Ambassador Norman Plunges To Death From Cairo Building

CAIRO — (P) — Herbert Norman, Canadian ambassador to Egypt, plunged to his death today from the seventh floor of a building near the Canadian Embassy. Egyptian police said his death was suicide and an embassy statement said he had been distressed by accusations of former Communist tendencies levelled by a U.S. Senate sub-committee.

The embassy said the 48-year-old career diplomat had apparently taken his own life because of the "recent unpleasant publicity and accusations."

The ambassador left a note addressed to his wife which said he died "without hope"—despite the fact that the Senate sub-committee's allegations that he was a former Communist had been repudiated by the U.S. state department and despite a vigorous defence of his record by External Affairs Minister Pearson in Parliament at Ottawa.

The note, hastily scrawled on embassy paper, was found in the pocket of his light grey suit. With it was a note addressed to the Swedish minister, Carl Eng, apologizing for using the building in which Eng lived, to take his life. Eng was not home at the time.

A preliminary autopsy showed that Norman died instantly of head injuries. A doctor said "death was instantaneous."

Police said Norman told his driver to park his car outside the embassy while he took a walk. He then entered the Swedish building, took the elevator to the seventh floor and jumped from a window.

DEPRESSED BY SMEAR

Norman was reported by associates to have been depressed in recent days over the continuing attempts by the American sub-committee to smear him. As late as March 28 the sub-committee on internal security, ignoring protests both by Canada and its own State Department, released further testimony alleging that Norman had been linked with communism.

It released testimony by a committee counsel that the FBI had given the State Department information which confirmed the previous allegations—going back to 1951—that Norman was linked with the Reds.

The State Department, following Canada's protest over release of similar material March 14, asked the sub-committee not to release the later testimony because "it might be damaging to Canada."

Persecution — Pearson

OTTAWA — (P) — External Affairs Minister Pearson said today that Canadian Ambassador Herbert Norman died as a result of nervous collapse brought on by overwork, overstrain and "a feeling of renewed persecution."

Referring in a statement to the suicide in Cairo of the ambassador to Egypt, Mr. Pearson said Mr. Norman was deeply and understandably depressed "by the resurrection by one of two persons in Washington of certain old charges affecting his loyalty and which were disposed of years ago."

"The reasons for these renewed attacks may be obscure but the tactics used degrade only those who adopted them," Mr. Pearson said.

"The combined effect of overwork, overstrain and the feeling of renewed persecution on a sensitive mind and a not very robust body produced a nervous collapse, the tragic result of which has brought to me personally and, I am sure, to his colleagues and friends both shock and grief and a sense of great loss."

Opposition Leader Diefenbaker said in a simultaneous statement Mr. Norman's "tragic death seems to be attributable to the witchhunting proclivities of certain congressional inquisitors in Washington who, lacking logical targets, felt impelled to malign and condemn Canadian public servants as well."

Murder Charge Follows Shooting

MONTREAL — (P) — Edward Alexander Vengroff, 30, was arraigned Wednesday on a charge of murder arising out of the revolver slaying Tuesday of his estranged wife.

Preliminary hearing was set for April 11. No plea was entered.

Earlier a coroner's jury found Vengroff criminally responsible for the death of his 30-year-old wife, who died of three bullet wounds in the stomach following an altercation with her husband on busy mid-town Pine Avenue.

Eden Flying To Boston

AUCKLAND, N.Z. — (P) — Sir Anthony Eden, looking frail and tired, left by plane today for the United States and a checkup in a Boston clinic.

The former Prime Minister apparently is suffering a recurrence of his old bile duct ailment. But he told reporters at the airport that he and Lady Eden plan to return to New Zealand after their trip.

"Yes, my sweet."

"Well, don't you think it's wrong for a fish to pay for the bait he was caught with?"

Opposition Clashes With McCann Over Interference In CBC Affairs

OTTAWA — (P) — Revenue Minister McCann may get an argument from the opposition for saying his job, as minister who reports to Parliament for the CBC, includes the duty of making representations to the publicly-owned corporation on programming and budgeting matters.

CCF members indicated outside the Commons they must pursue today a line of questioning on this point started Wednesday by party whip Stanley Knowles.

Dr. McCann admitted in the Commons he has made verbal representations to top officials of the CBC, both on programming and on finances.

"If I were not making those representations I would not be carrying out the duties of that particular position as minister responsible to Parliament for the CBC," he said Wednesday.

He said he made representations on programming, either directly or as the intermediary for hundreds of Canadians who wrote in to commend or criticize programs. They were made through personal conversation with CBC Chairman A. D. Dunton, general manager J. A. Quimet and program director Charles Jennings.

Dr. McCann added that many of his representations were not done by letter "because I find it much easier to do business by talking to them direct than I do by having a long series of correspondence."

Referring to business matters, he said: "I am continually admonishing the CBC that they are too expensive; that they are employing too many people, and that I think a lot of these things ought to be cut down; that their spending program ought to be curtailed as much as possible."

Mr. Knowles questioned the propriety of Dr. McCann making such representations. The CBC

Spring Campaign Starts

OTTAWA — (P) — The federal election pot already is boiling pretty vigorously, even though the formal election campaign still is some weeks off.

Top brass of the Liberal party, including Prime Minister St. Laurent, have been stumping various parts of the country.

John Diefenbaker, Progressive Conservative Leader, busiest of all party leaders, has been on the road for a large part of the last two months — a western tour, followed by a swing through the Maritimes, then back to Manitoba, with side trips in between to political platforms in Ontario and Quebec.

Solon Low, Social Credit leader, made one trip to Alberta recently and has put in a lot of speechmaking time in Eastern Canada where his party hopes to break new ground for itself.

The only party leader left on the sidelines is M. J. Coldwell, the CCF leader, who suffered a mild heart attack Feb. 25 and expects to return to the Commons next week, likely will do most of his campaigning by television and leave the exhausting tours to lieutenants.

With election day now expected on Monday, June 10, Parliament likely will be dissolved April 12, one week before Easter Friday.

The Prime Minister plans to stay in the capital until Parliament is dissolved. So does Mr. Diefenbaker, with the exception of a date in London, Ont., Saturday.

If Mr. St. Laurent has been staying fairly close to Parliament Hill, the same can't be said for his cabinet colleagues. A number have been drumming up the Liberal cause at party nomination meetings in addition to making the kind of non-political speeches usually delivered in non-election years to various organizations.

The comings and goings of cabinet ministers will increase in tempo in the coming month. Nine have April speaking engagements and the list could grow.

External Affairs Minister Pearson and Labor Minister Gregg are at Fredericton today in Mr. Gregg's York-Sunbury riding. The Labor Minister returns to Ottawa but Mr. Pearson will be making speeches through Eastern Canada and at Winnipeg until April 27, except for a nine-day Easter break.

Mindszenty Wants To Leave-Kadar

BUDAPEST — (Reuters) — Premier Janos Kadar said Wednesday night that Josef Cardinal Mindszenty, who is being sheltered in the United States legation here, had told the Pope he wants to leave Hungary.

Kadar spoke at a press conference with Western reporters, his first since shortly after Russian troops crushed the October revolution.

Asked whether the Hungarian government would object to the cardinal leaving the country, Kadar replied "that depends."

"It is very difficult to see a way out of this situation, both for Mindszenty and those who gave him asylum."

Ottawa Introduces Marketing Legislation

OTTAWA — (P) — The government introduced legislation in the Commons Wednesday to vest provincial farm marketing boards with power to levy indirect taxes to help equalize producer earnings.

The legislation, amending the Agricultural Products Marketing Act, also empowers the boards to regulate interprovincial and export trade in their products.

The legislation was given first reading. Prime Minister St. Laurent previously said the government hopes to have the amendments approved before the current session ends.

