters his dressing-room. His Majesty then has his bath, which is a very cold one, whilst the King is in his bath-room, the chief valet puts the links and studs into his Majesty's shirt, puts out an assortment of ties on the dressing-table, and places the boots or shoes the King intends to wear on a mahogany boot-stand, and then retires.

The King dresses himself without the aid of a valet, except when putting on a uniform, when the chief valet is generally in attendance. When the King travels, the chief valet superintends the packing of his Majesty's luggage, which is done by the assistant valets. A list of everything that is to be packed is made out by the chief valet, and on the arrival of the luggage at the King's destination the list is checked over by the chief valet, whilst the portmanteaus are being unpacked.

The King's chief valet is a well-educated and very well-informed man. He is a first-rate linguist, speaking French, German and Italian in addition to his native tongue, perfectly. He has travelled all over the world with the King, and is known and held in high esteem by all the great European monarchs, from whom he has received during their visits to England many tokens of their esteem.

Ordinary New Clothes
King George rarely or never tries on a suit of clothes, and seldom is seen by his sailors who have the honor of his Majesty's custom. When the King desires to order any new clothes he informs the chief valet of the fact, who gets patterns for the King's inspection.

When his Majesty has selected the patterns, the chief valet gives the order to the tailor, and the clothes, when ready for trying on, are fitted on a dummy figure of the King.

The chief valet inspects the suit when it is fitted on the model, and gives the tailor all the necessary directions concerning it. A suit is generally fitted on the model three times.

Boom on the Clyde
The leading Scotch industries are enjoying the greatest boom for years. Clyde shipbuilders have over sixty million dollars worth of British Naval work on hand, whilst the mercantile tonnage under construction in the Clyde yards exceeds three-quarters of a million tons.

USED WOODEN BULLETS

Turkish Soldiers Too Stupid to Recognize Manoeuvre Cartridges

New light is thrown on the rout of the Turkish troops in Macedonia by the discovery that, besides being badly organized and badly led, they were in great part provided with dummy cartridges and dummy bullets. Mr. William Le Queux found such bullets on the battlefield, and Mr. Frank Magee, another war correspondent, brought back to England from the battlefield of Kumanovo cases of these cartridges thrown away by the Turks in their flight before the Serbians. The cartridges were packed in clips of five, and had ordinary metal cases, while the wooden bullets were painted red. It is stated that the cartridges were supplied to Turkey by German firms. They were intended solely for the use in manoeuvres with the Turkish Mauser rifle and were labelled "wooden manoeuvre cartridges." By what means they came to be served out to soldiers facing the Serbian shells and bullets is unknown. Wooden bullets should be harmless at any distance over a few yards.

A remarkable yet simple enough explanation of these wooden bullets was supplied by Mr. Frederick A. Harrison, of the English firm of Maxime and Co.

"I don't know," he said, "whether there is some veiled suggestion in the report that these cartridges were made in Germany. As a matter of fact, they were only put together in Germany. My firm supplied not hundreds, but millions of these wooden bullets to Germany, as well as most other countries in Europe, from our factory. They are made to be used at manoeuvres only and were certainly introduced for that purpose into the Turkish army by the German instructors. Owing to the confusion of the war and the ignorance of the Turkish army store officials, some of this manoeuvre ammunition evidently was served out for use in the bullets was intended, of course, to distinguish the 'wood' from the real bullets, though the weight should have been a sufficient indication to any but the newest recruit."

AN ANCIENT DEPENDENCY

Mongolia has been administered after a fashion by China for about 400 years. Before that time, when the Russians had not as yet set their feet firm on Asian soil, the name of Mongolia was one to be dreaded. Mongols at times made their way as far east as Moscow and struck terror in the hearts of the Moscovites. The Seljuks, too, who overthrew the domination of the caliphate in Persia and gave to the rulers of Islam their greatest warriors were of Mongol blood. Thus the Turks are the cousins of the Mongols. There are countless Mongols scattered throughout the dominions of the czar and they engage in a sort of peddling business.

