## INTEREST IN NON-FICTION BOOKS IS HIGH, REPORT OF PUBLIC LIBRARY REVEALS

Percentage of Factual Works Taken Out During 1939 Much Greater Than That for Previous Year — Many New Volumes Added to Shelves of Library — Large Number of Questions Answered by Reference Department

The growing interest on the part of the general public in books dealing with facts in comparison with those of the fiction type, was demonstrated in the fortieth annual report of the Westmount Public Library, issued this week. Fifty-six per cent of the books issued during 1939 were non-fiction and 44 per cent were fiction, as against a percentage of 60 and 40 in 1938. The novels actually were issued 1,477 times less than in 1938 while the non-fiction increased by 5,054.

The number of books in the library at the end of the past year, the report shows, was 36,887. New books purchased during the year totalled 4,810. There were 1,184 new registrations in the adult section and 465 in children's, a total of 1,649. The total adult membership at the end of the year was 8,353 with a children's enrolment of 1,632, totalling 9,985.

Excerpts from the report released by Miss Kathleen M. Jenkins, librarian, follows:

The reasons for the growing use of non-fiction are several. One is, that the non-fiction becomes increasingly interesting each year, and increasingly attractive in make-up. Another reason is that we have had more money than usual, for the purchase of non-fiction, and have been able to cover a wider range of subjects. At the same time, it becomes more and more difficult to buy novels for a public library.

**OUTSTANDING NOVELS**

Probably the outstanding novels were two that appeared towards the end of the year. "The Nazarene," by Sholem Asch, and "Moment in Peking," by Lin Yu-tang. In non-fiction, it is difficult to select a few titles for mention. Undoubtedly political subjects led in popularity.

It was a year also in which several older books seemed to be establishing a lasting popularity, so that one wonders if they will be among the classics of the future. Such a book is "The Yearling," which, with its Florida background, and use of dialect, is amazingly popular with our readers. Another is the life of Madame Curie, by her daughter. In both of these cases, it has been necessary to buy additional copies, long after publication.

**INFLUENCE OF MOVIES**

Another interesting feature of the year, has been the growing influence of the movies and the radio, on people's reading. "Wuthering Heights" must rank among the most frequently asked for novel, and carried with it, other Bronte novels and biographical material. "Gone with the Wind" after a period of inactivity, is entering a second stage of popularity, and along with it, will probably go other novels on the American Civil War. The same statement could be made about radio, talks and plays.

The circulation of music has (Continued on Page 2)

**Records Wanted By "Y" Branch**

Old gramophone records, 2,500 of them, are currently sought by the Westmount branch of the Y.M.C.A. in order that it may secure a powerful victrola for entertainment purposes for the soldiers who spend a great deal of their recreational time there. The records must be Victor or Blue Bird makes.

The R.C.A. Victor Company will present the "Y" with the gramophone in exchange for the records.

**Benefit For Settlement Of Refugees Arranged**

The young people of Emanu-El have set aside Tuesday evening as Theatre Night in the Community Centre, the proceeds of which will go toward settlement of European youthful refugees in Palestine. Committee: Miss Marjorie Berco-vitch, Miss Emmy Heim, Mr. Milton Schiffman, Mr. Edward Joseph, Mr. William Abrams. That same evening, registration will take place for classes under the auspices of Temple youth in Art, Public Speaking, Dramatic and Jewish Studies.

**STUDENT SUBJECT**

Rev. Mr. De Witt Scott's subject at the Supper Hour Studies in Religion at the Y.M.C.A. to-night will be "The Christian Revolution."

**MID-WINTER DANCE**

The High School and Confirmation Departments of Temple Emanu-El are holding a mid-winter dance in the new Community Hall of the Temple on Saturday evening at 8:30 o'clock. Bobby Litner's orchestra will furnish the music. Committee: Buddy Sheffer, David Marks, Charlotte Garfinkle, Sheila Saper, Clifford Gites, Maxine Asch and Allan Silverstein.

## Threat of Invasion is Burden

With the tragedy of a second invasion hanging over his country, Leopold III, King of the Belgians, has furthered every effort to strengthen the army. Above, he reviews troops at Brussels.

## Arthur F. Bell Retires From City Post June 1

In all probability no successor to replace Arthur F. Bell, secretary-treasurer of the City of Westmount, will be named for some time, it was learned at the City Hall yesterday. Mr. Bell retires on June 1 after having completed 31 years in the service of the city.

The resignation of Mr. Bell, one of the most highly esteemed members of the City's staff, was accepted by the Council at a regular meeting Monday night. He will be 73 at the time of his retirement. A resolution of tribute to Mr. Bell was adopted by the Council as follows:

"It is the unanimous feeling of the Mayor and members of the Council that the City of Westmount will, by the retirement of Mr. Bell, who has the full confidence of the Mayor and members

of the Council, lose the service, counsel and guidance of one who is in a large measure responsible for the outstanding sound financial position in which the city finds itself among municipalities."

A native of Shawbridge, Mr. Bell attended Royal Arthur School in Montreal and later joined the Crathern & Caverhill firm. Resigning his position to study at the Y.M.C.A. College in Springfield, Mass., he became secretary of an association branch at Halifax. Later he joined the Stantsted Wesleyan College staff to teach commercial subjects.

He was eventually called by Westmount to become accountant. His valuable services soon resulted in his appointment as treasurer and subsequently as secretary-treasurer. He is a member of the Westmount Park United Church.

**PUPILS HEAR ADDRESS BY BELL OFFICIAL**

Phone First Used in Montreal in 1878, Westmount High Students Told

With the aid of various pieces of equipment, ranging from the very old to the most modern, the various stages in the development of telephony were traced by George L. Long, Historian to The Bell Telephone Company of Canada, before an assembly of students of Westmount High School on Thursday afternoon.

"It would take days to show you all the stages," Mr. Long said, "as since Alexander Graham Bell invented the telephone, there have been 17,000 improvements which were considered important enough to require patents. In fact, it would require 11 freight cars to hold one piece of each kind of telephone equipment manufactured today by the Northern Electric Company!"

"These 17,000 improvements have been made in the Bell Telephone Laboratories which began with Mr. Bell's attic workshop in 1874 and is now the largest industrial research laboratory in the world. Today this research organization employs 4,800 people and 2,600 of these are trained, scientific research people working for you and for the Bell Telephone Company of Canada with the express purpose of giving you the best possible telephone service at the lowest possible cost."

**Early Days of Bell**

Turning to the early days of telephony in Montreal, the speaker disclosed that Alexander Graham Bell's telephone was first used commercially in this city nearly 62 years ago, on March 1, 1878. Telephone exchange service did not become available here until the spring of 1879, however, when the

**Brotherhood To Hold Fellowship Dinner**

The Temple Emanu-El Brotherhood will hold its annual fellowship dinner in the new community centre on Wednesday, Feb. 20. To this gathering members of the Brotherhood are requested to invite non-Jewish friends as their guests. The program this year will be of a patriotic nature. Committee: Lawrence Marks, B. Mortimer, E. T. Garfinkle, Jos. Cooper, Samuel Paperman, Jos. Abrahams, Harry Wolfe, and George Hollinger.

**Tripped By Dog's Leash Woman Fractures Hip**

When her dog caused his leash to be entwined about her feet, knocking her down, Mrs. Isabel Mack, 68, 4354 St. Catherine street, suffered a fracture of the hip and was taken to the Homeopathic Hospital for treatment.

The mishap occurred on Metcalfe avenue just below St. Catherine, on Tuesday at 10:15 p.m., when the woman's dog commenced to fight with another one, running around in a circle and knocking her to the ground. Dr. J. J. Griffith treated her at the hospital.

## Parties Fail To Indicate Plans

The unexpected announcement a week ago that Parliament had been dissolved has thus far failed to produce any news on the Federal political scene in the Westmount-St. George division. Questioned late yesterday by the Examiner, R. S. White, M.P., the present member, declined to state his future plans. The C.C.F. Party, while hinting that it would put up a candidate, would make no definite statement. As yet there is nothing to indicate whether there will be a Liberal candidate or not.

