FINANCIAL.

So far as can be ascertained,
amount of gold on the way from Eu-
rope to America is in the near vicinity
of \$6,000,000, a considerable proportion
of which is understood to be on ac-
count of the Quebec loan negotiated in Paris,
the balance to pay for American sec-
urities purchased on account, and for
the settlement of trade bal-
ance. Though the price of Exchange is
low, it has not touched the point yet.
