NO MORE WARSHIPS FOR CUBAN WATERS

Washington Authorities Satisfied That Show of Force Will Be Effective.

Washington, June 11.—The absence of any fresh outbreaks in Havana has encouraged the State Department in the belief that the measures already taken to show the purpose of the Unitd States Government to maintain order in Cuba have been sufficient.

It has been decided that there shall be no additions to the naval force now in Cuban waters, unless unexpected developments make them necessary.

All Quiet in Havana To-day.

Havana, June 11.—Absolute quiet prevails in Havana to-day, and no news of any disturbances in the vicinity of the capital has come to hand.

The government declares that no dispatches have reached it containing news from the province of Oriente.

A WORLD-WIDE CHURCH UNION NOW PROPOSED

American Episcopal Delegates to Seek Union With Mother Church as Preliminary.

New York, June 11.—As a first move toward lining up the Old World in an effort to unite every Christian communion into one body, the Rev. Dr. William T. Manning, rector of Trinity, and three of the most prominent bishops of the Episcopal church, will leave on board the Mauretania to-day for England for a conference with the Archbishops and Bishops of the Church of England looking toward a union between the mother church in England and her "daughter" in this country, as an initial step in merging all the churches.

The bishops are Charles P. Anderson of Chicago, chairman of the commission on a world conference on "Faith and Order," appointed by the last General Conference of the Episcopal church; Boyd Vincent, of Cincinnati, Ohio, chairman of the House of Bishops, and Arthur C. Hall, of Vermont. Dr. Manning is chairman of the "Plan and Scope Committee," of the committee.

These four clergymen have been sent officially to discuss church union and they will be received by the prelates of Church of England.

LONDON PAPERS ON HON. GEO. E. FOSTER.

Canadian Associated Press.

London, June 11.—Several London newspapers are splashing over on Geo. E. Foster's personality.

"A grey-bearded man, with the thoughtful blue eyes of a dreamer, the face of a philosopher and the gentle manner of the scholar," is the "Daily Express" man's poetic description.

The tariff newspaper naturally gives his fiscal views favorable notice.

TRANSPORT WORKERS NOT YET SUCCESSFUL IN NATIONAL STRIKE

Responses to Call Throughout Country Are Strictly Limited—Railway Men Not Inclined to Join, And Many Conservative Leaders Against Scheme on Ground That Trades Union Funds Have Been Heavily Depleted Recently—Government Still Striving to Effect Settlement—Ben Tillet Claims All Sorts of Success—Advocates Organization of Armed Protective Force by Strikers.

By Special Cable From Our Own Correspondent.

London, June 11.—With something like consternation Englishmen read this morning that the disastrous coal strike was to be followed by a national strike of transport workers. The order which went forth from the London caucus last night is intended to apply to 314,000 men, including the following ports:

Liverpool, 100,000; Hull, 30,000; Manchester, 10,000; Glasgow, 10,000; Swansea, 4,000; Leith, etc., 25,000; Plymouth, 1,700; Grimsby, 1,400; and Dundee, 1,000; besides many thousands at the London docks.

Obviously England's vast trade by sea and land is gravely jeopardized. The suffering already inflicted upon thousands of poor folk dependent on the earnings of the workers must become a national calamity if the strike orders are obeyed.

At the moment it looks as though because of jealously of the London labor leaders and other reasons, the strike may prove only half-hearted. The men at many provincial ports are apathetic, and in some cases even actively hostile to a general strike. Moreover, their funds are low.

At Cardiff, Swansea and Newport work is proceeding normally to-day. The dockers at Bristol and Avonmouth stopped work, but the carters have not joined the movement.

The Scottish workers are described as lukewarm. Nowhere at present does there seem enthusiasm for Ben Tillet's national campaign.

According to the Labor Press Agency, the strike leaders do not expect to see the full effects of the call for a stoppage until the end of the week. They hope, the response will be sufficiently general to cause a widespread dislocation, so as to compel the government to bring forward its promised legislation instituting compulsory arbitration. The transport masters say they are determined to do what the railway companies were anxious to do last August, when they were only defeated in their object by the direct appeal of the government in the interests of national safety. They say they will fight out the dispute for the assertion of the rights of free labor and the binding force of signed agreements.

WINDERMERE.

CABINET IN SESSION BUT NO DECISION IS YET REACCHED

Special to The Montreal Star.

London, June 11.—The Government to-day was occupied with discussing some means whereby the national strike of transport workers and allied trades can be brought to an end. The Cabinet was in session this morning, but no decision was announced.

There were several outbreaks this morning at the East India docks. Extra forces of policemen have been sent there.

The general expectation in London is that the general strike called by Transport Workers Federation will not meet with a national response. Reports received this morning from Scottish and South Wales ports stated that the men were all working. There was no walkout at Liverpool this morning, although the strike may be in force later in day, as a meeting has been called to discuss the situation.

At Bristol 7,000 workers have gone out. The employers are pinning their hope to wholesale desertions from the transpor Workers Federation. The organization has a total membership of 200,000 men, some estimates placing it at 300,000.

The object of the federation in calling a national strike is chiefly to force the Government to take measures to compel the employers of the Port of London to accept the proposals made in behalf of the strikers.

DOCKERS' UNION WILL NOT JOIN STRIKERS.

London, June 11.—The executive of the Dockers' Union, which embraces Liverpool, Hull, Scotland and Ireland, decided at a meeting held at Liverpool this afternoon not to join the transport workers' strike.

OPPOSITION TO A GENERAL STRIKE.

London, June 11.—The response to last night's call for a general strike of the transport workers of the United Kingdom has been by no means general. This causes little surprise, as the men in some centres had decided already to continue at work, and in other centres the recommendation of the London committee of the Transport Workers' Federation was received too late for action to be taken on it to-day.

Besides this, many of the more conservative leaders of the workmen are opposed to a general strike at the present moment, as the funds of the trades unions are in a state of great depletion owing to last year's dockers' strike. The recent coal strike, which threw a large proportion of transport workers out of work, also hastened the reduction of the financial strength of the unions.

The order for a general strike has not affected the Thames district very much, except that the force of police has been increased in order to protect the non-union workmen who are being taken on in ever greater numbers.

There is more free labor now in London than has been known for years, the destitution among the poorer classes, which is acute, forcing the men to seek employment.

ORDER INEFFEITIVE IN SOUTH WALES.

Despite the order of the unions in Cardiff, Swansea, and other South Wales ports, where the unions spent most of their funds during the coal strike, work is going on as usual. Similar conditions prevailed this morning at Newport, while at Bristol and Avonmouth, the dockers quit work, but the truckmen continued at their duties. Father Hopkins, who wields powerful influence in the Sailors' and Firemen's Union, which has the largest membership of any workmen's society in the Transport Federation, has appealed to the men not to strike without giving adequate notice of the termination of the agrements reached between them and their employers last year.

The membership of the Transport Workers' Federation comprises 90,000, belonging to the Sailors' and Firemen's Union, 75,000 dock, wharf, and riverside workers; 30,000 members of the London Truckmen's Union, 77,000 gas workers, 8,000 watermen and lightermen, 8,000 stevedores, 6,000 enginemen, and about 20,000 laborers, belonging to various smaller unions.

BEN TILLET WANTS STRIKERS TO ARM.

The Sailors' and Firemen's Union has decided to put to the ballot the question of joining in the transport workers' strike and the result of the voting will be announced on June 17.

Ben Tillett, the strike leader, addressing the men on Tower Hill, to-day, said the Transport Workers' Federation had received replies from most of the affiliated unions. All had either endorsed the strike or decided to take a ballot of their members. It might, he said, take a week, or even a fortnight to get all the men out, in consequence of existing agreements.

Ben Tillett argued that if it was legal for the employers to organize a civilian force armed with revolvers, it was equally justifiable for the transport workers to organize themselves in a way that would be just as legal.

RAILWAY MEN NOT LIKELY TO STRIKE.

New York, June 11.—London cable to the Tribune says:—

A national strike of transport workers has been decided upon. Over 300,000 men are affected by the order to quit work. There is grave danger of a serious dislocation of shipping throughout the country, similar to that of last year, but the leaders do not expect a general stoppage immediately.

They are looking for an early response from the Bristol channel ports, the Humber and Northeast coast, and they expect the Mersey, the Clyde, the English channel, and the Irish ports to fall into line as soon as the necessary arrangements have been made locally. In Liverpool the men are under agreement to give notice of their intention to quit work in a body. The Scottish are lukewarm and unlikely to be unanimous. In any case there will be no enthusiastic response, as there was last year.

There is little prospect, too, of any extension of the strike among railway men. The more bellicose branches of Amalgamated Society of Railway Servants passed resolutions of sympathy last night with the London Transport Workers, and have threatened that they will not handle traffic diverted from the port. A great many of the railway men, however, are not willing to go on strike until a strike in every port in the United Kingdom is certain.

The price of bread has been raised one half-penny for a four-pound loaf in London, owing to the strike.

ALL MONEY LOST BY CITY IS NOW REPAID.

Ex-Paymaster Returns $2,300, Obtained by Stuffing Pay Lists.

It was announced to-day that the defalcations of Eusebe Lecavallier, the ex-city paymaster, now reached the sum of $2,300. The accused had sent a cheque for $1,500 some time ago. Yesterday he sent another cheque for $800, which now completely covered the city's loss. The accused is awaiting trial.

GLASSES ARE BAD FOR SHIP LOOKOUTS

Captain Bartlett, of White Star Line, Makes This Declaration Before Titanic Inquiry.

USE OF SEARCHLIGHTS IS ALSO CONDEMNED

Worldwide Practice Not to Slacken Speed in Vicinity of Ice at Sea.

London, June 11. That the lookout in the crow's nest of the Titanic when she struck the iceberg was not provided with binoculars because the White Star Line officials did not think them necessary, was the substance to-day of the testimony given before the Board of Trade inquiry by Capt. Bartlett, the Line's superintendent.

Capt. Bartlett declared that he considered glasses for look-outs unnecessary; that he thought searchlights at sea would be useless; and that too many lifeboats on a liner's decks would hamper and confuse rescue work.

Capt. Bertram, commander in the service of the White Star Line, assured the Court that he never reduced speed because of wireless ice warnings unless the weather was not clear.

Captain Hayes, of the White Star Line, declared that the world-wide practice was not to slacken speed in the vicinity of ice. He continued: "You can always see ice," and added, that in the case of the Titanic abnormal circumstances had arisen which had never been experienced before.

ADMIRALTY MAN IS AGAINST SEARCHLIGHTS.

At the resumption of the inquiry, Sir Rufus Isaacs, Attorney-General, announced his intention of submitting to the Court that the wireless despatch which notified that ice had been seen in the route of the Titanic was handed to Mr. J. Bruce Ismay, in his capacity as managing director of the White Star Company, because of its seriousness.

One of the Admiralty hydrographers, Captain Francis S. Miller, was called to the witness stand, where he gave his opinion in opposition to the introduction of searchlights on liners.

TO DOUBLE-TRACK CANADIAN PACIFIC THROUGH ROCKIES

Sir Thomas Shaughnessy Announces Huge Undertaking to Cost $70,000,000.

Sir Thomas Shaughnessy admitted to-day that there is a proposal under way for the double-tracking of the main line of the Canadian Pacific between Calgary and Vancouver.

The desirability of this double track is one that is forced upon the company not only by the great growth of transcontinental traffic, but also the remarkable developments which are expected to take place as a result of the opening of the Panama Canal.

"I cannot tell you yet," said Sir Thomas, "when we will start this work, but the preliminary surveys for it are already being carried out. It is a big job, for it will cost between $60,000,000 and $70,000,000."

The C. P. R. has already begun the re-organization of its operating service in the British Columbia division. The entire operating force of District No. 2, which is the portion of the line between Kamloops and tidewater, will be removed from Vancouver to North Bend, 129 miles inland. This will enable much greater attention to be paid to a district which is probably the hardest that the company has to handle, as the road has in many localities to be patrolled every hour of the day and night, to guard against rock slides, swollen torrents, and other dangers incidental to mountain railroading. The C. P. R. hotel at North Bend will be used as the district headquarters.

Death of Captain Wm. Hy. Benyon

Deceased Was Brother-in-law of Mr. Andrew Allan—Well-known in Montreal.

By Special Cable From Our Own Correspondent.

London, June 11.—Captain William Henry Benyon, well known in Montreal, and late of the 23rd Welsh Fusiliers, died at his London residence this morning aged 70 years.

Captain Benyon married the eldest daughter of the late Mr. Andrew Allan.

WINDERMERE.

Although this message was the first intimation that he had received of his brother-in-law's death, Mr. A. A. Allan told a Star representative that, while he regretted to hear the news, he was not altogether surprised, as Captain Benjon had been paralyzed for some time past.

The late Captain Benyon married Miss Allan in 1868 and for many years resided on Sherbrooke St., near Crescent Street. He owned considerable property in Montreal at one time and was well-known in social circles. Captain Benyon took up his residence in London some seven or eight years ago.

HOME RULE BILL IN COMMITTEE STAGE AT LAST

Public and Liberal Members or Commons are Apathetic in Their Attitude.

London, July 11.—The Home Rule bill entered the committee stage in the House of Commons to-day, and the discussion is expected to last at least until August, when Parliament adjourns for vacation.

As the ultimate outcome, so far as the House of Commons is concerned, is a foregone conclusion, most of the members are apathetic, and the general public has become weary of the interminable talk in which nothing new is to be found.

The Nationalist members themselves are showing patient expectancy. Their attitude is that the less said is the soonest mended, so the full strength of the party sits silently listening, without attempting to intervene or to prolong the struggle with unnecessary speeches.

The Unionists bear the greatest bulk of the burden of debate, and have already booked amendments covering 45 pages of the Parliamentary paper.

TURKS SURRENDER ISLAND OF LEMNOS.

Special to The Montreal Star.

Rome, June 11.—The Italian war fleet, in the Aegean Sea is getting ready to occupy Lemnos, one of the biggest and most important islands in the Archipelago, according to dispatches from the Italian commander, received to-day.

The Turkish garrison capitulated upon the arrival of the Italian fleet, the massage added.

Lemnos lies about halfway between Mount Athos and the Coast of Asia Minor, and its area is about 175 square miles. The population of the island is about 40,000.

C.P.R.'S NEW DEPARTMENT.

Mr. Dennis Comes to Inaugurate Natural Resources in New Building.

Mr. J. S. Dennis, assistant to the president of the C. P. R. is expected to arrive in the city to-morrow in connection with matters of the Department of the Natural Resources, to be discussed with Sir Thomas Shaughnessy. Mr. Dennis will formally establish his Montreal office while here, in the new C. P. R. building on Windsor street, and will place in charge Mr. E. Garth White from the Calgary staff. Mr. White, who superintended the correspondence branch, reached Montreal yesterday, and previous to leaving the west he was the recipient of many congratulations on his appointment as chief clerk of the new department at Montreal. Mr. White has been in the employ of the company since 1906, and is a son of Mr. W. C. White, commissioner of lands and registrar of deeds for Prince Edward Island, where he was born.

DUCHESS IMPROVES DAILY IN HEALTH, PHYSICIAN REPORTS

H. R. H. the Governor-General and Princess Patricia Pay Informal Calls.

Her Royal Highness the Duchess of Connaught continues to make steady progress towards recovery, but as yet there is no trace of her removal from the hospital. His Royal Highness visited her this morning.

The following bulletin was issued at noon:

Her Royal Highness the Duchess of Connaught continues to make satisfactory progress. She had a very good night and is taking her nourishment well.

E. S. WORTHINGTON, M.D.

All formal engagements have been cancelled and any plans for the immediate future will depend entirely upon the health of the Duchess.

The Duke and Princess Patricia who are in excellent health have made a few private calls. Yesterday, shortly after lunch they visited Sir Thomas and Lady Shaughnessy and at about [illegible] o'clock they left Lord Strathcona's house and drove out to the Dixie Golf links in an automobile.

Asked as to the truth of the story cabled from Manchester to the effect that H. R. H. the Duke of Connaught would close his term as Governor-General of Canada at the end of the present year, Lieut.-Col. Lowther, Military Secretary, characterized it as "pure invention."

RECEIVE BIG ANCHOR FOR THE DRY DOCK.

Promised That Dock Will be Ready for Delivery in August.

Four large anchors for the new drydock which were brought out on board of the Lake Champlain from the works of Messrs. Vickers, Ltd., Company, Barrow-on-Furness, were to-day lifted by the giant crane from the wharf at Section 12, opposite the Harbor Commissioner's Offices, and placed on a freight car. Later they were taken down to Viauville, the site of the new drydock, where they will be kept pending the arrival of the dock.

Photographs taken at the yards of the celebrated Messrs. Vickers, Ltd., and received here to-day, show that the work on the drydock is progressing rapidly. Messrs. Vickers state that the contract which promised delivery for the 1st of next August will not be broken, and that the dock will leave their yards on that date. It is expected that it will take about a month to get the dock across the Atlantic, so that it ought to be safely moored in its basin at Viauville by the 1st of September.

Fredericton Has Audubon Books

Legislative Library Has Original Edition of Famous Bird Lore Volumes.

Special to The Montreal Star.

Fredericton, N.B., June 11.—The New York Herald, of recent date, contained the following cable from London:

"At Sotheby's to-day, four volumes of the original American edition of John James A. Audubon's work, "The Birds of America," with 435 fine colored plates, bound in half Russia gilt, printed in 1827-1838, went to Mr. Hornstein for twenty-seven hundred pounds."

It is stated that there are in existence at the present time twelve volumes of this valuable work, namely, the four purchased by Mr. Hornstein, four in the legislative library of the Province of New Brunswick, and four unaccounted for. The books in the library here have always been well preserved and protected, and are considered among the library's most valuable assets.

It is said that the Province was offered, some time ago, the sum of fifteen thousand dollars for the volumes.

EFFORT TO LESSEN DIVORCE IN STATES

Methodist Clergy in Chicago Will Demand Ten Days to Examine Records of Divorcees.

Chicago, June 11.—Methodist preachers of Chicago have agreed that hereafter they will not marry divorced persons who refuse to grant ten days for the examination of the records. These preachers believe that this precaution will tend to lessen the number of divorces.

This was decided on yesterday after the Rev. Francis Marion Moody of San Francisco, field secretary of the California State Commission of Marriage and Divorce, had told the meeting that 100,000 divorces have been granted in the United States in the past year, this being seven times as many as were granted in Europe. Divorces since 1870 has increased three and a half times as rapid as the population, said Mr. Moody.

Summer Excursion Routes.

An interesting booklet for holiday makers has just been issued by the Hudson River Day Line, of Albany, N. Y., entitled "Summer Excursion Routes and Catskill Mountain Resorts." This book, which will be sent to any address from the Company's offices in Albany, on the receipt of two cents in stamps, is a charming illustrated account of the many scenic and historic places along the Hudson River reached by the Company's boats. It also gives details of numerous excursions in the second section, maps, pictures, and descriptions are given of summer resorts in the Catskills, with instructions how to get to them, and a list of the prices charged by the hotels and boarding houses.

MASCOT FOR CAPTAIN OF RESCUE SHIP

The Cunard Steamship Company has declined to accept any remuneration for the salvage of the passengers of the Titanic by the Carpathia.

The White Star Company has presented $1,000 to Captain Arthur H. Rostron of the steamer Carpathia, and $250 each to the surgeon, purser and chief steward. The rest of the members of the crew of the Carpathia receive a month's pay.

Captain Rostron was made the recipient of a gift from members of the Winter Garden Company just before his steamer left New York. Two pretty members of the company proceeded to the dock and presented the commander with "Captain," a pure black cat which now occupies luxurious quarters on board.

THE SOCIAL WORLD

McCuaig—McMillan.

At the home of Mr. and Mrs. D. A. McMillan, Kirk Hill, Ont., last week, Mr. McMillan's sister, Miss Henrietta McMillan, was married to Rev. D. A. McCuaig, of Laggan, Ont. The ceremony was performed by the Rev. Allan Morrison. The bride, who was unattended, was given away by her brother, Mr. D. F. McMillan, of Alexandria, Ont. She wore a gown of Duchesse satin, and a long tulle veil caught with a wreath of orange blossoms. She carried a bouquet of bridal roses and maiden hair fern, and her only ornament was a pearl necklace, the gift of the bridegroom. Following the ceremony, there was a reception and dinner was served. Later Mr. and Mrs. McCuaig left for a short trip to Montreal, the bride travelling in a blue suit of chiffon broadcloth with a black hat trimmed with white willow plumes. They will reside at "The Manse," North Gower, Ont.

Engagements Announced.

The engagement is announced of Miss Winifred Mary Howland, second daughter of Mrs. Howland, London, England, and the late William H. Howland, of Queen's Park, Toronto, to Mr. Henry Percival Biggar, representative in Europe of the Dominion Archives, youngest son of the late James Lyons Biggar, M.P., for East Northumberland.

The engagement is announced in Toronto of Mrs. Edith H. Heward, daughter of the late John O. Heward and of Mrs. Heward to Mr. T. Hayes-Sheen, youngest son of the late Thos. Hayes-Sheen, J.P., and of Mrs. Hayes-Sheen of Zig Zag Hall, Cheshire, and of 16 Stanhope Gardens, London, England.

Approaching Marriages.

Mr. and Mrs. C. C. Chapman, 23 Rutland Court, S. W., have issued invitations to the marriage of their daughter, Dorothy Borradaile, to Mr. Roswell Christopher Colt, at St. Paul's Church, Knightsbridge, London, S.W., on Thursday, June 27th, at half-past two o'clock, with a reception afterwards at Hyde Park Hotel.

The marriage of Miss Lizzie Horne Russell, only daughter of Mr. and Mrs. F. Horne Russell, to the Rev. A. J. Mackenzie, of Brandon, Man., takes place this afternoon at five o'clock in Emmanuel Church.

The marriage of Miss Grace Oram to Mr. Hugh Mckay McLean will take place at the home of Mr. and Mrs. J. F. Oram, Westmount, to-morrow.

Personal Mention.

Count de Lesseps and the Countess De Lesseps, of Paris, with their young son, arrived in Toronto to-day and are staying at [illegible], the residence of Sir William McKenzie, father of the Countess.

Misses Ethel and Doris Bailey, who have spent a year with their aunt, Mrs. Fred. E. Osgood, at Cookshire, have been in town for a few days, en route to their home in Wetaskiwin, Alberta.

Mrs. E. S. McMillan and daughter, of Elizabeth, N.J., who have been visiting friends in Montreal, have gone to spend the summer in Plattsburg and the Adirondacks.

Sir Thomas and Lady Shaughnessy, with the Misses Shaughnessy, leave next week for their summer residence "Fort Tipperary," St. Andrews-by-the-Sea.

Mrs. Fenwick Williams who left last month for Europe has joined her sister, Mrs. [illegible] Fenwick in London. They intend returning home in August.

LA BELLE OTERO IN GRAND OPERA

Famous Spanish Dancer Has Decided to Make Her Debut as Singer in Carmen.

Special to The Montreal Star.

Paris, June 11.—"La Belle Otero," the famous Spanish dancer, whose physical graces have been celebrated on two continents for twenty-five years, has discovered that she has a voice. Not only this, but she has announced that she will appear in grand opera. She is to make her debut as "Carmen" on June 19, at the Theatre Des Varieties.

Those who have heard Otero sing within the last few months do not hesitate to attribute greatness to her work. She has been studying with Fougere for months, and now is prepared for her debut at a grand galla performance, with Selignac as tenor.

Snow Flurry At Chicoutimi

Special to The Montreal Star.

Quebec, June 11.—Reports from Chicoutimi are to the effect that a snow flurry of about an hour's duration passed over that district yesterday. There were also light falls of snow along the line between Lake Edward and Chicoutimi. There were heavy frosts in that region all last week.

In many places the crop outlook is unusually serious, and seeding has been considerably delayed.

Baby Show in England Attracts Society Ladies.

Babies of many nations met at the London Olympic. Babies from every part of the globe were assembled under the auspices of the Virol Company. They represented forty different races. They were in charge of a staff of trained nurses under the superintendence of a medical man. The general pronouncement was that no finer babies were ever seen than the Virol youngsters.

The show was opened by Princess Alexander of Teck, and amongst those who paid special visits to the babies were Princess Beatrice, Princess Victoria of Battenburg, Princess Victoria of Schleswig-Holstein, Princess Christian, Princess Alexander of Teck, Prince Henry of the Netherlands.

ORPHEUM PLAYERS HAVE STRONG PLAY FOR THIS WEEK

Miss Kemble Maintains Good Standard in "The Dawn of To-morrow."

Although Americanized Cockneys are some of the most prominent characters in "The Dawn of a To-Morrow," presented last night at the Orpheum, may be this fact does not tend to detract from the intense human interest which makes the "Dawn of a To-Morrow" a play of a greater strength than the ordinary production. It is true that in the second and third acts—by far the ones of greatest interest—the East Side of London, which is represented, acquires a very "Americanized Cockney" language, but the redeeming feature is that the public is for the greater part loath to notice that this is so. The public is not sufficiently "Cockney" to realize this fact.

The strong current of pathos and interest which runs through the play, and the thread of the strong story of the play winds itself around the hearts of spectators, and any defects are not, for the greater part, noticeable.

The little philosopher of the Optimist's teaching, "Glad," the girl of the slums of London, who can laugh at her sorrows and teach a man of prominence that there is a "To-Morrow," is the central character in the play. About her evolves, practically, the whole plot. The slums—Apple Blossom Court—a grim dirty side street in the East End of the great metropolis, is, it must be confessed, greatly refined. This fact has been a subject of criticism, but it may well be said that if the slums were presented without undergoing any "stage refining" there would be dealings with critical authorities.

Miss Lillian Kemble, who acts the part of "Glad," shows that she properly interprets her part. From the time of her appearance in the second act to the time when the curtain falls at the conclusion of the play, Miss Kemble keeps up her high standard of acting. Other players are good. Mr. Charles Mackay as "The Dandy," has not much chance to prove himself, but what he does is well done.

The best male character seems to be that represented by Mr. William Webb, who appears as Sir Oliver Holt. Mr. Webb has a difficult part to play, but he does his work in very creditable style. The characters are all well studied by those who represent them, and the play, on the whole, is a very enjoyable one.

DRAMATIC CONFUSION AND MUCH EXCITEMENT

"A House of a Thousand Candles" is a Novel Play.

A dramatic confusion, full of excitement is the offering at the Francais this week. "House of A Thousand Candles" has been in Montreal before, in book form only, and it was a novel pulsating with events and something happening all the time. It is now produced for the first time here as a drama, and it was full of things that pull forth applause from those who went there to applaud.

An eccentric old party builds a house full of secret passages and traps and sliding panels as Hanlon's Superba. Then he makes a freak will which compels the heir to live in the house with a thousand candles or lose the fortune. There is a lady, too, whom he must marry or take the consequences. Then the old man dies and the will comes into effect, but he only dies in a Pickwickian sense, and by means of his numerous places of concealment and rapid ways of getting around inside of walls and through fire-places, instead of through the visible rooms and hallways, he keeps tabs on his heirs, and gets cold meat out of the pantry in the witching hour of night.

The thousand candles are distributed evenly throughout the house, but only six hundred and forty-two are on the stage at any one time. They are principally used for the inmates of the house to light and extinguish whenever there is nothing else going on. There is thunder and lightning in the busiest scene, when villains stalk and graveyards yawn. As there are no windows in the house, the lightning flashes through cracks in the scenery. When the graveyards have finished yawning some of those previously dead are conveniently alive again in time to circumvent wicked designs on those who are bad for no particular reason except that they like to be that way.

The company went into the thing as if they enjoyed it as much as the audience. Three new members appeared, Miss Sylvia Starr, and Messrs. Stuart Fox and Cecil J. Bowser. Their work indicates that they will become popular players with the Francais audiences.

Dalhousie Fund Reaches $400,000.

Halifax, N.S., June 11.—The campaign to raise $400,000 for Dalhousie University, of which Halifax citizens were asked to subscribe $200,000, closed last night. It was found that Halifax had given $195,000, and places outside this city also $195,000, making a total to date of $390,000.

The meeting of one hundred workers agreed to make the total aimed at $500,000, and steps will be taken to secure this amount without delay in this Province and elsewhere in Canada.

C. P. R. Train Service—Toronto, Ottawa, Quebec.

The quick day train to Toronto leaves at 9.05, going to the Union Station. The night trains leave at 10.00 and 11.15—the famed compartment cars on the latter to North Toronto, being the only train from Montreal to Toronto that carries this high-class equipment.

THOUSAND MORE AT CIRCUS THAN TENT WOULD HOLD

Ringling's Big Show Provides Delight Though Some Features are Missing.

Judging from the crowds who poured into the mammoth tents of Ringling Bros. circus yesterday afternoon and evening, the delights of the sawdust ring, the thrills of the aerial performers and even the efforts of the clowns to amuse have not yet begun to pall. Despite the threatening weather a crowd of monster proportions was accommodated at both performances and in the evening fully a thousand people were turned away.

Perhaps the best feature lies in a very completely equipped menagerie, which contains several animals that one does not find even in the best Zoos. Noticeably interesting to most of the visitors are a herd of about thirty elephants and two very fine specimens of the gorilla. The freaks are not quite so extraordinary as usual. Some of the old pet monstrosities seem to have died out and their place is hard to fill, still the side-show tent did a fairly thriving business before and after the performance.

To borrow the eloquent phraseology of the programme, the "big show" consists of a Potpourri of Phenomenal Performances in three rings and two stages, while the roof of the enormous tent is strung in every direction with ropes, wires, trapezes etc., all the paraphernalia that furnish these thrills so dear to the hearts of children and to most grown-ups as well. The effect is all a little bewildering. Scarcely is one's gaze comfortably arrested by something sufficiently exciting that is going on right before you, when suddenly the attention is diverted to another wonderful feat at the other end of the tent and so on, until the result is, to suggest another adjective to the programme-Author, positively "vertiginous."

The introductory spectacle depicts in Pageant form the story of Joan of Arc. Considering the difficulties and limitations of the stage, the general effect was very well carried out, especially the march past, with the Maid of Orleans riding at the head of her forces. The Archbishop was a little acrobatic in his performances and one could very well imagine that his alb and chasuble concealed more active limbs than those generally associated with ecclesiastical dignitaries. The ballet of 65 dancers carried out their evolutions with considerable grace and agility, presenting as the author again sapiently remarks: "a scene of grandeur and exciting revelry."

The actual ring performances are all very good in their kind, especially some of the riding events with which the show comes to an end. Aerial acts, acrobats, human gyroscopes, equilibrists, equine, seal and elephant trainers all succeed each other in bewildering confusion. They all work hard and they certainly deserve the hearty applause that rewards their efforts.

Alas, however, a good deal of the old familiar clown has disappeared and given place to another style of buffoonery. Still it is all very amusing and to quote the words of the author once more: "the Sourest Cynic feels as though his ribs had been tickled with the funny-bone of a Mastodon."

MISFIT ARMY IS THE SOHMER PARK FEATURE.

Miss Gertrude Fisk's Singing and Gliger's Violin Playing Other Good Items.

There is any amount of variety at Sohmer Park this week and the bill is in keeping with the usual good programme. The George B. Reno Company have an act that is quite new. It is called "The Misfit Army" and it gives all five performers many opportunities for funmaking. The midget of the company is very funny. "Sunny Italy's Streets in Canada," is a violin offering of Gliger; he is a clever musician. Acrobatic and equilibristic features are introduced by Chapman and Berube much of which is new to the stage. Gertrude Fisk sustains all the good things that were said of her before she came, she is an excellent singer and was given many deserved encores last evening. Chick and Chicklets, with their funny bicycle act renewed old acquaintances. Professor Goulet's band has a programme of merit. Special attractions are promised for to-morrow and Friday nights.

AT THE LYRIC HALL.

A large crowd turned out last night to see the Lyric show which is unusually good this week.

A musical sketch is presented by Aldrich Libbey and Katharine Trayer, which gives ample scope for Mr. Libbey to show his excellent baritone voice.

The pictures this week are good.

Montreal Board of Trade Excursion.

The Board of Trade to Seven Islands, leaving Montreal on the new steamer "Saguenay" on June 20th, is proving a very popular one, and the list is rapidly filling up. The trip is timed to leave Montreal on Thursday night, reaching Montreal again early Monday morning, so as to take as little time from business as possible. This will give Montreal Business Men an unusual opportunity of seeing the development along the north shore of the lower St. Lawrence, and the steamer selected crossed the Atlantic last year under her own steam, so that she is absolutely seaworthy and well suited for a voyage to the Gulf.

CRITICS EXPLAIN THEIR ATTITUDE TO CONTROLLERS

Hold to Free Expression of Opinion, But Deny They are Obstructionists.

Several aldermen explained their attitude towards the Board of Control during yesterday's meeting of the City Council, all asserting an incontestable right to criticize when necessary. In answer to this Controller Lachapelle said that while he recognized the right to criticize, he had found that certain aldermen were obstructionists who disturbed the civic business by delaying reports in the Council.

"I am with the Controllers," said Ald. Blumenthal, "but I want to have my freedom. If there are reports I do not approve I want to have the right to vote against them. In this there is nothing wrong. In my opinion it is no disgrace that there should be a healthy opposition here, as there is in other governing bodies. I again say that I favor the Board of Control, but at the same time I want the right of using my own judgment."

Ald. Macdonald said he had been much aggrieved by certain sections of the press dubbing him an obstructionist because he had not approved of certain reports of the Controllers. He certainly was not an obstructionist, and he had a most warm liking for the Board of Control.

Ald. Martin Finds Fault.

Ald. Martin found fault with Controller Lachapelle because he had stated in the Star that he would retire at the end of his term on account of the unending opposition the Controllers were receiving from a section of the Council. He (Ald. Martin) did not think that any member of Council was giving the Board of Control unnecessary trouble. It was only right that if members of Council did not approve of certain reports they should make the fact known.

In reply to all these complaints Dr. Lachapelle said there was not the slightest doubt, but that Ald. Martin was bitterly opposed to the Board of Control, as he had stated, at the last elections, that he would fight for the destruction of the Controllers. "The Controllers do not mind criticism, but what they do mind is tactics that block the entire business and result in delaying public works."

The question was now taken up of the elevation of the Grand Trunk tracks. Ald. L. A. Lapointe and others strongly opposed the request of the G.T.R. (as was explained in the Star last night), that the city should foot half of any incidental expenses or damages that might arise in the elevation of the tracks.

After discussion it was decided that the whole matter should be referred to the Controllers for study and report.

A report was referred back to the Controllers asking that the city should acquire over a million feet of land for the construction of the boulevard from Montreal to Lachine. Council wanted some idea of the total cost of the project.

C. P. R. TRAIN SERVICE—TORONTO OTTAWA, QUEBEC.

The summer service is meeting with great popularity.

The quick day train to Union Station, Toronto, at 9.05 a.m. was evidently desired on account of the patronage it is receiving, while the night trains at 10.00 and 11.15, the latter going to Yonge street station, North Toronto, and carrying in addition to the electric lighted sleeping cars, the famed compartment cars, the only train from Montreal to Toronto that carries such equipment, is evidently leaving at a more suitable hour than formerly, when it went out at 10.45.

The additional and improved service to Ottawa to take care of the ever increasing business has shown very encouraging results. The quick train now leaving at 9.15 a.m., and making the run in half an hour less time than the train formerly did, is from its patronage an example of the interest taken by the public in satisfactory service. The other trains on week days are at 7.50 a.m., 10.10 a.m., 4.00 p.m., 9.50 p.m., and 10.30 p.m.

The new train to Quebec at 5.00 p.m. daily, and on which there are parlor and dining cars, has established its reputation since the inception of the service a week ago.

ROYALS HIT THE PILL, BUT ERRORS PROVED VERY COSTLY AND HUSTLERS WON AGAIN

Ganzel's Pets Got Away With the First Game This Afternoon by a Score of 5 to —Connolly Got Two Hits in This Session—Royals Gathered Ten Hits, But Made Four Errors.

Special to The Montreal Star.

Rochester, N. Y., June 11.—Montreal and Rochester enter upon a double header this afternoon in which the Royals have an opportunity to offset the advantage obtained yesterday by the Hustlers in the first game of the series. To date, Rochester has proved a stumbling block to Manager Lush's pennant hopes. In the recent series in Montreal, the Champions took the long end of the argument by three games to one, while yesterday's victory gave them decidedly the better of the Inter-city games. The one game Montreal did win was a shut-out. Albert Mattern, formerly of Boston, and a Rochester boy who pitched a few games for Rochester years ago when Al Buckenberger was manager here, was the twirler to turn the trick.

