PART OF FRENCH LOAN TO BE FLOATED IN U. S. Relations Between Germany And The Allies Are Strained

VON LERSNER'S ACT HAS CAUSED THE RELATIONS BETWEEN THE ALLIED POWERS AND GERMANY TO REACH CRISIS -- ALLIES ARE DETERMINED

List of Germans Accused of Violation of the Laws of War, whose Arraignment is Contemplated by the Allies, Has Been Sent to Berlin by the Council—Measures Intended to Compel Germany to Carry Out Extradition Clauses of the Versailles Treaty Will Be Adopted, but There is No Intimation as to Their Nature.

(Associated Press Despatch)

PARIS, Feb. 5.—Relations between the Allied Powers and Germany seem to have arrived at a crisis as a result of the refusal of Baron von Lersner, head of the German delegation here, to forward to Berlin the names of Germans whose extradition is demanded by the Entente. This incident apparently finds an echo in the attitude of the Berlin Cabinet, which is reported in a London despatch to have expressed through Gustave Noske, Minister of Defence, seeming defiance to the Powers. Baron von Lersner left for the German capital last night. The list of Germans accused of violation of the laws of war, whose arraignment is contemplated by the Allies, has been sent to Berlin by the Council of Ambassadors. It is pointed out here that measures intended to compel Germany to carry out the extradition clauses of the Versailles treaty will be adopted, but there is no intimation as to their nature.

London advises state that Sir Auckland Geddes, Minister of National Service and Reconstruction in the British Cabinet, has declared in an address at Andover yesterday that Holland might be required to put former Emperor William on some island somewhere out of Europe. Whether he expressed the view of the British Government is not known.

THE ACTION OF BARON VON LERSNER CONSIDERED A PERSONAL INCIDENT BY PARIS PAPERS

The refusal of Baron von Lersner, head of the German peace delegation, to transmit to Berlin the list of persons whose extradition is demanded, is considered by Paris newspapers as a personal incident. There is, however, evident a disposition on the part of editors to ask whether, notwithstanding the disapproval of the German Government of the Baron's action, it will not end to encourage the national movement in Germany. They also speculate on the question whether the Bauer cabinet has not conceived a hope that the incident might induce the Allies to reconsider their demands. Journals are unanimous in demanding that the Allies must profit by the incident and "speak resolutely and clearly" in exacting entire execution of the clauses of the Versailles treaty. Suggestions are made by the Matin and Victoire that the Allies, in the event of Germany's continued refusal to surrender those accused of war crimes, could continue to occupy the left bank of the Rhine and collect taxes while there.

LIST OF GERMANS WHOM ALLIES HAVE DEMANDED

(Associated Press Despatch)
BERLIN, Feb. 5.—Following is the list of the persons demanded for extradition from the German Government:

Karl Aegidi, Duke Albrecht, of Wuertemberg, Submarine Commander; Arnold D. La. perriere, General Count von Armin, General Otto von Buelow, Count Johann von Bernstorff, former Ambassador to the United States; Dr. von Bettmann-Hollweg, former Imperial Chancellor; General von Beseler, Count Bismark, General von Boehm, General von Bothner, Crown Prince Rupprecht, of Bavaria, the Duke of Mecklenburg; General von Bredow, Brunsart von Schellendorf, General Otto von Buelow, Admiral von Camille, General Groener, General von Daininberg, Ever Pasha, Prince Ernst of Saxony, General Falkenhause, General Falkenhayn, Prince Frederick of Prussia, General von Gallwitz, Alfred von Giesenapp, Otto von Gottberg, General von Gravenitz, General Count Haeseler, Hammerstein, Dr. Haniel von Haimhausen, the Grand Duke of Hesse, Field Marshal von Hindenburg, whose extradition is demanded by France and Belgium; Prince August of Germany; Prince Oscar of Hohenloern; General von Huiler, Ismael Hakki Pasha, General von Kluck, General von Linsengent, General Ludendorff, Field Marshal von Mackensen, General Maltzahn, General Baron Kurt von Manteuffel, General von Der Marwitz, von Moltke, von Montgelas, Robert Morath, von Ohlen, von Der Planitz, von Plettenberg, General von Quast, Prince Ratibor, Admiral Scheer, von Der Schulenberg, Count Schaler, Talaat Pasha, Admiral von Tirpitz, Count Walders, Warburg, Prince Wittgenstein, Count Vitzman, von Eckstedt, Alfred Zimmermann, former Secretary of foreign affairs.

Some of the names in the list are distorted and the military or civil rank of the persons desired is not indicated. The list contains among others the name of "Helfritz" which is possibly a telegraphic error for Dr. Karl Helfferich, former Minister of Finance.

LONDON, Feb. 5.—It is stated here that the British Government has taken a step to reduce the paper money circulation by twenty million pounds.

SOVIET LEADER CALLED UPON FOR EVIDENCE

Claimed Bolshevik Propaganda Not Aimed at United States Government.

(Associated Press Despatch)
WASHINGTON, Feb. 5.—Ludwig Martens, the representative of the Russian Soviet Government in the United States, was on the witness stand yesterday before the committee of the Senate, which is investigating radical activities in the United States. Martens attempted to show that the Bolshevik propaganda had not been aimed at the American Government and declared that United States officials had worked with the Soviet representatives in endeavoring to stop a revolution in Germany. He based this statement on the alleged activities of George Creel, who was director of the American Bureau of Information during the war.

FRANCE FAVORS A MONARCHY IN HUNGARY NOW

There Are Five Pretenders to the Throne, It Is Stated.

(Associated Press Despatch)
PARIS, Feb. 5.—There is no doubt, according to newspapers here, that the National Assembly, at its meeting to be held March 1st, will declare itself in favor of a Monarchy in Hungary. There are five pretenders to the throne. They are Prince Louis Windisch-Graz, who is supported by Premier Huszar and several members of the Friedrich Government; former Emperor Charles, who never abdicated as King of Hungary, and who is supported by a party which calls itself the "Legitimist"; Count Andras, who is urged by Admiral Horty, head of the new Hungarian army and Hungarian delegates to the peace conference; Archduke Joseph, the clerical candidate, and Prince Cyril of Bulgaria, who, if chosen will, it is said, marry one of Archduke Joseph's daughters.

OLD-FASHIONED SPANKING IS ORDERED BY JUDGE

Two Boys Who Attempted to Break into Store Sentenced to Ten Days in Jail and a Spanking.

(Associated Press Despatch)
TORONTO, Feb. 5.—Ten days at the jail farm a "spanking" was the sentence meted out by Judge Coats yesterday to two boys who had attempted to break into a store. Not cat-o-nine-tail "added the Judge," but a real, old fashioned spanking, such as they should have got at home, is to be administered.

Under Certain Conditions, The United States Is Willing To Be Represented At International Financial Session

One Condition is that the Letter of Former Secretary Glass be Brought to the Notice of the European Governments and the Signatories of the European Memorial Asking for the Conference.

(Associated Press Despatch)
WASHINGTON, Feb. 5.—While greeting to the limitations proposed by former Secretary of the treasury Glass as to the proposed International financial conference, the Chamber of Commerce of the United States announces that it is prepared under certain conditions to name representatives to attend such a meeting.

One condition is that the letter of former Secretary Glass be brought to the notice of the European Governments and the signatories of the European memorial asking for the conference, then the activities and discussions of the conference shall be kept within the Glass limitations. The United States representatives, if any are named, are to act merely in an informal capacity. The question of further action by the Chamber had been left in the

GERMANY IS ARRANGING A SERIES OF LOANS

(Associated Press Despatch)
BERLIN, Feb. 5.—Negotiations for loans similar to that between Germany and Holland are being carried out by Germany with the Scandinavian states, South America, Spain and Switzerland.

The loan by Holland to Germany amounts to 200,000,000 florins (\$80,000,000). It is for ten years and is subject to renewal.

ABANDON ANTI-STRIKE CLAUSE

WASHINGTON, Feb. 5.—The Senate and House representatives yesterday agreed to abandon the anti-strike clause in the Cummins railroad bill, and to modify the rate-making clauses.

A Portion Of The New French Loan To Be Floated In United States In Effort To Ease Present Exchange Situation

French Financiers and Officials Do Not Look to the Foreign Part of Loan for Anything More than a Temporary Relief to the Exchange Market — Calls for Restrictions in Expenditures Made by France.