## SOLDIERS ARE ENTERTAINED AT LOCAL Y.M.C.A.

Varied Program Arranged For Units Stationed at Westmount Training Centre

One hundred and fifty men of the Toronto Scottish Regiment stationed at the Westmount Barracks, attended the afternoon tea, at Westmount Y.M.C.A. on Sunday.

The program and refreshments were provided by members of the Maritime Women's Club, the committee in charge being under the leadership of Miss D. L. Gass, Claud S. Richardson was master of ceremonies.

Frank Taivorsky and his Ukrainian orchestra provided many musical numbers, and also accompanied the community singing. E. A. Bulley contributed two vocal numbers, and W. P. Underwood (who was with Allen Murray in the last war) gave several impromptu songs which were well received by the boys. Miss O. Ford assisted at the piano. Following the musical program, tea was served in the Assembly Hall upstairs.

Next Sunday the Women's Christian Temperance Union will be in charge of the program.

Members of the board of management of the Westmount Y.M.C.A. will be on duty each night from seven to nine o'clock, in the lobby, to meet the soldiers who come into the building.

## STUDY GROUP OF SYNAGOGUE MEETS TUESDAY

Temple Emanu-El Sisterhood Will Hold Discussion on "Problems of Faith"

The Temple Emanu-El Sisterhood study group in "Judaism as a Way of Life" will meet in the board room on Tuesday when Rabbi Stern will discuss "Problems of Faith." This group meets at 11 o'clock sharp on the first and third Tuesday mornings of the month.

Madam Pauline Donald, well-known Canadian artist, who has spent many years on the opera stage, will be the guest speaker at an open meeting of the Sisterhood next Thursday at 3 p.m., in the new Community Centre. Madam Donald will speak on "Reminiscences of My Operatic Career." A social hour will follow the regular program.

The Sisterhood is carrying on in behalf of Canadian Red Cross. Sewing sessions are held every Monday and Wednesday. Conveners: Mesdames J. Wiener, S. Bick, E. Regal, A. L. Bergen, S. Cohn, J. J. Cooper, J. N. Neumann.

**Dr. Lawrence C. Tombs To Speak On "World Crisis"**

Next Monday evening at 9:15, Dr. Lawrence C. Tombs, who spent nine years at Geneva, Switzerland, and was a member of the Communications and Transit sections of the League of Nations and also served on the International Commission for Spanish Child Refugees in Paris and at the Spanish border, will speak on "Considerations of the World Crisis" at Temple Emanu-El.

**SLEIGH DRIVES**

The next meeting of the Music Appreciation Group of the Young People's League of Shaar Hashomayim will be held next Thursday evening at the Synagogue.

## IMPORTANCE OF CORRECT DIET TO HEALTH STRESSED BY ROTARY CLUB SPEAKER

Dr. Allan F. Fowler Addressed Regular Weekly Luncheon Meeting in Victoria Hall Yesterday — Declares Science of Nutrition Great Aid to Mankind — Shows Difference Between Being Well Fed and Well Nourished

The important part a correct diet plays in the health of the individual was outlined yesterday by Dr. Allan F. Fowler when addressing the regular weekly luncheon meeting of the Westmount Rotary Club in Victoria Hall.

Dr. Fowler stated that the science of nutrition had resulted in the prevention of disease and the prolongation of life. He declared that countries in which conditions deprived the people of proper nourishment would shortly feel the results of the effects of malnutrition.

The speaker stressed the fact that there was a great difference between a person who is merely well fed and one who is well nourished. There is nothing wrong in persons eating as much food as they like, but they should do so after eating the food that they need, he declared.

In general, he said, a good rule was to eat enough proper food to keep weight and height at the proper balance. Overweight people, he declared, ate more than the body required, but seldom admitted it. In the majority of cases they were the first to declare that they existed on little more than nothing.

Dr. Fowler particularly pointed to the need of observing care in the diets of young children. Harm caused by the feeding of wrong food to growing children often resulted in ailments that could never be completely cured, he said.

Persons, today, he believed, were rapidly grasping the necessity of proper nutrition and were becoming "food conscious." Health authorities are making great strides in educating the public on the importance of food in relation to its health, he stated. There is still need for instruction in adequate diets, he told the gathering.

Highly refined foods play too large a part in the diet of the average person, he continued, and more of the protective foods should be eaten. These include meat, milk, fish and fresh vegetables.

A good all-round diet, he declared, would include, each day, a pint of milk, regardless of how taken; four servings of vegetables, two raw and one green; two servings of fruit; one of meat, fish, eggs or cheese; and iodized salt. On occasions cod liver oil is also required.

While there will always be quack and costly fads and their followers, the speaker stated that under a scientifically controlled diet a normal person could purchase a sufficient amount of correct foods to live healthily on 14 cents a day.

Dr. Fowler was introduced by Dr. George Little and thanked by Leslie Perry, Ewart Everson occupied the chair.

## Automobile, Truck Damaged In Crash

Fenders and running boards on both vehicles were badly damaged when an automobile driven by Alfred Grenier, 1901 Leclair avenue, and a truck operated by Lucien Leonard, 1714 St. Denis street, apt. 10, collided opposite 372 Elm avenue at 9:40 a.m. on Friday.

The driver of the car told the police that as he attempted to pass the truck, it suddenly turned to the left to enter a lane. Both vehicles were proceeding in a northerly direction.

## First Meeting Held By Ward Aid League

The first general meeting of the Soldier's Wives League of the R.M.R. was held at Victoria Hall on Tuesday at 4 o'clock. Several hundred soldier's wives and mothers attended. Eric Slessor, president, welcomed the ladies and Mrs. Andrew Swan, Works Convener, read a report of the work already accomplished. The entertainment department of the Military Services Committee of the Y.M.C.A., under the direction of Mrs. D'Arcy Hubbell, arranged a program with the following artists, Mrs. Andrew R. Webster, vocalist; Miss Norma MacLean, violinist, and Mr. Roland Johnson, pianist. Miss D. Gass conducted a sing-song with Miss Ford at the piano and Miss Jean Hardie two amusing monologues. Tea was served by the Ladies Auxiliary and work was handed out for work at home.

The Junior Congregation of Shaar Hashomayim will hold its annual sleigh drives on the 10th and 11th of February. The Senior drive takes place on the evening of February 10th, while the Junior drive for boys and girls over 12 years old, is on the afternoon of February 11th.

The Junior congregation announced to its members this week that it had increased its subscription to the Youth Aliyah Campaign.

At the Junior congregation services last Saturday morning, Herbert Berco-vitch, Arthur Victor, Fred Solomon, Bernard Berlin and Jonathan Ballon, participated in the Torah reading. Augusta Vineberg explained the reading of the day and Seymour Spector opened the Ark. This week the guest speaker will be Harry J. Halperin, and Shirley Hirsch will explain the Torah readings.

## FINAL TRIBUTE PAID TO LATE MISS E. SWEENEY

Service Conducted by Rt. Rev. Arthur Carlisle, Bishop of Montreal, at St. Matthias Church

The funeral was held of Miss Eileen (Eleanor) Sweeney on Friday at 2 p.m. at St. Matthias Church. The service was conducted by the Rt. Rev. Arthur Carlisle, Lord Bishop of Montreal and the Rev. Gilbert Oliver, rector of the church. Mr. Guy Malcorone, a nephew of the deceased, played the organ.

Miss Sweeney died on January 24 at the Western Division of the Montreal General Hospital.

She was born in London, England, and came to Canada at the age of six.

She was a daughter of the late Colonel James Fielding Sweeney, of Bamton, Ireland, and Anna Maria Fielding of South Africa. The late Colonel Sweeney was Paymaster of Pensions for Canada and took part in the Matabele and Zulu wars coming to Canada 72 years ago and was one of the early residents of Westmount which was then the Municipality of Cote St. Antoine. He was one of the original founders of St. Matthias Church of which the deceased was for 40 years a member of the choir who remembered her with a floral tribute.

She was educated at the Montreal High School and spent most of her life in Montreal. Among her many activities was her interest and work at the MacKay Institute for the Deaf and Dumb, also reading to the blind. She was active in Red Cross work during

## YOUNG SOLDIERS VOTE

If a young man is old enough to don a uniform to fight for Canada, he is old enough to vote in the Dominion general election.