Manager Lush's selection for the first game was pitcher Akers and catcher Pierce. Ganzel's battery choice was Hughes and Jacklitsch. Both line-ups were the same as yesterday, except for the batteries. Umpires Nallin and Kelly. Attendance 1500.

Lush changed the batting order after giving it out. Purtell batting ahead of Keliher, instead of after him.

Montreal—Demmit lf; Yeager, 3g; Connolly, rf; Cunningham, 2b; Russell, cf; Keliher, 1b; Purtell, ss; Pierce, c; Akers p.

Rochester—McMillan, ss; Dolan, 3b; Conroy, lf; Lelivelt, rf; Osborne, cf; Johnson, 2b; Ward 1b; Jacklitsch, c; Hughes.

Umpires Kelly and Nallin.

First Inning.

Montreal—Demmitt opened the game with a double to the left field fence and went to third on Yeagers out, McMillan to Ward. He scored on Connolly's sacrifice fly to Lelivelt. Cunningham struck out. One run, one hit, no errors.

Rochester—McMillan fouled to Demmitt. Dolan hit to Cunningham who made a fine stop back of second and then threw the ball over Kelliher's head, Dolan taking second. Hit an error. Conroy singled to centre, scoring Dolan. Conroy advanced on a wild pitch, Lelivelt struck out. Osborn out, Cunningham to Keliher. One run, 2 hits, 1 error.

Second Inning.

Montreal—Russel flew to Lelivelt. Kelliher hit safely between Johnson and Ward. Purtell fanned. On a hit and run play, Keliher went to third on Pierce's single to right, but Akers struck out. No runs, 2 hits, no errors.

Rochester—Johnson out, Yeager to Keliher, Ward out to Connolly. Jacklitsch out to Keliher, unassisted. No runs, no hits, no errors.

Third Inning.

Montreal.—Demmitt fouled out to Jacklitsch and Dolan hung onto Yeager's line drive. Connolly beat out a bunt toward first and stole second, but Cunningham ended the inning with a grounder to Johnson and was thrown out at first. No runs, one hit, no errors.

Rochester—Hughes was safe when Keliher dropped Yeager's throw. McMillan forced him at second. Akers to Purtell. Dolan hit to left and McMillan reached third, while Dolan went to second on the throw-in from the outfield. Conroy's single to centre scored McMillan and Dolan, Conroy reached second on the same play, when the ball was booted by Cunningham on the return from the outfield, Lelivelt was out, Keliher unassisted and Osborn grounded to Cunningham for an out at first. Two runs, two hits, two errors.

Fourth Inning.

Montreal—Russell was hit by a pitched ball and Keliher walked. Purtell fouled out to Dolan. McMillan went back of second to get Pierce's fly and Akers was out, Hughes to Ward. No runs, no hits, no errors.

Rochester—Johnson. fanned. Ward out, Purtell to Keliher. Jacklitsch out same way. No runs, no hits, no errors.

Fifth Inning.

Montreal—Demmitt hit to centre for one base and was out stealing, Jacklitsch to McMillan. Yeager flied to Conroy. Connolly hit sharply over short for one sack. He was out stealing, Jacklitsch to McMillan. No runs two hits, no errors.

Rochester—Hughes out, Purtell to Kelihar. McMillan out on a fly to Yeager. Dolan out Keliher unassisted. No runs, no hits, no errors.

Sixth Inning.

Montreal—Cunningham drew a pass. Russell fanned and Jacklitsch threw Cunningham out while he was stealing. Johnson taking the throw. Purtell hit to left and stole second. He reached third on Hughes' low throw to second to catch him off the bag. Keliher hit to centre but did not touch first base and was thrown out. Osborn to Johnson to Ward. No runs, one hit, no errors.

Rochester—Conroy hit a home run over the left field fence. Lelivelt out, Yeager, to Keliher. Osborne singled and went to third on Johnson's hit to centre. Ward's sacrifice fly to Connolly scored Osborn and Yeager throw, Jacklitsch out at first. Two runs, 3 hits, no errors.

Seventh Inning.

Montreal—Pierce and Akers fanned, and Demmitt popped to McMillan. No runs, no hits, no errors.

Rochester—Hughes fanned and McMillan tripled to left field. Dolan out. Yeager to Keliher. Conroy drew four balls and stole second. Lelivelt out, Cunningham to Keliher. No runs, one hit, no errors.

Eighth Inning.

Montreal—Yeager fanned. Connolly drew four balls. Cunningham struck out, and Russell walked. Purtell out to McMillan. No runs, no hits, no errors.

Rochester—Osborn out, Purtell to Keliher. Johnson walked, stole second and went to third on Pierce's poor throw to second. Ward struck out, Jacklitsch out, Yeager to Keliher. No runs, no hits, one error.

Ninth Inning.

Montreal—Keliher out to McMillan. Roth batting for Pierce, went out to McMillan. Smith batting for Akers singled to centre. Demmitt tripled to left, scoring Smith. Yeager singled to right scoring Demmitt, Connolly ended the game with a fly to Osborn. Two runs, three hits, no errors.

Second Inning.

Montreal—Cunningham out, McMillan to Ward. Russell out, Johnson to Ward. Kelliher walked. Purtell flied to Dolan on a queer play. It was a fly over the pitcher's box and three men went after it, it went through Jones' glove and struck Ward's glove, being deflected to Dolan, who caught it with one hand. No runs, no hits, no errors.

Rochester—Lelivelt walked, but Osborn hit into a double play, Yeager to Purtell to Kelliher. Johnson out, Cunningham to Kelliher. No runs, no hits, no errors.

Third Inning.

Montreal—Murphy struck out, and Mattern flied to Ward. Demmitt doubled down the first-base line, but was stranded when Yeager grounded to short. No runs, one hit, no errors.

Rochester—Ward fanned. Blair skied to Russell, and Jones singled down the third base line. McMillan forced Jones at second, Yeager to Cunningham. No runs, one hit, no errors.

Fourth Inning.

Montreal—Connolly was robbed of a triple by Osborn in deep centre and McMillan threw Cunningham out at first. Russell hit a home run on fair grounds to rightfield. Kelliher out to McMillan. One run, one hit, no errors.

Rochester—Dolan out to Cunningham. Conroy singled to left. Lelivelt singled to centre and Conroy was out, Russell to Yeager, trying to make third. Lelivelt reached second on the play. Batch batted for Osborn and was passed. Johnson forced Batch at second, Cunningham unassisted. No runs, two hits, no errors.

Fifth Inning.

Montreal—Batch playing centre for Rochester. Purtell hit through the infield. Murphy bunted to Jones, who made a poor throw to second and all hands were safe. Mattern sacrificed, Jones to Ward, advancing both runners. Jones passed Demmitt intentionally, filling the bases. Yeager hit to Ward and Purtell was forced at the plate. Connolly was out to Conroy. No runs, one hit, one error.

Rochester—Ward singled to centre. Murphy tried to catch him off first and threw over Keliher's head, Ward going to third. Blair singled, scoring Ward. Jones forced Blair, Cunningham to Purtell. McMillan hit into a double play, Yeager to Cunningham to Keliher. One run, two hits, one error.

Sixth Inning.

Montreal—Cunningham beat out an infield hit. Russell tried to sacrifice but popped a little fly to Jones. Keliher singled to right, sending Cunningham to third. Keliher stole second. Purtell hit to Johnson and Cunningham was run down by Blair and Dolan. Murphy fouled to Blair. No run, two hits, no errors.

Rochester—Dolan doubled to left field and went to third on a wild pitch. Conroy's sacrifice fly to Russell scored him. Lelivelt out, Purtell to Keliher. Batch out to Keliher fly ball. One run, one hit, no errors.

Seventh Innning.

Montreal — Mattern safe on Johnsn's error. Demmitt doubled to centre, sending Mattern to third. Yeaga's sacrifice fly to right scored Mattern and sent Demmitt to third. Connolly also was out to Lelivelt and Demmitt scored, Lelivelt has a bad arm and didn't make the play on either runers. Cunningham walked, but Russell skied to Lelivelt. Two runs, one hit, one error.

Rochester — Johnson out, Purtell to Keliher. Ward singled to left. Blair hit into a double play, Purtell to Cunningham to Kelliher. No runs, one hit, no errors.

Eighth Inning.

Montreal—Keliher out, Jones to Ward. Purtell out, McMillan to Ward. Murphy out to Conroy. No runs, no hits, no errors.

Rochester—Jacklitsch bats for Jones. Singled to center. McMillan tried to sacrifice but Mattern made a poor throw to Purtell, and all hands were safe. Dolan out on a pop fly to Mattern, trying to sacrifice. Conroy walked. Lelivelt hit to Keliher and Jacklitsch was forced at the plat. Batch out, Yeager to Keliher. No runs, one hit, one error.

HAMILTON HAS BIG DERBY FIELD

Heresy and Amberite are in the List—Track Reported in Good Shape.

Special to the Montreal Star.

Hamilton, Ont., June 11.—The Hamilton Jockey Club when its Spring meeting begins next Saturday will have one of the most up-to-date racing plants in the country. A new grand stand, built of iron and concrete, with a seating capacity of 3,000 and a cosy clubhouse have been built since the fall meeting.

The Derby field will be a large one, including Heresy and Amberite respectively, the winner and second horse in the King's Plate. Heresy's admirers are figuring on the Dyment colt beating the American cracks entered, but whatever the result may be, the race is certain to furnish a splendid contest. Nearly all the candidates are now quartered at the track, and all are ready for the bugle to sound. Secretary Louden has had a difficult task to find stabling room for the hundreds of horses that will sport silk here during the meeting.

THE FERMOR COLT WINS AT LEWES

Haggin's Chestnut Colt Takes Maiden Race—Harmenicon Wins Landport Plate.

London June 11.—J. B. Haggin's chesnut colt Fermor, by Watercress-Florence Greckenridge, won the maiden selling plate of 100 sovereigns for 3 years and upwards, over a mile course at the Lewes June meeting to-day. Ten horses competed.

The second horse to finish was the brown gelding Lancastrian, by John O'Gaunt-Lady Cynosure. Isabelita, a filly, was third.

The Landport maiden two-year-old plate of 100 sovereigns for two-year-olds, five furlongs, was won by H. P. Whitney's Harmonicon. H. S. Gray's Disgraceful was second. Corso, owned by Leopold DeRothschild, was third. Twenty-four horses competed.

HENRY SEYBOLD IS FREE

Crown Objects When Defence Seeks to Call Him as Witness for Brother.

"The Crown has no further evidence to offer, and I respectfully submit that Henry Seybold should be discharged," said Crown Prosecutor Walsh in the King's Bench this afternoon.

Seybold and his brother Fred were on trial for the murder of Margaret McCallum. When the evidence for the crown was all in, Mr. Walsh declared that he was satisfied that there was no case against the elder of the two brothers and His Lordship, Mr. Justice Gervais gave the man his freedom.

The defence then called him as a witness to testify in favor of his brother, as to what took place on the fatal night. Mr. Walsh objected, on the ground that Henry Seybold, having figured as a principal with his brother, in the original indictment, could not now be called as witness for the defence, despite the fact that there was no evidence against him.

Messrs. Crankshaw and Calder produced authorities to show that Seybold could be called and the argument is in progress.

RUBENSTEIN WINS CHAMPIONSHIP

Russian Gained Thirteen Victories in Tourney—Marshall Tied for Second.

Special to The Montreal Star.

Budapest, June 11.—The international chess masters championship has been captured by A. K. Rubinstein, Russia's champion, who by his thirteen victories and two defeats in the tournament here is sure of first place, even should he lose both games remaining to be played.

Marshall, the American, is tied with Duras, of Prague, for second place. Marshall has yet to meet Rubinstein and Spielmann.

TROUBLES OF THE RURAL POSTMASTERS SET FORTH.

Toronto, June 11.—H. E. Proctor, of Aurora, secretary of the Ontario Postmasters' Association, in his report read at the annual meeting of the association this morning, set forth the grievances of the rural postmasters. To ameloribte their troubles, in his opinion it was necessary to increase their Commission on stamps as well as to advance salaries.

ODD SCENE ON CHAMP DE MARS

Fleeing Prisoner Pulls Coat Over Head to Ward Off Bullets.

A dozen revolver shots fired in rapid succession, just outside the Court House shortly before four o'clock this afternoon, brought the sessions in the different courts to a somewhat sudden termination, and collected a crowd that it was necessary to call the reserves from headquarters to disperse.

The trouble started when Arthur Giroux, alias Joseph Tessier, alias Arther Lavigne, who was being conveyed from the cells to the prison van, slipped his hand out of the handcuffs, with which he was manacled to another prisoner, and made a break for liberty across the Champ de Mars.

Giroux had a fair start before Detective Giroux, Sergt. Hanna and Deputy High Constable Cyr realized he had gone. They darted after him, however, and when he did not stop when the officers called "halt," Cyr and Grattan drew their revolvers and fired in the air.

The only attention Giroux paid to the shots was to throw his coat over his head and run all the faster. The coat, however, interfered with his sight and when he struck the steps leading down to Craig street he failed to notice them and went head first to the bottom. When he got to the corner of Cadieux and Vitre, he struck another obstruction in the shape of a crowd of onlookers which he ran into, and the officers were on him before he got away again.

Worked Sympathy Plea.

When Sergt. Hanna was preparing his prisoner for the journey to the jail, Giroux who had both his wrists wrapped in bandages, declared that he had blood poisoning and asked that the manacles be left loose. Hanna consented and the chase through the streets followed.

While the police were running after Giroux no one was paying the slightest attention to the man to whom he had been chained, and who was devoting his time to an effort to borrow a cigarette from someone in the crowd when Jailer Jobin identified him, as one of his boarders, and shoved him back into the van.

BRIDGE ACROSS SEYMOUR NARROWS IS DISCUSSED

Special to The Montreal Star

Ottawa, June 11.—Urging the construction by the Dominion Government of a bridge connecting Vancouver Island and the mainland across Seymour Narrows, a British Columbia delegation had an interview to-day with the Prime Minister and some of his colleagues. Mr. F. H. Sheppard, M.P., was at the head.

The bridge, which would be the largest in the world, would cost at least twenty millions and the idea is that the Government should build it and charge rental to the railways using it.

The Premier referred to the magnitude and great importance of the project, but made no promise.

AUTOMOBILE SMASHED IN TELEPHONE POLE.

A 65-horse power automobile belonging to Mrs. R. H. Clark, 4101 Sherbrooke St. W., in turning from Fort into Dorchester, skidded on the recently watered asphalt and dashed into a telephone pole, just opposite Lord Strathcona's residence to-day. The glass screen was smashed and some pieces of glass struck Mrs. Clark's little daughter, who was seated beside the chauffeur, cutting her face and lip severely.

The child, whose face was covered with blood, was taken to the Western Hospital, where the doctors stated that the injuries are not serious.

Mrs. Clark, who was in the tonneau, escaped uninjured, but Miss Clark had her thumb cut, and another little daughter had her side and arm badly bruised against the side of the car.

The chauffeur's face was slightly cut, and the car, which was a new and very powerful one, was considerably damaged.

Miss Clark stated that the accident was caused by the chauffeur trying to avoid another vehicle which had left them too small a space to turn in.

THE CHINESE LEPER.

The fact that two Chinese lepers have been found in the city during the past two months resulted to-day in the Medical Health officer of the city, Dr. Laberge, calling a meeting in his office of many prominent Chinese.

His reason for this was to ascertain if there were any more suspected cases, although this was not thought possible, and to interest the Chinese in taking steps so that it might be made impossible for lepers to reach the city. The Chinese were also asked to aid the city in deporting the two cases in question.

The visitors promised that they would aid the city in every way possible.

DOCKERS HEAR THREAT TO KILL LORD DEVONPORT

Ben Tillett Says He Will Shoot Port Chairman if Soldiers Kill Strikers.

London, June 11.—The atmosphere in the vicinity of the London docks has become most heated. In the course of an inflammatory speech to the strikers this morning, Ben Tillett, the leader, made a violent attack on Lord Devonport, chairman of the port of London authority, whom he declared was responsible for the strike. He continued:

"The employers want the Government to turn out the soldiers to shoot you. I want to say that if there is any shooting I am going to take a gun and shoot Lord Devonport."

The strikers attempted to hold up a meat convoy this evening, and General Secretary Leggett of the Truckmen's Trade Union and others were arrested.

SEAMEN AT BORDEAUX WILL STRIKE TO-MORROW.

Havre, June 11.—The French Line says that it cannot assure the sailing of the liner Rochambeau for New York on June 15.

There are now 1,800 men on strike, and they have asked the crews of the yachts in the harbor to join them.

Bordeaux, France, June 11.—The seamen at this port to-day voted to go on strike.

Southampton, June 11.—The sailing of the White Star Liner Majestic to-morrow for New York via Cherbourg, has been cancelled in consequence of the dock workers' strike.

ANNUAL GYMKHANA TO AID ANIMALS.

Fine Programme Prepared for Outing at Bois Franc Lodge.

The annual gymkhana under the auspices of the Society for the Prevention of Cruelty to Animals, will be held at Bois Franc Lodge, near Cartierville, on Saturday. The committees in charge have made an extra effort to make the day's outing even more attractive than a year ago by the adding of several new features to the already lengthy programme. Many of the events which were decided a year ago, will be placed on the programme again this spring along with a number of new novelties in which the horse can be used.

There will be an open steeplechase, for which post entries will be received, thus affording the owners of hunters an opportunity of taking part in the gymkhana. The days outing will be commenced in the morning with a polo match between teams chosen from the two local clubs, the match to be played on the grounds of the Back River Polo Club. This will be followed by the annual puppy show of the Montreal Hunt, after which luncheon will be served. The afternoon's events will be commenced at 2.30, and as there will be 11 of them, they will give a good afternoon's sport.

The proceeds of this gymkhana will be used for the benefit of dumb animals in the city of Montreal.

BEULAH S. AGAIN A WINNER

With Goose Up This Horse Beat the Favorite, Nelly Agnes, Easily.

Latonia, Ky., June 11.—Chief interest in racing here yesterday afternoon centred in the fourth race, and there was terrific play on Grover Hughes, the hot and cold bird. Grover Hughes rushed away from the barrier like a wild horse and never let any one get near him pulling up by two lengths.

Robert Davies, Jr., and Clem Pierce, the former jockey, left Lexington yesterday for Toronto with eight yearlings that were bought last week from John Ed Madden.

To-day's card was of ordinary kind. The weather was clear and the track fast. Choices in the first race were: Beulah S., Silk Day and Pink Beau; second race Hawthorn, Helios, Silver Moon; third race Sureget, Ethelda, McIver; fourth race Superstition, Star Bottle, Bell Horse; fifth race Ella Bryson, Winning Widow, Elizabeth Harwood; sixth race Working Lad, Sister Florence, Colonel Cook.

FRENCH PEDESTRIAN OFF FOR SAN FRANCISCO.

J. E. Labrecque Will Walk From Quebec to the Californian Metropolis.

Quebec, June 11.—J. E. Labrecque, a French-Canadian globe trotter under contract with the London Star and the London Daily Mail, left Quebec this morning at ten o'clock on a walk to San Francisco.

He will pass through Montreal, Kingston, Toronto, Chicago and St. Paul, Minn. His contract obliges him to wed during his trip and he met yesterday the woman he wanted, Miss Chabot, of Sillery, with whom he drew up the necessary agreements last night before Notary Savard.

TAFT GAINS SIX OF KENTUCKY DELEGATES

National Committee's Action Foreshadows Gain of Ten More from District.

Chicago, June 11. — By seating the four delegates-at-large and the delegates from the first district of Kentucky, all credited to President Taft, the Republican National Committee added six votes to the temporary roll-call of the convention in favor of Taft, and foreshadowed action which would add ten more contested seats from that State to him. Only two of the seats at large were contested. In the first district the vote was 46 to nothing against the contestants.

With the districts and the delegates at large decided in the President's favor, the number of contested seats determined for him since the committee began its deliberations reaches 92.

G.T.P. AND VANCOUVER.

Work on Connecting Link Will be Started in July.

The work of connecting the Grand Trunk Pacific with Vancouver is to be pushed ahead at once. It is now announced that the Pacific Great Eastern Railway Company, which has the charter to build from the G. T. P. at Fort George down to Vancouver, has now completed the financial arrangements for the construction of the line, and that work will be started at or near North Vancouver before July 1, when one of the largest forces of men ever assembled on railway work in British Columbia will be put on the work.

CARRYING OF CEMENT.

C.P.R. Denies Car Shortage for the One Plant on its Line.

Officials of the C. P. R. deny that any shortage of cars for transportation of cement is due to that auxiliary. Only one of the many plants of the Canada Cement Company is located on the C. P. R., at Hull, P.Q., and the C. P. was in a position to supply all the cars which the Cement Company had track facilities to load daily, and it had been furnishing all that had been ordered for some time past.

Is Charged With Murder.

Sylvio Yacovoff, charged with the murder of his sister-in-law with whom he declared he was in love, pleaded not guilty in the Court of King's Bench to-day, when arraigned before Mr. Justice Gervais. It is likely that his case will be commenced to-morrow.

Panama Canal Bill Reported.

Washington, June 11. — The Senate Committee on inter-oceanic canals today favorably reported the House Bill to open, protect and operate the Panama Canal and to govern the canal zone. The bill retains the House provision exempting coastwise vessels from canal tolls, and embodies an amendment strictly regulating railroad owned vessels.

STOCKS EXTRA

CROP ESTIMATE AND INQUIRY WERE BEAR FEATURES

Special to The Montreal Star.

New York, June 11.—The Post's financial review says.

Partly, no doubt, because of the Government's grain crop estimates published just before yesterday's closings, but partly also because of the exasperating positon into which so-called "money trust inquiry" has been needlessly manoeuvred, the stock market opened with a decided show of weakness.

As it has happened on similar recent occasions, the focus of selling was in the stocks which last month were the most flagrantly manipulated, viz.—Reading and Lehigh Valley. These two stocks fell 3 3-4 and 3 7-8, respectively, in the early hours, one of them dropping half points between sales. Along with them, American Can shares, also of doubtful repute in the recent market, dropped 3 1-4. Elsewhere the losses were irregular in amount.

Naturally inactive stocks which have been subject to off-day manipulation for a rise were rather weak, but the downward tendency was general throughout list.

After the early break, the market grew relatively quiet, part of losses were recovered, and the rest of the day was made up of fractional fluctuations around the level of recovery.

It is difficult to say what part the "money trust" investigation is destined to play in the financial situation. The extremely ill-advised policy (from the viewpoint of serious and judicial investigation) thus far pursued by the committee and its counsel, has as yet created more indignation than apprehension. On the other hand, it would be difficult to deny that some of our Wall Street celebrities in the high financial field have lately done all that could be done by short-sighted bunglers to challenge unfavorable public attention.

DUCHESS IMPROVES DAILY IN HEALTH, PHYSICIAN REPORTS

H. R. H. the Governor-General and Princess Patricia Pay Informal Calls.

Her Royal Highness, the Duchess of Connaught, continues to make steady progress towards recovery, but as yet there is no talk of her removal from the hospital. His Royal Highness visited her this morning.

The following bulletin was issued at noon:—

> Her Royal Highness, the Duchess of Connaught, continues to make satisfactory progress. She had a very good night and is taking her nourishment well.
>
> E. S. WORTHINGTON, M.D.

All formal engagements have been cancelled and any plans for the immediate future will depend entirely upon the health of the Duchess.

The Duke and Princess Patricia, who are in excellent health, have made a few private calls. Yesterday, shortly after lunch they visited Sir Thomas and Lady Shaughnessy, and at about 3 o'clock they left Lord Strathcona's house and drove out to the Dixie Golf links, in an automobile.

Asked as to the truth of the story cabled from Manchester to the effect that H. R. H. the Duke of Connaught, would close his term as Governor-General of Canada at the end of the present year, Lieut.-Col. Lowther, Military Secretary, characterized it as "pure invention."

RECEIVE BIG ANCHOR FOR THE DRY DOCK.

Promised That Dock Will be Ready for Delivery in August.

Four large anchors for the new drydock which were brought out on board of the Lake Champlain from the works of Messrs. Vickers, Ltd., Company, Barrow-on-Furness, were to-day lifted by the giant crane from the wharf at Section 12, opposite the Harbor Commissioner's Offices, and placed on a freight car. Later they were taken down to Viauville, the site of the new drydock, where they will be kept pending the arrival of the dock.

Photographs taken at the yards of the celebrated Messrs. Vickers, Ltd., and received here to-day, show that the work on the drydock is progressing rapidly. Messrs. Vickers state that the contract which promised delivery for the 1st of next August will not be broken, and that the dock will leave their yards on that date. It is expected that it will take about a month to get the dock across the Atlantic, so that it ought to be safely moored in its basin at Viauville by the 1st of September.

Fredericton Has Audubon Books

Legislative Library Has Original Edition of Famous Bird Lore Volumes.

Special to The Montreal Star.

Fredericton, N.B., June 11—The New York Herald, of recent date, contained the folowing cable from London:

At Sotheby's to-day, four volumes of the original American edition of John James A. Audubon's work, "The Birds of America," with 435 fine colored plates, bound in half Russia gilt, printed in 1827-1838, went to Mr. Hornstein for twenty-seven hundred pounds.

It is stated that there are in existence at the present time twelve volumes of this valuable work, namely, the four purchased by Mr. Hornstein, four in the legislative library of the Province of New Brunswick, and four unaccounted for. The books in the library here have always been well preserved and protected, and are considered among the library's most valuable assets.

It is said that the Province was offered, some time ago, the sum of fifteen thousand dollars for the volumes.

EFFORT TO LESSEN DIVORCE IN STATES.

Methodist Clergy in Chicago Will Demand Ten Days to Examine Records of Divorcees.

Chicago, June 11—Methodist preachers of Chicago have agreed that hereafter they wil not marry divorced persons who refuse to grant ten days for the examination of their records. These preachers believe that this precaution wil tend to lessen the number of divorces.

This was decided on yesterday after the Rev. Francis Miner Moody, of San Francisco, field secretary of the California State Commission of Marriage and Divorce, had told the clergymen that 100,000 divorces have been granted in the United States in the last year, this being seven times as many as were granted in Europe. Divorce, since 1870, has increased three and a half times as rapidly as the population, said Mr. Moody.

MR. ROSS'S YACHT.

Montreal Millionaire Will Spend Summer on Glencairn in St. Lawrence.

Mr. James Ross, who has just returned to Montreal after a long sojourn in Europe, states that his new yacht the Glencairn, will be in St. Lawrence waters shortly, after coaling at Sydney, and probably he will spend most of the summer months on it, cruising around the coasts of Eastern Canada.

Summer Excursion Routes.

An interesting booklet for holiday makers has just been issued by the Hudson River Day Line, of Albany, N. Y., entitled "Summer Excursion Routes and Catskill Mountain Resorts." This book, which will be sent to any address from the Company's offices in Albany, on the receipt of five cents in stamps, is a charmingly illustrated account of the many beautiful and historic places along the Hudson River reached by the Company's boats. It also gives details of numerous excursions in the second section [illegible] pictures, and descriptions are [illegible] of summer resorts in the Catskills, with instructions how to get to [illegible] and a list of the prices charged [illegible] hotels and boarding houses.

MASCOT FOR CAPTAIN OF RESCUE SHIP

The Cunard Steamship Company has declined to accept any remuneration for the salvage of the passengers of the Titanic by the Carpathia.

The White Star Company has presented $500 to Captain Arthur H. Rostron of the steamer Carpathia and $250 each to the surgeon, purser and chief steward. The rest of the members of the crew of the Carpathia receive a month's pay.

Captain Rostron was made the recipient of a gift from members of the Winter Garden Company just before his steamer left New York. Two pretty members of the company proceeded to the dock and presented the commander with "Captain," a pure black cat which now occupies luxurious quarters on board.

THE SOCIAL WORLD

McCuaig—McMillan.

At the home of Mr. and Mrs. D. A. McMillan, Kirk Hill, Ont., last week, Mr. McMillan's sister, Miss Henrietta McMillan, was married to Rev. D. A. McCuaig, of Laggan, Ont. The ceremony was performed by the Rev. Allan Morrison. The bride, who was unattended, was given away by her brother, Mr. D. P. McMillan, of Alexandria, Ont. She wore a gown of Duchess satin, and a long tulle veil caught with a wreath of orange blossoms. She carried a bouquet of bridal roses and maiden hair fern, and her only ornament was a pearl necklace, the gift of the bridegroom. Following the ceremony there was a reception, and dinner was served. Later Mr. and Mrs. McCuaig left for a short trip to Montreal, the bride travelling ni a blue suit of chiffon broadcloth with a black hat trimmed with white willow plumes. They will reside at "The Manse," North Gower, Ont.

LA BELLE OTERO IN GRAND OPERA

Famous Spanish Dancer Has Decided to Make Her Debut as Singer in Carmen.

Special to The Montreal Star.

Paris, June 11.—"La Belle Otero," the famous Spanish dancer, whose physical graces have been celebrated on two continents for twenty-five years, has discovered that she has a voice. Not only this, but she has announced that she will appear in grand opera. She is to make her debut as "Carmen" on June 19, at the Theatre Des Varieties.

Those who have heard Otero sing within the last few months do not hesitate to attribute greatness to her work. She has been studying with Fougere for months, and now is prepared for her debut at a grand galla performance, with Selignac as tenor.

Snow Flurry At Chicoutimi

Special to The Montreal Star.

Quebec, June 11.—Reports from Chicoutimi are to the effect that a snow flurry of about an hour's duration passed over that district yesterday. There were also light falls of snow along the line between Lake Edward and Chicoutimi. There were heavy frosts in that region all last week.

In many places the crop outlook is unusually serious, and seeding has been considerably delayed.

Baby Show in England Attracts Society Ladies.

Babies of many nations met at the London Olympic. Babies from every part of the globe were assembled under the auspices of the Virol Company. They represented forty different races. They were in charge of a staff of trained nurses under the superintendence of a medical man. The general pronouncement was that no finer babies were ever seen than the Virol youngsters.

The show was opened by Princess Alexander of Teck, and amongst those who paid special visits to the babies were Princess Beatrice, Princess Victoria of Battenburg, Princess Victoria of Schleswig-Holstein, Princess Christian, Princess Alexander of Teck, Prince Henry of the Netherlands.

ORPHEUM PLAYERS HAVE STRONG PLAY FOR THIS WEEK

Miss Kemble Maintains Good Standard in "The Dawn of To-morrow."

Although Americanized Cockneys are some of the most prominent characters in "The Dawn of a To-Morrow," presented last night at the Orpheum, may be this fact does not tend to detract from the intense human interest which makes the "Dawn of a To-Morrow" a play of a greater strength than the ordinary production.

It is true that in the second and third acts—by far the ones of greatest interest—the East Side of London, which is represented, acquires a very "Americanized Cockney" language, but the redeeming feature is that the public is for the greater part loath to notice that this is so. The public is not sufficiently "Cockney" to realize this fact.

The strong current of pathos and interest which runs through the play, and the thread of the strong story of the play winds itself around the hearts of spectators, and any defects are not, for the greater part, noticeable.

The little philosopher of the Optimist's teaching, "Glad," the girl of the slums of London, who can laugh at her sorrows and teach a man of prominence that there is a "To-Morrow," is the central character in the play. About her evolves, practically, the whole plot. The slums—Apple Blossom Court—a grim dirty side street in the East End of the great metropolis, is, it must be confessed, greatly refined. This fact has been a subject of criticism, but it may well be said that if the slums were presented without undergoing any "stage refining" there would be dealings with critical authorities.

Miss Lillian Kemble, who acts the part of "Glad" shows that she properly interprets her part. From the time of her appearance in the second act to the time when the curtain falls at the conclusion of the play, Miss Kemble keeps up her high standard of acting. Other players are good. Mr. Charles Mackay as "The Dandy," has not much chance to prove himself, but what he does is well done.

The best male character seems to be that represented by Mr. William Webb, who appears as Sir Oliver Holt. Mr. Webb has a difficult part to play, but he does his work in very creditable style. The characters are all well studied by those who represent them, and the play, on the whole, is a very enjoyable one.

DRAMATIC CONFUSION AND MUCH EXCITEMENT

"A House of a Thousand Candles" is a Novel Play.

A dramatic confusion, full of excitement is the offering at the Francais this week: "House Of A Thousand Candles" has been in Montreal before, in book form only, and it was a novel pulsating with events and something happening all the time. It is now produced for the first time here as a drama, and it was full of things that pull forth applause from those who went there to applaud.

An eccentric old party builds a house full of secret passages and traps and sliding panels as Hanlon's Superba. Then he makes a freak will which compels the heir to live in the house with a thousand candles or lose the fortune. There is a lady, too, whom he must marry or take the consequences. Then the old man dies and the will comes into effect, but he only dies in a Pickwickian sense, and by means of his numerous places of concealment and rapid ways of getting around inside of walls and through fire-places, instead of through the visible rooms and hallways, he keeps tabs on his heirs, and gets cold meat out of the pantry in the witching hour of night.

The thousand candles are distributed evenly throughout the house, but only six hundred and forty-two are on the stage at any one time. They are principally used for the inmates of the house to light and extinguish whenever there is nothing else going on. There is thunder and lightning in the busiest scene, when villains stalk and graveyards yawn. As there are no windows in the house, the lightning flashes through cracks in the scenery. When the graveyards have finished yawning some of those previously dead are conveniently alive again in time to circumvent wicked designs on those who are bad for no particular reason except that they like to be that way.

The company went into the thing as if they enjoyed it as much as the audience. Three new members appeared, Miss Sylvia Starr, and Messrs. Stuart Fox and Cecil J. Bowser. Their work indicates that they will become popular players with the Francais audiences.

Dalhousie Fund Reaches $400,000.

Halifax, N.S., June 11.—The campaign to raise $400,000 for Dalhousie University, of which Halifax citizens were asked to subscribe $200,000, closed last night. It was found that Halifax had given $195,000, and places outside this city also $195,000, making a total to date of $390,000.

The meeting of one hundred workers agreed to make the total aimed at $500,000, and steps will be taken to secure this amount without delay in this Province and elsewhere in Canada.

C. P. R. Train Service—Toronto, Ottawa, Quebec.

The quick day train to Toronto leaves at 9.05, going to the Union Station. The night trains leave at 10.00 and 11.15—the famed compartment cars on the latter to North Toronto, being the only train from Montreal to Toronto that carries this high-class equipment.

THOUSAND MORE AT CIRCUS THAN TENT WOULD HOLD

Ringling's Big Show Provides Delight Though Some Features are Missing.

Judging from the crowds who poured into the mammoth tents of Ringling Bros. circus yesterday afternoon and evening, the delights of the sawdust ring, the thrills of the aerial performers and even the efforts of the clowns to amuse have not yet begun to pall. Despite the threatening weather a crowd of monster proportions was accommodated at both performances and in the evening fully a thousand people were turned away.

Perhaps the best feature lies in a very completely equipped menagerie, which contains several animals that one does not find even in the best Zoos. Noticeably interesting to most of the visitors are a herd of about thirty elephants and two very fine specimens of the gorilla. The freaks are not quite so extraordinary as usual. Some of the old pet monstrosities seem to have died out and their place is hard to fill, still the side-show tent did a fairly thriving business before and after the performance.

To borrow the eloquent phraseology of the programme, the "big show" consists of a Potpourri of Phenomenal Performances in three rings and two stages, while the roof of the enormous tent is strung in every direction with ropes, wires, trapezes etc., all the paraphernalia that furnish those thrills so dear to the hearts of children and to most grown-ups as well. The effect is all a little bewildering. Scarcely is one's gaze comfortably arrested by something sufficiently exciting that is going on right before you, when suddenly the attention is diverted to another wonderful feat at the other end of the tent and so on, until the result is, to suggest another adjective to the programme-Author, positively "vertiginous."

The introductory spectacle depicts in Pageant form the story of Joan of Arc. Considering the difficulties and limitations of the stage, the general effect was very well carried out, especially the march past, with the Maid of Orleans riding at the head of her forces. The Archbishop was a little acrobatic in his performances and one could very well imagine that his alb and chasuble concealed more active limbs than those generally associated with ecclesiastical dignitaries. The ballet of 65 dancers carried out their evolutions with considerable grace and agility, presenting as the author again sapiently remarks: "a scene of grandeur and exciting revelry."

The actual ring performances are all very good in their kind, especially some of the riding events with which the show comes to an end. Aerial acts, acrobats, human gyroscopes, equilibrists, equine, seal and elephant trainers all succeed each other in bewildering confusion. They all work hard and they certainly deserve the hearty applause that rewards their efforts.

