Will we soon list our anti-covid vaccination among the 'main realizations' in our CV?

- Doctorate in Civil Engineering
- Ascent of Mount Everest
- Anti-Covid Vaccination ;-)

Here we go, we'll all proud of our inoculation... even though we neither know what's in it nor its long term adverse effects. The consequences? Bah!! It's like the lottery - we cross our fingers - saying:

'It's gonna be alright!'

We've got to believe our government that improvises every two weeks.⁴ We've got to believe our muzzled doctors. We've got to believe our social media that censor each and every unfavorable comment about these vaccines. We've got to believe Big Pharma who is stacking up BILLION\$ thanks to this manna falling right from the bat cave - the most abject of all places.

This 'vaccine' is good 🎵 for you!!

That is the serenade whose composer is Big Pharman, our governments, its interprets; and our media, its performers. Our naive populations follow blindly the lead like the Eloi in the *Time Machine*. And now too many vaccinated - all ages taken together - even the breastfeeding baby and the vigorous teenager - are dropping like flies in the hands of the Morlocks: myocarditis, stroke, heart attacks and we skip some.⁵

Many leading medical experts refuse however to sing this dubious refrain and warn us - to the price of their career - against these hasty vaccinations whose consequences are unpredictable. But our social media (or should we say 'collaborators' - on Mammon's payroll)

³ Computer graphic design: blend of emojis with a representation of the coronavirus (Wikipedia: *coronavirus*. PD-USGov-HHS-CDC. Public domain)

⁴ What is a government? A Govern+ment (French: 'GOUVERNE+MENT' - 'MENT' from the verb 'MENTIR' - to LIE ;-)) is an institution that governs and lies. The Word of God effectively states that every man is a liar. So I am, you are, he/she is, we are and they are... *liars*. If we are all liars - at least part time - it would be an illusion to believe that our good government (which is essentially made up of people like us) tells the truth full time.

Which reminds me of this question that an acquaintance asked me: *How can you know if a politician is lying?* After shrugging my shoulders he answered jokingly: *You check if his lips are movings* :-)) Let's not generalize though. There are honest politicians who courageously fight for the rights of their fellow citizens. The MEP Cristian Terhes and his team are proof of this. Greatly refreshing!! Our politicians should get inspired by them.

Legend: 🎵 = public jingle / 🤫 = complicit silence (omerta) / \$ = price of silence

being the good patriots that they are - do the *damage control* by censoring incriminating testimonies.⁶ Even vaccinated people's messages - trying to alert their fellow citizens about the hell they went through once they had the 'vaccine' - are flushed.⁷ As for the mainstream media, they ridicule whoever questions the efficiency of these improvised elixirs by relegating the abstainer to the rank of 'conspiracy theorists'.

*'Sleeeeeep citizens.
The media are on the watch.'*

In short, the same modus operandi than the anti-Trump media: a one-way 'freedom of speech'. As Les Cyniques said: *'We want your good... and we'll have it!'*⁸ Their filter being porous, the truth is starting to peep through, mainly since the FauciGate.⁹

Even the mRNA vaccine key architect speaks out against the offhand manner with which medical entities are handling these 'vaccines' and criticizes them for not adequately informing populations about the risks they incur.¹⁰

Ain't that saying a lot?

TO EACH HIS OWN MOTIVATION...

BIG PHARMA...

That's in Big Pharma's interest to stockpile PROFITS, to strike while the iron is hot, to take advantage of this window of opportunity, of this unhopd-for manna. So **Bigwig Pharman** has all interest to recommend ineffective measures to prolong the pandemic and multiply its 'vaccines' - thus making his pseudo solution all the more lucrative.

On this subject, the Clan's little nephew expects making 29 billion dollars in Covid related sales in 2022.¹¹ That's aside from the sales his relatives will make. What would be the Clan's interest in seeing the pandemic stop?

The GOVERNMENT...

owes it to do anything - anything - (and that's exactly what it does: *anything*) - otherwise people will criticize it for standing by while its population wastes away. So it promptly initiates showy measures to create the illusion that it cares about its population. It thus becomes 'irreproachable'... it proceeds to the best of its knowledge (even though it doesn't have any since this pandemic is unprecedented and the scientific community is baffled in front of this unexpected situation). And the day when it will be revealed that these new experimental genetic 'vaccines' have generated permanent harmful consequences on hundreds of thousands of citizens (and probably their descendants), our governments, shrugging, will only have to justify themselves saying: *"We did the best we could with the info we had at the time"*, thus exonerating themselves from any wrongdoing. So it's in the interest of our good leaders to play the game - to play safe.

The DOCTOR...

falls behind by submitting to the College of Physicians' directives which itself is, or course, subordinated to the government. Any misdemeanor will earn our good doctor disciplinary measures, even his license.¹² So despite his professional doubts and his Hypocrite oath, he will perform risky practices at the expense of his clients' health. It is therefore in his financial interest too to play the game - to play safe.

The MEDIA...

of which too many are subsidized by the government, would incur the suppression of their grants if they would not sing the imposed tune and dance to the required rhythm. So the media too will murmur loud and clearly that those calling into question the efficiency of these 'vaccines' are nothing short of *delusional conspiracists* - even when the alarm is raised by leading medical experts.

Pharman's tender loving care

It must be understood that our good media know a lot more about medicine than our scientists ;-). But the truth is now catching up with them since one of their newscasters has died from the 'vaccine'. I said 'vaccine' - not Covid.¹³

Regarding the conspiracy delusion, the media are not totally wrong since there effectively is lunacy.¹⁴ But the world was off its rocker BEFORE Covid. The corona only fuels arguments to these conspiracy 'specialists'. These are beside themselves with or without Covid. Interneet is their universe. They spend their entire days surfing it, gobbling nonsense and giving it the highest credibility. Someone should tell them however that Interneet is not a proof since it says everything and its opposite.

But let's not fall into Manicheism. Without being a conspiracy theorist, there are legitimate questions to which answers are not satisfactory due to excess censorship. And that's normal... it is in the media's financial interest to play the game - to play safe.

The CITIZENS...

The average citizen suffers from intellectual anemia. Its priority is first and foremost to be accepted by his peers, to be 'in'. He will therefore adopt the ambient narrative so as to avoid marginalization. '*Me, it's Jonestown & Jonestown*' ...even if that means getting poisoned with thousands of others splashing their way in the mud to the slaughterhouse ¹⁵ ... and thus be considered a 'good citizen', courageous and exemplary - henceforth a proud role model for his still hesitant unvaccinated fellow-citizens.

As I reveal in my book *Master of Times*, man settles for the easy way by simply doing what others do for fear of being marginalized, and prefers fading out with general approval rather than blooming and experiencing rejection. For man, adherence to the majority is a comforting sedative: '*Everybody does it, so let's also do it! We can't be so many to be wrong!*' Yet, the Flood demonstrates otherwise. (Genesis, chapter 7)

Martin Luther King summarized that kind of situation pretty well: « *Success, recognition and conformity are the bywords of the modern world where everyone seems to crave for the anesthetizing security of being identified with the majority. ... Many people fear nothing more terribly than to take a position which stands out sharply and clearly from the prevailing opinion. The tendency of most is to adopt a view that is so ambiguous that it will include everything and so popular that it will include everybody.* »

THIS WAY, SHEEP!!

So we go where we are told.

We think that we choose the lesser of two evils. We prefer the CERTAINTY of getting the 'vaccine' over the UNCERTAINTY of catching the virus, thus believing that it will be over and done with the Covid, and that the page will at last be turned. We hence think forcing fate's hand. But the bad news is that these pseudo-vaccines do not prevent contamination. Vaccinees fall as much in the hands of the virus and even risk being more vulnerable to it, more contagious than others.[°]

¹⁴ I personally know a woman who never misses an opportunity to share her 'discoveries' drawn right from the Interneet well. Way before Covid, she once proudly claimed that « *the Earth is flat... and there is a conspiracy to persuade us that it is a sphere.* » Upon which I replied: « *Earth is not the only thing that is flat. I know a lot of people who are quite flat too.* » Later on, she shared that « *Real Jews are Black.* » I retorted that « *This is the kind of theory elaborated by anti-Semites to delegitimize Israel.* » Cut to the quick, she barked a loud 'NOooo!' and started to utter growls like an upset gorilla then left. That woman has made a man happy... the one she didn't marry ;-)

¹⁵ Wikipedia: *Jonestown, Jim Jones*

You find the word 'slaughterhouse' a bit strong?

What if you had lost a loved one? What about the tens of thousands of deaths around the world caused by this 'vaccine'? Or of the hundreds of thousands of people who have been disabled? All those *healthy people* whose daily life has become unbearable, now unable to work, study or play, to walk properly, to move normally, who suffer the humiliation of pooping in their clothes, whose hands never stop shaking, unable to handle scissors, a brush or write, or unable to feed themselves, to think clearly, or whose bruised body never stops suffering, experiencing ailments that plague them day and night... unable to recover, unable to catch their breath - not to mention the psychological distress they experience? *Yes, a slaughterhouse!* Covid-19 is less cruel to its victims than this so-called 'vaccine' is.

It is worth mentioning that over 275 million people have contracted Covid and recovered. Despite their natural immunity, the mad scientist is determined to vaccinate them. Crazy!!

[°] To avoid saturating this work with an excessive amount of footnotes, the degree symbol (°) will occasionally be used to indicate that the related information is validated in some other footnote present in this text. It is also worth noting that the data, statistics, percentages and/or numbers of cases/deaths relating to Covid may vary from one footnote to another due to the fact that the articles, videos and interviews to which they refer, come from different points in time during the period used for writing the present book.

PHARMAN'S « VACCINAL » CASINO

THE PEOPLE'S PERSPECTIVE

PHARMAN'S PERSPECTIVE

Torn between the fear of suffering/dying and the apprehension of being marginalized by his peers if he doesn't adopt their ways, our good citizen will reluctantly submit to the conviction that Big Pharman is moved by altruism and really wants what is good for him.

In a word and without judging anybody nor sinking into cynicism, governments, the media, doctors and citizens do whatever they can. As for Big Pharman, he does what he always wanted to: *a fortune*. Because in the end, these experimental 'vaccines' will have been the most lucrative medical improvisation - not to say con job - of all times.

So it's not by adhering to the ambient one-track-mind discourse - bred by the Establishment - that one is displaying intelligence. It is effectively well known that...

"The mental age of a crowd is inversely proportional to its size."

Upon which I'll add my own saying:

- *Do you know what the difference between a child and an adult is?*
- *The child believes the adult.*

IT'S GONNA PERHAPS BE OKAY ¹⁷

There are too many gray zones in this case to gamble our health ¹⁸ on Big Pharma's square of St.Unexpected's Casino...

PCR tests used to 'detect contaminated people' must be calibrated to 30 cycles max in order to remain accurate, otherwise they generate erroneous results. Most are however calibrated at 45/50 cycles, even more, so as to obviously generate false positives.

They demand from people having symptoms to stay home... because THEY DON'T HAVE A CURE, NO REAL SOLUTION.

We are being sold the idea that the 'vaccine' is the solution while the vaxed must still wear a mask, keep his/her distance, get confined at home... In short, behaving like an unvaxed. And at the end, the vaxed gets Covid... because THE VACCINES ARE INEFFECTIVE.²⁰

They bragged about the so-called merits of this 'vaccine' by stating that they protect us at 90%. But that's only a HALF-TRUTH. What they omit to say is that this percentage exclusively relies on our behavior. We are effectively protected at 90% after our 'vaccination' if, and only if, we lock ourselves up at home. But as soon as we get out, our chances lower to 60%. Then if we don't wear a mask, we're only protected at 35%. If afterward we omit to keep our distances, we're barely protected at 15%. And after that, we get Covid like any unvaxed.

¹⁷ My statements are based on this video to which I add MY OWN CONCLUSIONS and improvised percentages. So this is not its authors that are putting them forward. *Dr Seligmann et Haim Yativ : plus l'on descend en âge, plus les vaccins sont dangereux (the younger the age, the more dangerous these vaccines are)* <https://www.francesoir.fr/videos-les-debriefings/israel-yativ-seligmann-juin-2021>

¹⁸ My dog's health maybe, but surely not mine.

¹⁹ Wikipedia: *COVID-19 testing / Test diagnostique du SARS-CoV-2*
Some of these tests have even generated 95% false-positive results throughout months in the United-Kingdom.
Youtube: *Hold-Up Le Film Choc 2020* <https://m.youtube.com/watch?v=Wd3xHzod72I&list=PLU9gjs2zQ-SNwtKD1A-tHvMBD54n0W7d&index=2> + pour la suite... <https://holdup-lefilm.fr>
It is REALLY EASY to 'increase' the number of Covid cases: one only has to augment the amount of tests. Imagine for instance that 10,000 people are tested during a week and that 300 of them are positive (3%). The following week, you only have to test 100,000 people where 3,000 of them will come out positive (still 3%). But instead of talking about the percentage, you simply talk about the rise in the number of cases. So you will say loud and clear that the amount of Covid cases has increased tenfold in just one week. EFFECTIVELY, DIDN'T 'CONTAMINATED' PEOPLE GO FROM 300 TO 3,000 IN ONLY 7 DAYS? « *Terrible! Tragic! Quick, everyone to the vaccinal shelter. Covid is on a rampage...* »

In marketing, numbers are best vendors. I know a retailer who once was sold the idea to purchase radio publicity for \$3,000. The salesman held out the prospect of having all these tens of thousands of listeners as potential clients. *Bla bla bla*. Finally the retailer got lured into purchasing that publicity... and sold one guitar. Spending \$3,000 to sell a guitar, that's expensive, you'll agree. So don't get fooled by numbers: losers proliferate and the casino always ends up winning. And in this case, the casino is Big Pharman and what is at stake isn't your money - *but your very health*.

²⁰ Alexandra Henrion Caude, neurobiologist, microRNA geneticist and former INSERM Research Director, shared that she recently had to attend the funerals of a DOUBLY VACCINATED FRIEND THAT DIED FROM CORONAVIRUS. Efficient these 'vaccines'?!
Entrevue avec Alexandra HENRION-CAUDE <https://www.youtube.com/watch?v=GDunt-81hnc> (17:05)

Effectively, if an unvaxxed locks himself at home, he'll have 90% chances not to contract Covid. If he goes out without a mask, his chances drop to 35%, etc. In a word, vaxed or not, our chances rest solely on our behavior, not Pharman's elixir.²¹

No one knows the exact composition of these 'vaccines' apart from Pharman's druids. Our governments and doctors don't. Even the *European Medical Association* declared not knowing their exact composition. The 'recipe' is therefore the well kept secret of these manufacturers. We've got to trust them.⁹

The 'vaccine' is harmless we're told, yet newborn babies die after having been breastfed by their freshly 'vaccinated' mother.²²

THESE 'VACCINES' ARE 240 TIMES MORE DEADLY than the average conventional vaccines and are susceptible to cause 18 times more harmful side effects.²³

Here are some additional observations by Dr. Hervé Seligmann who, by the way, is from the Emerging Infectious and Tropical Diseases Research Unit of the Faculty of Medicine at the University of Aix-Marseille, as well as engineer Haim Yativ on the results of their intensive research study covering Israel along with 22 other countries on a period of many months regarding these vaccines. These specialists are humble enough to talk in the conditional tense.²⁴

There would be an increase of incidence of Covid among vaccinees after the 1st injection. (So vaccinees would be more vulnerable to the virus than the unvaccinated.)

The more vaccinees there are, the more there are dead people. Vaccinees would be 15 times more at risk of dying from Covid after the full vaccination phase compared to unvaxed people. And the latter would experience medical problems following their contact with vaccinees. The increase of vaccinees would thus contribute to the rise of Covid-19 cases.

One of the causes would be the sudden, uncontrolled and excessive production of Spike proteins generated artificially by the vaccine compared to the much lower amount generated by the disease in its natural state.

The virus mutation would be brought about by the vaccination itself. So the more you vaccinate, the more variants emerge. Effectively, countries having been most vaccinated see more variants emerging.²⁵ Which in itself creates a vicious circle because when a variant emerges, we are told that a new vaccine is necessary to counter it.

To conclude, THE DANGERS STEMMING FROM THE VACCINE WOULD EXCEED THOSE FROM THE VIRUS - or rather add to them since this vaccine doesn't prevent from catching Covid.

And after that, Pharman insists on injecting this hazardous elixir in your body, pretending that it's better for you. (Yeah right.)

So don't let people intimidate you when they say that you're irresponsible and endanger others by avoiding vaccination. These are scholars of ignorance. They flee a virus and poison themselves with worst. They behave *"as though a man fled from a lion only to meet a bear."* (Amos 5.19)

²³ 6,000 ÷ 25 = 240. Unless I'm mistaken with my calculations... the CDC reports a yearly average of - all vaccines taken together - about 25 DEATHS and 16,000 adverse events (VAERS). As for the Covid 'vaccination', over 6,000 DEATHS and 300,000 adverse events were recorded and almost 20,000 hospitalizations. Attention, WE'RE TALKING HERE ABOUT PROBLEMS CAUSED BY THE 'VACCINE' - NOT THE CORONAVIRUS. These deaths add up to those who died of Covid-19 since these phony vaccines still won't prevent 'vaccinated' people from contracting the virus. And this data is solely about the USA!

Would it mean that this 'vaccine' weakens the vaccinated to the point where they become hyper-vulnerable to their own pre-existing - and potentially life-threatening - medical condition and would somehow accelerate the aggression of these diseases on their own system?

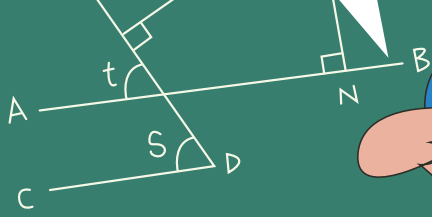

²⁴ Some info may concern and be limited to an age group, and the data be based on Israel and/or on a few other specific countries.

STRAIN OF ORIGIN

Let them drift comfortably in their titanic mirage. We'll talk about it in 10 years when their atrophied generation will have crashed on the iceberg of disillusionment. *"Let them alone; they are blind guides. And if the blind lead the blind, both will fall into a pit."* - Jesus (Matthew 15.14)

Reality effectively suggests the opposite of their nonsense: vaxed people would risk being more contagious than the unvaxed.²⁶ And for a good reason since when you breathe after having been vaccinated for the flu, you project 6 TIMES MORE viral particles with your breath, thus exposing others to the flu.²⁷

BE CAREFUL

You're already vaccinated?

Good for you if you don't have any harmful side effects. Don't push your luck with more injections though.²⁸

Unless you don't mind being GMOed, thus eventually belonging to the *Race of the Modified* or, if you prefer, becoming a GMH (Genetically Modified Human - as in *human-GMO*) as well as your descendants after you who will risk inheriting these modifications, not to say genetic malformations.²⁹

Let's keep in mind that these are downright genetic 'vaccines'.³⁰ They inject parts of the virus' genetic material, in this case the one producing the Spike protein. So hello there, lottery. We ignore the consequences. 'Keep your fingers crossed' because these are EXPERIMENTAL vaccines... and you are among the *guinea pigs*' for these clinical tests.

I tell you that because we've been talking about Réjean in the *past tense* lately.³¹ He went ahead of us in the world to come. A good guy. He was cashier at Jame's. We were going to buy a submarine sandwich when we learned of his demise. He just had his 2nd injection the previous day. He still had his bandage on the shoulder when he collapsed - DEAD - during his afternoon shift at the corner store. His body didn't stand the genetic aggression concocted by the sorcerer's apprentices of Pharman's Clan.³² 49 year old Réjean, in good shape, tall, strong... gone prematurely. Too bad.

That's not a story I've read in the newspaper or on the Internet. That's not someone who told me that somebody he knew...³³ No. That's *Réjean* whom I was acquainted with and whom I met every week. It leaves a void.

³³ At this level, a neighbour shared with me that his 19 year old granddaughter abruptly swelled up after the inoculation: her neck and face enlarged monstrously.

And then you find it stupid to see a good guy like him disappear *forever* without any warning.³⁴ A low profile fellow who was doing a great job. His submarines were unbeatable. He was pleasant, extremely polite and professional. Gone!! Because of one jab too many. And the irony is that he took the needle in all innocence, thinking that it was the right thing to do, to get protected. He's been the victim of his naivety.

It's not without reason than millions of Americans are avoiding the 2nd inoculation.³⁵ They are not all 'fools' - 'conspiracists' - as the media would like us to believe. They want to live. Even the deaf-mute worldwide rallied to express their opposition to this 'vaccination'.³⁶

A friend of mine as well, visually impaired, categorically refuses to be 'vaccinated'. Height of injustice, he is being refused access to restaurants when he accompanies his visually impaired girlfriend because he doesn't have the pseudo 'health' pass.

METAMORPHOSIS

Here is how sweet naive citizens become bitter 'conspiracists'...³⁷

When your healthy son dies the day after his 'vaccination' - then you become a 'conspiracist'.

When you have a miscarriage 3 days after getting this 'fabulous vaccine' - so then you too become a 'conspiracist'.

When your mom who in great shape suddenly has permanent facial paralysis since her 'vaccination' - then again you as well are added to the list of 'conspiracists'. And that list increases to the rhythm of the catastrophic vaccinations.

It seems that the best cure against 'conspiracism' is to stick your head in the sand, shrug your shoulders and convince yourself that « *Everything's gonna be alright.* » As Leonard Cohen sings in his 'Puppets' song:

*« Puppet lovers in their bliss
Turn away from all of this
Puppet reader shakes his head
Takes his puppet wife to bed
Puppet me and puppet you »*

That's it - we are all puppets - why should we care about what is being done to others - right?

³⁴ You can't help thinking that his life would have made more sense had he died from the Covid virus rather than from the 'vaccine' that was supposed to protect him from it.

