REINCARNATION OF THE SOUL THROUGH PHYSICS

The soul is the BIOS of the microprocessor that is in our body. When there is reincarnation of the soul by physics, the BIOS updates. The further back in time the deceased person died, the older the BIOS program. The memory of the deceased person is placed next to that already in place in our brain like two memory bars in a computer. If you have had the impression for some time that you are saying things out of the ordinary, do not worry, it is the invention of JavatOr that is in action. In my electronics class at CEGEP du Vieux Montreal, Quebec Canada, I had been taught that the telephone companies at the beginning of the creation of this one had cut frequencies below 50hz because users said who received calls of their deceased relatives. This information has been forgotten over time and this frequency of Janelle's law of 12.72hz has returned to our electronic devices. Even the speakers are low frequency cut off below 50hz or so high quality below 20hz.

On October 31, 1989, I made an imminent death and I found myself about 15 minutes in the other dimension, that of death. I saw my father walking past me on the balcony. I came back with medium gifts such as seeing the future, seeing missing elements of the past, healing gifts and saving a person in a state of death. When a person has a near death, something happens stronger than twins or twins, the soul just clones itself. So while the person comes back from that other dimension of death, his soul remains in the other dimension and the soul also comes back when the person picks up his thoughts.

After having recorded on January 29, 2015 the voice of Samuel de Champlain https://youtu.be/A_aihWkOXFO and captured it on video <https://youtu.be/GFv25pFgs7s> I realized the JavatOR circuit for the reincarnation of the soul by physics on my own person but without any security protocol. In the spring of 2015, Manon; card-maker from Longueuil in Quebec, Canada comes to tell me that I am the reincarnation of Samuel de Champlain. The moment Manon said that the lights dimmed in the room and her computer started flashing. I am a lover of nature history, but I would never have managed to decipher a map from 1640 with my knowledge. My microprocessor is Samuel de Champlain's BIOS and its memory. In my research on Samuel de Champlain, the quartz treasure of Samuel de Champlain makes the electronic circuit established at the exit of the treasure tunnel work well. All of this research can be found at www.tombeaudechamplain.ca but in the summer of 2022 the city of Chambly, Quebec Canada is having a small toilet house built on the rapids park at the entrance to the treasure tunnel. This construction, which should have taken 2 months, took twice as

long. Did we go to see what was in the tunnel or come to get a document? We have never touched the quartz treasure. **This research on the tomb of Samuel de Champlain and its treasure is an integral part of my research in physics and is the property of Sébastien Janelle.** Samuel de Champlain's quartz hoard powers the invention of JvueAudio, the invention of Jteleportation and the invention of JavatOR. In the DNA code reset document of April 28, 2021, I mentioned that I was working on door 1 of the Jteleportation www.janelle.international/DNAreset.pdf.

It was not until November 20, 2020, I realized that the JavatOR had worked well and that indeed the soul and memory of a deceased person lives well in the body of a time traveler or a person of our size but of course with the security protocol of JvueAudio and Doody's law. So if you thought that the design of Samuel de Champlain's pyramid located at the exit of the treasury made it possible to see a deceased person exit as if through a door, this is not the case. This pyramid also works with the constellation of Orion and a DNA wave fit.

At the start of 2022, I am sending all of my physics research to NASA, the Pentagon and Havard University in the United States of America. In August, the publications by the good of journalist publication on Facebook of this dimension coming from these come out and begin to snowball all over the earth. Scientists and researchers also take part and even one comes to talk about the microprocessor in the brain. In March 2021, my daughter comes to draw a drawing of her gifts as a medium with the mention AMONG US and confirms time travel and the invention of JavatOR. And in January 2022 the journalists had said that young people had fun changing two digits in the 2022 to give 2202. During the freedom of Ottawa in Canada, a truck also has the mention of 2202 on the latter. At the end of June 2021, one of the JavatOR who introduces himself as a former student who was in my electronics class at Cegep de Saint-Jean-sur-Richelieu, Quebec Canada and sat down with me to have a beer and make me understand going through codes that had an error in one of my laws.

