AMICABLE ARRANGEMENT NOW SEEMS CERTAIN

Board of Trade Doing Good Work in Bringing
About Understanding Between C.P.R.
and Laborers.

MAY BE ALL SETTLED THIS WEEK.

The Quebec Board of Trade is apparently making solid progress in its efforts to bring about a better understanding between the laborers of the port and the C. P. R. Steamship Company, a matter to which it has been devoting its earnest attention recently. It is now confidently expected that by the end of the week the whole question will be arranged on an amicable basis, and that there will then be no more cause for talk of the Empress steamers leaving Quebec. The success of the Board, so far, in paying the way for the satisfactory settlement of a difficult problem is due in no small degree to the tact and energy of its President, Major T. S. Hethrington, who has devoted much time and attention to getting a clear understanding of the whole trouble and the best means available to avert the threatened disaster to Quebec's maritime interests.

The question was again considered at an important meeting of the council of the Board of Trade, which was held yesterday afternoon at the Board Rooms. Major Hethrington presided at the meeting, the other members present being: Dr. Ed. Morin, Messrs. Lessers, Geo. E. Amyot, J. M. McCarthy, W. H. Wiggs, Roger LaRue, G. W. Bedard, P. J. Paradis, J. Picard, and T. Levesque, secretary.

Major Hethrington reported that he had had informal interviews with the President of the Ship Laborers' Society, Mr. M. Kenney, and the President of the Longshoremen's Association, Mr. Leclerc, and that these had been of a most satisfactory nature, the representatives of both societies being seemingly well disposed to meeting in some measure the views of the C. P. R. Company.

After some further discussion, Mr. G. W. Bedard moved the following motion, which was seconded by Dr. Ed. Morin and unanimously adopted: "That a delegation, composed of the President, Major T. S. Hethrington, and Messrs. J. Picard, J. G. Scott, and the mover and seconder, be appointed to meet the officers of the Ship Laborers' Benevolent Society and the Longshoremen's Union, with a view to discussing with them the best means to arrive at an amicable understanding between the societies and the C. P. R. as to the scale of wages to be established for the coming shipping season."

The Secretary of the Board was instructed to write at once to the President of the Ship Laborers' Society, Mr. M. Kenney, vice-president, Lieut.-Colonel W. Wood, Rev. F. G. Scott, Philias Gagnon, H. J. B. Chouinard, Rev. A. Gosselin, Dr. Harper, P. B. Casgrain and Ernest Myrand, secretary.

The plans of Mr. Lascelles, for the pageants and street procession, were discussed at length, but no definite action was taken, it finally being decided to have copies of the programme outlined placed in the hands of each member of the committee in order that it might be intelligently studied. Another meeting of the committee will be held on Friday evening next when the subject will be again taken up.

SECTIONMAN KILLED
Toronto, Ont., March 24.—Alexander Anthony, an East Toronto sectionman, was killed by an eastbound G.T.R. freight, near Eastern Avenue, about 10 o'clock this morning, one leg was cut off above the knee and his head was badly crushed.

A LENGTHY DEBATE

On the Budget Speech in the
House of Assembly
Yesterday.

The House held two sittings yesterday and only adjourned at midnight, when Hon. Mr. Gouin moved the adjournment of the debate on the Budget speech.

The afternoon and evening sittings were entirely devoted to the continuation of the debate on the Budget speech, Hon. Mr. LeBlanc starting the ball rolling and delivering an able speech, which lasted for almost two hours, Hon. Mr. Weir replying to his criticism.

In the evening the speakers were Messrs. Gault and Teller on the Opposition side while Hon. Mr. Prevost and Mr. Perrault defended the Government's policy.

After the presentation of a number of bills at the afternoon sitting, Hon. Mr. LeBlanc resumed the debate on the Budget, remarking that the Provincial Treasurer's speech did not appear quite clear enough, and after reading the synopsis of his remarks in the newspapers, the member for Laval stated that an impression was given that the present Liberal party, which had been in power for ten years, had carried out the programme traced out during the elections of 1897 and summed up by Hon. Mr. Marchand in his budget speech in 1899.

Hon. Mr. Weir in his speech had excused increased expenditure on account of growth in population, development of colonization, construction of rural roads, and even went so far as to excuse the increase of grants to educational institutions.

Now, said the speaker, we will compare the ordinary and extraordinary expenses of the Government since 1897 to 1906-07. The amounts for ordinary expenses for each year totalled \$45,861,265 and those for extraordinary expenses \$520,213, or an average of \$4,586,126, spent for ordinary expenses; these figures are sufficient to give an idea of the enormous increase in the expenses of the present administration. To excuse this increase the Provincial Treasurer has informed the House that it was due to expenses of surveying, exploration of Crown lands, expenses of administration of justice, and sums required for asylums, charitable institutions and other causes.

Comparing figures for 1896 to those of 1907, Hon. Mr. LeBlanc showed that there had been an increase in the expenses for surveying of \$15,000; for colonization roads of \$20,000; for improvements of rural roads of \$3,925; for public instruction of \$114,385; for night schools of \$17,209; for insane asylums of \$129,970. "I did not imagine," said the member for Laval, "that insanity had increased so much under the present Government."

