

The Stanstead Journal.

VOL. LXXVI—No. 33

ROCK ISLAND, (STANSTEAD) P. Q., THURSDAY, AUGUST 18, 1921.

WHOLE No. 3941

International Water Company WARNING

On account of the present dry season, the use of water for sprinkling streets and lawns, or washing automobiles, wagons, etc., is strictly forbidden. It is "up to" everybody to economize in the use of water if a famine is to be avoided.

BY ORDER OF THE DIRECTORS.

HOLIDAY SAVINGS CLUB

Have you joined the Holiday Club now forming at the Orleans Trust Company?

Classes range from 25 cents to \$4 a week and call for 50 consecutive weekly payments.

The check you receive at Christmas time will look good to you, and the weekly deposit you will hardly miss.

Call at the office of L. R. Waterman, Derby Line, and let him explain fully.

ORLEANS TRUST CO.

CAR CLAPBOARDS

Our car of Quebec Spruce Clapboards has arrived and includes five grades, from \$30 per thousand up. Clapboards are scarce. This car was cut especially to our order.

Also car B. C. Sheathing and Flooring. This stock is selling for \$30 a thousand less than last year. Very clean, fresh stock, direct from the mills.

We still have plenty of New Brunswick and B. C. Shingles in stock.

Three Villages Building Association
ROCK ISLAND, QUE.

Reed's Quick Lunch

on Railroad Street

is open all night; let's go down

TOWN TOPICS

Mrs. Charles M. Moore and son of Hudson, Mass., are visiting friends in town.

To Let—Seven-room tenement on Maple Avenue. J. W. McNally, Rock Island.

Mrs. Lillian Beach Bly and her father, Mr. N. A. Beach, of Newport, were in town Tuesday.

Pearl Dorman has been spending a month with her sister, Mrs. C. H. Smith of Barton.

William Pomroy has the frame of his new house well along. The family are still at Lake Massawippi.

Mrs. James N. Kelley, son Thomas and daughter Myra from Greenfield, Mass., are visiting friends at Derby Line.

Mrs. J. T. Flint and daughters expect to move into their home soon, the necessary repairs being nearly completed.

Mr. and Mrs. W. W. Waterman and two children of Littleton, N.H., were guests of friends in town from Monday to Wednesday.

Wanted—Competent bookkeeper, to work by the hour. Address, stating experience, salary, etc., Rock Island P.O. Box No. 7.

Mr. and Mrs. John Crowe, Mrs. Moranville and daughter Irene of Newport were guests of Mr. and Mrs. Clarence Crowe on Sunday.

Mr. Lucien Godette of Lyndonville and Miss Hazel Stearns of Holland were married at Derby Line, Monday, Rev. E. L. Rice officiating. Mr. and Mrs. Godette will reside at Lyndonville.

Owing to over supply of labor for the harvest in the Canadian Northwest, the Canadian Pacific Railway has cancelled its harvesters' excursion. Several local young men were going but their plans have been upset.

Elric and Horace Cordeau motored to the Adirondacks the last of the week to visit their brother Victor, who has been undergoing treatment at a sanitarium at Gabriel, N.Y. Victor arrived home Tuesday, standing the journey very well.

The members of the farm bureaus of Orleans and Caledonia counties will hold a picnic at Lake Willoughby on Friday, August 19. Sports and games will be provided, the program beginning at 10.30. The speakers are Oliver Wilson, Master of the National Grange; Chester Gray of Missouri, Miss Grace Frysinger. All interested are invited.

The Rock Island House, formerly known as the Union House, was raided by local officers Saturday night. In the barn a truck load of 24 cases of beer was found. In the barroom the officers secured 195 bottles of beer and five bottles of light wine, bringing the total haul up to 776 bottles. These were hauled away in two one-horse loads and locked up in a cell at the municipal building. In the cases of the two places recently raided on the government road each of the three men concerned confessed and was fined \$50 and costs for a first offence.

TOWN TOPICS

Marshall L. Ames of Holland was in town Saturday.

A daughter was born to Mr. and Mrs. Roy Dyson Friday.

Miss Marguerite Scott of Montreal is a guest of Miss Helen Nason.

Col. H. S. Haskell is offering his summer place at Yocco Point for sale.

Mrs. Frank Cowan of Ottawa is a guest of Mrs. E. Brownlee, Prospect Park.

Mrs. William Wright and two daughters of Sherbrooke were in town Tuesday.

Mr. and Mrs. H. A. Rickard returned from Old Orchard Beach the first of the week.

Cows broke into Patrick Murphy's garden one night last week and nearly destroyed it.

Fred Perkins is still making changes in Dr. Frank Greenwood's cottage at Big Salem pond.

Eugene Perkins, who was severely injured in a fall from the Thompson barn, is gradually improving.

Mr. Kenneth Miltimore of Northampton, Mass., is visiting his grandmother, Mrs. Henrietta Saunders.

Mr. and Mrs. Miltimore and three sons have lately been visiting Mrs. Miltimore's mother, Mrs. Henrietta Saunders.

Mr. Henry W. Davis of Belfast, Me., is visiting his sister, Mrs. Henrietta Saunders. They had not met before for over forty years.

Chester F. Holmes has sold his Nelson Hill farm to his brother, LeRoy B. Holmes, giving immediate possession. The transfer was made Friday.

Miss Elsie Beach of the Royal Bank has been transferred to one of the Montreal branches of the bank, the transfer being in the nature of a promotion.

Dr. Hight, chiropodist, will be at the Rock Island House on Tuesday and Wednesday, Aug. 23 and 24, and at Derby Line Hotel on Thursday and Friday, Aug. 25 and 26.

Mr. and Mrs. W. E. Smith and son Kenneth, left Saturday for their annual vacation of two weeks. They will spend the time at Shelburn Falls, and Provincetown, Mass.

Mr. and Mrs. Harley Hanscomb and their two little sons left in their car Monday for a two weeks' vacation. They will visit in Sheffield, Cabot, Marshfield, and Littleton, N.H.

Miss Marion Lang, superintendent of the Girls' Club at College Point, N.Y., left today for the home of her parents in Manchester, after a week's visit with relatives and friends at Rock Island.

Mrs. William B. Herrick of Malden, Mass., an annual summer visitor here, gave a dinner to a number of friends at the Derby Line Hotel yesterday.

The guests being: Mrs. Ada Bigelow, Mrs. C. C. Bixby, Mrs. C. E. Nelson, Mrs. H. Appleton, Mrs. E. P. Ball, Mrs. W. E. Learned, Mrs. T. Frank O'Rourke, Mrs. Hattie Nelson, Mrs. Sidney H. Ball, Mrs. Benjamin P. Ball, Mrs. Stoughton, Mrs. William Griffith, Mrs. H. F. Pierce, Mrs. O. F. Caswell, Mrs. E. T. Lambertson, Mrs. Edith Forsythe, Mrs. J. W. Baxter. Dinner was followed by auction bridge.

Mrs. A. S. Boynton died at the home of her sister, Mrs. H. S. Hunter, in New York, Saturday forenoon. Mrs. Boynton's maiden name was Cornelia Gaylord, and she was born at Rock Island, July 11, 1844. Her father was Asa Gaylord, bookbinder, who, in company with Joseph Walton, printer, bound books and printed wall paper at Rock Island before most of us were born. The late Mrs. Boynton was twice married, her first husband being John Drennan of Hardwick, Vermont, who died back in the "eighties." A little more than twenty years ago, Mrs. Drennan became the wife of A. S. Boynton of Manitou, Colorado, who died some fifteen years later. After that Mrs. Boynton made her home with her sister, Mrs. Helen G. Baxter, of Rock Island, and following the death of the latter, went to New York with surviving relatives. The burial was at Hardwick, which was the home of Mrs. Boynton for many years, and where Mr. Drennan, a son, 26 years, and a daughter, six months, were all buried. Mr. H. C. Hunter and Miss Jean Hunter, nephew and niece, accompanied the body to that place.

Centenary Methodist Church
Rev. H. Mick, B.D., Pastor.
10.30 Rev. F. R. Matthews, B.A., will conduct the morning service. No service in the evening.

Christ Church, Stanstead.
C. L. Hall, B.A., lay-reader in charge.
11 a.m., morning prayer; 3 p.m., Sunday school.

HOLLAND MAN IN WRECK

Mr. Boutin, living on the Wren A. Wheeler place in Holland, now owned by Oliver Kelley, was seriously injured in a motoring accident at the curve about a mile east of Derby Line, late Saturday night. At the time, Stewart Taylor of Grand View Farm was unhitching his horse in the yard. He heard the car coming and saw the lights. Then came a loud crash and the lights disappeared. When he reached the scene, Mr. Taylor found Mr. Boutin lying face downward and unconscious. The car had struck a big maple tree. Mr. Taylor hailed a passing car and came to the east part of the village, where he secured C. E. Tabor with his truck, on which the injured man was brought to the village. After his injuries had been attended to by Doctors Taylor and Ross, he was taken to his home by G. T. Ames. While the doctors were at work over him, Mr. Boutin, in his semi-conscious state, muttered something about two other men who were supposed to have been with him when the accident happened, but no one was there when Mr. Taylor reached the scene. It was subsequently stated that the missing men were George Gray and John Patelle of Holland. The car of the former is said to have been in the yard at the Kelley place when Mr. Ames arrived there with the injured man. The car was the worst wreck ever brought to the Ames garage. It was a Ford and had struck the tree almost squarely on the front of the radiator. The engine was forced back through the front end of the body. The forward seat was smashed, body warped, chassis twisted, even the rear axle being bent up by the thrust against the driving shaft.

Also Demonstration on Canning by the Women's Institutes of Stanstead County

One of the attractions at Stanstead County Fair at Ayer's Cliff on Aug. 23, 24 and 25 will be the exhibit and contest of canned fruits, vegetables, meats and jellies which is being prepared by the six different clubs of the Women's Institute in the county.

The exhibit will be held in the main building, and should be of interest to all. Each club will have a separate booth for its collection and the best arrangement and best collection will determine which club will be awarded first prize. But each of the other clubs will draw a prize, for there are six prizes ranging from \$15 to \$5.

The judging will be done by a demonstrator from Macdonald College, who will also give a demonstration on canning on Thursday in the main building.

Another attraction will be the sales table of useful and fancy articles, which are being donated by the members of the clubs and friends. The money raised from the sale of these articles will be used for school fair work in the county.

The committee in charge will be very grateful to anyone wishing to send any article for this table, not later than Tuesday morning, Aug. 23, to the county building, Ayer's Cliff, or to the Women's Institute which has clubs at Massawippi, Ayer's Cliff, Wabigoon, Tomifolia, Hatley and North Hatley.

Surely no better work can be encouraged than school fair work and this year owing to the new rules laid down by the Department of Agriculture. Let each one feel interested this fall to help the Women's Institutes of Stanstead County, financially, to do more next year.

GRIFFIN

Mrs. Wyman and family erected a monument in the Griffin Hill Cemetery to the memory of the late Uriah A. Wyman the past week. Mr. William M. Haselton of Beebe did the work.

Mr. and Mrs. W. H. Embury, Mr. and Mrs. C. S. Harris and Miss Helen Embury of Magog were guests Thursday and Friday of last week at the home of Mesdames Stone and Embury.

Mrs. S. G. Drew spent last Thursday with Mrs. Thomas O'Rourke at Derby Line, Vt.

Mrs. C. E. Severance and little nephew of St. Johnsbury, Vt., were visitors at Mr. S. G. Drew's from Thursday until Tuesday.

Mrs. H. C. Bown and son Thomas of Fitch Bay were guests of Mrs. Stone, Mrs. Embury and Mrs. Brevoort-Bullis Wednesday, Aug. 10.

Avila Duval and Jean Mathieu, St. Ephrem de Beauce, were guests at Mr. Olivier Fluet's last week.

Genevieve Taisey, who has been with her grandparents, Mr. and Mrs. H. D. Taisey for a few weeks, has returned to her home in Beebe, her mother having returned from the hospital.

GARDEN PARTY AT EAGLE POINT

Eagle Point was the scene of a large and festive gathering on Saturday afternoon, the occasion being the garden party and tea given for the benefit of the Wales Old Folks Home at Richmond, Que., the furnishings for which are being supplied by the ladies of Sherbrooke. The affair was most successful, both socially and financially, being under the patronage of the ladies prominent in the summer colony of Cedarville, Lake Park and Eagle Point, with Mrs. B. C. Howard of Howard Island as chairman and chief director. The total receipts, after deducting all expenses, were \$160, and in this case it seems that the men are also entitled to much credit as they all worked nobly for the success of the day. The grounds, which are admirably adapted to such gatherings, were made still more beautiful with the tasteful decorations. The tables were attractively trimmed with flowers and ferns, golden rods being the predominating flower and color. Flags of both nations waved overhead. The refreshments, consisting of a variety of sandwiches, cake, ice cream, tea, coffee and lemonade, home-made candy, and the food sale all found ready patrons among the visitors from Derby Line and nearby towns, as well as numerous cottagers. Good music was also a pleasant feature, and added to the gayety afternoon and evening.

COMMUNITY CHAUTAUQUA

The annual week of concerts and lectures, which has been a feature in the Three Villages for several years, began Monday with popular music from the Syracuse Variety Quartette, Arion Entertainers, and a very fair-minded talk from Col. Evans on reasonable solutions possible for present unhappy conditions in the business world. Tuesday The New Englanders made a bright impression with their attractive personnel, voice, violin, piano and reader, pretty girls.

The Arions were also well liked, boy soprano of excellent quality, violin, harp and piano and a young lady whose versatile accomplishments included rapid clay modelling and ventriloquism. Brush, the Great, was most successful in amusing a tent full on Tuesday evening. The International Concert Co., for us well named, gave vocal and piano music of good quality Wednesday afternoon and evening, tenor, bass and soprano with male accompanist. Both voices and selections were worthy of the applause and appreciation received. The accompanist is a good pianist and varied the numbers with a few really good selections on the piano. Strickland Gillilan, humorist, is a really good talker, mirth provoking, really what he is labeled. When next we meet verse and prose from his pen it will recall a pleasant hour spent in his company.