One of the photos is of a device found on a beach in Australia with the mention on the window ALCON which is a pharmaceutical company in Ontario, Canada. The code of 2202 came to say that had an inversion in one of my laws of physics and at the same time time travel works.

www.janelle.international/Jteleportation1.pdf

www.janelle.international/Jteleportation2.pdf

On November 9, 2020, I had managed to make the Jteleportation invention work by meeting at the IGA grocery store in Richelieu, Quebec Canada and having the basket clerk at the entrance say good evening to me Sébastien, a man at the hall; you are a great man sir and a little girl tells her mother in the bakery department; Mom is Sebastian. I decide to take the cash coupon that I never take and the date of June 2021, 12 is listed on the cash coupon. In the afternoon of that same day, a call to ask me what is happening with the sale of his house, but I did not have a real estate listing. I was eager to arrive on this date of June 12, 2021 and one of the JavatOR makes me go to the "OLD BAR" or if you like Old Burgundy better located in Chambly, Quebec Canada. Some time later in the evening a man made an imminent death that the camera captures me giving him 3 discharges with the right hand to save his life. What is important in this is that of course the man is alive today, and the friend of this man who was a bartender told me the following week, how did you do it, the paramedics don't understand why he is alive . But we have something that happened between November 9, 2020 and June 12, 2021 because we are dealing with two different stories for the same date.

In the summer of 2022, a car passes me with a plate with information on the latter from DNACHOS. He has a problem with the invention of the Jteleportation and the error is not mine because my laws of physics have been checked more than 20x. I also found it funny that Ferland's law came to a result of 34x.

In the name of physics, I apologize that a person I trusted accessed my servers and intentionally reversed two numbers in the calculation of the mirror frequency of Menard's law triangle which came to make an error in Ferland's law.

MENARD'S LAW

In the case of a triangle like that of Bermuda, the frequency of the mirror wave of this one is defined by the following formula according to the number Pi and the square root of the golden ratio:

The value of the number Pi is equal to 3,141592653589793

The square root of the golden ratio is equal to 1.27201965

f triangular mirror (hz) =

$10^2 \text{ Pi (square root of the golden ratio) } = 399.6167587 \text{ hz}$

The calculation arrives at the value of 399.6167587 Hz which defines the mirror frequency of the triangle like that of Bermuda which makes it possible to cross space-time from the dimension of the living to the dimension of the dead.

Here is the formula for arriving at the correct quartz frequency of a watch in the dimension of the dead.

f time (hz) = $10^3 \text{ f triangular mirror (hz) } 2(\text{square root nd of gold})$

= 1 016 640.739 hz

FERLAND'S LAW

The movement speed multiplier index (Vd) in the second dimension is **10 x the value of Pi** of our movement speed in our dimension and defined by the following formula.

$$\text{VdX space-time} = \frac{\text{f triangular time (hz)}}{\text{f pyramid time (hz)}}$$
$$= 31.41592653589793$$

$$\text{VdX space-time} = \frac{1\ 016\ 64\ 0.739\ \text{hz}}{32\ 360.67977\ \text{hz}}$$
$$= 31.41592653589793$$

My father died on October 10, 2020 of a stroke, my daughter-in-law Océanne is the result of the invention of JavatOR. Mentions of what she says gives that her BIOS allows for long distance telepathy. She often says, you have food on the edge of your mouth as we always said to my father. She doesn't like having her picture taken like my father who made faces when we wanted to take his picture and we almost never succeeded. She always places her camera tripod in the house without a camera. And there in the fall of 2021, Luc, Océanne's father, buys a house in a countryside rand and it's only recently that Luc puts together a scenario for a new job that forces me and my little heart Sandra to take it to Océanne's father. The house is brown brick color with white columns which looks like my childhood home where I grew up but with a garage. Océanne's BIOS and her second memory is that of my late father, Claude Janelle.