That principle is to guide the taking of the soldier vote in the coming contest. It is the same ruling which governed the voting in the 1917 election in the last war.

At that time, many soldiers under 21 voted. Boys of 18, 19 and 20 were given the right to ballot. And these lads marched to the polls and marked their papers just as though they were of legal voting age in civilian life.

The percentage of boys under 21 may not be so substantial, but many youths have enlisted. They are ready to fight, and they are also prepared to vote.

There should be no complaint about it, because it is only fair to permit a man to vote, when he is ready to give his life for the country.

## AUSTRALIA ACTIVE

Although Australia has some 7,000,000 people compared to 11,000,000 persons in Canada, the war expenditures of the Australians are approximately the same as those of Canada at \$1,000,000 per day. There are a number of reasons why that is so.

The chief cause is in the geographical position of Australia. The commonwealth lies away off by itself in the South Pacific Ocean. Every Australian is impressed with the thought that some day marauding Japanese may decide that Australia is their country. And, as it is so far away from the rest of the British Empire, the Australians believe they must be prepared to cope with an attack.

With that in mind, the Australians are building up a navy and air force, in addition to the land forces. They cannot depend on any allies, who would defend them as part of a general scheme to defend themselves. In Canada, for instance, if Japan ever tried to attack our Pacific Coast, the United States

would help beat off the invaders because it would not be good policy for the Americans to permit Japan, or any potential enemy, to gain a foothold in Canada.

The Australians know that they are afforded some protection from the British naval base at Singapore. That station is supposed to be the key to the Pacific, but even it is many hundreds of miles away.

Some of the recent tariff adjustments in Australia have been made with the production of the country chiefly in mind. By building up secondary industries, which can be transformed into munitions and armament plants, the Australians are hoping to lay the foundation of a program of self-defence that may be needed some day.

These projects mean large expenditures for the Australians. They roll up the bill to \$1,000,000 daily, which is a heavy cost that is being met as a matter of military necessity.

## CITY OF FLINT

In the swift panorama of war, events which seem of importance today are almost forgotten tomorrow. An example of this is the City of Flint, the United States vessel which aided in the rescue of passengers from the Athenia upon the outbreak of conflict, and which later was taken by the Nazi Deutschland, steered into the Russian port of Murmansk, and finally the Norwegian port of Haugesund.

The City of Flint was big news in those days. She was a factor in the relations of the United States with Germany and Russia. Her wanderings constituted a romance of war. Now she is back in Baltimore, without any plans for her immediate future.

When her wanderings ceased in Baltimore, the average person was apt to say: "Ah, yes, the City of Flint. Wasn't that the ship the Nazis grabbed and took to Russia and later put into some Norwegian port? And she may lie in haven for the rest of her life, forgotten by men. War brought her brief fame, but she is a very small piece in the jig-saw puzzle of a vast conflict."

## THAT JAPANESE SOUL

Japanese protests against British removal of 21 German seamen from a Japanese vessel are something of a laugh, especially when the incident is referred to as a "maximum insult to the empire of Japan and pollutes the soul of the Japanese people."

The soul of the Japanese people, it appears, is easily polluted. And we wonder, by the way, where that soul was hiding when Japan's war lords decided on the current rape of China.

# BOOK REVIEW

BY HOWARD S. ROSS

## WHERE MY CARAVAN HAS RESTED

By Dr. Burriss Jenkins  
Willet Clark & Co.,  
440 South Dearborn Street  
Chicago.

This outspoken autobiography is the story of the minister, for the last thirty-two years, of the Community Church of Kansas City. Recently Dr. Jenkins celebrated his 70th birthday and a few weeks afterwards his church was burned. Before the ruins had cooled a campaign for a \$200,000 fund for a new building was commenced by a committee of more than 100 leaders of all Protestant denominations in Kansas City and the middle west.

As college president, editor of the Kansas City Post, war correspondent on the Western Front, student at Yale and Harvard, this remarkable man has traveled widely, observed carefully and thought deeply. His "fighting liberalism"—in politics and religion—has not slackened with the advancing years.

He gives us a vivid story of his battles against reaction and against his own physical ailment—a bad knee the result of an accident while playing baseball at college which bothered him all his life requiring twenty operations and finally amputation. For years he used crutches. Because of the intense pain he was given morphine and four times became an addict but mastered the habit each time. He had rare courage and initiative.

Younger folk will see in his life what can be done in the way of overcoming difficulties.

Laughing Andy Jackson was one of the early traders along the covered wagon trail, and his son has helped lay foundations on the new frontiers of social thought.

He quotes one of his three sons (all successful) as saying: "I like

# The Examiner's Hidden Titles Contest

The Westmount Examiner's Hidden Titles Contest is run with the kind co-operation of Mr. Godel, manager of the Westmount Theatre. Each week twelve passes are given to the six lucky winners who comply with the following requirements:

Simply find the two "ads." in the current issue of The Westmount Examiner in which the names of the two feature pictures being shown at the Westmount Theatre during the first half of the coming week are hidden.

Submit all answers to The Contest Editor, The Westmount Examiner, 2191 Hampton Avenue, using the special coupon provided in each issue for the purpose.

Residents must be over 16 years of age. Residents of Westmount, only, are eligible. All answers must be in the office not later than Wednesday, and the names of the winners will be published in Thursday's issue.

A convenient coupon will be found elsewhere in the paper.

The winners are drawn from among those who submit the correct answers as, unfortunately, it would be impossible to give passes to every one submitting the right answers.

The winners of last week's contest are as follows and their passes will be received in Monday's mail:

Mrs. H. Symonds, 324 Victoria Ave.; Miss M. F. L. Lebourveau, 2066 Claremont Ave., Apt. 65; L. A. W. Wheatley, 462 Victoria Ave.; Mrs. A. Griffiths, 2060 Claremont Ave., Apt. 12; Miss Mary Coulter, 4427 St. Catherine St. West; Mrs. H. E. Collins, 1358 Greene Ave.

# THE FORUM

Conducted by HOWARD S. ROSS, K.C., D.C.L.

In Which Subjects of General Interest Are Discussed

The opinions expressed in this Forum are not necessarily those of this newspaper and it does not accept responsibility for them.

Euthanasia (painless death) is being considered seriously in the United States.

A Mercy Death Law as it is called, is reported, will be introduced at the next session of the New York State Assembly. The sentiment for painless death, under proper safe guards and protection, for hopeless incurables and hopeless sufferers is evidently gaining ground.

Science Saves Life—Medical doctors are making good progress in their fight against the germ that causes pneumonia and which has a shell as tough as a turtle. A drug has been developed in England by Dr. Mary Evans and Dr. Wilfrid Gaisford which it is expected will reduce fatalities in pneumonia cases to as few as 6 per cent. Tests at the University of Toronto seem to confirm this claim.

A recent report of the U.S.A. Secretary of the Treasury showed that about 600,000 families making tax returns on income of over \$5,000 in 1937 had as much income as about 6,333,000 farm families.

Accuracy implies a probing behind the obvious. The fact is an elusive thing.

—T. McN., in The Freeman.

To propagate and teach one error hides a multitude of truth. An error taught in the name of science is a pernicious falsehood.

—Professor Isaac Newton Vail.

The U.S.A. has monetary gold worth at present \$15,000,000,000 which is 57 per cent of all the visible gold in the world. Some financiers are sounding a note of warning that if the U.S.A. attracts most of the gold in the world, it is possible that many countries, having none, will say: "Hereafter we do not want gold, and will not take it."

In an age as critical as ours if a scientist or scholar remains in his ivory tower he stands a good chance of being blown up with his interior. —U.S.A. Secretary of the Interior Harold L. Ickes.

Ralph Borsodi in his book "Prosperity and Security" stated that in 1929 in the U.S.A. all those who produced, including the farmers, saved \$7,799,000,000 while the very few who were engaged in predation and exploitation saved \$9,983,000,000 in the same period.

