GENERAL SMUTS TO ATTEND IRISH CONFERENCE

The Option On Ball Street Site Extended For Two Months

GENERAL SMUTS HAS LEFT FOR IRELAND TO CONFER WITH SINN FEINERS AND UNIONIST LEADERS

Great Interest Is Manifested in the Mission of General Smuts to Ireland, There Being a Difference of Opinion Whether It Was Prompted by the Government or Undertaken at the Invitation of the Irish Leaders—The Dublin Conference Was the Outstanding Feature in London Newspapers This Morning, Nearly All Treating It Sympathetically and Expressing Hope that it Would Lead to Peace in Ireland.

(Associated Press Despatch)
LONDON, July 5.—General Jan Christian Smuts, Premier of the Union of South Africa, left for Ireland last night and was expected to arrive in Dublin early today. It was understood here this morning that the purpose of his visit to Ireland was to confer with Sinn Fein and Unionist leaders of South Ireland preliminary to the resumption of their conference next Friday.

The Unionists and Sinn Feiners held a brief meeting in Dublin yesterday and reports received here indicated that they had reached an understanding as to matters to be discussed at future conferences.

The Dublin conference was the outstanding feature in London newspapers this morning, nearly all treating it sympathetically and expressing hope that it would lead to peace in Ireland.

Comment on the meeting, however, was not devoid of remarks that the conference did not affect the programme of the Sinn Fein gorilla warfare. An exception to the general trend of hope was found in the editorial comment by the Morning Post, which opposed any concession to the Irish Republican. It began its editorial by criticizing the Government's attitude of "Eating dirt."

Great interest was manifested in the mission of General Smuts to Ireland, there being a difference of opinion whether it was prompted by the Government or undertaken at the invitation of Irish leaders.

Sir James Craig, Premier of Ulster, left Belfast for London today, and it is pointed out he will have abundant time to confer with members of the Government and others whom he may desire to consult, pending a decision by De Valera, respecting the proposed conference of Irish leaders with Mr. Lloyd George.

Earl Middleton, one of the four Southern Unionists who took part in yesterday's conference at Dublin, arrived in England last night, and it is assumed he intends to confer with politicians here during the interval before the resumption of the Dublin conference on Friday.

Earl Middleton, when interviewed at Holthead, declined to talk of the proceedings of the conference, saying the participants mutually had agreed to say nothing for publication at present, adding, as far as he personally was concerned he would say there was no reason to be dissatisfied with the programme made. He reiterated the statement issued at Dublin last night to the effect that certain decisions had been reached, but refused to indicate anything regarding their character.

GENERAL SMUTS ARRIVED AT DUBLIN THIS MORNING.

(Associated Press Despatch)
DUBLIN, July 5.—General Smuts, the South African Premier, arrived in Dublin this morning, and is a guest of the Lord Mayor.

The welcoming delegation, including the Lord Mayor, Arthur Griffith, founder of the Sinn Fein, and R. C. Barton, Sinn Fein member of Parliament for Wicklow, awaited General Smuts at Kingstown, expecting to meet him there and escort him to Dublin.

Through some slip, however, they missed the General and he motored to Dublin unnoticed.

CLAIM GENERAL SMUTS' VISIT IS NOT OFFICIAL

(Associated Press Despatch)
LONDON, July 5.—The visit to Ireland of General Smuts will not be official, says the Daily Mail, but he is going in response to an invitation of certain Irish leaders.

The paper declares he already has met some of these leaders with preliminary success, telling them of his readiness to act as a negotiator whenever and wherever his services are required.

STATED DE VALERA WILL PROBABLY VISIT LONDON

(Associated Press Despatch)
LONDON, July 5.—"Reports of excellent augury" have reached Westminster relative to the conference at Dublin between De Valera and the four southern Unionists, says the parliamentary correspondent of the London Times.

In quarters where a few days ago the prospect of Mr. DeValera coming to London was regarded as doubtful, he adds, there sprang up a belief that the conference had changed the aspect of events, and that his coming might be regarded as "not barely possible, but even probable."

Appeal for Funds

It is truly said that "a nation marches forward on the feet of little children." Only a few years and they must carry Canada's responsibilities. Are we doing all we can to make the way smooth for them? The least we can do is to make them stronger and better able to cope with the work that lies before them. The Victorian Order is willing, but it is in need of money. Will you contribute enough to help even one sick or defective child?

ASCOT WAS THE SCENE OF VERY SERIOUS FIRE

Four Houses Were Destroyed by Flames Yesterday—Help Sent from East Angus.

A serious fire occurred yesterday afternoon in Ascot when four of the houses in the village were destroyed. The fire is reported to have started in the roof of one of the houses, and owing to the intense dryness of all materials, the fire spread rapidly. The blaze started about four o'clock and by five the villagers realized that aid was necessary. Word was sent to East Angus and Sherbrooke, and help soon arrived from the former place. The Sherbrooke officials did not deem it wise to send any apparatus and men on account of the serious probabilities of fire in this city.

Upon the arrival of help from East Angus an energetic attack was made upon the flames and they were finally put under control, but not before four houses had become a total loss.

It proved impossible to establish communications with Ascot this morning and further particulars are as yet unobtainable.

RESOLUTION RE DEVELOPMENT OF PALESTINE

Over 500,000 Jews in United States Request Britain to Become Mandatory Power in Palestine.

(Associated Press Despatch)
PITTSBURG, Pa., July 5.—Resolutions affecting the development of Palestine and involving an expenditure of \$5,000,000 were adopted by the Palestine Development League at its closing sessions here yesterday.

The League's membership is composed of the minority group of the Zionist organization of America. The development programme for a wholesale co-operative corporation building and loan association, industrial corporations, a farm loan fund and construction corporations.

Judge Brandeis in pointing out the accomplishments of the League, stated that under its leadership more than 500,000 Jews in the United States had signed a petition requesting that Great Britain become a mandatory power in Palestine.