In Mongolia proper, the Chinese provinces, the chief occupation is cattle raising and it is estimated that there are close on 2,000,000 camels in the country and 500,000 oxen. Mongolia has been administered for some time past by a superintendent, who has headquarters at Pekin. It is known that Russia has had its eye on the country for some time and that the inhabitants are not enamored of the change of administration in Pekin.

THE HOLY GRAAL AND ITS HISTORY

Much Doubt as to the Authenticity of Legends Surrounding Supposed Priceless Cup

An interesting account appeared in a Paris paper of the Holy Graal, which is preserved in the Church of St. Lawrence at Genoa. It is a large green cup, presumably hexagonal which, according to popular belief, was used at the Last Supper, and was requisitioned at the Crucifixion. But it seems to have a history far older than that great event, and it is claimed for it that it was a present from the Queen of Sheba to King Solomon. At all events, it seems to have been in Genoa since 1101, when it was given by a knight who brought it from the Holy Land when he returned from the First Crusade. It formed part of the booty which fell into the hands of the Crusaders at the siege of Caesarea. For a long time up to 1476 it was not allowed to be touched, not even to adorn it with precious stones which the faithful were desirous of offering. This rigour, was not due to piety, but there was a fear among the citizens that should the cup be broken pilgrims would cease to visit Genoa.

The cup was at one time believed to have been cut from an enormous emerald. For a long time the vessel was kept in a steel box, and was taken out only once a year. Then it was lifted by silken cords, and placed by the Archbishop on the High Altar for veneration. After the fifteenth century, according to the chronicles of the day, many fetes were held in honor of the vessel, which attracted thousands of pilgrims, not only from Italy, but from other countries. La Condamine examined the cup, and he declared that it was of glass.

It was brought to Paris by Napoleon, who was persuaded of its intrinsic value. On being submitted to the Institute, La Condamine's view was upheld. But the verdict of the scientists was kept a profound secret. There were several reasons for this. It was thought that if the Genoese learned that it was only glass they would be less anxious to ransom it. By some means the secret ceased to be such, and in 1815 the Genoese got it back at pretty much their own price.

Wants to Fight a Lion

"I want to fight a lion or a tiger unarmed, single-handed. Without arms whatever. No big game hunter in the world can give an expert opinion about it, because he cannot possibly have the slightest idea of my style of fighting. I want no money for my feat, only the film with the reproduction of the encounter. The film shall remain the property of the man who finds the money if I cannot defeat my opponent, but I have not the slightest doubt about my complete success in the end."

This is part of a letter which reached a Paris newspaper from a correspondent who sent his name and address, and sought financial backing for his scheme. In a second letter the man said if he did not meet with the assistance he looked for he would fight a bull in an arena in Spain, Mexico or South America.

BUILT LIKE A BIRD

Another Step Towards Solving Problem of Successful Flight

The Etrich monoplane, of Austria make, stands out as one of the most remarkable designs of this class of aerial machine, and it represents a type that bids fair to be more permanent than many other models which from time to time have created sensation. The monoplane has fallen into disfavor with the military authorities in several countries as a consequence of an unfortunate series of accidents, which were debited rather unfairly to the machine without taking sufficient into account the variable human element.

Of the Etrich monoplane, it may be said that it is designed to remedy some of the defects which have been pointed out in monoplanes. Great strength and automatic stability to high degree are the two most notable features. It is birdlike in appearance and the wings are curious in that they are curved backwards and upwards at the ends. The tail is birdlike also. From tip to tip the machine measures no less than 48 feet, an enormous width for a monoplane. Its length is 37 feet.