For charitable institutions, there was an increase of \$2,245. The total increased expenditure was, then, \$302,735. In 1897 the ordinary expenses showed an increase of \$597,544, compared with 1896.

The reason for this increase was that instead of following a united policy applied generally to all the Province, there had been for ten years a policy of favoritism and patronage to satisfy the ever-increasing minions and favorites of the Government. In reading the public accounts, the names of these favorites were always appearing. Colonization agents had in a host of cases used means to corrupt the electorate, as had been done in Montmorency at the time of the general elections of 1904.

It was in Nicolet at the time of the elections there last autumn," continued the speaker, "that at St. Bridget's I was informed that in that place the Colonization Department had only spent the sum of \$100. It was a modest amount, but it had just been spent to improve the roadway in front of the door of a certain Mr. O'Grady or O'Brady."

Hon. Mr. Devlin—"O'Grady."

Hon. Mr. LeBlanc—"Did you say O'Brady?"

Hon. Mr. Devlin—"No, no, it was O'Grady."

"What was done for this Mr. O'Grady," continued the Opposition leader, "was done all over the Province wherever O'Grady's and other minions of the Government were to be found."

As for the administration of justice, that cost \$610,441 in 1907, while in 1896 the expenses had only been \$316,170. The expenses had been doubled.

Hon. Mr. Weir interrupted the speaker by claiming that Hon. Mr. Atwater's budget speech for the year mentioned showed an amount of some \$500,000.

Replying, Mr. LeBlanc asked the Provincial Treasurer to examine the public accounts. He found there that the total expenses for administration of justice in 1896 was not more than \$475,096. The total controllable expenses for that year formed the sum he had previously mentioned. Nothing justified an increase of more than 100 per cent in controllable expenses and of 30 per cent in total expenditure for that department.

Hon. Mr. LeBlanc reminded the members that last year \$522,760 had been spent on public instruction. This amount covered Government aid given to higher education, secondary education and primary education throughout the province. In Ontario, to the contrary, there had been spent in 1905 a total sum of \$6,161,236 for education in general. For primary education alone the Ontario Government had spent \$582,457 last year. The vital question of teachers' salaries in this Province had not been solved. So long as teachers' salaries remained as at present teaching could not be considered as a dignified career and taxpayers outside cities and towns would not have a system of schools fulfilling the needs of the rising generation.

Before the Conservatives came into power the Mercer Government had increased the liabilities of the Province by \$12,389,167. This increased the interest on the debt and other funds of administration. Mr. LeBlanc gave in detail an account of the debts contracted by Liberals before 1891 and paid afterwards by Conservatives,

which totalled an amount of \$3,046,911, and which had been paid by Conservatives without interfering with different Government departments. Notwithstanding these debts, the Conservative Government put an end to the extravagances of the former Government and lowered expenditure and during the four years for which they were alone responsible the Conservatives obtained an accumulated surplus of \$904,466.

Denying the Premier's assertion about there being no increase in taxation, Hon. Mr. LeBlanc showed that since 1896 there had been a total increase of \$888,863.

Summing up his remarks, Hon. Mr. LeBlanc declared that the account the public would demand from Premier Gouin's Government would be a severe one. During the past ten years there had been no real electoral expression of opinion. The people had never been given time to recover from federal elections before they were again called upon to go to the polls.

"I hope that we will have a real election soon," concluded the speaker, "and that the people will be given time to study the present political situation."

Hon. Mr. Weir, rising to reply, stated he was glad to notice that the leader of the Opposition was able to deal with facts of the Province as he had. Last summer the Provincial Treasurer was afraid that Hon. Mr. LeBlanc would lose his important place on the left. He was glad, however, that Mr. Bourassa had not obtained that position and that the member of Laval was still occupying it.

Proceeding Hon. Mr. Weir excused the increase in the department of administration by claiming that in the last year of their regime the Conservatives did not have enough money to pay their employees and that was the reason for the saving.

Excusing taxation, he said, that no province could manage its affairs without it. Very few new taxes, indeed, had been imposed on the Province since the Liberals came into power. He claimed that a large part of the increased liabilities of the Government might be attributed to the Paris loan. He said there had been a wiser administration of the departments of forests and lands under the Liberals. The succession tax he claimed had been imposed so as to be lighter on the poor and a little heavier on the rich.

Hon. Mr. Weir concluded by asserting that Hon. Mr. LeBlanc's speeches last summer had evidently been incorrectly reported in Conservative newspapers, or else Hon. Mr. LeBlanc had committed errors in quoted items of Government expenditure.

Mr. Gault moved the adjournment of the debate and the House adjourned at 6.30.

It was nine o'clock when the House resumed business and after adopting a few bills Mr. Gault continued the debate on the Budget, speaking for about half an hour. Mr. Gault criticized the Provincial Treasurer's methods of bookkeeping, citing many items of expenditure mentioned in the public accounts without details and concluded by emphasizing the unjust proportion of taxation borne by the city of Montreal, when Mr. Weir's reply to the Conservative leader was principally confined to past history of the Province's finances under the Conservative regime of 1892-1897.

Mr. Perrault followed the last speaker and also went fully into the public accounts in support of his arguments that the Liberal Governments had always administered the affairs of the Province as business men.