THE WEATHER

Insist Dominions Contribution To Naval Strength Of Empire Be Definitely Fixed

Opposition to Discussion of Questions Relative to the Naval Defence of the British Empire, by Premier Meighen and Others, Seemed to Have Broken Down, and the Admiralty Laid Before Members of Conference a Confidential Memorandum.

(Associated Press Despatch)
LONDON, July 5.—Questions relative to the naval defence of the British Empire were discussed at today's session of the Imperial Conference, Premier Lloyd George and the Dominion Premiers resuming consideration of the subject where it was left off at yesterday's meeting.

Opposition to the discussion of subject, by Premier Meighen, of Canada, and others, seemed to have broken down, and the Admiralty laid before the members a confidential memorandum which was understood to have been the basis of yesterday's debate. Naval authorities in the British Cabinet have been insisting that the Dominions' contribution to the naval strength of the Empire should be definitely fixed.

It was expected that at the conclusion of today's meeting an official summary of the proceedings would be issued to the press. Herebefore the conference has not made public any of the discussions that have taken place.

HOSTILE DEMONSTRATION BY GERMAN POPULATION

(Associated Press Despatch)
LONDON, July 5.—After the Poles left Beuthen, Upper Silesia, yesterday, says an Oppeln despatch to the Daily Mail, a French battalion entered the town amid a hostile demonstration by the German population.
Later, Major Montalieres, of the French army, was shot dead by a civilian. The crowd is said to have shielded his assailant, who escaped.

BURNED BRITISH FLAG AT NEW YORK, IT IS STATED

Flag Pulled Down and Burned, While Crowd of a Thousand Looked On.

NEW YORK, July 5.—James Barry, 124 Audubon Avenue, claiming to be a veteran of the World War and a former member of the A. E. F., and two companions pulled down a British flag which had been flying over the Hilltop apartments at 15 Audubon Avenue. Later the flag was taken to a vacant lot and burned, according to the Morning Herald, which reports the affair.

The newspaper states that a crowd estimated at one thousand watched while the flag was being burned and offered no interference. The flag had been flying in company with the French and United States colors as part of the July 4th decorations.

Claim That The British Government Must Rid Itself Of Every Vestige Of The War Policy Of Control And The Subsidies

The Serious State of the Country's Finances Was Emphasized in the British House Last Night by Sir Arthur Griffith-Boscawen and Sir Horace Stenson Horne.

(Associated Press Despatch)
LONDON, July 5.—The serious state of the country's finances was emphasized in the House last night when Sir Arthur Griffith-Boscawen, president of the Board of Agriculture, and Sir Horace Stenson Horne, Chancellor of the Exchequer, admitted the continuance of the agriculture subsidy.

Both of them said that the government must rid itself of every vestige of the war policy of control and subsidies. The Chancellor declared that he must bluntly tell the House it was impossible to continue on expenditure of this kind with the other colossal commitments.

The president of the Board of Agriculture made his statement in moving the second reading of a bill to amend the Agriculture Act passed last December, which guaranteed minimum prices to the farmer for his produce, and was estimated to entail a subsidy amounting from twenty million pounds to thirty million pounds yearly.

Sir Arthur explained that the Government never contemplated such a sudden heavy fall in prices, which, if the agriculture act were maintained, would involve the Government in a heavy yearly subsidy.

Therefore, he said, instead of paying the farmers guaranteed pay for their produce, as provided under the Agriculture Act, the Government proposed by repealing the bill to pay the farmers this year a composite sum of three pounds per acre for wheat and four pounds for oats, which would mean a government expenditure of between fifteen million and thirty million pounds this year. Thereafter the payments would cease altogether.

Sir Arthur declared it was intended to substitute voluntary conciliation councils for the compulsory wages board established by the Agriculture Act, and that the farmers would be warned they could not return to prewar conditions by making drastic cuts in wages.

DISCOVERER OF SOUTH POLE IS AT SEATTLE

Still Considers Feasible His Project to Drift Across the North Pole.

SEATTLE, Wash., July 5.—Ronalud Amundsen, discoverer of the South Pole, and seeker of the North Pole, arrived here last night from Nome, Alaska, where he appeared the middle of June after leaving his schooner, the Maude, at Cape Sorge, disabled by a broken propeller.
Captain Amundsen said he still considered entirely feasible his project to drift across the north pole with the current, which he believes flows from Greenland to Siberia. He expects to remain in this country a while, he explained, before proceeding with his voyage.

FOURTH OF JULY ACCIDENTS NOT SO NUMEROUS

Greater Number of Fatalities Were from Drownings and Automobile Accidents.

(Associated Press Despatch)
CHICAGO, July 5.—Reports of Fourth of July accidents from various parts of the United States revealed today that while the celebration of fireworks and firearms took its toll of deaths and seriously injured, by far the greater number of fatalities were from drownings and automobile accidents, common to all summer holidays. Heat prostrations also took a number of lives, according to the reports.

In New York city seven persons were drowned, one committed suicide after becoming demented from heat, and one heat prostration was reported, while premature explosions of fireworks accounted for only minor accidents.

Chicago reported two deaths from accidental shootings, another wounded, five drownings and five killed in automobile accidents, while a panic in a vacant lot when a quantity of fireworks exploded prematurely led to several being hurt.

A young man accidentally shot and killed himself at Minneapolis, and at Rushville, Ill., two were killed when a train struck their automobile.

TECHNICAL SCHOOL SITE AGAIN DISCUSSED IN COUNCIL; OPTION IS EXTENDED FOR TWO MONTHS

Finance Committee to Meet Commission on Wednesday Evening—Revision of Wage Scale—More Adequate Police Protection Asked For—Council Adjourns Until August 15th.

THE question of the Technical School site again came up for consideration at the regular session of the City Council yesterday evening, and after a certain amount of futile discussion the matter was referred to a joint meeting of the Technical School Commission and the Finance Committee.

Aldermen Langis and Delorme were anxious to have the matter disposed of as early as possible and drew the council into an adjournment of some ten minutes in order to have the question considered by the Finance Committee.

