Huntingdon, Wed., Feb. 28th, 1945

The Annual Red Cross Drive

ON Monday, March 5th, the annual appeal for funds to carry on the work of the Canadian Red Cross Society will open. There is probably no other appeal that is more worthy of support than the Red Cross. In this war many people right here in the Chateaugay Valley have known the benefit that the Red Cross and the International Red Cross can give and also the comfort it can bring when relatives are missing or prisoners of war. Such people are grateful and feel it is their duty to support the Red Cross to the utmost.

Soldiers who are returning from overseas are high in their praise of the Red Cross and those who have had occasion to need blood transfusions are exceptionally high in their praise. There are many instances of the work of the Red Cross of which the only actual proof of their service are the reports of what has been done. But a large number of people throughout this Dominion have had actual proof of the benefits and the work done by this great organization. As the war draws to an end, the work of the Red Cross will multiply rather than diminish and for this reason it is vitally necessary that all support possible be given to this drive which opens on Monday. Quebec's share of the national quota is set at \$2,250,000, the total for the Dominion is set at \$37,600,000.

A large portion of the money is to be used for Prisoner of War Parcels and these cost approximately \$2.75 each which includes all charges to the destination. It is thought that those who have in previous years contributed \$1.00 would help considerably if they made their contribution the equal of the cost of one of these parcels. After all it is not very much when one considers the great joy and relief these parcels bring to those who receive them. When one looks at some of the reports and pictures of the men in prisoner of war camps, and sees the treatment meted out, it is no wonder these parcels are so eagerly looked forward to. One would wish that more of these parcels were permitted to be sent to the prisoners of war. The letters of those who have been prisoners of war and have returned home, are convincing enough evidence that these parcels are needed and a necessity. Thus it would be better to make the contribution large enough to pay for one of these, and if all did this, the Red Cross Drive would go over in a big way.

Think it over before the canvasser calls, and decide to make your contribution as large as you possibly can—it will be your chance to make someone else very happy.

Praise For Quebec

AFTER receiving much criticism, Quebec came in for a bit of praise from the Financial Post in a recent issue of that newspaper. The Post says that the Postwar Spotlight is on Quebec, and then goes on to give its reasons for the statement. In one statement Abbe Arthur Maheux is mentioned as one trying to effect a better understanding between the French and English-speaking peoples of the Dominion. It will possibly be remembered that the Gleaner printed an article by this same man on the same subject.

Regarding the potentialities of Quebec as a great industrial Province, there can be no doubt. The equipment that is right in the province is evidence of that, with electrical power the main asset. Having two great harbours for ocean going vessels is another valuable asset that makes Quebec an important province in Canada. Direct communication by rail to New York and within a few hours distance, is another feature that can be marked down to the credit of Quebec over other parts of the Dominion. It might almost be considered the nerve centre of the Dominion in so far as communication from the most important parts of the Empire, Europe and the United States is concerned. Having been chosen twice for special conferences between Prime Minister Churchill and President Roosevelt already in this war, seems to indicate the importance placed upon this province by these two important countries.

Newcomers to this great Dominion from Europe and other Atlantic parts, in peace time, must come through this province either indirectly or directly, before they can become part of the population of this country. Persons leaving the Dominion for the points above mentioned also leave by way of this Province. Thus it figures in almost everything that is done in this Dominion. The greatest metropolis of the country is centred in Quebec Province and trains leave it daily for the greatest metropolis of the United States, i.e., Montreal to New York.

The Post says: 74% of the population is under 40 years of age, 63% live in towns and cities, and 57% of Canada's developed power is in this province.

One has only to look at the development that has taken place in the Chateaugay Valley in the past few years, to realize that more and more Quebec is becoming the industrialized province of this Dominion. New industries are continually opening up in this Valley and more are promised as soon as the war ends. This condition is equally true of other parts of the province.

But there remains one great drawback to the complete progress of this province and that is the differences that continually crop up among its people and those of other provinces over racial and religious matters. Even

the Provincial Government is not helping these matters by continually harping on conscription issues and matters of Imperialism. If Quebec is to reap the benefits of its natural position in the Dominion, the government and the people must co-operate and work as one, no matter the racial origin of the composition. The Provincial Government must work in conjunction and in co-operation with the Federal Government and not be so ready to legislate on Federal matters while letting provincial matters take a back seat. It is up to the government to set an example to its people and there should be no separation of the people because of racial or religious differences. Even though Quebec may be able to operate on its own apart from the rest of the Dominion and apart from the rest of the Empire, such a policy would not lead to the progress of this province, as its very well-being depends on being able to work within and be a part of this great commonwealth.

This is the plea that the Financial Post is trying to put forth in the article published in the recent edition mentioned. It is the plea of Abbe Arthur Maheux and it is the plea that all right-minded citizens wish to make. Progress is made much more difficult where co-operation is lacking, racial feeling does not make for co-operation and without co-operation among all the peoples of this province there cannot be the bright future which the Post paints for it.

The way the government acts and conducts itself makes the measurement that industrialists will use to compute their chances of success if they found a business in this province. There are indications that many European firms will want to open up factories in this Dominion after the war. Not only European but some South American firms also. They will not want to locate in a part of Canada where there is friction that may spoil their international trade with other countries. The Government of the Province by condoning differences over Imperialism is not helping International relations, because it is well-known that England is a great market for items of all kinds made by all manufacturers. Canada has proved its ability to produce in quantity as well as quality, thus it is that industrialists all over the world are looking to Canada in the post war future. As can be seen by the figures quoted on Quebec, no small part of this production has come from this province. Thus it is that Quebec will be foremost in the minds of the people who may be thinking of setting up factories in the after-war period. It is up to the people and the Government of this province to prepare a picture that will be enticing and encouraging. Away with racial feelings, away with religious differences, and work more toward co-operation to the achievement of a great Province of Quebec. Such an outlook on the part of the Government will do more toward achieving that unity that is so necessary, than all the arguments of all parties that are now in office. This one problem alone could occupy the time of every member for every hour and every day of the year for many years to come. In Provincial matters the welfare of Quebec should be first and foremost.

Mr. Chaloult Tries Again

IF there is one man who is persistent on the conscription issue, that one man is Rene Chaloult. During the past week this man has again brought the question before the Quebec Provincial Legislature, and this time has found support for his motion. So far as can be seen only a very few will vote against the motion and one of these is Mr. J. A. Mathewson, a former Provincial Treasurer. Mr. Chaloult made a motion condemning Mackenzie King because of enactment of conscription and condemning conscription itself. Some of the members while making vigorous protest against the motion, have said they will vote for the motion, because they are against conscription.

It seems rather a waste of time to occupy the members of the Legislature in days of debate on a subject that is not only out of the control of a Legislative Assembly, but also a matter that has been debated and passed in the Federal House and is now being enacted. There are other things of far greater importance that the legislators could occupy their time with and it is well known that with Mr. Chaloult, Imperialism and conscription are his pet subjects. It is hard to find any real constructive matter that Mr. Chaloult has brought before the house that would help Quebec in a general way. Why waste time discussing matters of this nature when there is so much that could be done to improve conditions in this province and for the people. Such debates only tend to inflame the racial feelings of the people of the province and to engender hatred of Quebec among the peoples outside. We are all in this war and whether we like it or not the job has to be done and has to be done right and to the utmost of our ability. It is no worse for one people of any racial extraction to be called upon to do its parts than for any other, so long as all claim to be Canadian. We are fighting this war as Canadians, not as French, Jew, English, Polish, Ukrainian and so on. In the Canadian Army many men of all kinds of racial extraction are to be found. They are in it because they feel that Canada is their country, so why should one section of the people feel bad because they are called upon to do their part. Why should Mr. Chaloult condemn England when that country has stood by the country of his ancestors and seen to it that it is liberated from the yoke of the oppressors. Has Mr. Chaloult no pride in his ancestry that he would not wish to see the country of their birth liberated from the oppression and suffering into which it was plunged? Would he wish to see France a conquered country and under the heel of Nazism for all time, that he is not willing to lift a finger in its defence?

Possibly the only condemnation of Mackenzie King that could be made on the conscription issue is that he brought it about too late, not because he brought it about at all. Such a course was inevitable, it was the only way out for Mr. King to continue in office. It was the only thing to do in fairness to the men who are bearing the brunt of the battle in Europe. When these men return, they will no doubt have plenty to say to Mr. Chaloult for the continual opposition he has shown to the war in general and the effort that Canada is making. Thank God that there are only a few people like Mr. Chaloult, or the Germans

would be in Canada by this time and if such had been the case, then God help us all.

We can only urge that in the best interests of good government in this province, that the members of all parties in the Legislature ignore such motions and get on with business that will have far greater to do with the welfare of the people as a whole. It is debates on such subjects that cause the people to seek changes of government that go outside the old line parties. The world is changing too rapidly to allow governments to debate subjects about which they can do nothing. There is a trend today to get down to business and waste as little time on debates as possible, especially where such debates can accomplish nothing. There are too many important matters facing the people in the years to come, to waste time now. If Quebec is going to take its place in the Post War Future, then some planning must be done to see that the place is achieved.

Let the government set the example for good citizenship and the people will soon follow its lead. But while the government is arguing about who should fight and why, how can it be expected that John Citizen will make up his mind. There are citizens who will make up their minds and stand by it, but there are a number of others who have to have their minds made up for them. It is for these people that the government can set the example. Good government means good leadership—have we got it?

Burn and Sink Them If You Must

YES, if you really feel you must burn up a pile of mailbags, endanger a great many lives, perhaps even sink a ship, the quickest and easiest way you can do it, without trouble to yourself, is to pack a few matches into your overseas parcel. Pack them loose, and Hitler himself could not make a better job of it. The parcel will then be thrown by the sorter into the proper bag and even that may be enough to ignite those matches. Or perhaps they may lie dormant until the mailbag is thrown into the hold of the ship. Then there is every chance that they will ignite and smoulder for several days until the smoke is detected rising out of the hold. No one will ever know—except the one who did it!

There have been three really bad mailbag fires lately from this cause, but although they have been given a great deal of publicity, the parcel-packers keep right on packing in their loose matches, and close to lighter fluid too.

Another thing you can do if you have decided simply to make a nuisance of yourself, and that is to pack in cocoa powder or chocolate syrup in a cardboard container. This is the very latest tip, and it looks as if these two sweet things were going to outbid jam, honey and molasses for pride of place.

It is just amazing what parcel-packers can do. There are so many badly packed parcels reaching the Army Base Post Office at Ottawa that the authorities are regularly repacking 5,000 of them a month.

FIRE TRUCK AND BOOSTER PUMP IN READINESS FOR FIRE FIGHTING

Above is the fire truck of the Huntingdon Fire Department, loaded in readiness for any alarm. Note how the hose is packed onto the truck, this makes for fast unloading when the scene of the fire is reached. The striped pieces that can be seen with the word "caution" are the blocks that are placed over the hose when it crosses a street, so that cars and other vehicles can cross over it without damaging the hose. The Booster Pump is shown attached to the rear of the fire truck. This was the first piece of real equipment that the Huntingdon Fire Department had a few years ago. The extension ladder and roof ladder can be seen on the fire truck and also some of the chemical extinguishers and nozzles. A portion of the fine Fire Hall can be seen at the rear of the equipment.

Huntingdon Fire Department Ranks Among The Best

One of the most interesting and educational visits the Gleaner representative has had in some time was when he visited the Huntingdon Fire Department a few days ago. Possibly the fire dept. is the least publicized of anything in public life except when there is a fire. Then when the fire is over, it is possibly the center of criticism for not having accomplished more than it did. The Gleaner wishes to acquaint the people of Huntingdon with the facts about its Fire Dept. and to give them some idea of the great strides this department has made in the past few years—it is a revelation. Instead of unjust criticism, we believe the Fire Department is deserving of praise. Having this interview we were able to get some idea of the problems that face this department and the efforts that have been made to overcome them to the best of human ability.

One thing that the Town Council of Huntingdon has done much to improve in the past few years, is the fire fighting equipment and the instruction given the volunteer fire fighters. This is an important department in any town or any community, and the stronger and better equipped the fire department is, the greater the benefits to the community. Not only is property less likely to suffer severe damage, but insurance rates are likely to be decreased, when the fire fighting services are such that large fires are more easily coped with. In the past few years Huntingdon has expanded both in an industrial way and in the population and number of houses. Prior to the war and before the real expansion took place, Huntingdon's Fire Fighting equipment was only the average of the small town and in many cases inadequate to handle very large fires. The story is different today.

BOOSTER PUMP PURCHASED

While Huntingdon was equipped with a hydrant system, there were numerous defects which allowed that the system was not reliable in the case of fire. That is, at that time, the town only had a hose reel with several hundred feet of hose. When a fire occurred, this hose was attached to the nearest hydrant and only the pressure to be obtained from the hydrant was possible for use. The pumping equipment in those days was not as good as that which we have today. The volunteer fire brigade of those days was not trained in the real art of fighting fires and depended on whatever number of citizens would be willing to go out and help fighting a fire. Under such conditions, the fire insurance rate was naturally high. In 1925, a booster pump was purchased, after much discussion by those not in favor of it. It took a fire to prove the usefulness of this piece of apparatus, before the town officials were sold on the booster pump. There was some difficulty in getting the pump into action at this first fire, due to the fact that no one knew how to operate it. The apparatus was here on demonstration when the fire occurred, and it was seen that the fire was beyond control, when someone suggested trying the new booster pump. As

stated there was some time lost in getting it working and this very fact gave those who opposed its purchase, a chance to say "I told you so". But when the pump was finally in operation, the fire was subdued so quickly that all were convinced it was a desirable piece of fire fighting equipment. Thus it stayed in Huntingdon. This was the first start toward the town building up a real fire fighting organization, although it has taken years to bring to the present point of perfection.