Opposition Leader Diefenbaker has already indicated the Progressive Conservatives will support the legislation. Swift approval is anticipated by parliamentary observers.

Main aim of the legislation is to mend breaches in the legal powers of the provincial boards disclosed by the Supreme Court of Canada last January.

The amendments will allow boards to classify "such persons into groups and fix the levies or charges payable by the members of the different groups in different amounts, to use such levies or charges for the purposes of such board or agency including the creation of reserves and the payment of expenses and losses resulting from the sale or disposal of any such agricultural product and the equalization or adjustment among producers of any agricultural product of monies realized from the sale thereof during such period or periods of time as the board of agency may determine."

Bird Kills Woman

BUXWORTH, Eng. — (Reuters) — A pet cockerel Wednesday attacked and killed 50-year-old Mrs. Ethel Bowden, mother of five children. Mrs. Bowden went out to feed the chickens at her home when the bird flew at her. The bird severed a vein in her leg.

Marler States Conditions

City Delegation Told Must Pay For Site

The next move on Sherbrooke's long-awaited airport is up to city council. Transport Minister George Marler said last night.

In a telephone interview with the Sherbrooke Daily Record following his meeting yesterday with a civic delegation in Ottawa, Mr. Marler indicated that the city would have to pay the cost of acquiring land for the airfield without government help. Cost has been estimated at \$200,000.

"The Sherbrooke delegation discussed the general problem of airport operation in Canada with my officials," Mr. Marler said. "Government policy on airport operation was also discussed."

"However, the Transport Department does not attempt to tell municipalities what to do. The decision on whether to proceed with the airport now is up to Sherbrooke council."

Mr. Marler, who received the delegation after technical discussions with department officials, also said that extension of television and radio service in the Sherbrooke area was not discussed with him.

MAYOR'S STATEMENT

Mayor Armand Nadeau confirmed today that the Federal Government had stipulated the city must buy the land and transfer the ownership to the Federal Government. In return, Ottawa will lease the airport at the nominal rent of \$1. City Council will study the proposal next Monday.

Federal grants would subsidize the airport as long as it is in the red but as soon as the project became solvent the city would collect the revenue he said. The main source of revenue would be landing fees charged airline companies.

The city must build a terminal to house the ticket booths and waiting rooms, the Mayor said, but this structure could be of a temporary nature and gradually extended as traffic increased, he added.

Forger Picked The Wrong Name

BUFFALO, N.Y. — (P) — A downtown store turned in a bad check Wednesday, apparently passed by someone who takes his pen name from the telephone directory.

The cheque was signed John F. Dwyer, attorney-at-law. If the forger is caught, he will have a chance to meet John F. Dwyer. He is the county district attorney.

Chile Riots Protest Inflation

SANTIAGO, Chile (P) — Gunfire broke out again Wednesday night in this tense Chilean capital after a brief lull in the violence which has swept the city for two days.

There was no official report on the latest action, but the chatter of machine-guns could be heard in several sections. It was at first believed soldiers and police were firing to enforce the curfew imposed Tuesday night. But as the night wore on, the volume of gunfire increased and spread from one part of the city to another.

Daylight Wednesday brought a resumption of the demonstrations that have plagued Chile more than a week in protest against soaring living costs. Police and troops clashed repeatedly as mobs surged through the streets.

Reliable non-official sources estimated at least 40 persons had been killed and from 165 to 350 injured. Property damage was put at more than \$2,000,000.

The government ordered the leftist Santiago newspaper La Tercera de la Hora closed.

'No Necessity' To Connect Death And MD's Injections

LONDON — (P) — A physician who dramatized his testimony with contortions said Wednesday there is "no necessity" for linking the death of an elderly widow with heavy drug injections she had received from Dr. John Bodkin Adams.

"It is possible, yes," said Dr. John Bishop Harman, the first witness called in defence of the 58-year-old society physician.

But Dr. Harman said that in circumstances such as those surrounding the death of 81-year-old Mrs. Edith Alice Morrell, "one does not regard it as a question of explaining the cause of death."

"One knows they just die," he said. "It is very difficult to know for certain why they die."

As the defence began its case it was clear that the murder trial, which Wednesday became

UK Trims Defence Spending

LONDON — (P) — The government today announced a sharply revised defence program it hopes will save Britain about £280,000,000 in 1957-58.

Included in the cuts was a newly disclosed decision to withdraw Britain's troops from Libya and Korea. Britain is believed to have up to 5,000 men in both places.

A white paper said the government has decided to plan on the basis that there will be no further military conscription under the National Service Acts after the end of 1960.

Britain's revised defence bill for 1957-58 was estimated at £1,420,000,000. As outlined a year ago, the program would have cost about £1,700,000,000.

The government noted that the British "megaton weapon" now has been developed and will shortly be tested. British atomic bombs were already in steady production and the RAF now holds a substantial number of them.

"The free world is today mainly dependent for its protection upon the nuclear capacity of the United States," the report said.

Labor Asks H-Test Ban

LONDON. — (Reuters) — The Labor Party has asked the government to postpone for a limited period Britain's forthcoming H-bomb tests and put to other government plans for banning nuclear explosions.

Thetford Mines H. And S. Donates To Athletic Fund

THETFORD MINES — The Home and School Association held its monthly meeting in the High School Auditorium with president, W. W. Oughtred in the chair. Secretary Mrs. Ian Campbell read the minutes and the financial report was made.

The nominating committee, responsible for the 1987-88 slate of officers was presented to the meeting and accepted, this committee to include Mrs. A. Hollett, Mr. A. C. Steele, C. G. Bourne, O. H. Adams and Charles Motherwell.

Mr. S. L. Hodge, brought up the subject of the expenses incurred during the entertaining of the Quebec students after their basketball game in Thetford Mines. The amount of \$50 was voted from the Home and School funds to be paid to the High School Athletic Association Fund to cover this entertainment bill. While mentioning the refreshments, Mr. Hodge said that the school was very grateful to the Home and School Association for the work they had done in providing refreshments for school activities and thanked them in advance for their anticipated help in connection with the School's annual dance to be held in May.

Some mention was made of the topic of school uniforms but it was tabled for further discussion at the next meeting. A scholarship committee was set up to look further into the school scholarship questions, members of this committee to include S. L. Hodge, D. McCann and G. McCann.

It is understood that the three new teachers required for the school have already been secured. Although these details have not all been definitely decided upon it is understood that the three junior grades may be held outside of the Johnson School possibly in the Masonic Hall. This move seeming to be indicated by the lack of space in the High School.

Following the business meeting, program director J. G. M. Mooney showed two films, one entitled "Bermuda Holiday" and the other the "Unending Search", a film on oil.

The next Home and School meeting will be the Annual meeting and will be held on May 28th.

To Consider Public Works Measures

At a special session of the City Council this evening, three by-laws will come up for approval.

They are by-laws No. 934 and No. 935 concerning assessment of taxes for pavement, sidewalks and sewage disposal projects and a loan by-law, expected to amount to over \$1,000,000 covering a public works program.

Last Monday evening Ald. Carrier Fortin, chairman of the general administration committee, gave notice that he would present for reading the paving by-laws.

Ald. Felix Thibault, chairman of the public works committee, also notified the aldermen at the regular meeting that he would seek their approval of the loan by-law.

It is believed that the public works programs will be divided equally among the North, East and West wards.

Vienna Academy Chorus Will Give Concert Program

Vienna to the world means music, and the Vienna Academy Chorus, composed of a hand-picked group of twenty-four young men and women, under the guidance of founder-director Professor Ferdinand Grossman of the Vienna Academy of Music, and the conductorship of Guenther Theuring, symbolizes through its performance — musicianship supreme!

