IMPERIALISTS RAISE OUTCRY AGAINST PROPOSED PROGRAMME GRANTING AUTONOMY TO THE TRANSVAAL

Kipling in the Breach With Another Poem—Appeal From Transvaal Progressives to Other Colonies—The End of British Dominion in South Africa.

Canadian Associated Press.

London, July 27.—The Transvaal Progressive delegates now in England, have issued an appeal to their fellow-colonists of other British colonies. It asserts that this is a critical moment in the history of South Africa, as well as of Great Britain. After the great loss in money and human life, disturbance to trade and commerce consequent upon a long war, Great Britain has more at stake now in that continent than at any time in her past history, even at such a critical period as that of its retrocession to the Transvaal in 1881.

"Then we had not a territory stretching from the Zambesi to Table Bay. The Orange Free State was an independent Republic and our interests are more important to-day.

Any peril to the permanence of British institutions in South Africa means the dismemberment of the empire, if through mistaken magnanimity on the part of the British Government the Transvaal should have a Dutch administration and the Orange River Colony be given practical independence for there would not be five British representatives in the legislature of the Orange River colony.

The future of the flag and of all that British civilization means would be the merest gamble.

Every colony in the empire must be awaiting with intense anxiety the announcement of the Prime Minister next Tuesday in the House of Commons as to the details of the new constitution for responsible government to be given the Transvaal. There is reason to fear that safeguards which the Government will include in the constitution will not be sufficient to prevent a representative and responsible administration in a country lately won by the sword, from being controlled by the same ministers who acted for Kruger in one of the most reactionary administrations of modern times and who denied equal rights to all white men.

"It is impossible to believe that any colony in the Empire would not insist so far as their influence by an appeal may have on the British government, on making absolutely secure to the Crown our new colonies through administration in the hands of British men.

"The voice of the colonists now even more than during the war can assist in bringing about such a decision in the part of this government in keeping with such past liberal traditions as were included in Lord Durham's report, which while establishing equal rights, demanded British government."

PROTEST OF THE EMPIRE BARD.

Adopting the view largely held by the British in South Africa, and by many at home, that the Government's promised grant of responsible Government to the Transvaal means the retrocession of the country to the Boers, Rudyard Kipling contributes to the Standard a poem of six stanzas, depicting the colonists as being shamefully and jugglingly sold into bondage, and appealing to Great Britain to prevent it. The following are extracts from the poem:—

"The shame of a Majuba Hill
Lies heavy on our line,
But here is shame completer still,
And England makes no sign.
Unchallenged in the market place
Of Freedom, chosen land,
Our leaders pass our rule and race,
Into the stranger's hand.

"At a great price you loosed the yoke,
'Neath which our brethren lay,
Your dead that perished ere 'twas broke
Are scarcely dust to-day.
Think you, ye freed them at that price,—
Wake, or your toil is vain,
Our rulers jugglingly devise
To sell them back again.

"Pack to the ancient bitterness,
Ye ended once for all;
Back to oppression none may guess
Who have not borne its thrall.
Back to the slough of their despond,
Helots anew held fast.
By England's seal upon the bond
As helots to the last."

"What is their Sin that they are made
Rebellion's lawful prey?
This is their sin,—that oft betrayed
They did not oft betray;—
That to their hurt they kept their vows
That for their faith they died,
God help thee, children of our House
Whom England hath denied.

"But we,—what god shall turn our Doom—
What blessing dare we claim,
Who slay a nation in the wood
To crown a trickster's game?
Who come before amazed mankind,
Forsworn in party feud
And search the forms of Law to bind
Our blood to servitude.

"Now, even now, before men learn
How near we broke our trust,
Now, even now, ere we return
Dominion to the dust:
Now, ere the gates of mercy close
Forever 'gainst the line,
That sells its sons to serve its foes
Will England make no sign?"

The Standard offsets the poem by printing conspicuously its own information that the Government's scheme, which has not yet been divulged, secures a majority of British representatives in the proposed Transvaal Legislative Assembly.

A CANADIAN PROTEST.

A Canadian correspondent of the same journal says that Canadians are watching with the keenest interest events in South Africa. Having taken part in the Boer war, they feel they have earned the right to be heard in the destinies of these colonies. He says the question is whether the Empire will hang together or fall into separate nationalities. If the question raised by Africa is to be separation, why all the imperial effort in the past? If Australia is to go her way, why for a hundred years have the colonists been allowed to go there under a false impression that they were still going to be under the dominion of the British flag?

Canada was too proud to stay in a partnership where she was not wanted. Why had we encouraged three generations of men and women over there in the belief that they are British subjects. They are necessary to the flag and the flag is necessary to them. If South Africa is to go her own way, why call Canadian soldiers to go half round the world to face disease and death and disastrous and bloody war? French-Canadians a century ago could have been citizens of the United States, but chose to maintain with their lives the British flag in Canada. What will they think if we are on the verge of a crisis. Let Britain begin again to think imperially and she will be loyally seconded by Canada.

PROGRAMME OF STOLYPIN

New Council Will Not Be Entirely Composed of Bureaucrats—The Rossia's Appeal.

St. Petersburg July 27.—The Emperor is apparently convinced that he took the right course in suppressing Parliament. A member of the nobility enjoying personal relations with the Sovereign and who saw the Emperor yesterday stated that His Majesty displayed exceptionally high spirits. Two weeks ago, when he saw the Emperor, he seemed to be under a great mental strain over the situation. But, with "Parliament off his hands" and the Government again free to pursue its own policy, a great burden appeared to be lifted from his shoulders. The original plan of creating an advisory council, the Emperor having broken down Premier Stolypin's purpose, is to form a reorganized Cabinet containing non-bureaucratic elements which will be able to introduce the policy of "strong-handed reform" proclaimed by the Government. He has secured tentative acceptances from M. Guchkoff, the prominent moderate member of the Moscow Zemstvo; Prince Georgi Evgororovich Lvoff, of Tula; Prince Nikolai Nikolaievich Lvoff, of Saratov; and M. Stakovich, of Orel; upon the condition that no less than half the portfolios are to be given to non-bureaucrats and that a "broad, conciliatory programme of reform" will be proclaimed in the hope of calming the population. Some of these with whom M. Stolypin is negotiating are insisting that the programme must include an unequivocal declaration in favor of placing the Jews and all other inhabitants on an equal footing before the law.

Running parallel with these liberal promises, M. Stolypin has issued another circular to the Governors instructing them to keep close watch on the population to prevent meetings tending to lawless acts, and giving them authority to expel dangerous characters and arrest persons belonging to revolutionary parties, and when found in possession of incriminating documents to "exile them to the uttermost limits of the Empire." Trans-Caucasia has been placed under a state of exceptional security."

The official Rossia, in a rather pathetic leading article to-day, summons the people who really desire to see Russia regenerated to abandon their indifferent attitude toward the revolution and strike hard for the Government "which is opening the doors to an era of reform."

The decision regarding the proposed general strike is still in the balance. The conferences of the leaders are being greatly hampered by the activity of the police, who all day yesterday and last night hounded them from place to place. The hope of the leaders being able to bring about a genuine coup d'etat, however, is vanishing. The reports of the support that was expected from the army is disappointing and a certain faintheartedness is noticeable among the leaders produced by fear of failure in the face of the imposing array of the Government's military forces.

A section of the Constitutional Democrats has withdrawn from all participation in the conspiracy not being ready to sanction the opening of civil war.

Half a dozen Government spies were found dead in the industrial section of St. Petersburg this morning, political assassinations are increasing in Poland and small strikes are reported to have been declared in many places in the provinces but the peasant movement, so far as the reports show, is not gathering headway. Half of the Seminovsky Guard Regiment has been sent to Cronstadt in view of the ugly temper of the sailors there.

BELOVED PRIEST PASSES AWAY

Rev. Father Leclaire Died Last Night at the Hotel Dieu.

AFTER LENGTHY ILLNESS

Deceased Priest Was Formerly Connected With St. Ann's and St. Patrick's Parishes.

The Rev. M. W. Leclaire, P.S.S., died last night at the Hotel Dieu. The cause of death was a general decline from which the rev. gentleman had been suffering for some years. He was in the 69th year of his age. The body of the deceased will be exposed at the Hotel Dieu till 4 o'clock on Sunday afternoon, when it will be removed to Notre Dame Church. The funeral will take place on Monday morning at 8 o'clock.

The deceased priest was very well known to the Catholics of Montreal, having labored amongst them for the greater part of his ministry; and though of French origin, was especially well known and beloved by the Irish Catholics of the city. For many years he was connected with St. Ann's parish, and St. Patrick's, where he ranked with the late Fathers Dowd and Toupin in the hearts of the faithful. His death will, therefore, be a cause of very sincere regret not only to the Irish Catholics of Montreal in general, but also to the countless numbers who came in contact with the gentle and devoted priest.

BORN IN ONTARIO.

Father Leclaire was born at North Lancaster, Ont., in 1837. After receiving a rudimentary education in the primary school of his native place, he was sent to the Montreal College where he made the regular classical course with great success. His boyish ambitions pointing to the ministry as his vocation in life he at once entered the Grand Seminary on the conclusion of his course and completed his studies in philosophy and theology. After his ordination to the priesthood in 1861 at Rome he was appointed to St. Ann's parish and there began his lifelong work amongst the Irish Catholic population of Montreal. From St. Ann's parish he was removed to St. Patrick's in 1869, and succeeded in endearing himself to the faithful of his new charge as he had done to those of the old. Father Leclaire also spent a few years at Oka as pastor.

SUMMONED TO ROME.

About twenty years ago, the deceased priest was summoned to Rome, where he remained for some fifteen years. Among the responsible positions which he held in the Eternal City was that of superior of the Canadian College. Failing health, however, compelled him to give up this honorable position which he had filled with distinguished ability, and about four years ago he returned to Montreal to die. But though of an always delicate constitution, Father Leclaire possessed a remarkable fund of vitality and energy and in spite of his ill-health, he was able to assume the directorship of the St. Patrick's orphan asylum on his return, and he continued to hold it almost up to the time of his death.

For the last year Father Leclaire's health continued to grow gradually worse and his death has been expected for several months. It will, however, come none the less as a shock to the many who had known and loved him.

THE RECORDER'S WEDDING PRESENT

Bride to Be Arrested for Drunkenness Gets Liberty on Plea of Fiancee.

There was a touch of romance to-day in the Recorder's Court, and at the same time, a whole lot of pathos, when a woman named Nellie Murray was brought up to answer to a charge of drunkenness. Constable Miller found the woman last night on Latour street, hopelessly drunk.

"I am going to be married," said the young prisoner, as she stood in the docket facing the judge, with every mark of shame and remorse on her features. The Recorder looked a little startled, but the man who is to be the woman's husband went up to the witness box and pleaded for her.

"I will take her for better or for worse," he declared. "I will make her a better woman."

"Then for your wedding present, I will discharge this woman," said His Honor, not to be outdone.

THIRTY INJURED TWO FATALLY

Defective Switch Causes Wreck of Westbound St. Louis and San Francisco Train.

Springfield, Mo., July 27.—Thirty persons were injured, two of them fatally, in the partial wreck of a westbound St. Louis and San Francisco passenger train last night. The fatally injured are R. J. Thorp, of Monticello, Mo., and Mrs. Kate Shelty.

The accident was caused by a defective switch. Three coaches passed over in safety, but the fourth left the track and turned over. This coach contained about sixty passengers, and all of them suffered slight injuries. Two sleeping cars did not leave the tracks.

A VICTIM OF LEVEL CROSSING

Unknown Man Mangled at the Guy Street Crossing of the Grand Trunk.

Another was added to-day to the long list of accident victims. About eight o'clock a man, whose identity has not yet been discovered, was struck by a train at the Guy street crossing on the Grand Trunk Railway and almost instantly killed. The Notre Dame Hospital ambulance was called, but the unfortunate man died before reaching the institution.

His head was almost cut in two, one hand was severed, and the body was terribly cut and torn. The victim lies at the Morgue awaiting identification. He is a man of about 25 years of age, dressed like a working man. There was nothing on his person to give any clue to identity. In the pockets was found only a ticket to Otterburn Park and some street car tickets.

Punished for Cruelty to Horse.

Five dollars or twenty days was the penalty for William Fanson to-day in the Recorder's Court, on a charge of cruelty to his horse. Fanson was accused of having driven the animal when there were two open sores on its back, which unfitted it for work.

HENKLE PLAYED BUYING JEWELLER

While Representing Himself as a Morrisburg Tradesman He Got Several Rings.

Charged with stealing an amount of jewellery from two prominent jewellers of the city, Harry Henkle, who says that he comes from Morrisburg, Ont., was brought up this morning before Judge Choquet and remanded for trial until Thursday next. Henkle put in a plea of not guilty. He was arrested yesterday by Detectives Connors and Boulard, of Chief Carpenter's staff.

Henkle presented himself as a jeweller from the town of Morrisburg, and he stated that he wished to buy some stock. He was in the store of William Pitts, jeweller, St. James street, from where he is accused of stealing two watch movements. Later he went to William Bromley's jewellery establishment on Craig street east, and while pricing rings slipped four of them into his pocket. Henkle is also charged with having tried to pass a bogus cheque for $185 in the Pitts store.

BERESFORD TO RESIGN.

Admiral Disapproves of the Recent Changes Made by Admiralty.

London, July 27.—The Malta correspondent of the Tribune says Vice-Admiral Charles Beresford is about to resign the command of the Mediterranean fleet, and that Rear Admiral Sir Assheton Curzon Howe will probably succeed him.

The paper suggests that Lord Beresford's resignation is owing to his disapproval of the recent policy of the Admiralty, which, among other things, reduced the importance of the Mediterranean fleet.

BROCKET PROVED PUZZLE AND SHUT OUT ROYALS

Bannonites Rallied a Little in Eighth But Needed Hit Failed To Materialize—Two Double Plays by the Visitors a Feature.

Brockett proved inaccessible to the Royals throughout the game yesterday, the only time they got two consecutive hits off his delivery being in the eighth, when with Hartman on third and Raub on second, as the result of two singles, Leroy went to bat and bunted, making the third out.

For seven innings, Montreal never got a man on second at all, double plays in the third and fifth cutting them off, when they seemed to have a chance to negotiate the half way station.

Leroy pitched fair ball, but he was listless and did not seem to care whether he won or not, and his apathy tainted the field somewhat. Buffalo's first run was earned. McAllister singled in the third, stole second, made third on Nattress's out, and came home on Gettman's double.

With one gone in the fifth, Hartman fumbled McAllisters' grounder, but Brockett flied to Wagner. Then Leroy decided to pass Nattress for some unknown reason, with Gettman coming right next. Jake lined out one good for three bags, sending two in.

Huelsman, generally so reliable, was responsible for the next tally. After McConnell had got a lucky double, Corcoran put out a sky scraper in the same direction. Wiedensaul would have got it, but Huelsman insisted that it was his ball, and let it drop through his mitt. Then recovering the ball, he threw to the plate to try and catch McConnell, but instead threw so high that Raub had to throw his mit at it to prevent it from going to the grand stand and scoring Corcoran, who was pulled up at third. Even then, Leroy made no move to cover the plate, and had it not been for Connor's run in, Corcoran could have got home.

This ended the scoring, though the Royals made a determined stand in the eighth, but it was too late, and as noted Leroy failed to supply a hit when it was much needed. Tommy Raub's sharp throw to first cut off chances for the Bisons twice though the last time Wiedensaul had to take a hand in to pull off the play successfully. McAllister's throwing to second was absolutely perfect, and succeeded every time.

BASEBALL NOTES.

Leroy had better wake up, or he will find himself out of the game some day.

Raub's throws to first have proved timely and effective against the Bisons.

Pappalau to-day should give the Bisons a run for their money and win the rubber.

Moran is the snappiest umpire on the circuit, and when he is in charge the game goes merrily on without undue interruptions, even from over-zealous rooters.

The rooters got after Smith yesterday, but he appears able to take care of himself in a wordy duel, even over his departure from Rochester.

Brockett's twirls were certainly mysterious, and the Royals have not yet become readers of mystery.

One sparrow does not make the Spring, and neither does one loss mean any falling off in the general standing of the club.

Montreal cannot expect to win every day, especially from the leaders of the league.

Montreal and Rochester will play a double header to-morrow. The games will be called at 2 and 4 p.m.

MONTREALERS WILL NOT GO.

Mr. John Duthie, president of the Montreal and District Amateur Cricket League, speaking at a meeting of that body at the Carslake Hotel, said it had been decided to relinquish the intention of sending a team to Ottawa, because of their inability to get a representative team to make the journey. Referring to the tie match played between Dominion Cotton Mills and Victoria Annex, he stated that a letter had been received from Mr. F. E. Lacey, secretary of the Marylebone C. C., England, who judged that a tie was the result. Each club, therefore, had one point awarded. Longueuil was resolved upon as the venue of the forthcoming test match between the A. and B. divisions of the league, providing that that ground is available. Messrs. Gilbert Ferrabee, W. L. Thom and C. J. Harrod, and Messrs. W. H. Duthie, E. Mason, E. Goodson and E. K. Morrall, were the committees appointed to select the A. and B. teams respectively.

The present standing of the clubs in B. division is as follows:

	W.	L.	D.	Pts.
Dom. Cotton Mills	2	1	2	6
Lachine	3	2	0	6
Westmount II	2	2	1	5
Victoria Annex	0	2	1	1

SELLING PLATERS FILLED THE CARD

Race Track, Fort Erie, Ont., July 27.—The weather was perfect for racing and track in fine condition. A short course steeplechase served as the feature of the afternoon's card. There was little offered in the way of class. The card was given over to selling platers. The ordinary programme did not affect the attendance, which was up to the standard. Results:

First race, 3-year-olds, 6 furlongs — Oldsea, 109, Wisbard, 9 to 2, won; Left Guard, 99, Shilling, 20 to 1, 2; Ancient Witch, 103, Bilac, 6 to 1, 3. Time, 1.14 3-5. Glen Lonely, Paul Deering, Henry Waring, The Macy, Oak Leaf and Chancellor Walworth also ran.

Second race, maidens, 2-year-olds, 5 furlongs—St. Clair, 111, Wisbard, 4 to 1, won; Hazel Patch, 111, Foley, 5 to 1, 2; Hattie Dodson, 108, Vanduzen, 10 to 1, 3. Time, 1.02 2-5. Buster B., Prolific, Lady Demon, Azele, partiality, Charlie Ward, Excuse Me, Mirabel, Vacharia, Singsworth and Fanny Marks also ran.

Third race, 4-year-olds and up, steeplechase, short course—Manzeano, 147, Dayton, 5 to 1, won; Duchess Ollie, 140, Zeno, 6 to 1, 2; Billy Castle, 137, Hueston, 5 to 2, 3. Time, 3.53. Tony Hart, Myra Morello and Madore also ran.

Fourth race, 3-year-olds and up, 1 mile, selling—Hamilcar, 90, Moreland, even, won; Ravena, 98, Hogg, 4 to 1, 2; Loots, 87, Goldstein, 15 to 1, 3. Time, 1.39 3-5. Thora Lee, Saladin, Denise Densmore, Qui Vive and Selected also ran.

Fifth race, 3-year-olds, 6 furlongs—True Boy, 114, Hogg, even, won; Mina Gibson, 100, Lee, 7 to 2, 2; Perdition, 104, Mountain, 6 to 1, 3. Time, 1.14 1-5.

Sixth race, selling, 1 1-16 miles—Woolwich, 112, Shaw, 7 to 5, won; Donna, 107, Koerner, 10 to 1, second; All Right, 104, Alex, 15 to 1, third. Time, 1.47 2-5. Water Tank, Water Bearer, Greeting, Stoic, Comedian, Ocean Spray, Retort, Bob Edgen, Priority, Palandale and Huntingdon also ran. In Line fell.

Nationals Dissatisfied.

It appears that the nomination of Bowery Robertson as referee of the National-Toronto match is causing considerable dissatisfaction amongst the ranks of the former club. The French public is at last tired of the rotten rulings of Ottawa officials, incapable and incompetent as they are, and they think it is high time some other men were appointed to handle the whistle.

It is claimed that Mr. Robertson will receive more of a reception like that which Sarah Bernhardt got in Quebec, when he strikes Maisonneuve, than a Glidden tour ovation.

Special Notice.

Dolly Varden's Real Value.

Beautiful and attractive as is the Dolly Varden Boot Shop, the careful shopper need never fear that high prices will be asked. Every shoe in the new home of the Dolly Varden has the value stamped on it by the makers. The clerk cannot change the price, and the makers never will, for they have adopted the new method of enforcing one price at a fair profit and eliminating the greed of the storekeeper who makes his price according to the good style of his customer. $4 and $3.50, some at $5—in the Dolly Varden family.

French & Smith advertise the Footrite shoes for men as well as the Dolly Varden, at 440 St. Catherine street west.

