Suggest Restriction Of Foreign Shipping On The Great Lakes

Ottawa — (CP) — Canada's largest shipping body today proposed that this country and the United States join in excluding other nations' shipping from much of the Great Lakes and the St. Lawrence river.

The Dominion Marine Association, representing 22 companies with 216 vessels plying the lake-river waterways, recommended to the Royal commission on the coastal trade:

1. Negotiation of a Canada-U.S. treaty which would bar ships of other countries from trading between Canadian and American inland ports. The line would be at the mouth of the St. Lawrence.
2. Traffic between Canadian ports in the same area should be confined to Canadian-registered ships.
3. That a similar restriction

apply to the eastern Canadian seaboard so far as it is sought by individual members of the association.

The Marine Association's recommendation for restrictions tallied in part with submissions to the commission Wednesday by the Canadian Shipbuilding and Ship Repairing Association. This group wants all of the Canadian coastal trade reserved for Canadian-built, Canadian-registered vessels on both coasts and the inland waterway.

The shipbuilders said this would help provide orders for shipyards, adding that it is essential to keep the yards on a sound basis for defence purposes.

An opposing stand was taken Wednesday by the Canadian Shipowners' Association, speaking for the operators of 80 ocean-going vessels. It said British ships should be allowed to continue their present free access to the all-Canadian traffic on the seaboard and in the St. Lawrence-Great Lakes area.

The Dominion Marine Association, whose brief was expected to be the last presented to the royal commission here before it sets out on a cross-country tour, said British and foreign interests could build ships specifically to compete with Canadian vessels after completion of the St. Lawrence deep waterway.

"It is essential that Canadians be assured that the vast (sea-way) expenditure will not destroy efficient and profitable Canadian enterprise essential to the prosperity and economy of the nation," the association said.

It declared the British Commonwealth merchant shipping agreement of 1931 — under which British-built and British-registered vessels have the same access to the coasting trade as Canadian ships — now is outdated.

Dealing with its proposal for a Canada-U.S. treaty restricting vessels in inland international trade, the association said this is in line with the views of the Lake Carriers' Association, the U.S. counterpart of the Marine Association.

Where Seven Died — In the distance is towering Mount Temple in Banff National Park, scene of a snow avalanche in which seven American boys died. Two others were taken to hospital suffering from injuries, shock and exposure, while another two escaped injury. The boys, members of the Wilderness Club of Philadelphia, were part of a group of about 30 which had been in the area three days.

Inquest Is Ordered Into Mountain Deaths

Banff, Alta. — (CP) — An investigation into the deaths Monday of seven young American mountaineers on towering Mount Temple will begin tomorrow.

The inquest date was announced Wednesday by coroner John Thompson. He said the inquest will likely be adjourned after one day.

The hearing will resume when all persons taking part in the recovery of bodies can be summoned from their posts in the park, said the coroner.

The victims were among 30 members of the Wilderness Club of Philadelphia who arrived here five days ago with two camp counsellors.

The attempt to climb the 11,636-foot mountain was made without the knowledge of the staff of Banff National Park. The boys' climbing experience had been limited to nearby Mount Rundle Sunday and a climb on a mountain in Yellowstone National Park in the United States. However, under existing regulations, there is nothing to prevent inexperienced climbers from risking their lives on difficult slopes.

Eleven members of the club attempted the climb. Two escaped injury.

In hospital suffering from severe injuries, shock and exposure, are Frederick Ballard, 13, and Jerry Clattenburg, 14, both of Philadelphia.

Tony Woodfield, 16, of Rye, N.Y., escaped injury, and Peter Smith, 13, of Paoli, Pa., suffered facial bruises.

Woodfield led the group as they made their way from the 3,000-foot level in an assault on the peak. They had reached 10,000 feet and started to turn back because of a number of small avalanches, when the snow came roaring down the mountain.

"I yelled avalanche, and dug my axe into the ice and hung on," said Woodfield.

The boys were roped together.

C.N.R. To Build New Railway Line

Montreal — (CP) — Canadian National Railways announced yesterday that tenders had been called for the construction of a new line from St. Felicien to Chibougamau in northern Quebec.

The new line from the Lake St. John district will link up at Chibougamau with a western section being built from Beattyville on the CNR transcontinental route.

The branch line from St. Felicien to Beattyville will stretch 228 miles.

Canada Would Sell Its Grain To Any Nation

Ottawa — (CP) — Canada is willing to sell wheat and barley anywhere in the world if satisfactory terms can be arranged, Prime Minister St. Laurent told the Commons Wednesday.

But Communist China traded mostly by barter and this country could not trade in that way.

Mr. St. Laurent was replying in the Commons to Hazen Argue (CCF—Assiniboia) who asked whether the government is aware of wheat negotiations between Australia and China.

26 Missing In Mexico Ship Sinking

Veracruz, Mexico — (AP) — Rescue vessels searched the rough waters of the Gulf of Campeche today for 26 persons missing following the sinking of a crowded coastal passenger boat.

The 145-ton La Flecha sank last night 40 minutes after sailing from Veracruz. Three bodies — an adult passenger and two children — were recovered and 37 persons were reported rescued.

All those aboard the vessel were believed to be Mexicans.

The La Flecha sinking was the second marine disaster of the day in the Caribbean area. Early yesterday a Liberian ore carrier, the Sun Princess, rammed and sank the 6,155-ton British freighter Geologist off Trinidad.

Nineteen seamen of the Geologist are missing. The body of another was recovered.

The La Flecha went down about four miles off Veracruz. She was bound across the gulf for the port of Progreso, on the Yucatan peninsula. Coast guard vessels and fishing boats searched throughout the night for survivors.

A rescued sailor said the La Flecha was carrying at least 66 persons. Her sailing list showed 32 passengers and a crew of 14 aboard, but many of those rescued were not on the list.