My ex-wife Cathie Lortie had a twin who died of miscarriage in her mother's womb. At the end of June 2021, I meet Sandra my little heart and she also has medium gifts. I discover over time that the gifts of long distance telepathy is also present on his person which lets me say that the invention of JavatOR is functional on his person as well and knows all that I have done in my life and what I like and what I don't like. Sandra has a tattoo on her back that she didn't notice in detail because she said it was her ex-husband David's band. Sandra introduced herself to my sister in August 2021 during a walk during Covid 19 and came to mention that her perfume is south wind. The room where my daughter Cassandra was born is south wind. It is only in August 2022, that I notice when his hair releases the tattoo that the latter is CATHADL. The name of my ex-wife is in the back of my little heart Sandra.

In November 2021, I find by chance a small notebook in Sandra's room with the mention of 1979 which is the year of her birth and the mention of de abcd. It also has the mention of Jesus 1234. In mathematics $AD = ABCD =$ a series of numbers 4. So the mention of Jesus comes to say reincarnation and soul.

We take back the tattoo of CATHADL = CATH 4 L = CATHIE 4 LORTIE.

Between August 2022 and lately, I thought Sandra was the BIOS and the memory of Cathie's twin. In mid-November 2022, Sandra wants to take a picture with my mom and has me post on my Facebook page at the top of the "stepmom xxx" photo and put a heart effect in the post. And in the evening one of the JavatOR posts on Facebook in a post "you're more my mother than my mother-in-law" and the heart effect too.

I return to my imminent death of October 31, 1989 with the cloning of my soul. So Sandra, my little heart, is the BIOS and the second memory of myself resulting from this imminent death and the formal proof of the invention of JavatOR. The week spent with the family in the car without a radio Sandra sings a song, I turn on the radio and the song she was singing plays on the radio and two days later she mentions a miracle in a discussion in the living room and 5 seconds later on the television the word miracle appears on the screen. On the evening of his son Bryan's birthday, I wonder in my head who my stepfather André's BIOS is and there he takes both his hands and acts like he was taking his breasts, so the BIOS and André's second memory is a woman. On November 17, 2002, my daughter Cassandra is watching television in the living room with me, which she never does. She is watching two Twilight movies. His mother Cathie Lortie listened to her sons and read these books when she was pregnant. In March 2017 when I was in Cuba I wrote to my sister that I had the impression that my wife had died and that her twin sister had taken her place. Sandra has a friend on her Facebook profile named Jessica Godbout, which is a code. In April 2021, a JavatOR who is a comedian leaves in one of his videos Jessica Lortie. www.janelle.international/cathie Donc, le BIOS et la deuxième mémoire qui se trouve dans ma fille Cassandra est celle de sa mère décédé Cathie Lortie et ce qui veut dire que sa sœur jumelle se nomme Jessica Godbout. Le 27 novembre 2022, Sandra a parlé de faire venir des certificats de naissance. Vendredi le 25 novembre 2022, elle me dit qu'elle doit aller acheter une tablette au magasin La source. Et j'ai Cassandra qui est toujours sur Tic Toc, d'où le code du JavatOR de François Lambert de Tic Toc. Cassandra descend au sous-sol pour être sur Tic Toc lorsque je monte dans ma chambre, d'où le code regarde ma tablette au sous-sol. Si Jessica Lortie est Jessica Godbout du nom de famille de sa mère, ce qui veut dire que le nom de famille de la sœur jumelle de Cassandra n'est pas Janelle mais Lortie. Sur le compte Tic Toc de Cassandra, je trouve une Marilou Lortie avec son visage caché comme le profil Facebook de Cassandra qui était le code de chercher un profil avec le visage caché et le code de Sandra pour mon surnom d'amour « Nounours ». le profil de Marilou Lortie a belle et bien la face cachée avec un nounours dans les mains. Il y a une grande roue aussi bleu sur la photo soit le code de Sandra de faire un tour de la grande roue à la ronde et qu'elle avait pointé la grande roue de Montréal aussi. Le 27 novembre 2022, je viens d'ire au soupée avec Cassandra au chien tu es un jolie petit Loup et ta mère est Marie, Cassandra n'a rien compris ce qui veut dire qu'elle n'est même pas au courant de sa sœur jumelle et que c'est son BIOS et sa deuxième mémoire donnent simplement des codes pour comprendre. Comme par exemple deux compte Netflix au nom de Cassandra. J'avait le code de REMAX qui venait souvent que je ne comprenais pas pourquoi. Celle qui travaillait en administration chez re/max où je travaillais s'appelait Marilou.