The picture on the right of the page is that of John Flanagan, the famous Irish-American athlete, who recently threw the 56-pound weight a distance of 39 feet 7 inches. The one on the left is one of Nap Shea, the crackerjack catcher, now with Newark.

CORINTHIAN PARTY IS COMPLETED

Will Arrive in Quebec on August 9 by the Victorian—Fixtures Here.

The Corinthian party for the tour in Canada and the United States has now been completed, and the tourists will sail on the Victorian on August 2, and, wind and weather permitting, they will set foot in Quebec on August 9. Little time has been allowed for shaking off the effects of the crossing of the "herring pond," for they play their first match two days later, the following being a list of fixtures booked:

August 11—Montreal.
August 13—Ottawa.
August 15—Hamilton.
August 18—Toronto.
August 20—Berlin.
August 22—Seaforth.
August 25—Chicago.
August 27—Detroit.
August 29—Cleveland.
September 1—Philadelphia.
September 3—Philadelphia.
September 6—New York.
September 8—New York.
September 10—Boston.
September 12—Providence.
September 14—Newhaven.

The party will sail for home on the Campania.

SIXTH OF THE SERIES.

Swimming Races of the Montreal Club To-morrow.

The sixth in the series of weekly handicaps held at the Montreal Swimming Club, will take place to-morrow afternoon, with the following list of events:

1.—50 yds. handicap, junior.
2.—220 yds. handicap, senior.
3.—100 yds. handicap, junior.
4.—Water Polo match, senior.
5.—Duck Hunt, junior.
6.—Duck Hunt, senior.

The special feature of the sports to-morrow will be the aquatic polo match, the last one having been a decided success. The teams will be picked on the grounds, and with so much good material to choose from the match is sure to be an interesting one.

The amateur photographers are out again in full force this season, with their Kodaks, and some really beautiful pictures have been obtained, the diving, of course, always being the favorite shap.

Visitors who have their Kodaks with them are always welcome to enter the club grounds if they wish to take a few snaps at the swimmers and divers.

Lachine's Big Regatta.

Lachine on Saturday afternoon will hold their annual aquatic tournaments, consisting of flat bottom boat events ranging from one pair oars to twenty-one paddles, skiff races, etc. Three races will be given for gasoline launches, including from the ordinary river skunk to the boats in which their crews in order to hold on have had to let their nails grow. This fast speed launch race will eclipse anything that so far has been attempted.

The three fast boats of the province (none less than 18 miles an hour) will range up for a 20-mile contest.

The races will be held opposite the Town Hall.

No entry fees will be asked, and they have prizes to burn. All neighboring braves from Caughanawaga, Chateauguay, Beauharnois, Valleyfield, and the lake shore points have been invited.

In the evening individual prizes will be awarded for the best illuminated and decorated skiff, canoe and gasoline launch.

Mine Host Leger, of the "White Elephant," will banquet the invited palefaces.

Alderman Ranger is the "king pin" of the "pow wow," and a good time is therefore assured.

Fireworks in the evening.

The Outremont A. A. A. juniors would like to play teams 15 and under a game of baseball. Address P. Salmon, secretary, Outremont A. A. A. Juniors, Postoffice box 2296.

IN THE DIFFERENT LACROSSE CAMPS

All Feel Confident, All are in Good Trim, and Great Games are Assured.

Not for a long time has so much interest been evinced in lacrosse as in the three matches which will be played off to-morrow.

Nationals and Toronto are due to fight it out here. L'Heureux, who has returned to Montreal, has been out with the Nationals for the past few practices and will materially strengthen the French aggregation. Alex. Sauve has also been out to the practices lately and will be another strong acquisition to the team. In the National camp everybody feels confident that the team will be able to down Jimmy Murphy's bunch.

Montreal's seniors had a steady and snappy turnout last night, for their final line up before meeting the Tecumsehs. Although Captain Roddy Finlayson was not on deck, the men went through some fancy stunts, Geo. Finlayson and Wells becoming so much interested in the game that they quite forgot themselves, and started in to hand out hot ones to one another.

Both men are quick footed, with tempers to match, and when Wells ran in on Finlayson the latter met him with a pass for the jaw, which was immediately returned, neither fist scoring, however. The gladiatorial athletes then clinched, the rest of the team quickly separating them, and the practice went on without any ill humor.

It is not expected that there will be any change on the team which will go to Toronto to-night to do battle with Tecumsehs, but that the boys will line up in the same order as they did last Saturday to defeat the Nationals so decisively. They have all been practicing well during the week, just enough to keep in good hard condition without going stale, and are confident that they will give a good account of themselves in Toronto.

TORONTO'S IDEAS.

Special to The Montreal Star.

Toronto, Ont., July 27.—Never before perhaps in the history of lacrosse has general interest been taken in the outcome of a lacrosse game than in the Montreal-Tecumseh battle at the Island to-morrow. If the Montrealers win they look likely to make good their boast not to lose another game this season. If the Tecumsehs win it reopens the whole question of the championship. And the Indians claim that Pickering or Graydon can stop Roddy Finlayson's great rushes, while Stewart can take excellent care of the elusive Albert Dade. They figure the home the strong point of the Montreal team, and feel sure if they can take care of this Indian attack they can secure enough goals to put the red and white on top.

Steamer Chartered.

The Chateauguay Boating Club have chartered the steamship Surveyor to run from Chateauguay to Lachine to attend the regatta of the Lachine Boating Club. The steamer will leave Chateauguay at 1.30, and returning leave Lachine wharf at 6 p.m. It is expected there will be a large turn out, which will make the regatta all the more successful.

Westmount vs. Osborne.

The following will represent Osborne in this match to be played at Westmount Saturday next: R. N. Lewis, H. T. Lewis, J. Bearman, W. Cropper, A. Atkinson, G. McDermott, A. Holcombe, J. Sheutor, H. C. McNeil, E. McDermitt, W. Toole; reserves, S. Brereton, C. S. Bawn, D. Lavender.

Bulletins Arranged.

Spectators at the Toronto-National match will be kept posted on the progress of the Montreal-Tecumseh match at Toronto and the Capital-Cornwall match at Cornwall, which will be bulletined from the roof of the Invictus shoe factory, opposite the National lacrosse grounds.

Intermediate Match.

Y. M. C. A. will play Outremont at the Baseball Park to-morrow at 5.30 p.m., after the conclusion of the baseball match. The same team as last week will represent Y. M. C. A., and all members, as well as the reserve men, should be on hand in good time.

Irenes Want a Game.

The Irene Baseball Club would like to arrange a game for Saturday. Apply to 44 Bleury street.

COY 'MAID TAKES THE TEST HANDICAP

At Twenty to One She Defeats Kiamesha, Bedouin and Inquisitor.

New York, July 27.—Coy Maid, an outsider in the betting, at 20 to 1, won the Test Handicap at Brighton Beach yesterday, defeating Bedouin and Inquisitor. The mile was run in 1.39 3-5. Kiamesha went to the front to a good start, followed by Aeronaut and Coy Maid. At the turn into the back stretch, Kiamesha was leading by about 1 1-2 lengths from Aeronaut, a head before Coy Maid. In the stretch Coy Maid was leading, but Bedouin and Inquisitor, who were outrun in the early stages, began to close, coming from far back. Coy Maid, however, lasted long enough to win by a head in a hard drive. Bedouin was second, half a length before Inquisitor. Two favorites won. Commedienne, in winning the fifth race, equalled the track record for 6 furlongs, of 1.1- flat. Summary:

First race selling, 6 furlongs—January, 104, Miller, 9 to 5, won; Orphan Lad, 107, L. Williams, 5 to 2, second; Dunvallo, 102, Baird, 20 to 1, third. Time, 1.13 4-5. El Gapitan, Jim Leinard, Vinton, Umbrella, Affinity, Be-o-Wa-Wa, Yukon, Pone ..ch, Dominator and Crimson Clover also ran.

Second race, 1-16 miles—Druid, 101, Horner, 4 to 1, won; Miss Rillie, 96, Keyes, 8 to 1, second; Greville, 36, Koerner, 7 to 1, third. Time, 1.46 4-5. Col. White, Little Woods, Dalvay, Suffice, Charlatan, Blennenworth, Telephone, King Henry and Ebony also ran.

Third race, 5 1-2 furlongs—Loring, 112, Martin, 3 to 1, won; Laura A., 107, Miller, 3 to 1, second; Suade, 104, McGee, 15 to 1, third. Time, 1.06 2-5. Royal George, Woodwitch, Hazeltine, Cur Own, My Eddie and Inoffensive also ran. Victoria B. left at the post.

Fourth race, Test Handicap, mile—Coy Malden, 98, Koerner, 20 to 1, won; Bedouin, 119, Shaw, 5 to 1, second; Inquisitor, 106, Miller, 5 to 1, third. Time, 1.39 3-5. Ramshohn, Aeronaut, Lady Saver, Tiptoe and Fine Cloth also ran.

Fifth race, 6 furlongs—Commedienne, 114, Dimon, 6 to 1, won; Nannie Hodge, 122, Miller, 2 to 1, second; Water Grass, 100, Horner, 8 to 1, third. Time, 1.12. Handsearra, Consistent, Diamond Flush, and Listless also ran.

Sixth race, 1 mile, selling—Cadichon, 97, Lee, 16 to 5, won; Corwsade, 9 to 2, 2; Edgely, 107, Hogg, 2 to 1, 3. Time, 1.40. Reilm, Sharp Boy, Marpessa and Factotum also ran.

BOWLERS ARRIVE TO-DAY

Will Play Their Initial Game To-morrow Against Westmount.

The British bowlers, who are due to arrive on the Virginian to-day, will play their initial game in this country upon the Kensington green to-morrow afternoon, when they will be opposed to a strong team selected from the members of the Westmount Club. Each side will consist of six rinks, and the following have been chosen to represent Westmount:

L. P. Snyder, J. R. Adam, W. S. Wilson, Wm. Browne—(Skip.)
H. S. Mussen, W. W. Pope, A. Gardner, A. W. D. Howell—(Skip.)

MOTOR BOAT RACES

Will Be Held by Frontenac Yacht Club in August.

Motor boat races of note are on the August schedule under the auspices of the Frontenac Yacht Club. The first series will be run off on August 11 for the Emery trophy, a massive silver loving cup of unique design, valued at $500. The race will be over the 21 mile course for boats of thirty foot water line or over, handicap time.

The American Motor Boat Association races will occur here on August 16, 17, 18, under the new rules. Over a score of racers will cruise here from New York waters for this event. Another important race will be held the latter part of August at the conclusion of the Gold Challenge Cup events at Chippewa Bay, under the American Power Boat Association. It is expected by marine motor people that several new records will be made here for power craft next month.

An exciting finish to last weeks motor boat races at Frontenac was a head-on collision between the "Vingt-et-Un II", owned by W. S. Kilmer of Binghampton, and the "Got-to-Go", owner, W. D. Hayden, of New York, in which the famous gold cup winner's prow was smashed in so that the French racer almost sank. This boat came in second in the 14 mile handicap, which was won by "So-Long II", owner, Geo. Hasbrouck of New York. The winner's best time for the course was 35 min. 13 sec.

The 21 mile free-for-all event went to the "Too Easy", a Kilmer entry, with "Canard" second. The last named boat is the property of J. H. Morgan, of New York.

BEACONSFIELD WILL BE EN FETE FOR REGATTA

The Annual Regatta of the Boating Club Will be Replete With Interesting and Novel Innovations—Prince of Wales Band on Hand.

The annual regatta of the Beaconsfield Boating Club, which takes place on Saturday, the 28th July, off the Grove, Beaconsfield, bids fair to outrival anything of a like nature which has been held heretofore, which is saying a great deal, for the Beaconsfield regattas of the past few years have been considered without any exception the best on the lake shore.

This year the management have secured the services of the 1st Prince of Wales Regiment Fusiliers brass band, which under the efficient leadership of Bandmaster Van der Meerscham will render a choice programme of music during the progress of the regatta, and in the early part of the evening.

In the evening a dance will be held at the boathouse and refreshments will be served on the lawn.

The president and members of the Beaconsfield Club are desirous that all members of sister clubs, who can possibly manage to do so will be present on this occasion.

The following is a programme of the events, with a list of the entries:

No. 1. tandem canoe, ladies and gentlemen—Miss M. B. Letendre, H. Desbarats, Miss F. Russel, E. Upton, Miss M. Draper, F. H. Shaw.

THE THREE VISITING TEAMS WILL WIN

That is the Opinion in Ottawa in Regard to Saturday's Lacrosse Matches.

Special to the Montreal Star.

Ottawa, Ont., July 27.—The prevailing opinion in Ottawa is that the three visiting clubs will win in Saturday's important trio of games in the N. L. U. The Capitals are bracing themselves for a hard game at Cornwall and while it is realized what a strong team represents that town this season, the most confident of all of a victory are the members of the Capital team themselves. A final workout was held at the oval last night and showed the team to be in the finest possible condition.

Fully five hundred people will go to Cornwall from the Capital, the O. & N. Y. putting on a couple of special trains for the purpose. President Foran, of the N. L. U., has been in Cornwall all day endeavoring to come to complete arrangements regarding officials. As yet nothing definite has been decided, although it is believed that Peter Murphy will act as referee, and Desse Brown as judge of play.

Owner Ross, of the Rossmore Hotel, Cornwall, was in town yesterday and placed $500 at evens on Cornwall. He was sent home to bring more money if it was obtainable. The match is creating the greatest kind of interest, owing to its important bearing on the championship.

Dr. von Stan's Pineapple Tablets. — Medical science by accident discovered the potency of the pineapple as a panacea for stomach troubles. The immense percentage of vegetable pepsin contained in the fruit makes it an almost indispensable remedy in cases of dyspepsia and indigestion. One tablet after each meal will cure most chronic cases. 60 in a box, 35 cents.—32

Shoe Merchants Hold Picnic.

The fourth annual outing of the members of the Retail Boot and Shoe Merchants' Association took place yesterday afternoon when, along with a few of their friends, the shoe merchants visited Dominion Park and disported themselves among the various attractions offered by Montreal's new playgrounds. The association has attained to a large membership and a great number of members attended the outing.

SHATTERED NERVES

Made Strong and Steady by Dr. Williams' Pink Pills.

When your nerves are out of order your whole health is on the verge of a break-down. Sudden sounds startle you; your muscles twitch and your hands tremble; your self-control is shattered; your will-power gone. Your head aches; your feet are often cold and your face flushed. Your heart jumps and thumps at the least excitement; you are restless at night and tired when you wake. Your temper is irritable and you feel utterly down-hearted. And the whole trouble is because your blood is too thin and watery to keep the nerves strong. There is only one way to have strong, healthy nerves—feed them with the rich, red blood that only Dr. Williams' Pink Pills can make—and do make. Mr. Fred. Forth, 17 Sullivan street, Toronto, says: "I was a complete wreck with nervous prostration, but Dr. Williams' Pink Pills have made a new man of me. I had been nervous for years; the least noise would startle me, and the least exertion would leave me utterly prostrated. I lost in weight, and physically I was almost a wreck. I had not taken the pills long when I found they were helping me; my appetite improved, my nerves began to grow steady, and day by day I gained until I was again a well man. My weight increased twenty-five pounds while I was using the pills. To any who suffer as I did, I can say that if Dr. Williams' Pink Pills are given a fair trial, a cure will be sure to follow."

Dr. Williams' Pink Pills restored Mr. Forth, simply because they made the rich, pure blood which properly nourishes the nerves and keeps them strong. They will cure all the diseases due to bad blood and shattered nerves, such as anaemia, indigestion, headaches and backaches, rheumatism, lumbago, St. Vitus dance, paralysis, general weakness and the secret ailments of growing girls and women. But you must always insist on getting the genuine pills with the full name Dr. Williams' Pink Pills for Pale People on the wrapper around each box. Sold by medicine dealers or sent direct by mail at 50 cents a box, or six boxes for $2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

WEEK'S REAL ESTATE SALES REGISTERED

Aggregate Value Only $189,266 Being Smallest in Many Weeks—Purchase by Willis Was Largest.

Real estate sales in Montreal and environs registered last week, showed a striking falling off in aggregate value, amounting to but $189,266.

There were practically no large sales registered, the purchase by Mr. Alex. P. Willis, from the John Redpath estate, at the corner of St. Catherine and Drummond streets, for $35,000, being easily the largest. This transaction was reported in these columns some time ago, when it took place. It is the intention of Mr. Willis to build upon the site.

Saving this transaction, almost all the others were quite small in value, the average this week being unusually low.

The most important sales registered are as follows:—

SUICIDED AT SEVENTY.

Isidore Allain Grew Despondent and Cut Throat With a Razor.

Isidore Allain, 70 years of age, a former resident of Quebec, but who has lived here since last autumn, was found with his throat cut and a razor lying along side of him, on the steps of the dwelling of Police Lieut. Turner, 372 Visitation street, last night. He was hurried in the ambulance to the Notre Dame Hospital. To-day his condition was reported as being unimproved, and owing to his advanced years not much hope is entertained for his recovery. Allain lived with his daughter, Mrs. Theophile Begin 372a Visitation street, next door to Police Lieut. Turner when he first came here from Quebec, but left a couple of months ago to live with another married daughter, residing in East Sherbrooke street. He left there last night about 10 o'clock to return to Mrs. Begin's, taking a small valise with him. A half hour later he was found lying on the steps. It is supposed that the old man became despondent and decided to end his life.

'Longshoremen's Emergency Union.

An emergency meeting of all the 'longshoremen employed on the water front has been called for Sunday afternoon, at 2 o'clock, in their headquarters on St. Paul street. Mr. George Poliquin, secretary-treasurer of the organization, when seen by a Star reporter, refused to state the object of the special meeting, but admitted that it was important. He said that every man connected with the union should make it a point to be present.

JUSTICE OF THIS SORT UNDIGNIFIED

Montreal Officials Do Not Think Much of Mothers Being Called to Spank Children in Court.

A recent despatch from Ithaca, N.Y., gave the information that in the Police Court in that city eight mothers had spanked their sons in court before Recorder Sweetland. The boys had all been arrested for stealing from railroad cars and had been found guilty. As the families were very poor the Recorder stated that he would not fine them the sum of $5 if the mothers would administer corporal punishment before him in the court. Sticks were brought and the mothers grasped their children to earn, what one of them called, "the easiest five dollars of her life.

As this punishment is somewhat of a novelty, an interview with different magistrates of this city and police officials concerning its possible introduction here brought out a variety of opinions.

Judge Desnoyers thought the punishment a very peculiar step in the law; he thought that it would be better for the punishment to be given at home and should have been done before the boys had acquired the habit of stealing.

Chief of Detectives Carpenter was somewhat of the same opinion. When he was spoken to of the mode of punishment he answered: "It is of no use in a case like that, as spanking at home is more effective and when the children are young they should be stopped before they get into the way of committing these crimes."

Chief of Police Campeuau considered that it was quite a novel idea, adding that he would prefer that the Court House officials give the punishment instead of the mothers which, to a certain extend, is a drawback to the effectiveness of the punishment.

Mr. Recorder Weir stated that he did not approve of this magistrate's action. To emphasize his statement he remarked that spanking in such conditions was not in accordance with the dignified method of administering justice.

Fined for Dangerous Blasting.

Mr. Recorder Weir rendered judgment yesterday in the case of Wilfrid Charbonneau, senior and junior, and Mederic Beaudry who were charged with blasting rock in the north end of the city and where there might be danger of life. The former was acquitted and the two latter were fined $10 each.

BUILDING TRADES COUNCIL OFFICERS

Mr. I. Tremblay Elected President—Movements of Labor Leaders.

At last night's meeting of the Montreal Building Trades Council these officers were elected: President, I. Tremblay, Plasterers' Union; vice-president, Edward Kavanagh, Plumbers and Steamfitters Association; secretary, E. Pelletier, Painters' Union; treasurer, A. Filiatreault, Sheet Metal Workers Union; warden, R. Leroy, Carpenters and Joiners; trustees, J. B. Vigeant, George Delaney. A grievance committee was appointed composed of one member from each union connected with the council.

It was decided to ask the Dominion Government to have all public works, under the control of the government constructed by union labor. The annual report of the treasurer showed the council to be in a strong financial position. Trade conditions were reported as being brisk.

There was much informal talk during the evening relative to the placing of a labor candidate in the field in St. Mary's Division, but no action was taken.

Messrs. Alphonse Verville, M.P., and N. Arcand, of the Brotherhood of Carpenters and Joiners, have been invited to address a meeting of the Quebec Federation of Labor, on Monday evening. Mr. Verville will return to the city on Tuesday in time to attend a public meeting of the Plumbers and Steamfitters, when it is expected that J. R. Alpine, of Boston, vice-president of the United Association of the United States and Canada, will be present. After a few short speeches a reception will be tendered the visitors.

Messrs. E. E. Kavanagh, Alphonse Verville, M. P., George Delaney and Joseph Cusson have been elected as delegates to represent the plumbers at the meetings of the Trades and Labor Council.

Smuggling Arms Into Russia.