FIRE HALL BUILT

It was soon found that some suitable and possibly permanent structure should be built for a fire hall to house the equipment of the fire dept. This was in 1927 the present Fire Hall was built, and this there was a forward look to the future, for it was built on a large scale considering the amount of equipment then on hand. Even with this fine Hall, the equipment still had its drawbacks for fire fighting. The reel had to be drawn to a fire by hand and also the booster pump. On some occasions a horse was handy or someone had an automobile near by. In the winter time the roads were not plowed out as they are today, thus it will be seen that much time was lost in reaching the scene of a fire before anything could be done to get it out. It was decided in 1928 that a fire truck should be purchased and be available for quick transportation of the hose, ladders and other equipment to a fire. The booster pump was hooked on behind the truck. While the fire truck it not one of the specially built type, but was really an ordinary car converted for the purpose. It has served the town well and is still in fine condition. It was a marvelous addition to the fire dept. and had the effect of increasing the efficiency of the fire fighters and cutting down the time in getting to the scene of a fire.

INDUSTRIES MAKE NEED FOR GREATER FIRE PROTECTION

With the advent of several industries locating in Huntingdon, and a sharp increase in population, there came the need for greater protection against fire and more improvement in fire fighting equipment and technique. It was necessary to improve the pumping equipment as more water was required and greater distances had to be covered. To this end, the Town enlarged its water works system with the latest improvements in pumping and purifying the water. Several of the mains were enlarged and new ones installed at different parts of the town. But still when fires occurred in parts of the town that were on the extremities, or where there was a big drain on the system by way of supply, the hydrants would not give a sufficient stream of water to fight a fire. Before the Convent fire occurred, it had been pointed out that the water pressure in that part of town was very poor and if a fire did occur in that neighborhood, it would probably result in a complete loss. Sure enough when the fire at the Convent did occur, it resulted in that building being completely ruined. The water pressure was not sufficient and two lines of

hose could not be trained upon the fire from the lone hydrant in that vicinity. Just previous to this, there was a disastrous fire at the hardware store of Braithwaite Bros., on Chateaugay street. These two losses following one another within a few weeks, caused great concern to all persons in Huntingdon and to the industrialists in particular. It was felt that insurance rates would increase and that fire protection was very poor for a town of this size. It was therefore decided that an overhauling of the fire dept. was necessary and that better provision for fighting future fires should be made. Some improvements had been made before this time, under the leadership of Mr. Cecil Stark, as Fire Chief, and the fault in fighting the fires did not lie entirely at the doors of the fire fighters themselves. For some time previous, Mr. René Rousseau had been making a study of fire fighting and the methods that should be employed, and offered his services to the Council to assist in any way he could. This matter was brought to the attention of the Council by Mayor W. E. S. McNair, and it was decided to have Mr. Rousseau help on the fire brigade and to purchase some books and other equipment which he needed. Consequently, Mr. Rousseau acted as sub-chief of the fire brigade, under Mr. Stark. With the help of the books and continuous study of the various things that might affect the proper fighting of fires, the start of a general improvement in the fire fighting methods and equipment was made.

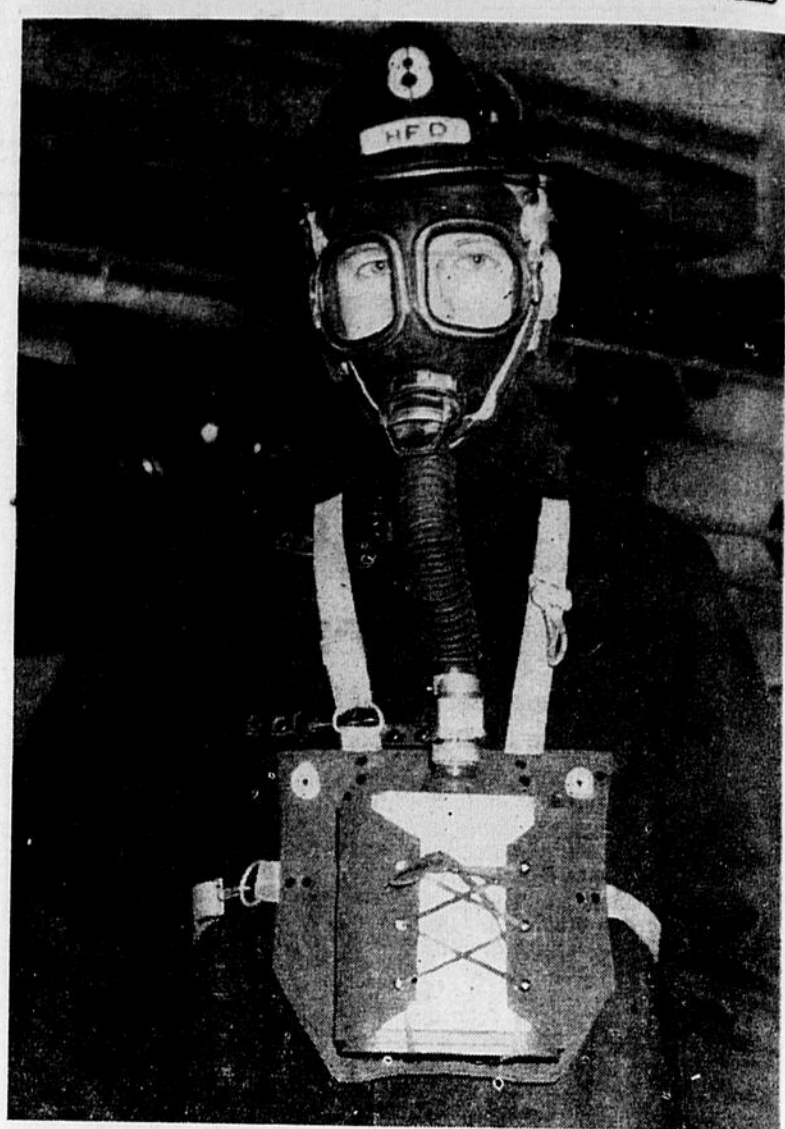

IMPROVEMENTS STARTED

The first thing tackled after the two fires mentioned, was the booster pump, which had failed to operate effectively at the Convent fire. It was found that this needed overhauling badly and putting into its proper shape. This was done and many improvements were added to it, so that today, it is in first class condition and has proved its worth at several fires since. Some of the improvements are: a generator has been installed to charge a battery which lights a spotlight on the vehicle for providing light for the operator to make connections and watch the operations of the pump. An oil cup has been installed which guarantees instant action of the pump and supply of water as soon as the pump is operating. The pump has a possible lift of eighteen feet and 120 lbs. pressure at the pump itself, the pressure is shown by a gauge. A tool box to carry all the equipment has been placed on the machine so that tools are always at the point of use. These improvements make the booster pump more dependable and ever ready for use when needed. At weekly intervals the whole mechanism is checked so that any possible defects can be quickly detected. In the case of the fire at the Chateaugay Barracks, the booster pump proved its worth and no doubt saved a more serious fire than if the hydrant system had been depended upon.

DEFECTS IN HYDRANT SYSTEM REMEDIED

The defects being noticed in the hydrant system, this was the next

EQUIPPED TO BATTLE SMOKE OR GAS FUMES

Shown above is one of the Huntingdon Volunteer Firemen equipped in the All-Purpose Gas Mask, his Helmet and Coat. It will readily be seen the clear vision of the mask by the wide glasses over the eyes. The metal tip over the breathing apparatus is also shown. The corrugated tube leading down to the canister draws for the purpose of purifying the air breathed by the wearer. Just at the end of the corrugated tube and above the canister is the meter which tells the wearer how much of the chemical has been used from the canister. If required the canister can be quickly removed and a spare replaced. Such equipment makes fire fighting much easier for the firemen and gives greater protection of lives for those who may be trapped in a burning building.

job tackled and to a great extent special rack was built onto the has been overcome today. A special test meter was purchased by Mr. Rousseau and he set about the task of testing the different hydrants in all parts of town. It was soon discovered that many of the hydrants were not giving the maximum pressure required. With this in mind, the sub-chief got his inventive brain working and made a testing apparatus that would detect leaks in the water system. With the aid of this piece of machinery, tests were made and it was soon disclosed that there were several bad leaks on the main that runs along Chateaugay Street. Work was commenced on these leaks and after a short time they were stopped. The result was that there was an immediate increase in the water pressure all over the town system. Naturally the condition of all the hydrants was improved and today very high readings can be obtained at almost any hydrant in town. A further improvement was also obtained when the new main was installed to Chateaugay Barracks, as this caused a relief to the town water system and also improved the pressure at the barracks. Several hydrants have been removed and replaced, while some others have been replaced entirely. Two more are waiting to be installed in the spring. The Town of Huntingdon is considered to be approximately one square mile and within this area there are 40 hydrants placed at the most strategic points, so that it is possible to obtain water for a fire at almost anywhere within the town. The new portion of town over the N.Y.C. tracks would present the firemen with their greatest problem at the moment, as it would tax the hose capacity and the water volume to fight a fire in that locality. It is hoped that when water is laid to this part, that at least a four inch main will be used, and a hydrant can then be installed near this point.

FIRE DEPT. AND EQUIPMENT CHECKED

Having overcome as far as is possible the hydrant problem, the next step was to check the fire department itself and the equipment. In with this, the volunteer fire brigade was also re-organized. In approaching the Council on matters pertaining to town fire equipment, the brigade found they obtained a ready response to the constructive suggestions which were made. Thus it is today that Huntingdon Fire Brigade would rank very high among other volunteer brigades for a town of like size. The fire truck came in for a check-up and the result is that the equipment is loaded on it in such a manner as to give maximum efficiency in case of fire. In place of the truck just carrying the hose in coils and one straight ladder, that invariably was too short, it now carries a 35 foot extension ladder and also a roof ladder; a 10-man outfit consisting of helmet, coat and rubber boots; gas mask; 5 fire extinguishers; various types of hose, couplings and nozzles; a special type of hose shut-off; two prodding poles for ceilings; axes, etc. In order to accommodate this extra equipment, a

special rack was built onto the truck and everything is carried in orderly fashion. The hose is so loaded onto the truck that one man can step off while it is in motion and bring yards of hose off with him already to be coupled to the hydrant. As the truck goes on, the hose is laid out until it reaches the required distance. A certain size hose is placed on one side of truck and another type is placed on the other. The latter has several feet of 1 1/2 inch hose attached to the 2 1/2 size. This is done by means of a Siamese connection which allows for the two smaller hose being coupled to the larger hose and gives two streams of water if required. The Siamese coupling has independent shut-offs for each of the two smaller hoses and each of these has an independent nozzle with shut-off. Thus it is possible to control the water at several handy points without shutting down the hydrant. In the olden days, it was necessary to shut down the hydrant or leave the water running. With this equipment there is a minimum of (Continued on page 7)

FREE
CHOICE

HAT'S all this talk about life insurance being a monopoly?

ANSWER: It's just not true. If you want to shop around in Canada for insurance—you can pick an American company, or a British company, or a Canadian company. You may choose a stock company, or a strictly mutual company. You may select either a participating or a non-participating policy.

You mean there's real competition?

ANSWER: There is, indeed. Anyone who has let it be known that he is in the market for insurance realizes just how keen competition is between the different companies. He knows they offer a wide variety of plans and premium rates. Monopoly is a term which can never be truthfully applied to the life insurance business in Canada.

RECIPES

Old-Fashioned Dishes, But Very Popular With Moderns

An old-fashioned "boiled" dinner is just the thing to serve when you want to get to the Red Cross early for it reduces dish washing to a minimum... only one pot and one serving dish.

For a family or company supper, cheese soufflé, its golden colour repeated in an accompanying bowl of cabbage and raw carrot salad, will enhance your reputation as a cook.

Steamed apple pudding, when the rest of the dinner is on the light side, is just the right dessert. The family will leave the table feeling so well fed they'll never notice that the remains of the Sunday roast were stretched to the limit.

Today's recipes from the Consumer Section of the Dominion Department of Agriculture are the kind that make everyday meals good meals. They will soon become family favourites.

Old-Fashioned Boiled Dinner

3 to 4 lbs. fresh or corned beef brisket, rum or plate.
1 medium turnip, diced
6 carrots
6 medium onions
6 medium potatoes
1 small cabbage
Cover corned beef with cold water, bring to boiling point, then discard water. (Omit this step with fresh beef). Cover meat with boiling water and cook slowly at simmering temperature until tender, about 3 hours. One hour before serving add turnip, carrots, onions and seasonings as desired. (Salt with fresh beef, a bay leaf, sprig of thyme, one or two peppercorns, parsley or celery leaves). Half an hour later, add the potatoes. Cut cabbage into wedge-shaped pieces and add 15 minutes before serving. Remove meat to a hot platter and surround with vegetables. Six servings.

Cheese Soufflé

1 cup fine, soft, white bread crumbs
1 cup milk
3 tbsp. fat
3 tbsp. flour
1/2 tsp. salt
Dash of paprika or Cayenne
1 cup grated cheese
3 egg yolks
3 egg whites
Soak crumbs in 1/2 cup milk. Melt fat in top of double boiler, blend in flour, add seasonings and remaining milk. Stir until sauce has thickened. Add cheese and stir until melted. Remove from heat, add beaten egg yolks and soaked crumbs. Cool and fold in the stiffly beaten egg whites. Turn into a greased baking dish, set in a pan of hot water and ovenproof in a moderate oven, 350 deg. F., until set, about 50 minutes. Five to six servings.

Steamed Apple Pudding

6 apples
1-3 cup sugar
1 cup sifted all-purpose flour
2 tsp. baking powder
1-2 tsp. salt
2 tbsp. butter or mild-flavoured fat
1-2 cup milk
Peel, core and slice apples; place in a greased baking dish. Sprinkle with sugar. Mix and sift dry ingredients, cut in fat and add milk. Spread dough over apples. Cover tightly and steam 35 minutes. Turn out and serve with a favourite pudding sauce or top milk. Six servings.

Children's Corner

A SMART DOG

The Wilsons lived in town and "Ranger" was the family dog. He was a big, brown, shaggy-haired dog with soft brown eyes and the children all loved him.