VACCINES and GAMES

But to deny the evidence, Big Pharman juggles with numbers in one hand and data in the other and ends up with an interested interpretation of his own nebulous statistic. Because for Pharman, a death or a disability caused by his vaccine is just 'collateral damage', a 'hitch'.³⁸ « Hey, what can I say, can't make an omelette without breaking eggs, right? » But when the 'egg' is your friend, your son, your daughter, your spouse... that changes the situation.

And behold, they now have recourse to the dubious practice of a lottery to incite the masses to come to the slaughterhouse: « Chance winning a motorized wheelchair to counter an eventual paraplegia caused by the vaccine, or a shiny maple-wood coffin to face the worst scenario with class. Hurry! We must sell our stock of vaccine before its expiration date. Show a sense of civic responsibility, get vaccinated. »³⁹ ;-)

As we can see, this pandemic is quite a teamwork: Big Pharma mass-produces the drug, the government prescribes it, the media promulgates it, doctors sell it, and we the people are subjected to its forced consumption.⁴⁰

Despite the irony of my discourse, I do not diminish in any way the collective tragedy caused by the pandemic but I highlight the pharmaniac network's outrageous profiteering opportunism.

³⁸ Aren't we just 'receptors' to him? That's at least the jargon his ilk are using to define 'humans'!

Here is surely his reasoning: « Think about it guys! Things have to be seen in perspective: what is one million vaccine injured compared to the entire international community? This represents only a tiny 0.013% - which means that 99.987% of the world's population is not harmed. Is this not a small price to pay for such a great benefit as our vaccine that protects no one, multiplies variants and generates humongous revenues? What are 100,000 deaths caused by our vaccine if it is to save the remaining 7,869,900,000 people? If this is the price to pay for subjugating the world populace - well so be it. »

How to register for the Michigan COVID-19 vaccine lottery <https://www.fox2detroit.com/news/how-to-register-for-the-michigan-covid-19-vaccine-lottery>

⁴⁰ At this level, tasks are being shared: our physicians are sometimes recycled into 'set doctors', pushers promulgating their sponsors' poison, journalists for the cheap TV audiences while our 'real' journalists occasionally act as health 'specialists'... fact-checkers who inevitably fact-check to the favor of their pimps.

HEAD GAMES

And when such incentives fail, they'll have recourse to intimidation, menace and blackmail: they'll threaten to lay you off from work,¹ prevent you from seeing your loved ones by limiting your movements... And if you still don't take the bait, they will bring out the big gun: the GUILT TRIP.

« *Reprehensible and egoistic citizen! Irresponsible coward who only thinks of himself by snubbing the common good and despising his fellow citizens' need of solidarity during their trying collective suicidal venture.* »

The good news is that you don't have to commit suicide - for anyone - never mind solidarity. Your death won't benefit anybody, other than Pharman of course who will have made a profit with your vaccinal death, or your eventual health problems. Deprive him of it. Remain alive and healthy.

These coercive methods work with most people though, since many get pricked - *not for medical reasons* - but believe it or not, for futile motives such as being allowed to play bingo, go to the hairstylist, eat at the restaurant, party in a nightclub or get a free joint from their municipality; or for more serious reasons such as travelling, see loved-ones, keep one's job, feed the kids and, in dictatorial countries, avoid jail.

DANIA'S BADTRIP ²

An acquaintance of mine confided to me in a sad voice that she regrets having been 'vaccinated'. She never really wanted to in the first place but since she wanted to go to Israel, she resigned herself to the needle... BUT NOW that initial 'vaccine' is supposedly obsolete, so she 'needs' another shot otherwise she won't be allowed to return.

She got duped by Pharman and she is now trapped: either she gets back to square one as if she never had been 'vaccinated' - with all the restrictions that this entails - or plays Pharman's game and GETS **RE**VACCINATED so she's allowed to renew travelling.

Pharman's World

Pharman is driving her crazy: you can/cannot, you can/cannot... And she is wondering when this new jab she's planning to take will expire. Because this upcoming 'indispensable new vaccine' without which she won't be allowed to travel will also be soon obsolete - but when? A month? Three? Six? Will she need a new needle every time she wants to travel?! She rightfully questions when this *head game* will come to an end.

Pharman hijacked her joy. She is now depending on him for what she wants and needs. Had she known from the start, never would she have gotten the shot in the first place because now *Pharman is calling the shots... literally.*

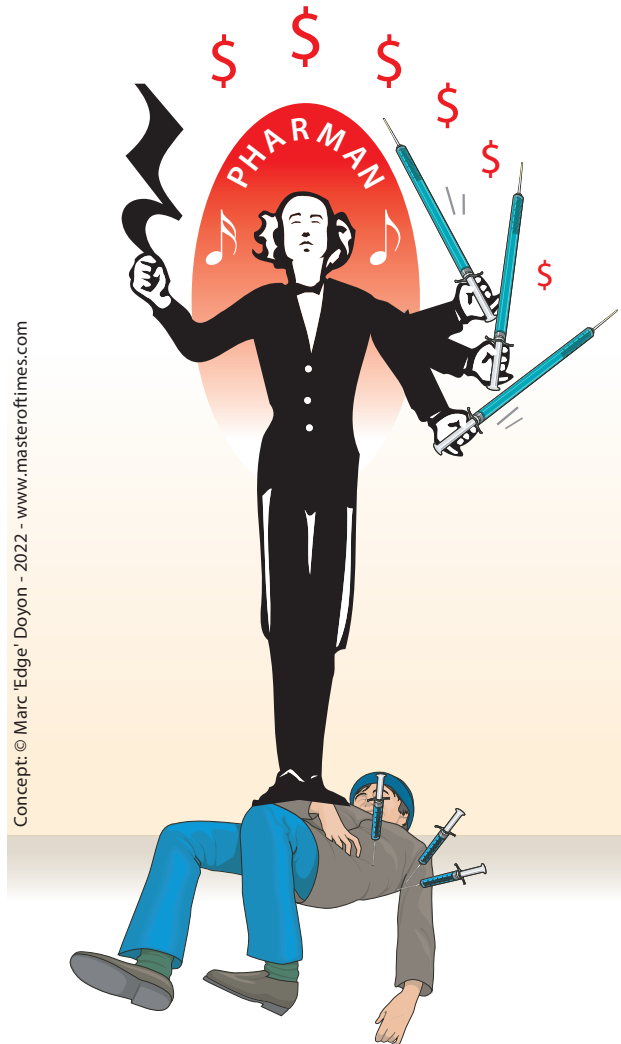

He runs red lights, goes at a dangerous speed, doesn't respect rules nor ethic, endangers people's lives... and nobody dares putting him in his place.

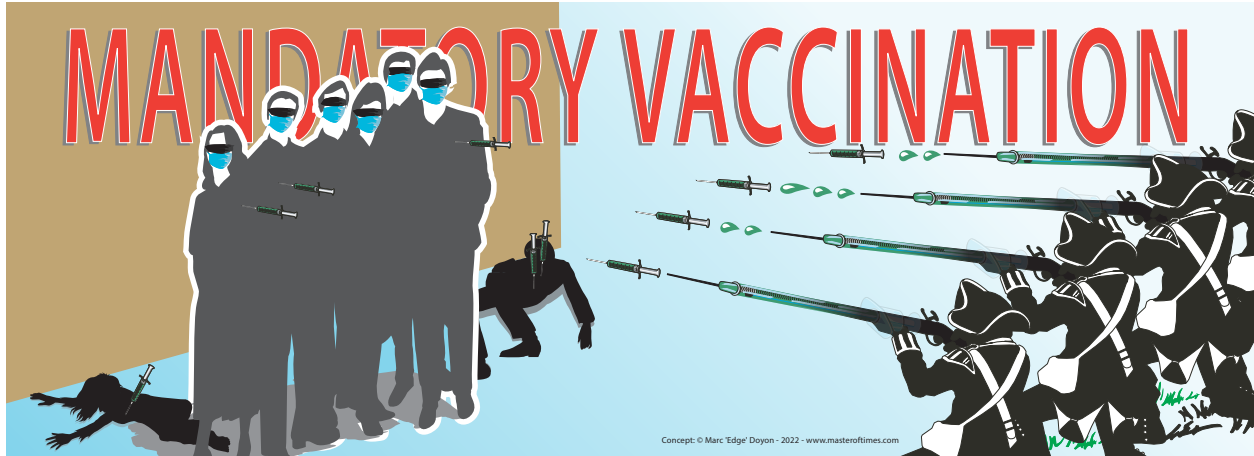

And for good reason, Pharman is untouchable.

His contract is rock solid.

He can now literally, I did say *literally* - get away with murder. And he does!! He actually murdered thousands of people on each continents and nobody interferes. Our coward, servile and complicit governments bow down to him - from promoting his deadly mixture all the way to the morgue where his victims are piling up. So he gives free rein to his darkest fantasies since the States have signed a pact exonerating him from any consequences of his homicidal madness.

Mammon rules.

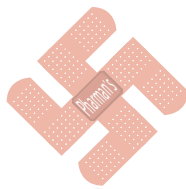

Let's not kid ourselves. Compulsory vaccination means being 'vaccinated' as often as these gentlemen want us to. Both - you and I - already vaccinated — or not. Their motto: *'Even too much is not enough.'*

PHARMACRACY

Democracy grants each individual the right to self-determine. With this so-called 'sanitary' emergency as a pretext, we now see this freedom being sacrificed for the 'common good'. The definition of 'common good' being of course defined by Pharman - *exclusively*. So now our liberty is limited to express HIS opinion... failing which our discourse is considered heretic by our servile leadership and condemned by its horde of yes-men. « *The citizen exists to love, honor and serve Pharman... in silence.* » So let's put our masks back on and humbly submit in silence. Don't these muzzles exist to remind us that *silence is golden* and, above all, not to bite, by some caustic statement, the pharmaniac regime in place?

BRAVE NEW WORLD

Hail Adolf Pharman!!

Supreme Guide of the blind, sly strategist that disguises his trap as a solution. Let each citizen of the New World Order honor him by a nazi salute from his vaccinated arm, having his swastika bandage clearly visible on the shoulder.

« *Understand, noble recruits, that your sworn enemy is he who - unlike you - turns down the needle. These parasites constitute a menace to our nation - a grave danger to the civilized world - and must at all cost be neutralized.* »

PRINCIPLES of HUMAN STUPIDITY ³

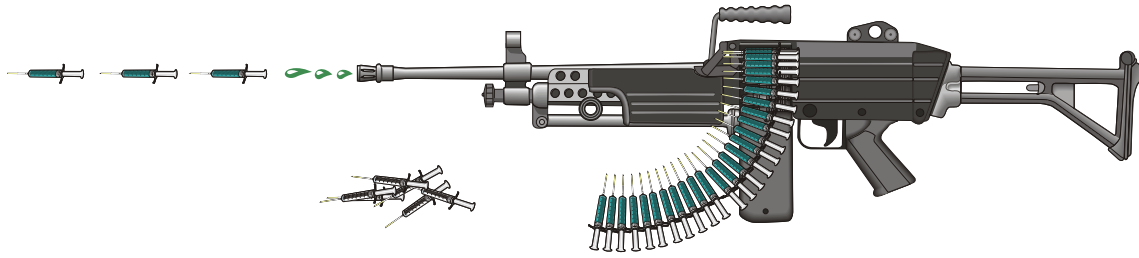

Historian Barbara Tuchman identifies three « principles » at the core of anti-Semitism. These could also apply to the present 'health' nonsense...

1. It is vain to hope for logic - that is to say the reasoned expression of an enlightened mind.
2. Appeasement is futile: submission to vaccination only encourages Pharman's mad ardor.
3. Madness is independent of its object. Whether citizens get vaccinated or not is by no means a determining factor. The impulse originates from the pharmaceutical lobby and the political climate.

I assume that all those who decried Hitler's abuses were *conspiracists*. That is surely what his media said at the time. So we should assume that the actual vaccinal segregation, the lack of transparency and its resulting abusive censorship as well as the abuses of power and the autocratic decision-making are all signs of a normal situation - right?

³ Wikipedia (French): *antisémitisme* [section: *Principes de l'antisémitisme*]
Original text: 2. *Appeasement is futile. Submission to the enemy stimulates his hostility.* 3. *Anti-Semitism is independent of its object. Whatever a Jew does or doesn't, is not a determining factor. The impulse originates from the persecutors' needs and the political climate.* (Quote summarized in my words)

Pharman's latest proposal to quell the growing opposition

Many wonder how Hitler can have succeeded in fooling so many people - millions of them - and not the least: politicians, religious leaders, businessmen, brilliant academics, entire populations... One thing is certain, Pharman have surely cracked the code and appropriated the secret since he has embarked on the same path with great success.

I must personally confess that when I think of Pharman, the following thoughts come to mind: coercion, blackmail, abuse of power, disrespect, imposture, unhealthy opportunism, media manipulation, pseudo-medical dictatorship, collusion and pharmaceutical deception...

The current coercive measures undertaken to impose these injections constitute an assault on democracy, a shameless social blackmail and a historical precedent in terms of its planetary scope... worthy of the darkest hours of history. Who could have guessed that we would have fallen so low in such a short time?

And the hospital - having been purged of professionals opposing this 'vaccine' scam - is now a place where the citizen hesitates to venture. The remaining medical personnel are effectively compromised by Big Pharma's draconian directives whose sole priority is to subject you to its 'vaccinal' elixir. Your health now seems the least of their concern. At this stage, who knows if they would dare vaccinate you without your knowledge during surgery.

We are now on our own,
thanks to this emerging pharmacracy.

Dictator's Ship

On Captain Pharman's luxurious Titanic, whose crew is made up of our elites, they blindly obey the tiniest of his directives while we're heading full speed towards the MANDATORY-VACCINATION-FOR-ALL iceberg. Let's not kid ourselves, from one stopover to the next, that's where we are being led to. Unless of course we take lifeboats before the inevitable crash. Sailing on a freezing ocean of unashamed lies, hostages of this accursed liner, we are led to a destination other than the one we were initially told.

We've been lied to all along.

The 'health' passport is not a safety precaution but an additional intermediate constraint elaborated to divide passengers, marginalize the insubordinate and weaken resistance. That's simply an incentive to reward the obedient and penalize the inflexible.⁴

So let's submit to their Manichean 'wisdom' since everything is either black or white, right. There are only good caring harmless vaccinated people, and the others... evil anti-vax contagious conspiracists ;-)

Believe it or not, these are even referred to as « *members of the far right* » and « *racists* ». This is what happens when the media has lost their vocation and become indoctrination instruments. Unable to counter the arguments of those opposing the regime's abuse, they are reduced to calling challengers every imaginable name, hoping that the docile mass will buy into these lies.

Yes, let's submit to these 'leaders' who improvise from week to week, managing the situation any old how and insisting that we receive a 'vaccine' of which they are unaware of the consequences.

Yes, let's follow these Empirians wherever they lead us, always deeper into the spacious catacombs of the Unknown until we lose our way back. They mislead us, invite us, sweet-talk us, promise us... without ever reaching any destination. Keeping up the pace since 2 years, they never slow down, pursuing their march with constant rhythm where nobody knows. A place without name, away from any known point of reference.

Yes, let's believe them: « *Everything's gonna be alright.* »

The only thing that links us to them is our naivety and their sedating self-confidence.

SHOULD WE LAUGH OR CRY

Comedian Sebastien Recchia is aiming right at the bull's eye when he says, « *They've managed to create a reality that doesn't exist and that people believe in.* » Who can effectively verify the veracity of their statements since it is a reality invisible to the naked eye. They can say whatever they want, the common of mortals cannot check. And the few rare braves who dare doing so and prove that there is abuse are unjustly discredited, labeled 'conspiracists' then fired. The average citizen is therefore reduced to betting his health, his future, even his happiness - not to say his own life - on the promotional statistics of Pharman's televised propaganda.⁵

At this point, we might as well use Norton antivirus to eradicate this 'pandemic'. This software cannot do worse than these incompetents who have been multiplying conflicting directives for too long already. Their panacea is as effective in countering Covid as a plaster on the forehead would relieve a migraine. Effectively, 4 triple vaxxed - so inoculated three times - 3 times!! (III) - testified to me in person that they contracted Covid.

But let's face it, if they are incompetent in medical matters, they are masters in the art of spin. Effectively, the majority seems to adhere to the fallacy that this virus is lucifugous, that it would only prowl at night

especially between 22:00 and 05:00 during the holiday season. Curiously, it would hide any other nights. That's why the curfew is only for these moments of yearly celebrations. Therefore, avoid going in the street on the evening of public holidays, especially on Nativity and gregorian new year's eve when it is particularly aggressive and would roam the streets looking for a prey.⁶

We can see that Isaac Asimov was right when he said that « *The bigger the lie, the more people believe it.* »

So barricade yourselves, citizens. The bogeyman will be lurking in your neighborhood during the holiday season, accompanied by his niece *Delta* and his little brother *Omicron*. Beware if you don't follow Big Pharma's parental directives.

I repeat it: in spite of the irony of my words, I do not deny that there is a coronavirus or a pandemic. I only say that there is self-serving dramatization and soporific propaganda, not to say downright misinformation.

« *Once you make someone believe they are in mortal danger, you can do whatever you want with them.* » Jean-Dominique Michel, Health anthropologist.

« *If you want to control the masses, you have to create a climate of fear.* » also said one of Hitler's accomplices whose name I can't remember.

And today, these phamaniacs have skillfully created a climate of anxiety where fear reigns supreme.

Fear of being contaminated, of getting sick, of dying... *fear of your fellow man*. Fear of losing your job, of not being able to pay the rent, of becoming homeless. Fear that the situation will become permanent (impossible), fear of living in deprivation, of losing our reference points. Fear of being perceived as a 'conspiracist', of being excluded, isolated, marginalized, of becoming an outcast. Fear of being pointed at and blamed, accused of being a carrier of the virus and therefore of being responsible for the propagation/perpetuation of the pandemic.

This vaccine controversy is undeniably the embodiment of the tale *The Emperor's New Clothes*⁷ where no one dares telling the truth for fear of incurring the wrath of the Great Prevaricator as well as being ridiculed by his peers.

⁵ « *There are three kinds of lies: lies, damned lies, and statistics.* » Mark Twain (M. Twain credits this statement to Disraeli) *
* Dictionnaire de Français Larousse: 'MENSONGE' / Citations.

⁶ I didn't know that viruses could circulate in the street at -20° Celsius! I hope they'll be warmly dressed otherwise they'll catch a cold. That your name is Adrena, Lyne or Omicron won't change anything. No one can brave such temperatures without getting sick.

⁷ Wikipedia: *The Emperor's New Clothes*, tale written by Hans Christian Anderson.

THE MORE IT CHANGES...

THE MORE IT REMAINS THE SAME

There was racism, then sexism... now it's *vaccism!* That's the new trend. They would now consider CONFINING SOLELY THE UNVACCINATED - just to add some extra pressure to make them 'come to their senses'.⁸ As for the vaxed, they'll have the exclusivity of all advantages.

What's next?
Shaming?

The listing of the unvaxed in newspapers - like under the Vichy regime - as if they were some kind of predatory pedophiles? Will they soon have recourse to snitching - like under marshal Putain's regime - this highly ranked collaborator of the nazi occupant.⁹ A scenario worthy of the *Dreyfus Affair* where the complicit leadership is bent on blaming a scapegoat they pertinently know to be innocent - in the present case, the unvaccinated.

Paraphrasing: the unvaxed can only be exonerated regarding the spread of variants around the world for the simple reason that they cannot travel. (They are denied travel rights because they aren't vaccinated, remember?) So those who 'carry' the big bad Omicron variant from South Africa to Hong Kong for instance are officially vaccinated - or vaccinated officials. This is confirmed by Wikipedia ([French]: *Variant Omicron du SARS-CoV-2*). I quote: « *The first four cases reported in Botswana, as well as the three confirmed and suspected cases in Israel, are from fully vaccinated people.* » So variants spread from one country to another exclusively with the help of the vaccinated.

Let's now recapitulate to summarize what we have learned since Spike escaped from his cell in Wuhan 2 years ago, namely that if Alpha, Delta, Omicron and Omega came into existence, that is solely because Pharman failed to put a condom on his ambitions. And

if this undesirable kinship imposes itself everywhere since to the despair of its hosts, that is - let's repeat it - due to Pharman's vaccinees who inadvertently smuggle them across the borders.

So stop blaming the unvaxed for everything and nothing. You might as well blame virgins for the transmission of venereal diseases.

Okay, you lost your 'genetic virginity'. No one blames you for that. But that's no reason to orchestrate the gang rape of reluctant citizens. Stop forcing them to go down the path that has gotten you nowhere and left you wanting no matter how often you repeat this accursed 'vaccination'.

Come to your senses please.

Resist the fear-mongering discourse of Pharman who has been bamboozling us from one 'variant' to another for 2 years. Put an end to his delusion. Boycott this madman. Send him on unemployment. He has no business ruling over our countries which it has taken over.

The enemy is not the unvaxed as he likes to say, but well and truly himself. Yes, Pharman IS the problem. He is just using the '*divide and conquer*' strategy and that is working. It has been working so far and will only stop if you want it to. Resist him. Just say '*That's enough!*' Stop playing his game. Stop taking the bait. Stop blaming the innocent for *his* crime.

Speaking of variants, knowing that the **Delta** variant ('D' - 4th letter of the Greek alphabet) was followed by the **Omicron** variant ('O' - 15th letter), will the next one be named **Lambda** (L) - thus forming the abbreviation '**DOL**' - short for **DOLLAR** - the main drive behind Pharman's insane crimes?

⁸ *Coronavirus/Autriche: le chancelier attend l'aval du parlement dimanche pour un confinement des non-vaccinés*

If somebody has to come to their senses, shouldn't it be our leadership? Doesn't this prophecy from Isaiah fit them like a glove? "*Those who guide this people have been leading them astray, and those who are guided by them are swallowed up.*" (Isaiah 9.16) How come they and their yes-men are the only ones not seeing Pharman's scam that has now been going on for over **TWO (2) YEARS WITH ZERO (0) CONCLUSIVE RESULTS?!** And let's not blame the unvaxed for the continuation of this pandemic. Even if the whole planet was vaccinated up to the last man, we would still be in the same situation: *variants...* which come not from the unvaxed but rather are by-products of Pharman's untimely vaccination campaigns.* Helloooo!