London, July 27.—The correspondent at Copenhagen of the Daily Telegraph states on information received from captains of Danish and foreign steamers that the Russian revolutionists still continue to smuggle arms and ammunition into Russia. Many cargoes of ammunition, the correspondent says, have been discharged on the Finnish coast.

A Question of Rights.

Ottawa, July 27.—Have residents of the province the right to fish in the waters of their locality? This question was raised by counsel for defence when Alphonse Chatigny and Nap. Phillion appeared yesterday morning before Magistrate Goyette in the Hull Police Court, to answer a charge of trespassing on the property of the Gatineau Fish and Game Club. The defendants claim that they have a perfect right to fish in the lake there and that a reserve should have been made in the lease by which residents would be allowed to do so. The case was adjourned until August 1st.

ONE ALDERMAN RETURNS.

Ex-Ald. Valliéres has returned from a European tour with the impression that Montreal would be a fine city if it had civilized pavements. It has impressive buildings; it has some magnificent residential streets; it has splendid parks; but its streets would disgrace a decaying village.

That is the one thing which first strikes a Montrealer returning home from a tour among other cities, whether on this continent or in Europe; and it must inevitably be the first impression received by a citizen of another city visiting Montreal. Yet nothing is a better standard by which to judge the municipal vitality of a city than its streets. They are the especial care of the municipality, and they are constantly used by the people; consequently the greatest amount of public pressure will be brought to bear upon the civic authorities to keep them in order, and they ought, therefore, to present the high water mark of municipal efficiency.

When a visitor finds a city badly paved, he knows that it is badly run. A broken and dirty street is an advertisement laid under the eyes of all-comers that this city has little public spirit and is poorly served by its municipal council. Now a man on the lookout for a place to invest capital, would shun such a city as he would any other badly governed community; and a man casting about for a place to move with his family, would at once cross the name of that town off the list of the "possibles." We might as well maintain a miasmic swamp within the city limits; or so weaken our police protection that "hooliganism" became a nightly menace to the best districts.

To put our money in splendid office buildings, in stately residences, in great industries and in airy stores; and then depreciate the value of our investments for lack of a little more money spent on street cleaning and street paving, is colossal stupidity. The first business of our public spirited men should be to see that Montreal gets good streets. That ought to be made the initial item in the municipal programme. All other things might well be subordinated to this Herculean labor until it is accomplished. It is the most pressing need to-day on our municipal horizon.

THE TROUBLES OF A KING.

King Sissowath, that merry monarch of Cambodia, who recently arrived in Paris, and made an after-dinner speech the occasion for requesting France to go over to England with him and take the "darned country," has troubles of his own. There are heathen rulers who marry profusely, but in most cases the matrimonial ventures are purely voluntary on their part. However, the unwritten law and custom which nerves the place of a constitution for Cambodia makes a certain amount of marriage as compulsory as the duty of "bossing" the nation. Of course, "compulsion" cannot be strictly applied to an absolute monarch, but "noblesse oblige." He has to marry a sort of Cambodian Douma. When he comes to the throne he must marry three princesses of the highest royal blood, who will hold the rank of queens. Then he must take to wife ten other damsels of high degree, more or less of royal blood. These are wives of the second degree. Then he gathers unto himself a score or two of "plyos" or daughters of ministers. To prevent undue ministerial influence in the royal household, the King also marries a like number, of "meyous," or daughters of councillors. The common people cannot be overlooked, so the King acquires a few score of ladies called "trakaus," or wives in the fifth degree, who are born of untitled subjects. Of course, the King himself cannot undertake to keep such an army of wives in order without assistance, and does not always know them apart; so he has his household supervised by three widows of noble family, stately dames of age and solemnity not given to practicing or permitting too much frivolity. No wonder the poor man wants to go over and "whale" England or do anything else to take his mind off his domestic troubles. His political affairs are kindly taken care of for him by France, Cambodia having been a French protectorate since 1863.

ALARM IN SOUTH AFRICA.

It is apparent that the South African "Progressives" are nervous over the new scheme for the self-government of the Transvaal which the Campbell-Bannerman Ministry will introduce next Tuesday. They have issued an appeal, practically, to the other Colonists, to protest against the undoing of the work their volunteers helped to do at so terrible a cost during the Boer War, and even Mr. Rudyard Kipling has been inspired to interpose with one of his political poems—a weapon which always wounds his poetic reputation whatever it may do to "the enemy."

The London Standard, which prints Kipling's poem, adds a pacifying statement on its own account to the effect that it understands that the new Government scheme will keep the Government of the Transvaal in British hands. Mr. Richard Jebb, of the London Post, sent us a letter a few days ago, that our readers will recall, in which he pointed out that the real seat of peril was not the Transvaal but the Orange River Colony. If entire self-government were conferred upon this community, it would "mean," he says, "the handing over of this province to the very coterie of Boer irreconcileables who forced the old Free State into the war and remain to-day the bitterest enemies of the ideals for which we fought."

Mr. Jebb—who is a thorough Imperialist and an experienced investigator—is not so alarmed, however, about the Transvaal. He says that "in the Transvaal, the British population is large enough to take care of itself, and shows a widespread desire for a change of Government. There are certain questions, especially that of Chinese labor, which no longer can be dealt with satisfactorily under the Crown Colony system. But, in the Orange River Colony, there are no such burning questions, and the British population is in a hopeless minority (about 40,000 to 120,000)."

The "Progressives" are entirely within the rights of the "new understanding," out of which may some day grow a new British Imperial constitution, in appealing to the other Colonists on this Colonial question. No British Ministry can have a mandate to reverse the results of the late war. Britain asked in that struggle for the assistance of the Colonies—an assistance which was freely and enthusiastically given—and Britain cannot now in honor make the results of that titanic effort of no effect without asking the consent of the same sister communities to which she then appealed for military cooperation. And if such consent were asked, it would most certainly be refused. If it was necessary seven years ago for men from all over the Empire to die on the fields of South Africa in order to make British supremacy secure in that area, it must still be necessary to maintain that supremacy when it can be done by the simple process of leaving an act of Parliament unwritten.

On the other hand, the self-governing Colonies have great faith in the healing power of self-government. Nothing so dangerously irritates a mixed community, striving toward a better mutual understanding, than the constant intervention of the Imperial Government, which seldom understands and is too often the dupe of a noisy few. So soon as Britain can give the South Africans self-government with safety, it should do so; and the sooner this time comes, the sooner will the scars of the war be forgotten. But no risk should be taken of re-arming Boer ambition; and not a single British colonist should be sacrificed on the altar of reconciliation. We all desire a permanent peace; but it must be the "pax Britannicum"

There are some people in the vicinity of New York who should have a lot of money coming to them. There is a railway which has been "doing" them out of a mile and seven-eighths every trip for forty years. A recent remeasurement of the distance between the Brooklyn terminal of the Long Island Railroad and the station at Sayville, showed that it was only forty-nine miles and one-eighth, whereas it had been counted as fifty-one miles, and passengers charged accordingly ever since the road was built. It is just a question whether the company had better try to raise the money to pay or give the overcharged passengers and their heirs the railroad for the amount of the rebate due.

ON NEWSPAPERS.

(Thomas A. Edison in Pearson's.)

Looking over the whole country, I have come to the conclusion that the greatest factor in our progress has been the newspaper press. Russia is much bigger than this country in every way. She has a tremendous population and immense natural resources. Yet she is fifty times slower. Why? Because she lacks the power of a free press. She cannot unite or harmonize her forces. But when we want to do anything the newspapers take it up. Everybody reads the newspapers, everybody knows the situation, and we all act together.

DENATURED ALCOHOL.

(London Free Press.)

The Canadian Manufacturers' Association, at a meeting in Toronto, on Thursday, approved of a resolution urging the withdrawal from bond of denatured alcohol duty free for use in industrial enterprise. This is a question which the Government must face at the next session of Parliament if Canada is to stay in the procession. Few understand the extent to which denatured alcohol can be used in the line of manufacturing. It can be used in the manufacture of the following articles: Aniline colors and dyes, hats (stiff and straw), electrical apparatus, transparent soap, furniture, picture mouldings, burial caskets, cabinet work, passenger cars, pianos, organs, whips, tops, rattan goods, lead pencils, brushes, waggons, boots and shoes, smokeless powder, fulminate of mercury, brass beds, gas and electric light fixtures, various kinds of metal hardware, incandescent mantels, photographic materials, celluloid and similar articles. The cotton growers of the South say that with free alcohol they can make cotton into a product that so closely resembles silk that our ladies cannot tell them apart. About a year ago an American official said that the railroads of the country would give a million dollars for a patent that would enable them to run light locomotives on branch lines with small traffic and hustle in the live stock of the farmers on these lines to the main line, or, to use a railroad phrase, "assemble the stock." It now seems likely that denatured alcohol will be the fuel used for running these trains, one or more of which are already used experimentally. It is needless to say that with alcohol at 20 cents, for which experts at Washington say it can be manufactured with corn at 42 cents, the farmer will run his engine for pumping water, filling silos, cutting forage, grinding grain, and churning with denatured alcohol instead of with gasoline.

THIS DATE 30 YEARS AGO.

July 27, 1876.

The Late Mr. Justice Rainville

The petition of the members of the Bar of Montreal district to the honorable judges of the Superior Court, praying that all contested cases be adjourned until the 18th prox., has been granted by Hon. Mr. Justice Rainville.

THE above named Jurist was appointed a judge of the Superior Court in February of 1876. He was admitted to the Bar in 1862, and practised his profession successfully in this city till his elevation to the bench. He was a graduate of Laval University, and was recognized by the legal profession as a man of clear and sound judgment, and sharp perception of the niceties of all points of law.

Miss Elizabeth Thompson, the famous British painter, has completed her "Balaklava," representing the return of "all that was left of the heroic six hundred." The painting is attracting much attention from all classes, and the art critics are almost unanimous in their praise of the work.

THE above named painter won national fame in the sixties by her painting of the "Roll Call," representing the Guards Brigade in line after the battle of Inkerman. A few years later she increased her artistic status by her vivid picture of the battle of "Quatre Bras." She was married in June, 1877, to General Sir William Butler, K.C.B., who served in Canada in the 69th Regiment during the "Trent" affair, Fenian raids and the Red River expedition of 1870.

The Late Major Stevenson.

Mr. S. Stevenson, the commissioner of the Province of Quebec at the Centennial Exhibition, arrived in town this morning from Philadelphia. He says Canada's exhibits excited much praise on all sides.

THE late Major "Sam" Stevenson was for many years the efficient secretary of the Board of Arts and Manufactures of the Province of Quebec. He served for years in the 1st Prince of Wales' Rifles, retiring with the rank of major. He was on the frontier during the Fenian raids.

The Gas Company has two men engaged in relaying the paving stones on St. Francois Xavier street, which it lately pulled up, and is now putting down most disgracefully. Has the city surveyor no way of punishing the company for the manner in which it left this street?

THE late Mr. George Doane Ansley had just been appointed city surveyor, vice the late Mr. McQuisten, at the time the above company left the street in a bad condition for traffic. There is but slight improvement even to-day when the streets are torn up by some companies.

The children, teachers and many members of the congregation of St. Thomas' Church held yesterday a most enjoyable picnic at St. Helen's Island. The Sunday School of the church is in a very flourishing condition. The Rev. Mr. Lindsay, rector, and his wife were present, and with the teachers and friends felt amply rewarded for their kind exertions by the evident enjoyment of the children.

THE late Rev. Robert Lindsay, M.A., was ordained in 1851 by the Metropolitan, the late Lord Bishop Fulford. He was for a quarter of a century incumbent of Brome parish, and for over sixteen years St. Thomas'. He was rural dean for a long period, and showed marked ability in his administration. He was an excellent, scholarly preacher, and devoted to the work of his parish. His demise, which occurred in the early nineties, was deeply regretted by his parishioners, and the Church of England adherents generally.

Military Graduates Transfererd.

Special to The Montreal Star.

Ottawa, July 27.—A militia order announces that the undermentioned graduates of the Royal Military College of Canada are transferred to the reserve of officers, dated June 29, 1906: Allan Terrance Powell, Shirley Thompson Layton, Evan Guthrie Cameron, James Macdonald Eakins, Alphonse Arthur Pare, Frederick Henry Greenlees, Robert Cleland McKnight, Edward Chaloner Hale, Kenneth Burpee Carruthers, Ian Colin Campbell, Yoris Sterling Ryerson, Roy Dunbar Stewart and Kenneth MacLaren.

Toronto Union Church Relief Fund.

Special to The Montreal Star.

Toronto, July 27.—The reduction of debts during the last four years by the Union Church relief fund of the Methodist Church amounted to $8576. At a meeting of the general committee of the fund, held here, a resolution was adopted, recommending the coming general conference to devise ways and means for paying off the balance of the indebtedness, amounting to $15,636, within two years.

Astonished the Attorney.

Special to The Montreal Star.

Toronto, July 27.—The defence of Architect E. J. Lennox on the charge of defrauding the city is that under an agreement with the city he was entitled to pay Thomas Hunter the sums he had and in the manner in which he did. Crown Attorney Corley was so surprised by this evidence that he obtained an adjournment to enable him to become acquainted with the new facts.

To Test a Legend's Autheticity.

Special to The Montreal Star.

Vancouver, B.C., July 27.—Chief Louis Good, of the Nanaimo tribe of Indians, is going to explore the interior of Vancouver Island to see if the ancient legend was true that redskins used bullets of gold in their muskets. He says his tribe has a tradition that somewhere about the centre of the island is a small water-fall over which descends gold, from which the Indians manufactured bullets.

Belleville Man's Downfall.

Special to The Montreal Star.

Belleville, Ont., July 27.—Fred. Renfrew, of this city, was arrested last evening, charged with stealing a lady's gold watch and chain, two bottles of gin and two boxes of cigars from the Victoria Hotel. He sold the watch and chain to a farmer for $2. It is alleged that last night the prisoner tried to hang himself in the police cells.

SUSPECTED SOLDIERS WERE OUT LATE

So Says Private Who Was on Gate Duty That Night.

WERE PUT OUT OF SALOON

Upon Return to Barracks the Night of Murder, Soldiers Were Very Much Excited.

Quebec, July 27.—The inquest into the death of the two sailors murdered at the Basin on Monday night is being continued, but no startling developments have yet come out of the evidence.

Private John Horne, R.C.R., said he was on gate duty at the barracks, and testified that Corrigan came in at 10.50, Lapointe and Higgins at 11, and Walsh at 11.10. Corrigan had some blood on his face, and told witness that he had been mixed up in a row in Lower Town with some sailors from the Empress of Britain, who had started the row. Corrigan admitted that he and Walsh were together. Later, when Walsh came in, he enquired for Corrigan, Higgins and Lapointe, remarking that they had got him in a row and then left him. All four men were quite excited when they came into barracks.

Corporal Matthews stated that he had seen the four soldiers with several sailors in the canteen, but only identified one of the latter as being present.

John McGrath, cook in the J. M. Taylor, gave his evidence in a very incoherent manner. He admitted that several men of the schooner had been drinking in a hotel that evening, until put out by the proprietor, and then they then returned to their vessel, where they had some more drinks, having brought liquor on board. He admitted having been under the influence of liquor that evening, and was in bed when he heard the row, and came out again to join his pals. He did not see who struck the fatal blow, and could not identify the prisoners, except Lapointe, to whom he had spoken at the wharf, when the latter remarked that he was trying to make peace.

Chief of Detectives McCaskill, of Montreal, High Constable Gale and Major Fages are attending the inquest.

McGrath was called again, but merely confirmed his evidence of yesterday.

Edward Powers, the next witness, in his testimony said that Powers and Tyro, the two deceased, were followed by a fireman whom he did not know (but whose name has been established as Cunningham, the man saved by Finn). He could not say if the fireman Cunningham hit Powers or not, but he was close to him, and went into the water with him. He did not see any soldiers at the time, but saw one after, but could not even distinguish the uniform on account of the darkness and distance. He also recognized the knife exhibited by the coroner as that taken from Powers' back.

Dr. Marois then deposed and gave evidence in accordance to what he knew in his capacity as a physician, and the one who examined the bodies. He said that the wound had not caused the death, but submersion, and that the wound was not mortal in itself.

Corporal Matthews was then called He said he was in duty in the Corporal's room, and saw the four soldiers held drinking with some sailors. The sailors being brought in he thought that he recognized one of them, but was not sure, as their backs had been turned while they were drinking. He pointed out a stoker named Threefall, as likely being one of them. He said that the four soldiers and the stokers left the barracks together about 9.15.

Captain Taylor resumed his evidence, but nothing important was brought out.

Tragic Death of Racing Man.

New York, July 27.—Francis R. Reynolds, a bookmaker and well-known racing man, was found lying at the bottom of an air shaft in the Hotel Martin, 40th street and Broadway, early this morning. The man was unconscious when found and died before an ambulance reached him. His neck was broken.

RESTORED HIS HAIR

Scalp Humor Cured by Cuticura Soap and Ointment

AFTER ALL ELSE FAILED

"I was troubled with a severe scalp humor and loss of hair that gave me a great deal of annoyance and inconvenience. After unsuccessful efforts with many remedies and so-called hair tonics, a friend induced me to try Cuticura Soap and Ointment. The humor was cured in a short time, my hair was restored as healthy as ever, and I can gladly say I have since been entirely free from any further annoyance. I shall always use Cuticura Soap, and I keep the Ointment on hand to use as a dressing for the hair and scalp. (signed) Fred'k Busche, 213 East 57th St., New York City."

Canada Becoming "Americanized."

Canadian Associated Press.

London, July 27.—The Manchester Guardian says that many people have commented upon the "Americanization" of Canadian sentiment by books and periodicals from the United States. A Guardian correspondent, who regularly receives the Victoria Daily Colonist," notes the curious illustrations on the cover of a recent number. It is entitled, "Best Big Gun Marksmen on Earth. How Our Sailors are Trained." Upon reference to the letterpress "our sailors" prove to be the mariners of the United States navy.

Want the Will Set Aside.

Windsor, Ont., July 27.—The attorneys of Mrs. Marian St. Louis, of Detroit, have filed papers to set aside the will of her sister, Miss Margaret Claire Kilroy, of Windsor. Mrs. St. Louis claims she should share equally with a brother in a large estate.

World Gossip

Grab Rules at 'Frisco.

"'Gouging' is the word they use out there," said Mr. J. K. Rivers, of Oakland, Cal., in reference to the great amount of grafting of all kinds which prevails in the resurrected town of San Francisco, "and it is a term admirably expressive of the universal extortion and money-grabbing which holds sway in that unhappy city."

Mr. Rivers, who passed through Montreal yesterday on his way to the New England beaches, has enjoyed the very best opportunities for studying the different forces and elements at work in the new 'Frisco" which is rising from the ruins of the old, and he was very frank in his expression of opinion.

"It is every man's opportunity to gouge just now," he continued, "and everybody seems ready to take it. The landlords are still raising rents, the unions are still raising wages, the merchants are raising prices, the cost of building materials is doubling; in fact, every possible advantage is being taken of the pressing need. And then to crown it all, the winter rains are coming on and the people are unprepared."

"How about the relief fund?"

"The relief fund is beginning to appear as a handicap rather than a blessing, and the members of the relief committee are beginning to show uneasiness about it. There is a desire to spend it as quickly as possible so that people will no longer look for it and will do something for themselves. The army of refuges is increasing instead of diminishing. Thousands who sought refuge with friends and relatives in the country seem to have worn out their welcome, and are coming back. There are more than fifty thousand in tents and barracks, and it is feared that the number will be doubled before Christmas.

"Furthermore, the relief fund is a magnet, and many families who were fairly comfortable in outlying regions have come back to the tents in the hope of getting a few hundreds in ready cash."

Mosquitoes Up Against It.

The interviewer had just introduced himself to Mr. Arthur L. Moss, of Oswego, N.Y., and late of Honolulu, when the familiar shrilling of a mosquito was heard, and the amiable insect lit with a caressing little flutter on that gentleman's nose. He hastily signified his desire that it should move on, and it did. Then Mr. Moss said:

"You ought to do what we are doing in Hawaii."

"What do you mean?"

"Those mosquitoes, sir. We are getting rid of them. And do you know how we are doing it?"

"Haven't the slightest idea."

"Goldfish, sir—goldfish. Eat 'em alive. The native goldfish, or 'oopu' as they call them, live on the larvae of the mosquito. They eat them steadily and seem to enjoy it. The number of mosquitoes they destroy in this way are beyond calculation.

"It is stated by a Hawaiian scientist, who has made a special study of the matter, that a single goldfish will eat in one day nearly one hundred larvae. This was proved by experiments made in aquariums. Beside, there is now a movement on foot to bring from Louisiana and certain parts of Mexico a kind which is even better than the Hawaiian goldfish. Between them it is hoped to rid the islands entirely of the mosquito pest."

Work Slow at Panama.