When Laurence went to school, Ranger would go with him as far as the schoolhouse yard, then go back home and almost always he went to meet him in the afternoon, too. He seemed to know when it was time. On Sunday he went to Sunday School with Laurence and would lie on the porch outside and wait until he came out. And when the children played games, Ranger liked to be one of them, taking his place just like a child.

Then the family moved out to the country. One day Laurence and his father hauled a load of watermelons from the field up the lane to the house to feed the pigs in the lot back of the house. They threw a lot of melons over the fence and stood watching while the pigs ate them.

"That will be enough for today," said Mr. Wilson. "We will stack what is left here by the gate and feed them tomorrow." Ranger was watching them as they unloaded the melons. There was a little bridge over a ditch in the gateway to the yard and the melons were stacked just outside.

"Some strange crows might come in the night and eat them up!" said Laurence as they put the last one down. "I don't think so," answered his father, "and, anyway, if they should come Ranger will chase them away. Won't you, Ranger?" He stooped and patted the dog's head. Ranger wagged his tail and looked wise.

But in the night the strange crows did come up the lane. The family heard Ranger barking loudly and Mr. Wilson got up to look. In the bright moonlight he could see five or six crows going down the narrow lane with Ranger right behind them. He was sure Ranger would keep the crows away so he went back to bed. But what do you think? Early the next morning when Laurence and his father went out there was Ranger rolling the last of the melons into the house yard!

After he had chased the crows away, he had rolled the melons one by one, over the bridge, pushing them with his nose until all of them were inside the gate. He must have known they would be safe inside.

"Well, well, well!" exclaimed Mr. Wilson when he saw what Ranger had done. "We would think a dog would know enough to do that?" "Ranger does!" said Laurence, proudly.

NUTRITION QUERIES

Here are a few "true or false" statements. Perhaps you know the answers. Try them anyway, then check with the right answers supplied by the Division of Nutrition, Ottawa.

1. Molasses is a nutritious sweet. True or false?
2. Whole grain cereals are more nutritious than refined cereals. True or false?
3. The Food Rules say, "Eat potatoes three times a week." True or false?

Here are the correct answers.

1. True. Molasses tops the sugar group in nutritive value. It contributes calories, plus worthwhile amounts of calcium and iron and a fair amount of the B-Complex group of vitamins.
2. True. Comparing the nutritive value of whole grain cereals with the refined cereals, pound for pound, it is found that the whole grain varieties give more of the B vitamins... more iron... more calcium... as much energy... as much protein.
3. False. Canada's Food Rules recommend at least one serving of potatoes daily. Cooked in their skins there is less loss of minerals and vitamins.

Hemmingford

Mr. Sweeney, of Regina, Sask., was a recent week-end visitor at the home of his daughter and son-in-law, Mr. and Mrs. George Dobbs. Master Robert St. Denis had the misfortune to fall and break his arm while shovelling snow from a road, on Monday. A speedy mend for Bobby is hoped.

Mrs. E. J. Reid has returned from Boston, Mass., after spending a week with her sister, Mrs. F. B. Eastman, and other relatives and friends.

Mrs. Belbin, Mrs. E. McNaughton and Mrs. E. E. Clelland, were delegates to the Annual W.M.S. Presbytery, held in Montreal, on February 21st and 22nd.

Mr. Dan Kavanagh, an employee of Greenfields Ltd., Montreal, Que., for 30 years, has taken up business interests at the late John Leahy's store and expects to add new lines of stock as soon as goods are released for civilian use, the store will operate under the name of Leahy's Reg'd.

Mr. C. E. Petch is at present on a lecture tour in Quebec and Ontario provinces, while in Toronto he will visit his parents, Mr. and Mrs. C. Petch.

Mrs. Wilson Hayes entertained several friends on Friday evening at her home to a 500 party, the guests report a pleasant evening.

Week-end guests in town were Mr. and Mrs. Robert Clifford, of Montreal, Que., at the G. J. Brown home; Mr. and Mrs. Drysdale Barrington and daughter, Elaine, of Montreal, Que., and Mr. and Mrs. Carr, of Plattsburg, N.Y., at the H. Barrington home; also Mr. and Mrs. Archie Brownlee and family, at the R. T. Brownlee home. The new home which Mr. and Mrs. Archie Brownlee are building at Greenfield Park, Que., is nearly completed and they expect to occupy it in about two weeks.

Messrs. Loren McCanse of Montreal and Wilmer McCanse of Cornwall, Ontario, were week-end visitors at the home of their parents, Mr. and Mrs. James McCanse. Sorry to report Mrs. McCanse is quite ill at present.

The Masonic Lodge members entertained their wives and other friends on Wednesday evening to a 500 party. A very pleasant evening was enjoyed and the following were the prize winners: Ladies' list, Mrs. D. H. Orr; Consolation, Miss Elsie Williams; Gent's list, Mr. Kenneth Cairns; Consolation, Tom A. Clelland.

Mrs. John Wallace, of Roxham, Que., has received a letter of appreciation from London, England, copy appears below. Mrs. Wallace is 82 years of age and is one of the very faithful workers in the Red Cross Unit in Roxham, doing both knitting and sewing, besides attending to household duties. This probably sets a record.

Weigh House Rest Centre, Binnie Street, London, W.I., England, 18th, Oct. 1944.

Dear Madam:-

As you will see from the heading to this letter I am writing from a Rest Centre, which is a place where we temporarily house and feed those citizens of London, who have lost their homes through enemy bombing. We, of the staff, prepare these places and do all our own decorations and generally do our best to make them look homey and comfortable. In preparing this centre we applied to the British Red Cross for help, and through their good offices we were able to obtain from the Canadian Red Cross some very beautiful bed covers. Among them was yours, with the black and white squares, with your name in the corner. Made and donated by Mrs. John Wallace, Hemmingford, Quebec.

I am therefore writing to let you know to what use your lovely cover has been put, and I am sure that if you could see how much it is appreciated, you would feel well rewarded, for all the time and labour it must have cost you.

May I therefore be allowed on behalf of my staff and myself, and particularly of the homeless, to thank you so much for your kindness, and further to offer you our heartiest congratulations on such excellent workmanship, by a lady of your great age, and again many thanks.

Believe me, dear madam, Yours very sincerely,

(signed) J. L. Welham, Supervising Officer.

On Saturday evening about thirty-five neighbors and friends of Mr. and Mrs. Herbert Barrington of West Street, went in to spend the evening with them in their new home. Although taken by surprise, they readily welcomed their guests, music games and dancing was enjoyed. Miss Elaine Barrington sang two solos which were much enjoyed also. Accordion, piano and violin selections added much to the evening's entertainment. Mr. and Mrs. Barrington were presented with a floor lamp with best wishes for many years of happiness. After refreshments, all went home feeling that more evenings spent like this together would make for and promote a better community understanding and social life.

DO YOU FEED YOUR WIFE?

Do you feed your wife? You'll have to say so without quibble when you make out your income tax form in the next few weeks, asserts The Financial Post. Says The Post:

According to the new income tax forms for 1944, a married man who doesn't support his wife can no longer claim married man's exemptions without making himself liable to penalties for giving false information.

"The new forms require a taxpayer claiming exemption for 1944 on account of his wife, to state definitely that he has supported his spouse during the year. Previously he had only to claim status as a married man whose wife did not receive unearned income over \$600, and was a resident of Canada or some other of the United Nations."

Bacon and Eggs First Call On Breakfast Menu

Nutrition Experts Believe Canadians Are Not Getting Their Full Quota of Vitamin "C"

By HELEN BANNERMAN Canadian Press Staff Writer

OTTAWA.—(CP)—Canadians still believe in substantial breakfasts despite shortages, rationing and the growing fashion in the United States to start the day with fruit juice and coffee.

A cross-section of civil servants and housewives questioned in the capital said they based their breakfast on toast and coffee or tea generally accompanied by a "main dish"—bacon and eggs, hot porridge, poached egg on toast. Sometimes they had sausages, pancakes or even kippers. A few said their breakfast was a cup of coffee.

"Bacon and eggs are our most popular breakfast," said the Ottawa manager of a nation-wide restaurant chain. "Toast and marmalade and coffee go with it, and sometimes customers order fruit juice. Tomato juice is the most popular. Second choice is toast and coffee."

This information added weight to the belief held by the Health and Welfare Department's Nutrition Division that Canadians are not getting their quota of vitamin "C". Canada's food rules call for a daily serving of citrus fruit or tomatoes or their juices plus one serving of other fruit.

"It isn't enough to have just toast and coffee or doughnuts and coffee for breakfast," said Grace Dugan, chief nutritionist at the Division. "It is hard to plan lunch and dinner to include the day's food requirements."

of Calvary where the immaculate Son of God hung between two thieves to redeem the world from the darkness which was closing upon it, but the torch is the one great light which has been held aloft, and will grow brighter as the centuries pass and the most dramatic challenge which has ever been passed to the Christian church is—"Upon this rock I will build my church and the gates of hell shall not prevail against it." Strange to say, I have never heard a sermon nor read one on those dramatic words—"The gates of hell shall not prevail against it."

The Drama

"Thought is greater than all speech. Feeling greater than all thought. Soul to soul cannot impart. What unto itself was taught. We are spirits clad in veils. Man by man was never seen. All our human intercourse Falls to remove the shadowy screen."

I use the above quotation to illustrate what I mean by drama. I am not thinking so much about the theatrical performance, as I am thinking of the drama of life and mine, of the drama of the life of every son and daughter of Adam.

To understand the drama of our own life and the life of our neighbour, would go a long way towards lifting the veil which enshrouds the real life of the individual. It would help us to see that the life of the most commonplace person is more interesting than the falsely pictured lives which we pay our money and give our time to witness. When Patterson Smythe said "The trouble with the world, is not sinfulness so much as dullness." We would never be dull, if we watched with some degree of intelligence, the drama which goes on around us daily.

Dante, in his divine comedy, consigned to a very low place in hell, "Those who walked dully in the sweet air." Why are the theatres crowded morning, noon and night, even by people living on public charity? Because we are all trodden in the hope of finding life. The man who breaks into our house, to steal, or kill if necessary, does it in hopes he may find something which will mean life to him. The drama exists primarily, to make life seem gay, colourful and full of stirring events, sometimes comic, sometimes tragic.

Shakespeare chose kings, queens and royal personages as subjects for his dramas, but he made us feel that they were just like ourselves, in no way different, except in superficial circumstances. He evidently had a very poor opinion of kings, as most of them, even Hamlet's father who was a good man as men go, awoke in hell. He says: "I could a tale unfold which would make each separate hair stand up like quills upon the fretful porcupine."

I have often wondered why women who bring up a family and watch the growth and development of children, do not become more intelligent. One would naturally think that watching the growth and development of the young mind would awaken the latent intelligence in her own and she would begin to ask why she did certain things, why some things gravitated downward while other things were uplifting.

I see by the daily paper that some person gave a lecture on Mary, Queen of Scots, a dramatic woman both in her life and in her death. No one will dispute the virtue of the life of Mary of Scots and Queen Victoria, but a thousand will hear of Mary, to one who will hear of Victoria. When Mary went to the block, her little dog followed her, when her head was severed from her body the poet describes it in the following lines: "The dog is moaning piteously and as it gurgles over, laps the warm blood that trickling runs unheeded to the floor, the blood of beauty, wealth and power the heart's blood of a queen the noblest of the Stuart race, the fairest earth has seen, lapped by a dog—go think of it in silence and alone then weigh against a grain of sand the glories of a throne."

Sir Thomas Lucy, the country magnate in the country where Shakespeare lived in his youth, had Shakespeare arrested for poaching on his estate, not knowing that the only thing which would make posterity know anything about him, was the fact that he had Shakespeare arrested and the young genius wrote a comic rhyme about him. All Sir Thomas Lucy's poaching and circumstance, and, doubt but he lived in some magnificence, are entirely forgotten, but his connection with young Shakespeare is not.

There is an old saying that "All roads lead to Rome", but I might say that all drama leads to the hill

Athelstan

Ladies' Aid

The February meeting of the Presbyterian Ladies' Aid Society was held at the home of Mrs. J. Leslie Elder, who was assisted in entertaining by Mrs. James Brims. Thirteen members answered the roll call. The work on hand was quilting, an order from the Crescent Patriotic Club of Montreal. Letters of thanks for Christmas parcels were read from Lawrence Roy, Jack Beattie, Danny Elder, Bruce Elder, also a letter from an officer of the regiment to which Irvin Claesson belonged. The offering amounted to \$6.15.

School Notes

Mrs. McCaffrey's Roll of Honour for perfect spelling during the month of February has the following names: Shirley Rowat, Shirley Elder, Pierrette Allard, Letty Rowat, Russell Forget, Frances Biron, William Aird and Isidore Duheme.

Mrs. S. Galpeau and son Claude have returned home after spending the past two weeks in Huntingdon.

Mr. Leslie Elder left on Sunday night on a business trip to Toronto.

Miss Betty Hampson and friend Miss Marion Hill, of Montreal, were week-end guests of Mr. and Mrs. H. A. Hampson.

Pte. W. Belshmer, Montreal, and Pte. Roy McLeod, of Newfoundland, were Sunday guests of Mrs. Hampson.

Athelstan United Church Mission Band Again Receives Award

The Sunshine Mission Band was one of four to receive the highest award for the seventh consecutive year from the Montreal Presbytery of the Women's Missionary Society for excellent work done throughout the past year. Much credit is due Mrs. William Dawson for her untiring efforts with the members of this Band.

Mrs. Mabel Carrigan, Mrs. Henry Wallace and Mrs. M. Reese were the delegates from the United Church Women's Auxiliary Mission Circle and Mission Band respectively, who attended the nineteenth annual meeting of the Montreal Presbytery held last week in Erskine and American United Church.

Pte. J. T. Elder, of Longueuil, and Miss Helen Elder, of Montreal, spent the week-end with their parents, Mr. and Mrs. George Elder, respectively, who attended the nineteenth annual meeting of the Montreal Presbytery held last week in Erskine and American United Church.