Even if all the unvaxed were shipped to the moon, it wouldn't make any difference. Would they come back on earth 10 years later, the vaxed would still be fighting SARS-CoV-2 because Mr. Pharman is against any treatment. That has to be his 'solution' or nothing. What do you want, he is the decision-maker, the boss, the king. So we will go around in circles as long as our governments keep eating out of his hand.

Let's not despair though, some rare and brave politicians show clear-headedness regarding Covid...

IN SPITE OF EVERYONE

If vaccinated people - who willingly accepted their 'vaccination' - tolerate that Pharman **IMPOSES** his 'vaccine' to the others who hesitate, who will then prevent him from subjecting US ALL to his caprices? Who will dare intervene when he'll order us to take his 3rd, 4th ... umpteenth dose or booster shot... without which nobody gets a 'health' pass?! I quote: « *Starting October, only those immunized with the booster shot, or those who received their SECOND SHOT less than five months ago, will be eligible for the so-called "green pass" vaccination certificate.* »¹⁰

Aren't we this way encouraging Pharman to carry on with his abuse and unhealthy ambitions?

Thus the 'HEALTH' PASS is solely granted to those who already got their TWO PHARMANIC 'VACCINES'. You only got one? Too bad, you won't get your pass. Now go back to square one with full restrictions as if you *never* had any vaccination. And when Pharman will inaugurate his 3rd 'vaccine', your 'two vaccine health pass' will automatically be revoked. Square one again for you. It will only be granted once you have taken your 3rd 'vaccine' - NOT BEFORE.¹¹ We will then be all at his mercy: 4th, 5th... umpteenth injections.

You have doubts?

Well, Pharman's little nephew himself recommends the 3rd vaccination.¹² And if all these injections were not already planned, how come 4.2 billion doses were sold to Europe whose population is ten times less?¹³

To vaccinate their pets maybe?!

QUESTION

How many vaccines are needed for tuberculosis?.....1
And tetanus?1
Measles?1
Mumps?1
Rubella?1

As for Covid, it will require EIGHT (8).....minimum¹⁴

You think that I'm exaggerating? Well, as I'm writing these lines, some countries are already at their 4th injection? Pharman's little nephew considers selling 29 billion dollars worth of vaccines in 2022. He's got the wind in his SALES. If no one stops him, we'll still get vaccinated in 2025!¹⁵

LET'S SUM IT UP. According to what they say...

- we would need the 'initial full vaccination' - we're already talking about three vaccines3 vaccines¹²
- we would then need booster shots to stimulate the preceding vaccines, let's say2 vaccines¹⁶
- after that we would need vaccines against variants - let's say 2, minimum.....2 vaccines¹²
(We are not out of the woods with this one since a new variant emerges each and every time a vaccination campaign ends.)
- we will finally need their yearly vaccine... for life1 vaccine per year¹²

Gotta believe them.

No kidding.

They love us.

Truly.

And when the Clan will run out of excuses to make money on the back of our governments at the expense of our health to justify these useless recurrent 'vaccination' campaigns,¹⁷ well, they'll only have to create Covid-37... which, surprise, surprise, will surely 'escape' from another laboratory. And then the circus will rear its ugly head... again.

In a word, **PHARMANIÇ PARADIŞE**.

Effectively, Pharman has adopted the SOFTWARE INDUSTRY's APPROACH where the era of a definitive purchase is over. The payment is henceforth periodic - as for a rent. Indeed, the good old days are over when you received an injection for a disease. You're now 'confined' to a lifetime 'vaccination' program.

We can always understand that they request our body for science after our death but now **WE SHOULD GIVE THEM OUR BODIES WHILE WE'RE STILL ALIVE?!** Shouldn't they cut their coffee with a bit of Ritalin to calm down their **FINANCIAL BULIMIA** as well as their insatiable megalomaniac drive?

Isn't time that a David, a hero arises to stand up Pharman's shameless greed as *Robert Bilott* did for DuPont's? There is a limit to poisoning people.¹⁸

IF IT AIN'T BROKEN, DON'T FIX IT

I personally know seven people who contracted Covid-19. It was far from being pleasant but they all got over it. Two got really sick but recovered by themselves without any treatment. The next two, being in Africa at the time, were treated with Azithromycine and recovered.

The other two, a couple, managed it *cold turkey*, bravely, without any medication. The whole thing lasted only three days: fever and confusion, headaches, stiffness and chills. For any cure, they used only food supplements and vitamins. The husband inhaled *Ravintsara*¹⁹ antiviral essential oil from Madagascar because he was experiencing persistent discomfort in his bronchi. In his own words, he has « *experienced worse discomfort than this with other flus.* »

That's it!! Out with the big bad 'SARS-CoV-2' virus - the cause of all this worldwide commotion, the justification for vaccine passes, intermittent masks, endless hygienic rituals and unjustified repeated 'vaccinations'!

As for the seventh one, being robust and healthy, he experienced an unusually weird sensation in his throat but was OK almost the next day. That was it, practically no symptoms. However, against all logic, he decided to get 'vaccinated'... twice!! And this even if he had natural immunity.

Thus after his 2nd 'vaccination', he shared with me that he felt « *a sensation that I had never had before* » (due to the vaccine obviously). He then went on to describe how - on several occasions - during a few days, he desperately hit himself violently on the chest to reactivate his heart which repeatedly stopped beating. His testimony was punctuated by numerous « *I'M SCARED!* »

"A tree is judged by its fruit." - Jesus

Here we recognize Pharman's fruits: apprehension, fear, unease, insecurity, intimidation, blackmail and coercion. Hmm, sounds a bit like nazism's fruits doesn't it? So don't give in to him or it will get worse.

¹⁷ *Israel records OVER 10,000 NEW DAILY COVID-19 CASES* <https://www.i24news.tv/en/news/coronavirus/1629915696-israel-records-over-10-000-new-daily-covid-19-cases>
AFTER MORE THAN TWO YEARS OF INTENSIVE VACCINATION, WE'RE BACK TO SQUARE ONE. Hurray for Pharman's indispensable solution!!

To justify such a poor performance by so-called professionals, there are only two possible conclusions: either Pharman is a total incompetent who improvises, capitalizing on populations' naivety to get richer, or he is an opportunist taking advantage of the pandemic to experiment new suspicious products present in his vaccinal elixir. In either case, he is utterly unreliable. One thing is certain, there is something wrong with this pseudo-vaccine whose nature he won't disclose.

¹⁸ *Équateur : vaccination obligatoire à partir de 5 ans sous la pression du FMI* <https://lemediain442.fr/equateur-vaccination-obligatoire-a-partir-de-5-ans-sous-la-pression-du-fmi/>

¹⁹ Knowing this essential oil, I was tempted at the beginning of the pandemic to suggest to the medical authorities to look into the medicinal properties of this antiviral plant. Today, I realize that I would have wasted my time. Indeed, Pharman and his cronies have no interest in seeing this ideal 'pandemic' end. The revenues generated by it are too important for them to "shoot themselves in the foot" financially.

I'm no health specialist nor is this book a medical reference. I'm only a citizen noticing too many abuses and contradictions in this case. I'm in favor of wearing a mask, distancing and all the trimmings. But as for the 'vaccine', I have REASONABLE DOUBTS. Let me be clear, I like taking risks - CALCULATED risks - not risks holding life-threatening consequences. This is why I won't play Russian roulette nor this vaccinal roulette.

Observing the prevailing amateurism and haste with which this circus is improvised, is it not justified to wait, to abstain? ²⁰ As King David said when facing his dilemma: "*I am in great distress. Let me fall into the hand of the Yehovah, for his mercy is very great, but do not let me fall into the hand of man.*" (1Chronicles 21.13) Who can effectively foresee the consequences of this genetic elixir concocted by men playing 'gods' by attempting to alter nature's laws in all impunity and, moreover, on their fellow humans?

Haven't we seen the results with THEIR *Mad Cow disease*? So repercussions aren't always immediate.

We are sold these 'vaccines' as SYMBOL of solution... which they are not. Perhaps will they be in 10 years but for now they are only a panacea derived from an unreliable genetic technology in experimental phase whose results are totally unpredictable.

To accept this inoculation at this stage is reckless, even irresponsible for the simple reason that these injections have not yet reached the vaccine phase as such. And even if they did...

"It is not logic to vaccinate DURING a pandemic. Vaccination should be made AFTER the pandemic phase in order to avoid inappropriate reactions from the immune system. [Because] the more the efficiency of an anti-infectious treatment is incomplete, the more THE RISK OF GETTING MUTANTS IS HIGH. The coronavirus is one the virus that is mutating the most. Vaccines favor mutations just like antibiotics favor the mutation of bacteria. These are BASIC NOTIONS that any student learns during his syllabus." ²¹

Even Robert Malone, key architect of the mRNA technology, publicly recognizes the toxicity of this 'vaccine' and sharply criticizes Pharman for his untimely initiatives on populations. To such an extent that they are now trying to silence him.²² That is saying a lot.

Let's be patient.

Nothing is eternal in this world.

There was a BEFORE Covid, and there's gonna be an AFTER Covid. Let's not rush into the unknown. When you're healthy and vigorous, why should you risk destroying your health with a *product that has not yet been proven*.

I'm not calling for a revolt. I'm calling for respect. You wanna get vaccinated despite all the incurring risks? Go ahead. That's OK with me. *Just do it! It's your life*. As for me, I would rather protect myself using other means: distancing, washing of hands, wearing a mask, eating citrus fruits morning and evenings to reinforce my immune system...²³ That choice doesn't make a criminal or a dangerous individual out of me. I'm no more dangerous than 'vaccinated' people who must wear a mask to protect others from their contaminated breath.

Pharman's Clan counted its chickens before they hatched. And when they didn't, the Clan shoved professionals to knit some. Seeing that it didn't work, it then attempted to fool the world with cuddly toy chickens: an improvised elixir as a « *real vaccine* ». Effectively, had the pandemic barely started that Big Pharman was hurriedly signing astoundingly lucrative contracts with our governments, multiplying negotiations and promising them a 'miracle solution' in a record time. And now, after 2 years of pandemic, Dr. Victor Frankenstein has totally lost control over his creature that is begetting variants on its own.

²³ Things that you're gonna have to do after your 'vaccination' anyway.

RESPECT vs. NEUTRALITY

'Neutrality' is often a euphemism for *indifference* and *cowardice*. The fact that I call for respect does not mean that I am neutral or indifferent to the debate. On the contrary, I am actively campaigning against the imposition of this vaccine and the fact that they are trying to corner us, penalizing us and depriving us of our most basic rights in order to make us capitulate. If the opposite were to happen, if the 'vaccinated' were to be fired, deprived of travel and banned from restaurants, clubs, cinemas, concerts, swimming pools, spas, amusement parks, recreation, museums... it would be a scandal, and with good reason.

Let's notice that the official pretext evoked by our governments to justify this indiscriminate worldwide vaccination is that populations must be 'adequately protected' against the coronavirus. The problem is that this 'vaccine' does NOT provide adequate protection.

How is it that those who get 'vaccinated' - even publicly, for the show, such our lovely political leaders - end up testing positive for Covid-19? ²⁴ There are not a hundred possible explanations: either that is the 'vaccine' that is inefficient - or the PCR test. *I would personally say both.*

Kids and illiterate folks display more shrewdness in this respect than educated and conditioned people. It is only necessary to wrap the deception in a beautiful and attractive formula for the latter to be fooled.

Quite special, isn't it? Those who get vaccinated for polio, chickenpox, measles or tuberculosis won't catch it

afterwards BUT those who get 'vaccinated' - even three (3) times - against Covid, catch it. A Scam with a big 'S'. Those who put off this stunt are geniuses, MARKETING ACES.

When the dust will have settled, the great winners of this circus of bad taste will undoubtedly be those who will have abstained from getting 'vaccinated' - the *fringe minority* as they are called nowadays.

Thus for the simple reason of refusing to play this twisted game, the unvaxed are unjustly considered as lepers and deprived of their rights under the pretense that they refuse to be *adequately protected* and constitute a threat to others - as if the 'vaccinated' were *adequately protected* which is false.²⁵ This pseudo-justification is an insult to the intelligence - for those who are still able to use theirs of course.

It should also be noted that the unvaxed are not trying to impose their choice but rather to disseminate the information necessary to make an enlightened decision. Because if nothing is done, the stranglehold will be tightened on the millions of unvaxed around the world who are being silenced. There is a time for everything. And "*We should have done something!*" will not change anything once it's too late.

When this saga is over and that there will be an AUTHENTIC and reliable vaccine, perhaps it will then be worth taking a calculated risk. At that time they shall proudly affix on the label: '*Tested on millions of human beings*' ;-)

JUSTICE AT THE END OF THE TUNNEL

It is comforting to see that kingpins within the Establishment are not shielded from justice. The consequences of their imposture return to their face with a boomerang's faithfulness.

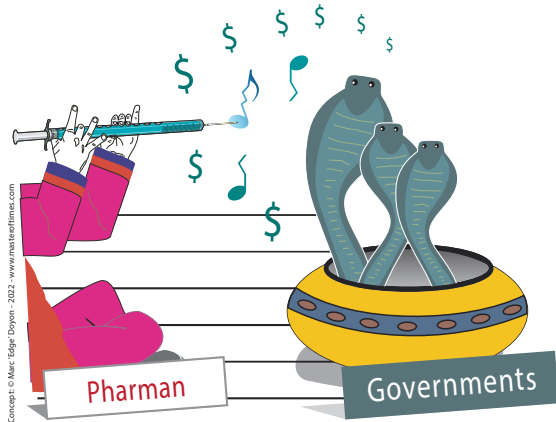

The WHO's scientific in chief risk the death penalty for having apparently caused the death of Indian citizens following erroneous recommendations regarding treatment/prevention with Ivermectin.² The *Indian Bar Association* sues Ms. Soumya Swaminathan and other members of the WHO for advising against the use of Ivermectin when, thanks to this drug, Delhi, Uttar Pradesh,

Uttarakhand and Goa - to name only these regions - had seen their number of Covid cases drop respectively by 98%, 97%, 94% and 86%. This medicine is not only efficient but also incredibly affordable: "People received two 21mg doses of Ivermectin for around 1¢." Which seems to upset Pharaman's financial ambitions.

Far be it from me to rejoice over the fact that this UN official could be executed for her sin. But this powerful message should give food for thoughts to those pencil pushers who think of themselves as untouchable behind their luxurious office furniture and whose decisions favor the pharmaceutical industry's insatiable mercantile appetite over people's wellbeing.

It is obvious to anyone that our governments have become Bigwig Pharman's valets. While our elites are sinking into blind servitude, turning a blind eye to the vaccine's countless victims piling up over Covid's, only India dares standing up to the Ogre.

It is refreshing to see this poor and overpopulated country confer more worth to its citizens that most countries hurrying to copy their neighbours in this absurd race towards collective abyss.

It is about time these unprincipled bureaucrats realize that sooner or later they will have to take responsibility for the consequences of their actions.

There are limits to abusing distressed populations' naivety to make medical experiments, breaking lives, making people sick and causing premature death.

In his 1st letter to the Corinthians (12:23-24), Paul states, in speaking of the members of the body, that WE SURROUND THE LESS HONORABLE WITH GREATER HONOR... and THE UNCOMELY HAVE MORE ABUNDANT

COMELINESS. He then concludes by saying that God has arranged the body in such a way as to GIVE MORE HONORS TO THOSE WHO LACK IT. I sometimes wonder if that analogy would also apply to certain members of the political class in front of whom the red carpet is rolled out and who, all too often, are nothing more than despicable bums with a tie who don't give a hoot about the people they are in charge of. Anyway, as Yvan the twin told me once: "The day the people fall, they'll fall as well because they're sitting on us."

Getting back to Psycho Vid, after having treated himself to the average citizen as appetizer, imbued with the power conferred by Mammon, the Ogre now insistently demands kids...

« More! »
 « Younger! »
 « Still more! »
 « More youth. »³

India refuses to have vainly sacrificed its citizens on Pharman's disgusting altar, and settles the score with the authors of this genocidal abuse which History will remember like an epileptic seizure in the midst of wedding ceremony.

Rather than bowing down before Bigwig and kissing his hand like a submissive brown-nose as most reckless nations do, India does justice to its children by demanding reparation for the numerous tragedies that the Ogre caused. This is a credit to the country, which is acting as a proud heir to *Gandhi and his quest for justice for his people.*

What's the next step... *Facebook and Twitter accused of being accessory to murder...* since there was aggressive censorship against Ivermectin?

³ Pharman is a PSYCHOVID, that is a madman afflicted with Psychosis about Covid, a severe mental disorder in which contact with REALITY is lost or highly distorted. Read what follows.

"Young people have a lot more chances to experience MEDICAL PROBLEMS CAUSED BY THE VACCINE than with Covid. CONSENT FORM ⁴

To be honest with those about to get inoculated with the mRNA vaccine, here is the information that should be provided to them.

1. I understand that the Covid-19 disease represents high risks only for the elderly and those suffering from immunodeficiency, and that there is no risk of dying for 99.7% of the population. 88% of contaminated people have little or no symptoms at all; 15 to 20% get pneumonia; 4% get an acute respiratory distress syndrome (ARDS) and less than 1% die. For youth between 0 to 19 years old, the statistical probabilities of dying are practically non-existent: about 0.003%; individuals between 20 and 49 years old: 0.02%; those between 50 and 69: 0.5%; while for those over 69 - if they are not treated - the probabilities of dying are 5.4%.
2. I'm aware that the *permanent* adverse effects of this experimental vaccine are unknown to this day.
3. I recognize that the risk-benefit ratio analysis of this vaccine is based on minimized unknown risks and that the presumed advantages are overestimated. Potential hazards of this injection include risks of infertility, coagulation trouble; severe cardiovascular disorders such as myocarditis, pericarditis, thrombosis, stroke and heart attacks; headache, nausea, fever, diarrhea, vomiting, dizziness, vertigo, fainting as well as convulsions; a rise in arterial blood pressure, irregular heartbeat; deep vein thrombosis, pulmonary embolism, neurological trouble such as memory loss, mental confusion, epileptic seizures as well as verbal and motor tics; loss of feelings in limbs, muscle weakness/hurting, extreme fatigue, drastic changes in vision, blindness, deafness, facial nerve paralysis, urinary retention and loss of bladder control, severely irregular and heavy menstrual cycles, shaking of hands, swelling of lymph nodes, severe inflammation such as unexplained skin rashes and itching, anaphylaxis shocks, autoimmune diseases, chronic conditions, damages to the fetus, miscarriage as well as numerous other unpredictable symptoms that could be impossible to diagnose/treat - even my own death.⁵
4. I'm acquainted with the fact that although promoted under the name of 'vaccine', this mRNA injection has not officially been authorized but is rather allowed within the framework of health emergency measures, and that this is a way to further science and/or of discovering some ulterior useful application.
5. I acknowledge that to this day thousands of deaths have been reported following this vaccination campaign, and even more people suffered from injuries listed in the preceding paragraph.
6. I understand that I receive an experimental vaccine derived from genetic engineering - so 100% synthetic and entirely new - with unreleased ingredients which have never been administered to masses prior to the summer of 2020 - and that this GMO formula will be injected in my body.
7. I consent to participate in this international medical experiment led by pharmaceutical companies, politicians and medical personnel which do not take responsibility for any possible damages that may occur to my health following this injection.
8. I agree to provide my medical data during two years, all along phases 3 and 4 for this post-authorization study.
9. I understand that this vaccine cannot protect me from Covid-19 nor stop the transmission of the SRAS-COV-2 virus and that I will have to continue protecting myself from the virus by complying with social distancing, wearing a mask and other necessary safety precaution regulations.
10. Since I volunteer for this experiment, I will not get paid for this injection nor will I receive any indemnification if severe harmful adverse effects and/or permanent damages to my health occur - of whatever nature they may be - and that it will be impossible for me to sue the manufacturer, its agents, the government, the laboratory and/or its medical staff that administer this injection. I'm aware that my life/health/employment insurance which I may now be paying to a third party will not cover compensation for any inconvenience I may experience nor for my possible death resulting from this injection.
11. I have read, understood and now accept to be injected with this product and entirely relieve the aforesaid medical/governmental entities as well as their agents/representatives of any civil and/or penal liability related to this injection and its possible consequences.

Interview with American government delegates

EVERYTHING IS FINE

« Prior to my vaccination, I was a healthy and active 39 year old. I cherished my work in a very busy pediatric dental office. I wasn't taking any medication. I never had a Covid infection. In January, my life changed drastically.

NIGHTMARE

Immediately after the injection, I felt an odd tingling type dripping sensation in my arm. I had immediate heart palpitations and a feeling as if I was going to pass out. I did eventually stabilize and was sent home.

When I got home, I felt a little woozy, a little dizzy. The next couple of days, I had a headache and feeling unwell. All of the things I had signed up for to get the vaccine.

VACCINEE'S HELPLESSNESS

Three days later, my symptoms increased and accelerated. I had a sharp stabbing pain in my scapula area that was intermittent, like a knife stabbing pain. I had tingling and numbness throughout the body. It ran down both my arms. I also had heart palpitations. I had these internal vibrations like a little electric chock running through my body, like if I was glued to a vibrating chair - and it never stops.

I have tremors in my hands which has made me leery if I'll be able to practice as a hygienist again. I have swollen lymph nodes, brain fogs so extreme that I would be having a conversation with someone and then I suddenly black out. When I try to come back to that conversation, nothing is there.

I have muscle weakness, unexplained skin rashes, convulsions and night-time seizures. I had to have my six-year-old daughter wake me up from a fit in the middle of

the night. No six-year-old should have to do that for their parent. I have also experienced thick clotting heavy menstrual cycles.

