NOT A MONOPOLI!

The manufacturers of Corticelli Sewing Machines and Twist have been the means of giving employment to a large number of people in the Dominion, but have never expressed themselves as intending to monopolize the whole of the sewing silk trade of Canada. If the public insist upon making their silk the most popular in the Dominion, surely the Corticelli people are not to blame. There is no denying the fact that the Corticelli silks are selling faster and faster every day throughout the Dominion.

WELL DONE, CLAPPERTON'S.

Clapperton's Spool Cotton is making very marked inroads on the Spool Cotton trade of Canada; the remark of approval by business men generally is "Well done, Clapperton's."

#### MURDERS IN AN INSANE ASYLUM.

#### THE TERRIBLE TRAGEDIES IN CHICAGO'S INFAMOUS INSTITUTION.

A FORMER PATIENT'S REVOLTING TALE.

CHICAGO, May 21.—The most horrible revelation yet made in Judge Prendergast's investigation of the management of Chicago's public insane asylum was reached yesterday in the testimony of George Hill, an engineer on the Lake Shore Road. Mr. Hill is showed looking, and his straightforward manner carries conviction. He said he entered the institution in Jan., 1888, and was discharged the following May. He was not violently insane when he went to the asylum. He was asked by an attendant named Lock if he was insane. He said he was not. "Well," replied Lock, "we will make you a damned

RIGHT INSANER!

than you are now." Mr. Hill said, "Then another attendant named Julian ordered me to sweep out the room. I replied that I was not sent there for that purpose." "You ain't, eh? We will see about that." Then he knocked me down and kicked me on the body and mouth and kicked two teeth out. I tried to cover my face by getting my head beneath a bench. My arm was over it and through a space in the back of the bench. Julian turned the bench over to get another kick at my face. In doing this my arm was broken." Hill rolled his right coat sleeve up and showed, about three inches below the elbow, a huge lump where

THE ENDS OF THE BROKEN BONES

illegally joined stuck out. "They knocked me down again," continued he, "and broke one of my ribs. My arm caused me great pain, and I had no proper treatment. One day Julian said, 'Let me see that arm,' and he tore my coat off. Then he rubbed the arm with liniment. That was the only attendance I had. I tried to see the doctor, but Julian told me that if I dared to speak he would kill me right there. I told Superior Jones that I was badly treated, and he said he would send me to another ward. Then Lock and another attendant from ward 'D. W. 1' held me down while Julian kicked me in the head and breast. I got up bleeding and said I would have justice some day. 'You ———,' said Julian, 'we will give you

ALL THE JUSTICE YOU WANT.'

and he struck me in the face and knocked me down again. That was all that was done to me; my arm and rib healed in a kind of a way, and I got along all right. One day a poor fellow named Levi was brought in. He did not know enough to go to the dining room, and I was showing him the way when Lock asked me what I was doing. Julian came up, and Lock said 'The ——— won't eat.' 'I'll show him how,' said Julian, and he grasped Levi by the hair, and throwing his head back, jammed a big piece of bread in his mouth. Levi tried to get away and hide in one of the rooms. There he was caught by Julian and Lock. They struck him in the face, knocked him down, and

JUMPED ON HIS STOMACH.

Levi's face turned black. "Get up," they said, but he could not move, and they picked him up and threw him on the bed. The poor fellow died that night. The Court was still as death during this recital. The witness was told to bring his wife to corroborate his story and Dr. Harold Moger was instructed by Judge Prendergast to examine Hill's arm and rib. Further evidence was taken, to the effect that one inmate was cruelly beaten for going to bed with his socks on and it was a common thing for attendants to drive patients to bed with clubs. Further evidence showed the food was insufficient and the clothing and bedding entirely inadequate in cold weather. County Physician Todd testified that Robert Burns was beaten to death by attendants and did not die of consumption as stated by Superintendent Kiernan in the certificate of death.

A DEVASTATING CYCLONE.

WILKESBARRE, Pa., May 21.—A cyclone swept through the Lackawanna valley yesterday. Many houses were wrecked, fences were blown down, barns demolished and whole orchards ruined. The houses occupied by Charles Robinson and Charles White were swept from their foundations and all the inmates injured.

## CANADIAN.

### FUNERAL OF SERGEANT WALLACK.

(Special to the Witness.)

QUEBEC, May 20.—The funeral of Staff-Sergt. Wallack took place this afternoon from the Cathedral to the Methodist Church, and thence to Mount Hermon Cemetery, and was a very representative one, being attended by Cabinet Ministers, the Mayors of Quebec, St. Saver, Sillery, and the Bailie of Quebec, and all the leading residents of the city. The military from all quarters was represented, the local corps turning out in large numbers. The floral offerings were numerous, an extra carriage being necessary to carry those which could not be placed on the coffin, which was placed on a gun carriage drawn by six horses. There was not standing room in the church, and hundreds were compelled to remain outside.

### PRIVATE DELIVERY OF LETTERS.

OTTAWA, May 20.—Lieut.-Col. White, deputy postmaster-general, said when questioned upon the subject to-day, that the private delivery of letters was illegal and would not be tolerated by the Government. The law provided that a fine of \$20 should be inflicted on each case of the kind proved.

NEWS.

TRANSATLANTIC.

Besides the naval review at Spithead, a grand military review is in preparation at Aldershot in honor of the coming visit of the German Emperor.