Hope for finding additional survivors from the sinking off Trinidad faded after a day-long air and sea search. Twenty-two survivors from the Geologist were picked up by the Sun Princess.

Fourteen of the missing seamen and the man whose body was recovered were West Indians signed on at Barbados Tuesday. The other five missing were Britons.

The Geologist went down within five minutes after the Sun Princess tore a gaping hole in her side. Crew members picked up in the shark-infested waters included the skipper, Albert Jackson of Liverpool.

The Geologist was en route to Maracaibo, Venezuela, with a general cargo, including more than 1,200 cases of whisky and nearly 100 British automobiles.

The 5,221-ton Sun Princess, loaded with bauxite for Canada, suffered little damage.

West Would Assure That German Unity Need Menace Nobody

London — (AP) — The West was reported ready Wednesday with a plan to limit Germany's armed forces to 500,000 men — even after the country is united.

The east zone of Germany, now controlled by the Communists, would be demilitarized and made a buffer zone under allied proposals, informed diplomats said.

The Western wish is to convince Russia that a unified Germany within the North Atlantic Treaty Alliance need menace nobody.

French Premier Edgar Faure drafted the plan for submission to next week's Big Four conference at Geneva.

The proposal would top a series of suggestions that Britain, the United States and France have in mind to make German unification more acceptable to the Soviets and to bolster the peace and security of Europe.

The informants said the plans are dependent on Soviet agreement to free election of a united German government that would have the right to join NATO.

The 12-division or 500,000-soldier maximum is the same that has been set as West Germany's contribution to NATO.

Strict curbs which now govern West German armaments production also would be applied to a reunited Germany under the Western plan, said the informants. Even such military supplies as oil would be controlled.

A reunited Germany should become a member of NATO in terms of the Western proposal.

The demilitarization of East Germany would mean that a buffer zone would separate the German armed forces from their Communist neighbors in the East. No military bases would be allowed in East Germany. No soldiers would be stationed there.

The Warsaw alliance of Communist states under this scheme would be expected to adopt a similar pattern of control upon their individual arms and armies as far east as the Russian Ural mountain range.

Canada Orders New Guided Air Missile

Ottawa — Canada has moved another step forward in the development of guided missiles but is proceeding cautiously in designing costly supersonic aircraft.

Defence Minister Campney told the Commons last night during debate of his department's estimates that an order has been placed for a prototype of a guided missile, presumably the type fired from planes. However, he said development work on the supersonic CF-105 at the A. V. Roe Co. plant at Malton, Ont., still is in the research stage and will be for some time.

Discussion of the defence estimates followed a morning and afternoon debate of a CCF proposal for parity prices for Canadian farm production. The motion, supported by all opposition parties, was defeated 108 to 59.

The House will try today to complete consideration of the defence estimates. It then is scheduled to discuss the estimates of Trade Minister Howe which likely will open extended debate on Canada's foreign trade policies, including the sale of wheat to Iron Curtain countries like Poland.

Mr. Campney said he was not in a position to give the House any details on the development of guided missiles, one of Canada's most secret defence projects.

"As far as guided missiles are concerned, we are placing a pre-production order in respect to one," he said.

It is believed Mr. Campney was referring to an order for a prototype of an air-to-air guided missile.

Officials said the order for the prototype is the next stage in the development of an air-to-air guided missile which would be used by Canadian-based CF-100 interceptors against potential enemy planes.

Mr. Campney said nine Canadian-based CF-100 interceptors will be equipped by the end of this year. By the end of 1956 four squadrons of the air division in Europe would be provided with the planes.

Sen. King Dies At 82 In Ottawa

Ottawa — (CP) — Senator James H. King, known first as a doctor in the Rocky mountains and since through a long political career, died early today at the age of 82.

The senator, whose political career carried him to the British Columbia legislature, the Commons and then the Senate, passed away quietly at 12:05 a.m. in the Civic Hospital.

He had been a patient there since June 20 when he was taken ill with a heart condition. He later contracted pneumonia and had been unconscious for the last five days.

His death reduced the Liberal majority in the 102-seat Senate to 72 and increased the vacancies to 23. The upper chamber's other seven seats are held by Progressive Conservatives.

During his political career Senator King held cabinet posts in all three of the governing bodies in which he served. His last post was as Speaker of the Senate for four years.

Senator James Horace King was a robust man with a friendly disposition and a kindly manner. His medical practice made him a beloved figure in southeastern British Columbia and western Alberta.

But growing activity in public affairs took him out of active practice in the 1920s.

He was the first doctor to reach Frank, Alta., after Turle mountain collapsed in 1903 and killed 66 sleeping villagers under tons of its debris.

Racial Accord In Mayoralty

St. Jerusalem, Que. — (CP) — This predominantly English-speaking municipality yesterday elected French-speaking J. E. Bourbonniere as mayor. Mr. Bourbonniere who succeeds Hon. William Cottingham, Quebec mines minister, was unopposed.

St. Jerusalem, is a rural municipality whose population of 3,000, is made up largely of descendants of United Empire Loyalists and Scots.

It is situated some 40 miles north of Montreal, next door to Lechute where a dispute occurred two weeks ago over flying of the Roman Catholic papal flag and the Union Jack.

Former mayor Cottingham explained to St. Jerusalem electors that pressure of work as provincial mines minister and other activities prevented him from running again for the mayor's post.

No Rain, Mighty Falls Now Trickle

Quebec — (CP) — Picturesque Montmorency Falls, where the water tumbles from a height 106 feet greater than Niagara, has been reduced to a trickle as a result of a prolonged drought in the province.

Only thin rivulets of water were dropping today down the 274-foot falls, site of a famous French-Canadian legend.