Mr. Teller was the next speaker and spoke for about an hour in defence of the past Conservative administration. He remarked that judging from the arguments of the Government's supporters one would be led to believe that the electors of this Province would be soon called upon to decide on what the Government had accomplished in the past, while nothing was said as to the future. There was one thing that business men in this Province could not understand and that was that both sides of the House could not agree as to the financial condition of this Province. Both parties apparently looked upon the public accounts in a different light, one claiming a surplus while the other claimed a deficit. In this Province parties did not appear to agree as to what was a surplus or a deficit and how could they expect the electors to form an opinion, when their representatives could not agree when they had the public accounts in hand. Naturally enough the people of this Province must come to the conclusion that there was something wrong.

The member for Joliette, like the preceding speakers, went into the public accounts under both administrations and arrived at the conclusion that under the Conservative regime between 1892 and 1897, a yearly surplus had been shown. The Conservatives had come into power in December, 1892, but what had been done from June 30th of that year under the Liberal administration should be also shared by the Liberals and the same could be said of 1897 when the Liberals took over the affairs of this Province in the month of May. From 1893 to the month of May, 1897, the Conservative Government showed a yearly surplus from \$178,000 to \$432,000 and these figures were taken from the public accounts. Between 1892 and 1897 the Conservatives had spent \$1,500,000 for extraordinary public works while during ten years under the Liberal administration only \$520,000 had been spent for the same purpose. In 1892 the Conservatives had increased the revenue by taxing municipalities for the care of lunatics, but this source of revenue had been increased by the Liberals who also forced the families of lunatics to contribute towards the provincial revenue and instead of imposing this revenue upon the county councils forced local municipalities to pay up. The Opposition favored the programme of the Government regarding public instruction and colonization as elicited in the Treasurer's speech, but objected to this aid being under political influence.

Hon. Mr. Prevost was the next speaker and occupied the attention of the House until midnight. The member of the Government made sev-

present His Worship Mayor Garneau, Alderman Foley (chairman), Messrs. Fiset, Lockwell, Noreau, Matte, St. Pierre, Cummings and Brunet, members of the committee, and Aldermen Samson, Verret, Pouliot, Mulconey and Madden.

Three applications for positions as chimney sweeps and six for positions as firemen were received but there being no vacancy they were placed on file.

The estimates for the Fire Alarm Department were placed on the table, the chief items being an amount of \$3,000 for a new transmitter, and a request from the operators for an increase in salary. After some discussion it was decided to allow the estimates to remain in abeyance until the next meeting, the chairman to discuss the items with the superintendent of fire alarms in the interval.

The usual grant of three months' salary was accorded to Mrs. Larocque, widow of Chimney Sweep Larocque, deceased.

Avoid Secret Stomach Remedies

Because Most of Them Contain Dangerous Ingredients, Which Produce the Drug Habit.

Thousands of people, having dyspepsia or stomach troubles in some form, continually "dope" themselves with all sorts of secret tonics, drugs, pills, cathartics, etc., which not only inflame and irritate the stomach and intestines, but in many cases cause the opium, morphine and cocaine habit.

You have a right and should demand to know what any medicine contains before you take it, unless it is put up or recommended by some reputable physician. Fakes and quacks will put most anything into their secret preparations, to make you like their useless stuff so as to want more of it, until it makes you the victim of some drug habit, which will ruin your health in a short time.

Stuart's Dyspepsia Tablets are not a secret remedy, they do not contain injurious drugs, and they are recommended by thousands of physicians in the United States and Canada to their patients for dyspepsia, catarrh of the stomach, and all other stomach troubles resulting from improper digestion of food.

These wonderful tablets actually digest food before they contain the very elements that are required of a healthy stomach to properly digest food, thus acting as a substitute and giving the overworked digestive organs a rest and a chance to regain their former health, strength and vigor.

Stuart's Dyspepsia Tablets contain fruit and vegetable essences, the pure concentrated tincture of hydnastis, and golden seal, which tone up and strengthen the mucous coats of the stomach and increase the flow of gastric and other digestive juices; lactose (extracted from milk); nux, to strengthen the nerves controlling the action of the stomach; bismuth to absorb gases and prevent fermentation and pure aseptic opium (govt. test) of the highest digestive power. All of these are scientifically incorporated in these tablets or lozenges and constitute a complete, natural, speedy cure for any stomach trouble.

Stuart's Dyspepsia Tablets are sold in large fifty-cent boxes, by all druggists.

Write us for a free sample package. This sample alone will give you sufficient relief to convince you. Address F. A. Stuart Co., 180 Stuart Bldg., Marshall, Mich.

NOTES OF OTTAWA

Request from Printing Bureau
—White Wolf Shot—The
Bisley Meet.

Ottawa, March 24.—Robert Stewart, J. B. T. Caron, Alphonse Verville and Charles Parmelee, M. P., accompanied a deputation of Printing Bureau Foremen who waited upon the King's Printer to-day after having previously seen the secretary of state. The parties in question are heads of the different branches in the Bureau and perform important work, but they claim that things are so fixed that they do not participate in increases. They wish to be placed on the civil service list.