(Associated Press Despatch)

PARIS, Feb. 5.—A portion of the new French loan will be floated in the United States through a consortium of bankers and will be placed in dollars, with a view to easing the exchange situation, it is learned here. These bonds will bear five per cent interest, in France, being redeemable with a fifty per cent bonus, within sixty years.

It is understood the amount of bonds to be placed in the United States has not been fixed, as estimates of United States financiers who have been consulted have varied considerably as to the total subscriptions probably obtainable. Some of these estimates have run as high as \$2,000,000,000.

Subscriptions will also be received in London in pounds sterling on the same terms as those given United States financiers. Experts here count upon the success of these foreign subscriptions to give relief in the stabilization of exchange.

While subscriptions are already being received here, final details as to the date for opening subscriptions abroad have not as yet been determined. French financiers and officials do not look to the foreign part of this loan for anything more than a temporary relief to the exchange market.

Negotiations relative to the exchange situation with the principal Allied nations would be facilitated if the necessary efforts were made by France to restrict expenditures, both public and provincial, said Frederic Francois-Marsal, Minister of Finance, in a statement addressed to the budget committee of the Chamber of Deputies. He asked for a temporary support for his policy, which he said was along the line pursued by his predecessors.

New efforts to cut down appropriations in 1920 should be made, the minister asserted, and the "habits contracted, during the war must be overcome." Francois-Marsal affirms the determination of the Government to obtain payment of reparations in full from Germany.

FALL IN U. S. EXCHANGE HAS SERIOUS EFFECT

Situation Discussed in England — Raw Cotton Cannot be Imported on This Basis.

(Associated Press Despatch)
Manchester, England, Feb. 5.—The Manchester Guardian Liverpool market report says the fall in American Exchange is "putting an effective and very definite stop on any ideas of importing cotton under the ruling conditions." The extreme seriousness of the situation, the article continues, "can more readily be understood when it is realized that experiments now are being made to ship cotton back from Liverpool to the United States. In fact, this operation is now considered practicable owing to the exchange question. It emphasizes the extent of the difficulties under which merchants are working on this side."

DOCTRINES OF LAW AND ORDER PREACHED AND MODERATION URGED AT THE AGRICULTURAL CONGRESS

Hon. Mr. Caron Reviewed Important Role which the Farmers Play in This Country — He Said that During the Present Crisis Quebec Was Holding Its Own, but Asked if it Would Continue to Do So in the Future — Urged Greater Advantages and Greater Protection for the Farmer.

(Associated Press Despatch)

QUEBEC, Feb. 5.—Earnest and forceful appeals were made to the farmers assembled to the Agricultural Congress here last night by some of the prominent public men of this province, who strongly urged moderation and preached the doctrines of law and order.

Addresses were delivered by Mr. William Power, former member of the House of Commons for Quebec West, Hon. J. E. Perrault, Provincial Minister of Colonization, Mines and Fisheries, Mr. Arthur Sauve, leader of the opposition in the Quebec Assembly, Hon. J. E. Caron, Minister of Agriculture and Mr. Ernest Lapointe, M. P. for Quebec East, and liberal leader of Federal politics in the district of Quebec.

Mr. Power told the farmers they were assembled like the apostles of old, and when they returned to their respective districts they would be the moulders of public opinion. He urged them to preach the doctrine of law and order. There could be no such thing as class legislation. The only solution for the high cost of living was work and more work.

Hon. Mr. Perrault said the world was passing through a difficult period. Work was needed to establish an economic equilibrium. Normal conditions could only be restored when all classes joined together and worked for the general welfare of the country.

Mr. Arthur Sauve said the farmers had organized and he congratulated them for doing so. They did, however, want their work to be made remunerative and to be presented against speculators. The farmer of today no longer wished to be bluffed by compliments and to be fawned upon by certain individuals who robbed them later. They organized in order to be

WILL BE NO FARMERS' PARTY IN QUEBEC.

(Associated Press Despatch)
QUEBEC, Feb. 5.—Hon. J. E. Caron, Minister of Agriculture, declared yesterday that there will be no farmer party in Quebec.

better able to study the problems of the farm.

The important role which the farmer plays in this country was vividly portrayed by Hon. J. E. Caron. He said that in the present crisis Quebec was holding its own, but asked if it would be able to continue to do so. He pointed to reduced production in other provinces, due to the crisis; and affirmed that the only remedy to the unsettled situation rested in agriculture. It was the farmer that would regenerate humanity, but since all depended upon the farmer he must not be overburdened and must be given assistance to get the best results from his land. He urged greater advantages and greater protection for the farmer.

Mr. Ernest Papineau advised strict economy and super-production as a solution of the present crisis.

The great Agricultural Congress yesterday passed a resolution which will be sent to Federal Minister of Labor protesting against the appeal made to him by the National Catholic Union at their convention at Three Rivers recently when they asked for a partial prohibition of the export of agricultural products from the Province of Quebec.

ONE LIFE LOST IN FIRE TODAY AT HALIFAX

Two Houses Were Destroyed by Flames — Efforts to Rescue Child Were Futile.

(Associated Press Despatch)

HALIFAX, N. S., Feb. 5.—One life was lost in a fire which destroyed two houses on Westmount Street here this morning. William B. Putnam Jr., the four year old son of William B. Putnam, traveller for the Office Specialty Company, was the victim. The child was sleeping in the attic when the fire broke out, and was almost immediately cut off from the floors below. Frantic endeavours to effect his rescue were futile and his charred body was not recovered until the house had collapsed. The fire broke out as a result of the maid using oil in the lighting of the kitchen range. There was an explosion and the structure which was finished throughout in beaver-board proved an easy prey for the flames, which followed. The remaining occupants of the house, Mr. and Mrs. Putnam, an older child and the maid occupying rooms on the lower floors, escaped unhurt and all save the last named in the night clothes. The adjoining house, also destroyed, was in process of construction.

NO OFFICIAL NEWS RE REFUSAL BY JAPAN

(Associated Press Despatch)
BERLIN, Feb. 5.—In reply to a direct inquiry in official quarters yesterday, it was said that there was no news of an indication that Japan had objected to Germany's selection, directly or indirectly of Dr. Solf as Ambassador to Japan. Dr. Solf is at present in Berlin.

LITTLE WOMAN WEIGHED ONLY NINETY-FIVE LBS.

Mrs. McCartney Now Weighs Exactly One Hundred and Ten Pounds Since Taking Tanlac.

"From this time on my faith is pinned to Tanlac," said Mrs. Florence McCartney, wife of Wm. J. McCartney, 231 Salter street, Winnipeg, "for four bottles of the medicine had really and truly made me feel like a new person."

"Why, at the time I began taking it," she explained, "I weighed only ninety-five pounds and I now weigh one hundred and ten, making an actual gain of fifteen pounds. Something over a year ago I began suffering from indigestion and gradually losing strength and vitality. I soon found myself unable to keep up and look after my house work as I had been doing. I kept rocking along without doing anything for myself until my condition became serious. Then I went under treatment and before long they had to take me to a sanitarium where I stayed for three months and came out feeling just about as bad as when I went. I simply had no appetite at all and what I did eat would ferment and make me miserable. My stomach was in such a bad condition that I was forced to live entirely on liquid foods and a little brown bread. I was as nervous as a witch, suffered all the time with headache, and was so weak I could hardly move a chair and had to hire some one to do every bit of my housework. I would often lie awake all night long, tossing and rolling, not getting a wink of sleep."

"After seeing Tanlac so highly recommended, my husband persuaded me into trying it, and now I just feel like telling everybody what it has done for me. I can eat just anything now and never have a pain or an uncomfortable feeling afterwards and my appetite is so good that I can hardly eat enough to satisfy it. My nerves have gotten back to a thoroughly strong and normal condition and I never have a headache, and my sleep is so sound, and refreshing that I get up in the mornings feeling as cheerful and happy as a cat. I have let the hired woman go and am doing every bit of my housework without the least trouble. I weigh more since taking Tanlac than I ever did before. Tanlac has helped me so much that I am now giving it to one of my little boys. He has been sick and never all his life and had gotten so frail that we were forced to take him out of school. I believe Tanlac is going to make a strong, healthy boy of him, for he has already improved so much that he is able to attend school every day. I certainly have just cause to praise Tanlac and never hesitate to recommend it every opportunity I have, and I believe my husband is just as enthusiastic about it as I am, if not more so."

Tanlac is sold in Sherbrooke by Griffith's Drug Store and A. E. Duberger, under the personal direction of a special Tanlac Representative. (Adv.)

Mr. A. McCullum, of Main street, is now included on the sick list. Mrs. G. Elliott, of Coaticook, spent the week-end in town with friends.