J. L. Carey, M. P. for North Kildare, an imprisoned at Belfast for offences under the Crimes Act, has been liberated a month in advance of the expiration of his sentence.

In the libel suit of William O'Brien against Lord Salisbury, the damages are laid at £10,000. The will of the late Sir Thomas Gladstone, brother of the ex-Premier, bequeaths an estate valued at £254,979.

The military tribunal at Metz has imposed a fine of 600 marks each upon 37 young men for evading military duty.

The Executive Council of the Swiss Confederation at Bern has promulgated an order forbidding exhibitions of hypnotism.

IMPERIAL PARLIAMENT.

NAVAL DEFENCES.

LONDON, May 20.—In the House of Commons to night the bill providing for additional naval defences passed its third reading by vote of 183 to 101.

WOMEN IN COUNTY COUNCILS.

The House of Lords by 108 to 23 to-day rejected a proposal made by the Earl of Meath to allow women to sit in county councils.

AMERICAN.

A PERILOUS JUMP.

NEW YORK, May 20.—Steve Brodie, at five o'clock this morning, jumped over the Passaic Falls at Paterson, N. J., a distance of one hundred and five feet. The jump was made from Eagle Rock, the highest point above the falls, and was the most perilous Brodie has ever made.

THE SITUATION IN SAMOA.

WASHINGTON, May 20.—Capt. Farquhar, of the U.S.S. "Trenton," who has arrived at San Francisco from Samoa with several hundred of the shipwrecked American sailors, sent a despatch to the secretary of the navy to-day, which says: "Seven officers and seventy-six men were left at Samoa to finish the work of wrecking. The Admiral wished steamers sent for them. Steamers from Auckland are convenient if the department can arrange to have them call at Asia. The armies are disbanding to await the result of the Berlin Conference. There is famine among the natives, caused by the destruction of crops during the recent hurricane. The Admiral requests authority to issue rations to them." As some time must elapse before the next mail steamer leaves for Samoa authority to enable Admiral Kimberly to issue rations cannot be sent immediately.

THE FOG CLEARS UP.

NEW YORK, May 20.—It was after noon to-day when the dense fog that spread over the lower bay since Friday night was sufficiently cleared away to enable the immense fleet of ocean steamers anchored there to come up to the city. No additional disasters were reported. The delayed steamers landed 5,562 immigrants at Castle Garden, the largest number in one day for many years.

GENERAL ASSEMBLY.

NEW YORK, May 20.—The third day's business session of the General Assembly of the Presbyterian Church of the United States of America opened this morning at Dr. Crosby's church. Dr. Hastings, chairman of the Committee on Christian Unity, reported that negotiations were going on for a conference between the committee and a committee of Congregationalists and moved that the Committee on Christian Unity be continued. Carried.

A MINISTER MURDERED.

PORT LIMON, Costa Rica, May 20.—The Rev. Mr. Hobbs, a Baptist minister from the United States, living on the Island of Ruanan, has been murdered with his wife and child. Mr. Hobbs had sold his property for \$500 gold, and was about to go to Belize. The money was taken by the murderer. A shipwrecked sailor from Jamaica, who had been cared for by Mr. Hobbs, committed the deed and has been arrested.

CRIMES AND ACCIDENTS.

KILLED BY LIGHTNING.

SCENEDRIDGE, Ont., May 20.—Yesterday afternoon during a very severe thunderstorm a son of Mr. Thomas Smart, about five years of age, of this place, was struck and instantly killed by lightning. The bolt came down the chimney near which the boy was standing and passed down into the cellar. Mrs. Smart was also affected by the shock, but sustained no severe injuries.

"STUCK SOMETHING."

DETROIT, May 18.—Train No. 20 on the Canadian branch of the Michigan Central last night "struck something," as the engineer reported to the train despatcher. It was found later that the train had struck a horse and buggy belonging to Joseph Bechard, of South Dover, killing the man and horse and smashing the buggy. A little later another Michigan Central train struck a double carriage driven by M. Hutchins, of Hurst, a short distance from Windsor. The horses were killed and Hutchins was fatally injured.

A SINGULAR FATALITY.

HALIFAX, N.S., May 20.—Edward Batterley was killed at the Acadia iron mines to-day under peculiar circumstances. The rear line of his garden is the edge of a ravine 75 feet deep. He was working with a horse and wagon, and by some means backed his horse over the edge of the ravine. His daughter saw the danger, sprang to his assistance, and made a heroic effort to save her father by holding on to the horse's head, but the cart was too far over the edge of the precipice, and the man, horse and cart went whirling down the chasm, where the two met death. The daughter escaped by a miracle. When she let go the horse's head she lost her balance and rolled down the mountain side. Half way down her clothing caught in some bushes, which held her a moment and then springing loose tossed her clear of the jagged rocks and into the river below, whence she was rescued a mass of bruises, but with no bones broken. Her clothing was torn to shreds.

A SORELY AFFLICTED FAMILY.