I'm so afraid that I literally - and I do have it with me - I prepared my will and my obituary for my family because I didn't think that I would wake up to the next day.

I've been dealing with this for 5 months and these severe neurological reactions continue to plague me. Every day, I feel like I'm trapped. I go to sleep praying that I'm gonna wake up the next morning and be better - and I'm not.

DOCTORS' HELPLESSNESS

I had multiple tests, more than any person should have to go through. I have had x-rays, blood works, MRIs, CT scans, ultra sounds, EEGs and more. I have reported my symptoms to V-Safe, VEARS, CDC, FDA, Pfizer as well as two very well-known research institutes and prestigious universities.⁷

*Doctors are unable to tell what I have.
They can only tell me what I don't have.*

To date, the medical community has still remained baffled and unable to restore my health.

I'm scared and frightened for my future.

I WOULD GIVE ANYTHING - MY WHOLE LIFE SAVINGS - TO GO BACK to january 17 2021 AND NEVER HAVE HAD TO EXPERIENCE THIS IN MY LIFE.

The vaccine is still rolling out. I hope that the soon-to-be vaccinees will benefit from our testimony. We have suffered long enough.

Thanks. »

TESTIMONY

*Maddie*⁸

Interview with American government delegates

Stephanie testifies in the presence of her daughter Maddie whose life has been atrophied since her vaccination.

EVERYTHING IS FINE

On January 20, 2021, Maddie received her 2nd dose of the Covid vaccine as a participant in the clinical trial for 12 to 15 year olds. Before Maddie got her final dose of the vaccine, she was a healthy 12 year old who got straight A's and had lots of friends. She had a life. She was energetic. She was not like this, in a wheelchair with a tube up her nose and a neck brace.

NIGHTMARE

Upon receiving the second shot Maddie immediately felt pain at the injection site. Over the next 24 hours, she developed severe abdominal and chest pain which she described as follow:

"It feels like my heart is being ripped out through my neck."

She had painful electrical shocks down her neck and spine that forced her to walk hunched over. She had extreme pain in her fingers and toes. It actually made them turn white and they were cold whenever you touched them. She had oedema.

Following these symptoms, we went to the emergency room. Her blood was taken for a renal profile and tested. She was checked for appendicitis which she did not have.⁹ Over the next 2½ months her abdominal muscle and nerve pain became unbearable.

VACCINEE'S HELPLESSNESS

She developed gastroparesis [damage to stomach nerves], nausea and vomiting, erratic blood pressure and heart rate, memory loss, mixing up of words, brain fog, headaches, dizziness, fainting and seizures.

She developed verbal and motor tics, loss of feeling from the waist down, muscle weakness, drastic changes in her vision, urinary retention and loss of bladder control as well as severely irregular and heavy menstrual cycles.

She then had to have a feeding tube put in to be fed.

All these symptoms are still here today.

Some days are worse than others.

DOCTORS' HELPLESSNESS

She had lots of tests. Doctors were unable to make a diagnosis since they could not figure out what she had. At one point, they even tried to admit her to a mental hospital.

For the past 5 months, Maddie has been to the emergency room 9 times and has been hospitalized 3 times for a total of 2 months.

WHY?!

Why is the vaccine manufacturer not researching her to figure out why this happened - so other people don't have to go through this?

All we want is for Maddie to be seen, heard and believed, because **SHE HAS NOT BEEN BACK**. We want her to get the care that she desperately needs so that she can go back to normal.

SHE WAS TOTALLY FINE BEFORE HER VACCINATION.

The manufacturer is not helping her.

Thanks. »

⁹ Quite surprising that 2 people from my circle of acquaintances had to be operated for « appendicitis » after their 'vaccination'.

DIAGNOSIS: VAXINITIS

I will tell you what the diagnosis of these vaccinal damned is: they have contracted *Vaxinitis*, an incurable disease also called '*Messagitis RNA*' - term made of the word '*mess*' (chaos) and the French word '*agite*'.. for '*agitating chaos*'. These two words form the term '*message*'. Aren't you getting the message? DON'T GET VACCINATED!! This diagnostic is also designated under the name '*Pharmanitis*' from the mad scientist Bigwig Pharman who enjoyed capitalizing his insanity on the back of human masses in the XXIth century.

DESCRIPTION

Unpredictable malaises varying in nature and intensity, accompanied by acute anguish due to the randomness of anomalies and pains as well as the uncertainty of their impending frequencies and locations.

These VICTIMS OF THE 'VACCINE' - **NOT OF COVID** - but well and truly of the 'vaccine' - will probably never fully recover. Their health has been *irremediably* damaged. Bigshot Pharman has committed the irreparable. Their system has been ruined. Everything in their body goes berserk. Their life is broken. Their future *in this world* is irrecoverable... unless of course there is a divine intervention.

These 'vactims' (vaccine's victims) don't belong to themselves anymore. They are subjected to the throes of whatever inhabits them, of what was injected into their body and has since taken control of it. That is spelled D.E.S.P.A.I.R. *Thanks to Dr. Mad Pharman.*

'KURT BLOME' AFTER-SALES SERVICE ¹⁰

Where is Bigwig Pharman when you need him?
He was pretty happy to metamorphose these two volunteers into Frankensteins but where is he when his victims need help? Where is the after-sales service?!

His vactims are not demanding financial compensation but only a reassuring presence, some respect, support, consideration, a *human* follow up. Is that asking too much for the hell he is making them go through?!

How would you feel if after having had your life destroyed by an exploiter, the latter would then treat you like an old torn rag and attempted to brush you off because he now considers you incommensurable?

Wouldn't you feel abused?

After having literally sacrificed your health by trusting this charlatan, he then turns a deaf ear. And it's not because he cannot afford to provide you with a resource person. He is multibillionaire!!

It is simply because it would erode his margin of profit (and above all incriminate him since that would prove that he effectively is the author of your suffering which would undermine his credibility) and would make his sales go down.¹¹

Even if Pharman is clear of any financial obligations linked to his 'vaccine', doesn't he at least have the moral duty to follow his vactims in their calvary - accompanying them - just so as not to abandon them to themselves - if only 3 hours a week?!

Or would it be because cases like Maddie's and Kristi's are so numerous that handling them all would render his business unprofitable?

No matter the reason, his after-sales service can be summed up to this:

« *Endure, shut up and get lost!* »

It is therefore more profitable for him to state that YOU HAVE A MENTAL PROBLEM and ignore you. Period.

These comments of mine have nothing to do about looking for the *bête noire*. It has to do with taking responsibility of his actions. Now *thanks to Dr. Death Pharman*, their lives are bankrupt.¹²

Adios joy.

¹¹ Pharman has no interest in ending this pandemic. On the contrary, he has everything to gain. The longer this goes on, the more his treasure chest fills up. His little nephew foresees making \$29,000,000,000 in Covid vaccine sales in 2022.* That's aside from the sales his relatives will make. Which just shows that he is not planning to see an end to this episode soon. It's worth wondering how much they will garner in 2023 and 2024. You should perhaps buy shares in Pharman, that is if it doesn't keep you awake at night knowing that you are building your castle on people's ruins.

Pharman's Vaccine Corrida

GOOD LUCK

Good for you if you don't have any PERMANENT side effects after this 'vaccination'. But if you do... then good luck. Because by seeing these outcasts' deplorable situation, we could easily conclude that they would get more compassion from a pusher that cuts his cocaine with Ajax® powder.

That's all the respect Pharman has for you...

*« Hey! You got your dose!
We've got our cash.
That's the end of the deal!
Now go play somewhere else.
If you're having a badtrip, that's not our problem.
Get lost! »*

I'm convinced that a number of crack addicts have less harmful side effects than some of Pharman's victims..

So don't waste your time with Bigwig. He simply can't afford to care for you, busy as he is getting a suntan on his yacht with his 'thoughtful' babes while another swimming pool is being dug at his second home.

MEDICAL PURGATORY

Vaxination has become a religion.
We're back to the Inquisition.
The Vaxican commands you to be vaccinated.
'Jesus' himself said so.
The 'heavens' gave their approval to Big Pharman.
The Great Patapontiff confirmed it.
St.Vaxine is his prophet.
Forced mass baptism is effective
with Spike protein elixir...

*« Outside Pharman, no salvation! »
« Be vaxed and atone for your sins! »
« Become a martyr for science. »
« Experience purgatory ahead of time. »¹³
« Your suffering is commendable. »*

*« To the stake! All of you heretical conspiracists who resist
St.Ogre's crusade! »
« In irons, nonconformists! »
« On your knees before St.Syringe! »*

*« Woe are thee who dare think for yourself! »
« You won't have friends anymore. »
« You'll be excluded from popular gatherings
and public squares. »
« You'll be fired from your work, clubs and associations. »
« Your colleagues will snob you. »
« We'll make you wear a fluorescent orange mask. »
« People will point a finger at you. »
« You'll be blamed for all ills. »
« You'll be mocked and insulted. »
« As well as being labelled 'conspiracist', 'antisocial',
'egoistic', 'ingrate', 'superstitious' and 'mentally ill'. »
« Pressure will increase. »
« Then the roundup will come. »
« You'll be crammed with your likes in a sport center. »
« And then deported. »*

*« You'll be given a hard time. »
« Be sure of that. »
« You'll be humiliated, despised, assaulted
and ultimately tortured. »*

« Unless of course you change your mind. »

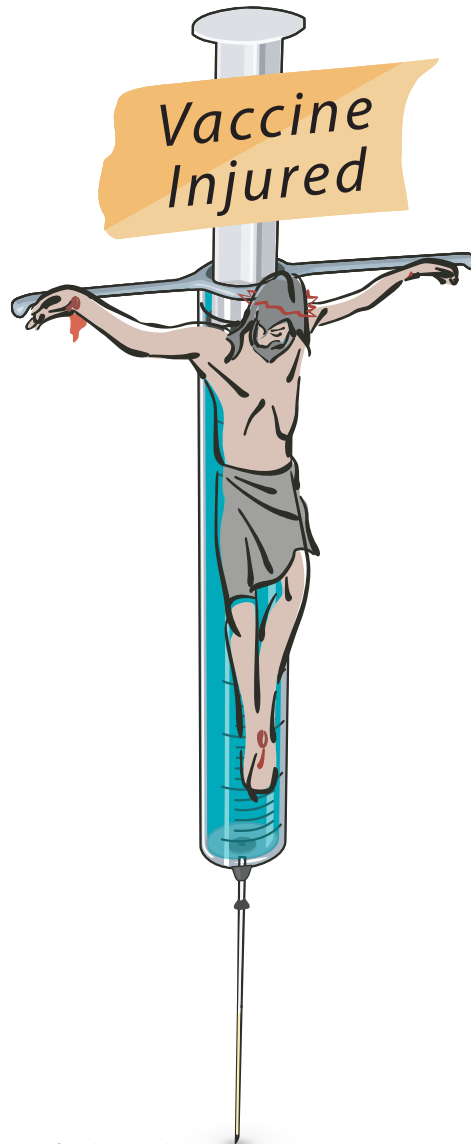

*« Come to your senses. »
« Agree to get the 'messenger RNA Modification;
the genetic 'Good News'. »
« Resist collective euthanazia no more. »*

¹³ Anguish, uncertainty and apprehension... Any little symptom experienced by the 'modified' (vaccinated) will be met with terror, not knowing if that's the beginning of the end for him. Wondering each time if the billions of injected Spike proteins - building up in the tiny blood vessels - won't heap up to irretrievably wreck his body * by countless microscopic blood clots gradually blocking blood circulation, thus causing incredible efforts from the heart to bring oxygen to the lungs, making him deeply regret having rushed into this mad scientist Pharman's genetic trap and having given his body to science *while still alive*.

Effectively, according to Dr. Charles Hoffe, this vaccination causes permanent damages that risk causing heart attacks within three years after the vaccination due to the progressive accumulation of injected Spike proteins. And each additional vaccination can only cause more damages.

Doctor: *Heart Failure From MRNA Jabs « Will Kill Most People »* <https://principia-scientific.com/doctor-heart-failure-from-mrna-jabs-will-kill-most-people/>

* The brain, heart, lungs and the spinal cord - which the Spike protein is particularly fond of - are organs whose cells, once damaged, cannot be regenerated.

In this video, one of many vaccine victims, Kyle Warner, 29 year old professional mountain bike rider - three times national champion - recounts how his career came to a crash because of this 'vaccine' and how he was incapacitated following his 2nd vaccination. He begins his testimony sarcastically by saying:

"I just want to say 'Thank you!' to Dr Fauci, to FDA heads, CDC, NIH, everyone [of you] for not showing up to this meeting and NOT LISTENING to us. I really appreciate it. I'm glad that you have our interest at heart." (1:23:53)

So if someone pricks you on the right shoulder, present also the left one. Repeat the exercise as often as the monster will judge suitable - so until full collapse of your resistance. 'Submission and Obedience' have now become the keywords of social cohesion. Effectively...

You shall love Pharman with all your heart, with all your soul and with all your might. And the directives that he commands you shall be on your heart. You shall teach them to your children, talk of them at home as well as when travelling with your health pass, when you lie down, confused, and when you rise, desperate. You shall bind them as a mask on your face... And when Pharman ultimately brings you to the emergency room where he swore to send you, be grateful to him until your last breath.

JONESTOWN?

No logic seems to govern their initiatives.
Would they be desperate?
They do everything and its opposite.

We could previously go into the superstore but nowhere around in the shopping centre it was attached to. Now you need a health pass to access the

superstore but can freely go everywhere else in the shopping centre. Where is the logic?

Here is a recap of the last 2 years: lockdowns, vaccinations, mask, PCR testing, variants, distancing, hand-washing, health/vaccine pass, 'It's going to be okay', isolation, banning of gatherings, curfews, closing of businesses, 'conspiracists', censorship, dramatization, discrimination, marginalization, incentive, denunciation, firing from job, coercion, penalty, oversized measures...

Have they gone crazy?
Do they think we are stupid?
Are they attempting to turn us into idiots - frustrate us - to confound us? Are they trying to make us as confused as they are? They don't seem to know what to do?

Is there a doctor in the room?
I mean a *real* one.

Isn't this whole situation fishy?
Has anyone witness such a weird, eerie social phenomenon before?

What the heck, are we now in *Jonestown* to be ordered to partake to a collective suicide?! Have our elites become *Jim Jones's* groupies, and our leaders his apostles so that we are now being forced to take this potentially lethal dubious 'vaccine'?! ¹⁵

What is this insanity about invading our vital space and force upon us a needle we don't want?

We are being given the spiel about an umpteenth 'wave'
They intoxicate us with an umpteenth 'variant'
They hypnotize us with an umpteenth 'confinement'
They make our head spin with an umpteenth 'vaccine'
They leave us reeling with booster shots
They divide us with the 'sanitary' pass

¹⁴ "If anyone slaps you on the right cheek, turn to him the other also." - Jesus (Matthew 5.39) "When he had said these things, one of the officers standing by struck Jesus with his hand, saying, "Is that how you answer the High Priest?" Jesus answered him, "If what I said is wrong, bear witness about the wrong; but if what I said is right, why do you strike me?" (John 18.22-23) We can notice here that Jesus didn't turn the other cheek when hit, which shows that the disciple doesn't have to be a masochistic doormat looking for ways to suffer for God, as it is too often illustrated in old religious paintings where 'saints' are depicted like silly submissive intellectual weaklings. We can then conclude that 'turning the other cheek' is not meant to be taken literally.

"You shall love the Lord your God with all your heart and with all your soul and with all your might. * And these words that I command you today shall be on your heart. You shall teach them diligently to your children, and shall talk of them when you sit in your house, and when you walk by the way, and when you lie down, and when you rise. You shall bind them as a sign on your hand, and they shall be as frontlets between your eyes. You shall write them on the doorposts of your house and on your gates. "And when the Lord your God brings you into the land that he swore to your fathers, to Abraham, to Isaac, and to Jacob, to give you." (Dt 6.5-10)

* This is the most important commandment in the whole Bible, confirmed by Jesus himself. (Mark 12:29-31) I do not use it lightly but refer to it here to point out that the nations - at least their governments - seem to attribute to Pharman an aura of divinity, as if his directives were the unquestionable Word of God, blindly obeying him by submitting to his every directive without ever questioning the pathetic outcome of his pseudo scientific expertise. What are they waiting for to fire this incompetent, to 'thank' him for his useless services? As the physicist Richard P. Feynman said: "If you don't make mistakes, you're making it wrong. If you don't correct those mistakes, you're doing it really wrong. And if you cannot accept that you're mistaken, you're not doing it at all." Pharman is the god of gaslighting.

And the second most important commandment is to love your neighbor as yourself... whether he is vaccinated or not ;-)

¹⁵ Wikipedia: *Jonestown, Jim Jones*

Have you been vaccinated?

They destabilize us with their random restrictions.

What will they invent next to subdue us to their game
whose rules keep on changing?
How many restrictions will they throw at us again?
How many headlines will they smack us with again?
How much time will they still abuse us?
How long will we suffer them?!

Never mind 'conspiracism'.
Stop infantilizing us! ¹⁶
We are no covidiot!!
We just don't want to be 'vaccinated' with this
experimental genetics amalgam.
Isn't it clear?!

What part of 'No!' don't you understand?

I do what I WANT with MY BODY. YOU do what YOU
WANT with YOUR BODY. That's the bottom line of
Liberty.

Get pricked every week if you wish ¹⁷ - even on a drip if
you prefer - we couldn't care less - but leave us alone
with your obsession!!

We're not more dangerous than you are.
(I would say that we're even less.)

You think that the game is worth the candle?
Go ahead!
But our life is worth more than a wax light?
And our health more than paraffin.

Answer honestly the following question:
Would you submit to a governmental initiative
advocating the forced consumption of a pill for each
citizen? or a suppository?

Why should it be different for an injection?!

Because they evoke the deceptive cliché of 'common good'?

Yeah Right!!

ORGAN DONATION

It is quite surprising that the *Pharman Institute of Experimentation on Humans* (PIEH) won't try recuperating its victims' body to fiddle some tricks so as to ENRICH 'science' with new data. Thus, the « Institute » could occasionally sell GMOed organs online. We would then surely find some ads similar to the following...

- Genetically Enhanced HEART
High quality reconditioned teen organ. Excellent condition. Slightly atrophied by myocarditis due to Covid-19 vaccine. Ideal for patient urgently needing a transitional transplant while waiting for a permanent organ. Certified 'OPTIMIZED' by the *Genetic Organ Transplant Authority*
- High Spike Protein BLOOD
1st quality Spike protein blood. Filtered three times for optimum efficiency. Available for AB and O blood groups. Ideal for masochists seeking new aches and strong emotions such as intense distress and panic attacks. Vertigo, fainting and convulsions guaranteed. Indispensable for those wishing to add unheard-of malaises to their life. One (1) litre.

Enough kidding, let's talk seriously.

If your child needed a heart, kidney or lung transplant, would you select a potentially contaminated/altered/atrophied mRNA organ or a natural one? And if you yourself required a blood transfusion, would you sincerely choose a vaccinee's Spiked blood or an unvaccinated's?

Let's not kid ourselves.

Long term consequences of these genetic experiments on masses are still unknown. And until they are, shouldn't vaccinated people be prevented from giving their organs for transplant and their blood for transfusion?

¹⁶ The Google Assistant app is providing Android users a reason to cringe with a creepy, pro-vaccine and mask song. https://www.rebelnews.com/google_assistant_sings_bizarre_vaccine_and_mask_song

¹⁷ But let it be known that it won't change anything. Employees who were threatened with dismissal if they refused the needle - so as to be 'properly' protected against the virus - are now being forced to take time off work because they are sick... with the Covid.

The Réinfo Covid network (<https://reinfocovid.ca>) is made up of **4,000 DOCTORS** et 30 000 MEMBERS in French territories as well as in Belgium, Switzerland, Germany, Israel, Luxembourg and Quebec! Would these **4,000 DOCTORS** be a bunch of cranks, weirdos, disciples of a conspiracy sect, members of an extremist network? Or would they rather be **4,000 HEALTH PROFESSIONALS WORRIED BY THE ABUSE THEY WITNESS** - and which the Establishment is making its best to ignore?

Pharman speaking! Here are the directives for this week:

1. Implement conjugal distancing.
2. Unconfine but impose a curfew.
3. Require the health pass in supermarkets but not in malls.
4. The LIQUOR Board and the CANNABIS Society remain open.
People must be able to get their virus stoned. That is ESSENTIAL.
5. Rename CHSLDs to CDDCDs.¹ This will be more representative of our management.

¹ French play on words: when spelled, the letters CDDCD sound like 'C'est des décédés' which means 'They are deceased' (due to mismanagement).

6. Ah, while I think about it. The whole team is waiting for you tonight at the party. No need for a mask of course - it's just us - no embarrassing witnesses. See you then. Ciao!

Aren't those requiring an organ transplant or a blood transfusion entitled to know if it comes from either a GMOed individual or a natural unvaccinated person? My dad always told me to solely buy new stuff because when you buy a used thing, you inherited the previous owner's problems.

As I stated previously, I'm no health professional nor this book a medical reference. Therefore the present document inevitably contains errors and, like every one of us, *I preach for my own parish.*

JUST IN CASE YOU HAD ANY DOUBTS...

It's confirmed!!

...from the very mouth of one of Pharman's 'scientist': the planet is from now on a *worldwide laboratory.*

Effectively, what we already knew but were reluctant to verbalize for fear of being labeled 'conspiracists', out of the blue Pharman makes a blunder. No, not a loud stinky fart (even that would have been less embarrassing ;-)) - but well and truly an unintentional admission: by a slip of the tongue Pharman's team revealed that Israel is - for them - nothing less than a 'LABORATORY'.¹⁸

Laboratory: *Place equipped for scientific EXPERIMENTS, research, analyses, TRIALS, etc.*¹⁹

This is not so much the message that is surprising - we were already aware of it - but rather its author, which lends further weight to the statement. This slip-up constitutes an accidental confession.