After a brief session, the Finance Committee reported that they were unable to make any decision as they had not all the necessary documents with them, but were fully disposed to meet the Technical School Commission on Wednesday evening next.

As intimated, the holders of the different properties on Ball Street were evidently anxious to dispose of their holding and Alderman Delorme advised that an extension of the option had been secured for another two months.

Architects Fees Discussed
At the opening of the session, the matter of the municipal offices was again brought up, involving a discussion of the architect's fees. Alderman Langis advised he was not familiar with the regular rates but thought it was five per cent.

Alderman Skinner wanted to get a definite statement from Mr. Gregoire stating what the fees would be, but Alderman Langis did not consider this necessary. Alderman Skinner further maintained that Mr. Gregoire was actually drawing plans but Alderman Langis claimed they must have been merely sketches as he had issued no orders for the drawing of plans.

The finance reports was read by Alderman Forest, in lieu of Alderman Brault, who was acting Mayor. A demand for reimbursement of part of the cost of the sewers, etc., laid property of the Sherbrooke Real Estate Company, at "Bellevue Park" and was held over pending detailed information as to the nature and amount of the refund asked for.

The City lawyers have been instructed to take immediate action for the collection of the many accounts still due to the city, and this action is expected to see a steady settlement of accounts by a large number of delinquents.

Dealing with the recent petition of a number of ratepayers calling for a continuance of the street car service from Woodward Avenue to the terminus of the Newington service, the finance committee decided to send a copy of the petition to the Street Railway Company asking that the council be advised why the Company had not acceded to the request contained in the petition, namely, why they did not put into circulation the street cars from Woodward Street to Newington as is required by the Company's contract with the City.

Revision of Wages Schedule.
A gradual revision of the general wages of the City employees was approved of. Individual rates were altered but the carpenters were placed at forty-five cents an hour, automobile and truck drivers at thirty-five cents an hour, drivers of dump wagons at forty cents an hour, carters, single, forty-two and a half cents an hour, carters with team, fifty-five cents an hour.

After a certain amount of discussion the matter of the Finance Committee but Alderman Langis, supported by Alderman Delorme, pressed for immediate action. The finance committee accordingly retired, but lack of certain documents prevented them from arriving at any definite decision. The committee undertook however to meet the Technical School commission on Wednesday evening next.

Ald. Langis proposed that the Council be authorized to pay for the land in question, and this was seconded by Ald. Tremblay.

Ald. Newton: "The land has not decreased in size, but has gone up in price since the citizens voted upon it. The Fairbanks property can be secured for half the price, and it represents a much larger area. It is a business proposition and means the saving of a considerable amount of money to the ratepayers. From what I have heard, this ought to go back to the citizens for consideration."

Ald. Langis: "Let us come before (Continued on Page 8.)"

Eight Dead And Many Badly Injured As A Result Of Explosion--Much Damage Done

Ten of the Thirty-six Persons Injured Are in a Critical Condition—Two Large Stills of Standard Oil Company's Refining Plant at Whiting, Indiana, Exploded.

(Associated Press Despatch)
CHICAGO, July 5.—Eight men are dead today, thirty-six others injured, ten so seriously that they may die, and damage done to property estimated at \$2,000,000 as the result of yesterday's explosion in the Standard Oil Co's refining plant at Whiting, Indiana.
Most of those injured were caught in the shower of flame, but others were struck by the falling brick and steel walls of the two steel stills which burst. Excessive pressure or a tiny leak of gas were two probable causes of the explosion advanced by those familiar with the operation of the stills, which were filled with crude oil under pressure in the manufacture of gasoline.
The first still to explode fell against the second, causing it to let go also. Fire ignited the wreckage and it was some time before the bodies could be recovered.

Mr. Boulanger has the frame up and started boarding a new 80 x 50 foot barn on the 8th range, N. E. Whitton, and Mr. Fortier has put in a cut stone foundation and the frame up for a new dwelling house on the same range, nearby.

The new Government road from the Ness Hill corner to Spring Hill has been finished as far as Taylor's Hill road, about half a mile from Spring Hill station. This part has been cleared of trees and brush, but no road work has yet been done.

This new road follows the railway line and shortens the road from Megantic to Spring Hill considerably, with no hills, and almost as level as the railroad. It is a good automobile road, thirty to forty feet wide, well gravelled on a stone foundation, with cement culverts. When the unfinished half mile is done it will make the road from Megantic to Spring Hill nearly two miles less than the old road by Sandy Bay and Drumavack.

There Is No Place Like Home

All of us are mighty glad to be citizens of this thriving, prosperous community—and most of us, especially those who don't own their own homes, have got the "building bug." Lots of people say they have held up, waiting for lower prices. Well, the low prices have materialized; with lumber and labor down, building is rapidly on the increase.

Y.M.C.A. NOTES
SPECIAL MEETING OF BOARD OF DIRECTORS
The board of directors of the Y. M. C. A. met to consider the report of a special committee appointed to prepare a slate of officials for the present year. Mr. W. H. Wilson reported for the committee as follows: President, J. R. Sangster; vice-president, D. J. Salls; recording secretary, G. S. Lohrop; treasurer, J. G. Armitage.

On motion the report was unanimously adopted and in a brief address the retiring president congratulated the new president on his election to office, and referred to the cordial relations that had existed between the members of the board and the officials during the past year. The new president taking his place in the chair, expressed his appreciation of the honor conferred, and looked forward with help and assistance of the other officials to make the year 1921-22 a year of service to the community.

After the election of officers, speakers for redecorating the building were opened and considered, and on motion the matter was referred to the house committee with power to act.

The next item of business was the consideration of the purchase of lockers, it was necessary to put two and three to one locker; while if strangers came, members of other associations, it is not possible to give them a locker. An offer of lockers from Montreal was considered and the matter left in the hands of the house committee with power to act.

The business men's outing was then considered, and it was decided that it should be held at the boys' camp grounds, Ayer's Cliff, on Saturday, July 23rd, the chairman naming the committee to make arrangements for the outing. This being all the business the meeting adjourned.