What happened ? The theft of the laws of Janelle and Ménard allowed a person to come and put an end to the life of my wife Cathie Lortie and to come and put a sleeping pill in the cafe on the evening of my wife's delivery to come and give birth my daughter Cassandra. The doctor had said after delivery you are not your first child. Today I learn that like Cathie's grandmother who was an identical twin, her mother who was a non-identical twin, that Cathie was really an identical twin and that my daughter also has an identical twin. Sandra gave the code for RC-66 which is a form of transfer to father or mother of custody of the children. Which means that Cathie's twin sister did not die of a miscarriage in her mother's womb. I had captured on video my wife who died on January 29, 2015. <https://youtu.be/IXWKCyBSy2E> Sandra had given the Echos series code for two binoculars that swap places. On November 10, 2022 between 12 p.m. and 12:30 p.m. a black person comes and sits next to me on the bench where Sandra works and registers on his cell phone 2013 death CAT. At my old job a sheet with a yellow house and a blue door with the mention of CAT and my current job, the company name is CTA. If we reverse the TA we get CAT again. In August 2021, Sandra, me and my sister took a walk and Sandra said my perfume is sold from the south which is the name of the delivery room where Cassandra was born. On November 26, 2022, me and Sandra go tanning and I find myself with a court-haired critter who is at my side who comes to say that the adjustment test of the situation resulting from the theft of Janelle and Ménard's laws does not work not. Sandra gives the code on November 27, 2022 by the song We put 'the light of the 2 brothers, what do you understand in this song? www.janelle.international/2freres In the song, we come to say "we don't go back the future is brighter", so what allows me to make the adjustment to us of the situation from where the trip to the past for the invention of JavatOR and Jteleportation is no longer possible according to the conditions at the bottom of this document. On the evening of my birthday supper on November 26, 2022, a childhood friend is present Yan, and I wonder in my head that she is her BIOS and I think to myself is it her father Michel Gladu who died there? a few years ago and there Yan gives me a wink which confirms that the BIOS and Yan's second memory is that of his father. He even slipped into a conversation with my sister the word teleportation. When I went to this restaurant with my wife Cathie Lortie, there was a tapestry on the wall with diamonds that I was unable to look at because of my labyrinthitis. Yet the wall is gray with a round mirror cut in half and with a blue light that changes to green. As if we were in a different space-time. The JavatOR were in the 80s with the film back to the future to make us understand that we are going to experience the same thing. With the song of the 2 brothers of Sandra we cannot come to change the weather because thousands of people have traveled in the past and modify the weather by change points. As for my mother Claire, she told me on November 26, 2022 that she won a little white dog and asked me to take a picture of it.