Appearing here on Tuesday, April 9, at the Granada Theatre under the auspices of the Community Concerts Association, this group has earned an enviable reputation throughout the European continent, in South America, the United States and Canada. Through its long list of recordings and appearances at such major musical festivals as those of Edinburgh and Salzburg, they have gained international fame.

The Chorus, now on its third transatlantic tour, presents a program that has delightful variety and color. Divided into three parts, each division is complemented by a change of costume. Part one, the great choral literature of the world, is sung in charming evening dress. Part two, typical music of Vienna by the great composers who lived there, Mozart, Brahms, Strauss, is performed in graceful baroque attire, reminiscent of the Golden Age of 19th century Vienna. The Chorus dons the colorful costumes of the Tyrolean peasants for a last group, a rousing collection of folk music and mountain yodels.

The twelve male and twelve female voices of the group were chosen by Professor Grossman from the ranks of the most talented graduates of the Vienna Academy. In his capacity as head of the Academy's choral department, Professor Grossman felt that the Academy should present the results of its training to the public.

The group was formed in 1945, and Vienna immediately took this youthful Chorus to their hearts. After several sold-out Vienna seasons, invitations came in to our Europe and Scandinavia. In 1951 the Chorus made its Edinburgh Festival debut and in 1952, it opened the Salzburg Festival. The group made its first tour of South America in 1953, and later visited the United States.

UNIQUE

The Vienna Academy Chorus is a unique organization. Each member of the group is, besides being a singer, an accomplished instrumentalist. Consequently, the accompaniment for concerts is not just a piano or organ, but specifically required instruments. If the work calls for a cello and two violins, three singers who play these instruments step out of the Chorus ranks, and the work is sung by the remaining twenty-one. This permits a great deal of variety and interest in the programs.

Their conductor, Guenther Theuring, though only twenty-five, is one of the most gifted choral directors of today. He began his musical career as a boy soprano in the famed Vienna Choir Boys, and as he grew older, his love of choral music manifested itself in conducting. He entered the Vienna Academy of Music to study arrangement and direction. In 1950, Professor Grossman appointed him Assistant Conductor of the Chorus and in March, 1955, in Italy, Theuring first led the group. Professor Grossman handed over the conductorship of the Chorus to Theuring on last year's tour.

Mr. Jenks was born in Coalcook, son of the late Dr. and Mrs. L. H. Jenks. He received his early education at the Coalcook Academy and at an Ontario School. In early life he was employed at the Belding-Cortelli Company here and for several years he had been district manager of the Investors Syndicate and the Investors Mutual. He was a Past Master of Ashlar Masonic Lodge, No. 31.

Surviving Mr. Jenks is his wife, the former Irene Buckland. His brother Archie predeceased him a few years ago.

The remains are resting at Knapp's Funeral Parlors, Baldwin Street, where family prayers will be held on Friday, April 5, at 1.30 p.m., followed by service at Sisco Memorial United Church at 2 p.m. Rev. Frank Cant officiating.

Interment will take place in Mount Forest Cemetery.

Game Warden Arthur McLeod and Clement Bouchard, inspector for Sherbrooke district, supplied the evidence.

Frenchman Made Citizen After 10 Years In Canada

By IVY HATCH
ROCK ISLAND—A man who has already contributed a great deal to the Canadian way of life in this border community last weekend became a full-fledged Canadian citizen.

French-born Jean P. Dupont came to Canada ten years ago. From that time on, Mr. Dupont says, "I have been a Canadian in heart and spirit." A naturalization ceremony at the Rock Island Town Hall last Saturday made it official.

Tri-lingual Dupont — he speaks English, French and Italian — is a prominent member of the community. When he and Mrs. Dupont first came to Rock Island, he purchased and operated the Rexall Drug Store, sold that, and bought and operated the Maples Hotel in Stanstead for 17 months. Three years ago, he purchased the Rock Island Hardware Store, and has engaged in a prosperous trade ever since.

As a public-minded Canadian, Mr. Dupont proved his worth long before official recognition came. He is a past president of the French Branch of the Chamber of Commerce, and present president of the St. Jean Baptiste Society. He is also an active member of the Rock Island Council of the Knights of Columbus.

Mr. Dupont was born in Lyon, France, and received his education there. Prior to coming to Canada, he spent two years in Italy. Shortly after arriving in this country, he met and married Miss Thibodeau of Warwick, and then came to Rock Island.

At the naturalization ceremony, the new Canadian took his oath of allegiance from J. M. Gregoire, registrar of the Superior Court of Sherbrooke, and in the presence of His Worship Alton Grady, Mayor of the Town of Rock Island.

There was extra enjoyment in the occasion for Mr. Dupont — Saturday was also his 31st birthday.

Immediately after the ceremony, he was honored with a reception and birthday party held at the Del Monty Hotel, and attended by some 40 friends of Mr. Dupont. He was presented with a Lazy-Boy chair as a birthday gift.

Among the guests were Mr. and Mrs. Maurice Bateau, and Miss Marie-Paul Bateau, of Victoriaville; Mr. and Mrs. George Arcoutte, Bromptonville; Mr. and Mrs. George Audet, J. M. Gregoire, Raymond Rodrigue, Marcel Rodrigue, all of Sherbrooke.

C. R. MacLean, who was in charge of the show for the Rotary Club of the Boundary, reported that 347 young people were present, and that they all showed their approval of the work of the 70 persons who made up the "Ice Parade."

It would be difficult to select any features of the show that was not excellent, but it was the work of some of the very young skaters that drew the greatest response from those who were present.

Race Track Fire Caused by Wiring

A short circuit at the Sherbrooke Race Track early last night caused the second small fire in as many days there.

Three fire trucks answered the call at 5:05 p.m. but a single jet of water extinguished the smoldering blaze. All three trucks returned to the station within half an hour.

Only a very limited amount of damage was caused.

CBC Recordings Made At Boundary Rotary Meeting

Morris Austin, Bob Butler and Augustin Dubee of radio station CKTS, Sherbrooke, were at the Monday evening meeting of the Rotary Club of the Boundary, where they recorded parts of the meeting as well as some interviews. The recordings will be used later for a CBC broadcast of the program "Assignment."

The meeting was held at the Del Monty Hotel, and president Ernest Sutton presided.

The visitors explained that the portion of "Assignment" dealing with the Boundary would probably only last about eight minutes, and that they would tape-record sufficient material to cover that period.

The singing of "God Save the Queen" and "God Bless America," with which each meeting of the local club begins, were recorded. The following persons were briefly interviewed at the meeting: G. Earl Heath, J. A. Grady and Lawrence Tilton.

Following the meeting, the three radio men went to the Haskell Library and Opera House with E. J. Struthers, where further recordings were made.

Visiting Rotarians present at the meeting were George Benware, Jr., and George Orthey of Newport. John Tilton was present as a guest of his brother, Lawrence Tilton.

The representatives of CKTS were introduced by Rene Monty, and the thanks of the club expressed by Beverly Haselton.

Y's Men's Club To Hold Annual Life Saver Days

The Sherbrooke Y's Men's Club will hold its Annual Life Saver Days in Sherbrooke and Lennoxville on Friday and Saturday of this week, April 5th and 6th.

The primary object of Life Saver Days is to reduce the deficit incurred in the maintenance of the Y's Men's Boys' Camp at Shore Acres on Little Lake Magog. Approximately 175 boy-weeks are spent at this camp each summer. It is made possible through public support of Y's Men's projects, such as Life Saver Days.

Again this year, the Y's Men ask the public to buy Life Savers from their taggers to help send a boy to Camp.

Sombre Outlook For Textiles

The special study of the Canadian textile industry prepared by the National Industrial Conference Board for the Gordon Commission on Canada's economic prospects paints a somber picture indeed.