Alas, however, a good deal of the old familiar clown has disappeared and given place to another style of buffoonery. Still it is all very amusing and to quote the words of the author once more: "the Sourest Cynic feels as though his ribs had been tickled with the funny-bone of a Mastodon."

MISFIT ARMY IS THE SOHMER PARK FEATURE.

Miss Gertrude Fisk's Singing and Gliger's Violin Playing Other Good Items.

There is any amount of variety at Sohmer Park this week and the bill is in keeping with the usual good programme. The George B. Reno Company have an act that is quite new. It is called "The Misfit Army" and it gives all five performers many opportunities for funmaking. The midget of the company is very funny. "Sunny Italy's Streets in Canada," is a violin offering of Gliger; he is a clever musician. Acrobatic and equilibristic features are introduced by Chapman and Berube much of which is new to the stage. Gertrude Fisk sustains all the good things that were said of her before she came; she is an excellent singer and was given many deserved encores last evening. Chick and Chicklets, with their funny bicycle act renewed old acquaintances. Professor Goulet's band has a programme of merit. Special attractions are promised for to-morrow and Friday nights.

AT THE LYRIC HALL.

A large crowd turned out last night to see the Lyric show which is unusually good this week.

A musical sketch is presented by Aldrich Libbey and Katharine Trayer, which gives ample scope for Mr. Libbey to show his excellent baritone voice.

The pictures this week are good.

Montreal Board of Trade Excursion.

The Board of Trade to Seven Islands, leaving Montreal on the new steamer "Saguenay" on June 20th, is proving a very popular one, and the list is rapidly filling up. The trip is timed to leave Montreal on Thursday night, reaching Montreal again early Monday morning, so as to take as little time from business as possible. This will give Montreal Business Men an unusual opportunity of seeing the development along the north shore of the lower St. Lawrence, and the steamer selected crossed the Atlantic last year under her own steam, so that she is absolutely seaworthy and well suited for a voyage to the Gulf.

CRITICS EXPLAIN THEIR ATTITUDE TO CONTROLLERS

Hold to Free Expression of Opinion, But Deny They are Obstructionists.

Several aldermen explained their attitude towards the Board of Control during yesterday's meeting of the City Council, all asserting an incontestable right to criticize when necessary. In answer to this Controller Lachapelle said that while he recognized the right to criticize, he had found that certain aldermen were obstructionists who disturbed the civic business by delaying reports in the Council.

"I am with the Controllers," said Ald. Blumenthal, "but I want to have my freedom. If there are reports I do not approve I want to have the right to vote against them. In this there is nothing wrong. In my opinion it is no disgrace that there should be a healthy opposition here, as there is in other governing bodies. I again say that I favor the Board of Control; but at the same time I want the right of using my own judgment."

Ald. Macdonald said he had been much aggrieved by certain sections of the press dubbing him an obstructionist because he had not approved of certain reports of the Controllers. He certainly was not an obstructionist, and he had a most warm liking for the Board of Control.

Ald. Martin Finds Fault.

Ald. Martin found fault with Controller Lachapelle because he had stated in the Star that he would retire at the end of his term on account of the unending opposition the Controllers were receiving from a section of the Council. He (Ald. Martin) did not think that any member of Council was giving the Board of Control unnecessary trouble. It was only right that if members of Council did not approve of certain reports they should make the fact known.

In reply to all these complaints Dr. Lachapelle said there was not the slightest doubt, but that Ald. Martin was bitterly opposed to the Board of Control, as he had stated, at the last elections, that he would fight for the destruction of the Controllers. "The Controllers do not mind criticism, but what they do mind is tactics that block the entire business and result in delaying public works."

The question was now taken up of the elevation of the Grand Trunk tracks. Ald. L. A. Lapointe and others strongly opposed the request of the G.T.R. (as was explained in the Star last night), that the city should foot half of any incidental expenses or damages that might arise in the elevation of the tracks.

After discussion it was decided that the whole matter should be referred to the Controllers for study and report.

A report was referred back to the Controllers asking that the city should acquire over a million feet of land for the construction of the boulevard from Montreal to Lachine. Council wanted some idea of the total cost of the project.

C. P. R. TRAIN SERVICE—TORONTO OTTAWA, QUEBEC.

The summer service is meeting with great popularity.

The quick day train to Union Station, Toronto, at 9.05 a.m. was evidently desired on account of the patronage it is receiving, while the night trains at 10.00 and 11.15, the latter going to Yonge street station, North Toronto, and carrying in addition to the electric lighted sleeping cars, the famed compartment cars, the only train from Montreal to Toronto that carries such equipment, is evidently leaving at a more suitable hour than formerly, when it went out at 10.45.

The additional and improved service to Ottawa to take care of the ever increasing business has shown very encouraging results. The quick train now leaving at 9.15 a.m., and making the run in half an hour less time than the train formerly did, is from its patronage an example of the interest taken by the public in satisfactory service. The other trains on week-days are at 7.50 a.m., 10.10 a.m., 4.00 p.m., 9.50 p.m., and 10.30 p.m.

The new train to Quebec at 5.00 p.m. daily, and on which there are parlor and dining cars, has established its reputation since the inception of the service a week ago.

CHINIQUY MARRIAGE DISCUSSED

Mr. Justice Greenshields Says English Law is Jealous of Lives of Citizens.

NO INTEREST, HE THINKS TO WARRANT STATEMENTS

Judge Interjects Comments During Hearing of Libel Charge Against Mr. Begin.

"No newspaper had any right to call that woman a concubine," declared Mr. Justice Greenshields this morning during the hearing of the case of Mrs. Morin, daughter of the famous Father Chiniquy, who is suing Mr. Joseph Begin because the latter declared in the newspaper La Croix that as Mr. Chiniquy had been a priest, he could not be legally married, that in consequence, his wife was a concubine an dhis children illegitimate.

That there was no interest, religious or public, to warrant such statements regarding the private lives of citizens, was the claim which Mr. Justice Greenshields advanced, while listening to the case. "What interest could there be," he asked, thirteen years after Chiniquy had been dead, "in calling his wife a concubine."

English law, he said, was very jealous of the lives of private citizens, and he, for one, did not propose to allow such statements. All the good or harm that Chiniquy had ever done was established; his wife was dead, why stigmatize her? "It did not do anybody any good, not even the Church of Rome," he added, "to call her a concubine."

Decides a Statement.

"The most atrocious and injurious libel ever published in a paper," was the way Mr. Gonzalves Desaulniers, K.C., advocate for the plaintiff, characterized the statements in La Croix. Mr. Gustave Lamothe, K.C., on the other hand, defended the article on the claim that Chiniqpy had been a public man and that his life and works were open to criticism.

There was considerable amusement when Mr. Gonzalves Desaulniers, asked the defendant, Mr. Begin, if he had not published in his newspaper that it was no sin to steal from a Freemason. The plaintiff denied the charge.

Mr. Begin, the defendant, was called to the stand this morning, and questioned by Mr. Lamothe, counsel for the defendant. Copies of the newspaper, La Croix, in which the alleged libel was published, were produced by the witness.

He testified that the works of the late Chiniquy written in French, were still being published in Montreal, to show that Chiniquy's person and writings were still open to criticism. The books were being sold by booksellers and were exposed in store windows. He produced pamphlets by Chiniquy which are still being sold in Montreal.

What Is Catholic Paper?

"You say your paper is a Catholic one," said Mr. Desaulners. "Did you obtain permission from your parish priest?"

Judge Greenshields—"I do not know what a Catholic paper means. I can understand a paper being a supporter of the Catholic Church or the Anglican Church, and as such a mouthpiece of such churches, but a paper has no religion and sometimes no morals."

"You have sworn on the Bible," continued Mr. Desaulniers, addressing the witness. "Do you know that there is a decalogue in the Bible and that one commandment prohibits stealing"

"Yes."

"Have you published the opinion that it is permitted to steal?"

This question was objected to by Mr. Lamothe.

"I declare it is false," replied the witness, "and I will answer your newspaper, Le Pays."

Mr. Justice Greenshields allowed the evidence because he said it might go to show the recklessness with which this paper was published.

No Sense of Morals.

"I want to show that there was no sense of morals to it," said Mr. Desaulniers.

"I never said that it was absolutely permitted to steal from a free-mason," the witness finally replied.

"What did you say?"

"I do not remember."

The witness admitted that at the time he wrote the article, he did not know that Chiniquy had not been married in the province of Quebec where, he understood, the Civil Code prohibited the marriage of priests.

"You did not enquire into the matter?" demanded Mr. Desaulniers.

"Not at the time."

"No more than you tried to find out if Mr. Chiniquy had any children. Would you have written that article if you knew he had children?"

"I do not know."

"Do you know that in the early centuries, even up to the tenth century, priests had the right to marry?"

"Not up to the tenth century and in the early centuries, it is true, the church had to tolerate this custom derived from the Jews."

Saw No Interest In Evidence.

Mr. Justice Greenshields did not see any possible interest or benefit there was to this evidence.

Mr. Desaulniers accused the witness of insulting the memory of the late Mr. Chiniquy. The witness replied that the truth was never an insult.

"Do you know to what religious profession, Mr. Chiniquy attached himself on leaving the priesthood?"

"I do not know that he attached himself to any religious profession in particular. He attached himself to a profession of his own; he founded a movement."

This concluded the evidence, and Mr. Desaulniers made a brief address on behalf of the plaintiff.

"No more atrocious or injurious libel was ever published in the press of this country," he declared. "I call in question the virtue of the woman who

AUSTRALIA AND CANADA

The Australian Government is reluctant to follow the patriotic example of New Zealand by putting its fine new Dreadnought-cruiser at the disposal of the British Admiralty. It betrays a decided desire to keep it in Australian waters, and, as it was built for that purpose, even a mild preference would be sufficient to settle the question. The British Admiralty will never ask for a Colonial battleship which the Colony is unwilling to give.

This being the Australian position, it is, perhaps, just as well for us in Canada to examine into the Australian reasons with a frank and sympathetic eye. We, too, are a British Colony; and we, too, have our public men who hold that we should keep any battleships we build or buy in Canadian waters. In so far as the cases are the same, the reasons which govern the course of Australia might carry us along in the same direction; and, if we are not to follow that course, **we ought to know where the two cases differ and why Canada should do what Australia will not do.**

* * * * * *

Australia inaugurated her local naval programme to meet the "yellow-peril." She rushed "full steam ahead" with it for the single reason that **she thought Japan would not heartily renew her Alliance with Britain,** but would become a well-armed and ambitious applicant for Australia's "empty North." Here was a possible "yellow-peril" ready to move at once, unrestrained by a British Alliance, and not likely to wait for the slow development of China. So Australia established, as swiftly as she could, "a fleet unit" of her own, headed by a powerful Dreadnought-cruiser, which was to co-operate with a New Zealand "fleet-unit" and to be strengthened by a British "Dreadnought" battleship contributed by the Imperial Government.

So far, so good. **But the Japo-British Alliance was renewed,** and is now more firmly cemented than ever, partially because of the revival of Russian power. The very conditions which created the first Alliance have returned to increase the necessity of its successors. This has wrought so fundamental a change in the Pacific situation that **New Zealand, feeling that she no longer needs her Dreadnought-cruiser for the present, has turned it over to the British Admiralty, which needs it very badly.**

Australia, however, proposes to keep her's. Why? What is the difference? In a word, it is because Australia has **over 400,000 square of miles of tropical territory, practically uninhabited by white men, and within easy reach of overcrowded Asia.** New Zealand has no territory that the white man cannot occupy quite as well as the "yellow." Moreover, it is farther from China than Europe is from America. Australia has something like a third of her territory in the Tropics, and is just across a narrow Strait from New Guinea.

* * * * * *

There is the great and vital difference; and it is only fair to remember it in comparing the action of New Zealand with that of Australia. **This empty Northern Territory, which is an anxiety to every Australian statesman—and, indeed, to every British statesman—is quite capable of sustaining a large Asiatic population.** A writer in the "National Review" says, for instance, that there is a coast belt of 80,000 square miles—equivalent in size to the whole of Java—which is known to contain much land suitable for "tropical agriculture"—that is, agriculture which white men cannot touch. Now Java, with only forty percent of its soil under cultivation, supports a population of thirty millions. What if Australia had an Asiatic population of thirty millions on its Northern "coast belt?"

The white population of the Northern Territory is insignificant and practically stationary. In 1881, the white male adults totalled 550; in 1908, they had risen to 577; and, in 1910, some gold discoveries raised them to 739. **This is the white garrison,** charged with holding a territory of over 400,000 square miles—two and a half times the size of France. It is a great big problem, and no Australian statesman has yet evolved a policy which will securely help this land for the white race. Yet if the "yellow race" be once admitted, it will speedily far out-number the "whites" on the whole of the Island; and the end of that sort of thing is sure.

* * * * * *

Now this is the reason why Australia refuses to give up her first Dreadnought-cruiser; why she insists upon building alocal navy; and why she has gone in for compulsory universal military training. **She realizes that her empty Northern Territory offers a perpetual temptation to overcrowded Asia.** Japan may not feel it very keenly with Corea to settle and Formosa to civilize. But China has over four hundred millions of people so closely packed in only a part of her Empire that they actually live in boats on the rivers; and China is beginning to learn self-respect and national cohesion and the necessity of defending the rights of her citizens abroad as well as at home. To China, this "empty North" of the Australian Continent must beckon far more imperiously than indefinite Colonies do to Germany or than the Canadian West does to the homeseeker of the British Isles.

* * * * * *

So Australia is putting a rifle in every man's hand, and is covetously gathering about her all the fighting ships she can muster, with a view to defending her ideal of "a white man's country" when the inevitable Asiatic migration moves southward. **We may think that her policy at the present moment is mistaken.** For our own part, we do think so. We think so—because China will not be ready to attack for many a year—until this Dreadnought-cruiser has long been scrapped—while Germany may attack any day, and bring about the collapse of that British Navy whose command of the sea must always be Australia's chief line of defence. Therefore we think that, for the present, all of Australia's naval strength—even if she sees no peril but the "yellow" one—should be concentrated in the North Sea where alone the British Navy is menaced. But, even though we think her mistaken, **we must all admit that she has some excuses for her error.**

* * * * * *

But no such excuses exist in the case of Canada. Not a single reason which Australia can urge, is for a moment applicable to this country. Let us run them over:—

Australia has hundreds of thousands of square miles which "whites" cannot cultivate, but which Asiatics can. **Canada has not a square foot which a white man cannot use as effectively as a yellow man.**

Australia is very near to teeming China. It is the first empty country within reach. **Canada is all the way across the Pacific from China—is farther from China than New Zealand is—and is not and never will be an empty country.**

Australia has no population in that part of the country which is nearest to and most tempting to China. **Canada has a vigorous population on her Pacific Coast, and will have a large one by the time China is ready to move.**

Australia stands absolutely alone. She has no next-door neighbor with a large Navy, ready and eager to make common cause against an Asiatic invasion, and so constantly effective in dissuading China from even thinking of it. **Canada would be backed by the United States in the case of trouble with Asiatic migration.**

Yet there are cowards in Canada who would hide behind the quite natural apprehensions of Australia when they really want to argue that Canada should have a few warships within reach of our local "grafters" and our own political "patronage"-hunters.

* * * * * *

Let them consider the case of New Zealand. New Zealand is nearer to the alleged danger than we are. New Zealand is in the Eastern Hemisphere. We are in the Western. New Zealand is a natural "next step" after the submersion of Australia. Yet New Zealand proposes to contribute her "Dreadnought"—already built for her own waters with the consent of the British Admiralty—to the defence of the Mother Country, seeing that there lies the danger and not in the Pacific Ocean. **For plucky little New Zealand to take this step and for Canada to skulk behind sorely harrassed Australia, would surely raise the gorge of every decent Canadian.**

The place to meet the "yellow peril" to-day—as we have said—is in the North Sea. **So long as the British Empire is intact,** and so long as "Britannia rules the waves," **there will be no "yellow peril"** under anything approaching thinkable conditions **for any part of that Empire.** To begin with, we shall probably long have Japan as an ally; and the Japanese Navy will unite with the British to ward off any ambitious Asiatic Power from British territory. If China gets hungry, it will know that it must satisfy its appetite elsewhere.

* * * * * *

But if the British Empire goes down in blood and smoke some foggy morning in the North Sea, then the various fragments of that Empire will lie an easy prey of the strong in all parts of the world. Canada, we imagine, will disappear in the benevolent bosom of our big neighbor to the South. **As for Australia, what other Power will attempt the tremendous task of defending for her the empty tropical territories to the North which she cannot long defend for herself?** Will the Americans do so, with all the empty territory at their disposal on this Continent? Will Germany feel that she can shoulder so heavy a burden when she has just thrust a passionately rebellious Europe under her heavy foot? Will she try to fight Japan and China as well as hold Britain, France and Russia in subjection?

The mist of the future hides the answers to these questions. Some other strong arm may be raised for the protection of Australia's "white" home. But, if it is, it will infallibly demand that Australia accept its flag and its sovereignty. This would, frankly, be better than the "yellow flood," but it would also be far more unlikely.

If Australia were to ask our advice, we would earnestly counsel her to sustain, at all costs, the sea power of the British Empire, and to send her "Dreadnought" where it may find some fighting to do, long before China has a single Dreadnought to face it.

RANKS OF GARMENT STRIKERS UNBROKEN SAYS THE LEADER

Trouble Over One Arrest, But Strike on the Whole is Peaceful.

There was some trouble in St. Lawrence street to-day when an attempt was made by two men in plain clothing to arrest one of the strikers without a warrant on a charge of assault. At first the striker absolutely refused to have anything to do with the detectives, but finally consented to go to the Coronation Hall, where he was identified as another man altogether.

The Coronation Hall was crowded with strikers all day, and the reports of the pickets from time to time showed that the ranks of the strikers were unbroken.

Mr. Victor Altman told a Star representative that he was being assisted by Mr. A. Gordon, of Baltimore, another member of the general executive of the United Garment Workers of America. Mr. Altman stated that he wished to deny the statements which have been given out by the officials of the Manufacturers' Association. He said there had been no violence, and what was more there would be none.

DECLARE FOR OPEN SHOP. SAYS MR. B. GARDNER.

Mr. B. Gardner, president of the Clothing Manufacturers' Association has issued a statement giving the views of the employers in connection with the present strike of garment workers.

Mr. Gardner points out that employers and employes in the clothing industry had shared alike in the prosperity which has prevailed in Canada for several years, and asserts that the workers had received their full share of the benefits. He then comments:

"It seems, however, that individuals who are interested in creating strife between employer and employe concluded that the clothing industry and the prosperity that attended it was a good means of preaching the gospel of discontent. Notwithstanding the fact that the men and women in the industry were quite content with the conditions."

"We have declared for the 'open shop,' in other words we believe in the right of every man and woman to work for such wages as are acceptable to them and who will not be terrorized over by men who have no interest in the real welfare of the workers beyond getting them to contribute towards the payment of their salaries.

"Our object is to conduct our business so as to further the best interests of our customers, employes and ourselves.

"All-Red" Cable Resolution Carried by Canadian Delegates

Chambers of Commerce of the Empire Opens Session in London Discussing Preferential Trade and Penny Postage.

By Special Cable from Our Own Correspondent.

London, June 11.—Canada's forty-four delegates to the eighth Congress of the Chambers of Commerce of the Empire, dominated the assembly at the opening meeting to-day under the presidency of Lord Desborough.

Montreal had first innings, when Col. Mackay sought to induce the Congress to embrace the whole world with a penny postage scheme. The Congress, thinking the British Empire a large enough unit for the present, negatived Col Mackay's proposal.

Toronto and Ottawa came next, and despite the appeals of the British delegates for a postponement in deference to the attitude of the British Ministers, the Canadian delegates secured the adoption of a resolution in favor of an "all-red" cable service, with terminals entirely in British territory.

Reciprocity within the Empire in magazine postage was next favored, upon a resolution from Colonel Panton, of Belleville.

PREFERENCE WILL BE SUBJECT OF DEBATE.

Lastly came what Lord Desborough called the most debateable of all Canada's proposals, namely, preferential trade within the Empire. The Boards of Trade of Vancouver, Belleville, and Toronto, and the Canadian Manufacturers' Association, were eager contestants for the place of honor, each proposing a resolution.

Toronto's resolution was ultimately adopted for discussion. It was proposed in eloquent speeches by Mr. Cockshutt, M.P., and Mr. Henry Drummond, Montreal. The British delegates will speak to-morrow.

The Canadians are holiday-making and junketting this afternoon and evening.

BROTHERS ON TRIAL FOR WOMAN'S DEATH.

Henry and Fred Seybold Accused of Murder of Margaret McCallum.

Charged with the murder of Margaret McCallum, Henry and Fred Seybold, stood to-day before Mr. Justice Gervais, in the Court of King's Bench. The two men lived in a small house on Coupal lane, off Lagauchetiere street, and the woman was known as their housekeeper. On March 2 last, she was found dead in the house and the evidence of Drs. McTaggart and Dugas, to-day showed that she had been beaten to death with a wooden club. The defence, represented by Mr. James Crankshaw, jr., and Mr. R. L. Calder, attempted to prove on cross examination that the woman died from over indulgence in liquor. The physicians admitted that there was every symptom of drunkenness, but the wounds left no other conclusion than that she was killed by powerful blows.

New Smallpox Hospital.

On Friday members of the City Council will formally open the new Civic Hospital on Moreau street. It will be for smallpox patients.

Rhodes Spooner and David Oppenheim have been ordered deported from London, Eng., to Vancouver to meet false pretence charges.

INTERFERED IN ROW. GETS BROKEN SKULL.

One Man in Hospital, Another in Jail, Following Dispute.

Joseph Choquette, 26 years of age, was taken to the Western Hospital last evening with a broken skull, and Clephas Montanbeault, Valliant street, his assailant was locked up on a charge of aggravated assault, to which he entered a plea of not guilty this morning and was remanded until the 13th for enquete.

From what the police were able to learn a row started on Notre Dame street between Choquette and an old man. Montanbeault, who was passing by interferred on the old man's behalf and Choquette turned upon him. In the row that followed Choquette was knocked down and struck the back of his head on the sidewalk. He will recover.

STRUCK BY CAR.

Elderly Man in Hospital With Broken Leg and Severe Bruises.

D. Dery, 5[illegible] years of age, was struck by a street car last night at the corner of Craig and Beaudry streets. He was taken to the Notre Dame Hospital with severe contusions of the head and a fractured leg.

THE STAR'S ICE FUND.

The terms imposed by the Ice Trusts of Montreal have not only made ice supply expensive for the general consumer, but have practically made ice supply a most serious question for the poorer classes. The deprivation that results is a menace to the health of the community and a cruelty to the helpless poor. The Fresh Air Fund Committee have expressed a willingness to aid in overcoming the difficulty of making accessible to the poor, especially the sick poor, a supply of ice in the hot season, and, for this reason, a special fund is opened. If this effort succeeds to any appreciable extent, it will be followed by measures that will solve the ice question for all time. Those approving of the movement, and desiring to help, may send their subscriptions addressed "Ice Department," Star Office.

BARNES TAKES COMMAND OF TAFT FORCES: "BOLT" TALK IS ON THE WANE

Senator Borah and Other Roosevelt Leaders Declare Their Intention to Stick by the Republican Ship — Roosevelt's Stock Still Falling in Chicago—Some Talk of a "Dark Horse" Compromise, But Belligerent Ones Say It Is a Fight to the Bitter End—Borah Talked of For Vice-President—Definite Announcement That Roosevelt Will Stay Away From Chicago.

Washington, June 11.—The Washington Times to-day publishes a special despatch stating "on the highest possible authority," that Mr. Roosevelt will run for the Presidency, no matter what befalls. By way of cracking the whip over the head of Congress, the despatch also says that every representative who does not support the third term candidate will find himself opposed by another Republican who does. The significance of the statement lies in the fact that the "Times" is owned by Mr. Frank Munsey, who has been, from the start, Mr. Roosevelt's one consistent newspaper backer.

New York, June 11.—Betting on the results of the convention in Chicago is at a standstill. A few very small bets are being made. There is much talk about betting, but no money is put up.

"I have handled many thousands in election bets," said one well known man yesterday, "but I'm doing nothing this year. I cannot find that any one else is doing much. There are bets of hats, bottles of wine and that sort of thing, but no real betting. The fact is that if you want any Taft money you've got to take it at 'evens,' while there is no Roosevelt money to be had at less than 3 to 2. The simple fact is that those who bet on elections are in doubt. They realize that the contest in Chicago will be close, or at least they think it will, and a close race always means slack betting."

To-day's Committee Developements

Chicago, June 11.—William Barnes, jr., chairman of the New York Republican State Central committee and delegate-at-large to the convention, arrived to-day and immediately went into conference with Senator Crane, of Massachusetts, Senator Newell Sanders, of Tennessee, Lafayette B. Gleason of New York and other leaders of the Taft forces.

Mr. Barnes is looked upon as the probable Taft floor leader and there is said to be likelihood that he will take part in the deliberations of the National Committee on contested seats. He declared that his personal business at this time was to aid in the confirmation of Senator Root, of New York as temporary chairman of the Republican National Convention.

New York Delegates for Root.

"Practically all the ninety New York delegates will vote for Senator Root," said Mr. Barnes, "and I have no doubt that he will be elected."

Mr. Barnes took possession of a suite on the floor below the Taft National Headquarters.

Governor Herbert S. Hadley, of Missouri, arrived this morning and at once went to the Roosevelt headquarters. He is to argue the Missouri contests before the National Committee. Should the Roosevelt forces control the convention he is believed to be their choice for temporary chairman and the position of floor leaders for the Roosevelt men may be accorded him.

Roosevelt's camp welcomed Governor Hadley. As one of the original seven governors who urged the former president to make the race and one whose name has been mentioned frequently as a possible running mate of Roosevelt, his counsel was in demand.

Supporters of Roosevelt held a conference last night which lasted into the early hours of this morning. But what was discussed none of the conferees would tell. Senator Borah and other national committeemen who yesterday voted to seat Taft delegates in Indiana participated in the meeting.

Borah for Vice President.

In the hotel lobbies and the rival headquarters there was discussion of possible candidates for the Vice-Presidential nomination and Senator William E. Borah, of Idaho was mentioned, [illegible] however, emphatically refused to be considered, in the light of a possible future presiding officer of the Senate.

The National Committee yesterday afternoon decided the Indiana contest in favor of Taft, giving the President twelve additional delegates, bringing his committee-acknowledged total to date to 28.

The time consumed in the presentation of the Indiana contests before the National Committee made it a question this morning whether more than the Kentucky contests could be reached to-day. Unless the Kentucky and Louisiana cases can be cleared up, it is probable the committee will be forced into night sessions to dispose of the many contests before the convention meets a week from to-day. The [illegible] contested delegates from Kentucky held the right of way when the committee began to-day's work.

Roosevelt Men Resume Fight.

After [illegible] the Roosevelt leaders resumed the fight over the contested seats with [illegible] determination. [illegible] that they expect to get enough delegates to nominate the Colonel [illegible] many [illegible] indications that enough delegates [illegible] to be seated to nominate Taft.

The President now has [illegible] delegates and Roosevelt 126. In dispute are still 152. It will require [illegible] to nominate. How the President is to get them is plain to the Roosevelt men from the fact that every contest heard so far, affecting eighty-six delegates, has been decided for Taft.

There is less talk to-day of a "bolt" than at any time since the clans gathered, and more hints of a "dark horse" candidate. It is not generally believed that the Colonel will bolt, in the strict sense of the word, because it has been made plain to his managers here that such men as Flynn and Borah are not going to sacrifice their party regularity to follow him.

Roosevelt's Latest Plan.

Roosevelt's plan now is said to be to

(Continued on Page 11.)

What is Roosevelt Going To Do?

Special Staff Correspondence.

Chicago, June 11.—What is Roosevelt going to do?

Roll the Steam Roller never so ponderously, it has not smoothed his part of the road for the passage of the Republican Machine, with its freight of party traditions and its incubus in the shape of a candidate who, during four years in the White House, has let the fences go to wreck and ruin and who is unable to arouse any enthusiasm among the Party tenants over the task of putting them in shape again.

A week from to-day, the Convention will be called to order Roosevelt will not be present, so that there is a possibility of this part of the program being carried out without a hitch. That is, he ought not to be present, if the rules and regulations means anything unless he is one of the 13,000 ordinary citizens who are to look on from the gallery.

No one can resign his seat in his favor. Each of the 1,078 delegates has an "alternate" seated on the floor of the convention hall but at an appropriate distance in the rear. If a regularly-elected delegate is not able to be present, his regularly-elected "alternate" is entitled to take the seat. If the "alternate" is likewise absent the seat must remain vacant. Mr. Roosevelt has not been elected by any State either as a delegate or as an "alternate."

Nevertheless, the Taft leaders are not as easy in their minds over what may happen in this connection, as might be expected in the light of written regulations and long-continued observance. Mr. Roosevelt is known to have a supreme contempt for both when they interfere with the carrying out of his "policies," and all his policies are centered to-day in the task of being president of the United States for the third time. What means he may be willing to employ to achieve this end, few close observers, least of all the Taft managers, are willing to specify. Wide latitude, however, is given to fancy and the nearer the fateful day the more spectacular the imaginings.

* * *

It may be as well at this point to emphasize the fact that the phrase "Taft supporters" means those that are prepared to make almost any sacrifice to save the Party Machine from wreck. It does not imply any fondness for Mr. Taft personally, nor any belief that he would make a better, wiser, or "safer" President for the next four years than he has during the last four. In fact, the support of Mr. Taft is in itself one of the heavy sacrifices which several of the chief "Regular" leaders are making on the altar of party devotion. The conviction that he may be used in such a way as to kill Roosevelt politically and at the same time be killed equally dead himself is, in many cases, a great consolation.

* * *

The "Taft supporters," then, have three [illegible] which, for lack of better, they are using as working hypotheses:

First: The "Roosevelt crowd" may carry their fight over the Temporary Chairman and the seating of delegates to the floor of the Convention proper. When they are defeated there they may formally and with a certain amount of gravity and dignity leave the hall and organize either a new political party or what they will endeavor to convince the people is the real essential element of the old Republican Party which has thrown off the evil influences under which it has long suffered.

Second: They may announce on Monday evening—the convention meets Tuesday—that the conduct of the Republican National Committee in owning and operating a "Steam Roller" has made it impossible for any honest Republican to accept its machine-made Convention as in any sense worthy of or representative of the Republican party. This would be followed by the announcement that the real convention would be 'held' under the auspices of Mr. Roosevelt and that it, and it alone, was deserving of confidence and consideration.

Third: They may start "rough house" tactics in the convention while in the preliminary stages of its organization and during the turmoil

Roddy Finlayson Out--Royal Franchise Not For Sale--Olympic Preparations

"RODDY" OUT WITH MONTREAL

One of the Most Celebrated Lacrosse Players of Montreal In Harness Again.

The most interesting feature of the practice was that Roddy Finlayson was out again.

While the Montreal lacrosse executive were more than a little disappointed at the defeat of their team by the Shamrocks last Saturday, they are not discouraged, but still hope to have an aggregation that will be strong contenders for the championship.

The weakness in the field which was largely accountable for the second reverse at the hands of the Irishmen Saturday will be rectified before the winged wheelers line up for their battle with the Cornwall twelve on Saturday next on the M. A. A. A. grounds.

At the practise last evening, in addition to the regulars who were out in full force, there were a couple of new men who played the fild positions satisfactorily and it is not unlikely that one or both of these newcomers will be seen on the team on Saturday. Their names were not announced by the executive as they haev not yet secured their releases from the clubs with which they are signed at present, but the executive are confident of securing them.

Awaiting Kennedy's Team.

Special to The Montreal Star.

Toronto, June 11.—The Torontos will get down to work again to-night in preparation for the meeting with the Irish-Canadians at Scarboro Beach on Saturday.

Pete Barnett will be unable to play, in fact he hardly will be in shape to take the field again until thebeachers meet the Frenchmen at Maisonneuve on July 6th. The doctor reports that at least two ribs have received a severe shake up, which will confine Peter to the injured list for at least two weeks.

Querrie's Plans.

Special to The Montreal Star.

Toronto, June 11.—Manager C. L. Querrie of the Tecumsehs, asked if he intended to strengthen his team, replied:

"The Indians will be strengthened if I can get men who will really improve the team. I can get plenty of the kind now in hand, but that is not the calibre of players I want. We have made good offers to a number of men of known ability, but they don't want to sign."

The Indians tried to get McIntyre, last year with Shamrocks, but the player declined to leave his position, even though the salary offered was very tempting.

Tommy Gorman of the Caps declined a similar offer and "Sport" Murton wants more money than the Indians feel like paying. Several promising youngsters have asked for places on the Tecumsehs, but the management wants experienced players.

Special to The Montreal Star.

Toronto, June 11.—Following the trip of the University of Toronto team to New York, Baltimore, Swarthmore and elsewhere, three other Toornto teams will visit the American Metropolis this month.

Next Saturday the West Toronto Shamrocks play the Crescents at Bay Ridge. In the following week the Athletics of St. Simons will be the guests of the Crescents, and on Thursday, June 20th, Bobby Graham will take down a team of local players to meet the well-known Grooklyn twelve.

BERLIN WANTS PITCHERS.

Berlin, June 11.—Pitcher Jack Wolsey, last year with the Jackson, Mich., team, reported to Manager Deneau last night and another twirler is due shortly. The Berlin manager is making an effort to bolster up his hurling corps which is now in a badly crippled condition.

Gibson, who contracted measels during the last invasion of the Capital reported yesterday but his condition is such that it will keep him out of harness for at least a week.

Manager Temple, of Peterboro, is determined to rebuild his team and get into the race. Jack Whitt, an outfielder formerly of the Williamsport team of the Tri-State League and infielder Byron, of the same club, reported last night and catcher Mower, of Philadelphia is due to-day.

FOUND CANADIAN YACHTSWOMEN GAME

Are Willing to Meet American Women at Chicago in Any Variety of Craft.

Chicago, June 11.—Acceptance of the challenges issued to Canadian yachtswomen by Chicago women supporters was issued last night by the officials of the August Water Carnival to be held here. The message came from the Royal Canadian Yacht Club of Toronto.

The Canadian women announced that they were willing to meet the American women in any size of craft and also stated a preference that the entire crews be women.

Mr. Fred Davison New Chairman

Mr. J. Fred Davison has accepted the position of chairman of the Outdoor Sports Department of the M. A. A. A. A meeting will be held some night this week, probably on Friday, to select a committee to assist his work.

Mr. Davison is a competent man for the position, having been on the committee of Outdoor Sports for a number of years.

Westmount Bowling Club.

The first round (points) of the McKergow Trophy, will be played on the Green to-night (Tuesday), commencing at 7.45. There is a large list of entries, who are asked to be in attendance as promptly as possible.

Any members not already entered can do so at any time up to 9 p.m. this evening. The green being in splendid condition, and the weather favorable, a large turnout of players and spectators is anticipated.

Pitcher Martin, formerly of the Philadelphia Athletics, has been signed by Manager Jack Dunn, of the Baltimore International League club.

ROYALS BLEW UP IN EIGHTH INNING AND LOST THE INITIAL GAME ON ROCHESTER DIAMOND

Rochester, June 11.—The Royals' initial game with Rochester yesterday afternoon was marked by their blowing up in the eighth inning and losing the game by 7 to 4. Eight errors were marked against Billy Lush's aggregation, Taylor being credited with three in one inning. "Dummy" started the pitching for the visitors and the second inning saw him ineffectively trying to get the Rochester players at first and second bases with bad throws. Smith replaced him on the mound and till the start of the eighth showed splendid form, allowing only two hits.

In the fateful inning with the score 4 to 2 for Montreal, everything seemed to fall for the home players.

McMillan made second when Purtell threw the ball into the stand. Dolan beat out a slow roller, and Purtell was just able to knock down Conroy's one drive, McMillan scoring. Lelivelt tripled far into left centre, Dolan and Conroy registering. Lelivelt followed them home on Osborn's long drive, which Russell failed to block, and it was turned into a triple. Demmitt relayed the ball in, but heaved it over Yeager's head, Osborn scoring.

In the ninth a sensational double play was the feature. Russell got to first and reached second when Purtell grounded and beat it out. Kelliher lined one through the box but McMillan reached it in time to catch both men out and a minute later caught Roth's fast grounder and got it to first in time.

Toronto, June 11.—Johnny McGraw told Manager Kelly, of the Toronto Ball Club, that he would carry Pitcher Tesreau this season, good or bad, for the experience he would get, even if it be on the bench. This, however, has not deterred Kelly in his efforts to land the big Missourian for the faltering Leaf pitching staff, and he has strong hopes of getting him yet.