A folk story, handed down through generations, has it that a young woman, deeply saddened by the death of her soldier-lover, threw herself into the falls one November night. Once a year since then, the story goes, Dame Blanche, the woman in white, is seen walking through the mist at the base of the falls.

The waterway, 120 feet wide, is near what is believed to be the oldest road in Canada, 21 miles west of here. It takes its waters from the narrow Montmorency river, which has its source in Lake des Neiges, 50 miles north of here, in Laurentide Park.

The falls have gone dry at least three times in the last 30 years.

There has been little rain in the area for the past six weeks. The meteorological office reported only .07 inches of rain fell this month and .72 inches in June. Last year, seven inches of rain fell in June and 4.28 in July.

There is no rain in sight and another heat wave is headed this way, a spokesman for the weather office said.

Hundreds of Roman Catholics, following advice from the archbishop's palace to pray for rain, held a pilgrimage Tuesday night to the shrine of Notre Dame de Roc Amadour.

Newlyweds — Actor Clark Gable and Kay Williams Spreckels, seen in the glaring lights of a Hollywood premiere several months ago, were married recently at Minden, Nev. It is Gable's fifth, her third.

Bastille Day

It was exactly 166 years ago today that an enraged and tattered mob of Frenchmen stormed the stone walls of the Bastille in Paris and liberated their fellowmen imprisoned there. That rush was the spark that ignited that glorious and terrible upheaval known as the French Revolution, and though the revolt subsequently degenerated into a reign of terror in the hands of a power-drunk rabble, it marked a first for mankind in general.

Europe at the time was deeply mired in the prejudices and injustices of the centuries-old feudal system; a system imposed by force and custom from the top by a hierarchy of barons and lords. Revolts had occurred before, but all of them simply pitted one greedy noble against another. The great rank and file of European serfs had almost no influence in the course of daily events.

There was no such thing as "the will of the people" until a gold-gilded France forgot that there were even people. When the taille and the corvée tax burdens, together with the social constraints imposed from

the top became too severe to be endured, the people, once the subjected, became in a matter of a few months, the subjects. They proved decisively to history that a popular will does indeed exist, and that it has awful power unless properly used.

Today, in North America, we still storm miniature Bastilles every day, because the freedom to fight against injustice has become a part of our way of life, and the lesson of the Bastille has been learned and understood. Where the bottom of the social pyramid is allowed free play, it is not likely to explode like powder out of a blocked barrel. But in Russia, and in some other European, Asian and South American countries, there still remain situations which bear an amazing resemblance to the face of France before the days of "liberty, equality and fraternity." There are fortresses there waiting to be stormed if the burden gets too heavy.

In fact, wherever a few attempt to subjugate the many from the top by force, it would be well for them to pause today — and remember the Bastille.

Germany Cautious On Rearmament

West Germans are acting as if they have had their fill of militarism. They evidently want no more of the Prussian domination that brought Germany to disaster in two world wars. In general the people of free Germany are determined to establish firm civilian control over the military. This resolve accounts for Chancellor Adenauer's difficulties with his Parliament.

Adenauer wants to start building the new German army right away. He would like to have his government's first soldiers in uniform this summer. That would strengthen the Bonn government's position at the forthcoming Big Four conference. The chancellor has asked for power to call up volunteers only on a temporary basis.

But the lower house at Bonn, the Bundestag, is balking, Deputies of all parties, including Adenauer's own

Christian Democrats, have joined in the charge that the chancellor's bill lacks guarantee of civilian control over the military and could lead to a return of German militarism.

This is a healthy situation on the part of legislators with limited experience in democratic rule. We should be reassured by their insistence on having parliamentary control over the armed forces similar to Canada's own system.

But Adenauer is on the right track too. Time is important in forming a nucleus for the West German defence program.

The question is whether the chancellor and the Bundestag can work out their differences in the next two or three weeks. If so, German influence — and the strength of the West — will figure to a larger degree in the coming negotiations with Russia.

An Admirable Ambition

Lorenzo Lamontagne, a Sherbrooke swimmer of note, is thinking seriously of entering the Canadian National Exhibition swim at Toronto late next month, according to his statements which appear on page 3 today.

Such an ambition is an admirable one, indeed, and the excellent young swimmer should be encouraged to represent Sherbrooke at this great annual event.

That he would win, or even place in the first four or five, is doubtful. But the fact remains that he has shown ability far beyond the average and would, we are certain, make a very creditable showing.

Swimming in Lake Memphremagog is considerably different from tackling the icy waters of Lake Ontario against the finest swimmers in the world. But few indeed can boast of swimming the distance achieved by Lamontagne. His fine effort has lifted him into a charmed circle of distance swimmers. If his lean frame can stand colder water — and few

good distance swimmers carry as little weight — he would stand a fine chance of placing in the money.

Weight is important in distance swimming. The best usually tip the scales at more than 200 pounds. But one of note who is built much like Lamontagne is Steve Wozniak of Buffalo who won the Exhibition swim in 1947. Age crept up on the Buffalo steel worker and he has failed in subsequent swims, but the fact remains that he proved conclusively that the "little" man can compete successfully.

Sherbrooke has produced few athletes of which this city can be proud. Here is a man who could bring credit to his community and as such should be given every encouragement, morally and financially.

As for the Channel swim, that should come later. More immediate and accessible is the Toronto Exhibition swim. If nothing else, it would be excellent experience for a young man with a good swimming future.

This And That...

Mild, isn't it?

A college teacher says the average youth has no head for figures. But he appraises them pretty well with his eyes.

A teacher in Hillside, N.J., supplemented his salary by operating a bulldozer during vacations. Not long ago he made an application for credit to purchase a home, stating that he was a teacher. It was turned down. The teacher resubmitted his application, this time putting down that he was a bulldozer operator. The application was promptly approved.

A Communist Greek guerilla has been sentenced in Athens to "seven times life imprisonment" by a criminal court. That also would carry one possibility of transmigration within the next couple of hundred years.