If the Gospels are right about the life of the Son of God, Christian theology is the most important thing in the world and should be incorporated into our laws.

—William Floyd, editor The Arbitrator, New York monthly.

Stuart Chase, economist said: "People do not eat liberty and freedom; these words make no jobs. If we value our liberties of speech, press and the ballot, we shall have to make the economic machine work better than it has worked."

New York World's Fair management has a good sense of humor.

to think of Dad leaning across the pulpit thundering his creed—LIVE DANGEROUSLY!"

Of the church he wrote in his final chapter: "Ah, but isn't the church losing out? Isn't religion on the wane? Aren't people outgrowing it, becoming absorbed in the material, the mundane? Ask history—the Dark Ages, the Middle Ages, all the ages. The church has its ups and downs, its depressions and recessions. Time and again the populace and especially the intelligentsia have bade it good-bye. But it has come out of the storm and the spindrift, though its canvas was ripped and torn or else every stitch drawing. Religion has gone on in all the ages and lands. No fear!"

## CALVARY CHURCH NOTES

Monday at 8.15 the Young People's Union will meet in the Macaulay Hall. All young people of the congregation are heartily invited to attend.

Tuesday at 2 p.m., the Red Cross branch will meet to work for the soldiers and hospitals. All ladies interested are urged to help in this activity which is so necessary at this time. For those not able to attend the afternoon session, the young ladies plan to hold a work meeting on Thursday evening at 7.30 p.m.

Wednesday at 2.30 p.m., the regular meeting of the Women's Association to which the ladies of the congregation are invited.

Wednesday at 8.15 p.m., the Mid-week service for Prayer and Bible Study will be held, the leader being the Rev. A. F. Pollock, B.A., B.D.

been so noteworthy as to deserve a separate mention. About 300 volumes were bought during the year, and the entire collection was gone over, and properly catalogued. In this collection may be found music for the piano, both classical and modern; grand opera, operettas, songs, from many nations, and arranged for different voices. From the first of May, when these books were made available to the public, we kept separate statistics for the music, and during the seven months until the end of the year, 2,450 volumes were issued.

In following up these books, we sent out over five thousand overdue notices, made four hundred telephone calls, and sent a messenger about one hundred times. We collected in fine, \$788.19.

Young People

Towards the end of 1938, we set aside a special section in the reference room, for the use of boys and girls over fourteen years of age. When they first transfer from the children's room, they are given special attention until they learn to find their way around the adult department. The circulation for this group reached 3,117 the first full year that we have made this report.

The reading and reference rooms were used by 22,527 men and 13,144 women. Twelve newspapers and ninety periodicals were subscribed to. We sold 57 of these at auction, with proceeds of \$108.30. The balance were kept on file, where they were used continuously.

We noted 755 definite reference questions, which involved some research. In addition, many of our readers, particularly school and college students, made independent use of our reference books, without consulting members of the staff. No record was kept of this use of material within the building.

## Victoria Recalls Pioneers' Trip

Some 50 descendants of the 229 settlers who arrived in Victoria from Glasgow on Oct. 27, 1837, in the David Clark, Australia's Mayflower, met recently to form an association to keep alive the memory of this early pioneering expedition.

The descendants of those passengers of 100 years ago are for the most part taking a useful and influential part in Victoria's social and economic life.

The newly formed association is to meet quarterly, with an annual reunion on the nearest Saturday to Oct. 27 each year. Already 330 descendants of the original passengers have been organized and efforts are being made to trace others.

# OPERA WILL BE PRESENTED BY LYRIC GROUP

## Gilbert and Sullivan's "Patience" Will Be Presented at Victoria Hall

One of Gilbert and Sullivan's most delightful comic operas, "Patience," will be presented Tuesday, Wednesday and Thursday, February 20, 21 and 22, at Victoria Hall by the Lyric Operatic Society.

The Tuesday evening performance will be in the nature of a gala benefit for the Soldier's Wives League of the Number 9 Field Ambulance Corps. The proceeds from this performance will be devoted to their war charities.

A large cast of well known singers will be heard in the many musical numbers that abound in "Patience." The title role is being taken by Betty Allan, Miss Allan, one of the most ambitious of N.D.G.'s younger singers, reappears with the Lyric Operatic Society after a year's absence. During this period Miss Allan continued her musical studies in London. Miss Allan was a passenger on the torpedoed Athenia.

**Also Appear**

Iris Alton, also re-appears with the company. Mrs. Alton, was a featured radio artist at Halifax last season. Her re-appearance in "Patience" is a popular one. Maud Whitmore appears in the role of Jane. Mrs. Whitmore will be remembered for her fine work in past productions. This fall, she gave a successful recital for the Canadian Red Cross. Phyllis Rowell, the well known pianist and Vivian Barrett, a newcomer, appear in supporting roles. Harry Maude, Arthur Dirkman and Frank Clark appear as the three officers of the Dragon Guards. Mr. Maude is one of Montreal's outstanding baritones. Arthur Dirkman and Frank Clark are new members of the Society.

Both these young men have been seen in operatic performances at West Hill High School. The roles of Grosvenor and Bunthorne are played by John Wrooland and Fredrick Sheward. Fredrick Sheward will take the difficult Gilbertian character of Bunthorne.

The production will be under the leadership of Mr. and Mrs. Harry Norris.

**GUEST SPEAKER**

Madame Pauline Donalds will be the guest speaker at Temple Emanu-El Sisterhood open meeting next Thursday afternoon at half-past two o'clock. "Reminiscences of an Operatic Career," will be the topic of Madame Donalds' address.

The meeting will take place in the Community House, adjoining the Temple.

Joseph Berljowsky, concert violinist will be the guest artist.

Following the close of the session, tea will be served by the social committee.

# BUILDING OF BETTER SPIRIT URGED IN TALK

(Address delivered before the Anglican Diocesan Board of W. A. in Quebec, by Mrs. C. R. Eardley-Wilmot).

During the current year many things, beginning with the Royal visit, and continuing with the entry of this country into the war, have tended to bring Canada into the foreground of the world picture. Indeed, His Majesty himself, first focussed the attention of all who heard him speak or followed his addresses in the papers, rather on this continent and this nation than on the Royal visit itself, when, in his Empire Broadcasts from Winnipeg he spoke of two outstanding achievements: the peaceful relations with the United States, making possible thousands of miles of unguarded border; and the friendliness between the two great races of different language which make up the principal elements of the Canadian stock. He said on that occasion, "That sense of race may be a dangerous and disruptive force, but English and French have shown in Canada that they can keep the pride and distinctive culture which it inspires while yet combining to establish a broader freedom and security than either could have achieved alone." In his farewell from Halifax he added: "By God's grace, yours may yet be the example that all the world may follow." A high tribute, and a still greater challenge: can we truly show such a solution of racial problems as to give a new lead and encouragement to a distracted world?

Most of us would probably feel that before we could consider all such problems as actually solved, unity and understanding need to be deeper and broader than they have been hitherto; indeed, with various past "incidents" we have known of, or bitter criticisms we may have heard, in the back of our minds, it was something of a shock, as well as a tremendous encouragement, to find the degree of unity as we have already achieved looked upon by His Majesty as worthy of such high commendation. It means that all the patience, toleration and consideration that have gone into the building up of our national structure so far, on either side, have been worth while, — and we take courage to build on to a more completely united Canada. The next question is, How are misunderstandings and antagonisms to be modified or removed, and what part can you and I play in bringing about improved relations?

Our English-speaking people of this Province have several peculiar advantages over those in other parts of the country in this matter, and it is for us to help the rest of Canada to understand and appreciate their French-speaking neighbours. This we cannot expect to do unless we ourselves understand and appreciate them. If we allow ourselves to feel superior and critical because in many ways they are different from ourselves we will not get far; but, if, instead of comparing and criticizing, we look for things to admire, and are not merely polite, but really friendly, the response is usually immediate and remarkable. There is nothing like a friendship with an individual — a friendship which does not balk at discussion, yet carries it on without rancour, explaining the reasons for differences of opinion, but not too strenuously trying to convert the other to one's own point of view — there is nothing like such a friend-

# LADIES' AUXILIARY ENTERTAINED AT TEA

Sunday afternoon, members of the Lions' Club Ladies Auxiliary served tea to a group of twenty-five girls at the Big Sisters Association headquarters.