The wings are the weakest part of the monoplane as a rule, and in the Etrich a very remarkable method of construction seeks to remedy this. Three main spars project from the central body, and the cross-ribs are secured to these and then covered with fabric. A cantilever bridge-like structure of steel tubing supports the main spars, and thus gives a degree of strength to the planes which enables them to be made of ample dimensions. The rear part of the plane is built up of bamboo ribs covered with fabric so as to form a flexible trailing edge. In this again there is a suggestion of bird formation being followed. The wing-tips are turned up at the rear and natural stability to a high degree is obtained thereby. The pilot sits in control of the wing-tips. The central body is made of steel tubing strongly braced and the front part covered with metal sheeting. The largest machine is a three-seater, and it has an engine of 120 horsepower. The Etrich monoplane is largely used in the Austrian army, and by its strength, power, and reliability, it seems peculiarly well adapted for naval and military work.

Britain's Best Customer

India today is the best British customer in the world. Of every hundred pounds' worth of British products and manufactures, she takes fourteen pounds ten shillings worth—or more than one-seventh. For the last fiscal year her purchases from the United Kingdom reached the vast total of nearly 265 million dollars, while those of Germany, the next best British customer, aggregated less than 200 million dollars. The value of the British manufactures and products exported to India far exceeds that of those exported to Canada and the United States combined.

Search for Welsh Antiquities

A number of archaeologists, including a Cambridge professor, are engaged in exploring the caves of Gower in search of antiquities. Their search has so far been rewarded by the discovery of many bones of prehistoric animals, similar to those discovered many years ago when the caves were last systematically explored.

THINK MISSING MAN IS IN SHERBROOKE.

A few days ago Chief Davidson received a telegram from Mr. S. B. Charest, of Manchester, N.H., asking if he could assist in locating his father, Raimond Charest, who had suddenly disappeared from that place and who, it was thought, had come to Sherbrooke. Chief Davidson immediately wired for the missing man's description and in reply received the following from last Friday's edition of the "Manchester Union."

"The following is the description of the missing man: A man of about 58 years, stands 5 feet 4 or 5 inches in height and weighs in the neighborhood of 140 to 145 pounds; wears a brown moustache and his hair is graying."

LETTERS TO THE EDITOR

PROPOSED STREET RAILWAY SHERBROOKE TO BROMPTONVILLE.

Editor Daily Record.

Dear Sir:—Kindly allow me space to give a (synopsis) explanation re the proposition made up by the Sherbrooke Street Railway Co. Guaranteeing to have railway in operation 12 months from date contract is signed. Hourly service 6 a.m. to 11.30 p.m. Fares, 25 cents return, 10 tickets \$1. Will purchase our lighting plant and give us 24 hours service flat rate 16 candles \$3.00 per year. We now pay for same \$3.55 for only 10 hours. This is a clear gain of \$365.50 which with interest on price offered for sale \$605.50 yearly with 24 hours service instead of 10 hours. Furthermore Co. will furnish power flat rate \$20 to \$28 per h.p. for any industry located here. They ask in return franchise street rights 25 years. Exemption taxes, 20 years, also we to guarantee 5 p.c. interest on 30 year bonds for actual cost of road, agreeing to pay us back soon as surplus is earned, all interest we might be called on to pay. As Township of Orford and Brompton has agreed to give filling and gravel free, same will reduce cost of road considerable. Our Council have advised the citizens they will frame a by-law according to propositions, same to be voted in due course. Should we not accept this generous and fair (including light plant) proposition, Co. agree they will build road when we have 3,000 population, no guaranteeing of bonds, therefore the direct question at issue is, can we afford to wait 12 or 15 years for the required population and let our many houses remain empty; also lose all the many beneficial advantages we would derive from this proposed Street Railway during this interim. I do not hesitate to state that undoubtedly the verdict of our citizens will be: No, we cannot afford to wait.

Yours truly,

FRED J. ALGER
Bromptonville, Feb. 12, 1913.