Mr. Harry Fitzpatrick, who was clerk for the E. B. Eddy Company at River Demerle returned to the city to-day with the skin of a white wolf. He shot the member of this rare species a few days ago near River Demerle. The skin is a beauty 7 feet 2 inches in length, and 3 feet 6 inches wide.

Peep sights will be allowed at Bisley this year. This important and important was received to-day by Arm. Sgt. C. S. Scott, in a copy of the amendments to the regulations governing the meet. By this regulation either the Sutherland or Reardon peep sights will be allowed. The effect will be very great and the Canadian Rifleman will lose no time getting accustomed to the peep sights. At meeting of the D.R.A. executive last night the Bisley round target at 200 yards was adopted for the D.R.A. meet.

That the bill of Hon. J. Prevost, of the Quebec Legislature, whereby it is proposed to remove from the county of Ottawa for judicial purposes twenty-two of the back townships, will be vigorously protested against, is manifested by the action which the Bar Association of Ottawa county will take. A meeting of that association was held in Hull to-day and it was decided that a delegation should be appointed to go to the Quebec Parliament and there protest against the bill and the reason advanced for making the change.

DEPRESSION IN THE SPRING

Its Cause Explained by a Physician.

When asked why tiredness and languor are so prevalent in the spring, Dr. Hamilton explained that the cold of winter drives blood from the surface of the body to the liver. Normally, one-fourth of the whole blood supply is in the liver and when more blood is accumulated in that organ, everything goes wrong. No better remedy exists than Dr. Hamilton's Pills, which are composed of such vegetable extracts as Mandrake and Butterbur, which are well known for their liver stimulating effect. By clearing the system of all poisons, by toning the blood, and regulating the circulation, Dr. Hamilton's Pills quickly dispel feelings of tiredness, lack of spirit, poor appetite, nervous and sick headache. "When I was so despondent and lacking in spirit, when I felt so run down and useless last spring I used Dr. Hamilton's Pills," writes N. V. Macconochie, of Hamilton. "I felt better at once—the yellow left my cheeks, appetite improved, strength returned. No medicine ever did me such a world of good." Everyone with safety and benefit, 25c. per box, all dealers.

UNIONIST ELECTED

Liberal Candidate Sniped Under af Peckham—Government Licensing Bill.

London, March 24.—The most keenly fought bye-election for the present Parliament, which was necessitated through the death of Chas. Goddard Clarke, member of Peckham, a district in London, south of Thames, resulted to-day in a great victory for the Unionists, whose candidate, S. C. Gooch, was elected by a majority of 2,339. The contest to-day centered largely in the Government Licensing Bill, and the conversion of a large Liberal majority into a still greater Conservative majority is a striking demonstration against that measure. The announcement of the returns in the House of Commons caused a scene of the greatest excitement. There were Unionist shouts demanding that the Government resign.

A CASE OF MURDER

London, Ont., March 24.—The body of the man found in the Thames, near Muncy yesterday has been fully identified by Newman Pidd, son of Mr. Layton Pidd, with whom he boarded, as that of Harry Bartlett, missing from this city for several months. Dr. Woods, who performed the post mortem found evidence of foul play. The neck was broken and there is a fracture at the base of the skull, supposedly caused by some blunt instrument. A coroner's jury viewed the body and adjourned until Monday next.

MURDER IN MANITOBA

Winnipeg, Man., March 24.—Washe Andrejczek is in jail here, charged with the murder of another Galician, A. Ozanne, near Teulon, Saturday night. He has made voluntary confession to the crime. He killed his victim because he had informed on him for shooting a moose out of season. Meeting the man on the trail, Andrejczek, climbed on to his sleigh and clubbed him to death.

WOUNDED BOTH HIS PARENTS

Toronto, Ont., March 24.—Emill Canone, a young Italian, was committed for trial this morning upon two charges of wounding his father and stepmother on February 27th last, at 262 Chestnut street. The trouble arose over their refusal to share with him the contents of a keg of beer. Mrs. Canone remonstrated with the son about having trouble with his father and received a stab in the arm for her pains. Michael Canone, the father, heard the scuffle, came to the scene, and received a stab in the thigh.

"O! MY POOR HEAD"

Stop Those Headaches.

Headache and neuralgia are pronounced signs of blood poisoning. This poisoning of the blood comes from the waste matter of the body being left in the system, instead of being regularly carried off by the bowels, kidneys and skin.

When the bowels do not move regularly, the refuse is absorbed by the blood. Thus, the blood is loaded with foul poisons which irritate the nerves.

Poor skin action also causes headache and neuralgia. Impurities cannot escape through the skin, so the blood must take them up and deposit them on the nerves.

If the bowels and skin are not ridding the system of waste, the kidneys try to do so and are overworked.

There is just one way to cure headaches and neuralgia—to regulate bowels, kidneys and skin so that all the poisons of the body will be properly carried off.

"Fruit-a-tives" keep blood pure and rich—relieve the stomach and kidneys—regulate the bowels; and invigorate the skin to healthy action. "Fruit-a-tives" are a wonderful discovery, being a combination of fruit juices and tonics. 50c. a box—six for \$2.50. At all dealers, or from "Fruit-a-tives" Limited, Ottawa.