CASSVILLE

A miscellaneous shower was given in honor of Miss Lila Carter at the home of Mrs. Ralph Libby on Saturday. About 50 guests were present, ranging in ages from three months to over eighty years. On Miss Carter's arrival she was escorted through an aisle of yellow and white crepe paper held by two little girls, the Misses Naomi Libby and Francis Curtis, to a chair draped in white. On being seated two other small girls, Elinor Libby and Marjorie Rudd, came in drawing an express cart nicely trimmed. The little wagon was loaded with gifts of china, glass, silver, linen and handwork which were opened by Miss Carter and passed about the room for the other ladies to admire. Then a very nice lunch, consisting of rolls, salads, coffee and tea, ice cream and cake, was served. Mesdames Arthur Curtis and Richard Byers poured. Before leaving, the bride-to-be expressed her thanks to those present and they wished her much happiness in her new home which will be in this place. The hostess, Mrs. Ralph Libby, deserves much credit for giving such a pleasant afternoon to so large a company.

On Thursday of last week a quiet wedding took place at the home of Mr. and Mrs. Ralph Libby, when Miss Ruth Libby and Mr. Morgan Knowlton were united in marriage. Only the near relatives and one friend were present. After the ceremony Mr. and Mrs. Knowlton left in their auto for a long trip to the seaside.

On Wednesday of last week Mr. Morgan Knowlton, Miss Lucia Knowlton and Mr. Luke Knowlton were calling on friends in this place.

As Rev. Mr. Hopper is spending his vacation at Georgeville, Rev. Mr. Boyd of Magog will occupy the pulpit next Sunday.

Miss Booth of Sheffield is visiting her friend Miss Lila Carter.

BAILIFFS TAKE SEIZED CAR

U. S. Officers Deny Report That Same Was Being Used for Joy-Riding.

Considerable commotion was caused here on Friday evening by the "kidnapping" of a McLaughlin car recently seized by United States Customs Officers. While passing through the village of Derby Center with a large quantity of intoxicating liquors at 2.30 on the morning of July 30, M. H. Bernier, proprietor of the Grand Union Hotel, Victoriaville, Quebec, was overhauled by United States officers. The car and booze were seized, and Bernier was taken to Newport jail. Two women, said to have been sisters of Bernier, were turned over to the immigration officers for deportation. At the time of his arrest Bernier was alleged to have attempted to bribe the officers, and it is also claimed that this act constitutes a more serious offence than that of "rum-running." At the hearing, bail was fixed at \$5,000, which was secured and Bernier returned to Victoriaville. Subsequently, it is stated, the Bernier car, which had been brought to Derby Line, was used by the U. S. officers for certain short trips into Canada. Friday afternoon Lawyer C. C. Cabana and Bailiff J. H. A. Genest of Sherbrooke came to Rock Island, accompanied, it is said, by Bernier's son Emile. Some time afterwards H. G. Locklin and an American officer, appeared with the Bernier car. Here Genest jumped on the running-board and ordered Locklin to stop. This the latter refused to do. Genest then applied the brake and stopped the car. Genest being unable to dispossess Locklin of the car, Cabana, with his own car, went after Bailiff W. A. Abbott. In the meantime a crowd of considerable proportions, had gathered at the scene, which was on Wyman street, near the Jondro factory, and, as might be expected some of the more interested ones became rather noisy and if their demands had been complied with the U. S. official would have been "thrown in the river."

After the arrival of Abbott the two bailiffs, assisted by a few from the crowd, removed Locklin from the car. It is not claimed that the bailiffs used unnecessary force, but it is alleged that some of their more enthusiastic supporters, gave vent to their feelings, not only in bombastic language, but by the use of their boots.

The U. S. officer returned to Derby Line, amidst much hooting, and the car was taken to Sherbrooke. It has been alleged that Locklin was using the car for joy-riding, but this statement is emphatically denied at the American customs house, where it is stated that the car was being used on strictly customs business, by order of a superior officer. It is also understood that Locklin, in sticking to the car until forced out, was acting under instructions of his superior.

Regarding the present legal status of the case there is some difference of opinion. American officers claim that the car is the property of the U. S. government and may be demanded by that country through its representative at Ottawa, but locally, at least, a different view is held on this side of the line.

DEMICK'S MILLS, VT.

Mr. and Mrs. H. W. Demick spent a few days in Quebec last week.

Mr. and Mrs. J. G. Ross spent a few days in Newport recently.

Mr. and Mrs. F. L. Wheeler and little granddaughter spent several days in Derby and West Charleston last week.

Miss Hazle Wark of Island Pond spent last week in town.

Mrs. Melissa Lyons of Minnesota spent a few days with Mrs. Harriett Webber last week.

Mr. and Mrs. F. O. Newport spent a few days with Mr. and Mrs. J. G. Ross last week.

Elder M. L. Ames, Mr. and Mrs. A. E. Jacobs and son Kenneth are attending campmeeting at Alton Bay.

Mr. and Mrs. Eben Wilcox and little son of Newport Center spent a few days with Elder and Mrs. C. Wilcox this week.

Miss Faith Crossman of Hardwick, who has been stopping with Mrs. A. E. Jacobs for a time, has gone to camp meeting at Alton Bay.

Mr. and Mrs. Earl Jacobs and two children Mrs. Stuart George and two children are attending the campmeeting at Alton Bay.

Mr. and Mrs. Carl Gray and two children of Island Pond were in town last Sunday.

Mr. and Mrs. Boverille of Montreal spent a few days with Elder and Mrs. M. L. Ames last week.

Miss Peris Kilby of Newport Center is spending this week with her sister Mrs. C. Wilcox.

BEST FEED FOR BABY CHICK

Careful Feeding Necessary in Order Not to Upset Digestion or to Check Growth.

(Prepared by the United States Department of Agriculture.)

Baby chicks should not be fed for from 24 to 36 hours after hatching, and will not suffer if given no feed until the third day. The yolk of the egg which is absorbed by the chick when hatching furnishes all the nourishment required during that time. After the third day they should be fed four or five times daily for the first week or ten days, but they should be given only what they will eat up clean each time. Overfeeding will do more harm than underfeeding. Greater care must be used not to overfeed young chicks that are confined than those that have free range, as leg weakness is apt to result in those confined.

The first feed should consist of Johnnycake or hard-boiled eggs mixed with stale-bread crumbs or pinhead oatmeal, using a sufficient amount of the latter to make a dry, crumbly mixture. These feeds or combinations of feeds may be used with good results for the first week; then gradually substitute for one or two feeds daily a mixture of equal parts of finely cracked wheat, cracked corn, and pinhead oatmeal or hulled oats, to which may be added a small quantity of broken rice, millet, rye, and charcoal, if obtainable. This mixture makes an ideal ration, say poultry specialists in the United States Department of Agriculture. If corn cannot be had, cracked kafir corn, rolled or hulled barley may be substituted. A commercial chick feed containing a variety of grains may be used instead, if desired, and can be bought from most feed dealers.

How to Make Johnnycake.

Corn meal, 5 pounds.
Infertile eggs (tested out from sittings or from an incubator), 6.
Baking soda, 1 tablespoonful.
Mix with milk to make a stiff batter and bake thoroughly.
Note.—When infertile eggs are not available, use a double quantity of baking soda and add one-half pound of sifted meat scrap.

When the chicks are from 10 to 14 days old a dry-growing mash composed of the following should be given:

2 parts, by weight, of bran.
2 parts middlings.
1 part corn meal.
1-2 part, or 10 per cent, sifted meat scrap.

When the chickens are 8 or 10 weeks old, add 1 part of ground oats and increase the meat scrap to 1 part. This

Ready for its First Meal of Johnnycake or Hard-Boiled Egg.

mash may be placed in a hopper, where it will not be wasted, and left before the chicks at all times.

As soon as the chickens are old enough and will eat whole wheat, cracked corn, or other grains, the small-sized chick feed may be discontinued and the larger-sized grain fed instead. In addition to the grain feed, they must be supplied with grit, oyster shell, and charcoal at all times, and the better way is to place these in a hopper, hanging it in a convenient place where the chicks may help themselves. If chicks are kept in confinement, they must be furnished a liberal supply of tender, green feed, like lawn clippings, lettuce leaves, and such other things as may be available.

Whenever possible, however, chicks should be given grass range, when they will supply their own green feed, catch bugs, worms, etc. Chicks that are allowed to run on a grass range are usually strong and thrifty and will grow much more rapidly than those that are kept in confinement. In addition to other feeds, the chickens' growth may be hastened considerably by giving them sour milk to drink. Chickens are very fond of milk in any form and will eat and drink a liberal supply of it. It may be fed either sweet or sour, but the latter is more desirable. Sour milk will help to keep chickens healthy, and is one of the best things that can be fed to promote rapid growth and development. When milk is fed the amount of meat scrap in the mash may be reduced one-half or left out entirely.

POULTRY NOTES.

Don't expect 200-egg pullets from 100-egg hens. Remember that "like begets like."

Keep lime always in reach, plenty of gravel or grit and a good dry dust bath for the fowls.

Excessive fatness leads to a suspension of egg production and predisposes to certain kinds of disease.

"Findings Is Keepings."

"The appellate division of the Supreme court of New York, has decided that 'findings is keepings,' even for a copper," writes the New York correspondent of the Philadelphia Ledger. "You see, Policeman Nicholas J. Majeski was off duty when he picked up an envelope lying on the sidewalk in Third avenue. Lucky pick! Envelope contained fourteen \$50 Liberty bonds. That was in April two years ago, and being an honest 'cop' he turned them in. No owner turned up and recently Nick went around to the lost property bureau and put in a claim for them as their finder. 'If you were a citizen you could have them,' said his superior officer, 'but you are just a cop and the police rules and regulations say the proceeds from unclaimed property found by members of the force goes to the police pension fund.' Nick hired himself a lawyer, made a fight for the bonds and the law stands back of him."

Church Bars Collection Plate.

A new method of meeting church expenses is told by the London Morning Post, which reports that collections have recently been entirely abolished at the parish church of Fulham, in London, except for special occasions for objects not connected with the parish.

Church expenses will be met out of a special fund which has been formed and to which every member of the congregation is asked to contribute a definite sum weekly. The experiment is said to be the first of its kind so far as the Church of England is concerned, but the vicar of Pritwell, who was secretary of last year's church congress at Southend, has for some time had a very successful special fund at his church, if he has not entirely abolished the ordinary collections.

Snake Adopts Mouse.

A white mouse placed in the cage with a South American boa constrictor as food has been adopted by the snake, according to Edwin A. Osborne of No. 9518 111th Street, Richmond Hill, owner of the unusual family. The mouse has made a nest of straw in the coils of the boa and Mr. Osborne declares the most amicable relations exist between the two.

The snake recently crushed to death a large rat in twenty-four seconds. The reptile refused to eat the rat, however.—New York World.

The Horse in Painting.

No real interest was taken in the horse until Van Dyck's time, he and Rubens going more for it than all previous painters put together. Rubens was a good rider, and rode nearly every day, as, I doubt not, Van Dyck also. The Venetians, as was natural, painted him little and ill; but he becomes important in the equestrian statues of the fifteenth and sixteenth centuries, chiefly, I suppose, under the influence of Leonardo. — "Modern Painters," Ruskin.

VERMONT ITEMS

The B. F. Moore & Co. factory of Newport is closed down for two weeks.

The Groton Times appeared from its new home in Woodsville, N.H., last week.

There are ten mild cases of small pox in the hospital for the insane at Waterbury.

Cabot is celebrating "Old Home Week" this week, combining it with Chautauqua.

Leon J. Bennett, while east, made extensive repairs on the Bennett homestead at West Charleston.

The Continental Pipe Manufacturing Co. is locating in Montpelier. The company has a capital of \$400,000.

Editor Charles Luman Read of the Richmond Journal, who died recently, was born in Franklin, June 18, 1851.

There is prospect of the building of a summer hotel at Perkins Landing, on Lake Memphremagog, the coming season.

Gov. James Hartness was at Camp Devens, Mass., Monday for inspection of the Vermont National Guard, which is there in training for two weeks.

Mrs. Margaret Griffin of Barre died recently at 89 years of age. Mrs. Griffin was born in Ennis, County Clare, Ireland, and came to America 63 years ago.

A hall 68 feet wide and 200 feet long, is being built on the state fair grounds at White River Junction, to accommodate the automobile show to be a feature of the fair this season.

I. R. Kent, associate editor of the Youth's Companion of Boston, with his family, is spending the month of August in Calais. Mr. Kent was a graduate of Goddard Seminary, Barre.

Vermont will not get the contemplated hospital for disabled soldiers, Rutland, Mass., having been selected as the location. The Vail estate at Lyndon was being considered for the purpose.

West Fairlee held its annual farmers' fair and picnic, Wednesday, August 10. Gov. James Hartness was the speaker of the day. These town fairs are gaining in popularity, and are a healthy incentive for competition in farm and shop production.

Rev. Fraser Metzger of Randolph is demonstrating that the motion picture machine may be made of very practical use in church work. Even the song service is rendered more effective by doing away with hymn books and flashing the hymns on the screen.

VERMONT ITEMS

Rutland has just completed 5,300 lineal feet of cement road in 60 days.

The average July temperature in Vermont was 75.4 degrees. The highest average in 38 years.

Trout fishing in the streams of the state ended Monday, June 15. In ponds it ends September 1.

The Fairbanks Scale Works of St. Johnsbury have reduced their working hours from 32 hours to 24 hours.

In an automobile trip from Vermont to California the steepest grade was found between Woodstock and Rutland.

Major John Creed a graduate of Norwich University of Northfield, has been detailed as military instructor at the University of California.

West Charleston had a very successful Chautauqua and signed up for another season. It cost the 30 guarantors \$5.87 to square up for 1921.

The late Justice Haselton gave the visiting Nurses' Association of Barre \$1,000. This was his only public bequest.

Twenty-five Vermont boys are now buried in Bellan Woods, France. The number includes several from Caledonia and Franklin Counties, but none from Orleans.

The barn on the Thomas Nadeau farm, between Evansville and Barton, was struck by lightning and burned recently. Sixty tons of hay and some grain were burned.

August fourth Mr. and Mrs. G. W. D. Reed of West Charleston and Dr. and Mrs. R. Gatchell of Beebe spent the day together, it being the birthday of the doctor and Mrs. Reed.

Two London, England, men have been in the state for apples. They want 5,000 carloads for the London market. Vermont's apple crop is about 60 per cent of the average.