While the market for textiles may be doubled within the next quarter century, the board reports, the Canadian share of that market may shrink because of competition from the United States, Britain and Japan. That is not a cheerful picture and the board offers little encouragement when it observes that while Canada has one of the lowest textile tariffs in the world it had no reason to doubt that this policy was "substantially correct."

The board found a degree of pessimism in the industry itself regarding its ability to increase, let alone hold, its share of the market. Similar comment came from outside the in-

dustry and representatives of the American textile industry criticized the Canadians for poor styling, inadequate distribution systems and lack of effective sales promotion. The Americans also stated quite bluntly that American producers and designers dominated the Canadian market anyway.

It is a matter for technical experts to decide whether these charges are valid. However, as the board's report states, the textile industry is the 12th largest in Canada in terms of factory shipments. It employs four per cent. of our manufacturing labor force. It is valued at around half a billion dollars.

Quite apart from the huge investment Canada now has in the industry, it is essential that those within the industry, labor and management, strive for constant improvement in techniques and selling and product to keep it healthy.

Slow Revolution In Europe

Without fanfare, six West European countries have taken another step in establishing both a common market and an atomic energy pool. The countries are France, Italy, West Germany, Belgium, the Netherlands and Luxembourg.

Representatives of the nations have signed the treaties and they now need only parliamentary ratification to take effect. The agreements mean that about 160,000,000 Europeans are willing to erase their national economic boundaries. If Britain, the Scandinavian countries and Austria join by way of a free trade zone — as there are indications they will — the united consuming and producing capacity of Europe is expected to enable its people to equal the standard

of living of North America and to face the economic potential of the Soviet Union with confidence.

No miracles should be expected at once, however. It will not be a simple matter of blasting trade barriers and watching goods and services flow and mingle in the common pool. The hard crust of habit and attitude must be broken too. All kinds of complex trade relations must be worked out to avoid costly and unpopular wrenching of national economies.

Some experts predict that 12 to 17 years may pass before these major adjustments are completed. Yet that is not a long time for such a revolutionary change. Slow and sure progress will ensure the success of the project.

Industrialist's Plea For Universities

The head of one of Canada's major oil firms has called attention to one of the critical problems facing both industry and universities in this country.

Speaking this week on the shortage of technical manpower, W. Harold Rea, president of Canadian Oil Companies, Ltd., said that industry must stop raiding universities if the shortage is to be overcome. Mr. Rea pointed out that the universities are unable to obtain all the top teaching talent they need to turn out qualified personnel the expanding Canadian economy requires. Industry, therefore, should exercise restraint in what Mr. Rea describes as "thoughtless raiding" of teaching personnel.

Mr. Rea also suggests that industry can help universities by generous support of their campaigns for expansion funds, by backing responsible pleas for higher teaching salaries and

by fostering the dignity of the teaching profession so that it becomes more attractive to young graduates.

Contrasting our system to that of the Soviet Union, where he visited recently, Mr. Rea says that every Russian child is educated to the limit of his ability. In Canada, the economic status of the child's family is often a barrier to education.

Mr. Rea's plea should receive the support of his fellow industrialists and it will certainly be welcomed by the universities. A prominent Canadian scientist remarked recently that research work was being hampered by the drain of young graduates from universities to industry. He also commented that most industries are not supporting in return the universities on which they rely for personnel. It may be added that if private support is not forthcoming, government support will be the answer.

Modern Antarctica

All The Comforts At 79 Below

By JIM TOMLINSON

NEW YORK.—(AP)—Imagine having all the comforts you now enjoy—except television and the telephone.

In that case, you're in Antarctica. And you can't count too much on the phone not ringing.

American scientists and navy construction workers are dug in now at seven outposts in the south end of the world. Six are science stations built for observations during the International Geophysical Year that starts July 1. The seventh is an air base.

Eighteen men are encamped at the South Pole station. Others are hundreds of miles away at Little America V, Marie Byrd Land, Weddell Sea, Knox Coast, Cape Hallett and McMurdo Sound.

Great deserts of snow and towering sharp-toothed mountains separate the outposts.

The winter night is closing in. Temperatures are sinking

toward the bottom of the thermometer. Already it has hit 79 below zero, is expected to get to 110 or more below before the winter is over.

Winter below the equator, of course, comes at the same time as summer in the northern hemisphere.

Blizzards borne on stinging wind whip the camps. But the men are warm and cozy in aluminum and glass houses.

Their living quarters are box-like structures with insulated walls like those in a household refrigerator. The windowless buildings are reverse refrigerators designed to keep heat in and cold out.

Prefabricated wall panels are four inches thick. They are made of layers of plywood, spun glass and sheet aluminum. The ceilings hold ventilators.

Oil or electric stoves heat the buildings. Snow-buried tunnels framed with wood and covered with chicken wire and burlap connect the orange-painted buildings.

When the men crawl up through hatches to the snow surface, they wear light insulated clothing of wool and synthetic fibres. It is warmer and more durable than the bulky sealskin or reindeer hide garments of earlier polar explorers. Parka hoods are still fringed with fur, however.

Men work up big appetites in the bitter Antarctic cold. Meals are huge. Steak is on the menu three times a week. There is enough beer for a 24-can case per man per week.

Ice cream is the most popular dish. Fresh milk, eggs, fruit and vegetables are craved the most.

They have hot and cold running water, showers, electric washing machines and driers, oil stoves, electric lights, inner-spring mattresses, and recreational gear ranging from popcorn poppers and boxing gloves to hi-fi phonographs and opera records.

MAGDALEN ISLANDS

(Cape Breton Post)

The idea of Quebec province being visible from Cape Breton island seems fantastic until one is told that in clear weather the Magdalen islands have been seen from high points of the Cabot Trail overlooking the Gulf of St. Lawrence. The Magdalen islands belong to Quebec.

This hook-shaped chain of islands is now blockaded by ice.

Since the 7th of January when a coastal vessel left after unloading a cargo of gasoline, all vital supplies have been flown to the Magdalen from Charlottetown, 85 miles southwest. Fruits and vegetables form the bulk of the airlift cargo.

SO MANY UNINFORMED

(Fort William Times-Journal)
Nearly 60 per cent of the world's people do not possess the press, radio and film equipment which would enable them to be fully informed of events at home and abroad, according to a United Nations report on 'Media of Information in Under-Developed Countries.'

A portion of that 60 per cent are Americans living in some central states, where newspapers, radio and television confine news budgets almost entirely to local events and 'situation'. Not enough world news is presented to enable readers and listeners to follow international situations intelligently.

Dominion Day Holiday

(Ottawa Journal)

From the St. Catharines and District Chamber of Commerce comes a resolution protesting against any change in the observance of Dominion Day July 1 to the first July Monday.

Such a change would require an act of Parliament, and we hear of no activity in that direction. The suggestion has been made unofficially many times, however, that Dominion Day should be fixed to come always on a Monday.

The Journal agrees with the Chamber of Commerce that such a step would be a mistake. Dominion Day is a national holiday, the celebration of Confederation itself, and it should retain its unmistakable identity. Few objected when Parliament moved Victoria Day from May 24 to the nearest Monday, but Dominion Day is something different.

Leisure, and long week-ends, are things we have a good deal of nowadays. Let us keep Dominion Day on July 1.

NO CHARACTER

(Winnipeg Tribune)
The well-dressed man today wears a hat which is not created or denied, reminding us of a new car before the fenders are baptized—very nice, but no character.

LOGICAL END

(Ft. William Times Journal)

"The logical end result of this social gospel is that the state, to prevent envy, should arrange that nobody has a better house, overcoat or dinner than anybody else." The statement was made by Mr. J. B. McGeachy in a recent article about the swift growth of the welfare state in Canada.