BOYS' CAMP
Yesterday morning a happy bunch of youngsters gathered at the Union Station to take the train for Ayer's Cliff, where the boys' camp opened under the supervision of Mr. R. J. Smith, physical director of the Y. M. C. A., who will be assisted by W. E. Hoare. In all fourteen boys started off from Sherbrooke and

MARRIAGES

FRASER-PARKER
A quiet but one of the prettiest of June weddings was solemnized at high noon, on June 30th, at the home of Mr. and Mrs. Charles H. Parker, 73 Brooks Street, Sherbrooke, Que., when their youngest daughter, Winnifred Eliza, was united in holy matrimony to Mr. James Rowan Fraser, of Casper, Wyo. The ceremony was performed by the Rev. Alfred Bright, of St. Andrew's Presbyterian Church, in the drawing room, which was decorated with masses of roses, white daisies and ferns. The wedding march was played by Miss P. A. Parker, sister of the bride.

The bride, who was given away by her father, wore a gown of white satin and georgette crepe, the traditional veil and orange blossoms, and carried a bouquet of white roses and daisies. She was attended by Mrs. Edward Hurley, of Sawyerville, as matron of honor, wearing a dress of sand charmeuse and georgette crepe with silver trimmings and carrying a bouquet of pink roses and daisies.

The bride's niece, Miss Barba Parker, acted as flower girl, wearing a white lingerie frock and carrying a basket of roses and daisies. Mr. Edward Hurley, of Sawyerville, acted as best man.

Following the ceremony a reception was held, after which the bridal party left for a motor trip to Quebec. The bride traveled in a navy blue serge suit, dark blue hat, and veil. After returning from their wedding trip, Mr. and Mrs. Fraser will leave shortly for their future home in Casper, Wyo.

Among the out of town guests were: Mr. and Mrs. H. Leslie Parker, of Denver, Colo.; Mr. and Mrs. Edward Hurley, of Sawyerville; Mr. and Mrs. Oscar Paige, Miss Phoebe Paige, Miss Edith Brazzel and Mrs. A. H. Bailey, of Cookshire; Mr. and Mrs. E. Hodgman, of Birehton; Mrs. M. Lefebvre and Mr. Cecil Lefebvre, of Canterbury; Mrs. Geo. Pye and son, of Windsor Mills; Rev. C. H. Bowan, of Fitch Bay; Mrs. Janet Cobleigh and Miss Ina Cobleigh, of Eaton.

DEATHS REPORTED
MR. O. H. E. WEBSTER, COATICOOK.
COATICOOK, July 5.—Mr. O. H. E. Webster passed away at his home on Johnston Avenue, Friday afternoon, July 1st, after an illness of about ten weeks.

He leaves a wife, one daughter, Mrs. A. Stevens, Sherbrooke; one son, Oscar Turner, of the Bank of Montreal, Sherbrooke; two sisters, Mrs. Turner Shurtleff and Mrs. Ada Gordon, Coaticook; one nephew, Oscar G. G. Webster, Coaticook.

The funeral services were held on Sunday afternoon at four o'clock at St. Stephen's Church. As the late Mr. Webster was a Mason, the burial was conducted with Masonic rites.

were to be joined by five others from Lennoxville. A few more left in the afternoon and others today. In all it is hoped there will be thirty boys under canvas.

In camp the boys are to have boating, swimming, polo, basketball, indoor and outdoor baseball, hikes, and athletic meets, and everybody is looking forward to one of the finest camps yet held. The boys will break camp on the 16th, when their places will be taken by senior members. There is still some room and time for applications to be sent in with rates the lowest that have ever been made for summer camp. The seniors will remain in camp until July 30th.

Y. M. C. A. CAMP
Early reports from Ayer's Cliff state that the youngsters at the Y. M. C. A. camp are having a splendid time. There were some additions yesterday afternoon, bringing the total up to twenty-six at camp. There will be room for a few at the end of this week. Any youngsters that want a good time couldn't do better than go there.

An Up-to-Date Frame and Stucco Bungalow

Frame and stucco is a combination for home builders that is proving daily more popular. First of all, such a home is always attractive from the outside and stucco is a material that fits in well with practically all surroundings. Even in the most exclusive suburban developments does the stucco cottage hold its own so that the person who is considering building will not go far astray if he chooses this combination of materials wherewith to build his home.

The house shown today is an ideally planned bungalow. For the family without a servant it can be conveniently arranged while it can, on a moment's notice, be turned into a two family house. Thus the owner, hard pressed to make ends meet, will be able to help out his finances by making the second floor into an apartment as well as building a house that is attractive and charming not only from the outside but on the inside as well.

Entrance is into a large living room which extends the full width of the house. It is pleasantly lighted and has an open fireplace to add charm. Off from the living room is the dining room in the rear of which is the modernly equipped kitchen. A narrow passageway connects the bed room and bath with the front part of the house and assures privacy to these two rooms. A spacious front porch and a service porch in the rear complete the first floor plan.

Upstairs there are two bed rooms, a balcony and plenty of storage space.

The total size of this house, exclusive of the porches, is 30 feet wide by 33 feet 6 inches deep. It is of frame construction finished with cement stucco and its broad sweeping roof is covered with either colored asbestos shingles or with shingles stained with creosote. The cornices and all outside trimmings are of pine, painted white, and the

stucco surface is tinted a soft cream. The main living and dining rooms are finished in Mission, stained oak, and the second story, also the kitchen and rear rooms are finished in Washington fir with a light brown stain. There is a full basement with concrete walls and cement floor. The estimated cost of building this little home, exclusive of the plumbing and heating, is placed as being between \$7,500 and \$8,500.

BRICK RING IN MONTREAL, SAY CONTRACTORS

Fixed Prices—Bricks and Cement Should Be Cheaper.