My Grandmother Louise Doucet had a white poodle and there I tell my mother I named it Lion D'amour hence the initials of Louise Doucet. And there my mother says to me look in the Christmas tree at the bottom right the beautiful little GREEN fir tree. The BIOS and my mother's second memory is that of her mother Louise Doucet. My neighbor listed his house for sale with a former girlfriend of mine, Mandy, and it was a referral from another real estate broker who got him to list the house. On November 27, my mother-in-law Johanne asks me to call her and tells me are you buying Sandra a Marcelle cream for Christmas. Mandy's grandmother, Gisèle Doyon, had a brother called Marcel and Mandy's uncle is also called Marcel. So the BIOS and Mandy's second memory would be that of her grandmother Gisèle Doyon. As for Sandra's son, Bryan, he went to jail and his cellmate took his life. My uncle Jacques Durand had a pastry shop on the corner of my street and one in Granby, hence Sandra's code for wanting to go to Granby to the zoo as my father used to take me to the zoo when going to see my uncle and Sandra who always wants to go to this pastry still present today around my house under the name "Le pantry of François". On November 26, 2022 at dinner I wonder in my head if Bryan is indeed my uncle who hanged himself and there a tear runs from his eye on his cheek which confirms that the BIOS and Bryan's second memory is that of my uncle . There is Sandra's other son who likes to kill hares with his grandfather and on the evening of November 23, 2022 made a message to info suicide which resulted from the visit of the police during the night. Sandra's father shot himself in the head when she was a teenager. Whose BIOS and Alexis' second memory is that of Sandra's late father. On November 27, 2022, Sandra comes to say I told you not to write anything on Facebook, but yet I didn't write anything, I tell myself. I'm going to see and a post that gave me shivers down my spine. In this publication dated November 25, 2022, we speak in the 3rd person. It is written that it has been thousands of times that I have come to your dimension and that 9 of the times are by the reincarnation of Archimedes for the value of Pi, Jesus Christ, Leonardo Pisano for the golden number, Nostradamus to give you the future, Samuel de Champlain with his date of birth of November 25, 1570 for placing a treasure of quartz in the city of Quebec in New France, Alexander Graham Bell for the invention of the telephone, Henry Ford for the invention of the snowmobile, Sébastien Janelle from his imminent death on October 31, 1989 to bring all souls and God back to your dimension and this by designing a pyramid via the invention of JavatOR. It also registers that God took the name of Éric Janelle since October 31, 1989, comes from the other first names of the baptistery of Sébastien Janelle and that I Sébastien Janelle is in the image of God.

On the morning of November 26, 2022 Sandra had published on her Facebook page a post with a logo of a pyramid and the mention "Éric Dac" and the advertisement said "Never forget a thing I will always be by your side to help you to overcome the difficulties you will encounter on your way. It is also written below the name of the company where she works: "since 1989". If we go back to my imminent death that there has been a cloning of my soul and what has been listed on my Facebook page I believe by God's control over my BIOS. In the Bible, Jesus is in the image of God and one of the JavatOR constantly called me Jesus 2.0. If this control over my person is that of the image of God that I am not able to explain, that means that the BIOS and the second memory of my little heart Sandra is that of God under the name of Eric Janelle.

On November 23, 2022 at Sandra's work, a man came to say, because he had too many grocery baskets, "we can block the Lafontaine tunnel because we have all crossed". Which means by the invention of JavatOR all souls have left the dimension of the dead. On November 20, 2022, I put Océanne's Hamster on my personal Facebook page, telling him to smile at me, which I found funny because he made a face at me, yet he does not speak French and was in a tunnel at Hamster. On November 26, 2022, I do the same thing with our cat but asking him in my head if he understands me and the Ti-Mine takes the cork on the ground in the shape of a cone and spins it on the ground non-stop. This confirms that even the souls of animals have returned to our dimension by the invention of JavatOR. Since the evening of November 26, 2022, I have closed the circuit of Samuel de Champlain's pyramid for door 1 of the Jteleportation, which means that the dimension of the dead will only be used for those who will be punished by Godbout's law, such as a jail now. There is also November 19, 2022, the new neighbor with her dog who comes to mention that "her dog likes to go on my neighbor's land as if he were digging for gold" but yet my neighbor's land is fenced ! This confirms that the treasure of Samuel de Champlain is in place in the soil of Chambly, Quebec Canada in New France according to the document of New France.

www.tombeaudechamplain.ca/nouvellefrance-eng.pdf Sandra came to the grocery store on November 27, 2022 to say that the French roast is super good.