Everybody can remember those long, youthful sessions where the topic was "what do you really want most out of life?" But, fortunately, hardly anybody call recall what the answer was.

The trouble with being good on your job is that it is hard to get time off.

No, It's Not Perfect, but It's the Only One We Have!

With Billy Graham

By George Burnham

OSLO, Norway — Billy Graham reached the entire nation of Norway with one sermon Sunday. The young evangelist from North Carolina preached to more than 40,000 in Oslo's Bisset Stadium, with hundreds standing for two hours in an adjoining parking lot and others sitting on rooftops near the fences.

Every radio station in Norway broadcast the sermon, with some of the kilocycles spilling over into Russia at northern points. Forming a small but impressive part of the throng at the stadium were people who came on a special train from the Land of the Midnight Sun, where the little nation links up with Russia. At this time of the year, the people there have sunshine 24 hours a day. The train originated in the vicinity of Kirkenes, a city located almost as far away from Oslo as Rome, Italy.

Pastors on the train said that a number of people from Russia slipped across the border and made the trip to hear the American preacher. Some of those on board were from the city of Tromsø, known as the capital of

the Arctic. One of the local tourist attractions is the German battleship Tirpitz, sunk by the RAF in the sound during 1944. Norway was occupied by Germany for five years during the World War II, and much of the country was scorched during the retreat, but the people have done a good job of rebuilding their physical assets. The spiritual life of the country has deteriorated badly, however.

A local business leader and member of the committee for the Graham meeting, who gained a measure of fame with heroic resistance work during the Nazi occupation, said churches of Norway were filled during the war. The people relied on God to lead them. As soon as the war was over, he said, the people forgot about God and the churches became practically empty on Sunday.

The American conception of Norway today is one of strong people with high morals and inspiring character. Such a conception is false, Norway has become a land of loose morals, drunken revelry and indifference to the

things of God. A walk down most any street will support this view. Religious observers assert that Norway needs a spiritual awakening worse than France.

Books of fact state that almost 96 per cent of the population belong to the state Lutheran Church. This sounds wonderful, but the picture is out of focus. Murderers, thieves and harlots are counted as members of a particular church if they happen to live in the neighborhood.

The people believe in God. They believe in the church. They think the Bible is a Good Book. They just don't have time for those things any more. But a small group still believes that God deserves first place in the life of an individual and a nation. It was this group that invited Evangelist Billy Graham for a meeting in the one sermon that spread into every corner of the nation.

He told the people what the Bible has to say about a country that turns its back on God. Hundreds walked out of the stands to make decisions for Christ when the invitation was given, and thousands raised their hands as an indication they were dedicating their lives to God. One of these was an American ambassador.

Some of the indifference had been jolted loose.

BYGONE DAYS

TEN YEARS AGO

From the Record of Saturday, July 14, 1945.

Mrs. Clara Rock, of Bromptonville, will be celebrating her 90 birthday tomorrow at the home of her youngest son, F. W. Rock. Mrs. Rock is a direct descendant of Capt. Ployart who came to this part of the country with Major Heriot, when Drummondville was founded.

Prompted by three drownings that have occurred recently, in the Magog River, the city has employed Alfred Roger and Norman Joncas as lifeguards whose duties will be to patrol the Vacation Colony Beach and the Esplanade Beach. City Clerk Antonio Deslauriers announced today.

The non-fraternization policy between British troops and the Austrians has been relaxed, Lt. Gen. Sir Richard L. McCreey, commander of British forces in Austria announced today. The action had been taken "in view of the good behaviour of the Austrian people."

The United States 3rd Fleet, bombarding Japan for the first time, set great fires ranging through a steel city on

Northern Honshu today as 1,000 of its carrier planes blasted nearby targets of the northern home islands in coordinated blows.

THIRTY YEARS AGO

From the Record of Tuesday, July 14, 1925.

Seven more persons appeared in the Recorders Court this morning as a result of a police drive against blind pigs. At least one raid a night has been carried on for weeks.

United States mine workers and operators have formed a joint committee to determine just how much of the workers' demands for better wages and working conditions can be accepted without undermining the demand for anthracite coal.

The South African Assembly has passed a bill conferring a constitution upon South-west Africa, the former German colony which has been administered under a South African mandate.

Little activity is reported from the French-Riff battle front in Morocco with the rebel leader apparently abandoning his idea of a frontal attack on the French.

BIDS UNCOVER SECRET

SLAM
North's bidding in today's hand is a fine example of how to blow hot and cold on the same cards. This type of activity sometimes indicates that the player can't make up his mind about the value of his cards, but in the case of today's hand it indicated that North was able to keep an open mind as the bidding progressed.

There was nothing especially robust about North's hand to begin with. He had 14 points in high cards, with a respectable five-card suit. This gave him an opening bid, to be sure, but only a near-minimum opening bid.

When South made the free response of one spade, North still had no reason to get excited. He still had the same minimum opening bid, and he could afford only to show that his club suit was rebiddable.

It was only when South jumped to three spades that North could look at his cards with a new eye. South's jump bid was forcing to game. The only question was whether slam ought to be considered.

Could South have the sort of hand that might produce a slam? It wasn't at all impossible. Give South a strong spade suit, a singleton heart, and a good fit for clubs, and little more would be needed.

North properly decided that it was up to him to make some slight suggestion in the direction of slam. Hence he bid four diamonds before showing support for spades.

This made it clear to South that his partner had the suit. The North hand was a near-minimum opening bid, but North had some sort of interest in slam. Obviously, North had at least two aces—more probably three aces.

This was enough to nudge South into the slam contract. There was no problem, of course, in the play of the cards. South could draw trumps and set up the clubs for all the discards that he needed.