The "hash house" of the University of Vermont is to be converted into a cafeteria. It is not stated whether hash is to be eliminated or just what the change is to be, other than in the name.

Mr. and Mrs. E. W. Barron and Mr. and Mrs. R. P. Webster of Barton are on a motor trip through New England. They attended the pageant at Plymouth, celebrating the landing of the Pilgrims.

The Farm Bureau drive in Orleans County for a \$10 annual fee is meeting with favor. Over 200 farms have been signed up, and the drive has just begun. Orleans should have at least 600 members.

The "fall of the smoke stack" is the refrain just now, rather than the rise of it. A large stack was blown down by the wind recently in Newport but was replaced as this is one of the stacks of the state that is in use.

Ernest W. Gibson of Brattleboro is the Colonel of the First Regiment Vermont National Guard, quite recently elected. Col. Gibson was one of the candidates for congress in the second district in the last election.

The famous Orleans house of Crafts-bury, which has been closed for over a year, has been opened to the public again. It has been an excellent hostelry for over 30 years and Vermont has none too many of this kind of inns.

Mr. and Mrs. I. O. Weymouth of West Charleston celebrated their silver wedding, Tuesday, August 2. About 100 neighbors and friends were present. Many beautiful gifts were left in this home and splendid refreshments were served.

The undertakers of the state in annual session at Montpelier recently decided to do away with Sunday funerals. Hardly anybody would object to the application of this scheme to the seven days of each week. Very few court their service. Perhaps some elixir of life will be a real competitor of these gentlemen. The snail-like pace of longevity is now their only competitor.

Congressman Frank L. Greene of the first district, has been mentioned by the Bennington Banner as the successor of Senator C. S. Page. Col. Greene's ability and general efficiency make him the logical first choice for senatorial honors without any nomination. Senators Dillingham and Page are each 79 years of age, but we expect they will each respond to the "call" while in the harness.

The nervous condition of the occupant of the sanctum of the Springfield Reporter is almost lamentable. The recoil of its salvos of the past year upon state conditions, has utterly shattered the nervous system and the ultimate end is very problematical. Such extreme touchiness is very uncommon. Facts should precede statement that is to appear in cold type, or the aftermath may cause trouble and concern.

East Charleston seems doomed to a continual round of chastening. Some hound of a sneak thief has stolen all the bulbs and wire from the village bandstand. Cheer up neighbor, get some more wire, sockets and bulbs and keep up the band concerts. Even music has saved the day more than once, and it may put your village back on the map. Ask some of your service men what spirit of song did for them on the French front.

VERMONT ITEMS

Speaker of the House Frank S. Billings of Woodstock, Vt., gave an address at the church in Westmore, Wednesday evening. His topic was, "The Legislature of 1921."

Vermont spent \$1,535,063.50 for highways and bridges during the year ending June 30, \$177,910.87 of this was Federal money. The fund from automobile taxation was \$627,000. \$967,513.08 was spent for schools during the year. These two items are 48 per cent of the total expenses of running the state. The increase for the first year of the Hartness regime was \$627,612.90.

The pastor of the Federated Church at Wilder, Rev. Leland G. Chase, is doing a splendid work in connection with the papermakers strike in the International Paper Co.'s mills. His popularity as a pastor and his spirit of fairness has been a great assistance in adjusting the differences between the employers and operatives. Cooperation always does wonders for individuals, towns, factories and nations. The unselfish pastor is always a blessing to whatever he touches.

The annual meeting of the Vermont Ayrshire Club was held the past week at the Industrial School at Vergennes. The following officers were elected for the ensuing year: President, C. W. Wilson, Vergennes; secretary-treasurer, C. N. Smith, Brandon; auditor, F. C. Fiske, Burlington; executive committee, the officers and W. H. Jackman, Vergennes and F. B. Catlin, Randolph. This committee was authorized to appoint a vice president from each county. The next meeting will be held with Scott Hammond of Brandon.

The comments by the state press upon the finding of the still at Willoughby, caustic and otherwise, were of interest. The plea of the defence for Richardson, the owner of the outfit, is that he had wife and children dependent upon him, was an employee of the Fairbanks Scale Company, etc. These were good and sufficient reasons for keeping out of the toils. The fact is that he was out of a whiskey vending family, and was never taught but to honor the calling. He has always been a faithful pupil, and perhaps in these facts lie an excuse for leniency. The element of the community who are defending booze, show remarkable ingenuity in dodging the law. The location of this still on the west side of Lake Willoughby, only accessible by boat, is a very marked example of this ingenuity. What this kind of people want, is to get off, to be allowed to try another scheme, and a light sentence simply contributes to their plans.

AUDINWOOD'S CONDITION POWDERS

The best on the market for keeping the horse in condition.

These powders are given with great advantage when the horse is in a run down condition, lacks strength etc., prevent swelling of the legs, scratches, yellow water, colic, and worms.

These powders are put up in two pound packages with full directions. Price \$1.00.

I also put up a colic cure, guaranteed to cure colic if given before bloating sets in. No horse-owner can afford to be without a bottle in the barn.

A two-pound package of condition powders and a bottle of colic cure sent prepaid to any address upon receipt of \$2.00.

DAIRY HINTS

FACTORS IN PRODUCING MILK

Series of Studies Conducted by Department of Agriculture in Western State.

(Prepared by the United States Department of Agriculture.)

What does it cost to produce milk? This is the question that has brought increasing concern to each dairyman. In answer to it, the United States Department of Agriculture, through the dairy division, conducted a series of studies to give dairymen reliable information on this subject. These studies were begun in 1915, but the most recent upon which any data have been published was begun in 1917, in Skagit county, Washington, about 70 miles north of Seattle. The report of this study is contained in Department Bulletin 919, "Unit Requirements for Producing Milk in Western Washington."

A study of the results given in the bulletin shows that at the time of the study 56.4 per cent of the total cost of producing milk at the dairies investigated was for feed and bedding; 23.5 per cent for labor; 17.6 per cent for other costs, and 2.5 per cent for depreciation. The requirements for

Pasture Plays an Important Part in Cost of Producing.

producing 100 pounds of milk during the winter were: Concentrates, 29.4 pounds; dry roughage, 92.9 pounds; succulent roughage, 143.3 pounds; bedding, nine pounds; human labor, 1.9 hours; horse labor, .01 of an hour; other costs, \$0.576. During the summer, milk could be produced at much less cost, there being required a comparatively small amount of concentrates.

During the two years covered by the study, 44.5 per cent of each year's income from milk was obtained during the winter. During the first year records were obtained on 17 herds having an average size of 31.3 cows, with an average annual production of 7,369 pounds of 3.74 per cent milk per cow. During the second year 18 herds, 15 of which had been in the first year's work, had an average of 28.6 cows and produced an average of 8,323 pounds of 3.59 per cent milk per cow. From each 100 cows in the herds during the two years, 55 freshened during the winter six-months period, and 42 during the summer season, while three cows did not calve during the year. Nearly one-half of the cows freshening dropped their calves during the months from February to May, inclusive.

Most of the milk in this section is sold for condensing purposes, and is delivered by motor truck to large condenseries. All the herds selected for study were representative of dairy conditions found in that section.

In Western Washington the pasture plays a very important part in milk production, according to the bulletin. With cool weather throughout most of the summer, plenty of moisture, and a rich soil, there is abundant pasture until late in the fall. During the pasture season almost 60 per cent of the milk for the year was produced, and at one-third of the yearly feed, bedding, and pasture cost. The annual pasture charge per cow amounted to 1.1 acres or \$23.04. Such items as veterinary fees, medicine, disinfectants, and other items, amounted to \$1.45 per cow per year. It was found that the number of hours required to care for a cow did not differ materially between the summer and winter seasons. However, due to the increased flow of milk in summer, the time required to produce 100 pounds of milk in that season was materially less in summer than in winter.

DEPENDABLE Sires Pay Best

South Carolina Breeder Gives Methods of Raising Calves That Will Develop Well.

Methods of raising good calves that will develop well and show no signs of runtiness are given by a South Carolina live-stock owner in a statement to the United States Department of Agriculture. The farmer advises:

1. Use purebred sires which have behind them an established record—no guesswork.
2. Use purebred milk cows which are bred for production and which have proper points, such as deep udder, well-spaced teats, broad flanks, deep abdomen, etc.
3. Feed only warm milk while calves are young. Gradually begin feeding proper grain after the second month. Do not allow them too much grass. Give plenty of pure water, and never allow exposure to rain or extreme cold wind.

Quebec Liquor Commission RESTAURANTS

RESTAURANTS located in Cities and Towns and equipped to serve 50 meals at a time, may sell Beer and Wines at meals, in the dining room only, provided they have secured a permit from the Commission to that effect.

Outside of Cities and Towns, no Restaurant can be given a permit for the sale of Beer and Wines.

ARTICLE 31—CLAUSE 3—"Any person in charge of any Restaurant recognized by the Commission as serving meals, may, during any such meal taken by a traveller or a boarder, as the case may be, sell him, by the glass or by the bottle, wines or beer, which must be consumed on the premises during the meal, by himself and his companions, —provided, however, that a permit therefor has been granted to such person by the Commission upon payment of the duties prescribed by this act, and that such a permit be in force.

ARTICLE 41—CLAUSE 4—"It is forbidden for any holder of a permit for the sale of beer and wines during meals, to sell the same between ten o'clock in the evening of any day and nine o'clock in the forenoon of the following day (solar time).

Bottled Beer and Wines sold by the Restaurant Keeper to his guests or boarders, must be served in the original bottles in which they have been delivered to him.

It is forbidden to add any alcoholic liquor to wine or beer.

No strong liquor can be sold in Restaurants.

The use of the so-called "rubber-sandwich" constitutes an infraction of the law; so does the sale of beer with sandwiches, etc., not ordered by nor paid for by the customer, and may cause the cancelling of a permit or prevent its renewal the following year.

Quebec Liquor Commission

This advertisement is not being published to advance the sale of any alcoholic liquor, but to acquaint the people with this new law and secure their co-operation in its successful enactment.

NOTE: The Commission desires to inform the public that all of its employees carry the necessary means of identification. Any person presenting himself without this official identification may be considered as an impostor.

The next advertisement will deal with the sale of BEER IN TAVERNS.

LIVE STOCK NEWS

PLAN USING PUREBRED Sires

Campaign Being Waged in Kansas to Replace Scrubs in All Classes of Farm Live Stock.

(Prepared by the United States Department of Agriculture.)

The use of scrub sires is costing farmers of the Sunflower state \$16,000,000 annually, say live-stock specialists of the United States Department of Agriculture. Less than one-tenth of the farms in Kansas are using purebred sires of any kind. Surveys were made in 20 representative counties with results showing the number of farms using purebred sires ranged from 8.3 to 11.6 per cent. Many communities and townships reported no purebred sires in use.

In one county surveyed there were two townships in which not a single purebred bull, stallion, ram, or boar was reported. In several counties where good purebred herds were found neighboring farmers were still using scrub sires. A large per cent of male offspring had been sold to go to

A Scrub Cow Is Not Worth Her Keep.

other counties or states. In some communities an active breeder had placed purebred sires on the farms of many neighbors. For the most part farmers have failed to appreciate the advantages of using a purebred sire to increase the marketing returns from their live stock.

These conditions, announced R. W. Kiser of the extension service, Kansas State Agricultural college, are responsible for the active better-sire campaign now being waged in 20 counties and which will be extended to include all counties within the year. In every county object lessons on the value of the purebred sire in improving farm live stock are to be found, and often on adjoining farms. Meetings arranged by the county agent through the county farm bureau and sponsored by the local live-stock improvement associations are held on these farms and the people attending see for themselves the difference between scrub sire and purebred sire offspring.

County agents directed by A. L. Clapp, the assistant county agent leader in charge of the project work, and assisted by the specialists of the extension service, are planning for intensive follow-up work in those counties where the campaign was conducted. Associations are being organized for the purpose of advancing the cause of better live stock. Bull clubs, cow clubs, calf clubs, pig clubs, boar clubs, sheep clubs, and stallion associations are in demand in every county.

High land values, the market demand for stock of good quality, the greater earning power of well-bred stock, are responsible for activities in replacing scrub sires in all classes with purebreds.

GENTLENESS IS GREAT HELP

Loss Due to Digestive Troubles Caused by Excitement and Fear Can Be Avoided.

The practical value of treating live stock kindly is discussed by a Virginia live stock owner in a letter to the United States Department of Agriculture. "All cattle buyers," he remarks, "know how great is the 'drift' in shipping cattle. Very much of this loss is due to digestive troubles caused by excitement and fear incident to travel."

"Keep all live stock as quiet and make them as gentle as possible and your feeding costs will be noticeably reduced. Try this suggestion with one litter of pigs."

"It will abundantly repay any live stock breeder," he adds, "to spend a great deal of time going out quietly among his animals and letting them make the advancements. He will be surprised how soon he can begin to put his hands on them. After they realize his hands are not to be dreaded they will soon enjoy gentle rubbing or scratching. When animals are sheltered from annoying or exciting occurrences they digest food better and it takes much less to keep up normal growth and fat production."

IDEAL FOR PORK PRODUCTION

Field of Green Corn and Soy Beans Furnishes Supply of Succulent and Nitrogenous Feed.

Soybeans replace high-priced protein concentrates, and a field of green corn and soybeans affords ideal conditions for pork production by supplying succulent and nitrogenous feed in addition to selfed corn under sanitary conditions. Soybeans make better forage before the beans are fully matured, and frequently a farmer is justified in turning hogs and sheep into the corn before either crop has matured, for the sake of the forage, even though he may sacrifice some corn and soybeans.

NEW GARAGE

We have opened a garage in the Allard Shop top of Foundry Hill where we are prepared to do all kinds of Overhauling and Repairs, Vulcanizing Tires, Casing and Tubes. Batteries repaired and re-charged. Call; you will find us busy in overalls, but we will be glad to see you, and we guarantee satisfaction.