Stars and Joliette Promise Lively Game.

The Star Base Ball Club will make their first appearance of this season in Joliette on June 16th, when they will meet the greatly strengthened Joliette nine, in what promises to be a very lively exhibition of ball.

The Independent Champions are great favorites in Joliette and undoubtedly the attendance mark for this season at least will be easily broken. The Stars victory over St. Laurent College has added additional confidence in their camp, and with another workout on Atwater Park on Thursday evening, the players will be going nicely.

The Home (Brooklyn Park) team defeated St. Patrick team on Saturday afternoon in their first championship game by a score of 10-3. A heavy wind was blowing all the afternoon, and soon after 4 p.m. rain came down in torrents, when umpire Evers called the game at the seventh inning. A large number of people witnessed the game, which was one of the best played here this season. Although the visitors played well they could not overcome the home team. The officials were:—

Umpire, Ivers (St. Patrick's); McIntyre, (M. A. A. A.), assistant.

Batteries—St. Patrick's, Hobbs and Danelle. Brooklyn Park—H. Hooper and Brown.

Aspell has asked for and secured his release from the Montreal Lacrosse Club.

Almost any gasoline engine with a well-designed carbureter will run as well with alcohol as with galoline, from the standpoint of operation, except for a difference in ease of starting and in certainty of operation at low speed. Under conditions requiring widely varying speeds the engine is less certain to operate satisfactorily at very low speed when alcohol is used, unless some special adjustment is made. The only change required for the use of alcohol is a gasolene engine, if any, is in the size of the fuel passageways. The fuel needle valve must be capable of being opened twice as wide for alcohol as is required for gasolene, and the spray nozzle must not be restricted to just the size that is required to supply the needed quantity of galoline. The fuel passageways in a carbureter can usually be easily drilled out.

MONTREAL FRANCHISE NOT FOR SALE

Suggestion Makes President Angry — New Outfielder from Syracuse.

Rumors in baseball circles and especially reports coming from Ottawa that the Montreal baseball franchise was to be sold, have angered President S. E. Lichtenhein of the local Ball Club. He positively states that the franchise is not for sale, that nobody has been trying to buy it and nobody has been trying to sell it, this year. When asked about next year," Oh, that is another matter," he said.

Murphy of St. Louis, a new catcher, reported to Manager Lush of the Royals at Rochester yesterday. A new outfielder is expected to report here to-morrow morning in Matt, a Bucknell College graduate, who has been playing this year with Syracuse, and was purchased from that team. He has been hitting this season at a .369 clip.

J. B. Haggins' Horse Won

Special to The Montreal Star.

London, June 11.—J. B. Haggin's chestnut colt, Fermor, by Watercress out of Florence Breckenridge, won the Maiden Selling Plate of 100 sovereigns for three-year-olds and upward, at the Lewes June meeting to-day. Te race was over a mile course and ten horses competed.

The second horse to finish was the Brown gelding, Lancastrian, by John O'Gaunt out of Lady Cynosure, owned by Waldorf Astor.

Isabelita, filly, was third.

PRIZES FOR THE BIGGEST TROUT--SOME FINE FISH RECEIVED

The Montreal Star has decided to hold another trout competition for speckled trout this year, which is to be extended over two months, it being argued that as few people get vacations till the month of June, that month and Dominion Day should be taken in, so that the competition will be open this year from May 1st till July 5th, for trout brought to the Star Office with astatement of the conditions under which it was caught.

(a) Name of the fisherman.
(b) Place of capture.
(c) Witnesses of capture, if any—apart from fisherman.
(d) Whether caught with bait or fly.

The prizes will be as flolows:

CLASS I.—TROUT OVER 3 LBS.

First Prize—Fifteen Dolars.
Second Prize—A first class trout rod.
Third Prize—A first class reel.

CLASS II.—TROUT OF 1 LB. OR OVER AND UNDER 3 LBS.

First Prize—Ten Dollars.
Second Prize—A first class silk line.
Third Prize—A first class fish basket.

CLASS III.—TROUT UNDER 1 LB.

First Prize—Five Dollars.
Second Prize—A first class landing net.
Third Prize—A silver and glass article—generally known as "The Bait Box."

Many people seemed to be under the impression last year that it was little use bringing in fish under one pound, hence the competition in Class III. was less lively than in any of the others, and the prizes were won very easily.

Al competitors are invited to bring their fish to The Star Office for exhibition in The Star window.

WHAT CANADA'S OLYMPIC ATHLETES ARE DOING

J. P. LYONS.

Diver, who will represent Montreal at Olympia.

Eight of the athletes who were successful in obtaining a place on the Canadian Olympic team at the trials here on Saturday, are now quartered at Strathcona Hall on Sherbrooke St., and will be there till they set sail on Friday next. The Toronto men have taken their departure for home and will not return to Montreal till Fridap morning. Those who have taken up their residence at Strathcona Hall are Western men whose homes are too far away to make it worth their while going back.

They are as follows:—McConnell, Gallon, Gillis, of British Columbia, Howard and Keeper, of Winnipeg, DeCoteau of Edmonton and Chandler and Knox.

Most of the visiting athletes were out at the Westmount grounds yesterday morning to get in some practice, as they took advantage of the afternoon to attend the circus. Some of them were again in training this morning, including Gillis, Howard, Knox and Keeper. Gillies has to practice his weight throwing in the morning, asc Loyola College have the use of the grounds for training purposes this afternoon. With small lads around the field, his long distance throwing of the hammer and discus would prove dangerous.

DESCRIPTION OF THE TRIANGULAR CRICKET MATCHES

Star's Special Representative Says Play Has Been Sensational.

Special Correspondence to The Montreal Star.

London, May 31.—The second and last day of the first imperial cricket test match between Australia and South Africa, which began on Monday and finished on Tuesday at the Old Trafford ground at Manchester, terminated with the defeat of South Africa by an innings and 88 runs. It was a game of sensations, and came with a dramatically sudden end. Nobody expected South Africa to win, but everybody did expect a better showing, and—were disappointed.

To put the matter plainly, the South Africans' batting, with one exception, was unworthy of test match cricket, for, on their second innings, the wicket was still essentially a batsman's wicket. There was nothing, in short, to excuse the side for getting out twice in one day for 260 runs.

Sensational incidents supplied by the Australian bowler, T. J. Matthews, enabled the players from the land of the kangaroo to win the first triangular test so easily. Matthews, who is a right-handed, slow to medium bowler, something like in delivery to Mike Bristow, of Ottawa, and C. F. Lane, of McGill, in the first innings took the last three wickets—Beaumont's, Pegler's and Ward's—with successive balls, and thus performed the "hat trick." In the second innings, when five wickets were down, he bowled Taylor and caught and bowled Schwarz and Ward. The last named was thus the unfortunate victim of the third successive ball on each occasion. The Victorian performed the "hat trick" in each innings, and thus completed a world's record. Matthews' two sudden bursts of success aside—and except for the dramatic moments of his "hat trick," his bowling was in nowise remarkable—the Australian bowling was often erratic in length. There was, indeed, much bad length bowling, but an equal quantity of bad batting prevented it from meeting with the punishment it deserved. Rank long hops and obvious half volleys were time after time patted timidly back to the bowler.

The players from the Cape are badly off for a fast bowler, and it was the want of this that enabled the Australians to gather in 448 runs, whilst they were defending on a perfect wicket. The only South African fast bowler who has a prominent place in cricket history is the big burly Boer farmer, J. J. Kotze, who did such wonders for the South Africans when they were over here last, and first, in 1907, but the western province player was then making a honeymoon trip of the tour and was urged to derring deeds by the admiring glances of a pair of eyes, the gentle owner of which could with difficulty take Jim's watch out of his waistcoat pocket to see the time! Kotze has a few other little things to look after now, and could not make the trip. R. Beaumont was practically chosen to take Kotze's place, but the young Natalian has not done anything of note yet in England. The bowling was thus left in the hands of S. J. Pegler (Transvaal), R. O. Schwarz (Transvaal), A. D. Nourse (Natal), and Gordon White (Natal and Transvaal), the four of whom had a very sorry time. But, still, when one bears in mind that out of the 448, Kelleway claimed 114, Bardsley 121, extras 24, total 259, leaving 189 for the other nine batsmen, the figures are not so cruel for the South Africans. But they must yet do great things before they will regain public confidence. Of their own total of 265 in the first innings, G. A. Faulkner had 122 not out after an innings whose equal has seldom been seen in any cricket field. Frank Mitchell, the skipper, foolishly sent him in first in the second innings, and, weary and heavy of foot, the admitted best bat in the world was bowled for a "duck."

ROBERTS PLAYED NEWCOMBE AT BILLIARDS.

Quebec, Que., June 11.—Roberts, the famous English billiard champion, who has just arrived from the Old Country, to make a tour of Canada, gave an exhibition of his prowess at the Garrison Club last evening, when he played a game with Young Newcombe, whom Roberts proclaims is to be the coming champion of the world.

There was a large attendance of the members of the club, who were greatly interested in the game. Roberts gave Newcombe, who is only a youth of 18, 75 points in a 750 point game, and won out by 110 points. The playing of young Newcombe was really sensational, and it took all the strategy of the master to keep ahead. Roberts made one beautiful run, when he tallied a score of 179.

SPORTING BRIEFS

Fort William, Ont., June 11.—Rowing enthusiasts yesterday afternoon wired Eddie Durnan and Jack Hackett, world's famed oarmen, guaranteeing expense money to row a race on Kaministiquia River, on July 26, for one thousand dollars a side.

Verdun II. vs. Lachine II. resulted in a win for Verdun by 89 to 16. Anders, Colbran and Bradley helped greatly to add to the big score with their batting.

STEALING NEWARK'S SIGNALS

Vice-Pres. Soloman Thought Handkerchief Waving Meant Something.

Special to The Montreal Star.

Baltimore, June 11.—George Solomon, the vice-president of the Newark Baseball Team, and a newcomer to baseball this year, made a squeal yesterday afternoon about the Orioles stealing the Newark signals. Mr. Solomon is still young in the game, and that may account for his manner of delivering the said squeal. His sad story was to the effect that somebody in a house on Whitridge avenue, the rear of which faces Oriole Park, was wigwagging a handkerchief, and went so far as to say that Scout Steinman, of the Orioles, was the man doing the work.

Mr. Solomon says the tipping was the cause of Dent's downfall on Saturday; Secretary Wicks imparted the tale of woe to Manager Dunn, and the Oriole leader did not require long to get very hot under the collar, and when he came from the club-house at Newark yesterday to go on the field, he told Solomon a few things with the result that the Newark vice-president became considerably more meek than he had been a half hour previously. Mr. Solomon said, among other things, that he had been told all of what he had said by Manager McGinity.

Pitcher Martin, of the Athletics, has been turned over to the Birds, and will report here to-morrow. This makes ten pitchers on the Oriole staff, and when Martin's contract arrives the Oriole roster will be 21, one over the legal limit. This means, of course, that the axe will fall, and when infielder White, of Princeton, reports here this week or next, another head will necessarily be lopped off.

CRICKET RESULTS.

The C.P.R. eleven met McGill II. team on Saturday afternoon. Rain put a stop to the game, but not before C.P.R. had beaten their opponents' score of 25. Bagge and Jackson bowled splendidly, Bagge taking four wickets for four runs and Jackson four for nine. C.P.R. only lost three wickets before securing 35, when rain put a stop to play. Mockridge scored 16 out of C.P.R.'s 35.

Verdun met Lachine at the latter's grounds on Saturday afternoon, and won by 16 runs.

Verdun batted first, four of their best wickets falling for 2 runs, but a total of 53 was reached. Lachine could only put together 37. The feature of the game was the bowling of A. G. Burgess for Verdun, who captured 6 wickets at the cost of but 12 runs.

POLITENESS A NECESSARY VIRTUE IN SOCCER RANKS

Royal Rovers Were Censured in That Respect—Various Disputes Settled.

Something big was expected at last night's meeting of the P.Q.F.A., that is, according to one or two of their officials, but that something did not come off. The nearest thing approaching this direction was a vote of censure on Royal Rovers, for want of courtesy in not replying to the acceptance of their presumed entry in the Caledonian Cup tie against Sons of Scotland.

The First Division caught a snag in returning the P.Q.F.A.'s letter re the penalty of playing an ineligible man, as it referred purely to the point of a defaulted game. Neil Doran, the referee, was reported by two clubs, for not sending in the necessary details of matches in which he had officiated. The matter was sent to the Referees' Association for them to deal with.

The Third Division asked for a ruling as to whether a home club was liable for a referee's fee if the said official called the game off. In this case it affected one of the smaller clubs, and the P.Q.F.A. agreed to pay this particular official themselves.

Mr. Fred. Barter brought forward his constitution of the Dominion Football Association, and asked the P.Q.F.A. to accept it as a provisional one only, to be amended by the various provinces at the July meeting in Winnipeg. Some discussion took place, but ultimately it was decided to affiliate with the D.C.F.A. and accept the rough constitution on the conditions mentioned. Mr. Barter further stated that they, the P.Q.F.A., could be represented by two delegates or by proxy at the Winnipeg meeting. There was a lot of talk about the inability to get a full list of referees for the newspapers in time for publication, but it was agreed to hand out to any press representative applying for same from the Referees' secretary the Thursday of each week.

The Sons of England-Fairmount game in the Caledonian Cup tie will take place, contrary to any other rumors, to-morrow evening (Wednesday) on Grand Trunk's ground, Point St. Charles; kick-off at 6 o'clock. The meeting adjourned to meet on Monday next, when the sole business will be the proposed amendments to the Dominion Football Association.

JOHNSON FEARS HE WILL GROW STALE.

Las Vegas, N.M., June 11.—Jack Johnson, fearing that he will grow stale before the time for his match with Jim Flynn, announced last night that he would not do any boxing for several days. According to Tommy Burns, the champion's trainer, Johnson has been overdoing the boxing end of his training and for the next week will do nothing but road work.

Johnson boxed several rounds with Martin Cutler yesterday, four with "Kid" Calvin, and two with George De Bray.

GORDON-BENNETT RACE TO BE AT CHICAGO

England, Holland, Belgium and Switzerland to Send Air Craft.

Chicago, June 11.—Word received last night by the officials of the Aero Club, of Illinois, that the trophy for the Gordon-Bennett race would be shipped to Chicago next week, settled finally that the race would be held here.

It had been rumored that the race might go to a California club, which had offered more money for the event, and was likely to capture it.

Six of the thirteen entrants in the international championship have been certified, it was said here. Three entries have been received from England, while Holland, Belgium and Switzerland have named one each.

CORNWALL TEAM PREPARING FOR A TOUGH MATCH

St. Andrew's Won from Cornwall Commercial College in the Rain.

Special to The Montreal Star.

Cornwall, Ont., June 11.—After successively defeating the Capitals here by 9 to 4, the Shamrocks in Montreal by 7 to 2, and the Capitals in Ottawa by 8 to 4, Cornwall will face a hard proposition on Saturday next, when they go to Montreal to meet the Montrealers. This match is regarded as certain to be a tough one, and while the Montrealers have twice lost to the Shamrocks, and the latter, in turn, lost to Cornwall, it is not taken in this light that the Montrealers should naturally fall an easy prey to the Cornwalls.

The Winged Wheelers apparently gave the Shamrocks a run for their money in that 3 to 2 game on Saturday, and a match of equal closeness may be expected when the Cornwalls line up against the M. A. A. A. men on Saturday. The Cornwall management will pay special attention to the team this week, to see that they are properly fit to stand a hard match. The players themselves are working hand in hand, and such unanimity has not prevailed in Cornwall in years.

St. Andrews Won From Cornwall C. C.

The lacrosse team from St. Andrews, five miles north of Cornwall, came to town on Saturday afternoon and snatched victory out of the very jaws of defeat by defeating the Cornwall Commercial College team by the close score of 4 goals to 3. In the first quarter the College boys piled up the three goals which eventually proved their all.

The St. Andrews artists said nothing, but sawed wood. They sawed off the only goal of the second quarter, and in the third ripped off three more, and finished three-quarter time in the lead by 4 to 3. The last period was in progress but a short time when a terrific rainstorm set in, and as it was impossible to continue the match under such conditions, it was decided that as St. Andrews had one goal the best of the argument, they be awarded the match.

The teams and officials were as follows:—

College—A. Rouselle, Chas. Cummins, J. St. Thomas, J. Seguin, D. McGillis, G. Bater, J. Fortin, L. Kinsella, B. Campbell, H. Scott, J. Heagle, M. Lebano.

St. Andrews—M. Snetsinger, J. Fraser, D. McGillies, D. M. McGillies, A. McDougall, J. McMillan, W. Merpaw, D. E. Wheeler, C. Snyder, C. Murch, A. Denney, C. McGillis.

Referee—C. H. Barber.

Umpires—J. Fawcett and A. McIntosh.

Timers—G. F. Smith and J. McCleave.

Sporting Views And Reviews

The Shamrocks seem to have acquired the habit of defeating Montreal and what makes it a difficult case to deal with, is the fact that the Shamrocks are not trying to throw off the habit.

Saturday's matches in the Dominion League were home affairs, so that the rivalry of neighbors was an element in each. The victories make the Nationals and the Torontos a tie for first place.

With Newsy Lalonde still on the hospital list, the Vancouver team lost to New Westminster. That pounding given Newsy was not a bad thing for those whom he plays against.

It is true enough, as used to be said when the railway monopoly was one of the grievances of the West, "You cannot check Manitoba." For instance, there is the case of the sprinter, Howard, of Winnipeg. He could let his competitors run away from him at the start, then overhaul them in the home stretch, and finish first with such ease, that he could afford time to look back to see how the field was coming on. Howard is a fast man, running like a loose-jointed, well oiled and perfectly working machine. If they defeat him at Stockholm, they will have to move some.

When considering the time made by the Olympic candidates on Saturday, weather conditions should be borne in mind. Although the sun shone during a part of the time, it was never warm. A strong wind swept down the track and at times it reached a gale. In all the short distance races, the runners had to face this from start to finish, which means a handicap of a second or two. It was not an ideal afternoon for record track performances. All the same, the men did well and look promising.

Often the doctor's diagnosis is confirmed at the postmortem. Longboat is reversing all this. His was confirmed on the race track. The doctors could find nothing wrong with Tom and just to show that doctors are sometimes right, Tom went over to the Island track on Saturday and reeled off fifteen miles, so fast that the figures will have to be changed in the record books. As Shakespeare would say Thomas is himself again.

It is to be hoped that the public observed what the Royals did on Saturday. The performance was as satisfactory as it was unique, and Toronto is still wondering how it happened.

Valleyfield has come into the game with a new track, fifty minutes distant from Montreal. There are now about enough to make racing almost a continuous performance.

The man in the street, who strays into an athletic meet and watches a long distance race, for instance, like that of ten thousand metres (six miles and 370 yards), run on Saturday in the Olympic trials on the M. A. A. A. grounds, wonders why a lot of trouble is not saved by first tiring out the competitors on a horse power and then sending them out on the track to run half a mile, equal to the finish of the race, and about the only part that is like a race.

There is no use expecting better weather until there is a change, which may come when the moon changes, or at some other time. This weather cannot go on indefinitely, because there is enough of the sort to hold out.

A bet, it has been said, is "the touchstone of sincerity." Mr. Thomas Flanagan has proved his sincerity by backing Johnson to the extent of one thousand dollars. Well, he ought to have some faith in Johnson, considering that he is to be the pugilist's trainer. But Mr. Flanagan's faith is well founded acording to Johnny Kilbane, a man whose foresight with respect to ring matters is equal to his hindsight. Johnny's prophetic vision enables him to write :"I would not be surprised if Johnson came out of the match without a mark. Flynn can't reach Johnson's face unless he jumps. His only chance is to land on the body, Johnson's strongest part.

"It won't be a match. It will be a slaughter, if Johnson wants to exert himself. He can win in five rounds, or less, if he really tries. He has a terrific arm power, that even a man with Flynn's ability to stand punishment cannot hold up under. I suppose they will go in for the moving picture stuff and carry the match ten or fifteen rounds. But no matter how long or how short, if it is on the level, a Flynn hasn't one real chance in the world."

Such being the situation, would it not be a kindness to Flynn to tell him so? He could then go out and look for another job without more loss of time.

DUCOTEAU AGAIN WON THE 5,000 METRE RACE

Made Splendid Time of 15.27.2 Running in a Heavy Downpour.

In the re-running of the 5,000 metre race of Olympic trials, yesterday afternoon, Ducoteau, of Alberta, won from Chandler, of British Columbia, by 35 yards. The race was a little more than nine laps of the M. A. A. A. track at the Westmount grounds, and while the first mile was covered in a drizzling rain, the rest of the journey was in a steady downpour. The time of 15.27.2 was therefore remarkably good, Ducoteau finishing with a splendid spurt from the start of the last lap. He had allowed Chandler to take the lead at the firing of Starter Farrell's pistol, and even let him get about fifty yards ahead of him. About the fourth lap, the Alberta man started to pick this distance up until he was right up to the leader, and till the end of the eighth lap, they were only a yard apart. Ducoteau had saved a good sprint which then easily took him away from the B.C. man.

As a result of the race Ducoteau will probably be the man to be added to the Olympic team. There is only a small possibility of Chandler's going also. The matter has been referred to the Olympic committee in Toronto for decision.

Ducoteau won the event on Saturday, but the time was so poor, and Chandler had made such good time in former trials that it was decided by the officials that the two men should race the distance again. A few of the M.A.A.A. officials and local and visiting athletes were present to see the contest.

Regularity of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. SOUTH AFRICA OUT FOR FIFTY-EIGHT RUNS.

Second of Triangular Test Cricket Matches Began Yesterday.

London, June 11.—England and South Africa began the second half of the triangular test cricket matches yesterday. Australia won the first from the South Africans, and as a comparative estimate of Australia and England, the present match is being watched with interest, as the third match will bring these two teams together.

South Africa started the batting, but could make no headway against the bowling of Foster and Barnes. Wickets fell rapidly, and the colonials were all dismissed in their first innings for 58 runs. Foster and Barnes each captured five wickets.

REAL MEN THE NEED OF CHURCH THESE MATERIAL DAYS

Congregational Union Closes Its Annual Convention With Loyal Expressions.

"It was the great indomitable spirit of Nonconformists that won liberty, for there could be no liberty when men were compelled to surrender their most sacred convictions at the hands of libertines and bigots. Men of such calibre are wanted to-day, both in the ministry and laity," said Rev. G. Ellery Read, of Sherbrooke, chairman-elect of the Congregational Union of Canada, when delivering an address last night in Zion Church on "The 250th Anniversary of the Act of Uniformity."

"We hear a great deal about more adequate salaries for the ministry, and in so far as that can be managed by the church it should be, but there is a danger in discussing the material side of our relation to the churches we may hypnotise ourself into the belief that we are so badly used that none have so suffered before. We need the virility of our great ancestry, their courage to undertake things for God, though man may never adequately compensate us."

He believed that in the anticipated Church Union the Congregationalists would be able to adjust themselves to the new situation, and in the coming comprehensive church the glories of the commonwealth of Cromwell would be recalled in a greater land made rich with the sacrifice of the past.

The sixth annual meeting of the Congregational Union of Canada was closed by last night's session. Mr. T. B. Macaulay, chairman of the Union, presided, and after various votes of thanks had been passed, loyalty to the King was expressed, with appreciation of the appointment of H. R. H. the Duke of Connaught as Governor-General of Canada. It was noted with thankfulness that H. R. H. the Duchess of Connaught is pronounced out of danger, and it was hoped and prayed that she would have complete recovery.

The seventh annual meeting of the Congregational Union will be held at Toronto next year.

THINKS ENGLAND WILL LOSE MALTA AND EGYPT.

Special to The Montreal Star.

London, June 11. — Captain Faber, in a speech at Stockbridge last night, said that England is giving up her command of the Mediterranean and posting a fleet at Gibraltar, because the Navy has for years been suffering from fatal sleeping sickness. He predicted that England will lose Malta in 1914 as well as Egypt, the highroad to India.

RESIGNATION OF LORD LOREBURN UNDER PRESSURE

Advanced Radicals Disliked Him Because Impartial in His Appointments.

Special to The Montreal Star.

New York, June 11.—A special to the Tribune from London says:—

Lord Loreburn's resignation is officially stated to be due to ill-health, but advanced Radicals have long been agitating to force him out of office. He was always more or less a thorn in their side, owing to his numerous apopintments of Unionists as local magistrates. The Radical argument against him was that he should have paid more attention to the claims of Radicals in the exercise of his patronage.

Moreover, he was openly hostile to the attitude of Reginald McKenna, Secretary of State for Home Affairs, in refusing adequate protection to non-union men, who were willing to take the places of the dockmen out on strike and this, of course, made him an object of antipathy to the laborite section of the Coalition.

Lord Haldane's accession to the Woolsack means the realization of a long-cherished ambition.

Colonel Seely's appointment to be Secretary for War renders a by-election necessary, but his majority in 1910 was so big that Government can easily retain the seat. Colonel Seeley sits for the Ilkeston division of Derby, his majority being more than 4,000 in a total vote of something over 15,000.

ENGLISH AND SCOTCH WOOLLENS A Guaranteed $25 SUIT to your measure for $15.00

DID YOU SEND FOR OUR NEW CATALOGUE?

Every man reader of The Star should look into the English & Scotch Woollen Co. offer, and every woman interested in seeing well-clothed men should see that they do.

English & Scotch Woollen Co. plan puts the latest New York styles, the latest and choicest suit and overcoat fabrics, and the best city tailoring within reach of every man in Canada. It also gives him a suit or overcoat made to his own measure from cloth he himself selects at one-third less than either could buy elsewhere.

$25.00 SUIT OR OVERCOAT. } To Your Measure. $15.00

This wonderful value is no exaggeration. It is possible, because we sell you direct and save commission. We are the largest direct men's tailoring concern in Canada, and consequently in buying from us you simply get "wholesale" prices; and on a $25.00 suit, for instance, save $10.00. Isn't this saving worth your while?

If it is not convenient for you to call at our show rooms, 261 St. Catherine Street West, remember that our catalogue is our only salesman. We pay no agents' commissions. The commission that would go to the agent is the profit you make for taking your own order.

Our Spring and Summer Catalogue FREE.

It contains samples of handsome fabrics from which to make your selection. It shows you all the latest styles, and gives you the latest information on dress. It contains all instructions for taking your own measurements. Here is the English and Scotch Woollen Co. guarantee:

If the Clothes are not satisfactory in every way, return them to us. We will refund your money or make you a new garment.

Send for Catalogue at once, while the season is young. It is FREE, and places you under no obligation. A postal card will fetch it.

Use Form below to order one of our

No. 2601 BLUE SERGE SPECIALS. GUARANTEED ALL-WOOL AND FAST COLOR, $15.00.

It is well known that definite advertising on one particular suit will increase the demand for it. It is also well known that large orders of raw material lowers cost without cutting quality. We have worked these two facts together, estimating the saving in advance, and putting them into better cloth than we could otherwise afford to use. Use form below for ordering this special Suit.

"A Hammock is all right for an afternoon's nap—But for a good night's sleep you want a real Bed."

No one would think of sleeping every night in a rope hammock. Yet many people do sleep on *woven-wire hammocks*—for from a comfort standpoint, the old-fashioned, sagging, woven-wire spring bed is really much like a hammock.

A few nights spent upon a

Banner Spiral Spring Bed

will reveal to you an unexpected difference. For if you've been sleeping all your life on ordinary springs you cannot know what real bed comfort is.

Not even the most expensive, English upholstered box springs can give you more actual comfort than a Banner. And the Banner is warranted by a strong guarantee to *retain* for a life time its spring strength.

Dawes Königsbier

The Ideal Summer Drink

There is no beverage which quenches the thirst so effectively on a hot summer day, as a bottle of cold Konigsbier.

Not only is it a delicious and appetizing beverage, but contains properties which are invigorating and nourishing.

Brewed in the largest and finest equipped brewery in Canada, under the most careful supervision, it is the purest drink that can be taken in warm weather.

When fatigued and enervated after a hard day's work, a bottle of Dawes Konigsbier will work wonders.

It is the ideal beverage for the country home—light and refreshing.

Insist upon having Dawes Konigsbier cold. To have it at its best for family use, place it on ice about half an hour before using.

DEMOCRATS STILL BELIEVE FIRMLY IN RECIPROCITY

Bill to Repeal Measure Will Go to Conference and May Never Reach President.

Special to The Montreal Star.

Washington, June 11.—Over Canadian reciprocity and the Underwood steel tariff bill the House lashed itself into a political frenzy yesterday. While the hall rocked with cheers and jeers, Representatives Jos. G. Cannon of Illinois; Sereno E. Payne, of New York, author of the Payne tariff law; Oscar W. Underwood, the majority leader, Claude Kitchin, Democratic spellbinder, and others, cavorted up and down the aisles and denounced Democratic and Republican tariff policies in turn.

After the smoke of battle had cleared away, it was discovered that the Democrats had stood pat on Canadian reciprocity, and that all but eight of the Republicans had deserted President Taft in his support of that measure. Only seven Democrats voted for the repeal of the Canadian Reciprocity Act.

The final vote was 101 to 144 against a motion by Representative Irvine L. Lenroot, the Republican insurgent from Wisconsin, to concur in the Senate amendment to the Underwood Steel Bill for the repeal of the Reciprocity Act.

This means that the bill will go to conference, and that if the Senate insists on its amendment for the repeal of the reciprocity act the entire measure will fail to reach the President.

Mr. Underwood aroused the enthusiasm of the Democrats by asserting that the Senate had placed this rider on the steel bill merely to defeat that measure, since they knew President Taft never would agree to the repeal of the Reciprocity Act.

Entertain Canadian Cadets.

Special to The Montreal Star.

London, June 11.—The Canadian Cadets were entertained at the Guildhall by Sir Charles Wakefield, who handed each a portrait of Lord Roberts and a personal gift. Speeches of a highly complimentary character were delivered. Lady St. Helier entertained the Cadets last night.

Special Notice.

ORGANIC UNION PLAN ACCEPTED BY THE ASSEMBLY

Opponents Accept Decision of Assembly—Many Telegrams of Congratulation.

Special to The Montreal Star.

Edmonton, Alta., June 11.—The adoption of the report of the committee on church union by the General Assembly was marked by an outburst of enthusiasm seldom witnessed in a church convention. The announcement that the report had been accepted by the delegates brought many expressions of thankfulness from those in the church, both lay and clerical.

Yesterday's vote of the General Assembly on the church union proposals of the union committee is held by all the delegates to the Assembly, to mark an epoch in the history of the Protestant churches of the Continent.

The vote practically commits the great Presbyterian church to organic union, through the intervening steps of co-operation in the varied branches of work of the allied churches, with the avowed goal of organic union.

Great emotion was manifested when the momentous decision was announced, and many in the great assemblage were moved to tears.

The Rev. Dr. Clark, of St. Andrew's Church, Westmount, presented the report of the committee, and his exposition of the findings and recommendations of the committee, which, by the way, were unanimous, was listened to with breathless interest by those present.

The speaker reviewed the efforts of the past eight years toward union, and dwelt upon the necessity of bridging the chasm between the present state and complete union.

Principal Mackay, one of the leading opponents of union, seconded the adoption of the report and declared himself in full agreement with the findings of the committee.

The Rev. Dr. Scott, another of the delegates formerly strongly opposed to organic union, proposed the sending of telegrams of congratulations to the sister churches, which was carried, amid much applause.

Knox Church, Toronto, was selected as the next convention place for the Assembly.

TWENTY NAMES ADDED TO THE COMMITTEE.

The motion to receive the report was then unanimously passed, and it was subsequently adopted as a whole. Dr. Clark proposed that there should be added to the union committee 20 men to confer with the committee in private meetings and to meet the committees of the negotiating churches when drafted for this service. The idea was that these men might be available as substitutes when regular members of the committee were ill, and absent, and this committee may be kept at full strength at every session when the theme may be discussed.

The list of added members is as follows: Principal MacKinnon, Halifax; Rev. Frank Baird, Woodstock, N.B.; Dr. W. H. Smith, Fredericton; Dr. Bruce Taylor, Rev. D. Currie, Perth; Dr. Escott, Montreal; Rev. J. Wilkie, Lindsay; Rev. J. W. Stephens, Toronto; Dr. Drummond, Hamilton; Dr. James Ross, London; Dr. Farquharson, Durham; Dr. C. W. Gordon, Winnipeg; Rev. R. S. Laidlaw, Brandon; Rev. J. A. Cranston, Fort William; G. R. Crowe, Winnipeg; Rev. Colin Young, Prince Albert; Rev. M. M. McKinnon, Regina; Rev. W. C. Clarke, Saskatoon; Rev. W. G. Wilson, Moose Jaw; J. D. Higginbotham, Lethbridge; Judge Swanson, Kamloops; Rev. W. L. Clay, Victoria, and Rev. H. R. Grant, Fernie."

The name of the Rev. Frank Baird, of Woodstock, N.B., who has been very strongly opposed to union, was added on motion of the Rev. Dr. Campbell.

The service of praise and thanksgiving was then begun, the delegates joining in singing one of the Psalms, after which prayer was offered at the request of the Moderator by the Rev. Dr. Gilray. The words of the public prayer were based on a recognition of the fact that the Assembly had fully committed itself to the union which only the details remained to be dealt with.

The report of the committee on church union, reviewed the past progress in this connection, and then submitted its recommendations, as follows:—

"The committee, convinced that organic union is the best method of expressing the sincerity desired by all the Assembly, deems it unwise to proceed immediately to consummate the union, but believes that by further conference and in discussion, practically unanimous action can be secured within a reasonable time, and meanwhile resolves as follows:

"(1) That it be an instruction to the home mission committee to arrange with the other negotiating churches for further delimitation of territory within which they shall severally establish new missions as well as for the fuller application of the principle of co-operation already adopted by the Assembly.

"(2) That it be instruction to the foreign mission committee to confer with the mission boards of the other churches with a view to co-operation in every possible way.

"(3) That similar instructions be given to the board of social services and evangelism.

"(4) That it be an instruction to the committees charged with the publications of the Church to enter into correspondence with similar committees of the other churches as to the possibility of combining their work as a whole or in part.

"(5) That it be an instruction to the board of the colleges to consider the possibility of co-operating with the colleges of other churches situated in the same localities so as to avoid unnecessary duplication in teaching.

"(6) That the union committee be authorized in conjunction with the other negotiating churches to provide for the oversight of union congregations not originally connected with any of the three churches."

BETTER SABBATH OBSERVANCE URGED.

Special to The Montreal Star.

Cobourg, Ont., June 11.—A resolution dealing with various phases of the observance of the Sabbath Day was adopted at yesterday's closing session of the Bay of Quinte Methodist Conference.

The resolution, after stating that the inculcation of one sound principle was more effective than the formulation of a multitude of petty rules, or the enforcement of vexatious prohibitions, recommended that people spending their holidays at summer resorts do more toward the proper observance of Sunday, and also make the evening previous to Sunday a preparation for the Sabbath.

Strong opposition was expressed to games, such as golf, baseball, etc., being played on Sunday.

CHINIQUY MARRIAGE DISCUSSED

(Continued from Page 3.)

was the humble mother of the plaintiff. If the newspaper was a Catholic one it might support the doctrines of the church regarding marriage, but when it directly attacked the honor and sensibilities of people still living, that moment it abused its privilege."

Comment of the Judge.

"What possible public interest," exclaimed Mr. Justice Greenshields, "thirteen years after the death of Mr. Chiniquy, after he had carried out a polemic of the strongest kind against the Catholic church—what possible interest, after the death of a woman who had lived with him, after the celebration of marriage, when she had taken no part in this work against the Catholic church—what possible interest had any paper in saying that such a woman was the illegitimate concubine of a man who had been dead thirteen years.

"From a religious point of view there was no interest, and from a public point of view there was no interest. The law of France and England is the same on this point.

"I concede the right of a church paper to advocate the doctrines of its church in every reasonable way, but with due respect to the private rights of citizens, I deny the right of any paper, call it Catholic, call it Anglican, to select an individual and stigmatize that person as a concubine and say that her children are illegitimate. I deny that on any ground, religious or public."

Mr. Desaulniers, continuing his address, declared: "It is an injury to the Catholic Church to write an article like this. The Jesuit father, whom we heard, himself admitted that the word concubine was a hard one."

"Let us be calm," said Mr. Lamothe, commencing his argument on behalf of the defendant. He claimed the right of liberty of a newspaper in public interest. "We have nothing to say against Mrs. Morin," he said.