You, South, hold: Spades 8-5, Hearts K-6-3-2, Diamonds 9-7, Clubs J-9-8-5-2.

What do you do?
A—Bid two hearts. You are delighted to have the chance to speak, but you can't quite afford to make a stronger bid. If North shows another sign of life, you will carry on.

TODAY'S QUESTION
The bidding is the same as in the question just answered. You, South, hold: Spades 5, Hearts K-6-3-2, Diamonds 9-7-4, Clubs Q-J-8-5-2.

Questions and Answers

Q—Is there a species of flying spider?

A—No. Most so-called flying spiders are merely ballooning, that is, spiders that travel through the air by clinging to pieces of floating web. This habit is common to the adults of several species and the young of many others.

Q—Who first used the phrase "chip off the old block"?

A—Edmund Burke, in speaking of William Pitt, the younger.

Q—Who were the original Siamese twins?

A—This term was first applied to Chang and Eng, joined twins born in 1811 at Meiklong, Siam.

Relief Seen From Fires

Quebec — Light rain was forecast last night in the north-eastern Quebec region where three of the biggest forest fires in the province are raging. All are on the north shore of the St. Lawrence river.

"We've had a promise of weak showers and even if it isn't much it will still be better than strong winds," a spokesman for the Laurentian Forest Protection Association said.

The rain would help control the fires near Franklin, 10 miles east of Baie Comeau, and near Labrieville, site of a giant hydro-electric power project on the Bersimis river, he said. It could also douse the flames, now under control, at Ste. Marguerite, about 25 miles east of Sept-Îles.

Women and children have been evacuated from the settlement of Pointe Label on the Manicouagan river near Baie Comeau because of choking smoke. Plans also have been made to withdraw women and children from Franklin, if necessary, forestry officials said.

Every **4.19** seconds of every day

somebody buys a new

Incredible but true — this is the amazing result of the ever-growing preference for Chevrolet. Day-in and day-out, Sundays only excepted, there's a proud new Chevrolet owner every 4.19 seconds. You see them here, you see them there, you see them everywhere — enjoying the pleasures of having chosen Chevrolet. And because motoramic Chevrolet is such an overwhelming favorite this year, to a greater extent than ever before, Chevrolet leads in popularity — value — sales.

Incidentally, while you were reading this, four Chevrolets were bought!

CANNING — FARR

Walpole, Mass. — A garden reception at the home of the bride's parents, Mr. and Mrs. Gordon W. Farr, of Walpole, Mass., formerly of Needham, Mass., followed the wedding of their daughter, Miss Pauline Elizabeth Farr, granddaughter of the late Mr. and Mrs. M. J. Bennett of Lennoxville, and Mr. Richard Curry Canning, son of Mr. and Mrs. Thomas F. Canning, 601 Hunnewell Street, which took place at Christ Episcopal Church, Saturday, June 25. Bouquets of assorted white flowers were on the altar and on stands at the entrance to the chancel, and carnations and greens were pew markers.

Officiating at the three o'clock double ring ceremony were Rev. H. Hamlin Hall, rector of Christ Church, and Rev. Raymond McWilliam, pastor of the Epiphany Church, Walpole, Mass. Previous to the entrance of the bride party, Mr. Henry M. Heald sang, "O Perfect Love" and "The Lord's Prayer."

The bride was given in marriage by her father. French bow-knot Chantilly lace fashioned the bride's wedding gown, styled with a V-neck opening in the front of the bodice with stand-up collar and long pointed sleeves.

Alternate rows of nylon pleated tulle and lace cascaded down the front and back of the bouffant skirt that draped into a long train. Her fingertip veil was caught to a pleated half-hat of nylon tulle and she carried a cascade of lily-of-the-valley, stephanotis, pale pink rosebuds and ivy.

She was preceded by a matron of honor and six bridesmaids. As her honor attendant, Mrs. Alfred Pattison of Needham, wore a ballerina gown of blue dotted Swiss over blue taffeta, a large dotted Swiss picture hat with velvet streamers and daisies, and white gloves. She carried a basket of yellow daisies with baby's breath and ivy.

The bridesmaids, Mrs. James Coyle, Mrs. Duncan Anderson, and Miss Marilyn Seth, all of Needham, Mrs. Alton B. Goodwin of Allston, Miss Beverly Steeves of Montreal, Que., cousin of the bride, and Miss Barbara Box of Welland, Ontario, also a cousin of the bride, were gowned identically as the matron of honor, two in lavender, two in pink and two in aqua dotted Swiss taffeta. They carried baskets of white daisies, baby's breath and ivy. Three year old Beth Beattie of Needham, dressed in yellow dotted Swiss, white gloves, and carrying a basket of daisies, with the same flowers in her hair, was the flower girl.

Harold E. Canning of Needham was best man for his brother. The ushers were Messrs. James E. Coyle, Duncan Anderson, Terry Hughes and Raymond Barba all of Needham; Alton B. Goodwin of Allston, and William G. Farr, of Walpole, brother of the bride.

For her daughter's wedding, Mrs. Farr (Hazel Bennett) wore dusty rose lace over rose net and taffeta, dusty rose feathered hat, matching shoes, and a corsage of pink and white flowers.

Many Needham guests attended the garden reception, during which a wedding buffet was served.

For their wedding trip to Nova Scotia, the bride wore a lavender princess style silk and cotton dress with jacket to match, black hat and accessories with a corsage of pink and white roses.

On their return Mr. and Mrs. Canning will take up residence in their new ranch home on Hamilton Road, Wrentham, Mass.

Those attending the wedding from a distance were Mr. and Mrs. W. A. Bown, great-aunt and uncle of the bride, and Mr. and Mrs. Darcey M. Bennett, of Lennoxville; Mr. and Mrs. Reginald L. Steeves and Miss Beverly from Montreal and Mrs. William Box and Miss Barbara of Welland, Ontario.