RUM-RUNNING TACTICS

While some jubilation has been ap-
parent over the "kidnapping" of a
seized automobile at this place on
Friday evening, August 12, it should
not be understood that thinking peo-
ple, even on this side of the line, sym-
pathize with the "kidnapping party" or
sanction the noisy demonstration on
Friday evening. In order to reach a
clear perspective all the circum-
stances should be understood. There
are other things besides the offence
for which the Bernier car was seized
which should be taken into account.
In Holland, Vt., on the night of De-
cember 22, 1920, Genest, the bailiff
who came here with the "kidnapping
party," was himself caught while run-
ning booze into the United States.
With him was one O. Arcouette, a re-
turned soldier, and the car used be-
longed to Cabana, the lawyer in the
present case, according to information
furnished by the United States officers.
It is further stated that those of the
crowd who indulged in abusive lan-
guage and did the kicking were men
who had been caught in the game of
rum-running. Without question the
U. S. officer acted unwisely in entering
Canadian territory with the seized car,
and some are inclined to regard the
kidnapping as a huge joke, but the
motive behind the whole affair should
not be lost to sight. That is no joke.
Canada cannot afford to furnish a
base for this onslaught against the law
of a friendly country which has de-
cency and morality behind it. To
prevent national disgrace both
Dominion and Provincial governments
will have to get down to business and
provide for active, earnest cooperation
with the U. S. officers, who are being
harrassed on all sides by this outland-
ish traffic. In this connection it is
refreshing to note the recent action of
the Attorney-General of Ontario, who
has ordered the seizure of all liquors
leaving the Canadian shore on the
Essex border by any mode of convey-
ance other than a public carrier. The
spectacle of a Canadian officer per-
sonally participating in the rum-run-
ning game should be rather humili-
ating to the National pride.

MCCONNELL

The last rain on Sunday did a lot of
good to pastures and late crops be-
sides extinguishing the destructive
fires which were raging.

A fire which someone had started
spread to the farms owned by Mr. G.
D. Chapman and his son-in-law, A.
Forand, and came very near destroy-
ing their buildings, so near that—the
men being away at the time—some
neighbors went and moved their
household effects to a place of safety,
but luckily the fire was checked in
time to save their homes, although it
did a great amount of damage by de-
stroying the woodland containing
quite an amount of lumber.

Mrs. E. J. Parnell returned to her
home on Tuesday, after spending a
few days at the home of her son, E. L.
Vaughan, and family, of "Maple
Heights," Compton, accompanied by
her grandson, Herbert L. Vaughan.

The friends of Mrs. H. L. Wingate
(née Lizzie Vaughan) will be inter-
ested to know that while leading a
horse to unload hay at her home in
Mercer, Me., she fell, and sprained a
knee very badly. She can now get
around only with a crutch and cane,
and is liable to be disabled for some
time. Mr. H. L. Wingate's only
brother was recently killed in an au-
tomobile accident, leaving a young
wife and an aged mother.

Mr. and Mrs. A. S. Bacon recently
took a trip to Fitch Bay and Brown's
Hill, accompanied by their daughter
Florence.

Mayor and Mrs. Gauthier visited
their daughter Alice who is a novice in
a convent in Sherbrooke.

Mr. and Mrs. James Buzzell and little
daughter, Mr. and Mrs. J. S.
Humphrey and son Ralph of Magog
were recent guests of Mr. and Mrs. L.
H. Parnell. Mrs. P. Hebert of Sha-
winigan Falls and Miss Pearl Parnell
of Ascut were recent callers at the
same place.

AYER'S CLIFF

Special pictures in front of grand
stand during Ayer's Cliff fair each
night. Tuesday, Aug. 23, Wm. Fox
presents Wm. Farnum in "The Riders
of the Purple Sage," story by Zane
Grey; also Mack Sennett Comedy and
Fox News reel. Wednesday, Aug. 24,
Wm. Farnum in "The Rainbow Trail,"
story also by Zane Grey and the latter
a sequel to "The Riders of the Purple
Sage." Also Fatty Arbuckle, in "The
Life of the Party," in five parts.
Thursday, Aug. 25, Eugene O'Brien, in
"Worlds Apart," also a detective story
and a Prizma colored reel. Admission:
Children 15c, adults 25c. Note—watch
out for the Butterfield pop corn ma-
chine; also hot roasted peanuts and
fresh salted peanuts. T. Henry Hart-
ley, proprietor.

WEST HOLLAND

Mrs. Alva Johnson is still confined
to her room, the result of a fall.
Mrs. Riley Worth is ill with scarlet
fever.

Carl Johnson and Glenn Tice went
in the harvesters' excursion to the
North-west.

Chester Holmes of Nelson Hill has
sold his farm to his brother, L. B.
Holmes, of Derby.

Mr. and Mrs. A. E. Cass are visiting
their daughter, Mrs. Irvin Johnson of
Nelson Hill.

Mr. and Mrs. George Moulton and
little son Hector, and Miss Jessie
Graves, motored from Stowe, Satur-
day, to spend the week-end with Mr.
and Mrs. W. Graves.

Mrs. O. L. Kidder recently fell down
the cellar stairs, hurting her head and
side.

By the breaking of an iron ladder on
Monday, Aug. 8, Eugene Perkins,
while working on Andrew Thompson's
barn, fell from the ridge-pole to the
ground a distance of about 50 feet. Dr.
Taylor found no broken bones, but it
will be a long time before Mr. Perkins
is able to do any work. He is a little
better at this writing.

Mr. and Mrs. H. L. Perkins of Stan-
stead, and Mr. and Mrs. Fred Perkins
of Derby Line were in town Wednes-
day.

E. W. Stearns has returned from
New York.

Edward Judd of Nelson Hill passed
away suddenly Saturday morning,
after an illness of about 40 minutes.
He had been in very poor health for
several months, but had been able to
be out some the past three months.
He was a resident of Holland for many
years, before he purchased the Hussey
farm in Derby, later moving with his
son Ernest to the Boyle farm on Nel-
son Hill, where he died. After prayer
at the home, the funeral service was
conducted by Rev. E. L. Rice at the
Congregational Church, Rock Island,
Monday at 2 o'clock. He leaves a wife
and several children to mourn his death.

Much sympathy is felt for Mrs. Fred
Flynn, who lost her mother, Mrs. E.
Gray, whose maiden name was Luna
Ramery.

GEORGEVILLE

The Ladies Aid held their annual
sale on the grounds of Mr. and Mrs.
Alex. Clark, a lovely and commodious
spot. The sale was a great success in
every way, and the ladies wish to
thank all those who gave assistance
so generously, especially Mrs. Clark
and friends who gave afternoon tea
which was a delightful addition to the
sale, and added quite a little to the
finances. The proceeds amounted to
\$170.00.

Mrs. Oral Wilson, Miss C. Wilson
and Mr. Dufresne left on Sunday for
their home in Concord.

Mr. W. E. Peasley is having repairs
made on his house here.

Mrs. C. G. Burnet and daughter,
Miss Verna, spent a few days last
week with her sister, Mrs. Davidson.

Mrs. Frank Rexford entertained her
sister, Mrs. Hull, and family from
Enosburg over the week-end.

The Buckeye Fishing Club are
breaking camp this week and return-
ing to Ohio, very much pleased with
our beautiful lake.

Mrs. Wm. Newman and children of
Newport visited her parents, Mr. and
Mrs. Warren Achilles, last week.

Mr. and Mrs. Langdon Pearce re-
turned on Saturday to their home in
Chicago, after spending a short time
with Miss Pearce at their camp.

NEW BOSTON

Mr. Hill and Mrs. George Wallace
returned from Sherbrooke Thursday
evening, with little Rodney Hill, who
is recovering.

Mr. Thibault and daughter were out
for an auto ride with his brother, when
a serious accident happened, resulting
in the little girl being badly cut about
the head.

Mr. and Mrs. Clarence LeBaron and
son Edson were at Morgan the past
week visiting his brother, George
Cross.

Mr. Austin Smith, who has been
sick, is much better.

Harry Whitecher has gone West on
the harvest excursion.

Morris and Harry Goldstein, from
Richmond, Virginia, are visiting their
aunt, Mrs. Michael Rosenberg, and
family.

Mr. Bachelder of Magog visited at
the home of his nephew, A. A. Bachel-
der, last week.

LEADVILLE

Mr. and Mrs. Silas Blair and son
Clifton of Sudbury, Ont., were recent
guests of Mr. and Mrs. C. R. Tinker.

Mrs. C. W. Blair and daughter Flora
of Granville, Que., were in the place
Sunday, visiting Mrs. Blair's mother,
Mrs. Cynthia Coburn.

Mr. Angus Eryou of Granville was
here recently calling on friends.

Mr. D. W. Coburn and daughter
Mary of Newport Center, Vt., called
on his mother, Mrs. Cynthia Coburn,
recently.

Mr. and Mrs. White of Newport City
were recent guests of his cousin, Mrs.
W. O. Litchfield.

Miss Louise Richer of Montreal was
a recent caller at C. R. Tinker's.
Mr. and Mrs. J. M. Tinker of Prov-
ince have been visiting relatives here.

FITCH BAY

Mr. and Mrs. A. W. Blodgett of
Egypt, Mass., and Mr. and Mrs. W.
Blodgett and family of Newport,
Vt., have been the guests of Mr. David
Loney and Miss Clara Loney the past
week.

Mr. and Mrs. H. H. White, Miss
Gertrude White, Mr. A. Finney and
Mr. and Mrs. Sloan of Lyndonville,
Vt., who have been spending the past
two weeks at Camp Welcome, have
returned to their homes.

Mrs. Melinda Heath of Cassville was
the guest of relatives here recently.

Mr. George Gregory is able to be
out after his recent serious illness.

Mrs. McDougall and little daughter
Annabell of Stanstead have been the
guests of Miss Clara Wyman the past
week.

Mr. and Mrs. D. J. Carr and son Al-
len of North Montpelier, Vt., were
week-end guests of relatives here.

Mr. and Mrs. H. H. Dolloff have re-
turned to Sherbrooke after spending
their vacation at "The Pines," where
they were guests of Miss E. M. Dolloff.

Mr. and Mrs. James Clark and
daughter, Miss Olga, have returned to
Brattleboro, Vt., after spending the
past two weeks with relatives here.

Mrs. Harry Minor was in Montreal
on Wednesday and Thursday of last
week.

Mr. and Mrs. F. H. Rider, Madelyn
and Hamilton Riders spent the week-
end in Sherbrooke.

Mrs. H. R. O'Hara of Toronto, Ont.,
is the guest of Rev. R. W. Carr and
Mrs. Carr at the Congregational par-
sonage.

Rev. C. E. S. Bown, who has been
spending a five-weeks' vacation at La-
douce, Que., and New Carlisle, Gaspi,
is expected home this week, and will
conduct the service in St. Matthias'
Church on Sunday at 7.30 p. m. Sun-
day school will be held as usual at
10.15 a. m.

BEAUTY SPOT AT STANSTEAD

We understand that the Butters cot-
tage, formerly occupied by the late
Miss Laidlaw and Miss Carruthers, has
been sold. The owner is to be con-
gratulated on coming into possession
of one of the prettiest old-fashioned
English gardens in the neighborhood,
a garden which has been an inspira-
tion and joy to countless garden-lov-
ers, and has started numerous other
gardens into being, with the roots and
seeds given so generously. Connect-
ing, as it does, with Broadview gar-
dens, they are a beauty spot and
formed one of the principal attractions
of the popular Red Cross Tea House
that did such good work during the
war years.

"A man shall ever see that, when
ages grow to civility and elegance,
men come to build stately sooner than
to garden finely, as if gardening were
the greater perfection."—Lord Bacon.

WAYS MILLS

Mr. and Mrs. W. G. Wheeler of
Newport, also Mr. and Mrs. Clarence
Lyons of Rock Island were at Mr. F.
A. Daniels' on Sunday.

Mr. and Mrs. I. E. Thompson at-
tended the funeral of Mr. George Hill
of Baldwin's Mills on Saturday.

Mr. and Mrs. W. L. Oliver, Mrs.
Oscar Oliver and Miss Agnes Oliver
spent the week-end at St. Johnsbury,
Vt., and Highwater.

Mr. and Mrs. F. D. Gilbert have
been spending a few days in Dunham.

Mr. and Mrs. Bachelor were at F. D.
Gilbert's Tuesday.

Dance in the Union Hall, Way's
Mills, Friday, August 26. Bishop's
orchestra. All come.

Messrs. Norman Wheeler and Le-
land Hermann of Newport were at
F. C. Daniel's on Friday.

MANSONVILLE

On Tuesday, weather permitting,
there will be a bee at A. Sargent's
Cemetery, Highwater, to improve the
appearance of the burying place of
their honored dead.

The White boys are finishing hay-
ing with a bumper crop secured from
their farm.

Claud Abel, W. Santaw and W. Per-
kins, Jr., have gone to Winnipeg for
harvesting.

Rev. L. E. Roy has returned home
from visiting Macdonald College ac-
companied by his daughter Miss Mary
Roy, teacher.

Wm. R. Oliver, H. W. Boright and
J. N. Warner, tenants on C. Gilman's
farm, have twelve and eighteen acres
of fodder corn which stands seven
feet high.

MARLINGTON

Kenneth Lee went to the Northwest
for harvesting; also Almond Bullock
and Chellis Bacon of Granville.

Mrs. Cora Scott of Lineboro and
Mrs. J. A. Bacon of Granville were
calling in the place Friday.

Mr. T. A. Woods is on the sick list.
Among those who took the trip to
St. Albans were Mr. and Mrs. M. Til-
ton and Mrs. Hastings, Mr. and Mrs.
A. L. Guerin and family, Mr. and Mrs.
J. F. Wright and family.

BORN

FRAPPED—At Griffin, Tuesday, August 9,
1921, a son to Mr. and Mrs. E. Frappied.

DIED

FOSS—At Beebe Plain, Vt., Aug. 8, 1921, E. M.
Foss, aged 73 years, 11 months, 25 days.

IN MEMORIAM

In loving memory of our dear son and
grandson, Reginald Smith, who was drowned
Aug. 3, 1921, aged 7 years.

One precious to our hearts has gone.
A voice we loved is stilled.
The place made vacant in our home
Can never more be filled.
Our Father, in his wisdom, called
The boon his love had given,
And though in earth the body lies,
The soul is safe in heaven.
Mother, Grandmother, Grandfather.

