THE MONTREAL HERALD CO. MONTREAL, NOVEMBER 12.

THE TORONTO DEBENTURE FAIR.

No defence has yet appeared of the conduct of the Toronto Corporation authorities in the matter of the sale of debentures to Mr. Wilson Smith, of Montreal.

The Executive sold 3 1/2 per cent. debentures, which the city had a perfect right to sell, to Mr. Wilson Smith, of Montreal.

The actual sale to Mr. Smith is not denied; on the contrary, the transaction is thus described by the Globe:

The Executive sold 3 1/2 per cent. debentures, which the city had a perfect right to sell, to Mr. Wilson Smith, of Montreal.

The Corporation of the City of Toronto it is to be presumed requires the money now, otherwise they would not be justified in asking tenders for the sale of their debentures.

The evidence on the face of it goes to show that from the point of view of some strong influence in relation to the City Council, the 3 per cent. debentures went an unexpected and disappointing direction when they went to Mr. Smith.

The keenness of that disappointment, and the strength of the influences aroused by the defeated calculations may perhaps be imagined in that it is recited that not only was a bargain and sale, a contract, repudiated by a great municipal corporation, but to take the place of the repudiated contract a sale was authorized of debentures that they did not have, that they confessed to have no power to issue, that the Legislature probably will not empower them to issue, and that, it is altogether likely, they intended should never be issued.

ENQUIRY SHOULD BE STRICT.

There are many reasons why the inquiry on the bodies of the unfortunate men who were killed in the collapse of the Street Railway Company's building should be in the last degree rigorous.

Good Canadians will observe with the utmost regret that the revenue of the country continues to fall off. For October, the Post Office returns alone show an increase over last year.

WHO MR. HUDDART IS.

An article in the London Investors' Review is of a nature to relieve the curiosity of Canadians as to the identity of the James Huddart to whose scheme for a 20-knot steamship service on the Atlantic, the Government has pledged itself.

Mr. Huddart is, it appears, the managing director of an obscure Company which is said to own two steamers—the Miowera 3,345 tons, and the Warrimoo 3,320 tons gross—both at one time engaged in the Australian trade with Canada.

The Canadian Finance Minister was doubtless told this fine story, and swallowed the whole. But a look at the trade statistics of his country would have shown him that the freight portion of it could not be true, and an enquiry at any shipping agency might have revealed to him the fact that those steamers were not even constantly on the Australian route at all.

In support of its statement the Review publishes the following which, it alleges to be officially certified copies from the London Register of Shipping:

James Huddart, of 22 Billiter Street, City of London, steamship owner, 64 shares.

Subject to a mortgage (A) dated 11th October, 1892, to secure fifty thousand pounds, hundred and eighty-four pounds fifteen shillings, and interest at six per cent, in favor of George Burton Hunter, of Walswell, County of Northumberland, shipbuilder.

I hereby certify the foregoing to be a true extract from the registry, showing present ownership and interest of the vessel "Miowera," as taken from the register book now in my charge. (Signed) C. J. Stebbing, Registrar of Shipping, London.

James Huddart, of 22 Billiter Street, City of London, shipowner, 64 shares. Subject to a mortgage (A) dated 25th July, 1892, to secure twenty-eight thousand and seventy-eight pounds one shilling and eleven pence, and interest at six per cent. per annum in favor of George Burton Hunter, of Walswell, County of Northumberland, shipbuilder.

I hereby certify the foregoing to be a true extract from the registry, showing present ownership and interest of the vessel "Warrimoo," as taken from the register book now in my charge. (Signed) C. J. Stebbing, Registrar of Shipping, London.

Dr. Harper, after examining the model school, at Ormstown, Que., stated that it stood first in the Province, and that the department was prepared to raise it at any time to the rank of an academy, whenever the ratepayers desired it.

The advantages of having an academy at the door would be great to parents, and as the enlargement of the present building grows more pressing such a step will likely be taken. Dr. Harper commended highly the work being done by Mr. Gilmour and his able assistant teachers—Huntingdon Gleason.

A COMPLAINT WIFE. (Special to the Herald.) Kingston, Nov. 11.—John McNulty, millwright, deserted his wife and family at Sharbot Lake and skipped with a more handsome maiden, Miss McCue. He was located by his first wife at Jefferson, N.Y., while at dinner with his second wife and children and was surprised. In the presence of the company he admitted that the woman, who visited him with a police officer, was his first wife. A settlement was effected by having an academy at the door would be great to parents, and as the enlargement of the present building grows more pressing such a step will likely be taken.

PORT ARTHUR HAS FALLEN

LONDON DESPATCH STATES THE JAPANESE HAVE CAPTURED THE CITY.

European Powers Likely to Intervene in Behalf of Peace—More Troops for Korea.