EAST ANGU

The Dean of Quebec preached at Christ Church on Sunday morning and at Cookshire in the evening, on the "Forward Movement." In spite of the coldest weather of the winter, a fair congregation listened with pleasure to the Dean's stirring words.

While in town, he was entertained by Mr. and Mrs. Muir.

Everybody looking forward to the Leap Year dance to be held on Friday in the Parish Hall.

The Ladies' Guild was entertained Wednesday by Mrs. Warner and Mrs. Hodges and a very large number of ladies assembled. After important business had been disposed of, a very enjoyable supper was served.

The Ladies' Guild and Ladies' Aid will combine in holding a supper on Tuesday next to aid the "Forward Movement." All should attend this. This much can be said now, the ladies of East Angus guarantee the supper and that means something. In addition prominent speakers will address the gathering on the "Forward Movement" of the churches.

Mr. Tom Currie sustained a bad cut on his face early on Sunday morning in an accident at the mill, caused by the slipping of a belt. Dr. Banfill was soon on the spot, and stopped the flow of blood from a cut artery and Mr. Currie is progressing well.

Rev. F. G. Hayden was in Montreal this week.

BIRCHTON

The Farmers' Club will hold a meeting in the hall on Tuesday night, February 10th, to discuss the buying of grass and clover seeds.

Owing to the absence of Rev. T. B. Moody, who has gone to England for a two months vacation, the services next Sunday will be withdrawn.

On February 15th, and every alternate Sunday the service will be resumed, in charge of ministers from Sherbrooke and vicinity.

Mrs. Robert Bridgette is very ill at time of writing.

MASSAWIPPI

The W. C. T. Unions throughout this Province, through their departments of franchise on the "girl vote" this week watching for the outcome of the Ashby bill in the House of Parliament, which is to give or not to give the women of this Province the vote this session. The women of this Province are placed in a peculiar position. While the women of the other Provinces can, when an election comes on, vote in this Province, owing to the fact that the Dominion lists are based on those of the Provinces, and Quebec never having granted the franchise to women and having no lists with or for their names, they will be denied the privilege given their sisters in the other Provinces, unless the Ashby bill passes, and for this reason all are looking to see what will happen.

PRESENTATION TO MEGANTIC CO. WALLACE FAMILY AT COATICOOK

Residents of North Coaticook Gathered to Express Good Wishes to Mr. and Mrs. Wallace.

NORTH COATICOOK, Que. Feb. 5.—Meat's Hall was the scene of a pleasant evening, when many of the friends of Mr. and Mrs. James Wallace and their daughter, Violet, assembled to give them their hearty good wishes for their future prosperity and happiness in their new venture in the City of St. Hyacinthe, where Mr. Wallace has accepted the position of assistant manager at the Penman Plant. Miss Wallace has also accepted a position on the office staff there, a transfer being made of Mr. Hubert Rousseau therefrom to this mill. Nearly a hundred people were present in the hall and very many others sent their regrets with good wishes.

Rev. Mr. Stevens, in a few well chosen words, presented on behalf of their many friends, an electric toaster to Mrs. Wallace, a Safety Razor with silver mounts to Mr. Wallace and to Miss Wallace a beautiful pin of pearls. Dancing and cards were indulged in until the early hours and a most enjoyable evening spent. All deeply regret the loss of Mr. Wallace and family but rejoice with them in their success.

General Notes.

Miss Beatrice Meade is still confined to her bed, but there is a small improvement in her condition.

To Relieve Catarrh, Catarrhal Deafness And Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that they could hear a watch was plainly audible even when eight inches away from the other ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor suffering person from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmit (Double Strength). Take this home and add to it 1-4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parmit is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form, or distressing rumbling, hissing sounds in their ears, should give this recipe a trial.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious, fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother: You must say "California."

DEATHS REPORTED

MISS BELL NORTH COATICOOK
NORTH COATICOOK, Que., Feb. 5.—The community was deeply shocked to learn on Thursday last that Miss Florence Bell had succumbed to the illness with which she had been taken down only a few days before. Doctors Birs and Telmosse were in almost constant attention, but were unable to arrest the disease. Without apparent suffering, she passed peacefully away on Thursday afternoon, January 29th.

The funeral service was held from Christ church on Saturday afternoon, the rector, Rev. C. G. Stevens, officiating. The bearers were Messrs. William Phipps, Albert Shaw, George Wally, Hartley Waldron and Robert Kelley, under the management of Mr. John Hisslop. The choir sang the hymns "Now the Labourer's task is o'er" and "On the Resurrection Morning" closing with the Nunc Dimittis. The body was placed in Mount Forest Cemetery vault to await interment in the spring.

Many floral tributes were received from friends and relatives.

Miss Bell, who was only twenty-seven years of age, was the only child of Mr. and Mrs. George Bell, residents of this place for the past few years, coming here from Hillhurst. The family is well known and deservedly respected, while Miss Florence had hosts of friends.

She will be sadly missed from the social gatherings and in church, but no one can estimate the terrible blankness that must be in the lives of her parents. The sympathy and friendship of the whole community is theirs.

Among those from out of town who were here to attend the funeral were Mr. and Miss Bigood, of Richmond, and Mr. Boucher, of Somersville, N. H.

SNOWSHOERS FOR QUEBEC.
A meeting of representative of the local clubs will be held at the Board of Trade offices at 5 p.m. today, to make final arrangements for the Quebec trip.

SHERBROOKE SNOWSHOE CLUB.
The Sherbrooke Snowshoe Club, at its meeting last night, devoted considerable time to discussion of the Quebec trip. It is expected about forty will join in this, going on the 13th and returning on the 15th.

It was decided to postpone the Ladies' Afternoon fixed for February 14th, for one week, namely to February 21st.

WATCH YOUR STEP
During the past three days everybody has worn a smile—till they fell down. The weather man has been in a genial mood since Mr. Bruin came out on Monday for a sniff of what we've been getting for the past month. The mild atmosphere has brought about the inevitable icy pavements, and many devices are used to keep a hold on terra firma. Quite a run on "creepers" has been reported, while walking sticks are much in favor, and the most popular men in town are the sand-men and the driver of the corrugating machine.

SPECIAL MEETING AT ST. ANDREWS.
A special meeting for prayer was held by the W.M.S. of St. Andrew's Church in the Bible Class Room, Mrs. M. R. MacLeod taking charge. A number of the members took part in the reading of passages of Scripture and prayer, and a beautiful and appropriate sacred solo, "Jesus, Saviour, Pilot Me," was sung by Mrs. Malcolm MacKay. After the meeting Mr. J. Keith Edwards spoke of the "Forward Movement," and the arrangements for the work of the women of the church in this connection.

NEW BOOKS AT LIBRARY.
The following books from the McGill Travelling Library have been received at the Sherbrooke Library: "Myth, Magic and Morals," by Conybeare; "Age of The Renaissance," Van Dyke; "Petrograd, 1914-1918," by Buchanan; "Through French Eyes," Davray; "Recollections of an Admiral's Wife," Moore; "My Memoirs," Murat; "Romance of the Rothschilds," Balla; "The Personality of Napoleon," Rose; "A Community Center," Jackson; "Feminism in Germany," Anthony; "Modern Man and Forerunners," Spurrell; "China Collecting in America," Earle; "Russia and the World," Graham; "A Christmas Garland," Beebe; "Wonders of the Insect World," Selous; "Kensington Rhymes," MacKenzie; "New Voices," Wilkinson; "Young Visitors," Ashford; "Sketch Book," MacWhirter; "A Certain Star," Bottoms; "Count Raven," Castle; "The Black Stone," Gibbs; "The Right Stuff," Beith; "Green Fancies," McCutcheon; "British Painters," Staley; "Broken Off," Reynolds; "Midus and Son," McKenna; "The Graftons," Marshall; "Everyman's Land," Williamson.

FUNERAL OF LATE MRS. STOCKS.
The funeral of the late Mrs. Stocks, wife of Mr. John Stocks, High Secretary Independent Order of Foresters, Montreal, whose death occurred at her home in that city, took place yesterday, the solemn service being conducted at Bradley's undertaking parlors by Rev. E. C. Russell, of St. Peter's Church. A service had been held Tuesday evening at the residence of the family in Clarke Street, Montreal, which was attended by the officials of the High Court I.O.F., and a large and representative gathering.