LOST—Radiator Cap, Oldsmobile. Finder
please leave at Journal office. 41-1

LOST—July 24, large tan Foxhound, white
toes and white breast. Answers to name
of Hunter. Information would be appreciated
by Roy Sheldon, Fitch Bay. 41

BORDER THEATRE

Program, week of Aug. 22 to 27

Monday and Tuesday, Aug. 22 and
23—Paramount presents Roscoe (Fat-
ty) Arbuckle, in "The Life of the
Party," and the third chapter of our
serial, "Daredevil Jack," with Jack
Dempsey.

Wednesday, Aug. 23—Wm. Fox pre-
sents Wm. Farnum in "The Riders of
the Purple Sage," in 7 parts. Also
Mack Sennett comedy, "Wedding
Bells."

Thursday, Aug. 25—Wm. Fox pre-
sents Wm. Farnum in "The Rainbow
Trail." Both of these stories are by
Zane Grey, and as "The Rainbow
Trail" is a sequel to "The Riders of
the Purple Sage," our patrons ought
to see these two fine pictures. Also
Fox News.

Friday and Saturday, Aug. 26 and
27—Selznick presents Eugene O'Brien,
in "Worlds Apart," also another Wm.
Flynn detective story, with Herbert
Rawlinson, and one of those beauti-
ful "Prizma" Color Pictures.

Coming—Aug. 29 and 30: Charles
Ray in "Egg Crate Wallow."

Aug. 31 and Sept. 1: Elaine Ham-
merstein in "The Daughter Pays."

Sept. 2 and 3: Priscilla Dean, in
"The Virgin of Stamboul."

BUTTER-KIST POPCORN

You'll know the minute you taste
it. It's popped scientifically—kist
with pure, creamy butter at just the
right time—then the flavor is toasted
clear through the corn.
"Take a carton home tonight!"

Also Hot Roasted Peanuts
Border Theatre, Rock Island, Que.

The home of the \$1.00 00 popcorn machine.

FOR SALE
1 Heavy Clyde Horse, about 1800; good
worker, sound, 10 years old.
BUTTERFIELD & CO.

FOR SALE
Three 36 inch Flower Urns, \$10 each or \$25.00
for the set.
C. G. TILTON,
Three Villages Ball ng Ass'n,
Rock Island.

CHILD WELFARE CONTEST
Conducted by W. C. T. U. at Ayer's Cliff Fair

The babies are to have an opportunity of sharing in the great game of competing for prizes at the Stanstead County Agricultural Exhibition, Ayer's Cliff. The contest is open and free to all, through the efforts of the W. C. T. U. The mothers are invited to bring baby to the County Building on Aug. 25, and they will be welcomed by the committee in charge. The prizes will be awarded to the winners when the contest is over, and will be given with a whole-hearted desire to awaken greater interest in the greatest crusade of today, that of the "Child Welfare" movement. Competent doctor and nurses in attendance. Every effort is being made to make this baby contest the leading attraction of the fair, not only to the mothers and their babies, but to all those who are interested in our country welfare. Mrs. E. C. Davidson, Provincial Supt.

MICKIE SAYS:

NORTH HATLEY

Mr. L. M. Reed was taken to the Sherbrooke Hospital on Saturday for treatment.

Mr. S. McRay has gone to the Scott Fish and Game Club at St. Jean de Dieu, Temiscouata Co., Que.

Do not forget the Baptist Circle sale on Wednesday at ten o'clock in the park. If weather is unfavorable, the sale will be held in the church basement.

There was a band concert on Monday evening.

Miss Edith Stephen of New York is a guest of Mrs. Moody Merrill.

Miss Mildred Young is visiting friends in St. Johnsbury, Vt.

Mrs. Frank Gosnell of Baltimore has arrived for his vacation.

Mr. and Mrs. W. W. Reed left on Saturday on a motor trip, to be absent a week.

Mr. and Mrs. J. Groves Contant have returned to Montreal after spending some weeks here.

Mr. and Mrs. M. F. Longeway of Beebe spent the week-end at Mr. D. E. Seymour's.

Mr. Carl W. Reed has taken a position as bookkeeper in Mr. J. B. Reed's flour and feed mill.

The formal opening of the Canadian Bank of Commerce took place on Saturday afternoon, Aug. 13. Mr. A. R. Virgin, manager, and staff, composed of Messrs. J. S. Robertson, P. Martin and G. A. Rucannan, received the guests which numbered over four hundred. The building has been entirely remodelled and redecorated. The lower story comprises the offices and staff apartments. The large and commodious vault is fitted up with safety deposit boxes which are a new feature in country branches. This branch is now a credit to the institution of which it forms a part. The feature of the program was the unveiling of a bronze tablet in memory of the four men who volunteered for service in the great war while in the employ of the bank at the local branch.

Rev. E. E. Marggraf, in his address, referred to the noble part taken by the men of the Canadian Bank of Commerce, seventeen hundred and one of whom enlisted for active service, and two hundred and fifty-eight of those were called upon to make the supreme sacrifice. Of the four whose names appear on the roll of honor at this branch, one gave his life for King and Country and another is again on the local staff, namely, Mr. J. S. Robertson. At the conclusion of Mr. Marggraf's address, the Union Jack was removed from the tablet by Miss Kathleen Stewart-Patterson, daughter of Supt. E. L. Stewart-Patterson of Sherbrooke, revealing the names: Sergt. T. H. Bowden, M.M.; Pte. E. W. Kathen; Staff Sergt. J. S. Robertson; Gunner Wm. Vradenburg (killed in action.) Rev. Mr. Marggraf then led in a short prayer, after which he asked Rev. Father H. Houle, pastor of St. Elizabeth Church, to give an address, which he did in his native tongue, and which was very appropriate. The rooms were tastefully decorated with foliage, maple leaves predominating, and beautiful flowers of many varieties. At the reception which followed, Mrs. E. L. Stewart-Patterson and Mrs. Wm. Spier of Sherbrooke poured tea and coffee. Among the out-of-town guests were Mrs. F. P. Virgin of Concord, N.H., Supt. and Mrs. E. L. Stewart-Patterson, Chief Inspector and Mrs. Wm. Spier, Sherbrooke, Manager and Mrs. F. A. Johnston of Ayer's Cliff, Manager and Mrs. L. H. Thomas and party of Coaticook, and many others.

HATLEY

Mr. and Mrs. William Jones of Ayer's Cliff spent Friday at the home of her brother, Mr. O. H. Glidden.

Miss Muriel Goff of Leed's recently spent a few days in town visiting friends.

Mrs. C. P. Young has returned to her home, "Highland Place," after a most successful operation at the Sherbrooke Hospital.

Miss Helen Ayer spent a few days with her friend, Miss Hazel Gibson, at Massawippi.

Mrs. Elsie Smith has returned to her work in Regina, Sask., after spending the past two months with relatives and friends here.

Mr. and Mrs. Henry Haines, accompanied by Miss O. H. Glidden and Miss Florence Glidden motored to Sherbrooke on Wednesday.

Mr. and Mrs. Leo Beuczyk accompanied her brother Mr. Preston Schoolcraft, in his car from their home in Waterloo, Ont., to Hatley, where they visited their parents, Mr. and Mrs. Lewis Schoolcraft.

Quite a number from here attended the Farmers Picnic at the Experimental Farm on Wednesday.

The Misses Mabel Glidden and Mildred Webster spent a few days at the home of Mr. Geo. Woodard, Derby Line, recently.

The Girl Guide meeting took the form of a hike on Saturday, when a number of girls and their friends went to White Rock, after an hour of picnic was held in the woods.

The Guides will give a demonstration of their skill in cooking, by giving a food sale on Mr. O. H. Glidden's lawn on Saturday afternoon, Aug. 20, three until five.

BEEBE

Mr. and Mrs. Charles Hall of Montgomery were here last week to attend the funeral of her uncle, Edwin Foss.

Mr. and Mrs. Carroll Brainerd are the happy parents of a baby boy. Congratulations.

Carroll Brainerd has moved his business from the Beebe garage to the rear of C. R. Twombly's buildings, and is prepared to do the same business as before. He has installed a telephone in the new garage.

Mr. Robert Dexter of Madapossess, Mass., is visiting Mr. and Mrs. Carlton Twombly and Mrs. R. S. Smith.

Dr. and Mrs. R. A. Gatchell and son George Gatchell of Bennington, Vt., attended a lawn party at Spring Valley Farm last Friday afternoon. There were seventeen present.

Mrs. Frank Haselton entertained friends from Coventry last Saturday.

George Gatchell returned to his home in Bennington last Monday, after spending two weeks with his parents, Dr. and Mrs. R. A. Gatchell.

Rev. A. V. Allen of Detroit, Mich., preached at the Baptist Church last Sunday afternoon. Mrs. Allen and children were also present. Mr. Allen was a former pastor. Their many friends were much pleased to meet them again.

Fred Rickard got his face and nose badly hurt in an automobile accident last week. He was attended by Dr. Gatchell.

Wright Rockland got a leg broken last week Wednesday, while at work. He fell from a wagon and in some way the horse stepped on the leg and broke it. Dr. Gatchell was called and gave first aid. Wright was taken to the Sherbrooke Hospital.

Little Josephine Wells and Alice Haselton had a double birthday party last week Monday at the home of the latter. A lot of merry little girls were there to enjoy a good time. They were presented with some nice little gifts. Dainty refreshments were served.

Mrs. Harley Doane of Newport Center and Mrs. Don Whipple and children of Coventry visited their mother, Mrs. Armstrong, last week.

N. B. Austin of Ware, Mass., visited Mrs. Armstrong recently.

On Sunday Morning worship will be resumed at 10.30. Rev. E. L. Rice of Rock Island, preacher. Sunday School at 11.45. Evening worship at 7.30, Pastor of the Church. Visitors are cordially invited to attend.

MASSAWIPPI

A most beneficial rain fell Saturday night, giving a decidedly better aspect to the country. Afterwards it became so cold that a frost was feared, but it did not materialize.

The regular meeting of the Institute took place Wednesday, Aug. 10, at the usual hour and place. In the absence of the president, Mrs. Gibson, vice-president, took the chair. The minutes were read, and several bills voted paid. The proceeds from the ice cream social were given as \$20.00. A basket tea was served to 25, at the close. Plans for the sale table were made. All articles donated for same may be left at the post office, Saturday afternoon, to be packed and sent to the fair, Ayer's Cliff, Monday.

Rev. S. W. Boyd of Magog will hold the service here next Sunday in place of Rev. A. E. Hopper. It is hoped there will be a large congregation. All are invited by Mr. Hopper to attend. Last Sunday the rain prevented the usual number.

Saturday evening Mr. and Mrs. T. N. St. Dizier entertained a "home party." Mr. and Mrs. D. Davidson of Libbytown were among the guests.

Last Thursday evening several invited guests were entertained by Mrs. E. Whitcomb and Mrs. P. Whitcomb at "The Willows" in honor of the birthday of Mr. Percy Whitcomb. Refreshments were served towards midnight.

Mr. and Mrs. Gayley have gone to Moose Jaw to visit his brothers near there, one of whom has within a year or so settled there. He was from England and they had not met for many years. Mr. and Mrs. Gayley expect to be absent a few weeks.

Miss Iva Caswell and the Misses Edith and Edna Wheeler, from Bulwer, were guests of Mr. A. Wheeler on Sunday.

Mr. and Mrs. Alba Wheeler and family from Sherbrooke were callers here on Sunday.

Mr. and Mrs. E. Coates of Canterbury were callers in town on Tuesday, while taking a motor trip with Mr. and Miss Mayhew.

LOVERING POND

Mr. and Mrs. Arthur Tryon are the happy parents of a baby girl.

Mrs. Mabel Drew of Derby Line, Vt., is spending two weeks with relatives here.

Mr. A. W. Peasley and family, also Mr. James Peasley, Jr., of Cowansville, Mass. are visiting his sisters, Mesdames Fred and Warren Ketchum.

Miss Iona Drew has returned home after camping a week with friends at Ayer's Cliff.

Mrs. N. Heath of Casville is visiting relatives and friends for a few weeks.

Mrs. L. West is spending a few days with her son, Mr. W. E. West.

MAGOG

Mrs. Copp and daughter Frances from Pawtucket, R.I., are visiting relatives and friends in town.

Miss Mabel Roy of Richmond was a recent guest of Mrs. G. A. Colburn.

Miss Mildred Norton of Montreal was a recent guest of Miss Vivian Connors.

Mr. Bruce McFarlane of Montreal is spending a few days with his sister, Mrs. Moffatt.

Mr. Percy Wagland sailed for England on the Empress of France, Aug. 12.

Mrs. R. M. Blount returned to Manchester last week, after spending two weeks with Miss F. Merry.

Dr. Geo. Somers of Proctor, Vt., was a recent guest of his aunt, Miss F. Merry.

Mr. and Mrs. J. B. Oliver recently spent a few days at the home of his brother in Lisbon, N.H., returning on Monday.

Mr. and Mrs. W. P. Buckland motored to Montreal last week and spent a few days with friends.

Miss Myrtle Manning left on Friday for Nashua, N.H., and will visit other places before returning to her school duties in Montreal.

Miss Effie Shonyo of Saskatoon recently spent a few days at the home of her uncle, Mr. H. J. Shonyo. Miss Shonyo has gone to New Brunswick to visit her brother John.

Mrs. L. Roy of Richmond was calling on friends here last week.

Mr. and Mrs. T. A. Vaughan and Miss C. Randall of Ottawa arrived in town on Sunday and are looking up old friends. They made the trip by motor.

Dr. and Mrs. West left on Saturday for Niagara, where they will take a two weeks' holiday.

Miss Hattie Manning of Waterloo was a recent guest of her aunt, Mrs. C. Manning.

Miss Irene Boyd and Miss MacMartin of Montreal were recent guests of Mrs. J. H. Shonyo.

The lawn social held at the home of Mr. and Mrs. R. R. Merrill on Monday evening was a social and financial success. There was a large attendance from the surrounding sections. Proceeds \$52.

Mr. R. R. Merrill and family left on Tuesday for a motor trip to Quebec.

TOMIFOBIA

The canned goods for exhibit at Ayer's Cliff fair are to be left at the office of the Farmers Warehouse, Monday afternoon, Aug. 22. Pickles and jellies in the usual tumblers are eligible.

The Women's Institute are packing a box of food for the Sherbrooke Hospital lunch counter. Anyone else who is interested in helping this worthy enterprise is invited to bring or send their food to Vancouver & Howard's store, Monday, Aug. 29.