"There's a brick ring in Montreal, and neither you nor I can get behind it," a young building contractor stated the other day, discussing the still prohibitive price of bricks and cement and other builders' supplies. He was one of a number of building men who had got in touch with the would-be home builder. This man reported that a number of contractors had written him offering to straighten out his difficulties for him, and he was evidently pleased to have gained so much insight into the details of the task he had in hand. One of his advisors, however, after starting him with a calculation of the cost of his brickwork, gave him some information regarding the cost of materials as a result of which the prospective builder invited his informant to make same public.

"I have just shown this gentleman," the contractor said, "how his bricks are going to cost him \$421.50 delivered on the job, the wages of bricklayers putting those bricks up, and other expenses incidental to the employment of labor, will amount to \$234, and my profit on the job (and if there is to be a contractor connected with it he must have something for his work) amounts to \$49.

"That does away with the idea that either the cost of labor or the contractor's profits are the cause of building being expensive. There may be some building contractors who are taking excessive profits. The amount of profit taken by contractors varies very much according to what they think they can get away with. But the price of bricks and cement, plus the cost of bringing them to the job, amounts to twice as much as making them into brick walls and cement foundations once they get there.

"Brick List"
"You may go to any dealer in builders' supplies you like, and you will get just the same price on bricks as I am charging. You can't get them a cent less, because there is a brick ring in the city which prevents anyone from selling bricks below that price. If your name is on the 'brick list,' which was compiled early this year, you can get a certain discount off your bricks as a contractor or wholesaler; if your name is not on the list, you might as well buy bricks one at a time. You will pay the same price for them."
"Bricks and cement have practically not come down a cent since

last year. Bricks were \$18 early last winter, and they are still \$18 f.o.b. for ordinary plastic brick. There isn't a sign of a drop in cement prices. When the bricklayers and other building workers agreed to a reduction of ten per cent, and upward in wages, they were entitled to expect that other elements in building costs would meet them in that respect, and that a drop of ten per cent, and upwards would result in the cost of new buildings. It hasn't happened, and those parties who cut down their wages or their profits are entitled to kick against the other contributors who did not.

"Let us have ten per cent. off bricks, cement and the other expensive items, to match the fall in labor, paint, contractors' profits, glass, lumber and other factors which have already done their share toward the drop."

THE CENSUS.

Census taking is in progress in the Dominion and there is a good deal of speculation regarding the outcome. It is expected the returns will show the Dominion's population in the vicinity of nine millions. This figure would not show a remarkable increase and leaves the possibilities of the next decade very great.

The Toronto Globe in an article under the heading of "Canada's Population," says:

"From figures already available officials engaged in the compilation of the census returns estimate that the population of Canada when tallied will be somewhere between 8,750,000 and 9,250,000. Assuming that the actual total is about nine millions, the ratio of growth shown will be considerably less than that of the census of 1911. In the ten years 1901-1911 the population of Canada increased from 5,371,000 to 7,206,000, an addition of 1,835,000, or 34.17 per cent.

"A further addition of an equal number during the past decade would give a total of 9,041,000, but the ratio of increase would be slightly under 25 1/2 per cent, instead of over 34 as in the former decade.

"The natural increase is probably slightly over one per cent a year, so that by the excess of immigration over emigration Canada has added about fifteen hundred to her population in a ten-year period, embracing four years of war, during which immigration was practically suspended and hundreds of thousands of young Canadians were overseas.

"An annual increase by immigration of two per cent is about as much as the country can hope to assimilate. That would mean something over two million immigrants in the decade 1921-31. There is danger that the partial closing of American ports may send Central and Southern Europeans to Canada in greater numbers than we can care for. Signs of pressure begin to appear at our ports of entry. The somewhat stringent regulations now in force as to the amount of money immigrants other than those whose destination is the farm must have do not result in reducing the volume of immigration to the extent anticipated.

"The Dominion has vast areas of untilled land still available for settlement, great forest wealth as yet unused, and mines that become daily more important as a source of national income. There is room in Canada for millions of immigrants, but it is important in their interest as well as our own that they shall not come in so swiftly as to swamp the Canadian people and become the dominant strain in the country's population. Let us so govern and regulate immigration that it shall become a strength to Canada, not a peril."

CHILD WELFARE.

The movement in this province on behalf of Child Welfare is gaining strength. In Sherbrooke, the Child Welfare Clinic, under the direction of the Victorian Order, is giving a very fine service to the community, and is deserving of a full measure of public support.

The undertaking to help the children embraces the whole province.

The Quebec Telegraph in an editorial on the subject says:

"It is especially encouraging to the Quebec friends of the Child Welfare Movement to observe the progress which it is making in so many different parts of the province. It was recently stated that on very high medical authority that the greatest strides made during the past year in the advancement of Child Welfare were made in the Province of Quebec. This was so noticeable by the reports submitted from the different provinces at the recent meeting of the Canadian National Council, that Mr. J. A. McBride, president of the provincial branch, was elected president of the national association for the coming year. Health centers have been established at Thetford Mines, Three Rivers, etc., and the provincial Government is planning the establishment of Health Clinics in a number of centres in this province, while other plans are on foot for a health train to operate through the province, bearing equipment for weighing and measuring babies, moving pictures on health subjects and other special exhibits. The "Health Special" will consist of two cars which will be fitted up as a travelling clinic with a staff of nurses and a physician in charge. The cars will carry special "health movies," a series of charts will be exhibited and talks on food and care of their children will be given to the mothers in every hamlet on the route. The cars will be backed on to a siding in the towns where it is planned to make a stop, and a work will be carried on from the track similar to that which was accomplished so successfully from the Healthmobile. The idea is not a new one, but has been successfully carried out in New York State and in Florida since 1911. The Child Welfare Association of Montreal are also about to undertake a new scheme next fall as follow-up work of their recent campaign in the schools. The Association are to submit a programme to the Board of the Catholic and Protestant schools asking that a physician and two nurses be supplied for one or two

ST. JOHNSBURY WON EASILY FROM LOCALS

Sherbrooke Held Home Team Until the Fifth—Gaudet Suffering from Sore Arm.