RICHMOND, Que., May 20.—A singular fatality has befallen the family of the late Mr. James Mooney, of Ulverton. It is not yet two years since the father was suddenly taken from them, and on the first of last March Miss Kate Mooney dropped dead, it is supposed from heart disease, though she was apparently in good health up to the time of her death. Her brother, James, who was married, died suddenly on the morning of the 10th inst. Although for some time in poor health he had been at L'Avenir the previous evening, a distance of about four miles, and remarked that he was feeling much better. His aged mother was so prostrated with grief at this second shock that

she died on the 13th inst., and last evening Mrs. Kelly, the mother of the young widow, walked to the house of her daughter half a mile distant and died soon after reaching the house. A young daughter at home on hearing the sad news of her mother's death became senseless and speechless for several hours it was feared she would not rally, but she is reported better this evening though still weak. The deepest sympathy is felt for the family here.

FIRES.

OTTAWA, May 20.—About five o'clock this afternoon fire broke out in the stables in rear of Mr. A. D. Cherrier's hotel, St. Patrick street. The flames spread to the rear of the hotel and were extinguished with difficulty. The stables were destroyed. Loss about \$1,500, partly covered by insurance.

WINNIPEG, May 20.—The stables and corrals at Breeley Bros' ranch, near Calgary, have been burned with their contents. Loss \$5,000.

A BATTLE BETWEEN INDIANS.

WINNIPEG, May 20.—A report has reached here that a fight took place recently near Fort McLeod between Bloods on the one side and c-weboys and Gros Ventres on the other. It seems that the Bloods had been stealing horses from the Gros Ventres, and the latter, assisted by whites, attempted to recapture them. Quite a number are reported to have been killed and scalped, the Bloods being defeated.

The Treasurer of the Montreal Auxiliary Bible Society acknowledges with grateful thanks a donation of \$49.75 from the heirs of the late Dr. Reddy to the funds of the Bible Society; and from Messrs. A. Ramsay & Son, a handsome glass sign.

"I have used Paine's Celery Compound and it has had a salutary effect. It invigorated the system and I feel like a new man. It improves the appetite and facilitates digestion." J. T. CORLAND, PRIMUS, S. C.

Spring medicine means more now-a-days than it did ten years ago. The winter of 1888-89 has left the nerves all fagged out. The nerves must be strengthened, the blood purified, and the bowels regulated. Paine's Celery Compound—the Spring medicine of to-day—does all this, as nothing else can. Prescribed by Physicians, Recommended by Druggists, Endorsed by Ministers, Guaranteed by the Manufacturers to be

The Best Spring Medicine.

"In the spring of 1887 I was all run down. I would get up in the morning with so tired a feeling, and was so weak that I could hardly get around. I bought a bottle of Paine's Celery Compound, and before I had taken it a week I felt very much better. I can cheerfully recommend it to all who need a building up and strengthening medicine." Mrs. B. A. DOW, Burlington, Vt.

Paine's Celery Compound

It cures dyspepsia and kindred disorders. Physicians prescribe it. \$1.00. Six for \$5.00. DRUGGISTS. WELLS, RICHARDSON & CO., MONTREAL.

Ayer's Pills The Best

Are admirably adapted for family use. They are compounded of the best vegetable aperients, contain no calomel, and are sugar-coated. They may be given to children without fear of ill effects.

"Having long used Ayer's Pills, with good results, I fully endorse them for the purposes for which they are recommended."—Dr. T. Conners, Centre Bridge, Pa.

Handolph Morse, Lynchburg, Va., certifies: "I have never found anything equal to Ayer's Pills for keeping the stomach, bowels, and liver in good working order."

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural and regular action, so that now I am in excellent health."—Wm. H. DeLacourt, Dorset, Ont.

J. T. Hess, Leithville, Pa., says: "I can recommend Ayer's Pills, having long proved their value as a cathartic for myself and family."

S. L. Loughbridge, Bryan, Tex., writes: "After many years' experience with Ayer's Pills as a remedy for the large number of ailments caused by derangements of the liver, peculiar to malarial localities, simple justice prompts me to express to you my high appreciation of the merits of Ayer's Pills for this class of disorders." "I suffered from indigestion for years, and was unable to find a cure until I began to take

I have many flattering testimonials as to their durability from colleges, convents, hotels, hospitals and other large institutions where they have had them in use for years. FROM A SEWING-GIRL'S JOURNAL.

March 20.—I almost fainted yesterday over the machine, and Madame actually offered me a glass of wine. If she had only given me a little food, how I would have blessed her.

April 3.—I have been too unwell to write in my journal for some time. I do it whenever I can, for I have no books, and I should forget how to write, if it was not for this poor little record of my daily life.

I am not as hard and rebellious as I was a month ago. I think my dear mother's holy patience is beginning to have an effect upon me, but, perhaps, it is because I am weaker than I was.

This has been a weary, weary day. Mama seemed worse this morning, and I asked Madame to let me take my work home, and stay with her.

Mrs. Frazier is a fussy, exacting woman, and she fretted over the fit of dresses, and slapped the children because they would not stand still, and found fault with me until my head swam.

"It's her business, and she's paid to do it," was the harsh answer.

But Bertha was resolute, and with a look of tender pity in her beautiful eyes, took the work out of my hands.

"You are ill, Miss Addington," she said. "The children can wait for their dresses. You must go home."

God bless that girl! God bless those tender, sympathetic hearts, and there are some in the world, who although cradled in luxury, by a divine instinct seem to understand the needs and sufferings of the poor workers, and to feel with them.

April 4.—My darling mother never wakened from her sleep. I do not know when she died, it was so quiet and peaceful. I performed, unaided, last evening all the last offices for my darling. I have written to Uncle William Carew, and he will be here this morning, and attend to the rest.