Many old friends of the family, members of the I.O.F., including the High Secretary, and others were present yesterday to pay a last tribute of respect to one whose exemplary quiet life of kindness and unselfishness, have gained for her true friends both during her long residence in Sherbrooke and latterly in the larger city. The interment was made in the family lot in the English Church cemetery, Prospect Street, where the committal was read. The bearers were Mr. James Lowe, Dr. H. Spencer, Mr. William H. Wiggitt, Mr. R. E. Bradley, Mr. W. C. Fuller, and Mr. Wm. J. Church. The mourners were Mr. John Stocks, husband of deceased; Messrs. Edward W., Sherbrooke, and Theodore Stocks, Magog, sons; Mr. and Mrs. Herman Morris, Ottawa, daughter and son-in-law; Mrs. E. W. Stocks, Master Jack Stocks, grand-son; Mr. and Mrs. Amos Keay, North Hatley; Mrs. Elmer Bean, Suffield, cousins; Mr. and Mrs. George Stocks, Sherbrooke.

Mrs. Stocks was born in Albany, N. Y., her maiden name being Libbie M. Oliver. Thirty years of her married life were spent in Sherbrooke, twelve years ago, Mr. Stocks removing to Montreal with his family. Mrs. Stocks, although never strong, was only confined to her bed for a week, death being due to no special disease, but to a breaking up of the system. She is

Street Car Tickets Now On Sale in the Stores

Twenty-Five for One Dollar and a Half.

As a convenience to the public, street car tickets are now being
placed in the hands of the merchants, so that passengers may pur-
chase their tickets and avoid the bother and delay in making change
on the cars.

The cash fare is expensive, and the necessity of making change
on the cars slows up the service. The service can be improved if
these delays are avoided.

Tickets can be purchased in quantity at the rate of 25 for \$1.50
making a saving of 2 cts. on each ride over the cash fare.

The passengers save money and the service will be improved, and
it is hoped that the travelling public will take advantage of this, which
is in everybody's interest.

In addition to the special rate tickets, the regular tickets, 4 for
25 cts., are also on sale in the stores.

Tickets are now on sale at the following stores:—

A. J. Burge, Lennoxville.	Jos. Lacombe & Fils, 81 King Street, West.
Ansell's Drug Store, Strathcona Square.	Le Populaire Grocery, 44 Aberdeen Avenue.
W. H. Griffith, 121 Wellington Street.	Hebert & Fortier, 37 King Street, East.
D. W. Stenson, 77 King Street, West.	E. Marechal, 16 King Street, East.

OTTAWA SCORED SHUT OUT
QUEBEC, Feb. 4.—Ottawa Senators
defeated Quebec Bulldogs here last
night by 5 to 0. The fine work of
Mummary, Carpenter and Brophy on
the Quebec defence kept the score
down. The kind of attack put up by
Ottawa may be gauged from the fact
that three goals got by Mummary,
who replaced Brophy in goal. He
turned over thirty shots away. After
the second period Quebec fell to pieces
and Ottawa dominated the game.

CANADIENS SCORE ODD GOAL
TORONTO, Feb. 4.—Canadiens de-
feated St. Patrick's here last night by
3 to 2. The game was slow and unin-
teresting until the last five minutes,
when the locals nearly tied the score.
Matte and Lalonde were the hardest
workers for their respective teams.

LA TUQUE TEAM REGISTERED WIN OVER ALL-STARS

Superior Team-work of the Visi-
tors Enabled Them to Romp Off
with the Honors Last Evening.

Displaying superior team-work and
taking full advantage of all opportuni-
ties that presented themselves, the La
Tuque hockeyists romped off with the
honors in their exhibition game last
night against the Sherbrooke "All
Star" team to the tune of six goals to
one before a large gathering of fans
at the Stadium Rink. It was a real
interesting exhibition of hockey that
was furnished by the two teams, not-
withstanding the fact that the visitors
were never headed.

The local boys displayed quite as
much speed as the La Tuque aggrega-
tion, and were by no means behind
the visitors when it came to stick-
handling. However, the locals were
playing under the great handicap of
never having played together before
and it was this handicap which actual-
ly beat them. In other words, while
the visitors worked their attacks with
method, the local players were never
really able to "get together."

The visitors opened the scoring in
the first stanza when Mongrain sagged
the twine behind Arguin with a well
placed shot. The Sherbrooke boys
tried hard to even up matters, but al-
though they held the visitors in check
during the remainder of the period,
they failed in their efforts to break in-
to the scoring column themselves.

However, in the second stanza the
combination work of the visitors really
told and they practically cinched the
verdict, scoring four goals. Mon-
grain tallied three times, while Allard
is credited with the other counter. For
the Sherbrooke team, Claud Atto
tallied a goal after one of the prettiest
plays of the game. Taking the puck
at his end of the rink, Atto zig-zagged
his way through the whole La Tuque
team and lodged the rubber disc in the
cage behind Duchane.

In the final frame the visitors added
another goal to their end of the
score sheet.

"Pop" Conley, Claud Atto and Ray
Hawkins played in brilliant form for
the All Stars, working hard all the
time. There was very little to pick
between the La Tuque players. They
were evenly balanced, and their team
work was responsible for the big score.
The teams line up as follows:
La Tuque—Duchane, Goal; Gow-
sell, Point; Mongrain, Cover Point;
Allard, Center; Lacroix, Left Wing;
Brassard, Right Wing; Subs: Baudet,
Colder, Charland.

All Stars—Arguin, Goal; Atto,
Point; Maguire, Cover Point; Conley,
Center; Kenalty, Left Wing; M. Haw-
kins, Right Wing; Subs: R. Haw-
kins, Wolfe, Trudeau and Cloutier.
Tom Molyneux, acted as Referee.

ST. REGIS vs. C. B. OF C. TONIGHT
The game tonight between the St.
Regis and the Canadian Bank of Com-
merce teams will be of more than or-
dinary importance as it should prove
the turning point in the Senior League
schedule. St. Regis and the
Knights of Columbus have each two
games to their credit, while the War
Vets and the Bankers have each lost
two. It is expected that the contest
tonight will be fast and furious, and
spectators should be assured to a
large class exhibition of hockey. The
mildness of the weather assures a
large crowd of spectators.

LOCAL CURLERS SUFFER DEFEAT AT MONTREAL

Heather Defeated Sherbrooke in
the Governor-General's Prize
Competition.

(Special to the Record)
MONTREAL, QUE.—The Sher-
brooke curlers were eliminated by the
St. Andrew's Club of Montreal in the
Governor-General's Prize Competi-
tion last night, while the Heather
rinks of Montreal registered a victory
over the Ormstown representatives.

Under the handicap of playing on
strange ice, the Sherbrooke curlers
never really struck their true stride.
During the early stages of the games
the visitors made desperate bids for
the honors, but they were never able
to head the strong St. Andrew's rinks.
The home rink headed by the famous
Willie Brown pulled out ahead of Bob
McMurray's quartet to the tune of
twenty-two shots to eleven, while Hed-
ley Suckling's combination defeated
the Sherbrooke rink captained by J.W.
McKee by the count of twenty shots
to seven, thus making the total score
forty-two shots to eighteen in favor
of the St. Andrew's curlers.

In the other match Heather defeat-
ed Ormstown by 40 to 24. A. N. Ste-
wart defeated C. A. McKee of Orms-
town, 19 to 7; and N. McLeod won
from J. L. G. McGerrigle, of Orms-
town, 21 to 17.

Really Not Their Fault.

Margorie and Clea are prim little
sisters, and as there is a baby brother
mamma has some trouble putting on
the last touches and getting them
away to school mornings. In the in-
terest of discipline their teacher was
obliged to lecture them on tardiness
and next morning they were late as
usual. She waited for them at the
door, trying to look stern, but Clea
upset all her dignity and cut her lec-
ture short by observing: "Well, we
can't help it if you ring the bell too
soon."

Oil Well Flow Increased.

An electrical method of carrying
warmth to the bottom of oil wells has
been found in many cases greatly to
increase the flow of oil, according to
Popular Mechanics magazine. The
heating process decreases the viscid-
ity of the oil, usually occasioned by the
admission of air to the well and the
cooling of the rock bed. Minute crev-
ices and capillary channels which af-
ford easy passage to warm thin oil be-
come quite impassable if the oil gums.

Livingstone Memorial.

One of the most curious memorials
of Livingstone is the "Name Tree,"
near Victoria falls, on the Zambesi. On
the trunk Livingstone cut his initial
and the date 1855 on the day of his
first visit to the falls. In his book giv-
ing an account of this. Livingstone
says: "This was the only instance in
which I indulged in this piece of van-
ity."