Scores of Sherbrooke baseball fans motored down to St. Johnsbury, Vt., yesterday only to see the locals overpowered by a score of nine to three. Gaudet was in the box for the locals, but complained of a sore arm and his lack of speed and the issue of five bases on ball clearly evidenced the fact that he was not in a condition to pitch. He only struck one man out during the whole game and was touched up for thirteen hits. He held his own pretty well until the fifth, but the successive four innings spelled disaster.

Vitty pitched good ball for the home team but was touched up for ten hits. For Sherbrooke, White had three hits in four times up, while Landry, Molyneux and Chartier were each credited with two. Good catches by Chartier, Thormahlen and Baker featured the fielding.

Starr shined for the St. Johnsbury lads, and after getting a three bagger and a couple of two base hits, he was passed up in the eighth. Sherbrooke started off well, White sending Landry home with a nice two base hit, which Molyneux followed with a three bagger only to be called out at second for not touching the bag. It was a piece of real hard luck, but Molyneux alone was responsible.

St. Johnsbury reduced the lead when Starr's three bagger sent Palmer home, and in the second a bad error by Savage enabled Hoernele to cross the plate for the second run.

In the third Landry was out at the plate on a very close decision, while for the home team Starr crashed out a two bagger scoring Palmer and placing his team in the lead. Sherbrooke had a great opportunity in the fourth. With the bases full, Moulton was walked, White coming home for the equalizing run. The bases were still full with one down but Gaudet and Savage were unable to bring anybody home and a great opportunity was lost.

For the remaining five innings Sherbrooke were never really dangerous whereas the St. Johnsbury boys, assisted by serious errors by Savage and Moulton ran in six more runs.

A large crowd attended the ball game and St. Johnsbury put on an entertainment which put the local Dominion Day celebration entirely in the shade. All roads led to St. Johnsbury yesterday and the day programme included will climbing contests, parades, carnival, dancing, baseball game and multitudinous decorations with every store closed and suitably belabored, while four bands provided the music.

THE FAIRMOUNT NINE BROKE EVEN OVER THE WEEK-END.

The Fairmount nine put in a hard week-end, winning one game and losing one.

The Lennoxville Juniors brought Fairmount down to defeat on Saturday afternoon by the score of 2 to 1 in a well earned victory. Bennett pitched a great game for Lennoxville and so did Jackson, of Fairmount, and had it not been for several errors on the part of Fairmount they would have walked off with the victory.

The second game was against the Young Eagles, and Fairmount easily walked off with the victory, the score being 8 to 1 in favor of Fairmount.

The Fairmount nine challenge any junior team in the Eastern Townships whose players are not over 18 years of age. Apply to the Manager F. H. Delaney, No. 79 Short Street.

THE YANKS AND INDIANS BOTH WON TWO GAMES

Neck and Neck Race for Leadership in the American League Continues.

(Associated Press Despatch) NEW YORK, July 5.—The New York Americans have played twelve consecutive games without changing the starting pitcher. In these twelve games, of which the Yankees won ten, the opposing teams have been kept to an average of 7 5/12 hits and 3 1-6 runs.

Seventeen home runs were made in the two major leagues yesterday. Nine were hit in the American and eight in the National.

Kelly made two home runs in one game yesterday, a feat also made by Sotherton, of the Boston Nationals, and Baker, of the New York Yankees. Veach and Heilman, of Detroit, each made home runs in the morning contest and repeated in the afternoon. The sluggers were Young, of New York Nationals; Wheat, of Brooklyn; Williams, of Philadelphia Nationals; and Meusel, Schang and Ward, of the New York Americans.

The results yesterday in the American League were as follows:

At New York:—New York beat Philadelphia twice yesterday. Two home runs carried the Yanks to victory. Score:

Table with 2 columns: Team, R. H. E. Philadelphia 4 8 3, New York 6 10 2. Batteries: Keefe and Perkins; Myatt; Mays and Schang.

Second Game R. H. E. Philadelphia 4 11 2, New York 14 14 3. Batteries: Rommell, Wolfe and Perkins; Myatt; Shawkey and Hoffman.

At Cleveland:—The Indians won both games from Chicago yesterday. Morton, one of Cleveland's second string pitchers, is credited with both victories. Score:

Table with 2 columns: Team, R. H. E. Chicago 4 10 0, Cleveland 6 10 0. Batteries: Twombly, Weineke and Schalk; Morton, Uhle, Maue and Nunamaker.

Second Game R. H. E. Chicago 10 12 3, Cleveland 11 19 5. Batteries: Kerr, Weineke, Wilkin, son and Schalk; Bagby, Caldwell, Morton and Nunmaker, Sinaull.

At Boston:—Washington twice beat Boston yesterday. The visitors got five runs in the ninth inning of the second game. Scores:

Table with 2 columns: Team, R. H. E. Washington 7 11 3, Boston 3 7 2. Batteries: Courtney and Picinich; Gharrity; Bush and Walters.

Second Game R. H. E. Washington 4 7 1, Boston 1 11 1. Batteries: Zarachy and Gharrity; Jones, Kerr and Ruel.

At St. Louis:—Detroit won two games from St. Louis yesterday. Veach and Heilman made home runs in both games. Scores:

COSTLY ERRORS RESPONSIBLE FOR LOST GAME

St. Roch Win Easily from Chums by Score of Nine to Three.

St. Roch kept up their winning streak last night when they defeated the Chums by a score of 9 to 3. St. Roch cinched the game in the third inning, when the Chums' infield played their worst possible game, by making five glaring errors allowed the St. Roch to bring across five runs.

The scoring began in the first when each team made one run. The second inning was scoreless for each team, but the St. Roch got five in the third, two in the fourth and one in the fifth. The Chums were unable to over come this lead, making one run in the fourth and one in the sixth.

The batteries for both teams did good work and the Chums lost their game by making continual blunders. The line-ups follow:

St. Roch:—Fournier, Gaudette, Paquette, Couture, Farrell, St. Germain, Blanchard, Paron, Laverdiere. Chums:—Withcomb, Grimes, Colby, Bryce, Stoyles, Loomis, Stocks, Duford and Mitchell.