SULTAN'S AID TO QUIETEN FILIPINOS

Major Finley Leaves Washington on Special Mission to Constantinople

WILL ASK THAT HEAD OF MOHAMMEDAN RELIGION ISSUE A LETTER TO NATIVES TO SUBMIT.

Washington, Feb. 17.—The aid of the Sultan of Turkey in insuring peace in at least a section of the Philippines is at the suggestion of Major John P. Finley, U.S.A., who left here Saturday for Constantinople.

Major Finley goes as the special representative of the United States as well as a minister plenipotentiary from the 600,000 Mohammedan tribesmen. He will attempt to get from the Sultan, as leader of the Mohammedan religion, an open letter instructing the tribesmen to submit to United States sovereignty and pointing out to them that it will be to their advantage.

Major Finley, who for ten years was governor over the people of the southern provinces of the islands, will seek to have the Sultan assure the Muslims that their religion will be respected under American rule.

PRESENTATION TO MR. ROBERT GORDON.

On Friday evening the Queens' Hotel Dining Hall was the scene of a delightful and elaborate banquet tendered by the employees of the Jencks Machine Company, Foundry Department, on the occasion of the departure of their Superintendent, Mr. Robert Gordon, who is leaving to take a new position with the Canadian Machinery Corporation, at Galt, Ont.

About one hundred and twenty-five employees assembled around the tables, and in spite of their sorrow for the loss of their ideal foreman a very social evening was spent.

Mr. Saunders acted as Chairman, and gave a short address in which he mentioned that during his long career in the moulding profession he never had the pleasure of working with a foreman who was as conscientious a worker for his employers, as well as a friend to helper, apprentice and mechanic, and in conclusion wished every success, and health and prosperity in his new field of labor.

Mr. Thos. Coley acted as accompanist during the evening and rendered a few of his own compositions, which were very much enjoyed. He also responded to a number of encomres.

Mr. Frank Byrd on behalf of the employees of the foundry, read a short address, and presented Mr. Gordon with a beautiful gold watch, and asked him whenever he took it out to look at the time, to have kind recollections of his eight years stay in Sherbrooke.

Mr. Gordon, although taken by surprise, replied very suitably, and thanked his fellow workmen for their very useful gift, and kind remarks, and said he would never be able to forget any of his numerous friends in Sherbrooke.

Mr. Rolfe, on behalf of the core-makers, made a very witty and interesting speech, and said that if they had their way he would not be going to Galt, but would be going to Ottawa.

Mr. O. Audette lived up to his reputation as a soloist, and sang "Going Up" and also responded to two encores.

Mr. H. Bedard gave a cornet solo which was heartily enjoyed.

Mr. W. Legare, who was in fine voice, excelled himself, and as he had only brought two songs, found it necessary, in order to satisfy the constant appeals, to repeat them several times.

Two old Scotch ballads, rendered by Mr. Breckenridge, were very much applauded and enjoyed.

Mr. Gordon sang "Mary of Argyle" and received a mixture of applause and cheers.

Songs were also rendered by Mr. Glasgow and Mr. Huot, Mr. T. Acton gave a recitation, and speeches were made by Messrs. Rague, McMahon, Glasgow, Dunsmore, and members of the various foundries in town.

In conclusion Mr. Joe Miller gave a heart-to-heart talk and Mr. Desjardais referred to the duties of a man. The singing of "God Save the King" and "Auld Lang Syne" brought a happy but regretful gathering to a close.

FIERCE FIGHTING IN MEXICO CITY

(Continued from page 1)

removed to a position of comparative safety.

CUT OFF FROM WORLD.

The Government has not only shut the world off from Mexico City, but so far as the public are concerned has shut Mexico City off from the world, including the whole of the Mexican Republic. News despatches sent Saturday night from the United States to Mexico City were either refused or held up, the intention evidently being that the residents within the capital shall not be informed of the measures which have been undertaken by the American and other governments to protect their interests.