MAGOON'S POINT

Mr. and Mrs. Roy Eryou are the happy parents of a baby girl.

Dr. R. A. Gatchell of Beebe, Vt., was in the place Sunday and Thursday of last week.

Mr. and Mrs. Antoine Cournoyer and son were week-end guests at Fairfax.

The recent rain has gladdened the hearts of the farmers, but it was not enough to help the water supply much.

CANADA'S GREAT EASTERN EXHIBITION

On to SHERBROOKE!

—Everybody's going!

SHERBROOKE FAIR

Aug. 27th. to Sept. 3rd.

E. W. Farwell. L. J. Codere. Sydney E. Francis.
President. Vice-President. Secretary.

The Daylight Store

The Big August Coat and Suit Sale

is going good. We call special attention to the assortment of \$35.00, \$30.00 and \$25.00 Coats that we have in the sale for \$17.50. Many good Fall Garments at greatly reduced prices.

Lot No. 2—Every \$15.00, \$18.00 and \$20.00 Coat, not many left, but good value at \$12.50.

More Summer Dresses, Porch Dresses, House Dresses, \$1.98 to \$12.50.

New Bed Blankets at one-half of war prices. Blankets at \$1.75, \$2.25 and \$2.50 that are August Bargains.

New Flannelette at 15c. yard.

More Shoes in the August Shoe Sale, 98c. to \$3.98. Over 100 pairs of Shoes that are right in style and suitable for August and September wear.

Caswell & O'Rourke Store Co.

"A MEAL IN A MINUTE"

Merely turn the switch, and almost before the table is set, a piping hot meal awaits you. A meal cooked by that perfect, even temperature which has made the

ELECTRIC RANGE

the favorite of expert cooks.

No drudging over a hot stove, coal dust flying everywhere. Instead—a cool, clean kitchen—a saving of hours of labor and a very material saving of money when you come to total it up.

The cost of installing the Electric Range is very slight—and it quickly pays for itself many times in the saving of fuel, time and labor.

BETTER ROADS

SAFETY FIRST FOR CHILDREN

Many Requirements Furnish Variety of Topics for Essays and Oral Discussion.

(Prepared by the United States Department of Agriculture.)

The many requirements for safety will furnish a variety of topics for school children's essays and oral discussion. The dangers of railroad crossings at grade, the economic justification for abolishing them, the importance of an unobstructed view up and down the track as a vehicle approaches, and the disadvantage of sharp turns, etc., are suggestive subjects. Similarly there might also be mentioned the questions raised by street intersections and turns. In every town there are many crossings where the autoist's view is unnecessarily limited by fences, shrubbery, or buildings; or where sharp curves with limited visibility invite serious accidents. Guideposts, markers, and other signs for the most efficient guidance of traffic through thickly settled communities also are part of the bigger and more inclusive topics of the economic importance of safety and guidance—the actual money value of human life and of accident prevention.

Another question, in solving which the engineer and economist will need the help of enlightened public opinion (and this enlightenment should start in the public schools), is that of the relation of the public highways to railroads and canals. The advantage of long hauls by rail and short hauls by motor truck; feeding into main terminal points by radiating systems of highways; a division of the transportation burden by parallel systems of water, rail, and road transportation, are some of the subdivisions of this general heading.

This listing of topics is not intended to be complete or exact, but merely suggestive. Those which refer to construction could best be utilized when construction work is in progress in the vicinity of a school. Many of the other topics may be studied from maps, of which the students might be required to make tracings or free-hand sketches showing the particular features for which emphasis is desired, or regarding which the exercise is being written. State highway departments often feel the need of a better popular understanding of the problems of road construction, and their officials would doubtless co-operate in a hearty manner. Looking ahead, it is easy to see an actual shortage of men qualified to carry on the work of highway development, so rapid is the growth of the good-roads movement. Highway in-

Small Boy's Method of Crossing a Stream.

struction in high schools offers opportunity to state highway departments to develop a body of future citizens equipped with a better understanding of the need for roads, and the problems likely to be met in building them, and, at the same time, to stimulate interest in the profession of highway engineering.

State departments and county engineers can help teachers (1) by assigning members of their staffs to deliver occasional lectures, simple in text and preferably illustrated with lantern slides; (2) by furnishing photographs of highways and construction work for classroom or reference use; (3) by assisting teachers in the explanation of work in progress which can be inspected by classes of students. Many states also issue bulletins or reports which are valuable for reference.

Determine Road Cost.

Some of the things which determine the cost of road construction are: Cost of right of way; cost of clearing and grubbing; amount and kind of material to be excavated and amount of filling to be done; amount of ditching for surface drainage and tiling for sub-drainage; number and size of stream crossings necessitating culverts or bridges; cost of securing and placing material.

Indorsed by President.

The Lee highway project has been indorsed by President Harding as an appropriate memorial to the southern leader, born in Virginia 114 years ago.

Cost of Maintenance.

The annual cost of road maintenance in New York state, which includes merely the lighter repairs, aggregates about \$3,500,000.

Paved Too Thin.

Too many roads are paved with good intentions and nothing more.

TOOLS NAMED FOR ANIMALS

Not Always Easy to Trace the Connection, Though Sometimes It Is Plainly Apparent.

There are quite a number of tools which are named after animals, and it is interesting to find out the connection between the instrument and the animal after which it is named. In some cases the connection of ideas is evident and it is obvious why the tool is so named, observes a writer in *London Answers*.

The "monkey wrench," for instance, which is a spanner with a movable jaw, capable of adjustment, can, by a little stretch of imagination, be thought to possess some likeness to a monkey's profile and, true, it deals with "nuts."

The "donkey engine," which is capable of lifting great weights, may be considered similar in disposition to the animal noted for its stubbornness and strength. We can see how the mechanical "crane" got its name. In the distance it looks somewhat like that long-necked and long-legged bird.

It is also natural that in a country like the United States, where large herds of cattle are found roaming wild, the wedge-shaped iron frame in front of a locomotive should be called "cow-catcher." The carpenter's "horse" is naturally so called because it has to carry so much on its back.

The derivation of the tailor's "goose" is not very evident, but no doubt some long-forgotten, imaginative and poetically minded tailor, in a burst of inspiration, called his smoothing iron a "goose" and the name has been used ever since by his more practical successors.

The trivet used to support a vessel over the fire, with its long, thin legs, is naturally called a "spider," and it is obvious why a spiral instrument or iron screw is called a "worm." Also we can all see why the large iron poker which, being made red hot, is used for lighting fires, is called a "salamander."

It is not easy, however, to see the connection between a crab—a flat, clumsy animal—and the pillar used as a winch; and why a capstan is called a "crab" is difficult to imagine.

Again, the bar of iron sharpened at one end and used as a lever for raising weights is named a "crowbar," for no evident reason, and I would gladly take my hat off to the man or woman who can explain to me the derivation of the name "buck-saw," "catboat" and "bullwheel."

Flying Gas Cloud.

A cloud of glowing gas has been discovered flying through space at a speed of 1,125 miles per second.

Readers may be relieved to know that it is traveling away from us, but even if it were coming our way there would be nothing to fear, as many thousands, perhaps millions, of years must elapse before it could reach us.

How it manages to remain intact while traveling at such a dizzy speed is a mystery. Equally mysterious is the manner in which it was able to get up such a speed.

The most probable explanations are that it has been shot from some gigantic sun belonging to a universe of stars far beyond those we can see, or that it is a gradual accumulation of gas or gases which ultimately will be formed into stars such as we see around us at night.

Copper and Calcium in the Air.

It is reported that Prof. Hartley of Dublin has photographed, in ordinary air, spectroscopic lines due, among other things, to copper and calcium. It is believed that they arise from fine dust consisting of these substances, projected into the atmosphere by road vehicles, and by smoke and the sparks of trolley wires. It is from the latter that copper is supposed to come. The quantity of copper thus found is excessively slight. Indeed it is only the delicacy of the tests that renders it appreciable. Lines due to lead, carbon, iron, manganese, nickel and magnesium have also been detected, but the quantity of these substances is even less than that of the calcium and copper, the lines of which are always prominent in the spectra.

Wireless Storm Warnings.

American mariners are to receive storm warnings by wireless from all parts of the world under arrangements perfected by the shipping board with most of the high-power radio stations in different countries. Managing agents and masters of shipping board vessels were notified that the warnings would be sent broadcast on schedules furnished by the ship's radio operators. Because of the number of vessels still on the seas without radio equipment, the warnings are to be passed on from ships receiving them by other means when such vessels are sighted.—*Scientific American*.

He Was Engaged.

On the Friday evening when the great strike had been planned to take place an old lady got into an omnibus. She handed the conductor her fare and said, anxiously: "Are you coming out this evening?"

The conductor shook his head and answered with great politeness: "I'm afraid I can't, mum. I've got to get home to my old woman."—*London Tit-Bits*.

The Good Old Days.

Do you know that it wasn't so long ago that when a clothier sold a pair of pants the crease had to be pressed out before the customer would wear 'em? The good old days were days of baggy knees and patched seats, but there was considerable attendance upon the prayer meetings then.—*Houston Post*.

KEROSENE WILL HOLD INSECTS IN CONTROL

Mites and Lice Seriously Affect Health of Fowls.

Specialists of Department of Agriculture Recommend Thorough Applications of Some Preparation to Interior of House.

(Prepared by the United States Department of Agriculture.)

Mites, as well as lice, are troublesome and harmful to poultry. They do not live upon the birds like lice, but during the day hide in the cracks and crevices of the roosts and walls of the house and at night they come out and get upon the fowls. Mites suck the blood, and if allowed to become plentiful, as they certainly will if not destroyed, will affect seriously the health of fowls, and consequently their ability to lay eggs. Specialists in the United States Department of Agriculture recommend thorough applications of carbolineum, kerosene, or some of the coal-tar preparations sold for this purpose, or crude petroleum, to the interior of the poultry house.

Commercial coal-tar products are more expensive, but retain their kill-

"Delousing" His Brood Coop With Kerosene.

ing power longer, and the cost of treatment may be lessened by reducing with an equal part of kerosene. Crude petroleum will spray better if thinned with one part of kerosene to four parts of crude oil. Both the crude petroleum and the coal-tar products often contain foreign particles, so should be strained before attempting to spray. One must be sure that the spray reaches all the cracks and crevices, giving special attention to the roosts, dropping boards, and nests, and the treatment should be repeated two or three times at intervals of a week or ten days.

PLANT LEGUMES IN ORCHARD

Good Practice That Crops Be Kept Growing Between Trees in Summer and Early Fall.

Good orcharding practice requires, in many instances, that crops be kept growing between the trees during late summer or early fall. For one thing the soil will need humus and protection from the burning rays of the sun. It is a good practice to plant cowpeas, soy beans, or other crops that thrive in late summer and early autumn to protect the soil and to add fertility to it for the next season.

Most of the legumes are well adapted for summer crops in orchards. Cowpeas are in many instances better than other summer legumes for this purpose.

Usually, planting peas or soy beans in rows between the trees and giving them a cultivation or two is better than broadcast sowing. However, some prefer to sow broadcast.

KEEP GARDEN FREE OF TRASH

Cornstalks, Tomato Vines, Potato Tops, Etc., Should Be Gathered Up and Burned.

Neatness, cleanliness, and order in the garden help in the fight against insects and diseases, specialists in the United States Department of Agriculture emphasize. As a general rule, the residue of the garden such as cornstalks, tomato vines, potato tops, etc., should be burned. Do this promptly, so that insects and disease spores may not be harbored by the rubbish. Just as soon as any crop is gathered, remove the trash, spade up the ground, and plant something else. Keep the garden free from weeds at all times, and this can best be done by frequent cultivation which destroys the weed seeds as soon as they sprout.

WINDBREAKS ARE BIG ASSET

Soil Is Prevented From Drying Out Quickly and Protection Given Grain and Trees.

Windbreaks are in many ways a farm asset. They tend to prevent the soil from drying out quickly and they protect grain and orchards from injury by the wind. A belt of trees near the farm buildings protects them from extreme cold and from summer's heat. Trees make the farm a pleasant place in which to live. The windbreak can be also a source of wood supply for fuel or for sale.

DO YOU SIT DOWN PROPERLY?

Sometimes That Is a Little Mistake in Daily Existence That Tends to Shorten Life.

It is said that there is a right and a wrong way of doing everything.

Yet how many of us realize that there is a right and a wrong way of sitting down, climbing stairs and so on? asks a *London Tit-Bits* writer.

Sitting down on a chair seems so easy that it is impossible to do it the wrong way, but a specialist, lecturing recently, pointed out that the habit many people have of sitting on the edge of a chair is very injurious. A certain nerve is sat upon, and the result is sciatica, caused through the nerve being injured.

Walking up stairs is another thing that nine out of every ten people do the wrong way. The usual method is to place the ball of the foot on the stairs and then take the whole weight of the body on the part of the foot, the heel never being placed on the ground until the top is reached. The right way, however, is to place the whole of the foot on each stair. If this is done, there will not be so much fatigue when the top is reached.

The habit of bolting eggs and bacon, coffee and other things, and then running for a train or bus, is fatal to the digestive system. The food is not properly masticated, and the whole body is disorganized by the wild rush for the train.

How many people drink a gallon of water a day? This is the amount that should be taken if one wishes to retain good health.

Many people go wrong in cleaning their teeth. The habit of merely washing the outside of the teeth is wrong. The back and top of the teeth need just as much attention. Decay sets in as easily at the back and on the top of the teeth as anywhere else. Remember also that the top of the teeth is the part that comes in actual contact with food.

Standing does not appear to be a particularly difficult operation, but notice people standing in a railway station. Notice the men, with their hands buried in their pockets, backs bent, and heads dropping forward; and the women with their feet at extraordinary angles, and so on.

The body, when one is standing, should be balanced equally on the two feet, which should be turned out slightly. The whole body should be held upright, including the head.

Talking to a doctor, the writer asked him what effect doing such things in the wrong way would have on the life of an ordinary healthy person. He replied that it was difficult to generalize, but that doing something in the wrong way daily might lessen life by fifteen years or more.

Ho, Hum, How Sleepy We Are!

A story of a drifting mine which came ashore on the Durham coast some time ago, and gave rise to an amusing incident, which might have easily resulted in a tragedy, is told by the *London Morning Post*.