Mrs. Roy Dewar presented two humorous recitations and Miss M. Denis and Mrs. Percy French entertained with a comedy skit. Community singing was enjoyed, with Percy French at the piano. Mrs. A. E. Liddell and Mrs. J. S. McFarland poured tea, assisted by Mrs. David Amory, Mrs. Chas. S. P. Halpin, Miss Evelyn Grant, Mrs. Frank Fox, Miss M. Denis, Mrs. H. C. Holland, Mrs. R. E. Parker, Mrs. W. de Gruchy, Mrs. Harold Mills and Mrs. A. Roy Dewar.

Mrs. C. D. Tweedie expressed the appreciation of the Big Sister Association and Miss Gordon extended the thanks of the girls present.

Mrs. D. Amory, the president of the Auxiliary welcomed the girls and announced that prizes would be given for an essay of approximately 500 words on "service," the manuscripts to be submitted within one month.

The next meeting of the Lions' Club Ladies' Auxiliary will be held at the home of the president, Mrs. D. Amory, 4375 Royal avenue, on Monday afternoon, at 3 o'clock.

ship to help both parties to a better understanding, not only of one-another, but of the background and points of view represented by each. A better understanding rapidly leads to a greater respect for one another, and that to a sincere affection. Enough individuals building such friendships would influence the outlook of the whole city — and the city can give a lead to the rest of the province. With this type of discussion in mind, I feel we should ask ourselves whether, for the sake of the more complete understanding, we should not make a more serious effort to accustom ourselves to speak French. Most Quebecers, I know speak it readily enough to servants and tradespeople, yet are much less ready to do so with social equals. Yet, when one does make the effort, it is usually so much appreciated, that it would seem that the shyness and self-consciousness which so often deter one from making the attempt, are really the result of thinking of oneself. Speak French to one's own credit, and not of the person to whom one is speaking. Perhaps in the light of the Golden Rule we would see our own motives more clearly! But that is something for individuals to decide for themselves: If we do not feel called upon to learn to talk freely in French, we can say the few gracious words which prevent the language courtesy from being entirely one-sided; and we can give our friendship — if necessary, wholly in English!

**Minority**

One thing which we have always regarded as anything but an advantage, from the point of view of understanding becomes a help; namely, our position as a minority. In this province we English-speaking people are in a minority; in the Dominion the French are. It should help us to understand certain attitudes of mind, especially the tendency to be very emphatic over certain rights and privileges. Imagine for a moment conditions reversed; if we were the only English among a whole Dominion of French, if we felt any fears of discrimination, on religious or racial grounds, how much more nervous we would be under those circumstances. Consideration that is mutual will in the end provide the right solution: nor need we feel weak if at first we show more of it. Our political position is relatively stronger, therefore we have less fear to reckon with. It is for us to show that there is nothing to be afraid of, and as fears prove to be groundless, fear complexes will go, cast out by a greater love.

**Opportunity**

Now as the English in this Province have a better chance than those in other provinces really to get to know their French-speaking neighbours, so also this city and district give more natural opportunities for meeting them than do most others. In many places where the proportion of English is larger, (such as Sherbrooke, and many parts of the Eastern Townships), or such a city as Montreal, the tendency is for French and English to keep all most entirely in separate groups: here many things are done in common; we can talk French without having to go out of our way to get the opportunity, and natural contacts give us the chance to make friends. The Red Cross and other activities are going to increase these natural contacts; let us see that we use them to the full, and build with the Frenchwomen of the city such a firm foundation of sympathetic understanding and mutual respect as shall influence the thinking of the whole city, and be a basis on which to build the future unity of Canada.

**DEMAND IS HEAVY**

Miners of Bolivia have a greater demand for tin than they can produce.

# WEST HILL SINGERS ON THE CBC

The Canadian Broadcasting Commission has entered upon a novel experiment which has as its purpose the interesting of Canadian children in ballads having to do with the history of their own country. This will take the form of a series of five broadcasts based on John Murray Gibbon's recently published book "New World Ballads." The broadcasts will take place on successive Friday evenings between the hours of 7.00 to 7.30 eastern standard time, and will be heard from eighteen stations covering the entire country. The first program was presented last week.

Three of the programs will originate in Toronto and the ballads will be illustrated by a group of girl singers picked from Toronto high schools and singing under the direction of Leslie R. Bell, Director of Music, Ontario College of Education, University of Toronto.

The balance of the program will originate in Montreal with ballads sung by the West Hill High Singers, a group of girls from West Hill High School. This choir is under the direction of Irvin Cooper, Supervisor of Music for the Protestant Board of School Commissioners in the City of Montreal, and lecturer at McGill Conservatory of Music. An interesting feature of the experiment is that school children in Ontario have been instructed to "listen in" as part of their home work, and it is expected that in other provinces the same action may be taken. The attention of the school-children of Quebec Province is also being drawn by Dr. W. P. Percival, Director of Protestant Education to these broadcasts in the interests of school and community singing. Upper picture shows the Montreal choir, and the lower picture the Toronto choir.

# Home Nursing Classes Attract Many Women In Western Que.

Twenty-seven hundred women and children in western Quebec are learning what to do till the doctor comes, how the family can be overfed yet under-nourished, and a thousand ways of keeping sickness outside the window through using simple health rules.

Home nursing classes, run by branches of the Red Cross in Quebec, are affording the instruction, free. This activity, directed by the peace-time staff of the Red Cross, follows experience in Ontario where home nursing courses have been running for several years. Results are impressive. Through knowledge she gained at home nursing class, one girl was able to keep her mother alive until the doctor arrived to counteract a severe heart attack. And in the Ontario hinterland, a 17-year-old lad who was days away from a doctor, defended his mother against pneumonia and gave her a chance to bring the patient through safely.

The idea is not to replace doctors or qualified nurses. It is to build up a large body of women and girls who can appreciate what preventive health work is; how to act in emergencies; how to insure better health than a family ordinarily would enjoy.

September 15 saw the first of the classes started in Quebec, with

# The SNAPSHOT GUILD PICK A PICTURE SPECIALTY

AS YOU become more skilled in photography, you may find that certain subjects or types of pictures appeal to you strongly. If so, it is wise to specialize in this preferred type. Such specializing doesn't limit you; indeed, if you master the taking of one kind of picture, the knowledge will help you in taking other kinds.

Here are a few of the picture specialties that many amateurs find interesting. Perhaps in the list you will find one that just fits your own needs:

**Action pictures:** If you have a camera with fast lens and rapid shutter, this is an interesting field, full of thrills and dramatic opportunities. Both winter and summer sports offer splendid chances for action shots.

**Flower pictures:** This is a year-round specialty. In winter, picture your window garden; in summer, the outdoor garden. Any camera is suitable, but more satisfactory results will be obtained if it is fitted with a portrait attachment.

**Outdoor pictures at night:** Modern fast films now make such shots easier. Short time exposures with ordinary equipment, or even snapshots with ultra-fast lenses, enable you to picture street scenes and illuminated shop windows. Twilight offers many interesting picture effects; and snow scenes have striking beauty under moonlight or street lamps. All you need is a camera, and a tripod or some solid object to support it during time exposures with the slower lenses.

**Architectural pictures:** It's great fun to explore a town in search of interesting architecture — novel doorways, odd bits of old-fashioned "gingerbread" decoration, or such historic structures as the one pictured here. This, too, is an all-year specialty.

**Table-top pictures:** Here is a specialty that offers ample scope for originality. Construct small scenes or situations, using dolls, toy animals, toy houses, etc. — then picture them. Any focusing camera, or a fixed-focus model with portrait attachment added, will do. And "table-

Picture taking is more fun when you choose a specialty and master it. Architectural pictures — such as this one — make up one of many fascinating fields.

topping" is an entertaining pastime at any season.

Silhouette pictures, pet and animal pictures, nature pictures — these are also worthy specialties. Informal portrait snaps of the baby or other members of the family also are a popular field; and there are many others. Choose your specialty — cultivate it — build up a fine collection of pictures in this one line — and you'll be an abler photographer in any other field.