While Madero has been reiterating his declaration that conditions in Mexico outside of the capital are satisfactory, advices from various centres indicate that there have been important movements in favor of General Diaz.

Washington, Feb. 17.—(Special)—Only one despatch was received from U. S. Ambassador Wilson over night and up to 10.30 this morning. It was very brief and confirmed the last news despatch sent out of Mexico, saying that fighting had been resumed with breaking off of armistice.

POLITICS AND STAMPS

Innocent Little Stickers for Letters Have Caused Lots of Trouble

A piece of careless engraving led to the withdrawal from circulation, on political grounds, of two of the recently issued postage stamps bearing the likeness of King George in robes of state. Among the insignia worn by His Majesty in Mr. McKenna's portrait is the Order of the Indian Empire, in the representation of which a diminutive figure of an elephant is shown. Now, on the majority of the stamps there is not the slightest room for doubt as to the animal that it is intended to represent, but on the two annas and three annas values the elephant was poorly executed, and bore a remarkable resemblance, not to the stately lord of the jungle, but to the humble domestic pig! This fact did not pass unrecognized by the Mohammedan population of India, by whom the lowly porker is regarded as an unclean animal strictly forbidden by their caste and abhorred of all true Moslems. The grave affront to their religious prejudices, arising from the necessity of applying their tongues to this profane image, caused an immediate outcry amongst the native followers of Mohammed, who declined to have anything to do with the despised stamps; and as a concession to their scruples it was decided that the offending values should be called in, and a fresh printing made with the unfortunate elephant correctly delineated.

This is by no means the first occasion on which the postage stamp was the subject of internal and even diplomatic contention, particularly in respect of religion and party politics.

A case in point is proved by the first issue of Sudanese postage stamps. The paper upon which these stamps were first printed was water-marked with a curious device known to architects as a quatrefoil—a cruciform flower, bearing a strong resemblance to a Maltese Cross.

No sooner had the stamps been placed in use, however, than urgent representations were made to the Sirdar, Lord Kitchener, by the local Sheikh, protesting against the presence of an emblem of the Christian faith on the stamps of the Sudan, and it is said that a native rising was narrowly averted by the immediate issue of an order for the watermark to be changed to the more appropriate star and crescent of Islam.

The first attempt at introducing the ubiquitous postage stamp into Corea in the year 1884, was fraught with disaster, being followed by a severe anti-foreign outbreak, attended with bloodshed and incendiarism.

Diplomatic rupture between Spain and the South American Republic of Colombia arose out of the design of one of the stamps issued by Colombia in 1910 to mark the centenary of her freedom from the Spanish yoke. On one stamp was depicted an incident in the country's history, when a number of citizens of Carthagen were publicly executed by order of the Spanish Government under circumstances of the deepest treachery. Naturally, the Spanish Government did not relish this raking up of past grievances, and threatened to recall the Spanish Minister from Bogota unless the issue was suppressed. This was accordingly done.

PRESBYTERIANS OF LAKE MEGANTIC

Knox Congregation Had One of Best Years in Church's History

TOTAL AMOUNT COLLECTED FOR ALL PURPOSES WAS \$1,102.47. Lake Megantic, Feb. 17.—(Special)—The annual meeting of Knox Presbyterian Church was largely attended. The printed reports were distributed and revealed an exceptionally successful year, perhaps the very best that the little congregation has ever had. The total amount raised for all purposes by all the organizations of the church was \$1,102.47. Of this, the Ladies' Aid Society raised \$241.25, the Sunday School \$57.83. The full amount asked for the "budget" scheme of the church was raised, and the debt on the property considerably reduced. The treasurer's report shows a balance on hand of \$76.74. The envelope system of weekly offerings has been in successful operation for two years. The congregation is well organized and looks forward hopefully to the future. After the business of the evening was disposed of refreshments were served by the ladies in the lecture room of the church.