Pharman has of course attempted to rectify this gaffe by claiming that his kapo didn't really mean what he actually said. It is unsettling for him, let's admit, to be confronted to the truth... which wasn't supposed to leave these little rascals' meeting room.

The fact remains that he unsuccessfully tried to remedy the situation by babbling some cleverly fabricated pseudo-scientific formulas to confound the audience. But...no one can '*put new wine into old wineskins*'. Too late for Pharman, the situation is not as brilliant as he would have hoped. His credibility is inversely proportional to the amount of evidences now piling up against him like dirty dishes in a sex party turning sour. Almost the perfect crime... except that like Thomas Carlisle said: '*No lie can last forever.*' Jesus could even add: "*Nothing is covered up that will not be revealed, or hidden that will not be known.*" (Luc 12.2)

NOW LET'S GIVE THE FLOOR TO SPECIALISTS...

« *Just because you're paranoid doesn't mean no one is watching you.* »

Nor is it that because there are conspiracists that there is no conspiracy. There has always been fiddlings, collusions, conjurations, plotting, machinations, connivances, dissimulations, schemes, bribes, intrigues... in a word, conspiracies of all kinds and in every sphere: military, government, labor/trade unions, commercial, social, academic, religion, sports... and the medical/ pharmaceutical are not spared.²⁰

Conspiracy or not, here is what some health professionals, even some of the best medical/scientific leading ETHICAL experts (not *show doctors* on Pharman's payroll) have to say about the actual 'vaccinal' situation:

1. "**THESE VACCINES ARE NOT APPROVED** but were granted Emergency Use Authorization." - Dr. Robert Malone²¹
2. "*The remedy most not be worse than the ailment... Let's not add to the uncertainty and unpredictability of a virus, the uncertainty and unpredictability of a [new vaccinal] technology.*" - Dr. Christian Vélot²²

- Dr. Peter A. McCullough ²⁸

In addition to the above mentioned professionals and those referred to in footnotes, it would be possible to quote thousands of other experts from around the world - among which Réinfo Covid who alone brings together 4,000 doctors in the French-speaking world - condemning the current practices perpetrated against entire populations such as, among others, eminent biologist, virologist, researcher, professor and Nobel Prizewinner in Medicine Luc Montagnier, as well as Dr. Christian Perronne, Dr. Martine Wonner, many more.²⁹

These personalities are no 'boneheads' nor are they Interneters having conspiracy hallucinations. These are courageous trustworthy specialists who dare decry, to the cost of their reputation, even their career, the aberrations they witness.

Let's now take a moment to listen to a few excerpts from Dr. Laurent Montesino's testimony - a professional among many - who refuses to be vaccinated, risks his medical license and takes pride in having been banned from the College of Physicians. Having nothing to lose, Dr. Montesino throws caution to the wind and exposes the aberrations that are shamelessly perpetrated by a system that treats with disdain the most basic medical practices.

We will then have the privilege of hearing Dr. Peter McCullough, a leading medical expert, share his observations on the current health crisis management.

²⁷ Translated from French. Doctor Agret officially resigns from the College of Physician. Among the reasons mentioned are his hierarchy's concealment of evidence and obstruction to doctors' freedom to prescribe. He accuses his peers of having been bought by drug laboratories and shows an academic book sponsored by MONSANTO. He concludes with irony: "Obviously, we shouldn't prescribe too much in case billionaires would lose a few millions."

TESTIMONY

*Dr. Laurent Montesino*¹

Doctor having 25 years of experience

« Bonjour!

I'm Dr. Laurent Montesino.

I appeal to medical personnel as well as the French - vaccinated or not.

Each human being is the owner of his body and free to decide of his life. It is the foundation of the Constitutions, of Liberty. That's the basis upon which should rest Nations and that's the most basic principle of respect that governments owe to their populations. Yet, this Freedom to use one's own body is gradually disappearing.

In the name of WHAT? A disease whose death rate is less than 0.5%. This means that more than 99.5% of patients diagnosed as positive survive. For a disease that is fatal in the vast majority of cases only for elderly patients or those with severe comorbidities; for a disease against which **THERE ARE EFFECTIVE TREATMENTS for which they have been trying to prohibit the prescription for over a year.**

I will not get vaccinated!

If unvaccinated people get vaccinated, vaccinated people will have to get revaccinated - want it or not - since they'll have the same status as others: no entertainment, no travel, no culture, no income... no life.

This tyranny has a questionable scientific justification and essentially responds to a **POLITICAL LOGIC**. What will prevent them to impose a 4th vaccination, then a 5th... imposing it afterwards to young children, to newborn babies?! What is telling you that it won't become quarterly, or even monthly? And that in a not so distant future, we won't have to continually wear masks, without ever being able to touch each other?

This deprivation of freedom concerns everyone of us. I should have talked earlier but I feared the College of Physicians. **WHAT IS HAPPENING HAS NO HEALTH PURPOSE**. The aim is to subdue people. Why? I couldn't tell. But the fact is that if we accept to yield to this **UNJUSTIFIED BLACKMAIL**, everything will be possible for this dictatorial government afterwards. There won't be no turning back. No possible return to Freedom. Because History showed that governments never revert, particularly regarding liberticidal measures.

Become aware of what's going on! Wake up! You've been lulled. Open your eyes. Do your homework!² Think it over: you are at crossroads. How far are you willing to go to

safeguard your Freedom? Are you gonna choose your material comfort at the risk of living in a coercive world? Or are you gonna take the risk of refusing what they want to impose on you?

They make caregivers feel guilty, they are attacked and forced to submit to a dictatorship that **MAKES NO SENSE FROM A SCIENTIFIC POINT OF VIEW**.

For me the choice is clear. I'll go all the way. Never will I accept to lose my Freedom. and the ownership of my body.

LOOK AROUND YOU...

- A unanimously aggressive press
- Paid show doctors
- Lies spouted constantly with arrogance and a boundless self-confidence
- Invitations to denounce
- They pit you against each other
- Doctors keep quiet for fear of the College of Physicians
- Controversial communications are immediately censored
- Internment and psychiatric examinations are requested against those who speak differently.

VACCINE HERD IMMUNITY IS A SHAM. It is not based on **ANYTHING RATIONAL**. It is a lie! Why should I vaccinate when I have been living among the most severe forms of Covid for over a year and am doing just fine?!

VACCINATED PEOPLE REMAIN INFECTIOUS. The extraordinary thing is that we are repeatedly told that we have no choice - that we must be vaccinated. To condition a liberation - which shouldn't be - to a **VERY INEFFECTIVE AND DANGEROUS** vaccination is nothing else than a machiavellian manipulation intended to control the population.

DRUG TREATMENTS WORK. VACCINATION IS RISKY AND POORLY EFFECTIVE. What I am saying is proven but **THESE FACTS ARE HIDDEN FROM YOU**.

We can regain our freedom and our joy of living. **WE JUST HAVE TO DECIDE**. We must refuse these liberticidal manipulations and retake control of our lives. Life will then return to normal and we will get our humanity back which they attempt to take away from us since months.

Thank you for your attention. »

INTERVIEW

I'm Dr. Peter McCullough.

[As a physician, I hold] a position of strength based on principles of compassion and care, and of the Hippocratic oath, and of the fiduciary relationship that a doctor has to a patient, and a prominent doctor has to a population, that supersedes all ill intents [related to medical malpractice]. As a doctor, and as a public citizen, **I'M EXTRAORDINARILY CONCERNED ABOUT THE [COVID-19] VACCINE.**

I'm very pro-vaccine. About 70% of my patients are vaccinated. [But] based on the safety data now, I can no longer recommend it. It's passed all the thresholds to being a safe product. **IT'S NOT A SAFE PRODUCT.** None of them [Covid-19 vaccines] are.

The limit to shut down a [vaccination] program is [usually] about 25 to 50 deaths. [As an example,] the program to combat the Swine flu in 1976 was shut down after 25 deaths.

THERE ARE NOW OVER 4,000 DEAD AMERICANS. THERE IS OVER 10,000 DEAD PEOPLE IN EUROPE that died on days one, two and three after [getting] the [Covid-19] vaccine [as of may 2021].

« A NEEDLE IN EVERY ARM »

This whole pandemic from the beginning is about the vaccine. **ALL ROADS LEAD TO THE VACCINE.** There are already places in South-East Asia and Europe that are laying the groundwork for **COMPULSORY VACCINATION.** That means somebody pins you down to the ground and puts a needle in you.

That's how bad stakeholders want vaccination. Pfizer, Moderna, J&J, AstraZeneca and all others [vaccine manufacturers] that come forward - they are all linked, plus the CDC, the FDA, the NIH, the White House, the Bill Gates Foundation and the World Health Organization are massive vaccine stakeholders. ⁴

They want **EVERYBODY** to be vaccinated. **WITHOUT EXCEPTION.**

NO ONE WILL ESCAPE THE NEEDLE.

They want « **A NEEDLE IN EVERY ARM** ».

This « needle in every arm » is a very important moniker.

WHY?! WHY do they want « a needle in every arm » ?!

What would be this incredible drive to **VACCINATE EVERYBODY?!**

UNJUSTIFIED VACCINATION INITIATIVES

Let's take Covid-recovered patient.

Now we're gonna vaccinate Covid-recovered patient. Wait a minute, *they cannot* get the virus! They have complete and robust permanent immunity. No one has ever challenged the immunity of a Covid-recovered patient. Every scientist in the world knows that natural immunity is way better than vaccine immunity.

If it's really about Covid...

WHY can't Covid-recovered people go to the Mavericks games?! **WHY** can't they go to college?! **WHY** would they ever want a needle in the arm of a Covid-recovered patient? **WHY?! WHY** are we vaccinating them?!

There are now papers written by **PROMINENT SCIENTISTS CALLING FOR A WORLDWIDE HALT IN THIS [COVID] VACCINATION PROGRAM.** Prominent virologists, many of them, including **NOBEL PRIZE WINNERS**, [question the pertinence of these Covid-19 vaccination campaigns].

³ The interview's transcription has been shortened to reduce text size and slightly modified to ease reading. I regrouped, rearranged and harmonized scattered excerpts dealing with the same topics such as *vaccinating pregnant women, Covid-19 recovered patients*, etc. I condensed some passages judged too technical by resuming them into my own words. I also added words/comments/expressions to emphasize some statements. If need be, I use synonyms to prevent repetitions. Despite these cosmetic adjustments, I did my best to ensure that the integrity of the message was respected. These changes were inserted within square brackets []. Section titles, caricature and footnotes are my own initiative. May I highlight that my comments about this interview mean in no way that the doctor endorses these changes nor my views expressed in this book. Just in case you thought that Dr. McCullough could be an 'airhead', here are some of his credentials/qualifications/accreditations/affiliations/positions: **MD, MPH, FACP, FACC, FAHA, FCRSA, FCCP, FNKF, FNLA, Academic Physician, Professor of Medicine at Texas A & M College of Medicine, Board Certified Internist and Cardiologist, President of the Cardiorenal Society of America, Editor-in-Chief of *Reviews in Cardiovascular Medicine*, Editor-in-Chief of *Cardiorenal Medicine*, Senior Associate Editor of *American Journal of Cardiology*.**

⁴ With this consortium of powerful political, technological, 'medical' and financial entities, we are not out of the woods. It's gonna be CTRL-ALT-DEL before we know it. They're already trying to CONTROL us socially, and ALTER us genetically. As of today, they've already succeeded in DELETING tens of thousands of us worldwide, *now dead* of their good 'vaccine' which is gonna save us, right? These victims are IRRECOVERABLE. THERE ISN'T ANY POSSIBLE RESTORING: these people were ERASED FOREVER. But that doesn't really matter, right. - We're only 'DATA'. - The important is 'The GREAT RESET'. Everything has got to be REINITIALIZED we're being told. That's what's best for us. Gotta believe them ;)

There are warnings out there saying « **DON'T DO THIS! DO NOT VACCINATE THE ENTIRE WORLD!** » All we're gonna do is set ourselves up for a superbug [antibiotic resistant bacteria] that will really wipe out populations. **INDISCRIMINATE VACCINATION IS A HORRENDOUS IDEA** that's gonna cause great personal harm, which it already has: thousands of people lost their lives [because of this vaccine]. Those thousands [of vaccine related deaths] are far beyond anything that we have ever seen.

WEAPONIZATION OF THE VACCINE

The relentless focus on MASS VACCINATION AS THE ONLY WAY BACK TO NORMALCY is about what the vaccine means [to stakeholders]: *trade, commerce, behavior modification*. The vaccine is a way to create *compliance and behavior control*. Within a few months the vaccine has been completely weaponized.

You see it right here in Dallas. They have announced that you cannot go to a Dallas Mavericks **GAME** *unless you're vaccinated*. **TRAVEL** is related to the vaccine. People can't go to **SCHOOL** without the vaccine. People are losing their **JOB** without the vaccine.

The tension... you can cut it with a knife!

WHY are we pushing this in a way where people are confronted to take a potentially fatal decision [with this unpredictable vaccine]?!

INEFFECTIVE VACCINE

[ANY] VACCINE DEMANDS A MINIMUM OF 2 YEARS of SAFETY DATA by regulatory rules for the manufacturers.

*That was all thrown out: **COVID: 2 MONTHS!!***

CLINICAL TRIALS SHOWED THAT THIS VACCINE DOES NOT STOP COVID. SO [VACCINATED] PEOPLE CAN GET COVID ANYWAY.

CARELESS VACCINATION PRACTICES

This idea that we can vaccinate people that were not even tested in the trials has never been done before. We've never just thrown a vaccine at somebody without having any data.

So the very first pregnant woman that was vaccinated here in the United States, it was done with no knowledge of safety and no knowledge of efficacy.

A [conventional] vaccine is probably TESTED FOR DECADES prior to being injected into a pregnant woman's body. [Normally] we would never, out-of-the-box, take a brand new technology that's never been tested before and vaccinate pregnant women with it. Ever!

We [furthermore] know that the vaccine technology produces the dangerous Spike protein. It produces the Wuhan Spike protein - the spicule on the ball of the virus itself - which **DAMAGES BLOOD VESSELS AND CAUSES BLOOD CLOTTING**.

[Ordinarily] we would never unleash that into a pregnant woman's body!! [But as soon] as this mass vaccination program started off, [contrary to all common sense], we [were] vaccinating pregnant women!!

WHY are we doing that?!

That can't be safe!! ⁵

[To add insult to injury, as per the consent form] a pregnant woman getting vaccinated has no maternal foetal rights. If something happens to her or her baby... *she is out of luck*.

What's going on now in the world are clear cut examples of **WRONGDOING** that is at such a high level **PEOPLE ARE BEING HARMED IN AN EXTRAORDINARY FASHION**.

BALONEY JUSTIFICATION

The argument that we've heard is « *Covid-19 is a bad illness. 600,000 people have died. The vaccine could help them. We should give it a shot.* »

⁵ A friend of mine had a miscarriage a few days after having been injected with the second dose of Pharman's Covid-19 vaccine.

[Well,] **85% OF THESE 600,000 DEATHS WERE PREVENTABLE WITH EARLY TREATMENT - WHICH WAS ACTIVELY SUPPRESSED AND SQUASHED.**

[No] therapy [of any kind] was allowed after this short-tracked Covid-19 vaccine came out. The **FAKE LANCET PAPER** squashed treatment and then prepared the population for vaccination.⁶ [From then on,] nothing [regarding any possible treatment] could be published.

1. Americans should have been getting **WEEKLY UPDATES ON TREATMENT INNOVATIONS**. *How come there was no update on treatment and no promotion of early treatment to reduce hospitalization and death?!*
2. Americans should have been getting **WEEKLY UPDATES ON VACCINE SAFETY**. *WHY are there no safety updates?!*

Weekly updates from our Federal officials on safety are super important. [Failing to provide] these two [elements]: weekly updates on treatment innovations AND weekly updates on vaccine safety - are probably THE TWO LARGEST **ACTS OF MALFEASANCE** IN ALL OF MEDICAL REGULATORY HISTORY. It will go down in history of **MALFEASANCE, WRONGDOING** by those in authority.

DRAMATIZATION OF THE SITUATION

Many methods are used [by stakeholders] to make the [Covid-19] problem look worst than what it is, to make the case count look higher than what it is [in reality], to make the mortality numbers look worst than what they are: lockdown, fear, suffering, loneliness, economic distress, hospitalizations, deaths, what have you, are used to create a reaction out of proportion with reality. All these things make the pandemic look way worst than what it is so [to make it easier for them to proceed with worldwide] mass vaccination.

These two [realities] are tightly linked: [FEAR AND MASS VACCINATION]. Mass vaccination... **AT ALL COSTS**. The [whole] world must be MASS VACCINATED.

VACCINAL RUSSIAN ROULETTE

The consent form [signed by upcoming vaccinated people even acknowledges that the Covid-19 vaccine] is investigational. So...

- « We don't know if it's gonna work. »
- « The side effects could be a sore arm all the way to death. »
- « We don't know. »
- « Sign here! »

We never had this kind of situation before. Human beings ought to understand at this point in time that what we are seeing is unprecedented. It's absolutely extraordinary what is being thrust upon us.

SOMETHING IS VERY WRONG

Something is very wrong. Americans and people worldwide should be extraordinarily alarmed. Believe me, there is something very, very potent in this vaccine. It should be disturbing to everybody. The word 'vaccine' ought to be the most disturbing word that they have [ever] seen.

⁶ Covid-19: Lancet retracts paper that halted hydroxychloroquine trials <https://www.theguardian.com/world/2020/jun/04/covid-19-lancet-retracts-paper-that-halted-hydroxychloroquine-trials>
Lancet retracts **FAKE SCIENTIFIC PAPER** against hydroxychloroquine <https://m.youtube.com/watch?v=aj-sv0pyVYg>
Regarding this fake 'scientific' article, the Lancet's editor-in-chief Richard Horton stated: « This is a shocking example of research misconduct in the middle of a global health emergency. »

**THIS VACCINE IS FAR AND AWAY THE MOST LETHAL,
TOXIC BIOLOGIC AGENT EVER INJECTED INTO A HUMAN
BODY IN AMERICAN HISTORY.**

This mass vaccination is extraordinarily concerning. We [should] **NEVER** vaccinate into the middle of a pandemic. **NEVER.**

Don't forget this vaccine is just the starter.
It keeps on going and going.

And it's going strong with no mention of safety by our officials, with wild enthusiasm by our hospitals and hospital administrators, with doctors supporting it. Doctors are now saying they won't see patients in their waiting room without the vaccine.

After having vaccinated nursing home workers and high risk people - which should have come to about 20,000,000 people - we should have called it a day. But that didn't seem to satisfy the vaccine stakeholders.

There is something very unique about this vaccine, about injecting something into a body that is so important to stakeholders.

Now there's gonna be updates.
There's gonna be boosters.
They are already prepping people for this.
There's gonna be more.

The Wuhan Spike protein is long gone.
That's extinct!!
People are getting vaccinated for something that doesn't even exist anymore.
The Wuhan Spike protein is gone.

This Covid-19 PROBLEM is NOT about the virus.

IT'S ABOUT THE VACCINE.

IT'S ABOUT THE VACCINE.

IT'S ABOUT THE VACCINE.

IT'S ABOUT THE VACCINE.

1. THE EFFICACY OF VACCINES IS ONLY **PARTIAL**;

POLITICIANS WAKE UP AT LAST ⁸

If there is no conspiracy, let's at least humbly admit that all the components of a cabal are there: concerted discrediting of the competition (hydroxychloroquine, Ivermectin, etc.), aggressive censorship and vilification of opponents, refusal of a honest public dialogue, promulgation of the one-track discourse (media and political leadership collusion). In short, they behave as if they were hiding something. But all of that is just in our head, right? Let's see...

Here is below an excerpt from the press conference given by a handful of MEPs resisting the ambient vaccine lunacy. They courageously militate against the health pass, the European green certificate, forced vaccination and the creeping totalitarianism under the guise of COVID-19. Poor fellows. What a disillusionment. Despite their position, they are unable to solve the Pharman mystery. Let's listen to them:

« We demanded full access to the contracts signed between these [pharmaceutical] companies that produce the vaccines and the European Union... So after a lot of pressure in the [European] Parliament, these contracts were disclosed to us and the public.

I want to show you some of those pages and you tell me if this is okay for the European citizens to be exposed to this situation where they cannot come to work, they cannot enter a store, they cannot go with their kids to schools, where they cannot freely move from one country to another unless they are vaccinated with one of these products.

So these [blacked out pages] are the contracts that were disclosed by the Commission with the approval of the [pharmaceutical] company.

I'M ASKING YOU GUYS, IS THIS TRANSPARENCY? DO YOU SEE ANYTHING? BECAUSE WE DON'T.

Why aren't they open with the people and fully transparent so [that] we [may] all know what's going on.

The difference between tyranny and democracy is very simple: when the government knows everything about you, that's tyranny - and I know how it is to live in tyranny; when you know everything about your government, that's democracy.

So this is where we are right now, praising this institution as « the most democratic institution » in the European Union AND [YET] EVEN US AS MEMBERS OF THE EUROPEAN PARLIAMENT, DIRECTLY ELECTED BY THE PEOPLE FOR THE PEOPLE, WE ARE NOT EVEN ABLE TO SEE [THE CONTENT OF] THESE CONTRACTS.

So as we said last week, we are here for you and we will fight for you. As a former US President said: "Freedom is never more than one generation away from extinction."⁹ We live in that type of time right now and it's our duty and our call to fight for liberty.