John van Gulder

Miss Alice M. Cloutier, R.N. of the peace-time staff of the Red Cross, directing. Now, 100 English and 35 French classes are operating, mostly on the Island of Montreal and in the Eastern Townships. During the winter, organization is concentrating on the Montreal area; but when roads open in the spring, the drive will be shifted to country spots as the intention is that classes shall cover Quebec.

The courses are open to women and girls of fifteen up. They last thirteen weeks. Most of the instruction is given by volunteer registered nurses, Victoria Order nurses, and nurses of the Quebec Government county health units. And lecture demonstrations are also given by a doctor, a dentist, and a dietitian of the neighborhood. Stress is laid on demonstration. Classes are held in halls, with sickroom equipment, nurses show how the sick should be handled and students take part in the actual demonstration.

The curriculum embraces discovering signs of sickness, remedies for emergency situations, health in the home, care of mouth and teeth, care and comfort of the patient, feeding sick, proper diet for the health, maternity nursing, post-natal care of mother and infant, treatments not requiring professional assistance, communicable disease. The entire course bristles with pointers useful in any home.

Those who attend 75 per cent of the classes receive cards recognizing that they have attended home nursing course. But the Society emphasizes that "this card is not a certificate nor does it imply that the student is qualified to practice this elementary kind of nursing for remuneration." It is all plain home nursing, nothing more.

# MUSICAL NATURALS

Sharps, Flats and

by FRANCES GOLTMAN

**THE VOICE**

From time to time we have discussed different instruments in these columns but today we are going to write about the most wonderful instrument of all — the human voice. Little do we realize the qualities that are bestowed upon us with the possession of our own instrument. There are many types and speaking voices vary as definitely as the singing voice. How delightful it is to converse with a person who has a pleasing voice!

Strange as it may seem the voice has been compared to the oboe or bassoon in quality and if you are not acquainted with the voice classification here they are: The soprano is the highest female voice, and there are two types: the light or coloratura and the dramatic or strong type. Then comes the mezzo-soprano which is a lyrical type. This is followed by the alto or contralto, the lowest and most sonorous female voice.

The highest male voice is the tenor, divided into two classes, the heroic or tenore robusto (strong and dramatic) and the lyric or light tenor. Then there is the baritone and two kinds of bass voice, the basso profundo, the full rich low organ and the basso cantante which is a smoother voice. A fine voice is really a natural gift but like all other talents, must be studied and carefully cultivated and demands constant work and much patience if one wishes to develop it into an art.

There are many kinds of songs and each individual singer should study his particular kind of voice and sing songs that are suited to him. That is why Lawrence Tibbett, for example, has made such a success in the concert hall as in the operatic field. Usually an opera singer chooses songs that are too dramatic for the recital whereas the concert artist avoids this common fault. Tibbett, Lily Pons, Nelson Eddy and Nino Martin do not sing in the same manner for their recitals as they do on the operatic stage, hence the reason for their successful results with the critical public. Next week we will discuss the different types of songs.

# WESTMOUNT BAPTIST SERVICES ANNOUNCED

J. A. Johnston will occupy Westmount Baptist pulpit at both services on Sunday. In the morning, the sermon title will be "When the Cloud fills the Kirk." The Lord's Supper will be served at the close of the service.

In the evening, Mr. Johnston will speak on "Baffling Questions and Illuminating Answers... Things the average man ought to know." What really happened when sin entered our human life? What were its immediate and ultimate results? Why did Christ have to die? Does faith in Christ merely restore us to the heritage Adam lost? Is there a new kind of life available for any man and if so how may it be obtained. These and other vital questions will be discussed and answered.

The Young People's assembly on Monday evening at 8 o'clock, will be addressed by Mr. Johnston. His theme will be "Ways of Living and Laws of Life and Health." On Wednesday evening at 8 o'clock, the congregation meets for Fellowship, Discussion and Prayer. Visitors are cordially welcomed to all services.

# Plane Output Expected To Double In '40

Airplane production in the United States in 1940 should more than double the 1939 preliminary estimate of \$250,000,000, in the opinion of John H. Jouett, president of the Aeronautical Chamber of Commerce of America. Mr. Jouett said the aircraft production industry today had a backlog of orders worth \$625,000,000, with the expert outlook continuing favorable.

Not all the present business or backlog of industry concerns military aircraft, commercial orders, especially from Latin America, being heavy, Mr. Jouett said in his annual report offered at a meeting held here on Thursday.

"Our exports of all kinds of aeronautical equipment, including accessories, reached about \$117,000,000 in 1939, compared to \$68,000,000 in 1938," Mr. Jouett reported. "That is not only because of war orders from the Allied governments and some of the smaller neutral nations of Europe, but also because of a substantial increase in orders from Latin America, where the superiority of American commercial and military equipment is recognized. We exported to 91 foreign countries, dominions and colonies out of a potential of less than a hundred.

Production of rayon thread is being resumed in France.

## THE WAY TO A MAN'S HEART

WHEN THE GANG'S ALL THERE — THEY'LL HAIL A CHOWDER SUPPER

A buffet table set for a chowder party. The green hue of the linen and the use of a narrow runner covering only half the table top are new. So are the chowder bowl and cups at left.

Chowders are stepping out this season. They ride to buffet suppers in bowls and make everyone happy. Young people like them. Served late with a salad, coffee and a sweet, they give the bridge supper, or "feats" at a dance, a new note of plenty without expense.

**Lima Bean Chowder**  
(Serves 6 to 8—allowing 1 cup per serving)

Five slices bacon, 1 medium-size onion, 4 cups water, 2 cups potato strips, 2 cups carrot cubes, 1 cup canned lima beans, 2 teaspoons salt, 1-8 teaspoon white pepper, 1-8 teaspoon garlic salt, 2 cups evaporated milk, 2 tablespoons butter.

Chop bacon, fry in large, heavy kettle, add onion sliced in rings and saute until limp but not brown. Add water, vegetables and seasonings. Cover and cook 15 minutes, or until tender. Add evaporated milk, heat just to boiling point and add butter.

This easy recipe is from the new "Canned Foods Cook Book," a book for bachelors, working wives and harassed mothers. It's packed with

time-saving recipes using canned foods. Worth looking at. These two quick chowders come from it, also.

**Corn and Salt Pork Chowder**  
(6 large servings)

Two slices fat salt pork, 1 onion, 3 cups diced boiled potatoes, 1-2

**A Well Balanced Menu**

**BREAKFAST:** Orange juice, mixed hot cereal, raisin toast, coffee, milk.

**LUNCHEON:** Lima bean chowder, pilot biscuit, ginger pears, nut cookies, tea, milk.

**DINNER:** Broiled liver and bacon, creamed potatoes, broiled tomatoes, mixed green salad, French dressing, chilled caramel custard, coffee, milk.

teaspoon salt, 1-8 teaspoon pepper, 4 cups boiling water, 1 No. 2 can cream style corn, 2 cups evaporated milk, 1 tablespoon cornstarch.

Cut the salt pork into small pieces and fry out fat. Add sliced

onion and cook until browned. Put in diced potatoes, then add boiling water, corn and milk which has been heated to the boiling point. Thicken with cornstarch in a little cold water. Season and serve hot.

**Manhattan Clam Chowder**  
(Serves 6, allowing 3-4 cup per serving)

One-half cup finely chopped onion, 1 clove garlic, 1-4 cup cut parsley, 2 tablespoons finely chopped green pepper, 2 tablespoons butter or shortening, 2 cups finely diced potatoes, 2-2 cups boiling water, 2 teaspoons salt, 1-2 cups canned tomato juice, 2 seven-ounce cans minced clams, 1-8 teaspoon sage, 1-4 teaspoon thyme, 1-4 cup finely sliced celery.

Saute onion, garlic, parsley, celery and green pepper in butter or shortening until limp but not brown. Add potatoes, boiling water and salt; cook 15 to 20 minutes, or until potatoes are tender. Add tomato juice, clams, clam liquid and seasonings; bring to boil.