Used Strong Expressions

"Mr. Begin did not intend to attack her. I admit that if I had written the article I would not have written it like that. I admit that the article contains many strong expressions. But does it follow that the article was libellous."

Mr. Lamothe went on to claim that the plaintiff had not proved the marriage of Mr. Chiniquy, that he document to prove the marriage in Illinois was not sufficient legal proof. He also objected to the baptismal certificate of Mrs. Morin, the plaintiff.

Mr. Justice Greenshields—"I will never pass on the question of whether there was a valid marriage or not, nor do I believe I am called upon to pass on that question of whether this marriage conforms to our laws, the laws of Illinois or even to the doctrines of the Catholic Church. If two persons were married in the State of Illinois and the proprietor of a newspaper discovered that in his opinion under the laws of Quebec there was no marriage, do you think he would be entitled to come out in flaring letters, saying that that man was living with a concubine? You answer that Chiniquy once a priest, was always a priest. Now it seems to me that the onus of proving that rests on you. Your client took it upon himself without knowing any more about the laws of Illinois than I do, to say that there was no marriage, because he looked up the statute books of Quebec, where they were not married, and he said that the woman was a concubine."

Rights to Interpret.

Mr. Lamothe claimed that his client had the right to interpret the union according to the laws of Quebec. He said that he was not defending celibacy or ancient traditions, but merely citing the Quebec law.

Mr. Justice Greenshields—"Has a paper the right to penetrate into a private life and say: 'You are living with a concubine.' Your client practically says in this case: This woman was never married; she lived with a man, and, therefore, she is a concubine."

Mr. Lamothe claimed that considerable latitude of statement was allowed in many cases, but the judge caused laughter by saying: "I made the statement in an English cathedral once that certain articles were stolen from the Catholic church, and they promptly put me out of the cathedral."

"Chiniquy was dead thirtten years," the Judge proceeded, "his memory lived, there is no doubt, and his books lived. Madame Allard died. All Chiniquy's good and all his harm had been done; he had accomplished everything. What possible interest was there in saying that this woman, who had just died, was a concubine. Can a newspaper in attacking a public man's public acts add. 'And in addition to all this, you are living with a concubine.' I would stop it if I could, and I think I would be justified by very high authority in doing so. The English law is extremely jealous of the private lives of citizens."

Case of Sir Charles Dilke.

Mr. Lamothe cited the case of Sir Charles Dilke, who, in a similar way, had been forced to resign from public life. The judge said this would apply to men whose private lives were so notorious as to become a scandal, but here was a woman who was a wife and mother, presumably; she did not scandalize anybody. "It did not do any person any good in Montreal, not even the Church of Rome, to say she was a concubine. I had no interest in knowing it."

Mr. Lamothe—"Chiniquy was the first sinner. He attacked not only the priests, but the women who went to confess to the priests." He argued that something must be done to stop the effects of public men's teachings. "Have I not the right," he demanded, "to attack the memory of Henry VIII, and say that he killed his wives?"

Mr. Justice Greenshields—"But, Mr. Lamothe, that argument can have no weight at all. Henry VIII's name lives in history. But I do not think the history of Canada or Illinois, will ever say anything about Madame Allard except in La Croix and the records of this court."

Mr. Desaulniers, in rebuttal, claimed that the Chiniquy marriage had been absolutely proven by a copy of the marriage certificate, and that the same applied to the baptism of her daughter.

"Quite apart from the law," exclaimed Judge Greenshields again, "no paper has the right to call that woman a concubine, because she is not a concubine. That marriage in Illinois is valid for until it is shown by the defence to be invalid."

The court adjourned after Mr. Greenshields had announced that he would give judgment next week.

Jesuit Priest Testifies.

Yesterday's session of the court was taken up with the evidence of Rev. Father Rhulmanns, a Jesuit priest. The witness was closely question by both sides. From a view point of Catholic doctrine, the marriage of a Catholic priest, even if he becomes an apostate, is absolutely null and void. Gonzalve Desaulniers, K.C., who is appearing on behalf of the plaintiff in the case, secured an admission from the witness to the effect that, if the article complained of was above reproach as far as Catholic doctrine was concerned, it might have been injurious as to its form.

The plaintiff's attorney argues that, if a Catholic editor can be said to have a right to discuss questions on principle, such as the one involved in the litigation, he has no right to draw conclusions therefrom in such a manner that the feelings, good name or honor of any particular individual will be injured, as in this case Mrs. Morin claims she was.

GOVERNMENT TO OWN AND OPERATE A BIG ELEVATOR

Will Have Three Million Bushels Capacity—Open Before Close of Navigation.

Regina, Sask., June 11.—Twelve hundred enthusiastic Conservative representatives from all parts of Saskatchewan met last night to do honor to the Hon. Robert Rogers and the Hon. Dr. Roche, the prairie representatives in the Federal Cabinet. Practically every Conservative candidate from the 54 constituencies in this province were present, and from Manitoba and Alberta were many visitors. A telegram from the Right Hon. R. L. Borden was received congratulating the Conservatives of Saskatchewan and Messrs. Rogers and Roche. The Hon. Mr. Burrell, who was to have been present, sent a wire expressing his regret at his inability to attend.

Mayor McAra and James McKay, M.P., introduced Mr. Rogers, who was received with loud cheers.

After paying a strong tribute to James McKay, Mr. Rogers dealt with the conditions he found in his department on assumption of office. Many regulations hampered the property of the settler, and he proposed to remove these.

GOVERNMENT WILL STAND BY PLEDGES.

The speaker spoke very strongly on the necessity of railway development in Western Canada to cope with the enormous increase in the area under cultivation. He strongly criticised the late administration's railway policy. The building methods pursued in the construction of the Grand Trunk Pacific were scathingly denounced.

Mr. Rogers' announcement on the question of Government ownership and operation of terminal elevators created the greatest enthusiasm. He referred to the rumors current that the Government would fail to redeem its pledges on this question.

In answer to these rumors, he announced the purchase of forty-seven acres on the water front at the lakes and the construction of a Government owned and operated elevator of three million bushels capacity before the close of navigation. This was his answer to the false statements regarding the Government's course on this question.

GRAND TRUNK TO START AT ONCE ON THE BOSTON LINE

It is announced by Grand Trunk officials that the work of constructing the proposed line into Boston will be pushed ahead with all possible speed, now that the legal preliminaries have been satisfactorily settled, and the Grand Trunk bill signed by Mr. Foss, the governor of Massachusetts.

The actual route has not yet been fully located, but a preliminary survey has been made. It is proposed to branch off from the Central Vermont at Bellows Falls, on the State line between Vermont and New Hampshire, which will give an entry into Massachusetts from the North-West. The route from Bellows Falls to Boston will be something over one hundred miles in length.

The entry of the Grand Trunk into Boston will give that city effective competition with the Mellen interests, which at present control the transportation routes centreing on the port.

The Grand Trunk has long felt that it has been discriminated against as regards the heavy and remunerative traffic originating in Boston, the cream of this traffic being taken by the New York, New Haven and Hartford, and handed over to the Grand Trunk's rivals when it passed out of New York Central territory. The Grand Trunk now proposes to make a big fight for its share of the traffic, and as one consequence, it is stated that a vastly improved service between Montreal and Boston will be inaugurated as soon as the line is built.

POSTPONE GINGRAS CASE.

Case of Maisonneuve Returning Officer Held Till September Term.

Albert Gingras was called to the prisoner's box in the Court of King's Bench this morning to answer a charge of having tried to obtain, by false pretences, the sum of $200 from the Dominion Government, while acting as returning officer for the Maisonneuve division at the last Dominion elections.

Last March the Grand Jury found a true bill against Gingras. As soon as the defendant was arraigned to-day the prosecution asked for a postponement until the September term, in view of the absence of Mr. E. E. Stockton, an assistant to the Dominion Auditor-General. It was finally left to the judge who decided that the case should be put over to the September term.

STRIKE CONDITIONS IN BOSTON ARE QUIETER.

Increased Number of Cars in Operation—Nearing Normal, Say Company

Boston, June 11.—Better car service on the lines of the Boston Elevated Railway Company marked the beginning of the fifth day of the strike on Boston's big trolley system. An increased number of cars were put in service on all the company's surface, elevated and subway lines, and the company officials claimed that the service was rapidly nearing the normal.

Union officials claimed that the service has not nearly reached the normal stage. They said that new members, including a number of older men in the company's service, are joining the union. The union men remain firm in their demand for recognition of the union and for a minimum wage.

Union officials arranged for a parade and mass meeting to show the strength of the strikers this afternoon.

A well dressed man, believed to be G. W. Reed, Toronto, committed suicide at Mobile, Ala., by shooting himself through the head, last night.

RECORD GROWTH SHOWN IN PORT DURING A YEAR

Complication of Work Done in Port Tells of Vast Improvement in Montreal.

BRITISH FLAG FLIES FOUR TIMES IN FIVE

Commissioners Tell Shippers What Work Under Way Will Do for Port.

Record development in the Port of Montreal, both in tonnage and construction, is recorded by the annual report of the Harbor Commissioners which has just been issued.

Notwithstanding the fact that the business in the previous year was the largest in the Port's history, that done in 1911 was, it is shown in the report, still greater. Not only is this true in the sense of actual ship tonnage and trade volume, but also in a constructional sense, as the growth of the port in facilities and equipment during the past year has also exceeded in extent the same work done in any single previous year.

It is pointed out by the Commissioners that during the past year, the official inauguration of the Cunard line service between London and Montreal, calling at Southampton took place on the 3rd of June, with the arrival of the "Ascania." A new service of steamships between Montreal, New Zealand and Australia was established last year by the New Zealand S. S. Line.

The "Toiler" the first oil-burning freighter in the American trade was also added, and the new Allan liner Scotian and the White Star liner Teutonic were in service throughout the year.

Marine Insurance Rates.

Regarding marine insurance rates, it is stated in the report that as a result of the visit of the President of the Commissioners, Major G. W. Stephens, the Underwriters, after listening to a detailed report on the improvements in the channel presented by Major G. W. Stephens, promised to consider the question of reduction of insurance rates on vessels in this trade.

One feature is the statement made in a report on taxation. It is, therein pointed out that the annual assessment on the harbor is $270,668.50, on a valuation of $18,612,150." As the Harbor Commissioners are only trustees for the Dominion Government and the property taxed by the city is the property of the Government "reads the report," there seems to be little justice in the movement to tax Canada's national port."

Regarding the new drydock, it is stated that constant work was carried out on this project throughout the season. Sixteen and a half acres of reclaimed land were completed of a total of thirty acres. Foundations for the permanent basin walls were laid on one side, and the approach channel and the basin proper dredged to almost the required depth. Unless unforseen conditions arise, it is stated, the Commissioners look forward to the arrival of the dock this summer.

The dock will be capable of lifting 25,000 tons, or simultaneously repairing three small ships.

Ship-Repairing Plant.

The ship repairing plant which will be erected at the site of the drydock will establish an industry employing 2,000 men.

The report details all the improvements, minor and otherwise, on the harbor.

Two new tugs were placed in the service of the harbor: The "John Young" built at Sorel and the "Beaver," purchased from the Gilbert Company.

The floating crane had last year, the report states, the busiest time in its history. It was constantly employed in handling freight which, had it not been for the crane, would have had to be shipped via another port.

The demand made for first class accommodation greatly exceeded, last year, the present capacity of the harbor. To meet this demand as far as possible, the construction of a new shed on Victoria Pier was commenced and the erection of two concrete sheds on the Tarte Pier undertaken. All these three sheds were as soon as their construction was announced, either leased or spoken for by different shipping companies.

Among the distinguished visitors who inspected the Port, the following are mentioned: Earl Grey, Sir Thomas Price, 150 Bostonians, National Editorial Association, Board of Trade, Chambre de Commerce, Montreal Corn Exchange Association, Bankers Association, Hardware & Metal Association, Canadian Manufacturers' Association, and Dry Goods Association.

The grain trade, it is stated, was good.

The Fire Protection.

Regarding fire protection, it is mentioned that the fire tug "St. Peter" is in commission day and night.

Regarding strikes, it is stated that in June, Montreal was affected by a strike prevelant in British ports. Mention is also made of the strike of local 'longshoremen in June last which durated two days.

In the report of the Secretary-Treasurer the receipts for the past year are given as $912,225.23, as compared with the receipts of 1910, which totalled $836,115.17. The amount disbursed on the capital account was $2,334,119.03, $936,152.46 of this sum having been spent on the construction of the Harbor Commissioners' new grain elevator.

Of the vessels which visited the port, 572 were British, 165 Norwegian, 17 German, 3 Dutch, 2 Belgian, 2 American and 1 French.

The closing of navigation last year, it is stated in the report, was the latest for the past ten years.

An interesting chapter of the report entitled "The Future," gives the plans of the Commissioners for the time to come. The engineers, it is stated, have been given the following task:

The Engineers' Work.

All extensions to be first-class as regards permanence, equipment, protection, safety and convenience of access.

To provide for the traffic already in sight, which means that double the present accommodation will be needed at the end of 12 years.

To provide wharves and facilities on the required scale for the very much larger ships which will come with the completion of the 30-foot channel from the sea, already commenced by the Government.

To improve the valuable railway situation in the harbor, to make available connections from all points and to take advantage of the non-productive harbor areas, almost in the centre of the business section.

To take advantage of the complete ownership of the water-front and provide a terminal belt-line connecting all points, and so increase the value of manufacturing sites and generally increase harbor business and revenue.

What Effect Will Be.

This scheme will, according to the report, do the following:

"Will double the capacity of the port.

"Will lessen St. Mary's current so that water porterage from one end of the harbor to the other may be possible, thus making the river frontage in the east end of the city as valuable as the centre now is, and reducing the long cartage charges over the whole area.

"Will give an all-year-round railway service from Point St. Charles to Bout de l'Ile, open on equal terms to every railway doing business in Montreal.

Low Priced Power.

"Will create manufacturing and warehousing sites possessing:—

(a) "Direct rail connection over all lines with every part of the continent.

(b) "Deep water wharfage available to all ocean lines coming to Port.

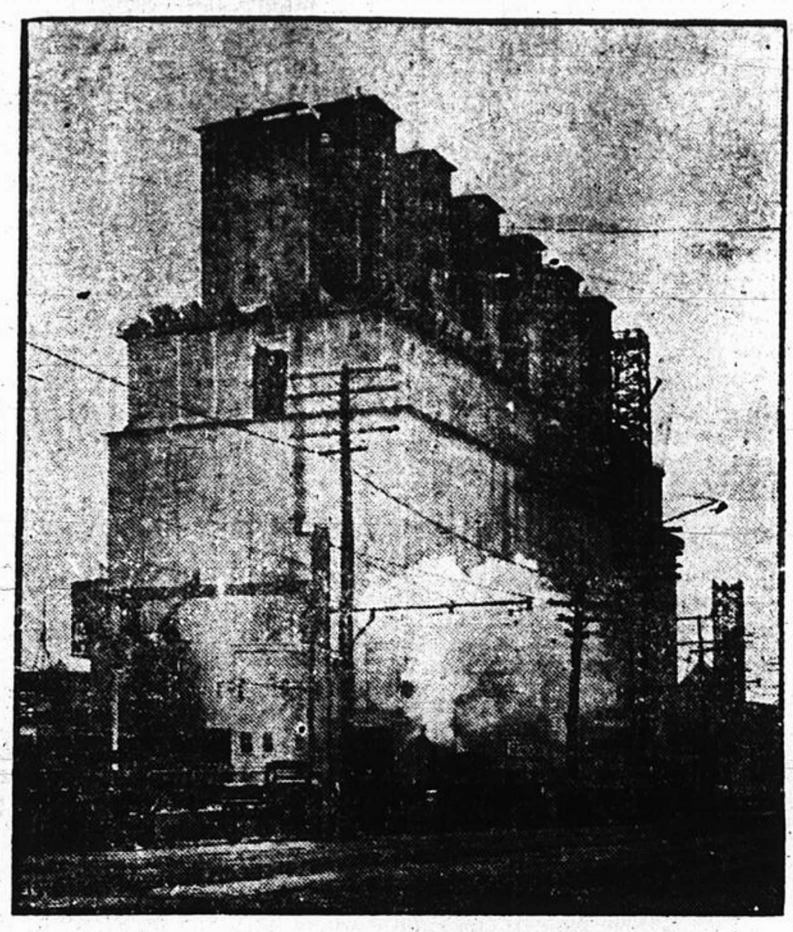
(c) "Water access by way of canal system to Western Canada and the United States.

"Will create low-priced power for the movement of harbor equipment, grain elevators, etc.

"Will reduce the handling charges on every ton of freight coming to the port."

Detailed accounts of the work carried on in the harbor during the past year are given, mention being made of the new facilities which have been added, additions to the construction plant, additions to the fleet of tugs, dredges, etc.

HARBOR COMMISSIONERS' REPORT SHOWS PROGRESS.



The second unit in the Harbor Commissioners' grain handling plant is now nearing completion and will be in commission during the present season. This illustration from a photograph by a Star staff photographer shows the condition of the structure to-day.

HUGE ELEVATOR ON RIVER FRONT ALMOST FINISHED

Has Capacity for Double That Originally Intended by Commission.

The new No. 2 grain Elevator, the property of the Harbor Commissioners is now nearing completion. The work on this great elevator was commenced in 1910, on the bulkhead wharf, opposite Jacques Cartier Square. The elevator was at first designed for 1,000,000 bushels of grain, but later it was decided to increase its capacity to 1,750,000 bushels. Last year, the grain congestion was so great that the commissioners decided to add more capacity to the new elevator, so that the plans were again changed, and when completed, the gigantic structure will be capable of containing 2,600,000 bushels, or considerably more than twice what it was intended to contain when it was first designed.

This elevator is 456 feet long and 100 feet wide, the receiving elevator being 314 feet long and the extension 142 ft.

The grain handling capacity of the elevator will be very large. Four tracks run along the entire length of the building. It will be a simple matter with the new elevator to unload twenty-four cars of grain simultaneously.

A cluster of houses, one of them open and lighted, was all which lay between him now and the country road. He was hurrying past, for his step had unconsciously quickened as he turned his back upon the station, when he was seized again by that mood of curiosity and stepped up to the door from which a light issued and looked in. A common eating-room lay before him, with rudely spread tables and one very sleepy waiter taking orders from a new arrival who sat with his back to the door. Why did the lonely man on the sidewalk start as his eye fell on the latter's commonplace figure, a hungry man demanding breakfast in a cheap, country restaurant? His own physique was powerful while that of the other looked slim and frail. But fear was in the air, and the brooding of a tempest affects some temperaments in a totally unexpected manner. As the man inside turns slightly and looks up, the master figure on the sidewalk vanishes, and his step, if any one had been interested enough to listen, rings with a new note as it turns into the country road it has at last reached.

But no one heeded. The new arrival munches his roll ond waits impatiently for his coffee, while without, the clouds pile soundlessly in the sky, one of them taking the form of a huge hand with clutching fingers reaching down into the hollow void beneath.

At Six.

Mr. Challoner had been honest in his statement regarding the departure of Sweetwater. He had not only paid and dismissed our young detective, but he had seen him take the train for New York. And Sweetwater had gone away in good faith, too, possibly with his convictions undisturbed, but acknowledging at last that he had reached the end of his resources. But the brain does not loose its hold upon its work as readily as the hand does. He was halfway to New York and had consciously bidden farewell to the whole subject, when he suddenly startled those about him by rising impetuously to his feet. He sat again immediately, but with a light in his small grey eye which Mr. Gryce would have understood and revelled in. The idea for which he had searched industriously for some months had come at last, unbidden; thrown up from some remote recess of the mind which had seemingly closed upon the subject forever.

"I have it. I have it," he murmured in ceaseless reiteration to himself. "I will go back to Mr. Challoner and let him decide if the idea is worth pursuing. Perhaps an experiment may be necessary. It was bitter cold that night; I wish it were icy weather now. But a chemist can help us out. Good God! if this should be the explanation of the mystery, alas for Orlando and alas for Oswald!"

But his sympathies did not deter him. He returned to Derby at once, and as soon as he dared, presented himself at the hotel and asked for Mr. Challoner.

He was amazed to find that gentleman already up and in a state of agitation that was very disquieting. But he brightened wonderfully at the sight of his visitor, and drawing him inside the room, observed with trembling eagerness:

"I do not know why you have come back, but never was man more welcome. Mr. Brotherson has confessed—"

"Confessed!"

"Yes, he killed both women; my daughter and his neighbour, the washerwoman, with a—"

"Wait," broke in Sweetwater, eagerly, "let me tell you." And stooping, he whispered something in the other's ear.

Mr. Challoner stared at him amazed, then slowly nodded his head.

"How came you to think—" he began; but Sweetwater in his great anxiety interrupted him with a quick:

"Explanations will keep, Mr. Challoner. What of the man himself? Where is he? That's the important thing now."

"He was in his room till early this morning writing letters, but he is not there now. The door is unlocked and I went in. From appearances I fear the worst. That is why your presence relieves me so. Where do you think he is?"

"In his hangar in the woods. Where else would he go to—"

"I have thought of that. Shall we start out alone or take witnesses with us?"

"We will go alone. Does Oswald anticipate—"

"He is sure. But he lacks strength to move. He lies on my bed in there. Doris and her father are with him."

"We will not wait a minute. How the storm holds off. I hope it will hold off for another hour."

Mr. Challoner made no reply. He had spoken because he felt compelled to speak, but it had not been easy for him, nor could any trifles move him now.

The town was up by this time and, though they chose the least frequented street, they had to suffer from some encounters. It was a good half hour before they found themselves in the forest and in sight of the hanger. One look that way, and Sweetwater turned to see what the effect was upon Mr. Challoner.

A murmur of dismay greeted him. The oval of that great lid stood up against the forest background.

"He has escaped," cried Mr. Challoner.

But Sweetwater, laying a finger on his lip, advanced and laid his ear against the door. Then he cast a quick look aloft. Nothing was to be seen there. The darkness of storm in the heavens but nothing more. Yes! now, a flash, of vivid and destructive lightning!

The two men drew back and their glances crossed.

"Let us return to the high road," whispered Sweetwater; "we can see nothing here."

Mr. Challoner, trembling very much, wheeled slowly about.

"Wait," enjoined Sweetwater. "First let me take a look inside."

Running to the nearest tree, he quickly climbed it, worked himself along a protruding branch and looked down into the open hangar. It was now so dark that details escaped him but one thing was certain. The airship was not there.

Descending, he drew Mr. Challoner hastily along. "He's gone," said he. "Let us reach the high ground as quickly as we can. I'm glad that Mr. Oswald Brotherson is not with us or —or Miss Doris."

But this expression of satisfaction died on his lips. At this point where the forest road debouches into the highway, he had already caught a glimpse of their two figures. They were waiting for news, and the brother spoke up the instant he saw Sweetwater:

"Where is he? You've not found him or you wouldn't be coming alone. He cannot have gone up. He cannot manage it without an assistant. We must seek him somewhere else; in the forest or in our house at home. Ah!" The lightning had forked again.

"He's not in the forest and he's not in your home," returned Sweetwater. "He's aloft; the airship is not in the shed. And he can go up alone now." Then more slowly: "But he cannot come down."

They strained their eyes in a maddening search of the heavens. But the darkness had so increased that they could be sure of nothing.

Doris sank upon her knees.

Suddenly the lightning flashed again, this time so vividly and so near that the whole heaven burst into fiery illumination above them and the thunder, crashing almost simultaneously, seemed for a moment to rock the world and bow the heavens towards them. Then a silence; then Sweetwater's whisper in Mr. Challoner's ear:

"Take them away! I saw him; he was falling like a shot."

Mr. Challoner threw out his arms, then steadied himself. Oswald was reeling, Oswald had seen too. But Doris was there. When the lightning flashed again, she was standing and Oswald was weeping on her bosom.

MR. LANGLOIS IS SURPRISED AT PASTORAL LETTER

Editor of Le Pays, on Reading Archbishop's Warning, Does Not Retract Anything.

Mr. Gofroy Langlois, M.L.A., the editor and proprietor of Le Pays, declares he is more than surprised at the attitude adopted by Archbishop Bruchesi, in the warning he issued in his pastoral letter, on Sunday, regarding the conduct of his paper.

"I do not see," he remarked, after reading the Archbishop's remarks last evening, "that I can take back anything which has appeared in Le Pays' since we began publication, for the good reason that we have made it a point to avoid publishing anything of an anti-religious nature. Le Pays has but one object in view, and that is the bettering of the educational system of the province. We have strongly criticized the general conditions of the schools of the province.

Is it a crime for me to be ashamed when I see in the official returns that, while Ontario has 5,420 teachers who have studied in the Normal schools, our whole own Quebec has but 522? Am I to be condemned for desiring a great improvement in educational affairs all along the line? Last year, there were 130,000 children of school age who never darkened the doors of any Quebec school house.

"I am proud of my race, and I fully believe that, given the same chance, French-Canadian children are just as bright and are endowed with the same talents for acquiring knowledge as the English boys and girls, who are growing up beside them.

"But can we ever hope to stand up alongside of the great province of Ontario when we pay our female teachers an average of $133 a head, against $483 a head, paid to the same class by the people of the province of Ontario. These are the reforms I have been advocating, and these are the reforms I will continue to advocate.

"I have never written a word against the doctrines or dogmas of the Roman Catholic, or any other Church, and I need not tell you that my pen will never do so in the future. What I want is the educational uplifting of this province, and to this end I will devote my energies and whatever talents God has given me."

LONGUEUIL JOINS FIGHT AGAINST PEST.

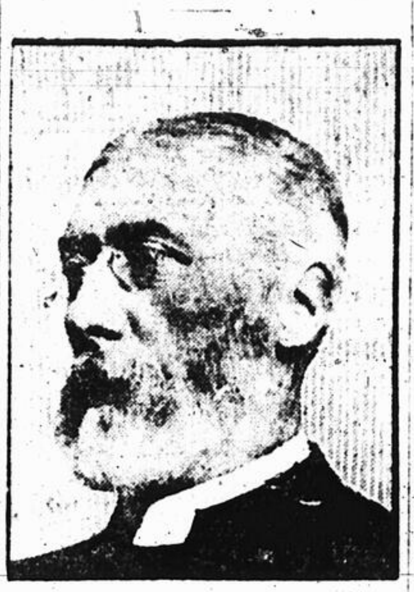
Men Will be Employed to Start Campaign Against Caterpillars Stripping the Trees.

At last night's meeting of the Longueuil Town Council, it was decided to employ men to destroy the caterpillars which are stripping the trees in every avenue of the town. The matter was brought up by Councillor Reford, who asked the co-operation of the citizens.

A communication was received from the Standard Foundry Company of Montreal, asking what inducement Longueuil had to offer if they removed their plant to that place.

A special meeting of the Council will be held on Saturday to consider the matter.

REV. DR. BARCLAY.



Who leaves Protestant School Board and will make extended tour in Europe.

DR. BARCLAY TO CLOSE TRAFALGAR SCHOOL.

That Will be His Last Public Act in Connection With School Board.

The last public act of the Rev. Dr Barclay, in connection with the Protestant School Commission, will be to close the Trafalgar School, on Thursday afternoon, before leaving for Scotland. Dr Barclay has for many years taken a keen interest in the school, and although every minute of his time is occupied with the arrangements for his trip, he will be present at the closing exercises, and will say farewell to the teaching staff and pupils.

A LANCASHIRE SOCIETY.

Committee Formed to Organize One in Montreal.

A meeting over which Mr. F. Gawne presided, was held at the St. George's Home, on Saturday evening, when the Lancashire Society of Montreal, came into being, the attendance was not very large, but a provisional committee was formed to undertake the work of organization. Another meeting will be held at the same place at 8 p. m. on Saturday next, when Lancastrians are invited to attend. There are hundreds of Lancashire people in the city, and district, and it is hoped a flourishing society will be the result. A small sub-committee, consisting of Messrs. Gawne, I. Hibbert Fyfe, Thos. Readie and Hamel, was appointed to arrange for the meeting to be held on Saturday. Mr. I. Hibbert of 207 St. James street, is acting secretary.

REPAIR RIFLE RANGES.

Pointe Aux Trembles Targets Will Undergo Complete Overhauling This Summer.

The rifle ranges at Pointe aux Trembles are to undergo a complete overhauling in the course of the next couple of weeks, so as to be in the best of shape for the shooting meet to be held there later on in the summer. These ranges have been in use for some years now, and a number of details such as targets have been found to be in need of repairing. Tenders for the work have been asked for.

COUNCIL PASSES AUTO-BUS BY-LAW BUT NO FRANCHISE

Enactment Provides That City is Empowered to Consider Applicants for Franchises.

The City Council yesterday afternoon adopted the auto bus by-law. It was not stated in the enactment that any company would be given the franchise for the auto-bus service; this will be decided later on. Amendments were made so that such vehicles will have to operate in outlying wards. No autos which may now be running will be allowed to continue without getting permission from the city council. The by-law provides that the speed of such vehicles shall not be more than nine miles an hour. Seats must be provided for all passengers. Fares shall not exceed five cents, with transfers. A five minutes service must be provided during the rush hours.

Percentage on Earnings.

It was contended that if the companies should pay percentages on their earnings to the city. The following clause was added to the by-law in regard to the city's right to control such service and in regard to percentages:

"No person or company shall operate autobuses or establish, maintain and operate autobus lines in the city of Montreal, on the streets mentioned in the present by-law, without obtaining a permit to that effect from the city, and such permit shall be granted with such conditons and specifications as the controllers and the Council may judge proper to stipulate."

The proposed routes, which have already been published by The Star in this paper, were then taken up and discussed. Amendments were made so that buses would have also to run in such outlying places as Ahuntsic, Bordeaux and Point St. Charles. The Notre Dame street line will be a short one, extending from the intersection of Bonsecours to Inspector. The Craig street line will run from Papineau avenue to Windsor. The St. Catherine street line will start from the corner of Nicolet street and extend to the western city limits. The Sherbrooke street line will run from Papineau avenue to Atwater avenue, and the other projected lines are similarly laid out.

Lines in The Point.

The two lines proposed for Point St. Charles were submitted by Ald. O'Connell and Ald. Monahan. The former proposed that a line of buses operate from McGill street along Wellington to Hibernia road, and the latter that a bus line be established from Wellington, Butler, Centre and Atwater to Notre Dame. Both suggestions were added to the by-law. The McGill street line will run from the corner of Common and McGill to Victoria square, Dorchester and University streets.

In reply to Ald. Fraser Ald. Lapointe said the present enactment would simply empower the city to entertain any requests which might be made for franchises.

GARBAGE DUMP AT CITIZENS' DOORS IS AGAIN EXPOSED

Refuse in St. Denis Ward Washed by Rain and Festers in Sun.

Citizens residing in the vicinity of St. Denis, St. Zotique and Beaubien streets are still complaining about the unsanitary conditions of the lane in the rear of St. Denis street, between Beaubien and St. Zotique streets, which was filled with garbage by city scavengers three weeks ago.

Last week the rubbish was covered with ashes, but as a result of the heavy rains, much of the covering has been washed away, and the tin cans, old boots, bottles, and rubbish of all kinds is exposed to the sun, and it is feared by the neighbors that there may be sickness among the children if the nuisance is not removed immediately.

They claim that in spite of the covering of ashes they are obliged to keep their doors closed on account of the odor, and a demand will be made on the Health Department to remedy the evil if the officials of the Incineration Department do not remedy matters.

MAN WHO KNIFED WIFE IS DECLARED INSANE.

Jury Decides That Alexander Grahame is Not Mentally Responsible.

In the case of Alexander Grahame charged in the King's Bench with attempting to murder his wife, the jury at a late hour yesterday afternoon returned a verdict of not guilty on the ground of insanity. The entire evidence showed that the man is not mentally responsible. Crown Prosecutor Walsh did not address the jury, but Mr. Albert Germain, for the defence made a strong plea for acquittal. When the verdict was rendered His Lordship committed Grahame to be held, awaiting the pleasure of the Lieutenant-Governor.

UNDERGROUND CONDUITS.

Telephone Company Gets Permission to Open Twenty-five Streets.

A communication has been received by the Board of Control from the Bell Telephone Co., asking that it be permitted to open twenty-five sections of streets for the purpose of laying conduits. The Controllers gave permission, as it was shown the company had special powers to open streets from the Legislature. The company must have the city supervise the work and will also put up a guarantee that it will put the streets in good repair again.

Address and mail your Jingles to
Jingle Dept. 819, CANADIAN POSTUM CEREAL CO, LTD., WINDSOR, ONT.

Use of above form of answer is suggested, but not required.

We will buy 25 Post Toasties Jingles, acceptable for use in a Jingle Book, received during June, 1912, at $20.00 each.

Only the Jingles we pay for will be used, but no Jingles, whether purchased or not, will be returned.

The names and addresses of the writers of the 25 Jingles purchased in June, 1912, will be printed and mailed to each enquirer who sends us a 1c stamped and addressed envelope for return.

The Jingles will be judged honestly upon merit, so if you are a sensitive person and not a good sportsman don't try, for we have no time to "pet up" those whose Jingles are not accepted.

Fill in the missing line of the incomplete Jingle printed above, making the last line include the name "Toasties", with correct rhyme and metre.

Or, write an original Post Toasties Jingle of not less than 4 lines, any one line of which must contain "Post Toasties" or "Toasties."

As many Jingles may be submitted as desired.

No Jingle submitted in May, 1912, will be considered in this June, 1912, offer.

One can make this a pleasant form of entertainment, may make some extra money, and in addition become acquainted with

Of Course You Know All about COLORADO

If you have been there before, you need no persuading to go again. Hundreds of thousands of people are taking their vacations there this year. Your memory holds no other place where the mountains are so green. In no other land do the white clouds float so lazily in the clear blue sky. Not even in books is Romance half so fair. Every man or woman who has a touch of poetry in his or her veins desires to go. And that is why the cities and the level country of the Middle West pour out their myriads of people into these glorious mountains every year. Of course you, too, are going to Colorado, if you possibly can. The only question is of the best way to go.

There are five routes to Colorado, but the route that most people travel, and all people recommend, is

BETTER BE DEAD THAN SATISFIED, SPEAKER BELIEVES

Hubert Beaumont, a Fabian Leader, Addresses Montreal Garment Workers.

"The world is growing very rich. Yet all over the world, men, women and children cannot get the essential things of life.

"No one should have more than enough until every one has enough.

"The social revolution is bound to come. It is coming. No one can stop it. Not a bloody revolution, but a building up, by peaceful means, of the palace of the people.

"The great mass of the workers had better be dead than satisfied with things as they are. But holy discontent is abroad in Canada, as it is all over the world, and I rejoice to find it."

These are some of the things said last night by Mr. Hubert Beaumont, a prominent member of the Fabian Society of London, and one of the most active of the younger men in the labor movement in Great Britain, who addressed a mass meeting of the striking garment workers in Coronation Hall, St. Lawrence street. The hall was crowded to suffocation and the strikers were all in enthusiastic mood and greeted Mr. Beaumont's utterances with thunders of applause. Mr. Victor Altman, who is directing the strike, presided.

Not An Isolated Affair.

The present strike, said Mr. Beaumont, was not an isolated affair. It was of importance to every worker in Montreal and all over Canada, and in fact the struggle was the fight of labor the world over. The engrossing fact in every civilized land to-day was the unrest of labor; and this unrest was significant of one thing and one thing alone: The workers had learned the truth, that they were the producers of wealth and were demanding more of the good and essential things of life than they had hitherto received.

The cause of these strikers was the same everywhere. The cost of living had gone up enormously all over the world and wages had not risen in proportion. "The strike is admittedly a bad weapon," said Mr. Beaumont, "but, workers, there comes a time when it is the only thing left to you and then you must use it."

The Cost of Living.

Canadian statistical experts had proven that it cost $700 a year for a husband, wife and two children to live anything like a decent life a year in Montreal. "To do that," said Mr. Beaumont, "you must make $14 a week. If any of the workers get that, or less than that and save anything, then you do a criminal act. You are robbing your wife and your children of the essential things of life. But is it not a fact that many of you do not receive that $14 a week?" Shouts of "Yes! Yes! That's true," came from all over the hall. "The majority of these workers," said the speaker, "get less than $14 a week; therefore their cause is just."

"In Canada," said Mr. Beaumont, "I am sorry to say that I have found some of the worst social evils we have in the Old Land." Here the speaker exhibited two pages of the Montreal Star showing pictures of slum dwellings. "These hovels," he said, "are not fit to house human beings. This condemns the people of Montreal who allow these things to exist. Crime is due to circumstances. What could come out of such miserable dens but crime?