Thank you. »

**Cristian Terheș
Member of the European Parliament - Romania**

There is no need to be overly indignant, to make a fuss or to cry injustice since it is quite easy to guess the content of such a contract. Let's get our brains working: first of all, in the current context, and for the purpose of this request for information from these MEPs, if these pages are blacked out, it is obvious that it is because the vaccine manufacturer wants to keep the public in

⁸ The discourse was shortened to reduce text size and slightly modified to ease reading. MEPs Supporting the rights of workers against the mandatory Digital Certificate - press conference <https://www.youtube.com/watch?v=t7g01by0ozk&t=6s> (15:52)

the dark. Would he want this agreement with the government to remain secret because it concerns the population of the said government? To ask the question is to answer it. Then if we look at the similarity of the measures taken by the various governments worldwide - regardless of their political regime, they have the same modus operandi - we can conclude that the content of the contract is practically identical for each one. So if we could scratch out the strikethroughs on these pages, here is what would surely be found...

Pharman Inc.

SALES CONTRACT

In order to eradicate the current pandemic, Pharman Inc. agrees to sell you the genetic mRNA vaccines at a discounted price. To this end, it is imperative to realize that the pandemic will not be eradicated unless your entire population is vaccinated, otherwise this pandemic will continue, your citizens will have been vaccinated in vain and your investment will be lost. Your help in achieving our common goal is therefore essential. It is critical that you aggressively undertake all the necessary actions described below, at all levels: political, media, legal, social and of course medical. You need to ensure that the ministries and entities involved work closely with the government to bring the entire population under vaccination. Therefore, please take concerted and homogeneous action. To this end, as specified in detail in Article 2 of Section IV of this contract, you are strongly urged to implement the following measures:

ENGAGING SOCIAL LEADERSHIP. Discreetly solicit the collaboration of all leaders and people of influence such as religious leaders, multinational company bosses and branch managers, business executives, union leaders, school principals and teachers, military leaders, hospital managers, etc., without forgetting to remind them of the importance of confidentiality in this process. Follow up on a regular basis to ensure their full compliance. It is no less important to mobilize radio/TV hosts as well as renowned artists, musicians, celebrities and actors in order to persuade your populations to get this injection.

CREATING AND MAINTAINING A CLIMATE OF TRUST. Advocate for vaccination as the only solution to the pandemic. Encourage vaccination through highly visible actions. Implement draconian measures (confinement, health pass, mandatory screening tests, etc.) and require the wearing of masks at all times in order to maintain the illusion that the pandemic is still a threat that is getting worse every day. Dramatize the data, statistics, percentages and number of deaths related to Covid to maintain a climate of fear among the population so that they will blindly follow your instructions.

DAMAGE CONTROL. Establish a damage control team whose mission will be to contradict the incriminating statements raised by opponents of vaccination on the Internet. Indeed, rebels who won't be able to express themselves freely in the public square anymore will go to the Internet where alternative media take refuge. Keep the cases of serious vaccine-related reactions quiet in order to avoid panic among the population. Deny the causality of the vaccine in terms of deaths or serious side effects related to the vaccination. Attribute all deaths of any kind - including natural deaths and even deaths caused by the vaccine itself - to Covid in order to create a hype for the vaccine as a necessary protection. Totally ignore vaccine atrophied people (no visits, phone calls, or correspondence) to avoid public disclosure of tragedies. Doing otherwise would risk emphasizing the human distress caused by the vaccine, undermine public confidence in the vaccination and delaying the achievement of our common global immunization goals. What is happening to these vaccine wounded is unfortunate but it is no more than the inevitable collateral damage in our fight against SARS-CoV-2. So avoid at all cost providing assistance to vaccine victims.

DEALING WITH THE OPPOSITION. Ensure that your media works closely with your government to make certain the vaccination is completed as soon as possible. To this end, they should discredit and label as 'conspiracy theorists' anyone who questions the appropriateness of the vaccine or its effectiveness. Remove from public discourse and social media any opponent of vaccination. Disbar, fire and/or fine any health care professional deviating from established guidelines. This is no time for sentimentality. We are at war with a terrifying virus. Their cases will serve as example to those who would be tempted to imitate them. Marginalize and penalize the noncompliant by restricting their movements, forbidding the unvaccinated to access places of relaxation and entertainment such as restaurants, cinemas, etc. If need be, blame the unvaccinated for the prolongation of the pandemic and the slow return to normalcy.

CONFIDENTIALITY. In order to ensure the effectiveness of this action plan, it is essential that the information contained herein be kept secret and that any attempt to reveal its contents be deterred by the threat of severe penalties. No one is authorized to disclose the contents of this contract without first requesting permission from Pharman Inc. so that it may black out portions deemed sensitive to the requestors.

Obviously, the content of this page is imaginary and was written for entertainment purposes only. These remarks have no incidence in reality and are so far-fetched that to claim the contrary would amount to conspiracy theory, right?

Trust us.
We're professionals.

POKER FACE

When you think of it, that's quite normal that Pharman wants to hide his game: he's bluffing. He's neither holding aces nor kings in his hand, even less a straight flush or a full house. The truth is that he's got a bad hand. Fear is the only trump card he's got: fear of getting Covid for people, fear of losing face for governments, fear of losing their job for doctors...

Would there be cheating by any chance? ...like a subtle wink from a vaccine manufacturer to another? ...or a discreet kick under the table? « *Oh nooo! That would be collusion. They wouldn't dare do that. The respect people, democracy, free speech, transparency...* » (Yeah right.)

One thing is sure, Pharman's greatest fear is to be exposed - as evidenced by this crossed-out contract held by the above mentioned Member of the European Parliament. Because he perfectly knows that his hand is as weak as his strongest card - his 'vaccine' - which turns out to be worthless.

Again, let's be patient. The truth will eventually come out and our decision to abstain from his poison will turn out to be justified and prove us right.

The blame of the prolongation of the pandemic lies mainly with Big Pharma. Its contract is so well formulated, its plan of action so well articulated and, above all, the health situation justifies it, that our desperate governments see nothing but fire and assume they are dealing with an expert. Except that when it comes to SARS-CoV-2, Pharman doesn't know any more than the rest of the scientific community and, consequently, improvises. Everything may very well make sense in his contract, but that doesn't change the fact that his 'vaccine' is junk and amounts to a shot in the dark. Period.¹⁰ But this, he will deny.

PHARMAN'S VERSION

During the month of July, as I was writing this book, there was a brief moment of commotion on our floor one night. Young people were laughing exuberantly in the corridor. That's normal: summer is here, the weather is great, life is beautiful... You're young, superb, strong and full of vitality... You have friends, camaraderie... The future is yours, you're invincible.

This only lasted a few seconds then they left. Calm came back as quickly as it vanished. I suppose that they were coming back from the roof terrace where they met for good time - next waited shortly for the elevator to bring them down to their friend's apartment.

In the morning, the morgue came to pick up three of them: Fentanyl.¹¹

No mercy.
One way trip to the afterlife.
What a tragedy!!

I couldn't help but think about the absurdity of the situation. These youth's life fizzled out. No warning.

I couldn't help but think of their parents, of their collapse. Their existence crashed on a wall. Bang!! Funerals for your vigorous teen who was full of hopes, promises, projects and dreams...

Not that!
Not this absurdity!!
This wasn't part of the plan!!
What nonsense.

I subsequently returned to writing my book and there I imagine what would have been Pharman's words if these teens had died from HIS 'Fentanyl' (vaccine)...

« There is no evidence to suggest that there is any link between the deaths of these young people and our 'Fentanyl'. Their autopsy reveals that each of them had a distinct pre-existing medical condition that may have been the cause of their premature death. As for the three of them dying in the same place at the same time is rare but statistically possible. There is therefore NO CLEAR LINK that can certify beyond any doubt that their deaths were caused by Fentanyl. It would therefore be inappropriate to conclude at this stage - or at any other stage for that matter - that Fentanyl caused this tragedy.

« We will continue our analyses and will knowingly keep silent about any evidence, thus avoiding to incriminate our laboratories and to discredit this drug that all the population: men, women, elderly, teens, kids, infants as well as fetuses urgently need - and that our scientists have concocted in a hurry - under pressure - between 2 coffee

¹⁰ Three sisters die of coronavirus - in one week <https://www.israelnationalnews.com/News/News.aspx/313400>

Quote: "These are three sisters - one was vaccinated with three doses, one vaccinated with two doses, and one unvaccinated."

You see, 3 people from the same family die. The 'vaccine' didn't prevent the least the two who were 'vaccinated' from dying from the coronavirus.

¹¹ I did not witness it personally. An acquaintance informed me of the situation.

breaks - until the wee hours of the morning - in order for us to meet the unrealistic deadline that this unexpected Covid-19 situation requiring the creation of this improvised 'vaccine'. Indeed, we had to act quickly if we did not want to be outdone by the competition who were already working hard on this same case.

« So don't expect us to include these deaths in our database or statistics. You'll understand that it would be shooting ourselves in the foot and hurting our sales - which would reduce demand for our 'magic potion' that gives vaccinees the illusion that they are safe.

« We also need to maintain the cult of our immaculate lab coat and the sterilized equipment we gracefully handle, giving our affable complicit staff an aura of respectability. So we'll keep it quiet and if it ever gets out - well, our media will just label those who question it as 'conspiracy theorists'!

« Thank you very much and have a nice day. »

INTENTIONAL BLINDNESS

'If it looks like a duck, walks like a duck and quacks like a duck, then it is a duck, right?'

Pharman: « Hum. Let's see. It looks like a duck, walks like a duck... that's surely a horse! Euh, maybe a dolphin... or a perhaps a squirrel... a parrot, no? Well, we really don't know what it could be! Could be a worm, you never know. So assuredly, Fentanyl is not the issue. »

¹³ And mostly our leaders who make a show of themselves while being 'vaccinated' just to set a good example for the herd: « Scene 3, take 2. Smile! And actiooon... We're pricking! » Can you imagine the reaction of populations if the President/Prime Minister of a country died a few hours after his publicized vaccination?! Ouch! The news would make headlines worldwide! It wouldn't be too good for Pharman. His sales would plummet... and the media would have to work overtime for damage control. Indeed, it would be better to use a saline solution for our beautiful leaders in order to avoid a marketing campaign disaster. Vaccine Load, Shedding, Side Effects Differ: WHY? <https://www.redvoicemedia.com/video/2021/09/vaccine-load-shedding-side-effects-differ-why/>

PHYSICIAN, HEAL THYSELF...

The author of a comment on the Web had put forward the hypothesis that many citizens¹³ were vaccinated with a saline solution rather than with Pharman's potion in order to avoid an 'excessive' number of simultaneous deaths due to his 'vaccine', which would cause the cancellation of his INEFFECTIVE CoVOID 'vaccination' campaigns.

PLAUSIBLE.

Still, it would be interesting to know if Pharman vaccinated his own kids with his experimental elixir... or with a saline solution.

HOLLYWOOD: THE INVINCIBLE VIRUS

I've always heard that a virus never survives more than a year, no matter what it is, where it comes from or how virulent it is. It would only last for about a season, a few months at most. I can't confirm this however as I am ignorant of the subject. But here we are entering the 3rd year with this pseudo-coronavirus (2019-2122). I say 'pseudo' because in theory, it should be dead and buried - disappeared since 1 year - if it is indeed true that the longevity of a virus is less than one year.

And if that's the case, there's something wrong with that setting. Because if the original virus did not exist over the past year, what exactly are we fighting today? Its progeny... those famous 'variants' generated by the 'vaccination' itself? And if this is the case, the Pharman 'vaccination' campaigns have no more reason, or rather, NEVER had any reason to exist.

I paraphrase the words of Dr. Laurent Montesino: « *It is counterproductive to vaccinate during a pandemic. Vaccination should be done AFTER the epidemic phase to avoid inappropriate reactions of the immune system.* » and those of Dr. Peter A. McCullough: « *This whole Covid-19 situation has nothing to do with the virus but with the vaccine. It's not about the virus at all. The ultimate goal is to vaccinate us all - at all costs - with or without the virus.* » °

Which means that the problem is not the virus, or if you prefer, the virus is not the problem. The problem is Pharman. If he had minded his own business instead of intervening to line his own pockets as the opportunist that he is, we wouldn't be in this mess today. We'd just be better off and the planet would be back to some semblance of normalcy because the virus would have died a quick death - like any self-respecting virus - its offspring would never have been born - and we'd be back to our routine... without masks, travel limits and restrictions.

So now the covidic offspring survives - and is rampant - thanks to the presence of viral mRNA in these 'vaccines' that are injected into us and that contributes to contaminate our fellow man (thus even more sick people) and to create mutants that will have to be countered with - you guessed it - another vaccine... that will generate a new variant... We're stuck in a vicious circle VERY profitable for Pharman, let's admit it.

How long will Bigwig hold us in suspense? How long will we consent to be held hostages to his morbid designs?

Personally, I find it refreshing to meet an unvaxed. (It's increasingly rare, you'll agree.) I'm glad there are still people around who think for themselves and don't blindly follow the masses; who educate themselves and avoid going down a blind alley; who refuse to do something just because others are doing it; who refrain from dancing to the rhythm of a media serenade just after the fascinating visual effects of the television news broadcast introduction.¹⁴

The word PANDEMIC means '*epidemic that spreads over one or more continents*', not '*epidemic that recurs indefinitely*'. Again, there is something wrong with Pharman's scenario.

BUY THE WAY...

1. IS IT NORMAL that the former CEO of the company involved in building the Wuhan Virology Institute from which the virus 'escaped' is now CEO of the company responsible for vaccinating you?¹⁵ Doubtful, you will admit. And we should put our health in their hands?!
2. IS IT NORMAL that Stephen Hahn who was head of the FDA now works as chief medical officer of Flagship Pioneering, the venture firm behind Moderna? And that Scott Gottlieb who worked as commissioner of the FDA is now sitting as a member of the board of directors of Pfizer? There is obviously a questionable love story between the FDA and vaccine manufacturers. But we won't call it complicity, right, that would be 'conspiracist' ;-)¹⁶
3. IS IT NORMAL that 4 of the 5 countries with the most vaccinations are currently experiencing a pronounced resurgence of Covid?¹⁷ ...and that the variants arise mainly among these?
4. IS IT NORMAL for a doctor to be paid double the regular fee for a Covid consultation? Doesn't this encourage him to call any consultation '*covidic*' in order to double his fees? ° *Tempting you will admit.*

Same scenario for Covid-related hospital stays that are billed 4 times more expensive than a regular stay?! Again, isn't this an incentive to call any stay '*covidic*' in order to quadruple your fees? °

Furthermore, doesn't all that alter favorably Covid statistics?

Super paying, Covid, I'm telling you.

¹⁴ The unvaxed - conspiracy theorists or not - have an extraordinary strength of character. They refuse to be manipulated (by a real or imaginary force), to go against their convictions. This is commendable since most people today have no personality, being only the local reflection of a televised Hollywood.

That's only what we know. How many dozens (hundreds?) more used to work for governmental/official organizations such as the FDA, WHO, etc. and now occupy strategic positions within the Pharman Clan? It makes things much easier when you need the approval to market a new 'medication' or to get a 'favor' from official agencies. Pharman understood that '*in life, it's not what you know but who you know*'. Indeed, these former government officials can introduce Pharman to their former employer's workings and decision-making mechanisms, in addition to providing him with the key contacts to accelerate the reach of his objectives. It's not for nothing that Big Pharma gets permits issued in record time. A quick phone call to a former colleague and that's it. When you're incredibly wealthy, it's not what you can buy but WHO you can buy.

Pharman and his ilk (drug/vaccine/food companies) donate about a billion dollars (\$1,000,000,000) a year as 'user fees' to the FDA - which amounts to roughly 20% of the Agency's annual budget. After receiving so much money from the people they regulate, it must be quite hard to say 'No!' to them, right? How can you say 'No' to someone who showers you with money?

We can now better understand why Christopher Cole, FDA Executive Officer of Countermeasures Initiative states...

« *So, they [Big Pharma and others] give more money, yes, that's great and it increases the chance of an approval.* »

5. IS IT NORMAL that Dr. Robert Malone, one of the key architects of mRNA technology currently used in anti-Covid 'vaccines' - is CENSORED because he denounces the irresponsible behavior of the authors of these abusive 'vaccination' campaigns? °
 6. IS IT NORMAL that information attesting to Dr. Malone's indispensable contribution to mRNA technology is removed from Wikipedia in order to undermine his credibility on the subject? ¹⁸
- 'If you cannot discredit the work, discredit its author.'*
7. IS IT NORMAL that this doctor's life is being threatened because he is talking too much? ¹⁹
 8. IS IT NORMAL that hydroxychloroquine, which has been used for 40 years worldwide and is a potential solution for the prevention/treatment of Covid-19, is suddenly declared 'unsafe' and withdrawn from the market just as the 'vaccine' is emerging as a miracle solution? ²⁰
 9. IS IT NORMAL that a major hydroxychloroquine plant just happened to burn down in December 2020? °
 10. IS IT NORMAL that after more than 20,000 deaths - as of July 31, 2021 - and this, in Europe alone - we are still blindly pursuing these 'vaccinations' when normally any vaccination campaign is automatically interrupted when 25 deaths are reached? °

Come to think of it, yes, that's quite normal since the pharmaceutical mafia doesn't appreciate nuisances during its FEAŠT. Who could blame them?

11. IS IT NORMAL that during almost 2 years of intensive worldwide vaccination where 3 billion people were vaccinated - many of them 2 or even 3 times - the mainstream media did not mention once the vaccine injured! Not even a single case among the hundreds of thousands of vaccine injured - many of them seriously - was reported!! Not a single death out of the tens of thousands of dead was cited!! If only they had paid lip service to it, as a formality, as a courtesy. No! Zero information. Radio silence. TV silence. Newspaper silence. Not even a single minute nor a single article on the subject... in two years.

By their silence, these media imply that: either among the 3,000,000,000 vaccinated, no one was injured; or that they are totally indifferent to this vaccine hecatomb; or that their hands are tied under penalty of government sanctions.

But by failing to fulfill their role to adequately inform the public about these dangers, these media are guilty of the tragedies towards which those who are about to be vaccinated are getting into in all innocence.

These vaccine victims are not negligible disposable cases but individuals with a heart... now filled with bitterness, broken dreams and feelings of frustration, perplexity, despair and anguish.

And after that, these media call themselves 'sources of information'. (Yeah right.)

Aren't they untrustworthy?
 Unworthy of having a voice?
 Unworthy of being listened to?
 Shouldn't their ratings plummet to zero?

²⁰ The reason why so much effort has been made to delegitimize any treatment for Covid is that if a treatment were proven to be effective, Pharaman could not have been granted his worldwide vaccination permit. This « emergency health permit » could only be granted if no other alternative was available to his pseudo vaccine. So he had to discredit any competition... *which he successfully did.*

12. And these unions - richer than governments, even richer than Pharman - who remain silent while their protégés - who have been fattening them with billions of dollars for decades - are now being fired by the thousands. Where are these 'brave' unions that are supposed to fight injustice? Have they become accomplices? ²¹ Or what threat reduces their leaders to inaction, to silence?

What are they waiting for to initiate a general strike? They profess appealing sweet-talk on their website and pay lip service to sugary theories on solidarity but accomplish nothing significant for their members in this time of covidic injustices.

This event is obviously just a snowflake on the tip of the iceberg. How many other unions have been BRIBED BY PHARMAN? How many politicians, state officials, doctors and hospital executives were bought? How many media * and government agencies are being paid off?

Let's not kid ourselves! This is not an isolated case.** It is well known that the pharmaceutical industry is versed in the practice of bribery. In its multi-billion dollar budget, a few hundred million dollars are surely allocated specifically for bribes... *at the cost of our health.*

* Thousands of media employees - newspaper columnists and television commentators, among others - are under Unifor's umbrella (and this is just one union among many). Pharman doesn't pull punches - \$50,000 - that's a lot of money. He wants to 'vaccine' us at any cost - *literally*. Love is blind: either his or ours.

** Being caught red-handed may be an isolated case in itself, but bribery in this industry is as prevalent as snow in a Canadian winter.

Shouldn't union members get together to publicly tear up their membership cards in protest and stop paying their weekly union fees to these (corrupt?) unions whose bloated (profiteering and parasitic?) leaders bow down to Pharman instead of standing up to him. And it's not as if these unions don't have the means to bring a class action...

By their guilty silence, our union leaders are proving that unions are now part of the Establishment and that their members are nothing more than pawns to them. Unionism is now a racket.

SCENE 1, TAKE 2...

What will the next step after this vaccine frenzy be? The mark of the Beast? After this first victory at our expense, what will stop their next globalizing project? Doesn't their ultimate goal seem to be the *absolute* subjugation of our communities?

When the "*man of perdition*"²³ appears, will our elites rush to prostrate themselves before him to immolate us in his hands? Are they not already undertaking to sacrifice us on Pharman's vaccine altar

Personally, I find this 'vaccine' situation quite revealing. When I look at this show, this staging, this awkwardly improvised comedy,²⁴ it looks like a practice of the eventual subjugation of the peoples in anticipation of

what is called today '*The Great Reset*' which could correspond, according to my humble judgment of course, to year one of the short reign of the Beast.

Want it or not, that's where we're headed.

The Word of God is immutable and always current: *the Beast "causes all, both small and great, rich and poor, free and bond, to be marked on the right hand or the forehead: And that no man might buy or sell, unless he had the mark, or the name of the beast, or the number of his name. MASK FOR MASK

There is a solution to this impasse: let us repent and humbly approach the God of Israel - the one and only true God, good and formidable - and express to Him in our words our wish to see this virus disappear so that we may be rid of Pharman and his minions.

Believe it or not, God will answer your prayer, even if it's the first time you're talking to Him. Indeed, without a virus, these leeches will have no reason to bother us anymore - at least until they come up with another scenario. Which should give us some respite.

And while this trying time will have required us to wear a mask, it will also have allowed Pharman to lose his and thus have his inherently abusive greed exposed.

Long live the WHO, pure, transparent, altruistic and selfless, the wedding hall of the Pharman Dynasty.

As for the centralized global Establishment (if such an entity exists ;-)) the present situation will have allowed it to evaluate the worldwide civic opposition to the eventual imposition of the mark of the Beast under 'Big Brother's regime.