Auto Service in Porto Rico.

Porto Rico is about 100 miles long
by 40 miles wide, and autobus lines
furnish satisfactory service in cover-
ing the parts of the country where
railways are not available. For the
benefit of tourists and others a daily
automobile service connects San Juan,
on the north, with Ponce, on the south
of the island, a run of five hours.

Painful Insinuation.

Little six-year-old, to young aunt
showing him a family portrait: "What
a funny way that gran'pa is dressed,
auntie." Auntie: "That is the way
gentlemen dressed more than a hun-
dred years ago." Six-year-old: "And
when gentlemen dressed that way
what did you wear?"

Forbearers of the Seal.

It is a curious fact that the fur seal
was once a land animal. The baby
seals are actually afraid of water; they
would drown if thrown into it, and
have to learn to swim by repeated ef-

First Private English Phone.

The first telephone ever placed in a
private English residence is still to be
seen at Marlborough house. It was
made in 1878 on board the warship
Thunder and was subsequently set
up between the schoolroom and the
boudoir of the princess of Wales.

Laying a Carpet.

In laying a carpet in a room where
there is a fireplace, the section cover-
ing the fireplace or hearth should be
cut down its center by the shears, and
then the carpet should be cut toward
the sides, so as to form two flaps,
which should be turned under.

Hadn't Fooled Helen.

Mother could not take Helen with
her when she went downtown and was
trying to slip away without her know-
ing it, so father called Helen to come
to him, when she said, "I has to watch
muvver, 'cause she's tryin' to run'd
away."

REAL ESTATE VALUES.

The advance in real estate values in the city of Sherbrooke would be phenomenal were it not that all prices have received a remarkable inflation, and the public are becoming accustomed to fifty per cent. increases. The large prices now obtaining for building lots and buildings would ordinarily be considered a reasonable check on building operations. But the boom in prices goes steadily on with a boom in building.

Whether these increases in values are real, owing to actual growth and expansion of the city, or temporarily inflated, cannot at present be definitely decided. But there is reason to believe that they are indicative of the increased industrial growth of the city, and represent a permanent increased value in the city's real estate.

WOOD PULP RESTRICTIONS.

The policy of conservation, adopted by the federal and provincial governments in regard to many of our natural resources has proved a wise one. Not too soon has a restraining effort been put forth to prevent the exhaustion of the wealth of the Dominion. The creed of conservation has been accepted without protest, and while there has been spoliation it has not been of a widespread kind. The governments throughout the country have moved steadily in the right direction.

A direct attack on this national attitude toward the natural assets of Canada, is contained in the effort to be made by the United States to influence the Dominion federal government, and the provincial governments, of Quebec, Ontario and New Brunswick to release the wealth of Canadian forests for use in United States pulp and paper mills. This move is made because of the scarcity of wood pulp in the United States, a total exhaustion of this product of the forest being threatened, "a matter of grave concern to the paper industry and the users and manufacturers of forest products," states Senator Underwood.

The very pertinent question arises, however, as to what benefit can accrue to Canada from opening up her forests, which can be exhausted, as have been the forests of the United States, to outside exploitation. The Senators argue that restrictive orders-in-council, restraining the use of the forests militate against the interests of the people of the United States. But would not a lifting of the restrictive orders militate against the interests of a section, and a very large section, of the Canadian people? The Senators confess that the United States is facing a total exhaustion of wood pulp. This is a condition the Dominion is exerting itself strenuously to prevent. And while its principles of conservation do not appeal to the paper manufacturers in the United States, the fact that the demands of the industry have cleaned out the forests of that country of all its wood pulp, would naturally cause the governments to move slowly towards a lifting of any Canadian restrictions few in force.

THE STREET RAILWAY.

The improvements made in the street railway service are being appreciated by the citizens. There was a time when opinion on our street railway service was better unexpressed. But that period has passed. Since the five-minute service was started this fall, the street railway has given a real service to its patrons.

Bringing all the cars to the Dufferin corner terminus also simplifies the East Sherbrooke and Lennoxville connections. These connections at the Wellington street corner were very unsatisfactory, and not always clear to those who did not use the cars frequently. But the new adjustment of lines and connections is most satisfactory.

The street railway promised the citizens if they voted for its continuance and for its higher tariff rates, to provide them with an improved service, and improved accommodation. They have endeavored to carry out their assurances, to the approval and comfort of the citizens.

Further improvements are contemplated in the construction of the West Ward line and in the routing of certain cars over the Frontenac street line.

"I see the newspapers are publishing a great deal about you just now."

"Yes," answered Senator Sorghum. "That's one little advantage about politics. It's about the only business I know of in which a man can depend almost entirely on free publicity."

PRESS COMMENT

THE ART OF COURBET.

(Christian Science Monitor.) The French Government purchased the other day, for the Louvre, Gustave Courbet's famous painting, "L'Atelier," for 700,000 francs. The French Government is undoubtedly spending many times that sum in suppressing the activities of agitators. And therein lies a situation not without its humor. For Courbet was very much of a Communist, and though the world recognized him as such only when he entered upon his unfortunate political career, in reality he expressed very much the same ideas while wielding a brush in France. He was when waving a red flag in the barricaded streets in Paris. Now, whatever the political genesis of the world Communism may be, to the average man it means only one thing, impatience armed with a bludgeon. He speaks of it as he used to borrow a word from the Malay, and says "running amuck." Now that was exactly the spirit in which Courbet charged through the art of France in the forties and fifties. Seeing on all sides of him artists content with depicting a world that existed more in studio half-lights and febrile imaginations than in open air and sunlight, and having nothing in common with those pioneers of realism who wandered out into the fields and forests so humbly and earnestly, the Barbizon men he took the path that best attracted a mind which has been described as that of "a sly, greedy, and tyrannical peasant," and began painting, with a brutality that horrified his contemporaries, a world of flesh-and-blood creatures.

The term "flesh-and-blood" in this instance is particularly appropriate. For Courbet loved to depict hard-fisted, tragic peasantry, great-limbed nudes, huntsmen and destroyed deer—in short, he delighted in a purely materialistic world. Not, mind you, that it was his sole aim to be gross. He saw, no doubt, beauty in the pendulous bodies of his deer; he had a desire to shock in painting his women bathing in his descriptions of peasant life could have been moved by nothing less than a deep, though rough, sympathy with their life; while in his canvases appear any number of passages of great charm. And he was a master craftsman.

THE FARMERS' TROUBLES.

(Ottawa Journal.) City dwellers on whom the cost of living bears heavily generally think of the farmer as growing wealthy from the high prices. And no doubt many farmers are more prosperous now than they were in the normal times before the war. But the majority of farmers would refuse to admit that their position is at all enviable. Conditions in Canada are very similar to those prevailing in the United States, and the Government authorities at Washington are being informed by farmers in all parts of the country that they are either curtailing production or leaving their farms.

The American Post Office Department sent out a questionnaire to 200,000 farmers asking for opinions as to how it might help to relieve the cost of living burden. Some 40,000 replies have been received, and in these the farmers are unanimous in complaining about their lot. Half of those replying intimates their efforts. There are three principal complaints: Inability to obtain labor to work the farms, largely on account of the greater attractions of life in the city; high profits taken by middlemen for the handling of products; lack of proper agencies of contact between producers and consumers.

MOTOR-CARS OR COUNTRY STORE.

(Brooklyn Standard Union.) A Canadian merchant in the Province of Ontario speaks of a changing condition there which has been also noted in many parts of the United States. It is the growing custom of people with automobiles to ride to the larger centers of population to buy what they want instead of dropping into the nearest village or cross-roads store to shop. Before the motor car this was not feasible, but now traveling twenty or thirty miles in a machine to a large town or city to do the family buying offers no problem worth considering. The consequence is, so the Canadian citizen notes, that the village store is shrinking in importance and the shops of the larger places are profiting correspondingly. And if the trend continues the change will be quite marked in another ten years because of the astonishing increase in motor-car use.

THRIFT DEVELOPS INTELLIGENCE.

(New Haven Journal-Courier.) A great many people advocate thrift because it makes men conservative. This is a poor argument. Thrift should be advocated because it makes men intelligent. There must always be progressive ideas and progressive men to support them. In no other way can society approach nearer to actual civilization. Progressive ideas may seem to be radical, and judged by passing standards are radical, but they can be safely left to the care of intelligence. If men have a stake in the Government obtained through their thrift, they will know how to measure progressive movements and take the advantage they promise. Nine-tenths of the unrest we are the victims of today can be charged up, in one form and another, to our failure to have been educated along the lines of thrift. It is because of that condition that we grow hysterical in undertaking to curb the fancy and restrain the passions of the shiftless. We do not know how to do what we all want to do.