System Makes Criminals.

"A starving man, housed in a hovel, steals a loaf of bread. He is imprisoned. But, let me say it, he would have been a criminal if he had not stolen. It is your system that makes him a criminal.

"Right here in Montreal I find children ill-fed, ill-housed, ill-clad. These are the fathers and mothers of the future. You in Canada are proud to be part of that Empire upon which the sun never sets. See to it that you do not allow to grow up in your soil dens into which the sun never penetrates."

The speaker then discussed the demands of the strikers and declared them just and reasonable.

"Conduct this strike in the most reasonable, sane and just manner possible," advised Mr. Beaumont. "If you discover any of your number talking violence or doing it, hand him over to the police yourselves. Don't make the strike harder for your leaders than it need be. Be calm and firm and you will win.

"Then after the strike, and you are back to work, will you be content? What about your struggling fellowmen the world over?

A Holy Discontent.

"No, you will not be content; you must not be. Keep up that holy discontent which will win you still greater freedom. Realize your power and vote right. Vote in the interests of labor alone. Demens will yet be King of the World, and once enthroned he will never abdicate. Strive for cohesion, solidarity and unity of action."

WASTED TIME AND MONEY

BEFORE THEY FOUND GIN PILLS.

Galetta, Ont.

"My husband used Gin Pills for backache and Kidney Disease. The pain in his back was dreadful and the kidneys failed to do their work properly. As he became worse, we found it necessary to begin treatment and unfortunately wasted time and money on remedies that were little or no good. After taking one dose of GIN PILLS, he found one dose of GIN PILLS, he found them to be exactly what he needed, and after taking two boxes of GIN PILLS, was completely cured. We heartily recommend GIN PILLS, at every oportunity to our friends and relatives." Mrs. JAMES B. MILFORD.

Write us, mentioning this paper and we will send you a sample box free. Then, if you cannot get the regular size boxes at your dealer's we will supply you at the regular retail price—50c a box, 6 for $2.50—and money promptly refunded if GIN PILLS do not give satisfaction. WHERE THE REPUBLICAN BATTLE WILL BE FOUGHT IN CHICAGO

BARNES TAKES COMMAND

(Continued from Page 3)

To-day's Committee Developements

hold the convention in the same hall where the Taft "regulars" are holding their's if he finds he cannot land the nomination, and try to stampede the general body to him.

However, the Roosevelt men have become wobbly since, seeing such Roosevelt men as Senator Borah and Frank B. Kellogg vote to seat the Taft Indiana delegates. Senator Dixon made no secret of the fact that he did not understand their attitude. Some of the small fry think it may mean the beginning of a break from their candidate.

The Roosevelt men to-day did not look for any further trouble concerning the 26 Roosevelt delegates from California, who were placed on the temporary roll of the convention yesterday. There is nothing, however, to prevent the Taft men on the committee from unseating these delegates when the contest in the fourth district comes up for consideration. The Roosevelt members of the committee seemed satisfied to-day with the assurance of Senator Crane, the Taft leader, that this would not be done.

Roosevelt to Stay East.

That Roosevelt has decided not to come to Chicago was announced by Senator Dixon, the Colonel's campaign manager.

"Nothing could be gained by it," he said. "He can do just as effective work and be heard just as well from Oyster Bay."

There will be no Roosevelt bolt as far as Senator Borah, of Idaho, is concerned. The Senator, who is Roosevelt's chief spokesman in the National Committee, declared that he was opposed to any such move if the Colonel failed to win the nomination.

"No bolt for me," announced Borah. "I haven't seen any reason to think about one, and I don't think Roosevelt has either."

The plan of the Roosevelt leaders, engineered by Wm. Flynn, of Pennsylvania, and endorsed by all the members of the Republican steering committee, to have the convention refuse to recognize the temporary roll made up by the National Committee and to go ahead and capture the convention from the start, will not be allowed to go through. Instead Rosewater, as chairman, will be protected in presenting the temporary roll of delegates as made up by the National Committee and in presenting the name of Senator Root, of New York, as the temporary chairman.

Unless the Roosevelt leaders recede from their present position they will demand that their contesting delegates be permitted to vote on the temporary chairmanship question. This will not be permitted by the National Committee which will have all of the convention machinery at its disposal, including enough husky assistant sergeants-at-arms to put over anything Col. Bill Stone, of Baltimore, Sergeant-at-arms, may order.

The two committees organized on behalf of Taft and Roosevelt forces, which have been making up the convention programme, and which are referred to against their will as "The Vigilantes," are carefully guarding most of their actual plans for convention. They are devoting most of their public energies at the present time to influencing individual delegates and the Roosevelt forces were insisting to-day that they had made decided inroads into Taft's strength in the solid South.

The Dark Horse Talk.

Most of the "dark horse" talk to-day came from headquarters of "A" floor of Congress hotel where Senator Kenyon opened headquarters for his colleague, Senator Cummins, of Iowa. The Iowa senator has only ten delegates in the convention, but he and his friends think this is enough to go on. They were insisting to-day that with the La Follette strength absolutely intact at all times, the combined votes of the Senators from Wisconsin and Iowa would deadlock the convention and prevent the nomination of either Taft or Roosevelt.

The Roosevelt leaders were worried to-day over the open boasts of the Taft men that they will control the committee on credentials, thus affirming the work of the National Committee and making the temporary roll of delegates, prepared by it, the permanent roll of the convention.

What is Roosevelt Going To Do?

elect a chairman from among themselves, hastily adopt a readymade platform, nominate Theodore Roosevelt for President and some harmless statesman for Vice-President, and, after declaring the convention adjourned, leave the hall to the Taft forces.

* * *

So much for suppositions, theories, imaginings, or whatever else they may prove to be after the event. There are certain ascertained facts upon which they have been built up, among which are the following: A suite of rooms was engaged for Mr. Roosevelt a week ago "in case of emergencies." A "Roosevelt executive committee," with twenty odd members, with no publicly-outlined functions, has been organized among the Roosevelt delegates, chiefly those from the Central and Western States. "Hurry up calls" for the Colonel have been sent to Oyster Bay, especially in the last two days. Mr. Roosevelt's own denunciation of the National Committee has taken a form which may easily be construed as an incitation to revolt when the proper moment arrives.

It may also be safely taken for granted that Mr. Roosevelt will head no revolt unless it has a good prospect of proving a successful revolt. Also that Mr. Roosevelt's ideas of success differ in material respects from those of the visionary idealists who usually precipitate revolutions. The Colonel has no objection to men sacrificing themselves to ideals in order that others may later carry a movement to fruition. He prefers, however, to be among those who operate during the harvest stage than with those who do the ploughing and harrowing. All things considered, he is a far better harvester than he is a sower.

* * *

To "bolt" before the convention would be to shed the last of rags of "regularity" which might have partly covered the nakedness of the new movement. It would force many delegates to make an unwilling choice between being "Republicans," or something else. Names mean a great deal and there is a certain sentiment involved in the use of the word "Republican" which may be false and meretricious but which is of weight.

To "bolt" from the convention would not be nearly so bad, viewed from this standpoint. To stir up confusion and then take advantage of it, to pretend to promulgate a platform and nominate a candidate regularly, would be an untried expedient whose success would depend largely upon the popular humor.

One thing is certain: When Theodore Roosevelt puts on his war paint and goes anywhere, it is wise to retire for emergencies. If he goes to Chicago there will be skirt-dancing and tomahawk drill and all the other accessories that make for enthusiasm and sometimes hysteria—and Chicago is a bad place in which to develope hysteria.

RECIPROCITY

It is not surprising to find our old friend, Congressman McCall, of Massachusetts, bobbing up with the optimistic claim that Reciprocity is not yet dead. Still, Congressman McCall ought to know better. He had enough to do with killing Reciprocity to know that its "death" was entirely successful. For instance, in 1904, Congressman McCall said pleasantly:—

"Add to the tremendous influences that are pulling the two countries together **the entangling web that is woven by reciprocal trade; and the inevitable day will be more quickly reached when the two countries shall be politically one."**

Now that was a fairly fatal blow to strike at a scheme which could only succeed by winning the confidence and approval of the Canadian people. Congressman McCall would not blunder into saying that for the world after his eye-opening experiences last year. He now knows that these aspirations to make "the two countries * * * politically one," must be carefully hidden from view. Even the school-boy is aware that he must hide his fish-hook in a tempting mass of bait.

• • • •

But that was not the only inadvertent thrust made by Congressman McCall at the scheme, reports of whose "death" he refuses to credit. Last year, in introducing the Taft Reciprocity Bill to Congress, he said:—

"If we could sweep away all tariffs between the two countries, it would have the effect of another Louisiana Purchase.'

The French people in this Province know perfectly what the effect of the first Louisiana Purchase was on their compatriots. There is no necessity of going into unpleasant details. The political effect was the absorption of the Louisiana district by the United States. The French flag came down, and the American flag went up. In short, "'the two countries" became "politically one."' Thus we perceive the point of Congressman McCall's tactful reference.

Yet, after all this, he does not know that "Cock Robin" is dead. The Massachusetts Congressman must be a very dense person. It will be noticed, however, that his fellow Republicans did not share his optimism. They are reported as sitting, silent and glum, while he disputed the coroner's verdict. Still, he was applauded by the Democrats. The Democrats have every reason to like Reciprocity, and especially to like to see Republicans clinging to the delusion that it is still alive. Did not Reciprocity do much to kill Taft politically? Did not Taft's adoption of Reciprocity amount to a vote of "want of confidence" in the Republican tariff? And are not the Democrats against that tariff at all times.

• • • •

Mr. Oscar Underwood, the Democratic leader, on the floor of the House of Representatives, was also in doubt about the "death" of Reciprocity. He told us last year that he was for Reciprocity as a step towards entire free trade between the two countries. That is, the sort of Reciprocity he favors is Commercial Union. His colleague in the leadership of the Democratic party in Congress, "Champ" Clark, is equally frank about his reasons for liking Reciprocity. He says that he is for it because it means that they "are preparing to annex Canada." **That is the Democratic attitude towards this question.' They want Commercial Union, leading to Political Union.** Just about how "dead" that policy is, they might learn by consulting the very men who made the bargain with Taft. These men would tell them that Commercial Union was killed and buried in Canada so long ago as 1891; and that it ought to be fairly "dead" by this time.

The fact of the matter is—as we said the other day—there is no Reciprocity feeling in Canada, east of the "eastern boundary" of Frank Oliver. If the Liberal newspapers of Ontario, Quebec and the Maritime Provinces could vote on the question by secret ballot, they would record an overwhelming majority against resurrecting this mal-odorous corpse. **We are of the opinion that the Liberal members of the House of Commons east of Lake Superior would show an almost unanimous vote against it.** They could not conceal their regret the other evening that Sir Wilfrid Laurier thought it necessary to pretend that the "baby" was still alive long enough to rebuke the frankness of Taft and to send some encouragement to Walter Scott in Saskatchewan.

• • • •

People who talk as if Reciprocity were still a possibility, have a perfect genius for forgetting recent events. Surely they cannot have mislaid the information that it was decisively condemned by the Canadian people last September. Now, since that condemnation, several things have happened.

(1) The party which favored Reciprocity, have lost the prestige and power that lie in the possession of the Government.

(2) The party that opposed Reciprocity, have gained this prestige and power.

(3) President Taft has published a confidential letter in which he admitted early last year that he expected Reciprocity to make "Canada only an adjunct of the United States."

(4) President Taft has made several speeches in which he said frankly that Reciprocity would have given his people the "big end of the stick."

(5) Ex-President Roosevelt is recorded as having written early last year that he "firmly believed in free trade with Canada for both economic and political reasons."

(6) There is a good prospect of "Champ" Clark being the next President of the United States.

Now, will any friend of Reciprocity in this country say that these happenings have increased the chances of carrying Canada for the measure? Will any one say that they have not considerably decreased those chances? Yet, without any one of these advantages, the anti-Reciprocity campaign won handsomely last autumn. Who imagines that it would not win with a much greater majority if put to the test again this year? Reciprocity is not only dead and buried, but it was buried face downward, and has been digging a deeper grave for itself every day since the funeral.

THE PRESBYTERIANS AND CHURCH UNION

The decision of the Presbyterian General Assembly to experiment with "organic union," with the Methodist and Congregational Churches, in certain religious activities in which all three churches cover to some extent the same fields, is a cautious and wise step. It prevents anything approaching a rupture in the Presbyterian Church; and yet it pays full respect to the vote of the majority of its people. Obviously, there would be no gain from a Union which left a large Presbyterian body outside. Union cannot be served by a new dis-union.

The Presbyterians are very wise to keep together at all costs, and to try the temperature of the water before plunging in. The experiments will be tested in the mission fields, in the educational and publication departments, in evangelism, and in new congregations. These are the fields where co-operation is most imperatively needed. This step, will, therefore meet the present necessity, and pave the way—if successful—to the next step. Yet it will not disturb any of the settled congregations. It will not create a line of cleavage. Now it will remain to be seen how the other churches regard this compromise.

FRANCE IN THE MEDITERRANEAN

The announcement that France will maintain a two-Power standard in the Mediterranean may be an outcome of the recent Conference at Malta, and would appear to indicate a close understanding with Great Britain. If France keeps her fleet strong enough to deal with Austria and Italy combined, then a very small British squadron in the Mediterranean will be enough to retain the command of that sea for the Triple Entente. This looks more like the real solution arrived at than the talk of Britain spending her surplus on a new Mediterranean fleet. The two Western members of the Triple Entente have not an ounce of strength to spare on providing naval power outside of the storm centre in the North Sea which is not absolutely needed; and any considerable number of British battleships will not be needed in the Mediterranean if France can offset the Italian and Austrian building programmes.

Still, Britain must probably detach a Dreadnought or so for this service. She cannot leave the Mediterranean absolutely empty of British fighting ships. And this necessity will increase the drain upon her naval resources and make it more imperative that her colonies shall help her defend the Home waters. It is all very well to talk as if she could build additional ships, were they required; but there is bound to come a limit to her power of production, and Germany is calculating upon crowding her over that limit. Germany, be it remembered, has no Mediterranean problem to bother her. She can put all her eggs in one basket—a very effective policy when it comes to a great naval battle.

The promotion of Col. Seely to be Minister of War, in the place of the wordy Haldane, probably means a sharp advance in the military preparations of the Mother Country. Col. Seely is much the same sort of innovator as Winston Churchill; and we may look for things to happen in the War Office. There is no doubt that Britain's fighting force on land has not been adequate. The huge Haldane "Territorial" scheme seems to have resulted chiefly in "paper" efficiency. Individual Ministers have more effect upon public policy in Great Britain than they have here; and, while there is no change of Government, there will likely be a marked change in policy accompanying these changes at the War Office.

Local Navies Are Mistakes.

Halifax Herald—A recent London dispatch shows that it has already been forced upon public attention by the logic of events, that "local navies" are not only gross mistakes from the point of view of theory and strategy, but are also practically unworkable and useless for real defence purposes. It is already being clearly perceived that Australia made a mistake when, some two or three years ago, it changed its naval policy from the "One Empire, One Navy," plan, and adopted the "local navy" plan; and it is being fully appreciated that New Zealand acted wisely in adhering to the "One Empire, One Navy" plan, and thereby set the proper example for all the other Overseas Dominions of the Empire.

Sir Wilfrid Laurier had given Germany every ground for believing that Canada would stand aloof from the Motherland, and it was naturally expected that the example of Canada would prevail throughout the other British Dominions.

Now is the time for Canada to strike in and undeceive the Germans completely, by a strong, "One Empire, One Navy" policy, with the assurance of such an early Canadian addition to the Royal Navy as shall materially strengthen it, and give unmistakable promise of the future unity and consolidarity of the British Empire for defence purposes.

That would be an argument that the Germans would understand and would be a great move in the interests of international peace.

French Canadians Leaving.

Fibre and Fabric—With the French-Canadian mill operatives leaving the country by the thousands, and the native help getting into other occupations as fast as positions are open, the foreign mill worker assumes a more important position than was credited to him, a few years ago, and there is no question but the foreign population working in our mills must be educated, by compulsory law if by no other means. The Canadian Government has hundreds of agents in our New England cities seeking families to go into the great Canadian Northwest; employment agencies and steamship runners are scouring Europe for families to come to America, and the new arrivals exceed the departures in number, but in number only, as a population with a respect for law and order and a born adaptability for working in wool and cotton is leaving, with a mob of raw recruits, full of anarchism and defiance of law and order, is coming in to fill the vacancies.

Capitalizing the Strike.

Philadelphia Press—It is evidently the intention of the coal operators to capitalize the recent strike of their workmen and make it bring them increased profit. It was foreseen that they would seek to add to the price of coal any increase in the miners' wages that they were constrained to make. That was bad enough, but the actual increase in the price of coal is made large enough to cover not only the increase to the miners but an added profit to the operators.

"I REMEMBER."

The diary of Captain Cartwright, from which extracts have been made for the "I remember" column, gives here and there, interesting personal touches which make it a veritable human document.

When stationed near Stafford in 1768, he remarks that at the latter end of July the King and Queen came to see the camp. "The Regiments were drawn out and formed a lane from the camp to Mr. Penton's house, in the city, at which Their Majesties resided during their stay. On August 19th the regiments were reviewed by His Majesty who was on foot, with the Queen by his side.

"The regiments passed by in divisions, the officers saluting, afterwards, a variety of manoeuvres were performed, with which His Majesty expressed great satisfaction.

"After the review, the officers, by the Colonels of the regiments, were presented to Their Majesties, and had the honor to kiss their hands. The ceremony with us was as follows:—

"Lord Paget stood near the King. When the officers advanced in seniority, His Lordship informed His Majesty of the name and rank of the officer. The King, then held out his right hand, which the officer, bending the right knee, took with his right hand, raised it to his lips, and then retired backwards. Their Majesties were in separate tents, where the same ceremony was performed. Their marquees were superbly elegant with boarded floors, carpets, etc. Her Majesty is a small woman, but agreeable in her manner, and with a pleasing countenance.

"In October the camp broke up. Lord Paget gave every soldier in the camp a pair of shoes."

Tired of the indolent life of an officer, Captain Cartwright desired active service in America, where, as he says in his diary, he hoped to receive active employment and earn promotion. He proceeded to Portsmouth, where he saw assembled 150 sail of the line, under command of Vice-Admiral Arbuthnot. He got passage and ultimately a commission in the 60th regiment. He saw active service, travelled a good deal, and was in command for some years at St. Johns, Que.

A glimpse is given of the hardships of a soldier's life.

"This day, 25th January, 1780, our ship came to anchor in Tybee harbor, Province of Georgia, the port appointed for the rendezvous of the fleet. The passage was so boisterous that we lashed ourselves in bed, and to ring bolts when eating our dinner. The ships were so greatly dispersed as not all to arrive by the 5th of February. On that day the fleet sailed for North Edistowe, and, that evening the Grenadier Guards disembarked. A few random shots were fired at us by the enemy, who retreated as we advanced. The night was very dark, rainy and dismal. We march on until ten o'clock on the edge of a swamp, up to our ankles and often mid-leg, in mud, over stumps of trees, and bushes, which we continued for about three hours, when we turned into the woods, where of rails we made a good fire and halted till day light.

"It rained all night, and we sat upon rails to keep out of the water. We were without tents or covering. Our provisions were a little salt pork and biscuits, and a change of clothes which each officer carried himself.

"We marched forward and at a house about a mile distant, found the 70th Grenadiers who had been regaling themselves there that night. They had plenty of hogs, turkeys, fowls. The first thing that struck me in this line of service in an enemy's country, where everything appeared free plunder, were two soldiers with a hog about 80 pounds which, in order to divide for themselves they cut in two, alive, and, thrusting a stake into each part, put them down to roast. Wherever we came the same fate attended the property of the inhabitants—without leave or payment.

"We marched forward and crossed from Symmond's to John's Island. The inhabitants of the Islands appear to live in great independence—the land being very fertile, producing rice, indigo, cotton, Indian corn, tar, rosin, melons, sweet potatoes pitch, ship timber.

"I met Major Andre (Query—the historical Andre?) who gave me joy in my receipt of my commission.

"We erected a battery of five guns at Gibb's House to command the passage of Stone River. Surgeon Hazleton and myself took possession of a negro hut, which was the first cover we had slept under since we landed and in which we found several bottles of rum and sweet wine which we appropriated.

"The army crossed to James Island, and landed at Hamilton's House, leading to which was a beautiful avenue of peculiar oak trees, which spread in an elegant shady manner, and covered with white moss, pendulous to the ground, which is peculiar to this country, and when busied in the ground or some moist place, until the country, and when buried in the sun, makes mattresses equal to and greatly resembling horse hair. Those trees were all destroyed by the German troops."

"All this was preliminary to an attack on Charleston.

"The army crossed to Charleston and landed about two miles above the town. The enemy opposed the landing, but were repulsed with the loss of few men on both sides.

"Sir Henry Clinton summoned the enemy to surrender, which was refused on the part of Major-General Lincoln. We broke ground about 180 yards from the outer works, and in a few days the first parallel was finished, consisting of redoubts, ditches, etc. The town was again summoned but refused, and works were carried on in other directions, which brought us nearer to the place. Several sallies were made from it, but with small advantage to the besieged. Their water ditch was drained and the approaches carried close to the same, and every preparation made for a storming, when on the 12th, Major-General Lincoln capitulated, and the garrison marched out with the honors of war. Many of the enemy were without shoes, and others almost naked. Their officers were handsome, well-dressed men. Two engineers and 73 men were killed on our side, and 2 captains, 4 lieutenants, 10 sergeants, and 175 rank and file wounded. The enemy must have lost a great many men as the barracks and houses were much destroyed by the shot and shell. Close to me during the trench work, the points of the shoulders of my companion, Lieutenant Grant, were carried away by a shell, and another friend, Lieut. Blaver, had his front teeth teeth knocked out close to me, with a spent ball. The balls frequently knocked the earth and sand up in my face; but I was not wounded."

Captain Cartwright sailed for Savannah, the capital of the province of Georgia. He passed, on his way, the Defiance, of 74 guns, which the captain had lost, and for which he was tried at Charleston and dismissed the service. "She was a very fine ship, and had sailed from England when I did with the Quebec and Newfoundland ships under her convoy."

ACCIDENT MARS MONCTON VISIT OF ENGLISHMEN

Mr. S. Warwick Sustains Broken Arm When Auto Goes Over Embankment.

Special to The Montreal Star.

Moncton, N.B., June 11.—A serious accident occurred here yesterday afternoon at 2.40 o'clock, when an automobile, driven by a man named Leblanc, and which contained three of the British manufacturers who are on a tour of Canada, and Mr. Jas. Edward, of this city, backed over a twenty-five foot embandment, severely injuring the ocupants, one perhaps fatally.

The automobile, which was conveying the occupants to the natural gas wells, was going up a steep hill when suddenly the car stopped. The chauffeur tried vainly to throw on the emergency brake, but this was out of order, and the chauffeur lost his head completely, letting go of the steering wheel.

The car backed down the hill at a swift rate and suddenly shot to one side, breaking through the heavy railing and pitching tothe bottom of the ravine, twenty-five feet below. Mr. Edwards and LeBlanc, the chauffeur, who were in the front seat, were thrown clear of the car, but the other occupants who were in the back seat, were pinned beneath it.

The wreckage was quickly cleared away, and the three Englishmen extricated from their precarious position. Two of them escaped with slight scratches and a bad shaking up. The third man, Mr. S. Warwick, an architect, sustained a compound fracture of his right arm and was also badly cut about the face and body. It is feared that Mr. Edwards is internally injured. The chauffeur had two ribs broken.

The injured men were conveyed to the hospital, where, with the exception of Mr. Edwards, they are resting easily.

The automobile was completely demolished and is a total loss.

Mr. Edwards is a man of about 65 years of age, and has a wife and three children, who reside in this city.

HALIFAX GREETS THE BRITISH MANUFACTURERS

Special to The Montreal Star.

Halifax, N.S., June 11.—A delightfully clear morning, with the temperature almost cool enough to make light overcoats comfortable, greeted the British capitalists this morning. They were met at the depot by Premier Murray, representing the Province; Mayor Bligh and M. Dwyer, president of the Board of Trade, representing the city of Halifax; and Mayor Nutting and Mr. A. C. Pyke, president of the Board of Trade, representing Dartmouth.

The visitors were taken for an automobile drive, visiting the Technical College, Public Gardens at Waegwoltic, Chebucto School, car works, and dry dock and thence to Dartmouth, where they inspected the various industries.

At ten o'clock they were tendered a dinner at the Halifax Hotel, at which Premier Murray presided. Afterwards the party were taken on an excursion on the harbor on the steamer Lady Laurier.

Each of the visitors was presented with a leaflet containing facts regarding Halifax, pointing out the advantages it possesses as a manufacturing point; a booklet descriptive of the advantages of Halifax as a place to live in; a package of picture postcards, and maps showing the proposed harbor development.

BURNS REACHES LOS ANGELES, TO TAKE THE STAND

To Testify in Darrow Case—Says McNamara Principals Should Be Revealed.

Special to The Montreal Star.

Los Angeles, Cal., June 11—Mr. William J. Burns, the detective, arrived here to-day to assist District Attorney Fredericks in the prosecution of Clarence Darrow, now on trial charged with bribing two of the McNamara jurors.

Mr. Burns will take the witness stand against the accused lawyer and will tell of the events which preceded the pleas of guilty from the two McNamara brothers. He said, to-day:—

"The conviction of the McNamara brothers is one of the historic happenings of the century. It was the greatest crime of the century, and I believe I do not over-estimate when I say it has done more real good than almost any other single event.

"There will never be such a crime again in America. The watchfulness of the labor union membership will prevent it. The labor unions do not need to use violence. They do not need to break the law. They are founded on right principles, and they have done good.

"I am in favor of labor unions, and always have been. I was in favor of them long before the McNamaras pleaded guilty, and that great crime did not undermine my good opinion of them.

"They ought to release McManigal, and if ever the opportunity comes I will go into open Court and strongly recommend that he be released. He has rendered a great service to the State and the Federal Governments. His life has practically been wrecked, and the least he ought to be given is the right to breathe the free air again.

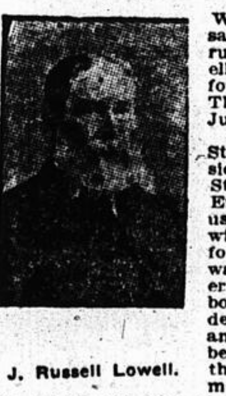
FROM THE STAR FILES THIRTY YEARS AGO TODAY



J. Russell Lowell.

"The Tribune's Washington special says: 'The renewed rumors of Mr. Lowell's return are unfounded.'" — From The Montreal Star, June 11th, 1882.

IN the United States, the "Mission to the Court of St. James," as the English Embassy used to be styled with old-fashioned formality, has always been considered the blue ribbon of the President's patronage, and has generally been awarded to the most eminent men in the Republic. This post was at one time offered to George M. Curtis, but was declined on the ground that he could not afford an office, of which the expenses exceeded the income. It rather shocks one's ideas as to the fitness of things to hear of a diplomatist complaining of being insufficietly paid, more especially when a rich country is concerned, for it simply means that only a rich man could afford to accept the representation of his country abroad. Merit, therefore, in many instances becomes of secondary importance, hardly what one might expect in a republic. Fortunately, James Russell Lowell was a highly educated and accomplished man, a good speaker, and possessing a charming manner, which soon won him a recognized position in the best English society. This will be readily appreciated when it is remembered that he was the friend and associate of Emerson, Longfellow, Oliver Wendell Holmes, Whittier, Curtis, and others of a former generation, who reflected a glory on their country in the realm of letters and culture, that has never been exceeded, nor even approached. When Lowell's departure from England was first announced, it was greatly lamented and received with unfeigned regret on all sides, so much so that it was hoped the American President would prolong his stay as Ambassador to England, in spite of all political considerations, but apparently this was not feasible. To this day Mr. Lowell is affectionately remembered in the Old Country, as one who probably did more than any other representative to proomte harmony and a good understanding between the English-speaking races."

"The twelfth conference of the Secretaries of the Young Men's Christian Association of America assembled at New Haven, Conn., on the 7th. Mr. D. A. Budge, of Montreal, was chosen chairman, and Mr. Brown, of Newburgh, N.Y., secretary. One hundred and fifty were present." — From The Montreal Star, June 11th, 1882.

"A large deputation of ship and wharf laborers waited upon Mr. James McShane, M.P.P., to-day, at his office, and asked him to attend and adress a meeting to be held by them next week, to consider a grievance they have that a number of stevedores on the wharves will not pay the wages agreed to. They also asked Mr. McShane to wait upon the chairman of the Board of Trade, the chairman of the Harbor Board, and the Chief of Police in regard to the matter. Mr. McShane willingly consented to both requests." — From The Montreal Star, June 11th, 1882.

KODIAK ISLAND DEVASTATED BY KATMAI ERUPTION

Revenue Cutter Manning Takes All Inhabitants on Board Until Danger is Past.

WATER SUPPLY RUINED BY DECAYING FISHES

Urgent Appeal for Immediate Assistance to Relieve Suffering Made at Seward.

Kodiak, Alaska, June 9, via tug to Seward, June 11.—Kodiak and Woody Island villages are buried under a foot of ashes as a result of the eruption of Katmai volcano, beginning on Thursday afternoon and lasting forty-eight hours. No lives have been lost here, but many other settlements near the volcano must have suffered indescribably.

The revenue cutter Manning was in port here when the eruption began, and furnished refuge for all the inhabitants of the town, 500 men, women and children, doubtless saving many lives. The Manning is now serving distilled water and government rations to the destitute people, the water supply having been polluted and springs filled with ashes.

The naval wireless station was destroyed by fire, and the Manning's wireless equipment is too weak to work with Cordova. Despatches are being sent by tug to Seward, with an appeal for all available craft to come to the assistance of the people in the vicinity. The property loss will be enormous.

As soon as the hail of ashes, sand and hot pumice stone began, the officers of the Manning ordered every one in Kodiak and nearby villages to board the ship.

For more than forty-eight hours the people were huddled together in the darkness of midnight. On Saturday morning as it grew lighter, the Manning worked out of the narrow channel and headed for the open sea. She had not proceeded far when the pall lifted and she returned to Kodiak.

URGENT APPEAL IS MADE FOR RELIEF.

Seward, Alaska, June 11.—The first direct news of conditions on Kodiak Island, which was almost devastated by the eruption of Katmai volcano, was received yesterday, when the tug Printer arrived, bringing Lieutenant Searles, of the revenue cutter Manning, and J. E. Erskin, a merchant of Kodiak, who appealed for assistance of the stricken people on the island.

Lieutenant Searles said that the food supply at Kodiak was sufficient to last only fifteen days. All the crops on the island were destroyed, while millions of fish were killed by the sand and ashes that fell into the water. The water supply is polluted by the decaying fish, and springs have been stopped up with ashes. The Manning is distilling water for the use of the people.

At a mass meeting of the citizens a committee was appointed to handle relief funds for the stricken villagers. An appeal was sent to Congress asking that two thousand dollars be placed at the disposal of the revenue cutter service to buy food.

Messages were also sent to Governor Clark urging him to send all the revenue cutters on duty in Alaskan waters to the island laid waste by the volcano. The tug Printer will return to Kodiak to-morrow with all available supplies.

VOLCANIC ASH FELL IN THE YUKON VALLEY.

Seattle, Wn., June 11.—Despatches from Dawson, Yukon Territory, six hundred miles north-east of the volcanoes, said volcano ash fell there yesterday. The people of Dawson had not heard of the Katmai eruption.

Other points in the Yukon valley reported a light fall of ashes and Eagle, Alaska, near the international boundary, reported hearing distant explosions on Thursday afternoon.

CHICAGO SUFFRAGIST LEADERS ARRESTED.

Three Hundred Women Attack Kosher Shopkeeper Who Defies the Boycott.

Chicago, June 11.—Mrs. Gertie Kores, a suffragist who came to Chicago from London a few weeks ago, leg a throng of three hundred women on an attack on the butcher shop of Harry Taylor, in the Ghetto district last night.

The women were atending a mass meeting when word came that Taylor's market was open and chickens being offered for sale in defiance of a boycott which has been declared because of high prices of Kosher meat.

Police responding to a riot call, found the women in the act of wrecking the place. Mrs. Kores and Taylor were arrested.

Drink Habit

More a Condition Than a Disease—The Gatlin Treatment Removes the Cause—No More Craving or Desire.

In this age of progress great advancement is being made in all lines, but none so great as in the branch of medicine and methods of treating conditions that were at one time considered about hopeless. Take Alcoholism, for instance. Many considered it a disease; yet it seems to be more of a condition due to some direct cause. This conception seems sane, for during the twelve years past the Gatlin Treatment for the Drink Habit has been successfully used in thousands of cases where drinking to excess, either veriodical or steady existed. The success of this treatment rested entirely on the fact that the cause of drink—alcoholic poison in the system—was treated, and not the result of drink. The Gatlin System of treating alcoholic cases does not include Hypodermic Injections of substitutive poisons to cover up the poison already in the system, and thus, in from four to six weeks' time, give the patient the impression that a cure has been accomplished. The Gatlin Treatment is a vegetable compound, harmless and taken internally, and cures by eliminating every trace of Alcoholic Poison in JUST THREE DAYS' time, thus removing all desire and craving for Liquor also all nerve demand for alcoholic stimulation. A letter requesting full particuars of the Gatlin Treatment, either Home or Institute, addressed to the Gatlin Institute Co., 148 St. Hubert St. (corner Dorchester), Montreal. Telephone East 4224, will bring a book, and copy of contract, in plain envelope. If interested, write to-day and investigate the Gatlin Treatment for the Drink Habit.

OF FIRST IMPORTANCE

To the investor in real estate is the making of an accurate comparison between the towns and cities under consideration.

Safety in investment is assured when the buying is done in large cities where property has an established value.

Railway junction towns and siding villages may become cities or not according to future circumstances.

The best buy is always to be found where such circumstances have already proved to be for proserity.

Moose Jaw, the great prairie city of Saskatchewan, with a population of over 20,000, vast natural resources, great mills, factories and industries, provides the investor with a safe opportunity to place capital to advantage.

Improved residential property can be bought at the same distance from the heart of this city of thousands at the same price as is being obtained from unimproved lots in towns and villages with but a few hundred people.

The property so situated is Boulevard Heights.

Distance from the city post office 1 1-3 miles.

Prices from $4 per foot up.

Terms Easy — No Interest — Torrens Title.

MAISONNEUVE

THE MORGAN FARM

Ruskin has truly said: "Thought is the heart of Action," but we are not going so far as to ask you to *Act*, simply to *Think*—to investigate for yourselves:

THINK of the tremendous strides Maisonneuve has made during the past five years;

THINK of the number of industrial concerns already located in Maisonneuve;

THINK of the number of concerns who are now almost ready to open their operations in Maisonneuve;

THINK of the exceptional advantages offered to manufacturers to locate in Maisonneuve; transportation facilities; interurban car service; low taxes; cheap though efficient power service, etc.;

THINK of a municipality that has increased its population from 8,000 to over 25,000 souls during six years;

THINK of the 10,000 people who must locate in Maisonneuve during the present year to supply the demands of the numerous industrial concerns now commencing;

THINK of the amount of money Maisonneuve is spending to make their city the second to none in the Province, and how Nature has made it so easy for them to do so;

THINK of the central location of THE MORGAN FARM—right in the centre of the Town, both geographically and as to importance, for THE MORGAN FARM has been chosen for the new Post-Office, the Market Place, one of the principal churches, etc., etc.

THINK of the fine Avenue being opened through the property, which must become the important street of the town;

THINK of the demand that will be made for the property on the avenue, once operations are commenced;

THINK of the number of influential men who are already taking advantage of the opening up of this property and securing their locations;

INVESTIGATE FOR YOURSELF by making a trip to Maisonneuve and observing what others are doing.

WILL BE PLEASED TO TAKE YOU OVER THE PROPERTY SO THAT YOU MAY SEE FOR YOURSELF.

BRANDON, MANITOBA.

The City of Brandon has never had a boom, and property values are on a more conservative basis than in any other city in the Western Provinces. During the past couple of months, property in this city has been coming into its own, and a great deal of interest is being displayed by outside investors. Old Country capital is being invested freely, and investors from the East, the city of Winnipeg, and other Western Cities are buying steadily. I am offering property in blocks and half blocks just South of the Normal School at attractive prices. $23,000.00 worth was sold locally during the first seven days of the opening sale. If interested, write or wire me at once for plans and prices. O. L. Harwood, 19 Ninth Street, Brandon, Man. 129 1 3eod

TRANSCONA, MAN.