ASTERIX vs. GENEFIX

Be brave Gauls!

Let's resist Genefix!

Let's not be fooled by his tricks.

Our autonomy is in jeopardy.

The future of the tribe is at stake.

Let us not pay this tribute at the price of our vigor.

Let us not give in to these tactics.

He has already made too many victims.

Let us stand firm despite the siege!

Future generations will be grateful to us.

Fortunately, the Maverix prefer to live in the maquis rather than obey these suicidal instructions. Indeed, this 'vaccination' does not go down well with everyone. So much so that the hospital staff - witnessing the countless

tragedies piling up before their very eyes - are beginning to express their opposition to this circus and are even refusing, by the hundreds, to be vaccinated.¹

And they are not alone...

The situation has reached the point where parents, coming out of their torpor, prefer to expose their children to the virus rather than to the 'vaccine'.²

Thus despite the growing pressure, several discreet bastions of citizen autonomy are holding out, as shown by this call for resistance on a luminous display on an SNCF train:³

*You obey so that it may stop,
but that's precisely because you obey that it goes on.*

These 'rebels' surely studied under Lucie Aubrac:

'Resist' should always be conjugated in the present tense.

WHITE ELEPHANT STUCK IN DEAD END

Since these vaccinal campaigns are so dangerous and, first of all, completely useless, not to say counterproductive, why is this circus going on? Why are we still doing this? If we had a shred of humility, wouldn't we recognize our mistake?

It does effectively require humility to publicly admit that these vaccinations are not working and are, in fact, a BLANK ELEPHANT.⁴ But the consequences of such a confession would be extremely damaging to Pharman and his accomplices since we are now in a DEAD END. Indeed, to admit having made a mistake would mean losing face. It is therefore almost impossible for him to turn back.

⁴ *Three sisters die of coronavirus - in one week* <https://www.israelnationalnews.com/News/News.aspx/313400>

Quote: *"These are three sisters - one was vaccinated with three doses, one vaccinated with two doses, and one unvaccinated."*

You see, 3 people from the same family die. The 'vaccine' didn't prevent the least the two who were 'vaccinated' from dying from the coronavirus.

It would effectively be suicidal to him since...

it would expose his incompetence, undermine his credibility, tarnish his image and call into question his integrity since he will have privileged profit over his fellow man's wellbeing.

Furthermore, our politicians would never be forgiven by the electorate for having NEEDLESSLY imposed this maskerade (literally) upon us. As a result, their political careers would end in disgrace. No one would dare re-elect such individuals.

All these actors have therefore an interest in playing to the end this 'It's gonna 𐀀 be okay' game, denying the obvious and promising us freedom via a health pass that is only useful to maintain the illusion that these vaccinations are essential to the evolution of the situation... which, in fact, goes from bad to worse.

So we will go around in circles like a snake biting its own tail until the last tyrannized unvaxed bow down before St. Syringe. It is only then that we will be able to close this chapter in an 'honorable' way by claiming that the pandemic is finally over - in spite of the inevitable jolts of the 'dying' virus raging here and there.

THE EMPEROR IS NAKED

In short, the current coronavirus 'crisis' could be summed up to Hans Christian Andersen's tale where the Emperor strut about, naked, firmly believed being dressed with exceptional royal clothes. Everyone, not daring to upset him, pretend 'seeing' the fabulous costume. Only a little boy will spontaneously shout

« But the Emperor is naked! » ⁵

Thus, our government is the *Emperor* and the media are his *ministers*. Big Pharma is personified by the *two swindlers* having elaborated the deception while the vaccinated are the *people* and - lastly - the *little boy* embodies the 'conspiracists'.

"Thus « dressed » [that is bare-naked] and accompanied by his officials, the monarch showed himself to the people who, also, pretended to see and admire his clothes [while having none]. Only the little ['conspiracist'] boy dared to

say the truth: « But he doesn't have any clothing at all. » [But that vaccine doesn't work at all!] ... And everyone [finally] agreed with him. The Emperor [government] understood that the people was right but continued his walk without saying a word [and kept behaving as if there was still a pandemic... so as not to lose face]."

HUMILITY 101

Shouldn't we repent?

If there is anything that displeases God, that is indeed pride. Let us resist the impulse to despise our neighbor. Otherwise we risk entrusting fate with the task of reprimanding us. And this fate is sometimes ironic as illustrated by the following cases: an *anti-vaccination activist* died of Covid.⁶ And a *pro-vax activist* who publicly belittled the unvaxed died after receiving his 3rd Covid vaccination.⁷

As my book *Master of Times* reveals...

« Regarding our relationship with our fellow human, it is vital to express respect towards his development as well as his personal limitations, vulnerabilities and discomfort when facing some situations. This means respecting his fragility as well as his weaknesses and consequently his hesitations. It also means not attempting to intimidate him nor impose upon him our choices even if we cannot grasp his logic. We should therefore resist the urge to change or control him. We've got to respect his choices, tastes and preferences even if we are convinced that he is wrong. The Scriptures indicates that "By pride comes only contention." (Proverbs 13.10)

It is therefore preferable to show humility than to be subjected to humiliation. We should therefore be careful and abstain to glorify ourselves by comparing ourselves to others. Any foundation erected on anything than respect is called to crumble under the feet of the one who attempts to elevate himself. » (pages 211-212)

Shouldn't we all repent?

Isn't it to this end that God allowed this plague?

Don't we all need to be brought to order?

Man, however powerful he may think he is, having subdued creation to his superiority's whims, must now hide in his shelter for fear of this tiny entity called coronavirus. When going out, he conceals his face, hoping to go unnoticed - but this virus recognizes its victims, masked or not.

What is the use of the WHO if, strong of its \$4,000,000,000 budget and its 7,000 employees, it does not even bother giving the alarm - AS IT SHOULD - while a few brave Chinese doctors did it at its place.⁹ What is the use of the WHO if its integrity is jeopardized by political skulduggery?¹⁰

Who is WHO? In the light of these events, its acronym should stand for *World Health Obscurantism*. Thanks to this organization, the entire planet now undergoes necrosis. The COVID-19 scandal is yet another stain on the long list of this UN agency's political controversies.¹¹ But all is not lost though. Its pharmaceutical suppliers will surely make a small fortune with this pandemic.

"Is it not from the mouth of the Most High that good and bad come?" (Lamentations 3:38) God's discipline aims at making us aware of his Presence, noticing our vulnerability, triggering a reflection - taking a new look at ourselves - TO FEAR HIM, then, ideally, to repent and change our ways. Isn't it what we should do if we were slightly intelligent?

In retrospect, when we will consider the COVID-19 episode, will we have seized this opportunity for introspection to take a new look at ourselves and assess our relationship with our Creator, or will we have hardened our hearts as the evil pharaoh and his servants did, obsessed as they were to maintain Israel in humiliation?¹²

- 👤 Have we lost the ability to think for ourselves, entrusting others to do the thinking for us
- 👤 Are we consenting to be fooled by people insulting our intelligence in the name of social solidarity?
- 👤 Do we consider that a well-educated person is closer to the truth, and that an individual holding a higher position is closer to perfection?
- 👤 Are we letting events toss us back and forth without daring to take a decision that would be salutary to us and as an ideal for others?
- 👤 While having a disagreement, are we usually ending up considering our opinion unworthy of consideration?
- 👤 When we feel confident about a belief that we hold which contradicts the surrounding standards, do we dare questioning some 'truths' endorsed by our environment?
- 👤 Are we as gullible as our environment would like us to be?
- 👤 Are we agreeing on feeling 'guilty' for the sole crime of holding a different point of view?

If you cannot say no, is it truly freedom? Our body neither belongs to the government nor to our employer.

SHOULD YOU BE WRONG SIMPLY BECAUSE YOUR OPPONENT IS RIGHT?

Regarding a same reality, there can be disagreement depending from which angle each observer looks from. As shown above, one will state that the object is of rectangular shape while the other will say that it is triangular. In this example, even if the statements are conflicting, they are equally valid. Despite their divergences, both are right and, consequently, none is wrong. So, even if someone knows he's right, a different opinion from his doesn't necessarily mean a mistaken point of view. Thus, from your perspective, you can hold a truth just as real and legitimate as someone else's, even if it conflicts with his. Therefore, it is not always obligatory that a perspective prevails over another. That's where respect comes into account. So when you know you're right, it is important that you value your opinion even though someone else asserts that you are wrong simply because it contradicts his point of view.

When two friends respectfully confront each other on a tennis court, don't they become better? To devote all our resources to reach victory is indispensable if we want to excel. It's the same regarding our diverging opinions. If you don't hold the same view than me, feel free to write an article in which you'll highlight yours ;-)

◆◆◆ A HOLOCAUST SURVIVOR'S PERSPECTIVE ON THE CURRENT 'HEALTH' CRISIS ◆◆◆

FEAR and PROPAGANDA

« That's one of the lessons we have watched now since 2020. We were ordered to lock down, to wear masks... All these directives are to control. World leaders are currently using the same nazi methods: fear and propaganda. Those were the two most important psychological weapons. And

THE SAME THING IS HAPPENING TODAY. »

SPREADERS of DISEASES

« At that time, Jews were demonized as SPREADERS OF DISEASES. There is a parallel there. Now today, two years after the coronavirus pandemic began, *the unvaxed have become the Jews*. They are now being unjustly accused of spreading the virus even though all the evidence shows that they are not. [These people are justified to refuse those experimental shots since] there are scientists now who are examining the content of those injections and there are things that are absolutely not meant for the human body. You then have to ask yourself why are governments so increasingly demonizing the unvaxed since they don't pose a risk, and why the vaxed have now become the privileged class. »

TOO TWISTED TO BE TRUE

« In the [19]30s, the Jews did not believe that hitler meant what he said - and then it was already too late. And I'm afraid that people today are not believing that there are nefarious reasons behind the frenzied, the aggressive way these leaders have gone to force people to take the injections. And now they are after the children to be injected with something they absolutely don't need. Children are not at risk. Then

WHY?

What is their objective, their goal with these injections? »

CONTROL

« People should understand that this process is implemented STEP by STEP. This is a prelude to complete control. The kind of slavery that presently exists under the model of China where everything is controlled through technology. THIS IS VERY REAL. They spell it out in various reports in the *World Economic Forum's official website*. On there, you can read what they have in mind. They want to stop all dollars, euros and all other currencies so as to have a sole centralized digital economy.

Once that system established, they can at will turn it on and turn it off. Our leaders could then prevent you from taking any money out of your bank account or even preventing you from buying groceries.³ They could do anything they want such as confiscating your retirement money. So people having paid 40 years into a pension fund so that they won't be left stranded in their old age would see their savings eliminated in an instant! »

PARALYZED BY FEAR

« The problem is that people are so frightened by the virus that they are not thinking - they are not evaluating. [That's precisely the aim of the propaganda of fear.] Having been conditioned [for so long] to [blindly] trust their health system, citizens now believe whatever they are being told. But the fact remains that it's rolling back to a fascist regime [but this time of a global scale]. »

³ « Ooh noooo! They wouldn't dare do such a thing! » I say there is NOTHING to their test. They are currently going in with white gloves but you haven't seen anything yet. Wait until their 'system' is in place - that won't be a pretty sight.

◆◆◆◆◆◆◆◆◆◆ 2nd INTERVIEW ◆◆◆◆◆◆◆◆◆◆

**VERA SHARAV: 'NEVER AGAIN!' DOESN'T MEAN VERY MUCH
IF YOU'RE SILENCING THOSE WHO ARE TRYING TO PREVENT IT FROM HAPPENING.**⁴

Brussels, January 28 2022

« Just saying '*Never again!*' doesn't mean very much
if you're silencing those who are trying to prevent it from happening.

◆◆◆◆◆

One of the main parallel is so extremely disturbing
— and I used to say that it was THE UNIQUENESS OF THE HOLOCAUST compared to other genocides —
was THE TOTAL COLLABORATION OF THE MEDICAL ESTABLISHMENT.

And what is happening NOW is being pretty much
PUSHED AND HELPED ALONG BY THE COMPLICIT MEDICAL ESTABLISHMENT.

◆◆◆◆◆

In Nazi Germany, the first medical murder victims were German infants and children, a thousand of them,
they were medically murdered at hospitals.
That T4 [Aktion] program expanded to the disabled of all ages
and finally the nursing home residents.

◆◆◆◆◆

In 2020, the wealthiest governments in the world,
Western Europe, United States, Canada, Australia,
essentially medically murdered nursing home residents.
The Nazis called them 'worthless eaters!'

◆◆◆◆◆

So you have to ask yourself where we're heading.

◆◆◆◆◆

The evidence is incontrovertible from Israel, United States, UK, EMA, that the shots don't work...
So my question is: If these injections don't prevent infection or transmission,
why then are the vaccinated [considered so] special... They have all kinds of freedom ...
but the unvaccinated are being vilified as the Jews were in the 1930s and 40s.
What's the difference? ...

JUST THE FACT THAT THE VACCINATED ARE OBEDIENT.

◆◆◆◆◆

Being obedient [in the current situation - as *prior* to the Holocaust] means being [gradually] taken to the slaughter house.
They won't need gas chambers this time round,
the technology is far more sophisticated and far more dangerous actually.

So I say, please wake up and wake up your neighbors.
Don't let it happen again.

If there is censorship - then you know that the topic is very pregnant [and about to hatch].
It's got a lot of meaning [to those who are trying to silence you].
And they don't want you to open up the can of worms.
And that's what has happened with the Holocaust.

[Today] the institutions, including Jewish institutions... have taken the Holocaust out of the historical perspective
and put it into some box away to be taken out once a year,
and that'll be January 27th, Memorial, and to make it untouchable.

THAT'S A CRIME.

That is a self-serving way of hiding information
that they don't want the public to know. Why?
Because then you will all recognize the parallels that I am recognizing
and that other Holocaust survivors are [recognizing] as well.

This is what they don't want you to think about. That yes -

IT CAN HAPPEN AGAIN!

And I'm trying my most to alert people.
That's my only weapon: [It] is information - [It] is warning.

The REAL VIRUS that is infecting those [rulers] who are manipulating this whole [health] scenario is

THE VIRUS OF EUGENICS.

It's never gone away.

What we are really dealing with are THE HEIRS OF THE NAZIS,
they have the same mentality.

EUGENICISTS BELIEVE THAT THEY ARE SUPERIOR

and that all others are an underclass.

That mentality has not gone away,
and we're seeing it play out [once more before our very eyes today]. »

If COVID injections do not protect anyone's health,
what is the real objective of vaccine mandates and digital passports?

Tens of thousands of doctors, scientists and nurses refuse the injections
— even if it means losing their jobs and their licenses. —

Close to 38,000 EUROPEANS HAVE DIED FOLLOWING THE SHOTS.
And more than 3,390,000 have suffered injuries.
Healthy, athletic, young adults have died.
Children are suffering from myocarditis and blood clots.
Neurodegenerative diseases are also emerging in the vaccinated.
We are at a catastrophic junction in human history.

We must choose
— whether to disobey and assert our freedom and our rights as human beings —
or to be enslaved.

Dietrich Bonhoeffer — an exceptional German Protestant minister during the Nazi regime stated:

“SILENCE IN THE FACE OF EVIL — IS ITSELF EVIL.
NOT TO SPEAK — IS TO SPEAK.
NOT TO ACT — IS TO ACT.”

Rabbi Michael Green just posted an urgent plea that
[IT'S] “TIME TO ATONE FOR THE HOLOCAUST BY NOT ALLOWING IT TO BE REPEATED.”

Green admonishes everyone not to obey tyrants' orders
and not to marginalize and persecute minorities [the unvaxed in this case].
And he admonishes the Jews as well:

“Don't repeat the fatal error of blindly heeding your kapo betrayers
and walking obsequiously like sheep to the slaughter.

WAKE UP NOW!”

DO NOT BE DELUDED.

The unvaccinated are not the enemy.

If we are to survive as free human beings in a free democratic society,
we must join together and avert a catastrophe.

We are [considered] the threat because we are talking truth to power.
We must not be silent again,

'NEVER AGAIN!' IS NOW. »

SUICIDE BY SUBMISSION

I recall windsurfing at Britannia Beach (Ottawa) in '88. Being a member of the local Club, we were required to adopt the government guidelines to which the organization was subject: to wear a life-jacket while windsurfing - which I gladly did - as it was *'for my good and protection'*.

So one day as I am in coastal waters, I fell off my board. When I surfaced, it was impossible for me to access the air because the sail covered the entire surface where I had fallen. I tried to push it with my hands but it stayed in place and I went downwards with each attempt. I then rapidly undertook to go under the board to reach the other side but was unable to do so because the life-jacket - intended to save my life - keeps me at the surface... under the sail that holds my head under water. Deprived of oxygen for too long, realizing the urgency and seeing no way out of this deadly dilemma, I fought for my life - literally: I spontaneously threw violent punches in front of me, hitting non-stop the water and the sail. Suddenly, thank God, I see the blue sky above me.

It would not have taken much for me to become another drowning statistic of the season.

It wouldn't have taken much for me to die for having submitted to directives.

Effectively, the 'safety' decree in question did not specify WHAT KIND OF JACKET the surfer should wear. Thus, the Club provided us with huge canoe life-jackets that were wrapped around the neck and tied at the front with knots - rather than a waist harness that is wrapped around and is easily removable.

Needless to say, this episode left me with a bitter taste about the 'good guidelines' established *'for my good and protection'*.

I am no conspiracist.

I do not claim that the government has malicious intent against surfers by imposing an inadequate life jacket for the practice of their sport. No, but I am now suspicious of edicts issued by incompetent and/or inconsistent State bureaucrats. Perhaps the mistake was the Club's. Who cares!! Each of us sincerely submitted to the directives and the result was almost a death: *mine*.

So please excuse me if I now think twice before venturing down a path intended *'for my good and protection'*.

There is a considerable proportion of people who are inclined - as I initially was - to naively give credence to their fellow human beings - especially regarding 'official' reports, 'official' television news or 'official' government directives.¹ And the majority of them are believers. Doubt it? Didn't Yeshua

¹ One wonders if they would also obey the diktats of the 'official' nazi party. Let's not kid ourselves. They also went step by step at the time. Nazism: organized crime - state-sponsored scheming - complicit media - official censorship - divisive propaganda - treacherous treaties ("Peace for our time") - scapegoating - discriminatory OFFICIAL directives - generalized cowardice/voluntary collective deafness - unjustified targeted aggression - looting of victims - official industrialized genocide.

And history would suddenly stop repeating itself?! As Vera Sharav so aptly puts it, « *Just saying 'Never again!' doesn't mean very much if you're silencing those who are trying to prevent it from happening.* » And there, as we can see even today - inevitably - human stupidity demands to be repeated.

say, *"The sons of this world are more shrewd in dealing with their own kind than are the sons of Light."* (Luke 16.8) One could understand « *The inhabitants of this world are much more suspicious of their fellow men than are believers, who are easily fooled by the impeccable appearance of corrupt professionals whose cleverly crafted speech is promoted on 'official' television networks.* »

These believers will then be the first to stretch their arm for the 'safety' shot that is supposed to save them from a big bad virus that is only dangerous for a tiny part of the population to which they do not even belong. They will even go so far as to give precedence to a directive that is unfavorable to them despite common sense, and even despite their own personal experience. As proof, I personally know a believer who experienced serious heart problems after his second shot and who - believe it or not - is now considering getting his third. What can I say, the system convinced him that « *It is safe.* »

Safe?! With thousands of Needle castaways having sunk into the abyss of the Spike Ocean precisely because of Pharman's 'reliable' jacket - now dead or severely injured. Safe?! Make me laugh.²

Will this type of 'believers' evoke *"Let every person be subject to the authorities."* to justify their submission to the mark of the Beast - who will then be promoted as 'safe'?!³

So adopting a counterfeit solution to solve a counterfeit problem only risk worsening the situation. As I said before:

IF IT AIN'T BROKEN - DON'T FIX IT!!

If by the grace of God you're healthy, it's surely not by consenting to have some weird unproven worthless and ineffective product injected into your precious body that your life's gonna get better.

Nevermind *'for your good and safety'*.
Nevermind *suicide by a third party*.

Let them go recruit elsewhere their human sacrifices.
Don't buy their crap.

Events are raw material that need to be shaped according to the will of the One who has called us to Life - not to suffer them with resignation. If God has equipped us with a backbone, it is to use it. And if He provided us with a brain to think - shouldn't we also use it?

² MEDIACRITY? Ignorance is sometime the result of news media intoxication. There used to be a time when people could be excused for being ignorant since they were being brainwashed by their respective *local* news media. However, with the advent of Internet, they are inexcusable since we now have access to complementary information with a single click of the mouse to see the OTHER SIDE of the coin, and thus get a well-balanced opinion. - *Master of Times* (p. 280)

You can counter YouTube's censorship by accessing Rumble (<https://rumble.com>), Brighteon (<https://www.brighteon.com>), Odysee (<https://odysee.com>) or Crowd Bunker (<https://crowdbunker.com>) and see for yourself the damages this 'vaccination' can do. between Omicron and his upcoming twin.

By the way, where is this famous pandemic? Vanished? One thing is sure, it has left Ukraine through the back door. Indeed, civilians of all kinds, whole families, old people, children, couples and singles... all confined in bunkers, packed like sardines in gyms... no masks... no distancing... and no one sick, no one quarantined, no one contaminated.

¹ Just like the good old Covid days except that the scenario has slightly changed. Let's not kid ourselves! Whether this Globalist mafia causes death with a Russian roulette 'vaccine' or with conventional Russian weapons, nothing will stop their determined march toward their Great Reset.