London, Nov. 10.—A despatch to the Pall Mall Gazette from Chefoo says that the Japanese have captured Port Arthur.

Chefoo, Korea, Nov. 10.—Further boats of Japanese troops have been landed on the coast to the southward of Seoul. Their object is the subjection of the Tong-tak, who are very troublesome.

Kimhakun, Vice-President of the Council of State, who was appointed by Japanese influence, was assassinated on October 30. The Japanese sailing is intense. Five hundred Japanese troops have returned to Seoul in consequence.

London, Nov. 10.—A despatch to the Times from Chefoo, dated November 7, says it is reported there that fighting had occurred on November 4, 5 and 6 at Talian Wan, but it had not been decisive. A Tientsin despatch to the Times says that the responsible Chinese officials appear to be calms as to the fate of the Empire. They attend chiefly to their personal interests, such as contracts for furnishing arms.

The people are also indifferent. In the vicinity of Moukden they suffer more from fear of the Chinese soldiery than from fear of the enemy. The despatch adds that the Russian officers on the stations have been instructed to conciliate their British colleagues.

London, Nov. 10.—A Berlin despatch to the Daily News says that the German Admiralty has telegraphed to the Admiral commanding the German squadron on the Chinese station to obey the orders of the British Admiral in certain possible eventualities.

A Daily News despatch from Paris says that France seems disposed to entertain the idea of a European conference on the Chinese-Japanese war.

London, Nov. 10.—A Paris despatch to the Times says that a paper in that city declares that Lord Rosebery, the British Prime Minister, intends to propose a collective landing of troops in China.

UNCLE SAM BORROWING.

The United States Government Will Issue Another Large Loan.

New York, Nov. 10.—The Press this morning says: After the close of business yesterday it was announced that the Government would at once ask bankers for a loan of another \$50,000,000. Gold bonds for that amount bearing five per cent. interest will be issued within a few days at a price which will net investors about 3 per cent. annually.

Assistant-Secretary of the Treasury Curtis has been in this city for several days and has been conferring with the presidents of National banks and trust companies. One of these bank presidents said yesterday: "There will be an issue of bonds shortly, probably within the next week or two. President Cleveland and Secretary Carlisle have determined that the gold reserve shall not be further impaired. If the people do not take all the bonds, as it is probable they will not, the banks who floated the last issue will subscribe. As far as is known in this city, the exact amount of the issue has not yet been determined. The issue will undoubtedly reach \$50,000,000. It has not yet been decided whether a syndicate will be formed to take these bonds or not. That also will depend upon the action of the authorities in Washington.

THE EASTERN TOWNSHIP FAIR. (Special to the Herald.)

Sherbrooke, Que., Nov. 10.—The directors of the Eastern Township Agricultural Association met yesterday to consider the treasurer's report. The expenses this year have been very large, owing to repairs and improvements, but on the whole the report was most favorable. The next fair will be held from the 4th to the 9th of September next, and the programme is already in preparation.

Mr. Quicke's Attack on Mercier. L'Evenement, a French Government organ of Quebec, speaking of an attack made by Rev. Mr. Quicke, of New Edinburgh, Ont., upon Hon. Honoré Mercier, says: "Mr. Mercier is dead; his memory is respected even by the Mall, which at least knows how to restrict its fanaticism to the limits of this world. Mr. Quicke would have acted wisely, had he following this example, instead of giving free course to his hatred against the Catholic Church and against a man, who was so much above him that these attacks could not touch him."

THE CHEAPER FARMING. A model of a machine lately held exhibited on the Board of Trade, the invention of the late Robert Romaine, destined, it is claimed, to inaugurate a new era in farming. It is a powerful self-propelling locomotive machine, and is propelled by driving wheels which travel over rubber strips of land, which are not disturbed for cultivation, but form permanent roadways. It will do reaping, threshing and the harvesting of crops, as well as all cultivating work on the farm, thereby dispensing almost entirely with horses, and at the same time greatly reducing the cost of cultivation. Careful calculations place the cost of raising wheat with its use at \$2 per acre, a radical reduction from the average cost of wheat raising in the United States, which is approximately \$11.69 per acre.

The desire of the present proprietors is to form a preliminary syndicate of a few persons, for the purpose of building and testing a machine full size, with a view to later sale of same to company or other purchasers. The propose to divide the ownership into twenty parts, fixed at \$1,000 each, of which they desire to sell seven, \$2,000 being a payment to the inventor's widow and for other expenses, the balance being used solely for building a machine and handling as aforesaid.

Several Board of Trade members have already manifested considerable interest in the machine, and the preliminary objects of the owners will undoubtedly be accomplished.