Mrs. Norris and daughter, Mrs. Garret Green, spent a few days with relatives in Montreal, recently.

Mrs. Maude McGowan, left on Saturday for Montreal, where she will spend some time with friends and relatives.

The National Film Board pictures were shown on Monday afternoon in Munro Hall with Mr. Taylor in charge as usual. Pupils from the local and adjacent schools attended, no doubt the condition of the roads hindered some from coming. Among the films shown were:

Couple Co-operate on Documentary Films

By HELEN BANNERMAN Canadian Press Staff Writer

Evelyn Cherry is one woman who has happily combined marriage and a career.

Mrs. Cherry, producer of the National Film Board's agricultural unit, works in close co-operation with her husband, Lawrence Cherry, director-cameraman of the same unit.

Between them they shot seven documentary films and several series of shorts in the last agricultural season.

The Cherrys have other things in common besides their marriage and their work—both come from Yorkton, Sask., both are auburn-haired. Interested in documentaries since they were so young they can remember just how it all started, they have the busman's hobby of seeing and discussing documentaries and other movies in their spare time.

"We have had to make a rule at home that we won't discuss films at mealtimes," Mrs. Cherry told The Montreal Press, "but then we start shooting in our own apartment because it makes a convenient studio, and we find that films have moved in with us again."

"Take last summer when we were doing a picture about milk. Even a simple subject like that requires a great deal of research and our flat looked rather like a combined dairy and reference library before we were finished."

A Busy Family

Little John, their three and a half year old son, now takes film equipment camly, she added, and even helps move floodlights and yards of cable when his parents are taking movies of an interior in their own living room.

When Evelyn Cherry left her home town to seek her fortune some years ago she didn't know she was going to pioneer new fields for women to conquer in Canada's infant film industry.

Now she heads one of the Board's units while Mrs. Gudrun Behring, formerly of Winnipeg, is co-producer of another and many women work at other jobs with the Board.

Does she think women have a place in the growing documentary field?

"They certainly have, but—and it's a big but—they have to have excellent health and they must be prepared to give up any private activities for their work."

Mrs. Cherry worked for some years in England with the original British documentary group which operated under the Empire Marketing Board and worked with John Grierson, now commissioner of the National Film Board. She and her husband returned to Canada and free lanced at Regina before joining the Film Board two years ago.

"Now that's what I call good coffee!"

"SALADA" COFFEE

its NEW—its DELICIOUS!

1. Farmers at War; 2. Trees to tame the wind; 3. When Asia speaks; 4. She Serves Abroad; 5. A Sing-Song. (The Caissons Go Rolling Along); 6. He who laughs last.

Huntingdon R.R. 2

Sorry to report Mr. Harry Arthur, of Herdman, has been confined to bed, and is staying with his sister, Mrs. Wallace Merson. His many friends wish him a speedy recovery. Mrs. E. M. Wood, Aubrey, was a week-end guest at the same home.

Mrs. A. C. Ironside, Montreal, spent the week-end with her parents, Mr. and Mrs. John Rennie.

Rockburn

In the Montreal Star of Feb. 16th details of the action in which the Canadian Corvet St. Thomas recently sank a U-boat on a North Atlantic convoy route and brought back 64 prisoners were given. It is of great interest to many of the Gleaner's readers to know that Stoker 2 on the St. Thomas is Nelson Henderson of The Gore, who at the time wrote to his mother, Mrs. Henry Henderson that he was having a wonderful time and everything was going well. Our thanks to the St. Thomas.

Kilbain

Sorry to report that Mr. Thomas O'Connor is not as well as his many friends would wish, but rapid recovery is hoped for.

Mrs. George Leroux and son Jerry of Bellevue and Miss Marjory O'Connor are spending a few days at the home of their parents, Mr. and Mrs. Thomas O'Connor.

Mrs. Ed Hannon spent the past week in Montreal and St. John's, Que., guest of her sisters, Mrs. J. B. Murphy, Montreal and Mrs. Chas. Grimshaw, St. John's, Que. Miss Rita Curran, spent a few days guest of her sister, Mrs. Bill Smythe.

STORK LOST RACE

Charlottetown.—(CP)—Statistics received by the city council show that deaths outnumbered births here during January. Fifty-five persons died, against 54 births.

Hurt Yourself?

The Shawinigan Water & Power Company

Electrical Power Industrial Chemicals

ENGINEERING • TRANSPORTATION • CONSTRUCTION

You can't wash clothes in the parlour

If you are contemplating building a new home or making extensions to the one you now occupy, make very sure to install the necessary electric wiring and put in outlet connections wherever these are necessary—

- in the kitchen for electric stove, refrigerator, toaster—
- in the cellar for the washing machine—
- in the living room for the radio, floor lamps, table lamps, etc.—
- in every room for vacuum cleaner service.

Trailing cords are a dangerous inconvenience. Switching from lamps to plugs is an unnecessary chore. Provide electrical outlets to light up all dark corners. Talk it over with your electrician.

Huntingdon Locals

Christening Ceremony
The christening of the infant son of R.C.M.P. Constable and Mrs. J. M. Monette took place on Feb. 18th, 1945, at St. Joseph Parish Church, Huntingdon, Que. Father Pigeon, curate, officiating. The baby's godfather, the Hon. J. Andre Doucet, of Paquetville, N.B., was godfather, the god-mother being the aunt of the baby, Miss Yolande Doucet, of Montreal, with Miss Blanche Monette carrying the baby. Also present was Mrs. Leonie Turgeon, of Montreal. The baby received the name of Joseph Andre. The ceremony, a buffet lunch was served at the home of Const. and Mrs. Monette.

St. Andrew's Church Y.W.A. Society met at the home of Mrs. Halmore on Wednesday, Feb. 14, with the President, Miss O. Cluff, in the chair. After the devotional exercises Mrs. Stata introduced Miss Marjorie MacLaren who spoke of the New Mission field to which she has been called, taking her text from Romans 1:20 "So that they are without excuse. Mrs. Ruddock gave the offering prayer after which Mrs. Ruddock and Miss MacLaren favoured the members and visitors present by singing a duet. Delicious refreshments were served by the hostess, assisted by Mrs. S. Boyd.

Knitting Club Does Good Work
The Friendly Neighbor Knitting Club has been doing some good work for the Red Cross during the year 1944, and the following articles have been turned over to the Huntingdon Branch of the Red Cross: Knitted articles—19 sweaters; 5 helmets; 1 pair gloves; 11 caps; other articles, 48; total, 84. Sewing articles: 330; other articles, 100; quilts, 27; crib quilts, 11; total 668. These ladies meet at one another's homes and do this work and then turn the finished articles over to the Red Cross Branch here.

Weather Turns Colder
After a mild spell during the past week, about the first real mild spell there has been this winter, the weather this week turned colder. Water was running freely on the streets on Thursday, Friday and Saturday and the snow was quite soft. On Monday rain fell toward late afternoon and during the entire evening, but later froze and made walking very unpleasant. On Tuesday it was much colder and during the morning a strong wind got up and it snowed, turning into a real blizzard, which lasted for most of the day. It gave one the idea that March was coming in like a lion. It is a complete change from the past week.

Kiddies Enjoy Afternoon at Rink
Some 150 children attended the free entertainment sponsored by the Huntingdon Skating Rink on Saturday afternoon. There was much fun during the two hours and the refreshments of sandwiches and hot chocolate did not disappear. But as the hungry youngsters got into stride at refreshment time. Everyone thoroughly enjoyed the treat.

Bulldozer Clears Snow of Week
During the few days mild spell of the past week, the Government bulldozer plow cleared the snow from the plank road and also widened out Chateaugay Street and on toward Trout River. The roads were getting into bad condition with the deep ruts, and this helped considerably to smooth them out. The Town plow was out also and cleared the snow back to widen the streets in town. It would be well for the Town plow to be out at the first soft spell and see that the bad ruts are eliminated and the soft snow removed. There were sharp rebukes during the last soft spell on account of so many cars being stuck in the soft deep snow and not being able to get out of the deep ruts.

Donations to the Hospital
The following donations have been received at the Huntingdon County Hospital, from Mrs. Robert Milne: Cocoa, soup, cooked vegetables and fruit juice.

Mr. and Mrs. Fabien Lemieux, Mr. and Mrs. Philippe Beaulieu, baby Yvon, and Miss Marie Paule Lemieux, all of St. Urbain, were Sunday guests of Mr. and Mrs. James E. Barrett. Mrs. Marie Louise Lemieux.

WEDDING

BARNES-ARTHUR
The marriage of Helen Marguerite daughter of Mr. and Mrs. Leslie R. Arthur, of Athelstan, Quebec and Sgt. Bruce L. Barnes, U.S.M.C., son of Mrs. Barnes and the late L. C. Barnes, took place in the Chateaugay Methodist Church, at three o'clock Saturday, February 24th. The ceremony was performed under an arch of evergreen, laurel and white carnations by Rev. V. C. Nicholas, assisted by Rev. T. P. Duncan of Franklin Centre, Quebec. Mrs. J. Green sang "At Dawning" accompanied by Mrs. W. L. Doige, organist.

The bride who was given in marriage by her father while still in high school, was wearing a gown in the latest fashion of a princess line ending in a slight train. Her bridal veil of tulle illusion had been worn by the groom's grandmother and mother. She carried a bouquet of calla lilies. Her maid of honor, L.A.W. Lyla Arthur, R.C.A.F., wore a street length suit dress of lime crepe and carried pink carnations. The bridesmaids, Lucille and Blanche Arthur, also sisters of the bride, wore mauve and blue similar suit dresses and carried pink carnations. The best man was William Barnes, brother of the groom. The ushers were Eldon Waddell and Douglas Barnes.

Following the ceremony a luncheon was served at the home of Mrs. Stella Thurber. Mr. and Mrs. Barnes left for the Laurentians. For travelling the bride wore a grey suit and coat, with a shocking pink hat and black accessories. The couple will reside in North Carolina.

of Valleyfield, was also visiting at the same home.

Carnival Day, Saturday, March 3rd
The big day that everyone has been looking for, takes place at the Huntingdon Skating Rink, on Saturday. This will be an all day carnival and from the programme will provide plenty of fun for everyone. One of the big events will be the announcement of the winner of the Popularity Contest. To date, 129,600 votes have been deposited and the standing of the contestants is as follows:

Gerald Brisebois	52,125
Claire McCallum	41,875
Peggy Stark	11,775
Mervin Elliott	11,700
Russell Moore	7,125
Edna Rankin	5,000

Total Deposited 129,600

Votes are being given with each drawing ticket and refreshment purchase. They will also be given with each admission on Friday and Saturday. It is thought that there are a number of votes being held back which change the above standing considerably before Saturday. There is only one prize, and the winner will receive an all expense trip for two persons to a Play-off Hockey Game at the Forum. This will include: Reserved tickets to the game, Train or Bus Fare, Hotel Rooms, Meals, etc. A nice prize for some two lucky persons.

The programme for the day is listed in an advertisement in this issue and a careful reading of this will show that there will be plenty of fun and excitement for all.

Donation to Soldiers' Club
The Soldiers' Club wishes to acknowledge with thanks the following donations: Mrs. Hazel Patterson, \$1.00; Anonymous, \$1.00.

Mr. Warren Loudon, of Jenkinstown, Pa., Mrs. Loudon and Mrs. Grace Foster, of Burlington, Vt., attended the funeral of the late Miss Mary Loudon.

Miss Helen Planché, of New York, and Mrs. Walter Wyatt and son Billy, of Cornwall, are spending a week at the home of Mr. and Mrs. Herbert Ferns.

Mrs. A. Garay, and daughter Sonja are spending this week at the home of her sister, Mrs. N. Clifford, in Belleville.

Huntingdon R.R. 2
Trout River Farm Forum Group met at the home of Mr. Garnet Goudrey, on Monday night, with an attendance of 20. The Radio broadcast was a summary of what the Forums say about marketing. A true and false contest was held, conducted by Mrs. Gordon Helm, the winner being Mrs. Wallace Merson. The travelling library books had just arrived and were distributed to the different families. Cards were played at four tables after which Mr. Goudrey and Mrs. Stacey served refreshments.

Mr. Garnet Goudrey spent Sunday at the home of Mr. and Mrs. Thomas Goudrey, Riverfield.

Mrs. Stacey spent Sunday with relatives at Howick.

Mr. Charles Gilmore has returned to his home in Barrie, Ont., after spending some time with relatives at Howick.

Mrs. Wallace Merson and Mrs. J. A. Crosbie attended the Barnes-Arthur wedding at Chateaugay, N.Y., on Saturday.

Dundee
Mrs. W. D. Fraser and Mrs. James Colquhoun attended the sessions of the United Church Presbyterian which were held in Montreal last Wednesday and Thursday.

Mr. and Mrs. George Smellie and family of Port Covington, N.Y., were visitors at the home of Mr. and Mrs. D. F. Smellie on Sunday.

Glenelm
Mrs. Graham Salter, Montreal, spent the week-end at the home of Mr. and Mrs. E. A. Salter, prior to her taking up residence in Newfoundland, where she will join her husband, Mr. Graham Salter, R.C.N.

Mrs. Charles Gordon and little son Billy, are spending this week with her parents, Mr. and Mrs. Archie Lamb, Franklin Centre.

Miss Mildred Seaward, Valleyfield, spent the week-end with Mr. and Mrs. Arthur Goudfellow.

Miss Eunice Stark is visiting this week with her sister and brother-in-law, Mr. and Mrs. Vincent Johnson.

Rockburn
The regular meeting of the Rockburn P.Y.P.S. was held Wednesday evening at the home of Mr. and Mrs. C. Waller, 14 members and visitors answered the roll call. The President conducted the devotional period, opening with the hymn "Jesus bids us shine," followed by the Bible reading by Mr. G. A. Goldie, and prayer by Mr. J. Barr. Plans were made for presenting an Easter Pageant, and it was resolved to ask a fee of 10c. from each member and visitor at every meeting. A hearty vote of thanks was tendered Mr. and Mrs. Waller and the meeting closed in the usual manner. A social hour was spent with games led by Misses Bernice Goldie and Eileen Currie, refreshments were served by the hostess.