A LENGTHY DEBATE

(Continued from First Page.)

eral suggestions to the Government as regards the expenditure of certain moneys and asked that a portion of the expected federal surplus be used as a stimulant to colonization. In fact for ten years, he said, there had been practically nothing done to aid colonization. He gave as a model of good colonization the work done by the Ontario Government in recognizing the principle that new railways should proceed the settler. He declared that there should be a system of guides who would aid settlers in establishing homesteads.

The Government had only been spending \$5,000 a year in the mining department. Instead of this, at least \$15,000 a year should be allotted in the estimates to that important department. Instead of boasting of large surpluses the Government should give more encouragement to agricultural exhibitions and dairy industries. He also declared that toll-gates and toll fares on bridges should be abolished.

Hon. Mr. Gouin moved the adjournment of the debate and shortly after midnight the House adjourned until this afternoon.

Mr. Mousseau has given notice that on Thursday he will move that this House expresses the hope that the Government institute a system for the official encouragement of letters, sciences and arts in this Province by organizing public competition and awarding prizes to the successful competitors.

Mr. Mousseau has also given notice that the time is opportune to modify our municipal institutions by substituting the secret ballot to open voting in elections held under the dispositions of the "Municipal Code."

A DOCTOR'S CALLANT FIGHT

Peterboro, Ont., March 24.—Dr. J. W. Gray, a prominent local physician, was set upon by a gang of thugs while on his way home late last night. The doctor, although nearly sixty years of age closed with his assailants and accomplished the remarkable feat of taking one of them to the police station two blocks away. The other members of the gang tried to free their pal, but the doctor beat them off, and handed his man over to the authorities. The doctor received a cut on the head in the mix-up, but was not seriously injured.

CLEAN YOUR BLOOD

Make Up This Valuable Prescription which Takes Out Impurities.

A leading health journal, in answering the question, "What is the best prescription to clean and purify the blood," prints in a recent issue the following: Fluid Extract of Dandelion one-half ounce, Compound Kargon one ounce. Compound Syrup Sarsaparilla three ounces. Shake well and use in teaspoonful doses after each meal and at bedtime.

A well known local druggist who is familiar with this prescription states that it is harmless, being composed of simple ingredients which can be obtained from any good prescription pharmacy.

It cleans the blood of all impurities and nourishes the blood. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down, debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within, and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Kargon and Extract Dandelion works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles. This prescription is better than the usual patent medicines, which are in the most part alcoholic concoctions. The ingredients cost but little and are easily mixed at home. Every man and woman here should make some up and try it if they feel their system requires a good blood medicine and tonic.

The Kargon to clean the kidneys and vitalize them so they can clean the blood, Sarsaparilla to make new blood and Dandelion to tone the stomach, clean the liver and make it active and relieve constipation is the way the prescription acts and so mildly and gently that one does not consider they are taking a medicine.

FRANCISCAN MONK

Brutally Murdered in Italian Quarter of New York—Murderers Escape.

New York, March 23.—Another of those mysterious murders, so frequent in New York, and bearing the earmarks of a Sicilian vendetta, developed to-day when the body of Vincenzo Bonano, a former Franciscan monk, who came here from Sicily in 1891 and has since lived in the Italian colony of Mulberry street where he had a reputation of having accomplished many faith cures, was found in a darkened rear apartment of a dingy outside tenement. The man's throat was cut from ear to ear and there were gashes and bruises on the head and face. The victim's feet were tied together, showing that he had been taken at a disadvantage, but great splashes of blood gory finger marks about the apartment, indicated that the man had given up his life only after a desperate struggle. A blood-stained razor and hatchet were found in a fire-place. The police, after of investigation, declared themselves baffled so far as clues to the murderers were concerned. The crime was apparently planned a week or more ago, for at the time two Italians hired the apartment, which they told the janitress, they expected to occupy in a few days. They did not appear again until Sunday night and then the victim of the murder and a woman accompanied them. The janitress says she believed the party had come to prepare for moving in and so she paid little attention to them. She knows the woman left early and that during the night she heard a scuffle, but this is all the information she could give. The police say it is clear that the victim was lured to the place and they believe the murder was one of revenge.

TO ABOLISH GAMBLING AT RACES

Albany, March 23.—The Assembly to-night advanced to third reading (order of final passage) the Agnew-Hart bills designed to abolish gambling at race tracks in this State. Assemblyman Cuvillier (Dem.), New York, tried to have them amended so as to take effect Sept. 1st instead of immediately, but he was overwhelmingly defeated, 87 to 16, by a rising vote. The bills will probably receive their final vote in the Assembly on Thursday.

WAITER TURNS SWINDLER

Paris, March 23.—A sensation has been caused by the arrest here this afternoon of a man named Henri Rochette on the charge of conducting successful swindles on an enormous scale. Rochette was at one time a waiter in an obscure French town. He came to Paris to seek his fortune in which he was successful so long as he could keep out of the clutches of the law. He founded the Franco-Spanish Bank and floated not less than a dozen enterprises in which he is a director and whose stock was eagerly purchased by French investors. It now develops that his methods were fraud-

ulent and the complaint against him alleges that he has stolen over \$12,000,000 through the medium of his various companies and societies. Rochette defrauded by continually organizing new companies and issuing new stock. It is charged that he manipulated the assets of his companies by means of false balance sheets.