"One Saturday afternoon the mine sweeping division at the admiralty received a long-distance telephone call from the local Durham police, who stated that a mine had been washed ashore, but that before they or the coast guard could warn people off, a miner—who had lunched well—had clambered on top of it and gone to sleep. What were they to do? They were given strict injunctions not to attempt to arouse the man, because in waking up suddenly he might break one of the 'horns,' with disastrous results to himself and others. Two hours later the police, in a very relieved voice, reported that the man had awakened of his own accord and had slid off the mine into safety."

Artificial Precious Stones.

Gemstones owing their attractiveness to art are not now mere imitations, but the actual stones are produced artificially, as in the case of rubies and sapphires. In other instances, natural minerals are improved artificially. An important industry exists in the artificial coloring of the semi-precious agate, and giving new colors to other stones has been attempted. At the Reno station of the United States bureau of mines, radium has been used to obtain a more valuable tint. A colorless Colorado topaz has been given a pleasant yellow, and, while this has not proven permanent when exposed to light, experiments are being continued with the hope that light-proof shades may be eventually produced.

More Than Their Share.

The 25th of May was annual clean-up day in our village. Several of us women were busily engaged in cleaning an alley. Seeing a small ash pile topped with a few tin cans near a stone wall, we stopped, and I remarked: "Well, I guess we'd better get busy cleaning up Mr. J.—'s rubbish. Suppose he and his whole family are off spending the day fishing while we stay at home and clean up his hirt." A low, long-drawn whistle was heard from below the wall, and Mr. J.— suddenly appeared, rake over shoulder. His sole remark was: "Me-o-w!"—Exchange.

Hides Vary in Quality.

Hides differ widely in quality and desirability for making leather. There are tanners of goatskins, for example, who never during a period of years have used skins except those coming from India. Others tan skins from Africa or South America. The leather they produce is known by buyers and they would not accept skins of a different origin.

VACATION TIME

It is the Good Old Summer Time again, and soon you will be starting for your annual outing. When you turn the key in your door won't you regret leaving your silver or valuables unprotected from fire or theft?

Our Storage Vault will enhance the pleasure of your trip, if you use it. Plenty of room for silver, clothing, rugs or other valuables. Charges reasonable.

ORLEANS TRUST CO.

LACK OF PACKAGE UNIFORMITY MEANS MONEY LOSS FOR BUYER

They Look the Same Size, but They Are Not.

Prepared by the United States Department of Agriculture.

Standard containers for marketing fruits and vegetables are of more interest to the average citizen than he generally realizes. Not only is he defrauded frequently by the substitution of short-measure packages at the full-measure price, which is inevitable if the difference in the size of the packages is not easily detected, but also the cost of marketing is increased by the greater expense of manufacturing a large number of unnecessary styles and sizes and by breakage in transit, sometimes directly attributable to the difficulty of loading odd-sized containers. These losses constitute an unnecessary tax on the fruit and vegetable industry that the bureau of markets, United States Department of Agriculture, is endeavoring to cut down by fostering the use of standard containers.

Old-Time Units Cause Confusion.
Local package units that came into use long ago are most largely responsible for present difficulties. Such packages may have been satisfactory when their use was confined to a limited territory, but of late years rapid transportation and the use of special refrigerator and ventilator cars have brought the products of every section of this country into our great marketing centers, where the diversity of styles and sizes of containers have resulted in unnecessary confusion.

There are in common use today about 40 sizes of cabbage crates, 20 styles of celery crates, 30 lettuce crates or boxes, 50 styles and sizes of hampers, 15 styles and sizes of round stave baskets, and market baskets, varying in size from 1 to 24 quarts, whereas relatively few standard sizes would satisfy all the demands of the trade.

The unfair competition of short-measure containers has been another unsatisfactory factor. Certain shrewd packers have found that by slight modifications in the shape of packages the cubical contents can be reduced substantially without noticeably affecting the appearance.

Short-Measure Package.
Commodities sold in these containers can be offered at a lower price per package than those sold in standard packages, but the price by unit of weight is, of course, higher. Often this has caused the general adoption of the short-measure package, and there is no end to this procedure, for once the short measure is recognized as the standard a still shorter one is put out by an unscrupulous minority.

The six-quart market basket, the 14-quart peach basket, the seven-eighths-bushel bean hamper, and the five-peck lettuce hamper are easily confused with peck, half-bushel, bushel and 1½-bushel baskets.

Another factor which has caused the addition of many unnecessary packages is the lack of a unit which is accepted as the basis for all package standards. If a manufacturer wishes to introduce a crate into a producing section normally using the barrel instead of using the bushel unit, the tendency is to offer a barrel crate or half-barrel crate. At the present time the crates and boxes are being manufactured in sizes based on the United States standard barrel (105 quarts) with its subdivisions, the United States cranberry barrel (86 45-64 quarts) with its subdivisions, the weight bushel, the heaped bushel, and the volume bushel. These different standards are used because of competing packages.

Series of Crates.
The result may be seen by a glance at the following table:

Three Series of Crates Which Cannot Be Readily Distinguished From Each Other.	
Crates based on U. S. apple barrel:	
1-barrel crate.....	quarts 105
½-barrel crate.....	do 52½
¼-barrel crate.....	do 26¼
Crates based on U. S. cranberry barrel:	
1-barrel crate.....	quarts 86 45-64
½-barrel crate.....	do 43 22-32
¼-barrel crate.....	do 21 11-16
Crates based on standard bushel:	
2-bushel crate.....	quarts 32
1½-bushel crate.....	do 24
1-bushel crate.....	do 16

A standard unit of measure should be permanent, definite, and of fixed and uniform value. The heaped bushel, which is in common use, is far from being fixed, and in many instances the heap has practically disappeared, say, such as the barrel of cranberries. A proper heap has never been

defined by congress, and in those states where an attempt has been made to describe the manner in which the measure should be heaped the phraseology generally is vague and indefinite. The heap has been referred to as a cone, the base being the top of the measure, and the height depending upon the nature of the article when piled "as high as may be without special effort or design." Such vegetables as sweet potatoes under this definition might be piled so high that the heap would be as large as the measure itself.

In view of the difficulties which are necessarily encountered in attempting to secure a uniform method of filling or packing standard containers, it is generally recognized that weight is the only really definite basis of sale, and for that reason the pound or hundredweight should be used where this is practicable. An exception may be noted in regard to products which are carefully graded as to size, in which case the sales may be made satisfactorily by numerical count.

BUSINESS BASIS IN SELECTION OF FARM

Many Serious Errors Made by
Young Men in Moving.

Know Only One Set of Conditions
and Are Not Able to Weigh Accurately All New Factors
That Must Be Considered.

(Prepared by the United States Department of Agriculture.)

Many farmers, especially the younger men, in moving from one region to another, make serious errors in selecting farms, not because their judgment is naturally poor, but largely because they know only one set of conditions and are not able to weigh accurately all the new factors that must be taken into account, say specialists of the United States Department of Agriculture. Here the science of farm management is helpful, in that from the farm-management viewpoint the farm is put on a business basis.

In doing this, however, the home side of the question must always be kept in mind. The farm home and the farm business are inseparable. A desirable farm, from a business standpoint, is nevertheless undesirable if it has no social or community advantages. On the other hand, desirable living conditions are of little or no advantage unless accompanied by a successful farm business.

A farm may have fine buildings, good water supply, excellent roads, and other such assets, yet if the soil is rocky, shallow, or naturally infertile, so that its productive possibilities are distinctly limited, there will be no adequate income for enjoying the other advantages. Moreover, these physical limitations are enduring, while the needed improvements, such as buildings and roads, can be added as means are provided.

PICK AND PREPARE BERRIES

Care Must Be Exercised by Grower
in Shipping Blackberries by
Parcel Post.

If a grower wishes to ship blackberries by parcel post, he should exercise care in picking and packing the berries. Carelessness in picking and handling blackberries sometimes causes more injury to the fruit than does the treatment given while in transit, say specialists of the United States Department of Agriculture. Success in shipping blackberries is dependent largely on favorable weather conditions and the way in which the fruit is handled in transit.

The shipping weight of a 16-quart crate of blackberries is from 27 to 30 pounds, and the charge for postage to points within the first and second postal zones is from 31 to 34 cents. The cost for crate and postage on a 16-quart crate of blackberries will vary, therefore, from 58 to 64 cents. It may be possible at times to ship more than one kind of berries in a crate, such as a combination shipment.

FIND SHIP IN HEART OF CITY

Hull Buried in San Francisco, Records Show, Is a Relic of the Gold Rush Days.

San Francisco discovered an old wooden ship under the streets of its business section recently, relates Popular Mechanics Magazine. Contractors, excavating a deep foundation for a new skyscraper with steam shovels, were hindered in their work by strange massive timbers found 30 feet below the surface. They had accidentally stumbled upon the preserved remains of some strange buried craft.

The bronze-sheathed and copper-bolted hull measured 100 feet in length by 30 feet beam, and great interest was aroused by the puzzling location of the relic a mile from any water. The city's history revealed, however, that it was the Euphemia, a bit of whose historic and romantic existence is as follows:

In the days of '49, when the mad stampede around the Horn to the new California gold fields was on, numerous ships were abandoned by their crews at the end of the journey, and left to rot on the mud flats of San Francisco bay. But, in forming the municipal government of the fast-growing city by the Golden Gate, the first town council bought the Euphemia, and converted it into a prison ship. Those were "rough" days in San Francisco and this, the first jail the city could boast, was tied to a wharf, and soon filled up.

An old sketch of the scene at this part of the water front reveals another ship, the Apollo, converted into a saloon and lodging house. As the city grew and forced the waters of the bay back from the spot by filling in the shallows, the novel spectacle was formed of a strange ship sticking out of the ground in the heart of the city, surrounded by substantial stone and brick structures.

During the next 50 years, the city attained great size. Then it was suddenly half leveled by a great fire. And had it not been for the necessity of a deep foundation for the latest edifice to rise over the spot, 72 years after the Euphemia became a jail, the old hull would have slumbered on for another fifty or one hundred years. As it was, the contractors experienced considerable difficulty in removing the mud and sand-locked skeleton with modern steam tackle, but made a small fortune out of the sale of the heavy copper and brass junk found on it.

Revival of the British Beard.

A young man about town walked down Bond street in London recently, and the sight so shocked the sensitive British public that the London Daily Chronicle saw fit to run the item as a news item.

He was elegantly dressed, says the paper, and carried the familiar cane of Piccadilly, while a monocle rested in his right eye. But his beard was the masterpiece of the outfit. It was very dark, it recalled the pictures of the Stuart kings, and created a sensation wherever it was seen.

The young man, except for his beard, was unmistakably English. "I don't think that beards for young men are likely to be popular outside the West end," a hatter in the neighborhood of Bond street told a Chronicle representative.

"But certain young men about town appear to be tired of looking like stage heroes, and have decided to grow beards. A beard makes some men look younger, and a man who has a weak mouth and a chin which slightly recedes should wear both mustache and beard."

Sailing by Signs.

Silence never has been considered a characteristic of the deep sea captain, but a 60-day voyage was recently completed during which the ship's captain might just as well have been deaf and dumb. Capt. Darwin E. Stevens, who has just returned to this country, took the new steamer Josepha from Duluth to Barcelona, there delivering her to her new owners. His crew was made up of Spaniards, none of whom could speak a word of English. The result was that Captain Stevens had to do his talking with his hands, giving orders by signs. After the 60 days were at an end the skipper found himself so in the habit of making signs that when he finally arrived among people who could speak a language that he understood he had to make unusual effort to refrain from using the sign language.—New York World.

Airplanes Sold for 60 Cents.

The British government recently sold a number of airplanes for 60 cents apiece at the Lincoln air-drome disposal sale in London.

The machines had become out of date after several years of service and had been junked, the wings and the engines being removed. Nevertheless, the purchasers who paid 60 cents for an airplane received the body of the machine with the copper fittings and pipes, which in all originally cost several hundred dollars.

The purchasers, for the greater part, were anxious to buy the planes to break up for firewood during the coal shortage. Small boys dragged their fathers along to buy a plane so that they might get the wheels to use on scooters and home-made automobiles.

Lovers' Quarrel.

Betty (turning at door)—"I think you are perfectly hateful, and I'm never going to speak to you again. So there's no use coming into the music room after me because I shall be in the hammock at the far end of the piazza."—Boston Evening Transcript.

IN EVENING TOGS

Flaring Skirts Prove Only Weak Whim of Fashion.

Straight-Line Dress Still Triumphant—Greek Drapery Provides Note of Beauty.

The Greek idea is firmly established in summer evening dresses. There has been considerable talk of flaring skirts, and a number of them have made their appearance in the shops, but, as predicted, it is a fashion-crying glass so powerful that the queen could easily decipher the manuscript, which she held on her thumbnail and commended the same to the lords of the council and the ambassadors.

Bales subsequently issued a challenge "to the Englishmen and strangers" to write, for a pen of gold of £20 value, in all kinds of hands, "best, straightest and fastest," and most kinds of ways, "a full, a mean, a small, with line and without line; in a slow set hand, a mean facile hand, and a fast running hand," and further, to write "truest and speediest, most secretary and clearlike, from a man's mouth, reading, or pronouncing, either English or Latin."

Another writing master, David Johnson, accepted the challenge, and the contest opened on Michaelmas day, 1595, before five judges and a hundred spectators. Bales was adjudged the winner in all three sections, though the competition in "writing sundry kinds of fair hands" proved a near thing for him. He gained points for the beauty and "most authentic proportion" of his "Roman hand," but Johnson scored more marks in court hand and in "bastard secretary" hand. Bales, being then on his mettle, presented his "Master Piece," composed of "secretary and Roman hand four ways varied," and offered to forego all his previous advantages if Johnson could better it. This proved impossible, so Bales carried off the gold pen and had it painted and set up for his sign.—Manchester Guardian.

Taming the Wild Flowers.
At a flower show held in New York city, one naturally expects to see hot-house plants or at most such pampered exotics as appear in cultivated gardens. At the recent annual show, however, there was an exhibit that was a veritable wild garden, comprising exclusively plants that are native to the New England fields and woodlands. The developer of this garden, Edward Gillet, has made a hobby of bringing the wildlings into the dooryard, and teaching them to make themselves at home there. The result is highly gratifying, for not only do a large number of these plants lend themselves to decorative and ornamental effects, but, quite apart from this, there is an inherent interest in the indigenous flora that gives even a very modest plant precedence in the affections of many of us over the most gorgeous visitants from far-off lands.