The following is a list of the work accomplished for the Junior Red Cross by the Rockburn School under the direction of the teacher, Miss E. Sloan: 1 doz. khaki handkerchiefs, 7 pairs, 7 dresses, 1 sweater, 1 doz. air force hdks., 2 knitted bonnets, 9 panties, 2 children's hospital nighties, 9 baby jackets, 2 prs. rompers, 2 scarves.

Eglin
Readers of this column will be glad to note that, largely owing to the efforts of Mr. Wm. MacKinnon, C.P.R. detective at Windsor Station, Mr. Douglas Murray was fortunate in recovering his gold watch stolen from his home some weeks ago.

Mrs. N. J. Karabach, of New York City, and her brother, Gunner Douglas Fee, United States Army Air Force, visited relatives here recently. Cnr. Fee is stationed in Florida at present.

Celebrates First Birthday

Above is the son of Mr. and Mrs. Henri Lemay, Montreal, (nee Florette Parent) of Huntingdon, and grandson of Mr. and Mrs. Joseph A. Parent, of Huntingdon. His name is Robert, and he is intensely viewing his birthday cake with the single candle that denotes his first birthday. He was born on February 23rd, 1944, while his father was still overseas. His father returned to Canada in May, 1944 and was discharged from the service. The little fellow was enjoying his first birthday at the home of his grandparents in Huntingdon.

Happy Reunion...

(Continued From Page 1)

of fruit to eat from a nun, but money would not buy it, it had to be barter. Perhaps a package of cigarettes or something out of the Red Cross package they had received. Face creams or powder, if internee had them, were excellent things to barter with.

In this internee camp from 400 to 600 women were penned up. The three buildings were crowded. During the daytime they were permitted to go into the gardens, but if any one of the gardens was producing anything that was fit to eat at that time of year, the garden was shut off from the internees. The internees got nothing from the land about the buildings. We never really suffered for food when in this camp due to the fact we received Red Cross parcels with such regularity, and parcels from father after he was able to get in contact with us. The letters we received and the letters we sent father all passed the censor, but we were always careful about what we wrote in our letters. Others in camp wrote severely about their interment, and of course such outgoing letters were severely censored, and likewise were many of the letters they received.

We asked Sonia and Rachel what they would do in the course of a day. During the morning they would teach school, there being 64 children in the camp. Rachel who is now 19 years of age entered the camp without knowledge of English, but she was taught English by some English women in the camp. She grasped the language, which she said was difficult, but later was found teaching a class of children, English. Sonia would be teaching another class

Mutual Fire of Beauharnois Has Successful Year
The Mutual Fire Insurance Company of the District of Beauharnois, has just completed the most successful year in its history by adding \$3,366.75 to its reserves after paying fire losses to the amount of \$6,951.26.

The ready assets of this Company at the beginning of the year 1945 include \$19,000 in Dominion of Canada Bonds and \$3,571.45 cash in bank.

The general satisfaction which it has given policy holders in the past has increased its coverage to 2,270 policies totalling \$4,394,500, which is the largest business volume attained during its long career.

and in the afternoon they would be attending a class being taught by some internee. By 5 p.m. all lights were turned out and everyone was confined to the buildings.

Rachela was sick for six weeks with diphtheria. As you see her today you can truthfully say she does not appear to have suffered in the least.

When the Roskes entered the interment camp they went without a single thing, they had to be supplied, and such supplies came directly or indirectly from the Red Cross. We owe our lives to the Red Cross, the miracles that came our way in Poland and Germany and the fortunate fact that Father was in Canada doing everything he could for our benefit. We want to go to Huntingdon and we are going on Wednesday evening. After that we want to visit Ottawa where we want to express our personal thanks to officials, we feel aided us.

Ormstown

Exhibition Directors Meet
The directors of 100 different committees in connection with Ormstown Exhibition met on Saturday afternoon in the Town Hall, when chairmen of committees were appointed, judges were selected, prize list and other work in connection with promoting the exhibition from June 6-9th completed.

Messrs. Eric McMullan and Raymond Meikle spent the week-end in Montreal.

Mrs. Burton Cairns of Montreal, her cousin A. B. Kenneth Moe, H.M.-C.S. of St. Hyacinthe, spent the week-end with the former's parents, Mr. and Mrs. C. Moe, prior to leaving for Vancouver, B.C.

Barrie Memorial Hospital wishes to acknowledge the following donations: From W. A. of St. James' Anglican church, \$10.00.

Miss Bernice Brennan spent the week-end with her mother, in Montreal.

The regular meeting of the W.M.S. was held on Tuesday, Feb. 20, in McDougall Hall, the president presiding. The worship period was in charge of Miss L. Bazin, who was assisted by several of the members. Miss Bazin read the 117 Psalm, which was followed by the hymn "O Worship the King." After Scripture reading of the 8th Psalm, the theme of our worship was presented regarding "The Kingdom of God" in this community. The Leader said "We desperately need the message of the Kingdom today." She quoted someone as saying that if we meet God in our worship, we will catch a vision—and go out into our community to help others. Several short prayers followed and the hymn "Blest be the tie that binds" brought this part of the meeting to a close. The minutes of the last meeting were read and approved. The Treas. report showed Missionary gifts \$12.25, life membership \$2, expense fund bal. \$15.

It was moved by Mrs. A. Greig, sec. by Mrs. Patton that a note be sent to Mrs. H. Struthers expressing our sympathy because of her accident and saying we missed her. Mrs. Greig spoke for the work committee and expressed thanks to Mrs. McNell for a quilt top which she kindly donated. As it is our custom and pleasure to entertain the Mission Band at this season of the year, it was moved by Mrs. Forrester and seconded by Mrs. Stuart Osmond that we serve refreshments at their meeting on Saturday, Feb. 24. This was agreeable to Refreshment Committee and all members. Miss E. Sadler said we had an opportunity to send any questions we desired to the Question Box at the Presbyterian, as Mrs. Taylor would take them, and Mrs. Greig expressed a desire to know where our work went, such as quilts. She was asked to write this question and send it along.

Mrs. Taylor gave a short time to Christian Stewardship. She stated that our allocation is again \$810, and that Miss Ryan is our prayer partner. There was a short period of silent prayer on her behalf, followed with a prayer by Mrs. Taylor.

A recommendation was presented by the President from the Program Committee viz. that Miss H. Cunningham be invited to come as our guest speaker for our Easter Thank-Offering meeting, to be held on our regular day in April. This recommendation was made a motion by Miss Welch and was seconded by Mrs. A. Greig. Carried. If she is unable to come that day, we are to arrange our meeting to suit her, if possible.

The study chapter was then taken up by Miss E. Sadler, with Mrs. Taylor, Mrs. Patton, and Mrs. Greig assisting, on the work in the Philippines. The different places where we have colleges and schools were pointed out on a map. We were told about the effort to clean up cholera, cholera, etc.

We were also informed about the development of the American way of life in these islands, and the people were taught the Bible and democracy, health conditions and ways of earning a living. The Gov. provided schools are concentrating on primary schools. The high schools are overcrowded, though not free. It was interesting to know that the Spanish have an idea that men should not work with their hands. The meeting closed by singing the National Anthem and repeating together the last two verses in the Book of Jude.

Ladies entertaining at the Ormstown Curling Rink on Saturday afternoon were Mrs. J. Quintin, Mrs. B. McGerrige and Mrs. M. Barrington, while Mrs. Hollingsworth poured tea. At the conclusion of the social time the business meeting took place when it was moved by Mrs. M. Lindsay and seconded by Mrs. J. Rember that Mrs. Quintin and Mrs. Mann be chosen to skip two rinks to go to Riverfield on the 7th and 8th of March, each skip to choose their players. Plans were made for the serving of refreshments at the mixed bospital, on Thursday evening next. The games committee had posted up the names for a new game in which all the members are to compete, the two rinks which played Saturday afternoon were as follows:

Winners
Mrs. M. Barrington Miss Tannahill
Miss Moffat Mrs. B. McGerrige
Mrs. J. Rember Mrs. A. McCaffrey
Mrs. M. Lindsay Mrs. W. Mann
Skip—6 Skip—5

The Busy Bees Mission Band held its membership meeting on Saturday afternoon at the home of Mrs. J. Rember, in MacDougall Hall, when 23 were present. The annual fees were paid and fees placed on the bench to register those joining for this year.

Mrs. C. L. Taylor gave thoughts from the Presbyterian, also a seal to place on the certificate showing merit gained for last year's work. The Secretary, Jane Gartshore, read the minutes, Janet McLeod gave the Treasurer's report, which was called the roll, and Lois McComb reported for the work committee.

A review of the first chapters of the study book, "Tommy Two-wheels", took the form of a game, after which Miss M. Bazin presented the next chapter, telling of another friend for Tommy.

In the worship service, Clarine Ovens and Ronald Duncan read the Bible story, Mrs. Anderson offered prayer, after which the offering was received and response sung. A missionary hymn followed and the closing prayer.

Miss Sadler, President of the Auxiliary spoke briefly to the Band, and invited them to supper, which the committee had prepared. This invitation was welcomed by all, and Jane Quintin on behalf of the Band thanked the Auxiliary and the committee.

Mrs. P. Cartier and son George of Montreal spent the week-end with Mrs. M. Lindsay, Eastmount.

Obituary

The Late John Milne
We are again called upon to mourn the demise of one of the oldest and well-known citizens of the community in the person of the late John Milne, who passed peacefully away at Ormstown, on Saturday evening, February 24th, 1945.

John Milne was born in the Scotch Concession, August 14th, 1847, the son of Robert Milne and Anne McLeod, of Scotland. He was held in high esteem and respected by all his fellowmen, being honorable and upright in all his dealings, was possessed of a pleasing personality, fond of humor and wit. He attended St. Paul's United Church regularly while health permitted. He was united in marriage to Anne Ritchie, daughter of Mr. and Mrs. John Ritchie, of Fertile Creek, on February 21st, 1878. He is survived by his widow, three sons and three daughters namely: Robert of Dewittville; John of Aubrey; Finlay of Scotch Concession; Mrs. D. McCaig (Jeanie) of Ormstown; Mrs. D. Forrester (Anne) of All's Corners, of Ormstown. Four members of the family predeceased him. Two sons, who died in infancy; May, who died 34 years ago, and James who gave his life in the World War of 1914-1918, overseas. He is also survived by a large number of grandchildren and great-grandchildren, who have the sympathy of the community. Service was held in St. Paul's United Church on Monday, Feb. 26th, conducted by his pastor, Rev. C. L. Taylor, who paid a fitting tribute to the deceased. Rev. Taylor was assisted by Rev. J. S. McBride. Mr. P. Osmond rendered the solo, "The Old Rugged Cross". Pall-bearers were, Argyle and Arnold Milne, Mervyn and Lorne Forrester, James Milne and Donald McCaig.

Floral tributes were from the family, grandchildren, Donald E. Black, M.P., and Angus Black. Interment was made at Riverfield Cemetery.

School Notes

HUNTINGDON HIGH SCHOOL
On Friday night Grade IX staged a party and dance in the gymnasium of the High School. This was well attended by students and friends. Delicious refreshments were served. Proceeds to the amount of \$15.50 were realized to be turned over to the Junior Red Cross.

On Saturday morning the Senior High School team played Ormstown High School team on their home ice. This was a return hockey fixture. The locals edged out their opponents by the narrow margin of 3-2. The goal getters for Huntingdon were: Labege 2, Chambers 1; for Ormstown, McCaig 1, McEwen 1.

Over the week-end the students sold tickets for the Hockey Benefit, in aid of the Soldiers' fund. They realized \$51.15 to provide boxes for boys overseas.

Inspector Poyart, High School Inspector, is visiting the High School this week. It is expected he will attend the High School debate being held at the school, on Wednesday evening (tonight).

Powerscourt
Mrs. E. M. Wood has received a cable announcing the safe arrival of Master Brian Bowers at his home in London, England.

Mr. and Mrs. Gordon McCatchie visited at the home of Mr. and Mrs. John Milne, Riverfield, on Sunday.

Mr. and Mrs. Russell Milne, Mr. and Mrs. Gordon McCatchie, attended the funeral of their grandfather, Mr. John Milne, on Monday, in Ormstown.

Obituaries
The late Mrs. William Shearer
Mrs. Wilhelmina Isabella Shearer, wife of Mr. William Shearer, died at her home on February 18th. For some months she had been in delicate health, and suffered much from weakness. But through all her distress she was patient and uncomplaining, and when death came it was in peace and in the sure hope of eternal life and blessedness. She was a daughter of the late James MacNair and his wife Elizabeth Warden, and had been married for thirty-eight years, and all her life had lived in the community where her earthly life ended. She was of gentle, amiable disposition, a good wife and mother, and a good neighbor, enjoying the esteem of all who knew her. Much sympathy will be felt by all with the family in their sore bereavement. She is survived by her husband and her two sons, James and Norman, who live at the old home, and by her daughter Mary. (Mrs. Charles Gilmore) of Barrie, Ont., who is survived by her two brothers, Donald MacNair of Huntingdon and Thomas MacNair of Clyde's Corner, and by two sisters, Mrs. David Anderson, her near neighbor for so many years, and Mrs. Alfred Pepper of Vankleek Hill, Ont. The funeral service was held on February 20th at St. Andrew's Church, Huntingdon, of which she was a member and was largely attended.

Pall-bearers were her neighbours: Wallace Merson, Archie Paul, Alex Robb, Wm. Shearer, Wilbur Arthur, Clarence MacNair.

Flower bearers were: Garnet Goudrey, Clarence Stark, Wallace Rennie, Kenneth Caldwell.