Mr. Charles Grant, of Troy, was in Montreal yesterday, and when seen at the Carslake spoke very interestingly of the work on the Panama Canal. Mr. Grant has only lately returned from that region on account of his health, and while there was engaged as mechanical engineer in the work of construction.

"Conditions in the zone are deplorable," he said, "and while the failure of the French attempt was the cause of considerable merriment on the part of Americans, it must now be confessed that Uncle Sam is paying out more money for his work than they ever did."

"What is this state of affairs due to?"

"The labor. The Jamaican negroes form a very large part of it, and they simply won't work. One white man is worth twenty of these, and one American negro worth ten of them. They are simply the curse of the canal. They are the laziest people on earth, and it is absolutely impossible to make them work more than one good hour a day."

"Can't the bosses do anything?"

"Not a thing. For about an hour in the morning the foreman is able to get them to work in somewhat steady fashion, but the rest of the day they loaf, and when one tries to force them they grow impudent and mutinous."

"Why not use American negroes?"

"The Americans are far better, and, as I said, are worth ten times the others. But when you get our darkies among all the rest they soon become spoiled and are as bad as the others."

"What remedy would you suggest?"

"The only solution of the difficulty is Chinese labor. Why, even in Jamaica they use coolie labor on the plantations and find them much superior to the negroes.

"One thing a Chinaman will do, and that is work steadily for his allotted time."

"What are the other difficulties in the canal-making?"

"One of them is the high price of things at the commissiary department. It is run by Jamaican whites, and the counters are tended by Jamaican negroes. The prices are just twice what they should be. Furthermore, the quarters assigned the men are inadequate. In a small room you will find three and four men, and you haven't any choice in the matter either. It is a case of taking what you get and being thankful that it isn't worse. You never know what sort of room-mates you are going to get. A number of the men at work on the canal have set up quarters of their own."

"How about the climate?"

"Oh, that's not so bad, if a man takes good care of himself, keeps dry, and doesn't eat too much meat. Of course, a drinking man would go off in no time."

Coney Island's Next Splurge.

THE largest steel structure in the world is to be erected at Coney Island during the next year. The building as planned will be a huge steel tower 700 feet high, 300 feet across and 900 feet in circumference at the base. It will be taller than any other building in the world, with the exception of the famous Eiffel Tower, and will have a capacity for entertaining 50,000 people at one time, says Popular Mechanics.

The foundations will be of concrete encased in steel, and the superstructure will be of steel with concrete floors, fireproof in every detail and provided with ten large elevators of the safest design. It is estimated that 7939 tons of steel will be used in its construction—more than is contained in the great Williamsburg bridge. There will be about 500,000 square feet of floor space; the several stories from the ground up being devoted as follows and located at the height above ground mentioned: Auto garage, base of tower; pedestal room garden, 150 feet; aerial hippodrome, 250 feet; main hall, ballroom and moving cafe, 300 feet; aerial palm garden, 350 feet; observatory platform, 500 feet; hall of names, 550 feet; United States Observation Bureau and wireless telegraph station, 600 feet; steel flagpole, 700 feet.

The largest revolving searchlight in the world will surmount the tower, and hundreds of thousands of electric lights will be used for decorative illumination.

The success of other vast amusement enterprises at Coney Island has incited showmen and promoters to attempt to outdo anything existing. Hence the conception of the present stupendous project.

A New Electric Lamp.

An Austrian chemist, Dr. Hans Kuzel, has, after many years' hard work, succeeded in constructing a new electric lamp which he calls the Syrius lamp. As is well known, incandescent gaslight is cheaper than electric light, because the filament wires of the latter are very expensive and the glass bulbs soon wear out. Dr. Kuzel has now invented a new substitute for the glow thread by forming out of common and cheap metals and metalloids colloids in a plastic mass, which can be handled like clay and which when dry becomes as hard as stone. Out of this mass very thin wire threads are then shaped, which are of uniform thickness and of great homogeneity. These two characteristics are of great value in the technics of incandescent lamps. The Kuzel or Syrius lamp hardly needs one-quarter of the electric current which the ordinary electric lamp with a filament wire requires. Experiments, it is asserted, have shown that the lamp can burn for thirty-five hundred hours at a stretch. Another advantage is that the intensity of the light of the new lamp always remains the same, the lamp bulbs never becoming blackened, as is now the case.

No Horses or Wheeled Vehicles.

The town of Funchal, in the Madeira Islands, is a town with no horses and no wheeled vehicles. In travelling about one either drives in a sledge or is carried in a hammock. The streets and adjacent roads are paved with small and curiously smooth cobblestones, and from the first it was found that runners were better than wheels, both for speed and comfort. For instance, when you come to a hill the oxen draw your sled to the top and are then unhitched; your driver then proceeds to toboggan your conveyance gently down the other side, while the team trots on behind. Horses are not available in Funchal, as the nature of the cobblestone roads would soon ruin their feet. This is why the ox, with his flexible hoof, is the draught animal of Funchal. For expeditions into the country the hammock is used. This is slung on a pole, carried on the shoulders of two men, and is perhaps the most comfortable conveyance in the world—no jar and no need to guide it.

Wanderers from the Sky.

Shall we call it a fad or a profession—collecting meteorites? Probably the latter would better suit the men who are engaged in it, for they are most of them earnest students of these strange wanderers from the sky and can tell not only the location but also the circumstances of nearly every recorded fall. The business is a profitable one, for almost all meteorites found are sold by their discoverers to some museum. If too large to be moved, a section sawed off, sometimes after much labor, brings a good price. In the Orient meteorites are still considered as special messengers from the skies. But we less romantic souls of this country remember that they are but masses revolving about the sun. When the earth moving in its orbit passes through the meteoric matter such portions as chance to be near enough to feel a stronger attraction toward it than toward the sun come plunging into view, igniting under the tremendous friction and often exploding or being entirely consumed in mid-air. Locating a meteorite is something like chasing a firefly. Though Southern California has witnessed the fall of several large ones in recent years, as yet they have not been found.

Crossing Buffalo and Cattle.

When President Roosevelt made his last visit to the Yellowstone National Park and wrapped himself in one of the new cross-bred buffalo robes—as soft as silk and as large as a parlor rug—he expressed delight and astonishment. Years before C. T. Jones (Buffalo) Jones, game warden of the Yellowstone Park, began his experiment in crossing buffalo with domestic breed of cattle, and Mr. Roosevelt said if he could succeed in rivalling the old-fashioned buffalo robe he would accomplish wonders. So when the President recently saw the immense silky robes, dark, curly and resplendent, like Russian sable, he told Mr. Jones he had fame before him. So great has been the success of the experiment that the Government has set aside an immense tract of land in Arizona for a great ranch and the further development of these cross-bred buffaloes. Jones says: "It is a fact that all the hardy qualities of the buffalo are retained in breeding. The buffalo dominates; it is the strongest type, hence we have a breed that will actually live on sticks and straws and does not care for high feeding or sheds or barns. Cows weigh a ton each and the steers average from twenty-seven hundred to three thousand pounds. The fur of the catalo when bred with black Galway stock is like otter or beaver, and the lustre equals the finest Russian sable. I have never sold a robe for less than $200."

AUSTRALIAN MAIL CONTRACT.

The Colony Will Not Have a State Owned One.

London, July 27.—The Australian federation house of representatives has ratified a mail contract with London firms by 28 to 3; the amendments for a state owned line were voted down. Premier Deakin said they were about to get a cheaper and speedier service and bigger steamrs.

Discussing the difficulties in connection with the Australian mail contracts, the Glasgow Herald says the C. P. R. route has more than once been suggested as an alternative. Such a scheme is impossible so long as the voyage from this country to Canada is covered by slow steamers, only now, not the Allan line alone by the C P. R., employ vessels of great speed and comfort. These may make a bid some day for the Australians as well as the Canadian-American mails.

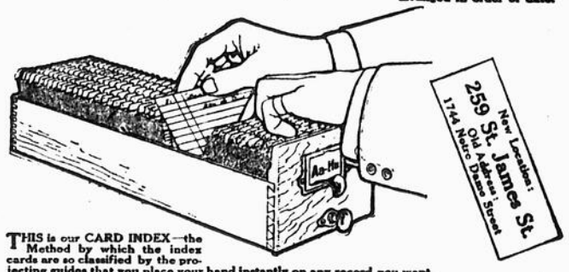
SECTIONAL FILING SYSTEMS FOR YOUR OFFICE

¶ Interesting and wonderful as is the possible variety in arranging our Letter and Record-Filing Cabinets in different combinations, the great thing **FOR YOU TO THINK ABOUT** is the adaptation of this System to the specific requirements of your work.

VERTICAL FILING—You keep the entire correspondence with one concern in a substantial manila folder, arranged in order of date.



THIS is our CARD INDEX—the Method by which the index cards are so classified by the projecting guides that you place your hand instantly on any record you want. If you will write or 'phone us we will mail you printed matter showing how this Method can be applied to your business.

¶ **FIRST** of all, you need a simple, time-saving way of filing your letters—and this our **VERTICAL** filing will supply.

¶ **SECOND,** all records of the Selling End of your business should be kept so that you can compare results for any period of time *this* year with a corresponding period *last* year—or any year back—and this can only be done **WITH OUR CARD INDEX.**

THIS Stack contains three letter-size Vertical Filing Sections, one 15-drawer Card Index Section for 5x3 cards, one 8-drawer Section for 6x4 cards, and 3-Box Drawer Section for Catalogs, stationery, etc. Ask us for price, completo.

¶ **THIRD,** you should supply filing space for catalogs, samples, legal blanks, drawings, cuts and electros, and many other things of odd shapes, for which the ordinary desk drawer is anything but suitable. **WE HAVE SECTIONS EXACTLY RIGHT FOR FILING ALL THESE!**

¶ You get the idea, don't you? You can devise a system that will be exactly what your business requires, and all you need to plan it is our Complete Printed Matter—which is YOURS for the asking! ☞ Won't you ask at once?

GRAND TRUNK'S PRESIDENT HERE

Sir Charles Rivers Wilson Will Not Go to the Far West This Year.

CANADIANS RANK HIGH

Railway Securities in London are Regarded as Among the Best—The Salisbury Wreck.

The Grand Old Man of the Grand Trunk Road reached Montreal last night on his annual visit to the Dominion, which means a pretty careful inspection of the larger portion of the rolling stock, real estate and other property of the road of which he is president.

Sir Charles Rivers-Wilson has changed but little in the few past years since he accepted the presidency of the Grand Trunk Railway system, and he hardly looks his seventy-five years. In this respect one cannot help but compare him with Lord Strathcona, who is now in his eighty-sixth year.

Sir Charles is accompanied by his wife, Lady Violet Rivers-Wilson. They arrived in New York on the Carmania and were met there by Mr. Charles M. Hays, second vice-president and general manager and president of the Grand Trunk Pacific. They were met at Bonaventure depot by Mr. F. H. McGuigan, fourth vice-president, and Mr. Henry Phillips, secretary of the Grand Trunk Pacific. After a drive to the Windsor, Sir Charles, Lady Rivers-Wilson and Mr. Hays dined, and after seeing a few friends the president retired.

This morning he was up early and by ten o'clock was ready for business. There was lots of business awaiting him. He drove to the Grand Trunk offices shortly after eleven and was soon busy with Mr. Hays and other officers after he had paid a visit to many offices and said how-d'y'-do.

WILL NOT VISIT NORTH-WEST.

When seen by a Star representative, Sir Charles said that there had been a mistake as to any visit on his part to the North-West this year. He said:

"Matters have not progressed sufficiently to make it worth while visiting the lands of the Grand Trunk Pacific this year, but I shall do so next year when the work of construction will have advanced.

"My mission this year is for the purpose of conferring with the officers of the road and in order to make the usual inspection of the system. I have quite decided to confine my inspection almost entirely to Quebec and Ontario. Other than what I have just stated I have no plans."

"What is the feeling in England, Sir Charles, as to the building of the new transcontinental roads and the general activity in railway circles in Canada?"

The answer given by the president was in keeping exactly with Mr. D. D. Mann's statement to the Star yesterday that he had unbounded faith in every proposition that tends to open up the great Northwest.

Sir Charles said: "We who know of the greatness of the Dominion feel that there is room for all. The people of England are naturally by this time quite familiar with the Mackenzie-Mann and the Hill projects and I assure you they know and are talking Grand Trunk Pacific.

CANADIAN RAILWAY SECURITIES

"Canadian railway securities are looked upon as among the very best in the London money market. A stock which does not pay any dividend, Grand Trunk ordinary is selling at 28 and 29 and the four per cent debentures take a place with the consols.

"The financial men of London are carefully watching railroad events in Canada and they feel that the day is coming when the stocks will be among the best offered."

Sir Charles wished to reiterate that there was nothing suggestive in his visit beyond what he had stated. He was quite inclined to discuss British affairs and it was evident that he had given a careful study to the facts in connection with the awful railway disaster at Salisbury a few weeks ago.

The United States papers, and particularly those of New York, have since the accident condemned the system of English railways, which allows the building of light cars and to this fact they attributed the accident. Sir Charles referred to this in these words.

"The cause of the disaster was the wicked conduct of the driver of the engine in allowing the train to go at such a fearful speed round the curve. The cars are not a bit too light for the traffic, and it was solely the driver's fault. The English cars are, of course, lighter than they are on this continent, but it must be remembered that they are decidedly smaller."

Sir Charles and Mr. Hays will leave on Monday on their trip, in all probability going to Quebec city first.

JUDGE QUASHED THE WRIT.

Judgment was rendered to-day by Mr. Justice Curran, in the case of John Burns, plumber, of Montreal, vs. Sam Lee. Sam Lee was arrested under a writ of capias ad respondendum. The amount claimed was $185, being for rent, goods sold and damages for loss of rent.

The plaintiff obtained a writ of capias on an affidavit to the effect that defendant was about to leave the provinces of Quebec and Ontario with intent to defraud.

The defendant, through his attorneys Messrs. Walsh & Walsh, applied to the court to have the writ of capias quashed and set aside on the ground of insufficiency of the allegation of the affidavit. The date, when, and the place where, the affidavit purported to be sworn were not mentioned in the affidavit. The hon. judge quashed the capias, with costs against plaintiff.

Maj. Stewart Succeeds Lt.-Col. Smart

It is officially announced from Ottawa that Major D. M. Stewart becomes commander of the 13th Scottish Light Dragoons, Waterloo, Que., succeeding Lieut.-Col. C. A. Smart. The resignation of the latter was denied in the Commons shortly before prorogation.

Virginian on Saturday A.M.

The Royal Mail steamship Virginian of the Allan Line arrived at Quebec at 8 a.m. to-day and left for Montreal at 2 o'clock. She will arrive here to-morrow, Saturday, morning, at 7 o'clock. The Virginian was delayed eight and one-half hours by fog and four hours waiting for high water in the channel below Quebec.

Quebec, July 27.—The steamer Arctic has received orders to leave for Hudson Bay to-night.

GADBOIS RESENTS CONFRERES' ACTION

Claims Gas Question was to Have been Left Alone During His Absence.

OTHER ALDERMEN DENY THIS

Ald. J. B. A. Martin Says Talk About 95 Cent Gas Proposals Has No Foundation in Fact.

Ald. J. P. Gadbois, in a telegram to The Star, from Detroit, where he is visiting the markets with a party of aldermen, expresses his surprise that there should have been meetings of the aldermen and the representatives of the Montreal Light, Heat and Power Company, in his absence.

He left, he declares, with the understanding that there should be no further meetings, but that each alderman was to study for himself the proposals made at the first gathering. No bargain had been made before his departure, and he could not see how any could have been made since, and other aldermen in the party with him would greatly object to undue haste. The question is too important, he declares, to be rushed through in a week or a month, but it must be discussed openly and studied by all sections.

Ald. Gadbois declares that during his absence, he studied the lighting question in New York, Boston, Fall River, Rochester and Detroit, where there have been conflicts between the city corporations and the lighting companies. He has been collecting facts and figures, and hopes when he returns to find that his confreres on the committee have also been studying and that a satisfactory conclusion may be reached.

NO SUCH UNDERSTANDING.

On being informed of the statement of Ald. Gadbois, Ald. J. B. A. Martin, who, with Ald. W. J. White had an interview with Messrs. Holt and Rainville some days ago, declared that he had never heard of any such understanding as that referred to by Ald. Gadbois. "Of course, we could not determine upon anything in the absence of the members of the committee," declared Ald. Martin. "I, myself, have done the greater part of the figuring in this affair, and with Ald. White we went over with the representatives of the company, and discussed some of the points which had been raised at that first meeting.

"We will have a meeting on Tuesday, when every one will be present, I believe," continued the alderman. "I am under the impression that we shall reach an agreement then, too. We are now divided by a sum in the neighborhood of $200,000, which is a comparatively small amount considering the nature of such a contract.

"All this talk of 95 cents for gas for a thirty years' extension is rot. I do not feel free to give the figures we have proposed just yet, but I can say there never was any question of a thirty year contract at ninety-five cents. When we come to an understanding, we will ask for a special meeting of the Council and submit a by-law based on the conclusions we have reached.

NO ATTEMPT TO RUSH.

"There will be no attempt to rush the by-law through at one sitting, but it will be laid before the council and ample time given for its consideration. At a subsequent meeting, the second reading will be considered, and then the people will have a further opportunity to discuss the situation and decide on what their representatives had better do.

"I, for one, will oppose any rush in the matter, but I believe in calling special meetings to deal with the matter, as it would mean delays long drawn out to leave such a question on the ordinary orders of the day. If the council accepts our conclusion, well and good, and if they do not, why then they will have to appoint another committee.

"We, of the special committee, will do what we can to come to an agreement with the company, but if we cannot, we will lay before the public the proposals we have made, so that the public for whom we are acting may decide just what we have tried to get for the city.

MISS COLLIER DROWNED.

Montreal Lady Visiting Near Richmond Lost Life While Swimming.

A sad drowning accident took place yesterday in the St. Francis river, near Richmond, Que., by which Miss Frelete Marion Collier, of Montreal, lost her life. Miss Collier was visiting the family of Mr. Harry Aylmer along with her aunt, Miss Fetherstonhaugh, of Montreal. She went in bathing in the company of a party of friends.

While swimming out some distance from the shore the young woman suddenly was seen to sink, almost without a struggle. A [illegible] was at once given and the body brought to shore. Every possible means was used to resuscitate Miss Collier, but although the course of treatment was continued for more than half an hour it proved to be useless.

The suddenness of the accident has been a severe shock to Miss Collier's friends and relatives in this city. The physician, who was called in when the body was rescued from the water, gave as his opinion that the young woman had been stricken with heart failure while swimming. In no other way could the suddenness of the affair be explained as she was a very strong swimmer.

Miss Collier is the niece of Mr. E. C. B. Fetherstonehaugh, of 1147 Sherbrooke street. Her home was formerly in Georgetown, Demerara, and her father still lives in British Guiana, where he is in the employ of the Government. The body was brought to Montreal from Richmond by train this morning. The funeral took place from the residence of the young woman's uncle, Mr. E. C. B. Fetherstonehaugh, this afternoon, at three o'clock. It was private.

Minister of Marine Receives Visitors.

Hon. L. P. Brodeur, Minister of Marine and Fisheries, was at his offices in the departmental building, on Commissioners street, and received many callers to-day. The honorable minister will be in the city to-morrow and on Monday, leaving on Tuesday on the Government steamer Montcalm for an inspection tour through the Gulf.

Minister of Finance in the City.

Hon. W. S. Fielding, Minister of Finance, arrived in Montreal this morning from Ottawa and returned by the afternoon train. His trip was in connection with business of the department.

Eight Year Old Boy Drowned.

St. Cesaire, July 27.—Adrien Aubin, 8-year-old son of Samuel Aubin, was drowned in the river here last night. The little fellow's clothes were found on the river bank.

VIOLATION OF THE SPIRIT AND LETTER OF THE EXTRADITION TREATY IS CLAIMED BY MR. T. CHASE CASGRAIN

The Treatment of Charles G. Browne Arouses Vigorous Resentment at the Hands of His Montreal Counsel—Intends to Secure Justice at Any Cost.

Mr. T. Chase Casgrain, K.C., who was counsel for Charles G. Browne, recently surrendered to the United States authorities on extradition proceedings, charges that in taking Browne off the train and placing him in Sing Sing prison instead of taking him to New York for trial on the charge under which he was extradited, constitutes a violation of the letter and spirit of the extradition treaty as well as a breach of faith.

Mr. Casgrain has written a letter to the Secretary of State at Ottawa, setting forth the facts of the case and he asserts that the matter will not be allowed to rest until satisfaction has been got. Brown is represented in New York by the firm of Black, Olcott, Gruber & Bonynge, who are defending Thaw, and who will leave no stone unturned to obtain justice.

LAMIRANDE CASE RECALLED.