² Our beautiful Europe,* instigator of the 'vaccinal' war in its fiefdom - responsible of tens of thousands of civilian deaths and countless 'vaccine' wounded - would suddenly be moved by compassion for Ukrainians. Bravo for the theatrical performance. One thing is certain, this war will have caused fewer casualties than its 'vaccination' campaigns. Without wishing to minimize the Ukrainian tragedy, the only difference is that the victims of this war are centralized in Ukraine while those of the 'vaccine' genocide are scattered all over the world. More 'vaccine' victims but less noise... thanks to their media censorship of course. To hear them tell it, eliminating people with a 'vaccine' is noble because it's *« for a good cause »* while doing it with weapons is reprehensible. Hypocrites. It is undeniable that a death by bullets is more disgraceful than by 'vaccinal' myocarditis but the result is essentially the same: premature death by inhuman stupidity.

* Same thing for our beautiful America.

I am not saying that one should remain impassive in front of the soviet aggression. I am only denouncing the hypocrisy of this Globalist octopus that feigns indignation while they themselves are guilty of 'vaccinal' euthanasia in their own backyard. They censor their respective national tragedies caused by their accursed 'vaccine' to then theatrically accuse one of their accomplices initiating an armed conflict to create a diversion.

Hospitals are empty.
Where are the sick?
The feverish Covid patients are conspicuous by their absence.

Weird. Would the pandemic suddenly be kaput?
No one told us here in the West.
Since when is it over?

Ooh! The virus would have run away because of the war?!
Okay, I get it now.
The coward, the wimp, the chicken, the spineless wussy would have
sneaked away with the pandemic in its suitcases. No more threatening
waves or brawler variants. The thug and his buddies escaped, taking
sick people hostages with him. Ah the rascal.

Quite surprising you'll admit.
Just a few days ago we were still into an apocalyptic health crisis.
I mean according to our alarmist media, it was still the hecatomb.

Except of course in Ukraine.
Suddenly no more virus.
Gone as if by magic.

The health 'catastrophe' is now of no interest to our media.
Unless we've been mocked for two years.
Would we have been screwed by any chance?
Would we have been fooled?

We'll know it for next time!
We've learned our lesson.

So the best way to break free from the coronavirus, if I understand
correctly, would be to initiate a war? The fear of a real war dethrones
the fear of an over-mediatised virus. We don't think about it anymore,
the pandemic has disappeared into the maze of amnesia. Thus to cure
a dramatized malaise, it is only necessary to create a real threat. What
could be better than a 'little well-synchronized war' to obscure the
countless victims of an ineffective 'vaccine' and make us forget the
abuses perpetrated relentlessly for too long?

All that was needed was to think about it.
Great strategy, isn't it?
What a masterstroke!
Who would have thought that a war would have produced something
'positive' - namely the national disappearance of a pandemic?

The 'red vaccine' - understand the soviet military aggression - made the pandemic die of a heart attack.

If the same aggression had been initiated in 2020, this infamous 'pandemic' would have lasted only 3 months and we would have been spared the countless lives taken by this criminal 'vaccine'.

I'll stop here.

Let it be known however that if I were 'conspiracist' I would say that this 'timely' war was started by the same Globalists who initiated this media pandemic.³

« Go ahead Vladimir, it's your turn pal. Attack Ukraine while we take care of getting our plebs drunk with your conflict, just to ensure that those annoying Freedom Convoys are forgotten.⁴ Those pesky convoys are a variable we failed to consider in our initial plan.

To compensate for this unexpected glitch, our media will run full steam on Ukraine so that the populaces will polarize for/ against Russia/Ukraine, debating and arguing to the point where they will forget about the pandemic.⁵ We'll sneak the virus off the popular radar and the world will in the end forget that we've been sickening them nonstop for the last two years.

So while you're attacking we'll reduce covidic restrictions so that by the time your war is over, people will be back to their pre-Covid routine without having noticed the transition. We'll do the whole thing again a little later while we develop a new, more effective ploy to reach our Great Reset, our New World Order, our One-World Government. »

So I'll censor myself in order to avoid being called a 'conspiracist' ;-)

³ Let's not be fooled, the Globalists have so much our wellbeing at heart that they are willing to make us die to save our lives.

In this regard Poutine is not a virgin either. He is inevitably part of the Clique. If Russia has veto power in the United Nations, it surely does also in the Globalist Select Club - along with China, Macron, United Kingdom, Biden, Ursula von der Leyen and the whole orchestra. Their wars are made with our blood, not theirs. We are only cattle to them. Their coercive 'vaccination' campaigns proved it.* This war is only for the cameras. Their only priority is to achieve their common goal: *The Great Reset*.

*The bond of trust has been broken.

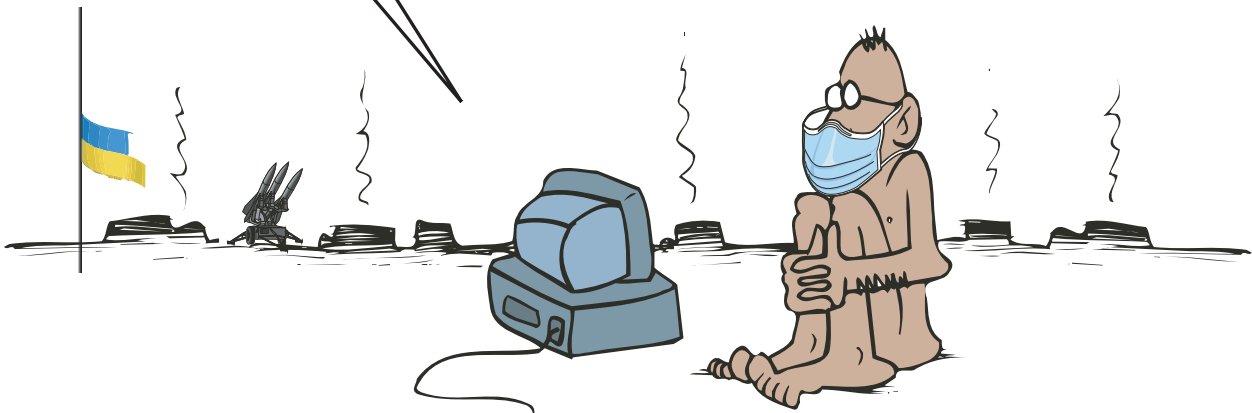

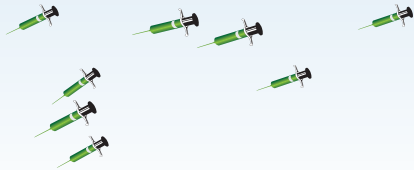

⁴ The scope of these convoys and their invigorating influence on the dismayed peoples did not go unnoticed. The sold-out media not being able ignore these convoys any longer: *« If we cannot censor them, let's at least discredit them: They are terrorists,* nazis and racists! »* This strategy proving ineffective... *« Let's create a media diversion: 'Go ahead Vladimir, it's your turn...!' »*

* According to their minimalist reasoning, our leaders and their respective clique are now the only democratic citizens. Anyone else is a 'terrorist'. That's what we could call a 'democratic' dictatorship.

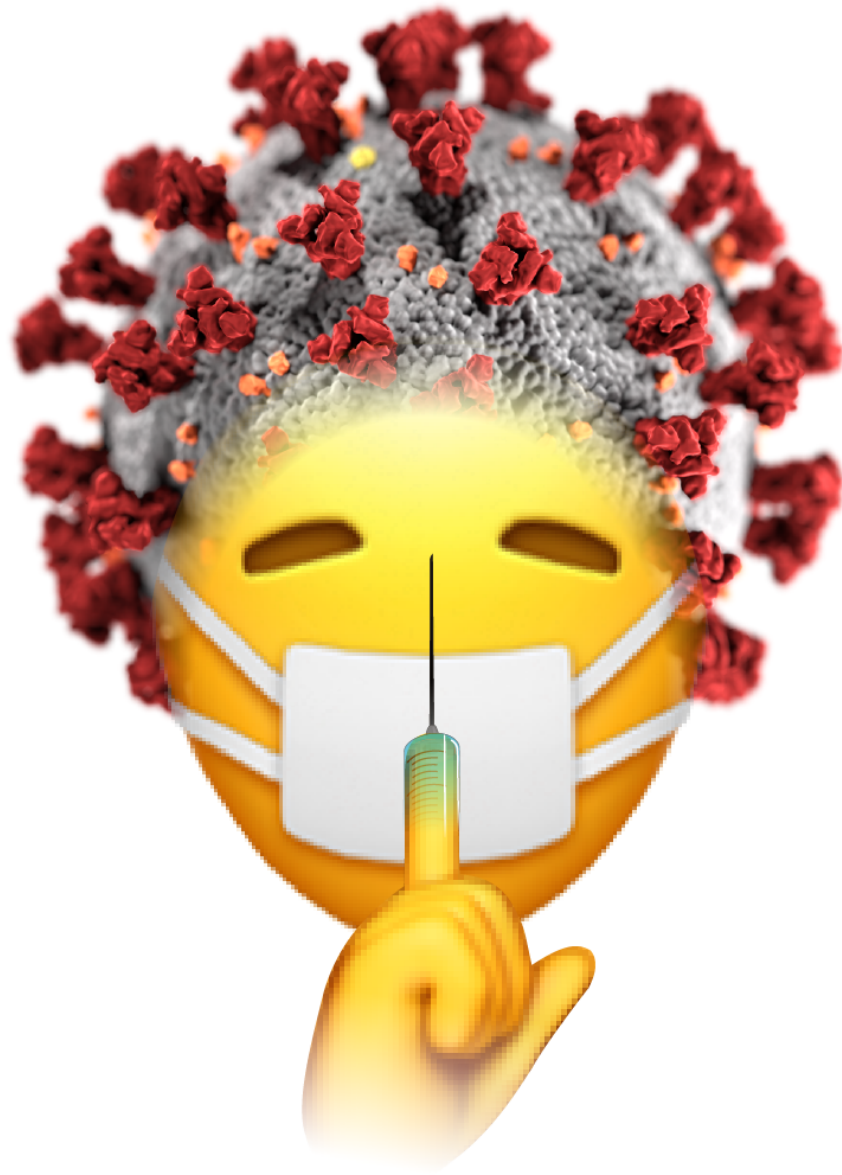

⁵ There are no clean war. Don't waste your time looking for who is more 'guilty' in this conflict. *« Two wrongs don't make a right. »* Russia attacking Ukraine... that's hell assualting purgatory... or vice versa - depending on the point of view.

HYPOCRISY

Knowing pertinently that Covid PCR tests are nothing but a crystal ball from which anything can be said, here are a few examples of what its acronym should stand for, as well as revealing quotes from Kary Mullis, Nobel Prize Laureate and PCR inventor - which invalidate any claim that these pseudo-tests can *really* detect Covid-19.⁶

VACCINAL CIRCUS: GAME OVER?

- INVALUABLE ROLE OF THE NURSING WORKFORCE IN EXPOSING THE PHARMANIC FRAUD -

If this whole vaccine circus started with scientists tampering with bat DNA, who knows, maybe the solution lies with humble nurses performing PCR tests on animals as well. Would the solution to the current 'health' crisis rest in the hands of nurses dedicated to the common good? I think so. I am convinced that if the medical staff took the initiative to perform (secretly?) PCR tests on animals, most would turn out to be 'positive' for Covid.⁷

So I invite nurses to test animals to check the (fraudulent?) results of these PCR gadgets - calibrated with the exact same number of cycles as those used among humans of course - let's be honest. And not only domestic animals otherwise it would falsely be claimed that they have been contaminated by humans, but animals living in the wild: marmots, foxes, sparrows, trout, bears, etc... Film the experiment. Thus the results could unequivocally expose the deception of these '*thousands of Covid positive cases*' and ultimately put an end to Big Pharma's harassment of world populations... and justify popular opposition to these unjustified medical experiments.

Could we say an 'Amen!' to that?

Yes, nurses, your input at this level could indeed contribute to end this nonstop abuse that we are still witnessing 2 years after this circus began.

On behalf of all of us:

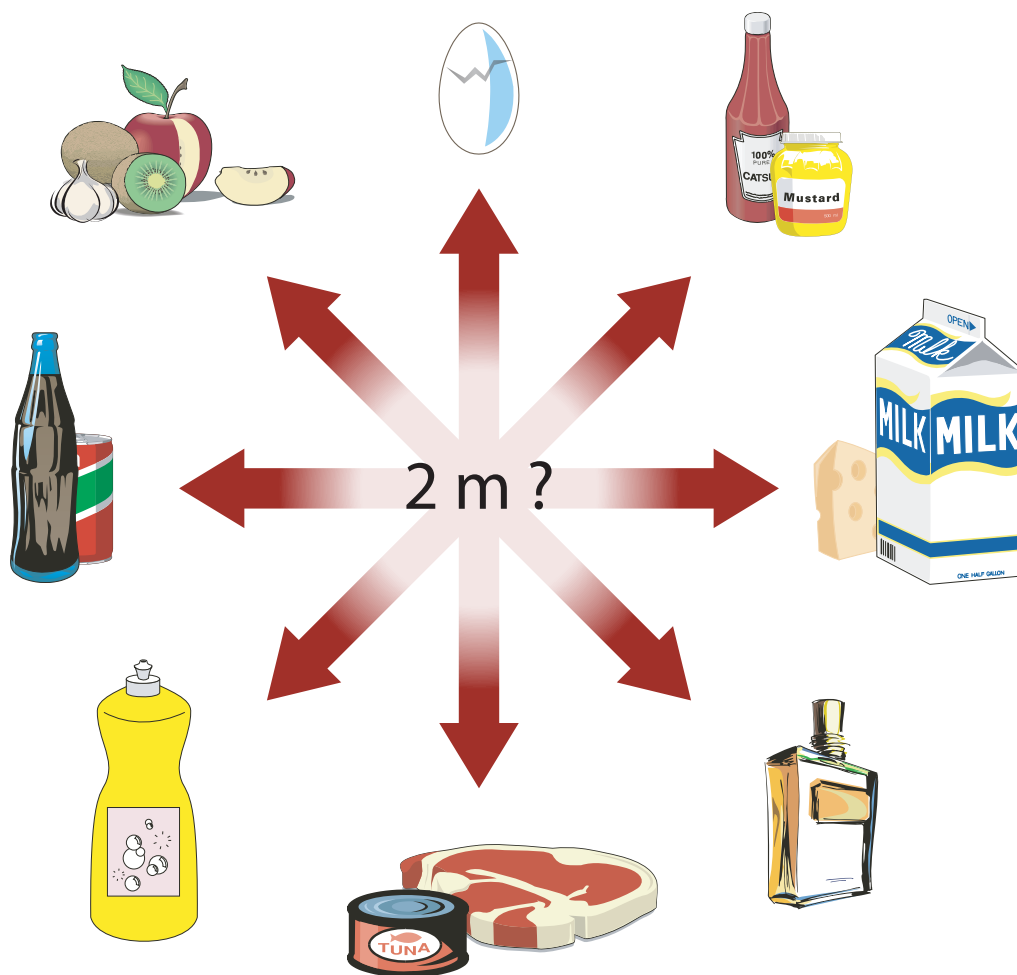

Thank you!

⁷ Would these pets clog up the veterinary clinics? Would we quarantine them? Would we force a mask on them? Would we wash their paws washed 15 times a day?

Joking aside, I have to admit that this idea of experimenting on anything with these 'PCR Tests' is not from me. I've heard guests in a documentary discussing about the ruler of a country having returned all his PCR testing kits to the supplier because they tested 'positives' to eggs, cheese, etc. The video is *Hold On* if I'm not mistaken.

FOOD DISTANCING?

And if you cannot afford a 'safari' to test 'wild' animals, why not test your own food: eggs, cheeses, sauces, fruits and meats? Use your imagination. Why not also test your own beauty products? You never know, maybe your lipstick contracted Covid ;-) - I mean - if that is what the PCR test asserts!?

This simple step will not only help exposing the fraud but above all save lives, sparing the countless dramas caused by this perfidious 'vaccine'.

As the term 'conspiracist' is being overused in this historical period of pandemic where dialogue is stifled by one-track narrative, it seems essential to redefine the term in view of its current misuse.

'CONSPIRACIST'

CONSPIRACIST A demeaning term used by an entity, usually political, to discredit the authors of dissenting opinions in order to question their discernment or even their sanity.

This entity - in the process of becoming a dictatorship - not having yet been able to consolidate its tyranny and, therefore, not being able to exert force to silence its critics - will resort to this palliative strategy to humiliate its opponents. This tactic of public shaming has two major objectives. First, it associates the opposition with lunatics and even paranoids, thereby reducing their speech to untrustworthy rhetoric. Secondly, this act of stigmatization seeks to prevent any solidarity of the masses with these protesters. No one obviously wants to be associated with losers, with people whose mental health is in doubt. So the anticipated result is the *distancing* masses from their community's fabricated outcasts.

Moreover, this trick makes the challenger question whether he is really lucid or whether he is in the grip of some paranoid delusion. Another important advantage is that it creates the illusion in the community that the opponents are a negligible minority, when in fact they may very well be the majority.

The misuse of the term 'conspiracist' reached its peak at the beginning of the 21st century to discredit the voice of reason and silence any critic. Thus, this strategy was used to the fullest during the Covid-19 pandemic against anyone - even professionals, experts, scientists, geneticists or medical luminaries - who dared question the unilateral practices perpetrated by the powers that be regarding unjustified, incoherent and coercive health measures.

This psychological warfare tactic was also used during the American election fraud of 2020, when the countless voting injustices were denounced by the American people, while the Establishment, no doubt complicit, stubbornly ignored them, thus relegating plausible allegations - supported by multiple pieces of evidence - to crazy theories dreamed up by lunatics.

Thus today, a multitude of scientists, medical luminaries and experienced physicians are reduced to 'conspiracy theorists' because they denounce the dubious dictatorial unethical practices imposed under the guise of *'emergency health measures in times of pandemic'*.

If Gandhi were alive today, he would undoubtedly be called a 'conspiracist', in the same way Martin Luther King would surely have been... The media being less powerful then (remember that there were no social networks giving the people as powerful a voice as today) - they were more easily eliminated. Even Jesus was considered a 'conspiracist' by his contemporaries. (John 7:19-20) But it turns out that there was indeed a conspiracy to eliminate him. (John 7:25)

When Winston Churchill decried - in peacetime - Hitler's hostile designs for building smuggled warplanes... he would nowadays certainly have been labeled a 'conspiracist'. And today, when Israel struggles to make the United Nations listen to reason about Iran's nuclear maneuvers constituting an existential threat to the Jewish State, it is ignored, relegating its discourse to 'conspiracy theory'. Especially when we know that each of Iran's countless hegemonic initiatives is driven by altruism ;-)

So Gandhi, Martin Luther King, Jesus and Churchill were labelled 'conspiracists' by their contemporaries. But you know what? **They were right!!** As for Israel, it will soon have to get moving and courageously initiate a unilateral military intervention to eradicate the Iranian nuclear threat, otherwise we will all recite Kaddish over its ashes while crying « **Israel was right!** »

As for the world, there is no one more deaf than those who do not want to hear or, one could conclude, than those who have no INTEREST in hearing.

'You can't wake up someone who fakes sleeping.'

Homemade 'Conspiracy Theory' :-)

While we're on the subject of conspiracy theories, let me write one in no time. I'm going to use pseudo-scientific jargon to add credibility to this wild theory. So let's go...

Xylofluorene aborts any attempt to escape.

Xylofluorene, present in the mRNA Covid vaccine of the firm *Vaxyl Medical Innovations*, produces a physiological reaction generating luminous impulses on the human epidermis when the subject feels fear. The xylofluorinated individual will thus produce incandescence if he feels threatened, making him detectable at night since his body will blink at the rhythm of his panic-stricken heart, thus facilitating his localization during a possible escape attempt.

The radioactive amalgam of *Xylofluorene* acts directly on the pharyngeal glands, generating a neuroleptic reaction directly linked to the emotion of fear. This innovation is particularly valued by the military-industrial complex for tactical purposes.

Xylofluorene, a highly unstable transuranic metal gas, was first synthesized in 2017 by physicist Richard Nerdot of the *Tyrmollburg Scientific Research Institute* (TSRI) in Souvlakia. It is the result of the fusion of *Xylophene* (so named because of its molecular structure resembling that of a xylophone '||||') with fluorine. It was obtained thanks to the bombardment of fluorine with a beam of subatomic particles of *Xylophene 24*.

That's it!! Feel free to spread the 'terrible conspiracy' of *Xylofluorene*. You'll maybe hear it later on from a stranger warning you against its presence in the 'vaccine' ;-)

Pharman just got fired. That's about time! That loser is responsible for the hospitalization of over 110,000 people among whom 35,000 are now permanently disabled. That is without counting the 20,000 deaths and 3,500 miscarriages. A real carnage.

And this is solely here in the United States!! *Yeah! Good riddance.*

No one will mourn him! I'm convinced that Freddy Krueger couldn't have made more victims. If real justice was to be done, he would injected with his own 'vaccine'. You're right man. *Good riddance!*

THE IMAGINARY SICK

Comedy in three acts and in prose by Molière (1673), painting, through the character of Argan, of hypochondria.¹

THE IMAGINARY VAXED

Comedy of errors in three acts and as many doses by Pharman (2022), painting, through the character of the average citizen, of collective naivety. Current performances given by *The Great Reset Troupe*.

At this point we might as well use Norton antivirus to eradicate this 'pandemic'. This software cannot do worst that these incompetents who have been multiplying conflicting directives for too long already. Their panacea is as effective in countering Covid as a plaster on the forehead would relieve a migraine. Effectively 4 triple vaxxed - so inoculated three times - 3 times!! (III) - testified to me in person that they contracted Covid.

Beyond its entertaining aspect, *COVER-up-19* encourages reflection, exposing the many abuses, blunders and contradictions that we are witnessing daily since the beginning of this 'pandemic'. You'll find testimonials from the vaccine injured and medical luminaries as well as caricatures and links to videos and news articles - thus guaranteeing hours, even days of discoveries that some would rather have censored. So don't deprive yourself of the joy of this book's 'conspiracy' lucidity since that seems to be the only pleasure you're still entitled to these days ;-). Enjoy!!