Score by Innings: St. Roch 1 0 5 2 1 0 x-9, Chums 1 0 0 1 0 1 0-3. Batteries: St. Germain and Blanchard; Mitchell and Grimes.

Alexander and Killifer.

At Philadelphia:—Boston won both the morning and afternoon games of the Independence Day double header from Philadelphia. Scores:

Table with 2 columns: Team, R. H. E. Boston 6 9 1, Philadelphia 4 9 3. Batteries: Oeschger, Scott and O'Neill; Baumgartner, Keenan, Meadows and Bruggy.

Second Game R. H. E. Boston 3 4 2, Philadelphia 2 12 5. Batteries: Scott and Gibson; Ring and Bruggy.

INTERNATIONAL LEAGUE.

CARPENTIER IS NOT MOROSE OVER DEFEAT

Will Take Six Weeks for His Injured Hand to Heal, It Is Stated.

(Associated Press Despatch) MANHASSET, N. Y., July 5.—Georges Carpentier will spend several weeks in his room following t. doctor's orders. Francois Descamps, his manager, announced today. His hand in his battle with the victorious Dempsey will take about six weeks to heal the physician has estimated, and it was not believed the European champion could do any boxing before that time.

This, Descamps said, precluded the possibility of a bout between Carpentier and Tommy Gibbons in the big arena on Labor Day. Rickard, promoter of the recent encounter, announced last night that he might arrange such a bout on the day named, but said he had no conferred with any of the Frenchman's camp. Descamps, however, said he was highly in favor of the match as soon as Georges hand healed and he has had sufficient time to train.

The defeated challenger shows no moroseness over his defeat, but on the contrary is patiently waiting until he can again appear in the ring to defend his title of light heavyweight champion. He had received hundreds of messages congratulating him upon the game fight he put up against his heavier opponent.

TO WATCH CARPENTIER WITH GIBBONS.

(Associated Press Despatch) NEW YORK, July 5.—Tex Rickard will make an effort to match Georges Carpentier and Tom Gibbons, in a twelve round bout in Jersey City on Labor Day, he announced last night.

Rickard said he has no intention of trying to match Jess Willard with Dempsey, as he thinks that Willard has no idea of re-entering the ring. "Of course," Rickard added, "if Willard will prove to me that he is in condition to fight I will gladly match him with the champion."

TOTAL RECEIPTS \$1,623,380

(Associated Press Despatch) NEW YORK, July 5.—Total gate receipts for the Dempsey-Carpentier boxing contest amounted to \$1,623,380, Rickard announced last night. The net receipts have not been calculated.

SETBACKS RECORDED ON THE CHICAGO MARKET

CHICAGO, July 5.—Lower temperatures northwest, together with rains in various sections, had a bearish effect on the wheat market today. Opening quotations, which ranged from 1 1/2 to 3/4 cent lower, with September at \$1.18 1/2 to \$1.20 and December \$1.20, were followed by a moderate further setback and then something of a rally. Corn descended with wheat. After opening 1/2 to 1 1/4 cents lower, including September at 60 1/2 to 61 1/2 cents, the market eased off a little before beginning to react. Oats were easier starting 1/4 to 3/4 to 1/2 cent lower, with September at 38 to 38 1/2 cents and showing but little power to recover. Provisions had a downward slant, notwithstanding higher quotations on hogs.

PRISONERS TO BE ALLOWED TO USE TOBACCO

Provision Made in Estimates for Money for the Purchase of Tobacco.

(Associated Press Despatch) OTTAWA, Ont., July 5.—Prisoners in Portsmouth Penitentiary at Kingston are not the only ones to be allowed the use of tobacco this year. When the estimates were put through the House last session, provision was made in them for money for the purchase of tobacco for convicts in all Canadian penitentiaries who had been in the habit of using the weed previous to their incarceration. The use of tobacco in the penitentiaries was cut off in the time of Sir Oliver Mowat, twenty-four years ago, and from then until very recently none of the convicts have been allowed the solace of a puff at pipe or cigarette.

IRON AND STEEL IN ENGLAND ARE VERY WORRIED

Germany's Threatened Policy of Cutting in This Industry Causes Much Concern.

(Associated Press Despatch) OTTAWA, July 5.—The iron and steel trade in England is much concerned over Germany's threatened policy of cutting in this industry, according to the Trade and Commerce Weekly Bulletin. Already prices have been quoted on gas tubes nearly fifty per cent. below those of the British manufacturers. Quotations are being received in the Midlands for steel billets, delivered at \$38.83 the long ton, finished steel bars at \$51.10 and gas strips at \$60.83 the long ton. Not only are British makers unable to meet these prices, but French and Belgian producers are also outquoted. Germany was in pre-war days a formidable competitor of Great Britain in foreign markets for finished tubes and a similar competition is again asserting itself.

SHERBROOKE HIGH SCHOOL TO HAVE MEMORIAL

Beautiful Tablet Has Arrived and May Be Seen at Skinner's.

Through the efforts of the scholars the staff and some of the graduates of the Sherbrooke High School, the purchase of a beautiful memorial tablet has at last been made possible. This tablet is respectfully dedicated to past students of the school who gave their lives in the Great War. Made in Canada by the Canadian William A. Rogers Company of Toronto, the tablet, manufactured from solid bronze, is a masterpiece in design and is impressive by its simplicity. The names are inscribed in everlasting bronze, accompanied by the inscription "Their name shall live for ever" and this is all the memorial these gallant graduates require for their actions and deeds in far off lands are greater memorials than their names than can ever be built by human hands. One woman and twelve men, who at one time were students at the Sherbrooke High School, gave their lives in the great cause, and their names are engraved on the memorial as follows: Andrew Dean, Archibald Drummond, Archibald Fales, Howard Frye, Arthur Hovey, Andrew Long, Clifford Major, Grace Nourse, Harold Shearer, Ralph Shearer, Volney Smith, Howard Stevens, Harold Tate. The tablet which is at present in A. C. Skinner's window, will be unveiled at some future date in the High School. Although the time has not been definitely set, it will probably be during the opening exercises of the school in the autumn.