Russia Interested In Canada's Asbestos Industry

Eastern Township's Mining Methods Attract Queries From Soviet Union

By ROBERT JOYCE

Thetford Mines, Que. — (CP) — Russia is nosing around Canada's fast-stepping asbestos industry, apparently bent on finding out what's going on in the green-grey mineral belt of Quebec's Eastern Townships.

In recent weeks the big Canadian mining firms which supply 65 per cent of the world's asbestos have had requests for production data and market information from Ottawa.

The queries are not from the federal government but from the office of Alexander T. Lobatchev, who heads the Soviet trade delegation in Canada.

So far the firms have referred the matter to the industry's trade association, the Quebec Asbestos Mining Association. The QAMA is still mulling it over.

Ordinarily, Canadian industry is not secretive about its achievements but in this case industry leaders are urging caution. Asbestos, a fire-resistant mineral used in housing and automobile construction, is also a key defence material used in such things as jet aircraft. In addition, Russia has emerged as a tough competitor in the post-war markets of Europe.

"It's not a question of politics but of business," says one executive. "You don't give the other fellow all your secrets."

The mining men were bitten once before. It was in the summer of 1933 that the Russians came to Thetford Mines.

Thetford, the hub of the industry, was in the midst of the great depression. Business was slack, the outlook poor and competition on world markets cut-throat.

"The Russians were giving us the works," the sales chief of one of the mining companies recalled. "They were going to any lengths to get business and were under-cutting us even in the American market. Finally things got so bad we had to tell some of our clients we'd close up if they threw any more business their way."

But the two Russians with their American guide didn't let that bother them. They came, they said, as visitors to see some of the Canadian plants and to compare notes. When they left they had hired a former top engineer at the big asbestos corpor-

ation mine and signed him to a long-term contract to help put their industry on its feet.

Charles Smith, out of work at the time, went to Russia. He wasn't impressed with what he saw. Production methods were backward and in his efforts to help them build their first modern mill he ran into all sorts of red tape. After two years he quit and came home.

No Canadian asbestos man has been there since, and no one knows today how much Russia has accomplished. The Russians who like to boast about their successes in other fields have kept mum. The companies say there hasn't been an official figure on Soviet asbestos production since 1938.

Everyone agrees Russia's output is big. The question they are almost afraid to ask here is—is it bigger than Canada's? One estimate in a United States trade magazine last year put it on a par with Canadian output for 1952, but many feel that is excessive. The fibre that is coming out of Russia indicates that they are still behind in

WEST BOLTON—

Miss Marjorie Salisbury, of Montreal, spent the week-end at the home of her brother and sister-in-law, Mr. and Mrs. Heman Salisbury.

Ernie Roberts, of Knowlton, spent the week-end with his friend, David Quilliams.

Beverly Quilliams is employed at Brome Lake Lodge, and Robert Williams with the Foster Supply for the summer months.

Mr. B. R. Mizener accompanied Mr. R. Paquette, of Waterloo, and Mr. Peter Lang, of West Shefford, to Arundel, on a business trip.

Mr. and Mrs. Leon Derby called on Mr. E. E. Perrot, who is a patient in Sweetburg Hospital.

Miss W. Routledge, of Montreal, was a week-end guest of Mr. and Mrs. Heman Salisbury.

know-how. It hasn't got the consistency of the Canadian product and even dollar-hungry Europeans hesitate to buy in bulk. One guess is that the Russians are running at about 40 per cent of Canadian output.

But the strange thing is not that Russia is back in the world market after the wartime break, but the Soviet sales program.

There are nine basic grades of asbestos distinguished by the length of the fibres, and while the average price is about \$90 a ton, it varies from around \$30 for short fibres to \$1,200 a ton for the top grade. Normally mining will produce a fairly full range of grades.

But the stuff coming into western Europe from the big mines at Bajenova in the Ural mountains and from the newer Russian mines in the Caucasus and the Sayanski mountains of central Asia is all of one general type.

The Soviets are exporting medium fibres—the sort used in asbestos cement products in the building industry. The long stuff which is significant for defence hasn't been sighted.

Whether this is a measure of Russia's armament buildup or an indication that Moscow is stockpiling strategic raw materials, the industry does not know. But mining men recall that during the Second World War when asbestos for defence had priority the industry found itself with excess supplies of many types of fibres—including the grades the Russians now are so eager to sell.

Whatever the reason, the big sales drive has the Canadians on their toes.

"The Russians may have sold only 30,000 tons in Europe against our 195,000 tons last year," one official said, "but in a market where we are already meeting competition from Rhodesia and South Africa, the Soviets spell a big difference."

"Our shipments of comparable grades to western Europe last year were 92,000 tons. They might have been higher if the Russians had stayed at home."

This is the last of three feature stories on the asbestos industry of the Eastern Townships.

This stake is TOUGH!

The stakes surveyors use to mark land boundaries have a way of disappearing—and that can mean a whole survey has to be done over again. But now there's a new all-aluminum stake that is tough for time and weather and playful animals to handle. It won't rust, rot or weaken. And two bars open out at right angles, underground, to prevent its being rooted out by even the most muscular bear. It's a Canadian invention, made of Canadian aluminum, by a Canadian company, to meet a typically Canadian problem.

A's Edge Indians 3-2; St. Johns Here Saturday Night

Meet In Burlington This Evening; Family Day To Be Held On Sunday; Hale Posts 10th Consecutive Win

Sherbrooke Indians dropped a close 3-2 decision last night to the Athletics of Burlington as lefty Jack Hale hurled his mates to victory. In the other tilt the Braves of Quebec stretched their Provincial League with a 7-6 win over St. Johns while Three Rivers downed Thetford Mines 5-3.