JEFFERSON BRICK'S WAY.

(Hamilton Herald.) Alluding to the disappointment of Britain and France over the failure of President Wilson to win the support of the senate to the peace treaty and the league covenant, the Chicago News says that the Governments of these nations were not able to understand and take into account "the powerful underlying forces of American national and political life as distinguished from outstanding elements of place and personality." "It isn't that unimpressive. But after all it is only Jefferson's Brick's way of saying that in view of the near approach of a presidential election Republican partisans could not afford to allow the President to get any credit for his work at Versailles."

SUTTON HEARS ADDRESSES OF MUCH INTEREST

Federal and Local Members for Brome County Addressed Gathering.

SUTTON, Feb. 5.—(Special.)—The last of a series of three meetings called by the federal and local members for Brome took place Monday night in Sutton, the two previous meetings having been held last Friday and Saturday in Knowlton and Mansonville. A very large and representative audience greeted the speakers at the Town Hall. The Honorable Sydney Fisher was the first speaker. The warmth of the welcome accorded him testified the appreciation felt for him by his Sutton friends. His speech dealt very faithfully with the Union Government and Liberal principles. He stated that the Union Government had been formed for the purposes of the war and that it had no reason for existence once the war was over. He was of the opinion that in view of the state of health of Sir Robert Borden, and his enforced absence from the country, the inability of his ministers to agree on a successor and the condition of public opinion, an election was imperative.

"Liberalism is founded on the idea that the representatives of the people must rule and that the executive must be directly responsible to the people's representatives," said the speaker.

Mr. Joseph Archambault, K. C., M. P., for Chambly Vercheres, who for himself a place in the hearts of his hearers by his eloquent and instructive address. Three reasons were given for the pleasure he felt in attending the meeting, his warm regard for Mr. McMaster, a friend of twenty years standing; the opportunity of making the maintenance of the rights of Brome, and the chance given to say a word on behalf of Liberal principles.

Mr. Archambault treated the question of the high cost of living, the abuses connected with cold storage warehouses, in a most interesting fashion. He drew a most striking parallel between the elections of 1841 and that of 1917.

Mr. McMaster was the last speaker. After warmly thanking Mr. Fisher and Mr. Archambault for their presence, he expressed the pride he felt in having as the chairman of the meeting, Mr. Julian Grandjean, one of the heroes of the great war.

He then discussed the fundamental problem which demanded solution in Canada, that which he called the racial and religious problem, the problem of the restoration of Parliamentary Government, and the problem of armaments.

The racial and religious problems was how we could in Canada form out of our heterogeneous mixture of races and creeds a nation in which would be found the best qualities of all. "The way to a solution lay along the road of tolerance and understanding, the restoration of Parliamentary Government in all its fullness of power, lay in the re-assumption of control of the House of Commons over the Executive, and the choice of electing worthy representatives, which can only be made possible by the proper use of the ballot," said the speaker.

In dealing with the question of armaments, Mr. McMaster admitted the difficulty of reducing armaments while one great nation, Germany, led the way, but now Germany being overthrown, it was the duties of the Allies to see that this was really a war to aid wars and to reduce armaments to a mere police force. "The heaping up of armaments led almost inevitably to fresh conflicts. The League of Nations furnishes a way out. This was not a party question, for in Great Britain leaders of all the great parties, Unionist or Conservative, Liberal and Labor were all supporting the idea. Surely after such death and destruction as humanity had suffered in the last five years, mankind had learned its lesson that of all criminal and stupid things war was the worst," explained Mr. McMaster.

After a vote of thanks had been tendered to the chairman, the singing of the National Anthem brought the proceedings to a close.

LATE MRS. JENNIE BATES. The funeral of the late Mrs. Jennie Bates took place on February 1st, in the Sweet burying ground near Sutton Junction. The service was held at the home of her brother, Mr. W. O. Hawley, and was taken by the Rev. J. S. Rough, assisted by the Rev. Aaron Wallace.

The deceased had been in poor health for about a year past, but was able to visit her sister, the late Mrs. J. D. Downs, at Bedford, a short time before she died. Instead of returning to her home in St. Albans, she came on to Sutton and attended the funeral of Mrs. Downs on January 21st, but was taken ill, with the illness, that proved fatal, the same evening. She was fifty-five years of age. In spite of the elements of the weather there was a large attendance of relatives and friends at the funeral.

Mrs. C. W. E. Tarte gave a bridge party on Friday evening. Cards were played at several tables and a pleasant evening was passed. Among the guests was Miss Page, of Sherbrooke.

Mr. Fred Baker, of Cowansville, was in town on Monday. He expects to go to Granby to reside shortly.

Mrs. S. Henry has returned from visiting her daughter, Mrs. Hastings, at Iron Hill.

Mrs. S. Draper is spending a few days with her parents, Mr. and Mrs. Levi Smith.

Mrs. R. Macfarlane entertained a few of her lady friends on Wednesday of last week.

Mrs. John Shepherd is suffering from a paralytic stroke. A telegram has been sent to her nephew, Mr. A. A. Robinson, who is spending the winter in Los Angeles, Calif.

Mr. L. L. McClatchy, went to Montreal recently.

Douglas Westover, of Montreal, has been in town for a few days.

Hon. Sydney Fisher, Mr. Joseph Archambault, K. C., M. P., for Chambly Vercheres; Mr. Andrew R. McMaster, K. C., M. P., for Brome, returned to Montreal Tuesday, after holding a series of meetings in Brome County. These educational meetings

CANADIAN DISCOUNT RATE CLIMBS AGAIN

(Associated Press Despatch)
NEW YORK, Feb. 5.—Rates on demand bills for the English pound sterling, which stumbled yesterday to the record low of \$3.19, opened today at \$3.22 1/4, and rose to \$3.25 1/4, at the end of the first hour. The discount rate on Canadian money in New York opened at 17 1/2 per cent this morning. The last figures quoted yesterday was seventeen per cent.

NEW YORK PRESS MARKET COMMENT

(Furnished by McManamy & Walsh.)

Journal of Commerce—As on the preceding day, the market was generally weak throughout, and there was very little of the group reaction which has been characteristic on not a few occasions in the past.
Tribune—Long before the market opened the commission houses which for weeks have been practically deserted were thronged with security holders, made anxious by the break and margin calls.
Times—The foreign exchange market presented rather curious changes of front. For the stock market there was the additional complication supplied by the highest call money of the year.
The World—It will be observed that in many stocks prices are still above the low quotations reached in the November break.

In The World Of Finance

(Furnished by F. B. McCurdy & Co.)

Washington is without official advice on the report from London that importation of cotton to England has been stopped owing to the fall in British exchange.
Senate in accord on Lodge's plan to call up treaty next Monday.
Government will withdraw \$35,000,000 from banks today, \$50,000,000 withdrawn Wednesday and about \$60,000,000 on Monday.
Charter of Exchange at discussion of financial and economic situation recommends international exchange conference. British bankers said to have agreed to decline further advances, national or international, until exchange situation improves.
Washington despatches report that the Senate and House conferees have agreed on all the minor portions of the railroad bill and that it will be moved for adoption early next week.
The anti-strike provision has been eliminated with an adjustment board provision substituted, but the guaranteed return of 5 1/2 per cent retained for a certain period to be agreed upon, probably two years.
The Democratic Senators are said to be favorable to the plan to call up the peace treaty for consideration on Monday, although rumors are ripe concerning President Wilson's attitude on the Grey letter.

POPULATION IN CANADA IS NOW 8,835,102.

(Canadian Associated Press)
OTTAWA, Feb. 5.—Canada's population is estimated by the census branch of the Trade and Commerce Department at 8,835,102. The census branch has based its estimate for the year 1919 on the known increase in population as shown by the census of 1901 and of 1911. Such calculations have in the past proved to be approximately correct.

STOCKS SLIPPED LOWER ON MONTREAL MARKET

(Associated Press Despatch)
MONTREAL, Feb. 5.—Stocks slipped lower at the opening of the market this morning under the depressing influences of the exchange loss of a point, Brazilian 40 1/2, down 1 1/2, and Spanish River 75, down 2 1/2. Investment stocks also suffered. Spanish preferred loss 1 1/2 to 1 1/2 and power loss 1/2 to 85 1/2. Shawinigan dropped 2 to 108. Laurentides new stock opened at \$5.