## Miss C. Sifton Spoke At Temperance Group

"The task of the W.C.T.U., to create dignified Christian Temperance is a very great undertaking as progress cannot be marked by years but by decades," stated Miss Cora Sifton, of the Quebec Temperance League against Alcoholism in an address at the Frances Willard W.C.T.U. meeting held recently in Dominion Douglas Church Hall.

Finland is one of the most temperate countries in Europe, the speaker said. At the 22nd National Congress against Alcoholism, which met recently in Helsingfors, Finland, 700 delegates represented 21 different countries and 1,200 people listened to five different languages on the Sunday of the Conference. Miss Sifton expressed the wish that Canada might follow Australia's Clarion call to start a petition to raise \$10,000, and supply fruit juices and milk bars in military camps.

Introduced by Miss M. E. Brown, the speaker was thanked by Mrs. John Scott.

Mrs. T. U. Gilbert, violinist and Mrs. W. H. Lewis, vocal soloist, accompanied by Mrs. F. J. Holston, were the guest artists. Mrs. T. A. Wilson presided.

## MARITIME WOMEN COMPILES COOK BOOK

To commemorate the visit of Their Majesties King George VI and Queen Elizabeth, the Maritime Women's Club has published a cook book. This book contains many recipes identified with the old days, and the new, in the Maritime provinces. It also contains recipes used in Government House, Ottawa, which were furnished by Her Excellency, Lady Tweedsmuir.

Mrs. Franklin D. Roosevelt, wife of the President of the United States, has also made contributions to the publication. This cook book is now on sale at leading book stores.

Members of the Montreal Repertory Theatre were the guests of the Maritime Women's Club at the January meeting held recently in Windsor Hotel. Several short plays were presented by the theatre group.

Last Sunday evening, 150 soldiers and their friends were entertained by the Club at the Westmount Y.M.C.A. The program consisted of instrumental music by the Hungarian orchestra, solos by E. A. Bulley and impersonations by G. L. Underwood. Miss Olive Ford was the accompanist.

M. Robinson, convenors, will be assisted by Mrs. H. R. Ressler, Mrs. E. Lazare, Mrs. L. Streat, Mrs. M. Finestone, Mrs. H. Pearson, Mrs. A. O. Freedman, Mrs. J. C. Zacks, Mrs. B. Wigdon, Mrs. M. ## Forbes-Eddy

The marriage of Lena Evelyn Eddy, only daughter of Mr. and Mrs. Herbert James Eddy, of Westmount, to Mr. John Sinclair Forbes, eldest son of Mr. and Mrs. John Robb Forbes, of St. Laurent, took place on Saturday afternoon at four o'clock in St. Stephen's Church, Westmount. Reverend Harold S. Laws officiating. Mr. Sweeting presided at the organ, the choir under the direction of Mr. Harold G. Gillingham, sang, "Deus Miseratur" and "The Perfect Love." Gladioli and Boston ferns were used to decorate the church.

Given in marriage by her father, the bride wore a gown of white velvet made with high neck and long sleeves ending in a curve over the hand, a built-up skirt front, with a fullness at the back ending in a slight train. She carried a bouquet of Easter lilies and buddleia.

## Many New And Fancy "Wools" For Knitters

The long winter months are the open season for knitters and any one who is pretty bored with functional sweaters and sox would find some of the new fancy "wools" irresistible. One of these looks like a very fine quality colored raffia. It consists of flat strands of shiny paperlike stuff which is nevertheless quite strong and can be used by itself or combined with wool. Another new yarn is called spun glass and looks like the stuff one hangs on a Christmas tree. This is meant to be used with either wool string or silk and makes up into a beautiful, shiny blouse or sweater for evening wear. Some rolled chenille-type yarn knits up to look like caracul or corded silk.

"U-Boat 29" Reveals the Story Of Spy Round Up

The recent action of Scotland Yard in rounding up over 6,000 men and women as suspected enemy agents was featured on the front pages of every newspaper in America. For despite the many thrilling and daring acts of heroism by soldiers of both sides in the actual fighting, the greatest drama of warfare is to be found in the unseen and virtually unknown espionage and counter-espionage services.

With amazing timeliness, Columbia's sensational "U-Boat 29," now at the Westmount United Theatre, brings to the screen a wartime story of the struggle between German and British agents. Just as the English Secret Service is today maneuvering to foil the machinations of the German Gestapo, the film graphically depicts the actions of two loyal agents as they work to prevent the torpedoing of a whole squadron of the Royal Navy.

# CITY APPOINTS SKI INSTRUCTOR AT LOCAL PARK

## P. M'KINNON, NOTED EXPERT, WILL INSTRUCT GROUPS AT KING GEORGE PLAYGROUND

To be on Duty Each Week Day During Season — Was Twice Canadian Champion Ski Jumper — Groups Now Being Formed—Registration Should be Made

A noted ski instructor, Peter MacKinnon, will be on duty daily throughout the season at King George Park to provide free instruction in this ever increasingly popular sport, it was announced yesterday at the City Hall.

Decision to place a ski specialist at the park was reached this week by the City as a further step in its far-reaching municipal recreation program carried out under the direction of Norman Smyth.

Peter MacKinnon was chosen for the post only after careful selection. MacKinnon was for nine years instructor at the Seignior Club and previous to that taught skiing at Murray Bay. He has twice been the Canadian ski jumping champion and is a former winner of the Mount Royal Cross-Country Race.

He will be at the park, formerly known as Murray Park, from two to five o'clock in the afternoon and from seven to 10 o'clock in the evening from Monday to Friday, and on Saturday he will be there from 9 a.m. to noon and 2 p.m. to 5 p.m.

Ski instruction groups are now in the procession of formation and those desiring to receive instruction from Mr. MacKinnon should register their names and supply particulars as to when they can be at the park, at the park chalet. Instruction periods will commence this week.

## NEGRO GIRL IS AN ACE TRACK PROSPECT

The Middle Atlantic Association expects much in the future from Jeannette Jones, a Negro girl from Harrisburg, Pa. She is one of the fastest track athletes the district ever has produced, winning 50 and 200-meter association championships, and placing third in the 50-meter events at the nationals.

Earl Flickinger her coach, believes she will be in the world record class as soon as she learns to start faster.

### NO LANGUAGE

Until he was old enough to go to school, Frank Demaree, National League outfielder, knew only the sign language. His parents were mutes.

## "Y" Notes

The Westmount "Y" Juveniles trounced the lowly North Branch Rough Riders 44-6 on their home floor recently. Westmount took command from the opening whistle to the final bell. The win enabled the Westmount five to remain perched at the top of the standing tied with the highly rated N.D.G. team whom they meet in the near future. The accurate shooting of Parsons with 12, Sergeant 10, Condon 2, paced the Westmount boys to victory. Turnbull paced the North Branch Rough Riders with 10.

Westmount: Sergeant 10, Condon 8, Parsons 12, Kusner 2, Cameron 6, Hall 4, Thompson 2.

North Branch: Martin 2, Turnbull 10, McHugh 0, Nelson 1, Smith 0, Moore 0, Boude 0.

## SENATORS IN 3-2 WIN OVER "Y" HORNETS

The Y.M.C.A. Senators defeated the Hornets in a hard fought game at King George Park by a score of 3-2 on Saturday. In the first period the Senators started off with a rush. They stormed the Hornets goal and after about five minutes of play Robinson scored on Pierce on a pass from Coulter.

On the face of Logan of the Hornets carried the puck in and tested Kert with a shot from the corner. For the next ten minutes no goals were scored, both goalers making a number of good saves. With about five minutes to go in the first period Johnson cleared the puck from in front of the Senators goal and passed up to Coulter at the blue line. Coulter went through the defence and took the puck into the corner, then passed out to front. Robinson took the pass and took a shot, but Pierce saved, and cleared into the corner. Coulter came around behind the nets and let fly. Pierce didn't even see the puck until it dropped to the ice inside the net. In the remaining two minutes the play was fast and furious but no goals were scored.