Socialists—and many who would abhor that label—will argue that everyone has a "right" to a good house, complete health services, a comfortable old age, higher education and so on. It is difficult to know where this list of "rights" should stop. Why not extend the list to cars, refrigerators, television sets, overcoats and dinners?

Jacoby On Bridge

CONVENTION IS OFTEN MISUSED

Most bridge players play the Blackwood convention as if the partner of the four no-trump bidder is supposed to become a sort of ventriloquist's dummy and simply show his aces and kings on demand.

In expert bridge this is not the case. Any time the four no-trump bidder follows with five no-trump his partner is privileged to go on to seven if he possesses solidity of suit that his partner cannot know about.

The following hand bid by Martha Hammond and Sue Camp at last year's Wichita Falls tournament illustrates this.

When Mrs. Camp sitting North bid four no-trump she planned to go to six spades if Mrs. Hammond showed her one ace. When Mrs. Hammond showed both missing aces she bid five no-trump with no intention of going on to seven herself but merely to give her partner a chance to go to seven if she held very good trumps.

Mrs. Hammond did hold very good trumps and leaped right to seven spades over her partner's five no-trump.

The grand slam required careful handling since all four trumps turned up in the West hand. Mrs. Hammond won the opening heart lead and trumped a second heart with dummy's seven. She returned to her hand with a low spade and got the bad news about the trumps. Now she could not afford to ruff out the last heart. A club was played to the ace and a club trumped. A spade was played to the ace and another club trumped.

Amateur Show At Sunnyside School

ROCK ISLAND — As a means of making money for the Grace Libby Memorial Library of Sunnyside School, students of the school presented an amateur show on Friday afternoon. This was a project of Grade VI.

All the students of Grade 1 through IX and a few guests assembled in the school auditorium. Admission for the first four grade students was .05 and for the remaining students .10. Approximately \$20 was realized and

added to the fund, which will be spent on new reading books for the library.

Mr. Leggett, teacher of Grade VI, who has a vast knowledge of music, acted as master of ceremonies.

The program opened with Miss Jacqueline Keeley playing on the mandolin "When My Blue Moon Turns to Gold," accompanied by her brothers Larry at the piano and Lanny the drums.

Costly Fish Fry

TATEYAMA, Japan — (AP) — The biggest "fish fry" in Japanese history Wednesday stranded more than 100 tuna boats. Fire destroyed more than \$80,000 worth of sardines which were to be used for bait.

"The Turtle," Misses Christina Curtis and Sharon Yetter sang a duet, "Little Liza Jane," accompanied by Mrs. Ashley Scarth at the piano.

Another duet "Down by the Riverside" was given by Misses Anna Lemon and Mary Lou Lyons, with Anna playing the piano as well.

A short play, "Betty's Party," was cute, being presented by Heather Johnston, Maureen Smith, Bonnie Stuart, with Wendy Cass portraying the mother, and Sharon Armstrong as Betty.

Door prize tickets were drawn and won by Miss Penny Carbonneau and Bert Treval. A grand prize was won by Robert Chamberlain.

With Mrs. Scarth at the piano, Miss Linda Pellerin sweetly sang "God Sees the Little Sparrow," Glen Callaway sang the solo, "Love Me Tender," accompanied at the piano by Miss Anna Lemon.

Bob Denis and Rodney Lloyd each played their guitars and Bob sang "Butterfly" and later, while the judges were making their decisions, rendered "Marianne."

Wearing their new Easter bonnets, Misses Mary Osborne and Shirley Wallace sang "Easter Parade." To the tune of "Hot Diggety," Miss Joyce Goodsell presented a graceful tap dance number.

Miss Anna Lemon sang the solo "Blackboards of My Heart," accompanied at the piano by Miss Mary Lou Lyons.

The judges found it difficult to make a decision, as all numbers were very good for amateurs, but finally chose to award Misses Mary Osborne and Shirley Wallace with first prize, Rodney Lloyd, Bob Denis and Joyce Goodsell with second prize, Jacqueline, Larry and Lanny Keeley with third prize.

The students applauded each number and hope another show will be given again in the future. ELIZABETH HATCH and EDNA WOOD Grade VIII.

Fireman To Engineer In 2 To 4 Days

OTTAWA — (AP) — Passenger train firemen could become qualified to operate a diesel yard locomotive in two to four days, a CPR witness Wednesday said to the Royal Commission inquiring into the CPR diesel issue.

George Russell of Medicine Hat, Alta., assistant divisional superintendent there, also said that after two or three months' yard experience the same firemen could qualify for freight service in five or six trips with a road foreman accompanying him.

This evidence evidently was designed to counter suggestions that CPR proposals for reducing the number of firemen on its diesel locomotives would dry up the supply of prospective engineers.

The company wants to eliminate firemen from yard and freight diesels. They would be retained on passenger trains. The plan is being opposed by the Brotherhood of Locomotive Firemen and Enginemen (CLC).

our friendly relations with Canada.

The Canadian protest had come after External Affairs Minister Pearson defended Norman in the House of Commons March 15, the day after the first sub-committee release of this current period. Pearson referred to the sub-committee's "slanders and unsupported insinuations" against the Canadian diplomat, and dismissed them as old allegations which had long before been investigated and disproved.

FIRST IN 1951
Norman's name first came up in the Senate sub-committee in 1951 when the group, then headed by the late senator Patrick McCarran (Dem. Nev.), was investigating the Institute of Pacific Relations.

The Canadian government protested to the U.S. then and expressed surprise that Norman's name had been "dragged" into the hearings.

Canada's External Affairs Department declared Norman had been cleared of all Communist suspicion by a double security check, and Pearson said the U.S. government had been told Norman was a "highly respected and trusted senior official."

Following the latest Canadian protest, the State Department had said allegations in the hearing transcript "do not represent opinions of the United States government."

The sub-committee made public testimony taken at closed hearings March 12 and March 21. Both hearings included testimony from John J. Emmerson, counsellor of the U.S. Embassy at Beirut, Lebanon, that he had known Norman since 1949 and never had any reason to think the Canadian was a Communist.

However, sub-committee counsel Robert Morris declared at the March 12 hearing that a security report of a U.S. government agency indicated that Norman had been identified in 1940 as a Communist, and that there was other "information to the effect that he is a Communist."

A full report of the Ottawa meeting will be read to the City Council next Monday evening. When enough information has been received, the aldermen will discuss the project and decide whether to call a referendum.

It was learned Mr. Marler indicated that if Sherbrooke was reticent in approving the program other communities were not.

WINDSOR AIRPORT

The St. Francis airport at Windsor Mills was ruled out by aeronautical experts in Ottawa for the following reasons:

1. Trans Canada Airlines will not undertake to operate on runways that are not at least 5,000 feet long.

2. The St. Francis airport cannot be extended at a cost less than the construction of a new airfield.

3. The surrounding terrain at Windsor Mills has serious drawbacks to air transportation.

AIRPORT SITE

Sherbrooke's airport would cover an estimated 2,300 acres. It would be 8½ miles from Sherbrooke, near Route No. 1 on the Quebec City highway through East Angus and Thetford Mines.

It would be built at a site in the centre of a triangle comprising Ascot, East Angus and Cookshire.

Boycott Suez Says Senator

OTTAWA — (AP) — Senator David Croll Wednesday called for a western boycott of the Suez Canal.

The Senate's only Jewish member also said in the Upper House that the time for a showdown with President Nasser of Egypt is long overdue.

Senator Croll said the great error of the West in the Israeli-Arab dispute was that Nasser was treated as an innocent victim of aggression. But the world now knew Egypt was the aggressor.