Hale retired eight men and issued only one walk as he posted his 10th consecutive win of the season. Dick Raymond, who went the distance for the locals, allowed eleven hits including two homers by Joe Ala and Ed Morris. Both round-trippers came with the bases empty. Rocky Chambers clouted a circuit blow for the Hartness squad in the third with no one on.

This evening the teams clash again in the American City before the Indians return home for a Saturday evening engagement with the Canadiens of St. Johns. The locals have a night off tomorrow.

The executive of the Sherbrooke Indians have set aside Sunday afternoon as "Family Day" at the local stadium and a special rate has been set. The price set for the management for the family is \$1.00 and this will entitle the complete family to take in the ball game, irregardless of the number of children.

At Quebec, ninth-inning triples by Willie Figueroa and Mike Fandozzi started the Braves on a recovery from a one-run deficit. Two international walks by losing pitcher Luciano and an error brought in the winning run.

Three Rivers' Willy Rink went

all the way against Thetford Mines, giving up eight hits, striking out six men and walking three for his second victory in as many losses. The Phillies drew seven hits from starter Schneider, who was relieved by Wisniewski in the third.

Fontana and Barclay Clash Today In Important Match; Winner May Get Nod For Fourth Spot On Squad

Canadian Press Staff Writer Quebec — Don Fontana of Toronto and Larry Barclay of Vancouver clash today in the quarter-finals of the Canadian tennis championships in a match that may go a long way toward deciding the fourth member of Canada's Davis Cup team.

Both Fontana and Barclay, along with John Swan and Paul Willey of Vancouver, have been mentioned as possibilities for the last spot on the team. Three players already have been chosen—Lorne Main of Toronto, Bob Bedard of Sherbrooke, Que., and Henri Rochon of Montreal.

Stages Comeback Charles Beats Paul Andrews

Chicago—(AP)—Veteran Ezzard Charles wiped out the cloudiness of a second round knockdown Wednesday night and came back strongly for a split 10-round decision over disappointed Paul Andrews in Chicago Stadium.

Fontana entered the quarter-finals Wednesday by crushing Jacques Giguere of Quebec 6-2, 6-2, while Barclay eased by veteran Jean Marois of Quebec 6-1, 6-3 Barclay is seeded fourth in the tournament, one notch above Fontana.

Andrews, from Buffalo, N.Y., trying to campaign in a heavy-weight class, was rocked by a long Charles right in the first round but in the second Paul shot a short left, then a sharp, short right that caught the former heavyweight king flush on the chin and sent him to the canvas on his haunches.

Today's other quarter-final match pits second-seeded Bedard against seventh-ranked Val Harit of Montreal. Bedard thumped Paul-Andre Pichette of Quebec, 6-0, 6-0, Wednesday.

Charles, 34, got up at the eight count and weathered Andrews' furious left hooks and right up-purcuts.

Harit and his attractive wife, Shirley, provided the day's top drama by eliminating two tough opponents. Harit disposed of the last foreign entry, Paul Cranis of Brooklyn, N. Y., 6-3, 6-4 and his wife followed up with a 6-3, 6-2, victory over second-seeded Louise Brown of Toronto. Harit's win assured a Canadian champion for the first time since 1950 Brendan Macken of Montreal won the crown.

Charles weighed 193, Andrews 189.

Main arrived from Toronto and quickly eliminated his two first opponents, Guy Michaud of Quebec and George Czuzka of Toronto. He goes against 10th-ranked Don Platt of Toronto today and if he wins will meet Swan in the quarter-finals Friday.

Rochon Wednesday walloped Andre DeChavigny of Quebec, 6-0, 6-0, and Willey eliminated David Piers of Truro, N. S., 6-2, 6-4.

Hanna Sladek of Montreal, top-seeded woman player, ousted unranked Eleanor Dodge of Montreal and third-seeded Connie Bowen of Hollywood, Calif., downed Ann Barclay of Vancouver. Ann Freedhoff of Toronto won the other semi-final spot.

Throat Infection For Marilyn Bell

Toronto—(AP)—The Telegram says Marilyn Bell may miss a glittering social event today—presentation to the Queen.

Marilyn, who has a throat infection, was ordered to bed Wednesday by her doctor.

Her scheduled attempt to swim the English channel July 18, sponsored by the paper, may be postponed, it is said.

Country Trot To Scott Frost

New York—(AP)—Two track records, one over the half-mile oval at Roosevelt Raceway and the other over Vernon Downs (N.Y.) six-furlong strip, failed to dislodge Scott Frost as the favorite for the \$100,000 Hambletonian at Goshen, N.Y., Aug. 3.

Scott Frost, owned by Sol A. Camp of Shafter, Calif., and driven by Joe O'Brien, established one of the marks himself as he won the \$15,000 Old Country Trot at Roosevelt in 2:03 4/5.

The time was one-fifth of a second faster than the track standard for three-year-old trotters.

Childs Hanover, representing K. D. Owen of Houston, Tex., went even faster at Vernon Downs. He stepped a mile in 2:01 for his second track record in a week.

Last week he beat Scott Frost in one heat of the Dickerson Cup over Goshen's half-mile track in 2:04 3/5. The 2:01 was the fastest time turned in this year by a three-year-old trotter.

Bobby Coates Stars On Mound As Red Sox Win

Bobby Coates weakened in the sixth inning last night and gave up two hits to the White Sox and this cost him an opportunity of joining the charmed circle of hurlers. Despite this, his mates, the Red Sox, pounded out a 24-6 decision in the Little League.

Errors were costly to the Charlie Clark-coached White Sox, no less than five being charged to the outfielders alone. Red Sox had one big inning, the fourth, when they pushed home 14 runs.

White Sox got their runs in the sixth on four walk and two hits. Coates, Early and McKelvie stood out for the Red Sox, with Ogonoski and Brooks the White Sox stars.