CASTRO FREED BY FEDERAL COURT

Is Now Freed From the Restraint of the U.S. Immigration Officials

GOVERNMENT OPPOSED FORMER VENEZUELAN PRESIDENT AS AN UNDESIRABLE. New York, Feb. 17.—Cipriano Castro is free to come and go in this country at will. Judge Ward in the Federal District Court Saturday afternoon sustained the writ of habeas corpus in his behalf, overruling the immigration authorities. Castro has been out on bail for some time pending a decision in the case. The Government opposed the entrance of the former Venezuelan president on the ground that he was an undesirable in that he refused to answer certain questions concerning the internal affairs of Venezuela and the murder of General Parades, a political opponent. The special board of inquiry at Ellis Island first refused him admittance, a decision which was affirmed by the Department of Commerce and Labor. General Castro then carried his case into the courts.

ANNEXATION SENTIMENT IN U.S.

London Papers Discuss the Situation in Mexico

INTERVENTION WOULD FACE THE UNITED STATES WITH GRAVE PROBLEM.

London, Feb. 17.—Editorially discussing the situation in Mexico, the Daily Chronicle says it realizes the United States cannot ignore it, but the newspaper does not envy Mr. Wilson the problem that is awaiting him. It says the American expansionists talk of annexation, but that "that probably would require more troops than Great Britain needed to annex the Boer republics." The Liberal Daily Mail says it thinks there is no ground in law or morals for American intervention, but that President-elect Wilson will have difficulty in resisting the pressure in favor of intervening, which would mean annexation after a long and costly war. The Morning Post, which is conservative, says the situation in Mexico fully justifies the American naval and military preparations and that the United States is bound to intervene if the rights of foreigners are seriously threatened. Intervention, however, the newspaper adds, would face the United States with a grave problem.

CLEANED GRIPS OF THE JEWELLERY

Sutton Junction Woman Has an Unpleasant Experience at Farnham

LEFT HER BAGGAGE IN CARE OF WOMAN WHO BROKE OPEN THE VALISE AND DE-CAMPED.

Sutton Junction, Feb. 17.—(Special)—Mrs. R. Morgan had a very unpleasant experience while travelling to Granby to visit Mrs. N. A. Meyer. When passing through Farnham, where they had a wait of some time, she and Mrs. W. R. Safford, who was travelling with her, visited with a woman in the station for a while and decided to go out to call, and said to this woman would she look after their grips, as she was remaining. She readily answered "Yes" and they went out.

On returning the ladies found their grips all there, but the woman and a parcel of jewellery belonging to Mrs. Morgan had disappeared. On arriving at Granby the loss was discovered, and High Constable Boisvert was communicated with. When the ladies returned Friday the constable met them in Farnham, and much to their surprise there sat the woman ready for another victim. She was searched and some of the rings found on her person. She flung them on the floor and said that was all she had, but further search revealed everything except a valuable locket, which was found later. Mrs. Morgan remained over night in Farnham until Saturday, to identify her property and cause the woman to be put under arrest. The woman is a widow with a young child and resides in Farnham.

CANADA MAKES OFFER OF \$75,000

STEFANSSON WILL MAKE THE NORTHERN EXPEDITION UNDER BRITISH FLAG.

Washington, Feb. 17.—The National Geographic Society and the American Museum of Natural History have jointly subscribed and offered \$45,000 to Vilhjalmur Stefansson, the Arctic explorer, to defray the expenses of another expedition to the north polar regions, according to an announcement made by the National Geographic Society here. The Canadian Government also has made a tentative offer of \$75,000 to Stefansson if he will make the expedition under the British flag. Gilbert H. Grosvenor of the National Geographic Society, declared that, as that organization was very anxious to have the explorations continued in the icy regions, it was perfectly willing to withdraw in favor of the more generous Canadian offer, provided the Canadian Government starts the explorer out this year. Mr. Grosvenor said that Stefansson is now in Ottawa going over the matter with the Canadian Government officials.