THE LONG AUTO RACE

Ogden, Utah, March 23.—The American Auto in the New York to Paris race left Fresno, Cal. this afternoon and intended to stop for the night in Gilroy, 80 miles from San Francisco. The Italian car although nine miles west of Ogden must wait to have a fracture of its frame repaired in Ogden. The French car should reach Medicine Bow, Wyo., to-night. The Italian car is 155 miles ahead of the French Automobile and 370 miles ahead of the German machine.

SPRING IMMIGRATION RUSH

St. John, N.B., March 23.—The spring immigrant rush to Canada has commenced. The steamers Victorian and Lake Erie arrived on Sunday from Liverpool with 300 and 365 respectively, while the Montrose came in from Antwerp with 365, a total for the day of 1,036. Most of the seven hundred for Montreal were returning having spent the winter in England. The Empress of Ireland due on Friday next, is bringing out 1,530, the Montreal from Antwerp due on April 2nd, has 1,762 and the Corsican due at Halifax, March 27, has 1,303.

THE ROSS RIFLE POLICE AND FIRE

Rumor that the Factory May
be Located in
Ottawa.

Ottawa is evidently trying to work
up a boom for that city as a location
for the Ross Rifle factory, as the
following extract from the Ottawa
Citizen will show:

"It is rumored that in the event of
the Ross Rifle Factory being moved
from its present site near the historic
batteries at Juebec, it will be located
in Ottawa. As is well known, the
scheme to preserve the battlefields in-
cludes also the removal or transfor-
mation of all structures of an un-
sightly character or of a nature out
of harmony with the artistic aspect of
the proposed park. It may be neces-
sary, therefore, to move the rifle fac-
tory and it is said on apparently good
authority that the industry will come
to the capital in preference to any
other Canadian city. The concern is a
large one and much capital is invested
or interested in the making of the
small arm patented by Sir Charles
Ross and adopted by the Canadian
government. It will not be definitely
known for some time whether the fac-
tory will be moved, but the opinion
of the directors is said to be strongly
in favor of the capital as its next and
final location.

The public are invited. Admission free.
The lecture is sure to be most interest-
ing and a large audience is assured.

Correspondence

To the Editor of the Chronicle:
Sir,—I hear that in connection with
the tercentenary celebration that \$15,000
is to be blown in on fireworks. This
strikes me as an excessive
amount. I fully appreciate the neces-
sity of attempting nothing that we
cannot do well and that our "show"
should surpass anything ever attempt-
ed in Canada. But in view of the fact
that \$5,000 is the utmost that was
ever been spent in Canada on fire-
works on any occasion I think a sav-
ing of \$5,000 might be effected in this
one item of fireworks. We must not
lose sight of the fact that every dol-
lar saved goes to swell the amount
available for the realization of Lord
Grey's magnificent scheme for the pre-
servation of our battlefields.

Yours truly,
J. R. GOSLOW.

The only difference between cherish-
ing a prejudice and being inclined to
be cautious is that between you and
me.

DETHIER PLEASSED

Talented Belgian Violinist
Heard to Good Effect
Last Night.

Edouard Dethier, the young Belgian
violinist, made a most favorable im-
pression at the concert given by him at
the Loyola Hall last evening. There was
a good-sized audience present, and
it grew at times quite enthusiastic in
its applause. Mr. Dethier is a violin-
ist of expression as well as of techni-
que, and his various numbers seem-
ingly appeared in a peculiarly insistent
manner to his hearers. He was recall-
ed again and again to bow his ack-
nowledgements at the conclusion of
each selection, and in several cases he
was forced to respond to an encore.

Mr. Dethier had the assistance of
that favorite baritone, Mr. H. Percy
Woodley, whose splendid voice was
heard to great advantage in a num-
ber of selections. He also won a well-
earned success. Mr. J. A. Bernier act-
ed as accompanist and his sympathet-
ic work was no less enjoyable than
that of the principals. The concert
was a very pleasing one throughout.
The organizers of last evening's con-
cert are to be congratulated on its
artistic success, and it is to be hoped
that the music-loving public of this
city, a representation of whom so
keenly enjoyed the entertainment,
may before long be again privileged to
be present at another of their offer-
ings.

REALLY THE PRINCE

His Quebec Friend on Voyage
of Victorian Confesses
the Story.

A considerable amount of doubt
seems to be felt in New York as to
whether the person who recently ar-
rived on the steamer Victorian and
who gave the name of "Thompson"
was in reality the Prince de Sagan,
but notwithstanding these rumors it
has been ascertained on the best and
most reliable authority that the party
in question, who passed through Levis
on Saturday last was truly the Prince
de Sagan. This was confirmed yester-
day morning by Mr. St. Pierre,
European buyer of the wholesale local
dry goods firm of Thibault, Frere
& Co., who in conversation with a
Chronicle representative, stated that
the party was none other but Prince
de Sagan. The buyer is a French
Canadian who took passage on board
the Victorian at Liverpool and during
some of his first acquaintances on
board ship was a Frenchman who
was on the passenger list, under the
name of "Thomson." Naturally
enough both the latter and the buyer
became staunch friends and the friend-
ship lasted until they separated at
Levis. On the way across "Thomson"
sent a long Marconi message to
New York and received a reply on
landing at Halifax. From the general
tone of his conversation "Thomson"
appeared to be very well posted re-
garding social circles in Paris, New-
port and elsewhere, and made inquir-
ies from his friends as to the best route
to take to New York.