New combined railway shops of the Transcontinental and Grand Trunk Pacific, costing $5,000,000, are just finished at Transcona (six miles east of Winnipeg). The shops will employ 5,000 skilled workmen, and this will mean at least 20,000 residents in two years' time where only 1,500 live to-day. Transcona has excellent trackage from all three transcontinental lines, and is receiving the greatest attention by manufacturers looking for sites for their new western factories. Prices now are rock-bottom with the greatest chance in the West for rapid increases in prices. Write for the best values on inside lots. B. C. Cockshot, 606 Ashdown Bldg., Winnipeg, Man. 116 26

WHY? BUY? WEYBURN?

An absolutely "sure" second Saskatoon is always a good buy if you find it out in time. Weyburn's phenomenal progress coupled with the latest moves of the three railroads, ensure for it a continuance of the rapid increase in values now taking place. Weyburn is the one supply point on a vast fertile interior stretching from the Soo line all the way to Lethbridge. The new Weyburn-Lethbridge line will be far the shortest and easiest grade C.P.R. line. All the through traffic will pass through Weyburn. Over $500,000 building and improvements during 1911, 7 elevators, 6 wholesales, 4 banks, head office Security Bank with 9 tributary branches. Lots for sale to-day from $200 up to $20,000 each, on terms to suit. Prices right at the commencement now. The shrewd buyer will recognize Weyburn as a snap. Our specialty is central business properties. We have the very best at surprisingly low prices in this promising city. Write to-day. L. M. Delbridge, McArthur Block, Winnipeg, Man. 135 15 eod

TRANSPORT WORKERS NOT YET SUCCESSFUL IN NATIONAL STRIKE

Responses to Call Throughout Country Are Strictly Limited—Railway Men Not Inclined to Join, And Many Conservative Leaders Against Scheme on Ground That Trades Union Funds Have Been Heavily Depleted Recently—Government Still Striving to Effect Settlement—Ben Tillet Claims All Sorts of Success—Advocates Organization of Armed Protective Force by Strikers.

By Special Cable From Our Own Correspondent.

London, June 11.—With something like consternation Englishmen read this morning that the disastrous coal strike was to be followed by a national strike of transport workers. The order which went forth from the London caucus last night is intended to apply to 314,000 men, including the following ports:

Liverpool, 100,000; Hull, 30,000; Manchester, 10,000; Glasgow, 10,000; Swansea, 4,000; Leith, etc., 25,000; Plymouth, 1,700; Grimsby, 1,400; and Dundee, 1,000, besides many thousands at the London docks.

Obviously England's vast trade by sea and land is gravely jeopardized. The suffering already inflicted upon thousands of poor folk dependent on the earnings of the workers must become a national calamity if the strike orders are obeyed.

At the moment it looks as though because of jealously of the London labor leaders and other reasons, the strike may prove only half-hearted. The men at many provincial ports are apathetic, and in some cases even actively hostile to a general strike. Moreover, their funds are low.

At Cardiff, Swansea and Newport work is proceeding normally to-day. The dockers at Bristol and Avonmouth stopped work, but the carters have not joined the movement.

The Scottish workers are described as lukewarm. Nowhere at present does there seem enthusiasm for Ben Tillet's national campaign.

According to the Labor Press Agency, the strike leaders do not expect to see the full effects of the call for a stoppage until the end of the week. They hope, the response will be sufficiently general to cause a widespread dislocation, so as to compel the government to bring forward its promised legislation instituting compulsory arbitration. The transport masters say they are determined to do what the railway companies were anxious to do last August, when they were only defeated in their object by the direct appeal of the government in the interests of national safety. They say they will fight out the dispute for the assertion of the rights of free labor and the binding force of signed agreements.

WINDERMERE.

CABINET IN SESSION BUT NO DECISION IS YET REACCHED

Special to The Montreal Star.

London, June 11.—The Government to-day was occupied with discussing some means whereby the national strike of transport workers and allied trades can be brought to an end. The Cabinet was in session this morning, but no decision was announced.

There were several outbreaks this morning at the East India docks. Extra forces of policemen have been sent there.

The general expectation in London is that the general strike called by Transport Workers Federation will not meet with a national response. Reports received this morning from Scottish and South Wales ports stated that the men were all working. There was no walkout at Liverpool this morning, although the strike may be in force later in day, as a meeting has been called to discuss the situation.

At Bristol 7,000 workers have gone out. The employers are pinning their hope to wholesale desertions from the Transpor Workers Federation. The organization has a total membership of 200,000 men, some estimates placing it at 300,000.

The object of the federation in calling a national strike is chiefly to force the Government to take measures to compel the employers of the Port of London to accept the proposals made in behalf of the strikers.

DOCKERS' UNION WILL NOT JOIN STRIKERS.

London, June 11.—The executive of the Dockers' Union, which embraces Liverpool, Hull, Scotland and Ireland, decided at a meeting held at Liverpool this afternoon not to join the transport workers' strike.

OPPOSITION TO A GENERAL STRIKE.

London, June 11.—The response to last night's call for a general strike of the transport workers of the United Kingdom has been by no means general. This causes little surprise, as the men in some centres had decided already to continue at work, and in other centres the recommendation of the London committee of the Transport Workers' Federation was received too late for action to be taken on it to-day.

Besides this, many of the more conservative leaders of the workmen are opposed to a general strike at the present moment, as the funds of the trades unions are in a state of great depletion owing to last year's dockers' strike. The recent coal strike, which threw a large proportion of transport workers out of work, also hastened the reduction of the financial strength of the unions.

The order for a general strike has not affected the Thames district very much, except that the force of police has been increased in order to protect the non-union workmen who are being taken on in ever greater numbers.

There is more free labor now in London than has been known for years, the destitution among the poorer classes, which is acute, forcing the men to seek employment.

ORDER INEFFEITIVE IN SOUTH WALES.

Despite the order of the unions in Cardiff, Swansea, and other South Wales ports, where the unions spent most of their funds during the coal strike, work is going on as usual. Similar conditions prevailed this morning at Newport, while at Bristol and Avonmouth, the dockers quit work, but the truckmen continued at their duties. Father Hopkins, who wields powerful influence in the Sailors' and Firemen's Union, which has the largest membership of any workmen's society in the Transport Federation, has appealed to the men not to strike without giving adequate notice of the termination of the agreements reached between them and their employers last year.

The membership of the Transport Workers' Federation comprises 90,000, belonging to the Sailors' and Firemen's Union, 75,000 dock, wharf, and riverside workers, 30,000 members of the London Truckmen's Union, 77,000 gas workers, 8,000 watermen and lightermen, 8,000 stevedores, 6,000 enginemen, and about 20,000 laborers, belonging to various smaller unions.

BEN TILLET WANTS STRIKERS TO ARM.

The Sailors' and Firemen's Union has decided to put to the ballot the question of joining in the transport workers' strike and the result of the voting will be announced on June 17.

Ben Tillett, the strike leader, addressing the men on Tower Hill, to-day, said the Transport Workers' Federation had received replies from most of the affiliated unions. All had either endorsed the strike or decided to take a ballot of their members. It might, he said, take a week, or even a fortnight to get all the men out, in consequence of existing agreements.

Ben Tillett argued that if it was legal for the employers to organize a civilian force armed with revolvers, it was equally justifiable for the transport workers to organize themselves in a way that would be just as legal.

Sporting Views And Reviews

All the distances in the Olympic trials were expressed in metres, which reminded the spectators of the international character of the contests in which our candidates for fame will compete. If our representatives at Stockholm reel off the metres as fast as our gas meters can run up a debit account, they will certainly win something. A Westmount citizen claims that he has so active a gas-meter that it begins to click and score up cubic feet the moment he strikes a match, even to light a cigar.

The British Olympic entries have been forwarded to Stockholm. John Bull has made more than 150 entries, but the British team will not be composed of more than ninety athletes, as several of the men have been entered in more than one event. The British athletes will not go to Stockholm in a body. They will sail on June 27, 29 and July 2, according to the events for which they are entered.

A New York newspaper is responsible for the following:—

"John Flanagan, the former New York patrolman, and once the world's record holder in the weights, has been entered for Great Britain in the Olympic Games at Stockholm. Flanagan has been living at his old home in Ireland for two years past, but still retains his American citizenship. It is doubtful that the Swedish Olympic Committee will permit Flanagan to compete for Great Britain, as the United States probably will protest his entry unless he represents America." In other words, the Yankee sportsmen will try to make Flanagan play for them, but, if they cannot manage it, they will try to prevent him playing for his dear old native Ireland.

"Well, the Shamrocks are holding their own," said an old wearer of the green, as he read an account of the match after watching it from the grand stand, just to see if current history did justice to the glorious event. If the Shamrocks are only holding their own, then theirs is about everything in sight. Some people think that the Shamrocks are not only holding their own but that they are holding a good deal besides, that others expected to own.

Captain Bartlett, of White Star Line, Makes This Declaration Before Titanic Inquiry.

USE OF SEARCHLIGHTS IS ALSO CONDEMNED

Worldwide Practice Not to Slacken Speed in Vicinity of Ice at Sea.

London, June 11.—That the lookout in the crow's nest of the Titanic when she struck the iceberg was not provided with binoculars because the White Star Line officials did not think them necessary, was the substance to-day of the testimony given before the Board of Trade inquiry by Capt. Bartlett, the Line's superintendent.

Capt. Bartlett declared that he considered glasses for look-outs unnecessary; that he thought searchlights at sea would be useless; and that too many lifeboats on a liner's decks would hamper and confuse rescue work.

Capt. Bertram, commander in the service of the White Star Line, assured the Court that he never reduced speed because of wireless ice warnings unless the weather was not clear.

Captain Hayes, of the White Star Line, declared that the world-wide practice was not to slacken speed in the vicinity of ice. He continued: "You can always see ice," and added, that in the case of the Titanic abnormal circumstances had arisen which had never been experienced before.

RAILWAY MEN NOT LIKELY TO STRIKE.

New York, June 11.—London cable to the Tribune says:—

A national strike of transport workers has been decided upon. Over 300,000 men are affected by the order to quit work. There is grave danger of a serious dislocation of shipping throughout the country, similar to that of last year, but the leaders do not expect a general stoppage immediately.

They are looking for an early response from the Bristol channel ports, the Humber and Northeast coast, and they expect the Mersey, the Clyde, the English channel, and the Irish ports to fall into line as soon as the necessary arrangements have been made locally.

In Liverpool the men are under agreement to give notice of their intention to quit work in a body. The Scottish are lukewarm and unlikely to be unanimous. In any case there will be no enthusiastic response, as there was last year.

There is little prospect, too, of any extension of the strike among railway men. The more bellicose branches of Amalgamated Society of Railway Servants passed resolutions of sympathy last night with the London Transport Workers, and have threatened that they will not handle traffic diverted from the port. A great many of the railway men, however, are not willing to go on strike until a strike in every port in the United Kingdom is certain.

The price of bread has been raised one half-penny for a four-pound loaf in London, owing to the strike.

LONDON PAPERS ON HON. GEO. E. FOSTER.

Canadian Associated Press.

London, June 11.—Several London newspapers are splashing over on Geo. E. Foster's personality.

"A grey-bearded man, with the thoughtful blue eyes of a dreamer, the face of a philosopher and the gentle manner of the scholar" is the "Daily Express" man's poetic description.

The tariff newspaper naturally gives his fiscal views favorable notice.

ADMIRALTY MAN IS AGAINST SEARCHLIGHTS.

At the resumption of the inquiry, Sir Rufus Isaacs, Attorney-General, announced his intention of submitting to the Court that the wireless despatch which notified that ice had been seen in the route of the Titanic was handed to Mr. J. Bruce Ismay, in his capacity as managing director of the White Star Company, because of its seriousness.

One of the Admiralty hydrographers, Captain Francis S. Miller, was called to the witness stand, where he gave his opinion in opposition to the introduction of searchlights on liners.

A WORLD-WIDE CHURCH UNION NOW PROPOSED

American Episcopal Delegates to Seek Union With Mother Church as Preliminary.

New York, June 11.—As a first move toward lining up the Old World in an effort to unite every Christian communion into one body, the Rev. Dr. William T. Manning, rector of Trinity, and three of the most prominent bishops of the Episcopal church, will for England for a conference with the Archbishops and Bishops of the Church of England looking toward a union between the mother church in England and her "daughter" in this country, as an initial step in merging all the churches.

The bishops are Charles P. Anderson of Chicago, chairman of the commission on a world conference on "Faith and Order," appointed by the last General Conference of the Episcopal church; Boyd Vincent, of Cincinnati, Ohio, chairman of the House of Bishops, and Arthur C. Hall, of Vermont. Dr. Manning is chairman of the "Plan and Scope Committee," of the committee.

These four clergymen have been sent officially to discuss church union and they will be received by the prelates of Church of England.

TO DOUBLE-TRACK CANADIAN PACIFIC THROUGH ROCKIES

Sir Thomas Shaughnessy Announces Huge Undertaking to Cost $70,000,000.

Sir Thomas Shaughnessy admitted to-day that there is a proposal under way for the double-tracking of the main line of the Canadian Pacific between Calgary and Vancouver.

The desirability of this double track is one that is forced upon the company not only by the great growth of transcontinental traffic, but also the remarkable developments which are expected to take place as a result of the opening of the Panama Canal.

"I cannot tell you yet," said Sir Thomas, "when we will start this work, but the preliminary surveys for it are already being carried out. It is a big job, for it will cost between $60,000,000 and $70,000,000."

The C. P. R. has already begun the re-organization of its operating service in the British Columbia division. The entire operating force of District No. 2, which is the portion of the line between Kamloops and tidewater, will be removed from Vancouver to North Bend, 129 miles inland. This will enable much greater attention to be paid to a district which is probably the hardest that the company has to handle, as the road has in many localities to be patrolled every hour of the day and night, to guard against rock slides, swollen torrents, and other dangers incidental to mountain railroading. The C. P. R. hotel at North Bend will be used as the district headquarters.

Death of Captain Wm. Hy. Benyon

Deceased Was Brother-in-law of Mr. Andrew Allan—Well-known in Montreal.

By Special Cable From Our Own Correspondent.

London, June 11.—Captain William Henry Benyon, well known in Montreal, and late of the 23rd Welsh Fusiliers, died at his London residence this morning aged 70 years.

Captain Benyon married the eldest daughter of the late Mr. Andrew Allan.

WINDERMERE.

Although this message was the first intimation that he had received of his brother-in-law's death, Mr. A. A. Allan told a Star representative that, while he regretted to hear the news, he was not altogether surprised, as Captain Benjon had been paralyzed for some time past.

The late Captain Benyon married Miss Allan in 1868 and for many years resided on Sherbrooke St., near Crescent Street. He owned considerable property in Montreal at one time and was well-known in social circles. Captain Benyon took up his residence in London some seven or eight years ago.

It was announced to-day that the defalcations of Eusebe Lecavallier, the ex-city paymaster, now reached the sum of $2,300. The accused had sent a cheque for $1,500 some time ago. Yesterday he sent another cheque for $800, which now completely covered the city's loss. The accused is awaiting trial.

HOME RULE BILL IN COMMITTEE STAGE AT LAST

Public and Liberal Members of Commons are Apathetic in Their Attitude.

London, July 11.—The Home Rule bill entered the committee stage in the House of Commons to-day, and the discussion is expected to last at least until August, when Parliament adjourns for vacation.

As the ultimate outcome so far as the House of Commons is concerned, is a foregone conclusion, most of the members are apathetic, and the general public has become weary of the interminable talk in which nothing new is to be found.

The Nationalist members themselves are showing patient expectancy. Their attitude is that the less said is the soonest mended, so the full strength of the party sits silently listening, without attempting to intervene or to prolong the struggle with unnecessary speeches.

The Unionists bear the greatest bulk of the burden of debate, and have already booked amendments covering 45 pages of the Parliamentary paper.

NO MORE WARSHIPS FOR CUBAN WATERS

Washington Authorities Satisfied That Show of Force Will Be Effective.

Washington, June 11.—The absence of any fresh outbreaks in Havana has encouraged the State Department in the belief that the measures already taken to show the purpose of the Unitd States Government to maintain order in Cuba have been sufficient.

It has been decided that there shall be no additions to the naval force now in Cuban waters, unless unexpected developments make them necessary.

All Quiet in Havana To-day.

Havana, June 11.—Absolute quiet prevails in Havana to-day, and no news of any disturbances in the vicinity of the capital has come to hand.

The government declares that no dispatches have reached it containing news from the province of Oriente.

During the night the police made many arrests of negroes.

TURKS SURRENDER ISLAND OF LEMNOS.

Special to The Montreal Star.

Rome, June 11.—The Italian war fleet, in the Aegean Sea is getting ready to occupy Lemnos, one of the biggest and most important islands in the Archipelago, according to dispatches from the Italian commander, received to-day.

The Turkish garrison capitulated upon the arrival of the Italian fleet, the massage added:—

Lemnos lies about halfway between Mount Atros and the Coast of Asia Minor, and its area is about 175 square miles. The population of the island is about 40,000.

London Warns Canada---Cement Weaker---Break in Wall St.--Locals Firm

CEMENT EASIER RALLY IN RIO TRADING QUIET

After a quiet market for Cement, at 28, a drive was made at noon, and it was offered at 27¼, 27 bid.

Apart from that and C. P. R. the local held well in the face of Wall Street weakness.

Rio was a strong feature on buying said to be for Amsterdam account. Toronto is still a bullish factor. Sao Paulo was off to 243½.

Steel was a firm feature, rallying from 65 to 65½.

Power was quiet at 208. Spanish River was strong at 64, and Richelieu at 118½.

Rails moved up to 142, and Detroit was steady at 67.

BUYERS AND SELLERS.

Rio buyers: Meredith & Co., Davidson & Co., Redpath & Co., Forget & Co., Craig & Luther, Colin McCuaig & Co., McCurdy & Co., Farrell & Co., Fairbanks Bros.

Rio sellers: O'Brien & Williams, Richardson & Co., Craig & Luther, R. Forget, McCurdy & Co., Redpath & Co., C. J. Gault, Mont & Co., Colin McCuaig & Co., McGibbon & Macdougall, Smith & Co., Strathy & Co., Riddell & Co.

In Wall Street

Further irregularity was indicated at the opening of to-day's Stock market. The leading railroad stocks, as well as Steel, Amalgamated Copper and American Sugar all showed fractional declines. The few advances were confined largely to unimportant issues.

Extensive selling of stocks, largely representing liquidation, was witnessed in the early session of to-day's market. Disappointment at the inaction of the United States Supreme Court in some of the cases long pending, and the activity of the Congressional Committee into the ramifications of the National financial institutions were the reasons popularly asigned for the movement. Lehigh Valley and Reading declined 3 and 4 points respectively, with losses of 1 to over 2 points elsewhere in the active list. Can declined over 3 points in connection with rumors that its recent advance would form part of an official inquiry.

Afternoon Sales

Up to 2.45 p.m.—Rio sold at 138¼, Steel at 65½, Power at 208, Winnipeg Street at 236, Spanish River at 64, Richelieu at 118, Twin at 106½, Woods at 138, Soo at 141, Rails at 142½, Cement pref. at 89.

SWASTIKA WAS ACTIVE.

Swastika was active on the Mining Exchange to-day at 13 to 13½.

Reduced German Rate May Not Last Long

Berlin, June 11.—Trading was quiet on the Bourse to-day. The markets were not affected by the reduction in the discount rate of the Imperial Bank of Germany, owing to the fear that it will be short-lived. Since the lowering of the rate was accompanied by a director's "warning" to banks not to grant excessive credits. If this warning is heeded the rate can be maintained until autumn, but otherwise a re-raising of the rate will be necessary in a few weeks.

ONE REASON FOR DECLINE.

New York, June 11.—Three Stock Exchange houses have been summoned before the Pujo Committee, with all their books. One of the houses has been very active on the manipulative side of the market. This is given as a reason for the selling of stocks this morning.

SLATER SHOE CO. TO BE RE-ORGANIZED

The Slater Shoe Co. has passed into the control of Corporation Agencies, Limited, which will reorganize the concern under the existing charter and capitalization. But later on may apply for a new charter.

The present capital is $300,000 preference and $500,000 common stock, 75 per cent. of which has been turned over to Corporation Agencies on the terms offered and which was accepted by the principal shareholders.

The new board of directors comprise the following gentlemen: H. A. Lovett, C. H. Cahan, Herbert A. Beatty, L. P. Deslongchamp, R. Brutinel and G. F. Gyles.

Mr. Charles E. Slater, former president and general manager, although not a member of the new board, will retain his connection with the company.

SHORT NOTES OF INTEREST.

American Locomotive idles all sold.

OUR CREDIT IN LONDON IS IN GRAVE DANGER

Special Cable from the Correspondent of The Montreal Star in London.

London, June 11.—The Algoma Steel Corporation issue of £1,130,000 fives at 93 has proved a failure, and the underwriters have had to take 93 p.c. The bond is admittedly a good one, but the present market conditions are very adverse, indeed.

High financial authorities take a serious view of the effect, most unpleasant to Canadian interests, which is certain to follow the present overstraining of the London bond market.

A leading Anglo-Canadian banker said to-day: "You should warn Canadian municipalities and Provincial Governments that the state of congestion here was never worse than now. Many loans are unabsorbed, and the public are not applying for new issues. Unless Canadian issues slacken, we shall soon reach the point when they cannot be even underwritten here.

"Canada must for years to come depend so largely upon British credit that want of restraint and judgment at this juncture, especially on the part of Provincial Governments and municipalities, will cause the bottom to drop out of Canadian credit and Canada will be refused money at any price in reason. The situation may well become extremely grave if Canadian authorities continue to neglect warnings from disinterested London friends."

The heavy pressure which some Canadian municipalities are putting upon the London bond market is doubtless due to the anxiety of Canadian bankers to pass on to the English public large temporary loans they have made to municipalities on treasury bills.

WINDERMERE.

DEFENDS CLEARING HOUSE.

New York, June 11.—Frank A. Vanderlip, president of the National City Bank, in a letter to the Money Trust Committee defends the New York Clearing House, and denies that $5,000,000 is made on country cheques.

YUKON GOLD PRODUCTION.

Yukon Gold Company's May production according to cable advices from Dawson was $196,300 gold, compared with $250,000 last year.

GRAND TRUNK'S GOOD WEEK.

Grand Trunk had a good first week of June, with earnings of $983,931, an increase of $116,349.

GERMAN BANK RATE HAS BEEN REDUCED

Berlin, June 11.—The bank rate has been reduced to 4½ per cent. Matters in Germany look better.

The rate was previously 5 per cent. This rate had been maintained uninterruptedly for nine months.

Another view is that the reduction is due to expediency rather than improved conditions.

RIGAUD-VAUDREUIL SOLD.

Mr. J. T. Armand, of J. T. Armand & Co., is leaving to-night for Beauce, where he will visit the mines of the Rigaud-Vaudreuil Gold Fields Company's mine and ascertain its possibilities.

Hotel Scheme is Off, Property For Sale

As a result of the Mount Royal Hotel Company deciding to liquidate, the property at the corner of St. Catherine and Peel streets has been offered for sale.

The shareholders of the company will be fully covered owing to the increased value of the property.

The company had planned to build a fine hotel on the site selected, but there appears to have been difficulty in financing the deal. It has been known for some time that the scheme was off.

OPINIONS ON THE MARKET.

Shearson-Hammill: Most of the gilt-edged investments are selling lower than a month ago, and the only exceptions are in a few stocks where there has been manipulation.

Lounsbery & Co.: Market is entirely professional, and is a waiting one.

J. S. Bache & Co.: Bears were waiting for an opportunity to attack the market and they thought that the putting off of anthracite and unfavorable winter wheat reports were encouraging enough for their side.

Burnett & Co.: The selling movement came to a standstill about noon, and the bears seemed inclined to be cautious, although there was no noticeable support from the other interests.

Laidlaw & Co.—Professional sentiment is bearish, and it is possible that prices may be forced somewhat lower.

R. M. Bauer—On slight reactions, it will be found advisable to pick up Eries and likewise the Pacifics for moderate upturns.

Charles Head—We believe that the basic conditions warrant higher prices, and while the participation of the public is checked by political uncertainty, the big interests are arrayed on the constructive side of the market.

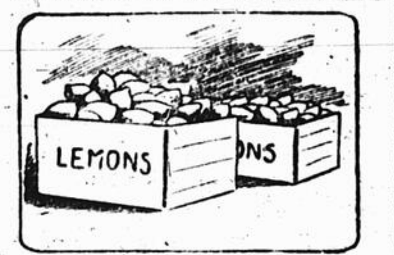
Sees Big Future For Car Building Here

MR. F. B. McCURDY, M.P.

TOPICS OF THE STREET

THIS MARKET A POOR ONE FOR MINING SHARES



The market for mining shares here has dwindled down to a very small affair.

If business keeps on very long at the same rate as yesterday, the exchange will have to put on the shutters.

During the forenoon session not a single transaction was recorded, and in the afternoon only one mining issue figured in the transactions.

No doubt plenty of people in this locality would be willing to sell if there was a decent market for their shares, but the speculative tendencies are at present directed in other and more remunerative channels.

Toronto still holds the lead for trading in mining shares.

PROPAGANDA THAT HAS BEEN MORE THAN SUCCESSFUL

Somewhat like the children and a certain specific for infantile disorders, the people of the West cry for cement, and must have cement.

The manufacturers have been carrying on an active propaganda with the object of creating new and extending old sources of demand for their production.

Their success has apparently been more startling than productive of joyous results. Perhaps this is what has landed them in what seems like a heap of trouble.

Incidentally it may be stated that this is causing them more anxiety than the action of the Government in reducing the duty by one-half for four months.

Mr. Jones is not worrying on that score. He will go on making and shipping cement as fast as he can, and it seems hardly necessary for the holders of Cement shares to get upset over it.

THINGS NOT AS BLUE AS THEY SEEM AROUND HOME

Fortunately the climatic conditions which are proving so discouraging to the farmers in parts of Eastern Canada are not general.

If they were, the outlook would be very blue indeed, and cause more or less uneasiness among the holders of industrial shares.

As a matter of fact, the prospects in the great west are of a nature to completely offset the serious conditions nearer home.

This is a case where it pays to have a great variety of farming interests widely scattered and subjected to vastly different weather conditions.

Canadian Securities Listed in London

Special Cable from the Correspondent of The Montreal Star in London.

London, June 11. — The London Stock Exchange has listed: City of Calgary £393,000 4½ per cents.; Canadian Northern Railway £375,000 Alberta guaranteed 4 per cents.; £375,000 Saskatchewan guaranteed 4 per cents.; Grand Trunk £900,000 4 per cents., and Vancouver Power £800,000 4½ per cents.

WINDERMERE.

PLAN TO PROTECT ENGLISH BUYERS

London, June 11.—The Canadian Chamber of Commerce in London, with a view of protecting land investors from buying worthless lots near new western towns, have asked the leading firms dealing here in Canadian lands to pledge themselves to refuse to sell unless the plans follow certain detailed conditions.

Another Outlet For Grain From Manitoba

Special to The Montreal Star.

Cobalt, Ont., June 11.—Major R. W. Leonard, chairman of the National Transcontinental Railway Commission, while inspecting Coniagas yesterday after a trip over the Transcontinental, said that with the construction of 180 miles more of road the line would be completed westward to Winnipeg, and there was a possibility that this would be accomplished in time to permit of moving grain eastward from Manitoba this fall, the grain being carried southwards from Cochrane on the T. & N. O. line, now completed to 80 miles west of Grant.

SALES OF MINING STOCKS.

Porcupine and Cobalt mining stock quotations reported by Russell E. Popham & Co., C. P. R. Telegraph Building: Sales: Motherlode, 1000 at 15-16, 500 at 95, 1000 at 15-16. Hollinger, 10 at 10.65, 100 at 10.25; La Rose, 200 at 340; Swastika, 1000 at 13, 200 at 13½, 500 at 13½, 2000 at 14⅛ (60 days), 2500 at 13½, 2000 at 13⅝.

CAR WORKS START SOON AT PORT ARTHUR

Mr. F. B. McCurdy, M.P., of Halifax, is back from a trip to the West, greatly impressed by the development there and the prospects for the future.

He visited Port Arthur in connection with the new car plant in which he is interested, and afterwards went on to Winnipeg, where he was greatly interested in the evidences of prosperity.

Asked about the new car works at Port Arthur, he said that the Ontario & Western Car Co. had completed their engineering and other plans, and construction work would be begun within three weeks.

The city of Port Arthur has agreed along with other substantial concessions, to deed to the company upwards of 150 acres of land on the water front within the city limits.

The plant, when completed, will have a capacity of forty steel or wooden freight cars per day, and employ upwards of 500 men.

Mr. McCurdy was much pleased with the location of the works at the head of Canadian navigation on the Great Lakes, and where raw materials can be assembled near the ultimate market at a minimum cost.

Leading citizens of Port Arthur have become substantially interested financially in the new company.

Mr. McCurdy states that, discounting the future, real estate is very active at Port Arthur. Last week a block of land next adjoining the car works sold at $2500 per acre, the purchaser being one of the oldest and most experienced real estate investors of the city.

MR. MADILL OPENS OFFICE.

Mr. C. S. Madill has opened an office in the Transportation Building, and will conduct a general financial business, dealing in bonds, stocks, securities, etc.

Conflicting Reports on Detroit United Taxes

Detroit, June 11.—The fight of D. U. R. against the ordinance increasing the tax on freight and express cars will be carried to the floor of the Council on Tuesday evening, when the Judiciary Committee will make two conflicting reports on the measure. The majority report will recommend the passage of the measure with the tax cut down from $10 a car to $3. Recently the tax was cut to $5, and now it is placed at $3. The minority report will recommend holding up the ordinance until the audit being made of the D. U. R. books to show the net profits, is completed.

SHIPBUILDING ENTERPRISE.

Mr. A. C. Ross, secretary of the British-Canadian Shipbuilding Company, leaves Ottawa to-day for Toronto to attend a meeting of the executive of the company. The citizens of Sydney, N.S., recently voted a bonus of $1,000,000 to further the enterprise. Sir Henry Pellatt is the president.

SHARP JUMP IN TRAMWAY FEATURE

Tramway common was a feature of the unlisted stocks, jumping from 68 yesterday to 75 to-day. There was some talk of a drive at shorts. Tramway debentures were 85¼, and Tramway & Power 39.

STEEL MEETING TO-MORROW

The annual meeting of the Dominion Steel Corporation and its subsidiary companies takes place in the Bank of Commerce building to-morrow afternoon.

Mr. J. H. Plummer, the president, will be here this evening from Toronto, and Mr. C. S. Cameron, the secretary, came down from Toronto last night.

Disturbed Market For Shares of C.P.R.

The market for C.P.R. shares was again unsettled in London and New York, and the local price was affected in consequence.

In London the market closed at 270, compared with 271¼ at the close yesterday.

In New York there was a decline to 262½ in sympathy with a generally weak market, but later there was a rally to 263⅝.

The local market ranged from 263¼ to 263, with a later rally to 263¾.

BULL CARD ON SOO.

The United States spring crop report is regarded as a bullish factor in Soo owing to the fine condition of crops in its territory. It is estimated that not more than 30 per cent. of Soo is floating in the market. C. P. R. owns 52 per cent. and the balance of about 22 per cent. is in the hands of investors.

NO FURTHER TARIFF ACTION ON CEMENT

Ottawa, June 11.—It is wholly improbable that any further action will be taken by the Government in regard to the cement duty. The action taken in remitting one-half of the duty is considered generally to be pretty drastic, though certain interests in the west are representing that it does not go far enough.

The situation which called for a reduction of the duty was a special case, to meet which exceptional action had to be taken. There is no reason to anticipate, however, as hinted in certain quarters, that it is the thin edge of the wedge, and likely to be extended as regards cement or other commodities till there is full enquiry into the tariff generally.

MARCONI DOUBLED PROFITS IN YEAR

London, June 11.—The Marconi Company has published its report for last year. Its showing is good, profits for the period having more than doubled. They were £142,000, as compared with £61,000 in 1910.

GERMAN BANKING FIGURES.

The discounts of the Imperial Bank of Germany decreased by over $17,000,000 this week, and its loans by over $6,000,000.

STARTS 1 P. C. ON COMMON.

Maritime Telegraph & Telephone Co., Halifax, has declared an initial quarterly dividend of 1 p.c. on the common shares payable July 1.

Mr. Fielding's New Co. Making Capital Issue

The Scottish and Dominion Trusts, Limited, of which Hon. W. S. Fielding is the chairman, has been formed for the purpose of carrying on the business of a trust and mortgage company. While the directors do not intend to confine their attention to Canadian securities, they propose, in the first place, to make Canada the chief field of operations.

The capital is £500,000 in shares of £10, of which £250,000 is being offered for subscription at par. The payments extend to November 15 next, after which each share will be converted into six 5 per cent. cumulative preference shares, with a priority as to capital, and four ordinary shares, all of £1 full paid. The company has borrowing powers equal to the amount of the subscribed capital, with, in addition, for temporary purposes, £100,000.

BOUGHT BOYD-GORDON.

The Mann mine is making a good showing, and has taken over the Boyd-Gordon at Cobalt.

LUMBER TARIFF JUDGMENT.

Judgment will probably be delivered this week on the interpretation of the customs tariff clause regarding lumber.

BUTTER 1C DOWN ON BIG RECEIPTS

Receipts of butter for the week were 20,567, compared with 15,688 the previous week, and 22,396 packages last year. The arrivals since May first to date were 76,635 packages against 80,870 a year ago, showing a decrease of 4,235 packages. The receipts a year ago, from May 1st, to June 10th, were 89,185 packages.

At the Cowansville Board Saturday the offerings were the largest of the season, and the market was weak, the top price realized being 25c against 26c to 26¼c a week ago, decline of 1c per lb. At the Gould Cold Storage sales of several hundred packages were made as low as 24c. The local market was quiet to-day with a weaker undertone, and quotations were 24 1-2 to 25c lb. for choice creamery.

OATS IN FAIR DEMAND.

Oats are in fair demand for export, but bids are too low for business. The local and outside demand is increasing, and a fair business in car lots was done at steady prices.

Oats, No. 2 Canadian western, 55 to 55½c; extra No. 1 feed oats, 51½ to 52c; No. 1 feed oats, 50½ to 51c; oats, No. 3 Canadian western, 50 to 50½c; No. 2 feed oats, 49½ to 50c.

MARKET NOTES

Cheese exports from Montreal for last week totalled 28,930 boxes, compared with 59,545 a year ago, and 65,375 in 1910.

Cheese prices are easier, with finest westerns quoted at 13⅝ to 13⅞c; Quebecs 13⅜ to 13 9-16c, and Townships at 13½c a lb.

Beans are firm, with car lots of 3-lb. pickers quoted at $2.52½ a bushel.

Maple syrup is in fair demand at 70 to 75c a tin, and in wood at 7 to 7½c a lb. Maple sugar, new, is quoted at 9½ to 10c lb.

Millfeed demand is limited, and prices easier, with bran $22, shorts $26 to $27, middlings $28, pure grain mouillie $34 to $38, mixed mouillie $28 to $32.

Rolled oats sold at $5.05 per barrel and $2.40 per bag; cornmeal, $4.75 per barrel, and $2.25 per bag.

Potato prices are steady, Green Mountains, in car lots, $1.70 to $1.75 per bag, and in a jobbing way at $2.

Hay prices are steady at the decline. No. 1 hay, $23 to $24; ~~No. 2 extra, $21 to $22~~; No. 2 good, $20 to $20.50; No. 3, $19 to $19.50; clover, mixed, $17 to $17.50.

Dressed pork prices were lower to-day, owing to the decline in the prices of live hogs, and abattoir fresh killed hogs sold at $12.25 to $12.50 per 100 lbs.

WHEAT HAD 1¼ ADVANCE AT WINNIPEG

Winnipeg wheat prices were decidedly strong to-day, with the July option 1¼c higher than the opening yesterday, and the October option ⅝c higher. These prices were not maintained, and later, showed a decline of ⅜c.

Local exporters report cable bids as few and far between, with prices offered all the way from 1c to 3c a bushel out of line, and practically little or nothing doing for export except the shipment of old sales.

The weather to-day in the west is reported fine and mild, with the crop progressing remarkably well.

Stocks at Fort William and Port Arthur for the week were as follows: No. 1 hard, 1295 bushels; No. 1 northern, 153,935; No. 2 northern, 576,443; No. 3 northern, 873,441, and other grades 5,199,027 bushels, making the total 6,804,141 bushels, compared with 7,829,610 a week ago.