At the start of the second period the puck came into the Senators end. Johnson carelessly shot the puck out in front and Logan, the Hornets centre, scored, making the score 2-1 in favour of the Senators. On the face-off Robinson started a play. He took the puck into the corner and passed to Coulter who in turn passed to Calverly who shot and scored, making the score 3-1 for the Senators.

After this goal the play got a bit rough with a good deal of body-checking. All of a sudden the puck came out from a scramble in front of the Senators net and Night, gathering in the puck, let fly. Kert didn't have a chance. The Hornets tried hard to get the typing goal but their efforts were in vain. The final score was 3-2 for the Senators.

## WILL INSURE GRID PLAYERS NEXT YEAR

Because of the number of injuries sustained by Newburyport, Mass., high school football players this season the athletic council has voted to insure the players against injuries next season. Under a new plan, football players can be insured for 50 cents, or \$1 a year for all sports.

## GUY DAY CHOICE IN BIG FOX TROT RUN

Dunbar W. Bostwick owns the experts' choice of the 47 three-year-old trotters kept eligible as of Jan. 1 for the \$40,000 Hambletonian Stake to be raced in August.

Kuno, bay colt by Guy Day, is Bostwick's harness hope.

The 47 colts and fillies on which \$250 was paid this year is the largest number kept eligible to the Hambletonian in 11 years.

### RETIRED

Blue Peter, winner of England's 2,000 Guineas and the English Derby last year, has been retired to stud by owner Lord Rosebery after winning \$159,820 in purses. Blue Peter was undefeated as a three-year-old and made Lord Rosebery the leading owner and Jack Jarvis, England's leading trainer in 1939.

### PROSPECT

The Giants will have in their spring training camp a young fellow who has shown well in two jobs, pitching and outfielding. He is Steve Tramback from the Fort Smith club. He played the outfield in 87 games and hit .332. And as a pitcher he won 21 games while losing only five.

## DODGERS SHY ON SLUGGERS IN THE FIELD

When Brooklyn's Leo Durocher was voted recently "the manager of the 1939 major league season" it was a well deserved tribute. The Dodgers were the outstanding surprise of the campaign, and Leo's skillful direction of the team explains as much as anything else the third place finish.

At the same time the award imposes a new task upon the colorful "Lippy." To improve his and the team's record this year, or at least to maintain the gains achieved last summer.

Stiff Opposition  
The second assignment may be more difficult than was the first. The climbing is steeper now, and he'll have to beat stronger teams. Moreover teams like the Cubs and Pirates, which finished below the Dodgers last year, will be challenging again this year with new playing strength.

The inability of Larry MacPhail to negotiate a deal at the December baseball meetings at Cincinnati must have been a keen disappointment both to the carrot top and to Durocher. The Dodgers do need outfield batting punch, and won't be a really first class team until they get it. They had hoped to land Joe Medwick, or Boston's Max West, but couldn't obtain either. The Cards are figuring on winning the pennant themselves, and West is Boston's only authentic swatter.

What the Dodgers have is top-class pitching and a slick infield. The inner cordon might not be so tight without Leo himself—Laughing Leo is ageing, and has been around a long, long time—but "Pee Wee" Reese, from Louisville is supposed to be ready to take over, and Pete Coscarart at second base is developing in the league's fanciest performer.

Leo Needs Help  
Last year the Flatbush catching was unsatisfactory, but the addition of Chris Hartje, from Montreal is expected to be an uplifting influence. Hartje, in fact, is the prize of the Dodgers' numerous recruit crop. At Montreal he hit a lousy .313, and even before he went there he was regarded as a big league receiver, graceful and clever.

It might be a team, then, good enough to finish third again. But Leo would be a lot surer of it, and his own future, if McPhail did acquire the needed outfield help.

England has almost stopped the issuance of silver coins.

## TENNESSEE BOAST NEW ADDED STRENGTH

Tennessee's Vols already have begun to lay the foundations of another Rose Bowl team in seasons to come.

The Vols have acquired the services of Bobby Cifers, a speedy muscle man from Kingsport, Tenn. Now 19 years old, Bobby weighs 185 and is expected to fill Maj. Bob Neyland's requirements for a big and fast triple threat back.

Bobby is the brother of Ed Cifers, a junior end of the Vol

Homer Salter, Western State sophomore, was the only football player in either the Rocky Mountain Conference or the Big Seven circuit to return a kick for a touchdown last season. He ran back a kickoff 94 yards for a score against Colorado College.

## CHURCH TEAM DOWNS GRADS BY 8-2 SCORE

Stanley Church Squad Hands Out First Defeat Of Season to Boys Brigade

Stanley Church senior hockey team handed the Melville Boys' Brigade Grads their first defeat of the season last Wednesday, as they handed a badly disorganized and too overconfident Grads sextet an 8-2 drubbing.

Playing against a team that they had beaten only once in the last three years while losing four times, including a 17-1 walk-over in 1938, Stanley went out on the ice to play real hockey.

Ripping through the Grads defence, which is the throes of reorganization was woefully shaky all night, for three goals in the first five minutes of play Stanley had run it to 6-0 at the half-hour mark, before C. Childs picked up Williamsons rebound and drove it past Nickle in the Stanley nets.

Stanley came back with goals by Ketterson and Cavanan while Len Childs shoved home a puck in the dying seconds of the game to give the Grads their only other goal.

The game was easily featured by the magnificent work of Nickle in the Stanley net. As presenting an almost unbeatable front, he robbed the Grads of what looked like at least four sure goals, and in addition stopping many shots that seemed labeled.

The Stanley goals were scored by Fullerton, Rutherford, Cavanan, who played a particularly brilliant game on the front line and Boyd Ketterson, who played an outstanding two way game.

### STILL TOPS

Only three jockeys in American racing history ever have won 300 races in a single year. W. Miller holds the record with 338 in 1906 and 334 the following year. In 1908 V. Powers counted 324 times and Jack Westrope counted with 301 in 1933.

## Aquatic Club Scores Hit In Fancy Swimming Show

The Aquatic Club of the Young Women's Christian Association scored a major triumph in their fancy swimming display last Friday night. Every seat in the gallery was taken and standing room was at a premium. A repeat performance is to be given tonight at 8.15, when part of the receipts will go as a donation to the Red Cross Society.

Staged under the direction of Miss Helen Mackey and Miss Pearl Stonham, the demonstration opened with the Rhythmic Ribbon Dive and included spectacular swimming stunts, formations, and advanced diving displays. All the routines were carried out with music, and the swimmers in their black satin crinkly bathing suits with red caps, provided an attractive as well as skillful demonstration.

The Aquatic Club consists of members of all ages and the two tiny five-year-olds — Meredith Thomas and Eileen Baum, nearly stole the show from older and more experienced swimmers, with their diving display. Highlights of the program were the Somersault Routine, a combination of breast stroke, somersaults, and paddle wheels; a study in floating formation in which some thirty swimmers formed stars, squares and cartwheels, and the Shadow Swimming Number in which Miss Margaret Mackay and Miss Jean Brown took part, drew rounds of applause.

Variation was lent to the program by a number of speed races by the Y.M.C.A. club.

Members of the club performing in the demonstration included many well-known Montreal swimmers—Marjorie Bradshaw, Eileen Powell, Bernice McTeer, Pat Pickrell, as well as some promising younger ones as Laura Cero and Blodwyn Thomas. Others who took part in the program were: Gwen Baxter, Jean Reffold, Jessie Leslie, Jean Harris, Dorothy Adams, Ada Guyan, Alice Humphries, Eileen Baum, Margaret Logan, Janet Logan, Barbara Logan, Patsy Brown, Joan McCauley, Phyllis Allatt, Hazel Connelly, W. Bailey, M. McVicar, K. Mailer, Mrs. Flynn.

## CROSSORE SET MARK IN EIGHT EVENTS

Indiana is quite roud of the running accomplishments of Bob Crossore of the Indiana Boys School. He ran eight cross-country races during the past season and set records in all eight races.

Crossore was first in the State A. A. U. junior championships and defeated crack freshman harriers from Notre Dame, Purdue and Butler. And he is only a high school sophomore.

Ken Sandbach, one-time Purdue hurdler, is his coach.

## GETTING READY