MATERIAL RECOVERY ON WALL STREET MARKET

(Associated Press Despatch)
NEW YORK, Feb. 5.—Wall Street, Noon—Stocks made material recovery in the first hour, with a few gains over yesterday's close. This was balanced by renewed selling among specialists where lower records for the movement were made. Shippings manifested a special weakness with copper, leathers and kindred issues, and grade oils continued to decline. Secondary rails were in occasional demand at nominal gains. A rally in the principal exchange rates offered some encouragement, although offset by an opening rate of seventeen per cent for call money.
The entire market developed fresh unsettlement at noon.

GRAIN VALUES REGISTER DECLINES AT CHICAGO

(Associated Press Despatch)
CHICAGO, Feb. 5.—Grain values dropped sharply today in a general rush to sell. Orders for a ten-day freight embargo in the middle west gave promise of a decided decrease of supplies of corn here, and this fact, together with disturbed financial conditions, led not only to intensified selling pressure in the corn trade, but also tended to deprive the market of support. Profit-taking by shorts, however, checked the decline before losses became radical. Opening corn quotations which ranged from 1 1/4 to 2 1/2 cents lower, with May \$1.31 to \$1.31 1/2, and July \$1.27 to \$1.28, were followed by many nervous fluctuations, but with only slight further downturns than were shown at the outset.
Oats displayed weakness for the same reasons as corn. After opening half to 1 1/2 cents lower, including May at 78 1/2 to 79 1/2 cents, the market rallied a little but then sagged again.
Unusual downturns in the value of hogs forced decided breaks in provisions prices. In some cases, pork fell \$1.30 a barrel.

BIG LAND OWNERS ARE DISPOSING OF THEIR PROPERTY
(Associated Press Despatch)
LONDON, Feb. 5.—The Duke of Westminster is reported to be disposing of his valuable London estates and the Duke of Leeds is also probably getting rid of his estate on the borders of Yorkshire, Derbyshire and Nottinghamshire, owing to the heavy impositions on the landed properties.

COLONIZATION BILL APPROVED BY BOTH SIDES

Opposition Leader Claims Move Is Confession by Government That Settlers Have Been Neglected.

QUEBEC, Feb. 5.—The debate on a vote of five million dollars for the promotion of colonization took up the whole afternoon sitting of the Lower House and came to a close shortly before six o'clock when the resolution respecting the loan was voted. Both sides of the House were unanimous in their approval of the bill, while the leader of the Opposition thought that the Government was not going far enough. Mr. Sauve also claimed that this action of the Government was an acknowledgment that the Opposition had always been right in asking more money for colonizing and that the move was a confession by the Government that the settlers had been more than neglected.

Mr. Honore Achim, member for Labelle, a colonization county, spoke first, and claimed that he knew something of the needs of the settler. He congratulated the Government on the building of new roads as the lack of communication was the greatest enemy of colonization. Good roads, he said, were as necessary to the new settlers as good streets were necessary to trade and industry in the cities. The member for Labelle expressed a fear that the progress of colonization would still be handicapped by what he considered an anomaly, that of the interference of the Lands and Forests Department in the granting of colonization lots. He blamed the system by which, in the granting of lots, the tutelage of the Minister of Lands, who saw nothing but the interest of the lumber man, Mr. Achim stated that he did not think that the interests of the lumber men were necessarily interfering with those of the settler, but he knew by experience that they very frequently conflicted, and as a rule the lumber man had the big end of the stick. He said he was not the enemy of the lumber men, and that the latter also needed the protection of the Government. The wood and lumber industry needed to be worked in a team with colonization, as each must in a great measure depend on the other.
Mr. Achim said there was something more to colonization than the selection of a lot. The greatest handicap of the settler was lack of capital.

NEW YORK IS IN GRIP OF WORST STORM OF YEAR

Traffic Blocked and Much Damage Done by Gale, Which Is Still Raging.

(Associated Press Despatch)
NEW YORK, Feb. 5.—New York is still experiencing the worst storm of the winter. The snow storm, which began last evening, continued throughout the night, and this morning the streets were clogged with great drifts of snow. Snow, hail and sleet, driven by a strong wind, added to the discomfort of New Yorkers this morning. Street cars moved at a snail's pace and blockades were the rule. Tens of thousands of workers forsook the elevated and surface lines and swamped the subways. Ferries were delayed owing to the high tides and danger of floating ice, and nearly all the incoming trains were far behind their schedule. Trains from the west were reported hours late this morning.
Reports received this morning indicate that eastern Pennsylvania, southern New Jersey and Delaware

are also in the grip of the storm. In Philadelphia there were serious traffic delays and shipping on the Delaware River is virtually at a standstill.

Jersey seashore resorts were hard hit. Four schooners and a yacht broke from their moorings at Lewes Del., crashed into the iron pier, and were badly damaged.

Advices from Washington state that this is the worst snow storm of the winter. The heaviest fall, the weather bureau reports, was in Pennsylvania, where from eleven to twelve inches was registered. The snow fall in New York city was six inches. The Washington report states that the storm was raging last night all along the Atlantic seaboard from southern New England to Virginia.

Reports from Marine observation points along the coast early today were that the storm was the "worst in years." The tide is high, and, driven by fifty miles an hour northeasterly gale, is pounding the beaches and threatening in many places summer homes.

Three Long Island sound steamships were fast in the ice near Execution Light, off New Rochelle, N. Y., and sound shipping was practically at a standstill as a result of the storm.

The vessels in the ice were the Maine, which left New York yesterday afternoon for Bridgeport, Conn., the New Hampshire, from New London, for New York, and the Pequeenock from New York for New Bedford. All three ships reported that they were held fast but were not in great danger.

\$4,000,000 for New Theatres

Famous Players Canadian Corporation now operates 16 Canadian Moving Picture Theatres.

The entire proceeds of the issue of the Corporation's 8% Cumulative Preferred Shares are to be used for the construction and acquisition of additional theatres.

This should give the Corporation 31 theatres, with seating capacity of 30,000 by the end of this year, and 45,000 by the Spring of 1921. It will be the greatest chain of up-to-date Motion Picture Theatres in Canada.

Nothing else need be said to far-sighted investors, except—write at once for a complete prospectus and terms.

GENERAL INFORMATION

The Argonaut Gold Mine is located at Beaver House Lake, Northern Ontario. The area of the property is about 480 acres, in one block. Development work has been carried out on a large scale for several years past. The results of development have been most successful and the property is now in a position where a large mill is required to handle the ore already developed.

The financing of the proposition to date (which has run into a very large amount), has been carried out by a small group of men, who, now that the mine is proven, find it necessary to let in outside capital in order to construct a mill and thereby secure the benefits of the work already done.

The purpose of this issue is to finance the construction of a mill, cyanide and concentration plants, with a daily capacity of 300 tons.

Extracts from various reports showing some of the results of development:

100 FOOT LEVEL, NO. 3 SHAFT	
Vein No. 82, width 6 feet, values per ton \$34.00	Vein No. 2, width 4 ft. 7 ins., values per ton \$23.70
Vein No. 86, width 4 ft. 4 ins., values per ton \$17.09	Vein No. 16, width 4 ft. 7 ins., values per ton \$18.90
200 FOOT LEVEL	
Vein No. 202, width 25 feet, values per ton \$23.70	Vein No. 16, width 5 feet, values per ton \$28.00
Vein No. 202, which is 25 feet wide on the 200 ft. level, is believed to be a merger of veins No. 2, No. 82 and No. 86, which were cut on the 100 ft. level.	
The values shown above are actual average values of the veins and are not the results of grab samples which would show many hundreds of dollars per ton.	
There are 22 known gold bearing veins on the property, and as yet only a small portion of it has been examined. It should be noted that both the widths and values in the veins have been increasing with depth.	
Diamond drill holes penetrating to a greatest depth of 515 feet have shown sensational value in veins below the 300 ft. level, one drill cut through 50 feet of ore, carrying gold values from \$75 to \$100.00 per ton.	

LETTER OF PRESIDENT

J. H. Rainville, Esq., President of the Company, in an official letter says:—
"I wish to point out that the mine has passed the 'prospect' stage; we have located large bodies of good pay ore and have, for some months past, been actively engaged in pushing development work at depth, in order to make a larger tonnage available for quick extraction.
"We already have sufficient ore opened up to pay and maintain good dividends on our issued capital, provided we have the milling capacity. With further development we shall reach the points at which our diamond drill holes penetrated the porphyry body which shows such high values, and will then, I believe, have one of the richest proven gold mines in Canada."