Rochester Beats Toronto 6-4

Rochester, N.Y.—(AP)—Rochester Red Wings made it three straight over Toronto Maple Leafs and ran their winning streak to five games Wednesday night when they beat the International League leaders 6-4 to hand them their first series sweep of the season.

Lefty Ken Johnson was handed a 4-0 lead in the fourth as the Leafs chased starter Herb Moford, but he couldn't retain this lead through the home half of the inning.

Rookie Bob Rand slammed a three-run homer, and another rookie, Jackie Brandt, drilled a two-run homer before Johnson, the loser, was relieved in the inning.

William T. Mayburn's Galphone of Dexter, Me., was a length and a half back of Scott Frost at Roosevelt.

BLANKET FINISH — The above photo was taken last night at the local track and shows six of the eight horses in the eighth race staging a driving finish to the wire. It was the closest event seen at the local for quite sometime. Joseph Renown, number two, is the winner while Sacramento, number five, edges out four and one with seven, Jeanne All, close on their heels. Number three, Doctor Brooke C, is the horse on the rail. (Record photo by Rene Lafond)

Joseph Renown Pays \$40.60

Bill M and Maryland Queen emerged the winners in the first and second races on last night's racing card at the local track and they rewarded their backers the sum of \$256.75 for the daily double. The other major upset came in the eighth race when Joseph Renown came through with a driving finish to walk off with the honors.

The fastest time of the evening was also clocked in the eighth as they covered the mile in 2:13 4/5. In the final race of the evening the cagey Dr. Charley Taylor, of Ayer's Cliff, guided his Honor's Rogue to first place in the eighth-horse field. He took the lead after the first turn and maintained the pace the rest of the way with plenty to spare coming into the stretch.

55 Players Expected To Be On Hand Tomorrow When Alouettes Commence Training; 20 U. S. Imports On Hand

Montreal — (AP) — Approximately 55 hopefuls are expected to take the field Friday when the Big Four Montreal Alouettes launch their pre-season football practices.

Word also is that Dewitt (Tex) Coulter, earlier reported to be quitting football to run his own cement business in Texas, will be back as line coach and may later go in as the team's punter, a role he capably filled last season.

The 55 coming out for the initial workout, 20 — more or less — will be U.S. imports.

The "more or less" is Gordon Malloy, speedy halfback last year with the University of Miami. Malloy signed a contract last winter to play with Alouettes but later said he intended to spend the season with Detroit Lions of the National Football League.

One import sure to return is Sam Etchevery, the passing quarterback who completed two contracts for two attempts in the winter's U.S.-Canadian football wars.

Etchevery, travelling through Chicago at the end of last season, signed a contract with Chicago Cardinals. The Alouettes brass pursued him up to New York and signed him up to play here again.

Etchevery now is employed in Montreal and says he will play with Alouettes.

Major League Pennant Race Gets Back In Action With Yanks And Dodgers Still The Teams To Beat

The major league pennant races get back to action tonight with two big questions to be answered: Can Cleveland and Chicago survive the one-two invasion punch of New York and Boston in the American? And, just how secure is Brooklyn's 11 1/2-game lead in the National?

New York Yankees top the American League by five games as the all-star game break comes to an end, while only one game separates each of the other first division teams — Cleveland, Chicago and Boston. That means the runner-up Indians who had a half-game lead on Yanks at this point in 1954, and the third-place White Sox must worry about kicking off Red Sox as well as catching the New Yorkers.

Manager Al Lopez, naming Bob Lemon (12-6) to face Tommy Byrne (7-2) and the Yanks tonight, claims his pitching staff is back in shape. It had better be. After facing Yanks for two, the Tribe must take on the bustling Boston — who have lost only six of their last 34 — for three games Saturday and Sunday.

Yanks invade Chicago next Tuesday, Wednesday and Thursday, and the Red Sox barge into Comiskey Park Friday, Saturday and Sunday in a four-game series.

The National presents a different picture. The Brooklyn's are in a slump. There's no panic yet, but a team that loses 10 of its last 19 games can't be sleeping too well-even with that 11 1/2-game bulge.

Catcher Roy Campanella insists he's ready to go back to work tonight when Dodgers take on St. Louis Cardinals at Ebbets field but manager Walt Alston doesn't want to start his big guy before his knee is healed completely.

Second-place Milwaukee, looks to be in the best position of the runners-up, perking up for recent seven and six-game streaks.

Third-place Chicago has won no more than four games straight this season. New York won six in a row — once.

Dow And Bloc-Vibre Post Wins In Senior Softball Loop; Hitting Holds Spotlight; No Claims Drops Out

Dow and Bloc-Vibre chalked up wins in the Senior Softball League last night at Dufresne Park. Dow took a 7-4 decision over Moulin Rouge, while Bloc-Vibre downed Magog House 9-5. The circuit now has been cut down to four teams, No Claims having withdrawn from the league.

Dow in their win over Moulin Rouge had nine hits, these being divided between M. Bouchard, with a double and one single, while R. Bouchard collected two singles. Proteau with a double and pitcher Carmichael with a home run completed the big boys.

Moulin Rouge hitters were Bert Morin, two singles, L. Cote a double and C. Clark with two singles. Dow in a big sixth inning, when they scored six runs, salted the game away. Carmichael was the winning pitcher, with Rodrigue being charged with the loss.

Getting six runs in the opening inning Bloc-Vibre were never in danger of losing the lead in their game with Magog House. The hotelmen did manage to come close when they added five runs in the last four innings.

Gaston Pepin blasted out a homer for the Bloc-Vibre team in the opening inning. The other hitters for Bloc-Vibre were G. Bergeron with a triple and single, R. Blais, a double and single, and Beland with a single.

Magog House big guns were Bobby Morin, two singles, L. Bouchard, two singles and C. Morin with a double. Gregoire was the winner with C. Morin the loser.