On the buyer's advice he took pas-
sage on board the I. C. R. at Halifax
and immediately after the train left
sat down at table in the buffet car
alongside of his Quebec friend. During
the meal he drew a card from one of
his pockets which was a membership
ticket to a Parisian club made out in
the name of Prince de Sagan. The
friend, while expressing his surprise,
acknowledged that he had already re-
marked to a friend that he did not
think his name was Thomson. The
Prince also produced his passports
signed by the chief of police of Paris.
On several occasions on the way up
the Prince referred to the Castellane's
and acknowledged that he had very
seldom met Mrs. Boni de Castellane.
He was anxious to reach New York
and hoped that he could remain there
two or three weeks without his re-
sidence in the American metropolitan
being known.

The Quebec friend has the Prince's
address in New York, but refused to
divulge it, admitting, however, that
he was residing not far from Fifth
avenue.

BUSINESS MEN'S

Lunch Room to be Shortly
Established in Lower Town
by Mr. Ernest Cote.

Possibly one of the most welcome
additions to our business men's re-
quirements will be the intelligence that
a particularly fine Lunch Room will
be shortly established by our energetic
young citizen, Mr. Ernest Cote, pro-
prietor of the Headquarters Cafe.
Mr. Cote has long realized the neces-
sity of such an addition to his Res-
taurant, and the contracts for the
complete equipment of a modern and
up-to-date dining room for the busi-
ness men of the city, are now being
rapidly put through, and the estab-
lishment will be ready for the summer
season's business not later than the
1st May next. Mr. Cote proposes to
give daily a first class lunch minu-
inferior to none in the city, second in
the best style, and with the best
equipment and taste. All conveniences
for the comfort of his guests will be
afforded, and the different ideas that
will be installed into this new depart-
ment, will greatly surprise our busi-
ness men generally. Mr. Cote has
great faith in the fact, that a first
class table secure first class results,
and we wish him every success in his
new enterprise.

The country has been saved time
and yet again by the women's clubs.

For 400 Years

and more, people have found
health-help in Vin St. Michel—the rare old French
tonic wine.

For more than 400 years it has never failed to
rejuvenate and strengthen; bringing sleep to the sleepless,
blood to the bloodless, peace to the nervous—and a
wealth of health to everyone.

For more than 400 years

Vin St. Michel

has righted the digestion, reinforced the
stomach, cured brain-fag—and made living
a continual gladness.

Upheld by centuries, one does not need
to hesitate in choosing Vin St. Michel.
These centuries have furnished no tonic so
rich, so pure, so effective.

Unkind March Winds Play Havoc With Skin and Complexions

Put on your veils before venturing
out while boisterous March reigns. It
may be very exhilarating and benefi-
cial to be out of doors when the wind
playfully blows your hair "every
which way," but remember that un-
less you are careful, this same playful
March wind will dry and crack your
skin until it will take weeks to bring
back the delicate texture and the rose
leaf texture a perfect complexion
should have.

A safe and sure preservative for the
complexion is a wash made as fol-
lows: Take 2 ounces of Rose Water,
4 ounces of Epsom and 1 ounce of
Cologne Spirits. You can get these
ingredients at any drug store. Put
the Epsom in a pint of hot water
(not boiling) and after it is dissolved
strain and let cool. Then add the rose
water and cologne spirits.

This was inexpensive and can
easily be prepared at home. As a
complexion tonic it is far more benefi-
cial than any of the expensive pre-
parations sold in the stores.

DOCTORS MISTAKES

Are said often to be buried six feet under
ground. But many times women call on
their family physicians, suffering as they
imagine, one from dyspepsia, another from
heart disease, another from nervous pros-
tration, another with pain here and there,
and in this way they prevent alike to
themselves and their easy-going or over-
busy doctor, separate diseases, for which
he, assuming them to be such, prescribes
drugs and potions. In reality, they are
all only symptoms caused by some uterine
disease. The physician, ignorant of the
cause of suffering, keeps up his treatment
until large bills are made. The suffering
patient gets no better. The doctor's
wrong treatment, but probably worse.
A proper medicine like Dr. Pierce's Favorite
Prescription, directed to the cause would
have quickly removed the disease, there-
by dispelling all those distressing sym-
ptoms, and instituting comfort instead of
prolonged misery. It has been well said,
that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a
scientific medicine, carefully devised by
an experienced and skillful physician,
and adapted to woman's delicate system.
It is made of native American medicinal
roots and is perfectly harmless in its
effects in any condition of the female
system.

As a powerful invigorating tonic "Fa-
vorite Prescription" imparts strength to
the whole system and to the organs dis-
tinctly feminine in particular. For over-
worked, "worn-out," run-down, debili-
tated teachers, milliners, dressmakers,
seamstresses, "shop-girls," house-keepers,
nursing mothers, and feeble women gen-
erally, Dr. Pierce's Favorite Prescription
is the greatest earthly boon, being un-
equalled as an appetizing cordial and re-
storative tonic.