The evening papers told of the death of a poor woman and her daughter. A relative who had come from the country to see them, found the girl lying dead beside her mother.

You who have read these pages, know what part hunger and grief acted in the life tragedy of Marian Addington.—Youth's Companion.

CHILDREN'S CORNER.

THE CHILDREN'S LIBRARY.

BY ALICE M. KELLOGG.

I wish you could pay a visit with me some day to the Children's Library on upper Broadway, New York city. The stairs that lead to the reading-room are in steady use two hours of every afternoon with the hurrying feet of a hundred and more eager children.

If you follow the owners of the small feet you will see them enter a large, pleasant room, show clean hands and a smiling face to the lady in charge, and then glide noiselessly into a seat at a long low table.

Other boys and girls are already there among the books and papers; some are playing games and looking at photographs through a stereopticon. A cluster of heads are bending over a bound volume of Harper's Young People.

A child has only to behave quietly and he or she is made welcome.

Besides the papers and magazines that are used by the young visitors while they stay, there are shelves filled with books that they can carry home to read—"Dotty Dimple," "Rollo and his Friends," "Miss Howitt's Tales," "Beessie Bradford," "Rough and Ready Series," histories, readers, and a variety of school-books.

At six o'clock the lady who has charge of the room says, "It is time to close." The books are reluctantly laid down with an air that means "I'm coming again anyway."

Some of the children beg to stay and help put things in order, and one little maiden of

nine years, who makes a daily visit to the Library, folds up the papers and lays them in a neat pile. Some of the most regular visitors are children who work out of school-hours.

THE DEAR LITTLE HEADS IN THE PEW.

In the morn of the holy Sabbath, I like in the church to see The dear little children clustered, Worshipping there with me.

Faces earnest and thoughtful, Innocent, grave and sweet, They look in the congregation Like lilies among the wheat;

Or, "Smile the babes to come," They are glad that the loving Jesus Has given the lambs a home,

So I love in the great assembly On the Lord's-day morn to see The dear little children clustered And worshipping there with me;

LORD SALISBURY recently pronounced in favor of woman suffrage, and there was a good deal of curiosity as to how he would lead the House of Lords in case this reform was proposed there as a result of the contest over Lady Sandhurst's seat in the London County Council.

THE EMPEROR WILLIAM OF GERMANY is doubtless sincere in his expressed desire for peace in his day, but it is hardly true to say that the policy of his grandfather pointed in that direction.

AS A GENERAL RULE the weather on the twenty-fourth of May is exactly what it should be for a fall dress parade, but the experience of the Victoria Rifles on Saturday last, when men dropped from the heat, and every man in the corps was injuriously affected by it, should warn the authorities that this year, at least, the weather cannot be depended upon.

THE TABLES are being turned upon the British fishermen of the French coast of Newfoundland. There was a time when they were bent upon keeping the French fishermen away altogether.

FIVE THOUSAND DOLLARS to a municipality which by its short-sightedness caused very great loss to citizens and death to the brave soldiers is quite generous enough.

UNLIKE MOST STATESMEN who have reached the highest position, Lord Salisbury has never learned to govern his tongue, has never been able to abandon for long the use of vituperative and violent language.

Salisbury for ten thousands pounds will be an interesting one.

THE TREATMENT of the Boulangerists in England is simply outrageous from a swab-bucker's point of view. Rochefort, the veteran duellist, the modern Captain Bobadil and the great champion of the Boulanger boom, has been arrested, as if he were an ordinary disturber of the peace.

A RAILWAY COMMISSION.

ART ASSOCIATION.

The meeting of examiners for awarding the prizes for the work of the pupils in connection with the classes of the Art Association was held yesterday. The competitors are:—Miss M. Adams, Miss K. Bell, Miss A. Budden, Miss E. Dawson, Miss G. DeMaile, Miss B. E. Evans, Miss A. Fisher, Miss E. L. Fourdrinier, Miss H. J. Macdonnell, Mr. E. MacMillan, Miss K. Penfold, Miss F. Plimball, Miss E. Plimball, Miss F. Power, Miss F. Stevenson, Miss F. Trenholme, Miss E. Warden, Mr. Fred. Wright. The scholarship prize—a scholarship in the school, to last for two years, by which the fees for tuition will be defrayed, amounting to \$40 a year, was not announced.

At five o'clock in the afternoon a meeting was held for the purpose of establishing a Water Color Society. The Hon. J. C. Abbott occupied the chair, and expressed his hearty approval of the idea. A general discussion ensued, but nothing was done beyond accepting the principle, the following committee being appointed to work out the details of the scheme: Messrs. E. D. Greenfields, A. T. Taylor, John Popham, the Hon. Geo. A. Drummond, R. Harris, D. A. Watt, J. B. Abbott, W. Brynner, Jacob, Steel and Elmhurst.

CHURCH SOCIAL.

A very enjoyable entertainment was held in the American Presbyterian Chapel on Friday evening, the occasion being the annual social of the congregation. A very interesting programme was rendered by members of the choir and their friends, and listened to by a large and appreciative audience. The piano used during the evening was a "Heintzman," kindly loaned by C. W. Lindsay, for which the committee desire to return thanks.

POLICE PICKINGS.