Those who attended from a distance were: Mr. Alfred Pepper, brother-in-law, Miss Mary Pepper, Mr. Carl Murray of Vankleek Hill, Mr. and Mrs. Sydney Abrams, Mrs. Allan MacIntosh, Cornwall.

The Late Kenneth Hogie
Our community was shocked to learn on Thursday evening that Kenneth W. Hogie, aged 47, had very suddenly passed away. It appears that Mr. Hogie had not been feeling any too well of late but was carrying on with his business. Evidently he suffered a heart attack and was seeking aid at a drug store, for he was found dead in his car in front of a drug store by a policeman.

Deceased was born in Malone, the son of Mrs. Hogie and the late Edwin E. Hogie. He was graduated from Franklin Academy and from New York Military Academy and studied for a time at Dartmouth College.

Upon completion of his college work, he entered the automobile business with his father in the Hogie Motor Sales establishment conducted for many years at the rear of the family homestead in Washington St. The firm later disbanded, Mr. Hogie Sr., wishing to go into the silver fox raising business and his son became affiliated with the staff of the Franklin Garage, where he remained for a considerable period.

About 14 years ago he went to Montreal. Previous to founding his own firm, the K. W. Hogie Manufacturers' Agencies, last October, he was district sales manager of Berkel Products Company, of Toronto.

Mr. Hogie was keenly interested in sports, and hunting and fishing. He was president of the Premier Athletic Club, Montreal, and a member of the Club de Chasse Capitaine, Three Rivers.

Mr. Hogie was united in marriage with Miss Gladys McCracken of Huntingdon, Que., about 15 years ago. She survives, with two daughters, Miss Dorothy Hogie, of Montreal, and Mrs. Gretchen Hoke, of Virginia; his mother, one brother, Clarence, Malone; and one grandson, Robert Hoke, Jr.

The funeral was held from the Huntingdon United Church on Sunday afternoon, interment being made in the Huntingdon Protestant Cemetery. A large number of friends from Montreal were present, as well as many from this community. There was a great profusion of floral tributes from friends and business associates, testifying to the esteem in which the deceased was held.

Born

DALLAIRE: At Barrie Memorial Hospital, Ormstown, Que., on February 25th, 1945, to Mr. and Mrs. Damien Dallaire, of St. Antoine Abbe, a daughter.

DAUPHENAIS: At Hemmingford, Que., on Feb. 20, to Mr. and Mrs. Lucien Dauphenaix, a son.

DUQUETTE: At Barrie Memorial Hospital, Ormstown, Que., on February 24th, 1945, to Mr. and Mrs. Herve Duquette, Hemmingford, Que., a daughter.

Married

BARNES-ARTHUR: At Chateaugay, N.Y., on Saturday, February 24th, 1945, Helen Marguerite, daughter of Mr. and Mrs. Leslie R. Arthur, of Athelstan, Que., to Sgt. Bruce L. Barnes, U.S.M.C., son of Mrs. Barnes and the late L. C. Barnes, of Chateaugay, N.Y.

MORRISON-KEY: At Qualicum Beach, B.C., on Feb. 14, Miss Annie George Key, second daughter of Mr. and Mrs. J. B. Key, of Coombs, B.C., to Harry S. Morrison, of Coombs.

Died

HOGIE: Suddenly, in Montreal on Thursday, Feb. 22, Kenneth Wade Hogie, beloved husband of Gladys McCracken, of 35320 Mtavish Street, in his 46th year.

LOUDON: At Huntingdon, Feb. 23, May Bell, younger beloved daughter of the late James A. Loudon and his wife, Mary Elizabeth Warren, interment at Mount Royal Cemetery, Montreal.

MANNAGH: At Westmead, N.Y., Hospital, on Feb. 16, Thomas Mannagh, aged 77 yrs. Formerly of Havelock, Que.

MILNE: At Ormstown, Quebec, on February 24th, 1945, John Milne, beloved husband of Anne Ritchie, at the age of 97 years, 6 months and 10 days.

SHEARER: At Huntingdon, Que., on Sunday, February 18, 1945, Wilhelmina Isabella MacNair, beloved wife of William Shearer, age 64.

You Can Make That "Dream Home" Come True

Two Splendid Building Lots Offered

ROTARY Club of Huntingdon is offering two choice building lots in Huntingdon Town as prizes in a special Subscription Drawing in aid of The Huntingdon County Hospital Equipment Fund. The Subscription is \$1.00 or as much more as you like to subscribe, for every dollar subscription a numbered ticket will be given and the two holders of the lucky tickets at the drawing, will receive the building lots or their equivalent value in cash. Here then is the opportunity for someone to win a choice building lot and perhaps make that "Dream Home" come true. Who has not planned a nice home at some time or other? With a building lot, it is possible to negotiate a government building loan, thus it makes the "Dream Home" one step closer to realization. Besides this, your subscription will help The Huntingdon County Hospital Equipment Fund by helping to pay for new equipment. The money is for a worthy cause and one which no doubt all will be pleased to help. Don't delay in getting your subscriptions in and be sure to keep your ticket. Rotary is asking your help in making this drive a complete success, so please don't let them down.

Help The Hospital Equipment Fund Now

IF HEAD COLDS HANG ON..

DO THIS! To relieve discomforts, one of the best things you can do is put a good spoonful of home-tested Vicks VapoRub in a bowl of boiling water.

Then feel welcome relief come as you breathe in the steaming medicated vapors that penetrate to the cold-congested upper breathing passages! See how this soothes irritation, quiets coughing, and helps clear the head-bringing grand comfort.

FOR ADDED RELIEF.. rub throat, chest and back with VapoRub at bedtime. Vicks VapoRub works for hours—2 ways at once—to bring relief from distress. Remember, it's Vicks VapoRub you want.

Hockey

Army Wins 8-2

On Wednesday, February 21st, Dewittville met Army in the last game of the playing schedule with Army winning 8-2.

The ice was soft which caused difficulty in handling the puck, but in spite of this a good fast and hard game was put on.

In the first period, Army started off fast with Norman-deau netting the disc at 1:10 on a pretty play with Senecal. There was no further scoring during the period but checking became heavy with bodies being thrown around rather freely.

The second period was fast and hard with both teams finding the soft ice to their disadvantage. Play was quite rough and at times it seemed as if a few brawls might break out. Litchfield was penalized for tripping and during the following two minutes Dewittville tried to get back on even terms. However, Army managed to hold on to the rubber for practically the whole of these two minutes and nullified the Dewittville efforts. As Litchfield stepped on the ice following his penalty he snared a Dewittville pass, shot it over to Senecal who was in the clear and Senecal coasted to score the second Army goal at 13:05. Three minutes later Senecal was left uncovered in front of the Dewittville net and again converted Litchfield's pass to make the score 3-0 for Army.

Play started off rather raggedly in the third period and both teams appeared tired. At the 5-minute mark, during a scramble in front of the Dewittville goal, Tyler took a pass from Litchfield and fired a screened shot which found the rigging to make the score 4-0. At this point Army seemed to dominate the play and in succession Norman-deau, Senecal, and McKinnon combined for three fast goals to bring the score to 7-0. Dewittville was playing one man short when Normandeau fired the 7th Army goal, but undaunted, they came right back and at 18:15 following a scramble in front of the Army net, they fooled Pepin who, up until this time, seemed headed for his second shut-out. Senecal came back quickly for another goal and a few seconds before the final bell Dewittville scored to make the final score 8-2.

A minor fracas broke out with both teams joining in at the 16 minute mark and it was some time before play was resumed. It was a good, hard fought game with excitement thrown in at every turn. For Dewittville, F. Moore, G. Moore and "Red" Oulmet were dangerous; for Army, Senecal with 4 goals and Normandeau with 3 completely dominated the play.

On Wednesday, February 28th, Dewittville will meet Huntingdon in the first game of the play-offs. This will be a best-of-three series with the winner meeting Army for the Championship. Succeeding games between Dewittville and Huntingdon will be played on Friday, March 2nd and, if a third game is necessary, on Wednesday, March 7th. If the semi-final series between Dewittville and Huntingdon does not go the limit of 3 games, the finals between the winner and Army will commence on Wednesday, March 7th, otherwise the finals will commence on March 9th with succeeding games on March 14th and 16th.

FINAL LEAGUE STANDING	
P W L D F A Pts	
Army	7 6 1 0 38 18 12
Huntingdon	7 4 3 0 23 23 8
Dewittville	8 1 7 0 22 41 2

Howick and Ormstown Games

On Monday night, Howick hockey team went to play the first of the semi-finals at Ormstown and was defeated by a score of 7 to 1. It was a very good game but somewhat rough. The Ormstown scorers were Fernand Prevost, 3 goals; M. Guerin, 2 goals; B. Boyd, 1 goal and K. For Howick, D. Morrison scored the only point for his team.

On Tuesday, the Ormstown High School team played at Valleyfield, but the High School lost by a score of 12 to 2. After that game the Ormstown Stars girls' team played against Valleyfield and won by the score 3 to 0. The Ormstown Stars scorers were M. Bryson, 2 goals, and Marian Stalker, 1 goal.

On Thursday night, Howick team was defeated by Ormstown Stars by a score of 2 to 1. It was a rough 1st period.

In the first period, Prevost got the puck and went through the defense, passing to M. Chierrier to score the first goal. A little later, Howick scored their first goal.

2nd period no goals were scored, but many penalties were given.

3rd period, F. Prevost scored the winning goal of the game to make the score 2 to 1 for Ormstown.

On Sunday afternoon, the Ormstown team went to play their first game of the finals, beat 3 out of 5, against Ste-Martin. The game was a hard one for the players. The score was tied 3 to 3. The star of the Ormstown team was J. Cartier.

Powerscourt

Trt. Ronald Wood, of Camp Borden, was the week-end guest of his parents, Mr. and Mrs. E. M. Wood.

Mrs. Russel Myatt has returned from a holiday in Montreal. Misses Gladys and Irene McHardy, of Montreal, spent the week-end with their parents, Mr. and Mrs. W. B. McHardy.

Mrs. Elvin Wood has been staying with Miss E. Louden in Huntingdon, during the illness and death of Miss May Louden, and attended the funeral in Montreal on Monday.

CANDLE CAUSES DEATH

London—(CP)—Mrs. Annie Bunyon, 84 and partially paralyzed, dropped a sixpence which rolled under a table. While looking for it with a candle her nightdress caught fire and she died from shock and burns.

District News Notes

Robson

On Monday afternoon, Mrs. Fernie Beattie entertained the ladies, when a quilt was quilted and some blocks made for the Red Cross. At the close of the meeting, Mrs. Beattie served a delicious supper.

Mrs. T. E. Cleland spent part of the past week in Montreal, while Mr. Tom Cleland spent Friday in the city.

Mrs. Percy Barr spent Saturday in Montreal.

Mrs. Arthur Walsley is a patient in the Barrie Memorial Hospital, Ormstown, having undergone an operation on Thursday. Her many friends hope for a speedy recovery.

Mr. and Mrs. Robert Jackson and Mr. and Mrs. Norman Doucette, of Plattsburg, spent Sunday here.

Misses Winnifred and Leona Perras and A.B. Quarter Master Jean Bolvert, of Montreal, spent the week-end with Mr. and Mrs. Fred Perras, Quartermaster Bolvert has been in the Merchant Marine for over four years and has visited every country but Japan and Germany. He has just returned from India.

On Friday the Shawinigan Co. sent their truck along and connected up five homes that have been wired. Lights were turned on Friday night. This week others are being wired. There are three electricians doing the work. Mr. LaFave doing the work for Mr. Diotte of Montreal, Mr. Weirich of Montreal, and Mr. Martineau of Napierville.

Mr. Fred Sweet had the misfortune to fall on the ice Thursday morning and is somewhat bruised and shaken from the fall.

Early on Thursday the roads were very icy caused by the sleet which fell. Later it turned to rain and the roads were very soft and bad for travelling.

The farmers around have finished storing their ice for the coming summer. The ice was of a poor quality averaging from 20 to 25 inches.

Tatehurst

Lower Ormstown Farm Forum met this week at the home of Mr. and Mrs. Stanley Elliott. This being fourth night, the program planned was in aid of the Red Cross. Considerable work was done on a quilt. Cards were played, refreshments served and the usual social hour enjoyed.

F.O. Gerry O'Kelly, of St. Hubert, was a week-end guest at the home of Mr. and Mrs. Allan Cavers.

The Gore

The Messdames Norman Fennell, Kenneth McCartney and Frank Mason attended the Montreal Presbyterian of the Women's Missionary Society of the United Church of Canada held in Erskine and American Church, Wednesday and Thursday of the past week. A very inspirational and enjoyable time was reported.

Farm Notes—

The herd of thirty-five head of purebred Holstein cattle owned by Carl Anderson has again successfully passed the annual T.B. test.

The Misses Viola Gilligan, of Huntingdon, Isabel Foster and Grace McCartney of Montreal, spent the week-end at their respective homes.

The Young People's Society met Friday night at the home of Melvin and Isabel Foster. President, Una Fennell, took charge of the meeting. The devotional period was led by Marjorie and Elsie McCartney. A pleasant hour was spent in playing bingo, after which refreshments were served by the hostesses, Mrs. W. C. Foster.

Mrs. Antoine Millejour had the misfortune, while stepping out of a sleigh, to slip and fall, breaking her collar-bone.

Covey Hill

Last week strenuous shovelling by man-power made it possible for a snow-plough of the larger type to open the by-road between the Hill and Vicars (Havelock Corners), making it possible for cars to travel.

Sgt. K. Steele of the R.C.A.F. spent the week-end at his home.

Covey Hill Farm Forum met at the home of Mr. and Mrs. C. B. Edwards with twenty in attendance. After an interesting discussion period during which Mr. R. J. Reid replied to queries on farm marketing, a sing-song was enjoyed and dancing.

The next meeting will be at the home of Mr. K. Semple.

Mr. E. Mulvey has returned to the city after spending some time at Mr. Thos. Waddell's.