BRIGHAM — Mrs. Leslie Shore spent a few days with her brother-in-law and sister, Mr. and Mrs. Clark Powers, while en route to her home in Kenogami, after a visit in Washington, D.C.

Fordyce L. A. Entertained By Mrs. E. Dryden

FORDYCE — The March meeting of Fordyce Ladies' Aid was held at the home of Mrs. E. Dryden, with Mrs. Stevenson presiding. A letter of thanks was read from Mr. and Mrs. Frank Tabin, of Glenavon, Sask., for a wedding gift sent to them by the L.A. Sunshine convener reported sending cards to sick and bereaved. It was decided that each member pay 25 cents at each meeting when roll-call is read; if absent, the money is to be paid at next meeting.

The theme of the worship service was "Faith". Mrs. Bowling read the scriptures and Mrs. Lewis read the W.A. service. Roll-call was answered by a Bible verse on "Faith". All joined in singing "Faith Of Our Fathers".

Miss G. Jones had a splendid program on C.A.C. An article on "What the C.A.C. Is" was read, and other interesting facts from the C.A.C. Monthly Bulletin were given, especially interesting was the one on the high cost of sugar. A contest on jumbled words used in dress-making was enjoyed.

Several remnants were sold, and more aprons are to be made. The program for April is to be on Christian Citizenship, and the roll-call will be "Name your first Sunday school teacher".

At the close of the meeting lunch was served by the hostess, and a social period enjoyed.

In appreciation of her efforts on behalf of the organization.

MRS. RICHARD CROTTY, in a crisp off-the-shoulder frock of polished cotton, trimmed with an apple-green back bow and streamers and MRS. BERT PAQUET wearing a black linen sheath with matching bolero jacket and white collar display two of the models shown last night at the "My Fair Lady" fashion show, held in the Cavalier Room of the Hotel Wellington under the auspices of the Admiral Sir Dudley Pound Chapter, I.O.D.E.

Clothes For All Occasions

Capacity Crowd Sees "My Fair Lady" Show

An outstanding array of spring and summer fashions was presented last night before a capacity audience in the Cavalier Room of the Hotel Wellington, by the Admiral Sir Dudley Pound Chapter of the I.O.D.E.

Against a spring-like background of seasonal flowers, and to the soft accompaniment of Jack Lenaghan at the piano, the models displayed what "My Fair Lady" is likely to choose for her new wardrobe. Miss Ruth Elkan acted as the commentator.

Dresses, ensembles, suits, raincoats, even slacks and sweaters were shown by Miss Mitchell Reg'd, giving a complete picture of what the fashion wise lady will wear this season. If any one color range was favored it was the browns and beiges, but there was a wide variety including navy, grey, black, yellow, turquoise, raspberry, blue, various shades of green and prints in gay and bold designs.

The sheath styles were well represented, some being worn with toning bolero jackets or duster coats, others alone. Among the eye-catching models were a black sheath with bateau neckline and polka dot trim, a white linen with shaded turquoise embroidery design, and a luggage tan linen original. A beige linen with Chinese silk squares appliqued

down one side topped with a matching silk lined cape, having a low gathered back with ties fastening in front, was especially popular. A princess style model in crushed raspberry linen with white trim was also noteworthy.

The season's new shirtwaist style was displayed in an aqua broadcloth with matching detail on the long sleeves and down the back, in a candy striped cotton and in a bright yellow glazed cotton.

Tweed, plaid and fannel suits in both box jacket and fitted styles were modelled, one pepper and salt tailored model featuring an added short cape. Raincoats were an interesting addition to this show, the three shown being both practical and attractive.

Polished cotton in colorful prints was used for a number of frocks suitable for late afternoon wear. A simple little model in black and white striped organza was pretty and demure. But the highlight was undoubtedly the last creation shown, a Grace Kelly model in eggshell pure silk organza with pastel colored flowers. The three-quarter sleeve, full skirted frock featured a high tailored neckline and a cummerbund of matching material.

The hats which completed each costume were perfect accompaniments, chosen either to harmonize with the outfit or to act as a contrast. Both large and small models were shown in various styles, silver, soufflé, Milan, Panama and in summer felt. They were all models exclusive to Mrs. Eva Renihan.

Fur stoles provided by A. Mar-

tin and Co. Ltd., were a luxurious complement to a few of the ensembles. Jewellery was supplied by Skinner-Nadeau Reg'd, handbags by J. N. Boisvert & Sons, and the Helena Rubenstein make-up was given by Bud-nings' Drug Store.

The models taking part included: Miss Roberta Begbie, Mrs. Richard Crotty, Miss Evelyn Komery, Miss Monique Leger, Mrs. Stella Mayhew, Mrs. Bert Paquet, Mrs. E. B. Sims, Mrs. Norman Stafford and Mrs. John Turnbull.

A number of door prizes given by local merchants were distributed.

Bringing Up Baby

HINTS COLLECTED BY Mrs. Ben Barker (MOTHER OF 5)

Games for two— between baby and you — are not only fun but play an important part in helping baby to learn the three big C's — coordination, cooperation and concentration. Anyone for peek-a-boo or patty-cake?

Hand-y idea. Easy way to determine which hand your baby is going to be handiest with: offer objects at his middle-most point. Natural grasping instinct will soon show which hand wants to take the lead.

Meal-y idea. Best "growing tools" for the baby who's growing by leaps and pounds are meat proteins — because they encourage growth and aid in the development of all body structures. Excellent source of high quality proteins: Gerber Strained Meats! Made from selected juicy cuts, they're specially processed to remove most of the fat and coarse tissue — and to preserve the utmost

in vitamin and mineral values. All are pure meat with just enough broth to brighten the flavor and enhance the texture.

Seating arrangement. Sit-up babies like a change of scene so why not treat your wee one to a special seating arrangement occasionally. In the living room, say, while you're doing pick-up chores — or just visiting with daddy. A car-seat, attached to chair or davenport, is fun for a change — or even a stroller is fine. Hard to beat "family circle" doings.

For the likes of tykes — a lunch or supper suggestion that's high in appetite appeal.

MONTREAL, April 4th—I've just written a book for the CANADIAN INSTITUTE OF PLUMBING & HEATING—and I wish you'd write for your copy—FREE! I know you'll find it helpful—for it's packed with illustrated ideas for modernizing your home. I was amazed to find how economical it is to bring the modern comforts of life into older homes. Think what it would mean to have a second bath-room... or a more modern heating system... usually for less than you thought possible. If you wish, you can do it with a Home Improvement Loan from your bank. Do write for your FREE COPY of "Rooms I'd Like to Live With", to CIPH, Dept. 10, 630 Dorchester West, Montreal.

DO YOU KNOW HOW TO MAKE some of your nicest dreams come true? ... There's no mystery attached to getting what you want when money can buy it... All that's required is a little planning and perseverance on your part... and it really pays off! For one thing, your surest step to success can be a BANK OF MONTREAL "special purpose" saving account. Decide what you want to achieve... a down-payment on a house, a new coat, a new carpet, a trip to California perhaps... then save towards that goal by making regular deposits in your "special purpose" account. Don't try to do it too quickly. But do try to set aside the sum each payday that will put you a step at the B of M today? You'll find it can be your passport to better living.

LOVELY TO LOOK AT—A DELIGHT TO THE TASTE! I'm describing the ten sun-ripened fruit flavors of LUSHUS JELLIES. There's a world of difference in the fresh-fruit taste of these delicious jellies... each one a pleasure to serve. The makers of Lushus have greatly increased the flavor content of their exclusive flavor "bud" so that now, as you dissolve the "bud" you bring the full fresh quality of the fruits to your jelly. You'll feel there's nothing like Lushus! I like to keep several moulds of Lushus always ready in the 'fridge... for unexpected raids by the family. Why not lay in a supply of all ten flavors? Come on... let's!