AN UNSOPHISTICATED STRANGER. George Downham is charged with larceny. J. C. Robitaille, St. Sulpice, was in the city on April 30th. An interesting stranger giving the name of James Moore accosted him and said that he was "broke," wanted to go to Boston, and had a valuable gold watch. Downham, it is alleged, appeared on the scene, and declared the watch to be a splendid one, and induced Robitaille to buy it for \$25, and his silver watch worth \$10. The "gold watch" proved to be shoddy, worth about \$3. Detective Arouad made the arrest.

THE FUR ROBBERY.

Thos. King and W. McNally have been again remanded on the charge of stealing furs from Vineberg's store, Craig street. King now says that a man stopped him and asked him to sell the furs, but that he lost them in a yard of Fronting street. McNally says he found the furs and sold them and then got drunk on the money.

SLEPPED HIS HANDCUFFS.

Dragon, the prisoner who on Saturday attempted suicide in a cell, while being taken to gaol yesterday, slipped the handcuff which secured him to another prisoner. Sergeant Proulx noticed this in time to prevent Dragon escaping. Dragon has been remanded until the 27th.

Grounds on Saturday for the match between the Montreals and Shamrocks; return fare, ten cents. It is said that the following will be the Shamrock senior team this season:—Kaddy, goal; Lacey, point; Oregan, centre point; Brown, Duggan, Ahern, defence; Kelly, centre; Rawley, Neville, Kennedy, Dwyer, McKay, home.

The Buchanan Cup handicap was won on Saturday, 15th May, by Hon. G. A. Drummond with a score of 83. The annual match with the Quebec Club, which was to have been played on Queen's Birthday, has been postponed owing to the sad death of Major Short, who was to have played.

Pointer for the 24th. "God save our gracious Queen, Long may Victoria reign,— God save the Queen." A holiday is a brief pause to take breath in the race of life. The Queen's Birthday is always a popular holiday with loyal Canadians. This year it will be celebrated with unusual éclat. The "military" is going to turn out in great force. The Toronto boys are to join the local regiments, and the display on Fletcher's Field will be worth seeing. You won't enjoy the day unless you are nicely dressed, and you cannot be nicely dressed without a pair of stylish boots or shoes. The competition is keen, but Ballie's will remain the best place in town to get reliable goods of this line. Ballie doesn't make theatrical parades; but he tells the truth about his goods, and that's what the public want. Ballie doesn't give free concerts or prize packets, or indeed make any theatrical ppe whatever. He just does his level best to sell boots and shoes for ladies and gentlemen that will give them comfort, and as much wear as they want. Ballie can always look his customers in the face. They return to him with a good will; not with snooty ironies concealed in their hip pockets. Get something nice for the Queen's Birthday. Get something good, artistic and thoroughly reliable for the 24th. Look well on Friday, and feel that elasticity which a new pair of boots or shoes confers.

OVER \$1,400,000.

**A MONTREALER FALLS HEIRESS TO A NICE LITTLE FORTUNE.**

Mr. Oscar Martel, the well-known Montreal artist, received a letter this morning from Carnes, France, informing him that his step-daughter, Dame Hortense Leduc, has become heiress to 22,000,000 francs or about \$1,400,000, through the death of Mr. Hedell, millionaire. The fortunate heiress, who was born in Montreal, is well known in musical and social circles here, especially since her marriage with Mr. F. J. Prune from whom she has since been divorced. In Europe, Dame Leduc formed the acquaintance of Mr. Hedell, who took her under his special care and protection, treating her as his own child and finally bequeathing to her the bulk of his fortune. A few years ago, Madame Martel paid a visit to her daughter in Europe taking with her her other daughter, Miss Hortense Martel. They there also made the acquaintance of Mr. Hedell, who, not forgetting the half-sister of his protégée, has also bequeathed to her 50,000 francs.

Mr. Hedell, who was in his 85th year, was found dead in his bed on the morning of May 1st. He was the son of a Scotch physician who had business in Africa, and going into the olive oil business soon amassed a magnificent fortune. Coming back to Europe he bought the Chateau de Merville in the Department of Seine et Oise, a princely mansion built in the reign of Louis XIV., and restored under the reign of Louis XV. by the Marquis de Labarre at a cost of 1,400,000 francs. Later on, Mr. Hedell exchanged the chateau for a hotel in Paris, and his grand villa at Carnes, where he has just died. The deceased millionaire had no living relative, and the whole of his fortune goes to the two ladies mentioned.

**DARING ROBBERY**

IN MONTREAL'S LEADING BANK THIS AFTERNOON.

An impudent robbery of between \$2,000 and \$3,000 occurred this afternoon from the Bank of Montreal. A clerk from the wholesale dry goods firm of Messrs. Thomas May & Co., Victoria square, was sent as usual to the bank to make a deposit and deposited the bank book, with the roll of notes and cheques upon the counter, until the teller was disengaged. He stood for a moment with his back to the compartment until he could be attended to, when a respectably dressed man attracted his attention by asking his opinion about the genuineness of some bills which he held in his hand.