Miss Jean Gowdwy was a recent visitor with her parents.

The Misses Frances Leroy and Patricia Feeny of Montreal, were week-end guests at the Steele home.

Holsteins Win Award; Original Stock From This District

Brown Corporation of La Tuque, Que., Awarded Master Breeder Shield

"The herd in the wilderness" might well be the name applied to the purebred Holstein herd maintained by the Brown Corporation at La Tuque, Que. La Tuque is approximately 100 miles north of Three Rivers, well up in the valley of the surging St. Maurice River.

The main industry is the pulp factories where the Brown Corporation alone employs over 1,000 men. The rough terrain practically makes farming an impossibility. Certainly no one would expect to find a first class dairy herd operating in such a spot. Yet such is the case, for the Brown Corporation herd has just received the highest Honorary award in the history of the Holstein-Friesian Association of Canada to bestow, having been awarded a Master Breeder Shield.

The actual presentation was made at the Association's Annual Meeting held February 14 in Toronto by Dr. E. S. Archibald, Director of Experimental Farms, Dominion Department of Agriculture. The shield was to have been presented to Superintendent Tom Cleland but he was unable to be present, due to illness. It was received on his behalf by W. L. Carr, Huntingdon, Que., a former President of the Association. Since the first such shield was presented in 1930, only twenty-one Holstein breeders in Canada have received this very coveted award.

To qualify for the title of Master Breeder, the Brown Corporation herd bred fourteen Class XX bulls, four Very Good, eleven Gold Medal, nine Good Plus and eighteen Excellent cow that have not fulfilled production records well above the amount required to qualify in the Dominion Record of Performance.

In addition to these, they have bred six Good Plus and one Excellent cows that have fulfilled the stringent Master Breeder production requirements.

The operation of this herd becomes all the more remarkable when it is realized that it has only 50 acres of farm land. It was started in 1922 by Simmons Brown, who, alarmed by the infant death rate in La Tuque, determined to provide a supply of fresh milk for his employees. Around 500 quarts are now distributed daily. Great credit for the success of this project falls to F. J. Gilman, who was superintendent from 1922 to 1938 and to Tom Cleland who has been in charge since.

The original foundation stock,

twenty-six cows in all, were bought in 1922 and 1924 around Huntingdon and Ormstown districts through Neil Sangster, one of the pioneer Holstein breeders of the Dominion.

Great success has been attained in the showing by this herd. Several times its members have carried off Grand Championships at Quebec and Three Rivers where they have been shown since 1935. One of their top show cows was Rosie Blackbird Walker, who was twice Grand Champion at Quebec, three times at Three Rivers and has produced over 100,000 lbs. of milk in her lifetime. Practically all cows have been on Record of Performance test every year since 1932 and many outstanding records have been made, as many as five animals having been included in one year in the Annual Honor List compiled by the Holstein-Friesian Journal.

At present Monty Rag Apple Mast, an intensely Red Apple-bred bull from Monty Bonheur Hartog, the World Champion junior four-year-old is being used extensively. Future plans call for a still greater intensification of Rag Apple blood in the herd.

Herdman

Mr. J. E. Rennie, of St. Anne's, was a recent caller in this vicinity.

Mr. R. E. Gamble visited recently with his son-in-law and daughter, Mr. and Mrs. Everett Forrester, Ormstown.

Mr. M. J. Rosevear was a week-end visitor at the home of Mr. and Mrs. Clifford Cowan, Ormstown.

Mr. Earle Pringle, of Dewittville, was a Sunday visitor in this vicinity.

Havelock

CORRECTION

In the Havelock News published in the last issue of The Gleaner, it was reported that Mr. Calvin Edgerton had bought the farm of Mr. Joseph Hebert. This should have been that Mr. Wilfrid Robinson had bought this farm. Mr. Edgerton is just moving onto the farm for a time.

Dundee

Staff Sgt. Eldon C. Chapman of No. 5 Conditioning Centre, Sussex, N.B., spent the week-end at the home of Mrs. D. A. Fraser. Sgt. Chapman was sent to the Huntingdon Conditioning Centre from Sussex, N.B., for the period of one week to take special instruction pertaining to his work in the Casualty Retraining Service. According to Sgt. Chapman, these conditioning centres of which there are 5 in the Dominion, are performing near miracles on badly wounded and disabled men now returning home after service at the front. One individual he mentioned had his back broken in three places and is being saved from being a helpless invalid through this new branch of the service for wounded men.

MINE SAFETY DEVICE STOPS CAGE MISHAPS

Johannesburg—(CP)—A device which stops mine cages when the cable breaks has been patented by D. J. Bosman a returned soldier who is employed as a shaft timberman on the Simmer and Jack Mine. He claims 100 per cent efficiency for his invention and recently gave a successful demonstration with a sinking model to representatives of the Prevention of Accidents Committee of the Witwatersrand gold mining industry.

The simple apparatus occupies a small space on the roof of the cage. Immediately the cable snaps two small cogged wheels on either side of the cage grip the runner ways. A rope on a roller inside the device begins to wind around the roller and thus slows down the speed of the falling cage.

Coming Election May be on Free-For-All Scale

Other Nations Expect Canada to Take an Important Part in United Nations' Conference

OTTAWA.—It is now evident that the next federal election is to be an unprecedented scramble among candidates representing a variety of parties. It is estimated that there will be more than 820 contestants in the field for the 225 Commons seats. There will be a multitude of three-way contests, many four-cornered battles and several ridings in which there will be five or more candidates. In this respect the national campaign will be a free-for-all on a scale never before equalled.

The Liberal party is the only one which plans to have candidates in every riding in Canada. The C.C.F. is next with official forecast of 225 and the Progressive Conservatives plan to have more than 200. The Labour Progressive party intends to have from 70 to 75 nominees, mainly in urban-industrial constituencies. In addition the Social Credit, Bloc Populaire, Quebec "Canada Party" and Union Nationale will likely all have candidates in the field—eight parties in addition to a probably fair-sized crop of Independents. Union Nationale nominees may pick another name for the federal election in order to attract support outside the straight Duplessis supporters.

Money In Canada

Ordinary, every-day Canadians each have \$15 more cash in their pockets or in the bank than when the war started. They also hold an average of \$50 in war bonds for every man, woman and child in the nation. This does not include extra cash nor victory bonds held by corporations or financial institutions.

This was revealed in the annual report of the publicly-owned Bank of Canada covering 1944 operations. The report also showed that Canada has spent \$17,000,000,000 on the war, more than 10 times as much as Canada spent in the first world war and a total of \$20,000,000,000 since the war started. Of this huge sum half has been paid by taxes and current revenue. Of the balance about \$6,600,000,000 has been financed by war bonds bought and retained by individual Canadians which means the ordinary men and women in all sections of the country. Last year the Bank of Canada made profits of \$20,300,000 of which it paid \$18,300,000 to the federal treasury after adding \$2,000,000 to the rest fund as required by law.

Canada And The World

Canada's increased status in international affairs is evidenced by the important part other nations expect her to take in the United Nations Conference at San Francisco which opens April 25. It is to be

one of the most important gatherings in world history and out of it will likely emerge a United Nations Organization dedicated to the peace and progress of the post-war world.

Premier King is expected to head the Canadian delegation in his capacity as secretary of state for foreign affairs. Already Ottawa has been informed that smaller nations of the world are looking to Canada to play a leading role in their behalf and in the framing of a world plan for post-war security and prosperity.

It is significant that the international monetary plan adopted at Bretton Woods adopted the main feature of Canadian proposals. Likewise the Air Conference at Chicago reached a compromise agreement some features of which were based on suggestions originally made by Canada. Hon. H. L. Isley, minister of finance and Hon. C. D. Howe, minister of munitions and supply and reconstruction, were the respective chief representatives of Canada at these two conferences. A Canadian, Lester B. Pearson, ambassador to Washington, already heads the important Interim Commission on Food and Agriculture which will function under the new United Nations Organization.

Canadian Reinforcements

Most important recent war announcement was the statement of Gen. A. G. L. McNair that more Canadian reinforcements have landed in Britain. The minister of national defence says that infantry reinforcements overseas now are sufficient to meet months of heavy action by the Canadian armies in Northwest Europe and in Italy. It is also officially announced that reinforcements which have just finished their advance training in Britain are moving to augment the replacement pool in Italy. The flow of infantry reserves over the past three months has been rapid and on a large scale. Reports from overseas commanders indicate their satisfaction that the reinforcement crisis has been met within the space of a few weeks. Thousands of additional infantrymen are in training in Canada and will go overseas as required.

DWARF APPLE TREES MEAN LESS TROUBLE

Kelowna, B.C.—(CP)—Dwarf apple trees no higher than an ordinary man which will bear fruit on branch stumps cut back to only about seven inches in length are possibilities for the Okanagan orchards of the near future. Experiments are being tried out at the Summerland Experimental Station near here which imported dwarf root stocks from the Malling Research Institute in England where they have been developed in recent years. Advantage of the man-sized trees is that they can be pruned, thinned and picked without need of a ladder.

NEW SALES REPRESENTATIVE

G. K. "BUCK" MARTIN

who was recently appointed by the Canadian Weekly Newspapers Association as Advertising Sales Representative. Mr. Martin has a splendid knowledge of weekly newspaper markets. He will be of great assistance to national advertisers and agency executives in supplying up-to-date facts on buying power in the towns, villages and townships of Canada, those important centres which lie outside the big cities.

Mr. Martin has had 25 years' experience in the advertising and publishing business, the last eight years spent with Wilson Publishing Company.

It is his aim to serve as well as sell—and we know he will have a friendly reception from advertising buyers.

Mr. Martin's headquarters are in a newly opened Toronto office, Room 1105, Temple Building—his office telephone is WA. 2353, Nights and Holidays RA. 5777.

APPEALS FOR SUPPLIES NOW REQUIRE PERMITS

To ensure that the claims of all relief organizations upon Canadian supplies will be properly coordinated with production and distribution programmes covering war and essential civilian and relief requirements, the War-time Prices and Trade Board has issued an order under which appeals for donations of clothing and supplies by voluntary relief agencies are placed under permit to be secured through the National War Services Department. First to be affected by the new ruling is the current Aid to Russia campaign for clothing which is being wound up by fund officials and members of the Prices Board, although it is clearly stated that there is no prohibition of cash contributions to the Aid to Russia Fund. All relief agencies have been notified to discontinue current campaigns and asked to submit their applications to the Department of National War Services for consideration.

BRITISH SCOUT CAR IS WELL PROTECTED

London.—(CP)—One of the armored vehicles the British Army is using in France and Belgium is the Humber Scout car designed for reconnaissance and as an inter-unit communications link. With a speed of about 60 miles an hour the car carries a Bren gun mounted on a pillar which can be controlled from the inside so the gunner can fire while almost entirely protected by armor plating. There is also a Thompson machine-gun.

FARMERS look to the FUTURE

LIVE STOCK IMPROVEMENTS IN ONTARIO

By W. R. Reek, Deputy Minister of Agriculture, Province of Ontario
(Note.—This is the first of a series of comments by well-known authorities, written especially for the Weekly Press of Quebec.)

The cash income of Ontario farmers reached an all time high in 1944. In the previous year, the last one for which figures are available, it was \$389,142,000. Of this total \$278,994,000 or 72%, was derived from the sale of live stock and live stock products. Dairy products, hogs, cattle and poultry provided the greatest volume of revenue and all were produced in excess of domestic requirements. As in the past, so in the future, conditions in world markets will have a tremendous influence on price. Consequently all efforts should be directed towards the production of products that are suitable for sale on any market in the world.

Live stock improvement, as the words imply, involves the production of a high quality product, but that is not the whole story. The product must be produced at a cost that is not an achievement that can be obtained through the production of more pounds of milk per cow, more eggs per hen and more pounds of meat with the same amount of feed. Only healthy animals can be expected to produce efficiently.

The most economical way of improving live stock is through the use of better sires. The purchase of a high class sire for exclusive use in a small cattle herd is a costly procedure. During recent years the technique of artificial insemination has been improved and this practice is now widely used in various States.

Last year an experiment was organized in Ontario and results to date justify the action taken. It can now be stated that this method of breeding offers the most economical means of transmitting the blood of outstanding sires. Moreover it provides a basis for improving all cattle in a given area. If the individual farmers within the community support the programme.

Hogs can also be improved through the use of better sires. The advanced registry policy for swine has identified the strains capable of producing large litters of high quality pigs at relatively low feed costs. These

strains can make Canadian bacon famous the world over.

Ontario's poultry has been greatly improved in the past ten years as a result of inspection and control exercised over flocks supplying eggs to hatcheries. Most pullets offered for sale today possess the characteristics necessary for producing 200 or more eggs annually because of good feeding and management.

Perhaps Ontario's most valuable and most neglected crop is pasture. It provides the cheapest feed used in the production of meat and milk. Last year the Ontario Department of Agriculture launched an extensive programme of demonstration pasture plots for the purpose of ascertaining the best mixture and the most suitable methods of seeding. The results have been most gratifying but will be of little value unless given wider application in 1945 and after.

Feed relatively rich in protein is necessary for balancing any live stock ration. Milking cows, hogs and poultry require more of this ingredient than beef cattle. Protein is usually expensive so feeding costs can be reduced by increasing the production of nitrogenous crops on the home farm. The volume of available protein can be increased by growing more alfalfa and harvesting it earlier, by producing more soy beans and by adding a few peas to mixed grain mixtures. Suitable rations have been outlined in Ontario bulletins and should be used as guides in the preparation of balanced diets.

In any live stock improvement programme health of animals should occupy number one position. At the present time about half the cattle in the province have been tested for tuberculosis under some federal plan and live stock owners in the rest of the province are anxiously awaiting tests. Bangs disease is being tackled by individual breeders and farmers. Some have adopted the blood test and slaughter plan while others are using the calfhood vaccination method. Mastitis is causing dairymen much concern and unfortunately no effective cure has been devised. The spread of the disease can be reduced by good dairy husbandry and the application of sound sanitary practices. Parasites cause high annual losses in our hog, sheep and poultry herds and flocks. Infectious diseases play havoc with winter farrowed litters of hogs. Research and experimental work is being conducted at the Ontario Veterinary College with a view to developing effective treatments for these diseases.