"The case," adds Mr. Casgrain, "has not a parallel in our judicial annals since the famous Lamirande case in 1866, in which during an adjournment of the proceedings granted by the late Judge Drummond, the prisoner was spirited away by the French detectives, who had been sent here to take him back to France. As a result of the diplomatic correspondence which ensued, the Government of France would have been obliged to send Lamirande back to Canada, had he not consented to being tried for a minor offence.

"During the next session of Parliament, the papers in the case of Browne will be asked for, and the matter thoroughly ventilated. It is to be hoped that our Government will take this matter up, as it should be and not allow themselves to be hoodwinked by the home authorities, who never miss an occasion of pandering to American sentiment."

Mr. Casgrain's letter reads as follows:

MR. CASGRAIN'S LETTER.

"July 27th, 1906.

"The Honorable, the Secretary of State,

Ottawa.

"Sir,—I desire to call the immediate attention of the Government of Canada to the case of one Charles C. Browne, a client of mine, whose surrender to the United States as a fugitive criminal, was recently ordered by our courts.

"The matter is one of great importance as not only have the rights of my client been totally disregarded by the Government of the United States, but the provisions of Article III. of the Extradition Treaty between Great Britain and the United States have been violated.

"Browne was early in March last arrested in Canada on the information and complaint of one William J. Flynn, alleging that he had been convicted of having conspired with divers other persons to defraud the government of the United States, and upon this conviction sentenced to two years' imprisonment. On this information he was brought before a judge in extradition, his case was investigated and a warrant of surrender was issued; but the warrant was clearly illegal, because conspiracy is not a crime covered by the treaty.

"On a writ of habeas corpus, the warrant of surrender was quashed by a judge of the Court of King's Bench and Browne liberated.

THE SECOND EFFORT.

"Not to be beaten, the officials of the United States Government then lodged against my client a second complaint charging him with having committed distinct acts of fraud against the Government, the very acts upon which was founded the first charge.

"Upon this new charge, Browne's surrender was definitely ordered.

"Having a strong suspicion that the second charge, upon which it was agreed the fugitive could never be found guilty, had only been laid, and the surrender obtained for the illegal purpose of getting Browne across the border and then imprisoning him in Sing Sing on the conviction for conspiracy, I addressed a communication to the Minister of Justice, calling his attention to the threatened violation of the treaty and transmitting all the essential documents in the case which are still in his possession for further use.

"The Honorable Minister, in the course of his reply, said 'that he could not anticipate that the United States will not act in accordance with the treaty.' I have no fault to find with this reply, because acting in an official capacity I myself would not wish to express the belief that a friendly neighboring power would use the process of our Courts of Justice to deliberately violate the provisions of a solemn treaty between the two nations. But acting in my capacity of Browne's advocate with some knowledge of past events, I confess I had my fears.

REMOVED TO PRISON.

"On the 14th June last, Browne was committed for surrender to the United States on the charge of having committed divers acts of fraud, and was on the 23rd of July instant, surrendered for the purpose of standing his trial upon this charge. While on the way, presumably to New York, there to await his trial, he was removed from the train before he arrived at his destination and taken to Sing Sing prison where he is held in custody not to await his trial on the charge for which he was surrendered, but to serve the sentence to which he was condemned for conspiracy.

"This is in direct violation of the spirit and the letter of Article III. of the treaty, a breach of faith and an act which savors of what some people generally call a "smart trick."

"It remains to be seen whether the Government of Canada, which has never been lacking in courtesy and fair dealing in its relations with the United States, will allow such use to be made of the process of the Canadian courts.

"Under the circumstances, I feel warranted on behalf of Browne, in placing these facts before the Government of Canada, so that immediate representations may be made, through the proper channel, to the authorities at Washington to the end that the case of my client be treated in strict accordance with the provisions of the treaty.

"I have the honor to be,

"Sir,

"Your obedient servant,

"T. CHASE-CASGRAIN."

"LET THEM ALL COME IN" DECLARES SIR WILLIAM VAN HORNE

Sir William Van Horne is spending a quiet day at home. To-night he leaves for Winnipeg, and will go then direct to his farm at Selkirk to have a look at his pigs and cattle.

To talk with him to-day one would think that his pigs and cattle were the most important things to him on earth. Now and then railways and national questions are interjected, but that is all.

He arrived home from New York this morning after spending two days in the big city, and during the day a Star reporter had a short chat with him. When asked when he expected to go back to Cuba, if there was any significance in his visit to Winnipeg, what he had been doing in New York, etc., he replied:

"I'm simply trying to keep the almanac in the waste paper basket for a time, so as to forget that there are any dates in the year.

"I own three farms and they are two thousand miles apart. I was on the Cuba farm a short time ago. I was at the St. Andrew's and now I am going to Selkirk."

In discussing for a few minutes the marked strides in the Canadian railway situation, Sir William said that it was nothing to be surprised at.

"Canada is like Kipling's 'Ship that found herself.' Only Canada has not quite found herself. What we want is population. Labor is required from the Arctic Ocean to Patagonia throughout North and South America, but the Governments of other lands are not such idiots as we are in the matter of restricting immigration. Let them all come in. There is work for all. Every two or three men that come into Canada and do a day's work create new work for someone else to do. They are like a new dollar. Hand it out from the bank and it turns itself in value a dozen or more times in a year.

"I quit believe that within a year we in Canada will be in a very serious condition as a result of not having sufficient labor."

DE SOLA RESIDENCE NOT A PARSONAGE

Mr. Recorder Weir to-day gave judgment condemning Rev. A. D. Meldola de Sola and the other executors of the Joseph estate to pay the city $1,258.35 and interest as assessments and school taxes for 1905-6 on the residence occupied by Rev. Meldola de Sola, on Sherbrooke street.

The court held that the fact that Rabbi de Sola occupied the house as a residence did not render it exempt, because the law contemplated the exemption only of residences which were set apart by religious authorities for the use of their pastors. In this case, the authorities of the reverend gentleman's church had nothing whatever to do with the residence in question, which was occupied by Rev. Meldola de Sola, as one of the executors of the Joseph estate rather than as the pastor of the Spanish and Portuguese synagogue.

Will Establish Automobile Factory.

The Monarch Motor Company, Limited, has been formed with a capital of $250,000. An automobile factory will be built in Montreal, and operations commenced at once for the manufacture of high class touring cars, which will be sold around four or five thousand dollars. Motor cars and trucks will also be manufactured. Mr. L. D. Robertson will occupy the position of general manager; and is leaving with the company's engineer for Europe, where he will assist in selecting material and parts for next season's product. Negotiations are in progress for the acquisition of a large factory and operations will begin about November 1st.

ESCAPED FROM BURNING BUILDING

Special to the Montreal Star.

Pembroke, Ont., July 27.—Thomas Marion's store house at Rapides de Joachims, Quebec, was burned on Wednesday, July 18. The fire is thought to be the work of an incendiary. Detectives are investigating on the part of the Attorney-General's Department of Quebec. The report furnished them that ten lives were lost, they discovered to be unfounded on their arrival there, as no one was injured. The loss is in the neighbood of $10,000.

An aged nurse and nine children who were in the building at the time of the fire, escaped with difficulty in their night robes.

Association of Opticians.

Rochester, July 27.—The American Association of Opticians will be in convention next week at Rochester. It is expected that fully 3,000 delegates from Optical Associations and Societies will be in attendance. Prof. Grant, of Montreal, president of the physiological section, will have charge of the literary and scientific work of the convention; he has also been selected to demonstrate by clinic before the delegates.

Italian Rioters in Court.

Kingston, Ont., July 27.—The Italian rioters were at the Police Court this morning, and again remanded for a week. They have been in jail for over a month. The delay is owing to the absence of the Police Magistrate through illness. It is said that the Grand Trunk Railway authorities will be approached to have the least offenders tried summarily.

THE PROBLEM OF RAILWAY LABOR

Some of the Difficulties Attending Procuring a Supply of Navvies.

ITALIANS STEADY WORKERS

English, Irish and Scotchmen are Not Found So Suitable on Construction Work.

The mighty movement in connection with construction work on Canadian railways and the difficulty of getting men who are fitted for the work is a problem the labor departments of the various roads find hard to solve.

Wages have gone up many cents a day since the investigation into the Italian labor question took place in Montreal two years ago. At that time there were many men, nearly all Italians, who could not find work. To-day the roads are unable to get sufficient men to do the work.

One dollar and forty cents a day was considered good pay, and men were glad to get it two years ago. To-day they want two dollars, and some of them are getting it. The general wage per day is, however, $1.75.

It is estimated that there are to-day working on construction work in Canada at least thirty-five thousand men, about twenty thousand of whom are Italians.

The Italians stick at one job during the entire six months that the contractors are able to give them work in each year, but with the Englishman, Irishman or Scotchman it is different.

In this connection a railway official pointed out to the Star to-day that the man who wrote to the English papers a letter which was cabled to this country about "Englishmen not being wanted" knew little of what he was writing, or else he was deliberately trying to mislead the people.

THEY WANT ENGLISHMEN.

"The fact is," said the official, "we do want Englishmen here and there is work for every man that wants it. But this is the trouble: An Englishmen, and even the Irish and Scotch, will go out with one of our construction gangs and he will work about three weeks or a month, when he will draw his pay and move farther on, possibly to a centre where there is no railway work and where there is little or nothing else for him to do. I am ready this minute to send out almost any number of men within reason."

As if by pre-arrangement, a dozen Italians appeared at the counter and one of them, acting for his friends, asked if there was any work at British Columbia.

"I can send you to Winnipeg; just this side," was the answer, and the man asked "how much." "One-seventy-five a day." "All right; we go." In a few minutes it was all arranged.

At the Italian labor bureaus on St. James street they tell the same story. They can handle thousands more than they are getting, and they believe that wages will go up to $2 or more.

In this connection it might be mentioned that a railway man made a rather significant remark. He said: "There has been some talk in certain quarters of demanding higher wages, but the men are now doing very well, and if they make any trouble it will be easy to shut down for a month or two and they would then be left penniless. As it is those who work a season have no chance to spend money, and they get back to the cities with enough to keep them all winter."

LEFT NOTHING TO CHARITY.

Russell Sage Was Consistent and Left All His Money to His Widow.

New York, July 27.—Except for a few small bequests the fortune of Russell Sage is left to the widow. There is no charitable bequest in the will.

Each of Mr. Sage's nephews and nieces is left $25,000.

There is also a bequest of $10,000 to Mr. Sage's sister, Mrs. Chapin, now deceased.

The executors of the will are Mrs. Sage, Dr. J. P. Munn, for many years Mr. Sage's physician; and Charles W. Osborne, who has had charge of Mr. Sage's office in this city.

Rainy River Electric Protest.

Toronto, Ont., July 27.—Mr. Justice Teetzel will to-morrow hear the Rainy River election protest, which has passed through several phases since the general elections of 1905, when H. W. Kennedy, Liberal, was elected W. A. Preston is the Conservative pressing the protest. The main argument to-morrow will turn upon alleged voting by aliens.

Sligo's Jetties Saved From Fire.

Sligo, July 27.—A great fire occurred at Sligo harbor last week, two huge warehouses containing 3,000 tons of corn being completely destroyed. The jetties were saved after great exertions. The total damage is estimated at £20,000. The corn had only been landed a few days before, and is said to be partly covered by insurance.

PERSONALS.

The engagement is announced of Miss Fanny Weinstein, of Toronto, to Mr. A. J. Sleifer, of Montreal.

Mr. J. G. Greenshields, son of Mr. J. N. Greenshields, of Montreal, met with an accident recently at Black Lake, and was taken to the Protestant Hospital in Sherbrooke.

The marriage took place on Wednesday at the residence of Mr. and Mrs. D. A. Nicholson, 22 Victoria St., of their only daughter, Miss Florence Louise to Mr. John Carrick Hill, only son of the Rev. William Thomas Hill, M.A., rector of St. John the Evangelist, London, Ont. The bride who was given away by her father, was gowned in point net, embroidered with garlands of raised rose buds, her veil being caught by a cluster of orange blossoms. Her bouquet was white rose buds and lilies of the valley. The maid of honor, Miss Muriel Millen, wore white mull embroidered in pink, and carried a basket of pink roses. The ceremony which was performed by the Rev. J. M. Almond, rector of Trinity church, took place in the drawing room, beneath a floral bell of white roses and maiden hair fern, suspended by yellow, red and black ribbon, representing the African colors. Rev. Mr. Almond and Mr. Hill having seen active service in the Boer war. The floral decorations were of palms, Boston ferns, copper beach foliage and red and yellow blossoms. The groom's present to the bride was a gold bracelet set with pearls, to the maid of honor, a pearl pin and to the best man, Mr. Jack Askwith, of Ottawa, a ring. The presents were numerous, and included a cheque from the bride's parents. The bride's going-away gown was of mulberry cloth, princess style, with white and gold trimming, and hat to match. Mr. and Mrs. Hill have left for the West. On their return they will reside in Montreal.

DUCLOS SAYS HE WILL SURRENDER

Man Who Escaped From Longue Pointe is Preparing His Case Near Montreal.

Alexander Duclos, wanted on a charge of shooting Alphonse Desrosiers, and who escaped from Longue Pointe Asylum, on Wednesday night, is at the home of a friend within a mile of the city.

He gave out the following statement to-day:—

"I am quite sane and am staying at the home of a friend. I shall here prepare my case for the jury and will prove that whatever I did I was justified in doing. At the preliminary enquete I had not what I considered justice, and I feel that I must have absolute freedom to prepare my case. When the September term of the Court of King's Bench opens I shall surrender myself and stand prepared for trial. Meanwhile no one can find me."

Dr. George Villeneuve, medical superintendent of the St. Jean de Dieu asylum, at Longue Pointe, to-day declared that he had again questioned the guard who had witnessed the escape of Duclos. The man positively declared that Duclos had entered the automobile waiting at the roadside, and the machine had started.

From a statement made to the Star by Dr. Villeneuve, it appears that the Crown never caused Duclos to be examined as to his sanity. Dr. Villeneuve is the medical expert of the Crown on mental diseases, and he declares he was never called upon to examine the man. His statement is as follows:

"I have never made any reference to the mental condition of Duclos when he committed the deed, or when brought to stand his trial, as we were not called upon to investigate his condition at that time, and I have no personal knowledge. My opinion is merely on his condition at the present time, and there was no intention of making a report to the government just now, because he was under the jurisdiction of the Court of King's Bench, and that court meets only in September. He certainly felt his position very keenly, being obliged to spend all his life in the asylum or stand his trial. He never manifested any inclination to commit suicide, however, since he has been at the asylum, and showed no signs of insanity at the time he left there, though he had a manifest neurotic temperament, which might go far to explain his deed."

Permits for Buildings Issued.

Building permits were issued to-day by Building Inspector Chausse, as follows: Canadian Rubber Company, factory on Gain street, $10,000; M. E. David, corner of Pine and St. Lawrence streets, stable, $8,000; Dawes and Company, St. Paul street, stable; $2,000; S. G. Denault, Forsyth street, dwelling, $1,000; A. Larocque, Sherbrooke street, house, $4,000; C. Montbleau, Frontenac street, dwelling, $2,400.

Complains About Examination.

Toronto, July 27.—The Minister of Lands and Mines, Hon. Frank Cochrane, on the complaint of Mr. W. A. P. Jarvis, of Cobalt, has directed an investigation into the conditions governing the assaying of minerals. Mr. Jarvis complains that samples from his vein giving a good percentage of mineral under examination by local assayers, when conveyed by the mining inspectors to the Government Assayer at Belleville they were found to be blanks.

Kept Crowd From Prison Van.

Chief Campeau inaugurated a new system to-day of keeping the curious crowd away from the prison vans.

Shortly before 10 o'clock a platoon of police were sent out to clear the square between the two Court Houses. In a few minutes they had the crowd lined up along the Champ de Mars, and by the time the vans from the gaol were due the crowd had reached large proportions. The police were active and did not experience much trouble in keeping order.

STOCKS ACT WELL IN THE AFTERNOON

Wall Street stocks were strong and active this afternoon, although the general list was a little below the best at the close.

The steels did well, the common selling up to 39 1-8 and the preferred 106 3-4. Copper was also higher, selling up to 99 3-8.

Union went as high as 151 1-4, St. Paul 181 1-2 and Reading 128 3-8.

C. P. R. was slow at 163 3-4.

STREET RY. UP.

Montreal Street Railway was a strong feature of the local market, while there was also an advance in Illinois preferred. The rest of the list did not get much attention.

A 40 PER CENT GAIN.

The increase in Winnipeg bank clearings for the week ending yesterday over the corresponding period of last year is 40.64 per cent., or $2,730,744.

C.P.R. STILL HOLDS NEAR 164 MARK

A Conservative View of the Wheat Crop Outlook in the Canadian Northwest.

MONEY WILL NOT BE TIGHT

So Says One Montreal Banker—Wall Street List Firm But Rather Irregular.

The papers have published such a string of hail-storm reports from Manitoba and the West that the "Street" has feared further great damage to the wheat crop.

Local people closely in touch with the situation and getting daily reports from every nook and corner of the wheat belt said to-day that considerable damage had been done in some localities, but that the general situation has not altered materially.

One gentleman who is not given to romance said to the Star.

"I know of no reliable crop authority who ever predicted that the west would turn out 100,000,000 bushels of wheat this year. We stand a good chance of getting 85,000,000 bushels, certainly not less than 82,000,000 bushels, if the weather is good, and that should satisfy everybody, even the C.P.R.

"There has been damage by hail in some places, but if the heads are not too heavy the wheat will come up again under favorable conditions. There is a hail belt in Manitoba, and it has hail storms every summer. I see no reason for going 'up in the air' over the storms certain parts of the country have had in the past 48 hours.

"Reports of red rust damage continue to come in from some places."

The New York banks have gained $527,000 from the sub-treasury since Friday.

Bar silver in London is quoted unchanged at 30 1-16 pence.

IN WALL STREET.

Canadian Pacific was less active in Wall Street, but again sold at 164, afterwards going off a fraction.

The Hill stocks were fairly stronger. Great Northern opened a point higher at 296 then went to 295. Northern Pacific opened higher at 204 and went to 204½.

Southern Pacific was active again, opening at 72¾, going off to 71⅞, and recovering to 72⅜ at noon.

The general market was irregular, with a fairly firm undertone.

Money loaned in Wall Street at 2¾ per cent.

RALLY IN DETROIT.

There was a strong movement in Detroit United, and although sales on the local exchange were not very large, the stock seemed to be in pretty good demand.

After opening at 93¾, it sold up to 94, and as stated yesterday, it is evident that investors as well as speculators have been taking more than a passing interest in this stock.

Montreal Power was also strong, selling up to 97⅞ on sales of 350 shares.

Canadians in Wall Street were quiet but firm, a feature being a rise in Detroit. Prices up to 12.30 were:

Can. Pacific	164	[illegible]	[illegible]

BUSINESS GOOD.

Bankers say that general business continues good, and that it is very satisfactory the way Montreal and Toronto clearing house returns are keeping up in view of the dulness on the Stock Exchanges.

MONEY OUTLOOK.

A Montreal banker said to-day:

"The banks are preparing for a big demand for money this fall, and will be able to supply it. There will be enough money to go around, and I do not think that money will be as tight as it was last fall and winter."

A BEARISH VIEW.

A Montrealer who trades a good deal received the following letter from a prominent Wall Street firm:

"Moody's Magazine, one of the most conservative of all the financial publications, in discussing the attitude of holders of stock of corporations, says: 'These holders know that many rates and prices, such as anthracite coal rates and some iron and steel prices, are unreasonably high and very dependent upon monopoly and artificial conditions that may be changed at any time. We think those who are selling stock for these reasons are making no mistake.' This statement, in my judgment, accurately reflects present conditions in Wall Street."

THE "SOO" STATEMENT.

The annual report of the Lake Superior Corporation has not been prepared, and probably will not be ready for final approval of the board until a few days before the annual meeting of stockholders in October. It can be said, however, on the statement of a director that the gross earned was well over $1,000,000. The net earnings will also make a good showing, although large amounts have been taken out for improvements, etc. The report will show a surplus for the year.

HILL AND C.P.R.

The Canadian Pacific and the Great Northern continue to fight. The C.P.R. is building from Yahk, on the Crow's Nest branch, into Spokane. The same company is building from Elko to connect by rail and steamer with Golden. A charter has been granted for a line through the Elk Valley.

RISE LIKELY.

(Laidlaw & Co.)

It would seem that a further rise of prices is likely before there is a reaction of consequence.

GATES INTERESTS BULLISH.

Are Prominent in the Southern Pacific Campaign.

For several days the Gates interests have been large buyers of stocks. They seem to have fallen in line with the market and to have abandoned their campaign for lower prices. Their conversion dates from the last interview which John W. Gates gave out here. The stock they are most bullish on is Southern Pacific. About a year ago they started a campaign in it after issuing a very elaborate treatise after the manner of the Taylor analysis of 1902.—N.Y. Mail.

PIERPONT MORGAN 'S BACK.

Says Rumors of Trouble in London are Out of Line.