**THE UNSUSPECTING CLERK**

courteously gave his opinion and then turned to his own business, when he suddenly noticed that his deposit was gone although the book remained on the counter. For a moment he imagined that the teller had taken the money, and was checking it with the "pay-in" slip; but, taking the alarm, he found that the teller had not touched the deposit, which had been abstracted by some unknown person. The alarm was at once given, and the assistance of the police and detectives instantly procured. The culprit, whoever he was, had obtained three or four minutes' start, and no clue has yet been obtained of his whereabouts. The officials behind the counter or the two porters always on duty at the door had not noticed any suspicious character about the building, nor did they observe anyone leave the bank in haste or under any kind of suspicious circumstances.

**SUBURBAN SERVICE.**

THE GRAND TRUNK RAILWAY COMPANY ESTABLISH A GREAT FREIGHT SERVICE.

The Grand Trunk Railway Company has established a suburban freight service between Montreal and Vaureuil. To-day and hereafter freight for all suburban stations between the above points will be received for transportation by the 1.30 p.m. train, and the charge will be only ten cents per 100 pounds. Heretofore it was almost impossible to get furniture or any quantity of heavy goods delivered at points where there were no sidings. This new service is a step in the right direction.

**MONTREAL GENERAL HOSPITAL.**

ANNUAL MEETING AND REPORTS.

The annual meeting of the corporation of the Montreal General Hospital was held this afternoon, Mr. Stirling in the chair.

Amongst those present were: Messrs. Garth, F. W. Thomas, Hood, Dr. Ross, H. White, G. Kemp, Wm. Shorey, J. E. Kirkpatrick, Dr. Laphorn Smith, Ames, Dr. Prud'homme, Dr. Ross acted as secretary.

The annual report showed the expenditure had been \$60,037; income, \$42,161; excess of expenditure, \$17,876. The beneficiaries of the year amounted to 25,690. The total number of patients treated had been 2,663 of these 109 have died—41 from diphtheria and 28 from typhoid fever.

**ALMALANATION**

with the Royal Victoria Hospital. Contemplated improvements to the present building had been allowed to remain in abeyance, the governors not deeming it prudent to proceed with them, in view of the possibility of fusion with the new hospital. The committee appointed to act with the governors of the new institution had not yet reported, but it was understood that they would soon be in a position to do so. Whatever terms might be made, it was hoped that the Montreal General Hospital would not lose its distinctive character. Report adopted.

Mr. R. C. Bagz was elected a life governor. The following were elected governors for two years: Messrs. S. Bethune, G. C. W. J. Costigan, C. P. Hebert, F. C. Houshew, James D. Adams and W. L. Malloy. The meeting then adjourned.

**MR. WILLIAM DOWLING.**

Mr. Dowling was a cousin of the late Bishop Phelan and father-in-law of Sergeant Lyle of the city police.

**IS THIS A JOB?**

L'ETENDARD MAKES A CHARGE AGAINST THE GOVERNMENT—IT CALLS MR. LEPEINE IN QUESTION—NO CHANCE FOR SMALL CAPITALISTS.

Under the heading of "A Scandal on the Horizon," L'Etendard expresses its astonishment at the appearance of an advertisement announcing the sale by auction on Thursday next, of that part of Logan's farm situated on the south side of Sherbrooke street and extending from Papineau road to a point near Amherst street. Our contemporary states that, although the advertisement is dated May 16th, it appeared in L'Etendard for the first time on the 20th, and the first insertion of it seems to have been in Le Monde on the 18th, so that the public have been notified of this most important sale only five days in advance at the most. L'Etendard again adds that we are placed in the presence of an attempt of suspicious speculation and of favoritism to the prejudice of public funds and especially of the citizens of Montreal East. "For a long time," it says, "a number of political friends of the Government, wealthy capitalists (we know some names), strangers in the East End, have got their eyes on this property. They know that before many years the Quebec suburbs must necessarily grow up that way and cover the whole farm. The price of land will increase in value considerably, and it is a good speculation to ensure its possession just now at a low price." The article then goes on to say that the purchasers will later on enrich themselves with this land, and will use the money of the East End people for the prosperity of the West End. The whole thing, it claims, has been worked up in the dark, so that keen competition may not be made to the "dear friends." Several times Montreal East capitalists have asked that this farm be sold in lots, but the Government always refused, thus placing an obstacle in the way of the progress of Montreal East. Now they offer the whole en bloc, well knowing that the most of the small capitalists in the Quebec suburbs cannot dispose of the \$60,000 or \$75,000 required to purchase the whole land. The speculators, for whose benefit the scheme has been worked, will themselves divide the land into lots, make streets, etc. "What is Mr. Lepeine doing all this time?" the writer asks. "He lets do." The article winds up by stating that several of Mr. Lepeine's supporters are to call a monster meeting for to-night or to-morrow to ask him to explain, and to beg of him to use his influence, if he has any, to frustrate this shameful attempt at speculation.

With reference to the proposed sale, the attorney of Mr. Desmarlais, better known as "the squatter," is preparing legal proceedings to have the sale stopped on behalf of their clients, who does not wish to be disturbed in what he claims to be "his rights" to part of this property. There are, it is said, several other squatters on the same property, who have kept quiet up to the present moment, but who may be aroused also by the proposed sale.

Le Monde says to-day, that the Government, being notified of the too short notice given, has ordered the auctioneer to postpone the sale to the 13th June next.

**EXAMINATIONS CONCLUDED.**

**SAID SOME SHARP THINGS.**

During a recent visit to the Richmond Agricultural College Col. Rhodes, commissioner of agriculture, is reported to have said that the standing of the institution was not what it should be, and no better than those at St. Ann's and L'Assomption. He said that unless it was improved it would have to be closed altogether.