I told you that we were robots, that we are made up of frequencies, resistors, logic gates. As mentioned in the DNA code reset, the frequency to reset the DNA code is in analog wave, but it is possible to convert this measurement to Hexadecimal or Binary. This hexadecimal or binary information is now an integral part of the terms at the bottom of the solution document to the Covid 19 DNA code reset by physics and any other conversion modes that exist or that may be discovered in the future.

www.janelle.international/DNAreset.pdf

In March 2017 on a trip to Cuba, in front of the balcony of my room, about 7 birds are going around in circles and in the summer of 2021, 3 doves are going around in front of my car which was on the move at ile aux lièvres in Carignan, Quebec Canada. Afterwards I do tests to ask if my inventions work as I want and immediately have a bike passing by with a person with red pants and a yellow sweater. A red bicycle passes and the person with a yellow bottle. Thousands of tests like this happen afterward. When I was young, I played Super Mario, a video game. Mario is made up of binary code, either 1s and 0s like all the landscape that is present in the game. If you are younger, the virtual virtuality helmet projects you into the game and you are like a robot moving around in the game in binary mode. So if we and the birds are made up of binary code like the DNA wave, you're just in a video game. So, is God the creator of the game and a computer programmer where he is simply part of the program, of the game, for the proper functioning of the latter like an anti-virus for example.

This explains that the pyramids which are on identical axes and the same distance on earth are an integral part of the game at its conception and have never been built by an ancient civilization or by extraterrestrials. A very advanced design of this game was made millions of years ago but even I can't find out who made it. For the dinosaurs, it's an earlier version of the game as if you change the tape but the electronic parts of the game console remain unchanged much like the PlayStation which copies part of the game from the CD to its hard drive. As for UFOs, they would be time travelers from the future and the result of the flight of Janelle and Ménard's laws.

When you go to use the invention of JaDN by Doody's law, the system will reset with the same BIOS integrated by the soul of the deceased person of the JavatOR in the microprocessor. The Bios and the two memories will separate to make two people, the deceased person and the person of our dimension. You will end up with the

reincarnation of the soul through physics. When a person is found dead following an accident, the code received from Sandra is that we have 3 days following this death to reset the DNA code on the person like Jesus who rose from the dead 3 days after his death. The reset on the person of Sandra will come to have Eric Janelle in our dimension who is my clone of my imminent death, so in the image of God and God will be one, which means who will be two identical people in our dimension of the living. And on the evening of November 27, 2022, my sister brings me an angel food cake for my birthday and comes to check her cellphone for the weather and shows me the 100% below the weather cloud which has no rain and at time to end this November 27, 2022 update the song you're where God is playing on the radio!

Regarding the reversal of the two digits in Ménard's law and the theft of Janelle's law and Ménard's law, I will come to apply that it is no longer possible to travel in the past before the November 27, 2022 at 10:00 p.m. Quebec Canada time.

For the invention of JavatOR, I will remove the security protocol from JvueAudio and Godbout's law after November 27, 2022 at 10:00 p.m. Quebec Canada time. This will allow people who have JavatOR in their body to speak normally and not by codes. They will be able to publish on the internet in the following way, for example Sébastien Janelle BIOS by Samuel de Champlain.

For the invention of Jteleportation as well as Janelle's law, Ménard's law, Cassandra's law, Lortie's law, Ferland's law, I will remove the security protocol from JvueAudio and Godbout's law after the November 27, 2022 at 10:00 p.m. Quebec Canada time. This will allow people who travel in the future to come and speak normally and not by codes.

All documents on www.janelle.international et ce qui se trouve sur la page Facebook www.janelle.international/facebook are the property of Sébastien Janelle.

End