J. P. Morgan arrived to-day from Europe on the SS. Baltic. He said that he had a pleasant trip, and never felt better in his life.

He was asked about certain financial houses in London being in trouble and replied, "I think you may safely deny that."

Mr. Morgan was asked as to whether a dividend would be declared on U.S. Steel common next week. He replied: "That has nothing to do with me, and depends upon what the majority may decide."

Cables were sent to Montreal over a week ago saying that Baring Bros. were in trouble, and this is what Mr. Morgan refers to.

MONTREAL BRINGS $500,000.

The Bank of Montreal is bringing $500,000 gold to Canada from its branch in New York, not an unusual transaction at this time of the year.

FINANCIAL PERSONALS.

Mr. C. R. Hosmer leaves to-night for St. Andrews.

John D. Rockefeller will arrive in New York to-morrow at 11 a.m.

James J. Hill has arrived in New York from the West.

Sir Thomas Shaughnessy is at St. Andrews.

Sir William Van Horne was in town to-day, but leaves shortly for the west, where he will look over his big farm.

Mr. H. S. Holt is at Caledonia Springs.

EXCHANGE SEAT AT $80,000.

A seat on the New York Stock Exchange sold to-day at $80,000, a rise of $2,000 over the price paid earlier in the week.

The seller of the last seat was J. L. D. Speer, the buyer Edward A. McCullough.

THE NEW ONTARIO BONDS.

The amount subscribed to date for the Provincial $3,000,000 loan now stands at $1,300,000. Those persons who wish to obtain the benefit of the July discount, equal to $3 per $1,000, should make application before July 31.

$4,056,000 DUE ON C. P. R.

Second Payment on the Last $20,280,000 Due Yesterday.

The second payment on the last issue of $20,280,000 of Canadian Pacific stock was payable yesterday.

It was for 20 per cent., and amounts therefore to $4,056,000. The first instalment was for the same amount, and so far $8,112,000 will have been paid in by the close of business July 26, provided the full instalments are paid as they almost certainly will be.

There is still $12,168,000 to be paid in on the issue of stock. It will be met in 20 per cent. instalments on September 26, November 26, and January 25, 1907.

MR. W. MACKENZIE IS BACK.

Mr. William Mackenzie, president of the Canadian Northern Railway, just back from England, confirms at first hand the report that the London and other European markets are uneasy over the Russian situation. He did not find the English market in a favorable condition for floating a block of bonds, although that was not the purpose for which he went over.

7 BULL RUMORS IN DETAIL.

A Little List That Wall Street Intends for Consumption.

1—The long-delayed St. Paul financing plan is to be made public to-day, because of William Rockefeller's return.

2—Union Pacific's executive committee will increase the dividend to 7 per cent. in August because E. H. Harriman dominates the committee.

3—Southern Pacific will declare a dividend on the common stock or give rights to subscribe to new preferred stock because the company has not published any earnings since February.

4—Atchison is to be placed on a 5 per cent. basis in the fall because this has been promised to some of the "big men."

5—The Great Northern ore deal is to be announced because J. J. Hill and J. P. Morgan are both going to be in the city at the same time.

6—Norfolk and Western is to get an increased dividend because Henry C. Frick has been elected a director.

7—Amalgamated Copper is to be placed on an 8 per cent. basis at the next dividend because the dividend was not advanced the last time.

CRITIC OF NIPISSING MINE.

Criticizing the Nipissing Mines Co., the Canadian Mining Review observes: "It seems clear to the Review that to expect reasonable dividends on $12,000,000 of capital and also a return of the original investment, which must occur in any legitimate mining venture, is to expect an improbability, from what is at present known of the district. The point in favor of the large capital is the very large area of some 846 acres owned by the corporation. The main points against it are the known fact that at least four of the 'veins' have completely disappeared at a depth of forty feet or less, and the experience of several of the deposits that increased depth has been accompanied by diminished values."

MONTREAL EXCHANGE RATES.

Montreal exchange rates between banks: New York funds, 5-64 to 1-15, sterling, 60 days, 8 11-32 to ⅜; do demand, 9 1-32 to 1-16; do cables, 9⅝; Paris, francs short, 5.18¾ to [illegible]-32.

A TELEPHONE CO. MERGER.

Sydney, July 27.—At a meeting held this morning of the shareholders of the Eastern Telephone Company, at which 13,000 shares were represented, it was unanimously decided to pass over the company to the Nova Scotia Telephone Company.

Plate Presented to Dominion.

Canadian Associated Press.

London, July 27.—About fifty Canadians went to Portsmouth this afternoon to witness the presentation of the silver centre-piece to the battleship Dominion. Lord Strathcona delivered a brief address. His daughter Mrs. Howard, made the presentation. After the presentation the guests were entertained by the captain and shown over the ship.

WON $27,000 ON A NO MARGIN BID

Clerk Awarded $5,000,000 of Panama Bonds, Which He Quickly Turns Over.

BID MADE IN REGULAR WAY

And the Clerk Was Awarded $5,000,000 of the Total Issue of $30,000,000.

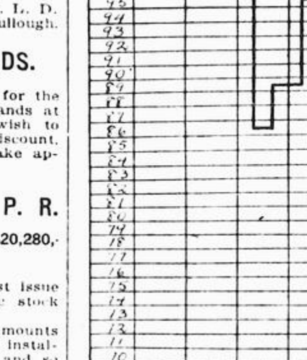
Another "straw bid for bonds on a shoe-string margin" has been made in Wall Street, Samuel Byerley, a young express company clerk, being awarded $5,000,000 of the new Panama bonds. These he sold to J. S. Bache & Co., who in turn sold them to Fiske & Robinson, and Byerley cleared $27,000 profit on the expenditure of a 2-cent postage stamp.

Byerley made his bid like the others, and put up no margin.

Such a bid would not have been possible, of course, had U. S. Secretary Shaw demanded a cash deposit from all bidders. The Treasury did not require any cash deposit, so Byerley's bid was as good as that of a multi-millionaire. The possibilities of "straw bidding" were fully appreciated by Secretary Shaw, but owing to the belief that the money market would become seriously disturbed by heavy withdrawals of cash by intending bidders for the Panama issue, the Treasury Department did not require any cash deposits from subscribers to the loan.

Had Byerley not been able to sell the bonds awarded to him, he would have been obliged to default taking them, as he had no $5,000,000, or even $500. But he sold his allotment before they were to be paid for, fortune favoring the brave.

Russians Rally.



The rally in Russian bonds from 69 to 73 has created a very favorable impression in the world's markets, and has no doubt helped to stimulate things in Wall Street.

The Imperial 4's sold to-day at 73, while the discount on the new loan is gradually getting smaller, and was to-day quoted at 8⅝ per cent.

This morning's cables from the St. Petersburg Bourse spoke of a more hopeful feeling.

DROP IN HAVANA CENTRAL.

The decline in Havana Central shares has attracted some attention locally.

The stock is quoted now at 30 bid and 33 asked. Some weeks ago there were sales at 40 to 43.

The impression is that the stock went up too fast.

THE MOTIONS.

(N.Y. Times.)

Wall Street is going through all the motions of having a bull market, but the public is not trading.

IDEA FOR J. J. H.

(N.Y. Mail.)

James J. Hill is going to build a railroad and canal to Hudson's Bay. He will be invading the Arctic circle next, and running express trains to the North Pole.

ANSWER TO QUESTION.

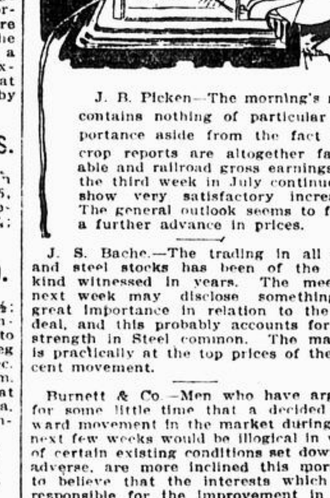
"R. B."—Detroit United pays 5 per cent. and yields 5.31 per cent. at 94.

POWER BONDS.

Montreal Power 4½, 1932 bonds, are offered at 80.

DOMINION PARK.

A few shares of Dominion Park stock sold at 65.



J. B. Picken—The morning's news contains nothing of particular importance aside from the fact that crop reports are altogether favorable and railroad gross earnings for the third week in July continue to show very satisfactory increases. The general outlook seems to favor a further advance in prices.

J. S. Bache.—The trading in all iron and steel stocks has been of the best kind witnessed in years. The meeting next week may disclose something of great importance in relation to the ore deal, and this probably accounts for the strength in Steel common. The market is practically at the top prices of the recent movement.

Burnett & Co.—Men who have argued for some little time that a decided upward movement in the market during the next few weeks would be illogical in view of certain existing conditions set down as adverse, are more inclined this morning to believe that the interests which are responsible for the improvement in the market will be successful in their effort to carry prices considerably higher.

H. K. Evans.—Shorts have undoubtedly been covering freely, and when their support is withdrawn I expect to see prices start downward again. The advance may go a little farther, but I believe it is nearing an end and favor selling stocks.

Dick Bros.—There is still a stubborn short interest, and the renewal of bullish activity on the part of leading financial interests furnishes reason for confidence, and we expect further improvement through the list.

T. A. McIntyre.—We would continue to advise against loading up on this bulge under the existing conditions.

About once a week the rumor gets around the "Street" that Senator Forget is going to retire.

The Senator has partly retired already, and it is probable that he will never change his plans from what they are at present.

The Senator usually spends two or three months in Europe every winter and in the summer divides his time between his farm at Senneville, the office and the Senate.

He is able to do all this without rushing in any way, and seems to live an ideal life for a man who has done his hard work, and wants in the future to combine a moderate amount of business with a moderate amount of travel and recreation.

An early morning "local" rolled into the C.P.R. station the other day, and among the passengers was a business man who hurried up the platform and cut across the track in front of the engine.

He was stopped by a C.P.R. employe, who politely said:

"It's against the rules to walk on the track, sir."

"Who's rules?" said the business man.

"The president's."

"All right," said the business man; "you tell the president to run his dashed trains on time, then I won't be in such a hurry."

Things are fearfully tame around the local "Street" just now, but as a matter of fact, there does not appear to be many people out of town.

Once and a while the pedestrian meets a face with a dark brown tan denoting the fact that the owner has been on a holiday, but the majority of Montreal financiers stick to their posts pretty well and many are content with week-end trips.

It is in the winter months that the big men get away for their European vacations, and it is then, half the time that some of our biggest concerns can only drum up a corporal's guard of directors.

Dying at 90, it is pointed out, that, after all, Russell Sage did not go to par.

Boom succeeded gloom in London yesterday.

When a horribly depressed market, like London's, wakes up occasionally, there is hope for the Montreal list.

We very seldom hear anything about the Bank of Ireland.

Its semi-annual statement is just out, and shows profits for the half-year of £160,665, against £159,507.

Including £13,559 brought in, the total was £174,224, as compared with £172,427, including £12,920.

The dividend is again at the rate of 11½ per cent. per annum, and £14,993 is carried forward, against £13,196.

The July edition of Houston's "Annual Financial Review—Canadian," has arrived in Montreal. This is one of the most useful books on Canadian securities ever published, and no broker or man who is interested in the stock market should be without it.

PRESTO, CHANGE ! IN WALL ST

Funny Way Sentiment Shifts in That Enlightened Centre.

A few days ago Wall Street wouldn't listen to any bull news, though there was no lack of it. Prosperity was an old story. The good crop prospects, what did they amount to? Big railroad earnings, heavy bank clearings, enormous steel orders, immense balance of trade—these belonged to a fiscal year that had passed. They might as well have belonged to the last century. Wall Street saw nothing but Roosevelt, and his name suggested Reaction, Reduction, Rate Regulation, Rumpus and Ruin.

But, presto, change! Now even a crisis in Russia doesn't cause alarm. Roosevelt is a mere country gentleman, living somewhere on the north shore of Long Island. Seems to be a pretty good fellow, too, has a plan for a stand-pat campaign, or something of that kind. The money market? Pshaw!

All of a sudden, Wall Street has become enthusiastic about the wonderful crop situation, the great chance for selling surplus abroad, the hold we have on Europe's gold chest, and the promised $39,000,000 earnings of the Steel Corporation. Prosperity is again a word to conjure with, and the Bull Rumor pervades the street.

MINING STOCKS ARE HIGHER.

A 5 Point Advance in International Coal Stock.

The feature of the market is International Coal, which has made an advance of five points, and is in considerable demand. The report of a new contract for the company's increasing output is the cause.

There is a limited enquiry for Virginia, in sympathy with the buying of some of the other low-priced stocks in the Rossland camp. Outside of these, dealing in the market is somewhat narrow.

The following are the latest quotations furnished by Robert Meredith & Co., 57 St. Francois Xavier street:

HEAVY BUYING OF STEELS

Was the Feature of the Wall Street List To-day.

Wall Street, July 27.—The market opened strong, and Union Pacific was again the feature, advancing to a new high record on the movement. Southern Pacific and St. Paul, however, which were the leaders during the earlier part of the advance, showed a reactionary tendency from the start, and it looked as if considerable profit-taking was going on in these stocks under cover of strength elsewhere.

The steel stocks were the notable feature and advanced easily on heavy buying. A. C. P. showed strength, and the Hill stocks, especially Great Northern, were notably firm. There was not any movement in specialties, but in various parts of the list there was some irregularity, and it looked as if profit-taking was going on in any quarters under cover of the strength elsewhere. No weakness, however, was shown anywhere, except possibly in S. P., which sold down to 71⅝. Sales to noon 595,300.

HEAVY PROFIT-TAKING.

(N.Y. Times.)

More evidence of profit-taking was shown than for some time.

NO INCREASE.

In spite of the fact that the shareholders have been protesting, no increase was made in the Michigan Central dividend.

BRITISH CONSOLS.

British Consols closed at 87 11-16 both for money and account.

GRANBY WAS HIGHER.

Granby was stronger in Wall Street at 11⅞ bid and 12⅛ asked.

NOVA SCOTIA CROPS NOW IMPROVING

Hay Below Average, Potatoes Above and Oats and Fruit Variable.

MANY ONTARIO HOGS KILLED

Ontario Fruit Crop Fine and Prices High—Local Oats Declined and Millfeed Advanced.

Special to the Montreal Star.

Halifax, N.S., July 27. — The preliminary crop report issued by the Provincial Department of Agriculture states the season generally is about two weeks later than last year. The early spring was wet and cold. May opened up with some fine weather, during which considerable seeding was done. This was succeeded by a wet, cold period, lasting until the end of the month. During the second week in June, heavy frosts were experienced in some sections, injuring early seeded potatoes, and in some cases even grass. The greater part of June was dry, and for a time it looked as if the crops would be a failure. However, the past three weeks have been of almost unprecedented growth, and now reports in regard to general farm crops are becoming more favorable every day. The stock never looked better, pastures are unusually good. Following is the average of the returns received up to date:

Uplands—Hay well cultivated, will run from 75 to 100 per cent. of the average of previous year. Run out and neglected fields are below this average.

Hay on marshes will run from 75 to 100 per cent. Oats and other grain crops are rather variable, especially those seeded early. Later seeded fields will be at least an average crop. Potatoes, turnips and other roots, especially when seeded late, are unusually promising, and probably will be above the average. Corn and forage crops, where grown, are also very promising. Fruit reports received to date are even more variable than the general crop reports. Early appearances were most promising, but more than usual difficulty is being experienced with insect and fungus pests, as a result of which some correspondents report the crop will be scarcely an average one.

ONTARIO SWINE INDUSTRY.

Report Shows 2,267,574 Hogs Slaughtered in Year.

Special to the Montreal Star.

Toronto, Ont., July 27. — An important bulletin has been issued by the Department of Agriculture on "The Swine Industry in Ontario." A total of 2,267,574 hogs were slaughtered in the province in the year ending June 30, 1906. Kent County leads the list with 117,007. Out of 42 counties, the Yorkshire is reported to be the principal breed in 33, and in 7 others ties with some other breed for chief position. The Berkshire is next in favor. The most popular cross is between the Yorkshire and Berkshire. The tendency in this province is to produce more hogs of the approved bacon type. Pure bred sires are used almost entirely in 25 per cent. of the counties.

ONTARIO FRUIT CROPS FINE.

Higher Prices Than Ever Before Owing to Canning Factory Competition.

Special to the Montreal Star.

Toronto, Ont., July 27. — Hon. Nelson Monteith, Minister of Agriculture, has received reports from the fruit experimental stations of the province, to the effect that the fruit crops are excellent, and high prices prevail. The latter is largely due to the numerous canning factories, which have to pay higher prices this season than ever before.

MILLFEED PRICES ADVANCED.

The Ogilvie Flour Mills Co. sent out the following notification under date of today, advancing prices of millfeed: Please note that our prices for millfeed are now as follows: Bran, $18; shorts, $21, and middlings, $23, all bags included.

PRICES OF HAMS ADVANCE.

Choicest Bacon Declined But Cheapest Advanced as Did Also Lard.

The market for hams has advanced about ½c all round, demand being good and supplies limited. The most highly-priced bacon has declined about ½c, while the cheaper grades are that much firmer. Lard has advanced ½c per lb., but barrel pork and sausages are unchanged.

The market for dressed hogs is steady. Fresh abattoir stock, fine, was quoted at 11c.

HAMS.—Extra large hams, 25 lbs. and upwards, 14½c; large hams, 18 to 25 lbs., 15c per lb.; medium sizes, selected weights, 12 to 18 lbs., 15½c, and extra small sizes, 8 to 12 lbs., 16c; hams with bone out, rolled, 16½c for large, and 17½c for small.

BACON. — Wiltshire bacon, 50-pound sides, 15c; spiced roll bacon, boneless, 14c; English breakfast boneless bacon, 16½c; Windsor backs, 16½c; green flanks, 12c; long clear, heavy, 12c; long clear, light, 13c.

PORK.—Heavy Canada short cut mess pork, $23.00 per bbl.; selected heavy Canada short cut mess, boneless, special quality, $24.00; Canada short cut back, family pork, $22.50; half bbls., $11.50; clear fat backs, $23.50 per bbl.; heavy flanks, $23; extra heavy short cut clear, $22.50; extra heavy clear, fat, $22.50.

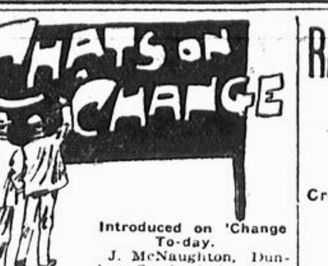
LARD.—In 20-lb. wooden pails, choice, refined lard compound, 8½c per lb.; extra pure, 12½c; finest kettle, 13½c.

SAUSAGE.—Packed in baskets of 25 or 50 lbs. each: Pork links, 7 to 8c per lb.; smoked Saveloy links and Frankfurts, 8c; Oxford links, farmers' sausages and 1-lb. package Cambridge sausage, 8c; bologna sausage and smoked 20-lb. pails, 8c.

Brunswicks, 6c; pork sausage meat, in

BEEF.—Extra plate beef, per half bbl., of 100 lbs.; $6.75; per bbl. of 200 lbs., $18; per tierce of 300 lbs., $19.

Broomhall cables from Liverpool that "India is holding wheat stiff until the weather there is more favorable. Russia and Roumania are holding new wheat of uncertain quality at the same price as fine old wheat which has arrived here. Argentina is practically finished. American winter wheat holds the field at current prices. Importing countries should be able to take easily 200,000,000 bushels of wheat from North America this season."



Introduced on 'Change To-day.

J. McNaughton, Dundee, Scotland, by Rowland Smith.

Thomas Clement, Glasgow, Scotland, by Fred. Fowler. Mr. Clement represents the large cheese importing house of Andrew Clement & Sons, of Glasgow, London and Manchester, and is here on one of his periodical trips.

"I think we will succeed in getting our mails carried by steamships leaving port on Saturdays," said Mr. Harry Hodgson, president of the Montreal Produce Merchants Association, on 'Change this morning.

At the conclusion of the meeting yesterday, the Postmaster-General took lunch in the Canada Club with Mr. Hodgson and some friends, and it is understood that the whole subject was further discussed.

"We showed Mr. Lemieux that the bulk of our shipments left port on Saturday, and that, as we cannot get our bills of lading for some hours later, they had to wait for sailings from New York the following week. In this respect we were at a disadvantage as compared with shippers in other places. For instance, Toronto merchants shipping cheese on Wednesday to catch the sailings late in the week, can get their bills of lading from the railways in time to forward them on by the mail steamers the same week. The proportion of cheese we ship on through bills of lading from the west is very small.

"I must say that the Postmaster-General took the greatest interest in the matter, and there is no doubt that he is in entire sympathy with our request, and will do all he can to permit the mails to be carried on the fast steamships leaving here on Saturday."

A Winnipeg paper of July 24th reports an interview with Wm. Craig, superintendent of the N.W. Elevator Co., of Minneapolis, who was on a visit through the Manitoba wheat fields. He said that around Glenboro and Treherne he had found traces of black rust, and that he had never seen the red rust so bad as he had found it in Manitoba this year.