**THE HEALTH NAVEE SAFE.**

The city free baths, on the western side of St. Helen's Island and off Wellington street, are to be thrown open to the public on Queen's Birthday. A MANIA FOR WINDOW SMASHING.  
Margie Sisson, aged 18, is a clean, neat and intelligent woman. For the fourth time she was to-day sentenced for window smashing. She came out of the Longue Pointe Asylum on Friday morning. At night she demanded protection at the Central Station, and enforced her demand by showing a stone with which she said she would smash a window unless given shelter. On Saturday morning the police patrol took charge of her and placed her in the Sheltering Home. Yesterday morning she became much offended at the task assigned her to look her bundle and left. At a quarter past ten she started the occupants of the Central by hurling a stone weighing about 15 pounds, through one of the windows, shattering a large sheet of glass. She entered and laughed gleefully at her accomplishment. She was sentenced to eight months, and on hearing her sentence appeared delighted and said, "That's all right, that's just a year." The woman makes beautiful fancy work, and sits in gaudy quite oblivious of her surroundings crocheting elaborate floral designs.

(Special to the Witness, May 21.)

A MEETING at Woodstock last night took similar action as that of Hamilton regarding the Jesuit question.

MR. GOLDWIN SMITH, in an address to the Combined Charities Association yesterday, reviewed and condemned the Propaganda of the Anti-Poverty Society. He will, no doubt, be answered by members of that body.

THE DISPUTE in Victoria Senate has become the occasion for a new outbreak of newspaper correspondence. On the one hand it is alleged that President Dyer, of Albert College, was defeated in the late election because of his stand in favor of federation, and on the other it is stated that a majority of the students of Victoria desire removal to Toronto. Meanwhile the federationists are not to rest on their oars. They have called a meeting of the advisory board appointed at the General Conference to be held on the 30th of May.

THE ANTI-JESUIT CITIZENS' COMMITTEE will hold the Jesuits' Estates Act reprinted and sold at ten cents a copy. The sale will be immense.

THE MAYOR AND TREASURER of the city leave for England at noon to float a consolidation loan.

AT A MEETING of the Reform Association last night steps were taken to organize a Liberal picnic about the end of June at some place near Toronto.

**FINANCIAL.**

Money is freely offered at 3 percent on call for stock loans. Good commercial paper is negotiable at 6 to 7 percent.

Sterling Exchange is dull and rates are about steady at 109.9-16 to 109 for demand bills, and 109.15-16 to 110 for demand bills. Drafts on New York 1-32 discount to par.

The stock market still continues on its upward course, and the trading developed a healthy tone not confined to one or two stocks, there being good buying of all the active stocks. Montreal, Gas, Richelieu, North-West Land, and Canada Pacific were all strong, and registering an advance of a half to one percent all round. The rest of the list was neglected, the bids being all higher, but there was very little stock offering.

Bank of Montreal was the strongest, selling up to 22 1/2, and good buying was noticed in it. Richelieu sold at 60 in round amounts, which is the highest point for many months. The "bulls" of this stock are talking 75 for it this year and claim that their earnings power this year will put the stock on a dividend basis, and also argue that this year will be a big year in comparison with the cold, wet season of the previous year, when summer travel was seriously interfered with. Gas was active and 1/2 percent higher, although the "bears" are using the city's advertisement of no more gas required for "street lighting" after July next in attempts to force down the price. Inside claim that this will not interfere with their earning power, and after this scare wears off the public will want it as an investment at 210. The general tone of the market had a strong appearance and the only check to further advance may temporarily occur from some "bulls" realizing.

Morning sales—Bank of Montreal (ex-div.), 224 40 at 22 1/2; 75 at 23; 50 at 22 1/2; 150 Commerce (ex-div.), 120 1/2; 50 Richelieu, 59 1/2; 140 at 60; 350 Gas 202; 125 Canadian Pacific, 56 1/2; 25 North-West Land, 52 1/2; 100 at 51; 50 at 51 1/2; 15 Bell Telephone, 92 1/2.

**LAST WORDS BY WIRE.**

THE PARNELL COMMISSION.

MR. O'BRIEN'S EVIDENCE.

LONDON, May 21.—Mr. William O'Brien testified before the Parnell Commission to-day. He remained seated while giving his evidence and spoke in a weak voice. Witness gave details of agrarian outrages which occurred in Tipperary prior to the organization of the League, and said the League prevented a wholesale famine and a fearful war in the west of Ireland in 1879, and that no murders had been committed in Tipperary since its formation.

**A MARINE CATASTROPHE.**

LONDON, May 21.—The British steamer, "German Emperor," from London for Bilbao, run into the British steamer "Beresford," from Hartpool for Bombay at four o'clock yesterday morning while the latter was lying at anchor in the Goodwin Sands. The "German Emperor" sank instantly. Boats were launched from the "Beresford," and succeeded in rescuing three persons from the "German Emperor." The latter's boats were stove. She disappeared in the fog and for a while her fate was unknown, but it is now learned that she is proceeding to Gravesend where she will effect temporary repairs. Nine persons on board the "German Emperor" took to small boats and have landed at Dover. It is thought thirty persons perished. The survivors who landed at Dover from the lost steamer "German Emperor" gave exaggerated reports concerning the loss of life by the collision. It is now ascertained that the loss of life was not as great as was first reported. The "Beresford" has arrived at Gravesend. She has on board 22 of her own crew and twelve of the crew of the "German Emperor."