Now that Mr. Gillet has shown the way, there will be many an amateur who will not be satisfied unless a considerable corner of his garden is given over to wild azaleas and laurel and heptacalis and lady-slippers and trilliums and sundry other modest but winsome native flowers.—Pittsburgh Dispatch.

Kongo Airplane Service.
It is reported that the directors of the Forminiere Diamond Mines company have suggested the inauguration of an air service by seaplane, which would operate between the mines at Djoko Punda, on the Kasai (a tributary of the Congo) and Kinshassa, on the Congo—from which latter point the railroad runs to Matadinok, a steamer port on the lower Congo. The directors offer to defray the greater part of the initial cost of the scheme. In the meantime a survey of the route is being undertaken. The distance from Kinshassa to the mines is approximately 500 miles, which could be covered in two days, as contrasted with over a month by the existing river transport.—Scientific American.

MAKING THE MENDING EASY

Have Set of Pegs Conveniently Spaced on Board to Accommodate Spools and Balls.

The best possible way to keep spools of thread and mending cotton is on a set of pegs that will fit into the hole in the middle of the spool or ball. You can buy these, though the spool holders offered for sale usually have only three or four pegs. You should have at least a dozen. A good home-made device is to get a narrow, smooth board, perhaps 15 inches long and three or four inches wide. This you may make smooth by finishing it with enamel paint. In this you should drive long, heavy nails an inch and a half apart. You might drive two rows of these if your board is wide enough. Drive them just far enough in to make them secure. On these nails you can place your threads and mending cottons.

A few hours more would be sufficient time to devote to making an excellent mending paraphernalia with a convenient place for keeping mending needles, scissors, tapes, buttons and the various other essentials of mending.

FROM 'FAIRYLAND' SHE COMES

Two heavy rows of rose satin ruching are the sole adornment of this simple little summer frock from "Fairylend" of Paris. A lightweight silk of pure white makes the body of the garment.

TRULY WIZARD WITH PEN

Englishman of Queen Elizabeth's Time Did Work That Probably Never Was Equaled.

England at one time possessed a penman capable of rivaling Nessi Effendi Markaram, an Arab now on a visit to Cairo with specimens of his art, including a grain of rice on which he has written 100 words from the Koran. Peter Bales, as we learn from Hollinshead's Chronicle, put in the compass of a silver penny more things than fill several ordinary pages, and presented Queen Elizabeth with the manuscript set in a gold ring and covered with a crystal, together with a magnifying glass so powerful that the queen could easily decipher the manuscript, which she held on her thumbnail and commended the same to the lords of the council and the ambassadors.

Bales subsequently issued a challenge "to the Englishmen and strangers" to write, for a pen of gold of £20 value, in all kinds of hands, "best, straightest and fastest," and most kinds of ways, "a full, a mean, a small, with line and without line; in a slow set hand, a mean facile hand, and a fast running hand," and further, to write "truest and speediest, most secretary and clearlike, from a man's mouth, reading, or pronouncing, either English or Latin."

Another writing master, David Johnson, accepted the challenge, and the contest opened on Michaelmas day, 1595, before five judges and a hundred spectators. Bales was adjudged the winner in all three sections, though the competition in "writing sundry kinds of fair hands" proved a near thing for him. He gained points for the beauty and "most authentic proportion" of his "Roman hand," but Johnson scored more marks in court hand and in "bastard secretary" hand. Bales, being then on his mettle, presented his "Master Piece," composed of "secretary and Roman hand four ways varied," and offered to forego all his previous advantages if Johnson could better it. This proved impossible, so Bales carried off the gold pen and had it painted and set up for his sign.—Manchester Guardian.

Taming the Wild Flowers.
At a flower show held in New York city, one naturally expects to see hot-house plants or at most such pampered exotics as appear in cultivated gardens. How Co-operation Changes.

Both the government and organized labor of Germany have changed their attitude toward consumers' co-operation, with the result that, since the downfall of the kaiser, the membership of the leading co-operatives, previously largely composed of professional and business people, has become overwhelmingly composed of working people. The Production Society of Hamburg, for instance, has among its members 7,889 metal workers, 2,492 bricklayers, 2,084 tailors, 4,648 transport workers, 2,967 woodworkers, as against 45 writers, 377 musicians and one artist. Government officials, previously forbidden to join co-operatives, now avail themselves of the permission to do so in increasing numbers.

Matter Explained.

When I was seventeen I was permitted for the first time to go shopping alone. It was in Philadelphia. Just as I was about to enter Wanamaker's store I was tapped twice upon the shoulder, turned by a strong hand and chucked under the chin. Frightened and insulted, I looked at my accoster, and found a young man in track suit. "Quiet, please," he said, sternly. "Give me your name and address." In my terror and confusion I gave them. Several weeks later the mail brought me a formal note, thanking me for my co-operation, and briefly stating that certain things were necessary for initiation into the Alpha Sigma fraternity.—Chicago Journal.

TO WOMEN OF MIDDLE AGE

This Woman's Letter Tells
You How To Pass The
Crisis Safely.

Lascelles, P. Q.—"During the Change of Life I felt so weak and run down I could hardly do my work. The perspiration would pour over my face so that I couldn't see what I was doing. We live on a farm, so there is lots to do, but many who felt as I did would have been in bed. I took Lydia E. Pinkham's Vegetable Compound and it did me a world of good. I tried other remedies but I put Vegetable Compound ahead of them all, and I tell every one I know how much good it has done me."—Mrs. DUNCAN BROWN, Lascelles, Prov. Quebec.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ear, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women, and let Lydia E. Pinkham's Vegetable Compound carry them safely through this crisis as it did Mrs. Brown.

You are invited to write for free advice

No other medicine has been so successful in relieving woman's suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass.

SELECT TREES WITH CARE

Matter is of Greatest Importance
When They Are Planted Along
the Highways.

For many years it has been a cus-
tom with most people to plant trees
without regard to the ultimate purpose
they would serve. Little thought has
been given as to the most suitable va-
rieties for planting or that there might
be sections along the roadway where
it would be of advantage to cut the
existing trees, and in this way make
the roadside scenery more interesting
and attractive. A closer study of the
problem, however, shows that there
are two distinct types of roadside
scenery. The first may be said to be
where the trees, shrubs, buildings and
other objects that border the highway
form the element of the picture, with
the roadway as a central feature. Many
places along the roadside have no
inducements whatever as to special
attractiveness, and in fact, the scenery
may be of decidedly monotonous
character. It is in such a place that
one may feel at liberty to plant ac-
cording to the so-called closed type.

The second type can be used where
the wide meadows, fields and distant
landscape compose the picture, with
the roadside trees as frames. Exam-
ples of this type may be found in
many sections of the state, where
beautiful vistas could be enhanced by
the presence of suitable shade trees.
In many cases, trees along the high-
way form screens so as to break up
the long stretches of views along
openings here and there which make
more attractive the roadside scenery.

ECONOMIC VALUE OF BEAUTY

Good Points Made by Governor Lake
of Connecticut in Arbor and
Bird Day Proclamation.

Governor Lake of Connecticut in his
proclamation appointing Arbor and
Bird day made some excellent points.
He recommended that all citizens, but
particularly the teachers and pupils
in schools, observe the day and added:

"Let the pupils of our schools be
taught that the planting and care of
shade trees, the protection of birds and
their eggs, is not only an economic
measure, but contributes to the beauty
of our state and the enjoyment of our
homes. I further recommend the for-
mation of town and village improve-
ment associations to encourage tree
planting and bird protection and to
exercise interested care over matters
relating to the scenic beauty of our
towns and cities. Well-kept roads,
streets and lawns enhance the value
of property and promote the general
welfare of towns and villages."

Observe especially the last sentence:
"Well-kept roads, streets and lawns
enhance the value of property and
promote the general welfare of towns
and villages."

Here is official recognition of the
economic value of beauty. Common
experience shows that Governor Lake
is right. If every community continues
its clean-up until every lawn is well
kept and every building tidy and
painted, won't the tendency be to in-
crease property values?—Exchange.

City Planning in Schools.

"We have city planning courses in
all of the schools," D. D. Pinkerton,
president of the Kansas City board of
education says. "We call them courses
in civics. These courses deal with every
phase of civil government and espe-
cial attention is given to civic beauty."

"Even young children are given in-
struction in civics. In the lower
grades we use a primer which covers
all the activities of a city in a com-
prehensive way. A good example
of this type of primer is the one used
by Walter Gillingham, principal of
Humboldt school."

In this primer these are some of the
questions asked:

Is your neighborhood supplied with
beautiful lawns and flower beds?
Are the alleys and yards kept clean?
Do the children take pride in keep-
ing the school yard clean?
How does the improvement of your
property help the neighborhood?
What conditions in your neighbor-
hood might be improved?

Within His Rights.

"Is Mr. Grumppson a confirmed pes-
simist?"
"I don't think so. I've seen him
pet newboys on the head and give
dimes to beggars."

"But how does he conduct himself
in a traffic jam?"
"He seethes a little, but not enough
to attract the attention of a traffic po-
lice man."—Birmingham Age-Herald.

Under City Management Plan.

Five cities of more than 100,000
population are now being administered
under the city management plan—Ak-
ron, Dayton, Grand Rapids, Norfolk
and Nashville. Cleveland and Kan-
sas City are agitating the question of
city management government.

Innovation in Pennsylvania.

Two second-class cities of Pennsylv-
ania, Scranton and Pittsburgh, are
empowered by law to adopt a system of
separate assessment on land and on
improvements, making the heavier bur-
den come on the land.

PARROT AS MUSICAL CRITIC

Pet of Jean de Reszke, Famous
Teacher, Mimes No Words When
Singing Displeases Him.

Probably the most respected and
feared parrot in the world is that green-
feathered little autocrat known as Coco
which is the pet and inseparable com-
panion of Jean de Reszke. For Coco
has acquired an ear for music and he
makes his likes and dislikes known—
especially the dislikes—in a most em-
phatic manner. Nor does he mimes his
words. With Coco a voice is either
good or rotten—there is no middle
ground—and when he forms the latter
opinion, look out!

The story of De Reszke and his par-
rot is told by pupils of this great figure
in the music world who have been ac-
cepted in the studio he has established
in France since his retirement twenty
years ago.

To begin with, Coco is entitled to
special consideration in the Nice villa
because he was the pet of De Reszke's
only son, who was killed in the war.
It was after that tragedy that Coco and
the father of the dead boy became such
fast friends. And this friendship be-
came so warm that Coco not only was
permitted free access to his master's
studio, but was provided with a perch
on the musician's own broad shoulder.

And there he sits every day through
the teaching hours, which sometimes
last from 10 in the morning until 8 at
night, apparently as deeply interested
in the work as is De Reszke himself.
At first Coco merely perched and
looked as wise as it is possible for a
parrot to look, but as the months wore
on he began to feel his importance
and gradually he began taking a hand
in the teaching. And now he wields
a power all his own.

If one of De Reszke's forty pupils
sings a passage in poor form the master
probably will draw attention to the fact
something after this fashion. "That
was not as good as usual. We must
try it again."

But the parrot from his perch cries
out something like this:
"You blockhead! Try again. You
can't do worse. Poor blockhead! You
help to make a sad world."

And when a pupil sings particularly
well the bird gives praise, but it is not
nearly so emphatic or pointed as his
criticism, for it consists mainly of a
gurgling noise and the rubbing of his
head against the master's cheek, so that
his manifestation of praise must be ex-
plained to the pupil, while the blame
never requires elucidation.—New York
Sun.

Fossil Fish Eggs.

A news item the other day spoke of
an Oklahoma town that was built on
a deposit of fossil fish eggs, which
through the processes of nature had
been converted into limestone.

As a matter of fact, many towns in
that state, as well as in Missouri and
Arkansas, stand upon deposits of the
same kind, which are known to the
geologist as "oolite," because the ma-
terial is made up of small round white
bodies resembling eggs.

The notion that these bodies are ac-
tually accumulated roes of multitudes
of bygone fishes has long been enter-
tained by the ignorant. Of course,
such an idea is a wild absurdity. But
science itself is puzzled to know the
reason why of this peculiar formation,
one theory being that the limy mate-
rial was precipitated from sea water
in the shape described by the action of
certain bacteria.

There is a great deal of this "oolite"
to be found along the shores of the
Great Salt lake, in the form of sand.—
Kansas City Star.

OLIVER

The lawn social held at the home of
Mr. and Mrs. R. R. Merrill on Monday
evening in aid of the Methodist
church, Magog, was decided success,
some over \$40 being realized.

Mrs. H. R. Batchelder is entertaining
a nephew from Boston.

Mr. and Mrs. R. R. Merrill and
daughters, Misses Hazel and Winifred,
are away on a motor trip to Quebec
City for a few days.

Mr. and Mrs. W. H. Embury and
two daughters visited at Griffin re-
cently.

A little daughter was born to Mr.
and Mrs. Pilon, August 12.

Miss Maud Clark of Beebe has been
visiting Mrs. C. S. Harris and Miss
Helen Embury for a few days.

GRANITEVILLE

Mr. A. L. Guerin and family motored
to St. Albans, Vt., on Sunday.

Mr. and Mrs. D. W. Moir spent Tues-
day with Mrs. J. N. Moir at Beebe.

Mr. and Mrs. Silas Blair returned to
their home at Sudbury, Ont., on
Monday, after visiting their parents
the past two weeks.

Mrs. Bert Meiggs of Beebe visited
her parents Mr. and Mrs. Walter
Kenniston one day last week.

Mr. and Mrs. Walter Kenniston
have moved into their house lately
purchased from Mr. E. Courser.

Miss Margaret Duncan of Barre, Vt.,
formerly of this place, is visiting at
the home of D. McFarlane, Line-
boro, Que.

CARD OF THANKS

I wish to express my appreciation
of the kindness and assistance extend-
ed to me in my time of need and take
this method of thanking all the friends
and neighbors for their sympathy and
help, especially the singers and those
who furnished automobiles.

CLYDE O. FOSS.