SEVERAL JAIL SENTENCES WERE HANDED OUT

Theft of Hens and Turkeys Resulted in a Sentence of Eight Months in Jail.

A number of cases were heard at Sweetsburg in the District Magistrate's Court, Judge H. W. Mulvena presiding. Joseph Brunelle, of Dunham, vs. Mandal Jacol, his wife.—The defendant was charged with vagrancy, and pleaded guilty, but the Court suspended sentence on condition she returned to her home and behaved herself during the next twelve months. James Bouten vs. Arthur Gagnon, a juvenile delinquent, for the theft of a certain quantity of eggs and butter.—The accused was found guilty, but owing to his youth sentence was suspended and his parents were required to furnish a bond guaranteeing his good behavior. The King vs. David Harvey and Charles Harvey, of Abert, Vt., for serious assault on an officer while in the performance of his duties. The defence was not prepared to go ahead with the case, and it was postponed until the next session, the accused being allowed out on \$200 bail. The King vs. Walter Smith, of St. Sebastien, charged with the theft of hens and turkeys valued at \$143. The accused opted for a speedy trial and pleaded not guilty. The proof was lengthy and contradictory, but the defendant was adjudged guilty and sentenced to eight months in jail. Zotique Delorme vs. Albert Hennessey, of Dunham, for serious assault. The accused opted for a speedy trial and was sentenced to jail for six months, the Court recommending that he be examined with regard to his mentality. A number of other cases were adjourned until July 9th for further proof and hearing.

ACTION TAKEN AGAINST THE OIL COMPANIES

Ordered to Pay Indemnification to Employees of President of Mexico.

MEXICO CITY, July 5.—Oil companies which have closed down operations in the states of Tampico and Vera Cruz "without sufficient justification," were ordered to pay indemnification to employees thrown out of work by their action in a decree issued by President Obregon last night. The decree was promulgated through the Department of the Interior. Although the amount of the indemnity is not stated, it is understood that all laborers would receive three months' pay. Reports from the Tampico district indicate there has been a marked

cessation of work during the past week, especially among United States concerns. General Gomez, commander of Federal troops in that region, reported that more than ten thousand workmen had been dismissed within the last few days by foreign oil companies. No reason for the action has been given, but it is believed to be an act of reprisal against the export tax on petroleum. At Puerto Lobos, where pipe line terminals are operated by United States interests, work has been closed down and four hundred and fifty men thrown out of employment. Coincident with reports of this situation in northeastern Mexico, some despatches from the state of Tabasco, further south, report that several oil gushers have been discovered there within the past few days, and the field gives indications of being very rich.

BIG DEMAND FOR ASBESTOS IN ENGLAND

Are of Opinion that Canada Should Work Raw Product on Larger Scale into Finished Commodity.

(Associated Press Despatch) OTTAWA, July 5.—A big demand for various manufactures of asbestos for various manufacturers of asbestos in the Midlands Counties is reported in the weekly bulletin of the Department of Trade and Commerce, by J. E. Ray, Canadian Trade Commissioner. A good range of samples, he says, of crude fibre, was recently received at his office from a Canadian firm and merchants handling asbestos products will inspect them. The chief demand, however, is for the manufactured article and merchants over there are of the opinion the Canadian firms should work the raw product on a larger scale into finished commodity. They feel confident that a profitable and extensive trade could be established, and since the raw material is almost exclusively the property of Canada, prices could certainly be made competitive.

THE TECHNICAL SCHOOL SITE

(Continued from Page 1.) the public and put the matter up to them. I would just as soon put the school by the C.P.R. tracks, but I do not think the city needs a school." Ald. Newton: "I am interested in the school and would not like to see the proposition dropped or even postponed." Ald. Delorme: "Every ward voted for the site at \$30,000, and I see no reason why we should not grant the amendment." Amendment Defeated Ald. Tetreault: "The citizens only voted \$30,000. The additional money would have to come from somewhere." An amendment was submitted by Ald. Langis, asking that the amount of \$30,000 be voted minus the bank costs. The amendment was defeated, Aldermen Skinner, Newton, Forest, Tetreault and Trudeau voting against it, while Aldermen Delorme, Tremblay and Langis voted in favor of it. Ald. Edwards was absent, while Ald. Brault occupied the Mayor's chair. It was interesting to note that this was the first time on which Aldermen Langis and Tremblay actually identified themselves with the move to favor the purchase of the Ball Street site. Ald. Skinner briefly outlined the powers of the Housing Committee, and advised that a building inspector would be appointed at a salary of not over \$400, merely to supervise the work. Ald. Forest moved that the Council sessions be adjourned until August 15th, but this was opposed by Ald. Skinner, who claimed that the Council really had too much to do. The motion finally carried, with Aldermen Skinner, Newton and Tetreault dissenting.

EVEN PROFANE. Mrs. Kawler—I understand one can learn different languages from the phonograph. Mrs. Wagg—Well, since our neighbors got theirs, I know my husband has used language I never heard him use before. STONE BROKE. "What's the matter with Jack; hasn't he the sand to propose?" "Oh, yes, but he hasn't the rocks to get married."

SHIPMENT OF BUTTER MUCH APPRECIATED

Canadian Trade Commissioner Says that Percentage of Salt Was Far Too High.

OTTAWA, July 5.—The first shipment of Canadian butter this season to Liverpool, on SS. Melita, has been very much appreciated, according to the Trade and Commerce Bulletin. One firm remarked that while there was some variation in the quality, the best was as good as any on the market, and that if such quality could be maintained no long time would elapse before Canadian butter would secure a high reputation. The percentage of salt, says J. F. Smith, Canadian trade commissioner at Liverpool, was far too high, being from three to four per cent., where Danish butter contains less than one per cent. and never more than two per cent. While a high percentage is necessary for preservation, Canadian butter should have at the very most two and a half per cent. In the present shipment, the milder butter will probably sell at four shillings per hundred premium over that containing more salt.