Chicago.—"Timothy hay sold at $18 per ton yesterday, or the highest price in many years. This was an advance of $2 per ton as compared with the last price Saturday. The hay men claim the cause is a combination of short yield of hay and short pastures. It was said that in the vicinity of Sycamore, Ill., farmers have been cutting oats and feeding to the live stock in pastures."

WHEAT RATHER IRREGULAR.

Premier Roblin's Estimate of Exportable Surplus—Local Oat Market Weaker.

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, Ill., July 27. — Wheat was unsettled and irregular. July sold from 75⅜ to 75⅛ to 75⅝. September from 77⅛ to 76¼ to 76½. They closed yesterday at 75⅜ and 76⅝ respectively. Wheat failed to hold up to the level where it should be forced by the bulls. Armour reported purchases of 400,000 bushels cash from the country, and that house was a heavy seller of September and buyer of December.

The public cables reported Antwerp as 2½ cents better, but this was questioned by the trade here and at Liverpool. It was believed by some here that the reported strength at Antwerp was owing to Russian conditions.

A Winnipeg special says:

"In a public interview, the Minister of Agriculture, Hon. R. P. Roblin, estimates the exportable surplus of this year's Canadian North-West crop at 100,000,000 bushels—more, in fact, than the railroads will be able to handle in the next 12 months."

The Modern Miller, in its weekly summary, will say to-morrow: "Soft wheat farmers are selling their grain slowly. A large proportion is being stored or stacked. Deliveries are large of hard winter wheat. The principal purchases are by millers and by the large elevator systems and country to hold in store. The threshings of the Michigan crop generally show a better yield than was expected earlier in the season."

Indian shipments of wheat were:

	Last wk.	Prev. wk.
To U.K., qrs.	153,000	157,000
To Cont., qrs.		7,000
Argentine shipments to U.K.—

To Cont.—		
Wheat, qrs.	25,000	27,000
Maize, qrs.	72,000	75,000

The Liverpool spot wheat market was weaker to-day, closing ¼d down on No. 1 Northern Manitoba at 6s 4½d to 6s 5d; no stock of Nos. 2 or 3. Options were firmer to-day, closing ¼d up on July at 6s 7¼d, September being ¼d up, and ⅜d up on December at 6s 7¾d. Antwerp closed steady on Bahia Blanca at 17. Paris closed 35 up on July at 23.80, and steady on November and February at 22.60.

Winnipeg was ¼c up on July at noon at 80c and ¼c up on August at 80¼c, and steady on October at 77c.

Chicago was steady on September at noon at 76½c, and ½c down on December at 79c. July corn was ⅝c down at 50¼c, September being ⅜c down at 50½c, and May ¼c down at 48½c. July oats were 1¼c down at 33¼c.

Duluth was ⅛c down on September wheat at 76⅞c, and Minneapolis ⅛c up at 76¼c.

Inspections at Winnipeg were:

Hot and overcast in France; forecast, cloudy north and fine south.

LOCAL MARKET.—Prices continue to slide away gradually for local account, and to-day purchases could be made at 40c in store for No. 4, and 41c for No. 3, and 41½ to 42c for No. 2. Demand continues exceedingly dull.

LARGE DESTRUCTION OF RICE

Beaumont, Tex., July 27.—The brick warehouse of the McFaddin, Weiss-Kyle Rice Milling Company, containing 50,000 sacks of rice, representing about one-half of the stock of rough rice in the South, was destroyed by fire yesterday. Loss $315,000.

RAIN NEEDED HERE TO SAVE POTATOES

Crop on Island Only Half Grown and Now Ripening—Cheese Firmer—Butter and Eggs Steady.

POTATOES.—The market has experienced a decline, and sales are now being made to the trade at $2.50 to $2.75 per barrel, the latter figure being reported hard to get. Very poor reports are being given regarding the quality of the stock. More rain is badly needed, and if it does not come soon there will be no potatoes of any size in the crop now coming in in the vicinity of Montreal. The light rain of last Monday helped very little, it being hardly sufficient to penetrate the ground. What is needed is a steady, soaking downfall. This would save the crop if not too long delayed. Otherwise the potatoes in this vicinity are sure to be exceedingly small. There is a still later crop being raised, and rain may arrive in time for these. Meantime the present crop is ripening very rapidly, and the potatoes have not yet reached any size.

CHEESE.—The market for cheese was fully as strong to-day as yesterday, and some holders were even asking a fraction more. Trading was in progress at 11⅜ to 11½c for Easterns, some demanding 11⅝c for colored, that figure being very hard to get. Ontarios could hardly be had at 11⅝c this morning, holders demanding 11¾ to 11⅞c. There was a fair amount of activity to-day, demand being, however, of a somewhat erratic character. Apparently the movement is the result of the necessity of certain merchants to secure sufficient cheese to fill orders for shipment before the end of this month, to-day being the last day shipment can be made.

There is a feeling among merchants that prices will hold firm for a few days to come. Apparently the demand is nearly all on Ontario cheese just now, easterns being more or less neglected almost for the first time this season. Ontario prices are rather firmer to-day as a result.

Receipts of cheese reported on the Board of Trade to-day amounted to 18,710 boxes, making 98,456 for the present week.

BUTTER.—The demand for butter of all kinds is about steady. Eastern Townships and Quebec creamery is about the only thing being dealt in, although a small sale of Ontario creamery was made at 21c to possibly 21¼c. It's thought that really fine Ontario creamery might bring 21½c, but it is not offering. Ontario dairy butter is in light demand, and prices range around 18c. Good to fine Quebec and Townships butter ranges from 22 to 22¼c, and really choice Townships cannot be had less than 22½c. A fair quantity is changing hands.

Receipts of butter reported on the Board of Trade amounted to 6,693 packages, making 31,126 for the present week.

EGGS.—Poor eggs are still refused, and good are in demand. A sale of good straight gathered was made this morning at 16¾c, and a sale of fine at 17c. A sale of straight gathered, with the spotted, rotten and cracked eggs taken out, was made at 18c, while select candled were sold at 20½c. No. 2 eggs are any price the holder can get, and No. 1 are worth around 17c. The stock is very poor and will continue so till harvest and cooler weather.

Receipts of eggs reported on the Board of Trade amounted to 1,045 cases, making 4,779 for the present week.

CHEESE FIRM IN COUNTRY.

Prices on Country Boards Yesterday Sustained Previous Advance.

Kingston, Ont., June 27.—At the Frontenac cheese board, there were registered 1453 boxes, of which 782 colored. The sales were: 335 colored at 11⅝c, 165 at 11 9-16c; 350 white at 11 7-16c, and 150 at 11⅝c.

Madoc, July 27.—At the cheese board 1035 boxes were boarded; 225 old at 11⅝c, 395 at 11 9-16c, and 250 at 11½c; balance unsold.

Tweed, July 27.—At the cheese board 565 boxes of white cheese were boarded; all sold at 11½c.

FOOT WEAR FACTORIES BUSY.

Montreal Trade is of Mid-summer Character With Healthy Conditions.

Dun's Bulletin of Saturday, July 28th, will say of Montreal trade: No special features have developed in the trade situation within the week. Boot and shoe manufacturers are well employed on fall orders, deliveries of which will begin next month, and good business is still reported in heavy metals and construction material, but in most other lines business is of a mid-summer character, and general collections incline somewhat to slowness. Variations in values are few. Lambskins are about being advanced to 45c; hides and calfskins are steady, with lighter receipts. All kinds of leather are stiffly held. Raw wool is steady, but little doing. Quite a few dress goods manufacturers from Bradford and Rubaix have been in town this week, and all quote very stiff prices. Best brands of Scotch iron are held at $21.50, and domestic at $20.50 to $21; No. 3 Cleveland, $18.25; bars, $2 to $2.05; wire nails, $2; cut do., $2.10. Only one district failure is reported for the week.

COTTON MARKET OPENING.

E. & C. Randolph's New York cotton market letter says: Toward the close yesterday the market became quite active. Several local traders started to raid it and offered considerable blocks in an evident effort to break prices into a new low level. This effort met with considerable resistance, and several large blocks were absorbed, with the trading suggesting that some of the large local bulls were becoming more aggressive, also that some of the Wall Street shorts were taking in part of their cotton. We can look for no bull market nor for any general demand while the crop is in such good shape and while Russian affairs continue as a serious menace to the world's consumption.

Liverpool due 2 lower; opened steady 1 to 2 lower. At 12.15, quiet, net 1 to 1½ lower. Spot quiet, 3 lower, Amn. mid., 603d. Sales, 5,000, 4,000 American, speculation and export, 500. Imports, 8,000, all American.

WHY HAS
NORTHMOUNT
Become Popular in Such a Short Time?

Because the property is the best situated anywhere on the Island of Montreal.

Because it is the nearest locality of its class to the centre of the city.

Because it is the finest location.

Because it is the highest location, with the Laurentian Range in the background.

Because it is the only place where residences can be built without the view being obstructed by other buildings, as it is in the form of an amphitheatre.

Because it is as healthy a place as Ste. Agathe.

This is why purchasers from the very best classes are more numerous than in any other suburb. The opportunity is a rare one. Northmount is the only spot left on Mount Royal where prices are within reach.

Take the Round the Mountain car and alight at Northmount. See the grounds; then make your selection without delay, as the prices of to-day may not be the prices of to-morrow.

STREETS DISGRACE TO COMMUNITY

Such is the Impression Formed After Mr. Vallieres Trip Abroad.

ABOUT OBSERVING SUNDAY

The Continental Method Jarred a Good Deal on the Canadian Visitors.

While Montreal compares favorably with the large cities of Europe in the appearance of its buildings, its streets would be a disgrace to any community.

This is the opinion of Mr. S. D. Vallieres, former chairman of the Finance Committee, who has just returned from a two months' visit to Europe. He adds that it is about time something should be done.

"Personally, I favor a special tax with a sinking fund provided to wipe out a debt the proceeds of which would go to repair the streets at once so that the city would be made presentable and safe for the residents and visitors to drive through."

While in Rome Mr. and Mrs. Vallieres had the opportunity to see His Holiness the Pope, on the occasion of the canonization of Carmelite sisters, who were beheaded in France during the revolution. Accompanying a number of French pilgrims, Mr. Vallieres was present when an address was presented to His Holiness in which the French separation law was alluded to. The reference drew tears from the eyes of the Pontiff, as he went on to deplore the present condition of affairs and expressed the hope that an improvement would be taking place within a short time.

With Gibraltar, Mr. Vallieres was impressed as a Spanish city. The only sign of English occupation was the uniform of the soldiers in the garrison. Rome, he found a dead city so far as active business is concerned. The tourist trade seemed to occupy everybody. The churches, museums, art galleries and other artistic edifices, however, he found all that he had ever expected to see and more.

PROGRESS IN MILAN.

As a business man, the ex-alderman was struck with the signs of progress in Milan, which he regards as occupying in this respect a position far ahead of any other city visited by him in Italy. Manufactures are being established, the people are active, the streets are clean and well kept, and everywhere there is an air of bustle, comfort and prosperity.

Mr. Vallieres is a contractor, and for years he was chairman of the Road Committee. He was, therefore, much struck with the manner of paving the streets of Paris, which he found in this respect the best of all the cities visited on his tour. Concrete for the streets is laid nine inches thick, instead of eight as here, and with the clayey soil of Montreal he thinks such a basis would greatly improve matters.

The cleanliness and regularity of the streets also struck the ex-alderman as well worth imitation, while the symmetry and beauty of the bridges over the Seine also impressed him favorably.

SUNDAY OBSERVANCE.

The manner of observing Sunday in Paris, however, rather jarred on the sentiments of the visitors. Stores and theatres are open, the men work at paving the streets, everything goes on just as in week days, while in the places of worship there is but a small proportion of the population to be seen, and even then the great majority of those who attend services are women.

After visiting Belgium, the ex-alderman and his party crossed over to England, and he found that country more like Canada than any he had seen so far. London, while less beautiful architecturally, gave the impression of greater business activity.

The new Catholic Cathedral at Westminster excited his admiration, while the sight of a Catholic procession going through the streets of London not only unmolested, but attended with respect by all along the route impressed him very forcibly with the spirit of toleration among the people.

Sunday observance in London, the ex-alderman also found to be lacking in one respect—the presence of women in public houses on Sunday afternoon. The impression created by this practice he found distinctly unpleasant.

"We are better Canadians for our visit to all the cities and countries of the other side, for of all we have seen there is nothing to compare with this Canada of ours."

COURT WHITEWASHES PROPHET DOWIE

Chicago, July 27.—Judge Landis, of the United States District Court, decided to-day that John Alexander Dowie does not own Zion City, and its industries. He refused to appoint Alexander Granger as receiver, and ordered an election for a general overseer.

The court describes the founding of Zion City, and after calling attention to the fact that inasmuch as Voliva's conveyances to Granger were in plain violation of the intent of Dowie's power of attorney, "these instruments were mere waste paper."

The court traces Dowie's church career beginning in Australia down to his work in Zion City and found that Dowie had been for many years in receipt of a large revenue which he devoted to church and charity purposes; that the amounts received aggregated in some years to two hundred and fifty thousand dollars; that Dowie had not sought to amass a fortune; but that he had engaged in a secular occupation to aid in the propagation of his religious doctrine.

This money, the court holds, was accepted by Dowie as a trust fund, and after quoting a codicil in Dowie's will executed 1905, bequeathing Zion City property to his successor, the court says: "This declaration is unqualified and is a complete recognition of existing trust obligation."

The oath taken by Granger subordinating family ties and relations to all human governments to the will of Dowie, the court says, unfits him to act as receiver.

The court ordered an election to be held on the third Tuesday of September of a general overseer, under the election laws of Illinois. The court said it would later make suitable provision for Dowie, inasmuch as the present value of the estate far exceeds the actual amount of contributions received, to which his services as trustee entitled him. The amount, the court said, would be determined later.

IN THE DIFFERENT LACROSSE CAMPS

(Continued from page two.)

President Wm. Foran arrived in town this morning and agreed with President Fitzgibbon, of the Cornwalls, for officials for the big game here Saturday.

The officials selected are referee, Mr. Peter Murphy, of the Shamrocks, and judge of play, Mr. Desse Brown, of the Montrealers. Mr. Murphy has consented to act, and Mr. Brown is yet to be heard from. Both are well known lacrosse men and have acted for both teams with satisfaction in the past.

The Cornwall shorts are satisfied that the locals can win and this morning sent Jack Ross, of the Rossmore House to Ottawa, with eight hundred dollars to place on the team at even money.

The Capitals have sold the three hundred reserved seat tickets and three hundred more is being sent them to-day. Four hundred seats are being reserved for the Montreal contingent, who will leave Montreal Saturday by special train. The team had a good work out this afternoon and are fit for the battle of their lives.

MANY MONTREALERS ARE GOING.

To-morrow many Montrealers are taking advantage of the excursion to Cornwall and are going up to see the lacrosse match between Capital and the home team. Everything points to the match being one the greatest witnessed in Cornwall for many years, and that the team that wins this game will have a fairly good hold on the championship.

SHAMROCKS FOR QUEBEC.

To-night the Shamrock Intermediates travel down to Quebec to play the Quebec a league game. The lads in green have not yet lost a game this season and their supporters are watching with much interest the outcome of this match.

FINAL SELECTION OF PLAYERS

Match to Be Played to Decide Who Will Meet Corinthians.

In order that the final selection of the team to oppose the redoubtable Corinthians may be facilitated, two elevens, consisting of local players of promise, will participate in a practice game on Tuesday evening, on the M. A. A. A. grounds. Though not absolutely representative of local talent, Marriott and McMeekin, of Valleyfield, being prominent absentees, the teams chosen contain many players of merit, and it may be taken for granted that the team which will ultimately do battle for Montreal will be selected largely from the names given below. The teams are as follows:—

Goal—McIntyre (C.P.R.). Backs—Cornell (M.A.A.A.), Sutherland (Points). Half-backs—Dearnally (M. A. A. A.), Neville (Westmount), Mackay (Points). Forwards — Wright (Points), Kinloch (Y.M.C.A.), George (Points), McFarlane (Westmount), Nairn (Westmount).

Goal—Baird (Westmount). Backs—Lorimer (Points), Payne (Westmount). Half-backs—Greig (Points), Reid (C. P. R.), Honeyman (C.P.R.). Forwards—Houston (Westmount), Reynolds (C. P.R.), Honeyman (C.P.R.). Forwards mount), Jones (Rosemount).

Engine Went Through Bridge.

Belleville, Ont., July 27.—The engine which runs the county stone crusher had a mishap yesterday. It was crossing Caton's bridge, about five miles from Tweed when it broke through and landed right side up in the river. The engineer, who was on the engine, miraculously escaped. The bridge is a total wreck.

Warning to Canada.

Canadian Associated Press.

London, July 27.—At a meeting of Parr's bank, Mr. C. N. Parr, chairman of the board of directors, said that the name of Canada was a synonym of prosperity. He was afraid it might go too fast and suffer.

Drifted as a Floating Bog.

Sheboygan, Wis., July 27.—The mysterious disappearance of 37 acres of the shore of Long Lake, in Fond du Lac County, was cleared yesterday by the discovery that the tract had broken loose and drifted into the lake as a floating bog.

Resist Sheriff and Militiamen.

Ladysmith, Wis., July 27.—An encounter, in which many shots were fired, took place on the Thornaple River, between John F. Dietz and family and six militiamen, who were accompanied by Sheriff Gliand, of Sawyer county. The shooting is the culmination of an attempt to serve legal papers on Dietz. One militiaman was shot three times, and Clarence Dietz, a son of John Dietz, was shot in the head. The recovery of the militiaman is doubtful.

STOLYPIN ANNOUNCES PROGRAMME CZAR BENT UPON 'STRONG-HANDED REFORM' AND NOT RE-ACTION

In an Interview he Justifies the Czar and Jeers at the Douma —Too Many Professional and Amateur Agitators—Administration Will Deal Kindly but Firmly With the Country—The "Little Father's" Paternal Regard for His Peasants.

St. Petersburg, July 27.—Premier Stolypin, in an interview yesterday at his summer residence on Aptekersky Island, stated: "There has been no coup d'etat, and nothing has been done which was not in accordance with the prescribed constitutional methods. The Emperor was empowered by the fundamental law to dismiss Parliament, and there was no other course open to His Majesty. The Douma, as a whole, was a dying body, and the most merciful treatment was the prompt despatch terminating its existence."

M. Stolypin said the Emperor's recent words had showed that Parliament's agrarian manifesto was the last straw which caused "the Cadets' bubble to burst" (Constitutional Democrats), but the whole proceedings of Parliament during the last few weeks had rendered its closing inevitable if the Emperor's authority was still to be recognized in Russia.

In reply to a question as to the role of the "Cadets," M. Stolypin argued that the party included many dilettanti doctrinaires with no policy or coherence. He differentiated between the really patriotic members of the party and those whole sole aim was to oust the Government and the Emperor, and whose inherent weakness was so patent, even to themselves, that they made greater concessions to the revolutionists, both inside and outside of Parliament. He considered that the tendencies displayed by the "Cadets" as a body were highly dangerous, to use no stronger word.

"STRONG-HANDED REFORM."

Asked as to the extent the counteraction was likely to go, M. Stolypin replied: "At the present moment three

Premier Stolypin, whom Conservative Russians believe will save the situation.

policies are open to the Emperor and his advisers. First, reaction; second, impassivity towards the threatened revolution; third, a policy of strong-handed reform. It is the last mentioned upon which the Emperor has resolved and upon which we have entered. A policy of reaction is the furtherest removed from His Majesty's wishes, but the revolutionists must be thwarted before there can be any possibility of deciding on a definite basis for a stable future."

"I personally place implicit reliance on the innate patriotism and civic sense of the masses of the nation. I believe that the Emperor's appeal to them, backed up by constant evidence of good faith and honest endeavor on the part of His Majesty's representatives, will result in the effective repression of anarchical forces."

As to the suppression of newspapers and wholesale arrests, M. Stolypin said: "Arrests, expulsions and other measures of administrative order are indispensible under the present circumstances. The newspapers suppressed were purely and simply revolutionary organs, whose appearance would not be countenanced in any country in the world."

M. Stolypin gave the correspondent to understand that until last month he had considered a compromise regarding the Cabinet possible, if not probable. The members of Parliament might have been given certain portfolios, but all the demands of the "Cadets" could not for a moment be granted.

CZAR LOVES HIS PEASANTS.

M. Stolypin declined to express an opinion on Parliament's demand for general expropriation. He said:—"The interests of the peasants lie near the Emperor's heart. His Majesty and those closest to him admit the justice of many of the claims of the peasants, and nothing will be left undone to solve the agrarian problem in a spirit of sympathy, generosity and equity. I believe the peasants will recognize this when the details of the land proposals are fully explained to them with the aid of local commissions nominated from among those enjoying the confidence of the peasantry. When the Cabinet is complete we will come forward with an exhaustive programme, covering the land question and other subjects demanding immediate solution."