SWEET, SWEET APRIL! Don't you want to get out-of-doors all you can, as the sun warms and the garden calls for attention? Then save work by keeping your shelves well stocked with Royal Instant Puddings. Because each Royal Instant Pudding is now super-homogenized... they're smooth and creamy to a queen's taste! Never a film on top. Never a lump. Never a smidgen of that starchy taste! ROYAL INSTANT PUDDINGS are created in seven lively flavors—each one a triumph. You can use them for quick-as-quick puddings—or as pie fillings that will make your family happy as bob-o-links on a. April morn!

I HOPE... YOU HAVE THE DELIGHT of owning a gay-hearted show-off of a Budgie! Our Sir Isaac goes into his bag-o-tricks whenever he can get our attention... climbing his rope ladder and calling to us to notice how smart he is. And we're keeping him in perfect health by feeding him BROCK'S BUDGIE CUTTLE BONE, one of the "Basic Five" of Brock's Natural Feeding Diet.

ARE THERE TELL-TALE BULGES under your new spring suit? Then turn to AYDS Vitamin and Mineral Reducing Plan for an easy, natural way to bring back sleekness to your pretty figure! Medical tests have proved the advantage of Ayds over other reducing products. Taken before meals, as directed, Ayds curb your appetite. You just naturally eat less—and, oh joy!—the pounds just naturally melt away. And this happens with none of the usual difficulties of a reducing diet—no nervousness, no sleeplessness or other "side-effects". I recommend Ayds to you heartily—do try them. At all drug counters.

FOR THOSE LOVELY MOMENTS OF THE DAY—the morning cup of coffee when all the family is off to school and work... the mid-morning "pick-up"... the cosy evening cup around the TV set... there's nothing nicer than a cup of INSTANT CHASE & SANBORN. You can have it just as quickly as you wish—stimulating, flavorful, relaxing! Look through the window in the Instant Chase & Sanborn jar and see for yourself, the rich coffee color that means real coffee flavor. You get the full-bodied richness of 100% real coffee in Instant Chase & Sanborn... with nearly 100 years coffee experience back of its perfection. Do get yours, today!

Blake Plans No Changes Tonight; Red Wings Face Herculean Task

Canadiens' Pilot Feels Much Better As He Sends His Team Into Fifth Game Of Stanley Cup Semi-finals

MONTREAL — (CP) — Coach Toe Blake sends his Montreal Canadiens into the fifth game of their Stanley Cup semi-final to-night admittedly "feeling a lot better" but still touchy at any suggestion that his club is a shoo-in.

For the New York Rangers it's win or pack up for the summer. Down 3-1 in the best-of-seven series, the Rangers will have to come up with something even more effective than their highly creditable performance Tuesday.

Their chance to tie the series in that game was shot when their defence wobbled momentarily and Canadiens rammed in three fast goals to win 3-1.

"Why do people think that all we have to do to win is go through the motions?" asked Blake, fidgeting about. "If the Rangers play the same style of defence they showed Tuesday you can't tell what will happen."

Blake said he planned no changes for tonight's game. Defenceman Dollard St. Laurent, who developed a fever and missed the last two games, has been released from hospital. He may be dressed for tonight's game but it's questionable whether he will be used much or at all.

"It will be nice to have our five defencemen again, but I thought Bob Turner played a fine game Tuesday," said Blake.

Blake said he still hasn't made up his mind whether to return Andre Pronovost and Claude Provost to their wing jobs with centre Phil Goyette. Both were benched midway of Tuesday's game and Flynd Curry and Don Marshall, specialists at defensive

play, took over for regular turns on offence.

Pronovost is "still nervous about playing in his first series" game and Floyd Curry and Don and Provost "had trouble handling the puck," said the coach. General manager Muzz Patrick of the Rangers thought his players "pressured themselves" in Tuesday's game and thereby fell into mistakes.

Coach Phil Watson said his players "gave the puck away and we beat ourselves." He could see the defeat in the making, although his team was leading 1-0, after five minutes of the third period. "We were passing right on Canadiens' sticks."

Despite Tuesday's loss, Watson found some encouragement from his team's work compared with their Saturday performance when they were walloped 8-3.

"At least I walked down the street with my head up in the air."

The above photo shows the East Angus Midgets champions of the Sherbrooke District and the Eastern Townships. The team is coached by Jim Fearnley, who played with the Brompton-East Angus Flyers in the Massawippi Valley Hockey League. The team went through the season without a defeat in league competition. In an exhibition series with Stanstead All-Stars they suffered their only setback of the year.

In the front row, left to right, Y. Champigny, H. Therrien, Y. Maltais, captain, L. Sevigny and G. Grailion. Second row, same order, coach Jim Fearnley, C. Sevigny, M. Laplante, "Pit" Descoteaux, stick-boy, R. Descoteaux, G. Gendreau and Brother Luc, manager of the club. In the rear, left to right, Y. Gendreau, Y. Lamoureux, R. Veilleux and J. Paquin.

Jack Adams Still Hunting For A Break In Battle With Bruins: Must Take Three Straight To Oust Boston

DETROIT — (AP) — Detroit Red Wings, sapped of nearly everything except their confidence, face Boston Bruins tonight in a last-ditch battle to stay in Stanley Cup contention.

"We're bound to get a break sooner or later," said general manager Jack Adams. "I don't even give 'em hell after they lost to that Boston team the other night. I really felt sorry for them. Our boys played well, just as they have since that first game."

Adams, never hesitant to criticize his players publicly and privately, insists the Red Wings have played as good a brand of hockey as they did in winning the National Hockey League title.

"The puck just isn't bouncing for us," he said. "We played poorly in the opener when they beat us 3-1, but we've skated well ever since. I still think we can win tonight and go on and take three straight."

The Bruins have won two straight and hold a 3-1 edge in the best-of-seven series.

But the "we ain't dead yet" spirit carries right down to the players and the training room men.

"I never saw this team any madder than after they lost that

lost one in Boston," said Red Wing aide Lefty Wilson. "It wasn't at all like a letdown or a down-in-the-dumps thing. They seem more determined now than when this series started."

The club realizes, though, that sweeping the next three games is something that only one other club in Stanley Cup history has been able to do. Toronto Maple Leafs of 1942 lost the first three games of the final to Detroit, then came back to score a smashing upset, taking the next four games to win the cup.

"All we need is a break," said Adams. "If we can get one to night, we could win the whole thing. It doesn't matter what the odds are — give us a break and we'll be in those finals."

Dodgers And Braves Open Homeward Bound Tour With 2-2 Tie; Big Newk Looks Good; White Sox Tops Yanks

What likely will be the best two-team fight for the National League pennant is currently holding one-day stands on "the pneumonia circuit."

That's the name given by Brooklyn Dodgers president Walter O'Malley to the northward route being followed by the champion Bums and the "we'll do it this time" Milwaukee Braves as they wind their way home to start the season.

They looked as if they were playing for keeps in Jacksonville, Fla., Wednesday, wrestling through 10 innings to a 2-2 tie.

Don Newcombe pitched for the Dodgers and was tagged for seven hits in his six frames — one a second-inning, and first-of-the-season home run by Bobby Thomson, and another a fourth-inning home run by Johnny Logan, who was 6-for-four.

Newk squared it 1-1 with a third-inning home run. Ray Crone went nine innings for Milwaukee and offered four hits before giving way to Corky Valentine's hitless 10th.

In other games, Detroit Tigers scored three in the 10th to beat St. Louis Cardinals 8-5; a two-

run home by rookie Jim Landis brought Chicago White Sox an 8-4 decision over New York Yankees, and Washington Senators used Cincinnati's prime weapon, the home run, to beat the Red-legs 4-3.