The pictures shown included views of Mr. Calvert's home in England, portraits of missionaries in Fiji, Fiji buildings, church erected in Fiji and views of the scenery in Fiji. The picture of the sacred mountain was especially beautiful, the coloring being exquisite. The lecture was most instructive and made one realize more fully the wonderful work the missionaries have accomplished and the great things the gospel has wrought in heathen lands.

A. Cutter, Sr., who was the first physician to settle in Sutton. During the first ten years of their married life Mr. and Mrs. O'Regan lived in Knowlton, where he has engaged in the mercantile business, then for three years in Abercorn. Since then Sutton has been their home. Mrs. O'Regan was a woman with a kindly heart and with a devoted Christian and a friend to every good cause. At the time of her death she was Superintendent of two important departments of the W.C.T.U. Society. She has gone but the world is the better for her having lived in it, and while her family grieve they have the loving sympathy of a very large circle of true friends who deeply regret their great loss. As an additional mark of respect the Sutton Academy was closed during the afternoon of the funeral.

OLD TIMERS HAD A VERY GOOD TIME

Many Turned Out to the Skating Party at Coaticook

ONE MAN MET WITH A SERIES OF MISFORTUNES, WHICH WERE BROUGHT ABOUT BY EXCITEMENT.

Coaticook, Feb. 17.—(Special)—The skating rink here was filled Friday night with a crowd which came for the double purpose of having a good time and helping the Library and Reading Room. Some of the skaters had not had on skates for over twenty years, but the old fellows didn't do so badly after all. True, it made their ankles ache and they had to stop often to rest, but they kept right side up most of the time. Most of them had borrowed skates for the occasion and they attribute any misfortunes to the fact that they had shoes which did not fit them (the shoes were always too large) and the skates were hockey skates and would not turn corners as those would they wore in the years gone by. The attendance of the Band made the event more pleasant and put new life into the tired skaters. Hot coffee also appealed to the crowd and found a ready sale. The receipts were nearly \$30.

OLD TIMER IN TROUBLE.

One of the old timers was so excited over the affair that he got into much trouble. In great spirits he started off with his wife for the rink. The lock on the door of the house was a spring lock. It locked itself, but the owner did not take any key. He had the anticipated joy of skating in mind and that crowded out the thought that he would need a key to get into his home. He was one of those who had borrowed shoes which were too large. He tried to fix up the shoes by putting on extra stockings. When he got to the rink he found that the two pairs he had on were not enough. Home was not far away, so he took off his skates and started home in his stocking feet for a further supply of hose. Then was when he realized the need of a key. To get into the house he piled up some packing boxes and on top of them put an old chair which was outside, and then proceeded to climb. He reached a window, pushed it up and got inside the house. The first thing he did was to find his key. Then he found some more stockings. After donning these he was about to start again for the rink. He didn't want to take time to take the boxes and chair away from the window, so drove a nail into the sash so that no one else could obtain entrance through the window while he was gone. In leaving the house he pulled to the door which locked. When the skating was over, tired and ready for bed he started for home. When he got there he couldn't find his key. A little meditation revealed the fact that while putting on his stockings he had laid down the key on the table and had left it there when he went out. He had nailed down the window while the boxes were so he couldn't get in as he had before. The house had a verandah and he thought if he

could get on to the verandah he could get in through a window opening on to the verandah. He decided to climb a tree and step from its branches upon the top of the verandah. Being in his stocking feet, he climbed well and reached the window. It was frozen into the frame and could not be stirred. He slid down the tree and was about to smash in a cellar window when he thought he might push out the nail he had driven in and get in through the window where the boxes were. Armed with a barn shovel he mounted the chair on the boxes and began work. He is a reputable citizen, but handled that shovel with the agility of a burglar. He did the act, got into the house, opened the door and let in his wife. Although he is a man he did not blame the affair on his wife and having so many stockings on he did not even get cold feet and says he will go skating again sometime.