M. Stolypin discusses the vicissitudes of the regimes of the late Interior Minister von Plehve, ex-Interior Minister Prince Sviatopolk-Mirsky and Count Witte. While disassociating himself entirely from von Plehve's ideals, M. Stolypin expressed the opinion that a policy of benign inactivity was equally inadequate to solve the stupendous problems facing Russia. What was needed was a well considered programme with the intention and will to carry it out. The worst resort was dallying with all parties and all policies.

HE JEERS AT MANIFESTO.

The Viborg manifesto, M. Stolypin declared, was an opera bouffe production, unworthy of criticism. He laughed at the idea that the Government had not arrested the signatories of the manifesto because of fear. No steps, he said, would be taken against the members of the Parliament unless they attempted to agitate in their own constituencies or elsewhere in Russia. If they did they would be promptly arrested.

The Premier spoke in stronger terms than General Trepoff regarding the loyalty of the army. He said that Grand Duke Nicholas Nicholaivitch and the other commanding officers vouched for the devotion of an overwhelming proportion of the troops, and M. Stolypin reiterated that he considered the dissolution of Parliament to have been the only course it was possible to take, adding that he would not have accepted the presidency of the Council of Ministers if he had not thought so.

Continuing, M. Stolypin said that the instructions just issued to the governors were, in a sense, his estimate of the situation. He believed that strength was required, and not reaction; humanity, not cruelty; good sense, and not hysterical promises. The Premier had no doubt concerning the future. His Majesty, the Premier asserted, had expected the best from Parliament. Until almost the last he hoped it would work in conjunction with the Government towards the regeneration of Russia, and he had dissolved it with the utmost reluctance, and only when it was seen that nothing could be expected from it. M. Stolypin pointed out that the Parliament, as a whole, was not representative of the country. It included far too many professional and amateur agitators, who had no stake in their own constituencies or in the country generally.

In conclusion, the Premier said:—"There are two distinct movements in Russia:

"The first is social, and includes the labor and agrarian problems.

"The second is political.

"The former has all our sympathy, and will be the object of our most attentive study.

"The second will be dealt with as circumstances dictate."

"Force is required in all countries to suppress a revolution; but, I repeat, and cannot repeat too strongly, that reaction finds no place in our programme, and that all the reforms consistent with the highest spirit of liberalism will be carried out when the ground is prepared."

RIFLE ASSOCIATION TO MEET MONDAY

The Dominion Rifle Association Will Hold Its Annual at Rockliffe Next Week.

Ottawa, July 27.—The Dominion Rifle Association meet will be held at Rockliffe on Monday, August 27, and continue till 4 p.m. Saturday, September 1st, thus lasting six days, instead of five as formerly. The programme which has just been issued is very similar to that of former years.

The judging distance competition has been retained. Col. Tilton, R. O., chairman of the executive of the D. R. A., has presented a field glass, and the D. R. A. has added $100 for this match.

The Peters target competition has been added, at which the special Peters electrical self-registering target will be used. Mr. Anson A. Gard, of Ottawa, has presented a challenge cup and the D. R. A. has added $500 for this competition. There is an air rifle competition for which air rifles are presented.

The aggregate value of the prizes will be about $10,323. This estimate does not include the Walker Cup, MacDougall Cup, Patterson Cup, Borden Memorial Cup and Medallion, Transvall Cup, Gordon Highlanders' Musketry Trophy, London Merchants' Cup, Gzowski Cup, Dundonald Cup, British Challenge Shield, Gibson Cup, Lansdowne Aggregate Cup, Kirkpatrick Cup, Citon Cup, Gillespie Cup, Peters' Target Cup, field glass and air rifles.

Bad Storm in the Townships.

Special to the Montreal Star.

Sherbrooke, July 27.—A severe wind and rain storm swept over certain sections of the townships on Monday night. Much damage was done in the Noyan district. The rain was accompanied by hail. Grain crops were flattened presenting the appearance of having been rolled.

Wm. Scott's barn and out buildings at Clarenceville were struck by lightning and destroyed. Arthur Merrill's barn in Compton was burned during the same storm.

WELCOMED BY NEWFOUNDLAND

The Governor-General and His Family Received in the Ancient Colony.

St. John's Nfld., July 27.—Earl Grey and Countess Grey, with their suites, arrived here yesterday after an enjoyable trip across the island. A large crowd was at the railway station at the time of their arrival. A half-holiday was observed. Shipping on the harbor was elaborately decorated.

The Earl and Countess Grey attended the Catholic orphanage festival, where they were welcomed by Archbishop Howley and prominent clergy and laymen of all creeds. Five thousand persons attended the festival. The city was extensively illuminated last night. Lord and Lady Howick and Lady Evelyn Gery spent Wednesday and a part of yesterday securing a fine catch of salmon.

A luxurious motor omnibus has arrived at St. Petersburg for the use of the Czar. Built at Buda-Pesth at a cost of $20,000, it contains a large study, a lavatory, and a compartment for the suite.

HINDOOS LIKE TO WORK IN CANADA

As Result Two Thousand More Will Join Those Already Here.

Special to The Montreal Star.

Vancouver, July 27.—The Hindoos who have been working here for the past year, have taken advantage of the call for manual laborers for sawmill, railway and other work, to send home the joyful tidings to India, with the result that it is announced that 2,000 more Hindoos will be here shortly. Dr. D. R. Davichand has a contract with a number of sawmills adjacent to Vancouver to furnish this number of Sikh and Hindoo laborers. He already has placed 300. Most of these men are British army reservists and they are found to be better for work in the mills than Chinese and Japanese. It is probable the white workers will protest against this importation of men from India. They want to make this a white British Columbia. However, the mills say it is impossible to get enough white men.

SMUGGLERS SEIZED SHIP.

Deposed Captain and Landed Cargo of Arms in Finland.

Copenhagen, July 27.—The schooner Peter has arrived here with a Finnish crew. Her master, Capt. Albertson, who is a Dane, says he shipped a cargo, alleged to consist of cases of ironware, at Lubeck for Lulea, at the beginning of July. When the schooner arrived off the Aland Islands on July 8, the crew mutinied, imprisoned him in his cabin, whence, through a crack, he saw the crew open the cases, which contained arms. These were landed, so far as he was able to judge, on the coast of Finland. Six days later his cabin was opened by strangers, who said they were Finnish fishermen. They had been coerced aboard the vessel by unknown armed men to help him navigate the vessel to Copenhagen. Captain Albertsen again took command and brought the vessel here. The owner of the schooner cannot be found. Enquiries by the police revealed that a clerk had been bribed to sign the vessel's papers as the owner.

Canadian Delegates and Bradford.

Canadian Associated Press.

London, July 27.—At a meeting of the Bradford Chamber of Commerce, W. H. Mitchell referred to the abandonment of the colonial delegates' visit to Bradford. He said he did not wish to utter anything in the way of a complaint, but that not only Bradford, but other towns, had made elaborate preparations to receive the colonials, and a good deal of expense had been incurred. He thought that an experience of this kind would probably deter people from undertaking anything of the kind in future. Mr. W. Maude explained that the delegates' reason for relinquishing their proposed visit was an insufficiency of applications for the tour.

SWINDLED CANADA BAG COMPANY

Efforts Being Made to Locate Mysterious Mr. Shepherd Who Got $125 Consignment.

The swindle game goes merrily on. The latest to suffer is the Toronto branch of a Montreal firm, the Canada Bag Company. The name of Mr. Heman Shepherd, a leading Brockville merchant, was used by a clever unknown in securing goods from this firm, which were sent to Kingston and sold there to Mr. R. Waldron.

Mr. Shepherd, at Brockville, was called up from Montreal a short time ago by a man who introduced himself as a stranger, but bearing the same name as Mr. Shepherd, and requested the former to send to him at a certain hotel any mail that might be addressed to, but not for, the Brockville merchant. Mr. Shepherd received no mail other than his own, but on Monday last received an invoice from the Canada Bag Company stating the latter had shipped to his credit five bales of bags valued at over $125. The invoice also stated that the bags had been shipped to order at Prescott.

The Brockville merchant promptly notified the firm that he had given no such order, and immediately brought the matter to the attention of the police. The Montreal firm shipped the bags to Prescott to the order of Mr. Shepherd, believing that he wished to dispose of them at that point. However, the man purporting to be a second Mr. Shepherd was on the scene at Prescott when the goods arrived, and made them his special care. Efforts are now being made to land the swindler.

COURTNEY'S RESIGNATION

Will Take Effect on the First of November.

Special to the Montreal Star.

Ottawa, Ont., July 27.—The resignation of Mr. J. M. Courtney, Deputy-Minister of Finance, will take effect on November 1. It is understood Mr. T. C. Boville, who has been in the department for nearly a quarter of a century, will be promoted to the Deputyship. Mr. Henry T. Ross, of Bridgewater, N.S., at present acting as secretary for the Insurance Commission, being appointed assistant Deputy-Minister.

STRIKE ON AT LONDON, ONT.

London, Ont., July 27.—The London street car employes unanimously decided at 2.15 this morning to call a strike, the same to commence immediately. A strike has been the subject uppermost in the minds of the men for the past few weeks. An effort at arbitration between the company and the employes has been made during the past few weeks, but as Manager King refused to reinstate the three employes discharged recently, the strike was called amid cheers. At 11 o'clock a single car is running on each of the different routes, but very few passengers are being picked up. Everything is very quiet at present.

Special Notice.
OPEN SATURDAY NIGHT.

Stores Report Doing a Very Large Night Trade at the Week End.

The seven Slater Shoe stores in Montreal are all open on Saturday evenings until 10 o'clock.

McCrudden & Thompson, of the St James street store, say they do a large evening trade despite the fact that it is quite down-town in the great commercial centre. The Slater store on St. Lawrence Main also does a very large Saturday night trade.

SPECIALISM

This is the trade mark which is on every genuine Semi-ready tailored garment.

On every real "Blunoz" Serge, black or blue, this silken label is affixed on the inside pocket.

The tailor who tells you vaguely and generally that he is an expert in making each part of a suit is stating an impossibility.

He will not be as expert as he who makes coats alone.

And he who tailors coats cannot in a given time produce as good a collar as he who works on collars alone.

Because the tailor on collars has all his time for collars—to concentrate on the making—to study the fibre of the cloth—the effective way to stitch—so that the collar will be properly shaped and properly made.

Semi-ready is tailored by specialists who concentrate on each part—the maximum skill is obtained—the maximum results achieved.

Semi-ready bears the impress of the very best class of high-grade tailoring.

Each suit carries individuality and creates the impression of distinctive style.

You can forejudge every effect of color—fabric—style, and satisfy yourself as to fit before you buy.

Your purchase money returned for any cause whatever.

A THIEF, SAYS THE COMPANY.

Albert Fortin Denies G. T. R.'s Statement and Claims He Was Working.

Because they said he stole a quantity of hose pipe and iron, the property of the Grand Trunk Railway, Albert Fortin had to appear to-day before Judge Choquet on a charge of theft. Albert denied the rumor and his trial will take place on Wednesday next. He maintained that he was an employe of the Grand Trunk, and that when found gathering up the pipe and iron it had just been a part of the duties for which he drew his pay. An official of the railway company said that Fortin had never been in the employ of the Grand Trunk.

Mr. H. C. Stone, is in Brockville.

CRUSHED AT BRIDGE WORKS.

Ernest Etchells Conveyed to Hospital in Serious Condition.

With one of his legs crushed and fractured, and his body covered with bruises and abrasions, a young man named Ernest Etchells was brought to the General Hospital to-day from the works of the Dominion Bridge Co'y, Lachine. Etchells, whose home is at Lachine Locks, was employed by the company in the foundry, and to-day a pile of steel plates fell upon him, crushing him to the ground. The injuries are not thought to be fatal. Eichells is twenty-one years of age.

Mrs. M. L. Hyman and Master Howard Hyman are at Cedar Villa, Port Lewis, where they will spend the rest of the summer.

EXPLOSION OF GAS STOVE.

Fire Resulting Threatened Home of J. B. Desautels, St. Henri.

The explosion of a gas stove, setting fire to an apartment in the dwelling of J. B. Desautels, corner of Beaudoin and Notre Dame streets, St. Henri, threatened to create a conflagration in that part of the city to-day. Desautels is a grocer, living above his store, which occupies that corner. A prompt alarm was sent in when the flames manifested themselves, and the attendance of the St. Henri and Ste. Cunegonde fire brigade, under Subchief Tremblay, was as prompt. The damage was slight, and the store was not touched by the fire.

AN OLD HABITUE SCORED.

Recorder Weir Severe on a Woman Found at Old Tricks.

Mr. Recorder Weir dealt out justice with a rigorous hand to-day in the case of one of the habitues of the Recorder's Court. Edna Anderson, released from gaol yesterday after serving a term for drunkenness, was picked up in Busby lane last night, in the same blissful condition as of yore. "Four months in prison," said His Honor. "I am going to stop the old habitues from appearing before this court. I am happy to say that in the last few months we do not see so many old and familiar faces. These people must learn that they cannot live in Montreal and carry on this system."

NAVAL EXPENDITURE HAS BEEN REDUCED

Agitation Against Excessive Reduction, However, Proved Successful.

London, July 27—The agitation against excessive reduction of the naval construction programme has proved successful, and Edmund Robertson, parliamentary secretary of the Admiralty, announced in the House of Commons to-day that only three new battleships of the Dreadnought class would be laid down, instead of four, as originally proposed. Two ocean-going torpedo boat destroyers will be built, instead of five, and eight submarine boats instead of 12. The total of the expenditure involved by the new programme was $34,000,000, instead of $46,000,000.

TRAIN ROBBERY IN POLAND.

In Approved Style Bandits Held Up Train Near Warsaw.

Warsaw, July 27.—A daring robbery was perpetrated on the Vistula Railway in the suburbs of Warsaw. Armed revolutionists stopped a passenger train by pulling the emergency brake. After assuring the passengers that no harm would be done them, the robbers uncoupled the locomotive and van containing several strong boxes, filled with the receipts of various stations. The gendarmes in charge were killed and the engine driver forced to proceed to a spot where the line passed through the wood. At a given signal 30 armed men broke open the boxes, abstracted $7,500, and escaped.

BALANCE WILL BE SENT.

Government Will Send the Rest of Money to San Francisco.

Special to the Montreal Star.

Ottawa, Ont., July 27.—Hon. Mr. Fielding says the $20,000 balance of the Canadian grant of one hundred thousand dollars towards the San Francisco Relief Fund, of which $80,000 has been already sent to the Red Cross Relief Association of San Francisco, be sent to the same authority. Some individual applications were made to the Government for assistance, but as the hundred thousand dollars was granted for the general relief of the sufferers, the Government felt the whole amount should go into the general fund.

WAS DEAD BEFORE RUN OVER.

Evidence at Inquest Would Indicate Foul Play.

Orillia, Ont., July 27.—As the evidence at the adjourned inquest on the body of Robert Barbeur, found dead, on the Midland track on the night of the 17th, went to indicate that the man was dead when he was struck by the train, an adjournment was made for a week to allow of a post mortem examination. One witness testified to having overheard a man declare to two companions on the night in question that the fellow had got what he deserved, and was probably cut to pieces by the train by this time.

ALLEGED LUNATIC ESCAPES IN AUTO

Alexandre Duclos Succeeds in Getting Away from Longue Pointe.

TRIED TO SLAY DESROSIERS

Duclos Had Never Been Tried, But Was on Point of Going Back to Gaol.

With the assistance of friends outside the institution, Alexandre Duclos, who attempted to kill Alphonse Desrosiers, in the office of the Commercial Union Insurance Company on March 19th, escaped on Wednesday from Longue Pointe Asylum, where he was sent after the tragedy, when his mental soundness was questioned. The plan for escape was well laid. While Duclos was walking in the Asylum grounds three men drove up in an automobile. The inmate ran out to the car and was whirled away swiftly by his friends.

The incident occurred on Wednesday evening after supper, when Duclos, with several inmates was strolling about the grounds. At this hour the inmates are allowed this exercise under the care of a guard. About seven o'clock a large touring car was noticed moving rapidly along the road in the direction of Longue Pointe. It contained three men. Fifteen minutes later the car was seen to return and as it neared the gate it slowed up. Before the guard could grasp the situation Duclos broke away from the group and dashed towards the gate. The guard followed him at full speed, but before he could catch his man the latter had reached the car and jumped in. At the same moment the power was turned on and the automobile sped off like the wind towards Montreal. No clue of Duclos' whereabouts has since been discovered.

THE ESCAPE REPORTED.

The escape was reported to Dr. Villeneuve by the nuns and he placed the matter in the hands of Chief Carpenter. The police hold the theory that Duclos escaped to the United States. At present efforts are being made to identify the men who aided him in regaining his freedom. The man's friends in the city are being closely watched.

A peculiar aspect of the case is that experts in mental diseases had almost come to the conclusion that Duclos' mind was not in the least affected. When arraigned for the shooting of Desrosiers, Duclos' counsel pleaded that his client was insane, a plea which later resulted in Duclos' confinement at Longue Pointe Asylum. A short time ago, Dr. Villeneuve, superintendent of the asylum, examined the patient carefully and found his condition normal, except for a slight nervous affection. Dr. Villeneuve at once drew up a report for the Attorney-General advising the transfer of Duclos to the gaol and the continuation of his trial. It is thought that the prisoner had some inkling of this, and arranged for his escape accordingly.

DUCLOS' WIFE IGNORANT.

Duclos' wife, who has, since her husband's arrest, lived with her mother at the Hospice of the Sisters of Providence, declared to the Star today that she knew nothing of the rescue until informed about it by the newspapers. Ever since Duclos has been confined to the asylum, his wife has paid him occasional visits. The patients in the institution are allowed a great measure of freedom, being able to receive visitors and letters with very little interference from the authorities. In this way plans for escape could have easily been arranged.

STORY OF THE CRIME.

Alexandre Duclos was arrested on March 19, charged with shooting Alphonse Desrosiers with intent to kill. Mr. Desrosiers is an insurance agent in the Commercial Union Building, Notre Dame street west. At half-past five in the afternoon Duclos entered his office and fired five shots at Desrosiers, one of which took effect in the head.

Alexandre Duclos, who has escaped from Longue Pointe Asylum.

There was every reason to believe that the crime was deliberate and premeditated. The accused had visited the office several times looking for Desrosiers, and when he found his man he fired at him point blank. In the pockets of the assailant after his arrest a dagger was found. The motive has never been satisfactorily explained but was thought to be business jealousy. After the shooting Mr. Desrosiers was taken to the Notre Dame Hospital. His life was despaired of for some time, but he has since recovered, although the sight of one eye is lost.

The trial of Duclos for the attack never went beyond the preliminary examination, when the plea of insanity was put in. It is probable that if the man is caught this time he will come to trial in the ordinary way.

SHOE NEWS OF TO-DAY

Leather Higher—Prices Lower—How's that? The cut prices at which we offer our entire stock at this great sale are in the majority, even lower than those of our July Clearance Sale of last year. WHY! LEATHER IS HIGHER; SHOES COST MORE TO MAKE THAN LAST YEAR. During the year we have added many economical features in the making of our Shoes while at the same time greatly improving the quality in many ways. We made more shoes this past season than any previous in our history. WE BOUGHT HEAVIER, CONSEQUENTLY CLOSER, CHEAPER—and in these two methods we saved the increase in the price of leather and at our low margin of profit undersell at regular prices any other shoes of equal high grade. WHAT, THEN, ARE THESE OUR USUAL PRICES (LOWER THAN ANY OTHER "LOWEST") CUT FROM 20% TO 30%?

A GREAT PIANO.

The .. Gerhard Heintzman

At the last three International Exhibitions, namely, at Tokio, Japan; Buffalo and St. Louis, U.S.A., the committee appointed by the Dominion Government to select a piano to represent Canada, chose a GERHARD HEINTZMAN.

When the citizens of Quebec wanted to present Lady Laurier with a piano they chose a GERHARD HEINTZMAN.

Lately, when the C.P.R. wanted a grand piano in special architecture, for their new $1,500,000.00 hotel at Winnipeg, a GERHARD HEINTZMAN was chosen, this being the sixth of this make that the company has selected for their hotels.

The above, with a great many other noted occasions too numerous to mention, when GERHARD HEINTZMAN pianos were selected, as well as the selection for their use on the public platform, without bonus or fee, of some of the world's greatest artists, such as Pugno, Gadski, Nordica, Sembrich, Campanari, Marie Hall, etc., etc., bears out the statement that the GERHARD HEINTZMAN is the great piano of Canada and the most popular in every way.

J. W. Shaw & Co., 370 West St. Catherine Street, are the sole agents for GERHARD HEINTZman in Montreal and vicinity, and they have now on view at their warerooms a choice assortment of the new art styles by this renowned maker. Old pianos of any make taken in part payment.