In the final analysis "an ounce of prevention is worth a pound of cure", and if practiced systematically will go a long way towards lowering the cost of producing live stock and live stock products. But the application of good live stock management costs money. So many farmers planning for post-war improvements are buying Victory Bonds and setting them aside for the provision of capital labor. Then they will be able to make those improvements they can't make now because of material and labour shortages.

Franklin Centre

Mrs. Stewart Money, Lois and Norman, of Montreal, arrived here Tuesday evening to spend some time with their parents, Mr. and Mrs. N. M. Brooks.

Mr. George Dickenson spent a week in the city, recently. Mrs. Harry Money, left the Barrie Memorial Hospital Wednesday afternoon and is convalescing for a few days at the home of her son-in-law and daughter, Mr. and Mrs. W. Greig, at Ormstown, before returning home.

Mr. and Mrs. John Dickenson, of Montreal, spent the week-end with Mrs. Charles Dickenson.

Mrs. McKee, Mr. and Mrs. George McKee and children, of Havelock, were Friday evening guests at the home of Mr. and Mrs. Norman Brooks.

Mr. and Mrs. Fred Towns and Mr. and Mrs. Willard Blair, spent Thursday afternoon, at Malone, N.Y.

Sgt. N. M. Brooks of Longueuil and Miss Winona Brooks, of Montreal, spent the week-end at the home of their parents, Mr. and Mrs. N. M. Brooks.

Pte. Norval Blair, of Longueuil, spent the week-end with his parents, Mr. and Mrs. Louis Blair.

Pte. Andy Ocean, of Longueuil, spent the week-end at his home here.

Mrs. Keith Dunn and infant daughter returned home Saturday from Barrie Memorial Hospital, Ormstown.

Messrs. Bryce and Lloyd Bruce were Saturday guests of Mr. and Mrs. Egbert Bruce. They were returning to Cornwall, Ont., after spending the past week in Montreal.

Mr. Stewart Money, of Montreal, spent the week-end with his family here.

Miss Aileen Currie is staying for a few weeks at the home of Mr. and Mrs. Keith Dunn.

Mr. Egbert Bruce returned to Montreal, on Sunday, having fully recovered from his attack of the "Grippe".

Miss Colleen Leahy, of Nitro, and Miss Frances Leahy, of Montreal, spent the week-end with their parents, Mr. and Mrs. Dan Leahy.

The Misses Genevieve, Doreen and Mary Cassidy and Mr. and Mrs. P. H. Sarrasin, of Montreal, were week-end guests at the home of Mr. and Mrs. Charles Cassidy.

Miss Edna McKinney and Miss Sylvia Brooks, of Malone, N.Y., were Sunday guests at the home of Mr. and Mrs. Norman Brooks.

Allan's Corners

Mr. and Mrs. William Barr and daughter, Georgina, of Montreal, spent the week-end at the home of his sister, Mrs. Helen Peddie. Mr. James Barr spent the week-end at the same home.

Sgt. Norman S. Cullen, who has now completed his course as W.A.G., is spending his furlough at the home of his parents, Mr. and Mrs. Jas. A. Cullen.

Private Donald Morgan, of Camp Borden, Ont., spent the past week-end with his aunt and uncle, Mr. and Mrs. Jas. D. Bryson.

OLD CHURCH COLLAPSES

Niagara Falls, Ont.—(CP)—The Old Red Meeting House, first church in the Niagara district, and owned by the family of Township Engineer Merle Ker for nearly a century, has collapsed under a heavy weight of snow. In the wreckage are wooden pegs which held the huge timbers of walnut, spruce and pine in position since the church was erected in 1817 by volunteer workers.

Wool Now is Made From Lowly Peanut

English Development Hailed as Big Advance

London.—(CP)—It looks like wool, it feels like wool and as complement for true wool it is likely there will never be enough to go round.

The fibre, recently announced by the Imperial Chemical Industries laboratories, is Ardl, made from ground meal of peanuts.

Development of the fibre is being acclaimed in England as an important advance in the field of textiles, useful not only in the woolen industry but in cottons and rayons as well.

The chemical process which produces Ardl duplicates in the laboratory the complicated and slow process by which sheep transform vegetable proteins into wool. Hulled peanuts are ground, and the peanut oil extracted, leaving oil-free peanut meal with about nine per cent nitrogen. Further refinement removes residual meal of about two per cent nitrogen which is usable as cattle feed. The basic Ardl protein then is made into an "Ardl liquid" by an alkali solution of caustic soda, and this is precipitated into a viscous state suitable for spinning. Fine filaments or threads are projected into a coagulating bath from a spin-nerette, producing Ardl staple fibre.

This finally is made into yarn and bleached, yielding a cream-colored crimped, resilient fibre, soft and warm to the touch. Made up it looks like wool, feels like wool, and like true wool retains the capacity to absorb a certain percentage of body

moisture without losing its protective warmth. In addition, it is without wool's disadvantage—shrinking. Ardl's fibre can be washed as freely as cotton without damage.

ICI scientists say Ardl can be blended not only with wool and cotton but also with silk and artificial silk, improving, reinforcing and cheapening the joint product to a point where low-income groups can afford it.

THE WEEKS AGENCY
Capebawaga, Quebec

FLY TO TOKYO FOR \$309

The airplane fare to Tokyo will be \$309 and the flight duration about 20 hours, according to new trans-Pacific schedules proposed by Pan American Airways before the Civil Aeronautics Board. The Financial Post's Washington correspondent reports. Pre-war schedule to Tokyo was 14 days.

The programme is based upon commercial adaptations of strato-clippers now in military service over the North Pacific route to Russia, via Alaska. In most instances, says The Post, the proposed passenger fares are lower than the first-class pre-war fares of North American surface carriers.

THE MUNICIPALITY OF THE VILLAGE OF ORMSTOWN
NOTICE

NOTICE IS HEREBY GIVEN that a Petition for the introduction of a Private Bill will be presented by THE MUNICIPALITY OF THE VILLAGE OF ORMSTOWN at the forthcoming session of the Legislature of the Province of Quebec for the purpose of sanctioning and confirming the Resolution of the Municipal Council of the said Village, passed on the 5th day of February, 1945, and reading as follows:

"It was duly moved, seconded and unanimously resolved:

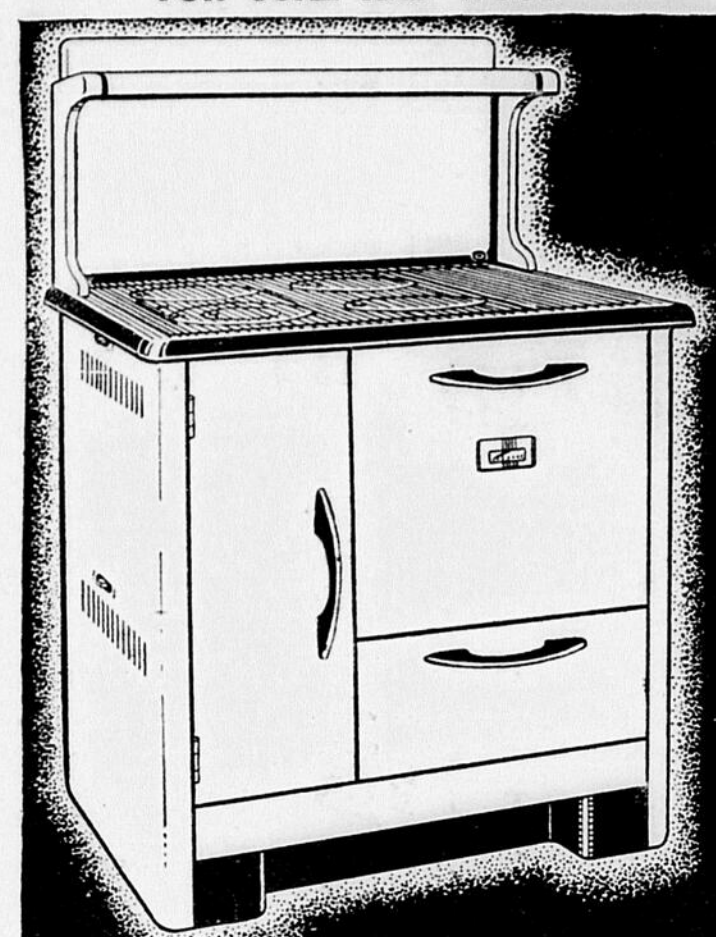

THAT, in each respective fiscal year of Municipal or School taxation within the period commencing on the day of the sanction and confirmation of this Resolution by Special Act of the Legislature of the Province of Quebec, and ending on the 31st day of December, 1955, all taxable property of Zephyr Looms and Textiles, Limited, and its successors and assigns, as such taxable property may from time to time exist in each such respective fiscal year within the present boundaries of the Municipality of the Village of Ormstown and any extension thereof, be valued, any law to the contrary notwithstanding, as follows, that is to say:

(a) In respect of the land and buildings and other property now or hereafter taxable, if any, constituting the first complete manufacturing plant (hereinafter called the "First Plant") of Zephyr Looms and Textiles, Limited, and in respect of any and all taxable machinery, equipment and accessories now or hereafter in the possession of Zephyr Looms and Textiles, Limited, and whether located in the First Plant or otherwise, at an amount not in excess of \$25,000, for the purposes of all Municipal taxation, and at an amount not in excess of \$50,000, for the purposes of all School taxation;

(b) In respect of any and all additional land and buildings, other than those included in the First Plant, at an amount not in excess of one-sixth of the cost to Zephyr Looms and Textiles, Limited, of any and all such additional land and buildings for the purposes of all Municipal taxation, and at an amount not in excess of one-third of the cost to Zephyr Looms and Textiles, Limited, of any and all such additional land and buildings for the purposes of all School taxation.

THAT the Mayor and the Secretary-Treasurer be and they are hereby authorized and instructed to do and perform any and all such acts, documents, instruments and writings as they may in their discretion see fit, in order more fully to evidence and to render effective the provisions of this Resolution and to give effect thereto, including, but without in any way limiting or restricting the generality of the foregoing, any and all notices and petitions necessary or useful to cause this Resolution to be sanctioned and confirmed and to be made valid and given the full force of law, according to its terms and provisions, by a Special Act of the Legislature of the Province of Quebec."

AND sanctioning and confirming similar resolutions passed respectively by La Municipalité Scolaire Catholique de St. Malachie d'Ormstown and The School Commissioners of the Village of Ormstown in the County of Chateauguay and endorsing that the said respective resolutions are valid and have the full force of law according to all their respective terms and provisions.
GIVEN at the Village of Ormstown this 8th day of February, 1945.
CORPORATION OF THE VILLAGE OF ORMSTOWN
Per: D. A. Barrington, Mayor.
W. G. McGerrigle, Secretary-Treasurer.

209 Victoria St. Phone 163
VALLEYFIELD, P.Q.

Dewittville

The February meeting of the Women's Christian Temperance Union met at the home of Mrs. Allan Ritchie on Thursday last, with nine members and five visitors in attendance.

Most of the afternoon was spent in quilting. The President opened the meeting by reading the Bible lesson from the W.R. Tidings and the Lord's Prayer was repeated in unison. As there had been no meeting in January, two letters were read from the Secy. of the Montreal City Mission, one of them conveying thanks for the usual fine cartons of goods that had been sent them in December, and assuring their grateful thanks for what has been done for them in the past. Different items of business were attended to. This being her first opportunity, Mrs. G. Smiles graciously thanked the members for having helped make a country life member.

Mrs. Frank Martin and Mrs. K. D. McIntosh read items on the life of the beloved founder, Frances Willard. Meeting closed with all present repeating the Pledge and the Mizpah Benediction. The hostesses, Mesdames A. Ritchie and Wm. Graham served a delicious hot supper.

Mrs. John MacIntosh of East Templeton, Que., has been spending some weeks with her mother, Mrs. George Moore.

Guests at the home of Mr. and Mrs. Arthur Dupuis over the week-end were Mr. and Mrs. Roland Lacombe, also Miss Carmen Dupuis and Mr. Ferdinand Picard, all of Montreal.

Mr. George Moore has returned home from Barrie Memorial Hospital, where he has been a patient for some time.

Memorial Service For Pte. D. Smith at Valleyfield

A memorial service for the late Pte. D. Smith, D-141272, Lincoln and Welland Regiment, was held in the Valleyfield United Church, Feb. 25th, at 2:30 p.m. Pte. Smith was killed in action in Holland, on January 26th, when returning to the front after being wounded some months before.

Mrs. E. Smith and family, of 31 Cleophas St., Valleyfield, extend their greatest thanks to all who helped or sympathized with them in the tragic circumstances.

'GREENWICH VILLAGE'

The "roaring '20's!"... bobbed hair, six-inch cigarette holders, plain talk, free verse, hot jazz, impressionist art, and, of course, prohibition, bathtub gin and gangsters' machine gunnings... no decade in American history has lived so excitingly in fact and legend.

And no section of the country so truly symbolized the roasting spirit of the times as did New York's famous Greenwich Village.

In its production of "Greenwich Village," which stars Carmen Miranda, Don Ameche and William Bendix with Vivian Blaine, and shows on Sunday and Monday, March 4 and 5, at O'Connor Theatre, 20th Century-Fox has dipped deeply into the colorful melting pot of the Village to recapture its unfettered spirit, its legend, its "color" and the weird conglomerate of character and bizarre "characters" which made the Village a fascinating hot-spot in the "roaring '20's". The film concerns itself with the gay and dramatic intimacies of the Village's human cross-section. No gangsters, no hijackers or out-worn violence in-lure to impair its gay plot and structure as a glittering musical which aims to provide a nostalgic slice of one of the most colorful eras of our time.