**A ROYAL MEETING.**

BERLIN, May 21.—King Humbert, the Crown Prince of Italy and Signor Crispi, the Italian prime minister, arrived this morning. They were met at the railway station by the Emperor William, the Royal princes, Prince Bismarck and a number of generals. After embracing the party drove to the royal castle. King Humbert occupied a seat beside the Emperor in the Imperial carriage. The route to the castle was lined with troops. Triumphant arches spanned the streets and the houses were decorated with flags and bunting. Large crowds of people gathered along the route from the railway station to the castle and enthusiastically cheered the Emperor and the King.

**THE GERMAN LABOR TROUBLES.**

BERLIN, May 21.—Three thousand masses have struck here. They demand that their hours of labor be nine per day, and that they be allowed half an hour for dinner, and an hour for supper. They also demand that work be suspended an hour earlier on Saturdays and the evenings preceding public holidays, and that they receive pay for those days the same as for other days. They further demand an increase of from fifty to sixty pfennings per day in their wages, and that they be given two weeks notice of discharge.

**PIGOTT'S LIFE INSURANCE.**

LONDON, May 21.—The Manager of the English and Scottish Life Assurance Company states that there remains in the hands of the concern a surplus of £330, which would ordinarily be due to the heirs of Pigott. The suicide of the informer nullifies the policies on his life, but owing to the distressing circumstances of his children the full amount will be paid to the orphans.

**LAKE RATES.**

CHICAGO, May 21.—The rate on corn to Buffalo by lake went off a quarter of a cent yesterday, a drop from two to one and three-quarter cents a bushel. Vessels held out for a time against the inevitable, but finally succumbed. Shippers, however, made no great rush for oil at the reduced rate and the market was dull. The real cause of the decline was the surplus of tonnage either here or soon to arrive, but what immediately led to the drop yesterday was the chartering of a load of wheat to Buffalo last Friday at two cents. The transaction was kept quiet until the shipper wanted a vessel of corn, and he would pay but one and three-quarter cents, then there was a rush among the agents.

Hugh Bonner has been appointed Chief of the New York Fire Department.

The remains of Washington Irving Bishop, the mind reader, whose death occurred the other day under such tragical circumstances, were buried in Greenwood Cemetery, New York, yesterday.

**THE ANCIENT CAPITAL.**

(Special to the Witness.)

QUEBEC, May 21.

**AFFLICTED ST. SAUVEUR.**

Several temporary buildings are going up on the burned district in St. Sauveur. An effort is being made to prevent, as far as possible, the erection of wooden structures and it is said that no assistance towards rebuilding will be given by the relief committee towards such rebuilding. Nine hundred dollars have been subscribed for the sufferers by the Banque Nationale and its directors.

**THE DEAD HEROES.**

The opinion is general throughout the city that a monument should be raised to the memory of the dead heroes Major Short and Sergt. Wallack. Capt. Bernier, in whose building they met their untimely end, is anxious to give the piece of land where for a monument. Several references were made from different pulpits on Sunday to the disaster of last week and the heroic death of Major Short and Sergeant Wallack. At the Cathedral the Very Rev. Dean Norman, in the course of his remarks, made the following references to the heroic victims: "The bravest men are always, as a rule, tender and gentle to the weak. I have known many soldiers, ready at any moment to look death in the face, and who often had to take life, yet under other circumstances were merciful and compassionate; and here I cannot to-day refrain from making reference to those gallant men who lost their lives in trying to save lives and property and particularly to one of them, the well known and so much beloved. It is a noble way of laying down the burden which God will one day demand of us when we are doing our duty in helping others and to risk our own lives in the effort. He will never be forgotten. He will be one of the heroes in this generation and perhaps in God's sight his end was grander than it would have been on the battle field. It is said that no man dies too soon who dies for his country or for a good cause, but we must surely sympathize with the heartfelt sorrow of his relatives and of his many friends. The Rev. Father Grenier, curé of St. Sauveur, addressed his parishioners at high mass on the subject of the late fire. He pointed out that the disaster would never have attained such vast proportions as it did if the parish had secured such a supply of water as ordinary prudence dictates. He said such protection could no longer be postponed and spoke regretfully of the loss of life. In St. Matthew's church, the rector, the Rev. Lennox Williams; the Rev. Dr. Cook, in St. Andrew's church, and the Rev. A. J. Balfour in St. Peter's also referred in the course of their sermons to the disaster.

THE GREAT DEMAND for a pleasant, safe and reliable antidote for all affections of the throat and lungs is fully met with in Bickle's Anti-Consumptive Syrup. HIS VIVID IMAGINATION.

Fong Hong, the Chinaman who attracted so much attention by his vagaries on Sunday night is in gaol under a remand for ten days. The unfortunate Celestial, it is stated, never indulges in liquor and was quite sober, but is non compos mentis. He imagines that he has been deposed a number of times and returned to life by his own volition. He declares that he has no objection to being killed, and if anyone doubts his power to come back to life he invites them to stab him. The gaol physician will report upon his case, and he will probably be sent to Longue Pointe.