Now Doctors Know What Ailed the Czar. St. Petersburg, Nov. 10.—The diagnosis of the case of the late Czar by five doctors attending him, Drs. Leyden, Zacharin, Hirsch, Popoff and Wedeminer, was officially published here this morning. It tallies throughout with the various interviews with Professor Leyden, and adds that an autopsy by five Russian anatomists shows that his Majesty's death was due to paralysis of the heart consequent on degenerative muscular hypertrophy of the heart and atrophy of the kidneys.

"What are you doing now?" asked one Yale man of another, "I'm writing for a living." "What do you write?" "Letters to the governor."

STORM ON THE LAKES.

A Steamer Overdue—First Snowfall of the Season in New York.

St. Joseph, Mich., Nov. 10.—The worst storm of the season is blowing over this shore. The F. and P. steamer No. 2 is overdue here. There has been nothing heard or seen of her. No boat could enter this harbor with the sea that is running.

New York, Nov. 10.—The first snow of the season fell in this city last night. The temperature was within two degrees of freezing point. The snow fall was general throughout the State and New Jersey and Northern Pennsylvania.

A DOUBLE MURDER.

Horrible Crimes of a Western Fiend Who Confesses His Deeds.

Fargo, N.D., Nov. 10.—N. J. Villars was brought to the Cass County jail yesterday by Sheriff Eddy, of Stutsman County. On the way here Villars confessed to the horrible crime with which he is charged. Tuesday evening he went out to the farm of Mrs. Frammer in Montpelier township, Stutsman County. Mrs. Frammer saw him at the barn and went out. When she approached Villars knocked her down with a club and beat her into insensibility. He dragged her into the barn and assaulted her, then threw her into the well in the barn, set fire to the barn and left. The barn burned to the ground, but Mrs. Frammer was still alive, and escaped death in the well.

Toward morning she managed to climb out and got to the house. Taking her children with her, she crawled on her hands and knees to a neighbor two miles away, and died after telling her story. Villars was captured at Valley City and taken to Jamestown by Sheriff Eddy. A large mob gathered at Montpelier, and started for Jamestown.

THE FUNERAL TRAIN. The Remains of Alexander III. Arrive at Kharlov.

Kharlov, Nov. 10.—The funeral train bearing the remains of the late Czar, arrived here, from Sebastopol, after stopping at Simferopol, Pavlograb and Spassk Church, near Borki, where requiem masses were celebrated for the repose of the soul of Alexander III. Borki, will be remembered as the railroad station near which, on October 29, 1888, the Imperial train, with Czar Alexander III and the Czarina, on board ran off the line, killing twenty-one persons and injuring a number of others, among whom was the Czar, who then sustained injuries which are said to have been the indirect cause of the sickness which resulted in his death.

A CHINESE QUESTION. New York, Nov. 10.—The case of Lee Yuen, the alleged Chinese merchant, held here for entering the United States by way of Burlington, Vt., in violation of the Chinese Exclusion Act, was submitted yesterday to Commissioner Shields and United States District Attorney MacFarlane. They Rob Another Kansas Town and Shoot Down Citizens. Coffeyville, Kas., Nov. 10.—Two of the Cook gang plumed the town of Lenap, I.T., and left a bloody trail behind them yesterday afternoon. They entered the town in their character of bold bandits without any attempt at concealment, and terrorized the citizens until they had carried out their plans of robbery. B. H. Melton, a brave young man who attempted to stop them with his gun when they were riding away, was shot down and instantly killed. Another man whose name is not known, is reported to have been seriously wounded. The robbers were mounted on fast horses, and were heavily armed. They held up the proprietors of two stores and looted both places. They also robbed the post office. John Shufelt was relieved of \$100 in money and a gold watch. These articles were taken from his person. An effort was made to stop the bandits, but they were flying before their would-be captors could make a concentrated move.

Free Coal Fund. Now that the winter is approaching and the first snow is on the ground, the poor and needy are in daily questioning where their fuel supply is to come from. There is no hardship in the world like cold, and that added to hunger causes many deaths in this city. The resources of the various charitable societies are taxed to their utmost and many deserving cases have been reported to the "Free Coal Fund" by the clergymen of the city and the worse cases relieved. The fund extended an invitation to the members of the Literary Society to attend their intercollegiate debate which is to be held Friday evening, Nov. 16, in the Wesleyan Theological College. In accordance with this invitation the meeting was adjourned for two weeks in order that the members can attend the intercollegiate debate.

A NEW MORGUE.

A PRIVATE COMPANY OFFERS TO BUILD ONE.

WILL DO IT IN EXCHANGE FOR FREE CITY WATER.

Proposition Made to the Health Committee—Diphtheria Cases in the City.

The Health Committee met Saturday, there being present Ald. Beausoleil, Nolan, Loyal and Leclerc.