As a soothing and strengthening nerv-
ine "Favorite Prescription" is unequalled
and is invaluable in allaying and sub-
duing nervous excitability, irritability,
nervous exhaustion, nervous prostration,
neuritis, hysteria, spasms, St. Vitus's
dance, and other distressing nervous
symptoms commonly attendant upon
functional and organic disease of the
uterus. It induces refreshing sleep and
relieves mental anxiety and despondency.
Dr. Pierce's Pleasant Pellets invigorate
the stomach, liver and bowels. One to
three a dose. Easy to take as candy.

A marriage has been arranged and
will take place on April 29th, be-
tween Major J. Campbell Gardner, 3rd
Battalion, Cameronian (Scottish
Rifles), son of the late Colonel R. B.
Gardner, Royal Marine Artillery, and
of Mrs. Gardner, of Moor Hill, Hind-
head, and Estelle Frances Lethbridge,
fourth daughter of the late Lt.-Col.
Wisdon and Mrs. Wisdon, of The War-
ren, Durrington, Worthing.

It is said that the Prince of Wales
will be at Aintree on Friday, March
27th, to witness the race for the
Grand National Steeplechase, in which
the King's colors are to be carried by
Flaxman. In this race the Prince is
to be the guest of Lord and Lady
Derby at Knowsley from Thursday,
the 26th, until Saturday, the 28th.

Lord and Lady Derby will entertain a
large house party at Knowsley Park,
Lancashire, for the Liverpool spring
races at Aintree. The guests are to
arrive on Wednesday, March 25th, and
the party will separate on Saturday,
the 28th.

Lord Frederick Blackwood's engage-
ment is announced to Miss Wood-
house. He is a very clever man. He
is in the 9th Lancers, and is now
Adjutant to the Notts Imperial Yeom-
anry. Miss Woodhouse is the only
daughter of Mr. and Mrs. Robert
Woodhouse. Lord Frederick won his
B.S.I. in South Africa, where he was
severely wounded. His eldest brother,
Lord Ava, was it will be well remem-
bered, killed in the defence of Lady-
smith. Lord Basil, the brother next
in age to the present Marquis of Duf-
ferin and Ava, is Colonial Secretary
at Barbados. His mother, the March-
ioness Dowager, has gone for a trip
in the West Indies. She is a very re-
markable woman, the possessor of
more Orders than any other English-
woman not of the Royal family. Lord
Basil, too, has inherited much of the
literary talent of the Sheridans, his
grandmother having been a sister
of the Right Hon. Brinsley Sheridan.

An English exchange says:—"Lady
Minto and Lady Violet Elliot arrived
from India recently. This is Lady
Minto's second trip home since Lord
Minto has been Viceroy of India. This
time it is for the marriage of her sec-
ond girl, Lady Ruby, with Lord
Errington, Lord Cromer's oldest son.
This may take place directly after
Easter, unless circumstances cause it
to take place earlier, for Lord Erring-
ton is private secretary to Sir Chas.
Hardinge, and there is much talk of
Sir Charles being made His Majesty's
Ambassador in Paris, which would
cause a change in plans. This is
hearsay, and there may be nothing in
it, as Sir Charles was appointed per-
manent Under Secretary of State for
Foreign Affairs only last year. Lady
Minto has brought her youngest
daughter, Lady Violet, with her, and
will present her at a Court in May.
Before leaving Calcutta, this lovely
young lady distinguished herself by
winning the Ladies' Cup at the paper-
chase. She rode a horse she had not
seen until the previous day and which
had never before been ridden by a
lady. The win was acclaimed with
tremendous enthusiasm, for Lady Vi-
olet is a great favorite. Among those
most delighted to welcome Her Excel-
lency were Lord Melgund, her elder
son, who has just entered on his 18th
year, and will probably accompany
her back to India, and Master Gavin
Elliot, her second boy, who will have
his 13th birthday next month."

HAPPY OLD AGE
Most Likely to Follow Proper Eating.

As old age advances, we require less
food to replace waste, and food that
will not overtax the digestive organs,
while supplying true nourishment.

Such an ideal food is found in Grape-
Nuts, made of whole wheat and bran
by long baking and action of diastase
in the barley which changes the starch
into sugar.

The phosphates also, placed up under
the brain-coat of the wheat, are in-
cluded in Grape-Nuts, but left out of
white flour. They are necessary to the
building of brain and nerve cells.

"I have used Grape-Nuts," writes
an Iowa man, "for 8 years and feel as
good and am stronger than I was ten
years ago. I am over 74 years old and
attend to my business every day."

"Among my customers I meet a man
every day who is 92 years old and at-
tributes his good health to Grape-Nuts
and Postum which he has used for the
last 5 years. He mixes Grape-Nuts
with Postum and says they go fine
together."

"For many years before I began to
eat Grape-Nuts, I could not say that I
enjoyed my life or knew what it was to
be able to say 'I am well.' I suffered
greatly with constipation, now my
habits are as regular as ever in my
life."

"Whenever I make extra effort I
depend on Grape-Nuts food and it just
fills the bill. I can think and write a
great deal easier."

"There's a Reason." Name given by
Postum Co., Battle Creek, Mich. Read
"The Road to Wellville," in pkgs.