The mine is well equipped with up-to-date machinery and is operated by electricity throughout. The Company operates its own saw mill and has an abundant supply of timber.

Space does not permit the giving of complete details in this advertisement.

A number of engineers have examined the mine, a synopsis of their reports and further details are contained in a descriptive illustrated circular which will be mailed on request.

Before undertaking this issue we have thoroughly investigated the proposition and have found it unusually attractive. The amount of ore already opened up gives an assurance of stability, there is every probability of a continuation of values with further development, which gives the stock very great speculative possibilities.

On completion of the present issue the stock will be traded in on the mining market in Montreal and Toronto.

A large amount of the issue is already sold. We reserve the right to decline all or any portion of any application.

We offer the stock to those who can afford a speculation.

PRICE: 65 cents per share (\$1.00 par value).

SHEFFORD AGR'L SOCIETY MET AT WATERLOO

Officers Were Re-elected for the Ensuing Year—Considerable Business Transacted at Council Meeting.

WATERLOO, Feb. 5.—(Special)—The Directors of the Shefford County Agricultural Society met in the Council room on Saturday afternoon. Directors present were: Messrs. W. W. Phelps, H. C. Wallace, J. S. Hackwell, A. P. Sanborn, E. H. Ashton, M. Blanchard, W. J. Pearson and E. Caldwell, of Bromes, a Government Director. The minutes were read by Mr. J. J. Ryan, Secretary pro-tem, and confirmed. The retiring officers were re-elected, namely: President, W. W. Phelps; Vice-President, H. C. Wallace; and Secretary-Treasurer, N. O. Rockwell.

It was decided to hold the annual exhibition on September 14th and 15th, and the admission to the grounds would be thirty-five cents, being the same as that charged at similar fairs elsewhere. But few changes were made in the prize list. Messrs. R. F. Shaw and H. Bird were appointed auditors. A meeting will be held in the spring to arrange for a special prize list, and to appoint all necessary committees. Adjournment followed.

Council Held Session. Shefford Council met on Monday afternoon in regular session in the Council room. Members present were Mayor W. J. Pearson and Councillors C. Henry Taylor, Moise Morin, Theodore Lamoureux, Walter M. Wallace and Henry Bienville. The Secretary, Mr. R. K. Bachard, N. P., read the minutes of the previous meeting, also the report of the election on January 14th. Councillors Moise Morin, Henry Bienville and Walter M. Wallace were duly sworn in office by the Secretary, after which the minutes as read were confirmed and signed. The following bills were ordered paid: R. F. Shaw and N. O. Rockwell, Auditors, \$18.00; Farnham Hospital, re Maguire, to January 11, 1920, including clothes bill, \$69.00; Slack Bros., gravel and work, \$203.50; John Doonan, work, \$14.00; W. A. Jolley, gravel, \$10.00. A few other items of business were transacted, after which adjournment took place.

Board of Trade Plans Annual Banquet — Seeking to Establish Hospital.

Drummondville, Feb. 5.—(Special) —On Tuesday night the first regular meeting of the Drummond Board of Trade was held in the Municipal Hall under the guidance of the new president, W. A. Moisan.

The meeting was largely attended and included the new Mayor, Nap Garceau, and two ex-Mayors, Messrs. Montplaisir and Mercier.

There are eighty members of the Board, the latest recruit being Mr. Clark, of Sherbrooke, who is now quartered at the "Mancir Hotel" whilst he directs operations of Messrs. Loomis and Dakin who are the contractors for the million dollar cotton factory of the Jenkes Spinning Corporation of Pawtucket, R. I. Committees were formed to watch over transportation, publicity, reception and entertainments, municipal improvements, etc. During this month a banquet will be held in the Mancir Hotel for which Mr. Frank Clark, the manager, formerly of the Montreal Hunt Club, is now making preparations as it is hoped to have visitors from kindred boards in the Townships, Montreal and Quebec City and to have annually a similar reunion.

Mr. Tanner, Bank of Commerce, Mr. Fish, Southern Canada Power Co., and the Board's Secretary, Mr. Laurent Turcotte will spare no effort to ensure a successful party.

The Board of Trade is keenly interested in a project for building and equipping an up-to-date general hospital suitable to the growing needs of the neighborhood and the incoming industrial companies are promising very substantial assistance.

The Board's new President says, "our old town must be put on the country's map so clearly that they who run shall see it."

**WINNIPEG FACES
A NEW TROUBLE**

(Associated Press Despatch)
WINNIPEG, Man., Feb. 5.—Mr. Justice Metcalfe at last night's session of the trial of the seven strike leaders, objected the manner in which R. A. Bonnar, K. C., was cross-examining one of the crown witnesses, Corporal F. W. Zaneth, the Royal Canadian Mounted Police Sergeant. Agent, who posed as a Socialist and moved in the inner circles of the Socialist camp at Calgary.

Mr. Bonnar made a spirited protest, but was ordered to conduct his cross-examination properly or he would not be allowed to proceed.

"You won't have a free hand to abuse witnesses," declared the Judge. Mr. Bonnar expressed his resentment as being accused of abusing witnesses, and having explained his attitude, was allowed to go on with his cross-examination.

Under examination by A. J. Andrews, K. C., Corporal Zaneth gave reports of speeches which had been made at meetings at Calgary by the accused, and stated that the Calgary strike was in sympathy with the Winnipeg strike.

Replying to Mr. Bonnar's bombardment of questions, witness denied that he was a German or an American, and claimed that he was an Italian by birth. Witness frankly admitted that he had told a good many lies when posing as a Socialist, but held that he could not retract the information he had been instructed by superior officers to get unless he had done so.

Interesting Topics on the Agenda — All Citizens Interested Are Invited to Attend.

The programme for the annual meeting of the E. T. Associated Boards is now completed. The meeting will be held in the Art Hall, Sherbrooke, on Tuesday next. There will be two sessions, afternoon at 2 p. m. and evening at 8 p. m.

Hon. J. E. Perault, M. L. A., for Arthabaska, Minister of Colonization, Mines and Fisheries, is expected to address the afternoon meeting at 3 o'clock.

Hon. S. A. Fisher, Dean Laird, of Macdonald College, and Mr. J. D. Parmenter, of Quebec, who are to address an educational meeting in the High School in the evening, will attend the session of the Associated Boards.

Dr. John Hayes, of Richmond, believes that the towns and villages of the Eastern Townships, under the existing conditions, offer the most favorable opportunities for new industries. He will introduce a discussion on this subject.

Mr. E. L. Stewart Patterson, of Sherbrooke, will tell the Associated Board of the "whys and wherefores" of exchange, referring particularly to the present exchange situation between Canada and the United States.

Mr. J. W. McKee, of the Sherbrooke Board, believes that the Board of Trade has a mission in every community, no matter how small.

He will introduce a discussion on this topic.

These and many other matters will engage the attention of the meeting on Tuesday.

All citizens interested are invited to attend, particularly the afternoon session.

Mr. William Smith, M.P., Thinks It Unfortunate that One Class Has Been Set Against Another.

(Associated Press Despatch)
TORONTO, Feb. 5.—"What is all the fuss about?" asked William Smith, M.P. for South Ontario, president of the Ontario Horse Breeders' Association, at the annual meeting of the association here last night, when referring to the U.F.O.

"As a farmer, I think it unfortunate that one class has been set against other classes in this country," said Mr. Smith. "Some may think that the interests of farmers have been neglected in the past, but as a matter of fact, farmers were never as well off as they are now. If farmers desire to secure political power, by all means let them go to it, but no one class can obtain permanent control. Still, I wish all success to the attempt that is being made."

**REPORT OF LAST
SEASON'S CROP
IS GIVEN OUT**

There Was a Falling Off in the Yield of Wheat During the Past Year.

QUEBEC, Feb. 5.—The Quebec Bureau of Statistics publishes the final estimate of last season's crop. There is a falling off in the yield of wheat, but, on the other hand, other cereals have produced a larger number of bushels, as, for instance, oats, barley and rye. In 1199 potatoes also gave a much larger yield than the previous year. In the following lines will be found particulars as to the yield in cereals and other field products per acre, as to the quality according to the average weight, per bushel; as to the average sale and total value of these products. It is to be noted that since 1916 the value of the field products has almost tripled in the Province of Quebec, as shown in the following table:

1916		\$102,937,000
1917		153,194,000