The following letter was read from the Montreal Cold Storage and Freezing Company:

To the Chairman of the Health Committee:

Dear Sir,—We have about completed arrangements to sink another artesian well to provide water for the new refrigerating plant, which we intend erecting during the coming winter, but before doing so, as we understand you have not come to any conclusion regarding a new city morgue, we beg to make the following proposition:

Instead of spending several thousand dollars in boring a well we would be willing to erect a morgue on our property on St. Paul Street, and give the city the free use of the morgue for ten years in return for free water from the city, which to run our machinery and hoists.

The morgue which we propose erecting would be a model modern building of the kind, which our contract would bind us to keep refrigerated to the satisfaction of the local health authorities, so that bodies could be kept as long as required for identification or other purposes.

Having refrigerating machinery costing over \$100,000 we can do this work for the city at one-third of what it would cost the city to equip and maintain a morgue for itself.

In view of the fact that there was not a full attendance of members of the committee, and that the question is an important one, it was resolved to defer the consideration of the letter till the next meeting.

It was decided on the application of Dr. A. P. Lachapelle, to give the Grey Nuns \$1,200 a year to keep the civic hospital in readiness for the receipt and care of patients suffering from contagious diseases, Ald. Leclerc dissenting.

The recent increase in the cases of diphtheria in the city was referred to by Ald. Beausoleil, who suggested that steps should be taken at once to allay public alarm. He thought the civic hospital should be opened at once for the reception of diphtheritic cases, leaving the General Hospital to take care of scarlet fever patients as at present.

Dr. Lachapelle and Dr. Laberge strongly in view of the suggestion, and a motion was passed recommending the City Council to open the hospital at once.

On the recommendation of Dr. Laberge it was agreed to ask for a charter amendment obliging the parents, relatives, and friends, etc., of a deceased person to report to the City Medical Health Officer, within twenty-four hours after death, a certificate of the occurrence, signed by a duly qualified physician forbidding suturing of cereteries to inter any body without a certificate from the City Medical Health Officer and prohibiting the taking of corpses out of the city without a permit signed by the City Medical Health Officer.

Before drawing up the amendments Dr. Laberge communicated with the different medical associations of the city, and received their unanimous concurrence in the step he had proposed to take.

The over-working of horses drawing loads of garbage to the Thackeray incinerator was referred to by Ald. Loyal, who said that he knew of one case where a horse had been obliged to haul a load of 3,300 lbs. out to the incinerator. This, considering the bad roads leading to the City Farm, he considered to be positive cruelty.

Mr. Morin promised to see that no over-loading will occur in future.

It is stated that there is no need for rushing the garbage out to the Gregory Farm at the present rate, as there is a very large quantity lying on the dump awaiting to be incinerated.

SIR HENRY TYLER SPEAKS

The Directors Are Waiting to Hear From the General Manager.

London, Nov. 10.—The correspondence between the Grand Trunk Railway Bondholders' Committee and Sir Henry Tyler, president of that road, has been published. The publication shows that the situation of affairs is exactly as outlined in these despatches last night.

The bondholders claim that the points which the directors now object to have investigated were all laid before the company before the recent meeting in this city, and the directors then agreed that the Bondholders' Committee was entitled to enquire into them.

Sir Henry Tyler, to-day, was asked whether he had anything to add to his interview, called exclusively to the Associated Press, in view of the publication of this correspondence. In reply, Sir Henry said that the company had no further statement to make at present as they were awaiting the reply of Mr. Seargent, the General Manager of the road. He added: "Our position is perfectly reasonable. The letters speak for themselves."

THE THREE RIVERS CHURCH.

Sir Hector Langevin to Act as an Intermediary in the Matter.

Three Rivers, Nov. 10.—Flags were flying over the Post-office and Customs House, in honor of Sir Hector Langevin, who was in the city yesterday. It would appear that the visit of the city's representative at Ottawa is in connection with the purchasing of the St. James (Anglican) Church of this city. It is said Sir Hector has been requested by the English Government to act as intermediary between Mr. Lafache and the Anglican religious authorities of the diocese. The object of the former body is to obtain possession once more of this church, which in bygone years was the property of the Roman Catholic Church. It is said that should the advances now being made mature into a fact, the church and rectory will be handed over to the care of Father Frederick, the Franciscan monk residing here. One reason why the Roman Catholic body wishes so much to recover the church is because of the remains of St. Didace being interred under the altar.

SIR DONALD HOME.

HE SAYS THE MCGILL PRINCIPALSHIP HAS NOT YET BEEN OFFERED.

THINKS THE LOAN FLOATED BY FOSTER IS A GOOD ONE.

Wants a Canadian, if Possible, for Old McGill.

Sir Donald A. Smith arrived home yesterday morning, via New York, and later in the day he chatted pleasantly with the Herald representative concerning his trip.

He looks in excellent health, and expressed himself as greatly pleased with his trip, although, of course, he had plenty of work to do while in Britain.