Liverpool wheat closed steady ¼d off to ⅛d up, while corn closed steady ¼d up to ⅛d off.

Receipts to-day were: No. 1 northern, 3 cars; No. 2, 44; No. 3, 91; No. 4, 87; No. 5, 51; No. 6, 73; feed, 27; no grade, 51; rejected, 8; condemned, 1; red winter, 38. Total, 474; last year, 326.

LIVERPOOL CATTLE PRICES.

John Rogers & Co., Liverpool, cabled to-day that quotations as last cabled for the Birkenhead Market remain unchanged with ranchers quoted 14¾ to 15c and distillers 16c per pound. Trade is slow but firm.

WHEAT IS HIGHER IN ALL MARKETS

From the Special Correspondent of The Montreal Star on the Chicago Board of Trade.

Chicago, June 11.—There were more bulls than bears in the wheat market to-day, but the lack of outside trade caused many of the scattered holders to sell out. The situation may be called bullish, if for no other reasons than that the farm reserves are small, that the wheat here and at Minneapolis is in the hands of strong people, and that the Government June report was considered by the trade as a bullish document.

John Inglis, the Logan-Bryan crop expert, says that as forecasted by him yesterday, the June report failed to deduct the area lost since their May report. He says that Nebraska has lost a million acres since May, and so much that was left through the Central States in hopes of making something will never be cut. He considers the final acreage to be cut will fall short 8,000,000 acres from the total seeded, the largest loss in acreage ever known.

The markets of Europe were higher, ½c to 1c at Paris, ⅝c at Antwerp, and as much as ½d at Liverpool, the latter for deferred months, while the nearby were ¼d lower. The European visible supply decreased 2,240,000 bushels for the week. Paris was reported as forcing wheat on the market because of liberal receipts.

Foreign crop summary was generally favorable, save in sections of Russia.

July sold at 110½ to 111⅛, and September at 106⅛ to 107, compared with 109⅜ and 105¼, respectively, at the close yesterday.

Government Will Build Lake Terminal Elevator

Ottawa, June 11.—The announcement at Regina last night by the Hon. Robert Rogers, of the Government's intention to erect a large terminal elevator on the lakes marks the beginning of what really will be an experiment in the public ownership and operation of such utilities. For many years the West has been calling for state ownership of elevators, but the late Government did not accede to it. It brought in, however, a new grain act, which did not pass before dissolution. The present Government put through the same bill, but varied it in several particulars.

Wide powers are given the Grain Commission to control private-owned elevators, but the present plan of a Government-owned terminal is a new step altogether. It will be largely in the nature of an experiment. Should it work well, the system may be extended by the acquisition of the vested interests in certain others of the big elevators at the head of the lakes.

FEAR WITHDRAWAL OF THE NE TEMERE DECREE HOPELESS

Presbyterian Church Committee So Reports to General Assembly at Belfast.

Canadian Associated Press.

Belfast, June 11.—The Presbyterian Church committee on the Ne Temere decree has reported to the General Assembly here that they consider it useless to approach the Government in the hope of securing the withdrawal of the decree.

Dr. Davidson, in presenting this report, said that the priests in Scotland and Ireland were manifesting a vigorous determination to carry the decree to the uttermost limit.

Taft Wins the Kentucky Delegates

Special to The Montreal Star.

Chicago, June 11.—The Roosevelt members of the Republican National Committee protested vehemently this afternoon against the seating of four Taft delegates-at-large from Kentucky. After a lengthy wrangle over the motion of Senator Borah to put off the vote until to-morrow morning to permit the examination of 800 affidavits alleging fraud, the committee by a vote of 38 to 11, placed the Taft men, headed by Senator W. O. Bradley, of Louisville, on the temporary roll. This made the total of contested delegates in Taft's favor 88 to Roosevelt's 0.

"The action of the committee," protested Mr. Heney, "is just like what I've seen Abe Reuf and other political bosses do in California."

Chairman Rosewater demanded order.

PROMISES A PERMANENT NAVAL POLICY FOR CANADA

Hon. R. Rogers Says it Will Strengthen Naval Defences of Empire.

Regina, Sask., June 11. — Speaking of reciprocity, in the course of his address at last night's banquet, the Hon. R. Rogers congratulated the people of Canada on its defeat. It has been repudiated by President Taft and the United States Senate, but interested politicians were seeking to mislead the people into the belief that it was still an issue. The question was dead, and any agitation for it in this province was for political purposes.

Before closing he spoke of the navy policy of the Government. The Hon. Mr. Borden and the Hon. Mr. Hazen were going to England, he said, and would confer with the Admiralty, and he would assure the people that a naval policy would be inaugurated of a permanent character and which would be a credit to Canada and strengthen the naval defences of the Empire.

CLERGY PROMISE TO FOUND SCHOLARSHIPS.

Edmonton, Alberta, June 11.—Dr. Kelly, of Montreal, made a vigorous speech when the convention met this morning witht reference to work in the province of Quebec where the Point aux Trembles school and other similar institutions are maintained by the Presbyterian church. At the conclusion of the address by Dr. Kelly in which he said, among things, that all true Canadians should give thanks to God for the Gouin government in Quebec. Rev. D. C. Gordon said that schools similar to that at Point aux Trembles were the key to the situation in Quebec, and that scholarships for the education of French born could be established for $50.

Mr. Gordon said he would be responsible for ten in Winnipeg.

The Rev. P. MacDonald, of Toronto, undertook to be responsible for ten in that city.

The Assembly has seldom recently heard a better address from a foreign missionary than one given here by Rev. Dr. Wilkie, of the Gwalier mission.

The theory of Dr. Wilkie is that the success of the church in foreign lands depends absolutely upon the work of native Christians. The white missionary from Canada or Britain should retire into the background at the earliest possible moment, and leaves the native to his own judgment.

Dr. Wilkie also takes the ground that it is folly to endeavor to engraft Occidental ideas on the Oriental mind, and that the same is true of customs. He consequently does not believe in the erection of church buildings in India, this being contrary to the custom of the country.

NO PEACE WITH THE LIBERALS, SAYS LAVERGNE.

Quebec, June 11.—Back from Ottawa, where he spent a week, Mr. Armand Lavergne was interviewed as to a rumor current some days ago that he had made his peace with Sir Wilfrid Laurier and gone back to the Liberal fold.

He said there was no truth whatever in the rumor, and was at a loss to understand its origin. He denies having discussed politics with any Federal Minister. He believes that the Hon. L. P. Pelletier, Postmaster-General, has no occasion to resign his portfolio.

Council of Arts Elects Officers.

At this afternoon's annual meeting of the Council of Arts and Manufacturers, the following were elected officers: Mr. Thomas Gauthier, Montreal, president; Cyr Duquette, Quebec, vice-president; J. P. L. Berube, Montreal, secretary.

The following were elected to the committee: Messrs. C. E. Tanguay, Quebec; W. F. Vilas, M.L.A., Cowansville; Peter Lyall, Montreal; E. McManamy, Sherbrooke; Cleophas Brouin M.L.A., Levis; Samuel Cassavent, St. Hyacinthe; P. T. Crowe, Montreal; Joseph Gosselin, Levis; U. St. Onge, Valleyfield; R. P. Lemay, Quebec; J. M. Duff, Montreal; W. H. Raphael, Montreal; J. B. M. Barthe, Three Rivers.

Died in Grace Dart Home.

James Basket, late of Stratford-on-Avon, England, died at the Grace Dart Home yesterday at the age of 43. He leaves a wife and five children. The funeral will take place to-morrow at 10 a.m. from the undertaking parlors of Messrs. Tees and Co., 912 St. Catherine street west. Members of the Bricklayers' Union are requested to note.

Captain Riley has been chosen as Wreck Commissioner to replace Captain Demers, recently appointed Harbor Master.

MR. AINEY THINKS CITY WILL GET PARTIAL AUTONOMY

Says Govt. Should Realize That There is a New Regime in Montreal.

The interviews that Dr. Lanctot, Legislative Councillor, had with civic officials and others at the City Hall yesterday in regard to opposition that the Legislative Councillors would show when a demand was made for complete municipal autonomy, and which appeared in the Star last night, have aroused interest at the City Hall.

Controller Ainey said to-day: "Perhaps, after all, it was too much for the city to expect that the Legislature would decide to hand over the complete government of the city to the City Council and the Board of Control. It is very seldom that any legislature will do this. I must also say that I agree with Dr. Lanctot that in the past the Legislative Council has killed many bills, sent from the City Council, that would have been harmful.

The Old Regime Gone.

"At the same time it ought to be remembered by the Legislative Council that the old regime has gone and that the city is now governed by a Board of Control, and by a new City Council.

As to the trouble existing between the Controllers and a section of the city council, Controller Ainey said that come what would he had no intention of retiring. He could not say, however, that he would be a candidate for another term. This would depend upon what might happen in the future. Personally he was not opposed to a City Council, but it should be composed of men who would not be so disposed to block the city's business with such unending opposition.

PROPOSAL TO WIDEN ONTARIO STREET.

Controller Tells Mr. Wilder City Cannot Undertake the Scheme.

Mr. James Wilder, head of Wilders Limited, waited on the Board of Control to-day and asked that the city should take steps to widen Ontario street from St. Lawrence to Peel. The widening would affect Ontario, Berthelet and Burnside streets. The widening could be made in conjunction with the great boulevard scheme which was put before the City Council some time ago by Mr. P. Lyall. It was contended by Mr. Wilder that as many important buildings were to be put up in this vicinity in the near future that it would be cheaper for the improvement to take place now than later on.

In reply Controller Lachapelle said the situation was such that the city could not see its way clean to spend money on the big undertaking, at least for some time to come. It was promised, however, that the matter should be taken under consideration.

MORE MEN FINED FOR INSULTING WOMEN.

Police Find Conditions in Lafontaine Park But Little Improved.

It was thought by the police that the recent raid on Lafontaine Park, when twenty-one men were taken in charge for insulting women, would have the effect of putting a stop to this sort of thing for the time being at least, but Constables Desjardins and Dagenais, who took a stroll through the park last night found conditions very little improved.

They had not been in the park more than fifteen minutes before they had received complaints from three women who had been subjected to insults by loafers in different parts of the park, and as a result Oscar Mercier, 283 St. Catherine St. East; N. Barbeau, and Victor Desjardins, 32 St. Denis St., appeared before Mr. Recorder Weir this morning on a charge of using insulting language and were fined $15 or two months.

PREMIER IS COMING TO MONTREAL TO-MORROW

En Route for Halifax Before He Departs With Cabinet Ministers to England.

Special to The Montreal Star.

Ottawa, June 11.—The Right Hon. R. L. Borden leaves to-morrow morning for Montreal, where he will spend a few hours and afterwards go to Halifax. He will spend a couple of days with his mother on the farm at Grand Pre, and for the rest of next week will be in his constituency.

The Premier will then return to Ottawa for a few Cabinet councils prior to sailing for England with the Hon. J. D. Hazen and L. P. Pelletier on the 26th.

The Penalty of Drinking

In Three Days the Gatlin Treatment Cures Liquor Craving, Restores the Nervous System, Repairs Damage Done by Liquor. (No Hypodermic Injections.)

What would you give for strong nerves? Would nerves that did not continually require liquor to straighten them up and quiet them, be a blessing to you? Think what it would mean to you to get out of bed in the morning with your nerves steady and calm, with no nerve demand. No craving for liquor. Think how it would feel to go through the entire day, and entire week, and entire year —to go through the balance of your life—with no appetite for liquor—with a feeling of disgust for it. The Gatlin is the Modern method of treating liquor craving and liquor drinking and that peculiar form of Nervousness that nothing but liquor will relieve. PROPOSALS FOR WATER SUPPLY

The Council of the Town of Canora, Saskatchewan will, for one month from date, consider proposals for the granting of a franchise for a supply of water for Town and Railway use, for a period not exceeding twenty years.

The population of the Town now exceeds 1,000, and is increasing steadily and surely, with an assessment of approximately one million dollars. The Town is situated on the main line of the Canadian Northern Railway, and is as well the terminal point of the Russell-Rossburn branch of that Railway, the main line of the Grand Trunk Pacific Railway from Regina to Hudson's Bay also terminates in Canora for the present. Both of these railways are now extending north to Le Pas on their way to Hudson's Bay, and two other lines are under charter or projected for early construction through Canora, thus assuring the ultimate importance of the town as a railway divisional point, and a consequent large consumption of water, in addition to the quantity required for domestic use and fire protection. A High Pressure Fire Protection plant and an Electric Light plant are now being installed municipally.

The most economical and practicable source of supply is from Crystal Lake, 14 miles distant, the Engineers' Report thereon indicating a cost of about $200,000.00; the question of revenue and the various rates to be reached by further agreement with the Council, who are prepared to deal generously in the matter.

TRIED TO SUICIDE.

Two would-be suicides, with their throats wrapped in bandages appeared to-day before Judge Lanctot. Harry Thornton, 356 West Lagauchetiere st., arrested last night on St. James st. by Constable Cuillier, had been arrested near the Grand Trunk Station for sawing at his throat with a razor. He said that he was tired of life.

Alfred Clark, 1051 Berri street, was a more serious case than Thornton's. Clark made the attempt on his life on May 22, and had been in the Western Hospital ever since. He says he did not know what he was doing.

Maine Coast Resorts—C. P. R. Train Service.

That the visitor to Portland, Old Orchard and Kennebunkport may better reap the benefit of his sojourn on the sea coast, it is necessary that the means of reaching there be made without unnecessary effort.

With the approach of warm weather the C. P. R. is now running a parlor car on their day train, leaving at 9 o'clock. On and after 24th June the special night train will leave at 9.15, and will be the only night train from Montreal running through to Old Orchard and Kennebunkport. It will reach there before breakfast time.

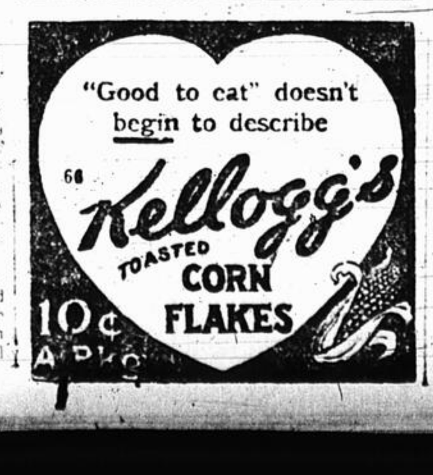
TORONTO REPORTS BIG EARTHQUAKE SHOCKS

Seismograph Registers Longest Disturbance Recorded Since 1887—Origin Unknown.

Toronto, June 11.—The seismograph at the observatory here was found to have registered a continuous succession of earthquake shocks all Friday night and Saturday morning. Two sharp and distinct shocks were noticed at 3.05 and 3.20 a.m. Saturday.

The noteworthy fact about these shocks is their extremely long duration. Usually a shock lasts only a short time, but all Friday night and Saturday morning there was a continuous record. The officials at the observatory say that it is the longest record of shocks in the history of the instrument, and the instrument was erected in 1887. They could give no guess at the approximate location of the disturbances.



NATIONAL TELEPHONE CO.'S CLAIM IS HEARD.

Ten Millions Asked From Postmaster-General's Department as Compensation.

London, June 11.—The National Telephone Company's claim of $10,000,000 from the Postmaster-General, whose department has taken over the company's plant and business, came up for a hearing before Justice Lawrence and his colleagues of the railway and canal Commission in the King's Bench Court.

Sir Alfred Cripps, leading counsel for the telephone company, said it was the largest claim ever dealt with by an arbitration court.

A brilliant array of counsel on each side is appearing, and the case will probably occupy between fifty and one hundred sessions.

LIFE SENTENCE FOR DR. R. A. MACGREGOR.

Former London Doctor Convicted of Poisoning Scyrel Sparling at Bad Axe.

Bad Axe, Mich., June 11.—Dr. Robert A. Macgregor, of Ubly, Mich., formerly of London, Ont., recently convicted of murder in the first degree, in connection with the death of Scyrel Sparling, was sentenced to life imprisonment in Jackson prison.

Dr. Macgregor was found guilty of causing young Sparling's death by administering poison. Mrs. Carrie Bodie Sparling, the boy's mother, is soon to be tried on a similar charge.

THOROLD, ONT.—Mary Ann Wheeler, widow of George Calcott, is dead, in her 69th year.

DRESDEN, ONT.—Mrs. Sarah McVean is dead, aged 78 years.

THAW PREPARES NOTES TO AID HIS COUNSEL.

Spends His Time at White Plains Jail in Writing Notes and Framing Questions.

White Plains, N.Y., June 11.—Since Harry K. Thaw arrived at the White Plains jail he has been spending much of his time writing notes and questions, which will be used when the hearing to determine whether he is now sane is held before Justice Keogh, in the Supreme Court, next Monday.

He has the same typewriter which he used in 1909, when similar proceedings were heard by Justice Mills.

Thaw's mother, with his sister Alice, formerly the Countess of Yarmouth, will arrive here to-day and remain until a decision is announced.

MUST STAND TRIAL IN NEW WESTMINSTER CASE.

Judge Welborn, Los Angeles, Orders Extradition of Charles Dean.

Los Angeles, June 11.—Charles Dean, alleged to be one of the men who robbed the Bank of Montreal, at New Westminster, B.C., September 15, 1911, of $271,000, must go to Canada and stand trial.

Judge Welborn, in the Federal Court yesterday, dismissed the writ of habeas corpus out in behalf of Dean, after a hearing that had lasted several weeks.

$14. Refrigerator for $9.50

For a family refrigerator, this is one of the best values we have ever offered.

The measurements are 43 inches high, 32 inches wide, and 31 inches deep.

It is lined throughout with non-rustable zinc and the exterior is made of hardwood and finished in imitation golden oak.

There is a large ice chest, capable of holding a good supply of ice.

The drain pipes of these refrigerators are fitted with a device which prevents air from entering the ice chest.

The shelves in this refrigerator can be removed if desired.

The regular price is $14.00, but, as long as they last, we're selling them for $9.50—see one in our window.

We have other refrigerators up to $50.00.

We are sole agents in Montreal for the Marshall Sanitary Mattress—the only sanitary and really comfortable mattress made.

RUGS FOR $2.49.

These rugs are all 27 inches wide by 54 inches long, and made with and without fringed ends.

The material is a Wilton Pile and they're exceptionally good value, some of them having sold as high as $4.25.

You'll find them just the rug for your country home.

We're offering them at $2.49 because some are not the very newest patterns, but the designs are good and are made of assorted colors.

See them in our windows.

TO TAKE CHARGE OF DEVELOPMENT IN NORTH ONTARIO

Mr. J. F. Whitson, of Provincial Surveys Dept., Appointed by Whitney Government.

Special to The Montreal Star.

Toronto, June 11.—Mr. J. F. Whitson, of the Provincial Surveys Department has been appointed to take charge of the initial steps in connection with the expenditure of the Ontario Government's five million dollar grant for opening up and further developing the north country.

Mr. Whitson has considerable practical knowledge of the country, and, while his appointment is at present temporary under the Act of last session, it is understood to be the Government's intention to entrust him with the executive powers of the projected plans.

It is probable that as the work advances he will be reinforced by other advisors, and it is anticipated that Mr. C. C. Jones, former Deputy Minister of Agriculture for the Province and now connected with the Dominion Department of Agriculture, will be called in for counsel.

HOUSE WILL NOT ACCEPT THE BILL.

Washington, June 11. — The House has voted 144 to 101, not to accept the Senate amendment to the metal tariff revision bill, which would repeal the Canadian reciprocity pact, and fix a universal duty of $2 a ton on print paper.

The House accepted two Senate amendments reducing the duty on pig iron and on certain alloys. The bill will again go to conference.

MISS JULIA MARLOWE ILL.

Physician Orders Her to Take Complete Rest.

Toronto, June 11.—Miss Julia Marlowe was absent from the cast of "The Taming of the Shrew" at the Royal Alexandra Theatre last night, her physicians having ordered her a complete rest for the week. Her part was played by her understudy, Miss Lenore Chippendale.

For the balance of Mr. Sothern's engagement here, Miss Marlowe's roles will be taken by Miss Percy Haswell, star of the summer stock organization here. Miss Marlowe's condition is not serious.

La France Will Not Sail Now

Havre, June 11.—The present sailing of the French liner La France has ben definitely abandoned, owing to the seamen's strike.

Theophile Delcasse, the Minister of Marine, after a conference with his colleagues in the Ministry, informed the French line that the Government was ready to supply seamen to man the vessel. However, the gathering of these men from the various French ports will require several days, their arrival here will be too late to permit the France to carry out her present scheduled trip.

Many of the passengers who had booked on the France have decided to proceed to Cherbourg, and take the Majestic or the Kaiser Wilhelm II.

MEN'S DEMANDS RE WAGES ALONE.

The management of the French Transatlantic line issued a statement this morning, declaring that the strikers left the France after demanding an immediate increase of wages, despite the fact that their wages had been raised only a fortnight ago.

The statement continues: "The men's demands are connected solely with wages. They have made no complaints in reference to lifeboats, life saving apparatus or food."

LOUISIANA CONGRESSMAN MEETS DEATH ON TRACK.

Washington, June 11.—Representative Robert C. Wickliffe, of Louisiana, met a tragic death here this morning. His badly crushed body was found on the railroad tracks in Potomac Park near the entrance to the bridge across the Potomac River.

It is presumed he was either knocked off or fell from a train bound for the south.

Windsor, Ont., June 11.—Mr. G. McCarthy, aged 21 years, employed as auto tester for the E. M. F. Co., Walkerville, lies at the point of death as the result of an accident.

While travelling at high speed on one of the streets in the outskirts of Windsor, he tried to avoid a rig, and went over a culvert into the ditch, where he was picked up unconscious. His companion, Edwin East, of Sandwich, was badly injured, and may be crippled for life.

A. R. Smith, electrician at the Hupp Motor Car Company, will likely lose the sight of both eyes, as the result of the explosion of an electric light bulb. Pieces of glass pierced his eyes.

FUNERAL OF MRS. DELORME.

The funeral of Mrs. L. Delorme, wife of the late clerk of the Quebec Legislative Assembly, and ex-M.P. for St. Hyacinthe, took place at Quebec from her late residence to Manrese Chapel, and was largely attended. The remains were received at the church door by Rev. Father Desey, while Father Victorin, of the Franciscan Order, officiated at the requiem mass, which was attended by several priests.

The principal mourners were Messrs. Emile and Gustave Delorme, Montreal, stepsons of deceased; Dr. J. Paradis, Armand Paradis, Joseph Tourangeau, Alex. Gauvreau, N.P., Pierre Poitras, and Philemon Brunet, nephews.

Among the chief mourners were Lieutenant-Governor Langelier, who was accompanied by Capt. V. Pelletier, A.D.C.; Lieut.-Col. Patterson, Hon. M. de Labruere, L. P. Sirois, Joseph Archer, P. B. Dumoulin, Taschereau Fortier, registrar of Beauce; Dr. R. Fortier, Dr. Massue Fortier, Jules Baillairgeon, Art. Fortier, M.P.; O. E. Gauvreau, F. Gauvreau, and a large number of friends and mourners. The remains were subsequently interred in St. Charles' Cemetery.

Lunatic Enters Royal Residence

Special to The Montreal Star.

London, June 11.—All London is astounded at the news, just made public, that William Woodley, an escaped lunatic from Norwich, on Sunday night, eluded the special guard of police and soldiers on duty at Marlborough House, Queen Alexandra's residence, and after breaking a window roamed about the place undisturbed. Finally, becoming wearied, he took possession of a room and went to bed, where he was found later by one of the attendants.

Queen Alexandra was not in residence there, but the Princess Victoria was, and was asleep in her apartments at the time.

The City Council at Brantford, Ont., has accepted the offer of the Cataract Power Company for arbitration regarding rates charged.

DESIGNER OF TITANIC GIVES HIS TESTIMONY

Directors Refused His Plans for More Lifeboats, He Tells Court.

Special to The Montreal Star.

London, June 11.—Alexander M. Carlisle, designer of both the Titanic and Olympic, took the stand and declared he firmly believed that the number of lifeboats on the Titanic was insufficient. He had repeatedly made known his opinion before the Titanic had gone into commission.

The witness said he had submitted plans for more lifeboat davits on the Titanic, but the plans were rejected. These plans were submitted several times, with arguments showing the necessity for them. He said that at the conferences when his plans were considered and rejected, Mr. J. Bruce Ismay, managing director of the White Star Line, and Mr. Anderson, a director, were present.

PASSED COFFIN AT SEA.

New York, June 11.—The new American line steamship Czar of Russia, which arrived here to-day from Lisbon by way of Copenhagen, reports that on Thursday last she passed close to a floating coffin, containing the body of an adult.

The side of the coffin was broken and it had apparently been a long time in the water. Its appearance on the ocean's surface is a mystery. Bodies buried at sea are usually heavily weighted.

GUESTS TO COME BY AEROPLANE

Several Aviators Decide to Introduce Novel Innovation at Grahame-White Marriage.

Special to The Montreal Star.

Paris, June 11.—While Miss Dorothy Taylor is flying around Paris purchasing her trousseau, others are planning a startling innovation for the day of her wedding to Claude Grahame-White, the aviator. Some of the guests who will attend the nuptials at Widford Church in Chelmsford, Essex, may arrive in horse-drawn carriages or automobiles, but a considerable delegation is going to descend from the skies in airships.

"Tommy" Sopwith, Gustave Hamel, the cross-channel aeronaut, and "Jimmy" Valentine, are among the airmen who have arranged to go to the wedding in aeroplanes.

Each will carry a passenger.

SHALL CRUSH LIQUOR TRAFFIC, SAY ADVENTISTS.

Seventh-Day Adventists will attend the Canadian Union and Ontario Union Conferences at Whitby, Ont., from June 13 to 23, when it is expected many important resolutions will be passed for the advance of the work of the denomination. They will have representatives from Nova Scotia, New Brunswick, Quebec, Ontario and Newfoundland.

During the meeting special attention will be given to the subject of temperance, as in the words of President Guthrie, of the Ontario Conference: "No people have ever been more thoroughly temperate than Seventh-Day Adventists. We are opposed to the sale of all intoxicating beverages, and shall endeavor, with voice and pen, to crush this enemy of nations and planter of human woes. We shall exert every effort to fill this country with our temperance paper. In short, we want to show that we live for the good of our country and our fellow-men."

According to the report of the statistical secretary the denomination has organized 106 local conferences which are gathered into 23 union conferences. Besides there are 87 missions. There are 4,500 evangelical workers, nearly 3,000 churches, and more than 105,000 believers. The report further states that a tithe of $1,338,689 was paid by members in 1910 and that $458,943 was given in free-will offerings for the support of foreign missions during the same period. The secretary claims a large increase both in tithes and offerings for 1911.

Vessels In Port.

Thoie, Lagelund, Fishpool, Matatua, Lake Champlain, Royal Edward, Teutonic, Corsican, Scandinavian, Mount Temple.

Arrivals In Port.

Arrivals in port yesterday: Allan liner Scandinavian, Allan liner Corsican, and steamer Tantallon, consigned to McLean, Kennedy & Co., which berthed at the Dominion Coal Company's Wharf at Hochelaga.

Yesterday's Sailings.

The Donaldson liner Athenia sailed yesterday for Glasgow and the Manchester Engineer sailed for Manchester.

The Welshman and Englishman, both vessels of the White Star-Dominion Line, arrived yesterday at Quebec and docked there. The Welshman is from Liverpool and the Englishman from Bristol. Allan Liner Sicilian remained at Quebec until yesterday afternoon, as did also the Letitia, of the Donaldson Line. Both vessels sailed from Quebec yesterday afternoon and arrived here this morning. The Mount Temple, of the C. P. R. Atlantic Line, which was signalled yesterday at St. Jean, arrived here this morning.

The Robert Reford Company announces that the Cunard liner Ascania, which sailed from Southampton for Montreal to-day, will keep her date for setting out on her return voyage, June 22.

The Corsican, of the Allan line, which arrived from Liverpool yesterday morning, carried on board 49 first, 482 second, and 1,110 third-class passengers. She also carried some 2,000 tons of general cargo.

The Government of the Dominion intends, this year, to examine the current in the offing of the Gaspe coast. For this purpose, the C.G.S. Gulnare will be anchored in deep water off the Gaspe coast, at places between Cape Chatte and Cape Gaspe. The current will be observed from the vessel. The Gulnare will display the usual day and night signals for a vessel unable to manoeuvre, and in foggy weather will sound one long blast of the whistle followed by two short blasts. Her distance from the shore will vary between four and fifteen miles.

The greater portion of the entertainment at the Montreal Sailors Institute to-night will be given by the men of the Royal Edward, assisted by the sailors and officers from the Teutonic. Men from the Corsican will also be present.

The treasurer of the Montreal Sailors' Institute acknowledges the receipt of the following amounts: £3 2s from the Lake Champlain, Captain Kendall, per Mr. Carruthers, purser; £1 10s from SS. Athenia, Captain Black, per Mr. Watt, purser; £2 from the SS. Cassandra, Captain Mitchell, per Mr. Fulton, purser; £4 from R.M.S. Royal George, Captain Harrison, per Mr. Stanley, purser, and $81.90 from the Empress of Britain, Captain Murray, per Captain Walsh, R.N.R., being part proceeds of collections taken on west-bound voyages.

LARGE VESSEL IN PORT FOR NEW ZEALAND TRADE.

The Matatua of the New Zealand Steamship Line, which is now in port, is the largest vessel in the Canada-New Zealand trade, having a deadweight capacity of 9,200 tons.

The Matatua may be defined as a venture made for good reasons. It was not expected that such a large vessel would be placed in this newly-established trade which is only this summer entering into its second year. But the reason for the placing of this large ship in the trade was a very good one, the trade has proved already to be a great success, and there are great prospects for it in the years to come. Already the Matatua is fully booked for freight and a few passengers, it is expected, will be carried.

The Matatua is one of the finest boats sailing between any port and New Zealand and Australia. She can carry a limited number of passengers and is home-like in the passenger accommodations. The cargo which she will take when she sails from this port will be a general one, except for some 150 Canadian automobiles which she will carry.

The Matatua, which is one of the five ships in the Canada-New Zealand service, was built in 1904. She is 418 feet in length, twin screw, and is equipped with wireless. Her gross tonnage is 6,488.

WHEN the skin is chapped, rough, itching or otherwise irritated, Healatta Soap affords most welcome relief. Because of its medical properties it has a wonderful curative effect, soothing and relaxing the skin and allaying the irritation. Made of purely vegetable materials—no animal fats—it is unquestionably the "right soap for infants," therefore right for anyone desiring skin health and comfort.

Excitement At Gaynor Dinner

Striking Waiters Make Hostile Demonstration—Scores of Arrests Effected.

Special to The Montreal Star.

New York, June 11.—Mayor Gaynor's dinner to the officers of the visiting German squadron, at which more than a thousand guests were present, was marked by an attempt by the striking hotel waiters to cause trouble.

Police Commissioner Waldo, one of the guests, was forced to leave the Waldorf and take charge of the small army of police thrown around the hotel to enforce order. Scores of arrests of obstreperous strikers were made during the evening, but no serious rioting occurred.

Stead Leaves Money to Wife

But All His Papers to His Daughter to Do What She Likes With.

London, June 11.—The will of Wm. T. Stead, who was lost on the Titanic, was published to-day. It shows that the journalist left his estate of $65,000 all to his wife.

The will bears this provision:—

"I hand over for examination all my private papers, manuscripts, letters; automatic writing, diaries, everything of autobiographical and personal interest—to my eldest daughter, Estelle, to be dealt with at her sole discretion."

A codicil is also mentioned, but it cannot be found. The phrase "automatic writing" refers to writings made under alleged "spirit influence."

COOKSHIRE, QUE.—James Smith is dead here, aged 79 years.

John Redmond is dead at Island Brook.

SURETTE'E ISLAND, N.S.—Freeman Surrette, is dead, aged 47 years.

New Triumph For Surgeons

Victim of Triangle Fire Disaster Cured After Breaking Neck and Back.

New York, June 11.—Esther Harris, an eighteen-year-old girl, who was placed in a heap of the lifeless in the Triangle fire disaster, but who was taken to a hospital instead of to the morgue when a faint sign of life was detected, and who suffered total paralysis for months afterward, can walk again.

The girl slid down the elevator cable when the shirt waist fire panic raged, but was knocked from her hold by a man who jumped down the shaft, and she, too, was hurried to the basement, breaking her neck and back. On top of her fell twenty other girls, many of whom were killed.

After she had lain in a hospital unconscious for fourteen weeks, with her life despaired of, she regained her senses, and the surgeons experimented by a machine attached by weights to her head and legs, to pull the fractured vertebrae back into place. The operation was successful, and it was learned to-day that the young woman had been discharged as cured.

King Receives Wireless Men

International Radio-Telegraphic Conference Delegates Entertained at Buckingham Palace.

London, June 11.—King George and Queen Mary received at Buckingham Palace all the delegates to the International Radio-Telegraphic Conference. There were about two hundred and fifty guests, including most of the American delegates. The King and Queen welcomed the visitors in the gardens of the palace, chatting cordially with many of the most prominent among them. They subsequently entertained the delegates to tea in the State dining room.

For Standard Wave Length.

The conference has taken up the consideration of a standard wave length for distress calls and has passed the committee stage. The committee rejected the American proposal to send weather reports next to distress messages on the same wave length. The American delegates will carry the fight for the adoption of the weather reports into the conference, but with no hope of success.

The committee rejected the proposal to increase the commercial wave length and it is doubtful whether it will be resurrected in the convention.

The conference to-day begins its consideration of a proposition for the regulation of wireless rates.

Rush for Wireless Operators.

The Marconi Company has received during the past few weeks so many applications from shipping companies for additional wireless operators for service on board the principal liners that the present school at Liverpool is unable to keep pace with the demand, and a school is to be opened in London in a few days.

It is estimated that already 100 ships have been supplied with relief operators since the Titanic disaster.

The merchant ships now fitted with wireless equipment number between 1,300 and 1,400, which is remarkable progress in only ten years of wireless.

Says Empire Free Trade is Distant

Canadian Trade Minister Says Difficulty Lies in Dominion's Past Policies.

London, June 11.—Hon. George E. Foster, Canadian Minister of Trade and Commerce, on arriving at Liverpool, told an interviewer that he regarded the Trade Commission as a most important move, but regretted the present inadequacy of Canada's transport.

"I have no hesitation in saying that free trade within the Empire is not within easy reach, simply because the Overseas Dominions have built themselves up as they think necessary in order to develop their own countries and attract labor and population. We may be all wrong, but that has been our view, and we have certainly had prosperity under it," said Mr. Foster.

Aged, Wrinkled Faces Easly Rejuvenated

An aged face is often only a mask to a comparatively youthful person. Beneath is a countenance young and fair to look upon. It's a simple matter to remove the mask. Ordinary mercolized wax, to be had at any drug store, gradually absorbs the worn-out surface skin; in a week or two the user has the loveliest pinky white complexion imaginable. An ounce of the wax usually is sufficient to complete the transformation. It is put on at night like cold cream and taken off in the morning with warm water.

This remarkable treatment is invariably effective, no matter how muddy, sallow or discolored the complexion. Freckles, moth-patches, liver spots, pimples, blackheads and other cutaneous blemishes, naturally vanish with the discarded skin.

To remove wrinkles and flabbiness, here is a recipe that cannot be too highly recommended: Powdered saxolite, 1 oz., dissolved in ½-pint witch hazel. Use as a wash lotion. (Advt.)

COLORADO MAKES YOU TEN YEARS YOUNGER

Would you be ten years younger in a few weeks' time. Some one has said—more graphically perhaps than all the poets—"Colorado makes you feel like springing out of bed in the morning."

It is quite true that there is a peculiar quality to the atmosphere of Colorado. Worries crumble away, and the mind seems to take its cue from the body, which is swallowing doses of the best medicine on earth—perfect air and glorious sunshine.

The trip to Colorado is a part of the fun. Do you know that the train service on the better Western Railways like the Burlington Route is in many respects the best in the world? This refers particularly to the Dining Car Service a la carte which "The Burlington" has made famous.

I am employed by the Burlington Route (C. B. & Q. R. R.) to give you information and try to make it easy and pleasant for you to take the Colorado trip. I would like to send you first, a handbook of Colorado (no charge) telling all about the hotels and boarding houses, prices, attractions, etc. Will you allow me to send you a copy. J. A. Yorick, Can. Pass. Agt., C. B. & Q. R. R., 56 King Street.