Philadelphia clipped Boston Red Sox 3-1 on a three-run double by winning pitcher Harvey Haddix. Cleveland pushed across nine runs in the seventh to whack New York Giants 13-6. Pittsburgh finally scored against Kansas City, beating the Athletics 2-0. And Chicago Cubs beat Baltimore 7-2. Gene Baker hitting his fourth homer in four days for the winners.

Southpaw Jim Davis' knuckleball gave catcher Hobie Landrith all sorts of trouble, permitting the Tigers to score the tying run in the ninth on a passed ball. Another weird one got away in the winning 10th, opened by Earl Torgeson's triple. Stan Musial homered and singled for the Cards for a .469 spring average.

The White Sox broke Tom Sturdivant's string at 21 scoreless innings in the first frame, then wrapped up the Yanks with four in the third, capped by Landis' two-run blast.

Ted Williams Is A Complex Fellow But He's Never Dull; His Latest Blast Puts Him In Middle Season Form

By WHITNEY MARTIN
NEW YORK — (P) — A few days ago a newspaper headline read: Williams Ready for Start of Season. It was an understatement.

Ted Williams isn't just ready for the start of the season; He's in midseason form, physically, mentally, emotionally and loquaciously.

A verbal blast, aimed at the government, the U.S. Marine Corps, the late Senator Robert A. Taft and "phony politicians," possibly can be traced to his smoldering resentment over being called back for a second hitch as a marine pilot at the age of 33, and personally he believe he has a right to be resentful over that.

But we think Joe Cronin, the level-headed vice-president and general manager of Boston Red Sox, had the right perspective on

the situation when he remarked that it was "just one marine talking to another marine."

Any soldier, or sailor, or marine will know how that is. They air their gripes to one another, but just let an outsider start to put the rap on their particular branch of the service, and look out!

The big guy had the grace to apologize for his remarks concerning the Marine Corps, but we believe the rank and file of the corps knew he wasn't talking about them. He was blasting the brass, much as an employee of a business concern might refer to the boss as an old meathead, with no disloyalty to the firm intended.

Had practically any ball player except Ted Williams made the remarks they would have been laughed off, and never would have reached print.

"We are sorry Ted made the remarks. We like the big fellow, knowing the kinder side of his nature, and hate to see him embroiled in another controversy. He can't be called diplomatic exactly. He is blunt and expresses his opinions honestly."

Anyway, it seems that a season wouldn't be complete without Ted breaking into the news with actions or remarks bringing criticism on his handsome head.

A complex fellow is Theodore Samuel Williams, but you can say this for him: He's never dull.

Aces Now Go Into QHL Final Round

TROIS-RIVIERES. — (P) — Quebec Aces took advantage of their scoring opportunities Wednesday night to whip Trois-Rivieres Lions 6-2 and advance into the final series of the Quebec Hockey League.

The victory, before about 3,000 fans, gave the Aces the best-of-seven semi-final in four straight games.

The Aces took the lead after only 10 seconds of play when Joe Crozier's shot from centre ice took a high bounce and went behind Trois-Rivieres goalie Jacques Marotte.

Michel Labadie, Ludger Tremblay and Orval Tessier counted for the Aces in the second and Marcel Bonin notched a pair of unassisted goals in the third. Jean-Paul Bisailon and Rene Pepin accounted for the Lions' scoring.

Quebec now meets the winner of the semi-final series between Chicoutimi and Montreal, which Chicoutimi leads 3-0.

Harry Westwick, Former Member Of Hockey's Silver Seven Of Ottawa Dies; Starred In Lacrosse Also

OTTAWA — (P) — Harry Rat Westwick, one of the few surviving members of an early rough-and-tumble area of Canadian hockey, is dead.

The diminutive rover for the legendary Ottawa Silver Seven died in hospital here Wednesday night at the age of 81.

Most of the members of the team that won the world hockey championship and the Stanley Cup three consecutive years — 1903, 1904 and 1905 — are gone. So are seven-man teams and the forward position Westwick played.

Westwick was also a member of the Ottawa Capitals lacrosse team from 1896 to 1904. The team won three world championships during the period. He also played football with Ottawa Rough Riders.

The father of Bill Westwick, sports editor of the Ottawa Journal, he had his left leg amputated above the knee eight years ago as a result of injuries accumulated during his early years in sport.

At 130-pounds, Westwick was one of the smallest players in the much rougher games of the turn of the century. He thus re-

21st Masters Tournament Opens With World's Greatest Golfers In Search Of Crown; Harvie Ward Is Favorite

AUGUSTA, Ga. (P) — The world's greatest golfers hit off today in the 21st Masters tournament and Harvie Ward Jr. of San Francisco is an extra-strong threat to become the first amateur even to win the championship.

A vote for Ward, U. S. Amateur champion the last two years, was registered by Byron Nelson, a two-time victory playing in the event for the 20th time.

"Harvie is hitting the ball marvelously, the best ever for him, I think," said Nelson. "I don't say I'll take Ward against the field but I'd be inclined to match him with any other player in the tournament."

Nelson indicated this included such favorites as Cary Middlecoff and Ben Hogan, with whom he's had practice rounds this week.

Ward teamed with Nelson in a practice tour Wednesday and shot his second straight 69, three under par, over the 6,980-yard Augusta National course. One hundred golfers, a record

Magog Public Market Inadequate

MAGOG — (Special) — A new market, separate from City Hall, is needed to handle the increasing flow of customers and farmers who use the facilities every week, Roger Boudreau, municipal secretary-treasurer, said recently.

The 57-year-old building housing the market on the ground floor and the town offices in the other storeys, was built to serve 1,500 population which has since leaped to 12,500. Several civic organizations have submitted petitions to the Council to have the situation changed.

Mr. Boudreau estimated that some \$250,000 in trade carried on at the market every year. In 1956 alone, the City collected \$4,433.75 in rentals by charging \$1 a day for outside booths and \$3 inside.

Although health authorities

have described the conditions as satisfactory, there is little doubt that space will become more cramped what with the increased volume of sales.

The market is one of the few places in the Eastern Townships where farmers and independent vendor alike can offer their pro-

R. C. Stokes Again Heads Bury Athletic Assoc.

BURY. — In accordance with its customary procedure at this time, the Bury Athletic Association has begun making plans for the Dominion Day celebration for which this village is renowned. The first meeting of the season was held recently in the Town Hall with a representative attendance of members.

The chief business was the election of officers, resulting as follows: President, Ronald C. Stokes, re-elected; vice-president, William Cook; secretary, Osborne Quinn; treasurer, Wilfred Coates, re-elected.

With R. C. Stokes in the chair, several tentative projects were discussed with a view to adding increased variety and interest to the usually very full program for that day. In consideration of the entertainment for the children some especially interesting possibilities are to be explored. In reviewing the past years' activities of the Association, the skating rink has been operated at a reduction of almost 90 per cent; donated \$25 to Pope Memorial High School to enable the hockey team to visit the Forum in Montreal, and a cup suitably engraved with the names of the players which is to be kept permanently in the school.

As this year marks the 30th anniversary of the formation of the Bury Athletic Association, suitable commemorative features will be incorporated in the program of the day. For more years than most of us can remember, Dominion Day was celebrated here by public spirited citizens of the time. Especially outstanding was the year 1877, when the community was honored by the presence of Prime Minister Sir John A. MacDonald. In July 1927, following a meeting of the Bury Board of Trade, a discussion ensued as to the advisability of organizing some kind of an association devoted to sports, etc. The idea met with an enthusiastic response and the inception of the Bury Athletic Association was the result. The officers elected at that meeting were Col. O. L. Pope, president; Arthur J. Hunt, vice-president; H. L. Ham-
